SPEECH AND HEARING SCIENCE (SHS)

SHS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SHS)

Courses

SHS 111 Living-Learning ASL Part 1  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/111)
An introductory course in American Sign Language (ASL); no previous knowledge or skills are needed. It is offered through the Living in Residence Program at Allen Hall. The focus is on the acquisition of beginning-level vocabulary items and grammar of ASL. ASL is a non-Indo-European language that uses the visual/manual rather than spoken/auditory modality. Students develop a core vocabulary and basic grammar to enable you to communicate using ASL. The Deaf Community, like other cultural groups, defines a population that shares both a language and pattern of transmission of beliefs and values. The course provides an introduction to the culture, traditions, and values of the Deaf Community.

SHS 112 Living-Learning ASL Part 2  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/112)
The second part of an introductory course in American Sign Language (ASL); some knowledge of and skills in ASL are required. It is offered through the Living in Residence Program at Allen Hall. The focus is on the continued acquisition of beginning-level vocabulary items and grammar of ASL. ASL is a non-Indo-European languages that uses the visual/manual rather than spoken/auditory modality. Students develop core vocabulary and grammar to enable you to communicate using ASL. The Deaf Community, like other cultural groups, defines a population that shares both a language and pattern of transmission of beliefs and values. The course provides further information of the culture, traditions, and values of the Deaf Community.

SHS 120 Child, Comm, & Lang Ability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SHS/120)
Provides an introduction to the study of the human communication and language capacity and includes an overview of three areas of inquiry: language science, language development in children, and language disability in children. This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

SHS 121 American Sign Language I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/121)
This is an introductory course in American Sign Language (ASL). No prior experience with the language is necessary. Students will learn vocabulary, elementary-level grammatical structures, and elements of U.S. Deaf Culture in order to engage in entry-level conversations in ASL. Basic social and communication skills associated with the use of ASL will be emphasized. This course is part of a sequence of courses that will fulfill the foreign language requirement for UIUC undergraduate students. Approved for Letter and S/U grading.

SHS 150 Hearing Processes & Disorders  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SHS/150)
An introduction to basic and clinical aspects of audition and their relevance to communication processes and communication disabilities from biological, humanistic, and technological perspectives. Communication processes and development are explored within historical, behavioral, and scientific frameworks. Hearing disabilities are described according to prevention etiology, manifestation, evaluation and treatment. The effects of disability on individuals and families across the lifespan are also addressed.

SHS 170 Intro Hum Comm Sys & Disorders  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SHS/170)
Examines broad perspectives of theories and information regarding normal and abnormal communication: how speech and language develop, how people hear, how they produce speech and what can go wrong; addresses the impact of speech and hearing science on society, culture, and modern technologies.

SHS 191 Freshmen Seminar  credit: 0 to 9 Hours. (https://courses.illinois.edu/schedule/terms/SHS/191)
Special experimental seminar or independent study course intended to cover topics not treated by regular course offerings; open to undergraduates at any level. Requests for activation of this course may be made by students or by faculty and should be directed to the head of the academic department concerned. Although credit toward graduation is normally granted, credit toward satisfying specific college or departmental requirements is contingent upon approval by the appropriate college or departmental committee. Approved for S/U grading only.

SHS 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/SHS/199)
Approved for letter and S/U grading. May be repeated, if topics vary.

SHS 200 General Phonetics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SHS/200)
Basic principles of phonetic study; includes observation and representation of pronunciation, ear training, and practice in transcription.

SHS 221 American Sign Language II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/221)
This intermediate course in American Sign Language (ASL) is part of a sequence to fulfill the foreign language requirement. Students must have successfully completed SHS 121 or should be able to demonstrate advanced beginner ASL skills. Students will continue to learn vocabulary items and intermediate-level grammatical structures in order to improve conversation skills. As compared to SHS 121, a greater focus is placed on ASL constructions involving the complex use of space (e.g., verb inflections, so-called "classifiers", and constructed action). Same as LING 221. Approved for letter and S/U grading. Prerequisite: SHS 121 or equivalent language skills.
SHS 222  
**Language & Culture of Deaf Communities**  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/222)  
Students will learn about culture and how it is manifested in various subgroups of society with a particular focus on the culture and language of Deaf people in the United States. Themes include: the linguistics of American Sign Language, aspects of social unity for Deaf people, common experiences of Deaf individuals, the educational system and Deaf students, and current issues that affect the Deaf community. For those students requiring 4 semesters of language other than English credit (LAS or BUS), SHS 222 can be used as the fourth course in the American Sign Language sequence that includes SHS 121, 221, and 321 to fulfill that requirement but cannot also then be used for Gen Ed requirements. Same as EPSY 222.  
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci  
Cultural Studies - US Minority

