SCHOOL OF ARCHITECTURE

Jeffery Poss, Interim Director
117 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820
PH: (217) 333-1330, (G) (217) 244-4384 (U) (217) 333-7720

At Illinois, we are an internationally recognized leader in educating future professionals and scholars in architecture and allied fields. We provide a robust technical and conceptual program that enables students to create and innovate. The depth and breadth of our curriculum enables students to become leaders in a range of disciplinary specialties. Our comprehensive programs prepare students to design and research in a rapidly changing global context from the macro to the micro scale through our bachelors, masters, and doctoral degrees.

Degree Programs in Architecture

Contact: Carl Lewis, Undergraduate Student Services
School Office: 117 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820, (217) 333-7720, rfrank@illinois.edu

The School of Architecture offers a four-year pre-professional curriculum leading to the Bachelor of Science in Architectural Studies (BSAS) degree as well as a minor in Architectural Studies. The BS in Architectural Studies degree provides an undergraduate academic education in architecture that can serve as a foundation for advanced professional education. The undergraduate curriculum offers an appropriate balance of basic professional studies in architectural design, architectural history, practice and technology, structures, and studies in the arts and sciences.

The following statement is from the National Architectural Accrediting Board (NAAB):

"In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree."

The University of Illinois at Urbana-Champaign, College of Fine and Applied Arts, School of Architecture offers the following NAAB-accredited degree programs:

Master of Architecture (Pre-professional undergraduate degrees + 62 graduate credits)

Next accreditation visit for all programs: 2023

The NAAB Conditions for Accreditation (including Student Performance Criteria) may be found on the NAAB Web site (http://www.naab.org).

Since 1967, the School of Architecture operates a full academic-year study abroad program in Barcelona, Spain, which is open to qualified students on a priority basis. Course offerings parallel those available to students on the Urbana-Champaign campus but stress the European context.

director of undergraduate studies: Carl Lewis, Undergraduate Student Services
undergraduate office: 117 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820, (217) 333-7720,
undergraduate email: rfrank@illinois.edu (http://catalog.illinois.edu/faa/architecture/rfrank@illinois.edu)

Undergraduate Programs:

major: Architectural Studies, BS (http://catalog.illinois.edu/undergraduate/faa/architectural-studies-bs)
minor: Architectural Studies (http://catalog.illinois.edu/undergraduate/faa/minors/architectural-studies)

director of graduate studies: Randy Deutsch
graduate office: 117 Temple Hoyne Buell Hall
611 Taft Drive
Champaign, IL 61820

phone: (217) 244-4723

Information listed in this catalog is current as of 04/2019
Graduate Programs:
  degree: Architecture, MArch (http://catalog.illinois.edu/graduate/graduate-majors/architecture/marc-pro-degree)
  concentrations: Medieval Studies (http://catalog.illinois.edu/graduate/graduate-majors/medieval-studies/#concentrationtext) (MArch & PhD)
  degree: Architecture, PhD (http://catalog.illinois.edu/graduate/graduate-majors/architecture/conc-structures-ms-arch-sci) (MS)
  joint degree programs: (http://catalog.illinois.edu/graduate/graduate-majors/architecture/architecture-joint-degrees) the master of Architecture can be earned jointly with the following degrees offered:
  Masters in Architectural Studies
  Masters in Business Administration
  Masters in Computer Science
  Masters in Urban Planning
  Master of Science in Civil Engineering (Construction Engineering and Management) or (Structures)

ARCH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/ARCH)

Courses
ARCH 101  Introduction to Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/101)
An introduction to architecture, architectural education and the profession with emphasis on issues that influence architecture and the people and processes involved.

ARCH 164  Architecture as a Second Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/164)
The conceptual toolbox used by architects, and the tools in it, are unique and used by architects in both expected and unexpected situations. These tools can be thought of as a second language. Architecture as a Second Language is a hands-on, experiential online course that immerses students in challenging activities similar to those architects face. The course helps develop new perspectives, capabilities, and insights that can be applied to any calling or discipline. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ARCH 171  Concepts and Theories of Architectural Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/171)
This course introduces basic theories of architecture. It creates awareness of design concepts. Course content is arranged in three topical areas: Architecture and People, Architecture and Place, and Making Architecture. Each topical area addresses roles of designers and architects in contemporary and historical perspectives.

ARCH 172  Drawing and Modeling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/172)
Introduction to the architectural graphic communication skills that architects use to visualize, analyze, and record creative thoughts: freehand sketching, architectural delineation, and digital applications.

ARCH 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/199)
May be repeated.

ARCH 210  Introduction to the History of World Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/210)
An introduction to the history of World Architecture, Urbanism, and the built environment from pre-history to the present; in addition to examining the formal properties of global architecture, this course explores buildings and cities in their cultural, social, political, and religious contexts. Prerequisite: Sophomore standing or consent of instructor.

