BIOINFORMATICS: COMPUTER SCIENCE, MS

for the degree of Master of Science in Bioinformatics, Computer Science Concentration

The Department of Computer Science is one of the longest established computer science departments in the world and is consistently ranked as a top-5 graduate program.

The MS in Bioinformatics, Computer Science Concentration is an interdisciplinary degree that can be counted toward the PhD in Computer Science.

Admission Requirements

Applicants must hold a bachelor’s degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for students entering a Computer Science graduate degree program is a bachelor’s degree in computer science or computer engineering. The Graduate Record Examination (GRE) (http://www.ets.org/) general aptitude tests (Verbal, Quantitative, and Analytical) are no longer required. However, in some cases, GRE general scores may provide helpful supporting information.

Applicants to the Computer Science Concentration of the MS in Bioinformatics program must have a minimum grade point average (GPA) of 3.20 (A = 4.00) in their undergraduate studies (international GPAs are systematically converted) to be considered. The department reserves the right to admit applicants with lower GPAs under rare and exceptional circumstances. If an applicant also holds a graduate degree, the minimum GPA for that degree must be 3.00. Full details of the programs offered by Computer Science, admissibility, application procedures, and deadlines can be found at the department’s Prospective Graduate Student Information Web site (http://cs.illinois.edu/admissions/graduate/).

All applicants whose native language is not English are required to submit TOEFL (http://www.toefl.org/) or International English Language Testing System (IELTS) (http://www.ielts.org/) scores as evidence of English proficiency. Minimum admission requirements (https://grad.illinois.edu/admissions/instructions/04c/) are set by the Graduate College.

Financial Aid

Research assistantships and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (http://grad.illinois.edu/admissions/taengprof.htm) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS (academic exam). Students who are unable to take the TOEFL iBT or IELTS are required to receive a minimum score of 5 on the EPI test (http://cte.illinois.edu/testing/oral_eng/epi_overview.html), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/) conducted prior to the start of the semester.

Information listed in this catalog is current as of 07/2023
All degree requirements must be completed within five consecutive semesters (only fall and spring semesters are counted).

for the degree of Master of Science in Bioinformatics, Computer Science Concentration

1. Apply the essential concepts in algorithm design and analysis, and the ways in which those concepts impact bioinformatics.
2. Demonstrate the ability to read, analyze, discuss, and critique scientific advances and limitations described in the research literature.
3. Implement bioinformatics software tools and use these tools in biological data analysis.
4. Effectively and accurately communicate to an interdisciplinary audience in both oral and written formats.
5. Demonstrate an understanding of and ability to follow ethical standards in research and professional service.

Graduate Programs in the Department of Computer Science

- Majors
  - Computer Science, MCS (http://catalog.illinois.edu/graduate/engineering/computer-science-mcs/) (available online for students who are working full-time and unable to come to campus)
    - optional concentrations
      - Computational Science and Engineering (http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/)
  - Computer Science, MS (http://catalog.illinois.edu/graduate/engineering/computer-science-ms/)
    - optional concentrations
      - Computational Science and Engineering (http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/)
  - Computer Science, PhD (http://catalog.illinois.edu/graduate/engineering/computer-science-phd/)
    - optional concentrations
      - Computational Science and Engineering (http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/)
  - Certificates
    - Computing Fundamentals, CERT (http://catalog.illinois.edu/graduate/engineering/computing-fundamentals-cert/)
- Concentrations
  - Bioinformatics: Computer Science, MS (p. 1)
- Joint Programs
  - Computer Science, MCS & Architecture, MArch (http://catalog.illinois.edu/graduate/engineering_faa/joint-degree/computer-science-mcs-architecture-march/)
  - Computer Science, MCS & Law, JD (http://catalog.illinois.edu/graduate/engineering_law/joint-degree/computer-science-mcs-law-jd/)
