MASTER OF SCIENCE IN
STATISTICS, APPLIED
STATISTICS CONCENTRATION

Douglas G. Simpson, Department Chair
101 Illini Hall, MC-374
725 South Wright Street
Champaign, IL 61820 USA
PH: 217-333-2167
http://www.stat.illinois.edu/

The Department of Statistics offers the Master of Science in Statistics with specialization in a variety of areas of application. The degree program consists of a core of statistics courses covering statistical theory, linear models, and statistical consulting, and further coursework in the field of application and in statistics. The program offers an additional degree for students earning an advanced degree in the area of application.

To be eligible for this program, students must be pursuing an advanced degree in a department other than Statistics at the Urbana-Champaign campus. Students interested in economic statistics should apply for a degree in a department other than Statistics at the Urbana-Champaign campus. Students interested in economic statistics should apply for an additional degree for students earning an advanced degree in the area of application.

Five graduate courses must be completed in your primary field, in an area relevant to the field of Statistics.

Total hours: 20

Other Requirements

Other requirements may overlap.

A concentration is not required.

Minimum 500-level Hours Required: 12

Overall:

Minimum GPA: 3.0

Information listed in this catalog is current as of 03/2017
STAT 545  Spatial Statistics  credit: 4 Hours.
Theory and methods for analyzing univariate and multivariate spatial
and spatio-temporal data. Covers both fundamental theories and cutting-
edge research advances for geostatistics, and statistical methods
for aggregated data and point processes. Real data examples will be
provided in class and statistical software will be used to illustrate the
data analysis. 4 graduate hours. No professional credit. Prerequisite:
STAT 425 or equivalent.

STAT 551  Theory of Probability I  credit: 4 Hours.
Same as MATH 561. See MATH 561.

STAT 552  Theory of Probability II  credit: 4 Hours.
Same as MATH 562. See MATH 562.

STAT 553  Probability and Measure I  credit: 4 Hours.
Measures and probabilities; integration and expectation; convergence
theorems and inequalities for integrals and expectations; independence;
convergence in probability, almost surely, and mean; Three Series
Theorem; laws of large numbers. Prerequisite: MATH 447 or consent of
instructor.

STAT 554  Probability and Measure II  credit: 4 Hours.
Measure extensions, Lebesque-Stieltjes measure, Kolmogorov
consistency theorem; conditional expectation, conditional probability,
martingales; distribution functions and characteristic functions;
convergence in distribution; Central Limit Theorem; Brownian Motion.
Credit is not given for both STAT 554 and either MATH 561 or MATH 562.

STAT 555  Applied Stochastic Processes  credit: 4 Hours.
Same as MATH 564. See MATH 564.

STAT 558  Risk Modeling and Analysis  credit: 4 Hours.
Same as MATH 563. See MATH 563.

STAT 571  Multivariate Analysis  credit: 4 Hours.
Inference in multivariate statistical populations emphasizing the
multivariate normal distribution; derivation of tests, estimates, and
sampling distributions; and examples from the natural and social
sciences. Prerequisite: STAT 410 and MATH 415, or consent of instructor.

STAT 575  Large Sample Theory  credit: 4 Hours.
Limiting distribution of maximum likelihood estimators, likelihood ratio
test statistics, U-statistics, M-, L-, and R-estimators, nonparametric test
statistics, Von Mises differentiable statistical functions; asymptotic
relative efficiencies; asymptotic expansions. Same as ECON 578.
Prerequisite: STAT 511 and either MATH 561 or STAT 554.

STAT 578  Topics in Statistics  credit: 4 Hours.
May be repeated if topics vary. Prerequisite: Consent of instructor.

STAT 587  Hierarchical Linear Models  credit: 4 Hours.
Same as PSYC 587 and EPSY 587. See EPSY 587.

STAT 588  Covar Struct and Factor Models  credit: 4 Hours.
Same as EPSY 588, PSYC 588, and SOC 588. See PSYC 588.

STAT 590  Individual Study and Research  credit: 0 to 8 Hours.
Directed reading and research. Approved for letter and S/U grading. May
be repeated with approval. Prerequisite: Consent of instructor.

STAT 593  STAT Internship  credit: 0 to 8 Hours.
Supervised, off-campus experience in a field in which statistical science
plays an important role. Approved for letter and S/U grading. Prerequisite:
STAT 425 and consent of instructor.

STAT 595  Preparing Future Faculty  credit: 2 Hours.
Prepares Ph.D. students who are interested in an academic career to
develop a successful academic career path, and to prepare graduate
students for their future roles as teachers, and researchers. The course
will focus on profession, job search, research, teaching and service. The
course will involve guest panels, small and large group presentations and
interactive Q&A with student participation.

STAT 599  Thesis Research  credit: 0 to 16 Hours.
Approved for S/U grading only. May be repeated. Prerequisite: Consent of
instructor.
