The Department of Industrial & Enterprise Systems Engineering offers both an MS with thesis and an MS non-thesis program. Students in the MS with thesis program are required to have a research advisor and applicants are encouraged to contact department faculty (https://ise.illinois.edu/directory/faculty.html) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/) optional graduate concentration.

### Admission Requirements
Applicants who have completed degree requirements in an accredited engineering program or its equivalent are eligible to apply for admission. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required.

Scores on the Graduate Record Examination (GRE) (http://www.ets.org/) general test are recommended of all applicants. Based upon the previous preparation of the student for either program, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (http://www.toefl.org/) or International English Language Testing System (IELTS) (http://www.ielts.org/) scores as evidence of English proficiency. Minimum admission requirements (https://grad.illinois.edu/admissions/instructions/04c/) are set by the Graduate College.

### Financial Aid
Qualified students may compete for financial assistance in the form of graduate/research assistantships, fellowships, grants, and tuition waiver scholarships. Under certain conditions, fellowships may be augmented by part-time assistantships.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (http://grad.illinois.edu/admissions/taengprof.htm) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the English Proficiency Interview (http://cte.illinois.edu/testing/oral_eng/epi_overview.html) (EPI), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (https://ctil.illinois.edu/ctil-101/teaching-learning/grad-academy-for-college-teaching/) conducted prior to the start of the semester.

### Department Research
Faculty research by ISE faculty is pursued in the following fields:

- computer-aided design
- data analytics
- optimization
- design systems
- manufacturing systems
- nondestructive system testing and evaluation
- control
- robotics
- real-time decision making
- reliability engineering
- financial engineering
- operations research
- management science
- biomechanics
- human factors
- supply chain logistics

Members of the ISE Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department’s research laboratories Web site (https://ise.illinois.edu/research/labs/).

Graduate Programs in Industrial & Enterprise Systems Engineering

- Degrees:
  - Industrial Engineering, MS ([http://catalog.illinois.edu/graduate/engineering/industrial-engineering-ms/](http://catalog.illinois.edu/graduate/engineering/industrial-engineering-ms/))
  - optional concentrations:
  - Advanced Analytics in Industrial & Enterprise Systems Engineering ([http://catalog.illinois.edu/graduate/engineering/concentration/advanced-analytics-industrial-enterprise-systems-engineering/](http://catalog.illinois.edu/graduate/engineering/concentration/advanced-analytics-industrial-enterprise-systems-engineering/))
  - Computational Science & Engineering ([http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/](http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/))
  - Industrial Engineering, PhD ([http://catalog.illinois.edu/graduate/engineering/industrial-engineering-phd/](http://catalog.illinois.edu/graduate/engineering/industrial-engineering-phd/))
  - Systems & Entrepreneurial Engineering, MS (p. 1)
  - optional concentrations:
  - Computational Science & Engineering ([http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/](http://catalog.illinois.edu/graduate/engineering/concentration/computational-science-engineering/))
  - Systems & Entrepreneurial Engineering, PhD ([http://catalog.illinois.edu/graduate/engineering/systems-entrepreneurial-engineering-phd/](http://catalog.illinois.edu/graduate/engineering/systems-entrepreneurial-engineering-phd/))
  - Financial Engineering, MS ([http://catalog.illinois.edu/graduate/bus_engineering/financial-engineering-ms/](http://catalog.illinois.edu/graduate/bus_engineering/financial-engineering-ms/)) (sponsored jointly with Department of Finance)
  - optional concentrations:
    - Advanced Analytics in Industrial & Enterprise Systems Engineering ([http://catalog.illinois.edu/graduate/engineering/concentration/advanced-analytics-industrial-enterprise-systems-engineering/](http://catalog.illinois.edu/graduate/engineering/concentration/advanced-analytics-industrial-enterprise-systems-engineering/))
    - Data Analytics in Finance ([http://catalog.illinois.edu/graduate/bus/concentration/finance/data-analytics-finance/](http://catalog.illinois.edu/graduate/bus/concentration/finance/data-analytics-finance/))
    - Health Technology, MS ([http://catalog.illinois.edu/graduate/ahs/health-technology-ms/](http://catalog.illinois.edu/graduate/ahs/health-technology-ms/)) (sponsored jointly with the College of Applied Health Sciences)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offer an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

For the degree of Master of Science in Systems & Entrepreneurial Engineering

Department of Industrial & Enterprise Systems Engineering
Department Head: Jeff Shamma (jshamma@illinois.edu)
Associate Head of Graduate Studies: Ramavarapu S Sreenivas (rsree@illinois.edu)