ARCH 222  Islamic Gardens & Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/222)
Same as LA 222. See LA 222. This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

ARCH 231  Anatomy of Buildings  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/231)
A holistic approach to the introduction of architectural technology. Enabling students to integrate technical material with design, this lecture/lab course addresses building codes, zoning, construction documentation and delivery, digital fabrication, and the impact of energy, sustainability, and environmental forces on building construction, comparing general principles of light frame and heavy construction materials, components, and systems. Students learn how to build virtually and physically, understanding the roles design and construction professionals play on integrated teams.

ARCH 232  Structural Fundamentals  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/232)
The study of forces, their distribution, and their impact on building structure. Topics include: equilibrium of rigid bodies in two and three dimensions; trusses; shear and bending moments in beams; arches and frames; stresses, strains, and deformations in axially loaded members; direct shear and bearing stresses; torsion; beam stresses and deflections; introduction to the design of structural members; and architectural applications. Prerequisite: MATH 220 or MATH 221, and MATH 231 or PHYS 101.

ARCH 273  Anatomy of Buildings  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/273)
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ARCH 274  Representation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/274)
Develops understanding of the representation of ideas, values, and meaning in the built environment. Focuses on three topic areas: analysis, technical communication, and modeling. Exposure to multiple software tools and mastery of basic skills in each.
ARCH 300  Ind Studies in Urban Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/300)
The individual study of selected topics involving the history, design, and function of significant European cities. Prerequisite: One year of history of architecture or Art History; consent of instructor.

ARCH 314  History of World Landscapes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/314)
Same as LA 314. See LA 314.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

ARCH 321  Environment, Architecture, and Global Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/321)
This course surveys current research at the intersection of the built environment, health, and well-being. It emphasizes relationships among people and multiple scales of the environments they inhabit and the health and well-being consequences of these relationships. It comparatively examines these relationships within a broad range of Western and Non-Western cultures and contexts by introducing significant historical and contemporary theories, data of relevance, research processes, and applications in environmental design and planning processes. To improve person-environment fit, the roles of social groups, institutions, and organizations in the person-environment-health/well-being nexus within various cultural and geographic contexts are examined and compared.

ARCH 341  Environment Tech HVAC  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/341)
Study of the control of thermal environment, mechanical and related building sub-systems, and their integration into the overall building design. The specific topics include: thermal comfort and behavioral implications; fundamentals of thermal behavior of buildings; the principles of heat and moisture in buildings; indoor air quality and "Sick Building Syndrome"; energy and sustainability implications of building design; and mechanical systems including HVAC and plumbing systems. Prerequisite: ARCH 233.

ARCH 342  Environment Tech Ltg & Acoust  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/342)
Study of the control of luminous and sonic environments, the supporting building systems, and their integration into the overall building design. Specific topics include: lighting fundamentals; light sources; effects of lighting on comfort and performance; lighting calculations and design; energy economy and sustainability; acoustic fundamentals; room acoustics; noise control; and basic electrical and sound systems. Prerequisite: ARCH 233.

ARCH 351  Statics & Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/351)
Study of equilibrium of rigid bodies in two and three dimensions; trusses; shear and bending moments in beams; arches and frames; cables; friction; introduction to dynamics; architectural applications. Prerequisite: MATH 220 or MATH 221; and MATH 231 or PHYS 101.

ARCH 352  Mech of Mat & Design Appl  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/352)
Study of stresses, strains, and deformations in axially loaded members; direct shear and bearing stresses; torsion; beam stresses and deflections; stresses under combined loading; column buckling; design of structural members; introduction to statically indeterminate structures; architectural applications. Prerequisite: ARCH 351.

ARCH 371  Architectural Design and Urbanism  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/371)
Building design in urban settings; including introductory urban design and site planning issues; urban zoning requirements; human-built environment relationships; life safety requirements; universal design and accessibility; architectural design methods and presentation techniques; required field trips. Prerequisite: ARCH 171, ARCH 172, ARCH 273, ARCH 274, or Consent of Instructor.

ARCH 372  Designing for Human Well-being  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/372)
This course focuses on person-environment relationships to improve the well-being outcomes of design. Students explore nested environmental scales, human and built context, natural environment systems, cultural perspectives, multi-sensory perception, and widely accessible, enabling and inclusive environments. This course introduces design projects as discrete places, both within and influenced by broader physical, social, cultural, and economic systems. This class requires field trips. Prerequisite: ARCH 171, 172, 273, 274, 321, 371 or consent of Instructor. Course restricted to BSAS majors with junior standing or above.

ARCH 399  Study in Versailles, France  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/399)
Study in the University of Illinois Architectural Program at Versailles, France. Approved for S/U grading only. Prerequisite: Concurrent registration in the Versailles, France Study Abroad Program.

ARCH 400  Senior Honors in Architecture  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/400)
For candidates for honors in Architecture. Independent guided study and research in a selected area of architecture. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours with consent of Director of School. Prerequisite: Senior standing in architecture, a University grade-point average of 3.0 or, in special cases, consent of Director of School.

ARCH 401  Independent Study  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/401)
Independent guided study and investigation in a selected area of architecture. 0 to 4 undergraduate hours. 0 to 4 graduate hours. Approved for both letter and S/U grading. May be repeated. Prerequisite: Junior standing in architecture, written proposal approved by a sponsoring faculty member and the approval of the Director of the School.

