

MUSIC EDUCATION, MME

for the degree of Master of Music Education in Music Education

The Master of Music Education degree program is designed to meet the needs and interests of individuals who are already certified to teach music and who seek to continue their careers as public school music educators or music administrators. It is also possible to structure a program that will enable individuals interested in seeking careers in education-related fields or as a step in preparation for eventual college teaching.

Although prior teaching experience is not required for this degree program, the graduate study will be more meaningful if teaching experience in the field has first been gained. Therefore, individuals considering pursuing the MME are urged to plan to teach one to three years before initial enrollment or completing the degree. Students interested in gaining certification to teach music as part of the MME should refer to the MME+certification website for information about the MME+Certification Program.

The School of Music has been accredited by the National Association of Schools of Music since 1933.
