Major in Specialized Curriculum in Chemistry

The typical program of courses required to satisfy this degree totals 128-134 hours; in no case will a program totaling less than 120 hours qualify for graduation. Graduation requires grade point averages of at least 2.0 overall and 2.0 in chemistry, mathematics, and physics courses. The Department of Chemistry will supply, upon request, a brochure showing recommended semester-by-semester programs for the completion of the curriculum.

Students in the specialized curriculum in Chemistry must include a course in Biochemistry in the Advanced Hours area or the Technical Elective area to be certified by the American Chemical Society as having met its specifications.

For advising contact SCS Academic Advising (http://advising.scs.illinois.edu)
Web address for department: www.chemistry.illinois.edu (http://www.chemistry.illinois.edu)

Degree title: Bachelor of Science in Chemistry

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have an major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75, respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

Information listed in this catalog is current as of 03/2017
Advanced Chemistry

Chemistry/Biochemistry courses numbered 300 or higher, which must include one from the following:¹

- CHEM 317 Inorganic Chemistry Lab
- CHEM 437 Organic Chemistry Lab
- CHEM 447 Physical Principles Lab II

Additional laboratory work:²

- BI0C 455 Techqs Biochem & Biotech
- CHEM 317 Inorganic Chemistry Lab
- CHEM 437 Organic Chemistry Lab
- CHEM 447 Physical Principles Lab II
- CHEM 483 Solid State Structural Anlys

Additional chemistry/biochemistry courses to complete the 11-hour requirement in advanced chemistry (excluding CHEM 499)

Mathematics:³

- MATH 220 Calculus
- or MATH 221 Calculus I
- MATH 231 Calculus II
- MATH 241 Calculus III

Physics:³

- PHYS 211 University Physics: Mechanics
- PHYS 212 University Physics: Elec & Mag
- PHYS 214 Univ Physics: Quantum Physics

Technical Electives, including the following:⁴

Required Mathematics:⁵

- MATH 225 Introductory Matrix Theory
- or MATH 415 Applied Linear Algebra
- MATH 285 or equivalent

Strongly Recommended:

- CHEM 499 Senior Thesis (maximum of 10 hours)

Recommended: basic computer science

Other technical courses chosen from:

- Chemistry (300 or higher), biochemistry, chemical engineering (200 or higher)

Courses in life sciences (all courses at 200 or higher)

Mathematics or computer science above the basic level

Other courses in the physical and biological sciences and engineering including CHEM 199 ⁶

Nontechnical Requirements ⁷

- General education:
  - Foreign language - three semesters of college study (or three years of high school study) in a single foreign language
  - Composition I writing requirement (RHET 105, CMN 111 and CMN 112, or equivalent)
  - Advanced Composition writing requirement ⁸
  - Humanities/Arts to satisfy the campus general education requirements
  - Social/Behavioral sciences to satisfy the campus general education requirements
  - Cultural Studies to satisfy the campus general education requirement ⁹

Free electives ¹⁰

- Hours given are those typical to meet requirement.
- If necessary, CHEM 102 and CHEM 103, CHEM 104 and CHEM 105, CHEM 222, and CHEM 223 may be substituted for CHEM 202, CHEM 203, CHEM 204, and CHEM 205. Warning: CHEM 222 and CHEM 223 are offered only in the fall semester.
- The course chosen from CHEM 317, CHEM 437, or CHEM 447 cannot be used to satisfy the additional chemistry lab requirement.
- Students who present less than 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation must complete two additional courses chosen from the list. Students who will present at least 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation are required to complete only one laboratory course from the list.
- Students contemplating transfer to the chemical engineering curriculum should choose MATH 415.
- Three hours maximum credit in CHEM 199. Additional courses in the sciences and engineering can be taken upon the approval of the chair of the chemistry department advising committee. Most approved courses must have a strong technical prerequisite, such as one year of college-level math or science.
- The requirements for the Campus General Education categories Natural Sciences and Technology and Quantitative Reasoning I and II are fulfilled through required course work in the curriculum.
- The course taken to satisfy the Advanced Composition requirement may also be used to partially satisfy one of the core chemistry, advanced chemistry, mathematics, physics, or technical electives requirements (if appropriate), or may be used to partially satisfy the free electives requirements.
- The courses taken to satisfy Western and/or Non-Western Civilization requirements may also be used to satisfy nontechnical and/or free elective categories.
- Restrictions: (1) Courses preparatory to or used to satisfy the minimum requirements specified in the above requirements may not be included as free electives. (2) No first-year foreign language course (e.g., 101, 102, or equivalent) may be included unless it is a different language than used to satisfy the foreign language nontechnical requirement.

Classics

Antony Augoustakis

4080 Foreign Languages Building, 707 South Mathews, Urbana

PH: (217) 333-1008
http://www.classics.illinois.edu/

The Department of the Classics offers two majors:

BALAS in Classics:

The study of the languages and cultures of ancient Greece and Rome is valuable for those seeking a broad education in the liberal arts or preparing for graduate study in one of the many fields of Classical, Medieval, or Renaissance scholarship. It is also excellent preparation for the advanced study of law and medicine; it is increasingly admired in the business world. Within the general requirements of the major, the Department of the Classics offers individual programs designed to meet the needs and interests of each student. Close interaction between faculty and students, individual attention, tutorial instruction, opportunity for study abroad in Greece and Italy, and the unmatched resources of...
the Classics Library and the collections of ancient art and other objects from classical antiquity in the museums on campus provide unique advantages for the pursuit of classical studies.

**B.A. in the Teaching of Latin** prepares students to teach Latin.

**For the Degree of Bachelor of Arts in Liberal Arts and Sciences**

**Major in Sciences and Letters Curriculum**

Students in Classics must choose one of the following concentrations. Each concentration requires an additional 12 hours of approved supporting course work which may be drawn from a wide range of fields and disciplines. Students must plan their programs in consultation with a departmental adviser.

- Classical Archaeology Concentration (p. 353)
- Classical Civilization Concentration (p. 353)
- Classics Concentration (p. 353)
- Greek Concentration (p. 354)
- Latin Concentration (p. 354)

**For the Degree of Bachelor of Arts in the Teaching of Latin**

Curriculum Preparatory to the Teaching of Latin (p. 354)

The department sponsors minors in Classical Archaeology (p. 355), Classical Civilization (p. 355), Greek (p. 355), and Latin (p. 355).

CLCV Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CLCV)

**Classical Civilization Courses**

CLCV 100  **Vocab Building-GRK & LAT Roots**  credit: 2 Hours.
Vocabulary building assistance for students through an analysis of Greek and Latin roots, prefixes, and suffixes found in English.

CLCV 102  **Medical Terms-GRK & LAT Roots**  credit: 3 Hours.
Introduction to the study of the Greek and Latin roots of contemporary medical terminology and to the linguistic patterns governing their combination and usage.

CLCV 111  **Mythology of Greece and Rome**  credit: 2 Hours.
Study of the major myths of Greece and Rome and their impact upon later art, music, and literature. Credit is not given for both CLCV 111 and CLCV 115.

CLCV 114  **Introduction to Greek Culture**  credit: 3 Hours.
Studies the social and cultural life in Greece during the classical period. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 115  **Mythology of Greece and Rome**  credit: 3 Hours.
Studies the major myths of Greece and Rome and their impact upon later art, music, and literature. Shares two hours of lecture with CLCV 111; additional hour of lecture-discussion for a closer analysis of topics. Credit is not given for both CLCV 115 and CLCV 111.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 116  **The Roman Achievement**  credit: 3 Hours.
Introduces Roman civilization through the study of the social and cultural life of ancient Rome. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 120  **The Classical Tradition**  credit: 3 Hours.
Survey of the Greco-Roman tradition from late antiquity to the present. Examination of pagan culture in medieval Christianity and Islam, the literary tradition of the Troy tale, the rediscovery of Greek texts and the Florentine Renaissance, classical allusions in Shakespeare and Milton, the political foundation of the U.S. constitution, and the persistence of the classical tradition in contemporary American popular culture. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 131  **Classical Archaeology, Greece**  credit: 3 Hours.
Introduction to the archaeology of ancient Greece and the Aegean world. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 132  **Class Archaeology, Rome-Italy**  credit: 3 Hours.
Introduction to the archaeology of Italy and Rome to the fall of the Roman Empire. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 160  **Ancient Greek & Roman Religion**  credit: 3 Hours.
Study of Greek and Roman Paganism and the rise of Christianity within that context. Readings are confined to ancient sources in English translation. Same as REL 160. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 199  **Undergraduate Open Seminar**  credit: 1 to 5 Hours.
Approved for both letter and S/U grading. May be repeated.

CLCV 203  **Ancient Philosophy**  credit: 4 Hours.
Same as PHIL 203. See PHIL 203. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

CLCV 206  **Classical Allusions in Cinema**  credit: 3 Hours.
Examination of hundreds of contemporary films containing allusions to Greco-Roman antiquity. From the Matrix to Napoleon Dynamite, today's films often mention an ancient character, story or art object. These motifs are conscious and often essential to the theme of the film. We examine this interesting phenomenon by discussing film segments in class, reading about the history of the classical tradition in popular culture, and finally, forming into groups and examining specific types of films. Same as CWL 206. Prerequisite: CLCV 111 or CLCV 115 or consent of instructor.

CLCV 217  **Greek Art**  credit: 3 Hours.
Same as ARTH 215. See ARTH 215.
CLCV 220  Origins of Western Literature  credit: 3 Hours.
Origins and development of selected major genres in Western literature, emphasizing the relationship between classical representatives and their modern successors. Same as CWL 220. May be repeated as topic varies. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 221  The Heroic Tradition  credit: 3 Hours.
Study of ancient epics and their relation to the social consciousness of their period; introductory and background lectures; and readings in the epic tradition of antiquity and its successors. Same as CWL 263. Prerequisite: Sophomore standing or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 222  The Tragic Spirit  credit: 3 Hours.
Readings in the tragic drama of Greece and Rome; a systematic study of the contents and development of this classical literary/dramatic genre. Same as CWL 264 and THEA 210. Prerequisite: Sophomore standing or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 223  Myth, History, Fiction, Tradition  credit: 3 Hours.
A unique examination of several legendary figures from Greco-Roman antiquity. Employing the disciplines of mythology, historiography, and the study of popular culture, the student develops a synchronic, multi-millennial understanding of such men and women as Achilles, Medea, Alexander the Great, and Cleopatra by studying primary ancient, medieval, Renaissance, and modern sources from such diverse perspectives as those of epic, lyric, and dramatic poetry, scientific and romantic biography, political propaganda, painting, popular fiction, and documentary television, as well as feature film. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 225  Greco-Roman Demo, Econ, Cult  credit: 3 Hours.
Greco-Roman Democracies, Economic Policies, and Cultures: Examines the ancient city-states of Athens and Rome; the creation, development and demise of their democratic governments, the relationship between their democracies and militarized empires as well as their economics and fiscal policies; and how these influenced or were represented by their cultural products - including literature, architecture, sculpture, and coinage. Examines the influence of Greco-Roman culture and political institutions on late-medieval and neo-Roman Renaissance city-states, as well as on the foundation of the United States. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 231  Development of Ancient Cities  credit: 3 Hours.
Monuments and archaeological remains illustrating the development of the Greek and Roman city (polis). Same as ARTH 217. Prerequisite: Sophomore standing or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

CLCV 232  Ancient Greek Sanctuaries  credit: 3 Hours.
Survey of the archaeological remains of ancient Greek sanctuaries and their importance to ancient society and religion. Same as ARTH 218, and REL 232. Prerequisite: Sophomore standing or consent of instructor.

CLCV 240  Sex & Gender in Antiquity  credit: 3 Hours.
Understanding of the place of women in ancient societies can be gained through the examination of the ways in which the ancients conceptualized sex and gender. The myths, religion, art and literature of Egypt, Greece, Rome and the Near East contain a wide array of representations of men and women, of their emotions, as well as of their social, legal and political status and relations. Same as CWL 262 and GWS 240. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 291  Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

CLCV 323  The Comic Imagination  credit: 3 Hours.
Study of Greek and Roman comedies in their historical context, with attention to formal elements, stylistic features, aspects of performance and central themes and ideas. Same as CWL 322 and THEA 323. Prerequisite: Sophomore standing or consent of the instructor. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CLCV 410  Ancient Egyptian & Greek Arch  credit: 3 Hours.
Same as ARCH 410. See ARCH 410.

CLCV 411  Ancient Roman Architecture  credit: 3 Hours.
Same as ARCH 411. See ARCH 411.

CLCV 415  Classical Rhetorics  credit: 3 or 4 Hours.
Same as CMN 415 and MDVL 415. See CMN 415.

CLCV 430  History of Translation  credit: 3 or 4 Hours.
Same as CWL 430, ENGL 486, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

CLCV 440  Roman Republic to 44 B.C  credit: 3 or 4 Hours.
Same as HIST 440. See HIST 440.

CLCV 443  The Archaeology of Greece  credit: 3 Hours.
Monuments, material remains, and sculpture and other arts illustrating the development of Greek civilization to 323 B.C. Same as ARTH 415. 3 undergraduate hours. 3 graduate hours. Prerequisite: A course in ancient history, art, or language, or consent of instructor.

CLCV 444  The Archaeology of Italy  credit: 3 Hours.
Monuments, material remains, and sculpture and other arts illustrating the development of Greco-Roman and other ancient Italian civilizations to 330 A. D. Same as ARTH 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: A course in ancient history, art, or language, or consent of instructor.

CLCV 490  Topics in Classical Literature  credit: 3 or 4 Hours.
Study of selected topics in Greek and Latin literature in translation; content is variable. Same as CWL 490. 3 or 4 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: A 200-level classical civilization course or consent of instructor.

CLCV 491  Topics Classic Arch & Civ  credit: 3 or 4 Hours.
Study of selected topics; variable content. 3 or 4 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: Consent of instructor.
Information listed in this catalog is current as of 03/2017

**Greek Courses**

**GRK 101 Elementary Greek I** credit: 4 Hours.
Introduces ancient Greek (both classical and koine), including the reading of simple prose. Same as REL 111.

**GRK 102 Elementary Greek II** credit: 4 Hours.
Continuation of GRK 101. Grammar and reading in classical and koine Greek. Same as REL 112. Prerequisite: GRK 101.

**GRK 199 Undergraduate Open Seminar** credit: 1 to 5 Hours.
May be repeated.

**GRK 201 Classical & Koine Greek I** credit: 4 Hours.
Readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 200. Prerequisite: GRK 102.

**GRK 202 Classical & Koine Greek II** credit: 4 Hours.
Continuation of GRK 201. Further readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 204. Prerequisite: GRK 201 or equivalent.

**GRK 251 Elementary Modern Greek I** credit: 5 Hours.
Same as GRKM 201. See GRKM 201.

**GRK 252 Elementary Modern Greek II** credit: 5 Hours.
Same as GRKM 202. See GRKM 202.

**GRK 401 Homeric Greek** credit: 2 or 3 Hours.
Introduction to Epic Greek; readings of Homer. 3 undergraduate hours. 2 graduate hours. Prerequisite: GRK 202 or equivalent.

**GRK 403 Intermediate Modern Greek I** credit: 4 Hours.
Same as GRKM 403. See GRKM 403.

**GRK 404 Intermediate Modern Greek II** credit: 4 Hours.
Same as GRKM 404. See GRKM 404.

**GRK 411 Greek Prose Composition** credit: 3 Hours.
Practice in the writing of Greek prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: GRK 201 or equivalent.

**GRK 491 Readings in Greek Literature** credit: 3 or 4 Hours.
Readings in authors or special topics chosen by the instructor from the entire extant literature in Greek. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: GRK 401 or equivalent.

**GRK 492 Senior Thesis** credit: 2 to 4 Hours.
Thesis and honors. Open to candidates for distinction in Greek. 2 to 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

**GRK 493 Independent Reading** credit: 1 to 4 Hours.
1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: GRK 401 and consent of instructor.

**GRK 498 Senior Survey** credit: 2 or 4 Hours.
For candidates for honors in Greek and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

**Latin Courses**

**LAT 101 Elementary Latin I** credit: 4 Hours.
Grammar and reading for students who have had no work in Latin.

**LAT 102 Elementary Latin II** credit: 4 Hours.
Grammar and reading of easy prose. Prerequisite: LAT 101 or one year of high school Latin.

**LAT 199 Undergraduate Open Seminar** credit: 1 to 5 Hours.
May be repeated.

**LAT 201 Intermediate Latin** credit: 4 Hours.
Review of grammar; reading of easy narrative prose. Prerequisite: LAT 102 or two years of high school Latin.

**LAT 202 Intro to Latin Literature** credit: 4 Hours.
Continuation of LAT 201, with readings chiefly in Latin poetic literature.

**LAT 401 Survey of Latin Literature** credit: 2 or 3 Hours.
Intermediate level readings in classical Latin literature. 3 undergraduate hours. 2 graduate hours. May be repeated for a total of 6 undergraduate hours or 4 graduate hours in separate semesters, if topics vary. Prerequisite: LAT 104 or four years of high school Latin.

**LAT 411 Intermediate Prose Composition** credit: 3 Hours.
Practice in the writing of Latin prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: LAT 104 or the equivalent.

**LAT 460 Medieval Latin** credit: 3 or 4 Hours.
Literary and historical texts in prose and poetry will be read in the original; the course will also cover patristic writings. Same as MDVL 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: Two years of college Latin or consent of instructor.

**LAT 491 Readings in Latin Literature** credit: 3 or 4 Hours.
Readings in authors or special topics chosen by the instructor from the entire extant literature in Latin. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: Three years of college Latin or equivalent; consent of instructor.

**LAT 492 Senior Thesis** credit: 2 or 4 Hours.
Thesis and honors. For candidates for honors in Latin and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

**LAT 493 Independent Reading** credit: 1 to 4 Hours.
1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: LAT 302 and consent of instructor.

**LAT 498 Senior Survey** credit: 2 or 4 Hours.
For candidates for honors in Latin and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.
Classical Archaeology Concentration
For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum
E-mail: classics@illinois.edu

Minimum required major and supporting course work normally equates to 42-48 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

NOTE: Majors choosing the Classical Civilization and Classical Archaeology concentrations are advised, but not required, to satisfy the campus general education language requirement with one of the classical languages.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department’s honors committee at the earliest opportunity.

Classical Civilization courses of which at least 20 hours must be chosen from the following list:

- CLCV 131 Classical Archaeology, Greece
- CLCV 132 Class Archaeology, Rome-Italy
- CLCV 217 Greek Art
- CLCV 231 Development of Ancient Cities
- CLCV 232 Ancient Greek Sanctuaries
- CLCV 240 Sex & Gender in Antiquity
- CLCV 443 The Archaeology of Greece
- CLCV 444 The Archaeology of Italy
- CLCV 491 Topics Classic Arch & Civ

Supporting courses selected with the approval of the adviser

Classics Concentration

Supporting courses selected with the approval of the adviser

Classical Civilization Concentration
For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum
E-mail: classics@illinois.edu

Minimum required major and supporting course work normally equates to 42-48 hours.

Greek and Latin courses including the following:

- LAT 411 Intermediate Prose Composition
- GRK 411 Greek Prose Composition

Information listed in this catalog is current as of 03/2017
Six additional hours at the 300 or 400 level in each language
Supporting courses selected with the approval of the adviser 12

1 Only 4 hours at the 100-level may be counted.

Curriculum Preparatory to the Teaching of Latin

Ariana Traill
4080 Foreign Languages Building, 707 South Mathews, Urbana
PH: (217) 333-1008
http://classics.illinois.edu

For the Degree of Bachelor of Arts in the Teaching of Latin

A concentration in Latin (p. 354) is sponsored by the Department of the Classics. See Classics (p. 349).

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

E-mail: classics@illinois.edu

Degree title: Bachelor of Arts in the Teaching of Latin

Minimum required course work normally equates to 71 hours. The total hours may be reduced by as much as 16 hours through prerequisite credit for work equivalent to LAT LAT 101-LAT 102-LAT 201-LAT 202 taken in secondary school.

General education: Consult the Curricula Preparatory to Teaching Foreign Languages (http://catalog.illinois.edu/undergraduate/las/foreignlangteach). Minimum hours required for graduation: A minimum of 120 hours of credit is required for graduation. Consult the certification officer at 505 East Green Suite 203 for additional information.

Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department’s honors committee at the earliest opportunity.

Professional Education Requirements. Foreign Languages (http://catalog.illinois.edu/undergraduate/las/foreignlangteach)
LAT 101  Elementary Latin I 4
LAT 102  Elementary Latin II (or equivalent) 4
LAT 201  Intermediate Latin 4
LAT 202  Intro to Latin Literature (or equivalent) 4
LAT 401  Survey of Latin Literature 2 or 3
LAT 302  (or equivalent) 3
LAT 411  Intermediate Prose Composition 3
LAT 491  Readings in Latin Literature (or equivalent) 1 6
HIST 241  History of Ancient Rome (or equivalent) 3
CLCV 131  Classical Archaeology, Greece 3

CLCV 132  Class Archaeology, Rome-Italy (or equivalent) 3
Total Hours 68-69

1 Repeated for up to 6 hours.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department’s honors committee at the earliest opportunity.

Greek courses (excluding GRK 101), including GRK 411 and 9 additional hours at the 400 level
Select two of the following: 6
CLCV 114  Introduction to Greek Culture
CLCV 131  Classical Archaeology, Greece
CLCV 217  Greek Art
CLCV 232  Ancient Greek Sanctuaries
CLCV 443  The Archaeology of Greece
CLCV 490  Topics in Classical Literature 1
CLCV 491  Topics Classic Arch & Civ 1

Supporting courses selected with the approval of the adviser 12

1 CLCV 490 and CLCV 491 apply only when offered on Greek topics.

Latin Concentration

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: classics@illinois.edu
Minimum required major and supporting coursework normally equates to 42-48 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

NOTE: Majors choosing the Classical Civilization and Classical Archaeology concentrations are advised, but not required, to satisfy the campus general education language requirement with one of the classical languages.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department's honors committee at the earliest opportunity.

Latin courses (excluding LAT 101 and LAT 102), including LAT 411 and 9 additional hours at the 400 level

Communication

David Tewksbury, Head of Department
3001 Lincoln Hall, 702 South Wright, Urbana
PH: (217) 333-2683

http://communication.illinois.edu

The Communication major prepares 21st century students to become critical thinkers, avid consumers of information, and effective problem solvers in both their personal and professional lives.

The goal of the Communication course of study is for undergraduates to learn about communication from a broad liberal arts perspective. Students will study the nature of effective communication across
domains, develop effective communication skills, and gain knowledge of how to help others improve their skills. Students gain theoretical and practical knowledge of public advocacy and debate and the critical capacity to evaluate the face-to-face and mediated political and cultural information upon which we all depend. They also should achieve a sophisticated understanding of the political and social import of communication on all aspects of public and private life, from public policy and health care to cultural norms, personal interactions, and notions of racial, class, gender, and sexual identity.

Communication is an appropriate major for:

- students seeking a general liberal arts education, with a particular focus on communication issues
- students preparing for careers in many different fields involving communication skills (for example, law, business management, sales, public relations, human resources, corporate communication, consulting, media-related fields, or politics)
- students preparing for graduate work in areas such as communication, media studies, public policy, or public health
- students preparing for advanced study in law, medicine, business, or human resources

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: communication@illinois.edu

Minimum required major course work equates to a minimum of 37 hours of Communication courses.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

At least 15 hours of the required 37 hours in Communication must be at the 300 level or above.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

Departmental distinction: Superior students are encouraged to consult the departmental honors adviser about requirements and opportunities for participation in the departmental honors program.

CMN 101 Public Speaking 1 3
or CMN 112 Oral & Written Comm II
CMN 102 Intro to Comm Theory & Res 4

Communication Courses: Students will select an option (A or B) and a specialization (if Option B is chosen) in consultation with an undergraduate advisor in Communication.

OPTION A: Students who wish a general course of study will take at least one course from the six areas listed below and the remaining hours will be selected in consultation with an advisor.

CMN 101 Public Speaking 1
or CMN 112 Oral & Written Comm II
CMN 102 Intro to Comm Theory & Res
CMN 103 Communication and Culture
CMN 104 Communication and Health
CMN 105 Communication and Organizations
CMN 106 Interpersonal Communication
CMN 107 Mediated Communication and Technology
CMN 108 Rhetoric and Public Communication

Total Hours 37

1 CMN 111 is a prerequisite for CMN 112. Credit in CMN 111 will count towards the minimum of 37 hours of Communication courses required for the major.

Minor in Communication

E-mail: communication@illinois.edu

The undergraduate minor in Communication is designed for students who wish to obtain a deeper understanding of communication processes and how they influence social, cultural, and political processes. It is appropriate for students majoring in a variety of disciplines in the social sciences or humanities and for students in professionally-oriented programs.

CMN 101 Public Speaking 1 3
or CMN 112 Oral & Written Comm II
CMN 102 Intro to Comm Theory & Res 4

At least one course from each of two areas of specialization within the Department of Communication (Communication and Culture, Communication and Health, Communication and Organizations, Interpersonal Communication, Mediated Communication and Technology, and Rhetoric and Public Communication). These courses must be numbered at the 200-level or above. A list of courses is available from the Communication undergraduate advisor.

Additional hours in Communication. These courses must be numbered at the 200-level or above.

Total Hours 19

1 CMN 111 is a prerequisite for CMN 112. Credit in CMN 111 will not count towards the 19 hours of Communication courses required for the minor.

At least 6 hours must be at the 300-level or 400-level.

CMN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CMN)
Courses

**CMN 101** Public Speaking credit: 3 Hours.
Preparation and presentation of short informative and persuasive speeches; emphasis on the selection and organization of material, methods of securing interest and attention, and the elements of delivery. Credit is not given for both CMN 101 and either CMN 111 or CMN 112.

**CMN 102** Intro to Comm Theory & Res credit: 4 Hours.
Survey of the questions probed, the methods employed, and the current status of knowledge in the study of communication. This course satisfies the General Education Criteria for: UIUC: Behavioral Sciences

**CMN 111** Oral & Written Comm I credit: 3 Hours.
Principles and practice in communication; stress on fundamentals of critical thinking in writing and speaking. The campus rhetoric requirement is fulfilled by this course in conjunction with CMN 112. Credit is not given for both CMN 111 + CMN 112, and other courses that fulfill the Composition I requirement (i.e., RHET 100, RHET 101+RHET 102, RHET 103+RHET 104, RHET 105, ESL 114+ESL 115). Credit is also not given for both CMN 111+CMN 112, and CMN 101. CMN 111+CMN 112 cannot be taken by students who have completed the University's Composition I requirement. This course satisfies the General Education Criteria for: UIUC: Freshman Composition I

**CMN 112** Oral & Written Comm II credit: 3 Hours.
Continuation of Oral & Written Comm I; stress on deliberation and fundamentals of communication and public argument through speaking and writing. The campus rhetoric requirement is fulfilled by this course in conjunction with CMN 112. Credit is not given for both CMN 111+CMN 112 and other courses that fulfill the Composition I requirement (i.e., RHET 100; RHET 101+RHET 102; RHET 103+RHET 104; RHET 105; ESL 114+ESL 115). Credit is also not given for both CMN 111+CMN 112 and CMN 101. CMN 111+CMN 112 may not be taken by students who have completed the University's Composition I requirement. Prerequisite: CMN 111. This course satisfies the General Education Criteria for: UIUC: Freshman Composition I

**CMN 115** Interviewing credit: 3 Hours.
Describes theory and research on interviews in interpersonal and organizational settings; emphasis on practice in conducting and participating in different types of interviews, with materials drawn from various interview settings (i.e., employment, evaluation, medical).

**CMN 191** Freshman Honors Tutorial credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to Chancellors Scholars, Cohn Scholars and James Scholars. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

**CMN 199** Undergraduate Open Seminar credit: 0 to 5 Hours.
May be repeated to a maximum of 6 hours.

**CMN 204** Internship in Teaching Comm credit: 3 Hours.
Supervised experience in assisting in the teaching of an undergraduate course in communication; practice in preparing and presenting brief lectures, conducting activities within class, and assisting students outside of class. Prerequisite: Junior standing, cumulative 3.0 grade-point average, 3.5 grade-point average in Communication coursework, recommendation from an instructor, and approval by application.

**CMN 210** Public Comm in Everyday Life credit: 3 Hours.
Introduces concepts useful for the critical analysis of public communication in everyday life. Drawing on communication theory and practice, especially theories of rhetoric, the course investigates techniques of persuasion, offers tools for critical analysis of public discourse, and considers the political and ethical implications of various forms of public communication. This course satisfies the General Education Criteria for: UIUC: HistPhilosPerspect UIUC: WesternCompartV Cult

**CMN 211** Business Communication credit: 3 Hours.
Focus on relevant theory and research on communication strategies and skills vital to diverse business contexts. Topics will include communication in civic engagement and in multinational corporations, cross-cultural communication, ethics, telecommuting, virtual work teams, and effective writing. Study, preparation, and presentation of the chief types of business speeches and other forms of communication; special attention to conferences, sales talks, interviews, and job applications are included. Prerequisite: CMN 101.

**CMN 212** Intro to Organizational Comm credit: 3 Hours.
Considers major theories, research questions, and approaches to organizational communication.

**CMN 213** Small Group Communication credit: 3 Hours.
Considers major theories, processes, and practical measures contributing to effective communication in small group and team contexts. Credit is not given for CMN 113 and CMN 213.

**CMN 220** Communicating Public Policy credit: 3 Hours.
Study of the nature of policy-oriented communication; analysis and formulation of positions on issues of professional, personal, or public interest; design and presentation of public policy messages addressed to varying tasks and audiences, with special emphasis on advanced writing skills. Prerequisite: Completion of campus Composition I general education requirement. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

**CMN 230** Intro to Interpersonal Comm credit: 3 Hours.
Study of communication theory and its application to interpersonal relationships; extensive discussion of problems of conflict and misunderstanding in personal affairs to facilitate the development of knowledge, insights, and skills in the processes of face-to-face interaction.

**CMN 231** Communication and Conflict credit: 3 Hours.
Examines how people experience and manage conflict in both private and public settings. Units focus on conflict in interpersonal, small group, and organizational contexts. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**CMN 232** Intro to Intercultural Comm credit: 3 Hours.
Introduction to the study of intercultural communication in a variety of contexts, including domestic and international; examines theory and research to explain what happens when people from different cultural and linguistic backgrounds interact. Requires students to think critically about the ways in which “taken-for-granted” ways of thinking, acting, and interacting are culturally specific. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures UIUC: Social Sciences
CMN 260  Intro to Health Communication  credit: 3 Hours.
Introduces theory and research on communication in health and illness contexts. Explores how messages from media, interpersonal, and organizational sources affect health beliefs and behaviors. This course satisfies the General Education Criteria for:
UIUC: Behavioral Sciences
UIUC: Western Compartv Cult
CMN 275  Media, Money and Power  credit: 3 Hours.
Describes the political economy of the media in the U.S. Acquaints students with a core understanding of how the media system operates, and with what effects, in a capitalist society. Examines the role of advertising, public relations, corporate concentration, and government regulation upon news reporting, entertainment, culture, and participatory democracy. Also examines issues related to the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult
CMN 277  Intro to Mediated Comm  credit: 4 Hours.
Survey of the history, structure, forms, and social effects of the American mass media.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
CMN 280  Comm Technology & Society  credit: 3 Hours.
Introduction to theory and research on both old and new communication technologies; focus will be on how these technological systems develop and are used, and what implications of these systems have for culture and society.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
CMN 304  Communication Internship  credit: 1 to 3 Hours.
Directed internship experience for Communication majors. Students must have consent of the Internship Coordinator. May be repeated in separate terms to a maximum of 6 hours.
CMN 310  The Rhetorical Tradition  credit: 3 Hours.
Survey of major trends in the development of rhetorical theory from Homer to the present.
CMN 320  Comm Controversy Public Policy  credit: 3 Hours.
Examines how public policy shapes American life, by providing an advanced analysis of the controversies, discourses and effects of public policy with a focus on sustainability issues. Examines the American landscape, energy sources, environment, food systems, political process, and government lobbying rules and reform. Provides in-depth analysis of the definitions and histories of public policy and the tensions between public and private spheres that shape it. Develops a fundamental understanding of public versus private spheres; analyzes and critiques how public policy shapes American historical and cultural landscapes; increases skillfulness in oral and written analysis of controversies, institutions, political and economic power brokers, and social norms.
Prerequisite: CMN 220 or consent of instructor.
CMN 321  Strategies of Persuasion  credit: 3 Hours.
Studies of powerful instances of public persuasion; students examine key means of public influence.
CMN 323  Argumentation  credit: 3 Hours.
Study of the theory of argument, e.g., evidence, reasoning, and construction of briefs; practice in formal and informal forms of debate and public discourse on current public questions. Prerequisite: CMN 101.
CMN 325  Politics and the Media  credit: 3 Hours.
Same as MACS 322 and PS 312. See PS 312.
CMN 326  Mass Media and the Audience  credit: 3 Hours.
Presents information on how to conceptualize audiences, mass media use, and reception of media messages. Also examines the character of the audience experience, uses and gratifications of mass media, social cognition, and studies of audiences as interpretive communities.
CMN 336  Family Communication  credit: 3 Hours.
Examines the nature and functions of communication in various family configurations (e.g., nuclear families, single-parent families, stepfamilies); discusses both problematic interaction patterns and links between family interaction and strong families.
CMN 338  Relationships and Technologies  credit: 3 Hours.
Examines the uses, functions, and effects of communication technologies in personal relationships (e.g., friendships, dating relationships, families). Emphasis on contemporary and emerging modes of communication with some consideration of historical and enduring modes of interaction.
CMN 340  Visual Politics  credit: 3 Hours.
Explores the role of visual images in U.S. culture, paying special attention to the ways that images function persuasively as political communication. Provides tools for analyzing historical and contemporary images and artifacts, such as photographs, prints, paintings, advertisements, and memorials. Emphasis on how visual images are used for remembering and memorializing; confronting and resisting; consuming and commodifying; governing and authorizing; and visualizing and informing.
CMN 345  Visual Media Effects  credit: 3 Hours.
Provides an introduction to visual media effects in communication, and is intended for students with little or no experience with visual aspects of communication. Focuses on social scientific approaches to understanding visual media effects and theories of visual communication.
CMN 357  Intro to Conversation Analysis  credit: 3 Hours.
Same as LING 357. See LING 357.
CMN 361  Storytelling as Oral Communication  credit: 3 Hours.
Explores the role of traditional oral narrative in contemporary social life. Examines some major genres: folktales, family stories, personal growth narratives, professional autobiographical presentations, TED talks. Each of these genres will be examined in terms of content, context in a larger community of discourse, and performance demands. In addition, students will create and perform their own stories representing these genres.
CMN 362  Folklore as Communication  credit: 3 Hours.
Study of unofficial, noncommercial and face-to-face modes of communication, called "folklore" or "vernacular culture." For purposes of this course, "folklore" includes speech, stories, legends, sayings, proverbs, customs, rituals and performances. Students will be asked to develop and use a variety of cultural description and documentation skills. The goal is to give students a strong sense of variety, persistence, and flexibility of traditional culture as it lives in the present, and practice in recording it, writing about it, and analyzing it.
CMN 368 Sexual Communication credit: 3 Hours.
Describes sex as a fundamental activity in the development and maintenance of human relationships. Communication about sex happens in a variety of interpersonal, group, organizational, and mediated contexts. Explores the many ways in which sexual communication intersects our personal, relational, cultural, and institutional norms and values. Topics will include social norms about sexual communication, sexual harassment, family communication about sex, sexual health education, doctor-patient communication about sex, and sex in the media and in advertising. Theory and research on communication processes will be used to elaborate how talk about sex can achieve multiple goals.
CMN 370 Political Economy of Communication credit: 3 Hours.
Addresses significant contemporary social issues from the perspective of the political economy of communication. Issues may include, but are not limited to, the influence of money on political communication, the role of the media in American attitudes toward racial inequalities, or the politics of science reporting. This course will feature a number of recent books on social problems in the United States that have a communication twist. Class-time will be focused on discussing the books. Prerequisite: Junior or senior standing required.
CMN 375 Popular Media and Culture credit: 3 Hours.
Using the critical lens of theories on race, class, gender, and sexuality, this class will investigate the complicated relations among popular media and culture, including how our everyday life and attitudes are thought to be shaped by the media, and how cultural systems can be said to inform the media. By exploring a wide range of media (e.g., film, television, music, the internet, and computer games), students will investigate the national, political, and personal dimensions of popular media and the varied ways in which media construct, reflect and intersect with specific cultural systems, identities, and classifications. May be repeated in separate terms to a maximum of 6 hours.
CMN 377 Propaganda and Modern Society credit: 3 Hours.
Traces the social, economic, and political underpinnings of propaganda and public relations. Examines the rise of corporate propaganda in the early 20th century and explores how these strategies were adapted by a wide range of social and political actors. The second part of the course discusses the above issues from contemporary perspectives. The role of WWI, WWII, and the more recent Iraqi war, in solidifying the role of government and commercial propaganda in society and the frequently blurry distinctions between government propaganda and commercial public relations will also be discussed. The relationship between propaganda, PR and the mass media will constitute a constant site of inquiry. This course focuses on theory, especially critical theory.
CMN 390 Individual Study credit: 1 to 3 Hours.
Individual investigation of special problems. May be repeated to a maximum of 6 hours. Prerequisite: Twelve hours of communication coursework; a grade-point average of 3.25; and consent of head of department.
CMN 396 Special Topics in Comm credit: 3 Hours.
Special topics in communication not treated in regularly scheduled courses. See Class Schedule for current topics. May be repeated as topics vary.
CMN 410 Workplace Comm Technology credit: 3 or 4 Hours.
Focuses on how communication technologies are designed, implemented, adopted, and used within and across organizations. Reviews a broad array of theories used to conceptualize technology in the workplace. Emphasis on how theory may be used to understand applications such as knowledge management, telecommuting, distributed work, and virtual organizations. Further focus on analyzing real-world cases to develop skills necessary for working in contemporary organizations. 3 undergraduate hours. 4 graduate hours.
CMN 411 Organizational Comm Assessment credit: 3 or 4 Hours.
Organizational communication theory applied to the assessment of communication practices in organizations; systematic procedures for diagnosing communication problems and facilitating effective communication in organizations. Extensive use of case studies. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.
CMN 412 Adv Organizational Comm credit: 3 or 4 Hours.
Advanced study of theory and research in organizational communication; considers such topics as communication networks, superior-subordinate communications, task-related and social information processing, and communicating with the external environment. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.
CMN 413 Adv Small Group Communication credit: 3 or 4 Hours.
Advanced study of theory, research, techniques, and training methods in interviewing and group discussion; emphasis on empirical research findings concerning communication processes in face-to-face groups. 3 undergraduate hours. 4 graduate hours.
CMN 415 Classical Rhetorics credit: 3 or 4 Hours.
Survey of the contributions to the theory and practice of rhetoric from Homer to the Renaissance. Same as CLCV 415 and MDVL 415. 3 undergraduate hours. 4 graduate hours.
CMN 416 Early Modern Rhetorics credit: 3 or 4 Hours.
Significant developments in European rhetorical theory from 1500 to the 20th Century. 3 undergraduate hours. 4 graduate hours.
CMN 417 Contemporary Rhetorics credit: 3 or 4 Hours.
Major contributors to rhetorical theory from I.A. Richards to the present. 3 undergraduate hours. 4 graduate hours.
CMN 421 Persuasion Theory & Research credit: 3 or 4 Hours.
Survey of major theories of persuasion, research on factors influencing persuasive effectiveness, and application to problems of persuasive discourse. 3 undergraduate hours. 4 graduate hours.
CMN 423 Rhetorical Criticism credit: 3 or 4 Hours.
Methods of interpreting and judging persuasive discourse with emphasis on political speaking and writing; extensive practice in criticism of rhetorical texts. 3 undergraduate hours. 4 graduate hours.
CMN 424 Campaigning to Win credit: 3 or 4 Hours.
Using a case study approach to illustrate how campaigns attempt to persuade and mobilize voters, students learn how to plan and manage effective political campaigns. Same as PS 411. 3 undergraduate hours. 4 graduate hours.
CMN 427 Children and the Media credit: 3 or 4 Hours.
Examines the role of the mass media in the lives of children. Focuses on how developmental differences influence how children process and respond to the media. Topics include media violence, media advertising, stereotypes in the media, and educational content. 3 undergraduate hours. 4 graduate hours.
CMN 429 Race and the Mass Media credit: 3 or 4 Hours.
Prepresents an overview of racial stereotypes in the mass media and the effects of stereotypical imagery on viewers. Discussion of the structural and social origins of stereotypic media from multiple perspectives focusing on published scholarship that systematically assesses the content and effects of racial representations from a social scientific perspective. Intersections between race, ethnicity, class, and gender also will be explored. 3 undergraduate hours. 4 graduate hours.

CMN 432 Gender and Language credit: 3 or 4 Hours.
Study of actual and perceived differences and similarities in the use of language by women and by men; emphasizes the social contexts of speech. Same as GWS 432, and LING 432. 3 undergraduate hours. 4 graduate hours.

CMN 435 Adv Interpersonal Comm credit: 3 or 4 Hours.
Study of the major processes involved in an individual’s adjustment to the communication situations of everyday life; emphasis on the development of interpersonal competency and orientations, social perception, interpersonal sentiment and hostility, trust, and the social context as factors influencing the understanding and evaluation of interpersonal messages. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 230 or consent of instructor.

CMN 437 Comm in Personal Relationships credit: 3 or 4 Hours.
Examines theories of communication within personal relationships, including family, friendship, and romantic associations. Specific topics include relationship development, conflict, power, self-disclosure, and relational uncertainty. 3 undergraduate hours. 4 graduate hours.

CMN 450 Adv Topics in Public Discourse credit: 3 or 4 Hours.
Study of selected periods and genres of public discourse in historical context, including British, American, French, Russian, German, Chinese, and Japanese. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: One course in rhetorical criticism or consent of instructor.

CMN 462 Interpersonal Health Comm credit: 3 or 4 Hours.
Examines the role of communication in the management of mental and physical health. Focuses on topics such as communication and illness identity, health and interpersonal relationships, health care provider-patient interactions, impacts of technology on health communication, and health education and prevention efforts. 3 undergraduate hours. 4 graduate hours.

CMN 463 Organizational Health Comm credit: 3 or 4 Hours.
Focuses on organizational issues shaping communication between providers, patients, and consumers of health care and information, including background on financing personal medical services; organizations, professions, and their interrelationships involved in providing medical services; theorizing communication and organization in personal medical services; and communication between organizations and the public on health issues. Topics include managed care, professional communication, the hospital as a unique communication site, ethics in health communication, direct-to-consumer drug advertising, and health crisis communication. 3 undergraduate hours. 4 graduate hours.

CMN 464 Health Communication Campaigns credit: 3 or 4 Hours.
Focuses on the theoretical principles behind designing, implementing, and evaluating a health communication campaign. Students will be exposed to campaigns pertaining to alcohol abuse, illicit drug use, organ donation, safe sex, tobacco use, among others. The first part of the course reviews theories used in health communication campaigns, derived from the disciplines of communication, social psychology, and public health. The second part of the course focuses on designing campaigns and creating messages as well as evaluating the effects of those campaigns and messages. 3 undergraduate hours. 4 graduate hours.

CMN 465 Social Marketing Health&Behav credit: 3 or 4 Hours.
Applies marketing concepts and practices to bring about behavior change for a social good. Social marketing is an approach to planning and implementing projects and programs that emphasizes a customer-centered mindset to learn what people want and need to change their behavior. Designed to give students a thorough orientation to the discipline of social marketing and its application to a range of problems with an emphasis on issues in health contexts. Topics will include audience research, segmentation strategies, communication channels, marketing mix, and the application of behavioral theory. Students will acquire practical skills in the design, implementation, and evaluation of health intervention initiatives that use social marketing. Same as CHLH 465. 3 undergraduate hours. 4 graduate hours.

CMN 467 Communication & Health Equity credit: 3 or 4 Hours.
Explores the role that communication plays as both a potential contributor to existing health inequalities and a means of helping to reduce them. Drawing on theories and research from communication, public health, and related social science disciplines, the course reviews relevant academic literature and utilizes media and policy examples to engage with key topics, such as communication inequalities and public discourse surrounding inequality and social determinants of health. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above.

CMN 476 Commercialism and the Public credit: 3 or 4 Hours.
Explores the influences of advertising and commercialism and their role in defining our political culture, social institutions, and personal lives. Through readings, written reflection, visual presentations, and class discussions, the course explores a wide range of advertising and consumer issues and discusses how consumers negotiate these forces. The first part of the course is devoted to a historical overview; discussing the risk and evolving nature of advertising throughout the 20th century. Having established a historical framework, the course offers six contemporary topics to be discussed in the remainder of the semester. Topics may include, but not be limited to: the commercial mass media; the public relations industry; gender in advertising; commercialization of childhood; the commercialization of medicine and science; contemporary consumer society; advertising in schools; and food, advertising, and body image. 3 undergraduate hours. 4 graduate hours.

CMN 491 Honors Individual Study credit: 2 Hours.
Individual investigation of special problems. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Twelve hours of communication; a grade-point average of 3.50; and consent of head of department.

CMN 493 Honors Senior Thesis credit: 2 Hours.
Individual study leading to a thesis for honors in the Department of Communication. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Senior standing; a grade-point average of 3.50; and consent of head of department.
CMN 496  Adv Topics in Communication  credit: 3 or 4 Hours.
Advanced topics in communication not treated in regularly scheduled courses; see Class Schedule for current topics. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary.

Comparative and World Literature, Program in
Lilya Kaganovsky
3080 Foreign Languages Building, 707 South Mathews, Urbana
PH: (217) 333-4987
http://www.complit.illinois.edu/Welcome.html

A student who elects comparative literature as a major must complete 48 hours, including at least 12 hours in courses numbered 300 or above.
The major comprises two concentrations, a Comparative Literature concentration (p. 366) and a World Literature concentration (p. 367) (foreign literatures in translation). Besides knowing English, the student who chooses the Comparative Literature concentration must have sufficient linguistic skill in at least one foreign language to participate in 200- to 400-level literature courses offered by the various foreign language and literature departments.

As soon as a student contemplates choosing comparative and world literature as a major, the faculty adviser should be consulted. The adviser will assist the student in selecting appropriate courses that will be especially helpful as preparation for the advanced comparative literature training beginning with the junior year. Courses in classical civilization and in literature (particularly courses dealing with works from several countries) are especially recommended at relatively early stages of study. An ample selection of such courses at the 100- and 200-levels exists in the various literature departments.

The distribution of course work allows for considerable flexibility. The major is administered by the Program in Comparative and World Literature.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
E-mail: comlit@illinois.edu

Students must select one concentration in consultation with an advisor.

- Comparative Literature Concentration (p. 366)
- World Literature Concentration (p. 367)

Minor in World Literature
This minor is sponsored by the Program in Comparative and World Literature. Students must choose from either the Europe and the Americas Track or the Asia and Africa Track.
E-mail: comlit@illinois.edu

Europe and the Americas Track
CWL 241 Early Masterpieces of Western Culture  3

Total Hours  18

CWL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CWL)

Courses
CWL 111  Bible as Literature  credit: 3 Hours.
Same as ENGL 114 and REL 101. See REL 101.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 112  Literature of Global Culture  credit: 3 Hours.
Same as ENGL 112. See ENGL 112.

CWL 114  Global Consciousness and Lit  credit: 3 Hours.
Exploration of the cultural and historical roots of globalization and the development of global consciousness from ancient Greece to the present, as reflected primarily in literature, but also with reference to historiography, cartography, religion, art, politics, economics, and popular culture. Course materials including literary texts, articles, historical accounts, political tracts, films, and paintings focus on the mutual perception of, and historical relationships among Europe, the Arab world, Africa, Asia, and the Americas. This course can be used to fulfill either Western or non-Western general education categories, but not both.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures
UIUC: Western Compartv Cult

CWL 117  Russ & E Euro Science Fiction  credit: 3 Hours.
Same as SLAV 117. See SLAV 117.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 119  Literature of Fantasy  credit: 3 Hours.
Same as ENGL 119. See ENGL 119.

Information listed in this catalog is current as of 03/2017
CWL 151 Cross-Cultural Thematics credit: 3 Hours.
Explores a combination of western and non-western literature through the focus on a shared theme, exploring differences in treatment both within and among different cultures. Two such thematic focuses are offered in rotation; one on concepts of love and one on ways of writing about death. Both themes introduce students to a wide array of famous texts from different cultures and also offer some varied perspectives for their own inevitable thoughts on these major topics. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 189 Lit of Asia & Africa I credit: 3 Hours.
Comparative study of major works from Africa, the Middle East, South and East Asia, from ancient times through the medieval period, emphasizing literary, cultural, philosophical, and religious traditions, and cross-cultural contact. Topics studied may include Egyptian and Mesopotamian mythology, Hinduism, Buddhism, Confucianism, Daoism, and the Abrahamic tradition. All readings in English. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 190 Lit of Asia & Africa II credit: 3 Hours.
Comparative study of major works from Africa, the Middle East, South and East Asia, from the early modern to the contemporary period, emphasizing literary, cultural, philosophical, and religious traditions and cross-cultural contact. Topics studied may include Hinduism, Buddhism, Confucianism, Daoism, Islam, colonialism and globalization. All readings in English. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 191 Freshman Honors Tutorial credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors students or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

CWL 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Credit: 1 to 5 hours. Approved for both letter and S/U grading. May be repeated.

CWL 201 Comparative Lit Studies credit: 3 Hours.
Introduction to various methods in comparative literary study, including genres, themes, literary relations, literary movements, and interdisciplinary approaches. Prerequisite: One semester of college literature or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 202 Literature and Ideas credit: 3 Hours.
Analysis of several important world-views in Western civilization (such as classical, Romantic, modern, and so forth), studied comparatively and in relation to selected figures in Western literature. Prerequisite: CWL 241 and CWL 242; or one year of college literature; or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CWL 205 Islam & West Through Lit credit: 3 Hours.
Organized around major cultural/historical/religious topics presented in literature through Western and Islamic eyes, beginning with the Crusades and proceeding into the present. This course will examine stereotypes, fantasies, identifications and political opportunism promoted by the encounter between the West and the Islamic World. Prerequisite: CWL 241 and CWL 242 or one year of college literature. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 206 Classical Allusions in Cinema credit: 3 Hours.
Same as CLCV 206. See CLCV 206.

CWL 207 Indian Cinema in Context credit: 3 Hours.
Introduction to Indian mainstream (mainly Bollywood) cinema and its evolution through the last seven decades. Topics to be explored include, but not limited to, the relation between Indian society/culture and its cinematic representations, cinema’s resistance to dominant nationalist and patriarchal ideologies, its interactions with the postcolonial nation-state of India, how globalization has changed the industry. All films will be screened with subtitles. No knowledge of Hindi or any other Indian language is required. Same as MACS 207. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 208 Cultures & Literatures of South Asia credit: 3 Hours.
Same as ASST 208, REL 208 and SAME 208. See REL 208. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 209 Jewish American Literature credit: 3 Hours.
Same as JS 209 and ENGL 222. See JS 209.

CWL 210 Intro to Mod African Lit credit: 3 Hours.
Same as AFST 210 and ENGL 211. See AFST 210. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 211 War & Peace in Israeli Lit credit: 3 Hours.
War has been a constant shadow over the lives of Israelis. We will examine the history of attitudes to war and peace in Israel as presented through poetry, film and short stories, and explores the plurality of voices and experiences in Israel. Same as JS 211 and SAME 211.

CWL 215 Madness, Myth, and Murder credit: 3 Hours.
Same as SCAN 215. See SCAN 215. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 216 Legends of King Arthur credit: 3 Hours.
Same as ENGL 216 and MDVL 216. See ENGL 216. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

CWL 218 Survey of Ukrainian Literature credit: 3 Hours.
Same as UKR 218. See UKR 218.

CWL 220 Origins of Western Literature credit: 3 Hours.
Same as CLCV 220. See CLCV 220. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult
CWL 221  Jewish Storytelling  credit: 3 Hours.
Same as ENGL 223, JS 220, REL 220, and YDSS 220. See YDSH 220. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 223  The Qur'an (Koran)  credit: 3 Hours.
Same as REL 223, SAME 223. See REL 223. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

CWL 224  German Literature in Trans  credit: 3 Hours.
Same as GER 200. See GER 200.

CWL 225  Consr Afr and Carib Identity  credit: 3 Hours.
Same as AFRO 240, FR 240, and LAST 240. See FR 240. This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

CWL 226  Humanist Persp of Afro-Am Exp  credit: 3 Hours.
Same as AFRO 224. See AFRO 224. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

CWL 227  Golden Age of Russian Lit  credit: 3 Hours.
Same as RUSS 220. See RUSS 220. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 240  Italy Middle Ages & Renaiss  credit: 3 Hours.
Same as ITAL 240 and MDVL 240. See ITAL 240. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CWL 241  Early Masterpieces of Western Culture  credit: 3 Hours.
Comparative study of major works of literature, philosophy and culture in the Western tradition from the ancient world to the Renaissance, from Homer and the Bible to Shakespeare and Cervantes. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 242  Modern Masterpieces of Western Culture  credit: 3 Hours.
Comparative study of major works of literature, philosophy and culture in the Western tradition from the Enlightenment to today, from Descartes and Voltaire to Dickinson and Calvino. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 245  Survey of Polish Literature  credit: 3 Hours.
Same as POL 245. See POL 245.

CWL 249  Russian Lit and Revolution  credit: 3 Hours.
Same as RUSS 225. See RUSS 225. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 250  Grimm's Fairy Tales - ACP  credit: 3 Hours.
Same as ENGL 267 and GER 250. See GER 250. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 251  Viking Mythology  credit: 3 Hours.
Same as MDVL 251, REL 251, and SCAN 251. See SCAN 251. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 252  Viking Sagas in Translation  credit: 3 Hours.
Same as MDVL 252 and SCAN 252. See SCAN 252. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 253  Medieval Lit and Culture  credit: 3 Hours.
Same as ENGL 202 and MDVL 201. See ENGL 202. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 254  Grimm's Fairy Tales in Context  credit: 3 Hours.
Same as ENGL 256 and GER 251. See GER 251. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 255  Enlightenment Lit and Culture  credit: 3 Hours.
Same as ENGL 204. See ENGL 204. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 257  Enlightenment Lit and Culture  credit: 3 Hours.
Same as ENGL 206. See ENGL 206. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 259  Afro-American Literature I  credit: 3 Hours.
Same as AFRO 259 and ENGL 259. See ENGL 259. This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

CWL 260  Afro-American Literature II  credit: 3 Hours.
Same as AFRO 260 and ENGL 260. See ENGL 260. This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

CWL 262  Sex & Gender in Antiquity  credit: 3 Hours.
Same as CLCV 240 and GWS 240. See CLCV 240. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

CWL 263  The Heroic Tradition  credit: 3 Hours.
Same as CLCV 221. See CLCV 221. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compvt Cult

Information listed in this catalog is current as of 03/2017
CWL 341 Love & Sex in Hebrew Lit  credit: 3 Hours.
Love and Sex have been literary themes from the bible, through the modern ages and into the present day in Hebrew Literature. This course will examine the treatments of these themes in different historical periods, paying attention to external influences and literary forms such as poems, stories, films and novels. This course will consider treatments of the erotic, devotional, affectionate, romantic and sexual; including heterosexual and homosexual representations, as well as love of God and Israel. Same as JS 341, REL 340 and SAME 341. Prerequisite: Completion of Advanced Composition requirement or a prior college-level literature course is recommended.

CWL 350 South Asian Goddesses  credit: 3 Hours.
Same as REL 350 and SAME 350. See REL 350.

CWL 376 Children and Youth Literature  credit: 3 Hours.
Same as EURO 376, GWS 376, and SCAN 376. See SCAN 376.

CWL 387 French & Comparative Cinema I  credit: 3 Hours.
Same as FR 387, HUM 387, and MACS 382. See FR 387.

CWL 395 Special Topics Comp Lit I  credit: 3 Hours.
Presentation and discussion of subjects relating literature to other disciplines; topic varies. May be repeated to a maximum of 6 hours.

CWL 400 African Diasporic Lit Americas  credit: 3 or 4 Hours.
Same as AFRO 400. See AFRO 400. This course satisfies the General Education Criteria for: UIUC: US Minority Culture(s)

CWL 410 Modern African Fiction  credit: 3 or 4 Hours.
Same as AFST 410, ENGL 470, and FR 410. See AFST 410.

CWL 411 The Chinese Novel  credit: 3 or 4 Hours.
Same as FR 389, HUM 389, and MACS 383. See FR 389.

CWL 412 Mod Chinese Lit in Translation  credit: 3 or 4 Hours.
Same as REL 412. See EALC 412.

CWL 413 Dante  credit: 3 or 4 Hours.
Same as ITAL 413 and MDVL 413. See ITAL 413.

CWL 414 Petrarch & Boccaccio  credit: 3 or 4 Hours.
Same as ITAL 414 and MDVL 414. See ITAL 414.

CWL 415 Mod Japan Lit in Translation  credit: 2 to 4 Hours.
Same as EALC 415. See EALC 415.

CWL 416 Premodern Chinese Drama  credit: 3 or 4 Hours.
Same as EALC 413 and THEA 488. See EALC 413.

CWL 417 Topics in Medieval Brit Lit  credit: 3 or 4 Hours.
Same as ENGL 412 and MDVL 410. See ENGL 412.

CWL 420 Masterpieces Renaiss Lit  credit: 3 or 4 Hours.
Same as ITAL 420 and MDVL 420. See ITAL 420.

CWL 421 Jewish Life-Writing  credit: 3 or 4 Hours.
Same as HIST 436, REL 420, SLAV 420, and YDISH 420. See YDISH 420.

CWL 428 Japan at War and Peace  credit: 3 or 4 Hours.
Same as EALC 428. See EALC 428.

CWL 430 History of Translation  credit: 3 or 4 Hours.
Same as CLCV 430, ENGL 486, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

CWL 434 Studies in Francophonie  credit: 3 or 4 Hours.
Same as FR 479. See FR 479.
CWL 466  Russia and the Other  credit: 3 or 4 Hours.
Same as RUSS 461. See RUSS 461.

CWL 470  Imagining the Welfare State  credit: 3 or 4 Hours.
Same as EURO 470 and SCAN 470. See SCAN 470.

CWL 471  International Lit Relations  credit: 3 or 4 Hours.
Study of specific relations between authors of different countries; influences of certain works, concepts, or tastes on another work, author, or country; and literary interaction between Eastern and Western cultures. Emphasis changes from term to term. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 472  Kierkegaard and the Self  credit: 3 or 4 Hours.
Same as PHIL 472, REL 472, and SCAN 472. See SCAN 472.

CWL 477  Post-Communist Fiction  credit: 3 or 4 Hours.
Same as SLAV 477 and REES 477. See SLAV 477.

CWL 478  Classical Chinese Thought  credit: 3 or 4 Hours.
Same as EALC 476 and HIST 425. See EALC 476.

CWL 481  Topics in Arabic Literature & Culture  credit: 3 or 4 Hours.
Studies in Arabic literature and culture of various genres, periods, and regions. Graduate students are encouraged to read the texts in the original language. 3 undergraduate hours. 4 graduate hours. May be repeated in the same semester to a maximum of 6 undergraduate hours or 8 graduate hours if topics vary; May be repeated in separate semesters to a maximum of 12 undergraduate hours or 16 graduate hours if topics vary. Prerequisite: One year of college literature or consent of instructor.

CWL 490  Topics in Classical Literature  credit: 3 or 4 Hours.
Same as CLCV 490. See CLCV 490.

CWL 493  Senior Thesis and Honors  credit: 3 to 6 Hours.
Independent research guided by tutor(s), leading to the writing of a comparative thesis. Intended primarily for candidates for honors in comparative literature, but open to other seniors. 3 to 6 undergraduate hours. No graduate credit. May be repeated to a maximum of 12 hours.

CWL 496  Special Topics in Comp Lit II  credit: 3 to 4 Hours.
Selected literary topics of international significance in relation to other cultural expressions. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate or 12 graduate hours. Prerequisite: Consent of instructor.

Comparative Literature Concentration

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: comlit@illinois.edu

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum required major and supporting course work equate to 48 hours with at least 15 hours of Comparative Literature courses in the Comparative Literature concentration and 21 hours of Comparative Literature courses in the World Literature concentration.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction. To be eligible for distinction, a student must have at least a 3.25 cumulative grade-point average and a 3.75 grade-point average in departmental courses, complete a senior thesis (CWL 493), and receive the approval of the departmental honors committee. The departmental honors committee will determine the level of distinction to be awarded.

Comparative Literature Courses (minimum of 15 hours required):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CWL 201</td>
<td>Comparative Lit Studies</td>
<td>3 or 4</td>
</tr>
<tr>
<td>CWL 202</td>
<td>Literature and Ideas</td>
<td>3 or 4</td>
</tr>
</tbody>
</table>

The remaining hours should be selected from different types of courses (e.g., CWL 114, CWL 189, CWL 190, CWL 208, CWL 241, CWL 242, CWL 441, CWL 461, CWL 471).

One Literature in the Original Language (minimum of 15 hours required):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ancient or modern (including Far Eastern and African) 12 hours of which are at the 200-level or above, studied in depth and in its historical development. (Normally this is the primary literature of the student's educational background.)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Second Literature in the Original Language (minimum of 9 hours required): 1

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>200-level or above courses in a second literature in the original language. With the assistance of the adviser, these courses should be carefully chosen so as to correlate meaningfully with the student's primary literature. A student may center his or her interest on a cultural period such as medieval, Renaissance, neo-classical and enlightenment, or modern (nineteenth and twentieth centuries), or on genres, relations, or critical theory. 2</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Single National Literature (minimum of 9 hours required)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>or several national literatures including comparative literature; or in other humanistic fields, such as history, philosophy, speech, art, music, psychology, sociology, theatre, anthropology, and Asian studies. Because some of the courses in these subjects are more suitable than others to balance a student's individual major in comparative literature, the student must follow the guidelines set by his or her adviser.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total Hours 48

1 Literature in the Original Language is defined by what is currently offered by the University (i.e. mostly English, French, German and Spanish).

2 Literatures generally taught in translation (including, but not limited to, Bengali, Chinese, Hebrew, Japanese, Polish, Russian, and Yiddish) may be chosen in consultation with the Undergraduate Advisor.

Information listed in this catalog is current as of 03/2017
If one of the literatures studied is English, a student who continues in a graduate program in comparative literature will be required to acquire a reading knowledge of a second foreign language (i.e., one foreign language for the B.A., two foreign languages for the M.A., three foreign languages for the Ph.D.).

World Literature Concentration
For the Degree of Bachelor of Arts in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
E-mail: comlit@illinois.edu

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours 300 or 400-level courses in the major must be taken on this campus. A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

Minimum required major and supporting course work equate to 48 hours with at least 15 hours of Comparative Literature courses in the Comparative Literature concentration and 21 hours of Comparative Literature courses in the World Literature concentration.

Minimum hours required for graduation: 120 hours

Departmental distinction. To be eligible for distinction, a student must have at least a 3.25 cumulative grade-point average and a 3.75 grade-point average in departmental courses, complete a senior thesis (CWL 493), and receive the approval of the departmental honors committee. The departmental honors committee will determine the level of distinction to be awarded.

Core sequence in Comparative Literature Courses (minimum of 18 hours required):

- CWL 201 Comparative Lit Studies
- CWL 202 Literature and Ideas

The remaining hours should be selected from four of the following 100- or 200-level courses: CWL 114, CWL 151, CWL 189, CWL 190, CWL 208, CWL 241, CWL 242.

One of the following upper-level methodology courses

- CWL 395 Special Topics Comp Lit I
- CWL 441 Themes in Narrative
- CWL 461 Lit Genres and Forms
- CWL 471 International Lit Relations

CWL 496 Special Topics in Comp Lit II

Area/Literature Concentrations: Courses must be chosen in consultation with the student’s faculty advisor and selected from the approved list of courses housed in the department advising office. All courses chosen must be at the 200 level and above.

Two courses in the literatures of Europe and the Americas

Two courses in the literatures of Asia and Africa

Two courses chosen from the two literature groups above

Area/Culture Concentrations:

3 courses, also at the 200 to 400-level, chosen in consultation with the student’s faculty advisor, in other disciplines related to the student’s area of concentration (e.g., anthropology, area studies, art history, cinema studies, history, music history, philosophy, religious studies, women’s studies). Language courses beyond the fifth semester of study may also be used to satisfy this requirement.

Total Hours 48

East Asian Languages and Cultures

Robert Tierney, Head of Department
2090 Foreign Languages Building, 707 South Mathews, Urbana
PH: (217) 244-1432
http://www.ealc.illinois.edu

The Department of East Asian Languages and Cultures offers two concentrations within the East Asian Languages and Cultures major. The goal of the East Asian Languages and Cultures Concentration is that the student gain an introductory knowledge of the civilizations of East Asia, a firm competence in an East Asian language, a solid familiarity with East Asian cultures through multiple disciplines, and a more advanced knowledge of the region including research and writing in a seminar or senior project. This concentration is useful for the student seeking a broad liberal arts education and preparation for graduate or professional study involving East Asia.

The Concentration Preparatory to the Teaching of East Asian Languages is to prepare its graduates for certification for teaching East Asian Languages (currently Mandarin Chinese or Japanese) in the public schools in Illinois.

For the Degree Bachelor of Arts in Liberal Arts and Sciences

E-mail: ealc@illinois.edu

- Concentration in East Asian Languages and Cultures (p. 374)
- Concentration Preparatory for the Teaching of East Asian Languages (p. 373)

Minor in East Asian Languages and Cultures

E-mail: ealc@illinois.edu

Web address for department: http://www.ealc.illinois.edu

Select one of the following:

- CHIN 204 Intermediate Chinese II
- JAPN 204 Intermediate Japanese II
- KOR 204 Intermediate Korean II

Non-language courses as follows:

- EALC 120 East Asian Civilizations

12 additional hours of East Asia-related courses (at least 6 of these hours must be at the 300 or 400 level)

Total Hours 20
Note: Completion of CHIN 204, JAPN 204, or KOR 204 satisfies the LAS foreign language requirement.

ASST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ASST)

### Asian Studies Courses

**ASST 104** Asian Mythology  
credit: 3 Hours.  
Same as REL 104. See REL 104.  
This course satisfies the General Education Criteria for:  
UIUC: HistPhilosoph Perspect  
UIUC: Non-Western Cultures

**ASST 199** Undergraduate Open Seminar  
credit: 1 to 5 Hours.  
May be repeated.

**ASST 208** Cultures & Literatures of South Asia  
credit: 3 Hours.  
Same as CWL 208, REL 208 and SAME 208. See REL 208.  
This course satisfies the General Education Criteria for:  
UIUC: Literature and the Arts  
UIUC: Non-Western Cultures

**ASST 218** S Asian Cultural Landscapes  
credit: 3 Hours.  
Same as LA 218. See LA 218.  
This course satisfies the General Education Criteria for:  
UIUC: Literature and the Arts  
UIUC: Non-Western Cultures

**ASST 286** Southeast Asian Civilizations  
credit: 3 Hours.  
Same as ANTH 286 and HIST 225. See ANTH 286.  
This course satisfies the General Education Criteria for:  
UIUC: HistPhilosoph Perspect  
UIUC: Non-Western Cultures

**ASST 325** Social Media and Global Change  
credit: 3 Hours.  
Same as EPS 325, AFST 325, EURO 325, INFO 325, LAST 325, REES 325, and SAME 325. See EPS 325.

**ASST 346** Gov & Pol of South Asia  
credit: 3 Hours.  
Same as PS 346. See PS 346.

**ASST 347** Gov & Pol of Middle East  
credit: 3 Hours.  
Same as PS 347. See PS 347.

**ASST 390** Individual Study  
credit: 2 to 4 Hours.  
Directed readings in the languages and literatures of South Asia, Southeast Asia, or the Near East. The area selected depends on the student's interest. Prerequisite: Consent of instructor.

**ASST 391** Honors Tutorial  
credit: 2 to 4 Hours.  
Tutorial in the civilizations of South Asia, Southeast Asia, or the Near East. The geographical area or nation and discipline depend on student interests. All students submit a substantial paper. May be repeated to a maximum of 6 hours. Prerequisite: Completion of two honors activities, work in Asian studies, and consent of instructor.

**ASST 398** Colloquium in Asian Studies  
credit: 3 Hours.  
Prerequisite: Junior standing.

**ASST 402** Transnational Islam, Europe-US  
credit: 3 or 4 Hours.  
Same as ANTH 402 and REL 409. See ANTH 402.

**ASST 465** Oceania's Peoples and Cultures  
credit: 3 or 4 Hours.  
Same as ANTH 465. See ANTH 465.

**ASST 486** Peoples of Mainland SE Asia  
credit: 3 or 4 Hours.  
Same as ANTH 486. See ANTH 486.

### Chinese Courses

**CHIN 199** Undergraduate Open Seminar  
credit: 1 to 5 Hours.  
May be repeated.

**CHIN 201** Elementary Chinese I  
credit: 5 Hours.  
Introduction to Mandarin Chinese, including basic skills in speaking, reading, and writing. Not open to students with a background in Chinese language.

**CHIN 202** Elementary Chinese II  
credit: 5 Hours.  
Continuation of CHIN 201. Prerequisite: CHIN 201.

**CHIN 203** Intermediate Chinese I  
credit: 5 Hours.  
First term of second year of the Chinese language, including drill for more advanced conversational fluency; introduction to a greater variety of styles and levels of discourse and usage; and increasing study of the written language and more formal grammar. Prerequisite: CHIN 202 or equivalent.

**CHIN 204** Intermediate Chinese II  
credit: 5 Hours.  
Continuation of CHIN 203. Concentration on ability to engage in fluent discourse, on comprehensive grammatical knowledge, and on ability to read ordinary simple text in Chinese. Prerequisite: CHIN 203 or equivalent.

**CHIN 211** Elementary Spoken Mandarin I  
credit: 4 Hours.  
For non-majors who want to develop a basic competence in spoken Mandarin Chinese. Emphasizes the development of pronunciation, vocabulary and grammar skills with a concurrent emphasis on mastery of Pinyin phonetic orthography. Credit is not given for both this course and CHIN 201 or CHIN 202.

**CHIN 222** Elementary Spoken Mandarin II  
credit: 4 Hours.  
Continuation of CHIN 221. Emphasizes development of pronunciation, vocabulary and grammar skills, with a concurrent emphasis on mastery of Pinyin phonetic orthography. Credit is not given for both this course and CHIN 201 or CHIN 202. Prerequisite: CHIN 221.

**CHIN 241** Chinese Reading and Writing  
credit: 4 Hours.  
Students with a basic background in spoken Mandarin will help develop their ability to read and write Chinese characters. This course fulfills the language requirement for those programs with a two-term sequence. Successful completion of CHIN 241 and CHIN 242 fulfills the Liberal Arts and Science foreign language requirement. Credit is not given for both this course and CHIN 201 or CHIN 202. Prerequisite: CHIN 222, or speaking proficiency as determined by placement test.

**CHIN 242** Chinese Reading and Writing  
credit: 4 Hours.  
Continuation of CHIN 241. This course fulfills the foreign language requirement for those programs with a three- or four-term requirement. Credit is not given for both this course and CHIN 203 or CHIN 204. Prerequisite: CHIN 241, or proficiency as determined by placement test.

**CHIN 305** Advanced Chinese I  
credit: 5 Hours.  
An advanced-level course that emphasizes rapid reading, vocabulary acquisition, and newspaper reading. Prerequisite: CHIN 204 or CHIN 242.

**CHIN 306** Advanced Chinese II  
credit: 5 Hours.  
Continuation of CHIN 305. This course fulfills the language requirement for the undergraduate major in Chinese. Prerequisite: CHIN 305.

**CHIN 407** Intro to Classical Chinese  
credit: 3 or 4 Hours.  
Introduction to the classical literary language, style, and structural patterns as reflected in the Confucian classics and other literary, philosophical, and historical texts. 3 undergraduate hours. 4 graduate hours. Prerequisite: CHIN 202 or equivalent.
CHIN 408  Readings in Literary Chinese  credit: 3 or 4 Hours.
Readings in texts selected from the Confucian classics and other
literary, philosophical, and historical texts. Attention is given to linguistic
patterns and philosophical concepts and problems of translation.
3 undergraduate hours. 4 graduate hours. Prerequisite: CHIN 407 or
equivalent.

CHIN 409  Social Science Rdgs Chinese  credit: 3 or 4 Hours.
Reading and translation of selected Chinese texts in the social
sciences with emphasis on specialized terminology and prose style. 3
undergraduate hours. 4 graduate hours. May be repeated to a maximum
of 9 undergraduate hours, or 12 graduate hours. Prerequisite: Three years
of modern Chinese.

CHIN 440  Fourth-Year Chinese I  credit: 3 or 4 Hours.
The focus of this course is on reading and discussing modern and pre-
modern Chinese literary selections in Chinese. Students continue to
develop dictionary, literary and writing skills begun at the advanced
(305-306) levels. 3 undergraduate hours. 4 graduate hours. Prerequisite:
CHIN 306 or equivalent.

CHIN 441  Fourth-Year Chinese II  credit: 3 or 4 Hours.
Continuation of CHIN 440. 3 undergraduate hours. 4 graduate hours.
Prerequisite: CHIN 440 or equivalent.

CHIN 477  Chin Orth & Grm for Lng Tchg  credit: 3 Hours.
Chinese orthography and grammar for language teaching. Teaching
Mandarin Chinese in an English speaking environment. Covers the
Chinese writing and sound systems, vocabulary, grammar, dialects
and review available teaching materials. Course meets for the first six
weeks of the semester only. 3 undergraduate hours. No graduate credit.
Prerequisite: CHIN 441 or equivalent.

CHIN 490  Readings in Chinese Lit  credit: 3 or 4 Hours.
Guided readings in Chinese literature in the vernacular with regular
individual conferences and a paper. 3 undergraduate hours. 4 graduate
hours. May be repeated to a maximum of 6 undergraduate hours or 8
graduate hours. Prerequisite: Reading knowledge of Chinese and consent
of instructor.

CHIN 499  Study Abroad  credit: 0 to 18 Hours.
Lectures, seminars, and practical work in Chinese language, literature,
civilization and in other academic areas appropriate to the student's
course of study. 0 to 18 undergraduate hours. 0 graduate hours. May
be repeated to a maximum of 32 hours per academic year. Prerequisite:
Junior standing and a GPA of 2.5.

EALC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/
DEFAULT/)

E. Asian Languages Cultures Courses

EALC 114  Introduction to East Asian Art  credit: 4 Hours.
Same as ARTH 114. See ARTH 114.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

EALC 120  East Asian Civilizations  credit: 3 Hours.
Same as HIST 120. See HIST 120.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 122  History East Asian Religions  credit: 3 Hours.
Introduction to East Asian religious traditions; emphasizes the ideas
of Confucianism, Taoism, and Buddhism in China and their historical
interactions. Same as REL 122.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 130  The Chinese Language  credit: 3 Hours.
An introduction to the sociolinguistic study of the Chinese language.
Approved for both letter and S/U grading. This course does not fulfill the
campus foreign language requirement.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

EALC 132  Zen  credit: 3 Hours.
Same as REL 132. See REL 132.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

EALC 200  Traditional China  credit: 3 Hours.
Same as HIST 200. See HIST 200.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 222  Chinese Thght Confucius to Mao  credit: 3 Hours.
Examination of China's principal philosophical, religious, and political
schools of thought - such as Confucianism, Taoism, Zen Buddhism, and
Maoism - as ways of understanding one of the world's major civilizations;
the period of the classical philosophers, the glory years of empire, and the
troubled era of Western contact receive approximately equal attention.
Same as HIST 222 and REL 224.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 226  Premodern Japanese History  credit: 3 Hours.
Same as HIST 226. See HIST 226.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 227  Modern Japanese History  credit: 3 Hours.
Same as HIST 227. See HIST 227.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 240  Chinese Civilization  credit: 3 Hours.
Introduction to the historical development of Chinese civilization.
Emphasis will be on broad themes and the connections among cultural
values, social institutions, political structures, and contacts with
outsiders. Visual and literary evidence will be stressed.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

Information listed in this catalog is current as of 03/2017
EALC 250  Intro to Japanese Culture  credit: 3 Hours.
Topical introduction to Japanese cultural and aesthetic life with attention
to cultural and aesthetic patterns as they are reflected in literature,
language, and the arts.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

EALC 275  Masterpieces of East Asian Lit  credit: 3 Hours.
Study of major works in the literary traditions of China and Japan,
including haiku, noh, Tale of Genji, kabuki, Tang poetry, Ming theater,
and the colloquial tale. Same as CWL 275. No knowledge of Chinese or
Japanese language required.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 276  Asian Film Genres  credit: 3 Hours.
Same as CWL 276 and ENGL 276. See ENGL 276.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 285  Intro to Korea Through Film  credit: 3 Hours.
Course uses film, literary, and ethnographic works to explore the
impact of Post-Colonial (1945-present) socioeconomic and cultural
transformation on the personal and collective South Korean experience.
Same as ANTH 285.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

EALC 287  Introduction to Buddhism  credit: 3 Hours.
Same as REL 287. See REL 287.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 288  Contemporary East Asia  credit: 3 Hours.
Introduction to aspects of daily life in East Asia in relation to local and
extra-local political and economic structures and transformations. Same as
ANTH 287.

EALC 305  Japan Lit in Translation I  credit: 3 Hours.
Survey of Japanese literature from earliest times to 1600; readings in
prose, poetry, and drama in English translation. Same as CWL 311.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 306  Japan Lit in Translation II  credit: 3 Hours.
Survey of Japanese literature from 1600 to recent times; readings in
prose, poetry, and drama in English translation; and lectures and papers.
Same as CWL 312.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 307  Classical Chinese Lit  credit: 3 Hours.
Surveys Chinese literary works from the classical tradition (history,
philosophy, poetry, literary criticism) with attention to intellectual and
artistic values. Same as CWL 307. No knowledge of Chinese is required.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 308  Chinese Popular Lit  credit: 3 Hours.
Surveys Chinese popular literary works written in the vernacular language
(short story, novel, and drama), with attention to cultural and artistic
values. Same as CWL 308. No knowledge of Chinese is required.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

EALC 333  Language in Japanese Society  credit: 3 Hours.
Examines aspects of language use in contemporary Japanese society,
including cross-cultural communication, social/regional variations, and
problems surrounding linguistic/ethnic minorities in Japanese society.
Prerequisite: Completion of JAPN 202 or equivalent.

EALC 343  Gov & Pol of China  credit: 3 Hours.
Same as PS 343. See PS 343.

EALC 361  Women in East Asia  credit: 3 Hours.
Interdisciplinary inquiry into the cultural and social patterns that have
shaped women's lives in China, Japan, and Korea. Same as GWS 361.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

EALC 365  Contemporary Korean Society  credit: 3 Hours.
Introduces contemporary Korean society: the twentieth century struggle
of Korea for an individual identity; the Korean road to modernization and
its significance for the United States and the developing world. Same as
SOC 365.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

EALC 367  History of Korea  credit: 3 Hours.
Historical examination of the Korean experience, from the earliest times
to the present day: basic political, social, economic patterns; examination
of the cultural and intellectual tradition; Korea's historical role in Asia;
the Korean colonial experience; Korea in the modern world. Same as
HIST 325.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

EALC 390  Individual Study  credit: 2 to 4 Hours.
Directed readings in the languages and literatures of East Asia. The
area selected depends on the student's interest. May be repeated to a
maximum of 8 hours. Prerequisite: Consent of instructor.

EALC 391  Honors Tutorial  credit: 2 to 4 Hours.
Tutorial in the civilizations of East Asia. The country and discipline
depend on student interests. All students submit a substantial paper.
May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.

EALC 398  Colloquium in EALC  credit: 3 Hours.
May be repeated to a maximum of 6 hours. Prerequisite: Junior standing.

EALC 402  Ways of Seeing in Edo Japan  credit: 3 or 4 Hours.
Same as ARTH 402. See ARTH 402.

EALC 403  Word and Image in Chinese Art  credit: 3 or 4 Hours.
Same as ARTH 403. See ARTH 403.
EALC 411  The Chinese Novel  credit: 3 or 4 Hours.
Reading and analysis of representative pieces of Chinese fiction from the fourth century B.C. to 1900 with emphasis on the development of Chinese fiction, its place in the literary tradition, and its role in society. Same as CWL 411. 3 undergraduate hours. 4 graduate hours. No knowledge of Chinese is required.

EALC 412  Mod Chinese Lit in Translation  credit: 3 or 4 Hours.
Reading and analysis of representative selections from Chinese literature since the May 4 Movement (early 20th century), with special attention to the relationship between literature and ideology in twentieth-century China. Same as CWL 412. 3 undergraduate hours. 4 graduate hours. No knowledge of Chinese is required.

EALC 413  Premodern Chinese Drama  credit: 3 or 4 Hours.
Survey of Chinese drama from the 12th century through the early 20th century. Students will read major works of Chinese drama in English translation, as well as works on stagecraft, performance styles, the social functions of drama and the social role of actors. Videotaped contemporary performances of traditional drama will be viewed. Same as CWL 416 and THEA 488. 3 undergraduate hours. 4 graduate hours.

EALC 415  Mod Japan Lit in Translation  credit: 2 to 4 Hours.
Critical study of selected 20th century writers with an emphasis on cultural background, world view, human relationships, aesthetic theories, Japanese and Western traditions, and universal literary issues. Same as CWL 415. 3 undergraduate hours. 2 or 4 graduate hours. Requires no knowledge of Japanese; readings and films. Prerequisite: Junior standing or consent of instructor.

EALC 420  China Under the Qing Dynasty  credit: 2 to 4 Hours.
Same as HIST 420. See HIST 420.

EALC 421  Soc-Econ Hist Modern China  credit: 2 to 4 Hours.
Same as HIST 422. See HIST 422.

EALC 425  Chinese Poetry and Translation  credit: 3 Hours.
A critical introduction to major Chinese poetic genres and an in depth examination of various translation strategies used in the translation of Chinese poetry. The poetry component acquaints students with essential aspects of Chinese language and poetry and thus enables them to evaluate the translated texts from the perspectives of both an insider and outsider. The translation component entails both the evaluation of existing translations and practice by the students. Same as TRST 430. 3 undergraduate hours. 3 graduate hours.

EALC 426  Early Modern Japan  credit: 3 or 4 Hours.
Same as HIST 426. See HIST 426.

EALC 427  Twentieth-Century Japan  credit: 3 or 4 Hours.
Same as HIST 427. See HIST 427.

EALC 428  Japan at War and Peace  credit: 3 or 4 Hours.
Examination of the changing ways the Japanese have imagined war and peace in the twentieth century as documented in novels, memoirs, essays, plays, films, journalism, and other works. Same as CWL 428. 3 undergraduate hours. 3 or 4 graduate hours. Graduate students taking this course for 4 hours credit will be expected to write the same papers as undergraduates. In addition, graduate students will be expected to produce a term paper that will be due at the time of the final exam. Prerequisite: Junior standing or consent of instructor.

EALC 430  Intro to East Asian Ling  credit: 3 or 4 Hours.
Same as LING 430. See LING 430.

EALC 466  Japanese Cinema  credit: 3 or 4 Hours.
Same as MACS 466. See MACS 466.

EALC 469  The Ethnography of Korea  credit: 3 or 4 Hours.
Survey of the English-language anthropological study and representation of Korea, situating this literature topically, historically, theoretically, and methodologically. Same as ANTH 489. 3 undergraduate hours. 4 graduate hours. Prerequisite: ANTH 103 or ANTH 230, or EALC 285 or EALC 365 or EALC 367, or consent of instructor.

EALC 475  Discourse&Grammar in EA Langs  credit: 3 or 4 Hours.
Examines how the regularities in language use that we think of as ‘grammar’ emerge from communicative needs in discourse. Focuses on analysis of grammatical phenomena in East Asian languages. Requires advanced knowledge of Chinese, Japanese, or Korean. 3 undergraduate hours. 4 graduate hours. Prerequisite: One 200 or 300-level course on Chinese culture or consent of instructor.

EALC 484  Buddhist Meditation  credit: 3 Hours.
Same as REL 484. See REL 484.

EALC 488  History of Chinese Buddhism  credit: 3 or 4 Hours.
Survey of the history of Chinese Buddhism since its introduction; analysis of Buddhism's historical trends and styles; and the sociocultural milieu of Chinese Buddhism and its place in the total history of ideas and lifestyles. Same as REL 488. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: REL 287 or consent of instructor.

EALC 490  Individual Study  credit: 2 to 12 Hours.
Supervised individualized study of a topic not covered by regular course offerings. The topic must be approved by the instructor. 3 to 12 undergraduate hours. 2 to 12 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

EALC 495  Topics in Asian Religions  credit: 3 or 4 Hours.
Same as REL 495. See REL 495.

JAP Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/JAPN)

Japanese Courses

JAPN 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

JAPN 201  Elementary Japanese I  credit: 5 Hours.
Introduction to Japanese, spoken language skills and the reading and writing of hirigana, katakana, and kanji.

JAPN 202  Elementary Japanese II  credit: 5 Hours.
Continuation of JAPN 201. Prerequisite: JAPN 201.

JAPN 203  Intermediate Japanese I  credit: 5 Hours.
Prerequisite: JAPN 202 or equivalent.

JAPN 204  Intermediate Japanese II  credit: 5 Hours.
Continuation of JAPN 203. Prerequisite: JAPN 203 or equivalent.

JAPN 305  Advanced Japanese I  credit: 5 Hours.
Readings in graded Japanese texts with oral practice designed to help students acquire the sophisticated vocabulary and grammatical structures of written Japanese. Prerequisite: JAPN 204 or placement test for students who have Japanese background or who have previously taken a course(s) in Japanese.

Information listed in this catalog is current as of 03/2017
JAPN 306  Advanced Japanese II  credit: 5 Hours.
Continuation of JAPN 305. Prerequisite: JAPN 305 or be placement test.

JAPN 407  Intro to Classical Japanese  credit: 3 Hours.
Introduction to the grammar, morphology, vocabulary, and style of classical Japanese language as found in premodern Japanese literary and historical writings. 3 undergraduate hours. 3 graduate hours. Prerequisite: Three years of modern Japanese language or equivalent.

JAPN 408  Readings in Classical Japanese  credit: 3 Hours.
Readings in texts in classical Japanese selected from historical and literary sources of the premodern period. Attention is given to grammatical, morphological, and stylistic features and to problems in translation. Introduction to reading of classical syllabaries and manuscript texts. 3 undergraduate hours. 3 graduate hours. Prerequisite: JAPN 407 or equivalent.

JAPN 409  Social Science Rdgs Japanese  credit: 3 or 4 Hours.
Readings in Japanese social science materials, including articles from newspapers, periodicals, and learned journals. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: JAPN 306 or equivalent.

JAPN 440  Fourth Year Japanese I  credit: 3 or 4 Hours.
Further developments of skills in sophisticated Japanese language use, including readings in authentic materials in a wide variety of writing styles, writing for formal occasions, and speaking appropriately according to the situation while using precise vocabulary in correct level of speech. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 306 or equivalent.

JAPN 441  Fourth Year Japanese II  credit: 3 or 4 Hours.
Continuation of JAPN 440. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 440 or equivalent.

JAPN 460  Japanese as a 2nd Language I  credit: 3 or 4 Hours.
Introduction to basic theory of Japanese pedagogy; teaching methods, and theory and practice of teaching Japanese grammar. 3 undergraduate hours. 4 graduate hours.

JAPN 461  Japanese as a 2nd Language II  credit: 3 or 4 Hours.
Application of pedalinguistics of Japanese; theory and method of instructional exercise development for teaching Japanese in practice teaching of Japanese in the classroom. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 460 or equivalent.

JAPN 490  Readings in Japanese Lit  credit: 3 or 4 Hours.
Guided readings in Japanese literature in the vernacular with regular individual conferences and a paper. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Reading knowledge of Japanese and consent of instructor.

JAPN 499  Study Abroad  credit: 0 to 18 Hours.
Lectures, seminars, and practical work in the Japanese language, literature, and civilization, and in other academic areas appropriate to the student's course of study. No graduate credit. Approved for letter and S/U grading. Prerequisite: Junior standing and a GPA of 3.00.

KOR 201  Elementary Korean I  credit: 5 Hours.
First semester of Korean for students without any background of the Korean language, starting from the Korean alphabet (Hangul) and learning basic grammar, vocabulary, and commonly used expressions, to achieve beginning level of speaking, listening, reading, writing, and basic grammar skills in Korean. Credit is not given for KOR 221 if credit for KOR 221 has been earned.

KOR 202  Elementary Korean II  credit: 5 Hours.
Continuation of KOR 201, and second semester of first year Korean. Students learn basic grammar, vocabulary, and commonly used expressions by practicing conversations and reading conversation based texts, to achieve beginning-intermediate levels of speaking, listening, reading, and writing in the Korean language. Credit is not given for KOR 202 if credit in KOR 222 has been earned. Prerequisite: KOR 201 or as determined by placement test and instructor. Students must have taken KOR 201 at this University. Otherwise, they must take the placement test given in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 203  Intermediate Korean I  credit: 5 Hours.
Continuation of KOR 202 and first semester of the second year Korean. Students practice conversations, study grammar based on conversational materials with variety of styles and levels of discourse and usage, and learn about Korean culture, to achieve intermediate-level fluency. Credit is not given for KOR 203 if credit for KOR 222 has been earned; determination is based on the placement test. Prerequisite: KOR 202 or as determined by a placement exam and an instructor. Students must have taken KOR 202 at this University. Otherwise, they should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 204  Intermediate Korean II  credit: 5 Hours.
Continuation of KOR 203 and second semester of the second year Korean. Students practice conversations and study grammar based on conversational materials with variety of styles and levels of discourse and usage, to achieve intermediate-level fluency in speaking, listening, reading and writing in the Korean language. Credit is not given for KOR 204 if credit for KOR 241 has been earned. Prerequisite: KOR 203 or as determined by a placement exam and an instructor. Students must have taken KOR 203 at this University. Otherwise, they should take the placement exam in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 221  Korean Reading and Writing I  credit: 4 Hours.
First semester of spoken and written Korean for students with background in spoken Korean. Starting from the Korean alphabet (Hangul) students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning level proficiency in reading and writing as well as in speaking. Credit is not given for KOR 221 if credit for KOR 202 has been earned. Prerequisite: Ability to speak and understand spoken Korean as determined by a placement test and an instructor. Students with prior knowledge of Korean must take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).
KOR 222  Korean Reading and Writing II  credit: 4 Hours.
Continuation of KOR 221 and second semester of spoken and written Korean for the students with background in Korean. Students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning-intermediate level proficiency in reading and writing as well as in speaking of Korean. Credit is not given for KOR 222 if credit for KOR 202 has been earned; determination is based on the placement test. Prerequisite: KOR 221 or as determined by a placement test and an instructor. Students must have taken KOR 221 at this University. Otherwise, those with prior knowledge of Korean must take placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 241  Korean Reading and Writing III  credit: 4 Hours.
Continuation of KOR 222 and first semester of the second year of spoken and written Korean. Students learn grammar and vocabulary to achieve intermediate-level speaking, listening, reading and writing in Korean. Credit is not given for KOR 241 if credit for KOR 204 has been earned; determination is based on the placement exam. Prerequisite: KOR 222 or as determined by a placement exam and an instructor. Students must have taken KOR 222 at this University. Otherwise, those with prior knowledge of Korean must take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 242  Korean Reading and Writing IV  credit: 4 Hours.
Continuation of KOR 241 and second semester of the second year of spoken and written Korean. Students are exposed to theme-related passages and dialogues, practicing speaking, listening, reading, and writing, in order to achieve advanced-intermediate level proficiency in Korean. Credit is not given for KOR 242 if credit for KOR 306 has been earned. Prerequisite: KOR 241 or as determined by a placement exam and an instructor. Students must have taken KOR 241 at this University. Otherwise, those with prior knowledge of Korean must take the placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 305  Advanced Korean I  credit: 5 Hours.
Continuation of KOR 204 and first semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students learn more advanced-level vocabulary and expressions and read more authentic texts in Korean. Credit is not given for KOR 305 if credit for KOR 241 has been earned; determination is based on placement test. Prerequisite: KOR 204 or as determined by a placement exam and an instructor. Students must have taken KOR 204 at this University. Otherwise, they should take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 306  Advanced Korean II  credit: 5 Hours.
Continuation of KOR 305 and second semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students will learn about more advanced-level vocabulary and everyday expressions and read texts in Korean where Korean culture is introduced and discussed. Credit is not given for KOR 306 if credit for KOR 242 has been earned. Prerequisite: KOR 305 or as determined by a placement test and an instructor. Students must have taken KOR 305 at this University. Otherwise, they should take the placement test in January. Sign up for the exam in the office of the EALC Department (244-2725).

KOR 440  Fourth Year Korean I  credit: 3 or 4 Hours.
Develop the ability to engage in fluent discourse, to understand authentic texts through the acquisition of advanced-level vocabulary and expressions, and to refine and improve their writing in Korean. Students are expected to engage in class discussions on various topics of Korean culture and society. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 306 or KOR 242 or as determined by a placement test and an instructor. Students must have taken KOR 306 or KOR 242 at this University. Otherwise, those with prior knowledge of Korean should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 441  Fourth Year Korean II  credit: 3 or 4 Hours.
Allows advanced students to further develop their reading comprehension of authentic texts through the acquisition of advanced-level vocabulary and expressions, and to discuss and write on various topics and issues related to contemporary Korea. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 440 or as determined by a placement test and an instructor. Students must have taken KOR 440 at this University. Otherwise, those with prior knowledge of Korean should take the placement test in January. Sign up for the test in the office of the EALC Office (244-2725).

**Concentration Preparatory for the Teaching of East Asian Languages**

This concentration prepares its graduates for teaching an East Asian Language (currently Mandarin Chinese or Japanese) in the public schools in Illinois.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain University of Illinois, cumulative, content area and professional education grade point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages.

Minimum required course work normally equates to 89 hours.

General education: Consult the Curriculum Preparatory to the Teaching of Foreign Languages (http://catalog.illinois.edu/undergraduate/las/foreignlangteach).

Minimum hours required for graduation: A minimum of 120 hours of credit is required for graduation.

Departmental distinction: To be eligible for departmental distinction, a student must have a minimum grade point average of 3.25 overall, a 3.5 average in the major and complete an approved project or series of projects. Consult the Japanese or Chinese teacher education advisor for details.

Foreign study: Future teachers of Mandarin or Japanese are strongly encouraged to engage in one or more semesters of study abroad in China or Japan. Some of the curricular requirements may be met through the Year-in-Japan Program at Konan University or other approved programs or at an exchange program in China.

Students must complete the Professional education course sequence and one teaching area of specialization sequence.
Concentration in East Asian Languages and Cultures

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting course work normally equates to 37-57 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours.

One year of a single East Asian Language beyond the intermediate level (i.e., beyond CHIN 204 or CHIN 242; JAPN 204; KOR 204 or KOR 241).

The total of hours for Teaching Area of Specialization may be reduced by as much as 20 hours through prerequisite credit for work equivalent to Japan or Chinese 201 through 204 taken in secondary school or by demonstrated proficiency by examination.

Economics

Martin Perry
101 David Kinley Hall, 1407 W. Gregory, Urbana
PH: (217) 333-2682
http://www.economics.illinois.edu/

Economics is a social science that studies the problems caused by scarcity and how individuals, institutions, and societies may deal with these problems. Economists frequently require quantitative skills, such as calculus and statistics, to derive economic principles that are useful in forming policies designed to solve economic problems.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: econug@illinois.edu

Minimum required major and supporting course work normally equates to 55-56 hours including a minimum of 30 hours of economics courses excluding ECON 199, ECON 220, ECON 398, and ECON 399.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.
Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: A student must have a grade point average of at least 3.25 overall and at least 3.5 in economics; complete a research project (e.g., complete ECON 399); and be recommended by the faculty research adviser.

Economics Courses including:

- ECON 102 Microeconomic Principles
- ECON 103 Macroeconomic Principles
- ECON 198 Economics at Illinois
- ECON 202 Economic Statistics I
- ECON 203 Economic Statistics II
- ECON 302 Inter Microeconomic Theory
- ECON 303 Inter Macroeconomic Theory

11 additional hours of economics at the 300- or 400-level

Mathematics:

- MATH 220 Calculus
- MATH 221 Calculus II

Additional mathematics courses are recommended

Supporting course work. 18 hours of courses outside economics but related to the student’s major interest in economics (see www.economics.illinois.edu/programs/undergrad for details).

1 Excluding ECON 398 and ECON 399.

For further information, please visit the Economics undergraduate program page (http://www.economics.illinois.edu/undergrad/info).

ECON Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/ECON)

Courses

ECON 101 Introduction to Economics credit: 4 Hours.
General survey of the operation of the economic system; emphasizes the determination of the level of national income, the pricing and allocation of products, and factors of production under existing conditions in the United States. This is an honors course limited to students currently enrolled in the Chancellor’s Scholar Program. Credit is not given for ECON 101 if credit has been earned in both ECON 102 and ECON 103. This course satisfies the General Education Criteria for: UIUC: Social Sciences

ECON 102 Microeconomic Principles credit: 3 Hours.
Introduction to the functions of individual decision-makers, both consumers and producers, within the larger economic system. Primary emphasis on the nature and functions of market products, the theory of the firm under varying conditions of competition and monopoly, and the role of government in prompting efficiency in the economy. Credit is not given for ECON 102 and ACE 100.
This course satisfies the General Education Criteria for: UIUC: Social Sciences

ECON 103 Macroeconomic Principles credit: 3 Hours.
Introduction to the theory of determination of total or aggregate income, employment, output, price levels, and the role of money in the economy. Primary emphasis on monetary and fiscal policy, inflation, unemployment, economic growth, and international economics. This course satisfies the General Education Criteria for: UIUC: Social Sciences

ECON 198 Economics at Illinois credit: 1 Hour.
An introductory course intended to help students explore the various fields of economics. Presents brief introductions to various faculty members within the Department of Economics at Illinois and an overview of their respective fields. Enrollment limited to undergraduate Economics majors only. Approved for S/U grading only.

ECON 199 Undergraduate Open Seminar credit: 0 to 5 Hours.
Approved for both letter and S/U grading. May be repeated.

ECON 202 Economic Statistics I credit: 3 Hours.
Introduction of basic concepts in statistics including the presentation of data, descriptive statistics, probability theory, discrete and continuous distributions, sampling distributions, estimation, and hypothesis testing. The approach of the class includes both learning the concepts behind basic statistics and also how to apply these concepts in “real-life” situations. Utilizes a practical project format. To complete the Business Statistics sequence, students must also complete ECON 203. Credit is not given for ECON 202 if credit for a college-level introductory statistics course such as PSYC 235, SOC 280, or STAT 100 has been earned. Prerequisite: Credit or registration in one of MATH 220, MATH 221, MATH 234.
This course satisfies the General Education Criteria for: UIUC: Quant Reasoning I

ECON 203 Economic Statistics II credit: 3 Hours.
Continuation of ECON 202. Builds upon point and interval estimation as well as hypothesis testing skills first introduced in ECON 202. Utilizes a practical project format to extend the student skill set to include simple and multiple linear regression and time series techniques. Prerequisite: ECON 202; one of MATH 220, MATH 221, MATH 234.

ECON 210 Environmental Economics credit: 3 Hours.
Same as ACE 210, ENVS 210, NRES 210, and UP 210. See ACE 210. This course satisfies the General Education Criteria for: UIUC: Social Sciences

ECON 220 Intl Economic Principles credit: 3 Hours.
Principles-level course in international economics for non-majors. The first half of course, international trade, covers such topics as comparative advantage, protectionism (tariff and nontariff), impact on income distribution, and industrial policies. The second half, international finance, covers topics such as balance of payments, exchange-rate determination, currency crises, dollarization, and macroeconomic policy in an open economy. Issues relating to globalization will be covered in both halves. Prerequisite: ECON 101; or ECON 102 (or ACE 100) and ECON 103. Credit in ECON 220 is not applicable toward graduation in the Economics Major.

ECON 302 Inter Microeconomic Theory credit: 3 Hours.
Microeconomic analysis including value and distribution theory; analysis of the pricing of the factors of production integrated in a micro-general equilibrium context which builds towards explaining the resource allocation process. Prerequisite: ECON 102 or equivalent. MATH 220, MATH 221, MATH 234 or equivalent.
ECON 303  Inter Macroeconomic Theory  credit: 3 Hours.
The modern theory of the determination of the level and rate of growth of income, employment, output, and the price level; discusses alternate fiscal and monetary policies to facilitate full employment and economic growth. Prerequisite: ECON 102, ECON 103. Recommended: MATH 125; one of MATH 220, MATH 221, MATH 234.

ECON 397  Senior Research I  credit: 2 to 4 Hours.
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year, or consent of instructor; senior standing.

ECON 398  Senior Research II  credit: 2 to 4 Hours.
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year; senior standing.

ECON 399  Undergraduate Open Seminar  credit: 0 to 9 Hours.
Independent study course covering topics not treated by regular course offerings. This class does not satisfy departmental graduation requirements. Approved for both letter and S/U grading. May be repeated. Prerequisite: Junior or senior standing. ECON 101 or equivalent is recommended. ECON 102 or equivalent is recommended.

ECON 411  Public Sector Economics  credit: 2 to 4 Hours.
Economic analysis of government tax and expenditure policies; topics include public good and externality theory, public choice theory, income distribution, cost-benefit analysis, principles of taxation, tax incidence, economic effects and optimal structures of major taxes, and taxation in developing economies. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 414  Urban Economics  credit: 3 or 4 Hours.
Analyzes the urban economy. Topics include: economic reasons for the existence of cities; the theory of urban spatial structure; the effects of taxation on housing decisions; the economics of freeway congestion; economics analysis of local public goods and services; economic analysis of rent control, slum policies and land-use controls. Same as FIN 414. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 420  International Economics  credit: 2 to 4 Hours.
Introduction to the theory of international trade and finance with selected application to current problems of trade policy, balance of payments adjustment, the international monetary system, and globalization issues. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent, or consent of instructor; ECON 303 is recommended.

ECON 440  Economics of Labor Markets  credit: 2 to 4 Hours.
Studies the microeconomic determinants of labor demand and supply, economic effects of unions, and macroeconomic labor market problems. Same as LER 440. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent.

ECON 450  Development Economics  credit: 2 to 4 Hours.
Analyzes the economic problems associated with newly developing nations; emphasizes their economic structures, their factor scarcities, and their programs for development. Not open for graduate credit to graduate candidates in economics. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or ECON 103 or equivalent. ECON 302 strongly recommended.

ECON 451  Program Evaluation in Developing Economies  credit: 3 or 4 Hours.
Advanced economics course on microeconomic issues in developing countries with particular attention to empirical analyses and methodologies to address fundamental theoretical and policy relevant questions. Focus is on topics within health and education, although papers may cover other topics. An original empirical research paper is required, applying ideas and concepts covered in class. Class alternates between lectures (discussing new ideas or concepts and assigned readings) and lab (applying concepts to actual data using Stata). 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203 and ECON 302 or equivalents; for undergraduate students only: Completion of campus Composition I general education requirement. Junior Standing Required. Priority registration provided to Economics Majors.

ECON 452  The Latin American Economies  credit: 2 to 4 Hours.
Focuses on the economic history of the region, the recent industrialization process and its impact, the role of the state and foreign capital, the impact of the recent privatization processes, inflation and stabilization policies, and issues surrounding the distribution of income. Same as ACE 452. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or ECON 103. ECON 302 or ECON 303 strongly recommended.

ECON 462  Macroeconomic Policy  credit: 2 or 3 Hours.
Analyzes current macroeconomic policy issues, problems, and techniques; discusses various policy techniques including monetary, fiscal, incomes, and exchange rate policies, and their effectiveness for treating inflation, unemployment, productivity, resource and exchange rate problems. May emphasize current issues in developed economies or in emerging market economies. 3 undergraduate hours. 2 or 3 graduate hours. Prerequisite: ECON 303 or equivalent.

ECON 465  Mathematical Economics  credit: 2 to 4 Hours.
Introduction to game theory with applications to economics; emphasizes the analysis of static and dynamic games with or without complete information. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: One of MATH 125, MATH 225, MATH 415; MATH 241 or equivalent; ECON 302.

ECON 469  Economics of Risk  credit: 3 or 4 Hours.
Exploration of economic decisions under uncertainty. Includes expected utility theory and non-expected utility theory; applications to individual decision problems in investment and insurance; general equilibrium in markets under uncertainty, including problems generated by asymmetric information; measurement of risk; the value of information obtained before a decision. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302 or equivalent; one of MATH 220 or MATH 221 or equivalent.

ECON 471  Intro to Applied Econometrics  credit: 2 to 4 Hours.
Introduction to specification, estimation, prediction and evaluation of econometric models, emphasizing the interplay between statistical theory and economic applications. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 203 or equivalent; ECON 302 or ECON 303.

ECON 480  Industrial Comp and Monopoly  credit: 2 to 4 Hours.
Analyzes the ways firms and markets are organized, how they interact, outcomes of various types of firm behavior and performance of markets, and causes and types of market failure. Particular emphasis on the contribution of game theory as the equilibrium concept in oligopoly settings. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302.
ECON 481  Govt Reg of Economic Activity  credit: 2 to 4 Hours.
Analysis of economic bases, policies, and consequences of government regulation of economic activity. Reasons for government intervention in market behavior, methods of government intervention, and outcomes are studied. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 482  Health Economics  credit: 3 or 4 Hours.
Economic analysis of the health care industry to explain the demand for and supply of medical care. Includes analysis of behavior of consumers, producers, and insurers; and public policies to regulate the industry and to provide services for the poor and elderly. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 483  Econ of Innovation and Tech  credit: 2 to 4 Hours.
Examines the economic factors shaping innovation and technical change since the industrial revolution with emphasis on the economic relationship between science and technology and the role of government in technical change. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or equivalent; ECON 302 or consent of instructor.

ECON 484  Law and Economics  credit: 2 to 4 Hours.
Applications of economic theory to problems and issues in both civil and criminal law and the effect of legal rules on the allocation of resources; includes property rights, liability and negligence assignment, the use of administrative and common law to mitigate market failure, and the logic of private versus public law enforcement. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent.

ECON 490  Topics in Economics  credit: 3 or 4 Hours.
Treatment of special topics in economics. 3 undergraduate hours. 4 graduate hours. May be repeated in the same term to a maximum of 6 undergraduate hours or 8 graduate hours. May be repeated in separate terms to a maximum of 9 undergraduate hours or 8 graduate hours. Prerequisite: ECON 302 or consent of instructor.

English

Vicki Mahaffey, Department Head
208 English Building, 608 South Wright, Urbana
PH: (217) 333-2391
http://www.english.illinois.edu

English majors at the University of Illinois take 12 courses (36 hours) from the Department of English in the study of literature, text, and culture. These courses help students develop sophisticated interpretation and composition skills through studying a wide range of cultural materials, historical periods, and literatures.

The Department of English sponsors two concentrations.

The English Concentration (p. 388) is organized to provide instruction in literature in English, literary theory and criticism, the English language, English education, film, cultural studies, and closely related fields. Students who major in English have many choices in planning a field of study, but the basic program is designed to accommodate students who seek to broaden their familiarity with our literature, to intensify their language skills for personal and professional reasons, and to learn more about literature's relationship to the other arts, history, philosophy, psychology, and the modern languages.

The English Teaching Concentration (p. 388) leads to certification to teach in Secondary School. Coursework in this concentration is largely similar to the English Concentration and based on the same core goals as the English Concentration. Students working toward earning a teaching certificate are guided toward additional coursework focused on language and composition.

The department also offers a major in Creative Writing (p. 386) and two undergraduate minors- English (http://catalog.illinois.edu/undergraduate/las/academic-units/english/english-minor) and Creative Writing (p. 389).

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

Students must select one concentration.

• English Concentration (p. 388)
• English Teaching Concentration (p. 388)

The Department of English also offers a major in Creative Writing (p. 386).

Minor in Creative Writing (p. 389)

Minor in English (http://catalog.illinois.edu/undergraduate/las/academic-units/english/english-minor)

BTW Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/BTW)

Business and Technical Writing Courses

BTW 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

BTW 220  Desktop Publishing and Design  credit: 2 Hours.
Design and preparation of documents using desktop publishing technology. Students will learn and apply principles governing page design, style sheets, document layout, effective graphics, managing the design process, and usability testing. Students will create a portfolio of design projects.

BTW 250  Principles Bus Comm  credit: 3 Hours.
Teaches students to apply the principles of successful professional communication to workplace writing tasks. Students will also practice editing and supervising the writing of others. Assignments replicate typical business cases and situations, including a report that requires students to compile and interpret research. Credit is not given for both BTW 250 and either BTW 261 or BTW 263. Prerequisite: Junior standing and completion of campus Composition I requirement. This course satisfies the General Education Criteria for:

UIUC: Advanced Composition

BTW 261  Principles Tech Comm  credit: 3 Hours.
Teaches students to apply the principles of successful professional writing to a range of realistic cases in technical communication. Emphasizes flexible problem-solving skills and a clear style for communicating technical information to a range of readers. Assignments will include correspondence, instructions, proposals, and a technical report or similar project. Credit is not given for both BTW 261 and BTW 250 or BTW 263. Prerequisite: Junior standing and completion of campus Composition I requirement. This course satisfies the General Education Criteria for:

UIUC: Advanced Composition
BTW 271 Persuasive Writing credit: 3 Hours.
Students will study principles of persuasion as applied to writing and designing written communications for business and the professions. Included are ads, direct-mail campaigns, argumentative essays, proposals, and other types of writing designed to move readers to action. Prerequisite: Sophomore standing and completion of Composition I requirement.

BTW 272 Report Writing credit: 3 Hours.
Personal direction in a report writing project which can be integrated with research in another course; study of report-writing principles and practices. Classes meet for the first month after which the student and the instructor arrange a conference schedule. Small group meetings are arranged for presentation of proposals, progress reports, and summary reports. Prerequisite: Completion of campus rhetoric requirement and sophomore standing.

BTW 290 Individual Study credit: 0 to 3 Hours.
Independent research with a chosen tutor leading to the writing of a formal report or preparation of some other type of major presentation of information. Enroll in BTW office, 294 English Building. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.

BTW 402 Descriptive English Grammar credit: 3 or 4 Hours.
Same as ENGL 402. See ENGL 402.

BTW 490 Special Topics Prof Writing credit: 3 or 4 Hours.
Study of the forms, situations, and social practices that define writing in particular disciplines or professions. Each class will focus on a specific topic such as science writing, writing in the environmental movement, legal writing, writing in the social sciences, public policy in the popular media, and so on. Assignments will vary with the topic. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Junior standing.

CW Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CW)

Creative Writing Courses

CW 100 Intro to Creative Writing credit: 3 Hours.
Acquaint students with the technical choices a writer makes in creating a story or a poem. Mondays are given to lectures on specific elements of poetry and fiction. Wednesdays are dedicated to readings by faculty and visiting writers. Fridays allow students the opportunity to work in small group discussion sections applying the week’s techniques and skills to a close reading of stories and poems.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

CW 104 Introductory Narrative Writing credit: 3 Hours.
Practice in the writing of narrative prose, with primary emphasis on short fiction. Prerequisite: Completion of campus Composition I general education requirement.

CW 106 Introductory Poetry Writing credit: 3 Hours.
Practice in the writing of poetry; experimentation with a number of fixed forms and free verse, but emphasis mainly on the student’s freedom to develop a personal style. Prerequisite: Completion of campus Composition I general education requirement.

CW 200 Reading for Writers credit: 3 Hours.
Emphasizes the craft of short stories and poems through the study of formal elements central to the production of creative writing (e.g., plot, character, setting, point of view in short fiction and rhythm, meter, line break, imagery, simile, metaphor, formal patterns in poetry). Prerequisite: CW 104 or CW 106. For majors only.

CW 202 Topics in Creative Writing credit: 3 Hours.
Independent writing projects and examination of literature as the cultural basis of the student’s specialized fields. May be repeated as topics vary.

CW 204 Intermediate Narrative Writing credit: 3 Hours.
Practice in the writing of fiction, with emphasis on the short story. Prerequisite: CW 104 or equivalent.

CW 206 Intermediate Poetry Writing credit: 3 Hours.
Builds upon the workshop format of CW 106, with an emphasis on prosody and poetic technique. Students will deepen their sense of craft by putting into practice their study and understanding of a variety of poetic forms (e.g., syllabic poetry, dramatic monologue, sonnet, bound/ free verse) and technical concerns (e.g., voice, tone, line, line break, image). The workshop component of the course typically includes 8-12 completed poems and their revisions. Prerequisite: CW 106.

CW 208 Creative Nonfiction Writing credit: 3 Hours.
Types of nonfiction prose, including the personal essay, memoir, literary journalism, and historical writing. Prerequisite: RHET 233 or CW 243, or equivalent, or consent of instructor.

CW 243 Inter Expository Writing credit: 3 Hours.
Practice in expository types, with emphasis on style and critical analysis. Restricted to Creative Writing majors. Credit is not given for CW 243 and either RHET 243 or RHET 233. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

CW 404 Advanced Narrative Writing credit: 3 or 4 Hours.
Continued practice in the writing of fiction, with emphasis on the longer story. 3 undergraduate hours. 4 graduate hours. May be repeated for a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 204 or equivalent.

CW 406 Advanced Poetry Writing credit: 3 or 4 Hours.
Practice of the writing of poetry aided by intensive study of examples. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 206 or equivalent.

CW 455 Creative Writing Tutorial credit: 3 or 4 Hours.
Personal direction in a writing project: fiction (novel or short stories), poetry or creative nonfiction. Frequency of conference to be determined by the type of project. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 208, CW 404 or CW 406, and consent of the Director of Creative Writing.

Information listed in this catalog is current as of 03/2017
**CW 460  Intro to Literary Editing  credit: 3 Hours.**
Practicum in which students learn all the stages of developing and editing a literary publication. Students will solicit, read, and select poems and stories for an online supplement to the Ninth Letter literary journal. At the end of the semester, the supplement will be published on the Ninth Letter website (www.ninthletter.com). Students will gain experience in professional communications, copyediting, and marketing. 3 undergraduate hours. No graduate credit. May be repeated in separate semesters to a maximum of 6 hours. Prerequisite: CW 104 or CW 106.

**CW 463  Adv Topics in Creative Writing  credit: 3 or 4 Hours.**
Advanced topics course in Creative Writing. Students study selected topic through a workshop model, pursuing advanced development in one or more approaches to writing in a specialized field or genre. 3 undergraduate hours. 4 graduate hours. May be repeated, if topics vary. Prerequisite: Junior standing required.

**ENGL Class Schedule** (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENGL)

**English Courses**

**ENGL 101  Intro to Poetry  credit: 3 Hours.**
Close reading and analysis of poetry and other literary texts. Introduction to argumentative strategies for writing about poetry. Addresses prosody, poetic language (diction, metaphor, image, tone), and major verse forms (the sonnet, elegy, ode, ballad, dramatic monologue, free verse). Students also study poems from a range of literary periods and movements to learn how formal qualities change and develop over time and are relevant to everyday life.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 102  Intro to Drama  credit: 3 Hours.**
Explores such topics as the history of dramatic form, the major dramatic genres, the dramatic traditions of various cultures, and key terms used in the analysis of dramatic works. Reading plays from the ancient Greeks to the contemporary theatre, students will be taught skills in close reading and literary interpretation. Students will consider the importance of performance, considering how meanings might be represented through visual and aural means.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 103  Intro to Fiction  credit: 3 Hours.**
An introduction to the study of literature and literary history at the university level. Explores such topics as the historical role and place of fictional narratives, the idea of genre, relationships between context and meaning in fictional works. Student will develop a critical vocabulary for interpreting and analyzing narrative strategies. Credit is not given for both ENGL 103 and ENGL 109.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 104  Intro to Film  credit: 3 Hours.**
Thoughtful viewing of diverse films (in required weekly screenings), along with ample discussion and critical reading and writing, to gain understanding of cinematic expression and of film’s capacity to entertain and to exert artistic and social influence. Same as MACS 104.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 106  Literature and Experience  credit: 3 Hours.**
Understanding of the relationship between literature and human experience through the study of significant, recurrent themes. May be repeated one time if topics vary.

**ENGL 109  Intro to Fiction-ACP  credit: 3 Hours.**
Introduction to critical analysis of prose fiction. Explores a wide range of short and long fiction across historical periods; examines narrative strategies such as plot, character, and point of view. Special emphasis placed on good literary critical writing. Course is similar to ENGL 103 except for the additional writing component. Credit is not given for both ENGL 109 and ENGL 103. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts

**ENGL 110  Intro Lit Study for Non-Majors  credit: 3 Hours.**
Introduction to literary genres and literary interpretation, with an emphasis on close reading. For non-majors only.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 112  Literature of Global Culture  credit: 3 Hours.**
Through literature and films, studies the impact of historical change on individuals and on cultures, the breakdown of borders, the building of new hierarchies of domination and exploitation, the contact and collision between the local and the global, and the transnational and problematic processes of cultural globalization. Same as CWL 112.

**ENGL 114  Bible as Literature  credit: 3 Hours.**
Same as CWL 111 and REL 101. See REL 101.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

**ENGL 115  Intro to British Literature  credit: 3 Hours.**
Acquaints students with the rich diversity of British prose, poetry, and drama. As a basic introduction to English literature, the course explores a series of literary texts, often thematically related, which appeal to modern readers and at the same time provide interesting insights into the cultural attitudes and values of the periods which produced them.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

**ENGL 116  Intro to American Literature  credit: 3 Hours.**
Explores a sampling of literature written by American authors, including some combination of essays, narratives, drama, fiction, and poems from various periods in American literary history. Texts for reading and discussion will include literature representing a variety of gender and ethnic perspectives.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

**ENGL 117  Shakespeare on Film  credit: 3 Hours.**
Explores the ongoing reinterpretation and appropriation of Shakespeare plays in twenty-first century film. Expect to read around five plays and analyze two productions of each play, and to consider how Shakespeare can be transformed to meet different cultural and contextual demands of the screen. Lecture and discussion. Same as MACS 117.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

---

Information listed in this catalog is current as of 03/2017
ENGL 119  Literature of Fantasy  credit: 3 Hours.
Introduction to the rich traditions of fantasy writing in world literature. While the commercial category of fantasy post-Tolkien will often be the focal point, individual instructors may choose to focus on alternate definitions of the genre: literatures of the fantastic, the uncanny, and the weird; fantasy before the Enlightenment and the advent of realism; fantasy for young adult or child readers; and so on. Same as CWL 119.

ENGL 120  Science Fiction  credit: 3 Hours.
Introduction to the study of science fiction, the genre that has both contributed to scientific knowledge and attempted to make sense of the changes that have taken place in the world since the Enlightenment, the onset of industrialization, and the acceleration of technology. Texts are taken from a variety of literary and pop culture sources: pulps and magazines, novels and films, comics and TV shows.

ENGL 121  Comics and Graphic Narratives  credit: 3 Hours.
Introduction to graphic narratives—comic books, comic strips, graphic novels, manga, webcomics, and so on—from a diverse panoply of cultural, formal, and historical traditions.

ENGL 122  Swords, Sorcery & Sex: The Middle Ages in Popular Culture  credit: 3 Hours.
Explores the use of medievalism in contemporary popular culture. Instructors may draw from film, television, music, fiction, graphic novels, gaming, and other sources, and they approach the material from a variety of cultural, historical, and aesthetic traditions. The goal of the course will be to understand how the medieval periods of world cultures have been reinvented in modern times, and how modernity has been constructed in relation and in opposition to the medieval imaginary. Same as MDVL 122. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 150  Black Literature in America  credit: 3 Hours.
Same as AFRO 105. See AFRO 105. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 191  Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated one time. Prerequisite: Consent of honors advisor.

ENGL 198  Freshman Honors Seminar  credit: 4 Hours.
Introduction to the study of literature, with emphasis on individual work in fundamental problems of literary analysis; works studied are usually a combination either of short poems and short stories or of novels and plays. May be repeated one time if topics vary. Prerequisite: James Scholar standing or other designation as a superior student.

ENGL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
Topics course that varies each semester and by section. The topics offered each semester will be listed in the Class Schedule. Approved for letter and S/U grading. May be repeated.

ENGL 200  Intro to the Study of Lit  credit: 3 Hours.
Introduction to the study of literature, with an emphasis on interpretive theories and methods as well as the formal distinctions between the major literary genres. For majors only. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 202  Medieval Lit and Culture  credit: 3 Hours.
Introduction to the diverse literatures and cultures of the global Middle Ages (Approx. 500-1500 CE). Students will read works by medieval authors in Modern English translation, with particular attention to placing works in their historical and material contexts. Same as CWL 253 and MDVL 201. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 204  Renaissance Lit and Culture  credit: 3 Hours.
Readings in English and continental literary masterpieces with attention to significant cultural influences. Same as CWL 255. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 206  Enlightenment Lit and Culture  credit: 3 Hours.
Study in Anglophone and global texts from the period 1600 to 1800, with attention to cultural and historical contexts. Same as CWL 257. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 207  Romantic Lit and Culture  credit: 3 Hours.
Study of literature, philosophy, visual arts, and social criticism of the British Romantic period, with attention to broader cultural issues. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 208  Victorian Lit and Culture  credit: 3 Hours.
Study of literature, philosophy, visual arts, and social criticism of the British Victorian period, with attention to broader cultural issues. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 209  British Lit to 1800  credit: 3 Hours.
Historical and critical study of selected works of British literature to 1800 in chronological sequence. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 210  British Lit 1800 to Present  credit: 3 Hours.
Historical and critical study of selected works of British literature after 1800 in chronological sequence. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 211  Intro to Mod African Lit  credit: 3 Hours.
Same as AFST 210 and CWL 210. See AFST 210. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures
ENGL 213 Modernist Lit and Culture credit: 3 Hours.
Study of literature, philosophy, visual and performing arts, social criticism, and popular sciences of the Anglo-American Modern period (1880-1920), with attention to broad cultural issues. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comparsv Cult

ENGL 216 Legends of King Arthur credit: 3 Hours.
Arthurian myth and legend is one of the most enduring literary traditions of Western Europe, and the characters of Arthur, Merlin, Guinevere, Lancelot, Gawain and Mordred were as popular in the Middle Ages as they are today. Originating in early medieval Wales, the legends traveled through England to France and Germany and throughout the modern world. Students will study the development of the Arthurian tradition in chronicles, poetry, romances, lais, and fabliaux, comparing variations across cultural and historical boundaries. Same as CWL 216 and MDVL 216. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comparsv Cult

ENGL 218 Introduction to Shakespeare credit: 3 Hours.
Representative readings of Shakespeare's drama and poetry in the context of his age, with emphasis on major plays; selections vary from section to section. Does not fulfill Shakespeare requirement for the English major. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 220 Literature and Science credit: 3 Hours.
Explores the mutual influences of science and literature in some key literary and non-literary texts. Covers scientific texts, literary works, and cultural theory to explore how and why scientific knowledge is intimately linked to literature.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 221 Jewish American Literature credit: 3 Hours.
Same as CWL 209 and JS 209. See JS 209.

ENGL 222 Jewish Storytelling credit: 3 Hours.
Same as CWL 221, JS 220, REL 220, and YDSP 220. See YDSP 220.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comparsv Cult

ENGL 224 Latina/o Popular Culture credit: 3 Hours.
Same as LLS 240 and SPAN 240. See LLS 240.

ENGL 225 Intro to Latina/o Literature credit: 3 Hours.
Same as LLS 242 and SPAN 242. See LLS 242.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 241 Beginnings of Modern Poetry credit: 3 Hours.
An inquiry into some of the more complex and innovative poetry written in English. Students will read poets such as Frost, Robinson, Sandburg, Lindsay, Hardy, Hopkins, Housman, Yeats, Lawrence, the Imagists, and the early Pound and Eliot. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Western Comparsv Cult

ENGL 242 Poetry Since 1940 credit: 3 Hours.
An exploration of English-language poetry written since World War II. Students study some or all of the following major poetic movements of the period: the Beats, the New York School, the Black Mountain poets, the Confessional school, the Deep Image poets, the British “movement” and post-“Movement” poets, the Black Arts movement, Feminist poets, Post-colonial poetry, Language poets, and the current multifarious poetry scene. Prerequisite: Completion of the Composition I requirement.

ENGL 243 Modern Drama I credit: 3 Hours.
Ibsen to O’Neill. Same as CWL 265. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 244 Modern Drama II credit: 3 Hours.
Pirandello to the present. Same as CWL 266. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 245 The Short Story credit: 3 Hours.
Historical and critical study of the short story (American and European) from the early nineteenth century to the present. Same as CWL 267. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 247 The British Novel credit: 3 Hours.
A study of some of the more noteworthy and influential writers of the last two hundred and fifty years. The course traces the development of the novel as a genre that both celebrated and critiqued Britain and British nationalism. Examines how the novel has been important culturally over time. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 248 Brit, Amer & Contin Fiction credit: 3 Hours.
Examination of important thematic and structural relationships - influences, parallels, and variations - among selected major works of the nineteenth and twentieth centuries; readings chosen from works of Bronte, Hardy, Lawrence, Woolf, James, Faulkner, Bellow, Oates, Dostoevsky, Tolstoy, Stendhal, Flaubert, Camus, Kafka, Mann, Hesse, Moravia, and Pavese. All works read in English. Same as CWL 269. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 249 The American Novel to 1914 credit: 3 Hours.
Critical study of selected American novels from the late eighteenth century to 1914. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 250 The American Novel to 1914 credit: 3 Hours.
Critical study of selected American novels from the late eighteenth century to 1914. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 251 The American Novel Since 1914 credit: 3 Hours.
Critical study of selected American novels from 1914 to the present. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

Information listed in this catalog is current as of 03/2017
ENGL 200. Survey of American Lit I. credit: 3 Hours.
American literature and its cultural backgrounds to 1870. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 256. Survey of American Lit II. credit: 3 Hours.
American literature and its cultural backgrounds after 1870. Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 259. Afro-American Literature I. credit: 3 Hours.
Historical and critical study of Afro-American literature in its social and cultural context from the beginning to 1915. Same as AFRO 259 and CWL 259. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

ENGL 260. Afro-American Literature II. credit: 3 Hours.
Historical and critical study of Afro-American literature in its social and cultural context since 1915. Same as AFRO 260 and CWL 260. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

ENGL 261. Topics in Lit and Culture. credit: 3 Hours.
Introductory study of variety of topics in literature and culture, including those that bridge traditional historical periods, focus on themes or movements, and cross disciplinary boundaries. May be repeated up to 6 hours in same or separate terms if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 265. Intro to American Indian Lit. credit: 3 Hours.
Same as AIS 265. See AIS 265.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 266. Grimm's Fairy Tales in Context. credit: 3 Hours.
Same as CWL 254 and GER 251. See GER 251.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 267. Grimms' Fairy Tales - ACP. credit: 3 Hours.
Same as CWL 250 and GER 250. See GER 250.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 268. The Holocaust in Context - ACP. credit: 3 Hours.
Same as CWL 271 and GER 260. See GER 260.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 269. The Holocaust in Context. credit: 3 Hours.
Same as CWL 273 and GER 261. See GER 261.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 270. American Film Genres. credit: 3 Hours.
Introduction to the study of the dominant genres or types U.S. cinema. Examines the elements that constitute genres (such as visual and narrative patterns), the formation and reshaping of genres by filmmakers and the entertainment industry, the social and cultural factors that influence the genre cycles and subgenres, and the landmark works of each genre. The course treats several genres in historical perspective or focus on a single genre. May be repeated in separate terms up to 6 hours if topics vary.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 272. Minority Images in Amer Film. credit: 3 Hours.
Addresses how a range of films made in the United States have represented diverse ethnicities and cultures in relation to each other and to dominant American media conventions and social ideas. A comparative, case study approach examines racial and gender stereotyping, historical and economic factors, and reactions of various audiences to the films. Same as AFRO 272. Prerequisite: Fulfillment of the Composition I English requirement; sophomore standing or above.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 273. American Cinema Since 1950. credit: 3 Hours.
Explores key issues in American cinema from 1950 to the present, structured around central problems of film studies (such as authorship, genre, narratology, film style, gender analysis, and the spectacle of violence), contextualizing them within moments of major transition in the American film industry. Viewing and discussion of a major film each week. Same as MACS 273. Prerequisite: Completion of the Composition I requirement.

ENGL 274. Literature and Society. credit: 3 Hours.
Major literary works presented within the context of social issues of their time. May be repeated with the permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 275. Am Indian and Indigenous Film. credit: 3 Hours.
Same as AIS 275 and MACS 275. See AIS 275.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)
ENGL 276  Asian Film Genres  credit: 3 Hours.
Studies a variable selection of popular film genres produced and circulated in Asia (e.g., martial arts, horror, musicals, anime, melodramas, science fiction, monster movies, comedy) that have an impact across the region, with emphasis on East and Southeast Asia, and beyond. Takes a historical and transnational comparative approach to analyzing shifting narrative and visual and other cinematic realizations of each genre across different contexts, including Western reception and cross-cultural adaptations. Same as CWL 276 and EALC 276.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

ENGL 280  Women Writers  credit: 3 Hours.
Study of British and American women authors. Same as GWS 280. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 281  Women in the Lit Imagination  credit: 3 Hours.
Study of the way various writers, both male and female, have portrayed woman's image, social role, and psychologies in British, American, or Anglophone literature. Same as GWS 281. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 283  Jewish Sacred Literature  credit: 3 Hours.
Same as CWL 283 and REL 283. See REL 283.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 284  Modern Jewish Literature  credit: 3 Hours.
Surveys imaginative literature by Jewish authors from the Enlightenment to the present, including fiction, poetry, drama, and autobiography written in English or translated from other languages. Same as CWL 284 and REL 284. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 285  Postcolonial Lit in English  credit: 3 Hours.
Examination of selected postcolonial literature, theory, and film as texts that "write back" to dominant European representations of power, identity, gender and the Other. Postcolonial writers, critics and filmmakers studied may include Franz Fanon, Edward Said, Aime Cesaire, Ousmane Sembene, Chinua Achebe, Michelle Cliff, Mahesweta Devi, Buchi Emecheta, Derek Walcott and Marlene Nourbese-Philip. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ENGL 286  Asian American Literature  credit: 3 Hours.
Introduction to Asian American literary studies and culture through the reading of major works of literature selected from but not limited to the following American ethnic subgroups: Chinese, Filipino, Japanese, Korean, Indian, Pakistani, and Vietnamese. Same as AAS 286. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 290  Individual Study  credit: 0 to 3 Hours.
Study of selected topics. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite: Consent of instructor.

ENGL 293  Culture and Sustainability  credit: 3 Hours.
An introduction to the study of sustainability in a global humanistic context, with specific focus on the historical, ethical, and cultural dimensions of sustainability. Topics include the major historical turning points in human communities' relationship to their environment and natural resources discourses of environment we inherit from major traditions in philosophy and art; and the full range of sustainability issues confronting human civilization today, considered in cultural context. Readings will be drawn from a range of humanistic disciplines, including literary and cultural studies, science studies, philosophy, anthropology, psychology, political science, and art history. Same as ESE 293.

ENGL 300  Writing About Lit Text&Culture  credit: 3 Hours.
Writing-intensive, variable topic course designed to improve English majors' ability to write clear, well-organized, analytically sound and persuasively argued essays relevant to literary studies. Introduces students to some strategies of literary criticism and research through examination of critical texts appropriate to course topic. For majors only. Prerequisite: Completion of the Composition I requirement; one year of college literature or consent of instructor.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

ENGL 301  CriticalApproaches to Lit&Text  credit: 3 Hours.
Introduction to influential critical methods and to the multiple frameworks for interpretation as illustrated by the intensive analysis of selected texts. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200.

ENGL 310  Introduction to the Study of the English Language  credit: 3 Hours.
Topics in the study of the English language, with emphasis on one or more of the following: the social, political, historical, technological, legal, and economic aspects of language use. Credit is not given for both ENGL 401 and ENGL 310.

ENGL 311  History of the English Language  credit: 3 Hours.
Language variation and change from the earliest forms of English to the present day, with emphasis on the rise of Standard English and the social, geographic, and cultural aspects of linguistic change in English. Credit is not given for both ENGL 403 and ENGL 311.

ENGL 322  Dostoevsky  credit: 3 Hours.
Same as CWL 324 and RUSS 322. See RUSS 322.

ENGL 323  Tolstoy  credit: 3 Hours.
Same as CWL 324 and RUSS 322. See RUSS 322.

ENGL 325  Topics in LGBT Lit & Film  credit: 3 Hours.
Explores topics on representations of non-heteronormative sexuality in canonical and recovered historical texts and in contemporary literature, on literature by LGBT authors, and on theories of sexuality that pertain to systems of textual and cultural meaning. May be repeated in separate terms to a maximum of 6 hours.

Information listed in this catalog is current as of 03/2017
ENGL 330 Slavery and Identity credit: 3 Hours.
Explores slavery in the Americas through its representation in literature over time. Using a variety of disciplinary approaches, we will look at the enslaved, the enslavers, and the middle merchants who facilitated the slave trade, and will examine the experience of slavery and the economic, political, religious, and scientific justifications used to maintain it. We will also examine the African cultural traditions from which the slaves emerged and the aspects of it that lent to creation of the new U.S. culture.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

ENGL 333 Memoir & Autobiography credit: 3 Hours.
Same as GWS 333. See GWS 333.

ENGL 359 Lit Responses to the Holocaust credit: 3 Hours.
Same as CWL 320, JS 320, REL 320, and YDSH 320. See YDSH 320. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

ENGL 360 Environmental Writing credit: 3 Hours.
Same as ESE 360. See ESE 360. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

ENGL 373 Special Topics in Film Studies credit: 3 Hours.
Extended investigation of major subjects and issues in cinema and other media; topics vary and typically include studies of author/directors, genres, historical movements, critical approaches, and themes. Same as MACS 373. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: One college-level course in film studies or literature.

ENGL 374 World Cinema in English credit: 3 Hours.
Course systematically addresses cinema movements and films of different periods, genres, themes and styles produced in one or two Anglophone countries other than the U.S. (e.g., Great Britain, Ireland, Australia, New Zealand, Canada, South Africa, and regions with Anglophone film movements or strands like South Asia and the Caribbean). Topics could include cinema in relation to relevant distinctive national and cultural histories, local audiences and production circumstances, and the challenges of international distribution in light of Hollywood’s global dominance. Meets for 110 minutes twice a week, with some class time devoted to film screenings (not always on same day) and some longer feature films scheduled in required out-of-class screenings announced well in advance. May be repeated to a maximum of 6 credit hours in separate terms if topics vary.

ENGL 378 Fairy Tales & Gender Formation credit: 3 Hours.
Same as GWS 378. See GWS 378.

ENGL 380 Topics in Writing Studies credit: 3 Hours.
Advanced-level work in the field of Writing Studies. Building upon a traditional disciplinary understanding of writing as rhetoric, this course invites students to call upon sociological, anthropological, and/or ideological approaches to the study of writing in order to understand the myriad ways that writing makes meaning(s). See Class Schedule for topics. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Completion of the Composition I requirement.

ENGL 390 Advanced Individual Study credit: 3 Hours.
Advanced study of selected topics. Approved for both letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

ENGL 391 Honors Individual Study credit: 3 Hours.
Study of selected topics. Restricted to English and English education majors with a 3.33 average who are working towards the degree with distinction in English or in English education. May be repeated to a maximum of 6 hours. Prerequisite: Enroll in undergraduate advising office.

ENGL 396 Honors Seminar I credit: 3 Hours.
Themes, movements, and forms in British, American, and Anglophone literature. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department’s Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 397 Honors Seminar II credit: 3 Hours.
Periods in British, American, and Anglophone literature. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department’s Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 398 Honors Seminar III credit: 3 Hours.
Major British, American, and Anglophone authors. Each seminar considers one or two major authors. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department’s Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 402 Descriptive English Grammar credit: 3 or 4 Hours.
An introduction to English linguistics with emphasis on the phonetic, syntactic, and semantic structures of English; language variation, standardization, and change; language legislation and linguistic rights; English as a world language; and the study of language in American schools. Same as BTW 402. 3 undergraduate hours. 4 graduate hours.

ENGL 404 Engl Grammar for ESL Teachers credit: 3 or 4 Hours.
Same as EIL 422. See EIL 422.

ENGL 407 Introduction to Old English credit: 3 or 4 Hours.
Introduction to the form of English spoken and written prior to about AD 1100. Exploring concepts of cultural, historical, and linguistic change, students will learn to read Old English texts in the original. Readings include examples from the prose tradition (e.g., Bede’s story of the poet Caedmon and the Anglo-Saxon Chronicle) as well as poetic texts (e.g., The Dream of the Rood and The Wanderer). Same as MDVL 407. 3 undergraduate hours. 4 graduate hours.

ENGL 411 Chaucer credit: 3 or 4 Hours.
A selection of Chaucer’s major works read in Middle English. Instructors will usually emphasize either the Canterbury Tales or Troilus and Criseyde and the dream visions, but alternate combinations of texts are possible. Students will also be introduced to Chaucer’s fourteenth-century context. Same as MDVL 411. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 412 Topics in Medieval Brit Lit credit: 3 or 4 Hours.
Advanced topics course exploring the literatures of medieval Britain, especially Old and/or Middle English but with some attention to Celtic, French, Latin, and Norse texts in translation. Same as CWL 417 and MDVL 410. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

Information listed in this catalog is current as of 03/2017
ENGL 416  Topics in Brit Drama to 1660  credit: 3 or 4 Hours.
Advanced topics course devoted to dramatic practice in the medieval
and/or early modern British Isles. 3 undergraduate hours. 4 graduate
hours. May be repeated with permission of English advising office to a
maximum of 6 undergraduate hours if topics vary; Graduate students
may repeat if topics vary. Prerequisite: One year of college literature or
consent of instructor.
ENGL 418  Shakespeare  credit: 3 or 4 Hours.
Survey of the plays and poems of William Shakespeare. Reading
assignments will reflect the generic diversity and historical breadth
of Shakespeare's work. 3 undergraduate hours. 4 graduate hours.
Prerequisite: One year of college literature or consent of instructor.
ENGL 421  Later Renaiss Poetry & Prose  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of
college literature or consent of instructor.
ENGL 423  Milton  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of
college literature or consent of instructor.
ENGL 426  Early 18th Century Literature  credit: 3 or 4 Hours.
British Literature between 1600—the restoration of Charles II to the
throne—and 1740. Focus on the plays, poems, and fiction by male and
female authors with particular attention to issues of gender relations,
colonialism and imperial expansion, and class tensions. Writers covered
may include Aphra Behn, Alexander Pope, Eliza Haywood, Jonathan
Swift, John Dryden, the Earl of Rochester, Daniel Defoe, and others. 3
undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 427  Later 18th Century Literature  credit: 3 or 4 Hours.
Focused study of texts produced in Great Britain and its empire between
roughly 1740 and 1790. Writers may include Laurence Sterne, Mary
Leapor, Thomas Warton, and others. 3 undergraduate hours. 4 graduate
hours. Prerequisite: One year of college literature or consent of instructor.
ENGL 428  British Drama 1660-1800  credit: 3 or 4 Hours.
Focused study of the major male and female playwrights who wrote
between 1660 (the reopening of the theaters after the Interregnum) and
roughly 1800. Particular attention will be devoted to the social, cultural,
political, and economic contexts of theatrical performance, and to the
major issues dealt with on the London stage: sexual morality, the role
of women in a patrilineal society, and the problems of empire, trade,
and colonialism. 3 undergraduate hours. 4 graduate hours. Prerequisite: One
year of college literature or consent of instructor.
ENGL 429  18th Century Fiction  credit: 3 or 4 Hours.
Focused study of British and Anglophone fiction in the eighteenth
century. Authors may include Defoe, Swift, Haywood, Fielding,
Richardson, Sterne, Burney, Walpole, Radcliffe, and others. 3
undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 431  Topics in British Romantic Lit  credit: 3 or 4 Hours.
Focused study of British literature between roughly 1785 and 1832.
Authors may include Wollstonecraft, Wordsworth, Coleridge, Keats,
Byron, Austen and others. 3 undergraduate hours. 4 graduate hours.
Prerequisite: One year of college literature or consent of instructor.
ENGL 434  Victorian Poetry & Prose  credit: 3 or 4 Hours.
Study of such major poets as Tennyson, Browning, Arnold, and Hardy;
and of prose writers including Carlyle, Mill, Arnold, Pater, and Huxley. 3
undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 435  19th C British Fiction  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of
college literature or consent of instructor.
ENGL 441  British Lit 1900-1930  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of
college literature or consent of instructor.
ENGL 442  British Lit Since 1930  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of
college literature or consent of instructor.
ENGL 449  American Lit 1820-1865  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 450  American Lit 1865-1914  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 451  American Lit 1914-1945  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 452  American Lit 1945-Present  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college
literature or consent of instructor.
ENGL 455  Major Authors  credit: 3 or 4 Hours.
Intensive study of the work of one or two major authors. 3 undergraduate
hours. 4 graduate hours. May be repeated with permission of English
advising office to a maximum of 6 undergraduate hours if topics vary.
May be repeated for graduate credit if topics vary. Prerequisite: One year
of college literature or consent of instructor.
ENGL 458  Latina/o Performance  credit: 3 or 4 Hours.
Same as LLS 458. See LLS 458.
ENGL 459  Topics in American Indian Lit  credit: 3 or 4 Hours.
Same as AIS 459. See AIS 459.
ENGL 460  Lit of American Minorities  credit: 3 or 4 Hours.
Advanced topics seminar exploring literary expressions of minority
experience in America. 3 undergraduate hours. 4 graduate hours. May
be repeated with permission of English advising office to a maximum of
6 undergraduate hours. Graduate students may repeat as topics vary.
Prerequisite: One year of college literature or consent of instructor.
ENGL 461  Topics in Literature  credit: 3 or 4 Hours.
Advanced seminar on any of a variety of literary topics. 3 undergraduate
hours. 4 graduate hours. May be repeated with permission of English
advising office to a maximum of 6 undergraduate hours if topics vary.
May be repeated for graduate credit if topics vary. Prerequisite: One year
of college literature or consent of instructor.
ENGL 462  Topics in Modem Fiction  credit: 3 or 4 Hours.
Advanced seminar devoted to topics in British, American, and
Anglophone fiction from approximately 1800 to the present day.
Continental fiction in English translation may occasionally be considered.
3 undergraduate hours. 4 graduate hours. May be repeated with
permission of English advising office to a maximum of 6 undergraduate
hours if topics vary. May be repeated for graduate credit if topics vary.
Prerequisite: One year of college literature or consent of instructor.

Information listed in this catalog is current as of 03/2017
ENGL 465 Topics in Drama credit: 3 or 4 Hours.
Seminar covering advanced topics (such as genre, performance context, period, or theme) in drama studies. Same as CWL 465. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 470 Modern African Fiction credit: 3 or 4 Hours.
Same as AFST 410, CWL 410, and FR 410. See AFST 410.

ENGL 475 Lit and Other Disciplines credit: 3 or 4 Hours.
Advanced topics seminar exploring the intersection of literary study and other scholarly disciplines. The disciplines students study vary each term, but past courses have examined connections between literature and psychology, forensic science, environmental studies, and the law. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 476 Topics in Lit & Environment credit: 3 or 4 Hours.
From the developing field of "ecocriticism" to new historical examinations of canonical writers such as Thomson, Thoreau, or the "nature poets", to the new field of Science Studies, this advanced seminar examines a range of specialized topics related to literature and the environment. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 481 Comp Theory and Practice credit: 3 or 4 Hours.
Study of the history and theory of written composition. This course explores basic rhetorical principles, various theoretical perspectives in the field of composition/rhetoric, and helps students form practical approaches to the guidance of, response to, and structuring of student writing. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 482 Writing Technologies credit: 3 or 4 Hours.
Examines the relationship of computer technology to the larger field of writing studies. Topics include a historical overview of computers and other writing technologies; current instructional practices and their relation to various writing theories; research on word processing, computer-mediated communication, and hypermedia; and the computer as a research tool. Same as IS 482. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing and consent of instructor. Students must have a basic knowledge of word processing.

ENGL 485 Literature for the High School credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 486 History of Translation credit: 3 or 4 Hours.
Same as CLCV 430, CWL 430, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

RHET Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/RHET)

Rhetoric and Composition Courses
RHET 100 Rhetoric Tutorial credit: 1 Hour.
Tutoring in writing skills to be scheduled by individual tutors. Open only to students placed in and registered for RHET 101 or RHET 102. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Concurrent registration in RHET 101 or RHET 102.

RHET 101 Principles of Writing credit: 3 Hours.
Instruction in structuring academic, argumentative essays, including how to develop thesis statements and use evidence across different types of writing. This course is the first semester of a two-semester sequence (RHET 101 - RHET 102) that fulfills the campus Composition I general education requirement. Credit is not given for both RHET 101 and RHET 105. Prerequisite: Concurrent registration in RHET 100; placement in RHET 101.

This course satisfies the General Education Criteria for:
UIUC: Freshman Composition I

RHET 102 Principles of Research credit: 3 Hours.
Continued instruction in structuring academic, argumentative essays; concentrating on the use of primary and secondary sources as evidence in research-based arguments. Second semester of a two-semester sequence (RHET 101/100 - RHET 102/100) that fulfills the campus Composition I general education requirement. Credit is not given for both RHET 102 and RHET 105. Prerequisite: RHET 101; concurrent registration in RHET 100.