ARCH 402  Introduction to the History of Architectural Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/402)
Architectural theory, criticism, and historiography from antiquity to the present. Based on close readings of texts from antiquity to the present day. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210 or consent of instructor.

ARCH 403  Special Topics in Architectural History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/403)
Special topics in Architectural History courses. Topics and subject matter to be published in course listings. 3 undergraduate hours. 3 graduate hours. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: ARCH 210 or consent of instructor.
ARCH 407 Rome: City of Visible History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/407)
While primarily associated in popular imagination with its ancient, medieval, and Renaissance past, Rome is a vital, changing, and challenging contemporary city. Rome's many layers show the intersection of multiple periods of architecture and the effects of politics, economics, religion, and culture on the urban context. This course considers the city of Rome from its foundation until today, using critical strategies for understanding urban environments as well as individual monuments. We will employ a variety of evidentiary materials: individual monuments, maps, photographs, prints, primary texts, and films. 3 undergraduate hours. 3 graduate hours. Prerequisite: Sophomore standing.

ARCH 409 Special Topics in Spanish Arch  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/409)
Explores aspects of the architecture and urban design from Spain from antiquity until the present. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: ARCH 210.

ARCH 410 Ancient Egyptian & Greek Arch  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/410)
Architecture and urban form in Egypt and the Greek world through the Hellenistic period. Same as CLCV 410. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210, ARTH 111 or CLCV 131.

ARCH 411 Ancient Roman Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/411)
Architecture and urban form in the ancient Roman world from the Etruscans to Late Antiquity. Same as CLCV 411. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210, ARTH 111, CLCV 131, or CLCV 132.

ARCH 412 Medieval Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/412)
This course introduces the architecture, monumental arts, and urbanism of Byzantium and medieval western Europe from c. 300-1500, using a comparative approach. We will learn about Byzantium's domed churches and robust cities, Europe's Romanesque monasteries and pilgrimage destinations, and its soaring Gothic cathedrals, fortresses, and cities. It integrates architecture with the study of the roles of secular and ecclesiastical authority, design and technological developments, religious performance and observance, warfare and trade between regions, and developing urbanism. Same as MDVL 412. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210 or ARTH 111.

ARCH 413 Renaissance Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/413)
Developments in architecture, urban design, and landscape architecture in Italy and western Europe in the fifteenth through the sixteenth centuries. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210, ARTH 112, or consent of instructor.

ARCH 414 Baroque & Rococo Arch  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/414)
Developments in architecture, urban design, and garden art in Italy, France, Germany, and England in the seventeenth and eighteenth centuries. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210, ARTH 112, or consent of instructor.

ARCH 415 Modernity’s Mirror: Nineteenth-Century Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/415)
The course examines architecture and urbanism in the long nineteenth century (c1750-1900), focusing on Europe and North America. Significant attention will be paid to architectural responses to rapid technological and social changes, including industrialization and the rise of consumer culture, nationalism and colonialism, migration and urbanization, and changes to class and gender norms. We will also consider ancient and medieval architectural revivalism as anchors for political, social, and cultural meaning in the modern world. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210 or ARTH 112, or consent of instructor.

ARCH 416 Modern American Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/416)
Development of American architecture and urban planning from the seventeenth century to the present. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210, ARTH 112, or consent of instructor.

ARCH 417 Modern and Contemporary Global Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/417)
This course surveys the comparative history of world architecture and urbanism from c1900 to the present, including Modernist, postmodernist and contemporary architectures. Themes include the rise of new typologies, materials and techniques; the centrality of utopian thought, both built and imagined; architecture's role in forging emerging national and postcolonial identities; architecture as visual communication; the rise of spectacle and the privatization of public space; adaptive reuse and emerging discourses of sustainability. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210 or ARTH 112, or consent of instructor.

ARCH 418 History of the Urban Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/418)
Examines the evolution of town planning and urban design from prehistory to the present; studies cultural and technical advancements affecting the form of the urban environment. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARCH 210 or consent of instructor.

ARCH 419 Historic Building Preservation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/419)
Introduces historic preservation: legal, financial, and administrative assistance, graphic examination of restored buildings and sites, and application of conservation technology. 3 undergraduate hours. 3 graduate hours.

ARCH 423 Soc/Beh Factors for Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/423)
Research-oriented introduction to existing social and behavioral knowledge, methods, and tools for relating man to his physical and social environment, with implications for theories and a philosophy of architectural design. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of instructor.

ARCH 424 Gender & Race in Contemp Arch  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/424)
Analyzes how the built environment reflects social attitudes towards gender and race. Identifies the work of women and people of color in architecture and related disciplines as consumers, critics, and creators of the environment. Provides links with valuable professional networks in Chicago and elsewhere. Same as GWS 424. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of instructor.
ARCH 433  Design of Steel and Reinforced Concrete Structures  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/433)
Loads and load combinations; design methods/structural safety; steel as a structural material; design of structural steel members subject to tension, compression, bending, shear, and combined forces as well as bolted and welded joints. Reinforced concrete as a structural material; transformed sections; design for bending, shear, and serviceability; design of one-way slabs and columns. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ARCH 433 and ARCH 451; credit is not given for both ARCH 433 and ARCH 452. Prerequisite: ARCH 232.

