CEE 469  Wood Structures  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/469)
Mechanical properties of wood, stress grades, and working stresses; effects of strength-reducing characteristics, moisture content, and duration of loading and causes of wood deterioration; glued-laminated timber and plywood; behavior and design of connections, beams, and beam-columns; design of buildings and bridges; other structural applications: trusses, rigid frames, arches, and pole-type buildings; prismatic plates and hyperbolic paraboloids. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CEE 460 or CEE 461.

CEE 470  Structural Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/470)
Direct stiffness method of structural analysis; fundamentals and algorithms; numerical analysis of plane trusses, grids and frames; virtual work and energy principles; finite element method for plane stress and plane strain. 4 undergraduate hours. 4 graduate hours. Credit is not given for both CEE 470 and ME 471. Prerequisite: CEE 360.

CEE 471  Structural Mechanics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/471)
Beams under lateral load and thrust; beams on elastic foundations; virtual work and energy principles; principles of solid mechanics, stress and strain in three dimensions; static stability theory; torsion; computational methods. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MATH 285 and TAM 251.

CEE 472  Structural Dynamics I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/472)
Analysis of the dynamic response of structures and structural components to transient loads and foundation excitation; single-degree-of-freedom and multi-degree-of-freedom systems; response spectrum concepts; simple inelastic structural systems; systems with distributed mass and flexibility. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CEE 360, MATH 285, and TAM 212.

<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>CEE 480</td>
<td>Foundation Engineering</td>
<td>3</td>
<td>Analysis and design of foundations, bearing capacity and settlement of foundations; stability of excavations and slopes; ground movements due to construction; analysis and design of excavations, retaining walls, slopes, and underground structures in soil and rock. 3 undergraduate hours. No graduate credit. Prerequisite: CEE 380.</td>
</tr>
<tr>
<td>CEE 483</td>
<td>Soil Mechanics and Behavior</td>
<td>4</td>
<td>Composition and structure of soil; water flow and hydraulic properties; stress in soil; compressibility behavior and properties of soils; consolidation and settlement analysis; shear strength of soils; compaction and unsaturated soils; experimental measurements. 4 undergraduate hours. 4 graduate hours. Prerequisite: CEE 483.</td>
</tr>
<tr>
<td>CEE 484</td>
<td>Applied Soil Mechanics</td>
<td>4</td>
<td>Application of soil mechanics to earth pressures and retaining walls; stability of slopes, foundations for structures, excavations; construction considerations; instrumentation. 4 undergraduate hours. 4 graduate hours. Prerequisite: CEE 483.</td>
</tr>
<tr>
<td>CEE 491</td>
<td>Decision and Risk Analysis</td>
<td>3 or 4</td>
<td>Development of modern statistical decision theory and risk analysis, and application of these concepts in civil engineering design and decision making; Bayesian statistical decision theory, decision tree, utility concepts, and multi-objective decision problems; modeling and analysis of uncertainties, practical risk evaluation, and formulation of risk-based design criteria, risk benefit trade-offs, and optimal decisions. 3 or 4 graduate hours. Prerequisite: CEE 202.</td>
</tr>
<tr>
<td>CEE 493</td>
<td>Sustainable Design Eng Tech</td>
<td>4</td>
<td>Quantitative sustainable design (QSD) and how to navigate engineering decision-making. Economic (life cycle costing, techno-economic assessment) and environmental (life cycle assessment, LCA) sustainability assessments, and how to link these tools to design decisions under uncertainty. Design of engineered technologies individually and in teams, with special attention to water infrastructure and bioenergy production. Semester-long design project that includes components from two of the following three CEE sub-disciplines: environmental, hydraulic, geotechnical. 4 undergraduate hours. 4 graduate hours. Prerequisite: CEE 340 or Graduate Standing.</td>
</tr>
<tr>
<td>CEE 495</td>
<td>Professional Practice</td>
<td>0</td>
<td>Series of lectures by outstanding authorities on the practice of civil engineering and its relations to economics, sociology, and other fields of human endeavor. 0 undergraduate hours. 0 graduate hours. Approved for S/U grading only.</td>
</tr>
<tr>
<td>CEE 497</td>
<td>Independent Study</td>
<td>1 to 16</td>
<td>Individual investigations or studies of any phase of civil engineering selected by the student and approved by the department. 1 to 4 undergraduate hours. 1 to 16 graduate hours. May be repeated. Prerequisite: Consent of instructor.</td>
</tr>
<tr>
<td>CEE 498</td>
<td>Special Topics</td>
<td>1 to 4</td>
<td>Subject offerings of new and developing areas of knowledge in civil and environmental engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.</td>
</tr>
<tr>
<td>CEE 501</td>
<td>Constr Mats Characterization</td>
<td>4</td>
<td>Laboratory methods such as thermal analysis, optical microscopy, scanning electron microscopy, and x-ray diffraction used to characterize civil engineering materials. Theoretical background, calculation methods, models, underlying assumptions, and operation of the instrument are examined for each method. Prerequisite: CEE 300; one of CEE 401, CEE 405, CEE 483.</td>
</tr>
<tr>
<td>CEE 502</td>
<td>Advanced Cement Chemistry</td>
<td>4</td>
<td>Advanced topics in chemistry of portland cement, chemistry and microstructure of cements, chemical reactions that lead to hardening, chemistry and microstructure of hydrated cements, effects of chemical and mineral admixtures, and chemical issues involved in the engineering behavior of the cements. Prerequisite: CEE 401.</td>
</tr>
<tr>
<td>CEE 503</td>
<td>Constr Mats Deterioration</td>
<td>4</td>
<td>Fundamental processes for deterioration mechanisms of infrastructure materials: corrosion of metals including thermodynamics, kinetics, passivity and rate measurements; degradation of cement-based materials including freezing and thawing, ASR, sulfate attack, fire attack and steel reinforcement corrosion; degradation of organic materials including photo-oxidation and ageing. A research literature review exercise related to material degradation. Prerequisite: CEE 401 or CEE 405.</td>
</tr>
<tr>
<td>CEE 504</td>
<td>Infrastructure NDE Methods</td>
<td>4</td>
<td>Fundamental bases and methodologies of non-destructive evaluation (NDE) techniques for infrastructure materials: methods for steel including ultrasound, radiography, eddy-current and magnetic-particles; methods for concrete including sounding, semi-destructive, ultrasound, seismic, impact-echo, impulse-response, ground-penetrating radar, infrared-thermography, and nuclear; planning and carrying out NDE structural investigations. Weekly laboratory sessions, a research paper, and an associated presentation related to NDE required. Prerequisite: CEE 401 or CEE 405.</td>
</tr>
<tr>
<td>CEE 506</td>
<td>Pavement Design II</td>
<td>4</td>
<td>Development of layered elastic and plate theory models for area analysis of pavement systems; performance prediction of flexible and rigid pavements; characterization of aircraft traffic; design of airfield pavement systems; construction material fatigue and failure criteria (strength theory and fracture mechanics); industrial floor and reinforced concrete slab design; climatic factors. Prerequisite: CEE 406.</td>
</tr>
</tbody>
</table>
CEE 507  Repair of Civil Infrastructure  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/507)
Science related to material decay and testing methodology of high quality civil infrastructure including transportation systems, structures, and underground sewers and pipelines. Methods for condition assessment and approaches for selecting compatible materials to be used in repair. Specific emphasis on material interfaces which impact the quality of adhesion, structural load transfer, sealing performance and durability relative to surface preparation. Case studies illustrating the application of sound engineering practice. Includes a field trip to Allerton Park and course project based on local infrastructure problems. 4 graduate hours. No professional credit. Prerequisite: CEE 401.

CEE 508  Pavement Evaluation and Rehab  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/508)
Concepts and procedures for condition survey assessment; pavement evaluation by nondestructive testing and data analysis (roughness, friction, structural capacity, internal flaws, and thickness measurements); destructive testing, maintenance strategies, rehabilitation techniques of pavement systems for highways and airfields, cost analysis, preservation techniques. Prerequisite: CEE 406.

CEE 509  Transportation Soils  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/509)
Occurrence and properties of surficial soils, soil classification systems, soil variability, subgrade evaluation procedures, repeated loading behavior of soils; soil compaction and field control; soil moisture, soil temperature, and frost action; soil trafficability and subgrade stability for transportation facility engineering. Prerequisite: CEE 483.

CEE 512  Logistics Systems Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/512)
Planning, design and operations of complex logistics systems: logistics costs; production, transportation and distribution systems; lot-sizing; traveling salesman problem (TSP) and vehicle routing problem (VRP); transshipments; facility location problem; supply chain management and inventory control; order instability; analytical methods and practical solution techniques. Prerequisite: CEE 310 and IE 310.

CEE 515  Traffic Flow Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/515)
Fundamentals of traffic flow, traffic flow characteristics, statistical distributions of traffic flow parameter, traffic stream models, car following models, continuum flow models, shock wave analysis, queueing analysis, traffic flow models for intersections, network flow models and control, traffic simulation. Prerequisite: CEE 416 and knowledge of probability and statistics.

CEE 517  Traffic Signal Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/517)
Theory and application of concepts in traffic signal systems control, signal timing design, signal cabinet components, signal controllers, traffic signal theory and control, vehicle detection technologies, communication methods, interconnected rail-highway crossing signals, signal coordination, and signal systems network. Field trips to observe or utilize equipment in the Traffic Operations Lab (TOL) in ATREL or similar facilities. Prerequisite: CEE 416.

CEE 524  Construction Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/524)
Legal aspects of the construction process and the potential liability that engineers can incur through the design, and post-construction processes. Organization and operation of the American court system, contact formation, defenses, remedies, and typical areas of dispute, and design services contracts, torts, product liability, agency, business organizations, intellectual property, and risk management. Mock trial of a recent construction-related case with the class serving as plaintiffs and defendants. Prerequisite: CEE 420, CEE 421, and CEE 422.

CEE 525  Construction Case Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/525)
Case studies of bridges, tunnels, buildings, transportation systems, heavy industrial construction, waterways, and marine structures in the context of construction engineering and management. Research, a team-oriented term project, presentations, and discussions in studio-style format. Prerequisite: Two of CEE 420, CEE 421, and CEE 422.

CEE 526  Construction Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/526)
Optimizing construction project decisions during the planning and construction phases including the optimization of bid decisions; contractor and material supplier selection; site layout planning; tradeoffs among construction time, cost and quality; repetitive construction scheduling; resource allocation and leveling; and building sustainability. 4 graduate hours. No professional credit. Prerequisite: One of CEE 420, CEE 421 or CEE 422.

CEE 527  Constr Conflict Resolution  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/527)
Basic theories and applications of dispute avoidance and resolution techniques in the construction industry. Mechanisms to promote collaborative environments and resolve disputes in construction projects; the different steps in the Dispute Resolution Ladder and the main features of a conflict management plan; case studies of practical applications of disputes avoidance and resolution techniques in the construction industry throughout the world. Prerequisite: One of CEE 420, CEE 421, CEE 422.

CEE 528  Construction Data Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/528)
State-of-the-art research and literature in the construction data modeling domain. Fundamental techniques of construction data modeling; existing construction data representation approaches and specifications for the architecture, engineering, and construction domain; building information models; capabilities and limitation of data process models and representation approaches and techniques. Prerequisite: Two of CEE 420, CEE 421, CEE 422.

CEE 534  Surface Water Quality Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/534)
CEE 535 Environmental Systems II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/535)
Fundamental concepts of uncertainty, risk, and reliability applied to environmental and water resources decision making. Chance constraints, Markov and Monte Carlo modeling, geostatistics, unconditional and conditional simulation, genetic algorithms, neural networks, simulated annealing, and a review of relevant portions of basic probability and statistical theory. Many techniques are applied to a real-world environmental decision making problem initially developed in CEE 434. Prerequisite: CEE 202 and CEE 434.

CEE 537 Water Quality Control Proc I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/537)
Theory and basic design of processes used in water and wastewater treatment, including adsorption, ion exchange, chemical oxidation and reduction, disinfection, sedimentation, filtration, coagulation, flocculation, and chemical precipitation. Prerequisite: Credit or concurrent registration in CEE 442 and CEE 443.

CEE 538 Water Quality Control Proc II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/538)
Theory and its application for design and operation of processes used in water and wastewater treatment; emphasis is on biological treatment processes and related processes for gas transfer, sludge dewatering, sludge disposal, and solids separations. Prerequisite: CEE 442 and CEE 443; credit or concurrent registration in CEE 444.

CEE 540 Remediation Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/540)
Evaluation and design of alternative treatment processes for hazardous waste sites contaminated with organic or metal wastes. Group design project due at the end of the term. Prerequisite: CEE 440.

CEE 543 Env Organic Chemistry credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/543)
Molecular-scale processes that control the fate of organic contaminants in natural environments and engineered treatment systems, including partitioning between environmental phases (water, air, organic, and biological phases), sorption onto solids (soils, sediments, aerosol particles), and transformation reactions (chemical, photochemical, and biochemical). Emphasis on quantitative approaches for predicting contaminant fate using thermodynamic principles and molecular property descriptors. Prerequisite: CEE 443 or NRES 490.

CEE 544 Advanced Surface Science credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/544)
The overall goal of this course is to provide an in-depth knowledge of surface science principles. The specific goals are to elaborate the classical theories, to identify their limitations from a fundamental level, and to provide the state-of-the-art extensions of classical theories, and alternative approaches based on recent literature. The course also seeks to provide students with state-of-the-art experimental approaches, and to provide a link between surface science and the student's research project or other interests, which is pursued through literature discussion in presentations and term paper. 4 graduate hours. No professional credit. Prerequisite: CEE 442.

CEE 545 Aerosol Sampling and Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/545)
Principles of sampling for particles and gases in the field of air pollution; instrumental techniques relevant to the design of sampling systems used in process control, ambient air monitoring, and laboratory experiments; methods of sample analysis and their limitations. Same as ATMS 535. Prerequisite: CEE 446 and MATH 285.

CEE 546 Air Quality Control credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/546)
Application of principles describing the generation, separation, and removal of air contaminants from gas streams generated by stationary sources. Typically includes local field trips to observe applications of the air quality control devices. Prerequisite: CEE 442 and CEE 446.

CEE 548 Scientific Writing in CEE credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CEE/548)
Advanced writing course covering topics specific to scientific writing, with emphasis on proposals, manuscripts, and peer review. Prerequisite: CEE 444, CEE 599.

CEE 550 Hydroclimatology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/550)
Application of deterministic and probabilistic concepts to simulate and analyze hydrologic systems; discussion of the theory and application of linear and nonlinear, lumped, and distributed systems techniques in modeling the various phases of the hydrologic cycle. Prerequisite: CEE 450.

CEE 551 Open-Channel Hydraulics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/551)
Advanced hydraulics of free surface flow in rivers and open channels; discussion of theory, analytical and numerical solution techniques, and their applications to gradually and rapidly varied nonuniform flows, unsteady flow, and flow in open-channel networks. Prerequisite: CEE 451.

CEE 552 River Basin Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/552)
Multidisciplinary knowledge (hydrology, economics, systems engineering, etc.) and methodological skills (optimization, simulation, etc.) for river basin management. River basin characterization-natural and social features; water availability assessment based on hydrology, infrastructure, and policy; environmental flow requirements; water demand management and microeconomics theory; integrated river basin management modeling. Prerequisite: CEE 350 and CEE 434.

CEE 553 River Morphodynamics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/553)
River morphology and characteristics of river sediment. Response of alluvial and bedrock rivers to changes in sediment supply, hydrology, and tectonics. Numerical modeling of river morphodynamics in gravel and sand bed rivers and deltas. Same as GEOL 573. Prerequisite: TAM 335.

CEE 554 Hydrologic Variability credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/554)
Advanced quantitative treatment of catchment hydrology, focusing on analysis of observed hydrologic and hydroclimatic variability, and their interpretation in terms of the underlying processes. Concepts of heterogeneity and variability, scale and scaling, process change and process interactions will be emphasized. Theoretical foundations of hydrologic applications, such as flood estimation, water balance analyses, hydrologic modeling and associated scale problems will be discussed in sufficient detail to prepare students to undertake advanced research and professional practice. Prerequisite: CEE 450.

CEE 555 Mixing in Environmental Flows credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/555)
Physical processes involved in transport of pollutants by water; turbulent diffusion and longitudinal dispersion in rivers, pipes, lakes, and the ocean; diffusion in turbulent jets, buoyant jets, and plumes. Prerequisite: MATH 285 and TAM 335.
CEE 557 Groundwater Modeling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/557)
Theory and application of numerical methods, finite differences and finite element, for solving the equations of groundwater flow and solute transport; transport of chemically reacting solutes; model calibration and verification. Prerequisite: CEE 457 and MATH 285.

CEE 559 Sediment Transport credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/559)
Physical processes of transportation and deposition of sediment particles in liquid bodies with particular emphasis on fluvial sediment problems; sediment in desilting basins; reservoirs and delta formation; erosion; stable channel design; river morphology. Prerequisite: CEE 551.

CEE 560 Steel Structures III credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/560)
Theories of ultimate behavior of metal structural members with emphasis on buckling and stability of members and frames; theory of torsion applied to beam torsion, lateral-torsional buckling, curved beams with emphasis on design criteria; post-buckling strength of plates and post-buckling versus column behavior. Prerequisite: CEE 462.

CEE 561 Reinforced Concrete II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/561)
Behavior of reinforced concrete members, including the relationships between behavior and building code requirements. Prerequisite: CEE 463.

CEE 562 Highway Bridge Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/562)
This course introduces current practices in highway bridge design. It provides students with the background to understand the American Association of State Highway and Transportation Officials (AASHTO) code. The course covers topics related the behavior, analysis, and design of bridge superstructure and substructure systems under various bridge loads. The course specifically addresses highway bridge types constructed using reinforced concrete, prestressed concrete, and steel. In addition, the course gets the students familiar with state-of-art methodologies adopted for bridge seismic retrofitting. 4 graduate hours. No professional credit. This class will meet twice a week for 80 minutes per class. Prerequisite: CEE 460, CEE 461, CEE 472.

CEE 570 Finite Element Methods credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/570)
Theory and application of the finite element method; stiffness matrices for triangular, quadrilateral, and isoparametric elements; two- and three-dimensional elements; algorithms necessary for the assembly and solution; direct stress and plate bending problems for static, nonlinear buckling and dynamic load conditions; displacement, hybrid, and mixed models together with their origin in variational methods. Same as CEE 551. Prerequisite: CEE 471 or TAM 551.

CEE 571 Computational Plates & Shells credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/571)
Classical and first-order shear deformable plate and shell models: assumptions, applicability, valid boundary conditions, analytical solutions; finite element methods for plates and shells: convergence, instabilities, shear and membrane locking, mixed methods for plates and shells; implementation and verification of finite elements for plates and shells; buckling of plates and shells; boundary layer effects; introduction to high order hierarchical plates and shell models and to isogeometric analysis of shells. Same as CEE 554. 4 graduate hours. No professional credit. Prerequisite: CEE 471 or TAM 551. Credit or current registration in CEE 570 Finite Element Methods or ME 471 Finite Element Analysis.

CEE 572 Earthquake Engineering credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/572)
Source mechanisms, stress waves, and site response of earthquake shaking; effect on the built environment; nature of earthquake actions on structures; fundamental structural response characteristics of stiffness, strength, and ductility; representation of the earthquake input in static and dynamic structural analysis; modeling of steel and concrete structures under earthquake effects; outputs for safety assessment; comprehensive source-to-design actions project. Prerequisite: CEE 472.

CEE 573 Structural Dynamics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/573)
Advanced concepts in structural dynamics and fundamentals of experimental structural dynamics. Modern system theory: data acquisition and analysis; digital signal processing; experimental model analysis theory and implementation; random vibration concepts; system identification; structural health monitoring and damage detection; pseudo-dynamic testing and model-based simulation; smart structures technology (e.g., smart sensors; passive, active, and semi-active control). Prerequisite: CEE 472.

CEE 574 Probabilistic Loads and Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/574)
Application of probabilistic methods in describing and defining loads on structures with emphasis on the random fluctuation in time and space. Random vibration methods and applications to dynamic response of structures under wind and earthquake loads. Computer simulation of structural loads and responses. Probability-based safety criteria and review of current methods of selection of design loads and load combinations. Prerequisite: CEE 202 and CEE 472.

CEE 575 Fracture and Fatigue credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/575)
Fatigue and fracture behavior of metallic structures and connections; fatigue and fracture mechanics theory; generation and use of laboratory data; background and application of international testing and assessment standards. Same as AE 521. Prerequisite: One of CEE 471, TAM 451, TAM 551.

CEE 576 Nonlinear Finite Elements credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/576)
Nonlinear formulations in solid mechanics and nonlinear equation solving strategies; finite deformation (hyperelasticity) elastostatics and elastodynamics, semi-discrete weighted residual formulations, implicit and explicit time-stepping algorithms and stability analysis; theory of mixed finite element methods, strain-projection methods, and stabilized methods; mixed methods for nonlinear coupled-field problems. Same as CSE 552. Prerequisite: CEE 471 or TAM 445; CEE 470 or ME 471.

CEE 577 Computational Inelasticity credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/577)
Theoretical foundations of inelasticity and advanced nonlinear material modeling techniques; constitutive models for inelastic response of metals, polymers, granular materials, biomaterials. Phenomenological models of viscoelasticity, viscoplasticity, elastoplasticity, porous plasticity and cyclic plasticity. Small-strain and finite-strain numerical implementation and code development. Same as CEE 553. Prerequisite: CEE 471 or TAM 551; CEE 570 or ME 471.

CEE 580 Excavation and Support Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/580)
Classical and modern earth pressure theories and their experimental justification; pressures and bases for design of retaining walls, bracing of open cuts, anchored bulkheads, cofferdams, tunnels, and culverts. Prerequisite: Credit or concurrent registration in CEE 484.
CEE 581 Dams, Embankments, and Slopes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/581)
Fundamentals of static and seismic slope stability and shear strength; seepage in composite sections and anisotropic materials; methods of stability analyses; mechanism of failure of natural and man-made slopes; compaction; field observations. 4 graduate hours. No professional credit. Prerequisite: CEE 483 - Applied Soil Mechanics.

CEE 582 Consolidation of Clays  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/582)
Elastic solutions relevant to soil mechanics; permeability; general application of Terzaghi's theory of one-dimensional consolidation; advances in consolidation theories; mechanism of volume change; delayed and secondary compressibility and creep; theory of three-dimensional consolidation and solutions; radial flow and design of sand drains; analysis and control of settlement. Prerequisite: CEE 483.

CEE 583 Shear Strength of Soils  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/583)
Physico-chemical properties of soils; fabric and structure of soil; mechanism of shearing resistance; residual shear strength of overconsolidated clays and clay shales; long-term shear strength of overconsolidated clays; Hvorslev shear strength parameters; undrained shear strength of clays. Prerequisite: CEE 483.

CEE 585 Deep Foundations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/585)
Ultimate capacities and load-deflection of piles and drilled shafts subjected to compressive loads, tensile loads, and lateral loads; effects of duration of load, soil-structure interaction; two- and three-dimensional analysis of pile groups with closely-spaced piles; effects of installation; inspection of deep foundations and full-scale field tests. Prerequisite: CEE 484.

CEE 586 Rock Mechanics and Behavior  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/586)
Rock classification, stress and strain, elastic and inelastic deformation, failure criteria, rock-fluid interaction, poroelasticity, fluid flow in rock, thermal effect on rock deformation, geo-energy applications. 4 graduate hours. No professional credit. Prerequisite: CEE 483 and TAM 451.

CEE 587 Applied Rock Mechanics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/587)
Application of rock mechanics to engineering problems; shear strength of rock masses; dynamic and static stability of rock slopes; deformability of rock masses; design of pressure tunnel linings and dam foundations; controlled blasting and blasting vibrations; tunnel support; machine tunneling; design and construction of large underground openings; field instrumentation. Prerequisite: CEE 586.

CEE 588 Geotechnical Earthquake Engrg  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/588)
Seismic hazard analysis, cyclic response of soils and rock; wave propagation through soil and local site effects; liquefaction and post liquefaction behavior, seismic soil-structure of foundations and underground structures, seismic design of retaining walls, underground structures and tunnels. Construction and machine vibrations. Blasting. Prerequisite: CEE 472 and CEE 483.

CEE 589 Computational Geomechanics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/589)

CEE 590 Geotechnical Field Measurement  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/590)
Discussion of observational method in geotechnical engineering. Historical, theoretical, experimental, and empirical development of in-situ tests and instrumentation in geotechnical engineering. Practical applications and limitation of field testing devices and instruments. Interpretation of test results and measurements for geotechnical site characterization. Discussion of data acquisition systems and data management. Introduction of emerging technologies in field testing and instrumentation. Prerequisite: CEE 483 and CEE 484.

CEE 592 Sustainable Urban Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/592)
Fundamental concepts of sustainability and resilience in urban systems, including the complex interactions among human, engineered, and natural systems. Project-based format, focusing on real-world problems solicited from government agencies, industry, and non-governmental organizations in one or more partnering cities. Students work in multidisciplinary teams with faculty advisors from multiple departments and colleges. Same as NRES 592 and UP 576. Prerequisite: One of ATMS 421, CEE 491, NRES 439, UP 456, UP 480, or equivalent course related to sustainable urban systems; and one of NRES 454, UP 418, GEOG 480, or equivalent course related to geographic information systems (GIS).

CEE 595 Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/CEE/595)
Discussion of current topics in civil and environmental engineering and related fields by staff, students, and visiting lecturers. Approved for S/U grading only. May be repeated.

CEE 597 Independent Study  credit: 1 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CEE/597)
Individual investigations or studies of any phase of civil engineering selected by the student and approved by the adviser and the staff member who will supervise the investigation. May be repeated. Prerequisite: Consent of instructor.

CEE 598 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CEE/598)
Subject offerings of new and developing areas of knowledge in civil and environmental engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

CEE 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CEE/599)
Approved for S/U grading only. May be repeated.

Classical Civilization (CLCV)
CLCV Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CLCV)

Courses
CLCV 100 Vocab Building-GRK & LAT Roots  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/100)
Vocabulary building assistance for students through an analysis of Greek and Latin roots, prefixes, and suffixes found in English.
CLCV 102 Medical Terms-GRK & LAT Roots credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/102)
Introduction to the study of the Greek and Latin roots of contemporary medical terminology and to the linguistic patterns governing their combination and usage.

CLCV 111 Mythology of Greece and Rome credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/111)
Study of the major myths of Greece and Rome and their impact upon later art, music, and literature. Credit is not given for both CLCV 111 and CLCV 115.

CLCV 114 Introduction to Greek Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/114)
Studies the social and cultural life in Greece during the classical period. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CLCV 115 Mythology of Greece and Rome credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/115)
Studies the major myths of Greece and Rome and their impact upon later art, music, and literature. Shares two hours of lecture with CLCV 111; additional hour of lecture-discussion for a closer analysis of topics. Credit is not given for both CLCV 115 and CLCV 111.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CLCV 116 The Roman Achievement credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/116)
Introduces Roman civilization through the study of the social and cultural life of ancient Rome.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CLCV 120 The Classical Tradition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/120)
Survey of the Greco-Roman tradition from late antiquity to the present. Examination of pagan culture in medieval Christianity and Islam, the literary tradition of the Troy tale, the rediscovery of Greek texts and the Florentine Renaissance, classical allusions in Shakespeare and Milton, the political foundation of the U.S. constitution, and the persistence of the classical tradition in contemporary American popular culture.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CLCV 131 Classical Archaeology, Greece credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/131)
Introduction to the archaeology of ancient Greece and the Aegean world.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CLCV 132 Class Archaeology, Rome-Italy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/132)
Introduction to the archaeology of Italy and Rome to the fall of the Roman Empire.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CLCV 160 Ancient Greek & Roman Religion credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/160)
Study of Greek and Roman Paganism and the rise of Christianity within that context. Readings are confined to ancient sources in English translation. Same as REL 160.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CLCV 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/199)
Approved for both letter and S/U grading. May be repeated.

CLCV 203 Ancient Philosophy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/203)
Same as PHIL 203. See PHIL 203.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

CLCV 206 Classical Allusions in Cinema credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/206)
Examination of hundreds of contemporary films containing allusions to Greco-Roman antiquity. From the Matrix to Napoleon Dynamite, today's films often mention an ancient character, story or art object. These motifs are conscious and often essential to the theme of the film. We examine this interesting phenomenon by discussing film segments in class, reading about the history of the classical tradition in popular culture, and finally, forming into groups and examining specific types of films. Same as CWL 206. Prerequisite: CLCV 111 or CLCV 115 or consent of instructor.

CLCV 217 Greek Art credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/217)
Same as ARTH 215. See ARTH 215.

CLCV 220 Origins of Western Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/220)
Origins and development of selected major genres in Western literature, emphasizing the relationship between classical representatives and their modern successors. Same as CWL 220. May be repeated as topic varies.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CLCV 221 The Heroic Tradition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/221)
Study of ancient epics and their relation to the social consciousness of their period; introductory and background lectures; and readings in the epic tradition of antiquity and its successors. Same as CWL 263. Prerequisite: Sophomore standing or consent of instructor.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CLCV 222 The Tragic Spirit credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CLCV/222)
Readings in the tragic drama of Greece and Rome; a systematic study of the contents and development of this classical literary/dramatic genre. Same as CWL 264 and THEA 210. Prerequisite: Sophomore standing or consent of instructor.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
CLCV 223  Myth, History, Fiction, Tradition  credit: 3 Hours.  
A unique examination of several legendary figures from Greco-Roman antiquity. Employing the disciplines of mythology, historiography, and the study of popular culture, the student develops a synchronic, multi-millennial understanding of such men and women as Achilles, Medea, Alexander the Great, and Cleopatra by studying primary ancient, medieval, Renaissance, and modern sources from such diverse perspectives as those of epic, lyric, and dramatic poetry, scientific and romantic biography, political propaganda, painting, popular fiction, and documentary television, as well as feature film. This course satisfies the General Education Criteria for: Cultural Studies - Western  

CLCV 224  American Race and Ethnicity in the Classical Tradition  credit: 3 Hours.  
Survey of American minority cultures and the reception of Greco-Roman culture in literature, film, and politics, with brief units of historical concentration on ancient slavery and proto-racism, Harvard's Indian College, early African-American poets, novelists, educators, and classicists, the Greco-Roman heritage of the Ku Klux Klan, and Civil Rights Movement leaders like Martin Luther King, Jr., Huey P. Newton, and Eldridge Cleaver. Other highlights include Derek Walcott's Caribbean/Homer's Iliad, Erin Gruwell's mixed-race Freedom Writers, and Spike Lee's Chi-Raq. This course satisfies the General Education Criteria for: Humanities - Lit Arts  

CLCV 225  Greco-Roman Demo, Econ, Cult  credit: 3 Hours.  
Greco-Roman Democracies, Economic Policies, and Cultures: Examines the ancient city-states of Athens and Rome; the creation, development and demise of their democratic governments, the relationship between their democracies and militarized empires as well as their economics and fiscal policies; and how these influenced or were represented by their cultural products - including literature, architecture, sculpture, and coinage. Examines the influence of Greco-Roman culture and political institutions on late-medieval and neo-Roman Renaissance city-states, as well as on the foundation of the United States. This course satisfies the General Education Criteria for: Humanities - Hist Phil  

CLCV 231  Development of Ancient Cities  credit: 3 Hours.  
Monuments and archaeological remains illustrating the development of the Greek and Roman city (polis). Same as ARTH 217. Prerequisite: Sophomore standing or consent of instructor. This course satisfies the General Education Criteria for: Humanities - Hist Phil  

CLCV 232  Ancient Greek Sanctuaries  credit: 3 Hours.  
Survey of the archaeological remains of ancient Greek sanctuaries and their importance to ancient society and religion. Same as ARTH 218, and REL 232. Prerequisite: Sophomore standing or consent of instructor.  

CLCV 240  Sex & Gender in Antiquity  credit: 3 Hours.  
Understanding of the place of women in ancient societies can be gained through the examination of the ways in which the ancients conceptualized sex and gender. The myths, religion, art and literature of Egypt, Greece, Rome and the Near East contain a wide array of representations of men and women, as well as their social, legal and political status and relations. Same as CWL 262 and GWS 240. This course satisfies the General Education Criteria for: Humanities - Lit Arts  

CLCV 291  Freshman Honors Tutorial  credit: 1 to 3 Hours.  
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.  

CLCV 323  The Comic Imagination  credit: 3 Hours.  
Study of Greek and Roman comedies in their historical context, with attention to formal elements, stylistic features, aspects of performance and central themes and ideas. Same as CWL 322 and THEA 323. Prerequisite: Sophomore standing or consent of the instructor. This course satisfies the General Education Criteria for: Advanced Composition  

CLCV 410  Ancient Egyptian & Greek Arch  credit: 3 Hours.  
Same as ARCH 410. See ARCH 410.  

CLCV 411  Ancient Roman Architecture  credit: 3 Hours.  
Same as ARCH 411. See ARCH 411.  

CLCV 415  Classical Rhetorics  credit: 3 or 4 Hours.  
Same as CMN 415 and MDVL 415. See CMN 415.  

CLCV 430  History of Translation  credit: 3 or 4 Hours.  
Same as CWL 430, ENGL 486, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.  

CLCV 440  Roman Republic to 44 B.C  credit: 3 or 4 Hours.  
Same as HIST 440. See HIST 440.  

CLCV 443  The Archaeology of Greece  credit: 3 Hours.  
Monuments, material remains, and sculpture and other arts illustrating the development of Greek civilization to 323 B.C. Same as ARTH 415. 3 undergraduate hours. 3 graduate hours. Prerequisite: A course in ancient history, art, or language, or consent of instructor.  

CLCV 444  The Archaeology of Italy  credit: 3 Hours.  
Monuments, material remains, and sculpture and other arts illustrating the development of Greco-Roman and other ancient Italian civilizations to 330 A.D. Same as ARTH 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: A course in ancient history, art, or language, or consent of instructor.
Clinical Sciences and Engineering (CLE)

CLE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CLE)

Courses

CLE 611 Clinical Integration I credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/CLE/611)
This course examines and exposes to the fundamentals of clinical work including office support with basic history, vitals, understanding the team, communicating with patients, observing health care roles and processes. No graduate credit. 6 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 612 Clinical Integration II credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/CLE/612)
This course examines and exposes to the fundamentals of clinical work including office support with basic history, vitals, understanding the team, communicating with patients, observing health care roles and processes. No graduate credit. 6 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 621 Physical Diagnosis I credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/CLE/621)
This course addresses concepts of history and physical assessment, includes H&P, preoperative assessment, routine physicals. No graduate credit. 6 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 622 Physical Diagnosis II credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/CLE/622)
This course addresses concepts of history and physical assessment, includes H&P, preoperative assessment, routine physicals. No graduate credit. 6 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

Committee on Inst Cooperation (CIC)

CIC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CIC)

Courses

CIC 390 CIC Intercampus Reg credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/CIC/390)
CIC 500 CIC Traveling Scholar credit: 0 to 20 Hours. (https://courses.illinois.edu/schedule/terms/CIC/500)
For students participating in the Traveling Scholar Program. 0 to 20 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated.

Communication (CMN)

CMN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/CMN)

Courses

CMN 101 Public Speaking credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/101)
Preparation and presentation of short informative and persuasive speeches; emphasis on the selection and organization of material, methods of securing interest and attention, and the elements of delivery. Credit is not given for both CMN 101 and either CMN 111 or CMN 112.
CMN 102  Intro to Comm Theory & Res  credit: 4 Hours.  
Survey of the questions probed, the methods employed, and the current 
status of knowledge in the study of communication. 
This course satisfies the General Education Criteria for: 
Social Beh Sci - Beh Sci

CMN 111  Oral & Written Comm I  credit: 3 Hours.  
Principles and practice in communication; stress on fundamentals of 
critical thinking in writing and speaking. The campus Composition I 
general education requirement is fulfilled by this course in conjunction 
with CMN 112. Credit is not given for both CMN 111 + CMN 112, and 
other courses that fulfill the Composition I requirement (such as 
RHET 101+RHET 102, RHET 105; ESL 115); Credit is also not given for 
both CMN 111+ CMN 112, and CMN 101. CMN 111+ CMN 112 cannot 
be taken by students who have completed the campus Composition I 
general education requirement. 
This course satisfies the General Education Criteria for: 
Composition I

CMN 112  Oral & Written Comm II  credit: 3 Hours.  
Continuation of Oral & Written Comm I; stress on deliberation and 
dependencies of communication and public argument through speaking 
and writing. The campus Composition I general education requirement 
is fulfilled by this course in conjunction with CMN 111. Credit is not 
given for both CMN 111+CMN 112 and other courses that fulfill the 
Composition I requirement (such as RHET 101+ RHET 102; RHET 105; 
ESL 115); Credit is also not given for both CMN 111+ CMN 112 and 
CMN 101. CMN 111+ CMN 112 may not be taken by students who have 
completed the campus Composition I general education requirement. 
Prerequisite: CMN 111. 
This course satisfies the General Education Criteria for: 
Composition I

CMN 191  Freshman Honors Tutorial  credit: 1 to 3 Hours.  
Study of selected topics on an individually arranged basis. Open only 
to Chancellors Scholars, Cohn Scholars and James Scholars. May be 
repeated one time. Prerequisite: Consent of departmental honors advisor.

CMN 199  Undergraduate Open Seminar  credit: 0 to 5 Hours.  
May be repeated to a maximum of 6 hours.

CMN 204  Internship in Teaching Comm  credit: 3 Hours.  
Supervised experience in assisting in the teaching of an undergraduate 
course in communication; practice in preparing and presenting brief 
lectures, conducting activities within class, and assisting students 
outside of class. Prerequisite: Junior standing, cumulative 3.0 grade-
point average, 3.5 grade-point average in Communication coursework, 
recommendation from an instructor, and approval by application.

CMN 210  Public Comm in Everyday Life  credit: 3 Hours.  
Introduces concepts useful for the critical analysis of public 
communication in everyday life. Drawing on communication theory 
and practice, especially theories of rhetoric, the course investigates 
techniques of persuasion, offers tools for critical analysis of public 
discourse, and considers the political and ethical implications of various 
forms of public communication. 
This course satisfies the General Education Criteria for: 
Humanities - Hist Phil 
Cultural Studies - Western

CMN 211  Business Communication  credit: 3 Hours.  
Focus on relevant theory and research on communication strategies and 
skills vital to diverse business contexts. Topics include personal branding 
and self-marketing; job interviewing basics; business ethics; business 
writing; networking; professional etiquette and behaviors; and business 
presentations. Activities include presentations, written assignments, and 
practice interviews. Prerequisite: CMN 101.

CMN 212  Intro to Organizational Comm  credit: 3 Hours.  
Considers major theories, research questions, and approaches to 
organizational communication.

CMN 213  Small Group Communication  credit: 3 Hours.  
Considers major theories, processes, and practical measures contributing 
to effective communication in small group and team contexts. Credit is 
not given for CMN 113 and CMN 213.

CMN 215  Interviewing Principles & Practices  credit: 3 Hours.  
Provides a survey of communication-based interviewing theories and 
practices. Students will learn theoretical and practical principles related 
to major types of interviews, the ethics and legalities of interviewing, and 
apply this knowledge through repeated practice, as both an interviewer 
and interviewee, leading to competency in employment, informational, 
and persuasive scenarios. Credit is not given for both CMN 115 and 
CMN 215. Prerequisite: CMN 101 or CMN 111 and CMN 112.

CMN 220  Communicating Public Policy  credit: 3 Hours.  
Study of the nature of policy-oriented communication; analysis and 
formulation of positions on issues of professional, personal, or public 
interest; design and presentation of public policy messages addressed 
to varying tasks and audiences, with special emphasis on advanced 
writing skills. Prerequisite: Completion of campus Composition I general 
education requirement. 
This course satisfies the General Education Criteria for: 
Advanced Composition

CMN 230  Intro to Interpersonal Comm  credit: 3 Hours.  
Study of communication theory and its application to interpersonal 
relationships; extensive discussion of problems of conflict and 
misunderstanding in personal affairs to facilitate the development of 
knowledge, insights, and skills in the processes of face-to-face 
interaction. 
This course satisfies the General Education Criteria for: 
Social Beh Sci - Soc Sci
CMN 231 Communication and Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/231)
Examines how people experience and manage conflict in both private and public settings. Units focus on conflict in interpersonal, small group, and organizational contexts.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

CMN 232 Intro to Intercultural Comm  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/232)
Introduction to the study of intercultural communication in a variety of contexts, including domestic and international; examines theory and research to explain what happens when people from different cultural and linguistic backgrounds interact. Requires students to think critically about the ways in which "taken-for-granted" ways of thinking, acting, and interacting are culturally specific.
This course satisfies the General Education Criteria for:
Cultural Studies - Western

CMN 250 Social Movement Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/250)
Examines the communication strategies of social movements, concentrating on the types of messages that social movements create (including rhetorical messaging, social protest, grassroots organizing, fundraising, and media outreach). Focuses on the communication of major 19th, 20th, and 21st century social protest movements, including movements for civil rights, environmentalism, women's rights, and others. Emphasizes the functions of communication for identity formation, promulgation, and social change. Provides knowledge and tools for the analysis and production of messages.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CMN 260 Intro to Health Communication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/260)
Introduces theory and research on communication in health and illness contexts. Explores how messages from media, interpersonal, and organizational sources affect health beliefs and behaviors.
This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci
Cultural Studies - Western

CMN 275 Media, Money and Power  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/275)
Describes the political economy of the media in the U.S. Acquaints students with a core understanding of how the media system operates, and with what effects, in a capitalist society. Examines the role of advertising, public relations, corporate concentration, and government regulation upon news reporting, entertainment, culture, and participatory democracy. Also examines issues related to the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CMN 277 Introduction to Mediated Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/277)
Survey of the history, structure, forms, and social effects of the American mass media, with significant focus on study of how media shape perceptions of people of color and other stigmatized groups.
This course satisfies the General Education Criteria for:
Social Beh Sci - US Minority
Examines the uses, functions, and effects of communication technologies in personal relationships (e.g., friendships, dating relationships, families). Emphasis on contemporary and emerging modes of communication with some consideration of historical and enduring modes of interaction.

**CMN 340 Visual Politics credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/340)
Explores the role of visual images in U.S. culture, paying special attention to the ways that images function persuasively as political communication. Provides tools for analyzing historical and contemporary images and artifacts, such as photographs, prints, paintings, advertisements, and memorials. Emphasis on how visual images are used for remembering and memorializing; confronting and resisting; consuming and commodifying; governing and authorizing; and visualizing and informing.

**CMN 345 Visual Media Effects credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/345)
Provides an introduction to visual media effects in communication, and is intended for students with little or no experience with visual aspects of communication. Focuses on social scientific approaches to understanding visual media effects and theories of visual communication.

**CMN 354 Freedom of Speech credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/354)
Examination of the nature and variety of responses to value questions concerning communication, includes a survey of the evolution of and current controversies in freedom of speech.

**CMN 357 Intro to Conversation Analysis credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/357)
Same as LING 357. See LING 357.

**CMN 361 Storytelling as Oral Communication credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/361)
Explores the role of traditional oral narrative in contemporary social life. Examines some major genres: folktales, family stories, personal growth narratives, professional autobiographical presentations, TED talks. Each of these genres will be examined in terms of content, context in a larger community of discourse, and performance demands. In addition, students will create and perform their own stories representing these genres.

**CMN 362 Folklore as Communication credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/362)
Study of unofficial, noncommercial and face-to-face modes of communication, called "folklore" or "vernacular culture." For purposes of this course, "folklore" includes speech, stories, legends, sayings, proverbs, customs, rituals and performances. Students will be asked to develop and use a variety of cultural description and documentation skills. The goal is to give students a strong sense of variety, persistence, and flexibility of traditional culture as it lives in the present, and practices in recording it, writing it about, and analyzing it.

**CMN 368 Sexual Communication credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/368)
Describes sex as a fundamental activity in the development and maintenance of human relationships. Communication about sex happens in a variety of interpersonal, group, organizational, and mediated contexts. Explores the many ways in which sexual communication intersects our personal, relational, cultural, and institutional norms and values. Topics will include social norms about sexual communication, sexual harassment, family communication about sex, sexual health education, doctor-patient communication about sex, and sex in the media and in advertising. Theory and research on communication processes will be used to elaborate how talk about sex can achieve multiple goals.

**CMN 370 Political Economy of Communication credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/370)
Addresses significant contemporary social issues from the perspective of the political economy of communication. Issues may include, but are not limited to, the influence of money on political communication, the role of the media in American attitudes toward racial inequalities, or the politics of science reporting. This course will feature a number of recent books on social problems in the United States that have a communication twist. Class-time will be focused on discussing the books. Prerequisite: Junior or senior standing required.

**CMN 375 Popular Media and Culture credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/375)
Using the critical lens of theories on race, class, gender, and sexuality, this class will investigate the complicated relations among popular media and culture, including how our everyday life and attitudes are thought to be shaped by the media, and how cultural systems can be said to inform the media. By exploring a wide range of media (e.g., film, television, music, the internet, and computer games), students will investigate the national, political, and personal dimensions of popular media and the varied ways in which media construct, reflect and intersect with specific cultural systems, identities, and classifications. May be repeated in separate terms to a maximum of 6 hours.

**CMN 377 Propaganda and Modern Society credit: 3 Hours.** (https://courses.illinois.edu/schedule/terms/CMN/377)
Traces the social, economic, and political underpinnings of propaganda and public relations. Examines the rise of corporate propaganda in the early 20th century and explores how these strategies were adapted by a wide range of social and political actors. The second part of the course discusses the above issues from contemporary perspectives. The role of WWI, WWII, and the more recent Iraq war, in solidifying the role of government and commercial propaganda in society and the frequently blurry distinctions between government propaganda and commercial public relations will also be discussed. The relationship between propaganda, PR and the mass media will constitute a constant site of inquiry. This course focuses on theory, especially critical theory.
CMN 390 Individual Study credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/390)
Individual investigation of special problems. May be repeated to a maximum of 6 hours. Prerequisite: Twelve hours of communication coursework; a grade-point average of 3.25; and consent of head of department.

CMN 396 Special Topics in Comm credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CMN/396)
Special topics in communication not treated in regularly scheduled courses. See Class Schedule for current topics. May be repeated as topics vary.

CMN 410 Workplace Comm Technology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/410)
Focuses on how communication technologies are designed, implemented, adopted, and used within and across organizations. Reviews a broad array of theories used to conceptualize technology in the workplace. Emphasis on how theory may be used to understand applications such as knowledge management, telecommuting, distributed work, and virtual organizations. Further focus on analyzing real-world cases to develop skills necessary for working in contemporary organizations. 3 undergraduate hours. 4 graduate hours.

CMN 411 Organizational Comm Assessment credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/411)
Organizational communication theory applied to the assessment of communication practices in organizations; systematic procedures for diagnosing communication problems and facilitating effective communication in organizations. Extensive use of case studies. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.

CMN 412 Adv Organizational Comm credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/412)
Advanced study of theory and research in organizational communication; considers such topics as communication networks, superior-subordinate communications, task-related and social information processing, and communicating with the external environment. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.

CMN 413 Adv Small Group Communication credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/413)
Advanced study of theory, research, techniques, and training methods in interviewing and group discussion; emphasis on empirical research findings concerning communication processes in face-to-face groups. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 212.

CMN 415 Classical Rhetorics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/415)
Survey of the contributions to the theory and practice of rhetoric from Homer to the Renaissance. Same as CLCV 415 and MDVL 415. 3 undergraduate hours. 4 graduate hours.

CMN 416 Early Modern Rhetorics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/416)
Significant developments in European rhetorical theory from 1500 to the 20th Century. 3 undergraduate hours. 4 graduate hours.

CMN 417 Contemporary Rhetorics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/417)
Major contributors to rhetorical theory from I.A. Richards to the present. 3 undergraduate hours. 4 graduate hours.

CMN 421 Persuasion Theory & Research credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/421)
Survey of major theories of persuasion, research on factors influencing persuasive effectiveness, and application to problems of persuasive discourse. 3 undergraduate hours. 4 graduate hours.

CMN 423 Rhetorical Criticism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/423)
Methods of interpreting and judging persuasive discourse with emphasis on political speaking and writing; extensive practice in criticism of rhetorical texts. 3 undergraduate hours. 4 graduate hours.

CMN 424 Campaigning to Win credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/424)
Using a case study approach to illustrate how campaigns attempt to persuade and mobilize voters, students learn how to plan and manage effective political campaigns. Same as PS 411. 3 undergraduate hours. 4 graduate hours.

CMN 427 Children and the Media credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/427)
Examines the role of the mass media in the lives of children. Focuses on how developmental differences influence how children process and respond to the media. Topics include media violence, media advertising, stereotypes in the media, and educational content. 3 undergraduate hours. 4 graduate hours.

CMN 429 Race and the Mass Media credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/429)
Presents an overview of racial stereotypes in the mass media and the effects of stereotypical imagery on viewers. Discussion of the structural and social origins of stereotypic media from multiple perspectives focusing on published scholarship that systematically assesses the content and effects of racial representations from a social scientific perspective. Intersections between race, ethnicity, class, and gender also will be explored. 3 undergraduate hours. 4 graduate hours.

CMN 432 Gender and Language credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/432)
Study of actual and perceived differences and similarities in the use of language by women and by men; emphasizes the social contexts of speech. Same as GWS 432, and LING 432. 3 undergraduate hours. 4 graduate hours.

CMN 435 Adv Interpersonal Comm credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/435)
Study of the major processes involved in an individual’s adjustment to the communication situations of everyday life; emphasis on the development of interpersonal competency and orientations, social perception, interpersonal sentiment and hostility, trust, and the social context as factors influencing the understanding and evaluation of interpersonal messages. 3 undergraduate hours. 4 graduate hours. Prerequisite: CMN 230 or consent of instructor.

CMN 437 Comm in Personal Relationships credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/437)
Examines theories of communication within personal relationships, including family, friendship, and romantic associations. Specific topics include relationship development, conflict, power, self-disclosure, and relational uncertainty. 3 undergraduate hours. 4 graduate hours.
CMN 450  Adv Topics in Public Discourse  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/450)
Study of selected periods and genres of public discourse in historical context, including British, American, French, Russian, German, Chinese, and Japanese. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: One course in rhetorical criticism or consent of instructor.

CMN 462  Interpersonal Health Comm  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/462)
Examines the role of communication in the management of mental and physical health. Focuses on topics such as communication and illness identity, health and interpersonal relationships, health care provider-patient interactions, impacts of technology on health communication, and health education and prevention efforts. 3 undergraduate hours. 4 graduate hours.

CMN 463  Organizational Health Comm  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/463)
Focuses on organizational issues shaping communication between providers, patients, and consumers of health care and information, including background on financing personal medical services; organizations, professions, and their interrelationships involved in providing medical services; theorizing communication and organization in personal medical services; and communication between organizations and the public on health issues. Topics include managed care, professional communication, the hospital as a unique communication site, ethics in health communication, direct-to-consumer drug advertising, and health crisis communication. 3 undergraduate hours. 4 graduate hours.

CMN 464  Health Communication Campaigns  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/464)
Focuses on the theoretical principles behind designing, implementing, and evaluating a health communication campaign. Students will be exposed to campaigns pertaining to alcohol abuse, illicit drug use, organ donation, safe sex, tobacco use, among others. The first part of the course reviews theories used in health communication campaigns, derived from the disciplines of communication, social psychology, and public health. The second part of the course focuses on designing campaigns and creating messages as well as evaluating the effects of those campaigns and messages. 3 undergraduate hours. 4 graduate hours.

CMN 465  Social Marketing Health&Behav  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/465)
Applies marketing concepts and practices to bring about behavior change for a social good. Social marketing is an approach to planning and implementing programs and projects that emphasizes a customer-centered mindset to learn what people want and need to change their behavior. Designed to give students a thorough orientation to the discipline of social marketing and its application to a range of problems with an emphasis on issues in health contexts. Topics will include audience research, segmentation strategies, communication channels, marketing mix, and the application of behavioral theory. Students will acquire practical skills in the design, implementation, and evaluation of health intervention initiatives that use social marketing. Same as CHLH 465. 3 undergraduate hours. 4 graduate hours.

CMN 467  Communication & Health Equity  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/467)
Explores the role that communication plays as both a potential contributor to existing health inequalities and a means of helping to reduce them. Drawing on theories and research from communication, public health, and related social science disciplines, the course reviews relevant academic literature and utilizes media and policy examples to engage with key topics, such as communication inequalities and public discourse surrounding inequality and social determinants of health. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above.

CMN 476  Commercialism and the Public  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/476)
Explores the influences of advertising and commercialism and their role in defining our political culture, social institutions, and personal lives. Through readings, written reflection, visual presentations, and class discussions, the course explores a wide range of advertising and consumer issues and discusses how consumers negotiate these forces. The first part of the course is devoted to a historical overview; discussing the risk and evolving nature of advertising throughout the 20th century. Having established a historical framework, the course offers six contemporary topics to be discussed in the remainder of the semester. Topics may include, but not be limited to: the commercial mass media; the public relations industry; gender in advertising; commercialization of childhood; the commercialization of medicine and science; contemporary consumer society; advertising in schools; and food, advertising, and body image. 3 undergraduate hours. 4 graduate hours.

CMN 491  Honors Individual Study  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/491)
Individual investigation of special problems. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Twelve hours of communication; a grade-point average of 3.50; and consent of head of department.

CMN 493  Honors Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CMN/493)
Individual study leading to a thesis for honors in the Department of Communication. 2 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Senior standing; a grade-point average of 3.50; and consent of head of department.

CMN 496  Adv Topics in Communication  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/496)
Advanced topics in communication not treated in regularly scheduled courses; see Class Schedule for current topics. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary.

CMN 501  Intro to Health Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CMN/501)
Introduction to theory and research on communication in health and illness contexts, focusing on how messages from interpersonal, organizational, cultural and media sources affect health beliefs and behaviors. Some topics to be explored include: the theoretical foundations underlying differences in the ways individuals communicate about health, health campaign strategies and organizational influences on health and strategies for generating successful or beneficial health-related communication (as well as recognize problematic communicative trends).

Information listed in this catalog is current as of 07/2019
CMN 502  Health Comm Research Methods I  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/502)
Introduction to social scientific methods for research on health communication and health outcomes. These methods may be used either to build general (theoretical) knowledge about communication or to aid in design and evaluation of actual messages and campaigns. Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 503  Health Comm Research Methods II  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/503)
Focuses on analytic strategy in both qualitative and quantitative analysis. Complements and expands upon the social scientific methods for collecting data introduced in CMN 502. Prerequisite: CMN 502 strongly recommended.

CMN 504  Health & Family Communication  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/504)
Introduction to content analysis, survey, and experimental research courses.illinois.edu/schedule/terms/CMN/508)
Exploration of current perspectives on the interplay between family communication processes and health-related issues. Using theoretical foundations such as systems theory, communication privacy management theory, narrative theory and family communication patterns theory, students will explore the ways that family members communicate about health, cope with health-related problems, and influence one another's health-related behaviors.

CMN 505  Provider-Patient Communication  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/505)
Study of theoretical bases for understanding social interactions in health care settings focusing on three general areas: (a) communication and identity, (b) health and personal relationships, and (c) health care provider-patient interaction.

CMN 506  Health Informatics  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/506)
Study of the organizational features of the U.S. health care system, generating a comprehensive image of the context in which communication between patients and providers, health care consumers and organizations, and public health care messages are sent, received, exchanged, interpreted, and circulated. Offered Fall terms only. Prerequisite: Only for students enrolled in the MS in Health Communications degree program.

CMN 507  Hlth Comm Orgs Pros & Policy  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/507)
Study of organizational features of the U.S. health care systems, generating a comprehensive image of the context in which communication between patients and providers, health care consumers and organizations, and public health care messages are sent, received, exchanged, interpreted, and circulated. Offered Fall terms only. Prerequisite: Only for students enrolled in the MS in Health Communications degree program.

CMN 508  Successful Health Campaigns  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/508)
Introduction to theoretical frameworks, research, and applications of health campaigns. Literature from contributing disciplines will be reviewed (e.g., advertising, communication, marketing, public health, political science, psychology and sociology) and key aspects of campaign development will be discussed (e.g., formative research, audience segmentation, message tailoring and evaluation). Offered Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 509  Soc Mkting & Health Behavior  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/509)
Orientation to the discipline of social marketing with some application to a range of problems, emphasizing issues with a health context. Topics will include audience research, segmentation strategies, communication channels, and the marketing mix. Students will acquire practical skills in audience research and learn about the design, implementation, and evaluation of health intervention initiatives that use social marketing. Offered Spring terms only. Prerequisite: Only for students enrolled in the MS in Health Communication degree program.

CMN 529  Seminar Communication Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/529)
Special topics in communication theory and research. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

CMN 530  Family Communication Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/530)
Graduate seminar that examines theory and research on the development of families, communication in various types of families and family relationships, and current issues that affect family communication.

CMN 531  Narr in Interdisc Perspective  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/531)
Engages fresh interdisciplinary perspectives on narrative and identifies aspects of narrative that are not illuminated by current thinking. Identifies gaps and absences in the literature on the social creation of reality through narrative. Of particular interests are the dream, the relationship between personal oral history and myth, people who have "no stories" or have untellable stories, and the trauma narrative as compulsory testimony. Approaches these issues from the perspective of scholarship in folklore, sociolinguistics, developmental psychology, communication, cultural psychology, and anthropology.

CMN 538  Seminar Rhetorical Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/538)
Study of special topics in the history of rhetorical theory. May be repeated to a maximum of 16 hours.

CMN 550  Intro to Comm Grad Study  credit: 1 Hour.  (https://courses.illinois.edu/schedule/terms/CMN/550)
Orientation to discipline of Communication and too departmental research areas. Discusses disciplinary norms, research ethics/IRB, academic writing, and professional conduct. Advice on choosing areas of research, identifying suitable graduate advisor, time management, and career planning. Faculty visitors discuss their research and professional development topics. Approved for S/U grading only. Prerequisite: Communication graduate students only.

CMN 574  Communication Research Methods  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/574)
Introduction to content analysis, survey, and experimental research designs and quantitative and qualitative analysis in communication research.

CMN 575  Capstone Individual Study  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/575)
Provides capstone experience for students in the MS in Health Communication degree program.

CMN 595  Special Problems  credit: 1 to 12 Hours.  (https://courses.illinois.edu/schedule/terms/CMN/595)
Individual investigation of special projects not included in theses. May be repeated in separate terms. Open to master's candidates for a maximum of 4 graduate hours and to doctoral candidates for a maximum of 12 graduate hours. Prerequisite: Consent from head of department.
**Community Health (CHLH)**

CHLH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CHLH)

**Courses**

**CHLH 100 Contemporary Health** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/100)
Examines concepts of health and health promotion in contemporary society with emphasis on a healthy lifestyle for individuals and groups. Topics include self care, health insurance, exercise, nutrition and weight control, sexuality, contraception, tobacco, alcohol, cardiovascular health, infectious diseases, and cancer. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

**CHLH 101 Introduction to Public Health** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/101)
Introduction to the nation's public health system; includes an overview of the basic concepts and core functions of public health practice, the scope of applications, and the variety of service organizations (both public and private) that shape public health. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

**CHLH 110 Intro to the Health Sciences** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/110)
This elective course provides students with a general overview of the day to day job requirements and responsibilities of variety of allied healthcare professionals and how they interact with other members of the healthcare team. Students will also learn about the wide variety of practice settings available along the continuum of care. Through the course, students will learn basic medical terminology, concepts and skills in preparation for internships and graduate school. Same as KIN 110.

**CHLH 125 Orientation KIN & Comm Health** credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CHLH/125)
Serves as an introduction to the Kinesiology and Community Health Department and provides an overview of the Kinesiology and Community Health curricula, areas of study, and opportunities available for careers in the field. Enrollment required for Community Health freshmen and transfer students. Credit is not given for both CHLH 125 and KIN 125.

**CHLH 199 Undergraduate Open Seminar** credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/199)
Approved for letter and S/U grading. May be repeated up to a maximum of 10 hours.

**CHLH 200 Mental Health** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/200)
Introduction to the science of mental health and illness including personality development, the genesis and manifestations of mental illness, and the maintenance of mental health; taught with an emphasis on the preventive and medical aspects of mental health.

**CHLH 201 Public Health Research Methods** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/201)
This course is designed to provide students with an introduction to the basic principles and concepts underlying research methods on public health. Topics include conceptualization, measurement, research design, sampling, evaluation, data sources and ethics. The students will be exposed to a wide range of quantitative, and mixed methods.

**CHLH 206 Human Sexuality** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/206)
Emphasizes the behavioral aspects of human sexuality. Topics include: birth control; prenatal care, pregnancy and childbirth; sex roles; premarital sex; lifestyles; marriage and divorce.

**CHLH 210 Community Health Organizations** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/210)
Overview of institutions and agencies which provide health information, education, services, and care. Includes historical foundations, constituencies, organizational goals and structure, funding and expenditures, modes of service delivery, political and ethical issues.

**CHLH 243 Drug Use and Abuse** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/243)
Introduction to the biological, psychological, pharmacological, and legal aspects of drug use and abuse; surveys community and university resources concerned with drug use and abuse; emphasizes personal and social actions for responsible drug use.

**CHLH 244 Health Statistics** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/244)
Introduction to biostatistics. Students learn concepts necessary to understand statistical inference as applied to health issues. This course satisfies the General Education Criteria for: Quantitative Reasoning I

**CHLH 250 Health Care Systems** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/250)
Overview of the major issues confronting health care systems from a macro perspective. Identification and analysis of the functions, major participants and trends in health care systems in the United States and abroad. Attention on current and emerging issues having implications for health care systems in industrialized nations.

**CHLH 260 Introduction to Medical Ethics** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/260)
Course stresses normative bioethics: decisions about what is ethical behavior in a variety of real and practical issues. Analysis of medical ethical cases at the individual, community and wider national and international levels will be addressed. Approved for both letter and S/U grading. This course satisfies the General Education Criteria for: Humanities - Hist Phil

**CHLH 274 Introduction to Epidemiology** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/274)
Basic concepts and methods of epidemiology; patterns of disease occurrence; applications of epidemiology to health education, health services administration and planning, health policy, and environmental health. This course satisfies the General Education Criteria for: Quantitative Reasoning I
CHLH 304  Foundations of Health Behavior  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/304)
Examination of the application of the social and behavioral sciences to health and health behavior. Psychological, social psychological, and sociological approaches to health behavior are analyzed. Topics covered include development of health attitudes and behaviors, perceptions of health and illness, methods of changing health behavior and patient-provider interaction. Prerequisite: CHLH 100, or consent of instructor; completion of the campus Composition I requirement. This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci
Advanced Composition

CHLH 314  Introduction to Aging  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/314)
A multidisciplinary introduction to the study of aging; the social, psychological and physiological context of changing roles in later life; public and private policies that affect older people and their families. Same as HDFS 314, RST 314, PSYC 314, and REHB 314.

CHLH 330  Disability in American Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/330)
Same as REHB 330. See REHB 330. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

CHLH 336  Tomorrow's Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/336)
Same as CPSC 336 and ENVS 336. See CPSC 336.

CHLH 340  Health Promotion Practicum  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/340)
Preparation and presentation of lifestyle workshops to campus community groups. Practica selected from one or more of the following topics: chemical education, sexuality, stress management or campus acquaintance rape education (CARE). Same as SOCW 350. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing or consent of instructor.

CHLH 365  Civic Engagement in Wellness  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/365)
Same as AHS 365, KIN 365, RST 365, and SHS 370. See KIN 365.

CHLH 380  Orientation to Internship  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CHLH/380)
Provides students with information concerning placement in internship. Topics include internship requirements; student responsibilities; preparation of resumes and cover letters; selecting an organization or site; interviewing; issues of professional development. Prerequisite: Junior standing.

CHLH 390  Honors  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/390)
Same as KIN 390 and RST 390. See KIN 390.

CHLH 393  Special Projects  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/393)
Special projects in research and independent investigation in any phase of health, kinesiology, recreation, and related areas selected by the students. May be repeated to a maximum of 12 hours.

CHLH 395  Advanced Internship  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/395)
Same as KIN 395 and RST 395. See KIN 395.

CHLH 402  Cancer Epidemiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/402)
Class on cancer epidemiology will address the investigation of the descriptive and analytic epidemiology of cancer. It will include information on the development of malignancy and characteristics of tumor cells. The investigation of the relationship between various risk and protective factors and the development of different types of cancer will be discussed in an epidemiologic context. The role of primary prevention and secondary prevention (screening) will also be covered. 3 undergraduate hours. 4 graduate hours. Prerequisite: Previous or concurrent class in epidemiology or consent of instructor. Junior standing or above.

CHLH 404  Gerontology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/404)
Interdisciplinary approach to the study of aging and the aged from physiological, psychological, and social perspectives. Same as HDFS 404. 3 or 4 undergraduate hours. 3 or 4 graduate hours.

CHLH 405  Aging with Disability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/405)
Due to improvements in medical management, persons with disabilities are living longer lives. They, however, face new problems and impairments. This course will explore the psychological and physical changes persons with disabilities face as they age. In addition, the course examines the impact that aging with disability has on the US healthcare system, legislation and healthcare professionals. 3 undergraduate hours. 4 graduate hours.

CHLH 407  Disability, Culture & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/407)
Examines the cultural and social contexts of disability, their consequences for the experience and management of disability, and implications for cultural competence in disability-related research and practice. Same as ANTH 404, KIN 407, and REHB 407. 3 or 4 undergraduate hours. 3 or 4 graduate hours.

CHLH 409  Women's Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/409)
Examines the culture of women in relationship to their health. Study is devoted to selected health care issues, developmental and physiological changes in the life cycle, health problems that affect women, and the maintenance of health. Same as GWS 409. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHLH 100 or equivalent; or consent of instructor.

CHLH 410  Public Health Practice  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/410)
Theory and practice of public health promotion as they relate to educational approaches in solving community health problems. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHLH 210 or consent of instructor.

CHLH 415  International Health  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/415)
Explores the various factors that impact the health of populations around the world. Political, cultural, social, environmental and other domains will be examined in relation to how they affect the health of residents of various countries. 3 or 4 undergraduate hours. 3 or 4 graduate hours.
CHLH 421 Health Data Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/421)
Introduces health data analysis, sources and uses of health data, collection techniques and classification procedures, commonly used health indices, techniques of rate adjustment, graphic presentation of data as they relate to the planning, conducting, and evaluating of community health programs. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Quantitative Reasoning I course or equivalent. This course satisfies the General Education Criteria for: Quantitative Reasoning II

CHLH 429 Research Techniques  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/429)
Study of the ethics of research, research literature, research designs, and health measurement techniques utilized in the public health sciences. Emphasizes developing skills in analyzing research and assessment of health behaviors, and problem identification and research design for individual student research projects. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHLH 590, or SOC 485, or EPSY 480; or equivalent.

CHLH 439 Health Applications of GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/439)
Same as GEOG 439 and PATH 439. See PATH 439.

CHLH 444 LGBT Indiv. Fam & Community  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/444)
Same as HDFS 444. See HDFS 444.

CHLH 448 Exercise & Health Psychology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/448)
Same as KIN 448. See KIN 448.

CHLH 455 Health Services Financing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/455)
Examines major topics and emerging trends in health financing, including sources of revenue, public and private financing organizations, reimbursement and sources of revenue to health providers, and capital financing in the health care industry. 3 undergraduate hours. 3 graduate hours. Prerequisite: Junior standing.

CHLH 456 Organization of Health Care  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/456)
Examines types and performance of health care organizations (e.g., doctors’ offices, clinics, hospitals, and nursing homes), networks of health services, evaluation of health care, and social policy issues relating to organizations in the U.S. health care system. 2 to 4 undergraduate hours. 2 to 4 graduate hours.

CHLH 457 Health Planning  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/457)
Survey of the history and objectives of health planning as related to medical care delivery in the United States; methods of health, institutional and community planning; planning and marketing concepts and methods; analysis of consumer behavior, public policies, and private competitive forces. Same as SOCW 457. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHLH 250 and junior standing.

CHLH 458 Health Administration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/458)
Examines management principles relative to health care institutions emphasizing goal setting, decision making, system analysis, organizational structure, conflict resolution, and leadership theories. 3 undergraduate hours. 3 graduate hours. Prerequisite: Senior or graduate standing, or consent of instructor.

CHLH 461 Environ Toxicology & Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/461)
Same as ENV 431 and IB 485. See IB 485.

CHLH 465 Social Marketing Health & Behav  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/465)
Appreciation of the concepts and mechanisms used to prevent or control environmental conditions that may lead to infectious or other environmentally induced diseases. Presents topics from a public health perspective that include air pollution, water supply management, waste management, radiation protection, food hygiene, occupational health and disaster management. Same as ENV 469. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CHLH 274 or equivalent.

CHLH 473 Immigration, Health & Society  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/473)
Same as LLS 473, SOC 473, and SOCW 473. See LLS 473.

CHLH 474 Principles of Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/474)
Investigation of descriptive epidemiologic techniques (comparisons of disease rates in different populations) and analytic study designs (case-control and cohort studies and randomized trials). Applications to and examples from infectious and chronic diseases are presented. Group exercises involving the investigation of epidemiologic problems and application of analytic epidemiologic techniques are performed. Same as ENV 474 and PATH 474. 4 undergraduate hours. 4 graduate hours. Prerequisite: One statistics course.

CHLH 485 Community Health Internship  credit: 8 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/485)
Supervised field experience in official, voluntary and professional health agencies; designed to provide students with work experience in actual field situations. Students work in University approved health agencies for a minimum of 320 undergraduate hours. 8 undergraduate hours. 8 graduate hours. Approved for S/U grading. Prerequisite: Senior standing in Community Health.

CHLH 489 Social Marketing Health & Behav  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/489)
Lecture course in topics of current interest; specific subject matter announced in the Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated.

CHLH 501 Issues in Health Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/501)
Analyses current developments, trends, and controversies in health education with emphasis on developing student competencies for intervention planning, implementation and analyses; and examines issues affecting the health educator in various work settings, including patient care, public health, school health, and higher.

CHLH 510 Public Health Dev  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/510)
Advanced study of the principles, practice and current issues of public health at the local, state, national and international levels, including the relationships between public health departments, voluntary health agencies, and other community organizations.

CHLH 517 Principle/Method Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/517)
Same as PATH 517. See PATH 517.
CHLH 527 Statistics in Epidemiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/527)
Description and application of quantitative issues and statistical techniques prominent in the analysis of classification data arising from epidemiologic cohort or case-control aetiological studies; studies of preventive public health; and therapeutic clinical interventions. Practice using available computing software for implementation is stressed. Same as ENVS 527 and PATH 525. Prerequisite: CHLH 474 and minimum of two statistics courses covering multiple regression and correlation.

CHLH 530 Childhood Obesity I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/530)
Same as FSHN 530, HDFS 551, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

CHLH 531 Childhood Obesity II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/531)
Same as FSHN 531, HDFS 552, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

CHLH 540 Health Behavior: Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/540)
Analysis of social science theories and perspectives that comprise the foundation of health education theory and practice. Includes development of a conceptual frame of reference for understanding, predicting, and facilitating change in health behaviors. Same as KIN 540. Prerequisite: Graduate standing.

CHLH 550 Health Policy: United States credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/550)
Comprehensive analysis of the policy process in health care in the United States; systematic and critical review of health policy development, implementation, and evaluation; impact of government at all levels and the role of providers, industry, labor, and consumer in health policy. Prerequisite: Admission to graduate program in community health or the MBA Administration Program; CHLH 429; or consent of instructor.

CHLH 565 Teaching in the Professoriate credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/565)
Same as KIN 565, RST 560, and SHS 565. See KIN 565.

CHLH 569 Systematic Review and Meta-analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/569)
The goals of this course are to: (1) Deepen understanding on the key concepts and essential methods in systematic review and meta-analysis though lectures and reading assignments; (2) Master basic skills on conducting systematic review and meta-analysis through hands-on exercises and projects; and (3) complete a publication-quality systematic review and/or meta-analysis of a student’s own choice as the final project of this course. 4 graduate hours. 4 professional hours.

CHLH 570 Intro Public Hlth Practice credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CHLH/570)
An introduction to principles of public health practice, covering a range of topics including history of public health, determinants of health, structure and function of the public health system, ethics, and public health approaches to prevention and to improving population health. Approved for S/U grading only. Prerequisite: MPH student or consent of the instructor.

CHLH 572 Principles of Epidemiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/572)
Advanced course designed to provide an introduction to the fundamental concepts and principles of epidemiology and demonstrate their applicability in the field of public health. Emphasizes the use of epidemiologic data and research to a) describe the pattern of diseases in communities, and b) identify risk factors for diseases and for health disparities. Prerequisite: Completion or concurrent enrollment of basic statistics course is encouraged.

CHLH 573 Biostatistics in Public Health credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/573)
Introduction to fundamental topics in biostatistics in public health, covering univariate and bivariate statistics as well as basic topics in multivariate analysis. Including practice in analyzing health data through computer laboratory sessions.

CHLH 575 Chronic Disease Prevention credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/575)
Advanced course in population-based approaches to chronic disease prevention, with emphasis on policy and environmental strategies affecting lifestyle risk factors. Provides an understanding of common diseases, screen tests, community assessment, systematic evidence reviews, and evidence-based community interventions. Prerequisite: MPH students or consent of instructor.

CHLH 577 Health Program Evaluation credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/577)
Use of research methods and theory for evaluation of initiatives and programs in public health and medical care. Emphasis on acquiring skills in evaluation and conducting evaluations whose results have impact on public health practice. Covers different theories and perspectives on health evaluation. Review of published evaluations used to illustrate research methods and practical issues in program evaluation. Prerequisite: MPH student or consent of instructor.

CHLH 578 Applied Epidemiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/578)
Advanced epidemiologic analysis of disease problems. Covers research designs including cohort, case-control, and intervention trials; methods of analysis including multivariate adjustment for confounding and description of effect modification; and application of statistical computer software with emphasis on chronic diseases. Same as PATH 520. Prerequisite: CHLH 474, PATH 517, or equivalent and advanced course work in statistics through multivariate analysis.

CHLH 579 Cultural Competence in Public Health credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/579)
Cultural competence education increases public health professionals’ cultural awareness, knowledge of self and others, communication skills, attitudes, and behaviors. This course will examine theoretical models in public health and explore community-based programs as they relate to cultural competence and health promotion. 4 graduate hours. No professional credit. Prerequisite: Restricted to MPH Graduate Students.

CHLH 580 Landscapes and Human Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/580)
Same as GEOG 561 and LA 570. See LA 570.

CHLH 585 Community Health Internship credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CHLH/585)
Observation, study, and practical work in student’s area of specialization under supervision in professional field situations; student works for a minimum of 12 weeks in a University-approved agency or site. Prerequisite: CHLH 429, CHLH 474 and CHLH 510; or graduate standing in community health; or consent of the department.
CWL 111  Bible as Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/111)
Same as ENGL 114 and REL 101. See REL 101.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 112  Literature of Global Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/112)
Same as ENGL 112. See ENGL 112.

CWL 114  Global Consciousness and Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/114)
Exploration of the cultural and historical roots of globalization and the development of global consciousness from ancient Greece to the present, as reflected primarily in literature, but also with reference to historiography, cartography, religion, art, politics, economics, and popular culture. Course materials including literary texts, articles, historical accounts, political tracts, films, and paintings focus on the mutual perception of, and historical relationships among Europe, the Arab world, Africa, Asia, and the Americas.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 117  Russ & E Euro Science Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/117)
Same as SLAV 117. See SLAV 117.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 119  Literature of Fantasy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/119)
Same as ENGL 119. See ENGL 119.

CWL 189  Lit of Asia & Africa I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/189)
Comparative study of major works from Africa, the Middle East, South and East Asia, from ancient times through the medieval period, emphasizing literary, cultural, philosophical, and religious traditions, and cross-cultural contact. Topics studied may include Egyptian and Mesopotamian mythology, Hinduism, Buddhism, Confucianism, Daoism, and the Abrahamic tradition. All readings in English.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 190  Lit of Asia & Africa II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/190)
Comparative study of major works from Africa, the Middle East, South and East Asia, from the early modern to the contemporary period, emphasizing literary, cultural, philosophical, and religious traditions and cross-cultural contact. Topics studied may include Hinduism, Buddhism, Confucianism, Daoism, Islam, colonialism and globalization. All readings in English.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West
CWL 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/191)
Study of selected topics on an individually arranged basis. Open only to honors students or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

CWL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CWL/199)
Credit: 1 to 5 hours. Approved for both letter and S/U grading. May be repeated.

CWL 201  Comparative Lit Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/201)
Introduction to various methods in comparative literary study, including genres, thematic, literary relations, literary movements, and interdisciplinary approaches. Prerequisite: One semester of college literature or consent of instructor.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 202  Literature and Ideas  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/202)
Analysis of several important world-views in Western civilization (such as classical, Romantic, modern, and so forth), studied comparatively and in relation to selected figures in Western literature. Prerequisite: CWL 241 and CWL 242; or one year of college literature; or consent of instructor.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 205  Islam & West Through Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/205)
Organized around major cultural/historical/religious topics presented in literature through Western and Islamic eyes, beginning with the Crusades and proceeding into the present. This course will examine stereotypes, fantasies, identifications and political opportunism promoted by the encounter between the West and the Islamic World. Prerequisite: CWL 241 and CWL 242 or one year of college literature; or consent of instructor.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 206  Classical Allusions in Cinema  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/206)
Same as CLCV 206. See CLCV 206.

CWL 207  Indian Cinema in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/207)
Introduction to Indian mainstream (mainly Bollywood) cinema and its evolution through the last seven decades. Topics to be explored include, but not limited to, the relation between Indian society/culture and its cinematic representations, cinema's resistance to dominant nationalist and patriarchal ideologies, its interactions with the postcolonial nation-state of India, how globalization has changed the industry. All films will be screened with subtitles. No knowledge of Hindi or any other Indian language is required. Same as MACS 207.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 208  Cultures & Literatures of South Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/208)
Same as ASST 208, REL 208 and SAME 208. See REL 208. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 209  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/209)
Same as JS 209 and ENGL 222. See JS 209. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 210  Intro to Mod African Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/210)
Same as AFST 210 and ENGL 211. See AFST 210. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 211  War & Peace in Israeli Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/211)
War has been a constant shadow over the lives of Israelis. We will examine the history of attitudes to war and peace in Israel as presented through poetry, film and short stories, and explores the plurality of voices and experiences in Israel. Same as JS 211 and SAME 211.

CWL 215  Madness, Myth, and Murder  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/215)
Same as SCAN 215. See SCAN 215. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 216  Legends of King Arthur  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/216)
Same as ENGL 216 and MDVL 216. See ENGL 216. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 217  War & Peace in Israeli Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/217)
War has been a constant shadow over the lives of Israelis. We will examine the history of attitudes to war and peace in Israel as presented through poetry, film and short stories, and explores the plurality of voices and experiences in Israel. Same as JS 211 and SAME 211.

CWL 218  Survey of Ukrainian Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/218)
Same as UKR 218. See UKR 218.

CWL 220  Origins of Western Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/220)
Same as CLCV 220. See CLCV 220. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 221  Jewish Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/221)
Same as ENGL 223, JS 220, REL 220, and YDSH 220. See YDSH 220. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 222  The Qur'an (Koran)  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/222)
Same as REL 223, SAME 223. See REL 223. This course satisfies the General Education Criteria for: Humanities - Lit Arts

CWL 224  German Literature in Trans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/224)
Same as GER 200. See GER 200.

CWL 225  Constr Afr and Carib Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/225)
Same as AFST 209, FR 240, and LAST 240. See FR 240. This course satisfies the General Education Criteria for: Cultural Studies - Non-West
CWL 226  Humanist Persp of Afro-Am Exp  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/226)
Same as AFRO 224. See AFRO 224.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

CWL 227  Golden Age of Russian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/227)
Same as RUSS 220. See RUSS 220.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 240  Italy Middle Ages & Renaiss  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/240)
Same as ITAL 240 and MDVL 240. See ITAL 240.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 241  Early Masterpieces of Western Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/241)
Comparative study of major works of literature, philosophy and culture in the Western tradition from the ancient world to the Renaissance, from Homer and the Bible to Shakespeare and Cervantes. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 242  Modern Masterpieces of Western Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/242)
Comparative study of major works of literature, philosophy and culture in the Western tradition from the Enlightenment to today, from Descartes and Voltaire to Dickinson and Calvino. Emphasis on the works as representative of their historical and cultural period, as well as how these works create the cultural world we live in today.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 245  Survey of Polish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/245)
Same as POL 245. See POL 245.

CWL 249  Russian Lit and Revolution  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/249)
Same as RUSS 225. See RUSS 225.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 250  Grimms' Fairy Tales - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/250)
Same as ENGL 267 and GER 250. See GER 250.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 251  Viking Mythology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/251)
Same as MDVL 251, REL 251, and SCAN 251. See SCAN 251.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

CWL 252  Viking Sagas in Translation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/252)
Same as MDVL 252 and SCAN 252. See SCAN 252.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 253  Medieval Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/253)
Same as ENGL 202 and MDVL 201. See ENGL 202.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 254  Grimm's Fairy Tales in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/254)
Same as ENGL 266 and GER 251. See GER 251.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 255  Renaissance Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/255)
Same as ENGL 204. See ENGL 204.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 257  Enlightenment Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/257)
Same as ENGL 206. See ENGL 206.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 259  Early African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/259)
Same as AFRO 260 and ENGL 259. See ENGL 259.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CWL 260  Later African American Literature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/260)
Same as AFRO 260 and ENGL 260. See ENGL 260.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

CWL 262  Sex & Gender in Antiquity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/262)
Same as CLCV 240 and GWS 240. See CLCV 240.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 263  The Heroic Tradition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/263)
Same as CLCV 221. See CLCV 221.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
CWL 264  The Tragic Spirit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/264)
Same as CLCV 222 and THEA 210. See CLCV 222.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 265  Modern Drama I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/265)
Same as ENGL 243. See ENGL 243.