This course satisfies the General Education Criteria for:
UIUC: Freshman Composition I

RHET 105 Writing and Research credit: 4 Hours.
Introduction in research-based writing and the construction of academic, argumentative essays that use primary and secondary sources as evidence. This course fulfills the Campus Composition I general education requirement. Credit is not given for both RHET 105 and any of these other Comp I courses: RHET 101, RHET 102, CMN 111 or CMN 112. This course satisfies the General Education Criteria for:
UIUC: Freshman Composition I

RHET 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
May be repeated.

RHET 233 Adv Rhetoric & Composition credit: 3 Hours.
Instruction in developing research-based arguments of moderate complexity within a special topics format. Introduction to the use of multimodal or other non-print resources as evidence in written arguments. Prerequisite: Completion of campus Composition I general education requirement. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

Creative Writing
Vicki Mahaffey
208 English Building, 608 South Wright, Urbana
PH: (217) 333-2391
http://www.english.illinois.edu

The Creative Writing major, administered by the Department of English, combines small workshops (poetry, fiction, nonfiction) and a variety of literature courses. The result is a strong but flexible program of study that develops students' analytical and creative skills and prepares them for work of graduate study in any number of fields.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: english@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences
Minimum required core and supporting coursework normally equates to 36 hours. Twelve hours of 300- and 400-level courses in the major must be taken on this campus, of which at least three hours must be Creative Writing Courses (CW 404 or CW 406). All Creative Writing courses must be taken in sequence (CW 104 before CW 204, etc.).

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum hours required for graduation: 120 hours

### Total Hours

36

---

 CW Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CW)

### Courses

**CW 100  Intro to Creative Writing  credit: 3 Hours.**

Acquaint students with the technical choices a writer makes in creating a story or a poem. Prerequisites: Completion of campus Composition I general education requirement.

**CW 104  Introductory Narrative Writing  credit: 3 Hours.**

Practice in the writing of narrative prose, with primary emphasis on short fiction. Prerequisite: Completion of campus Composition I general education requirement.

**CW 106  Introductory Poetry Writing  credit: 3 Hours.**

Practice in the writing of poetry; experimentation with a number of fixed forms and free verse, but emphasis mainly on the student's freedom to develop a personal style. Prerequisite: Completion of campus Composition I general education requirement.

**CW 200  Reading for Writers  credit: 3 Hours.**

Emphasizes the craft of short stories and poems through the study of formal elements central to the production of creative writing (e.g., plot, character, setting, point of view in short fiction and rhythm, meter, line break, imagery, simile, metaphor, formal patterns in poetry). Prerequisite: CW 104 or CW 106. For majors only.

**CW 202  Topics in Creative Writing  credit: 3 Hours.**

Independent writing projects and examination of literature as the cultural basis of the student's specialized fields. May be repeated as topics vary.

**CW 204  Intermediate Narrative Writing  credit: 3 Hours.**

Practice in the writing of fiction, with emphasis on the short story. Prerequisite: CW 104 or equivalent.

**CW 206  Intermediate Poetry Writing  credit: 3 Hours.**

Builds upon the workshop format of CW 106, with an emphasis on prosody and poetic technique. Students will deepen their sense of craft by putting into practice their study and understanding of a variety of poetic forms (e.g., syllabic poetry, dramatic monologue, sonnet, bound/free verse) and technical concerns (e.g., voice, tone, line, line break, image). The workshop component of the course typically includes 8-12 completed poems and their revisions. Prerequisite: CW 106.

**CW 208  Creative Nonfiction Writing  credit: 3 Hours.**

Types of nonfiction prose, including the personal essay, memoir, literary journalism, and historical writing. Prerequisite: RHET 233 or CW 243, or equivalent, or consent of instructor.

**CW 243  Inter Expository Writing  credit: 3 Hours.**

Practice in expository types, with emphasis on style and critical analysis. Restricted to Creative Writing majors. Credit is not given for CW 243 and either RHET 243 or RHET 233. Prerequisite: Completion of campus Composition I general education requirement.

This course satisfies the General Education Criteria for: UIUC: Advanced Composition

**CW 404  Advanced Narrative Writing  credit: 3 or 4 Hours.**

Continued practice in the writing of fiction, with emphasis on the longer story. 3 undergraduate hours. 4 graduate hours. May be repeated for a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 204 or equivalent.

---

1 Credit is not given for both RHET 233 and CW 243. Students who have taken RHET 233 prior to declaring the CW major must take CW 208 instead of CW 243 to complete this requirement. Students who take CW 208 for their Expository Writing requirement cannot count CW 208 toward the required 12 hours of Creative Writing coursework.

---

Information listed in this catalog is current as of 03/2017
**English Concentration**

E-mail: englishadvising@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting course work equates to 42 hours including a minimum of 36 hours of English Department courses. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 300, ENGL 301, and 9 more hours). Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum hours required for graduation: 120 hours

Departmental Distinction: Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in the departmental honors program should contact the English department advising office.

Topical Streams: Course descriptions are tagged to indicate the topical streams each course is a part of. These streams are not part of any requirement; the streams exist to help student guide themselves through the major. To learn more about topical streams you may be interested in studying, visit www.english.illinois.edu/undergraduate/streams.html (http://www.english.illinois.edu/undergraduate/streams.html).

**Introduction to the Study of Literature, Text, and Culture**

**English Teaching Concentration**

http://english.illinois.edu

E-mail: englishadvising@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences
Minimum required concentration and supporting coursework normally equates to 81 hours: 42 hours in the English concentration and 39 hours of courses from the Teaching Education Minor in Secondary School Teaching.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

General education: Students must complete the Campus General Education requirements (https://courses.illinois.edu) including the campus general education language requirement.

This concentration fulfills state certification requirements to teach high school (grades 9-12) English Language Arts through the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching. See the College of Education section for requirements of the minor (39 hours) (p. 126).

Time to degree completion varies. Minimum time to completion is 8 semesters, with some students requiring 10 semesters. Transfer students may need 10 total semesters to complete the program. Please see the LAS section in the transfer handbook (https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Departmental Distinction: Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser.

Topical Streams: Course descriptions are tagged to indicate the topical streams each course is a part of. These streams exist to help student guide themselves through the concentration. To learn more about topical streams you may be interested in studying. visit www.english.illinois.edu/undergraduate/streams.html (http://www.english.illinois.edu/undergraduate/streams.html).

Foundation Courses

</table>

1 Students are encouraged to take ENGL 209 and ENGL 255 as early as possible after completing ENGL 200.
2 Chosen from the list maintained in the Department of English.
3 Student may count 1 Independent Study course (ENGL 290, ENGL 390 or BTW 290) toward the additional English coursework requirement.

**Creative Writing Minor**

The Creative Writing minor, administered by the Department of English’s Creative Writing Program, is designed to augment majors from all over campus with a program of small workshops (poetry or fiction) and a variety of other writing, literature, and film courses. The result should
be the development of a range of analytical and creative skills that will enrich the undergraduate experience and help prepare students for work in any number of fields.

**Creative Writing Coursework**

Students complete 9 hours of creative writing coursework by choosing one of the following 3-course (9-hour) sequences:

- **CW 106** Introductory Poetry Writing
- **CW 206** Intermediate Poetry Writing
- **CW 406** Advanced Poetry Writing
  
  **OR**

- **CW 104** Introductory Narrative Writing
- **CW 204** Intermediate Narrative Writing
- **CW 404** Advanced Narrative Writing

**Approved Electives**

Students complete 6 hours of coursework in any of the following areas (a minimum of 3 hours must be at the advanced 300/400 level):

- Any ENGL or CW course
- **CMN 310** The Rhetorical Tradition
- **CMN 423** Rhetorical Criticism
- **JOUR 475** Magazine Writing
- **THEA 211** Introduction to Playwriting
- **IS 409** Storytelling

Total Hours: 18

**French and Italian**

Marcus Keller
2090 Foreign Languages Building, 707 South Mathews Avenue, Urbana
PH: (217) 333-2020
http://www.frit.illinois.edu

**5 Year BALAS/MA in French and European Union Studies** allows students to receive two degrees, a BALAS in French and an MA in European Union Studies.

**5 Year BALAS/MA in Italian and European Union Studies** allows students to receive two degrees, a BALAS in Italian and an MA in European Union Studies.

**French**

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Select a concentration in consultation with your advisor.

- French Studies Concentration (p. 395)
- French Commercial Studies Concentration (p. 395)

For the Degree of Bachelor of Arts in the Teaching of French

- Curriculum Preparatory to the Teaching of French (p. 394)

**Italian**

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

- Italian (p. 396)

**5 Year BALAS/MA in French or Italian and European Union Studies**

The Department of French and Italian with the European Union Center offers a 5-year BALAS/MA degree program in French or Italian and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

- Minor in French (p. 396)
- Minor in Italian (p. 396)

**FR Class Schedule** (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FR)

**French Courses**

- **FR 101** Elementary French I credit: 4 Hours.
  Four-skill course leading toward elementary proficiency in oral expression, listening comprehension, reading, writing, and cultural understanding. Online language laboratory and internet assignments required.

- **FR 102** Elementary French II credit: 4 Hours.
  Continuation of FR 101. Introduces cultural and supplementary enrichment materials; requires online laboratory sessions as in FR 101. Prerequisite: FR 101 or one year of high school French.
FR 103  Intermediate French I  credit: 4 Hours.
Continuation of FR 102. Introduces students to a full range of structures to complete their initial study of the grammatical system; emphasizes the development of all four skills and cultural understanding through readings and audiovisual enrichment materials. Online language laboratory and internet assignments required. Students planning to major or minor in French should take FR 133 in lieu of FR 103. Prerequisite: FR 102 or equivalent, or a placement score showing high school achievement equivalent to FR 102.

FR 104  Intermediate French II  credit: 4 Hours.
Continuation of FR 103. Comprehensive grammar review with emphasis on oral expression and the continued development of reading and written skills. Completion satisfies graduation requirement in the College of Liberal Arts and Sciences. Students planning to take advanced French courses should take FR 134 in lieu of FR 104. Prerequisite: FR 103 or equivalent, or a placement score showing high school achievement equivalent to FR 103.

FR 133  Accel Intermediate French I  credit: 4 Hours.
Similar to FR 103, but accelerated for those interested in pursuing French in advanced courses; includes comprehensive grammar review and readings in literature and culture. Prerequisite: FR 102, or two semesters of college French, or a placement score showing high school achievement equivalent to FR 102. Normally for students with a "B" average in French or with consent of instructor.

FR 134  Accel Intermediate French II  credit: 4 Hours.
Continuation of FR 133. Comprehensive grammar review and readings in French literature and culture preparatory for continued work at the advanced level, emphasizes all four skills and culture. Prerequisite: FR 133, or FR 103 with department approval, or three semesters of college French, or a placement score showing high school achievement equivalent to FR 103.

FR 156  Exploring Paris  credit: 3 Hours.
Examines the role of Paris at the heart of French culture and the idea of the "French exception." Focus will be on the city and its representation in French culture. Attention will be given to Parisian notions of food, the arts, sexualities, and the role of the individual. All readings are in English. All films will be shown with subtitles. No knowledge of French required. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comp arty Cult

FR 179  Migration & Fr Nat ID  credit: 3 Hours.
Studies books and films that emphasize cultural difference and the complexities of the post-colonial world, focusing on the impact of migration and cultural interaction on contemporary France. Stresses themes of immigration and exile, tensions between relations of domination and exploitation and between colonizing and colonized peoples, and the cultural pluralities of community and nation. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comp arty Cult

FR 191  Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

FR 195  French Intellectual Tradition  credit: 3 Hours.
Close reading and in-depth discussion of texts by major French intellectuals from the sixteenth to the mid-twentieth century. Aims to explore the centrality of epistemology (How can we know? Can we know that which we know is true? How can we reason in the face of evil?) in selected texts that will be discussed within their historical contexts, investigating why these issues were raised then and how their contemporaries might have responded to them, as well as their relationship to issues still debated in the twenty-first century. Taught in English.
This course satisfies the General Education Criteria for:
UIUC: HistPhilos Perspect

FR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
Credit: 1 to 5 hours. May be repeated.

FR 205  Oral French  credit: 2 Hours.
Developing oral facility and aural comprehension, focusing on everyday events. Prerequisite: FR 104 or FR 134 or equivalent.

FR 207  Writing and Grammar Workshop  credit: 3 Hours.
Practice-intensive grammar review and vocabulary-building, with an emphasis on strategies to improve accuracy of, and expressivity in, speaking and writing in French. Grammar textbook supplemented with readings and materials from French and Francophone culture (articles, social media, literary works, films). Prerequisite: Four years of high school French or equivalent, or FR 134 or, with departmental approval, FR 104.

FR 208  Critical Writing and Reading  credit: 3 Hours.
Intensive practice of writing and reading skills in French, emphasizing vocabulary and critical concepts important to analyzing literary and cultural texts. Prerequisite: FR 207 or equivalent must be taken prior to this course.

FR 211  Introduction to Literary Studies  credit: 3 Hours.
Introduction to concepts of modernity and questions of representation, through French texts from the nineteenth through the twenty-first centuries. Analysis of diverse literary forms (poems, plays, narratives), and use of resources for literary, historical and cultural research. Strengthening of reading, writing and speaking skills in French through research projects, writing assignments and revisions, and oral presentations. Prerequisite: FR 207 or equivalent.

FR 212  Introduction to Cultural Analysis: French Identities  credit: 3 Hours.
Introduces students to cultural pluralism by comparing and contrasting African and Caribbean identities, as they are represented in literature and film. Taught in English. Same as AFST 209, CWL 225, and LAST 240. Credit is not given towards the major or minor in French.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
FR 299 Study Abroad  credit: 0 to 18 Hours.
Lectures, seminars, and practical work in French language, literature, civilization, and in other academic areas appropriate to the student's course of study. Approved for both letter and S/U grading. May be repeated in the same term to a maximum of 18 hours; may be repeated in separate terms to a maximum of 36 hours; may be repeated in a summer session to a maximum of 8 hours. Maximum of 34 hours per academic year. Prerequisite: FR 209 and two of the following: FR 205, or 207; 2.75 overall average; 3.0 average in French courses.

FR 301 Medieval and Early Modern Literature  credit: 3 Hours.
Overview of French literature from the Middle Ages to the Revolution in its historical context. Taught in French. Credit is not given for FR 209 and FR 301. Prerequisite: FR 211 and FR 212.

FR 309 Poetry  credit: 3 Hours.
The study of major movements and figures in French poetry. Traditions and innovations. Poetic genres. Introduction to versification and metrics. Close readings of individual poems. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 311 Narrative Literature  credit: 3 Hours.
Reading and interpretation of selected French novels and short narratives from all periods. History and analysis of narrative literature as a genre. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 312 Theater and Performance  credit: 3 Hours.
Reading and interpretation of plays and other performative genres, with attention to historical development and critical analysis. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 314 Advanced Grammar in Context  credit: 3 Hours.
Advanced practical study of present-day French, with an emphasis on grammar, free composition and a consideration of various cultural contexts of language use. Credit is not given for FR 314 and FR 414. Prerequisite: FR 207.

FR 319 Intro to Francophone Lit  credit: 3 Hours.
Examination of selected major novels from the French-speaking world outside France along thematic and formal lines; literary responses to colonialism, political independence and departmentalization in a variety of (former and current) French territories; study of critical approaches to narrative and related issues of individual and communal identity and culture. Same as CWL 317. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 322 Movements and Perspectives  credit: 3 Hours.
Focused study and discussion of a major literary movement or critical perspective. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 323 Major Literary Figures  credit: 3 Hours.
Presents the works of one or several major figures of French or francophone literary traditions in their cultural contexts. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 324 Literature and the Other Arts  credit: 3 Hours.
Explores relationships between French literature and such fields as art, architecture, and music. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 208, FR 209, and FR 210 or equivalents.

FR 325 French Cultural History to 1789  credit: 3 Hours.
Survey of French cultural history from the Middle Ages to the French Revolution. Taught in French. Credit is not given for FR 335 and FR 435. Prerequisite: FR 211 and FR 212.

FR 336 French Cultural History 1789-1968  credit: 3 Hours.
Survey of French cultural history from the French Revolution to 1968. Taught in French. Credit is not given for FR 336 and FR 436. Prerequisite: FR 211 and FR 212.

FR 337 Contemporary France  credit: 3 Hours.
Overview of major cultural, social, and political issues and debates in late 20th- and 21st-century France. Topics may include: political life; definitions of the French Republic; the government and social policies; evolving views on sexuality, gender and the family; France and the European Union; professional life and labor laws; immigration; the cultural identity of France; new media. Some readings in English. Class discussion and written work in French. Prerequisite: FR 207, FR 211, FR 212.

FR 385 Politics of the European Union  credit: 3 Hours.
Same as EURO 385, GER 385, and PS 385. See PS 385.

FR 387 French & Comparative Cinema I  credit: 3 Hours.
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from 1895 to approximately 1950. Selected trends studied through films from several countries with stress on major French filmmakers including Lumiere, Melies, Gance, Clair, Vigo, Renoir, Carne, Cocteau, Prevert, Clouzot. Knowledge of French not required. Same as CWL 387, HUM 387, and MACS 382. Credit is not given for both FR 387 and FR 488. Prerequisite: One college-level Media or Media and Cinema Studies course or consent of instructor.

FR 389 French & Comparative Cinema II  credit: 3 Hours.
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from approximately 1950 to the present. Selected trends studied through films from several countries with stress on major French filmmakers such as Clouzot, Bresson, Chabrol, Resnais, Godard, Truffaut, Varda, Marker, Rohmer, Beineix, Kassovitz, and Assayas. Knowledge of French not required. Same as CWL 389, HUM 389, and MACS 383. Credit is not given for both FR 389 and FR 489. Prerequisite: One college-level Media or Media and Cinema Studies course or consent of instructor.

FR 390 Indiv Study Major Tutorial  credit: 1 to 12 Hours.
Tutorial taken by students during two of their last four terms of undergraduate study. Students read the works on a departmental reading list with the guidance of a tutor. Approved for letter and S/U grading. May be repeated to a maximum of 12 hours. Prerequisite: FR 205, FR 207, FR 209, and FR 210, or equivalent; a declared major in French; junior standing.

FR 410 Modern African Fiction  credit: 3 or 4 Hours.
Same as AFST 410, CWL 410, and ENGL 470. See AFST 410.

FR 413 French Phonetics and Phonology  credit: 3 Hours.
Introduction to theoretical aspects of French phonetics and phonology, research methods, and pronunciation exercises on speaking styles in French. 3 undergraduate hours. 3 graduate hours. Prerequisite: FR 213 or equivalent.
FR 416   Structure of French Language  credit: 3 Hours.
General survey of the linguistic structure of modern standard French, including phonology, morphology, and syntax; emphasis on the differences between its spoken and written forms. Same as LING 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: FR 413 or equivalent training in phonetics.

FR 417   History of the French Language  credit: 3 or 4 Hours.
Introduction to the historical development of the French language, from its Latin origins to the present. Analysis of texts from a variety of genres across the written history of the language, and an examination of the social role of the language in the definition of France. Same as MDVL 417. 3 undergraduate hours. 4 graduate hours. Prerequisite: FR 414.

FR 418   Language & Minorities in Europe  credit: 3 or 4 Hours.
Introduction to political, judicial, linguistic, and cultural issues concerning indigenous and migrant/immigrant languages in the countries of the European Union. Focuses on political and judicial issues, such as legal aspects of bilingual education and minority language use, as well as linguistic and cultural aspects, such as assimilation, language-mixing, and language change. Taught in English. Same as GER 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. 3 undergraduate hours. 4 graduate hours.

FR 419   Techniques in Translation I  credit: 2 or 3 Hours.
Practical course in the techniques of translating technical, commercial, scientific, and literary texts from English into French and vice versa. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 414 or consent of instructor.

FR 421   Techniques in Translation II  credit: 2 or 3 Hours.
Continuation of FR 419. Practical exercises in translating from French to English and vice versa in a variety of texts, along with an introduction to theoretical aspects of translation. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 419 or consent of instructor.

FR 443   Studies in French  credit: 3 to 4 Hours.
See Schedule for current topics. 3 undergraduate hours. 3 to 4 graduate hours. May be repeated in the same or separate terms to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: Junior standing.

FR 460   Principles of Language Testing  credit: 3 or 4 Hours.
Same as EIL 460, EPSY 487, GER 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.

FR 462   Introduction to Romance Linguistics  credit: 3 or 4 Hours.
Same as ITAL 435, LING 462, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

FR 479   Studies in Francophonie  credit: 3 or 4 Hours.
Studies of various genres, periods, and topics of French literature outside of France, with a different geographical emphasis each term. Regions include black Africa, the Caribbean, Canada, North Africa, the Middle East, and Switzerland. Same as CWL 434. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 12 undergraduate hours or 16 graduate hours.

FR 481   Theoretical Foundations of SLA  credit: 3 or 4 Hours.
Same as GER 489, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

FR 485   Commercial & Econ French I  credit: 2 or 3 Hours.
Studies French business practices: company structures, selling and buying techniques, banking, import/export and other commercial negotiations, employment, formalities, and conventions of letter-writing; involves both theory and practice. 3 undergraduate hours. Prerequisite: FR 414 or equivalent, or consent of instructor.

FR 486   Commercial & Econ French II  credit: 2 or 3 Hours.
Emphasizes business correspondence and simulation of business practices in the areas introduced in FR 485; also focuses on geographic and economic topics pertaining to France within the European community and Europe in general. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 485 or equivalent, or consent of instructor.

FR 492   Senior Thesis  credit: 2 Hours.
For candidates for honors in French and for other seniors. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing.

FR 498   Senior Seminar  credit: 3 Hours.
Studies in authors, genres, themes, and movements in French literature; conducted entirely in French. 3 undergraduate hours. No graduate credit. May be repeated. Prerequisite: Senior standing.

ITAL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ITAL)

Italian Courses

ITAL 101   Elementary Italian I  credit: 4 Hours.
For students who have no credit in Italian.

ITAL 102   Elementary Italian II  credit: 4 Hours.
Continuation of ITAL 101. Prerequisite: ITAL 101 or one year of high school Italian.

ITAL 103   Intermediate Italian I  credit: 4 Hours.
Rapid reading, review of grammar, composition, and conversation. Prerequisite: ITAL 102 or two years of high school Italian.

ITAL 104   Intermediate Italian II  credit: 4 Hours.
Continuation of ITAL 103. Prerequisite: ITAL 103 or three years of high school Italian.

ITAL 191   Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time to a maximum of 6 hours. Prerequisite: Consent of departmental honors adviser in Italian.

ITAL 199   Undergraduate Open Seminar  credit: 1 to 5 Hours.
Approved for letter and S/U grading. May be repeated to a maximum of 5 hours.

ITAL 200   Italian Studies in a Mediterranean Context  credit: 3 Hours.
Introduces students to the study of Italy and Italian culture, emphasizing Italy’s central position in Mediterranean networks of cultural, economic and linguistic exchange. Prerequisite: ITAL 104 or consent of instructor.

ITAL 210   Practical Review Italian  credit: 3 Hours.
Reviews major challenges in Italian grammar, with particular emphasis on the verb system (major tenses and moods, morphology, and aspect) and areas of contrast with English. Prerequisite: Credit or concurrent enrollment in ITAL 104 or equivalent.

ITAL 220   Contemp Italian Oral & Written  credit: 3 Hours.
Training in oral-aural skill and in writing. Prerequisite: ITAL 210 or consent of instructor.
ITAL 240  Italy Middle Ages & Renaiss  credit: 3 Hours.
The development of Medieval Italian civilization in a literary context from
the Sicilian School of love poetry to the early Renaissance in Florence;
lectures and readings are in English. Same as CWL 240 and MDVL 240.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ITAL 270  Introduction to Italian Cinema  credit: 3 Hours.
Introduction to major films, movements and directors in the Italian
tradition, paying particular attention to questions of national identity,
gender and political and social history. Knowledge of Italian not required.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ITAL 310  Advanced Grammar  credit: 3 Hours.
Study of the structure of modern Italian in both its phonological and
syntactic aspects for the student who already has a functional command
of the language, with an emphasis on developing ability to analyze and
interpret grammatical structures. Prerequisite: ITAL 210 or consent of
instructor.

ITAL 380  Ital Business & Profess  credit: 3 Hours.
Builds preexisting language skills through the study of Italian business
practices: financial systems, transactions, banking, import/export and
commercial correspondence. Prerequisite: ITAL 210 or equivalent.

ITAL 390  Spec Topics Italian Studies  credit: 2 to 4 Hours.
Selected substantive readings for independent study on a given special
topic of Italian literature, culture, language, or linguistics. May be
repeated. Prerequisite: ITAL 104 and consent of instructor.

ITAL 406  Italian Culture and Globalization  credit: 3 or 4 Hours.
Introduction to factors that have shaped present-day Italy, with particular
attention to globalization; basic concepts contributing to understanding
its present social and cultural development in a European and global
context; taught in Italian. 3 undergraduate hours. 4 graduate hours.
Prerequisite: ITAL 200 or ITAL 220, or consent of instructor.

ITAL 413  Dante  credit: 3 or 4 Hours.
Interpretation of Dante's Divine Comedy with special attention to its
position in the medieval world; a knowledge of Italian not required. Same
as CWL 413 and MDVL 413. 3 undergraduate hours. 4 graduate hours.

ITAL 414  Petrarch & Boccaccio  credit: 3 or 4 Hours.
Studies in Petrarch and Boccaccio; nonmajors in Italian may read the
works in translation; lectures are in English. Same as CWL 414 and
MDVL 414. 3 undergraduate hours. 4 graduate hours. Prerequisite:
Fulfillment of campus rhetoric requirement.

ITAL 415  Europe and the Mediterranean  credit: 3 or 4 Hours.
Same as EURO 415 and PS 415. See EURO 415.

ITAL 418  Language&Minorities in Europe  credit: 3 or 4 Hours.
Same as FR 418, GER 418, LING 418, PS 418, SLAV 418, and SPAN 418.
See FR 418.

ITAL 420  Masterpieces Renaiss Lit  credit: 3 or 4 Hours.
Reading of masterpieces of the 1400 and 1500s and a study of their
predecessors and influence; nonconcentrators in Italian may read the
works in translation; lectures are in English. Content rotates. Same as
CWL 420 and MDVL 420. 3 undergraduate hours. 4 graduate hours.
May be repeated to a maximum of 8 hours with consent of instructor.
Prerequisite: Fulfillment of campus rhetoric requirement.

ITAL 435  Introduction to Romance Linguistics  credit: 3 or 4 Hours.
Same as FR 462, LING 462, PORT 435, RMLG 435 and SPAN 435. See
SPAN 435.

ITAL 440  Modern Italian Novel  credit: 3 or 4 Hours.
An in-depth examination of a particular writer, genre, form or period in
modern Italian literature (such as Italo Calvino, Italian detective fiction,
or the contemporary Italian novel). See online schedule for specific topic. 3
undergraduate hours. 4 graduate hours. Prerequisite: ITAL 200 or consent
of instructor.

ITAL 450  Italian Syntax & Phonology  credit: 3 Hours.
Introduction to the essential syntactic and phonological structures of
Modern Standard Italian in combination with appropriate discussion of
prominent linguistic concepts. 3 undergraduate hours. 3 graduate
hours. Prerequisite: ITAL 310 or consent of instructor.

ITAL 460  Principles of Language Testing  credit: 3 or 4 Hours.
Same as EIL 460, EPSY 487, FR 460, GER 460, PORT 460, SLS 460, and
SPAN 460. See EIL 460.

ITAL 470  Topics in Italian Cinema  credit: 3 or 4 Hours.
An in-depth examination of a particular director, genre or school from the
Italian cinematic tradition (e.g., Fellini, Italian horror, or noerealism); topic
will vary each semester. No knowledge of Italian is required. Same as
MACS 470. 3 undergraduate hours. 4 graduate hours. May be repeated to
a maximum of 6 undergraduate hours or 8 graduate hours.

ITAL 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours.
Same as FR 481, GER 489, LING 489, PORT 489, and SPAN 489. See
LING 489.

ITAL 490  Italian Critical Theory  credit: 3 or 4 Hours.
An advanced introduction to the critical theory of major Italian
thinkers and philosophers (e.g., Gramsci, Negri, Agamben, Esposito). 3
undergraduate hours. 4 graduate hours. May be repeated to a maximum
of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite:
At least two 200-level courses in Italian, or consent of instructor.

ITAL 491  Honors Senior Thesis  credit: 2 Hours.
For candidates for honors in Italian. No graduate credit. May be repeated.

Curriculum Preparatory to the Teaching of French

In order to remain in good standing in this program and be recommended
for certification, candidates are required to maintain UIUC, cumulative,
content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher
Education for the list of courses used to compute these grade-point
averages.

E-mail: french-italian@illinois.edu

Web address for department: www.frit.illinois.edu (http://
www.frit.illinois.edu)

Degree title: Bachelor of Arts in the Teaching of French

Minimum required course work normally equates to 68 hours. The
required coursework could be 16 additional hours, respectively, if the
student does not already have the equivalent of 101-102-133-134. NOTE:
FR 299 is strongly recommended.

General education: Consult the Curricula Preparatory to Teaching
Foreign Languages (http://catalog.illinois.edu/undergraduate/las/
foreignlangteach).
Minimum hours required for graduation: 120 hours. Consult the certification officer Council on Teacher Education at 505 East Green Suite 203 for additional information.

Departmental distinction: A student must have a minimum 3.5 cumulative grade point average, including a 'Satisfactory' in the teaching practicum; complete two additional advanced-level courses in French or the teaching minor; complete FR 492, and provide two letters of recommendation as evidence of exceptional teaching potential. Consult the teacher education adviser for details.

Professional education courses. (See Foreign Languages-Curricula Preparatory to Teaching Foreign Languages.) (http://catalog.illinois.edu/undergraduate/las/foreignlangteach)

Gender and Women's Studies

Chantal Nadeau, Interim Chair
1205 W. Nevada Street, Urbana
PH: (217) 333-2990
http://gws.illinois.edu

The mission of the Department of Gender and Women's Studies (GWS) is to explore, analyze and challenge the ways in which gender shapes people's lives. Assumptions about gender difference saturate many aspects of social and political life and create different forms of inequality in the workforce, in education, in cultural production, in scientific research, as well as in resource allocation in both public and private institutions. Because gender assumptions manifest differently in various communities, in our courses we systematically incorporate analysis of how race, ethnicity, class, sexuality, and physical ability shape gender inequality.

We train students to identify where and how inequalities are produced and reproduced. We also give them the skills to figure out how to initiate change and work for justice. They go on to challenge gender inequalities in their personal lives, in their communities, and in their future careers.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: gws@illinois.edu
www.gws.illinois.edu (http://www.gws.illinois.edu)

Minimum required courses: 33 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction. To be eligible for graduation with distinction, a student must have a cumulative grade-point average (GPA) of 3.5 and a 3.5 GPA within the major.

High distinction. To be eligible for graduation with high distinction, a student must have a cumulative grade point average (GPA) of 3.5, a GPA of 3.7 within the major, and complete a thesis or project in a 400-level GWS course that is approved by the department.

Advising: The Department of Gender and Women's Studies provides advising for students to help plan a coherent program of study.

Additional Coursework

At least 15 additional hours of coursework offered by the Gender & Women's Studies Department, with no more than 3 hours at the 100 or 200 level. Required courses are offered by the Department of Gender & Women's Studies and are on an approved list maintained in the department office and with the GWS advisor.

Area Electives

Two courses in Gender and Women’s Studies. No more than one may be counted from the 100 or 200 level. For a list of approved courses contact the GWS department or the GWS advisor.

Of the 33 hours in the major, students must take at least one course focused on transnational or non-U.S. issues. For a list of approved courses contact the GWS department or the GWS advisor.

Total Hours 33

1 Topics courses (GWS 199, GWS 295, GWS 395, GWS 495) may count up to 3 hours toward the additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.

- Minor in Gender and Women’s Studies (p. 401)
- Minor in LGBT/Queer Studies (p. 402)

GWS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GWS)

Courses

GWS 100  Intro Gender & Women's Studies  credit: 3 Hours.
Interdisciplinary introduction to the study of gender, women, and sexuality. Addresses issues such as social experience, representation and popular culture, femininities and masculinities, family structure, education, employment, economics, literature and the arts, religion, history, and technology. Explores interrelationships of race, ethnicity, sexuality, gender, ability, and age from a transnational perspective. Same as HDFS 140 and SOC 130.
This course satisfies the General Education Criteria for: UIUC: Social Sciences
GWS 199  Undergraduate Open Seminar credit: 0 to 5 Hours. Approved for letter and S/U grading. May be repeated.

GWS 201  Race, Gender & Power credit: 3 Hours. Presents multiple windows into conceptions and perspectives upon gender, sexuality, power, identity and culture, and their multiple intersections. The concept of race in its many manifestations is used to examine relationships of self to society, state institutions and cultures. By paying greater attention to race and power, nuanced understandings of the way the gender systems are maintained, patrolled and formed will be examined. Topics may include: film, media, technology, culture, religion, identities, sexualities. Same as SOC 201. This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

GWS 202  Sexualities credit: 3 Hours. Surveys sexualities from multiple perspectives, standpoints, disciplines, and theories. How have different cultures, different people, and different viewpoints understood, shaped, and interpreted sex, sexualities and genders? Course places the concept of sexuality at its core to examine citizenship, education, reproduction, science, tourism, urban/rural space, and politics. Topics may include: gender, race, identities, power, transformation, reproduction. Same as SOC 202. This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

GWS 215  US Citizenship Comparatively credit: 3 Hours. Same as AAS 215, AIS 295, AFRO 215, and LLS 215. See AAS 215. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

GWS 218  Intro to Social Issues Theatre credit: 3 Hours. Same as THEA 218. See THEA 218.

GWS 225  Women in Prehistory credit: 3 Hours. Same as ANTH 225. See ANTH 225. This course satisfies the General Education Criteria for: UIUC: Social Sciences

GWS 226  Black Women Contemp US Society credit: 3 Hours. Same as AFRO 226 and SOC 223. See AFRO 226.

GWS 230  Latina/o Genders & Sexualities credit: 3 Hours. Same as LLS 230. See LLS 230.

GWS 240  Sex & Gender in Antiquity credit: 3 Hours. Same as CLCV 240 and CWL 262. See CLCV 240. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts UIUC: Western Compartv Cult

GWS 245  Women & Gender Pre-Mod Europe credit: 3 Hours. Same as HIST 245 and MDVL 245. See HIST 245. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: Western Compartv Cult

GWS 250  Gender and Representation credit: 3 Hours. Investigates queer lives in relation to dominant ideas about "deviance" and "equal rights." Drawing on case studies, the course investigates questions related to nation, race, economy, bodies, drugs, health, identities, agency and action as they intersect with contemporary queer politics. Students will learn conceptual and qualitative methods to investigate issues related to queer lives. Same as SOC 255.

GWS 258  Sex in Nature and Culture credit: 3 Hours. Same as ANTH 258. See ANTH 258.

GWS 261  Gender in a Transnational Perspective credit: 3 Hours. Same as SOC 261. See SOC 261. This course satisfies the General Education Criteria for: UIUC: Social Sciences

GWS 262  Women's Lives credit: 3 Hours. Same as ANTH 262. See ANTH 262. This course satisfies the General Education Criteria for: UIUC: Social Sciences

GWS 263  US History of Medicine credit: 3 Hours. Same as HIST 263. See HIST 263. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: Western Compartv Cult

GWS 270  Sexuality and Literature credit: 3 Hours. Same as GER 270 and CWL 272. See CWL 272. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

GWS 272  Women and Politics credit: 3 Hours. Same as PS 272. See PS 272.

GWS 280  Women Writers credit: 3 Hours. Same as ENGL 280. See ENGL 280.

GWS 281  Women in the Lit Imagination credit: 3 Hours. Same as ENGL 281. See ENGL 281.

GWS 285  US Gender History to 1877 credit: 3 Hours. Same as HIST 285. See HIST 285. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

GWS 286  US Gender History Since 1877 credit: 3 Hours. Same as HIST 286. See HIST 286. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

GWS 287  African-American Women credit: 3 Hours. Same as AFRO 287 and HIST 287. See HIST 287. This course satisfies the General Education Criteria for: UIUC: US Minority Culture(s)
GWS 295  Beginning Topics GWS  credit: 3 Hours.
Approved for letter and S/U grading. May be repeated in the same term to
a maximum of 9 hours; may be repeated in separate terms to a maximum
of 12 hours.

GWS 305  Theories of Race, Gender, and Sexuality  credit: 3 Hours.
Same as AAS 300 and LLS 305. See AAS 300.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

GWS 315  War, Memory, and Cinema  credit: 3 Hours.
Same as AAS 315. See AAS 315.

GWS 320  Gender & Latina/o Migration  credit: 3 Hours.
Same as LLS 320 and SOC 321. See LLS 320.

GWS 325  Lesbian/Queer Media Cultures  credit: 3 Hours.
Discusses how various LGBT/Q communities were consolidated
or drawn together by print and invented in the very acts of writing,
distributing, purchasing, and reading print artifacts. Students examine
early homophone publications, the rise of presses dedicated to LGBT/
Q literature, independent bookstores and distribution networks, as well
as the contemporary world of zines, blogs, chatrooms, fanfiction, and
online journals, to see the intersection of sexuality, community, identity,
and the print sphere. Students will learn how to historicize the rise of
various LGBT/Q subcultures through a long history of print and how to
navigate and understand the gregarious contemporary world of online
publishing and social networking. Prerequisite: Previous course in GWS
recommended.

GWS 330  Bodies & Tech in Pop Culture  credit: 3 Hours.
Examines gender, race, sexuality and nation as embodied in visions of
science and technologies in popular culture. Topics include medicine,
work, leisure, domesticity, games, films, fiction, geopolitics, and the body.
Prerequisite: GWS 100 or GWS 250 or GWS 350 or consent of instructor.

GWS 333  Memoir & Autobiography  credit: 3 Hours.
Explores the phenomenon of autobiography in the contemporary world.
Students will read theories of autobiography, and ask questions about
how writing about the self is gendered, and how representations of the
self fare in the outside world. An important aspect of the course will be
examinations of how changing media such as film, television talk shows
and the Internet shape these representations. Students will be assigned
to read and make a presentation on one of the supplementary texts of
autobiographies chosen from authors in the First and Third worlds. Same
as ENGL 333.

GWS 334  Brazilian Women's Lit Trans  credit: 3 Hours.
Same as PORT 334. See PORT 334.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

GWS 335  Film, TV, and Gender  credit: 3 Hours.
Examines the history and theory of film, television, and their
interrelationship through one or more specific case studies. Topics may
include: film and feminist movements; girl films; queer TV; gender, sport
and TV. Focuses attention on gender and related issues such as race,
ethnicity, sexuality, age, ability and disability, class, and nationality.
Addresses issues of representation, narrative, genre, industry, audience,
exhibition, media convergence, new and mobile media, and social space.
Same as MACS 335.

GWS 337  Interrogating Masculinities  credit: 3 Hours.
Explores the social construction of gender as it pertains to masculinities
in conjunction with analyses of race, class, gender, ability, and sexuality.
Masculinities, in its various forms, shapes and lives of both women and
men and this course will examine the construction, reproduction, and
impact of masculinities on the institutions of politics, education, work,
religion, sports, family, media, and the military to name a few. Paying
careful attention to the conjunctions between materiality and culture, this
course will interrogate how masculinities shape individual lives, groups,
nationalisms, organizations, and institutions and will analyze the ways
in which power functions within local transnational contexts. Above all,
this course offers a road map for forging new, progressive models of
masculinity.

GWS 340  Gender, Relationships & Society  credit: 3 Hours.
Same as HDFS 340 and SOC 322. See HDFS 340.

GWS 345  Digital & Gender Cultures  credit: 3 Hours.
This interdisciplinary course uses the lens of gender critique and pairs it
with social activism to provide students analytical tools to engage with,
reshape, and create digital cultures. Examines recent research and public
policies related to the gendered, raced, and classes dimensions of digital
cultures and inequality; the broad range of labor issues embedded in the
growing income disparity related to digital cultures; the various ways
that digital inequality has been defined by public policy, sociologists,
and activists, and real examples of collective activism and social change
related to emerging technologies. Same as INFO 345, MACS 345, and
SOC 345.

GWS 350  Feminist & Gender Theory  credit: 3 Hours.
Interdisciplinary survey of feminist and gender theory. Traces
developments in feminist theory and LGBT/Q approaches and explores
contemporary debates.

GWS 355  Beauty and Culture  credit: 3 Hours.
Examines beauty and culture, in particular how tropes, ideologies, and
politics bolster the construction of beauty as an aesthetic value. Looks
at the ways in which beauty is imagined, visualized, narrated, naturalized,
reproduced, privileged, and contested through various venues such as art,
performance, philosophy, media, history, and popular culture. Attention
will be given to race, class, gender, sexuality, and the implications thereof.

GWS 356  Sex & Gender in Popular Media  credit: 3 Hours.
Same as MACS 356. See MACS 356.
This course satisfies the General Education Criteria for:
UIUC: Western Compartv Cult

GWS 360  Women and the Visual Arts  credit: 3 Hours.
Same as ARTH 360. See ARTH 360.

GWS 361  Women in East Asia  credit: 3 Hours.
Same as EALC 361. See EALC 361.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

GWS 363  Gender, Health & Pop Culture  credit: 3 Hours.
Aspects of popular culture, including television, magazines, newspapers,
social networking sites, and internet sources to name a few, are ways
that health information is disseminated. Students will examine how
we define health and understand disease as related to popular culture.
Discusses how people resist or reinforce these messages about health,
well being, fitness, and diet. Also discusses how understandings of race,
sexuality and class affect the ways that we think about sickness, health
and constructions of gender.
GWS 366  Feminist Disability Studies  credit: 3 Hours.
Explores the complex relationship between gender and disability. Approaching disability as a social and political category rather than a strictly medical one, we will ask: how is the language of disability used to produce and police a variety of gender, sexual, and racial identities as non-normative? How might debates over medicine, technology, and the concept of "natural" pit gender and disability against one another? How have feminist, queer, and transgender scholarship and activism engaged disability? Prerequisite: One of the following: GWS 100, GWS 201, GWS 202.

GWS 370  Queer Theory  credit: 3 Hours.
Traces the development of queer theory as a mode for understanding queer studies methodologies and the changing intellectual landscape of key issues in the field. As part of the course, students will review key concepts and theoretical schools of thought, navigating important debates guiding the field. Theories will engage questions of the social and cultural through topics including race, gender, nation, family, history, identity formation, sexology, the state, and capital. Same as SOC 320. Prerequisite: GWS 100, GWS 201, GWS 202, or consent of instructor.

GWS 376  Children and Youth Literature  credit: 3 Hours.
Same as CWL 376, EURO 376, and SCAN 376. See SCAN 376.

GWS 378  Fairy Tales & Gender Formation  credit: 3 Hours.
Discusses how femininity and gender formation are related through fairy tales. As children grow they are taught the difference between male and female roles. One of the main ways this instruction takes place is through the pleasurable media of fairy tales in books, poems, and more recently, films. Sleeping Beauty, Snow White, Beauty and the Best, and the Little Mermaid, among others, will be examined to understand how sexual identity is constructed differently in different cultures, and how issues such as rape and incest are addressed within the narratives. The readings explore the ways that fairy tales work to express psychological reactions to maturation while conditioning both characters and readers to adopt specific social roles in adulthood. Same as ENGL 378.

GWS 380  Black Women Hist & Cultures  credit: 3 Hours.
Interdisciplinary study of black women's multiple histories and varied cultures including black women from North America, Africa, and the Caribbean. Same as AFRO 380. Prerequisite: AFRO 100 or GWS 100 or GWS 250 or consent of instructor. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

GWS 382  Black Women & Popular Culture  credit: 3 Hours.
Explores how Black women have been currently portrayed in popular media, such as television, internet, movies, and popular mediums such as magazines, popular fiction, newspapers, and other cultural phenomenon. Examines what these portrayals reveal about Black women's role in society and how black women as consumer and participants respond to these stereotypes, and create alternative oppositional images. This course satisfies the General Education Criteria for: UIUC: US Minority Culture(s)

GWS 383  Hist of Blk Women's Activism  credit: 3 Hours.
Same as AFRO 383 and HIST 383. See AFRO 383.

GWS 385  Transnational Sexualities  credit: 3 Hours.
Investigates the ways in which sexual identities change as national contexts change, as borders are imagined, valued, and crossed, and as definitions of race, gender, and religion shift. Interrogates how national and transnational identities (at home and abroad), modernities, histories, and colonial and global narratives are built on ideas of racialized sexualities, and as such, is particularly interested in the study of queer diaspora. Importantly, this course utilizes transnational feminist frameworks for rethinking issues related to sexuality, immigration, nation-building, race and gender. Areas of inquiry include imperialism, immigration, war, tourism and globalization. Same as HIST 385. Prerequisite: GWS 100, GWS 201 or GWS 202 or consent of instructor.

GWS 387  History of Sexuality in U.S.  credit: 3 Hours.
Explores a wide variety of sources to understand how notions of sexuality have emerged and been contested at key moments in U.S. history. Our guiding questions include: How have "official" or governing discourses of sexuality (in law, medicine, religions, science) been formulated? In turn, how have "ordinary" people understood and practiced their sexuality? How has the meaning of particular sexual practices changed over time? How have ideas about race, gender, and/or class been embedded within the discourse of sexuality at different moments in U.S. history? What methods of reading and interpretation are most useful for the historical study of sexuality? Also emphasizes skills such as critically analyzing primary sources within their historical context; interpreting different types of primary sources; locating, understanding, and evaluating scholarly secondary sources; and presenting historical arguments, based on both primary and secondary sources. Same as HIST 387.

GWS 390  Individual Study  credit: 0 to 3 Hours.
Special topics not treated in regularly scheduled classes. Approved for letter and S/U grading. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: One course in Gender and Women's Studies; consent of instructor.

GWS 392  Chicanas&Latinas: Self&Society  credit: 3 Hours.
Same as LLS 392 and SOC 392. See LLS 392. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

GWS 395  Intermediate Topics GWS  credit: 3 Hours.
Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 hours; may be repeated in separate terms to a maximum of 12 hours.

GWS 397  Sexuality in Modern Europe  credit: 3 Hours.
Course Information: Same as HIST 397. See HIST 397.

GWS 403  Women in Muslim Societies  credit: 3 or 4 Hours.
Same as ANTH 403, GLBL 403, HIST 434, REL 403 and SAME 403. See REL 403.

GWS 409  Women's Health  credit: 3 Hours.
Same as CHLH 409. See CHLH 409.

GWS 415  Africana Feminisms  credit: 3 or 4 Hours.
Same as AFRO 415 and AFST 420. See AFRO 415.

GWS 417  Leading Post-Perform Dialog  credit: 4 Hours.
Same as THEA 417. See THEA 417.

GWS 418  Devising Social Issues Theatre  credit: 3 or 4 Hours.
Same as THEA 418. See THEA 418.

GWS 421  Sex Role Theory in Counseling  credit: 4 Hours.
Same as EPSY 421. See EPSY 421.

GWS 424  Gender & Race in Contemp Arch  credit: 3 Hours.
Same as ARCH 424. See ARCH 424.
GWS 428 Sociolinguistics of Gender  credit: 3 or 4 Hours.
Same as ANTH 428 and LING 428. See LING 428.

GWS 432 Gender and Language  credit: 3 or 4 Hours.
Same as CMN 432 and LING 432. See CMN 432.

GWS 435 Commodityfying Difference  credit: 3 or 4 Hours.
Same as AAS 435, AFRO 435, LLS 435, and MACS 432. See LLS 435.

GWS 442 Body, Culture & Society  credit: 3 or 4 Hours.
Same as KIN 442. See KIN 442.

GWS 445 Latina Literature  credit: 3 or 4 Hours.
Same as LLS 442 and SPAN 442. See LLS 442.

GWS 450 Topics in Bodies and Genders  credit: 3 Hours.
Same as CWL 450. See CWL 450.

GWS 454 Social Work with Women  credit: 3 or 4 Hours.
Same as SOCW 455. See SOCW 455.

GWS 459 Gender, Sex, & Postcoloniality  credit: 3 or 4 Hours.
Explores the relationship of imperialism, sexuality, and race through the lens of postcolonial theory. Same as HIST 459. 3 undergraduate hours. 4 graduate hours. Prerequisite: GWS 100 or GWS 250 and GWS 350 or GWS 370; or consent of instructor.

GWS 462 Hip Hop Feminism  credit: 3 or 4 Hours.
Explores how hip hop has shaped the culture, aesthetics, experiences, and perspectives of an emergent generation of artists, scholars, and writers with several aims: 1) To challenge systemic social inequalities.
2) To articulate new visions of justice that depend on the power young people possess. To better understand how and why the relationship between hip hop and feminism is coherent, meaningful, and compelling, students will become familiar with artists working within and beyond various elements of hip hop (rap, graffiti, emceeing, deejaying, etc.). social critics concerned with documenting hip hop's cultural practices, and critical educator (broadly defined). 3 undergraduate hours. 4 graduate hours.

GWS 465 Race, Sex, and Deviance  credit: 3 or 4 Hours.
Same as AAS 465, AFRO 465, and LLS 465. See LLS 465.

GWS 467 Locating Queer Culture  credit: 3 Hours.
Our goal is to learn different methods for researching "queer culture," with a special focus on the local context. Explores two research methods in depth: history and ethnography. Students will produce their own original research based on genuine gaps in existing knowledge. Provides an opportunity to learn both received knowledge about queer culture, as well as that which we do not yet know. By the end of this course, the class will collectively produce new knowledge about queer culture using local stories. Same as HIST 468. 3 undergraduate hours. No graduate credit.

GWS 470 Transgender Studies  credit: 3 or 4 Hours.
What are the issues and politics related to transgender and transsexual identities? Students will examine and critically evaluate historical and contemporary debates that contest normative male/female binaries and traditional categorizations of sexuality. The course moves beyond these initial inquiries into gender theory to consider the effects of institutional discourses produced through stage and civil society. Taught with particular attention given to questions of race, national formations, medical, and legal discourses. Areas of inquiry may include gender theory, transnational identities, gendered and racial performances, medical and psychological diagnoses, violence, the law, and the Prison Industrial Complex. Through these topics, students will be asked to consider important questions over political and legal representation, autonomy, the rights of citizenship, and the practice of everyday life. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- or 300-level, or consent of instructor.

GWS 478 Sex, Power and Politics  credit: 3 or 4 Hours.
Examines representations of the relationship between sex, power, and subjectivity and how they have shaped feminism. Explores critical approaches to feminist analyses of women's oppression and debates about sexuality, including issues such as consent, rape and prostitution. Same as PS 413. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- and 300-level or consent of instructor.

GWS 485 The Politics of Fashion  credit: 3 or 4 Hours.
Interdisciplinary and transnational study of the historical and cultural development of fashion. Examines the social and political tensions embodied in fashion, the fashion industry, and sartorial practices in relation to gender, race, nation, and sexuality. Same as AAS 485. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200 or 300 level, or consent of instructor.

GWS 490 Individual Study  credit: 2 to 4 Hours.
Supervised reading and research in Gender and Women's Studies chosen by the student with instructor approval. 2 to 4 undergraduate hours.
2 to 4 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: Two courses in Gender and Women's Studies at the 200-400 levels; or junior standing; or consent of instructor.

GWS 495 Advanced Topics GWS  credit: 3 or 4 Hours.
3 undergraduate hours. 4 graduate hours. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 undergraduate hours or 12 graduate hours; may be repeated in separate terms to a maximum of 12 undergraduate or 12 graduate hours.

GWS 498 Senior Seminar  credit: 3 Hours.
Considers the relationship between theory and research in Women's Studies. Reviews and examines the key issues of feminist scholarship. Provides students with the methodological knowledge and opportunity to carry out a research project. 3 undergraduate hours. No graduate credit. Prerequisite: Senior standing and enrollment as a major in Gender and Women's Studies, or consent of instructor.

This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

Minor in Gender and Women's Studies

A minor in GWS provides complementary tools for many majors in the humanities, arts and sciences. The minor advocates actively reading,
questioning, challenging, and understanding racialized, sexualized, and gendered bodies. The Department of Gender and Women’s Studies must approve a student’s minor course plan. Students must register their minor with the Gender and Women’s Studies advisor.

E-mail: gws-email@illinois.edu

Additional Coursework: At least 9 additional hours of coursework offered by the Department at the 300- or 400-level. Required courses consist of a selected list of courses offered by the Department; they are on an approved list maintained in the department office and with GWS advisor. 

At least 6 hours of advanced coursework must be distinct from credit earned for the student’s major or another minor.

### Minor in LGBT/Queer Studies

The LGBT/Queer Studies minor provides students the opportunity to explore how various political, social, and cultural definitions of sexual identities and their expression have been constructed and challenged in different places and points in time. Attention is given to queer politics, and interactions with nation, race, ethnicity, and gender. A minor in LGBT/Queer Studies provides complementary tools for many majors in the humanities, arts and sciences.

The Department of Gender and Women’s Studies must approve a student's minor course plan. Students must register their minor with the Gender and Women’s Studies advisor.

Area electives at any level. For a list of approved courses contact the GWS Department office or the GWS advisor.

Total Hours 18

1. Topics courses (GWS 395, GWS 495) may count up to 3 hours toward additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.

At least 6 hours of advanced coursework must be distinct from credit earned for the student’s major or another minor.

Students may choose to major in Gender & Women’s Studies and Minor in LGBT/Queer Studies, but classes may not count towards both.

### Geography and Geographic Information Science

Sara McLafferty
255 Computing Applications Building, 605 East Springfield, Champaign, IL 61820
PH: (217) 333-1880
http://geog.illinois.edu

The Department of Geography and Geographic Information Science offers four undergraduate concentrations.

- **General Geography** (p. 408)
- **Geographic Information Science** (GIS) (p. 408)
- **Human Geography** (p. 409)
- **Physical Geography** (p. 410)

Geography majors integrate social science, physical science, and technology in their study of how humans use the earth’s surface. Majors in the General Geography track can sample courses from different subfields of geography without having to choose one specialty of the discipline. Upon completion, the students are prepared for diverse employment opportunities, or for further studies in a geography graduate program.

Geographic Information Science (GIS) (p. 408)
The GIS concentration emphasizes the creation, use and analysis of digital geographic information to examine economic, environmental, physical and social phenomena. The GIS program provides students with in-depth training in contemporary software packages to prepare them for careers in the field. There is growing demand for professional knowledge of the earth’s systems and the use of geographic information systems to enhance business, protect the environment and manage the massive amounts of spatial data now widely available on the internet. The U.S. Department of Labor has identified geospatial technologies as one of the fastest-growing domestic job sectors.

Human Geography (p. 409)
The Human Geography concentration allows students to specialize in the social science aspect of modern geography. The curriculum includes the systematic study of human social organization and its environmental consequences. Employment opportunities for human geographers include: urban and regional planning, transportation, marketing, real estate, tourism, and international business.

Physical Geography (p. 410)
The Physical Geography concentration examines the earth sciences including patterns of climates, land forms, vegetation, soils, and water. Graduates of our physical geography concentration will be equipped for careers in infrastructure development, land and water resources management, and surveying.

The department also offers a minor in Geography and GIS which exposes students to a comprehensive selection of courses embracing our...
three broad areas of study: human geography, physical/environmental geography, and geographic information science.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: geograph@illinois.edu

Students must complete the core requirements listed below, and select one concentration in consultation with an academic advisor.

- General Geography Concentration (p. 408)
- Geographic Information Science Concentration (p. 408)
- Human Geography Concentration (p. 409)
- Physical Geography Concentration (p. 410)

Total Hours 35-49

Minor in Geography and GIS

The minor in Geography and GIS will expose students to a comprehensive selection of courses embracing our three broad areas of study: human geography, physical/environmental geography, and geographic information science. Students select 6 hours at the 100 level, then 3 hours each from the human, physical/environmental, and geospatial sub-disciplines (as listed below), and then 3 additional hours from any of the three sub-disciplines for a total of 18 credits. At least 6 hours total must be at the 300 or 400 level.

Two courses selected from the following: 6

| ATMS/ GEOG 100 Introduction to Meteorology |
| GEOG 101 Global Development&Environment |
| GEOG 103 Earth's Physical Systems         |
| GEOG 104 Social and Cultural Geography    |
| GEOG 105 The Digital Earth               |
| GEOG 106 Geographies of Globalization     |
| GEOG 221 Geographies of Global Conflict   |

One course in human geography, selected from the following: 3

| GEOG 204 Cities of the World |
| GEOG 205 Business Location Decisions |
| GEOG 224 Geog Patterns of Illinois |
| GEOG 310 Political Geography |
| GEOG 350 Sustainability and the City |
| GEOG 356 Sustainable Development in South Asia |
| GEOG 373 Spring Field Course |
| GEOG 384 Population Geography |
| GEOG 410 Green Development |
| GEOG 438 Geography of Health Care |
| GEOG 455 Geog of Sub-Saharan Africa |
| GEOG 465 Transp and Sustainability |
| GEOG 471 Recent Trends in Geog Thought |
| GEOG 483 Urban Geography |

One course in physical/environmental geography, selected from the following: 3

| GEOG 210 Social & Environmental Issues |
| GEOG 215 Resource Conflicts |
| GEOG 222 Big Rivers of the World |
| ESE 320 Water Planet, Water Crisis |
| GEOG 373 Spring Field Course |
| GEOG 381 Environmental Perspectives |
| NRES/ GEOG 401 Watershed Hydrology |
| GEOG 406 Fluvial Geomorphology |
| GEOG 408 Humans and River Systems |
| GEOG 412 Geospatial Tech & Society |
| GEOG 468 Biological Modeling |
| GEOG 481 Intl Environ Cooperation |
| GEOG 493 Democracy and Environment |
| GEOG 496 Climate & Social Vulnerability |

One course in geographic information science, selected from the following: 3

| GEOG 371 Spatial Analysis |
| GEOG 379 Intro to GIS Systems |
| GEOG 380 GIS II: Spatial Prob Solving |
| GEOG 412 Geospatial Tech & Society |
| PATH 439 Health Applications of GIS |
| GEOG 460 Aerial Photo Analysis |
| GEOG 473 Digital Cartography & Map Design |
| GEOG 476 Applied GIS to Environ Studies |
| GEOG 477 Introduction to Remote Sensing |
| GEOG 478 Techniques of Remote Sensing |
| GEOG 479 Advanced Topics in GIS |
| GEOG 480 Principles of GIS |

One 200-400 level course selected from any of the above: 3

Total Hours 18

At least 6 hours total must be at the 300 or 400 level.

GEOG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOG)
Courses

GEOG 100 Introduction to Meteorology  credit: 3 Hours.
Same as ATMS 100. See ATMS 100.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

GEOG 101 Global Development & Environment  credit: 3 Hours.
Introduces geographical perspectives on environment and development studies with case studies drawn from Africa, Asia, and Latin America. Investigates the origins of the global South in relation to the global North, especially the historical and contemporary processes driving environmental, economic, and cultural change.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

GEOG 103 Earth's Physical Systems  credit: 4 Hours.
A basic introduction to the environmental systems of the Earth's surface, including landforms, soils, and ecosystems and how these systems are affected by global change. Emphasizes the importance of human-Earth relations and a holistic view of environmental systems. Same as ESE 103.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOG 104 Social and Cultural Geography  credit: 4 Hours.
Introduces the basic concepts of social and cultural geography, and the application of these concepts to a variety of topics; mental maps, territoriality, cultural regions, cultural elements and their diffusion, population movement and migration, settlement patterns, environmental hazards, and spatial patterns of social problems.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GEOG 105 The Digital Earth  credit: 3 Hours.
Geospatial technologies such as global positioning systems (GPS) and geographic information systems (GIS) are becoming increasingly important tools in research and policy arenas and in everyday life. This course will provide an introduction to these emerging technologies and to the principles of mapping science that underpin them. At the same time, the course will explore how these innovative technologies are changing the spaces and places around us, including how we interact with the environment and each other. Lab exercises provide hands-on experience in collecting and mapping geospatial information, interpreting digital imagery and the Earth’s environments, and critically thinking about the social implications of the digital Earth.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GEOG 106 Geographies of Globalization  credit: 3 Hours.
A survey of major world regions by systematically considering five themes: environment, population and settlement patterns, cultural coherence and diversity, geopolitical fragmentation and unity, and economic and social development. While examining the persistence of unique regions, the course will both scale up to global linkages and scale down to place-specific impacts of globalization processes. Same as ESE 106. This course can be used to fulfill either Western or Nonwestern general education categories, but not both.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences
UIUC: Western Compartv Cult

GEOG 108 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

GEOG 198 Freshman Honors Seminar  credit: 3 Hours.
Through discussions and research projects, the seminar is designed to provide an in-depth understanding of topics in the field of systematic or regional geography which are selected for group study. Appropriate geographic methodology is emphasized. Prerequisite: James Scholar standing or other designation as a superior student.

GEOG 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

GEOG 204 Cities of the World  credit: 3 Hours.
In-depth exploration of global urbanization. Using a comparative regional approach, discuss the recent history of global urbanization, dissect its problems, and offer possible solutions. Approximately ten major regions of the world will be examined, exploring the significant urban patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: Western Compartv Cult

GEOG 205 Business Location Decisions  credit: 3 Hours.
Analyzes location decision-making emphasizing industrial and commercial location patterns; identifies important institutional factors and their changing roles over the recent past; and focuses on plant closings, economic disruptions, and problems of structural change. Same as BADM 205. Prerequisite: ECON 102 or ECON 103, or equivalent.

GEOG 210 Social & Environmental Issues  credit: 3 Hours.
Introduction to the complex relationship between people and the natural environment from a social science perspective. Explores different approaches to environmental issues, and examines the role of population change, political economy, technologies, environmental policymaking, and social institutions in causing and resolving contemporary social and environmental global issues. Same as ESE 210.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GEOG 215 Resource Conflicts  credit: 3 Hours.
Geographic concepts of place, scale, region, and territoriality are used to explore the causes and consequences of competition for the control of natural resources. Situations that lead to violent conflict are discussed as well as mechanisms for the peaceful resolution of resource conflicts. Resources discussed include oil, water, access to land, and the impact of climate change. Same as ESE 215 and GLBL 215.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GEOG 221 Geographies of Global Conflict  credit: 3 Hours.
Focuses on contemporary cultural conflicts, competition among nations for economic and mineral resources; treats territorial disputes from a cultural and geographic perspective. Case studies vary to illustrate types of contemporary conflicts. Same as GLBL 221. Credit is not given for GEOG 221 and GEOG 110.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

Information listed in this catalog is current as of 03/2017
GEOG 222  Big Rivers of the World  credit: 3 Hours.
An interdisciplinary approach to the study of big rivers, encompassing
geomorphology, engineering, ecology, risk assessment and planning.
Commencing with an assessment of the nature of big rivers; their
hydrology and geomorphic setting; hazards associated with large
rivers, and issues of river impoundment and management, then
proceed to examine the geography, geomorphology, and ecology and
management of a range of the World's greatest rivers, focusing on how
a geomorphological understanding of such large rivers can aid study of
riverine ecohabitats and inform decisions regarding water usage and
engineering management. If the weather permits, a one day field-trip will
be organized in the second half of the course to view aspects of a local
river in Illinois/Indiana. Same as ESE 222.

GEOG 224  Geog Patterns of Illinois  credit: 3 Hours.
Systematic analysis of the environmental and human processes that
have shaped the regional landscapes of rural and urban Illinois.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GEOG 254  American People, Places, & Environments  credit: 3 Hours.
Regional geography survey of the U.S., including physical settings,
cultural and economic patterns, and human-environment relationships.
Topics include spatial patterns of settlement and migration, uneven
vulnerability to natural hazards, and cultural diversity as seen in the
landscape, with an overall focus on how human and physical geography
together shape the American environment across different regions. Same
as ESE 254.

GEOG 280  Intro to Social Statistics  credit: 4 Hours.
Same as SOC 280. See SOC 280.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

GEOG 287  Environment and Society  credit: 3 Hours.
Same as ESE 287, NRES 287, PS 273 and SOC 287. See NRES 287.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: Western Compartv Cult

GEOG 310  Political Geography  credit: 3 Hours.
Problems and issues surrounding the geographic distribution of political
actions and outcomes in the context of globalization. Topics include war
and peace, access to natural resources, nationalism, democratization,
terrorism, and the politics of identity. Prerequisite: Junior standing or
consent of instructor.

GEOG 350  Sustainability and the City  credit: 3 Hours.
Examination of the tools, techniques, strategies, and rationales that
can be used by urbanists to produce and sustain a productive, fair, and
equitable city. Emphasis is placed on diagnosing, implementing, and
sustaining an ideal U.S. city as a complex whole that embeds an array of
interconnecting parts (neighborhoods, retail districts, downtowns, city
economies). Lectures and discussion cover the broad background of
theories, concepts, and principles that will be essential for imagining and
implementing these ideals, strategies and plans.) Same as ESE 350.

GEOG 356  Sustainable Development in South Asia  credit: 3 Hours.
Examination of sustainable development in the region of South Asia
(India, Nepal, Pakistan, Afghanistan, Bangladesh, Sri Lanka). Geographic
analysis of development processes since the colonial period, with
particular emphasis on the interrelated processes of environment,
society, and politics as related to sustainability. Prerequisite: Sophomore
standing or consent of instructor.

GEOG 370  Water Planet, Water Crisis  credit: 3 Hours.
Same as ESE 320 and GEOL 370. See ESE 320.

GEOG 371  Spatial Analysis  credit: 4 Hours.
Overview of the spatial analysis (nomothetic) approach to geographic
research, both physical and human; includes discussion of the scientific
method, with explanations and uses of analytic geographic concepts in
studying real world problems. Prerequisite: A course in geography.

GEOG 373  Spring Field Course  credit: 4 Hours.
Field observation and mapping of human and physical phenomena using
basic geographic field techniques; required ten-day field trip during spring
term break. Prerequisite: Geography majors, or non-majors with consent
of instructor.

GEOG 379  Intro to GIS Systems  credit: 4 Hours.
Investigates the fundamentals of geographic information science as
well as the basic skills in the execution of that theoretical knowledge
with industry standard software packages. Student will learn the basics
of projections and coordinate systems, how geographic information
is stored and manipulated, and the theory and practice behind the
production of thematic maps. Includes lecture and hands-on laboratory
components. Same as ESE 379.

GEOG 380  GIS II: Spatial Prob Solving  credit: 4 Hours.
Study of the analytical capabilities of geographic information systems
with an emphasis on learning to solve spatial problems in both the vector
and raster data formats. Students will develop the skills necessary
to answer questions or solve problems in their areas of interest, with
particular emphasis on problems and questions that require multiple
steps to resolve. Students will learn the fundamental theory behind
spatial problem solving, but also learn to execute these procedures with
industry-standard software packages. Thus, this class contains both
lecture/discussion elements and hands-on laboratory work. Same as
ESE 380. Prerequisite: GEOG 379
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

GEOG 381  Environmental Perspectives  credit: 3 Hours.
Focus on the major ideas in contemporary environmentalism, especially
on how humans do and should interact with the environment. Same as
ESE 381. Prerequisite: Junior or senior undergraduate standing.

GEOG 384  Population Geography  credit: 3 Hours.
Problems and issues surrounding the geographic distribution of
populations at the world, regional, and local levels; emphasizes problems
associated with population growth and decline, recent population
redistribution, births and deaths, and elderly and minority populations.

GEOG 390  Individual Study  credit: 2 to 4 Hours.
Supervised independent study of special topics or regions. May be
repeated once. Prerequisite: Junior standing; at least one formal course
in the topic or region of interest; consent of instructor.

GEOG 391  Honors Individual Study  credit: 2 to 4 Hours.
Individual study and research projects for students who are working
toward the degree with distinction in geography. May be repeated to a
maximum of 8 hours. Prerequisite: Junior standing; consent of honors
adviser.
GEOG 392  Geography & GIS Internship  credit: 0 to 3 Hours.
Supervised, off-campus experience in a field directly pertaining to
Geography and/or GIS. A written report is required at the end of the
internship relating work accomplishments to the student's program
of study. Approved for Letter and S/U grading. May be repeated in
separate terms up to 6 hours. Prerequisite: Consent of faculty sponsor
and Director of Undergraduate Studies; at least two courses taken within
Geography & GIS.

GEOG 394  Special Topics Social Geog  credit: 4 Hours.
Introduction to current research in social geography; includes such topics
as access to public facilities, geography of crime, innovation diffusion,
geography of communications, spatial assimilation of minorities, and
geography of social well-being. See Schedule for current topics. May be
repeated.

GEOG 401  Watershed Hydrology  credit: 3 Hours.
Same as NRES 401. See NRES 401.

GEOG 406  Fluvial Geomorphology  credit: 4 Hours.
Systematic overview of the forms and processes associated with rivers
and drainage basins; topics include basin hydrology, drainage networks,
river hydraulics, sediment transport processes, channel morphology,
channel change, and human impacts on fluvial systems. Same as
GEOL 406, and NRES 406. 4 undergraduate hours. 4 graduate hours.
Prerequisite: PHYS 101, and GEOG 103 or GEOL 107, or consent of
instructor.

GEOG 408  Humans and River Systems  credit: 4 Hours.
Systematic analysis of the biophysical processes operating in rivers
and watersheds and the interaction of humans on these processes.
The course will emphasize the importance of biophysical processes
and human interaction with these processes in river and watershed
management. Class discussion and a class project will focus on analysis
of practical river and watershed problems. 4 undergraduate hours. 4
graduate hours. Prerequisite: GEOG 103 or an introductory course in earth
or environmental science.

GEOG 410  Green Development  credit: 4 Hours.
Theory and practice of sustainable development. Course materials
draw upon theoretical and case study material from the social and
natural sciences to analyze environment and development relations with
emphasis on the Global South. Same as ESE 410. 4 undergraduate hours.
4 graduate hours.

GEOG 412  Geospatial Tech & Society  credit: 3 Hours.
Examines the use of geographic information systems (GIS), geographical
positioning systems (GPS), and other geospatial technologies in
everyday life with emphasis on their implications for social, economic,
and environmental change. Topics include critical cartography, GIS,
and social theory, crime and health, environmental justice, feminism,
economic development and environmental change. 3 undergraduate hours. 3
der graduate hours. Prerequisite: GEOG 105 or consent of instructor.

GEOG 421  Earth Systems Modeling  credit: 4 Hours.
Same as ATMS 421, ESE 421, GEOL 481 and NRES 422. See ATMS 421.

GEOG 423  Politics of International Conservation and Development
credit: 3 Hours.
Same as NRES 423. See NRES 423.

GEOG 436  Biogeography  credit: 3 Hours.
Same as ANTH 436, ESE 439, IB 439 and NRES 441. See IB 439.

GEOG 438  Geography of Health Care  credit: 3 or 4 Hours.
Methods and perspectives of health care. Emphasizing the spatial
analysis of health and health care. The organization, provision and
competition of health care will be highlighted. Same as SOC 478. 3
undergraduate hours. 4 graduate hours. Prerequisite: GEOG 384 or
SOC 274 or consent of instructor.

GEOG 439  Health Applications of GIS  credit: 3 Hours.
Same as CHLH 439 and PATH 439. See PATH 439.

GEOG 440  Business Applications of GIS  credit: 3 Hours.
Design and implementation of GIS for business and strategic planning
applications. Course goals include: (1) provide students with an
understanding of Geographic Information Systems; (2) provide students
with an understanding of how GIS can be applied in various business
applications; (3) familiarize students with GIS and modeling techniques;
(4) provide students with opportunities to work with various data sources
through a project related to their own interest in business. Same as
BADM 440. 3 undergraduate hours. 4 graduate hours.

GEOG 446  Sustainable Planning Seminar  credit: 4 Hours.
Same as NRES 446 and UP 446. See UP 446.

GEOG 455  Geog of Sub-Saharn Africa  credit: 3 Hours.
Regional geography of Africa south of the Sahara. Geographic analysis of
Africa which includes topics in both physical and human geography and
provides a general overview of the processes and interactions between
human and environmental factors that shape Africa's physical and
human geography. 3 undergraduate hours. 3 graduate hours.

GEOG 459  Ecohydraulics  credit: 4 Hours.
Interactions between hydraulic, ecological, and geomorphic processes
in river environments at a wide range of both spatial and temporal
scales. Draws upon and synthesize fundamental concepts from biology,
ecology, fluid mechanics and morphodynamics, to apply them to truly
interdisciplinary problems. Such an approach, coupled with hands-
on experience involving planning, conducting and analyzing hands-on
experiments at the Ven Te Chow Hydrosystems Laboratory and field
surveys on local natural waters will provide the students with a broad
perspective on the interconnections between physical and ecological
systems. Students will apply their knowledge of fundamental processes
to assess complex problems involving monitoring, management,
conservation and restoration of ecosystems. 4 undergraduate hours. 4
graduate hours.

GEOG 460  Aerial Photo Analysis  credit: 3 to 4 Hours.
Review of methods for extracting quantitative and qualitative information
from aerial photographs using computer-based techniques and
visual interpretation. The first part of the course will cover basic
photogrammetry and mapping. The second part will focus on
interpretation of physical, biological, and cultural features. Same as
NRES 460. 3 undergraduate hours. 4 graduate hours. Prerequisite:
Knowledge of trigonometry (MATH 014 or equivalent) and basic physical
geography (GEOG 103 or equivalent).

GEOG 465  Transp and Sustainability  credit: 3 or 4 Hours.
Descriptors of transportation systems; transportation as an industrial
activity and public good; and transportation and spatial development,
including the role of transportation in urban and regional development.
Emphasis on the economic, environmental, and social aspects of
sustainability as they apply to transportation systems and the activities
they enable at local, regional, national and global levels. Field trip
required. Same as ESE 465. Additional fees may apply. See Class
Schedule. 3 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
GEOG 466  Environmental Policy  credit: 3 or 4 Hours.
Examination of the geographical and political aspects of human-environmental relations; focusing on how environmental problems are defined, negotiated, and addressed through policy formulation. Specific approaches to environmental policy will be considered at different geographical scales. Same as ESE 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Geography or Political Science or consent of instructor.

GEOG 468  Biological Modeling  credit: 3 or 4 Hours.
Interdisciplinary modeling course for students interested in dynamic system modeling of living processes; each student will build a model by the end of the course. No special mathematical background required. Same as ANSC 449, CPSC 448, and IB 491. 3 undergraduate hours. 4 graduate hours. Prerequisite: IB 444 or equivalent, depending on curriculum.

GEOG 471  Recent Trends in Geog Thought  credit: 4 Hours.
Examination of recent trends in human and physical geography. Themes include empiricism, logical positivism, regionalism, Marxism, realism, phenomenology, and post-modernism as applied to geographic research. Emerging geographic literature is explored to identify the latest conceptual developments. 4 undergraduate hours. 4 graduate hours.

GEOG 473  Digital Cartography & Map Design  credit: 4 Hours.
Instruction and practice in the basic techniques of map making followed by a consideration of problems involved in the construction of maps for presentation in a reproduced form (i.e., printed, photographed); the selection of proper source materials for the base and body of the map, the compilation and correlation of these materials, and methods of mechanical and photographic reproduction. 4 undergraduate hours. 4 graduate hours.

GEOG 476  Applied GIS to Environ Studies  credit: 3 Hours.
Demonstrates how geographic information systems (GIS) have become a major technology ubiquitously applied to solve important problems encountered in geospatial and environmental applications. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 103 or GEOG 104, consent of instructor.

GEOG 477  Introduction to Remote Sensing  credit: 3 Hours.
Fundamentals of energy-matter interaction mechanisms, and the manifestation of reflected and emitted radiation on photographs and images; introduces characteristics of aerial films and filters, electro-optical scanners, and digital processing; and emphasizes applications in environmental problems. Same as NRES 477. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 280 (beginning statistics) or equivalent, or consent of instructor.

GEOG 478  Techniques of Remote Sensing  credit: 4 Hours.
Optical and digital information processing of imagery acquired from aircraft and satellite remote sensing platforms; includes systems design, mensuration theory, photographic enhancement techniques, and automatic digital classification for all of the standard sensor systems; and laboratory focusing on the design and implementation of information processing techniques with application limited to a survey of uses. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 477 or equivalent.

GEOG 479  Advanced Topics in GIS  credit: 3 Hours.
Introduces advanced concepts in Geographic Information Science. Course topics may vary. 3 undergraduate hours. 3 graduate hours. May be repeated, if topics vary, in separate terms to a maximum of 9 hours, but not more than 6 hours in any one term. Prerequisite: GEOG 379 or equivalent.

GEOG 480  Principles of GIS  credit: 3 Hours.
Focuses on Geographic Information Science (GIScience) principles that underlie the development of Geographic Information Systems (GIS) software and its intelligent use. Helps students adapt to rapidly changing geospatial technologies. Knowledge gained in this course will be general and, thus, not be limited to any specific software product that may be revised in the future. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 379 and GEOG 380 or equivalent, or consent of instructor.

GEOG 481  Intl Environ Cooperation  credit: 3 Hours.
Examines the problems, policies and politics related to environmental issues that require international cooperation to address effectively. Transboundary, regional, and global environmental issues will be analyzed, spanning the atmosphere (acid rain, protection of the ozone layer, and climate change), the oceans (pelagic fisheries), and biodiversity (whaling, trade in endangered species). Discusses methods for increasing international environmental cooperation, such as unilateral actions, trade sanctions, financial aid, non-governmental monitoring and innovations in institutional design. Same as ESE 481. 3 undergraduate hours. 3 graduate hours. Prerequisite: One course in Geography or Political Science or consent of instructor.

GEOG 482  Challenges of Sustainability  credit: 3 Hours.
Same as ESE 482 and GEOL 483. See ESE 482.

GEOG 483  Urban Geography  credit: 3 Hours.
Broad background of theories, concepts, and methods of research for understanding how and why our cities have reached their current status. Focus on examining the internal structure of the North American city, including analysis of the commercial, industrial, and residential sectors of the urban environment. Particular emphasis is placed on the range of urban theories developed to explain both urban structure and contemporary urban ills. 3 undergraduate hours. 3 graduate hours.

GEOG 484  Cities, Crime, and Space  credit: 3 or 4 Hours.
Focusing on US cities, this theory-intensive course surveys traditional and critical perspectives on relations between crime, space, and place. We will explore this interplay within broader contexts of industrial and post-industrial urbanization, concentrating on dynamics including governances, economic processes, and social transformations. Emphasis will be placed on the extent to which these interwoven processes generate, classify, organize, and react to crime across cityscapes. 3 undergraduate hours. 4 graduate hours.

GEOG 489  Programming for GIS  credit: 4 Hours.
Introduction to programming to customize and extend the capabilities of geographic information systems. Topics include the principles of programming, advanced function and tools coding, visualization, fundamental spatial data structures, and spatial algorithms. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 379 and GEOG 380 or equivalents, or consent of instructor.

GEOG 491  Research in Geography  credit: 2 Hours.
Detailed examination and discussion of the methods of initiating and executing research projects in human or physical geography (taught in separate sections); requires students to write a research proposal of a quality suitable for a graduate thesis. 2 undergraduate hours. 2 graduate hours. Prerequisite: GEOG 471; either graduate standing in geography or senior standing as a geography major and consent of department.

Information listed in this catalog is current as of 03/2017
For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: geograph@illinois.edu

A minimum of 35 credit hours of Geography and Geographic Information Science courses are required for the major.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.

For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.

For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

General Education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Total Hours: 35-39

Select two additional Geography and Geographic Information Science courses from the Human Geography Concentration and/or Physical Geography Concentration course lists

**Total Hours**: 36-42

### Human Geography Concentration

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

**Major in Sciences and Letters Curriculum**

E-mail: geograph@illinois.edu

A minimum of 35 credit hours of Geography and Geographic Information Science courses are required for the major.

General education: Students must complete the Campus General Education [https://courses.illinois.edu](https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours).

Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.

For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.

For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

Information listed in this catalog is current as of 03/2017
Human Geography Concentration Requirements

200-to 400-level Geography and Geographic Information Science courses (of which at least 6 hours must be at the 300 or 400 level) selected from the following:

- GEOG 204 Cities of the World
- GEOG 205 Business Location Decisions
- GEOG 210 Social & Environmental Issues
- GEOG 215 Resource Conflicts
- GEOG 224 Geog Patterns of Illinois
- SOC 280 Intro to Social Statistics
- NRES/ GEOG 287 Environment and Society
- GEOG 310 Political Geography
- GEOG 350 Sustainability and the City
- GEOG 356 Sustainable Development in South Asia
- ESE 320/ GEOG 370 Water Planet, Water Crisis
- NRES/ GEOG 287 Environment and Society
- GEOG 371 Spatial Analysis
- GEOG 373 Spring Field Course
- GEOG 381 Environmental Perspectives
- GEOG 384 Population Geography
- GEOG 390 Individual Study
- GEOG 391 Honors Individual Study
- GEOG 394 Special Topics Social Geog
- GEOG 410 Green Development
- GEOG 412 Geospatial Tech & Society
- LA 427 Amer Vernacular Cultural Land
- GEOG 438 Geography of Health Care
- PATH/ GEOG 439 Health Applications of GIS
- UP/GEOG 446 Sustainable Planning Seminar
- GEOG 455 Geog of Sub-Saharan Africa
- GEOG 465 Transp and Sustainability
- GEOG 466 Environmental Policy
- GEOG 471 Recent Trends in Geog Thought
- GEOG 473 Digital Cartography & Map Design
- GEOG 477 Introduction to Remote Sensing
- GEOG 481 Intl Environ Cooperation
- ESE/GEOG 482 Challenges of Sustainability
- GEOG 483 Urban Geography
- GEOG 493 Democracy and Environment
- GEOG 496 Climate & Social Vulnerability

Total Hours: 35-39

Physical Geography Concentration

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: geograph@illinois.edu

A minimum of 35 credit hours of Geography and Geographic Information Science courses are required for the major.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.

For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.

For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

Geography and Geographic Information Science Core Requirements:

Select one of the following: 3-4

- ATMS 100 Introduction to Meteorology
- GEOG 103 Earth's Physical Systems
- GEOG 222 Big Rivers of the World

Select one of the following: 3-4

- GEOG 101 Global Development & Environment
- GEOG 104 Social and Cultural Geography
- GEOG 105 The Digital Earth
- GEOG 106 Geographies of Globalization
- GEOG 210 Social & Environmental Issues
- GEOG 221 Geographies of Global Conflict

Choose one of the following: 4

- GEOG 371 Spatial Analysis
- GEOG 379 Intro to GIS Systems

Physical Geography Concentration Requirements:

200- to 400-level Geography and Geographic Information Science courses (of which at least 6 hours must be at the 300 or 400 level) selected from the following:

- GEOG 210 Social & Environmental Issues
- GEOG 222 Big Rivers of the World
- ESE 320/ GEOG 370 Water Planet, Water Crisis
- NRES/ GEOG 287 Environment and Society
- GEOG 371 Spatial Analysis
- GEOG 373 Spring Field Course
- GEOG 381 Environmental Perspectives
GEOG 390  Individual Study
GEOG 391  Honors Individual Study
NRES/GEOG 401  Watershed Hydrology
GEOG 406  Fluvial Geomorphology
GEOG 408  Humans and River Systems
GEOG 412  Geospatial Tech & Society
ATMS/GEOG 421  Earth Systems Modeling
IB 439/GEOG 436  Biogeography
GEOG 460  Aerial Photo Analysis
GEOG 468  Biological Modeling
GEOG 471  Recent Trends in Geog Thought
GEOG 473  Digital Cartography & Map Design
GEOG 476  Applied GIS to Environ Studies
GEOG 477  Introduction to Remote Sensing
GEOG 478  Techniques of Remote Sensing
GEOG 481  Intl Environ Cooperation
MATH 220  Calculus 4-5
or MATH 221  Calculus I
PHYS 101  College Physics: Mech & Heat 4-5
or PHYS 211  University Physics: Mechanics
Select one of the following: 4
CHEM 102  General Chemistry I
& CHEM 10:and General Chemistry Lab I
CHEM 104  General Chemistry II
& CHEM 10:and General Chemistry Lab II
Total Hours 47-53

Geology
Tom Johnson
156 Computing Applications Building, 605 East Springfield, Champaign, IL 61820
PH: (217) 333-3540
http://www.geology.illinois.edu

The Sciences and Letters Curriculum major in Geology, administered by the Department of Geology, is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Geology and Geophysics Curriculum. Students must choose one concentration: Geology, Earth and Environmental Sciences, or Earth Science Teaching. The Earth Science Teaching Concentration is designed for students preparing to teach earth science at the secondary school level.

The Specialized Curriculum in Geology and Geophysics is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology concentrations, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum. Students must choose one concentration: Geology, Geophysics, or Environmental Geology.

The Department of Geology also sponsors the Minor in Geology.

For the Degree of Bachelor of Science in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
Select one concentration in consultation with an adviser.

• Earth and Environmental Science Concentration (p. 415)
• Earth Science Teaching Concentration (p. 414)
• Geology Concentration (p. 417)

For the Degree of Bachelor of Science in Geology
Major in Specialized Curriculum in Geology and Geophysics
Select one concentration in consultation with an adviser.

• Geology Concentration (p. 417)
• Geophysics Concentration (p. 418)
• Environmental Geology Concentration (p. 416)

Minor in Geology
The geology minor is designed for students who desire a significant background in Geology to support study and practice of their major field. Selection of courses at the 300- or 400-level will depend on the major and interests of the student.

E-mail: geology@illinois.edu
Web address for department: www.geology.illinois.edu (http://www.geology.illinois.edu)

GEOL 107  Physical Geology 4
GEOL 208  History of the Earth System 4
Select at least 10 hours of advanced geology courses from the following: 10-11
GEOL 333  Earth Materials and the Env
GEOL 380  Environmental Geology
400-level courses taught by the Department of Geology
Total Hours 18-19

1 Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

GEOL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOL)
Courses

GEOL 100  Planet Earth  credit: 3 Hours.
Introduces non-science majors to physical aspects (earthquakes, volcanoes, floods, tsunamis, mountains, plate tectonics) and historical aspects (formation of earth and life, dinosaurs, ice age, evolution of climate) in earth science. Presents information on earth resources, natural hazards, and development of natural landscapes. Focuses on humanistic issues; provides context for understanding environmental change. Optional lab demonstrations and field trips with co-registration in GEOL 110. Credit is not given for both GEOL 100 and GEOL 101, GEOL 103 or GEOL 107.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOL 103  Planet Earth QRII  credit: 3 Hours.
Topics covered are very similar to those of GEOL 101. Emphasizes application of quantitative methods in deriving geological knowledge. A weekly computer laboratory is an essential component of the course. Credit is not given for both GEOL 103 and GEOL 100, GEOL 101 or GEOL 107.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

GEOL 104  Geology of the National Parks  credit: 3 Hours.
Develops geologic background, concepts, and principles through study of selected national parks and monuments. Examines the geologic framework and history, modern geologic processes, and factors influencing the present day landscape for each park area. Same as ESE 104.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOL 107  Physical Geology  credit: 4 Hours.
Introduces Earth phenomena and processes. Includes minerals and rocks, continental drift, plate tectonics, rock deformation, igneous and sedimentary processes, geologic time, landscape evolution, internal structure and composition of the earth, groundwater, seismology and earthquakes, and formation of natural resources. Emphasizes the chemical and physical aspects of the Earth, and the basis for geological inference. Field trip required. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 107 and GEOL 100, GEOL 101 or GEOL 103. Prerequisite: Intended for science and science-oriented students.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOL 110  Exploring Geology in the Field  credit: 1 Hour.
Introduces practical techniques for identification of rocks, minerals, and fossils; interpretation of geologic maps and cross-sections; appreciation of Midwestern geologic history and geologic features and landforms in the field. Additional fees may apply. See Class Schedule.

GEOL 111  Emergence of Life  credit: 3 Hours.
Examines important theoretical and practical questions regarding the origin and evolution of life, as well as the search for life elsewhere in the universe. Uses the pioneering work of Carl Woese, whose "Tree of Life" revolutionized our understanding of the fundamental structure and evolutionary relatedness of all living entities on Earth. Same as ESE 111. Additional fees may apply. See Class Schedule.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

GEOL 117  The Oceans  credit: 3 Hours.
Integrated introduction to oceanography and marine geology and geophysics. Topics include ocean-basin formation and evolution (in the context of plate tectonics), ocean ecology, the hydrologic cycle, water chemistry, currents and waves, the interaction of oceans with climate, coastal hazards, resources, pollution, and the Law of the Sea. Course is oriented toward students not majoring in science. Same as ESE 117.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOL 118  Natural Disasters  credit: 3 Hours.
Introduces the nature, causes, risks, effects, and prediction of natural disasters including earthquakes, volcanoes, landslides, subsidence, global climate change, severe weather, coastal erosion, floods, mass extinctions, and meteorite impacts; covers scientific principles and case histories of natural disasters as well as human responses (societal impact, mitigation strategies, and public policy). Same as ESE 118 and GLBL 118.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GEOL 143  History of Life  credit: 3 Hours.
Evolution of life from its beginning, illustrating changing faunas and floras through time; the invasion of land and of the skies; the effects of a changing atmosphere, changing climates, and continental drift. Emphasis on dinosaur evolution, ecology, and extinction; also other vertebrates, including mammal-like reptiles, mammals, and the emergence of humans, as well as plants and invertebrates. Same as ESE 143.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

GEOL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

GEOL 201  History of Geology  credit: 3 Hours.
Traces the development of key ideas in the science, beginning with musings of the ancient Greek and Roman philosophers and early observations of the Earth by European and Arab scholars. Considers advances in mapmaking that span thousands of years and examines the origins of the Geologic Time Scale, including determination of the ages of rocks. Looks at early geologists from around the world, in the US, in Illinois, and at the U of I. Reads some classic papers establishing the grand unifying theory of geology: plate tectonics. Prerequisite: A 100-level geology course (excluding GEOL 110 and GEOL 143). Intended for both non-science students and geology majors.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosop Perspect

GEOL 208  History of the Earth System  credit: 4 Hours.
Presents systematic analysis of formation and evolution of the Earth and its dynamic systems (lithosphere, hydrosphere, atmosphere, and biosphere). Also introduces methods of reconstructing Earth's history through use of geochronology, paleontology, and the stratigraphic records. Introduces the geological history of life evolution, mountain belts and continents, geochemical systems, climate, sea level, and the Earth's interior. Field trip required. Same as ESE 208. Additional fees may apply. See Class Schedule. Prerequisite: One of GEOL 100, GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

Information listed in this catalog is current as of 03/2017
GEOL 333  Earth Materials and the Env credit: 4 Hours.
Studies the origin, identification, and environmental significance of earth materials (minerals, rocks, and soil). Environmental topics include: mineral resources; acid mine drainage; volcanic hazards; swelling soils; engineering strength, porosity/permeability, and architectural uses of earth materials; and asbestos. One day field trip is required. Same as ESE 333. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: CHEM 102 and CHEM 103; GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 350  Volcanoes credit: 3 Hours.
Explores volcanoes from a hazards standpoint by investigating case studies of volcanic disaster, evaluating important controls of volcanism such as magma viscosity and behavior of bubbles, and introducing the monitoring of active volcanoes with cutting edge methods such as seismicity, gravity, and remote sensing. Understanding the interactions among these complex parameters plays a critical role in assessing the evolution of shallow magma systems and investigating their potential for remaining stable or developing into hazardous eruptive systems, which can threaten nearby populations. Prerequisite: Any 100-level Geology course (excluding GEOL 106, GEOL 111, and GEOL 143).

GEOL 370  Water Planet, Water Crisis credit: 3 Hours.
Same as ESE 320 and GEOG 370. See ESE 320.

GEOL 380  Environmental Geology credit: 4 Hours.
Increases student understanding of environmental issues of water supply and pollution, waste disposal, energy, environmental health, global change, and land evaluation and use by emphasizing the role of geology and its relationships to human activities. Course requires a one-day field trip. Same as ENVS 380. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 380 and ESE 445. Prerequisite: CHEM 102 and CHEM 103; and GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 390  Individual Study credit: 1 to 4 Hours.
Research and individual study in geology. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member; advance approval by Department of Geology.

GEOL 391  Individual Honors Study credit: 1 to 4 Hours.
Research and individual study in geology for honors credit. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member and of departmental honors advisor; advance approval by Department of Geology.

GEOL 401  Geomorphology credit: 4 Hours.
History, origin, and characteristics of land forms produced by weathering, fluvial, glacial, wind, and wave processes or by a combination of these acting upon the major kinds of geologic materials and structures. Lectures, laboratory, and field trips. Same as ESE 411. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 406  Fluvial Geomorphology credit: 4 Hours.
Same as GEOG 406 and NRES 406. See GEOG 406.

GEOL 411  Structural Geol and Tectonics credit: 4 Hours.
Introduction to principles of rock deformation, stress, and strain; description and interpretation of geologic structures; study of methods for structural analysis; outline of geotectonic processes; three hours of lecture and a three-hour lab per week. Required four-day field trip. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 107 or consent of instructor.

GEOL 415  Field Geology credit: 2 to 8 Hours.
Group field study in a prominent geologic locality; includes in-class meetings, student-led presentation, and field trip; trips run during spring break, winter break, in mid-end May or intercession; dates depend on location. Additional fees may apply. See Class Schedule. 2 to 8 undergraduate hours. 2 to 8 graduate hours. May be repeated. Prerequisite: Consent of instructor.

GEOL 417  Geol Field Methods, Western US credit: 6 Hours.
Field course based in the mountains of the western United States. Provides intensive practical experience in geologic mapping, as well as instruction in field structural, stratigraphic, geomorphologic, and petrologic analysis. Offered during summer session only. Additional fees may apply. See Class Schedule. 6 undergraduate hours. 6 graduate hours. Prerequisite: Eight hours of 400-level credit in geology, or consent of instructor; GEOL 411, GEOL 432, and GEOL 440 are recommended.

GEOL 432  Mineralogy and Mineral Optics credit: 4 Hours.
Introduction to: crystallography; crystal optics; structure, composition, properties, stability and geological occurrences of minerals; and mineral identification. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: GEOL 208 and CHEM 104 and CHEM 105.

GEOL 436  Petrology and Petrography credit: 4 Hours.
Study of the minerals, compositions, textures, structures, classifications, and origins of igneous and metamorphic rocks; lectures emphasize rock forming processes (petrology), and laboratories emphasize use of the petrographic microscope (petrography). Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 432.

GEOL 440  Sedimentology and Stratigraphy credit: 4 Hours.
Introduces dynamics of sedimentation, geology of sedimentary basins, the distribution of geologic processes through time, definition and correlation of stratigraphic units, principles of paleogeography, stratigraphy and tectonics. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 450  Probing the Earth's Interior credit: 3 Hours.
Overview of how seismology, magnetics, gravity, geodesy, and surface geology can help us understand the Earth from its surface to its core as well as its temporal evolution. Topics include the internal composition and dynamics of Earth, generation of Earth's gravitational and geomagnetic fields, driving mechanisms for tectonic plate motion, continental deformation, and surface topography. Students wanting a more quantitative treatment of geophysics should enroll in GEOL 452. 3 undergraduate hours. 3 graduate hours. Credit is not given for both GEOL 450 and GEOL 452. Prerequisite: PHYS 102 or 212, GEOL 107 or 101, or consent of instructor.
GEOL 451 | Env and Exploration Geophysics | credit: 4 Hours.
Discusses geophysical methods to reveal subsurface structures. Topics include seismic methods, gravity, magnetics, electrical methods, ground penetrating radar, borehole geophysics, and their applications to hydrocarbon and mineral exploration as well as engineering and environmental investigations. 4 undergraduate hours. 4 graduate hours. Several required local trips for field experiments. Prerequisite: MATH 241 and PHYS 212; or consent of instructor.

GEOL 452 | Introduction to Geophysics | credit: 4 Hours.
Provides a broad overview of basic concepts and fundamental knowledge of the physics of the Earth. Topics include seismology, gravity, geomagnetism, Earth's thermal state, and geodynamics. Intended for undergraduates in the geophysics concentration and other students who want a more quantitative treatment of the subject than GEOL 450. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 452 and GEOL 450. Prerequisite: MATH 241 and PHYS 211; or consent of instructor.

GEOL 454 | Introduction to Seismology | credit: 3 or 4 Hours.
Introducing the basic theory of seismic wave generation and propagation and its application to Earth structure and earthquakes, including body waves, surface waves, inference of Earth structure, seismic prospecting, earthquake mechanisms, and strong ground motions. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Students participating in optional class projects receive an additional hour of credit. Prerequisite: MATH 285 or consent of instructor.

GEOL 460 | Geochemistry | credit: 3 Hours.
Fundamental chemical and physical concepts applied to geological processes; topics include: origin, distribution, and geochemical behavior of elements; chemical evolution of the Earth; geochemistry of natural waters and sedimentary rocks; isotope geochemistry, crystal chemistry, trace element geochemistry and organic geochemistry. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOL 101 or GEOL 107; CHEM 104; CHEM 105; MATH 220 or MATH 221; or consent of instructor.

GEOL 470 | Introduction to Hydrogeology | credit: 4 Hours.
Introduction to environmental and economic aspects of the occurrence and movement of groundwater through the earth's crust; topics include the hydrologic cycle, groundwater contamination, petroleum migration, formation of mineral resources, and groundwater chemistry. Same as ESE 470. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or MATH 221; senior standing is recommended; or consent of instructor.

GEOL 481 | Earth Systems Modeling | credit: 4 Hours.
Same as ATMS 421, ESE 421, GEOG 421 and NRES 422. See ATMS 421.

GEOL 483 | Challenges of Sustainability | credit: 3 Hours.
Same as ESE 482 and GEOG 482. See ESE 482.

GEOL 484 | Paleoclimatology | credit: 4 Hours.
Survey of Earth's past climate variability, ranging from million-year to interannual time scales. Introduction to paleoclimate proxies including tree rings, marine and lake sediment cores, ice cores, corals, and speleothems. Focus on the drivers of climate change, major modes of climate variability, and how paleoclimate data can inform projections of future climate change. Same as IB 484. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing required.

GEOL 485 | Risk Analysis in Earth Science | credit: 3 or 4 Hours.
Same as ATMS 404. See ATMS 404.

GEOL 488 | Environmental Stable Isotopes | credit: 3 Hours.
Same as ATMS 422, NRES 478, and IB 488. See IB 488.

GEOL 490 | Undergraduate Research | credit: 1 to 3 Hours.
Students will conduct research under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated up to six times. A minimum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member; advance approval by Department of Geology. Intended primarily for sophomores and juniors; not available to freshmen students.

GEOL 491 | Honors Undergraduate Research | credit: 1 to 3 Hours.
Students will conduct research for honors credit under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. May be repeated up to 6 hours. A maximum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member and of departmental honors advisor; advance approval by Dept. of Geology. Intended primarily for sophomores and juniors who are James Scholars or Chancellor's Scholars; not available to freshman students.

GEOL 492 | Senior Thesis | credit: 2 to 8 Hours.
Research in geology, with thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member.

GEOL 493 | Honors Senior Thesis | credit: 2 to 8 Hours.
Research in geology with honors thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member and of departmental honors advisor.

GEOL 497 | Special Topics in Geology | credit: 1 to 4 Hours.
Seminar or lectures in subjects not covered by regular course offerings; for advanced undergraduates and graduate students. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor.

Earth Science Teaching Concentration within the Sciences and Letters Curriculum

For the Degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: geology@illinois.edu

Web address for department: www.geology.illinois.edu (http://www.geology.illinois.edu)

Minimum required course work normally equates to 55-59 hours in the concentration and 39 hours for the Teacher Education Minor in Secondary School Teaching.
General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

This concentration fulfills state certification requirements to teach high school (grades 9-12) Earth and Space Science through the AP/honors level and biology, chemistry, environmental science and physics up to but not including the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 126).

Time to degree completion varies. Minimum time to completion is 8 semesters. Some students require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook (https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf) for more information.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Departmental distinction: The student must have a grade-point average of at least 3.5 in all geology courses as well as all courses in the Teacher Education Minor and a GPA of at least 3.0 in all other science and mathematics courses and must present evidence of exemplary teaching.

### Foundation Courses

The following courses must be completed or in progress when students apply to the Secondary Education minor.

- **GEOL 107** Physical Geology 1 4
- **GEOL 208** History of the Earth System 4
- **GEOL 333** Earth Materials and the Env 2 4
- **MATH 220** Calculus 4-5
  or **MATH 221** Calculus I
  or **MATH 234** Calculus for Business I

### Additional Required Coursework

**Teacher Education Minor in Secondary School Teaching** (p. 126)

Select one group of courses: 5-6

- **ASTR 100** Introduction to Astronomy
  & **ASTR 131** and The Solar System Lab
  & **ASTR 132** and Stars and Galaxies Lab
  
  or

- **ASTR 121** Solar System and Worlds Beyond
  & **ASTR 122** and Stars and Galaxies

- **ATMS 100** Introduction to Meteorology 3
- **IB 100** Biology in Today’s World 3

Select one group of courses: 4

- **CHEM 102** General Chemistry I
  & **CHEM 10**:and General Chemistry Lab I

**Select one of the following MATH courses:** 2 4-5

- **MATH 220** Calculus
  or **MATH 221** Calculus I
- **MATH 234** Calculus for Business I

1. Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

2. Students can substitute GEOL 333 with GEOL 432.

---

### Earth and Environmental Science Concentration within the Sciences and Letters Curriculum

**For the Degree of Bachelor of Science in Liberal Arts and Sciences**

**Major in Sciences and Letters Curriculum**

E-mail: geology@illinois.edu

Minimum required coursework normally equates to 43 hours including at least 26 hours in Geology.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students who maintain grade point averages of at least 3.5 in all geology courses and 3.0 in all other science and mathematics courses and who complete an acceptable senior thesis, including at least four hours of credit in GEOL 492 or GEOL 493, are recommended for graduation with distinction.

**Core requirements:**

- **GEOL 107** Physical Geology 1 4
- **GEOL 208** History of the Earth System 4
- **CHEM 102** General Chemistry I 3
- **CHEM 103** General Chemistry Lab I 1

Select one of the following MATH courses: 2 4-5

- **MATH 220** Calculus
  or **MATH 221** Calculus I
- **MATH 234** Calculus for Business I

Information listed in this catalog is current as of 03/2017
Environmental Geology Concentration within the Specialized Curriculum

For the Degree of Bachelor of Science in Geology

Major in Specialized Curriculum in Geology and Geophysics

Graduation requires a grade point average of at least 2.0 overall and a 2.0 average in all required science and technical courses (geology, physics, mathematics, chemistry, and technical requirements listed below). The Department of Geology will supply upon request a Guide for Geology Undergraduates giving more information about the curriculum.

E-mail: geology@illinois.edu

Web address for department: www.geology.illinois.edu (http://www.geology.illinois.edu)

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum hours required for graduation: 126 hours

Departmental distinction: Students who maintain a grade point average of at least 3.5 in all geology courses and 3.0 in all other science and mathematics courses and who complete an acceptable senior thesis, including at least 4 hours credit in GEOL 492 or GEOL 493, are recommended for graduation with distinction.

- German Culture and Literature Concentration (p. 426)
- German Business and Commercial Studies Concentration (p. 425)
- German Linguistics Concentration (p. 425)
- Scandinavian Studies Concentration (p. 424)

For the Degree of Bachelor of Arts in the Teaching of German
Curriculum Preparatory to the Teaching of German (p. 423)

5 year BALAS/MA in Germanic Studies

The Department of Germanic Languages and Literatures offers a 5-year program leading to two degrees, a BALAS in Germanic Studies and an MA in German. In order to be admitted to this program, student can apply during their second or third year of studies. Requirements for this program are identical to those for the BALAS and the MA in the Department of Germanic Languages and Literatures.

In order to be admitted to the 5-year BALAS/MA during their second year, students will need to be in good standing, have finished GER 211 and GER 331, have a general GPA of 3.0 and a German GPA of 3.0, and be required to write a short essay in German.

In order to apply for the 5-year BALAS/MA during their third year, students will have to have finished GER 401 and GER 420, have a general GPA of 3.0 and a German GPA of 3.0, and be required to write a short essay in German.

The department will continue to monitor the GPAs of students admitted to the BALAS/MA program into their third and fourth years and before formal admission to the Graduate College. The decision about students’ admission to the 5-year program will be made by the graduate admissions committee in conjunction with undergraduate and graduate advisors of the department. The Department will consider students in the fifth year of this program for departmental support as Teaching Assistants and Research Assistants, or for fellowships and scholarships.

The minimum total number of hours required for graduation from the BALAS/MA program is 152. Up to 12 hours not required for the BALAS (120 hours) taken during the fourth year can be used to meet the requirements for the MA (32 hours). Students admitted to the program will receive both degrees once all requirements for the 5-year BALAS/MA degree program have been successfully completed. More detailed information may be obtained from the departmental office.

5 Year BALAS/MA in German and European Union Studies

The Department of Germanic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in German (including a Scandinavian Studies Concentration) and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the standalone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

- Minor in German (p. 424)
- Minor in Scandinavian Studies (p. 424)

GER Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GER)
German Courses

GER 101 Beginning German I credit: 4 Hours.
Oral practice, reading, and grammar for beginners.

GER 102 Beginning German II credit: 4 Hours.
Continuation of GER 101. Prerequisite: One semester of college German or equivalent.

GER 103 Intermediate German I credit: 4 Hours.
Continuation of GER 102. Prerequisite: Two semesters of college German or equivalent.

GER 104 Intermediate German II credit: 4 Hours.
Continuation of GER 103. Prerequisite: Three semesters of college German or equivalent.

GER 189 Living German - German Living credit: 1 Hour.
Practice in speaking German for students living in the German House.
Approved for letter and S/U grading. May be repeated to a maximum of 3 hours. Prerequisite: Elementary speaking knowledge of German.

GER 191 Freshman Honors Tutorial credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

GER 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Introduction to German literature for students with no knowledge of German. Same as CWL 224. May be repeated if topics vary.

GER 200 German Literature in Trans credit: 3 Hours.
Examination into major issues in contemporary German society with a special focus on Germany's functioning within Europe and the European Union through novels, films, essays, interviews etc. Course taught in English. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 205 Germany and Europe credit: 3 Hours.
Introduction into major issues in contemporary German society with a special focus on Germany's functioning within Europe and the European Union through novels, films, essays, interviews etc. Course taught in English. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 211 Conversation and Writing I credit: 3 Hours.
Prerequisite: GER 104 or equivalent, or consent of instructor.

GER 212 Conversation and Writing II credit: 3 Hours.
Continuation of GER 211. Prerequisite: GER 211 or equivalent, or consent of instructor.

GER 213 Conversation and Writing III credit: 3 Hours.
Continuation of GER 212. Prerequisite: GER 212 or equivalent.

GER 214 Advanced Conversation credit: 1 to 5 Hours.
May be repeated to a maximum of 18 hours. Prerequisite: GER 212 or equivalent.

GER 215 Business German credit: 3 Hours.
Continuation of GER 214. Prerequisite: GER 214 or equivalent.

GER 216 Business German II credit: 3 Hours.
Continuation of GER 215. Prerequisite: GER 215 or equivalent.

GER 250 Grimms' Fairy Tales - ACP credit: 3 Hours.
Introduction to the study of modern and contemporary German culture through examining examples of popular culture from the late-eighteenth century to the present. Looks at texts and film as a mirror and critique of modern German society. Topics to be discussed: nationalism, gender, ethnicity, minority cultures, Jewish life in Germany, German images of other cultures, etc. Course taught in English. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 251 Grimm's Fairy Tales in Context credit: 3 Hours.
Introduction to the study of modern and contemporary German culture through examining examples of popular culture from the late-eighteenth century to the present. Looks at texts and film as a mirror and critique of modern German society. Topics to be discussed: nationalism, gender, ethnicity, minority cultures, Jewish life in Germany, German images of other cultures, etc. Course taught in English. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 260 The Holocaust in Context - ACP credit: 3 Hours.
Examines cultural representations of the Holocaust in literature, film, and critical essays. Same as CWL 271 and ENGL 268. Credit is not given for both GER 260 and GER 261. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 261 The Holocaust in Context credit: 3 Hours.
Examines cultural representations of the Holocaust in literature, film, and critical essays. Same as CWL 273 and ENGL 269. Credit is not given for both GER 261 and GER 260. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 270 Sexuality and Literature credit: 3 Hours.
Examines the historical contexts in which sexuality has been debated during the past three centuries, and to what extent sexuality is perceived differently in diverse cultures. Part one will look at the Western tradition, especially Germany. Part two will shift focus to the non-Western world, especially to the colonial history of Indonesia. Same as CWL 272 and GWS 270. This course satisfies the General Education Criteria for:
UIUC: History
UIUC: Western Civilization

GER 280 German for Business credit: 3 Hours.
Introduces German business language as used in basic operations in retail/wholesale, export/import, banking transactions. Prerequisite: GER 211 or consent of instructor.
GER 321 German for Economics  credit: 3 Hours.
German language as used in professional contexts involving economic matters: texts and documents relating to forms of enterprises and their financing, to macroeconomic structures of domestic and foreign trade, and to reports on the economies of German-speaking countries. Prerequisite: GER 320 or consent of instructor.

GER 331 Intro to German Literature  credit: 3 Hours.
Introductory study of representative works (prose, drama, lyric) by outstanding German, Austrian, and Swiss writers of the modern period. Prerequisite: Two years of college German or equivalent. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

GER 332 German Literature and Culture  credit: 3 Hours.
In German. Seminar in the literature and culture of German-speaking countries since 1750. Topic varies. Format: lecture; discussion; film screenings. Prerequisite: GER 331 or equivalent.

GER 385 Politics of the European Union  credit: 3 Hours.
Same as EURO 385, FR 385, and PS 385. See PS 385.

GER 396 Special Topics German Studies  credit: 3 Hours.
Introductory study in such topics as individual authors, selected literary movements or periods, modes of inquiry in literary study, minor genres, subgenres, extraliterary influences, etc. Same as CWL 328. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: Reading fluency in German beyond the fourth-semester college level.

GER 401 Global Issues in German  credit: 3 Hours.
Introduction to global issues in German media. Taught in German. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 212 or equivalent.

GER 403 Translation, Theory & Practice  credit: 3 Hours.
Theory and practice of translating technical, commercial, scientific, and literary texts from German into English and vice versa. Same as TRST 403. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 401 or consent of instructor.

GER 405 History of Translation  credit: 3 or 4 Hours.
Same as CLCV 430, CWL 430, ENGL 486, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

GER 418 Language&Minorities in Europe  credit: 3 or 4 Hours.
Same as FR 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

GER 420 German Cultural History  credit: 4 Hours.
A general introduction to German culture from the pre-Christian period to the twenty-first century, focusing on the tension between forces of history and modernization in German culture. Course materials include literary and philosophical texts, film, painting, and music. Particular attention will be paid to the role of art in society. 4 undergraduate hours. 4 graduate hours. Prerequisite: One 200-level German course and GER 331; or consent of instructor.

GER 460 Principles of Language Testing  credit: 3 or 4 Hours.
Same as EIL 460, EPSY 487, FR 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.

GER 465 Ling Structures of German  credit: 3 Hours.
Survey of the linguistic structures of German in historical, geographic, and social context. 3 undergraduate hours. 3 graduate hours. Prerequisite: Three years of college German or equivalent.

GER 470 Middle Ages to Baroque  credit: 3 Hours.
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 750-1720. Same as MDVL 470. 3 undergraduate hours. 3 graduate hours. May be repeated in separate terms to a maximum of 6 hours if topics vary. Prerequisite: GER 332 or equivalent.

GER 471 Enlightenment to Romanticism  credit: 3 Hours.
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1720 to 1830. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 472 Realism to Expressionism  credit: 3 Hours.
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1830 to 1920. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 473 1920s to Today  credit: 3 Hours.
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1920 to the present. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 477 Theoretical Foundations of SLA  credit: 3 or 4 Hours.
Same as FR 481, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

GER 491 Honors Senior Thesis  credit: 1 to 4 Hours.
Intended primarily for candidates for honors in German, but open to other seniors. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing; consent of instructor.

GER 493 German Cinema I  credit: 3 Hours.
Focus on the rise of German film from its earliest beginnings until 1945. Same as MACS 493. 3 undergraduate hours. 3 graduate hours.

GER 494 German Cinema II  credit: 3 Hours.
Study of German film from 1945 until the present. Same as MACS 494. 3 undergraduate hours. 3 graduate hours.

GER 496 Special Topics German Studies  credit: 3 Hours.
Intensive study of restricted topics in German language, literature, and culture. 3 undergraduate hours. 3 graduate hours. May be repeated as topics vary to a maximum of 9 undergraduate hours or 8 graduate hours. Prerequisite: Three years of college German or equivalent.

GMC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GMC)

Germanic Courses

GMC 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

SCAN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SCAN)

Scandinavian Courses

SCAN 101 Beginning Scandinavian I  credit: 4 Hours.
First course in the Scandinavian language sequence (usually Swedish). Instruction is by immersion, emphasis is on basic skills: reading, writing, speaking, and aural comprehension.
SCAN 102  Beginning Scandinavian II  credit: 4 Hours.
Second course in the Scandinavian language sequence (usually Swedish). Instruction is by immersion, emphasis is on further developing basic skills: reading, writing, speaking, and aural comprehension. Prerequisite: SCAN 101 or consent of instructor.

SCAN 103  Intermediate Scandinavian I  credit: 4 Hours.
Third course in the Scandinavian language sequence (usually Swedish). Emphasis is on conversational skills, discussion techniques and aural comprehension through the study of authentic texts, television and films, with emphasis on learning about contemporary issues in Sweden, including its relationship to the European Union. Instruction is by immersion. Prerequisite: SCAN 101 or consent of instructor.

SCAN 104  Intermediate Scandinavian II  credit: 4 Hours.
Fourth course in the Scandinavian language sequence (usually Swedish). Emphasis is on close reading, translation and analysis of authentic texts, such as novels and drama in the target language. Instruction is by immersion. Prerequisite: SCAN 103 or consent of instructor.

SCAN 110  Intensive Intermediate Scan  credit: 4 Hours.
Intensive course in a Scandinavian language (usually Swedish) that emphasizes development of reading and writing skills. Focus of class discussions and activities is the study of authentic texts, audio and/or visual media. Instruction is by immersion. May be repeated in the same or separate term up to 8 hours. Prerequisite: SCAN 102 or equivalent or consent of instructor.

SCAN 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

SCAN 215  Madness, Myth, and Murder  credit: 3 Hours.
Focuses on the achievements of major Scandinavian writers of prose fiction, from 1850 to today. Explores topics of madness, myth, and murder in literature. All reading, discussion, and writing in English.Same as CWL 215.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

SCAN 225  Vikings to Volvos: Scandinavia  credit: 3 Hours.
An introduction to the history, literature, and culture of Scandinavia and the Nordic region, from the Viking age until the modern era (700s-present). Includes discussion of Denmark, Norway, Sweden, Finland, Iceland, Faroe Islands, Svalbard, and Greenland. All readings in English. Same as HIST 254.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

SCAN 251  Viking Mythology  credit: 3 Hours.
Studies pre-Christian beliefs of the Germanic peoples as reflected primarily in medieval Icelandic prose and poetry (in translation). Same as CWL 251, MDVL 251, and REL 251.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

SCAN 252  Viking Sagas in Translation  credit: 3 Hours.
Studies Old Norse-Icelandic literature: kings' sagas, family sagas, mythical-heroic sagas, and romances. Texts and lectures in English. Same as CWL 252 and MDVL 252.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

SCAN 255  Old Norse - Icelandic I  credit: 3 Hours.
Provides a solid proficiency in reading texts in Old Norse, the language of the Viking sagas and mythology. Prerequisite: Any SCAN course or knowledge or one other foreign language.

SCAN 376  Children and Youth Literature  credit: 3 Hours.
Explores the understanding of childhood and youth in Scandinavia, with comparative focus on the US and the UK through children's literature and classic accounts of childhood in fiction, film, and related media. Will investigate how childhood is construed in books self-described as children's literature as well as in adult-audience fiction and memoirs; and how representations of childhood correlate with evolving ideas about family formation, child-rearing, the welfare state, and education in twentieth- and twenty-first century Scandinavia. This is put in comparative context with British and/or US children's literature. Same as CWL 376, EURO 376, and GWS 376. Credit is not given for both SCAN 376 and SCAN 576.

SCAN 386  Arctic Environmt & Society  credit: 6 Hours.
Same as ESE 386 and GLBL 386. See GLBL 386.

SCAN 388  American Scandinavian Drama  credit: 3 or 4 Hours.
Thematic and conceptual study of the Scandinavian dramatic tradition, from the late-nineteenth century classics of Henrik Ibsen and August Strindberg, to mid-century intermediality in works by Ingmar Bergman, and to hyperrealism, postmodernism, and digital performativity by contemporary playwrights. Interpretive contexts include text-image studies, performativity, socio-cultural aspects of the Nordic region, theatre and production history, and gender and sexuality studies. Same as CWL 463 and THEA 483. 3 undergraduate hours. 4 graduate hours. Prerequisite: One college-level literature or theatre course, or consent of instructor.

SCAN 390  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

SCAN 404  Modern Scandinavian Drama  credit: 3 or 4 Hours.
Study of the Arctic, its peoples and cultures, as imagined in literature, art, history, media and film. This course makes cross-cultural comparisons with accounts by indigenous people and Scandinavian, American, and European visitors to or settlers in to the Arctic. This course includes emphasis on environmental, colonial, and social aspects from theoretical and historical perspectives. Same as CWL 282, EURO 240. See SCAN 240.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

SCAN 405  Modern Scandinavian Drama  credit: 3 or 4 Hours.
Investigate conceptions of the Nordic and West-European welfare state from the early twentieth-century to today from critical interpretive, historical, and cultural studies perspectives. Building on close analysis of influential works in literature, film, arts, and architecture from primarily Denmark, Sweden, and Norway, the course will address historical factors and characteristics of the socio-cultural imaginary surrounding the rise and, some argue, subsequent dismantling of the Nordic welfare state. Same as CWL 470 and EURO 470. 3 undergraduate hours. 4 graduate hours. Prerequisite: At least one course in literature, film, or the arts; or consent of the instructor.
SCAN 472  Kierkegaard and the Self  credit: 3 or 4 Hours.
Soren Kierkegaard is an early author who wrestled with the concept of the individual self and championed subjective experience as a counterbalance to objective rationalism. Students in this seminar-style course will gain extensive familiarity with Kierkegaard’s major works, as well as how they relate to two currents in 19th century society, existentialism and pietism. These works will be evaluated within their particular Nordic literary context, through critical analysis of related novels, plays and films by Andersen, Ibsen, Bremer, Strindberg, Lagerlof, Blixen, and Bergman (readings in English translation). Same as CWL 472, PHIL 472, and REL 472. 3 undergraduate hours. 4 graduate hours.

SCAN 490  Green Screen: Film and Nature  credit: 3 or 4 Hours.
Provides a thorough examination of documentary and feature film in relation to the natural environment, sustainability studies, ecocriticism, and landscape representation especially in the Scandinavian film tradition. Incorporates theory, film culture and production analysis, and thematic interpretation. Films by Victor Sjostrom, Ingmar Bergman, Mai Zetterling, Lars von Trier, Susanne Bier, Jan Troell, and others. Same as EURO 489 and MACS 490. 3 undergraduate hours. 4 graduate hours.

SCAN 492  Scandinavian Cinema  credit: 3 or 4 Hours.
Covers major directors, traditions, genres, themes, and production and distribution contexts of Scandinavian cinema and media industries. Addressing early cinema, fiction feature, documentary, shorts, experimental, and new and emergent artistic forms, the course will provide students with an in depth understanding of the rich culture of Scandinavian cinema since its inception. Same as MACS 492. 3 undergraduate hours. 4 graduate hours.

SCAN 493  Honors Senior Thesis  credit: 2 to 4 Hours.
2 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing; consent of instructor.

SCAN 494  Topics in Scan Languages  credit: 1 to 4 Hours.
Advanced Scandinavian languages instruction. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in separate terms to a maximum of 9 undergraduate or 9 graduate hours if topics vary. Prerequisite: SCAN 104 or equivalent as approved by instructor.

SCAN 496  Special Topics in Scan Studies  credit: 1 to 4 Hours.
Individual study in selected topics, such as individual authors, literary movements, periods, genres, or themes, and Scandinavian culture. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated. Prerequisite: Consent of instructor.

YDSH 220  Jewish Storytelling  credit: 3 Hours.
Course will introduce the great Jewish storytellers such as Nachman of Bratslav, Scholem-Aleichem, and I.B. Singer through readings of Yiddish tales, short stories, poetry, drama and excerpts from novels and autobiographies from the 19th and 20th centuries. In addition, Yiddish films and folklore will be used to exemplify the variety of Jewish cultural expression in Eastern Europe, Russia, and America. Course will also present a sample of critical approaches to Yiddish literature. Taught in English translation. Same as CWL 221, ENGL 223, JS 220, and REL 220. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts UIUC: Western Compartv Cult

YDSH 320  Lit Responses to the Holocaust  credit: 3 Hours.
Course introduces a variety of Jewish literary responses to the Holocaust written during and after the Second World War (from 1939). The discussion of Holocaust memoirs, diaries, novels, short stories, poems, and other texts will focus on the unique contribution of literary works to our understanding of the Holocaust. In addition, the works and their authors will be situated in their Jewish cultural historical context. Taught in English translation. Same as CWL 320, ENGL 359, JS 320, and REL 320. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts UIUC: Western Compartv Cult

YDSH 420  Jewish Life-Writing  credit: 3 or 4 Hours.
Jewish life-writing from the late 18th century until today. Emphasis on cultural historical context, literary styles, and forms. All texts will be available in English translation. Same as CWL 421, HIST 436, REL 420, and SLAV 420. 3 undergraduate hours. 4 graduate hours.

Curriculum Preparatory to the Teaching of German

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

E-mail: german@illinois.edu
Web address for department: www.germanic.illinois.edu (http://www.germanic.illinois.edu)
Degree title: Bachelor of Arts in the Teaching of German

Minimum required course work normally equates to 76 hours
General education: Consult the Curricula Preparatory to Teaching Foreign Languages (http://catalog.illinois.edu/undergraduate/las/foreignlangteach).

Minimum hours required for graduation: A minimum of 120 hours of credit is required for graduation. Consult the certification officer at 505 East Green Suite 203 for additional information. http://www.cote.illinois.edu/

Departmental distinction: Students should consult their advisers by the second semester of the junior year for information pertaining to seminar honors work and honors awards in the department.
The total of 47 hours may be reduced by as much as 16 hours through prerequisite credit for work equivalent to GER 101-GER 104 taken in secondary school.

Professional education courses. (See Foreign Languages-Curricula Preparatory to Teaching Foreign Languages.)

**Scandinavian Studies Concentration**

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

**Major in Sciences and Letters Curriculum**

E-mail: german@illinois.edu

Minimum required major and supporting course work normally equates to 41-42 hours with at least 29 credit hours of Scandinavian courses beyond SCAN 101-102.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.
Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students majoring in the Department of Germanic Languages and Literatures are urged to consult the departmental honors adviser by the second semester of the junior year for information pertaining to senior honors work and honors awards in the department.

Designed for students with a broad interest in Scandinavian Studies, including acquiring proficiency in a modern Scandinavian language. Fulfilling the requirements for the Major usually involves one semester of study abroad at a Scandinavian university.

Language Courses beyond SCAN 101-SCAN 102: 1

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students majoring in the Department of Germanic Languages and Literatures are urged to consult the departmental honors adviser by the second semester of the junior year for information pertaining to senior honors work and honors awards in the department.

The German Culture and Literature Concentration provides a multidisciplinary approach to the study of German, emphasizing a balanced knowledge of German language, literature, and culture as well as exposure to contemporary politics and social issues in broader European and global contexts.

Minimum of 31 hours of German courses including:

Global Studies

Tim Wedig, Interim Director
703 S. Wright Street, 3rd Floor, MC-301, Champaign, IL
http://globalstudies.illinois.edu

The Global Studies major develops knowledge sets, skills and values necessary for the analysis and solution of contemporary world problems. The requirements of the major enrich, complement, and coordinate departmental offerings with the goals of:

- providing knowledge of diverse cultures: their social, economic and political interactions and impacts on the world;
- developing skills for successfully negotiating realities of contemporary societies;
- fostering values that respect diverse ways of living and deepen commitment to sustainability.

Information listed in this catalog is current as of 03/2017
The Global Studies major is interdisciplinary, drawing upon the resources of faculty and departments across the university. The major has three elements. The Foundations requirement introduces a variety of global issues and skills necessary for their analysis. The Language and Culture requirements allow students to develop area expertise in one world region through on-campus coursework and a semester-long study abroad. The Thematic Area focuses student programs on a topic of global importance to allow for an in-depth and multidisciplinary understanding of relevant historical and emerging issues, how they are analyzed and addressed. Students work with an advisor to customize the major curriculum most appropriate to their individual interests and career plans.

This program of study was developed in response to the growing demand for knowledge and skills to successfully navigate concerns at international and global levels. The competencies established through this program are critical for students preparing for careers or further study in a variety of fields including international affairs, public policy, business, law, finance, education, and communications.

The LAS Global Studies program with the European Union Center offers a 5 Year BALAS/MA in Global Studies and European Union Studies. LAS Global Studies also offers two undergraduate minors.

The Global Studies minor develops the interdisciplinary knowledge and intercultural skills necessary to analyze and solve contemporary world problems. In consultation with an advisor, students select courses from a variety of departments to form a coherent program of study suited to individual interests, educational and career aspirations. The Global Studies minor can complement any major.

The Global Markets and Society minor enables students at the University of Illinois to gain interdisciplinary knowledge of global market-society relations through historical and global perspectives that emphasize the social, political, and economic forces that shape market institutions and practices. A professional development capstone experience course is optional and can be met by completing an internship or participating in a research experience and/or written project. The LAS Global Markets and Society Minor is open to undergraduate students in any major at the University of Illinois at Urbana-Champaign campus.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: globalstudies@illinois.edu

Minimum required major and supporting course work equates to 51-52 hours and includes a semester-long full time study abroad program and a minimum of 12 hours of 300- and 400-level courses.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

A Major Plan of Study Form must be completed and submitted to the Global Studies academic advisor before the end of the fourth semester (60 hours) and prior to the required study abroad. Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: The department may award distinction, high distinction, or highest distinction to any Global Studies major whose overall and major grade point averages are 3.25 or higher, who successfully completes 3 hours of GLBL 494 or other approved research methods course and who completes a distinction research project. See the departmental academic advisor for details.

Foundations Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GLBL 100</td>
<td>3</td>
</tr>
</tbody>
</table>

Global Studies. Four courses must be selected from the approved course list; they must include no more than one course from four of the following six departments: Anthropology, Economics, Geography, History, Political Science, and Sociology.

Global Studies Seminars. Students study current events and contemporary global issues. Select three courses from GLBL 296 or one GLBL 298 course and one GLBL 296 course.

Language and Culture Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GLBL 296</td>
<td>3</td>
</tr>
</tbody>
</table>

Language. Select courses from the approved course list in a language other than your primary language(s). These various courses represent the 5th and 6th level of study.

Area Studies. 200- to 400-level courses which complement the language requirement must include work in at least two disciplinary departments. Area Studies and Language must be geographically related and correspond to language and study abroad location.

One Semester (Fall or Spring) Study Abroad. Students study a variety of subjects in an approved study abroad program that furthers their language and cultural knowledge or their cultural knowledge and thematic area knowledge. Students must be enrolled full-time to receive credit toward this requirement.

Thematic Area Requirements

Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum of a minimum of 18 hours. Students cannot include more than 3 hours of 100-level work and must complete 9 hours of 300- and 400-level coursework. Courses must be taken from more than one department.

Approved thematic areas are:

A. Cultures in Contact
B. Wealth and Poverty in a Globalized World
C. Human Rights
D. Governance, Conflict and Resolution
E. Knowledge, Communication and Information Systems
F. Environment, Sustainability, and Social Responsibility
G. Global Health

Optional Senior Capstone. Students do an individual research project (GLBL 200, 494 and GLBL 495) based on their Thematic Area.

Total Hours: 51-52

5 Year BALAS/MA in Global Studies and European Union Studies

The Program in Global Studies with the European Union Center offers a 5-year BALAS /MA degree program in Global Studies and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during
Global Studies

their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

Global Studies Minor (p. 430)

Global Markets and Society Minor (p. 430)

GLBL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GLBL)

Courses

GLBL 100 Intro to Global Studies credit: 3 Hours.
Foundation course for understanding a range of contemporary issues and learning to analyze them from multiple disciplinary perspectives. Students consider globalization trends within themes of wealth and poverty, population, cultures, and human rights; environment and sustainability; and governance, conflict, and cooperation. Course objectives are to enhance knowledge of human cultures, their interactions and impacts on the world; develop skills for successfully negotiating realities of contemporary societies; and promote values for global learning, diversity, and sustainable futures.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: Western Compartv Cult

GLBL 118 Natural Disasters credit: 3 Hours.
Same as ESE 118 and GEOG 118. See GEOG 118.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences

GLBL 199 Undergraduate Open Seminar credit: 1 to 6 Hours.
Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours.

GLBL 200 Foundations of Research credit: 3 Hours.
Introduction to the foundations of interdisciplinary, social science research. Topic include understanding the purpose for research, identifying researchable issues, finding evaluating and using sources effectively, recognizing methods associated with different types of data and disciplines, and writing a literature review. Prepares students for course-based research papers and advanced research methods courses. Guest faculty present their Global Studies-relevant research as students (b)log their own research interests.

GLBL 201 Energy Systems credit: 2 or 3 Hours.
Same as NPRE 201. See NPRE 201.

GLBL 215 Resource Conflicts credit: 3 Hours.
Same as ESE 215 and GEOG 215. See GEOG 215.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GLBL 220 Governance credit: 3 Hours.
Gateway course into the Governance thematic area for Global Studies majors providing an introduction to important themes, problems and approaches to global governance in a series of issue areas, including security, economics, migration, and the environment. Covers the historical development of the international system as well as contemporary controversies. Case studies are used to explore the strength and weaknesses of current governance approaches, and students will conduct independent research into existing structures. Prerequisite: GLBL 100.

GLBL 221 Geographies of Global Conflict credit: 3 Hours.
Same as GEOG 221. See GEOG 221.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

GLBL 225 Career Development: Internships credit: 1 Hour.
Teaches students with global studies academic interests how to identify internships and service-learning learning opportunities relevant to their major. Students prepare application materials, conduct informational interviews, participate in mock job interviews, explore networking strategies, and create a career narrative that represents their academic interests and skills. Prepares students on what to expect from their internships and how to develop and apply leadership skills.

GLBL 240 Global Health credit: 3 Hours.
Introduction to issues and problems in global health. As the world becomes more and more interconnected it is important for students to be aware of health issues from a global perspective. We will consider a variety of issues that influence the health of different population and countries. The topics to be discussed include: the environment, nutrition, education, the medical system, culture, and agency involvement in health. Case studies will be used to demonstrate some successes at addressing these issues and problems that were encountered.

GLBL 250 Development credit: 3 Hours.
An interdisciplinary introduction to the theory and practice of international development. Topics include: defining development, how ideas have changed over time, and the interventions used in development work and their impacts.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

GLBL 251 Warfare Milit Insts & Soc credit: 3 Hours.
Same as HIST 251. See HIST 251.

GLBL 260 Global Human Rights credit: 3 Hours.
Examines how ideas about human rights are defined and how they are differentially deployed. Looks at human rights claims and crises, and examines how governmental and non-governmental individuals and organizations have sought to deal with human rights violations in order to address problems of justice, retribution, and reconciliation at personal, national, and international levels.

GLBL 270 Introduction to Global Markets and Society credit: 3 Hours.
Introduction to global markets and economic systems and their evolving relationship with societies in the global North and South. Presents interdisciplinary perspectives on business structures and conduct with emphasis on (1) the philosophical foundations of economic systems; (2) international business networks and technological innovation; (3) business environments in non-Western settings; (4) global workforce composition and divisions of labor; (5) the relationships between business, development and the environment; and (6) international organizations that support the spread of global business.

GLBL 280 Nuclear Weapons & Arms Control credit: 3 Hours.
Same as PHYS 280. See PHYS 280.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

GLBL 283 Intro to Intl Security credit: 3 Hours.
Same as PS 283. See PS 283.

GLBL 296 Global St Foundation Seminar credit: 1 Hour.
Examination of current controversies and larger ethical issues in today's global society. Topics could include: immigration, global environmental debates, and population issues. May be repeated in the same or separate terms to a maximum of 3 hours if topics vary.

Information listed in this catalog is current as of 03/2017
GLBL 298 Global Studies Seminar Abroad credit: 3 or 6 Hours. Seminars introduce students to aspects of globalization through a case study of a particular location abroad. On campus, students explore historical and contemporary aspects of the location abroad to prepare for their field visit. Abroad, students engage with local resources and people to better understand how the local site contributes to and is impacted by relevant global processes under focus. Course activities will include a field site visit abroad, discussions, lectures, short essays, student presentation, and final projects. Topics vary according to site location and instructor expertise. For more information, go to: http://www.las.uiuc.edu/coursesabroad/globalstudies.html. May be repeated in separate terms to a maximum of 6 hours.

GLBL 328 First Person Global credit: 1 Hour. A writing workshop for students who have studied abroad and want to deepen their understanding of globalization and improve their nonfiction prose by writing about their own experiences. Writing in the first person raises fundamental questions about identity, power, cultural understanding, and representation. Students will read and discuss first person literary nonfiction by contemporary writers and chronicle their own global encounters in ethical, insightful, and creative ways. Prerequisite: A study abroad experience.

GLBL 340 Global Health: Policy & Governance credit: 3 Hours. Identifies central and emerging global health issues and analyzes them through the lenses of governance, policy and gender. Focuses on structural, policy, and institutional perspectives on global health, with emphasis on how decisions are influenced and made. Prerequisite: GLBL 240.

GLBL 350 Poverty in a Global Context credit: 3 Hours. Examines global poverty in the context of international development debates an practice. Despite global commitments (for example, the Millennium Development Goals), decades of research, and new and innovative policies, the "solution" to widespread and lasting poverty alleviation remains elusive. Class will define poverty and how it is measured, considered who is poor and why some people are more vulnerable to the negative effects of poverty than others, and examine what causes some countries to remain poor. Prerequisite: GLBL 250 or consent of instructor.

GLBL 356 Comparative Political Economy credit: 3 Hours. Same as PS 356. See PS 356.

GLBL 357 Ethnic Conflict credit: 3 Hours. Same as PS 357. See PS 357. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

GLBL 386 Arctic Environmt & Society credit: 6 Hours. Interdisciplinary study of the European Arctic for science and non-science students, providing an historical survey of the relationship between its environment and societies with the goal of understanding current and possible future conditions, in light of climate change. The course takes place in Scandinavia and includes a field site component in the Arctic.

GLBL 392 Int Diplomacy and Negotiation credit: 3 Hours. Examines the complexities of international diplomacy and negotiations among states and other actors. Focuses on three main subject areas: negotiation analysis, applied negotiation, and the interaction of practical considerations that affect negotiations. Utilizes theoretical, case-based, and active-learning approaches during the semester as topics are explored in detail. Issues and topics include security, public health, economic development, human rights, and the environment. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

GLBL 403 Women in Muslim Societies credit: 3 or 4 Hours. Same as ANTH 403, GWS 403, HIST 434, REL 403, and SAME 403. See REL 403.

GLBL 440 Global Health: Interventions & Evaluations credit: 3 Hours. Focuses on the process of crafting a solution and evaluation plan related to a specific global health problem identified by students. Requires students to work in teams to integrate content learning on global health with applied project design skills developed in this course.

GLBL 450 Poverty Interventions and Evaluation credit: 3 Hours. Over the last few decades a wide range of strategies and initiatives have been applied to alleviate poverty in developing countries. The record of these initiatives is mixed. While millions of people may have moved out of poverty, over a billion remain persistently impoverished. We will examine a range of anti-poverty approaches that have been implemented and evaluates their effectiveness. Students will gain a familiarity with the interventions and an understanding of the techniques used to evaluate them. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 250 and 350 or consent of instructor.

GLBL 480 Energy and Security credit: 3 Hours. Same as NPRE 480 and PS 480. See NPRE 480.

GLBL 481 Writing on Technol & Security credit: 3 Hours. Same as NPRE 481. See NPRE 481. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

GLBL 483 Seminar on Security credit: 1 Hour. Same as NPRE 483. See NPRE 483.

GLBL 492 UG Research Assistance credit: 0 to 3 Hours. Assist Global Studies and program-affiliated faculty in ongoing research. Topics and nature of assistance vary. Capstone paper required. 0 to 3 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. No more than 6 hours may be counted toward completion of the Global Studies major from any combination of GLBL 492 and other independent study, internship, or research assistance coursework. This includes coursework from other departments on campus or during study abroad. Prerequisite: GLBL 200; evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of Global Studies program. Global Studies majors only. Not available to freshman. Instructor approval required.

GLBL 494 Research Methods I credit: 3 Hours. Optional Capstone experience for Global Studies students. Students will develop research, communication and presentation skills and develop a proposal for an independent research project, goals and timeline. The proposal will include a literature review and methods section for their final project. Topics include: research approaches, design and implementation, as well as methods, analysis and ethics of data collection. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 200.

GLBL 495 Research Methods II credit: 1 Hour. Second semester of the optional Capstone experience for International/Global Studies students. Designed to guide the interpretation of the data, development of conclusions and implications. In addition to the final project, students will learn how to write a paper abstract and conference proposal, as well as acquire presentation skills. 1 undergraduate hour. No graduate credit. Prerequisite: GLBL 494.
GLBL 499  Special Topics  credit: 3 Hours.
Selected reading and research in Global Studies. See schedule for current topics. 3 undergraduate hours. 1 to 4 graduate hours. May be repeated, if topics vary, in the same or separate terms to a maximum of 6 undergraduate or 8 graduate hours. Prerequisite: GLBL 100 or six hours of global studies, anthropology, social geography, political science, sociology, or economics; consent of instructor.

Global Markets and Society Minor

The LAS Global Markets and Society Minor enables students at the University of Illinois to gain interdisciplinary knowledge of global market-society relations through historical and global perspectives that emphasize the social, political, and economic forces that shape market institutions and practices. The minor requires 18-21 hours of coursework completed through six courses, with a minimum of six hours at the advanced level (300- or 400-level). A professional development capstone experience course is optional and can be met by completing an internship or participating in a research experience and/or written project.

The LAS Global Markets and Society Minor is open to undergraduate students in any major at the University of Illinois at Urbana-Champaign campus.

Applications Requirements and Procedures

Completion of 30 hours of undergraduate coursework by the end of the Spring semester of application.

Students are admitted by application into the LAS Global Markets and Society Minor. Interested students will be asked to demonstrate a commitment to the program through (a) completing an application to the program, including a written statement of goals for participation; (b) developing a program plan with the program coordinator and/or their academic advisor prior to admission; and (c) participating in or developing a leadership role in activities designed to enhance leadership. Only students officially admitted into the LAS Global Markets and Society Minor may earn the minor.

GLBL 270  Introduction to Global Markets and Society  3

Core Courses  6
Choose 2 from the following list (Courses used in the core cannot be used again in your Specialization Track)
CMN 211  Business Communication

Global Markets and Governance. The economy is intricately connected to institutions at the local, national, and international levels that affect market practices and outcomes. This track focuses on the institutions and social relations that govern global market practices.

Science, Technology, and Markets. Technological innovations in transportation and communications are driving business location decision-making and operations at the global scale. This track is aimed at science and technology majors with entrepreneurial ambitions as well as students in the social sciences and humanities investigating the interface between science, technology, and society.

Global Encounters. Participation in the global economy requires firms to be geographically dispersed and capable of partnering with a global audience of stakeholders. This track is focused on the historical and cross-cultural understanding necessary to engage in global markets.

Markets, Development, and the Environment. Global markets can create positive environmental outcomes in the locations where they operate. This track focuses on the challenges in designing, building, and evaluating sustainable environmental and development outcomes, including ecological modernization, market environmentalism, and political ecology.

The Global Workforce. Global production systems depend on the effective organization and participation of workers in the global workforce. This track focuses on human resources, organizational structures, and group communication in the contexts of working class history and global labor markets.

Analytical Approaches & Languages. Investigating global market-society relations requires a basic level of competence in communication skills, research methods, and analytical techniques. This track offers students a range of market language, methods, and skills oriented courses that build such competency.

OPTIONAL Professional Development Capstone Experience (3 hours)
Choose one option in consultation with the Global Markets and Society minor advisor:
- Internship or Field Experience in a market-focused organization
- Research Experience with a Faculty Member
- Analytical/Research Paper with Faculty Guidance

Credit is awarded for each of these three options on the basis of an analytical/research paper written by the student under the supervision of a faculty adviser.

Total Minimum Hours  18

Global Studies Minor

The Global Studies Minor provides a multidisciplinary study of a global theme with the requirement of advanced language training to promote the development of intercultural skills. In consultation with an advisor, students select 21 hours of thematically-related courses from a variety of departments to form a coherent program of study suited to individual interests, educational and/or career aspirations. The Global Studies Minor can complement any major.

E-mail: globalstudies@illinois.edu
Global Studies. Three courses must be selected from the approved course list; they must include no more than one course each from three of the following departments: Anthropology, Economics, Geography, History, Political Science, and Sociology.

Language and Culture. Select courses from the approved course list in a language other than your primary language. These various courses represent the 5th level of study or above.

Thematic Area: Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum. Students must choose 200- to 400-level courses and at least 6 hours must be at the 300- or 400-level.

Total Hours

A minimum of 6 hours of 300- and 400-level course work must be completed.

History

Clare Crowston, Chair of Department
309 Gregory Hall, 810 South Wright, Urbana
PH: (217) 333-1155
http://history.illinois.edu

Administered by the Department of History, students in the history concentration should acquire a broad background from the study of the human experience in different cultures and time periods. A wide distribution of courses is therefore advisable. This is especially true for those who wish to enter government service, or professional schools for law, social work, museum and library science, business administration, or labor and industrial relations. The Social Science: History Teaching Concentration (p. 443) prepares students to teach social studies in Secondary School. The department also offers an undergraduate minor.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

Students must select one concentration.

- History Concentration (p. 443)
- Social Science: History Teaching Concentration (p. 443)

Minor in History

A history minor is designed for students who desire to understand the historical background of their major field and to provide an evolutionary or developmental perspective on the study and practice of their major field. Selection of courses will depend on the major and on the interests of the student.

E-mail: history@illinois.edu

Web address for department: www.history.illinois.edu (http://www.history.illinois.edu)

Students must have at least 9 hours in one of the following fields: US, European, or Nonwestern and 6 hours in a second of those fields.

Six hours of coursework in History at any level 1

Courses

HIST 100 Global History credit: 3 Hours.

A broad introduction to global history, by exploring the global structures and transnational forces that have shaped human history, from the emergence of agriculture and urban centers to our contemporary global village. This course can be used to fulfill either Western or non-Western general education categories, but not both.

This course satisfies the General Education Criteria for:
- UIUC: HistPhilosoph Perspect
- UIUC: Non-Western Cultures
- UIUC: Western Compartv Cult

HIST 101 History Now! credit: 3 Hours.

An introduction to history through participation in role-playing games set in the past. Topics will vary each time the course is taught. Students will take on the roles of historical figures (famous or obscure) engaged in difficult and complicated situations, and will be obliged to adhere to the beliefs and circumstances of those figures while attempting to pursue a course of action that will help them win the game -- and possibly alter the course of history.

This course satisfies the General Education Criteria for:
- UIUC: HistPhilosoph Perspect

HIST 102 Reacting to the Past credit: 3 Hours.

A maximum of 6 hours at the 100 level may be used in the minor.