ARCH 434  Environmental Control Systems I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/434)
Study of the control of thermal, luminous, and sonic environments with an emphasis on passive means of controls. Specific topics include: thermal comfort and behavioral implications; fundamentals of thermal behavior of buildings; the principles of heat and moisture in buildings; lighting fundamentals; light sources; effects of lighting on comfort and performance; energy economy and sustainability; acoustic fundamentals; room acoustics; noise control; basic electrical, plumbing, vertical transportation, and life safety systems. 5 undergraduate hours. 5 graduate hours.

ARCH 435  Structural Systems and Construction Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/435)
Presents a unified approach to architectural structures and construction technology to enable students to integrate design, engineering, and construction, while providing an understanding of how material/component/system decisions impact the work of architects, engineers, and constructors. Using a series of case-studies and project-based assignments, students learn about the various structural systems and construction methods used in the design of buildings. The evolution and state-of-the-art in structure and construction strategies will be discussed to provide requisite breadth and depth. Topics covered include: structural and building codes; structural systems and their layout planning; foundation systems; construction methods and technologies in wood, steel, concrete, and masonry; sustainability considerations; detailing; and digital modeling. 4 undergraduate hours. 4 graduate hours. Prerequisite: ARCH 231 and ARCH 232.

ARCH 441  Heat and Moisture in Buildings  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/441)
Provides information and skills necessary for the designer to deliver dry, durable and healthful buildings. First half covers concepts, including heat transfer, psychrometrics, steady-state diffusion and conduction analysis, and transient analysis. Second half covers building applications: roofs, walls, windows, foundations, and mechanical systems. 3 graduate hours. 3 undergraduate hours. Prerequisite: ARCH 341 or equivalent.

ARCH 451  Theory & Design Steel & Timber  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/451)
Analysis and design of steel and timber structures for buildings. Steel columns, beams, trusses, connections, roof and floor framing systems; timber beams, columns, roof and floor framing systems. 4 undergraduate hours. 4 graduate hours. Prerequisite: ARCH 352.

ARCH 452  Theory of Reinforced Concrete  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/452)
Concrete materials; behavior of reinforced concrete construction; behavior and design of structural elements, one-way slabs, beams, and girders; columns; ACI code requirements; and introduction to continuity in reinforced concrete structures. Course Information: 4 undergraduate hours. 4 graduate hours. Prerequisite: ARCH 352.

ARCH 460  International Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/460)
Interdisciplinary opportunity to focus on, study, and record the design and planning of cities and rural settlements in other cultures. Through directed study and participation in the intellectual environment of a foreign university, students analyze unfamiliar settings, developing insights to enrich their professional development. 4 undergraduate hours. 4 graduate hours. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Junior standing or higher in the School of Architecture, Department of Landscape Architecture, or the Department of Urban and Regional Planning.

ARCH 461  Critical Travel Documentation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/461)
Modern and historic city forms and rural practices are analyzed while experiencing the realities of daily life traveling in another culture. Journals include drawings and writings that record buildings, environs, and landscapes. 4 undergraduate hours. 4 graduate hours. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Junior standing or higher in the School of Architecture, the Department of Landscape Architecture, or the Department of Urban and Regional Planning.

ARCH 468  Overseas Architectural Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/468)
This course is designed to enrich the professional development of students in a study abroad location. Students participate in thematic workshops, seminars, lectures and field trips focused on understanding and analyzing architectural and urbanistic landmarks and settings on site through both directed and independent assignments. 3 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Senior standing in the School of Architecture.

ARCH 471  Fundamentals of Arch Design  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/471)
Basic architectural design methods, fundamentals, principles and concepts including creative problem solving in two- and three-dimensions. 6 undergraduate hours. 6 graduate hours. Prerequisite: Limited graduate standing in Architecture and concurrent enrollment in ARCH 231.

ARCH 472  Arch Des in Landscape & Cities  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/472)
Intermediate architectural design methods, fundamentals, principles and concepts focusing on buildings in landscape and urban contexts. 6 undergraduate hours. 6 graduate hours. Prerequisite: ARCH 471 and concurrent enrollment in ARCH 233.

ARCH 473  Architectural Design and Performance  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/473)
Schematic design and development of a small-scale public building emphasizing the integration of the basic elements of building: materials, details, structure, technology, program, life safety, and universal design. 6 undergraduate hours. 6 graduate hours. Prerequisite: ARCH 371 and ARCH 372.