CWL 266  Modern Drama II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/266)
Same as ENGL 244. See ENGL 244.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 267  The Short Story  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/267)
Same as ENGL 245. See ENGL 245.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 269  British, American, and Continental Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/269)
Examination of important thematic and structural relationships - influences, parallels, and variations - among selected major works of the nineteenth and twentieth centuries; readings chosen from works of Bronte, Hardy, Lawrence, Woolf, James, Faulkner, Bellow, Oates, Dostoevsky, Tolstoy, Stendhal, Flaubert, Camus, Kafka, Mann, Hesse, Moravia, and Pavese. All works read in English. Same as ENGL 248. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 271  The Holocaust in Context - ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/271)
Same as ENGL 268 and GER 260. See GER 260.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 272  Sexuality and Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/272)
Same as GER 270 and GWS 270. See GER 270.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 273  The Holocaust in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/273)
Same as ENGL 269, GER 261, and JS 261. See GER 261.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 275  Masterpieces of East Asian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/275)
Same as EALC 275. See EALC 275.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 276  Asian Film Genres  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/276)
Same as EALC 276 and ENGL 276. See ENGL 276.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 277  Slavic Literature Survey  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/277)
Same as SLAV 277. See SLAV 277.

CWL 282  Arctic Narratives  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/282)
Same as EURO 240, SCAN 240. See SCAN 240.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

CWL 283  Jewish Sacred Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/283)
Same as ENGL 283 and REL 283. See REL 283.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 284  Modern Jewish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/284)
Same as ENGL 284 and REL 284. See ENGL 284.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

CWL 307  Classical Chinese Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/307)
Same as EALC 307. See EALC 307.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 311  Japan Lit in Translation I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/311)
Same as EALC 305. See EALC 305.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 312  Japan Lit in Translation II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/312)
Same as EALC 306. See EALC 306.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West

CWL 317  Introduction to Francophone Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/317)
Same as FR 319. See FR 319.

CWL 320  Lit Responses to the Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/320)
Same as ENGL 359, JS 320, REL 320, and YDSH 320. See YDSH 320.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
CWL 321  Russian Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/321)
Same as RUSS 320. See RUSS 320.

CWL 322  The Comic Imagination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/322)
Same as CLCV 323 and THEA 323. See CLCV 323.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

CWL 323  Tolstoy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/323)
Same as ENGL 323 and RUSS 323. See RUSS 323.

CWL 324  Dostoevsky  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/324)
Same as ENGL 322 and RUSS 322. See RUSS 322.

CWL 325  Chekhov  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/325)
Same as RUSS 325 and THEA 362. See RUSS 325.

CWL 328  Special Topics German Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/328)
Same as GER 396. See GER 396.

CWL 335  Nabokov  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/335)
Same as RUSS 335. See RUSS 335.

CWL 341  Love & Sex in Hebrew Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/341)
Love and Sex have been literary themes from the bible, through the modern ages and into the present day in Hebrew Literature. This course will examine the treatments of these themes in different historical periods, paying attention to external influences and literary forms such as poems, stories, films and novels. This course will consider treatments of the erotic, devotional, affectionate, romantic and sexual; including heterosexual and homosexual representations, as well as love of God and Israel. Same as JS 341, REL 340 and SAME 341. Prerequisite: Completion of Advanced Composition requirement or a prior college-level literature course is recommended.

CWL 350  South Asian Goddesses  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/350)
Same as REL 350 and SAME 350. See REL 350.

CWL 376  Children and Youth Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/376)
Same as EURO 376, GWS 376, and SCAN 376. See SCAN 376.

CWL 387  French & Comparative Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/387)
Same as FR 387, HUM 387, and MACS 382. See FR 387.

CWL 389  French & Comparative Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/389)
Same as FR 389, HUM 389, and MACS 383. See FR 389.

CWL 395  Special Topics Comp Lit I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/395)
Presentation and discussion of subjects relating literature to other disciplines; topic varies. May be repeated to a maximum of 6 hours.

CWL 400  African Diasporic Lit Americas  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/400)
Same as AFRO 400. See AFRO 400.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

CWL 410  Modern African Fiction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/410)
Same as AFST 410, ENGL 470, and FR 410. See AFST 410.

CWL 411  The Chinese Novel  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/411)
Same as EALC 411. See EALC 411.

CWL 412  Mod Chinese Lit in Translation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/412)
Same as EALC 412. See EALC 412.

CWL 413  Dante  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/413)
Same as ITAL 413 and MDVL 413. See ITAL 413.

CWL 414  Petrarch & Boccaccio  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/414)
Same as ITAL 414 and MDVL 414. See ITAL 414.

CWL 415  Mod Japan Lit in Translation  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/415)
Same as EALC 415. See EALC 415.

CWL 416  Premodern Chinese Drama  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/416)
Same as EALC 413 and THEA 488. See EALC 413.

CWL 417  Topics in Medieval Brit Lit  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/417)
Same as ENGL 412 and MDVL 410. See ENGL 412.

CWL 420  Masterpieces Renaiss Lit  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/420)
Same as ITAL 420 and MDVL 420. See ITAL 420.

CWL 421  Jewish Life-Writing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/421)
Same as HIST 436, REL 420, SLAV 420, and YDSH 420. See YDSH 420.

CWL 428  Japan at War and Peace  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/428)
Same as EALC 428. See EALC 428.

CWL 430  History of Translation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/430)
Same as CLCV 430, ENGL 486, GER 405, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

CWL 434  Studies in Francophonie  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/434)
Same as FR 479. See FR 479.

CWL 436  Problems of Polish Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/436)
Same as POL 446. See POL 446.

CWL 440  Russian Culture Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/440)
Same as RUSS 460. See RUSS 460.
CWL 441 Themes in Narrative  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/441)
Analysis of literary themes and types in narratives of Western and non-Western literature (e.g., the hero, east and west, dream visions), emphasizing comparative perspectives. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 444 Problems in Romanticism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/444)
Same as ESE 462 and REL 462. See REL 462. courses.illinois.edu/schedule/terms/CWL/460)
CWL 445 Problems in Realism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/445)
Same as RUSS 444. See RUSS 444.

CWL 450 Topics in Bodies and Genders  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CWL/450)
How do gender, sexuality, and the body emerge through cultural representations and across artistic forms? How do literature, film, and the visual arts construct gender identities in various times and places? Topics and regions vary by semester and instructor. All readings in English. Same as GWS 450. 3 undergraduate hours. 3 graduate hours. May be repeated up to 6 hours maximum. Prerequisite: Consent of instructor.

CWL 451 International Film Genres and Auteurs  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/451)
Advanced, in-depth study of either (a) cinematic genres, or (b) major film directors. Genres may include musicals, horror films, Westerns, melodrama, comedies, film noir. Auteurs will include major figures of world cinema whose influence over the medium is widespread, such as Hitchcock, Woody Allen, Vertov, Bergman. No foreign language knowledge required. 3 undergraduate hours. 4 graduate hours. May be repeated in the same or subsequent semesters to a maximum of 6 undergraduate hours or 8 graduate hours if topics vary. Prerequisite: One cinema course or consent of instructor.

CWL 453 Slavic Cultural Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/453)
Same as SLAV 450. See SLAV 450.

CWL 454 Topics in Israeli Lit &Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/454)
Seminar covering advanced topics in Israeli literature and culture. Same as JS 454 and SAME 454. 3 undergraduate hours. 4 graduate hours. May be repeated up to 6 undergraduate hours or 8 graduate hours in separate terms if topics vary. Prerequisite: One year of college literature or consent of instructor.

CWL 457 Russian Modernism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/457)
Same as ESE 462. See ESE 462.

CWL 460 Ecological Criticism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/460)
Same as REL 462. See REL 462.

CWL 461 Lit Genres and Forms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/461)
Structure and development of literary genres and forms in historical perspective (for instance, drama, parody and the grotesque, poetry, fables and fabulists, and modern fiction); essential international components and significant national variations of such genres and forms. Emphasis changes from term to term. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 463 Modern Scandinavian Drama  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/463)
Same as SCAN 463 and THEA 483. See SCAN 463.

CWL 465 Topics in Drama  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/465)
Same as ENGL 465. See ENGL 465.

CWL 466 Russia and the Other  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/466)
Same as RUSS 466. See RUSS 466.

CWL 467 Japanese Cinema  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/467)
Same as EALC 466 and MACS 466. See MACS 466.

CWL 470 Imagining the Welfare State  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/470)
Same as EURO 470 and SCAN 470. See SCAN 470.

CWL 471 International Lit Relations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/471)
Study of specific relations between authors of different countries; influences of certain works, concepts, or tastes on another work, author, or country; and literary interaction between Eastern and Western cultures. Emphasis changes from term to term. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: One year of college literature or consent of instructor.

CWL 472 Kierkegaard and the Self  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/472)
Same as PHIL 472, REL 472, and SCAN 472. See SCAN 472.

CWL 477 Post-Communist Fiction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/477)
Same as SLAV 477 and REES 477. See SLAV 477.

CWL 478 Classical Chinese Thought  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/478)
Same as EALC 476 and HIST 425. See EALC 476.

CWL 481 Topics in Arabic Literature & Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/481)
Studies in Arabic literature and culture of various genres, periods, and regions. Graduate students are encouraged to read the texts in the original language. 3 undergraduate hours. 4 graduate hours. May be repeated in the same semester to a maximum of 6 undergraduate hours or 8 graduate hours if topics vary. May be repeated in separate semesters to a maximum of 12 undergraduate hours or 16 graduate hours if topics vary. Prerequisite: One year of college literature or consent of instructor.

CWL 490 Topics in Classical Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/490)
Same as CLCV 490. See CLCV 490.
CWL 493 Senior Thesis and Honors credit: 3 to 6 Hours. (https://courses.illinois.edu/schedule/terms/CWL/493)
Independent research guided by tutor(s), leading to the writing of a comparative thesis. Intended primarily for candidates for honors in comparative literature, but open to other seniors. 3 to 6 undergraduate hours. No graduate credit. May be repeated to a maximum of 12 hours.

CWL 496 Special Topics in Comp Lit II credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/496)
Selected literary topics of international significance in relation to other cultural expressions. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 9 undergraduate or 12 graduate hours. Prerequisite: Consent of instructor.

CWL 501 Theory of Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/501)
Major issues of literary theory, critical approaches, and comparative research.

CWL 502 Methods of Comparative Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/502)
Problems and methods of cross-cultural literary studies, concentrating on the effects of historical encounters between different civilizations and on theoretical issues in comparing literatures across cultures. Prerequisite: Knowledge of two languages other than English or (with instructor's consent) advanced knowledge of one foreign language.

CWL 503 Historiography of Cinema credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/503)
Same as ENGL 503 and MACS 503. See MACS 503.

CWL 504 Theories of Cinema credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/504)
Same as ENGL 504 and MACS 504. See MACS 504.

CWL 511 Applied Literary Translation I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/511)
Same as EALC 511, GER 511, SLAV 501, and TRST 501. See TRST 501.

CWL 512 Applied Literary Translation II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/512)
Same as EALC 512, GER 512, SLAV 502, and TRST 502. See TRST 502.

CWL 535 Nabokov credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/535)
Same as RUSS 535. See RUSS 535.

CWL 551 Seminar Lit Movements credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/551)
Investigation of the development and mutation of literary movements (classicism, romanticism, symbolism, etc.) through a study of critical texts and their reception in various countries. May be repeated to a maximum of 12 hours if topics vary.

CWL 552 Studies French & Comp Cinema credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/552)
Same as FR 552. See FR 552.

CWL 561 Seminar Genres - Forms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/561)
Study of a form (the lyric, the novel, the drama, etc.) to discover its essential components in all the literatures studied and the significance of national variations. May be repeated to a maximum of 12 hours if topics vary.

CWL 562 Sem Spanish-American Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/562)
Same as SPAN 535. See SPAN 535.

CWL 570 Studies in Critical Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/570)
Same as GER 570. See GER 570.

CWL 571 Seminar in Literary Relations credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/571)
Investigation of the impact of one literature upon another, or of some specific works upon others (the role of English literature in continental Europe, the influence of Russian novelists on French and German writers, etc.). May be repeated to a maximum of 12 hours if topics vary.

CWL 576 Methods in Slavic Grad Study credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/576)
Same as SLAV 576. See SLAV 576.

CWL 578 Seminar 20thC French Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/578)
Same as FR 578. See FR 578.

CWL 581 Seminar Lit Themes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/581)
Study of a theme or type (the Faust myth, the romantic hero, etc.) to discover its essential components in all the literatures studied and the significance of national variations. The subject of the seminar varies each term. May be repeated to a maximum of 12 hours if topics vary.

CWL 582 Proseminar credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/582)
Introduction to comparative literature as a discipline, history and philosophy of comparative literature, and training in practical professional skills, including conference presentations, grant writing, and course development. Prerequisite: Graduate standing.

CWL 586 Children and Youth Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/586)
Same as EURO 576, GWS 576, and SCAN 576. See SCAN 576.

CWL 593 Special Studies credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CWL/593)

CWL 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CWL/599)
Intended for students engaged in writing a thesis as a partial requirement for the M.A. or Ph.D. degree in comparative literature. Approved for S/U grading only. May be repeated to a maximum of 8 graduate hours.

Comparative Biosciences (CB)

CB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CB)

Courses

CB 290 Independent Research credit: 1 to 10 Hours. (https://courses.illinois.edu/schedule/terms/CB/290)
Supervised scholarly laboratory work and/or reading in fields selected in consultation with an appropriate faculty member. May be repeated to a maximum of 10 hours in separate terms. Prerequisite: Permission of the instructor.
CB 420  Stem Cell Journal Club  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/420)
This course will consist of a weekly journal club that will meet to discuss published journal articles related to stem cells. The focus will be primarily on clinical applications of stem cells, both adult and embryonic. Journal articles will be selected on a weekly basis to facilitate review of the most recent work in the field. Faculty, staff, post-doctoral fellows, and students from labs conducting stem cell research at the Veterinary School will attend and participate in the discussion. 1 undergraduate hour. 1 graduate hour. Approved for both letter and S/U grading. May be repeated in separate terms to a maximum of 2 undergraduate hours or 6 graduate hours.

CB 434  Pesticide Toxicology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CB/434)
Same as ENVS 433 and IB 486. See IB 486.

CB 449  Basic Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/449)
Same as CPSC 433, ENVS 480 and FSHN 480. See FSHN 480.

CB 467  Fund Phar Discovery & Dev  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CB/467)
Examines fundamental aspects, practices and strategies utilized in the discovery and evaluation of pharmaceutical agents developed for human and animal use. The discovery, preclinical and clinical assessment of drugs is reviewed from both a chemical and biological perspective, in addition to the regulatory guidelines governing those activities and the required post-market surveillance. Also examines major ethical approaches and the strengths and limitation of various development strategies. 2 undergraduate hours. 2 graduate hours. Approved for both letter and S/U grading. Prerequisite: At least one semester of physiology (MCB 103, MCB 240, or equivalent), and biochemistry (MCB 354 or MCB 450 or equivalent) or consent of instructor.

CB 512  Advanced Endocrinology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CB/512)
Same as ANSC 530 and MCB 512. See MCB 512.

CB 514  Neurotoxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/514)
Examines toxic responses of the mammalian nervous system to xenobiotics (therapeutic agents, drugs of abuse, toxins, environmental and industrial chemicals) from the molecular and cellular levels to the behavioral level. Also covers neuroteratology, sensitive periods for neurotoxicity and the potential role of environmental factors/xenobiotics in the etiology of nervous system disorders. Same as ENVS 514 and PSYC 515. Prerequisite: Credit or concurrent registration in MCB 450 or equivalent.

CB 516  Reprod & Dev Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/516)
Introduction to reproductive and developmental toxicology that examines causes and manifestations both of structural malformations and of functional deficits in mammals. Topics covered include interactions between external factors and developmental gene expression, the behavioral consequences of chemical exposure, identification and regulation of reproductive and developmental toxicants. Examples emphasize reproductive and developmental toxicants that are present in the human environment. Same as ENVS 516. Prerequisite: Consent of instructor.

CB 520  Models in Biomedical Research  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CB/520)
Students enrolled in this course will review scientific literature pertaining to experimental models used in biomedical research, and will present selected papers to the class. Faculty members who use these models in their research will attend student presentations and participate in the associated discussions. By the end of the course, student will be familiar with the uses, advantages and limits of key molecular, cellular and animal models used in a range of biomedical research fields. 2 graduate hours. 2 professional hours. May be repeated in separate terms if topics vary. Prerequisite: No prerequisites for graduate students enrolled in a Master of Science or PhD program in a biomedical field. Professional students must obtain the coordinator’s authorization.

CB 533  Repro Physiol Lab Methods  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/533)
Same as ANSC 533 and MCB 533. See ANSC 533.

CB 540  Wildlife Ecosystem Health  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/CB/540)
Provides veterinary professional students and graduate students with an introduction to the use of medical reasoning and technology in the investigation of problems related to conservation biology and ecosystem health. The course is an interactive, video conference assisted seminar series, jointly hosted by the University Of Illinois College Of Veterinary Medicine, Loyola University Chicago Stritch School of Medicine, and the Chicago Zoological Society/Brookfield Zoo. Together, these institutions comprise the "Conservation Medicine Center of Chicago." Topics include the evolutionary origins of HIV/AIDS, the ecology of vector-borne diseases, global amphibian population declines, wildlife epidemiology and pathology, and the role of zoos in disease surveillance and management. Approved for S/U grading only.

CB 550  Detect/Anal Gene Transcripts  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CB/550)
Gives participants the background information and hands-on experience in the methodologies necessary to utilize cloned genes for the detection and quantitation of specific mRNA transcripts in RNA extracted from tissue or cell culture samples. Methodologies covered will include: recombinant plasmid propagation, cDNA probe isolation and isotopic labeling, RNA isolation, Poly A+ mRNA selection, gel separation and transfer of RNA to a membrane (Northern blot), hybridization of specific gene probes to membrane bound RNA (Northern hybridization), detection and quantitation of hybridization signal. These basic methodologies are widely applicable to different experimental systems. They allow an investigator to monitor the effects of physiological manipulations, to animals or cultured cells, at the molecular level. Prerequisite: Consent of instructor.

CB 551  Ecotoxicology North Hemisphere  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/551)
Sources, environmental fate, and adverse effects of manmade and naturally-occurring chemicals on terrestrial and aquatic wildlife and ecological systems will be addressed. Historical and contemporary issues in wildlife health, including direct toxic effects and indirect effects of environmental contaminants will be examined. Focuses mainly on northern hemisphere with multiple examples from North America and Europe. Includes perspectives from academia, industry and public sector. Prerequisite: At least one semester of biology (IB 150 or equivalent), and biochemistry (MCB 354 or equivalent).
CB 552 Ethics in Toxicology credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/552)
Ethical issues in the practice of toxicological research collaboration, authorship and plagiarism, professional responsibility to subjects (both human and animal), whistle-blowing, codes of ethics, legal obligations. Case Studies.

CB 554 Systems Toxicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/554)
Provides an overview of the effects of chemicals and their mechanisms of action in a variety of organ systems. Topics include toxicology of the nervous, developmental, reproductive, thyroid, renal, hepatic, immune, pulmonary, and gastrointestinal systems. Prerequisite: Completion of a course in basic toxicology or consent of instructor.

CB 564 Comp Clinical Pharmacology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/564)
Lecture-discussion of the clinical use in animals of human and veterinary drugs, including current literature review on pharmacodynamic species differences, novel indications, and contrast of therapeutic alternatives. Prerequisite: Graduate Veterinarian or consent of instructor.

CB 590 Seminar credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/590)
Required of all graduate students whose major is comparative biosciences.

CB 591 Biosciences Seminar Series credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/CB/591)
Review and discussion of selected topics. Students are required to participate in weekly discussions and present one formal seminar per year, on a topic approved by the instructor. Approved for S/U grading. May be repeated to a maximum of 4 hours. Prerequisite: Enrollment in CB graduate program or consent of instructor.

CB 592 Special Problems credit: 1 to 12 Hours. (https://courses.illinois.edu/schedule/terms/CB/592)
Basic and applied study including orientation and research on pertinent initial and continuing problems in the student's area of interest. Prerequisite: Consent of instructor.

CB 594 Comparative Bioscience credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CB/594)
To be used to designate a trial or experimental course for five or more students. It is designed to be a graduate course. A course can be taught under this designation two times within a two-year period and cannot be renewed as a CB 594 course. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Consent of instructor.

CB 596 Interdisciplinary Tox Sem credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/596)
Interdisciplinary seminar on topics within the area of toxicology; topics vary each term. Seminars are presented by faculty, visiting lecturers, and students based upon their study, research, and/or professional activities in the selected topic area. Same as ENVS 596 and PATH 596. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Consent of instructor.

CB 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/CB/599)
Individual direction of research and thesis writing. Approved for S/U grading only. May be repeated.

CB 646 Advanced Therapeutics credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CB/646)
Designed as an elective offering for veterinary professional students and graduate students interested in clinical pharmacology. As an extension of core veterinary pharmacology modules in the veterinary professional curriculum, case and/or problem-based discussions will be used to highlight rational therapeutic decision-making and its evidence basis. Drug classes presented in core instruction will be reviewed and new drug classes will introduced in the context of case management discussions.
1 graduate hour. 1 professional hour. Approved for S/U grading only. May be repeated in separate terms to a maximum of 3 hours. Prerequisite: VM 607 or consent of instructor.

CB 692 Special Problems credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/CB/692)
Individual research on a special problem chosen in consultation with the instructor and department head. 1 to 6 graduate hours. 1 to 6 professional hours. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Prerequisite: Enrollment in veterinary medicine curriculum with grade-point average of 3.0 or above, or consent of instructor.

CB 694 Comparative Bioscience credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CB/694)
Basic and applied study including orientation and research on pertinent initial and continuing problems for veterinary medical students. These studies are elective to the CVM professional curriculum. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Prerequisite: Enrollment in the veterinary medicine curriculum or consent of instructor.

Computational Science and Engr (CSE)

CSE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CSE)

Courses

CSE 401 Numerical Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/401)
Same as CS 450, ECE 491 and MATH 450. See CS 450.

CSE 402 Parallel Progrmng: Sci & Engrg credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/402)
Same as CS 420 and ECE 492. See CS 420.

CSE 408 Applied Parallel Programming credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/408)
Same as CS 483 and ECE 408. See ECE 408.

CSE 412 Numerical Thermo-Fluid Mechs credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/412)
Same as ME 412. See ME 412.

CSE 414 Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/414)
Same as CS 473 and MATH 473. See CS 473.

CSE 422 Computer System Organization credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/422)
Same as CS 433. See CS 433.

CSE 423 Operating Systems Design credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/423)
Same as CS 423. See CS 423.
CSE 426  Software Engineering I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/426)
Same as CS 427. See CS 427.

CSE 427  Interactive Computer Graphics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/427)
Same as CS 418. See CS 418.

CSE 428  Statistical Computing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/428)
Same as STAT 428. See STAT 428.

CSE 429  Software Engineering II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/429)
Same as CS 428. See CS 428.

CSE 440  Statistical Data Management  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/440)
Same as STAT 440. See STAT 440.

CSE 441  Introduction to Optimization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/441)
Same as ECE 490. See ECE 490.

CSE 448  Advanced Data Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/448)
Same as STAT 448. See STAT 448.

CSE 450  Computational Mechanics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/450)
Same as TAM 470. See TAM 470.

CSE 451  Finite Element Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/451)
Same as AE 420 and ME 471. See ME 471.

CSE 461  Computational Aerodynamics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/461)
Same as AE 410. See AE 410.

CSE 485  Atomic Scale Simulations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/485)
Same as MSE 485 and PHYS 466. See MSE 485.

CSE 505  Computational Bioengineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/505)
Same as BIOE 505. See BIOE 505.

CSE 510  Numerical Methods for PDEs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/510)
Same as CS 555. See CS 555.

CSE 511  Iterative & Multigrid Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/511)
Same as CS 556. See CS 556.

CSE 512  Parallel Numerical Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/512)
Same as CS 554. See CS 554.

CSE 513  Topics in Numerical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/513)
Same as CS 558. See CS 558.

CSE 515  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/515)
Same as CS 573. See CS 573.

CSE 517  Adv Finite Element Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/517)
Same as TAM 574. See TAM 574.

CSE 521  Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/521)
Same as ECE 511. See ECE 511.

CSE 522  Parallel Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/522)
Same as CS 533. See CS 533.

CSE 525  Computational Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/525)
Same as STAT 525. See STAT 525.

CSE 527  Scientific Visualization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/527)
Same as CS 519. See CS 519.

CSE 529  Interact of Rad w/Matter II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/529)
Same as NPRE 529. See NPRE 529.

CSE 530  Computational Electromagnetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/530)
Same as ECE 540. See ECE 540.

CSE 532  Numerical Circuit Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/532)
Same as ECE 552. See ECE 552.

CSE 542  Statistical Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/542)
Same as ASRM 551 and STAT 542. See STAT 542.

CSE 543  Topics in Image Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/543)
Same as ECE 547. See ECE 547.

CSE 551  Finite Element Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/551)
Same as CEE 570. See CEE 570.

CSE 552  Nonlinear Finite Elements  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/552)
Same as CEE 576. See CEE 576.

CSE 553  Computational Inelasticity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/553)
Same as CEE 577. See CEE 577.

CSE 554  Computational Plates & Shells  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/554)
Same as CEE 571. See CEE 571.

CSE 560  Computational Fluid Mechanics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/560)
Same as TAM 570. See TAM 570.

CSE 561  Computational Process Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/561)
Same as ME 554. See ME 554.

CSE 566  Numerical Fluid Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/566)
Same as ATMS 502. See ATMS 502.

CSE 576  Computational Chemical Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CSE/576)
Same as BIOP 576 and CHEM 576. See CHEM 576.
Computer Science (CS)

CS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CS)

Courses

CS 100  Freshman Orientation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CS/100)
Introduction to Computer Science as a field and career for computer science majors. Overview of the field and specific examples of problem areas and methods of solution.

CS 101  Intro Computing: Engrg & Sci credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/101)
Fundamental principles, concepts, and methods of computing, with emphasis on applications in the physical sciences and engineering. Basic problem solving and programming techniques; fundamental algorithms and data structures; use of computers in solving engineering and scientific problems. Intended for engineering and science majors. Prerequisite: MATH 220 or MATH 221. This course satisfies the General Education Criteria for: Quantitative Reasoning II

CS 102  Little Bits to Big Ideas credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/102)
Same as INFO 102. See INFO 102. This course satisfies the General Education Criteria for: Quantitative Reasoning I

CS 105  Intro Computing: Non-Tech credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/105)
Computing as an essential tool of academic and professional activities. Functions and interrelationships of computer system components: hardware, systems and applications software, and networks. Widely used application packages such as spreadsheets and databases. Concepts and practice of programming for the solution of simple problems in different application areas. Intended for non-science and non-engineering majors. Prerequisite: MATH 112. This course satisfies the General Education Criteria for: Quantitative Reasoning I

CS 125  Intro to Computer Science credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/125)
Basic concepts in computing and fundamental techniques for solving computational problems. Intended as a first course for computer science majors and others with a deep interest in computing. Prerequisite: Three years of high school mathematics or MATH 112. This course satisfies the General Education Criteria for: Quantitative Reasoning I

CS 126  Software Design Studio credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/126)
Fundamental principles and techniques of software development. Design, documentation, testing, and debugging software, with a significant emphasis on code review. Credit is not given for both CS 242 and CS 126. Prerequisite: CS 125. For majors only.

CS 173  Discrete Structures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/173)
Discrete mathematical structures frequently encountered in the study of Computer Science. Sets, propositions, Boolean algebra, induction, recursion, relations, functions, and graphs. Credit is not given for both CS 173 and MATH 213. Prerequisite: One of CS 125, ECE 220; one of MATH 220, MATH 221.

CS 196  Freshman Honors credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CS/196)
Offered for honors credit in conjunction with other 100-level computer science courses taken concurrently. A special examination may be required for admission to this course. May be repeated. Prerequisite: Concurrent registration in another 100-level computer science course (see Schedule).

CS 199  Undergraduate Open Seminar in Computer Science credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CS/199)
Topics vary. Approved for Letter and S/U grading. May be repeated.

CS 210  Ethical & Professional Issues credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CS/210)
Ethics for the computing profession. Ethical decision-making; licensing; intellectual property, freedom of information, and privacy. Credit is not given for both CS 210 and ECE 316. Prerequisite: CS 225. Junior standing required.

CS 225  Data Structures credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/225)
Data abstractions: elementary data structures (lists, stacks, queues, and trees) and their implementation using an object-oriented programming language. Solutions to a variety of computational problems such as search on graphs and trees. Elementary analysis of algorithms. Prerequisite: CS 125 or ECE 220; CS 173 or MATH 213. This course satisfies the General Education Criteria for: Quantitative Reasoning II

CS 233  Computer Architecture credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/233)
Fundamentals of computer architecture: digital logic design, working up from the logic gate level to understand the function of a simple computer; machine-level programming to understand implementation of high-level languages; performance models of modern computer architectures to enable performance optimization of software; hardware primitives for parallelism and security. Prerequisite: CS 125 and CS 173; credit or concurrent enrollment in CS 225.

CS 240  Introduction to Computer Systems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/240)
Basics of computer systems. Number representations, assembly/machine language, abstract models of processors (fetch/execute, memory hierarchy), processes/process control, simple memory management, file I/O and directories, network programming, usage of cloud services. Prerequisite: CS 225 or both CS 205 and CS 110C++.

CS 241  System Programming credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/241)
Basics of system programming, including POSIX processes, process control, inter-process communication, synchronization, signals, simple memory management, file I/O and directories, shell programming, socket network programming, RPC programming in distributed systems, basic security mechanisms, and standard tools for systems programming such as debugging tools. Credit is not given for both CS 241 and ECE 391. Prerequisite: CS 225 and CS 233.

CS 242  Programming Studio credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/242)
Intensive programming lab intended to strengthen skills in programming. Prerequisite: CS 241.
CS 296 Honors Course credit: 1 Hour. Group projects for honors credit in computer science. Sections of this course are offered in conjunction with other 200-level computer science courses taken concurrently. A special examination may be required for admission to this course. May be repeated. Prerequisite: Concurrent registration in another 200-level computer science course (see Schedule).

CS 357 Numerical Methods I credit: 3 Hours. Fundamentals of numerical methods for students in science and engineering: floating-point computation, systems of linear equations, approximation of functions and integrals, the single nonlinear equation, and the numerical solution of ordinary differential equations; various applications in science and engineering; programming exercises and use of high quality mathematical library routines. Same as MATH 357. Credit is not given for CS 357 if credit for CS 450 has been earned. (Counts for advanced hours in LAS). Prerequisite: A 100-level computer science course; MATH 225 or MATH 415; MATH 241.

CS 361 Probability & Statistics for Computer Science credit: 3 Hours. Introduction to probability theory and statistics with applications to computer science. Topics include: visualizing datasets, summarizing data, basic descriptive statistics, conditional probability, independence, Bayes theorem, random variables, joint and conditional distributions, expectation, variance and covariance, central limit theorem. Markov inequality, Chebyshev inequality, law of large numbers, Markov chains, simulation, the PageRank algorithm, populations and sampling, sample mean, standard error, maximum likelihood estimation, Bayes estimation, hypothesis testing, confidence intervals, linear regression, principal component analysis, classification, and decision trees. Same as STAT 361. Credit is not given for both CS 361 and ECE 313. Prerequisite: MATH 220 or 221; credit or concurrent registration in one of MATH 225, MATH 415 or MATH 416. For majors only.

CS 374 Introduction to Algorithms & Models of Computation credit: 4 Hours. Analysis of algorithms, major paradigms of algorithm design including recursive algorithms, divide-and-conquer algorithms, dynamic programming, greedy algorithms, and graph algorithms. Formal models of computation including finite automata and Turing machines. Limitations of computation arising from fundamental notions of algorithm and from complexity-theoretic constraints. Reductions, undecidability and NP-completeness. Same as ECE 374. Prerequisite: CS 225; MATH 225 or MATH 415.

CS 397 Individual Study credit: 1 to 3 Hours. May be repeated. Prerequisite: Consent of instructor.

CS 398 Special Topics credit: 1 to 4 Hours. Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

CS 410 Text Information Systems credit: 3 or 4 Hours. Theory, design, and implementation of text-based information systems. Text analysis, retrieval models (e.g., Boolean, vector space, probabilistic), text categorization, text filtering, clustering, retrieval system design and implementation, and applications to web information management. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 411 Database Systems credit: 3 or 4 Hours. Examination of the logical organization of databases: the entity-relationship model; the hierarchical, network, and relational data models and their languages. Functional dependencies and normal forms. Design, implementation, and optimization of query languages; security and integrity; concurrency control, and distributed database systems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 412 Introduction to Data Mining credit: 3 or 4 Hours. Concepts, techniques, and systems of data warehousing and data mining. Design and implementation of data warehouse and on-line analytical processing (OLAP) systems; data mining concepts, methods, systems, implementations, and applications. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 413 Intro to Combinatorics credit: 3 or 4 Hours. Same as MATH 413. See MATH 413.

CS 414 Multimedia Systems credit: 3 or 4 Hours. Organization and structure of modern multimedia systems; audio and video encoding; quality of service concepts; scheduling algorithms for multimedia within OS and networks multimedia protocols over high-speed networks; synchronization schemes, user-interface design; multimedia teleservices. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 418 Interactive Computer Graphics credit: 3 or 4 Hours. Basic mathematical tools and computational techniques for modeling, rendering, and animating 3-D scenes. Same as CSE 427. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225; MATH 225 or MATH 415; MATH 241.

CS 419 Production Computer Graphics credit: 3 or 4 Hours. Advanced methods for representing, displaying, and rendering two-, three-, and four-dimensional scenes. General algebraic curves and surfaces, splines, Gaussian and bump-function representation, fractals, particle systems, constructive solid geometry methods, lighting models, radiosity, advanced ray-tracing methods, surface texturing animation techniques, data visualization methods. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 418.

CS 420 Parallel Programming: Sci & Engr credit: 3 or 4 Hours. Fundamental issues in design and development of parallel programs for various types of parallel computers. Various programming models according to both machine type and application area. Cost models, debugging, and performance evaluation of parallel programs with actual application examples. Same as CSE 402 and ECE 492. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 421 Programming Languages & Compilers credit: 3 or 4 Hours. Structure of programming languages and their implementation. Basic language design principles; abstract data types; functional languages; type systems; object-oriented languages. Basics of lexing, parsing, syntax-directed translation, semantic analysis, and code generation. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 230 or CS 240; CS 374.
CS 422  Programming Language Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/422)
Exploration of major language design paradigms using imperative and functional programming as unifying themes. Tools include both practical language processor construction and theoretical models. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 421.

CS 423  Operating Systems Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/423)
Organization and structure of modern operating systems and concurrent programming concepts. Deadlock, virtual memory, processor scheduling, and disk systems. Performance, security, and protection. Same as CSE 423. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 424  Real-Time Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/424)
Supervisory control aspects of Cyber Physical Systems (CPS): fundamentals of reliability analysis, real-time scheduling, simple feedback control, software fault tolerance architecture, wireless networking and energy saving, principles of safety critical system engineering. Student groups design and demonstrate supervisory control architecture for a robot. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241.

CS 425  Distributed Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/425)
Protocols, specification techniques, global states and their determination, reliable broadcast, transactions and commitment, security, and real-time systems. Same as ECE 428. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 426  Compiler Construction  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/426)
Compiler structure, syntax analysis, syntax-directed translation, automatically constructed recognizers, semantic analysis, code generation, intermediate language, optimization techniques. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 421.

CS 427  Software Engineering I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/427)
Software process, analysis and design. Software development paradigms, system engineering, function-based analysis and design, and object-oriented analysis and design. Course will use team-projects for hands-on exercises. Same as CSE 426. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225 and CS 373.

CS 428  Software Engineering II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/428)
Continuation of CS 427. Software development, management, and maintenance. Project and configuration management, collaborative development models, software quality assurance, interoperability domain engineering and software reuse, and software re-engineering. Same as CSE 429. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 427.

CS 429  Software Engineering II, ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/429)
Continuation of CS 427. Identical to CS 428 except for the additional writing component. See CS 428. 3 undergraduate hours. 3 graduate hours. Prerequisite: CS 427.
This course satisfies the General Education Criteria for: Advanced Composition

CS 431  Embedded Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/431)
A survey of sampled data systems and embedded architecture; key concepts in common embedded system applications; signal processing and control; embedded microprocessor and device interface; time-critical I/O handling; data communications; real-time operating systems and techniques for the development and analysis of embedded real-time software; hands-on laboratory projects. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 433  Computer System Organization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/433)
Computer system analysis and design. Organizational dependence on computations to be performed; speed and cost of parts and overall machines; instruction set design; pipeline and vector machines; memory hierarchy design. Same as CSE 422. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 233.

CS 436  Computer Networking Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/436)
Same as ECE 435. See ECE 435.

CS 438  Communication Networks  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/438)
Layered architectures and the OSI Reference Model; design issues and protocols in the transport, network, and data link layers; architectures and control algorithms of local-area, point-to-point, and satellite networks; standards in networks access protocols; models of network interconnection; overview of networking and communication software. Same as ECE 438. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391, one of ECE 313, MATH 461, MATH 463.

CS 439  Wireless Networks  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/439)
Same as ECE 439. See ECE 439.

CS 440  Artificial Intelligence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/440)
Major topics in and directions of research in artificial intelligence: AI languages (LISP and PROLOG), basic problem solving techniques, knowledge representation and computer inference, machine learning, natural language understanding, computer vision, robotics, and societal impacts. Same as ECE 448. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225 or ECE 391.

CS 445  Computational Photography  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/445)
Computer vision techniques to enhance, manipulate, and create media from photo collections, such as panoramic stitching, face morphing, texture synthesis, blending, and 3D reconstruction. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225, MATH 225, and MATH 231.

CS 446  Machine Learning  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/446)
Theory and basic techniques in machine learning. Major theoretical paradigms and key concepts developed in machine learning in the context of applications such as natural language and text processing, computer vision, data mining, adaptive computer systems and others. Review of several supervised and unsupervised learning approaches: methods for learning linear representations; on-line learning, Bayesian methods; decision-trees; features and kernels; clustering and dimensionality reduction. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 373 and CS 440.
CS 447  Natural Language Processing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/447)
Part-of-speech tagging, parsing, semantic analysis and machine translation. Relevant linguistics concepts from morphology (word formation) and lexical semantics (the meaning of words) to syntax (sentence structure) and compositional semantics (the meaning of sentences). 3 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both CS 447 and LING 406. Prerequisite: CS 374.

CS 450  Numerical Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/450)
Linear system solvers, optimization techniques, interpolation and approximation of functions, solving systems of nonlinear equations, eigenvalue problems, least squares, and quadrature; numerical handling of ordinary and partial differential equations. Same as CSE 401, ECE 491, and MATH 450. 3 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both CS 450 and CS 457. Prerequisite: CS 101 or CS 125; CS 357 or MATH 415; MATH 285.

CS 457  Numerical Methods II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/457)
Continuation of CS 357. Orthogonalization methods for least squares, Krylov subspace methods, non-linear equations and optimization in multiple dimensions, initial and boundary value problems for ordinary and partial differential equations. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 457 and CS 450. Prerequisite: CS 357.

CS 460  Security Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/460)
Operating systems security: access control, least privilege mechanism and malware techniques. Network security: firewalls, sniffing, tunnels, intrusion detection, AAA and worm structure. System security: forensics security architectures, and attack/defend exercises. Complements CS 461 via hands-on project. Same as ECE 419. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 461.

CS 461  Computer Security I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/461)
Fundamental principles of computer and communications security and information assurance: ethics, privacy, notions of threat, vulnerabilities, and risk in systems, information warfare, malicious software, data secrecy and integrity issues, network security, trusted computing, mandatory and discretionary access controls, certification and accreditation of systems against security standards. Security mechanisms: authentication, auditing, intrusion detection, access control, cryptography, security protocols, key distribution. Same as ECE 422. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 241 or ECE 391.

CS 463  Computer Security II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/463)
Program security, trusted base, privacy, anonymity, non-interference, information flow, confinement, advanced auditing, forensics, intrusion detection, key management and distribution, policy composition and analysis, formal approaches to specification and verification of secure systems and protocols, and topics in applied cryptography. Same as ECE 424. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 461. Recommended: CS 475.

CS 465  User Interface Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/465)
A project-focused course covering fundamental principles of user interface design, implementation, and evaluation. Small teams work on a term-long project that involves: analysis of the problem domain, user skills, and tasks; iterative prototyping of interfaces to address user needs; conducting several forms of evaluation such as cognitive walkthroughs and usability tests; implementation of the final prototype. Non-technical majors may enroll as non-programmers who participate in all aspects of the projects with the possible exception of implementation. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 466  Introduction to Bioinformatics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/466)
Algorithmic approaches in bioinformatics: (i) biological problems that can be solved computationally (e.g., discovering genes, and interactions among different genes and proteins); (ii) algorithmic techniques with wide applicability in solving these problems (e.g., dynamic programming and probabilistic methods); (iii) practical issues in translating the basic algorithmic ideas into accurate and efficient tools that biologists may use. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 467  Social Visualization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/467)
Visualizing social interaction in networked spaces: investigation of patterns in networked communications systems such as messaging (email, instant messaging), social networking sites and collaborative sites; social network theory and visualizations; exploration of how to move beyond existing visualization techniques; visualizing the network identity over compilations of online data. 3 or 4 graduate hours. Prerequisite: CS 225.

CS 468  Tech and Advertising Campaigns  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/468)
Same as ADV 492. See ADV 492.

CS 473  Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/473)
Design and analysis techniques, approximation algorithms, randomized algorithms and amortized analysis, and advanced topics such as network flow, linear programming, and dynamic data structures, among others. Same as CSE 414 and MATH 473. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 374, and one of CS 361, MATH 461, or STAT 400.

CS 475  Formal Models of Computation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/475)
Finite automata and regular languages; pushdown automata and context-free languages; Turing machines and recursively enumerable sets; linear-bounded automata and context-sensitive languages; computability and the halting problem; undecidable problems; recursive functions; Chomsky hierarchy; computational complexity. Same as MATH 475. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 374.

CS 476  Program Verification  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/476)
Formal methods for demonstrating correctness and other properties of programs. Invariant assertions; Hoare axiomatics; well-founded orderings for proving termination; structural induction; computational induction; data structures; parallel programs; overview of predicate calculus. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225; CS 374 or MATH 414.
CS 477  Formal Software Devel Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/477)
Mathematical models, languages, and methods for software specification, development, and verification. Same as ECE 478. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 225; CS 373 or MATH 414.

CS 481  Advanced Topics in Stochastic Processes & Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/481)
Same as IE 410. See IE 410.

CS 482  Simulation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/482)
Same as IE 413. See IE 413.

CS 483  Applied Parallel Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/483)
Same as CSE 408 and ECE 408.

CS 484  Parallel Programming  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/484)
Techniques for the programming of all classes of parallel computers and devices including shared memory and distributed memory multiprocessors, SIMD processors and co-processors, and special purpose devices. Key concepts in parallel programming such as reactive and transformational programming, speculation, speedup, isoefficiency, and load balancing. Synchronization primitives, libraries and languages for parallel programming such as OpenMP and MPI, performance monitoring, program tuning, analysis and programming of numerical and symbolic parallel algorithms. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241.

CS 491  Seminar  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/491)
Seminar on topics of current interest as announced in the Class Schedule. 0 to 4 undergraduate hours. 0 to 4 graduate hours. Approved for S/U grading only. May be repeated in the same or separate terms if topics vary to a maximum of 4 hours. Prerequisite: As specified for each topic offering, see Class Schedule or departmental course description.

CS 492  Senior Project I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/492)
First part of a project course in computer science. Students work in teams to solve typical commercial or industrial problems. Work involves planning, design, and implementation. Extensive oral and written work is required both on-campus and possibly off-campus at sponsors' locations. CS 492 must be taken as a sequence with either CS 493 or CS 494. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 492 and a project course in another engineering department for the same project. Prerequisite: For Computer Science majors with senior standing.

CS 493  Senior Project II, ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/493)
Continuation of CS 492. Identical to CS 494 except for an additional writing component. See CS 494. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 493 and a project course in another engineering department for the same project. Prerequisite: CS 492. This course satisfies the General Education Criteria for: Advanced Composition

CS 494  Senior Project II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/494)
Continuation of CS 492. 3 undergraduate hours. No graduate credit. Credit is not given for both CS 494 and a project course in another engineering department for the same project. Prerequisite: CS 492.

CS 497  CS Team Project  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/497)
Student teams work with CS faculty to complete a significant project requiring advanced knowledge of CS principles. Project topics vary. 1 to 3 undergraduate hours. No graduate credit. May be repeated in the same term up to 6 hours, if topics vary; may be repeated in separate terms. Prerequisite: For majors only; junior or senior standing required.

CS 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/498)
Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.

CS 499  Senior Thesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CS/499)
Research and thesis development experience in computer science underguidance of a faculty member. Literature search, oral presentation, analysis and implementation, paper preparation, and completion of a written thesis. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

CS 508  Manycore Parallel Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/508)
Same as ECE 508. See ECE 508.

CS 510  Advanced Information Retrieval  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/510)
Advanced concepts, models, and algorithms in information retrieval and major recent developments in the field, including historical milestones in information retrieval research, evaluation methodology, vector space retrieval model, probabilistic retrieval models, learning to rank algorithms, probabilistic topic models, information retrieval systems, text analytics, and topics of research frontiers in information retrieval. 4 graduate hours. No professional credit. Prerequisite: One of CS 410, CS 412, CS 446 or LING 406.

CS 511  Advanced Data Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/511)
Advanced concepts in data management and information system design and implementation, and recent developments in the field. 1) Relational roots, objects and extensibility, query languages, data indexing, query processing, transaction processing, benchmarks, and 2) semi-structured data and unstructured data, information extraction, information integration, web search and mining, and other emerging directions in the field. Prerequisite: CS 411.

CS 512  Data Mining Principles  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/512)
An advanced course on principles and algorithms of data mining. Data cleaning and integration; descriptive and predictive mining; mining frequent, sequential, and structured patterns; clustering, outlier analysis and fraud detection; stream data, web, text, and biomedical data mining; security and privacy in data mining; research frontiers. Prerequisite: CS 412.
CS 513  Theory & Practice of Data Cleaning credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/513)
Same as IS 532. See IS 532.

CS 519  Scientific Visualization credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/519)
Visualization techniques useful in analysis of engineering and scientific data. Physical models; methods of computational science; two- and three-dimensional data types; visual representation schemes for scalar, vector, and tensor data; isosurface and volume visualization methods; visual monitoring; interactive steering. Same as CSE 527. Prerequisite: CS 433.

CS 520  Advanced Operating Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/520)
Advanced concepts in operating system design and coverage of recent research directions. Resource management for parallel and distributed systems. Interaction between operating system design and computer architectures. Process management, virtual memory, interprocess communication, context switching, parallel and distributed file system designs, persistent objects, process and data migration, load balancing, security, protection. Term projects. Prerequisite: CS 423, CS 425, and CS 433.

CS 524  Concurrent Progrgm Languages credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/524)
Theory of concurrency and concurrent programming languages. Formal models of concurrent computation such as process algebras, nets, and actors; high level concurrent programming languages and their operational semantics; methods for reasoning about correctness and complexity of concurrent programs. Prerequisite: CS 422; CS 475 or CS 476.

CS 525  Advanced Distributed Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/525)
Peer-to-peer systems, sensor networks, and fundamental theoretical distributed computing. Review of classical work in each area, and application of design methodologies to explore overlaps across them. Emphasis on protocol design, systems issues, and theory. Reading selections are roughly two-third classical to one-third contemporary. Students write critiques, make presentations, and create a conference paper in a systematic manner. Prerequisite: One of CS 423, CS 425, CS 438.

CS 526  Advanced Compiler Construction credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/526)
Incremental and interactive compiling, error correction, code optimization, models of code generators. Prerequisite: CS 426.

CS 527  Topics in Software Engineering credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/527)
Fault-tolerant software, software architecture, software patterns, multi-media software, and knowledge-based approaches to software engineering. Case studies. Prerequisite: CS 428 or CS 429.

CS 528  Obj-Oriented Progrmg & Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/528)
Principles of object-oriented design; design patterns; use and design of frameworks; reflection, refractoring, use of unit tests as specifications. Prerequisite: CS 427.
CS 548 Models of Cognitive Processes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/548)
Formal models and concepts in automated cognition; integrating machine learning and prior knowledge; current approaches and detailed analyses of the role of reasoning in the learning process; computational complexity and fundamental tradeoffs between expressiveness and tractability; implications for state-of-the-art artificial intelligence areas such as automated planning, the semantic web, relational learning, structured prediction, latent models, structure learning, theory formation, etc.; philosophical and psychological aspects of integrating analytic and empirical evidence. Same as ECE 548. Prerequisite: CS 440 or CS 446.

CS 549 Seminar in Cognitive Science credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/549)
Same as PSYC 514, ANTH 514, EPSY 551, LING 570, and PHIL 514. See PSYC 514.

CS 554 Parallel Numerical Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/554)
Numerical algorithms for parallel computers: parallel algorithms in numerical linear algebra (dense and sparse solvers for linear systems and the algebraic eigenvalue problem), numerical handling of ordinary and partial differential equations, and numerical optimization techniques. Same as CSE 512. Prerequisite: One of CS 450, CS 457, CS 555.

CS 555 Numerical Methods for PDEs credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/555)
Numerical techniques for initial and boundary value problems in partial differential equations. Finite difference and finite element discretization techniques, direct and iterative solution methods for discrete problems, and programming techniques and usage of software packages. Same as CSE 510. Prerequisite: CS 450 or CS 457.

CS 556 Iterative & Multigrid Methods credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/556)
Comprehensive treatment of algebraic and multigrid iterative methods to solve systems of equations, primarily linear equations arising from discretization of partial differential equations. Same as CSE 511.

CS 558 Topics in Numerical Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/558)
Advanced topics in numerical analysis selected from areas of current research. Same as CSE 513. May be repeated. Prerequisite: As specified for each topic offering, see Schedule or departmental course description.

CS 563 Advanced Computer Security credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/563)
Current research trends in computer and network security. Privacy, tamper-resistance, unwanted traffic, monitoring and surveillance, and critical infrastructure protection. Subtopics will vary depending upon current research trends. Students work in teams in close coordination with the course instructor to develop one of the topics in depth by carrying out background research and an exploratory project. Same as ECE 524. Prerequisite: CS 461 or CS 463.

CS 565 Human-Computer Interaction credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/565)
In-depth coverage of advanced topics in human-computer interaction (HCI). Applied models of human performance and attention, design tools for creative design tasks, interruptions and peripheral displays, gestures, and bimanual input, and usability evaluation techniques. Students complete a research-oriented term project of their choosing. Prerequisite: CS 465.

CS 571 Combinatorial Mathematics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/571)
Same as MATH 580. See MATH 580.

CS 572 Extremal Graph Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/572)
Same as MATH 581. See MATH 581.

CS 573 Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/573)
NP-completeness, design and analysis techniques, approximation algorithms, randomized algorithms, combinatorial optimization, linear programming. Intended for graduate students in Computer Science. Same as CSE 515. 4 graduate hours. No professional credit.

CS 574 Randomized Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/574)
Basic and advanced concepts in the design and analysis of randomized algorithms. Sampling; concentration inequalities such as Chernoff-Hoeffding bounds; probabilistic method; random walks, dimension reduction; entropy; martingales and Azuma's inequality; derandomization. Randomized algorithms for sorting and searching; graphs; geometric problems. Basics of pseudorandomness and randomized complexity classes. Prerequisite: CS 473; MATH 451 or STAT 400.

CS 575 Methods of Combinatorics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/575)
Same as MATH 584. See MATH 584.

CS 576 Topics in Automated Deduction credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/576)
Advanced topics in computer-aided methods for formal deduction, selected from areas of current research, such as: resolution theorem proving strategies, special relations, equational reasoning, unification theory, rewrite systems, mathematical induction, program derivation, hybrid inference systems, and programming with logic. May be repeated in separate terms. Prerequisite: As specified for each topic offering, see Schedule or departmental course description.

CS 579 Computational Complexity credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/579)
Turing machines; determinism and non-determinism; time and space hierarchy theorems; speed-up and tape compression; Blum axioms; structure of complexity classes NP, P, NL, L, and PSPACE; complete problems; randomness and complexity classes RP, RL, and BPP; alternation, polynomial-time hierarchy; circuit complexity, parallel complexity, NC, and RNC; relativized computational complexity; time-space trade-offs. Same as ECE 579. Prerequisite: CS 473 or CS 475.

CS 581 Algorithmic Genomic Biology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/581)
Same as BIOE 540. See BIOE 540.

CS 583 Approximation Algorithms credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/583)
Approximation algorithms for NP-hard problems. Basic and advanced techniques in approximation algorithm design: combinatorial algorithms; mathematical programming methods including linear and semi-definite programming, local search methods, and others. Algorithms for graphs and networks, constraint satisfaction, packing and scheduling. Prerequisite: CS 573 or consent of instructor.

CS 584 Embedded System Verification credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CS/584)
Same as ECE 584. See ECE 584.
Building upon the workshop format of CW 106, with an emphasis on formal elements central to the production of creative writing (e.g., plot, character, setting, point of view in short fiction and rhythm, meter, line break, imagery, simile, metaphor, formal patterns in poetry). Prerequisite: CW 104 or CW 106. For majors only.

**CW 202** Topics in Creative Writing  
3 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/202)  
Independent writing projects and examination of literature as the cultural basis of the student’s specialized fields. May be repeated as topics vary.

**CW 204** Intermediate Narrative Writing  
3 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/204)  
Practice in the writing of fiction, with emphasis on the short story. Prerequisite: CW 104 or equivalent.

**CW 206** Intermediate Poetry Writing  
3 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/206)  
Builds upon the workshop format of CW 106, with an emphasis on prosody and poetic technique. Students will deepen their sense of craft by putting into practice their study and understanding of a variety of poetic forms (e.g., syllabic poetry, dramatic monologue, sonnet, bound/free verse) and technical concerns (e.g., voice, tone, line, line break, image). The workshop component of the course typically includes 8-12 completed poems and their revisions. Prerequisite: CW 106.

**CW 208** Creative Nonfiction Writing  
3 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/208)  
Types of nonfiction prose, including the personal essay, memoir, literary journalism, and historical writing. Prerequisite: RHET 233 or CW 243, or equivalent, or consent of instructor.

**CW 243** Inter Expository Writing  
3 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/243)  
Practice in expository types, with emphasis on style and critical analysis. Restricted to Creative Writing majors. Credit is not given for CW 243 and either RHET 243 or RHET 233. Prerequisite: Completion of campus Composition I general education requirement.

This course satisfies the General Education Criteria for: Advanced Composition

**CW 404** Advanced Narrative Writing  
3 or 4 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/404)  
Continued practice in the writing of fiction, with emphasis on the longer story. 3 undergraduate hours. 4 graduate hours. May be repeated for a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 204 or equivalent.

**CW 406** Advanced Poetry Writing  
3 or 4 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/406)  
Practice of the writing of poetry aided by intensive study of examples. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 206 or equivalent.

**CW 455** Creative Writing Tutorial  
3 or 4 Hours.  
(https://courses.illinois.edu/schedule/terms/CW/455)  
Personal direction in a writing project: fiction (novel or short stories), poetry or creative nonfiction. Frequency of conference to be determined by the type of project. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: CW 208, CW 404 or CW 406, and consent of the Director of Creative Writing.
CW 460  Intro to Literary Editing  credit: 3 Hours.  
Practicum in which students learn all the stages of developing and editing a literary publication. Students will solicit, read, and select poems and stories for an online supplement to the Ninth Letter literary journal. At the end of the semester, the supplement will be published on the Ninth Letter website (www.ninthletter.com). Students will gain experience in professional communications, copyediting, and marketing.

3 undergraduate hours. No graduate credit. May be repeated in separate semesters to a maximum of 6 hours. Prerequisite: CW 104 or CW 106.

CW 463  Adv Topics in Creative Writing  credit: 3 or 4 Hours.  
Advanced topics course in Creative Writing. Students study selected topic through a workshop model, pursuing advanced development in one or more approaches to writing in a specialized field or genre. 3 undergraduate hours. 4 graduate hours. May be repeated, if topics vary. Prerequisite: Junior standing required.

CW 500  The Craft of Fiction  credit: 4 Hours.  
Examination of the creative process of fiction from the perspectives of aesthetics and techniques, illustrated from the work of selected authors. Prerequisite: Graduate standing in English.

CW 502  Problems in Poetry Writing  credit: 4 Hours.  
Examination of the creative process of poetry from the perspective of aesthetics and techniques, illustrated from the work of selected authors. Prerequisite: Graduate standing in English.

CW 504  Writing Workshop in Fiction  credit: 4 Hours.  
Directed individual projects, with group discussion in fiction. May be repeated to a maximum of 16 hours. Prerequisite: Admission to the MFA program, or graduate standing in English with advanced submission of creative work and consent of instructor.

CW 506  Writing Workshop in Poetry  credit: 4 Hours.  
Directed individual projects, with group discussion in poetry. May be repeated to a maximum of 16 hours. Prerequisite: Admission to the MFA program, or graduate standing in English with advanced submission of creative work and consent of instructor.

CW 560  Literary Publishing & Promotion  credit: 0 to 4 Hours.  
A working practicum designed to teach graduate students the basics of literary journal publishing and to introduce them to career and entrepreneurial opportunities in other types of literary arts organizations. Students will attend weekly editorial meetings, complete weekly reading assignments, and will work 2 hours per week in the ‘Ninth Letter’ office, reading manuscript submissions and completing various clerical tasks for the journal. Approved for both letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: MFA candidate standing.

CW 563  Special Topics  credit: 0 to 4 Hours.  
Approved for both letter and S/U grading. May be repeated up to a maximum of 12 hours. Prerequisite: MFA candidate standing or consent of instructor.

CW 591  Independent Study  credit: 0 to 4 Hours.  
Approved for both letter and S/U grading. May be repeated up to a maximum of 12 hours. Prerequisite: MFA candidate standing.

CW 595  Final Project  credit: 0 to 12 Hours.  
Guidance in writing final projects. Approved for S/U grading only. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: MFA candidate standing.

Crop Sciences (CPSC)

CPSC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CPSC)

Courses

CPSC 102  Research in Crop Sciences  credit: 1 Hour.  
Introductory course covering the principles and practices of crop production and sustainable agroecosystem management. Topics include plant growth and development, environmental factors influencing plant productivity, soil management, fertility, and nutrient cycling, pest control principles, and sustainability challenges facing modern crop production. Concepts are discussed in lecture and reinforced in hands-on laboratory sections. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

CPSC 112  Introduction to Crop Sciences  credit: 4 Hours.  
Introductory course covering the principles and practices of crop production and sustainable agroecosystem management. Topics include plant growth and development, environmental factors influencing plant productivity, soil management, fertility, and nutrient cycling, pest control principles, and sustainability challenges facing modern crop production. Concepts are discussed in lecture and reinforced in hands-on laboratory sections. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

CPSC 113  Environment, Agric, & Society  credit: 3 Hours.  
Introduction to agriculture and the environment; examine the largest managed ecosystem and its influence on natural ecosystems; develop a working understanding of natural and agriculture ecosystems and their interaction; examine various agriculture management strategies that can be used to produce food for an increasing world population while maintaining or improving environmental quality. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

CPSC 116  The Global Food Production Web  credit: 3 Hours.  
Introductory course in which students are introduced to the global web involved in the production of food we consume on a daily basis. Selected ecosystems of plants, people, and cultures in Asia, Africa, and Latin America will be studied based on involvement with various crops. The origin and biology of plants; their evolution with humankind in various cultures; the spread and economic importance of crops around the world; and considers current hunger and environmental issues resulting from the global food web. Interactive communications with selected scientists, producers, and traders around the world through the World Wide Web and email system of the INTERNET permit students to get personal exposure to information and activities. This course satisfies the General Education Criteria for: Cultural Studies - Non-West
CPSC 117  Agriculture and Science of Coffee  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/117)
The growth and production of coffee and its impact on society and culture. The botanical aspects of coffee, coffee varieties/cultivars, and technologies for coffee growth, harvesting, post-harvest processing, and roasting will be discussed. The wide variety of coffee beverages, coffee flavor evaluation, coffee chemistry, coffee economics, and the physiological effects of coffee will also be examined.

CPSC 131  Agriculture in Mythology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/131)
Compare and contrast the role agriculture and plant sciences played in the development of ancient cultures. Study agricultural references in ancient global mythology. Develop an appreciation of how agricultural diversity of various ancient cultures influenced mythology in the cultures in different regions.

This course satisfies the General Education Criteria for: Cultural Studies - Non-West

CPSC 180  Medicinal Plants and Herbology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/180)
Same as HORT 180. See HORT 180.

CPSC 190  African American Food Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/190)
Introduces students to the many foods commonly considered American that are in fact African in origin; explores the neglected story of how people, crops, and knowledge from Africa were transplanted into the New World; examines the historical, cultural, and agricultural roots of African American food systems; and evaluates the scientific (physical and social) and cultural aspects of these food systems to understand the origins, evolution, and contributions of African American food culture.

CPSC 199  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/199)
Experimental course on a special topic in crop sciences. Approved for Letter and S/U grading. May be repeated if topics vary.

CPSC 213  Evolution in Action  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/213)
Introduction to evolutionary theory. Examination of how domesticated species have evolved. Develops an appreciation of how agroecosystems influence evolution of adjacent natural ecosystems. Elucidation of evolutionary mechanisms necessary for agricultural species to adapt to global climate change.

CPSC 215  The Prairie and Bioenergy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/215)
Designed for students who are interested in bioenergy and its production from prairie land. Instructors will provide information on the global trend of bioenergy production and consumption, importance of bioenergy, the role of Illinois prairie land in bioenergy production, potential U.S. bioenergy production, biofuels from plants, and socio-environmental benefits of bioenergy.

CPSC 226  Introduction to Weed Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/226)
Fundamentals of weed biology, ecology, and management. Emphasis is placed on basic principles and specific management strategies that are relevant to both crop and non-crop ecosystems. Includes a laboratory/dissertation. Same as HORT 226. Prerequisite: CPSC 112 or HORT 100 or IB 103.

CPSC 241  Intro to Applied Statistics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/241)
Introduces fundamental statistical procedures used to analyze and interpret data. General principles of descriptive and inferential statistics, measures of central tendency and dispersion, probability, correlation and regression, and tests of hypotheses are covered. An emphasis is placed on biological, environmental, and agricultural sciences, but numerous examples from other areas are discussed. Course content enhances students’ ability to critically assess statistical information encountered in professional and every day activities. Credit is not given for both CPSC 241 and STAT 100 or ACE 261.

This course satisfies the General Education Criteria for: Quantitative Reasoning I

CPSC 261  Biotechnology in Agriculture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/261)
Basic introduction to the techniques and application of biotechnology to a wide range of agricultural areas, and specific examples are given. May serve as either a terminal course explaining the techniques or as an introductory base for future studies. Same as HORT 261. Prerequisite: Any 100-level course in a biosciences discipline.

This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

CPSC 265  Genetic Engineering Lab  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/265)
Laboratory/discussion course that provides a hands-on introduction to the techniques and principles of genetic engineering, recombinant DNA and the impact of molecular genetics on society. Students will isolate DNA from plants and clone specific genes into bacterial plasmids, perform polymerase chain reactions, DNA restriction analysis and DNA blotting, and discuss the relevance of these techniques to both medicine and agriculture. Prerequisite: A general biology course.

CPSC 266  Data in Biology and Agriculture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/266)
This course focuses on the use of computing and data analysis to solve problems in biology and agriculture and includes an overview of computer methods and limitations of current computer, network and storage hardware for big data sets. The nature, use and future potential of different types of computer hardware and software in biology and agriculture (e.g. mobile applications, high performance computing, wireless networking) will be discussed. Examples of computing-related and computing-limited problems in biology and agriculture, such as image analysis, remote sensing and genetic analysis will be used as case studies. The potential of computing to improve the food system, medicine and other applications will be presented.

CPSC 270  Applied Entomology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/270)
Lectures, laboratory, and field trips cover the biology of insects and the recognition and management of insect pests of agricultural, forest, and urban ecosystems. Covers insect structure and physiology, classification, life histories, behavior, and pest management. Same as IB 220 and NRES 270.

This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

Information listed in this catalog is current as of 07/2019
CPSC 293  Off-Campus Crop Sci Internship  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/293)
Supervised, off-campus experience in a field directly pertaining to a subject matter in crop sciences. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course, students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, cumulative GPA of 2.0 or above at the time the internship is arranged, and consent of instructor.

CPSC 294  On-Campus Crop Sci Internship  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/294)
Supervised, on-campus learning experience with faculty engaged in research. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, 2.0 GPA, consent of the advisor, and consent of the Department Undergraduate Program Coordinator.

CPSC 295  Undergrad Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/295)
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Cumulative GPA of 2.5 or above at the time the activity is arranged and consent of instructor.

CPSC 336  Tomorrow’s Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/336)
Introduction to interdisciplinary methods of analysis of environmental problems in a finite world; examination of the concept of the limits to growth; development of a working understanding of natural systems and environmental economics; and examination of various management strategies (technical, economic, and social) that can be used to improve environmental quality. Same as CHLL 336, and ENVS 336. Prerequisite: One course in the life sciences and one course in the social sciences, or consent of instructor.

CPSC 352  Plant Genetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/352)
The principles of heredity in relation to plant improvement. Same as NRES 352. Prerequisite: IB 103 or IB 104.

CPSC 382  Organic Chem of Biol Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/382)
An overview of the structure, properties, and reactions of carbon-containing compounds relevant to biological processes and cellular structure. The chemistry of hydro carbon, aromatic, as well as oxygen-nitrogen-, phosphorus-, and sulfur-containing compounds will be examined. Macromolecular structures including biological membranes, carbohydrates, proteins and nucleic acids will also be discussed. Prerequisites: CHEM 102 and CHEM 104 or CHEM 202 and CHEM 204.

CPSC 396  Undergrad Honors Res or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/396)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

CPSC 407  Diseases of Field Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/407)
Same as PLPA 407. See PLPA 407.

CPSC 408  Integrated Pest Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/408)
Examination of fundamental concepts of pest management including a historical review of pests and pest management; an overview of major pests (insects, weeds, plant diseases and vertebrate) in a variety of settings (agronomic, specialty crops, urban and structural); management options (area-wide, chemical, biological, cultural and physical); regulatory issues; and topics of current interest. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 226 or CPSC 270 or equivalent, both are preferred but only 1 is required.

CPSC 412  Principles of Crop Advising  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/412)
Fundamentals in crop development and management, soil structure, management, and fertility, and how crops and soils interact are examined. Students learn how to diagnose real-world problems in fields and field crops grown in the Midwestern US, and to develop practical solutions to such problems. Prepares students to be competitive in careers within commercial crop agriculture and to pass the Certified Crop Adviser examination. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 112 and NRES 201, or equivalent, or consent of instructor.

CPSC 413  Agriculture, Food, and the Environment  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/413)
Advanced course in the complex interactions of food production resulting from different agricultural systems and the environment. Develop an appreciation of the intricacies of producing food for a growing world population while minimizing the impact on the natural environment. Understand the implementation of new technology and strategies for future food production. 2 undergraduate hours. 2 graduate hours. Prerequisite: CPSC 112 or CPSC 113 or equivalent course or consent of instructor. For Online MS Program.

CPSC 414  Forage Crops and Pasture Eco  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/414)
Forages, their plant characteristics, ecology, and production; grasslands of farm and range as related to animal production and soil conservation. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: An introductory class in biology.

CPSC 415  Bioenergy Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/415)
Provides an overview and understanding of biomass feedstock production systems for sustainable biofuels production. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 112 or consent of instructor.

CPSC 416  Native Plants and Agroecosystems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/416)
Introduction to native plants and to their conservation use and agronomic benefit. Topics include learning to identify native plants using a regional flora, knowing the different ecological niches in the state of Illinois and which plants inhabit them, and choosing appropriate native plants to enhance the interaction between agronomic crops and natives. 4 undergraduate hours. 4 graduate hours. Credit is not given for CPSC 416 if credit for NRES 415 has been earned. Prerequisite: HORT 100 or IB 103.

CPSC 418  Crop Growth and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/418)
Crop physiology and management as influenced by environment, plant species, and cropping system; relates plant growth processes to crop production practices based on current research. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103 or CPSC 112 or equivalent, or consent of instructor.
CPSC 419 Midwest Agricultural Practices  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/419)
Introduces agronomic production practices in the Midwest and economics of the crop production value chain. Specifically designed for beginning graduate students in crop genetic improvement from non-agricultural backgrounds. 1 undergraduate hour. 1 graduate hour.

CPSC 426 Weed Mgt in Agronomic Crops  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/426)
Principles of weed ecology and biology, and their application to weed management. Herbicides and their use in corn, soybeans and other agronomic crops. Specialized topics include weed management in reduced tillage, herbicide tolerant crops and management of problem weeds. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 226 or consent of instructor.

CPSC 428 Weed Science Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/428)
Intensive course on field diagnostic skills in weed science. Topics include weed and weed seed identification, sprayer calibration, herbicide application, herbicide injury symptomatology, and field diagnostics. Students who complete the course will be encouraged to enter the North Central Weed Science Society weeds contest, which occurs during the summer. 2 undergraduate hours. 2 graduate hours. Prerequisite: CPSC 226 or CPSC 426 or consent of instructor.

CPSC 431 Plants and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/431)
The science of global atmospheric and climate change in the 21st Century. Understanding of how plants, including crops, will respond and may be adapted to these changes. Using plants to ameliorate predicted climate change. Same as IB 440 and NRES 431. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: CPSC 112 or IB 103.

CPSC 433 Basic Toxicology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/433)
Same as CB 449, ENV 480 and FSHN 480. See FSHN 480.

CPSC 436 Conservation Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/436)
Same as ENV 420 and IB 451. See IB 451.

CPSC 437 Principles of Agroecology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/437)
Examines the dynamics and function of agricultural ecosystems and reviews fundamental concepts of ecology. Agricultural systems will be compared on the basis of energy flow, nutrient cycling, diversity, stability and required inputs. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 100 or IB 103 or equivalent.

CPSC 438 Soil Nutrient Cycling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/438)
Same as NRES 438. See NRES 438.

CPSC 439 Env and Sustainable Dev  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/439)
Same as NRES 439. See NRES 439.

CPSC 440 Applied Statistical Methods I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/440)
Statistical methods involving relationships between populations and samples; collection, organization, and analysis of data; and techniques in testing hypotheses with an introduction to regression, correlation, and analysis of variance limited to the completely randomized design and the randomized complete-block design. Same as ABE 440, ANSC 440, FSHN 440, and NRES 440. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 112 or equivalent.

CPSC 448 Biological Modeling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/448)
Same as ANSC 449, GEOG 468, and IB 491. See GEOG 468.

CPSC 452 Advanced Plant Genetics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/452)
Survey of selected contemporary topics in plant genetics and genomics. Topics include the nature of genes and genomes, crop domestication, selection, allelic diversity in populations, and genetics mapping. Serves as an introduction to functional genomics, population genetics, transmission genetics, quantitative genetics, and bioinformatics. Same as IB 478. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 352 or IB 204, or consent of instructor.

CPSC 453 Principles of Plant Breeding  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/453)
Principles, concepts and tools used in plant breeding. Includes methods and breeding schemes used with different plant species. Same as HORT 453. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 103; CPSC 352 or equivalent.

CPSC 454 Plant Breeding Methods  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/454)
Discussion of the application of current scientific tools and methods available to plant breeders for improving plants; emphasis on actual use of plant breeding methods and production of high quality seed. 2 undergraduate hours. 2 graduate hours. Offered summer only in alternate years. Prerequisite: CPSC 453.

CPSC 456 Genomics for Plant Improvement  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/456)
An overview of applying the methods of genomics to discover variation in genes and their expression, creating new genetic variation, and applying this information to the improvement of economically important plants. Emphasis is on recent advances in genomic science and activities where functional genomics information is used to efficiently create and manipulate desirable phenotypes. Same as IB 477. 2 undergraduate hours. 2 graduate hours. Prerequisite: CPSC 352 or a similar course, or consent of instructor.

Information listed in this catalog is current as of 07/2019
CPSC 473 Mgmt of Field Crop Insects credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/473)
Ecological principles of insect populations in agroecosystems including: sampling insect populations, threshold development, bioeconomics and decision-making, population regulation, designing management strategies for field crop insect pests, and deployment of transgenic crops for management of insect pests. Case studies describing various pest management programs in field-crop settings will be provided. 3 undergraduate hours. 3 graduate hours. Prerequisite: CPSC 270 or an equivalent course, or consent of instructor.

CPSC 475 Insect Pathology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/475)
Same as IB 483. See IB 483.

CPSC 479 Insect Pest Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/479)
Same as IB 482. See IB 482.

CPSC 484 Plant Physiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/484)
Same as IB 420. See IB 420.

CPSC 488 Soil Fertility and Fertilizers credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/488)
Same as NRES 488. See NRES 488.

CPSC 489 Photosynthesis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/489)
Same as BIOP 432 and IB 421. See IB 421.

CPSC 491 Ugrad Bioinformatics Seminar credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/491)
Same as INFO 491 and IS 483. See INFO 491.

CPSC 498 Crop Sci Professional Develpmnt credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/CPSC/498)
Topics related to professional development including resumes, interview skills, business etiquette, ethics, and presentations on opportunities in crop sciences and horticulture. 1 undergraduate hour. No graduate credit. Prerequisite: Junior standing in Crop Sciences or Horticulture.

CPSC 499 Advanced Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/499)
Advanced experimental course on a special topic in crop sciences. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.

CPSC 501 Programming for Genomics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/501)
Same as IB 501. See IB 501.

CPSC 505 Research Methods in Crop Sciences credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/505)
Lectures, discussions, and seminars dealing with research in crop sciences. 4 graduate hours. No professional credit.

CPSC 518 Crop Growth and Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/518)
Study of the physiological processes involved in growth and development of crop plants and the interaction of these processes with the environment that influences productivity. Prerequisite: CPSC 418 or CPSC 484.

CPSC 526 Herbicide Action in Plants credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/526)
Study of various chemicals used to inhibit plant growth, including their uptake, translocation, mode of action, metabolism and resistance mechanisms in plants; and the relationship of chemical structure to the environmental fate of herbicides. Offered in alternate years. Prerequisite: CPSC 426 and CPSC 484.

CPSC 538 Environmental Plant Physiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/538)
Same as IB 542. See IB 542.

CPSC 541 Regression Analysis credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/541)
The application of regression methods to problems in agriculture and natural resources. Topics include simple linear, multiple linear, and nonlinear regression analysis and correlation analysis. Emphasis is placed on predictor variable selection, diagnostics and remedial measures and validation. Both quantitative and qualitative predictor variables are examined. The SAS system is used for all analyses. Same as ANSC 541. Prerequisite: CPSC 440 or equivalent.

CPSC 542 Applied Statistical Methods II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/542)
Statistical methods as tools for research. Principles of designing experiments and methods of analysis for various kinds of designs, experimental (completely randomized, randomized complete block, split plots, Latin square) and treatment (complete factorial); covariate analysis; use of SAS for all analyses. Prerequisite: CPSC 440 or equivalent.

CPSC 543 Appl. Multivariate Statistics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/543)
This class introduces students to statistical methods that consider several variables at once. Emphasis will be given to the applications of multivariate methods to data sets in biology and ecology. Students will develop good knowledge as to how multivariate methods work, they will be able to apply these methods using SAS and R and they will be able to make inferences on the results of the analyses for subsequent scientific publication. Same as STAT 543. Prerequisites: CPSC 440 or equivalent or consent of instructor.

CPSC 545 Statistical Genomics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/545)
Same as ANSC 545 and IB 507. See ANSC 545.

CPSC 553 Advanced Plant Breeding credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CPSC/553)
A practical application of plant breeding, genetics, and statistics to devise effective approaches to meet particular breeding goals. Highlighting real life situations and key decisions facing the plant breeder, the course builds upon knowledge of plant breeding methods and quantitative genetic theory. Four specific functional areas, which reflect divisions of labor in the seed industry are addressed: population development, population evaluation, trait integration, and product commercialization and supply. Offered in alternate years. Prerequisite: CPSC 453 or equivalent; CPSC 558 or equivalent; CPSC 542 or equivalent.
In this course students will explore the use, curation and collection of germplasm resources to facilitate crop improvement. Genetic diversity is the foundational resource that plant breeders use for the benefit of society; however, it is often challenging to identify, access, and use desirable genes from relatives of crop plants. Strategies and methods employed by plant breeders, curators and collectors will be discussed. Topics will include using distant relatives in breeding programs, selecting a subset of accessions for evaluations when large collections are available, circumventing breeding barriers to obtain wide-cross progenies, navigating intellectual property issues, and writing a successful plant exploration proposal. 2 graduate hours. No professional credit. Prerequisite: Introductory courses in genetics (e.g. CPSC 352) and plant breeding (e.g. CPSC 453) or equivalent.

CPSC 556  Plant Breeding Literature  credit: 1 Hour.  
Students will read a diverse group of plant breeding journal articles, will learn skills involved in evaluating a scientific paper, and will discuss articles with plant breeding faculty members. Approved for S/U grading only. May be repeated in separate terms to a maximum of 5 hours. Prerequisite: Graduate student status.

CPSC 558  Quantitative Plant Breeding  credit: 4 Hours.  
Studies the theoretical bases for plant breeding procedures with special emphasis on the relationship between type and source of genetic variability, mode of reproduction, and effectiveness of different selection procedures. Offered in alternate years. Prerequisite: CPSC 453 or equivalent.

CPSC 563  Chromosomes  credit: 3 Hours.  
Includes cytogenetic analysis of eukaryotic organisms, the role of chromosomes in genome organization and evolution, and introduction to molecular cytogenetic laboratory techniques such as mitotic analysis, chromosome banding, flow cytogenetics, somatic cell genetics, chromosomal length polymorphisms, fluorescent microscopy and in situ hybridization. 3 graduate hours. No professional credit. Prerequisite: CPSC 352 or consent of instructor.

CPSC 564  Molecular Marker Data Analyses  credit: 3 Hours.  
Topics include QTL mapping, association mapping, genomic selection, linkage disequilibrium, estimation and control of population structure, and the analysis of genotypic datasets produced using next-generation sequencing technology. All topics will be explored using real datasets analyzed in R (www.cran.org), and each class will include a lecture/discussion followed by a computer exercise. 3 graduate hours. No professional credit. Prerequisite: Previous course work in evolutionary, population, or quantitative genetics is recommended.

CPSC 565  Perl & UNIX for Bioinformatics  credit: 2 Hours.  
This intensive course is an introduction to high-throughput bioinformatics and genome data analysis. An introduction to programming with Perl and BioPerl will be given, and students will learn to write scripts relevant to their own research goals. We will also cover the use of UNIX and Perl for automating and customizing bioinformatics tools. Prerequisite: Graduate status or consent of instructor. In addition, familiarity with DNA and protein sequence data, and basic Windows computing skills are required.
GPA of 3.5; completion of Advanced Composition requirement, and letter and S/U grading. Prerequisite: Junior or senior standing; minimum who excel in self-direction and intellectual curiosity. Approved for both children, motivating and engaging children in learning, community through the course instructor. Class content focuses on relating to is a requirement of the course. Placements with schools will be made and mentoring children (elementary through high school). A minimum of serving children, and/or parenthood. The focus for this course is tutoring in working with children (defined as birth through high school), careers with elementary children. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Elementary Teacher Education Program. with elementary children. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Elementary Teacher Education Program. contexts of education. Coursework is integrated with field experiences and learning activities. Students will reflect on the teaching and learning of English, Mathematics, Science, or Social Studies from an inquiry oriented perspective. Coursework is integrated with a high school field experience to connect theory with practice in an examination of research and current trends in English, Mathematics, Science, or Social Studies education. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Secondary Teacher Education Program or consent of the instructor/ department. This community engagement course is designed for students interested in working with children (defined as birth through high school), careers serving children, and/or parenthood. The focus for this course is tutoring and mentoring children (elementary through high school). A minimum of two hours per week of approved community service related to children is a requirement of the course. Placements with schools will be made through the course instructor. Class content focuses on relating to children, motivating and engaging children in learning, community institutions and agencies serving children, and social issues affecting the lives of American children today. Permits study of problems not considered in other courses; for students who excel in self-direction and intellectual curiosity. Approved for both letter and S/U grading. Prerequisite: Junior or senior standing; minimum GPA of 3.5; completion of Advanced Composition requirement, and consent of adviser and staff member supervising the work.
CI 406  Theory Practice in Elementary School Teaching I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/406)
Course examines teaching in the elementary grades. Students will focus on a number of related topics, including classroom management, instructional design, personal and professional attributes of effective teachers, and multicultural perspectives. Coursework is integrated with field assignments in public elementary schools. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 405; admission to the Elementary Teacher Education Program.