HIST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HIST)
HIST 105  Latin America to Independence  credit: 3 Hours.
Survey of Latin American history from the discovery of America to 1824. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 106  Modern Latin America  credit: 3 Hours.
History of the Latin American republics from their independence to the present; emphasis on Argentina, Brazil, Chile, Colombia, Cuba, and Mexico. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 110  History of Africa  credit: 3 Hours.
Survey of the early history of the continent, nineteenth century developments, and the period of colonial occupation and independence, with particular focus on case studies from East Africa, South Africa and West Africa at the conclusion of the term. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 120  East Asian Civilizations  credit: 3 Hours.
Surveys the three major East Asian civilizations from ancient and classical times, through the period of Western influence, political revolution, and modernization, to the contemporary age and the emergence of East Asian superpowers. Same as EALC 120. Credit is not given for both HIST 120 and EALC 135. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 130  History of South Asia  credit: 3 Hours.
Multidisciplinary introduction to the history of modern South Asia from the consolidation of early modern state formations, the negotiation of religious, cultural and linguistic formations, European colonial interactions, and the rise of the modern nation states of Bangladesh, India, Pakistan and Sri Lanka. Same as ANTH 130. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 135  History of Islamic Middle East  credit: 3 Hours.
Introduction to fourteen centuries of Middle East history from the rise of Islam to modern times. Examines the development of Islamic thought, and of religious, social, and political institutions; as well as the transformations of the 19th and 20th centuries in the area consisting of Egypt, the Fertile Crescent, Arabia, Turkey, and Iran. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 140  Western Civ to 1660-ACP  credit: 4 Hours.
Course is identical to HIST 141 except for the additional writing component. See HIST 141. Credit is not given for both HIST 140 and HIST 141. Prerequisite: Completion of campus Composition I General Education requirement. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 141  Western Civ to 1660  credit: 3 Hours.
Fundamental developments in the history of Western societies from antiquity to early modern Europe; includes the Greek and Roman worlds, the influence of Christianity and Islam, the emergence of medieval monarchies, the rise of cities, the commercial and intellectual revolutions of the Middle Ages, the birth of the university, the conquest and colonization of the Atlantic world, the Renaissance and Reformation, the political and religious upheavals of the sixteenth and seventeenth centuries. Credit is not given for both HIST 141 and HIST 140. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 142  Western Civ Since 1660  credit: 3 Hours.
Fundamental developments - social, economic, cultural, intellectual, and political - in the history of mankind and Western society since 1660; includes the rise of modern science, the French and Industrial revolutions, the Romantic movement, the growth of nationalism and socialism, imperialism, urbanization, the Russian Revolution, Nazi Germany, the world wars, and the West and the developing world. Credit is not given for both HIST 142 and HIST 143. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 143  Western Civ Since 1660-ACP  credit: 4 Hours.
Course is identical to HIST 142 except for the additional writing component. Credit is not given for both HIST 143 and HIST 142. Prerequisite: Completion of campus Composition I General Education requirement. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 144  The Automobile  credit: 3 Hours.
Interdisciplinary examination of the automobile industry, its production systems, its marketing strategies, and the way automobiles reflect the changing landscapes of consumer tastes and value over time. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 146  A History of Judaism  credit: 3 Hours.
Same as REL 120. See REL 120. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect

HIST 170  US Hist to 1877-ACP  credit: 4 Hours.
Course is identical to HIST 171 except for the additional writing component. Credit is not given for both HIST 170 and HIST 171. Prerequisite: Completion of campus Composition I General Education requirement. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult

HIST 171  US Hist to 1877  credit: 3 Hours.
Colonial foundations, movement for independence, and early years of the Republic. Credit is not given for both HIST 171 and HIST 170. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Comparty Cult
HIST 172 US Hist Since 1877 credit: 3 Hours.
Evolution of an industrial, urbanized, and pluralistic society, grappling with domestic and global problems. Credit is not given for both HIST 172 and HIST 173.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 173 US Hist Since 1877-ACP credit: 4 Hours.
Course is identical to HIST 172 except for the additional writing component. Credit is not given for both HIST 173 and HIST 172.
Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 174 Black America, 1619-Present credit: 3 Hours.
Same as AFRO 101. See AFRO 101.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: US Minority Culture(s)

HIST 191 Freshman Honors Tutorial credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

HIST 198 Freshman Seminar credit: 3 to 4 Hours.
Through research, reports, and discussion in a selected field of historical study, the seminar provides a thorough understanding of the problems of that field and of the methods of history as a discipline. May be repeated to a maximum of 6 hours. Prerequisite: James Scholar standing or other designation as a superior student; consent of instructor.

HIST 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
May be repeated.

HIST 200 Intro Hist Interpretation credit: 3 Hours.
Through the careful examination of a specific topic or theme, this course provides a thorough introduction to historical interpretation. Particular attention will be devoted to research strategies, writing practices, handling primary and secondary sources, and the analysis of historiography. May be repeated to a maximum of 6 hours with permission of the Director of Undergraduate Studies.

HIST 202 American Environmental History credit: 3 Hours.
Introduction to the historical study of Americans' relationship with the natural world. Examination of the ways that "natural" forces have helped to shape American history; the ways that human beings have shaped, altered, and interacted with nature over time; and the ways that cultural, philosophical, scientific, and political attitudes toward the environment have changed from pre-history to the present. Same as ESE 202 and NRES 202.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 205 LatAm Hist: Primary Accounts credit: 3 Hours.
Examining the history through the primary texts written by Latin Americans, this course introduces students to theories, contents and methods of historical inquiry, as well as the nuances and the complexities of Latin American history. Reading primary texts written by all strata of society, students will look through the eyes of the diverse populations in Latin America. Students will analyze the traditional narrative of Latin America and gain insight into the lived experience of Latin Americans. Together we will advance our individual and collective understanding of Latin America's rich and complex past.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 207 Publishing the Past credit: 3 Hours.
Introduction to the craft of publishing historical materials, with a special focus on how to publish the past in the digital age. Assignments will include historical and methodological readings, as well as hands-on instruction in digital publishing techniques. Skills taught include historical research, content development, project management, and copyright analysis.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

HIST 211 History of Southern Africa credit: 3 Hours.
Survey of major themes and events in Southern African history, with emphasis on the period after World War II: the inception and development of apartheid in South Africa, the growth of contests over African nationalism in the subcontinent, wars of liberation and the demise of white domination.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 212 History of Eastern Africa credit: 3 Hours.
Introduction to the history of Eastern Africa from the nineteenth century to the present. Attention to the region's pre-colonial history and institutions is stressed, in order to understand both the transformations brought by European colonialism as well as its limits. The final weeks of the course will examine the differing political, economic, and religious trajectories of the new nation-states since independence in the 1960s.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 213 African Muslim Cultures credit: 3 Hours.
Focuses on the history and historiography of Muslim societies in Africa. Investigates the dynamics of the spread of Islam in Africa, and explores differences in Islam in Africa from other areas of the Islamic world, with attention to the image in Western scholarship of Islam in Africa. Provides students with the knowledge and skills they need to understand this central phenomenon in modern world history. Same as AFST 213.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 219 History of the Prison credit: 3 Hours.
Same as AFRO 221 and LA 221. See LA 221.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult
HIST 220  Traditional China  credit: 3 Hours.
Historical background to the modern age, tracing the Chinese state and
empire from the earliest times until 1644 A.D. Basic political, social, and
economic patterns; cultural, intellectual, and technological achievements;
and China's impact on Asia and the world. Same as EALC 220.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 221  Modern China  credit: 3 Hours.
General introduction to the major themes of the Chinese Revolution from
1840 to the present, emphasizing the interplay between politics, ideas,
and culture. Themes include the tension between cultural integrity and
Western ideologies, between democratic participation and the tradition of
centralized control, and the representation of cultural identity in high and
mass cultures. Same as EALC 221.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

HIST 222  Chinese Thought Confucius to Mao  credit: 3 Hours.
Same as EALC 222 and REL 224. See EALC 222.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 225  Southeast Asian Civilizations  credit: 3 Hours.
Same as ANTH 286 and ASST 286. See ANTH 286.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 226  Premodern Japanese History  credit: 3 Hours.
Introduction to the history of the Japanese people, their social and
cultural systems, politics, and economy, from the earliest times to the
sixteenth century. Same as EALC 226.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 227  Modern Japanese History  credit: 3 Hours.
Introduction to the history of the Japanese people, their social and
cultural systems, politics, and economy, from the mid-sixteenth century
to the mid-twentieth century. Same as EALC 227.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 240  Ancient Greek Civilization  credit: 3 Hours.
The history of ancient Greece and neighboring civilizations from the
Archaic Period to the conquests of Alexander.

HIST 241  History of Ancient Rome  credit: 3 Hours.
Survey of the political, social, economic, military, institutional, religious
and cultural development of Rome from 753 BCE until 480 CE.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 245  Women & Gender Pre-Mod Europe  credit: 3 Hours.
Examines the history of women and the evolution of concepts of
gender in western Europe from roughly 400 to 1700. Topics include
the interactions of class and ethnicity with women's experiences, the
social construction of sexuality and gender, the misogynist tradition, and
women's self-images. Same as GWS 245 and MDVL 245.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 247  Medieval Europe  credit: 3 Hours.
From the fragmentation of the Roman Empire to the formation of
territorial monarchies, this course surveys the events, innovations, crises,
and movements that shaped western Europe in a pivotal era known as
"the Middle Ages." Topics will include the spread of Christianity, the
migration of peoples, fundamental changes in economic and social
structures, the development of political institutions, the role of women,
and the cultural achievements of different communities (the monastery,
the town, the court). Same as MDVL 247.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 251  Warfare Milit Insts & Soc  credit: 3 Hours.
History of warfare and its relationship to changing technologies, tactics,
and political structures, with an emphasis on the ways that military
institutions are integrated with society as a whole. Same as GLBL 251.

HIST 252  The Holocaust  credit: 3 Hours.
Exploration of the Holocaust in historical perspective by examining
European anti-Semitism, political developments in Germany, the rise
to power of the Nazis, and the origins of the Holocaust with first-hand
accounts, films, and historical texts, concluding with the legacy of the
Holocaust in the contemporary world. Same as JS 252.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 253  Enlightenment to Existentialism  credit: 3 Hours.
Survey of the major authors, ideas, events, and styles in the cultural and
intellectual history of Europe from the seventeenth to the mid-twentieth
centuries, focusing on the intellectual traditions of France, Germany, and
Great Britain.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 254  Vikings to Volvos: Scandinavia  credit: 3 Hours.
Same as SCAN 225. See SCAN 225.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

HIST 255  British Isles to 1688  credit: 3 Hours.
Survey of the political, social and economic, religious, and cultural history
of the British people from the "prehistoric" era through the revolution of
1688. Same as MDVL 255.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

Information listed in this catalog is current as of 03/2017
HIST 256  Britain and World Since 1688  credit: 3 Hours.
Historical survey of the British Isles and the British Empire since the late seventeenth century.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 258  20thC World to Midcentury  credit: 3 Hours.
Economic, social, political, and cultural developments in twentieth-century world history from late nineteenth-century to Second World War era.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 259  20thC World from Midcentury  credit: 3 Hours.
Economic, social, political, and cultural developments in twentieth-century world history from Second World War era to the present.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 260  History of Russia  credit: 3 Hours.
Main themes and problems of Russian history from earliest times to the present.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 261  Intro Russian-Jewish Culture  credit: 3 Hours.
Same as RUSS 261. See RUSS 261.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 263  US History of Medicine  credit: 3 Hours.
Medicine and public health from the colonial period through the twentieth century; health care providers, patients, and public policy; incorporates issues of race and sex. Same as GWS 263.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 264  Technology in Western Society  credit: 3 Hours.
Explores the role of technology as a transforming social force; examines innovations from the stirrup and heavy plow to the airplane and computer, that restructured economic and political life and realigned values; examines cultural representations of technology.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 265  Science in Western Civ  credit: 3 Hours.
Topics in the intellectual and social history of science in the West.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 268  The Darwinian Revolution  credit: 3 Hours.
The ideas of Charles Darwin initiated one of the most profound and provocative transformation in human thought, science, and culture. This course examines the intellectual origins, scientific content, and social, cultural, and religious impacts of Darwinian evolutionary theory in the 19th and 20th centuries, provides students with a historical case study in the development and diffusion of radical scientific ideas, and explores the origins of the most successful and comprehensive theory in the modern life sciences.

HIST 269  Jewish History Since 1700  credit: 3 Hours.
Explores how life was lived by Jewish women and men through the past three centuries. Will also focus on wider place of the Jews in European society, and the achievements and tragedies of the modern Jewish-nongenrethnic relationship. Same as REL 269.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 270  United States History to 1815  credit: 3 Hours.
Social, economic, and political survey of the region and its relation to the evolving Atlantic community.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 271  Nineteenth Century America  credit: 3 Hours.
History of the United States from 1815 to 1900.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 272  Twentieth Century America  credit: 3 Hours.
One major emphasis on foreign policy, including the emergence of the United States as a great power after 1898; a second emphasis on the Progressive movement and recurrent attempts at the reform of American society; and racial and urban problems and the conservation of natural resources included.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 273  Illinois History  credit: 3 Hours.
History of Chicago and Illinois from prehistoric times to the present.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

HIST 274  US & World Since 1917  credit: 3 Hours.
Over the course of the twentieth century the United States rose to superpower status, in the process profoundly shaping world affairs. Students will study the connections between U.S. and global history in this pivotal period. Explores the impact of the United States on world affairs from roughly 1917 through the end of the Cold War. Attention given to the perspectives of people affected by U.S. policies and the limits of U.S. power in the face of developments such as anticolonial nationalism and great power rivalries.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

Information listed in this catalog is current as of 03/2017
HIST 275 Afro-American History to 1877 credit: 3 Hours. History of Africans in the Americas, surveying the African slave trade, slavery in the European colonies of the Americas, early United States slavery, and the Afro-American in the Civil War and Reconstruction. Same as AFRO 275. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 276 Afro-American Hist Since 1877 credit: 3 Hours. History of Afro-Americans in the age of white supremacy; the rise of modern protest organizations; the era of integration; and the black power movement. Same as AFRO 276. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 277 Encounters in Native America credit: 3 Hours. An examination of pivotal events in the history of Native peoples in North America. Students will explore the complexity of encounters between American Indians and others through a focus on key moments. These will include religious encounters, military confrontations, and legal struggles as well as social and artistic interactions. Same as AIS 277. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 278 Native American History credit: 3 Hours. A survey of the Native American experience in North America from the time of first contact to the present. The course will examine the dynamics and consequences of Native dispossession as well as the continuities in American Indian life and culture. Course materials will include written and testimony by Native people as well as historical narratives, court decisions and government documents. Same as AIS 278. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 279 Mexican-American History credit: 3 Hours. Same as LLS 279. See LLS 279. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 280 Caribbean Latina/o Migration credit: 3 Hours. Study of the economic, political, and social forces which shaped migration, settlement, and community formation of Puerto Ricans, Cubans, and Dominicans living in the United States. Same as LLS 280. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 281 Constructing Race in America credit: 3 Hours. Interdisciplinary examination of the historical, cultural, and social dimensions of race and ethnicity in the United States. Explores the complex and intricate pursuit of multiracial and multicultural democracy. Same as AAS 281, AFRO 281, and LLS 281. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 282 Nature and American Culture credit: 3 Hours. Same as LA 242, NRES 242, and RST 242. See RST 242. This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

HIST 283 Asian American History credit: 3 Hours. Exploration of the migrations of peoples from the Asian continent into the United States, their attempts to build family and community, and their subsequent impact on American history. Same as AAS 283. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 284 Af Am Urban Hist Since 1917 credit: 3 Hours. Same as AFRO 290. See AFRO 290. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 285 US Gender History to 1877 credit: 3 Hours. Traces the experiences of North American women and men from the earliest encounters between Europeans and Native Americans; examines gender systems in the colonies, under slavery, during industrialization and westward expansion; assesses impact of the Civil War and Reconstruction on gender roles; considers gendered division of labor in factories and domestic environments and construction of gender ideologies. Same as GWS 285. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

HIST 286 US Gender History Since 1877 credit: 3 Hours. Examines the experiences of women and men in modern America, focusing on variations according to class, race, ethnicity, religion, region, and sexual preference; considers the impact of social movements on gender politics; gender and the wars of the 20th century; gender, reform, and social welfare policy; and the place of popular culture in the production of gender ideologies. Same as GWS 286. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

HIST 287 African-American Women credit: 3 Hours. Examines the history of African American women, beginning with the West African background during the transatlantic slave trading era, emphasizing the experiences of black women in the United States during slavery and their political, civic, community and reform activities from slavery to the present, analyzed within the context of racism, sexism, and economic deprivation. African women in the diaspora, and the impact of feminism/womanism, Afrocentrism, and multicultural diversity on the African American woman are considered. Same as AFRO 287 and GWS 287. This course satisfies the General Education Criteria for: UIUC: US Minority Culture(s)

HIST 288 American Indians of Illinois credit: 3 Hours. Same as ANTH 288 and AIS 288. See ANTH 288. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect UIUC: US Minority Culture(s)

HIST 289 History of Religion in America credit: 3 Hours. Same as REL 235. See REL 235. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

HIST 290 Religion, Violence & America credit: 3 Hours. Same as REL 236. See REL 236. This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

HIST 291 History of the Bible credit: 3 Hours. Same as REL 203. See REL 203.
HIST 292  Latina/o Social Movements  credit: 3 Hours.
Same as LLS 238. See LLS 238.

HIST 295  Honors Colloquium  credit: 3 Hours.
Topics will vary. May be repeated. Prerequisite: Chancellor's Scholar or consent of department and director of Campus Honors Program.

HIST 300  Topics in Film and History  credit: 3 Hours.
Examines films as a significant medium of commentary on society and history. Explores the motives and careers of moviemakers, the ways in which films are influenced by their audiences, and how audiences' perception of historical processes are affected by films. Topics will vary. Same as MACS 300. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term. May be repeated to a maximum of 6 hours.

HIST 305  Andean Countries of S America  credit: 3 Hours.
The history of Colombia, Ecuador, Peru, Bolivia, and Chile; emphasizes common problems and diverse responses, from European conquest in the sixteenth century to the struggles for development in the twentieth.

HIST 306  History of Central America  credit: 3 Hours.
Major themes of Central American history since conquest: the colonial regimes, ethnic diversity, the independence movement, fragmentation in the nineteenth century, export economies and imperialism, 1880-1932, social movements and populism in the twentieth century, revolution and intervention since the 1950s.

HIST 310  Global Capitalism in History  credit: 3 Hours.
Explores the historical relations between multinational corporations and host countries focusing on political and economic issues.

HIST 311  Global History of Intelligence  credit: 3 Hours.
Examines the role of both diplomatic and military intelligence in the political history of major global events and developments from the nineteenth century to the present day. Studies the histories of several major intelligence organizations, as well as the roles played by smaller and non-institutional actors in the global production of intelligence. Focuses on the interplay between intelligence, state policy, and information environments to understand not only the role intelligence played in major events, but also how intelligence practices shaped and reflected political cultures across the world.

HIST 314  Material Culture  credit: 3 Hours.
Historical and theoretical investigation of everyday objects, artifacts, structures, landscapes, built environments. Students will learn to question existing perceptions of material phenomena, will engage in the work of historicizing and contextualizing them, and will arrive at a more informed understanding of the ways that they influence, shape, and reflect human history.

HIST 315  Discovery, Tourism and Travel  credit: 3 Hours.
History of discovery, travel and tourism in Western history from classical antiquity to the present. Focus on two themes: first is the history of discovery, Greek adventures in the Mediterranean, European missionary trips to China, or modern European expansion into the Americas and the Pacific; second is the psychological and spiritual transformations that may accompany travel to foreign places. Pays special attention to how people from different cultures are able to communicate with each other and how travel writings document globalization in the nineteenth and twentieth century. Readings include original source material by travelers, fictional travel accounts, and narratives by recent historians. Also makes use of visual materials, cultural artifacts, and music as sources with much to teach us about travel encounters between cultures. Same as RST 312.

HIST 325  History of Korea  credit: 3 Hours.
Same as EALC 367. See EALC 367.
This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect
UIUC: Non-Western Cultures

HIST 334  Modern Palestinian History  credit: 3 Hours.
Examines the main themes of Palestinian history since 1800. The Israeli-Palestinian conflict frames the latter part of this history, but it is not the central issue. The focus of the course is Palestinian political, social, and cultural history.

HIST 335  Middle East 1566-1914  credit: 3 Hours.
Political, social, cultural, and ideological developments in Egypt, Arabia, the Fertile Crescent, Iran and Turkey from the mid 16th century to the eve of World War I. Premodern society and institutions, the question of "decline" and "awakening", encounters with Europe and self-strengthening reforms, relations between Muslims, Christians, and Jews, the role of women and the family, class formation, and religion and nationalism. Same as JS 335.

HIST 337  Middle East Since World War I  credit: 3 Hours.
Political-economic, social and ideological developments in Egypt, Arabia, and Fertile Crescent (including Israel), Iran and Turkey since 1918 to the present, including U.S. involvement.

HIST 339  The Early Russian Empire  credit: 3 Hours.
Introduction to one of the most transformative events in early modern world history: the creation of the Russian Empire. We will study how Moscow, a modest medieval kingdom, suddenly expanded into the world's largest state, fated to play an outsized role in world politics and culture. Chronologically, the course extends from 1500-1750, and considers topics ranging from religion and rebellion to material culture and everyday life.

HIST 342  Cultural Hist of Technoscience  credit: 3 Hours.
Addresses the myriad ways American culture interacts with scientific and technological artifacts, practices, and knowledge. Some of the issues addressed are: how science and technology are deployed and used for cultural ends; how cultural beliefs and ideologies are "built" into science and technology; how the interaction of cultural experience, science, and technology shapes the built environment; how science and technology privilege certain cultural communities in America. Course requirements include participation, leadership in class discussions, as well as a research project.

HIST 343  Technology & Sport  credit: 3 Hours.
Traditionally sport has been a competition between humans or humans and nature. Recent technological developments have altered this arrangement. Now technology is a contaminative component of sport and has changed modes of play. Examines the history of the evolving relationships between contemporary sport, emerging technology, and cultural experience. The fundamental question this course will address is: how has technology, in its multiple forms, reshaped sport? Same as RST 357.

HIST 345  Medieval Civilization  credit: 3 Hours.
The architectural, artistic, philosophical, political, and religious components of medieval culture, thought, and patterns of behavior; includes monasticism and society and the individual. Same as MDVL 345 and REL 345.

HIST 346  The Age of the Renaissance  credit: 3 Hours.
An introduction to the cultural history of Europe in the fifteenth and sixteenth centuries, embracing the Renaissance movements in Italy and in Northern Europe. Same as MDVL 346 and REL 346.
HIST 347  Protestant & Catholic Refs  credit: 3 Hours.
New sources of secular power and spiritual authority define the age of
the Protestant and Catholic Reformations. In this advanced European
history course students expand their knowledge of the people, events,
and ideas of the fifteenth and sixteenth centuries while deepening their
understanding of a wide range of primary sources created by theologians
and peasants, nuns and monks, and artists and rebels. Key works
by Luther, Calvin, and Loyola are placed in their intellectual and social
cultures. Same as REL 347.

HIST 348  Early Euro Absolut & Expansion  credit: 3 Hours.
In the seventeenth and eighteenth centuries Europeans transformed
political relations within Europe and their economic relationships with the
wider world. This course examines continuities and change from 1600
to 1789, following the themes of authority and power. Topics include the
rise of "absolute monarchy" and its alternatives in countries like, England
and the Netherlands, as well as European trade and consumption, popular
culture, the family, food, clothing, sexuality, and labor.

HIST 349  Age of Revolution, 1775-1815  credit: 3 Hours.
Comparative survey of domestic upheavals in the North Atlantic world:
America, Haiti, England, Prussia, and France; the rise of Napoleon and
the response of Europe; and the fate of innovation and reform in the
immediate aftermath.

HIST 350  19thC Romanticism & Politics  credit: 3 Hours.
Among the topics of this course will be Romanticism, which is still
the basic form of modern culture today, with its emphasis on feeling,
imagination, and self-expression; the nation-state, a new form of political
organization; and the creation of a globalized world for the first time in
human history.

HIST 352  Europe in the World  credit: 3 Hours.
Colonial encounters between Europe and today's Third World viewed
in comparative historical perspective. Equal emphasis placed on
(colonizing) Europe and colonial experience of Asia, Africa, and South
America.

HIST 353  European History 1918 to 1939  credit: 3 Hours.
Survey of European society from 1918 to 1939, with emphasis on
the impact of World War I, the Russian Revolution, fascism, and the
intellectual trends of the twenties and thirties.

HIST 354  Twentieth Century Europe  credit: 3 Hours.
Cultural history of Europe in an age of global warfare and political, social,
and economic upheaval.

HIST 355  Soviet Jewish History  credit: 3 Hours.
An examination of how Jewish life and culture contributed to the creation
of the world's first socialist society. Makes use of primary sources,
 scholarly essays and monographs, archival documents, literature,
memoirs, film, and visual culture as a way of introducing students to
Soviet Jewish History, from the reign of the last tsar, Nicholas II, to the
dissolution of the Soviet Union in 1991. Special topics to be examined
include: the breakup of the Pale of Settlement during the Great War; the
role of Jews in revolution and revolutionary culture; Soviet nationality
policy; shtetl culture; antisemitism; everyday life; the purges of the
1930s; the Jewish experience in World War II; the Holocaust; and mass
emigration.

HIST 357  Modern France  credit: 3 Hours.
The development of modern France, with special attention to social and
cultural phenomena.

HIST 360  European Culture in a Global Context  credit: 3 Hours.
Railways, steamships, telegraph, quinine, machine guns: these were
some of the European innovations that created a unified world between
1850 and 1914. The transforming force of new technologies, global
commerce and Western imperialism also had a profound impact on the
arts. We will study this globalization of culture in world spectacles, the
visual arts, music, and literature.

HIST 361  Euro Thght & Soc Since 1789  credit: 3 Hours.
Examines the reciprocal relationship between thought and society in
western Europe from the French Revolution to the present.

HIST 362  Spain and Portugal to 1808  credit: 3 Hours.
Introduction to the history of the Iberian peninsula to 1808. After a brief
overview of Roman and Visigoth Iberia, the course will study the cultural,
technological, and intellectual accomplishments of Moorish Iberia and
the imperial expansion of Christian Spain and Portugal in the early
modern period.

HIST 364  Fict & Historical Imagination  credit: 3 Hours.
Explores the relationship between history and fiction by focusing on
specific cultural locations.

HIST 365  History of Western Medicine  credit: 3 Hours.
Rise and development of medicine in the West since the sixteenth
century; interrelations of physiology, pathology, and social demands
with the theory and practice of medicine; pattern of professionalization;
social role of the physician; conflict among ideas of medicine as an art,
a science, and a social service; and problems of mental illness, medical
ethics, and nontraditional forms of practice.

HIST 366  Spain and Portugal from 1808  credit: 3 Hours.
A modern history of Spain and Portugal.

HIST 370  Colonial America  credit: 3 Hours.
An interpretive survey of American colonial history from 1492 through
1763. Themes include encounters between Natives and Europeans
in the New World, contests for colonization, settler societies and the
development of various colonial social patterns in North America and
the Caribbean, the beginnings of slavery, and the gradual emergence
of distinctive provincial cultures in the North American colonies of the
British Empire. Throughout all of this, there is an examination of colonial
American history as part of the larger Atlantic World, understanding early
American history as a process of exchange and interaction which
included Europe, Africa, the Caribbean, and North America.

HIST 371  The American Revolution  credit: 3 Hours.
Examines the momentous founding age of United States history.
Explores the growing estrangement of the American colonies from
Great Britain and the culmination of this process in the Declaration of
Independence. It then examines the controversial process of creating a
new nation, and the government of the United States. Intense focus on
primary source materials from the period.

HIST 372  America's Republic, 1780-1880  credit: 3 Hours.
A study of political life in the U.S. during the century following the
Declaration of Independence. It then examines the controversial process of creating a
new nation, and the government of the United States. Intense focus on
primary source materials from the period.
HIST 373 Origins of the Civil War credit: 3 Hours.
Examination of changes in economic, social, cultural, and political life in the United State that ultimately plunged the national into the bloodiest and most important war in its history. Particular attention is paid to the way in which diverse segments of the country's population - North and South, urban and rural, rich and poor, slave and free, black and white, male and female - affected and were affected by these changes.

HIST 374 Civil War and Reconstruction credit: 3 Hours.
The United States' civil war (1861-1865) and the years of postwar "reconstruction" (conventionally dated as 1865-1877). During this period as a whole, the nation underwent its second revolution - a revolution more radical in its impact than the one the freed it from the British Empire. Much about U.S. history for the next century and more was decided during these critical years.

HIST 375 Soci History Indus Am to 1918 credit: 3 Hours.
The impact of industrialization, immigration, and urbanization on American society to the end of World War I.

HIST 376 Soci History Indus Am from 1918 credit: 3 Hours.
Study of the impact of industrial technology, business enterprise, immigration, and urbanization on American society.

HIST 377 United States since 1932 credit: 3 Hours.
Discusses the New Deal, the Cold War, Franklin D. Roosevelt and subsequent presidents, the structure of American imperialism, and America's role in world politics.

HIST 379 Latina/os and the City credit: 3 Hours.
Same as LLS 379. See LLS 379.

HIST 380 US in an Age of Empire credit: 3 Hours.
Study of the imperial dimensions of U.S. history from about 1877 to 1920. This was an era marked by an imperial world system, unprecedented levels of international trade and investments, massive labor migrations, significant missionary endeavors, and consolidation of U.S. power over Native Americans, and growing U.S. political and military assertion in the international arena. Considers how the United States and its peoples positioned themselves in an international context by investigating not only government policies but also commercial endeavors and cultural practices.

HIST 381 Urban History credit: 3 Hours.
Examines the history of urban centers, paying special attention to the relationship between the city and its surrounding territory, the impact of migration and immigration, the delineation of space and the transformation of the built environment, and the role of a city's inhabitants in creating social networks, political structures, and cultural institutions. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 382 Race and Migration in Chicago credit: 3 Hours.
Same as LLS 382. See LLS 382.

HIST 383 Hist of Blk Women's Activism credit: 3 Hours.
Same as AFRO 383 and GWS 383. See AFRO 383.

HIST 384 Class Politics & Blk Community credit: 3 Hours.
Same as AFRO 372. See AFRO 372.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

HIST 385 Transnational Sexualities credit: 3 Hours.
Same as GWS 385. See GWS 385.

HIST 386 Public History credit: 3 Hours.
An examination of major genres historians have employed to present history in the public arena, including documentary films, public memorials, legal testimony and museum exhibits. Students will explore both the social dynamics of public commemoration and the techniques historians employ when communicating complex ideas and events to a general audience.

HIST 387 History of Sexuality in U.S. credit: 3 Hours.
Same as GWS 387. See GWS 387.

HIST 389 Race and Revolutions credit: 3 Hours.
Same as AFRO 378. See AFRO 378.

HIST 390 Sport and Society credit: 3 Hours.
In various societies, organized sport has operated as site of nation-building, the struggle for inclusion, and indicator of societal advancement. Examines the history of the roles that sport has played in society through a series of topical foci, as selected by the professor each semester. Course readings revisit popular and scholarly debates about sport and discuss the different actors and social forces that shaped those discussions. Same as KIN 345. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 391 Oral History Methods credit: 3 Hours.
Introduces students to the ethical discourses and practical methods in oral history. Its primary purpose is to prepare students with oral and archival research skills that are crucial for the examination of the history and memory of communities. Among the questions that the class will consider are: what is the connection between the historical record and the remembered past? How reliable are these memories and does reliability matter? How do people mobilize and manipulate accounts of the past for purposes of community building, historic preservation, and political development? Same as LLS 391.

HIST 392 The 1960s in the U.S. credit: 3 Hours.
A study of the history of the 1960s, a tumultuous decade in the social and political history of the United States. The class has two main goals:
1) Provide a solid knowledge of the history of this period and its social and economic developments.
2) Develop skills as an analytic reader and writer in U.S. history.

HIST 393 The World of Jewish Sephard credit: 3 Hours.
Same as ANTH 393 and REL 393. See ANTH 393.
This course satisfies the General Education Criteria for:
UIUC: HistPhilos Perspect
UIUC: Non-Western Cultures
UIUC: Western Compar Cult

HIST 395 Topics in Law and Society credit: 3 Hours.
Topics and problems in the history of laws, legal institutions, jurisprudence, concepts of justice, and their role(s) in shaping societies over time. Specific readings and foci will vary. May be repeated in the same or separate terms for a maximum of 6 hours if topics vary.

HIST 396 Special Topics credit: 3 Hours.
Topics are given on an experimental one-time-only basis. May be repeated if topics vary.
HIST 397  Sexuality in Modern Europe  credit: 3 Hours.
What is sexuality? How is it practiced, policed, represented, liberated and controlled? How do religion, the state, the law and the media influence sexual identities and practices? Focusing on modern Europe, we will examine the history of sexuality from the late eighteenth century to the present in order to explore how historians have answered these questions. We will investigate topics from pornography, prostitution, sex and totalitarianism, queer sexualities, sex and colonialism, and masturbation, to sex education, sexual revolutions, hermaphroditism, sex surveys and AIDS. Same as GWS 397.

HIST 398  Internship in Public History  credit: 1 to 3 Hours.
With a faculty sponsor, a qualified students will develop a program of study or research related to an internship or other relevant employment opportunity. Consult departmental undergraduate advisor or Director of Undergraduate Studies. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of faculty sponsor and Director of Undergraduate Studies required.

HIST 399  Independent Study  credit: 1 to 3 Hours.
Readings in selected fields in consultation with the instructor resulting in a 20-30 page paper. May be repeated with permission of the Director of Undergraduate Studies. Prerequisite: Junior or senior standing pursuing a History major; written consent of instructor and History undergraduate advisor required.

HIST 400  War, Soc, Politics, & Culture  credit: 2 to 4 Hours.
Topics will be listed in the department's course guide at http://www.history.illinois.edu. 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours in the same or subsequent terms if topics vary.

HIST 401  History of Terrorism  credit: 3 or 4 Hours.
Historical examination of strategies of terror, their relationship to conventional warfare, and their political, social, cultural, and religious contexts. 3 undergraduate hours. 4 graduate hours.

HIST 405  History of Brazil from 1808  credit: 2 to 4 Hours.
Problems of a neocolonial society; themes include family structure, slavery, imperialism, modernization, and the crisis of traditional institutions. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 406  History of Mexico from 1519  credit: 2 to 4 Hours.
Development of Mexico from the conquest to the postrevolutionary present. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 407  Slavery & Race in Latin Am  credit: 2 to 4 Hours.
Selected topics on Indians and Spaniards, whites and blacks, emphasizing Mexico, the Caribbean, and Brazil. Same as AFRO 407. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 410  Decolonization in Africa  credit: 3 or 4 Hours.
Almost all African countries fell under European colonial rule by the beginning of the 20th century, but formal colonialism did not last the century. Surveys the crucial ideological, political, social, and military strategies enlisted by African people and movements to shed colonial rule. Also examines the paradox of the coupling of "flag independence" with continuing economic dependence on Europe. 3 undergraduate hours. 4 graduate hours.

HIST 411  20thC Africa Intellectual Hist  credit: 2 to 4 Hours.
The development of influential political and cultural ideas on the African continent over the course of the long 20th century, highlighting the interactions of individuals (as members of educated elites and of rural societies) and institutions (such as universities) in developing trademark African intellectualism. These concepts include: Pan-Africanism, the need for political independence, Negritude, feminism/womanism, calls for the promotion of indigenous languages and ubuntu; as well as the contested justifications for one-party rule. Students will gain an appreciation of the breadth, depth and creativity of African thought and activism. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 412  Southern Africa Race & Power  credit: 3 or 4 Hours.
Interdisciplinary survey of both the internal and international dimensions of the changing situation in Africa south of the Zambezi; focuses on the historical background - and a political, economic, and social analysis of current events in the Republic of South Africa, Mozambique, Namibia, and Zimbabwe, emphasizing the central significance of race and power in this region. Same as AFST 425. 3 undergraduate hours. 4 graduate hours.

HIST 420  China Under the Qing Dynasty  credit: 2 to 4 Hours.
The period of Manchu domination in China (1644-1912); emphasis on Chinese reactions to Western influences during the nineteenth century. Same as EALC 420. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 422  Soc-Econ Hist Modern China  credit: 2 to 4 Hours.
Disintegration of traditional social and economic systems during the nineteenth and twentieth centuries, and the political effects of that disintegration; examines changes in the agricultural economy, changing rural elites, urbanization, and emergence of new social classes. It is recommended that students take HIST 420 before registration in HIST 422. Same as EALC 421. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 425  Classical Chinese Thought  credit: 3 or 4 Hours.
Same as CWL 478 and EALC 476. See EALC 476.

HIST 426  Early Modern Japan  credit: 3 or 4 Hours.
Study of the people, culture, and society from 1600 to 1868. Traces the rise of Japan's first truly national culture. Same as EALC 426. 3 undergraduate hours. 4 graduate hours.

HIST 427  Twentieth-Century Japan  credit: 3 or 4 Hours.
Study of the people, culture, and society of Japan from 1868 to the present. Traces Japan's transformation from an insular bastion of "centralized feudalism" into a cross-cultural crucible of post-industrial democracy. Same as EALC 427. 3 undergraduate hours. 4 graduate hours.

HIST 430  India from Colony to Nation  credit: 2 to 4 Hours.
Mughal Empire and British Raj, Indian national awakening, and struggle for independence under Gandhi and Nehru. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 432  History of Early Judaism  credit: 3 Hours.
Same as JS 442 and REL 442. See REL 442.

HIST 433  History of Jews in Diaspora  credit: 3 or 4 Hours.
Study of the Jewish Diaspora peoples from the destruction of the Jewish state by Rome to the reestablishment of a Jewish state in 1948. The emphasis is on the interaction between the Jewish and non-Jewish worlds as well as changes internal to the Jewish communities. Same as REL 434. 3 undergraduate hours. 4 graduate hours.

HIST 434  Women in Muslim Societies  credit: 3 or 4 Hours.
Same as ANTH 403, GLBL 403, GWS 403, REL 403, and SAME 403. See REL 403.
HIST 436  Jewish Life-Writing  credit: 3 or 4 Hours.
Same as CWL 421, REL 420, SLAV 420, and YDSH 420. See YDSH 420.

HIST 438  Egypt Since World War I  credit: 2 to 4 Hours.
Examines the twentieth-century history of Egypt, emphasizing the internal social, political, economic, and ideological developments, with attention to Egypt's role in regional and international politics. Readings include novels and short stories to introduce students to modern Egyptian culture. Same as AFST 437. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 439  The Ottoman Empire  credit: 2 to 4 Hours.
Economy, society, law, and government; the Ottomans and Mediterranean society; Ottoman culture and Islamic tradition; minorities; trade, diplomacy, and capitulations; "decline" and dismemberment; and traditional and westernizing attempts at revival. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 440  Roman Republic to 44 B.C.  credit: 3 or 4 Hours.
Examination of the political, social, economic, military, institutional, religious and cultural development of Rome from 753 BCE until 14 CE. Same as CLCV 440. 3 undergraduate hours. 4 graduate hours.

HIST 441  The Roman Empire  credit: 3 or 4 Hours.
Examination of the political, social, economic, military, institutional, religious and cultural development of the Roman Empire from the reign of Augustus (27 BCE - 14 CE) through the fall of the Western Roman Empire ca. 480 CE. 3 undergraduate hours. 4 graduate hours.

HIST 442  Roman Law and Legal Trad  credit: 3 or 4 Hours.
Examines Roman law and legal tradition in the context of historical, political, and social developments; origins of law in primitive and ancient classical societies; surveys development of precedent, codification, and preservation of Roman law, and the impact of Roman law on western legal traditions. 3 undergraduate hours. 4 graduate hours.

HIST 443  Byzantine Empire AD 284-717  credit: 3 or 4 Hours.
Examination of the political, social, economic, military, institutional, religious and cultural development of the early Byzantine Empire from the reign of Diocletian (AD 284-305) through the Heraclian Dynasty (AD 610-717). Same as MDVL 443. 3 undergraduate hours. 4 graduate hours.

HIST 444  European Education to 1600  credit: 2 to 4 Hours.
Same as EPS 403 and MDVL 403. See EPS 403.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosph Perspect
UIUC: Western Compartv Cult

HIST 445  Medieval England  credit: 2 to 4 Hours.
Key sources and topics of English history, from the end of Roman rule in Britain (c. 410) to the fifteenth century. Recurrent themes include the development of law, the role of women, the status ofcommons, intellectual trends, and the importance of public media for the dissemination of ideas (writing, performance). Same as MDVL 444. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 446  Early Modern British Isles  credit: 2 to 4 Hours.
Social, economic, cultural and political history of the "four Kingdoms" of England, Scotland, Wales, and Ireland between 1450 and 1800. Covers the Tudor and Stuart dynasties, Shakespeare, the English Civil War, the development of British colonial holdings across the globe, and the effects of empire at home. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 448  Modern Britain  credit: 2 to 4 Hours.
History of modern Britain's social, economic, cultural and political life with a special emphasis on the role of empire in shaping its career as a global power and its "domestic" national culture at home. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 449  British Imperialism  credit: 2 to 4 Hours.
Thematic approach to Britain's role as an imperial power, its impact on global issues and affairs, and the effect of colonies and colonial peoples on the history of its development as a Western "nation". 3 undergraduate hours. 2 or 4 graduate hours.

HIST 450  European Working Class History  credit: 2 to 4 Hours.
Comparative study of the rise of the working class in European countries; formation, culture, and daily life; stratification within the working class; workers in organized labor and revolutionary movements. Same as LER 450 and SOC 422. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 456  Twentieth-Century Germany  credit: 3 or 4 Hours.
Political upheavals of twentieth-century Germany; topics include the First World War's impact on German society, the war's revolutionary aftermath, the political struggles and cultural achievements of the Weimar Republic, the rise of Hitler, the Third Reich, the Holocaust, the Second World War, and the divided postwar Germanies; novels and films complement readings. 3 undergraduate hours. 4 graduate hours.

HIST 457  European Education since 1600  credit: 2 to 4 Hours.
Same as EPS 404. See EPS 404.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosph Perspect
UIUC: Western Compartv Cult

HIST 458  Christians and Jews 1099-1789  credit: 3 or 4 Hours.
Same as REL 458. See REL 458.

HIST 459  Postcolonial/Queer  credit: 3 or 4 Hours.
Same as GWS 459. See GWS 459.

HIST 461  Russia- Peter the Great to Rev  credit: 2 to 4 Hours.
Culture, society, and politics in Imperial Russia, focusing on power and resistance, the lives and culture of ordinary Russians, and competing ideas about the state, the individual, community, nation, religion, and morality. 3 undergraduate hours. 2 or 4 graduate hours. For higher credit, graduate students will be required to do more reading and to write an additional paper.

HIST 462  Soviet Union Since 1917  credit: 2 to 4 Hours.
Political, social, and economic development of the USSR since the 1917 revolutions that brought the Bolsheviks to power; social change and social engineering; social and economic development of the USSR since the 1917 revolutions that brought the Bolsheviks to power; social change and social engineering; political struggles among Stalin and his rivals; the "Stalin revolution" from above and economic modernization; the USSR's emergence through World War II and the Cold War as a world power; "developed socialist" society. 3 undergraduate hours. 2 or 4 graduate hours. Graduate students will write an additional substantial paper and engage in special discussion sections.

HIST 466  The Balkans  credit: 3 or 4 Hours.
The political, economic, and cultural history of this region's peoples, including the Rumanians, South Slavs, Greeks, and Albanians; the impact of Ottoman rule; the rise of nationalism and the formation of national states; and the Orthodox Church. 3 undergraduate hours. 4 graduate hours.
HIST 467  Eastern Europe  credit: 3 or 4 Hours.
The political, economic, and cultural history of Poland, Czechoslovakia,
Hungary, Rumania, Yugoslavia, Bulgaria, Greece, and Albania; particular
emphasis upon the post-World War II era. 3 undergraduate hours. 4
graduate hours.

HIST 468  Locating Queer Culture  credit: 3 Hours.
Same as GWS 467. See GWS 467.

HIST 470  Plantation Soc in Americas  credit: 3 or 4 Hours.
Same as AFRO 453. See AFRO 453.

HIST 472  Immigrant America  credit: 3 or 4 Hours.
History of immigration and immigrant groups in the United States from
1830 to 1980. Covers major waves of immigration and focuses on the
diverse cultural heritage, social structure, and political activism of
immigrants from Europe, the Americas, and Asia. 3 undergraduate hours.
4 graduate hours.

HIST 473  Crises of Political Tolerance  credit: 2 to 4 Hours.
Investigates the character of American political tolerance and freedom in
times of crisis, through a series of case studies: images of the American
"enemy"; the Red Scare after World War I; the internment of Japanese-
Americans in World War II; McCarthyism; and the resentments generated
by protest movements in the late 1960's. 3 undergraduate hours. 2 or 4
graduate hours.

HIST 475  Formation of US Public Health  credit: 3 or 4 Hours.
Introduction to the history of American public health and health policy.
Emergence of modern public-health institutions in America; relation of
public health to conceptions of disease, social order, and the role of
government; emergence and development of public policy issues in
public health and medical care, of the environment for the formulation of
policy, and the relation of policy to broader issues of social development,
iccidence of disease, and assumptions about the proper distribution of
public and private responsibility. 3 undergraduate hours. 4 graduate hours.

HIST 476  History of the American West  credit: 3 or 4 Hours.
Examines the changing image of the American West by focusing on the
process of conquest and resistance present within the region's history.
Same as LLS 475. 3 undergraduate hours. 4 graduate hours.

HIST 478  Black Freed Move, 1955-Present  credit: 3 or 4 Hours.
Same as AFRO 474. See AFRO 474.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

HIST 479  19thC US Intel & Cultr Hist  credit: 2 to 4 Hours.
Examines diverse strains of cultural and intellectual life in the US from
the early Republic through the 1890s. Emphasizes popular culture,
religious revivalism, educational institutions, reform movements, art,
sience, and literature and the roles of cultural elites, women, working-
classes, African Americans, Native Americans and immigrants in shaping
national, regional and local cultures. Same as REL 478. 3 undergraduate hours.
2 or 4 graduate hours.

HIST 480  US Work Class Hist Since 1780  credit: 2 to 4 Hours.
Focuses on working class formation, culture, ideas, and organization;
examines daily experience of work and community life; special emphasis
on race, ethnicity, and gender in the process of class formation; labor
relations and the changing patterns of working class protest and
accommodation. Same as LER 480. 3 undergraduate hours. 2 or 4
graduate hours.

HIST 481  20th Century US Culture Wars  credit: 2 to 4 Hours.
What ideas does "American Culture" include? How does it incorporate
diverse religious traditions as well as new scientific perspectives? How
are ethnicity, gender and race important? Topics of current "cultural
wars", these and other questions about cultural conflict in the US have
been hotly debated for over a century. This course explores such culture
wars in the 20th century US and helps students evaluate contested
cultural concepts they have produced, including pragmatism, pluralism,
religious diversity, scientific objectivity, economic equality, as well as
"popular," "high" and "democratic" culture. Same as REL 479. 3
undergraduate hours. 2 or 4 graduate hours.

HIST 482  Slavery in the United States  credit: 3 or 4 Hours.
Same as AFRO 466. See AFRO 466.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

HIST 483  Race, Science, and Medicine  credit: 3 or 4 Hours.
Same as REL 435. See REL 435.

HIST 486  Revivalism and Evangelicalism  credit: 3 or 4 Hours.
Same as AFRO 466.

HIST 487  Great Books in History  credit: 3 or 4 Hours.
An approach to History through a selection of prize-winning, influential,
and lasting books, the point being to consider the role of the book
in History and its relation to other forms of historical interpretation,
including essays, web sites, films, lectures, and exhibits. It will hone
students' composition abilities through careful attention to writing, craft,
and genre. Each iteration of this course will focus on a particular theme.
3 undergraduate hours. 4 graduate hours. May be repeated as topics vary
to a maximum of 6 undergraduate hours or 8 graduate hours.

HIST 490  Honors Independent Study  credit: 3 Hours.
Independent reading, research, and writing under the supervision of an
individual instructor. Seniors in the History Honors Program taking this
course in place of the Honors Senior Thesis must complete a substantive
research paper (25-30 pages). No graduate credit. May be repeated to a
maximum of 6 hours. Each 3-hour class must be taken with a different
instructor. Prerequisite: Admission to the History Honors Program; or
junior or senior of high standing with the consent of the Instructor of
Undergraduate Studies.

HIST 491  Directed Research in Digital History  credit: 1 to 4 Hours.
Advanced projects in Digital History undertaken with a faculty supervisor.
1 to 3 undergraduate hours. 1 to 4 graduate hours. Approved for Letter
and S/U grading. May be repeated in separate terms to a maximum of
6 undergraduate hours or 4 graduate hours. Prerequisite: Consent of
sponsoring faculty supervisor and Director of Undergraduate Studies or
Director of Graduate Studies required for all students.

HIST 492  Historiography and Methodology  credit: 3 Hours.
A seminar for all students in the History Honors Program, to be taken
no later than the spring of the Junior year. Students will study the
development of the historian's craft and will be exposed to new research
methods and techniques. The course will culminate in the preparation
of a research proposal for the Honors Senior Thesis, developed in
consultation with an individual faculty advisor. The instructor of HIST 492
and the Director of Undergraduate Studies will assist students in the
selection of an appropriate mentor. Even those students who may not be
planning to write the Honors Senior Thesis must enroll in this course and
prepare a research proposal. 3 undergraduate hours. No graduate credit.
Prerequisite: Admission to the History Honors Program or consent of the
Director of Undergraduate Studies.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
Students must pass HIST 200 with a grade of a C (2.0) or better in order to remain in good standing in the major.

Minimum hours required for graduation: 120 hours

Departmental distinction:

To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 495, HIST 492 and successful completion of either:

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR
2. the completion of two approved independent research projects under the supervision of two different advisors (HIST 490). (in which case, students will be eligible for an award of distinction only (not high or highest distinction).

Minimum of 36 hours of History courses including:
- Two introductory History courses at the 100 level (preliminary coursework) 6
- African, Asian, Global, Latin American, Middle Eastern History courses at the 200-level or above, at least 3 hours at the 300 level or above 6
- European History courses at the 200-level or above, at least 3 hours at the 300 level or above 1
- U.S. History courses at the 200-level or above, at least 3 hours at the 300 level or above. 3 hours must be in U.S. Minority History. 6
- Hours of history electives (at the 200-level or above). NOTE: 12
  - HIST 200 and HIST 498 (or HIST 495) are required. HIST 200, HIST 495, and HIST 498 may count toward any of the area requirements or the 12 hours of History electives. For those students in the Honors Program, HIST 490 or HIST 493 may count toward any of the area requirements or the 12 hours of History electives. HIST 492 and HIST 499 must be taken as part of the 12 hours of required History electives.

Of the 36 hours of History courses, students must take 6 hours in a pre-modern period, one defined as before 1600 and one defined as before 1800 (HIST 100 and HIST 142 may not be used to fulfill this requirement). 1

Total Hours 2 36

1 Chosen from the list maintained in the Department of History
2 Eighteen advanced hours (300- and 400-level) of History courses are required in the major. 12 of those 18 advanced hours must be taken on this campus.

History Concentration

E-mail: history@illinois.edu

Minimum required major course work normally equates to 36 hours of History courses.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Social Science: History Teaching Concentration

E-mail: history@illinois.edu

Web address for department: www.history.illinois.edu (http://www.history.illinois.edu)
Degree title: Bachelor of Arts in Liberal Arts and Sciences

Students are required to take a minimum of 36 hours in History courses. Only one of the following Advanced Composition courses (HIST 140, HIST 143, HIST 170, HIST 173) will count toward the 36 hours required in History courses.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level History courses must be taken on this campus.

Minimum hours required for graduation: 120 hours

This concentration fulfills state certification requirements to teach high school history (grades 9-12) through the AP/honors level and high school economics, geography, political science, psychology, and sociology/anthropology up to but not including the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 126).

Time to degree completion varies. Minimum time to completion is 8 semesters, but some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook (https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Departmental distinction: To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 495, HIST 492 and successful completion of either

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR
2. the completion of two approved independent research projects under the supervision of two different advisors (HIST 490) (in which case, students will be eligible for an award of distinction only if not high or highest distinction).

Foundation Courses

The following courses must be completed or in progress when students apply to the Secondary Education minor.

Integrative Biology, School of

Carla Caceres
IB 104  Animal Biology  credit: 4 Hours.
Introductory zoological concepts with emphasis on the diversity and comparative anatomy of animals and the fundamentals of physiology, genetics, evolution, and behavior. Lecture and laboratory. The laboratory includes vertebrate dissection.

IB 105  Environmental Biology  credit: 3 Hours.
Introduction to ecological principles in relation to understanding environmental problems; lecture and discussion emphasize impacts upon ecosystems by human activities such as air and water pollution, usage of pesticides and pest control measures, expansion of agriculture in tropics and arid regions, harvesting the oceans, and development of energy sources.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

IB 108  The Biology of Dinosaurs  credit: 3 Hours.
The origin, diversity, and extinction of dinosaurs will serve as a conceptual framework to explore fundamental principles of biology. We will consider dinosaurs as animals, examining evidence for their physiology and behavior, and how evolution and speciation produced the diversity of dinosaurs. We will relate the influence of Earth's changing environments on dinosaurs to environmental change on human timescales. We will emphasize how scientists collect and evaluate fossil data through an understanding of living organisms.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

IB 109  Insects and People  credit: 3 Hours.
Fundamentals of insect biology as reflected in human culture; insect physiology, ecology, and behavior discussed in the context of art, literature, movies, medicine, sports, law, and history.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

IB 150  Organismal & Evolutionary Biol  credit: 4 Hours.
Introduction to physiology, genetics, and evolution of organisms, and their ecology and diversity.
This course satisfies the General Education Criteria for:
UIUC: Life Sciences

IB 151  Organismal & Evol Biol Lab  credit: 1 Hour.
Topics follow lecture topics in IB 150 and include labs in ecology, plant and animal function, and genetics and evolution. Designed for non-majors needing a year of biology with lab. Credit is not given for IB 151 for Integrative Biology or Molecular and Cellular Biology majors. Prerequisite: Credit or concurrent registration in IB 150.

IB 199  Undergraduate Open Seminar  credit: 0 to 5 Hours.
Approved for both letter and S/U grading. May be repeated to a maximum of 5 hours.

IB 202  Physiology  credit: 3 or 4 Hours.
How animals function in acquiring, processing, and allocating resources in the face of environmental constraints. The inquiry-based laboratory emphasizes testing of hypotheses related to functioning of physiological components of the basic systems of animals. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. The laboratory includes vertebrate dissection. Prerequisite: IB 150 and MCB 150.

IB 203  Ecology  credit: 4 Hours.
The links between evolution and ecology, population dynamics, community structure and function, and ecosystem function on local and global scales. Basic ecology needed to understand environmental problems and to conserve biodiversity. Investigations in both field and laboratory included. Prerequisite: IB 150 and MCB 150.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
IB 204 Genetics credit: 3 or 4 Hours.
The fundamentals of inheritance, with an emphasis on eukaryotes. Major topics include transmission genetics, quantitative genetics, cytotgenetics, genomics, genetics of development and behavior, and population genetics. Laboratory emphasizes an experimental, inquiry-based approach to modern and classical genetics. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. Prerequisite: IB 150 and MCB 150.

IB 220 Applied Entomology credit: 3 Hours.
Same as ANSC 270 and NRES 270. See ANSC 270.

IB 270 Evolution of Molecules & Cells credit: 5 Hours.
The major evolutionary transitions of biomolecules and cells including: energy acquisition and metabolism; information inheritance, system regulation, and genomes; the origin of life and of the prokaryotic cell, eukaryotic cell, and multicellularity. Lecture and laboratory. Credit is not given for both IB 270 and either MCB 250 or MCB 252. Prerequisite: IB 120 or consent of instructor. Approved for S/U grading.

IB 271 Organismal Biology credit: 5 Hours.
Integrated study of the diversity and structure and function of plants and animals in evolutionary and environmental contexts. Conceptual themes and techniques of molecular and cellular levels of biological organization will be integrated as well. Lecture and laboratory. The laboratory includes vertebrate dissection. Credit is not given for both IB 271 and IB 202. Prerequisite: IB 270; good standing in the honors biology option. This course satisfies the General Education Criteria for: UIUC: Life Sciences

IB 299 Undergraduate Special Course credit: 0 to 5 Hours.
Approved for letter and S/U grading. May be repeated in the same term; may be repeated in separate terms to a maximum of 6 hours.

IB 302 Evolution credit: 4 Hours.
Broad introduction to evolutionary biology, including natural selection and microevolution, phylogeny, speciation, molecular evolution, macroevolution and the fossil records. The laboratory emphasizes a survey of biodiversity and processes and patterns of evolution. Prerequisite: IB 204 or consent of instructor.

IB 303 Anatomy credit: 4 Hours.
An overview of the body structure of vertebrate animals, with a special focus on mammals including humans. Body structure will be investigated from evolutionary, developmental, and human health perspectives through lectures, in-class activities, and required laboratory dissections. Through this course, students will develop a better understanding of anatomy vocabulary, the anatomical design of vertebrates, vertebrate development, and how vertebrate anatomy and development are related to each other, to organismal function, and to human health. Prerequisite: IB 150.

IB 329 Animal Behavior credit: 3 Hours.
Introductory course emphasizing how patterns of behavior promote survival, change through evolution, and are modified by the environment. Same as ANSC 366 and ANTH 342. Credit is not given for both IB 329 and ANSC 363. Prerequisite: IB 150 and MCB 150; or consent of instructor.

IB 335 Systematics of Plants credit: 4 Hours.
Introduces the principles and methods of the identification, naming, classification, systematics, and evolution of flowering plants; includes a survey of selected flowering plant families with information on their interrelationships. Prerequisite: One of the following: IB 100, IB 101, IB 102, IB 103, or IB 150; consent of the instructor.

IB 348 Fish and Wildlife Ecology credit: 3 Hours.
Same as NRES 348. See NRES 348.

IB 360 Evolution and Human Health credit: 3 Hours.
Our health is inseparably tied to our evolutionary history. As a result, evolution is an important underpinning discipline for health professionals. This course first provides an overview of evolutionary processes, molecular evolution, human evolution, life history theory, and evolutionary-developmental biology. Second, it illustrates the application of these principles to our understanding of nutrition and metabolism, reproduction, disease and stress, and behavior. Third, it shows in practical terms how the principles of evolutionary medicine can be applied in medical practice and public health. Same as ANTH 360. Prerequisite: IB 302 or MCB 250 or MCB 244, or consent of instructor.

IB 361 Ecology and Human Health credit: 3 Hours.
Exploration of the emergence of infectious diseases and other human health issues from an ecological perspective, including vector-borne diseases, diseases spread from wildlife in terrestrial and aquatic ecosystems, and the role of pathogens and parasites in community and population ecology, food webs, and ecosystem functioning. Attention will be placed on how current and future global change and biodiversity loss will contribute to the increasing prevalence of human emerging diseases. Same as ANTH 361. Prerequisite: IB 203 or consent of instructor.

IB 364 Genomics and Human Health credit: 3 Hours.
Highlights advances in understanding the human genome, by utilizing the latest techniques in bioinformatics, i.e. acquiring, analyzing, storing, and displaying the information from the entire genome and protein sequences. The course describes the theory and practices behind modern sequencing techniques and explores the genome with a particular emphasis on the use of extensive online databases and software. Students will analyze one human disorder using bioinformatics software and databases in order to update older published literature about the genomics underpinning the disorder. Prerequisite: IB 204 or consent of instructor.

IB 368 Vertebrate Natural History credit: 4 Hours.
Introduction to the classification, life histories, adaptations, and ecology of fishes, amphibians, reptiles, birds, and mammals. Focus is on species of the Midwest region. Laboratory emphasizes identification and distribution of Illinois’ vertebrate fauna. Some Saturday field trips are required. Same as NRES 368. Prerequisite: IB 203 or NRES 219 or consent of instructor.

IB 372 Ecology and Evolution credit: 5 Hours.
Integrated study of ecology, population genetics, and evolution. Conceptual themes and techniques from the molecular, cellular, and organismal levels of biology will be integrated as well. Lecture, laboratory, and field work. Credit is not given for both IB 372 and either IB 302 or IB 303. Prerequisite: IB 271; good standing in the IB honors biology option.

IB 390 Introductory Research credit: 1 to 5 Hours.
Laboratory and/or field research and/or reading supervised by faculty members in the School of Integrative Biology. Approved for S/U grading only. May be repeated. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor.

Information listed in this catalog is current as of 03/2017
IB 401 Introduction to Entomology  credit: 3 or 4 Hours.
Integrated studies of the principal morphological, physiological, ecological and behavioral relationships among insects. Lecture and laboratory. 3 or 4 undergraduate hours. 3 or 4 graduate hours. An insect collection will be required for 4 hours credit. Prerequisite: IB 150; or consent of instructor.

IB 405 Ecological Genetics  credit: 3 Hours.
Study of the genetics of natural populations, stressing empirical observations and experiments. Emphasis on recent theories of genotype/environmental interactions and their relationship to evolutionary processes. Offered in alternate years. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 204; or consent of instructor.

IB 411 Bioinspiration  credit: 3 Hours.
Focuses on how experts in biology and technological fields find inspiration in nature and use it as a model to make technological innovations and solve societal problems. In the future, our day-to-day living, health, and the environment will benefit from interdisciplinary teams using findings in basic biological research for technological innovation. Topics to be explored include human health, efficient architecture, cooperative control, robotics, swarm logic, and advanced biological materials. 3 undergraduate hours. 3 graduate hours.

IB 416 Population Genetics  credit: 3 or 4 Hours.
Same as ANSC 446. See ANSC 446.

IB 420 Plant Physiology  credit: 3 Hours.
General course concerned with plant functions, including water relations, mineral nutrition, metabolism, growth, and reproduction. Same as CPSC 484. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103 or IB 150 and MCB 150; CHEM 232; IB 202 recommended; or consent of instructor.

IB 421 Photosynthesis  credit: 3 Hours.
Comprehensive description of photosynthesis. Topics include: the photosynthetic membranes, light absorption, electron and proton transfer, photophosphorylation, water oxidation, RUBP carboxylase/oxygenase, photospiration, whole plant photosynthesis, gas exchange and atmospheric interactions, and impacts of global environmental change. Same as BIOP 432 and CPSC 489. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 420, MCB 354, MCB 450, BIOP 401, or equivalent; or consent of instructor.

IB 426 Env and Evol Phys of Animals  credit: 3 Hours.
Physiological adaptations of invertebrate and vertebrate animals to diverse aquatic and terrestrial environments and the extreme habitats embodied therein. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 150; IB 202; CHEM 232; or consent of instructor.

IB 427 Insect Physiology  credit: 4 Hours.
The principal physiological and biochemical functions of insects. Lecture and laboratory. Offered in alternate years. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 202 and IB 401; or consent of instructor.

IB 430 Animal Behavior Lab  credit: 3 Hours.
Inquiry-driven laboratory course in animal behavior. Students work in groups to generate hypotheses, design experiments, collect and analyze data, and write up their results. Experiments will be carried out in both the field and lab. Discussions emphasize the scientific process, including hypothesis testing, and experimental design and statistics. 3 undergraduate hours. No graduate credit. Prerequisite: IB 329. For majors only.

IB 431 Behavioral Ecology  credit: 3 Hours.
In-depth examination of areas of current interest at the interface of behavior, ecology, and evolution; focuses on communication, foraging, and social behavior. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 329; or consent of instructor.

IB 432 Genes and Behavior  credit: 3 Hours.
Concepts, methods, and problems in the analysis of the relationship between genes and behavior, the complex neurobiological processes that mediate action on behavior, in appropriate ecological and evolutionary contexts. Same as ANTH 432, NEUR 432, and PSYC 432. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 and IB 204; or consent of instructor.

IB 433 Comparative Vertebrate Anatomy  credit: 5 Hours.
Comparative structure, evolution, and classification of chordate animals emphasizing vertebrates. Strong attention to relationships of fossils to present animals. Function of parts, their evolution, and some developmental aspects. Lab involves dissection of vertebrates. Lecture and Laboratory. Same as ANTH 434. 5 undergraduate hours. 5 graduate hours. Prerequisite: IB 202, IB 302, or consent of instructor.

IB 434 Physical Principles in Biology  credit: 3 Hours.
Examines the interaction between biological processes and the fundamental laws of mechanics. Covers general topics, such as structural analyses of anatomy, kinematics of movement, the behavior of organisms in fluids, and the importance of scaling, as well as specific topics, such as bird flight, fluid flow in cardio-vascular systems, and high speed predation. Lab culminates in student-designed, group projects to collect novel biomechanical data to answer questions about the organism of the students' choice. 3 undergraduate hours. No graduate credit. Prerequisite: IB 202 or consent of instructor; Physics 101 is recommended.

IB 439 Biogeography  credit: 3 Hours.
Spatial and temporal patterns of biological diversity and the factors that govern the distribution and abundance of taxa. This course addresses two of its subfields: historical biogeography - the origin, dispersal, and extinction of taxa and biotas; and ecological biogeography - the role physical and biotic environments have played in determining taxonomic distributions. Also explores the ecological, evolutionary, climatological, and paleontological foundations for the distribution of species and biological communities. Includes a review of many of the field's classical papers, the current synthesis of biogeographic theory, and the relevance of biogeography to modern conservation goals. Offered in alternate years. Same as ANTH 436, ESE 439, GEOG 436, and NRES 441. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 or other introductory biology course, or consent of instructor.

IB 440 Plants and Global Change  credit: 3 Hours.
Same as CPSC 431 and NRES 431. See CPSC 431.

IB 442 Evolution of Infectious Disease  credit: 3 Hours.
Same as MCB 435. See MCB 435.

IB 443 Evolutionary Ecology  credit: 3 Hours.
Emphasizes the evolution of life-history strategies in plants and animals (reproductive rates, life cycles, sex ratios, breeding and mating systems) and the coevolution of animals and plants (pollination, dispersal, and herbivory). 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 203 or equivalent; IB 302; or consent of instructor.
IB 444  Insect Ecology  credit: 3 or 4 Hours.
Discussion of the practical and theoretical aspects of ecology in relation to insects as individuals, populations, and communities; emphasis on the role of insects in the environment. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Offered in alternate years. Lecture only, 3 hours; with laboratory, 4 hours. Prerequisite: IB 150 and MCB 150 or consent of instructor.

IB 447  Field Ecology  credit: 1 Hour.
Study of habitats in various sections of North America during spring vacation or intersession. Outdoor cooking and camping; transportation in University cars. Additional fees may apply. See Class Schedule. 1 undergraduate hour. 1 graduate hour. May be repeated to a maximum of 3 hours. Prerequisite: IB 203; or consent of instructor.

IB 449  Limnology  credit: 3 or 4 Hours.
Fresh water biology; study of the lake, pond, and river with emphasis on the physical environment as well as on the plants and animals which live in fresh water. Lectures, discussions, laboratory, and field work. Students must complete the laboratory portion of the course to receive 4 hours of credit. Offered in alternate years. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IB 203 or consent of instructor.

IB 450  Stream Ecology  credit: 3 or 4 Hours.
Same as CEE 432. See CEE 432.

IB 451  Conservation Biology  credit: 4 Hours.
Synthesis of conservation biology with an emphasis on the preservation of biological diversity and its evolutionary potential. Laboratory includes an introduction to the use of modern molecular techniques in conservation biology, computer simulation modeling, and field conservation problem solving. Same as CPSC 436 and ENV 420. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 203 or consent of instructor.

IB 452  Ecosystem Ecology  credit: 3 Hours.
Distribution and structure of ecosystems on earth; integration of multiple disciplines to gain a holistic view of ecosystem function; ecosystem concepts as they apply to understand natural and anthropogenic environmental change. Offered in alternate years. Same as ESE 452 and NRES 462. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 102 and CHEM 104; or consent of instructor.

IB 453  Community Ecology  credit: 3 Hours.
The direct and indirect interactions among species that determine the structure and composition of plant and animal communities. Emphasis will be on the maintenance of species diversity and its consequences at both local and regional scales. Offered in alternate years. Same as NRES 452. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 203 or consent of instructor.

IB 454  Ornithology  credit: 4 Hours.
Identification of birds. Lecture/discussions, laboratory and field work. The laboratory includes vertebrate dissection. Same as NRES 442. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 202 and IB 203; or consent of instructor.

IB 461  Ichthyology  credit: 4 Hours.
Classification, anatomy, ecology, behavior, distribution, and evolution of fishes of the world. Emphasis is on morphological, ecological, and behavioral diversification of fishes in a phylogenetic context. Laboratory devoted to anatomy and identification. Same as NRES 463. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 302; or consent of instructor.

IB 464  Herpetology  credit: 4 Hours.
Classification, diversity, structure, function, ecology, behavior and evolution of amphibians and reptiles. Laboratory devoted to anatomy and identification. Offered in alternate years. Same as NRES 464. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 302; or consent of instructor.

IB 465  Principles of Systematics  credit: 4 Hours.
Comprehensive survey of the theory and methodology of systematics as they are applied today to all groups of organisms, with a practical experience in the acquisition and analysis of systematic data. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 401 or consent of instructor.

IB 468  Insect Classification and Evolution  credit: 4 Hours.
Classification, anatomy, ecology, behavior, distribution, and evolution of insects. Laboratory devoted to anatomy and identification. Offered in alternate years. Same as CPSC 466. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 302 and IB 335 or IB 468; or consent of instructor.

IB 469  Principles of Molecular Biology  credit: 4 Hours.
In-depth study of the molecular basis of life with emphasis on the application of molecular techniques to the analysis and understanding of biological systems. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 150 and MCB 150; IB 302 recommended; or consent of instructor.

IB 470  Plant Molecular Biology  credit: 1 Hour.
The basic concepts and methodologies of measuring plant gene expression and gene product activity and constructing transgenic plants are presented and discussed. Serves as a gateway to specialized methodology approaches covered in IB 473, IB 474, and IB 475. Same as CPSC 462. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 and IB 204; or consent of instructor.

IB 471  General Mycology  credit: 4 Hours.
Structure, classification, and identification of fungi, including those of economic importance. Offered in alternate years. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 150 and MCB 150; IB 302 recommended; or consent of instructor.

IB 472  Plant Genomics  credit: 1 Hour.
Provides broad overview of structural and functional genomics, including genetic and physical mapping, whole genome sequencing, comparative genomic analysis, evolution of gene families and repetitive sequences, genome-wide expression analysis. Emphasis on structural and comparative genomics with brief introduction to functional genomics and bioinformatics. Same as CPSC 467. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 and IB 204; or consent of instructor.

IB 473  Plant Proteomics-Metabolomics  credit: 2 Hours.
Broad introduction to plant proteomics and metabolomics, including a survey of contemporary methods and their applications for protein and metabolite identifications. Proteomics will include the study of posttranslational modifications and protein-protein interactions. Metabolomics will introduce the complexities on pathway tracing and elucidation. The focus of the course is on the application of proteomic-metabolomic approaches to answer biological questions. Tours of proteomic and metabolomic facilities will occur. Same as CPSC 468. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 354; IB 472; or consent of instructor.

IB 477  Genomics for Plant Improvement  credit: 2 Hours.
Same as CPSC 466. See CPSC 466.
IB 478  Advanced Plant Genetics  credit: 3 Hours.
Same as CPSC 452. See CPSC 452.

IB 481  Vector-borne Diseases  credit: 4 Hours.
Study of the major groups of arthropods and associated pathogens that affect the health and well-being of humans and other animals. Training will include ecology, evolutionary biology, and epidemiology of vector-borne diseases; taxonomy and identification of vector arthropods; practical skills in molecular and mathematical biology, spatial analysis and field research. Lecture will make use of technology-enhanced classroom for group-based active learning exercises to address critical challenges in vector-borne disease control. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 361 or IB 401 or consent of instructor.

IB 482  Insect Pest Management  credit: 3 Hours.
The principles underlying the control of important insect pests of agriculture and of human and animal health; emphasis on integrated pest management involving a systems approach which combines biological, cultural, and chemical suppressive factors into ecologically sound and socially and economically acceptable technology. Lecture and laboratory. Same as CPSC 479. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 150 or equivalent; or consent of department.

IB 483  Insect Pathology  credit: 3 Hours.
The general principles of pathology as they apply to insects; includes non-infectious and infectious diseases caused by viruses, bacteria, fungi, protozoa, and nematodes. Studies the epizootiology of naturally occurring insect disease and the use of insect pathogens as microbial control agents. Same as CPSC 475. 3 undergraduate hours. 3 graduate hours. Lecture in alternate years. Prerequisite: IB 150 or equivalent; or consent of instructor.

IB 484  Paleoclimatology  credit: 4 Hours.
Same as GEOL 484. See GEOL 484.

IB 485  Environ Toxicology & Health  credit: 3 Hours.
Explores toxicological, environmental, public health, occupational and ecological aspects of the use and release of toxic substances in the environment; features case histories of environmental contamination that illustrate ecological, health, and social aspects of pollution; emphasizes biochemical mechanisms and ecosystem consequences. Same as CHLH 461 and ENVS 431. 3 undergraduate hours. 3 graduate hours. Lecture in alternate years. Prerequisite: A college chemistry course and a college biology course; or consent of instructor.

IB 486  Pesticide Toxicology  credit: 3 or 4 Hours.
Examines the biological effects of major classes of insecticides and herbicides, and of selected individual fungicides, including: toxicity to nontarget organisms, persistence and fate in the environment, biotransformation, and ecological consequences. Current regulations on pesticide testing will also be presented. The mechanism of action on target species will be discussed only in relation to effects on nontarget organisms. Same as CB 434 and ENVS 433. 3 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: One year of college chemistry and one year of college biology; or consent of instructor.

IB 487  Math Modeling in Life Sciences  credit: 3 or 4 Hours.
Same as ANSC 448 and STAT 458. See ANSC 448.

IB 488  Environmental Stable Isotopes  credit: 3 Hours.
Stable isotopes are powerful tools for studying environmental processes, acting as tracers of resource origin, fate, and flux and integrators of system processes. The goal of this course is to provide a fundamental knowledge base and hands-on training for students to become practitioners of natural abundance and enriched stable isotope techniques. The course will focus on stable isotopes of biologically-relevant light elements (C, H, N, O, S). We will also review case studies demonstrating application of these techniques to disciplines including anthropology, animal, insect, and plant biology, biogeochemistry, biometeorology, ecosystem ecology, forensics, microbial ecology, paleoclimatology, and paleoecology. Offered in alternate years. Same as ATMS 422, GEOL 488, and NRES 478. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: CHEM 104 or equivalent; or consent of instructor.

IB 489  Undergraduate Research Abroad  credit: 1 to 4 Hours.
Students assist in research under University of Illinois faculty supervision at a location outside of the United States. Topics and type of assistance vary. 1 to 4 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of UI faculty member supervising the work (who will have examined the proposed research plan); and approval of the school. Not available to freshman.

IB 490  Independent Study  credit: 1 to 5 Hours.
Laboratory and/or field research supervised by faculty members in the School of Integrative Biology. A written report is required. 1 to 5 undergraduate hours. No graduate credit. May be repeated. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor.

IB 491  Biological Modeling  credit: 3 or 4 Hours.
Same as ANSC 449, CPSC 448, and GEOG 468. See GEOG 468.

IB 492  Science Communication Skills  credit: 2 Hours.
A successful career in scientific research, teaching and service requires tools and skills for communicating research. Students interested in going into science careers need to know how to write a competitive graduate school or job application, a thesis proposal for graduate research, a fellowship or grant proposal, and how to give a good scientific presentation. This course is designed to teach students these skills with targeted in and out of class exercises. 2 undergraduate hours. No graduate credit. Prerequisite: IB 203 or IB 271; AND one of the following: IB 299, IB 390, IB 490, or consent of instructor. Junior IB majors only.

IB 494  Theoretical Biology + Models  credit: 4 Hours.
Biologists are increasingly using mathematical and computer-based models to complement fieldwork and experimental data. These models provide a context in which to understand and answer existing questions, and also lead us to new questions and new insights. Students will encode biological mechanisms into mathematical models, develop the skills to find solutions to these models and relate them to biological data, and analyze and discuss relevant primary literature. Examples will be drawn largely from ecology and evolutionary biology. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or MATH 221; Introductory courses in Ecology and Evolution.

IB 495  Philosophy of Biology  credit: 3 or 4 Hours.
Same as PHIL 473. See PHIL 473.
Integrative Biology Concentration

For the Degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: sib@illinois.edu

The Integrative Biology Concentration provides students with a solid preparation in genetics, evolution, anatomy, physiology, ecology, and molecular biology. After completion of the foundational 100- and core 200-300-level courses in IB, students complete the required advanced coursework by taking a variety of IB and other courses or focusing on a limited area of IB. Plans for the student’s combination of advanced courses are developed in consultation with an adviser.

All undergraduates in this field are required to have a strong background in the biological and physical sciences. Students who do not begin mathematics, chemistry, and biology in their freshman year generally will be at a disadvantage.

Students pursuing a degree in Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

Minimum Required Courses normally equate to 66-76 hours.

General Education: Students must complete the Campus General Education requirements including the campus general education language requirement.

Minimum Hours Required for Graduation: 120 hours

Integrative Biology Distinction: To be eligible for distinction a student must graduate with a grade-point average of at least 3.25 and submit a report of an independent student project (IB 490) about two months prior to graduation for approval by the Integrative Biology Distinction Committee. For additional information visit: http://sib.illinois.edu/undergraduate/distinction

Minimum required courses normally equate to 80-91 hours.

E-mail: honors@sib.illinois.edu (ibhonors@life.illinois.edu)

Integrative Biology Honors Concentration

For the Degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

Integrative Biology Honors is designed for superior students wishing to pursue an intensive program in integrative biology and, concurrently, to gain a strong background in the physical sciences and mathematics. Admission is by interview in spring of the freshman year prior to registration for fall. An overall 3.0 GPA is required to apply for admission. Integrative Biology Honors provides preparation suitable for graduate and professional training in biology, as well as for biology careers in the private and public sectors.

E-mail: honors@sib.illinois.edu (ibhonors@life.illinois.edu)

Minimum required courses normally equate to 80-91 hours.
Students earning the Integrative Biology Honors Concentration will also earn the Chemistry minor.

Students pursuing a degree in Integrative Biology Honors will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Integrative Biology Honors will not be allowed to double major in Molecular and Cellular Biology.

General education: Students must complete the Campus General Education requirements (https://courses.illinois.edu) including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

No more than 8 hours of credit in 100-level courses in IB or MCB may be counted toward graduation.

Students may count toward graduation no more than a combined maximum of 10 hours of IB 390 and IB 490 credit offered for independent study.

Substitutions or other changes in the requirements below may be made only by petition to and approval of the director of the Integrative Biology Honors Concentration.

Minimum hours required for graduation: 120 hours

Departmental distinction: Candidates for distinction must:

1. Consult with an IB Honors adviser no later than the beginning of their junior year to discuss their proposed research plan.
2. Have a minimum GPA of 3.25 when applying for distinction.
3. Present an acceptable written report on the research to the Integrative Biology Distinction Committee about two months prior to graduation. The research must have been an in-depth experience and produced substantial results to be considered eligible for distinction. Additional details on requirements, procedures, and deadlines are available at sib.illinois.edu/undergraduate/distinction.

Students must consult with their Integrative Biology honors adviser at least once each semester.

IB 150 Organismal & Evolutionary Biol 4
MCB 150 Molec & Cellular Basis of Life 4
IB 270 Evolution of Molecules & Cells 5
IB 271 Organismal Biology 5
IB 372 Ecology and Evolution 1 5
MATH 220 Calculus (Biocalculus section) 4-5
or MATH 221 Calculus I 4
MATH 231 Calculus II 2 3-4
or IB 494 Theoretical Biology + Models 3-4
Select one group of courses: 8-10

CHEM 202 Accelerated Chemistry I
CHEM 203 Accelerated Chemistry Lab I
CHEM 204 Accelerated Chemistry II
CHEM 205 Accelerated Chemistry Lab II
OR
CHEM 102 General Chemistry I 3
CHEM 103 General Chemistry Lab I

Select one group of courses:

CHEM 104 General Chemistry II
CHEM 105 General Chemistry Lab II

Select one group of courses:

CHEM 236 Fundamental Organic Chem I
CHEM 237 Structure and Synthesis
OR
CHEM 232 Elementary Organic Chemistry I
CHEM 233 Elementary Organic Chem Lab I
At least six hours of advanced courses in Chemistry 4 6-8
MCB 450 Introductory Biochemistry 3
Select one group of courses 8-13

PHYS 211 University Physics: Mechanics
PHYS 212 University Physics: Elec & Mag
OR
PHYS 101 College Physics: Mech & Heat
PHYS 102 College Physics: E&M & Modern
An approved 300- or 400-level course that includes physical/math principles 5
An approved 300- or 400-level course in statistics 6 3
IB 490 Independent Study (2 semesters) 7 6
300- or 400-level courses in the biological sciences 10

1 Continuation in the Integrative Biology Honors Concentration requires a grade of B or better in each of IB 270, IB 271, and IB 372 and a 3.0 overall cumulative GPA.
2 If IB 494 is taken instead of MATH 231, it will not count towards the requirement of 10 hours of 300- or 400-level courses in the biological sciences.
3 Introductory chemistry should be completed prior to enrolling in IB 270.
4 Recommended courses are: CHEM 312, CHEM 332, CHEM 360, CHEM 437, CHEM 440. Students should discuss alternate choices with the IB advising office. To earn the Chemistry minor students must choose 3 or 4 hour Chemistry courses, excluding research or independent study.
5 Recommended courses are: ATMS 421, ANSC 448, MCB 432 or IBH Director approved.
6 NRES 421 is recommended. Other suitable courses are CPSC 440 or STAT 400.
7 Independent study equivalent to IB 490 in non-IB programs must first be approved by Director of IBH Concentration.

Minor in Ecology and Conservation Biology

The minor, administered by the School of Integrative Biology, is designed for students interested in gaining strength in this subdiscipline of biology. Preparation for many careers is advanced by coursework in ecology and conservation, e.g. environmental lawyer, environmental consultant, conservation technician, environmental educator, and environmental engineer.

Students must contact an SIB advisor for acceptance into the minor. Web address for School advising information: sib.illinois.edu/undergraduate/advising

IB 150 Organismal & Evolutionary Biol 4
IB 203 Ecology 4

Information listed in this catalog is current as of 03/2017
Minor in Integrative Biology

The minor, administered by the School of Integrative Biology, is designed for students intending to have a career in a field other than biology, but for whom a background in biology is nevertheless complementary, e.g. law, technology, bioinformatics, business, scientific writing, and engineering. A minor in integrative biology provides an understanding of fundamental principles for one major subdiscipline of biology, whether this be organismal and evolutionary biology; behavior, ecology and the environment; or integrative anatomy, physiology, and molecular biology.

Students must contact an SIB advisor for acceptance into the minor.

Web address for School advising information: sib.illinois.edu/undergraduate/advising

Two additional courses at the 300 or 400 level (3-4 hours, some 5 hours) selected from the IB Area Courses. The prerequisite course(s) must be taken if specified by an advanced course. (http://sib.illinois.edu/courses/area) 6-8

Total Hours 16-20

Other possible combinations of courses are possible for the Integrative Biology minor, if an SIB advisor approves the combination.

Interdisciplinary Studies

Interdisciplinary Studies Majors

Departments in the College of Liberal Arts and Sciences, in addition to their own disciplinary majors, have developed and sponsor an interdisciplinary program of study, which encompasses several distinct programs designed to acquaint students in a coherent manner with topics that cross disciplinary boundaries. Administered by the College of Liberal Arts and Sciences, the interdisciplinary studies major includes program concentrations in American Civilization, Jewish Studies, Medieval Studies, and Renaissance Studies. Although it is not possible to offer concentrations in all specialties or topics of humanistic study, students whose interests do not coincide with one of the specific concentrations are encouraged to consider developing their own programs through the Individual Plans of Study (IPS) major. Enrollment in the major in interdisciplinary studies requires election of one of the concentrations. The College of Liberal Arts and Sciences also sponsors an Interdisciplinary Minor in Science and Technology in Society.

Each concentration of the major in interdisciplinary studies is supervised by faculty members whose own scholarship and educational interests have involved them in interdisciplinary teaching and research. An advisor for students is available in each concentration and is responsible for approving students’ plans of study.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

Minimum required major and supporting course work equates to 45-51 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum hours required for graduation: 120 hours

Departmental distinction. To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of “distinction” by a committee of at least two faculty members.

High distinction. To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of “high distinction” by a committee of at least two faculty members.

Requirements for the Major

Elect one of the concentrations offered within the major and file a concentration declaration with the LAS Student Academic Affairs Office no later than the end of the first semester of the junior year. Students who do not begin work on concentration requirements by the junior year will be at a disadvantage.

Select specific courses counted toward completion of a concentration with the advice and approval of the concentration advisor, subject to specific concentration requirements. Students are strongly encouraged also to enroll in 6-7 hours of Western civilization (HIST 140 or HIST 141 and HIST 142 or HIST 143, or CWL 241 and CWL 242).

For the elected concentration, complete the stated minimum number of hours in courses applicable toward the major and in accord with the
distribution requirements listed below; at least 25 hours must be at the 200,300 or 400 level.

- American Civilization Concentration (p. 454)
- Jewish Studies Concentration (p. 455)
- Medieval Studies Concentration (p. 455)
- Renaissance Studies Concentration (p. 456)

**Minor in Science and Technology in Society**

The Interdisciplinary Minor in Science and Technology in Society requires students to integrate and synthesize a wide variety of materials. Students will enrich their experiences in diverse disciplines with a substantive engagement with science studies. Required courses in the minor emphasize critical and creative thinking and many courses require substantial writing and research. This minor is administered by the LAS Student Academic Affairs Office.

All courses must be selected in consultation with the adviser from the list of courses approved for the minor. No more than 3 hours of course work may be 100-level. Students must maintain a 3.0 GPA in course work in the minor.

**Other**

GWS 490 Individual Study (when appropriate) 2-4

**Courses**

**LAS 100 Success in LAS for International Students** credit: 2 Hours.

 Prepares international students for their transition to campus by examining expectations and focusing on the purpose and value of the higher education experience from a US perspective. Introduces critical concepts to know about academic programs, and engages students in planning their program of study as well as their personal and professional development. Serves as a complement to LAS 101/LAS 102/LAS 122 for students new to the US education system.

**LAS 101 Freshman Seminar** credit: 1 Hour.

Orientation seminar for first-year students enrolled in LAS curricula. Prepares students for collaborative learning environments through campus orientation, study skills, and project-based assignments. Introduces students to the multiple perspectives represented by the Humanities, the Social Sciences, and the Physical and Life Sciences, and helps them appreciate the strengths and weaknesses of both qualitative and quantitative data in addressing real world problems. Prerequisite: Restricted to first-year students in LAS.

**LAS 102 Transfer Advantage** credit: 1 Hour.

Introduction for first-term transfer students to the college and campus. Familiarizes transfer student with the resources available to them and helps them connect with other students and form a bond with the college. Prerequisite: For first-term LAS transfer students only.

**LAS 110 Workshop-Tutorial** credit: 0 to 4 Hours.

Independent study and experimental seminars open to Unit One students and to others; specific offerings vary each term. Approved for letter and S/U grading. May be repeated if topics vary. Credit toward college or departmental requirements is contingent upon approval by the appropriate unit. A total of 12 hours of LAS 110 credit may be applied toward graduation in the College of Liberal Arts and Sciences. Prerequisite: Unit One students or consent of Unit One Director.

**LAS 122 Leadership and Society** credit: 1 Hour.

Engages first-year LAS honors students in the realms of citizenship, stewardship and leadership for the 21st century. En route to becoming competent and agile learners, first-year honors students experience an orientation to Illinois that fosters greater awareness and knowledge of campus resources and an examination of scholarly and personal leadership, global issues, and civic engagement. The course serves as a means for students to enhance their independence, cultural awareness and connection to community. Students work with a small cohort of peer scholars in a one-hour weekly graded session led by an upper-level LAS James Scholar peer mentor. Students are expected to work together and individually on projects involving community partners and campus groups. Assignments will incorporate the concept of service in connection with civic engagement.

**LAS 199 Undergraduate Open Seminar** credit: 0 to 5 Hours.

Topics will vary. See class schedule. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated.

Information listed in this catalog is current as of 03/2017
American Civilization Concentration

This concentration offers a comprehensive introduction to the study of American civilization primarily through the study of art, history, literature, philosophy, and the social sciences.

Two introductory courses chosen with the approval of the concentration advisor; the introductory courses should provide a broad overview of the development of American culture; for example, HUM 141 and HUM 142.

Select in consultation with the concentration advisor from courses offered in the departments of anthropology, economics, geography, political science, and sociology.

HUM 397 | Special Topics Junior (An advanced-level course with an American focus may be substituted with the approval of the advisor.) | |

Substitutions for any of the above specific courses may be permitted with the approval of the concentration advisor only in exceptional cases.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.
**Jewish Studies Concentration**
*For the Degree of Bachelor of Arts in Liberal Arts and Sciences*

**Major in Sciences and Letters Curriculum**
Minimum required major and supporting course work equates to 45-51 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

All substitutions must be approved by the Advisor in the Program in Jewish Culture and Society Office (http://www.jewishculture.illinois.edu/academics/major). Substitution for specific courses listed will be approved by the concentration advisor only in exceptional cases.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction. To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of "distinction" by a committee of at least two faculty members.

High distinction. To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of "high distinction" by a committee of at least two faculty members.

The Program in Jewish Culture & Society (http://www.jewishculture.illinois.edu/academics/major) sponsors this concentration.

This concentration provides the student with knowledge of the Hebrew language, the opportunity to begin a study of Yiddish, and a broad appreciation of Jewish religion, culture, and history.

**JS 199** Undergraduate Open Seminar (An Independent Study experience to be arranged with a Jewish Studies affiliated faculty member)

**Hebrew and/or Yiddish language courses, including:**

This concentration introduces students to medieval (ca. 500- ca. 1500 CE) cultures across the world, providing them with an understanding of periods and movements, institutions, material culture, ideas, beliefs, and values of the diverse cultures that comprise the medieval globe. The coursework spans both geographic regions and disciplines to introduce students to the breadth of medieval cultures as well as to the diversity of methods and perspectives for their study.

The concentration includes a minimum of 45 hours, divided into (I) an introductory course in global medieval literatures and cultures; (II) geographical distribution coursework as specified below; (III) advanced medieval coursework selected by the student in consultation with...
a Medieval Studies faculty advisor; and (IV) a capstone experience involving an intensive writing and research project. Because Medieval Studies is an interdisciplinary field of study, students are urged to consult with a Medieval Studies faculty advisor to ensure that they take a diverse range of courses providing some exposure to the fields of History and Anthropology; Literature; the Arts; and Philosophy or Religion. Although study of medieval languages is not a requirement, students who intend to pursue graduate study in Medieval Studies should complete at least two courses in an appropriate language; up to twelve hours of appropriate language study can be applied to the Additional Medieval Studies Coursework.

**Additional Medieval Studies Coursework**

Medieval-related coursework from participating departments selected in consultation with the concentration advisor. At least 12 hours must be at the 300- or 400-level. A list of courses in Medieval Studies is maintained on the Medieval Studies Program website. Up to 12 hours of appropriate language study can be applied to meet this requirement with approval of a Medieval Studies faculty advisor.

**Capstone Experience**

A capstone experience (normally in the student’s senior year) involving intensive interdisciplinary research and writing on a medieval topic. Any 400-level MDVL course (or medieval-related course not cross-listed with MDVL, with the approval of a Medieval Studies faculty advisor) can be designated as a capstone experience with approval of the instructor. For the course to qualify as a capstone experience, the student must undertake a substantial research project that supplements the standard course requirements, in the form either of an additional project or of a longer and more research-intensive version of an existing course project. The project must involve both primary and secondary research using advanced disciplinary methodologies and resources.

**Renaissance Studies Concentration**

This concentration incorporates course work in the Renaissance and related periods and places an emphasis on independent study and the completion of research papers in the junior and senior years.

**Note:** Students must acquire a reading knowledge of a variable foreign language relevant to their interests in Renaissance study, selected in consultation with the concentration advisor. These hours will not count towards the minimum of 45 hours required for this concentration.

Renaissance-related course work in a single discipline at the 200 to 400 level from among the following: art, history, literature, or music.

Renaissance-related course work in the following areas with at least one course in each: art, history, music, philosophy, and literature. At least one of these courses must be in classical literature or culture.

Substitution for specific courses listed above will be approved by the concentration advisor only in exceptional cases.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

## Jewish Culture and Society, Program in

Brett Kaplan, Interim Director
608 South Wright Street, Urbana, Illinois 61801
PH: 217-333-7978
http://jewishculture.illinois.edu

### Interdisciplinary Minor in Jewish Culture and Society

The Program in Jewish Culture and Society offers an interdisciplinary minor and a concentration in Jewish Studies (through the LAS Interdisciplinary Studies Major (p. 455)).

E-mail: jewishculture@illinois.edu

One course in the cluster of Religion, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.

One course in the cluster of Culture, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.

One course in the cluster of History, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.

Electives within the minor. Students may choose additional courses from any of the three clusters or can choose from the following language courses:

- **HEBR 199** Undergraduate Open Seminar
- **HEBR 205** Intensive Biblical Hebrew
- **HEBR 403** Intermediate Modern Hebrew I
- **HEBR 404** Intermediate Modern Hebrew II
- **HEBR 405** Advanced Modern Hebrew
- **HEBR 406** Advanced Modern Hebrew
- **HEBR 407** Topics Hebrew Lang & Lit I
- **HEBR 408** Topics Hebrew Lang & Lit II
- **YDSH 103** Intermediate Yiddish I
- **YDSH 104** Intermediate Yiddish II

**Total Hours**: 18

Of the 18 required hours, two courses (6 hours) must be 300- or 400-level courses. HEBR 403 and HEBR 404 cannot be used to satisfy LAS Advanced Hours requirement (http://www.las.illinois.edu/students/requirements/minimum) or the 6 hours of 300- or 400-level courses for the Jewish Culture and Society Interdisciplinary Minor.

No more than 6 hours (two courses) may be at the 100 level.

The 18 hours selected by students for a minor in Jewish Culture and Society should form a coherent program and must be approved by the undergraduate advisor for the Program in Jewish Culture and Society.

A list of courses, regularly updated by the Program in Jewish Culture and Society, is available from the Program Office, 109 English Bldg., 608 South Wright Street, Urbana, Illinois, 61801.

JS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JS)

### Courses

- **JS 108** Religion & Society in West I credit: 3 Hours.
  This course satisfies the General Education Criteria for:
  UIUC: HistPhilosoph Perspect
  UIUC: Western Compartv Cult

- **JS 199** Undergraduate Open Seminar credit: 1 to 5 Hours.
  Faculty offer seminars in a range of areas that provide an opportunity for undergraduates to be exposed to key dimensions of Jewish Studies. May be repeated in the same or separate terms to a maximum of 10 hours.

- **JS 201** History of Antisemitism credit: 3 Hours.
  Studies the negative representations of Judaism and Jews from antiquity to the modern world. Topics include: Greco-Roman concepts of the Jewish religion; medieval Christian symbolization of the demonic Jew; Jews and negative attitudes to capitalism; blood purity and blood libel; the rise of racial prejudice in the modern nation state; totalitarianism and genocide; antisemitism and anti-Zionism. Same as REL 212.

- **JS 209** Jewish American Literature credit: 3 Hours.
  Using a combination of careful reading with historical contextualization we will discuss how the field of Jewish American literature emerged, and get a sense of where it might be heading. We will address topics such as what makes a literary work Jewish American other than the Jewishness of its author; in what ways the field of Jewish American literature has changed over time; and what might be the underlying trends/themes of this field of literature. Same as CWL 209 and ENGL 222.

- **JS 211** War & Peace in Israeli Lit credit: 3 Hours.
  Same as CWL 211 and SAME 211. See CWL 211.

- **JS 220** Jewish Storytelling credit: 3 Hours.
  Same as CWL 221, ENGL 223, REL 220, and YDSH 220. See YDSH 220.
  This course satisfies the General Education Criteria for:
  UIUC: Literature and the Arts
  UIUC: Western Compartv Cult

- **JS 252** The Holocaust credit: 3 Hours.
  Same as HIST 252. See HIST 252.
  This course satisfies the General Education Criteria for:
  UIUC: HistPhilosoph Perspect
  UIUC: Western Compartv Cult

Information listed in this catalog is current as of 03/2017
JS 300  Jewish Chicago  credit: 3 Hours.
The history of Jewish Chicago from 1820 to the present will be taught in Chicago during Summer I. The class includes excursions all over the city as well as class time at the Newberry Library. Topics of study include immigration, Jews in the labor movement, Jewish political activism, Jewish religious practice, Jewish art, literature, and Yiddish theater. The course will contextualize our study of Jewish Chicago in terms of American history, urban history, gender history, and labor history.

JS 320  Lit Responses to the Holocaust  credit: 3 Hours.
Same as CWL 230, ENGL 359, REL 320, and YDSH 320. See YDSH 320. This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

JS 335  Middle East 1566-1914  credit: 3 Hours.
Same as HIST 335. See HIST 335.

JS 341  Love & Sex in Hebrew Lit  credit: 3 Hours.
Same as CWL 341, REL 340 and SAME 341. See CWL 341.

JS 399  Special Topics  credit: 3 Hours.
Faculty offer special topics in their areas of expertise that provide an opportunity for undergraduates to be exposed to some of the most current developments in faculty research. May be repeated in the same or separate term to a maximum of 9 hours.

JS 442  History of Early Judaism  credit: 3 Hours.
Same as HIST 432 and REL 442. See REL 442.

JS 454  Topics in Israeli Lit &Culture  credit: 3 or 4 Hours.
Same as CWL 454 and SAME 454. See CWL 454.

JS 495  Independent Study  credit: 2 to 4 Hours.
Readings in selected fields in consultation with the instructor along with the completion of a specified writing assignment. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated in the same term to a maximum of 4 undergraduate hours or 8 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours and 16 graduate hours. Prerequisite: Consent of instructor.

JS 496  Topics in History of Judaism  credit: 3 or 4 Hours.
Same as REL 496. See REL 496.

Latin American and Caribbean Studies, Center for

Anna Maria Escobar, Director of Center
201 International Studies Building, 910 South Fifth Street, Champaign
PH: (217) 333-3182
http://www.clacs.illinois.edu

A major in Latin American Studies, which is administered by the Center for Latin American and Caribbean Studies, provides an integrated exploration of a major world area. Depending upon the student’s interests and career aspirations, individual programs of study are designed in close consultation with the Associate Director of the Center, who also serves as the academic adviser. Consultation revolves around the career goals of the student. The undergraduate program reflects an integrative, cross-disciplinary approach, and courses must be taken in at least three of these five areas or perspectives:

1. anthropological and geographical;
2. historical;
3. humanistic;
4. social, political, and economic;
5. ecological and environmental.

Courses for the major must be selected in consultation with the Associate Director of the Center.

Students are also expected to demonstrate a substantial command of a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to Middle or South America), either by passing a proficiency examination or through advanced courses of Latin American language(s) beyond the general Liberal Arts and Sciences language requirement.

Major in Latin American Studies
Major in Sciences and Letters Curriculum

E-mail: clacs@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting course work equates to 45 hours

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To be eligible, a student must achieve at least a 3.5 grade point average in the major, complete a senior thesis, and receive the approval of the center’s research committee.

LAST 170  Introduction to Latin America 3
LAST 490  Individual Study 3

Approved courses with Latin American content including courses in the following perspectives:

<table>
<thead>
<tr>
<th>Anthropological and Geographical Perspective. Normally courses in anthropology and geography.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Historical Perspective. Normally courses in history.</td>
</tr>
<tr>
<td>Social, Political, and Economic Perspective. Normally courses in sociology, rural sociology, political science, economics, and agricultural economics.</td>
</tr>
<tr>
<td>Ecological and Environmental Perspective. Normally courses in biology, forestry, and physical anthropology (primatology).</td>
</tr>
</tbody>
</table>

When appropriate, approved courses with Latin American content in other scientific and professional areas may be substituted for courses in the five perspectives listed above with the consent of the Associate Director of the Center for Latin American and Caribbean Studies.

Information listed in this catalog is current as of 03/2017
Advanced conversation and composition in a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to Middle or South America) beyond the level specified by the LAS language requirement, or the equivalent as demonstrated by special examination. Students successfully completing the examination are expected to use these 5 or 6 hours in approved courses of Latin American content from any of the above perspectives (including literature courses). At the end of their language study, all students are urged to take an oral proficiency test based on ACTFL guidelines.

1. Each student's course of study is devised in consultation with the Associate Director of the Center for Latin American and Caribbean Studies and is subject to the Associate Director's approval.
2. Normally taken in the freshman or sophomore year.
3. Normally taken in the senior year.
4. Includes 12 hours in one of the listed perspectives, 9 semester hours each in two other perspectives. Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Interdisciplinary Minor in Latin American Studies

The Center for Latin American and Caribbean Studies offers an interdisciplinary minor for students majoring in another discipline. The minor in Latin American Studies consists of a total of 21 credit hours selected from offerings by the Center and various departments. This program must be approved by the Associate Director.

The minor is for those students who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. For students completing a major sponsored by the College of Liberal Arts and Sciences, the department or unit sponsoring the student's major must approve the minor.

E-mail: clacs@illinois.edu

Web address for department: http://www.clacs.illinois.edu

Two courses in a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to Middle or South America) beyond the level specified by the LAS language requirement, or the equivalent as demonstrated by special examination. At the end of their language study, all students are urged to take an oral proficiency test based on ACTFL guidelines.

Courses drawn from the Latin American Studies curriculum. The curriculum normally consists of courses with 50 percent or more Latin American content and is defined according to a list maintained and regularly updated by the Center for Latin American and Caribbean Studies. Courses include:

LAST 170 Introduction to Latin America

Six hours of 300- to 400-level course offerings

No more than 6 hours of literature

Total Hours 21

Courses

LAST 170 Introduction to Latin America credit: 3 Hours.
Interdisciplinary introduction to the ways of life of Latin American peoples, their origins and current expressions; discusses social, economic issues, and domestic and international policies related to them in the context of other societies in developing countries. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

LAST 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
May be repeated.

LAST 240 Constr Afr and Carib Identity credit: 3 Hours.
Same as AFST 209, CWL 225, and FR 240. See FR 240. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

LAST 325 Social Media and Global Change credit: 3 Hours.
Same as EPS 325, AFST 325, ASST 325, EURO 325, INFO 325, REES 325, and SAME 325. See EPS 325.

LAST 342 Arts of Colonial Latin America credit: 3 Hours.
Same as ARTH 342. See ARTH 342.

LAST 343 Arts of Modern Latin America credit: 3 Hours.
Same as ARTH 343. See ARTH 343.

LAST 395 Special Topics credit: 2 to 4 Hours.
Topical survey of cultural, social, economic, and political factors in Latin American life. Each term a particular topic is considered. Prerequisite: A basic course in a humanities or social science discipline.

LAST 445 Native Latin Amer Languages credit: 2 to 4 Hours.
Upon the consent of the Director of the Center for Latin American and Caribbean Studies, tutorials are available in special native Latin American languages not regularly offered by the University (ie. Quechua, Kagchikel Mayan). Tutorials at the elementary, intermediate, and advanced levels may be arranged. Students registering for unit credit for the first two terms must first present satisfactory evidence of knowledge of the language at the elementary level, either in the form of credit earned at another institution or by passing a proficiency examination. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated in 6 terms successively, to a maximum of 16 hours. Graduate credit is given only for work beyond the elementary level. Prerequisite: Consent of instructor.

LAST 490 Individual Study credit: 1 to 5 Hours.
Major tutorial normally taken in the senior year. Students read the works from list devised in consultation with a faculty tutor and write a term paper. 1 to 5 undergraduate hours. 1 to 5 graduate hours. May be repeated as topics vary to a maximum of 6 hours. Prerequisite: LAST 170; a declared major in Latin American and Caribbean Studies; consent of instructor.

Latinas/Latinos Studies

Jonathan Inda, Chair
Office: 1207 W. Oregon Street, Room 127A, Urbana
PH: (217) 265-0370
http://www.lls.illinois.edu

Email: llss-studies@illinois.edu

The Undergraduate Major in Latinas/Latinos Studies explores the experiences and lives of Latinas/os in the context of the United States. The major provides a broad and deep approach to theory, research, and
multidisciplinary study of the Latina/o experience. Students will complete 34 hours of required and elective courses, and a minimum of 18 hours of supporting course work or a minor in an area outside of the major. Students majoring in Latina/Latino Studies receive excellent preparation for graduate study or careers in education, social and welfare policy, counseling, law, public policy, and other fields that address Latino issues.

**Major in Latina/Latino Studies**

**Major in Sciences and Letters Curriculum**

E-mail: aprodrig@illinois.edu  
www.lls.illinois.edu (http://www.lls.illinois.edu)

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required hours: 52 hours required, including 34 hours in Latina/Latino Studies courses

General education: The LAS General Education requirements will fulfill the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level Latina/Latino Studies courses must be taken on this campus.

Minimum hours required for graduation: 120 hours

Advising: The Department of Latina/Latino Studies provides advising for students. Students will also be assigned a faculty advisor to help plan a coherent program in their selected area of study.

Departmental distinction: To graduate with distinction in Latina/Latino Studies, a student must have at least a 3.25 overall GPA, a minimum 3.5 GPA in the major, and complete a senior honors thesis. To complete the honors thesis requires a student to enroll in four hours of LLS 495, normally distributed evenly across two consecutive semesters. Students graduating with at least a 3.5 GPA in the major (and meeting the other conditions) will be awarded Distinction; those with at least a 3.7 GPA in the major will be given High Distinction.

**Interdisciplinary Minor in Latina/Latino Studies**

The Interdisciplinary Minor in Latina/Latino Studies will allow students following any major plan of study to gain extensive knowledge in Latina/Latino Studies by completing seven courses (at least 21 credit hours) chosen in consultation with the Department of Latina/Latino advisor. The courses must form a coherent program of study and be approved by the Department of Latina/Latino Studies.

</tbody>
</table>

**Thematic Areas**

Students must take one course in each of the following three areas. A list of courses is maintained in the Department’s office.

- A. Literature, Media, and Culture
  - 3
- B. Race, Gender, and Sexuality
  - 3
- C. History, Politics, and Society
  - 3

2 elective courses selected from the list of all LLS and cross-listed LLS classes

Total Hours: 21

No more than 3 hours may be at the 100 level and at least 6 hours must be 300 and 400-level courses.

Students must officially declare their minor by registering with the Latina/Latino Studies advisor.

Completion of the program requires a minimum grade point average of 2.75 (A+ = 4.0) in Latina/Latino Studies courses.

**LLS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LLS)**

**Courses**

- **LLS 100 Intro Latina/Latino Studies credit: 3 Hours.** Interdisciplinary introduction to the basis for a Latina/Latino ethnicity in the United States. Topics include immigration and acculturation experiences and their commonalities and differences, comparison of Latina/Latino experiences to those of other racial, ethnic and immigrant groups, and the potential for a pan-ethnic identity.
  
  This course satisfies the General Education Criteria for:
  - UIUC: Social Sciences
  - UIUC: US Minority Culture(s)

- **LLS 199 Undergraduate Open Seminar credit: 1 to 5 Hours.** May be repeated.

- **LLS 200 U.S. Race and Empire credit: 3 Hours.** Same as AAS 200. See AAS 200.

- **LLS 201 US Racial & Ethnic Politics credit: 3 Hours.** Same as AAS 201, AFRO 201, and PS 201. See PS 201. This course satisfies the General Education Criteria for:
  - UIUC: Social Sciences
  - UIUC: US Minority Culture(s)

- **LLS 215 US Citizenship Comparatively credit: 3 Hours.** Same as AAS 215, AFRO 215, AIS 295, and GWS 215. See AAS 215. This course satisfies the General Education Criteria for:
  - UIUC: HistPhilosoph Perspect
  - UIUC: US Minority Culture(s)
LLS 220 Mexican & Latin Am Migration credit: 3 Hours.
General overview of international migration to the United States, using Latin American migration to the U.S., especially the Midwest, as the focal point. Topics discussed include the history of international migration to the United States, the relationship between history and the contemporary context, the development of U.S. immigration policy, the incorporation of Latino immigrants in U.S. society, and immigrant and community responses to migration. Same as SOC 221.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

LLS 227 Latina/Latinos in the Contemporary United States credit: 3 Hours.
Same as SOC 227. See SOC 227.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

LLS 230 Latina/o Genders & Sexualities credit: 3 Hours.
Survey of major theories and debates surrounding the gendered and sexualized dimensions of the Latina/o experience in the United States. The course is comprised of three major units: Gender, Sexuality, and Sex. In these units, students will read about and discuss issues pertaining to femininity/marianismo, masculinity/machismo, family/familism, desire, sexual behavior, sex work, sexual and gendered violence, and gendered and sexualized representations in pop culture. Same as GWS 230.

LLS 238 Latina/o Social Movements credit: 3 Hours.
Focuses on the history and theory of Latina/o social movements. Topics include immigrant mobilizations, transnational organizing, agrarian and farm worker movements, political representation, feminisms and reproductive rights, environmental justice, labor and educational struggles, and urban social movements. Same as HIST 292.

LLS 240 Latina/o Popular Culture credit: 3 Hours.
Provides an introduction to Latina/o popular culture in the United States. Specific modes of popular culture might include mass media, music, film, video, performance, and other expressive forms. Lecture and readings are in English. Same as ENGL 224 and SPAN 240.

LLS 242 Intro to Latina/o Literature credit: 3 Hours.
Survey of literature by and about people of Mexican, Puerto Rican, Cuban, and other Latina/o descent in the United States. Taught in English. Same as ENGL 225 and SPAN 242.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

LLS 246 Gender & Sexuality in Latina/o Literature credit: 3 Hours.
Same as SPAN 246. See SPAN 246.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

LLS 250 Latina/os on the Bronze Screen credit: 3 Hours.
Critical, historical, and theoretical exploration of Latina/o representations in U.S. film from the 1900s to the present. Examination of cinematic representations as well as the social, political, and cultural context in which those representations are produced. The focus is on Mexican American and Puerto Rican images, but Hollywood's treatment of other Latina/o communities and ethnic groups will be discussed. Students will be required to attend weekly movie screenings. Same as MACS 250.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

LLS 258 Muslims in America credit: 3 Hours.
Same as AAS 258 and REL 258. See AAS 258.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: US Minority Culture(s)

LLS 259 Latina/o Cultures credit: 3 Hours.
Same as ANTH 259. See ANTH 259.

LLS 260 Graffiti and Murals credit: 3 Hours.
Same as ARTH 260. See ARTH 260.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comparitv Cult

LLS 265 Politics of Hip Hop credit: 3 Hours.
Examines hip hop as politics, culture, and commodity. Emphasis given to hip hop's relation to urban spaces deeply impacted by state surveillance, cuts in social welfare programs, immigration, and the global restructuring of capital. Also considers the viability of a "politics of hip hop" in the wake of the music's rising value as a global commodity and analyzes hop hop as a transnational site in which gendered and sexual identities are created, contested, and rearticulated. Same as AAS 265.

LLS 278 Mapping Latina/o Inequalities credit: 3 Hours.
Explores contemporary structural forces that contribute to the concentration of Latinas/os in segregated neighborhoods, and the detrimental effects of housing inequality on Latina/o communities. Focuses on the influence of geographic context in creation and maintenance of racial inequalities as they affect urban, suburban, and small town locals. Further examines the role of space and place in the development and persistence of community identities. Same as SOC 278.

LLS 279 Mexican-American History credit: 3 Hours.
Examination of the history of Mexican Americans living within the United States from the Spanish Conquest to the twentieth century. Explores the process of migration, settlement, assimilation, and discrimination with emphasis on continuity and change in Mexican cultural development. Same as HIST 279.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: US Minority Culture(s)

LLS 280 Caribbean Latina/o Migration credit: 3 Hours.
Same as HIST 280. See HIST 280.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: US Minority Culture(s)

LLS 281 Constructing Race in America credit: 3 Hours.
Same as AAS 281, AFRO 281, and HIST 281. See HIST 281.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: US Minority Culture(s)

LLS 296 Topics Latina/o Studies credit: 3 Hours.
Course examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity, historical foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in same or separate terms to a maximum of 6 hours.
LLS 301 19thC US Latina/o Lit-ACP  credit: 4 Hours.
Focuses on the fiction (historical novels and poetry) as well as the critical essays of the 1848 Mexican-American War and the 1898 Spanish-American War, the two key 19th century events that determined the status of the people of the Caribbean and Mexican descent in the United States. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: US Minority Culture(s)

LLS 305 Theories of Race, Gender, and Sexuality  credit: 3 Hours.
Same as AAS 300 and GWS 305. See AAS 300.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

LLS 308 Spanish in the United States  credit: 3 Hours.
Same as SPAN 308. See SPAN 308.

LLS 310 Race and Cultural Diversity  credit: 4 Hours.
Same as AAS 310, AFRO 310, and EPS 310. See EPS 310.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: US Minority Culture(s)

LLS 316 Latina/Latino Politics  credit: 3 Hours.
Same as PS 316. See PS 316.

LLS 320 Gender & Latina/o Migration  credit: 3 Hours.
Study of the gendered social process of international immigration, focusing on Latin American migration to the United States. Established theories of migration, the history of international immigration to the U.S., and historical and contemporary Mexico, Caribbean and Central American migration flows will be discussed in great detail. Primary focus on how gender shapes the migration experiences of immigrants and the gendered impact of migration on the economic, political, and social status of individuals. Same as HIST 321 and GWS 320. Prerequisite: LLS 100 or SOC 100.

LLS 322 US Latina and Latino Families  credit: 3 Hours.
Same as HDFS 322. See HDFS 322.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

LLS 355 Race and Mixed Race  credit: 3 Hours.
Explores the history of racial classification in the U.S. with special attention to the census and the role of the state more generally in defining race. Emphasis on how race-mixing has been understood in American culture, and on the current literature on "multiracials" and the future of "race" in the U.S. Readings are drawn from interdisciplinary sources, but examined from a sociological perspective. Same as AAS 355 and SOC 355. Prerequisite: Any lower division LLS or SOC or AAS course.

LLS 360 Contemporary US Latina/o Lit  credit: 3 Hours.
Focuses on the major U.S. Latina/Latino writers and texts and their depictions of the events that have shaped 20th-and 21st-Century U.S. Latina/Latino cultures.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

LLS 370 Latina/o Ethnography  credit: 3 Hours.
Addresses the theoretical, methodological, and ultimately political implications and questions generated by a range of ethnographic materials on Latina/os. Specifically explores culture and power (e.g., racism, sexism, and activism) through ethnographic methods and modes of representation, including literature. Fundamental to the course is the requirement that students engage in ethnographic practice, producing ethnographic research on Latina/os at the University of Illinois. Same as ANTH 370. Prerequisite: Any lower division course in LLS or ANTH.

LLS 372 Immigration, Law, and Rights  credit: 3 Hours.
Same as AAS 370. See AAS 370.

LLS 375 Latina/o Media in the US  credit: 3 Hours.
Same as MACS 375. See MACS 375.

LLS 377 Prisons, Race, and Terror  credit: 3 Hours.
Same as AAS 375. See AAS 375.

LLS 379 Latina/os and the City  credit: 3 Hours.
Examination of the migration and settlement of Latina/o populations (Mexicans, Puerto Ricans, Cubans, Dominicans, and Central and South Americans) in U.S. cities. Focus on the historic, economic, social and political factors that influenced these migrations and the choices migrants made to come to the United States and to urban areas in particular. Study of the regional variation among Latina/o groups, and coalition building and collaborative ventures between Latina/os and other communities of color in urban areas. Same as HIST 379.

LLS 382 Race and Migration in Chicago  credit: 3 Hours.
As the "Second City" located in the heartland of America, Chicago is central to many debates on urban space, race, and nation. Specifically, it is an influential site in which Latina/os, African-Americans, Asian-Americans, and ethnic whites have come to understand meanings of race in a highly segregated setting. This course takes an interdisciplinary approach to the study of racial and ethnic groups in this city, examining issues of migration, gender, segregation, labor, and education from the late nineteenth century to the present. Same as HIST 382. Prerequisite: One course in either LLS or HIST.

LLS 385 Theory and Methods in LLS  credit: 3 Hours.
Introduction to the interdisciplinary theories and methods of Latina/Latino Studies. Traditional approaches to the study of ethnicity and race will be interrogated through critical scholarship produced by Latina/Latino Studies scholars across a variety of approaches (anthropology, communications, literature, history, sociology, among others). By learning about a variety of methodological approaches, students will become proficient in conducting ethnics studies research projects about U.S. Latina/o populations. Prerequisite: LLS 100.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

LLS 387 Race, Gender and the Body  credit: 3 Hours.
Focuses generally on the relation between power and the body. In western culture, the body is typically thought of as a natural, biological entity. However, as a number of social theorists have pointed out, the body can never be reduced to mere biology. It is also always a product of culture and therefore necessarily implicated in relations of dominance and subordination. Using this framework, the class is specifically concerned with how raced, gendered, and sexed bodies have been imagined in US culture (as abnormal, diseased, criminal, etc.) and with how such bodies have been rendered objects of surveillance, discipline, and regulation. Same as SOC 387. Prerequisite: LLS 100.
LLS 390  Independent Study  credit: 0 to 3 Hours.
Special topics not treated in regularly scheduled courses; designed especially for advanced Undergraduates. Approved for letter and S/U grading. May be repeated in the same or subsequent terms as topics vary to a maximum of 6 hours. Prerequisite: One course in Latina/Latino Studies and consent of instructor.

LLS 391  Oral History Methods  credit: 3 Hours.
Same as HIST 391. See HIST 391.

LLS 392  Chicanas&Latinas: Self&Society  credit: 3 Hours.
Explores the experiences of Chicanas and Latinas through the lens of contemporary sociological research. Topics to be discussed include: community formation and activism, Chicana/Latina feminisms, sexuality, religion, health, family, immigration, education, work, media, and artistic expression. Readings emphasize the link between the structural inequalities of society, and the day-to-day lived experiences of Chicana/Latinas. Same as GWS 392 and SOC 392. Prerequisite: Any 100, 200, or 300-level LLS, GWS, or SOC course. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

LLS 396  Adv Topics Latina/o Studies  credit: 3 Hours.
Examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity, historical foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in the same or separate terms to a maximum of 6 hours.

LLS 410  Writing Latina/o Chicago  credit: 3 or 4 Hours.
Examination of novels, poetry, film and memoirs by Latinas and Latinos writing from and/or about Chicago. Through these texts, the course will simultaneously track a Chicago-based Latina/o literary history and analyze articulations of Latina/o everyday life and politics grounded in the city's distinct topographical and social contexts. Issues of migration, gentrification, segregation, youth culture, gender, sexuality, race, violence, poverty, class consciousness, and struggles for social justice will figure prominently in lectures and class discussions. 3 undergraduate hours. 4 graduate hours. Prerequisite: LLS 100.

LLS 412  Hispanics in the U.S.  credit: 3 or 4 Hours.
Same as SOCW 412. See SOCW 412.

LLS 433  Found of Bilingual Educ  credit: 2 to 4 Hours.
Same as CI 433. See CI 433.

LLS 435  Commodifying Difference  credit: 3 or 4 Hours.
An interdisciplinary examination of how racial, ethnic and gender difference is negotiated through media and popular culture, and how racial, ethnic and gendered communities use cultural forms to express identity and difference. Among the theoretical questions explored are the politics of representation, ethnic/racial authenticity, cultural commodification and transnational popular culture. Some of the cultural forms examined are cultural festivals/parades, ethnic/race-based beauty pageants, cinematic and televiusal texts and musical forms, such as Hip-Hop and Salsa. Same as AAS 435, AFRO 435, GWS 435, and MACS 432. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any combination of 6 hours from Latina/o Studies, Asian American Studies, Afro-American Studies, Gender and Women Studies or Media and Cinema Studies; graduate standing, or consent of instructor.

LLS 442  Latina Literature  credit: 3 or 4 Hours.
Examines literary productions by and about women of Mexican, Puerto Rican, Cuban, and other Latina/o descent in the United States. Taught in English. Same as GWS 445 and SPAN 442. 3 undergraduate hours. 4 graduate hours. Prerequisite: At least one previous course in U.S. Latina/Latino Studies or Gender and Women's Studies, or consent of instructor.

LLS 449  Issues in Latina/o Educ  credit: 2 to 4 Hours.
Same as CI 449. See CI 449.

LLS 458  Latina/o Performance  credit: 3 or 4 Hours.
Focuses on Latina/o performances to underscore the relationship between practices of everyday life and acts on stage. Pays particular attention to the material (human) body and bodies of work. Students will critically engage with performance theory and scripts, media works of performances, and theorizations of Latinidad and the body. Same as ENGL 458. 3 undergraduate hours. 4 graduate hours.

LLS 460  Critical Ethnic Studies  credit: 3 or 4 Hours.
Same as AAS 400. See AAS 400.

LLS 465  Race, Sex, and Deviance  credit: 3 or 4 Hours.
Explores how racial stereotypes rely on sexual stereotypes by examining the intersections of ethnic studies, gender and women's studies, and queer studies. Interdisciplinary course that draws from criticial legal studies, sociology, anthropology, literary criticism, and history. Same as AAS 465, AFRO 465, and GWS 465. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any lower division course in LLS, AAS, AFRO, or GWS.

LLS 472  Border Latina, Latino Cultures  credit: 3 or 4 Hours.
Same as ANTH 472. See ANTH 472.

LLS 473  Immigration, Health & Society  credit: 3 or 4 Hours.
This interdisciplinary seminar examines the social determinants of US racial and ethnic health inequalities through the lens of (im)migration. Topics to be addressed include: conceptualizations of race and ethnicity, immigrant-adaptation theories, discrimination, place, and the intersections of race, ethnicity, poverty, immigration, gender and health. Same as CHLH 473, SOC 473, and SOCW 473. 3 undergraduate hours. 4 graduate hours.

LLS 475  History of the American West  credit: 3 or 4 Hours.
Same as HIST 476. See HIST 476.

LLS 479  Race, Medicine, and Society  credit: 3 or 4 Hours.
The idea of race has historically been central to how Western cultures conceptualize and think about human difference. This course examines the historical significance of race through one domain of knowledge: medicine. Specifically, it will be concerned with "race" as a central category in the medical construction and management of individuals and populations. Case studies might focus on colonial medicine, race and public health, sexuality and reproduction, global health disparities, and genetics and genomics. Same as AAS 479 and ANTH 479. 3 undergraduate hours. 4 graduate hours. Prerequisite: LLS 100 or consent of instructor.

LLS 490  Senior Research Project  credit: 2 or 4 Hours.
Research project leading to a senior paper. 2 or 4 undergraduate hours. No graduate credit. May be repeated in separate terms to a maximum of 4 undergraduate hours. Prerequisite: Senior standing; enrollment as a major in Latina/Latino Studies; and consent of instructor.
LLS 495  Senior Honors Thesis  credit: 2 or 4 Hours.  
Research project leading to a thesis. 2 or 4 undergraduate hours. No 
graduate credit. May be repeated in separate terms to a maximum of 
4 undergraduate hours. May be taken by honors students in partial 
fulfillment of department honors requirement. Prerequisite: Senior 
standing; enrollment as a major in Latina/Latino Studies; a cumulative 
grade point average of at least 3.25; a minimum 3.5 grade point average 
in the major; and consent of supervising professor.

LLS 496  Seminar in Latina/o Studies  credit: 3 or 4 Hours.  
3 undergraduate hours. 4 graduate hours. May be repeated up to a 
maximum of 6 undergraduate hours or 12 graduate hours.

Linguistics

James Yoon  
4080 Foreign Languages Building, 707 South Mathews, Urbana  
PH: (217) 333-3563  
http://linguistics.illinois.edu  

The Department of Linguistics offers undergraduate instruction of four 
types: courses in linguistics, in English as an International Language, 
English as a Second Language, and in non-Western languages.

Linguistics courses focus on empirical and theoretical issues connected 
with how languages are structured, how they are used, and how they 
change through time. These courses are of interest not only to linguistics 
majors, but to students in any field where the analysis of languages 
is important: anthropology, speech and hearing science, psychology, 
philosophy, computer science, foreign languages, and others.

English as an International Language courses are concerned with the 
teaching of English to speakers of other languages, and are useful to any 
students planning a career in language teaching.

English as a Second Language courses are for students whose first 
language is not English, to build up skills in speaking, understanding, 
reading, and writing English.

Non-Western Language courses build up skills in speaking, listening, 
reading and writing a specific language; familiarize students with 
literatures and cultures connected with the language; and examine 
linguistic issues peculiar to the language itself. These courses are of 
interest to students planning international careers, or simply desiring 
to broaden their perspective and learn about a different language and 
culture.

Undergraduate Major offered by the Department of Linguistics

- Linguistics

In addition, students may pursue linguistics as part of the LAS Major in 
Computer Science and Linguistics (p. 562).

Undergraduate Minors offered by the Department of Linguistics

- Arabic Studies

- English as a Second Language

- Hindi Studies

- Linguistics

- Sub-Saharan African Languages

- Teacher Education Minor in English as a Second Language

Languages Offered by the Department of Linguistics

- African Languages (Bamana, Lingala, Swahili, Wolof, and Zulu)

- Arabic

- Hindi

- Modern Greek

- Persian

- Sanskrit

- Turkish

Major in Linguistics

Major in Sciences and Letters Curriculum

For advising information please visit the Linguistics advising page.

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum major and supporting course work normally equates to 50-52 
hours.

General education: Students must complete the Campus General 
Education (https://courses.illinois.edu) requirements including the 
campus general education language requirement.

Students must complete 21 hours of coursework at the 300- or 400-level, 
including at least 12 hours of 300- or 400-level linguistics courses on this 
campus. These courses may be included in the core courses or electives.

Twelve hours of 300- or 400-level courses in the major must be taken on 
this campus.

A Major Plan of Study Form must be completed and submitted to the LAS 
Student Affairs Office before the end of the fifth semester (60-75 hours). 
Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students are strongly encouraged to fulfill the 
requirements for completing their program with distinction. Candidates for 
the degree with distinction must register their candidacy with their 
advisers no later than the end of the second semester of the junior year. 
They must achieve a grade point average of at least 3.4 for the required 
36 hours in linguistics, and register for at least 4 hours of LING 391 
- Honors Individual Study, plus submit a senior honors thesis to the 
Department of Linguistics by the first day of the month preceding the 
month of graduation.

University of Illinois at Urbana-Champaign 465

Major electives: 15 hours of Linguistics courses at the 200- to 400-level, chosen in consultation with the student’s advisor.

Students must fulfill the LAS foreign language requirement, and in addition, complete at least 8 hours in a second foreign language. One of these languages must be a non-Western language chosen from the following list or approved in consultation with the student’s advisor: American Sign Language, Arabic, Bamana, Basque, Chinese, Hebrew, Hindi/Urdu, Japanese, Korean, Lingala, Persian, Quechua, Sanskrit, Swahili, Turkish, Wolof, Zulu. Courses used to complete this requirement may also be used to meet the requirement of “Courses in linguistically relevant areas,” below.

Courses in linguistically relevant areas chosen in consultation with the student’s advisor. There are two ways of meeting this requirement:

A. The courses may come from any of the following disciplines: any foreign language, anthropology, classics, computer science, English, English as an international language, philosophy, psychology, speech and hearing science, communication.

B. Students desiring to specialize in the linguistics of a particular language should complete at least four semesters of instruction in that language beyond the elementary level, and a linguistics course or independent study focusing on the selected language or its language family.

- Minor in Arabic Studies (p. 473)
- Minor in English as a Second Language (p. 473)
- Minor in Hindi Studies (p. 473)
- Minor in Linguistics (p. 474)
- Minor in Sub-Saharan African Languages (p. 474)
- Teacher Education Minor in English as a Second Language (p. 474)

ARAB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ARAB)

Arabic Courses

ARAB 150 Lang&Culture of Arab World  credit: 3 Hours.
Interdisciplinary overview of the major aspects of the contemporary Arab culture. Based on scholarly research, textual resources, media, and literature from both the Arab World and elsewhere, examines the Arab people's historical background; language varieties; literary traditions; and representative social institutions. Same as SAME 150. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

ARAB 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

ARAB 201 Elementary Standard Arabic I  credit: 5 Hours.
Mastery of the Arabic alphabet and phonetics; elementary formal grammar and the development of reading and writing skills; and conversation in the formal noncolloquial style. Participation in the language laboratory is required.

ARAB 202 Elementary Standard Arabic II  credit: 5 Hours.
Continuation of ARAB 201. Participation in the language laboratory is required. Prerequisite: ARAB 201.

ARAB 210 Colloquial Arabic I  credit: 4 Hours.
Development of conversational fluency in one of the major colloquial dialects; see Class Schedule for dialect to be taught each term.

ARAB 211 Colloquial Arabic II  credit: 4 Hours.
Continuation of ARAB 210. Prerequisite: ARAB 210.

ARAB 403 Intermediate Stand Arabic I  credit: 4 Hours.
Survey of more advanced grammar; emphasis on increasing conversational fluency in the formal noncolloquial style; and reading of prose texts reflecting aspects of Arabic culture. 4 undergraduate hours. 4 graduate hours. Prerequisite: ARAB 202.

ARAB 404 Intermediate Stand Arabic II  credit: 4 Hours.
Continuation of ARAB 403. 4 undergraduate hours. 4 graduate hours. Prerequisite: ARAB 403.

ARAB 405 Advanced Standard Arabic I  credit: 3 Hours.
Practice to attain conversational fluency in the formal noncolloquial style; introduction to Arabic literature; and readings in social, political, and historic writings. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARAB 404.

ARAB 406 Advanced Standard Arabic II  credit: 3 Hours.
Continuation of ARAB 405. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARAB 405.

ARAB 407 Topics Stand Arabic Lang&Lit I  credit: 3 Hours.
Selected readings from Modern Standard Arabic authors, with a focus on novels, plays, and basic poetry illustrative of Arab cultural issues and advanced level MSA grammar, as well as development of expository writing skills. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARAB 406.

ARAB 408 Topics Stand Arabic Lang&Lit II  credit: 3 Hours.
Continuation of ARAB 407 with increased emphasis on the reading and comprehension of literary texts exemplified in advanced level novels, plays, and poetry, as well as on advanced mastery of expository writing skills. 3 undergraduate hours. 3 graduate hours. Prerequisite: ARAB 407.

ARAB 409 Adv Top Stand Arabic Lang&Lit I  credit: 3 or 4 Hours.
Introduction to Modern Standard Arabic in the professions as documented in selected newspapers, educational radio and TV programs, works of fiction, biographies, anthologies, and professional journals. Students will be introduced to argumentative writing in MSA, expected to make oral presentations, and to write a research paper in their field. 3 undergraduate hours. 4 graduate hours. Prerequisite: ARAB 408.

ARAB 410 Adv Top Stand Arabic Lang&Lit II  credit: 3 or 4 Hours.
Continuation of ARAB 409 with increased emphasis on the development of comprehension and writing of professional language. 3 undergraduate hours. 4 graduate hours. Prerequisite: ARAB 409.

ARAB 412 Business Arabic  credit: 3 or 4 Hours.
Introduction to Arabic business language as used in basic business settings, including commercial advertisement and business correspondence. Emphasizes language skills that will enable students to conduct job searches and locate job vacancies that match their fields of study and their interests. 3 undergraduate hours. 4 graduate hours. May be repeated in separate terms if topics vary to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: ARAB 405 or consent of instructor.
EIL 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

Information listed in this catalog is current as of 03/2017
EIL 487  Topics in Second Lang Studies  credit: 2 or 4 Hours.
Topics on practical applications of second language studies for classroom practice. 2 or 4 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Consent of instructor.

EIL 488  English Phon & Morph for TESL  credit: 3 or 4 Hours.
Applications of linguistics to language learning with special emphasis on learning the sound system of English. The course involves face-to-face and online instruction. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

ESL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ESL)

English as a Second Language Courses

ESL 109  Academic Conversation Skills for International Students  credit: 0 Hours.
Introduction for international students to improve academic English speaking skills in class discussions and informal conversations with colleagues and instructors. Topics include participating in small group discussions, advising sessions, and small talk with colleagues. We will discuss and practice American English norms for agreeing and disagreeing, making requests and suggestions, apologizing, complaining, and complimenting within an academic setting. Approved for S/U grading only. May be repeated in separate terms.

ESL 110  Engl Pronun for Acad Purposes  credit: 0 Hours.
Designed to improve the international student’s ability to speak and understand English at normal conversational speed and to give the student the ability to continue improving pronunciation skills after the course is finished. Focus on the rhythm, stress, intonation, and sounds of natural speech, and the use of ordinary English spelling to guide the pronunciation of newly encountered words. Approved for S/U grading only. Student must be an undergraduate to receive credit. Students should consult their college concerning use of credit from this course. Prerequisite: Recommendation from UIUC English as a Second Language Placement Test.

ESL 111  Intro to Academic Writing I  credit: 3 Hours.
Introduction to the process of writing: fundamentals of paragraph development: analysis of rhetorical patterns: development of oral skills. This course is the first term of a two-term sequence (ESL 111-ESL 112) that fulfills the campus Composition I general education requirement. Credit is not given for both ESL 111 and ESL 115. Prerequisites: 111 placement result on the English Placement Test. This course satisfies the General Education Criteria for: UIUC: Freshman Composition I

ESL 112  Intro to Academic Writing II  credit: 3 Hours.
Continued instruction of the fundamentals of the multi-paragraph essay and introduction to research writing; instruction on basics of library research, synthesizing sources, and elements of style. This is the second term of a two-term sequence (ESL 111-ESL 112) that satisfies the campus Composition I general education requirement. Credit is not given for both ESL 112 and ESL 115. Prerequisite: Completion of ESL 111. This course satisfies the General Education Criteria for: UIUC: Freshman Composition I

ESL 115  Principles of Academic Writing  credit: 4 Hours.
Introduction to the research paper, including the writing process: pre-research, academic style and organization, and a variety of writing and skill-building tasks; development of peer and self-editing skills. ESL 115 fulfills the campus Composition I requirement for non-native speakers of English. Credit is not given for both ESL 115 and any other Comp I courses: RHET 101, RHET 102, RHET 103, RHET 104, RHET 105, CMN 111, CMN 112, ESL 111, ESL 112. Prerequisite: 115 placement result on the English Placement Test. This course satisfies the General Education Criteria for:
UIUC: Freshman Composition I

Hindi Courses

HNDI 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

HNDI 201  Elementary Hindi-Urdu I  credit: 5 Hours.
Introduction to the Hindi/Urdu language; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, and a minimum of formal grammar and Devanagari writing; introduction to Arabic-Persian script by arrangement. Participation in the language laboratory is required.

HNDI 202  Elementary Hindi-Urdu II  credit: 5 Hours.
Second term of spoken Hindi/Urdu; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, formal grammar based on conversational materials, and work on written Hindi; concentration on written Urdu by arrangement. Participation in the language laboratory is required. Prerequisite: HNDI 201.

HNDI 403  Intermediate Hindi I  credit: 4 Hours.
First term of second year of the Hindi language, including drill for more advanced conversational fluency; introduction to a greater variety of styles and levels of discourse and usage; and increasing study of the written language and more formal grammar. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 202 or equivalent.

HNDI 404  Intermediate Hindi II  credit: 4 Hours.
Concentration on ability to engage in reasonably fluent discourse in Hindi, on comprehensive knowledge of formal grammar, and on ability to read ordinary texts in Hindi. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 403 or equivalent.

HNDI 405  Advanced Hindi I  credit: 3 Hours.
Course for advanced knowledge of spoken and written Hindi. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 404 or consent of instructor.

HNDI 406  Advanced Hindi II  credit: 3 Hours.
Course for advanced knowledge of spoken and written Hindi with emphasis on modern Hindi literature and language. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 405 or consent of instructor.
HNDI 408 Intro to South Asian Lit  credit: 3 Hours.
Introduces selected literatures of South Asia in a cross-cultural and comparative perspective: emphasizes relating literary texts and trends to the historical, sociocultural, political, and literary contexts of the subcontinent. Texts for South Asian languages are offered in English translation; in addition, there will be texts by South Asian authors written in English. Knowledge of a South Asian language not required. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of course coordinator.

HNDI 412 Business Hindi credit: 3 Hours.
Study and analysis of Business Hindi in a wide variety of contexts and settings (from Metropolitan to rural). 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 403 or higher or consent of instructor.

LGLA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/LGLA)

Lingala Courses
LGLA 201 Elementary Lingala I  credit: 5 Hours.
Introduction to Lingala; emphasizes grammar, pronunciation, reading and conversation in standard Lingala. Participation in language laboratory required. Same as AFST 211.

LGLA 202 Elementary Lingala II  credit: 5 Hours.
Continuation of elementary Lingala, with introduction of more advanced grammar; emphasizes more fluency in speaking, reading, and writing simple sentences in standard Lingala. Same as AFST 212. Participation in language laboratory required. Prerequisite: LGLA 201.

LGLA 403 Intermediate Lingala I  credit: 4 Hours.
Survey of more advanced grammar, with emphasis on increasing conversational fluency, composition skills, study of written texts in the standard and spoken Lingala dialects, and discussion of grammatical variations. Same as AFST 413. 4 undergraduate hours. 4 graduate hours. Prerequisite: LGLA 202.

LGLA 404 Intermediate Lingala II  credit: 4 Hours.
Continuation of LGLA 403. Emphasizes ability to engage in reasonably fluent discourse in Lingala, comprehensive knowledge of formal grammar, and ability to read ordinary texts in various Lingala dialects. Same as AFST 414. 4 undergraduate hours. 4 graduate hours. Prerequisite: LGLA 403.

LGLA 405 Advanced Lingala I  credit: 3 Hours.
Third-year Lingala with emphasis on conversational fluency and on increased ability in reading and comprehending texts, including newspaper prose and Central African cultural materials, in at least two Lingala varieties. Course will also deal with the advanced level grammar found in such texts. Same as AFST 415. 3 undergraduate hours. 3 graduate hours. Prerequisite: LGLA 404 or equivalent.

LGLA 406 Advanced Lingala II  credit: 3 Hours.
Continuation of LGLA 405 with increased emphasis on conversational fluency and comprehension of advanced level grammar in the reading of a variety of prose texts on current cultural issues. Same as AFST 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: LGLA 405 or equivalent.

LGLA 407 Topics Lingala Lang & Lit I  credit: 3 Hours.
Selected readings from modern Lingala authors and composers, with a focus on novels, plays, music, and basic poetry illustrative of Central African cultural issues and advanced level Lingala grammar, as well as development of expository writing skills. Same as AFST 417. 3 undergraduate hours. 3 graduate hours. Prerequisite: LGLA 406.

LGLA 408 Topics Lingala Lang & Lit II  credit: 3 Hours.
Continuation of LGLA 407 with increased emphasis on the reading and comprehension of literary texts exemplified in advanced level novels, plays, and poetry, as well as on advanced mastery of expository writing skills. Same as AFST 418. Prerequisite: LGLA 407.

LING Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LING)

Linguistics Courses
LING 100 Intro to Language Science  credit: 3 Hours.
Introduction to the theory and methodology of general linguistics; includes the various branches and applications of linguistics. This course satisfies the General Education Criteria for: UIUC: Social Sciences

LING 104 Talking Culture  credit: 3 Hours.
Same as ANTH 104. See ANTH 104. This course satisfies the General Education Criteria for: UIUC: Social Sciences

LING 105 Language in Daily Life  credit: 3 Hours.
Analysis of what constitutes knowledge of language, how it is used in daily life, and how speakers are perceived by others. Emphasis on discovering what makes language function as it does through an examination of its forms and functions in real life. This course satisfies the General Education Criteria for: UIUC: Social Sciences

LING 111 Language in Globalization  credit: 3 Hours.
Introduction to the role of language in globalization by examining communication issues concerning language use across cultural, political and geographic boundaries. Explores the interaction of language and other cultural forms in the global context. Among the topics discussed are issues of identity, spread of English and its acculturation to local contexts of use, creativity in language mixing, language in global pop cultures, language in cyberspace, as well as minority language experiences, and loss of indigenous languages. This course can be used to fulfill either Western or Nonwestern general education categories, but not both. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures UIUC: Western Compartv Cult

LING 115 Language and Culture in India  credit: 3 Hours.
Examines the relationship between language and culture in the multilingual and multicultural context of India. Special topics of focus are: linguistic and cultural diversity in India, impact of the language and cultural contact on the structure and function of languages (convergence, diglossia, code-mixing, pidgins and creoles), language and identity, language of religion, language and gender, language in the media, literature and culture, language and power, language and globalization. Same as HNDI 115 and REL 115. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

LING 191 Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated once. Prerequisite: Consent of departmental honors advisor.

LING 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.
LING 210  Language History  credit: 3 Hours.
Addresses the question "Why does language change?" Specific topics include: the history and origin of writing; why pronunciation changes; change in vocabulary and what it tells us about change in culture and society; the relation between "language" and "dialect"; multilingualism and its consequences, including Pidgins and Creoles; genetic relationship between languages, with focus on the "Indo-European" family (English, German, French, Russia, Latin, Greek, and Sanskrit, etc.) and the relationships between human languages. Prerequisite: Fulfillment of the foreign language requirement of the College of Liberal Arts and Sciences. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

LING 221  American Sign Language II  credit: 4 Hours.
Same as SHS 221. See SHS 221.

LING 225  Language, Mind, and Brain  credit: 3 Hours.
Introduction to the theory and methodology of psycholinguistics with emphasis on language acquisition and linguistic behavior. This course satisfies the General Education Criteria for:
UIUC: Behavioral Sciences

LING 240  Language in Human History  credit: 3 Hours.
Role of language in the life of nations as a tool of communication, as a symbol of identity, and as a means of power. Scripts and orthographies, language planning, culture and language glosso-politics. Prerequisite: Three years of high school foreign language study or fulfillment of the foreign language requirement of Liberal Arts and Sciences. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

LING 250  Language Diversity in the USA  credit: 3 Hours.
Investigation of the uses and users of different language varieties - English and non-English - as well as issues of language discrimination, gender/race/class, youth culture, and new communication technologies. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

LING 270  Language, Technology & Society  credit: 3 Hours.
What technologies have humans developed to augment the quintessential human ability: language? We start with the development of writing, the first technology that was specifically designed for language, and trace its history through the invention of printing, and into the digital age. With the advent of computers the relevance of language for technology has broadened significantly. We review technologies such as automatic speech recognition, speech synthesis and automatic translation, and discuss their implications for present and future human-machine interaction. Prerequisite: LING 100 or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Behavioral Sciences
UIUC: Western Compartv Cult

LING 290  Individual Study  credit: 1 to 4 Hours.
Individual readings and research reports on special topics dealing with the theoretical or applied aspects of the linguistic sciences. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor.

LING 291  Linguistics Laboratory Research Experience  credit: 1 to 3 Hours.
Supervised participation in laboratory or other research, usually as an assistant to a senior researcher. May be repeated up to a maximum of 9 hours. Prerequisite: Consent of instructor.

LING 300  Anat & Physiol Spch Mechanism  credit: 4 Hours.
Same as SHS 300. See SHS 300.

LING 301  Elements of Syntax  credit: 3 Hours.
Introduction to concepts and techniques essential for syntactic analysis and description, with special attention to testing analyses and justifying them. Prerequisite: LING 100 or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

LING 302  Elements of Phonology  credit: 3 Hours.
Introduces elements of phonological theory and data analysis. Emphasis is placed on both Structuralist and Generative theories, introducing students to the principles of phonological contrast, allophony, neutralization, and markedness. Formal phonological models are considered, including both distinctive feature theory and prosodic theory. Equal emphasis is placed on linguistic data analysis. Prerequisite: LING 100 or consent of instructor.

LING 303  General Speech Science  credit: 4 Hours.
Same as SHS 301. See SHS 301.

LING 304  Elements of Morphology  credit: 3 Hours.
An introduction to the concepts and methods of morphology, the linguistic study of word formation. We examine the smallest units of word structure—how they are arranged and organized, and how they interact with sentence structures (syntax) and sound patterns (phonology). Students will consider data from many different languages, and investigate how those languages are similar and different in terms of how they form their words. Prerequisite: LING 100.

LING 307  Elmnts Semantics & Pragmatics  credit: 3 Hours.
Introduction to the theory of meaning for natural language, including techniques for the description of lexical meaning, compositional determination of phrase and sentence meaning, and pragmatic effects on interpretation in context. Same as PHIL 307. Prerequisite: LING 100 or consent of instructor.

LING 321  American Sign Language III  credit: 4 Hours.
Same as SHS 321. See SHS 321.

LING 357  Intro to Conversation Analysis  credit: 3 Hours.
Analysis of everyday conversation and talk in institutional settings, including basic organizational features of talk such as turn-taking, sequences of actions, openings and closings, and repair; ways that participants use talk to perform social actions such as complimenting, inviting, arguing, blaming, and apologizing; and ways that talk is used in professional settings such as 911 emergency calls, courtroom interactions, and doctor-patient interviews to perform the work of these social institutions. Same as CMN 357.

LING 391  Honors Individual Study  credit: 2 to 4 Hours.
Study and research for honors thesis; open only to seniors in the linguistics major who are eligible for departmental distinction. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor and linguistics course average of 3.4.

LING 400  Intro to Linguistic Structure  credit: 3 or 4 Hours.
Introduction to the theory and methodology of the science of linguistics with special reference to phonology, morphology, syntax and semantics. Not intended for undergraduate majors in linguistics. 3 undergraduate hours. 4 graduate hours.

LING 401  Intro to General Phonetics  credit: 3 or 4 Hours.
Introduction to the main branches of general phonetics and phonological theory; emphasis on analysis of non-Western languages and research techniques. 3 undergraduate hours. 4 graduate hours.
LING 402  Tools & Tech Spch & Lang Proc  credit: 3 Hours.  
Introduction to aspects of the tools and methods of studies in speech and natural language processing (NLP), with a focus on programming for NLP and speech applications, statistical methods for data analysis, and tools for displaying and manipulating speech data. 3 undergraduate hours. 3 graduate hours.

LING 404  Tutorials in Non-Western Lang  credit: 1 to 5 Hours.  
Advanced or intensive language instruction in a selected non-Western language; excludes instruction in East or Southeast Asian languages. 1 to 5 undergraduate hours. 2 to 4 graduate hours. May be repeated with approval. Prerequisite: Consent of instructor.

LING 406  Intro to Computational Ling  credit: 3 or 4 Hours.  
Introduces the field of natural language processing and computational linguistics. Topics include finite-state methods, parsing, probabilistic methods, machine learning in NLP, computational semantics and applications of NLP technology. The course is mostly about concepts rather than programming, though some programming assignments will be given. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 402 or a 100-level computer science programming course, or consent of instructor.

