BIOINFORMATICS: ANIMAL SCIENCES, MS

for the Master of Science in Bioinformatics, Animal Sciences Concentration

Graduate Degree Programs in Animal Sciences

Graduate Majors:

- Animal Sciences, MANS (http://catalog.illinois.edu/graduate/aces/animal-sciences-mansc/)
- Animal Sciences, MS (http://catalog.illinois.edu/graduate/aces/animal-sciences-ms/)
- Animal Sciences, PhD (http://catalog.illinois.edu/graduate/aces/animal-sciences-phd/)

Graduate Concentrations:

- Bioinformatics: Animal Sciences, MS

Research Areas

The Department of Animal Sciences offers graduate studies with a focus on bioinformatics, quantitative and computational biology, leading to the Master of Bioinformatics. Fields of bioinformatics application and specialization include:

- animal breeding, genetics, and bioinformatics
- animal behavior
- environmental, lactation, and reproductive physiology
- immunobiology
- meat science and muscle biology
- microbiology
- nutrition
- systems of animal management and production, precision management

Beef and dairy cattle, horses, poultry, sheep, swine, and companion and laboratory animals are available for study. Experience in teaching, extension, or outreach is encouraged as part of the academic work.

Admission

Candidates for admission to the M.Sc. in Bioinformatics program must have a bachelor's degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. A grade point average of 3.0 or higher (A = 4.0) for the last two years of undergraduate work and for any graduate study is required for admission. Graduate Record Examination (GRE) scores are not required for admission. English proficiency requirements for admission follow Graduate College requirements. Application materials include baccalaureate degree transcripts, resume, personal statement, and three letters of recommendation. Admission is possible for fall, spring, and summer semesters.

for the Master of Science in Bioinformatics, Animal Sciences Concentration

For additional details and requirements refer to the department's Graduate Handbook (http://ansci.illinois.edu/grads/degree-requirements/) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook/).

Fundamental Bioinformatics (choose one)  4
- ANSC 542  Applied Bioinformatics
- ANSC 545  Statistical Genomics
- CHBE 571  Bioinformatics
- CPSC 567  Bioinformatics & Systems Biol
- CS 466  Introduction to Bioinformatics
- IB 467  Principles of Systematics
- MCB 432  Computing in Molecular Biology

Computer Science and Informatics (choose one)  4
- CS 411  Database Systems
- CS 466  Introduction to Bioinformatics
- CS 473  Algorithms
- CPSC 565  Perl & UNIX for Bioinformatics
- IS 455  Database Design and Prototyping
- IS 507  Data, Statistical Models and Information
- STAT 428  Statistical Computing
- STAT 440  Statistical Data Management
- STAT 448  Advanced Data Analysis
- STAT 480  Big Data Analytics
- STAT 525  Computational Statistics

Graduate seminar (ANSC 590) enrollment is required every semester (max 2 hours can be applied to the degree)  2

ANSC 599  Thesis Research (min/max applied toward degree)  8

Electives  14

Total Hours  36

**Other Requirements**

**Requirement**

Other Requirements and conditions may overlap

A concentration is required.

Minimum Hours Overall Required Within the Unit: 8

Minimum 500-level Hours Required Overall: 12

A comprehensive oral examination concerning the thesis and other areas of Bioinformatics and Animal Sciences is required.

Thesis Deposit Required: Yes

Minimum GPA: 3.0

---

**for the Master of Science in Bioinformatics, Animal Sciences Concentration**

1. Graduate-level understanding of essential concepts and approaches in the area of bioinformatics with application to animal sciences. The essential bioinformatics concepts will enable the graduate to secure a mid-management position in industry or federal agencies or pursue Ph.D. studies and to advance throughout the professional ranks.

2. Capacity to execute supervised thesis research including a) understanding of the scientific method, research objectives, materials and methods, advanced data analysis, and appreciation of the findings; and b) leadership on the implementation of essential research activities.

3. Ability to effectively communicate essential bioinformatics and animal sciences knowledge and thesis research findings in oral and written formats.

4. Aptitude to advocate for interdisciplinary research and education efforts to advance food security, food safety, animals and human health and wellbeing or environmental stewardship.
