Civil Engineering, MS and Architecture, MARCH

This joint degree program offers qualified applicants the opportunity
to develop competence in a career that combines the disciplines of
architecture and civil engineering (construction management) or
(structures). For entry into these programs, applicants must satisfy
the admission and performance requirements of each academic unit.
Application for admission should be made to the School of Architecture.
Admission to the other unit may be sought after the first semester of
graduate study in architecture.

Candidates entering the program with a four-year baccalaureate in
architectural studies must complete at least 78 (32 in Civil Engineering
and 46 in Architecture) hours of graduate work and, if admitted with
full status, may complete the program in five semesters. Candidates
entering the program with a five-year Bachelor of Architecture degree
must complete 64 hours of graduate work and, if admitted with full
status, may complete the program in four semesters.