ARCH 474  Architectural Design and Making  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/474)
Building design that emphasizes the creative process of making, experimentation, and theories of contemporary methods and materials. Projects focus on translating design ideas at multiple scales into reality through computation, representation, or production, utilizing fabrication processes. Outcomes foreground entrepreneurial design thinking and team-based learning. 6 undergraduate hours. 6 graduate hours. Prerequisite: ARCH 473.
ARCH 475  Arch Design & Development  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/475)
Schematic design and development of a small-scale public building emphasizing the integration of the basic elements of building; materials, details, structure, technology, program, life safety, and universal design. 6 undergraduate hours. 6 graduate hours. Prerequisite: ARCH 374 or ARCH 472.

ARCH 476  Arch Design & Exploration  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/476)
Exploration of boundaries of architecture and the built environment. Focused exploration into specific design topics, such as issue-oriented building problems, urban design theory, intermediate building design and site planning theory, human-environment relationship theory, interdisciplinary design, and architectural design and presentation methods. 4 undergraduate hours. 4 graduate hours. Prerequisite: ARCH 475.

ARCH 490  Special Topics in Contemporary Architecture  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/490)
Selected topics in and applications of contemporary architecture; see Class Schedule or department office for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in separate terms up to 12 undergraduate hours or 8 graduate hours, if topics vary. Prerequisite: Consent of instructor. For majors only.

ARCH 491  Arch Professional Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/491)
Full-time or part-time professionally supervised field experience in design intended to introduce students to the practice of architecture in a commercial firm or agency of government. Students work in the school-approved firm or agency of their choice. Written work reports and reflective experiential learning reports are required. 0 undergraduate hours. 0 graduate hours. Approved for S/U grading only. May be repeated in separate terms a maximum of 3 times. Prerequisite: Graduate standing or upper-level undergraduate standing, or consent of instructor. For students enrolled in the BSAS and M.Arch. programs of study only.

ARCH 498  Directed Research in Arch  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/498)
Participation in on-going research projects which may include energy management, environmental perception, facilities development, building science, and other topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Approval of written proposal by instructor and Director of School.

ARCH 499  Off-Campus Study  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/499)
Provides opportunity for approved off-campus study. Detailed proposal for study off campus must be submitted for approval to the appropriate committee in the School prior to such study. Final determination of credit and its application toward the degree is made after a review of the student's off-campus work by the above committee and the Director of School. 0 to 12 undergraduate hours. 0 to 12 graduate hours. Approved for both letter and S/U grading. Prerequisite: Senior or graduate standing in architecture and approval of program prior to registration.

ARCH 501  Architectural Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/501)
Role of the architect in the building enterprise, professional ethics, and the conduct of professional practice; legal aspects of architectural practice and building construction; introduction of business management, marketing, operational procedures, financial planning, and cost control of architectural practices; and the administration of construction contracts. Prerequisite: Graduate standing or consent of instructor.

ARCH 502  Structural Planning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/502)
General problems in the selection and design of structural systems for buildings; methods of analysis; site explorations, soils, and foundations; bracing; and special systems. Prerequisite: ARCH 451 and ARCH 452.

ARCH 510  History of World Landscapes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/510)
Same as LA 513. See LA 513.

ARCH 511  Seminar in Ancient Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/511)
Seminar on topics in ancient architecture. 3 graduate hours. No professional credit. Prerequisite: ARCH 410, ARCH 411, or equivalent as determined by the instructor.

ARCH 512  Seminar in Medieval Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/512)
Seminar on topics in medieval architecture and urbanism. Same as MDVL 512. 3 graduate hours. No professional credit. May be repeated to a maximum of 12 hours in separate terms. Prerequisite: ARCH 411, ARCH 412, or equivalent as determined by the instructor.

ARCH 513  Seminar in Renaissance & Baroque Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/513)
Seminar on topics in European architecture from the fifteenth through the eighteenth centuries. Prerequisite: ARCH 413 and ARCH 414, or equivalent as determined by the instructor.

ARCH 516  Seminar in Modern Arch History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/516)
Seminar on topics in architectural history from 1800 to the present. 3 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: ARCH 415, ARCH 416, or ARCH 417.

ARCH 517  Modern Architectural History, 1850-Present  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/517)
This course is a survey of significant buildings, movements, and figures of modern and contemporary architecture, contextualized in the social, cultural, political, economic, and technological developments of their time. It outlines the development of Modernist, postmodernist, and contemporary architectural thought. Key themes include industrialization and modernization, the development of global Modernisms and postmodernism in the twentieth-century, regionalism, globalization, the sustainability movement, and the development of digital technologies in architecture. 3 graduate hours. No professional credit.

ARCH 518  Recording Historic Buildings  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/518)
Examines techniques for recording historic buildings and sites: measuring, photographing, and drawing to Historic American Building Survey standards; taking field notes and investigating public records to document reports. Prerequisite: ARCH 419 and demonstrated ability in architectural graphics; or consent of instructor.
ARCH 519  Conser of Building Materials  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/519)
Examination, analysis, and pathologies of building materials and techniques for treatment and repair of historic buildings. Emphasis is on conservation of traditional masonry, concrete, and metals. Field trips and lab work. To receive 4 hours credit, students must participate in lab. Prerequisite: ARCH 419.