LING 407  Logic and Linguistic Analysis  credit: 3 or 4 Hours.  
Introduction to the theory of logic as applied in linguistic analysis. Same as PHIL 407. 3 undergraduate hours. 4 graduate hours. Prerequisite: For undergraduate students: LING 307 or equivalent background with consent of instructor.

LING 410  Historical Linguistics  credit: 2 to 4 Hours.  
Introduction to historical and comparative linguistics with particular attention to theoretical issues. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: LING 401 (or concurrent registration), and either LING 301 and LING 302, or LING 400.

LING 412  Lang in African Culture & Soc  credit: 3 or 4 Hours.  
Introductory survey of the role of language in African cultures and societies, with particular emphasis on the study of indigenous African linguae francae in multilingual settings, their spread, and use as media of communication in various domains, and as tools of development. Same as AFST 412. 3 undergraduate hours. 4 graduate hours. Prerequisite: AFST 222 or consent of instructor.

LING 415  Machine Translation: History and Applications  credit: 3 or 4 Hours.  
Same as TRST 415. See TRST 415.

LING 416  Structure of French Language  credit: 3 Hours.  
Same as FR 416. See FR 416.

LING 418  Language&Minorities in Europe  credit: 3 or 4 Hours.  
Same as FR 418, GER 418, ITAL 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

LING 420  Intro to African Linguistics  credit: 3 or 4 Hours.  
Introduction to the genetic and typological classification of the main language families of Africa; concentration on grammatical and phonological characteristics. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100 or LING 400; consent of instructor.

LING 423  Language Acquisition  credit: 3 or 4 Hours.  
Same as MACS 423 and PSYC 423. See PSYC 423.

LING 425  Intro to Psycholinguistics  credit: 3 or 4 Hours.  
Introductory survey of psychological and linguistic approaches to the study of communication. Same as MACS 425. 3 undergraduate hours. 4 graduate hours. Credit is not given for both LING 425 and PSYC 425. Prerequisite: An introductory course in linguistics or psychology.

LING 426  Child & Adult Lang Acquisition  credit: 3 or 4 Hours.  
The study of first and second language acquisition by children and adults. Course topics will include the following: first language acquisition, including signed and spoken languages; bilingualism and second language acquisition; the comparison of monolingual and bilingual language development. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or psychology.

LING 427  Language and the Brain  credit: 3 or 4 Hours.  
Same as PSYC 427 and SHS 427. See SHS 427.

LING 428  Sociolinguistics of Gender  credit: 3 or 4 Hours.  
Survey of a number of frameworks analyzing gender as a sociolinguistic category (variationist, dominance, difference, feminist, social constructivist, performativity) with the goal of finding out how these different perspectives have evolved over time and what they have contributed to (socio)linguistic theory beyond the study of gender. Same as ANTH 428 and GWS 428. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or consent of instructor.

LING 430  Intro to East Asian Ling  credit: 3 or 4 Hours.  
Introduction to the genetic relation of the Far Eastern languages with other languages; concentration on synchronic analysis of phonology and syntax. Same as EALC 430. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 400; consent of instructor.

LING 432  Gender and Language  credit: 3 or 4 Hours.  
Same as CMN 432 and GWS 432. See CMN 432.

LING 438  Philosophy of Language  credit: 3 or 4 Hours.  
Same as PHIL 438. See PHIL 438.

LING 440  Sociolinguistics 1  credit: 2 to 4 Hours.  
Introduction to the fundamental concepts, philosophy, and research methods of the study of language in its social contexts. Special attention to language spread, and language variation; language attitudes; language diversity; code-switching; language standardization; and language identity and loyalty. 3 undergraduate hours. 2 or 4 graduate hours.

LING 462  Introduction to Romance Linguistics  credit: 3 or 4 Hours.  
Same as FR 462, ITAL 435, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

LING 469  Structure of Semitic Languages  credit: 3 or 4 Hours.  
In-depth survey of comparative issues in Semitic Linguistics, with particular emphasis on morphology, syntax, phonology and language change from the perspectives of current linguistic theories. Same as AFST 469. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100, LING 400, or consent of instructor.

LING 480  Intro to Slavic Linguistics  credit: 3 or 4 Hours.  
Same as SLAV 480. See SLAV 480.

LING 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours.  
General introduction to second language acquisition (SLA) theory. Examines nativist, interactionist and cognitive approaches to SLA and explores the role of learner characteristics. Same as FR 481, GER 489, ITAL 489, PORT 489, and SPAN 489. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or consent of instructor.
LING 490  Special Topics in Linguistics  credit: 3 or 4 Hours.
Course provides an opportunity to focus on various subfields of the linguistic sciences, depending on the interests of the faculty and student. 3 undergraduate hours. 4 graduate hours. May be repeated as topic varies to a maximum of 9 undergraduate hours or 12 graduate hours. Students may register for up to two sections in the same term. Prerequisite: LING 100, LING 400, or consent of instructor.

PERS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/PERS)

Persian Courses
PERS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

PERS 201  Elementary Persian I  credit: 5 Hours.
Introduction to Persian, including conversation with a native speaker under the direction of a linguist-instructor, and a minimum of formal grammar and writing.

PERS 202  Elementary Persian II  credit: 5 Hours.
Continuation of PERS 201, with introduction of more advanced grammar and with emphasis on more fluency in speaking and reading. Prerequisite: PERS 201 or equivalent.

PERS 403  Intermediate Persian I  credit: 4 Hours.
General review of the essentials of grammar, selected reading of materials emphasizing Iranian life and culture, compositions, and practice in speech. 4 undergraduate hours. 4 graduate hours. Prerequisite: PERS 202.

PERS 404  Intermediate Persian II  credit: 4 Hours.
General review of the essentials of grammar, selected reading of materials emphasizing Iranian life and culture, compositions, and practice in speech. 4 undergraduate hours. 4 graduate hours. Prerequisite: PERS 403.

PERS 453  Advanced Persian I  credit: 3 or 4 Hours.
Students will develop the ability to read and understand paragraph level text, expand on their oral skills, continue to refine Persian writing skills and expand knowledge on Persian-speaking cultures. 3 undergraduate hours. 4 graduate hours. Prerequisite: PERS 403 and PERS 404; or consent of Persian Studies Program Director (determined after placement test taken by student).

PERS 454  Advanced Persian II  credit: 3 or 4 Hours.
Continuation of PERS 453. Students will become independent users of the language by studying more complex structures and contexts such as stories, news reports and movies. Students will also learn details of Persian grammar and apply them in written tasks. 3 undergraduate hours. 4 graduate hours. Prerequisite: PERS 453; or consent of Persian Studies Program Director (determined after placement test taken by student).

SNSK Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SNSK)

Sanskrit Courses
SNSK 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

SNSK 201  Elementary Sanskrit I  credit: 4 Hours.
Introduction to Sanskrit, treating in full the grammar of the language as preparation for reading.

SNSK 202  Elementary Sanskrit II  credit: 4 Hours.
Continuation of SNSK 201. Prerequisite: SNSK 201.

SNSK 403  Readings in Sanskrit I  credit: 3 or 4 Hours.
Introduction to the reading of Sanskrit texts. Same as REL 412. 3 undergraduate hours. 4 graduate hours. Prerequisite: SNSK 202.

SNSK 404  Readings in Sanskrit II  credit: 3 or 4 Hours.
Readings in Sanskrit texts. Topics may vary according to students' needs; they may include religious texts, classical literature, or a general survey of texts. Same as REL 413. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite: SNSK 403 and consent of instructor.

SWAH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SWAH)

Swahili Courses
SWAH 201  Elementary Swahili I  credit: 5 Hours.
Beginning standard Swahili; emphasizes grammar, pronunciation, reading and conversation in standard Swahili. Same as AFST 231. Participation in language laboratory required.

SWAH 202  Elementary Swahili II  credit: 5 Hours.
Continuation of elementary Swahili, with introduction of more advanced grammar; emphasizes more fluency in speaking, reading, and writing simple sentences in standard Swahili. Same as AFST 232. Participation in language laboratory required. Prerequisite: SWAH 201.

SWAH 403  Intermediate Swahili I  credit: 4 Hours.
Second-year Swahili with emphasis on developing conversational fluency; some readings on Swahili culture and customs. Same as AFST 433. 4 undergraduate hours. 4 graduate hours. Prerequisite: One year of Swahili.

SWAH 404  Intermediate Swahili II  credit: 4 Hours.
Continuation of SWAH 403; emphasis on the development of appropriate reading, writing, speaking, and comprehension skills in Standard Swahili, and understanding of East African culture. Same as AFST 434. 4 undergraduate hours. 4 graduate hours. Prerequisite: SWAH 403 or equivalent.

SWAH 405  Advanced Swahili I  credit: 3 Hours.
Third-year Swahili with emphasis on conversational fluency and on increased facility in reading Swahili texts, including current newspaper prose and (East) African culture materials. Same as AFST 435. 3 undergraduate hours. 3 graduate hours. Prerequisite: SWAH 404 or equivalent.

SWAH 406  Advanced Swahili II  credit: 3 Hours.
Third-year Swahili with emphasis on conversational fluency and on increased facility in reading Swahili texts, including current newspaper prose and (East) African culture materials. Same as AFST 436. 3 graduate hours. Prerequisite: SWAH 405 or equivalent.

SWAH 407  Topics Swahili Lang & Lit I  credit: 3 Hours.
Selected readings from modern Kiswahili authors, with a focus on novels, plays, and basic poetry illustrative of East African cultural issues and advanced level Kiswahili grammar, as well as development of expository writing skills. Same as AFST 405. 3 undergraduate hours. 3 graduate hours. Prerequisite: SWAH 406.

SWAH 408  Topics Swahili Lang & Lit II  credit: 3 Hours.
Continuation of SWAH 407 with increased emphasis on the reading and comprehension of literary texts exemplified in advanced level novels, plays, and poetry, as well as on advanced mastery of expository writing skills. Same as AFST 406. 3 undergraduate hours. 3 graduate hours. Prerequisite: SWAH 407.
SWAH 409  Adv Topics Swahili Lang&Lit I  credit: 3 or 4 Hours.
Introduction to Kiswahili in the professions as documented in selected
newspapers, educational radio and TV programs, works of fiction,
biographies, anthologies, and professional journals. Students will be
introduced to argumentative writing in Kiswahili, expected to make
oral presentations, and to write a research paper in their field. Same
as AFST 407. 3 undergraduate hours. 4 graduate hours. Prerequisite:
SWAH 408.

SWAH 410  Adv Topics Swahili Lang&Lit II  credit: 3 or 4 Hours.
Continuation of SWAH 409 with increased emphasis on the development
comprehension and writing of professional language. Same as
AFST 408. 3 undergraduate hours. 4 graduate hours. Prerequisite:
SWAH 409.

TURK Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/TURK)

Turkish Courses

TURK 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
Approved for letter and S/U grading. May be repeated in separate terms
to a maximum of 10 hours.

TURK 201  Elementary Turkish I  credit: 5 Hours.
Mastery of Turkish alphabet and phonetics; elementary formal grammar
and the development of reading and writing skills; and conversation
in the formal noncolloquial style. Participation in the laboratory is required.

TURK 202  Elementary Turkish II  credit: 5 Hours.
Continuation of TURK 201, with introduction of more advanced grammar;
emphasis on more fluency in speaking, reading, and writing simple
sentences in standard Turkish. Participation in the language laboratory
required. Prerequisite: TURK 201 or equivalent.

TURK 203  Intermediate Turkish I  credit: 4 Hours.
Continuation of TURK 202; emphasis on the development of appropriate
reading, writing, speaking, and comprehension skills in Standard and
Colloquial Turkish, with increased attention to ordinary written texts.
4 undergraduate hours. 4 graduate hours. Prerequisite: TURK 202 or equivalent.

TURK 204  Intermediate Turkish II  credit: 4 Hours.
Continuation of TURK 403; emphasis on the development of better
receptive and productive language skills in Standard and Colloquial
Turkish, with increased attention to both written and spoken texts.
4 undergraduate hours. 4 graduate hours. Prerequisite: TURK 203 or equivalent.

TURK 205  Advanced Turkish I  credit: 3 Hours.
Third-year Turkish with emphasis on conversational fluency and on
increased ability in reading and comprehending texts, including
newspaper prose and Turkish cultural materials. Course will also deal
with the advanced level grammar found in such texts. 3 undergraduate hours. 3 graduate hours. Prerequisite: TURK 404 or equivalent.

TURK 406  Advanced Turkish II  credit: 3 Hours.
Continuation of TURK 405 with increased emphasis on conversational
fluency and comprehension of advanced level grammar in the reading of
a variety of prose texts on current cultural issues. 3 graduate hours. Prerequisite: TURK 405 or equivalent.

TURK 409  Special Topics in Turkish  credit: 2 to 4 Hours.
Provides an opportunity to focus on various aspects of Turkish language,
culture, and society. 2 to 4 undergraduate hours. 2 to 4 graduate hours. Approved for letter and S/U grading. May be repeated in separate terms.

WLOF Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/WLOF)

Wolof Courses

WLOF 201  Elementary Wolof I  credit: 5 Hours.
Introduction to Wolof, emphasizes grammar, pronunciation, reading,
and conversation in standard Wolof. Same as AFST 241. Participation in
language laboratory required.

WLOF 202  Elementary Wolof II  credit: 5 Hours.
Continuation of elementary Wolof, with introduction of more advanced
grammar; emphasizes more fluency in speaking, reading, and writing
simple sentences in standard Wolof. Same as AFST 242. Prerequisite:
WLOF 201. Participation in language laboratory required.

WLOF 203  Intermediate Wolof I  credit: 4 Hours.
Survey of more advanced grammar, with emphasis on increasing
conversational fluency, composition skills, study of written texts in
standard and Dakar Wolof, and discussion of grammatical variations.
Same as AFST 443. 4 undergraduate hours. 4 graduate hours. Prerequisite: WLOF 202.

WLOF 204  Intermediate Wolof II  credit: 4 Hours.
Continuation of WLOF 203. Emphasizes ability to engage in reasonably
fluent discourse in Wolof, comprehensive knowledge of formal grammar,
and ability to read ordinary texts in standard and Dakar Wolof. Same
as AFST 444. 4 undergraduate hours. 4 graduate hours. Prerequisite: WLOF 203.

WLOF 405  Advanced Wolof I  credit: 3 Hours.
Third year Wolof with emphasis on conversational fluency and on
increased ability in reading and comprehending texts, including
newspaper prose and West African cultural materials. Course will also deal
with the advanced level grammar found in such texts. Same as
AFST 445. 3 undergraduate hours. 3 graduate hours. Prerequisite: WLOF 404 or equivalent.

WLOF 406  Advanced Wolof II  credit: 3 Hours.
Continuation of WLOF 405 with increased emphasis on conversational
fluency and comprehension of advanced level grammar in the reading of
a variety of prose tests on current cultural issues. Same as AFST 446. 3 undergraduate hours. 3 graduate hours. Prerequisite: WLOF 405 or equivalent.

WLOF 407  Topics Wolof Lang & Lit I  credit: 3 Hours.
Selected readings from modern Wolof authors, with a focus on novels,
plays, and basic poetry illustrative of West African cultural issues and
advanced level Wolof grammar, as well as development of expository
writing skills. Same as AFST 447. 3 undergraduate hours. 3 graduate hours. Prerequisite: WLOF 406.

WLOF 408  Topics Wolof Lang & Lit II  credit: 3 Hours.
Continuation of WLOF 407 with increased emphasis on the reading and
comprehension of literary texts exemplified in advanced level novels,
plays, and poetry, as well as on advanced mastery of expository writing
skills. Same as AFST 448. 3 undergraduate hours. 3 graduate hours. Prerequisite: WLOF 407.

ZULU Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/ZULU)

Zulu Courses

ZULU 201  Elementary Zulu I  credit: 5 Hours.
Introduction to Zulu; emphasis on grammar, pronunciation, reading and
conversation in standard Zulu. Same as AFST 251. Participation in
the language laboratory is required.
ZULU 202  Elementary Zulu II  credit: 5 Hours.
Continuation of ZULU 201 with introduction of more advanced grammar;
emphasis on more fluency in speaking, reading, and writing simple
sentences in standard Zulu. Same as AFST 252. Participation in the
language laboratory is required. Prerequisite: ZULU 201.

ZULU 403  Intermediate Zulu I  credit: 4 Hours.
Survey of more advanced grammar; emphasis on increasing
conversational fluency, composition skills, study of written texts in
standard Zulu and discussions of grammatical variations. Same as
AFST 451. 4 undergraduate hours. 4 graduate hours. Prerequisite:
ZULU 202.

ZULU 404  Intermediate Zulu II  credit: 4 Hours.
Continuation of ZULU 403; emphasis on increasing conversational
fluency, composition skills, study of written texts in the standard and
spoken Zulu dialects, and discussion of grammatical variations. Same as
AFST 452. 4 undergraduate hours. 4 graduate hours. Prerequisite:
ZULU 403.

ZULU 405  Advanced Zulu I  credit: 3 Hours.
Third year Zulu with emphasis on conversational fluency and on
increased facility in reading, comprehension, writing in response to
authentic Zulu texts such as those documented in selected newspapers,
magazines, and South African cultural materials. Same as AFST 453. 3
undergraduate hours. 3 graduate hours. Prerequisite: ZULU 404.

ZULU 406  Advanced Zulu II  credit: 3 Hours.
Continuation of ZULU 405 with increased emphasis on conversational
fluency and increased facility in reading and comprehending authentic
literary texts including prose and cultural materials from South
Africa. Same as AFST 454. 3 undergraduate hours. 3 graduate hours. Prerequisite: ZULU 405.

Minor in Arabic Studies

The minor in Arabic Studies is designed for students interested in
developing an expertise in one, or more, aspect of the Arab World, as
complement to their disciplinary major. Completion of the minor requires
at least 18 hours in applicable courses. For advising information please
visit the Linguistics advising page (http://www.linguistics.illinois.edu/
students/undergrad/advising.html).

Minor in English as a Second Language

This minor, sponsored by the Department of Linguistics, prepares a
student to teach English overseas and in contexts other than U.S. public
schools. Completion of the minor fulfills the course work requirement
for a Certificate in Teaching English as a Second Language (TESL).

For advising information please visit the Linguistics advising page.

Minor in Hindi Studies

The minor in Hindi Studies is designed for students interested in
receiving training in processing and using Hindi in a wide variety of
authentic (from informal to institutional) contexts. Students will be
encouraged to read authentic Hindi material from different genres and
registers (including Hindi print media). Completion of the minor requires
at least 19 hours in applicable courses. For advising information please
visit the Linguistics advising page.

Minor in Linguistics

The Linguistics Minor is designed for students who seek a basic familiarity with the field and is especially suited for students with majors in foreign language and other language-related fields such as anthropology, computer science, English, psychology, communication, and for anyone interested in the nature of language.

For advising information please visit the Linguistics advising page.

Minor in Sub-Saharan African Languages

The minor in Sub-Saharan African Languages is designed for students who are interested in developing proficiency in any one of the languages for which there is faculty expertise, and to develop their understanding of the region, as a complement to their disciplinary major. Available African Languages include: Bamana, Lingala, Swahili, Wolof and Zulu. Completion of the minor requires at least 18 hours.

For advising information please visit the Linguistics advising page.

Teacher Education Minor in English as a Second Language

For those in another teacher education curriculum who want to prepare themselves to gain an ESL approval on their teacher’s certificate related to their major field. Teacher education minors are available only to students seeking to add additional teaching fields to their teaching majors.

Students are advised that additional course work is necessary to teach middle grades six through eight. Consult the certification officer at 505 East Green suite 203 for additional information. For advising information please visit the Linguistics advising page.

Mathematics

Matthew Ando, Department Chair
273 Altgeld Hall, 1409 West Green, Urbana
PH: (217) 333-3350
http://math.illinois.edu

Mathematics is a broad discipline that contains a range of areas of specialization within it. The required core courses provide fundamental background for mathematics in general. The concentrations allow the student to broaden this background or begin to specialize. Students must complete the core courses and a concentration.

An entering student in mathematics should have academic preparation to enroll in MATH 220 during the first semester. Admission to MATH 220 requires an acceptable ALEKS score. A student should attain grades of B in calculus in order to complete the advanced courses successfully.

The Department of Mathematics sponsors the Mathematics major, including the Teaching of Mathematics concentration; the Mathematics minor; Teacher Education Minor in Math, Grades 9-12; the Actuarial Science (p. 481) major; and a major in Mathematics and Computer Science (p. 483) in coordination with the Department of Computer Science.

The Department of Mathematics offers the following majors:

- Actuarial Science (p. 481)- an interdisciplinary subject involving mathematics, statistics, and financial economics. It is designed to prepare students to enter the actuarial profession, as well as to provide a background in quantitative finance and risk management.
- Mathematics- Students must select a concentration in consultation with their adviser:
  - Mathematics Concentration (p. 482)
  - Graduate Preparatory Concentration (p. 482)
  - Applied Mathematics Concentration (p. 481)
  - Operations Research Concentration (p. 485)
  - Teaching of Mathematics Concentration (p. 486)
- Mathematics and Computer Science (p. 483)-Prepares students for professional or graduate work in mathematics and computer science.
  - Minor in Mathematics (p. 484)
  - Teacher Education Minor in Mathematics, Grades 9-12 (p. 485)

MATH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MATH)

Courses

MATH 002 Introductory Algebra  credit: 3 Hours.
Methods of elementary algebra, including simplification of algebraic expressions, solving linear and quadratic equations, equations of lines, systems of linear equations, and radicals. Approved for Letter and S/U grading. Enrollment is restricted. Credit may not be used toward graduation at the University of Illinois. Prerequisite: Score on appropriate placement test, or consent of Mathematics Department.

MATH 103 Theory of Arithmetic  credit: 4 Hours.
Analyzes of the mathematical issues and methodology underlying elementary mathematics in grades K-5. Topics include sets, arithmetic algorithms, elementary number theory, rational and irrational numbers, measurement, and probability. There is an emphasis on problem solving. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary or childhood education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 112 Algebra  credit: 3 Hours.
Rapid review of basic techniques of factoring, rational expressions, equations and inequalities; functions and graphs; exponential and logarithm functions; systems of equations; matrices and determinants; polynomials; and the binomial theorem. Prerequisite: 1.5 units of high school algebra; 1 unit of high school geometry.

MATH 114 Trigonometry  credit: 2 Hours.
Studies degrees and radians, the trigonometric functions, identities and equations, inverse functions, oblique triangles and applications. Credit is not given for MATH 114 and either MATH 014 or MATH 115. Prerequisite: 1.5 units of high school algebra; 1 unit of high school geometry.

MATH 115 Preparation for Calculus  credit: 3 Hours.
Reviews trigonometric, rational, exponential, and logarithmic functions; provides a full treatment of limits, definition of derivative, and an introduction to finding area under a curve. Intended for students who need preparation for MATH 220, either because they lack the content background or because they are not prepared for the rigor of a university calculus course. Credit is not given for both MATH 115 and either MATH 014 or MATH 114. Credit is not given for MATH 115 if credit for either MATH 220 or MATH 221 has been earned. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 117 Elementary Mathematics  credit: 4 Hours.
Analyzes of the mathematical issues and methodology underlying elementary mathematics in grades 6-8. Topics include the Real number system and field axioms, sequences and series, functions and math modeling with technology, Euclidean and non-Euclidean geometry, probability and statistics. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent.

This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 119 Ideas in Geometry  credit: 3 Hours.
General education course in mathematics, for students who do not have mathematics as a central part of their studies. The goal is to convey the spirit of mathematical thinking through topics chosen mainly from plane geometry. Prerequisite: Two units of high school algebra; one unit of high school geometry; or equivalent.

This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I
MATH 124 Finite Mathematics credit: 3 Hours.
Introduction to finite mathematics for students in the social sciences; introduces the student to the basic ideas of logic, set theory, probability, vectors and matrices, and Markov chains. Problems are selected from social sciences and business. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 125 Elementary Linear Algebra credit: 3 Hours.
Basic concepts and techniques of linear algebra; includes systems of linear equations, matrices, determinants, vectors in n-space, and eigenvectors, together with selected applications, such as Markov processes, linear programming, economic models, least squares, and population growth. Credit is not given for both MATH 125 and any of MATH 225, MATH 410, or MATH 415. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.

MATH 181 A Mathematical World credit: 3 Hours.
Introduction to selected areas of mathematical sciences through application to modeling and solution of problems involving networks, circuits, trees, linear programming, random samples, regression, probability, inference, voting systems, game theory, symmetry and tilings, geometric growth, comparison of algorithms, codes and data management. Prerequisite: Three years of high school mathematics, including two years of algebra and one year of geometry.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 198 Freshman Seminar credit: 3 Hours.
Guides the student in the study of selected topics not considered in standard courses. Prerequisite: Enrollment in the mathematics honors program; consent of department.

MATH 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Approved for both letter and S/U grading. May be repeated.

MATH 210 Theory of Interest credit: 3 Hours.
Study of compound interest and annuities; applications to problems in finance. Prerequisite: MATH 231 or equivalent.

MATH 213 Basic Discrete Mathematics credit: 3 Hours.
Beginning course on discrete mathematics, including sets and relations, functions, basic counting techniques, recurrence relations, graphs and trees, and matrix algebra; emphasis throughout is on algorithms and their efficacy. Credit is not given for both MATH 213 and CS 173. Prerequisite: MATH 220 or MATH 221, or equivalent.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 220 Calculus credit: 5 Hours.
First course in calculus and analytic geometry; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 220 and either MATH 221 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of topics of MATH 115. Students with previous calculus experience should consider MATH 221.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 221 Calculus I credit: 4 Hours.
First course in calculus and analytic geometry for students with some calculus background; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 221 and either MATH 220 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/ and either one year of high school calculus or a minimum score of 2 on the AB Calculus AP exam.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 225 Introductory Matrix Theory credit: 2 Hours.
Systems of linear equations, matrices and inverses, determinants, and a glimpse at vector spaces, eigenvalues and eigenvectors. Credit is not given for both MATH 225 and any of MATH 125, MATH 410, or MATH 415. Prerequisite: MATH 220 or MATH 221, or equivalent.

MATH 231 Calculus II credit: 3 Hours.
Second course in calculus and analytic geometry: techniques of integration, conic sections, polar coordinates, and infinite series. Prerequisite: MATH 220 or MATH 221.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 234 Calculus for Business I credit: 4 Hours.
Introduction to the concept of functions and the basic ideas of the calculus. Credit is not given for both MATH 234 and either MATH 220 or MATH 221. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

MATH 241 Calculus III credit: 4 Hours.
Third course in calculus and analytic geometry including vector analysis: Euclidean space, partial differentiation, multiple integrals, line integrals and surface integrals, the integral theorems of vector calculus. Credit is not given for both MATH 241 and MATH 292. Prerequisite: MATH 231.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 249 Honors Supplement credit: 1 Hour.
Supplemental credit hour for honors courses with additional material or special projects. Prerequisite: Concurrent registration in a specially designated honors section and consent of department.

MATH 284 Intro Differential Systems credit: 4 Hours.
First order differential equations; mathematical models and numerical methods; linear systems and matrices; higher-order linear differential equations; eigenvalues and eigenvectors; linear systems of differential equations; Laplace transform methods. Credit is not given for both MATH 284 and either MATH 285 or MATH 286. Prerequisite: MATH 231 or equivalent.

MATH 285 Intro Differential Equations credit: 3 Hours.
Techniques and applications of ordinary differential equations, including Fourier series and boundary value problems, and an introduction to partial differential equations. Intended for engineering majors and others who require a working knowledge of differential equations. Credit is not given for both MATH 285 and any of MATH 284, MATH 286, MATH 441. Prerequisite: MATH 241.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II
MATH 286  Intro to Differential Eq Plus  credit: 4 Hours.
Techniques and applications of ordinary differential equations, including
Fourier series and boundary value problems, linear systems of differential
equations, and an introduction to partial differential equations. Covers
all the MATH 285 plus linear systems. Intended for engineering majors
and other who require a working knowledge of differential equations.
Credit is not given for both MATH 286 and any of MATH 284, MATH 285,
MATH 441. Prerequisite: MATH 241.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 290  Symbolic Computation Lab  credit: 1 Hour.
Laboratory component to courses using a symbolic programming
package. Prerequisite: Consent of department; concurrent registration
in a designated section of a mathematics course with symbolic
computation component. May be taken only once for credit.

MATH 292  Vector Calculus Supplement  credit: 2 Hours.
Course in multivariable calculus. Topics include gradient, divergence,
and curl; line and surface integrals; and the theorems of Green, Stokes,
and Gauss. Intended for transfer students whose multivariable calculus
course did not include the integral theorems of vector calculus. Credit
is not given for both MATH 292 and MATH 241. Prerequisite: Consent of
instructor.

MATH 299  Topics in Mathematics  credit: 1 to 4 Hours.
Topics course; see Class Schedule or department office for current
topics. May be repeated in the same or subsequent semesters to a
maximum of 8 hours. Prerequisite: MATH 220 or MATH 221; consent of
instructor.

MATH 347  Fundamental Mathematics  credit: 3 Hours.
Fundamental ideas used in many areas of mathematics. Topics
will include: techniques of proof, mathematical induction, binomial
coefficients, rational and irrational numbers, the least upper bound
axiom for real numbers, and a rigorous treatment of convergence of
sequences and series. This will be supplemented by the instructor from
topics available in the various texts. Students will regularly write proofs
emphasizing precise reasoning and clear exposition. Credit is not given
for both MATH 347 and MATH 348. Prerequisite: MATH 231.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 348  Fundamental Mathematics-ACP  credit: 4 Hours.
Course is identical to MATH 347 except for the additional writing
component. Credit is not given for both MATH 348 and MATH 347.
Prerequisite: MATH 231 and completion of the campus Composition I
general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: Quant Reasoning II

MATH 357  Numerical Methods I  credit: 3 Hours.
Same as CS 357. See CS 357.

MATH 362  Probability with Engrg Applic  credit: 3 Hours.
Same as ECE 313. See ECE 313.

MATH 370  Actuarial Problem Solving  credit: 1 Hour.
Methods and techniques of solving problems in actuarial mathematics
for advanced students intending to enter the actuarial profession.
Approved for S/U grading only. May be repeated in the same or separate
terms to a maximum of 4 hours. Prerequisite: Consent of instructor.

MATH 390  Individual Study  credit: 0 to 3 Hours.
Guided individual study of advanced topics not covered in other courses.
May be repeated to a maximum of 8 hours. Approved for both letter and
S/U grading. Prerequisite: Consent of instructor.

MATH 399  Math/Actuarial Internship  credit: 0 Hours.
Full-time or part-time practice of math or actuarial science in an off-
campus government, industrial, or research laboratory environment.
Summary report required. Approved for S/U grading only. May be
repeated in separate terms. Prerequisite: After obtaining an internship,
Mathematics majors must request entry from the Mathematics Director
of Undergraduate Studies; Actuarial Science majors must request entry
from the Director of the Actuarial Science Program.

MATH 402  Non Euclidean Geometry  credit: 3 or 4 Hours.
Historical development of geometry; includes tacit assumptions made
by Euclid; the discovery of non-Euclidean geometries; geometry as
a mathematical structure; and an axiomatic development of plane
geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of
credit requires approval of the instructor and department with completion
of additional work of substance. Prerequisite: MATH 241; MATH 347 or
MATH 348, or equivalent; or consent of instructor.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 403  Euclidean Geometry  credit: 3 or 4 Hours.
Selected topics from geometry, including the nine-point circle, theorems
of Cera and Menelaus, regular figures, isometries in the plane, ordered
and affine geometries, and the inversive plane. 3 or 4 undergraduate
hours. 3 or 4 graduate hours. 4 hours of credit requires approval of
the instructor and department with completion of additional work of
substance. Prerequisite: MATH 241; MATH 347 or 348, or equivalent; or
consent of instructor.

MATH 405  Teacher's Course  credit: 3 or 4 Hours.
In-depth, advanced perspective look at selected topics covered in the
secondary curriculum. Connects mathematics learned at the university
level to content introduced at the secondary level. Intended for students
who plan to seek a secondary certificate in mathematics teaching. 3 or
4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires
approval of the instructor and department with completion of additional
work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348,
or equivalent; or consent of instructor.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

MATH 406  History of Calculus  credit: 3 or 4 Hours.
Examination of the historical origins and genesis of the concepts of
the calculus; includes mathematical developments from the ancient
Greeks to the eighteenth century. 3 or 4 undergraduate hours. 3 or 4
graduate hours. 4 hours of credit requires approval of the instructor and
department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 408  Actuarial Statistics I  credit: 4 Hours.
Same as STAT 409. See STAT 409.

MATH 409  Actuarial Statistics II  credit: 4 Hours.
Same as STAT 408. See STAT 408.
MATH 410 Lin Algebra & Financial Apps credit: 3 or 4 Hours.
Emphasizes techniques of linear algebra and introductory and advanced applications to actuarial science, finance and economics. Topics include linear equations, matrix theory, vector spaces, linear transformations, eigenvalues and eigenvectors and inner product spaces. In addition, current research topics such as modeling, data mining, and generalized linear models are explored. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 410 and any of MATH 125, MATH 225, MATH 415 or MATH 416. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 210 or FIN 221; or consent of instructor.

MATH 412 Graph Theory credit: 3 or 4 Hours.
Examines basic concepts and applications of graph theory, where graph refers to a set of vertices and edges that join some pairs of vertices; topics include subgraphs, connectivity, trees, cycles, vertex and edge coloring, planar graphs and their colorings. Draws applications from computer science, operations research, chemistry, the social sciences, and other branches of mathematics, but emphasis is placed on theoretical aspects of graphs. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience or CS 374. This course satisfies the General Education Criteria for: UIUC: Quant Reasoning II

MATH 413 Intro to Combinatorics credit: 3 or 4 Hours.
Permutations and combinations, generating functions, recurrence relations, inclusion and exclusion, Polya's theory of counting, and block designs. Same as CS 413. 3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience.

MATH 414 Mathematical Logic credit: 3 or 4 Hours.
Introduction to the formalization of mathematics and the study of axiomatic systems; expressive power of logical formulas; detailed treatment of propositional logical and predicate logic; compactness theorem and Godel completeness theorem, with applications to specific mathematical theories; algorithmic aspects of logical formulas. Proofs are emphasized in this course, which can serve as an introduction to abstract mathematics and rigorous proof; some ability to do mathematical reasoning required. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience. This course satisfies the General Education Criteria for: UIUC: Quant Reasoning II

MATH 415 Applied Linear Algebra credit: 3 or 4 Hours.
Introductory course emphasizing techniques of linear algebra with applications to engineering; topics include matrix operations, determinants, linear equations, vector spaces, linear transformations, eigenvalues, and eigenvectors, inner products and norms, orthogonality, equilibrium, and linear dynamical systems. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 415 and any of MATH 125, MATH 225, MATH 410; or MATH 416. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor.

MATH 416 Abstract Linear Algebra credit: 3 or 4 Hours.
Rigorous proof-oriented course in linear algebra. Topics include determinants, vector spaces over fields, linear transformations, inner product spaces, eigenvectors and eigenvalues, Hermitian matrices, Jordan Normal Form. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 416 and either MATH 410 or MATH 415. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor; MATH 347 is recommended.

MATH 417 Intro to Abstract Algebra credit: 3 or 4 Hours.
Fundamental theorem of arithmetic, congruences. Permutations. Groups and subgroups, homomorphisms. Group actions with applications. Polynomials. Rings, subrings, and ideals. Integral domains and fields. Roots of polynomials. Maximal ideals, construction of fields. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: Either MATH 416 or one of MATH 410, MATH 415 together with one of MATH 347, MATH 348, CS 374; or consent of instructor.

MATH 418 Intro to Abstract Algebra II credit: 3 or 4 Hours.
Rings of quotients of an integral domain. Euclidean domains, principal ideal domains. Unique factorization in polynomial rings. Fields extensions, ruler and compass constructions. Finite fields with applications. Modules. Structure theorem for finitely generated modules over principal ideal domains. Application to finitely generated abelian groups and canonical forms of matrices. Introduction to error-correcting codes. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 417 or consent of instructor.

MATH 423 Differential Geometry credit: 3 or 4 Hours.
Applications of the calculus to the study of the shape and curvature of curves and surfaces; introduction to vector fields, differential forms on Euclidean spaces, and the method of moving frames for low-dimensional differential geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 417 or consent of instructor.

MATH 424 Honors Real Analysis credit: 3 Hours.
A rigorous treatment of basic real analysis via metric spaces recommended for those who intend to pursue programs heavily dependent upon graduate level Mathematics. Metric space topics include continuity, compactness, completeness, connectedness and uniform convergence. Analysis topics include the theory of differentiation, Riemann-Darboux integration, sequences and series of functions, and interchange of limiting operations. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Credit is not given for both MATH 424 and either MATH 444 or MATH 447. Approved for honors grading. Prerequisite: An honors section of MATH 347 or an honors section of MATH 416, and consent of the department.

MATH 425 Honors Advanced Analysis credit: 3 Hours.
A theoretical treatment of differential and integral calculus in higher dimensions. Topics include inverse and implicit function theorems, submanifolds, the theorems of Green, Gauss and Stokes, differential forms, and applications. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Prerequisite: MATH 424 and either MATH 415 or MATH 416, and consent of the department.
MATH 427  Honors Abstract Algebra  credit: 3 Hours.
Group theory, counting formulae, factorization, modules with applications to Abelian groups and linear operators. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Credit is not given for both MATH 427 and MATH 417. Prerequisite: Consent of the department is required. Prerequisite courses are either an honors section of MATH 416, or MATH 415 together with an honors section of MATH 347.

MATH 428  Honors Topics in Mathematics  credit: 3 Hours.
A capstone course in the Mathematics Honors Sequences. Topics will vary. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. May be repeated in the same or separate terms to a maximum of 12 hours. Prerequisite: Consent of the department.

MATH 432  Set Theory and Topology  credit: 3 or 4 Hours.
Informal set theory, cardinal and ordinal numbers, and the axiom of choice; topology of metric spaces and introduction to general topological spaces. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or consent of instructor.

MATH 439  Philosophy of Mathematics  credit: 3 or 4 Hours.
Same as PHIL 439. See PHIL 439.

MATH 441  Differential Equations  credit: 3 or 4 Hours.
Basic course in ordinary differential equations; topics include existence and uniqueness of solutions and the general theory of linear differential equations; treatment is more rigorous than that given in MATH 285. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 441 and any of MATH 284, MATH 285, MATH 286. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348 is recommended.

MATH 442  Intro Partial Diff Equations  credit: 3 or 4 Hours.
Introduces partial differential equations, emphasizing the wave, diffusion and potential (Laplace) equations. Focuses on understanding the physical meaning and mathematical properties of solutions of partial differential equations. Includes fundamental solutions and transform methods for problems on the line, as well as separation of variables using orthogonal series for problems in regions with boundary. Covers convergence of Fourier series in detail. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 444  Elementary Real Analysis  credit: 3 or 4 Hours.
Careful treatment of the theoretical aspects of the calculus of functions of a real variable intended for those who do not plan to take graduate courses in Mathematics. Topics include the real number system, limits, continuity, derivatives, and the Riemann integral. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 444 and either MATH 424 or MATH 447. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent.

MATH 446  Applied Complex Variables  credit: 3 or 4 Hours.
For students who desire a working knowledge of complex variables; covers the standard topics and gives an introduction to integration by residues, the argument principle, conformal maps, and potential fields. Students desiring a systematic development of the foundations of the subject should take MATH 448. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 446 and MATH 448. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241.

MATH 447  Real Variables  credit: 3 or 4 Hours.
Careful development of elementary real analysis for those who intend to take graduate courses in Mathematics. Topics include completeness property of the real number system; basic topological properties of n-dimensional space; convergence of numerical sequences and series of functions; properties of continuous functions; and basic theorems concerning differentiation and Riemann integration. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 447 and either MATH 424 or MATH 444. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent; junior standing; MATH 347 or MATH 348, or equivalent experience; or consent of instructor.

MATH 448  Complex Variables  credit: 3 or 4 Hours.
For students who desire a rigorous introduction to the theory of functions of a complex variable; topics include Cauchy's theorem, the residue theorem, the maximum modulus theorem, Laurent series, the fundamental theorem of algebra, and the argument principle. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 448 and MATH 446. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 447.

MATH 450  Numerical Analysis  credit: 3 Hours.
Same as CS 450, CSE 401 and ECE 491. See CS 450.

MATH 453  Elementary Theory of Numbers  credit: 3 or 4 Hours.
Basic introduction to the theory of numbers. Core topics include divisibility, primes and factorization, congruences, arithmetic functions, quadratic residues and quadratic reciprocity, primitive roots and orders. Additional topics covered at the discretion of the instructor include sums of squares, Diophantine equations, continued fractions, Farey fractions, recurrences, and applications to primality testing and cryptography. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent. This course satisfies the General Education Criteria for: UIUC: Quant Reasoning II

MATH 461  Probability Theory  credit: 3 or 4 Hours.
Introduction to mathematical probability; includes the calculus of probability, combinatorial analysis, random variables, expectation, distribution functions, moment-generating functions, and central limit theorem. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 461 and either MATH 408 or ECE 313. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 463  Statistics and Probability I  credit: 4 Hours.
Same as STAT 400. See STAT 400.

MATH 464  Statistics and Probability II  credit: 3 or 4 Hours.
Same as STAT 410. See STAT 410.

MATH 469  Methods of Applied Statistics  credit: 3 or 4 Hours.
Same as STAT 420. See STAT 420.
MATH 471  Life Contingencies I  credit: 4 Hours.
Distribution of the time-to-death random variable for a single life, and its implications for evaluations of insurance and annuity functions, net premiums, and reserves. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 408 and MATH 210.

MATH 472  Life Contingencies II  credit: 3 Hours.
Continuation of MATH 471. Introduction to tabular or parametric survival models with single or multiple-life states; life insurance and annuity premium calculations; reserving and profit measures; introductions to universal life insurances, participating insurances, pension plans and retirement benefits. 3 undergraduate hours. No graduate credit. Credit is not given for MATH 472 and MATH 565. Prerequisite: MATH 471.

MATH 473  Fundamental Algorithms  credit: 3 Hours.
Same as CS 473 and CSE 414. See CS 473.

MATH 475  Formal Models of Computation  credit: 3 or 4 Hours.
Same as CS 475. See CS 475.

MATH 476  Investments and Financial Markets  credit: 3 Hours.
Theoretical foundation in financial models and their applications to insurance and other financial risks. Topics include derivative markets, no arbitrage pricing of financial derivatives, interest rate models, dynamic hedging and other risk management techniques. 3 undergraduate hours. No graduate credit. Credit is not given for MATH 476 and MATH 567. Prerequisite: Credit or concurrent registration in STAT 409 or STAT 410.

MATH 478  Loss Models  credit: 3 Hours.
Foundation in the actuarial modeling process; construction, selection and validation of empirical models and parametric models. Also covers survival, severity, frequency and aggregate loss models; statistical methods to estimate model parameters. 3 undergraduate hours. No graduate credit. Credit is not given for MATH 478 and MATH 568. Prerequisite: MATH 408, MATH 461 or MATH 463; credit or concurrent registration in MATH 409 or MATH 464.

MATH 479  Casualty Actuarial Mathematics  credit: 3 or 4 Hours.
An introduction to property/casualty actuarial science, exploring its mathematical financial, and risk-theoretical foundations. Specific topics include risk theory, loss reserving, ratemaking, risk classification, credibility theory, reinsurance, financial pricing of insurance, and other special issues and applications. 3 or 4 undergraduate hours. No graduate credit. Credit is not given for MATH 479 and MATH 569. Prerequisite: MATH 210; credit or concurrent registration in MATH 409; or consent of instructor.

MATH 481  Vector and Tensor Analysis  credit: 3 or 4 Hours.
Introductory course in modern differential geometry focusing on examples, broadly aimed at students in mathematics, the sciences, and engineering. Emphasis on rigorously presented concepts, tools and ideas rather than on proofs. The topics covered include differentiable manifolds, tangent spaces and orientability; vector and tensor fields; differential forms; integration on manifolds and Generalized Stokes Theorem; Riemannian metrics, Riemannian connections and geodesics. Applications to configuration and phase spaces, Maxwell equations and relativity theory will be discussed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 and one of MATH 415 or MATH 416 or equivalent.

MATH 482  Linear Programming  credit: 3 or 4 Hours.
Rigorous introduction to a wide range of topics in optimization, including a thorough treatment of basic ideas of linear programming, with additional topics drawn from numerical considerations, linear complementarity, integer programming and networks, polyhedral methods. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 410, MATH 415, or MATH 416.

MATH 484  Nonlinear Programming  credit: 3 or 4 Hours.
Iterative and analytical solutions of constrained and unconstrained problems of optimization; gradient and conjugate gradient solution methods; Newton's method, Lagrange multipliers, duality and the Kuhn-Tucker theorem; and quadratic, convex, and geometric programming. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348; or equivalent; MATH 415 or equivalent; or consent of instructor.

MATH 487  Advanced Engineering Math  credit: 3 or 4 Hours.
Complex linear algebra, inner product spaces, Fourier transforms and analysis of boundary value problems, Sturm-Liouville theory. Same as ECE 493. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 488  Math Methods In Engineering  credit: 3 or 4 Hours.
Matrices, determinants, bounds and approximations to eigenvalues, introduction to linear operator theory and inner product spaces, orthogonal expansions, and Fourier transforms. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 489  Dynamics & Differential Eqns  credit: 3 or 4 Hours.
Studies mathematical theory of dynamical systems, emphasizing both discrete-time dynamics and nonlinear systems of differential equations. Topics include: chaos, fractals, attractors, bifurcations, with application to areas such as population biology, fluid dynamics and classical physics. Basic knowledge of matrix theory will be assumed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 490  Advanced Topics in Mathematics  credit: 1 to 4 Hours.
Deals with selected topics and applications of mathematics; see Class Schedule or department office for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated with approval. Prerequisite: Consent of instructor.

MATH 492  Undergraduate Research in Math  credit: 1 to 3 Hours.
Work closely with department faculty on a well-defined research project. Topics and nature of assistance vary. Capstone paper or computational project required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms up to 8 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head.

MATH 496  Honors Seminar  credit: 3 Hours.
Careful study of a selected area of mathematics, carried out either deductively from axioms or inductively through problems; subject matter varies with instructor. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent of Mathematics Honors Committee.
MATH 499  Introduction Graduate Research  credit: 1 Hour.
Seminar is required of all first-year graduate students in Mathematics. It provides a general introduction to the courses and research work in all of the areas of mathematics that are represented at the University of Illinois at Urbana-Champaign. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Graduate standing or consent of instructor.

Actuarial Science
http://www.math.illinois.edu/ActuarialScience/

This major is sponsored by the Department of Mathematics, and is an interdisciplinary subject involving mathematics, statistics, and financial economics. It is designed to prepare students to enter the actuarial profession, as well as to provide a background in quantitative finance and risk management. See also Mathematics (p. 475) and Mathematics and Computer Science (p. 483).

For the Degree of Bachelor of Science in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
E-mail: mathadvising@illinois.edu

Minimum required major and supporting course work normally equates to 57-59 hours including 29-30 hours of mathematics beyond calculus.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

Departmental distinction: To qualify for distinction, the student must take MATH 472, have a grade point average in mathematics courses of at least 3.25, and pass at least two examinations offered by the professional actuarial societies. To qualify for high or highest distinction, the student must have passed at least three professional exams, with highest distinction going to those whose grade point averages in mathematics are at least 3.75. Finance courses and additional professional exams may also be given consideration in close decisions.

Applied Mathematics Concentration
For the Degree of Bachelor of Science in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
E-mail: mathadvising@illinois.edu

Minimum required major and supporting course work normally equates to 46-57 hours including 27-35 hours of mathematics beyond calculus, 3-4 hours of computer science, and 12 hours of supporting coursework.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study form, declaring concentration and supporting coursework, must be completed and submitted to the LAS Student Academic Affairs Office except for students in the Teaching of Mathematics concentration. Please complete this form with an advisor in the Mathematics Undergraduate Office within 1-2 semesters of completing MATH 347 or MATH 348.

Minimum hours required for graduation: 120 hours

Departmental distinction: Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

Total Hours: 49-52

1. Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
2. Beginning in Fall 2012, students may not receive credit for both MATH 416 and either MATH 410 or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of MATH 410 or MATH 415.
3. If MATH 424 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.
4. If STAT 400 is completed, a requirement for the Operations Research concentration has been satisfied.

### Graduate Preparatory Courses

The courses chosen from the core and the Graduate Preparatory concentration must include at least two of MATH 424, MATH 425, MATH 427, MATH 428.

<table>

</tr>
</tbody>
</table>

Two additional 400- or 500-level Math courses 6

Total Hours: 52-56

1. Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
2. Beginning in Fall 2012, students may not receive credit for both MATH 416 and either MATH 410 or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of MATH 410 or MATH 415.
3. If STAT 400 is completed, a requirement for the Operations Research concentration has been satisfied.

### Mathematics Concentration

For the Degree of Bachelor of Science in Liberal Arts and Sciences

**Major in Sciences and Letters Curriculum**

E-mail: mathadvising@illinois.edu

Information listed in this catalog is current as of 03/2017
Minimum required major and supporting course work normally equates to 46-57 hours including 27-35 hours of mathematics beyond calculus, 3-4 hours of computer science, and 12 hours of supporting coursework.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study form, declaring concentration and supporting coursework, must be completed and submitted to the LAS Student Academic Affairs Office except for students in the Teaching of Mathematics concentration. Please complete this form with an advisor in the Mathematics Undergraduate Office within 1-2 semesters of completing MATH 347 or MATH 348.

Minimum hours required for graduation: 120 hours

Departmental distinction: Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**Required Core Courses**

Two additional 400- or 500-level Math courses 6

Total Hours 46-49

1. Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
2. Beginning in Fall 2012, students may not receive credit for both MATH 416 and either MATH 410 or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of MATH 410 or MATH 415.
3. If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.
4. If STAT 400 is completed, a requirement for the Operations Research concentration has been satisfied.

**Mathematics and Computer Science**

**For the Degree of Bachelor of Science in Liberal Arts and Sciences**

**Major in Sciences and Letters Curriculum**

E-mail: academic@cs.illinois.edu or mathadvising@illinois.edu

Degree title: Bachelor of Science in Liberal Arts and Sciences

Minimum required major and supporting course work normally equates to 70 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

Departmental distinction: To graduate with distinction requires a specified minimum grade point average in all Computer Science and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction. In addition, students must complete at least three semester hours of additional Computer Science or Mathematics courses selected from the following: CS 196, CS 296, CS 397, CS 492, CS 493, CS 499, any CS course numbered 411 or higher, MATH 412, MATH 414, MATH 417, MATH 418, MATH 423, MATH 432, MATH 448, MATH 482, MATH 484, MATH 496.

NOTE: A student taking a cross-listed course in this major may designate it as either mathematics or computer science.

**Requirements**

Minor in Mathematics

E-mail: mathadvising@illinois.edu

Web address for department: www.math.illinois.edu (http://www.math.illinois.edu)

Students must complete MATH 241, and at least one 400-level MATH course for admission into the minor. The Mathematics minor is designed to prepare students majoring in some other discipline with a background in mathematics that is both broad and deep. Students interested in pursuing the minor should have completed the calculus sequence through MATH 241, and one additional Math course at the 400-level demonstrating a strong record of success in college-level mathematics courses. Given the cumulative character of mathematics preparation, students earning grades of C or below in previous mathematics courses are advised not to pursue the minor.

Information listed in this catalog is current as of 03/2017

CS/MATH 357 Numerical Methods I 3
CS 374 Introduction to Algorithms & Models of Computation 4
CS 421 Progmg Languages & Compilers 3
CS 457 Numerical Methods II 3
MATH 415 Applied Linear Algebra 3
or MATH 416 Abstract Linear Algebra 3

400-level mathematics and computer science requirements: 18

Students must select at least six 400-level mathematics and computer science courses, including one from each of the following groups:

GROUP I
CS 361 Probability & Statistics for Computer Science (recommended)
MATH 461 Probability Theory
STAT 400/ MATH 463 Statistics and Probability I
GROUP II
MATH 412 Graph Theory
MATH 417 Intro to Abstract Algebra
GROUP III
MATH 441 Differential Equations
MATH 446 Applied Complex Variables
MATH 448 Nonlinear Complex Variables
GROUP IV
MATH 444 Elementary Real Analysis
MATH 447 Real Variables
GROUP V
MATH 414 Mathematical Logic
CS/MATH 473 Fundamental Algorithms
CS/MATH 475 Formal Models of Computation
CS 476 Program Verification
CS 477 Formal Software Devel Methods
CS 481 Stochastic Processes & Applic
CS 482 Simulation

Minor in Mathematics

E-mail: mathadvising@illinois.edu

Teaching of Mathematics Concentration

For the Degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: mathadvising@illinois.edu

Minimum required course work normally equates to 80-84 hours including 27-29 hours of mathematics beyond calculus, 3-4 hours of computer science, and 39 hours for the Teacher Education Minor in Secondary School Teaching.

General education: Students must fulfill the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

This concentration fulfills state certification requirements to teach high school math (grades 9-12) through the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 126).

Time to degree completion varies. Minimum time to completion is 8 semesters, with some students requiring 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook (https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A=4.0). Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Departmental distinction: Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

Foundation Courses

Two additional 400- or 500-level mathematics courses 6

Total Hours 80-84

1 Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
2 Students may not receive credit for both MATH 416 and either MATH 410 or MATH 415.
3 If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.
4 If STAT 400 is completed, a group requirement for the Operations Research concentration has been satisfied.

Medieval Studies, Program In

Eleonora Stoppino, Director
4080 Foreign Languages Building
707 S. Mathews Avenue
Urbana, Illinois 61801
e-mail: medievalstudies@illinois.edu

PH: (217) 265-6254
FX: (217) 244-8430
http://medieval.illinois.edu

The purpose of the Program in Medieval Studies is to foster the interdisciplinary and cross-cultural study of the history, literature, languages, religion, philosophy, art, and archaeology of cultures across the globe from approximately the fourth through the fifteenth centuries C.E., by sponsoring activities such as seminars, conferences, symposia, and lectures, visiting scholars, and exchange and outreach programs, and by offering an undergraduate Interdisciplinary Studies Medieval Studies Concentration (p. 455) and Minor in Medieval Studies (p. 486).

Interdisciplinary Minor in Medieval Studies

Information listed in this catalog is current as of 03/2017
This minor introduces students to medieval (ca. 500- ca. 1500 CE) cultures across the world, providing them with an understanding of periods and movements, institutions, material culture, ideas, beliefs, and values of the diverse cultures that comprise the medieval globe. The coursework spans both geographical regions and disciplines to introduce students to the breadth of medieval cultures as well as to the diversity of methods and perspectives for their study.

The minor includes a minimum of 21 hours, divided into (i) an introductory course in global medieval literatures and cultures; (ii) geographical distribution coursework as specified below; and (iii) advanced medieval coursework selected by the student in consultation with a faculty advisor. 3 hours of appropriate language study can be applied to the Additional Medieval Studies Coursework.

**Courses**

**MDVL 111 Ancient to Medieval Art**

credit: 4 Hours.

Same as ARTH 111. See ARTH 111.

This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

**MDVL 122 Swords, Sorcery & Sex: The Middle Ages in Popular Culture**

credit: 3 Hours.

Same as ENGL 122. See ENGL 122.

This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

**MDVL 201 Medieval Lit and Culture**

credit: 3 Hours.

Same as CWL 253 and ENGL 202. See ENGL 202.

This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

**MDVL 216 Legends of King Arthur**

credit: 3 Hours.

Same as CWL 216 and ENGL 216. See ENGL 216.

This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

**MDVL 222 Medieval Art**

credit: 3 Hours.

Same as ARTH 222. See ARTH 222.

**MDVL 231 Northern Renaissance Art**

credit: 3 Hours.

Same as ARTH 231. See ARTH 231.

**MDVL 240 Italy Middle Ages & Renaiss**

credit: 3 Hours.

Same as CWL 240 and ITAL 240. See ITAL 240.

This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

Information listed in this catalog is current as of 03/2017
MDVL 245 Women & Gender Pre-Mod Europe credit: 3 Hours.
Same as GWS 245 and HIST 245. See HIST 245.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

MDVL 247 Medieval Europe credit: 3 Hours.
Same as HIST 247. See HIST 247.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

MDVL 251 Viking Mythology credit: 3 Hours.
Same as CWL 251, REL 251, and SCAN 251. See SCAN 251.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

MDVL 252 Viking Sagas in Translation credit: 3 Hours.
Same as CWL 252 and SCAN 252. See SCAN 252.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

MDVL 255 British Isles to 1688 credit: 3 Hours.
Same as HIST 255. See HIST 255.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

MDVL 344 Medieval Jewish Thought credit: 3 Hours.
Same as REL 344. See REL 344.

MDVL 345 Medieval Civilization credit: 3 Hours.
Same as HIST 345 and REL 345. See HIST 345.

MDVL 346 The Age of the Renaissance credit: 3 Hours.
Same as HIST 346 and REL 346. See HIST 346.

MDVL 403 European Education to 1600 credit: 2 to 4 Hours.
Same as EPS 403 and HIST 440. See EPS 403.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

MDVL 407 Introduction to Old English credit: 3 or 4 Hours.
Same as ENGL 407. See ENGL 407.

MDVL 410 Topics in Medieval Brit Lit credit: 3 or 4 Hours.
Same as CWL 417 and ENGL 412. See ENGL 412.

MDVL 411 Chaucer credit: 3 or 4 Hours.
Same as ENGL 411. See ENGL 411.

MDVL 412 Medieval Architecture credit: 3 Hours.
Same as ARCH 412. See ARCH 412.

MDVL 413 Dante credit: 3 or 4 Hours.
Same as CWL 413 and ITAL 413. See ITAL 413.

MDVL 414 Petrarch & Boccaccio credit: 3 or 4 Hours.
Same as CWL 414 and ITAL 414. See ITAL 414.

MDVL 415 Classical Rhetorics credit: 3 or 4 Hours.
Same as CLCV 415 and CMN 415. See CMN 415.

MDVL 417 History of the French Language credit: 3 or 4 Hours.
Same as FR 417. See FR 417.

MDVL 420 Masterpieces Renaiss Lit credit: 3 or 4 Hours.
Same as CWL 420 and ITAL 420. See ITAL 420.

The School of Molecular and Cellular Biology also sponsors the Minor in MCB and the Biochemistry Specialized Curriculum.

The School of Molecular and Cellular Biology offers the following degree programs:
For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students choose the Molecular and Cellular Biology concentration (p. 494) or the MCB Honors concentration (p. 495)

For the Degree of Bachelor of Science in Biochemistry

Major in Specialized Curriculum in Biochemistry (p. 495)

Minor in Molecular and Cellular Biology

The minor, administered by the School of Molecular and Cellular Biology, is designed to provide students with an understanding of foundational principles of physiology, cellular and developmental biology, microbiology, molecular genetics and biochemistry. A minor in Molecular and Cellular Biology will prepare students for training in medicine and other health sciences, graduate studies in related disciplines, as well as for employment opportunities in pharmaceutical and biotechnology industries.

Students must contact an MCB advisor (https://mcb.illinois.edu/undergrad/advising) for acceptance into the minor. MCB 150 must be completed or in progress before acceptance into the minor.

**MCB 244**  Human Anatomy & Physiology I 3
or **MCB 246**  Human Anatomy & Physiology II

**MCB 250**  Molecular Genetics 3

**MCB 251**  Exp Techniqs in Molecular Biol 2

**MCB 252**  Cells, Tissues & Development 3

**MCB 253**  Exp Techniqs in Cellular Biol 2

**MCB 354**  Biochem & Phys Basis of Life 3
or **MCB 450**  Introductory Biochemistry

Choose one additional 3-5 credit hour course from the approved list of 300- and 400-level courses for MCB majors. 3-5

Total Hours 19-21

BiOP Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/BIOPIOP)

**Biophysics Courses**

**BIOP 401**  Introduction to Biophysics  credit: 3 or 4 Hours.  
Same as PHYS 475. See PHYS 475.

**BIOP 419**  Brain, Behavior & Info Process  credit: 3 Hours.  
Same as MCB 419 and NEUR 419. See MCB 419.

**BIOP 432**  Photosynthesis  credit: 3 Hours.  
Same as CPSC 489 and IB 421. See IB 421.

MCB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MCB)

**Molecular and Cell Biology Courses**

**MCB 100**  Introductory Microbiology  credit: 3 Hours.  
Introduction to the principal activities and properties of microorganisms, including bacteria, yeasts, molds, and viruses; consideration of the role of natural processes, such as photosynthesis; and man’s use and control of microorganisms in the production of antibodies and vaccines in industrial fermentations, in sanitation and public health, and in agriculture. Credit is not given for both MCB 100 and MCB 300. Prerequisite: There are no prerequisites for MCB 100, but some chemistry is recommended. This course satisfies the General Education Criteria for: UIUC: Life Sciences

**MCB 101**  Intro Microbiology Laboratory  credit: 2 Hours.  
Laboratory introduction to the techniques employed in the investigation of microbial activities and properties; experiments designed to familiarize the student with the handling, identification, and characterization of microorganisms and their activities, particularly those of interest to man. Credit is not given for both MCB 101 and MCB 301. Prerequisite: Credit or concurrent registration in MCB 100.

**MCB 150**  Molec & Cellular Basis of Life  credit: 4 Hours.  
Introductory course focusing on the basic structure, metabolic, and molecular processes (including membranes, energy metabolism, genes) common to all cells. Emphasis on unique properties that differentiate the major sub-groups of organisms (Archaea, Bacteria, plants, and animals), and will discuss how cells are integrated into tissues and organs in multicellular organisms. This course satisfies the General Education Criteria for: UIUC: Life Sciences

**MCB 151**  Molec & Cellular Laboratory  credit: 1 Hour.  
Introductory laboratory course focusing on basic techniques in molecular and cellular biology. Credit is not given for MCB 151 for students majoring in Molecular and Cellular Biology, or Integrative Biology; Credit is not given for both MCB 151 and MCB 251. Prerequisite: Concurrent enrollment in MCB 150.

**MCB 170**  Society and the Brain  credit: 3 Hours.  
Presents recent findings concerning the brain-society interaction. The facts will span many levels, from molecular and cellular interactions, to the functions of specific brain regions, and on to the behaviors of individuals, groups and societies. Intended to bring a broad range of neurobiological data and ideas into an interesting and relevant context. This course satisfies the General Education Criteria for: UIUC: Life Sciences

**MCB 180**  Human Reproduction & Society  credit: 3 Hours.  
Lectures and discussions on topics in human reproduction where technological and clinical advances are having economic, social, and ethical consequences. This course satisfies the General Education Criteria for: UIUC: Life Sciences

**MCB 198**  Internship  credit: 0 Hours.  
Full-time or part-time internship at another University or an off-campus medical facility, research institute or other approved institution. Approved for S/U grading only. May be repeated. Prerequisite: For MCB and Biochemistry majors only.

**MCB 199**  Undergraduate Open Seminar  credit: 1 to 5 Hours.  
Approved for letter and S/U grading. May be repeated to a maximum of 10 hours.
MCB 215  Foundation in Mol & Cell Bio  credit: 3 Hours.
Online course that will provide transfer students with the essential bases in Molecular and Cellular Biology needed to succeed in the MCB core curriculum, when entering it at the sophomore level. Students will be exposed to the major concepts and the experimental aspects of MCB and be presented with an integrated view of a cell and its inner workings. In addition, a strong peer mentoring program will help students transitioning from their previous institutions by introducing them to the complex setting of a large undergraduate campus. Prerequisite: Successful completion of two semesters of college biology. Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent, or consent of instructor.

MCB 244  Human Anatomy & Physiology I  credit: 3 Hours.
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems: skeletal, muscle, nervous, sensory, and endocrine. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 245  Human Anat & Physiol Lab I  credit: 2 Hours.
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems: tissue, skeletal, nervous, muscular, sensory, and endocrine. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 246  Human Anatomy & Physiology II  credit: 3 Hours.
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems: digestion, cardiovascular, respiratory, renal, and reproductive. Prerequisite: MCB 244 and credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent or consent of instructor.

MCB 247  Human Anat & Physiol Lab II  credit: 2 Hours.
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems: digestive, cardiovascular, respiratory, renal, and reproductive. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: MCB 245 and credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 250  Molecular Genetics  credit: 3 Hours.
Fundamentals of molecular biology including structure of DNA, RNA and proteins, mechanisms of DNA replication, transcription and translation, gene organization, genetic variation and repair, and regulation of gene expression in Bacteria, and Eukarya. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 150, CHEM 102 and CHEM 104, or equivalents or consent of instructor.

MCB 251  Exp Techniqs in Molecular Biol  credit: 2 Hours.
Laboratory course emphasizing a range of molecular biology questions, and the experimental approaches and methodologies needed to answer these questions. Lectures will accompany labs to explain theoretical background and experimental rationale. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Credit is not given for both MCB 251 and MCB 151. Prerequisite: Concurrent or prior enrollment in MCB 250 or consent of instructor.

MCB 252  Cells, Tissues & Development  credit: 3 Hours.
Functional organization and physiology of cells and tissues, including cellular signaling, cellular interactions, and developmental processes. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 250 or equivalent with consent of instructor.

MCB 253  Exp Techniqs in Cellular Biol  credit: 2 Hours.
Laboratory course emphasizing experimental techniques in cellular biology, cellular physiology, and developmental biology. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Credit is not given for both MCB 253 and MCB 151. Prerequisite: Concurrent or prior enrollment in MCB 252 or consent of instructor.

MCB 270  Medical Genetics  credit: 3 Hours.
Addresses key issues in medical genetics, defined as human genetics for pre-health care professionals. The course covers basic principles of medical ethics, modes of inheritance, the molecular basis of genetic disorders, treatment approaches, gene therapy and emerging technologies like whole genome sequencing. Prerequisite: MCB 252 or equivalent or consent of instructor.

MCB 290  Undergraduate Research  credit: 1 to 5 Hours.
Students assist in and/or conduct research under faculty supervision in an MCB research laboratory. The topics and nature of the work will vary but will be defined as work conducted in MCB research laboratories. For each hour of course credit in fall and spring terms, the student will be expected to complete 5 hours of work in the lab as directed. 75-80 total hours would be the expectation for 1 credit hour during 15-16 week terms. May be repeated to a maximum of 10 hours. Prerequisite: Consent of instructor.

MCB 291  Undergraduate Research Abroad  credit: 1 to 5 Hours.
Students engage in research under faculty supervision at a location outside of the United States. Topics and precise nature of assistance to be determined by MCB faculty in consultation with faculty at the institution. May be repeated in separate terms up to 10 hours. Prerequisite: Consent of MCB faculty who has approved the proposed research plan; consent of faculty member at institution abroad who will be supervising the work and has approved the proposed research plan; evidence of adequate preparation for such study; consent of School of MCB. Not available to freshman.

MCB 297  MCB Honors Discussion  credit: 1 Hour.
Honors discussion section associated with MCB 250, MCB 252, and MCB 354. Concurrent enrollment in the appropriate lecture course is required. May be repeated in separate terms to a maximum of 3 hours.
MCB 250 or consent of instructor.

MCB 299 MCB Merit Program Discussion credit: 1 Hour.
Provides the extra earned credit hours for students enrolled in the Merit Program in MCB 250, MCB 252, or MCB 354. Approved for letter and S/U grading. May be repeated up to 6 hours in a semester, to a maximum of 10 total hours. Prerequisite: Consent of instructor.

MCB 300 Microbiology credit: 3 Hours.
Emphasizes fundamental concepts of microbiology, including nutrition, physiology, genetics, molecular biology, ecology and evolution of microorganisms, and their role in nature, human health and disease. Credit is not given for both MCB 300 and MCB 100. Prerequisite: MCB 250 and credit or concurrent registration in MCB 252 or consent of instructor.

MCB 301 Experimental Microbiology credit: 3 Hours.
Laboratory emphasizing the fundamentals of microbiology. Topics include growth, isolation, and identification of bacteria; restriction endonuclease analysis of DNA, genetic cloning, and gene transfer. Computer methods are used for the identification of microorganisms and for the analysis of recombinant DNA molecules. Prerequisite: MCB 250 and 251 and credit or concurrent registration in MCB 300, or consent of instructor.

MCB 314 Introduction to Neurobiology credit: 3 Hours.
Introduction to functional and organizational principles of the mammalian nervous system. Topics include the function of nerve cells, neural signaling, sensory and motor systems, learning and memory, attention, motivation, emotions, language, neural development and neurological disorders. A general introduction appropriate for all majors. Same as NEUR 314. Prerequisite: Junior or senior standing.

MCB 316 Genetics and Disease credit: 4 Hours.
Introduction of the structure, expression, and regulation of genes of higher eukaryotes with an emphasis upon animal cells. Specific topics will include chromatin structure and its relation to gene expression, regulation of gene expression during development, recombination, molecular genetic technologies, gene replacement therapy, and the molecular genetics of cancers. Credit is not given for both MCB 316 and MCB 317. Prerequisite: MCB 150 and credit or concurrent registration in MCB 250 or consent of instructor.

MCB 317 Genetics and Genomics credit: 4 Hours.
Study of genetics as a discipline, genetic analysis as a tool to understand biology and the role of genome sciences in biology. Credit is not given for both MCB 317 and MCB 316. Prerequisite: MCB 250, MCB 251, MCB 252, and MCB 253; or consent of instructor.

MCB 320 Mechanisms of Human Disease credit: 3 Hours.
The advent of molecular biology and the Human Genome Project has dramatically increased our understanding of the mechanisms of human disease. The underlying molecular causes for many diseases have been elucidated. This course examines how abnormalities that occur at the molecular and cellular level manifest as pathologies affecting the structure and function of human tissues and organs. In addition, this course focuses on the pathophysiology of common human diseases and the environmental, genetic and epigenetic causes of specific disease types. Prerequisite: MCB 252 or consent of instructor.

MCB 354 Biochem & Phys Basis of Life credit: 3 Hours.
Introduction to biochemistry and structural biology emphasizing the physical and chemical properties of macromolecules. Credit is not given for both MCB 354 and MCB 450. Prerequisite: CHEM 232 or CHEM 236, and MCB 250 and MCB 252, or consent of instructor.

MCB 395 Special Topics in Human Physiology credit: 2 Hours.
This course consists of 2 components: (1) a journal club, in which students explore current advances in the diagnosis, treatment, and understanding of human diseases by reading, presenting and discussing primary research articles; and (2) instructional support for MCB 244, in which students hold open office hours and make brief (10-15 minute) instructional videos that highlight advanced topics covered in journal club. Prerequisite: MCB 244 and MCB 246 and instructor approval.

MCB 396 Special Topics in Human Health and Disease credit: 2 Hours.
This course consists of 2 components: (1) a journal club, in which students explore current advances in the diagnosis, treatment, and understanding of human diseases by reading, presenting and discussing primary research articles; and (2) instructional support for MCB 246, in which students hold open office hours and make brief (10-15 minute) instructional videos that highlight advanced topics covered in journal club. Prerequisite: MCB 244 and MCB 246 and instructor approval.

MCB 400 Cancer Cell Biology credit: 3 Hours.
Principles of eukaryotic cell biology with an emphasis on cancer cell biology, consideration of molecular and fine structural components of the cell with an emphasis on experimental analysis of the relationship of structure to function of gene, membrane, cytoskeleton, and extracellular matrix. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and credit or concurrent registration in MCB 354 or MCB 450 or consent of instructor.

MCB 401 Cell & Membrane Physiology credit: 3 Hours.
Cellular and molecular basis of physiological process with an emphasis on phenomena taking place at the membrane of cells and organelles (e.g., signal transduction, ion transport, synaptic transmission, nerve conduction, bioelectricity, synaptic plasticity.) Structure and function of biological membranes through a quantitative lens. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 402 Sys & Integrative Physiology credit: 3 Hours.
Examines human systems physiology. Topics to be covered include the nervous and endocrine systems, muscle physiology, cardiac physiology, respiratory physiology, blood and immune homeostasis, renal physiology, and gastrointestinal physiology and energy homeostasis. Special emphasis is on homeostatic control and integration of body systems in both health and disease. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 403 Cell & Membrane Physiology Lab credit: 1 or 2 Hours.
Experimental investigation of cellular functions common to most eukaryotic cells; emphasis on biochemical, electrical, and mechanical recording techniques. Some animal dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of or the dissection of animal tissues can be directed to the Instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent registration in MCB 401 and previous biology laboratory experience.
MCB 404  Sys & Integrative Physiol Lab  credit: 1 to 2 Hours.
Experimental investigation of organ systems of vertebrates with emphasis on biochemical, electrical and physical recording techniques. Some animal dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of, or the dissection of animal tissues can be directed to the instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent registration in MCB 402 and previous biology laboratory experience.

MCB 406  Gene Expression & Regulation  credit: 3 Hours.
Provides in-depth and up-to-date coverage of gene expression and regulation. Lectures are centered on the principles of regulating gene expression in eukaryotic cells. The course covers macromolecule structure and function in gene expression; molecular mechanisms of the key gene expression events including transcription, RNA processing, localization and translation. Applications of these principles in medicine and therapeutics such as aging, cancer and drug design are also discussed. Same as BIOL 406. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 354 or consent of instructor.

MCB 408  Immunology  credit: 3 Hours.
Introduction to fundamentals of immunology with emphasis on biological application; basic background for understanding immunological responses and techniques applicable to biological research. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and MCB 354; or consent of instructor.

MCB 410  Developmental Biology  credit: 4 Hours.
Survey of molecular and cellular mechanisms involved in development and growth of animals. Topics to be covered include fertilization and early cell lineage, body axis formation, gastrulation, neural induction and patterning, segmentation, and other aspects of pattern formation including organogenesis of branching organs, limb development and regeneration. 4 undergraduate hours. 4 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 413  Endocrinology  credit: 3 Hours.
Physiology and biochemistry of the endocrine system and its hormones with special reference to vertebrates and to human endocrine disorders. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor. One semester of biochemistry is recommended.

MCB 419  Brain, Behavior & Info Process  credit: 3 Hours.
Exploration of the neural basis of animal behavior. Emphasis on the information processing problems that animals face in complex natural environments and how nervous systems have evolved to solve these problems. Introduction to the use of computer modeling and simulation techniques for exploring principles of nervous system design and function. Current literature in computational neurobiology and neuroethology will be incorporated in readings and class discussion. Same as BIOL 419 and NEUR 419. 3 undergraduate hours. 3 graduate hours. Prerequisite: CS 101; and PHYS 102 or PHYS 212; and MCB 252; or equivalent or consent of instructor.

MCB 421  Microbial Genetics  credit: 3 Hours.
Prokaryotic microbial genetic systems; emphasis on typical data analyses, together with the basic classes of genetic phenomena. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or consent of instructor.

MCB 424  Microbial Biochemistry  credit: 3 Hours.
Examines the biochemical ecology of diverse microbial groups with emphasis on anaerobic systems. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 and MCB 354 or MCB 450, or consent of instructor.

MCB 426  Bacterial Pathogenesis  credit: 3 Hours.
Emphasizes prokaryotes that cause important diseases in humans and other animals; host-parasite bacteriology; and chemistry and genetics of mechanisms of pathogenesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354, or consent of instructor.

MCB 428  Microbial Pathogens Laboratory  credit: 2 Hours.
Laboratory study of methods of recognition and differentiation, diagnostic tests, and mechanisms of bacterial and viral pathogenesis. Topics include infections of the urinary tract, respiratory tract, gastrointestinal tract, and sexually transmitted diseases. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 300 and MCB 301 or consent of instructor.

MCB 429  Cellular Microbiology & Disease  credit: 3 Hours.
Emphasizes cell biology of infectious diseases, using cellular, molecular, and animal models. Will stress molecular cross-talk that drives host-pathogen interactions, state-of-the-art techniques for investigating host and microbial cell and molecular biology, latest paradigms in host cell biology, and, the evolutionary basis by which pathogens can manipulate host cell cytoskeleton, membranes, organelles, cell cycle, gene expression, and signaling in eukaryotic cells. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354 or consent of instructor.

MCB 430  Molecular Microbiology  credit: 3 Hours.
Modern contributions to the science of microbiology; emphasizes the structure, function, and synthesis of informational macromolecules and on the role microorganisms have played in molecular biology. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and credit or concurrent registration in MCB 354, or consent of instructor.

MCB 431  Microbial Physiology  credit: 3 Hours.
Examines bacterial physiology, including discussions of energetics, regulation of metabolism, and cell structure. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or equivalent; credit or concurrent registration in a biochemistry course.

MCB 432  Computing in Molecular Biology  credit: 3 Hours.
Examination of computational aspects of biology with an emphasis on the relationships between biological questions and their recastings as mathematical or logical problems. Topics are drawn from biochemistry, genetics, molecular sequence analysis, and molecular structure. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, MCB 354, and calculus I (MATH 220 or MATH 221), and calculus II (MATH 231) or biostatistics (STAT 212); or consent of instructor.

MCB 433  Virology & Viral Pathogenesis  credit: 3 Hours.
Same as PATH 433. See PATH 433.

MCB 434  Food & Industrial Microbiology  credit: 3 Hours.
Same as FSHN 471. See FSHN 471.
MCB 435 Evolution of Infectious Disease  credit: 3 Hours.
Understanding the evolution and ecology of the microbial world is of great importance to human health and the health of our planet. Students will explore the ecology and evolution principles that apply to viruses, microbial eukaryotes, archaea and bacteria. The primary literature on historical and emerging infectious diseases will be used to illustrate critical applications of these basic principles. Examples include applying genomics tools to understand the evolutionary basis for antibiotic resistance, the spread of emerging pathogens, and the ecology of probiotics and the human microbiome. The objective of this class is to better understand how humans shape the diversity and dynamics of the microbial world living in and around us every day. Same as IB 442. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 354 or consent of instructor.

MCB 436 Global Biosecurity  credit: 1 Hour.
Designed to provide students with broad coverage of key areas of scientific, legal, social, ethical, and political aspects of biosecurity, emphasizing current problems and research in the areas of biodefense, emerging infectious diseases, synthetic biology, and other topics. In combination with related reading assignments, the weekly special topics-based seminar will integrate knowledge of modern biomedical research, advances in biotechnology, and natural and manmade biological threats with the skills to analyze and develop public policies and strategies for enhancing global biosecurity. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 or the equivalent or consent of instructor.

MCB 442 Comparative Immunobiology  credit: 4 Hours.
Same as ANSC 450 and PATH 410. See ANSC 450.

MCB 446 Physical Biochemistry  credit: 3 Hours.
Same as CHEM 472 and BIOC 446. See BIOC 446.

MCB 450 Introductory Biochemistry  credit: 3 Hours.
Chemistry and metabolism of carbohydrates, lipids, proteins, nucleic acids, vitamins, and coenzymes and their relation to the regulation and processes of organisms, cells, and subcellular components. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MCB 450 and MCB 354. Prerequisite: CHEM 232 or CHEM 236, or equivalent, or consent of instructor. Not intended for students in the MCB or biochemistry curricula.

MCB 458 Basic Human Pathology  credit: 3 Hours.
Introduction to the basic mechanisms of human disease with a focus on the building blocks of pathological processes at the sub-organismal and organismal level. Basic biological processes will be stressed including tissue adaptation, injury, inflammation, repair and neoplasia. Pathology synthesizes cellular and molecular biology, biochemistry and immunology holistically so as to understand the body's limited responses to the cornucopia of experienced physiological insults. 3 undergraduate hours. No graduate credit. Prerequisite: MCB 354 or equivalent, or consent of instructor. For MCB and Biochemistry undergraduate majors only.

MCB 460 Regeneration and Medicine  credit: 3 Hours.
A survey of regeneration biology and medicine at the organ, tissues, and cellular/genetic/molecular/levels. Basic concepts are presented with a focus on contemporary methods and seminal experiments. Students will learn to think critically and creatively about experimentation and analyses of three regenerative medicine strategies: stem cell transplantation, bioartificial tissues, and chemical induction of regeneration in vivo. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 410 or consent of instructor. Recommended: knowledge of vertebrate histology and anatomy.

MCB 461 Cell & Molecular Neuroscience  credit: 3 Hours.
Designed as an in-depth foundation course for graduate and undergraduate students with strong neuroscience interests. Covers up-to-date cellular and molecular neurobiology (including basic principles of neuronal function, signaling, and plasticity) and introductory brain anatomy that underlie brain function and animal behaviors. Pathogenic mechanisms of neurological diseases and disorders from the latest research will be heavily explored. Same as NEUR 461. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252, MCB 250 or equivalent, or consent of instructor. May be taken concurrently with MCB 462.

MCB 462 Integrative Neuroscience  credit: 3 Hours.
Employs integrative, multi-level systems approaches to nervous system behavior. Focuses on neural circuits in sensory integration, pattern generation, the integration of sensation, internal states and learning in behavioral decision, the neuronal natures of pain, sleep, and biological rhythms, neuroeconomics, new vistas in neural modeling and interfacing brain and machine. Students are presented in neuroethological contexts of evolution and the economics of behavior and physiology. Same as NEUR 462. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor. May be taken concurrently with MCB 461.

MCB 465 Human Metabolic Disease  credit: 3 Hours.
Examination of the molecular and physiological basis of human metabolic disease. Disruption of metabolic and energy homeostasis plays key roles leading to metabolic disorders. We will examine how lipid/glucose levels and energy balance are controlled in health and how they are abnormally regulated in disease sates. In addition, we will cover current topics related to control of metabolism including aging and circadian rhythms. Methodologies leading to scientific discoveries and potential preventive and therapeutic agents will also be discussed. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, or consent of instructor.

MCB 471 Cell Structure and Dynamics  credit: 3 Hours.
Molecular basis of cellular organization focusing on how cells secrete, move, adhere, divide, communicate, and die. Material will emphasize critical analysis of experiments, current controversies and hypothesis testing. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 and MCB 252 or consent of instructor. Prior or concurrent enrollment in MCB 354 desirable.

MCB 480 Eukaryotic Cell Signaling  credit: 2 Hours.
General principles of molecular signaling regulating membrane, cytoplasmic, and nuclear events in eukaryotic cells with emphasis on mammalian systems. Contemporary methods of investigation and the principles of identifying and solving problems related to signal transduction will be emphasized. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 252 or consent of instructor.
MCB 481 Developmental Neurobiology credit: 3 Hours.
Principles of vertebrate and invertebrate developmental neurobiology with emphasis on the molecular and cellular mechanisms controlling neuronal determination, axon pathfinding, synapse formation, and plasticity. Same as NEUR 481. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 400 or MCB 461 or consent of instructor.

MCB 492 Senior Thesis credit: 3 to 5 Hours.
Research conducted under the direction of a faculty member in the School of Molecular and Cellular Biology. Normally, the student enrolls in MCB 492 during the last semester on campus prior to graduation. In the semester preceding enrollment, interested students should consult with their faculty advisors concerning enrollment procedures. A minimum of 3 credit hours is required, and a thesis must be presented for credit to be received. Successful completion of MCB 492 is required in order to be eligible for graduation with distinction in MCB. 3 to 5 undergraduate hours. No graduate credit. Prerequisite: Two consecutive semesters of at least 2 credit hours of MCB 290 under the guidance of the same faculty member, or consent of instructor.

MCB 493 Special Topics Mol Cell Biol credit: 1 to 4 Hours.
Discussion of current topics of interest within the broad domain of molecular and cellular biology; seminar or lecture format. Topics vary. May be repeated to a maximum of 12 hours. Prerequisite: Junior standing and consent of instructor.

NEUR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/NEUR)

Neuroscience Courses

NEUR 314 Introduction to Neurobiology credit: 3 Hours.
Same as MCB 314. See MCB 314.

NEUR 403 Memory and Amnesia credit: 3 or 4 Hours.
Same as PSYC 403. See PSYC 403.

NEUR 405 Cognitive Neuroscience credit: 3 or 4 Hours.
Same as PSYC 404. See PSYC 404.

NEUR 413 Psychopharmacology credit: 3 or 4 Hours.
Same as PSYC 413. See PSYC 413.

NEUR 414 Brain, Learning, and Memory credit: 3 or 4 Hours.
Same as PSYC 414. See PSYC 414.

NEUR 419 Brain, Behavior & Info Process credit: 3 Hours.
Same as BIOP 419 and MCB 419. See MCB 419.

NEUR 421 Principles of Psychophysiology credit: 3 or 4 Hours.
Same as PSYC 421. See PSYC 421.

NEUR 432 Genes and Behavior credit: 3 Hours.
Same as ANTH, IB 432, and PSYC 432. See IB 432.

NEUR 433 Evolutionary Neuroscience credit: 3 or 4 Hours.
Same as PHIL 433 and PSYC 433. See PSYC 433.

NEUR 450 Cognitive Psychophysiology credit: 3 or 4 Hours.
Same as PSYC 450. See PSYC 450.

NEUR 451 Neurobio of Aging credit: 0 to 4 Hours.
Same as PSYC 451 and KIN 458. See PSYC 451.

NEUR 453 Cog Neuroscience of Vision credit: 3 or 4 Hours.
Same as PSYC 453. See PSYC 453.

NEUR 461 Cell & Molecular Neuroscience credit: 3 Hours.
Same as MCB 461. See MCB 461.

NEUR 462 Integrative Neuroscience credit: 3 Hours.
Same as MCB 462. See MCB 462.

NEUR 481 Developmental Neurobiology credit: 3 Hours.
Same as MCB 481. See MCB 481.

Molecular and Cellular Biology Concentration

For the Degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail address: undergrad@mcb.illinois.edu

Students receive a Degree of Bachelor of Science in Liberal Arts and Sciences

Minimum required courses: 67-71 hours, including 21 hours of 300- or 400-level courses; 12 hours of 300- and 400-level courses in the major must be taken on this campus.

General Education requirements: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Certain advanced courses may be taken prior to completion of the MCB 250-MCB 253, MCB 354 sequence with permission of an academic advisor. A minimum of 15 hours of 300- or 400-level courses in MCB from the approved list is required.

In addition, undergraduate research (MCB 290, MCB 291 or departmental equivalent) is strongly recommended for students planning to go to graduate school. No more than 10 hours of MCB 290, MCB 291 or departmental equivalent credit may be counted towards the 120 hours required for a degree in MCB.

Minimum hours required for graduation: 120 hours.

Students earning a degree in Molecular and Cellular Biology may not also earn a second degree in the Specialized Curriculum in Biochemistry.

Students earning a degree in Molecular and Cellular Biology may not double major in Integrative Biology.

MATH 220 Calculus 4-5
or MATH 221 Calculus I

MATH 231 Calculus II 3
or STAT 212 Biostatistics

Select one group of courses: 8-10

CHEM 102 General Chemistry I
& CHEM 103 General Chemistry Lab I
& CHEM 104 General Chemistry II
& CHEM 105 General Chemistry Lab II

CHEM 202 Accelerated Chemistry I
& CHEM 203 Accelerated Chemistry Lab I
& CHEM 204 Accelerated Chemistry II
& CHEM 205 Accelerated Chemistry Lab II

CHEM 232 Elementary Organic Chemistry I 4
CHEM 233 Elementary Organic Chem Lab I 2

Select one group of courses: 10-12

PHYS 101 College Physics: Mech & Heat
& PHYS 102 College Physics: E&M & Modern
**Molecular and Cellular Biology Honors Concentration**

The Molecular and Cellular Biology Honors Concentration is designed for students whose preparation and interests motivate them to desire a more intensive undergraduate biology experience and to prepare for graduate or professional school. The MCB Honors Concentration is based on the MCB concentration (p. 494). Students must satisfy all of the requirements for the MCB concentration in addition to the requirements for the MCB Honors Concentration. Students interested in the MCB Honors Concentration (http://mcb.illinois.edu/undergrad/honors) should contact the MCB Honors Concentration coordinator (shawna@illinois.edu) during the freshman year for more information.

### Distinction

Students in MCB can qualify for Distinction via one of the following:

**Distinction for Excellence in Research:**

To be eligible for graduation with Distinction a student must:

- Complete 3 semesters of MCB 290 for 2 credit hours or more each semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator.

**To be eligible for graduation with High Distinction a student must:**

- Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee.

**To be eligible for graduation with Highest Distinction a student must:**

- Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.90 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee. Distinction for Excellence in Academics:

**To be eligible for graduation with Academic Distinction a student must:**

- Maintain a major GPA of 3.90 or higher in the MCB major (biology, chemistry, physics and math courses for the MCB major) at the end of their penultimate semester.

### Specialized Curriculum in Biochemistry

**For the Degree Bachelor of Science in Biochemistry**

The typical program of courses required to satisfy this degree totals 126-131 hours as outlined below including up to 12 hours of non-primary language (if not completed in high school); in no case will a program totaling less than 120 hours qualify for graduation. In addition, in order to graduate there is a minimum 2.0 cumulative academic grade point average and student must attain a 2.5 academic grade point average in the chemistry, biochemistry, biology, mathematics, physics and advanced electives in science/engineering courses specified in this curriculum. All proposals for course substitutions must be approved by the academic advisor. This curriculum is intended for those students who desire a rigorous education in chemistry, biochemistry, and biology, who have

Web address for department: http://mcb.illinois.edu/departments/biochemistry

All students must complete the General education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Minimum hours required for graduation: 120 hours

Students earning the Biochemistry degree automatically complete the Chemistry minor. Students earning a degree in the Specialized Curriculum in Biochemistry may not earn a second degree in the Science and Letters Curriculum in Molecular and Cellular Biology.

Departmental distinction: A student seeking distinction must satisfy the following:

- Complete a minimum of 6 credit hours of undergraduate research (BIOC 290 and BIOC 492) with a minimum of 4 credit hours of BIOC 492.
- Earn at least a 3.25 grade-point average.
- Present a senior thesis to the department.

Information listed in this catalog is current as of 03/2017

---

1. Transfer credit must be approved by an advisor in biochemistry in order to be used to satisfy degree requirements.
2. A more detailed description of the requirements is listed in the Biochemistry Curriculum Handbook, available in room 419A of Roger Adams Laboratory.
3. PHYS 213 is not required if CHEM 442/CHEM 444 sequence is taken.
4. Freshman orientation course is under development and will be required. See advisor for details.
5. An approved list of current courses will be updated annually in January/February for the coming year. Contact advisor.
Philosophy

Kirk Sanders, Department Head
105 Gregory Hall, 810 South Wright, Urbana
PH: (217) 333-2889
http://www.philosophy.illinois.edu/

Philosophy is the oldest, broadest, and most fundamental form of inquiry. Some philosophical questions have to do with the understanding of ourselves and whatever else there may be. Others focus upon the nature of different forms of knowledge and experience, and upon ethical issues and problems of value. The study of philosophy is one of the most important elements in a good liberal education. It also improves one's ability to think clearly, and to construct, analyze, and criticize arguments of any kind. The major and minor are sponsored by the Department of Philosophy.

Major in Philosophy

Major in Sciences and Letters Curriculum

E-mail: phildept@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting course work normally equates to 44 hours including at least 32 hours of Philosophy courses

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Eligibility for distinction may be pursued by either:

1. the thesis option, which requires at least 35 hours of philosophy courses (including 5 courses at the 300- or 400-level), a grade point average of 3.5 in all philosophy courses, and writing a thesis; or
2. the course work option, which requires 38 hours of philosophy (including 8 advanced courses) and a 3.5 grade point average in all philosophy courses. For further information, inquire in the department office.

32 hours of Philosophy courses including: 1

</tbody>
</table>

At least 15 additional hours of course work in philosophy, with 12 of those hours being above the 100 level (including at least two 300- or 400-level courses).

A student may select either of two types of programs of supporting course work and should work out a specific program of the type chosen with the help and approval of a departmental adviser.

Twelve hours minimum. Select from:

Option I: Intensive study in another discipline. Courses normally beyond the 100 level in one other discipline. Most approved minors satisfy this requirement. A second major may also be used to satisfy this requirement

or

Option II: A special program of study built around a unifying theme or topic. Course work outside philosophy in one or more other discipline(s), normally beyond the 100 level.

Total Hours 44

1 If possible, students should take these courses prior to the senior year. Substitutions may be made only with the approval of the chair of the department.

2 Those considering graduate work in philosophy should take PHIL 202.

Minor in Philosophy

E-mail: phildept@illinois.edu

Web address for department: www.phil.illinois.edu (http://www.philosophy.illinois.edu)

PHIL 203 | Ancient Philosophy |
PHIL 206 | Early Modern Philosophy |

Four other Philosophy courses, including at least 6 hours at the 300- or 400-level |

Total Hours 20

PHIL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/PHIL)
Courses

PHIL 100 Intro to Philosophy-ACP credit: 3 Hours.
Consideration of some main problems of philosophy concerning, for example, knowledge, God, mind and body, and human freedom. Course is identical to PHIL 101 except for the additional writing component. Credit is not given for both PHIL 100 and PHIL 101. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect

PHIL 101 Introduction to Philosophy credit: 3 Hours.
Consideration of some main problems of philosophy concerning, for example, knowledge, God, mind and body, and human freedom. Credit is not given for both PHIL 101 and PHIL 100.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 102 Logic and Reasoning credit: 3 Hours.
Practical study of logical reasoning; techniques for analyzing and criticizing arguments, with emphasis on assessing the logical coherence of what we read and write.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 103 Logic and Reasoning QR II credit: 3 Hours.
Introductory logic course that concentrates on investigating how the formal mathematical structure of statements, as well as the structure of the relationships among such statements, reveals the logical force of arguments that we use everyday. PHIL 102 takes a less formal, less mathematical approach to the same material. Credit is not given for both PHIL 103 and PHIL 102.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 104 Intro to Ethics-ACP credit: 3 Hours.
Some basic questions of ethics, discussed in the light of influential ethical theories and with reference to specific moral problems, such as: What makes an action morally right? Are moral standards absolute or relative? What is the relationship between personal morality and social morality, and between social morality and law? Course is identical to PHIL 105 except for the additional writing component. Credit is not given for both PHIL 104 and either PHIL 105 or PHIL 106. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: HistPhilosoph Perspect

PHIL 105 Introduction to Ethics credit: 3 Hours.
Some basic questions of ethics, discussed in the light of influential ethical theories and with reference to specific moral problems, such as: what makes an action morally right? are moral standards absolute or relative? what is the relation between personal morality and social morality, and between social morality and law? Credit is not given for both PHIL 105 and either PHIL 104 or PHIL 106.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 106 Ethics and Social Policy credit: 3 Hours.
Examination of the moral aspects of social problems, and a survey of ethical principles formulated to validate social policy. Credit is not given for both PHIL 106 and either PHIL 104 or PHIL 105.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

PHIL 107 Intro to Political Philosophy credit: 3 Hours.
Introduction to core ideas in political and legal philosophy, for example, rights, equality, political obligations, legitimacy of states, nationalism, and oppression.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

PHIL 108 Religion & Society in West I credit: 3 Hours.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 109 Religion & Society in West II credit: 3 Hours.
Same as ANTH 109, REL 109, and SOC 109. See REL 109.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 110 World Religions credit: 3 Hours.
Same as REL 110. See REL 110.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 191 Freshman Honors Tutorial credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

PHIL 198 Freshman Seminar credit: 3 Hours.
Investigation of selected fundamental topics of philosophical inquiry. See Schedule for current topics. Prerequisite: Freshman James Scholar.

PHIL 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Approved for letter and S/U grading. May be repeated.

PHIL 201 Philosophy in Literature credit: 3 Hours.
Consideration of the philosophical themes implicit in a variety of important literary works, both classical and modern; may include such authors as Sophocles, Shakespeare, Goethe, Dostoevsky, and Sartre.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 202 Symbolic Logic credit: 3 Hours.
Introduction to the techniques of formal logic, dealing primarily with truth-functional logic and quantification theory.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

PHIL 203 Ancient Philosophy credit: 4 Hours.
Introduction to ancient philosophy, concentrating on Plato and Aristotle, dealing with such topics as metaphysics, ethics, and the theory of knowledge. Same as CLCV 203.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

PHIL 206 Early Modern Philosophy credit: 4 Hours.
The history of philosophy from Descartes to Kant, concentrating on such topics as metaphysics, ethics, and the theory of knowledge.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect

Information listed in this catalog is current as of 03/2017
PHIL 210  Ethics  credit: 3 Hours.
Problems in ethical theory; the nature of right and wrong, justice, conscience, moral feelings, etc. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 214  Biomedical Ethics  credit: 3 Hours.
Philosophical study of selected moral and social problems concerning medicine and biology, such as euthanasia, abortion, allocation of scarce medical resources, health care and rights, and genetic engineering. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 220  Special Topics  credit: 3 Hours.
A consideration of readings on selected philosophical topics. May be repeated in the same semester to a maximum of 6 undergraduate hours and in separate semesters if topics vary. See Class Schedule for current topics.

PHIL 230  Philosophy of Religion Intro  credit: 3 Hours.
Introduction to philosophical analysis of religious thought and experience. Same as REL 230. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 231  Religion and Philosophy  credit: 3 Hours.
Same as REL 231. See REL 231. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 250  Conceptions of Human Nature  credit: 3 Hours.
Comparative examination of important historical and contemporary conceptions of human nature. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 270  Philosophy of Science  credit: 3 Hours.
Investigation of the nature of scientific knowledge by examining archetypal examples from physical science (e.g., Ptolemaic and Copernican astronomy); nature of scientific truth, validation of theories, nature of scientific theories, evolution of theories, experimental procedure, role of presuppositions, scientific revolutions, etc. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 307  Elmmts Semantics & Pragmatics  credit: 3 Hours.
Same as LING 307. See LING 307.

PHIL 316  Ethics and Engineering  credit: 3 Hours.
Same as ECE 316. See ECE 316. This course satisfies the General Education Criteria for: UIUC: Advanced Composition UIUC: HistPhilosoph Perspect

PHIL 325  Recent European Philosophy  credit: 3 Hours.
Introduction to the major recent philosophical movements in Europe, such as phenomenology, existentialism, philosophical anthropology, and neo-Marxism. This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

PHIL 351  Thinking and Reasoning  credit: 3 Hours.
Same as PSYC 351. See PSYC 351.

PHIL 356  Evolution of Mind  credit: 3 Hours.
Same as PSYC 356. See PSYC 356.

PHIL 357  Intro Cognitive Science  credit: 3 Hours.
Same as PSYC 357. See PSYC 357.

PHIL 380  Current Controversies  credit: 3 Hours.
Philosophical examination of positions taken on some issue of current concern, for example, human sexuality, death and dying, feminism, race, intelligence, war, sociobiology, and environmental ethics. See Class Schedule for current topics. May be repeated with approval.

PHIL 390  Individual Study  credit: 2 to 4 Hours.
Readings in selected philosophical topics. Course may be taken by honors students in partial fulfillment of department honors requirements. May be repeated to a maximum of 6 hours in separate terms. Prerequisite: Open to juniors and seniors with a grade-point average of 3.0 only by prior arrangement with a member of the faculty and with consent of the department director of undergraduate studies or the chair.

PHIL 398  Advanced Undergraduate Seminar  credit: 3 Hours.
Seminar on selected philosophical topics; intended primarily for advanced undergraduate philosophy majors. May be repeated to a maximum of 6 hours. Prerequisite: A grade-point average of 3.0 and consent of instructor.

PHIL 404  Medieval Philosophy  credit: 3 or 4 Hours.
History of philosophy from St. Augustine to William of Ockham. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: PHIL 101 or PHIL 203.

PHIL 407  Logic and Linguistic Analysis  credit: 3 or 4 Hours.
Same as LING 407. See LING 407.

PHIL 410  Classical Ancient Philosophers  credit: 3 or 4 Hours.
Intensive study of one ancient philosopher or the intensive study of a major philosophical problem through the consideration of a number of ancient philosophers; chief emphasis on Plato and/or Aristotle. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated with approval, if topics vary. Prerequisite: One course in philosophy, preferably PHIL 203.

PHIL 411  Nineteenth Century Philosophy  credit: 3 or 4 Hours.
Examination of the thought of such major figures as Hegel, Marx, and Nietzsche. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 412  Classical Modern Philosophers  credit: 3 or 4 Hours.
Intensive study of one classical modern philosopher or the intensive study of a major philosophical problem through the consideration of a number of classical modern philosophers, e.g., Descartes, Leibniz, Locke, Hume, Kant, and Hegel. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated with approval, if topics vary. Prerequisite: One course in philosophy.

PHIL 414  Major Recent Philosophers  credit: 3 or 4 Hours.
Intensive study of one or two important philosophers of the present century, e.g., Wittgenstein, Dewey, Heidegger, or Quine. Topics vary; see Class Schedule. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated with approval, if topics vary. Prerequisite: One course in philosophy.

PHIL 419  Space, Time, and Matter-ACP  credit: 3 or 4 Hours.
Same as PHYS 419. See PHYS 419. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

PHIL 420  Space, Time, and Matter  credit: 2 Hours.
Same as PHYS 420. See PHYS 420.
PHIL 421 Ethical Theories credit: 3 or 4 Hours.
Systematic study of selected classics in moral philosophy by such philosophers as Aristotle, Hume, Mill, Kant, and Nietzsche. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 422 Recent Developments in Ethics credit: 3 or 4 Hours.
Intensive treatment of issues in contemporary ethical theory. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated one time with approval. Prerequisite: One course in ethics.

PHIL 424 Philosophy of Religion credit: 3 or 4 Hours.
Considers central issues in the philosophy of religion, e.g., the justification of religious belief, the nature of God, religious experience, etc. Same as REL 424. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 425 Philosophy of Mind credit: 3 or 4 Hours.
Philosophical problems arising in connection with mental phenomena; the relation of mind and body; free will and determinism; our knowledge of other minds; and the self and personal identity. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 426 Metaphysics credit: 3 or 4 Hours.
Investigation of various metaphysical issues concerning, for example, existence, particulars and universals, causation, laws of nature, time, personal identity, material objects, and modality. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 429 Value Theory credit: 3 or 4 Hours.
Study of the nature and status of values, and of variable topics in value theory, e.g., different types of values, and problems of truth, justifiability, objectivity and relativism with respect to them. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated as topics vary to a maximum of 6 undergraduate hours, or 8 graduate hours. Prerequisite: Junior standing.

PHIL 430 Theory of Knowledge credit: 3 or 4 Hours.
Investigation of issues concerning, for example, the nature and possibility of knowledge; its forms and limits; its relation to belief, truth, and justification; and the nature of truth. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 433 Evolutionary Neuroscience credit: 3 or 4 Hours.
Same as NEUR 433 and PSYC 433. See PSYC 433.

PHIL 435 Social Philosophy credit: 3 or 4 Hours.
Selected topics from the nature of social organization, nature and convention, utility, justice, equality, liberty, rights, and duties. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 436 Phil of Law and of the State credit: 3 or 4 Hours.
Examination of issues in the philosophy of law, such as the nature of law, law and morality, justice, liberty and authority, punishment, and legal responsibility. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 438 Philosophy of Language credit: 3 or 4 Hours.
Historical or comparative study of the philosophy of language. Same as LING 438. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.

PHIL 439 Philosophy of Mathematics credit: 3 or 4 Hours.
Introduction to some of the main philosophical problems and contemporary viewpoints concerning mathematical concepts, mathematical methods, and the nature of mathematical truth. Same as MATH 439. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: One course in philosophy.
PHIL 492  Thesis  credit: 2 to 4 Hours.
Special training in philosophical investigation. Course may be taken by students pursuing graduation with distinction in partial fulfillment of those requirements. 2 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Open to seniors with a grade-point average of 3.5 in all philosophy courses only by prior arrangement with a member of the faculty and with consent of the department director of undergraduate studies or the chair.

Political Science
Robert Pahre, Head of Department
420 David Kinley Hall, MC - 713, 1407 West Gregory Drive, Urbana, IL
PH: (217) 333-3881
http://www.pol.illinois.edu

The Department of Political Science helps students acquire a broad understanding of political science and to pursue selected subfields of the discipline in depth. To accomplish these objectives, the department provides courses of study that introduce students to the discipline and to its principal fields. These include American government and politics, comparative government and politics, international relations, and political philosophy. Supporting courses are an integral part of the program and should be selected with a view toward building a coherent selection adapted to the student’s particular interests.

The Department of Political Science, along with the European Union Center, offers a 5 year BALAS/MA in Political Science and European Union Studies.

The Civic Leadership Program
Students are admitted to the Civic Leadership Program through a competitive process administered by the Department of Political Science. The Civic Leadership Program offers a plan of study to enable students with the capacity, skills, and knowledge to provide informed, principled, and effective civic leadership. Students can participate either as Political Science Majors with a concentration in Civic Leadership or as majors in other fields with a Minor in Political and Civic Leadership. All students in the Civic Leadership Program must complete 17 hours of courses related to and distributed within the Civic Leadership Program. See the Civic Leadership concentration and Political and Civic Leadership minor for full information.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum
Students must complete the Political Science Core Requirements and select one concentration in consultation with an academic adviser.

- General Concentration in Political Science (p. 509)
- Civic Leadership Concentration (p. 508)

Total Hours 38-40

1 Credit is not given for PS 100 and PS 200.

Departmental distinction
To be eligible for distinction, a student majoring in Political Science must complete one of the following two tracks:

1. Individual Study Track. On this track, a student must:
   a. Complete a senior thesis,
   b. Earn a political science major grade point average on this campus of at least 3.25 or higher, and
   c. Earn a grade point average in PS 496 of 3.67 or higher.

2. Honors Program Track. On this track, a student must:
   a. Complete a senior thesis,
   b. Earn a political science major grade point average on this campus of at least 3.25 or higher,
   c. Be admitted to and maintain good standing within the departmental honors program, and
   d. Complete required coursework in the departmental honors program with a grade point average in PS 495 and PS 496 between 2.67 and 3.66.

Admission to the departmental honors program requires the following:

- Completion of PS 230 or PS 231 or an acceptable substitute,
- An on-campus political science major grade point average of 3.5,
- Completion of nine hours (including at least three advanced hours) of political science on this campus,
- Application and affirmative vote of a departmental committee.

High Distinction
To be eligible for high distinction, a student majoring in Political Science must:

1. Complete a senior thesis,
2. Earn a political science major grade point average on this campus of at least 3.25 or higher,
3. Be admitted to and maintain good standing in the departmental honors program, and
4. Complete required coursework in the departmental honors program with a grade point average in PS 495 and PS 496 of 3.67 or higher.

5 Year BALAS/MA in Political Science and European Union Studies
The Department of Political Science, in conjunction with the European Union Center, offers a 5-year BALAS/MA degree program in Political Science and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS–granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when...
the requirements are met for the degrees; BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

- Political and Civic Leadership Minor (p. 510)
- Political Science Minor (p. 509)

PS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/PS)

**Courses**

**PS 100 Intro to Political Science** credit: 3 Hours.
Surveys the major concepts and approaches employed in the study of politics. Credit is not given for both PS 100 and PS 200. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 101 Intro to US Gov & Pol** credit: 3 Hours.
Examines the organization and development of national, state, and local governments in the U.S.; the federal system; the U.S. Constitutions; civil and political rights; the party system; and the nature, structure, powers, and procedures of national political institutions. This course may require limited participating as a subject in research. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 125 Washington Experience** credit: 3 Hours.
An examination of political Washington and policymaking. Through visits to think tanks, nonprofit organizations and agencies we will examine the policymaking world in Washington and get to know different participants in this process, what they do, and how they interact and work to affect policy and express their ideas. This course is a required component of the Illinois in Washington Program. Prerequisite: Acceptance to and enrollment in the Illinois in Washington Program. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 152 The New Middle East** credit: 3 Hours.
Discussion of contemporary sociopolitical change and current events in the Middle East. We will explore the background to these events, the factors that are driving them, and the short-term and long-term implications for the region and the world. Course reflects diverse fields of study, including cultural studies, economics, education, history, law, linguistics, literature, media, religion, political science, and sociology. Same as SAME 152 and SOC 152. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

**PS 180 IntroPolitics of Globalization** credit: 3 Hours.
Introduction to the politics of globalization; identification of the principal actors, properties, and patterns of the politics of globalization that distinguish global politics from other forms of politics between and within groups, communities, states, and international organizations. This course can be used to fulfill either Western or non-Western general education categories, but not both. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

**PS 199 Undergraduate Open Seminar** credit: 1 to 5 Hours.
May be repeated.

**PS 200 Foundations of Pol Sci** credit: 3 Hours.
Surveys the social scientific approach to the study of politics. Credit is not given for both PS 200 and PS 100. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 201 US Racial & Ethnic Politics** credit: 3 Hours.
Examines efforts by racial and ethnic communities to organize politically and by society to allocate resources based on race or ethnicity. Topical focus includes African Americans, Latinos, Asian Americans, Native Americans, and white ethnics. The primary goal of the course is to develop a more comprehensive understanding of racial and ethnic politics by identifying commonalities and differences among these groups and their relationship to the state. Same as AAS 201, AFRO 201, and LLS 201. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 202 Religion & Politics in the US** credit: 3 Hours.
Examines how religion and politics influence each other in the United States, both historically and in contemporary society.

**PS 205 Intro to Public Policy** credit: 3 Hours.
Surveys the policy process including adoption, implementation, and evaluation. Topics may include reviews of substantive policy issues such as crime, energy, environment, poverty, foreign policy, civil liberties, or economic regulation. Prerequisite: PS 100 or PS 101, or consent of instructor.

**PS 222 Ethics and Public Policy** credit: 3 Hours.
Examination of the moral issues in public policy that arise in a in a democratic setting, utilizing conceptual tools from political and moral theory to evaluate policy decisions involving means and ends between conflicting goals. Prerequisite: PS 100, PS 101, or consent of instructor.

**PS 224 Politics of the National Parks** credit: 2 or 3 Hours.
Examines the politics of national parks in the United States, including creation of parks, local support or opposition to parks, and park policy as well as policy questions such as the value of wilderness ecosystem management, endangered species protection, and role of parks in national identity and remembrance of events such as the Civil War, the Indian wars, or the civil rights movement. Same as RST 224. Additional fees may apply. See Class Schedule. May be repeated in separate terms to a maximum of 10 hours. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 225 Environmental Politics & Policy** credit: 3 Hours.
Examinations of the political, economic, ecological, and cultural trade-offs between the use and the preservation of the environment, with particular emphasis on the preservation of land and water resources in national parks, forests, and other reserved lands. Same as RST 225. This course satisfies the General Education Criteria for: UIUC: Social Sciences

**PS 230 Intro to Pol Research** credit: 3 Hours.
Surveys the principles that guide empirical research in political science; emphasizes definition of research problems, principles and practices of measurement, use of data as evidence, and data analysis. Prerequisite: PS 100 or PS 101, or consent of instructor.
PS 231 Strategic Models  credit: 3 Hours.
Introduces strategic models of political behavior and their implications for our understanding of politics. Uses simple models, inspired by game theory, to examine fundamental political questions.

PS 240 Intro to Comp Politics  credit: 3 Hours.
Surveys the basic concepts and principles of political analysis from a comparative perspective. This course satisfies the General Education Criteria for: UIUC: Social Sciences

PS 241 Comp Politics in Dev Nations  credit: 3 Hours.
Provides comparative and historical insights into the problems affecting the developing world by examining social, economic and political changes in Africa, Asia, and Latin America. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

PS 242 Introduction to Modern Africa  credit: 3 Hours.
Same as AFST 222, ANTH 222, and SOC 222. See AFST 222. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

PS 243 Pan Africanism  credit: 3 Hours.
Provides an introduction to Pan African political movements and ideologies from the Americas to continental Africa. Examines the political, social, economic, and ideological relationships and connections between Africans and their descendants in the diaspora from an historical and comparative perspective. Same as AFRO 243, AFST 243, and SOC 267. This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

PS 270 Intro to Political Theory  credit: 3 Hours.
Introduces the nature, structure, and purposes of political theory; examines major works on the problems of political order, obedience, justice, liberty, and representation to distinguish and clarify different theoretical approaches. This course satisfies the General Education Criteria for: UIUC: HistPhilosop Perspect

PS 272 Women and Politics  credit: 3 Hours.
Examines the political status and roles of women. Topics include women's political behavior; feminist and anti-feminist politics; and contemporary legislative and public policy issues, such as educational equity, equal rights legislation, and health care delivery for women. Same as GWS 272.

PS 273 Environment and Society  credit: 3 Hours.
Same as ESE 287, GEOG 287, NRES 287, and SOC 287. See NRES 287. This course satisfies the General Education Criteria for: UIUC: Social Sciences

PS 280 Intro to Intl Relations  credit: 3 Hours.
Structure and processes of international relations, trends in international politics, and the future of the international system. Credit is not given for both PS 280 and PS 281. This course satisfies the General Education Criteria for: UIUC: Social Sciences

PS 281 Intro to Intl Relations-ACP  credit: 3 Hours.
This course is identical to PS 280 except for the additional writing component that fulfills the campus' advanced composition requirement. Credit is not given for both PS 280 and PS 281. Prerequisite: Completion of campus Composition I general education requirement. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

PS 282 Governing Globalization  credit: 3 Hours.
Examines the historical, socio-economic, political, and moral dimensions associated with the rise of a global society and its governance. Prerequisite: Completion of campus Composition I general education requirement; completion of one course in a social science or consent of instructor. This course satisfies the General Education Criteria for: UIUC: Social Sciences

PS 283 Intro to Intl Security  credit: 3 Hours.
Surveys the major issues associated with arms control, disarmament and international security. Also examines the military, socio-economic, and political dimensions of weapons systems, military strategy, the ethics of modern warfare, nuclear proliferation, and regional security issues. Same as GLBL 283.

PS 289 Politics of the Vietnam War  credit: 3 Hours.
Examines questions about the war in Vietnam and the era during which it was fought. Focuses on official policy questions, such as the decision making process, the legality of the war, the question of war crimes, and lessons for international relations. Domestic issues, such as the rise and effect of the antiwar movement, are also discussed. Prerequisite: Allen Hall residency or consent of Unit One director.

PS 299 Study Abroad  credit: 0 to 18 Hours.
Lectures, seminars, and practical work in an approved study-abroad program in Political Science, appropriate to the student's course of study. Approved for letter and S/U grading. May be repeated to a maximum of 34 hours per academic year. Prerequisite: Overall GPA 2.75, 3.00 grade point average in Political Science, admission to approved program.

PS 300 Special Topics  credit: 3 Hours.
Selected readings and research in political science. See Class Schedule for current topics. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: Six hours of political science, or consent of instructor.

PS 301 The US Constitution I  credit: 3 Hours.
Analyzes issues related to judicial interpretation of the constitution; the separation of governmental powers; federalism; checks and balances among the three branches of the national government; and the jurisdiction of federal courts. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 302 The US Constitution II  credit: 3 Hours.
Analyzes issues involved in free speech, freedom of religion, rights of the criminally accused, and government's responsibility to protect persons from discrimination based on race or sexual preference. Pays special attention to the role of law and judges. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 303 The US Congress  credit: 3 Hours.
Examines the legislative function in government; the structure and organization of Congress; legislative procedures; pressure groups and lobbying; the relation of legislature to other branches of government; and problems of legislative reorganization. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.
PS 304  The US Presidency  credit: 3 Hours.
Examines the multiple roles of the president; the determinants and growth of presidential influence; presidential decision making; the president’s role in the formulation and implementation of public policy; and the president’s multiple constituencies. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 305  The US Supreme Court  credit: 3 Hours.
Examines how the modern Supreme Court resolves major issues in American constitutional politics. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor; PS 301 or PS 302.

PS 306  Judicial Politics  credit: 3 Hours.
Introduction to the study of courts and judges as political institutions and actors. Focuses primarily on federal courts in the United States, but also covers courts in the American states. Addresses topics such as how judges are selected; who or what determines which cases are heard; the influence of ideology and the law on judges’ decisions; the relationships that exist between the courts in the judiciary; the role of the president and the Senate in judicial decisions; and judges’ decisions that run contrary to the public’s wishes. Prerequisite: PS 101.

PS 307  Separation of Powers  credit: 3 Hours.
Explores how the checks and balances built into the US Constitution affect the interactions between the Executive, Legislative, and Judicial branches. Addresses topics such as whether Congress is less productive during times of divided government; why some presidential nominees sail through confirmation, while others take years to be confirmed; and whether Supreme Court justices pay attention to the preferences of the President and Congress when deciding cases. Prerequisite: PS 101.

PS 308  Politics, Policy & Regulation  credit: 3 Hours.
Explores how federal agencies (e.g., the Environmental Protection Agency, and the Department of Defense) shape national policy. Provides students with a background in the concepts and ideas that political scientists use in the study of the federal bureaucracy, and motivates further study of political institutions. Students will use traditional political science and legal texts to analyze contemporary policy problems. Prerequisite: PS 101.

PS 309  State Gov in the US  credit: 3 Hours.
Surveys the origins and evolution of state government in the United States. Topics include history, structure and dynamics of state governments, laws and the judiciary, state legislatures, political parties, organized interests, bureaucracies, demographic change and electoral patterns, and political conflicts, and coalitions. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 310  Politics of Organizations  credit: 3 Hours.
Introduction to the study of public organizations with a focus on formal political organizations including parties, legislatures, and bureaucracies. In-depth analysis of two of the main problems confronted by organizations: collective action problems and delegation problems. Students will acquire an understanding of these problems as well as different ways in which they can be addressed. A strong emphasis is also placed on developing the analytical skills necessary for informed analysis of political interactions involving formal organizations. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 311  Political Parties in the US  credit: 3 Hours.
Examines the organization and operation of the American party system; national, state, and local organizations and their interactions; the convention and primary systems; and campaign methods and finance. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 312  Politics and the Media  credit: 3 Hours.
Examines the processes of mass-mediated political communication in democratic societies. Special emphasis will be given to the role of news media in democratic theory, factors shaping the construction of news such as journalism routines, media economics, and the strategic management of news by political elites. Same as CMN 325 and MACS 322.

PS 313  Congress and Foreign Policy  credit: 3 Hours.
Examines cases of foreign-policy making over 100 years with a focus on the struggle between the legislative and executive branches, constitutional questions, explanations for changes in behavior, and the impact on democratic process. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 314  Political Psychology  credit: 3 Hours.
Explores the psychological processes that underlie political attitudes and behaviors. Specifically, we will take theories from social, personality, cognitive, and evolutionary psychology and apply them to political phenomena. Topics will include how politics is affected by cognitive biases, emotions, persuasion, social influence, identity, prejudice and discrimination, personality, and evolution and genetics. We will also explore what we can learn about basic human psychology by studying politics carefully. Prerequisite: PS 101.

PS 315  African American Politics  credit: 3 Hours.
Examines the role of race in stimulating change in American political life; types of strategies employed in the civil rights struggle; how race affects electoral participation and the broader political and economic conditions of African Americans. Same as AFRO 315. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 316  Latino/Latino Politics  credit: 3 Hours.
Examines the role of Latino electorates in shaping state and national politics. Reviews the histories of Latino national origin groups, examines public policy issues of concern to Latinos, successes and failures of Latino empowerment strategies, and the electoral impact of Latino votes. Focus will be primarily on Mexican Americans, Puerto Ricans, and Cuban Americans and an assessment of the degree to which their political agendas are likely to merge over the coming years. Same as LLS 316. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 317  Asian American Politics  credit: 3 Hours.
Provides an overview of the role of Asian Americans in the American political system. Topics include: the international context of emigration, the history of different Asian groups in the U.S., demographic patterns, issues of identity, classification, and pan-ethnicity, voting behavior, minority representation, and public policy. Same as AAS 317. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 318  Interests Grps & Soc Movements  credit: 3 Hours.
Focuses on two important forces in American politics that provide ways for citizens to affect public policy: interests groups and social movements. Examination of organized interest groups, including their organization, growth, activity, and impact in American politics. Examines the formation and role of social movements. Prerequisite: PS 101, or six hours of Political Science credit, or consent of instructor.

PS 319  Campaigns and Elections  credit: 3 Hours.
Examines the dynamics of United States congressional and presidential campaigns, including electoral rules, campaign organization and finance, candidate strategy, role of parties, interest groups, and the media, campaign effects, and proposals for reform. Prerequisite: PS 101 or six hours of Political Sciences credit.
PS 320  Public Opinion  credit: 3 Hours.
Examines the nature of public opinion in contemporary American politics. Considers the extent to which public opinion is organized by ideology, values, party identification and other group-related identities. Will analyze both the sources and consequences of public opinion and the nature of public support for democracy and democratic institutions. Will investigate the relationship between public opinion and policymaking.
Prerequisite: PS 101.

PS 321  Principles of Public Policy  credit: 3 Hours.
Examines different approaches to evaluating the performance of public sector organizations, including private sector accountability principles. Focuses on how to improve the performance of governmental agencies, as well as corporate social responsibility. Same as ACCY 321, ACE 321, and BADM 303. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 322  Law and Public Policy  credit: 3 Hours.
Examines the nature of law, law makers, and law appliers; the determinants of law-making; and the societal impact of law. Prerequisite: PS 101, six hours of Political Science credit, or consent of instructor.

PS 323  Law and Representation  credit: 3 Hours.
Examines political and legal policies related to electoral representation including constitutional protections of voting rights and related topics such as gerrymandering, vote counting, majority minority districts, and the Voting Rights Act. Prerequisite: PS 101 or six hours of Political Science or consent of instructor.

PS 328  Introduction to Biology and Politics  credit: 3 Hours.
Examines the biological processes that underlie political attitudes and behaviors. Specifically, we will take theories from behavioral and molecular genetics, psychophysiology, neuroscience, and evolutionary psychology and apply them to political attitudes and behaviors. Topics will include how evolutionary adaptations shape political life, how genes affect political traits, the effects of physiological differences on how people experience the political world, and what political insights can be drawn from studying differences in brain structures and functioning. Prerequisite: PS 101.

PS 329  Immigration & Citizenship  credit: 3 Hours.
Examination of the conceptual issues associated with citizenship and immigration, considering current political debates from a variety of perspectives: empirical, historical, and normative. Focuses on the United States but will also examine the immigration and citizenship processes of other nations as well. Among topics considered: why people migrate; consequences of migration; efforts to integrate immigrants; public opinion, citizenship traditions and rationales; membership, belonging, and national identity; post national citizenship. Prerequisites: PS 101, 6 hours of Political Science credit, or consent of instructor.

PS 330  Intro to Political Behavior  credit: 3 Hours.
Analyzes the relationship between political attitudes and public opinion formation. The course also discusses political participation, political tolerance, and attitudes toward political leaders. Prerequisite: POLS 101, six hours of Political Science credit, or consent of instructor.

PS 331  Intro to Electoral Behavior  credit: 3 Hours.
Examines the social, psychological and institutional determinants of individual voting decisions. Prerequisite: POLS 101, six hours of Political Science credit, or consent of instructor.

PS 339  Political Violence  credit: 3 Hours.
Survey of various forms of political violence and examination of competing theories about why these types of political violence occur and their implications. The different "categories" of violence under examination constitute pressing topics in the study of conflict in both international relations and comparative politics. These categories, which may overlap conceptually or empirically, include phenomena such as mass collective action in protests, riots, repression and torture, coups, civil war and insurgency, genocide and massacres, sexual violence during war, self sacrifice, and terrorism. Prerequisite: PS 240 or PS 241 or PS 280, six hours of Political Science credit, or consent of instructor.

PS 340  Politics in Intl Development  credit: 3 Hours.
Examines the ways in which the wealthy countries of the world, international organizations and non-governmental organizations have tried to catalyze or facilitate economic and human development in the poorer countries of the world. Prerequisite: PS 240 or PS 241 or PS 281, or six hours of Political Science credit, or consent of instructor.

PS 341  Gov & Pol in Africa  credit: 3 Hours.
Examines contemporary economic, social, and political processes in Africa, focusing on three basic explanatory themes: historical patterns of development; emerging patterns of class and interest; and leadership strategies. Same as AFRO 341. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 343  Gov & Pol of China  credit: 3 Hours.
Introduces the government and politics of modern China. Same as EALC 343. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 345  Gov & Pol of SE Asia  credit: 3 Hours.
Provides a comparative analysis of the political development of the countries of Southeast Asia. Emphasis is placed on differing approaches to the governance and public policy formation, as well as economic, social, historical, and cultural influences on political development. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 346  Gov & Pol of South Asia  credit: 3 Hours.
Provides a comparative analysis of the political development of India, Pakistan, Sri Lanka, and other nations in South Asia. Emphasis is placed on the differing approaches to governance and public policy formation, as well as the economic, social, historical, geographical and cultural influences on political development. Same as ASST 346. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 347  Gov & Pol of Middle East  credit: 3 Hours.
Analyzes the transformation of Middle Eastern society from Morocco to Iran, as case studies in political modernization. The politics of the area are studied with special reference to causes and character of modernization, role of leadership, ideologies and institutions, methods and theories for analyzing political systems undergoing fundamental transformation, and implications for U. S. policy. Same as ASST 347. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 348  Gov & Pol in Western Europe  credit: 3 Hours.
Examines the major governmental systems of continental Europe; the evolution, structure, and functioning of the political institutions of France, Germany, Italy, Spain, Switzerland, and the Scandinavian countries. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.
PS 351  Gov & Pol Post-Soviet States  credit: 3 Hours.
Examines the evolution, structure, and functioning of post-Soviet governments. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 352  Gov & Pol of East Europe  credit: 3 Hours.
Examines the collapse of communism and efforts to develop capitalism and democracy. Special emphasis is given to national conflict and European integration. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 353  Gov & Pol of Latin America  credit: 3 Hours.
Examines the origin and development of Latin American political institutions. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 354  Democraticization  credit: 3 Hours.
Examines the global process of democratization, with special attention to gains and failures in selected areas since 1974. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 355  Comparative Political Economy  credit: 3 Hours.
Examines the effect of domestic political processes on economic performance, including monetary, fiscal, and trade policies. Topics include partisan influences on policy, interest group intermediation, political accountability for economic outcomes, and consequences of product and capital market internationalization. Same as GLBL 356. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

PS 356  Ethnic Conflict  credit: 3 Hours.
Explores the bases of nationalist and ethnic identities across a variety of different national and cultural contexts, and how these are related to conflict at the intrastate and interstate levels. Consideration is given to the characteristics and patterns of ethnic conflict with special emphasis on how and when ethnic tensions become manifested in violent conflict. The course concludes with consideration and evaluations of various domestic and international approaches to conflict management and resolution. Same as GLBL 357. Prerequisite: PS 240 or PS 241, six hours of Political Science credit, or consent of instructor.

This course satisfies the General Education Criteria for: IUUC: Advanced Composition

PS 357  Classical Political Theory  credit: 3 Hours.
Considers the major works of Greek and Roman political theory, stressing their relevance to modern political analysis and action. Prerequisite: PS 270, six hours of Political Science credit, or consent of instructor.

PS 358  Modern Political Theory  credit: 3 Hours.
Provides critical analysis of political theories from the fifteenth century to the present. The discussions focus on topics such as the development of conceptions of human nature, the role of the state, justice, legitimacy, obligation, individual rights, equality, and mechanisms of maintenance and change. Prerequisite: PS 270, six hours of Political Science credit, or consent of instructor.

PS 359  Democratic Theory  credit: 3 Hours.
Examines theories of the nature and conditions of democracy; compares and analyzes contemporary democratic institutions. Prerequisite: PS 270, six hours of Political Science credit, or consent of instructor.

Information listed in this catalog is current as of 03/2017
PS 386 International Law credit: 3 Hours.
Analyzes the concepts and bases of public international law. Topics include sources and subjects of international law, as well as issues of jurisdiction, territory, law of the sea, and use of military force. Prerequisite: PS 280 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 387 National Security Policy credit: 3 Hours.
Examines principal theories of international security and evaluates their capacity to explain the security behavior of states and other key international actors. Prerequisite: PS 280 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 389 International Communications credit: 3 Hours.
Same as MACS 389. See MACS 389.

PS 390 American Foreign Policy credit: 3 Hours.
Considers the major foreign policy decisions currently confronting the United States government: analyzes their background, principal issues, and alternative actions, as well as the policy formulation process. Prerequisite: PS 280 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 391 Soviet & Post-Sov Foreign Pol credit: 3 Hours.
Surveys Soviet and Post-Soviet foreign policy from 1917 to the present, with emphasis upon the forces shaping this policy; special attention to the interplay of ideology and national interest in policy formulation. Prerequisite: PS 280 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 392 Intl Organizations&Regionalism credit: 3 Hours.
Examines regionalism and regional international organizations and their consequences for multilateralism cooperation, and conflict. Prerequisite: PS 280.

PS 393 Diplomatic Studies Practicum credit: 4 Hours.
Practical introduction to the study of international organizations, consisting of three parts: academic modules in Urbana-Champaign; guest lectures and site visits in Vienna, Austria, and field trips TBA; and a final research paper based on fieldwork in Vienna, extending into late June. Enrollment requires prior admission to the Vienna Diplomatic Program.

PS 394 Crisis Diplomacy credit: 3 Hours.
A comparative study of foreign policy decision-making and diplomacy among the major states from 1816-1948 with a focus on crisis bargaining, management, and escalation. Foreign relations of Britain, France, Germany, Russia, Italy, Japan, and the United States are covered in light of international relations theories. Emphasis is placed on how domestic political struggles, like those between hard liners and accommodationists, and external factors, like alliances and international norms, affect decision-making. Comparisons are made between those crises that are peacefully settled and those that escalate to war and/or get out of control. Prerequisite: PS 280, PS 281, PS 283, or consent of instructor.

PS 395 International Organization credit: 3 Hours.
Examines the development of basic principles underlying world organization; also considers the principles, structure, methods, and operation of international governmental institutions. Gives special attention to the United Nations and related agencies and to their evolution from the League of Nations system. Credit is not given for both PS 383 and PS 395. Prerequisite: PS 280 or PS 281 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 396 International Conflict credit: 3 Hours.
Examines the conditions that promote war and peace between states. General topics covered are: historical patterns in warfare; causes of war, including arms races and power distributions; outcomes of war; and approaches to peace. Credit is not given for both PS 381 and PS 396. Prerequisite: PS 280 or PS 281 or PS 283, six hours of Political Science credit, or consent of instructor.

PS 397 Authoritarian Regimes credit: 3 Hours.
Examines the various aspects of the politics in authoritarian regimes: their emergence and breakdown, the policy choices and institutions typically adopted, leadership change, and the theories that explain them. Historical case studies and statistical data will be used to examine real-world cases. Prerequisite: PS 240 or PS 241; or six hours of Political Sciences credit; or consent of instructor.

PS 398 Strategic Intnl Relations credit: 3 Hours.
Examination of basic concepts and tools for analyzing foreign policy and understanding international politics and economy. Simple game-theoretic models will be used to explore the logic and the mechanisms behind key policy issues in international economy, cooperation, security, and institutions. Prerequisite: PS 280 or PS 281; or six hours of Political Sciences credit; or consent of instructor.

PS 399 Politics of International Treaties credit: 3 Hours.
Treaties are agreements between sovereign states governed by international law. This course examines why countries commit to treaties and why they comply with them. It will provide advanced undergraduate students with the opportunity to read a range of scholarly works on international agreements and to conduct their own research on related topics. Prerequisite: PS 280.

PS 408 Islam & Politics in Mid. East credit: 3 or 4 Hours.
Same as REL 408 and SAME 408. See REL 408.

PS 410 Neighborhoods and Politics credit: 3 or 4 Hours.
Introduction to the social and political impacts of neighborhood life through readings, discussion, and field work. The political theories of local social networks, social ecology, the social context, third places, the physical form, and public space are examined. Students do library research and field work examining theories of social capital, civic engagement, new urbanism, public space, social context and urban form. Same as HDES 410. 3 undergraduate hours. 4 graduate hours. Prerequisite: PS 100 or PS 101 or consent of instructor.

PS 411 Campaigning to Win credit: 3 or 4 Hours.
Same as CMN 424. See CMN 424.

PS 413 Sex, Power and Politics credit: 3 or 4 Hours.
Same as GWS 478. See GWS 478.

PS 415 Europe and the Mediterranean credit: 3 or 4 Hours.
Same as EURO 415 and ITAL 415. See EURO 415.

PS 418 Language&Minorities in Europe credit: 3 or 4 Hours.
Same as FR 418, GER 418, ITAL 418, LING 418, SLAV 418, and SPAN 418. See FR 418.

PS 456 Democracy and Identity credit: 3 or 4 Hours.
A normative and empirical examination of the special issues surrounding the development and maintenance of democracy in plural societies. Analyzes the impact of racial, ethnic and religious diversity on citizenship, civil rights, political institutions and public policy, as well as on democratic stability more generally, in established and newly emergent democracies. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.
PS 457  Dem Gov in a Global Setting  credit: 3 or 4 Hours.
Examination of the basic concepts and politics associated with
the emergence of a global society. Students evaluate competing
explanations for the emergence of this new politics and how and why the
global society governs itself. It examines the strengths and weaknesses
of the nation-state, markets, and democratization as responses,
respectively, to the imperatives or order, welfare, and legitimacy in the
governance of world’s peoples and states. 3 undergraduate hours. 4
graduate hours. Prerequisite: Consent of instructor.

PS 480  Energy and Security  credit: 3 Hours.
Same as GLBL 480 and NPRE 480. See NPRE 480.

PS 490  Individual Study  credit: 1 to 4 Hours.
Special topics not treated in regularly scheduled courses; designed
primarily for juniors and seniors. 1 to 4 undergraduate hours. No graduate
credit. May be repeated. Prerequisite: Evidence of adequate preparation
for such study; consent of faculty member supervising the work; and
approval of the department head.

PS 491  Internship  credit: 0 to 6 Hours.
Students follow a program of study and research related to an approved
internship under the direction of the internship director and/or a faculty
sponsor. Consult departmental undergraduate advisor or internship
director. 0 to 6 undergraduate hours. No graduate credit. Approved
for Letter and S/U grading. May be repeated to a maximum of 12
undergraduate hours. Prerequisite: 45 credit hours completed, one year
in residence at an institution of higher learning, minimum 2.5 grade point
average, coursework related to the internship, and acceptance to the
internship director or undergraduate director and by faculty sponsor.
Students enrolled in internship courses may not register for more than 18
hours total for all courses during the semester of the internship course.

PS 492  UG Research Assistance  credit: 0 to 3 Hours.
Assist departmental faculty in on-going research. Topics and nature of
assistance vary. Capstone paper required. 0 to 3 undergraduate hours.
No graduate credit. May be repeated in separate terms to a maximum of
6 hours. Credit is not given for more than nine hours toward completion of
the political science major from any combination of PS 490, PS 491,
and/or PS 492. Prerequisite: Evidence of adequate preparation for such
study; consent of faculty member supervising the work; and approval of
the department head.

PS 494  Junior Honors Seminar  credit: 3 Hours.
Research, reading, and discussion in selected topics and works in
literature of political science. A major research project is required in
preparation for PS 495. 3 undergraduate hours. No graduate credit. May
be repeated in separate terms to a maximum of 6 hours if topics vary.
Credit is not given for non-honors courses and honors seminar on the
same topic. Prerequisite: Admission to Political Science Honors Program
or consent of department.

PS 495  Senior Honors Seminar  credit: 3 Hours.
Provides an advanced overview of methodological issues in political
science especially identification of research questions and design of
research strategies in political science appropriate for a senior thesis.
Requires completion of a substantial research proposal. 3 undergraduate
hours. No graduate credit. Credit is not given for more than six hours
towards any combination of PS 495 and PS 496. Neither PS 495 nor
PS 496 counts towards the 30 hours required for completion of the
political science major. Prerequisite: Admissions to Political Science
Honors Program or consent of instructor.

PS 496  Senior Honors Thesis  credit: 2 to 6 Hours.
2 to 6 undergraduate hours. No graduate credit. May be repeated to a
maximum of 6 hours. Prerequisite: Written consent of instructor of
department approval; open only to seniors whose major is political
sciences and who have a general University grade point of 3.0.

Civic Leadership Concentration

For the Degree of Bachelor of Arts in
Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail:pol@illinois.edu

Minimum required major and supporting course work equates to 50 hours
including 30 hours of Political Science courses

General education: Students must complete the Campus General
Education ([https://courses.illinois.edu](https://courses.illinois.edu)) requirements including the
campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on
this campus.

A Major Plan of Study Form must be completed and submitted to the LAS
Student Affairs Office before the end of the fifth semester (60-75 hours).
Please see your adviser.

Not more than 6 hours of individual study courses in political science
(PS 490) or 6 hours for internships (PS 491) or 6 hours of supervised
research (PS 492) may be included in the major; a student with any mix of
independent study hours and internship hours and supervised research
hours may include a maximum of 9 hours of such credit in the major.
PS 496 is reserved for those seniors doing honors theses for distinction
in political science and may not be counted in the 50-hour minimum
required for the major.

Minimum hours required for graduation: 120 hours

Minor in Political Science

A minor in political science is designed for students who want to improve their ability to deal intelligently and critically with issues and ideas about government and politics. The minor permits choices among five sub-fields, each involving important theoretical and applied questions about the role of citizens, associations, and states in the application of political power. These sub-fields are: American Government and Politics, Comparative Government and Politics, International Relations, Political Philosophy, and Public Policy/Public Administration. Within a given sub-field, students will be exposed to advanced courses that build on relevant introductory courses. These advanced courses will provide students with in-depth treatments of topics relevant to issues dealt with in their major field of study.

An intermediate (200 level) or advanced (300 level) course in public policy 2

A course examining the construction and consequences of social identity relating to race, religion, ethnicity, or gender 2

A course exploring different perspectives on a just, ordered, and moral society 2

PS 491 or approved internship course in another department

At least two sections of PS 199 designated as pertaining to the Civic Leadership Program. A list of such sections is available in the Undergraduate Studies Office of the Department of Political Science. 3

Total Hours 17

1 Credit is not given for both PS 100 and PS 200.
2 Choose from a list maintained by the Department of Political Science.
3 PS 199 is a temporary designation. As these courses are developed and receive PS numbers, these new course numbers will take the place of PS 199.

Psychology

Wendy Heller, Head of Department
315 Psychology Building, 603 East Daniel, Champaign
PH: (217) 333-0631
http://www.psychology.illinois.edu

Psychology is the scientific investigation of human and animal behavior. Psychologists study behavior in systems ranging from single cells to the individual person, from small groups of people to communities. Psychologists strive to describe behavior and to understand its underlying biological and social mechanisms. This enterprise, designed to better understand the human condition, accumulates knowledge that can help solve problems faced by individuals and by communities. Students that graduate with a major in psychology acquire a wide range of knowledge and useful skills that allows them to find employment in many different areas.

Areas of interest in psychology, and many of these are reflected in the similarly-titled concentrations that are available within the major:

- Behavioral Neuroscience is the study of the biological mechanisms underlying behavior. Biological psychologists generally are interested in the brain and the nervous system, in the endocrine system, and in other organismic processes.
- Clinical psychology is the study of problems encountered by individuals, groups, and families — especially problems involving psychopathology. Clinical psychologists are interested in the application of psychological knowledge and techniques for the alleviation of these problems.
- Community psychology is the study of the social processes and problems of groups, organizations, and neighborhoods, and the development and evaluation of progress for social change and social policy based on psychological understanding.
- Cognitive neuroscience is concerned with understanding the neuroscientific bases of cognition. Various methods are employed to assess the roles of different brain systems in psychological functions such as memory, attention, language, executive control, decision making, response processing, and emotion.
- Cognitive psychology is the study of basic behavioral and cognitive processes, including learning, memory, problem-solving, motivation, and language.
- Developmental psychology is the study of intellectual development, emerging personality, and the acquisition of language, as well as psychophysiological and social development processes as individuals develop from birth through old age.
- Engineering psychology is the study of human behavior in the context of interactions between humans and machines.
- Organizational psychology is the application of techniques of assessment, prediction, and intervention to areas of human resources in organizations, including, but not limited to, standard personnel selection and training, attitude assessments and interventions, and program evaluations.
- Personality psychology focuses on individual behavior. It is the study of ways to understand and describe an individual’s behavior and to predict an individual’s future behavior.
- Quantitative psychology specialists develop mathematical models of psychological processes and devise methods for quantitative representation and analysis of data about behavior. These are used in the study of differences between individuals in ability, personality, preferences, and other psychological phenomena.
- Social psychology is the study of attitudes, social perception and cognition, interpersonal relations, interpersonal interactions, and social and cultural factors affecting human behavior.
- Visual cognition and human performance is the study of attention, visual perception, visual memory, and human performance. Visual cognition research uses tools drawn from cognitive psychology and cognitive neuroscience to better understand how visual information is perceived and remembered.

Prescribing Psychologists:

The states of Illinois, New Mexico and Louisiana now allow appropriately qualified psychologists to write prescriptions for psychotropic medications, if they have the necessary training. There are many other states that currently have pending prescriptive authority legislative
initiatives. One component of becoming a prescribing psychologist is completion of the following undergraduate courses:

- 2-semester course sequence in chemistry or biochemistry with lab
- 1 semester microbiology with lab
- 1 semester general biology for science majors
- 1 semester physiology
- 1 semester human anatomy
- 1 semester physiology and anatomy
- Medical terminology (class or proficiency)

For more information on becoming a prescribing psychologist and a detailed list of which courses meet these requirements, please consult with one of the academic advisors in psychology.

Undergraduate Program

The Psychology program of study is a broad-based curriculum within a research-focused department. The program is designed both for students interested in a liberal arts education with psychology as a focal area and for students who plan to attend graduate or professional school either in psychology or in a different field such as medicine, law, social work, business administration, counseling, labor relations and many others.

In formulating their Plan of Study, students can decide either to undertake a concentration in General Psychology and select courses that focus on their own unique interests or to specialize in a particular area of Psychology by fulfilling the requirements for one of the other concentrations listed below. As undergraduate students fulfill the requirements, they also have the opportunity to participate in current research projects by working in labs. Students should contact our Undergraduate Advising Office for help in creating a plan of study and research that best meets their goals and interests.

Departmental Distinction: To be eligible for graduation with Distinction in Psychology, a student must complete a two-semester research sequence in PSYC 494, submit a Senior Thesis that must be approved by the department, and maintain an overall 3.0 GPA at the time of submission. A student can also enroll in PSYC 492 to facilitate the preparation of a Bachelor's thesis.

To be eligible for High or Highest Distinction, a student must first be admitted to the Honors Program (requirements: junior standing, 3.5 GPA in Psychology overall, and completion of the statistics an laboratory requirements). The student then has to complete the three semester Honors sequence (PSYC 398, PSYC 498, PSYC 499), submit a Senior Thesis that must be approved by the department, and maintain an overall GPA of at least 3.0 to be awarded High Distinction or a GPA of 3.5 for Highest Distinction.

Academic Advising

The Psychology Undergraduate Advising Office is open to help students choose patterns of courses relevant to their interests, as well as to help students explore graduate school, professional school, and career options. Advising is done by an award-winning staff of academic professionals along with mentoring by faculty for students with research interests. Peer registration assistants are also available to help with the registration process.

Major in Sciences and Letters Curriculum

E-mail: psych-advising@illinois.edu

Degree title: Bachelor of Science in Liberal Arts and Sciences.

Students must meet the requirements for one of the concentrations as listed below. Minimum required concentration and supporting course work equates to 32-36 hours of Psychology courses. Please see your academic advisor. A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours).

For all concentrations, twelve hours of 300- and 400-level courses in Psychology must be taken on this campus.

Minimum hours required for graduation is 120.

Students must also complete the Campus General Education requirements (https://courses.illinois.edu/gened/DEFAULT/DEFAULT) including the campus general education language requirement.

Concentrations

- General Psychology (p. 518)
- Behavioral Neuroscience (p. 518)
- Clinical/Community Psychology (p. 519)
- Cognitive Psychology (p. 519)
- Developmental Psychology (p. 520)
- Organizational Psychology (p. 520)
- Social/Personality Psychology (p. 521)

Minor in Psychology

The minor in psychology should be tailored to each student's individual needs. The Psychology minor is suitable for students who plan to pursue careers in a wide variety of fields including business, medicine, law, political science, and education. Students should work with their major advisor to determine the Psychology courses that best fit their interests and career goals.

Information listed in this catalog is current as of 03/2017
The Psychology Minor requires 18 hours of Psychology courses. PSYC 290, PSYC 340, PSYC 341, PSYC 398, PSYC 492, PSYC 494, PSYC 495, PSYC 498, and PSYC 499 credit hours cannot be counted toward the minor requirement.

1. Students who transfer credit from another institution only receive 3 credits for PSYC 100.

2. Current equivalent courses include: STAT 100, ECON 202, EPSY 480, PSYC 301, and SOC 485. Contact the Psychology Advising Office to consult on other equivalents. Students who do not take PSYC 235 or PSYC 301 to satisfy their statistics requirement will need to take an additional Psychology course to meet the minimum of 18 hours of Psychology courses.

PSYC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/PSYC)

Courses

PSYC 100  Intro Psych  credit: 4 Hours.
Study of human behavior with special reference to perception, learning, memory, thinking, emotional life, and individual differences in intelligence, aptitude, and personality; emphasis on the scientific nature of psychological investigations; and discussion of research methods and the relation of their results to daily life and everyday problems. Lectures, discussions, and six hours of participation as a subject in psychological experiments. Credit is not given for both PSYC 100 and either PSYC 103 or PSYC 105.
This course satisfies the General Education Criteria for: UIUC: Behavioral Sciences

PSYC 102  Psych Orientation  credit: 0 Hours.
Lectures designed to acquaint the psychology major with the various specializations available in the field, career exploration procedures, and a wide range of opportunities of special interest to psychology students. Recommended for freshmen in psychology. Approved for S/U grading only.