CI 407  Theory Practice in Elementary School Teaching II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/407)
Course continues the examination of teaching in the elementary grades, begun in CI 405 and CI 406. In addition to continuing the study of some topics introduced in the previous courses, students will focus on the following topics as they complete student teaching: designing instruction for classes including special needs students, managing technology in the classroom, and working with parents. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 406; admission to the Elementary Teacher Education Program. Requires concurrent enrollment in EDPR 432.

CI 410  Middle School Instruction, Philosophy and Structures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/410)
This course will introduce middle school concept and philosophy; cover common instructional and assessment strategies aligned with this concept, with a specific focus on curriculum integration and the use of newer communication technologies; and will review middle school organizational structures, including teaming, advisory, alternative scheduling, exploratory classes, and parental involvement. Students will connect theory and practice by incorporating their concurrent field placement (in middle level setting) into assignments and discussions. 3 undergraduate hours. 3 graduate hours.

CI 415  Language Varieties, Cultures and Learning  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/415)
For students in the early childhood, elementary and middle grades licensure programs. Introduces students to issues related to first- and second-language development, cultural diversity, and language variation. Addresses the above issues in terms of teaching and learning and serves as a base for subsequent courses that will extend these issues in the content areas. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to a teacher preparation program.

CI 420  Foundations of Early Childhood Education  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/CI/420)
Students will study of the role of the early childhood teacher in designing, organizing, and implementing educational programs for children in preschools, kindergartens, and the primary grades. This course includes the history, philosophy, and theory of early childhood education. Students will complete a morning field placement in a local elementary school. 5 undergraduate hours. 5 graduate hours. Prerequisite: Admission to the Early Childhood Teacher Education Program; EPSY 236; EPS 201.

CI 421  Prin & Prac in Early Childhood  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/421)
Studies the principles and practices of using play as an educational tool in early childhood education; reviews historical, philosophical, and psychological foundations of nursery-kindergarten methods; assesses techniques relating play to various aspects of instruction; surveys materials and equipment; and presents methods of classroom evaluation. 3 undergraduate hours. No graduate credit. Prerequisite: CI 420; admission to the Early Childhood Teacher Education Program. Concurrent enrollment in EDPR 420 and EDPR 438; credit or concurrent registration in EDPR 250, section EC.

CI 422  Families, Communities, Schools  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/422)
Principles and practices of building partnerships and collaboration among families, community agencies, and schools in a diverse society for early childhood professionals; covers strategies for building understanding, trust, and effective communication with all children and their families including those who have special needs, have cultural and linguistic differences, come from non-traditional family configurations, and who face poverty, health problems, and/or family dysfunction. 3 undergraduate hours. 4 graduate hours. Prerequisite: Admission to the Early Childhood Teacher Education Program or consent of the instructor.

CI 424  Child Development & Technology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/424)
Theories of development will inform an analysis of current technologies marketed for pre-school children; issues related to technology and childhood will be explored. One class each week will focus on lectures and discussions about child development, the second class will focus on presentation of technology or technology genre and evaluation of their value for young children. 3 undergraduate hours. 4 graduate hours. Approved for both letter and S/U grading.

CI 430  Teaching Children Mathematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/430)
Examines children's learning of mathematics and meaningful instructional methods, representations and materials. Emphasis given to number and operations (including both whole and rational numbers), number theory and statistics/probability. Includes laboratory experience with supervised problem solving. 3 undergraduate hours. 3 graduate hours. Credit is not given for both CI 430 and CI 431. Prerequisite: MATH 103; admission to the Elementary Teacher Education Program.

CI 431  Tchng Elementary Mathematics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/431)
Examines the organization, scope, and sequence of the mathematics program and the functional nature of mathematics; methods, techniques, experiences, and materials of value in teaching mathematics, and the role of the classroom teacher. Includes laboratory experience, with supervised problem solving. 4 undergraduate hours. 4 graduate hours. Credit is not given for both CI 430 and CI 431. Prerequisite: MATH 103; admission to the Special Education Program.

CI 432  Invest Approach Elem Math Inst  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/432)
Course will model and examine an investigative approach to elementary mathematics instruction, which is purposeful, inquiry-based, and meaningful mathematics instruction. Particular focus will be given to the teaching and learning of measurement, geometry and algebra/functions. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 430 or CI 431; admission to the Elementary Teacher Education Program.

CI 433  Found of Bilingual Educ  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/433)
Analyzes historical, political, and educational influences on bilingual/ESL education in US. Theoretical foundation of bilingual and ESL programs are examined as well as the effectiveness of program models in promoting academic achievement. Meets standards and course requirements for the Illinois State Board of Education Teaching Approval and Endorsement for Bilingual and ESL teachers. Same as LLS 433. 3 undergraduate hours. 2 or 4 graduate hours.
CI 434  Teaching Secondary Math  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/434)
This is a required course for students seeking a mathematics endorsement at the middle school level while earning or holding teacher certification in another subject area. It is also required for students completing the campus Teacher Education Minor in Mathematics for grades 9-12 and the Teacher Education Minor in Mathematics for grades 6-8. This methods course covers: a) The NCTM and Illinois Learning Standards for Mathematics, b) "Best practice" in mathematics pedagogy, c) Assessment in the mathematics classroom, d) technology in mathematics classrooms, and e) the design of unit and lesson plans in mathematics. Students will design and deliver lessons as part of their course work. 3 undergraduate hours. 3 graduate hours. Prerequisite: Prerequisite: Although there are no stated prerequisites for this course, it is advised that most, if not all, of the mathematics content requirements be completed before taking this course.

CI 435  Computer-Assisted Instruction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/435)
Computer-assisted instruction (CAI) and its relation to classroom teaching; the teacher's role in development, management, and criticism of CAI lessons; treatment of topics including instructional capabilities of CAI systems, instructional programming, and the design of CAI lessons. 4 undergraduate hours. 4 graduate hours. Prerequisite: A 100 level Computer Science course or consent of instructor.

CI 436  Computer and Mathematics Educ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/436)
Examines the role of the computer as an instructional tool in the secondary school mathematics classroom; reviews curricular materials and develops sample classroom projects in computer mathematics; analyzes computational problems and develops algorithms for their solution; and includes iteration, Monte Carlo methods, and simulation. 4 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 or consent of instructor.

CI 437  Educational Game Design  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/437)
Examines the role that physical and digital games play in learning. Focuses on how people learn through play and how game structures support educational outcomes. Principles of game design are described and students apply them to the design of original games with a specified educational objective. Students learn to prototype, playtest, and evaluate the educational content of games. Surveys and samples games in the areas of serious games, persuasive games, games for impact, etc. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

CI 438  Comp Prgrmmg and the Classroom  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/438)
A course for teaching methods related to computer programming in K-12 settings. Introduces theoretical and practical aspects of computer science education with an emphasis on learning to code and integrating coding into the classroom. Reviews pedagogical trends in computer science education for children of all ages, employing a variety of hands-on activities using developmentally-appropriate materials and resources. No prior programming experience required. 3 undergraduate hours. 4 graduate hours.

CI 442  Math, Sci, Tech in Early Child  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/CI/442)
The principles, place and practice of science and mathematics education in early childhood education and in the lives of young children; stresses the functional nature of science and mathematics and their inter-relatedness; presents methods, techniques, experiences, and materials of value in teaching mathematics and science in early childhood education; and the role of the classroom teacher. Opportunity for experience in field and laboratory work. 5 undergraduate hours. 5 graduate hours. Prerequisite: CI 420, general education requirements in mathematics (MATH 103 or equivalent), 2 years of college science, admission to the Early Childhood Teacher Education Program. Requires concurrent enrollment in EDPR 432.

CI 443  Mathematics in Early Childhood Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/443)
This course focuses on the teaching of foundational mathematical concepts in prekindergarten, kindergarten, and the primary grades. Pre-service teachers will learn the value of "mathematizing" the worlds of children and creating authentic experiences through which children learn key mathematics concepts. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completed or concurrent enrollment in general education requirements in mathematics, admission to the Early Childhood Teacher Education Program. Early Childhood Education majors only. Must be taken concurrently with CI 420.

CI 444  Social Stud Early Childhood Ed  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/444)
Course emphasizes the place of social studies in early childhood education program (preschool - grade 3). Focuses on several areas of knowledge related to the social life of the community as it is concerned with young children; (1) knowledge from the social sciences, (2) social cognition and social skills learning, and (3) ways of dealing with cultural and social diversity. 2 undergraduate hours. 2 graduate hours. Prerequisite: CI 420; admission to the Early Childhood Teacher Education Program.

CI 445  Science and Social Studies Inquiry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/445)
This course is an exploration into the construct of inquiry as an essential human trait and methodological approach for teaching and learning. Through the disciplines of science and social studies we will inquire into elements and methods for building inclusive and critical communities of practice, designing curriculum for depth of understanding, and using documentation as democratic action. This course will encompass and revisit enduring understandings from the entire ECE professional program sequence, mediated by Danielson’s Framework for Teaching. Cohort members will synthesize the above in the real context of student teaching placements, class meetings, online discussions, and course assignments. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 421. Concurrent enrollment in EDPR 432 is required.

CI 446  Culture in the Classroom  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/446)
Explores cultural, political, and social factors that affect learning and teaching. Introduces students to the fields of educational anthropology and multicultural education and to the application of cultural information to curriculum development and classroom practice. The 3-hour undergraduate version and 4-hour graduate version meet the Cross-Cultural Studies for Teaching Limited-English-Proficient Students requirement for Bilingual and/or ESL Teaching Approval or Endorsement from the Illinois State Board of Education. 3 undergraduate hours. 2 or 4 graduate hours.
CI 448  Tchg Elem Social Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/448)
Course examines the nature and role of social studies in elementary schools, both in terms of the formal curriculum and of the impact of the school as a social system on children’s social learning. Examines multiple approaches to what should be experienced and learned in social studies as well as the nature of social inquiry. Various instructional methods emphasizing direct experiences as well as reading are emphasized. Local, state, and national trends in curriculum and evaluation are addressed. Students engage in social inquiry, as well as develop, implement, and evaluate an action research project focusing in depth on a particular practice of social education. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Elementary Teacher Education Program.

CI 449  Issues in Latina/o Educ  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/449)
Critiques and explores various theoretical frameworks used to explain Latina/Latino academic achievement. Examines curricular and instructional issues by investigating how different school systems have implemented schooling for Latina/Latino students. Develops critical understanding of the role of education within the Latina/Latino community. Same as LLS 449. 3 undergraduate hours. 2 or 4 graduate hours.

CI 450  Teaching Elementary Science I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/450)
Course is the first of two, 3-hour science methods courses in the elementary education program, which will examine elementary science content, learning theory, and the teaching of science in the elementary school. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Elementary Teacher Education Program.

CI 451  Teaching Elementary Science II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/451)
Course is the second of two 3-hour science methods courses in the elementary education program. Focus on in-depth understanding of inquiry science teaching. Coursework is integrated with field assignments in schools. Topics include curriculum materials; literacy instruction in science; children’s “thinking” about science; differentiated instruction; assessment; incorporating technology. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 450; admission to the Elementary Teacher Education Program.

CI 452  Soc Stu as Action and Inquiry  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/452)
This course continues the application of methods and content knowledge from CI 448 and will use an inquiry approach to study classrooms and school communities. Students will learn about teacher action research and begin planning an implement classroom inquiry in their teaching, first as a small pilot project and then a more extensive study connected with EdTPA assignments. The continuing themes of active citizenship, diversity, equity, and professional practices will guide learning and action research planning. 3 undergraduate hours. 4 graduate hours. Prerequisite: Admission to the Elementary Teacher Education Program.

CI 465  Language Literacy in Early Childhood Education I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/465)
Basic principles, techniques, and materials for the emergent literacy in infancy through preschool. Emphasizes linguistic and cultural factors in culturally diverse settings. 3 undergraduate hours. 3 graduate hours. Prerequisite: Admission to the Early Childhood Teacher Education Program. Concurrent enrollment in HDFS 301.

CI 466  Language Literacy in Early Childhood Education II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/466)
Emphasizes developmentally appropriate practices for the teaching of reading and writing in grades K-2. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 465. Requires concurrent enrollment in CI 420 and CI 443.

CI 467  Princ Tchg Lit to Child Youth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/467)
Examines literature written for children and youth and the uses of literature in the school curriculum. 3 undergraduate hours. 3 graduate hours. Credit is not given for both CI 467 and LIS 403. Prerequisite: One college course in literature; admission to a teacher educator preparation program.

CI 468  Children's Lit for EC Edu  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/468)
Examines literature written for children ages birth-eight years, extensive reading and analysis of literature in all genres and formats; evaluations of literature in relation to cognitive and linguistic development, emergent literacy, linguistic and cultural diversity, and family and school literacy; reviews and applies theories about the functions of literature. 2 undergraduate hours. 2 graduate hours. Prerequisite: One college course in literature; admission to the Early Childhood Teacher Education Program.

CI 471  Princ Prac Foster Indep Rdg  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/471)
Emphasizes reading comprehension and reading to learn in content fields in grades K-8. Includes focus on teaching reading to students from diverse cultural and linguistic backgrounds, including dialect speakers and English learners. 3 undergraduate hours. 4 graduate hours.

CI 472  Tchg Reading in Grades 4-12  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/472)
Examines current literacy practices beyond the primary grades including factors related to reading comprehension, vocabulary development, fluency, and motivation. Includes issues related to diversity and ESL related to teaching reading. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: EPSY 201; junior standing or consent of instructor.

CI 473  Disciplinary Literacy  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/473)
Provides secondary and K-12 level education majors with principles and practices of effective language and literacy instruction in their content areas, consistent with the Illinois Professional Teaching Standards for educator preparation of the Illinois State Board of Education. 2 or 3 undergraduate hours. 2 or 3 graduate hours. Students in music and kinesiology education take for 2 credit hours; students in agriculture, art, mathematics, science, social studies, and English education take for 3 credit hours. Prerequisite: Admission to a teacher education program.

CI 475  Teaching Elementary Reading and Language Arts I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/475)
First of a two-course sequence that examines the basic theories, issues, methods, and materials for a developmental 1-6 language arts program. Emphasizes the need to integrate the four language arts (reading, writing, speaking, and listening) as tools for learning across the curriculum. Addresses cultural diversity in language arts instruction, with emphasis on linguistic diversity. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CI 467 and admission to the Elementary Teacher Education Program. Elementary Education students register for 3 hours. Special Education students register for 4 hours.
CI 476 Teaching Elementary and Middle Grade Language Arts  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/CI/476)
Second of a two-course sequence that examines the basic theories, issues, methods, and materials for a developmental K-8 language arts program. It continues to emphasize the need to integrate the four language arts (reading, writing, speaking, and listening) as tools for learning across the curriculum. This second course, however, places a relatively greater emphasis on writing than on reading, speaking, and listening. Continues to address cultural diversity in language arts instruction, with emphasis on linguistic diversity. 3 undergraduate hours. 3 graduate hours. Prerequisite: CI 467 and CI 475 or CI 471; admission to the middle grades major, elementary major, or consent of instructor.

CI 477 Biling ESL Methods & Material  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/477)
Focuses on bilingual and English-as-a-second language (ESL) curriculum development and instruction for bilingual and second-language learners (K-12) in a variety of language and program settings. Emphasizes bilingual and ESL materials selection and development, bilingual and ESL literacy instruction, bilingual and ESL content area instruction, and sheltered English instruction. Issues related to second-language acquisition, cultural and linguistic diversity, and parental and community involvement are reviewed. 4 undergraduate hours. 4 graduate hours. Prerequisite: CI 433 or consent of instructor.

CI 482 Social Learning and Multimedia  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/482)
Learning in multimodal environments from a social and cultural perspective. Topics include the formation and expression of individual and group identity across multiple contexts, including social networking, online gaming, reality television programs, streamed video, and in online courses. Assignments include both analytic and project-based tasks, with an emphasis on implications for formal learning environments. 3 undergraduate hours. 4 graduate hours.

CI 484 Learning Technologies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/484)
Same as HRD 472. See HRD 472.

CI 485 Assessing Student Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/485)
Same as EPSY 485. See EPSY 485.

CI 489 DELTA Capstone Project  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/489)
Project-based course focusing on creating Digital Environments for Learning, Teaching and Agency. Students work in teams to build technology-supported learning activities. This course provides a studio-based, hands-on and participatory approach to the development and research of technology tools and curriculum materials. 3 undergraduate hours. 4 graduate hours. Approved for Letter and S/U grading. Prerequisite: CI 481 or consent of instructor. Required capstone project course for students enrolled in DELTA concentration, others can register with instructor's consent.

CI 499 Issues and Development in Edu  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/499)
Seminar course on topics not treated by regularly scheduled courses; requests for initiation may be made by students or faculty member. 2 to 4 undergraduate hours. 2 to 4 graduate hours. Approved for both letter and S/U grading. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing.

CI 501 Fundamentals of Curr Develop  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/501)
Examines a variety of definitions of curriculum developments; readings reflect current theories and research related to substantive issues in the field: how learning is influenced by stated goals of education, cultural background of the learners, structure of the school setting, competencies of teachers, psychological characteristics of the learners, and means of measuring student achievement.

CI 502 Introduction to Reading  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/502)
Provides an overview of reading in the US. Topics covered include the definition of reading and its importance, theoretical models and philosophies of reading and reading instruction, the history of reading instruction, the development of reading skill, current research-based reading instruction, Federal legislation affecting reading instruction, and professional and state standards related to reading instruction.

CI 503 Reading Instruction, K-5  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/503)
The first of two courses focusing on research-based reading instruction for students in grades K-12. This course focuses primarily on the development of literacy from birth to preschool and reading instruction for the elementary grades, K-5.

CI 504 Reading Instruction, 6-12  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/504)
The second of two courses focusing on research-based reading instruction for students in grades K-12. This course focuses primarily on reading instruction for middle and high school students, grades 6-12. Reading comprehension in the content areas is a particular emphasis. Prerequisite: CI 503.

CI 505 Reading for Diverse Students  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/505)
Reviews many of the linguistic, cultural, and social factors that affect students (K-12) reading instruction, assessment, and development. Drawing on socio-cognitive and socio-constructivist theories of literacy and culturally responsive pedagogy and social justice issues, the course involves the evaluation and design of instruction and assessments for students from diverse linguistic, cultural, and class backgrounds.

CI 506 Reading Coaching & Leadership  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/506)
The course consists of two 2-hour components (1 and 2). The first component introduces students to course readings and discussions that explore the various roles of the K-12 reading specialist, including leadership, assessment, and coaching. The second component involves completion of an internship with a reading coach or a reading specialist in which students observe and take on the roles of the reading specialist in professional development, curriculum design, instruction, and the management of resources. Both of these components are completed within the same semester. Prerequisite: CI 503, CI 504.

CI 507 Prob Trends in Spec Fields  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/507)
Intensive examination of problems and trends in the subject fields. May be repeated to a maximum of 8 hours.
CI 508  Urban Schs & Schooling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/508)
This course is for anyone interested in issues of education in urban settings. It provides an overview of sociopolitical perspectives on teaching and learning for Latina/o, African American, American Indian, English learners, and other marginalized youth. The course explores how issues of identity and power are negotiated by students, communities, and teachers. Participants in the course will develop an understanding of how racism, classism, and the politics of language operate within urban schools. An emphasis of the course is on solutions that address social justice.

CI 509  Curriculum Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/509)
Reviews the principal methodologies used in research on curriculum problems; emphasizes subject-analytical, large-scale survey, experimental, case methods, and clinical studies; emphasizes the conceptual and practical problems in such research.

CI 512  Mult Educ/Global Perspectives  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/512)
Examines important topics in the area of multicultural education in the United States and around the world. Engages students in the critical exploration of theories and literature that interrogate traditional views of multicultural education. Analyzes issues of race, class, gender, religion, nationality, xenophobia, homophobia, and ability in the contexts of classrooms and other educational settings. Course work focuses on an emancipatory curriculum and pedagogy for transformation and social justice education. Same as AFST 555.

CI 517  Bilingual and English as a Second Language Assessment  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/517)
Explores the role of assessment in education of culturally and linguistically diverse students in K-12 classrooms. Current trends in assessment in the United States will be analyzed as well as how assessments are used for the identification and placement of bilingual and ESL students. The use and scoring of language proficiency assessments will be examined along with various forms of classroom-based assessment. Meets ISBE assessment requirements for a bilingual and ESL teaching approval or endorsement. Same as LLS 517. 4 graduate hours. No professional credit. Prerequisite: CI 433 and CI 477 or consent of instructor.

CI 518  Evaluation of Edu Programs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/518)
Origins, assumptions, applications, and development of approaches to educational program evaluation in practice over the past twenty years; unobtrusive measures and noneducation evaluation systems; and practice in collecting evaluative data. Same as EPSY 572. Prerequisite: EPSY 480, one year of work with children or youth in an institutional setting, or consent of instructor.

CI 519  Methods of Child Study  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/519)
Studies ways in which teachers can evaluate child behavior and development with an emphasis on classroom application; instruction and practice in the use and interpretation of observations, anecdotal records, rating scales, interviews, achievement tests, intelligence tests, questionnaires, and sociometric and projective techniques. Prerequisite: EPSY 404 or consent of instructor.

CI 520  History of Early Childhood Pedagogy and Programs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/520)
This course is an overview of historical influences of contemporary early childhood pedagogy and programs. Topics may include, but are not limited to, Enlightenment Era educational reforms, German kindergartens, the Progressive Era, and the War on Poverty. 4 graduate hours. No professional credit.

CI 521  Curr Prob Trends in EC Edu  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/521)
Includes principles underlying education practices in day care centers, preschool/nursery and kindergarten settings derived from theory and research in developmental psychology, social psychology, anthropology, and other related disciplines.

CI 522  Arts in Early Childhood and Elementary: Curriculum in Context  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/522)
Role of dance, drama, music, literature, and the visual arts in early childhood and elementary education, focusing on production/performance, appreciation, history, and aesthetics. Interrelationships among curriculum, notions of child development, cultural contexts, and unique traditions of different arts disciplines. Current art education practices in the United States and other countries. Requires attendance at performances and visits to an art museum. 4 graduate hours. No professional credit. Prerequisite: Graduate status.

CI 526  Capstone II: Completion  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/526)
Survey of research and best practices for producing instructional change within schools or programs, with an emphasis on the improvement of curriculum and instruction across grade levels. Students will analyze data collected from the current and previous semesters and write a report of their findings. Students will engage in professional learning communities to continue work in school contexts. Prerequisite: For students in the Advanced Instructional Design master's program.

CI 530  Trends and Issues in Math Edu  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/530)
Addresses theories of learning, research studies, curriculum development projects, and other factors that have influenced elementary mathematics programs; also considers problems and issues in contemporary programs. 4 graduate hours. No professional credit.

CI 532  Prof Development in Math Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/532)
Considers research perspectives, policies and practices associated with the professional development of mathematics teachers. Specifically, students will examine what policymakers recommend for effective professional development, what research findings seem to suggest, how schools do professional development for successful mathematics teaching, and the implications of policy and real world practices for equality of opportunity for mathematics learning.

CI 533  Problem Solving in Math Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/533)
Focuses on the role of problem solving in the learning and teaching of mathematics. Examines mathematical problem solving processes, as well as issues surrounding the use of problem solving in K-12 mathematics classrooms, including recent reform trends, equity issues, and distinctions among teaching "about", "for", and "through" problem solving.
CI 534  Teaching and Learning Geometry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/534)
This course concentrates on the teaching and learning of geometry in middle school and high school by examining the history of school geometry, comparing curricular expectations and rationales for geometry instruction over time. The course provides an overview of theoretical models regarding the teaching and learning of geometry. At the same time, the course provides opportunities for discussing practical issues of teaching geometry with work on geometrical problems and laboratory sessions using dynamic geometry. Prerequisite: Acceptance into a graduate program.

CI 535  Teaching and Learning Algebra  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/535)
This course examines perspectives about the teaching and learning of algebra in middle school and high school. Topics include an examination of historical perspectives on algebra in the school curriculum, a study of the nature of algebra and algebraic thinking, an analysis of teaching strategies for teaching algebra, an examination of documents on algebraic reasoning, and explorations of the use of technological tools to support the teaching and learning of algebra. Prerequisite: Acceptance into a graduate program.

CI 536  MST Proseminar I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/536)
Provides an introduction to doctoral studies, research, and careers in Math, Science, and Technology (MST) Education. Topics include a basic orientation to research in MST education, doctoral program hurdles, potential career paths, and MST education research funding. Although this seminar is designed for CI students in MST education, students in other programs may also enroll.

CI 537  Discourse in STEM Classrooms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/537)
An overview of relevant literature regarding discourse in STEM classrooms with emphasis on teachers' perspectives, students' perspectives, and interactions between the teacher and the students. Discusses research methodologies for the study of discourse in STEM classrooms and implications of research for the education and the professional development of pre-service and in-service teachers. Prerequisite: Acceptance into a graduate program.

CI 540  Current Issues in Sci Edu  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/540)
Advanced seminar in science education for teachers, consultants, and administrators. Identifies major problems and issues; analyzes current trends and research; and develops a philosophical framework related to science education. Prerequisite: Teacher education course in science and two years of college science; or consent of instructor.

CI 541  Learning in Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/541)
Focuses on influential theories of student learning and their implications for science education. Examines the theoretical underpinnings of these learning theories as well as their implications for student learning, instruction, and assessment.

CI 542  Science Ed & Phil of Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/542)
Surveys issues in philosophy of science that are central to science education through an exploration of the works of twentieth century philosophers of science who were most influential in shaping thinking about science in the science education community. Relevant readings from science and history of science are also explored. Prerequisite: College level coursework in a science discipline or consent of instructor.

CI 543  Constructivism and MST Educ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/543)
Intended for those interested in a perspective on mathematics, science, and technology (MST) learning and teaching called constructivism, which has come to prominence in the past two decades, particularly in MST education. Constructivism focuses on the processes of sense-making or meaning construction through experience and/or social discourse. Designed to help participants examine the implications of constructivism for learning and teaching in mathematics, science, and technology. Prerequisite: A basic familiarity with mathematics, science, and/or technology.

CI 544  Ed Reforms & Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/544)
This course examines the history of science education reform efforts since the 1950s from the lens of inquiry, teaching and learning. The course examines developments in our understandings of inquiry as a pedagogical approach and set of instructional outcomes in middle and high school science education, as well as implications for instructions in precollege science classroom.

CI 545  Virtual Worlds in Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/545)
Same as EPSY 554. See EPSY 554.

CI 546  MST Proseminar II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/546)
The course examines the process of double-blind review and the metrics associated with refereed research journals and researcher productivity in mathematics, science, and technology education. Students will be provided with practical experiences as journal 'referees' through reviewing manuscripts submitted for publication, and will develop thorough understandings of the entire process of publishing in refereed journals in the field of science, mathematics, and technology education. May be repeated in separate terms to a maximum of 4 hours if topics vary.

CI 547  Sociopol Persp Math Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/547)
This course is for anyone interested in equity-related issues in mathematics and science education. It provides an overview of sociopolitical perspectives on mathematics and science education, including how issues of identity, power, and equity play out in teachings, learning, and research. Students will develop an understanding of how racism, classism, and the politics of language operate within mathematics and science classroom and in the practice of mathematics and science in society at large. An emphasis of the course is on solutions that address social justice.

CI 548  Capstone Project  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/548)
Part I of the course focuses on the design on an action research project (capstone project), which integrates pedagogical and science content ideas addressed in the program courses. The project amounts to an empirical investigation of a student-generated research question around issues focused on science teaching and learning. Students are expected to collect data for their project, preferably in their own classrooms, in the period between Parts I and II of the course. Part II focuses on the analysis, interpretation, and discussion of the data collected, and the implications of the findings for classroom practice. May be repeated in separate terms to a maximum of 4 hours.
CI 550  Methods of Educational Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/550)
Offers a graduate-level introduction to research in education, including quantitative, qualitative and mixed methods designs and approaches. Key concepts include: identifying a research problem, reviewing the literature, design and analysis, communicating evidence, and the ethics of research. Students should gain the ability to effectively evaluate and critique design/methods sections of research publications; plan and design research studies; and organize a presentation of research to an audience of peers. Same as EPOL 550, EPSY 573, and SPED 550. 4 graduate hours. No professional credit.

CI 552  Qualitative Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/552)
Focuses on analysis of data and writing of qualitative/ethnographic research in educational contexts. Topics include the history of qualitative research practices; approaches to the analysis and interpretation of multiple forms of data, including coding, discourse analysis, text analysis, and structural/post-structural analysis; different styles of qualitative writing; social theory as a framing device; and writing for publication. Provides a theoretically informed but very practical, hands-on approach to qualitative writing for graduate researchers across the broad range of educational and social science contexts. One part of the course focuses on methods of analysis through application, while a second part is designed as a writer's workshop in which students "write up" the data from a study in three narrative styles. Assignments include weekly readings, three short writing assignments, and a more substantial writing project. Advanced graduate standing is useful but not required.

CI 554  Advanced Inst. Approach  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/554)
An action research-based approach to implementing and evaluating a broad range of research-based instructional approaches across grade levels and content areas. Includes an action-research component. Prerequisite: For students in the Advanced Instructional Design master's program.

CI 555  Advanced Educational Technologies for Engagement and Interactive Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/555)
Same as EPSY 555 and INFO 555. See EPSY 555.

CI 557  Using Theory in Tea Ed Res  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/557)
Students in this course will read a variety of theoretical viewpoints in order to frame and critically examine teacher education research. Students will be encouraged to use multiple theories to frame research questions and findings as a way to situate themselves as researchers and consider ways in which multiple theoretical perspectives can be used to examine and interpret different aspects of their research in teacher education.

CI 558  Programs in Teacher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/558)
The focus of this course will be a study of programs in teacher education considered in light of historical, social, and policy influences and also related to wider issues in contemporary teacher education efforts and research. We will consider the current context of teacher preparation programs in the U.S., examine the historical factors that have brought U.S. teacher education to this point, assess the influence of public policy on teacher education in the U.S. and globally, and study a variety of exemplary models of teacher education in the U.S. and globally. Students will conduct a study of a particular program and present this in a poster session at the end of the semester.

CI 560  Trends & Issues Language Arts  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/560)
Advanced seminar in literacy for teachers, researchers, and specialists. Focuses on trends and issues in elementary and secondary language arts. Current theories, relevant research and practical applications are considered in relation to reading, writing, listening, and speaking. 4 graduate hours. No professional credit.

CI 561  Theory Prac in Child Comp  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/561)
Focuses on theory and practice of children's written composition from preschool through middle school. Includes development of understanding of texts, pedagogy, motivation and classroom practices that facilitate writing. Students learn about their own writing, participate in peer writing conferences, and produce research or curricular projects for use in classrooms. Prerequisite: CI 475 and CI 476, or course in writing, or consent of instructor.

CI 562  Ling and the School Curr  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/562)
Analyzes linguistics for the school curriculum including dialect diversities, use of language in social contexts, and variations in oral and written forms of language. Gives attention to classroom discourse in US and international settings, and ethnography of communication. Prerequisite: Admission to a doctoral program.

CI 563  Writing Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/563)
Same as ENGL 505. See ENGL 505.

CI 565  Topics Research and Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/565)
Same as ENGL 582. See ENGL 582.

CI 566  Topics Writ Pedagogy & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/566)
Same as ENGL 583. See ENGL 583.

CI 567  Child Lit in the School Curr  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/567)
Investigates trends and issues related to teaching literature in the school; focuses attention upon the organization and planning of a balanced literature curriculum (fictional and informational). 4 graduate hours. No professional credit. Prerequisite: CI 467 or LIS 404 or consent of instructor.

CI 568  Cont Classics in Child Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/568)
Critically examines children's books that have received major national and international awards and prizes and the requirements for that distinction; gives particular attention to the most recent publications so honored and their implications for use in the classroom. Prerequisite: CI 467 or CI 567, or LIS 404; and ENGL 106, or equivalent; or consent of instructor.

CI 569  Topics Discourse and Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/569)
Same as ENGL 584. See ENGL 584.

CI 570  Issues & Trends in Reading  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/570)
The timing of beginning reading, the influence of certain linguistic findings on methodology and terminology in instructional materials, and the influence of research on methodology are addressed in a way that provides a historical perspective for evaluating the merit of emerging issues and trends. Prerequisite: CI 475 and CI 476 or equivalent, or consent of instructor.
CI 573  Early/Elem Rdg Inst  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/573)
Planning and evaluating reading instruction and materials in nursery school through Grade Three. Prerequisite: CI 475 or CI 471, or equivalent; or consent of instructor.

CI 575  Assessment in Reading  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/575)
Nature, causes, and diagnosis of reading difficulties; translation of diagnostic information into instructional practice. Prerequisite: CI 475 or CI 471, or equivalent.

CI 576  Assessment-Based Reading Instr  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/576)
Supervised experiences; special attention to evaluative and interpretative techniques in cases of severe reading disabilities based on the analysis of specific reading needs. May be repeated to a maximum of 8 hours. Prerequisite: CI 575.

CI 577  Clinical Practicum in Reading  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/577)
Diagnostic procedures and individual instruction with small groups of children who have reading difficulties. Prerequisite: CI 575 and CI 576.

CI 578  Bilit Dev of Young Children  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/578)
Helps students understand the language and literacy development of young bilinguals. Students will develop an understanding of the issues in biliteracy research, explore the diversity of research topics and perspectives in biliteracy research, and learn to think and write critically about research on early biliteracy development.

CI 580  Qual Rsch in Lang & Lit Educ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/580)
Focuses on the goals and nature of qualitative, observational study of life in educational settings, with an emphasis on oral and written languages. Adopts interpretive and critical perspectives on research and includes key readings on the ethnography of oral and written communication in schools, given a socioculturally and linguistically diverse society. All students will conduct a small scale study in an education site. Prerequisite: At least one semester of graduate course work.

CI 581  Aesthetics and Curriculum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/581)
Provides a synthesis of theoretical and autobiographical perspectives on aesthetic issues and their ramifications for the development and the critique of arts curricula. Drawing on art as an important source of knowledge and communication, the course reviews ideas from aesthetics and arts education (e.g., music, poetry, literature, visual arts, theater and dance education). Identifies principles common to all art forms but manifested differently in each of them to develop tools and skills for the design of, evaluation of, and research on arts curricula. Same as DANC 581. Prerequisite: Graduate standing, and background with one of the arts, or consent of instructor.

CI 582  Rdg and Wrtg Across the Curr  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/582)
Designed for elementary and middle school educators, this course focuses on theory and practice related to both intradisciplinary integration (across the language arts) and interdisciplinary integration (across the content areas). Specific methods and strategies for fostering effective integrated literacy instruction are explored. Prerequisite: CI 475 and CI 476, or equivalent methods course in reading and language arts.

CI 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/584)
Same as EALC 584, EPSY 563, FR 584, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

CI 585  Informational Children's Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/585)
Intended for elementary and middle school teachers, this course is an introduction to informational, or nonfiction children's literature. Students will explore the importance of including informational literature in the curriculum, how to select informational children's literature, and methods for teaching with informational text and for helping children learn from informational text. Prerequisite: CI 467, or equivalent children's literature course; CI 475 and CI 476, or equivalent methods course in reading and language arts.

CI 586  Topics in Digital Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/586)
Same as ENGL 586. See ENGL 586.

CI 587  Multicultural Literature K-12  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/587)
This course focuses on the meaning, function, and value of multicultural/multiethnic literature in teaching and learning. Through readings, dialogue, and research, students will focus on rewards of teaching and reading multiculturally that make it worth any effort involved. Blending multicultural theory and research, literary study, and educational practice, this course is appropriate for graduate students in education, library science, and English literature and for any other graduate student interested in the role of literature in our culturally diverse society. Prerequisite: A college literature course taken as part of an approved teacher certification program, college literature course in English literature, or consent of instructor.

CI 590  Sem for Adv Stu of Education  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/CI/590)
Approved for both letter and S/U grading. Prerequisite: Admission to doctoral study.

CI 591  Field Study & Thesis Seminar  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/CI/591)
Assists doctoral candidates in planning field studies and thesis problems. Students are expected to present their studies at each of four stages: (1) the inception, delimitation, tentative design stage; (2) the proposed design stage; (3) the revised design stage; and (4) the final design stage. Students are expected to analyze critically all presentations. Prerequisite: Admission to doctoral study.

CI 592  Ed.D. Proseminar  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/CI/592)
Course covers various topics related to research in practice and critical reading of research in the field of curriculum and instruction. May be repeated to a maximum of 6 hours in separate terms. Prerequisite: Ed.D. students.

CI 595  Independent Study  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CI/595)
Offers opportunity and challenge of self-directive, independent study; develops the individual's ability as an independent student, and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term. May be repeated to a maximum of 8 hours with approval. Prerequisite: Approval of study outline by adviser and the department chairperson prior to enrollment.
Czech (CZCH)

CZCH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CZCH)

Courses

CZCH 101 Elementary Czech I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/101)
Develops basic proficiency in Czech in listening, speaking, reading, and writing.

CZCH 102 Elementary Czech II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/102)
Continuation of CZCH 101. Prerequisite: CZCH 101.

CZCH 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/199)
May be repeated.

CZCH 201 Second-year Czech I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/201)
Develops intermediate-level proficiency in Czech in listening, speaking, reading, and writing. Prerequisite: CZCH 102 or equivalent.

CZCH 202 Second-year Czech II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/202)
Continuation of CZCH 201. Prerequisite: CZCH 201 or equivalent.

CZCH 484 Readings in Czech credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/CZCH/484)
Reading and analysis of selected texts. 3 undergraduate hours. 4 graduate hours. Prerequisite: CZCH 202 or consent of instructor.

Dance (DANC)

DANC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/DANC)

Courses

DANC 100 Intro to Contemporary Dance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/100)
Overview of major works, figures, and trends responsible for shaping dance as an evolving contemporary art form. The course will have lecture, viewing, discussion and experiential (studio participation) components. For non-dance majors.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

DANC 101 Modern Dance I credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/101)
Introduction to basic dance technique and movement improvisation; the study of motion as an art, group relationships in improvisation, and discussion of choreographic ideas. For non-dance majors. May be repeated to a maximum of 8 hours.

DANC 102 Modern Dance II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/102)
Intermediate dance technique and improvisation. For non-dance majors. May be repeated to a maximum of 8 hours. Prerequisite: DANC 101 or consent of instructor.

DANC 103 Contact Improvisation credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/103)
Introduction to basic elements of Contact Improvisation through learning skills such as weight sharing, falling, rolling, responding to touch, momentum, gravity and disorientations. Course work will include dancing, dance making, viewing dance, in-class discussions and short writing assignments. Concert attendance is required. May be repeated to a maximum of 8 hours. Prerequisite: For Non-dance majors.

DANC 104 Making Dances credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/104)
Introduction to basic choreographic elements. Course work will include dancing, dance making, viewing dance, in-class discussions and short writing assignments. Concert attendance is required. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 105 Jazz Dance I credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/105)
Introduction to basic dance technique and stylistic work in the jazz idiom. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 106 Jazz Dance II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/106)
Progressive development of the concepts and skills in DANC 105. May be repeated to a maximum of 8 hours. Prerequisite: DANC 105 or equivalent; or consent of instructor. For non-dance majors.

DANC 107 Ballet I credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/107)
Introduction to ballet for nondance majors. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 108 Ballet II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/108)
Progressive development of the concepts and skills in DANC 107; for the non-dance major. May be repeated to a maximum of 8 hours. Prerequisite: Two semesters of DANC 107 or equivalent or consent of instructor. For non-dance majors.

DANC 109 Ballet III credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/109)
Intermediate level of Ballet technique for non-dance majors. Course is a continuation and development of the skills in DANC 108. May be repeated to a maximum of 8 hours. Prerequisite: Two semesters of DANC 108 or equivalent or consent of instructor. For non-dance majors.

DANC 111 Cultural Dance Forms credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/111)
Provides students with the physical study of various world dance forms. Topics reflect specializations of faculty, such as Capoiera, African dance, Balinese dance, and Chinese forms. May be repeated to a maximum of 4 hours in the same term and 8 hours in separate terms.

DANC 112 Hip Hop credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/112)
Hip-Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. May be repeated in separate terms up to 8 hours.

Information listed in this catalog is current as of 07/2019
DANC 120 Tap Dance I credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/120)
Introduction to basic tap technique for non-dance majors. Emphasis is on a conceptual understanding of tap style and the development of the specific skills needed for performance. May be repeated to a maximum of 8 hours. Prerequisite: For non-dance majors.

DANC 121 Tap Dance II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/121)
Intermediate level of tap dance technique for non-dance majors. Course is a continuation of DANC 120, emphasizing a progression in movement vocabulary, style, rhythm, and performance quality. May be repeated to a maximum of 8 hours. Prerequisite: DANC 120 or equivalent, or consent of instructor.

DANC 125 Black Dances of Resistance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/125)
The Break Down: Black Dances of Resistance interrogates African American dance for its potential for social resistance. "Break Down" refers to the spirituality of perseverance and the "vital aliveness" of African Diasporic movement that has counteracted the dismal social climate in which Black people have found themselves throughout American history. Concurrent with on-line lectures, students will participate in African-informed dance classes once a week to excavate the "BreakDown" in selected African American dance forms including but not limited to plantation dances, hip hop, Black queer dance styles, and contemporary choreography.

This course satisfies the General Education Criteria for: Cultural Studies - US Minority

DANC 131 Production Practicum I credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/131)
Practical experience in the production of dance concerts mounted in the Krannert Center for the Performing Arts. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term).

DANC 150 Orientation to Dance credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/150)
Survey of the field including dance as a theatre art, careers, injury prevention and nutrition. Also serves to orient incoming students to the faculty, programs, and policies of the Department of Dance, and the production and performing resources in the Krannert Center for the Performing Arts. Prerequisite: Major standing in Dance or consent of instructor.

DANC 160 Beg Contemp Modern Tech Core credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/160)
Elementary technique for majors with emphasis on a conceptual understanding of movement principles and the development of technical skill and performance sensitivity. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 165 Beginning Ballet Tech Core credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/166)
Elementary ballet for dance majors; emphasizes placement, refinement of adagio, pirouette, jumps, and connecting steps. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 167 Beginning Ballet Tech Elect credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/167)
Elementary ballet for dance majors; emphasizes placement, refinement of adagio, pirouette, jumps, and connecting steps. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/DANC/199)
May be repeated to a maximum of 9 hours.

DANC 200 Explore Music through Dance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/200)
In-depth study of musical form, history, culture, and styles, taught from a physical learning, i.e., dance, perspective. Musical and dance forms will be studied across cultures and time periods, from both a technical and a cross-cultural perspective. Content will be delivered as a series of video lectures and performances, and online readings. Students will create movement studies that mirror the musical forms being analyzed, produce video documentation of these works, engage in peer review of other students’ performance work, and complete exams that cover the cultural and historical aspects of the examples studied. This course satisfies the General Education Criteria for: Humanities - Lit Arts

DANC 201 Yoga Practicum credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/201)
Introduces basic yoga asanas (postures) and overview of the 8-limb system of yoga. Focus will be on physical understanding, correct alignment and inner awareness in the major basic poses. Weekly home practice, ongoing journal, and a research paper about an area of yoga philosophy are required. May be repeated in separate terms to a maximum of 8 hours. May be repeated in separate terms to a maximum of 16 hours. Credit is not given for both DANC 201 and DANC 301.

DANC 209 Lyric Theatre Dance credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/209)
Designed for Lyric Theatre Students, this course will introduce a broad variety of movement techniques used in the collaborative singing-acting industry. Through integrative cognitive and physical instruction, students will learn to optimize kinesthetic awareness, expressiveness, breath control, and governance of the singing actors’ physical instrument. Classes will include: physical exercises and improvisations, group collaborations, and analysis of movement choices in theatrical performances. Dance styles ranging from Baroque opera and ballroom dance forms to contemporary musical theatre will be covered within this course. May be repeated once in separate semesters. Prerequisite: For Dance or Lyric Theater majors only or by consent of the instructor.

DANC 210 Int Jazz Technique credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/210)
Introduction to basic dance techniques and stylistic work in the jazz idiom for experienced dancers. Emphasis on a conceptual understanding of jazz style (as related to America’s own cultural diversity) and the development of the specific skills necessary for performance and teaching. May be repeated to a maximum of 2 hours. Prerequisite: Major standing in Dance or consent of instructor.

DANC 211 Int Hip Hop Technique credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/211)
Hip-Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. May be repeated in separate terms for a maximum of 8 hours. Prerequisite: For majors only.
DANC 215  Int Tap Dance Technique  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/215)
Introduction to basic tap technique for experienced dancers. Emphasis on a conceptual understanding of tap style and the development of the specific skills necessary for performance and teaching. May be repeated to a maximum of 2 hours. Prerequisite: Audition required. Primarily for Dance and Music Majors with a Concentration in Lyric Theater. Students with sufficient skills from other majors may be accepted with approval from instructor.

DANC 220  Perf Pract Student Works I  credit: .5 to 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/220)
Performance laboratory involving the rehearsal and performance of student works under faculty supervision. Approved for S/U grading only. May be repeated to a maximum of 16 hours, in separate terms. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 221  Performance in Grad Thesis I  credit: .5 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/221)
Performance laboratory involving the rehearsal and performance of student works under faculty supervision performed in MFA Thesis concert. May be repeated to a maximum of 16 hours, in separate terms. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 222  Perf Pract November I  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/222)
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in November Dance. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 223  Perf Pract February I  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/223)
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in February Dance. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor. A maximum of 16 hours of performance credit may be counted toward degree requirements.

DANC 231  Production Practicum II  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/231)
Practical experience in the production of dance concerts mounted in the Krannert Center for the Performing Arts. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term).

DANC 240  Dance History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/240)
Introduction to major artistic movements in dance history from ancient Greece through the 20th century. Goal of the course is to gain a broad understanding of dance in relation to socio-political ideologies of gender, race, sexuality, and national identities. Prerequisite: Major standing in Dance or consent of instructor.

DANC 259  Contact Improv for Act/Mus/Dan  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/259)
In this interdisciplinary course, performing arts students learn physical skills necessary for the practice of the contact improvisation (CI) partnering dance form as well as improvisational and performance skills. Encourages contemplation of the broader philosophical implications inherent in the form: community building and accepting difference. Content includes visits to lecturers and events outside the Dance Department. May be repeated in separate terms to a maximum of 4 hours.

DANC 260  Int Contemp Modern Tech Core  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/260)
Progressive development of the concepts in DANC 160 and DANC 161, with emphasis on the qualitative and definitive performance of a variety of technical styles. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 160; or consent of instructor.

DANC 261  Int Contemp Modern Tech Elect  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/261)
Progressive development of the concepts in DANC 160 and DANC 161, with emphasis on the qualitative and definitive performance of a variety of technical styles. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 160; or consent of instructor.

DANC 262  Choreographic Process I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/262)
Theory and practice in principles of dance composition; emphasis on solo creative work using various approaches to composition. Prerequisite: DANC 259 or consent of instructor. Limited to dance majors.
DANC 266 Intermediate Ballet Tech Core credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/266)
Intermediate ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 166 and DANC 167, with emphasis on technical development and extended movement combinations. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 166 or DANC 167; or consent of instructor.

DANC 267 Intermediate Ballet Tech Elect credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/267)
Intermediate ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 166 and DANC 167, with emphasis on technical development and extended movement combinations. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in Dance and successful completion of two semesters of DANC 166 or DANC 167; or consent of instructor.

DANC 268 Music Theory for Dancers credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/268)
Introduction to basic music theory with a concentration on rhythm. The first half of the term will concentrate on 1) learning, understanding, and being conversant in basic music parameters; 2) analytical listening; 3) notation; 4) transcriptions; 5) reading notation/following a score; 6) performance of simple rhythm patterns. The second half will deal with form and formal analysis as it relates to choreography, as well as more advanced parameters of music theory. Prerequisite: Major standing in Dance or consent of instructor.

DANC 301 Yoga Fundamentals credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/301)
Introduces basic yoga asanas (postures) and brief overview of the 8-limb system of yoga. Focus will be on understanding correct alignment and developing inner awareness. Weekly home practice, journal, and discussions about yoga philosophy are required. May be repeated in separate terms to a maximum of 8 hours.

DANC 302 Intermediate Asana credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/302)
Continues to develop deep intellectual and physical understanding of the basic yoga asanas learned in DANC 301: Yoga Fundamentals. Begin to practice intermediate-level poses, and develop a remedial understanding of pranayama (energy control achieved through breath). May be repeated in separate terms up to 2 hours. Prerequisite: DANC 301. For dance majors only.

DANC 303 Yoga Teacher Training credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/303)
This course introduces basic yoga philosophy. Course content also includes discussion of the ethics involved in teaching yoga as well as applying prior experience with teaching and anatomy to teaching yoga asana. Prerequisite: DANC 301 and DANC 302. For dance majors only.

DANC 310 World Dance Forms credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/310)
Provides students with the physical study of various world dance forms. Topics reflect specializations of faculty, such as Capoeira, African dance, Balinese dance, and Chinese forms. May be repeated in the same term to a maximum of 2 hours. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Consent of instructor.

DANC 330 Dance Documentation credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/330)
This is a hands-on course for students interested in exploring the relationship between dance and camera and the fundamentals of dance documentation. Using critical and experiential approach, we will explore the technical and artistic capabilities of mini-DV cameras and film-editing software to create dance performance documentation. Students will learn to execute clear and effective camerawork in relationship to dance performance, and to utilize editing software to most clearly display the artistic intent of the choreographers and directors. May be repeated up to 8 hours in separate terms. Prerequisite: For majors only, or by instructor approval.

DANC 331 Production Practicum III credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/331)
Practical experience in all aspects of the production of dance concerts mounted in the Krannert Center for the Performing Arts and within the Department of Dance. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term). Prerequisite: DANC 131, DANC 231 or equivalent, and consent of instructor.

DANC 340 Dancing Black Popular Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/340)
Introduces students to black dance aesthetics and its interconnectedness with American popular culture. By exploring its cultural, political and historical roots, coupled with theoretical concepts of "the popular" and ties to the vernacular, the course will be organized around significant markers that have shaped black dance's development. Same as AFRO 340.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

DANC 345 Dance Anatomy and Kinesiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/345)
The study of human and anatomy and kinesiology, specifically as applied to dance. The human musculoskeletal system, movement analysis, and conditioning principles are covered both theoretically and practically. This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

DANC 350 Creative Dance for Children credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/350)
Through lecture, discussion and practice, students develop skills to teach elements and concepts of dance to children ages 4-10. Course includes strategies for behavior and time management, spatial transitions, and how to organize and communicate creative concepts clearly and effectively. Students will observe master teaching and apply teaching techniques, acquire lesson plans that form the basis for a creative dance curriculum and the skills to implement them, and participate in all phases of a creative dance curriculum, including informal performance. Same as ARTE 350 and HDFS 361. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.

DANC 360 Int/Adv Contemp Mod Tech Core credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/360)
Progressive development of the concepts in DANC 260 and DANC 261, with emphasis on virtuosity and versatility. May be repeated to a maximum of 18 hours. Prerequisite: Major standing in Dance or consent of instructor; departmental placement.
DANC 361  Int/Adv Contemp Mod Tech Elect  credit: 1 to 3 Hours.  
Progressive development of the concepts in DANC 260 and DANC 261, with emphasis on virtuosity and versatility. May be repeated a maximum of 18 hours. Prerequisite: Major standing in Dance or consent of instructor; departmental placement.

DANC 362  Choreographic Process II  credit: 2 Hours.  
Choreography for the experienced student; includes performance of at least one original work. May be repeated in separate terms to a maximum of 10 hours. Prerequisite: DANC 262 or consent of instructor.

DANC 363  Advanced Improvisation  credit: 1 Hour.  
Exploration of the physical skills and philosophical concepts at the base of improvisation practice. Students will develop individual and collective approaches to improvisatory structures, systems and performance contexts as well as look at the historical ways that improvisation has been used in contemporary performance. The course will culminate in performance in various public and private contexts. May be repeated in separate terms to a maximum of 4 credit hours.

DANC 366  Int/Adv Ballet Tech Core  credit: 1 or 2 Hours.  
Intermediate/Advanced ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 266 and DANC 267. For dancers of advanced technical level with the ability to execute the ballet vocabulary. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in dance or consent of instructor; or Departmental placement.

DANC 367  Int/Adv Ballet Tech Elect  credit: 1 or 2 Hours.  
Intermediate/Advanced ballet for dance majors; a progressive development of movement concepts and vocabulary in DANC 266 and DANC 267. For dancers of advanced technical level with the ability to execute the ballet vocabulary. May be repeated to a maximum of 8 hours. Prerequisite: Major standing in dance or consent of instructor; or Departmental placement.

DANC 375  Production in Dance  credit: 1 Hour.  
Examines the theoretical and practical aspects of dance production. Includes lighting, costumes, scenery, props, audio, make-up, and management. Commitment outside of scheduled class includes participation in the production of the annual Senior Concert.

DANC 400  Viewing Dance  credit: 1 Hour.  
Overview of contemporary dance from the United States, Canada, and Europe focusing on the current works of significant emerging and established choreographers working in the field today. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated to a maximum of 4 hours.

DANC 401  Alexander Tech for Dancers  credit: 1 Hour.  
Introduces the Alexander Technique: a practical method for changing habitual movement patterns which interfere with coordination, ease, and efficiency of movement. The course focuses on learning the principles through hands-on work, readings, discussions, and application to dance. 1-3 individual lessons outside of class required per term. 1 undergraduate hour. 1 graduate hour. Prerequisite: Major standing in Dance or consent of instructor.

DANC 402  Alexander Technique Practicum  credit: 1 or 3 Hours.  
Facilitates conscious and reasoned control of the human organism as a psychophysical whole. Helps students recognize habits that constitute their daily activities and discard, through conscious control, those that impede open-minded enquiry and self-reliance. Through one-on-one work with certified teachers and trainees, students will learn to change habitual patterns of coordination. 1 undergraduate hour. 3 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours or 6 graduate hours.

DANC 410  Advanced Jazz Technique  credit: 1 Hour.  
Continuation of DANC 110, emphasizing the conceptual understanding of the jazz style and development of specific skills necessary for this idiom. No undergraduate credit. 1 graduate hour. May be repeated to a maximum of 4 hours. Prerequisite: Major standing in Dance or DANC 110 or equivalent and consent of instructor.

DANC 411  Adv Hip Hop Technique  credit: 1 Hour.  
Advanced Level Hip Hop Class. Hip-Hop dance technique will consist of the study and practice of Urban dance forms grounded in hip-hop culture. Students will explore the multiple dimensions of hip-hop dance as they train in the fundamentals of each form, learn its respective historical context, and access ways of incorporating individual ideas and lived experiences into their dancing. No undergraduate credit. 1 graduate credit. May be repeated in separate terms up to 8 hours. Prerequisite: For majors only.

DANC 420  Perf Pract Student Works II  credit: .5 to 2 Hours.  
Performance laboratory involving the rehearsal and performance of student works under faculty supervision. 0.5 to 2 undergraduate hours. 0.5 to 2 graduate hours. Approved for S/U grading only. May be repeated to a maximum of 16 hours in separate terms.

DANC 421  Performance in Grad Thesis II  credit: .5 to 3 Hours.  
Performance laboratory involving the rehearsal and performance of student works under faculty supervision performed in MFA Thesis concert. 0.5 to 3 undergraduate hours. 0.5 to 3 graduate hours. May be repeated.

DANC 422  Perf Pract November II  credit: 1 to 3 Hours.  
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in November Dance. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

DANC 423  Perf Pract February II  credit: 1 to 3 Hours.  
Performance laboratory involving the rehearsal and performance of works by faculty and visiting artists performed in February Dance. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.
DANC 424 Collaborative Performance credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/424)
COLAB is an interdisciplinary class fusing improvisation, composition and collaborative projects for students in the departments of Music, Dance and Engineering. The class will be run along the lines of a professional performance company. Work in class will include sharing and adapting the principles and elements from each of these disciplines with a focus on producing material that will be presented in numerous public performances throughout the semester. 1 undergraduate hour. 2 graduate hours. May be repeated to a maximum of 3 undergraduate hours or 6 graduate hours in separate terms. Prerequisite: DANC 162 or DANC 259 or consent of instructor.

DANC 425 Dance Internship credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/425)
Supervised field experience in community and/or professional organizations in a variety of danced-related areas. Provides students with work experience and exposure to professional situations. Written and/or video documentation and department presentation of internship activities required. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for S/U grading only. May be repeated to a maximum of 6 hours. Prerequisite: Major standing in Dance and consent of instructor.

DANC 431 Production Practicum IV credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/431)
Practical experience in all aspects of the production of dance concerts mounted in the Krannert Center for the Performing Arts and within the Department of Dance. 1 or 2 undergraduate hours. 1 or 2 graduate hours. May be repeated to a maximum of 6 hours. (1 hour credit per concert up to 2 hours per term). Prerequisite: DANC 131 or DANC 231, or equivalent and consent of instructor.

DANC 441 Dance History Seminar credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/441)
Survey of critical approaches in dance studies including feminist theory, poststructural, and postcolonial theory, historiography, and ethnographic research methods. Course topics will cover a variety of theatrical, popular, and social dance practices. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours and 9 graduate hours. Prerequisite: DANC 240 or consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

DANC 445 Dance Kinesiology and Somatics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/445)
Introduction to human anatomy and kinesiology, specifically as applied to dance; introduction to the field of Somatics; approaches to improving the use of the body; exploration of the connections between the body, the mind, and movement. 4 undergraduate hours. 4 graduate hours. Prerequisite: Major standing in dance or consent of instructor.

DANC 450 Teaching Workshop credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/450)
Methods and approaches to the teaching of dance technique in the modern, ballet, and jazz idioms. 3 undergraduate hours. 3 graduate hours. Prerequisite: Junior standing in Dance or consent of the instructor.

DANC 451 Ind Study and Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/451)
Special projects in research or creative investigation taught on an individual or class basis. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing in Dance and consent of instructor.

DANC 455 Supervised Teaching credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/455)
Practical teaching experience under the supervision of a faculty member; weekly conference devoted to evaluation and planning. Teaching areas include major and non-major university courses and classes for community adults and children. 1 to 4 graduate hours. May be repeated to a maximum of 8 hours with approval.

DANC 459 Contact Improv Act/Mus/Dan II credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/459)
An interdisciplinary course in which performing arts students learn physical skills necessary for the practice of the contact improvisation (CI) partnering dance form as well as improvisational and performance skills. Encourages contemplation of the broader philosophical implications inherent in the form: community building and accepting difference. Content includes visits to lectures and events outside the dance department. 1 or 2 undergraduate hours. 1 or 2 graduate hours. May be repeated in separate terms to a maximum of 4 undergraduate hours or 6 graduate hours if topics vary.

DANC 460 Adv Contemp Modern Tech Core credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/460)
Modern technique for advanced graduate students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor; or departmental placement.

DANC 461 Adv Contemp Modern Tech Elect credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/461)
Modern technique for advanced graduate students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor; or departmental placement.

DANC 462 Composition Workshop credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/462)
Structured creative utilization of formal choreographic elements in the creation, rehearsal, staging, and performance of original dance works. 2 undergraduate hours. 2 graduate hours. Approved for S/U grading only. Prerequisite: Graduate standing in dance or consent of instructor.

DANC 464 Composer-Chor Workshop credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/464)
For experienced composers and choreographers; explores the many relationships between musical composition and choreography. Same as MUS 471. 2 undergraduate hours. 2 graduate hours. Prerequisite: For dance majors, DANC 263 or consent of instructor; for music majors, MUS 106 or equivalent, other compositional experience, and consent of instructor.

DANC 465 Screendance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/465)
Provides a comprehensive approach, from camera use to editing techniques, leading to a practical ability to develop and produce video projects on a basic level. Course focuses on developing choreographic projects designed specifically for the video/film format. 3 undergraduate hours. 3 graduate hours. Prerequisite: DANC 330. Non-dance majors admitted by audition on a space-available basis.

DANC 466 Advanced Ballet Tech Core credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/466)
Ballet for advanced students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor or departmental placement.
DANC 467  Advanced Ballet Tech Elect  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/467)
Ballet for advanced students. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Major standing in dance or consent of instructor or departmental placement.

DANC 495  Senior Career Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/495)
Addresses survival strategies and the transition from academe to the profession. Course content includes research and discussion of career possibilities in performance, choreography, teaching, community dance work, therapy, and the dance-related fields of health/fitness/recreation. Students will research individualized projects in an area of interest. 1 undergraduate hour. No graduate credit. Prerequisite: Senior standing in Dance.

DANC 497  BA Capstone Project  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/DANC/497)
The BA Capstone Project is a synthesis of dance studies with the student's selected focused area of study (focused electives, dual major, or minor), which results in a culminating presentation, performance, and/or written project. 3 undergraduate hours. No graduate credit. Approved for S/U grading only. Prerequisite: BA in Dance majors only, senior standing required.

DANC 499  Senior Thesis Production  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/499)
The planning, design, and production of the Senior Capstone Project (DANC 499) for public performance. Students will work as a team to plan the Senior Concerts including designing and producing promotional materials and managing technical rehearsals and performances. 1 or 2 undergraduate hours. No graduate credit. May be repeated in separate terms. Prerequisites: DANC 375. Concurrent enrollment in DANC 499 is required.

DANC 542  Contemporary Directions II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/542)
A critical approach to 20th century dance with emphasis on the evolution of ideas that have influenced and shaped the dance of today. Prerequisite: Graduate standing in dance or consent of instructor.

DANC 560  Advanced Physical Practice  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/560)
Required laboratory course focused on the practice of synthesizing expertise in choreography, physical practice, teaching, written and oral communication, and creative career planning. Critical theory and inquiry will be intertwined with rigorous examination of performance and construction of dance-making. Issues of sustaining practice, testing and conveying one's mission and vision, and elaborating on one's individual research in relationship to the field will be emphasized. May be repeated up to 8 hours in separate terms. Spring and Fall terms, even years. Prerequisite: Graduate standing in Dance required.

DANC 590  Master Class  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/590)
Guest artists in residence present classes and seminars in the advisory department. No credit. Prerequisite: Major standing in Dance (DANC) or consent of instructor.

DANC 592  In-Depth Dance Research  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/592)
Independent or collaborative research with a focus on an individual area of study. May be repeated for a maximum of 24 hours. Prerequisite: Major standing in Dance (DANC) or consent of instructor. Approved for S/U grading only. May be repeated to a maximum of 3 hours. Prerequisite: Graduate standing in dance.

DANC 594  Internship  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/DANC/594)
This course is designed for students wishing to complete an internship to gain in-depth experience in the professional world. Course grades are determined by an outside employer/honors and a final report submitted by the student. Internships may be for credit (S/U credit only) or without credit. Prerequisite: Senior standing in Dance. Prerequisites may vary depending on the internship site. Consent of instructor required.

DANC 595  Internship  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/595)
This course is designed for students wishing to complete an internship to gain in-depth experience in the professional world. Course grades are determined by an outside employer/honors and a final report submitted by the student. Internships may be for credit (S/U credit only) or without credit. Prerequisite: Senior standing in Dance. Prerequisites may vary depending on the internship site. Consent of instructor required.

DANC 597  Senior Thesis Production  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/597)
The planning, design, and production of the Senior Capstone Project (DANC 499) for public performance. Students will work as a team to plan the Senior Concerts including designing and producing promotional materials and managing technical rehearsals and performances. 1 or 2 undergraduate hours. No graduate credit. May be repeated in separate terms. Prerequisites: DANC 362 and senior standing in Dance. Concurrent enrollment in DANC 498 is required.

DANC 599  Senior Thesis Production  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/599)
The creation of a culminating choreographic/performance project. 1 to 2 undergraduate hours. No graduate credit. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Graduate standing in Dance. Concurrent enrollment in DANC 498 is required. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: DANC 362 and senior standing in Dance. Concurrent enrollment in DANC 498 is required.

DANC 601  MFA Prof Practice Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/DANC/601)
A course examining current field practices and trends including curatorial practices, and interdisciplinary practices. Includes preparation of practical materials for career presentation and examination of resources. Approved for S/U grading only. May be repeated to a maximum of 3 hours. Prerequisite: Graduate standing in Dance or consent of instructor.

DANC 602  Advanced Independent Research  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/602)
Advanced Independent Research in an opportunity for exceptional returning level professional MFA candidates in Dance to design and implement an in-depth examination of a creative, historical, contemporary, philosophical, technological, or educational facet of dance under the guidance of a faculty advisor. May be repeated for a maximum of 12 graduate hours. Prerequisite: Consent of instructor, advisor, and graduate program director.

DANC 610  Advanced Research in Dance  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/610)
Advanced Independent Research in an opportunity for exceptional returning level professional MFA candidates in Dance to design and implement an in-depth examination of a creative, historical, contemporary, philosophical, technological, or educational facet of dance under the guidance of a faculty advisor. May be repeated for a maximum of 12 graduate hours. Prerequisite: Consent of instructor, advisor, and graduate program director.

Information listed in this catalog is current as of 07/2019
DANC 562  Graduate Composition II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/DANC/562)
Includes reading, writing, and discussion. Students will examine the creative process, the conventions that form choreographers' works, and the historical situations from which specific dance works spring. Students will produce works in specific contexts outside the standard theatre setting. They will be responsible for all promotional and production aspects of a project that will be presented to the public. Prerequisite: Dance 462.

DANC 581  Aesthetics and Curriculum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/581)
Same as CI 581. See CI 581.

DANC 598  Creative Thesis Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/DANC/598)
The design, implementation, and completion of a culminating creative project in choreography and/or performance. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: 28 hours of graduate work in dance, including 4 hours in choreography.

E. Asian Languages & Cultures (EALC)

EALC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EALC)

Courses

EALC 114  Introduction to East Asian Art  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/114)
Same as ARTH 114. See ARTH 114.
This course satisfies the General Education Criteria for: Cultural Studies - Non-West

EALC 120  East Asian Civilizations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/120)
Same as HIST 120. See HIST 120.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

EALC 122  History East Asian Religions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/122)
Introduction to East Asian religious traditions; emphasizes the ideas of Confucianism, Taoism, and Buddhism in China and their historical interactions. Same as REL 122.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

EALC 130  The Chinese Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/130)
An introduction to the scientific study of the Chinese language. We will explore where the Chinese language came from, its similarities to and differences from Japanese and Korean, and how the Chinese character writing system was invented, plus what is it like now. We will explore differences among Chinese dialects (e.g., Cantonese, Mandarin, Taiwanese and Shanghai) and learn where in China these are spoken, and also explore how the Chinese language operates in the brain. Finally, we will investigate how children in China learn to speak, read, and write, how adults learn to speak Chinese as a foreign language, and how Chinese can be used by different social groups in different settings in order to influence social power and distance. Approved for Letter and S/U grading. This course does not fulfill the campus foreign language requirement.
This course satisfies the General Education Criteria for: Cultural Studies - Non-West Social Beh Sci - Soc Sci

EALC 132  Zen  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/132)
Same as REL 132. See REL 132.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

EALC 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EALC/199)
May be repeated.

EALC 220  Traditional China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/220)
Same as HIST 220. See HIST 220.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

EALC 221  Modern China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/221)
Same as HIST 221. See HIST 221.
This course satisfies the General Education Criteria for: Cultural Studies - Non-West

EALC 222  Chinese Thought and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/222)
Examination of China's principal philosophical, religious, and political schools of thought - such as Confucianism, Taoism, Zen Buddhism, and Taoism - as ways of understanding one of the world's major civilizations; the period of the classical philosophers, the glory years of empire, and the troubled era of Western contact receive approximately equal attention. Same as HIST 222 and REL 224.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West

EALC 226  Premodern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/226)
Same as HIST 226. See HIST 226.
This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Non-West
EALC 227 Modern Japanese History  
credit: 3 Hours.  
Same as HIST 227. See HIST 227. 
This course satisfies the General Education Criteria for: Humanities - Hist Phil 
Cultural Studies - Non-West

EALC 240 Chinese Civilization  
credit: 3 Hours. 
Introduction to the historical development of Chinese civilization. Emphasis will be on broad themes and the connections among cultural values, social institutions, political structures, and contacts with outsiders. Visual and literary evidence will be stressed. 
This course satisfies the General Education Criteria for: 
Cultural Studies - Non-West

EALC 250 Intro to Japanese Culture  
credit: 3 Hours. 
Topical introduction to Japanese cultural and aesthetic life with attention to cultural and aesthetic patterns as they are reflected in literature, language, and the arts. 
This course satisfies the General Education Criteria for: 
Cultural Studies - Non-West 
Social Beh Sci - Soc Sci

EALC 275 Masterpieces of East Asian Lit  
credit: 3 Hours. 
Study of major works in the literary traditions of China and Japan, including haiku, noh, Tale of Genji, kabuki, Tang poetry, Ming theater, and the colloquial tale. Same as CWL 275. No knowledge of Chinese or Japanese language required. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 276 Asian Film Genres  
credit: 3 Hours. 
Same as CWL 276 and ENGL 276. See ENGL 276. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 285 Intro to Korea Through Film  
credit: 3 Hours. 
Course uses film, literary, and ethnographic works to explore the impact of Post-Colonial (1945-present) socioeconomic and cultural transformation on the personal and collective South Korean experience. Same as ANTH 285. 
This course satisfies the General Education Criteria for: 
Cultural Studies - Non-West

EALC 287 Introduction to Buddhism  
credit: 3 Hours. 
Same as REL 287. See REL 287. 
This course satisfies the General Education Criteria for: 
Humanities - Hist Phil 
Cultural Studies - Non-West

EALC 288 Contemporary East Asia  
credit: 3 Hours. 
Introduction to aspects of daily life in East Asia in relation to local and extra-local political and economic structures and transformations. Same as ANTH 287.

EALC 305 Japan Lit in Translation I  
credit: 3 Hours. 
Survey of Japanese literature from earliest times to 1600; readings in prose, poetry, and drama in English translation. Same as CWL 311. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 306 Japan Lit in Translation II  
credit: 3 Hours. 
Survey of Japanese literature from 1600 to recent times; readings in prose, poetry, and drama in English translation; and lectures and papers. Same as CWL 312. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 307 Classical Chinese Lit  
credit: 3 Hours. 
Surveys Chinese literary works from the classical tradition (history, philosophy, poetry, literary criticism) with attention to intellectual and artistic values. Same as CWL 307. No knowledge of Chinese is required. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 308 Chinese Popular Lit  
credit: 3 Hours. 
Surveys Chinese popular literary works written in the vernacular language (short story, novel, and drama), with attention to cultural and artistic values. Same as CWL 308. No knowledge of Chinese is required. 
This course satisfies the General Education Criteria for: 
Humanities - Lit Arts 
Cultural Studies - Non-West

EALC 333 Language in Japanese Society  
credit: 3 Hours. 
Examines aspects of language use in contemporary Japanese society, including cross-cultural communication, social/regional variations, and problems surrounding linguistic/ethnic minorities in Japanese society. Prerequisite: Completion of JAPN 202 or equivalent. 

EALC 343 Gov & Pol of China  
credit: 3 Hours. 
Same as PS 343. See PS 343. 

EALC 361 Women in East Asia  
credit: 3 Hours. 
Interdisciplinary inquiry into the cultural and social patterns that have shaped women's lives in China, Japan, and Korea. Same as GWS 361. 
This course satisfies the General Education Criteria for: 
Cultural Studies - Non-West 
Social Beh Sci - Soc Sci

EALC 365 Contemporary Korean Society  
credit: 3 Hours. 
Introduces contemporary Korean society; the twentieth century struggle of Korea for an individual identity, the Korean road to modernization and its significance for the United States and the developing world. 
This course satisfies the General Education Criteria for: 
Cultural Studies - Non-West 
Social Beh Sci - Soc Sci
EALC 367 History of Korea credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/367)
Historical examination of the Korean experience, from the earliest times to the present day: basic political, social, economic patterns; examination of the cultural and intellectual tradition; Korea's historical role in Asia; the Korean colonial experience; Korea in the modern world. Same as HIST 325.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Non-West
EALC 390 Individual Study credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/390)
Directed readings in the languages and literatures of East Asia. The area selected depends on the student's interest. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.
EALC 391 Honors Tutorial credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/391)
Tutorial in the civilizations of East Asia. The country and discipline depend on student interests. All students submit a substantial paper. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor.
EALC 398 Colloquium in EALC credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/398)
See online schedule for current topics. May be repeated in the same or separate terms to a maximum of 12 hours if topics vary. Prerequisite: Junior standing.
EALC 402 Ways of Seeing in Edo Japan credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/402)
Same as ARTH 402. See ARTH 402.
EALC 403 Word and Image in Chinese Art credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/403)
Same as ARTH 403. See ARTH 403.
EALC 411 The Chinese Novel credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/411)
Reading and analysis of representative pieces of Chinese fiction from the fourth century B.C. to 1900 with emphasis on the development of Chinese fiction, its place in the literary tradition, and its role in society. Same as CWL 411. 3 undergraduate hours. 4 graduate hours. No knowledge of Chinese is required.
EALC 412 Mod Chinese Lit in Translation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/412)
Reading and analysis of representative selections from Chinese literature since the May 4 Movement (early 20th century), with special attention to the relationship between literature and ideology in twentieth-century China. Same as CWL 412. 3 undergraduate hours. 4 graduate hours. No knowledge of Chinese is required.
EALC 413 Premodern Chinese Drama credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/413)
Survey of Chinese drama from the 12th century through the early 20th century. Students will read major works of Chinese drama in English translation, as well as works on stagecraft, performance styles, the social functions of drama and the social role of actors. Videotaped contemporary performances of traditional drama will be viewed. Same as CWL 416 and THEA 488. 3 undergraduate hours. 4 graduate hours.
EALC 415 Mod Japan Lit in Translation credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/415)
Critical study of selected 20th century writers with an emphasis on cultural background, world view, human relationships, aesthetic theories, Japanese and Western traditions, and universal literary issues. Same as CWL 415. 3 undergraduate hours. 2 or 4 graduate hours. Requires no knowledge of Japanese; readings and films. Prerequisite: Junior standing or consent of instructor.
EALC 420 China Under the Qing Dynasty credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/420)
Same as HIST 420. See HIST 420.
EALC 421 Soc-Econ Hist Modern China credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/421)
Same as HIST 422. See HIST 422.
EALC 425 Chinese Poetry and Translation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EALC/425)
A critical introduction to major Chinese poetic genres and an in depth examination of various translation strategies used in the translation of Chinese poetry. The poetry component acquaints students with essential aspects of Chinese language and poetry and thus enables them to evaluate the translated texts from the perspectives of both an insider and outsider. The translation component entails both the evaluation of existing translations and practice by the students. Same as TRST 430. 3 undergraduate hours. 3 graduate hours.
EALC 426 Early Modern Japan credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/426)
Same as HIST 426. See HIST 426.
EALC 427 Twentieth-Century Japan credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/427)
Same as HIST 427. See HIST 427.
EALC 428 Japan at War and Peace credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/428)
Examination of the changing ways the Japanese have imagined war and peace in the twentieth century as documented in novels, memoirs, essays, plays, films, journalism, and other works. Same as CWL 428. 3 undergraduate hours. 3 or 4 graduate hours. Graduate students taking this course for 4 hours credit will be expected to write the same papers as undergraduates. In addition, graduate students will be expected to produce a term paper that will be due at the time of the final exam. Prerequisite: Junior standing or consent of instructor.
EALC 430 Intro to East Asian Ling credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/430)
Same as LING 430. See LING 430.
EALC 466 Japanese Cinema credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/466)
Same as CWL 467 and MACS 466. See MACS 466.
EALC 469 The Ethnography of Korea credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EALC/469)
Survey of the English-language anthropological study and representation of Korea, situating this literature topically, historically, theoretically, and methodologically. Same as ANTH 489. 3 undergraduate hours. 4 graduate hours. Prerequisite: ANTH 103 or ANTH 230, or EALC 285 or EALC 365 or EALC 367, or consent of instructor.
EALC 475  Discourse & Grammar in EA Langs  credit: 3 or 4 Hours.  
Examines how the regularities in language use that we think of as 'grammar' emerge from communicative needs in discourse. Focuses on analysis of grammatical phenomena in East Asian languages. Requires advanced knowledge of Chinese, Japanese, or Korean. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 430; junior standing or consent of instructor.

EALC 476  Classical Chinese Thought  credit: 3 or 4 Hours.  
Inquiry into the major schools of Chinese thought in the Classical Period through the Han (206 B.C. - A.D. 220): Confucianism, Taoism and Legalism. Topics such as the concept of history, military thought and logic will be covered. Readings are in English. Same as CWL 478 and HIST 425. 3 undergraduate hours. 4 graduate hours. Prerequisite: One 200 or 300-level course on Chinese culture or consent of instructor.

EALC 484  Buddhist Meditation  credit: 3 Hours.  
Same as REL 484. See REL 484.

EALC 488  History of Chinese Buddhism  credit: 3 or 4 Hours.  
Survey of the history of Chinese Buddhism since its introduction; analysis of Buddhological trends and styles; and the sociocultural milieu of Chinese Buddhism and its place in the total history of ideas and lifestyles. Same as REL 488. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: REL 287 or consent of instructor.

EALC 490  Individual Study  credit: 2 to 12 Hours.  
Supervised individualized study of a topic not covered by regular course offerings. The topic must be approved by the instructor. 3 to 12 undergraduate hours. 2 to 12 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

EALC 495  Topics in Asian Religions  credit: 3 or 4 Hours.  
Same as REL 495. See REL 495.

EALC 500  Proseminar in EALC  credit: 4 Hours.  
Interdisciplinary introduction for first-term East Asian Languages and Cultures graduate students to western-language writings on East Asia that have been important to modern scholarship on the region. The proseminar will cover the three cultures of the region in an interdisciplinary context. Besides reviewing research on language teaching methodology and curriculum development, students will observe each other in class and discuss different pedagogical approaches. May be repeated. Prerequisite: Native or near-native fluency in Japanese, Chinese, or Korean.

EALC 501  Seminar in Chinese Art  credit: 4 Hours.  
Same as ARTH 501. See ARTH 501.

EALC 511  Applied Literary Translation I  credit: 4 Hours.  
Same as CWL 511, GER 511, SLAV 501, and TRST 501. See TRST 501.

EALC 512  Applied Literary Translation II  credit: 4 Hours.  
Same as CWL 512, GER 512, SLAV 502, and TRST 502. See TRST 502.

EALC 520  Problems in Chinese History  credit: 4 Hours.  
Same as HIST 520. See HIST 520.

EALC 521  Seminar in Chinese Literature  credit: 4 Hours.  
Examination of Chinese literature from a variety of genres and historical periods intended to prepare students for independent work in literary criticism and analysis. Readings include both primary texts and important works of secondary scholarship. Students will produce a term paper based on independent research. May be repeated to a maximum of 8 hours with approval.

EALC 522  Seminar in Chinese History  credit: 4 Hours.  
Same as HIST 521. See HIST 521.

EALC 526  Problems in Japanese History  credit: 4 Hours.  
Same as HIST 526. See HIST 526.

EALC 527  Seminar in Japanese History  credit: 4 Hours.  
Same as HIST 527. See HIST 527.

EALC 531  Seminar in Japanese Lit  credit: 4 Hours.  
Examination of Japanese literature from a variety of genres and historical periods designed to prepare advanced students for independent work in literary criticism and analysis. Texts in the vernacular are read and discussed from a variety of critical perspectives. Students produce a term paper based on current scholarship in the field of Japanese literary studies. May be repeated in same or subsequent terms as topics vary to a maximum of 12 hours. Prerequisite: A reading knowledge of Japanese.

EALC 550  Seminar in EALC  credit: 4 Hours.  
Seminar on selected topics. Topic varies with instructor. May be repeated to a maximum of 12 hours. Prerequisite: Consent of instructor.

EALC 560  East Asian Language Pedagogy  credit: 4 Hours.  
Course is for teachers of Japan, Chinese, or Korean language who wish to improve their teaching skills and learn more about second and foreign language acquisition specific to the East Asian Language context. Besides reviewing research on language teaching methodology and curriculum development, students will observe each other conduct practice classes and analyze videotapes of class sessions. Undergraduates may enroll with consent of instructor and the Graduate College. Prerequisite: Native or near-native fluency in Japanese, Chinese, or Korean.

EALC 567  Popular Religion in East Asia  credit: 4 Hours.  
Same as REL 567. See REL 568.

EALC 584  Theories in Second Language Acquisition  credit: 4 Hours.  
Same as CL 584, EPSY 563, FR 584, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

EALC 588  Second Lang Learn  credit: 4 Hours.  
Same as FR 588, GER 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

EALC 590  Individual Study and Research  credit: 2 to 12 Hours.  
Supervised individualized study of a topic not covered by regular course offerings. The topic selected by the student and the proposed plan of study must be approved by the adviser and the instructor. May be repeated. Prerequisite: Consent of instructor.
Earth, Society, & Environment (ESE)

Courses

ESE 103 Earth’s Physical Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/103)
Same as GEOG 103. See GEOG 103.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 104 Geology of the National Parks credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/104)
Same as GEOG 104. See GEOG 104.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 106 Geographies of Globalization credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/106)
Same as GEOG 106. See GEOG 106.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

ESE 111 Emergence of Life credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/111)
Same as GEOG 111. See GEOG 111.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

ESE 117 The Oceans credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/117)
Same as GEOG 117. See GEOG 117.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 118 Natural Disasters credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/118)
Same as GEOG 118 and GLBL 118. See GEOG 118.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 120 Severe and Hazardous Weather credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/120)
Same as ATMS 120. See ATMS 120.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences
Quantitative Reasoning II

ESE 140 Climate and Global Change credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/140)
Same as ATMS 140. See ATMS 140.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 143 History of Life credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/143)
Same as GEOL 143. See GEOL 143.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

ESE 170 Nature Religion credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/170)
Same as REL 170. See REL 170.