**SHS 231**  
Lang Diff Dis: American Persp  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/231)  
Same as AFRO 231. See AFRO 231.  
This course satisfies the General Education Criteria for: Cultural Studies - US Minority

**SHS 240**  
Intro Sound & Hearing Science  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/240)  
Acoustics, anatomy, and physiology of the auditory system; psychophysical methods; and a consideration of auditory theories and mechanics.

**SHS 270**  
Comm Disability in the Media  
credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/270)  
Introduction to the study of human communication disability across the lifespan as depicted in the media and includes an overview of three areas of inquiry: behavioral/psychosocial impact of communication disability, ethical decisions in rehabilitation interventions, and disability rights.  
This course satisfies the General Education Criteria for: Advanced Composition  
Social Beh Sci - Soc Sci

**SHS 271**  
Communication and Aging  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/271)  
Course introduces social and physical issues of communication and aging, with particular emphasis on intergenerational interactions and on the physical disabilities of aging (e.g., hearing loss, Parkinson’s disease, strokes, dementia). Discourse analysis techniques are used to integrate the social and physical aspects of aging and communication that are discussed in class.  
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

**SHS 280**  
Communication Neuroscience  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/280)  
This course provides an overview of neuroscience with emphasis on human communication, moving from general concepts in neuroanatomy and neurophysiology to the specifics of the neuroscience of hearing, speech and language.

**SHS 291**  
Research Lab Experience in SHS  
credit: 1 to 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/291)  
Supervised participation in research laboratory and scholarly activities, usually as an assistant to an investigator. Approved for S/U grading only. May be repeated in the same or separate terms to a maximum of 6 hours.

**SHS 300**  
Anat & Physiol Spch Mechanism  
credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/300)  
Introduction to the anatomic and physiologic characteristics of the normal speech mechanism. Same as LING 300.

**SHS 301**  
General Speech Science  
credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/301)  
Consideration of the physiology of the speaking act, and the acoustical and perceptual aspects of speech. Same as LING 303.

**SHS 320**  
Development of Spoken Language  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/320)  
Study of the correlates of language development from the prelinguistic period to adulthood.

**SHS 321**  
American Sign Language III  
credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/321)  
This advanced-intermediate course in American Sign Language (ASL) is part of a sequence to fulfill the foreign language requirement. Students must have successfully completed SHS 221 or should be able to demonstrate intermediate ASL conversation skills. Students will learn technical vocabulary items and complex elements of ASL narratives. In this course, students will focus on the fluid use of ASL across various registers and situations. Special emphasis will be placed on receptive fluency of complex constructions in ASL. Same as LING 321. Approved for letter and S/U grading. Prerequisite: SHS 221 or equivalent language skills.

**SHS 352**  
Hearing Health and Society  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/352)  
An analysis of how hearing loss influences behavior of individuals and interactions among individuals within larger social/societal groups across the lifespan. Considers issues associated with early detection of hearing loss and promoting hearing conservation in different environments. Approaches to promoting behaviors that enhance communication in the presence of hearing loss will be explored. Philosophical, policy, and cultural controversies for defining hearing loss as a disability will be examined. Each of these topics will be considered within the interplay between the individual person, culture, age, disability, educational environment, community, and social/family interactions.

**SHS 370**  
Civic Engagement in Wellness  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/370)  
Same as AHS 365, CHLH 365, KIN 365, and RST 365. See KIN 365.