PSYC 103  Intro Experimental Psych  credit: 4 Hours.
Surveys the field of psychology with an emphasis on experimental approaches to understanding the mind and human behavior; addresses perception, learning, memory, thinking, motivation, emotions, personality, development, intelligence, and other topics in psychology. Credit is not given for both PSYC 103 and either PSYC 100 or PSYC 105. Lectures with discussion, debates, and laboratory experiments in weekly sections. This course satisfies the General Education Criteria for: UIUC: Behavioral Sciences

PSYC 105  Psych Introduction  credit: 4 Hours.
Study of human behavior with special reference to perception, learning, memory, thinking, emotional life, and individual differences in intelligence, aptitude, and personality; emphasis on the scientific nature of psychological investigations; and discussion of research methods and the relation of their results to daily life and everyday problems. Lectures, discussions, and six hours of participation as a subject in psychological experiments. Lectures meet four days per week. See class schedule for enrollment restrictions. Credit is not given for both PSYC 105 and either PSYC 100 or PSYC 103.
This course satisfies the General Education Criteria for: UIUC: Behavioral Sciences

PSYC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
Approved for letter and S/U grading. May be repeated.

PSYC 201  Intro to Social Psych  credit: 3 Hours.
Systematic study of social factors in individual and group behavior; attention to social perception, motivation, and learning; attitudes, norms, and social influence processes; the development and dynamics of groups; and the effects of social and cultural factors on the individual. Prerequisite: PSYC 100 or PSYC 103.
This course satisfies the General Education Criteria for: UIUC: Behavioral Sciences

PSYC 204  Intro to Brain and Cognition  credit: 3 Hours.
Introduction to the interdisciplinary field of cognitive neuroscience, which is concerned with how the cognitive systems supporting a broad range of capacities including memory, attention, and social and emotional processing, arise from the functioning of specific brain modules and brain mechanisms. Emphasizes how functional brain imaging and other cognitive neuroscience methods can be brought to bear on answering these questions. Prerequisite: PSYC 100 or PSYC 103 or PSYC 105.

PSYC 210  Behavioral Neuroscience  credit: 3 Hours.
Survey of current knowledge and speculation regarding the brain’s role in perception, motivation, sexual behavior, thinking, memory, and learning, based upon human clinical data and research in animal models. Prerequisite: PSYC 100, PSYC 103, or consent of instructor.
This course satisfies the General Education Criteria for: UIUC: Life Sciences

PSYC 216  Child Psych  credit: 3 Hours.
Study of the psychological development of the child. Credit is not given for both PSYC 216 and EPSY 236. Prerequisite: PSYC 100 or PSYC 103.

PSYC 220  Images of Mind  credit: 3 Hours.
Introduction to neuroimaging and cognitive neuroscience, with a particular emphasis on critically evaluating neuroscience in the media. In addition to surveying reports in the popular press and their corresponding science articles, covers basic neuroanatomy, neuroimaging techniques, and a range of topics from cognitive neuroscience. Prerequisite: PSYC 100, PSYC 103, PSYC 105 or consent of instructor.

PSYC 224  Cognitive Psych  credit: 3 Hours.
Introduction to the psychological study of human information processing and memory; acquisition, retrieval, and forgetting; and general knowledge, concepts, reasoning, and related issues in cognition. Prerequisite: PSYC 100 or PSYC 103.

PSYC 230  Perception & Sensory Processes  credit: 3 Hours.
Survey of the experimental psychology of sensory and perceptual processes and behavior; emphasis on the contribution of behavior science to understanding subjective experience of the physical and social environment. Prerequisite: An introductory course in psychology, physiology, or animal biology.
PSYC 235  Intro to Statistics  credit: 3 Hours.
Development of skill and understanding in the application of statistical methods to problems in psychological research; topics include descriptive statistics, probability theory and distributions, point and interval estimation, and hypothesis testing. Credit is not given for both PSYC 235 and any of STAT 100, ECON 202, EPSY 480, PSYC 301, SOC 485. Prerequisite: PSYC 100 or PSYC 103; college algebra or equivalent; or consent of academic advisor.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

PSYC 238  Psychopathology and Problems in Living  credit: 3 Hours.
Conceptions and facts about disordered behavior, including psychoses, neuroses, and other patterns of psychological disturbance. Prerequisite: PSYC 100 or PSYC 103.

PSYC 239  Community Psych  credit: 3 Hours.
Redefines human and social problems and the implications for social programs and policies; reviews the historical antecedents, conceptual models, strategies and tactics of social and community programs; and employs examples from selected social systems (e.g., criminal justice, education, employment, and mental health). Prerequisite: PSYC 100 or PSYC 103.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

PSYC 245  Industrial Org Psych  credit: 3 Hours.
Systematic study of the application of psychological methods and principles in business and industry; emphasis on personnel selection and factors influencing efficiency. Prerequisite: PSYC 100 or PSYC 103; credit or concurrent registration in a statistics course.

PSYC 248  Learning and Memory  credit: 3 Hours.
Survey of basic phenomena in learning and memory emphasizing experimental data from animal and human research. Prerequisite: PSYC 100 or PSYC 103.

PSYC 250  Psych of Personality  credit: 3 Hours.
Study of personality from various points of view: biological, experimental, social, and humanistic; surveys theory and empirical research in the study of personality. Prerequisite: PSYC 100 or PSYC 103.

PSYC 265  Power, Status, and Influence  credit: 3 Hours.
Explores how individuals experience power, status, and influence. The course will focus on the personality and social factors that lead people to attain an elevated rank in society. We will examine how social position shapes basic psychological processes including social perception, relationship strategies, emotion, and well-being across the life course. Multiple forms of power and status will be studied, including those based on peer respect, class, race, gender, and physical dominance.

PSYC 290  Research Experience in Psych  credit: 1 to 4 Hours.
Supervised participation in research and scholarly activities, usually as an assistant to an investigator. Approved for S/U grading only. May be repeated to a maximum of 9 hours. Prerequisite: Ten hours of psychology or cognate area, or written consent of instructor.

PSYC 296  Introduction to Current Topics in Psychology  credit: 0 to 3 Hours.
Introductory treatment of current topics in the field of psychology. May be repeated up to 6 hours in the same semester, to a total of 9 hours in subsequent semesters. Prerequisite: PSYC 100 or consent of instructor.

PSYC 301  Psychological Statistics  credit: 5 Hours.
Development of skill and understanding of statistical methods for problems in psychological research; topics include descriptive statistics, probability theory and distributions, point and interval estimation, and hypothesis testing. The class also involves a computer laboratory. Strongly recommended to students who plan to pursue graduate studies in Psychology. Credit is not given for both PSYC 301 and any of STAT 100, ECON 202, EPSY 480, PSYC 235, SOC 485. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

PSYC 311  Behavioral Neuroscience Lab  credit: 4 Hours.
Introduction to the research techniques used in behavioral neuroscience: includes behavioral analysis of drug effects, anatomy of the brain, hormones and behavior, neural circuits and related topics. Students will have direct experience working with laboratory rats to understand their importance in the advancement of our knowledge about how the brain functions. Prerequisite: Credit or concurrent registration in PSYC 210, or consent of instructor.

PSYC 312  Psychology of Race & Ethnicity  credit: 3 Hours.
Exploration of the theoretical, empirical, and experiential writings concerning the issues of race and ethnicity as they relate to human behavior from the perspective of the individual in various social contexts. Same as AFRO 312. Prerequisite: PSYC 100.

PSYC 314  Introduction to Aging  credit: 3 Hours.
Same as CHLH 314, HDFS 314, RST 314, and REHB 314. See CHLH 314.

PSYC 316  Intro to Psych of Hearing  credit: 3 Hours.
Examines the physiology and psychophysics of hearing from the micromechanics of the cochlea to the localization of sound and the acoustics of concert halls, to understand how the auditory system processes information to create perceptions of acoustic events. Prerequisite: PSYC 210.

PSYC 318  Psych of the Infant  credit: 3 Hours.
Early infant behavior, emphasizing critical evaluation of the various research techniques; prenatal and perinatal influences, ontogeny of psychological processes, environmental determinants, and infant assessment. Prerequisite: PSYC 216.

PSYC 320  The Teenage Years  credit: 3 Hours.
An introduction to development during the teenage years (12-18). The course will cover research on biological, cognitive, social, and emotional development. Topics will include pubertal development and its social consequences, changing relationships with parents, identity development, the increasingly important role of peers, school adjustment, the emergence of psychopathologies, and high risk behaviors such as substance use. The course will focus on normative development in the U.S., but it will also cover cross-cultural development. Prerequisite: PSYC 100 and PSYC 216.

PSYC 321  Human Memory  credit: 3 Hours.
Advanced treatment of human memory. Examines basic theory and methodology; types of memory; semantic, episodic, procedural, memory for language, places, and events; knowledge and memory; autobiographical memory, exceptional memory, mnemonics. Prerequisite: Six hours in psychology or above the 200 level, such as PSYC 224 or PSYC 248.

PSYC 322  Intro Intellectual Disability  credit: 3 Hours.
Same as REHB 322 and SPED 322. See SPED 322. This course satisfies the General Education Criteria for:
UIUC: Behavioral Sciences
PSYC 324 Developmental Psychopathology  credit: 3 Hours.
Overview of major theories and research in the field of developmental psychopathology. An emphasis will be placed on understanding how psychopathology is conceptualized from a developmental perspective. Topics will involve issues related to etiology, assessment, classification/diagnosis, and intervention. A range of psychological problems in childhood and adolescence will be discussed to illustrate the central themes. Prerequisite: PSYC 100 and either PSYC 216 or PSYC 238, or consent of instructor.

PSYC 326 Development and Relationships  credit: 3 Hours.
Advanced overview of theory and research on interpersonal relationships across the life course and their implications for emotion, cognition, and behavior. Particular emphasis is placed on close relationships, i.e., romantic partners, family members, and mentors. Same as EPSY 330. Prerequisite: PSYC 216.

PSYC 328 Psychology of Gender  credit: 3 Hours.
Discusses the similarities and differences between males and females across the lifespan, looking at possible biological and social explanations. Some of the topics covered include how children learn gender roles, similarities and differences across cognitive and social abilities, mental and physical health, and gender in different settings, including at work, at school, and at home. The course will also focus on agents of socialization, including the media, peers, and family. Prerequisite: PSYC 100 or equivalent.

PSYC 331 Cognitive Psych Lab  credit: 4 Hours.
Examination of the methods used to study human thought processes, including attention, memory, decision-making, language and concepts. Students will learn to design, carry out, and report research in cognitive psychology. Prerequisite: PSYC 224 or PSYC 248, PSYC 235.

PSYC 332 Social Psych Methods Lab  credit: 4 Hours.
Lecture and laboratory in the methods and techniques of social psychology research in laboratory settings. Same as SOC 382. Prerequisite: PSYC 201; PSYC 235 or SOC 280.

PSYC 333 Social Psych in Society Lab  credit: 4 Hours.
Methods and techniques of social psychological research in natural settings. Students formulate and carry out research problems using procedures appropriate for research in natural settings. Prerequisite: PSYC 201; PSYC 235 or SOC 280.

PSYC 334 Perception Lab  credit: 4 Hours.
Examination of the research methods used to study human visual and spatial processes, including visual illusion, attention, imagery, navigation and spatial memory. Students will learn to design, carry out, and report psychological research. Prerequisite: PSYC 230 and statistics (PSYC 235 or equivalent).

PSYC 336 Topics in Clin/Comm Psych  credit: 3 Hours.
Survey and critical review of subdisciplines in clinical/community psychology; concepts, methods, and assessments, intervention strategies and tactics. Subdisciplines addressed will vary. See Class Schedule for current titles. May be repeated with approval to a maximum of 6 undergraduate hours in same term, or to a maximum of 9 undergraduate hours in subsequent terms. Prerequisite: PSYC 238 or PSYC 239 or both depending on topic.

PSYC 340 Community Projects  credit: 4 Hours.
Principles of psychology applied to service problems in the community; students serve as nonprofessional mental health workers in supervised experiences in schools, hospitals, and other nontraditional settings. May be repeated in the same or subsequent terms to a maximum of 8 undergraduate hours. Prerequisite: PSYC 100; junior or senior standing; and consent of instructor. Individual sections may require additional courses and prerequisites - consult the instructor.

PSYC 341 Advanced Community Projects  credit: 4 Hours.
Advanced discussion and practicum on principles of psychology which may supplement mental health and other human services in a community. Students serve as nonprofessional mental health workers in supervised experiences in school hospitals and other nontraditional settings. May be repeated in the same or subsequent terms to a maximum of 8 undergraduate hours. Prerequisite: PSYC 340 and consent of instructor.

PSYC 350 Personality Lab  credit: 4 Hours.
Study of personality emphasizing active participation in designing, conducting, analyzing, and presenting of research; lectures concern the practical aspects of research methodology and the philosophy of personality research; and laboratory involves conducting original research in small groups. Prerequisite: PSYC 235 or equivalent; and PSYC 250 or consent of instructor; completion of campus Composition I general education requirement.

PSYC 351 Thinking and Reasoning  credit: 3 Hours.
An overview of historical and contemporary research on thinking, reasoning, and problem-solving. Topics will include normative systems of logic, defeasible/non-monotonic reasoning, psychological models of reasoning, heuristic problem-solving, insight and creativity, Bayesian decision-making, decision-making biases, and fast-and-frugal heuristics. Same as PHIL 351. Prerequisite: Either PSYC 100 and PSYC 224, or PHIL 101 and PHIL 102, or consent of instructor.

PSYC 352 Attitude Theory and Change  credit: 3 Hours.
Comprehensive analysis of theories of attitude acquisition, organization, and change; emphasis on attitude change through communication and effects of persuasive communication on public opinion. Same as MACS 352 and SOC 300. Prerequisite: PSYC 201 or equivalent.

PSYC 353 Social Cognition  credit: 3 Hours.
Analysis of theory and research on problems related to the manner in which persons judge themselves and others on the basis of information received; topics include impression formation integration, determinants of interpersonal attractions, and attribution processes. Prerequisite: PSYC 201 and PSYC 235, or consent of instructor.

PSYC 356 Evolution of Mind  credit: 3 Hours.
Interpretation of human thought and behavior through the lens of evolutionary theory. Presents the basics of evolutionary theory as applied to human and animal psychology, describes the results of research on selected subtopics, and evaluates alternative explanations of human behavior that historically have been offered and continue to influence the social sciences today. The goal is to enhance understanding of why we behave the way we do. Special emphasis will be places on philosophical analysis of the presented material. Same as PHIL 356. Prerequisite: PSYC 100 or PHIL 101 or MCB 150 or consent of instructor.
PSYC 357  Intro Cognitive Science  credit: 3 Hours.
In-depth introduction to cognitive science: the study of mind and intelligence, natural and artificial. Covers major integrative themes including inverse optics and vision; induction and reasoning; learnability; language; philosophy; minds and brains; evolution; computation and computability; experimental and modeling techniques; information theory; knowledge representation; interrelations among these topics. Same as PHIL 357. Prerequisite: One of PSYC 224, PSYC 248, PHIL 202, PHIL 270, or consent of instructor.

PSYC 358  Human Factors  credit: 4 Hours.
Same as IE 340. See IE 340.

PSYC 361  The Psychology of Aging  credit: 3 Hours.
Survey of changes in behavioral function in later adulthood, with emphasis on methodologies for studying aging, cognitive function, personality, social psychology, and psychopathology. Prerequisite: PSYC 100; Recommended: PSYC 216 or PSYC 224.

PSYC 363  Developmental Child Psych Lab  credit: 4 Hours.
Provides students with a background in developmental research methodology, such as observational techniques used with children. Students will gain experience collecting data and learn how to write research papers. Prerequisite: PSYC 216 and PSYC 235, or equivalent.

PSYC 365  Stress, Trauma and Resilience  credit: 3 Hours.
Provides an overview of traumatic stress, with a particular emphasis on the biological and social factors that shape human responses to trauma. Students will become familiar with the definition and range of potentially traumatic events in various social contexts (e.g. military vs. civilian), as well as the genetic and environmental features that influence vulnerability vs. resilience to trauma. Prerequisite: PSYC 100 or equivalent.

PSYC 370  Understanding Suicide  credit: 3 Hours.
Exploration of the enigma of suicide, covering its many dimensions including the historical, literary, neurobiological psychological, sociological, cultural, public health, and personal/subjective. Suicide has been studied from each of these perspectives, and while there is agreement that it is a "multidimensional malaise," bringing these dimensions together has been extremely challenging. Explores this challenge through lectures and discussions. Prerequisite: PSYC 238.

PSYC 373  Culture & Psychology  credit: 3 Hours.
Centers on cross-cultural study of substantive areas such as personality, motivation, socialization, interpersonal behavior, psychological environments, cognition and cognitive development, ethnocentrism and stereotypes, and visual perception; emphasis on methodological limitations and contributions of cross-cultural study; and discussion of current problems and research. Same as ANTH 373. Prerequisite: Six hours of psychology or anthropology, or consent of instructor.

PSYC 379  Clinical/Abnormal Psych Lab  credit: 4 Hours.
Introduction to research methods used in clinical psychology covering research concerned with psychopathology. Students will learn concepts and key terms; read and discuss research reports; and obtain first-hand experience designing, carrying out, and reporting on their own research. Students in the class will be the participants for all student-developed research. Prerequisite: PSYC 238.

PSYC 381  Beg Prac in Mental Hlth  credit: 4 Hours.
Didactic instruction and supervised practicum experience in a community treatment agency; self-report, observational, and physiological approaches to client assessment; and lecture-discussion and direct agency experience each week.

PSYC 383  Adv Prac in Mental Hlth I  credit: 4 Hours.
Supervised practicum experiences in a community agency.

PSYC 385  Adv Prac in Mental Hlth II  credit: 4 Hours.
Supervised practicum experiences in a community agency.

PSYC 396  Intermediate Current Topics in Psychology  credit: 0 to 3 Hours.
Intermediate treatment of current topics in the field of psychology. May be repeated to a maximum of 6 hours in a semester, to a maximum of 12 hours in subsequent semesters. Prerequisite: PSYC 100 or consent of instructor; particular sections may have additional 200-level prerequisites.

PSYC 398  Junior Honors Seminar  credit: 3 Hours.
Seminar on experimental methods and contemporary psychological research. Prerequisite: Junior standing and admission to departmental honors program.

PSYC 402  Intro Clin Neuropsych  credit: 4 Hours.
Fundamental concepts of clinical neuropsychology will be introduced, and students will learn the neuropsychological measures that are typically employed in assessment. The course will take a developmental perspective, and readings will address assessment issues in children and adolescents as well as adults. The course will be conducted as a lecture/seminar, with a focus on class participation. Actual testing data will be distributed to the class, and discussion will focus on interpretation and case conceptualization. Students will also be required to learn about and administer tests. 4 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210 and PSYC 238 or consent of instructor.

PSYC 403  Memory and Amnesia  credit: 3 or 4 Hours.
Examination of the nature of amnesia and what it teaches us about the organization of normal human memory. Coverage will include studies of amnesia and other circumscribed memory impairments in human patients, taken from the scientific literature, which will be compared to the descriptions of amnesia in movies, literature, and the media. Same as NEUR 403. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210 and/or PSYC 224, or consent of instructor.

PSYC 404  Cognitive Neuroscience  credit: 3 or 4 Hours.
Examination of research concerned with identifying and characterizing the cognitive systems supporting such capacities as memory, attention, and visual processing, and with understanding how such cognitive activities arise from the functioning of specific brain modules and brain mechanisms. Same as NEUR 405. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210 and/or PSYC 224, or consent of instructor.

PSYC 410  Hate Crimes  credit: 3 Hours.
Same as AFRO 410. See AFRO 410.

PSYC 413  Psychopharmacology  credit: 3 or 4 Hours.
Behavioral and physiological effects of chemicals either used therapeutically to treat psychological disorders or that may be abused for their psychotropic effects; emphasizes mechanisms and models for the study of drug action. Same as NEUR 413. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: PSYC 210, MCB 150, or consent of instructor.

PSYC 414  Brain, Learning, and Memory  credit: 3 or 4 Hours.
Conveys a knowledge of current research on the physiological bases of learning and memory; considers a wide range of topics from molecular (e.g., cellular morphological and functional plasticity) to relatively molar (e.g., effects of clinical and experimental brain damage on learning and memory processes). Same as NEUR 414. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210, MCB 150, or consent of instructor.
PSYC 416 African American Psychology  credit: 3 or 4 Hours.
Same as AFRO 411. See AFRO 411.

PSYC 417 Neuroscience of Eating & Drinking  credit: 3 or 4 Hours.
Eating and drinking are critical to survival. Despite complex and redundant mechanisms, aberrant ingestive behaviors occur and can result in extreme body weights. This course is designed to critically probe and review the current understanding of neural and behavioral mechanisms of eating and drinking. Students will learn how eating and drinking are closely related to physical and mental health, and how to apply this knowledge to live a healthier life. Same as FSHN 417. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 100 or equivalent.

PSYC 420 Theories of Psychotherapy  credit: 4 Hours.
Same as EPSY 420. See EPSY 420.

PSYC 421 Principles of Psychophysiology  credit: 3 or 4 Hours.
Theoretical and practical aspects of human psychophysiology; measurement techniques and the application of psychophysiological principles to problems in developmental, clinical, social, and experimental psychology. Same as NEUR 421. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 235, six hours of psychology, and an introductory course in physiology.

PSYC 423 Language Acquisition  credit: 3 or 4 Hours.
Survey of theory and research on the acquisition of language, concentrating on the acquisition of a first language by the young child. Same as LING 423 and MACS 423. 3 undergraduate hours. 4 graduate hours. Prerequisite: Six hours of psychology or linguistics above the 100-level, or consent of instructor.

PSYC 425 Psych of Language  credit: 3 or 4 Hours.
Survey of theory and research in the psychology of language; topics include relation of linguistics and psychology, language development, and influence of language on perception, memory, and thought. 3 undergraduate hours. 4 graduate hours. Credit is not given for both PSYC 425 and LING 425. Prerequisite: Six hours of psychology or consent of instructor.

PSYC 427 Language and the Brain  credit: 3 or 4 Hours.
Same as LING 427 and SHS 427. See SHS 427.

PSYC 432 Genes and Behavior  credit: 3 Hours.
Same as ANTH 432, IB 432 and NEUR 432. See IB 432.

PSYC 433 Evolutionary Neuroscience  credit: 3 or 4 Hours.
Current methods, tools, and progress in evolutionary biology and quantitative genetics of brain and behavior of vertebrates. Same as NEUR 433 and PHIL 433. 3 undergraduate hours. 4 graduate hours. Prerequisite: IB 150 or PSYC 210.

PSYC 437 Advanced Psychology Lab  credit: 4 Hours.
An advanced laboratory course in different areas of psychology. Detailed descriptions are provided under the individual sections. 4 undergraduate hours. No graduate credit. May be repeated in separate semesters to a maximum of 8 undergraduate hours. Prerequisite: PSYC 100, additional courses and prerequisites may be required depending on the lab.

PSYC 443 Psychophysiology in Ex & Sport  credit: 3 or 4 Hours.
Same as KIN 443. See KIN 443.

PSYC 445 Cognitive Neuroscience Lab  credit: 4 Hours.
Study of the basic principles underlying scanning of the brain using functional Magnetic Resonance Imaging (fMRI). The lectures introduce how to use an MRI scanner, the basic biophysics that makes functional imaging possible, experimental design for fMRI, and basic data analysis. During the labs, students will get hands on experience analyzing fMRI data. 4 undergraduate hours. 4 graduate hours. Prerequisite: One of the following: PSYC 204, PSYC 210, PSYC 220, or consent of the instructor. PSYC 235 or equivalent is recommended.

PSYC 447 Psych of Sport Performance  credit: 3 or 4 Hours.
Same as KIN 447. See KIN 447.

PSYC 450 Cognitive Psychophysiology  credit: 3 or 4 Hours.
Survey of the theory and practice of using recordings of brain electrical activity to study normal and abnormal perception, attention, decision-making, memory, response preparation, and language. Same as NEUR 450. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 224 or equivalent; PSYC 210 recommended.

PSYC 451 Neurobio of Aging  credit: 0 to 4 Hours.
Study of the neurobiological consequences of aging with an emphasis on brain changes at the cellular and systems level, using animal models of healthy and pathological aging. Same as KIN 458 and NEUR 451. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210 or related courses or consent of instructor.

PSYC 453 Cog Neuroscience of Vision  credit: 3 or 4 Hours.
Overview of the neuroscience of the visual system, the eye and subcortical structures, with a focus on the visual cortex and higher-level vision (e.g. attention and object perception). Same as NEUR 453. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 210, PSYC 220, PSYC 224, PSYC 230 or consent of instructor.

PSYC 455 Organizational Psych  credit: 2 to 4 Hours.
Social psychological research and theory applied to industrial problems; emphasis on interaction and communication theory, role theory, leadership theory, motivational and perceptual theory, and group structure theory as an aid in understanding and analyzing industrial problems. 3 undergraduate hours. 2 to 4 graduate hours. Prerequisite: PSYC 201 or PSYC 245.

PSYC 456 Human Performance and Cognition in Context  credit: 3 or 4 Hours.
Same as EPSY 456 and IE 445. See EPSY 456.

PSYC 462 How Children Think  credit: 3 or 4 Hours.
Examines the development of children’s thinking from birth through the preschool and elementary school years. Addresses questions such as the following: What do babies know about the world? What can they perceive, and how do their perceptual abilities develop? How do children come to understand other people’s actions and mental states? How do they think about biological categories (such as animals and plants) and social categories (such as boys and girls)? When and how do children learn what numbers mean? How is children’s development influenced by culture? 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 216.

PSYC 465 Personality and Soc Dev  credit: 3 or 4 Hours.
Major theories of personality and social development, with attention to processes of social learning, individual differences in personality development, and outcomes of social development; applications to school, home, and other field settings. Same as EPSY 405. 3 undergraduate hours. 4 graduate hours. Prerequisite: PSYC 216 or EPSY 236 or equivalent.
PSYC 466 Image and Neuroimage Analysis  credit: 3 or 4 Hours.
Fundamental concepts, techniques/algorithms, and emerging directions of research in image and neuroimage analysis: image enhancement, image and brain image segmentation, neuroimage registration, functional magnetic resonance imaging (fMRI) time series analysis, and brain connectivity, etc. Same as STAT 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One of STAT 400, PSYC 406, an equivalent, or consent of instructor; basic programming experience in Matlab, or C/C++, or similar.

PSYC 468 Psych and Law  credit: 2 to 4 Hours.
Examines relationship of the administrative, civil, and criminal justice systems to educational and mental health institutions; individual rights, social issues, and psychological well being. 3 undergraduate hours. 2 to 4 graduate hours. Prerequisite: Six hours of social science.

PSYC 472 Environmental Psychology  credit: 4 Hours.
Same as NRES 472. See NRES 472.

PSYC 475 Personnel Psych  credit: 3 or 4 Hours.
Introduces problems and research relevant to personnel issues in organizations. Topics include: individual differences; selection of personnel; test theory; performance appraisal; equal employment opportunity legislation, regulation, and litigation; assessing bias in selection. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: PSYC 235 or equivalent, and either PSYC 245 or BADM 313.

PSYC 477 Philosophy of Psychology  credit: 3 or 4 Hours.
Same as PHIL 477. See PHIL 477.

PSYC 484 Ethical Practice of Statistics  credit: 3 or 4 Hours.
Study of the ethical practice of statistics, defined as being in accord with the accepted rules and standards for right conduct that govern the discipline of statistics and its many areas of application. An emphasis is placed on the use of statistical and probabilistic reasoning in the social, behavioral, and biomedical sciences, with particular stress on the relation to law and the judiciary. Same as STAT 484. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory statistics class, e.g., PSYC 235, PSYC 301, STAT 100, EPSY 480, SOC 280.

PSYC 489 Neural Network Modeling Lab  credit: 3 or 4 Hours.
Introduction to neural network modeling, the principles of neural computation, learning algorithms and the evaluation of neural networks as models of human perception and cognition. 3 undergraduate hours. 4 graduate hours. Prerequisite: College algebra or equivalent; computer programming experience, or consent of instructor.

PSYC 490 Measurement & Test Develop Lab  credit: 4 Hours.
The measurement of human behavior in psychological studies; the construction and use of psychological tests; introduction to tests of intelligence, achievement, personality, and interest; and practice in test construction, administration, and validation. Lectures and laboratory. 4 undergraduate hours. 4 graduate hours. Prerequisite: A knowledge of statistics equivalent to that from PSYC 235.

PSYC 492 Capstone Undergrad Research  credit: 3 Hours.
Capstone experience for undergraduate students doing advanced research in any area of psychology. Provides in-depth background knowledge of their research, and teaches students to make effective oral and written presentations of their findings. In conjunction with PSYC 494, will facilitate the preparation of a Bachelor’s thesis that can be submitted for the awarding of the departmental distinction at graduation. May be taken for two semesters with the first semester emphasizing a review of the literature and the second semester concentrating on the presentation of the results. 3 undergraduate hours. No graduate credit. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Senior standing in Psychology, consent of instructor, and students must arrange to do a research project with a faculty member.

PSYC 494 Advanced Research in Psych  credit: 1 to 4 Hours.
Supervised independent investigation of special topics in psychology; requires a written report with a final copy submitted for departmental records. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 12 hours. Prerequisite: Ten hours of psychology or cognate area, or written consent of instructor.

PSYC 495 Internship Capstone Experience  credit: 3 Hours.
This capstone seminar will connect students’ summer internship experiences to their academic major in Psychology and to their career goals. Students will reflect, discuss and build on their internship experiences to help them identify the skills and abilities they have and need to be successful. They will participate in both individual assignments and team projects that will facilitate their ability to communicate in the many different careers available to students with a degree in psychology. 3 undergraduate hours. No graduate credit. Prerequisite: Completion of an internship during previous summer.

PSYC 496 Adv Current Topics in Psych  credit: 2 to 4 Hours.
Advanced treatment of current topics in the field of psychology. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 9 hours. Prerequisite: PSYC 100 and junior standing, or consent of instructor; particular sections may have additional 200-level and/or 300-level prerequisites.

PSYC 498 Senior Honors Seminar  credit: 3 Hours.
Continuation of PSYC 398, this course assists students in the Psychology Honors Program with the researching and writing of an undergraduate honors thesis, under supervision of a faculty member, on a problem of appropriate scope and character. 3 undergraduate hours. No graduate credit. Prerequisite: PSYC 398. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

PSYC 499 Senior Honors Seminar II  credit: 3 Hours.
The completion of writing of an undergraduate honors thesis, under supervision of a faculty member, on a problem of appropriate scope and character. Students also create posters describing their work for presentation at the Psychology Honors Poster Fair and the Campus Undergraduate Research Symposium. 3 undergraduate hours. No graduate credit. PSYC 398 and PSYC 499 are approved for General Education credit only as a sequence. All courses must be completed to receive Advanced Composition credit. Prerequisite: PSYC 498. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

Information listed in this catalog is current as of 03/2017
General Psychology Concentration

Major in Sciences and Letters Curriculum

E-mail: psych-advising@illinois.edu (psych-advising@illinois.edu)

Degree title: Bachelor of Science in Liberal Arts and Sciences.

Minimum required concentration and supporting course work equates to 32-36 hours of Psychology courses. Please see your academic advisor. A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours).

Twelve hours of 300- and 400-level courses in Psychology must be taken on this campus.

Minimum hours required for graduation is 120.

Students must also complete the Campus General Education requirements (https://courses.illinois.edu) including the campus general education language requirement.

Religion

Valerie Hoffman
3080 Foreign Languages Building, 707 South Mathews, Urbana
Ph: (217) 333-2022
http://www.religion.illinois.edu

A major and minor are sponsored by the Department of Religion.

Major in Religion

E-mail: religion@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

A minimum of 30 hours of coursework is required for the major. This includes (a) REL 230 or REL 231, and (b) completing a Capstone course, as explained below.

At least 15 of the 30 hours must be at the 300 or 400 level, and no more than 9 hours may be at the 100 level. Twelve hours of 300 or 400-level courses in your major must be taken on this campus.

Each student must complete two courses in any of the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser’s office. And each student must complete two courses in any of the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser’s office.

Additionally, each student will establish a primary and secondary field of study. For the primary area of study, a student must complete a minimum of three courses (nine credit hours), and for the secondary area two courses (six credit hours) are required. An individual course may not be counted twice toward fulfilling the requirements of the primary and secondary areas of interest. (Students are encouraged to complete more than the minimum of three courses in the primary area of study.)

The following are the areas of study: Buddhism, Christianit, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or individually designed area of study chosen with the approval of the departmental adviser.

Capstone Experience

Research paper for one 400-level course in Religion (REL): Each major must make special arrangements with a professor teaching a 400-level REL course to conduct a significant research project that results in a research paper of 20 pages (minimum). The goal of this requirement is...
to ensure that each Religion major has conducted a significant research project. REL 493 can be used to satisfy this requirement.

Students considering graduate study in Religion are urged to consult with professors on the necessary preparation for graduate study in their area of interest.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements.

Language Requirements: The major in Religion does not require any language study beyond meeting the University's general education language requirement. However, majors are strongly encouraged to learn the languages relevant to their primary field of study and to begin that course of study as soon as possible. Please consult with the Director of Undergraduate Studies in Religion or a professor in your area of interest about appropriate language study.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To be considered for departmental distinction a student must have an overall GPA of at least 3.5. Distinction is granted on the basis of a senior thesis written in the context of REL 493. The level of distinction is based on evaluation of the thesis.

Minimum of 30 hours of Religion courses including:

PHIL/REL 230 Philosophy of Religion Intro 3
or REL 231 Religion and Philosophy 3

Distribution Requirement: Courses taken must include:

(a) Two courses in the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser’s office and

(b) Two courses in the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser’s office.

Three courses in a primary area of study 1 9
Two courses in a secondary area of study 1 6

Capstone Experience: a 400-level REL course in which a research project is undertaken and a 20 page research paper is written. This course can be REL 493 and can also be used to fulfill part of the distribution or primary or secondary area of study requirement.

Three courses in a primary area of study 1 9
Two courses in a secondary area of study 1 6

Capstone Experience: a 400-level REL course in which a research project is undertaken and a 20 page research paper is written. This course can be REL 493 and can also be used to fulfill part of the distribution or primary or secondary area of study requirement.

1 Areas of study include: Buddhism, Christianity, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or an individually designed area of study approved by the departmental adviser. Courses chosen to fulfill the primary area of study cannot also be used to fulfill the secondary area of study.

Minor in Religious Studies

E-mail: religion@illinois.edu

Web address for department: www.religion.illinois.edu (http://www.religion.illinois.edu)

REL 110 World Religions 3

One course in Ethics or Philosophy of Religion 3
Recommended courses are as follows:
REL 230 Philosophy of Religion Intro
REL 424 Philosophy of Religion

Five additional courses: 15
Two courses (6 hours) must be from an Asian religious tradition (Hinduism, Buddhism, or Islam, with at least one course in Hinduism and Buddhism)
Two courses (6 hours) must be from the Western religious traditions (Biblical Studies, Judaism, Christianity, Islam, with at least one course in Biblical Studies, Judaism, or Christianity)

Total Hours 21

No more than nine (9) hours may be selected from courses at the 100 level.
At least six (6) hours must be selected from courses at the 300 or 400 level.

RLST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/RLST)

Russian, East European, and Eurasian Studies Center

David Cooper, Director of Center
104 International Studies Building, 910 South Fifth Street, Champaign
PH: (217) 333-1244
http://www.reeec.illinois.edu

The Russian, East European, and Eurasian Center offers an interdisciplinary major and minor in Russian, East European, and Eurasian Studies (REEES). These programs involve students in the study of an important and complex world area in a manner that draws together the approaches of different disciplines, while at the same time building knowledge in a single discipline. A student will construct an individual program of study, depending on the student’s interests and career goals, in consultation with the undergraduate advisor of the Center.

The major in Russian, East European, and Eurasian Studies consists of three components: 1) language study (Russian, Polish, Czech, Ukrainian, Bosnian-Croatian-Serbian, Turkish, and more); 2) a multidisciplinary area studies focus; and 3) concentration in a single discipline. Language study can be in Russian or in any of the other languages of the region offered at the University. Students also take courses in a variety of disciplines (history, sociology, political science) and develop a broad expertise in the history, politics, and culture of the region that includes Russia, but also many other countries, from the Czech Republic to Estonia to Uzbekistan. In addition, the concentration in a single discipline provides students with deep knowledge of a specific field that can qualify them for graduate or professional study. Many students also use this concentration to double major. With this program, the REEES major provides students with an interdisciplinary focus on issues critical to the region and foundational language training necessary for professional specialization in the area.

Students often go on to careers in government service (foreign service, FBI, CIA) or to work at NGOs (environment, human rights, and other international careers) in addition to publishing, editing, writing, translation, international business, law, teaching, and research.
REEES is one of two "Russian" majors (and minors) at the University of Illinois. What is the difference between them and which is the right one for you?

The REEES major has a current affairs focus and multidisciplinary area studies that develops students' skill sets in the humanities, social sciences, and other fields. The major in Slavic Studies emphasizes the study of language and literature, and students develop intensive cultural literacy and communication skills through humanities-oriented training. Many Slavic Studies majors go on to careers in writing and editing, media, or work with international cultural foundations and organizations. Both majors are excellent preparation for law school or graduate school and careers in teaching or research.

Major in Russian, East European, and Eurasian Studies

Major in Sciences and Letters Curriculum

E-mail: reec@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting courses equate to 48 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: To qualify for departmental distinction, a student must have at least a 3.5 GPA in the courses taken for Component 2 (see below) and must complete a senior thesis in consultation with a faculty member affiliated with the center. Students who wish to qualify for distinction in this major should consult with the center director at the beginning of the junior year or earlier to prepare a suitable plan.

Component 1: Completion of three years of college-level study of Russian or another language of Eastern Europe or Eurasia, or equivalent proficiency. This stipulation may be partially satisfied through fulfillment of the LAS two-year language requirement if a regionally appropriate language is chosen for that purpose. A third year of study, however, is demanded beyond this. If a non-Russian, East European or Eurasian language is selected to meet the LAS requirement, then the three years of Russian, East European or Eurasian language study specified here must be taken in addition to those completed to satisfy the LAS requirement. Only the hours earned in the third, most advanced year of language study are calculated into the degree here, as these represent proficiency beyond that required by all LAS BA degree programs and as the first two years of language study are a prerequisite for the third.

Component 2: Russian and East European studies core courses, including:

REES 200 Intro to Russia and Eurasia

Component 2: Russian and East European studies core courses, including:

REES 201 Introduction to Eastern Europe

REES 495 Senior Seminar

15 hours: Choose one course from each of three departments other than the department used for component 3 below. The courses comprising the remaining hours of component 2 may be from the same discipline as those under component 3; however, a course may be counted toward the total for only one component.

Language courses that concentrate on the basic skills of speaking, listening, reading, and writing cannot be counted as part of this component.

Component 3: Courses in a single discipline. Among those disciplines that are most commonly used with this specialization are anthropology, economics, geography, history, political science, Russian language and literature, and sociology. Among disciplines also used are business administration, comparative literature, education, English, fine arts, French, German, journalism, linguistics, mathematics, music, philosophy, psychology, and various natural sciences. Others are permitted. Consult your advisor. 2

1 The Center maintains a list of applicable courses on its web site.

2 If the study of a language is used for this component, 20 hours must be taken beyond the requirement of 6 additional hours outlined under component 1 above.

Interdisciplinary Minor in Russian, East European, and Eurasian Studies

The interdisciplinary minor in Russian, East European, and Eurasian studies allows students in diverse fields to complement their programs with a study of Russia, Eastern Europe, and Eurasia. Programs of study can be tailored to the needs and interests of individual students, in consultation with the undergraduate advisor.

E-mail: reec@illinois.edu

Web address for department: www.reec.uiuc.edu (http://www.reec.uiuc.edu)

The equivalent of three semesters of college-level language study in Russian or another language of Eastern Europe or Eurasia. This stipulation may be satisfied through partial fulfillment of the LAS two-year language requirement if a regionally appropriate language is chosen for that purpose. If a non-REEE language is selected to meet the LAS requirement, then the three semesters of REEE language study specified here must be taken in addition to those completed to satisfy the LAS requirement. Only those hours earned in the second and third semester of language study are calculated into the degree, as the first semester represents a prerequisite for the other two.

Courses on Russia, Eastern Europe, or Eurasia from at least three different academic units. (Literature courses are acceptable for this requirement; language courses are not.) No more than 6 hours may be counted from any one unit; 6 hours must be at the 300- or 400-level.

Total Hours 2

1 The Center maintains a list of applicable courses.
No more than 9 hours may be taken at the 100-level.

REES Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/REES)

Courses

REES 115 Intro to Polish Culture credit: 3 Hours.
Same as POL 115. See POL 115.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

REES 116 Intro to Russian Culture credit: 3 Hours.
Same as RUSS 115. See RUSS 115.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult

REES 200 Intro to Russia and Eurasia credit: 3 Hours.
Survey of the societies and states formerly constituted as the Soviet Union. Interdisciplinary and team-taught. Combines lectures, discussions, and films covering the history, political science, economics, sociology, and culture of the area.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

REES 201 Introduction to Eastern Europe credit: 3 Hours.
Interdisciplinary survey of Eastern Europe focusing mostly on the 20th century to the present, exploring issues of nationalism, socialism, post-socialism and EU accession. Focuses on Central Europe and the Balkans, but also references the Baltic States, Belarus, Ukraine, and Russia. Students will learn about the region using perspectives and methodology from historical, economic, political, sociological and anthropological texts.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

REES 296 Special Topics credit: 3 Hours.
Topics in the interdisciplinary study of Russia, Eastern Europe, and Eurasia. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours.

REES 325 Social Media and Global Change credit: 3 Hours.
Same as EPS 325, AFST 325, ASST 325, EURO 325, INFO 325, LAST 325, and SAME 325. See EPS 325.

REES 390 Individual Study or Research credit: 3 Hours.
Directed reading or research on selected topics. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor supervising the work.

REES 477 Post-Communist Fiction credit: 3 or 4 Hours.
Same as SLAV 477 and CWL 477. See SLAV 477.

REES 493 Honors Senior Thesis credit: 3 Hours.
Undergraduate honors thesis. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: REES major with senior standing and 3.5 grade-point average; consent of instructor supervising the work and the REEEC director.

REES 495 Senior Seminar credit: 3 Hours.
Interdisciplinary seminar normally taken in the senior year. Involving faculty in a number of disciplines, this course approaches understanding Russia, Eastern Europe, and Eurasia and the methodologies of its study through questions of identities, cultural values, and change. Taught in conjunction with REES 550. 3 undergraduate hours. No graduate credit. Prerequisite: Declared major in Russian, East European, and Eurasian Studies or consent of instructor; junior or senior standing.

REES 496 Topics in REEE Studies credit: 3 or 4 Hours.
Topics in the interdisciplinary study of Russia, Eastern Europe, and Eurasia. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours.

School of Earth, Society, and Environment

Stephen Marshak, Director of School
152 Computing Applications Building, 605 East Springfield, Champaign, IL 61820
PH: (217) 333-3440
http://www.earth.illinois.edu/students/

The major in Earth, Society, and Environmental Sustainability (ESE) offers a unique, multidisciplinary program in the College of Liberal Arts and Sciences (LAS). Students will learn about the interconnectedness of environmental, economic, and social systems of the world; the implications of our actions on the environment; factors that determine the sustainability of human institutions, organizations, cultures, and technologies; finding solutions through innovative approaches; and expanding future options by practicing environmental stewardship. Following the classical definition of sustainability, the aim is to develop citizens, businesses, and societies that meet the needs of the present without compromising the ability of future generations to do the same.

Required introductory coursework provide breadth in the essential natural and social sciences needed for interdisciplinary environmental sustainability study. The major offers two concentrations within which majors gain content expertise: Science of the Earth System, and Society and the Environment. Depth of knowledge is achieved by requiring a minimum of five advanced classes in a coherent field of study.

The major is available to both on-campus and off-campus students. On-campus students need only be eligible to be in LAS to transfer to the degree. The program is also designed so that students with an associates (or equivalent) degree, or who have sufficient previous coursework, can transfer to the University and complete a Bachelor of Science degree entirely off-campus. Students interested in completing the course off-campus, but have less than 60 hours of coursework, should consult with the program advisor.

The degree will prepare students for a variety of career paths in either the private or the public sector, as well as for graduate study. The interdisciplinary background in both scientific and human aspects of environmental problems will prepare students for a variety of positions with businesses, state and federal regulatory agencies, research institutions, consulting firms and nongovernmental education and advocacy organizations. The major also provides a platform for entry into professional schools (e.g. law, business, and public policy programs) as well as graduate study in a variety of physical science and social science disciplines, and in interdisciplinary programs related to the environment.
For the Degree of Bachelor Science in Liberal Arts and Sciences
Major in Sciences and Letters Curriculum
E-mail: sese-info@illinois.edu

Earth, Society, and Environmental Sustainability

On-campus UIUC students can transfer to this degree without any special requirements.

Off-campus students who plan to transfer to this degree should have completed, or have in progress, the following:

- the Composition 1 requirement.
- the third level of high school foreign language or second level of college foreign language.

It is highly recommended that off-campus students complete the following requirements before transferring to the online degree - students who have not completed the following requirements may have to take additional coursework (either at UIUC or elsewhere) and should consult the program advisor:

- the UIUC LAS language requirement should be satisfied.
- the General Education Distribution Requirements of the College of Liberal Arts and Sciences should be completed.
- the Cognate Coursework should be completed.

Students must complete the ESE Core requirements listed below and select one concentration in consultation with an academic advisor.

- Society and the Environment (SAE) Concentration (p. 528)
- Science of the Earth System (SES) Concentration (http://catalog.illinois.edu/undergraduate/las/academic-units/earth-system-environ/science-earth-system-concentration)

ESE Core Requirements

ESES Introductory Core: Students take one approved introductory or advanced course from at least four of the following five areas. Approved courses within these areas are available from the ESE advisor ¹

<table>
<thead>
<tr>
<th>Area</th>
<th>Number of Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Environment and the Human Response</td>
<td>3-4</td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>Earth’s Biosphere and Ecology</td>
<td></td>
</tr>
</tbody>
</table>

ESE coursework

- GEOG 379 Intro to GIS Systems
- ESE 200 Earth Systems

Advanced Courses 15-20

A minimum of five 300- and 400-level courses, from the approved list and in an academically coherent program approved by the advisor, are required. At least three of these five advanced courses must be listed or cross-listed as an ESE or ENSU course. Courses taken to satisfy the "ESE Introductory Core" requirement cannot simultaneously be used to satisfy the Advanced Course requirement. These courses should be used to help meet the LAS requirement of 21 hours of 300- or 400-level courses overall, and the 12 hours of 300- or 400-level courses in the major. It is strongly recommended that students complete the LAS requirement with 21 hours of 300- or 400-level courses related to the ESE curriculum.

Environmental Sustainability Courses

- ENSU 300 Environmental Sustainability credit: 3 Hours.
  Same as LA 370 and NRES 370. See LA 370.
- ENSU 301 Soc Impacts Weather & Climate credit: 3 Hours.
  Same as ATMS 322. See ATMS 322.
  This course satisfies the General Education Criteria for: UIUC: Social Sciences
- ENSU 302 Air Pollution to Global Change credit: 3 Hours.
  Same as ATMS 323. See ATMS 323.
ENVS 303 Sustainable Business I credit: 4 Hours.
At the dawn of the 21st century, business and society is confronted with a confluence of factors, including environmental degradation, widespread poverty, and the need for renewable sources of energy. The diverse sources of information that point to an uncertain future suggests that a ‘business as usual’ approach has to be replaced with more proactive alternatives that address the needs of the environment, consumer welfare and community development. This course on sustainable management begins to address these issues and engender an appreciation among our students for the challenges that lie ahead for businesses. Looks at the relationship between sustainable business practices, societal welfare, and ecological systems. Student projects will apply marketing and business concepts to create a sustainable business plan for organizations.

ENVS 310 Renewable & Alternative Energy credit: 4 Hours.
Fossil fuel supplies are finite and growing energy demands of an ever increasing population will quickly deplete these reservoirs. Focuses on the use and availability of renewable and alternative energy sources such as wind, solar, bio-fuels, ethanol, geothermal and nuclear power as well as the impacts of using these alternative energy sources on climate, society and the global economy. Students will develop the student’s perspective on human energy consumption at all scales through a complete scale analysis of energy production and consumption from the individual to the national government to the world economy.

ENVS 410 Sustainable Organizations credit: 4 Hours.
Explores the notion of sustainability as a core business tenant, and how entrepreneurs and their companies are working to create and capture financial, social, and environmental value. The focus is on on large, for profit companies, but lessons will extend to smaller, non-profit, and governmental organizations. The aim is to prepare participants for the green challenge of adopting and implementing socially responsible practices in the workplace. 4 undergraduate hours. 4 graduate hours.

ENVS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/ENVS)

Environmental Studies Courses

ENVS 101 Introduction to Energy Sources credit: 3 Hours.
Same as NPRE 101. See NPRE 101.
This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

ENVS 210 Environmental Economics credit: 3 Hours.
Same as ACE 210, ECON 210, NRES 210, and UP 210. See ACE 210.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

ENVS 220 Communicating Agriculture credit: 3 Hours.
Same as AGCM 220 and NRES 220. See AGCM 220.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

ENVS 299 Ind Studies of Env. Topics credit: 0 to 4 Hours.
Approved for letter and S/U grading. Prerequisite: Consent of instructor.

ENVS 301 Tools for Sustainability credit: 3 Hours.
Develops systems-thinking skills needed to make connections between different disciplines to better understand problems and trade-offs related to sustainability. Students will gain competence in conducting cost-benefit and life-cycle analyses and learn about sustainability metrics while improving their ability to communicate about the integrated dimensions of sustainability within an interdisciplinary setting. Prerequisite: For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENVS 310 Natural Resource Economics credit: 3 Hours.
Same as ACE 310, and NRES 330. See ACE 310.

ENVS 330 Environmental Communications credit: 3 Hours.
Same as AGCM 330 and NRES 330. See AGCM 330.

ENVS 336 Tomorrow’s Environment credit: 3 Hours.
Same as CHLH 336 and CPSC 336. See CPSC 336.

ENVS 380 Environmental Geology credit: 4 Hours.
Same as GEOL 380. See GEOL 380.

ENVS 406 Urban Ecology credit: 4 Hours.
Same as UP 406. See UP 406.

ENVS 420 Conservation Biology credit: 4 Hours.
Same as CPSC 436 and IB 451. See IB 451.

ENVS 430 Comm in Env Social Movements credit: 3 Hours.
Same as AGCM 430, NRES 430, and SOC 464. See AGCM 430.

ENVS 431 Environ Toxicology & Health credit: 3 Hours.
Same as CHLH 461 and IB 485. See IB 485.

ENVS 433 Pesticide Toxicology credit: 3 or 4 Hours.
Same as CB 434 and IB 486. See IB 486.

ENVS 447 Environmental Sociology credit: 3 or 4 Hours.
Same as RSOC 447 and SOC 447. See SOC 447.

ENVS 469 Environmental Health credit: 3 or 4 Hours.
Same as CHLH 469. See CHLH 469.

ENVS 474 Principles of Epidemiology credit: 4 Hours.
Same as CHLH 474 and PATH 474. See CHLH 474.

ENVS 480 Basic Toxicology credit: 3 Hours.
Same as CB 449, CPSC 433 and FSHN 480. See FSHN 480.

ENVS 491 Sustainability Experience credit: 1 to 4 Hours.
Students will work with faculty, staff, and/or the Student Sustainability Committee to advance campus sustainability goals and the Illinois Climate Action Plan. This course is designed to enable students to apply their disciplinary knowledge to tackle inherently interdisciplinary problems, while also developing and enhancing their critical analysis, leadership, organizational, and project management/evaluation skills and preparing them for addressing sustainability issues in their careers. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated, if topics vary. Prerequisite: Consent of instructor.
ENVS 492 Sustainability, Energy and Environment Capstone credit: 4 Hours.  
Problem-focused learning and a holistic and interdisciplinary perspective to address critical sustainability-related challenges facing society. Students will gain critical thinking skills to examine the sustainability of various decisions, analyze the trade-offs between the economic, environmental and social dimensions of sustainability of alternative solutions, learn techniques to operationalize the concept of sustainability and develop practical skills in sustainability assessment. Team projects will develop team building skills, communication skills and project management skills. No graduate credit. Prerequisite: ENVS 301. For students enrolled in the Sustainability, Energy and Environment Fellows Program.  

ESE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ESE)  

Earth, Society, Environment Courses  
ESE 103 Earth’s Physical Systems credit: 4 Hours.  
Same as GEOG 103. See GEOG 103. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 104 Geology of the National Parks credit: 3 Hours.  
Same as GEOL 104. See GEOL 104. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 106 Geographies of Globalization credit: 3 Hours.  
Same as GEOG 106. See GEOG 106. This course satisfies the General Education Criteria for:  
UIUC: Non-Western Cultures  
UIUC: Social Sciences  
UIUC: Western Compartv Cult  
ESE 111 Emergence of Life credit: 3 Hours.  
Same as GEOL 111. See GEOL 111. This course satisfies the General Education Criteria for:  
UIUC: Life Sciences  
ESE 117 The Oceans credit: 3 Hours.  
Same as GEOL 117. See GEOL 117. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 118 Natural Disasters credit: 3 Hours.  
Same as GEOL 118 and GLBL 118. See GEOL 118. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 120 Severe and Hazardous Weather credit: 3 Hours.  
Same as ATMS 120. See ATMS 120. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
UIUC: Quant Reasoning II  
ESE 140 Climate and Global Change credit: 3 Hours.  
Same as ATMS 140. See ATMS 140. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 143 History of Life credit: 3 Hours.  
Same as GEOL 143. See GEOL 143. This course satisfies the General Education Criteria for:  
UIUC: Life Sciences  
ESE 170 Nature Religion credit: 3 Hours.  
Same as REL 170. See REL 170.  
ESE 199 Undergraduate Open Seminar credit: 1 to 5 Hours.  
Special topics in Earth, Society, and the Environment; content is variable. May be repeated if topics vary.  
ESE 200 Earth Systems credit: 3 Hours.  
Interdisciplinary lecture class intended to introduce Earth Systems studies, which focuses on integrating social and natural science approaches to studying the Earth and its environments.  
ESE 202 American Environmental History credit: 3 Hours.  
Same as HIST 202 and NRES 202. See HIST 202. This course satisfies the General Education Criteria for:  
UIUC: HistPhilosoph Perspect  
UIUC: Western Compartv Cult  
ESE 208 History of the Earth System credit: 4 Hours.  
Same as GEOL 208. See GEOL 208. This course satisfies the General Education Criteria for:  
UIUC: Physical Sciences  
ESE 210 Social & Environmental Issues credit: 3 Hours.  
Same as GEOG 210. See GEOG 210. This course satisfies the General Education Criteria for:  
UIUC: Social Sciences  
ESE 215 Resource Conflicts credit: 3 Hours.  
Same as GEOG 215 and GLBL 215. See GEOG 215. This course satisfies the General Education Criteria for:  
UIUC: Social Sciences  
ESE 222 Big Rivers of the World credit: 3 Hours.  
Same as GEOG 222. See GEOG 222.  
ESE 254 American People, Places, & Environments credit: 3 Hours.  
Same as GEOG 254. See GEOG 254.  
ESE 258 Environment and Society credit: 3 Hours.  
Same as GEOG 287, NRES 287, PS 273 and SOC 287. See NRES 287. This course satisfies the General Education Criteria for:  
UIUC: Social Sciences  
UIUC: Western Compartv Cult  
ESE 289 Environment & Sustainability Field Study credit: 1 Hour.  
Group expedition to study environment and sustainability issues at a nearby field site. Includes in-class meetings, student-led presentation, and a field trip that may be short as part of a day or as long as several days. Field trip and field trip fee required. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. May be repeated in separate terms if topics vary. Prerequisite: For ESE majors, minors, and Sustainability Living Learning Community students. Non majors can apply to the waitlist.  
ESE 293 Culture and Sustainability credit: 3 Hours.  
Same as ENGL 293. See ENGL 293.  
ESE 311 Environmental Issues Today credit: 3 Hours.  
Seminar exposing students in the Environmental Fellows Program to different disciplinary perspectives on specific environmental issues, as revealed in the scholarly literature. Specific problems will vary from term to term. This seminar helps students make the transition from disciplinary to interdisciplinary thinking. Team-taught. Same as ATMS 311. Prerequisite: Admission to Environmental Fellows Program or consent of advisor.
ESE 320 Water Planet, Water Crisis credit: 3 Hours.
Study of the science of water on planet earth, the developing water
crisis, and some possible solutions to it. Topics include water's unique
physical and chemical properties; how it profoundly shapes the earth/
ocean/atmosphere system; dynamics of oceans, atmosphere, lakes,
 rivers, groundwater, and ice masses; current fresh water supplies and
their distribution on earth relative to population; current and future water
crises and the compounding effects of droughts, floods, and global
change; and prospects for some technological and economic approaches
to easing the crisis. Same as GEOG 370 and GEOL 370.

ESE 333 Earth Materials and the Env credit: 4 Hours.
Same as GEOL 333. See GEOL 333.

ESE 350 Sustainability and the City credit: 3 Hours.
Same as GEOG 350. See GEOG 350.

ESE 360 Environmental Writing credit: 3 Hours.
Equips students to write about the environment for various audiences,
with a focus on specific current efforts to promote sustainability on
the Urbana-Champaign campus. We will practice effective techniques
for each stage of the writing process—from defining topics, to gathering
information, to crafting active, engaging prose. Readings will include
models of effective environmental writing and "how to" pieces by experts.
Research will include visits to campus sites and student-conducted
interviews with subjects. Same as ENGL 360. Prerequisite: Completion of
campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

ESE 379 Intro to GIS Systems credit: 4 Hours.
Same as GEOG 379. See GEOG 379.

ESE 380 GIS II: Spatial Prob Solving credit: 4 Hours.
Same as GEOG 380. See GEOG 380.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

ESE 381 Environmental Perspectives credit: 3 Hours.
Same as GEOG 381. See GEOG 381.

ESE 386 Arctic Environm & Society credit: 6 Hours.
Same as GLBL 386 and SCAN 386. See GLBL 386.

ESE 389 Environment and Sustainability Field Expedition credit: 3
Hours.
Group expedition to study environment and sustainability issues at
a field site. Includes in-class meetings, student-led presentation, and
field trip; expeditions run during spring break, winter break, in mid-May
or in intercession; dates depend on location. Field Trip and field trip
fee required. Additional fees may apply. See Class Schedule. May be
repeated up to 12 hours in separate terms if topics vary.

ESE 401 ESE Capstone credit: 3 Hours.
Capstone experience for majors in Earth, Society, and Environment
Sustainability. 3 undergraduate hours. No graduate credit. Approved for
Letter and S/U grading.

ESE 410 Green Development credit: 4 Hours.
Same as GEOG 410. See GEOG 410.

ESE 411 Geomorphology credit: 4 Hours.
Same as GEOG 411. See GEOG 411.

ESE 421 Earth Systems Modeling credit: 4 Hours.
Same as ATMS 421, GEOG 421, GEOG 481 and NRES 422. See ATMS 421.

ESE 439 Biogeography credit: 3 Hours.
Same as ANTH 436, GEOG 436, IB 439, and NRES 441. See IB 439.

ESE 445 Earth Resources Sustainability credit: 3 Hours.
Introduces the physical (energy, mineral, and soil) resources of the Earth,
the environmental consequences of producing and using resources,
the controls on resource supplies, and the alternatives to traditional
supplies. Focuses on the geological origin and context of resources,
the means of exploration and production, the history of production,
and sustainability issues related to consumption and depletion. Provides an
understanding of why resources can be scarce and expensive, why many
are not renewable, and why their use impacts the Earth System. May
include field trips. 3 undergraduate hours. 3 graduate hours. Credit is not
given for both ESE 445 and GEOL 380. Prerequisite: Junior standing or
higher.

ESE 452 Ecosystem Ecology credit: 3 Hours.
Same as IB 452 and NRES 462. See IB 452.

ESE 465 Transp and Sustainability credit: 3 or 4 Hours.
Same as GEOG 465. See GEOG 465.
This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

ESE 466 Environmental Policy credit: 3 or 4 Hours.
Same as GEOG 466. See GEOG 466.

ESE 470 Introduction to Hydrogeology credit: 4 Hours.
Same as GEOG 470. See GEOG 470.

ESE 481 Intl Environ Cooperation credit: 3 Hours.
Same as GEOG 481. See GEOG 481.

ESE 482 Challenges of Sustainability credit: 3 Hours.
An interdisciplinary approach to investigating the meaning and practice
of sustainability in the contemporary Earth system. As a consequence,
students explore the sustainability of crucial resources - water,
soil, energy, mineral and the biota - in the context of the social and
environmental systems in which these resources are used, including the
moral, physical, ecological, political and economic. Same as GEOG 482
and GEOL 483. 3 undergraduate hours. 3 graduate hours. Prerequisite:
Junior or senior standing, or consent of instructor.

ESE 497 Special Topics in ESE credit: 1 to 4 Hours.
Advanced topics course, consisting of seminar or lectures in subjects
not covered by regular course offerings; for advanced undergraduates
and graduate students. Possible field study in a prominent geological
locality; includes in-class meetings, student-led presentations, and field
trip; trips run during spring break, winter break, in mid-May;
dates depend on location. Additional fees may apply. See Class Schedule.
May be repeated up to 4 undergraduate hours. 1 to 4 graduate hours.
Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum
of 12 undergraduate hours or 8 graduate hours. Prerequisite: Consent of
instructor.

Society and the Environment (SAE) Concentration

For the Degree of Bachelor Science in
Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: sese-info@illinois.edu

Earth, Society, and Environmental Sustainability

Minimum required major and supporting courses equate to 48-58 hours.
General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

All students wishing to attend graduate school in any field should discuss necessary supplementary course work with their advisor as early as possible.

Twelve hours of 300- or 400-level courses must be taken on this campus.

Substitutions may be made with advisor approval.

A Major Plan of Study form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Study abroad courses may be substituted for major and minor requirements with approval of advisor.

Minimum hours required for graduation: 120 hours

Departmental distinction: Students who maintain grade point averages of at least 3.3 in all courses within the major and who undertake a faculty-guided individual research project for credit in the major are recommended for graduation with distinction.

**ESE Core Requirements:**

ESES Introductory Core: Students take one approved introductory or advanced course from at least four of the following five areas. Approved courses within these areas are available from the ESE advisor.

1. Environment and the Human Response
2. Sustainability, Policy, and Global Change
3. Earth's Physical Systems, Resources, and Hazards
4. Visualizing the Earth System
5. Earth's Biosphere and Ecology

ESE coursework 6 hours

GEOG 379 Intro to GIS Systems
ESE 200 Earth Systems

Advanced Courses 15-20 hours

A minimum of five 300- and 400-level courses, from the approved list and in an academically coherent program approved by the advisor, are required. At least three of these five advanced courses must be listed or cross-listed as an ESE or ENSU course. Courses taken to satisfy the "ESE Introductory Core" requirement cannot simultaneously be used to satisfy the Advanced Course requirement. These courses should be used to help meet the LAS requirement of 21 hours of 300- or 400-level courses overall, and the 12 hours of 300- or 400-level courses in the major. It is strongly recommended that students complete the LAS requirement with 21 hours of 300- or 400-level courses related to the ESE curriculum.

Society and the Environment Concentration Requirements:

Cognate Course Work 16-18 hours

10-12 hours-Introductory Social Science (Select three courses from approved list)
3 hours-Statistics (Select one course from approved list)
3 hours-Economics: ECON 102
Highly recommended: CHEM 101 or CHEM 102

---

**Slavic Languages and Literatures**

Michael Finke
2090 Foreign Languages Building, 707 South Mathews, Urbana
PH: (217) 333-0680
http://www.slavic.illinois.edu

The major in Slavic Studies enables students to specialize in one of five concentrations:

1. Russian Language, Literature, and Culture
2. Polish Studies
3. South Slavic Studies
4. Czech Studies
5. Ukrainian Studies

Unlike the major in Russian, East European, and Eurasian Studies (p. 522), which has a multidisciplinary area studies and current affairs focus, the major in Slavic Studies emphasizes the study of language, literature, and culture in their historical context. Students develop intensive cultural literacy and communication skills through humanities-oriented training, and many go on to careers in writing and editing, media, or work with international cultural foundations and organizations. The major is an excellent preparation for law school, business school, or other graduate study, as well as careers in the N.G.O. world, teaching, or research.

The department also offers a minor in Russian Language and Literature and a minor in Slavic Language, Literature, and Culture.

The 5 Year BALAS/MA in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and European Union Studies allows students to receive two degrees, a BALAS in Slavic Studies and an MA in European Union Studies.

**For the Degree of Bachelor of Arts in Liberal Arts and Sciences**

**Major in Sciences and Letters Curriculum**

E-mail: slavic@illinois.edu

Students must select one concentration in consultation with an academic advisor. Students in all concentrations must complete a) 6 hours of language beyond the second year, and b) 24 hours of literature and culture courses.

- Russian Language, Literature, and Culture Concentration (p. 535)
- Polish Studies Concentration (p. 535)
- South Slavic Studies Concentration (p. 536)
- Czech Studies concentration (p. 533)
- Ukrainian Studies Concentration (p. 536)

**5 Year BALAS/MA in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and European Union Studies**

The Department of Slavic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations)

Information listed in this catalog is current as of 03/2017
and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

- Minor in Russian Language and Literature (p. 534)
- Minor in Slavic Language, Literature, and Culture (p. 534)

BULG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/BULG)

Bulgarian Courses

BULG 481 Structure of Modern Bulgarian  credit: 3 Hours.
Analysis of the sound system and grammar of the contemporary Bulgarian language. 3 undergraduate hours. 3 graduate hours. Prerequisite: RUSS 302 or equivalent.

BULG 482 Readings in Bulgarian Lit  credit: 3 or 4 Hours.
Reading, analysis, and discussion of selected excerpts from Bulgarian literature, scientific prose, and the press. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated if topics vary. Prerequisite: BULG 481 or consent of instructor.

CZCH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CZCH)

Czech Courses

CZCH 101 Elementary Czech I  credit: 4 Hours.
Develops basic proficiency in Czech in listening, speaking, reading, and writing.

CZCH 102 Elementary Czech II  credit: 4 Hours.
Continuation of CZCH 101. Prerequisite: CZCH 101.

CZCH 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

CZCH 201 Second-year Czech I  credit: 4 Hours.
Develops intermediate-level proficiency in Czech in listening, speaking, reading, writing. Prerequisite: CZCH 102 or equivalent.

CZCH 202 Second-year Czech II  credit: 4 Hours.
Continuation of CZCH 201. Prerequisite: CZCH 201 or equivalent.

CZCH 484 Readings in Czech  credit: 3 or 4 Hours.
Reading and analysis of selected texts. 3 undergraduate hours. 4 graduate hours. Prerequisite: CZCH 202 or consent of instructor.

POL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/POL)

Polish Courses

POL 101 Elementary Polish I  credit: 4 Hours.
Oral and written work on basic pronunciation, grammar, and vocabulary. For students with no prior work in Polish.

POL 102 Elementary Polish II  credit: 4 Hours.
Continuation of POL 101 Prerequisite: POL 101.

POL 401 Fourth-Year Polish I  credit: 3 Hours.
Analysis of the sound system and grammar of the contemporary Polish language. 3 undergraduate hours. 3 graduate hours. Prerequisite: Knowledge of another Slavic language or consent of instructor.

POL 402 Fourth-Year Polish II  credit: 3 Hours.
Reading and analysis of selected texts. 3 undergraduate hours. 3 graduate hours. Prerequisite: POL 401 or consent of instructor.

POL 446 Problems of Polish Literature  credit: 3 or 4 Hours.
Critical study, in translation, of modern Polish fiction, drama, poetry, and essay, from Young Poland to the "New Wave"; their contribution to literary styles and genres in Poland and abroad; special emphasis on Wyspianski, Witkiewicz, and Gombrowicz. Same as CWL 436. 3 undergraduate hours. 4 graduate hours.

RUSS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/RUSS)

Russian Courses

RUSS 101 First-Year Russian I  credit: 4 Hours.
Oral-aural practice and elements of grammar, reading, and writing. For students who have no credit in Russian.

RUSS 102 First-Year Russian II  credit: 4 Hours.
RUSS 115  Intro to Russian Culture  credit: 3 Hours.
Introduction to the culture of Russia and the USSR. Course addresses
two central themes. First, the very distinctiveness of Russian culture,
and the functions of that notion within Russia and for outsiders; Second,
Russia as a cultural space between East and West. We will explore
Russian culture through the following, the language(s); foundational
narratives of collective memory going back to the medieval times; the
cultural impact of colonial subjugation both by and of peoples to the
East, South, and West; Russian Orthodoxy's connection with the political
and cultural spheres; peak achievements in literature, music, architecture
and visual arts. Same as REES 116.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartv Cult
RUSS 191  Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only
to honors majors or to Cohn Scholars. May be repeated one time.
Prerequisite: Consent of departmental honors advisor.
RUSS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.
RUSS 201  Second-Year Russian I  credit: 4 Hours.
Oral-aural practice, systematic functional grammar, reading, and writing.
Prerequisite: RUSS 102 or equivalent.
RUSS 202  Second-Year Russian II  credit: 4 Hours.
Systematic review of the structure of Russian covered in RUSS 101,
RUSS 102, and RUSS 201 through class lectures, drills, and homework
exercises. Prerequisite: RUSS 201.
RUSS 219  Russian Cinema Survey  credit: 3 Hours.
Survey of Russian and Soviet film, from Eisenstein to the present. Weekly
film screenings. No knowledge of Russian required.
RUSS 220  Golden Age of Russian Lit  credit: 3 Hours.
Survey of Russian literature in the long 19th century; romanticism,
realism, nationalism, orientalism, empire; writers may include Pushkin,
Gogol, Lermontov, Pavlova, Turgenev, Dostoevsky, Tolstoy, Chekhov,
and others; reading and discussion in English. Same as CWL 227.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
RUSS 225  Russian Lit and Revolution  credit: 3 Hours
Major works from 1900 to the present; futurism, modernism, Stalinism,
post-modernism, and after; writers may include Mayakovsky, Babel,
Olesha, Akhmatova, Bulgakov, Nabokov, Solzhenitsyn, Tolstaya, and
others; readings and discussion in English. Same as CWL 249.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
RUSS 260  Medicine & Russian Literature  credit: 3 Hours.
Examines cultural significance of medicine and the figure of the
physician, and understandings of illness and health, primarily in literature
of Russia and the USSR from the 1860s to present. Asks what larger
issues are at stake in the literary representation of medical practice by
physicians and non-physicians alike in the Russian and Soviet contexts;
investigates what medicine and literature offer each other, and the
bearing on this of the latter's formal, aesthetic qualities. Considers how
medical practice is conditioned by the broader culture, how medical
discourse, knowingly or unknowingly, 'borrows' from, is conditioned by,
or otherwise reciprocally involved with other greater or peripheral discursive
spheres. Reads fiction by leading literary figures who were physicians
(Chekhov, Bulgakov, Veresaev, and Aksyonov); fiction by "lay" authors
about doctors and medical practice (such as Solzhenitsyn); memoirs
by physicians (tales of training and practice, apologies, denunciations);
memories by patients; real and fictional case histories; theoretical and
methodological readings.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
RUSS 261  Intro Russian-Jewish Culture  credit: 3 Hours.
Introduction to the interaction of the intellectual, artistic, political, social,
and religious life of the Jewish community in Russia through film,
literature, art and historical record. Same as HIST 261.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult
RUSS 290  Readings in Russian  credit: 1 to 4 Hours.
Individual topics or projects chosen in consultation with a Slavic
Department representative. May be repeated to a maximum of 8 hours.
Prerequisite: RUSS 202 or equivalent proficiency.
RUSS 301  Third Year Russian I  credit: 3 Hours.
Grammar review; training in writing Russian; translation from English and
free composition. Prerequisite: RUSS 202 or consent of instructor.
RUSS 302  Third Year Russian II  credit: 3 Hours.
Practice in intermediate-level speaking, listening, reading, and writing,
based upon advanced grammar and conversation topics and upon
readings from current fiction and non-fiction. Students are expected to
write essays and give oral reports based on in-class assignments and
outside interests. Prerequisite: RUSS 301 or consent of department.
RUSS 305  Business Russian  credit: 3 Hours.
Basic tools and skills for conducting business in Russian, including
introduction to Russian economy, banking, insurance, media, intern
technology, advertising, law and culture, practicum in writing the c.v
and business correspondence in Russian. Prerequisite: Successful
completion of RUSS 301 or consent of instructor.
RUSS 320  Russian Writers  credit: 3 Hours.
Focused study of the work of a single Russian writer, or the comparison
of that writer with another major author, in translation. No Russian
required. Same as CWL 321. May be repeated in separate terms to a
maximum of 6 hours, if topics vary. Prerequisite: At least one other
college literature course or consent of instructor.
RUSS 322  Dostoevsky  credit: 3 Hours.
Introduction to the major works of Fyodor Mikhailovich Dostoevsky. No
Russian required. Same as CWL 324 and ENGL 322. May be repeated
up to 6 credit hours in separate terms. Prerequisite: At least one other
college literature course or consent of instructor.
RUSS 323  Tolstoy  credit: 3 Hours
Introduction to the major works of Lev Tolstoy. No Russian required.
Same as CWL 323 and ENGL 323. May be repeated up to 6 credit hours in
separate terms, if topics vary. Prerequisite: One other college literature
course or consent of instructor.

RUSS 325  Chekhov  credit: 3 Hours
Introduction to the major works of playwright and author Anton Chekhov.
Same as CWL 325 and THEA 362. Prerequisite: At least one other
literature course or consent of instructor.

RUSS 335  Nabokov  credit: 3 Hours.
Nabokov’s Russian and American novels read in a comparative context.
All works in English, no knowledge of Russian is required. Same as
CWL 335. Prerequisite: At least one other college-level literature course or
consent of instructor.

RUSS 401  Fourth Year Russian I  credit: 3 Hours.
Practice in advanced speaking, listening, reading, and writing, based
upon reading selected from current fiction and non-fiction, and covering
a wide variety of styles: literary, conversational, scientific, etc. Course
taught in Russian. Students are expected to write essays and give oral
reports based on what they read in class and on their outside interests.
3 undergraduate hours. 3 graduate hours. Prerequisite: Three years of
college Russian or consent of instructor.

RUSS 402  Fourth Year Russian II  credit: 3 Hours.
Practice in advanced speaking, listening, reading, and writing, based
upon reading selected from current fiction and non-fiction, and covering
a wide variety of styles: literary, conversational, scientific, etc. Course
taught in Russian. Students are expected to write essays and give oral
reports based on what they read in class and on their outside interests.
3 undergraduate hours. 3 graduate hours. Prerequisite: RUSS 401 or
consent of instructor.

RUSS 418  18th Century Literature  credit: 3 or 4 Hours.
Reading of texts; historical and literary background of the period. 3
undergraduate hours. 4 graduate hours.

RUSS 424  Russian Modernism  credit: 3 or 4 Hours.
Representative works of the period 1880 to 1917, with emphasis on
Chekhov, Gorky, and Blok; readings for non-majors and class discussions
in English. Same as CWL 457. 3 undergraduate hours. 3 or 4 graduate
hours. Prerequisite: Junior standing or consent of instructor.

RUSS 438  Modern Russian Poetry  credit: 3 or 4 Hours.
Study of major Russian poets and their works from romanticism to the
present. Historical background, textual analysis and connections with
Western European poetry. 3 undergraduate hours. 3 or 4 graduate hours.
Prerequisite: Consent of instructor.

RUSS 444  Problems in Romanticism  credit: 3 or 4 Hours.
Study of major authors of the romantic period, and some lesser authors.
Historical background, textual analysis, and connections with Western
European romanticism. Same as CWL 444. 3 undergraduate hours. 3 or 4
graduate hours. Prerequisite: Consent of instructor.

RUSS 445  Problems in Realism  credit: 3 or 4 Hours.
Study of the major texts of nineteenth century Russian realism, including
works by Turgenev, Goncharov, Nekrasov, Dostoevsky, and Tolstoy.
Historical background, relevant intellectual currents, textual analysis, and
connections with Western European realist authors. Same as CWL 445.
3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Consent of
instructor.

RUSS 460  Russian Culture Studies  credit: 3 or 4 Hours.
Role of Russian literature in the social, political, and intellectual
life of Russia from the 1840s to the present. Same as CWL 440. 3
undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior
standing.

RUSS 461  Russia and the Other  credit: 3 or 4 Hours.
Interdisciplinary and comparative topics including, but not limited to:
Russia and the West, Russia and the East, the Cold War, and post-Soviet
cultural studies. Same as CWL 466. 3 undergraduate hours. 4 graduate
hours. May be repeated to a maximum of 6 undergraduate hours or 8
graduate hours. Prerequisite: Russian course at the 200 or 300 level or
consent of instructor.

RUSS 465  Russian-Jewish Culture  credit: 3 or 4 Hours.
Study of Russian-Jewish cultural, social, and political life through
literature and film. No Russian required. 3 undergraduate hours.
4 graduate hours. Prerequisite: One literature course in the Slavic
department at the 200 or 300 level, or consent of instructor.

RUSS 466  Russian Women’s Writing  credit: 3 or 4 Hours.
Study of fiction and non-fiction writing by Russian women, including
discussion of historical context and feminist theory. 3 undergraduate
hours. 4 graduate hours. Prerequisite: One literature course in the Slavic
department at the 200 or 300 level, or consent of instructor.

RUSS 474  Russian Translation  credit: 3 or 4 Hours.
Theory and practice of translation in Russia from the eighteenth century
to the present; “literal” versus “creative” translation; and practical work in
translation into English of various Russian texts. 3 undergraduate hours.
3 or 4 graduate hours. Prerequisite: RUSS 302 or equivalent.

RUSS 493  Honors Senior Thesis  credit: 2 Hours.
Intended primarily for candidates for honors in Russian but open to other
seniors. 2 undergraduate hours. No graduate credit. May be repeated.
Prerequisite: Senior standing.

SLAV Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/
DEFAULT/SLAV)

Slavic Courses

SLAV 117  Russ & E Euro Science Fiction  credit: 3 Hours.
Survey of the science fiction writing of Russia and the countries of
Eastern Europe since 1750, with particular emphasis on the post-World
War II period. The role of the Science Fiction tradition in the respective
national cultures. The influence on Russian and East European Science
Fiction of Anglo-American Science Fiction. All readings are in English.
Same as CWL 117.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

SLAV 120  Russian & E Euro Folktales  credit: 3 Hours.
Introduction to Russian and East European folktales, focusing on
folk beliefs, fairy tales, and folk narratives in Slavic languages from a
comparative perspective, with an emphasis on methods of analysis and
the role of gender.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Comparty Cult

SLAV 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.
SLAV 277 Slavic Literature Survey  credit: 3 Hours.
Examines masterpieces of Czech, Polish, and Yugoslav literatures from medieval times to the present in English translation. Representative works are by Capek, Kundera, Mickiewicz, Milosz, Andric and others. Attention given to the European context and national traditions. Same as CWL 277. Prerequisite: One course in Slavic literature.

SLAV 399 Advanced Undergraduate Open Seminar  credit: 1 to 5 Hours.
Topics will vary. May be repeated, if topics vary.

SLAV 417 11th-17thC Russ Lit & Lang  credit: 3 or 4 Hours.
Historical grammar, origin, and development of the East Slavic/Russian literary language, survey of literary genres of Old Russian Literature. 3 undergraduate hours. 4 graduate hours. Credit is not given for both SLAV 417 and RUSS 517. Prerequisite: Graduate standing; for undergraduates, completion of or placement beyond RUSS 301-RUSS 302; or, consent of instructor.

SLAV 418 Language&Minorities in Europe  credit: 3 or 4 Hours.
Same as FR 418, GER 418, ITAL 418, LING 418, PS 418, and SPAN 418. See FR 418.

SLAV 419 Russian & East European Film  credit: 3 or 4 Hours.
Study and analysis of major film makers, genres, trends, and theories, including the 1920’s Soviet avant garde and the Polish and Czech “New Wave” since 1953; lectures, discussions, screenings, term paper. No reading knowledge of Russian required, except for majors in Slavic Languages and Literatures. Same as MACS 419. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: RUSS 219; or a college level course REES or in CINE; or consent of instructor.

SLAV 420 Jewish Life-Writing  credit: 3 or 4 Hours.
Same as CWL 421, HIST 436, REL 420, and YDSH 420. See YDSH 420.

SLAV 430 History of Translation  credit: 3 or 4 Hours.
Study of the historical development of translation ideas and practices in Europe and in particular cases across major global regions. Reading and analysis of key texts in the development of translation theory and case studies of practices and roles played by translation in different periods and geographical regions. Same as CLCV 430, CWL 430, ENGL 486, GER 405, SPAN 436, and TRST 431. 3 undergraduate hours. 4 graduate hours.

SLAV 452 Slavic Cultural Studies  credit: 3 or 4 Hours.
Selected topics in the literatures of Russia and Eastern Europe. Topics covered will range from in-depth studies of specific authors, time periods, and thematic discussions of specific genre and literary traditions. Readings in English unless specified. Same as CWL 452. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours in same term; or 9 undergraduate hours or 12 graduate hours in separate terms. Prerequisite: Two years of literature, preferably Russian or East European; or consent of instructor.

SLAV 477 Post-Communist Fiction  credit: 3 or 4 Hours.
Survey of the central and east European novel in the postcommunist period. Explores how fiction has responded to and creatively figured the period of the so-called “transition” to capitalism and the continuities and discontinuities in literary traditions in these societies, as well as the relevance of theories of postmodernism and postmodern literary analysis to these literatures. Same as CWL 477 and REES 477. 3 undergraduate hours. 4 graduate hours. Prerequisite: Two courses in Slavic literature including one at the 300-level or consent of the instructor.

SLAV 480 Intro to Slavic Linguistics  credit: 3 or 4 Hours.
The development of Common Slavic from Indo-European and its relationship to contemporary Slavic languages. Same as LING 480. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Knowledge of a Slavic language.

UKR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/UKR)

Ukrainian Courses

UKR 101 Basic Ukrainian I  credit: 4 Hours.
Oral and written work on basic pronunciation, grammar, and vocabulary. For students with no previous study of Ukrainian.

UKR 102 Basic Ukrainian II  credit: 4 Hours.
Continuation of UKR 101. Prerequisite: UKR 101 or equivalent proficiency.

UKR 113 Ukrainian Culture  credit: 3 Hours.
Course situates Ukrainian culture in the broad context of Slavic nations. Acquaints students with Ukrainian culture from the origins of Kievan Rus’ in the Middle Ages to the present. Includes highlights of historical-cultural events, an overview of literature and of the arts, as well as an outline of Ukrainian folklore. No knowledge of Ukrainian required. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

UKR 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated.

UKR 201 Second-Year Ukrainian I  credit: 4 Hours.
Completion of grammar, oral drills, and written exercises. Prerequisite: UKR 102 or equivalent.

UKR 202 Second-Year Ukrainian II  credit: 4 Hours.
Selected readings in contemporary Ukrainian literature. Prerequisite: UKR 201 or equivalent.

UKR 218 Survey of Ukrainian Literature  credit: 3 Hours.
Critical survey of major works in Ukrainian literature from the beginnings to the modern period in light of their historical and cultural background; lectures and readings in English. Same as CWL 218.

UKR 498 Problems in Ukrainian Lit  credit: 3 or 4 Hours.
Critical survey of major works in Ukrainian literature from the beginnings to the modern period in light of their historical and cultural background; lectures and readings in English. 3 undergraduate hours. 3 or 4 graduate hours.

Russian literature and culture: Three 200-, 300- or 400-level courses from the list maintained by the undergraduate adviser, including at least one at the 300- or 400-level. Advanced Russian language (RUSS 301, 302, 305, or equivalent) can substitute for one course in this requirement.

Total Hours: 18-20

6 hours must be advanced (300- or 400-) level courses.

Minor in Slavic Language, Literature, and Culture

A minor in Slavic language, literature, and culture may be useful and enriching for students in many disciplines, from economics and political science through comparative literature and theatre to engineering and mathematics. The 18- to 20-hour program listed below provides considerable flexibility within a general structure.

In completing the requirements for the minor, students may choose to pursue study of a particular Slavic language and culture, or may combine study of a single language with other courses that treat the region more broadly. For example, a student could specialize in Polish by taking POL 201, POL 202, POL 301 for the language and POL 115, POL 245, and HIST 467 for the literature and culture requirements. Please consult the Undergraduate Advisor to choose coursework.

Polish Studies Concentration

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: slavic@illinois.edu

Minimum required major courses equate to 30 hours including 6 hours in advanced language and 24 hours in literature and culture.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Study abroad courses may be substituted for major and minor requirements with approval of adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Graduation with distinction may be earned by completion of one of the following two options:

- GPA in departmental courses of 3.75; or
- GPA in departmental courses of 3.50, plus successful completion of academic study trip to the region, documented by graded transcript. See a departmental adviser to work out details, preferably two semesters before graduation.

Language: A minimum of 6 hours beyond the second year of the Polish language: POL 301 and POL 302, or equivalent; or students may choose to complete the second year (200-level sequence) of a second Slavic language, including Russian, in addition to Polish.

Literature and Culture: A minimum of 24 hours is required in the following areas (POL 401 and POL 402 can count toward the requirements in any category):

- 6 hours of Introductory Culture courses:
  - POL 115 Intro to Polish Culture (and)
  - Choose one of the following:
    - REES 200 Intro to Russia and Eurasia
    - REES 201 Introduction to Eastern Europe
    - RUSS 261 Intro Russian-Jewish Culture
    - SLAV 117 Russ & E Euro Science Fiction
    - SLAV 120 Russian & E Euro Folktales

- 12 hours of Upper-level (300- and 400-level) Literature and Culture courses chosen in consultation with the Undergraduate Advisor from a list maintained in the Slavic Department.

Capstone Experience: All majors are required to complete a capstone course, project, or experience chosen from among the following:

- (1) RUSS 493 Honors Senior Thesis (2 hrs); or
- (2) a 300- or 400-level course in the Slavic Department in which a research project is undertaken; or
- (3) Study abroad in the region.

Majors should consult with the Undergraduate Advisor to plan their capstone experience.

1 Up to 9 hours of the literature requirement (but no more than 6 at the upper level) can be replaced by courses at the same level in other departments, chosen in consultation with and approved by the Undergraduate Advisor, that treat the history, culture, and society of Poland or the region.

Sociology

Kevin Leicht, Head of Department
3120 Lincoln Hall, 702 S. Wright Street, Urbana
PH: (217) 333-1950
http://www.sociology.illinois.edu

What is Sociology?
The sociology major prepares you for work in the contemporary world, a world that is increasingly global, technology-driven, and fast changing. Sociology offers a distinctive set of conceptual tools for understanding the complexity of social life, solving problems, and resolving puzzles. Through studying sociology, students acquire practical skills including creativity, innovation, critical thinking, analytic problem solving, communication, collaboration, global understanding, and excellent written expression. Mastering these tools and skills will help you navigate a competitive job market.

As described in the American Sociological Association (http://www.asanet.org)’s brochure “Sociology, a 21st Century Major,” as a Sociology major you will gain the skills you need to:

• Conduct Research and Analyze Data. In sociology you use both qualitative and quantitative research methods. Learn to recognize trends and patterns and produce social statistics such as those used in market research, opinion polling, program evaluation, sales, and countless other applications.

• Communicate Skillfully. Learn how to convey your ideas effectively in writing and in presentations. Strong communications skills are essential for success.

• Gain a Global Perspective. Learn about different cultures and how to analyze the interaction of groups and societies through a global and historical perspective.

• Prepare for Graduate School. An undergraduate major in sociology provides an excellent foundation for graduate study in a wide range of fields including law, business, social work, medicine, public health, public administration and, of course, sociology.

Sociology majors use their skills in a range of careers, including

• Advertising
• Business
• Criminal Justice
• Education
• Environment and Society
• Government
• Human Services
• Law
• Social Science Research

Major in Sociology

Major in Sciences and Letters Curriculum

E-mail: soc@illinois.edu

Degree title: Bachelor of Arts in Liberal Arts and Sciences

Minimum required major and supporting course work equates to 44 hours including 32 hours of Sociology courses.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- or 400-level courses in the major must be taken on this campus.
A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours.

Departmental distinction: In order to achieve distinction, high distinction, or highest distinction, a sociology major must meet the following requirements:

- Have completed SOC 490 or SOC 495
- Attain a UIUC GPA of 3.25 or higher
- If both these requirements are met, then the MAJOR GPA distributes as follows:
  - 3.25 – Distinction
  - 3.50 – High Distinction
  - 3.75 – Highest Distinction

SOC 100  Introduction to Sociology  4
SOC 200  Intro to Sociological Theory  3
SOC 280  Intro to Social Statistics  1  4
SOC 380  Social Research Methods  4
Select one of the following capstone experiences:  3
  SOC 400  Internships
  SOC 450  Senior Capstone Seminar
  SOC 495  Senior Honors Seminar

Students may select any sociology courses to fulfill the requirement of 32 hours in Sociology

Supporting course work taken outside the Department of Sociology  2  12

1 If a statistics course is taken outside the Department of Sociology to fulfill this requirement, that course does not count toward the 18 hours of Sociology courses.

2 Supporting course work is designed to expand the student’s education, and should be taken outside of Sociology. A student may take supporting course work from one department, such as psychology, economics, history, or statistics, or from a cohesive selection of courses in various units. With an advisor’s approval, departmental or interdisciplinary minors, or a double major, may be used to fulfill the requirements of supporting course work.

Minor in Sociology

A minor in sociology requires that students learn the basic theoretical and methodological approaches in sociology. Students must also learn about the substance of sociology in some depth and are thus required to take at least two sociology courses at an advanced level and a total of at least 18 hours of sociology courses. The course work must include the requirements listed below.

Elective Sociology hours, as needed to fill the 18-hour requirement  3-6

Total Hours  18

1 If a statistics course is taken outside the Department of Sociology to fulfill this requirement, that course does not count toward the 18 hours of Sociology courses.

SOC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/SOC)

Courses

SOC 100  Introduction to Sociology  credit: 4 Hours.
Examination of how societies grow and change; reciprocal effects of economic, political, community, familial, and scientific institutions on each other and on individual life changes; and social conflict, problems of bureaucratic growth and planned and unplanned social change. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 101  Sociology of Gender  credit: 3 Hours.
An exploration of current questions of gender and their applications to students today. The course will focus primarily on the United States emphasizing individual, interactional, and institutional aspects of the social world. Topics for study include sociological research on femininities, masculinities, gendered bodies, socialization, work, family, politics, sport, and sexualities. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 108  Religion & Society in West I  credit: 3 Hours.
Same as ANTH 108, JS 108, PHIL 108, and REL 108. See REL 108. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

SOC 109  Religion & Society in West II  credit: 3 Hours.
Same as ANTH 109, PHIL 109, and REL 109. See REL 109. This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

SOC 122  Africa in World Perspective  credit: 3 Hours.
Examination of Africa in the context of the world-economy, with particular attention placed upon enduring cultural and material relationships with Europe and North America. This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

SOC 124  Asian American Cultures  credit: 3 Hours.
Same as AAS 184 and ANTH 184. See ANTH 184. This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: US Minority Culture(s)

SOC 130  Intro Gender & Women’s Studies  credit: 3 Hours.
Same as GWS 100 and HDFS 140. See GWS 100. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 152  The New Middle East  credit: 3 Hours.
Same as PS 152 and SAME 152. See PS 152. This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

Information listed in this catalog is current as of 03/2017
SOC 160 Global Ineq and Social Change credit: 3 Hours.
Introduces sociological concepts of poverty, inequality, and social change within a global context. Themes explored include basic food security, poverty and hunger; population and resource distribution; foreign aid and development institutions; and social policies and movements for change. Course approach is historical and transnational, and typically includes case studies from Africa, Asia, Latin America, and the United States. This course can be used to fulfill either Western or Nonwestern general education categories, but not both. This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences
UIUC: Western Compartv Cult

SOC 162 Intro to Intl Health Policy credit: 3 Hours.
Introduces students to international health policy. Students will learn about data sources, basic analytical techniques, and theoretical frameworks for understanding international health policy. From a sociological perspective, students will explore why health issues are essential components to discussion of globalization, immigration, and migration. Students also will learn how health policy and foreign policy decisions in the developed world influence health policy and health care delivery in the developing world. This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: Western Compartv Cult

SOC 163 Social Problems credit: 3 Hours.
A study of social problems in the United States necessarily entails a discussion of global issues. To that end, this course will examine many contemporary social issues such as crime, war and terrorism, the environment, inequality, poverty, discrimination, the economic recession, and others, through a global framework. Many of the topics we will cover could motivate an entire semester’s study in their own right; indeed, some scholars devote their entire careers to but one of these topics. However, this breadth allows us to think broadly about the issues that are identified as social problems and the ways in which individuals and groups attempt to resolve those problems; both processes are revealing about the time and society in which we live. One of the main objectives of this class is to learn about how sociologists examine social problems through analysis and research. Alongside that process, you will improve your critical thinking skills and become a better/more informed consumer of information.

SOC 179 Social Organization credit: 3 Hours.
Beginning with an examination of various examples of organizing, from street gangs to industrial corporations and modern universities, this course will discuss common patterns in organizational phenomena. Basic conceptual frameworks will be provided in the context of contemporary and local problems, illustrating the core issues. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 196 Issues in Sociology credit: 3 Hours.
Origin of problems; consequences of ameliorative strategies. Typical topics include crime, mental illness, drug use, suicide, sexual behavior, violence, and intergroup conflict. May be repeated as topics vary.

SOC 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Approved for both letter and S/U grading. May be repeated.

SOC 200 Intro to Sociological Theory credit: 3 Hours.
Analysis of such classical theorists as Marx, Weber, Durkheim, and Mead and contemporary theorists. Prerequisite: Sophomore standing.

SOC 201 Race, Gender & Power credit: 3 Hours.
Same as GWS 201. See GWS 201. This course satisfies the General Education Criteria for:
UIUC: Western Compartv Cult

SOC 202 Sexualities credit: 3 Hours.
Same as GWS 202. See GWS 202. This course satisfies the General Education Criteria for:
UIUC: Western Compartv Cult

SOC 221 Mexican & Latin Am Migration credit: 3 Hours.
Same as LLS 220. See LLS 220. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 222 Introduction to Modern Africa credit: 3 Hours.
Same as AFST 222, ANTH 222, and PS 242. See AFST 222. This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

SOC 223 Black Women Contemp US Society credit: 3 Hours.
Same as AFRO 226 and GWS 226. See AFRO 226.

SOC 224 Asian Am Historical Sociology credit: 3 Hours.
Same as AAS 224. See AAS 224. This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

SOC 225 Race and Ethnicity credit: 3 Hours.
Sociological and social-psychological analysis of minority groups; illustrative material drawn from representative racial, ethnic, and status groups. Prerequisite: SOC 100, SOC 101, OR SOC 163.

SOC 226 Political Sociology credit: 3 Hours.
Study of power relations within and between the state, bureaucracy, community, social classes, and elites in the United States and other countries.

SOC 227 Latina/Latinos in the Contemporary United States credit: 3 Hours.
Examines the incorporation of the major Latina/Latino subgroups into United States society, surveys the major theoretical approaches that have been used in the social sciences to explain majority-Latino relations, and provides an empirical overview of how major social institutions affect the daily lives of Latina/Latinos. Same as LLS 227. Prerequisite: One of the following: LLS 100, SOC 100, SOC 101, SOC 163, or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

SOC 249 Sport & Modern Society credit: 3 Hours.
Same as KIN 249. See KIN 249.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 255 Queer Lives, Queer Politics credit: 3 Hours.
Same as GWS 255. See GWS 255.

SOC 260 Gender in a Transnational Perspective credit: 3 Hours.
Examines how gender inequality is structured on a transnational level. Emphasis will be placed on the interactive relationship among various countries, and how globalization promotes racial, ethnic, sexual, and national hierarchies among women, in both newly and advanced industrialized countries. Same as GWS 261. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or consent of instructor. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

Information listed in this catalog is current as of 03/2017
SOC 267 Pan Africanism credit: 3 Hours.
Same as AFRO 243, AFST 243, and PS 243. See PS 243.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences

SOC 269 Food, Culture, and Society credit: 3 Hours.
Same as ANTH 209. See ANTH 209.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 270 Population Issues credit: 3 Hours.
Examines the current world population situation; the historical and current patterns of birth, death, migration, marriage, contraception, and abortion; and the world food and energy resources, crowding, and problems of overpopulation. Same as RSOC 270.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 273 Social Perspectives on the Family credit: 3 Hours.
Examines the societal forces shaping aspects of stable and changing family relations in the U. S. and other countries; focuses on social-structural factors affecting marriage, divorce, co-habitation, child-bearing, the division of work and authority, and other features of life. Prerequisite: One of the following: SOC 100, SOC 101, or SOC 163.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 274 Introduction to Medical Sociology credit: 3 Hours.
Sociology of health and illness behavior and the social structure of systems which deliver health care services; includes social constraints on illness, the illness role, medical organizations and professions, and the application of the illness model to deviant forms of behavior. Prerequisite: One of the following: SOC 100, SOC 101, or SOC 163.

SOC 275 Criminology credit: 3 Hours.
Nature and extent of crime; past and present theories of crime causation; criminal behavior in the United States and abroad, and its relation to personal, structural and cultural conditions; the nature of the criminal justice system and the influences of the exercise of discretion among actors in the criminal justice system. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163 or equivalent.

SOC 278 Mapping Latina/o Inequalities credit: 3 Hours.
Same as LLS 278. See LLS 278.

SOC 280 Intro to Social Statistics credit: 4 Hours.
First course in social statistics for students without mathematics beyond the high school level; topics include the role of statistics in social science inquiry, measures of central tendency and dispersion, simple correlation techniques, contingency analysis, and introduction to statistical inference; includes the statistical analysis of social science data using personal computers. Same as GEOG 280. Credit is not given for SOC 280 if credit for a college level introductory statistics course has been earned.
This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

SOC 287 Environment and Society credit: 3 Hours.
Same as ESE 287, GEOG 287, PS 273 and NRES 287. See NRES 287.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: Western CompArtv Cult

SOC 300 Attitude Theory and Change credit: 3 Hours.
Same as MACS 352 and PSYC 352. See PSYC 352.

SOC 310 Sociology of Deviance credit: 3 Hours.
Study of traits, conditions, actions, and behaviors that violate social norms and elicit negative societal reactions. Explores social, cultural and individual factors in the etiology of deviance; the establishment and maintenance of deviant categories; the motivations behind deviant behavior; the identification as deviant of individuals and of particular segments of society, by formal and informal means; the effects of institutionalization and social control upon the deviant; and the efforts of deviants to eradicate the label society has placed upon them. Prerequisite: One of the following: SOC 100, SOC 101, or SOC 163.

SOC 320 Queer Theory credit: 3 Hours.
Same as GWS 370. See GWS 370.

SOC 321 Gender & Latina/o Migration credit: 3 Hours.
Same as LLS 320 and GWS 320. See LLS 320.

SOC 322 Gender, Relationships & Society credit: 3 Hours.
Same as GWS 340 and HDFS 340. See HDFS 340.

SOC 325 Black Men and Masculinities credit: 3 Hours.
Same as AFRO 342. See AFRO 342.

SOC 328 Asian Americans & Inequalities credit: 3 Hours.
An examination of various forms of social inequality between Asian Americans and other groups as well as among Asian Americans, including those based on race, gender, class, citizenship and sexuality. Same as AAS 328. Prerequisite: SOC 100 and/or AAS 100 are recommended.

SOC 345 Digital & Gender Cultures credit: 3 Hours.
Same as GWS 345, INFO 345, and MACS 345. See GWS 345.

SOC 350 Technology and Society credit: 3 Hours.
Examines the social and cultural origins of modern technology and technological innovation; the effects of technology and its change on society. Topics include the impact of technology on beliefs and values, accommodation and resistance to change, and technology and the Third World.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 351 Social Aspects of Media credit: 3 Hours.
Same as MACS 351. See MACS 351.

SOC 355 Race and Mixed Race credit: 3 Hours.
Same as AAS 355 and LLS 355. See LLS 355.

SOC 364 Impacts of Globalization credit: 3 Hours.
Introduces sociological theory and research on globalization, in debate with the literature on modernization, world-systems, and development/underdevelopment. Explores recent economic, political, and cultural change at macro-sociological level. Themes include: global governance and world society, global diffusion of American culture, global capitalism, and new forms of social resistance. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or consent of instructor.

SOC 365 Contemporary Korean Society credit: 3 Hours.
Same as EALC 365. See EALC 365.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures
UIUC: Social Sciences
SOC 366 Postsocialism Eastern Europe credit: 3 Hours.
Examines the sociological realities of state socialism and postsocialism in Eastern Europe and the former Soviet Union. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, HIST 142, PS 100, or any REES course.

This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 367 Globalization Dynamics Debates credit: 3 Hours.
Study of the multidimensional character of globalization. Discussion of key processes of globalization and areas of consensus and controversy in the literature, including major current controversies such as are we headed for a global monoculture; what is the relationship between globalization and neoliberal capitalism; which trend is more significant, globalization or empire? Discussions on scenarios and policy options of global futures.

SOC 373 Social Stratification credit: 3 Hours.
Inequities in power, prestige, income, privilege, and lifestyles in the United States and other countries; class and status as determinants of group interests, ideologies, and interaction; and effects of social change and mobility. Prerequisite: One of the following: SOC 100, SOC 101, or SOC 163.

This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOC 374 Immigrants in the U.S. credit: 3 Hours.
The change in origin country composition of U.S. immigrants changed dramatically post-1965 from what it was in the early twentieth century and this shift has generated much public and policy concern over the "new" immigrants and their prospects for economic mobility and integration. Since immigration shows no signs of slowing down, its causes and consequences remain some of the most important topics of the 21st century. Some of the questions considered in this course include: Why do immigrants come to the U.S.; Is the average human capital level of immigrants declining?; Are the new immigrants assimilating into U.S. society and what does that mean? Also examines the economic impact of immigration and considers appropriate policy recommendations such as whether the U.S. should adopt a skill-based point system to regulate immigration. Prerequisite: One of the following: SOC 100, SOC 101, or SOC 163.

SOC 375 Criminal Justice System credit: 3 Hours.
Exploration of the actors, institutions, and processes that make up the criminal justice system. We review sociological and other social scientific research on topics including the police, prosecutors, the courtroom workgroup, forensic evidence, juries, sentencing, and the impact of mass incarceration. Grades are based on exams, research exercises, and ethnographic observations of criminal courtrooms. Prerequisite: SOC 275 is recommended.

SOC 378 Law and Society credit: 3 Hours.
Examination of law and legal institutions sociologically. We begin with an introduction to theoretical perspectives on the problem of order, illustrated by juxtaposing formal law with other means of achieving order. Next, we consider law and legal systems in action, including relations between law and the economy, stratification, culture, ideology and social change. Finally, we investigate the relationship between law's aims and principles, and law's real-world implementation.

SOC 380 Social Research Methods credit: 4 Hours.
Introduction to the foundations of social research and to the major types of research methods employed in sociology. Provides exposure to the major tools and terminology of social research, including the use of computers in sociology. Topics include: research design, finding and using sociology literature, measurement, sampling, survey research, field methods, use of available data, quantitative data analysis and presentation, and computer resources for research. Prerequisite: SOC 280 and one of the following: SOC 100, SOC 101, or SOC 163.

This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning II

SOC 382 Social Psych Methods Lab credit: 4 Hours.
Same as PSYC 332. See PSYC 332.

SOC 387 Race, Gender and the Body credit: 3 Hours.
Same as LLS 387. See LLS 387.

SOC 390 Individual Study credit: 1 to 6 Hours.
Individual study or research project. May be repeated. Prerequisite: Six hours of sociology; written consent of instructor on form available in the Sociology Department Office.

SOC 392 Chicanas&Latinas: Self&Society credit: 3 Hours.
Same as GWS 392 and LLS 392. See LLS 392.

This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

SOC 396 Topics in Sociology credit: 3 Hours.
Explores topics not covered in regularly scheduled Sociology courses. See Class Schedule for topics. May be repeated if topics vary. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or consent of instructor.

SOC 400 Internships credit: 0 to 3 Hours.
Selected internship opportunities in which student and faculty member develop a program of study and research related to internship. Consult departmental undergraduate advisor. 0 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated to a maximum of 6 hours. Prerequisite: Junior or senior standing; and SOC 100 or SOC 101 or SOC 163; and six additional hours in Sociology or acceptance of faculty member and Director of Undergraduate Studies.

SOC 410 Labor and the European Union credit: 4 Hours.
Same as EURO 410 and LER 410. See LER 410.

SOC 420 Sociology of Education credit: 2 to 4 Hours.
Same as EPS 420. See EPS 420.

SOC 421 Racial and Ethnic Families credit: 2 to 4 Hours.
Same as AFRO 421, EPS 421, and HDFS 424. See EPS 421.

SOC 422 European Working Class History credit: 2 to 4 Hours.
Same as HIST 450 and LER 450. See HIST 450.

SOC 426 Race, Ed Pol, and Soc Science credit: 3 or 4 Hours.
Examination of the origins and development of sociology as a discipline, as related to the sociology of education, and the reproduction of social and racial inequality. The course focuses on four issues: the production of racial inequality in social scientific knowledge, the role that social science plays in reproducing societal patterns of race, class, and gender inequality, the development of sociology and education in the United States and Africa, and the development of American social science and the reproduction of global inequality. Same as EPS 422. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 100 or consent of instructor.
SOC 447  Environmental Sociology credit: 3 or 4 Hours.
Examination of historical and modern consequences of environmental alteration and pollution and resource limitations on human populations in the context of various social change theories. Explores the environmental movement, population explosion, the "limits to growth debate," and the impacts of environmental change on food production, land, and water quality. Same as ENVS 447 and RSO 447. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: SOC 380 or equivalent; and one of the following: SOC 100, SOC 101, SOC 163, RSO 110, or equivalent; or consent of instructor.

SOC 450  Senior Capstone Seminar credit: 3 Hours.
Over the course of the semester, students will conceive and execute an original sociological research project, using their knowledge of the sociological literature developed in substantive courses and their skills in data collection and analysis developed in methods courses. In parallel, students will explore professional opportunities in sociology and engage in professional development activities, including exploring opportunities for graduate education and learning skills in job search, and resume, c.v., personal statement and cover letter development. 3 undergraduate hours. No graduate credit. Prerequisite: One of the following: SOC 100, SOC 101 or SOC 163; and SOC 380. For Sociology majors only.

SOC 451  Climate & Social Vulnerability credit: 3 or 4 Hours.
Same as ATMS 446 and GEOG 496. See GEOG 496.

SOC 464  Comm in Env Social Movements credit: 3 Hours.
Same as AGCM 430, ENVS 430, and NRES 430. See AGCM 430.

SOC 470  Social Movements credit: 2 to 4 Hours.
Origins and development of groups in promoting and resisting change, resource mobilization, strategies and tactics, individual and social consequences. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or six hours of anthropology, social geography, political science, or sociology.

SOC 471  Collective Action & Revolution credit: 3 or 4 Hours.
Contemporary theory and research on the life course of social gatherings ranging from small scale and local to nationwide collective actions by people in pursuit of social and political change. Discusses the logic of practice in political, religious and street crowds; collective action of dispersed people; and broad-based revolutionary mobilizations. Cases include pre-modern and modern movements from the western and non-western societies. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 200, or equivalent, or consent of instructor.

SOC 472  Urban Communities & Public Pol credit: 3 or 4 Hours.
Same as AFRO 481 and UP 481. See AFRO 481.

SOC 473  Immigration, Health & Society credit: 3 or 4 Hours.
Same as CHLH 473, LLS 473, and SOCW 473. See LLS 473.

SOC 474  Population Trends and Patterns credit: 3 or 4 Hours.
Introduction to contemporary demographic patterns and their historical development; transition theory and other models of demographic change; components of population growth and distribution; and trends and differentials in mortality and fertility. 3 undergraduate hours. 4 graduate hours.

SOC 476  Organization of Health Care credit: 2 to 4 Hours.
Same as CHLH 456. See CHLH 456.

SOC 477  Sociology of Law credit: 2 to 4 Hours.
Social origins and consequences of law and legal process, emphasizing problems of legal change and structure and function of legal sanctions. Law and law-like phenomena in primitive and modern societies. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or six hours of anthropology, social geography, political science, or sociology.
This course satisfies the General Education Criteria for: UIUC: Advanced Composition

SOC 478  Geography of Health Care credit: 3 or 4 Hours.
Same as GEOG 438. See GEOG 438.

SOC 480  Methods of Field Research credit: 2 to 4 Hours.
Instruction, training, and supervised practice in methods of field research as a basic tool of sociology; emphasis on the role of the field researcher as participant, observer, and interviewer in various kinds of research settings, and on approaches to and applications of field data. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: SOC 380 or consent of instructor.

SOC 481  Survey Research credit: 3 or 4 Hours.
Principles and applications of social science survey research methods; class project designing and conducting a sample survey; training and experience in analysis of survey data; sampling, questionnaire construction, interviewing and data reduction, and file management; and direct use of the computer in survey data analysis. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 380 or consent of instructor.

SOC 483  Middle Eastern Societies & Cultures credit: 3 Hours.
Overview of the contemporary Middle East from social, political, and cultural perspectives. Explores how the internal dynamics together with the forces of globalization shape the societies of the Middle East today. Topics include social structure, political dynamics, family, gender, urban life Islam, social and religious movements. 3 undergraduate hours. 3 graduate hours. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or six hours of Anthropology, Social Geography, Politics, or Sociology.

SOC 484  African Urbanization credit: 3 or 4 Hours.
Examines the causes and consequences of African urbanization in historical perspective. The course will engage with various academic theories of urbanization and seek situate the numerous topics and readings among ongoing debates. However, its substantive focus will be devoted entirely to Africa. Same as AFST 484. 3 undergraduate hours. 4 graduate hours.

SOC 485  Intermediate Social Statistics credit: 3 or 4 Hours.
Intermediate course in the theory and application of statistical methods to social science data. Coverage includes overviews of measurement issues, the logic of hypothesis testing and estimation, the general linear model, one-way analysis of variance, correlation and regression. The core of the course is multiple regression analysis and its extensions. Topics include dummy variable analysis, statistical interaction, model assumptions and violations, non-linear and logistic regression, and an introduction to path analysis. Emphasis on the application of statistical computing packages (e. g. SPSS) and the substantive interpretation of results. 3 undergraduate hours. 4 graduate hours. Credit is not given for both SOC 485 and another course with a primary focus on applied multiple regression analysis such as ECON 203, STAT 420, or PSYC 406. Graduate students must incorporate research literature involving statistical analysis from their discipline into their assignments and class discussions. Prerequisite: SOC 280 or equivalent.
SOC 488 Demographic Methods  credit: 3 or 4 Hours.
Introduction to statistical and mathematical procedures in population analysis; the gathering, processing, and evaluating of registration and census data; the life table model; and procedures of mortality and fertility analysis and population projections. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 380 or consent of instructor.
This course satisfies the General Education Criteria for: UIUC: Quant Reasoning II

SOC 490 Advanced Independent Study  credit: 3 Hours.
3 undergraduate hours. No graduate credit. May be repeated. Prerequisite: Open only to seniors in the sociology major who have an overall GPA of 3.25 or higher and therefore may be eligible for departmental distinction; obtain written consent of instructor on form available in the Sociology Department Office.

SOC 493 Democracy and Environment  credit: 3 or 4 Hours.
Same as GEOG 493, NRES 494, UP 493. See GEOG 493.

SOC 495 Senior Honors Seminar  credit: 3 Hours.
Intensive scrutiny of current literature on one selected topic. Critical reading and discussion followed by writing essays and research proposals. Subject will shift yearly. There may be community work as an aspect of this course; consult the Class Schedule for details. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: For sociology majors only. Student must have at least 3.5 grade-point average in sociology courses and consent of instructor.

SOC 496 Advanced Topics in Sociology  credit: 3 Hours.
Explores topics not covered in regularly scheduled Sociology courses. See Class Schedule for topics. 3 undergraduate hours. No graduate credit. May be repeated if topics vary. Prerequisite: One of the following: SOC 100, SOC 101, SOC 163, or consent of instructor.

South Asian and Middle Eastern Studies, Center for
Behrooz Ghamari-Tabrizi, Interim Director
http://www.csames.illinois.edu/

The Center for South Asian and Middle Eastern Studies offers two Interdisciplinary Minors: South Asian Studies and Study of the Islamic World.

For additional information, please contact:
Associate Director: Angela Williams
Email: aswilliams@illinois.edu
Phone: 244-5939
- Interdisciplinary Minor in South Asian Studies (p. 544)
- Interdisciplinary Minor in the Study of the Islamic World (p. 544)

SAME Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/SAME)

Courses
SAME 150 Lang&Culture of Arab World  credit: 3 Hours.
Same as ARAB 150. See ARAB 150.
This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

SAME 152 The New Middle East  credit: 3 Hours.
Same as PS 152 and SOC 152. See PS 152.
This course satisfies the General Education Criteria for: UIUC: Non-Western Cultures

SAME 154 Topics in South Asian Studies  credit: 3 or 4 Hours.
Same as ARAB 154. See ARAB 154.

SAME 199 Undergraduate Open Seminar  credit: 1 to 5 Hours.
Special topics in Middle Eastern or South Asian studies; content is variable. May be repeated in the same or separate terms if topics vary.

SAME 208 Cultures & Literatures of South Asia  credit: 3 Hours.
Same as ASST 208, CWL 208 and REL 208. See REL 208.
This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

SAME 211 War & Peace in Israeli Lit  credit: 3 Hours.
Same as CWL 211 and JS 211. See CWL 211.

SAME 213 Intro to Islam - ACP  credit: 4 Hours.
Same as REL 213. See REL 213.
This course satisfies the General Education Criteria for: UIUC: Advanced Composition

SAME 214 Introduction to Islam  credit: 3 Hours.
Same as REL 214. See REL 214.
This course satisfies the General Education Criteria for: UIUC: HistPhilosoph Perspect

SAME 219 Gender & Hinduism  credit: 3 or 4 Hours.
Same as REL 219. See REL 219.

SAME 223 The Qur'an (Koran)  credit: 3 Hours.
Same as REL 223. See REL 223.
This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

SAME 225 Social Media and Global Change  credit: 3 Hours.
Same as EPS 325, AFST 325, ASST 325, EURO 325, INFO 325, LAST 325, and REES 325. See EPS 325.

Interdisciplinary Minor in South Asian Studies

The Center for South Asian and Middle Eastern Studies (http://www.csames.illinois.edu) offers an Interdisciplinary Minor in South Asian Studies. The minor is especially suited for students interested in a program of studies with focus on South Asia, as a complement to their disciplinary study. The structure of the minor provides students a great amount of flexibility; possible areas of emphasis include language and literature, as well as history and social sciences.

A minimum grade-point average of 2.75 in South Asian Studies courses is required for completion of the minor. The 18-20 hours of courses selected by students for the South Asian Studies Minor should form a coherent program of study and must meet the approval of an advisor in the Center for South Asian and Middle Eastern Studies. The program must include at least 6 hours of 300- or 400-level courses. A student's plan of courses for the minor must be approved by the program.

Fourth-semester course work in an area-relevant language. A course that meets this requirement and is currently offered on a regular basis is HNDI 404 (5 hours). The requirement may also be met by comparable courses in these and other South Asian and South Asia-related languages, taught at UIUC or at other universities, through online courses (where available), and through a proficiency examination.

Courses on South Asian history, language, literature, culture, and society from the following list: 1

Interdisciplinary Minor in the Study of the Islamic World

An interdisciplinary minor in the Study of the Islamic World is offered by the Center for South Asian and Middle Eastern Studies. It is designed for students interested in developing an expertise in one or more parts of the Islamic world or in Islamic culture generally, as a complement to their disciplinary major. Completion of the minor requires 19 credit hours in applicable courses with a minimum grade-point average of 2.75.

For a list of approved courses, visit CSAMES Course Archive (http://www.csames.illinois.edu/program/courses/archive/all).

Additional courses chosen from the approved course list. The courses must come from at least two disciplines. At least six hours must be at the 300- or 400-level.

Total Hours

Spanish and Portuguese

Mariselle Melendez, Head of Department
4080 Foreign Languages Building, 707 South Mathews, Urbana
PH: (217) 333-3390
http://www.spanport.illinois.edu/

The Dept of Spanish and Portuguese offers majors in the following areas: Spanish, Portuguese, and a Curriculum Preparatory to the Teaching of Spanish. The department also offers the following undergraduate minors: Spanish and Portuguese. The 5 year BALAS /MA in Spanish and European Union Studies allows students to receive two degrees, a BALAS in Spanish and an MA in European Union Studies.

Spanish

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

- Spanish (p. 551)
For the Degree of Bachelor of Arts in the Teaching of Spanish

- Teaching of Spanish (p. 549)

Portuguese

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

- Portuguese (p. 550)

5 Year BALAS/MA in Spanish and European Union Studies

The Department of Spanish and Portuguese with the European Union Center offers a 5-year BALAS/MA degree program in Spanish and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

- Minor in Spanish (p. 550)
- Minor in Portuguese (p. 550)

BASQ Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/BASQ)

Basque Courses

BASQ 401 Beginners' Basque credit: 3 Hours.
Basic communication skills in Basque (listening, speaking, reading and writing). Introduction to basic information on Basque culture and history. 3 undergraduate hours. 3 graduate hours. Prerequisite: Four semesters or equivalent of Spanish, French or another Romance language.

BASQ 402 Readings in Basque Studies credit: 3 Hours.
Directed research providing individualized instruction on specific topics in Basque linguistics and culture. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: BASQ 401 or consent of instructor.

CATL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CATL)

Catalan Courses

CATL 401 Intensive Catalan Language credit: 3 Hours.
Intensive introduction to the Catalan language, appropriate for students familiar with another Romance language; emphasizes acquisition of the four basic skills, listening, speaking, writing, and reading, in order to achieve competence in the language. 3 undergraduate hours. 3 graduate hours. Prerequisite: Basic reading knowledge of another Romance language is helpful but not absolutely necessary.

CATL 402 Studies in Catalan Literature credit: 3 Hours.
Studies selected aspects of Catalan literature; taught in Catalan. Topics will be selected from among the major chronological periods and genres of Catalan literature; such as 20th century novel, Ramon Llul and Ausias March. The intention is to offer the student an in-depth view instead of an introductory overview. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: CATL 401 or equivalent.

PORT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/PORT)

Portuguese Courses

PORT 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
Approved for letter and S/U grading. May be repeated.

PORT 200 Advanced Grammar credit: 3 Hours.
The study of the structure of modern Portuguese in both its phonological and syntactic aspects for the student who already has a functional command of the language, with emphasis on developing ability to analyze and interpret grammatical structures. Prerequisite: PORT 202 or consent of instructor.

PORT 201 Intensive Beginning Portuguese credit: 4 Hours.
Accelerated language learning course designed for beginners, equivalent to two semesters. Early emphasis on production skills; comprehension-based skills will be introduced in rapid succession. Course designed for speakers and non-speakers of Romance languages. Some focus on those linguistics structures specific to Portuguese which differ significantly from equivalents in other Romance languages.

PORT 202 Intensive Intermediate Portuguese credit: 4 Hours.
Continued development of reading, writing and conversational skills. Completion of this course fulfills the third-semester level of Portuguese language instruction. Followed by a 200- or 300-level course in Portuguese, this course fulfills the fourth-semester level of Portuguese language instruction. Prerequisite: PORT 201 or consent of instructor.

PORT 320 Readings in Portuguese credit: 3 Hours.
Readings and discussion in Portuguese of a variety of texts by leading Luso-Brazilian writers covering various genres and themes. Designed to emphasize reading skills and discussion, rather than literary criticism. May be repeated if topics vary. Prerequisite: PORT 202 or equivalent.

PORT 334 Brazilian Women's Lit Trans credit: 3 Hours.
Study of gender, race and class in Brazil through the study of these issues as documented by women's voices. Beginning with an analysis of the early representation of women during the Portuguese colonization of the new world up to the present through translations of contemporary literature written by women. Requires no knowledge of Portuguese language. Same as GWS 334. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts

PORT 404 Studies in Luso-Brazilian Culture credit: 3 or 4 Hours.
Affords a broad understanding of Luso-Brazilian civilization and culture. May be offered in English (no prerequisites) or Portuguese (see prerequisite statement). See section description for details on the language of instruction each semester. 3 undergraduate hours. 4 graduate hours. May be repeated if topics vary. Prerequisite: If taught in Portuguese: PORT 403 (former 320) or equivalent or consent of instructor.

PORT 406 Brazilian Film credit: 3 or 4 Hours.
Study of the evolution of Brazilian cinema through selected films to explore the nature and development of contemporary Brazilian aesthetics. May be offered in English (non prerequisites) or Portuguese (see prerequisite statement). See section description for details on the language of instruction each semester. 3 undergraduate hours. 4 graduate hours. Prerequisite: If taught in Portuguese: PORT 402 (former 200) or 403 (former 320) or equivalent.

Information listed in this catalog is current as of 03/2017
PORT 410  Topics in Brazilian Literature  credit: 3 or 4 Hours.
May be offered in English (no prerequisites) or Portuguese (see prerequisite statement). See section description for details on the language of instruction each semester. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 Undergraduate hours or 8 Graduate hours in separate terms if topics vary. Prerequisite: If taught in Portuguese: PORT 402 (former 200) or 403 (former 320) or equivalent.

PORT 435  Introduction to Romance Linguistics  credit: 3 or 4 Hours.
Same as FR 462, ITAL 435, LING 462, RMLG 435, and SPAN 435. See SPAN 435.

PORT 460  Principles of Language Testing  credit: 3 or 4 Hours.
Same as EIL 460, EPSY 487, FR 460, GER 460, ITAL 460, SLS 460, and SPAN 460. See EIL 460.

PORT 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours.
Same as FR 481, GER 489, ITAL 489, LING 489 and SPAN 489. See LING 489.

SPAN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/SPAN)

Spanish Courses

SPAN 101  Elementary Spanish I  credit: 4 Hours.
Intensive course for beginner students of Spanish. Students will develop basic listening, speaking, reading and writing skills in Spanish to a novice high level, based on the proficiency scale stipulated by the American Council for the Teaching of Foreign Languages (ACTFL) and to provide them with an introduction to the various cultures of the Spanish-speaking world and Hispanics in the United States.

SPAN 102  Elementary Spanish II  credit: 4 Hours.
Continuation of SPAN 101. Students continue developing basic listening, speaking, reading and writing skills in Spanish to an intermediate low level, based on the ACTFL proficiency and provides introduction to the various cultures of the Spanish-speaking world and Hispanics in the United States. Credit is not given for both SPAN 102 and SPAN 122. Prerequisite: SPAN 101 or equivalent.

SPAN 122  Intensive Elementary Spanish  credit: 4 Hours.
Intensive beginning Spanish, equivalent to the first two semesters, for students with little or no experience in Spanish or whose skills need refreshing. This is considered a second level course for purposes of fulfilling the University General Education Language requirement. Prerequisite: None or assignment by placement exam. Students who have the equivalent of four or more years credit in Spanish at the secondary level will not receive credit for SPAN 122.

SPAN 130  Intermediate Spanish  credit: 4 Hours.
Continued development of reading, writing and conversational skills. This is considered a third level course for purposes of fulfilling the University General Education Language requirement. Credit is not given for both SPAN 130 and SPAN 103. Prerequisite: SPAN 122 or equivalent placement score.

SPAN 141  Introduction to Spanish Grammar  credit: 4 Hours.
Introduction to the major structures of Spanish, from a linguistic perspective and will develop students' formal knowledge of Spanish grammar. This is considered a fourth level course for purposes of fulfilling the University General Education Language requirement. Credit is not given for both SPAN 141 and SPAN 142. Prerequisite: SPAN 130 (formerly numbered 103), equivalent course, or placement score.

SPAN 142  Spanish in the Professions  credit: 4 Hours.
Introduction to Spanish in business, law, medical, education & social service fields, with a focus on the importance of bilingualism in the U.S., strategies for lifelong learning, and culture considerations. The development of functional use of Spanish within the professional context is the major focus of the course. This is considered a fourth level course for purposes of fulfilling the University General Education Language requirement. Credit is not given for both SPAN 141 and SPAN 142. Prerequisite: SPAN 130 (formerly numbered 103), equivalent course, or placement score.

SPAN 191  Freshman Honors Tutorial  credit: 1 to 3 Hours.
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and associates. May be repeated to a maximum of 3 hours. Prerequisite: Consent of departmental honors adviser in Spanish.

SPAN 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
Approved for both letter and S/U grading. May be repeated.

SPAN 200  Readings in Hispanic Texts  credit: 3 Hours.
Readings and discussion in Spanish of a variety of texts by leading Hispanic and Hispanic-American writers covering genres and themes; designed to emphasize reading, discussion, and enjoyment rather than literary criticism. Open to non-Spanish majors. Credit may be received by Advanced Placement "Language" or "Literature" examination. Prerequisite: SPAN 141, SPAN 142, or equivalent.

SPAN 202  Spanish for Business  credit: 3 Hours.
Introduction to vocabulary of Hispanic commerce; composition of business letters and similar texts. Prerequisite: SPAN 141, SPAN 142, or equivalent.

SPAN 204  Advanced Spanish Grammar in Context  credit: 3 Hours.
Overview of Spanish grammar, with emphasis on major challenges and areas of contrast with English. The overall goal of the course is to help students gain a greater understanding of some key aspects of Spanish grammar, which will lead to greater accuracy in their written and oral production. Prerequisite: SPAN 141 or equivalent.

SPAN 208  Oral Spanish  credit: 3 Hours.
Practice in speaking Spanish. Prerequisite: SPAN 141, SPAN 142, or equivalent. To be taken concurrently with or subsequent to SPAN 204.

SPAN 228  Spanish Composition  credit: 3 Hours.
Basic composition course; problems of written Spanish and principles of Spanish stylistic patterns; weekly written exercises. Prerequisite: SPAN 141, SPAN 142, or equivalent.

SPAN 232  Spanish in the Community  credit: 3 Hours.
Introduction to Spanish-speaking communities in the Champaign-Urbana area, focusing on issues of particular interest to the local Hispanic community, developing contextualized oral proficiency, and facilitating student civic engagement. Active student reflection is structured throughout the course. Meets two hours a week in class and two hours a week in community-based service work. In their interactions with community members and organizations students both learn from and contribute to the community. Prerequisite: SPAN 141, SPAN 142, or equivalent.

SPAN 240  Latina/o Popular Culture  credit: 3 Hours.
Same as ENGL 224 and LLS 240. See LLS 240.

SPAN 242  Intro to Latina/o Literature  credit: 3 Hours.
Same as ENGL 225 and LLS 242. See LLS 242.
This course satisfies the General Education Criteria for: UIUC: Literature and the Arts UIUC: US Minority Culture(s)
SPAN 246 Gender & Sexuality in Latina/o Literature credit: 3 Hours.
Examination of questions of gender, sexuality, and identity in contemporary Latin/o culture through a discussion of novels, performance pieces, essays and films. Spanish majors must complete writing assignments in Spanish. Same as LLS 246.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

SPAN 250 Introduction to Literary Analysis credit: 3 Hours.
An introduction to literary analysis and interpretation. Emphasis will be placed upon close reading and critical analysis of texts representing different genres and periods in Spain and Spanish America. Prerequisite: SPAN 228.

SPAN 252 Introduction to Hispanic Linguistics credit: 3 Hours.
Introduction to Spanish phonology, morphology, syntax, and at least one of the following areas: issues in Spanish semantics and pragmatics, variation in Spanish, Spanish in the U.S., history of Spanish, or acquisition of Spanish. Prerequisite: SPAN 228 or consent of instructor.

SPAN 254 Introduction to Cultural Analysis credit: 3 Hours.
Introduction to the analysis of culture as concept, practice and representation, including consideration of the debates that the idea of culture has provoked in different contexts. Provides analytical and methodological tools to discuss a full range of cultural forms. Special emphasis on issues of culture and representation, as well as on the notion of cultural difference(s). The theoretical and critical texts studies will represent diverse geographical and cultural locations. Examples and discussion will emphasize cultural issues in the context of Spain, Latin America and U.S. Latinas/o. Prerequisite: SPAN 228.

SPAN 295 Topics in Literature and Cultural Studies credit: 3 Hours.
Selected topics in Spanish, Latin American and/or Latina/o literature and cultural studies. Specific topics may vary depending on the instructor. Course taught in Spanish. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary. Prerequisite: SPAN 228.

SPAN 299 Study Abroad credit: 0 to 18 Hours.
Non-advanced level course in Spanish language, literature, history, culture, and/or civilization completed in a Study Abroad program in Spain or Latin America. May be repeated in the same term to a maximum of 18 hours. May be repeated in separate terms to a maximum of 36 hours. Prerequisite: SPAN 141, SPAN 142 or equivalent.

SPAN 303 The Sounds of Spanish credit: 3 Hours.
Practical, introductory course to Spanish phonetics, stressing practice in pronunciation. May be offered as intensive eight-week course. Prerequisite: SPAN 228 or consent of instructor.

SPAN 305 The Structure of Spanish credit: 3 Hours.
An in-depth investigation of the structure of Spanish, with a secondary focus on syntactic variation, especially structural differences with English. Introduces concepts and techniques essential for syntactic analysis and description. Taught in Spanish. Prerequisite: SPAN 252 or consent of instructor. May be taken concurrently with SPAN 252.

SPAN 307 Bilingualism credit: 3 Hours.
Introduction to the fundamental issues in the study of bilingualism as an individual and social phenomenon, with special emphasis on Spanish bilingual communities in the United States, Spain and Latin America. Taught in Spanish. Prerequisite: SPAN 252 or consent of instructor. May be taken concurrently with SPAN 252.

SPAN 308 Spanish in the United States credit: 3 Hours.
Descriptive and critical overview of the linguistic practices of the different Spanish-speaking communities in the U.S. The main objective of the course is to develop critical and linguistic awareness about the relationship among language, individual, and society. Special emphasis on historical migration patterns and settlements, characteristics of Spanish in contact with English, and language use and attitude patterns. Same as LLS 308. Prerequisite: SPAN 228 or consent of instructor.

SPAN 309 Varieties of Spoken Spanish credit: 3 Hours.
Relationship between language, individual and society in the context of the spread of Spanish in the world, concentrating on Spanish varieties spoken in Spain and Latin America, including the United States, but will also give an overview of Spanish in Africa (Equatorial Guinea, Morocco), and other parts of the world (Israel, Turkey, the Philippines). Prerequisite: SPAN 252 or consent of instructor. May be taken concurrently with SPAN 252.

SPAN 310 Premodern Spanish Literatures & Cultures credit: 3 Hours.
A critical analysis of selected texts and authors representative of the Medieval and Early Modern periods in the context of Iberian cultures. Particular emphasis on the relationship between cultural practices and the construction of national identities prior to 1700, as well as on the plurality of cultures that shaped what is now Spain. Specific sections may emphasize critical topics such as gender, ideology, literary form, nationalisms, race and sexuality, among others. Prerequisite: SPAN 228.

SPAN 312 Modern Spanish Literatures & Cultures credit: 3 Hours.
Critical analysis of selected texts and periods representative of Spain’s literary production from the 18th century to the present, with special attention paid to broader literary and cultural contexts. Specific sections may emphasize critical topics such as gender, ideology, literary form, nationalisms, race, and sexuality, among others. Prerequisite: SPAN 228.

SPAN 314 Latin American Literatures & Cultures to 1800 credit: 3 Hours.
Critical analysis of selected texts and periods representative of Latin American literary and cultural production from Pre-Columbian until 1800, with special attention paid to broader literary and cultural contexts. Specific sections may emphasize critical topics such as gender, ideology, literary form, nationalisms, race, and sexuality, among others. Prerequisite: SPAN 228.

SPAN 316 Latin American Literatures & Cultures from 1800 credit: 3 Hours.
Critical analysis of selected texts and periods representative of Latin American literary and cultural production from 1800 to present, with special attention paid to broader literary and cultural contexts. Specific sections may emphasize critical topics such as gender, ideology, literary form, nationalisms, race, and sexuality, among others. Prerequisite: SPAN 228.

SPAN 318 Spanish Cultural Studies I credit: 3 Hours.
A critical analysis of historical events, institutions, artistic production, symbols and values representative of Spanish (Iberian) cultures. Particular emphasis on the relationship between specific cultural practices and/or values and the construction of national identities prior to 1700. May be repeated in separate terms to a maximum of 6 hours, if topics vary. Prerequisite: SPAN 228.
SPAN 320  Spanish Cultural Studies II  credit: 3 Hours.
Critical analysis of selected historical events, artistic production, debates, symbols and values representative of Spanish (Iberian) cultures in the modern and contemporary periods. Particular emphasis on the relationship between cultural practices and national identities, as well as on contextualized analysis of different types of cultural phenomena. May be repeated in separate terms to a maximum of 6 hours, if topics vary. Prerequisite: SPAN 228.

SPAN 324  Latin America Cultural Studies I  credit: 3 Hours.
Examination of the complexities, ramifications and ambiguities of the cultural encounters, processes and expressions which took place in Latin America between different racial and ethnic groups from Pre-Columbian times to the 1800. Particular emphasis will be placed on the critical analysis of major cultural events, periods and issues that influenced the formation of identities in these territories. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: SPAN 228.

SPAN 326  Latin America Cultural Studies II  credit: 3 Hours.
Panoramic view of Latin American cultures since the end of the colonial period (roughly 1820) to the present. Examination of the major debates, authors and cultural issues that shaped those cultures or that were shaped by them. Specific themes may vary by semester, and may include the following: slavery, colonialism and neocolonialism, revolution, mestizaje, gender, the state, and modernization. Analysis will include diverse cultural phenomena, as well as consideration of cultural perspectives and practices. May be repeated in separate terms to a maximum of 6 hours, if topics vary. Prerequisite: SPAN 228.

SPAN 332  Spanish and Entrepreneurship  credit: 3 Hours.
Entrepreneurship means more than starting a business. This course emphasizes social entrepreneurship, in which the basic process of entrepreneurship-opportunity recognition, resource gathering and value creation is used to address social issues, not to create profits. Students do community-based learning in non-profits serving the local Spanish-speaking community, thereby building their language skills, acquiring cultural knowledge and gaining hands-on experience with social entrepreneurship (theory and practice). Each week class meets two hours in class and two hours in community-based service work. Prerequisite: SPAN 228.

SPAN 395  Advanced Topics in Literature & Cultural Studies  credit: 3 Hours.
Selected topics in Spanish, Latin American and/or Latina/o literatures and cultural studies. Specific topics may vary. May be repeated in separate terms to a maximum of 6 hours, if topics vary. Prerequisite: Two 300-level courses in Spanish/Latin American literature or cultural studies.

SPAN 399  Advanced Study Abroad  credit: 0 to 18 Hours.
Advanced level course in Spanish language, literature, history, culture, and/or civilization completed in a Study Abroad program taking place in Spain and Latin America. Approved for Letter and S/U grading. May be repeated to a maximum of 36 hours. Prerequisite: SPAN 228. May be taken concurrently with SPAN 228.

SPAN 410  Spanish/English Translation  credit: 3 or 4 Hours.
Review of current translation theory and analysis and practice of the translation from Spanish to English (and vice versa) of a variety of text types, ranging from short literary texts to everyday commercial discourse such as that found on product labels. Emphasis on linguistic and cultural aspects of literary discourses as well as non-literary texts. Conducted in Spanish. Same as TRST 412. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 250, SPAN 252, and SPAN 254; or consent of instructor.

SPAN 418  Language&Minorities in Europe  credit: 3 or 4 Hours.
Same as FR 418, GER 418, ITAL 418, LING 418, PS 418, and SLAV 418. See FR 418.

SPAN 430  Spanish Phonology  credit: 3 or 4 Hours.
Systematic introduction to the sound structures of Spanish, concentrating on recent contributions of theoretical linguistics to the understanding of the phonology of Spanish in its standard and selected dialectal varieties. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 252 or SPAN 303 or consent of instructor.

SPAN 431  Spanish Morphology  credit: 3 or 4 Hours.
Introductory course to basic concepts of morphological structure and word formation from a functional perspective. The course centers around the specific morphological characteristics of Spanish, considering historical and dialectal variation. Taught in Spanish. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 305 or equivalent; or consent of instructor.

SPAN 432  Spanish Syntax  credit: 3 or 4 Hours.
Systematic introduction to the foundations of Spanish syntax based on standard and more recent treatments of Spanish and syntactic theory. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 305 or consent of instructor.

SPAN 433  Spanish Sociolinguistics  credit: 3 or 4 Hours.
Introduction to the sociolinguistic variation (social, historical, and dialectal) of Spanish-speaking communities, and to the basic theoretical and methodological concepts of sociolinguistic research. Taught in Spanish. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 307 or SPAN 309; or consent of instructor.

SPAN 434  History of the Spanish Language  credit: 3 or 4 Hours.
Study of the historical evolution of the Spanish language, from its origins in Latin to its spread and development in Spain and Latin America, considering also the influence of other languages on Spanish. Both internal history (changes in phonology, morphology, syntax and lexicon) and external history are examined. Taught in Spanish. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 252 or equivalent introduction to Spanish or General Linguistics or consent of instructor.

SPAN 435  Introduction to Romance Linguistics  credit: 3 or 4 Hours.
Comparative and historical analysis of the Romance languages. Same as FR 462, ITAL 435, LING 462, PORT 435, and RMLG 435. 3 undergraduate hours. 4 graduate hours. Prerequisite: Four semesters of a Romance language or Latin, or equivalent; LING 100, SPAN 252, FR 416, or equivalent; or consent of instructor.

SPAN 436  History of Translation  credit: 3 or 4 Hours.
Same as CLCV 430, CWL 430, ENGL 486, GER 405, SLAV 430, and TRST 431. See SLAV 430.

SPAN 437  The Acquisition of Spanish  credit: 3 or 4 Hours.
Examination of the acquisition of Spanish by monolinguals, bilinguals, and second language learners. After a general introduction to theories of language acquisition, the focus of the course is on empirical investigations of the acquisition of the phonology, lexicon, morphology and syntax of Spanish by each to the learner groups listed above. Taught in Spanish. 3 undergraduate hours. 4 graduate hours. Prerequisite: SPAN 303 and SPAN 305 or equivalent, or consent of instructor.

SPAN 442  Latina Literature  credit: 3 or 4 Hours.
Same as LLS 442 and GWS 445. See LLS 442.

SPAN 460  Principles of Language Testing  credit: 3 or 4 Hours.
Same as EIL 460, EPSY 487, FR 460, GER 460, ITAL 460, PORT 460, and SLS 460. See EIL 460.
SPAN 461 Medieval Spanish Studies  credit: 3 or 4 Hours.
An introduction to major works and writers before 1500 with special
attention to their political and cultural contexts. 3 undergraduate hours.
4 graduate hours. May be repeated as topics vary, to a maximum of 6
undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 310 and
SPAN 318.

SPAN 462 Early Modern Spanish Studies  credit: 3 or 4 Hours.
Study of the major authors and texts of the early modern period
(Renaissance and Baroque) with particular attention to the cultural
and political contexts of sixteenth and seventeenth century Spain. 3
undergraduate hours. 4 graduate hours. May be repeated to a maximum
of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 310 and SPAN 318.

SPAN 463 18-19thC Spanish Studies  credit: 3 or 4 Hours.
Selected literary and non-literary texts published in Spain during
the 18th and 19th centuries. Focus on analysis of literary and other
manifestations of major cultural movements and artistic currents and
preoccupations. 3 undergraduate hours. 4 graduate hours. May be
repeated to a maximum of 6 undergraduate hours or 8 graduate hours as topic varies. Prerequisite: SPAN 312 and SPAN 320.

SPAN 464 Spanish Studies 1898-1960  credit: 3 or 4 Hours.
Selected literary and non-literary texts published in Spain between
1898-1960. Focus on analysis of literary and other manifestations of
major cultural movements and artistic currents and preoccupations.
3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours as topic varies. Prerequisite: SPAN 312 and SPAN 320.

SPAN 465 20th-21stC Spanish Studies  credit: 3 or 4 Hours.
Examines the cultural production of 20th and 21st century Spain,
with emphasis on major works, critical movements and debates. 3
undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 312 and SPAN 320.

SPAN 466 Colonial Span Amer Studies  credit: 3 or 4 Hours.
In-depth study of colonial Spanish American discursive and cultural
production from Pre-Hispanic times to the eighteenth century. Emphasis
is placed upon the intellectual and cultural climate from which these
texts emerged. 3 undergraduate hours. 4 graduate hours. May be
repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 314 and SPAN 324.

SPAN 467 19thC Sp American Studies  credit: 3 or 4 Hours.
Provides a panoramic view of literary and cultural production in
Spanish America between 1810 and 1900. Special attention paid to the
emergence of "national literatures" within specific historical and political
contexts. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 316 and SPAN 326.

SPAN 468 20th-21stC Span Am Studies  credit: 3 or 4 Hours.
Examines major works, critical movements and/or theoretical issues in
the 20th and 21st century Spanish American literary and cultural studies.
3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: SPAN 316 and SPAN 326.

SPAN 469 Advanced Readings in Spanish  credit: 0 to 3 Hours.
Directed reading course intended to develop an advanced student's interest in a special area of Hispanic linguistics or literature (author,
genre, period, group of works, etc.). Topics to be chosen in consultation
with an instructor. Only topics not covered in regular offerings will be
considered. 0 to 3 undergraduate hours. No graduate credit. May be
repeated if topics vary. Prerequisite: SPAN 252 for linguistics topics; and
any two of SPAN 310, SPAN 312, SPAN 314, or SPAN 316 for literature topics.

SPAN 470 Topics for Honors Students  credit: 1 to 3 Hours.
For candidates for honors in Spanish; intensive study of topics in
Hispanic literature or linguistics. 1 to 3 undergraduate hours. No graduate
credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent
of instructor and of departmental honors advisor.

Curriculum Preparatory to the
Teaching of Spanish
For the Degree of Bachelor of Arts in the
Teaching of Spanish

E-mail: span-port@illinois.edu

In order to remain in good standing in this program and be recommended
for certification, candidates are required to maintain UIUC, cumulative,
content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher
Education for the list of courses used to compute these grade-point
averages.

Minimum required course work normally equates to 33-36 hours in
Teaching Area of Concentration and 29 hours of professional education
courses.

Minimum hours required for graduation: A minimum of 123 hours of
credit is required for graduation.

General education: Consult the Curricula Preparatory to Teaching
Foreign Languages (http://catalog.illinois.edu/undergraduate/las/foreignlangteach).

Departmental distinction: To be eligible for departmental distinction,
a student must have a minimum grade point average of 3.0, display
exceptional teaching ability, and complete an approved project or series
of projects. Consult the Spanish departmental advisor for details.

Study Abroad: It is strongly recommended that future teachers of
Spanish engage in one or more semesters of study in a Spanish-speaking
country. A number of the curricular requirements may be met through
the Year Abroad Program or other approved programs; see Study Abroad
Programs (http://www.spanport.illinois.edu/studyabroad/spanish).
Professional education courses. (See Foreign Languages-Curricula Preparatory to Teaching Foreign Languages.)

**Portuguese**

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

**Major in Sciences and Letters Curriculum**

E-mail: span-port@illinois.edu

Minimum required major and supporting courses normally equate to 42-45 hours including at least 27 hours in Portuguese courses beyond the 100 level.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department’s honors adviser.

Additional courses in Portuguese literature/culture beyond the 100 level 12

Supporting course work or a minor in a related area of study chosen by the student and approved by the adviser. 15-18

There is a wide choice of supporting courses because the student’s interests may vary from Iberian literature to animal husbandry in Angola and urbanology in Brazil. Supporting areas may include humanities (comparative literature, comparative religion, linguistics, philosophy), social sciences (anthropology, geography, history, Latin American studies, political science, sociology), education, fine and applied arts, and/or journalism. Other fields, or groups of fields, may be approved by the Portuguese undergraduate adviser.

Spanish Electives. Choose 5 SPAN courses, at least 4 of which must be at the 300 or 400 level and no more than 2 of which may be taught in English; Chosen from a list maintained in the Spanish Advisor's Office.

Supporting course work or a minor in a related area of study, which will be chosen by the student and approved by the advisor. Such areas may include, for example, any other language and literature (including Portuguese, Catalan, and Italian courses), Latin American studies (exclusive of Spanish American literature courses), history, political science, biology (premed), international law (prelaw), economics and finance, business administration, education, architecture, fine arts, and journalism.¹

Total Hours 48-54

¹ A minor generally consists of 18-21 hours.

Statistics

Douglas G. Simpson

Statistics is the science of modeling, summarizing, and analyzing data, and of using mathematics and computing tools to make predictions and decisions in the face of uncertainty. Statistical ideas are applicable in any area involving quantitative measurement and in almost every area of scholarly pursuit. The major, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A major in statistics will prepare students for a career in business, industry, or government, and for further graduate study in statistics or in a related area.

The Department of Statistics offers the following majors:

- Statistics (p. 553)- The major, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A major in statistics will prepare students for a career in business, industry, or government, and for further graduate study in statistics or in a related area.