ARCH 521  Advanced Applications in the Built Environment, Architecture and Global Health and Well-Being  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/521)
This course addresses topics at the intersection of environmental conditions and human health around the globe and engages students in reading, discussing, and applying the results of the latest research and translational studies linking environmental design to health in a range of diverse cultural contexts. Students consider the application of research to everyday practices and decision making, as well as to professional design, planning, and community health practices and engage in a secondary-source research project. 4 graduate hours. No professional credit. Prerequisite: Restricted to graduate students.

ARCH 530  Management in Architecture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/530)
Study of management and business administration topics relevant to the architecture profession. The application of: marketing, ethics, accounting, organizational behavior, quantitative analysis, finance, operations, economics, and strategic planning to the field of architecture. Management and economic issues that influence and motivate commercial, industrial, institutional, and individual clients are addressed. Prerequisite: Graduate standing in Architecture.

ARCH 534  Building Economics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/534)
Study of factors affecting cost of building including: the building market, construction cost, estimates and cost control, time value of money and building life-cycle cost, measuring the worth of investments, depreciation and tax consideration of cash-flows. Prerequisite: Graduate standing or consent of instructor.

ARCH 536  Planning and Design of Structural Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/536)
This course addresses the selection, planning, and preliminary design of structural systems for buildings. Emphasis is on understanding structural systems and their components as part of an integrated building system. Topics covered include a review of concepts from statics and strength of materials, structural requirements of strength-stiffness-stability, structural planning considerations, gravity loads and systems, lateral loads and systems, soils and foundations, and cable-net and other facade systems. 4 graduate hours. No professional credit. Prerequisite: ARCH 232 and ARCH 433 or consent of instructor.

ARCH 537  Environmental Control Systems II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/537)
This course investigates the control of thermal and luminous environments with an emphasis on active means of controls and building envelope design. Specific topics include: heating and cooling load and energy calculations; primary (boilers, chillers, etc.) and secondary (comfort delivery) mechanical systems; indoor air quality; energy, lighting, and daylighting codes and metrics; electric lighting properties, selection, design, and calculations; advanced daylighting strategies and calculations; visual comfort assessment; curtain wall and masonry systems; and rain screen principles. 4 graduate hours. No professional credit. Prerequisite: ARCH 434 or consent of instructor.

ARCH 538  Econ Issues in Arch Develop  credit: 4 or 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/538)
Individual and team analysis of architectural development proposals addressing relevant economic topics and trends. Proposals are analyzed for development, construction, finance, operation, and sale costs. Potential and projected rate of return on investment is established for specific time periods. Economic and social forces impacting upon real estate values are examined. 4 or 6 graduate hours. No professional credit. Prerequisite: ARCH 501, ARCH 530, and ARCH 534; or consent of instructor.

ARCH 544  Bldg Sys & Design Integration  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/544)
Advanced course on building design for greater performance, including the study of: the anatomical and functional variations of building subsystems and their design implications; inter-system relationships and synergistic integration of building subsystems into the overall building; and the strategies for designing buildings of high functional performance and greater overall value. Term paper is required for 4 hours credit. Prerequisite: Graduate standing in Architecture or consent of instructor.

ARCH 545  Design & Constructability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/545)
Advanced course on building design for greater constructability, including material alternatives and their architectural, performance, and construction implications; the implications of the specifics of design on the range of applicable construction methods, and therefore, on construction productivity and economy; and the strategies for designing buildings of high constructability and greater overall value. Term paper is required for 4 hours credit. Prerequisite: ARCH 544 or consent of instructor.

ARCH 546  Programming & Concept Studio  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/546)
An advanced course on programming architectural projects and developing design concepts to best meet the project goals and maximize value creation. Investigation of relevant issues and appropriate methods of programming and concept development are followed by programming and design exercises. The specific contents include: theories and methods of programming; general program requirements and exemplary design responses for selected major building types; testing of the viability of selected model programs through exploration of appropriate design responses; further enhancement of the subject programs in light of such explorations; and investigation and development of philosophically sound and operationally efficient methods of programming and design. May not be repeated for credit. Prerequisite: Graduate standing in architecture and consent of instructor.

ARCH 547  Architectural Practice Studio  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/547)
Comprehensive building design with emphasis on holistic design integration for optimum performance and constructability with best possible economy under the realistic temporal, technical, legal, and budgetary limitations. The projects, typically real ones, are executed through partial construction document phase through collaborative design by project teams. (Day-long Friday field trips). Prerequisite: ARCH 534, ARCH 545, and ARCH 546; or consent of instructor.
ARCH 548  Const Execution & Admin  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/548)
Advanced course in construction with emphasis on acquiring knowledge and developing skills for successful project execution in a real-time project with numerous variables affecting the project outcome, including: devising methods and strategies for effective project execution; making decisions that can steer the project to the best possible direction; and skillfully mediating disputes and conflicts that might arise. For this purpose, on-going major construction projects are used as Learning Laboratories. May be repeated to a maximum of 8 hours. (Summer I credit: 1 graduate hour and Summer II credit: 2 graduate hours). Prerequisite: ARCH 501 and ARCH 545; or consent of instructor.