**SHS 375**  
Comm Partners & Health  
credit: 3 Hours.  
(https://courses.illinois.edu/schedule/terms/SHS/375)  
Combines a community-based volunteer experience with class-based readings/discussion to introduce students to the study of communication in context. Students will use learning journals to document their volunteer experiences, describe the characteristics of conversational interactions they observe, and reflect on their own skills as flexible communication partners with people of various backgrounds and abilities and in a variety of clinical and professional settings. Includes a one-hour weekly discussion section (taught by SHS faculty/instructional staff) and three-four hour weekly community volunteer experiences (supervised by volunteer site employees). Same as AHS 375 and KIN 375. May be repeated in separate terms to a maximum of 6 hours.

---

*Information listed in this catalog is current as of 06/2018*
Information listed in this catalog is current as of 06/2018
SHS 475  Prepracticum in SHS  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/475)
A mentoring experience in which students will be paired with clinical instructors in SHS and provided opportunities to observe clinical speech-language pathology and audiology sessions in a variety of settings. Prerequisite: SHS 240 or equivalent.

SHS 477  Beginning Practicum in SHS  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/SHS/477)
Mentored experience in which students are paired with a clinical instructor in SHS and provided opportunities to assist in the ongoing management of clinical cases in a variety of settings. The beginning practicum is designed for students with less than a year of supervised clinical experience (i.e. 100 or fewer contact hours as defined by the American Speech-Language Hearing Assoc.-ASHA). Working with the clinical team, the beginning practicum will provide students with: 1) supported opportunities to assist in all aspects of clinical practice (e.g., diagnosis, intervention, documentation, team meetings/planning); 2) opportunities to obtain supervised contact hours required by ASHA for certification in Speech-Language Pathology or Audiology. 1 to 2 undergraduate hours. No graduate credit. Approved for S/U grading only. May be repeated in the same or separate terms to a maximum of 2 hours.

SHS 500  Exper Phon I Spch Physiol  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/500)
Theoretical consideration of speech as motor behavior, special reference to physiological investigations of normal respiration, phonation, and supralaryngeal articulation; and survey of the experimental literature in articulatory phonetics. Same as LING 575. Prerequisite: Consent of instructor.

SHS 501  Exper Phon II Spch Acous Perc  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/501)
Theoretical consideration of speech as an acoustical phenomenon; special reference to acoustical investigations of the laryngeal source and radiated speech signal; and survey of the experimental literature in acoustic phonetics and speech perception. Same as LING 576. Prerequisite: Consent of instructor.

SHS 510  Advanced Seminar in Stuttering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/510)
Advanced study of stuttering disorders; topics vary, but emphasis is placed on research, measurement, evaluation, and methods. Prerequisite: SHS 410 or consent of instructor.

SHS 511  Assessment and Management of Voice Disorders  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/511)
Study of the anatomy, pathophysiology, etiology, acoustic, and perception of abnormal voice production, including foundational skills for assessment, differential diagnosis, and management of voice disorders. 4 graduate hours. No professional credit. Prerequisite: SHS 300, SHS 301, SHS 411 or equivalent or consent of instructor.

SHS 512  Orofacial Anomalies  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/512)
Evaluation of current theories and intervention research associated with cleft palate and orofacial anomalies. Advanced study and critical analysis of speech, dental, and surgical treatment procedures. Prerequisite: SHS 300, SHS 301 or equivalent or consent of instructor.

SHS 513  Assessment and Management of Dysphagia  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/513)
Study of the anatomy, physiology, and pathophysicsiology of the oral and pharyngeal stages of swallowing and critical review of the research literature pertaining to methods for diagnosis and treatment of dysphagia. Prerequisite: SHS 300 or equivalent and SHS 470, or consent of instructor.

SHS 514  Motor Speech Disorders  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/514)
Study of the etiology and symptomatology of pediatric and adult speech problems resulting from neurological impairment, and critical review of the research literature pertaining to methods for assessment and treatment of these disorders. Prerequisite: SHS 300 or equivalent and SHS 470, or consent of instructor.

SHS 520  Language Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/520)
Study of recent research and theory in neurolinguistics, psycholinguistics, and sociolinguistics. Intensive examination of data collection and analysis procedures in language acquisition, and interpretation of research results relative to different age groups. Implications for clinical practice and clinical research in language disorders are addressed. Prerequisite: SHS 320 or equivalent, or consent of instructor.