- Statistics and Computer Science (p. 554)- This major is sponsored jointly by the Departments of Statistics and Computer Science. The Statistics and Computer Science major is designed for students who would like a strong foundation in computer science, coupled with significant advanced coursework in statistics. The major prepares students for professional or graduate work in statistics and computer science, and for applications of computing in which knowledge of statistics is particularly important, such as data mining and machine learning.

Minor in Statistics

- Applied Statistics Track Minor (p. 554)
- Mathematical Statistics Track Minor (p. 554)

The minor, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A minor in statistics will assist students with their major field of study to better prepare them for a career in their chosen field. It will also prepare students to for graduate studies in statistics or in one of many areas where data analysis plays an important role. Interested students should contact the Statistics undergraduate advisor for admission into the minor. Students should have completed the calculus sequence through MATH 241 before entering the minor. Students must choose from either the Applied or Mathematical Statistics Track.

STAT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/STAT)
Courses

STAT 100 Statistics credit: 3 Hours.
First course in probability and statistics at a precalculus level; emphasizes basic concepts, including descriptive statistics, elementary probability, estimation, and hypothesis testing in both nonparametric and normal models. Credit is not given for both STAT 100 and any one of the following: ECON 202, PSYC 235, or SOC 485. Prerequisite: MATH 112. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

STAT 200 Statistical Analysis credit: 3 Hours.
Survey of statistical concepts, data analysis, designed and observational studies and statistical models. Statistical computing using a statistical package such as R or a spreadsheet. Topics to be covered include data summary and visualization, study design, elementary probability, categorical data, comparative experiments, multiple linear regression, analysis of variance, statistical inferences and model diagnostics. May be taken as a first statistics course for quantitatively oriented students, or as a second course to follow a basic concepts course. Credit is not given for both STAT 200 and STAT 212. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

STAT 212 Biostatistics credit: 3 Hours.
Application of statistical reasoning and statistical methodology to biology. Topics include descriptive statistics, graphical methods, experimental design, probability, statistical inference and regression. In addition, techniques of statistical computing are covered. Credit is not given for both STAT 212 and STAT 200. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

STAT 361 Probability & Statistics for Computer Science credit: 3 Hours.
Same as CS 361. See CS 361.

STAT 385 Statistics Programming Methods credit: 3 Hours.
Statisticians must be savvy in programming methods useful to the wide variety of analysis that they will be expected to perform. This course provides the foundation for writing and packaging statistical algorithms through the creation of functions and object oriented programming. Fundamental programming techniques and considerations will be emphasized. Students will also create dynamic reports that encapsulate their implemented algorithms. Students must have access to a computer on which they can install software. Prerequisite: STAT 200 or STAT 212.

STAT 390 Individual Study credit: 1 or 2 Hours.
May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

STAT 391 Honors Individual Study credit: 1 or 2 Hours.
May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

STAT 400 Statistics and Probability I credit: 4 Hours.
Introduction to mathematical statistics that develops probability as needed; includes the calculus of probability, random variables, expectation, distribution functions, central limit theorem, point estimation, confidence intervals, and hypothesis testing. Offers a basic one-term introduction to statistics and also prepares students for STAT 410. Same as MATH 463. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 241 or equivalent.

STAT 408 Actuarial Statistics I credit: 4 Hours.
Examines elementary theory of probability, including independence, conditional probability, and Bayes’ theorem; combinations and permutations; random variables, expectations, and probability distributions; joint and conditional distributions; functions of random variables; sampling; central limit theorem. Same as MATH 408. 4 undergraduate hours. 4 graduate hours. Credit is not given for both STAT 408 and either MATH 461 or STAT 400. Prerequisite: MATH 241 or equivalent.

STAT 409 Actuarial Statistics II credit: 4 Hours.
Continuation of STAT 408. Examines parametric point and interval estimation, including maximum likelihood estimation, sufficiency, completeness, and Bayesian estimation; hypothesis testing; linear models; regression and correlation. Same as MATH 409. 4 undergraduate hours. 4 graduate hours. Credit is not given for both STAT 409 and STAT 410. Prerequisite: STAT 408.

STAT 410 Statistics and Probability II credit: 3 or 4 Hours.
Continuation of STAT 400. Includes moment-generating functions, transformations of random variables, normal sampling theory, sufficiency, best estimators, maximum likelihood estimators, confidence intervals, most powerful tests, unbiased tests, and chi-square tests. Same as MATH 464. 3 undergraduate hours. 4 graduate hours. Credit is not given for both STAT 410 and STAT 409. Prerequisite: STAT 400; or STAT 100 and MATH 461.

STAT 420 Methods of Applied Statistics credit: 3 or 4 Hours.
Systematic, calculus-based coverage of the more widely used methods of applied statistics, including simple and multiple regression, correlation, analysis of variance and covariance, multiple comparisons, goodness of fit tests, contingency tables, nonparametric procedures, and power of tests; emphasizes when and why various tests are appropriate and how they are used. Same as MATH 469. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 408 or STAT 400; MATH 231 or equivalent; knowledge of basic matrix manipulations; or consent of instructor.

STAT 424 Analysis of Variance credit: 3 or 4 Hours.
Estimation and hypotheses testing in linear models; one-, two-, and higher-way layouts; incomplete layouts; analysis of covariance; and random effects models and mixed models. 3 undergraduate hours. 4 graduate hours. Prerequisite: Credit or concurrent registration in MATH 415 and STAT 410.

STAT 425 Applied Regression and Design credit: 3 or 4 Hours.
Explores linear regression, least squares estimates, F-tests, analysis of residuals, regression diagnostics, transformations, model building, factorial designs, randomized complete block designs, Latin squares, split plot designs. Computer work is an integral part of the course. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 410.

STAT 426 Sampling and Categorical Data credit: 3 or 4 Hours.
Sampling: simple random, stratified, systematic, cluster, and multi-stage sampling. Categorical data: multiway contingency tables, maximum likelihood estimation, goodness-of-fit tests, model selection, logistic regression. Computer work is an integral part of the course. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 410.

STAT 427 Statistical Consulting credit: 3 or 4 Hours.
Students, working in groups under the supervision of the instructor, consult with faculty and graduate students through the Statistical Consulting Service; readings from literature on consulting. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 425 or consent of instructor.
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 428</td>
<td>Statistical Computing</td>
<td>3 or 4 Hours</td>
<td>Examines statistical packages, numerical analysis for linear and nonlinear models, graphics, and random number generation and Monte Carlo methods. Same as CSE 428. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 410 or equivalent; knowledge of a programming language.</td>
</tr>
<tr>
<td>STAT 429</td>
<td>Time Series Analysis</td>
<td>3 or 4 Hours</td>
<td>Studies theory and data analysis for time series; examines autoregressive moving average model building and statistical techniques; and discusses spectral model building and statistical analysis using windowed periodograms and Fast Fourier Transformations. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 410.</td>
</tr>
<tr>
<td>STAT 430</td>
<td>Topics in Applied Statistics</td>
<td>3 or 4 Hours</td>
<td>Formulation and analysis of mathematical models for random phenomena; extensive involvement with the analysis of real data; and instruction in statistical and computing techniques as needed. 3 undergraduate hours. 4 graduate hours. May be repeated with approval. Prerequisite: STAT 410 or STAT 420, or consent of instructor.</td>
</tr>
<tr>
<td>STAT 440</td>
<td>Statistical Data Management</td>
<td>3 or 4 Hours</td>
<td>The critical elements of data storage, data cleaning, and data extractions that ultimately lead to data analysis are presented. Includes basic theory and methods of databases, auditing and querying databases, as well as data management and data preparation using standard large-scale statistical software. Students will gain competency in the skills required in storing, cleaning, and managing data, all of which are required prior to data analysis. Same as CSE 440. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 400 or STAT 409.</td>
</tr>
<tr>
<td>STAT 443</td>
<td>Professional Statistics</td>
<td>3 or 4 Hours</td>
<td>This project-based course emphasizes written, visual, and oral communication of statistical results and conclusions. An introduction to statistical consulting is also provided. Additional topics include introductions to statistical methodologies in industry and aspects of careers in statistics. 3 undergraduate hours. 4 graduate hours. Prerequisite: STAT 420 or consent of instructor.</td>
</tr>
<tr>
<td>STAT 448</td>
<td>Advanced Data Analysis</td>
<td>4 Hours</td>
<td>Several of the most widely used techniques of data analysis are discussed with an emphasis on statistical computing. Topics include linear regression, analysis of variance, generalized linear models, and analysis of categorical data. In addition, an introduction to data mining is provided considering classification, model building, decision trees, and cluster analysis. Same as CSE 448. 4 undergraduate hours. 4 graduate hours. Prerequisite: STAT 400 or STAT 409, and credit for or concurrent registration in STAT 410.</td>

Information listed in this catalog is current as of 03/2017
Applied Statistics Track Minor

Select one of the following:  
- MATH 125 Elementary Linear Algebra  
- MATH 225 Introductory Matrix Theory  
- MATH 415 Applied Linear Algebra

Select one of the following:  
- ACE 261 Applied Statistical Methods  
- CPSC 241 Intro to Applied Statistics  
- ECON 202 Economic Statistics I  
- EPSY 280 Elements of Statistics  
- PSYC 235 Intro to Statistics  
- STAT 100 Statistics  
- SOC 280 Intro to Social Statistics  
- STAT 200 Statistical Analysis  
- or STAT 212 Biostatistics  
- STAT 400 Statistics and Probability I  
- STAT 420 Methods of Applied Statistics

Choose one 300- or 400-level course from the list maintained by the department. Please see the Statistics advisor for a current list.  

Total Hours 18-21

Mathematical Statistics Track Minor

MATH 415 Applied Linear Algebra 3-4

MATH 200 Statistical Analysis 3

or MATH 212 Biostatistics

MATH 400 Statistics and Probability I 4

MATH 410 Statistics and Probability II 3

or ECE 313 Probability with Engrg Applc

Choose two 300- or 400-level courses from the list maintained by the department. Please see the Statistics advisor for a current list.  

Total Hours 19-20

Students who have completed STAT 408 and STAT 409 will not need to take STAT 400.

Statistics and Computer Science

This major is sponsored jointly by the Departments of Statistics and Computer Science. The Statistics and Computer Science major is designed for students who would like a strong foundation in computer science, coupled with significant advanced coursework in statistics. The major prepares students for professional or graduate work in statistics and computer science, and for applications of computing in which knowledge of statistics is particularly important, such as data mining and machine learning. See also Computer Science (p. 560), Mathematics (p. 475), Mathematics and Computer Science (p. 483), and Statistics (p. 551).

Major in Sciences and Letters Curriculum

E-mail: stat-office@illinois.edu or academic@cs.illinois.edu (academic@cs.uiuc.edu)

Degree title: Bachelor of Science in Liberal Arts and Sciences

Minimum required major and supporting course work normally equates to 68-69 hours

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300 and 400-level courses must be taken on this campus.

Minimum hours required for graduation: 120 hours

Departmental distinction: To graduate with distinction requires a specified minimum grade point average in all Computer Science, Statistics, and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction.

CS 100 Freshman Orientation (recommended) 0-1

Calculus through MATH 241 - Calculus III 11-12

MATH 415 Applied Linear Algebra 3

Required Computer Science Foundation: 32

- CS 125 Intro to Computer Science
- CS 173 Discrete Structures
- CS 126 Software Design Studio
- CS 225 Data Structures
- CS 233 Computer Architecture
- CS 241 System Programming
- CS 357 Numerical Methods I
- CS 374 Introduction to Algorithms & Models of Computation
- CS 421 Progrmg Languages & Compilers

Required Probability and Statistics Foundation: 10

- STAT 400 Statistics and Probability I
- STAT 410 Statistics and Probability II
- STAT 428 Statistical Computing

At least four other statistics, computer science, or mathematics courses, with at least one chosen from each of the following groups:

Group I: Statistical Methods

- STAT 200 Statistical Analysis
- STAT 212 Biostatistics
- CS 361 Probability & Statistics for Computer Science

Group II: Mathematical Analysis and Modeling

- MATH 347 Fundamental Mathematics
- MATH 441 Differential Equations
- MATH 444 Elementary Real Analysis
Art History

Areli Marina
143 Art and Design Building, 408 East Peabody, Champaign
PH: (217) 333-0855
http://www.art.illinois.edu/index.php/prospective/academics/undergraduate-programs/art-history

Like the other humanities, the history of art as an undergraduate major offers an enrichment of and a preparation for life, rather than training for a specific occupation. The student who goes on to graduate work in the field can pursue a career in teaching, museum work, or employment in a commercial art gallery, or auction house.

Working in consultation with the LAS undergraduate adviser for art history in the School of Art and Design, each student will design a program of study that satisfies the requirements listed below. Students who wish to take a considerable number of studio courses as part of their major should enroll in the history of art option offered by the School of Art and Design within the College of Fine and Applied Arts.

For the Degree of Bachelor of Arts in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

For advising information please visit the LAS Advising site (http://www.las.illinois.edu/students/advising/declared).

Minimum required major and supporting course work equates to 48 hours including 30 hours of Art History courses, 15 hours of supporting coursework and 3 hours of studio.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

For students considering graduate work in Art History French or German is strongly recommended for the language requirement. Other languages including Chinese or Japanese may be used with the approval of the adviser as the needs of the student’s program dictate.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To be eligible for distinction, a student must earn a high grade point average and complete at least 4 semester hours of independent research to write a senior research paper. See the undergraduate adviser for details.

Supporting Requirements in Art

Studio course in Art and Design 3

Supporting Requirements in Art History

Select three of the following: 1

<table>

</tbody>
</table>

200- to 400-level courses in supporting areas chosen with the approval of the adviser. Although the program in art history allows considerable latitude in the selection of such courses, they should be chosen with the goal of enhancing the student’s understanding of the cultural context within which works of art and architecture have been created. Recent practice suggests that supporting courses will most commonly be drawn from such fields as anthropology, classics, history, literature, music and dance history, philosophy, psychology, and religious studies.

Footnotes:

1 Credit will not be given for ARTH 112 and ARTH 115.

2 Courses in the history of architecture, excluding ARCH 210, may be used with the approval of the adviser for as many as 9 hours of credit in meeting the requirement for 18 hours of art history at the 200-400 level.
Courses

ARTh 110  Introduction to the History of Art and Visual Culture  credit: 3 Hours.
This course introduces participants to foundational questions that shape the disciplines of art history and visual studies. It is not a comprehensive survey. Rather, it provides students critical frames for examining the visual world from various temporal, geographic, and methodological perspectives. Students will investigate the history, interpretation, and criticism of selected cultural objects, images, places, and spaces across time and around the globe.

ARTh 111  Ancient to Medieval Art  credit: 4 Hours.
Development of the visual arts in Western Europe and the Near East in their cultural contexts from prehistoric times until the early fifteenth century; includes Egyptian, Greek, Roman, and medieval art and architecture. Same as MDVL 111.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ARTh 112  Renaissance to Modern Art  credit: 4 Hours.
Development of the visual arts in Western Europe and the United States in their cultural contexts from the early fifteenth century to the present.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ARTh 113  Introduction to African Art  credit: 4 Hours.
An introduction to the arts of Africa. Sculpture, textiles, architecture, body adornment, and performance will be examined on the basis of aesthetic, religious, political, and social contexts. The main emphasis will be on traditional art, although the course will address many changes and continuities within African art as evidenced in the late 20th century. The course will proceed geographically from western through central to eastern and southern Africa. Videos, music, and museum visits will complement the lectures.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

ARTh 114  Introduction to East Asian Art  credit: 4 Hours.
Thematic introduction to the visual arts of China and Japan, including calligraphy and painting, woodblock prints, sculpture, gardens and architecture. Same as EALC 114.
This course satisfies the General Education Criteria for:
UIUC: Non-Western Cultures

ARTh 115  Art in a Global Context  credit: 4 Hours.
Introduces students to basic concepts necessary for understanding the visual arts. It orients students to the visual arts in a variety of international contexts, and in particular in our current globalizing world. This course can be used to fulfill either Western or Nonwestern general education categories, but not both.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures
UIUC: Western Compartv Cult

ARTh 211  Design History Survey  credit: 3 Hours.
The historical, social and cultural context of design concentrating on manufactured products, communication, media and design from the Industrial Revolution to the present. Lectures, seminars and individual research projects.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ARTh 215  Greek Art  credit: 3 Hours.
Survey of architecture, sculpture, and painting of the Greek world from the geometric period to the beginning of the Christian era. Same as CLCV 217.

ARTh 217  Development of Ancient Cities  credit: 3 Hours.
Same as CLCV 231. See CLCV 231.
This course satisfies the General Education Criteria for:
UIUC: HistPhilosoph Perspect
UIUC: Western Compartv Cult

ARTh 218  Ancient Greek Sanctuaries  credit: 3 Hours.
Same as CLCV 232 and REL 232. See CLCV 232.

ARTh 222  Medieval Art  credit: 3 Hours.
The arts of Byzantium and Western Europe from the early Christian era to the Renaissance. Same as MDVL 222.

ARTh 230  Italian Renaissance Art  credit: 3 Hours.
Architecture, painting, and sculpture of Italy during the Renaissance.

ARTh 231  Northern Renaissance Art  credit: 3 Hours.
Architecture, painting, sculpture, and minor arts of Europe outside Italy in the fifteenth and sixteenth centuries. Same as MDVL 231.

ARTh 235  Baroque Art  credit: 3 Hours.
Studies European painting, sculpture, and graphic work during the period 1580 to 1700.

ARTh 240  Art of the Nineteenth Century  credit: 3 Hours.
Architecture, painting, sculpture, and minor arts of France, Germany, Spain, and England in the nineteenth century.

ARTh 241  Modern Art, 1880-1940  credit: 3 Hours.
This course examines the ways in which artists reconceived how art should look and function in response to the many changes – social, political, and technological – that accompanied the modernization of Europe from 1880 to 1940. Topics to be covered include the avant-garde, modernism’s relationship to “primitivism,” pure abstraction, art’s responses to the political upheavals of World War I and the Russian Revolution, the advent of design, and the politics of realism and representation. Although primarily focused in Europe, the course also touches on related modern movements globally.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

ARTh 242  Art Since 1940  credit: 3 Hours.
The scope of this course begins amidst the devastation and geopolitical shifts that followed World War II and ends with the effects of globalization in the 1990s and 2000s. We will ask the same questions that faced artists and critics in between: Should art focus on its own material processes or open its borders to historical flux? Is it art’s job to create the cultural myths that bind society together, or to deconstruct them? Who participates in modern and contemporary art, and who doesn’t? What kinds of production should be considered art? How are specific formal strategies informed by the perspectives of different subject positions? What politics underwrite them? We will consider, and reconsider, the existing narratives about art during this period with a dual aim: first, to better understand the historical positions of the artists in question, and, second, to piece together a prehistory of the moment in which we currently find ourselves.

Information listed in this catalog is current as of 03/2017
ARTH 249  American Visual Humor  credit: 3 Hours.
Investigates the mechanics of visual humor in nineteenth-century American visual and material culture, including graphic satire, painting, sculpture, comics, and early film. Considers this material in the context of social and political attitudes, styles of communication, consumer culture, literary comedic strategies, aesthetic theory, and humor theory more generally. Incorporates in-class screenings of contemporary comedians, visits to the Rare Book Room at the University library, and visits to the Krannert Art Museum.

ARTH 250  American Art  credit: 3 Hours.
Surveys American art and architecture from the colonial period to the present.

ARTH 257  History of Photography  credit: 3 Hours.
Examines a history of photography from its origin to the present, including both documentary and artistic approaches; considers relationships with other arts.

ARTH 260  Graffiti and Murals  credit: 3 Hours.
From Bronx walls to the Berlin Wall, from ancient palatial decorations to spray-can art, murals and graffiti have been revolutionary political tools, objects of aesthetic contemplation, and vehicles for identity formation. Primarily a lecture course that examines ancient and early modern cases from different cultures, as well as focusing on modern examples from Latin America and the USA. Same as LLS 260.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Western Compartiv Cult

ARTH 299  Spec Topics in Art History  credit: 3 Hours.
Special topics in Art History Courses. Topics and subject matter to be published in course listings. May be repeated up to 6 hours in a semester, to a maximum of 12 total hours. Prerequisite: Sophomore standing or consent of instructor.

ARTH 300  African Art and Society I  credit: 3 Hours.
Introduces the arts of Black Africa, i.e., dance, drama, songs, and poetry, as expressed in a multi-media framework and a social-religious context; surveys the art styles of the Dogon, Senufo, Mende, and Ashanti peoples.

ARTH 312  Central African Art  credit: 3 Hours.
A one-semester introduction to the arts of central Africa. Sculpture, pottery, architecture, body adornment, contemporary art, and performance will be examined and discussed on the basis of aesthetic, religious, political, and social contexts. Discusses many changes and continuities within African artistic traditions as evidenced in late twentieth-century urban, popular, and political arts of central Africa. We shall also investigate some central African artistic influences found in African American arts. Same as AFST 312.

ARTH 313  Modern and Contemp African Art  credit: 3 Hours.
Examines how multiple "modernisms" emerged from African independence movements, and thereby influenced the development of African and African-American art from the 1960s to the present. Same as AFST 313.

ARTH 342  Arts of Colonial Latin America  credit: 3 Hours.
Introduction to the major art historical, stylistic and iconographic developments of several Latin American countries of the late sixteenth through eighteenth centuries. Themes to be investigate include: the pictorial representation of race; indigenous workshops, traditions, and the birth of European art academies; the constructions of gender, as well as the translation of styles. The course includes field trips to local museums and libraries. Previous introductory level art history or Latin American history course recommended. Same as LAST 342.

ARTH 343  Arts of Modern Latin America  credit: 3 Hours.
This course is an introduction to the major visual materials, monuments, and critical debates of the arts of Latin America, from the 19th to the early 20th century. It studies a wide range of artistic media, including drawings, paintings, popular prints, performance, photography, film, murals, architecture, and urban planning, especially as they pertain to definitions of "Latin America". The course pays particular attention to constructions of race and gender in representing the modern nation. Same as LAST 343.

ARTH 344  Spanish Modern Art  credit: 3 Hours.
Introduction to the rich visual cultures of Spain beginning with the Bourbon dynasty in the eighteenth century through the early decades of the twentieth century. The course examines a variety of themes: from the mythologized loves of Goya, to the grandeur of canvases recreating Spain's history; from Spanish Romanticism to the rise of vanguard movements and the advent of Pablo Picasso. 3 undergraduate hours.
Prerequisite: Previous introductory level art history course recommended, but not required.

ARTH 345  Realism to Postimpressionism  credit: 3 Hours.
Studies European art from 1850 to 1900, with emphasis on French painting.

ARTH 350  American Art 1750-1900  credit: 3 Hours.
Studies the two major directions of art in the United States from independence to the centennial, with focus on major figures and the scientific and philosophical movements which influenced them.
Prerequisite: One year of art history or consent of instructor.

ARTH 351  Early American Modernism  credit: 3 Hours.
Examines American art, particularly painting and sculpture, 1876-1940, against its cultural background and the relation of the American artist to Europe in an attempt to isolate the roots of Modernism in the United States. Prerequisite: One year of art history or consent of instructor.

ARTH 360  Women and the Visual Arts  credit: 3 Hours.
Explores the complex interconnections of women with the visual arts in Europe and North America from the classical era to the present, including the modes of artistic production and the representation of women in western society. Same as GWS 360.

ARTH 391  Individual Art History Topics  credit: 1 to 4 Hours.
Directed independent research or creative activity. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing in art and design; consent of instructor, advisor, and associate director of the School.

ARTH 395  Junior Seminar in Art History  credit: 3 Hours.
Offers Art History majors grounding in the discipline’s historiography and exposure to diverse historical methods. Provides students with experience in a range of research techniques as preparation for their Senior Seminar. Prerequisite: Junior standing in Art History curriculum or in Art History minor.

ARTH 402  Ways of Seeing in Edo Japan  credit: 3 or 4 Hours.
Focuses on modes of seeing and technologies of vision manifest in the visual arts of Edo Japan, 1615-1868. At the time, imported European instruments of seeing, such as the microscope, made possible unusual visual experiences; revivals of classical Japanese painting manipulated different ways of recreating and visualizing the past. A variety of themes, organized chronologically, will demonstrate the importance of seeing in painting and calligraphy, ceramics, woodblock prints, and architecture. Same as EALC 402. 3 or 4 graduate hours.
Prerequisite: ARTH 114, or equivalent background in Japanese history or literature. Junior standing or consent of instructor.
ARTH 403  Word and Image in Chinese Art  credit: 3 or 4 Hours.  
Study of the diverse correlations between verbal texts and visual images in Chinese art and art theory from the twelfth through seventeenth centuries. Same as EALC 403. 3 undergraduate hours. 3 or 4 graduate hours.

ARTH 410  West African Art and Ideas  credit: 3 or 4 Hours.  
Study of West African art styles in chronological and cultural perspectives with a special interest in the use of interdisciplinary source materials. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 411  Sacred African Diaspora Arts  credit: 3 or 4 Hours.  
Explores African diaspora arts grounded in the diverse aesthetic, philosophical, historical, political, and religious consciousnesses of peoples of African descent living in the Caribbean and the Americas. Focuses on the preservation and ongoing transformations of African visual and religious cultures surviving in African diaspora communities from the period of the trans-Atlantic slave trade to the present. Same as AFST 421. 3 undergraduate hours. 4 graduate hours.

ARTH 415  The Archaeology of Greece  credit: 3 Hours.  
Same as CLCV 443. See CLCV 443.

ARTH 416  The Archaeology of Italy  credit: 3 Hours.  
Same as CLCV 444. See CLCV 444.

ARTH 423  Romanesque Art  credit: 3 or 4 Hours.  
Art and architecture of the Romanesque period. Same as MDVL 423. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 424  Gothic Art  credit: 3 or 4 Hours.  
Arts of western Europe from the end of the Romanesque period until the Renaissance. Same as MDVL 424. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 430  Topics: Italian Art 1300-1500  credit: 3 or 4 Hours.  
Special topics in the history of painting, sculpture, and architecture of Italy during the Renaissance selected for intensive study. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 431  Topics: Northern Art 1300-1500  credit: 3 or 4 Hours.  
Special topics in the history of painting, sculpture, and minor arts of France, Germany, Spain, and England during the Renaissance selected for intensive study. Same as MDVL 431. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 432  Sixteenth-Century Italian Art  credit: 3 or 4 Hours.  
Painting, sculpture, and architecture in Italy from 1500 to 1580. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 433  Fifteenth-Century Italian Art  credit: 3 or 4 Hours.  
Study of Italian painting, sculpture and architecture from circa 1300 to 1500. Same as MDVL 433. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 435  Italian Baroque Art  credit: 3 or 4 Hours.  
Italian painting and sculpture during the period 1580-1700, with particular emphasis on art in Rome. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 436  17th Century Dutch Painting  credit: 3 or 4 Hours.  
Seventeenth-century art in the Netherlands with extensive treatment of the careers of Rubens and Rembrandt. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 439  18th Century European Art  credit: 3 or 4 Hours.  
Critical survey of the major developments in European painting of the eighteenth century. Emphasis is placed on French artists, but major figures in England, Spain, and Italy are also considered. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 440  Romantic Art  credit: 3 or 4 Hours.  
Studies English, French, and German art from the end of the eighteenth century through 1840; focuses on revivalist movements, historicism, landscape art, and changing conceptions of art and artist during the period. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 441  Realism to Post-Impressionism  credit: 3 or 4 Hours.  
Studies European art from 1850 to 1900, with emphasis on French painting. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 445  European Art Between the Wars  credit: 3 or 4 Hours.  
Study of the leading personalities and movements in European painting, sculpture, and architecture, with emphasis on painting. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 447  France and Its Others  credit: 3 or 4 Hours.  
Examines the relationship between art and colonialism in nineteenth-century France. Topics include orientalism, primitivism, and exoticism; the central figures include Delacroix, Flaubert, Gerome, and Gauguin. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 460  Museum Management  credit: 3 or 4 Hours.  
This course is concerned with advanced theoretical issues of art museum work, taught by the professional staff of a museum. Topics covered include collections, curatorial issues, educational program planning, trustee relations, public outreach, fundraising, budgeting, and staff organization. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

ARTH 462  Museum Theory and Practice  credit: 3 or 4 Hours.  
Same as ANTH 462 and LA 472. See ANTH 462.

ARTH 489  Senior Art-History Honors-BA  credit: 2 to 5 Hours.  
Independent guided research and study in a selected area of art history for candidates for the Bachelor of Arts in Art History with departmental distinction. 2 to 5 undergraduate hours. No graduate credit. May be repeated to a maximum of 5 hours. (Counts for advanced hours in LAS). Prerequisite: Senior standing in the art history curriculum; a cumulative grade point average of 3.25; an art history grade point average of 3.5; and consent of instructor, department advisor, and associate director of the School.

ARTH 490  Senior Art-History Honors-BFA  credit: 2 to 5 Hours.  
Directed independent research and study for honors. 2 to 5 undergraduate hours. No graduate credit. May be repeated to a maximum of 5 hours. Prerequisite: Senior standing in Fine and Applied Arts art history, a cumulative grade point average of 3.0, and consent of instructor, advisor, and associate director of the School.
ARTh 491 Topics in Art History credit: 1 to 4 Hours.
Variable content; consult the Class Schedule for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Junior standing or consent of instructor.

ARTh 495 Senior Seminar in Art History credit: 3 Hours.
Required seminar for undergraduate majors that offers students practical experience in research techniques. Focuses on a specialized theme of the professor's choice, and will incorporate extensive reading in a specific field of Art History and the completion of a substantial research paper. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 undergraduate hours. Prerequisite: ARTH 395.

Biology Teaching
For the Degree of Bachelor of Science in Liberal Arts and Sciences

E-mail: advising@life.uiuc.edu

Minimum required courses normally equate to 79-82 hours in the major and 39 hours for the Teacher Education Minor in Secondary School Teaching.

General education: Students must complete the Campus General Education requirements (https://courses.uiuc.edu) including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum hours required for graduation: 120 hours

This major fulfills state certification requirements to teach high school (grades 9-12) biology through the AP/honors level and chemistry, earth and space science, environmental science and physics up to but not including the AP/honors level.

Students in this major must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 126).

Time to degree completion varies. Minimum time to completion is 8 semesters, but some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook (https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education (p. 597) for the list of courses used to compute these grade-point averages.

Departmental distinction: To graduate with distinction, the student must have at least a 3.5 grade point average for all work completed, and present evidence of exemplary student teaching.

Foundation Courses

The following courses must be completed or in progress when students apply to the Secondary Education minor.

molecules, and chemical reactions. Computer Science and Chemistry majors might develop computer models or simulate chemical and biochemical processes, perform statistical analysis of large data sets, or create visualizations of reaction pathways, molecular interactions, or other phenomena.

**Computer Science and Linguistics**

The Computer Science and Linguistics program brings together students and faculty interested in different aspects of the computer – natural language relationship – i.e., studying the cognitive aspects of natural languages; endowing computers with human-like behavior and understanding of spoken and written natural language; and designing user-friendly computer programs and interfaces using natural language communication.

Students will be exposed to the tools of both disciplines — formal methods, philosophical analysis, computer programming, and empirical research — with the aim of acquiring the appropriate skills required by the field. Graduates will be successful in landing jobs in various areas, including natural language software design and applications, teaching and research, law, medicine, and public service. The innovative aspect of the program is its focus on relating computers to language, technology, and society where the combination has potential for great impact.

**Computer Science and Anthropology**

For the degree of Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

Please see the computer science advisor as well as the anthropology advisor.

Computer Science email: academic@cs.illinois.edu  
Anthropology email: anthro@illinois.edu  

Minimum required major coursework normally equates to 66 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours). Please see the computer science advisor as well as the anthropology advisor.

Minimum hours required for graduation: 120 hours

Individual Plans of Study (IPS)

Tenaya Reifsteck, LAS Academic Advisor
2002 Lincoln Hall, 702 S. Wright St., Urbana, IL 61801
http://www.las.illinois.edu/students/programs/majors/ips/

For the Degree of Bachelor of Arts in Liberal Arts and Sciences, or Bachelor of Science in Liberal Arts and Sciences

Major in Sciences and Letters Curriculum

E-mail: las-ips@illinois.edu

Minimum required major and supporting course work normally equates to 51-70 hours.

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To graduate with distinction, a student must

1. have a cumulative grade point average of at least 3.25 and
2. successfully complete a project that has been approved by the IPS advisory committee.

Further information on requirements for graduation with distinction may be obtained from the secretary of the IPS advisory committee.

Students in the College of Liberal Arts and Sciences may choose any of the undergraduate degree programs offered within the college. These majors and specialized curricula, each with its own pattern of requirements and electives, are continuously reviewed by the sponsoring departments and the college and revised as needed. At the same time, it is not possible to anticipate or specify all possible undergraduate fields of study. So, in order to encourage the growth of new academic disciplines, the college sponsors the experimental major—the Individual Plans of Study program. IPS allows the student to create an original major more appropriate for the individual's educational needs and characterized by a unique pattern of upper-level courses with a new academic direction. Recent IPS students have successfully pursued such innovative majors as Cinematography, Entomology, Neuroscience, Meteorology, and Middle Eastern Studies.

The development of an IPS program begins with the student's perception that a more appropriate field of study could exist beyond the present majors. Consultation with the secretary of the IPS advisory committee and with faculty members in related fields will soon establish whether an original major is appropriate. Then, with the cooperation of one or more faculty members who consent to serve as advisers for this IPS program, an IPS major is planned and justified as carefully as if this were a departmental major.

Once an IPS program is formulated, the student and adviser make formal application to the IPS advisory committee, which evaluates and decides whether a proposed IPS program is appropriate for the aims of both the student and the college. The IPS Advisory Committee and the college will determine whether BA or BS is appropriate for the proposed program of study. Students interested in IPS are encouraged to inquire as early as possible in the sophomore year. In all cases, IPS programs must

Information listed in this catalog is current as of 03/2017
be initiated and approved before the end of the student’s junior year. If program innovation sounds challenging and attractive, additional information is available at the LAS Student Academic Affairs Office, 202 Lincoln Hall.

Physics
Dale Van Harlingen
209 Loomis Laboratory of Physics, 1110 West Green, Urbana

http://physics.illinois.edu

The major in Physics in the Sciences and Letters Curriculum allows students maximum flexibility to develop scientifically oriented careers in fields requiring a physics background through the Physics Concentration or the Physics Teaching Concentration.

The Physics Concentration is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields.

The Physics Teaching Concentration fulfills state certification requirements to teach both physics and general science.

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. In some cases, however, the greater flexibility of the Science and Letters Curriculum may make it a better choice for graduate school preparation for those who want to pursue a combined major and minor, a double major, or double degrees.

See also Engineering Physics (p. 213) in the College of Engineering. See the Physics Department for additional information.

PHYS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/PHYS)

Courses

PHYS 100 Thinking About Physics credit: 1 or 2 Hours. Conceptual and problem solving skills in preparation for PHYS 211. Part I (first eight weeks, 1 credit hour): analysis and mathematical descriptions of physical situations; understanding the meaning of the solutions. Part II (remainder of term, 2 credit hours for full term): development of problem solving skills and content from Part I. Approval of the department is required to register. Prerequisite: Credit or concurrent registration in MATH 220 or MATH 221.

PHYS 101 College Physics: Mech & Heat credit: 5 Hours. Newton’s Laws, work and energy, rotational motion, fluids, thermodynamics, and waves. A noncalculus-based approach for majors in the life sciences, preprofessional health programs, agriculture, and veterinary medicine. Credit is not given for both PHYS 101 and either PHYS 211 or PHYS 213. Prerequisite: Trigonometry. This course satisfies the General Education Criteria for:
- UIUC: Physical Sciences
- UIUC: Quant Reasoning II

PHYS 102 College Physics: E&M & Modern credit: 5 Hours. Electric forces and fields, electric potential, electric circuits, magnetic forces and fields, geometrical optics, relativity, and modern physics. A noncalculus-based approach for majors in the life sciences, preprofessional health programs, agriculture, and veterinary medicine. Credit is not given for both PHYS 102 and either PHYS 212 or PHYS 214. Prerequisite: PHYS 101. This course satisfies the General Education Criteria for:
- UIUC: Physical Sciences
- UIUC: Quant Reasoning II

PHYS 110 Physics Careers credit: 0 Hours. Exploration of careers founded on physics undergraduate training. Introduction to the Physics Department, faculty, research and curricula. Outside speaker presentations. Approved for S/U grading only.

PHYS 123 Physics Made Easy credit: 3 Hours. Inquiry-based, nonmathematical, hands-on study of physics for elementary school teachers. Coverage of most of the National Science Education K-4 Content Standards. Additional fees may apply. See Class Schedule. This course satisfies the General Education Criteria for:
- UIUC: Physical Sciences
- UIUC: Quant Reasoning II

PHYS 140 How Things Work credit: 3 Hours. Nonmathematical approach underscoring the generality and ubiquity of basic physical laws in understanding commonplace phenomena: musical instruments, photography, electric and electronic circuits, television, motors, engines, etc. Credit is not given to engineering majors. This course satisfies the General Education Criteria for:
- UIUC: Physical Sciences
- UIUC: Quant Reasoning II

PHYS 150 Physics of Societal Issues credit: 3 Hours. Physics topics and applications relevant in the modern world: energy, quantum mechanics, electricity and magnetism, nuclear physics, waves, light, and outer space. Application to satellites, alternative energy, medical imaging, radiation, nuclear weapons, climate change, and electronics. Emphasis on analytical thinking and the applicability to modern societal issues. This course satisfies the General Education Criteria for:
- UIUC: Physical Sciences
- UIUC: Quant Reasoning II

PHYS 192 Science and Pseudoscience credit: 1 Hour. Extra-sensory perception, alien abduction, and psychic crime-solving from the standpoint of scientific inquiry and exploration; the scientific method, how science progresses, and the types of argumentative fallacies that pervade the pseudoscientific community; examples of good science and how the scientific method is self-correcting.

PHYS 193 Physics of Music credit: 2 Hours. Physics of music and musical instruments; acoustical physics, propagation of sound waves, the biological physics of human hearing, and the acoustical physics associated with all types of musical instruments.

Information listed in this catalog is current as of 03/2017
PHYS 194  Behavior of Complex Systems  credit: 1 Hour.
Exploration of systems with simple rules that nevertheless exhibit complex behavior. Lecture demonstrations on fractal growth, chaos, catastrophes, self-assembly, lightning, turbulence, explosions, and human rhythms. Simple computer models which exhibit regular, irregular, symmetric, and self-similar patterns and dynamics. Dynamics of isolated and coupled complex systems and mathematical tools for quantifying complex behavior.

PHYS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours.
Approved for letter and S/U grading. May be repeated.

PHYS 211  University Physics: Mechanics  credit: 4 Hours.
Newton's Laws, work and energy, static properties and fluids, oscillations, transverse waves, systems of particles, and rotations. A calculus-based approach for majors in engineering, mathematics, physics and chemistry. Credit is not given for both PHYS 211 and PHYS 101. Prerequisite: Credit or concurrent registration in MATH 231. This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

PHYS 212  University Physics: Elec & Mag  credit: 4 Hours.
Coulomb's Law, electric fields, Gauss' Law, electric potential, capacitance, circuits, magnetic forces and fields, Ampere's law, induction, electromagnetic waves, polarization, and geometrical optics. A calculus-based approach for majors in engineering, mathematics, physics, and chemistry. Credit is not given for both PHYS 212 and PHYS 102. Prerequisite: PHYS 211; credit or concurrent registration in MATH 241. This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

PHYS 213  Univ Physics: Thermal Physics  credit: 2 Hours.
First and second laws of thermodynamics including kinetic theory of gases, heat capacity, heat engines, introduction to entropy and statistical mechanics, and introduction to application of free energy and Boltzmann factor. A calculus-based approach for majors in engineering, mathematics, physics and chemistry. Credit is not given for both PHYS 213 and PHYS 101. Prerequisite: PHYS 211; credit or concurrent registration in MATH 241. This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

PHYS 214  Univ Physics: Quantum Physics  credit: 2 Hours.
Interference and diffraction, photons and matter waves, the Bohr atom, uncertainty principle, and wave mechanics. A calculus-based course for majors in engineering, mathematics, physics, and chemistry. Credit is not given for both PHYS 214 and PHYS 102. Prerequisite: PHYS 212. This course satisfies the General Education Criteria for:
UIUC: Physical Sciences
UIUC: Quant Reasoning II

PHYS 221  Enrichment Mechanics  credit: 1 Hour.
Supplement to PHYS 211 with a collaborative group learning approach to improving conceptual understanding and problem solving in introductory calculus-based mechanics. Prerequisite: PHYS 100; concurrent registration in PHYS 211.

PHYS 222  Enrichment E & M  credit: 1 Hour.
Supplement to PHYS 212 with a collaborative group learning approach to improving conceptual understanding and problem solving in introductory calculus-based electricity & magnetism. Prerequisite: PHYS 100; concurrent registration in PHYS 212.

PHYS 225  Relativity & Math Applications  credit: 2 Hours.
Theory of Special Relativity, with applications to kinematics and dynamics. Key mathematical methods as they apply to aspects of electromagnetic theory and classical mechanics, including vector analysis, series expansions, matrices, Fourier analysis, partial differentiation, three-dimensional calculus, and simple differential equations. Prerequisite: Credit or concurrent registration in PHYS 212.

PHYS 280  Nuclear Weapons & Arms Control  credit: 3 Hours.
Nontechnical analysis of the physics of nuclear weapons, nuclear weapon effects, delivery systems, and defenses against nuclear attack; presentation of current issues; basis for making informed judgments about nuclear armaments and arms control. Same as GLBL 280. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition

PHYS 298  Freshmen/Sophomore Special Topics in Physics  credit: 0 to 4 Hours.
Topical offerings of technical interest, skills, and knowledge in physics, and its practice, intended to augment the existing curriculum at the introductory level. Approved for Letter and S/U grading. May be repeated in separate terms up to 12 credit hours if topics vary. Prerequisite: See Class Schedule or departmental course information for topics and prerequisites. For students with freshman or sophomore standing.

PHYS 325  Classical Mechanics I  credit: 3 Hours.
Kinematics and dynamics of classical systems, including a review of Newtonian kinematics and dynamics. Three dimensional motion, variable mass, and conservation laws; damped and periodically driven oscillations; gravitational potential of extended objects and motion in rotating frames of reference; Lagrangian and Hamiltonian mechanics. Prerequisite: PHYS 225; credit or concurrent registration in MATH 285.

PHYS 326  Classical Mechanics II  credit: 3 Hours.
Continuation of PHYS 325. Central force motion, collisions and scattering, rotational motion, coupled oscillations, continuous media, and fluid dynamics. Prerequisite: PHYS 325.

PHYS 329  Atmospheric Dynamics I  credit: 3 Hours.
Same as ATMS 302. See ATMS 302.

PHYS 330  Atmospheric Dynamics II  credit: 3 Hours.
Same as ATMS 312. See ATMS 312.

PHYS 398  Sophomore/Junior Special Topics in Physics  credit: 1 to 4 Hours.
Topical offerings of technical interest, skills, and knowledge in physics, and its practice, intended to augment the existing curriculum at the intermediate level. Approved for Letter and S/U grading. May be repeated in separate terms up to 12 hours if topics vary. Prerequisite: See Class Schedule or departmental course information for topics and prerequisites. For students with sophomore or junior standing.

PHYS 401  Classical Physics Lab  credit: 3 Hours.
Experiments and techniques in classical mechanics and electromagnetism. Dynamics of electrical and mechanical oscillators in the linear domain. Fourier analysis of system response. Measurements of electrostatic fields, transmission lines, waves, and radiation. Electromagnetic phenomena in dielectrics, conductors, and magnetic materials. Instruction in data analysis and report writing. 3 undergraduate hours. 3 graduate hours. Prerequisite: Credit or concurrent enrollment in PHYS 325.

Information listed in this catalog is current as of 03/2017
PHYS 402  Light credit: 4 Hours.
Wave kinematics; geometrical optics; basic concepts, ray-tracing and
formalism, Gaussian imaging by thick lenses, stops, apertures,
and intensity relations; interference; interference spectroscopy
and coherence; diffraction: Fresnel-Kirchhoff formulation, Fraunhofer case,
Fresnel case, and holography; polarized light. 4 undergraduate hours. 3 or 4 graduate hours. (3 hours without lab). Prerequisite: MATH 285; PHYS 102 or PHYS 214.

PHYS 403  Modern Experimental Physics credit: 4 or 5 Hours.
Techniques and experiments in the physics of atoms, atomic nuclei,
molecules, the solid state, and other areas of modern physical research. 5 undergraduate hours. 4 graduate hours. Prerequisite: Credit or concurrent registration in PHYS 486.

PHYS 404  Electronic Circuits credit: 5 Hours.
Physics of semiconductor devices; theory and application of discrete
and integrated devices in linear circuits; use of operational amplifiers
and feedback; regulation, oscillators, and modulation; emphasizes practical
experience. 5 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 325.

PHYS 406  Acoustical Physics of Music credit: 4 Hours.
Acoustical physics associated with music and musical instruments,
propagation of sound waves in and from musical instruments, and the
biological physics of human hearing. Investigation of topics via advanced
laboratory and data acquisition techniques. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 213 and PHYS 214.

PHYS 419  Space, Time, and Matter-ACP credit: 3 or 4 Hours.
Identical to PHYS 420 except for the additional writing component
including a final term paper. Same as PHIL 419. 3 undergraduate hours. 4 graduate hours. Credit is not given for both PHYS 419 and PHYS 420. Prerequisite: PHIL 101; PHYS 101 or PHYS 211. This course satisfies the General Education Criteria for: UIUC: Advanced Composition

PHYS 420  Space, Time, and Matter credit: 2 Hours.
Philosophical examination of some fundamental concepts and theories of
the physical world, such as time, matter, space, and geometry;
interpretation of quantum theory. Same as PHIL 420. 2 undergraduate hours. 2 graduate hours. Credit is not given for both PHYS 420 and PHYS 419. Prerequisite: PHIL 101; PHYS 101 or PHYS 211.

PHYS 427  Thermal & Statistical Physics credit: 4 Hours.
Equilibrium thermodynamics, statistical mechanics, and kinetic theory
of gases. A unified treatment is used in that the principles of heat
and thermodynamics are discussed along with statistical postulates
and the microscopic approach of introductory quantum mechanics.
4 undergraduate hours. 4 graduate hours. Credit is not given for both PHYS 427 and any of ME 404, CHEM 444, MSE 500. Prerequisite: PHYS 213, PHYS 214, and PHYS 325.

PHYS 435  Electromagnetic Fields I credit: 3 Hours.
Static electric and magnetic fields, their interactions with electric charge
and current, and their transformation properties; the effect of special
relativity is incorporated. Macroscopic fields in material media are
described. 3 undergraduate hours. 3 graduate hours. Prerequisite: MATH 285; credit or concurrent enrollment in PHYS 325.

PHYS 436  Electromagnetic Fields II credit: 3 Hours.
Time-dependent fields. Electromagnetic induction, Maxwell's equations,
electromagnetic wave propagation in various media and structures,
and electromagnetic radiation from charge and current distributions.
Relativistic covariance of Maxwell's equations. Course Information: 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 435.

PHYS 460  Condensed Matter Physics credit: 4 Hours.
Bonding and structure of crystals; energy bands in insulators,
semiconductors, and metals; electrical conductivity; optical properties;
lattice vibrations; elasticity; point defects; dislocations. 4 undergraduate hours. 4 graduate hours. Credit is not given for both PHYS 460 and MSE 304. Prerequisite: PHYS 435; PHYS 485 or PHYS 486.

PHYS 466  Atomic Scale Simulations credit: 3 or 4 Hours.
The nature and properties of nuclei and elementary particles, symmetries,
interactions, nuclear models, tools and techniques of experimental
subatomic physics, and applications to power generation, astrophysics,
chemistry, medicine, and biology. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 485 or PHYS 486.

PHYS 470  Subatomic Physics credit: 4 Hours.
Major concepts of physics inherent to biological systems. Basic of
biology, including protein and DNA structure and their organization into
cells with a focus on single molecule biophysics. Major experimental
techniques including x-ray diffraction, optical and magnetic traps, and
fluorescence microscopy, including new super-resolution techniques.
Applications to cytoplasmic and nuclear molecular motors, bacterial
motion, nerves, and vision. Same as BIOP 401. 3 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 213 and PHYS 214.

PHYS 485  Atomic Phys & Quantum Theory credit: 3 Hours.
Basic concepts of quantum theory which underlie modern theories of
the properties of materials; elements of atomic and nuclear theory;
kinetic theory and statistical mechanics; quantum theory and simple
applications; atomic spectra and atomic structure; molecular structure
and chemical binding. 3 undergraduate hours. 3 graduate hours. Credit is
not given for both PHYS 485 and CHEM 442. Prerequisite: MATH 285 and PHYS 214.

PHYS 486  Quantum Physics I credit: 4 Hours.
Atomic phenomena integrated with an introduction to quantum theory;
evvidence for the atomic nature of matter and the properties of the
Schrödinger equation, single particle solutions in one dimension,
the hydrogen atom, perturbation theory, external fields, and atomic
spectroscopy of outer electrons. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 285; PHYS 214; credit or concurrent registration in MATH 415.

PHYS 487  Quantum Physics II credit: 4 Hours.
Continuation of PHYS 486. Identical particles, spectral hyperfine
structure, magnetic properties of matter, atomic spectroscopy of
inner electrons, high-energy photon effects, molecular binding and
spectra, emission and absorption of light, and symmetry principles. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 486.

PHYS 496  Intro to Physics Research credit: 3 Hours.
Examination of current research topics through extensive reading, writing,
and oral-presentation activities. 3 undergraduate hours. No graduate
credit.
This course satisfies the General Education Criteria for: UIUC: Advanced Composition

PHYS 497  Individual Study credit: 1 to 4 Hours.
Individual study at an advanced level in a subject not covered by course
offerings. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be
repeated. Prerequisite: Consent of instructor.

Information listed in this catalog is current as of 03/2017
allow space in their programs for undergraduate research.

Discovery Seminar during the first year fall semester and plan ahead to semester. All students are strongly encouraged to take a Freshman in mathematics should begin the general physics sequence in the first semester. Students with advance placement PHYS 110 during the first semester and begin the general physics sequence in the second semester. Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers. The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers. Students in the Specialized Curriculum beyond the freshman year must maintain an overall grade point average of at least 2.5 and also a grade point average of 2.5 in all required mathematics and physics courses.

Students in the Specialized Curriculum beyond the freshman year must maintain an overall grade point average of at least 2.5 and also a grade point average of 2.5 in all required mathematics and physics courses.

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers.

LAS Specialized Curriculum in Physics

E-mail: undergrad-info@physics.illinois.edu

Degree Title: Bachelor of Science in Physics

General Education: Students must complete the Campus General Education requirements including the campus general education language requirement.

Minimum hours required for graduation: 126

Departmental distinction: Graduation with distinctions awarded to students who complete 8 additional hours of 300- or 400-level physics courses or advanced courses in closely related technical subjects and who have attained cumulative grade point averages as follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers. Students in the Specialized Curriculum beyond the freshman year must maintain an overall grade point average of at least 2.5 and also a grade point average of 2.5 in all required mathematics and physics courses.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to take a Freshman Discovery Seminar during the first year fall semester and plan ahead to allow space in their programs for undergraduate research.

Physics Concentration within the Sciences and Letters Curriculum

E-mail: undergrad-info@physics.illinois.edu

Degree title: Bachelor of Science in Liberal Arts and Sciences

Minimum required major and supporting course work normally equates to 65-73 hours

General education: Students must complete the Campus General Education requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: Graduation with distinction is awarded to students who complete 8 additional hours of 300- or 400- or 500-level physics courses or advanced courses in closely related technical subjects, and who have attained cumulative grade point averages as

Information listed in this catalog is current as of 03/2017
follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

The Physics Concentration is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields. Students who are certain that they want to go on to graduate study in physics or in a closely allied field should also consider the LAS Specialized Curriculum in Physics. In some cases, however, the greater flexibility of the Science and Letters Curriculum may make it a better choice for graduate school preparation for those who want to pursue a combined major and minor, a double major, or double degrees. Students in the concentration must maintain an overall grade point average of at least 2.0 and also a grade point average of at least 2.0 in all required physics and mathematics courses. To be permitted to enroll in advanced physics courses in this concentration a student must maintain at least a 2.0 average in all attempts at science and mathematics courses taken at the University of Illinois.

Students in this concentration must choose an approved elective technical or professional option no later than the end of the second semester of the sophomore year. A set of pre-approved options is available via the departmental web site (http://physics.illinois.edu/undergrad/las-options.asp) and from the departmental undergraduate studies office. Students may also design and follow a "custom option" subject to departmental approval. Students completing the Astrophysics option will earn a minor in Astronomy, if appropriate Minor form is filed.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement should begin the general physics sequence in the first semester. All students are strongly encouraged to take a Freshman Discovery Seminar during the first year fall semester and plan ahead to allow space in their programs for undergraduate research.

Elective Technical or Professional Option 12

A set of technical or professional courses that addresses an intellectually coherent body of knowledge. At least 9 hours should be at the 200-level or higher. Required courses may not be included in the set. Students may select from a list of pre-approved options or design a custom option, subject to departmental approval.

1. MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

Physics Teaching Concentration within the Sciences and Letters Curriculum

E-mail: undergrad-info@physics.illinois.edu

Web address for department: http://physics.illinois.edu

Degree title: Bachelor of Science in Liberal Arts and Sciences

General education: Students must complete the Campus General Education (https://courses.illinois.edu) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

This concentration fulfills state certification requirements to teach high school physics (grades 9-12) through the AP/honors level and general science (high school biology, chemistry, earth and space science, and environmental science up to but not including the AP/honors level).

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching. See the College of Education section for requirements of the minor (p. 126) (39 hours).

Time to degree completion varies. Minimum time to completion is 8 semesters, some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages. http://www.cote.illinois.edu/

Departmental distinction: Distinction is determined by a combination of grade point average and achievement in student teaching. The student's practice teaching experience will be evaluated by the departmental...
honors adviser and the teaching supervisor. Distinction requires a
3.2 grade point average; high distinction, 3.4; highest distinction, 3.6.
Students desiring distinction should consult with the departmental
honors adviser during the junior year.

Foundation Courses

The following courses must be completed or in progress
when students apply to the Secondary Education minor.

Information listed in this catalog is current as of 03/2017
pursuing this major choose one of two specializations: Journalism or Advertising. The College of Media and the College of Agricultural, Consumer and Environmental Sciences jointly offer this curriculum.

- JOURNALISM (JOUR), prepares students for exciting and fulfilling careers in traditional broadcast journalism, news-editorial journalism, and emerging media. The primary professional aim is to train students as public affairs and enterprise journalists. The Journalism Department seeks to prepare broadly educated professionals who will assume decision-making and leadership roles in a variety of media organizations.

- MEDIA AND CINEMA STUDIES (MACS), prepares students with dynamic skills for careers in media, information, creative, and visual industries, as well as informed interaction with everyday media technologies. Majors have the opportunity to participate in original research, mixed media production, internships, study abroad, and public engagement through a transformative learning environment. MACS offers an undergraduate and graduate minor in CINEMA STUDIES.

The College also offers a minor in PUBLIC RELATIONS and undergraduate certificate programs in MEDIA SALES and SPORT MEDIA.

The Departments of Advertising and Journalism offer graduate programs leading to Master of Science degrees in Advertising and in Journalism. The Department of Media and Cinema Studies offers an undergraduate and graduate Minor in Cinema Studies. The College also offers an interdisciplinary program leading to a Doctor of Philosophy degree in communications and media.

Requirements

Admission

High school seniors and transfer students from another institution should contact the Office of Admissions and Records for admission requirements and applications for a specific term.

Current University of Illinois students who will have completed at least one year on the Urbana-Champaign campus should apply during the first weeks of the semester during which they will complete their 30th hour of course credit. Successful applicants will be admitted for the following semester. Applications also will be accepted from more advanced students provided that by the end of the semester in which they apply, they will have completed no more than 90 hours. Forms are available on the College web site. Specific deadlines are cited on the forms.

Students seeking to transfer from another university may apply early in the spring semester provided they will have completed at least 30 transferable hours by the end of the spring semester. Hours planned during upcoming summer semesters are not considered. Forms are available from the University Office of Admissions and Records.

Inter-college transfer students (students already on campus) should include a personal essay of up to 500 words. The essay should demonstrate the applicant’s media-related abilities and detail the applicant’s interest in and demonstrated commitment to a career for which a College of Media degree would be appropriate.

Admission is competitive. While there is no specific requirement regarding grades, a strong GPA is advantageous especially in core classes that are part of the major you wish to transfer into. Students with the best essays and the best academic or professional qualifications, including any pertinent extracurricular activities or internships, will receive highest priority. For a University of Illinois student, one way to demonstrate interest is to have earned a grade of B or better in introductory courses such as ADV 150, JOUR 200, MACS 100, MACS 101, MACS 261, MACS 262, or Discovery courses taught by the College.

Students currently enrolled in other colleges on campus are accepted on the condition that by the time they join the College at the start of the semester after they apply, they must:

- Have completed at least two semesters in the University of Illinois college to which they were admitted, if admitted as freshmen.
- Be classified by the University as sophomores (at least 30 credit hours) or as juniors (fewer than 90 credit hours).
- Be in good academic standing.
- Have completed approximately one-fourth (if sophomores) or one-half (if juniors) or more of the total credit hours required to satisfy the University’s General Education requirements.
- Have made substantial progress toward completing any departmental requirements for courses outside the College of Media. For example, applicants for Advertising ideally will have completed ADV 150, ECON 102 and ECON 103, STAT 100 and two of these three courses: SOC 100, ANTH 103 and PSYC 100.

Students may apply to any major in the College: Advertising, Agricultural Communications, Broadcast Journalism, Media and Cinema Studies or News-Editorial Journalism. College of Media students may not pursue a Minor in Cinema Studies and may not complete double majors within the College.

Students who would require more than nine total semesters of overall college or university enrollment to complete their degree will be denied admission. Students must complete their College of Media degrees within seven semesters of joining the College as sophomores or within five semesters of joining the College as juniors. A minimum of three semesters within the College is required for students admitted as juniors. A minimum of five semesters within the College is required for students admitted as sophomores.

Minors in areas outside the College are strongly encouraged. However, because considerable coursework in other colleges is implicit within the requirements for all College of Media degrees, students are not admitted to the College of Media for the purpose of pursuing second majors or second undergraduate degrees.

Students completing freshman and sophomore studies at institutions other than the University of Illinois at Urbana-Champaign are strongly advised to defer courses in Media and Cinema Studies, Journalism, Agricultural Communication, and Advertising until they enroll in the College of Media. Students may transfer up to eight hours of Advertising, Agricultural Communication, Journalism, Media and Cinema Studies or College of Media electives. However, those hours will not be applied to the minimum number of hours required in College of Media courses and may not be used to replace required courses.

Graduation

To graduate, students must satisfy all University requirements as to residency, scholarship, and fees and must complete the University’s general education requirements. Although the College currently requires completion only of the equivalent of a third-semester college-level course in a language other than English, students planning to join the College as freshmen in future years are strongly urged to plan for completion of the equivalent of a fourth-semester language course as this requirement

Information listed in this catalog is current as of 03/2017
may change in the future. All students also must fulfill these general requirements of the College of Media:

- Complete a total of 124 semester hours of course credit of which no more than 12 hours total may be in basic physical education activity courses (KIN 100-KIN 111, KIN 122), vocational and technical education courses, basic courses in military science (AFAS, MILS and NS courses numbered below 300), Institute of Aviation courses, Undergraduate Open Seminar (199) courses, and independent study courses and other experimental or special topics courses (such as LAS 110) outside the College of Media. The exception is that Agricultural Communication majors must complete 126 semester hours of credit. Independent study courses additionally must be approved by the College to ensure that credit is given only for academic work directly supervised by a faculty member. The College encourages its students to have appropriate professional internships and to participate in professional activities. While it does not allow academic credit for such experience, one credit hour is possible through an academic course or independent study supervised by a College of Media faculty member and taken in conjunction with an internship.

- Agricultural Communication majors must complete 20 hours from the College of Media in one of three specializations: advertising, broadcast journalism, or news-editorial journalism. All other majors must complete not less than 36 hours in courses offered by or cross-listed with Advertising (ADV), Journalism (JOUR) or Media and Cinema Studies (MS, CINE, or MACS), Agricultural Communications (AGCM) or the College of Media (MDIA).

- Complete not less than 80 hours of credit outside the College of Media, of which 65 hours must be taken in traditional liberal arts and sciences, which may include courses offered outside the College of Liberal Arts and Sciences. Math courses numbered below 100 may not count in this total.

- No course of any number that is offered by or cross-listed with Advertising, Agricultural Communications, Journalism or Media and Cinema Studies or is substantially similar to courses offered by Advertising, Agricultural Communications, Journalism or Media and Cinema Studies may count in this total, regardless of the rubric under which it is taken. For each hour of credit beyond 44 in such courses, the number of hours required for graduation increases by one additional hour to ensure that the requirement of 80 hours outside the College is met.

- Complete not less than 20 hours in courses numbered 200 or above outside the College of Media and not cross-listed in the College of Media, regardless of the rubric under which they are taken. At least 9 of the 20 hours must be in courses numbered 300 and above.

- Complete the specific requirements of one of the five curricula offered by the College.

- Earn a cumulative grade point average of 2.00 (A = 4.00) in all courses presented for the degree and a cumulative 2.00 grade point average for all courses taken in the College.

**Special Programs**

**Dean’s List**

To be eligible for Dean's List recognition for any semester, students must rank in the top 20 percent of the College in grade point average and must complete at least 14 hours taken for a letter grade (A through F) on the Urbana-Champaign campus. Transfer, study abroad and guided individual study coursework is excluded.

The specific grade point average necessary to achieve Dean's List recognition may vary. College of Media standards are high.

Dean's List recognition is determined before the start of the ensuing semester. Students who are not initially selected but who believe they might qualify because of the late resolution of incomplete, deferred or missing grades may petition before the end of the next semester for retroactive addition to the list.

**Honors at Graduation**

For graduation with honors, a student must rank in the upper 20 percent of his or her graduation class in overall grade point average. For graduation with high honors, a student must additionally rank in the upper 10 percent. For graduation with highest honors, a student must additionally rank in the upper 5 percent.

For purposes of this award, "graduating class" means all students listed as receiving or as being candidates for receiving bachelor's degrees in all College majors at the College's annual commencement convocation each May. This includes students who graduated in the previous December and those who are candidates for graduation in May and August. Grade point averages are computed through the fall semester immediately preceding the annual convocation and include all transfer courses and other grades posted as of that date.

Transfer students, in addition to meeting the general requirement, must have cumulative University of Illinois at Urbana-Champaign grade-point averages as high as the lowest ones listed for students who qualify on the basis of having completed all of their work at the University of Illinois at Urbana-Champaign and must have earned 40 or more semester hours at the University of Illinois at Urbana-Champaign through the fall semester immediately preceding the annual convocation.

**Kappa Tau Alpha**

Each year, scholastically high-ranking graduating juniors and seniors in the College of Media are considered for membership in Kappa Tau Alpha, the seventh oldest national honorary society, founded to recognize and promote academic excellence and scholarship in journalism and mass communication.

Students must rank in the upper 10 percent of their class, must have completed at least five semesters of degree work and must have completed at least nine semester hours in professional skills courses, as defined by the national society.

**Edmund J. James Scholars**

The James Scholar Program, named for the University of Illinois' fourth president, Edmund J. James, focuses on giving high-ability students the opportunity to gain additional knowledge by working closely with instructors.

To remain in good standing as a James Scholar in the College of Media, students must maintain semester and cumulative GPAs of 3.5 and higher, complete at least 14 credit hours for traditional letter grades each semester and complete at least one honors course or project each academic year. Students may choose from taking a Campus Honors Program course, completing an Honors Credit Learning Agreement with a professor in any course, working on an honors project with a College of Media professor as an independent study, or from the pre-approved honors activity list as provided by the honors coordinator to complete the honors requirement. Freshmen must take a College honors course during the spring semester. Students who study abroad will be exempt of the GPA and credit hour requirements during the semester(s) they are
abroad. The honors requirement should be completed the semester the student is on campus.

James Scholars’ academic records are reviewed each summer. If a student has met the stated requirements for each of the two past semesters at the time of the review, he or she will be certified as a James Scholar for the next academic year and the James Scholar designation will be added to his or her transcripts for that academic year. Any student who does not fulfill the requirements will be removed from the James Scholars program. Because James Scholar review takes place once a year, a student who does not meet the requirements in the fall semester will remain in the program for the spring. However, s/he will be dropped during the summer review period and the James Scholar notation will not appear on the transcript for the previous academic year. In order to graduate with the James Scholar designation, all students must have completed a minimum of four honors activities, with at least one being completed each year the student is in the program.

Students entering the College of Media as freshmen are invited to join the James Scholars program during the summer if they rank in the top 20 percent of the College’s incoming class, as determined by an Office of Admissions and Records standard that combines factors such as standardized test scores and high school GPA.

Students already in the College of Media are invited to become James Scholars for the upcoming fall semester if they have completed fewer than 75 hours, have at least a 3.5 overall GPA and were included on the Dean’s List for the spring semester. If a student loses the James Scholar status, he or she must sit out of the program for at least one semester before becoming eligible for reinstatement. A student may only be reinstated by making the College’s Dean’s List.

Students who transfer into the College of Media from another college on the Urbana-Champaign campus are invited to participate in the James Scholar program immediately if they were a James Scholar in their previous college or for the upcoming fall semester if they have fewer than 75 hours, are in the top 20 percent of the incoming class, and have at least a 3.5 GPA. On-campus students who transfer into Media during a spring semester would fall under the rules of a current student; see description above. Students who transfer to the College from another institution may request to participate if they have a transfer GPA of at least 3.7.

A qualifying student may enter the program for his or her sophomore or junior year, but not for his or her senior year alone. Students who join the James Scholar program during the sophomore or junior year will need to pick up additional honors activities in order to graduate with the minimum four required to graduate with the honor.

For complete policies and procedures, please see: https://media.illinois.edu/student-honors-and-awards

Credit/No Credit Grading Option

The College follows credit-no credit provisions described in the Grading System and Other Regulations section of the Programs of Study.

All courses listed or cross-listed with departments in the College, or specifically required by one of those departments for its majors or used to fulfill University General Education requirements, must be taken for a traditional letter grade. For Advertising majors, this means these courses outside the College must be taken for a grade: STAT 100 (or any of the allowed substitutes for it), ECON 102-ECON 103, BADM 320, and two out of the three courses PSYC 100, SOC 100 and ANTH 103. For all majors, courses taken to fulfill the College’s advanced hour requirement (20 hours outside the College in courses numbered 200 and above) also must be taken for traditional letter grades.

Departments

- Advertising (p. 572)
- Agricultural Communications (p. 66)
- Journalism (p. 576)
- Media and Cinema Studies (p. 579)
- Cinema Studies (p. 583)
- Public Relations (p. 573)

Advanced Hours Requirement
At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. At least 9 of the 20 hours must be in courses numbered 300 or above.

Please note: Courses used to fulfill University General Education requirements or to fulfill requirements for a minor may count toward these requirements. Courses used to fulfill the College of Media’s advanced outside hours requirement may also count toward these requirements.

124 total hours are required for graduation

1 College Electives must include at least six credits of Advertising elective courses numbered 300 or above for students admitted to the major starting in Fall 2016. Students admitted to the major prior to Fall 2016 are also strongly encouraged to fulfill six credits of Advertising elective courses numbered 300 or above. College of Media elective courses offered by or cross-listed with Agricultural Communications (AGCM), Journalism (JOUR), Media and Cinema Studies (MACS) or the College of Media (MDIA) count toward the remainder.

2 Or another approved basic course or course sequence in statistical methods, which currently include ECON 202, EPSY 280, PSYC 235, SOC 280, SOCW 225. Such courses may, if they qualify, also be credited toward the requirement of advanced hours and General Education courses outside the College.

3 Which may be credited toward the College requirement of advanced hours outside the College.

The Public Relations (PR) minor is designed to provide undergraduate students with a foundational understanding of how public relations practitioners manage relationships between organizations and their stakeholders and manage the reputations of those organizations. Courses within the PR minor will help students develop skills in writing, research, strategic planning, relationship management, and crisis communication that can be applied in business, nonprofit, or government contexts.

Students who plan to pursue careers in public relations, advertising, communications, marketing, or other related fields will find that the PR minor serves as a valuable complement to the courses in their major. Students from other majors who wish to have a better understanding of the role public relations plays in organizations and who wish to sharpen skills in writing, persuasion, strategic planning, and public communication will also benefit from the minor.

The minor requires a minimum of 18 credit hours. Students majoring in Advertising or Journalism must complete at least six hours of advanced course work for the minor distinct from credits earned for their major.

### Foundations of public relations

Courses all students must complete:

- JOUR 200 Introduction to Journalism
- ADV 310 Intro to Public Relations
- ADV 410 Public Relations Strategies

### Writing for public relations and media

3-4 hours

Students must select one course from:

- ADV 350 Writing for Public Relations
- JOUR 210 News gathering Across Platforms
- CMN 220 Communicating Public Policy

### Advanced topics in public relations

6 hours

Students must select two courses from:

- ADV 393 Advertising and Society
- ADV 490 Advanced Special Topics in Advertising
- ADV 494 Persuasion Consumer Response
- JOUR 360 The Media and You
- JOUR 453 Crisis Communications
- JOUR 460 Special Topics
- CMN 321 Strategies of Persuasion
- CMN 377 Propaganda and Modern Society
- CMN 464 Health Communication Campaigns

Total Hours 18-19

1 Will be announced in course description as “Eligible for PR minor.”

ADV Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ADV)

### Courses

**ADV 150 Introduction to Advertising** credit: 3 Hours.

Introduction to the practice and profession of advertising. Course material covers various functional areas of advertising and integrated brand promotion, including account planning, creative, media, research, consumer behavior, sales promotion and interactive advertising. Topics also include how advertising relates to society in cultural, social, ethical and regulatory contexts. Open to all undergraduate majors. Credit is not given for ADV 150 if credit for ADV 300 has been earned.

**ADV 199 Undergraduate Seminar** credit: 1 to 5 Hours.

May be repeated to a maximum of 12 hours in separate semesters, if topics vary.

**ADV 281 Advertising Research Methods** credit: 3 Hours.

Introduces students to the wide spectrum of qualitative and quantitative research techniques that are commonly used in the advertising industry. In addition to examining the principles, methods and techniques of advertising research, the course will address issues such as when research should and should not be conducted, analyzing data sets, forming meaningful research questions, figuring out how to answer the questions, and presenting the answers to these questions in a clear and compelling manner. Credit is not given for ADV 281 if credit for ADV 481 has been earned. Prerequisite: ADV 150, STAT 100 or equivalent.

**ADV 283 Advertising and Brand Strategy** credit: 3 Hours.

Designed to help students acquire brand decision-making skills. Advertising and marketing theories, practical problems and traditional cases will be studied as they learn to build a strong brand strategy that will lead to a strong brand advertising strategy. This encompasses every facet of making advertising decisions for a brand. This involves understanding the content a consumer requires, how the consumer will come in contact with the brand, and what is the goal of the connection between consumer and content/contact. Prerequisite: ADV 150, ADV 281.

**ADV 284 Consumer Insight** credit: 3 Hours.

Course focuses on methods of eliciting consumer insight. In particular, this class introduces the process and applied outcomes of consumer insight in terms of building brand strategy. Techniques for persuasive presentation of insight will also be introduced. Prerequisite: ADV 281.

**ADV 290 Special Topics in Advertising** credit: 1 to 3 Hours.

Designed to offer freshmen and sophomores opportunity to take courses in advertising’s most recent developments. May be repeated to a maximum of 12 hours in separate terms, if topics vary.
**ADV 310** Intro to Public Relations  credit: 3 Hours.
Introduces the student to the practice and profession of public relations. Course material covers topics such as the history of public relations, the role of law and ethics in public relations, and theories that guide public relations research and practice. The course will also introduce roles played by public relations practitioners within organizations, such as media relations, consumer relations, employee relations, community relations, and investor relations.

**ADV 311** Classic Campaigns  credit: 3 Hours.
Analyzes the most recognized and successful direct mail, print, radio, television and digital advertising campaigns of the 20th and early 21st centuries. Includes particular attention to their strategy and development as well as their social, cultural, and economic impact.

**ADV 312** Advertising History  credit: 3 Hours.
In this course, you will develop a rich knowledge base of advertising and the advertising industry as it has evolved in the United States over the last two centuries. Included will be an analysis of the key events, forces, people and technology. Credit is not given for ADV 312 if credit for ADV 412 has been earned.

**ADV 315** Emerging Media  credit: 3 Hours.
Same as AGCM 315. See AGCM 315.

**ADV 350** Writing for Public Relations  credit: 3 Hours.
Focuses on the strategy of crafting and delivering PR messages to various audiences with special emphasis on pre-writing, preparation, revision and presentation. Prerequisite: ADV 310.

**ADV 390** Content Creation  credit: 3 Hours.
Explores theories of creativity; situates creativity and creative practices within the social structure of organizations that develop creative content; examines the relationship between creative strategy, creative concepts and creative executions; exposes students to the practice of creating content for traditional and non-traditional media vehicles. Credit is not given for ADV 390 if credit for ADV 450 has been earned. Prerequisite: ADV 284.

**ADV 393** Advertising and Society  credit: 3 Hours.
Provides a critical understanding of advertising's role in modern society. Advertising will be studied as a cultural force and social institution. Its role will be examined in relation to communications, economics, and political and legal systems. Credit is not given for ADV 393 if credit for ADV 493 has been earned.

**ADV 396** Research Experience in Advertising  credit: 1 to 3 Hours.
Supervised participation in research and scholarly activities, usually as an assistant to an investigator. Approved for Letter and S/U grading. May be repeated to a maximum of 9 hours. Prerequisite: ADV 150, ADV 281, or written consent of instructor.

**ADV 399** Advertising Study Abroad  credit: 1 to 5 Hours.
Provides credit toward undergraduate degree for undertaking study and/or a research project through faculty led programs or from an accredited foreign institution or approved overseas program. Approved for both letter and S/U grading. May be repeated in the same or separate terms to a maximum of 18 hours. Final determination of appropriate credit will be made upon completion of the work done abroad and/or on campus. Prerequisite: One academic year (or one semester in the case of transfer students) in residence at UIUC, good academic standing, completion of at least thirty semester hours toward the bachelor’s degree, and prior approval of the Department of Advertising. Some programs have additional requirements.

**ADV 400** Special Problems  credit: 0 to 3 Hours.
Special projects, research, and independent reading in advertising for students capable of individual work under the guidance of a faculty adviser. 0 to 3 undergraduate hours. No graduate credit. May be repeated in the same or in multiple semesters, if topics vary. Prerequisite: Written research proposal and consent of department.

**ADV 409** Media Entrepreneurship  credit: 3 Hours.
Introduces students to the foundations of entrepreneurship and evolving business models for media. Students are introduced to the foundation and context of entrepreneurship. The course will cover the skills and practices necessary for new entrepreneurial ventures, as well as the processes of evaluating an idea, assessing the market, and implementing a new venture. Finally, students will examine business case studies for both successful and unsuccessful media start-ups. 3 undergraduate hours. No graduate credit. Prerequisite: Junior or senior standing in the College of Media.

**ADV 410** Public Relations Strategies  credit: 3 Hours.
Examines the intersection of public relations strategies and communication tactics used by organizations to meet reputation and relationship management objectives with relevant publics and stakeholder groups, such as journalists, consumers, employees, investors, government officials and agencies and community members. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 310.

**ADV 452** Creative Concepts I  credit: 3 or 4 Hours.
Planning and execution of advertising across media, with emphasis on the creation of campaigns 3 undergraduate hours. 4 graduate hours. Prerequisite: ADV 390 and consent of instructor (required).

**ADV 454** Creative Concepts II  credit: 3 Hours.
This portfolio-oriented course builds upon the core competencies acquired in ADV 452 and applies them to solving real-world advertising problems with integrated creative consumer communications efforts than span traditional and new media. 3 undergraduate hours. 3 graduate hours. Prerequisite: ADV 452.

**ADV 460** Innovation in Advertising  credit: 3 Hours.
This course is intended to improve creative and critical thinking skill in advertising planning by understanding the core technology and perspective of digital and other innovative media in the context of integrated communication. This will allow students to understand how consumers perceive and process digital advertising messages; to research critical questions in digital consumer behavior; to learn how to utilize digital and non-digital media in the context of integrated communication; to apply knowledge of digital communication technology to the real-world advertising cases. 3 undergraduate hours. 3 graduate hours. Credit is not given for ADV 460 if credit for the Digital Advertising section of ADV 490 has been earned. Prerequisite: ADV 283, ADV 284.

**ADV 461** Computational Advertising  credit: 3 Hours.
This class will survey the emerging landscape of computational advertising. It will provide students with a thorough understanding of the technologies including web-search, auctions, behavioral targeting, and mechanisms for viral marketing that underpin the display of advertisements on a variety of locations. These locations include web pages (banner ads), on prominent search engines (text ads), on social media platforms, as well as cell phones. The students shall also learn about new research areas in computational advertising including electronic billboards, moving objects (banners atop taxi cabs) and algorithmic synthesis of personalized advertisements. This class will also discuss issues related to consumer privacy. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 460, ADV 483. Junior or senior standing required.
ADV 475 Multicultural Advertising  credit: 3 Hours.  
Examines the role of multicultural issues upon advertising both as a practice and as an industry. Incorporates historical perspectives to understand the foundational role race, age, and sexual orientation has played in advertising and marketing and will address current issues of racial imagery in advertising, racial diversity in the industry, and a variety of topics related involving multicultural advertising and marketing. 3 undergraduate hours. 3 graduate hours.

ADV 476 Global Advertising  credit: 3 Hours.  
Explores theories of culture and communication and applies them to advertising issues in the context of globalization. Through case studies and an applied research paper, students will develop strategies for advertising and communicating messages to local and global audiences. 3 undergraduate hours. 3 graduate hours. Prerequisite: ADV 150 or equivalent.

This course satisfies the General Education Criteria for:  
UIUC: Social Sciences  
UIUC: Western Compartv Cult

ADV 478 Psychology of Advertising  credit: 3 Hours.  
Course is designed to familiarize students with theory and research at the intersection of advertising and psychology. Explores issues pertaining to advertising psychology, including: basic research methodology, the emergence of trends, attitudes and persuasion, human and brand personality, cross-cultural advertising, implicit consumer cognition, judgment and decision making, and others. 3 undergraduate hours. No graduate credit. Credit is not given for ADV 478 if credit for the Psychology of Advertising section of ADV 490 has been earned. Prerequisite: ADV 281 or equivalent.

ADV 481 Advertising Research Methods  credit: 3 Hours.  
Overview of basic concepts of research methodology with particular emphasis on advertising research. Computer analysis and interpretation of actual data sets; measurement with both structured and unstructured techniques; principles of survey and experimental design. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 150 and a specified course in statistical methods.

ADV 482 Qualitative Analysis in Advert  credit: 3 Hours.  
Provides students with an understanding of the multiple qualitative methods used in advertising and consumer research; a deeper examination of design and analysis issues are covered with focus on analysis of texts to uncover consumer insights and test advertising strategy. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 150 and ADV 281 or equivalent.

ADV 483 Audience Analysis  credit: 3 Hours.  
Analyzes audiences and matches consumer insights with strategic ideas for brand communication, contact, and connection. 3 undergraduate hours. No graduate credit. Prerequisites: ADV 283 and ADV 284.

ADV 484 Quantitative Research Methods  credit: 3 Hours.  
Advanced undergraduate course on quantitative research methods in advertising and consumer behavior. In-depth coverage of descriptive research, experimental research, descriptive and inferential statistics, and computer analysis and interpretation of actual data. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 281.

ADV 490 Advanced Special Topics in Advertising  credit: 1 to 3 Hours.  
Covers current issues in various advertising areas not studied extensively in other courses. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated in the same or separate terms to a maximum of 6 hours. Prerequisite: Announced separately for each topic.

ADV 491 Advertising Management Plan  credit: 3 Hours.  
Application of analytical planning concepts to advertising planning and decision making; covers all of the decision making areas of advertising. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 290, ADV 483.

ADV 492 Tech and Advertising Campaigns  credit: 3 Hours.  
With the maturation of the internet as an advertising and media channel, advertising, journalism, and communications students need to know more about technology and how that impacts their messages and designs. Likewise, computer scientists could benefit from knowledge of what the end user is looking for when designing web content, applications and other web-based media. Students in this course will gain design knowledge as well as a hands-on experience in completing a technology-driven advertising campaign. Students will participate in engineering, advertising and project management activities with individual as well as team responsibilities. Same as CS 468. 3 undergraduate hours. No graduate credit. Credit is not given for ADV 492 and ADV 498. Prerequisite: CS 225 or consent of instructors. Junior or senior standing in Advertising or Computer Science.

ADV 493 Persuasion Consumer Response  credit: 3 Hours.  
Addresses what makes a mass-mediated message persuasive by reviewing theories of mass communication and persuasion, consumer information-processing, and advertising effectiveness measures. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 281.

ADV 494 Internship Seminar  credit: 0 to 1 Hours.  
Seminar based on internship experience. Offered for College of Media students who complete an approved professional, industry related internship. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours or 2 graduate hours. May be repeated in subsequent terms to a maximum of 3 undergraduate hours or 3 graduate hours. Prerequisite: Consent of instructor.

ADV 495 UG Research Project  credit: 1 to 3 Hours.  
Supervised investigation of student-driven research on special topics related to advertising in individual or collaborative format. Topic and nature of research may vary. Capstone paper required. Type of course: Lecture-discussion 1 to 3 undergraduate hours. No graduate credit. May be repeated up to 3 hours in the same term or 6 hours in separate terms, if topics vary. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head. Restricted to majors only. Not available to freshman.

ADV 497 Colloquium in Advertising  credit: 1 Hour.  
Current topics, cases, and research in advertising are presented in a forum that fosters critical thinking and engagement. Weekly presentation and discussion of current research and cases by faculty, undergraduate/graduate students, visiting scholars and visiting professionals. 1 undergraduate hour. No graduate credit. Approved for S/U grading only. May be repeated up to 2 hours in separate terms, if topics vary. Prerequisite: ADV 281 and consent of instructor.

ADV 498 The Sandage Project  credit: 3 Hours.  
This course is named after the founder of the Advertising Department, Charles H. Sandage (known as the "father of advertising education"). His vision of educating the future of the industry was grounded in theoretical and foundational courses emphasizing the "why of advertising" - not just the "how." In this course, students will integrate the concepts, experiences, and skills that have been learned in the curriculum with a service-learning project. 3 undergraduate hours. No graduate credit. Prerequisite: ADV 283, ADV 390 and ADV 460 or consent of instructor.
For the Degree of Bachelor of Science in Journalism

To graduate from the Department of Journalism, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade and for which all pre-requisites will be enforced:

**Core Curriculum**

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 200</td>
<td>Introduction to Journalism</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 210</td>
<td>Newsgathering Across Platforms</td>
<td>4</td>
</tr>
<tr>
<td>JOUR 215</td>
<td>Multimedia Reporting</td>
<td>4</td>
</tr>
<tr>
<td>JOUR 311</td>
<td>Media Law</td>
<td>3</td>
</tr>
</tbody>
</table>

One of the following three-course sequences (12 hours minimum):

- **News-Editorial**
  - JOUR 315: Adv Public Affairs Reporting                                     | 4     |
  - JOUR 320: News Editing                                                     | 4     |
  - JOUR 425: Multimedia Editing and Design                                    | 4     |
- OR
  - **Broadcast**
    - JOUR 335: Audio Journalism                                               | 4     |
  - JOUR 340: Video Reporting & Storytelling                                   | 4     |
  - JOUR 445: Video Storytelling 2-Producing                                   | 4     |

**College of Media Electives**

College Electives must include at least three 3- or 4-hour Journalism courses numbered 200 or above and not cross-listed with other departments (12 hours minimum) must be taken. Courses in the sequence not chosen may be used to fulfill this requirement. Remaining College of Media elective hours offered by or cross-listed with Advertising (ADV), Agricultural Communications (AGCM), Journalism (JOUR), Media and Cinema Studies (MACS) or the College of Media (MDIA) count in this total.

**Hours outside the College of Media (72 hours minimum)**

Special Department Requirements

Including at least six hours in each of these seven areas:

- Economics
- Literature (ENGL/CWL) but no film courses
- History
- Philosophy
- Political Science
- Sociology or Anthropology
- Natural Science or Technology

Two Areas of Specialization

12 hours in each of two specialized areas outside the College of Media

Advanced Hours Requirement

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. 9 of the 20 hours must be in courses numbered 300 or above.

Please note: Courses used to fulfill University General Education requirements or to fulfill requirements for a minor may count toward these requirements. Courses used to fulfill the College of Media’s advanced outside hours requirement may also count toward these requirements.

Free electives to reach minimum required for graduation 0-8

Minimum total hours required for graduation 124

1. Must be taken one at a time and in sequence

JOUR Class Schedule [https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JOUR](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JOUR)

**Courses**

**JOUR 199 Undergraduate Open Seminar** credit: 1 to 3 Hours.

A changing array of courses focusing on special topics in journalism. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours in separate semesters, if topics vary.

**JOUR 200 Introduction to Journalism** credit: 3 Hours.

Discussion of the history, freedom, technologies, ethics, and functions of the news media. Training in clear, descriptive writing techniques, using journalistic models. Prerequisite: Completion of Composition I general education requirement.

This course satisfies the General Education Criteria for: UIUC: Advanced Composition

**JOUR 205 History of American Journalism** credit: 3 Hours.

Surveys the history of the field of journalism since pre-colonial times. Includes the evolution of the media in the United States and the evolution of cultural concepts concerning the media, including rights granted under the First Amendment. Credit is not given for JOUR 205 if credit for JOUR 405 has been earned.

**JOUR 210 Newsgathering Across Platforms** credit: 4 Hours.

Fundamentals of journalistic reporting and writing across print, broadcast and digital platforms. Credit is not given for JOUR 210 if credit for JOUR 400 has been earned. Prerequisite: JOUR 200.

**JOUR 215 Multimedia Reporting** credit: 4 Hours.

Designed to acquaint students with the fundamentals of digital photography, video, audio and multimedia as it applies to journalism. Instruction will include conceptual frameworks and techniques to create multimedia journalism content; the conception, planning and creation of multimedia projects; coverage of events with audio, video and photographs; the technical and creative aspects of digital photography, video, and multimedia; delivery platforms for multimedia content including the Web and evolving communication technologies. Credit is not given for JOUR 215 if credit for JOUR 410 has been earned. Prerequisite: JOUR 210 or consent of Journalism Department.
JOUR 250 Journalism Ethics & Diversity credit: 3 Hours.
Focuses on media decision-making and news judgment, specifically ethics and diversity in news gathering with regard to scope, privacy, bias, economic concerns, and accountability. Examines real-life news decisions and the thoughts of journalists who lived through famous and infamous ethics situations. Key provisions in the Society of Professional Journalists Code of Ethics regarding use of diverse voices will be discussed and applied in practical ways, and both students and the instructor will find current examples of ethics issues to present to the class. Diversity education is part of the required standard for achieving journalism accreditation from the discipline's national accrediting body.

JOUR 293 Digital Photography for Everyone credit: 3 Hours.
Foundations of digital photography, techniques to produce photographs; the conception and planning of pictures; the pictorial coverage of locations, events and human interest situations; and the planning and execution of photos in print, on the web and other electronic media are the focus of this hands-on course. You will develop a practical understanding of the potentials and realities of photographic communication to better use them for full expression of your vision. Approved for Letter and S/U grading.

JOUR 311 Media Law credit: 3 Hours.
Detailed analysis of the theories of freedom of expression, the legal doctrines of greatest concern to mass communicators, and contemporary issues related to free speech and press, including libel, copyright, and news-gathering in a digital age. Credit is not given for JOUR 311 if credit for JOUR 411 has been earned.

JOUR 315 Adv Public Affairs Reporting credit: 4 Hours.
Study and extensive practice of in-depth public affairs reporting - its concepts, techniques, traditions, ethics, and social obligations. Credit is not given for JOUR 315 if credit for JOUR 415 has been earned. Prerequisite: JOUR 210.

JOUR 320 News Editing credit: 4 Hours.
Editing and headline writing, news judgment, ethics and leadership. Credit is not given for JOUR 320 if credit for JOUR 420 has been earned.

JOUR 335 Audio Journalism credit: 4 Hours.
Reporting and writing news for audio programs and websites. Credit is not given for JOUR 335 if credit for JOUR 435 has been earned. Prerequisite: JOUR 210.

JOUR 340 Video Reporting & Storytelling credit: 4 Hours.
Introduces news studio and field production and principles of field reporting and editing of news video; principles of planning, producing, and directing news and public affairs programs. Credit is not given for JOUR 340 if credit for JOUR 440 has been earned. Prerequisite: JOUR 335.

JOUR 360 The Media and You credit: 3 Hours.
The course will survey contemporary public relations to clarify several elements: publicity, advertising, branding, press agenty, public affairs, issues management, lobbying, investor relations and development. Students will learn to work with the press and the ethical dimensions of the relationships that form. The course will employ real and hypothetical case studies. Teams will develop strategies to reach a PR goal. Each team will make presentations to be judged by real clients or the instructor and guest judges.

JOUR 361 Readings in Sports Journalism credit: 3 Hours.
Books about sports and sports personalities are perennial best-sellers. Students in this course will read, analyze and discuss long-form sports journalism. Some of the books and stories are considered classics of the form; others may be fairly recent and news-worthy publications. All will represent varied approaches to sports journalism in books, magazines and digital experiments and forms.

JOUR 421 Editing for Publication credit: 3 Hours.
Principles and practice of editing across disciplines. Content includes style, grammar, punctuation, word usage, clarity and brevity. Both print and digital environments are considered. Students will edit text and display copy such as headlines and photo captions. 3 undergraduate hours. 3 graduate hours. Credit is not given for both JOUR 421 and JOUR 320. Journalism majors should enroll in JOUR 320. Prerequisite: Advanced Composition.

JOUR 425 Multimedia Editing and Design credit: 4 Hours.
Principles of visual reporting and editing; seeks to instill application-level competency in a wide array of non-linear, non-narrative techniques of journalistic storytelling across various media. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 215.

JOUR 445 Video Storytelling 2-Producing credit: 4 Hours.
Advanced techniques for reporting, producing, writing, shooting, and editing video news stories and for producing and airing regularly scheduled news programs on deadline. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 340.

JOUR 450 Media and Public Opinion credit: 3 Hours.
Theory of public opinion and communications; relation of communication systems to public opinion, social systems, and the political order. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I.

JOUR 451 Research Methods in Journalism credit: 3 Hours.
Introduction to social science principles of measurement, sampling, statistical inferences and logic of research design in collection, analysis and interpretation of information used in journalism and mass media. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I requirement. JOUR 200 recommended, or graduate standing.

This course satisfies the General Education Criteria for: UIUC: Quant Reasoning II

JOUR 452 Great Books of Journalism credit: 3 Hours.
Books written by journalists have had great impact on U.S. public policy and understanding, covering such topics as corporate power, political corruption, rural poverty, the atomic bombing of Japan, Watergate, and a soldiers-eye view of war. From hard-edged investigations to nonfiction literature, the readings broaden and deepen understanding of the power and purpose of journalism beyond breaking news and celebrities. Readings from eight groundbreaking books, assessment of social and professional impact, ethical issues, reporting and writing approaches, and extensive class discussion. 3 undergraduate hours. 3 graduate hours. This course satisfies the General Education Criteria for: UIUC: Literature and the Arts
UIUC: US Minority Culture(s)
JOUR 453 Crisis Communications credit: 3 Hours.
Students will take on the role of a public relations/public affairs officer to learn how to deal with the media when managing a crisis for a client, whether a multinational corporation or a professional athlete. Students will use case studies of actual events to examine how the media dealt with the crisis. Students will get a look at the inner workings of a major PR firm devoted to telling the truth while managing the message. 3 undergraduate hours. 3 graduate hours.

JOUR 454 Propaganda & the News Media credit: 3 or 4 Hours.
The course examines techniques and processes of propaganda in a democratic society. It draws from contemporary theories of influence and persuasion to identify propaganda in the context of modern journalism, to delineate differences between propaganda and information, and to assess the impact of propaganda on democratic decision making in the digital age. Particular attention is given to the news media practices and consumption patterns that unwittingly facilitate strategies of modern propagandists. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior, Senior or Graduate standing.

JOUR 460 Special Topics credit: 1 to 4 Hours.
A changing array of special projects, research or reading in journalism. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or subsequent semesters if topics vary.

JOUR 470 International Reporting credit: 3 Hours.
Role of international news in daily lives. Examines those who report it and those who pioneered it. Students monitor how U.S. and international media cover selected countries and learn how to write international news. In selected semesters, students may research issues and life in a foreign country in preparation for an international reporting trip. 3 undergraduate hours. 3 graduate hours.

JOUR 471 Science Journalism credit: 3 Hours.
Students will explore media coverage of science. They will examine the interconnections of scientific advances and public understanding. The seminar format will allow students to interview scientists and journalists, to discuss work, and to become science communicators. Subject matter of reporting projects will be determined by the background and interests of the students. Field trips and Illinois science will be featured. 3 undergraduate hours. 3 graduate hours.

JOUR 472 Business Reporting credit: 3 Hours.
Learning to follow the money is a key part of covering corporate America, professional sports or Hollywood. No need to fear financial statements: This course shows you easy methods to pick them apart and turn them into smart stories. Students learn to report and write stories using the Wall Street Journal's feature methods. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210 or JOUR 400. Journalism or Agricultural Communications major(s). Restricted to students with Sophomore, Junior, Senior, or Graduate class standing.

JOUR 475 Magazine Writing credit: 3 Hours.
Preparation of feature stories and articles: techniques of marketing, market analysis, and publishing articles written in the course. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210.

JOUR 480 Advanced Reporting Topics credit: 3 Hours.
Advanced reporting projects or techniques, with separate sections for a varying array of topics such as investigative reporting, immersion journalism, literary journalism, business and financial journalism, online publishing, radio news features, sports writing, broadcast documentary production, digital journalism, and photo journalism. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary. Prerequisite: JOUR 210.

JOUR 481 Literary Feature Writing credit: 3 Hours.
Course focuses on concept, reporting practice, and ethics of literary approaches to create evocative, story-like journalism articles. Students report and write a single in-depth story that will be re-reported and re-written three times. Includes extensive readings illustrating the finest literary journalism. The class includes extensive self, class and professor criticism and editing. Articles for this class have been published in the News-Gazette and other publications. An archive of published stories can be found at intimatejournalism.com. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210. Journalism majors only.

JOUR 482 Immersion Journalism credit: 3 or 4 Hours.
The interview methodology students learn is seen as the best way to provide the ethnographer/writer/reporter with insight into social phenomena. The methodology can be used to examine living conditions, family history and attitudes of ethnic groups at any class level -- wealthy, affluent, middle class, poor or underclass. Students with insatiable curiosity about behavior will be able to extract from participants surprising revelations about their needs, desires and motivations. Students will learn how personalities, circumstances, and choices made by participants' parents and forebears affect the participant's life today. Same as AFRO 482. 3 undergraduate hours. 4 graduate hours. Prerequisite: Juniors, Seniors and Graduate students of any discipline.

JOUR 483 Investigative Journalism credit: 3 Hours.
The investigative methodology students learn is seen as the best way to provide the producer/editor/reporter with insight into social issues, government and businesses practices and systems. The methodology can be used to examine topics or issue. Students will use data, documents, interviews and field observation to collect information, do basic data analysis, test hypotheses, and produce stories in text, audio, or video or all. Students will learn how to do deep research, organize complex material, and produce presentations that are easy for the public to understand. 3 undergraduate hours. 3 graduate hours.

JOUR 490 Professional Project credit: 3 Hours.
Individual and team-produced advanced enterprise projects in specialized fields. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary.

JOUR 495 Internship Seminar credit: 0 to 1 Hours.
Seminar based on internship experience. Offered for College of Media students who complete an approved professional, industry related internship. 0 to 1 undergraduate hours. 0 to 1 graduate hours. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours or 2 graduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours or 3 graduate hours. Prerequisite: Consent of instructor.

Media and Cinema Studies

Dr. C. L. Cole, Department Head
119 Gregory Hall, 810 South Wright Street, Urbana
PH: (217) 333-1549
https://media.illinois.edu/degrees/media-and-cinema-studies-bs/undergraduate-programs

The Department of Media and Cinema Studies in the College of Media offers a B.S. Degree in Media and Cinema Studies with two concentrations, Media Studies and Cinema Studies. Students from outside the College can earn an undergraduate Minor in Cinema Studies and a graduate Minor in Cinema Studies. College of Media students may not pursue the Minor in Cinema Studies.
For the Degree of Bachelor of Science in Media and Cinema Studies

To graduate from the media and cinema studies curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses:

- Media Studies Concentration (p. 583)
- Cinema Studies Concentration (p. 582)

Minor in Cinema Studies

The Minor in Cinema Studies provides undergraduate students with certain core courses in the discipline while also allowing them the freedom to explore the various approaches to the subject presented by different departments.

The Minor in Cinema Studies requires a minimum of 21 hours distributed over seven courses as follows. At least six hours of advanced (300 or 400) level courses must be included:

MACS 320  Popular Culture
MACS 331  Media and Democracy
MACS 351  Social Aspects of Media
MACS 410  Media Ethics

Two additional courses on film offered by or cross-listed with MACS, other than those used to fulfill the requirements above. A list of approved courses is maintained by the department.

MACS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MACS)

Courses

MACS 100  Intro to Popular TV & Movies  credit: 3 Hours.
The goal of this course is for students to begin to develop a critical understanding of the role of popular movies and television in their own lives and in U.S. culture. The course looks at issues of the relationship of media to social violence, gender identities, sexual identities, adolescents, minority cultures, and the role of the U.S. media globally. It also considers some of the major media genres that characterize U.S. popular television and movies.

This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts
- UIUC: Western Comp/TV Cult

MACS 101  Intro to the Media  credit: 3 Hours.
Introduces students to core issues in communication, ranging from the role of language in human history to political questions posed by electronic and digital technologies. Exploring key contemporary problems through timely readings, students learn and write about how the media affect everyday life. Prerequisite: Freshman or sophomore standing.

This course satisfies the General Education Criteria for:
- UIUC: Advanced Composition

MACS 104  Intro to Film  credit: 3 Hours.
Same as ENGL 104. See ENGL 104.

This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts

MACS 117  Shakespeare on Film  credit: 3 Hours.
Same as ENGL 117. See ENGL 117.

This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts

MACS 166  Contemporary Media Literacy  credit: 3 Hours.
Develops skills to assess the importance of new media in contemporary culture. The course emphasizes both social and technical aspects of media. As part of the course, students prepare their own media and evaluate current media literacy projects. Prerequisite: Freshman or sophomore standing.

This course satisfies the General Education Criteria for:
- UIUC: Social Sciences

MACS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.
May be repeated to a maximum of 12 hours in separate semesters if topics vary.

MACS 202  Social Aspects Info Tech  credit: 3 Hours.
Same as INFO 202 and IS 202. See INFO 202.

This course satisfies the General Education Criteria for:
- UIUC: Social Sciences

Information listed in this catalog is current as of 03/2017
MACS 203 Contemporary Movies credit: 3 Hours.
Provides a critical context for recent international cinema by exploring several kinds of genres, aesthetics, and technologies. We will discuss transnational trends in cinema relating to the influence of other media such as gaming, social networking, and personal electronics, as well as consider impacts of economic structures of global filmmaking production and exhibition. We will view popular and art movies, and query longstanding categories such as the teen pic, “woman’s” film, and documentary.

MACS 205 Introduction to Documentary credit: 3 Hours.
This course introduces students to one of the fastest growing areas in media today: the documentary. It's designed for students who want to expand their knowledge and appreciation of documentaries in all their forms. Using weekly in-class screenings, discussion, readings, ad writing, students will examine a wide variety of documentaries, looking at their styles, purposes, and storytelling “voices”, as well as learning the language and other fundamentals of documentary. We will also cover some of the basic methods involved in planning and creating a documentary. Please note: this is NOT a hands-on production course. Prerequisite: Sophomore standing or above required.

MACS 207 Indian Cinema in Context credit: 3 Hours.
Same as CWL 207. See CWL 207.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

MACS 211 Intro to African-American Film credit: 3 Hours.
Examination of the history, theory, and aesthetics of African-American filmmaking from the silent era to the present. Films are analyzed within their sociocultural contexts, with particular attention to how constructions of race, identity, and community interact with class, gender, and sexuality; and the link between film and other forms of Black expressive culture. The impact of African-American film on popular culture, links to the African Diaspora, and relations with other communities of color will also be discussed. Same as AFRO 211.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

MACS 224 Sportsmedia Technology & Culture credit: 3 Hours.
This course is designed for students who are curious about (a) how new technologies are changing sportsmedia culture, and (b) the kinds of knowledge and skills needed to effectively engage with this powerful cultural and economic industry. We'll use four primary focal points (ESPN, Sport Fandom, Action-Sports, Data Production / Smart Stadiums) to help us understand today's sportsmedia culture's challenges and possibilities, and the kinds of challenges and possibilities that the sportsmedia cultural industry creates for society. We'll also use our course focal points and related industry websites to concretize the key concepts (drawn from theoretical readings and applied studies in media studies, sociology, sport studies, and technology studies).

MACS 227 Studies in Black Television credit: 3 Hours.
Same as AFRO 227. See AFRO 227.

MACS 250 Latina/os on the Bronze Screen credit: 3 Hours.
Same as LLS 250. See LLS 250.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

MACS 261 Survey of World Cinema I credit: 3 Hours.
Survey of the development of equipment, techniques, and themes of the cinema from its origins through the coming of sound; lectures, discussions, and showings of selected films.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

MACS 262 Survey of World Cinema II credit: 3 Hours.
Survey of the development of equipment, techniques, and themes of the cinema from the coming of sound to the present; lectures, discussions, and showings of selected films.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

MACS 264 Creative and Information Economies credit: 4 Hours.
An introduction to the political economy of the media in the U.S. The purpose of the class is to acquaint students with a core understanding of how the media system operates, and with what effects, in a capitalist society. The course examines the role of advertising, public relations, corporate concentration, and government regulation upon journalism, entertainment culture, and participatory democracy. The class also examines issues such as the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for:
UIUC: HistPhilos Perspect
UIUC: Western CompArtV Cult

MACS 273 American Cinema Since 1950 credit: 3 Hours.
Same as ENGL 273. See ENGL 273.

MACS 275 Am Indian and Indigenous Film credit: 3 Hours.
Same as AIS 275 and ENGL 275. See AIS 275.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

MACS 295 Intro Media/Cinema Topics credit: 3 Hours.
Introduction to the study of special topics in media and cinema studies, including cultural, social, historical, economic, and/or political issues in media and/or cinema. Topics vary but may include: genres, stars, historical movements, thematic studies, television, convergence culture, new media. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary.

MACS 300 Topics in Film and History credit: 3 Hours.
Same as HIST 300. See HIST 300.

MACS 317 Media History credit: 3 Hours.
Presents the nature and development of communication systems; history of communication media; history of journalism, advertising, and broadcasting; and communications in the modern world.

MACS 320 Popular Culture credit: 3 Hours.
Examines the critical literature on mass media entertainment; reviews significant contemporary issues and develops perspectives for understanding popular culture.

MACS 321 Film Culture credit: 3 Hours.
Introduces students to key issues of, major theoretical approaches to, and current debates about the cultural function of films. Course addresses theories of spectatorship, the politics of pleasure, the culture of entertainment, and the cinematic construction of race, class, and gender.
This course satisfies the General Education Criteria for:
UIUC: Western CompArtV Cult

MACS 322 Politics and the Media credit: 3 Hours.
Same as CMN 325 and PS 312. See PS 312.
MACS 323 Studies Film/Media Production credit: 1 to 3 Hours. Provides analytical framework for pursuing film/media production. Emphasizes critical analysis of various aspects of production: e.g., scriptwriting, storyboarding, cinematography, editing, set and costume design, location and studio shooting, sound. Covers theories of representation, narrative, meaning-making, experimentation, and audience in relation to film/media production practices. Does not, however, teach students how to do film and media production (e.g., how to work a camera, etc.). Therefore, students must come to the course with experience in film and/or media production (can be self-taught). Both individual and group projects are encouraged. Students should expect to work as crew for other students in class. Culminates in a public screening at which students present an analysis of their own project—both the process and the finished product. To apply for course, students (individually or in groups) must propose an idea or concept for a film/media project they would like to produce during the class. May be repeated in separate terms to a maximum of 6 hours. May be repeated by students who wish to pursue a longer project in two consecutive semesters (may include summer). Students may not repeat the course to pursue separate projects. Prerequisite: Consent of instructor.

MACS 326 New Media, Culture & Society credit: 3 Hours. Digital media is an immensely pervasive and powerful form of communication that despite its rapid growth has yet to reach most of the world's population. This lecture-based survey course for undergraduates traces the history and formation of personal computing and the Internet, the development of virtual communities and virtual worlds, evolving forms of digital representation and communication, digital visual cultures, features of new media industries, and the rise of participatory media. Evaluation and assessment is based on written exams, quizzes, class discussion in section, and practice-based assignments using new media technologies such as wikis, blogs, games, and digital video. Emphasis is on mastering key concepts of digital media through theory and history, and on critical discussion of distinctive features of digital media objects. Lectures and discussion sections are held in computer-equipped classrooms. Same as INFO 326.

MACS 331 Media and Democracy credit: 3 Hours. Studies the philosophical bases of the functions and the responsibilities of mass communications.

MACS 335 Film, TV, and Gender credit: 3 Hours. Same as GWS 335. See GWS 335.

MACS 345 Digital & Gender Cultures credit: 3 Hours. Same as GWS 345, INFO 345, and SOC 345. See GWS 345.

MACS 346 Case Study: Endless Summer credit: 3 Hours. Same as KIN 346 and RST 346. See KIN 346.

MACS 351 Social Aspects of Media credit: 3 Hours. Explores media structures in relation to cultural content and social functions; examines problems of life and society as treated in mass-produced communications. Same as SOC 351.

MACS 352 Attitude Theory and Change credit: 3 Hours. Same as PSYC 352 and SOC 300. See PSYC 352.

MACS 356 Sex & Gender in Popular Media credit: 3 Hours. Examines the notion that the mass media influence our development as gendered individuals, looking at those who argue for and against this notion. Considers different forms of feminist theory applied to the study of mass media, the history and scholarly criticisms of the media and their portrayal of women, and feminist attempts to create alternatives to mainstream media images. Throughout, the course considers representation of minorities in the dominant media and examines newly created alternative representations. Same as GWS 356. This course satisfies the General Education Criteria for: UIUC: Western Compavt Cult

MACS 361 Film Theory and Criticism credit: 3 Hours. Study of major aesthetic and critical theories about film; study of theory and practice of film criticism.

MACS 364 Topics in Media Business credit: 3 Hours. Addresses the business, industry, and economic implications of the interaction of Internet, television, radio, film, and print outlets through digitization-driven platform and interactive technologies. Explores historical and emergent business models, ownership and work patterns, and investment arrangement related to media convergence. Investigates novel forms of individual and collective labor structures and globally distributed modes of production and consumption. Includes attention to economic and scholarly models seeking to analyze media business structures. Specific topics vary by semester, but may include Google, Disney, and Hollywood studio system, or activist media organizations. May be repeated for a maximum of 6 hours if topics vary.

MACS 365 Asian American Media and Film credit: 3 Hours. Same as AAS 365. See AAS 365.

MACS 373 Special Topics in Film Studies credit: 3 Hours. Same as ENGL 373. See ENGL 373.

MACS 375 Latina/o Media in the US credit: 3 Hours. Examines the portrayal and participation of Latinas and Latinos in the U.S. media using a variety of interdisciplinary approaches. Addresses historical and political movements that have been critical to Latina/Latino print, broadcast, and electronic communication within the broader context of cultural diversity. Same as LLS 375.

MACS 377 Global Communications credit: 3 Hours. Introduces students to the multiple dimensions of cross-national and comparative communications. Specific topics will vary according to instructor's focus, but may include human dimensions of global communication, intercultural communication, media impact, structure and processes of institutional communication (i.e. propaganda, diplomacy).

MACS 381 Black Women and Film credit: 3 Hours. Same as AFRO 381. See AFRO 381.

MACS 382 French & Comparative Cinema I credit: 3 Hours. Same as CWL 387, FR 387, and HUM 387. See FR 387.

MACS 383 French & Comparative Cinema II credit: 3 Hours. Same as CWL 389, FR 389, and HUM 389. See FR 389.

MACS 389 International Communications credit: 3 Hours. Provides an interdisciplinary approach to international communications; its structure and content; the role of international communications in conflict and conflict resolution; the semantics of international communication; the technical and economic aspects of international mass communications; and government-industry relations in communications. Same as PS 389.
**MACS 391** Individual Study credit: 0 to 3 Hours.
Individual research and exploration of media and cinema studies topics under the guidance of a faculty advisor. May be repeated in the same or in multiple semesters, if topics vary. Prerequisite: Consent of instructor.

**MACS 395** Special Media/Cinema Topics credit: 3 Hours.
Cultural, social, historical, economic, and/or political issues in media and/or cinema; topics vary but may include: genres, historical movements, thematic studies, television, convergence culture, new media. May be repeated to a maximum of 6 hours if topics vary.

**MACS 408** TV Studies credit: 3 or 4 Hours.
Examines factors reshaping TV and its relationship to culture, including genres, industry practices (advertising, production, distribution), new media technologies (YouTube, Twitter, and newer developments), and computer gaming. Analyzes places/spaces of television, mobility, surveillance, television as instruction/guide (dating, cooking, fashion), citizenship, consumption, and TV in everyday life. Focuses on contemporary aspects of TV, with some attention to earlier forms and practices of television. Students required to view and analyze some television programs outside of class. 3 undergraduate hours. 4 graduate hours.

**MACS 410** Media Ethics credit: 3 or 4 Hours.
Surveys the major ethical problems in news, advertising, publications and entertainment media; includes case studies and moral reasoning on confidentiality, privacy, conflicts of interest, deception, violence, and pornography. 3 undergraduate hours. 4 graduate hours.

**MACS 419** Russian & East European Film credit: 3 or 4 Hours.
Same as SLAV 419. See SLAV 419.

**MACS 423** Language Acquisition credit: 3 or 4 Hours.
Same as LING 423 and PSYC 423. See PSYC 423.

**MACS 425** Intro to Psycholinguistics credit: 3 or 4 Hours.
Same as LING 425. See LING 425.

**MACS 432** Commodity Difference credit: 3 or 4 Hours.
Same as AAS 435, AFRO 435, GWS 435, and LLS 435. See LLS 435.

**MACS 461** Politics of Popular Culture credit: 3 or 4 Hours.
Same as AIS 461. See AIS 461.

**MACS 464** Film Festivals credit: 3 or 4 Hours.
Examines the history and significance of film festivals: What they mean for the film industry (marketing, distribution, production), audiences (both at the festival and beyond), film history, and the evolution of filmmaking. Covers specific local, national, and international festivals including festivals focused on particular issues (e.g., Chicago International Children’s Film Festival, San Francisco International Asian American Film Festival, Miami Gay and Lesbian Film Festival, and our own local IUB 48-Hour Film Contest). Coordinated with Roger Ebert's Film Festival (which is held in Champaign every April) including internship/volunteer opportunities, screenings, and meetings with guests. Class culminates with a UIUC student film festival, organized, judged, and sponsored by the class. 3 undergraduate hours. 4 graduate hours.

**MACS 466** Japanese Cinema credit: 3 or 4 Hours.
Examines the influence of Japan's traditional aesthetics on its cinema and surveys its major film movements, genres, and directors. Same as EALC 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in the College of Media or East Asian Languages and Cultures, or consent of instructor.

**MACS 470** Topics in Italian Cinema credit: 3 or 4 Hours.
Same as ITAL 470. See ITAL 470.

**MACS 490** Green Screen: Film and Nature credit: 3 or 4 Hours.
Same as EURO 489 and SCAN 490. See SCAN 490.

**MACS 492** Scandinavian Cinema credit: 3 or 4 Hours.
Same as SCAN 492. See SCAN 492.

**MACS 493** German Cinema I credit: 3 or 4 Hours.
Same as GER 493. See GER 493.

**MACS 494** German Cinema II credit: 3 or 4 Hours.
Same as GER 494. See GER 494.

**MACS 495** Internship Seminar credit: 0 to 1 Hours.
Seminar based on internship experience. Offered for College of Media students who complete an approved internship. 0 to 1 undergraduate hours. No graduate credit. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours. Prerequisite: Consent of instructor.

**MACS 496** Advanced Media/Cinema Topics credit: 3 or 4 Hours.
Advanced study of cultural, social, historical, economic, and/or political issues in media and/or cinema; topics vary but may include national and transnational cinemas, directors, genres, historical movements, social and political movements, thematic studies, television, convergence culture, new media. 3 undergraduate hours. 4 graduate hours. May be repeated in the same or separate terms to a maximum of 6 undergraduate hours or 8 graduate hours as topics vary. Prerequisite: One College of Media course or consent of instructor.

**MACS 498** Senior Seminar credit: 3 Hours.
Seminar and tutorial in selected Media and Cinema Studies topics. 3 undergraduate hours. No graduate credit. May be repeated in the same or subsequent semesters to a maximum of 6 hours. Prerequisite: Senior standing, a declared Media and Cinema Studies major, or consent of instructor.

**MACS 499** Senior Thesis credit: 3 Hours.
Individual research for majors in Media and Cinema Studies leading to the completion of a thesis. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing, a declared Media and Cinema Studies Major, and consent of advisor.

124 total hours are required for graduation

Minor in Cinema Studies

Dr. C. Cole, Department Head
The Minor in Cinema Studies provides undergraduate students with certain core courses in the discipline while also allowing them the freedom to explore the various approaches to the subject presented by different departments.

The Minor in Cinema Studies requires a minimum of 21 hours distributed over seven courses as follows. At least six hours of advanced (300 or 400) level courses must be included:

Required Courses:
- MACS 261 Survey of World Cinema I 3
- MACS 262 Survey of World Cinema II 3

Select ONE of the following Non-US Cinema/Foreign Language courses: 3-4
- MACS 207 Indian Cinema in Context
- MACS 282 French & Comparative Cinema I 3
- MACS 283 French & Comparative Cinema II 3
- MACS 419 Russian & East European Film
- MACS 470 Topics in Italian Cinema
- MACS 490 Green Screen: Film and Nature
- MACS 492 Scandinavian Cinema
- MACS 493 German Cinema I 3
- MACS 494 German Cinema II 3
- ITAL 270 Introduction to Italian Cinema
- ANTH 266 African Film and Society

Select ONE of the following Culture, Identity and Politics in Media courses: 3
- MACS 211 Intro to African-American Film
- MACS 250 Latina/os on the Bronze Screen
- MACS 275 Am Indian and Indigenous Film
- MACS 335 Film, TV, and Gender
- MACS 356 Sex & Gender in Popular Media
- MACS 375 Latina/o Media in the US
- MACS 381 Black Women and Film
- MACS 432 Commodifying Difference
- MACS 461 Politics of Popular Culture
- AAS 120 Intro to Asian Am Pop Culture
- ENGL 272 Minority Images in Amer Film

Select TWO from these additional Cinema Studies courses: 6-7
- MACS 117 Shakespeare on Film 3
- MACS 300 Topics in Film and History 3
- MACS 361 Film Theory and Criticism 3
- MACS 391 Individual Study 0 to 3
- MACS 395 Special Media/Cinema Topics 3
- ENGL 104 Intro to Film 3
- ENGL 117 Shakespeare on Film 3
- ENGL 273 American Cinema Since 1950 3
- ENGL 373 Special Topics in Film Studies 3
- HIST 300 Topics in Film and History 3

Advanced Hours Requirement: 6
Six hours of advanced (300 or 400) level courses must be included

Please note, we cannot guarantee that all of these courses will be taught on a regular basis, so keep this in mind when selecting courses.

MACS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MACS)

Courses

MACS 100 Intro to Popular TV & Movies credit: 3 Hours.
The goal of this course is for students to begin to develop a critical understanding of the role of popular movies and television in their own lives and in U.S. culture. The course looks at issues of the relationship of media to social violence, gender identities, sexual identities, adolescents, minority cultures, and the role of the U.S. media globally. It also considers some of the major media genres that characterize U.S. popular television and movies.

This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts
- UIUC: Advanced Composition

MACS 101 Intro to the Media credit: 3 Hours.
Introduces students to core issues in communication, ranging from the role of language in human history to political questions posed by electronic and digital technologies. Exploring key contemporary problems through timely readings, students learn and write about how the media affect everyday life. Prerequisite: Freshman or sophomore standing.

This course satisfies the General Education Criteria for:
- UIUC: Advanced Composition

MACS 104 Intro to Film credit: 3 Hours.
Same as ENGL 104. See ENGL 104.
This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts

MACS 117 Shakespeare on Film credit: 3 Hours.
Same as ENGL 117. See ENGL 117.
This course satisfies the General Education Criteria for:
- UIUC: Literature and the Arts
MACS 166 Contemporary Media Literacy credit: 3 Hours.
Develops skills to assess the importance of new media in contemporary culture. The course emphasizes both social and technical aspects of media. As part of the course, students prepare their own media and evaluate current media literacy projects. Prerequisite: Freshman or sophomore standing.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

MACS 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
May be repeated to a maximum of 12 hours in separate semesters if topics vary.

MACS 202 Social Aspects Info Tech credit: 3 Hours.
Same as INFO 202 and IS 202. See INFO 202.
This course satisfies the General Education Criteria for:
UIUC: Social Sciences

MACS 203 Contemporary Movies credit: 3 Hours.
Provides a critical context for recent international cinema by exploring several kinds of genres, aesthetics, and technologies. We will discuss transnational trends in cinema relating to the influence of other media such as gaming, social networking, and personal electronics, as well as consider impacts of economic structures of global filmmaking production and exhibition. We will view popular and art movies, and query longstanding categories such as the teen pic, "woman's" film, and documentary.

MACS 205 Introduction to Documentary credit: 3 Hours.
This course introduces students to one of the fastest growing areas in media today: the documentary. It's designed for students who want to expand their knowledge and appreciation of documentaries in all their forms. Using weekly in-class screenings, discussion, readings, ad writing, students will examine a wide variety of documentaries, looking at their styles, purposes, and storytelling "voices", as well as learning the language and other fundamentals of documentary. We will also cover some of the basic methods involved in planning and creating a documentary. Please note: this is NOT a hands-on production course.
Prerequisite: Sophomore standing or above required.

MACS 207 Indian Cinema in Context credit: 3 Hours.
Same as CWL 207. See CWL 207.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: Non-Western Cultures

MACS 211 Intro to African-American Film credit: 3 Hours.
Examination of the history, theory, and aesthetics of African-American filmmaking from the silent era to the present. Films are analyzed within their sociocultural contexts, with particular attention to how constructions of race, identity, and community interact with class, gender, and sexuality; and the link between film and other forms of Black expressive culture. The impact of African-American film on popular culture, links to the African Diaspora, and relations with other communities of color will also be discussed. Same as AFRO 211.
This course satisfies the General Education Criteria for:
UIUC: US Minority Culture(s)

MACS 224 Sportsmedia Technology & Culture credit: 3 Hours.
This course is designed for students who are curious about (a) how new technologies are changing sportsmedia cultures, and (b) the kinds of knowledges and skills needed to effectively engage with this powerful cultural and economic industry. We'll use four primary focal points (ESPN, Sport Fandom, Action-Sports, Data Production / Smart Stadiums) to help us understand today's sportsmedia cultural industry's challenges and possibilities, and the kinds of challenges and possibilities that the sportsmedia cultural industry creates for society. We'll also use our course focal points and related industry websites to concretize the key concepts (drawn from theoretical readings and applied studies in media studies, sociology, sport studies, and technology studies).

MACS 227 Studies in Black Television credit: 3 Hours.
Same as AFRO 227. See AFRO 227.

MACS 250 Latina/os on the Bronze Screen credit: 3 Hours.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

MACS 262 Survey of World Cinema II credit: 3 Hours.
Survey of the development of equipment, techniques, and themes of the cinema from the coming of sound to the present; lectures, discussions, and showings of selected films.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts

MACS 264 Creative and Information Economies credit: 4 Hours.
An introduction to the political economy of the media in the U.S. The purpose of the class is to acquaint students with a core understanding of how the media system operates, and with what effects, in a capitalist society. The course examines the role of advertising, public relations, corporate concentration, and government regulation upon journalism, entertainment, culture, and participatory democracy. The class also examines issues such as the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for:
UIUC: History and Philosophy

MACS 267 American Cinema Since 1950 credit: 3 Hours.
Same as ENGL 273. See ENGL 273.

MACS 285 American Indian and Indigenous Film credit: 3 Hours.
This course satisfies the General Education Criteria for:
UIUC: Literature and the Arts
UIUC: US Minority Culture(s)

MACS 295 Intro to Media/Cinema Topics credit: 3 Hours.
Introduction to the study of special topics in media and cinema studies, including cultural, social, historical, economic, and/or political issues in media and/or cinema. Topics vary but may include: genres, stars, historical movements, thematic studies, television, convergence culture, new media. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary.

---

Information listed in this catalog is current as of 03/2017
MACS 300  Topics in Film and History  credit: 3 Hours.
Same as HIST 300. See HIST 300.

MACS 317  Media History  credit: 3 Hours.
Presents the nature and development of communication systems; history of communication media; history of journalism, advertising, and broadcasting; and communications in the modern world.

MACS 320  Popular Culture  credit: 3 Hours.
Examines the critical literature on mass media entertainment; reviews significant contemporary issues and develops perspectives for understanding popular culture.

MACS 321  Film Culture  credit: 3 Hours.
Introduces students to key issues of, major theoretical approaches to, and current debates about the cultural function of films. Course addresses theories of spectatorship, the politics of pleasure, the culture of entertainment, and the cinematic construction of race, class, and gender.
This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

MACS 322  Politics and the Media  credit: 3 Hours.
Same as CMN 325 and PS 312. See PS 312.

MACS 323  Studies Film/Media Production  credit: 1 to 3 Hours.
Provides analytical framework for pursuing film/media production. Emphasizes critical analysis of various aspects of production: e.g., scriptwriting, storyboarding, cinematography, editing, set and costume design, location and studio shooting, sound. Covers theories of representation, narrative, meaning-making, experimentation, and audience in relation to film/media production practices. Does not, however, teach students how to do film and media production (e.g., how to work a camera, etc.). Therefore, students must come to the course with experience in film and/or media production (can be self-taught). Both individual and group projects are encouraged. Students should expect to work as crew for other students in class. Culminates in a public screening at which students present an analysis of their own project—both the process and the finished product. To apply for course, students (individually or in groups) must propose an idea or concept for a film/media project they would like to produce during the class. May be repeated for a maximum of 6 hours if topics vary. Prerequisite: Consent of instructor.

MACS 326  New Media, Culture & Society  credit: 3 Hours.
Digital media is an immensely pervasive and powerful form of communication that despite its rapid growth has yet to reach most of the world's population. This lecture-based survey course for undergraduates traces the history and formation of personal computing and the Internet, the development of virtual communities and virtual worlds, evolving forms of digital representation and communication, digital visual cultures, features of new media industries, and the rise of participatory media. Evaluation and assessment is based on written exams, quizzes, class discussion in section, and practice-based assignments using new media technologies such as wikis, blogs, games, and digital video. Emphasis is on mastering key concepts of digital media through theory and history, and on critical discussion of distinctive features of digital media objects. Lectures and discussion sections are held in computer-equipped classrooms. Same as INFO 326.

MACS 331  Media and Democracy  credit: 3 Hours.
Studies the philosophical bases of the functions and the responsibilities of mass communications.

MACS 335  Film, TV, and Gender  credit: 3 Hours.
Same as GWS 335. See GWS 335.

MACS 345  Digital & Gender Cultures  credit: 3 Hours.
Same as GWS 345, INFO 345, and SOC 345. See GWS 345.

MACS 346  Case Study: Endless Summer  credit: 3 Hours.
Same as KIN 346 and RST 346. See KIN 346.

MACS 351  Social Aspects of Media  credit: 3 Hours.
Explores media structures in relation to cultural content and social functions; examines problems of life and society as treated in mass-produced communications. Same as SOC 351.

MACS 352  Attitude Theory and Change  credit: 3 Hours.
Same as PSYC 352 and SOC 300. See PSYC 352.

MACS 356  Sex & Gender in Popular Media  credit: 3 Hours.
Examines the notion that the mass media influence our development as gendered individuals, looking at those who argue for and against this notion. Considers different forms of feminist theory applied to the study of mass media, the history and scholarly criticisms of the media and their portrayal of women, and feminist attempts to create alternatives to mainstream media images. Throughout, the course considers representation of minorities in the dominant media and examines newly created alternative representations. Same as GWS 356.
This course satisfies the General Education Criteria for: UIUC: Western Compartv Cult

MACS 361  Film Theory and Criticism  credit: 3 Hours.
Study of major aesthetic and critical theories about film; study of theory and practice of film criticism.

MACS 364  Topics in Media Business  credit: 3 Hours.
Addresses the business, industry, and economic implications of the interaction of Internet, television, radio, film, and print outlets through digitization-driven platform and interactive technologies. Explores historical and emergent business models, ownership and work patterns, and investment arrangement related to media convergence. Investigates novel forms of individual and collective labor structures and globally distributed modes of production and consumption. Includes attention to economic and scholarly models seeking to analyze media business structures. Specific topics vary by semester, but may include Google, Disney, and Hollywood studio system, or activist media organizations. May be repeated for a maximum of 6 hours if topics vary.

MACS 365  Asian American Media and Film  credit: 3 Hours.
Same as AAS 365. See AAS 365.

MACS 373  Special Topics in Film Studies  credit: 3 Hours.
Same as ENGL 373. See ENGL 373.

MACS 375  Latina/o Media in the US  credit: 3 Hours.
Examines the portrayal and participation of Latinas and Latinos in the U.S. media using a variety of interdisciplinary approaches. Addresses historical and political movements that have been critical to Latina/ Latino print, broadcast, and electronic communication within the broader context of cultural diversity. Same as LLS 375.

MACS 377  Global Communications  credit: 3 Hours.
Introduces students to the multiple dimensions of cross-national and comparative communications. Specific topics will vary according to instructor's focus, but may include human dimensions of global communication, intercultural communication, media impact, structure and processes of institutional communication (i.e. propaganda, diplomacy).

MACS 381  Black Women and Film  credit: 3 Hours.
Same as AFRO 381. See AFRO 381.

Information listed in this catalog is current as of 03/2017
MACS 382 French & Comparative Cinema I credit: 3 Hours.  
Same as CWL 387, FR 387, and HUM 387. See FR 387.

MACS 383 French & Comparative Cinema II credit: 3 Hours.  
Same as CWL 389, FR 389, and HUM 389. See FR 389.

MACS 389 International Communications credit: 3 Hours.  
Provides an interdisciplinary approach to international communications;  
its structure and content; the role of international communications  
in conflict and conflict resolution; the semantics of international  
communication; the technical and economic aspects of international  
mass communications; and government-industry relations in  
communications. Same as PS 389.

MACS 391 Individual Study credit: 0 to 3 Hours.  
Individual research and exploration of media and cinema studies topics  
under the guidance of a faculty advisor. May be repeated in the same or  
in multiple semesters, if topics vary. Prerequisite: Consent of instructor.

MACS 395 Special Media/Cinema Topics credit: 3 Hours.  
Cultural, social, historical, economic, and/or political issues in media and/or  
cinema; topics vary but may include: genres, historical movements,  
theretic studies, television, convergence culture, new media. May be  
repeated to a maximum of 6 hours if topics vary.

MACS 408 TV Studies credit: 3 or 4 Hours.  
Examines factors reshaping TV and its relationship to culture, including  
genres, industry practices (advertising, production, distribution), new  
media technologies (YouTube, Twitter, and newer developments), and  
computer gaming. Analyzes places/spaces of television, mobility,  
surveillance, television as instruction/guide (dating, cooking, fashion),  
citizenship, consumption, and TV in everyday life. Focuses on  
contemporary aspects of TV, with some attention to earlier forms and  
practices of television. Students required to view and analyze some  
television programs outside of class. 3 undergraduate hours. 4 graduate  
hours.

MACS 410 Media Ethics credit: 3 or 4 Hours.  
Surveys the major ethical problems in news, advertising, publications  
and entertainment media; includes case studies and moral reasoning  
on confidentiality, privacy, conflicts of interest, deception, violence, and  
opornography. 3 undergraduate hours. 4 graduate hours.

MACS 419 Russian & East European Film credit: 3 or 4 Hours.  
Same as SLAV 419. See SLAV 419.

MACS 423 Language Acquisition credit: 3 or 4 Hours.  
Same as LING 423 and PSYC 423. See PSYC 423.

MACS 425 Intro to Psycholinguistics credit: 3 or 4 Hours.  
Same as LING 425. See LING 425.

MACS 432 Commodifying Difference credit: 3 or 4 Hours.  
Same as AAS 435, AFRO 435, GWS 435, and LLS 435. See LLS 435.

MACS 461 Politics of Popular Culture credit: 3 or 4 Hours.  
Same as AIS 461. See AIS 461.

MACS 464 Film Festivals credit: 3 or 4 Hours.  
Examines the history and significance of film festivals: What they mean  
for the film industry (marketing, distribution, production), audiences (both  
at the festival and beyond), film history, and the evolution of filmmaking.  
Covers specific local, national, and international festivals including  
festivals focused on particular issues (e.g., Chicago International  
Children’s Film Festival, San Francisco International Asian American  
Film Festival, Miami Gay and Lesbian Film Festival, and our own local  
IUB 48-Hour Film Contest). Coordinated with Roger Ebert’s Film Festival  
(which is held in Champaign every April) including internship/volunteer  
opportunities, screenings, and meetings with guests. Class culminates  
with a UIUC student film festival, organized, judged, and sponsored by the  
class. 3 undergraduate hours. 4 graduate hours.

MACS 466 Japanese Cinema credit: 3 or 4 Hours.  
Examines the influence of Japan’s traditional aesthetics on its cinema  
and surveys its major film movements, genres, and directors. Same as  
EALC 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One  
course in the College of Media or East Asian Languages and Cultures, or  
consent of instructor.

MACS 470 Topics in Italian Cinema credit: 3 or 4 Hours.  
Same as ITAL 470. See ITAL 470.

MACS 479 Green Screen: Film and Nature credit: 3 or 4 Hours.  
Same as EURO 489 and SCAN 490. See SCAN 490.

MACS 492 Scandinavian Cinema credit: 3 or 4 Hours.  
Same as SCAN 492. See SCAN 492.

MACS 493 German Cinema I credit: 3 Hours.  
Same as GER 493. See GER 493.

MACS 494 German Cinema II credit: 3 Hours.  
Same as GER 494. See GER 494.

MACS 495 Internship Seminar credit: 0 to 1 Hours.  
Seminar based on internship experience. Offered for College of Media  
students who complete an approved internship. 0 to 1 undergraduate  
hours. No graduate credit. Approved for S/U grading only. May be  
repeated in the same term to a maximum of 2 undergraduate hours. May  
be repeated in separate terms to a maximum of 3 undergraduate hours.  
Prerequisite: Consent of instructor.

MACS 496 Advanced Media/Cinema Topics credit: 3 or 4 Hours.  
Advanced study of cultural, social, historical, economic, and/or  
political issues in media and/or cinema; topics vary but may include  
national and transnational cinemas, directors, genres, historical  
movements, social and political movements, thematic studies, television,  
convergence culture, new media. 3 undergraduate hours. 4 graduate  
hours. May be repeated in the same or separate terms to a maximum of  
6 undergraduate hours or 8 graduate hours as topics vary. Prerequisite:  
One College of Media course or consent of instructor.

MACS 498 Senior Seminar credit: 3 Hours.  
Seminar and tutorial in selected Media and Cinema Studies topics. 3  
undergraduate hours. No graduate credit. May be repeated in the same  
or subsequent semesters to a maximum of 6 hours. Prerequisite: Senior  
standing, a declared Media and Cinema Studies major, or consent of  
instructor.

MACS 499 Senior Thesis credit: 3 Hours.  
Individual research for majors in Media and Cinema Studies leading to  
the completion of a thesis. 3 undergraduate hours. No graduate credit.  
May be repeated to a maximum of 6 hours. Prerequisite: Senior standing,  
a declared Media and Cinema Studies Major, and consent of advisor.
Agricultural Communications

For the Degree of Bachelor of Science with a Major in Agricultural Communications

The major in Agricultural Communications is for students wishing to pursue careers as professionals in writing, editing, and publishing; public relations; advertising; radio and television broadcasting; photography; and related activities with an emphasis on the fields of food, agriculture, the environment, energy and consumer behavior. Concentrations in journalism or advertising allow students to pursue these professional interests. Program requirements in each concentration include the completion of an interdisciplinary minor in Food and Environmental Systems. The College of Agricultural, Consumer and Environmental Sciences and the College of Media jointly offer this curriculum.

A minimum of 126 hours are required for graduation, including:

General Education Requirements
Agricultural Communications major requirements
Minor in Food and Environmental Systems requirements
College of Media concentration requirements

Prescribed Courses including Campus General Education

Composition I and Speech
Select one of the following:
RHET 105 Writing and Research
& CMN 101 and Public Speaking (See College Composition I requirement)
OR
CMN 111 Oral & Written Comm I
& CMN 112 and Oral & Written Comm II

Advanced Composition
Select from campus approved list. (JOUR 200; AGCM 220).

Cultural Studies
Select one course from Western/Comparative culture and one from non-Western/U.S. minority culture from campus approved list.

Foreign Language
Coursework at or above the third level is required for graduation.

Quantitative Reasoning I
Select one of the following:
ACE 261 Applied Statistical Methods
CPSC 241 Intro to Applied Statistics
ECON 202 Economic Statistics I
EPSY 280 Elements of Statistics
PSYC 235 Intro to Statistics
SOC 280 Intro to Social Statistics
SOCW 225 Intro Stat for Social Work

Information listed in this catalog is current as of 03/2017

STAT 100 Statistics (or its equivalent)

Quantitative Reasoning II
Select from campus approved list.

Natural Sciences and Technology
Physical Science
Select one from the following:
ATMS 100 Introduction to Meteorology
ATMS 120 Severe and Hazardous Weather
ATMS 140 Climate and Global Change
CHEM 102 General Chemistry I
& CHEM 103 General Chemistry Lab I
ENVS 101 Introduction to Energy Sources
ESE 117 The Oceans
ESE 118 Natural Disasters
GEOL 107 Physical Geology
PHYS 101 College Physics: Mech & Heat

Life Science
Select one from the following:
ANSC 207 Companion Animal Biology & Care
ANTH 249 Evolution and Human Disease
CPSC 112 Introduction to Crop Sciences
CPSC 113 Environment, Agric, & Society
FSHN 120 Contemporary Nutrition
IB 103 Introduction to Plant Biology
IB 105 Environmental Biology
IB 109 Insects and People
MCB 100 Introductory Microbiology
& MCB 101 and Intro Microbiology Laboratory

Humanities and the Arts
Select from campus approved list.

Social and Behavioral Sciences
PSYC 100 Intro Psych
Select one course from:
ACE 100 Agr Cons and Resource Econ
PS 101 Intro to US Gov & Pol

Agricultural Communications Required
ACES 101 Contemporary Issues in ACES
or ACES 200 ACES Transfer Orientation
AGCM 110 Intro to Ag and Env Comm
AGCM 320 Public Information Campaigns
JOUR 200 Introduction to Journalism

Select two from the following:
AGCM 220 Communicating Agriculture
AGCM 270 Ag Sales and Persuasive Communication
AGCM 315 Emerging Media
AGCM 330 Environmental Communications
AGCM 398 Undergraduate Seminar
AGCM 430 Comm in Env Social Movements

Students must also complete the ACES Minor in Food and Environmental Systems (p. 72)

COLLEGE OF MEDIA CONCENTRATION
21-23

Students must choose one of the two concentrations:

ADVERTISING
Required courses:

AGCM 220 Communicating Agriculture 3 Hours.
Skills necessary to communicate complex information about the broad domains of agriculture to different audiences. Application of communication theories. Emphasis on essential communication skills, including writing, conducting interviews, planning, and critical evaluation of information sources. Same as ENVS 220 and NRES 220. Prerequisite: Completion of a Composition I course.

AGCM 270 Ag Sales and Persuasive Communication 3 Hours.
Sales concepts and persuasive business communication techniques. Role, dynamics, and principles of sales communications related to food, agriculture, and the environment. Sales objectives, market segmentation, prospecting, handling obligations, relationship building, and the nuances of sales communications.

AGCM 293 Communications Internship 1 to 3 Hours.
Supervised experience in a field directly pertaining to agricultural communications. Approved for S/U grading only. May be repeated. Prerequisite: Sophomore standing. AGCM Program approval required.

AGCM 294 Research Internship 1 to 4 Hours.
Supervised, on-campus, learning experience with faculty engaged in research. Approved for S/U grading only. May be repeated in the same or subsequent terms to a maximum of 10 hours. Prerequisite: Sophomore standing.

AGCM 295 Independent Study or Research Credit 1 to 3 Hours.
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Prerequisite: AGCM Program and instructor approval required.

AGCM 315 Emerging Media 3 Hours.
Theories, principles and practices of applying emerging tools, technology, and norms to communicate agriculture to broad audiences. Focus on the strategies and tactics of using new media to communicate food, fuel, fiber, natural resources, health, human nutrition and related topics. Same as ADV 315. Prerequisite: AGCM 220 or ADV 150 or consent of instructor.

AGCM 320 Public Information Campaigns 4 Hours.
Coordinated approach to planning, implementing and evaluating information campaigns in the broad domain of food and agriculture. Students work with groups, agencies and organizations in designing communication campaigns strategies and tactics. Prerequisite: Sophomore standing and Composition I course. This course satisfies the General Education Criteria for:

UIUC: Advanced Composition

AGCM 330 Environmental Communications 3 Hours.
Basics of communicating about environmental issues to various audiences, emphasizing communication to lay publics. Gathering information about a current environmental issue, analyzing interests of groups involved, and examining strategies for communicating clearly to different groups. Same as ENVS 330 and NRES 330. Prerequisite: Sophomore standing.

AGCM 396 Honors Research or Thesis 1 to 4 Hours.
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated for up to 6 hours in separate terms. Prerequisite: Junior standing, admission to the ACES Honors Program.

AGCM 398 Undergraduate Seminar 1 to 3 Hours.
Special topics in a field of study directly pertaining to subject matter in agricultural communications. May be repeated in the same or subsequent terms to a maximum of 12 hours.

AGCM 430 Comm in Env Social Movements 3 Hours.
Examines the interests, values systems and communications strategies of key participants in the environmental movement. Students examine environmental issues and predict possible reactions from key participants in the environmental arena. Same as ENVS 430, NRES 430, and SOC 464. 3 undergraduate hours. 3 graduate hours. Prerequisite: Composition I course.

Choose three of the following:

JOUR 315 Adv Public Affairs Reporting 4 Hours.

JOUR 320 News Editing 4 Hours.

JOUR 425 Multimedia Editing and Design 4 Hours.

JOUR 335 Audio Journalism 3 Hours.

JOUR 340 Video Reporting & Storytelling 3 Hours

JOUR 445 Video Storytelling 2-Producing 3 Hours.

AGCM Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/AGCM)

Courses

AGCM 110 Intro to Ag and Env Comm 3 Hours.
Development and role of communication in relation to food, feed, fiber, energy, natural resources, international development and other dimensions of agriculture. Introduction to channels, methods, challenges and opportunities for improving communication within agriculture and communicating agriculture to the public.

AGCM 199 Undergraduate Open Seminar 1 to 5 Hours.
Experimental course on a special topic in agricultural communications. May be repeated in the same or separate terms as topics vary.

AGCM 270 Ag Sales and Persuasive Communication 3 Hours.
Sales concepts and persuasive business communication techniques. Role, dynamics, and principles of sales communications related to food, agriculture, and the environment. Sales objectives, market segmentation, prospecting, handling obligations, relationship building, and the nuances of sales communications.

AGCM 293 Communications Internship 1 to 3 Hours.
Supervised experience in a field directly pertaining to agricultural communications. Approved for S/U grading only. May be repeated. Prerequisite: Sophomore standing. AGCM Program approval required.

AGCM 294 Research Internship 1 to 4 Hours.
Supervised, on-campus, learning experience with faculty engaged in research. Approved for S/U grading only. May be repeated in the same or subsequent terms to a maximum of 10 hours. Prerequisite: Sophomore standing.

AGCM 295 Independent Study or Research Credit 1 to 3 Hours.
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Prerequisite: AGCM Program and instructor approval required.

AGCM 315 Emerging Media 3 Hours.
Theories, principles and practices of applying emerging tools, technology, and norms to communicate agriculture to broad audiences. Focus on the strategies and tactics of using new media to communicate food, fuel, fiber, natural resources, health, human nutrition and related topics. Same as ADV 315. Prerequisite: AGCM 220 or ADV 150 or consent of instructor.

AGCM 320 Public Information Campaigns 4 Hours.
Coordinated approach to planning, implementing and evaluating information campaigns in the broad domain of food and agriculture. Students work with groups, agencies and organizations in designing communication campaigns strategies and tactics. Prerequisite: Sophomore standing and Composition I course. This course satisfies the General Education Criteria for:

UIUC: Advanced Composition

AGCM 330 Environmental Communications 3 Hours.
Basics of communicating about environmental issues to various audiences, emphasizing communication to lay publics. Gathering information about a current environmental issue, analyzing interests of groups involved, and examining strategies for communicating clearly to different groups. Same as ENVS 330 and NRES 330. Prerequisite: Sophomore standing.

AGCM 396 Honors Research or Thesis 1 to 4 Hours.
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated for up to 6 hours in separate terms. Prerequisite: Junior standing, admission to the ACES Honors Program.

AGCM 398 Undergraduate Seminar 1 to 3 Hours.
Special topics in a field of study directly pertaining to subject matter in agricultural communications. May be repeated in the same or subsequent terms to a maximum of 12 hours.

AGCM 430 Comm in Env Social Movements 3 Hours.
Examines the interests, values systems and communications strategies of key participants in the environmental movement. Students examine environmental issues and predict possible reactions from key participants in the environmental arena. Same as ENVS 430, NRES 430, and SOC 464. 3 undergraduate hours. 3 graduate hours. Prerequisite: Composition I course.
AGCM 499  Seminar  credit: 1 to 4 Hours.
Special topics in agricultural communications. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 12 hours as topics vary.

Social Work, School of
http://socialwork.illinois.edu

Dean of the School: Dean Wynne Korr
Director of BSW Program: Brenda Lindsey
1010 W. Nevada St.
Urbana, IL 61801
(217) 244-5246
E-mail: undergradsocialwork@illinois.edu
(undergradsocialwork@illinois.edu)

Overview of Curriculum and Requirements

The purpose of undergraduate social work education at the School of Social Work is to provide a comprehensive educational experience for students that is grounded in a liberal arts tradition and prepares graduates for excellence in the areas of social work practice, policy, social engagement and leadership.

Upon degree completion, graduates will be prepared for entry into generalist social work practice, advanced standing in graduate social work education, and a multitude of career opportunities. These can include careers in communications, corrections, education, government, health care, human resources, law, non-profit organizations, religious studies, and public service. Obtaining an undergraduate degree in Social Work gives students the opportunity to pursue a License of Social Work (LSW). A BSW degree also makes students eligible to pursue Advanced Standing status in many masters of Social Work (MSW) programs. The advanced standing status enables BSW graduates to receive a MSW in only one year.

The focus of undergraduate curriculum delivery is through a student-centered strengths-based educational model that fosters student understanding by providing a challenging, yet supportive environment of high expectations that encourage the development of well-informed and engaged citizens.

Degree title: Bachelor of Social Work

The social work major prepares practitioners for generalist social work practice with individuals, groups, families and communities. The curriculum requires a minimum of 120 hours for graduation. Minimum required course work in the major equates to 50 course hours of core professional education, including 8 hours for an agency-based field practicum (internship) where students receive additional supervision and training 4 days per week for one semester.

Departmental Distinction

The top 10% of the BSW graduating class will graduate with distinction.

Admission Requirements for Freshman

The following requirements must be met for consideration for admission as a freshman into the BSW Program:

• University of Illinois application-The application includes a major selection, an essay, a list of activities, work experience, community service, honors and awards, and an accurate email address

• Application fee
• Self-Reported Academic Record (SRAR)
• Official test scores-Standardized test scores are required for admission review: either ACT (code 1154) or SAT I (cod 1836) scores are accepted
• English proficiency
• We do NOT accept letters of recommendation

For more detailed information regarding application requirements and the application process, please visit the University of Illinois Admissions website at: www.admissions.illinois.edu (http://www.admissions.illinois.edu)

Admission Requirements for Transfer and Inter-College Transfer Students (ICT)

The following requirements must be met for consideration for admission into the BSW Program:

• Completion and documentation of a minimum of 50 (fifty) hours of volunteer\(^1\) or paid work experience prior to submission of the BSW application. These hours must be completed by working with or for an underrepresented population or population in need. All volunteer hours must have been completed within 2 calendar years of application date.
• Cumulative minimum GPA 2.5 or higher
• Evidence of strong communication and interpersonal skills
• Evidence of personal attributes that are suitable for the profession of social work
• Successful completion of the application process for entry https://socialwork.illinois.edu/academics/bachelor-of-social-work/admissions-information/bsw-application/.

