BUSINESS & PUBLIC POLICY GRADUATE CONCENTRATION

for the Graduate Concentration in Business & Public Policy (on campus)

This concentration is available for on campus students.

Today's business leaders must make strategic decisions in an extremely complex world. In addition to navigating the rapidly changing market forces in their industry, companies operate in an environment that is strongly influenced by regulatory and public policy considerations. Furthermore, our public sector leaders must also understand how market forces can help or hinder alternative solutions to society's most pressing problems. The business and public policy graduate concentration is designed to provide graduate business students a framework for evaluating the impact of public policy on firms and the markets in which they operate.

The concentration is open to these majors in the College of Business but required of none:
