This Master of Science in Strategic Brand Communication (MS SBC) degree program is jointly sponsored by the Charles H. Sandage Department of Advertising in the College of Media and the Department of Business Administration in the College of Business. Graduates from this program receive the MS SBC degree awarded by the Graduate College. Strategic Brand Communication (SBC) is a data-driven, purposeful conversation with a brand’s stakeholders. SBC combines traditional advertising practices with contemporary business thinking that pertains to delivering consistent, meaningful messages to consumers. In so doing, SBC seeks to integrate multiple consumer contact points that occur through the purchase of commercial messages in paid, earned, and owned media to deliver persuasive and impactful statements about brands and companies.

This management process integrates all aspects of marketing communications such as advertising, public relations, personal selling, social media, sales promotion, and direct marketing. Such integration impacts a firm’s business-to-business, marketing channel, customer-focused, and internally directed communications.

The MS SBC degree program is designed for current working professionals with at least two years full-time experience in their field. The proposed program is designed to be completed in 15 months. The curriculum will prepare students to: be strategic leaders in an ever-changing global media environment; be analytic and integrative thinkers; be effective brand communicators and managers; respond agilely to new technologies, emerging media, new demographics, and market trends; be team-oriented in their approach to management and communications; and be prepared to continue to learn as the media environment evolves.

To be admitted into this program, applicants must have at least two years of full-time work experience. All applicants are expected to have a minimum grade point average of at least 3.0 (A = 4.00) for the last two years of undergraduate study and a 3.0 for any previous graduate work completed. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOEFL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections. Prerequisite: course in Statistics or Calculus from an accredited institution. The admissions criteria will be based upon an evaluation of each applicant’s work experience, GPA, English aptitude, and letters of recommendation.

A minimum GPA of 2.75 is required for continued enrollment.