ESE 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ESE/199)
Special topics in Earth, Society, and the Environment; content is variable. May be repeated if topics vary.

ESE 200 Earth Systems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/200)
Interdisciplinary lecture class intended to introduce Earth Systems studies, which focuses on integrating social and natural science approaches to studying the Earth and its environments.

ESE 202 American Environmental History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/202)
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

ESE 208 History of the Earth System credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/208)
Same as GEOG 208. See GEOG 208.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 210 Social & Environmental Issues credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/210)
Same as GEOG 210. See GEOG 210.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

ESE 215 Resource Conflicts credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/215)
Same as GEOG 215 and GLBL 215. See GEOG 215.
This course satisfies the General Education Criteria for:
Social Beh SCI - Soc SCI

ESE 222 Big Rivers of the World credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/222)
Same as GEOG 222. See GEOG 222.

ESE 254 American People, Places, & Environments credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/254)
Same as GEOG 254. See GEOG 254.
This course satisfies the General Education Criteria for:
Social Beh SCI - Soc SCI
Cultural Studies - US Minority

ESE 287 Environment and Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/287)
Same as GEOG 287, NRES 287 and PS 273. See NRES 287.
This course satisfies the General Education Criteria for:
Social Beh SCI - Soc SCI
Cultural Studies - Western
ESE 298 Environment & Sustainability Field Study  credit: 1 Hour.  
Group expedition to study environment and sustainability issues at a nearby field site. Includes in-class meetings, student-led presentation, and a field trip that may be short as part of a day or as long as several days. Field trip and field trip fee required. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. May be repeated in separate terms if topics vary. Prerequisite: For ESE majors, minors, and Sustainability Living Learning Community students. Non majors may apply to the waitlist.

ESE 293 The Anthropocene  credit: 3 Hours.  
Same as CWL 460 and REL 462. See REL 462.

ESE 311 Environmental Issues Today credit: 3 Hours.  
Seminar exposing students in the Environmental Fellows Program to different disciplinary perspectives on specific environmental issues, as revealed in the scholarly literature. Specific problems will vary from term to term. This seminar helps students make the transition from disciplinary to interdisciplinary thinking. Team-taught. Same as ATMS 311. Prerequisite: Admission to Environmental Fellows Program or consent of advisor.

ESE 320 Water Planet, Water Crisis credit: 3 Hours.  
Study of the science of water on planet earth, the developing water crisis, and some possible solutions to it. Topics include water’s unique physical and chemical properties; how it profoundly shapes the earth/ocean/atmosphere system; dynamics of oceans, atmosphere, lakes, rivers, groundwater, and ice masses; current fresh water supplies and their distribution on earth relative to population; current and future water crises and the compounding effects of droughts, floods, and global change; and prospects for some technological and economic approaches to easing the crisis. Same as GEOG 370 and GEOL 370.

ESE 333 Earth Materials and the Env credit: 4 Hours.  
Same as GEO 333. See GEO 333.

ESE 350 Sustainability and the City credit: 3 Hours.  
Same as GEOG 350. See GEOG 350.

ESE 360 Environmental Writing credit: 3 Hours.  
Introduces the physical (energy, mineral, and soil) resources of the Earth, the environmental consequences of producing and using resources, the controls on resource supplies, and the alternatives to traditional supplies. Focuses on the geological origin and context of resources, the controls on resource supplies, and the alternatives to traditional supplies. Focuses on the geological origin and context of resources, the means of exploration and production, the history of production, and sustainability issues related to consumption and depletion. Provides an understanding of why resources can be scarce and expensive, why many are not renewable, and why their use impacts the Earth System. May include field trips. 3 undergraduate hours. 3 graduate hours. Credit is not given for both ESE 445 and GEOL 380. Prerequisite: Junior standing or higher.

ESE 379 Intro to GIS Systems credit: 4 Hours.  
Same as GEOG 379. See GEOG 379.

ESE 380 GIS II: Spatial Prob Solving credit: 4 Hours.  
Same as GEOG 380. See GEOG 380. This course satisfies the General Education Criteria for: Quantitative Reasoning II

ESE 381 Environmental Perspectives credit: 3 Hours.  
Same as GEOG 381. See GEOG 381.

ESE 386 Arctic Environment & Society credit: 6 Hours.  
Same as GLBL 386 and SCAN 386. See GLBL 386.

ESE 389 Environment and Sustainability Field Expedition credit: 3 Hours.  
Group expedition to study environment and sustainability issues at a field site. Includes in-class meetings, student-led presentation, and field trip; expeditions run during spring break, winter break, in mid-May or in intercession; dates depend on location. Field Trip and field trip fee required. Additional fees may apply. See Class Schedule. May be repeated up to 12 hours in separate terms if topics vary.

ESE 401 ESE Capstone credit: 3 Hours.  
Capstone experience for majors in Earth, Society, and Environment Sustainability. 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated once.

ESE 410 Green Development credit: 4 Hours.  
Same as GEOG 410. See GEOG 410.

ESE 411 Geomorphology credit: 4 Hours.  
Same as ATMS 421, GEOG 421, GEOL 481 and NRES 422. See ATMS 421.

ESE 439 Biogeography credit: 3 Hours.  
Same as ANTH 436, GEOG 436, IB 439, and NRES 441. See IB 439.

ESE 445 Earth Resources Sustainability credit: 3 Hours.  
Introduces the physical (energy, mineral, and soil) resources of the Earth, the environmental consequences of producing and using resources, the controls on resource supplies, and the alternatives to traditional supplies. Focuses on the geological origin and context of resources, the means of exploration and production, the history of production, and sustainability issues related to consumption and depletion. Provides an understanding of why resources can be scarce and expensive, why many are not renewable, and why their use impacts the Earth System. May include field trips. 3 undergraduate hours. 3 graduate hours. Credit is not given for both ESE 445 and GEOL 380. Prerequisite: Junior standing or higher.

ESE 452 Ecosystem Ecology credit: 3 Hours.  
Same as IB 452 and NRES 462. See IB 452.

ESE 462 Ecological Criticism credit: 3 or 4 Hours.  
Same as CWL 460 and REL 462. See REL 462.
ESE 465 Transportation & Sustainability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/465)
Same as GEOG 465. See GEOG 466.
This course satisfies the General Education Criteria for:
Advanced Composition

ESE 466 Environmental Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/466)
Same as GEOG 466. See GEOG 466.

ESE 467 Multimedia Environmental Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/467)
Students will develop capacities to communicate with a broad audience about sustainability and the environment. Storytelling and clear exposition across multiple platforms will be emphasized, including blogs, audio podcasts and short videos, among others. In addition, students in the course will have the opportunity to partner with campus units and other local organizations to create materials that will be useful for real-world outreach and education efforts as well as credit in the course. Same as ENGL 467. 3 undergraduate hours. No graduate credit.

ESE 470 Introduction to Hydrogeology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/470)
Same as GEOL 470. See GEOL 470.

ESE 477 Advanced Environmental Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/477)
Same as ENGL 477. See ENGL 477.
This course satisfies the General Education Criteria for:
Advanced Composition

ESE 481 Intl Environ Cooperation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/481)
Same as GEOG 481. See GEOG 481.

ESE 482 Challenges of Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/482)
An interdisciplinary approach to investigating the meaning and practice of sustainability in the contemporary Earth system. As a consequence, students explore the sustainability of crucial resources: water, soil, energy, mineral and the biota in the context of the social and environmental systems in which these resources are used, including the moral, physical, ecological, political and economic. Same as GEOG 482 and GEOL 483. 3 undergraduate hours. 3 graduate hours. Prerequisite: Junior or senior standing, or consent of instructor.

ESE 486 Environmental Consulting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/486)
Survey of the fundamental science and US policy underpinning the practices of environmental consultancy. Environmental consulting is an interdisciplinary field drawing together engineers, geologists, environmental scientists, biologists, chemists, lawyers, social workers, social scientists, lobbyists and analysts. This course describes the myriad of pathways into environmental consulting and prepares students with the fundamental policy and science concepts. Subjects covered are the framework of environmental policy, chemicals of concern and their properties, environmental site assessment, site remediation, land use and ecosystem restoration as well as indoor environmental concerns. Same as GEOL 486. 3 undergraduate hours. 3 graduate hours.

ESE 497 Special Topics in ESE  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ESE/497)
Advanced topics course, consisting of seminar or lectures in subjects not covered by regular course offerings; for advanced undergraduates and graduate students. Possible field study in a prominent geological locality; includes in-class meetings, student-led presentations, and field trip; trips run during spring break, winter break, in mid-end May; dates depend on location. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 12 undergraduate hours or 8 graduate hours. Prerequisite: Consent of instructor.

ESE 498 Environmental Writing for Publication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ESE/498)
Provides students with both the experience of the real-world editorial process and with a research product (the published essay) that showcases their professional development as well-informed and persuasive writers on environmental issues. Same as ENGL 498. 3 undergraduate hours. No graduate credit. Prerequisite: Consent of instructor.

Economics (ECON)

ECON Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ECON)

Courses

ECON 101 Introduction to Economics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/101)
General survey of the operation of the economic system; emphasizes the determination of the level of national income, the pricing and allocation of products, and factors of production under existing conditions in the United States. This is an honors course limited to students currently enrolled in the Chancellor's Scholar Program. Credit is not given for ECON 101 if credit has been earned in both ECON 102 and ECON 103. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 102 Microeconomic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/102)
Introduction to the functions of individual decision-makers, both consumers and producers, within the larger economic system. Primary emphasis on the nature and functions of product markets, the theory of the firm under varying conditions of competition and monopoly, and the role of government in prompting efficiency in the economy. Credit is not given for ECON 102 and ACE 100.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 103 Macroeconomic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/103)
Introduction to the theory of determination of total or aggregate income, employment, output, price levels, and the role of money in the economy. Primary emphasis on monetary and fiscal policy, inflation, unemployment, economic growth, and international economics.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

Information listed in this catalog is current as of 07/2019
ECON 198  Economics at Illinois  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECON/198)
An introductory course intended to help students explore the various fields of economics. Presents brief introductions to various faculty members within the Department of Economics at Illinois and an overview of their respective fields. Enrollment limited to undergraduate Economics majors only. Approved for S/U grading only.

ECON 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ECON/199)
Approved for both letter and S/U grading. May be repeated.

ECON 202  Economic Statistics I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/202)
Introduction of basic concepts in statistics including the presentation of data, descriptive statistics, probability theory, discrete and continuous distributions, sampling distributions, estimation, and hypothesis testing. The approach of the class includes both learning the concepts behind basic statistics and also how to apply these concepts in “real-life” situations. Utilizes a practical project format. To complete the Business Statistics sequence, students must also complete ECON 203. Credit is not given for ECON 202 if credit for a college-level introductory statistics course such as PSYC 235, SOC 280, or STAT 100 has been earned. Prerequisite: Credit or registration in one of MATH 220, MATH 221, MATH 234. 
This course satisfies the General Education Criteria for:
Quantitative Reasoning I

ECON 203  Economic Statistics II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/203)
Continuation of ECON 202. Builds upon point and interval estimation as well as hypothesis testing skills first introduced in ECON 202. Utilizes a practical project format to extend the student skill set to include simple and multiple linear regression and time series techniques. Students will: Understand the relevance of statistics in their future course-work and professions; Be trained to identify the proper statistical technique to apply to a problem; Be adept at finding the answers to statistical queries using excel; Be able to properly interpret the results of their analysis. Students must have completed a course on probability and statistical analysis before taking ECON 203. The best course to meet this requirement is ECON 202 at the University of Illinois. Prerequisite: ECON 202; one of MATH 220, MATH 221, or MATH 234.

ECON 210  Environmental Economics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/210)
Same as ACE 210, ENVS 210, NRES 210, and UP 210. See ACE 210. 
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

ECON 220  Intl Economic Principles  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/220)
Principles-level course in international economics for non-majors. The first half of course, international trade, covers such topics as comparative advantage, protectionism (tariff and nontariff), impact on income distribution, and industrial policies. The second half, international finance, covers topics such as balance of payments, exchange-rate determination, currency crises, dollarization, and macroeconomic policy in an open economy. Issues relating to globalization will be covered in both halves. Prerequisite: ECON 101; or ECON 102 (or ACE 100) and ECON 103. Credit in ECON 220 is not applicable toward graduation in the Economics Major.

ECON 302  Inter Microeconomic Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/302)
Microeconomic analysis including value and distribution theory; analysis of the pricing of the factors of production integrated in a micro-general equilibrium context which builds towards explaining the resource allocation process. Prerequisite: ECON 102 or equivalent. MATH 220, MATH 221, MATH 234 or equivalent.

ECON 303  Inter Macroeconomic Theory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/303)
The modern theory of the determination of the level and rate of growth of income, employment, output, and the price level; discusses alternate fiscal and monetary policies to facilitate full employment and economic growth. Prerequisite: ECON 102; ECON 103; and one of MATH 220, MATH 221, MATH 234.

ECON 397  Senior Research I  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/397)
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year, or consent of instructor; senior standing.

ECON 398  Senior Research II  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/398)
Research and readings course for students majoring in economics; may be taken by students in the college honors program in partial fulfillment of the honors requirements. Prerequisite: Cumulative grade-point average of 3.0 or honors in the junior year; senior standing.

ECON 402  American Economic History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECON/402)
Survey of the history of the American economy from the colonial era to the present. Studies the features and development of the American economy and examines the watershed events that have transformed it over its history. 3 undergraduate hours. No graduate credit. Prerequisite: ECON 202; ECON 302; MATH 220/221 or other Calculus course are required.

ECON 411  Public Sector Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/411)
Economic analysis of government tax and expenditure policies; topics include public good and externality theory, public choice theory, income distribution, cost-benefit analysis, principles of taxation, tax incidence, economic effects and optimal structures of major taxes, and taxation in developing economies. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or consent of instructor.

ECON 413  The Nonprofit Economy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/413)
Many economic activities do not appear to maximize profits. Many businesses engage in corporate social responsibility, and governments and individuals give away resources. Nonprofit organizations make up a large and growing share of the economy. This course uses economics to understand these activities and evaluate policies that influence them. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course are required.
ECON 414 Urban Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/414)
Analyzes the urban economy. Topics include: economic reasons for the existence of cities; the theory of urban spatial structure; the effects of taxation on housing decisions; the economics of freeway congestion; economics analysis of local public goods and services; economic analysis of rent control, slum policies and land-use controls. Same as FIN 414. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302.

ECON 415 Environmental Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/415)
Application of economic theory to topical issues such as pollution, climate change, and the environmental impacts of overpopulation. Both market-based and regulatory solutions to these problems are discussed. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 417 Cost-Benefit Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/417)
Analyzes changes in welfare in various market settings such as monopolistic and perfectly competitive markets. Students will develop the skills to account for uncertainty when weighing the costs and benefits of a project or policy, as well as its potential distributional effects. Also examines the strategies used by governments to select from alternative policies, and how assets are purchased or sold in order to implement the policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course are required. ECON 203 is recommended.

ECON 418 Health Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/418)
Introduction to the economics of the U.S. health care system. Analyzes the supply of and demand for health care, building upon models of consumer, producer, and insurer behavior. Covers public policy, including regulation and provision of services to the poor and elderly. Emphasizes empirical evidence on these topics. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECON 482 and ECON 418. Prerequisite: ECON 202; ECON 302; MATH 220 or MATH 221 or other Calculus course are required. ECON 203 is recommended.

ECON 420 International Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/420)
Introduction to the theory of international trade and finance with selected application to current problems of trade policy, balance of payments adjustment, the international monetary system, and globalization effects. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent, or consent of instructor; ECON 303 is recommended.

ECON 425 Macroeconomic Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/425)
Analyzes current macroeconomic policy issues, problems, and techniques; discusses various policy techniques including monetary, fiscal, incomes, and exchange rate policies, and their effectiveness for treating inflation, unemployment, productivity, resource and exchange rate problems. May emphasize current issues in developed economies or in emerging market economies. 3 undergraduate hours. 4 graduate hours. Credit is not given for ECON 462 and ECON 425. Prerequisite: ECON 203; ECON 302; MATH 220 or MATH 221 are required. MATH 231 is recommended. Prior exposure to financial markets is encouraged.

ECON 426 Monetary Economics and Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/426)
Study of a variety of topics on money, banking, and financial markets. In particular, provides an introduction to money and its role in the economy, the bond market and interest rates, the stock market and other financial assets, exchange rates, banks and regulation of the banking industry, the money supply process and monetary policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 303; MATH 231 are required. ECON 302 is recommended; Prior exposure to financial markets is also encouraged.

ECON 437 Game Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/437)
Explores game theory and strategic decision making. Game theory is the study of strategic interaction where one person's actions affect the actions of others. Introduces students to the tools for modeling and solving problems with strategic interaction. Will cover topics such as Nash equilibrium, dominance, voting, bargaining, auction, adverse selection, each of which have broad applications in economics, politics, psychology, and everyday life. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 are required. ECON 203; MATH 231 are recommended.

ECON 440 Economics of Labor Markets  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/440)
Studies the microeconomic determinants of labor demand and supply, economic effects of unions, and macroeconomic labor market problems. Same as LER 440. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 302 or equivalent.

ECON 442 Women in the Economy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/442)
Applies economic models of the labor market and household organization to a wide range of important topics, including marriage, fertility, discrimination, and family policies to better understand both personal life choices and public policy problems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220 or 221 or other Calculus course are required.

ECON 444 Economics of the Workplace  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/444)
Application of economic theory to the relationship between workers and firms in the workplace. We will apply important economic concepts and models to issues including recruitment, personnel selection, employee training, managing turnover, job design, performance evaluation, and incentive compensation. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 448 Employee Compensation and Incentives  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/448)
Employee compensation is a critical tool for organizations to attract, retain, and motivate its employees. Students will be introduced to major principles in compensation design and will examine the incentives embedded in various compensation systems. The topics include forms of pay, incentive theory, pay structure, pay-for-performance, and employee benefits. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.
ECON 450  Development Economics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/450)
Analyzes the economic problems associated with newly developing nations; emphasizes their economic structures, their factor scarcities, and their programs for development. Not open for graduate credit to graduate candidates in economics. 3 undergraduate hours. 2 or 4 graduate hours. Graduate credit is not given for both ECON 450 and ECON 550 or ECON 551. Prerequisite: ECON 102 and ECON 103 or equivalent. ECON 302 strongly recommended.

ECON 451  Program Evaluation in Developing Economies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/451)
Advanced economics course on microeconomic issues in developing countries with particular attention to empirical analyses and methodologies to address fundamental theoretical and policy relevant questions. Focus is on topics within health and education, although papers may cover other topics. An original empirical research paper is required, applying ideas and concepts covered in class. Class alternates between lectures (discussing new ideas or concepts and assigned readings) and lab (applying concepts to actual data using Stata). 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203 and ECON 302 or equivalents; for undergraduate students only: Completion of campus Composition I general education requirement. Junior Standing Required. Priority registration provided to Economics Majors. This course satisfies the General Education Criteria for: Advanced Composition

ECON 452  The Latin American Economies  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/452)
Focuses on the economic history of the region, the recent industrialization process and its impact, the role of the state and foreign capital, the impact of the recent privatization processes, inflation and stabilization policies, and issues surrounding the distribution of income. Same as ACE 452. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 102 or ECON 103. ECON 302 or ECON 303 strongly recommended.

ECON 453  Economies of the Middle East and North Africa  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/453)
Study of the business and economic conditions in the Middle East and North Africa (MENA). Students are expected to expand their knowledge of microeconomic, macroeconomics, and economic development theories and to apply them to concrete cases in the MENA region. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 455  Economics of Poverty Alleviation in Developing Countries  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/455)
This course examines which policies are effective for alleviating poverty, which are not, and why. The course will have a strong methodological and analytical component, focus on why interventions and policies work, and how to establish evidence on the effectiveness of specific interventions and policies. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course are required.

ECON 460  Financial Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/460)
Study of a variety of financial economics topics. Introduces basic financial products (stocks, bonds, futures, options, and other derivatives), asset pricing theory including capital asset pricing model (CAPM), arbitrage pricing theory (APT), financial institutions and the organization of financial markets, and some topics on financial crisis and monetary policy. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 202; ECON 302; MATH 220/MATH 221 or other Calculus course.

ECON 469  Economics of Risk  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/469)
Exploration of economic decisions under uncertainty. Includes expected utility theory and non-expected utility theory; applications to individual decision problems in investment and insurance; general equilibrium in markets under uncertainty, including problems generated by asymmetric information; measurement of risk; the value of information obtained before a decision. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ECON 302 or equivalent; one of MATH 220 or MATH 221 or equivalent.

ECON 471  Intro to Applied Econometrics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/471)
Introduction to specification, estimation, prediction and evaluation of econometric models, emphasizing the interplay between statistical theory and economic applications. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: ECON 203 or equivalent; ECON 302 or ECON 303.

ECON 472  Financial Econometrics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/472)
Examines the econometric modeling applied to empirical and computational finance. Explains the empirical properties of financial data as well as the statistical models behind these stylized facts from the data. Explains the statistics and time series concepts that will be useful to understand financial market dynamics, and investigates some popular econometric models and estimation methods. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/ MATH 221 are required. MATH 231; ECON 471 are recommended.

ECON 474  Econometrics of Policy Evaluation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/474)
Develops the basic tools to understand and use modern econometric methods for estimating and making inference of causal effects. The topics include randomized experiments, natural experiments, matching methods, instrumental variables, and regression discontinuity. Focuses on topics which are relevant for policy problems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/ MATH 221 are required. MATH 231; ECON 471 are recommended.

ECON 475  Economic Forecasting  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/475)
Overview of modern, quantitative, statistical and econometric methods for forecasting and evaluating forecasts. Topics include linear regressions; modeling and forecasting trends and seasonality; characterizing and forecasting cycles; MA, AR, and ARMA models; forecasting with regressions; evaluating and combining forecasts. Advanced topics include unit roots, stochastic trends, ARIMA models, and smoothing will be covered as time permits. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECON 203; ECON 302; MATH 220/ MATH 221 are required. MATH 231 is recommended.
**ECON 480** Industrial Comp and Monopoly  credit: 2 to 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/480)  
Analyzes the ways firms and markets are organized, how they interact,  
onoutcomes of various types of firm behavior and performance of markets,  
and causes and types of market failure. Particular emphasis on the  
contribution of game theory as the equilibrium concept in oligopoly  
settings. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite:  
ECON 302.

**ECON 481** Govt Reg of Economic Activity  credit: 2 to 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/481)  
Analysis of economic bases, policies, and consequences of government  
regulation of economic activity. Reasons for government intervention  
in market behavior, methods of government intervention, and outcomes  
are studied. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite:  
ECON 302 or consent of instructor.

**ECON 483** Econ of Innovation and Tech  credit: 2 to 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/483)  
 Examines the economic factors shaping innovation and technical  
change since the industrial revolution with emphasis on the economic  
relationship between science and technology and the role of government  
in technical change. 3 undergraduate hours. 2 or 4 graduate hours.  
Prerequisite: ECON 102 or equivalent; ECON 302 or consent of instructor.

**ECON 484** Law and Economics  credit: 2 to 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/484)  
Applications of economic theory to problems and issues in both civil  
and criminal law and the effect of legal rules on the allocation of resources;  
includes property rights, liability and negligence assignment, the use of  
administrative and common law to mitigate market failure, and the logic  
of private versus public law enforcement. 3 undergraduate hours. 2 or 4  
graduate hours. Prerequisite: ECON 302 or equivalent.

**ECON 490** Topics in Economics  credit: 3 or 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/490)  
Special topics in advanced economics within a variety of areas. See  
course schedule for topics. 3 undergraduate hours. 4 graduate hours.  
May be repeated in the same or separate terms to a maximum of 9  
undergraduate hours or 8 graduate hours if topics vary. Prerequisite:  
ECON 202; ECON 302 or ECON 303; MATH 220 or MATH 221 or other  
Calculus course. Some topics may require additional prerequisites, read  
the section text for each topic.

**ECON 500** Microeconomics  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/500)  
Emphasizes microeconomic theory; principal topics include a review of  
value and distribution theory, the theory of choice by households and  
firms, general microeconomic theory, and theoretical developments of  
current interest. Credit is not given for both ECON 500 and ECON 528.  
Graduate credit for both ECON 302 and ECON 500 is given only upon  
recommendation of the student’s adviser and approval by the Department  
of Economics. Prerequisite: ECON 102 or equivalent. MSPE Graduate  
Student Standing.

**ECON 501** Macroeconomics  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/501)  
Emphasis on macroeconomic theory; principal topics include a review of  
Keynesian macroeconomic theory, formal growth theory, and selected  
business cycle theory. Credit is not given for both ECON 501 and  
ECON 529. Graduate credit for both ECON 303 and ECON 501 is given  
only upon recommendation of the student’s adviser and approval by the  
Department of Economics. Prerequisite: ECON 102 and ECON 103 or  
equivalent. MSPE Graduate Student Standing.

**ECON 502** Economic Statistics  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/502)  
Classical statistics and regression analysis; descriptive statistics,  
probability and point and interval estimation; decision theory; variance  
analysis; and linear regression and least-squares estimates. Prerequisite:  
A course in statistics or consent of instructor. MSPE Graduate Student  
Standing.

**ECON 503** Econometrics  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/503)  
Develops a general methodological basis for searching for quantitative  
economic knowledge; integrates and gives operational content to the  
topics of economic, statistical, and econometric theory. Prerequisite:  
ECON 502, or equivalent. MSPE Graduate Student Standing.

**ECON 504** Time Series Analysis in Econ  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/504)  
Modern time series analysis techniques for handling economic  
data which arises in a happenstance fashion through time and their  
application to specific economic problems. Prerequisite: ECON 503 or  
STAT 578, or equivalent. MSPE Graduate Student Standing.

**ECON 505** Introduction to Game Theory  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/505)  
Applications of game theory. Introduction to basic static games and  
dynamic games with particular attention to applying these games to real  
world situations. Prerequisite: MATH 415; ECON 500 and ECON 501, or  
equivalent. MSPE Graduate Student Standing.

**ECON 507** Computable G E Modeling  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/507)  
Discusses problems and methods of building social accounting matrices  
and computable general equilibrium (CGE) models; provides hands-on  
experience with CGE models with a series of PC-based exercises. The  
exercises demonstrate a number of techniques for constructing CGE  
models and show applications of these models to a variety of economic  
policy problems in developing countries such as food subsidies,  
international trade restrictions, foreign debt, and sectoral investment  
priorities. Prerequisite: ECON 500 and ECON 501 or equivalent; MATH 220  
or MATH 221, or equivalent. MSPE Graduate Student Standing.

**ECON 510** Economics of Taxation  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/510)  
Theoretical and empirical analysis of the impact of taxation on the  
economic system; topics include tax equity and excess burden, incentive  
effects of taxation, tax incidence, structure of major types of taxes  
(income, consumption, and wealth), normative tax analysis, and taxation  
in developing economies. Prerequisite: ECON 302 or equivalent. MSPE  
Graduate Student Standing.

**ECON 511** Public Goods Theory  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/511)  
In-depth analysis of the theory of public goods; includes public goods  
and externality theory, public choice, theory of cost-benefit analysis, optimal  
income redistribution, and fiscal federalism. Prerequisite: ECON 302 or  
equivalent. MSPE Graduate Student Standing.

**ECON 513** International Trade  credit: 4 Hours.  
(https://courses.illinois.edu/schedule/terms/ECON/513)  
The pure theory of international trade, general equilibrium income  
and welfare, tariffs, the theory of policy ranking, strategic trade policy,  
customs unions, international trade law and the WTO. Prerequisite:  
ECON 302 and ECON 303, or equivalent. MSPE Graduate Student  
Standing.
ECON 514 International Financial credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/514)
Examines the balance of payments, exchange rate, capital flows and international monetary system; fiscal and monetary policy in open economies. Prerequisite: ECON 302 and ECON 303, or equivalent. MSPE Graduate Student Standing.

ECON 516 Monetary Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/516)
Micro- and macroeconomic theories of the supply of and demand for money; money substitutes and their significance; review of current empirical research; money in closed economy, macroeconomic, and static general equilibrium models; and analysis of inflation and unemployment. Prerequisite: Consent of instructor. MSPE Graduate Student Standing.

ECON 517 Monetary Policy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/517)
Theories of money; money in dynamic models; money in open economy macroeconomic models; stabilization policy; and international aspects of monetary theory. Prerequisite: Consent of instructor. MSPE Graduate Student Standing.

ECON 519 Development and Growth Policy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/519)
Review and analysis of the theories and patterns of growth in developed and underdeveloped economies; the process and impact of import substitution industrialization; trade and economic development; the role of the state and privatization in the development process; agricultural stagnation and modernization. Prerequisite: ECON 500 and ECON 501 or consent of instructor. MSPE Graduate Student Standing.

ECON 527 Business International Econ credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/527)
Provides the business student with a working knowledge of the principles of international economics, issues in the current international business environment, U. S. and international trade law, and current policy issues and debates. Considers the basic causes and consequences of international trade, the foreign exchange market and theory of exchange rate determination, the U. S. trade deficit, the international monetary system, and antidumping and countervailing duty law, copyright and patent infringement law, the General Agreement on Tariffs and Trade, the rudiments of strategic trade theory, and selected policy issues varying by year. Prerequisite: Familiarity with intermediate microeconomics at the level of ECON 302.

ECON 528 Microeconomics for Business credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/528)
Microeconomics for professional business students. Shows relevance of value and distribution theories for business managers. Includes demand and supply theory, consumer choice, production and cost theory, industrial structure, and wage and capital theory. Intended for students in the Master of Business Administration program. Credit is not given for both ECON 528 and either ECON 302 or ECON 500. Prerequisite: Enrollment is often restricted to students in specialized programs.

ECON 529 Macroeconomics for Business credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/529)
Development of short run macroeconomic models. Analysis of private sector behavior functions, and government policy alternatives. Extensions for open economy models and growth models. Intended for students in the Master of Business Administration program. Credit is not given for both ECON 529 and either ECON 303 or ECON 501. Prerequisite: Enrollment is often restricted to students in specialized programs.

ECON 530 Microeconomic Theory I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/530)
Emphasizes microeconomic theory particularly theory of the consumer, theory of the firm, general equilibrium analysis and welfare analysis. Also, covers uncertainty in general equilibrium and informational economics. Prerequisite: ECON 302 and ECON 303 or equivalent.

ECON 531 Macroeconomic Theory I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/531)
Introduces students to a variety of dynamic general equilibrium models that currently dominate the study of growth and economic fluctuations. These models include: neoclassical growth models, overlapping generations models, CAPM models, search models, and endogenous growth models. In covering these models, the course also seeks to develop a set of techniques for students to use. These techniques include discrete time optimization, continuous time optimization, dynamic programming and model calibration. Prerequisite: ECON 302 and ECON 303, or equivalent; calculus.

ECON 532 Econometric Analysis I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/532)
Theoretical treatment of economic statistics. Covers probability theory, set theory, asymptotic theory, estimation and hypothesis testing. Prerequisite: A course in statistics or consent of instructor.

ECON 533 Microeconomic Theory II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/533)
Focusses on information and incentives in economic problems. Topics include non-cooperative games, dynamic games, mechanism design, auctions, matching and networks. Prerequisite: ECON 530, or equivalent; calculus.

ECON 534 Macroeconomic Theory II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/534)
Development of modern macroeconomic theory, including disequilibrium theory, optimal short-term stabilization measures, and monetary, fiscal, incomes, and exchange rate policies; large-scale econometric models; linear and neoclassical growth models; aggregate distribution theory; money, capital movements, trade, and growth; optimal growth models; and exhaustible resources and growth. Prerequisite: ECON 531.

ECON 535 Econometric Analysis II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/535)
Part 1: The construction of econometric models; characteristics of models and choice of estimating methods; and estimates of parameters by various methods. Part 2: Bayesian statistics and decision theory. Prerequisite: ECON 532 or equivalent.

ECON 536 Applied Econometrics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/536)
Focus on specification, estimation, prediction and evaluation of econometric models. Covers instrumental variable estimation, simultaneous equation models, non-linear models, discrete choice models and quantile regression methods. Prerequisite: ECON 532 and ECON 535.

ECON 540 Labor Economics I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/540)
Survey of recent trends in the labor force, of real and money earnings, and of the distribution of national income used as the basis for a critical economic analysis of contemporary English and American wage theory. Same as LER 540. Prerequisite: ECON 302 and ECON 303.
ECON 541 Labor Economics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/541)
Economic issues and implications involved in hours of work, employment and unemployment, and trade union institutionalism (the impact of the trade union upon the basic institution of a free enterprise economy); emphasis in all cases on the development of appropriate public policy. Same as LER 541. Prerequisite: ECON 302 and ECON 303.

ECON 542 Collective Bargaining credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/542)
Same as LER 542. See LER 542.

ECON 543 Workplace Dispute Resolution credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/543)
Same as LAW 665 and LER 543. See LER 543.

ECON 545 Econ of Ed, Hlth & Hum Capital credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/545)
Same as EOL 518. See EOL 518.

ECON 546 Gen Equ Env Tax Policy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/546)
Same as FIN 519. See FIN 519.

ECON 547 Urban Economics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/547)
Examines the microeconomic theory of urban land-use and spatial structure (static and dynamic models); analyzes externalities caused by traffic congestion; normative and positive analysis of the provision of local public goods; and public policy issues (i.e., slums and urban decline, pollution). Prerequisite: ECON 530 and ECON 533.

ECON 548 Adv Natural Resource Economics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/548)
Same as ACE 510, ENVS 510, and NRES 510. See ACE 510.

ECON 549 Environmental Economics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/549)
Examines both theory and policy applications in the environmental area; selectively reviews the literature to provide a framework for understanding the relevant economic relationships and the criteria appropriate for policy assessment; emphasizes the characteristics of major environmental problems and policy choices; and considers the valuation of environmental amenities and the conflict between environmental quality and growth. Same as ACE 516. Prerequisite: ECON 302 or consent of instructor.

ECON 550 Econ of Development and Growth credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/550)
Theories of economic development and growth. Covers the role of agriculture, trade, manufacturing, human capital, genetics, geography and culture in growth. Prerequisite: ECON 533 and ECON 534, or equivalent.

ECON 551 Topics in Development Econ credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/551)
Analyzes the newly developing economies, with emphasis on institutional factors affecting development and economic policy relating to development. Prerequisite: ECON 535 or equivalent.

ECON 553 Demand/Supply/Firms/Households credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/553)
Same as ACE 502. See ACE 502.

ECON 555 Topics in Microeconomics I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/555)
Study at an advanced level of one or more of the following possible topics: economics of externalities, advanced aggregate economic theory, theory of central planning, investment theory, consumer behavior theory, capital theory, welfare economics, inflation theory, income distribution theory, or other topics. May be repeated. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 556 Topics in Microeconomics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/556)
Studies quantitative techniques useful in economic analysis and decision making: single and systems of difference and differential equations; dynamic programming; Pontryagin maximum principle; interaction of multiplier and accelerator; von Neumann model; Turnpike theorem; growth models; and control systems. Prerequisite: MATH 415; ECON 533 and ECON 534, or equivalent.

ECON 557 Topics in Microeconomics III credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/557)
Studies bounded rationality and learning in economics. Topics include evolutionary learning in models. Prerequisite: MATH 415, ECON 533 and ECON 534 or equivalent.

ECON 562 Topics in Macroeconomics I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/562)
Study at an advanced level of one or more of the following possible topics: economics of externalities, advanced aggregate economic theory, theory of central planning, investment theory, consumer behavior theory, capital theory, welfare economics, inflation theory, income distribution theory, or other topics. May be repeated. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 572 Political Economy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/572)
Microeconomic analysis of political decision making processes. Includes social choice, models of political competition, game-theoretic analysis of political institutions and lobbying. Same as PS 548. Prerequisite: ECON 530 or equivalent, or instructor’s consent.

ECON 574 Econometrics I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/574)
Estimation of parameters for single-equation models; tests of hypotheses and confidence regions for regression models; large-sample theory in single-equation models; and Bayesian statistics in regression models. Prerequisite: MATH 415 and STAT 400.

ECON 575 Econometrics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/575)
Considers the specification of models with systems of simultaneous equations; identification problem, distributed lag models, K-class estimators, maximum likelihood estimators, three-stage least-squares, and effects of specification errors. Prerequisite: ECON 574.

ECON 576 Time Series credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/576)
Models and techniques used in the analysis of time series data. Covers univariate and multivariate time series. non-stationary time series, cointegration and error correction, structural breaks and non-linear time series models. Prerequisite: ECON 535 or STAT 578, or equivalent.

ECON 577 Topics in Econometrics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECON/577)
Examines some standard econometric problems from the Bayesian perspective and compares Bayesian and classical inference. Prerequisite: ECON 574.
ECON 578  Large Sample Theory  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/578](https://courses.illinois.edu/schedule/terms/ECON/578))
Same as STAT 575. See STAT 575.

ECON 580  Industrial Organization  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/580](https://courses.illinois.edu/schedule/terms/ECON/580))
Theory of the organization of markets and firms, behavior of firms, functioning of competitive systems, and performance of markets.

ECON 581  Govt Regulation of Industry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/581](https://courses.illinois.edu/schedule/terms/ECON/581))
Microeconomic and econometric analyses of market failure and government response in selected industries; topics include economic effect of regulation, bureaucratic behavior, optimal policy, and strategies for regulatory reform. Prerequisite: ECON 530; ECON 580; or consent of Instructor.

ECON 582  Empirical Ind Organization  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/582](https://courses.illinois.edu/schedule/terms/ECON/582))
Empirical Methods in Industrial Organization. Topics include: detection of anticompetitive behavior; estimation techniques that allow for product differentiation, endogenous entry and intertemporal decision-making; estimation and testing of auctions and other asymmetric information models.

ECON 585  Topics in International Econ  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/585](https://courses.illinois.edu/schedule/terms/ECON/585))
Frontier advanced topics in international economics; subject matter varies. May not be repeated for credit. Prerequisite: ECON 533 and ECON 534, or consent of instructor.

ECON 590  Individual Study and Research  credit: 0 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/590](https://courses.illinois.edu/schedule/terms/ECON/590))
Directed reading and research. Approved for both letter and S/U grading. May be repeated.

ECON 598  Workshop and Research Seminar  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/598](https://courses.illinois.edu/schedule/terms/ECON/598))
Workshops are offered in all areas of specialization in which graduate students are writing Ph.D. dissertations. The specific format varies, but in general workshop sessions include presentations by graduate students of thesis research, by faculty members of their current research, and by occasional outside speakers. Approved for S/U grading only. May be repeated. A minimum of 4 hours of ECON 598 is required of all students in the Ph.D. program. Prerequisite: Admission to the Department of Economics Ph.D. program.

ECON 599  Thesis Research  credit: 0 to 16 Hours. ([https://courses.illinois.edu/schedule/terms/ECON/599](https://courses.illinois.edu/schedule/terms/ECON/599))
Preparation of thesis required of all students writing master's or doctoral theses in economics. Approved for S/U grading only. May be repeated.

EPOL 550  Methods of Educational Inquiry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/550](https://courses.illinois.edu/schedule/terms/EPOL/550))
Same as CI 550, EPSY 573, and SPED 550. See CI 550.

EPOL 315 Effective Workplace Relations credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/315](https://courses.illinois.edu/schedule/terms/EPOL/315))
Introduces the knowledge and skills required to be successful in today's globalized workplace through the study of human interactions, also known as human relations. Students learn about the various issues in contemporary society that affect human behavior, and theories and strategies to improve interactions with others. The course uses a variety of activities to facilitate student's ability to understand the theories and apply strategies and techniques to ensure more effective human functioning in the workplace.

EPOL 350  Social Learning and Knowledge credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/350](https://courses.illinois.edu/schedule/terms/EPOL/350))
This course explores how we access and generate knowledge. In formal education, the legacy classroom is also being augmented with technology or replaced entirely with online learning. Across a wide range of domains of knowledge, the traditional separations between knowledge producers (experts or teachers) and knowledge consumers (everyday citizens or students) are undergoing transformation. In this course you will be exposed to the changing landscape of knowledge and learning through a hands-on experience of collaborative knowledge production and learning. Issues and concepts to be addressed include Web 2.0, participatory media, peer-to-peer knowledge networks, 'the commons', informal online learning, and the dynamics of formal e-learning ecologies. This course satisfies the General Education Criteria for: Advanced Composition Social Beh Sci - Soc Sci

EPOL 395 Independent Study credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/395](https://courses.illinois.edu/schedule/terms/EPOL/395))
Designed for students who wish to do advanced readings and research in greater depth and to investigate further ideas and themes that have been explored in EPOL 199 and EPS 201. Prerequisite: EPS 201; and consent of adviser and staff member who supervises the work.

EPOL 585  Ethnographic Methods in Educ  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/EPOL/585](https://courses.illinois.edu/schedule/terms/EPOL/585))
This course focuses on goals, nature, and methodological means of ethnographic research in educational settings broadly defined. Such research aims to describe and, moreover, to understand the ways of living of teachers, students, administrators, parents, and other participants in relevant social spaces. The class will be grounded in the disciplinary perspectives of cultural anthropology, linguistic anthropology, and cultural studies. We will have an ongoing discussion of how one conducts ethnographic research, and all members of the class will conduct their own mini-study. 4 graduate hours. No professional credit.
EOL 541 Supervision of Learning Envir  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/541)
Methods, theories, and research applying to the supervision and evaluation of classroom practices in learning-centered schools; includes analysis and application of research in effective teaching practices, formative assessment and summative evaluation, data collection techniques, and professional development. Prerequisite: EOL 540 or consent of instructor.

EOL 542 Leading Learning-Centred Schls  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/542)
Provides an overview and analysis of the administrative, supervisory, and leadership functions of building-level administrators; emphasizes the design and implementation of effective educational programs on a school-wide basis; analyzes administrative tasks and processes that focus on learning-centered schools. Prerequisite: EOL 540 or consent of instructor.

EOL 543 Leading School Improvement  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/543)
Study of major ideas on school improvement, past and present, and of emerging research on the condition of public education in the United States. In-depth examination of reform proposals for changing the organization of schools, the instructional program, and the roles of students, teachers, and school administrators. Prerequisite: Graduate standing in the College of Education or consent of instructor.

EOL 544 Leading Improvement and Innovation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/544)
In-depth examination of leadership competencies and skills required for the public school superintendent to successfully lead, innovate, and manage complex educational organizations. Analysis of research and evidenced-based practices that focus on learning, building organizational capacity, strategic design, and ensuring equity and excellence for all learners. Emphasis placed on preparing individuals to effectively lead socially just organizations that ensure high quality learning. 4 graduate hours. No professional credit. Prerequisite: Students must be admitted to the EOL Superintendent Endorsement program or consent of instructor.

EOL 546 Public School Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/546)
Study of financing public education systems in the United States; focuses on the social, economic, political, legal, and technical dimensions of developing the school finance policy for federal, state, and local governments; relates theory and research in public school finance to administrative practice in budgeting and financial administration. Prerequisite: Graduate standing in the College of Education or consent of instructor.

EOL 547 Education Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/547)
Examines the range of federal and state constitutional and statutory sources that apply to the constituents (pupils, parents, teachers, administrators, and board members) engaged in public schools. Emphasizes development of legal analytical skills. Prerequisite: Graduate standing in the College of Education or consent of instructor.
EOL 548 Poli & Cultural Context of Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/548)
The political and social environment of public education in the United States; analysis of the power structure and its influence on educational policy making at the district level; examination of the evolving roles of state and federal agencies, the courts, private organizations, and interest groups in school governance. Studies the tension between the ideal of a democratically controlled public school system and the growing power of educational experts. Prerequisite: Graduate standing in the College of Education or consent of instructor.

EOL 549 Organizational Theory for Educational Leaders  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/549)
Study of theoretical perspectives and empirical research drawn from the social sciences relating to educational organizations and administrative leadership with an emphasis on application of theory to practice. Prerequisite: Student must be admitted to the EOL Superintendent Endorsement program or consent of instructor.

EOL 550 Ed Ldrshp & Prof Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/550)
Study of major issues on educational leadership and professional development. Examination of research, theories, and practices pertaining to: professional development purposes, content, context, policies, and processes; fostering and sustaining quality professional development; and the roles of teachers, school administrators and policy analysts. Prerequisite: EOL 540 or consent of instructor.

EOL 560 Clinical Experience Admin  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EOL/560)
Direct experience in the study of educational problems of concern to administrators; features an action component whereby the student is provided with opportunities for assuming responsibility for decision making in a live or simulated setting; each student works under the supervision of a professor, and where possible and appropriate, a practicing administrator. Approved for S/U grading only. May be repeated to a maximum of 12 hours; no more than 4 hours earned at the master's level. Prerequisite: Students must be admitted to the EOL General Administrative or Superintendent Endorsement program and must have completed at least four EOL required courses, or consent of instructor.

EOL 561 Ed Politics and Policies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/561)
Examines the legislative and political processes in the formulation of current federal and state educational policies, together with the evaluation of policy and the formulation of policy alternatives. Prerequisite: EOL 548 or consent of instructor.

EOL 562 Law and School District Leader  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/562)
Advanced study of public school law, addressing legal and fiscal policy issues related to effective management of public school districts. In-depth analysis of federal and state statutes, with an emphasis on recent court decisions and legal trends; emphasizes development of legal analytical skills. 4 graduate hours. No professional credit. Prerequisite: EOL 547 or consent of instructor.

EOL 563 The School Superintendency  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/563)
Course examines the legal and fiscal responsibilities of school superintendents, the relationship of superintendents with school boards and employee groups, the importance of public relations and partnerships with community stakeholders, the process for selecting superintendents, and the effect of the position on individuals. Prerequisite: Students must be admitted to the EOL Superintendent Endorsement program or consent of instructor.

EOL 564 District Change for Equity and Social Justice  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/564)
Critical examination of democratic principles of education, especially as it pertains to equity and social justice. Addresses the fundamental question of "Who gets access to the fundamental right of education and how?" Application of theories and concepts to the role of district leaders in implementing socially just educational settings. 4 graduate hours. No professional credit. Prerequisite: EOL 548 or consent of instructor.

EOL 565 Human Resource Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/565)
Principles, problems, and trends in the administration of professional public school personnel; organization of personnel; the legal framework of the personnel function; selection, evaluation and development of staff; collective bargaining, contract administration and personnel policy; and the personnel administrator’s role as a catalyst for school improvement. Prerequisite: EOL 547 or consent of instructor.

EOL 566 School District Financial Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/566)
Analysis of how public schools are managed, including the theory and managerial practices necessary to oversee the functioning of a school district; study of the integration of managerial issues with attendant conditions of school board functioning, priority and educational goal-setting, taxation, capital outlay, debt management, and contractual implementation. Emphasis placed on principles and practices relating to public school financial management, including budgeting and accounting systems. 4 graduate hours. No professional credit. Prerequisite: EOL 546 or consent of instructor.

EOL 567 Program Planning & Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/567)
Prerequisite: EOL 540 or equivalent or consent of instructor. Open only to persons who have been admitted to doctoral study in the Department of Educational Organization and Leadership.

EOL 568 Diversity, Leadership & Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/568)
This course is intended to provide students with an opportunity to study both historical and contemporary perspectives on leadership and policy in diverse contexts and to prompt reflection on their own practice. As students read, discuss, reflect on, and critique a variety of perspectives and topics such as race, class, power, cultural leadership, policy, change, diversity, and building community, they will consider how the literature informs the development of a personal philosophy of education leadership, takes into consideration moral and ethical issues, the implementation of educational policy, the purposes and nature of the task, and the complexity and diversity of educational contexts.

EOL 570 Organization of Higher Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/570)
Examination of American higher education both as a system and as a field of study. Includes consideration of organizational patterns, stakeholders, governance, and the purposes of higher education.
EOL 571  Foundation of Higher Edu  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/571)
Examination of the development of American higher education, including the evolution of its forms, purposes, practices, leadership, and constituents.

EOL 572  The College Student  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/572)
Study of the characteristics and development of college students, the institutional contexts in which they operate, and the interaction of students with the college environment.

EOL 573  The Community College  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/573)
Community and technical colleges; their purposes, function, and objectives; social forces related to their development and evaluation; characteristics and needs of students; educational programs and teaching strategies; and organization, control, and financing. Same as HRD 501.

EOL 574  Diversity in Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/574)
Explores critical topics and issues related to diversity in higher education, including race/ethnicity, class, and gender. Covers current research that explores diversity in higher education, institutional diversity policies and organizational behaviors, campus constituents, and the role of external groups. The course consists of reading, in-class discussion, group exercise, and completing a research project that is of interest to the student.

EOL 576  Higher Education Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/576)
Explores the foundations of higher education finance by analyzing key theories, structures, and challenges of college and university financing. Students will examine readings, present papers and actively participate in class discussions, so as to better comprehend the financial complexities dictating current institutional policies and practices. Prerequisite: EOL 571.

EOL 577  Public Policy in Higher Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/577)
Intended primarily for doctoral students in higher education, this course will enable students to analyze contemporary public policy issues confronting American higher education. Selected policy issues will be probed in depth, drawing upon scholarly sources and public reports. Students will comprehend the interaction and tension among higher education leaders, and local, state, and federal policymakers. Prerequisite: EOL 571 or consent of instructor.

EOL 578  Higher Education Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/578)
Provides graduate students with core knowledge of the law affecting the administration of colleges and universities. Students become versed in legal issues to enhance administrative effectiveness and to address legal issues that confront the administrator in the operation of an institution of higher education. Importantly, the course does not aspire to invest the student with legal knowledge sufficient to operate without advice of professional legal counsel. Prerequisite: EOL 571.

EOL 579  Access to Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/579)
Same as EPS 579. See EPS 579.

EOL 580  Critical Issues in Higher Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/580)
The examination of critical trends that impact higher education from various perspectives, including legal, organizational, and political. May be repeated to a maximum of 8 hours.

EOL 582  College Student Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/582)
Provides students with an understanding of theories and research involving the cognitive, intrapersonal and interpersonal development of college students. Special attention is paid to the application of student development research in educational settings and the intentional creation of educational environments along developmental principles. Prerequisite: EOL 572 or consent of instructor.

EOL 583  Student Affairs Admin  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/583)
Theory, research, and practice of student affairs administration, including philosophical foundations, management, professional development and organizational issues.

EOL 584  Administration in Higher Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/584)
Designed for students to gain a greater understanding of administrative leadership in higher education. Provides current and future administrators an opportunity to explore foundational theories of academic organization and leadership; investigate contemporary leadership issues within various contexts; and develop analytical skills which connect theoretical frameworks to leadership practice and research.

EOL 585  College Teaching  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/585)
Scholarly approach to curriculum and pedagogy at the college level: instructional methods, active and cooperative learning, technology-enhanced teaching, evaluation and assessment, faculty roles and responsibilities. 4 graduate hours. No professional credit.

EOL 586  Changing College Curriculum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/586)
Examines the historical roots, contemporary controversies, current trends, and possible futures of the curriculum in American postsecondary education. It is a graduate seminar built on small group discussions and conversations about important literature on the changing college curriculum. Increases student understanding of historical and contemporary curricular issues in higher education with the additional goal of fostering the consideration of the possibilities of challenges to enacting curricular change. Prerequisite: EOL 571 or consent of instructor.

EOL 587  Quality Process Improvement  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/587)
Same as HRD 531. See HRD 531.
EOL 588  Capstone Experience I & II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EOL/588)
Part I is the design of a research study (capstone project) that integrates literature covered in the degree program leading to a research question to be explored empirically. It includes literature review, problem statement, research design, methodology, identifying participants, IRB review and a final proposal paper. Students are expected to collect data for their study (project) between Parts I and II. Part II topics include data analysis, interpretation, discussion, implications, dissemination of findings, and future research. Leads to a final research (capstone) paper that synthesizes work from Part I and adds to it through data analysis, discussion of findings, implications, and ways to disseminate findings to relevant audiences. Approved for both letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours.

EOL 589  Internship in Higher Ed  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EOL/589)
Supervised direct experience in the administration of higher education. With the aid of the faculty, students select the internship relevant to their career goals. 2 or 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 8 hours; no more than 8 hours may be earned toward an advanced degree. Prerequisite: Consent of instructor.

EOL 590  Advanced Seminar  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EOL/590)
Open only to persons who have been admitted for doctoral study in the Department of Educational Organization and Leadership. Prerequisite: Consent of instructor.

EOL 598  Thesis Seminar  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EOL/598)
Assists doctoral candidates in planning field studies and thesis problems; students are expected to present their studies at each of four stages: (1) the inception, delimitation, tentative design stage; (2) the proposed design stage; (3) the revised design stage; and (4) the final design stage. Students are expected to analyze all presentations critically. Approved for S/U grading only. Prerequisite: Consent of instructor.

Education (EDUC)

EDUC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EDUC)

Courses

EDUC 101  Education Orientation Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EDUC/101)
Informational orientation seminar for Education majors to enhance their understanding of college life and the field of education as a profession.

EDUC 102  Freshman Honors Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EDUC/102)
Provides an introduction to critical issues in education with focus on selected contemporary issues in the field; emphasis is on critical analysis and reflection on relationships between teachers, schools, and society.

EDUC 201  Identity and Difference in Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/201)
Focuses on the role of identity in schooling and the way in which identity is socially constructed. Examine how power and privilege impact equity and opportunities based on socially constructed identities such as race, social class, gender, sexual identity, language, (dis)ability, and nationalism. Explore asset-based frameworks that are identity affirming and counter deficit-based perspectives. This course is designed for students interested in reflecting on their own experiences as learners by critically examining their socially constructed identities and "ways of knowing" and the societal implications of these experiences. It is also for those considering careers in teaching, and anyone interested in reflecting on how issues of inclusion, exclusion, power, and privilege play out in education.

This course satisfies the General Education Criteria for: Cultural Studies - US Minority

EDUC 202  Social Justice, School & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/202)
Examines the nature of justice and the dynamics of a pluralistic society to derive a conception of social justice. Working with this conception, it asks how schools function to perpetuate and/or remediate social injustice. The course will consider the history and nature of schooling, issues of access and tracking, and notions of the public and the common. The course is designed for students interested in reflecting on their own educational histories, for those considering careers in teaching, and for all future parents and citizens needing to be able to reflect critically on justice, school, and society.

This course satisfies the General Education Criteria for: Advanced Composition

Humanities - Hist Phil

EDUC 299  Education Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/299)
Provides credit toward the undergraduate degree for study at approved, accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student's completion of the work. College of Education students studying abroad on a Campus or College of Education program should enroll in 299 as a placeholder course for a semester length study abroad and in 499 for short term study abroad programs. Approved for Letter and S/U grading. May be repeated to a maximum of 36 term hours per academic year or to a total of 44 term hours, all of which must be earned in a calendar year. Prerequisite: One year of residence at UIUC, good academic standing, and a prior approval of the College of Education. (Summer session, 0 to 8 hours).

EDUC 499  Education Abroad  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDUC/499)
This course will serve as a foundation for your education abroad experience. The class will center on the experience of travel as it relates to education - your own education, the education systems and policies you encounter, as well as your prospective role as a future educator. This course will introduce comparative education inquiry and provide space to consider the cultural, political, and ethical implications of engaging in education travel and research in cross-cultural, global contexts. 0 to 3 undergraduate hours. 0 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.

Educational Policy Studies (EPS)

EPS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EPS)
Courses

EPS 201  Foundations of Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/201)
Studies some of the problems of formulating and justifying aims and policies in American education, of designing and systematizing the curriculum, of organization and social context of the public school system, and of the teaching-learning process; examined in terms of perspectives provided by social philosophy, history, sociology, and philosophy of education.

EPS 202  Foundations of Education-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/202)
Course is identical to EPS 201 except for the additional writing component. Credit is not given for both EPS 202 and EPS 201. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition

EPS 310  Race and Cultural Diversity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/310)
Study of race and cultural diversity from Colonial era to present; the evolution of racial ideology in an ethnically heterogeneous society; the impact of race on the structures and operations of fundamental social institutions; the role of race in contemporary politics and popular culture. Same as AAS 310, AFRO 310, and LLS 310. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPS 325  Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/325)
Social media is a new frontier of politics, religion, commerce, courtship, and education. It has altered an array of social relations from statecraft to sex. The course draws on case studies from across the globe to explore the wide-ranging transformation taking place, from how people organize mass uprisings, to ways the menage the most intimate details of their lives. Examples will be taken from the Middle East, East Asia, Africa, Latin America, the US and Europe. Same as AFST 325, ASST 325, EURO 325, INFO 325, LAST 325, REES 325, and SAME 325.

EPS 380  Education and Social Justice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPS/380)
This class will introduce students to key definitions, theories, and practices of justice in education. Using a combination of philosophical and political theory-based analyses of the features of justice: fairness, equity, representation, responsibility, and difference, among others, readings invite students to consider how education and schooling can help to nurture democratic ties and equity.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

EPS 390  Undergraduate Advanced Seminar  credit: 0 to 9 Hours. (https://courses.illinois.edu/schedule/terms/EPS/390)
Advanced undergraduate seminar that builds upon introductory work in EPS 410 and includes historical, philosophical, legal, and social science perspectives on education. Requests for activation of this course may come from students or faculty. Approved for letter and S/U grading. May be repeated.

EPS 391  Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPS/391)
Prerequisite: Senior standing.

EPS 395  Independent Study  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPS/395)
Designed for students who wish to do advanced readings and research in greater depth and to investigate further ideas and themes that have been explored in EPS 199 and EPS 201. Prerequisite: EPS 201; and consent of adviser and staff member who supervises the work.

EPS 400  History of American Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/400)
Development of American education in relation to political, social, and cultural developments; attention to the influence of movements in the cultural environment upon evolving conceptions of educational theory and practice. 3 undergraduate hours. 2 or 4 graduate hours.

EPS 401  History of Educational Ideas  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/401)
Studies selected educational theorists and intellectual movements; provides familiarity with the major educational ideas of the past and historical perspectives on current issues and problems in education; and critical readings of such authors as Aristotle, Plato, Quintilian, St. Augustine, Loyola, Comenius, Rousseau, Pestalozzi, Froebel, Herbart, and Dewey. 3 undergraduate hours. 2 or 4 graduate hours.

EPS 402  Asian American Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/402)
Examination and analysis of Asian American education from the late 1800's to the present. Same as AAS 402. 4 undergraduate hours. 4 graduate hours.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

EPS 403  European Education to 1600  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/403)
Cultural history of western European educational practice with special focus on Classical Greece, the Hellenistic world, Rome, early Christianity, the middle ages, the twelfth century renaissance, scholasticism and the fourteenth century renaissance. Same as HIST 444 and MDVL 403. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

EPS 404  European Education since 1600  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/404)
Cultural history of western European educational practice with special focus on the fifteenth century renaissance, the Reformation and Counter-reformation, Enlightenment, and 19th century national schooling systems in Germany, France, and England. Same as HIST 457. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

Information listed in this catalog is current as of 07/2019
EPS 410 Professional Ethics in Education credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/410)
Philosophical examination of selected educational issues; conveys a grasp of the complexities of the issues and some philosophical methods for dealing with them. 3 undergraduate hours. 4 graduate hours.

EPS 411 School and Society credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/411)
Analyzes normative and conceptual aspects of the interrelationship of school and society, and of reciprocal influences between schools and major social trends and forces. 3 undergraduate hours. 4 graduate hours.

EPS 412 Critical Thinking in Education credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/412)
Examination of critical thinking dispositions and abilities as an approach to the foundations of knowledge and structure of thinking in subject-matter areas. 3 undergraduate hours. 4 graduate hours.

EPS 413 Aesthetic Education credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/413)
Theoretical introduction to the problems involved in teaching critical appreciation of the arts; examines materials from aesthetics, art history, and criticism for their relevance to the problems of aims, curriculum, organization, and teaching-learning. 3 undergraduate hours. 4 graduate hours.

EPS 415 Technology & Educational Reform credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/415)
Examines the normative and policy issues raised by the use of new information and communication technologies in education. The course is interdisciplinary, drawing from social and historical as well as philosophical perspectives on these issues. 3 undergraduate hours. 4 graduate hours.

EPS 420 Sociology of Education credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/420)
Education as a social process in various cultures and historical periods, emphasizing current systems in Westernized countries. 3 undergraduate hours. 2 or 4 graduate hours. Differential credit will be based on additional assignments and requirements as specified by instructor.

EPS 421 Racial and Ethnic Families credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/421)
Graduate-level sociological examination of how gender, race, ethnicity, cultural diversity and class function in the development of diverse American families, which are important foundations of education. Primary attention will be given to African American and Hispanic families. Secondary attention will be given to Asian American, Native American and other racial and ethnic family groups. Same as AFRO 421 and HDFS 424. 3 undergraduate hours. 2 or 4 graduate hours.

EPS 422 Race, Educational Policy, and Sociology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/422)
Same as SOC 426. See SOC 426.

EPS 423 Politics of Education credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/423)
Overview of the political structure and processes through which many of the major issues in education are treated; analyzes nature of the policymaking process in education and discusses the roles of principal participants in the process of educational decision making, but focuses on fundamental recurring issues in education and the ways these issues have been resolved or not resolved by the overall system. Particular attention to the role that both the federal and state judiciary as well as legislative authority have had in shaping educational policy. 3 undergraduate hours. 4 graduate hours.

EPS 424 Economics of Education credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/424)
Introduction to economic concepts and their application to education, including investment and consumption theories of education and the role of human capital in economic growth and development; cost-benefit analyses in education, education and the distribution of income, and manpower and educational planning. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: Consent of instructor.

EPS 425 Anthropology of Education credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/425)
This seminar considers how sociocultural anthropology has approached the study of education. Readings include ethnographies of schooling as well as works which consider how schooling is implicated in modernist projects of social improvement, the politics of cultural pluralism in nation states, and the spread of neoliberalism. Same as ANTH 425 and EPSY 466. 2 or 4 undergraduate hours. 2 or 4 graduate hours.

EPS 426 Comparative Education credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/426)
Introduction to the cross-cultural, cross-national study of educational institutions and their relationship to society. Topics may vary. 3 undergraduate hours. 2 or 4 graduate hours.

EPS 427 Philosophy of Middle School credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPS/427)
This course is intended as an introduction to the philosophical, social, and cultural foundations of middle level education. 2 undergraduate hours. 2 graduate hours.

EPS 431 New Learning credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/431)
Education is in a state of flux - transitioning from traditional architectures and practices to new ecologies of teaching and learning influenced by the tremendous social and technological change of our times. What changes are afoot today in workplaces, civic life and everyday community life? What are their implications for education? What are the possible impacts of contemporary social transformations on teaching and learning - including in the areas of technology, media, globalization, diversity, changing forms of work in the "knowledge society", and, in these contexts, changing learner needs and sensibilities? This course explores three pedagogical paradigms: "didactic", "authentic" and "transformative" learning. It takes a historical perspective in order to define the contemporary dimensions of what we term "new learning". It prepares participants to make purposeful choices and link particular theories/instructional approaches to individual and group learning goals. 3 undergraduate hours. 4 graduate hours. Prerequisite: For graduate credit only, acceptance into the Master of Education with an emphasis on New Learning and New Literacies program is required.

EPS 481 History of Amer Indian Educ credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/481)
Same as AIS 481. See AIS 481.
EPS 500 Topics in Educational Policy credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/500)
Seminar on topics not treated by regularly scheduled courses; requests for initiation may be made by students or faculty members. May be repeated to a maximum of 8 hours.

EPS 501 History of U.S. Ed Thought credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/501)
Studies the evolution of educational theories and philosophies since the eighteenth century; particular reference to their impact upon educational developments in the United States; a broad view of the general growth of American educational thought; and attention to selected major educational theorists, or schools of thought, exploration of their fundamental ideas, and the relation of these ideas to significant intellectual currents in American culture. Prerequisite: Consent of instructor.

EPS 502 Education in the 20th Century credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/502)
Historical study of significant educational trends during the past sixty years, with special reference to their influence on American education; an analytical examination of the principal transition movements in the last decade of the nineteenth century and of efforts to solve the problems since 1900.

EPS 503 Seminar in the History of Ed credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/503)
Intensive group study of a small number of selected problems to assist individual students to develop an understanding of and the ability to use the techniques of historical research in furthering such study; problems studied are selected in the light of the interests and previous training of the group of students enrolled. Prerequisite: Two courses in the history of education or consent of instructor.

EPS 506 Ubiquitous Learning credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/506)
This course explores the dynamics of learning using mobile computing devices, broadly defined to range from mobile phones, tablets and laptops to interesting new possibilities raised by emerging technologies such as wearable devices and a potentially pervasive "internet of things". Our journey will take us through museums, galleries and parks - real and virtual. We will visit new media and gaming spaces in which either incidental or explicit learning is taking place. We will look at sites of informal as well as formal learning - extraordinary classrooms offering blended learning opportunities, as well as new forms and modes of out-of-school and self-directed learning. 4 graduate hours. No professional credit.

EPS 508 Uses/Abuses of Educ Research credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/508)
This course aims at comprehensive research literacy by considering educational research in historical, philosophical, policy and political context. Through close reading and quantitative, qualitative, and humanistic studies, the discussion of interdisciplinary perspectives on the research process, students learn to engage intelligently with multiple modes of research and deal critically with policies claiming an evidentiary warrant. Specific topics include: the relationship between research, policy, and practice; the nature of theory and method, argument and evidence in the humanities and social sciences; the tensions between advocacy and research.

EPS 510 Traditions in Philosophy of Ed credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/510)
Analyzes major trends and primary sources in philosophy of education, drawing mainly from the 20th century. Movements covered will include pragmatism, concept analysis, phenomenology, feminism, and Marxism/Critical theory. This course is required of all Philosophy of Education graduate students. Prerequisite: An appropriate 300- and 400-level coursework in philosophy, philosophy of education, or consent of the instructor.

EPS 511 Contemporary Philosophy of Ed credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/511)
Analyzes exemplary current work in the field, covering a range of contrasting philosophical issues and approaches. The course goal is to provide familiarity with notable contemporary authors from a variety of perspectives. Prerequisite: Coursework in philosophy or philosophy of education, or consent of instructor.

EPS 515 Philosophy and Ed Research credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/515)
Examines some crucial assumptions and concepts of contemporary research in education from the point of view both of the consumer and the practitioner of educational research. Topics include paradigm conflicts, causal attributions in social science, assessment, ethical problems in the conduct of research, and the assumptions of quantitative research. Prerequisite: Coursework in philosophy or philosophy of education, or consent of instructor.

EPS 516 Social Theories and Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/516)
Examines philosophical issues in social and political theory as they pertain to educational problems. The course includes topics such as autonomy, democratic education, educational reform, and social change. Prerequisite: Coursework in philosophy or philosophy of education, or consent of instructor.

EPS 517 Case Studies Professional Ethics & Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/517)
Examines issues in moral philosophy as they pertain to education. Topics include current theories of moral education, ethical problems in teaching, or topics of moral dispute in educational policy. 4 graduate hours. No professional credit. Prerequisite: Coursework in philosophy or philosophy of education, or consent of instructor.

EPS 518 Philosophical Issues in Technology and Education credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/518)
This course will explore questions of knowledge, ethics and society that are raised by the uses of new technologies in education and in other learning contexts. The focus will be on asking critical questions about the challenges they pose -- as well as their potential for educational innovation and reform. 4 graduate hours. No professional credit. Prerequisite: Coursework in philosophy or philosophy of education, or consent of instructor.

Information listed in this catalog is current as of 07/2019
EPS 520 Foundations of Aesthetic Ed credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/520)
Phenomenological approach to the problems of teaching for appreciation in formal education; appraisal of the status of aesthetic education, its nature and function, and its relation to other types of education. Prerequisite: EPS 413 or equivalent.

EPS 522 Ethical Dimensions in Educational Leadership credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/522)
Designed to prepare students to analyze ethical issues involved in educational policy making, policy administration, and policy evaluation; includes topics such as educational equity, privacy, due process, and compliance; draws upon multiple disciplines to analyze issues developed out of practice. 4 graduate hours. No professional credit. Prerequisite: Open to students who have fulfilled their social foundations requirements and other students with consent of instructor.

EPS 525 Pedagogy and Equity credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/525)
This course examines the link between equity and pedagogies, analyzing intersectional pedagogies, such as feminist, critical, multicultural, race, and queer approaches, and their implications for practices of learning, teaching, community, understanding, and other key concepts. In addition to engagement with theories aimed at education equity, this course involves practical examination of pedagogical techniques and strategies. Students will develop pedagogical projects using the insights from theory and collaborate in critiques of those projects. 4 graduate hours. No professional credit. Prerequisite: For majors only.

EPS 529 Education and Human Rights credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/529)
Introduces students to varieties of definitions of citizenship - ranging from nation-specific practices and obligations to human-rights-based global citizenship - and their relationship to globalized education and public problem solving. Readings include canonical texts on political organization and responsibilities as well as contemporary theories discussing transnational, global, and cosmopolitan citizenship. Also covers the challenges and promises of diversity, statelessness and non-citizenship participation, particularly in educational concerns but also more broadly. 4 graduate hours. No professional credit.

EPS 530 Education and Globalization credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/530)
Analyzes the role and functions of education in social, political, and economic development, with particular reference to the new and the developing countries. Prerequisite: Consent of instructor.

EPS 531 Critical Race Theory & Educ credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/531)
Focuses on critical race theory as a critique of racism and the law in U.S. society and discusses its current applications to education policy and research in K-12 schooling and higher education. Also looks at how critical race theory can be used as a methodological lens for policy analysis and educational research.

EPS 532 Knowledge, Learning & Pedagogy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/532)
Investigates a variety of pedagogical paradigms, including didactic, authentic and transformative pedagogies. Develops the concept of a pedagogical repertoire, as a way of interpreting the ways in which learners engage in a variety of “knowledge processes” or task types. The course introduces major philosophies or theories of knowledge. As a counterpoint, it also reflects on the practicalities of learning knowledge-making in informal as well as consciously designed learning environments. Prerequisite: Acceptance into the Master of Education with an emphasis on New Learning and New Literacies program.

EPS 533 Global Youth & Citizenship credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/533)
Discusses youth and citizenship in a global context. Covers the social construction of children and youth, the sociology of global generations, education and social media, and new youth movements in the digital age. Draws on a diversity of case studies from North America, the Middle East and North Africa, sub-Saharan Africa, Europe and Latin America.

EPS 534 Ed. & Power in Middle East credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/534)
Survey of education in Middle East and North Africa from the nineteenth century to the present. Course deals with education in relation to colonialism, nationalism, economic development, imperialism, war and geopolitics, youth politics, Islam, and Arab uprisings. Takes a multidisciplinary perspective that draws on social history, anthropology, sociology, political economy, gender studies and international development.

EPS 535 Assessment for Learning credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/535)
For several decades now, assessment has become an increasingly pressing education priority. Teacher and school accountability systems have come to be based on analysis of large-scale, standardized summative assessments. As a consequence, assessment now dominates most conversations about reform, particularly as a measure of teacher and school accountability for learner performance. Behind the often heated and at times ideologically gridlocked debates is a genuine challenge to address gaps in achievement between different demographically identifiable groups of students. There is an urgent need to lift whole communities and cohorts of students out of cycles of underachievement. For better or for worse, testing and public reporting of achievement is seen to be one of the few tools capable of clearly informing public policy makers and communities alike about how their resources are being used to expand the life opportunities for their children. This course is an overview of current debates about testing, and analyzes the strengths and weaknesses of a variety of approaches to assessment. 5 graduate hours. No professional credit.

Information listed in this catalog is current as of 07/2019
EPS 536 Race, Gender & Sexuality Issues  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/536)
Examines contemporary theories of race, gender, class, and sexuality, as well as analyzing how their dynamics play out in U.S. public schooling and history. In an attempt to discuss a range of disciplinary and theoretical approaches to diversity, we will shift among historical, sociological, political, theoretical and pedagogical issues. Traces the place of diversity in forming notions of citizenship, community, identity, and political affiliation/alignment. While two extended examples will focus on the interplay of race, class, and gender in the school-based issues of drop out rates and gendered interactions in the classroom and playground, we will also consider contemporary theories of diversity in local and global contexts. Prerequisite: Acceptance into the Master of Education with an emphasis on Diversity and Equity in Education Program or instructor approval.

EPS 537 Globalizing Educational Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/537)
Dynamics associated with globalization are now fully articulated to modern schooling and the social and cultural environments in which both school youth and educators operate. This course will reconsider the boundaries of educational policy and practice beyond the mainstream emphasis on subject matter specialization, as educators more fully engage with the complex range of experiences, images, and practices that now compel modern school youth and affect their articulation of needs, interests and desires. Prerequisite: For majors only.

EPS 538 Globalization of Higher Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/538)
This course will focus on the rapid changes happening in the Higher Education around the world. Using case studies, we will examine a variety of issues that have come about as the Higher Education system responds to rapid changes in the global economy. These include issues of access and equity; accountability; finance; privatization and for-profit institutions; curricular responses to the changing realities of knowledge and knowledge production; and issues of internationalization within these changing contexts. We will also look at future trends in higher education within the US and internationally.

EPS 539 Youth, Culture and Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/539)
Same as AAS 539 and HDFS 539. See HDFS 539.

EPS 540 Intersectional Pedagogies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/540)
Same as GWS 540. See GWS 540.

EPS 545 Sexualities and Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/545)
Examines policy, curricula, and research on sexuality in education, including the resurgence of virginity and chastity, HIV/AIDS education, education for pregnant teens, sexual orientation and gender identity-related non-discrimination policies and speech codes in public schools, queer youth, and the relationship among sexuality, race, class, disability, and gender. Considers the term "education" broadly, examining school policies, public health education, and the educational projects of political and social movements. Readings concentrate on a U.S. context, though AIDS and sex education information from international sources will also be included. Same as GWS 545.

EPS 553 Global Issues in Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/553)
Investigates how culture has been taken up in theories that try to explain differences in educational outcomes between nations, within classrooms, and across schools. Through readings drawn from cultural psychology, but also including sociology, anthropology, and education, students will examine how globalization has shaped the discourse about the relationships between culture, learning, and academic achievement. Same as EPSY 553. 4 graduate hours. No professional credit. Prerequisite: For majors only.

EPS 554 New Media and Literacies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/554)
This course is designed to address issues of language and literacy, not only for language arts teachers, but all educators in all disciplines and at all levels, where students are required to represent their knowledge in writing as well as other media. It will introduce the 'Multiliteracies' theory of literacy learning which recognizes that the contemporary communications environment is increasingly multimodal. Written language today is more closely connected with oral, visual, gestural, tactile and spatial modes. To remain relevant, effective pedagogy needs to connect with the new communications media, and to explore their underlying processes. The course will focus on current trends in literacy instruction, not only in language arts or composition classes, but academic literacies across all curriculum areas. The course will also investigate the implications of new media of language and literacy and explore the implications of developments in the contemporary media, particularly the new, digital media. 4 graduate hours. No professional credit.

EPS 570 Postcolonial Theory & Methodology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/570)
Since the 1990s, scholarship focusing on center-periphery relations has grown considerably. This scholarship is often identified with postcolonial theories of education and society. The purpose of this course is to acquaint students with this body of literature that addresses the way in which post-independent states are currently engaged in massive institutional transformations in light of globalization. Ultimately, we will explore the theoretical and methodological traditions foregrounded in postcolonial research and their implications for educational policy. 4 graduate hours. No professional credit.

EPS 575 Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/575)
Explores the history, applications and limitations of various theoretical and methodological approaches to the study of contemporary culture and popular media. Examines debates and issues within cultural studies and with other schools of thought. The impact of cultural studies across the disciplines. Same as MDIA 575. 4 graduate hours. No professional credit. Prerequisite: Consent of instructor.

EPS 576 Intro to Diversity & Equity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/576)
Same as SPED 513. See SPED 513.
EPS 579  Access to Higher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/579)
Explains current practices, conditions, and policies shaping access to college at the undergraduate level. The course is based on a sociological approach to understanding conditions of access to higher education.
Provides an opportunity to examine and discuss current research on class, race, gender, institutional policy, and individual factors that are known to impact participation in higher education. Particular attention is given to stratification in higher education including but not limited to: the historical and legal context of access; points of access; pathways to higher education; and the effects of various policies and programs. Same as EOL 579. Prerequisite: EOL 570 and EOL 571, or equivalent; or consent of instructor.

EPS 580  Researching Global Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/580)
The course will introduce education research methodology and consider the cultural, political and ethical implications of engaging in education research in cross-cultural, global contexts. Students will learn to select an appropriate topic for research, effectively navigate and use an academic research library, conduct a literature review, and craft a literature review portion of a larger research project. 4 graduate hours. No professional credit.

EPS 590  Advanced Graduate Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPS/590)
Seminar in educational policy studies; sections offered in the following fields: (a) history of education; (b) philosophy of education; (c) comparative education; (d) social foundations of education; (e) philosophy of educational research; and (f) historical methods in education. May be repeated. Prerequisite: Consent of instructor.

**Educational Practice (EDPR)**

EDPR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/EDPR)

**Courses**

EDPR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/199)
Approved for S/U grading only. May be repeated.

EDPR 250  School & Community Experiences  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/250)
Early field experiences in teacher education, including observation and laboratory experiences in public schools: designed to provide opportunities for career exploration, professional orientation, the development of insight into the interrelationship of theory and practice, and the place of the student in the educational process. Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.

EDPR 420  Ed Prac Students with Sp Needs  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/420)
Course in practice teaching which provides teaching experience with exceptional children. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. May be repeated for 18 hours, 12 of which may be taken in the same term. Prerequisite: Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Certification (http://www.cote.uiuc.edu).

EDPR 432  Ed Prac in EC & ELED  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/432)
Course in practice teaching to meet licensure requirements for teaching in the elementary school. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: CI 420 or CI 406 as required by the student's curriculum; Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Certification (http://cote.illinois.edu/).

EDPR 438  Educational Practice in Special Fields  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/438)
Course in student teaching to meet requirements for licensure in special fields. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: All professional education coursework, except those requiring concurrent enrollment with student teaching, must be completed prior to student teaching. Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Licensure (www.cote.illinois.edu).

EDPR 442  Educational Practice in Secondary Education  credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/442)
Course in practice teaching to meet licensure requirements for teaching in the secondary schools. 2 to 12 undergraduate hours. 2 to 12 graduate hours. Approved for S/U grading only. Prerequisite: All professional education coursework, except those requiring concurrent enrollment with student teaching, must be completed prior to student teaching. Satisfactory completion of all requirements of the Council on Teacher Education Undergraduate or Graduate Common Assessment Plan for Initial Licensure (www.cote.illinois.edu).

EDPR 550  School and Community Experience  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EDPR/550)
Early field experiences in teacher education, including observation and laboratory experiences in schools: Designed to provide opportunities for career exploration, professional orientation, the development of insight into the relationships of theory and practice, and the place of the student in the educational process. 0 to 4 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. Prerequisite: Must be admitted to an educator preparation program.

**Educational Psychology (EPSY)**

EPSY Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/EPSY)

**Courses**

EPSY 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/199)
Approved for both letter and S/U grading. May be repeated.

EPSY 200  Honors Symposium in Education  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EPSY/200)
Course affords students an opportunity to consider important topics impacting current educational practices. Students select six scholarly presentations from an approved list. The presentations are delivered by outstanding visiting and resident scholars in education and related disciplines. Three times during the term, students gather to consider the issues raised by the presentations. Course expectations include: attending six presentations, attending the three course discussion meetings, reading the course text and selected publications, and developing written reflections based on presentations attended. May be repeated to a maximum of 8 hours.
EPSY 201 Educational Psychology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/201)
Explores fundamental issues of development, learning, instruction, and assessment. This course articulates how people learn, how they are influenced by cultural and social contexts, how to assess learning and its outcomes, and how best to teach and motivate people to achieve. Educational psychologists improve learning in a broad range of settings: homes, classrooms, work environments, and communities. Prerequisite: PSYC 100.
This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

EPSY 202 Exploring Cultural Diversity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/202)
Introduction to cultural diversity and social justice issues through interdisciplinary readings, discussion, and experiential activities. The course involves a 1-hour lecture and 2-hour lab/discussion section each week. The lecture focus is on raising awareness of key issues, concerns and concepts, providing accurate information on diverse groups, and relating theories and models to critical incidents of social oppression in everyday life. The lab/discussion sections follow a group dialogue and experiential activity format, and focus on relating the readings and lecture material to personal experiences and active learning activities. This course satisfies the General Education Criteria for: Cultural Studies - US Minority

EPSY 203 Social Issues Group Dialogues  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EPSY/203)
Provides students with opportunities to converse on specific diversity and social justice topic areas offered as separate sections under the course heading. Each section uses a structured dialogue format to explore intergroup and intragroup differences and similarities within historical and contemporary contexts. Specific focus will be on participants sharing their experiences and perspectives related to the specific dialogue topic. The dialogue format uses active learning exercises in addition to weekly readings, journal assignments, and topic based dialogues. May be repeated in the same term to a maximum of 2 hours. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of the instructor.

EPSY 204 Learning in a Digital World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/204)
Addresses the fundamental use of information and information technology in knowledge creation and learning, with a specific focus on the use of computers, new media, and related digital technologies within formal and informal learning environments. The paramount goal is the reconceptualization of learning practices and environments and how these will impact students, teachers, schools, and society at large. Major areas of interest covered include new learning theories, educational informatics, ubiquitous learning, collective intelligence and social networking, creativity, and universal design for knowledge creation. Applicable to any student interested in the principles of learning, knowledge, and education. Students will need access to a laptop computer.

