LEARNING OUTCOMES:
TEACHING OF CHEMISTRY, MS

Learning Outcomes for the degree of Master of Science in Chemistry

Note: since this Learning Outcomes Assessment focuses solely on the Master of Science in Teaching of Chemistry program, we have only 3 learning outcomes (we have 7 for the PhD program).

1. To have a deep working knowledge of the principles and concepts of contemporary chemistry.

2. To be able to educate students interested in chemical sciences using state-of-the-art technology and pedagogy.

3. To be able to communicate clearly and effectively within and across disciplinary lines.