SHS 532  Lang Disorders Schl-Age Child  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/532)
Advanced study of the nature of language impairments and language/learning disabilities found in the school-age population, and ramifications for academic success and social development; critical review of theoretical models and empirical evidence of language learning in older children; evaluation of research in the diagnosis and treatment of language impairments in older children. Prerequisite: SHS 320 or equivalent, or consent of instructor.

SHS 533  Advanced Language Diagnostics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/533)
Advanced study of the diagnosis of language disorders in children from infancy through adolescence; particular emphasis on critical evaluation of current methods in assessment, the development of problem-solving skills, and the application of computer technology in language analysis. Prerequisite: SHS 520 or equivalent, or consent of instructor.

SHS 534  Aphasia and Related Disorders  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/534)
Advanced study of the communication disorders resulting from neurological impairments in adults: critical analysis of the research literature, examination of current theories regarding aphasia and related disorders; evaluation of existing paradigms of diagnosis and intervention. Prerequisite: SHS 470 or consent of instructor.

SHS 540  Psychoacoustics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/540)
Advanced study of physical nature of sound and its measurement; theory and practice of psychophysics, including the various aspects of psychoacoustics (sensitivity, masking, loudness, pitch, binaural hearing, speech perception) and the nonlinear nature of the auditory system. Prerequisite: SHS 240 or equivalent.
SHS 541 Clinical Auditory Anat & Phys  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/541)
The objective of the course is for students to gain an understanding of the structure and function of the peripheral and central auditory system from a clinically oriented perspective. Clinically relevant topics on the pathophysiology of the auditory system will be presented. Prerequisite: SHS 240, SHS 450 or equivalent, or consent of instructor.

SHS 550 Assess Audition & Aud Disorder  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/550)
Study of technical and clinical aspects of audiological assessment and auditory disorders; critical analysis of clinical and experimental literature; laboratory experience in audiological assessment techniques. Prerequisite: SHS 240, SHS 450, or equivalent, or consent of instructor.

SHS 551 Electrophys Indices Audition  credit: 4 or 5 Hours. (https://courses.illinois.edu/schedule/terms/SHS/551)
Study of technical and clinical aspects of electrophysiologic measures of audition; critical analysis of clinical and experimental literature; laboratory experience in electrophysiologic techniques. 4 or 5 graduate hours. No professional credit. Prerequisite: SHS 550 or consent of instructor.

SHS 552 Diag Hear Impair Infants Child  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/552)
Study of the major etiologies underlying hearing impairments encountered in the pediatric population, program models for infants and young children at risk for hearing impairment, behavioral and physiologic issues in assessment and evaluation of residual hearing, and selection of hearing aids and other sensory prosthetic devices. Prerequisite: SHS 550.

SHS 553 Hearing Aids and Amplification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/553)
Study of technical and clinical aspects of personal hearing aids and amplification devices; survey of clinical and experimental literature; laboratory experience in electroacoustic and real-ear measurement, earmold impressions and modification procedures, and solving fitting problems. Prerequisite: SHS 550.

SHS 554 Advanced Audiological Assess  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/554)
Seminar on current research in advanced audiology, with emphasis on experimental and clinical protocols involving electrophysiologic and behavioral measures in areas including newborn auditory screening using evoked potentials, intraoperative and intensive care unit monitoring, brain-mapping, event-related potentials, central auditory assessment, and computerized assessment of balance function. Prerequisite: SHS 551 or equivalent, or consent of instructor.

SHS 555 Comm Lang Probs Hear Impaired  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/555)
Advanced course in the problems and procedures involved in the acquisition of language and communication by persons with severe hearing impairment, particularly those with profound prelingual deafness; emphasis on research and measurement in the development of speech, speechreading, residual hearing, reading, written language, and manual communication, including finger spelling and the language of signs; and stress on the applications of recent approaches in linguistics and psycholinguistics to language development. Prerequisite: Consent of instructor.

SHS 556 Sens Prosth Devices Hear Loss  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/556)
Seminar on current research in signal processing approaches and experimental protocols for the development and fitting of hearing aids, tactile aids, cochlear implants, and assistive listening devices. Prerequisite: SHS 553 or consent of instructor.

SHS 557 Adv Clin Prac Aud Assess Rehab  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/SHS/557)
Supervised assessment and management of patients. Includes audiological evaluation techniques; treatment counseling; hearing aid selection, evaluation, and dispensing; and aural rehabilitation therapy. External placement in a variety of sites is available as well as in the departmental Audiology Clinic. May be repeated with approval. Prerequisite: Graduate standing, plus SHS 240, SHS 450, SHS 451, or equivalent coursework and consent of instructor.