EPSY 205 Career Theory and Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/205)
Various behavioral science theories will be covered (e.g., person-environment interaction, decision-making, group dynamics, stereotype threat, personality traits). Discussions of research findings to applied career practices will also be included. Students will develop a working knowledge of these theories through interactive lectures, guided class discussions, case-based readings, and group activities that require them to think critically and flexibly about theory in order to generate solutions for real-world problems. Additional fees may apply. See Class Schedule. On request, students will be required to participate in a total of 6 hours of experiments outside of class.
This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

EPSY 220 Language & Culture of Deaf Communities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/220)
Same as SHS 222. See SHS 222.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

EPSY 222 Language & Culture of Deaf Communities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/222)
Study of child growth and development designed particularly for those preparing to teach in the elementary school; special emphasis on the significance of the developmental process for educational programs and procedures; and systematic experience in studying and evaluating children's behavior and in supporting their learning and development. Includes limited voluntary participation as a subject in experiments. Credit is not given for both EPSY 236 and PSYC 216. Prerequisite: PSYC 100.

EPSY 224 Foundations of Social Psychology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/224)
Course content includes descriptive statistics, correlation, regression, the normal curve, statistical inference, and the presentation of statistics. The course does not require calculus, and makes use of examples drawn from education, medicine, social science, business, and the popular media. Designed for professional training of students whose major interests are not in math or science. Credit is not given for both EPSY 230 and any of ACE 261, CPSC 440, ECON 202, ECON 203, EPSY 480, PSYC 235, SOC 280, STAT 100. Prerequisite: MATH 112.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

EPSY 230 Development and Relationships  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/330)
Same as PSYC 326. See PSYC 326.

EPSY 280 Elements of Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/280)
Course content includes descriptive statistics, correlation, regression, the normal curve, statistical inference, and the presentation of statistics. The course does not require calculus, and makes use of examples drawn from education, medicine, social science, business, and the popular media. Designed for professional training of students whose major interests are not in math or science. Credit is not given for both EPSY 280 and any of ACE 261, CPSC 440, ECON 202, ECON 203, EPSY 480, PSYC 235, SOC 280, STAT 100. Prerequisite: MATH 112.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

EPSY 398 Thesis  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/398)
Prerequisite: Senior standing.

EPSY 399 Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/399)
Prerequisite: Senior standing.
EPSY 400  Psyc of Learning in Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/400)
Study of the psychology of human learning as it applies to instruction, educational issues, and educational problems. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 credit hours requires consent of the instructor and the completion of a substantive scholarly project. Undergraduate and graduate work load will be commensurate with the requirements. 2 hours for Latin and Spanish Certification, Elementary Edm Music and GSLIS. Prerequisite: EPSY 201 or equivalent.

EPSY 401  Child Language and Education  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/401)
Provides an overview of current knowledge about children's acquisition of linguistic and communicative competence together with a consideration of the educational import of this developmental process. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and completion of a substantive scholarly project. Undergraduate and graduate work load will be commensurate with the requirements. 3 hours of ECE Undergraduate certification and 2 hours for ECE graduate certification, Elementary Ed, Music certification and GSLIS. Prerequisite: EPSY 201 or EPSY 236; or equivalent.

EPSY 402  Sociocultural Infl on Learning  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/402)
Provides a general overview of the relationship of language, culture, and society to the teaching-learning process; gives broad exposure to research and theory concerned with the effects of sociocultural factors on cognition, perception, and motivation; also considers the effects of such factors on classroom interaction. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and the completion of a substantive scholarly project. 2 hours for Elementary Education and Music certification. Prerequisite: EPSY 201 or EPSY 236; or equivalent.

EPSY 403  Res Methods in Learning Scienc  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/403)
This course is an introduction to conducting research in the learning sciences, including how to use theory as a guide to conducting literature reviews and formulating research questions. The course introduces quantitative and qualitative research design, data collection and analysis, and other aspects of research relevant to learning, teaching, and other topics relevant to education. A secondary goal is to better understand research reported in the primary literature as well as in the news media. Assignments will include evaluating research papers and writing a research proposal. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 280 or EPSY 480 or PSYC 235 or PSYC 301.

EPSY 404  Adjustment in School Settings  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/404)
Examines theories of adjustment, factors that influence adjustment, and common adjustment problems of children and adolescents in school context. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 201 or equivalent.

EPSY 405  Personality and Soc Dev  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/405)
Same as PSYC 465. See PSYC 465.

EPSY 406  Psyc of Classroom Management  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/406)
General overview of theories related to analyzing student behaviors in the classroom; the incidence and etiology of conduct problems and behavior disorders in the classroom, with emphasis upon preventive strategies and guiding principles for maintaining classroom discipline. 3 undergraduate hours. 2 or 4 graduate hours. Taking 4 hours of credit requires consent of the instructor and the completion of a substantive scholarly project. Undergraduate and Graduate Work load will be commensurate with the requirements. 2 hours for Elementary Education and Music certification and GSLIS. Prerequisite: EPSY 201 or EPSY 236, or equivalent.

EPSY 407  Adult Learning and Development  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/407)
Theory of and research on adult learning and development; includes societal context, performance, physiology and health, personality, and learning; and considers stability and change during young adulthood, middle age, and old age. Meets both foundational requirements for EPSY. 3 undergraduate hours. 4 graduate hours. Assignments and work load will commensurate with credit. Prerequisite: EPSY 201, or equivalent, or consent of instructor.

EPSY 408  Learning & Hum Dev w/ EdTech  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/408)
Sets out to provide an understanding of theories of learning and development and how these theories relate to educational technology. It has two components. The first is theoretical, in which we attempt to develop an overall frame of reference, locating approaches to the psychology of learning in terms of large paradigm shifts, from ‘behaviorism’ to ‘brain developmentalism’ to ‘social cognitivism’. The second component is practical, in which we will use these theoretical concepts to ‘parse’ a technology-mediated learning environment for its underlying presuppositions. 3 undergraduate hours. 4 graduate hours.

EPSY 413  Intelligence Assess and Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/413)
Study of fundamental concepts relevant to the general problem of the individual testing of learning aptitude; acquisition of psychometric competence in the use of the Binet and the Wechsler tests; acquaintance and limited practice in the administration, scoring, and interpretation of results obtained by performance scales and other devices appropriate for use with individuals having sensory, associative, and/or motor impairments. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor and 6 hours of psychology courses, including SPED 424 or PSYC 490.

EPSY 419  Counseling Pre-Practicum  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/419)
Study of basic helping skills and professional ethics in professional psychology. The course links theory with practice, as students engage in the exploration of new helping skills and learn to analyze their developing counseling style and performance; includes an examination of relevant ethical standards and counseling theories, and their application in a multicultural context. Discussion and experiential activities are supplemented by films, videotapes, and case studies. Primarily for counseling psychology graduate students, though other students in programs with a mental health focus may be admitted with the consent of the instructor if space is available. Same as REHB 419. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing.

<td>This course will survey the range of topics related to how we learn from text, i.e., from reading. The course will focus on reading in education settings and approaches to improving reading comprehension. Students will read secondary and primary literature and have opportunities to critique, discuss, and present the findings of this research. Topics discussed will include: eye movements during reading, grammatical structures and discourse conventions of texts that support comprehension, and how comprehension and memory for text can be measured. Assignments will include written reviews of texts and topics. Students taking the course for 4 graduate hours will also plan and present a proposed empirical study related to some topic within the course. 3 undergraduate hours. 2 or 4 graduate hours. Credit is not given for EPSY 427 if credit has been received for either PSYC 425 or LING 425.</td>

<tr>
<td></td>
<td>In this course, students will learn to conduct a variety of evaluations related to learning technologies including needs assessments, consumer-driven evaluations, outcome or impact assessments, comparative or quasi-experimental studies and case studies. As one means of measuring need, growth, or impact, students will also create assessment instruments and strategies related to particular learning technologies. These might include electronic portfolios, web-based surveys, computer adapted tests or performance rubrics. Course requirements include a final evaluation project in which students (individuals or pre-approved small groups) plan and conduct actual evaluations of learning technologies. The course includes both face-to-face and asynchronous synchronous on-line meetings. Same as HRD 474. 4 undergraduate hours. 4 graduate hours.</td>

Information listed in this catalog is current as of 07/2019
EPsy 485  Assessing Student Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/485)
Designed especially for secondary education students, this course introduces basic concepts and practices of assessment, measurement, and evaluation as they are used in school settings. The course covers current trends and issues in assessment including large scale standardized testing practices and cultural issues in assessment. Students become familiar with using assessment and evaluation data to inform instructional decisions. Same as CI 485. 3 undergraduate hours. 4 graduate hours. Prerequisite: Students should be concurrently enrolled in CI 403. Admission to the secondary teacher education program.

EPsy 486  Principles of Measurement  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/486)
Study of the selection, preparation, administration, and interpretation of psychological and educational tests and diagnostic devices; emphasis on theory at a beginning level, with application to hypothetical school situations as a teaching device; and consideration of the sources of standard tests, criteria for their evaluation, methods of scoring, interpretation, and general and special areas. 3 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 201 or EPSY 236.

EPsy 487  Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/487)
Same as EIL 460, FR 460, GER 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.

EPsy 490  Developments in Educ Psyc  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/490)
Foundational theories and practices of educational psychology, including learning and development. 2 or 3 undergraduate hours. 2 or 4 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours. Undergraduate and graduate work load will be commensurate with the requirements.

EPsy 491  Educ Psyc Field Instruction  credit: 4 to 16 Hours. (https://courses.illinois.edu/schedule/terms/epsy/491)
Individual instruction designed to help the advanced student apply basic principles of education or psychology in institutional settings. Each student is assigned to a school, community agency, or other applied settings for a supervised field experience in some aspect of educational psychology. 4 to 16 undergraduate hours. 4 to 16 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 16 hours if topics vary; no more than 8 hours may be taken in any given term. Prerequisite: Master's degree in educational psychology or equivalent, and consent of instructor.

EPsy 492  History and Systems of Psych  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/492)
A seminar on the history of psychology within a social and cultural context and its theoretical systems, and their relations to contemporary psychology. An awareness of the roots and context of one's own views as well as understanding and appreciation of others' views will be fostered. There will be some focus on encouraging self-study of the history of one's own theoretical orientation. 4 undergraduate hours. 4 graduate hours. Prerequisite: EPSY 420, or equivalent.

Examines evaluation as a social practice, explains various approaches to evaluation both nationally and internationally, and explores how evaluation is linked to policy and decision making. Students will read about and discuss both foundational and contemporary issues in evaluation practice and theory as they relate to the use of evaluation in improving both practice and policy decisions. For graduate students in education, public policy, social work, community health, and other related fields.

EPsy 505  Data, Evidence, & Decisions  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/505)
Examines how practitioners and policy makers come to interpret sources of evidence; how the use of data, information, and evidence are shaped by organizational structures, routines, and cultures; how technical infrastructures have emerged to enable the collection, distribution, consolidation, and use of data, information, and evidence; the political economy of generated and using evidence (e.g., university research, think tanks, advocacy organizations, etc.). This multidisciplinary course is situated against the broad backdrop of the social science literature on social scientific knowledge production and use, and the relationship between science and society.

EPsy 507  Econ Analysis & Ed Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/507)
Introduces key economic principles and applies them to the analysis of current education policy issues. Concepts covered include supply and demand, competitive markets, human capital acquisition, efficiency, equity and the role of government intervention, among others. Focuses on applications within the context of policy making in education. Designed for students without prior coursework in economics, but with a working basic knowledge of statistics (e.g., regression). Prerequisite: EPSY 480.

EPsy 508  Display/Interpretation of Data  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/508)
Provides instruction in representing and communicating data accurately and clearly using visual displays (e.g., graphs, tables and figures). Examines the most appropriate ways to visually display the results of data analyses so that they are clear, accurate and unambiguous. Drawing on both contemporary techniques and publication standards, it will address topics including audience, context, precision, visual metaphor, data display tools and best practices.

EPsy 510  Counseling Psych/Ethics ProSem  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/510)
Introduction to and critical examination of applied issues within the discipline of counseling psychology. A review of (a) the historical development of counseling psychology, (b) psychologists' professional code of ethics, and (c) major psychotherapy theories and interventions. Issues of race, class, gender, and diversity more broadly are integrated throughout the course.

EPsy 511  Voc Psych Theories and Assess  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/epsy/511)
Study of vocational psychology theories, assessment, decision-making, and the job search process; includes an historical overview of the development field. The course links theory with practice, as students engage in the interpretation of vocational assessments, examine relevant ethical standards, and discuss their application. 2 hours credit is for work on either the vocational theories or vocational assessment parts of the course (this must be negotiated). For 4 hours credit, a student must do both aspects. Prerequisite: Admission to the graduate program in counseling psychology or consent of instructor.
EPSY 513  Resrch Meth in Coun Psych II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/513)
This course is the second course sequence for Counseling Psychology graduate students. This course builds on the previous course (EPSY 512) in that students continue work on refining their thesis proposal in the area of Counseling Psychology. They also explore advanced research designs as applied to Counseling Psychology literature. This course may not be repeated for credit. Prerequisite: EPSY 512 or consent of instructor.

EPSY 515  Multicultural Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/515)
Overview of multicultural counseling theory, empirical research, and practice; includes didactic as well as experiential learning components. The goal of the course is to enhance students' multicultural counseling competencies, with regard to developing: (a) appropriate knowledge of specific cultural groups and sociopolitical issues, (b) cultural self-awareness, and (c) culturally relevant intervention skills. May not be repeated for credit.

EPSY 520  Counseling Psych Practicum  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/520)
Intensive supervised experiences in applied educational psychology; use of a wide variety of diagnostic and observational techniques and treatment. Students may take more than one section. Approved for letter and S/U grading. Prerequisite: Master's degree in educational psychology or equivalent; consent of instructor.

EPSY 521  Group Counseling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/521)
Study of the principles of group process and their application in institutional and other settings; includes a review of the historical development of group processes and study of pertinent research; discussion and experiential activities are supplemented by films, videotapes, and case studies. Prerequisite: EPSY 510 or consent of instructor.

EPSY 530  Social Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/530)
This seminar is an advanced, doctoral-level survey of social development from infancy to adolescence. The range of topics includes attachment, temperament, genes and developmental process, social contexts of cognitive development gender development, moral reasoning and prosocial behavior, aggressive behavior, and the development of ethnic identity and discrimination. Family, peer, community, and cultural ecologies of children and adolescents receive extensive consideration. Developmental theory, methodology, and relations to social policy and intervention are continuing concerns. Same as PSYC 540.

EPSY 531  Cognitive Dev and Socializtn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/531)
Addresses basic issues in cognitive development, with special attention to how social interactions impact cognitive development. Two major foci: theories, especially in terms of the role that socialization plays in these theories; and effects of domains of socialization (e.g., peers, school) on cognitive development. Primary age span: preschool thru adolescence. Prerequisite: Consent of instructor.

EPSY 540  Networks for Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/540)
In this course students engage in hands on activities through which they come to understand the intricacies of building substantial and sustainable networks for learning environments, in particular network planning for school districts. Studies read and discuss literature that relates to the building of network systems. Students will explore various tools and techniques that best serve the network environment. Students will complete a major project in which they design (or modify) their own network and discuss the means by which they come to understand critical factors associated with maintaining and growing such an environment. Prerequisite: Enrollment in the Educational Technology for Teaching, Learning, and Leadership concentration in the Educational Psychology on-line CTER Program.
EPSY 555  Advanced Educational Technologies for Engagement and Interactive Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/555)
This course examines technologies that seek to promote and sustain engagement in learning, both in formal and informal settings. Topics covered include educational games, artificial intelligence, virtual environments, mobile devices, affective computing, pedagogical agents, narrative learning environments, and more. A highly interdisciplinary approach is taken by blending theory and evidence from psychology and education with discussions of technological advances. Students in the class will be expected to work in teams to design and implement a prototype for a problem of their own choosing. Same as CI 555 and INFO 555. 4 graduate hours. No professional credit.

EPSY 556  Analysis of Educational Tech  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/556)
This course will analyze currently available technologies for learning. Areas addressed include: learning management systems, intelligent tutors, computer adaptive testing, gamification, simulations, learning in and through social media and peer interaction, universal design for learning, differentiated instruction systems, big data and learning analytics, attention monitoring, and affect-aware systems. Participants will explore the processes for selection and implementation of suitable technologies, the design of electronic learning resources, design and application of digital media in teaching and learning, familiarization with web usually and accessibility, and critical analysis of the benefits of technologies in education. 4 graduate hours. No professional credit.

EPSY 559  Advanced Learning Technologies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/559)
In this course students identify, select, and justify the implementation of advanced learning technologies in the overall learning environment. Students will consider how advanced technologies influence the design process and how the design process may be enhanced through the use of advanced learning technologies. The goal of this course is to have students create a vision in which instructional system design models, existing advanced learning technologies, and the learning environment create a synergy by which individuals are able to solve organizational problems. Prerequisite: Enrollment in the Educational Technology for Teaching, Learning, and Leadership concentration in the Educational Psychology on-line CTER Program.

EPSY 560  Tech & Educational Change  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/560)
An in-depth look at research on educational reform and its links to technology in the United States. Major topics include reforming the organization of schools and the instructional program, and the roles students, teachers, and school administrators play when integrating technology and school improvement. Prerequisite: Enrollment in the Educational Technology for Teaching, Learning, and Leadership concentration in the Educational Psychology on-line CTER Program.

EPSY 563  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/563)
Same as CI 584, EALC 584, FR 584, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

EPSY 566  Adv Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/566)
Same as PSYC 526. See PSYC 526.

EPSY 567  Personality Assessment  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/567)
Same as PSYC 567. See PSYC 567.

EPSY 570  Adv Theories of Ed Evaluation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/570)
This topical seminar is designed for advanced graduate students with a significant interest in the evaluation of educational and social policies and programs. The seminar will engage in some depth an issue of contemporary currency and controversy in evaluation theory and practice. Readings, discussions, guest speakers, and the occasional field trip will frame the seminar. Each student in this seminar will be expected to develop a scholarly paper for conference presentation and/or publication. Prerequisite: EPSY 470, EPSY 471, and coursework in research methods.

EPSY 572  Evaluation of Edu Programs  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/572)
Same as CI 518. See CI 518.

EPSY 573  Methods of Educational Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/573)
Same as CI 550, EPOL 550, and SPED 550. See CI 550.

EPSY 574  Quasi-Experimental Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/574)
Intermediate course for graduate students in education and related fields. Goal is to prepare students to design and conduct quasi-experimental studies and critique the work of others in an informed, systematic way. Students will read and discuss foundational and contemporary issues in design, validity, sampling and loss, regression artifacts, analysis and causal inferences. Prerequisite: EPSY 580 or equivalent.

EPSY 575  Mixed Method Inquiry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/575)
This advanced course addresses the theory and practice of mixing inquiry methodologies in program evaluation and applied research. Topics include selected roots of mixed inquiry, various stances on mixing philosophical traditions while mixing methods, conceptualizations of mixed method design and analysis, and challenges of mixed method practice. Students should have basic familiarity with experimental or survey (quantitative) with and constructivist or interpretivist (qualitative) social science. Familiarity with other social science frameworks (e.g., critical theory, feminism, action science) is also highly desirable. Same as SPED 575. 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: EPSY 574 or EPSY 580; EPSY 577 or EPSY 578; or equivalents; or consent of instructor.

EPSY 577  Foundations of Qual Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/577)
Introduction to epistemological, methodological, ethical, and political issues characterizing the broad field of qualitative inquiry. Topics covered include an overview of logical positivism and logical empiricism; the Continental philosophers' critique of scientism and the emergence of hermeneutics; sociological theories of Verstehen; interpretive anthropology; feminist qualitative inquiry; social constructionism; contemporary crises of ethics, representation, and justification.

EPSY 578  Qualitative Inquiry Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/578)
Introductory course addressing the practice of qualitative inquiry. Topics include developing inquiry questions appropriate for qualitative studies; designing qualitative studies; generating data via interviews, observations, document analyses; analyzing and interpreting qualitative data; judging the quality of inquiry; representing and reporting qualitative inquiry; addressing ethical and political issues in the conduct of qualitative inquiry.
EPSY 580 Statistical Inference in Educ  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/580)
Intermediate statistical methods in education; includes probability theory, distribution theory, interval estimation, hypothesis testing, regression and correlational analysis, and analysis of variance. Prerequisite: EPSY 480 or equivalent.

EPSY 581 Applied Regression Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/581)
Emphasis on educational research applications of regression with special emphasis placed on application and interpretation of techniques. Topics covered include rudimentary linear algebra, the general linear model, different coding schemes, regression diagnostics, and extensions to binary data and nested data structures. Same as PSYC 581. Prerequisite: EPSY 580 or equivalent.

EPSY 582 Advanced Statistical Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/582)
Advanced topics in analyses of variance and covariance, and principles of experimental design; brief introduction to multivariate analysis, including rudiments of matrix algebra. Prerequisite: EPSY 580, PSYC 407, or equivalent.

EPSY 583 Single Case Experimntl Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/583)
Same as SPED 583. See SPED 583.

EPSY 584 Multivar Anlys in Psych and Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/584)
Same as PSYC 594 and SOC 584. See PSYC 594.

EPSY 585 Theories of Measurement I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/585)
Provides a conceptual framework of classical test theory (e.g., true scores, error of measurement, composite measures) and alternatives to the classical model (e.g., generalizability theory, latent trait theory). Students will learn the techniques and theory of classical test theory and apply the methods to educational and psychological assessments. Topics covered include reliability, validity, generalizability, dichotomous Item Response Theory (IRT), test construction and design, item bias and fairness, Differential Item Functioning (DIF), scaling, linking, and equating. Same as PSYC 595. Prerequisite: EPSY 581 and EPSY 582, PSYC 406 and PSYC 407; or equivalents.

EPSY 586 Theories of Measurement II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/586)
Provides a conceptual framework of Item Response Theory (IRT) and its applications. Students will learn the techniques and theory of IRT and apply the methods to educational and psychological assessments. Topics covered include both dichotomous and polytomous IRT modelling, item structure and latent traits estimation, modeling and detecting Differential Item Functioning, linking and equating, computer adaptive testing, dimensionality testing, and cognitive diagnosis. Same as PSYC 596. Prerequisite: EPSY 585 or PSYC 490.

EPSY 587 Hierarchical Linear Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/587)
This course provides an overview of the use of multilevel models. Students will learn the techniques and theory of hierarchical linear models and apply the methods to data from studies in education, psychology and social sciences. Topics covered include multilevel analyses, random intercept and slope models, 2- and 3-level models, hypothesis testing, model assessment, longitudinal (repeated measures) data, and generalized hierarchical models for categorical variables. Same as PSYC 587 and STAT 587. Approved for letter and S/U grading. Prerequisite: EPSY 581 and EPSY 582, or PSYC 406 and PSYC 407.

EPSY 588 Covar Struct and Factor Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/588)
Same as PSYC 588, SOC 588, and STAT 588. See PSYC 588.

EPSY 589 Categorical Data in Ed/Psyc  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/589)
Concepts and methods for analyzing categorical data with an emphasis placed on building and applying models in education, sociology and psychology. Generalized linear models covered including logistic and Poisson regression models, loglinear, logit, and probit models, and models for ordinal data. Same as PSYC 589 and SOC 579. Approved for letter and S/U grading. Credit is not given for EPSY 589 and STAT 426. Prerequisite: EPSY 581 or PSYC 507.

EPSY 590 Advanced Seminar in Educ Psych  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/590)
Seminar in educational psychology; topics relate to the areas of specialization represented by the various divisions within the department. Approved for both letter and S/U grading. May be repeated. Prerequisite: Consent of instructor required.

EPSY 591 Field Study and Thesis Seminar  credit: 4 to 8 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/591)
Assists doctoral candidates in planning field studies and thesis problems. Students are expected to present their studies at each of four stages: (1) the inception, delimitation, tentative design stage; (2) the proposed design stage; (3) the revised design stage; and (4) the final design stage. Students are expected to analyze critically all presentations. Prerequisite: Limited to students who have been admitted for doctoral study.

EPSY 595 Independent Study  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/595)
Offers opportunity and challenge of self-directive, independent study; develops the individual’s ability as an independent student; and enables the student to pursue needed study in a field in which appropriate courses are not being offered during a given term. Approved for both letter and S/U grading. May be repeated with approval. Prerequisite: Approval of study outline by adviser and the department chairperson prior to enrollment.

EPSY 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/EPSY/599)
Individual direction of research and thesis writing. Approved for S/U grading only. May be repeated.

Electrical and Computer Engr (ECE)

ECE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ECE)

Courses

ECE 101 Exploring Digital Info Technol  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/101)
Principles and processes for the development of information technologies: digital music, digital images, digital logic, data compression, error correction, information security, and communication networks. Laboratory for design of hardware and software, and experiments in audio and image processing. Intended for students outside the College of Engineering. Credit is not given to Computer or Electrical Engineering majors.

This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences Quantitative Reasoning II
ECE 110 Introduction to Electronics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/110)
Introduction to selected fundamental concepts and principles in electrical engineering. Emphasis on measurement, modeling, and analysis of circuits and electronics while introducing numerous applications. Includes sub-discipline topics of electrical and computer engineering, for example, electromagnetics, control, signal processing, microelectronics, communications, and scientific computing basics. Lab work incorporates sensors and motors into an autonomous moving vehicle, designed and constructed to perform tasks jointly determined by the instructors and students.

ECE 120 Introduction to Computing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/120)
Introduction to digital logic, computer systems, and computer languages. Topics include representation of information, combinational and sequential logic analysis and design, finite state machines, the von Neumann model, basic computer organization, and machine language programming. Laboratory assignments provide hands-on experience with design, simulation, implementation, and programming of digital systems. Prerequisite: Restricted to Computer Engineering or Electrical Engineering majors or transfer students with ECE Department consent.

ECE 198 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/198)
Lectures and discussions relating to new areas of interest. May be repeated in the same or separate terms for unlimited hours if topics vary. See class schedule for topics and prerequisites.

ECE 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ECE/199)
Approved for both letter and S/U grading. May be repeated.

ECE 200 Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ECE/200)
Discussions of educational programs, career opportunities, and other topics in electrical and computer engineering. Approved for Letter and S/U grading. May be repeated. For Computer Engineering and Electrical Engineering majors only.

ECE 205 Electrical and Electronic Circuits  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/205)
ECE 205 is an introductory course on circuit analysis and electronics for non-majors in engineering. The course includes bi-weekly electronics lab experiments designed to provide students with hands-on experience. Basic principles of circuit analysis and DC circuits; time-domain analysis of 1st and 2nd order linear circuits; complex numbers, phasors, AC steady-state analysis; frequency response; op-amp, diode, and BJT circuits; logic gates and digital logic circuits. Credit is not given to Computer or Electrical Engineering majors. Credit is not given to Computer or Electrical Engineering majors. Prerequisite: PHYS 212.

ECE 206 Electrical and Electronic Circuits Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/206)
Laboratory experiments in digital logic and controllers; transistor amplifier and switching circuits; DC motor control and voltage regulators; sensors and motion control with feedback; wireless communication. Credit is not given to Computer or Electrical Engineering majors. Prerequisite: ECE 205.

ECE 210 Analog Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/210)
Analog signal processing, with an emphasis on underlying concepts from circuit and system analysis: linear systems; review of elementary circuit analysis; differential equation models of linear circuits and systems; Laplace transform; convolution; stability; phasors; frequency response; Fourier series; Fourier transform; active filters; AM radio. Credit is not given for both ECE 210 and ECE 211. Prerequisite: ECE 110 and PHYS 212; credit or concurrent registration in MATH 285 or MATH 286.

ECE 211 Analog Circuits & Systems  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/211)
Concepts from circuit and system analysis: linear systems; review of elementary circuit analysis; op amps; transient analysis; differential equation models of linear circuits and systems; Laplace transform. Credit is not given for both ECE 211 and ECE 210. Prerequisite: ECE 110 and PHYS 212; credit or concurrent registration in MATH 285 or MATH 286.

ECE 220 Computer Systems & Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/220)
Advanced use of LC-3 assembly language for I/O and function calling convention. C programming, covering basic programming concepts, functions, arrays, pointers, I/O, recursion, simple data structures, linked lists, dynamic memory management, and basic algorithms. Information hiding and object-oriented design as commonly implemented in modern software and computer systems programming. Prerequisite: ECE 120. Restricted to Computer Engineering or Electrical Engineering majors or transfer students with ECE Department consent.

ECE 297 Individual Study  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/297)
Individual projects. Approved written application to department as specified by department or instructors is required. Approved for both letter and S/U grading. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Consent of instructor.

ECE 298 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/298)
Lectures and discussions relating to new areas of interest. May be repeated in the same or separate terms for unlimited hours if topics vary. See class schedule for topics and prerequisites.

ECE 304 Photonic Devices  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/304)
Introduction to active and passive photonic devices and applications; optical processes in semiconductor and dielectric materials including electrical junctions, light emission and absorption, and waveguide confinement; photonic components such as light emitting diodes, lasers, photodetectors, solar cells, liquid crystals, and optical fiber; optical information distribution networks and display applications. Prerequisite: PHYS 214.

ECE 307 Techniques for Engr Decisions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/307)
Modeling of decisions in engineering work and the analysis of models to develop a systematic approach to making decisions. Fundamental concepts in linear and dynamic programming; probability theory; and statistics. Resource allocation; logistics; scheduling; sequential decision making; siting of facilities; investment decisions; application of financial derivatives; other problems for decision making under uncertainty. Case studies from actual industrial applications illustrate real-world decisions. Prerequisite: ECE 210; credit or concurrent registration in ECE 313.
ECE 310 Digital Signal Processing credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/310)
Introduction to discrete-time systems and discrete-time signal processing with an emphasis on causal systems; discrete-time linear systems, difference equations, z-transforms, discrete convolution, stability, discrete-time Fourier transforms, analog-to-digital and digital-to-analog conversion, digital filter design, discrete Fourier transforms, fast Fourier transforms, spectral analysis, and applications of digital signal processing. Prerequisite: ECE 210.

ECE 311 Digital Signal Processing Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/311)
Companion laboratory for ECE 310. Prerequisite: Credit or concurrent registration in ECE 310.

ECE 313 Probability with Engrg Applic credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/313)
Probability theory with applications to engineering problems such as the reliability of circuits and systems to statistical methods for hypothesis testing, decision making under uncertainty, and parameter estimation. Same as MATH 362. Credit is not given for both ECE 313 and MATH 461. Prerequisite: MATH 286 or MATH 415.

ECE 314 Probability in Engineering Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/314)
Designed to be taken concurrently with ECE 313. Probability in Engineering Systems, to strengthen the students’ understanding of the concepts in ECE 313 and their applications, through computer simulation and computation using the Python programming language. Topics include sequential hypothesis testing, parameter estimation, confidence intervals, Bloom filters, min hashing, load balancing, inference for Markov chains, PageRank algorithm, vector Gaussian distribution, contagion in networks, principle component method and linear regression for data analysis, investment portfolio analysis. Prerequisite: Concurrent enrollment in ECE 313 or one of: ECE 313, IE 300, STAT 410.

ECE 316 Ethics and Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/316)
Ethical issues in the practice of engineering: safety and liability, professional responsibility to clients and employers, whistle-blowing, codes of ethics, career choice, and legal obligations. Philosophical analysis of normative ethical theories. Case studies. Same as PHIL 316. Credit is not given for both ECE 316 and CS 210. Junior standing is required. Prerequisite: RHET 105.
This course satisfies the General Education Criteria for: Advanced Composition

Humanities - Hist Phil

ECE 317 ECE Technology & Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/317)
Basic understanding of electrical and computer engineering concepts applicable to technology management. Circuit components; dc fundamentals; ac fundamentals; semiconductors; operational amplifiers; device fabrication; power distribution; digital devices; computer architecture (including microprocessors). Intended for the Business Majors in the Technology and Management program. Credit is not given to Computer or Electrical Engineering majors. Prerequisite: One of MATH 220, MATH 221, MATH 234.

ECE 329 Fields and Waves I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/329)
Electromagnetic fields and waves fundamentals and their engineering applications: static electric and magnetic fields; energy storage; Maxwell's equations for time-varying fields; wave solutions in free space, dielectrics and conducting media, transmission line systems; time- and frequency-domain analysis of transmission line circuits and Smith chart applications. Prerequisite: ECE 210.

ECE 330 Power Ckts & Electromechanics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/330)
Network equivalents; power and energy fundamentals, resonance, mutual inductance; three-phase power concepts, forces and torques of electric origin in electromagnetic and electrostatic systems; energy conversion cycles; principles of electric machines; transducers; relays; laboratory demonstration. Prerequisite: ECE 210.

ECE 333 Green Electric Energy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/333)
Electric power grid structure and policy; analysis of wind, solar, and fuels as raw resources; wind turbines and parks; solar cells, modules, arrays and systems; fuel cell power plants; energy and financial performance of green energy projects; integration of green energy into power grid; energy project report and presentation. Prerequisite: ECE 205 or ECE 210.

ECE 340 Semiconductor Electronics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/340)
Modern device electronics: semiconductor fundamentals including crystals and energy bands, charge carriers (electrons and holes), doping, and transport, (drift and diffusion); unipolar devices with the MOS field effect transistor as a logic device and circuit considerations; basic concepts of generation-recombination and the P-N junction as capacitors and current rectifier with applications in photonics; bipolar transistors as amplifiers and switching three-terminal devices. Prerequisite: ECE 210; PHYS 214; credit or concurrent registration in ECE 329.

ECE 342 Electronic Circuits credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/342)
Analysis and design of analog and digital electronic circuits using MOS field effect transistors and bipolar junction transistors, with emphasis on amplifiers in integrated circuits. Credit is not given for both ECE 342 and PHYS 404. Prerequisite: ECE 210.

ECE 343 Electronic Circuits Laboratory credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/343)
Companion laboratory for ECE 342. Credit is not given for both ECE 343 and PHYS 404. Prerequisite: Credit or concurrent registration in ECE 342.

ECE 345 Design and Innovation credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/345)
Students identify a suitable project, build a team, and explore the feasibility and potential solution space for the selected project area. The intellectual structure of the engineering design process is studied in detail in order to encapsulate the ideation and problem identification aspects of engineering senior design and facilitate student innovation. Same as TE 345. May be repeated in separate terms to a maximum of 4 hours.

ECE 350 Fields and Waves II credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/350)
Continuation of ECE 329: radiation theory; antennas, radiation fields, radiation resistance and gain; transmitting arrays; plane-wave approximation of radiation fields; plane-wave propagation, reflection, and transmission; Doppler effect, evanescent waves and tunneling, dispersion, phase and group velocities; waveguides and resonant cavities; antenna reception and link budgets. Prerequisite: ECE 329.
ECE 365 Data Science and Engineering  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/365)
Project-based course focused on exploring and understanding how data are collected, represented and stored, and computed/analyzed upon to arrive at appropriate and meaningful interpretation. Foundations of machine learning are developed and then applied in the context of two specific application areas, such as social network analytics, biological data analysis, and auto and video analytics. Prerequisite: ECE 313.

ECE 374 Introduction to Algorithms & Models of Computation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/374)
Same as CS 374. See CS 374.

ECE 380 Biomedical Imaging  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/380)
Physics and engineering principles associated with x-ray, computed tomography, nuclear, ultrasound, magnetic resonance, and optical imaging, including human visualization and perception of image data. Same as BIOE 380. Prerequisite: MATH 285 or MATH 286.

ECE 385 Digital Systems Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/385)
Design, build, and test digital systems using transistor-transistor logic (TTL), SystemVerilog, and field-programmable gate arrays (FPGAs). Topics include combinational and sequential logic, storage elements, input/output and display, timing analysis, design tradeoffs, synchronous and asynchronous design methods, datapath and controller, microprocessor design, software/hardware co-design, and system-on-a-chip. Prerequisite: ECE 110 and ECE 220.

ECE 391 Computer Systems Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/391)
Concepts and abstractions central to the development of modern computing systems, with an emphasis on the systems software that controls interaction between devices and other hardware and application programs. Input-output semantics; synchronization; interrupts; multitasking; virtualization of abstractions. Term-based projects. Credit is not given for both ECE 391 and CS 241. Prerequisite: ECE 220 or CS 233.

ECE 395 Advanced Digital Projects Lab  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/395)
Planning, designing, executing, and documenting a microcomputer-based project. Emphasis on hardware but special projects may require an equal emphasis on software. Prerequisite: ECE 385.

ECE 396 Honors Project  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/396)
Special project or reading course for James Scholars in engineering. May be repeated. Prerequisite: Consent of instructor.

ECE 397 Individual Study in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/397)
Individual Projects. Approved for both letter and S/U grading. May be repeated. Prerequisite: Consent of instructor. Approved written application to department as specified by department or instructor is required.

ECE 398 Special Topics in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/398)
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ECE 399 Honors Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/399)
Special lecture sequences or discussion groups arranged each term to bring James Scholars in engineering into direct contact with the various aspects of engineering practices and philosophy. For Computer Engineering and Electrical Engineering majors with senior standing. Prerequisite: Consent of instructor.

ECE 401 Signal and Image Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/401)
An introduction to signal analysis and processing methods for advanced undergraduates or graduate students in the biological, physical, social, engineering and computer sciences. Signal analysis methods and their capabilities, weaknesses, and artifacts with an emphasis on their practical application. Significant hands-on processing and interpretation of real data using MATLAB. 4 graduate hours. 4 graduate hours. Credit is not given for both ECE 310 and ECE 401. Prerequisite: MATH 220.

ECE 402 Electronic Music Synthesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/402)
Historical survey of electronic and computer music technology; parameters of musical expression and their codification; analysis and synthesis of fixed sound spectra; time-variant spectrum analysis/synthesis of musical sounds; algorithms for dynamic sound synthesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 310.

ECE 403 Audio Engineering  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/403)
Resonance and wave phenomena; Acoustics of rooms and transmission lines (e.g., horns); How loudspeakers work: A lab component has been added to measure and model real loudspeakers and enclosures; Topics in digital audio, including AD and DA (Sigma-Delta) audio converters. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 210 and ECE 310.

ECE 408 Applied Parallel Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/408)
Parallel programming with emphasis on developing applications for processors with many computation cores. Computational thinking, forms of parallelism, programming models, mapping computations to parallel hardware, efficient data structures, paradigms for efficient parallel algorithms, and application case studies. Same as CS 483 and CSE 408. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 220.

ECE 411 Computer Organization & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/411)
Basic computer organization and design: integer and floating-point computer arithmetic; control unit design; pipelining; system interconnect; memory organization; I/O design; reliability and performance evaluation. Laboratory for computer design implementation, simulation, and layout. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 391 or CS 241.

ECE 412 Microcomputer Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/412)
Design, construction, and use of a small general-purpose computer with a micro-processor CPU; MSi and LSI circuits used extensively; control panel, peripheral controllers, control logic, central processor, and programming experiments. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 385; ECE 391 or CS 233. Recommended: Credit or concurrent registration in ECE 411.

ECE 414 Biomedical Instrumentation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/414)
Same as BIOE 414. See BIOE 414.
ECE 415  Biomedical Instrumentation Lab  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/415)
Same as BIOE 415. See BIOE 415.

ECE 416  Biosensors  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/416)
Underlying engineering principles used to detect small molecules, DNA, proteins, and cells in the context of applications in diagnostic testing, pharmaceutical research, and environmental monitoring. Biosensor approaches including electrochemistry, fluorescence, acoustics, and optics; aspects of selective surface chemistry including methods for biomolecule attachment to transducer surfaces; characterization of biosensor performance; blood glucose detection; fluorescent DNA microarrays; label-free biochips; bead-based assay methods. Case studies and analysis of commercial biosensor. Same as BIOE 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 417  Multimedia Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/417)
Characteristics of speech and image signals; important analysis and synthesis tools for multimedia signal processing including subspace methods, Bayesian networks, hidden Markov models, and factor graphs; applications to biometrics (person identification), human-computer interaction (face and gesture recognition and synthesis), and audio-visual databases (indexing and retrieval). Emphasis on a set of MATLAB machine problems providing hands-on experience. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 310 and ECE 313.

ECE 418  Image & Video Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/418)
Concepts and applications in image and video processing; introduction to multidimensional signal processing: sampling, Fourier transform, filtering, interpolation, and decimation; human visual perception; scanning and display of images and video; image enhancement, restoration and segmentation; digital image and video compression; image analysis. Laboratory exercises promote experience with topics and development of C and MATLAB programs. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 310; credit or concurrent registration in one of ECE 313, STAT 400, IE 300, MATH 461; MATH 415; experience with C and MATLAB programming language.

ECE 419  Security Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/419)
Same as CS 425. See CS 425.

ECE 420  Introduction to VLSI Systems Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/420)
Overview of VLSI layout rules and techniques; CMOS circuit and logic design; layout rules and techniques; circuit characterization and performance estimation; CMOS subsystem design; Design of VLSI chips using standard cells and design automation tools; analysis and improvements of VLSI chip design processes; design of on-chip communication networks; design and evaluation of VLSI chips using design tools and CAD systems. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 385 and ECE 411; or CS 233.

ECE 425  Computer Networking Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/425)
Complementary Metal-Oxide Semiconductor (CMOS) technology and theory; CMOS circuit and logic design; layout rules and techniques; circuit characterization and performance estimation; CMOS subsystem design; Design of VLSI chips using standard cells and design automation tools; analysis and improvements of VLSI chip design processes; design of on-chip communication networks; design and evaluation of VLSI chips using design tools and CAD systems. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 411; or CS 233.

ECE 426  Advanced Electric Machinery  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/426)
Advanced rotating machine theory and practice: dynamic analysis of machines using reference frame transformations; tests for parameter determination; reduced order modeling of machines; mechanical subsystems including governors, prime movers and excitation systems; digital simulation of inter-connected machines. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 330.

ECE 427  Distributed Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/427)
Advanced rotating machine theory and practice: dynamic analysis of machines using reference frame transformations; tests for parameter determination; reduced order modeling of machines; mechanical subsystems including governors, prime movers and excitation systems; digital simulation of inter-connected machines. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 330.

ECE 428  Computer Networking Laboratory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/428)
Design, application, analysis, and evaluation of communication network protocols under both Linux and Windows NT operating systems. Emphasis on identifying problems, proposing alternative solutions, implementing prototypes using available network protocols and evaluating results. Multiple programming team projects. Same as CS 436. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 438.

ECE 429  Sensors and Instrumentation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/429)
Hands-on exposure to fundamental technology and practical application of sensors. Capacitive, inductive, optical, electromagnetic, and other sensing methods are examined. Instrumentation techniques incorporating computer control, sampling, and data collection and analysis are reviewed in the context of real-world scenarios. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 430  Communication Networks  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/430)
Overview of wireless network architectures including cellular networks, local area networks, multi-hop wireless networks such as ad hoc networks, mesh networks, and sensor networks; capacity of wireless networks; medium access control, routing protocols, and transport protocols for wireless networks; mechanisms to improve performance and security in wireless networks; energy-efficient protocols for sensor networks. Same as CS 439. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 241 or ECE 391; one of MATH 461, MATH 463, ECE 313.
ECE 441 Physcs & Modeling Semicond Dev  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/441)
Advanced concepts including generation-recombination, hot electron effects, and breakdown mechanisms; essential features of small ac characteristics, switching and transient behavior of p-n junctions, and bipolar and MOS transistors; fundamental issues for device modeling; perspective and limitations of Si-devices. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340.

ECE 443 LEDs and Solar Cells  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/443)
This course explores the energy conversion devices from fundamentals to system-levels including electronic structure of semiconductors; quantum physics; compound semiconductors; semiconductor heterostructures and low dimensional quantum structures; energy transfer between photons and electron-hole pairs; photon emission and capture processes; radiative and non-radiative processes; light extraction and trapping; emission and absorption engineering; electrical and optical modelling via numerical and TCAD simulation tools; hands-on characterization of modern light emitting diodes and solar cells. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 340.

ECE 444 IC Device Theory & Fabrication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/444)
Fabrication lab emphasizing physical theory and design of devices suitable for integrated circuitry; electrical properties of semiconductors and techniques (epitaxial growth, oxidation, photolithography diffusion, ion implantation, metallization, and characterization) for fabricating integrated circuit devices such as p-n junction diodes, bipolar transistors, and field effect transistors. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 340.

ECE 445 Senior Design Project Lab  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/445)
Individual design projects in various areas of electrical and computer engineering; projects are chosen by students with approval of instructor. A professionally kept lab notebook, a written report, prepared to journal publication standards, and an oral presentation required. 4 undergraduate hours. No graduate credit.
This course satisfies the General Education Criteria for: Advanced Composition

ECE 446 Principles of Experimental Research in Electrical Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/446)
Interdisciplinary approach to learning principles of experimental research. Focuses on: 1) experimental design 2) prevalent experimental techniques 3) data organization, analysis, and presentation and 4) scientific computing. Presentation methods explored include poster session, conference talk, and journal paper. Open-ended labs and a project reinforce concepts discussed in class. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 310, ECE 313, ECE 329, and MATH 415.

ECE 447 Active Microwave Okt Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/447)
Microwave circuit design of amplifiers, oscillators, and mixers. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350 and ECE 453.

ECE 448 Artificial Intelligence  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/448)
Same as CS 440. See CS 440.

ECE 451 Adv Microwave Measurements  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/451)
Manual- and computer-controlled laboratory analysis of circuits at microwave frequencies. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

ECE 452 Electromagnetic Fields  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/452)
Plane waves at oblique incidence; wave polarization; anisotropic media; radiation; space communications; waveguides. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

ECE 453 Wireless Communication Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/453)
Design of a radio system for transmission of information; modulation, receivers, impedance matching, oscillators, two-port network analysis, receiver and antenna noise, nonlinear effects, mixers, phase-locked loops. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329, credit or concurrent registration in ECE 342.

ECE 454 Antennas  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/454)
Antenna parameters; polarization of electromagnetic waves; basic antenna types; antenna arrays; broadband antenna design; antenna measurements. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

ECE 455 Optical Electronics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/455)
Optical beams and cavities; semiclassical theory of gain; characteristics of typical lasers (gas, solid state, and semiconductor); application of optical devices. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 350 or PHYS 436.

ECE 456 Global Nav Satellite Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/456)
Engineering aspects of space-based navigation systems, such as the Global Positioning System (GPS). Engineering and physical principles on which GPS operates, including orbital dynamics, electromagnetic wave propagation in a plasma, signal encoding, receiver design, error analysis, and numerical methods for obtaining a navigation solution. GPS as a case study for performing an end-to-end analysis of a complex engineering system. Laboratory exercises focus on understanding receiver design and developing a MATLAB-based GPS receiver. Same as AE 456. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329 and ECE 310 or AE 352 and AE 353.

ECE 457 Microwave Devices & Circuits  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/457)
Electromagnetic wave propagation, microwave transmission systems, passive components, microwave tubes, solid state microwave devices, microwave integrated circuits, S-parameter analysis, and microstrip transmission lines. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340 and ECE 350.

ECE 458 Appic of Radio Wave Propag  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/458)
Terrestrial atmosphere, radio wave propagation, and applications to radio sensing and radio communication. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 350.

Information listed in this catalog is current as of 07/2019
ECE 459 Communications Systems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/459)
Analog underpinning of analog and digital communication systems: representation of signals and systems in the time and frequency domains; analog modulation schemes; random processes; prediction and noise analysis using random processes; noise sensitivity and bandwidth requirements of modulation schemes. Brief introduction to digital communications. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 313.

ECE 460 Optical Imaging credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/460)
Scalar fields, geometrical optics, wave optics, Gaussian beams, Fourier optics, spatial and temporal coherence, microscopy, interference chromatic and geometric aberrations, Jones matrices, waveplates, electromagnetic fields, and electro-optic and acousto-optic effects. Laboratory covers numerical signal processing, spectroscopy, ray optics, diffraction, Fourier optics, microscopy, spatial coherence, temporal coherence, polarimetry, fiber optics, electro-optic modulation and acousto-optic modulation. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 329; credit or concurrent registration in ECE 313.

ECE 461 Digital Communications credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/461)
Reliable communication of one bit of information over three types of channels: additive Gaussian noise, wireline, and wireless. Emphasis on the impact of bandwidth and power on the data rate and reliability, using discrete-time models. Technological examples used as case studies. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 210 and ECE 313.

ECE 462 Logic Synthesis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/462)
Unate function theory, unate recursive paradigm, synthesis of two-level logic, synthesis of incompletely specified combinational logic, multi-level logic synthesis, binary decision diagrams, finite state machine synthesis, automatic test pattern generation and design for test, equivalence checking and reachability analysis of finite machines, and technology mapping. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 220 or CS 233.

ECE 463 Digital Communications Lab credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/463)
Hands-on experience in the configuration and performance evaluation of digital communication systems employing both radio and optical signals. 2 undergraduate hours. 2 graduate hours. Prerequisite: ECE 361 or ECE 459.

ECE 464 Power Electronics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/464)
Switching functions and methods of control such as pulse-width modulation, phase control, and phase modulation; dc-dc, ac-dc, dc-ac, and ac-ac power converters; power components, including magnetic components and power semiconductor switching devices. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 465 Optical Communications Systems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/465)
Fundamentals of lightwave systems: characterization of lightwave channels, optical transmitters, receivers, and amplifiers; quantum and thermal noise processes; design of optical receivers; multimode and single-mode link analysis. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 313 and ECE 350. Recommended: credit or concurrent registration in ECE 459 and ECE 466.

ECE 466 Optical Communications Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ECE/466)
Fiber components and measurements, transmitters and detectors, fiber amplifiers, multimode fiber links, and wavelength division multiplexing. 1 undergraduate hour. 1 graduate hour. Prerequisite: Credit or concurrent registration in ECE 465.

ECE 467 Biophotonics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/467)
Overview of the field of biophotonics, in three segments: (1) fundamental principles of light, optics, lasers, biology, and medicine; (2) diagnostic biophotonics including imaging, spectroscopy, and optical biosensors; (3) therapeutic applications of biophotonics including laser ablation and photodynamic therapies. Reviews and presentations of current scientific literature by students. Tours of microscopy facilities. Same as BIOE 467. 3 undergraduate hours. 3 graduate hours. Prerequisite: One of ECE 455, ECE 466, PHYS 402.

ECE 468 Optical Remote Sensing credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/468)
Optical sensors including single element and area arrays (CCDs); optical systems including imagers, spectrometers, interferometers, and lidar; optical principles and light gathering power; electromagnetics of atomic and molecular emission and scattering with applications to the atmosphere the prime example; applications to ground and spacecraft platforms. Four laboratory sessions (4.5 hours each) arranged during term in lieu of four lectures. Same as AE 468. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329, ECE 313.

ECE 469 Power Electronics Laboratory credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/469)
Circuits and devices used for switching power converters, solid-state motor drives, and power controllers; dc-dc, ac-dc, and dc-ac converters and applications; high-power transistors and magnetic components; design considerations including heat transfer. 2 undergraduate hours. 2 graduate hours. Prerequisite: ECE 343; credit or concurrent registration in ECE 464.

ECE 470 Introduction to Robotics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/470)
Fundamentals of robotics including rigid motions; homogeneous transformations; forward and inverse kinematics; velocity kinematics; motion planning; trajectory generation; sensing, vision; control. Same as AE 482 and ME 445. 4 undergraduate hours. 4 graduate hours. Prerequisite: One of MATH 225, MATH 286, MATH 415, MATH 418.

ECE 472 Biomedical Ultrasound Imaging credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/472)
Theoretical and engineering foundations of ultrasonic imaging for medical diagnostics. Conventional, Doppler, and advanced ultrasonic imaging techniques; medical applications of different ultrasonic imaging techniques; engineering problems related to characterization of ultrasonic sources and arrays, image production, image quality, the role of contrast agents in ultrasonic imaging, and system design. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 329.

ECE 473 Fund of Engrg Acoustics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/473)
Development of the basic theoretical concepts of acoustical systems; mechanical vibration, plane and spherical wave phenomena in fluid media, lumped and distributed resonant systems, and absorption phenomena and hearing. Same as TAM 413. 3 or 4 graduate hours. Prerequisite: MATH 285 or MATH 286.
ECE 476 Power System Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/476)
Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, fault analysis, and digital simulation. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 330.

ECE 478 Formal Software Devel Methods  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/478)
Same as CS 477. See CS 477.

ECE 480 Magnetic Resonance Imaging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/480)
Fundamental physical, mathematical, and computational principles governing the data acquisition and image reconstruction of magnetic resonance imaging. Same as BIOE 480. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Recommended: ECE 310.

ECE 481 Nanotechnology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/481)
Fundamental physical properties of nanoscale systems. Nanofabrication techniques, semiconductor nanotechnology, molecular and biomolecular nanotechnology, carbon nanotubes and graphene, nanowires, and nanoscale architectures and systems. 4 undergraduate hours. 4 graduate hours. Prerequisite: One of CHEM 442, CHBE 457, ME 485, MSE 401, PHYS 460.

ECE 482 Digital IC Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/482)
Bipolar and MOS field effect transistor characteristics; VLSI fabrication techniques for MOS and bipolar circuits; calculation of circuit parameters from the process parameters; design of VLSI circuits such as logic, memories, charge-coupled devices, and A/D and D/A converters. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 483 Analog IC Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/483)
Basic linear integrated circuit design techniques using bi-polar, JFET, and MOS technologies; operational amplifiers; wide-band feedback amplifiers; sinusoidal and relaxation oscillators; electric circuit noise; application of linear integrated circuits. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 342.

ECE 484 Prin Adv Microelec Processing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/484)
Principles of advanced methods of pattern delineation, pattern transfer, and modern material growth; how these are applied to produce novel and high performance devices and circuits in various electronic materials with special emphasis on semiconductors. Computer simulation of processes and the manufacturing of devices and circuits. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 444.

ECE 485 MEMS Devices & Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/485)
Introduction to principles, fabrication techniques, and applications of microelectromechanical systems (MEMS). In-depth analysis of sensors, actuator principles, and integrated microfabrication techniques for MEMS. Comprehensive investigation of state-of-the-art MEMS devices and systems. Same as ME 485. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 486.

ECE 486 Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/486)
Analysis and design of control systems with emphasis on modeling, state variable representation, computer solutions, modern design principles, and laboratory techniques. 4 undergraduate hours. 4 graduate hours. Prerequisite: ECE 210.

ECE 487 Intro Quantum Electr for EE  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/487)
Application of quantum mechanical concepts to electronics problems; detailed analysis of a calculable two-state laser system; incidental quantum ideas bearing on electronics. 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 485.

ECE 488 Compound Semicond & Devices  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/488)
Advanced semiconductor materials and devices; elementary band theory; heterostructures; transport issues; three-terminal devices; two-terminal devices; including lasers and light modulators. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340 and ECE 350.

ECE 489 Robot Dynamics and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/489)
Same as ME 446 and SE 422. See SE 422.

ECE 490 Introduction to Optimization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/490)
Basic theory and methods for the solution of optimization problems; iterative techniques for unconstrained minimization; linear and nonlinear programming with engineering applications. Same as CSE 441. 3 undergraduate hours. 4 graduate hours. Prerequisite: ECE 220 and MATH 415.

ECE 491 Numerical Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/491)
Same as CS 450, CSE 401 and MATH 450. See CS 450.

ECE 492 Parallel Programg: Sci & Engrg  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/492)
Same as CS 420 and CSE 402. See CS 420.

ECE 493 Advanced Engineering Math  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/493)
Same as MATH 487. See MATH 487.

ECE 495 Photonic Device Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ECE/495)
Active photonic devices and lightwave technology. Hands-on experience with several classes of lasers (HeNe laser, semiconductor edge emitting lasers, vertical cavity surface emitting lasers), photodetectors, and photonic systems. Familiarization with experimental optical characterization techniques and equipment. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 487 recommended.

ECE 496 Senior Research Project  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/496)
Individual research project under the guidance of a faculty member: for example, mathematical analysis, laboratory experiments, computer simulations, software development, circuit design, or device fabrication. Preparation of a written research proposal, including preliminary results. 2 undergraduate hours. No graduate credit. May be repeated. ECE 496 and ECE 499 taken in sequence fulfill the Advanced Composition Requirement. Prerequisite: RHET 105; consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

ECE 498 Special Topics in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/498)
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 0 to 4 undergraduate hours. 0 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.
ECE 499  Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ECE/499)
Completion of the research project begun under ECE 496. Preparation and oral presentation of a written thesis that reports the results of the project. 2 undergraduate hours. No graduate credit. To fulfill the Advanced Composition Requirement, credit must be earned for both ECE 496 and ECE 499. Prerequisite: ECE 496 and consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

ECE 500  ECE Colloquium  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ECE/500)
Required of all graduate students. Approved for S/U grading only.

ECE 508  Manycore Parallel Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/508)
Algorithm techniques for enhancing the scalability of parallel software: scatter vs. gather, problem decomposition, spatial sorting and binning, privatization for reduced conflicts, tiling for data locality, regularization for improved load balance, compaction to conserve memory bandwidth, double-buffering to overlap latencies, and data layout for improved efficiency of DRAM accesses. Same as CS 508. 4 graduate hours. No professional credit. Prerequisite: ECE 408 or CS 420.

ECE 510  Micro and Nanolithography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/510)
Comprehensive foundation in the broad field of micro and nanolithography; the science of optical imaging, photochemistry, and materials issues; technological developments including state-of-the-art commercial lithography systems. Applications of micro and nanolithography to diverse fields including: semiconductor devices, displays, flexible electronics, microelectromechanical systems, and biotechnology. Prerequisite: One of ECE 444, ECE 460, MSE 462, NPRE 429, PHYS 402.

ECE 511  Computer Architecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/511)
Advanced concepts in computer architecture: design, management, and modeling of memory hierarchies; stack-oriented processors; associative processors; pipelined computers; and multiple processor systems. Emphasis on hardware alternatives in detail and their relation to system performance and cost. Same as CSE 521. Prerequisite: ECE 411 or CS 433.

ECE 512  Computer Microarchitecture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/512)
Design of high performance computer systems; instruction level concurrency; memory system implementation; pipelining, superscalar, and vector processing; compiler back-end code optimization; profile assisted code transformations; code generation and machine dependent code optimization; cache memory design for multiprocessors; synchronization implementation in multiprocessors; compatibility issues; technology factors; state-of-the-art commercial systems. Prerequisite: ECE 511 and CS 426.

ECE 513  Vector Space Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/513)
Mathematical tools in a vector space framework, including: finite and infinite dimensional vector spaces, Hilbert spaces, orthogonal projections, subspace techniques, least-squares methods, matrix decomposition, conditioning and regularizations, bases and frames, the Hilbert space of random variables, random processes, iterative methods; applications in signal processing, including inverse problems, filter design, sampling, interpolation, sensor array processing, and signal and spectral estimation. Prerequisite: ECE 310, ECE 313, and MATH 415.

ECE 515  Control System Theory & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/515)
Feedback control systems emphasizing state space techniques. Basic principles, modeling, analysis, stability, structural properties, optimization, and design to meet specifications. Same as ME 540. Prerequisite: ECE 486.

ECE 517  Nonlinear & Adaptive Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/517)
Design of nonlinear control systems based on stability considerations; Lyapunov and hyperstability approaches to analysis and design of model reference adaptive systems; identifiers, observers, and controllers for unknown plants. Prerequisite: ECE 515.

ECE 518  Adv Semiconductor Nanotech  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/518)
Semiconductor nanotechnology from the formation and characterization of low-dimensional structures to device applications. Compound semiconductors, epitaxial growth, quantum dots, nanowires, membranes, strain effect, quantum confinement, surface states, 3D transistors, nanolasers, multijunction tandem solar cells, and nanowire thermoelectrics. Handouts are supplemented with papers from the research literature. Critical literature review assignments, research proposals in National Science Foundation format, and oral presentations are required. Prerequisites: ECE 340, ECE 444, and ECE 481.

ECE 519  Hardware Verification  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/519)
This course teaches algorithms for verification that are applied to very large scale hardware in the chip design industry. The course teaches symbolic model checking, Binary decision diagrams (BDDs), satisfiability (SAT) based algorithms, symbolic simulation, coverage metrics for simulation, automatic assertion generation, analog circuit verification and post Silicon validation algorithms. The course teaches scalable search algorithms that can be applied to discrete and continuous space models. Same as CS 585. 4 graduate hours. No professional credit.

ECE 520  EM Waves & Radiating Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/520)
Fundamental electromagnetic theory with applications to plane waves, waveguides, cavities, antennas, and scattering; electromagnetic principles and theorems; and solution of electromagnetic boundary-value problems.

ECE 523  Gaseous Electronics & Plasmas  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/523)
Basic concepts and techniques, both theoretical and experimental, applicable to gaseous electronics, gas and solid plasmas, controlled fusion, aeronomy, gas lasers, and magnetohydrodynamics. Prerequisite: ECE 452 or PHYS 485.

ECE 524  Advanced Computer Security  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/524)
Same as CS 563. See CS 563.

ECE 526  Distributed Algorithms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/526)
Theoretical aspects of distributed algorithms, with an emphasis on formal proofs of correctness and theoretical performance analysis. Algorithms for consensus, clock synchronization, mutual exclusion, debugging of parallel programs, peer-to-peer networks, and distributed function computation; fault-tolerant distributed algorithms; distributed algorithms for wireless networks. Same as CS 539. 4 graduate hours. No professional credit. Prerequisite: One of CS 473, ECE 428, ECE 438.
ECE 527 System-On-Chip Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/527)
System-on-chip (SOC) design methodology and IP (intellectual property) reuse, system modeling and analysis, hardware/software co-design, behavioral synthesis, embedded software, reconfigurable computing, design verification and test, and design space exploration. Class projects focusing on current SOC design and research. Platform FPGA boards and digital cameras are provided to prototype, test, and evaluate SOC designs. Prerequisite: ECE 391 and ECE 425.

ECE 528 Analysis of Nonlinear Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/528)
Nonlinear dynamics, vector fields and flows, Lyapunov stability theory, regular and singular perturbations, averaging, integral manifolds, input-output and input-to-state stability, and various design applications in control systems and robotics. Same as ME 546 and SE 520. 4 graduate hours. No professional credit. Prerequisite: ECE 515 and MATH 444 or MATH 447.

ECE 530 Large-Scale System Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/530)
Fundamental techniques for the analysis of large-scale electrical systems, including methods for nonlinear and switched systems. Emphasis on the importance of the structural characteristics of such systems. Key aspects of static and dynamic analysis methods. Prerequisite: ECE 464 and ECE 476.

ECE 531 Theory of Guided Waves credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/531)
Propagation of electromagnetic waves in general cylindrical waveguides; stationary principles; non-uniform inhomogeneously filled waveguides; mode and power orthogonality; losses in waveguides; analytical and numerical techniques; microwave integrated circuits waveguides; optical waveguides. Prerequisite: ECE 520. Recommended: MATH 556.

ECE 532 Compnd Semicnd & Diode Lasers credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/532)
Compound semiconductor materials and their optical properties. Diode lasers including quantum well heterostructure lasers, strained layer lasers, and quantum wire and quantum dot lasers. Current topics in diode laser development. Prerequisite: ECE 340 and PHYS 486. Recommended: ECE 455; credit or concurrent registration in ECE 536.

ECE 534 Random Processes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/534)
Basic concepts of random processes; linear systems with random inputs; Markov processes; spectral analysis; Wiener and Kalman filtering; applications to systems engineering. Prerequisite: One of ECE 313, MATH 461, STAT 400.

ECE 535 Theory of Semicnd & Devices credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/535)
Introductory quantum mechanics of semiconductors; energy bands; dynamics of Bloch electrons in static and high-frequency electric and magnetic fields; equilibrium statistics; transport theory, diffusion, drift, and thermoelectric effects; characteristics of p-n junctions, heterojunctions, and transistor devices. Same as PHYS 565. Prerequisite: Senior-level course in quantum mechanics or atomic physics.

ECE 536 Integ Optics & Optoelectronics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/536)
Integrated optical and optoelectronic devices; theory of optical devices including laser sources, waveguides, photodetectors, and modulations of these devices. Prerequisite: One of ECE 455, ECE 487, PHYS 486. Recommended: ECE 488.

ECE 537 Speech Processing Fundamentals credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/537)
Development of an intuitive understanding of speech processing by the auditory system, in three parts. I): The theory of acoustics of speech production, introductory acoustic phonetics, inhomogeneous transmission line theory (and reflectance), room acoustics, the short-time Fourier Transform (and its inverse), and signal processing of speech (LPC, CELP, VQ). II): Psychoacoustics of speech perception, critical bands, masking (JNDs), and the physiology of the auditory pathway (cochlear modeling). III): Information theory entropy, channel capacity, the confusion matrix, state models, EM algorithms, and Bayesian networks. Presentation of classic papers on speech processing and speech perception by student groups. MATLAB (or equivalent) programming in majority of assignments. Prerequisite: ECE 310.

ECE 539 Adv Theory Semicnd & Devices credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/539)
Advanced topics of current interest in the physics of semiconductors and solid-state devices. Prerequisite: ECE 535.

ECE 540 Computational Electromagnetics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/540)
Basic computational techniques for numerical analysis of electromagnetics problems, including the finite difference, finite element, and moment methods. Emphasis on the formulation of physical problems into mathematical boundary-value problems, numerical discretization of continuous problems into discrete problems, and development of rudimentary computer codes for simulation of electromagnetic fields in engineering problems using each of these techniques. Same as CSE 530. Prerequisite: CS 357; credit or concurrent registration in ECE 520.

ECE 541 Computer Systems Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/541)
Development of analytical models of computer systems and application of such models to performance evaluation: scheduling policies, paging algorithms, multiprogrammed resource management, and queuing theory. Same as CS 541. Prerequisite: One of ECE 313, MATH 461, MATH 463.

ECE 542 Fault-Tolerant Dig Syst Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/542)
Advanced concepts in hardware and software fault tolerance: fault models, coding in computer systems, module and system level fault detection mechanism, reconfiguration techniques in multiprocessor systems and VLSI processor arrays, and software fault tolerance techniques such as recovery blocks, N-version programming, checkpointing, and recovery; survey of practical fault-tolerant systems. Same as CS 536. Prerequisite: ECE 411.

ECE 543 Statistical Learning Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/543)
Advanced graduate course on modern probabilistic theory of adaptive and learning systems. The following topics will be covered: basics of statistical decision theory; concentration inequalities; supervised and unsupervised learning; empirical risk minimization; complexity-regularized estimation; generalization bounds for learning algorithms; VC dimension and Rademacher complexities; minimax lower bounds; online learning and optimization. Along with the general theory, the course will discuss applications of statistical learning theory to signal processing, information theory, and adaptive control. Basic prerequisites include probability and random processes, calculus, and linear algebra. Other necessary material and background will be introduced as needed. 4 graduate hours. No professional credit. Prerequisite: ECE 534 or equivalent.
ECE 544  Topics in Signal Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/544)
Lectures and discussions related to advanced topics and new areas of interest in signal processing: speech, image, and multidimensional processing. May be repeated 8 hours in a term to a total of 20 hours. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the ECE department. Prerequisite: As specified each term. It is expected that each offering will have a 500-level course as prerequisite or co-requisite.

ECE 545  Advanced Physical Acoustics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/545)
Advanced topics in acoustics including physical properties of a fluid; linear propagation phenomena; nonlinear phenomena such as radiation force, streaming, and harmonic generation; cavitation; absorption and dispersion. Prerequisite: One of ECE 473, ECE 520, TAM 518.

ECE 546  Advanced Signal Integrity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/546)
Signal integrity aspects involved in the design of high-speed computers and high-frequency circuits; addressing the functions of limitations of interconnects for system-level integration. Topics explored include packaging structures, power and signal distribution, power level fluctuations, skin effect, parasitics, noise, packaging hierarch, multilayer wiring structures as well as the modeling and simulation of interconnects through the use of computer-aided design (CAD) and computational electromagnetics. Prerequisite: ECE 520.

ECE 547  Topics in Image Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/547)
Fundamental concepts, techniques, and directions of research in image processing: two-dimensional Fourier transform and filtering, image digitization, coding, restoration, reconstruction, analysis, and recognition. Same as ECE 543. Prerequisite: ECE 310 and ECE 313.

ECE 548  Models of Cognitive Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/548)
Same as CS 548. See CS 548.

ECE 549  Computer Vision  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/549)
Information processing approaches to computer vision, algorithms, and architectures for artificial intelligence and robotics systems capable of vision: inference of three-dimensional properties of a scene from its images, such as distance, orientation, motion, size and shape, acquisition, and representation of spatial information for navigation and manipulation in robotics. Same as CS 543. Prerequisite: ECE 448 or CS 225.

ECE 550  Advanced Robotic Planning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/550)
Computational approaches to robot motion planning, configuration space, algebraic decompositions, artificial potential fields, retraction, approximate decompositions, planning under uncertainty, grasp planning, and task-level planning. Same as AE 583. Prerequisite: ECE 470.

ECE 551  Digital Signal Processing II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/551)
Basic concept review of digital signals and systems; computer-aided digital filter design, quantization effects, decimation and interpolation, and fast algorithms for convolution and the DFT; introduction to adaptive signal processing. Prerequisite: ECE 310 and ECE 313.
ECE 560  VLSI in DSP & Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/560)
Basic concepts in digital signal processing, VLSI design methodologies, VLSI DSP building blocks; algorithm transformation and mapping techniques, high-speed, low-power transforms, applications to digital filtering; basics of finite-field arithmetic, forward-error correction algorithms, and architectures; DSP implementation platforms, programmable DSPs, media processors, FPGAs, ASICs, case studies of multimedia communications systems, video codecs, xDSL, and cable modems. Homework and a term project apply these concepts in the design of VLSI architectures for digital signal processing and communication systems. Prerequisite: ECE 310.

ECE 561  Detection & Estimation Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/561)
Detection and estimation theory, with applications to communication, control, and radar systems; decision-theory concepts and optimum-receiver principles; detection of random signals in noise, coherent and noncoherent detection; parameter estimation, linear and nonlinear estimation, and filtering. Prerequisite: ECE 534.

ECE 562  Advanced Digital Communication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/562)
Digital communication systems modulation, demodulation, signal space methods, channel models, bit error rate, spectral occupancy, synchronization, equalization, trellis-coded modulation, wireless channels, multiantenna systems, spread spectrum, and orthogonal frequency modulation. Prerequisite: ECE 361 or ECE 459.

ECE 563  Information Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/563)
Mathematical models for channels and sources; entropy, information, data compression, channel capacity, Shannon's theorems, and rate-distortion theory. Prerequisite: One of ECE 534, MATH 464, MATH 564.

ECE 564  Modern Light Microscopy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/564)
Current research topics in modern light microscopy: optics principles (statistical optics, Gaussian optics, elastic light scattering, dynamic light scattering); traditional microscopy (bright field, dark field, DIC, phase contrast, confocal, epi-fluorescence, confocal fluorescence); current research topics (multiphoton, CARS, STED, FRET, FIONA, STORM, PALM, quantitative phase). Prerequisite: One of ECE 460, MSE 405, PHYS 402.

ECE 565  Energy Dissipation Electronics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/565)
Power dissipation in modern electronics, from fundamentals to system-level issues. Energy transfer through electrons and phonons, mobility and thermal conductivity, power dissipation in modern devices (CMOS, memory, nanowires, nanotubes), circuit leakage, thermal breakdown, interconnects, thermometry, heat sinks. Handouts are supplemented with papers from the research literature, Wikipedia assignments, a final conference-type group paper, and oral presentations required. Prerequisite: ECE 441.

ECE 566  Computational Inference and Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/566)
Computational inference and machine learning have seen a surge of interest in the last 15 years, motivated by applications as diverse as computer vision, speech recognition, analysis of networks and distributed systems, big-data analytics, large-scale computer simulations, and indexing and searching of very large databases. This course introduces the mathematical and computational methods that enable such applications. Topics include computational methods for statistical inference, sparsity analysis, approximate inference and search, and fast optimization. 4 graduate hours. No professional credit. Prerequisite: ECE 490, ECE 534.

ECE 567  Communication Network Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/567)
Performance analysis and design of multiple-user communication systems; emphasis on rigorous formulation and analytical and computational methods; includes queuing networks, decentralized minimum delay routing, and dynamic network flow control. Prerequisite: CS 438, one of ECE 534, MATH 464, MATH 564.

ECE 568  Model & Cntrl Electromech Syst  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/568)
Fundamental electrical and mechanical laws for derivation of machine models; simplifying transformations of variables in electrical machines; power electronics for motor control; time-scale separation; feedback linearization and nonlinear control as applied to electrical machines. Typical electromechanical applications in actuators, robotics, and variable speed drives. Prerequisite: ECE 431 and ECE 515.

ECE 569  Inverse Problems in Optics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/569)
Physical optics, solution of linear inverse problems, and computed imaging. Forward problems in diffraction, asymptotics, ray propagation, x-ray projections, scattering, sources, optical coherence tomography, and near-field optics. Solution of associated inverse problems including back-propagation, back-projection, Radon transforms (x-ray CT), inverse scattering, source localization, interferometric synthetic aperture microscopy, and near-field tomography. Special topics as time permits. Prerequisite: ECE 460.

ECE 570  Nonlinear Optics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/570)
Light propagation in anisotropic crystals; second- and third-order nonlinear susceptibility and electro-optic effect; discussion of the relationship of these effects along with such applications as light modulation, harmonic generation, and optical parametric amplification and oscillation. Prerequisite: ECE 520.

ECE 571  EM Waves in Inhomogen Media  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/571)
Electromagnetic waves in layered media; plane wave expansion of electromagnetic point source field; Sommerfeld integrals; transient response; WKB method with asymptotic matching; scattering by junction discontinuity; surface integral equation; volume integral equation; inverse problems. Prerequisite: MATH 446; ECE 520 or PHYS 505.

ECE 572  Quantum Opto-Electronics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/572)
Theoretical approach to quantum mechanics and atomic physics, with many applications in spin resonance and modern maser theory. Prerequisite: PHYS 485 recommended.
ECE 573  Power System Control  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/573))
Energy control center functions, state estimation and steady state security assessment techniques, economic dispatch, optimal power flow, automatic generation control, and dynamic equivalents. Prerequisite: ECE 476; credit or concurrent registration in ECE 530.

ECE 574  Nanophotonics  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/574))
Nanoscale interaction between light and semiconductors, metals, or composites; plasmonics, cavity electrodynamics, polarization cavity condensation, sub-wavelength structures, metamaterials, and applications. Prerequisite: ECE 455 or ECE 572; ECE 487 or PHYS 486.

ECE 576  Power System Dynm & Stability  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/576))
Detailed modeling of the synchronous machine and its controls, such as excitation system and turbine-governor dynamics; time-scales and reduced order models; non-linear and linear multi-machine models; stability analysis using energy functions; power system stabilizers. Prerequisite: ECE 476; credit or concurrent registration in ECE 530.

ECE 577  Advanced Antenna Theory  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/577))
Selected topics from recent engineering literature on antennas supplemented by advanced topics in electromagnetic theory needed for comprehension; current techniques for analysis of wire, slot, horn, frequency independent, quasi-optical, and array antennas. Prerequisite: ECE 520.

ECE 579  Computational Complexity  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/579))
Same as CS 579. See CS 579.

ECE 580  Optimiz by Vector Space Methods  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/580))
Normed, Banach, and Hilbert spaces; applications of the projection theorem and the Hahn-Banach Theorem to problems of minimum norm, least squares estimation, mathematical programming, and optimal control; the Kuhn-Tucker Theorem and Pontryagin’s maximum principle; iterative methods. Prerequisite: MATH 415 or MATH 482; MATH 447.

ECE 581  Advanced Analog IC Design  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/581))
Advanced topics in modern analog IC design. Emphasis on CMOS building blocks and circuit techniques as a result of fabrication technology advancement. Noise in linear analog circuits; linear feedback theory and stability; harmonic distortion in weakly nonlinear circuits; switched-capacitor circuit technique and realization; Nyquist-rate and oversampled data converters. Extensive computer simulations required in both homework and final project. Prerequisite: ECE 310 and ECE 483.

ECE 582  Physical VLSI Design  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/582))
Basic physical design requirements for VLSI; performance-oriented formulation and optimization of chip partitioning, module placement and interconnection; optimized design and layout of on-chip modules; circuit extraction; high-speed VLSI circuits; yield and reliability analysis; advanced VLSI packaging and parametric testing. Prerequisite: ECE 425 or ECE 482.

ECE 583  Power System Control  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/583))
Power system control systems, state estimation and steady state security assessment techniques, economic dispatch, optimal power flow, automatic generation control, and dynamic equivalents. Prerequisite: ECE 476; credit or concurrent registration in ECE 530.

ECE 584  Embedded System Verification  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/584))
Examines formal analysis an synthesis approaches for discrete, continuous, and hybrid models of computing systems and their physical environment. Introduces timed and hybrid automata models. Analysis techniques including model checking, Hoare-style deduction, and abstractions for safety and stability, and controller synthesis strategies with applications in distributed robotics, automobile system, traffic control, and real-time systems. Same as CS 584. 4 graduate hours. No professional credit. Prerequisite: CS 476 or CS 477.

ECE 585  MOS Device Modeling & Design  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/585))
Techniques for characterizing gate oxide and interface properties and reliability, I-V models for circuit simulation, design for control of short channel effects, silicon-on-insulator, and new device structures. Prerequisite: ECE 441.

ECE 586  Topics in Decision and Control  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/586))
Lectures and discussions related to advanced topics and new areas of interest in decision and control theory: hybrid, sampled-data, and fault tolerant systems; control over networks; vision-based control; system estimation and identification; dynamic games. May be repeated up to 12 hours within a term, and up to 20 hours total for the course. Credit towards a degree from multiple offerings of this course is not given if those offerings have significant overlap, as determined by the ECE department. Prerequisite: As specified each term. It is expected that each offering will have a 500-level course as prerequisite or co-requisite.

ECE 588  Electricity Resource Planning  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/588))
Techniques in electricity resource planning including methodologies for reliability evaluation and assessment, production costing, marginal cost, supply-side and demand-side planning, integrated planning, and planning under competition. Prerequisite: MATH 415, ECE 313, and ECE 476.

ECE 590  Grad Sem in Special Topics  credit: 0 to 2 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/590))
Topics in electrical engineering. Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.

ECE 594  Math Models of Language  credit: 3 or 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/594))
Mathematical models of linguistic structure and their implementation in computational algorithms used in automatic speech understanding and speech synthesis. Statistical and automata-theoretic techniques are studied allowing a quantitative description of acoustic-phonetics, phonology, phonotactics, lexicons, syntax, and semantics. The methods are used to build components of a speech understanding system. For 4 hours credit, an extended project is required. Prerequisite: ECE 537.

ECE 596  Master's Project  credit: 1 to 8 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/596))
Individual or team projects in electrical and computer engineering emphasizing advanced engineering analysis and design. May be repeated to a maximum of 16 hours.

ECE 597  Individual Study in ECE  credit: 1 to 8 Hours. ([link](https://courses.illinois.edu/schedule/terms/ECE/597))
Individual projects. Approved written application to department as specified by department or instructor is required. May be repeated. Prerequisite: Consent of instructor.
ECE 598  Special Topics in ECE  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ECE/598)
Subject offerings of new and developing areas of knowledge in electrical and computer engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

ECE 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ECE/599)
Approved for S/U grading only. May be repeated.

Engineering (ENG)

ENG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENG)

Courses

ENG 100  Engineering Orientation  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/100)
Orientation required of new freshmen in the College of Engineering. Approved for S/U grading only.

ENG 101  Engineering at Illinois  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/101)
Introduction to undergraduate programs of study available in the College of Engineering and the potential careers of graduates of those programs. Intended for Division of General Studies students who may be interested in becoming an Engineering major or other students who wish to explore engineering careers. Approved for S/U grading only.

ENG 191  International Dimens of Engrg  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/191)
Global views of the engineering profession presented by guest speakers. Key factors for success in global engineering practice, including industrial values, economics, politics, language, cultural values, and social trends. Development of individual plans to engage in international education to enhance career preparation.

ENG 198  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/198)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 200  Engineering Orientation  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/200)
Orientation required of off-campus transfer students in the College of Engineering. Approved for S/U grading only.

ENG 201  Cooperative Engrg Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/201)
Discussion seminar addressing insights students have gained during co-op experiences. Presentations by co-op participants and discussion of presentation skills. Approved for S/U grading only. For on-campus Cooperative Education students only.

ENG 202  Cooperative Engrg Practice  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/202)
Full-time practice of engineering in an off-campus government, industrial or research laboratory environment. Written work report, on-line Experiential Learning Report, and on-line ABET report required. Approved for S/U grading only. May be repeated. Approval of the Director of College of Engineering Experiential Learning Programs required to enroll. For Cooperative Education students only.

ENG 210  Engineering Apprenticeship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/210)
Part-time practice of engineering science in an on-campus research laboratory environment; summary report required. Approved for both letter and S/U grading. May be repeated.

ENG 261  Technology & Mgmt Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/261)
Same as BADM 261. See BADM 261.

ENG 298  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/298)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 299  Engineering Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/ENG/299)
Illinois credit placeholder for foreign study and mechanism to maintain continuous Illinois enrollment while studying abroad. A detailed proposal must be submitted by the student for approval by the student's department and the college office prior to such study abroad. Final determination of credit and its application toward the degree is made by the college office after a review of the student's work abroad. (Summer Session, 0 to 6 hours).

ENG 300  Engrg Transfer Orientation  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/300)
Orientation required of off-campus transfer students in the College of Engineering. Approved for S/U grading only.

