Graduate Degree Programs in Landscape Architecture
Landscape Architecture, MLA (http://catalog.illinois.edu/graduate/faa/landscape-architecture-mla)
optional concentration: Medieval Studies (http://catalog.illinois.edu/graduate/las/concentration/medieval-studies)
Landscape Architecture, PhD (p. 1)
optional concentration: Medieval Studies (http://catalog.illinois.edu/graduate/las/concentration/medieval-studies)
joint programs:
Landscape Architecture, MLA & Business Administration, MBA (http://catalog.illinois.edu/graduate/bus_faa/joint-degree/landscape-architecture-mla-business-administration-mba)
Landscape Architecture, MLA & Urban Planning, MUP (http://catalog.illinois.edu/graduate/faa/joint-degree/landscape-architecture-mla-urban-planning-mup)

The Department of Landscape Architecture offers work leading to the Master of Landscape Architecture (MLA) degree (http://catalog.illinois.edu/graduate/faa/landscape-architecture-mla) and the PhD degree. The programs enable students to gain fresh insights and to conduct new research pertaining to land and its use by people. The PhD program is jointly administered with the School of Architecture and emphasizes both interdisciplinary study and cross-disciplinary inquiry. Areas of concentration include history and theory; technology and environment; and behavioral and cultural factors in design. Before submitting an application, students should consult the department website for information regarding the specific areas of study and the time needed to complete the requirements.

Several faculty members in the department also participate in the doctoral program administered by the Department of Urban and Regional Planning. See the program description under Regional Planning, PhD (http://catalog.illinois.edu/graduate/faa/regional-planning-phd) for more information.

Admission
The Graduate College admission requirements apply. Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. The doctoral program prefers candidates with master’s degrees: MLA, MArch, or related fields such as art history, ecology, geography, or planning. All graduate students must begin their studies in the fall semester.

Graduate Teaching Experience
Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the PhD program.

Financial Aid
Students compete for fellowships, tuition and service fee waivers, and assistantships. Selection is based on the academic achievement and qualifications of the student.

Research Methods
Students must complete at least one research methods course.

In addition to research methods courses taught within the School of Architecture and Department of Landscape Architecture, students are encouraged to consider similar courses in other units, consulting with their advisors to determine whether those meet the research methods requirement.

Preliminary Exams
In consultation with their advisors, students select a committee of faculty members for their preliminary exam. Upon completion of coursework, students prepare a dissertation proposal and undertake the preliminary examination in two parts: written and oral. Policies governing the preliminary examination are detailed in the Ph.D. Program Handbook. Upon passing the preliminary examination, students are advanced to candidacy and may proceed with work on their dissertations.

Dissertation
Because the Doctor of Philosophy degree is primarily a research degree, candidates are required to demonstrate a capacity for independent research by producing an original dissertation on a topic within the discipline of Architecture.

Dissertation Defense
After completion of the dissertation, the student is required to defend the dissertation before their Dissertation Committee in a public forum, an event known in the Graduate College as the Final Exam.
