A two-year, in-person research-based program designed for students who want research experience augmented by advanced courses in experimental
techniques and professional development within a top-rated department at a world-class university. Each student admitted to the program is paired
with a faculty advisor/mentor based on research interests. A Master’s thesis is not required.

Graduate Degree Programs in Psychology

Psychology, MS (http://catalog.illinois.edu/graduate/las/psychology-ms/)
Psychological Science, MS (p. 1)
Psychology, PhD (http://catalog.illinois.edu/graduate/las/psychology-phd/)
optional concentrations:
  Developmental Psychopathology (http://catalog.illinois.edu/graduate/las/psychology-phd/developmental-psychopathology/)
  Second Language Acquisition & Teacher Education (http://catalog.illinois.edu/graduate/las/concentration/second-language-acquisition-teacher-education/)

Admission

The Graduate College admission requirements apply for all programs. All candidates for admission must have a minimum grade point average of
3.0 (or B) on a 4.0 scale in courses representing the last 60 hours of work completed for the bachelor’s degree. The candidate for admission to the
graduate program should ordinarily have the following preparation: a minimum of 15 semester hours in psychology, a laboratory research methods
course in psychology, and a course in statistics. Departmental committees also consider Graduate Record Examination (GRE) scores and letters
of recommendation. Preference is given to students who have taken mathematics beyond college algebra and to those who have some research
experience. Students are accepted only for fall admission. The M.S. in Psychological Science application deadline is February 6, 2022.

In addition to the aforementioned criteria, applicants are evaluated on their supporting documents, career goals, career promise, and research
interests. Additional weight is given to the quality and extent of prior research and other relevant experience.

All applicants whose native language is not English or who are from any country other than the US, the United Kingdom, Canada, Australia, or New
Zealand (even if they are native English speakers) are required by the University to submit the results of an English language proficiency test. The
university will accept the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) to determine
admission eligibility.

• The minimum total TOEFL iBT score for admission (including all four sections): 79
• Minimum total TOEFL iBT score for exemption from the English as a Second Language Placement Test (EPT) for admission (including all four
sections): 103
• Minimum total IELTS score for admission: 6.5, including a minimum subscore of 6 on all four modules. Students receiving scores below 7 will be
required to take the EPT for placement in English as Second Language courses.

Refer to www.psychology.illinois.edu (http://www.psychology.illinois.edu/) (MS in Psychological Science) for additional information about the
Department of Psychology’s admission requirements.

Faculty Research Interests

The program is designed to prepare students for academic and research-oriented careers. Students become actively involved in research throughout
the program.

Information listed in this catalog is current as of 05/2022
For the most part, we view graduate education as an apprenticeship. Our task is to provide an environment where mature young scholars can gain experience in research as they collaborate with faculty and with other graduate students. Faculty research interests can be viewed here (https://psychology.illinois.edu/directory/faculty/).

**Facilities and Resources**

Students have designated work and study areas, access to research, library, and computing services. In some cases, student may collaborate with the Psychological Services Center, Illinois NeuroBehavioral Assessment Laboratory, Beckman Institute for Advanced Science and Technology, Educational Psychology, and the School of Labor and Employee Relations.

**Financial Aid**

The M.S. in Psychological Science program is self-supporting. The program does not accept non-statutory tuition waivers, and students enrolled in this program are ineligible to hold waiver-generating appointments.

Please refer to this link for the current graduate tuition and fees: https://registrar.illinois.edu/tuition-fee-rates

Enrollment for this program spans 4 semesters. Credit hours will range from 6–12 (or more) each semester, depending on course availability, international/domestic status, and student goals. International students are required to register for 12 credit hours to maintain F-1/J-1 student status.

Information regarding fees depends on the individual applicant. Fees are explained at http://registrar.illinois.edu/fee-info. Please note that these costs do not include housing, transportation or other costs of living expenses.
