email: urbplan@illinois.edu

Students, together with their faculty adviser and program committee, select theory, methods, and specialization courses to meet the Ph.D. requirements and prepare for a successful career of advanced research and teaching.

A successful dissertation in planning reports original research on a subject appropriate to the field, the results of which produce significant advances in knowledge. Each student takes a Preliminary Examination, which is an oral examination based on the dissertation proposal and is administered by the student's dissertation committee. Upon approval of the dissertation proposal, the candidate can proceed with the research, written analysis, and findings. When the candidate and the supervisor agree that the research and writing are complete, the candidate is ready for the final examination, which is a defense of the dissertation before the committee.

Please consult the department's website (https://urban.illinois.edu/) for additional information about doctoral requirements.

Graduate Degree Programs in Urban Planning

Sustainable Urban Management, MS (http://catalog.illinois.edu/graduate/faa/sustainable-urban-management-ms/)
Urban Planning, MUP (http://catalog.illinois.edu/graduate/faa/urban-planning-mup/)
Regional Planning, PhD (p. 1)

joint programs:

Urban Planning, MUP & Architecture, MARCH (http://catalog.illinois.edu/graduate/faa/joint-degree/architecture-march-urban-planning-mup/)
Urban Planning, MUP & Law, JD (http://catalog.illinois.edu/graduate/faa/joint-degree/urban-planning-mup-law-jd/)
Urban Planning, MUP & Landscape Architecture, MLA (http://catalog.illinois.edu/graduate/faa/joint-degree/landscape-architecture-mla-urban-planning-mup/)
Urban Planning, MUP & Public Health, MPH (http://catalog.illinois.edu/graduate/ahs_faa/joint-degree/public-health-mph-urban-planning-mup/)

The Department of Urban and Regional Planning offers graduate programs leading to the degrees of Master of Urban Planning and Doctor of Philosophy in Regional Planning as well as a Master of Science in Sustainable Urban Management. Students can also apply to obtain a joint degree with another graduate degree simultaneously. The most popular joint degrees are with Architecture, Landscape Architecture, Law and Agricultural and Applied Economics. Joint degrees with any related field are possible. In addition, a small number of the department’s Bachelor of Arts in Urban Studies and Planning (B.A.U.S.P) students participate in the highly selective 4+1 program (http://catalog.illinois.edu/undergraduate/faa/urban-studies-planning-ba-mup/) to complete the B.A.U.S.P. and M.U.P. in five years.

Admission

We welcome applications from people from a wide variety of backgrounds who have demonstrated potential for extraordinary professional achievement. Students seeking a graduate degree in planning come from a diverse range of academic backgrounds. The most frequent are sociology, economics, political science, geography, environmental sciences, architecture, engineering, public administration, urban planning, and public policy, but the natural sciences, humanities, and other fields also provide excellent foundations for graduate study in planning. Prospective students must have a grade point average (GPA) of at least 3.0 computed from the last 60 hours of undergraduate work and any subsequent graduate study, but the average GPA of admitted students is considerably higher. International applicants must meet additional minimum requirements (http://www.grad.illinois.edu/admissions/countries/) based on their country of origin, including the Test of English as a Foreign Language (TOEFL).

We place particular emphasis on each applicant’s statement of purpose. Applicants should use the statement to convey information about their backgrounds, professional and personal experience, and intellectual perspectives, in the context of articulating why a Master’s in Urban Planning or Ph.D. in Regional Planning from the University of Illinois will help them achieve their professional goals. We seek an applicant pool
that represents a mix of racial and ethnic populations, a range of social
and economic backgrounds, different philosophies and perspectives, and
a variety of life experiences. We are especially interested in applicants
with professional experience, though that experience need not be in
planning or closely related fields.

Applicants to the Ph.D. program are admitted when they meet the
standards of the Department and have a faculty member prepared to
serve as their mentor and, if necessary, primary source of financial
support. Students interested in pursuing a Ph.D. in Regional Planning
should communicate with the Director of the Ph.D. Program and faculty
most closely aligned with their interests, in addition to completing the
formal application process.

Consult the M.U.P. admissions (https://urban.illinois.edu/programs-
applying/master-urban-planning/) and Ph.D. admissions (https://
urban.illinois.edu/programs-applying/phd-regional-planning/) web pages
for more information.

Graduate Teaching Experience
Although teaching is not a general Graduate College requirement,
experience in teaching is considered an important part of the doctoral
experience in this program and is strongly encouraged for those
intending to pursue an academic career.

Faculty Research Interests
The mission of the Department of Urban and Regional Planning is
to teach and conduct research to improve understanding of human
settlements and of planning situations. The department’s faculty studies
the ecological, economic, social, and institutional aspects of urban
and regional development, and the theory and practice of planning
processes. Planning is viewed as the achievement of outcomes based on
interrelated actions over time and space, and close communication and
and collaboration with a wide range of disciplines and professions is inherent
in the department’s approach. The basis of that collaboration is a faculty
whose academic training and degrees are in architecture, economics,
 geography, history, law, political science, regional science, and zoology,
in addition to planning. Planning faculty and doctoral students pursue
interdisciplinary research and make scholarly contributions to planning
and fields closely allied with planning.

Facilities and Resources
The Department of Urban and Regional Planning shares Temple Hoyne
Buell Hall (TBH) with the Department of Landscape Architecture and the
School of Architecture. The majority of urban planning classes are held in
TBH. The department has a 24-hour instructional computing laboratory.
Research project and doctoral student workspace is provided in Noble
Hall.

The City Planning and Landscape Architecture Reference and Resource
Center is located in Funk Library (http://www.library.uiuc.edu/agx/).
The planning collection is one of the finest in the world, with books and
reports gathered since the collection started over eighty years ago.

Financial Aid
Students compete for departmental and Graduate College fellowships
and departmental teaching and research assistantships. Selection is
based on the academic achievement and qualifications of the student.

For additional details and requirements refer to the department's Web site
(https://urban.illinois.edu/) and the Graduate College Handbook (http://
www.grad.illinois.edu/gradhandbook/).
