for the Graduate Certificate in Land, Agriculture and Alternative Investing

The Land, Agriculture and Alternative Investing Graduate Certificate equips students with the specialized knowledge and skills needed to navigate the realm of land, agriculture and alternative assets. Through a blend of theoretical exploration and practical applications, students will critically evaluate cost structures, compensation elements, and the potential impact of leverage on wealth management and investment strategies, ensuring a comprehensive grasp of financial complexities. Furthermore, the program equips students with essential tax strategies specific to investing in land, agriculture, and alternative assets.