ARCH 550  Reinforced Concrete Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/550)
Selection, design, and comparison of reinforced concrete floor systems for buildings; study and design of columns and footings; and prestressed concrete. Prerequisite: ARCH 452.

ARCH 551  Structural Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/551)
Advanced problems in the analysis of statically determinate structures; general theories and methods of analysis of statically indeterminate structures by geometric and energy methods; and introduction to theory of plastic design. Prerequisite: ARCH 451 and ARCH 452.

ARCH 552  Soil Mech and Foundations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/552)
Soil properties and site exploration; stresses in soils; soil consolidation and settlement; shear strength of soils; bearing capacity; design of spread and combined footings; mats; pile foundations; lateral soil pressure and retaining walls. Prerequisite: ARCH 452 and ARCH 551.

ARCH 553  Adv Reinforced Concrete Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/553)
Critical review of the analysis, methods, and specifications involved in the design and behavior of reinforced concrete structures for buildings, including tall buildings, plates, and shells; computer applications. Prerequisite: ARCH 551; credit or concurrent registration in ARCH 560 or consent of instructor.

ARCH 554  Adv Steel Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/554)
Advanced topics in the design of steel structures; critical study of the AISC specification; design of steel members and their connections; composite structures; and the analysis and design of continuous structures and tall buildings. Prerequisite: ARCH 560 or consent of instructor.

ARCH 555  Prestressed Concrete Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/555)
Theory and design of prestressed concrete structures and suspension shell structures. Prerequisite: ARCH 553 or consent of instructor.

ARCH 556  Advanced Structural Planning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/556)
Study of the loads, functional and spatial requirements, and construction problems in the selection and design of structural systems for buildings; cost estimates; and integration of mechanical and electrical equipment. Prerequisite: ARCH 552 and ARCH 553; credit or concurrent registration in ARCH 554 and ARCH 555, or consent of instructor.

ARCH 558  Structural Wood Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/558)
Analysis and design of wood structures for buildings; response of wood buildings to gravity and lateral loads; design of structural elements: beams, columns, beam-columns, members in tension, and trusses using NDS specifications; connections; plywood panels; diaphragms and shear walls. Prerequisite: ARCH 451 or equivalent.

ARCH 559  Structural Masonry Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/559)
Engineering properties of masonry materials; codes and standards for masonry structures; analysis and design of masonry structures including multistory buildings and arches. Prerequisite: ARCH 452 or equivalent.

ARCH 560  Advanced Structural Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/560)
Advanced theory and analysis of statically indeterminate structures, recognizing effects due to temperature, settlement, and fabrication errors; matrix methods focusing on computer analysis techniques; introduction to plastic analysis and design. Prerequisite: ARCH 551.

ARCH 563  Soc/Beh Research Designed Env  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/563)
Introduction to methods and techniques of systematically generating social and behavioral information relevant to the programming, design, and evaluation of physical environments. Same as LA 563. Prerequisite: Graduate standing in architecture, landscape architecture, or urban and regional planning.

ARCH 567  Design: Detail and Architectonics  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/567)
Design studio investigations of multiple techniques and methodologies addressing the design and fabrication of small-scale architectural constructions, explorations of specific sites and places, and interdisciplinary projects. Field trips may be required. Shop safety orientation required. 6 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Graduate standing or consent of instructor.

ARCH 571  Design: Detail and Architectonics  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/571)
Design studio investigations of multiple techniques and methodologies addressing the design and fabrication of small-scale architectural constructions, explorations of specific sites and places, and interdisciplinary projects. Field trips may be required. 6 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Graduate standing or consent of instructor.

ARCH 572  Design: Behavior and Environment  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/572)
Design studio explorations responding to social, economic, political and behavioral dimensions of human existence and settlement. Projects investigate the experience of physical environments at the human scale and socially sustaining design strategies addressing diverse human needs. Field trips may be required. 6 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Graduate standing or consent of instructor.

ARCH 573  Design: Technology and Performance  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/573)
Design studio investigations of buildings and systems focusing on structure, enclosure, technology and performance. Integration of building materials, components and systems and their impact on the design, construction, and sustainability of buildings. Field trips may be required. 6 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 12 credit hours. Prerequisite: Graduate standing or consent of instructor.
ARCH 574  Design: Architecture and Urban Design  credit: 6 Hours.  
Design studio investigations of issues that impact urban habitats, 
buildings and people. Architecture and urban design, preservation, 
and adaptation of new and existing buildings, cities, districts, public 
realms and urban environments. Designing and preserving buildings 
and communities in a sustainable manner. Field trips may be required. 
6 graduate hours. No professional credit. May be repeated in separate 
terms to a maximum of 12 credit hours. Prerequisite: Concurrent 
enrollment in ARCH 536 or consent of instructor.

ARCH 575 Integrative Architecture Design Studio  credit: 6 Hours.  
Schematic design and development of a public building focusing on the 
integration of environmental, structural, and building envelope systems, 
while also addressing issues of accessibility, life safety, environmental 
stewardship, and site conditions. Field trips may be required. 6 graduate 
hours. No professional credit. Prerequisite: ARCH 536 and ARCH 537.