SHS 558 Tinnitus  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/558)
This advanced seminar on tinnitus covers the types of tinnitus, pathophysiology of chronic subjective/sensorineural tinnitus, latest research involving both animal and human studies, assessment of tinnitus, and management of tinnitus. It examines the complexity of tinnitus, its consequences for individuals and societies, and how healthcare providers, specifically audiologists, may mitigate its impact. 2 graduate hours. No professional credit. Prerequisite: SHS 541 or consent of instructor. Graduate student status in Speech and Hearing Science or consent of instructor.

SHS 559 Hearing Conservation  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/559)
Study of hearing conservation programs in various settings; study of auditory and non-auditory effects of noise; study of standards and regulations for hearing conservation programs. 2 graduate hours. No professional credit. Prerequisite: Consent of instructor. Restricted to graduate students only.

SHS 560 Audiological Assessment Lab  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/560)
Clinical laboratory experience in audiological assessment including the evaluation, identification, diagnosis and treatment of hearing loss. Patient counseling and case history intake skills are addressed. Prerequisite: SHS 550 or concurrent enrollment in SHS 550.

SHS 561 Medical Audiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/561)
Students will gain in-depth knowledge of the etiology, prevention, identification, diagnosis, and management of auditory disorders, with focus on pathophysiology, ototoxicity, and genetic influences. 4 graduate hours. No professional credit. Prerequisite: SHS 541 and SHS 550 or consent of instructor. Graduate students only.

SHS 563 Amplification Lab  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/563)
Clinical laboratory experience in the selection, testing, fitting and maintenance of current technology amplification devices. Prerequisite: Concurrent enrollment in SHS 553.
SHS 564  Vestibular Assessment and Rehabilitation  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/564))

This course on vestibular assessment and rehabilitation covers the anatomy and physiology of the vestibular system, common vestibular disorders and other causes of dizziness, bedside examination of the dizzy patient, administration and interpretation of vestibular tests including videonystagmography (VNG) and electronystagmography (ENG). It will also cover the role of audiologists and other health care professionals in the assessment and management of dizzy patients, and vestibular rehabilitation. 4 graduate hours. No professional credit. Prerequisite: Graduate student status or consent of instructor.

SHS 565  Teaching in the Professoriate  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/565))

Same as CHLH 565, KIN 565, RST 565. See KIN 565.

SHS 570  Quant Reasoning Spch Hear Sci  credit: 2 or 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/570))

Introduction to experimental designs and methods of statistical analysis in speech and hearing research. Prerequisite: Consent of instructor.

SHS 571  Clinical Sociolinguistics  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/571))

Clinical application of sociolinguistic concepts for communicatively impaired populations. Focuses on language difference, and utilizes technological strategies needed for assessment and intervention with linguistically diverse populations. Includes computer analysis of talk data from language disordered and linguistically different speakers. Prerequisite: Consent of instructor.

SHS 572  Counseling in Comm Disorders  credit: 2 to 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/572))

Focuses on counseling principles, theories, and methods useful to the speech-language pathologist and audiologist when working with communication disordered individuals and their families. Issues related to ethics, values, grief, culture, family systems, the impact of disability, referral sources and techniques for interviewing and counseling are discussed. Prerequisite: Consent of instructor.

SHS 575  School Spch-Lang Clin Methods  credit: 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/575))

Study of methods and materials used in the schools by the speech and language clinician. Approved for S/U grading only. Prerequisite: Consent of instructor.

SHS 576  School Intrnshp Spch-Lang Path  credit: 4 to 8 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/576))

The student is assigned to a school-based speech-language pathologist for a practical learning experience in P-12 schools full-time for 8-16 weeks. The student is expected to apply knowledge learned in the academic and clinical portions of their program to the entire school caseload by the end of this experience. Approved for letter and S/U grading. May be repeated to a maximum of 8 graduate hours. Prerequisite: Forty graduate hours of coursework including a minimum of 6 graduate hours of clinical practicum in SHS 475 C, D, or E, or consent of instructor.

