college website: https://giesbusiness.illinois.edu/

The M.A.S. program is a one-year program for students who have completed or are pursuing a Bachelor of Science in Accountancy from an accredited U.S. institution. Each student will select either Taxation or Financial Reporting & Assurance for their core accounting concentration. Students are also required to select a secondary graduate elective concentration. By design, the program emphasizes the emerging trend of data analytics in the practice of accounting, with a standard course plan that leads to a graduate concentration in Data Analytics in Accountancy to fulfill the graduate electives. Students who wish to deviate from the standard course plan, but do not wish to pursue a listed graduate concentration, may petition to take other graduate courses of interest subject to approval of an Accountancy Advisor. Admission to a concentration requires application to the Department. Admission to some concentrations may be competitive.