ENG 310  Engineering Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/310)
Engineering Internship is for engineering undergraduate students who are completing full-time or part-time internship or co-op that is related to their major field of study and an integral or important part of their program of study. Students participating in research-based projects should contact the Office of Undergraduate Research in Engineering to identify an appropriate course. Approved for S/U grading only. May be repeated in separate terms.

ENG 315  Learning in Community  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENG/315)
Service-learning dedicated to benefiting nonprofit organizations. Learning through inquiry, acquisition of skills and knowledge to address projects, and development of project and team skills. Student teams work on a project of importance proposed by and in partnership with each organization. Projects vary by term. See Class Schedule. May be repeated in the same term to a maximum of 6 hours. May be repeated in separate terms to a maximum of 12 hours.

ENG 397  Undergraduate Research Abroad  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/397)
Research completed under faculty supervision at a location outside of the United States. Topics and type of assistance vary. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Consent of instructor; Department and college approval of research plan submitted prior to enrollment. Not available to freshman.
ENG 398 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/398)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for both letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 440 International Water Project I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENG/440)
First of two courses that assists an international rural community in establishing a sustainable water system. Serve a developing community effectively by working closely with alumni mentors and professional advisors on conceptual design development. Have the opportunity to travel to Honduras during Winter Break. Open to students in all majors. Same as LAST 440. 3 undergraduate hours. No graduate credit.

ENG 441 International Water Project II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENG/441)
Second of two courses that assists an international rural community in establishing a holistic water system. Complete final engineering designs, project funding documents and governance guidance by working closely with alumni mentors and professional advisors. Open to students in all majors. Same as LAST 441. 3 undergraduate hours. No graduate credit. Prerequisite: ENG 440 or instructor approval.

ENG 451 Success in the Workplace  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ENG/451)
Guided experiential learning that facilitates the development of professional skills for students participating in career-related internships. Basic business skills such as reading a financial statement and annual report, understanding contracts, and understanding corporate strategy. Interpersonal skills necessary to succeed in industry such as networking, leadership, and communication. 2 undergraduate hours. No graduate credit.

ENG 471 Seminar Energy & Sustain Engrg  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ENG/471)
Challenges of developing energy systems and civil infrastructure that are sustainable in terms of resource availability, security, and environmental impact. Guest lecturers focus on: (i) global challenges – future energy demand, geologic sources of energy, climate change, energy-water nexus, energy and security; (ii) markets, policies and systems – economic incentives, policy and law, life cycle analyses; (iii) opportunities for change – CO2 sequestration, renewable power, bioenergy feedstocks, biofuels for transportation, energy use in buildings, advanced power conversion, the smart grid. 1 undergraduate hour. 1 graduate hour. Prerequisite: MATH 220 or MATH 221; one of CHEM 104, CHEM 204, PHYS 101, PHYS 211. Recommended: NPRE 201.

ENG 491 Interdisciplinary Design Proj  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/491)
Disciplined, multi-department, team-structured project design experience with an overall (or major phase) end-of-term completion date. Projects involve design specification through a proposal, analyses of cost and other tradeoffs among alternative designs, design review, fabrication and assembly, functional and environmental testing, and demonstrations (as applicable). Reports and presentations at the end of each term. Individual engineering activities as well as team responsibilities. 1 to 4 undergraduate hours. No graduate credit. Senior standing required. May be repeated. Credit toward the degree is determined by the student’s major department. Prerequisite: Consent of instructor.

ENG 498 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/498)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated in the same or separate terms if topics vary.

ENG 510 Engineering Practice  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ENG/510)
Engineering Practice is for engineering graduate students who are completing curricular practical training, either full-time or part-time, that is related to their major field of study and an integral or important part of their program of study. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

ENG 571 Theory Energy & Sustain Engrg  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/571)
Mathematical, scientific, engineering, and economic bases needed to analyze sustainable energy systems and civil infrastructure. Evaluation of current practice and future development of (i) energy extraction and conversion processes from geological, biological, and non-biological resources; (ii) energy usage for transportation, in residential and commercial buildings, and by industry. 3 or 4 graduate hours. No professional credit. Prerequisite: Credit or concurrent registration in ENG 471.

ENG 572 Professional Practicum  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/ENG/572)
Internship or equivalent experience as it relates to the student's field of study. Student will complete a comprehensive written report, develop a website, and/or give an oral presentation that relates to his/her internship experience. 1 to 8 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 hours.

ENG 573 Capstone Project  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/ENG/573)
Design project pertinent to student's field of study. Student will complete a comprehensive written report, develop a website, and/or give an oral presentation that relates to his/her project. 1 to 8 graduate hours. No professional credit. May be repeated in separate terms to a maximum of 8 hours.

ENG 591 Engineering Advanced Seminar  credit: 0 or 1 Hours. (https://courses.illinois.edu/schedule/terms/ENG/591)
Seminar on topics of current interest as announced in the Class Schedule. 0 or 1 graduate hours. No professional credit. Approved for S/U grading only. May be repeated if topics vary. Prerequisite: As specified for each topic offering, see Class Schedule for course description.

ENG 598 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENG/598)
Subject offerings of new and developing areas of knowledge in engineering intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

Engineering Honors (ENGH)

ENGH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENGH)
Courses

ENGH 195 Honors Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGH/195)
Special lecture sequences or discussion groups for freshman James Scholars to enable them to explore various aspects of technology.

ENGH 397 Honors Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGH/397)
Individual investigations of any phase of engineering selected by James Scholars in engineering and approved by the Engineering Academic Affairs Office. May be repeated. Prerequisite: Consent of instructor.

English (ENGL)

ENGL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENGL)

Courses

ENGL 101 Intro to Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/101)
Close reading and analysis of poetry and other literary texts. Introduction to argumentative strategies for writing about poetry. Addresses prosody, poetic language (diction, metaphor, image, tone), and major verse forms (the sonnet, elegy, ode, ballad, dramatic monologue, free verse). Students also study poems from a range of literary periods and movements to learn how formal qualities change and develop over time and are relevant to everyday life.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 102 Intro to Drama  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/102)
Explores such topics as the history of dramatic form, the major dramatic genres, the dramatic traditions of various cultures, and key terms used in the analysis of dramatic works. Reading plays from the ancient Greeks to the contemporary theatre, students will be taught skills in close reading and literary interpretation. Students will consider the importance of performance, considering how meanings might be represented through visual and aural means.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 103 Intro to Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/103)
An introduction to the study of literature and literary history at the university level. Explores such topics as: the historical role and place of fictional narratives, the idea of genre, relationships between context and meaning in fictional works. Student will develop a critical vocabulary for interpreting and analyzing narrative strategies. Credit is not given for both ENGL 103 and ENGL 109.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 104 Intro to Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/104)
Thoughtful viewing of diverse films (in required weekly screenings), along with ample discussion and critical reading and writing, to gain understanding of cinematic expression and of film's capacity to entertain and to exert artistic and social influence. Same as MACS 104.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 106 Literature and Experience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/106)
Understanding of the relationship between literature and human experience through the study of significant, recurrent themes. May be repeated one time if topics vary.

ENGL 109 Intro to Fiction-ACP  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/109)
Introduction to critical analysis of prose fiction. Explores a wide range of short and long fiction across historical periods; examines narrative strategies such as plot, character, and point of view. Special emphasis placed on good literary critical writing. Course is similar to ENGL 103 except for the additional writing component. Credit is not given for both ENGL 109 and ENGL 103. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for: Advanced Composition Humanities - Lit Arts

ENGL 110 Intro Lit Study for Non-Majors  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/110)
Introduction to literary genres and literary interpretation, with an emphasis on close reading. For non-majors only.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 112 Literature of Global Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/112)
Through literature and films, studies the impact of historical change on individuals and on cultures, the breakdown of borders, the building of new hierarchies of domination and exploitation, the contact and collision between the local and the global, and the transnational and problematic processes of cultural globalization. Same as CWL 112.

ENGL 114 Bible as Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/114)
Same as CWL 111 and REL 101. See REL 101.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 115 Intro to British Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/115)
Acquaints students with the rich diversity of British prose, poetry, and drama. As a basic introduction to English literature, the course explores a series of literary texts, often thematically related, which appeal to modern readers and at the same time provide interesting insights into the cultural attitudes and values of the periods which produced them.
This course satisfies the General Education Criteria for: Humanities - Lit Arts Cultural Studies - Western

ENGL 116 Introduction to American Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/116)
American literature speaks in distinctive dialects that pre-date the arrival of European explorers in the Renaissance, range across centuries and continents, and intermingle a rich variety of racial, ethnic, and gendered perspectives. Genres examined in this course might include lyric poems, dystopian novels, horror stories, seduction narratives, slave narratives, political speeches, or postmodern plays. Writers studied might include Walt Whitman, Columbus, Jane Johnston Schoolcraft, Herman Melville, Edgar Allan Poe, Junot Díaz, Harriet Beecher Stowe, David Foster Wallace, Martin Luther King, and Lin-Manuel Miranda.
This course satisfies the General Education Criteria for: Humanities - Lit Arts Cultural Studies - Western
ENGL 117  Shakespeare on Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/117)
Explores the ongoing reinterpretation and appropriation of Shakespeare plays in twentieth- and twenty-first century film. Expect to read around five plays and analyze two productions of each play, and to consider how Shakespeare can be transformed to meet different cultural and contextual demands of the screen. Lecture and discussion. Same as MACS 117.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 119  Literature of Fantasy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/119)
Introduction to the rich traditions of fantasy writing in world literature. While the commercial category of fantasy post-Tolkien will often be the focal point, individual instructors may choose to focus on alternate definitions of the genre: literatures of the fantastic, the uncanny, and the weird; fantasy before the Enlightenment and the advent of realism; fantasy for young adult or child readers; and so on. Same as CWL 119.

ENGL 121  Introduction to Comics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/121)
Introduction to graphic narratives—comic books, comic strips, graphic novels, manga, webcomics, and so on—from a diverse panoply of cultural, formal, and historical traditions.

ENGL 122  Swords, Sorcery & Sex: The Middle Ages in Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/122)
Explores the use of medievalism in contemporary popular culture. Instructors may draw from film, television, music, fiction, graphic novels, gaming, and other sources, and they approach the material from a variety of cultural, historical, and aesthetic traditions. The goal of the course will be to understand how the medieval periods of world cultures have been reinvented in modern times, and how modernity has been constructed in relation and in opposition to the medieval imaginary. Same as MDVL 122.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 150  Black Literature in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/150)
Same as AFRO 105. See AFRO 105.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 198  Freshman Honors Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/198)
Introduction to the study of literature, with emphasis on individual work in fundamental problems of literary analysis; works studied are usually a combination either of short poems and short stories or of novels and plays. May be repeated one time if topics vary. Prerequisite: James Scholar standing or other designation as a superior student.

ENGL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/199)
Topics course that varies each semester and by section. The topics offered each semester will be listed in the Class Schedule. Approved for letter and S/U grading. May be repeated.

ENGL 200  Intro to the Study of Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/200)
Introduction to the study of literature, with an emphasis on interpretive theories and methods as well as the formal distinctions between the major literary genres. For majors only.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 202  Medieval Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/202)
Introduction to the diverse literatures and cultures of the global Middle Ages (Approx. 500-1500 CE). Students will read works by medieval authors in Modern English translation, with particular attention to placing works in their historical and material contexts. Same as CWL 253 and MDVL 201. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 204  Renaissance Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/204)
Readings in English and continental literary masterpieces with attention to significant cultural influences. Same as CWL 255. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 206  Enlightenment Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/206)
Study in Anglophone and global texts from the period 1600 to 1800, with attention to cultural and historical contexts. Same as CWL 257. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 207  Romantic Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/207)
Study of literature, philosophy, visual arts, and social criticism of the British Romantic period, with attention to broader cultural issues. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western
ENGL 208  Victorian Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/208)
Study of literature, philosophy, visual arts, and social criticism of the British Victorian period, with attention to broader cultural issues. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 209  British Lit to 1800  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/209)
Historical and critical study of selected works of British literature to 1800 in chronological sequence. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 210  British Lit 1800 to Present  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/210)
Historical and critical study of selected works of British literature after 1800 in chronological sequence. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 211  Intro to Mod African Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/211)
Same as AFST 210 and CWL 210. See AFST 210. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Non-West

ENGL 213  Modernist Lit and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/213)
Study of literature, philosophy, visual and performing arts, social criticism, and popular sciences of the Anglo-American Modern period (1880-1920), with attention to broad cultural issues. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 216  Legends of King Arthur  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/216)
Arthurian myth and legend is one of the most enduring literary traditions of Western Europe, and the characters of Arthur, Merlin, Guinevere, Lancelot, Gawain and Mordred were as popular in the Middle Ages as they are today. Originating in early medieval Wales, the legends traveled through England to France and Germany and throughout the modern world. Students will study the development of the Arthurian tradition in chronicles, poetry, romances, lais, and fabliaux, comparing variations across cultural and historical boundaries. Same as CWL 216 and MDVL 216. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 218  Introduction to Shakespeare  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/218)
Representative readings of Shakespeare's drama and poetry in the context of his age, with emphasis on major plays; selections vary from section to section. Does not fulfill Shakespeare requirement for the English major. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 219  Literature and Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/219)
Introduction to the interchange between the medical and literary imaginations - how diseases, bodies, and minds get written about and represented culturally. The premise of the course is that ideas and experiences concerning our health are always mediated through the literature we read, the films we watch, and the stories we tell our doctors and that they tell us. Our focus will be on how literature and film have played and continue to play a crucial role in understanding health on local, national, and global scales.

ENGL 220  Literature and Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/220)
Explores the mutual influences of science and literature in some key literary and non-literary texts. Covers scientific texts, literary works, and cultural theory to explore how and why scientific knowledge is intimately linked to literature. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 221  Speculative Futures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/221)
Introduces majors and non-majors to several important conversations arising from the expansive genre of speculative fiction. In this course students will explore some of the most profound, disturbing, and downright bizarre imaginings of the future that human beings have generated. Climate change, ageing, fascist regimes, reproductive rights, technological failures, scientific advancements, and apocalypse are just a few of the possible topics for this class. Course materials will be drawn from literary works, contemporary and historical scientific developments, and cultural theory to explore how and why speculative futures are linked to specific cultural contexts, technologies, and social schemes.

ENGL 222  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/222)
Same as CWL 209 and JS 209. See JS 209. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 223  Jewish Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/223)
Same as CWL 221, JS 220, REL 220, and YDSH 220. See YDSH 220. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 224  Latina/o Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/224)
Same as LLS 240 and SPAN 240. See LLS 240. This course satisfies the General Education Criteria for: Cultural Studies - US Minority
ENGL 225  Intro to Latina/o Literature  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/225](https://courses.illinois.edu/schedule/terms/ENGL/225))
Same as LLS 242 and SPAN 242. See LLS 242.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - US Minority

ENGL 241  Beginnings of Modern Poetry  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/241](https://courses.illinois.edu/schedule/terms/ENGL/241))
An inquiry into some of the more complex and innovative poetry written in English. Students will read poets such as Frost, Robinson, Sandburg, Lindsay, Hardy, Hopkins, Housman, Yeats, Lawrence, the Imagists, and the early Pound and Eliot. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Cultural Studies - Western

ENGL 242  Poetry Since 1940  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/242](https://courses.illinois.edu/schedule/terms/ENGL/242))
An exploration of English-language poetry written since World War II. Students study some or all of the following major poetic movements of the period: the Beats, the New York School, the Black Mountain poets, the Confessional school, the Deep Image poets, the British "movement" and post-"Movement" poets, the Black Arts movement, Feminist poets, Post-colonial poetry, Language poets, and the current multifarious poetry scene. Prerequisite: Completion of the Composition I requirement.

ENGL 243  Modern Drama I  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/243](https://courses.illinois.edu/schedule/terms/ENGL/243))
Ibsen to O'Neill. Same as CWL 265. Prerequisite: Completion of the Composition I requirement.

ENGL 244  Modern Drama II  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/244](https://courses.illinois.edu/schedule/terms/ENGL/244))
Pirandello to the present. Same as CWL 266. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 245  The Short Story  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/245](https://courses.illinois.edu/schedule/terms/ENGL/245))
Historical and critical study of the short story (American and European) from the early nineteenth century to the present. Same as CWL 267. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 247  The British Novel  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/247](https://courses.illinois.edu/schedule/terms/ENGL/247))
A study of some of the more noteworthy and influential writers of the last two hundred and fifty years. The course traces the development of the novel as a genre that both celebrated and critiqued Britain and British nationalism. Examines how the novel has been important culturally over time. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

ENGL 248  British, American, and Continental Fiction  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/248](https://courses.illinois.edu/schedule/terms/ENGL/248))
Same as CWL 269. See CWL 269.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 250  Nineteenth-Century American Fiction  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/250](https://courses.illinois.edu/schedule/terms/ENGL/250))
Nineteenth-century fiction gave us some of the most iconic images in American culture—the scarlet letter, the white whale—and some of the most captivating works about American life and society. This course will explore how fictional texts articulated the problems of nineteenth-century democracy, including the crises over slavery leading to the Civil War, and the rise of large-scale capitalism and urban modernity later in the century. We will look at such literary movements as sentimentalism, sensationalism, realism, and naturalism, among others. Writers studied might include Herman Melville, Edith Wharton, Nathaniel Hawthorne, Harriet Beecher Stowe, Henry James, Charles Chesnutt, Mark Twain, Pauline Hopkins, Catharine Maria Sedgwick, and many others. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

ENGL 251  The American Novel Since 1914  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/251](https://courses.illinois.edu/schedule/terms/ENGL/251))
Critical study of selected American novels from 1914 to the present. Prerequisite: Completion of the Composition I requirement.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

ENGL 253  Topics in Lit and New Media  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/253](https://courses.illinois.edu/schedule/terms/ENGL/253))
Introduction to the role technological invention has played in history of print media and how literary aesthetics are changing with the advent of new media, such as software, video games, and graphic novels. We will consider material formats, genres, and modes of production along with the cultural, political, and societal implications of different forms and formats. May be repeated in separate terms up to 6 hours. This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

ENGL 255  Early American Literature  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/255](https://courses.illinois.edu/schedule/terms/ENGL/255))
This large-scale survey course offers students background in a wide range of genres, authors, and texts, focusing on "early American literature," which ranges from pre-Columbian indigenous narratives to nineteenth century novels, poems, and plays. The material studied ranges across multiple centuries and continents, and includes a wide variety of racial, ethnic, and gendered perspectives. Writers may include Christopher Columbus, Anne Bradstreet, Benjamin Franklin, Phillis Wheatley, William Apess, Nathaniel Hawthorne, Edgar Allan Poe, Frederick Douglass, Henry David Thoreau, Herman Melville, Harriet Jacobs, Walt Whitman, and Emily Dickinson. Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

ENGL 256  Survey of American Lit II  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/256](https://courses.illinois.edu/schedule/terms/ENGL/256))
American literature and its cultural backgrounds after 1870. Prerequisite: Completion of the Composition I requirement and ENGL 200.
This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western
ENGL 259  Early African American Literature and Culture  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/259](https://courses.illinois.edu/schedule/terms/ENGL/259))
Historical and critical study of African-American literature in its social and cultural contexts from the beginning to 1915. Same as AFRO 259 and CWL 259. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

ENGL 260  Later African American Lit  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/260](https://courses.illinois.edu/schedule/terms/ENGL/260))
Historical and critical study of African American literature in its social and cultural context since 1915. Same as AFRO 260 and CWL 260. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

ENGL 261  Topics in Lit and Culture  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/261](https://courses.illinois.edu/schedule/terms/ENGL/261))
Introductory study of variety of topics in literature and culture, including those that bridge traditional historical periods, focus on themes or movements, and cross disciplinary boundaries. May be repeated up to 6 hours in same or separate terms if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 265  Intro to American Indian Lit  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/265](https://courses.illinois.edu/schedule/terms/ENGL/265))
Same as AIS 265. See AIS 265. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 266  Grimm's Fairy Tales in Context  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/266](https://courses.illinois.edu/schedule/terms/ENGL/266))
Same as CWL 254 and GER 251. See GER 251. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 267  Grimm's Fairy Tales - ACP  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/267](https://courses.illinois.edu/schedule/terms/ENGL/267))
Same as CWL 250 and GER 250. See GER 250. This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

ENGL 268  The Holocaust in Context - ACP  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/268](https://courses.illinois.edu/schedule/terms/ENGL/268))
Same as CWL 271 and GER 260. See GER 260. This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

ENGL 269  The Holocaust in Context  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/269](https://courses.illinois.edu/schedule/terms/ENGL/269))
Same as CWL 273, GER 261, and JS 261. See GER 261. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

ENGL 270  American Film Genres  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/270](https://courses.illinois.edu/schedule/terms/ENGL/270))
Introduction to the study of the dominant genres or types U.S. cinema. Examines the elements that constitute genres (such as visual and narrative patterns), the formation and reshaping of genres by filmmakers and the entertainment industry, the social and cultural factors that influence the genre cycles and subgenres, and the landmark works of each genre. The course treats several genres in historical perspective or focus on a single genre. May be repeated in separate terms up to 6 hours if topics vary. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 272  Minority Images in Amer Film  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/272](https://courses.illinois.edu/schedule/terms/ENGL/272))
Addresses how a range of films made in the United States have represented diverse ethnicities and cultures in relation to each other and to dominant American media conventions and social ideas. A comparative, case study approach examines racial and gender stereotyping, historical and economic factors, and reactions of various audiences to the films. Same as AFRO 272. Prerequisite: Fulfillment of the Composition I English requirement; sophomore standing or above. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 273  American Cinema Since 1950  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/273](https://courses.illinois.edu/schedule/terms/ENGL/273))
Explores key issues in American cinema from 1950 to the present, structured around central problems of film studies (such as authorship, genre, narratology, film style, gender analysis, and the spectacle of violence), contextualizing them within moments of major transition in the American film industry. Viewing and discussion of a major film each week. Same as MACS 273. Prerequisite: Completion of the Composition I requirement.

ENGL 274  Literature and Society  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/274](https://courses.illinois.edu/schedule/terms/ENGL/274))
Major literary works presented within the context of social issues of their time. May be repeated with the permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

ENGL 275  Am Indian and Indigenous Film  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/275](https://courses.illinois.edu/schedule/terms/ENGL/275))
Same as AIS 275 and MACS 275. See AIS 275. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 276  Asian Film Genres  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/ENGL/276](https://courses.illinois.edu/schedule/terms/ENGL/276))
Studies a variable selection of popular film genres produced and circulated in Asia (e.g., martial arts, horror, musicals, anime, melodramas, science fiction, monster movies, comedy) that have an impact across the region, with emphasis on East and Southeast Asia, and beyond. Takes a historical and transnational comparative approach to analyzing shifting narrative and visual and other cinematic realizations of each genre across different contexts, including Western reception and cross-cultural adaptations. Same as CWL 276 and EALC 276. This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Non-West
ENGL 277  Gender in Gaming  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/277)
Same as GWS 204 and MACS 204. See GWS 204.

ENGL 280  Women Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/280)
Study of British and American women authors. Same as GWS 280. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 281  Women in the Lit Imagination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/281)
Study of the way various writers, both male and female, have portrayed woman's image, social role, and psychologies in British, American, or Anglophone literature. Same as GWS 281. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: Completion of the Composition I requirement.

ENGL 283  Jewish Sacred Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/283)
Same as CWL 283 and REL 283. See REL 283. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 284  Modern Jewish Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/284)
Survey imaginative literature by Jewish authors from the Enlightenment to the present, including fiction, poetry, drama, and autobiography written in English or translated from other languages. Same as CWL 284 and REL 284. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 285  Postcolonial Lit in English  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/285)
Examination of selected postcolonial literature, theory, and film as texts that "write back" to dominant European representations of power, identity, gender and the Other. Postcolonial writers, critics and filmmakers studied may include Franz Fanon, Edward Said, Aime Cesaire, Ousmane Sembene, Chinua Achebe, Michelle Cliff, Mahesweta Devi, Buchi Emecheta, Derek Walcott and Marlene Nourbese-Philip. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ENGL 286  Asian American Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/286)
Introduction to Asian American literary studies and culture through the reading of major works of literature selected from but not limited to the following American ethnic subgroups: Chinese, Filipino, Japanese, Korean, Indian, Pakistani, and Vietnamese. Same as AAS 286. Prerequisite: Completion of the Composition I requirement. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 290  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/290)
Study of selected topics. Approved for both letter and S/U grading. May be repeated to a maximum of 6 hours. Students may register in more than one section per term. Prerequisite: Consent of instructor.

ENGL 293  The Anthropocene  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/293)
Focuses on the current historical period of humans' relative dominance over major Earth systems. Introduces students to debates surrounding the scientific basis for the Anthropocene, followed by a survey of its major historical periodizations, from the so-called "Paleo-Anthropocene" of human agriculture, to industrialization, to the post-1950 "Great Acceleration" in economic development and resource consumption whose consequences we now face in crisis phenomena such as climate change, water scarcity, resource wars, and environmental refugeeism. Same as ESE 293.

ENGL 300  Writing About Lit Text&Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/300)
Writing-intensive, variable topic course designed to improve English majors' ability to write clear, well-organized, analytically sound and persuasively argued essays relevant to literary studies. Introduces students to some strategies of literary criticism and research through examination of critical texts appropriate to course topic. For majors only. Prerequisite: Completion of the Composition I requirement; one year of college literature or consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

ENGL 301  CriticalApproaches to Lit&Text  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/301)
Introduction to influential critical methods and to the multiple frameworks for interpretation as illustrated by the intensive analysis of selected texts. For majors only. Prerequisite: Completion of the Composition I requirement and ENGL 200.

ENGL 310  Introduction to the Study of the English Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/310)
Topics in the study of the English language, with emphasis on one or more of the following: the social, political, historical, technological, legal, and economic aspects of language use. Credit is not given for both ENGL 311 and ENGL 310.

ENGL 311  History of the English Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/311)
Language variation and change from the earliest forms of English to the present day, with emphasis on the rise of Standard English and the social, geographic, and cultural aspects of linguistic change in English. Credit is not given for both ENGL 310 and ENGL 311.

ENGL 322  Dostoevsky  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/322)
Same as CWL 324 and RUSS 322. See RUSS 322.

ENGL 323  Tolstoy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/323)
Same as CWL 323 and RUSS 323. See RUSS 323.

ENGL 325  Topics in LGBT Lit & Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/325)
Explores topics on representations of non-heteronormative sexuality in canonical and recovered historical texts and in contemporary literature, on literature by LGBT authors, and on theories of sexuality that pertain to systems of textual and cultural meaning. May be repeated in separate terms to a maximum of 6 hours.
ENGL 330  Slavery and Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/330)
Explores slavery in the Americas through its representation in literature over time. Using a variety of disciplinary approaches, we will look at the enslaved, the enslavers, and the middle merchants who facilitated the slave trade, and will examine the experience of slavery and the economic, political, religious, and scientific justifications used to maintain it. We will also examine the African cultural traditions from which the slaves emerged and the aspects of it that lent to creation of the new U.S. culture. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

ENGL 333  Memoir & Autobiography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/333)
Same as GWS 333. See GWS 333.

ENGL 359  Lit Responses to the Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/359)
Same as CWL 320, JS 320, REL 320, and YDSH 320. See YDSH 320. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ENGL 360  Environmental Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/360)
Same as ESE 360. See ESE 360. This course satisfies the General Education Criteria for: Advanced Composition

ENGL 373  Special Topics in Film Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/373)
Extended investigation of major subjects and issues in cinema and other media; topics vary and typically include studies of author/directors, genres, historical movements, critical approaches, and themes. Same as MACS 373. May be repeated with permission of English advising office to a maximum of 6 hours if topics vary. Prerequisite: One college-level course in film studies or literature.

ENGL 374  World Cinema in English  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/374)
Course systematically addresses cinema movements and films of different periods, genres, themes and styles produced in one or two Anglophone countries other than the U.S. (e.g., Great Britain, Ireland, Australia, New Zealand, Canada, South Africa, and regions with Anglophone film movements or strands like South Asia and the Caribbean). Topics could include cinema in relation to relevant distinctive national and cultural histories, local audiences and production circumstances, and the challenges of international distribution in light of Hollywood's global dominance. Meets for 110 minutes twice a week, with some class time devoted to film screenings (not always on same day) and some longer feature films scheduled in required out-of-class screenings announced well in advance. May be repeated to a maximum of 6 credit hours in separate terms if topics vary.

ENGL 378  Fairy Tales & Gender Formation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/378)
Same as GWS 378. See GWS 378.

ENGL 380  Topics in Writing Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/380)
Advanced-level work in the field of Writing Studies. Building upon a traditional disciplinary understanding of writing as rhetoric, this course invites students to call upon sociological, anthropological, and/or ideological approaches to the study of writing in order to understand the myriad ways that writing makes meaning(s). See Class Schedule for topics. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Completion of the Composition I requirement.

ENGL 390  Advanced Individual Study  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/390)
Advanced study of selected topics. Approved for both letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

ENGL 391  Honors Individual Study  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/391)
Study of selected topics. Restricted to English and English education majors with a 3.33 average who are working towards the degree with distinction in English or in English education. May be repeated to a maximum of 6 hours. Prerequisite: Enroll in undergraduate advising office.

ENGL 396  Honors Seminar I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/396)
Themes, movements, and forms in British, American, and Anglophone literature. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department's Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 397  Honors Seminar II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/397)
Periods in British, American, and Anglophone literature. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department's Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 398  Honors Seminar III  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/398)
Major British, American, and Anglophone authors. Each seminar considers one or two major authors. May be repeated. Prerequisite: A 3.33 grade-point average or consent of the English Department's Director of Undergraduate Studies. Restricted to English and Rhetoric majors.

ENGL 402  Descriptive English Grammar  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/402)
An introduction to English linguistics with emphasis on the phonetic, syntactic, and semantic structures of English; language variation, standardization, and change; language legislation and linguistic rights; English as a world language; and the study of language in American schools. Same as BTW 402. 3 undergraduate hours. 4 graduate hours.

ENGL 404  Engl Grammar for ESL Teachers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/404)
Same as EIL 422. See EIL 422.

ENGL 407  Introduction to Old English  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/407)
Introduction to the form of English spoken and written prior to about AD 1100. Exploring concepts of cultural, historical, and linguistic change, students will learn to read Old English texts in the original. Readings include examples from the prose tradition (e.g., Bede's story of the poet Caedmon and the Anglo-Saxon Chronicle) as well as poetic texts (e.g., The Dream of the Rood and The Wanderer). Same as MDVL 407. 3 undergraduate hours. 4 graduate hours.
ENGL 411 Chaucer credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/411)
A selection of Chaucer’s major works read in Middle English. Instructors will usually emphasize either the Canterbury Tales or Troilus and Criseyde and the dream visions, but alternate combinations of texts are possible. Students will also be introduced to Chaucer's fourteenth-century context. Same as MDVL 411. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 412 Topics in Medieval Brit Lit credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/412)
Advanced topics course exploring the literatures of medieval Britain, especially Old and/or Middle English but with some attention to Celtic, French, Latin, and Norse texts in translation. Same as CWL 417 and MDVL 410. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 416 Topics in Brit Drama to 1660 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/416)
Advanced topics course devoted to dramatic practice in the medieval and/or early modern British Isles. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary; Graduate students may repeat if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 418 Shakespeare credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/418)
Survey of the plays and poems of William Shakespeare. Reading assignments will reflect the generic diversity and historical breadth of Shakespeare’s work. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 421 Later Renaiss Poetry & Prose credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/421)
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 423 Milton credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/423)
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 426 Early 18th Century Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/426)
British Literature between 1600—the restoration of Charles II to the throne—and 1740. Focus on the plays, poems, and fiction by male and female authors with particular attention to issues of gender relations, colonialism and imperial expansion, and class tensions. Writers covered may include Aphra Behn, Alexander Pope, Eliza Haywood, Jonathan Swift, John Dryden, the Earl of Rochester, Daniel Defoe, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 427 Later 18th Century Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/427)
Focused study of texts produced in Great Britain and its empire between roughly 1740 and 1790. Writers may include Laurence Sterne, Mary Leapor, Thomas Warton, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 428 British Drama 1660-1800 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/428)
Focused study of the major male and female playwrights who wrote between 1660 (the reopening of the theaters after the Interregnum) and roughly 1800. Particular attention will be devoted to the social, cultural, political, and economic contexts of theatrical performance, and to the major issues dealt with on the London stage: sexual morality, the role of women in a patriarchal society, and the problems of empire, trade, and colonialism. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 429 18th Century Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/429)
Focused study of British and Anglophone fiction in the eighteenth century. Authors may include Defoe, Swift, Haywood, Fielding, Richardson, Sterne, Burney, Walpole, Radcliffe, and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 431 Topics in British Romantic Lit credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/431)
Focused study of British literature between roughly 1785 and 1832. Authors may include Shelley, Godwin, Godwin, Coleridge, Keats, Byron, Austen and others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 434 Victorian Poetry & Prose credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/434)
Study of such major poets as Tennyson, Browning, Arnold, and Hardy; and of prose writers including Carlyle, Mill, Arnold, Pater, and Huxley. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 435 19th C British Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/435)
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 441 British Lit 1900-1930 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/441)
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 442 British Lit Since 1930 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/442)
3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 449 American Romanticism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/449)
Inspired by waves of radical thought and experimental writing that swept across Europe around 1800, Romanticism came late to America and stayed longer than it did across the Atlantic. This class examines the period known as “American Romanticism” (1820-1865), which saw the rise of a rich national literature even as the nation itself teetered on the edge of collapse, tested by economic panics, westward expansion, sprawling electoral politics, and fierce debates over the future of slavery. Writers appearing in this course might include Washington Irving, Frederick Douglass, Edgar Allan Poe, Ralph Waldo Emerson, Harriet Jacobs, Henry David Thoreau, Herman Melville, Fanny Fern, Harriet Beecher Stowe, Walt Whitman, and Emily Dickinson. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.
ENGL 450 Becoming Modern: American Literature, 1865-1914 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/450)
After the Civil War the United States entered a period of accelerating modernization and change. This course addresses how the nation's writers helped build modern America in response to a host of exciting and daunting developments in economics, science, and politics, including the enfranchisement of African Americans, Jim Crow segregation laws, growing income inequality, the rise of unions and anarchist movements, the invention of the automobile and the department store, new sciences such as including Darwinism and psychoanalysis, and American empire-building in places like Hawai'i and the Philippines. Writers studied might include Emily Dickinson, Mark Twain, Henry James, Booker T. Washington, W.E.B. DuBois, Zitkala-Sa, Stephen Crane, William Dean Howells, and Edith Wharton. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 451 American Literature in the Age of Modernism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/451)
American literature in the age of Modernism includes some of the most influential and provocative writing in the nation's history. American writers responded to a series of upheavals including changing gender and race relations, World War I, the "Roaring Twenties," and the Great Depression by pursuing both boundary-breaking themes and revolutionary experiments in form. Readings will include a generous selection from such writers as Ernest Hemingway, F. Scott Fitzgerald, Robert Frost, Willa Cather, Gertrude Stein, Wallace Stevens, William Carlos Williams, T. S. Eliot, Langston Hughes, Dorothy Parker, Anita Loos, William Faulkner, Nella Larsen, Zora Neale Hurston, Dashiel Hammett, D'Arcy McNickle, Carson McCullers, and many others. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 452 The Postwar Era and Contemporary American Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/452)
Examines American literature from the end of WWII to today, an era when U.S. society, politics, and culture came under pressure from such upheavals as the feminist movement, the Civil Rights movement, the Cold War, Vietnam, and the rise of neoliberalism—all of them occurring under the ever-present threat of nuclear annihilation. While writers struggled with the changes and dangers of a nation and world in such unprecedented flux, the poetry, plays, fiction, memoirs, and films they produced in response to this new precariousness forged a fertile artistic moment, in popular literature that sustained previous traditions (in realism, science fiction, children's literature, and romance) and in an avant-garde opposed to all forms of social and literary conformity. Writers studied might include Gwendolyn Brooks, Thomas Pynchon, Amiri Baraka, David Foster Wallace, Toni Morrison, Tony Kushner, Ursula K. Le Guin, and Alice Walker. 3 undergraduate hours. 4 graduate hours. Prerequisite: One year of college literature or consent of instructor.

ENGL 455 Major Authors credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/455)
Intensive study of the work of one or two major authors. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 458 Latina/o Performance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/458)
Same as LLS 458. See LLS 458.

ENGL 459 Topics in American Indian Lit credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/459)
Same as AIS 459. See AIS 459.

ENGL 460 Lit of American Minorities credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/460)
Advanced topics seminar exploring literary expressions of minority experience in America. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours. Graduate students may repeat as topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 461 Topics in Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/461)
Advanced seminar on any of a variety of literary topics. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 462 Topics in Modern Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/462)
Advanced seminar devoted to topics in British, American, and Anglophone fiction from approximately 1800 to the present day. Continental fiction in English translation may occasionally be considered. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 465 Topics in Drama credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/465)
Seminar covering advanced topics such as genre, performance context, period, or theme) in drama studies. Same as CWL 465. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 466 Multimedia Environmental Communications credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/466)
Same as ESE 467. See ESE 467.

ENGL 470 Modern African Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/470)
Same as AFST 410, CWL 410, and FR 410. See AFST 410.

ENGL 475 Lit and Other Disciplines credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/475)
Advanced seminar exploring the intersection of literary study and other scholarly disciplines. The disciplines students study vary each term, but past courses have examined connections between literature and psychology, forensic science, environmental studies, and the law. 3 undergraduate hours. 4 graduate hours. May be repeated with permission of English advising office to a maximum of 6 undergraduate hours if topics vary. May be repeated for graduate credit if topics vary. Prerequisite: One year of college literature or consent of instructor.

ENGL 537 Seminar Victorian Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/537)
May be repeated if topics vary. Prerequisite: A college course devoted entirely to an aspect of Victorian studies or consent of instructor.

ENGL 543 Seminar Mod British Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/543)
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of modern British studies or consent of instructor.

ENGL 547 Seminar Earlier American Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/547)
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American studies or consent of instructor.

ENGL 553 Seminar Later American Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/553)
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American studies or consent of instructor.

ENGL 559 Seminar Afro-American Lit credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/559)
May be repeated if topics vary. Prerequisite: One college course devoted entirely to an aspect of American literature or consent of instructor.

ENGL 563 Seminar Themes and Movements credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/563)
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 564 Seminar Lit Modes and Genres credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/564)
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 578 Seminar Lit & Other Disciplines credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/578)
May be repeated if topics vary. Prerequisite: One year of graduate study of literature or consent of instructor.

ENGL 581 Seminar Literary Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/581)
May be repeated if topics vary. Prerequisite: A college course devoted entirely to criticism or consent of instructor.

ENGL 582 Topics Research and Writing credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/582)
Focuses on the diverse research paradigms that are often employed in the study of writing processes. Topics will vary each term. Examines past and current writing research in the topic area with an emphasis on the critical examination of research designs and the influence of epistemologies on the interpretation of data. Same as CI 569. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 583 Topics Writ Pedagogy & Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/583)
Examines the relationships among writing studies, theories of pedagogy, and the practice of the writing teacher and administrator. Also focuses on particular problems or particular schools of thought. Typical topics include Writing Program Design and Administration; Writing, Thinking, and Problem Solving; The Classroom as a Research Site; Collaborative Learning; and Writing Across the Curriculum and Discourse Communities. Requirements will vary with instructors and topics. Same as CI 566. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 584 Topics Discourse and Writing credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/584)
Focuses on the modes of inquiry central to writing research. The course topic will vary each term and may address such issues as cognitive research and writing, ethnographic research and writing, and discourse analysis and writing. Same as CI 569. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in writing studies or consent of instructor.

ENGL 586 Topics in Digital Studies credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/586)
Inquiry into theory and research in one or more areas of digital scholarship, including new media studies, digital humanities, social media studies, and/or critical code studies. Same as CI 586. 4 graduate hours. No professional credit. May be repeated in separate terms up to 8 hours, if topics vary.

ENGL 591 Research in Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/591)
Independent study under the guidance of a member of the graduate faculty. May be repeated to a maximum of 8 hours.

ENGL 592 Masters Exam Tutorial credit: 6 or 12 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/592)
Reading for the Master’s Area Examination under the guidance of the candidate’s graduate adviser. May be repeated once for 12 hours or twice for 6 hours each. Credit may not be used toward a graduate degree.

ENGL 593 Prof Seminar College Tchg credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/593)
Approved for both letter and S/U grading. May be repeated by Ph.D. candidates as topics vary, but without credit, after 8 hours have been earned in this course. Students needing the proseminar for their programs will be given priority enrollment. Prerequisite: Graduate standing in the Department of English or consent of instructor.

ENGL 596 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ENGL/596)
Guidance in writing theses for doctoral degrees. Approved for S/U grading only. May be repeated up to a maximum of 16 hours. Prerequisite: Doctoral candidate standing.

English as a Second Language (ESL)

ESL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ESL)

Courses

ESL 109 Academic Conversation Skills for International Students credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/109)
Introduction for international students to improve academic English speaking skills in class discussions and informal conversations with colleagues and instructors. Topics include participating in small group discussions, advising sessions, and small talk with colleagues. We will discuss and practice American English norms for agreeing and disagreeing, making requests and suggestions, apologizing, complaining, and complimenting within an academic setting. Approved for S/U grading only. May be repeated in separate terms.
ESL 110  English Pronunciation & Oral Fluency  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/110](https://courses.illinois.edu/schedule/terms/ESL/110))

Designed to improve the international student’s ability to speak and understand English at normal conversational speed and to give the student the ability to continue improving pronunciation and oral fluency skills after the course is finished. Focus on the rhythm, stress, intonation, and sounds of natural speech and on fluency building strategies. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward an undergraduate degree. Prerequisite: Placement based on the speaking section score on the TOEFL or Placement based on English as a Second Language Placement Test (EPT) for undergraduate students without TOEFL or IELTS scores.

ESL 111  Intro to Academic Writing I  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/111](https://courses.illinois.edu/schedule/terms/ESL/111))

Introduction to the process of writing: fundamentals of paragraph development: analysis of rhetorical patterns: development of oral skills. This course is the first term of a two-term sequence (ESL 111-ESL 112) that fulfills the campus Composition I general education requirement. Credit is not given for both ESL 111 and ESL 115. Prerequisites: 111 placement result on the English Placement Test. This course satisfies the General Education Criteria for: Composition I

ESL 112  Intro to Academic Writing II  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/112](https://courses.illinois.edu/schedule/terms/ESL/112))

Continued instruction of the fundamentals of the multi-paragraph essay and introduction to research writing; instruction on basics of library research, synthesizing sources, and elements of style. This is the second term of a two-term sequence (ESL 111-ESL 112) that satisfies the campus Composition I general education requirement. Credit is not given for both ESL 112 and ESL 115. Prerequisite: Completion of ESL 111. This course satisfies the General Education Criteria for: Composition I

ESL 115  Principles of Academic Writing  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/115](https://courses.illinois.edu/schedule/terms/ESL/115))

Introduction to the research paper, including the writing process: pre-research, academic style and organization, and a variety of writing and skill-building tasks; development of peer and self-editing skills. ESL 115 fulfills the campus Composition I requirement for non-native speakers of English. Credit is not given for both ESL 115 and any other Comp I courses: RHET 101, RHET 102, RHET 103, RHET 104, RHET 105, CMN 111, CMN 112, ESL 111, ESL 112. Prerequisite: 115 placement result on the English Placement Test. This course satisfies the General Education Criteria for: Composition I

ESL 507  Adv Academic writing MATSEL  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/507](https://courses.illinois.edu/schedule/terms/ESL/507))

Focus on advanced academic writing in the field of Teaching English as a Second Language at the graduate level. Introduces rhetorical modes of writing in TESL, critical reading in the field and includes source-based writing, including critical reviews, proposals, and research reports. Approved for S/U grading only. Credit is not given for both ESL 507 and any of ESL 500, ESL 501, and ESL 502. Credit is not given toward a graduate degree.

ESL 508  Seminar for Intl TAs  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/508](https://courses.illinois.edu/schedule/terms/ESL/508))

Provides students with knowledge, resources and strategies to guide their ongoing development as international teaching assistants. Students analyze model teaching, receive feedback about their own strengths and weaknesses as a teaching assistant, and address key language or pedagogical concerns through a focused and customized term project. Approved for S/U grading only.

ESL 509  Academic Conversation Skills for International Students  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/509](https://courses.illinois.edu/schedule/terms/ESL/509))

Introduction for international students to improve academic English speaking skills in class discussions and informal conversations with colleagues and instructors. Topics include participating in small group discussions, advising sessions, and small talk with colleagues. We will discuss and practice American English norms for agreeing and disagreeing, making requests and suggestions, apologizing, complaining, and complimenting within an academic setting. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

ESL 510  English Pronunciation & Oral Fluency  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/510](https://courses.illinois.edu/schedule/terms/ESL/510))

Designed to improve the international student’s ability to speak and understand English at normal conversational speed and to give the student the ability to continue improving pronunciation and oral fluency skills after the course is finished. Focus on the rhythm, stress, intonation, and sounds of natural speech and on fluency building strategies. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward a graduate degree. Prerequisite: Placement based on English as a Second Language Placement Test (EPT) or the speaking section score on TOEFL or IELTS.

ESL 511  Written and Oral Communication  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/511](https://courses.illinois.edu/schedule/terms/ESL/511))

Instruction in foundational skills for academic communication; skills covered include summarizing and synthesizing sources, reading and evaluating scholarly articles, and delivering oral presentations for an academic audience. This course is the first term of a two-term sequence (ESL 511-ESL 512). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: Placement based on English as a Second Language Placement Test (EPT) or TOEFL or IELTS.

ESL 512  Introduction to Academic Writing  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/ESL/512](https://courses.illinois.edu/schedule/terms/ESL/512))

Instruction in writing secondary and primary research papers; skills covered include developing research questions and design, evaluating and synthesizing scholarly sources, producing well-reasoned and substantiated arguments, and writing research/project proposal. This course is the second term of a two-term course sequence (ESL 511-ESL 512). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 511. ESL students only.

Information listed in this catalog is current as of 07/2019
ESL 515  Introduction to Academic Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/515)
Instruction in essential skills in academic writing; skills for writing secondary and primary research papers, including developing research questions and design, evaluating and synthesizing scholarly sources, and producing well-reasoned and substantiated arguments. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward the graduate degree. Prerequisite: Level 2 course placement result on the English Placement Test. ESL students only.

ESL 521  Written and Oral Business Communication  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/521)
Instruction for essential skills in business communication both in academic and professional settings; skills covered include writing professional correspondence, summarizing and analyzing sources, designing attractive documents, case-based writing, and delivering oral presentations. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Credit is not given toward the graduate degree. Prerequisite: Level 1 course placement result on the English Placement Test. ESL students only.

ESL 522  Introduction to Business Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/522)
Continued instruction in essential skills in business communication both in academic and professional settings; Skills covered include writing professional correspondence and business proposals, synthesizing sources, and participating in group discussions. This course is the second term of a two-term course sequence (ESL 521 - ESL 522). 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 521 or Level 2 course placement result on the English Placement Test. ESL students only.

ESL 592  Advanced Academic Writing  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/592)
Provides advanced international students additional support in the conventions of professional academic writing in their own fields. Through the use of Contract Learning, students define and pursue individualized writing goals for their own major programs with the support of the instructor. Lessons in genre analysis enable students to derive field-specific models for research articles, theses, and dissertations. 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree. Prerequisite: ESL 515 or equivalent; OR recommendation from UIUC English Placement Test; OR "full status" English proficiency admission.

ESL 593  Academic Presentation Skills  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/ESL/593)
Provides international students with opportunities to improve skills in effectively presenting research in both oral and written formats in preparation for the professional conference presentation process. Students will practice orally explaining their research, asking and answering questions, giving and receiving feedback, and writing a conference proposal with the aim of creating and delivering compelling, professional presentations. 0 graduate hours. No professional credit. Approved for S/U grading only. Credit is not given toward a graduate degree.

English as an Intl Language (EIL)
EIL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/EIL)

Courses
EIL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EIL/199)
May be repeated.

EIL 214  TESL in the Elementary School  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EIL/214)
On-site practical experience in an elementary school, involving at least 100 hours of classroom observations, consultations, teaching, tutoring, and assisting, to acquaint students with the many facets of ESL/bilingual education in a public school setting. Hours to be arranged with the cooperating teacher. Satisfies one requirement for those who wish to obtain an Illinois ESL endorsement on an Illinois teaching certificate.

EIL 215  TESL in the Secondary School  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EIL/215)
On-site practical experience in a secondary school, involving at least 100 hours of classroom observations, consultations, teaching, tutoring, and assisting, to acquaint students with the many facets of ESL/bilingual education in a public school setting. Hours to be arranged with the cooperating teacher. Satisfies one requirement for those who wish to obtain an Illinois ESL endorsement on an Illinois teaching certificate.

EIL 411  Intro to TESL Methodology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/411)
Introduction to TESL/TEFL, including the concept of "communicative competence" and its components; teaching contexts; current research on teaching second language skills; syllabus, lesson, and materials design; and classroom techniques. 3 undergraduate hours. 4 graduate hours.

EIL 422  Engl Grammar for ESL Teachers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/422)
Adaptation of modern English grammar to meet the needs of the ESL/EFL teacher, with special emphasis on the development of knowledge and skills that can be used in the analysis of the syntax, lexis and pragmatics of English. Same as ENGL 404. 3 undergraduate hours. 4 graduate hours.

EIL 445  Second Lang Reading & Writing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/445)
Introduces students to second language reading and writing, including theory, research, and practical application. 3 undergraduate hours. 4 graduate hours. May be taken concurrently with EIL 489 with consent of instructor. Prerequisite: Consent of instructor.

EIL 456  Lang and Social Interaction I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/456)
The course goals are to develop an understanding of the characteristics of naturally-occurring talk; several methodologies for collecting and studying it; the relationship of talk to human conduct, society and culture, including cross-cultural (mis)understanding; and to relate these insights to language learning, language teaching methodologies, and materials design. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

EIL 460  Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EIL/460)
Studies theoretical and practical aspects of language testing. Examines purposes and types of language tests in relation to theories of language use and language teaching goals; discusses testing practices and procedures related to language teaching and language research; and includes the planning, writing, and administration of tests, basic descriptive statistics, and test analysis. A project is required. Same as EPSY 487, FR 460, GER 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: EIL 489 or consent of instructor.
EIL 486 Ling for Language Teachers  credit: 3 or 4 Hours. Introduction to linguistics for language teachers. Examines history and scope of linguistics, and introduces key elements of linguistic analysis with accompanying theoretical analyses of syntax, morphology, phonology, the lexicon, and pragmatics. Also covers the role of non-linguistic factors in communication and prioritizes the application of linguistics to instructed language learning settings. 3 undergraduate hours. 4 graduate hours.

EIL 487 Topics in Second Lang Studies  credit: 2 or 4 Hours. Topics on practical applications of second language studies for classroom practice. 2 or 4 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Consent of instructor.

EIL 488 Phonology for Second Language Teachers  credit: 3 or 4 Hours. Applications of linguistics to language learning with special emphasis on learning the sound system of English. The course involves face-to-face and online instruction. 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor. A linguistics introductory course.

EIL 511 Task Based Language Teaching  credit: 4 Hours. Introduces students to current issues in the theory and practice of communicative language teaching. Discusses the notion that communication is a social event from three perspectives: theoretical linguistics; applied linguistics; and classroom teaching. Specific questions addressed range from a consideration of the nature of applied linguistics to issues related to student autonomy. Prerequisite: EIL 411 and consent of instructor.

EIL 512 Practicum in Teaching ESL  credit: 4 Hours. Practical guided experience teaching ESL. Students will recruit, test, and teach an ESL class of adults from the community, developing their own lessons and materials based on principles of communicative language teaching. Students will also observe their peer student teachers and provide them with feedback. Prerequisite: EIL 411 and permission of instructor.

EIL 580 Classroom Language Acquisition  credit: 4 Hours. Same as FR 580, GER 580, ITAL 580, PORT 580, SLS 580, and SPAN 580. Same as FR 580, GER 580, ITAL 580, PORT 580, SLS 580, and SPAN 580. Approved for S/U grading only. Prerequisite: Consent of instructor.

EIL 587 Seminar in Second Lang Studies  credit: 2 or 4 Hours. May be repeated if topics vary. Prerequisite: Consent of instructor.

EIL 588 Generative Phon in Engl Tchg  credit: 4 Hours. Generative phonological analyses of English and the teaching of English pronunciation: reevaluation of teaching goals, content, presentation, and methodology; required projects involve research into English phonology leading to the development and evaluation of lesson materials for ESL classes. Prerequisite: EIL 411 and EIL 488.

EIL 591 Research in Special Topics  credit: 1 to 4 Hours. Independent study under guidance of a member of the graduate faculty. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

EIL 599 Thesis Research  credit: 0 to 8 Hours. Individual direction of research and thesis writing. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Consent of thesis supervisor.

Entomology (ENT)

ENT Class Schedule

Courses

ENT 599 Thesis Research  credit: 0 to 16 Hours. Work may be taken in the following subjects: insect genetics; insect behavior; applied entomology; systematic entomology; biology and ecology of insects; and insect physiology. Approved for S/U grading only. May be repeated.

Environmental Studies (ENVS)

ENVS Class Schedule

Courses

ENVS 101 Introduction to Energy Sources  credit: 3 Hours. Same as NPRE 101. See NPRE 101. This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences Quantitative Reasoning II

ENVS 210 Environmental Economics  credit: 3 Hours. Same as ACE 210, ECON 210, NRES 210, and UP 210. See ACE 210. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

ENVS 220 Communicating Agriculture  credit: 3 Hours. Same as AGCM 220 and NRES 220. See AGCM 220. This course satisfies the General Education Criteria for: Advanced Composition

ENVS 299 Ind Studies of Env. Topics  credit: 0 to 4 Hours. Approved for letter and S/U grading. Prerequisite: Consent of instructor.

ENVS 301 Tools for Sustainability  credit: 3 Hours. Develops systems-thinking skills needed to make connections between different disciplines to better understand problems and trade-offs related to sustainability. Students will gain competence in conducting cost-benefit and life-cycle analyses and learn about sustainability metrics while improving their ability to communicate about the integrated dimensions of sustainability within an interdisciplinary setting. Prerequisite: For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENVS 310 Natural Resource Economics  credit: 3 Hours. Same as ACE 310, and NRES 310. See ACE 310.
ENVS 330  Environmental Communications  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/330))
Same as AGCM 330 and NRES 330. See AGCM 330.

ENVS 336  Tomorrow’s Environment  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/336))
Same as CHLH 336 and CPSC 336. See CPSC 336.

ENVS 380  Environmental Geology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/380))
Same as GEOL 380. See GEOL 380.

ENVS 406  Urban Ecology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/406))
Same as UP 406. See UP 406.

ENVS 420  Conservation Biology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/420))
Same as CPSC 436 and IB 451. See IB 451.

ENVS 430  Comm in Env Social Movements  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/430))
Same as AGCM 430 and NRES 430. See AGCM 430.

ENVS 431  Environ Toxicology & Health  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/431))
Same as CHLH 461 and IB 485. See IB 485.

ENVS 433  Pesticide Toxicology  credit: 3 or 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/433))
Same as CB 434 and IB 486. See IB 486.

ENVS 447  Environmental Sociology  credit: 3 or 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/447))
Same as RSOC 447 and SOC 447. See SOC 447.

ENVS 469  Environmental Health  credit: 3 or 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/469))
Same as CHLH 469. See CHLH 469.

ENVS 474  Principles of Epidemiology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/474))
Same as CHLH 474 and PATH 474. See CHLH 474.

ENVS 480  Basic Toxicology  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/480))
Same as CB 449, CPSC 433 and FSHN 480. See FSHN 480.

ENVS 491  Sustainability Experience  credit: 1 to 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/491))
Students will work with faculty, staff, and/or the Student Sustainability Committee to advance campus sustainability goals and the Illinois Climate Action Plan. This course is designed to enable students to apply their disciplinary knowledge to tackle inherently interdisciplinary problems, while also developing and enhancing their critical analysis, leadership, organizational, and project management/evaluation skills and preparing them for addressing sustainability issues in their careers. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated, if topics vary. Prerequisite: Consent of instructor.

ENVS 492  Sustainability, Energy and Environment Capstone  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/492))
Problem-focused learning and a holistic and interdisciplinary perspective to address critical sustainability-related challenges facing society. Students will gain critical thinking skills to examine the sustainability of various decisions, analyze the trade-offs between the economic, environmental and social dimensions of sustainability of alternative solutions, learn techniques to operationalize the concept of sustainability and develop practical skills in sustainability assessment. Team projects will develop team building skills, communication skills and project management skills. 4 undergraduate hours. No graduate credit. Prerequisite: ENVS 301. For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENVS 510  Adv Natural Resource Economics  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/510))
Same as ACE 510, ECON 548, and NRES 510. See ACE 510.

ENVS 514  Neurotoxicology  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/514))
Same as CB 514 and PSYC 515. See CB 514.

ENVS 516  Reprod & Dev Toxicology  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/516))
Same as CB 516. See CB 516.

ENVS 527  Statistics in Epidemiology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENVS/527))
Same as CHLH 527 and PATH 525. See CHLH 527.

ENVS 596  Interdisciplinary Tox Sem  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/ENVS/596))
Same as PATH 596 and CB 596. See CB 596.

**Environmental Sustainability (ENSU)**

[ENSU Class Schedule](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ENSU)

**Courses**

ENSU 300  Environmental Sustainability  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/300))
Same as LA 370 and NRES 370. See LA 370.

ENSU 301  Soc Impacts Weather & Climate  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/301))
Same as ATMS 322. See ATMS 322.

**Energy and Environment Fellows Program.**

ENSU 492  Sustainability, Energy and Environment Capstone  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/492))
Problem-focused learning and a holistic and interdisciplinary perspective to address critical sustainability-related challenges facing society. Students will gain critical thinking skills to examine the sustainability of various decisions, analyze the trade-offs between the economic, environmental and social dimensions of sustainability of alternative solutions, learn techniques to operationalize the concept of sustainability and develop practical skills in sustainability assessment. Team projects will develop team building skills, communication skills and project management skills. 4 undergraduate hours. No graduate credit. Prerequisite: ENVS 301. For students enrolled in the Sustainability, Energy and Environment Fellows Program.

ENSU 510  Adv Natural Resource Economics  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/510))
Same as ACE 510, ECON 548, and NRES 510. See ACE 510.

ENSU 514  Neurotoxicology  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/514))
Same as CB 514 and PSYC 515. See CB 514.

ENSU 516  Reprod & Dev Toxicology  credit: 3 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/516))
Same as CB 516. See CB 516.

ENSU 527  Statistics in Epidemiology  credit: 4 Hours. ([link](https://courses.illinois.edu/schedule/terms/ENSU/527))
Same as CHLH 527 and PATH 525. See CHLH 527.

ENSU 596  Interdisciplinary Tox Sem  credit: 1 Hour. ([link](https://courses.illinois.edu/schedule/terms/ENSU/596))
Same as PATH 596 and CB 596. See CB 596.
ENSU 310  Renewable & Alternative Energy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/310)
Fossil fuel supplies are finite and growing energy demands of an ever increasing population will quickly deplete these reserves. Focuses on the use and availability of renewable and alternative energy sources such as wind, solar, bio-fuels, ethanol, geothermal and nuclear power as well as the impacts of using these alternative energy sources on climate, society and the global economy. Students will develop the student's perspective on human energy consumption at all scales through a complete scale analysis of energy production and consumption – from the individual to the national government to the world economy.

ENSU 410  Sustainable Organizations  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ENSU/410)
Explores the notion of sustainability as a core business tenant, and how entrepreneurs and their companies are working to create and capture financial, social, and environmental value. The focus is on on large, for profit companies, but lessons will extend to smaller, non-profit, and governmental organizations. The aim is to prepare participants for the green challenge of adopting and implementing socially responsible practices in the workplace. 4 undergraduate hours. 4 graduate hours.

European Union Studies (EURO)

EURO Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/EURO)

Courses

EURO 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/EURO/199)
Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 3 hours.

EURO 240  Arctic Narratives  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EURO/240)
Same as CWL 282, SCAN 240. See SCAN 240. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

EURO 325  Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EURO/325)
Same as EPS 325, ASST 325, AFST 325, INFO 325, LAST 325, REES 325, and SAME 325. See EPS 325.

EURO 376  Children and Youth Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EURO/376)
Same as CWL 376, GWS 376, and SCAN 376. See SCAN 376.

EURO 385  Politics of the European Union  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/EURO/385)
Same as FR 385, GER 385, and PS 385. See PS 385.

EURO 410  Labor and the European Union  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/410)
Same as LER 410. See LER 410.

EURO 415  Europe and the Mediterranean  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/415)
Examines the governments, societies, and cultures on the shores of the Mediterranean. Examines ideas associated with the Mediterranean and practices followed by its people and governments from the perspectives of a variety of disciplines, paying special attention to the region's relationship with the European Union. Same as ITAL 415 and PS 415. 3 undergraduate hours. 4 graduate hours. Prerequisite: Minimum of junior standing, or consent of instructor.

EURO 418  Language & Minorities in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/418)
Same as GER 418, FR 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

EURO 470  Imagining the Welfare State  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/470)
Same as CWL 470 and SCAN 470. See SCAN 470.

EURO 478  African Immigrants in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/478)
Same as AFST 478 and ANTH 478. See ANTH 478.

EURO 489  Green Screen: Film and Nature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/489)
Same as MACS 490 and SCAN 490. See SCAN 490.

EURO 490  Special Topics in EU Studies  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/490)
Selected reading and research in European Studies. See schedule for current topics. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours in same or separate terms if topics vary. Prerequisite: Junior or senior standing, or consent of the instructor.

EURO 500  Dialogue on Europe  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/EURO/500)
Exploration of a variety of subjects about the European Union and EU-US relations and comparative perspectives. This transatlantic relationship will be studied via a series of expert lectures offered by University of Illinois faculty and visiting scholars. Approved for letter and S/U grading. May be repeated in separate terms if topics vary.

EURO 501  EU Institutions and Governance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/501)
A graduate-level introduction to the European Union, its history, decision-making processes, legal framework and economic effects.

EURO 502  The EU in a Global Context  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/502)
Introduces students to the role of the EU in international affairs. May be repeated in separate terms to a maximum of 8 hours.

EURO 576  Children and Youth Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/EURO/576)
Same as CWL 586, GWS 576, and SCAN 576. See SCAN 576.

Information listed in this catalog is current as of 07/2019
EURO 580  Research Design & Techniques credit: 1 Hour. Introduction for students in the master’s in European Union Studies degree program to the processes involved in developing and completing an MA thesis project. Topics covered may include departmental and Graduate College thesis requirements; research methodologies; conducting effective field research; resources for thesis writing; and practical advice on managing a thesis project. Approved for S/U grading only.

EURO 590  Directed Ind Study credit: 1 to 6 Hours. May be repeated in the same term to a maximum of 6 hours. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Consent of instructor.

EURO 596  Special Topics in EU Studies credit: 1 to 4 Hours. Instruction on topics of current interest about the European Union. May be repeated in the same or separate terms if topics vary. See Class Schedule for current topics.

EURO 599  Thesis Research credit: 0 to 8 Hours. To carry out work on the MA in European Union Studies. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 graduate hours. Prerequisite: EURO 501 and EURO 502.

Finance (FIN)

FIN Class Schedule

Courses

FIN 199  Undergraduate Open Seminar credit: 0 to 5 Hours. Approved for letter and S/U grading. Course may be repeated for credit.

FIN 221  Corporate Finance credit: 3 Hours. Introductory study of corporate financial management, in particular how the financial manager's choices add value to shareholder wealth through investment financing and operating decisions. Prerequisite: Completion of ECON 102 or ECON 103.

FIN 300  Financial Markets credit: 3 Hours. Theory and applications associated with the functioning of financial markets to include the conceptual foundations of portfolio theory, risk management, and asset valuation. The stock, money, bond, mortgage, and futures and options markets are examined. Prerequisite: FIN 221.

FIN 321  Advanced Corporate Finance credit: 3 Hours. Theories of firms' investment and financing decisions are covered. Topics include dividend policy, capital budgeting, capital structure, bankruptcy, long-term debt and leasing decisions. Prerequisite: FIN 300.

FIN 390  Finance Academy credit: 1 Hour. The Finance Academy is an enrichment program for outstanding undergraduate Finance majors. A select program that focuses on developing future business leaders via enhanced academic and career opportunities. Students are normally invited to participate by the faculty during their junior year, when they are enrolled in FIN 300. If inducted, students participate throughout their junior and senior years. Approved for letter and S/U grading. May be repeated in separate terms. Course will not satisfy Finance major requirements. Prerequisite: Induction into the Finance Academy.

FIN 391  Investment Banking Academy credit: 1 Hour. A diversified curriculum designed to prepare students for a successful career in investment banking; course incorporates peer mentorship, guest lectures (from bankers, accountants, private equity associates and hedge fund analysts), a case competition and a field trip. Course will not satisfy Finance major requirements. May be repeated to a maximum of 6 hours in separate terms. Prerequisite: Admission by application only.

FIN 392  Investment Management Academy credit: 1 Hour. Overview of security analysis with the objective of how to value an investment proposition for inclusion in a portfolio of securities managed by students in the class. Focus will be in areas of fundamental securities analysis with the emphasis on equity valuation. Course will not satisfy Finance major requirements. May be repeated to a maximum of 6 hours in separate terms. Prerequisite: Admission by application only. Primarily for Finance majors with sophomore standing or above who show interest in pursuing their CFA credential.

FIN 411  Investment & Portfolio Mngt credit: 3 Hours. Current theories of portfolio management are covered in considerable detail to provide a conceptual framework for the evaluation of investment strategies. Applications and implementation are covered in depth, including performance evaluation and international diversification. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300.

FIN 412  Options and Futures Markets credit: 3 Hours. Introduction of options and futures markets for financial assets; examination of institutional aspects of the markets; theories of pricing; discussion of simple as well as complicated trading strategies (arbitrage, hedging and spread); applications for asset and risk management. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.
FIN 413  Financial Engineering  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/413)
This course will present and analyze modern tools for identification, measurement, and management of financial risk faced by corporations and institutional investors; in particular as related to the application of futures, forwards, options, swaps, and other derivatives. The focus will be evenly split between theoretical models and practical applications, and will include careful consideration of parameter estimation and numerical implementation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 414  Urban Economics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/414)
Same as ECON 414. See ECON 414.

FIN 415  Fixed Income Portfolios  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/415)
Conceptual foundations and implementation of strategies for the selection, evaluation, and revision of portfolios of fixed-income financial assets (bonds). 3 undergraduate hours. No graduate credit. Prerequisite: FIN 321.

FIN 418  Financial Modeling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/418)
The objective is to learn the fundamentals and practice building financial models using Microsoft Excel. By the end of the term, each student should be able to develop an understanding of any financial relationship and build that financial relationship into a model using the built-in functions of Excel. Financial modeling, by definition, requires significant work outside of the classroom. Models are introduced, demonstrated, and reviewed in class, but each student is expected to research and collect data, and to construct the models, prior to each week's class meeting. 3 undergraduate hours. 3 graduate hours. Prerequisite: FIN 300 and FIN 321, or consent of instructor.

FIN 419  Real Client Managed Portfolios  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/419)
Applies academic topics on financial markets, security analysis/valuation and portfolio management to hands-on investment management. Students will form and review objectives, constraints, and investment policy as it relates to the client's money under management. They will purchase securities, monitor performance of the portfolio, and make recommendations for any adjustments to the holdings. They will be fully educated and responsible to the fiduciary and ethical standards of professional money management as guided by the CFA Institute. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 9 hours. Prerequisite: FIN 321 or consent of instructor.

FIN 420  Cases in Corporate Finance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/420)
Course totally devoted to the study of financial management cases, provides students a hands-on learning experience. The case work helps students to develop their analytical and interpretative skills in solving unstructured real world problems. The theoretical concepts and tools learned in the introductory finance courses provide the foundation for the case studies. Topics discussed include financial forecasting and working capital management; capital budgeting and cost of capital; and capital structure, dividend policy, corporate financing, financial restructuring, financial distress, mergers, acquisitions and firm valuation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 and FIN 321.

FIN 423  Financing Emerging Businesses  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/423)
The study of the business environment, alternative methods of organization and financing, use of financial statements as a management tool, valuation methods and approaches to ethical dilemmas from the perspective of an owner-manager. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 300 or consent of instructor.

FIN 424  Mergers and Acquisition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/424)
Focuses on identifying ways to increase firm value through mergers and acquisitions (M&A) and corporate restructurings. Surveys the drivers of success (failure) in M&A transactions and develop your skills in the design and evaluation of transactions. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 321.

FIN 425  Private Equity/Venture Capital  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/425)
Provides students with an understanding of the nature of the private equity market, the principal participants in this market, and how they function. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 321.

FIN 431  Property-Liability Insurance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/431)
Examines in detail the functions of property-liability insurers, including marketing, underwriting, claims, ratemaking and administration, and the major current issues facing this industry. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 230.

FIN 432  Managing Fin Risk for Insurers  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/432)
Introduces basic concepts in financial economics used in the analysis and management of financial risks, with an emphasis on the applications by insurers and pension plans; topics include decision making under uncertainty, economic statistics, deterministic and stochastic interest rate models, derivative securities, valuation, binomial models and option pricing models. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 300; either FIN 230 or FIN 435.

FIN 433  Corporate Risk Management  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/433)
Case study course examining how corporations deal with pure risk. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: FIN 221, FIN 431, and FIN 434.

FIN 434  Employee Benefit Plans  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/434)
Studies the purpose, structure, and financial aspects of employee benefit plans, including pensions, health insurance, life insurance, and disability plans. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 435  Personal Wealth Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/435)
Studies personal wealth management techniques with an emphasis on long-term investing and financial planning. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300.
FIN 443 Legal Issues in Real Estate credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/443)
Overview of legal concepts, issues, and principles involving real estate. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Junior standing or consent of instructor.

FIN 444 Urban Real Estate Valuation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/444)
The terminology, theory and techniques of real estate valuation (appraisal); a modern view of the three approaches to estimating value - sales comparison, cost and income. Special requirements include local field trips to appraise at least one single-family property and one income property. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of the instructor, FIN 241 is recommended but not required.

FIN 445 Real Estate Investment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/445)
An approach to the evaluation of real estate investment opportunities. Begins with the identification of the investor's goals and ends with an investment decision. Considers legal, physical, locational, and financial constraint, aggregate real estate and financial markets, tax considerations and investment criteria. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of the instructor, FIN 241 is recommended but not required.

FIN 446 Real Estate Financial Markets credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/446)
Discusses real estate financing techniques and the secondary market for real estate financial assets including residential and commercial mortgage-backed securities (RMBS and CMBS). 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor, FIN 241 is recommended but not required.

FIN 447 Real Estate Development credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/447)
Provides students with an exposure to the real world of real estate through a series of lectures by real estate professionals focused primarily on retail real estate development. A side benefit of the class will be to provide graduating seniors some insights into different career paths to help improve the career choices that they make. 3 undergraduate hours. 4 graduate hours. Prerequisite: FIN 221 or FIN 241.

FIN 451 Intl Financial Markets credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/451)
This course covers the three major international financial markets; the foreign exchange market, the eurocurrency market, and the international equity and bond market. The course looks at international financial decisions including operations, structure and valuation. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 and FIN 321.

FIN 461 Financial Intermediation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/461)
Financial intermediaries survey of the structure, functions, regulation, and risk management activities of financial intermediaries; central banking and monetary policy effects on financial intermediaries. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 or consent of instructor.

FIN 463 Investment Banking credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/463)
The mechanics of financial statement analysis and ratio analysis; development of investment banking/corporate finance valuation models (including DCF, leveraged buyout and merger models) in order to determine the intrinsic value of companies and price investment banking deals. 3 undergraduate hours. No graduate credit. Prerequisite: FIN 300 (FIN 300 is waived if student is admitted to FIN 391 IBA). Priority to finance majors.

FIN 464 Investment Management credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/464)
Students learn the fundamental equity research process including valuation and market and industry analysis. Students then select their own multi-asset portfolios using an online trading simulation software program. The course pays special attention to risk management. Ultimately, students implement hedging strategies based on real returns over the course of the semester. 3 undergraduate hours. 4 graduate hours. Prerequisite: FIN 300. Priority given to finance majors.

FIN 490 Special Topics in Finance credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FIN/490)
1 to 3 undergraduate hours. No graduate credit. May be repeated in the same term to a maximum of 6 hours. May be repeated in subsequent terms to a maximum of 9 hours. Course will not satisfy Finance major requirements. Prerequisite: FIN 300 or consent of instructor.

FIN 494 Senior Research credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/494)
Research and reading course for students concentrating in finance, insurance, urban land economics, or related areas who meet one of the following requirements: (1) have a cumulative grade-point average of 3.0 or better; (2) have attained Honors Day recognition in the junior year; or (3) have consent of instructor. May be taken by students in the college honors program in partial fulfillment of the honors requirements. 2 to 4 undergraduate hours. No graduate credit. May be repeated as topics vary. Prerequisite: Senior standing.

FIN 495 Senior Research credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/495)
Research and reading course for students concentrating in finance, insurance, urban land economics, or related areas. May be taken by students in the college honors program in partial fulfillment of the honors requirements. 2 to 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing; and cumulative grade-point average of 3.0 or better, Honors Day recognition in the junior year, or consent of instructor.

FIN 500 Introduction to Finance credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/500)
Introduction to financial management and decision making. A customized course, designed to provide a survey of finance for graduate students who do not necessarily have previous training in the disciplines. Different sections of the course will cover different sets of topics. Prerequisite: Graduate standing or consent of department.

FIN 501 Economics of Stock Market Fundamentals credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/501)
A firm's long-run value ultimately depends on its business fundamentals. This course covers micro- and macro-economic drivers of such fundamentals, such as consumer demand, market competitiveness, government regulation, interest rates, business cycles, and monetary policy. Also includes topics in risk and intertemporal decision-making. 2 or 4 graduate hours. No professional credit.
FIN 502  Quantitative Finance  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/502)
Quantitative methods used for financial decision making. Topics include elements of statistics, mathematics, and specific analytical tools used in the study and practice of finance. Approved for letter or S/U grading. May be repeated in the same or separate terms to a maximum of 4 hours. Material may be split into two 8-week 2-hour modules, either across semesters or within the same semester; if so, credit is not given for taking the same half twice. Prerequisite: Graduate standing.

FIN 511  Investments  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/511)
Introduction to investment analysis, including the theory and implementation of portfolio theory; empirical evidence on the performance of financial assets; evaluation of portfolio investment strategies; and the extension of diversification to international markets. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 512  Financial Derivatives  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/512)
Introduction to options, futures, swaps and other derivative securities; examination of institutional aspects of the markets; theories of pricing; discussion of simple as well as complicated trading strategies (arbitrage, hedging, and spread); applications for asset and risk management. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 513  Financial Engineering I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/513)
Provides an introduction to modern techniques for pricing options, swaps, and related financial instruments; the use of such instruments in managing financial risk; and the measurement and management of their risks. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 514  Financial Engineering II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/514)
Presents the main ideas and techniques of modern option pricing theory, including: the Black-Scholes-Merton analysis; risk-neutral probabilities and the probabilistic solution; numerical techniques for computing option prices; an introduction to term structure modeling; and perhaps other topics, at the discretion of the instructor. Prerequisite: Prior or concurrent registration in FIN 513 or consent of instructor.

FIN 515  Fixed Income Portfolios  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/515)
Conceptual foundations and implementation of strategies for the selection, evaluation, and revision of portfolios of fixed-income financial assets (bonds); examination of related research. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 516  Term Structure Models  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/516)
Extensive coverage of several models of the term structure of interest rates, including their implementation, calibration, and use in valuing interest rate derivatives. Will include applications of both Monte Carlo methods and finite-difference or "tree" methods. Approved for letter and S/U grading. Prerequisite: FIN 500 and FIN 512, or equivalents.

FIN 517  Adv Topic in Fin Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/517)
Discussion of advanced topics of current interest, based on evolving conditions and in the marketplace. Topics may include new valuation models and/or financial instruments, issues in risk management, trading strategies of current interest, and regulatory and public policy issues. Approved for letter and S/U grading. Prerequisite: FIN 500 and FIN 512, or equivalents.

FIN 518  Financial Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/518)
The objective is to learn the fundamentals and practice building financial models using Microsoft Excel. By the end of the term, each student should be able to develop an understanding of any financial relationship and build that financial relationship into a model using the built-in function of Excel. Financial modeling, by definition, requires significant work outside of the classroom. Models are introduced, demonstrated, and reviewed in class, but each student is expected to research and collect data, and to construct the models, prior to each week's class meeting. Prerequisite: MSF students only.

FIN 519  Gen Equ Env Tax Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/519)
Focuses on how to build and use analytical general equilibrium models to do research. Students will replicate and extend existing G.E. models with general production and demand functions that are differentiated to find closed-form solutions for the incidence of the tax, including changes in all factor prices, input quantities, outputs, prices, and welfare of each group. The primary examples are drawn from environmental tax policy, but the method is equally useful for analysis of non-tax policies and other economic problems. Same as ECON 546. Prerequisite: Microeconomics and Econometrics at graduate level.

FIN 520  Financial Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/520)
Introduction to financial management and decision making. Topics include risk-return relationships for financial securities; financial statement analysis and forecasting; working capital management; capital budgeting and the resource allocation process; capital structure and the cost of capital; dividend policy. Prerequisite: Enrollment in the Executive MBA, MSBA, or MS program.

FIN 521  Advanced Corporate Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/521)
Addresses both the theoretical and applied aspects of firms' financing decisions; topics include capital structure and cost of capital theories; mergers, acquisitions and leveraged buyouts; options, warrants, and convertibles; venture capital and initial public offerings; and pensions. Prerequisite: FIN 520, plus either ECON 506 or BADM 572 or concurrent registration in either course; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 522  Cases in Financial Strategy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/522)
Course focuses on financial management cases. Provides students with an active learning experience. Case work is based on concepts learned in introductory corporate finance. Topics discussed include measuring and interpreting cash flow performance, financial forecasting and turnaround management; capital investment and cost of capital; and capital structure, dividend policy; and firm valuation. Prerequisite: FIN 520, plus either ECON 506 or BADM 572 or concurrent registration in either course; or MBA 505 - Section G (Finance II); or consent of instructor.
FIN 524 Mergers and Acquisitions  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/524)
The primary objective of this course is to give students experience in valuing firms. While the primary focus of the course is on mergers and acquisitions, the course will also cover topics such as initial public offerings, leveraged buyouts, spin-offs, and divestitures. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 526 Enterprise Risk Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/526)
The application of basic risk management principles to all risks facing the organization. Integrates hazard, financial, strategic and operational risks under a single framework. Provides a conceptual framework for making risk management decisions to increase business value. The course will include a review of the legal and regulatory environment that sets the stage for Enterprise Risk Management, cover the tools used for risk analysis, examine data integration processes and show how risk measurement relates to strategic and tactical business decisions.

FIN 527 Mergers & Acquisitions Topics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/527)
This course focuses on identifying ways to increase firm value through mergers and acquisitions (M&A) and corporate restructurings. We will develop your skills in the design and evaluation of transactions. Specific topics addressed in the course are the valuation of companies, structuring of transactions, deal tactics and strategy, valuation of leveraged buyouts, and spin-offs/carve-outs. We will also delve into issues of law, accounting and taxation and how they affect the structuring and outcome of merger transactions. Knowledge about M&A is an important component of any corporate financial professional and is the foundation for effective work in a wide range of fields including corporate development, investment banking, consulting, and advising senior management. 2 graduate hours. No professional credit.

FIN 530 Foundations in Risk Management  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/530)
This course introduces risk management including basic concepts and techniques of pure risk and financial risk management. Corporate hazard risk management including insurance and securitization of pure risks will be covered in detail. Insurer risk management will be examined including reinsurance, loss reserving, underwriting of risks, and catastrophic risk management. Students will also be introduced to Enterprise Risk Management (ERM). 2 graduate hours. No professional credit. Prerequisite: MSF and MBA students only.

FIN 536 Government Insurance Programs  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/536)
Government insurance programs – including Social Security, Medicare and Medicaid, unemployment and disability insurance, terrorism insurance, and disaster relief – currently account for more than half of U.S. federal spending. These programs, which for decades have collectively been growing more quickly than the U.S. economy, represent a significant share of an employer’s compensation expenses and significantly impact household budgets. This course will examine how the design of these programs affects economic efficiency, growth, business competitiveness, and social well-being. An important theme of the course will be the role of imperfect information and aggregate or long-term risks of insurance market failures, and conditions under which the government can or cannot remedy these failures. Prerequisite: MAS BPP Concentration.

FIN 541 Real Estate Fundamentals  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/541)
Discusses the theory and practice of real estate and urban land economics; emphasizes real estate market analysis, finance, appraisal, and investment. 4 graduate hours. No professional credit. Prerequisite: FIN 520, plus ECON 302, ECON 500, or equivalent; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 544 Urban Real Estate Valuation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/544)
The terminology, theory and techniques of real estate valuation (appraisal); a modern view of the three approaches to estimating value - sales comparison, cost and income. Special requirements include local field trips to appraise at least one single-family property and one income property. 4 graduate hours. No professional credit. Prerequisite: FIN 541 is recommended but not required.

FIN 545 Real Estate Investment  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/545)
Real estate accounts for one-third of the world’s capital assets. This course provides students with a comprehensive understanding of real estate valuation, cycles, markets, investments, and decision-making. The bulk of the course covers income-producing commercial property, although we will also discuss residential housing. This course provides a unified finance based framework to answer real estate investment decision making problems in the real world. 4 graduate hours. No professional credit. Prerequisite: FIN 541 is recommended but not required. Graduate students only.