SHS 577  Advanced Practicum in SHS  credit: 1 to 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/577))

A mentored experience in which students are paired with a clinical instructor in SHS and provided opportunities to assist and take leadership roles in the ongoing management of clinical cases in a variety of settings. The advanced practicum is designed for students with more than a year of supervised clinical experience (i.e., more than 100 contact hours as defined by the American Speech-Language and Hearing Association-ASHA). Working within a clinical team, the advanced practicum will provide students with: 1) supported opportunities to assist in all aspects of clinical practice (e.g., diagnosis, intervention, documentation, team meetings/planning); 2) take lead clinician and/or case management roles for some cases; 3) opportunities to obtain supervised contact hours required by the ASHA for certification in Speech-Language Pathology or Audiology. May be repeated with approval. Prerequisite: SHS 477.

SHS 579  Prof/Eth/Legal Issues AuD/SLP  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/579))

Emphasis will be placed on issues on ethical and professional integrity in speech and hearing clinical practice, including certification and licensure, quality assurance, evidence based practice, and health care and reimbursement. Prerequisite: SHS 555 or SHS 557.

SHS 580  Cochlear Implants  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/580))

Focuses on current cochlear implant technologies, principles of evidence-based practice of cochlear implant assessment and intervention by audiologists and speech-language pathologists, and empirical outcomes for children and adults. 4 graduate hours. No professional credit. Prerequisite: Graduate standing in the Department of Speech and Hearing Science.

SHS 581  Auditory Processing Disorders  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/581))

Study of experimental and clinical aspects of auditory processing disorders; critical analysis of clinical and experimental literature; laboratory experience in auditory processing assessment techniques. 3 graduate hours. No professional credit. Prerequisite: Consent of instructor. Restricted to graduate students.

SHS 586  Adv Sem Development Com Dis  credit: 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/586))

Study of theoretical and empirical research in typical and atypical developmental aspects of children’s communication. Students will critically analyze and interpret the extant literature; lead seminar discussions and write scholarly reviews; and/or design original research projects. Specific topics will vary and be announced in the Class Schedule. 2 graduate hours. No professional credit. Approved for letter and S/U grading. May be repeated in separate terms, if topics vary.

SHS 587  Advanced Seminar in Acquired Communication Disorders  credit: 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/SHS/587))

Study of theoretical and empirical research in acquired communication disorders in adulthood. Students will critically analyze and interpret the extant literature; lead seminar discussions and write scholarly reviews; and/or design original research projects. Specific topics will vary and be announced in the Class Schedule. 2 graduate hours. No professional credit. Approved for letter and S/U grading. May be repeated in separate terms, if topics vary.
SHS 588  Adv Sem Neural Bases Com Dis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SHS/588)
Study of theoretical and empirical research in the neural bases of speech, language, hearing, cognitive, and/or swallowing disorders in pediatric and adult populations. Students will critically analyze and interpret the extant literature; lead seminar discussions and write scholarly reviews; and/or design original research projects. Specific topics will vary and be announced in the Class Schedule. 2 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms, if topics vary.

SHS 590  History of CSD  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/590)
This doctoral seminar explores the evolution of the field of Communication Sciences and Disorders (CSD) by examining: 1) the historical research base of the field; 2) critical research and practice issues that have emerged across the history of field; and 3) the contributions of key figures in the field. The course is designed to help students understand how the discipline has been organized and where their own research interests fit with the respect to the history of the discipline. Prerequisite: Doctoral students in SHS or consent of instructor.

SHS 592  Prosem Spch & Hear Sci  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/SHS/592)
Required seminar for all graduate students; involves reporting of ongoing research of faculty, visiting researchers, and students as well as discussion of topics related to professional and academic research careers. Approved for S/U grading only. May be repeated up to 4 credit hours toward degree requirements as topics vary.

SHS 593  Special Problems  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/SHS/593)
Investigative projects in speech and hearing not including theses. 1 to 8 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

SHS 594  PhD Early Research Project  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SHS/594)
This mentored research experience provides individualized opportunities for PhD students to conduct research projects under the direction of their faculty mentors/advisors. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 hours.

SHS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/SHS/599)
Individual research in the various areas of speech and hearing science. Approved for S/U grading only. May be repeated.