ARCH 576 Architectural Design Seminar  credit: 3 Hours.  
Presentations and discussions relative to various areas of architectural 
and environmental design concerns. May be repeated to a maximum 
of 15 hours. Prerequisite: Consent of instructor.

ARCH 577 Theories of Architecture  credit: 4 Hours.  
Review of principles of architectural design; factors in programming 
architectural requirements; design development; and evaluation and 
criticism. 4 graduate hours. No professional credit. Prerequisite: 
ARCH 517 or consent of instructor.

ARCH 578 PhD Colloquium  credit: 1 Hour.  
Provides graduate students insight on the responsibilities and 
effects of graduate study and expectations of academic faculty. Core responsibilities - research, 
teaching and service - required of faculty will be discussed, along with 
important resources and strategies to aid students in obtaining a faculty 
appointment and plotting a successful career path. Approved for S/U 
grading only. Must be repeated in separate terms to a maximum of 2 
hours.

ARCH 579 Directed Research  credit: 0 to 8 Hours.  
Nature and scope of projects to be determined by consultation between 
student and faculty advisor; open to architecture and landscape 
architecture majors as well as those from other disciplines who wish 
to engage in interdisciplinary work. Approved for both letter and S/ 
U grading. May be repeated in the same term up to 12 hours and 
separate terms up to 18 hours; MARCH students are limited to 12 hours. 
Prerequisite: Consent of instructor.

ARCH 591 Special Problems in Architectural History and Preservation  
credit: 2 to 4 Hours. 
Individual or group investigation of the work of particular architects, 
of specific buildings, and of the architecture of periods or regions; 
comparative studies; and theoretical, conceptual, and aesthetic 
problems. 2 to 4 graduate hours. No professional credit. May be repeated 
in separate terms to a maximum of 12 hours. Prerequisite: Nine hours of 
architectural history or consent of instructor.

ARCH 593 Spec Prob Arch Practice & Mgt  credit: 2 to 4 Hours.  
In-depth investigation of emerging issues and specific areas of research 
interest beyond what is covered in graduate courses of regular offering 
in the area of architectural practice and management. Students, as 
individuals or in groups, are expected to propose a research plan and 
methods for a specific topic of research interest in consultation with 
the instructor, and execute it under the guidance of the instructor 
through consultation on a regular basis. May be repeated in same and 
subsequent terms as topics vary to a maximum of 12 hours. Prerequisite: 
Advanced graduate standing and consent of instructor.

ARCH 594 Spec Prob Struct Theory & Des  credit: 2 to 4 Hours.  
In-depth investigation of emerging issues and specific areas of research 
interest beyond what is covered in graduate courses of regular offering 
in the area of building science technology. Students, as individuals or 
in groups, are expected to propose a research plan and methods for a 
specific topic of research interest in consultation with the instructor, and 
execute it under the guidance of the instructor through consultation on 
a regular basis. May be repeated to a maximum of 12 hours. (Summer 
credit: 1 to 2 graduate hours). Prerequisite: Advanced graduate standing 
and consent of instructor.

ARCH 595 Spec Prob Building Sci & Tech  credit: 2 to 4 Hours.  
Individual or group investigation and study in architectural engineering 
application; research in economy and design in correlation with 
architectural, mechanical, and structural requirements. May be repeated 
to a maximum of 12 hours. Prerequisite: Consent of instructor.

ARCH 596 Spec Prob Housing Env  credit: 2 to 4 Hours.  
Individual investigation or research in housing environments involving 
special issues such as energy conscious design, human-environmental 
relations, aesthetic theory, government policy, and cultural patterns. 
May be repeated to a maximum of 12 hours. Prerequisite: Consent of 
instructor.

ARCH 597 Spec Prob Arch Design  credit: 2 to 4 Hours.  
Individual investigation of building types and systems, aesthetic theories, 
design thesis programming and other problems in architectural design. 
May be repeated to a maximum of 16 hours. Prerequisite: Consent of 
instructor.

Information listed in this catalog is current as of 04/2019
ARCH 598  Specialized Architectural Practice  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/598)
This course adds an academic dimension to professionally supervised field experiences in which problems in architectural design and technology are defined, researched, and solved. Advanced doctoral students are introduced to applied research processes in any of architecture's sub-disciplines. Sites of applied research may include commercial firms, not-for-profit organizations, and government agencies. Students work in school-approved firms or agencies of their choice. Written accounts of work accomplished, documentation of research questions developed and pursued, and reflective experiential learning reports must be submitted for evaluation. Field experiences may be part time or full time. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated for up to 11 months total of training. This course is intended to facilitate CPT in professionally focused environmental design research for students in the PhD program. Prerequisite: Required research methods course (ARCH 505/LA 505 or ARCH 563/LA 563 or equivalent) and approval of both PhD program chair and student’s PhD adviser. For PhD students who have completed stage 1 of coursework.

ARCH 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ARCH/599)
Approved for S/U grading only. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor and graduate program coordinator.