FIN 546 Real Estate Financial Markets  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/546)
This is an applied course in real estate investment that focuses on the U.S. mortgage and asset-backed securities markets. The course will review the multi-trillion dollar mortgage and asset-backed bond markets. We will discuss the fundamentals of securitization, and strategies to structure deals. We will also consider real estate investment trusts (REITs), collateralized debt obligations (CDOs) and credit default swaps (CDS). The course will develop analytical skills in deal structuring and pricing, and offer all students an opportunity to develop their business skills through case discussions. 4 graduate hours. No professional credit. Prerequisite: FIN 541 recommended but not required. Graduate students only.

FIN 551 International Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/551)
Explores the characteristics of the international financial market and examines various aspects of corporate financial management. Topics may include international parity conditions, exchange rate risk management, country risk, cross-border investment analysis, multi national firm budgeting, hedging in foreign currency markets, accessing international financial markets for financing, and competitive strategy in a global marketplace. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 561 Financial Intermediation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/561)
Studies financial intermediation emphasizing analysis of problems faced by commercial bank managers. The three main areas covered are: the role of financial intermediation and its relation to the macro-economy, information technology, and government regulation; examination of the problems of pricing and evaluating the risk of bank financial services such as loans, loan commitments, and swaps; and consideration of bank portfolio risk management. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.
FIN 562 Macrofinance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/562)
Overview of the workings of the financial sector of the macro economy; includes the roles of financial institutions, financial markets, macroeconomic policies, interest rates, and the flows of funds. Prerequisite: FIN 520; or MBA 505 - Section G (Finance II); or consent of instructor.

FIN 563 Investment Banking  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/563)
This course will provide key building blocks necessary for a career in investment banking. Valuation and other related fields. It is designed to provide a practical application of financial statement analysis, modeling, valuation, and presentation skills commonly performed by industry professionals. The course has three major parts. The first focuses on the mechanics of financial statement analysis, ratio analysis, and financial model building. The second applies the financial statements and forecasts within the context of company valuation, utilizing common industry techniques. In the third part of the course, we will employ these valuation techniques in common investment-banking deliverables such as pitch books and fairness opinions. 4 graduate hours. No professional credit. Prerequisite: Previous introductory accounting and finance coursework recommended. Graduate students only.

FIN 566 Algorithmic Market Microstructure  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/566)
This course introduces the modern theoretical, empirical and institutional foundations of market microstructure and trading activity, with an emphasis on applications to algorithmic and high-frequency trading. The first part of the course addresses market microstructure and the algorithmic implementation of traditional microstructure-inspired tasks such as minimizing execution costs. The second part of the course proceeds to examine actual algorithmic strategies, and ultimately high-frequency trading. Recurrent themes throughout the course will be the use of economic theory to simplify computationally challenging problems, and the use of theory-driven structural models to construct more robust trading algorithms. 4 graduate hours. No professional credit. Prerequisite: Restricted to students in the MS in Financial Engineering program.

FIN 567 Financial Risk Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/567)
This course covers selected topics in financial risk management. The focus is on statistical techniques used in financial risk management rather than risk management practice, cases, or valuation issues. The course will cover the value-at-risk (VaR) measure and expected shortfall, statistical techniques useful to model financial market returns, and techniques used to model the joint distribution of defaults on fixed income instruments. The course will also cover additional topics such as retail credit risk, risk budgeting, and economic capital modelling. 4 graduate hours. No professional credit. Prerequisite: FIN 500 or 511; IE 522 or FIN 502; FIN 512 (concurrent enrollment allowed); or consent of instructor.

FIN 568 Behavioral Finance  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/568)
There is increasing evidence that the financial decisions of at least some investors are affected by various behavioral biases that do not follow from traditional portfolio choice models. This course will highlight and analyze key findings from this research and consider implications of this observed behavior for individual investors and money managers. The results are also of interest for managers of firms and human resource departments. 2 graduate hours. No professional credit. Prerequisite: Restricted to MSF and MBA Students.

FIN 570 Business and Public Policy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/570)
The role of government and its effects on business in a market economy; critical examination of tax rules, public spending and insurance programs, social security, health policy, environmental policy, and other regulations on businesses.

FIN 571 Retirement Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/571)
The retirement landscape in the US - including public policy, retirement plan design, and individual behavior - is constantly changing and evolving. This course will examine the economic, financial, legal, regulatory, political, and human resource issues involved with designing and implementing both public and private retirement plans, including Social Security, pensions and retirement savings plans. Credit is not given for both FIN 434 and FIN 571. Prerequisite: MAS BPP Concentration.

FIN 572 Health Care Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/572)
Costly advances in health technology, together with an aging population, are making health care an increasingly important issue for individuals, firms, and governments. This course examines the economic, legal, and regulatory issues involved with implementing both public and private health plans, including Medicare, Medicaid, and employer-sponsored plans. Credit is not given for both FIN 434 and FIN 572. Prerequisite: MAS BPP Concentration.

FIN 573 Competition Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/573)
While perfect competition is a useful model, it often fails to capture much of what is observed in the real world. This course examines interaction of firms and consumers in markets that are not perfectly competitive and reviews policies that aim to increase efficiency in these markets. Topics covered will include oligopoly, anti-competitive practices, price discrimination, and antitrust regulation. Prerequisite: MAS BPP Concentration.

FIN 574 Individual Tax Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/574)
Contentious public debate surrounds how to tax individuals fairly and efficiently. This course will provide the tools to design and evaluate tax policies. Topics will include measuring how taxes affect individual behavior including labor supply, savings, and portfolio decisions; the efficiency cost of taxation; understanding who bears the true economic burden of taxes; measuring the progressivity of a tax system; and the pros and cons of alternative approaches to taxation. Prerequisite: MAS BPP Concentration.

FIN 575 Business Tax Policy  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/575)
Government needs revenue and taxes people, but why also tax business? We review the pros and cons of a separate corporate taxes system, the interaction of corporate and personal taxes, the inefficiencies of capital misallocations, and economic incidence (who really bears the burden of a corporate income tax). We also review pros and cons of other taxes on capital income such as interest, dividends, capital gains, rental income, and foreign source-income. Prerequisite: MAS BPP Concentration.
FIN 576 Domestic Environmental Policy credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/576)
Environmental regulation has become ubiquitous; Modern business leaders need to be aware of how it affects their businesses and how to operate within its constraints. The focus of this course is the design and critique of domestic environmental policies such as liability law, taxation, command-and-control regulations, and permit markets. We compare their effectiveness and distributional impacts, including effects on regulated firms, and discuss the differential effects these policies can have on technological process. Prerequisite: MAS BPP Concentration.

FIN 577 International Environmental Policy credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/577)
As the business landscape becomes more and more global, international environmental policy is increasingly more relevant for the success of modern firms. In this course, we demonstrate how one country’s policies can affect other countries and firms in those countries, the typical difficulties that arise in negotiating international environmental agreements and how these can be ameliorated, and the interaction between trade and the environment. Prerequisite: MAS BPP Concentration.

FIN 578 Govt Market Economy credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FIN/578)
Given the presumed efficiency of competitive markets, when might it be appropriate for government to intervene? This course reviews possible “market failures” like externalities, public goods, taxes, monopoly power, adverse selection, and moral hazard. We show how each can reduce efficiency of private markets. We then discuss whether, when and how government can improve economic welfare using well-designed tax policy, social insurance, environmental regulation, or health policy. Prerequisite: MAS BPP Concentration.

FIN 579 Applied Portfolio Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/579)
Applies academic topics on financial markets, security analysis/valuation and portfolio management to hands-on investment management. Students will form and review objectives, constraints, and investment policy as it relates to the client’s money under management. They will purchase securities, monitor performance of the portfolio, and make recommendations for any adjustments to the holdings. They will be fully educated and responsible for the fiduciary and ethical standards of professional money management as guided by the CFA Institute. May be repeated to a maximum of 8 hours. Prerequisite: Credit or concurrent enrollment in FIN 511.

FIN 580 Special Topics in Finance credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/580)
Approved for letter and S/U grading. May be repeated to a maximum of 18 hours in a semester; may be repeated to a maximum of 32 hours in subsequent semesters. Prerequisite: Varies by section.

FIN 590 Individual Study and Research credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/590)

FIN 591 Theory of Finance credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/591)
Examines theoretical frameworks for financial decision making under certainty and uncertainty, as well as perfect and imperfect capital markets; discusses state preference, mean-variance, and continuous time models; emphasizes the structure of individual utility functions. Prerequisite: ECON 502; STAT 400; and admission to doctoral program or consent of instructor.

FIN 592 Empirical Analysis in Finance credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/592)
Designed to train the student in the conduct of empirical work in Finance. Covers the major tools and databases needed to replicate the results of published academic papers and to conduct original research. Prerequisite: Enrollment in the doctoral program in Finance or consent of instructor.

FIN 593 Seminar in Investments credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/593)
Investigates portfolio theory, CAPM, OPM, and arbitrage pricing theory theoretically and empirically; uses both mathematical statistics and modern econometric models to empirically analyze investment decisions and portfolio management. Prerequisite: FIN 591 and ECON 507.

FIN 594 Seminar in Corporate Finance credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FIN/594)
Theories, paradigms, and models of nonfinancial corporations; investigates the theoretical foundations and empirical evidence regarding corporate resource allocation, capital structure decisions, and dividend policies; covers in detail contingent claim analysis, signaling theory, and agency theory. Prerequisite: FIN 591 and ECON 507.

FIN 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FIN/599)
Required for those writing master’s and doctoral theses in finance. Approved for S/U grading only. May be repeated to a maximum of 16 hours.

Fine and Applied Arts (FAA)

FAA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FAA)

Courses

FAA 101 Arts at Illinois credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FAA/101)
Common Arts experience for FAA freshmen that explores contemporary issues in the arts, cross-disciplinary ingenuity navigating a comprehensive research intensive university, professional practices and exposures to FAA faculty and guest artists through lectures, discussion groups, and online components.

FAA 102 Design Beyond Boundaries credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/102)
This class surveys core issues and methods across a host of design disciplines, including industrial design, graphic design, interaction design, exhibition design, theatrical design, choreography, landscape architecture, and architecture. It explores the mindsets and methods with which designers develop innovative, user-oriented solutions to complex and persistent problems. Working individually and in diverse teams, students will deploy design process and design thinking to identify existing needs, frame and reframe problems, and ideate, iterate, and test original design solutions that defy conventional categories. This course satisfies the General Education Criteria for: Humanities - Lit Arts
FAA 110 Exploring Arts and Creativity credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/110)
High and street art, tradition and experimentation, the familiar and unfamiliar, international and American creativity provide this course's foundation. Students will attend performances and exhibitions, interact with artists, and examine core issues associated with the creative process in our increasingly complex global society. Faculty from the arts, sciences, humanities, and other domains will lead students through visual arts, music, dance, and theatre experiences at Krannert Center and Krannert Art Museum to spark investigation and dialogue. This course satisfies the General Education Criteria for: Humanities - Lit Arts

FAA 199 Undergraduate Open Seminar credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/199)
Various special topics in Fine and Applied Arts. See class schedule for offerings. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 6 hours if topics vary; some restrictions may apply.

FAA 202 Artsful Teaching through Integ credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/202)
Designed to provide elementary education majors with a philosophical and practical basis for integrating the arts [including visual art, music, & dance] in public schools. Lecture, discussion, arts practices and class activities will focus on the ever expanding role of the arts in children's lives and the role of the teacher in nurturing artistic expressions through the development of skills, processes, and the various knowledges of the multi-modalities of the arts. Additional fees may apply. See Class Schedule. Prerequisite: Completion of applicable Teacher Licensure Gateway requirements. Contact College of Education for further information. Admission to the Elementary Teacher Education Program.

FAA 220 Introduction to Fashion credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/220)
Introduction to Fashion will be an overview of the many diverse areas of interest and employment available to someone with and interest in fashion. This course will focus on the development of an individual apparel design process. Other topics include basic garment construction concepts, properties of textiles, fashion illustration, 20th century dress history, manufacturing, trend forecasting, merchandising, and social psychology of dress. May be repeated up to 6 hours in separate terms. This course satisfies the General Education Criteria for: Humanities - Lit Arts

FAA 291 Civic Engagement Seminar credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FAA/291)
Designed to introduce students to community development practices and the participatory approach followed by Action Research.Illinois. Detailed information about the course is available at www.actionresearch.illinois.edu. Enrollment in this class requires attendance in two in-class sessions (one lecture, one discussion) and a two-day outreach event in Central Illinois, dates to be determined. Outreach event begins at 9 am Friday and ends by 9 pm Saturday. Lecture, discussion and outreach event will be offered with the one-week course period to be determined. Approved for S/U grading only. May be repeated in separate terms to a maximum of 2 hours.

FAA 299 FAA Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/FAA/299)
Provides campus credit for foreign study and/or travel. A detailed proposal for study abroad must be submitted for approval by the appropriate committee of the department in which the student is studying and the college dean's office prior to such study abroad. Final determination of credit and its application toward the degree is made after a review of the student's work abroad by the above committee and college office. Approved for letter and S/U grading. May be repeated to a maximum of 36 hours. (summer session, 0 to 6 undergraduate hours). Prerequisite: Approval of the student's proposal by the departmental committee and the college office.

FAA 310 FAA Professional Development credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FAA/310)
Focuses on tailoring written, verbal, and online presentations to targeted audiences. Students will develop an application package including resume, letter, LinkedIn profile, elevator pitch, interview skills, and website. Course information: Prerequisite: Sophomore, junior or senior standing in FAA is required.

FAA 391 Action Research Seminar credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/391)
Introduction to applied action research within the social sciences and humanities with the subject of research selected from partner organizations in Champaign-Urbana, Illinois, and surrounding communities. Students establish a research question, conduct fieldwork using qualitative and/or quantitative methods, and complete a project of sufficient quality for publication or presentation. May be repeated to a maximum of 12 hours in subsequent terms. Prerequisite: Junior standing or consent of instructor.

FAA 399 Special Topics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FAA/399)
Various special topics in Fine and Applied Arts. See class schedule for offerings. Approved for Letter and S/U grading. May be repeated in the same or separate semesters to a maximum of 6 hours if topics vary; with permission of the unit advisor.

FAA 499 Special Topics credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FAA/499)
Special topics in subject areas within the College of Fine and Applied Arts intended to augment the existing curriculum. 0 to 4 undergraduate hours. 0 to 4 graduate hours. Approved for letter and S/U grading. May be repeated for a maximum of 8 credit hours in separate terms if topics vary.

Food Science & Human Nutrition (FSHN)

FSHN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FSHN)

Courses

FSHN 101 Intro Food Science & Nutrition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/101)
Discusses the evolution of the food system to meet the needs and desires of a complex, heterogeneous society. Provides an overview of food in relation to nutrition and health, composition and chemistry, microbiology, safety, processing, preservation, laws and regulations, quality, and the consumer.
This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences
F划分 120  Contemporary Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/120)
Fundamental principles of human nutrition and their application to the selection of an adequate diet for health and wellness; current nutrition topics of importance. Credit is not given for F划分 120 if credit has been given for F划分 220. Prerequisite: CHEM 101 or equivalent. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

F划分 125  Intro to Human Nutrition  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/125)
Introductory course for students in Human Nutrition. Explore department, college and campus resources. Learn about current issues, opportunities, and careers in the nutrition field. Prerequisite: F划分 major with a concentration in Human Nutrition only.

F划分 130  Introduction to Food Science  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/130)
Introductory course for students in Food Science (FS) focused on student learning and success, current issues, and opportunities and careers in the field of food science. In addition, students will learn about how to enhance their learning strategies. Approved for S/U grading only. Prerequisite: For freshman majoring in F划分 with a concentration in Food Science only.

F划分 140  Introduction to Hospitality  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/140)
Overview of the hospitality industry with emphasis on organizational and operational structures of the major segments of the industry and career opportunities within each. Field trips required.

F划分 145  Intro Hospitality Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/145)
Explore the foodservice aspect of the hospitality industry by assisting Hospitality Management seniors taking F划分 443 in the operation of the Spice Box. Course covers the planning, production, and service of meals in specialized settings.

F划分 150  Introduction to Dietetics  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/150)
Introductory course for students in dietetics. Addresses current issues, opportunities and careers in the dietetics profession. Freshmen or transfer student into dietetics given priority.

F划分 195  Intro to Undergrad Research  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/195)
Learn about research opportunities available to undergraduate students in the F划分 department, and find a laboratory that fits a student's interests and education goals. Guest faculty members present research opportunities in their laboratory, and then give a laboratory tour for students to learn more about the research activities there. Approved for S/U grading only. Prerequisite: For F划分 majors only.

F划分 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/199)
Experimental course on a special topic in food science and human nutrition. Topic may not be repeated except in accordance with the Code. Approved for letter and S/U grading. May be repeated in the same or subsequent terms. No more than 12 hours may be counted toward graduation.

F划分 220  Principles of Nutrition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/220)
Course focuses on the nutritive value of foods and metabolism of essential nutrients, as well as the application of principles of nutrition to the requirements of normal individuals throughout the life cycle. Prerequisite: CHEM 102; MCB 244 and 246.

F划分 230  Food Sci Professional Issues  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/230)
Discussion of current topics in food science and professional issues, including ethics, undergraduate research, study abroad, graduate school options and internships. Approved for S/U grading only. Prerequisite: Sophomore and Junior transfer students with a Food Science concentration only.

F划分 232  Science of Food Preparation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/232)
Application of food preparation principles and techniques in the preparation of standard food products; principles of food management and their application in the planning and preparation of meals. Additional course fees may apply. See Class Schedule. Prerequisite: F划分 101 or concurrent registration.

F划分 260  Raw Materials for Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/260)
Problems involved with procurement, harvesting, handling, and storage of fruits, vegetables, cereal grains, dairy products, red meat, poultry, fish, and eggs for the food-processing industry. Field trips to specialized operations. Additional fees may apply. See Class Schedule. Prerequisite: One high school course in biological science and F划分 101.

F划分 274  NonMajors Food Microbiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/274)
Introduction to food microbiology and the role of microorganisms in foodborne illness and food manufacture. Credit is not given for both F划分 274 and F划分 101. Prerequisite: Sophomore standing or higher.

F划分 293  Off Campus Internship  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/293)
Supervised, off-campus experience in a field directly pertaining to the subject matter. Approved for letter and S/U grading. May be repeated to a maximum of 10 hours.

F划分 294  On Campus Internship  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/294)
Supervised, on-campus, learning experience with faculty engaged in research. Approved for both letter and S/U grading. May be repeated in the same or subsequent terms to a maximum of 10 hours. Prerequisite: Sophomore standing, 2.0 GPA, consent of the advisor, and consent of the Department Teaching Coordinator.

F划分 295  UG Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/295)
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. Approved for letter and S/U grading. May be repeated in the same or subsequent terms. No more than 12 hours of special problems, research, thesis and/or individual studies may be counted toward degree. Prerequisites: Cumulative GPA of 2.5 or above at the time the activity is arranged and consent of instructor.
**FSHN 302  Sensory Evaluation of Foods**  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/302)
This course is devoted to learning the 1) physiological and psychological basis of human subjects, 2) chemistry of aroma and taste, 3) basic sensory methodologies in food evaluation, and 4) analysis and interpretation of sensory data. Additional fees may apply. See Class Schedule. Prerequisite: Recommended to students in junior and senior levels. Recommended to have taken foundational statistics course, i.e., STAT 100, STAT 200 or FSHN 440.

**FSHN 312  Applied Microbiology Methods**  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/312)
Consideration, through experimentation, of properties of bacteria, yeasts, molds, and actinomycetes important to industrial processes; exploration of methods of control of microbial processes in industry and sanitation. Prerequisite: MCB 100 and MCB 101 or consent of instructor.

**FSHN 322  Nutrition and the Life Cycle**  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/322)
Examines physiological changes that occur during gestation, postnatal growth, and aging and the influence of these changes on nutritional requirements. Prerequisite: FSHN 220 or consent of instructor.

**FSHN 329  Communication in Nutrition**  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/329)
Application and integration of the principles of nutrition and their transmission to groups and individuals. Students will learn individual counseling techniques as well as how to present nutrition information to groups. Open to Dietetics and Human Nutrition juniors and seniors only. Prerequisite: RHET 105, CMN 101, and FSHN 220 or equivalents.

**FSHN 340  Food Production and Service**  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/340)
Introduction to the management of commercial and noncommercial foodservice systems through the operation of Bevier Cafe. Students experience managing the procurement, production and service of food, as well as the sanitation and maintenance of equipment and facilities. Prerequisite: FSHN 332, credit or concurrent registration in FSHN 349 and FSHN 345.

**FSHN 343  Foundations in Beverage Management: Introduction to Wine, Beer and Spirits**  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/343)
The course will focus on the application of principles and practices related to preparation and service of alcohol and specialty beverages in the hospitality industry. The course includes a study of management principles, study of bar operations, human resources and liability protection. Intrinsic to excellent service is having an understanding of proper tasting skills and knowledge to be able to verbalize nuances within the wine or spirit. Structured tastings will be utilized to discover, identify and describe attributes of the beverage. Successful completion of alcohol handler training required to maintain course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: All registrants must be 21 years of age or older.

**FSHN 344  Business Etiquette**  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/344)
The fundamentals of business etiquette as they are applied to the modern multicultural and global business environments. Content includes the importance of the first impression, polite conversation, personal appearance, office politics, diplomacy, telephone and cell phone etiquette, high-tech etiquette, proper oral and written communication, and the protocol of meetings both in the United States and abroad. Students will also participate in a formal dining experience. Offered every other year. Prerequisite: Junior standing.

**FSHN 345  Strategic Operations Management**  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/345)
This course is intended to promote an understanding of the managerial aspects of strategic operations. Strategic operations management examines facilities, capacity, process/work-force planning, organization, people, systems integration, and coordination between operations. An introduction to the principles and procedures for the purchasing, selection and procurement of food and non-food items in the hospitality industry is also included. This course provides students with the management information needed to make operational decisions based on sound criteria. Prerequisite: FSHN 232.

**FSHN 349  Food Service Sanitation**  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/349)
Examines the dangers, costs and prevention of foodborne illness as well as the training and motivation of food service employees in sanitary food handling and quality assurance practices. Upon completion of this course, student will be eligible to apply for the food service sanitation certificate issued by the State of Illinois. Prerequisite: FSHN 101 and FSHN 232, or consent of instructor; MCB 100 and MCB 101 recommended. Course should be taken concurrently with or prior to FSHN 340.

**FSHN 396  UG Honors Research or Thesis**  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/396)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated in the same or subsequent terms. No more than 12 hours of special problems, research, thesis and/or individual studies may be counted toward the degree. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

**FSHN 398  Undergraduate Seminar**  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/398)
Group discussion on a special topic in a field of study directly pertaining to subject matter in food science and human nutrition. Approved for Letter and S/U grading. May be repeated in the same or subsequent terms to a maximum of 12 hours. Prerequisite: Sophomore standing.

**FSHN 414  Food Chemistry**  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/414)
Examines the chemical aspects of major food components; water, carbohydrates, proteins, and lipids; properties of pigments, salts, and food dispersions. Undergraduate Food Science majors must enroll concurrently in FSHN 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 232.

**FSHN 416  Food Chemistry Laboratory**  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/416)
Chemical and physical properties of water, proteins, lipids, carbohydrates, and other food components/additives are discovered in the context of their interactions and functional roles in foods. 2 undergraduate hours. 2 graduate hours. Prerequisite: CHEM 232 and concurrent enrollment in FSHN 414.

**FSHN 417  Neuroscience of Eating & Drinking**  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/417)
Same as NEUR 417 and PSYC 417. PSYC 417.

**FSHN 418  Food Analysis**  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/418)
Principles and application of the chemical, physical, and instrumental methods used to determine the constituents of foods; special considerations applicable to the analysis of certain foods. Lecture and lab. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHEM 232; FSHN 414; FSHN 416 or consent of instructor.
FSHN 419  Food Ingredient Technology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/419)
Explores the research, science and technology of the production of safe, high quality food ingredients through the application of food chemistry, food microbiology, and food processing principles. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 414 or consent of the instructor. FSHN majors only, junior standing required.

FSHN 420  Nutritional Aspects of Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/420)
Examines nutritional, biochemical, and physiological aspects of disease processes and studies the role of nutrition in prevention, management, and treatment of disease. Same as NUTR 420. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220 or comparable course with a physiology prerequisite; MCB 450 or equivalent.

FSHN 421  Pediatric Clinical Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/421)
Examines physiological, biochemical and nutritional aspects of disease processes relevant to infants, children and adolescents. Topics covered include prematurity, developmental disabilities, inborn errors of metabolism, food allergy, obesity and eating disorders. The role of nutrition in prevention, management and treatment of disease is also covered. Offered every other year. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 420; FSHN 322 is highly recommended.

FSHN 423  Advances in Foods & Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/423)
New developments in foods and nutrition; readings, lectures, and discussions. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 220 and FSHN 332, or equivalent.

FSHN 425  Food Marketing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/425)
Same as ACE 430. See ACE 430.

FSHN 426  Biochemical Nutrition I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/426)
The dietary and hormonal regulation of carbohydrate, lipid and amino acid metabolism. Emphasizes the regulation of enzyme activity and the different roles the major organs have in whole animal energy balance. Same as NUTR 426. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220, or FSHN 120 and FSHN 414, and MCB 450 or concurrent enrollment.

FSHN 427  Biochemical Nutrition II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/427)
Biochemistry and metabolism of the water and fat soluble vitamins and minerals. Emphasizes the digestion, transport, metabolism and intercellular functions of these nutrients and how diet/food intake and physiological states affect these processes. Same as NUTR 427. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220, or FSHN 120 and FSHN 414, and MCB 450 or concurrent enrollment.

FSHN 428  Community Nutrition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/428)
Application of nutrition principles to needs assessments, program planning, delivery and evaluation in local, national, and international settings using behavioral theory frameworks. Same as NUTR 428. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 220 or equivalent, one introductory statistics course, and one course in the social or behavioral sciences.

FSHN 429  Nutrition Assessment & Therapy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/429)
Problem-based learning application (via cases) of the nutrition care process with emphasis on nutrition assessment, diagnosis, intervention, monitoring and evaluation, as related to the management and treatment of disease states. This course is the clinical capstone course for the dietetics curriculum. 3 undergraduate hours. 3 graduate hours. Prerequisite: FSHN 420, or concurrent enrollment required.

FSHN 440  Applied Statistical Methods I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/440)
Same as ABE 440, ANSC 440, CPSC 440, and NRES 440. See CPSC 440.

FSHN 442  Hospitality Management & Leadership Skills  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/442)
Application of behavioral science and management techniques, methods and strategies to the hospitality industry. Applied management techniques will focus on those managerial behaviors needed to develop and maintain positive and productive relationships with subordinates, peers, supervisors and individuals external to the hospitality organization. 3 undergraduate hours. No graduate credit. Prerequisite: FSHN 340 or consent of instructor.

FSHN 443  Management of Fine Dining  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/443)
Advanced application of food production and management principles to specific food service demands; emphasis on artistry in preparation, serving, and merchandising high quality food in quantity. 4 undergraduate hours. No graduate credit. Prerequisite: FSHN 340 and credit or concurrent registration in FSHN 442.

FSHN 450  Dietetics: Professional Issues  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/450)
Discussion of current topics in dietetics, professional issues (ethics, outcomes research, marketing, legislation, registered dietitian exam) and preparing for dietetic internships. Required of all dietetics students. 2 undergraduate hours. 2 graduate hours. Prerequisite: Senior standing in dietetics.

FSHN 453  Nutrition for Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/453)
Same as KIN 453. See KIN 453.

FSHN 460  Food Processing Engineering  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/460)
Examines application of process engineering principles to the conversion of raw agricultural materials into finished food products. Topics include basics of engineering analysis, units and dimensions, materials balances, energy balances, thermodynamics, heat transfer, psychrometry, refrigeration and mechanical separations. 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 101 and MATH 220; or consent of instructor.

FSHN 461  Food Processing I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/461)
Principles, unit operations, and applications of food preservation and processing by high temperature, refrigeration, and freezing processes; includes heat transfer, kinetics, chemical and microbial changes in food as a result of processing. Also, principles and applications of food processing unit operations based upon the combination of heat and/or mass transfer, including such unit operations as evaporation, freeze-concentration, membrane separation, dehydration, centrifugation, extrusion, as well as water activity control. Lecture-based course. 4 undergraduate hours. 4 graduate hours. Prerequisite: FSHN 414 or equivalent; FSHN 460 or equivalent, and FSHN 418. FSHN 260 is recommended.
FSHN 462 Food Processing II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/462)
Laboratory course for FSHN 461. Includes labs on blanching, pasteurization, sterilization, freezing, freeze drying, dehydration (tray drying, drum drying and spray drying), evaporation, and extrusion; discussion and labs. Additional fees may apply. See Class Schedule. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 461.

FSHN 464 Beverage Science & Technology credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/464)
Explores the research, science and technology of the production of safe, high quality beverages through the application of food chemistry, food microbiology, and food processing principles. 2 undergraduate hours. 2 graduate hours. Prerequisite: FSHN 414 or consent of instructor. FSHN juniors, seniors and grad students only.

FSHN 465 Principles of Food Technology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/465)
Overview of processing techniques in the food industry, including thermal/non-thermal processing, refrigeration, freezing, moisture removal, and separation. Presentations cover basic principles of each technology with examples of processing equipment. The changes of food components and nutrients caused by processing is also discussed. Lecture and field trips. 3 undergraduate hours. 3 graduate hours. Credit is not given for both FSHN 465 and the FSHN 461 - FSHN 462 sequence. Prerequisite: Food chemistry or biochemistry equivalent recommended. Undergraduate food science majors or graduate students specializing in food processing/engineering may not enroll in FSHN 465.

FSHN 466 Food Product Development credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/466)
Principles of food product development: target market evaluation, concept development and presentation, formulation, manufacturing, packaging, product costs, pricing, safety, and marketing. May include a product in accordance with Institute of Food Technologists national competition guidelines. Products will be unveiled and presented for faculty evaluation. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours in separate terms if topics vary. Prerequisite: FSHN 332 or FSHN 414; FSHN 471 or FSHN 472; concurrent registration or completion of FSHN 461 and FSHN 462, or FSHN 465. This capstone course is limited to seniors in the Food Science or Foods Industry and Business options in FSHN. Graduate students will be allowed to register pending sufficient space in the class.

FSHN 469 Package Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/469)
Cross-disciplinary study of the materials, machinery, research, design, techniques, environmental considerations, ethics and economics used in the global packaging industry with emphasis on the implementation of improved technologies for the problems unique to food packaging. An emphasis on the broad, systems-based nature of packaging will be maintained throughout the course. Same as ABE 482. 3 undergraduate hours. 3 graduate hours. Prerequisite: MATH 482. One each of 100-level Chemistry and Physics courses or their equivalent; junior-senior standing or higher, or consent of instructor.

FSHN 471 Food & Industrial Microbiology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/471)
Relationship of microorganisms to food manufacture and preservation, to food and industrial fermentation and processing, and to food-borne illness. Same as MCB 434. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 101 or MCB 301 or equivalent.

FSHN 480 Basic Toxicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/480)
Emphasizes basic toxicology principles and the pharmacokinetics, absorption, distribution, metabolism and excretion of drugs, non-nutrient dietary supplements and other compounds foreign to the body. Toxic effects on major target organ systems are discussed, including an introduction to how foreign compounds can initiate, enhance or prevent the carcinogenic process. Briefly surveys diverse areas of toxicology such as eco-, nano-, forensic, genetic, nutritional, clinical and reproductive toxicology; review the federal regulatory aspects of safety assessment and consumer protection. Same as CB 449, CPSC 433, and ENV 480. 3 undergraduate hours. 3 graduate hours. Prerequisite: Biochemistry - MCB 450 or equivalent, or consent of instructor.

FSHN 499 Cur Topics in FS & Human Nutr credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/499)
Group discussion or an experimental course on a special topic in food science and human nutrition. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated in the same or subsequent terms to a maximum of 12 hours as topics vary.

FSHN 502 Advanced Sensory Science credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/502)
In-depth and current topics in sensory science beyond the scope of undergraduate sensory course, FSHN 302. The main course objectives are to 1) discuss the physiological and psychological basis for sensory evaluation, 2) discuss Thurstonian Modeling in Difference Tests, 3) utilize multivariate statistical methods in sensory studies, 4) critique current research papers and articles in the sensory science discipline, and 5) develop a proposal for research utilizing sensory methods. Prerequisite: Undergraduate sensory science course, such as FSHN 302. Graduate students only.

FSHN 510 Topics in Nutrition Research credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/FSHN/510)
Same as ANSC 525 and NUTR 510. See NUTR 510.

FSHN 511 Regulation of Metabolism credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/511)
Same as ANSC 521 and NUTR 511. See NUTR 511.

FSHN 514 Advanced Food Chemistry credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/514)
Emerging issues related to the chemistry of water, carbohydrates, lipids and proteins, as well as postharvest physiology and impact of processing on chemical reactions in foods. Prerequisite: Organic CHEM 232, or equivalent.

FSHN 517 Fermented &Distilled Beverages credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/517)
The production technology, microbiology and chemistry (including the compositional chemistry, flavor chemistry, and chemistry of aging) of fermented and distilled beverages. Additional fees may apply. See Class Schedule. Prerequisite: Graduate student status, or a food microbiology course and a food chemistry or biochemistry course.

FSHN 518 Chemistry of Lipids in Foods credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/518)
Detailed examination of the chemical and physical properties of lipids in foods. Offered every other year. Prerequisite: A food chemistry or biochemistry course is highly recommended.
FSHN 519  Flavor Chemistry and Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/519)
Provides graduate students with the tools and understanding necessary for the study of complex food flavor systems. Students will learn: 1) modern techniques of analysis used in the chemical evaluation of food flavor systems, 2) accepted techniques for the sensory evaluation of food flavor, 3) approaches for combined sensory-analytical evaluation of food flavor and 4) principles of food flavor chemistry with emphasis placed on some well-understood flavor systems. Offered every other year. Prerequisite: FSHN 414 and FSHN 418 or equivalent.

FSHN 520  Advanced Clinical Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/520)
Same as NUTR 561. See NUTR 561.

FSHN 530  Childhood Obesity I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/530)
Same as CHLH 530, HDFS 551, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

FSHN 531  Childhood Obesity II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/531)
Same as CHLH 531, HDFS 552, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

FSHN 550  Grantsmanship and Ethics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/550)
Same as NUTR 550. See NUTR 550.

FSHN 563  Food Materials Science  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/563)
Study of the structure of foods that confer attributes such as soft, crunchy, juicy, creamy, and many others. Foods will be probed at the micro and nano scales. The goal is to better understand, predict, and design food properties and functionalities. 2 graduate hours. No professional credit. Prerequisite: FSHN 414 (Food Chemistry) or equivalent.

FSHN 573  Advanced Food Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/573)
Detailed examination of food microbiology topics including food-borne pathogens, food fermentation and microbial spoilage. Prerequisite: Graduate student standing or consent of instructor.

FSHN 574  Value Added Biotransformation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/574)
Crop residues, renewable biomass, and agricultural wastes as sustainable and inexpensive substrates for producing value added products through enzymatic and microbial conversion processes. Concepts and applications of metabolic engineering. 3 graduate hours. No professional credit. Prerequisite: FSHN 471.

FSHN 575  Issues in Food Safety  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/575)
Current issues affecting the safety of the food supply including emerging pathogens, food additives and pesticides, genetically modified organisms and new technologies will be evaluated in the context of current scientific knowledge, United States food law, and consumer opinions. Offered every other year. Prerequisite: Graduate standing.

FSHN 590  Dietetic Internship I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/590)
Supervised learning experience in a variety of settings and locations related to clinical nutrition, community nutrition and health promotion, and food service management within Urbana/Champaign and surrounding areas. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. Prerequisite: Enrollment in dietetic internship program.

FSHN 591  Dietetic Internship II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/591)
Supervised learning experience in a variety of settings and locations related to clinical nutrition, community nutrition and health promotion, and food service management within Urbana/Champaign and surrounding areas. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. Prerequisite: FSHN 590.

FSHN 592  Graduate Internship Experience  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/592)
Supervised, off-campus experience in a field related to a students' option/concentration. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 12 hours.

FSHN 593  Seminar in Foods and Nutrition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/593)
Communication-based course that focuses on enhancing professional oral presentation skills, particularly with regard to communicating current food science and/or human nutrition topics. 2 graduate hours. No professional credit. Prerequisite: Undergraduate degree in foods, nutrition, or comparable background in chemistry, microbiology, physiology, or other biological science; consent of instructor.

FSHN 595  Advanced Topics in Food Science and Human Nutrition  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/595)
Studies of selected topics in Food Science. Study may be on specialized topics in any one of the following fields: food chemistry, food microbiology, nutrition, food processing/engineering. Lectures and/or laboratory. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary. Students may register only once for a given topic. Prerequisite: Graduate level status or consent of instructor.

FSHN 597  Graduate Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/597)
Discussions on specialized research topics and current literature relating to food science and human nutrition. Required of all graduate students. 0 or 1 graduate hour. No professional credit. Approved for letter and S/U grading.

FSHN 598  Advanced Special Problems  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/598)
Supervised individual study on advanced special problems in food science and human nutrition. Approved for letter and S/U grading. May be repeated in the same or subsequent semesters. (Summer session: 1 to 4 graduate hours). Prerequisite: Written consent of instructor must be obtained prior to enrollment.

FSHN 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FSHN/599)
Original research designed and conducted under graduate faculty supervision. Approved for S/U grading only. May be repeated.
Foreign Language Teacher Education (FLTE)

FLTE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FLTE)

Courses

FLTE 471  Introduction to Second Language Teaching  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FLTE/471)
Introduction to contemporary approaches to language teaching, teaching as a profession, and second language acquisition theory. Includes two teaching components and 45 hours of early field experience. 4 undergraduate hours. No graduate credit. Credit is not given for FLTE 471 and any of the following courses: CHIN 471, FR 471, GER 469, JAPN 471, HUM 471, LAT 471, RUSS 471, SPAN 471. Prerequisite: Admission to a qualifying teacher education program. Early field experiences require Illinois State criminal background check and other training.

FLTE 475  Learning to Teach World Language credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FLTE/475)
Course focuses on pedagogy, teacher knowledge and efficacy, and the development of professional dispositions for use in K-12 teaching. Emphasis is on preparing for the edPTA through lesson planning and assessment development. Includes multiple teaching components and 55 hours of early field experience. 4 undergraduate hours. No graduate credit. Credit is not given for FLTE 475 and any of the following courses: CHIN 475, GER 475, JAPN 475, FR 475, LAT 475, RUSS 475, SPAN 475. Prerequisite: Successful completion of FLTE 471.

FLTE 478  Secondary World Language Teaching credit: 1 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FLTE/478)
Course focuses on practical aspects of high school teaching and learning in the 21st century. Emphasis on teaching world languages at the secondary level. Majors topics include teaching with technology, unit planning, instructional methods, assessment development, and classroom management. 1 or 3 undergraduate hours. No graduate credit. May be repeated in separate semesters to a maximum of 4 hours. Credit is not given for FLTE 478 and any of the following courses: CHIN 478, FR 478, GER 478, JAPN 478, LAT 478, RUSS 478, SPAN 478. In the fall semester, students enroll for 3 hours with instruction occurring in the first 10 weeks. In the spring semester, students enroll for 1 hour with instruction occurring in the first 4 weeks. At the end of the fall semester, students will have completed all Early Field Experiences in accordance with the ISBE/CoTE requirement that teacher candidates fulfill all EFE hours prior to Student Teaching. Prerequisite: Successful completion of FLTE 471 and FLTE 475.

French (FR)

FR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/FR)

Courses

FR 101  Elementary French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/101)
Four-skill course leading toward elementary proficiency in oral expression, listening comprehension, reading, writing, and cultural understanding. Online language laboratory and internet assignments required.

FR 102  Elementary French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/102)
Continuation of FR 101. Introduces cultural and supplementary enrichment materials; requires online laboratory sessions as in FR 101. Prerequisite: FR 101 or one year of high school French.

FR 103  Intermediate French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/103)
Continuation of FR 102. Introduces students to a full range of structures to complete their initial study of the grammatical system; emphasizes the development of all four skills and cultural understanding through readings and audiovisual enrichment materials. Online language laboratory and internet assignments required. Students planning to major or minor in French should take FR 133 in lieu of FR 103. Prerequisite: FR 102 or equivalent, or a placement score showing high school achievement equivalent to FR 102.

FR 104  Intermediate French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/104)
Continuation of FR 103. Comprehensive grammar review with emphasis on oral expression and the continued development of reading and written skills. Completion satisfies graduation requirement in the College of Liberal Arts and Sciences. Students planning to take advanced French courses should take FR 134 in lieu of FR 104. Prerequisite: FR 103 or equivalent, or a placement score showing high school achievement equivalent to FR 103.

FR 133  Accel Intermediate French I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/133)
Similar to FR 103, but accelerated for those interested in pursuing French in advanced courses; includes comprehensive grammar review and readings in literature and culture. Prerequisite: FR 102, or two semesters of college French, or a placement score showing high school achievement equivalent to FR 102. Normally for students with a “B” average in French or with consent of instructor.

FR 134  Accel Intermediate French II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/134)
Continuation of FR 133. Comprehensive grammar review and readings in French literature and culture preparatory for continued work at the advanced level; emphasizes all four skills and culture. Prerequisite: FR 133, or FR 103 with department approval, or three semesters of college French, or a placement score showing high school achievement equivalent to FR 103.

FR 156  Exploring Paris  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/156)
Examines the role of Paris in French culture through literature, art, and film. We will consider the city of Paris from its earliest beginnings to the modern era, as a physical, social, and symbolic reality. Through literature, art, and film we will explore the ways in which Paris is at the center of French political and intellectual life. Additionally, close attention will be paid to historical and political developments and their representation. All readings are in English and the course is conducted in English. This course satisfies the General Education Criteria for: Humanities - Lit Arts Cultural Studies - Western
FR 179  Migration & Fr Nat ID  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/179)
Studies books and films that emphasize cultural difference and the complexities of the post-colonial world, focusing on the impact of migration and cultural interaction on contemporary France. Stresses themes of immigration and exile, tensions between relations of domination and exploitation and between colonizing and colonized peoples, and the cultural pluralities of community and nation.

FR 191  Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/191)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time. Prerequisite: Consent of departmental honors advisor.

FR 195  French Intellectual Tradition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/195)
Close reading and in-depth discussion of texts by major French intellectuals from the sixteenth to the mid-twentieth century. Aims to explore the centrality of epistemology (How can we know? Can we know that which we know is true? How can we reason in the face of evil?) in selected texts that will be discussed within their historical contexts, investigating why these issues were raised then and how their contemporaries might have responded to them, as well as their relationship to issues still debated in the twenty-first century. Taught in English.

This course satisfies the General Education Criteria for: Humanities - Hist Phil

FR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/FR/199)
Credit: 1 to 5 hours. May be repeated.

FR 205  Oral French  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/205)
Developing oral facility and aural comprehension, focusing on everyday events. Prerequisite: FR 104 or FR 134 or equivalent.

FR 207  Writing and Grammar Workshop  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/207)
Practice-intensive grammar review and vocabulary-building, with an emphasis on strategies to improve accuracy of, and expressivity in, speaking and writing in French. Grammar textbook supplemented with readings and materials from French and Francophone culture (articles, social media, literary works, films). Prerequisite: Four years of high school French or equivalent, or FR 134 or, with departmental approval, FR 104.

FR 208  Critical Writing and Reading  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/208)
Intensive practice of writing and reading skills in French, emphasizing vocabulary and critical concepts important to analyzing literary and cultural texts. Prerequisite: FR 207 or equivalent must be taken prior to this course.

FR 211  Introduction to Literary Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/211)
Introduction to concepts of modernity and questions of representation, through French texts from the nineteenth through the twenty-first centuries. Analysis of diverse literary forms (poems, plays, narratives), and use of resources for literary, historical and cultural research. Strengthening of reading, writing and speaking skills in French through research projects, writing assignments and revisions, and oral presentations. Prerequisite: FR 207 or equivalent.

FR 212  Introduction to Cultural Analysis: French Identities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/212)
Introduction to concepts of and debates on French national identity. Materials are drawn from a multiplicity of media and from many spheres of modern life in France: political, artistic, the everyday, etc. Identification of major resources for the study of culture and analysis of diverse cultural texts. Strengthening of reading, writing and speaking skills in French through a wide range of exercises and projects. Prerequisite: FR 207.

FR 213  French Phonetics  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/213)
Practical introduction to French phonetics, stressing pronunciation. Prerequisite: FR 104 or FR 134 or equivalent.

FR 240  Constr Afr and Carib Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/240)
Introduces students to cultural pluralism by comparing and contrasting African and Caribbean identities, as they are represented in literature and film. Taught in English. Same as AFST 209, CWL 225, and LAST 240. Credit is not given towards the major or minor in French. This course satisfies the General Education Criteria for: Cultural Studies - Non-West

FR 299  Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/FR/299)
Lectures, seminars, and practical work in French language, literature, civilization, and in other academic areas appropriate to the student's course of study. Approved for Letter and S/U grading. May be repeated in the same term to a maximum of 18 hours; may be repeated in separate terms to a maximum of 36 hours; may be repeated in a summer session to a maximum of 8 hours; maximum of 34 hours per academic year. Prerequisite: FR 205; 2.75 overall average; 3.0 average in French courses.

FR 301  Medieval and Early Modern Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/301)
Overview of French literature from the Middle Ages to the Revolution in its historical context. Taught in French. Credit is not given for FR 209 and FR 301. Prerequisite: FR 211 and FR 212.

FR 309  Poetry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/309)
The study of major movements and figures in French poetry. Traditions and innovations. Poetic genres. Introduction to versification and metrics. Close readings of individual poems. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 311  Narrative Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/311)
Reading and interpretation of selected French novels and short narratives from all periods. History and analysis of narrative literature as a genre. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 312  Theater and Performance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/312)
Reading and interpretation of plays and other performative genres, with attention to historical development and critical analysis. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.
FR 314 Advanced Grammar in Context credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/314)
Advanced practical study of present-day French, with an emphasis on grammar, free composition and a consideration of various cultural contexts of language use. Credit is not given for FR 314 and FR 414. Prerequisite: FR 207.

FR 319 Introduction to Francophone Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/319)
Examination of selected major novels from the French-speaking world outside France along thematic and formal lines; literary responses to colonialism, political independence and departmentalization in a variety of former (and current) French territories; study of critical approaches to narrative and related issues of individual and communal identity and culture. Same as CWL 317. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 322 Movements and Perspectives credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/322)
Focused study and discussion of a major literary movement or critical perspective. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 323 Major Literary Figures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/323)
Presents the works of one or several major figures of French or francophone literary traditions in their cultural contexts. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 324 Literature and the Other Arts credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/324)
Explores relationships between French literature and such fields as art, architecture, and music. Topics will vary. May be repeated to a maximum of 6 hours. Prerequisite: FR 207, FR 211, and FR 212; or equivalents.

FR 335 French Cultural History to 1789 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/335)
Survey of French cultural history from the Middle Ages to the French Revolution. Taught in French. Credit is not given for FR 335 and FR 435. Prerequisite: FR 211 and FR 212.

FR 336 French Cultural History 1789-1968 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/336)
Survey of French cultural history from the French Revolution to 1968. Taught in French. Credit is not given for FR 336 and FR 436. Prerequisite: FR 211 and FR 212.

FR 337 Contemporary France credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/337)
Overview of major cultural, social, and political issues and debates in late 20th- and 21st-century France. Topics may include: political life; definitions of the French Republic; the government and social policies; evolving views on sexuality, gender and the family; France and the European Union; professional life and labor laws; immigration; the cultural identity of France; new media. Some readings in English. Class discussion and written work in French. Prerequisite: FR 207, FR 211, FR 212.

FR 345 Modern African Fiction credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/345)
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from approximately 1950 to the present. Selected trends studied through films from several countries with stress on major French filmmakers including Lumiere, Melies, Gance, Clair, Vigo, Renoir, Carne, Cocteau, Prevert, Clouzot. Knowledge of French not required. Same as CWL 387, HUM 387, and MACS 382.

FR 387 French & Comparative Cinema I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/387)
The art, techniques, sociology, politics of French cinema in the context of French culture, world history, and general film development from approximately 1950 to the present. Selected trends studied through films from several countries with stress on major French filmmakers such as Clouzot, Bresson, Chabrol, Resnais, Godard, Truffaut, Varda, Marker, Rohmer, Beineix, Kassovitz, and Assayas. Knowledge of French not required. Same as CWL 389, HUM 389, and MACS 383. Prerequisite: One college-level Media or Media and Cinema Studies course or consent of instructor.
FR 418 Language & Minorities in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/418)
Introduction to political, judicial, linguistic, and cultural issues concerning indigenous and migrant/immigrant languages in the countries of the European Union. Focuses on political and judicial issues, such as legal aspects of bilingual education and minority language use, as well as linguistic and cultural aspects, such as assimilation, language-mixing, and language change. Taught in English. Same as EURO 418, GER 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. 3 undergraduate hours. 4 graduate hours.

FR 419 Techniques in Translation I  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/419)
Practical course in the techniques of translating technical, commercial, scientific, and literary texts from English into French and vice versa. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 314 or consent of instructor.

FR 421 Techniques in Translation II  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/421)
Continuation of FR 419. Practical exercises in translating from French to English and vice versa in a variety of texts, along with an introduction to theoretical aspects of translation. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 419 or consent of instructor.

FR 443 Studies in French  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/443)
See Schedule for current topics. 3 undergraduate hours. 3 to 4 graduate hours. May be repeated in the same or separate terms to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: FR 419 or consent of instructor.

FR 460 Principles of Language Testing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/460)
Same as EIL 460, EPSY 487, GER 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.

FR 462 Introduction to Romance Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/462)
Same as ITAL 435, LING 462, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

FR 479 Studies in Francophonie  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/479)
Study of various topics in French language, literature, and culture outside of France. Regions may include francophone Africa, the Americas, Europe, and the Middle East. Same as CWL 434. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated to a maximum of 12 undergraduate hours or 16 graduate hours if topics vary.

FR 481 Theoretical Foundations of SLA  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/481)
Same as GER 489, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

FR 485 Commercial & Econ French I  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/485)
Studies French business practices: company structures, selling and buying techniques, banking, import/export and other commercial negotiations, employment, formalities, and conventions of letter-writing; involves both theory and practice. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 314 or equivalent, or consent of instructor.

FR 486 Commercial & Econ French II  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/486)
Emphasizes business correspondence and simulation of business practices in the areas introduced in FR 485; also focuses on geographic and economic topics pertaining to France within the European community and Europe in general. 3 undergraduate hours. 2 graduate hours. Prerequisite: FR 485 or equivalent, or consent of instructor.

FR 492 Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/FR/492)
For candidates for honors in French and for other seniors. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing.

FR 498 Senior Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/FR/498)
Studies in authors, genres, themes, and movements in French literature; conducted entirely in French. 3 undergraduate hours. No graduate credit. May be repeated. Prerequisite: Senior standing.

FR 500 Beginning French Grads  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/500)
Basic grammar, vocabulary, and reading practice; designed for graduate students desiring help in preparing for the French reading requirements for the Ph.D. Credit is not given toward a graduate degree.

FR 501 Reading French Grads  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/501)
Grammar, vocabulary, and general and special reading; designed for graduate students desiring help in preparing for the French reading requirements for the Ph.D. Credit is not given toward a graduate degree. Prerequisite: FR 500, or FR 101 and FR 102, or equivalent.

FR 503 The Study of Culture I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/503)
Study of major artistic, historical, political, and literary aspects of France up to the French Revolution with emphasis on the relationship between literature and other aspects of French culture.

FR 504 The Study of Culture II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/504)
Study of major artistic, historical, political, and literary aspects of France from the French Revolution to the present with emphasis on the relationship between literature and other aspects of French culture.

FR 505 Teaching College and Secondary Foreign Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/505)
Examination and discussion of classroom goals, procedures and techniques in teaching a foreign language (French, Italian) at the college and secondary level, associated with a demonstration class and supervision of teaching practice. Required of new teaching assistants in the Department of French and Italian. Same as ITAL 505. 4 graduate hours. No professional credit.

FR 529 Studies in French Linguistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/529)
Variable topics course dealing with both synchronic and diachronic aspects of the French language. May be repeated if topics vary.

FR 530 Introduction to Research and Text Criticism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/530)
Proseminar in literary studies: research and methods; approaches to the literary text. Required of all M.A. and Ph.D. candidates. Same as ITAL 530. 4 graduate hours. No professional credit.
FR 543  French Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/543)
Flexible course limited only by the concentration of its material in French; may be activated by faculty proposal. May be repeated to a maximum of 16 hours if topics vary.

FR 552  Studies French & Comp Cinema  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/552)
Historical, aesthetic, social, and technical studies of the French cinema; its development and relation to world cinema and to literature. Same as CWL 552. May be repeated to a maximum of 12 hours.

FR 559  Sem Romance Ling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/559)
Same as ITAL 559, LING 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

FR 570  Seminar Old French Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/570)
Discussion and research on a specialized topic in Old French literature. See Schedule for current topic. Same as MDVL 570. 4 graduate hours. No professional credit. May be repeated. Prerequisite: Consent of instructor.

FR 571  Seminar 16thC French Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/571)
Discussion and research on a specialized topic in sixteenth-century French literature. See Schedule for current topic. May be repeated.

FR 572  Seminar 17thC French Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/572)
Discussion and research on a specialized topic in seventeenth-century French literature. See Schedule for current topic. May be repeated.

FR 573  Seminar 18thC French Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/573)
Discussion and research on a specialized topic in eighteenth-century French literature. See Schedule for current topic. May be repeated.

FR 574  Seminar 19thC French Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/574)
Discussion and research on a specialized topic in nineteenth-century French literature. See Schedule for current topic. May be repeated.

FR 576  Seminar in Francophonie  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/576)
Discussion and research on a specialized topic in literature in French outside of France. See Schedule for current topic. 4 graduate hours. No professional credit. May be repeated in separate terms if topics vary.

FR 578  Seminar 20thC French Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/578)
Discussion and research on a specialized topic in twentieth-century French literature. See Schedule for current topic. Same as CWL 578. May be repeated.

FR 579  Seminar in French Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/579)
Discussion and research on a specialized area in French literature. See Schedule for current topic. May be repeated.

FR 580  Classroom Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/580)
Same as EIL 580, GER 580, ITAL 580, PORT 580, SLS 580, and SPAN 580. See SPAN 580.

FR 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/584)
Same as CI 584, EALC 584, EPSY 563, GER 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

FR 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/FR/588)
Same as EALC 588, GER 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

FR 591  Individual Topics  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/FR/591)
Prerequisite: Graduate standing with a major or minor in French.

FR 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/FR/599)
Approved for S/U grading only. May be repeated.

Gender and Women's Studies (GWS)
GWS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/GWS)

Courses
GWS 100  Intro Gender & Women's Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/100)
Interdisciplinary introduction to the study of gender, women, and sexuality. Addresses issues such as social experience, representation and popular culture, femininities and masculinities, family structure, education, employment, economics, literature and the arts, religion, history, and technology. Explores interrelationships of race, ethnicity, sexuality, gender, ability, and age from a transnational perspective. Same as HDFS 140 and SOC 130. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 103  Black Women in the Diaspora  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/103)
Same as AFRO 103 and AFST 103. See AFRO 103. This course satisfies the General Education Criteria for: Cultural Studies - US Minority

GWS 150  Contemp Women's Issues  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/150)
Explores the most recent debate and research related to contemporary issues which affect primarily women. Reviews issues related to sexual and domestic violence, gender socialization, feminization of poverty, women's health, sexual harassment, work and family, politics, and media influences from a multi-discipline and multi-cultural perspective.

GWS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GWS/199)
Approved for letter and S/U grading. May be repeated.

GWS 201  Race, Gender & Power  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/201)
Presents multiple windows into perceptions and perspectives upon gender, sexuality, power, identity and culture, and their multiple intersections. The concept of race in its many manifestations is used to examine relationships of self to society, state institutions and cultures. By paying greater attention to race and power, nuanced understandings of the way the gender systems are maintained, patrolled and formed will be examined. Topics may include: film, media, technology, culture, religion, identities, sexualities. Same as SOC 201. This course satisfies the General Education Criteria for: Cultural Studies - Western

Information listed in this catalog is current as of 07/2019
GWS 202  Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/202)
Surveys sexualities from multiple perspectives, standpoints, disciplines, and theories. How have different cultures, different people, and different viewpoints understood, shaped, and interpreted sex, sexualities and genders? Course places the concept of sexuality at its core to examine citizenship, education, reproduction, science, tourism, urban/rural space, and politics. Topics may include: gender, race, identities, power, transformation, reproduction. Same as SOC 202.
This course satisfies the General Education Criteria for: Humanities - Hist Phil

GWS 204  Gender in Gaming  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/204)
Examines the history of gender in videogames, focusing on how movements like #GamerGate, #RaceFail09, internet bullying, doxing and trolling emerged as the coordinated effort to consolidate and maintain videogames and geek culture as the domain of masculinity and whiteness. We also consider how the embodied elements of play as well as the spatial logics of games function to promote and resist representation, and we will end by looking at how games designed by women and people of color are transforming how and why we play games. Same as ENGL 277 and MACS 204.

GWS 215  US Citizenship Comparatively  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/215)
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

GWS 218  Intro to Social Issues Theatre  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/218)
Same as THEA 218. See THEA 218.

GWS 225  Women in Prehistory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/225)
Same as ANTH 225. See ANTH 225.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 226  Black Women Contemp US Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/226)
Same as AFRO 226 and SOC 223. See AFRO 226.

GWS 230  Latina/o Genders & Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/230)
Same as LLS 230. See LLS 230.
This course satisfies the General Education Criteria for: Cultural Studies - US Minority

GWS 240  Sex & Gender in Antiquity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/240)
Same as CLCV 240 and CWL 262. See CLCV 240.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

GWS 245  Wives, Workers and Witches in Pre-Modern Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/245)
Same as HIST 245 and MDVL 245. See HIST 245.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

GWS 249  Gender and Representation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/249)
Focusing primarily on gender, race, sexuality, and their intersections, this introductory course analyzes the politics of representation drawn from popular culture, painting, television and film, literature, music, religion, and new media.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 250  Gender and Representation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/250)
Focusing primarily on gender, race, sexuality, and their intersections, this introductory course analyzes the politics of representation drawn from popular culture, painting, television and film, literature, music, religion, and new media.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 255  Queer Lives, Queer Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/255)
Investigates queer lives in relation to dominant ideas about "deviance" and "equal rights." Drawing on case studies, the course investigates questions related to nation, race, economy, bodies, drugs, health, identities, agency and action as they intersect with contemporary queer politics. Students will learn conceptual and qualitative methods to investigate issues related to queer lives. Same as SOC 255.

GWS 258  Sex in Nature and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/258)
Same as ANTH 258. See ANTH 258.

GWS 261  Gender in a Transnational Perspective  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/261)
Same as SOC 261. See SOC 261.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 262  Women's Lives  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/262)
Same as ANTH 262. See ANTH 262.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

GWS 263  US History of Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/263)
Same as HIST 263. See HIST 263.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

GWS 270  Sexuality and Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/270)
Same as GER 270 and CWL 272. See CWL 272.
This course satisfies the General Education Criteria for: Humanities - Lit Arts

GWS 272  Women and Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/272)
Same as PS 272. See PS 272.

GWS 275  The Politics of Fashion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/275)
Interdisciplinary examination of clothing as a medium for fashioning identities and the political and social tensions embodied in its fabrications. Through the politics of dress, the course investigates the inseparable links between cultures, aesthetics, and politics, as demonstrated in debates about Muslim practices of veiling, the role of clothing in colonialism's "civilizing" mission, immigrant and "third world" sweatshop labor and globalization, fashion policing and subcultural style, and the fashion and modeling industries. Looks at the role of gender, as well as race, nation, and sexuality, as relations of power and as critical factors for social life and creative imagination. Same as AAS 275.

GWS 280  Women Writers  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/280)
Same as ENGL 280. See ENGL 280.
GWS 281  Women in the Lit Imagination credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/281)
Same as ENGL 281. See ENGL 281.

GWS 285  US Gender History to 1877 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/285)
Same as HIST 285. See HIST 285.
This course satisfies the General Education Criteria for: Humanities - Hist Phil

GWS 286  US Gender History Since 1877 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/286)
Same as HIST 286. See HIST 286.
This course satisfies the General Education Criteria for: Humanities - Hist Phil

GWS 287  African-American Women credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/287)
Same as AFRO 287 and HIST 287. See HIST 287.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - US Minority

GWS 288  Global Islam and Feminisms credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/288)
Examines gender and sexuality in Muslim-majority societies and diasporas. Introduces students to transnational feminist theories and methodologies in order to examine key issues and debates. Topics include constructions of femininity and masculinity, imperialism and neo-imperialism, Islamic feminisms and exegesis, nationalisms, war and violence, sexuality, diaspora and transnationalism, and race and racialization. Same as AAS 288.
This course satisfies the General Education Criteria for: Cultural Studies - Non-West

GWS 295  Beginning Topics GWS credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/295)
Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 hours; may be repeated in separate terms to a maximum of 12 hours.

GWS 305  Theories of Race, Gender, and Sexuality credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/305)
Same as AAS 300 and LLS 305. See AAS 300.
This course satisfies the General Education Criteria for: Advanced Composition

GWS 315  War, Memory, and Cinema credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/315)
Same as AAS 315. See AAS 315.

GWS 320  Gender & Latina/o Migration credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/320)
Same as LLS 320 and SOC 321. See LLS 320.

GWS 325  Lesbian/Queer Media Cultures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/325)
Discusses how various LGBT/Q communities were consolidated or drawn together by print and invented in the very acts of writing, distributing, purchasing, and reading print artifacts. Students examine early homophile publications, the rise of presses dedicated to LGBT/Q literature, independent bookstores and distribution networks, as well as the contemporary world of zines, blogs, chatrooms, fanfiction, and online journals, to see the intersection of sexuality, community, identity, and the print sphere. Students will learn how to historicize the rise of various LGBT/Q subcultures through a long history of print and how to navigate and understand the gregarious contemporary world of online publishing and social networking. Prerequisite: Previous course in GWS recommended.

GWS 333  Memoir & Autobiography credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/333)
Explores the phenomenon of autobiography in the contemporary world. Students will read theories of autobiography, and ask questions about how writing about the self is gendered, and how representations of the self fare in the outside world. An important aspect of the course will be examinations of how changing media such as film, television talk shows and the Internet shape these representations. Students will be assigned to read and make a presentation on one of the supplementary texts of autobiographies chosen from authors in the First and Third worlds. Same as ENGL 333.

GWS 334  Brazilian Women's Lit Trans credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/334)
Same as PORT 334. See PORT 334.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

GWS 335  Film, TV, and Gender credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/335)
Examines the history and theory of film, television, and their interrelationship through one or more specific case studies. Topics may include: film and feminist movements; girl films; queer TV; gender, sport and TV. Focuses attention on gender and related issues such as race, ethnicity, sexuality, age, ability and disability, class, and nationality. Addresses issues of representation, narrative, genre, industry, audience, exhibition, media convergence, new and mobile media, and social space. Same as MACS 335.

GWS 337  Interrogating Masculinities credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/337)
Explores the social construction of gender as it pertains to masculinities in conjunction with analyses of race, class, gender, ability, and sexuality. Masculinities, in its various forms, shapes and lives of both women and men this course will examine the construction, reproduction, and impact of masculinities on the institutions of politics, education, work, religion, sports, family, media, and the military to name a few. Paying careful attention to the conjunctions between materiality and culture, this course will interrogate how masculinities shape individual lives, groups, nationalisms, organizations, and institutions and will analyze the ways in which power functions within local transnational contexts. Above all, this course offers a road map for forging new, progressive models of masculinity.

GWS 340  Gender, Relationships & Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/340)
Same as HDFS 340 and SOC 322. See HDFS 340.
GWS 343 Criminalization and Punishment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/343)
Same as AAS 343, AFRO 343, AIS 343, and LLS 343. See LLS 343.

GWS 345 Digital & Gender Cultures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/345)
This interdisciplinary course uses the lens of gender critique and pairs it with social activism to provide students analytical tools to engage with, reshape, and create digital cultures. Examines recent research and public policies related to the gendered, raced, and classes dimensions of digital cultures and inequality; the broad range of labor issues embedded in the growing income disparity related to digital cultures; the various ways that digital inequality has been defined by public policy, sociologists, and activists, and real examples of collective activism and social change related to emerging technologies. Same as INFO 345, MACS 345, and SOC 345.

GWS 350 Feminist & Gender Theory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/350)
Interdisciplinary survey of feminist and gender theory. Traces developments in feminist theory and LGBT/Q approaches and explores contemporary debates.

GWS 355 Beauty and Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/355)
Examines beauty and culture, in particular how tropes, ideologies, and politics bolster the construction of beauty as an aesthetic value. Looks at the ways in which beauty is imagined, visualized, narrated, naturalized, reproduced, privileged, and contested through various venues such as art, performance, philosophy, media, history, and popular culture. Attention will be given to race, class, gender, sexuality, and the implications thereof.

GWS 356 Sex & Gender in Popular Media credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/356)
Same as MACS 356. See MACS 356. This course satisfies the General Education Criteria for: Cultural Studies - Western

GWS 360 Women and the Visual Arts credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/360)
Same as ARTH 360. See ARTH 360.

GWS 361 Women in East Asia credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/361)
Same as EALC 361. See EALC 361. This course satisfies the General Education Criteria for: Cultural Studies - Non-West Social Beh Sci - Soc Sci

GWS 363 Gender, Health & Pop Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/363)
Aspects of popular culture, including television, magazines, newspapers, social networking sites, and internet sources to name a few, are ways that health information is disseminated. Students will examine how we define health and understand disease as related to popular culture. Discusses how people resist or reinforce these messages about health, well being, fitness, and diet. Also discusses how understandings of race, sexuality and class affect the ways that we think about sickness, health and constructions of gender.

GWS 366 Feminist Disability Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/366)
Explores the complex relationship between gender and disability. Approaching disability as a social and political category rather than a strictly medical one, we will ask: how is the language of disability used to produce and police a variety of gender, sexual, and racial identities as non-normative? How might debates over medicine, technology, and the concept of "natural" pit gender and disability against one another? How have feminist, queer, and transgender scholarship and activism engaged disability? Prerequisite: One of the following: GWS 100, GWS 201, GWS 202.

GWS 370 Queer Theory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/370)
Traces the development of queer theory as a mode for understanding queer studies methodologies and the changing intellectual landscape of key issues in the field. As part of the course, students will review key concepts and theoretical schools of thought, navigating important debates guiding the field. Theories will engage questions of the social and cultural through topics including race, gender, nation, family, history, identity formation, sexology, the state, and capital. Same as SOC 320. Prerequisite: GWS 100, GWS 201, GWS 202, or consent of instructor.

GWS 376 Children and Youth Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/376)
Same as CWL 376, EURO 376, and SCAN 376. See SCAN 376.

GWS 378 Fairy Tales & Gender Formation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/378)
Discusses how femininity and gender formation are related through fairy tales. As children grow they are taught the difference between male and female roles. One of the main ways this instruction takes place is through the pleasurable media of fairy tales in books, poems, and more recently, films. Sleeping Beauty, Snow White, Beauty and the Beast, and the Little Mermaid, among others, will be examined to understand how sexual identity is constructed differently in different cultures, and how issues such as rape and incest are addressed within the narratives. The readings explore the ways that fairy tales work to express psychological reactions to maturation while conditioning both characters and readers to adopt specific social roles in adulthood. Same as ENGL 378.

GWS 380 Black Women Hist & Cultures credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/380)
Interdisciplinary study of black women's multiple histories and varied cultures including black women from North America, Africa, and the Caribbean. Same as AFRO 380. Prerequisite: AFRO 100 or GWS 100 or GWS 250 or consent of instructor. This course satisfies the General Education Criteria for: Cultural Studies - US Minority

GWS 382 Black Women & Popular Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/382)
Explores how Black women have been are currently portrayed in popular media, such as television, internet, movies, and popular mediums such as magazines, popular fiction, newspapers, and other cultural phenomenon. Examines what these portrayals reveal about Black women's role in society and how black women as consumer and participants respond to these stereotypes, and create alternative oppositional images. This course satisfies the General Education Criteria for: Cultural Studies - US Minority

GWS 383 Hist of Blk Women's Activism credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/383)
Same as AFRO 383 and HIST 383. See AFRO 383.
GWS 385 Transnational Sexualities credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/385)
Investigates the ways in which sexual identities change as national contexts change, as borders are imagined, valued, and crossed, and as definitions of race, gender, and religion shift. Interrogates how national and transnational identities (at home and abroad), modernites, histories, and colonial and global narratives are built on ideas of racialized sexualities, and as such, is particularly interested in the study of queer diaspora. Importantly, this course utilizes transnational feminist frameworks for re-thinking issues related to sexuality, immigration, nation-building, race and gender. Areas of inquiry include imperialism, immigration, war, terrorism and globalization. Same as HIST 385. Prerequisite: GWS 100, GWS 201 or GWS 202 or consent of instructor.

GWS 387 History of Sexuality in U.S. credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/387)
Explores a wide variety of sources to understand how notions of sexuality have emerged and been contested at key moments in U.S. history. Our guiding questions include: How have "official" or governing discourses of sexuality (in law, medicine, religions, science) been formulated? In turn, how have "ordinary" people understood and practiced their sexuality? How has the meaning of particular sexual practices changed over time? How have ideas about race, gender, and/or class been embedded within the discourse of sexuality at different moments in U.S. history? What methods of reading and interpretation are most useful for the historical study of sexuality? Also emphasizes skills such as critically analyzing primary sources within their historical context; interpreting different types of primary sources; locating, understanding, and evaluating scholarly secondary sources; and presenting historical arguments, based on both primary and secondary sources. Same as HIST 387.

GWS 390 Individual Study credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/390)
Special topics not treated in regularly scheduled classes. Approved for letter and S/U grading. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: One course in Gender and Women's Studies; consent of instructor.

GWS 392 Chicana&Latinas: Self&Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/392)
Same as LLS 392 and SOC 392. See LLS 392. This course satisfies the General Education Criteria for: Advanced Composition

GWS 395 Intermediate Topics GWS credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/395)
Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 hours; may be repeated in separate terms to a maximum of 12 hours.

GWS 397 Sexuality in Modern Europe credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/397)
Course Information: Same as HIST 397. See HIST 397.

GWS 399 GWS Internship credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/399)
Directed internship experience for GWS students. Students will complete course requirements in addition to holding a semester long internship. Students must have consent of the Internship Coordinator. Approved for Letter and S/U grading. Prerequisite: GWS major or minor; junior or senior standing and completion of six hours of coursework in GWS, or consent of the instructor.

GWS 403 Women in Muslim Societies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/403)
Same as ANTH 403, GLBL 403, HIST 434, REL 403 and SAME 403. See REL 403.

GWS 409 Women's Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/409)
Same as CHLH 409. See CHLH 409.

GWS 415 Africana Feminisms credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/415)
Same as AFRO 415 and AFST 420. See AFRO 415.

GWS 417 Leading Post-Perform Dialog credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/417)
Same as THEA 417. See THEA 417.

GWS 418 Devising Social Issues Theatre credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/418)
Same as THEA 418. See THEA 418.

GWS 421 Sex Role Theory in Counseling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/421)
Same as EPSY 421. See EPSY 421.

GWS 424 Gender & Race in Contemp Arch credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/424)
Same as ARCH 424. See ARCH 424.

GWS 432 Gender and Language credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/432)
Same as CMN 432 and LING 432. See CMN 432.

GWS 435 Commodifying Difference credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/435)
Same as AAS 435, AFRO 435, LLS 435, and MACS 432. See LLS 435.

GWS 442 Body, Culture & Society credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/442)
Same as KIN 442. See KIN 442.

GWS 445 Latina Literature credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/445)
Same as CMN 432 and LING 432. See CMN 432.

GWS 448 Social Work with Women credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/448)
Same as SOCW 455. See SOCW 455.

GWS 450 Topics in Bodies and Genders credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/450)
Same as CWL 450. See CWL 450.

GWS 454 Social Work with Women credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/454)
Same as SOCW 455. See SOCW 455.

GWS 459 Gender, Sex, & Postcoloniality credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/459)
Explores the relationship of imperialism, sexuality, and race through the lens of postcolonial theory. Same as HIST 459. 3 undergraduate hours. 4 graduate hours. Prerequisite: GWS 100 or GWS 250 and GWS 350 or GWS 370; or consent of instructor.
GWS 462  Hip Hop Feminism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/462)
Explores how hip hop has shaped the culture, aesthetics, experiences, and perspectives of an emergent generation of artists, scholars, and writers with several aims: 1) To challenge systemic social inequalities. 2) To articulate new visions of justice that depend on the power young people possess. To better understand how and why the relationship between hip hop feminism is coherent, meaningful, and compelling, students will become familiar with artists working within and beyond various elements of hip hop (rap, graffiti, emceeing, dee-jaying, etc.), social critics concerned with documenting hip hop's cultural practices, and critical educator (broadly defined). 3 undergraduate hours. 4 graduate hours.

GWS 464  Theories & Theologies of Liberation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/464)
Examination of theories and theologies of liberation, from Latin American liberation theologies and Islamic feminisms and anticolonial movements to Third World liberation struggles, the Gay Liberation Front, and the Black Freedom movement. Uses an expansive feminist lens to discuss these histories, theories, and theologies in relation to issues of violence/nonviolence; religion/secularity; art and aesthetics; gender, sex, and sexuality; and power. Same as AAS 464, ANTH 464, and REL 464. 3 undergraduate hours. 4 graduate hours. Prerequisite: GWS 100 or GWS 250 and GWS 350 or GWS 370; or consent of instructor.

GWS 465  Race, Sex, and Deviance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/465)
Same as AAS 465, AFRO 465, and LLS 465. See LLS 465.

GWS 467  Locating Queer Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/467)
Our goal is to learn different methods for researching "queer culture," with a special focus on the local context. Explores two research methods in depth: history and ethnography. Students will produce their own original research based on genuine gaps in existing knowledge. Provides an opportunity to learn both received knowledge about queer culture, as well as that which we do not yet know. By the end of this course, the class will collectively produce new knowledge about queer culture using local stories. Same as HIST 468. 3 undergraduate hours. No graduate credit.

GWS 470  Transgender Studies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/470)
What are the issues and politics related to transgender and transsexual identities? Students will examine and critically evaluate historical and contemporary debates that contest normative male/female binaries and traditional categorizations of sexuality. The course moves beyond these initial inquiries into gender theory to consider the effects of institutional discourses produced through stage and civil society. Taught with particular attention given to questions of race, national formations, medical, and legal discourses. Areas of inquiry may include gender theory, transnational identities, gendered and racial performances, medical and psychological diagnoses, violence, the law, and the Prison Industrial Complex. Through these topics, students will be asked to consider important questions over political and legal representation, autonomy, the rights of citizenship, and the practice of everyday life. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- or 300-level, or consent of instructor.

GWS 475  Queering Legal Cultures  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/475)
Exploration of the many forms of address that legal language can take, and how these legal forms affect subjects who are barely legible before the law. We will look at state laws, supreme-court decisions, policy publications, literature and social commentaries, fictional texts - as mobbed through social media platforms - to try to understand how queer (as verb, noun, adjective) emerges as a way in and out of legal spaces. Topics will include historical formations, current debates, and landmark cases in both national and transnational contexts. 3 undergraduate hours. 4 graduate hours.

GWS 478  Sex, Power and Politics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/478)
Examines representations of the relationship between sex, power, and subjectivity and how they have shaped feminism. Explores critical approaches to feminist analyses of women's oppression and debates about sexuality, including issues such as consent, rape and prostitution. Same as PS 413. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Gender and Women's Studies at the 200- and 300-level or consent of instructor.

GWS 490  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/490)
Supervised reading and research in Gender and Women's Studies chosen by the student with instructor approval. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: Two courses in Gender and Women's Studies at the 200-400 levels; or junior standing; or consent of instructor.

GWS 495  Advanced Topics GWS  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/495)
3 undergraduate hours. 4 graduate hours. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 9 undergraduate hours or 12 graduate hours; may be repeated in separate terms to a maximum of 12 undergraduate or 12 graduate hours.

GWS 498  Senior Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GWS/498)
Considers the relationship between theory and research in Women's Studies. Reviews and examines the key issues of feminist scholarship. Provides students with the methodological knowledge and opportunity to carry out a research project. 3 undergraduate hours. No graduate credit. Prerequisite: Senior standing and enrollment as a major in Gender and Women's Studies, or consent of instructor. This course satisfies the General Education Criteria for: Advanced Composition

GWS 501  Prob in Comp Women's Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/501)
Same as HIST 503. See HIST 503.

GWS 508  Feminism, Gender and Sexuality  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/508)
Same as ANTH 508. See ANTH 508.

GWS 512  Gender Relations & Intl Dev  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GWS/512)
Same as SOCW 581 and WGGP 581. See WGGP 581.
GWS 540 Intersectional Pedagogies  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/540](https://courses.illinois.edu/schedule/terms/GWS/540))
Examines the link between political movements and pedagogies, including feminist, critical, critical multicultural, critical race, and queer pedagogies. Students will analyze pedagogical theories and implement practical techniques and strategies. Same as EPS 540. Prerequisite: Graduate standing and previous coursework in Gender and Women's Studies; or consent of instructor.

GWS 545 Sexuality and Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/545](https://courses.illinois.edu/schedule/terms/GWS/545))
Same as EPS 545. See EPS 545.

GWS 550 Feminist Theories & Methods  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/550](https://courses.illinois.edu/schedule/terms/GWS/550))
Interdisciplinary study in diverse feminist theories and methods produced in and across various disciplines. Contemporary philosophical and theoretical developments in the study of gender to specific histories of class, race, ethnicity, nation and sexuality. Prerequisite: At least one graduate-level humanities course or consent of instructor.

GWS 560 Feminist Media Studies  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/560](https://courses.illinois.edu/schedule/terms/GWS/560))
Same as MDIA 560. See MDIA 560.

GWS 561 Race and Cultural Critique  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/561](https://courses.illinois.edu/schedule/terms/GWS/561))
Same as AAS 561, AFRO 531, ANTH 565, and LLS 561. See AAS 561.

GWS 575 Transnational Feminisms  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/575](https://courses.illinois.edu/schedule/terms/GWS/575))
Study of the terms, methodologies and theoretical interventions of transnational feminist studies. Transnational is a term that calls attention to circuits of political, economic, and social phenomena across the boundaries of nation-states. Emerging as a response to the shortcomings of overarching, economic theorizations of globalization as well as Western versions of "global feminism," transnational feminist studies is an interdisciplinary critical field that draws from the vocabularies of postcolonial studies, poststructuralism, Third World feminisms, race and ethnic studies feminism in self-reflexive and context-specific ways. Examines recent reconceptualizations of relations between woman and nation; gender and globalization; feminist theory and practice.

GWS 576 Children and Youth Literature  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/576](https://courses.illinois.edu/schedule/terms/GWS/576))
Same as CWL 586, EURO 576, and SCAN 576. See SCAN 576.

GWS 580 Queer Theories & Methods  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/580](https://courses.illinois.edu/schedule/terms/GWS/580))
Interdisciplinary study in queer theories and methods produced in and across various disciplines. Contemporary philosophical and theoretical developments in queer studies specific to histories of class, race, ethnicity, nation and sexuality. Prerequisite: Graduate standing.

GWS 581 Topics in Queer Studies  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/581](https://courses.illinois.edu/schedule/terms/GWS/581))
Interdisciplinary graduate seminar on a current topic in the field of queer studies. May be repeated in separate terms to a maximum of 8 hours if topics vary. Prerequisite: Graduate standing and previous coursework in women's or gender studies, or consent of instructor. GWS 580 or previous coursework in queer studies is recommended.

GWS 590 Topics in GWS  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/GWS/590](https://courses.illinois.edu/schedule/terms/GWS/590))
May be repeated. Prerequisite: Graduate standing and previous coursework in women's or gender studies, or consent of instructor.

---

### General Engineering (GE) -- Changed to Systems Engineering and Design (SE)

[SE Class Schedule](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SE)

#### Courses

**SE 100 Introduction to ISE**  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/SE/100](https://courses.illinois.edu/schedule/terms/SE/100))
Overview of the engineering profession, the Industrial & Enterprise Systems Engineering Department, and the curricula in Industrial Engineering and Systems Engineering and Design.

**SE 101 Engineering Graphics & Design**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/SE/101](https://courses.illinois.edu/schedule/terms/SE/101))
Computer-aided design (CAD) software modeling of parts and assemblies. Parametric and non-parametric solid, surface, and wireframe models. Part editing and two-dimensional documentation of models. Planar projection theory, including sketching of perspective, isometric, multiview, auxiliary, and section views. Spatial visualization exercises. Dimensioning guidelines, tolerancing techniques. Team design project. Credit is not given for both SE 101 and ME 170.

**SE 199 Undergraduate Open Seminar**  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/SE/199](https://courses.illinois.edu/schedule/terms/SE/199))
Undergraduate Open Seminar. May be repeated.