\(^1\) Volunteer hours can be completed through service learning projects completed for course requirements, as well as, through volunteer experiences with community organizations, registered student organizations, Greek organization affiliation, etc. The office of Volunteer Programs at the University http://union.illinois.edu/get-involved/office-of-volunteer-programs/programming (http://union.illinois.edu/get-involved/office-of-volunteer-programs/programming) is a good resource for ideas on how to get involved.

Application Deadline: The Admissions deadlines are March 1st for the Fall semester and October 15th for the Spring semester.

The Social Work Minor is designed for students interested in combining a primary academic area with social welfare and professional social work content. It emphasizes synthesis and application of social work theories, policies and research in the development of comprehensive solutions to major social problems.

E-mail: undergradsocialwork@illinois.edu

Minor required courses: 12
SOCW 200 Introduction to Social Work
SOCW 300 Diversity: Identities & Issues
SOCW 410 Social Welfare Pol and Svcs
SOCW 451 HBSE I: Human Development

Courses
SOCW 101 SOCW Orientation Seminar credit: 2 Hours.
Informational orientation seminar for Social Work majors to enhance their understanding of college life and social work as a profession.

SOCW 199 Undergraduate Open Seminar credit: 1 to 4 Hours.
Approved for letter and S/U grading. May be repeated.

SOCW 200 Introduction to Social Work credit: 3 Hours.
Broad survey of the field of social work; introduction to social services, social welfare organizations, major social problems and target population groups, and the methods used in working with individuals, groups, and communities; includes the range of personnel and skills in social work agencies, and the means of education and training for social work professionals. This course satisfies the General Education Criteria for: UIUC: Social Sciences
SOCW 225 Intro Stat for Social Work credit: 3 Hours.
Introduction of basic concepts in statistics with emphasis on the application of statistical methods in social work research. Topics include: descriptive statistics, probability theory and distributions, point and interval estimation, hypothesis testing, central tendency, variability, independence, contrasts, correlation and regression, non-parametrics, concepts of levels of measurements, and statistical vs. practical significance. Priority will be given to Social Work majors. Credit is not given for SOCW 225 if credit for a college level introductory statistics course has already been earned. This course satisfies the General Education Criteria for:
UIUC: Quant Reasoning I

SOCW 240 Death & Dying credit: 3 Hours.
This course will focus on various aspects of death and dying. Content will examine different types of death, impact of death throughout the lifespan, cultural beliefs and practices regarding death and dying, grief, healing after loss, legal and ethical issues related to death, and the role of social workers at the end of life. Students will be encouraged to examine their own thoughts, values, feeling, and beliefs about death and dying. This course satisfies the General Education Criteria for:
UIUC: Social Sciences

SOCW 297 Asian Families in America credit: 3 Hours.
Offers a comparative analysis of Asian families as they cope and adapt to American society. Examines: 1) how families from four major Asian-American groups (Chinese, Indian, Japanese and Korean) function in American society; 2) how these families compare to families in their country of origin; and 3) how these families are similar to or different from the 'typical American' family. Includes visits to Asian cultural institutions and with Asian families. Same as AAS 297 and HDFS 221. This course satisfies the General Education Criteria for:
UIUC: Social Sciences
UIUC: US Minority Culture(s)

SOCW 298 Social Work Experiential Learning Fees credit: 0 Hours.
This is a shell course to assess fees to support the cost of providing student learning experiences in social work practice settings. Additional fees may apply. See Class Schedule. Approved for S/U grading only. Prerequisite: The SOCW Admissions and Records Officer will manually add this course to student schedules.

SOCW 299 Study Abroad credit: 0 to 18 Hours.
Lectures, seminars, and practical work in an approved study-abroad program in Social Work appropriate to the student's course of study. Approved for letter and S/U grading.

SOCW 300 Diversity: Identities & Issues credit: 3 Hours.
This introductory course explores multiple dimensions of diversity in a pluralistic and increasingly globalized society. Using a social work strengths perspective as well as historical, constructivist, and critical conceptual frameworks; the course examines issues of identity, culture, privilege stigma, prejudice, and discrimination. The social construction and implications of race, class, gender, sexual orientation, and other dimensions of difference is examined at individual, interpersonal, and systems levels. Students are expected to use the course material to explore their personal values, biases, family backgrounds, culture, and formative experiences in order to deepen their self-awareness and develop interpersonal skills in bridging differences. Finally, students apply learning from the course to identify characteristics of effective social work and other health and human service provision among people culturally different themselves; and to identify opportunities for change contributing to prejudice reduction and cross-cultural acceptance at home, work and in society. This course satisfies the General Education Criteria for:
UIUC: Advanced Composition
UIUC: US Minority Culture(s)

SOCW 310 UG Research Assistance credit: 0 to 3 Hours.
Assist departmental faculty in on-going research. Topics and nature of assistance vary. Capstone paper required. Approved for Letter and S/U grading. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head. Majors only.

SOCW 315 Social Work Services for Older Adults credit: 3 Hours.
Focus on the aging process, special needs of older adults, and the role of social work in addressing these needs. All levels of social work intervention are considered, direct practice with older persons and their families, service delivery systems in local communities, and state and national policies. Special attention is given to the needs of caregivers, person-centered care, diverse vulnerable populations and resources for older adults to age in place.

SOCW 321 Social Entre & Social Change credit: 3 Hours.
Intended for undergraduates who have an interest in creating programs and products that have social values for communities. Features social entrepreneurship as an approach to social development and will consider its application and related change strategies to a wide array of social problems. Social entrepreneurship has emerged as a change approach that features the application of entrepreneurial practices to social ventures. Social entrepreneurship is similar to business entrepreneurship in its emphasis on selected program development and management principles and processes, but social entrepreneurs have the primary goal of creating social value in communities rather than personal or shareholder wealth. The initial part of the class will emphasize instructing students in broad concepts and principles related to entrepreneurship, while the latter portion of the course will feature students working on teams to design social projects.
SOCW 325  **International Development with Grassroots Organizations**  
**Credit:** 3 Hours.  
This course engages students to think critically about international aid and development by cultivating an awareness of moral and ethical dilemmas that often go unconsidered by young professionals. It intends to help students develop greater cultural awareness and humility by recognizing differences in equity and global social, economic, and political structures. The course is a second eight-week offering and uses a blended learning approach with asynchronous online content combined with in-person classroom educational activities. Students apply the knowledge learned through the course by working directly with an international grassroots social organization during a 4-8 week immersion experience abroad. Course is an 8 week pre-departure training is required. Students complete a service learning placement in summer with an international grassroots organization in partnership with Omprakash EdGe.

SOCW 330  **International Perspectives**  
**Credit:** 3 to 6 Hours.  
This course provides cross-cultural learning experiences within the context of international community-based service learning. Students will explore human service delivery through direct involvement with international social service institutions. This cultural immersion course is a collaborative partnership between the University of Illinois School of Social Work and selected international universities. Countries visited, varies by semester. May be repeated in separate terms up to 12 undergrad hours if topics vary.

SOCW 335  **Cities and Immigrants**  
**Credit:** 3 Hours.  
Same as UP 335. See UP 335.

SOCW 350  **Health Promotion Practicum**  
**Credit:** 3 Hours.  
Same as CHLH 340. See CHLH 340.

SOCW 360  **Social Work and the Military**  
**Credit:** 3 Hours.  
This course provides an overview of military social work practice including: military culture, issues and needs of soldiers and their families, ethical considerations, and the role of social workers. Prerequisite: For majors only.

SOCW 380  **Current Topics in Social Work**  
**Credit:** 3 to 6 Hours.  
Presents and analyzes special topics related to current social work practice, policy and research. Topics vary; see Class Schedule for current offering. May be repeated in the same or separate terms.

SOCW 400  **Generalist SW Practice Methods**  
**Credit:** 4 Hours.  
Foundation methods course that is a prerequisite for all advanced methods courses. Overview of generalist social work practice and intervention with individuals, groups, organizations and communities; introduction to core concepts, value base and ethical principles of the profession. Emphasis is given to the bio-ecological framework, person-in-environment and systems theory. Skills in developing beginning professional relationships are addressed via a skills lab component. Students begin the process of professional self-awareness to begin to identify how the personal values and beliefs they hold impact upon their interactions. 4 undergraduate hours. 4 graduate hours. Prerequisite: Admission to MSW program.

SOCW 401  **Practice I**  
**Credit:** 4 Hours.  
Overview of generalist social work practice with individuals, families, groups, organizations, and communities. Designed to introduce core concepts, values, and ethical principles of the profession as well as to provide basic skills, and knowledge related to generalist social work practice with a broad array of client systems. Emphasis is give to the biological-psychological-social-spiritual framework, person-in-environment, strengths perspective, and system theory. Skills in developing beginning professional relationships, which are characterized by mutuality, collaboration, empowerment, and client self determination within the problem-solving process are addressed. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 200.

SOCW 402  **Practice II**  
**Credit:** 3 Hours.  
Provides students with culturally responsive, micro-level skills development for working with and on behalf of individuals, families, and groups. Builds on the basic helping skills learned in SOCW 401 and offers further practice on interviewing skills, more emphasis on ethical decision-making, assessment, and intervention, evaluation applied to individuals, families, and groups. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 403  **Practice III**  
**Credit:** 3 Hours.  
Provides knowledge and skills about the theory and practice of planned change in communities and organizations using a generalist model of social work practice. Builds on the foundation knowledge and skills gained in SOCW 401 with emphasis on assessment, planning, intervention, and evaluation skills for macro-level practice. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 410  **Social Welfare Pol and Svcs**  
**Credit:** 3 or 4 Hours.  
Examination of social welfare within a historical context, addressing the economic, political, social and ideological influences that have shaped the social welfare system and programs. Critical study of the income maintenance system in the United States as a response to the problems of inequality of opportunity and income, poverty, and income security; consideration of alternative approaches with discussion of the social worker’s role in the system. 3 undergraduate hours. 4 graduate hours.

SOCW 412  **Hispanics in the U.S.**  
**Credit:** 3 or 4 Hours.  
Hispanics constitute a growing population in the United States. The size and heterogeneity of Hispanics raises complex issues in crafting public policy and in designing and delivering social services. This course offers an extensive portrait of Hispanics in the United States. Students will explore questions and demographic characteristics, language and religious practices, education, criminal justice, neighborhood and economic restructuring, immigration, social service systems, and community action in the context of creating an effective public policy agenda. Same as LLS 412. 3 or 4 undergraduate hours. 3 or 4 graduate hours.

SOCW 416  **Child Welfare Issues & Trends**  
**Credit:** 3 or 4 Hours.  
This course examines theoretical and programmatic aspects for child welfare practice. Emphasis is placed on the roles and functions of child welfare workers, including engagement, assessment, intervention and permanency planning. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOCW major.

SOCW 418  **Independent Study**  
**Credit:** 1 to 4 Hours.  
Independent study of a topic of special interest in the field of social work. 1 to 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.
SOCW 420  Subst Use in Social Context  credit: 3 Hours.
Introduces students to the problem of substance abuse and its impact on society. Examines the physiological, psychological, social, and cultural aspects of substance abuse. At the individual and familial levels, the course examines the causes, development, prevention, and treatment of substance abuse. At the societal level, the course examines public policy efforts to regular and control substance use from both historical and contemporary perspective. Implications for social and economic justice are also examined. 3 undergraduate hours. No graduate credit.

SOCW 427  Social Work Research Methods  credit: 3 or 4 Hours.
Basic principles of social science research and importance for social work practice: overview of research principles including the stages of a research project, design of research; quantitative and qualitative methodologies, design of questionnaires, methods of data collection and preparation of reports. Introduction to various research designs such as the survey, program evaluation, single subject design, quasi-experiments, and experimental design. Enrollment preference given to students in the MSW program. 3 undergraduate hours. 4 graduate hours.

SOCW 436  Intl SW & Development  credit: 3 or 4 Hours.
This online course introduces students to policy and practice issues associated with international social work. It emphasizes ethical dilemmas, with the goal of sensitizing students to the importance of culturally sensitive practice for marginalized populations in global contexts. Weekly online discussion sessions use the Blackboard Online Platform. Students must have high speed internet connection and headset with microphone for course interaction. 3 undergraduate hours. 4 graduate hours.

SOCW 451  HBSE I: Human Development  credit: 3 or 4 Hours.
Examination of the major theories that inform social work’s understanding of human behavior in a variety of social contexts. A biocultural systems framework, together with a developmental approach in understanding the ways in which individuals, families, groups, organizations, institutions, and communities interact, is presented. Issues of gender, race, ethnicity, socioeconomic status, disability and sexual orientation are introduced so students can gain understanding of how these components affect and influence development across the lifespan. Enrollment preference given to students in the MSW program. 3 undergraduate hours. 4 graduate hours.

SOCW 455  Social Work with Women  credit: 3 or 4 Hours.
Focuses on women and now cultural belief systems related to gender are instantiated through the differential treatment of females and males in our education, mental health, social welfare and health care systems; and the consequences of such practices through the lifespan. Includes consideration of policies and practices that support women emphasizing issues of special concern to women of color, lesbians, older women, impoverished women and disabled women. Same as GWS 454. 3 undergraduate hours. 4 graduate hours.

SOCW 457  Health Planning  credit: 3 Hours.
Same as CHLH 457. See CHLH 457.

SOCW 461  Professional Practice Seminar I  credit: 4 Hours.
The goal of this course is to begin the process of integrating all the foundation knowledge of generalist social work that students have learned and begin applying it to real life situations. Students will complete a portfolio and a service learning experience that will help them being to make the connection between the core competencies, theories and applications to real life experiences. During this course students will begin the process of being matched with the agency where they will serve their internship during the last semester of their senior year. 4 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 470  Field Practicum & Professional Seminar II  credit: 15 Hours.
This course is a supervised field practice experience and seminar where students apply knowledge and skills in social work engagement, assessment, planning and interventions to individuals, groups, families, organizations, and communities. Students are expected to promote sustainable social change through planned problem solving and empowerment to enhance the well-being of others. The practicum consists of 32 hours/week for 16 weeks. 15 undergraduate hours. No graduate credit. May be repeated; instructor approval required. Prerequisite: SOCW 461. SOCW majors only.

SOCW 473  Immigration, Health & Society  credit: 3 or 4 Hours.
Same as CHLH 473, LLS 473, and SOC 473. See LLS 473.

SOCW 475  Undergraduate Research Abroad  credit: 1 to 4 Hours.
Students assist in research under faculty supervision at a location outside of the United States. Topics and type of assistance vary. 1 to 4 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work (who will have examined the proposed research plan); and approval of department. Not available to freshman.

SOCW 480  UG Research Project  credit: 0 to 3 Hours.
Conduct research study under the supervision of a departmental faculty member. Topics and nature of assistance vary. Capstone paper required. 0 to 3 undergraduate hours. No graduate credit. Approved for letter and S/U grading. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head. Majors only. Not available to freshman and sophomores.

Undergraduate Minors

- Adult Development (p. 53)
- African Studies (p. 309)
- African-American Studies (p. 305)
- Aging (p. 94)
- Agricultural Safety and Health (p. 14)
- American Indian Studies (p. 311)

- Community-Based Art Education (p. 250)
Sustainability, Energy, and Environment Fellows Program (SEE FP)

http://sustainability.illinois.edu/education/sustainability-minor/

Why is true sustainability so hard to achieve? Behind every environmentally friendly practice is a web of consequences, trade-offs, feedbacks, and barriers — and this undergraduate minor administered by the Institute for Sustainability, Energy, and Environment (iSEE) will help you develop a systems-level perspective of the economic, environmental and social dimensions of sustainability to help you navigate them.

The Sustainability, Energy, and Environment Fellows Program (SEE FP) is a campuswide undergraduate minor that prepares students for pursuing careers in the corporate sector, nonprofit organizations, government agencies and environmental advocacy groups.

To find out more about the minor and the enrollment process, email Professor Madhu Khanna, iSEE Associate Director for Education & Outreach, at see-fellows@illinois.edu.

Teacher Education

Chris Roegge, Executive Director
505 E. Green Street, Suite 203
Champaign, IL 61820
PH: 217-333-7195
FX: 217-265-5188
http://cote.illinois.edu

The Council on Teacher Education formulates, modifies, implements, and monitors compliance with policies related to the education of future educators. The Council also facilitates communication and promotes collaboration among all participants involved in the preparation and continuing professional development of educators. The Council is the designated unit responsible for the coordination of teacher, school support personnel, and administrator education curricula at the Urbana campus and serves as the liaison between the campus and state educator licensure and program approval authorities.

Six colleges and two schools of the University of Illinois at Urbana-Champaign offer degree programs in teacher, school support personnel, and administrator education: the Colleges of Agricultural, Consumer and Environmental Sciences; Applied Health Sciences; Education; Fine and Applied Arts; Liberal Arts and Sciences; and the Graduate College in addition to the School of Information Sciences and the School of Social Work. The list of educator preparation curricula can be found at the end of this section.

Candidates may consult their educator preparation advisers or the Council for additional information about academic regulations and other policies affecting educator preparation. Consult the Executive Director of the Council for information about the Grievance Policy and Procedures for Students Enrolled in Educator Preparation Programs under the purview of the Council on Teacher Education.

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education (ISBE) or the Illinois General Assembly.

Requirements

Admissions

Applicants to educator preparation programs must meet the admission requirements of the colleges and departments offering the chosen curricula. Council policy mandates candidates pass an ISBE approved test of basic skills before they may be admitted to an educator preparation program. Candidates may use an ACT or SAT score to meet the test of basic skills if it meets the ISBE requirements for substitution. See www.cote.illinois.edu/certification/documents/act_procedures_for_admission.pdf (http://www.cote.illinois.edu/certification/documents/act_procedures_for_admission.pdf) for information regarding specific requirements.

Applicants are advised that certain felony convictions, enumerated in Articles 10-21.9 and 21B-80 of the School Code of Illinois (http://www.ilga.gov/legislation/ilcs/ilcs3.asp?ActID=1005&ChapAct=105%2C%20ILCS%20160;5/&ChapterID=17&ChapterName=SCHOOLS&ActName=School+Code.html), prohibit licensure or employment in public schools. Questions pertaining to this matter should be addressed to the Council.

Continuation in an Educator Preparation Program

To be eligible for continuation in an educator preparation program, candidates must satisfy all requirements of the applicable Common Assessment Plan (CAP), which includes maintaining University of Illinois at Urbana-Champaign and overall grade point averages of 2.5 (A = 4.0) or higher. In addition, candidates must meet the content area and professional education grade-point requirements specific to their programs. The full text of the three Common Assessment Plans is available on the Council website (http://www.cote.illinois.edu/about/professional/cap.html). The Council on Teacher Education reviews each candidate’s academic progress after the fall and spring semesters. Candidates who do not meet the criteria of the appropriate CAP will receive a warning letter from the Council advising them that their continuation in the program, entry into student teaching, and receiving a recommendation for licensure from the University are at risk. Candidates will be directed to their college deans for more information. Candidates may be dropped from licensure programs by the Council if they fail to meet the criteria of the appropriate CAP after receiving an initial warning letter.

Teaching effectiveness is influenced not only by academic proficiency, but also by the dispositions and professional behaviors of the candidate. Therefore, faculty members take these characteristics into account as they evaluate candidates’ progress in the program. Teaching effectiveness can also be influenced by the candidate’s health. For this reason, the University provides counseling and medical services for all students. A candidate wishing additional information about these services may call or visit the Council office.

Because it is essential that counseling and medical services be offered as soon as the need becomes apparent, educator preparation advisers and faculty members are asked to recommend for assistance or examination any candidate about whom they feel concern. A candidate who is recommended for assistance or examination will receive a written request to make an appointment to discuss the situation. It is a requirement of the Council on Teacher Education that a candidate who receives such a request must respond. Failure to do so will jeopardize the candidate’s continuation in their educator preparation program. During the appointment, the candidate will be informed of the counseling (http://www.counselingcenter.illinois.edu) and medical services (http://www.mckinley.illinois.edu) available at the University. The candidate’s use of these services is usually optional. In exceptional cases, however, the Council may require a candidate to satisfactorily complete a mental health or physical examination with one of the campus services. Candidates who wish to continue in teacher education must comply with such referrals.

Student Teaching

State law mandates candidates pass the appropriate content area test prior to student teaching. Students who have not passed the appropriate content area test will not be permitted to student teach. Student teaching application forms are available in the college clinical experiences office that houses each program. (Candidates may obtain referrals to the appropriate office by contacting the Council.) A candidate seeking
placement in student teaching should contact the appropriate program's clinical experiences office no later than October 1 of the academic year preceding the desired placement to determine departmental deadlines and meeting dates. Departments may set earlier deadlines. Candidates who apply after their departments' deadlines cannot be guaranteed a student teaching assignment during the next academic year. A candidate who will not be on campus during the fall semester, but who expects to enroll in educational practice (student teaching) during the next school year, should secure an application form from his or her program's clinical experiences office before leaving campus. A candidate who has submitted an application will receive a student teaching assignment pending verification that he or she has completed all requirements of the appropriate Common Assessment Plan.

Only those candidates officially registered in teacher education curricula are eligible for student teaching placements. The Council reserves the right to deny student teaching placement to candidates who have not met all requirements of the appropriate Common Assessment Plan. Candidates may also be denied a student teaching placement for health reasons.

Candidates in teacher education should anticipate and plan for student teaching assignments. For most candidates, additional expense will be incurred during the semester in which student teaching is scheduled. Candidates cannot be guaranteed assignments in local schools. Student teaching is a full-time commitment on the part of teacher candidates. Teacher candidates should not plan to take additional coursework outside their program during student teaching, nor should they plan to be employed. School districts have the right to not accept a candidate and therefore, the Council cannot guarantee each candidate a placement. However, each program will exhaust every effort to seek a placement for each candidate.

Candidates are expected to complete all field experiences, including student teaching, at the University of Illinois at Urbana-Champaign. A candidate who wishes to complete student teaching through another university, yet receive a University of Illinois at Urbana-Champaign degree and recommendation for licensure, must secure the prior approval of his or her adviser, clinical experiences program coordinator, college, and the Council on Teacher Education via petition. The petition must be supported by verification from the other university that it will accept the candidate as a student teacher and will comply with all Council on Teacher Education requirements. Approvals of such arrangements are rare, and candidates should expect to incur additional costs. Consult the Council for additional information.

Teacher Licensure

A candidate who completes all of the coursework and other requirements in a program approved for purposes of licensure by the Illinois State Board of Education is entitled to receive the recommendation of the University for the appropriate license and endorsement(s), provided the candidate has met all of the requirements of the appropriate Common Assessment Plan and has passed all licensure tests and assessments required by the State of Illinois. In addition, all professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval must have been passed with a grade no lower than "C" or equivalent in order to be counted towards fulfillment of the applicable requirements. CR/NC and proficiency credit may not be used toward licensure, endorsement, or approvals. However, AP credit may be used.

In some instances a candidate may be denied a recommendation for licensure but be granted a degree by his or her college. A candidate who believes that the recommendation for licensure has been withheld unjustly may seek redress through the grievance policy established by the Council on Teacher Education.

General Education

Candidates for licensure are required to complete coursework that includes the theoretical and practical understanding generally expected of a liberally educated person. General education includes developing knowledge related to the arts, communications, history, literature, mathematics, philosophy, sciences, and the social studies from multicultural and global perspectives. This requirement is satisfied by the University of Illinois general education pattern incorporated into all undergraduate teacher education programs.

Licensure Tests

All candidates for licensure as teachers, school administrators, and school support personnel must pass tests mandated by the Illinois State Board of Education as a condition for licensure. Illinois law requires that applicants to all educator preparation programs pass a test in basic skills (reading, writing, grammar, and mathematics) and a separate test in their major area. All candidates in programs leading to teaching must also pass a teacher performance assessment (edTPA). Candidates for Learning Behavior Specialist I licensure must pass a fourth test: Special Education General Curriculum.

State law requires prospective candidates for licensure as school administrators or school support personnel pass a test of basic skills, as determined by the State, if the Illinois Test of Basic Skills was not passed previously. If the basic skill tests was not already taken and passed, the Test of Academic Proficiency must be passed prior to admission to the educator preparation program. In addition, candidates must pass the appropriate content-area test. Candidates may use an ACT or SAT score to meet the test of basic skills if it meets the ISBE requirements for substitution. See www.cote.illinois.edu/certification/documents/act_procedures_for_admission.pdf (http://www.cote.illinois.edu/certification/documents/act_procedures_for_admission.pdf) for information regarding specific requirements.

Time Limit on Licensure

Because licensure requirements are subject to change at any time as a result of new mandates from the Illinois State Board of Education and the Illinois General Assembly, the University is unable to guarantee a recommendation for licensure to anyone who does not apply for licensure immediately upon completion of licensure requirements. A candidate completing an approved program is strongly encouraged to apply for licensure during his or her last term on campus and claim said license on the Educator Licensure Information System (ELIS) once it has been entitled. Applications for licensure are available on the candidate's student portal or in the Council office. Failure to claim a license through the Educator Licensure Information System once it has been entitled could result in additional requirements should candidate seek to claim license at a later date.

Background Investigation of Applicants for Field Placement and Employment

State law mandates that all candidates for public school licensure in programs under the purview of the Council on Teacher Education complete a criminal background check and checks of the Statewide Sex Offender Database and Statewide Child Murderer and Violent Offender Against Youth Database before they may be placed in schools. Candidates are responsible for all fees connected with this procedure.
Final decisions regarding the placement of candidates in schools are made in agreement between the relevant department/college/program and the school/district.

The criminal background check is typically conducted at the time a candidate enters the program and before student teaching or internship.

Each applicant for employment, which includes student teaching, in an Illinois school district is required to authorize the employing school district to initiate a criminal background check which will include a request for fingerprints. A school district may employ a person, or host a student teacher, only after a background check has been initiated and may not knowingly employ a person, or host a student teacher, who has been convicted of a felony or of attempting to commit certain offenses enumerated in The School Code of Illinois. This criminal background check is in addition to that required for field placements at the University of Illinois at Urbana-Champaign.

Curricula
A candidate seeking licensure must complete the requirements of both his or her chosen curriculum, Council on Teacher Education requirements, and all additional State mandated requirements. Teacher education, school support personnel, and administrator curricula and the colleges and departments that offer them are listed below. All curricula have been approved by the Illinois State Board of Education.

Candidates are advised that licensure requirements may be altered at any time by the Illinois State Board of Education or the legislature. In such cases, candidates may be compelled to satisfy the new requirements to qualify for the University’s recommendation for licensure.

Collelge of Agriculture, Consumer and Environmental Sciences (p. 2)
- Agricultural Education

College of Applied Health Sciences (p. 74)
- Physical Education

College of Education (p. 113)
- Early Childhood Education, Birth - Grade 2 (Includes Early Childhood Special Education Approval)
- Elementary Education, Grades 1-6
- Learning Behavior Specialist I
- Teacher Education Minor in Secondary School Teaching

- Mathematics
- Science: Biology
- Science: Chemistry
- Science: Earth and Space Science
- Science: Physics
- Social Science: History

Graduate College
Graduate-level licensure programs are offered in the areas listed below. For additional information, contact the Council on Teacher Education or departmental office indicated.

Agricultural Education
- College of Agricultural, Consumer and Environmental Science Office of Academic Programs

Director of Special Education
- Department of Special Education

Early Childhood Education
- Department of Curriculum and Instruction

Elementary Education
- Department of Curriculum and Instruction

Foreign Language: Latin
- Department of Classics

Foreign Language: Spanish
- Department of Spanish, Italian, and Portuguese

Learning Behavior Specialist I
- Department of Special Education

Learning Behavior Specialist II
- Options: Curriculum Adaptation, Behavior Interventions, Multiple Disabilities, Transition Specialist
- Department of Special Education

Library Information Specialist
- Graduate School of Library and Information Science

Music
- School of Music

Principal
- Department of Education Policy, Organization and Leadership

Reading Specialist
- Department of Curriculum and Instruction

School Social Worker
- School of Social Work

Secondary Education (English Language Arts, Mathematics, Sciences, Social Science: History)
- Department of Curriculum and Instruction

Speech-Language Pathologist: Non-teaching
- Department of Speech and Hearing Science

Superintendent
- Department of Education Policy, Organization and Leadership

Teacher Leader
- Department of Education Policy, Organization and Leadership

Individuals completing these programs who wish to be able to teach departmentalized subjects in grades five through eight must complete additional coursework and receive the endorsement prior to January 1, 2018. Contact the Council on Teacher Education for additional information.
2 Individuals who entered the Elementary Education program Fall 2014 or after will be entitled for grades 1-6 upon completion of all requirements. Individuals who were admitted Fall 2013 or before will be entitled for K-9 upon completion of all requirements if their program is completed by September 1, 2018 and a license is claimed prior to September 1, 2019. Candidates in this category who wish to be able to teach departmentalized subjects in grades five through eight must complete additional coursework and receive the endorsement prior to January 1, 2018. Contact the Council on Teacher Education for additional information.

3 This minor is a required component of the teaching option within the following Science and Letters majors in the College of Liberal Arts and Sciences: biology, chemistry, English, geology, history, mathematics, and physics. It is available only to students registered in these programs.

4 Per State rules, no candidates may be admitted into this program on or after September 1, 2017. Individuals entering this program must complete program no later that August 31, 2019.

5 Per State rules, no candidate may be admitted into this program on or after September 1, 2016.

Teacher Education Minors

- English as a second language (must be able to obtain ESL endorsement no later than August 31, 2018 as requirements are changing.)
- Mathematics: Grades 9-12

Candidates should be aware that the state recognizes teaching fields that are not listed above. Candidates may obtain subsequent teaching endorsements for any fields for which they satisfy the state minimum requirements. Contact the Council on Teacher Education for additional information regarding the endorsement fields available and the qualifications for each. Endorsement requirements (http://www.cote.illinois.edu/certification/Endorsements.html) are also listed on the Council on Teacher Education Web site. (http://cote.illinois.edu) Further questions may be directed to the Council on Teacher Education.

Minor in Informatics

Allen Renear, Interim Director, Illinois Informatics Institute
3014 NCSA
1205 W. Clark, MC-257
Urbana, IL 61801
PH: 217-333-4930
FX: 217-333-5878
http://informatics.illinois.edu

Contact info- (inf-minor@illinois.edu) minor@illinois.edu, or Karin Readel, the Informatics Education Coordinator at 244-1220, if you have any questions.

The Minor in Informatics will teach you to become a better creator and user of computing technology in your major area and to think critically about new technology’s role in society. No other field has, and will have, a greater influence on humanity in our generation.

Informatics studies the design, application, use and impact of information technology. The ability to handle vast amounts of information cheaply has changed the way we live. Advances in computer power, the World Wide Web, search engines, social networking, mobile technology, GIS, and large-scale collaborative initiatives, to name a few, have revolutionized the way knowledge is created and shared.

Information has become a ubiquitous, indispensable component of our everyday lives, as we strive to manage information, create knowledge, and make decisions.

The Informatics Minor signals that you have concrete expertise in computing and Information Technology (IT) and understand their human implications.

Students from any major interested in applying technology or studying its affect on humanity are encouraged to apply, preferably by the end of sophomore year. Although there are no prerequisites, basic familiarity with computers is expected.

To receive the Informatics Minor students must complete three core courses plus three upper-level classes with sufficient informatics or computational content from an approved list of courses offered from a wide range of disciplines. The core courses are INFO 102, CS 105, and INFO 202. INFO 102 is a broad introduction to computer science and provides an understanding of the nature, capabilities, and limitations of IT. CS 105 is an introduction to computer programming for non-science and non-engineering majors. INFO 202 explores the ways in which IT has and is transforming society and how these technologies affect a range of social, political, and economic issues from the individual to societal levels. Some substitutions can be made. The list of upper-level courses that count toward the minor is here: http://wwwinformatics.illinois.edu/informatics-minor/upper-level-related-course/. This list is dynamic as new classes are added.

4 upper-level, non-CS courses from an Informatics-approved list

Total Hours 18-19

Minor in Global Labor Studies

Global Labor Studies analyzes the interplay of class, gender, race, and labor organizations in the workplace, the economy, and the political arena from a multi-disciplinary and global perspective. A minor in Global Labor Studies requires 18 credit hours in LER Global Labor Studies Courses.

A minimum grade point average of 2.75 is required for completion of the minor and all courses required for the minor must be taken for a grade.

Concentrations

A graduate concentration constitutes a coherent program of study requiring additional breadth or considerable depth of knowledge. A concentration may refer to a subfield within a discipline, or to an interdepartmental and/or interdisciplinary area of knowledge. Concentrations appear on academic transcripts.

Some concentrations (major-based) are only open to a student majoring in the offering department. Other concentrations (floating) are open to students in a broad range of majors. Both types are listed here, with the eligible programs listed below each concentration.

Accountancy (p. 611)
  • Business Administration (M.B.A. (p. 671) and M.S. (p. 657))
  • Finance (M.S.) (p. 737)
  • Technology Management (M.S.) (p. 657)

Major: Accountancy

Degrees Offered: M.A.S., M.S., Ph.D.
Graduate Concentration: Business and Public Policy (p. 739) (M.A.S., M.S.), Corporate Governance and International Business (p. 659) (M.A.S., M.S.), Data Analytics in Accountancy (p. 611) (M.A.S., M.S.), Finance (p. 739) (M.A.S. only), Information Technology and Control (p. 660) (M.A.S., M.S.), Real Estate (M.A.S., M.B.A), Supply Chain Management (p. 660) (M.A.S., M.S.), Taxation (M.A.S. only)

Graduate Minor: Accountancy
Graduate Concentration: Accountancy

Off Campus Program: Major: Taxation
Degrees Offered: M.S.

Graduate Degree Programs
The Department of Accountancy offers on campus graduate programs leading to the degrees of Master of Accounting Science (M.A.S.), Master of Science in Accountancy (M.S.A.), and Doctor of Philosophy in Accountancy. The M.A.S., M.S.A. and Ph.D. degrees are offered on the Urbana-Champaign campus. We also offer the Master of Science in Taxation (M.S.T.) at the Illini Center in Chicago. The master’s degree requirements can be completed in one year. The Ph.D. degree takes approximately four to five years of full-time study and research.

Admission
All applicants for the M.S.A. and Ph.D. programs, domestic or international, are required to take the Graduate Management Admission Test (GMAT). This test should be taken early enough to ensure that the results will be available to the department before action on admission. The admission requirements of the Graduate College also apply, including prior academic performance and references. In addition, all international applicants must take the Internet-Based Test of English as a Foreign Language (TOEFL iBT) or the International English Language Testing System (IELTS) test. The M.S.T. offered in Chicago does not require the GMAT for applicants who meet the two-year minimum work experience requirement. Applications for admission to the doctoral program, supported by three letters of recommendation, must be approved by the department admissions committee, which may require an oral or a written examination.

- Master of Accounting Science (M.A.S.) (p. 609)
- Master of Accounting Science (M.A.S.), Taxation Concentration (p. 609)
- Master of Science in Accountancy (p. 610)
- Master of Science in Taxation (p. 610)

Doctor of Philosophy
The student’s doctoral program is determined in consultation with a faculty advisory committee. The student’s evolving plans for the doctoral thesis serve as a guide in planning the program. Program coursework is comprised of two general categories: core studies and advanced studies within an area of specialization (i.e., a supporting field). The latter coursework is tailored to facilitate the student’s dissertation.

In addition, candidates must pass a written accountancy core examination and both oral preliminary and oral final examinations on the doctoral thesis. In the accountancy core examination, candidates must demonstrate a thorough knowledge of research methods and accounting theory, a general acquaintance with the subject matter of the variety addressed within accountancy doctoral core studies; and proficiency in the required areas of economic theory, quantitative methods, behavioral science and financial economics.

Requirements
Graduate study, at least 16 hours of which are in a supporting field (e.g., economics, finance, psychology).

A two-course introduction to mathematical statistics and probability theory

Accountancy core doctoral seminars: 16

Information listed in this catalog is current as of 03/2017
ACCY 503 Managerial Accounting
or ACCY 517 Financial Statement Analysis
or substitute graduate accountancy courses approved by a program advisor

Total Hours 12

1 For additional details and requirements refer to the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

• Accountancy (p. 611)
• Data Analytics in Accountancy (p. 611)

Master of Accounting Science (M.A.S.) in Accountancy

The M.A.S. program is a one-year program for students who have completed or are pursuing a Bachelor of Science in Accountancy from the University of Illinois at Urbana-Champaign. Each student will select either a Taxation or Audit Option as a primary focus. Each Option (listed below) includes room for graduate electives. By design, the program emphasizes the emerging trend of data analytics in the practice of accounting, with a standard course plan that leads to a graduate concentration in data analytics in accountancy (p. 611) to fulfill the graduate electives. Students have the choice of remaining in the standard course plan or selecting from among the following alternative graduate concentrations to fulfill the graduate elective requirement: finance (p. 739), corporate governance and international business (p. 659), information technology and control (p. 660), business and public policy (p. 739), real estate, and supply chain management (http://catalog.illinois.edu/graduate/graduate-majors/bus-admin-ms/graduate_concentration_in_supply_chain_mgmt). Students who wish to deviate from the standard course plan, but do not wish to pursue a listed graduate concentration, may petition to take other graduate courses of interest subject to approval of an Accountancy Advisor. Admission to a concentration requires application to the Department no later than January 15 for fall admission. Admission to some concentrations may be competitive.

Taxation Option

ACCY 451* Advanced Income Tax Problems 1 4
or ACCY 410* Advanced Financial Accounting
or ACCY 510 Financial Reporting Standards
ACCY 551 Corporate Income Taxation 4
ACCY 552 Partnership Income Taxation 4
ACCY 554 International Taxation 4
ACCY 556 Tax Research 4

Graduate Electives 12

Total Hours 32

1 ACCY 451 and ACCY 410 are currently offered for differential credit (3 hours undergraduate or 4 hours graduate credit). Students in the Taxation option that complete both of these courses during the undergraduate timeframe will take ACCY 510 instead. Students in the Audit Option that complete both ACCY 451 and ACCY 410 for 3 hours of undergraduate credit would either take both ACCY 518 and ACCY 511, or an approved elective. All graduate electives must be approved by an Accountancy Advisor.

Audit Option

ACCY 510 Financial Reporting Standards 4
ACCY 515 Auditing & Assurance Standards 4
ACCY 517 Financial Statement Analysis 4
ACCY 451* Advanced Income Tax Problems 1 4
or ACCY 410* Advanced Financial Accounting
ACCY 511 External Risk Measurement and Reporting 4

Graduate Electives 12

Total Hours 32

1 ACCY 451 and ACCY 410 are currently offered for differential credit (3 hours undergraduate or 4 hours graduate credit). Students in the Taxation option that complete both of these courses during the undergraduate timeframe will take ACCY 510 instead. Students in the Audit Option that complete both ACCY 451 and ACCY 410 for 3 hours of undergraduate credit would either take both ACCY 518 and ACCY 511, or an approved elective. All graduate electives must be approved by an Accountancy Advisor.

Other Requirements 2

Other requirements may overlap

All 32 graduate hours must be completed at the University of Illinois at Urbana-Champaign.

Minimum GPA: 3.0

2 For additional details and requirements refer to the department's program information online (https://business.illinois.edu/accountancy/programs/mas) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Master of Accounting Science (M.A.S.) in Accountancy, Taxation Concentration

The M.A.S. program is a one-year program for students who have completed or are pursuing a Bachelor of Science in Accountancy from the University of Illinois at Urbana-Champaign. The Concentration in Taxation is one of the primary options available within the MAS program. Students in the Taxation concentration may pursue a second optional concentration. If admitted to a second concentration, the coursework for the second concentration may also count toward the Graduate Elective requirements for the MAS degree. Second concentration options include:

• Business and Public Policy
• Data Analytics for Accountancy
• Finance
• Corporate Governance and International Business
• Information Technology and Control
• Real Estate
• Supply Chain Management

ACCY 551 Corporate Income Taxation 4
ACCY 552 Partnership Income Taxation 4
ACCY 556 Tax Research 4
ACCY 554 International Taxation 4

Information listed in this catalog is current as of 03/2017
Graduate electives (students have the option to pursue one of the Concentrations open to MAS students).

*ACCY 451 and ACCY 410 are currently offered for differential credit (3 hours undergraduate or 4 hours graduate credit). Students in the Taxation option that complete both of these courses during the undergraduate timeframe will take ACCY 510 instead.

Course substitutions may be approved by the Department of Accountancy.

Other requirements may overlap.

For additional details and requirements refer to the department’s program information online (https://business.illinois.edu/accountancy/programs/msa) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

### Master of Science in Accountancy

The University of Illinois at Urbana-Champaign has consistently ranked among the top accountancy schools in the United States. The Public Accounting Report and Accounting Degree Review have rated the Illinois graduate accounting program as one of the top accountancy masters programs in the United States.

The MS in Accountancy (MSA) program offers a one year accounting degree. Our students include those with limited prior accounting education as well as students with an undergraduate degree in accounting. The MSA core curriculum applies to all of our students. However, for those students who have previously taken significantly equivalent courses to any of those in our core curriculum, we will work with our students to find a suitable replacement to recognize the sufficiency of their prior accounting education. Our MSA program prepares students for success in accounting careers and provides the academic prerequisites for candidates who wish to take the United States Uniform Certified Public Accountant (CPA) exam.

Although successful completion of our students’ academic requirements will always take top priority, our MS in Accountancy program also strives for a balanced approach to our students’ experience. We aim to help every student become a more complete accounting professional by delivering an intentional multi-faceted student experience that focuses on technical and non-technical business skill development. We will deliver on our commitment to provide each student with more than just an accounting degree. That’s what makes our MSA program distinctive.

The MSA program begins in June each year with Summer Session II.

Total Hours 32

An optional CPA Review course (ACCY 398) is available. The credit hours for the CPA Review Course do not count towards the 32 credit hours required to graduate.

International students with TOEFL scores below 613 (paper-based), 257 (computer-based), or 103 (internet-based), or IELTS score below 7.0, are required to take the English Placement Test (EPT) when they arrive on campus. After taking the EPT, most students are required to take a Business English course (ESL 505). For these students, completion of the ESL 505 course is mandatory but does not count towards the 32 hour degree requirement.

1. For additional details and requirements refer to the department’s program information online (https://business.illinois.edu/accountancy/programs/msa) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

### Master of Science in Taxation

The Master of Science in Taxation (M.S.T) is an executive-style degree offered only at the Illini Center in Chicago. The M.S.T. is a one-year program for students with at least two years of work experience. The program begins in May and meets weekly on Friday afternoons and all day Saturday. Students applying for admission should have acquired a background in business and an accounting undergraduate major from an accredited college or university.

Graduation requires 36 graduate hours of study that consists of twelve required courses delivered in three thirteen-week semesters.

Total Hours 36
Other Requirements

Minimum 500-level Hours Required 36
Overall:
Minimum GPA: 3.0

For additional details and requirements refer to the department’s program information online (https://business.illinois.edu/mst) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

ACCY 557 may be repeated for up to 6 hours if topics vary.

Graduate Concentration in Accountancy

This concentration is available to students in the following degree programs:

- Master of Science in Finance (MSF)
- Master of Science in Technology Management (MSTM)
- Master of Business Administration (MBA)
- Master of Science in Business Administration (MSBA)

ACCY 501 Accounting Analysis I 4
ACCY 502 Accounting Analysis II 4
ACCY 503 Managerial Accounting 4
or ACCY 517 Financial Statement Analysis

Or, substitute graduate accountancy courses approved by an Accountancy MSA program advisor.

Total Hours 12

Other Requirements

In addition to the concentration requirements, students must also complete the requirements of their major degree.

Graduate Concentration in Data Analytics in Accountancy

The Data Analytics in Accountancy Concentration is designed to develop leaders who understand (1) how to apply data analytics in a variety of accounting and business contexts, (2) critically solve business problems using data-intensive business and accounting information, and (3) synthesize and effectively communicate data-intensive information, findings, and conclusions to other environment-constituents, including supervisors, peers, and subordinates, clients, and regulatory agencies. This concentration will not only provide a strong foundational knowledge of data analytics, but also provide students multiple opportunities to apply this knowledge via experiential learning opportunities.

ACCY 570 Data Analytics Foundations for Accountancy 4
ACCY 571 Statistical Analyses for Accountancy 4
ACCY 575 Data Analytics Applications in Accountancy 4

Total Hours 12

Other requirements

Other requirements may overlap.
team-oriented in their approach to management and communications; and be prepared to continue to learn as the media environment evolves.

Admission

I. Admission to graduate study in advertising requires completion of the requirements for a bachelor's degree in an accredited institution of recognized standing. Applicants are required to submit results from either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT) and are required to upload to the application a short essay indicating why they want to pursue graduate work in advertising. The Department of Advertising requires non-native English-speaking applicants to show evidence of English proficiency, which is provided by a satisfactory score on the Test of English as a Foreign Language (TOEFL). Minimum scores for TOEFL (international students only): 253 (CBT), 104 (IBT), 607 (PBT), and IELTS greater than 6.5. Three letters of recommendation are required. Transcripts from all universities that you have attended must be submitted (note: can be uploaded in your application). The required method of applying is online through the Graduate College Web site, and the Graduate College admission requirements also apply, see http://www.grad.illinois.edu/admissions/apply/requirements. Completed applications are due February 1, and applications are accepted for fall admission only.

II. Admission to the MS in Strategic Brand Communication program, applicants are expected to have a minimum grade point average of at least 3.0 (A = 4.0) for the last two years of undergraduate study and a 3.0 for any previous graduate work completed. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOEFL) score of 102 (CBT), 253 (CBT), or 610 (PBT) or minimum International English Language Testing System (IELTS) exam scores of 6.5 overall and 6.0 in all subsections. Prerequisite: course in Statistics or Calculus from an accredited institution. The admissions criteria will be based upon an evaluation of each applicant's academic and professional experience, GPA, English aptitude, and letters of recommendation.

A minimum GPA of 2.75 is required for continued enrollment.

Faculty Research Interests

Faculty profiles (https://media.illinois.edu/degrees/advertising-bs-ms/faculty/faculty-profiles) are available at the Advertising Department’s Web site.

- Master of Science in Advertising (p. 612)
- Master of Science in Strategic Brand Communication (p. 662)

M.B.A. Joint Degree Program

Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements and contact the M.B.A. program and their major department office for more information.

Master of Science in Advertising

Students are required to complete 36 hours towards the degree, including a professional project or thesis requirement. Full-time status requires 12 hours per semester, making it possible to complete the degree in three semesters. Admission is only granted for fall semester.

A graduate course listing (https://courses.illinois.edu) for Advertising students is available online.

Total Hours: 36

Other Requirements ¹

Other requirements may overlap.

Minimum hours required within the unit:

Minimum number of 500-level hours required overall in the program:
Admission to the graduate program for both fall and spring semesters. The Department of Aerospace Engineering accepts applications for admission to the graduate program. Additional information about the Aerospace Engineering graduate program may be found on the department's graduate program Web site (http://www.ae.illinois.edu/graduate-programs).

Aerospace Engineering

Philippe Geubelle
306 Talbot Laboratory
104 South Wright Street
Urbana, IL 61801
PH: (217) 333-2651
http://aerospace.illinois.edu/

Director of Graduate Programs: Gregory S. Elliott
E-mail: ae@illinois.edu (aerospace@illinois.edu)

Major: Aerospace Engineering
Degrees Offered: M.S. and Ph.D.

Online Program: Aerospace Engineering. M.S.

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Aerospace Engineering and Doctor of Medicine (M.D. through the Medical Scholars Program (http://www.med.illinois.edu/msp))

Graduate Degree Programs

The Department of Aerospace Engineering (AE) offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy. The AE graduate program provides students with a strong background in engineering and applied science while placing emphasis on aircraft and spaceflight engineering. Students may major in one of the following general areas: aerodynamics, astrodynamics, combustion and propulsion, control systems, dynamical systems, fluid mechanics, structural mechanics, and materials. Opportunity also exists for specializing in:

1. computational science and engineering,
2. energy and sustainability engineering, and
3. systems engineering within the department’s graduate programs

via the Computational Science and Engineering (CSE) (http://www.cse.illinois.edu/education) transcriptable certificate, the Energy and Sustainability Engineering (EaSE) Option, (http://eae.illinois.edu) and the Systems Engineering Option (SE) (http://aerospace.illinois.edu/graduate-programs/aerospace-systems-engineering).

The Medical Scholars Program (http://www.med.illinois.edu/msp) permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Aerospace Engineering. Additional information about the Aerospace Engineering graduate program may be found on the department’s graduate program Web site (http://www.ae.illinois.edu/graduate-programs).

Admission

The Department of Aerospace Engineering accepts applications for admission to the graduate program for both fall and spring semesters. The application deadline for the fall semester for the Ph.D. and M.S. with Thesis programs and for full consideration for funding opportunities is January 1. The application deadline for the MS Non-thesis and the MS Non-thesis Systems Engineering option for the fall semester is July 1. The deadline for spring admission for all programs is October 8.

Typically, the prerequisite for graduate study is the equivalent of the B.S. in aerospace engineering (http://aerospace.illinois.edu/undergraduate-programs); however, graduates of curricula leading to degrees in other fields of engineering, the physical sciences, or mathematics may also be admitted to advanced study. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, having a GPA higher than the minimum is no guarantee of admission. Scores on the Graduate Record Examination (GRE) (http://ets.org) general test are required of all applicants. There are no minimum score requirements.

Applicants to the Aerospace Engineering graduate program are asked to complete a supplemental form that will capture additional information about their specific interests. Applicants receive an email after submitting the online application which contains the link to the supplemental form. Applicants may select up to three areas from the following list:

- aerodynamics
- aerelasticity
- astrodynamics
- combustion
- computational mechanics
- control and estimation
- dynamical systems
- experimental mechanics
- fluid mechanics
- information technology
- materials
- propulsion
- robotics
- structural mechanics-structural dynamics
- systems engineering

All applicants whose native language is not English are required to submit a minimum TOEFL (http://www.toefl.org) score of 103 (iBT), 257 (CBT), or 613 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 7.0 overall and 6.0 in all subsections. No exemptions from the TOEFL are granted by the department. Full admission status (http://grad.illinois.edu/admissions/instructions/04c) is granted for those meeting the minimum requirements and having taken the TOEFL or IELTS since the scores required for admission to Aerospace Engineering are above the minimum scores demonstrating an acceptable level of English language proficiency. Applicants wishing to be considered for teaching assistantships must score 24 on the SPEAK portion of the TOEFL exam.

Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both Aerospace Engineering and the College of Medicine. An application to the Medical Scholars Program will also serve as the application to the Aerospace Engineering graduate program. Further information on this program is available by contacting
the Medical Scholars Program (125 Medical Sciences Building, (217)-333-8146, mspo@illinois.edu.

Full information on admission requirements and how to apply, see the department’s graduate programs Web site (http://www.ae.illinois.edu/graduate-programs).

Medical Scholars Program

Students in the Medical Scholars program must meet the specific requirements for both the medical (http://med.illinois.edu/mdphd) and graduate degrees. On average, students take eight years to complete both degrees. The first year of the combined program is typically spent meeting requirements of the Aerospace Engineering graduate degree.

Graduate Teaching Experience

M.S. students are not required to hold a teaching assistantship. Ph.D. students are required to hold a 25% teaching assistantship for at least one semester in order to meet the requirements for the Department of Aerospace Engineering doctoral program. Information about teaching assistantships can be found in the department’s Web site (http://aerospace.illinois.edu/graduate-programs/funding-opportunities).

Faculty Research Interests

Research activities in the AE Department encompass a wide range of problem areas in aerospace engineering and related engineering disciplines cited in the Graduate Programs section above and more fully described at the department’s research area Web site (http://aerospace.illinois.edu/research).

Centers, Programs, and Institutes

Several nationally renowned interdisciplinary centers exist within the College of Engineering in which Aerospace Engineering faculty members along with many other campus faculty engage in research. A list of these, along with links to full descriptions, appears at the department’s interdisciplinary centers Web site (http://aerospace.illinois.edu/research/interdisciplinary-centers). Among these are the Beckman Institute for Advanced Science and Technology, the Center for the Simulation of Advanced Rockets (CSTAR), the Coordinated Science Laboratory (CSL), the Micro and Nanotechnology Laboratory, and the National Center for Supercomputing Applications (NCSA).

Facilities and Resources

Members of the Aerospace Engineering Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department’s research laboratories Web site (http://aerospace.illinois.edu/research/research-laboratories).

Financial Aid

Students in the M.S. non-thesis option are not provided funding by the department. Financial aid for graduate students in thesis graduate programs is available in the form of fellowships, teaching and research assistantships. A block grant from the National Aeronautics and Space Administration supports a multidisciplinary research and training program. Qualified candidates are considered for financial support upon application. In addition, graduate students making satisfactory progress toward their degrees may also be considered for financial support. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (http://www.grad.illinois.edu/admissions/taengprof.htm) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test (http://cte.illinois.edu/testing/oral_eng/epi_overview.html), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (http://cte.illinois.edu/programs/ta_train.html) conducted prior to the start of the semester.

2 Qualifying Exam information

---

**Online Program**

The degree requirements are the same as for the on-campus non-thesis M.S. program (p. 614)—32 hours of course work—and the degree awarded to online students is the same degree awarded to resident students. Online students have five years to complete the program.

Students should develop a course program plan in consultation with their advisor. Suggested program tracts ([http://aerospace.illinois.edu/](http://aerospace.illinois.edu/))
graduate-programs/graduate-degree-programs/suggested-program-tracks) are provided for each of the three main technical divisions in the department:

1. Aerodynamics, Fluid Mechanics, Combustion and Propulsion (AFMCP);
2. Astrodynamics, Controls and Dynamical Systems (ACDS); and

The Aerospace Systems Engineering option (http://aerospace.illinois.edu/graduate-programs/aerospace-systems-engineering) is also available online.

**Joint M.B.A. Program**

Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements (p. 673) (link to MBA POS) and contact the M.B.A. program and their major department office for more information.

Graduate Degree Programs

The Center for African Studies administers a two-year program of area studies courses and intensive African language instruction leading to a Master of Arts degree designed to give students an interdisciplinary perspective on the study of Africa. The program provides both language and area training for three constituencies of students: those seeking to match area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those for whom the degree would stand on its own. For more information about the Center’s graduate programs, please visit: http://www.afrst.illinois.edu/academics/grad/.

Admissions

The Center for African Studies admits students in the fall term only. Applicants to the Masters degree in African Studies should hold at least a Bachelor’s degree from an accredited college or university in the United States or from a recognized institution of higher education abroad. All graduate college admission requirements also apply. The Center does not require the Graduate Record Examination (GRE) scores, but it is highly recommended for students applying for the Foreign Language and Area Studies (FLAS) fellowship. Successful applicants should have a grade point average of at least 3.0 (4.0=A) calculated for the last 60 semester hours of undergraduate course work. International applicants or applicants whose native language is not English must have a minimum TOEFL score of 550 on the paper-based test (PBT) – 213 on the computer-based test (CBT) or 79 on the internet-based test (IBT). For more information about the Center’s admission requirements and procedures, and deadlines please visit www.afrst.illinois.edu/academics/grad/apply/ (http://www.afrst.illinois.edu/academics/grad/apply/).

Students interested in the minor must be in good standing in a graduate program, have permission from the major program, and demonstrate an interest in African Studies. For more information, contact the Center.

Faculty Research

The Center for African Studies’ has both core and affiliate faculty represented in over 34 units across campus encompassing various disciplines in the humanities and social sciences, as well as in professional schools. The faculty is the backbone of the Center and constitutes the most critical element of the graduate experience. They excel in teaching at all levels and have a strong commitment to innovative research. Both Center faculty and teaching assistants have received numerous college and campus teaching awards. For more information about the Center faculty, please visit: http://www.afrst.illinois.edu/people/faculty/

Facilities and Resources

Established since 1970, the Center for African Studies is one the largest and most dynamic African National resource Centers in the country. The Center promotes excellence in research and teaching on Africa in all disciplines. The Center also exists to increase and disseminate knowledge about Africa to the larger community through various outreach activities to colleges, schools, community groups and businesses. At a time when the university of Illinois is expanding its international dimension, the Center for African Studies is dedicated to promoting a vibrant African Studies program and to fostering an understanding of Africa and African peoples through research, teaching and various Africa-related programs and events. The Center organizes a wide range of activities including conferences, lectures, film festivals, art exhibits, language institutes, workshops, and symposia. In addition, the Center regularly hosts visitors from the United States and abroad, namely Africa, and is strongly committed to developing linkages with individuals and institutions based in the African continent.

The Africana Library is among the finest in the world. The collection covers all African countries and includes materials in more than 150 African languages. The collections are interdisciplinary, in all formats, and concentrated mainly in the humanities, social sciences, and agriculture. The Library has an extraordinary collection of primary source materials for Africana, and has acquired approximately 100 printed sources and 85 microform collections (over 10,000 pieces) covering all areas of Africa. The collection also includes 120,000 pages of Arabic manuscripts and thousands of government documents. African materials in European and African languages at the University of Illinois Libraries include more than 180,000 books (including 15,000 in Arabic, and 3,000 in Bamana, Hausa, Lingala, Swahili, and Zulu); 2,800 journals; 46,000 maps; 10,000 microforms; over 250 videotapes, 37 newspapers, and several CD-ROMs.

The African studies bibliographer runs the Africana library and teaches IS 530, one of the Center’s core courses and plays a key role in the Center’s graduate program. For further information about the Africana library, please visit: http://www.library.illinois.edu/ias/africana/

Financial Aid

The Center for African Studies is a Title VI African National Resource Center funded by the U.S. Department of Education. Each year the center is generally able to assist a limited number of graduate students in area studies through awards of Foreign Language and Area Studies (FLAS) Fellowships. The Center evaluates and ranks incoming students on the basis on academic promise. Funding usually covers the fall and spring semesters. The center cannot guarantee multiple years of funding, but considers it a priority to provide financial support to eligible students until completion of their program. African Studies MA Students can also apply for the FLAS fellowship through the Center for Global Studies. The Center for African Studies has graduate assistantships which include a tuition and fee waiver, but they are very limited. Students may be eligible to compete for other fellowships on campus. Students are also encouraged to check with the graduate fellowships office (https://www.grad.illinois.edu/fellowship) for funding opportunities. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in GSLIS. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition. More information about funding opportunities is available at: http://www.afrst.illinois.edu/academics/grants/.

M.S. African Studies and M.S. Library and Information Science

This joint master's degree includes a program of language and area studies courses leading to an interdisciplinary Master of Arts degree in African Studies as well as a program of study leading to the Master of Science in Library and Information Science. The joint degree matches area expertise with professional education, and prepares students for professional careers in all types of information organizations, including libraries. Students will enroll in LIS their first semester and thereafter be enrolled as students in African Studies.

Thesis Option

IS 501 Information Organization and Access 4
IS 530 Information Needs of Particular Communities 2 or 4
IS 590 Advanced Problems in IS 1 to 4
IS 502 Libraries, Information and Society 2 or 4

Graduate Minor in African Studies

The interdisciplinary graduate minor in African Studies promotes training in African Studies for masters and doctoral students in other disciplines interested in complementing their degree program with an interdisciplinary perspective on Africa.

Note: Students within the major cannot minor in the same program.

AFST 522  Development of African Studies  4

Electives hours that relate to Africa that are outside the student’s major department. At least four hours must be at the 500 level.

A minimum of four semesters of college level study of an African language. NOTE: Hours for language cannot be applied toward minor requirements.

Total Hours  12

Other Requirements ¹

If the student’s thesis deals in whole or in part with Africa, it is strongly recommended that a faculty member from the Center be a formal member of the student’s committee.

¹ For additional details and requirements refer to the department’s Graduate Programs (http://www.afrst.illinois.edu/academics/grad) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Agricultural Education

David Rosch, Graduate Program Coordinator
174 Bevier Hall
905 South Goodwin Avenue
Urbana, IL 61801
PH: (217) 333-3165
http://aged.illinois.edu/

E-mail: aces-aged@illinois.edu

Major: Agricultural Education

Degrees offered: M.S.

Online and Off-Campus Programs: Agricultural Education

Degrees offered: M.S.

Graduate Degree Programs

The M.S. in Agricultural Education is a professional degree for training classroom-based educators and community and organizational developers to address issues as they pertain to teaching and learning in and about the agricultural, life, and environmental sciences. Students are typically interested in either furthering their career in Extension, agricultural classrooms in secondary education, professional organizations in training and supervisory roles, or community development. We also work with students interested in gaining licensure for teaching agriculture in Illinois public schools for grades 9-12.

Admission

We are looking for highly motivated students with strong academic records. Students with backgrounds in agriculture, education, behavioral or social sciences are especially encouraged to apply. The minimum undergraduate grade-point average for admission is 3.0 (A = 4.0). Applicants for the online/off-campus program are not required to take the Graduate Record Examination (GRE). International applicants from non-English-speaking countries must have official TOEFL scores of at least 575 (written version) or 233 (computer-based version) to be eligible for admission. To receive full consideration for admission (and financial aid opportunities if you are applying for the full-time, on-campus program), please apply by February 15 for possible admission the following fall semester or September 15 for possible admission to the following spring semester.

In addition to meeting the above criteria, applicants interested in gaining a teaching license in the state of Illinois must pass the Illinois Certification Testing System test of Basic Skills test prior to admission. If taking this examination prior to admission presents substantial hardship (e.g., the applicant is from another state), the applicant should contact the director of the agricultural education graduate program to discuss the possibility of a conditional admission. Students conditionally admitted must pass the examination by the end of the first semester of enrollment. Each applicant’s undergraduate transcript will be evaluated for completion of general education courses required for certification by the Illinois State Board of Education. Students with deficiencies may be admitted with the stipulation that these be met before completion of the master’s program.

Financial Aid

We are committed to funding as many of full-time on-campus students who are making timely progress as possible. The duration and amount of our commitment varies. Funding may include fellowships, research assistantships, and/or teaching assistantships. These opportunities typically include stipends and tuition waivers. In some cases, fees are also waived. All applicants are automatically considered for all department funding opportunities; there is no separate application process. Federal and state financial aid is completely separate from the support provided by our department. For information regarding federal and state financial aid, please refer to www.osfa.illinois.edu/ (http://www.osfa.illinois.edu/)

Agricultural Education electives 3-4

Electives in agriculture or education ² 10-11

¹ Information listed in this catalog is current as of 03/2017
Other Requirements

Other requirements may overlap

Minimum 500-level Hours Required Overall: 12, 8 must be in the unit
Minimum GPA: 2.75

1. Requirement may be waived if taken as an undergraduate at UIUC. If waived, student may substitute this credit requirement with an agricultural education or technical subject matter elective.

2. Students may take up to four credit hours in agricultural education to fulfill the technical subject matter course requirements. This is only recommended for students completing a thesis (AGED 599 credits) or for students who desire to take an agriculture content course for teachers (i.e. AGED 500).

3. The applied research option requires the completion of a thesis, and the program development and online options require the completion of a project in the area of agricultural education, broadly defined, and submission of a research/professional paper.

4. For additional details and requirements refer to the department’s Graduate Program Information and the Graduate College Handbook.

Online Program

Agricultural Education can be pursued as an online degree. Please refer to http://aged.illinois.edu/grad/online-MS for more information.

Urbana, IL 61801
(217) 333-1044
E-mail: cdthoma2@illinois.edu
Illinois PSM: psmdegree@illinois.edu

Major: Agricultural Production
Degrees Offered: M.S.
Graduate Concentration: Professional Science Master’s (M.S. only)

Graduate Degree Programs

The College of Agricultural, Consumer and Environmental Sciences (ACES) offers graduate work leading to the Master of Science degree with a Major in Agricultural Production and Concentration in Professional Science Master’s (PSM). Fields of specialization within this interdisciplinary program include Food Animal Production, Crop Production, and Sustainable Production Systems. In addition to the rigorous scientific training in the area of agricultural production, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities.

Admission

Candidates for admission to the M.S. and Ph.D. programs must have a bachelor’s degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. A grade point average of 3.0 or higher (A = 4.0) for the last 60 hours of undergraduate work and for any graduate study is required for admission. Graduate Record Examination (GRE) scores are required of all applicants and the minimum acceptable Test of English as a Foreign Language (TOEFL) score is 590 on the paper-based test, 243 on the computer-based test, or 79 on the internet-based test. Applications are only accepted for the fall semester. Transfer credit may not be applied.

Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted.
Master of Science in Agricultural Production, Professional Science Master’s Concentration

Major: Agricultural and Biological Engineering
Degrees offered: M.S. and Ph.D.

Major: Technical Systems Management
Degrees offered: M.S.

Graduate Concentration: Professional Science Master’s

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Agricultural and Biological Engineering and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://med.illinois.edu/mdphd)

Graduate Degree Programs

The Department of Agricultural and Biological Engineering offers a graduate degree program which is at the forefront of the application of engineering principles to solve problems of agricultural production, utilization, environmental control, and biological systems and to improve the quality of life. Students may concentrate study in one of the faculty research interest areas listed below. Supporting course work includes: mathematics; computer science; statistics; engineering mechanics; chemical, civil, electrical, and mechanical engineering; animal science; crop sciences; food science; and other appropriate fields. Opportunity also exists for specializing in

1. computational science and engineering and
2. energy and sustainability engineering within the department’s graduate programs via the Computational Science and Engineering (CSE) Option (http://cse.illinois.edu/education/cse-educational-programs-overview) and the Energy and Sustainability Engineering (EaSE) Option (http://ease.illinois.edu)

The Medical Scholars Program (http://med.illinois.edu/mdphd) permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Agricultural and Biological Engineering.

Admission

Admission requirements for either master’s program include completion of an undergraduate program equivalent to the Agricultural and Biological Engineering (ABE) curriculum (in the case of the ABE M.S.) or the Technical Systems Management (TSM) curriculum (in the case of the TSM M.S.) with at least a 3.0 grade point average (A = 4.0) for the last two years of undergraduate course work. Applicants must submit Graduate Record Examination (GRE) scores.

Admission to the Ph.D. program is limited to individuals who have demonstrated exceptional ability through outstanding performance in obtaining a Master of Science degree and/or through a high degree of technical and professional accomplishment. Candidates must also satisfy entrance requirements for the M.S. degree program.

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 88 (iBT), 230 (CBT) or 570 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 6.5 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (http://grad.illinois.edu/admissions/instructions/04c) are met. For those taking the TOEFL or IELTS, full admission status (http://grad.illinois.edu/admissions/instructions/04c) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status (http://grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) taken upon arrival to campus.

For additional details and requirements for all degrees, please refer to the program’s Graduate Degree Requirements (http://www.psm.illinois.edu/prospectivestudents/programs/agripro.html) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both Agricultural and Biological Engineering and the College of Medicine. An application to the Medical Scholars Program will also serve as the application to the Agricultural and Biological Engineering graduate program. Further information on this program is available by contacting the Medical Scholars Program (125 Medical Sciences Building, (217) 333-8146, mspo@illinois.edu).

Medical Scholars Program

Students in the Medical Scholars program must meet the specific requirements for both the medical (https://www.med.illinois.edu/mdphd) and graduate degrees. On average, students take eight years to complete both degrees. The first year of the combined program is typically spent...

Thesis Option

Thesis Option coursework have been completed.

The Department after at least two semesters of graduate enrollment in the Thesis Option of the ACE M.S. program or in the ACE of a thesis. The Non-Thesis Option is available only to students already committee. The Non-Thesis Option requires advanced coursework in lieu coincides with an open departmental seminar, administered by the thesis The thesis is defended in a formal oral examination, which usually be admitted only to the Thesis Option. For the Thesis Option, a thesis

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Agricultural and Applied Economics. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-6146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Master of Science in Agricultural and Applied Economics

The M.S. offers considerable flexibility. Students using the degree as a foundation for a doctorate emphasize economic theory and analytical research tools. Students seeking the terminal master’s degree focus their study on the concepts and analytical techniques used by analysts and managers in industries, governments, and other organizations.

Students must earn a 3.0 (A = 4.0) GPA for a minimum of 32 graduate hours of credit. M.S. students entering the ACE graduate program will be admitted only to the Thesis Option. For the Thesis Option, a thesis is prepared under the supervision of a faculty advisory committee. The thesis is defended in a formal oral examination, which usually coincides with an open departmental seminar, administered by the thesis committee. The Non-Thesis Option requires advanced coursework in lieu of a thesis. The Non-Thesis Option is available only to students already enrolled in the Thesis Option of the ACE M.S. program or in the ACE Ph.D. program. Application for admission to the Non-Thesis Option is by petition to the Department after at least two semesters of graduate coursework have been completed.

Doctor of Philosophy in Agricultural and Applied Economics

The Doctor of Philosophy is a research-oriented degree that prepares successful candidates for positions in higher education, governmental agencies, nongovernmental organizations, and the research and management functions of the private sector. In consultation with a faculty advisor, students develop an area of specialization to fit their career aspirations. Typical areas of specialization include:

- agricultural finance
- environmental and natural resource economics
- family and consumer economics
- farm and agribusiness management
- international and policy economics
- price analysis and agricultural marketing
- regional economics and public policy

Students pursue coursework in theory, quantitative methods, and their area of specialization; pass a written core exam, a second-year research paper requirement, an oral preliminary examination which includes the formal proposal for dissertation research; and complete and defend a
dissertation. The core courses cover the theory and quantitative methods upon which advanced research, teaching, and service in ACE are based. The specialty courses build on the knowledge gained in the core courses and provide an understanding of the application of economic theory and the tools of economic analysis. Students are encouraged to complete substantial coursework in other departments, such as economics, finance, and business administration.

A 3.0 (A = 4.0) GPA is required in all courses completed in the program.

Core courses 24-28
4 hours (minimum) of quantitative methods beyond the courses specified in the core 4
16 hours at the 500 level to define two fields of expertise. At least 8 of those 16 hours must be in ACE 16
4 hours in Advanced Research and Scholarly Communication (ACE 561) 4
ACE 599 Thesis Research (max applied toward degree) 32
Total Hours 64

Other Requirements
Other requirements may overlap

Minimum Hours Required Within the Unit at the 500-Level: 16 excluding indep study, 599 and core courses
A written paper in the form of a journal article approved by the research paper committee and presented at a department conference.

Masters Degree Required for Admission to PhD? Yes, but students meeting specific conditions may petition to move from the M.S. to the Ph.D. program within three semesters. Students who take this route must complete 96 total hours.

Written Core Exam Required Yes
Preliminary Exam Required Yes
Final Exam/Dissertation Defense Required Yes
Dissertation Deposit Required Yes
Minimum GPA: 3.0

1 For additional details and requirements refer to the department’s Graduate Program information for the Ph.D. degree (http://ace.illinois.edu/graduate/phd-requirements) and the Graduate College Handbook (http://www.grad.uiuc.edu/gradhandbook).

M.B.A. Joint Degree Program

Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements and contact the M.B.A. program and their major department office for more information.

M.U.P. Joint Degree Program

For joint programs, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of (a) 80 hours, or (b) the sum of 40 Urban Planning hours plus the required number of hours for the second degree, whichever is greater. (In the latter case, the other program may at its discretion count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as students are required to take no fewer than 40 additional hours in that program.) The MUP capstone requirement may be waived for a thesis completed in another program provided faculty from both programs participate on the thesis committee. Students must be in residence in Urban Planning for at least two semesters.

Consult the department’s M.U.P. joint degree (http://www.urban.illinois.edu/academic-programs/mup/mup_joint.html) webpage for more information about the admissions process and joint degree requirements. For additional guidance, please contact the Director of the M.U.P. Program.

Animal Biology

www.life.illinois.edu/animalbiology

Head of the Department: Andrew Suarez

Urbana, IL 61801
(217) 333-7801
E-mail: ab@life.illinois.edu

Major: Biology
Degrees Offered: M.S., Ph.D.
Graduate Concentration: Ecology, Ethology & Evolution (in all degrees)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Biology-Ecology, Ethology & Evolution and Doctor of Medicine (M.D.) through the Medical Scholars Program (https://www.med.illinois.edu/mdphd)

Graduate Degree Programs

The Department of Animal Biology administers graduate degree programs as concentrations in biology. Areas of training include physiological, population, community, and evolutionary ecology; population, molecular and quantitative genetics; evolutionary biology, behavioral ecology and evolution, physiology, evolution and development, functional anatomy, systematics, and conservation biology.

Admission

Acceptance for graduate study in animal biology is based on the applicant’s research potential and academic achievement. An undergraduate degree in the life sciences is the usual preparation, but students majoring in mathematics, computer science, or the physical and social sciences are also considered. Courses required for admission are inorganic and organic chemistry, a year of physics, and mathematics through calculus. Students lacking one or more of these courses may be admitted with the provision that such deficiencies be completed in addition to the normal graduate course load. A grade point average of at least 3.0 (A = 4.0) for the last two years of undergraduate work in a four-year undergraduate degree program or the last three years of a five-year undergraduate program and for any graduate study is mandatory, and good scores on the Graduate Record Examination (GRE)

Information listed in this catalog is current as of 03/2017
are necessary. Considerable emphasis is placed on a student's interest and ability in research as demonstrated by previous work and letters of recommendation. Applications are considered for fall admission only. The deadline for application materials is January 1. A minimum paper-based Test of English as a Foreign Language (TOEFL) score of 570 (230 on the computer-based version, 88 on the internet-based version) is preferred for international applicants.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Biology-Ecology, Ethology & Evolution. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Financial Aid

Financial aid is available in the form of fellowships and teaching and research assistantships for qualified students.

Doctor of Philosophy in Biology with Concentration in Ecology, Ethology & Evolution

Candidates for the Ph.D. degree must demonstrate excellence by examination and, in consultation with an adviser and doctoral committee, plan and carry out original thesis research with distinction. A preliminary examination evaluating the ability of students to integrate subject matter related to their fields is given during the third year. Additional requirements may be prescribed by the adviser and doctoral committee. A final examination, in which the student defends the thesis, and a presentation of the thesis at the departmental seminar complete the program.

Courses in statistics are required

Degrees offered: M.S.
Graduate Concentration: Animal Sciences

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Animal Sciences and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.illinois.edu/mdphd)
Graduate Degree Programs

The Department of Animal Sciences offers graduate work leading to the Master of Science and Doctor of Philosophy degrees. Fields of specialization include:

- animal breeding and genetics
- animal behavior
- biochemistry
- environmental physiology
- immunobiology
- meat science and muscle biology
- microbiology
- nutrition
- systems of animal management and production
- physiology of lactation
- physiology of reproduction

Beef and dairy cattle, horses, poultry, sheep, swine, and a variety of companion and laboratory animals are available for study.

The genomic and proteomic projects are generating large amounts of complex biological data that require effective storage, retrieval, analysis and interpretation. The bioinformatics degree program provides students with the skills necessary to augment the understanding and use of agricultural, biological and medical information and resources through the application of molecular, chemical, physical, computational, statistical, mathematical and informatic techniques. Students interested in this program may come with undergraduate training in one of the following areas:

1. biological and agricultural sciences,
2. statistical, mathematical and computer sciences,
3. informatics and engineering sciences.

Graduates from the Bioinformatics program will be able to integrate basic and applied concepts in the three areas and applied them to biotechnology and medical research.

Admission

Candidates for admission to the M.S. and Ph.D. programs must have a bachelor’s degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. Candidates for admission to the Ph.D. program must meet Masters level requirements. A grade point average of 3.0 or higher (A = 4.0) for the last two years of undergraduate work and for any graduate study is required for admission. Students must take the Graduate Record Examination (GRE) and are recommended to take the advanced test in biology. English proficiency requirement for admission follow Graduate College requirement. Emphasis is placed on a student’s interest and ability in research as demonstrated by previous work and letters of recommendation. Admission is possible for spring and summer semesters.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Animal Sciences. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is encouraged as part of the academic work of students in this program.

Financial Aid

Financial aid for graduate students is available in the form of fellowships, teaching and research assistantships, tuition and partial fee waivers, and traineeships. Qualified candidates are considered for financial support upon application. Graduate students making satisfactory progress toward their degrees generally receive a full tuition waiver and a partial fee waiver, as well as a stipend.

- Master of Science in Animal Sciences (p. 629)
- Master of Science in Bioinformatics, Animal Sciences Concentration (p. 629)

Doctor of Philosophy in Animal Sciences (Entering with an approved Master’s Degree)

Students must pass preliminary and final examinations administered by committees appointed by the dean of the Graduate College. The final examination is limited to a presentation and defense of the thesis research.

**Doctor of Philosophy in Animal Sciences (Entering with an approved baccalaureate degree)**

Students must pass a qualifier examination and preliminary and final examinations administered by committees appointed by the dean of the Graduate College. The final examination is limited to a presentation and defense of the thesis research.

Students enrolled in this baccalaureate to Doctor of Philosophy program will not be granted automatically a Master in Animal Sciences degree. Students enrolled in the baccalaureate to Doctor of Philosophy that wish to receive a Master degree will be transferred to the Master in Animal Sciences program and will be expected to fulfill the requirements to secure a Master degree. Students that secure a Masters in Animal Sciences can be transferred to the Doctor of Philosophy program.

**Major: Anthropology**

Degrees offered: M.A., Ph.D.
Graduate Concentration: Second Language Acquisition and Teacher Education (p. 857) (Ph.D. only)

Graduate Minor: Museum Studies

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Anthropology and Doctor of Medicine (M.D.) through the Medical Scholars Program (https://www.med.illinois.edu/mpdphd).

Graduate Degree Programs

The Department of Anthropology offers graduate programs leading to the Master of Arts and the Doctor of Philosophy degrees. We generally do not accept students for a terminal M.A.

Admission

Students without the equivalent of the department’s undergraduate concentration may be admitted to either degree program, but they may be required to make up any deficiencies in their anthropological backgrounds. In addition to the Graduate College admission requirements, students are required to submit Graduate Record Examination (GRE) scores. Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) (http://www.grad.illinois.edu/admissions/instructions/04c), with minimum scores set by the Graduate College. Students are admitted for the fall term only.

Students wishing to pursue the minor in Museum Studies must be in good standing in the graduate program of an academic department, and must apply for acceptance into the minor. Admission to the minor is contingent upon approval of the student’s home department and the Museum Studies Steering Committee. Students may apply to the minor during the first week of the fall and spring semesters in any academic year, and should contact the Museum Studies Program Coordinator for application instructions or more information.

Degree Requirements

Each subfield (Archaeology, Biological Anthropology, and Sociocultural/Linguistic Anthropology) requires a specific set of courses for graduation. Achieving doctoral candidacy in all three subfields entails passing (a) language (and/or skill) exam(s), (b) passing a set of preliminary examinations, and (c) successfully submitting a predissertation paper, and/or a doctoral proposal, all to be defended in an oral examination. For specific details and requirements for admission to and navigation of the Ph.D. program, please refer to the Anthropology Department Graduate Programs Handbook (http://www.anthro.illinois.edu/programs/graduate/resources/AnthGradHandbook.pdf) and the University of Illinois Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Anthropology. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146, or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the Anthropology Department recognizes the importance of teaching experience as part of a graduate education. Most Anthropology graduate students will have the opportunity to work as teaching assistants, to learn to design their own classes, and possibly teach their own classes.

Faculty Research Interests and Facilities

Courses and individualized study provide broad coverage of sociocultural, linguistic, archaeological, and physical anthropology. The department provides special emphases in the analyses of state ideologies and cultural transformations; complex societies in transition; kinship and gender relations; politics, economics, and business studies; social movements and youth; border studies, criminalities, violence, and security; religion, race, and ethnicity; democracy, governance, and policing; social classification; performance and embodiment; food and environment; language and culture; discourse and narrative analysis; transnationalism and diasporas; human evolution; agricultural origins and development; landscape histories and heritage; hunter-gatherer adaptations; climate change and sustainability; diet and nutrition; paleoecology and paleobiology; evolutionary genetics; population genetics; peopling of the Americas; ancient DNA; biomechanics of locomotion; exercise and neurobiology; functional morphology; comparative and analytical osteology; forensics; demography; immunology; evolutionary medicine; microbe-host interaction; reproductory ecology; female reproductive physiology; conservation; and nonhuman primate evolution, morphology, behavior, and ecology. The department’s research facilities include laboratories for archaeology, GIS and spatial computing, faunal analysis, casting, stable-isotope analysis, ethnography, ancient DNA, skeletal biology, locomotion and motion analysis, and endocrinology.

Departmental funds and a grant from the National Science Foundation, as well as from area studies centers, are available for graduate students’ summer field research. An archaeology field school is held at various locations in Illinois and outside of the US (location varies from year to year). Graduate student programs are enriched by close departmental relationships with the various interdisciplinary units, including area studies centers on campus (African, East Asian and Pacific, European Union, Latin America and Caribbean, Russian and East European; South Asian and Middle Eastern Studies), the ethnic and gender studies units (the American Indian Studies Program and the departments of African-American Studies, Asian American Studies, Gender and Women’s Studies, and Latina/Latino Studies), along with the Women and Gender in Global Perspectives Program, Spurlock Museum, the Museum of Natural History, Krannert Art Museum, the Institute for Genomic Biology, and the Program in Ancient Technologies and Archaeological Materials.

Agreements between the University and various governments and institutes facilitate research in many nations. Training is available in various languages (some with funding available), including Arabic, Bengali, Burmese, Chinese, Hausa, Hebrew, Hindi, Indonesian, Japanese, Korean, Portuguese, Quechua, Lingala, Russian, Shona, Swahili, Thai, and Urdu. Students have ready access to the extensive computer facilities of the University and to the department’s facilities.

Information listed in this catalog is current as of 03/2017
Financial Aid

University fellowships, Graduate College fellowships for underrepresented minorities, and teaching and research assistantships provide variable levels of funding for most graduate students who do not hold external awards. Tuition and service fee waivers accompany most fellowships and assistantships. Foreign Language and Area Studies (FLAS) fellowships are available through various area centers. University of Illinois public archaeology programs, including the Illinois State Archaeological Survey and the Public Service Archaeology and Architecture Program, have provided support and research employment for graduate students in the past, as has the U.S. Army Construction Engineering Research Laboratory in Champaign.

Master of Arts in Anthropology

The master's degree can be a first stage toward the doctorate or may be used by students wishing to apply knowledge of anthropology to a related field. Candidates must present a thesis or paper in lieu of a thesis acceptable to their advisers and another member of the graduate faculty within the department.

Doctor of Philosophy in Anthropology

The preliminary examination consists of a pre-dissertation research paper, a proposal for doctoral research, and a written examination designed by the student's doctoral committee followed by a two-hour oral examination. The final examination is a defense of the doctoral thesis. Fieldwork is strongly recommended, although not required.

Graduate Minor in Museum Studies

The Graduate Minor in Museum Studies is designed for MA and PhD students who wish to complement their degree program with interdisciplinary study of the theory, organization and management of museums and museum collections. The program offers broad coverage of different disciplines' approaches to museum theory, and practice, including interdisciplinary perspectives from Anthropology, Art History, Landscape Architecture, History, Education, and Library and Information Sciences. The program also focuses on the collaborative, international and multicultural nature of museum work in curating, researching and communicating the tangible and intangible evidence of people and their environment. Students acquire the applied theory required to successfully work on, with or in museums. Students may tailor the minor to their career goals by choosing among electives that emphasize different theoretical and technical aspects of museum studies.

</table>

Electives from an approved list of museum-related courses, at least one of which must be at the 500-level.

The student must participate in a capstone experience consisting of an approved museum-based internship, museum-related project or museum-related research paper. Every student must provide a product of this experience in the form of either a formal professional presentation or a written document. If a student chooses to write their MS thesis or PhD dissertation on a museum topic, this will fulfill (but is not required for) the capstone experience, provided that a member of the Museum Studies Steering Committee is a formal member of the student's thesis or dissertation committee. Student may receive academic credit for their capstone experience through their home department or MUSE 590.

Total Hours 16

Language Requirement: High proficiency in one, or reading ability in two, foreign languages is required. Statistics, computer modeling, or similar expertise, however, may be used in lieu of one foreign language.

Architecture

http://arch.illinois.edu

Director of the School: Peter Mortensen (Interim)
Director of Graduate Studies: Randy Deutsch
117 Temple Hoyne Buell Hall
611 Taft Drive
Champaign, IL 61820
(217) 244-4723
E-Mail: arch-grad@illinois.edu

Major: Architecture
Degrees Offered: M. Arch, PhD
Graduate Concentration: Medieval Studies (p. 810) (M. Arch and PhD)

Major: Architectural Studies
Degrees Offered: M.S.
Graduate Concentration: Structures (p. 634) (M.S.)

Joint Degree Program: the master of Architecture can be earned jointly with the following degrees offered:
Masters in Architectural Studies
Masters in Business Administration
Masters in Computer Science
Masters in Urban Planning
Master of Science in Civil Engineering (Construction Engineering and Management) or (Structures)

Graduate Degree Programs

The School of Architecture offers two graduate programs, leading to a Masters degree:

1. a two-year Master of Architecture (Professional Degree) and
2. a one-year Master of Science in Architectural Studies (Post-professional Degree).

The Master of Architecture program is for students holding a four-year Bachelor of Science in Architectural Studies (or similar degree in architecture). One may be admitted to the Master of Architecture program with Limited Standing if the student holds a bachelor’s degree (or higher) in any field other than architecture. Student in M. Arch (Limited Standing) typically take two years to complete undergraduate prerequisite courses to attain full standing in the M. Arch program. The Master of Architecture degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB).

The Master of Science in Architectural Studies (Post-professional Degree) program is for students holding a five-year Bachelor of Architecture professional degree. The MSAS degree is not accredited by NAAB.

The School of Architecture, together with the graduate programs of business administration, computer science, urban and regional planning, and civil and environmental engineering, offers graduate programs leading to the following joint degrees: Master of Architecture and Information listed in this catalog is current as of 03/2017

The School of Architecture, together with the Department of Landscape Architecture, offers a graduate program leading to the Doctor of Philosophy degree.

Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

Applicants are selected for admission on the basis of undergraduate academic performance and profession-related experience.

Application material is evaluated by faculty members. The faculty's recommendations are based upon an appraisal of the admission grade point average determined from official transcripts, a portfolio or brochure of applicant's past work in architecture, a statement of objectives, three letters of recommendation, and relevant professional work experience.

Application forms for graduate admission and financial aid may be obtained from the Web site above. Application may be made on-line. Completed applications for the Masters or Doctoral programs must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are not required for School of Architecture Masters Degree applicants; the GRE is required for all Doctor of Philosophy applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

- Master of Architecture (Professional Degree) (p. 635)
- Master of Architecture (Limited Standing) (p. 634)
- Master of Science in Architectural Studies (Post-professional Degree) (p. 635)

Doctor of Philosophy in Architecture

This program offers advanced, rigorous education for those students whose goal is the advancement of the intellectual base of the discipline through a career of research and scholarship. Three areas of concentration are offered: history and theory, environment and
technology, and behavioral and cultural factors in design. The program is administered jointly with the Department of Landscape Architecture.

All students are required to enroll in the PhD colloquium during the fall of their first year of course work.

Elective coursework in major field 28
ARCH 589 PhD Colloquium (twice) 2
Outside study (courses outside of Landscape Architecture and Architecture) 8
Electives 32
Language Requirement: Required for all students in the History/Theory option and for some Social and Cultural Factors students
ARCH 599 Thesis Research (min/max applied toward degree) 32

Total Hours 96

Other Requirements ¹

Other requirements may overlap
Minimum 500-level Hours Required 24 (not including 599)

Master of Architecture and Master of Science in Architectural Studies

The School of Architecture offers a joint Master of Architecture (M.Arch.)/Master of Science in Architectural Studies (MS in AS) degree program for students interested in pursuing both an M.Arch. degree as well as one of the concentrations offered through the MS in AS degree program. Completion of in-depth programs (e.g. Structures) will result in recording of the Concentration on the student’s transcript under the MS in AS degree. Per Graduate College guidelines, students in a joint degree program are permitted to count up to 12 hours of course work from one degree as electives toward the second degree.

Students interested in participating in the joint M.Arch./MS in AS degree program must be admitted to and meet all requirements of each degree program and complete a minimum of 82 credit hours of graduate work. Students with no undergraduate degrees in architecture and participating in the four-year M.Arch. degree program may petition to enter the joint M.Arch./MS in AS degree program upon completion of their required undergraduate courses.

The M.Arch. degree is a professional degree accredited by the National Architectural Accreditation Board (NAAP), but the MS in AS degree is not accredited.

Master of Architecture and Master of Urban Planning

This joint degree program offers an opportunity to obtain an education for a career that combines the disciplines of architecture and urban planning. For entry into this program, applicants must satisfy the admission requirements of each academic unit. Application for admission may be made either simultaneously to both units or in sequence.

Candidates entering the program with a four-year baccalaureate in architectural studies must complete at least 86 hours of graduate work (54 in Architecture and 32 in Urban Planning) and, if admitted with full status, may complete the program in six semesters and one summer session. Candidates entering the program with a five-year Bachelor of Architecture degree must complete at least 64 hours of graduate work (32 in Architecture and 32 in Urban Planning) and, if admitted with full status, may complete the program in four semesters and a summer session.

Master of Architecture and Master of Business Administration

This joint master's degree program prepares graduate degree candidates for the broad range of management activity now developing in architectural practice.

For entry into this program, applicants must satisfy the admission and performance requirements of each academic unit. Application for admission may be made simultaneously to both units or admission to one unit may be sought after gaining entry to the other.

Candidates entering the Master of Architecture/Master of Business Administration joint degree program with a four-year baccalaureate in architectural studies must complete 110 hours of graduate work, 50 hours in Architecture and 60 hours for the M.B.A.

Master of Architecture and Master of Computer Science

This joint master's degree program prepares graduate degree candidates for the broad range of management activity now developing in architectural practice.

For entry into this program, applicants must satisfy the admission and performance requirements of each academic unit. Application for admission may be made simultaneously to both units or admission to one unit may be sought after gaining entry to the other.

The combination of Master of Architecture and Master of Computer Science degrees requires 74 graduate hours if no prerequisites are needed in computer science. Candidates entering either of these programs with a five-year bachelor of architecture degree must complete at least 64 hours of graduate work and, if admitted with full status, may complete the program in four semesters.

Master of Architecture and Master of Science in Civil Engineering (Construction Management) or (Structures)

This joint degree program offers qualified applicants the opportunity to develop competence in a career that combines the disciplines of
architecture and civil engineering (construction management) or (structures). For entry into these programs, applicants must satisfy the admission and performance requirements of each academic unit. Application for admission should be made to the School of Architecture. Admission to the other unit may be sought after the first semester of graduate study in architecture.

Candidates entering the program with a four-year baccalaureate in architectural studies must complete at least 78 (32 in Civil Engineering and 46 in Architecture) hours of graduate work and, if admitted with full status, may complete the program in five semesters. Candidates entering the program with a five-year Bachelor of Architecture degree must complete 64 hours of graduate work and, if admitted with full status, may complete the program in four semesters.

- Structures Concentration (p. 634)
- Medieval Studies Concentration (http://catalog.illinois.edu/graduate/graduate-majors/medieval-studies/#concentrationtext)

## Master of Science in Architectural Studies (Structures Concentration)

The School of Architecture offers a Structures Concentration under its MS in AS degree program. Completion of this in-depth plan of study will result in recording of Structures as a Concentration on the student's transcript under the MS in AS degree. Students interested in participating in the Structures Concentration must be admitted to the School of Architecture's MS in AS degree program; register their intent to enter the Structures Concentration with the School's Graduate Office prior to completing their first semester in their degree program and complete 27 graduate credit hours of architectural structures courses from the required courses list below. Prerequisite subjects for the Structures Concentration include the following: calculus I and II; statics and dynamics; mechanics of materials; one course in structural steel design and one course in reinforced concrete design. Students without these prerequisites may enter the Structures Concentration upon completion of their prerequisite courses.

## Master of Architecture Limited Standing

The variable-length professional degree program has been designed for applicants who have a bachelor's degree in any field other than architecture. Emphasis is placed on the development of sufficient background in introductory architectural studies so that the applicants may successfully complete the equivalent of the two-year graduate program described above.

Applicants accepted into this program will initially be admitted with limited status. Full status may be attained by completion of introductory architectural studies. Once full status is attained, a minimum of 54 hours of graduate work is required for completion.

The time necessary to complete the program will depend on the nature of undergraduate coursework completed by the applicant.

Candidates attaining full standing may complete the program in two years of full-time academic study.

### Thesis Option

- One course in architectural practice
- One core elective each from a select list of courses in architectural thought
- One core elective each from a select list of courses in professional practice
- Four studios including two semesters of comprehensive design
- One course in structural planning
- Students must also complete prerequisites, which are determined individually and do not count toward the required number of hours required

Master of Science in Architectural Studies

Post-Professional Degree
Applicants who hold the five-year Bachelor of Architecture degree are considered to have earned the first professional degree. For those applicants, a one-year degree program has been developed emphasizing further study in depth of one optional area of concentration and/or participation in research, which is similar to the final year of the professional degree program.

Candidates admitted with full status may complete the program in one year of full-time academic study.

Master of Architecture Professional Degree
The two-year professional degree program, intended for students entering with a four-year baccalaureate in architectural studies, emphasizes further study in architectural disciplines. Students may elect to concentrate in any one of several areas of specialization aligned with research-oriented program areas.

Candidates admitted with full or limited status to the two-year professional degree program must complete at least 62 hours of graduate work. Candidates admitted with full status may complete the program in two years of full-time academic study.

ADgradadmissions@illinois.edu

Major: Art and Design
Degree offered: M.F.A.
Concentrations: Crafts, Graphic Design, Industrial Design, Metals, Painting, Photography, Printmaking, Sculpture

Major: Art Education
Degrees offered: Ed.M., M.A., Ph.D.
Graduate Concentrations: Writing Studies (Ph.D. only)

Major: Art History
Degrees offered: M.A., Ph.D.
Graduate Concentrations: Medieval Studies (available to M.A. and Ph.D.); Writing Studies (Ph.D. only)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Art Education or Art History and Doctor of Medicine (M.D.) through the Medical Scholars Program (https://www.med.illinois.edu/msp).

Graduate Degree Programs

The School of Art and Design offers the Master of Arts in Art Education and in Art History, the Master of Education in Art Education, the Master of Fine Arts in Art and Design, the Doctor of Philosophy in Art Education, and the Doctor of Philosophy in Art History. In addition to the listed concentrations, we also offer a specialization in New Media in the M.F.A. program.

Admission

Applications are considered for Fall Semester admissions only. The Art History Program requires Graduate Record Examination (GRE) scores. International applicants or applicants who are not native English speakers must present a TOEFL score of at least 590 on the paper-based version, 250 score on the Computer-based exam, and a score of 96 on IBT exam. Applications are not currently being accepted for the concentration in Printmaking.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Art History and Art Education. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum’s excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to the applicant’s grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

- Master of Education in Art Education (p. 638)
- Master of Arts in Art Education (p. 638)
- Master of Arts in Art History (p. 637)
- Master of Fine Arts in Art and Design (p. 638)
- Doctor of Philosophy in Art Education (p. 637)
- Doctor of Philosophy in Art History (p. 637)

Minor in Art History

The Graduate Minor in Art History is designed to provide UIUC graduate students, both at the master’s and doctoral levels from any discipline, a foundation in the histories, theories and methods of art history and visual cultures. The Minor is taken in conjunction with, and is intended to complement the student’s work in their primary disciplines.

Information listed in this catalog is current as of 03/2017
In addition to the minor requirements, students must also complete the requirements of their major degree. Students interested in the Art History Graduate Minor should contact the Director of Graduate Studies in Art History.

Doctor of Philosophy in Art Education

The doctoral program in art education is designed for advanced graduate students who want to pursue scholarly study and research in art education. Doctoral level coursework includes studies in both art education and in relevant disciplines and departments within the university. Applicants for admission must hold a master’s degree in art education or the equivalent from an accredited institution. Admission is determined by a sample of academic writing, official records of previous education and experience, and letters of recommendation.

Master of Arts in Art History

This program provides basic preparation for teaching at the college level, background in the history of art for museum work, and preliminary study for the doctoral degree. In addition to the general requirements, the prerequisite for admission is ordinarily an undergraduate degree in art history or a strong preparation in related humanistic studies. Applicants with little background in art history but who have done exceptionally well as undergraduates in other disciplines will be seriously considered. A thesis or scholarly essay is required for completion of the degree.

Thesis Option

Graduate hours in the history of art and architecture, including 16 hours in art history graduate seminars  
24

Language Requirement: Proficiency in a language outside of English and appropriate to the student’s field of study must be demonstrated by the end of the first year of residence.

Master of Arts, Art Education

The program of study leading to the degree of Master of Arts in Art Education is designed to provide advanced level professional study for students who are interested in research in art education. It can serve as preparation for a variety of careers, such as museum education, community arts, arts advocacy, arts policy formation; professional development for art teachers and supervisors in the public schools; and as preparation for the doctoral degree.

In addition to required courses in art education, students may choose electives from studio, art education and art history, and any other graduate courses offered by the university that complement their studies or professional aspirations. Specific course selection is determined in consultation with the student’s adviser. Students may simultaneously study for teaching certification but graduate credit is not usually granted for such study. A thesis is required.

Master of Fine Arts in Art and Design

The degree of Master of Fine Arts in Art and Design is designed to prepare qualified individuals for distinctive achievement in the professional area of their choice. Fields of concentration include Graphic Design, Industrial Design, Photography, Metal, Ceramics, and an interdisciplinary Studio which includes concentrations in Painting, Sculpture, and specialization in New Media. A minimum of 64 hours of graduate credit is required for the M.F.A. degree, requiring three
years of full-time residence. Individual studio space and specialized resources essential to the acquisition of a high-quality professional education are available to students in all areas of study. The Graphic Design, Photography, Metal, Ceramics, and interdisciplinary Studio which includes Painting, Sculpture, and New Media programs require a graduation exhibition of creative work and a written thesis approved by a thesis committee for deposit in the School of Art and Design’s graduate office. The Industrial Design Program requires a graduation exhibition, a written thesis approved by a thesis committee and a thesis deposit in the Graduate College Thesis Office. Admission for all programs is determined by a faculty review of a portfolio of the applicant’s creative work, records of previous education and experience, letters of recommendation, and other significant achievements that may be viewed as predictors for success in the program.

PH: (217) 244-0230

E-mail: bmccall@illinois.edu

Graduate Concentration: Astrochemistry
Participating Programs: Astronomy (PhD only) and Chemistry (PhD only)

**Graduate Degree Programs**

Astrochemistry is an interdisciplinary area of knowledge at the intersection between chemistry and astronomy. As a few examples, topics of active research in this area include identifying organic molecules in interstellar space, building models of the chemical reactions that occur in interstellar space, laboratory measurements of astronomically important molecules, searching for Earthlike planets using molecular signatures, and understanding the contributions of interstellar molecules to the chemical origin of life. In order to succeed in this field, students require training in both of the traditional disciplines of chemistry and astronomy.

The Astrochemistry graduate concentration (http://astrochemistry.illinois.edu) is intended for Ph.D. students in Chemistry or Astronomy who wish to gain the necessary background to perform original research in the emerging interdisciplinary field of astrochemistry. It is an addition to the Chemistry and Astronomy Ph.D. programs at Illinois and offers transcript recognition that will ensure that students are recognized as qualified by scientists in both traditional fields (chemistry and astronomy).

**Admission**

As the Astrochemistry graduate concentration (http://astrochemistry.illinois.edu/concentration.php) is a part of the Chemistry and Astronomy Ph.D. programs, students should submit applications directly to either the Department of Chemistry (http://chemistry.uiuc.edu/graduates) or the Department of Astronomy.

**Faculty Research Interests**

A variety of faculty members in the departments of Chemistry, Astronomy, and Physics have research interests related to astrochemistry. A partial listing of research groups is available on the Astrochemistry concentration website (http://astrochemistry.illinois.edu/groups.php).

**Facilities and Resources**

Facilities that can be utilized by astrochemistry students in their thesis research include a wide variety of laboratory spectroscopy equipment in Chemistry, the Combined Array for Research in Millimeter-wave Astronomy, computing facilities in both Chemistry and Astronomy, and other national and international observational astronomy facilities.

**Financial Aid**

Financial aid in the form of teaching assistantships and/or research assistantships is generally provided for admitted students by the Departments of Chemistry and Astronomy.

The requirements for the Astrochemistry graduate concentration (http://astrochemistry.illinois.edu/concentration.php) are supplemental to the degree requirements of the Ph.D. in either Chemistry or Astronomy, and are summarized in the table below. For this concentration, at least 24 hours of graduate level coursework (at the 400- and 500-level) are required, of which at least 12 must be in chemistry courses and at least 12 in astronomy courses. A list of recommended courses is given on the Astrochemistry concentration website (http://astrochemistry.illinois.edu/
Department of Astronomy

Graduate Degree Programs

The Department of Astronomy offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees. The goal of the graduate program in astronomy is to provide broadly based training in modern astrophysics and astronomy for a small and carefully selected student body. Individually designed programs involving close contact with faculty members are encouraged, and an understanding of fundamental principles and techniques and their applications to research problems of current interest is emphasized. Students are expected to acquire a solid knowledge of modern physics as well as of general astronomy. A major objective is to maintain an exciting intellectual environment in which students can develop their scientific creativity and their enthusiasm for astronomy.

Information listed in this catalog is current as of 03/2017
• Astrophysical fluid dynamics, magnetohydrodynamics and radiation hydrodynamics
• Physics of dense stellar matter
• Accretion phenomena
• High energy and relativistic astrophysics
• Cosmic inflation and structure formation
• Nuclear and particle processes in cosmology and astrophysics
• Black hole physics and astrophysics
• Gravitational lensing
• Gravitational wave phenomena

Facilities and Resources
• The Dark Energy Survey
• The Large Synoptic Survey Telescope
• The South Pole Telescope
• Astronomy students and faculty successfully compete for time on national facilities. These include ground-based telescopes of the National Radio Astronomy Observatory, such as the Atacama Large Millimeter Telescope and the Very Large Array, and the National Optical Astronomy Observatory telescopes. Illinois research involves many space-based telescopes, including the Hubble, Planck, Spitzer, Herschel, Chandra, and Fermi.
• A number of projects in the Department of Astronomy partner with the National Center for Supercomputing Applications (NCSA) at Illinois. This includes development and application of astrophysical simulations such as the FLASH package and general relativistic magnetohydrodynamic codes that provide insight into the nature of structure formation and the physics of black holes. Astronomy faculty also leverage NCSA’s pioneering development of cyberinfrastructure environments to facilitate data transport for the Sloan Digital Sky Survey (SDSS), the Dark Energy Survey, the Square Kilometer Array, and the Large Synoptic Survey Telescope. NCSA and the Astronomy Department also jointly founded the Laboratory for Cosmological Data Mining to apply novel algorithms to the rich datasets now available for cosmological analysis, including those from the SDSS and Wilkinson Microwave Anisotropy Probe.
• Illinois is the home of the Blue Waters National Petascale Computing Facility, one of the most powerful supercomputers in the world, and the most powerful on a university campus. A portion of Blue Waters time is dedicated to Illinois faculty, and Astronomy students and faculty use Blue Waters for their research.

Financial Aid
University fellowships are available and may be combined with part-time teaching assistantships. Most resident students are supported for their first two or three years by half-time teaching assistantships. The typical teaching assistant takes two or three graduate courses per semester and spends twenty hours per week handling quiz sections in elementary astronomy courses. Teaching assistantships are responsible positions, and the concomitant duties are considered to be a valuable part of the student’s educational experience. Advanced students may compete for research assistantships offered by faculty members whose research is partially supported by federal grants.

Additional formal coursework (excluding thesis research, non-thesis research, and independent study credit hours, e.g., ASTR 599, ASTR 590)
Research/Project/Independent Study Hours (e.g. ASTR 590; min/max applied toward degree): 4-8
Based on Placement Exam results, students may be required to complete ASTR 404, ASTR 405, ASTR 406, and/or ASTR 414 during their first year. A maximum of 8 hours of these courses may be applied to the degree (Max. 8)

Total Hours: 32

Other Requirements
Other requirements may overlap
Of the additional formal coursework, the minimum number of hours in the unit (excluding thesis research, non-thesis research, and independent study credit hours): 8
Of the additional coursework, the minimum number of 500-level hours (excluding thesis research, non-thesis research, and independent study credit hours): 4

1. Research Project (minimum 4 hours)
   • The student will complete a research project with an Astronomy Department faculty member (i.e. ASTR 590). A paper reporting the results is required, which must be prepared in scientific journal style and approved by the faculty member.

2. Demonstrated Proficiency in Astronomy (ASTR 404, ASTR 405, ASTR 406 and ASTR 414)
   Students must show proficiency in the four courses by one of the following options:
   • Pass the appropriate section of the placement exam (four sections aligned to the four courses), which is offered at the start of every Fall semester. A student can petition to take the exam once more the following year. The decision on petition approval by the graduate advisor will depend on the student’s background and proficiency plan.
   • Pass the course with a B grade or better.
   • Students who have had an equivalent course at another institution (B grade or better) may petition for those courses to count as proficiency.

3. For additional details and requirements refer to the department's Graduate Programs (http://www.astro.ilinois.edu/academics/graduate/programs) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

105 South Gregory Street
Urbana, IL 61801
(217) 333-2046
E-mail: https://www.atmos.illinois.edu/

Major: Atmospheric Sciences
Degrees offered: M.S., Ph.D.

**Graduate Degree Programs**

Graduate programs leading to the Master of Science and Doctor of Philosophy degrees are offered. Opportunity also exists for specializing in computational science and engineering within the department’s graduate programs via the Computational Science and Engineering (CSE) Option (http://www.cse.illinois.edu).

**Admission**

Applications for admission are encouraged from students with bachelor's degrees in atmospheric sciences, meteorology, physics, mathematics,
computer science, geography, engineering, oceanography, and related fields. It is strongly recommended that students who intend to study for advanced degrees in atmospheric sciences know the fundamentals of classical physics and applied mathematics. Applicants whose native language is not English are required to take the English Placement Test if accepted. All applicants are required to take the Graduate Record Exam (GRE) and submit three letters of reference.

**Faculty Research Interests**

The atmospheric science degree programs are designed for students interested in research and applications on a wide variety of atmospheric topics. Faculty areas of research include the physics of aerosol, clouds and precipitation; atmospheric radiative processes, radar and satellite meteorology, remote sensing, convective phenomena including severe storms, synoptic and mesoscale meteorology, boundary layer meteorology, tropical meteorology, hydrometeorology, numerical weather prediction, atmospheric dynamics, climate variability and climate modeling including chemical, radiative, and transport effects; atmospheric chemistry, land-atmosphere interactions, oceanography, human and natural perturbations of global ozone and climate, biogeochemical cycles, and climate impacts, risks, and policy. This research is carried out in national field campaigns, in theoretical studies, and in numerical modeling efforts using a wide range of models.

**Research Facilities**

With more than 2.5 computers per person, the department maintains a capable and extensive computing infrastructure as this is a vital component of all of its educational, research and outreach endeavors. All graduate students, staff, and faculty members have a desktop or laptop computer, usually a Windows PC or Mac. There is a departmental computer lab for hands-on class exercises, computers and display projectors in classroom areas and wireless access throughout the buildings. The Department hosts a new synoptic/GIS laboratory, a data visualization laboratory, and an instruments lab within the Natural History Building. An up-to-date high-capacity network connects these to various departmental computing resources including e-mail, file and web servers, resources provided by the campus as well as our linux-based research computing systems.

These research systems include the department’s ever-expanding computing cluster, hundreds of terabytes worth of storage, other departmental systems and a number of systems specific to each faculty member’s research group. These systems are used for numerical simulations, analysis and modeling of atmospheric processes ranging from the formation of individual ice crystals to century long climate simulations over the globe and are used for storing, analyzing and visualizing the results. Our faculty research groups regularly use supercomputers including Blue Waters, the NCAR Supercomputing facility, and other supercomputers nationwide.

We receive and process a large quantity of real-time meteorological data and numerical forecasts from a variety of sources including agencies like NOAA, UCAR, international sources and other peer institutions. These are available for visualization with a variety of tools to aid in the understanding of current weather events and case studies of recent major events.

Because computers are only good when they work and you understand how to use them, the department maintains a dedicated computer support staff which is responsible for maintaining everything and personally assisting users with problems, questions and accomplishing their research goals.

**Financial Aid**

Financial aid is available in the form of research and teaching assistantships, University fellowships, and waivers of tuition and service fees. More information is available at the Department Website (https://www.atmos.illinois.edu/cms/One.aspx?portalId=127458&pageId=187177).

ATMS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ATMS)

Courses

ATMS 500 Dynamic Meteorology credit: 4 Hours.

Examines the observed behavior of the atmosphere through the application of physical and hydrodynamical principles to analyses of real meteorological data; develops concepts for studying atmospheric circulations, particularly extratropical cyclones and anticyclones. Laboratory work includes the development of diagnostic techniques suitable for a better understanding of the current weather.

ATMS 501 Mesoscale Meteorology credit: 4 Hours.

Basic concepts and ideas on atmospheric processes that occur on scales of motions from a few kilometers to a few hundred kilometers, a scale loosely classified by meteorologists as “mesoscale”. After an introductory discussion of mesoscale classifications and attendant forecast problems, the course will introduce various mesoscale phenomena, internally generated circulations, externally forced circulations, and mesoscale instabilities. Covers all three fundamental aspects of mesoscale meteorology: observations, theory and modeling, with particular emphasis on the dynamics of precipitating mesoscale systems. 4 graduate hours. No professional credit. Prerequisite: Graduate standing or consent of instructor.

ATMS 502 Numerical Fluid Dynamics credit: 4 Hours.

Addresses numerical techniques for solving linear and nonlinear differential equations in initial value fluid flow problems. Students receive a thorough background in the principles used to evaluate numerical methods, the ability to critically interpret these methods as presented in the literature, and in particular, the practical application of these techniques in modeling multi-dimensional flow on high-performance computers. Temporal and directional splitting, finite differencing/volume methods, and adaptive nesting will be discussed. Same as CSE 566. Prerequisite: MATH 285.

ATMS 504 Physical Meteorology credit: 4 Hours.

Examines the physical processes that occur in the atmosphere. Topics include atmospheric thermodynamics, cloud physics and atmospheric radiation. 4 graduate hours. No professional credit. Prerequisite: Graduate standing or consent of instructor.

ATMS 505 Weather Systems credit: 4 Hours.

Examination of the structure and dynamics of mid-latitude weather systems, integrating weather observations, with the current state of dynamic theory, numerical weather prediction models, and the physical principles of atmospheric thermodynamics, cloud and precipitation physics, and radiation to the problems of weather analysis and forecasting. Students will be required to give weather forecast briefings to develop an understanding of the weather forecasting process, and gain experience in communicating weather forecasts. 4 graduate hours. No professional credit. Prerequisite: Graduate standing or consent of instructor.

ATMS 507 Climate Dynamics credit: 4 Hours.

Investigates the dynamical and physical processes that govern Earth’s paleo, current, and future climates. Emphasizes principles of climate change, natural and anthropogenic, and regional, national, and global. Global climate models and their predictions are examined in the context of scenarios for future population growth and energy consumption. 4 graduate hours. No professional credit. Prerequisite: Graduate standing or consent of instructor.

ATMS 510 Precipitation Physics credit: 4 Hours.

Develops an understanding of precipitation processes through cloud observations, microphysics, dynamics, and comprehensive theoretical models; includes growth by condensation, coalescence, and riming; and studies ice crystals, hail, and weather modification. Prerequisite: ATMS 504 or consent of the instructor.

ATMS 511 Atmospheric Radiation credit: 4 Hours.

Physical concepts and various methods of analysis of radiation scattering by atmospheric molecules, particulates, and clouds; infrared radiative transfer in a stratified inhomogeneous atmosphere; radiation and ozone photochemistry in the stratosphere; and remote temperature and composition sensing techniques using satellite radiation data. Prerequisite: ATMS 504 or consent of the instructor.

Information listed in this catalog is current as of 03/2017
ATMS 512  Clouds and Climate  credit: 4 Hours.
The following topics are addressed to examine the role of clouds in the climate system: aerosols and aerosol cloud interactions, direct, semi-direct and indirect aerosol effects, in-situ measurements of clouds, properties of liquid and ice clouds, precipitation mechanisms and representation in models, scattering by cloud particles and model representations, remote sensing of cloud properties, and representation of clouds in climate models. Prerequisite: ATMS 504 or consent of instructor.

ATMS 535  Aerosol Sampling and Analysis  credit: 4 Hours.
Same as CEE 545. See CEE 545.

ATMS 571  Professional Development  credit: 1 Hour.
Aimed at professional development in the atmospheric sciences so that students recognize the importance of breath of knowledge, effective oral and written scientific communication, and other skills they will need as professionals. 1 graduate hour. No professional credit. Approved for S/U grading only. Prerequisite: Graduate student in Atmospheric Sciences or consent of instructor.

ATMS 590  Individual Study  credit: 2 to 4 Hours.
Individual study or reading in a subject not covered in normal course offerings. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

ATMS 591  Atmospheric Sciences Seminar  credit: 0 Hours.
Seminar on topics of current interest. Approved for S/U grading only. Prerequisite: Consent of instructor.

ATMS 596  Non-Thesis Research  credit: 0 to 12 Hours.
Non-thesis research in the Atmospheric Sciences. Approved for S/U grading only. May be repeated. No more than 4 hours may be counted toward a master's degree in ATMS. Prerequisite: Restricted to students in the non-thesis option.

ATMS 597  Special Topics in Atmospheric Sciences  credit: 0 to 4 Hours.
Lecture course in topics of current interest; subjects such as tropical meteorology, aerosol physics, and geophysical fluid dynamics will be covered in term offerings on a regular basis. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: Graduate standing or consent of instructor.

ATMS 599  Thesis Research  credit: 0 to 16 Hours.
Check with the department to identify which CRN is needed for your advisor and any related registration questions. Approved for S/U grading only. Prerequisite: Consent of instructor.

Biochemistry

http://mcb.illinois.edu/departments/biochemistry

Head of the Department: Susan A. Martinis
Associate Head of Department: Robert B. Gennis
Director of Graduate Studies: David M. Kranz
419 Roger Adams Laboratory
600 South Mathews Avenue
Urbana, IL 61801
(217) 333-2013
E-mail: biochem@mcb.uiuc.edu

Major: Biochemistry
Degrees offered: M.S., Ph.D.
Graduate Teaching Experience
 Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

Faculty Research Interests
 Faculty research in the Department of Biochemistry covers a broad spectrum of the most dynamic areas of current research in biological chemistry and molecular biology: physical approaches to the structure and function of macromolecules and membranes; nucleic acid biochemistry and enzymology, enzyme mechanisms and evolution; membrane biochemistry and bioenergetics; protein-lipid interactions; protein-nucleic acid interactions and molecular recognition; molecular biological approaches to gene organization and expression; immunology; microbial physiology, and signal transduction.

Centers, Programs, and Institutes
 Biochemistry faculty are appointed and active in several cross-campus academic and research units, including the Center for Biophysics & Computational Biology, the Beckman Institute for Advanced Science and Technology, the Institute for Genomic Biology, as well as the interdepartmental graduate programs in Biophysics & Computational Biology, and Neuroscience, and the joint M.D./Ph.D. Medical Scholars Program of the College of Medicine.

Facilities and Resources
 Campus resources for science research are state-of-the-art and available to all faculty research programs. Notably among these is the Roy J. Carver Biotechnology Center, which comprises the W.M. Keck Center for Comparative and Functional Genomics (Custom Library Services, High-Throughput Sequencing and Genotyping, DNA Core Sequencing, Fragment Analysis, Oligonucleotide Synthesis, Functional Genomics and Bioinformatics), Proteomics Services (Protein Science Facility, Immunological Resource Center and Flow Cytometry Facility), a Metabolomics Center and a Transgenic Mouse Facility. It also provides career counselling through the Career Services Office. Many other cross-campus facilities are important for the faculty research programs in Biochemistry, including the Fred Seitz Materials Research Laboratory, the National Center for Supercomputing Applications (NCSA), the high-field VOICE NMR Laboratory, Mass Spectrometry Center, Microanalysis Laboratory, Cell Media Facility, and many electronics, machine and glass shop service facilities. The University of Illinois is also a full member of the LS-CAT beamline for macromolecular crystallography at the Advanced Photon Source, Argonne National Laboratory.

Financial Aid
 Financial aid for Ph.D. graduate students in biochemistry is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. In addition, interdepartmental training grants from the National Institutes of Health support multidisciplinary training programs. Qualified candidates are considered for financial support upon application. Graduate students making satisfactory progress toward their degrees generally receive a stipend, as well as a full tuition waiver and a partial fee waiver.

Master of Science Biochemistry
 A coursework master’s degree requires a minimum of two full-time semesters. A thesis master’s degree usually requires a minimum of three semesters.

Major: Bioenergy

Degrees Offered: M.S.

Graduate Concentration: Professional Science Master's (p. 846) (M.S. only)

**Graduate Degree Programs**

The Integrated Bioprocessing Research Laboratory in the College of ACES offers a Master of Science with a Major in Bioenergy and a Concentration in Professional Science Master's. In addition to receiving training in the general field of bioenergy and bioprocessing, students gain relevant professional experience in business and related topics through coursework and an internship. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities.

**Admission**

In addition to meeting the Graduate College admission requirements, applicants should have a baccalaureate degree in a recognized field of biological, physical, agricultural, socio-economic or engineering science. Graduate Record Examination (GRE) scores are required of all applicants. The minimum recommended Test of English as a Foreign Language (TOEFL) score is 590 on the paper-based test, 243 on the computer-based test, and 79 on the internet-based test. Applications are only accepted for the fall semester. Transfer credit may not be applied to this program due to the cohort nature of this program.

---

**Financial Aid**

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted.

**Master of Science in Bioenergy**

The curriculum requires 42 graduate hours, consisting of a core and elective program, in addition to the required PSM concentration. The areas of specialty are Plants, Soils and Feedstocks; Production, Processing and Use; Environment, Economics and Policy & Law, and Tools and Methods.

| ACES 409 Bioenergy Systems | 3 |
| or ACES 509 Advanced Bioenergy Systems |  |
| ACES 501 Advanced Bioenergy Topics | 2 |
| Courses (7 to 9) in the area of specialty from a designated list, and in consultation with the Director of Graduate Study | 27 |
| Business courses prescribed by the Illinois PSM program | 10 |
| PSM 501 PSM Industry Seminar I | 0 |
| PSM 502 PSM Industry Seminar II | 0 |
| PSM 503 PSM Industry Seminar III | 0 |
| PSM 555 PSM Internship | 0 |

Graduate Degree Programs

The Department of Bioengineering offers studies leading to the Master of Engineering in Bioengineering (M.Eng.), the Master of Science in Bioengineering (M.S.), and the Doctor of Philosophy (Ph.D.) in Bioengineering. The Bioengineering Graduate Program provides students with educational and research experiences that integrate the sciences of biology and medicine with the practices and principles of engineering. For the M.S. and Ph.D. programs, areas of focus include Bio-imaging, Cell & Tissue Engineering, Micro and Molecular Technologies, and Computational Biology. Opportunity also exists for specializing in (1) computational science and engineering and (2) energy and sustainability engineering via the Computational Science and Engineering (CSE) track (http://cse.illinois.edu/education-programs/graduate-program)transcriptable concentration and the Energy and Sustainability Engineering (EaSE) Option (http://ease.illinois.edu). The Medical Scholars Program (https://www.med.illinois.edu/mdphd) permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Bioengineering.

Admission

For the M.S. and Ph.D. programs, applicants should have an undergraduate or graduate degree, respectively, in a natural science, computer science, or engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. Applicants should show evidence of strong quantitative skills and of serious interest in the life sciences. All applicants must submit results from the Graduate Record Examination (GRE) (http://www.ets.org) general test.

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 97 (iBT), 243 (CBT), or 590 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 6.5 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (http://grad.illinois.edu/admissions/instructions/04c) are met. For those taking the TOEFL or IELTS, full admission status (http://grad.illinois.edu/admissions/instructions/04c) is granted for scores of 103 (TOEFL iBT) or greater, 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status (http://grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) upon arrival to campus.

Please see the admission requirements for the M.Eng. in Bioengineering under the "Masters" tab.

Degree Requirements

For additional details and requirements for all degrees, please refer to the department’s Graduate Studies Web site (http://bioengineering.illinois.edu) and the Graduate College Handbook (http://grad.illinois.edu/gradhandbook).

Master of Engineering in Bioinstrumentation

Bioengineering

Head of Department: Rashid Bashir
Director of Graduate Studies: Deborah Leckband
Academic Program Contacts: Liezl Bowman (Program Coordinator) and Dipanjan Pan (Program Faculty Director)
1270 Digital Computer Laboratory
1304 West Springfield Avenue
Urbana, IL 61801
(217) 333-1867
E-mail: bioinstrumentation@illinois.edu (http://www.bioinstrumentation@illinois.edu)

Major: Bioinstrumentation

Degrees Offered: M.Eng.

Graduate Degree Programs

The Department of Bioengineering offers studies leading to the Master of Engineering (M.Eng.) in Bioinstrumentation. The program is offered both on-campus and online. For more information, visit bioinstrumentation.illinois.edu (http://bioinstrumentation.illinois.edu).

Admission

For the M.Eng. program, applicants should have an undergraduate engineering degree or must have taken engineering-related coursework. Applicants should have a minimum grade point average of 3.00 (A = 4.00) or equivalent for the last two years of undergraduate study. Applicants should show evidence of strong quantitative skills and of serious interest in the life sciences. In addition, applicants with less than two years of work experience must submit results from the Graduate Record Examination (GRE) (http://www.ets.org) general test. Students in
the program are not expected to continue in and do not have automatic admission to the Ph.D. program in any engineering department.

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 103 (iBT), 257 (CBT), or 613 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 7.0 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (http://grad.illinois.edu/admissions/instructions/04c) are met. Applicants with lesser scores are still encouraged to apply. Limited status (http://grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) taken upon arrival to campus.

**Degree Requirements**

Minimum Hours Overall Required Within the Unit: 40

Other Requirements:

- **Total Hours:** 40

  1 courses from approved list

**Financial Aid**

The tuition and fees for the M.Eng. in Bioinstrumentation are different from the standard university tuition rates. For tuition information and external funding resources, please visit http://bioinstrumentation.illinois.edu/admissions/financial-aid.html. Students in the Bioinstrumentation major for the M.Eng. degree are not eligible for scholarships or tuition waivers through research or teaching assistantships.

**Graduate Concentration in Cancer Nanotechnology**

The Cancer Nanotechnology Concentration requires students to earn a B or better in each concentration course. Students must complete 12 credit hours, including at least one core Cancer course and one core Nanotechnology course. Participants may take a second core Cancer course and/or a second core Nanotechnology course as an elective. Fulfillment of these requirements will be monitored by the graduate coordinator in Bioengineering.

**Total hours required for the concentration:** 12

Courses taken toward this concentration will count toward the student’s graduate degree.

Students must notify their department of their plan to pursue this concentration.

When choosing courses, students must work directly with their department to ensure that all degree requirements will be met.

Note that students who intend to complete both a Biomechanics Concentration and a Cancer Nanotechnology Concentration may only overlap one course between the two concentrations.

**Major:** Bioengineering
**Degrees Offered:** M.Eng.

**Graduate Concentrations:** General Bioengineering, Bioinstrumentation, and Computational Genomics

**Graduate Degree Programs**

The M.Eng. in Bioengineering is designed to bridge the skills gap by developing students with advanced technical know-how, a better understanding of the medical healthcare industry and more business acumen through coursework and project work, which provides students exposure to real world industry issues. For more information, visit http://www.bioengineering.illinois.edu.
Admission
Students must select one of the concentrations under the M.Eng. in Bioengineering program to apply to and will not be able to complete multiple concentrations. Students should have an undergraduate degree in a science related field or must have taken engineering or science related coursework. Applicants should have a minimum grade point average of 3.00 (A = 4.00) or equivalent for the last two years of undergraduate study and show evidence of strong quantitative skills and of serious interest in the life sciences through their personal statement and GRE scores. In addition, applicants must submit results from the Graduate Record Examination (GRE) (http://www.ets.org) general test. Students in the program are not expected to continue in and do not have automatic admission to the Ph.D. program in any engineering department.

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 103 (iBT), 257 (CBT), or 613 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 7.0 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (http://grad.illinois.edu/admissions/instructions/04c) are met. Applicants with lesser scores may still apply. Limited status (http://grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) taken upon arrival to campus.

Financial Aid
The tuition and fees for the M.Eng. in Bioengineering are the standard Graduate and Professional Programs rates for the College of Engineering, plus a $2000 program fee. For tuition information and external funding resources, please visit www.bioeng.illinois.edu. Students in the M.Eng. in Bioengineering program are not eligible for tuition-waiver generating assistantships.

Major: Biology
Degrees Offered: M.S., Ph.D.

Graduate Degree Programs

The M.S. in Biology allows students to increase their knowledge of biology and become involved with graduate-level research in biology without the long-term commitment of a Ph.D. program. The work is personally designed by each student in consultation with an adviser. Breadth of training is encouraged.

Admission

The Master of Science in Biology Program is being phased out and is no longer accepting applications or transfer students.

Financial Aid

Financial assistance is not available to M.S. students through the program.

Master of Science in Biology

To maintain active status in the program students must register for 12 credit hours in 400- or 500-level biology courses per semester. If a student has a teaching or research appointment he or she may register for 8 credit hours. A research report or thesis is required of all candidates for the degree. To maintain active status in the program students must register for 12 credit hours in 400- or 500-level biology courses per semester. Overall:

Information listed in this catalog is current as of 03/2017
of the director and advisor, a current student may obtain a terminal degree program. In rare circumstances and with special permission Biophysics and Quantitative Biology offers a doctor of philosophy Graduate Degree Programs Medical Scholars Program (http://www.med.illinois.edu/mdphd). and Quantitative Biology and Doctor of Medicine (M.D.) through the Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Biophysics Degrees offered: M.S. and Ph.D. Major: Biophysics and Quantitative Biology E-mail: biophysics@life.illinois.edu (217) 333-1630 Contact: Cindy Dodds 179 Loomis Urbana, IL 61801 32 Center Director: Satish Nair 1110 West Green Street Computational Science and Engineering (CSE) Concentration (http://www.cse.illinois.edu/education/minor-and-concentration/graduate-concentration). 

Admission
The objective of the program in biophysics is to give students sufficient training in physics, chemistry, and biology to enable them to apply the conceptual, instrumental, and mathematical approaches of the physical sciences for solving biological problems. The curriculum is broadly based and provides sufficient flexibility for students entering with either previous training in the physical sciences or for students with a background in biology and some experience in the physical sciences.

Admission requirements are usually one year of college biology, one year of college physics, chemistry through organic chemistry, and mathematics through calculus; however deficiencies in one of these areas can be corrected during the first two years of study. Most applicants who are accepted into the program have general Graduate Record Examination (GRE) scores in the 70%-90% range. The Biophysics and Quantitative Biology Program does not require the subject GRE for admission. The Test of English as a Foreign Language (TOEFL iBT) or IELTS is required for international applicants. Please refer to the Biophysics and Quantitative Biology Admissions webpage (http://www.life.illinois.edu/biophysics/program/admissions.html) for additional information and application deadlines.

Medical Scholars Program
The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Biophysics and Quantitative Biology. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees.

On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp). Please note that applications to the Medical Scholars Program are not being accepted at this time.

Graduate Teaching Experience
Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program. Every biophysics student is required to serve as a teaching assistant for one semester at the quarter time level or higher.

Faculty Research Interests
Over 40 faculty members from the Schools of Molecular and Cellular Biology, Chemical Sciences, and Medicine, and the Colleges of Engineering and Veterinary Medicine, are affiliated with the Center for Biophysics and Quantitative Biology. Faculty interests range from experimental biophysics (single molecule spectroscopy, protein and
RNA folding, molecular dynamics, cellular biophysics, imaging, etc.) to computational and theoretical biophysics (utilizing a wide range of computer platforms to simulate diverse biological phenomena at many levels as well as bioinformatics). Individual faculty interests can be found on the Biophysics web site (http://biophysics.illinois.edu/people/faculty).

### Facilities and Resources

Center faculty and students have access to world-class research facilities at the University of Illinois, including the Beckman Institute, the Carl R Woese Institute for Genomic Biology, Blue Waters Sustained Petascale Computing, the National Center for Supercomputing Applications, the Biomedical Imaging Center, the Roy J Carver Biotechnology Center, and the School of Chemical Sciences' Mass Spectroscopy Center and Electron Paramagnetic Resonance (EPR) Research Center.

### Financial Aid

All incoming graduate students in biophysics will be supported by the Center for the first semester in the program. Continuing support for subsequent years will be granted as long as students remain in good standing and continue to make satisfactory academic progress, contingent upon the availability of funds. This support can be in the form of research assistantships, teaching assistantships, traineeships, or fellowships. After the first semester of study, most students are supported directly by their research advisor in the form of a research assistantship.

## Master of Science in Biophysics and Quantitative Biology

### Thesis Option

10 hours of 500-level biophysics courses with a minimum GPA of 3.25 (does not include seminar courses and/or research units and can include no more than 2 hours of tutorials). 500-level courses in other departments count towards this 500-level formal course requirement if they are on the approved Biophysics course list.

## Doctor of Philosophy in Biophysics and Quantitative Biology

The Ph.D. degree is a research degree, and the program is designed with a major emphasis on individual research.

A qualifying examination is offered each spring. This qualifier must be passed by the end of the second year. By the end of the third year, after formulating a definite research problem, the student takes a preliminary examination where the chosen research topic is presented to the student’s faculty committee. The committee also examines the candidate on their chosen general research area. The Ph.D. thesis is based on original work of the student and is defended at a final public examination. The thesis and the exam must demonstrate a thorough knowledge of theory and techniques in one of the areas of biophysics.

The Department of Business Administration offers graduate programs leading to the Master of Science in Management, Master of Science in Technology Management, and the Master of Science and the Doctor of Philosophy (Ph.D.) in Business Administration degrees.

**Admission**

Admission to the Ph.D. program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours, acceptable scores on the Graduate Management Admission Test (GMAT) or Graduate Records Examination (GRE), three letters of recommendation, and a statement of career goals including research interests.

Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL), CBT, iBT or IELTS. Ph.D. candidates must achieve the University minimum scores on these examinations.

www.grad.illinois.edu/admissions/apply (http://www.grad.illinois.edu/admissions/apply)

The Ph.D. program allows fall admission only. Please check the Departmental listing for current requirements and program information: www.business.illinois.edu/ba/programs/phd/ (http://www.business.illinois.edu/ba/programs/phd)

Admission to the MS in Management program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours and for any previous graduate work completed along with completion of at least one college-level quantitative methods class. For additional details, please refer to the program’s website. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOEFL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections.

Admission to the MS in Technology Management program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours, three letters of recommendation, and a statement of career goals. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL), CBT, iBT or IELTS. Candidates must achieve the University minimum scores on these examinations (currently 550 on the paper-based TOEFL or 213 on the computer-based TOEFL or 79 on the iBT).

Admission to the MS in Business Administration requires an undergraduate degree with a scholastic average of at least B for the last 60 hours, three letters of recommendation, and a statement of career goals. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL), CBT, iBT or IELTS. Candidates must achieve the University minimum scores on these examinations (currently 550 on the paper-based TOEFL or 213 on the computer-based TOEFL or 79 on the iBT).

**Faculty Research Interests**

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business
Business Administration

Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

www.business.illinois.edu/ba/people/ (http://www.business.illinois.edu/ba/people)

Financial Aid
Most Ph.D. students receive some form of financial assistance. This assistance is likely to be in the form of a teaching or research assistantship, which includes a waiver of tuition and some fees, and/or the award of a merit-based fellowship. The M.S. in Business Administration, the M.S. in Management, the M.S. in Strategic Brand Communication, and the M.S. in Technology Management do not provide assistantships.

• Master of Science in Business Administration (p. 662)
• Master of Science in Management (p. 669)
• Master of Science in Technology Management (p. 669)

Doctor of Philosophy in Business Administration
This program offers an in-depth education in teaching and research in selected areas of business and administration. Doctoral students can specialize in marketing, organizational behavior/theory, management science/process management, information systems, and strategic management. The program is intensive, flexible, and adapted to individual needs.

Each student’s program entails sufficient study and preparation to achieve the following:

1. competence in a common core covering substantive and research methods courses, which are formulated by the faculty in each area;
2. in-depth expertise in a major area;
3. expertise in at least one area in addition to the chosen major area, with this minor area selected from within or outside the department;
4. teaching experience; and
5. research or problem-solving competence.

Competency is determined by comprehensive written and/or oral examinations. Following successful completion of all coursework and comprehensive examinations in major and minor areas, students must propose and gain approval of a thesis topic at a public colloquium. The final program requirement is the successful oral defense of the thesis. Applicants should contact the department for current requirements and program design.

The program usually is completed in four years. Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Entering with approved M.S./M.A. degree

• Graduate Minor in Information Technology and Control (p. 661)
• Graduate Minor in Corporate Governance and International Business (p. 660)
• Graduate Minor in Supply Chain Management (p. 661)
Graduate Concentration in Business Data Analytics

The concentration in Business Data Analytics is designed to develop leaders in various business fields who understand (1) how to leverage data to identify new customer segments and market; (2) how to optimize the supply chain and logistics; and (3) how to collect, manipulate, and visualize data for business decisions. The concentration will develop skills using data as a foundation for sound decision making in business.

The concentration is open to students enrolled in the Master of Business Administration, Master of Science in Business Administration, and Master of Science in Technology Management programs in the College of Business but required of none.

This concentration requires twelve graduate hours of Business Data Analytics related coursework and completion of an analytics-related project in their Practicum or an equivalent course. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and admission to one of the programs approved for the concentration. Admission is limited, and acceptance is considered based on a student's academic standing and space availability.

Select four hours of course work from each of the three areas below:

1. Customer
   - BADM 590 Consumer Analytics
   - BADM 590 Social Media Analytics
2. Operation and Supply Chain
   - BADM 590 Predictive Data Analytics
   - BADM 590 Business Process Improvement
3. Information Systems
   - BADM 554 Enterprise Database Management
   - BADM 557 Dec Support and Knowledge Mgt
   - BADM 590 Data and Visual Analytics

In addition, students pursuing this concentration will be required to select an analytics-related project in their Practicum or an equivalent course.

Course substitutions may be approved by the Department of Business Administration.

In addition to the concentration requirements, students must also complete the requirements of their major degree.

Graduate Concentration in Corporate Governance and International Business

The concentration in Corporate Governance and International Business is designed to develop leaders in various business fields who understand international business and corporate governance issues within the global economy. It specifically covers topics such as (1) how to create value for multinational partners, employees with diverse cultural backgrounds, and shareholders by designing better organizations and corporate governance structures; and (2) how managerial practices differ in various national/cultural contexts and why managers must be able to understand the strategic, financial, and economic implications of these differences in managing multinational corporations. The concentration will provide a strong foundation in the International Business and Governance area and can be tailored to fit the specific career needs of students.

This concentration requires submission of twelve graduate hours of Corporate Governance and International Business related coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and admission to one of the programs:

- Master of Science in Business Administration
- Master of Business Administration
- Master of Science in Accountancy
- Master of Science in Finance
- Master of Accounting Science

Admission is limited, and acceptance is on a competitive basis.

Select three of the following:

- BADM 532 Sustainable Products for Subsistence Marketplaces
- BADM 582 Multinational Management
- BADM 583 Current Topics in Intl Bus
- BADM 584 Global Marketing
- BADM 586 Intl Comparative Management
- BADM 590 Seminar in Business Admin (US Corporate Governance)
- BADM 590 Seminar in Business Admin (Technology and Globalization)
- BADM 590 Seminar in Business Admin (Global Strategy)

Total Hours: 12

Other Requirements

Course substitutions may be approved by the Department after consultation with the IB & Business Law Area faculty.

In addition to the concentration requirements, students must also complete the requirements of their major degree.
Graduate Concentration in Information Technology and Control

The concentration in Information Technology and Control is designed to develop leaders in various business fields who understand (1) how to leverage information technology to create value for customers, external partners, and shareholders by designing better information systems to improve business processes and controls; and (2) how managers can assess the strategic, financial, and economic benefits and risks of investing in advanced information systems. The concentration will provide a strong foundation in the IS/IT area and can be tailored to fit the specific career needs of students.

This concentration requires submission of twelve graduate hours of Information Technology and Control related coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and admission to one of these programs:

- Master of Science in Technology Management
- Master of Business Administration
- Master of Science in Accountancy
- Master of Science in Finance
- Master of Accounting Science

Admission is limited, and acceptance is on a competitive basis.

Total Hours: 12

Other Requirements

In addition to the concentration requirements, students must also complete the requirements of their major degree. Course substitutions may be approved by the Department after consultation with the IT Area faculty.

Graduate Concentration in Supply Chain Management

The concentration in Supply Chain Management is designed to develop leaders who understand (1) how to assess the trade-offs and make the decisions necessary to sustain high quality products and services at lower costs while maintaining the flexibility necessary to adapt and respond to evolving market trends; and (2) how to coordinate and integrate supply chain solutions across various intra-organizational and inter-organizational interfaces in any business or organization. The minor or concentration not only will provide a strong foundation in supply chain management principles and practices, but also can be tailored to fit the specific needs of students interested in careers across a wide variety of industries. This minor or concentration requires submission of twelve graduate hours of Supply Chain Management coursework. Successful completion of the minor or concentration assumes certain knowledge of business and prior coursework.

Admission to the minor or concentration requires submitting a Curriculum Change Form to the Department and Graduate College and admission to one of these programs:

- Master of Science in Technology Management
- Master of Science in Business Administration
- Master of Business Administration
- Master of Science in Accountancy
- Master of Accounting Science

Admission is limited, and acceptance is on a competitive basis.

Master of Science in Business Administration

The Master of Science in Business Administration is a 40 graduate hours master’s program best suited for those with a strong technical expertise in one of the concentrations offered within the Ph.D. program. The focus is on preparation for advanced study in the doctoral program or for a research-oriented position. The coursework can usually be completed in four semesters. A major must be specified from one of six areas offered within the Department of Business Administration: organizational behavior/theory, strategic management, marketing, decision sciences and information systems, and process management/management science. At least two courses should be chosen from another area within the Department of Business Administration or a related area outside the department or college.

Master of Science in Strategic Brand Communication

Jacquie Hitchon, Head, Department of Advertising
B. Joseph White, Interim Head, Department of Business Administration
Department of Business Administration
4027 BIF, 515 E. Gregory Drive, Champaign, IL 61820

Charles H. Sandage Department of Advertising
119 Gregory Hall
810 South Wright Street
Urbana, IL 61801
PH: Advertising: (217) 333-1602; Business Administration: (217) 333-4240

This Master of Science in Strategic Brand Communication (MS SBC) degree is an online program jointly sponsored by the Charles H. Sandage Department of Advertising in the College of Media and the Department of Business Administration in the College of Business. The degree program launched in December 2016 and graduates from this program receive the MS SBC degree awarded by the Graduate College. Strategic Brand Communication (SBC) is a data-driven, purposeful conversation with a brand’s stakeholders. SBC combines traditional advertising practices with contemporary business thinking that pertains to delivering consistent, meaningful messages to consumers. In so doing, SBC seeks to integrate multiple consumer contact points that occur through the purchase of commercial messages in paid, earned, and owned media to deliver persuasive and impactful statements about brands and companies.

This management process integrates all aspects of strategic brand marketing communications such as advertising, public relations, digital media, social media, promotion, and revenue development marketing. Such integration impacts a firm’s business-to-business, marketing channel, customer-focused, and strategic integrated communications.

The MS SBC degree program is designed for working professionals. The proposed online program is designed to be completed in 15 months. The curriculum will prepare students to: be strategic leaders in an ever-changing global media environment; be analytic and integrative thinkers; be effective brand communicators and managers; respond agilely to new technologies, emerging media, new demographics, and market trends; be team-oriented in their approach to management and communications; and be prepared to continue to learn as the media environment evolves.

To be admitted into this program, applicants are expected to have a minimum grade point average of at least 3.0 (A = 4.00) for the last two years of undergraduate study and a 3.0 for any previous graduate work completed. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOEFL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections. Prerequisite: course in Statistics or Calculus from an accredited institution. The admissions criteria will be based upon an evaluation of each applicant’s academic and professional experience, GPA, English aptitude, and letters of recommendation.

A minimum GPA of 2.75 is required for continued enrollment.

ADV Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ADV)

Advertising Courses

ADV 509 Media Entrepreneurship credit: 3 Hours.
Introduces students to the foundations of entrepreneurship and evolving business models for media. Students are introduced to the foundation and context of entrepreneurship. The course will cover the skills and practices necessary for new entrepreneurial ventures, as well as the processes of evaluation an idea, assessing the market, and implementing a new venture. Finally, students will examine business case studies for both successful and unsuccessful media start-ups. 3 graduate hours. No professional credit. Credit is not given for both ADV 409 and ADV 509. Prerequisite: Limited to MS Advertising students.
ADV 550 Foundations of Advertising  credit: 3 Hours.
Explores the development of American advertising through the 20th and into the early 21st century. Analyzes and evaluates American advertising through these primary areas: ethics, advertising philosophies, advertising structure, advertising education, its broader social impact, the role of media and technologies, and its place within a global framework. Prerequisite: Consent of department.

ADV 580 Advertising Theory  credit: 3 Hours.
Reviews classic and contemporary theories used in advertising research and practice with multidisciplinary emphasis. Through reading, discussion and independent research, students will understand how basic social science and humanities research and advertising scholarship are related; how theories and concepts are applied, adapted, constrained and combined when applied to advertising and other communication issues; and how research evolves over time.

ADV 581 Quanti Research Methods in Adv  credit: 3 Hours.
Provides students with an overview of quantitative research methodology in advertising and consumer behavior. Students will learn appropriate uses and techniques for conducting exploratory (e.g., focus groups, literature searches), descriptive (e.g., observational techniques, surveys), and casual (randomized- and quasi-experiments) research. Ethical considerations in research, and limitations of quantitative research will play an important role throughout the course. Students will learn basic descriptive and inferential statistical analyses to help analyze, and make sense of quantitative data. Prerequisite: Basic statistics course.

ADV 582 Qualitative Rsrch in Advert  credit: 3 Hours.
Treatment of basic research concepts and procedures in the social sciences with emphasis on advertising. Prerequisite: Consent of the department.

ADV 587 Graduate Seminar I  credit: 3 Hours.
Provides advertising students and faculty the opportunity to interact on significant topics. It draws on a wide range of perspectives to explore not only foundational theories and research in advertising, but also current issues, contemporary analytical approaches, and emerging trends in advertising scholarship and practice. Prerequisite: Consent of department.

ADV 588 Graduate Seminar II  credit: 3 Hours.
Students write research proposals in this course. Prerequisite: The grade of B or better in ADV 587.

ADV 590 Special Topics in Advertising  credit: 1 to 4 Hours.
May be repeated in the same or in multiple semesters if topics vary. Prerequisite: Consent of department.

ADV 594 Advanced Topics in Advertising  credit: 4 Hours.
This seminar explores topics associated with advertising theory and research. Topics will vary across different course offerings. They will include classic elements of advertising theory (e.g. persuasion, attitudes, cognition, emotion, motivation), as well as current research frontiers (e.g. decision-making, computational advertising, psychophysiology, gaming, social media). 4 graduate hours. No professional credit. May be repeated up to 12 hours, if topics vary. Prerequisite: Ph.D. student or instructor approval.

ADV 597 Proseminar in Advertising  credit: 1 Hour.
Current topics, cases, and research in advertising are presented in a forum that fosters critical thinking and engagement. Weekly presentation and discussion of current research and cases by faculty, undergraduate/graduate students, visiting scholars and visiting professionals. Approved for S/U grading only. May be repeated up to 4 graduate hours in separate terms.

ADV 598 Professional Project  credit: 0 or 6 Hours.
This course serves as a capstone, requiring the student to demonstrate a mastery of knowledge in the primary areas of advertising. Approved for S/U grading only. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: A grade of B or better in ADV 588.

ADV 599 Thesis Research  credit: 0 to 6 Hours.
Approved for S/U grading only. May be repeated in separate terms. Prerequisite: ADV 588 and consent of the department.

BADM Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/BADM)

Business Administration Courses

BADM 503 Classics in Business Admin  credit: 2 Hours.
Graduate seminar. Presents foundational literature to introduce the theoretical origins of the different areas of Business Administration and explores the linkages among these areas. Outlines the impact of the foundational works on subsequent research. Approved for S/U grading only. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 504 Phil of Science and Bus Admin  credit: 2 Hours.
Introduction to philosophy of science that focuses on the nature of discovering and justifying knowledge in the business disciplines. Specific issues of interest are the nature of scientific truth, validation of theories, prediction and explanation. Discusses applications to research in various business disciplines. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 505 Stat Analysis w/Business App  credit: 4 Hours.
This topics course introduces the student to the theory and applications of probability (deduction), statistics (inference) and data analysis (linear models) that are relevant for the conduct of research in Business Administration. May be repeated to a maximum of 8 hours. Students may take each section (A and B) once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

Research methodology for the study of administrative, industrial, and consumer behavior and organizations; Foundations of measurement - Construct definition, Domain delineation, Reliability, Dimensionality, and Validity, Reliability analysis, Exploratory and Confirmatory factor analysis; Alternative methods of data collection - laboratory experimentation, survey research design, and qualitative research. A completed individual research project involving the development of an entire method is formally presented in class and submitted as a paper. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 508 Leadership and Teams  credit: 2 or 4 Hours.
Develops and integrates fundamental behavioral concepts and theory having administrative applications; initially focuses on the individual decision maker and ultimately includes interpersonal, organizational, and social structures and influences; and develops strategies and methods of research on behavioral applications in business.

