DANCE, MFA

for the degree of Master of Fine Arts in Dance

The MFA Curriculum is designed to promote a candidate’s progress through our stated objectives: Choreographing, Communicating, Moving, Teaching, Community Building, and Career Planning.

Included in these are courses in dance studies, somatics, pedagogy, and two semesters devoted to an innovative lab team taught by our faculty and designed in collaboration with students. The final year of study is devoted to synthesizing the above objectives evidenced by the production of the candidate’s choreography, their written thesis document, oral presentation, and plans for propelling the student’s career into the professional sphere.

The Department of Dance offers a graduate program leading to the Master of Fine Arts degree. The mission of the MFA Program is to foster substantive choreographic research that posits dance as a force in contemporary culture. The program embraces a wide spectrum of individual movement research and embodied practice to create a dynamic learning atmosphere for critical engagement with choreographic process.

The Dance Department expects MFA candidates to conduct a creative inquiry that leads to the development of a sophisticated sense of self-definition. Individual research and analysis should culminate in the development of a personal artistic process and mission and should be evident in the following contexts:

• Choreographing- Candidates will develop a distinctive choreographic research methodology and demonstrate its skilful application in a performative context. This ideology must establish solid foundation for ongoing research and engagement that contributes to the global dialogue about dance and contemporary culture.

• Communicating- Candidates will develop the ability to express their choreographic vision and process in verbal and written language that is clear, cogent, and convincing and demonstrates clear analytic skill, critical thinking, awareness of historical context, and knowledge of contemporary culture.

• Moving- Candidates will demonstrate a commitment to movement investigation and practice that defines, advances, and sustains their choreographic vision.

• Teaching- Candidates will apply their research vision in clear pedagogic principles while fostering a stimulating teaching/learning environment.

• Career Planning- Candidates are assessed on their ability to develop innovative career strategies in order to advance their artistic mission in the field and demonstrate the capacity to implement these plans with professionalism in all the above contexts.

• Community Building- Candidates commit to sharing research, collectively solving problems, opening ourselves to new perspectives, offering well considered feedback to our peers, exploring collaborative teaching opportunities, engaging in vigorous debate, and bringing our full selves to the experience.
