

# ACCOUNTING DATA ANALYTICS, CERT

for the Graduate Certificate in Accounting Data Analytics (online)

The Accounting Data Analytics Graduate Certificate is designed to develop leaders who understand (1) how to apply data analytics in a variety of accounting and business contexts, (2) critically solve business problems using data-intensive business and accounting information, and (3) synthesize and effectively communicate data-intensive information, findings, and conclusions to other environment-constituents, including supervisors, peers and subordinates, clients, and regulatory agencies. This Graduate Certificate will not only provide a strong foundational knowledge of data analytics, but also provide students multiple opportunities to apply this knowledge.

Students who have successfully completed this certificate may use the certificate to satisfy the following degree requirements, provided they apply and are admitted to the degree program:

12 hours of elective coursework requirements of the iMBA (<http://catalog.illinois.edu/graduate/bus/business-administration-online-mba/>) degree program

12 hours of elective coursework requirements of the iMSM (<http://catalog.illinois.edu/graduate/bus/management-ms/>) degree program

12 hours of elective coursework requirements of the iMSA (<http://catalog.illinois.edu/graduate/bus/accountancy-ms/>) degree program

## Admissions