BADM 509 Managing Organizations  credit: 2 or 4 Hours.
Examines and analyzes the organization as a social system and the impact of its various components on work attitudes and behavior; topics include the development of organizational structures, organizational effectiveness, decision making and policy formulation, leadership, and change.
BADM 510  Founds of Organizational Behav  credit: 4 Hours.
Introduction to the principal theories and important empirical research in various disciplines that study organizations; in addition to examination of the subject matter content of various disciplines, students critically examine the capacities and limitations of the various fields to make contributions to the study of organizations. Same as PS 514, PSYC 553, and SOC 575. Prerequisite: Enrollment as a major in organizational sciences in a cooperating program or consent of instructor.

BADM 511  Topics in Personnel Mgmt  credit: 4 Hours.
Examines the organization and administration of the personnel function in management; the relations of personnel administration to operating departments and the scope of business and industrial personnel services; analytical appraisal of policies and practices in selected areas of personnel administration, such as selection and training, carried out through case studies and direct industrial contracts; and specific consideration given to problems up to and including placing the person on a job. Same as LER 548. Prerequisite: Consent of instructor.

BADM 512  HR Management and Strategy  credit: 4 Hours.
Same as LER 565. See LER 565.

BADM 513  Communication Strategy in Bus  credit: 2 Hours.
Offers an introduction to communication, business presentation, and essential interpersonal skills, including message clarity, attentive listening, and constructive feedback for more effective cooperation, conflict management, teamwork and productivity. Covers communication concepts and skills that help heighten emotional intelligence and offer strategies for communicating effectively across cultural, generational and gender lines. 2 graduate hours. No professional credit. Prerequisite: For MSM majors only.

BADM 514  Managing Innovation  credit: 2 Hours.
Provides a solid grounding to students interested in managing various aspects of the innovation process that facilitate the creation, synthesis, and organization of knowledge for the development of economically valued products, processes, and services within organizations. Covers both the analytic frameworks for understanding the innovation process as well as the strategic and organizational challenges involved in managing technological innovation. Specifically focuses on managerial actions that create the organizational environment in which new opportunities are identified and new business models are developed to create value. Prerequisite: BADM 508 or consent of the instructor.

BADM 515  Oral Comm for Business  credit: 4 Hours.
This class builds communication skills for the English language business environment for international students. It includes work on pronunciation deficits, but also units on broader communication topics, including social interaction skills, appropriate business language, interviewing, and presentations. The class incorporates workshops on specific scenarios such as making a sales pitch, delivering an annual report, handling the press, presenting a case study, communicating during a crisis, and communicating in specific contexts such as within technology, entrepreneur or venture capital fairs. 4 graduate hours. No professional credit. Prerequisite: MSTM students.

BADM 518  Adv Topics in Org Behavior  credit: 2 Hours.
Review and analysis of major organization theory topics stressing the sociological, economic and managerial foundations or macro organizational behavior. Topics include: the role of the social and economic environment on the functions, evolution and transformation of individual organizations; and inter-organizational relations, the ecology of organizations and institutional factors that shape organization action. May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 519  Adv Topics in Org Theory  credit: 4 Hours.
Seminar in topics of organizational behavior and organizational theory. Topics include: Seminar in Organizational Behavior (explores the most recent research in the field of Organizational Behavior); and Seminar in Organizational Theory (explores the most recent research in the field of Organizational Theory). May be repeated in the same or separate terms to a maximum of 8 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 520  Marketing Management  credit: 2 or 4 Hours.
Introduces concepts useful in understanding marketing systems and buyer behavior in addition to developing skills in making marketing decisions; the orientation is primarily managerial and uses examples from both business and non-business contexts.

BADM 521  Marketing Strategy  credit: 4 Hours.
Formal analysis of strategy drawing on concepts from the theory of games, decision theory, value theory, and information theory; topics cover elements of game models, classes of decision problems, games against nature, modern utility theory, information theory, group decision making, statistical decision theory, and linear and nonlinear optimization.

BADM 522  Marketing Models  credit: 4 Hours.
Concepts, methods, and applications of decision modeling to marketing issues including segmentation, targeting and positioning, new product design and development, advertising, sales force and promotion planning, and sales forecasting. Assists students to build "smart" spreadsheets to improve marketing decisions.

BADM 523  Consumer Behavior  credit: 4 Hours.
Studies alternative models of buyer behavior; focuses attention on psychological, sociological, and economic factors including motivation, learning, attitudes, personality, reference groups, social stratification, demographics, life-styles, and cross-cultural differences and their impact on purchasing, consumption, and choice decisions.

BADM 524  Pricing Strategy and Tactics  credit: 4 Hours.
Develops concepts and techniques for formulating and administering prices in a variety of business situations. Focuses on understanding the internal and external environment through relevant information acquisition and analysis for developing appropriate pricing strategies and tactics.

BADM 525  New Product Development  credit: 2 or 4 Hours.
The decisions on the firm's total market offer, including such topics as use of market analysis in making decisions on assortment, product development, pricing, packaging, branding, and sales forecasting; coordination of these decisions and actions with market communications, physical movement, production, finance, and the overall goals and policies of the firm; and emphasizes the use of analytic and research methods in making assortment and product decisions.
BADM 526  Marketing to Organizations  credit: 4 Hours.  
Case and discussion-based course that focuses on how firms that are engaged in marketing to organizations. Examines how to identify competitive marketing advantages, assess market needs, and leverage or sustain these advantages.

BADM 527  Sales Force Management  credit: 4 Hours.  
Examines primary elements and problems in the area of sales force management; studies such topics as the dyadic interaction between the buyer and seller, the sales presentation, important salesperson characteristics, the selection, training, assignment, motivation, and compensation of salespeople, supervision and evaluation of the sales force, and coordination of the sales force with other elements in a firm’s marketing program. Uses case studies.

BADM 528  Promotional Strategy  credit: 4 Hours.  
Management orientation to promotional strategy for the medium and large size organization: includes analyses of the primary elements of the promotional function from both qualitative and quantitative perspectives emphasizing such factors as (1) selection among alternative promotional tools, (2) the promotional budgeting and allocation process, and (3) determination of appropriate messages and media schedules for given product/market situations. Explores widely used models in depth for strategic usefulness; emphasizes case analysis and contemporary situations.

BADM 529  Marketing Research  credit: 4 Hours.  
Examines the collection and analysis of information applied to marketing decisions; stresses quantitative methods including samplings, scalings, experimental design, forecasting, and multivariate procedures through the use of class projects on actual market research problems.

BADM 531  Survey Methods in Mkt Res  credit: 4 Hours.  
Analysis of survey methods in marketing with emphasis on sample design, data collection, and data processing; an advanced course in the methods required to design, implement, and evaluate a research project. Same as SOC 576.

BADM 532  Sustainable Products for Subsistence Marketplaces  credit: 4 Hours.  
Focuses on sustainable product and market development for subsistence marketplaces; virtual immersion in subsistence contexts; emersion of principles for business, design, and engineering; idea generation and evaluation by groups of business, engineering, and design students; optional international field trip over winter break; option to enroll in a spring course on developing product prototype and business plan. Prerequisite: Application process.

BADM 533  Sustainable Product Design and Enterprise Plan Development  credit: 4 Hours.  
Focuses on sustainable product design and enterprise plan development; uses extreme resource constrained contexts to learn about bottom-up enterprise and innovation for any context; project based course focusing on systematic approach for designing sustainable products and developing enterprise plans; covers concept generation and evaluation, detailed design, cost modeling, market testing & prototyping, product innovation, and sustainable enterprise plan development for subsistence marketplaces or upward innovation for advanced economies. 4 graduate hours. No professional credit. Prerequisite: BADM 532 or instructor approval. Application Process.

BADM 534  Marketing Theory and Systems  credit: 2 Hours.  
Detailed review of approaches to marketing theory. Specific emphasis on understanding the development of marketing theory and current trends in marketing thought. By a comprehensive review of selected literature, the student will be prepared to interpret and conduct research in marketing. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 535  Global Business  credit: 2 Hours.  
This course provides students with a clear conceptual understanding of the opportunities and challenges involved with international business transactions. Young managers face a diverse set of circumstances when they engage in cross-border business (trade and foreign direct investment) as opposed to purely domestic business: e.g., enhanced globalization forces, cross-national heterogeneity in institutions and cultures, increased competition from emerging economies, and - particularly germane for this course - altered strategic economic incentives. Accordingly, we will attempt to analyze these issues, make sense of the fundamental forces behind these dynamics, and understand their managerial implications. The class will focus then on the roots of International Business, and complement this focus with important practical implications and ‘real-world’ examples and cases - the ambition will always be to wed good theory with practice. 2 graduate hours. No professional credit. Prerequisite: MSM student or consent of instructor.

BADM 537  Advanced Topics in Marketing  credit: 4 Hours.  
Seminar on topics associated with the development of marketing theory. Topics may vary from year to year, and include classics in marketing exchange, development, and thought as well as current research frontiers involving product usage, market definition, data base modeling, and pricing. May be repeated to a maximum of 8 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 538  Res Sem in Consumer Behavior  credit: 4 Hours.  
Advanced doctoral level seminar which critically examines the relevance of behavioral and social constructs for generating consumer behavior theories. It specifically discusses the need for, and procedures with which to modify behavioral/social processes. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 539  Math Models in Marketing  credit: 4 Hours.  
Seminar in model building as a tool for research in marketing. Application of the mathematics of optimization, dynamics, linear algebra and games to marketing topics including consumer choice, retailing, price promotions, advertising, personal selling, positioning, new product diffusion. Research project using marketing models required. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 540  Frontiers in Technology  credit: 0 or 1 Hours.  
This course provides the opportunity to listen to, discuss, and present on ideas and technologies which are expected to affect our lives in the near future. Activities include seminars and professional development activities, corporate visits, and presentations by researchers who work on the cutting edge of technology. 0 or 1 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms up to 2 credit hours. Prerequisite: MSTM students.

BADM 542  Competitive Analysis  credit: 4 Hours.  
Develops concepts and techniques critical for formulating competitive strategy in a variety of business environments. Focuses on analyzing the structure of industries, the evolution of this structure, the pattern of interaction among competitors, and the competitive position and advantage of firms in the industry.
BADM 543 Technology Strategy  credit: 2 or 4 Hours.
Technological change is a fundamental challenge and opportunity for business leaders in the modern economy. This course deals with concepts and analytical frameworks for strategizing and managing in an environment of technological upheaval and constant innovation. Broadly, students are exposed to ideas about how firms create value through new technologies, and how they in turn capture some of that value to make profits. Specific topics include sources and patterns of innovation, business models, first mover advantages, barriers to imitation, technology commercialization modes, network effects and standards competition, creative destruction and technological disruption, alliances and collaboration, and strategic renewal. The course aims to impart the strategic toolkits and skills required to manage dynamic technology-intensive businesses. 2 or 4 graduate hours. No professional credit.

BADM 544 Strategic Management  credit: 2 or 4 Hours.
Policy construction and planning of policy implementation at the executive level; case studies of company-wide situations from the management point of view; and integration and application of material from previous courses. Credit is not given for both BADM 544 and BADM 339. Prerequisite: BADM 509, BADM 520, and BADM 567, FIN 520, or equivalent.

BADM 545 Found of Strategy Research  credit: 2 Hours.
Seminars on topics in the development of strategic management theory. Topics include: Classics in Strategic Management (explores the historical development of the foundational literature of strategic management); and Theory Development and Assessment in Strategic Management (focuses on the process of conducting and critiquing research in the field). May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 546 Strategy Content Research  credit: 2 Hours.
Seminar covering the foundations of strategy content and formulation research. Topics include: Economic Theories in Strategic Management (including strategic management applications of industrial organization economics); and Economic Approaches to Strategic Management Research (including transaction costs, resource-based and property rights research). May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 547 Strategy Process Research  credit: 2 Hours.
Seminar on research into strategy formulation and implementation processes. Topics include: Behavioral Theories in Strategic Management (theoretical and empirical research on complex organizations and their environments); and Behavioral Approaches to Strategic Management Research (behavioral research into strategy formulation and implementation processes). May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 548 Corp & Comp Strategy Research  credit: 2 Hours.
Research seminars on topics in firm-level and business-level strategy. Topics include: Corporate Strategy (explores issues associated with the scope of the firm, corporate governance and value creation), and Competitive Strategy (focuses on strategic positioning, timing, competitive advantage and sustainability). May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 549 Current Strategy Research  credit: 2 Hours.
Seminar on current theoretical and empirical research relating to emerging areas of knowledge in the strategic management field. Reflecting the emphasis of current research on strategic and organizational phenomena, topics vary from year to year. May be repeated in the same or separate terms to a maximum of 4 hours. Students may take multiple topics under the course designation, but can only take each topic once for credit towards degree requirements. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 550 Technology Practicum  credit: 0 to 4 Hours.
This class provides a unique opportunity to apply student's classroom knowledge, their skills and experiences in a real world setting. Each student should expect the experience to be as close to working in a business environment as the academic environment allows. Each team of students will work in a collaborative relationship with real businesses and organizations to solve real problems by developing implementable solutions. The instructor’s expectation is that each student will provide professional quality work. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms up to 4 credit hours. Prerequisite: MSTM students.

BADM 551 Managing Intellectual Property  credit: 2 Hours.
Knowledge assets - technologies, knowhow, creative works, reputations, talent, and customer relationships - are critical drivers of business today. Intellectual property (IP) of various types (patents, copyrights, trade secrets, trademarks, etc.) can confer valuable rights over these knowledge assets, which makes intellectual property strategy a vital skill in the modern manager's professional toolkit. This course provides an introduction to different IP types and an in-depth exploration of the strategic issues entailed in using (obtained, licensing and enforcing) IP rights in business. It examines how IP strategies can be used to support the company's overall strategy, and how the two can be better aligned. The end goal is to develop the business manager's vocabulary, understanding, and strategic thinking in dealing with intellectual property as tools for competitive business success. 2 graduate hours. No professional credit.

BADM 552 Legal Aspects of Mgt Decisions  credit: 4 Hours.
The legal environment in which business decisions are made, including the legal system and the role of courts, government taxation and regulation of business, administrative law, antitrust law, labor law, and trends in the law affecting business policy.

BADM 553 Ethical Dilemmas in Business  credit: 4 Hours.
Examines business decision making and the role ethics plays in that process. Analysis of how managers behave and whether ethical choices are knowingly made or only realized thereafter.
BADM 554  Enterprise Database Management  credit: 4 Hours.
Examines the design and management of enterprise-wide data base systems. Topics include: (1) information modeling and presentation; (2) computerized methods for organizing information; (3) object-oriented information representation; (4) web-based enterprise information systems; and (5) business application and management of enterprise data base systems. Credit is not given for both BADM 554 and BADM 352.

BADM 555  Info Sys Development and Mgt  credit: 4 Hours.
Addresses issues relevant to the development of large-scale information systems including systems concepts and thinking, systems development life cycle, objectives, methodology and deliverables in each phase, behavioral implications of systems development and integration information systems with business processes. Credit is not given for both BADM 555 and BADM 353.

BADM 556  Electronic Commerce  credit: 4 Hours.
Graduate seminar in Electronic Commerce (EC), focusing on the integration of IT and business models. Topics include: (1) business-to-consumer EC; (2) business-to-business EC; (3) enterprise information management; (4) infrastructure development; (5) knowledge management; and (6) EC strategy.

BADM 557  Dec Support and Knowledge Mgt  credit: 4 Hours.
This graduate level course examines emerging information technologies, in particular based on the Internet and mobile applications, to support management decisions. This course combines the technical, business and managerial aspects of developing advanced electronic business systems. Credit is not given for both BADM 557 and BADM 453.

BADM 558  Software Prog Dev and Mgmt  credit: 4 Hours.
Graduate level course. Covers software development principles and implementations. Course topics include: Object-oriented programming, Java, C, C++, C#, with Java as the main language of implementation.

BADM 559  Enterprise IT Governance  credit: 4 Hours.
Addresses enterprise IT governance, with a focus on (1) IT governance strategy, including strategic mapping, IT portfolio management, and IT risks assessment; (2) IT control frameworks for organizing IT processes and defining management control objectives, and (9) Trustworthy information management.

BADM 560  IT Consulting Management  credit: 4 Hours.
This course enables students to comprehend, explore and manage issues confronting management consultants. The course aims to teach a balance between consulting principles and information technology (IT) management. The course is structured around five objectives of understanding the management consulting life-cycle, consulting tools and techniques, IT valuation methods, IT governance, and emerging IT trends and their impact. Students will prepare the most prevalent types of consulting engagements, conduct case-oriented research and analysis, understand the consulting engagement life-cycle, innovation management, while exploring and debating materials from industry thought-leaders. 4 graduate hours. No professional credit. Prerequisite: MBA, MSTM and IT Minors/Concentrations.

BADM 561  Found of IS/IT Research  credit: 4 Hours.
Doctoral seminar aimed at preparing students for conducting research in the IS/IT area. Topics covered include: IS/IT research methods, approaches, and applications. Different research perspectives are surveyed. Emphasizes the scholarly process and the development of IS/IT research programs for an academic career. Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 562  Social Media Strategy  credit: 4 Hours.
Managers in firms today must be equipped to deal with the new reality of a socially connected society. In this course, students will improve their analytical capabilities and understanding of the opportunities and challenges that social media, global collaboration and new ways of engaging customers pose for the firm. An emphasis will be placed on managerial decision making in the context of the social media phenomenon. 4 graduate hours. No professional credit. Prerequisite: Enrollment in the MBA, MSTM, or PMBA program or in the IT Graduate Minor/Concentration.

BADM 563  Operations Strategy  credit: 4 Hours.
The main objective of this course is to examine how manufacturing and operations can be used as sources of competitive advantage. Some firms compete based on innovation and high-performing products. Others may rely on rapid delivery, flexibility to accommodate specific customer needs, or cost leadership. The capabilities that allow the pursuit of these strategies are usually the result of well formulated and executed operations strategies. This course illuminates the fundamental drivers that make the pursuit of these and other strategies possible. 4 graduate hours. No professional credit. Prerequisite: Enrollment in the MBA or MSTM program, or the Supply Chain Management Concentration.

BADM 564  Business Process Improvement  credit: 4 Hours.
The main objective of this course is to learn tools and techniques for process improvement that are commonly used today under organizational initiatives such as Lean Management and Six Sigma. Classes will consist of lecture-discussions and problem solving exercises, and demonstrations and practice of the use of software for statistical analyses. 4 graduate hours. No professional credit. Prerequisite: BADM 567, MBA 502 MSP, or consent of instructor.

BADM 565  Design & Mgt of Service Sys  credit: 4 Hours.
Focuses on unique challenges arising in services because customers cannot be separated from service creation and delivery processes; emphasizes integration of operations, marketing, and human resources management; and includes topics such as design/delivery of services, service quality/productivity, and strategic role of information technology in services.

BADM 566  Supply Chain Management  credit: 2 or 4 Hours.
Focuses on how to manage flows of products and services from raw material sources to final customers and associate flows of information. Helps students to develop a system view of measuring channel performance, integrating cross-functional activities, and coordinating processes across organizations.

BADM 567  Process Management  credit: 2 or 4 Hours.
Introductory course in decision-making problems in production; includes the theoretical foundations for production management as well as the applications of decision-making techniques to production problems in the firm; and considers production processes, plant layout, maintenance, scheduling, quality control, and production control in particular.

BADM 568  Planning and Control Systems  credit: 4 Hours.
In-depth treatment of concepts involved in designing and implementing planning and control systems within the context of a dynamic environment; particular emphasis on the systematic use of information to maintain the efficient flow of materials, utilization of people and technology, coordination with suppliers, and communication with customers.

Information listed in this catalog is current as of 03/2017
BADM 569  Res Topics in Operations Mgt  credit: 4 Hours.  
Current and classical literature in the area of Operations Management.  
The topics covered may vary from year to year and may include  
performance measures, inventory management, planning, scheduling,  
location, layout, product design, process design, and forecasting.  
May be repeated in the same or separate terms to a maximum of 12 hours.  
Prerequisite: Ph.D. standing in BADM or consent of instructor.

BADM 570  Power(6,13),(994,989)(6,13),(994,989) & Leadership in Orgs  credit: 4 Hours.  
Organizations are political systems, so leadership is a political task that  
raises practical, ethical, and personal challenges. This course aims to  
help students better understand power in organizations and to become  
more effective political actors in their professional careers. The course  
will address normative questions about power’s legitimate purposes  
and the ethical constraints which should govern its use. We will also  
consider how the pursuit and attainment of power can affect people.  
In addition, the course will explore the nature of leadership and its  
relationship to power. Leadership, as we shall come to see in the course  
of the class, is an inherently ethical and personal concept. The course  
considers both realism and idealism, both “getting things done” and  
“doing the right thing.” The course involves reading a large number of  
cases and attempting to learn from the experiences of successful and  
failed organizational politicians/leaders. We will also draw upon a large  
body of popular management literature and social scientific research  
which has directly addressed the phenomena of power and leadership  
in and around organizations. The course will be highly interactive and  
discussion-based. 4 graduate hours. No professional credit. Prerequisite:  
Enrollment in the MBA, PMBA, or MSTM program.

BADM 571  Digital Business & IT Strategy  credit: 2 Hours.  
This course is to discuss digital business management and IT strategy  
based on emerging digital technology developments. 2 graduate hours.  
No professional credit. Prerequisite: Restricted to students in MAS and  
MSTM programs.

BADM 572  Stat for Mgt Decision Making  credit: 2 or 4 Hours.  
The application of classical and modern statistics for business decision  
making. The level of the course assumes some prior knowledge of basic  
statistics as well as facility with elementary calculus.

BADM 573  Quant Analysis of Decisions  credit: 2 or 4 Hours.  
Introduction to operations research techniques; topics include the  
construction and solution of linear models under certainty, and the  
construction of probabilistic models, specifically queuing theory, Markov  
chains, and sequential decisions.

BADM 574  Simulation and Risk Analysis  credit: 2 Hours.  
This course provides quantitative tools for solution of management  
problems involving risk, competing objectives, and complex constraints.  
The course will provide hands-on experience with techniques for solving  
these problems, with a particular emphasis on models and methods that  
enable managers to proactively manage and mitigate risk, obtain insight,  
and support decision making. Models are illustrated with applications  
to operations management, finance, and marketing, with a particular  
emphasis on issues associated with project portfolio management.  
Hands-on modeling skills are developed using spreadsheet-based  
software tools. We will consider challenges that executives and  
organizations encounter when implementing these approaches, and  
demonstrate how mathematical models can improve on “seat of the  
pants” methods.

BADM 575  Systems Modeling & Simulation  credit: 4 Hours.  
Elements of computer simulations, including modeling deterministic  
and stochastic systems, generation of random numbers and variables,  
and probability and statistics related to modeling, validating, running,  
and of interpreting computer simulations. Same as CS 545. Prerequisite:  
CS 105 or CS 125 and STAT 400, or equivalent background in computer  
and statistical principles, or consent of the instructor.

BADM 576  Math Prog for Mgmt Science  credit: 4 Hours.  
Linear programming models (integer, quadratic, nonlinear,  
dynamic, and combinatorial) used to describe, analyze, and design  
systems such as production, transportation, scheduling, and planning.  
Prerequisite: MATH 415 or equivalent.

BADM 577  Stochastic Models in Mgmt Sci  credit: 4 Hours.  
Application of Markov processes to describe, analyze, and design  
systems of interest in management science, including queues, inventory,  
production, brand loyalty, stock market, and other applications.  
Prerequisite: MATH 461 or STAT 400, or equivalent.

BADM 578  Res Topics in Intl Bus  credit: 4 Hours.  
Continuation of BADM 582. Examines topics related to management and  
integration of multinational firms not covered in BADM 582. Possible  
topics include foreign investment decisionmaking, global manufacturing  
and supply chain management, international joint ventures and strategic  
alliances, cross-border mergers, global R&D, and global strategic human  
resource management. May be repeated.

BADM 579  Intl Comparative Management  credit: 4 Hours.  
Compares and contrasts different regional/national business systems  
and organizational practices including those from both developed and  
developing countries. Designed to advance students’ global management  
knowledge and cross-cultural skills for functioning effectively in a  
transnational economy. Includes an optional overseas study trip to visit  
local companies and subsidiaries of multinational firms.

BADM 580  Project Management  credit: 2 Hours.  
The objective of this course is to master the principles of efficient project  
planning and control - needs analysis, work breakdown, scheduling,  
resource allocation, risk management, and performance tracking and  
evaluation - within the timeframe and cost projections stated in  
the overview section. Concepts and techniques will be developed by  
navigating through a recent textbook in project management and through  
a popular project management software package. In addition, task teams  
of five members each will have the opportunity to hone skills through  
homework problem sets and a comprehensive project plan.
BADM 590  Seminar in Business Admin  credit: 0 to 4 Hours.
Special topics in the general area of business. Topics are selected by
the instructor at the beginning of each term. Approved for letter and
S/U grading. May be repeated if topics vary; unlimited credit hours for
graduate and professional students.

BADM 591  Proseminar in Business Admin  credit: 0 to 4 Hours.
Lectures in topics of current interest not covered by regular course
offerings. Subjects are announced in the Class Schedule. Approved
for letter and S/U grading. May be repeated in the same term and/or
separate terms as topics vary; unlimited credit hours for graduate and
professional students.

BADM 593  Research in Special Fields  credit: 1 to 8 Hours.
Approved for both letter and S/U grading.

BADM 594  Independent Study and Research  credit: 2 or 4 Hours.
Directed reading and research. Approved for both letter and S/U grading.
May be repeated in the same term and/or separate terms as topics vary;
unlimited credit hours for graduate and professional students.

BADM 595  Business Fundamentals  credit: 2 Hours.
Designed to provide a cohesive understanding of marketing from a
managerial perspective. Students will learn how to develop a coherent
and comprehensive marketing strategy for a product or service.
Specifically, it provides the conceptual frameworks and tools necessary
to create superior customer value, capture the value through appropriate
pricing mechanisms, persuasively communicate and profitably deliver
delivered value, and sustain both the value and the performance in the face
of ever-changing customer needs and competitive offerings. Students
examine companies by matching their internal strengths and weaknesses
with opportunities and threats posed by their environments. Students
learn to spot and evaluate opportunities for new ventures and examine
the totality of a business proposal.

BADM 596  Internship for Prof Scientists  credit: 1 Hour.
Focuses on how to start and grow a business. The first part of the course
concentrates on opportunity evaluation and business plan development.
The second part explores the strategic challenges of managing growth
and realizing value.

BADM 597  Global Strategy  credit: 1 Hour.
Provides an overview of competition in the global environment.
Introduces several key frameworks for understanding how firms create
value by matching their internal strengths and weaknesses with
the opportunities and threats posed by their environments. Examines how
value creation differs as firms compete in a global setting. The course
builds on innovative managerial theory, and applies key learning using
cases and managerial exercises.

BADM 598  Managing Tech & Innovation  credit: 1 Hour.
Innovation and technology management deals with understanding how
innovation affects the competitive dynamics of markets and how firms
can strategically manage innovation. Introduces and employs various
tools, concepts, and analytical frameworks that enhance our ability to
define and analyze strategic problems that stem from innovation and
technological change, and to identify sources of competitive advantage
from both an industry and firm-level perspective.

BADM 599  Dissertation Research  credit: 0 to 16 Hours.
Required of all students writing doctoral dissertations in business
administration; guidance in writing theses and seminar discussions of
interim progress reports. Approved for S/U grading only. May be repeated
in the same term and/or separate terms as topics vary; unlimited credit
hours for graduate and professional students.

Master of Science in Technology Management

The Master of Science in Technology Management is focused on
understanding how to manage the dynamic environment found in a
technology-based enterprise. The curriculum covers core business topics
tailored to address the issues and challenges inherent in companies
that depend on technology. The course work of this intensive 12-month
long program includes product development, marketing, simulation and
risk analysis, finance, and strategy, as well as managing processes,
intellectual property, innovation, human resources, and an option of an
internship or curricular practical training - all focusing on technology.
This is an intensive program for those who use, deploy, shape, or create
technology.

In addition to formal coursework, students participate in a series of
management development seminars, which provide an overview of
American business concepts and practices. Business and industry field
trips, seminars with American executives, and other special activities
provide another dimension to the program.

Currently, the MSTM program is offering two tracks, Graduate and
Advancement. The Graduate Track is designed for students recently
graduated from undergraduate programs in the sciences, mathematics,
engineering, and business. The Advancement track is designed for
career professionals. To reflect the experiential knowledge possessed
by members of the Advancement track, coursework requirements are
slightly different in each track.

Required Core 32-36
Practicum 4
Electives 0-4
Total Hours 40

Other Requirements 1

Other requirements may overlap
Minimum 500-level Hours Required 28
Overall:
Minimum GPA: 2.75

1 For additional details and requirements refer to the department’s Program Curriculum (http://www.ms-tech.uiuc.edu/current/
curriculum.aspx) and the Graduate College Handbook (http://
www.grad.illinois.edu/gradhandbook).

Master of Science in Management

The Master of Science in Management is a 34 graduate hour master’s
program best suited for those with non-STEM backgrounds. Usually the
program will take three semesters (one academic year plus the prior
summer) to complete.

The Master of Science in Management (MSM) is for students who are
interested in pursuing a graduate degree in Management as the means to
enhance their undergraduate experience that is non-business related. The
program is targeted to students who have completed an undergraduate
degree in a non-STEM major.

The program is specifically designed as a graduate degree to help
students develop the knowledge, skills, and capabilities to prepare
students for a career in management. The educational objective of the
The online MBA (iMBA) uses a flexible program format. As with the EMBA program, the iMBA consists of eighteen four-credit courses for a total of 72 credit hours. During each course, virtual study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class. The online MBA caters to a segment of the population that values mobility, convenience, and believes that the online programs better fit their learning styles and life circumstances.

Admission

The Executive MBA begins a new class cohort each October in Chicago. Admissions decisions are made on a rolling basis beginning in January. Candidates must have a minimum of seven years of full-time, professional work experience to be considered for the program. All applicants are expected to be employed full-time while pursuing the degree. The Executive MBA application does not require the GMAT or GRE.

Applicants to the Illinois iMBA program must have completed an earned undergraduate degree. Applicants must submit scores on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) if available, two letters of recommendation, and essays. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOFEL) or the IELTS.

Scholarships/Financial Aid

The Illinois Executive MBA offers a limited number of scholarships to outstanding applicants. Scholarships are awarded at the time of admission. U.S. citizens and permanent residents may be eligible for federal and private student loans. The program also offers a month-to-month payment plan which can extend payments beyond your final semester thus lowering your average monthly payment.

Scholarships are generally not available for the iMBA.

Executive MBA (EMBA)

The program culminates with an international study experience in which students consult on real business issues with international organizations and travel overseas to present their recommendations to these companies.

This program caters to senior executives. Each course in the EMBA program is conducted over four weekends. Since the class schedule is compressed over a short period of time, exams / final projects / final assignments are due two weeks after the last class meeting.

Required Courses:  
- Modules 1-10 (19 courses) 72 Hours
- Total Hours 72

Other Requirements

- Minimum Hours Required Within the Unit: 72
- Minimum 500-level Hours Required Overall: 72
- Minimum GPA: 2.75
iMBA (online)

The goal for the iMBA program at Illinois is to deliver a high-quality program that is accessible to global audiences. A mirror of the EMBA curriculum, the online MBA (iMBA) uses a flexible program format. During each iMBA course, virtual study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class. The program caters to a segment of the population that values mobility, convenience, and believes that the online programs better fit their learning styles and life circumstances.

Business Administration - Illinois MBA

http://www.mba.illinois.edu

For additional details and requirements refer to the department’s curriculum overview (http://www.mbachicago.illinois.edu/curriculum/overview.aspx) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Graduate Degree Programs

The College of Business offers a degree program leading to the Master of Business Administration (M.B.A.) in four delivery modes. The traditional full-time MBA and the Professional (part-time) MBA are offered on the Urbana campus. The Executive MBA is offered on weekends in downtown Chicago, and the online edition is offered for students who need more flexibility in their MBA programs.

All Illinois MBA programs require 72 hours of credit. Students graduate with a Masters of Business Administration from the University of Illinois at Urbana-Champaign. Student transcripts do not vary based upon program format.

The Full-time MBA is offered in a lockstep, face-to-face cohort format for the first-year core curriculum. The core consists of 40 hours of classwork that provide the foundation. During the second year, students have the flexibility to customize their area of concentration by taking 32 hours of business and non-business courses.

The Illinois Professional MBA uses a lockstep face-to-face cohort format. The program consists of eighteen four-credit courses for a total of 72 credit hours. Modules (semesters) are ten or five weeks long, unless otherwise noted. The cohort class structure allows members of each class to begin the program at the same time and advance through the curriculum together. During each module, study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class.

The Executive MBA program is offered in a lockstep, face-to-face cohort program comprised of eighteen courses covering all major disciplines of business study. The courses are organized into ten modules with only two courses running at any moment in time, each lasting about four weekends. This focused format, using four days per month (Friday and Saturday) maximizes learning while minimizing disruption to professional and personal commitments.

The online MBA (iMBA) uses a flexible program format. As with the EMBA program, the iMBA consists of eighteen four-credit courses for a total of 72 credit hours. During each course, virtual study teams are created that are designed to drawn upon the diverse academic and professional backgrounds of the class.

Information listed in this catalog is current as of 03/2017
backgrounds of the class. The online MBA caters to a segment of the population that values mobility, convenience, and believes that the online programs better fit their learning styles and life circumstances.

Admission

Admission to the Illinois MBA is dependent upon an earned undergraduate degree, acceptable scores on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE), two letters of recommendation, professional resume and essays. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL) or the IELTS. For additional requirements the applicant should refer to the MBA application.

The full-time MBA program begins in August only. Admissions decisions are made by rounds with the first deadline of October 5 and subsequent deadlines of January 18 and March 15. May 24 is the late application deadline for domestic students only. Decisions will be made in early January for the first round of applications and within six weeks for each of the following rounds. For admission to a joint program, students must apply to both programs separately.

The Professional MBA program begins in January only. Applicants must submit the same materials and information as the full-time MBA program. The Professional MBA application does not require the GMAT or GRE. All applicants are expected to be employed full-time while pursuing the degree. The application deadline for the Professional MBA is October 1 with admission decisions made on a rolling basis beginning in September.

Applicants to the online MBA (iMBA) program must have completed an earned undergraduate degree and submit scores on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) if available. Two letters of recommendation and essays are also required. Applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL) or the IELTS.

Financial Aid

The Illinois MBA offers a limited number of merit scholarships to outstanding domestic and international applicants. The merit scholarships are awarded at the time of admission. U.S. citizens and permanent residents may be eligible for federal and private student loans.

- Master of Business Administration (MBA), Full-time option (p. 673)
- Master of Business Administration (MBA), Professional option (p. 673)
- Master of Business Administration (MBA), EMBA option and iMBA option (p. 670)

M.B.A. and Master's or Ph.D.

The M.B.A. can be earned jointly with any masters or Ph.D. program offered on campus. All joint degree programs require the completion of 60 credit hours of MBA coursework, as well as the requirements of the other program, as described here (p. 672). For admission to a joint program, students must receive approval from both programs.

M.B.A. and Master of Architecture in Architecture

For entry into this program, applicants must satisfy the admission and performance requirements of each academic unit. Application for admission may be made simultaneously to both units or admission to one unit may be sought after gaining entry to the other. Candidates entering the Master of Architecture/Master of Business Administration joint degree program with a four-year baccalaureate in architectural studies must complete 110 hours of graduate work, 50 hours in Architecture and 60 hours for the M.B.A.

M.B.A and Master of Human Resources and Industrial Relations

This joint program with the Master of Human Resources and Industrial Relations (p. 777) program is usually completed in two-and-one-half years. Independent admission decisions are made by each unit, and the student must be accepted by both. The degrees are awarded simultaneously upon completion of all joint degree requirements.

M.B.A. and J.D. in Law

Contact the M.B.A. program for more information about the joint program with Law.

M.B.A. and M.D. in Medicine

Contact the M.B.A. program for more information about the joint program with Medicine.

M.B.A. and Masters or Ph.D.

Joint M.B.A. Program

The M.B.A. can be earned jointly with any masters or Ph.D. program offered on campus. All joint degree programs require the completion of 60 credit hours of MBA coursework, described below, as well as the requirements of the other program. For admission to a joint program, students must receive approval from both programs.

Major: Cell and Developmental Biology
Degrees Offered: M.S., Ph.D.

Information listed in this catalog is current as of 03/2017
Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Cell and Developmental Biology and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.illinois.edu/mdphd)

Graduate Degree Program
The graduate curriculum in Cell and Developmental Biology is designed to educate students for careers in research and teaching in the biological sciences. Departmental faculty are concerned with the structural and functional relationships of cells and organisms, with research emphases upon eukaryotic cell and molecular biology, neurobiology, developmental biology, and molecular genetics. The department has embarked on a major program to develop research strengths in molecular aspects of developmental, neural, structural, and eukaryotic cell biology to complement existing faculty interests. Students are not admitted to the M.S. program; M.S. requirements are completed as part of the Ph.D. program.

Admission
Students interested in this program must apply directly to the School of Molecular and Cellular Biology (www.mcb.illinois.edu/graduate/gradprospect.html). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December and formally join the appropriate graduate program/department at that time.

Important factors in the evaluation of applications are general academic performance, background in the biological and chemical sciences and mathematics, Graduate Record Examination (GRE) scores, and letters of recommendation from college professors. The department does not admit students to the M.S. program.

Medical Scholars Program
The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Cell and Developmental Biology. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience
Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

Facilities and Resources
Facilities include modern, well-equipped laboratories for cellular, developmental, genetic, molecular, and structural studies. The University offers exceptional and broadly based research support services. These include the Center for Electron Microscopy, with state-of-the-art instrumentation; the Center for Biotechnology, which includes facilities for molecular cloning, DNA and protein synthesis and sequencing, and transgenic animals; the Cell Science Center, which houses and staffs a hybridoma facility and flow cytometry unit; School of Molecular and Cellular Biology-subsidized shops; and a superb university library system, the third largest in the nation. The University offers outstanding computer services and is home to the National Center for Supercomputing Applications. The Beckman Institute for Advanced Science and Technology combines research in the physical and biological sciences. Opportunities for interaction in the cellular and molecular sciences are also available in many other units within the Schools of Molecular and Cellular Biology, Integrative Biology, and Chemical Sciences and the Colleges of Medicine, Agricultural, Consumer and Environmental Sciences, and Engineering.

Financial Aid
Financial aid is available to qualified applicants in the form of university fellowships (awarded on a competitive basis), teaching assistantships (awarded by the department), research assistantships, and tuition and fee waivers. Outstanding applicants are nominated for support from the Cell and Molecular Biology, Molecular Biophysics.

## Admission

Applicants who have fulfilled the usual undergraduate course requirements, including at least 25 semester hours in chemistry (properly distributed) and a grade point average of 3.0 (A = 4.0), may be considered for admission to the graduate programs. Applications from students with less than the usual preparation in chemistry or with grade point averages below 3.0 may be considered on an individual basis. In addition, applicants must submit results from the Graduate Record Examination general test and the Graduate Record Examination chemistry subject test.

International students whose native language is not English are required to have a minimum paper-based TOEFL score of 580 (237 on the computer-based test). In addition, teaching is a requirement in the Chemistry graduate program and there are special requirements for applicants whose native language is not English. The University requires a minimum TOEFL iBT speaking score of 24 for a contact teaching assistant appointment. Any applicant whose native language is not English is expected to provide TOEFL scores in order to receive full consideration for admission and financial aid.

Please contact chemistry graduate admissions for further information.

## Financial Aid

Students may apply for fellowships and assistantships from either the Department of Chemistry or the Department of Physics.

## Doctor of Philosophy in Chemical Physics

Students entering through the Department of Chemistry must satisfy the registration examination, literature seminar, preliminary examination, and original research proposal requirements of Physical Chemistry. The guidelines for these requirements are in the Department of Chemistry Graduate Manual. Students entering through the Department of Physics must satisfy the PhD requirements of the Department of Physics. Research for the thesis is performed under the direction of faculty members who are currently active in chemical physics. Many of these staff members are affiliated with the Materials Research Laboratory (MRL). MRL is a multidisciplinary facility shared by staff and students from the Departments of Physics, Chemistry, Materials Science and Engineering, Electrical and Computer Engineering, and other related departments that have common interests in materials science.

Students with undergraduate degrees in physics should direct inquiries and applications to the Graduate Advising Office, Department of Physics
227 Loomis Laboratory of Physics
1110 West Green Street, Urbana, IL 61801-3080

Major: Chemical Physics
Degree Offered: Ph.D.

## Graduate Degree Programs

A chemical physics program leading to the Doctor of Philosophy makes it possible for students to gain the necessary background and perform original research in this interdisciplinary field of science. Fundamental research on many properties of molecular and solid-state systems is based on an understanding of chemistry, physics, and mathematics that can be obtained by training in more than one department. Students may use the facilities in both the School of Chemical Sciences and the Department of Physics.
For additional details and requirements refer to the department’s Graduate Programs (http://www.chemistry.illinois.edu/research/chemphys) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

**Multi-institutional Ph.D. Degree with National University of Singapore**

Students in this program will spend approximately equal proportions of their study at the Urban-Champaign campus and at the National University of Singapore (NUS), taking courses and/or working on their research. The project comprising the research component of the Ph.D. will be cooperatively overseen by faculty at Illinois and NUS. Students pursuing the multi-institutional degree must meet all of the requirements of the existing Ph.D. programs at each of the two institutions. Courses taken at each university must be approved by the other university before they are taken in order to be credited toward degree requirements.

**Medical Scholars Program**

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Chemical Engineering. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the dual degree program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

**Graduate Teaching Experience**

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

**Faculty Research Interests**

Admission

Graduate College requirements apply. Further, applicants should have at least 25 semester hours in chemistry (properly distributed) and a grade point average of 3.0 (A = 4.0), to be considered for admission to the graduate programs. Applications from students with less than the usual preparation in chemistry or with grade point averages below 3.0 may be considered on an individual basis. In addition, we ask applicants to submit results from the Graduate Record Examination (GRE) General Test and the GRE Chemistry Subject Test.

International students whose native language is not English are required to have a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 580 (237 on the computer-based test). In addition, teaching is a requirement in the chemistry graduate program, and there are special requirements for applicants whose native language is not English. The University requires a minimum Test of Spoken English (TSE) score of 50. Any applicant whose native language is not English is expected to provide TSE scores in order to receive full consideration for admission and financial aid.

Students who are currently enrolled in graduate programs at other institutions are advised that they should first complete degree work at their current institution before they will be considered for admission to the chemistry PhD program at the University of Illinois. In addition, we require a statement from the applicant and a separate statement from the department head detailing the situation. Students might be admitted without a degree from their current institution under exceptional circumstances that will need to be described in detail via a letter from the applicant and a separate statement from the department head of the student’s current graduate program.

Contact chemistry graduate admissions for further information. The department does not currently accept applications for the MA program.
Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

Financial Aid

Support for graduate students is available through fellowships and assistantships. All candidates are considered for these upon application. Graduate students making normal progress toward their degrees generally receive a tuition waiver as well as a stipend.

- Master of Science in Chemistry (p. 680)
- Master of Science in Teaching of Chemistry (p. 680)

Doctor of Philosophy in Chemistry

Doctoral programs are offered in a wide range of specialties, including the traditional areas of analytical, inorganic, organic, and physical chemistry as well as materials chemistry and chemical biology. The formal course requirements involve 12 or more hours of 500-level courses, plus 8 or fewer hours of 400-level courses, for a total of 20 hours in chemistry and allied relevant fields. Besides completing formal coursework, students will present a literature seminar, have a formal review of progress following the completion of coursework, pass an oral preliminary examination on research preparation, present and defend an original research proposal not related to their thesis research, and submit a thesis on original research, which is defended at a final oral examination.

Entering with M.S./M.A. degree

400-500-level courses in Chemistry or allied fields (max 8 at 400-level) 20
Seminar (CHEM 5X5) 1
CHEM 599 Thesis Research (0 min applied toward degree) 0

Total Hours 64

Other Requirements 1

Other requirements may overlap
Teaching experience 1 year
Qualifying Exam Required No
Preliminary Exam Required Yes
Original Research Proposal Yes
Final Exam/Dissertation Defense Required
Dissertation Deposit Required Yes
Minimum GPA: 3.0

1 For additional details and requirements refer to the department’s Graduate Programs (http://chemistry.illinois.edu/graduates) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Entering with approved B.S./B.A. degree

400- or 500-level courses in the Chemistry or allied fields (max 8 at 400-level) 20
Seminar 1

Total Hours 96

Other Requirements 1

Other requirements may overlap
Teaching experience 1 year
Qualifying Exam Required No
Preliminary Exam Required Yes
Original Research Proposal Yes
Final Exam/Dissertation Defense Required
Dissertation Deposit Required Yes
Minimum GPA: 3.0

1 For additional details and requirements refer to the department’s Graduate Programs (http://chemistry.illinois.edu/graduates) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

In order to enter the joint degree program, students must be admitted separately to each program. Each program’s application requirements and deadlines for admission must be met.

- J.D. in Law and M.S. in Chemistry (p. 679)
- M.B.A. Joint Degree Program (p. 680)

J.D. in Law and M.S. in Chemistry

This joint degree program is intended principally for law students who desire to specialize in an area of law in which expertise in chemistry would be a clear asset. Students electing the joint degree option will select a major area of emphasis within chemistry that complements their chosen area of legal emphasis. Each student must develop and gain approval of a coherent, focused plan of study that draws upon related coursework in both law and chemistry.

The JD/MS program involves interdisciplinary work and a flexible plan of study. Students will consult with a faculty adviser in selecting courses. While enrolled in the Department of Chemistry, students have the opportunity to hold an assistantship with a tuition and service fee waiver. It is possible that joint degree students may accelerate their programs by attending summer sessions over one or more summers and thus complete the requirements for both the MS and the JD degrees in three years.

In order to enter the joint program, students must be admitted separately to both departments. Each program’s application requirements and deadlines for admission must be met.

Chemistry (may include up to 12 hours of thesis credit) 32
Law 78

Total Hours 122

Other Requirements 1

Other requirements may overlap
Minimum 500-level Hours Required 12 (8 in CHEM)
Minimum GPA: 3.0

1 For additional details and requirements refer to the department’s Graduate Programs (http://chemistry.illinois.edu/graduates) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Information listed in this catalog is current as of 03/2017
M.B.A. Joint Degree Program

Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements and contact the M.B.A. program and their major department office for more information.

Master of Science in Chemistry

The program leading to the degree of Master Science in Chemistry is designed to be completed in one year of full-time study by students entering without deficiencies. A research thesis is optional.

Thesis Option

Civil and Environmental Engineering

cee.illinois.edu (http://cee.illinois.edu) or cee.illinois.edu/environmental (http://cee.illinois.edu/environmental)

Head of the Department: Benito Marinas
Director of Graduate Studies: Jeffrey Roesler
1110 Newmark Civil Engineering Laboratory
205 North Mathews Avenue
Urbana, IL 61801
(217) 333-8038
Fax (217) 333-9464
Email: civil@illinois.edu

Major: Civil Engineering
Degrees Offered: M.S., Ph.D.

Major: Environmental Engineering in Civil Engineering
Degrees Offered: M.S., Ph.D.

Online Program: Civil Engineering
Degrees offered: M.S.

Joint Degree Program: the M.S. in Civil Engineering can be earned jointly with the following
Degrees Offered:
M.Arch. in Architecture (p. 632) (Construction Management or Structures),
M.B.A. in Business Administration (p. 672)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Civil Engineering or Environmental Engineering in Civil Engineering and Doctor of Medicine (M.D.) through the Medical Scholars Program (https://www.med.illinois.edu/mdphd)
Graduate Degree Programs

The Department of Civil and Environmental Engineering, consistently ranked as having one of the best graduate programs in the country, offers graduate work leading to master's and doctoral degrees. These are in a variety of specialized areas through departmental and joint programs which are described on this page. Opportunity also exists for earning certificates and/or concentrations in

1. computational science and engineering and
2. energy and sustainability engineering within the department’s graduate programs via the Computational Science and Engineering (CSE) (http://www.cse.illinois.edu) transcriptable Concentration and the Energy and Sustainability Engineering (EaSE) Option (http://ease.illinois.edu).

The Medical Scholars Program (https://www.med.illinois.edu/mdphd) permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Civil and Environmental Engineering. In working toward the department’s graduate degrees, an emphasis is placed on advanced study and participation in creative research.

Admission

Admission to the Graduate College with full status in civil engineering or in environmental engineering is granted to graduates of accredited institutions whose requirements for the bachelor’s degree are substantially equivalent to those of the University of Illinois, provided the applicant's preparation is appropriate for advanced study in his or her chosen major field and his or her scholastic average is at least 3.00 (A = 4.00). The Graduate Record Examination (GRE) (http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnextoid=b195e3b5f645a1de0000022f95190RCRD) is required. Applications are considered for both spring and fall admissions.

In general, a 3.00 grade point average for the last two years of the undergraduate program and for any previous graduate work is a minimum requirement for admission to the M.S. program. Requirements for admission to the Ph.D. program are variable, but are usually substantially higher. For additional information, see the departmental Web site (http://cee.illinois.edu/programs/Grad/GradApps).

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 79 (iBT), 213 (CBT), or 550 (PBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 6.5 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (http://grad.illinois.edu/admissions/instructions/04c) are met. For those taking the TOEFL or IELTS, full admission status (http://grad.illinois.edu/admissions/instructions/04c) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status (http://grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) taken upon arrival to campus.

Applicants to the joint M.Arch or M.B.A degree programs must meet the admissions standards for both programs and be accepted by both programs.

Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both Civil and Environmental Engineering and the College of Medicine. An application to the Medical Scholars Program will also serve as the application to the Civil and Environmental Engineering graduate program. Further information on this program is available by contacting the Medical Scholars Program (125 Medical Sciences Building, 217-333-8146, mspo@illinois.edu).

Medical Scholars Program

Students in the Medical Scholars program must meet the specific requirements for both the medical (https://www.med.illinois.edu/mdphd) and graduate degrees. On average, students take eight years to complete both degrees. The first year of the combined program is typically spent meeting requirements of the graduate degree.

Faculty Research Interests

Areas of study and research pursued by our world-renowned faculty are focused in the following specializations:

- construction management
- environmental engineering and science
- environmental hydrology and hydraulic engineering
- geotechnical engineering
- materials
- structural engineering
- transportation engineering
- sustainable and resilient infrastructure systems
- energy-water-environment sustainability
- societal risk management

Within these specializations, current research programs include:

- air quality
- aquatic biology and ecology;
- computer-aided engineering systems (artificial intelligence, expert systems, and neural networks)
- construction engineering and management
- construction materials (concrete composition, microstructure, and engineering properties)
- earthquake engineering
- environmental chemistry
- environmental fluid mechanics
- geotechnical engineering (rock mechanics, soil mechanics, and foundation engineering)
- hazardous-waste management
- hydrology and hydraulic engineering
- information technology including distributed sensors and monitoring
- nondestructive diagnostics
- railway engineering
- river mechanics and morphology, stochastic structural dynamics and random vibrations
- structures (analysis, design, and behavior)
- structural and computational mechanics
- traffic engineering
- transportation (facilities, planning, systems design, and operations)
- water quality process engineering
- water resources and environmental systems analysis

Information listed in this catalog is current as of 03/2017
Centers, Programs, and Institutes

Multi-hazard Approach to Engineering (MAE) Center (http://mae.cee.illinois.edu) – originally established by the National Science Foundation, works to develop an integrated framework and application tools for loss assessment due to earthquake and other disruptive events, disaster planning, response and mitigation strategies, and decision-making engines that enable policy makers to effectively manage risk.

Illinois Center for Transportation (ICT) (http://ict.uiuc.edu) – funded by the Illinois Department of Transportation and the State of Illinois, promotes innovation and progress in transportation through interdisciplinary research.

Center of Excellence for Airport Technology (CEAT) (http://www.ceat.illinois.edu) – founded in 1995 as a Federal Aviation Administration (FAA) Center of Excellence, aims to develop new scientific knowledge and technology for the development, maintenance, and operation of airports.

Fabricated Geomembrane Institute (http://www.fabricatedgeomembrane.com) – conducts research and disseminates technical information about geomembranes that can be factory fabricated, transported to a project, and deployed, e.g., polypropylene, PVC, LDPE, and EPDM geomembranes, and answers technical questions regarding testing, design, fabrication, installation, and performance of these geomembranes.

Safe Global Water Institute (http://publish.illinois.edu/safeglobalwater) – founded in 2012 with the goal of seeking sustainable solutions to the world’s safe water and sanitation challenges.

Rail Transportation and Engineering Center (http://railtec.illinois.edu) – founded in 2010 in recognition of the expanding importance of rail transportation to the economy, to society, and to a safe and sustainable environment. It is the first and only US national center in railroad engineering.

Facilities and Resources

The Newmark Structural Engineering Laboratory (NSEL) features a nearly 6,000 square foot structural testing floor (strong floor), a threestory clear height, and a multiplicity of testing equipment (including a shake table, stand-alone universal testing machines, reaction frames, actuators, controllers, transducers, and a data acquisition) that can be used for conducting large-scale experimental structural, materials, and earthquake engineering research. It provides a new experimental environment for conducting integrated distributed hybrid tests on compounds of large bridge and building structures. The Environmental Engineering and Science Laboratories contain over 11,000 square feet with state-of-the-art analytical equipment. Two additional laboratories occupying approximately 2,500 ft² were built and opened in early 2016 for faculty and students doing research in the area of materials science and engineering for environmental, energy, and built environment applications. The HydroSystems Laboratory covers an area of more than 11,000 square feet and includes several flumes, a rainfall generator, a stratified flow tank, and a water tunnel. The Advanced Transportation Research and Engineering Laboratory (ATREL) is a unique and comprehensive transportation research, educational, and testing laboratory. It is located on 47 acres, 15 miles north of the main campus, and it contains 60,000 square feet of laboratories, continuing education classrooms, office space, and a technical library. It is home to the Illinois Center for Transportation (ICT). The Smart Structures Technology Laboratory seeks to implement advanced sensing and control technologies to more effectively monitor and protect our nation’s civil infrastructure. The Laboratory houses a new medium-scale 6 Degree-of-Freedom seismic simulator, as well as extensive instrumentation and telepresence capabilities. The Research & Innovation Laboratory (RAIL), located on the Construction Engineering Research Laboratory campus, supports the Rail Transportation and Engineering Center. This laboratory is dedicated to improving performance and design of railway infrastructure. To achieve these objectives, the 3,500 square foot Research and Innovation Laboratory (RAIL) was conceived and is located in the Harry Schnabel Jr. building on the CERL campus.

Financial Aid

Financial aid is available in the form of fellowships and research and teaching assistantships. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (http://www.grad.illinois.edu/admissions/taengprof.htm) by achieving a minimum score of 50 or 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 40 is required on the EPI test (http://cte.illinois.edu/testing/oral_eng/epi_overview.html), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (http://cte.illinois.edu/programs/ta_train.html) conducted prior to the start of the semester.

Elective courses (subject to Other Requirements and Conditions below)

Total Hours | 20-28

Total Hours | 32

Other Requirements

Individual programs are developed by the students in consultation with their academic advisors.

A minimum of 16 hours of credit within the major field with 8 graded and at the 500 level.

A minimum of 12 hours at the 500 level overall.

A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement.

At least half of the minimum hours required for the degree must be in Illinois courses meeting on the Urbana-Champaign campus or in courses meeting in other locations approved by the Graduate College for resident credit for the degree.

The minimum program GPA is 2.75

Information listed in this catalog is current as of 03/2017
Non-Thesis Option

Elective courses (subject to Other Requirements and Conditions below) 36

Total Hours 36

Other Requirements

Other Requirements and Conditions may overlap

Individual programs are developed by the students in consultation with their academic advisors.

A minimum of 16 hours of credit within the major field with 8 graded and at the 500 level.

A minimum of 12 hours at the 500 level overall.

A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement.

At least half of the minimum hours required for the degree must be in Illinois courses meeting on the Urbana-Champaign campus or in courses meeting in other locations approved by the Graduate College for resident credit for the degree.

The minimum program GPA is 2.75.

Doctor of Philosophy, all majors

The degree of Doctor of Philosophy, primarily a research degree, requires from three to four years of graduate study beyond the master’s degree. The major area of specialization encompasses courses and research that are closely related, but the courses need not be offered by a single major department. Candidates must demonstrate a capacity for independent research by preparing an original thesis on a topic within the major field of study, must meet the qualifying requirements or examination in the area of specialization, and must pass both preliminary and final examinations.

CEE 599 Thesis Research (min-max applied toward degree) 32

Elective courses (subject to Other Requirements and Conditions below) 32

Total Hours 64

Other Requirements

Other Requirements and Conditions may overlap

A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement; approval required.

There is no department-wide foreign language requirement. However, the faculties of some areas of specialization may require foreign language proficiency if essential to the conduct of research in that area.

64 graduate hours must be completed in residence.

A Masters degree is required for admission to the Ph.D. program.

Ph.D. exam and dissertation requirements:

Qualifying exam

Preliminary exam

Final exam or dissertation defense

Dissertation deposit

The minimum program GPA is 2.75.

Joint Degree Programs

Master of Science in Civil Engineering and Master of Architecture

The M.Arch.-M.S.C.E. joint degree program with the School of Architecture requires a total of 78 graduate hours (Architecture Track II), 70 graduate hours (Architecture Track III), or 64 graduate hours (Architecture Track I). Full details of requirements are presented at the School of Architecture’s Web site (http://arch.illinois.edu); the thesis option is not available.

Joint M.B.A. Program

Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements (p. 673) and contact the M.B.A. program and their major department office for more information.

Online Program

The degree requirements are the same as for the on-campus non-thesis M.S. program—36 hours of course work—and the degree awarded to online students is the same degree awarded to resident students. Online students have five years to complete the program.

The M.S. degree in Civil Engineering offered online is currently available for specialization in Construction Management, Infrastructure, Structural
Engineering, and Transportation Engineering. Students can also develop cross-disciplinary programs in consultation with their advisers. Additional courses are available online in the following areas of concentration to complement the student’s area of specialty above: Construction Materials, Environmental Engineering and Science, Environmental Hydrology and Hydraulic Engineering, and Geotechnical Engineering.

Classics

http://www.classics.illinois.edu

Head of the Department: Antonios Augoustakis
Director of Graduate Studies: Craig Williams
4080 Foreign Languages Building
707 South Mathews Avenue
Urbana, IL 61801
(217) 333-1008
E-mail: classics@illinois.edu

Major: Classics
Degrees offered: M.A.
Graduate Concentrations: Greek (p. 686), Latin (p. 686), Medieval Studies (p. 810)

Major: Teaching of Latin
Degrees offered: M.A.

Major: Classical Philology
Degrees offered: Ph.D.
Graduate Concentration: Medieval Studies

Graduate Degree Programs

The Department of the Classics offers programs of study leading to the Master of Arts in Classics. Within the master’s degree program, students may choose from three options: both Greek and Latin (= Classics), Greek, or Latin. In addition, the department offers the Master of Arts in the Teaching of Latin and the Doctor of Philosophy in Classical Philology. A further concentration in Medieval Studies is available to students pursuing graduate degrees in the Classics.

Graduate students in Classics at Illinois may concentrate at different stages of their study on various aspects of the Greek and Latin languages, literatures, and cultures; classical archaeology, ancient philosophy; or, in conjunction with the appropriate department, comparative literature, ancient history, or linguistics. Additional information is available on our website www.classics.illinois.edu (http://www.classics.illinois.edu).

Admission

Applicants for admission to the MA in Classics (Greek and Latin) must ordinarily present a minimum of 20 semester hours in one of the two languages (Greek or Latin) and 15 semester hours in the other language; candidates for admission to the MA with specialization in either Greek or Latin, or the MAT in Latin, must ordinarily present at least 20 semester hours in the relevant language. Previous work in ancient history, ancient art and archaeology, philosophy, literary criticism, or linguistics is desirable.

Applicants should apply online (http://www.grad.illinois.edu/admissions/apply) and submit a personal statement of 2-3 pages, a resume or CV, transcripts showing all undergraduate and graduate work completed, and a writing sample of approximately 20 pages (one or two papers) that showcases the applicant’s ability to work in the original classical languages and incorporates relevant scholarship as appropriate. Three letters of recommendation are also required.

Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see www.grad.illinois.edu/Admissions/instructions/04c (http://www.grad.illinois.edu/Admissions/instructions/04c)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at slclgradservices@illinois.edu.

Certifications

Students wishing to add teacher certification in Latin to an MAT, M.A. in Latin, or Ph.D. must apply to the Foreign Language Teacher Education Program (http://www.flte.illinois.edu).

In order to receive certification, students must complete an M.A. in Classics with a concentration in Latin, an M.A. in Classics with a concentration in Greek and Latin, or an M.A. in the Teaching of Latin.

Medical Scholars Program

Applications are not currently being accepted.

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Classical Philology. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and almost all students teach. Non-native English speakers must first pass a test of their oral English ability (see www.grad.illinois.edu/admissions/taengprof.htm (http://www.grad.illinois.edu/admissions/taengprof.htm)).

Faculty Research Interests

Greek and Latin literature of all periods; gender and sexuality; Latin poetry of the imperial period; Greek historiography and ethnography; Greek and Roman drama; reception of Classics, especially in film; animal studies; pedagogy. For further details see www.classics.illinois.edu/people (http://www.classics.illinois.edu/people)

Facilities and Resources

We have a renowned university library which boasts the second largest number of volumes among US university libraries after Harvard. Housed
within the main library building is our first-rate Classics collection (see www.library.illinois.edu/clx/ (http://www.library.illinois.edu/clx)) with over 60,000 volumes on open shelves. The University of Illinois Library's Rare Book Room houses the Turyn Archive of Greek manuscript photographs and the American Center of the International Photographic Archive of Papyri. The Department of the Classics also publishes the widely circulating peer-reviewed journal Illinois Classical Studies and its Supplements. The Krannert Art Museum and the Spurlock Museum of World Cultures have outstanding collections of ancient vases and other artifacts.

Financial Aid

University fellowships are available for the academic year. Teaching assistantships are available for both the academic year and Summer Session II.

The Master of Arts may be taken in Classics requiring advanced work in both Greek and Latin (Master of Arts in Classics), or with a concentration in either Greek, or a concentration in Latin. Only the Master of Arts in Classics leads to Ph.D. level work in Classical Philology. The master's degrees with concentrations in Latin or Greek and likewise the Master of Arts in the Teaching of Latin are all terminal degrees.

- Master of Arts in Classics (p. 685)
- Master of Arts in Classics, Greek Concentration (p. 686)
- Master of Arts in Classics, Latin Concentration (p. 686)
- Master of Arts in Teaching of Latin (p. 686)

Doctor of Philosophy in Classical Philology

The Doctor of Philosophy is offered only in classical philology, which requires advanced work in both Greek and Latin. Candidates for the Ph.D. program are eligible for acceptance upon completion of the master's degree in classics or its equivalent. Once admitted, they must complete at least 64 additional graduate hours of coursework. Admission to Stage III requires passing examinations in the translation of Greek and Latin into English, the history of Greek and Latin literature, and a special author, as well as a preliminary oral examination (dissertation prospectus).

- CLCV 550 Intro to Teaching of Classics (if not taken previously) 0 or 4
- 24 hours of Greek and Latin, with at least eight hours in each language and at least twenty at the 500 level, including:
  - GRK 595 Intro to Classical Studies (if not taken previously) 0 or 4
  - LAT 595 Intro to Classical Studies 0 or 4
- or LAT 595 Intro to Classical Studies 0 or 4
- LAT 511 Advanced Prose Composition (if not taken previously) 0 or 4
- GRK 511 Advanced Composition (if not taken previously) 0 or 4
- LAT 580 Latin Seminar 0 or 4
- GRK 580 Greek Seminar 0 or 4
- Elective 4-8

Language Requirement: Reading knowledge of two ancillary languages: German, and either French or Italian. Knowledge of one of these languages must be demonstrated at the time of admission to Stage II and the second before the start of the second year at Stage II.

E-mail: engr-gpp@illinois.edu (gpp@illinois.edu)

Major: Engineering

Degrees Offered: M.Eng. with concentrations available in Energy Systems (p. 832) and in Computational Engineering (p. 806)

A graduate concentration in Computational Science and Engineering, which is not a part of the M.Eng. in Engineering degree, is administered at the college level through CSE and is available for several programs within the College of Engineering and the College of Liberal Arts and Sciences.

Graduate Degree Programs

The College of Engineering offers a Master of Engineering (M.Eng.) degree program for students whose primary intent is a professional career in industry or government. This degree differs from the Master of Science (M.S.) degree in that it is a terminal degree and not a pathway to a doctoral program. The Major in Engineering for the M.Eng. degree requires the selection of an interdisciplinary concentration.

Admission

Students with bachelor's or master's degrees in engineering or related sciences will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. Admission is possible for the both the fall and spring semesters. Full details of admission requirements are on the Web page of the department offering the concentration.

All applicants whose native language is not English must submit a minimum TOEFL [http://www.toefl.org] score of 103 (IBT), 257 (CBT), or 613 (PBT); or minimum International English Language Testing System (IELTS) [http://www.ielts.org] academic exam scores of 7.0 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria [http://grad.illinois.edu/admissions/instructions/04c] are met. Full admission status [http://grad.illinois.edu/admissions/instructions/04c] is granted for those meeting the minimum requirements and having taken the TOEFL or IELTS since the scores required for admission to M.Eng. are above the minimum scores demonstrating an acceptable level of English language proficiency.

Master of Engineering in Engineering, must include a Concentration

Professional Development (an internship with a company, laboratory, or agency with a subsequent archiveable report; a design project, or business-oriented or leadership courses) 4

Concentration hours 28

Technical course work in primary area and one course from outside the primary area (12-20 hours)

Elective course work 0-8 hours chosen in consultation with advisor.

Total Hours 32

Other Requirements and Conditions

1 Other Requirements and Conditions may overlap

A concentration is required.

A minimum of 12 500-level credit hours with a minimum of 8 500-level credit hours applied toward the concentration.

A minimum of 8 hours must be in ENG or the home unit of the concentration.

Minimum program GPA: 3.0

1 For additional details and requirements, please refer to the Web page of the concentration’s home unit and the Graduate College Handbook [http://grad.illinois.edu/gradhandbook].

Available Concentrations:

- Computational Engineering (p. 806)
- Energy Systems (p. 832)

Computational Science and Engineering

Note: This concentration is not part of the M.Eng. in Engineering degree program.

The heart of Computational Science and Engineering (CSE) is to develop innovative ways of solving engineering and scientific problems using computation as a tool. This new form of science compresses the development process in engineering and engenders knowledge discovery with a new paradigm in many areas because it enables “virtual experiments” and helps focus physical experiments to reduce or eliminate trial-end-error laboratory-based approaches. Further, it teaches students to solve complex problems with prevailing computer technology.

The CSE graduate concentration is designed to provide graduate students with a solid base in problem-solving using computation as a major tool for modeling complicated problems in science and engineering. This concentration requires students to complete 16 graduate credit hours, which are outlined below. Courses taken toward this concentration will count towards the student’s graduate degree.
Graduate Degree Programs

The Department of Communication offers a broad curriculum in communication research. In consultation with an advisor, students assemble individualized programs, concentrating in organizational and group communication, interpersonal and family communication, health communication, communication technology, political communication, rhetoric and public discourse, communication in cultural contexts, or mass communication. Interdisciplinary programs are also encouraged.

Admission

An application must include official transcripts from every post-secondary institution the applicant has attended; scores on the general aptitude parts of the Graduate Record Examination (GRE); at least three letters of recommendation, preferably from academic recommenders; a major paper or essay as a sample of academic writing; and a statement of purpose. Students whose native language is not English must present their official scores on the Test of English as a Foreign Language (TOEFL) examination as part of their applications. The department follows the Graduate College’s recommendations for English proficiency. Detailed information about admissions and financial aid can be found on the department’s Web site (http://www.communication.illinois.edu/prospective/grad/apply). Ordinarily, students are admitted to begin graduate study in the fall semester.

Medical Scholars Program

Applications are not currently being accepted.

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Communication. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Financial Aid

Financial aid is usually offered in the form of part-time teaching assistantships; some fellowships and research assistantships are available.

- Master of Arts in Communication (p. 689)
- Master of Science in Health Communication (p. 689)

Doctor of Philosophy in Communication

To be accepted as a candidate for the Ph.D. degree, a student must either present a well-rounded undergraduate education with an emphasis in
communication and a master’s in a cognate discipline, or hold a master’s degree in communication from an accredited institution.

In addition to meeting general requirements of the Graduate College, the student must satisfactorily complete written and oral preliminary examinations, an oral defense of the thesis prospectus, and an oral defense of the thesis. Students must demonstrate competency in research procedures and tools that may include proficiency in one or more foreign languages, various research methods, or cognate academic work. Students must enroll in CMN 595 in the semester of the preliminary examination and in CMN 599 (thesis hours) in semesters spent working on the dissertation.

Minimum in appropriate research method; these are in addition to the 40 hours of additional coursework. (8 min)

Courses from outside the department 12
Elective hours (not in method or thesis hours) 40
Independent Study Hours (8 max applied toward degree) 8
Language Requirement: based on major

CMN 599 Thesis Research (0 min applied toward degree) 0

Total Hours 64

Other Requirements 1

Other requirements may overlap
Minimum Non-Method/Thesis Hours Required Within the Unit: 20
Masters Degree Required for Admission to PhD? Yes
Qualifying Exam Required: No
Preliminary Exam Required: Yes
Final Exam/Dissertation Defense Required: Yes
Dissertation Deposit Required: Yes
Minimum GPA: 2.75

1 For additional details and requirements refer to the department’s Graduate Programs (http://www.communication.illinois.edu/prospective/grad/degrees) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Online Program in Health Communication

The Department of Communication also offers an online Master of Science degree (M.S.) in Health Communication. The required hours are listed in Master of Science in Health Communication (p. 689). Apply to the Master of Science program only; applications to the online Master of Arts in Communication are not being accepted. More information about the online program is available at www.hcom.illinois.edu (http://www.hcom.illinois.edu).

Master of Arts in Communication

The entering student should present the equivalent of 16 semester hours of undergraduate work in communication or a related area. In some cases an oral examination is also stipulated. A thesis is optional.

Thesis Option

Elective hours 24

Independent Study Hours (4 max applied toward degree) 0-4
CMN 599 Thesis Research (8 max applied toward degree) 8

Community Health

Department of Kinesiology & Community Health (http://kch.illinois.edu)
Department Head: Amy Woods
Director of Graduate Studies: Steven Petruzello
Graduate Office: Julie Jenkins
906 South Goodwin Ave
112 Freer Hall MC-052
Urbana, IL 61801
(217) 333-1083
Email: jjenkins@illinois.edu

Major: Community Health
Degrees offered: M.S., Ph.D.

Major: Public Health
Degrees offered: M.P.H.

Major: Rehabilitation
Degrees offered: M.S.

Joint Degree Program: the M.P.H. can be earned jointly with the following:
Community Health, Ph.D. (p. 691)
Food Science and Human Nutrition, Ph.D. (p. 741)
Human & Community Development, Ph.D. (p. 760)
Kinesiology, Ph.D. (p. 773)
Nutritional Science, Ph.D. (p. 835)
Social Work, Ph.D. (p. 862)
Urban Planning, M.U.P. (p. 884)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Community Health and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.uiuc.edu/mdphd)

Graduate Degree Programs

The Community Health Program in the Department of Kinesiology & Community Health offers programs of study leading to the Master of Science in Community Health, Master of Science in Rehabilitation, Master of Public Health (M.P.H.), and Doctor of Philosophy in Community Health degrees.

The Chronic Disease, Disability, and Society specialization prepares graduates for advanced research or as health specialists who are well versed in social determinants of health. Graduates from this specialization will have a strong foundation related to health disparities, chronic disease and disability. The specialization in Epidemiology prepares students for the analysis of disease occurrences and problems in populations and instruction in the various methodologies, statistical techniques and designs for obtaining such understanding. The Global Health specialization focuses on international health from an interdisciplinary perspective. Students in this concentration may take courses that provide a broad view of global health contexts from various departments across campus. Finally, the specialization in Health Policy and Administration prepares students for the examination of management principles related to health care institutions and in procedures and methods for the analysis of health policy development, implementation and evaluation.

The M.S. in Community Health has specializations in Chronic Disease, Disability, and Society; Epidemiology; Global Health; and Health Policy and Administration. The M.S.P.H. program is not currently accepting applications, and individuals interested in pursuing a Master’s degree in public health are encouraged to apply to the M.P.H. degree program. The M.P.H. degree is a professionally focused degree designed to prepare students for a career in public health practice. The M.P.H. degree offers a specialization in health policy and management and an area of concentration in health behavior and promotion. The Ph.D. program is designed to prepare graduates for positions of leadership in teaching, research, and service in universities, industries, and private and government agencies in the United States and in other countries.

Admission

Applications for all degrees except the Master of Public Health (MPH) are due on January 15 for fall admission. Applications for spring semester are due October 1. Applications for the Master of Public Health (MPH) degree are only accepted for Fall admission until April 1.

The Graduate College admission requirements apply for all applicants. Candidates for admission to master’s degree programs should have a grade point average of at least 3.0 (A = 4.0) for the last 60 semester hours of their undergraduate degree work (excluding fieldwork, student teaching, and physical activity courses). In addition, satisfactory scores on the Graduate Record Examination (GRE) are required. Applicants should have a bachelor’s degree in a health or disability-related discipline and/or a strong background in social and biological sciences and quantitative methods. A statement of education and career goals, and three letters of recommendation are required. All degree programs with the exception of the Master of Public Health (MPH) require one example of professional writing with the date of its completion.

Admission requirements for the Ph.D. program include the following: a grade point average of at least 3.0 (A = 4.0) for the last 60 hours of undergraduate degree work (excluding fieldwork, student teaching, and physical activity courses), a GPA of 3.6 for master’s degree work with thesis, and acceptable scores on the Graduate Record Examination. Candidates are encouraged to have a personal interview with the coordinator of graduate studies or other representative of the department. Preference is given to students who have had at least two years of professional experience.

Applicants for all degrees whose native language is not English, or who have not obtained a university degree from an institution in a country where the native language is English, are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Applicants submitting TOEFL scores must obtain a minimum score of 600 on the paper-based, 250 on the computer-based, or 100 on the internet based (iBT) Test of English as a Foreign Language (TOEFL). Applicants submitting IELTS scores must obtain a 6.5 on all sub-sections. Applicants whose native language is not English and who are seeking a teaching assistantship must provide evidence of spoken English language proficiency by meeting minimum score requirements specified by the University (see www.grad.illinois.edu/admissions/taengprof.htm (http://www.grad.illinois.edu/admissions/taengprof.htm)).

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a
second discipline, including Community Health. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Faculty Research Interests

Faculty research interests cover a wide range of subjects, including global health, health education, community health development, health behavior, health policy, health planning and management, rehabilitation and disability studies, chronic disease, epidemiology, biostatistical and epidemiologic research methodology, health economics, evaluation research, and aging studies.

Financial Aid

Financial aid is available on a competitive basis to qualified students in the form of teaching and research assistantships, as well as tuition and service fee waivers.

- Master of Science in Community Health (p. 694)
- Master of Science in Rehabilitation (p. 695)
- Master of Science in Public Health (p. 695)
- Master of Public Health (p. 693)

Graduate course experience in public health and statistics with grades of B or better is expected prior to admission. Before admission to the Ph.D. program, students may be required to take up to 12 hours of additional coursework to remedy deficiencies. The candidate is required to pass written preliminary examinations covering disciplinary and professional aspects of community health, the literature and theoretical perspectives in the major area of study and methodological perspectives and research techniques. Students must also pass an oral preliminary examination on the area of specialization and dissertation proposal; and to pass an oral defense of dissertation research.

Doctor of Philosophy in Community Health

Advanced research methods/statistics 4
CHLH/KIN/ SHS 565/
RST 560 4
CHLH 591 Seminar 8

Master of Public Health and Master of Urban Planning

The M.P.H. can be earned jointly with the Master of Urban Planning. M.U.P. Joint degree programs provide the opportunity to complete two degrees in a compressed time frame. For the joint program, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of 88 hours, however the M.U.P. program may at its discretion count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as students are required to take no fewer than 40 additional hours in the M.P.H. program. Students must be in residence in Urban Planning for at least two semesters. Consult the department’s M.U.P. joint degree web page for more information about the admissions process and joint degree requirements. For additional guidance, please contact the Director of the M.U.P. Program.

CHLH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CHLH)

Community Health Courses

CHLH 501 Issues in Health Education credit: 4 Hours.
Analyses current developments, trends, and controversies in health education with emphasis on developing student competencies for intervention planning, implementation and analyses; and examines issues affecting the health educator in various work settings, including patient care, public health, school health, and higher.

CHLH 510 Public Health Dev credit: 4 Hours.
Advanced study of the principles, practice and current issues of public health at the local, state, national and international levels, including the relationships between public health departments, voluntary health agencies, and other community organizations.

CHLH 517 Principle/Method Epidemiology credit: 4 Hours.
Same as PATH 517. See PATH 517.

CHLH 527 Statistics in Epidemiology credit: 4 Hours.
Description and application of quantitative issues and statistical techniques prominent in the analysis of classification data arising from epidemiologic cohort or case-control aetiological studies; studies of preventive public health; and therapeutic clinical interventions. Practice using available computing software for implementation is stressed. Same as ENVS 527 and PATH 525. Prerequisite: CHLH 474 and minimum of two statistics courses covering multiple regression and correlation.

CHLH 530 Childhood Obesity I credit: 3 Hours.
Same as FSHN 530, HDFS 551, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

CHLH 531 Childhood Obesity II credit: 4 Hours.
Same as FSHN 531, HDFS 552, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

CHLH 540 Health Behavior: Theory credit: 4 Hours.
Analysis of social science theories and perspectives that comprise the foundation of health education theory and practice. Includes development of a conceptual frame of reference for understanding, predicting, and facilitating change in health behaviors. Same as KIN 540. Prerequisite: Graduate standing.

CHLH 550 Health Policy: United States credit: 4 Hours.
Comprehensive analysis of the policy process in health care in the United States; systematic and critical review of health policy development, implementation, and evaluation; impact of government at all levels and the role of providers, industry, labor, and consumer in health policy. Prerequisite: Admission to graduate program in community health or the MBA Administration Program; CHLH 429; or consent of instructor.

CHLH 565 Teaching in the Professoriate credit: 4 Hours.
Same as KIN 565, RST 560, and SHS 565. See KIN 565.

CHLH 570 Intro Public Hlth Practice credit: 1 Hour.
An introduction to principles of public health practice, covering a range of topics including history of public health, determinants of health, structure and function of the public health system, ethics, and public health approaches to prevention and to improving population health. Approved for S/U grading only. Prerequisite: MPH student or consent of the instructor.

CHLH 572 Principles of Epidemiology credit: 4 Hours.
Advanced course designed to provide an introduction to the fundamental concepts and principles of epidemiology and demonstrate their applicability in the field of public health. Emphasizes the use of epidemiologic data and research to a) describe the pattern of diseases in communities, and b) identify risk factors for diseases and for health disparities. Prerequisite: Completion or concurrent enrollment of basic statistics course is encouraged.

CHLH 573 Biostatistics in Public Health credit: 4 Hours.
Introduction to fundamental topics in biostatistics in public health, covering univariate and bivariate statistics as well as basic topics in multivariate analysis. Including practice in analyzing health data through computer laboratory sessions.

CHLH 575 Chronic Disease Prevention credit: 4 Hours.
Advanced course in population-based approaches to chronic disease prevention, with emphasis on policy and environmental strategies affecting lifestyle risk factors. Provides an understanding of common diseases, screen tests, community assessment, systematic evidence reviews, and evidence-based community interventions. Prerequisite: MPH students or consent of instructor.

CHLH 577 Health Program Evaluation credit: 4 Hours.
Use of research methods and theory for evaluation of initiatives and programs in public health and medical care. Emphasis on acquiring skills in evaluation and conducting evaluations whose results have impact on public health practice. Covers different theories and perspectives on health evaluation. Review of published evaluations used to illustrate research methods and practical issues in program evaluation. Prerequisite: MPH student or consent of instructor.

Information listed in this catalog is current as of 03/2017
CHLH 578  Applied Epidemiology  credit: 4 Hours.
Advanced epidemiologic analysis of disease problems. Covers research designs including cohort, case-control, and intervention trials; methods of analysis including multivariate adjustment for confounding and description of effect modification; and application of statistical computer software with emphasis on chronic diseases. Same as PATH 520.
Prerequisite: CHLH 474, PATH 517, or equivalent and advanced course work in statistics through multivariate analysis.

CHLH 580  Landscapes and Human Health   credit: 3 Hours.
Same as GEOG 561 and LA 570. See LA 570.

CHLH 585  Community Health Internship   credit: 4 Hours.
Observation, study, and practical work in student’s area of specialization under supervision in professional field situations; student works for a minimum of 12 weeks in a University-approved agency or site. Prerequisite: CHLH 429, CHLH 474 and CHLH 510; or graduate standing in community health; or consent of the department.

CHLH 587  MPH Practicum  credit: 1 to 4 Hours.
Provides MPH students with planned, supervised and evaluated field experience in a public health practice setting where students will synthesize knowledge and skills acquired through the course of MPH study. Approved for letter and S/U grading. May be repeated up to 4 hours in separate terms. Prerequisite: Completion of all Core MPH Courses.

CHLH 589  Public Health Capstone Expncxe  credit: 2 Hours.
Provides MPH students an opportunity to synthesize, integrate, and apply knowledge and skills acquired in MPH coursework, through work on a project relevant to public health practice. Generally offered for MPH students in their last semester of study in the MPH program. Prerequisite: MPH student.

CHLH 591  Seminar  credit: 1 Hour.
Lecture, discussions, and critiques on kinesiology and community health related subjects by faculty members and visiting professional leaders; presentation and criticism of student research. Approved for S/U grading only. May be repeated in subsequent terms as topics vary.

CHLH 593  Special Projects  credit: 2 to 4 Hours.
Independent research on special projects. May be repeated to a maximum of 8 hours. Prerequisite: EPSY 480, KIN 501, and CHLH 540 or equivalent.

CHLH 594  Special Topics  credit: 1 to 4 Hours.
Lecture course in topics of current interest; specific subject matter announced in the Class Schedule. May be repeated.

CHLH 599  Thesis Research  credit: 0 to 16 Hours.
Preparation of theses in community health. Approved for S/U grading only. May be repeated to a maximum of 16 hours.

REHB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/REHB)

Rehabilitation Counseling Courses

REHB 501  Rehabilitation Research  credit: 4 Hours.
This course has been designed for students who are interested in pursuing a career in rehabilitation and disability research. The course will cover major topics of research methods and techniques used in rehabilitation and disability research. A review of experimental designs and methods, human subject research, and disability related funding agencies will also be covered. 4 graduate hours. No professional credit.

REHB 520  Psycho-Social Aspects  credit: 4 Hours.
Study of the social and emotional adjustment of individuals with disabilities; evaluation of effects imposed by societal attitudes; analysis of the implications for rehabilitation professionals in dealing with individuals who have a disability; review of relevant research. Same as SPED 520.

REHB 536  Assessment in Rehabilitation  credit: 4 Hours.
Theory and practice of vocational evaluation techniques for persons with disabilities. Reviews basic psychometric instruments and adds practical experience with work samples and computer-based testing. Includes hands-on experience in the evaluation of disabled clients. Prerequisite: REHB 401 or one basic course in testing.

REHB 545  Transition and Voc Planning  credit: 3 Hours.
Same as SPED 545. See SPED 545.

REHB 583  Counseling Internship  credit: 4 Hours.
Development of individual counseling skills in a rehabilitation setting; emphasis on vocational evaluation and placement skills as developed in case management and planning experiences as well as adjustment to disability, vocational choice, and job placement techniques. May be repeated to a maximum of 8 hours. Prerequisite: REHB 401, REHB 520, REHB 536, and consent of instructor.

REHB 585  Rehabilitation Practicum  credit: 4 Hours.
Practical experience in a major area of rehabilitation; discussion/laboratory sections cover such practicum topics related to administration, counseling, or supported employment and other rehabilitation services. Prerequisite: REHB 301 and consent of instructor.

REHB 593  Special Problems  credit: 2 to 4 Hours.
Independent research on special projects. Open only to majors. May be repeated to a maximum of 8 hours. Prerequisite: REHB 401; consent of instructor.

REHB 594  Special Topics  credit: 1 to 4 Hours.
Lecture course on topics of current interest; specific subject matter announced in Schedule. May be repeated to a maximum of 8 hours. Prerequisite: Will be determined for each topic and will be indicated in Schedule; REHB 401; consent of instructor.

REHB 599  Thesis Research  credit: 0 to 8 Hours.
Preparation of thesis in rehabilitation. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Satisfactory standing in the master’s program.

Master of Public Health

http://mph.illinois.edu/

The MPH degree program requires a minimum of 48 hours. The program includes:

1. six required core courses in basic content areas of public health;
2. three required courses in the Health Behavior and Promotion concentration, as well as one additional concentration course from an approved list;
3. a practicum;
4. a capstone project; and
5. seminars and electives.

MPH students must complete all core coursework before enrolling in the MPH practicum. It is highly preferable for the practicum to occur during summer term. The capstone project must be completed in the last term of study. There is no thesis requirement. A pre-requisite for applying to
the MPH program is a college level course in mathematics, statistics, biostatistics, or epidemiology. Applications for the Master of Public Health (MPH) are only accepted for Fall admission, and are accepted until April 1. The program generally takes 1.5 to 2 years to complete. University of Illinois undergraduate students who major in Kinesiology, Community Health, or I-Health are eligible to apply for a 5 year joint BS MPH degree program after their 3rd (junior) year of undergraduate study. Students in the BS MPH program begin some MPH coursework in their 4th (senior) year of undergraduate study, and take MPH coursework in a 5th year of study in fall, spring, and summer terms.

Master of Science in Community Health

http://kch.illinois.edu/

The specializations in Epidemiology and Health Policy & Administration require completion of 12 hours of core courses, which are intended to provide overall knowledge of the public health field and the tools necessary for successful functioning as a health specialist.

Students entering the Epidemiology specialization will be expected to have completed undergraduate coursework in data collection and processing, including issues of measurement and questionnaire design, computerization, descriptive health measures, and statistical analysis through regression. Courses must have been completed with grades of B or better. Deficiencies in these areas will require additional coursework, as necessary, for successful completion of the Master of Science degree.

The specialization in Health Policy and Administration generally takes two years, depending upon prior education and experience. Students entering the program are expected to have completed undergraduate coursework in economics, social sciences, and data collection and processing, which includes issues of measurement, questionnaire design, computerization, descriptive health measures, and statistical analysis through regression. Courses must have been completed with grades of B or better. Deficiencies in these areas will require additional coursework, as necessary, for successful completion of the degree.

Candidates for the M.S. in Rehabilitation will be expected to have completed an undergraduate degree in a rehabilitation-related discipline and/or have a strong background in the social and biological sciences, and a course in introductory statistics. A full-time student can complete the program in three or four semesters. As with all programs, the Graduate College allows students to petition to transfer up to 12 hours of coursework completed prior to admittance to the department. Any approved graduate courses taken on campus in the summer immediately prior to admission count toward the degree and do not have to be transferred.

Comparative Literature

http://www.complit.illinois.edu/Welcome.html

Director of the Program: Nancy Blake
Director of Graduate Studies: Brett Kaplan
3080 Foreign Languages Building
707 South Mathews Avenue
Urbana, IL 61801
(217) 333-4987
Email: complit@illinois.edu

Major: Comparative Literature
Degrees Offered: M.A., Ph.D.
Graduate Minors, Certificates, and Concentrations: Medieval Studies (p. 810) (available to all degrees); Criticism and Interpretive Theory (http://criticism.english.illinois.edu/affiliation.htm#Cert) (available to all degrees); Gender and Women's Studies (p. 896) (available to all degrees); Cinema Studies (p. 895) (available to all degrees). For a full list, please see the Director of Graduate Study.

Graduate Degree Programs

The Program in Comparative & World Literature offers graduate programs leading to the degrees of Master of Arts and Doctor of Philosophy and is designed to provide a systematic study of subjects and problems common to several literatures. Its purpose is to enable students who have varied linguistic competence and preparation to explore the theory of literature and criticism; the interrelations of several literatures; the main currents, periods, and movements in literary history; the development of literary themes and types; and the relations between literature and the other arts.

Admission

A student entering the program should have an undergraduate major in Comparative Literature, English, the classics, or a foreign language. Majors in history and philosophy or other humanistic areas that present suitable linguistic and literary competence may also be granted admission by the Admissions Committee. All students are admitted at the MA level. Students entering with a recognized Masters degree from another university or from another department of this University have the option of taking the comparative literature and critical theory component and a literary component of this program's regular Master of Arts examination at the end of the first year as a qualifying test. For internal applicants to the Ph.D. curriculum, the Master of Arts will function as the qualifying test.

Applicants should apply online (www.grad.illinois.edu/admissions/apply/ (http://www.grad.illinois.edu/admissions/apply)), submit a statement of purpose, three letters of recommendation and a writing sample.

Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services, 3070 Foreign Languages Bldg., 707 S. Mathews Ave., Urbana, IL 61801. Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 105 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see www.grad.illinois.edu/Admissions/instructions/04c (http://www.grad.illinois.edu/Admissions/instructions/04c)). Applications are accepted for fall admission only.

Application questions may be directed to SLCL Graduate Student Services at slclgradservices@illinois.edu

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. Non-native English speakers must first pass a test of their oral English ability (see www.grad.illinois.edu/admissions/taengprof.htm (http://www.grad.illinois.edu/admissions/taengprof.htm)).

Financial Aid

A limited number of University fellowships and teaching assistantships, in cooperation with other departments, are available.

The Program aims to support as many graduate students as possible through teaching and other means, but support is always contingent on the student making timely progress to the degree. Such progress is measured by course load, taking exams on time, grades, and other factors.

Master of Arts in Comparative Literature

The candidate must demonstrate a competency in at least two foreign languages as well as in English. Latin is required for students specializing in European and/or American literatures before 1800. Competence in the languages offered is measured either by the successful completion of one advanced course in the literature of each of the languages chosen or by passing an examination administered by the program in comparative literature with the assistance of an expert in the language concerned. This choice is intended to provide for languages that may not be taught in regular departments.

The candidate must complete a minimum of 32 gh of credit, including two courses in the theory of literature (CWL 501 and CWL 502), and two seminars in comparative literature selected from CWL 551, CWL 561, CWL 571, and CWL 581. At least 12 of the other 16 gh should be taken in two or three national literatures in a distribution approved by the adviser.
The candidate must pass a written examination based on a reading list, which is designed to test knowledge of literary history as well as ability to interpret a literary or critical text.

CWL 501 Theory of Literature
& CWL 502 Method of Comparative Lit
Select two of the following: 8
CWL 551 Seminar Lit Movements
CWL 561 Seminar Genres - Forms
CWL 571 Seminar Literary Relations
CWL 581 Seminar Lit Themes
One or two courses in the major literature 4-8
At least one course in the minor literature 4
One or two courses from the above categories. (A student may take one course in a non-literary field that will provide cultural and historical contexts for the study of the student’s literatures.) 4-8

Total Hours 32

Other Requirements
Other requirements may overlap
The candidate must pass a written examination based on a reading list, which is designed to test knowledge of literary history as well as ability to interpret a literary or critical text.
Minimum 500-level Hours Required Overall: 20
Minimum GPA: 3.25

For additional details and requirements refer to the department’s graduate handbook (http://www.complit.illinois.edu/Graduate_files/Grad%20Handbook.pdf) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Doctor of Philosophy in Comparative Literature

A candidate for the Doctor of Philosophy degree must fulfill the general requirements of the Graduate College in addition to those specified for the master’s degree. At least 12 additional gh of work, normally at the 500 level, should be taken in courses regularly offered by the literature departments; among these, courses cross listed with the program in comparative literature are especially recommended. The candidate is responsible for a knowledge of the history of the literature in one modern language. The student also selects a period of major interest and is responsible for a knowledge of two other literatures in this period, which are considered as minors. The periods may be the Middle Ages, Renaissance, Neoclassicism and the Enlightenment, or the modern (nineteenth and twentieth centuries). Some chronological variations in coordinating the minors will be allowed for students studying non-Western literatures. A preliminary examination, i.e. a four-part written examination based on the individual program, and an oral examination with emphasis on the thesis project must be passed. The candidate must present an acceptable thesis embracing several national literatures and pass a final oral examination on the thesis.

CWL 582 Proseminar 4
Select three of the following: 12
CWL 551 Seminar Lit Movements
CWL 561 Seminar Genres - Forms
CWL 571 Seminar Literary Relations
CWL 581 Seminar Lit Themes
Two courses in the major literature 8
One course in each of the minor literatures of specialization 8
Language Requirement: Command of at least three languages besides English. Three of these four languages must coincide with the student’s areas of specialization and with the dissertation field.
CWL 599 Thesis Research (min/max applied toward degree) 24-32

Total Hours 64

Other Requirements
Other requirements may overlap
Students must be enrolled in graduate seminars until the preliminary examinations are taken and passed.
Masters Degree Required for Admission to PhD? Yes
Qualifying Exam Required: No
Preliminary Exam Required: Yes
Final Exam/Dissertation Defense Required:
Dissertation Deposit Required: Yes
Minimum GPA: 3.25

For additional details and requirements refer to the department’s graduate handbook (http://www.complit.illinois.edu/Graduate_files/Grad%20Handbook.pdf) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Computer Science

http://cs.illinois.edu

Head of the Department: Rob A. Rutenbar
Director of Graduate Studies: Chandra Chekuri (chekuri@illinois.edu)
1210 Siebel Center
201 N. Goodwin
Urbana, IL 61801
(217) 333-4428
Email: academic@cs.illinois.edu

Major: Computer Science
Degrees Offered: M.S., M.C.S., Ph.D.

Major: Bioinformatics
Degrees Offered: M.S.
Graduate Concentration: Computer Science

Online Program: Illinois Internet Computer Science (I2CS)
Degrees Offered: M.C.S. in Computer Science

Joint Degree Programs: the M.C.S. in Computer Science can be earned jointly with the following
Graduate Degree Programs

The Department of Computer Science is one of the longest established computer science departments in the world and is consistently ranked as a top-5 graduate program. The department offers graduate work leading to a master’s or doctoral degree, with an interdisciplinary master’s degree program in bioinformatics. In addition, the department offers an online professional master’s degree to reach students who are working full-time and unable to come to campus.

The Medical Scholars Program (https://www.med.illinois.edu/mdphd) permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Computer Science. Computer Science is not currently admitting to any joint master’s programs at this time.

Admission

Applicants must hold a bachelor’s degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for students entering a Computer Science graduate degree program is a bachelor’s or a master’s degree (only if applying to the PhD program) in computer science or computer engineering. The Graduate Record Examination (GRE) (http://www.ets.org) general aptitude tests (Verbal, Quantitative, and Analytical) are no longer required. However, in some cases, GRE general scores may provide helpful supporting information.

Applicants to the computer science Ph.D. program must have a minimum grade point average (GPA) of 3.40 (A = 4.00) in their undergraduate studies (international GPAs are systematically converted) to be considered. The department reserves the right to admit applicants with lower GPAs under rare and exceptional circumstances. MS and MCS applicants must have a minimum GPA of 3.20. If an applicant also holds a graduate degree, the minimum GPA for that degree must be 3.00. Full details of the programs offered by Computer Science, admisissibility, application procedures, and deadlines can be found at the department’s Prospective Graduate Student Information Web site (http://cs.illinois.edu/admissions/graduate). To apply, click here (http://www.grad.uiuc.edu/admissions/apply).

All applicants whose native language is not English must submit a minimum TOEFL (http://www.toefl.org) score of 79 (IBT), 213 (CBT); or minimum International English Language Testing System (IELTS) (http://www.ielts.org) academic exam scores of 6.5 overall and 6.0 in all subsections. For those taking the TOEFL or IELTS, full admission status (http://grad.illinois.edu/admissions/instructions/04c) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT) or 6.5 (IELTS). Limited status (http://www.grad.illinois.edu/admissions/instructions/04c) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (http://linguistics.illinois.edu/students/esl/guidelines) based on an ESL Placement Test (EPT) taken upon arrival to campus. Applicants for the online Master of Computer Science program will be considered for full admission status only.

Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both Computer Science and the College of Medicine. An application to the Medical Scholars Program will also serve as the application to the Computer Science graduate program. Further information on this program is available by contacting the Medical Scholars Program (125 Medical Sciences Building, 217-333-8146, mspo@illinois.edu).

Medical Scholars Program

Students in the Medical Scholars program must meet the specific requirements for both the medical (https://www.med.illinois.edu/mdphd) and graduate degrees. On average, students take eight years to complete both degrees. The first year of the combined program is typically spent working on requirements of the Computer Science graduate degree.

Faculty Research Interests

Illinois has been an international leader in computing research for almost five decades. Broadly organized around 9 research areas (http://cs.illinois.edu/research), 70 faculty members (http://cs.illinois.edu/people/faculty) conduct research with over 450 graduate students, and about 30 research staff members. They regularly collaborate with researchers across campus, in other departments or research units.

Facilities and Resources

The home of the Department of Computer Science at Illinois is the Thomas M. Siebel Center for Computer Science (http://cs.illinois.edu/about-us), a state-of-the-art building that opened its doors in 2004. On the north side of campus, home to the College of Engineering (http://engineering.illinois.edu), Siebel Center is an interactive computing habitat, made possible by a gift from alumnus Tom Siebel. The vision for the building was not only to create a magnificent space to work in, but to offer opportunities to investigate and apply computing tools on the building itself. Advanced wireless and wired communication networks, sensors, actuators, video capture and display equipment, video walls and information panels and storage and computing capabilities within the building allow researchers to examine communication and computation issues related to pervasive computing, multimedia infrastructure, building intelligence, security and privacy, and art.

Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (http://grad.illinois.edu/admissions/taangprof.htm) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. Students who are unable to take the iBT or IELTS are required to receive a minimum score of 5 on the EPI test (http://cte.illinois.edu/testing/oral_eng/epi_overview.html), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (http://cte.illinois.edu/programs/ta_train.html) conducted prior to the start of the semester.

- Minimum hours of CS course work: 12
- CS 597 and CS 591 may not be applied to the 500-level course work requirement.
- CS 591 section PHD must be taken in the first semester. A maximum of 4 credit hours of CS 591 can be applied toward the Ph.D. degree.
- A teaching assistantship for an entire term, with a satisfactory performance evaluation by the department, is required by the end of the 5th year.

Ph.D. exam and dissertation requirements:
- International Students must show demonstration of English proficiency (equivalent to that necessary to be a TA—see Financial Aid) before taking the Qualifying Exam.
- Qualifying exam: 2
- Preliminary exam: 3
- Final exam or dissertation defense: 4
- Dissertation deposit: 5
- Minimum GPA: 3.0

For additional details and requirements refer to the department's Graduate Degree Requirements (http://cs.illinois.edu/academics/graduate/phd-program) and the Graduate College Handbook (http://grad.illinois.edu/gradhandbook).

Master of Computer Science and Master of Architecture

A total of 70 graduate hours of credit are required: 32 for the M.C.S. degree as prescribed above and 38 for the Master of Architecture (p. 633) degree. Course credit required for the individual degrees is mutually exclusive.

Master of Computer Science and Juris Doctor in Law

Specific graduate hours of credit for each degree are required: 32 hours for the M.C.S. as prescribed above and 90 for the Juris Doctor (p. 782). However, some credits used in each program may apply to the other, allowing students to earn both degrees in a shorter time. For the M.C.S. degree

1. at least 12 credit hours must be law course work relating to legal protections for intellectual property or in related business law fields and
2. at least 6 credit hours must be from approved law courses as determined by the College of Law.

For the J.D. degree, 12 credit hours may be computer science or other scientific course work leading to the M.C.S. degree.

**Online Program**

**Master of Computer Science (I2CS M.C.S.)**

The Illinois Internet Computer Science option allows individuals to earn a Master of Computer Science (p. 700) degree from a leader in information technology entirely online with no required campus visits. Online students have the option to complete the comprehensive MCS track or the MCS program with a data science track. All online classes are taught by our world-recognized faculty. Online students also receive additional instructional support from Computer Science Graduate Teaching Assistants and program staff. Off-campus students have 5 years in which to complete the program. The degree awarded is the same as the on-campus M.C.S. degree. Admissions procedures and forms can be found at Graduate Admissions (http://cs.illinois.edu/admissions/graduate).

**Master of Computer Science**

This degree (http://cs.illinois.edu/academics/graduate/professional-mcs-program) is offered as an on-campus program or online via the Internet through the I2CS program.

Breadth Requirement (http://cs.illinois.edu/academics/graduate/professional-mcs-program/mcs-degree-requirements) 12-16

Advanced courses – chosen from CS 500 - CS 590 and CS 598; CS 597, or an approved non-CS 500-level course may satisfy 4 credit hours of this requirement.

Elective courses (subject to Other Requirements and Conditions below) 4-8

Total Hours 32

**Other Requirements and Conditions**

Other Requirements and Conditions may overlap

A minimum of 24 CS credit hours must be taken from the University of Illinois at Urbana-Champaign campus.

A minimum of 12 500-level credit hours overall.

A maximum of 4 hours of CS 591 and CS 491 may be applied toward the degree.

A grade of B- or higher is required for Breadth course work.

At most, 12 semester credit hours of previous graduate course work may be transferred and applied to the M.C.S. degree requirements and 12 credit hours of non-degree graduate courses completed in the Department of Computer Science at the University of Illinois at Urbana-Champaign campus may be transferred and applied to the M.C.S. degree requirements.

All degree requirements must be completed within three consecutive semesters (only fall and spring semesters are counted).

Off-campus students have 5 years in which to complete this degree.

The minimum program GPA is 3.0.

---

1 For additional details and requirements refer to the department's Graduate Degree Requirements (http://cs.illinois.edu/academics/graduate/professional-mcs-program) and the Graduate College Handbook (http://grad.illinois.edu/gradhandbook).

**Master of Science in Bioinformatics, Computer Science Concentration**

The CS concentration for the M.S. in Bioinformatics is an interdisciplinary degree that can be counted toward the Computer Science Ph.D.

E-mail: engl_resources@ad.uiuc.edu

Major: Creative Writing
Degrees offered: M.F.A.

Graduate Degree Programs

The Department of English offers a program of study leading to a Master of Fine Arts. A candidate for the MFA must spend at least four semesters or the equivalent in residence and complete at least 48 graduate hours. A full-time student typically completes this program in three academic years.

Admission

Graduate Record Examination (GRE) scores are required, but the GRE subject test for literature in English is not. All applicants whose native language is not English are required to submit Test of English as a Foreign Language (TOEFL) scores. Currently, a minimum score of 550 on the paper-based test (213 on the computer-based test) is required. Before a teaching assistantship involving classroom instruction or student consultation can be awarded to a non-native speaker of English, the applicant must take the Test of Spoken English (TSE) and achieve a score of 50 or higher (230 or higher before 1996). Because applications for admission usually far exceed capacity, in recent years undergraduate grade point averages of students admitted have been significantly higher than the 3.0 (A = 4.0) required by the Graduate College. The committee on admissions tends to select those applicants who have a solid array of undergraduate courses, strong recommendations, and a compelling writing sample: in short, an academic record that shows promise of a student capable of doing outstanding work in the field and earning a degree within a reasonable time. Preference is given to applicants who will be full-time students and active degree candidates. Applicants are considered only in spring for fall admission, and the deadline for submitting applications is December 17.

Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all MFA candidates in this program.

Financial Aid

Financial aid is available to students in the form of fellowships, teaching assistantships, and waivers of tuition and service fees. For complete information about the program, prospective applicants should consult our website at http://creativewriting.english.illinois.edu/graduate/about/.

(217) 244-0396

Information listed in this catalog is current as of 03/2017
Graduate Degree Programs

The Department of Crop Sciences offers programs leading to the Master of Science and Doctor of Philosophy degrees. Great flexibility exists for planning programs in various areas, and no rigid curricula are prescribed. The following areas of specialization, along with some of the corresponding disciplines, indicate the breadth of opportunities:

- plant pathology including epidemiology, control, mycology, phytobacteriology, virology, nematology, and host plant resistance;
- plant breeding and genetics including cytogenetics, molecular genetics, quantitative genetics, and genetics of host-pathogen interactions;
- molecular biology and physiology including biochemistry, plant physiology, tissue culture, and plant-pathogen interactions;
- crop production including management, crop ecology, plant nutrition, and international crop production;
- weed science including biology, control, and ecology;
- bioinformatics;
- biometry including experimental design and data analysis;
- integrated pest management including response of crops to climate changes and fate of agricultural chemicals.

These areas of specialization apply to both agronomic and horticulture crops including ornamentals, turf grasses, fruits and vegetables.

The genomic and proteomic projects are generating large amounts of complex biological data that require effective storage, retrieval, analysis and interpretation. The bioinformatics degree program provides students with the skills necessary to augment the understanding and use of agricultural, biological and medical information and resources through the application of molecular, chemical, physical, computational, statistical, mathematical and informatic techniques. Students interested in this program may come with undergraduate training in one of the following areas:

1. biological and agricultural sciences,
2. statistical, mathematical and computer sciences,
3. informatics and engineering sciences.

Graduates from the bioinformatics program will be able to integrate basic and applied concepts in the three areas and apply them to biotechnology and medical research. For additional information, please see our website at cropsci.illinois.edu/graduate/programs/ (http://cropschi.illinois.edu/graduate/programs/).

Admission

Applicants are considered for admission to the Master of Science program if they have a bachelor’s or equivalent degree comparable to that granted by the University of Illinois. Admission to the Ph.D. program will be considered for applicants with the M.S., those nearing completion of the M.S., and in some cases, those with the B.S. Because of the diversity of programs in the Department of Crop Sciences, the preparation that is needed varies considerably. Strong letters of reference, evident motivation to undertake graduate study, and good preparation in basic science courses enhance an applicant’s credentials. For some programs, greater emphasis is given to previous training in plant sciences, chemistry, or mathematics. A grade point average equivalent to at least a B in the last 60 semester hours of undergraduate course work plus any graduate level work completed is required. All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University. Additional information for international applicants can be found at: www.grad.illinois.edu/prospective/international.htm (http://www.grad.illinois.edu/prospective/international.html). Results of the Graduate Record Examination (GRE) are required for applicants to all programs except the Online Master of Science degree program. Please see our web page for additional information: cropschi.illinois.edu/graduate/admission. (http://cropschi.illinois.edu/graduate/admission)

Medical Scholars Program

Please note applications are not being accepted at this time to the Medical Scholars Program.

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Crop Sciences. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Faculty Research Interests

Please refer to the following webpage for a detailed listing of our faculty and their areas of interest cropschi.illinois.edu/directory/faculty (http://cropschi.illinois.edu/directory/faculty).

Facilities and Resources

The department of crop sciences has excellent laboratory, greenhouse, and field research facilities available for all types of research. A network of experimental locations throughout the state and cooperative arrangements with other states make thesis research possible under a wide range of environmental and climatic conditions. The department’s

Information listed in this catalog is current as of 03/2017
involvement in international programs may provide opportunities to conduct thesis research abroad. All phases of research, from bioinformatics, molecular biology and biophysics to field testing and crop production, are supported by state-of-the-art facilities. A map of the facilities can be seen at cropsci.illinois.edu/about/facilities.

Financial Aid

Fellowships and assistantships are available to outstanding students on a competitive basis. Awards for financial assistance are based principally on a candidate’s academic record, statement of plans, letters of reference, and GRE scores.

- Master of Science in Crop Sciences (p. 704)
- Master of Science in Bioinformatics, Crop Sciences Concentration (p. 704)

Doctor of Philosophy in Crop Sciences

Students are required to pass a preliminary examination within five semesters of first enrolling, not including the summer terms, and after substantial completion of the Ph.D. graded coursework requirement. The preliminary examination is comprised of both an oral and written component and students are expected to defend their Thesis Proposal at the oral component of the examination. Those students on the BA to PhD plan must also pass a Qualifying Exam. An acceptable dissertation is required. Residence requirements are the same as those of the Graduate College.

Entering with approved M.S./M.A. degree

Minimum Graded Coursework approved by the graduate guidance committee not including CPSC 594 or CPSC 598, with a grade point average of at least a B.

- CPSC 594 Professional Orientation CPSC 1
- CPSC 598 Seminar (CPSC 598: Graduate Student Seminar (enrollment required each semester)) 14 Maximum applied toward degree
- CPSC/PLPA 599 Thesis Research (minimum applied toward degree) 37

Total Hours 64

Other Requirements 1

Other requirements and conditions

64 hours of in-residence credit beyond the M.S.

Minimum 500-level Hours Required 36 Overall:

Qualifying Exam Required: Yes
Preliminary Exam Required: Yes
Final Exam/Dissertation Defense Required:
Dissertation Deposit Required: Yes
Minimum GPA: 3.0

1 For additional details and requirements refer to the department's graduate handbook (http://cropsci.illinois.edu/sites/cropsci.illinois.edu/files/pdf/Grad_Student_Handbook_2013.pdf) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

The Online M.S. in Crop Sciences program enables students to strengthen their education typically through part-time study, as most students are working professionals. Courses are delivered mainly through online and other distance education technologies and occasional site-based programming (site-based courses are optional and not required to complete the degree). The Crop Sciences online M.S. program is typically completed as a non-thesis degree, but a thesis option can be pursued pending Departmental approval. (p. 704) The program has a 30-plus year history of providing high quality University of Illinois courses and began granting off-campus MS degrees in 1986 to agriculture professionals across Illinois, as well as in neighboring states. Students may enroll in individual courses for personal or professional advancement or may apply for admission to the master’s degree program in Crop Sciences. Students who successfully complete three qualifying courses may also receive a Professional Development Certificate in Crop Sciences.

The Online M.S. in Crop Sciences program also works in conjunction with the Natural Resources and Environmental Studies Online M.S. program and the Agriculture Education Online M.S. program to offer a diverse set of courses. The Department of Crop Sciences is looking to the future and the needs of non-traditional students. Therefore, new courses are...
continually in development for online delivery and blended formats. A student may complete their entire degree requirements online from anywhere in the world and they are available to in-state students and out-of-state students at the same tuition rates. For more information on Crop Sciences, the Online M.S. in Crop Sciences degree program or certificate offerings, please visit cropsci.illinois.edu/online-program.

Master of Science in Bioinformatics, Crop Sciences Concentration

The Crop Sciences concentration within the M.S. degree in Bioinformatics can be earned with a thesis option or a non-thesis option, which requires optional supervised research experiences.

Major: Curriculum and Instruction
Degrees offered: Ed.M., M.S., M.A., C.A.S., Ph.D., and Ed.D.
Graduate Concentration: Second Language Acquisition and Teacher Education (Ph.D. only), Writing Studies (Ph.D. only)

Major: Early Childhood Education
Degrees offered: Ed.M. with teacher licensure

Major: Elementary Education
Degrees offered: Ed.M. with teacher licensure

Major: Secondary Education
Degrees offered: Ed.M. with teacher licensure
Graduate Concentrations: English, Mathematics, Sciences, Social Studies

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Curriculum and Instruction and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.illinois.edu/mdphd)

Graduate Degree Programs

The Department of Curriculum and Instruction offers graduate programs leading to the degrees of Master of Education (Ed.M.), Master of Science (M.S.), Master of Art (M.A.), Certificate of Advanced Study (C.A.S.), Doctor of Philosophy (Ph.D.), and Doctor of Education (Ed.D.). An example of faculty research areas:

- Aesthetics Education
- Bilingual/ESL Education
- Curriculum Studies
- Early Childhood Education
- Early Literacy
- Elementary Education
- English Education
- Literature for Children and Adolescents
- Mathematics Education
- Multicultural Education
- Reading Education
- Science Education
- Second Language Literacy
- Secondary Education
- Social Studies Education
- Teacher Education
- Technology Studies
- Writing Education

Graduate students interested in writing can obtain a concentration in Writing Studies (http://www.cws.illinois.edu/graduate) at the Ph.D. level.

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master’s degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education, Elementary Education, and Secondary Education. In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master’s students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master’s candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

Admission

Interested applicants should start at http://education.illinois.edu/programs/grad. In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master’s thesis, article, or paper, is required for application to a doctoral program. Applicants for the master’s degree with teacher licensure must submit passing scores on the Illinois Licensure Testing System Test of Academic Proficiency (TAP) or use their ACT/SAT score in lieu of passing the TAP (http://education.illinois.edu/students/prospective-students/ACT) and for secondary education licensure, the appropriate content area examination. Note: The master’s with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction’s TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence for English proficiency.
Degree Requirements

- Masters (p. 706)
- Doctoral (p. 706)
- C.A.S. (p. 706)

For additional details and requirements refer to the department’s Web site (http://www.education.illinois.edu/ci), the College of Education Graduate Programs Handbook (http://www.ed.illinois.edu/students/grad_handbook), and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Curriculum and Instruction. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Research Profiles web site: www.ed.illinois.edu/ci/frp (http://education.illinois.edu/ci/people).

Facilities and Resources

Departmental resources consist of cooperation with Children’s Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: International Journal of Education & the Arts, Journal of Curriculum Studies, and American Educational Research Journal. The department also has resources for graduate students such as the Language and Literacy Student Organization and other student-initiated groups in Curriculum, Aesthetics, and Teacher Education; and Mathematics, Science, and Technology.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (http://cote.illinois.edu) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at http://www.grad.illinois.edu/current-students.

Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (http://education.illinois.edu/programs/grad/financial-aid) and campus. Campus opportunities can be found at the Graduate College (http://www.grad.illinois.edu/funding-jobs) and the Office of Student Financial Aid (http://www.osfa.illinois.edu). Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.

- Master of Education in Curriculum and Instruction (p. 708)
- Master of Science and Master of Arts in Curriculum and Instruction (p. 710)

  - Master of Education in Secondary Education (p. 709)
- Doctor of Education in Curriculum and Instruction (p. 707)
- Doctor of Philosophy in Curriculum and Instruction (p. 707)

Certificate of Advanced Study (C.A.S.), Curriculum and Instruction

The University of Illinois at Urbana-Champaign’s College of Education complies with the U.S. Department of Education’s Gainful Employment requirements by disclosing information to applicants regarding our Certificate of Advanced Study program. Required information can be found here (http://creativeservices.illinois.edu/ProgramsOfStudy/2014/fall/programs).

If the student does not have a Master’s degree from the University of Illinois at Urbana-Champaign, Foundation Courses must be completed as prerequisites:

Dance

http://www.dance.illinois.edu

Head of the Department of Dance: Rebecca Nettl-Fiol
MFA Program Director: Cynthia Oliver
907 1/2 West Nevada Street
Urbana, IL 61801
(217) 333-1010
Fax: (217) 333-3000
E-mail: dance@illinois.edu

Major: Dance
Degrees Offered: M.F.A.

Graduate Degree Program

The Dance Department offers a graduate program leading to the Master of Fine Arts degree. The mission of the MFA Program is to foster substantive choreographic research that posits dance as a force in contemporary culture. The program embraces a wide spectrum of individual movement research and embodied practice to create a dynamic learning atmosphere for critical engagement with choreographic process.

The Dance Department expects MFA candidates to conduct a creative inquiry that leads to the development of a sophisticated sense of self-definition. Individual research and analysis should culminate in the development of a personal artistic process and mission and should be evident in the following contexts:

- Choreographing- Candidates will develop a distinctive choreographic research methodology and demonstrate its skillful application in a performative context. This ideology must establish solid foundation for ongoing research and engagement that contributes to the global dialogue about dance and contemporary culture.
- Communicating- Candidates will develop the ability to express their choreographic vision and process in verbal and written language that is clear, cogent, and convincing and demonstrates clear analytic skill,
critical thinking, awareness of historical context, and knowledge of contemporary culture.

- Moving- Candidates will demonstrate a commitment to movement investigation and practice that defines, advances, and sustains their choreographic vision.
- Teaching-Candidates will apply their research vision in clear pedagogic principles while fostering a stimulating teaching/learning environment.
- Career Planning-Candidates are assessed on their ability to develop innovative career strategies in order to advance their artistic mission in the field and demonstrate the capacity to implement these plans with professionalism in all the above contexts.

Admission Requirements

Prerequisites for admission to the MFA program are:

1. An undergraduate degree and significant experience in dance is required.
2. Demonstrated choreographic achievement and potential to make innovative contributions to the field.
3. Demonstrated potential to engage in critical thinking and writing.
4. A minimum grade point average of 3.0 on a 4 point scale, computed from the last 60 hours of undergraduate work and any graduate work completed.

International students must have a minimum TOEFL score of 79 on the internet-based test, 213 on the computer-based tests, or 550 on the paper test for limited status admission. Students with these minimum scores must take the English as a Second Language Placement Test (EPT) upon entry to the University. International students who receive a score greater than 103 on the internet-based test, 257 on the computer-based test, or 613 on the paper test are eligible for full status admission. Students with these scores are exempt from the English as a Second Language Placement Test. The GRE is not required.

Faculty Research Interests

An extraordinary faculty of artists, researchers and scholars has gathered at Illinois, who are creating new paradigms for interactions between the professional arena and the academic training ground. Our group of professional artists includes Jan Erkert, Sara Hook, Philip Johnston, Linda Lehovec, Jennifer Monson, Rebecca Nettl-Fiol, Tere O’Connor, Cynthia Oliver, Kirstie Simson, Endalyn Taylor, John Toenjes, Renee Wadleigh, and Abby Zbikowski, all of whom share a commitment to teaching and preparing students for leadership roles in the field of dance.

Financial Aid

Two forms of financial aid are offered to graduate students by the Department of Dance:

- Teaching, video and administration assistantships are available to graduate students. Assistantships of 25% or greater qualify the student for a tuition waiver. All students are required to apply for Federal Work Study.
- A variety of Fellowships are available through The Graduate College each year, including: (A full listing of Fellowships can be found at: www.grad.illinois.edu/fellowships (http://www.grad.illinois.edu/fellowships) )
  - The Creative and Performing Arts Fellowship, which may include stipends up to a maximum of $6,000 for a student demonstrating outstanding choreographic and performance talent.
  - The Graduate College Fellowship for Underrepresented Students provides fellowships in the amount of $8,000 and are available to outstanding minority students.

Graduate teaching assistantships are awarded to experienced teachers. A letter of recommendation from a dance professional who has observed the applicant’s teaching is required with the application.

Prospective MFA candidates are encouraged to apply for financial assistance through The Office of Student Financial Aid, 420 Student Services Bldg., University of Illinois at Urbana-Champaign, Champaign, IL 61820. (217) 333-0100.

Master of Fine Arts in Dance

The MFA Curriculum is designed to promote a candidate’s progress through our stated objectives: Choreography, Communication, Moving, Teaching, and Career Planning.

Included in these are courses in dance studies, somatics, pedagogy, and two semesters devoted to an innovative lab team taught by our faculty and designed in collaboration with students. The final year of study is devoted to synthesizing the above objectives evidenced by the production of the candidate’s choreography, their written thesis document, oral presentation, and plans for propelling students’ career into the professional sphere.

Other Requirements

Other requirements may overlap

Course work taken to completed undergraduate deficiencies will not receive graduate credit.

Residency requirement of three years (six semesters)

Information listed in this catalog is current as of 03/2017
Minimum GPA: 2.75

1 For additional details and requirements refer to the department’s MFA Handbook (http://dance.illinois.edu/prospective-students/mfa) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

• Minor in Dance (p. 712)

**Minor in Dance**

The Graduate Minor in Dance offers physical, creative, and theoretical engagement with contemporary dance and performance. The program of study presents interested graduate students the chance to endow their major graduate degree studies with interdisciplinary ideas and presents an alternate pedagogic window into research through the body. Prospective graduate minor students will be required to have successfully completed one of the required Dance Graduate Minor courses prior to official admission to the program. In addition, they will have to be interviewed by the MFA in Dance Program Director, and they will have to provide a letter of endorsement from their home department advisor that is co-signed by their home department Graduate Program Director.

For additional information, please contact dance@illinois.edu.

Total Hours: 12

Minimum 500-level hours required: 10 overall.

**East Asian Languages and Cultures**

The Department of East Asian Languages and Cultures offers academic programs in the languages and the humanistic cultures of China, Japan, and Korea, and of the East Asian region as a whole, leading to the Master of Arts in East Asian Studies and the Doctor of Philosophy in East Asian Languages and Cultures.

www.ealc.illinois.edu/programs/graduate/ (http://www.ealc.illinois.edu/programs/graduate/)

**Graduate Degree Programs**

The Department of East Asian Languages and Cultures offers academic programs in the languages and the humanistic cultures of China, Japan, and Korea, and of the East Asian region as a whole, leading to the Master of Arts in East Asian Studies and the Doctor of Philosophy in East Asian Languages and Cultures.

www.ealc.illinois.edu/programs/graduate/ (http://www.ealc.illinois.edu/programs/graduate/)

**Admission**

Applicants are expected to have a strong background in at least one East Asian language; normally, this means a minimum of two years of formal study. Applicants to the graduate program must submit an application for admission online (www.grad.illinois.edu/admissions/apply (http://www.grad.illinois.edu/admissions/apply)) and submit a statement of purpose, three letters of reference completed by teachers, advisers, or recent employers, and a 10-20 page writing sample. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services
3070 Foreign Languages Bldg.
707 S. Mathews Ave.
Urbana, IL 61801

Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 103 on the internet-based test (iBT) for admission with full standing; they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see www.grad.illinois.edu/Admissions/instructions/04c (http://www.grad.illinois.edu/Admissions/instructions/04c)). Students with a B.A. or B.S. only should apply to the M.A. Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at slclgradservices@illinois.edu. (slclgradservices@illinois.edu)

**Medical Scholars Program**

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including East Asian Languages and Cultures. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at https://www.med.illinois.edu/mdphd/.

**Graduate Teaching Experience**

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. Therefore, applicants are requested to include information on teaching background as part of the application, and students can normally be expected to teach at least one semester as part...
of their graduate experience. Non-native English speakers must first pass a test of their oral English ability.

www.grad.uiuc.edu/admissions/taengprof.htm (http://www.grad.uiuc.edu/admissions/taengprof.htm)

**Financial Aid**

The Department makes every effort to assist graduate students in securing financial aid. Financial aid packages usually combine some form of fellowship support with teaching or research assistantships in a manner that allows for both teaching experience and timely completion of the degree. In recent years, almost all EALC graduate students have received some form of financial support. Financial aid for graduate students in the Department of East Asian Languages and Cultures may include:

- University Fellowships
- Foreign Language and Area Studies (FLAS) Fellowships
- University Dissertation Completion Fellowships
- Minority Academic Partnership Plan (MAPP) Fellowships
- teaching assistantships
- research assistantships

All awards of financial aid are made following competitive application.

https://www.grad.illinois.edu/fellowship/

**Master of Arts in East Asian Studies**

**Thesis Option**

Two 500-level courses in the major field including one course designated as a research seminar in which the student produces a research paper using Asian language sources.

**Doctor of Philosophy in East Asian Languages and Cultures**

Applicants to the Ph.D. program normally must hold a master's degree in East Asian studies or a related discipline with an East Asian concentration.

Candidates for the Ph.D. may specialize in culture (e.g., religion, literature, history, anthropology), language acquisition, or language pedagogy, with a major concentration in China, Japan, or Korea.

Other general requirements include: an annual review of progress, including an evaluation of research capability; a written and oral preliminary examination in the major and two minor fields (after completion of coursework); presentation of a dissertation proposal (often as part of the preliminary exam); and completion and defense of the dissertation.

**Entering with approved M.S./M.A. degree**

Courses in the major field defined by culture and discipline (500-level)

**Economics**

http://www.economics.illinois.edu

Head of the Department: Martin Perry
Associate Head: George Deltas
214 David Kinley Hall
1407 W. Gregory Dr.
Urbana, IL 61801
(217) 333-0120
Fax: (217) 244-6571
E-mail: econ@illinois.edu

Major: Economics

Degrees Offered: M.S., Ph.D.

Graduate Concentration: Policy Economics (M.S. only)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Economics and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.illinois.edu/mdphd)

**Graduate Degree Programs**

The Department of Economics offers graduate programs leading to the Master of Science in Policy Economics and Doctor of Philosophy degrees. The candidate for a Ph.D. may specialize in the following fields:

- microeconomic theory
- public economics
- macroeconomic theory
- international economics
- labor economics
- development economics
- mathematical economics
- econometrics
- industrial organization

The department is not admitting students to the M.A. at this time.
Admission

Admission to the Ph.D. program is available only for the fall semester. In addition to the standard undergraduate preparation in economics, students are expected to have had at least two semesters of calculus and one of linear algebra to be admitted to the Ph.D. program. The results of the Graduate Record Examination (GRE) should accompany applications for admission. Graduate College admission requirements apply. In addition, international students must submit Test of English as a Foreign Language (TOEFL) or IELTS results; if they wish to apply for a teaching assistantship, the Test of Spoken English (TSE) or completion of the speaking section of the TOEFL-iBT or IELTS is also required.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Economics. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the Department of Economics and the College of Medicine. Students in the combined program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at https://www.med.illinois.edu/mdphd/.

Graduate Teaching Experience

Experience in teaching is considered an important part of the graduate program and is encouraged as part of the academic work of all Ph.D. candidates in this program.

Financial Aid

In recent years, the Department of Economics has been able to offer assistantships to most students who meet the standards for admission or continuation in the Ph.D. program. In order to qualify for a teaching assistantship, non-native speakers of English must pass a speaking proficiency test of the English language.

- Master of Science in Economics (p. 716)
- Master of Science in Economics, Policy Economics Concentration (p. 716)

Doctor of Philosophy in Economics

Students must pass comprehensive qualifying examinations on Econometrics, Macroeconomics and Microeconomics. Those who fail the comprehensive examinations will have a 2nd chance in the start of the fall semester and a 3rd chance at the end of the fourth semester (in this 3rd chance they will take the exams with the first year students of the next cohort). Students who have failed the 3rd chance will not be allowed to register for the following year. Upon meeting course and GPA requirements, they will be eligible to receive a master's degree in Economics, provided they have not previously received such a degree from another institution.

Candidates must also successfully complete two fields through coursework and/or a written examination. A research paper must be submitted prior to the start of the third year and approved prior to the end of that year. Students who fail to meet these deadlines will have reduced financial support and be placed on academic probation. Unless they return to good standing by satisfying the requirement, they will be dropped from the program at the end of the following semester.

A dissertation is also required. In addition, candidates are required to give an oral defense of the dissertation proposal and pass an oral final examination covering the research. A student with an appropriate background who devotes full time to graduate work can complete the Ph.D. degree in four years beyond the bachelor's degree. An additional year or more is usually necessary, especially for those holding part-time assistantships. Students in the Ph.D. program may earn a master's degree as they work toward the Ph.D. degree.

Optional: A not-for-credit Math Camp after campus orientation, consisting of 12 hours of instruction. The aim of the Math Camp is to prepare students with no master's level coursework in mathematical economics for the program's first year classes. However, it will be open to all incoming students.

Additional information can be found at www.economics.illinois.edu/programs/phdprogram/ (http://www.economics.illinois.edu/programs/phdprogram).

Master of Science in Economics, Policy Economics Concentration

This is a specially designed one- to two-year program to address the needs of two groups of students. One is promising young professionals and administrators who need additional training in the areas of economic analysis and quantitative techniques. The other is students who are potentially interested in pursuing a Ph.D. degree but require additional qualification to enable them to do so. While earning the master's degree and acquiring the necessary tools for further studies, they will learn if the pursuit of a Ph.D. degree is within their reach and suits their purposes.

Students enter the program only in the fall term.

The required coursework is further enriched through

1. academic advising wherein an academic advisor with an open-door policy allows the MSPE students to drop by his office at their convenience, discuss their academic questions with him, and re-optimize their program of study on a continual basis. The academic advisor also provides guidance on study plans beyond graduation and provides support in achieving them;
2. an orientation program that includes an intensive mathematics course; this course serves as a refresher for the math content to be utilized during the students’ courses in the program;
3. opportunities to participate in field trips to observe the operation of financial institutions, modern industrial production facilities, federal and state government agencies, and international institutions;
4. scheduled lectures by outstanding, internationally known economists;
5. discussion groups and tutoring for participants who are having difficulty;
6. program staff assistance with visas, housing, and other nonacademic concerns; and
7. participation in social activities, including graduation dinners, holiday parties, picnics, and special luncheons.

This is a designated full-cost recovery program and no financial aid is available for the students in this program.

Please see www.mspe.illinois.edu (http://www.mspe.illinois.edu) for detailed information on the MSPE Program.

ECON 500 Microeconomics 4
ECON 501 Macroeconomics 4

Major: Education Policy, Organization and Leadership

Off-Campus Program: Ed.M., C.A.S., Ed.D.
Graduate Concentration: Educational Administration and Leadership.

Online Programs: Ed.M., Ed.D.

Graduate Minor: College Teaching

Joint Degree Program: Education Policy, Organization and Leadership and Business Administration
Degrees Offered: Ed.M./M.B.A., M.A./M.B.A.

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Education Policy, Organization and Leadership and Doctor of Medicine (M.D.) through the Medical Scholars Program. (https://www.med.illinois.edu/msp)

Graduate Degree Programs

Degree programs in the Department of Education Policy, Organization and Leadership are designed to meet the academic and professional interests of individuals preparing for careers as academic professionals, adult educators, college professors, corporate trainers, educational policy analysts, governmental administrators, instructional designers/technologists, non-profit representatives, organizational development specialists, and university administration leaders.

Admission

The Department of Education Policy, Organization and Leadership carefully considers all applicants for graduate study. Applicants should consult the department website for more detailed application information http://education.illinois.edu/epol/admissions/howtoapply and should apply online at http://www.grad.illinois.edu/admissions/apply. The quality of the applicant’s undergraduate and graduate training and grade point average are primary considerations. Other important factors evaluated include the three letters of recommendation and statement of purpose. International applicants must submit a TOEFL score.

Off-Campus Programs

The Education Policy, Organization and Leadership department offers selected off-campus programs in the Chicago region, through the use of a cohort model. The Ed.M. and C.A.S. degree options with General Administrative Endorsement are offered in the Chicago region. An Ed.D. degree cohort also is available in School Executive Leadership. Requirements for the off-campus Ed.M., C.A.S., and Ed.D. programs are identical to the on-campus degrees.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp

Facilities and Resources

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at http://www.grad.illinois.edu/current-students.

Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college and campus. There are opportunities available through the department (http://education.illinois.edu/epol), the College of Education (http://education.illinois.edu/students/graduate-financialaid), and the Bureau of Educational Research (http://www.ed.illinois.edu/ber/fundingresources.html). Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship. Campus opportunities can be found at the Graduate College (http://www.grad.illinois.edu/financial-aid) and the Office of Student Financial Aid (http://www.osfa.illinois.edu).

Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership

Select one of the following:

- EOL 548 Poli & Cultural Context of Ed
- EPS 400 History of American Education
- EPS 401 History of Educational Ideas
- EPS 402 Asian American Education
- EPS 403 European Education to 1600
- EPS 404 European Education since 1600
- EPS 405 Historical & Social Barriers
- EPS 410 Philosophy of Education
- EPS 411 School and Society
- EPS 412 Critical Thinking for Teachers
- EPS 413 Aesthetic Education
- EPS 415 Technology & Educational Reform
- EPS 420 Sociology of Education
- EPS 421 Racial and Ethnic Families
- EPS 423 Politics of Education
- EPS 424 Economics of Education
- EPS 426 Comparative Education

500-Level Courses Required in Education (Thesis Research Credit not included) 12

400/500-Level Courses approved by Advisor (Thesis Research Credit and Independent Study can be applied up to a maximum of 8 hours each) 12

(Optional) Concentration Courses. May overlap with other coursework requirements 12-24

Total Hours 32

Information listed in this catalog is current as of 03/2017
Other Requirements

Requirements may overlap.
A concentration is not required.

Minimum GPA 3.0

For additional details and requirements refer to the department’s program information online (http://education.illinois.edu/epol) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Doctor of Education in Education Policy, Organization and Leadership

Required Courses: Required Hours
Cognate requirement (minimum applied toward degree) 16
Research methods 8
Elective hours (includes 24 hours required in the specialization and 0-12 hours of independent study) 36
Dissertation research hours required (min/max applied toward degree) 4-16
(Optional) Concentration Courses. May overlap with other coursework requirements 12-24
Total minimum hours 64

Other Requirements

Other requirements may overlap
A concentration is not required
Masters degree required for admission to Ed. D.
Residency: 16 hours over 4 consecutive semesters of study
Qualifying exams
Human subjects approval
Preliminary exam
Final exam/dissertation defense
Dissertation deposit

Minimum GPA: 3.0

For additional details and requirements refer to the department’s program information online (http://education.illinois.edu/epol) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Doctor of Philosophy in Education Policy, Organization and Leadership

Completion of at least 64 hours beyond the master’s degree including:

Major Subject Coursework (minimum) 32
Dissertation Research (min/max applied toward degree) 4-20
Independent Study (min/max applied toward degree) 0-12
Research Coursework 16-20
(Optional) Concentration Courses. May overlap with other coursework requirements 12-24
Total Hours 64

Other requirements

A concentration is not required
Minimum GPA: 3.0
Master’s degree required for admission to Ph. D.
Residency requirement: 2 consecutive full-time (12 hours) semesters of study on campus
Early research requirement
Qualifying exams
Human subjects approval
Preliminary exam
Final exam/dissertation defense
Dissertation deposit

All students will take a minimum of 16-20 credit hours, depending on area of methodology focus, in approved research methods courses (http://education.illinois.edu/current-students/graduate/coe-graduate-handbook/phd/research-requirement).

For additional details and requirements refer to the department’s program information online (http://education.illinois.edu/epol) and the Graduate College Handbook (http://www.grad.illinois.edu/gradhandbook).

Certificate of Advanced Study in Education Policy, Organization and Leadership

The University of Illinois at Urbana-Champaign’s College of Education complies with the U.S. Department of Education’s Gainful Employment requirements by disclosing information to applicants regarding our Certificate of Advanced Study program. Required information can be found here (http://creativeservices.illinois.edu/ProgramsOfStudy/2014/fall/programs).

If the student does not have a Master’s degree from the University of Illinois at Urbana-Champaign, the foundation courses listed below must be completed. The minimum GPA is 3.0.

**Psychological Foundations Courses in Educational Psychology**

Select one of the following:
- EPSY 400: Psyc of Learning in Education
- EPSY 401: Child Language and Education
- EPSY 402: Sociocultural Influ on Learning
- EPSY 404: Adjustment in School Settings
- EPSY 405: Personality and Soc Dev
- EPSY 406: Psyc of Classroom Management
- EPSY 407: Adult Learning and Development
- EPSY 408: Learning & Hum Dev w/ EdTech
- EPSY 430: Early Adolescent Development
- EPSY 485: Assessing Student Performance
- EPSY 490: Developments in Educ Psyc

**Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership**

Select one of the following:
- EOL 548: Poli & Cultural Context of Ed
- EPS 400: History of American Education
- EPS 401: History of Educational Ideas
- EPS 402: Asian American Education
- EPS 403: European Education to 1600
- EPS 404: European Education since 1600
- EPS 405: Historical & Social Barriers
- EPS 410: Philosophy of Education
- EPS 411: School and Society
- EPS 412: Critical Thinking for Teachers
- EPS 413: Aesthetic Education
- EPS 415: Technology & Educational Reform
- EPS 420: Sociology of Education
- EPS 421: Racial and Ethnic Families
- EPS 423: Politics of Education
- EPS 424: Economics of Education
- EPS 426: Comparative Education

500-Level Courses: 16
400/500-Level Courses: 16
Independent Study: 0-8

(Optional) Concentration Courses. May overlap with other general coursework requirements: 12-24

Total Hours: 32

For additional details and requirements refer to the department’s Web site, the College of Education Graduate Programs Handbook, and the Graduate College Handbook.

**African American Studies**

The graduate credit needed for this concentration fulfills general coursework requirements for the M.A. (p. 717) and Ph. D. (p. 719) degrees. The requirements for this concentration are determined by the Department of African American Studies (p. 616).

**Diversity & Equity in Education**

The graduate credit needed for this concentration fulfills general coursework requirements for the on-campus Ed. M. (p. 717), M.A. (p. 717), C.A.S. (p. 719), Ed. D. (p. 719) and Ph. D. (p. 719) degrees and the online (http://catalog.illinois.edu/graduate/graduate-majors/ed-pol-org-leadership/#onlinetext) Ed.M. and Ed.D. degrees.

Select eight hours from the following courses: 8
- EOL 568: Diversity, Leadership & Policy
- EPS 536: Race, Gender & Sexuality Issu
- SPED 514: Equity Issues in Spec Educatio

Select four hours from the following courses: 4
- EPS 405: Historical & Social Barriers
- EPS 415: Technology & Educational Reform
- EPS 529: Education and Human Rights
- EPS 530: Education and Globalization
- EPS 533: Global Youth & Citizenship
- EPS 580: Researching Global Education
- HRD 530: Organization Development

Total Hours: 12

**Educational Administration and Leadership**

Select twenty-four hours from the following courses: 24
- EOL 540: Intro to Educational Leadership
Global Studies in Education
The graduate credit needed for this concentration fulfills general coursework requirements for the on-campus Ed. M. (p. 717), M.A. (p. 717), C.A.S. (p. 719), Ed. D. (p. 719) and Ph. D. (p. 719) degrees and the online (http://catalog.illinois.edu/graduate/graduate-majors/ed-pol-org-leadership/#onlinetext) Ed.M. and Ed.D. degrees.

EPS 530 Education and Globalization 4
EPS 533 Global Youth & Citizenship 4
EPS 537 Globalizing Educational Policy 4
Total Hours 12

Higher Education
The graduate credit needed for this concentration fulfills general coursework requirements for the on-campus Ed. M. (p. 717), M.A. (p. 717), C.A.S. (p. 719), Ed. D. (p. 719) and Ph. D. (p. 719) degrees.

Select twenty-four hours from the following courses: 24
EOL 570 Organization of Higher Ed
EOL 571 Foundation of Higher Edu
EOL 572 The College Student
EOL 573 The Community College
EOL 580 Critical Issues in Higher Ed
EOL 583 Student Affairs Admin
EOL 585 College Teaching
EOL 589 Internship in Higher Ed
EOL 590 Advanced Seminar (Sections A, AA, CCL, CHE, DHE, HEF, HEL, PPH, HPM, AHE, LDR, MPR, OA, R1, or R2)

Learning Design and Leadership
The graduate credit needed for this concentration fulfills general coursework requirements for the on-campus Ed. M. (p. 717), M.A. (p. 717), C.A.S. (p. 719), Ed. D. (p. 719) and Ph. D. (p. 719) degrees and the online (http://catalog.illinois.edu/graduate/graduate-majors/ed-pol-org-leadership/#onlinetext) Ed.M. and Ed.D. degrees.

EPS 431 New Learning 4
HRD 472 Learning Technologies 4
HRD 585 Program Evaluation 4
or EPSY 474 Evaluating Learning Technology
Total Hours 12
Philosophy of Education
The graduate credit needed for this concentration fulfills general coursework requirements for the on-campus Ed. M. (p. 717), M.A. (p. 717), C.A.S. (p. 719), Ed. D. (p. 719) and Ph. D. (p. 719) degrees.

M.B.A. Joint Degree Program
Students in this unit may choose to earn their major degree and simultaneously complete an M.B.A., with 12 fewer required hours than when pursuing both degrees independently. Students must be enrolled in the M.B.A. program for three terms and complete all the requirements of their primary degree. Interested students should see the joint program requirements (https://mba.illinois.edu/academics/joint-degrees) and contact the M.B.A. program and their major department office for more information.

Educational Psychology
http://education.illinois.edu/edpsy

Chair: Dan Morrow
Director of Graduate Studies: Kiel Christianson
Graduate Admissions Information: Myranda Crist
210 Education Building
1310 South Sixth Street
Champaign, IL 61820-6990
Phone: (217) 333-2245
Email: gradservices@education.illinois.edu

Major: Educational Psychology
Degrees offered: Ed.M., M.S., M.A., C.A.S., Ph.D.
Graduate Concentration: African American Studies (http://www.afro.illinois.edu/education/gradconc) (available to all on-campus degrees), Second Language Acquisition and Teacher Education (http://www.slate.illinois.edu) (Ph.D. only)

Medical Scholars Program: Doctor of Philosophy (Ph.D.) in Educational Psychology and Doctor of Medicine (M.D.) through the Medical Scholars Program (http://www.med.illinois.edu/mdphd)

Graduate Degree Programs
The Department of Educational Psychology offers admission to doctoral programs in the following areas of specialization:

- Cognitive Science of Teaching and Learning (CSTL)
- Child Development
- Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES)
- Counseling Psychology

Students entering without a master's degree must first complete the requirements for a Master of Science (including a master's thesis).

The Department offers admission to a terminal on-campus Master of Science (M.S.) degree with a focus on Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES). There is no admission to terminal masters degrees in Cognitive Science of Teaching and Learning, Child Development, or Counseling Psychology areas of specialization.

Admission
The department accepts applications for the Ph.D. degree, from both applicants who have completed their bachelor’s degrees and those who have a master’s degree. Students who enter the program without a prior master’s incorporate their master’s class work and research into their doctoral program, and earn a master’s degree as the first step toward
their Ph.D. The department does not accept applications for master’s degrees in CSTL, Child Development or Counseling Psychology.

Applications

Doctoral applicants must submit a complete application for university admission, including three letters of reference, transcripts from all schools where undergraduate and graduate degrees were awarded or expect to be awarded prior to the application enrollment term, and other items listed in the department Web site (http://www.education.illinois.edu/edpsy). Applicants to our doctoral program apply for Fall enrollment. Current deadlines are posted on our department Web site (http://www.education.illinois.edu/edpsy).

Doctoral candidates are admitted into one of four divisions: CSTL, Child Development, QUERIES and Counseling Psychology. When making admission decisions, division committees consider academic performance (e.g., grade-point average, GPA), GRE scores, letters of recommendation, and statement of purpose. Preference is given to those with research experience and research interests that are aligned with existing research programs in the Department.

Master’s candidates are only admitted into QUERIES.

Grade Point Average

The preferred department standard for grade point average is 3.5 on a 4.0 scale. The University calculates undergraduate GPAs on the last two years of grades for degree candidates and in the last one year for students who have not yet completed their bachelor’s degree. Graduate GPAs are calculated on the total of all graduate level courses taken beyond the undergraduate degree.

Test of English as a Foreign Language (TOEFL)

International applicants must have demonstrated English language competence with TOEFL scores of greater than 610 (paper and pencil test), greater than 253 (computer-based test), or greater than 102 iBT. An IELTS score of greater than 6.5 overall, with at least 6 in each sub-section, can be substituted for the TOEFL score. Students who are accepted with lower scores will be required by the University to enroll on a limited status basis for at least their first semester.

Area of Study Affiliation

All applicants to the Educational Psychology doctoral program must specify one of four areas in which they wish to study:

• Cognitive Science of Teaching and Learning (CSTL)
• Counseling Psychology (Counseling);
• Child Development
• Studies in Interpretive, Statistical Measurement, and Evaluative Methodologies for Research (Queries)

Detailed information about each area and about the research interests of the faculty can be found on the department Web site (http://www.education.illinois.edu/edpsy).

Although all Ph.D. students are admitted to a specific area of study, the actual coursework, research, and faculty often overlap area boundaries. Departmental policy makes it possible for a student to change advisers and affiliation from one area to another when interests and research foci become more clearly defined or change. Many faculty members are affiliated with more than one area of study.

Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including Educational Psychology. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at www.med.illinois.edu/msp (http://www.med.illinois.edu/msp).

Faculty Research Interests

The faculty’s research agendas span a wide range of topics related to the study and application of psychological principles to develop and inform educational interventions and facilitate human development across the life span. Faculty conduct basic and translational research that explores the cognitive, life-span developmental, social-emotional, and socio-cultural factors that affect behavior, learning, and achievement in educational, clinical, and community contexts. They also engage in research on approaches to educational inquiry and the development of quantitative, qualitative and evaluative methodologies that underpin the development of evidence-based, policy-relevant studies. Faculty research profiles are available on the department Web site (http://www.education.illinois.edu/edpsy).

Center, Programs, and Institutes

Department faculty are affiliated with both research centers and institutes in the College of Education and the university more broadly, including the Adult Learning Lab, the Center for Education in Small Urban Communities, the Center for Advanced Study, the Beckman Institute, the Center for the Study of Reading, the Social Development Consortium, and others.

Facilities and Resources

The Department of Educational Psychology puts a high priority on working with its graduate students to secure fellowships and other awards.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at http://www.grad.illinois.edu/current-students.
Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college and campus. Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship. Campus opportunities can be found at the Graduate College (http://www.grad.illinois.edu/funding-jobs) and the Office of Student Financial Aid (http://www.osfa.illinois.edu).

The department does not require a separate financial aid application.