**SE 261 Business Side of Engineering**  credit: 1 or 2 Hours. ([https://courses.illinois.edu/schedule/terms/SE/261](https://courses.illinois.edu/schedule/terms/SE/261))
Important elements and metrics of business and contemporary engineering economics: wealth creation, cash flow diagrams, internal rate of return, net present value, breakeven analysis, companies, corporations, profits, prices, balance sheets, income statements, and the basics of business plan writing. Particular emphasis is given to preparation for the economic analysis component of engineering practice.

**SE 290 ISE Undergraduate Seminar**  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/SE/290](https://courses.illinois.edu/schedule/terms/SE/290))
Lecture-discussion series by department faculty and visiting professional engineers addressing ethics, professional registration, the role of technical societies, and the relation of engineering to such disciplines as economics, sociology, and government. Approved for Letter and S/U grading.

**SE 297 Independent Study**  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/SE/297](https://courses.illinois.edu/schedule/terms/SE/297))
Individual investigations of any phase of Systems Engineering and Design selected by the students and approved by the department. May be repeated. Prerequisite: Consent of instructor.

**SE 298 Special Topics**  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/SE/298](https://courses.illinois.edu/schedule/terms/SE/298))
Subject offerings of new and developing areas of knowledge in general engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites.

---

Information listed in this catalog is current as of 07/2019

---

University of Illinois at Urbana-Champaign 925
SE 310 Design of Structures and Mechanisms  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/310)
Fundamental concepts in the classical and computer-based analysis and design of structural and machine components and assemblies. External loads, internal forces, and displacements in statically determinate and indeterminate configurations: kinematics of linkages, gears, and cams; static forces in machines. Prerequisite: CS 101, TAM 212, and TAM 251. Credit or concurrent enrollment in MATH 415.

SE 311 Engineering Design Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/311)
Stress-strain conditions; analytical and numerical (CAD) solution techniques; analysis of various engineering materials and configurations as applied to the development and application of design analysis criteria. Prerequisite: SE 310; concurrent registration in SE 312.

SE 312 Instrumentation and Test Lab  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/SE/312)
Preparation for experimental projects; mechanical and electrical instruments; mechanical testing of materials; experimental stress analysis and photoelastic methods. Prerequisite: SE 310; concurrent registration in SE 311.

SE 320 Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/320)
Fundamental control systems and control systems technology. Sensors, actuators, modeling of physical systems, design and implementation of feedback controllers; operational techniques used in describing, analyzing and designing linear continuous systems; Laplace transforms; response via transfer functions; stability; performance specifications; controller design via transfer functions; frequency response; simple nonlinearities. Credit is not given for both SE 320 and either AE 353 or ME 340. Prerequisite: CS 101, MATH 285, and TAM 212; credit or concurrent registration in ECE 211.

SE 361 Emotional Intelligence Skills  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/361)
Understanding emotions in ourselves and others. Assessment and improvement of interpersonal skills and emotional intelligence competencies including self-regulation, motivation, empathetic listening, communication, influence collaboration and cooperation, conflict management, leadership, teamwork, and managing change. Includes one Saturday laboratory session.

SE 397 Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/397)
Individual investigations or studies of any phase of General Engineering selected by the students and approved by the department. May be repeated in same term. Prerequisite: Consent of instructor.

SE 398 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/398)
Subject offerings of new and developing areas of knowledge in general engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites.

SE 400 Engineering Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/400)
Nature and development of the legal system; legal rights and duties important to engineers in their professions; contracts, uniform commercial code and sales of goods, torts, agency, worker's compensation, labor law, property, environmental law, intellectual property. 3 undergraduate hours. 4 graduate hours. Prerequisite: RHET 105.

SE 402 Comp-Aided Product Realization  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/402)
Computer-aided design, analysis, and prototyping tools used in the product development process. Principles of computer graphics and geometric modeling, including transformations, coordinate systems, parametric solid modeling, spline curves, and surface modeling. Finite element and kinematics analyses. Rapid prototyping, product dissection, CAD-CAM-CAE operability issues, and CAD collaboration tools. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: SE 101 and SE 311.

SE 410 Component Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/410)
Design of basic engineering components: structural members, machine parts, and connections. Principles applied include: material failure (yield, fracture, fatigue); buckling and other instabilities; design reliability; analytical simulation. 3 undergraduate hours. 3 graduate hours. This course is an approved Design Elective in the SE Undergraduate curriculum. Prerequisite: SE 311 and SE 320.

SE 411 Reliability Engineering  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/411)
Concepts in engineering design, testing, and management for highly reliable components and systems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

SE 412 Nondestructive Evaluation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/412)
Nondestructive Evaluation (NDE) principles and the role of NDE in design, manufacturing, and maintenance. Primary Nondestructive Testing and Evaluation (NDT&E) techniques, introduced from the fundamental laws of physics, including visual, ultrasonic, acoustic emission, acousto-ultrasonic, radiology, electro-magnetic, eddy-current, penetrant, thermal, and holographic. Industrial applications of probability of flaw detection, material properties characterization, impact and fatigue damage evaluation, adhesion, etc. Current literature. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CEE 300.

SE 413 Engineering Design Optimization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/413)
Application of optimization techniques to engineering design problems. Emphasis on problem formulation, including applications in structural, mechanical, and other design domains. Important theoretical results and numerical optimization methods. Matlab programming assignments to develop software for solving nonlinear mathematical programming problems. 3 undergraduate hours. 3 graduate hours. Prerequisite: MATH 241 and MATH 415.

SE 420 Digital Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/420)
Theory and techniques for control of dynamic processes by digital computer; linear discrete systems, digital filters, sampling signal reconstruction, digital design, state space methods, computers, state estimators, and laboratory techniques. 4 undergraduate hours. 4 graduate hours. Prerequisite: SE 320.

SE 422 Robot Dynamics and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/422)
Fundamental concepts and analytical methods for analysis and design of robot systems. Laboratory experiments complement theoretical development. Same as ECE 489 and ME 446. 4 undergraduate hours. 4 graduate hours. Prerequisite: SE 320. Recommended: ECE 470.
SE 423  Mechatronics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/423)
Mechatronics concepts and practice: computer interfacing of physical devices (sensors, actuators); data acquisition; real time programming and real time control; human-machine interfaces; design principles of mechatronics in manufacturing systems and in consumer systems. 3 undergraduate hours. 2 graduate hours. Prerequisite: SE 320.

SE 424  State Space Design for Control  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/424)
Design methods; time domain modeling; trajectories and phase plane analysis; similarity transforms; controllability and observability; pole placement and observers; linear quadratic optimal control; Lyapunov stability and describing functions; simulation. 3 undergraduate hours. 2 graduate hours. Prerequisite: SE 320 and MATH 415.

SE 450  Decision Analysis I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/450)
Rules of thought that transform complex decision situations into simpler ones where the course of action is clear. Practical application of decision analysis in large organizations; methods to generate insights into real-life decision problems, avoid the common pitfalls in decision processes, and overcome the possible barriers to implementing a high-quality decision-making process for individual and organizational decision making; graphical representations of decision problems such as decision diagrams and utility diagrams. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

SE 462  Leading Sustainable Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/462)
Theories and process of change; systems thinking concerning change consequences; building coalitions and communities to support change; implementing and managing projects effectively. Processes to plan, implement, manage, and sustain change with an organization through alignment of change strategies with organizational and individual concerns. 3 undergraduate hours. 3 graduate hours.

SE 494  Senior Engineering Project I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SE/494)
Senior engineering project - team component. Student teams of three or four, guided by faculty advisors, develop solutions to real-world engineering problems provided by industry-partnering companies, subject to realistic constraints and supported by economic analyses and recommendations for implementation. Prototype solutions fabricated where practical. Multiple reports and presentations throughout the term. Several trips to company typical. Common project grade for all team members. SE 494 and SE 495 taken concurrently fulfill the Advanced Composition Requirement. Approval of the department is required to register. 3 undergraduate hours. 3 graduate hours. Prerequisite: SE 261, SE 390 and: SE 311, IE 300, IE 310, and TAM 335; or IE 310, IE 311, and IE Technical Elective; credit or concurrent registration in a SE Design Elective and IE Engineering Science Elective. Must enroll concurrently in SE 495.

This course satisfies the General Education Criteria for: Advanced Composition

SE 495  Senior Engineering Project II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/SE/495)
Adjunct to SE 494. Senior engineering project – individual component. Individual grade for each team member. SE 494 and SE 495 taken concurrently fulfill the Advanced Composition Requirement. 2 undergraduate hours. No graduate credit. Prerequisite: Concurrent registration in SE 494.

This course satisfies the General Education Criteria for: Advanced Composition

SE 497  Independent Study  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/497)
Advanced problems related to General Engineering. 0 to 4 undergraduate hours. 0 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated in same term. Prerequisite: Consent of instructor.

SE 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/498)
Subject offerings of new and developing areas of knowledge in general engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours.

SE 520  Analysis of Nonlinear Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/520)
Same as ECE 528 and ME 546. See ECE 528.

SE 521  Multivariable Control Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/521)
Same as AE 555. See AE 555.

SE 523  Discrete Event Dynamic Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/523)
Modeling, analysis, control, and performance evaluation of discrete event dynamic systems (DEDS), which are characterized by state changes only at discrete points in time in response to the occurrence of particular events. Discrete-state and discrete-event models decidability, computational issues, forbidden-state problems, forbidden-string problems, enforcing safety and liveness properties via supervision, generalized semi-Markov processes, sensitivity analysis via likelihood ratio and infinitesimal perturbation methods. 3 or 4 graduate hours. No professional credit. Prerequisite: CS 173 or MATH 213; CS 225; MATH 415; MATH 461.

SE 524  Data-Based Systems Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/524)
Identification and building of mathematical and computational models directly from data. Systems and model types, such as state-space and distributed-parameter; parametric estimation methods, such as regression and least-squares recent subspace identification methods; data preprocessing techniques; model validation methods. Assignment applications to a wide range of dynamical systems, including biological, electro-mechanical, and economic. 4 graduate hours. No professional credit. Prerequisite: SE 424 and IE 300.

SE 525  Control of Complex Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/525)
Control methodologies for complex (i.e., interconnected) dynamic systems. A unified framework based on the vector Liapunov functions concept is used to examine various methodologies: decentralized overlapping control; optimal control of interconnected systems; multiplayer differential game theory; decentralized optimization and its link with the multi-criteria optimization. Illustrative examples in areas such as control of groups of unmanned vehicles, control of power systems, and coverage control. 4 graduate hours. No professional credit. Prerequisite: SE 424.

Information listed in this catalog is current as of 07/2019
SE 530  Multiattribute Decision Making  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/530)
Tools for subjective multiple attribute decision making when present or future states of nature are uncertain. Exploration of current research in developing computer aids to decision making. Issues in descriptive versus normative approaches in the context of the interface between operations research and artificial intelligence. Multiattribute utility analysis from theoretical foundations through assessment procedures, practice, and pitfalls of potential cognitive bases. 4 graduate hours. No professional credit. Prerequisite: CEE 202 or IE 300.

SE 550  Decision Analysis II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/550)
Continuation of SE 450. Fundamental requirements of a decision-making system; comparison of different decision-making methods; "paradoxes" in decision making; foundations and history of probability as a degree of belief; Bayesian vs. classical statistics; entropy of a random variable; experimentation and optimal stopping; invariance formulations in utility and probability; one-switch preferences; graph-based methods to incorporate dependence in multiattribute utility functions. 3 or 4 graduate hours. No professional credit. Prerequisite: SE 450.

SE 590  Seminar  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/SE/590)
Presentations by graduate students, staff, and guest lecturers of current topics in research and development in General Engineering. 0 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated. Required of all graduate students each term.

SE 594  Project Design  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/SE/594)
Engineering design projects emphasizing advanced engineering analysis, synthesis, optimization, and engineering economics. 1 to 8 graduate hours. No professional credit. May be repeated to a maximum of 8 hours for credit toward the Master's degree.

SE 597  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/597)
Advanced problems related to General Engineering. 1 to 4 graduate hours. No professional credit. May be repeated. Prerequisite: Consent of instructor.

SE 598  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/SE/598)
Subject offerings of new and developing areas of knowledge in general engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 graduate hours. No professional credit. May be repeated in the same or separate terms if topics vary to a maximum of 12 hours.

SE 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/SE/599)
Thesis Research. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated to a maximum of 16 hours for credit toward the Master's or PhD degree.

General Studies (GS)

GS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GS)

Courses

GS 101  Exploring General Studies  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/GS/101)
An introduction to the opportunities and resources available to the "undeclared" students enrolled in the Division of General Studies at Illinois. Introduces students to the breadth of diverse fields of study available, prepares DGS students for myriad potential careers, and helps foster a sense of collaboration and engagement through campus orientation, study, and project-based assignments. May not be repeated.

GS 102  Prep for 21st Cent Challenges  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GS/102)
In this honors seminar, DGS James Scholar freshmen will learn to develop their strengths, interests, and transferrable skills while investigating current and evolving societal challenges. Through class discussion, readings, and a semester-long project, students will explore a variety of topics, including leadership, creativity, research and service. Students will also learn how to craft their own honors experience by understanding the many opportunities available at Illinois.

GS 198  DGS Honors Seminar  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GS/198)
Approved for both letter and S/U grading.

GS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GS/199)
Approved for both letter and S/U grading. May be repeated for a maximum of 6 hours if topics vary.

GS 299  DGS Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GS/299)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved for overseas programs. Final determination of credit is made upon the student’s completion of the work. (Summer session, 0 to 8 hours) Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 44 hours, all of which must be earned within one calendar year. Prerequisite: One year of residence at UIUC; good academic standing, and prior approval of the Division of General Studies.

Geography (GEOG)

GEOG Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOG)

Courses

GEOG 100  Introduction to Meteorology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/100)
Same as ATMS 100. See ATMS 100.
This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOG 101  Global Development&Environment  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/101)
Introduces geographical perspectives on environment and development studies with case studies drawn from Africa, Asia, and Latin America. Investigates the origins of the global South in relation to the global North, especially the historical and contemporary processes driving environmental, economic, and cultural change.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

Information listed in this catalog is current as of 07/2019
GEOG 103  Earth's Physical Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/103)
A basic introduction to the environmental systems of the Earth's surface, including landforms, soils, and ecosystems and how these systems are affected by global change. Emphasizes the importance of human-Earth relations and a holistic view of environmental systems. Same as ESE 103. This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOG 104  Social and Cultural Geography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/104)
Introduces the basic concepts of social and cultural geography, and the application of these concepts to a variety of topics; mental maps, territoriality, cultural regions, cultural elements and their diffusion, population movement and migration, settlement patterns, environmental hazards, and spatial patterns of social problems. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 105  The Digital Earth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/105)
Geospatial technologies such as global positioning systems (GPS) and geographic information systems (GIS) are becoming increasingly important tools in research and policy arenas and in everyday life. This course will provide an introduction to these emerging technologies and to the principles of mapping science that underpin them. At the same time, the course will explore how these innovative technologies are changing the spaces and places around us, including how we interact with the environment and each other. Lab exercises provide hands-on experience in collecting and mapping geospatial information, interpreting digital imagery and the Earth's environments, and critically thinking about the social implications of the digital Earth. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 106  Geographies of Globalization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/106)
A survey of major world regions by systematically considering five themes: environment, population and settlement patterns, cultural coherence and diversity, geopolitical fragmentation and unity, and economic and social development. While examining the persistence of unique regions, the course will both scale up to global linkages and scale down to place-specific impacts of globalization processes. Same as ESE 106. This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
Social Beh Sci - Soc Sci

GEOG 198  Freshman Honors Seminar  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/198)
Through discussions and research projects, the seminar is designed to provide an in-depth understanding of topics in the field of systematic or regional geography which are selected for group study. Appropriate geographic methodology is emphasized. Prerequisite: James Scholar standing or other designation as a superior student.

GEOG 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/199)
May be repeated.

GEOG 204  Cities of the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/204)
In-depth exploration of global urbanization. Using a comparative regional approach, discuss the recent history of global urbanization, dissect its problems, and offer possible solutions. Approximately ten major regions of the world will be examined, exploring the significant urban patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - Western

GEOG 205  Business Location Decisions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/205)
Analyzes location decision-making emphasizing industrial and commercial location patterns; identifies important institutional factors and their changing roles over the recent past, and focuses on plant closings, economic disruptions, and problems of structural change. Same as BADM 205. Prerequisite: ECON 102 or ECON 103, or equivalent.

GEOG 210  Social & Environmental Issues  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/210)
Introduction to the complex relationship between people and the natural environment from a social science perspective. Explores different approaches to environmental issues, and examines the role of population change, political economy, technologies, environmental policymaking, and social institutions in causing and resolving contemporary social and environmental global issues. Same as ESE 210. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 215  Resource Conflicts  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/215)
Geographic concepts of place, scale, region, and territoriality are used to explore the causes and consequences of competition for the control of natural resources. Situations that lead to violent conflict are discussed as well as mechanisms for the peaceful resolution of resource conflicts. Resources discussed include oil, water, access to land, and the impact of climate change. Same as ESE 215 and GLBL 215. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 221  Geographies of Global Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/221)
Focuses on contemporary cultural conflicts, competition among nations for economic and mineral resources; treats territorial disputes from a cultural and geographic perspective. Case studies vary to illustrate types of contemporary conflicts. Same as GLBL 221. Credit is not given for GEOG 221 and GEOG 110. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
GEOG 222  Big Rivers of the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/222)
An interdisciplinary approach to the study of big rivers, encompassing geomorphology, engineering, ecology, risk assessment and planning. Commencing with an assessment of the nature of big rivers; their hydrology and geomorphic setting; hazards associated with large rivers, and issues of river impoundment and management, then proceed to examine the geography, geomorphology, and ecology and management of a range of the World's greatest rivers, focusing on how a geomorphological understanding of such large rivers can aid study of riverine ecohabitats and inform decisions regarding water usage and engineering management. If the weather permits, a one day field-trip will be organized in the second half of the course to view aspects of a local river in Illinois/Indiana. Same as ESE 222.

GEOG 224  Geog Patterns of Illinois  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/224)
Systematic analysis of the environmental and human processes that have shaped the regional landscapes of rural and urban Illinois. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

GEOG 254  American People, Places, & Environments  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/254)
Students will broaden their understanding of how the United States' physical and human geography interact to produce unique American landscapes. Covers a dozen different regions of the U.S., exploring the significant spatial patterns and processes, built and natural environments, and social, economic, and cultural landscapes of each. Focuses on the experiences of minority cultures in the U.S. through the concept of environmental justice in order to understand how environmental and social inequality are closely connected in ways that differ from region to region. Same as ESE 254.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

GEOG 280  Intro to Social Statistics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/280)
Same as SOC 280. See SOC 280. This course satisfies the General Education Criteria for:
Quantitative Reasoning I

GEOG 287  Environment and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/287)
Same as ESE 287, NRES 287 and PS 273. See NRES 287. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
Cultural Studies - Western

GEOG 310  Political Geography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/310)
Problems and issues surrounding the geographic distribution of political actions and outcomes in the context of globalization. Topics include war and peace, access to natural resources, nationalism, democratization, terrorism, and the politics of identity. Prerequisite: Junior standing or consent of instructor.

GEOG 350  Sustainability and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/350)
Examination of the tools, techniques, strategies, and rationales that can be used by urbanists to produce and sustain a productive, fair, and equitable city. Emphasis is placed on diagnosing, implementing, and sustaining an ideal U.S. city as a complex whole that embeds an array of interconnecting parts (neighborhoods, retail districts, downtowns, city economies). Lectures and discussion cover the broad background of theories, concepts, and principles that will be essential for imagining and implementing these ideals, strategies and plans.) Same as ESE 350.

GEOG 356  Sustainable Development in South Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/356)
Examination of sustainable development in the region of South Asia (India, Nepal, Pakistan, Afghanistan, Bangladesh, Sri Lanka). Geographic analysis of development processes since the colonial period, with particular emphasis on the interrelated processes of environment, society, and politics as related to sustainability. Prerequisite: Sophomore standing or consent of instructor.

GEOG 370  Water Planet, Water Crisis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/370)
Same as ESE 320 and GEOL 370. See ESE 320.

GEOG 371  Spatial Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/371)
Overview of the spatial analysis (nomothetic) approach to geographic research, both physical and human; includes discussion of the scientific method, with explanations and uses of analytic geographic concepts in studying real world problems. Prerequisite: A course in geography. This course satisfies the General Education Criteria for:
Quantitative Reasoning II

GEOG 379  Intro to GIS Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/379)
Investigates the fundamentals of geographic information science as well as the basic skills in the execution of that theoretical knowledge with industry standard software packages. Student will learn the basics of projections and coordinate systems, how geographic information is stored and manipulated, and the theory and practice behind the production of thematic maps. Includes lecture and hands-on laboratory components. Same as ESE 379.

GEOG 380  GIS II: Spatial Prob Solving  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/380)
Study of the analytical capabilities of geographic information systems with an emphasis on learning to solve spatial problems in both the vector and raster data formats. Students will develop the skills necessary to answer questions or solve problems in their areas of interest, with particular emphasis on problems and questions that require multiple steps to resolve. Students will learn the fundamental theory behind spatial problem solving, but also learn to execute these procedures with industry-standard software packages. Thus, this class contains both lecture/discussion elements and hands-on laboratory work. Same as ESE 380. Prerequisite: GEOG 379
This course satisfies the General Education Criteria for:
Quantitative Reasoning II

GEOG 381  Environmental Perspectives  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/381)
Focus on the major ideas in contemporary environmentalism, especially on how humans do and should interact with the environment. Same as ESE 381. Prerequisite: Junior or senior undergraduate standing.
GEOG 384  Population Geography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/384) Problems and issues surrounding the geographic distribution of populations at the world, regional, and local levels; emphasizes problems associated with population growth and decline, recent population redistribution, births and deaths, and elderly and minority populations.

GEOG 390  Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/390) Supervised independent study of special topics or regions. May be repeated once. Prerequisite: Junior standing; at least one formal course in the topic or region of interest; consent of instructor.

GEOG 391  Honors Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/391) Individual study and research projects for students who are working toward the degree with distinction in geography. May be repeated to a maximum of 8 hours. Prerequisite: Junior standing; consent of honors adviser.

GEOG 392  Geography & GIS Internship  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/392) Supervised, off-campus experience in a field directly pertaining to Geography and/or GIS. A written report is required at the end of the internship relating work accomplishments to the student's program of study. Approved for Letter and S/U grading. May be repeated in separate terms up to 6 hours. Prerequisite: Consent of faculty sponsor and Director of Undergraduate Studies; at least two courses taken within Geography & GIS.

GEOG 394  Special Topics Social Geog  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/394) Introduction to current research in social geography; includes such topics as access to public facilities, geography of crime, innovation diffusion, geography of communications, spatial assimilation of minorities, and geography of social well-being. See Schedule for current topics. May be repeated.

GEOG 401  Watershed Hydrology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/401) Same as NRES 401. See NRES 401.

GEOG 405  Geography Field Course  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/405) Field observation and mapping of human and/or physical phenomena using basic geographic field techniques, including pre- and post-trip meetings. Required field trip. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Major or minor in Geography & GIS, or consent of instructor.

GEOG 406  Fluvial Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/406) Systematic overview of the forms and processes associated with rivers and drainage basins; topics include basin hydrology, drainage networks, river hydraulics, sediment transport processes, channel morphology, channel change, and human impacts on fluvial systems. Same as GEOL 406, and NRES 406. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 101, and GEOG 103 or GEOL 107, or consent of instructor.

GEOG 408  Humans and River Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/408) Systematic analysis of the biophysical processes operating in rivers and watersheds and the interaction of humans on these processes. The course will emphasize the importance of biophysical processes and human interaction with these processes in river and watershed management. Class discussion and a class project will focus on analysis of practical river and watershed problems. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 103 or an introductory course in earth or environmental science.

GEOG 410  Green Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/410) Theory and practice of sustainable development. Course materials draw upon theoretical and case study material from the social and natural sciences to analyze environment and development relations with emphasis on the Global South. Same as ESE 410. 4 undergraduate hours. 4 graduate hours.

GEOG 412  Geospatial Tech & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/412) Examines the use of geographic information systems (GIS), geospatial positioning systems (GPS), and other geospatial technologies in everyday life with emphasis on their implications for social, economic, and environmental change. Topics include critical cartography, GIS, and social theory, crime and health, environmental justice, feminism, economic development and environmental change. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 105 or consent of instructor.

GEOG 421  Earth Systems Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/421) Same as ATM 421, ESE 421, GEOL 481 and NRES 422. See ATM 421.

GEOG 423  Politics of International Conservation and Development credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/423) Same as NRES 423. See NRES 423.

GEOG 436  Biogeography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/436) Same as ANTH 436, ESE 439, IB 439 and NRES 441. See IB 439.

GEOG 438  Geography of Health Care  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/438) Methods and perspectives of health care. Emphasizing the spatial analysis of health and health care. The organization, provision and competition of health care will be highlighted. Same as SOC 478. 3 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 384 or SOC 274 or consent of instructor.

GEOG 439  Health Applications of GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/439) Same as CHLH 439 and PATH 439. See PATH 439.

GEOG 440  Business Applications of GIS  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/440) Design and implementation of GIS for business and strategic planning applications. Course goals include: (1) provide students with an understanding of Geographic Information Systems; (2) provide students with an understanding of how GIS can be applied in various business applications; (3) familiarize students with GIS and modeling techniques; (4) provide students with opportunities to work with various data sources through a project related to their own interest in business. Same as BADM 440. 3 undergraduate hours. 4 graduate hours.

GEOG 446  Sustainable Planning Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/446) Same as LA 446, NRES 446, and UP 446. See LA 446.
GEOG 455 Geog of Sub-Saharan Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/455) Regional geography of Africa south of the Sahara. Geographic analysis of Africa which includes topics in both physical and human geography and provides a general overview of the processes and interactions between human and environmental factors that shape Africa's physical and human geography. 3 undergraduate hours. 3 graduate hours.

GEOG 459 Ecology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/459) Interactions between hydraulic, ecological, and geomorphic processes in river environments at a wide range of both spatial and temporal scales. Draws upon and synthesize fundamental concepts from biology, ecology, fluid mechanics and morphodynamics, to apply them to truly interdisciplinary problems. Such an approach, coupled with hands-on experience involving planning, conducting and analyzing hands-on experiments at the Ven Te Chow Hydrology Laboratory and field surveys on local natural waters will provide the students with a broad perspective on the interconnections between physical and ecological systems. Students will apply their knowledge of fundamental processes to assess complex problems involving monitoring, management, conservation and restoration of ecosystems. 4 undergraduate hours. 4 graduate hours.

GEOG 460 Aerial Photo Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/460) Review of methods for extracting quantitative and qualitative information from aerial photographs using computer-based techniques and visual interpretation. The first part of the course will cover basic photogrammetry and mapping. The second part will focus on interpretation of physical, biological, and cultural features. Same as NRES 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: Knowledge of trigonometry (MATH 014 or equivalent) and basic physical geography (GEOG 103 or equivalent).

GEOG 465 Transportation & Sustainability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/465) Descriptors of transportation systems; transportation as an industrial activity and public good; and transportation and spatial development, including the role of transportation in urban and regional development. Emphasis on the economic, environmental, and social aspects of sustainability as they apply to transportation systems and the activities they enable at local, regional, national and global levels. Field trip required. Same as ESE 465. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 4 graduate hours. This course satisfies the General Education Criteria for: Advanced Composition

GEOG 466 Environmental Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/466) Examination of the geographical and political aspects of human-environmental relations; focusing on how environmental problems are defined, negotiated, and addressed through policy formulation. Specific approaches to environmental policy will be considered at different geographical scales. Same as ESE 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in Geography or Political Science or consent of instructor.

GEOG 468 Biological Modeling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/468) Interdisciplinary modeling course for students interested in dynamic system modeling of living processes; each student will build a model by the end of the course. No special mathematical background required. Same as ANSC 449, CPSC 448, and IB 491. 3 undergraduate hours. 4 graduate hours. Prerequisite: IB 444 or equivalent, depending on curriculum.

GEOG 471 Recent Trends in Geog Thought  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/471) Examination of recent trends in human and physical geography. Themes include empiricism, logical positivism, regionalism, Marxism, realism, phenomenology, and post-modernism as applied to geographic research. Emerging geographic literature is explored to identify the latest conceptual developments. 4 undergraduate hours. 4 graduate hours.

GEOG 473 Digital Cartography & Map Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/473) Instruction and practice in the basic techniques of map making followed by a consideration of problems involved in the construction of maps for presentation in a reproduced form (i.e., printed, photographed); the selection of proper source materials for the base and body of the map, the compilation and correlation of these materials, and methods of mechanical and photographic reproduction. 4 undergraduate hours. 4 graduate hours.

GEOG 476 Applied GIS to Environ Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/476) Demonstrates how geographic information systems (GIS) have become a major technology ubiquitously applied to solve important problems encountered in geospatial and environmental applications. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 103 or GEOG 104, consent of instructor.

GEOG 477 Introduction to Remote Sensing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/477) Fundamentals of energy-matter interaction mechanisms, and the manifestation of reflected and emitted radiation on photographs and images; introduces characteristics of aerial films and filters, electro-optical scanners, and digital processing; and emphasizes applications in environmental problems. Same as NRES 477. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 280 (beginning statistics) or equivalent, or consent of instructor.

GEOG 478 Techniques of Remote Sensing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/478) Optical and digital information processing of imagery acquired from aircraft and satellite remote sensing platforms; includes systems design, mensuration theory, photographic enhancement techniques, and automatic digital classification for all of the standard sensor systems; and laboratory focusing on the design and implementation of information processing techniques with application limited to a survey of uses. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 477 or equivalent.

GEOG 479 Advanced Topics in GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/479) Introduces advanced concepts in Geographic Information Science. Course topics may vary. 3 undergraduate hours. 3 graduate hours. May be repeated, if topics vary, in separate terms to a maximum of 9 hours, but not more than 6 hours in any one term. Prerequisite: GEOG 379 or equivalent.
GEOG 480  Principles of GIS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/480)
Focuses on Geographic Information Science (GIScience) principles that underlie the development of Geographic Information Systems (GIS) software and its intelligent use. Helps students adapt to rapidly changing geospatial technologies. Knowledge gained in this course will be general and, thus, not be limited to any specific software product that may be revised in the future. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOG 379 and GEOG 380 or equivalent, or consent of instructor.

GEOG 481  Intl Environ Cooperation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/481)
Examines the problems, policies and politics related to environmental issues that require international cooperation to address effectively. Transboundary, regional, and global environmental issues will be analyzed, spanning the atmosphere (acid rain, protection of the ozone layer, and climate change), the oceans (pelagic fisheries), and biodiversity (whaling, trade in endangered species). Discusses methods for increasing international environmental cooperation, such as unilateral actions, trade sanctions, financial aid, non-governmental monitoring and innovations in institutional design. Same as ESE 481. 3 undergraduate hours. 3 graduate hours. Prerequisite: One course in Geography or Political Science or consent of instructor.

GEOG 482  Challenges of Sustainability  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/482)
Same as ESE 482 and GEOL 483. See ESE 482.

GEOG 483  Urban Geography  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/483)
Broad background of theories, concepts, and methods of research for understanding how and why our cities have reached their current status. Focus on examining the internal structure of the North American city, including analysis of the commercial, industrial, and residential sectors of the urban environment. Particular emphasis is placed on the range of urban theories developed to explain both urban structure and contemporary urban ills. 3 undergraduate hours. 3 graduate hours.

GEOG 484  Cities, Crime, and Space  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/484)
Focusing on US cities, this theory-intensive course surveys traditional and critical perspectives on relations between crime, space, and place. We will explore this interplay within broader contexts of industrial and post-industrial urbanization, concentrating on dynamics including governances, economic processes, and social transformations. Emphasis will be placed on the extent to which these interwoven processes generate, classify, organize, and react to crime across cityscapes. 3 undergraduate hours. 4 graduate hours.

GEOG 489  Programming for GIS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/489)
Introduction to programming to customize and extend the capabilities of geographic information systems. Topics include the principles of programming, advanced function and tools coding, visualization, fundamental spatial data structures, and spatial algorithms. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 379 and GEOG 380 or equivalents, or consent of instructor.

GEOG 491  Research in Geography  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/491)
Detailed examination and discussion of the methods of initiating and executing research projects in human or physical geography (taught in separate sections); requires students to write a research proposal of a quality suitable for a graduate thesis. 2 undergraduate hours. 2 graduate hours. Prerequisite: GEOG 471; either graduate standing in geography or senior standing as a geography major and consent of department.

GEOG 493  Democracy and Environment  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/493)
Explores the effects of local democracy on natural resource management and the ways natural resource management can leverage the establishment and consolidation of local democracy. Investigates theoretical foundations of localism and decentralization, and analyzes the policy process by which theory is inscribed in law and project documents and translated into practice. Cases of global environmental policy, such as climate adaptation, UN Reduced Emissions from Deforestation and Degradation of the World Banks’ Community Driven Development policies will be used for theoretical and empirical analysis. Draws case examples from developing countries. Same as NRES 494, SOC 493 and UP 493. 3 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 210, course work in social science, or consent of instructor.

GEOG 494  Democracy and Environment  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/494)
Explores special topics not covered in regularly scheduled Geography courses. 3 or 4 undergraduate hours. 3 or 4 graduate hours. May be repeated if topics vary in the same term to a maximum of 9 undergraduate hours or 12 graduate hours or in separate terms to a maximum of 12 undergraduate hours or 12 graduate hours.

GEOG 496  Climate & Social Vulnerability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/496)
Existing climate variability and likely climate change call for policies to protect vulnerable people who make their livelihoods in a changing environment. Students will explore: 1) causes of climate related stress and disaster; 2) theories of vulnerability and adaptation; 3) practices and policies designed to reduce economic loss, hunger, famine and dislocation in the face of climate trends and events. Focus on multiple policy scales affecting poor and marginal populations, who are disproportionately vulnerable when facing climate stress, drawing on case examples primarily from the developing world. Same as ATMS 446 and SOC 451. 3 undergraduate hours. 4 graduate hours. Prerequisite: GEOG 410, GEOG 466, GEOG 471, GEOG 520, or consent of instructor.

GEOG 520  Political Ecology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/520)
Political ecology integrates social and biophysical processes in the study of nature-society relations. Examination of the conceptual origins of the field of political ecology and identification of influential bodies of research and promising research directions. Readings focus on recent advances, debates, and the ongoing evolution of political ecology as an integrative approach to Geography and environment-development studies. 4 graduate hours. No professional credit. Prerequisite: One of the following courses, or consent of the instructor: GEOG 410, GEOG 466, SOC 447, HIST 460, or equivalent.
GEOG 556 Regional Science Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/556)
Examines models of regional growth and development, including export base, input-output and econometric, cohort component and spatial interaction; emphasizes socioeconomic impact analysis and forecasting of subnational economic and demographic change. Same as UP 556. Prerequisite: Consent of instructor.

GEOG 557 Seminar in Regional Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/557)
Discusses advanced topics in regional science; prepares students for dissertation and thesis research, applied study for public agency, or other student research. Same as UP 557. Prerequisite: GEOG 556 or consent of instructor.

GEOG 560 Spatial Epidemiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/560)
Same as PATH 560. See PATH 560.

GEOG 561 Landscapes and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/561)
Same as CHLH 580 and LA 570. See LA 570.

GEOG 570 Advanced Spatial Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/570)
Advanced techniques of spatial analysis, including spatial autocorrelation, trend surface analysis, grouping and regionalization procedures, and point pattern analysis.

GEOG 575 Alluvial Boundary Layer Dynam  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/575)
Examination of the structure of turbulent boundary layers in rivers and how turbulent flow, sediment transport and channel forms interact over a wide range of spatial and temporal scales. Explores these interactions through critical analysis of contemporary research in fluvial geomorphology, fluid mechanics, hydraulics and sedimentology. Same as GEOG 575. Prerequisite: Consent of instructor.

GEOG 587 Qualitative Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/587)
Same as UP 587. See UP 587.

GEOG 594 Seminar in Social Geography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/594)
Advanced study of a current research topic in social geography. Topic varies from term to term; prepares students for dissertation and thesis research through study of advanced literature and the completion of a research paper. Prerequisite: GEOG 471 or equivalent; graduate coursework in social geography or in one of the social sciences.

GEOG 595 Advanced Studies in Geography  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/595)
Seminar and directed individual investigation of selected problems or regions; designed to develop ability to conduct independent investigation. Scheduled seminars are detailed in each term's Class Schedule. Approved for both letter and S/U grading. May be repeated.

GEOG 598 Graduate Capstone Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/598)
Major individual project that demonstrates a PSM in GIS student's ability to solve an advanced geospatial problem or develop a GIS-based application. Student will work closely with a faculty capstone adviser to determine the project focus and expected outcome(s). 4 graduate hours. No professional credit. Prerequisite: Restricted to second-year PSM in GIS students.

GEOG 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GEOG/599)
Approved for S/U grading only. May be repeated.

Geology (GEOL)

GEOL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GEOL)

Courses

GEOL 100 Planet Earth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/100)
Introduces non-science majors to physical aspects (earthquakes, volcanoes, floods, tsunamis, mountains, plate tectonics) and historical aspects (formation of earth and life, dinosaurs, ice age, evolution of climate) in earth science. Presents information on earth resources, natural hazards, and development of natural landscapes. Focuses on humanistic issues; provides context for understanding environmental change. Optional lab demonstrations and field trips with co-registration in GEOL 110. Credit is not given for both GEOL 100 and GEOL 101, GEOL 103 or GEOL 107.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 103 Planet Earth QRII  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/103)
Topics covered are very similar to those of GEOL 101. Emphasizes application of quantitative methods in deriving geological knowledge. A weekly computer laboratory is an essential component of the course. Credit is not given for both GEOL 103 and GEOL 100, GEOL 101 or GEOL 107.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences
Quantitative Reasoning II

GEOL 104 Geology of the National Parks  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/104)
Develops geologic background, concepts, and principles through study of selected national parks and monuments. Examines the geologic framework and history, modern geologic processes, and factors influencing the present day landscape for each park area. Same as ESE 104.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 107 Physical Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/107)
Introduces Earth phenomena and processes. Includes minerals and rocks, continental drift, plate tectonics, rock deformation, igneous and sedimentary processes, geologic time, landscape evolution, internal structure and composition of the earth, groundwater, seismology and earthquakes, and formation of natural resources. Emphasizes the chemical and physical aspects of the Earth, and the basis for geological inference. Field trip required. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 107 and GEOL 100, GEOL 101 or GEOL 103. Prerequisite: Intended for science and science-oriented students.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences
GEOL 100 Exploring Geology in the Field credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GEOL/100)
Introduces practical techniques for identification of rocks, minerals, and fossils; interpretation of geologic maps and cross-sections; appreciation of Midwestern geologic history and geologic features and landforms in the field. Additional fees may apply. See Class Schedule.

GEOL 111 Emergence of Life credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/111)
Examines important theoretical and practical questions regarding the origin and evolution of life, as well as the search for life elsewhere in the universe. Uses the pioneering work of Carl Woese, whose "Tree of Life" revolutionized our understanding of the fundamental structure and evolutionary relatedness of all living entities on Earth. Same as ESE 111. Additional fees may apply. See Class Schedule.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

GEOL 117 The Oceans credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/117)
Integrated introduction to oceanography and marine geology and geophysics. Topics include ocean-basin formation and evolution (in the context of plate tectonics), ocean ecology, the hydrologic cycle, water chemistry, currents and waves, the interaction of oceans with climate, coastal hazards, resources, pollution, and the Law of the Sea. Course is oriented toward students not majoring in science. Same as ESE 117.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 118 Natural Disasters credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/118)
Introduces the nature, causes, risks, effects, and prediction of natural disasters including earthquakes, volcanoes, landslides, subsidence, global climate change, severe weather, coastal erosion, floods, mass extinctions, and meteorite impacts; covers scientific principles and case histories of natural disasters as well as human responses (societal impact, mitigation strategies, and public policy). Same as ESE 118 and GLBL 118.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 143 History of Life credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/143)
Evolution of life from its beginning, illustrating changing faunas and floras through time; the invasion of land and of the skies; the effects of a changing atmosphere, changing climates, and continental drift. Emphasis on dinosaur evolution, ecology, and extinction; also other vertebrates, including mammal-like reptiles, mammals, and the emergence of humans, as well as plants and invertebrates. Same as ESE 143.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

GEOL 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/199)
May be repeated.

GEOL 201 History of Geology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/201)
Traces the development of key ideas in the science, beginning with musings of the ancient Greek and Roman philosophers and early observations of the Earth by European and Arab scholars. Considers advances in mapmaking that span thousands of years and examines the origins of the Geologic Time Scale, including determination of the ages of rocks. Looks at early geologists from around the world, in the US, in Illinois, and at the U of I. Reads some classic papers establishing the grand unifying theory of geology: plate tectonics. Prerequisite: A 100-level geology course (excluding GEOL 110 and GEOL 143). Intended for both non-science students and geology majors.

This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

GEOL 208 History of the Earth System credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/208)
Presents systematic analysis of formation and evolution of the Earth and its dynamic systems (lithosphere, hydrosphere, atmosphere, and biosphere). Also introduces methods of reconstructing Earth's history through use of geochronology, paleontology, and the stratigraphic records. Introduces the geological history of life evolution, mountain belts and continents, geochemical systems, climate, sea level, and the Earth's interior. Field trip required. Same as ESE 208. Additional fees may apply. See Class Schedule. Prerequisite: One of GEOL 100, GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

This course satisfies the General Education Criteria for:
Nat Sci Tech - Phys Sciences

GEOL 333 Earth Materials and the Env credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/333)
Studies the origin, identification, and environmental significance of earth materials (minerals, rocks, and soil). Environmental topics include: mineral resources; acid mine drainage; volcanic hazards; swelling soils; engineering strength, porosity/permeability, and architectural uses of earth materials; and asbestos. One day field trip is required. Same as ESE 333. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: CHEM 102 and CHEM 103, GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 350 Volcanoes credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/350)
Explores volcanoes from a hazards standpoint by investigating case studies of volcanic disaster, evaluating important controls of volcanism such as magma viscosity and behavior of bubbles, and introducing the monitoring of active volcanoes with cutting edge methods such as seismicity, gravity, and remote sensing. Understanding the interactions among these complex parameters plays a critical role in assessing the evolution of shallow magma systems and investigating their potential for remaining stable or developing into hazardous eruptive systems, which can threaten nearby populations. Prerequisite: Any 100-level Geology course (excluding GEOL 106, GEOL 111, and GEOL 143).

GEOL 370 Water Planet, Water Crisis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/370)
Same as ESE 320 and GEOG 370. See ESE 320.
GEOL 380  Environmental Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/380)
Increases student understanding of environmental issues of water supply and pollution, waste disposal, energy, environmental health, global change, and land evaluation and use by emphasizing the role of geology and its relationships to human activities. Course requires a one-day field trip. Same as ENVS 380. Additional fees may apply. See Class Schedule. Credit is not given for both GEOL 380 and ESE 445. Prerequisite: CHEM 102 and CHEM 103; and GEOL 100 and GEOL 110, or one of GEOL 101, GEOL 103, GEOL 104 or GEOL 107; or consent of instructor.

GEOL 390  Individual Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/390)
Research and individual study in geology. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member; advance approval by Department of Geology.

GEOL 391  Individual Honors Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/391)
Research and individual study in geology for honors credit. May be repeated. A maximum of 8 hours of GEOL 390 plus GEOL 391 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; consent of supervising faculty member and of departmental honors advisor; advance approval by Department of Geology.

GEOL 401  Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/401)
History, origin, and characteristics of land forms produced by weathering, fluvial, glacial, wind, and wave processes or by a combination of these acting upon the major kinds of geologic materials and structures. Lectures, laboratory, and field trips. Same as ESE 411. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 406  Fluvial Geomorphology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/406)
Same as GEOG 406 and NRES 406. See GEOG 406.

GEOL 411  Structural Geol and Tectonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/411)
Introduction to principles of rock deformation, stress, and strain; description and interpretation of geologic structures; study of methods for structural analysis; outline of geotectonic processes; three hours of lecture and a three-hour lab per week. Required four-day field trip. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 107 or consent of instructor.

GEOL 415  Field Geology  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/415)
Group field study in a prominent geologic locality; includes in-class meetings, student-led presentation, and field trip; trips run during spring break, winter break, in mid-end May or intercession; dates depend on location. Additional fees may apply. See Class Schedule. 2 to 8 undergraduate hours. 2 to 8 graduate hours. May be repeated. Prerequisite: Consent of instructor.

GEOL 417  Geol Field Methods, Western US  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/417)
Field course based in the mountains of the western United States. Provides intensive practical experience in geologic mapping, as well as instruction in field structural, stratigraphic, geomorphologic, and petrologic analysis. Offered during summer session only. Additional fees may apply. See Class Schedule. 6 undergraduate hours. 6 graduate hours. Prerequisite: Eight hours of 400-level credit in geology, or consent of instructor; GEOL 411, GEOL 432, and GEOL 440 are recommended.

GEOL 432  Mineralogy and Mineral Optimics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/432)
Introduction to: crystallography; crystal optics; structure, composition, properties, stability and geological occurrences of minerals; and mineral identification. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 333 and GEOL 432. Prerequisite: GEOL 208 and CHEM 104 and CHEM 105.

GEOL 436  Petrology and Petrography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/436)
Study of the minerals, compositions, textures, structures, classifications, and origins of igneous and metamorphic rocks; lectures emphasize rock forming processes (petrology), and laboratories emphasize use of the petrographic microscope (petrography). Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 432.

GEOL 440  Sedimentology and Stratigraphy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/440)
Introduces dynamics of sedimentation, geology of sedimentary basins, the distribution of geologic processes through time, definition and correlation of stratigraphic units, principles of paleogeography, stratigraphy and tectonics. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours. Prerequisite: GEOL 208 or consent of instructor.

GEOL 450  Probing the Earth's Interior  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/450)
Overview of how seismology, magnetics, gravity, geodesy, and surface geology can help us understand the Earth from its surface to its core as well as its temporal evolution. Topics include the internal composition and dynamics of Earth, generation of Earth’s gravitational and geomagnetic fields, driving mechanisms for tectonic plate motion, continental deformation, and surface topography. Students wanting a more quantitative treatment of geophysics should enroll in GEOL 452. 3 undergraduate hours. 3 graduate hours. Credit is not given for both GEOL 450 and GEOL 452. Prerequisite: PHYS 102 or 212, GEOL 107 or 101, or consent of instructor.

GEOL 451  Env and Exploration Geophysics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/451)
Discusses geophysical methods to reveal subsurface structures. Topics include seismic methods, gravity, magnetics, electrical methods, ground penetrating radar, borehole geophysics, and their applications to hydrocarbon and mineral exploration as well as engineering and environmental investigations. 4 undergraduate hours. 4 graduate hours. Several required local trips for field experiments. Prerequisite: MATH 241 and PHYS 212; or consent of instructor.
GEOL 452 Introduction to Geophysics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/452)
Provides a broad overview of basic concepts and fundamental knowledge of the physics of the Earth. Topics include seismology, gravity, geomagnetism, Earth’s thermal state, and geodynamics. Intended for undergraduates in the geophysics concentration and other students who want a more quantitative treatment of the subject than GEOL 450. 4 undergraduate hours. 4 graduate hours. Credit is not given for both GEOL 452 and GEOL 450. Prerequisite: MATH 241 and PHYS 211; or consent of instructor.

GEOL 454 Introduction to Seismology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/454)
Introducing the basic theory of seismic wave generation and propagation and its application to Earth structure and earthquakes, including body waves, surface waves, inference of Earth structure, seismic prospecting, earthquake mechanisms, and strong ground motions. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Students participating in optional class projects receive an additional hour of credit. Prerequisite: MATH 285 or consent of instructor.

GEOL 460 Geochemistry credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/460)
Fundamental chemical and physical concepts applied to geological processes; topics include: origin, distribution, and geochemical behavior of elements; chemical evolution of the Earth; geochemistry of natural waters and sedimentary rocks; isotope geochemistry, crystal chemistry, trace element geochemistry and organic geochemistry. 3 undergraduate hours. 3 graduate hours. Prerequisite: GEOL 101 or GEOL 107; CHEM 104; CHEM 105; MATH 220 or MATH 221; or consent of instructor.

GEOL 470 Introduction to Hydrogeology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/470)
Introduction to environmental and economic aspects of the occurrence and movement of groundwater through the earth’s crust; topics include the hydrologic cycle, groundwater contamination, petroleum migration, formation of mineral resources, and groundwater chemistry. Same as ESE 470. 4 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or MATH 221; senior standing is recommended; or consent of instructor.

GEOL 481 Earth Systems Modeling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/481)
Same as ATMS 421, ESE 421, GEOG 421 and NRES 422. See ATMS 421.

GEOL 483 Challenges of Sustainability credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/483)
Same as ESE 482 and GEOG 482. See ESE 482.

GEOL 484 Paleoclimatology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/484)
Survey of Earth’s past climate variability, ranging from million-year to interannual time scales. Introduction to paleoclimatic proxies including tree rings, marine and lake sediment cores, ice cores, corals, and speleothems. Focus on the drivers of climate change, major modes of climate variability, and how paleoclimatic data can inform projections of future climate change. Same as IB 484. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing required.

GEOL 485 Risk Analysis in Earth Science credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/485)
Same as ATMS 404. See ATMS 404.

GEOL 486 Environmental Consulting credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/486)
Same as ESE 486. See ESE 486.

GEOL 490 Undergraduate Research credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/490)
Students will conduct research under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated up to six hours. A maximum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member; advance approval by Department of Geology. Intended primarily for sophomores and juniors; not available to freshman students.

GEOL 491 Honors Undergraduate Research credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/491)
Students will conduct research for honors credit under the direct supervision of a geology faculty member. Research topics will vary, and either a summary paper or a poster presentation at a regional or national science conference is required. 1 to 3 undergraduate hours. No graduate credit. May be repeated up to 6 hours. A maximum of 6 credit hours of GEOL 490 and GEOL 491 may be counted toward graduation. Prerequisite: GEOL 208 or equivalent; Consent of supervising faculty member and of departmental honors advisor; advance approval by Dept. of Geology. Intended primarily for sophomores and juniors who are James Scholars or Chancellor’s Scholars; not available to freshman students.

GEOL 492 Senior Thesis credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/492)
Research in geology, with thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member.

GEOL 493 Honors Senior Thesis credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/493)
Research in geology with honors thesis; a thesis must be submitted for credit to be received. 2 to 8 undergraduate hours. No graduate credit. May be repeated. A maximum of 10 hours of GEOL 492 plus GEOL 493 may be counted toward graduation. Prerequisite: Consent of supervising faculty member and of departmental honors advisor.

GEOL 497 Special Topics in Geology credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/497)
Seminar or lectures in subjects not covered by regular course offerings; for advanced undergraduates and graduate students. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor.

GEOL 510 Integrated Graduate Geology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/510)
Study of broad range of disciplines in geology including geochemistry, geophysics, and geobiology relating to the deep Earth, the crust/ lithosphere and hydrosphere through readings of classic papers and presentations by current department faculty. Prerequisite: Consent of Instructor.

GEOL 511 Advanced Structural Geology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/511)
Study of selected topics concerning rock deformation processes and products. Introduces current research literature and methods, and the techniques of structural analysis. May include an optional field trip. Additional fees may apply. See Class Schedule. Prerequisite: GEOL 411 or equivalent; consent of instructor.
GEOL 512  Geotectonics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/512)
Discussion of plate tectonics theory, and nature and distribution of regional-scale earth structures, such as mountain belts; includes study of geological and geophysical evidence that led to modern interpretations of evolution of earth's lithosphere. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: GEOL 411 or consent of instructor.

GEOL 515  Advanced Field Geology  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/515)
Group field study in a prominent geologic locality; includes in-class meetings, student-led presentation, and field trip; trips run during spring break, winter break, mid-end May or intercession; dates depend on location. Additional fees may apply. See Class Schedule. May be repeated. Prerequisite: Consent of instructor.

GEOL 521  Topics in Paleontology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/521)
Selected topics in macro- and micropaleontology. Intensive study of a selected invertebrate or algal group; special problems in the taxonomy, evolution, skeletal diagenesis, ecology, biogeography, and biostratigraphy of selected fossil organisms. May be repeated. Prerequisite: Consent of instructor.

GEOL 531  Structural Mineralogy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/531)
Structure and crystal chemistry of minerals and survey of current knowledge of the properties and behavior of selected minerals and mineral groups. Prerequisite: GEOL 432 or consent of instructor.

GEOL 540  Petroleum Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/540)
Application of geoscience to understanding the nature and occurrence of hydrocarbon resources. Emphasizes: source-rock geology and geochemistry, process of petroleum migration, nature of reservoirs and traps, exploration and drilling procedures, interpretation of seismic-reflection profiles, cross-section and sub-surface map construction, classification and tectonics of petroleum-bearing sedimentary basins, application of sequence stratigraphy to exploration, and petroleum-related environmental issues. Prerequisite: GEOL 411 and GEOL 440, or equivalent.

GEOL 552  Geodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/552)
Explores dynamic characteristics of the solid earth. Covers physical and mathematical theories of deformation occurring on the surface and within the lithosphere and mantle. Discusses observations that can help us understand past and ongoing earth dynamics; these observation include topography, gravity, heat flow, geology, mineral physics, and seismic and magnetotelluric images, as well as plate tectonics theory. Includes regular lectures and tutorials on geodynamic modeling. Prerequisite: MATH 285, PHYS 211, GEOL 452, or consent of instructor.

GEOL 553  Chemistry of Earth's Interior  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/553)
The state of Earth's interior, emphasizing its chemical composition and mineralogy. Focuses on the interpretation of geochemical, petrologic, and laboratory geophysical data related to deep Earth composition, thermal state, structure, and evolution. Prerequisite: GEOL 450, GEOL 452, or consent of instructor.

GEOL 560  Aqueous Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/560)
Introduction to geochemical processes occurring in natural waters, with emphasis on the thermodynamic and kinetic controls governing chemical speciation, surface complexation, redox cycling and mineral formation and stability. Applications to a variety of soil and groundwater systems will be presented. 4 graduate hours. No professional credit. Prerequisite: CHEM 104; CHEM 105; MATH 220 or 221; GEOL 460; or equivalents; or consent of instructor.

GEOL 561  Geomicrobiology & Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/561)
Covers geomicrobiology as it relates to geochemistry with a primary focus on groundwater environments. Topics include energetics of microbial metabolism, influence of microorganisms on geochemistry, geochemical influences on microbial ecology, biogeochemical cycles and molecular biology tools in groundwater. Prerequisite: One year of college-level chemistry or consent of instructor required; one semester of college level biology recommended.

GEOL 562  Isotope Geology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/562)
Introduction to the theoretical basis for isotopic fractionation in nature; survey of isotopic variations in natural materials; and application of isotopic variations to problems of geological and environmental significance. Prerequisite: Consent of instructor.

GEOL 563  Analytical Geochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/563)
Introduces principles and applications of chemical and isotopic analysis of geological materials, including x-ray spectroscopy, mass spectrometry and atomic spectroscopy. Lectures cover theory of analysis while practical laboratory based exercises focus on how instruments work and instrument operation. Individually tailored analysis project constitutes a major part of assessment. Prerequisite: Consent of instructor.

GEOL 564  Geochronology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/564)
Geochronology encompasses study of the dates and rates of geologic processes, and development of geochronological clocks used to time these events. Covers important geochronologic methods and discusses prominent geochronology-related questions. Focus on three areas: geochronology of the crust, mantle, and core; thermochronology; Quaternary geochronology, or study of dates and rates of geologic processes affecting Earth's surface and atmosphere in recent geologic past. 4 graduate hours. No professional credit. Prerequisite: Familiarity with differential equations, introductory-level geochemistry.

GEOL 571  Contaminant Fate and Transport  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/571)
Quantitative study of the chemical, physical, and microbiological processes controlling the mobility, reaction, and transformation of pollutants in flowing groundwater. Prerequisite: GEOL 460 or GEOL 560 or CEE 443 or CEE 534; and GEOL 470 or GEOL 570 or CEE 457 or CEE 557; or consent of instructor.

GEOL 573  River Morphodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/573)
Same as CEE 553. See CEE 553.

GEOL 575  Alluvial Boundary Layer Dynam  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GEOL/575)
Same as GEOG 575. See GEOG 575.
GER 101 Beginning German I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/101)
Oral practice, reading, and grammar for beginners.

GER 102 Beginning German II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/102)
Continuation of GER 101. Prerequisite: One semester of college German or equivalent.

GER 103 Intermediate German I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/103)
Continuation of GER 102. Prerequisite: Two semesters of college German or equivalent.

GER 104 Intermediate German II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/104)
Continuation of GER 103. Prerequisite: Three semesters of college German or equivalent.

GER 189 Living German - German Living credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GER/189)
Practice in speaking German for students living in the German House. Approved for letter and S/U grading. May be repeated to a maximum of 3 hours. Prerequisite: Elementary speaking knowledge of German.

GER 191 Freshman Honors Tutorial credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/191)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

GER 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GER/199)
Credit: 1 to 5 hours. May be repeated.

GER 200 German Literature in Trans credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/200)
Introduction to German literature for students with no knowledge of German. Same as CWL 224. May be repeated if topics vary.

GER 201 German Popular Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/201)
Introduction to the study of modern and contemporary German culture through examining examples of popular culture from the late-eighteenth century to the present. Looks at texts and films as a mirror and critique of modern German society. Topics to be discussed: nationalism, gender, ethnicity, minority cultures, Jewish life in Germany, German images of other cultures, etc. Course taught in English.

This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

GER 205 Germany and Europe credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/205)
Introduction into major issues in contemporary German society with a special focus on Germany's functioning within Europe and the European Union through novels, films, essays, interviews etc. Course taught in English.

This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

GER 211 Conversation and Writing I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/211)
Prerequisite: GER 104 or equivalent, or consent of instructor.

GER 212 Conversation and Writing II credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/212)
Continuation of GER 211. Prerequisite: GER 211 or equivalent, or consent of instructor.

GER 250 Grimms' Fairy Tales - ACP credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/250)
Special attention is paid to the Grimms' tales in terms of traditional narrative genres, elements of life in early modern Europe, and versions from Italy and France as well as Germany. Course is conducted in English. Same as CWL 250 and ENGL 267. Credit is not given for both GER 250 and GER 251. Prerequisite: Completion of the Campus Composition I requirement.

This course satisfies the General Education Criteria for: Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western
GER 251 Grimm’s Fairy Tales in Context credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/251)
Special attention is paid to the Grimms’ tales in terms of traditional narrative genres, elements of life in early modern Europe, and versions from Italy and France as well as Germany. Course is conducted in English. Same as CWL 254 and ENGL 266. Credit is not given for both GER 251 and GER 250.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

GER 260 The Holocaust in Context - ACP credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/260)
Jewish contributions to German literature from 1200 to the present day. Includes trips to the University Library’s Rare Book Room. Same as CWL 271 and ENGL 268. Credit is not given for both GER 260 and GER 261. Prerequisite: Completion of the Campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Lit Arts
Cultural Studies - Western

GER 261 The Holocaust in Context credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/261)
Examines cultural representations of the Holocaust in literature, film, and critical essays. Same as CWL 273, ENGL 269, and JS 261. Credit is not given for both GER 261 and GER 260.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - Western

GER 270 Sexuality and Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/270)
Examination of the historical contexts in which sexuality has been debated during the past three centuries, and to what extent sexuality is perceived differently in diverse cultures. Part one will look at the Western tradition, especially Germany. Part two will shift focus to the non-Western world, especially to the colonial history of Indonesia. Same as CWL 272 and GWS 270.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts

GER 299 Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GER/299)
Lectures, seminars, and practical work in German language, literature, civilization, and in other academic areas appropriate to the student’s course of study. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 18 hours; may be repeated in separate terms to a maximum of 36 hours. Prerequisite: GER 104 or equivalent; 2.75 overall average; 3.0 average in German courses.

GER 320 German for Business credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/320)
Introduces German business language as used in basic operations in retail/wholesale, export/import, banking transactions. Prerequisite: GER 211 or consent of instructor.

GER 321 German for Economics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/321)
German language as used in professional contexts involving economic matters: texts and documents relating to forms of enterprises and their financing, to macroeconomic structures of domestic and foreign trade, and to reports on the economies of German-speaking countries. Prerequisite: GER 320 or consent of instructor.

GER 331 Intro to German Literature credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/331)
Introductory study of representative works (prose, drama, lyric) by outstanding German, Austrian, and Swiss writers of the modern period. Prerequisite: Two years of college German or equivalent. This course satisfies the General Education Criteria for:
Humanities - Lit Arts

GER 332 German Literature and Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/332)
In German. Seminar in the literature and culture of German-speaking countries since 1750. Topic varies. Format: lecture; discussion; film screenings. Prerequisite: GER 331 or equivalent.

GER 385 Politics of the European Union credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/385)
Same as EURO 385, FR 385, and PS 385. See PS 385.

GER 396 Special Topics German Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/396)
Introductory study in such topics as individual authors, selected literary movements or periods, modes of inquiry in literary study, minor genres, subgenres, extraliterary influences, etc. Same as CWL 328. May be repeated to a maximum of 6 hours if topics vary. Prerequisite: Reading fluency in German beyond the fourth-semester college level.

GER 401 Global Issues in German credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/401)
Introduction to global issues in German media. Taught in German. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 212 or equivalent.

GER 403 German-English Translation: Theory & Practice credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/403)
Theory and practice of translating technical, commercial, scientific, and literary texts from German into English and vice versa. Same as TRST 403. 3 undergraduate hours. 3 graduate hours. Prerequisite: GER 401 or consent of instructor.

GER 405 History of Translation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/405)
Same as CLCV 430, CWL 430, ENGL 486, SLAV 430, SPAN 436, and TRST 431. See SLAV 430.

GER 418 Language & Minorities in Europe credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/418)
Same as EURO 418, FR 418, ITAL 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

GER 420 German Cultural History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/420)
A general introduction to German culture from the pre-Christian period to the twenty-first century, focusing on the tension between forces of history and modernization in German culture. Course materials include literary and philosophical texts, film, painting, and music. Particular attention will be paid to the role of art in society. 4 undergraduate hours. 4 graduate hours. Prerequisite: One 200-level German course and GER 331; or consent of instructor.

GER 460 Principles of Language Testing credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/460)
Same as EIL 460, EPSY 487, FR 460, ITAL 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.
GER 465  Ling Structures of German  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/465)
Survey of the linguistic structures of German in historical, geographic, and social context. 3 undergraduate hours. 3 graduate hours. Prerequisite: Three years of college German or equivalent.

GER 470  Middle Ages to Baroque  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/470)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 750-1720. Same as MDVL 470. 3 undergraduate hours. 3 graduate hours. May be repeated in separate terms to a maximum of 6 hours if topics vary. Prerequisite: GER 332 or equivalent.

GER 471  Enlightenment to Romanticism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/471)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1720 to 1830. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 472  Realism to Expressionism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/472)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1830 to 1920. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 473  1920s to Today  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/473)
Literary, thematic, cultural, and bibliographical analysis of the major authors, works, genres, and movements in German literature from 1920 to the present. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 6 graduate hours if topic varies. Prerequisite: GER 332 or equivalent.

GER 474  Old High German  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/474)
Grammar and interpretation of the oldest literary documents. Same as MDVL 511. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 465 or equivalent.

GER 475  Middle High German  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/475)
Seminar in selected genres, themes, or authors of the Middle Ages. Same as CWL 512, EALC 512, SLAV 502, and TRST 502. See TRST 502.

GER 476  Applied Literary Translation I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/476)
Critical introduction to the enterprise of reading, accompanied by an overview of this century’s most important theories of literature and criticism. Same as CWL 511, EALC 511, SLAV 501, and TRST 501. See TRST 501.

GER 477  Applied Literary Translation II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/477)
Grammar and interpretation of the oldest literary documents. Same as MDVL 515. Prerequisite: GER 465.

GER 478  Studies in Critical Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/478)
Same as ITAL 573, PORT 573, and SPAN 573. See SPAN 573.

GER 479  Special Topics German Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/479)
Intensive study of restricted topics in German language, literature, and culture. 3 undergraduate hours. 3 graduate hours. May be repeated as topics vary to a maximum of 9 undergraduate hours or 8 graduate hours. Prerequisite: Three years of college German or equivalent.

GER 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/489)
Same as FR 481, ITAL 489, LING 489, PORT 489, and SPAN 489. See LING 489.

GER 491  Honors Senior Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/491)
Intended primarily for candidates for honors in German, but open to other seniors. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing; consent of instructor.

GER 493  German Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/493)
Focus on the rise of German film from its earliest beginnings until 1945. Same as MACS 493. 3 undergraduate hours. 3 graduate hours.

GER 494  German Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GER/494)
Study of German film from 1945 until the present. Same as MACS 494. 3 undergraduate hours. 3 graduate hours.

GER 500  Readings in German Grads I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/500)
Introduction to the reading of German texts in the sciences and the humanities. Credit is not given towards a graduate degree.

GER 501  Readings in German Grads II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/501)
Designed for graduate students preparing for the German reading requirements for the Ph.D. Credit is not given towards a graduate degree. Prerequisite: GER 500 or equivalent.

GER 510  Introduction to Graduate Study  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/510)
Bibliography and methodology of the study of the Germanic languages and literatures, with particular regard to German literature and Germanic linguistics; introduction to scholarship in general and the German profession in particular, including the modes and methods of scholarly endeavor.

GER 511  Applied Literary Translation I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/511)
Same as CWL 511, EALC 511, SLAV 501, and TRST 501. See TRST 501.

GER 512  Applied Literary Translation II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/512)
Same as CWL 512, EALC 512, SLAV 502, and TRST 502. See TRST 502.

GER 515  Middle High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/515)
Same as MDVL 515.

GER 520  History of the German Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/520)
Internal and external history of German from prehistoric times to the present. Prerequisite: GER 465 or equivalent.

GER 530  Old High German  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/530)
Grammar and interpretation of the oldest literary documents. Same as MDVL 530. Prerequisite: GER 465.

GER 553  Professional/Academic Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/553)
Same as ITAL 573, PORT 573, and SPAN 573. See SPAN 573.

GER 570  Studies in Critical Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/570)
Critical introduction to the enterprise of reading, accompanied by an overview of this century’s most important theories of literature and criticism. Same as CWL 570. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 510 or equivalent, and reading knowledge of German, English, and one other modern European language.

GER 571  Medieval German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/571)
Seminar in selected genres, themes, or authors of the Middle Ages. Epic, lyric, and didactic works in prose and verse are read in the original language. Same as MDVL 571. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 510 and GER 515 or equivalent, or consent of instructor.

GER 572  Early Modern German Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GER/572)
Seminar in selected genres, themes, or authors of the early modern period (1500-1700). May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 470.
GER 573 18thC German Studies  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/573](https://courses.illinois.edu/schedule/terms/GER/573))  Seminar in selected genres, themes, or authors of the eighteenth century. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 420 or GER 471.

GER 574 19thC German Studies  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/574](https://courses.illinois.edu/schedule/terms/GER/574))  Seminar in selected genres, themes, or authors of the nineteenth century. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Two 400-level courses in German literature or equivalent.

GER 575 20thC German Studies  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/575](https://courses.illinois.edu/schedule/terms/GER/575))  Seminar in selected genres, themes, or authors of the twentieth century. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: Two 400-level courses in German literature or equivalent.

GER 576 Open Seminar in German Studies  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/576](https://courses.illinois.edu/schedule/terms/GER/576))  Seminar in literary phenomena (such as movements, genres and forms, relations, themes and types, interdisciplinary studies, women's studies) that go beyond the confines of a particular century. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: GER 510.

GER 580 Classroom Language Acquisition  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/580](https://courses.illinois.edu/schedule/terms/GER/580))  Same as EIL 580, FR 580, ITAL 580, PORT 580, SLS 580, and SPAN 580. See SPAN 580.

GER 582 Theories of German Lang Tchg  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/582](https://courses.illinois.edu/schedule/terms/GER/582))  In-depth exploration of fundamental concepts and problems of teaching German in college; designed for Teaching Assistants; topics include teaching approaches, lesson planning, reading, listening, speaking, writing, language testing, and instructional technology. Students are required to submit a research paper on a topic appropriate to the course content.

GER 584 Theories in Second Language Acquisition  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/584](https://courses.illinois.edu/schedule/terms/GER/584))  Same as CI 584, EALC 584, EPSY 563, FR 584, ITAL 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

GER 588 Sem Second Lang Learn  credit: 4 Hours. ([courses.illinois.edu/schedule/terms/GER/588](https://courses.illinois.edu/schedule/terms/GER/588))  Same as EALC 588, FR 588, ITAL 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

GER 593 Research in Special Topics  credit: 1 to 8 Hours. ([courses.illinois.edu/schedule/terms/GER/593](https://courses.illinois.edu/schedule/terms/GER/593))  May be repeated to a maximum of 8 hours.

GER 599 Thesis Research  credit: 0 to 16 Hours. ([courses.illinois.edu/schedule/terms/GER/599](https://courses.illinois.edu/schedule/terms/GER/599))  Approved for S/U grading only. May be repeated.

**Germanic (GMC)**

**Courses**

GMC 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. ([courses.illinois.edu/schedule/terms/GMC/199](https://courses.illinois.edu/schedule/terms/GMC/199))  May be repeated.

GMC 562 Germanic Linguistics  credit: 4 to 8 Hours. ([courses.illinois.edu/schedule/terms/GMC/562](https://courses.illinois.edu/schedule/terms/GMC/562))  Varying topics dealing with problems in diachronic and synchronic Germanic linguistics. May be repeated if topics vary. Prerequisite: Consent of instructor.

**Global Studies (GLBL)**

**Courses**

GLBL 100 Intro to Global Studies  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/GLBL/100](https://courses.illinois.edu/schedule/terms/GLBL/100))  Foundation course for understanding a range of contemporary issues and learning to analyze them from multiple disciplinary perspectives. Students consider globalizing trends within themes of wealth and poverty, population, cultures, and human rights; environment and sustainability; and governance, conflict, and cooperation. Course objectives are to enhance knowledge of human cultures, their interactions and impacts on the world; develop skills for successfully negotiating realities of contemporary societies; and promote values for global learning, diversity, and sustainable futures.

This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

Cultural Studies - Western

GLBL 118 Natural Disasters  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/GLBL/118](https://courses.illinois.edu/schedule/terms/GLBL/118))  Same as ESE 118 and GEOL 118. See GEOL 118. This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences

GLBL 199 Undergraduate Open Seminar  credit: 0 to 6 Hours. ([courses.illinois.edu/schedule/terms/GLBL/199](https://courses.illinois.edu/schedule/terms/GLBL/199))  See Class Schedule for topics. Approved for Letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours.

GLBL 200 Foundations of Research  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/GLBL/200](https://courses.illinois.edu/schedule/terms/GLBL/200))  Introduction to the foundations of interdisciplinary social science research. Topic include understanding the purpose for research, identifying researchable issues, finding evaluating and using sources effectively, recognizing methods associated with different types of data and disciplines, and writing a literature review. Prepares students for course-based research papers and advanced research methods courses. Guest faculty present their Global Studies-relevant research as students (b)log their own research interests. This course satisfies the General Education Criteria for: Quantitative Reasoning II

Social Beh Sci - Soc Sci

GLBL 201 Energy Systems  credit: 2 or 3 Hours. ([courses.illinois.edu/schedule/terms/GLBL/201](https://courses.illinois.edu/schedule/terms/GLBL/201))  Same as NPRE 201. See NPRE 201.

GLBL 215 Resource Conflicts  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/GLBL/215](https://courses.illinois.edu/schedule/terms/GLBL/215))  Same as ESE 215 and GEOG 215. See GEOG 215. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci
GLBL 220 Governance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/220)
Gateway course into the Governance thematic area for Global Studies majors providing an introduction to important themes, problems and approaches to global governance in a series of issue areas, including security, economics, migration, and the environment. Covers the historical development of the international system as well as contemporary controversies. Case studies are used to explore the strength and weaknesses of current governance approaches, and students will conduct independent research into existing structures. Prerequisite: GLBL 100.

GLBL 221 Geographies of Global Conflict credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/221)
Same as GEOG 221. See GEOG 221. This course satisfies the General Education Criteria for: Cultural Studies - Non-West

GLBL 225 Career Development: Internships credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/225)
Teaches students with global studies academic interests how to identify internships and service-learning learning opportunities relevant to their major. Students prepare application materials, conduct informational interviews, participate in mock job interviews, explore networking strategies, and create a career narrative that represents their academic interests and skills. Prepares students on what to expect from their internships and how to develop and apply leadership skills.

GLBL 228 Terrorism, Past and Present credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/228)
Same as HIST 257. See HIST 257. This course satisfies the General Education Criteria for: Humanities - Hist Phil

GLBL 240 Global Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/240)
Introduction to issues and problems in global health. As the world becomes more and more interconnected it is important for students to be aware of health issues from a global perspective. We will consider a variety of issues that influence the health of different population and countries. The topics to be discussed include: the environment, nutrition, education, the medical system, culture, and agency involvement in health. Case studies will be used to demonstrate some successes at addressing these issues and problems that were encountered.

GLBL 250 Development credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/250)
An interdisciplinary introduction to the theory and practice of international development. Topics include: defining development, how ideas have changed over time, and the interventions used in development work and their impacts. This course satisfies the General Education Criteria for: Cultural Studies - Non-West

GLBL 251 Warfare Milit Instrs & Soc credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/251)
Same as HIST 251. See HIST 251.

GLBL 260 Global Human Rights credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/260)
Examines how ideas about human rights are defined and how they are differentially deployed. Looks at human rights claims and crises, and examines how governmental and non-governmental individuals and organizations have sought to deal with human rights violations in order to address problems of justice, retribution, and reconciliation at personal, national, and international levels.

GLBL 270 Introduction to Global Markets and Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/270)
Introduction to global markets and economic systems and their evolving relationship with societies in the global North and South. Presents interdisciplinary perspectives on business structures and conduct with emphasis on (1) the philosophical foundations of economic systems; (2) international business networks and technological innovation; (3) business environments in non-Western settings; (4) global workforce composition and divisions of labor; (5) the relationships between business, development and the environment; and (6) international organizations that support the spread of global business.

GLBL 272 Language and Culture in Turkey credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/272)
Same as ANTH 272, SAME 272, and TURK 270. See TURK 270. This course satisfies the General Education Criteria for: Cultural Studies - Non-West

GLBL 280 Nuclear Weapons & Arms Control credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/280)
Same as PHYS 280. See PHYS 280. This course satisfies the General Education Criteria for: Advanced Composition

GLBL 283 Intro to Intl Security credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/283)
Same as PS 283. See PS 283.

GLBL 296 Global St Foundation Seminar credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/296)
Examination of current controversies and larger ethical issues in today’s global society. Topics could include: immigration, global environmental debates, and population issues. May be repeated in the same or separate terms to a maximum of 3 hours if topics vary.

GLBL 298 Global Studies Seminar Abroad credit: 3 or 6 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/298)
Seminars introduce students to aspects of globalization through a case study of a particular location abroad. On campus, students explore historical and contemporary aspects of the location abroad to prepare for their field visit. Abroad, students engage with local resources and people to better understand how the local site contributes to and is impacted by relevant global processes under focus. Course activities will include a field site visit abroad, discussions, lectures, short essays, student presentation, and final projects. Topics vary according to site location and instructor expertise. May be repeated in separate terms to a maximum of 6 hours.

GLBL 328 First Person Global credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/328)
A writing workshop for students who have studied abroad and want to deepen their understanding of globalization and improve their nonfiction prose by writing about their own experiences. Writing in the first person raises fundamental questions about identity, power, cultural understanding, and representation. Students will read and discuss first person literary nonfiction by contemporary writers and chronicle their own global encounters in ethical, insightful, and creative ways. Prerequisite: A study abroad experience.

GLBL 340 Global Health: Policy & Governance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/340)
Identifies central and emerging global health issues and analyzes them through the lenses of governance, policy and gender. Focuses on structural, policy, and institutional perspectives on global health, with emphasis on how decisions are influenced and made. Prerequisite: GLBL 240.
GLBL 350 Poverty in a Global Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/350)
Examines global poverty in the context of international development debates an practice. Despite global commitments (for example, the Millennium Development Goals), decades of research, and new and innovative policies, the “solution” to widespread and lasting poverty alleviation remains elusive. Class will define poverty and how it is measured, considered who is poor and why some people are more vulnerable to the negative effects of poverty than others, and examine what causes some countries to remain poor. Prerequisite: GLBL 250 or consent of instructor.

GLBL 356 Comparative Political Economy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/356)
Same as PS 356. See PS 356.

GLBL 357 Ethnic Conflict  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/357)
Same as PS 357. See PS 357.
This course satisfies the General Education Criteria for: Advanced Composition

GLBL 386 Arctic Environment & Society  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/386)
Interdisciplinary study of the European Arctic for science and non-science students, providing an historical survey of the relationship between its environment and societies with the goal of understanding current and possible future conditions, in light of climate change. The course takes place in Scandinavia and includes a field site component in the Arctic.

GLBL 392 Int Diplomacy and Negotiation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/392)
Examines the complexities of international diplomacy and negotiations among states and other actors. Focuses on three main subject areas: negotiation analysis, applied negotiation, and the interaction of practical considerations that affect negotiations. Utilizes theoretical, case-based, and active-learning approaches during the semester as topics are explored in detail. Issues and topics include security, public health, economic development, human rights, and the environment.
This course satisfies the General Education Criteria for: Advanced Composition

GLBL 403 Women in Muslim Societies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/403)
Same as ANTH 403, GWS 403, HIST 434, REL 403, and SAME 403. See REL 403.

GLBL 440 Global Health: Interventions & Evaluations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/440)
Focuses on the process of crafting a solution and evaluation plan related to a specific global health problem identified by students. Requires students to work in teams to integrate content learning on global health with applied project design skills developed in this course. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 340. Junior standing or higher required.

GLBL 450 Poverty Interventions and Evaluation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/450)
Over the last few decades a wide range of strategies and initiatives have been applied to alleviate poverty in developing countries. The record of these initiatives is mixed. While millions of people may have moved out of poverty, over a billion remain persistently impoverished. We will examine a range of anti-poverty approaches that have been implemented and evaluates their effectiveness. Students will gain a familiarity with the interventions and an understanding of the techniques used to evaluate them. 3 undergraduate hours. No graduate credit. Prerequisite: GLBL 250 and 350 or consent of instructor.

GLBL 480 Energy and Security  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/480)
Same as NPRE 480 and PS 480. See NPRE 480.

GLBL 481 Writing on Technol & Security  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/481)
Same as NPRE 481. See NPRE 481.
This course satisfies the General Education Criteria for: Advanced Composition

GLBL 483 Seminar on Security  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/483)
Same as NPRE 483. See NPRE 483.

GLBL 492 UG Research Assistance  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/492)
Assist Global Studies and program-affiliated faculty in ongoing research. Topics and nature of assistance vary. Capstone paper required. 0 to 3 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. No more than 6 hours may be counted toward completion of the Global Studies major from any combination of GLBL 492 and other independent study, internship, or research assistance coursework. This includes coursework from other departments on campus or during study abroad. Prerequisite: GLBL 200; evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of Global Studies program. Global Studies majors only. Not available to freshman. Instructor approval required.

GLBL 494 Research Methods I  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/494)
Optional Capstone experience for Global Studies students. Students will develop research, communication and presentation skills and develop a proposal for an independent research project, goals and timeline. The proposal will include a literature review and methods section for their final project. Topics include: research approaches, design and implementation, as well as methods, analysis and ethics of data collection. 1 undergraduate hour. No graduate credit. Prerequisite: GLBL 200.

GLBL 495 Research Methods II  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GLBL/495)
Second semester of the optional Capstone experience for International/Global Studies students. Designed to guide the interpretation of the data, development of conclusions and implications. In addition to the final project, students will learn how to write a paper abstract and conference proposal, as well as acquire presentation skills. 1 undergraduate hour. No graduate credit. Prerequisite: GLBL 494.
GLBL 499  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/499)
Selected reading and research in Global Studies. See schedule for current topics. 3 undergraduate hours. 1 to 4 graduate hours. May be repeated, if topics vary, in the same or separate terms to a maximum of 6 undergraduate or 8 graduate hours. Prerequisite: GLBL 100 or six hours of global studies, anthropology, social geography, political science, sociology, or economics; consent of instructor.

GLBL 500  Global Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/500)
Students will examine three propositions: (1) the existence of a global society; (2) the flaws of its principal, global institutions – the state, markets, and democracy; and (3) absent their reform, whether the global society is at risk. Prerequisite: Instructor Approval Required.

GLBL 501  Perspectives on Global Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GLBL/501)
Provides graduate students in a variety of fields with an understanding of key global concepts and methods, and introduces them to different perspectives on globalization and transnational social relations. 4 graduate hours. No professional credit. Prerequisite: Graduate Standing.

**Graduate College (GC)**

GC Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/GC)

**Courses**

GC 295  URAP Research Apprenticeship  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GC/295)
The Office of Undergraduate Research and the Graduate College offer the opportunity for freshmen, sophomore, and transfer students with little to no research experience to assist advanced graduate students with their research projects. Through an application, selection, and matching process, undergraduate students are provided a research experience with their graduate student mentor. In addition, regular class meetings will offer a comprehensive introduction to research methods and practices. Approved for S/U grading only. Prerequisite: Consent of instructor. Freshmen, Sophomores, and first-year transfer students by application only.

GC 498  Graduate Domestic Study Away  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/GC/498)
Provides campus credit for study at accredited domestics institutions outside the CIC. 0 to 12 graduate hours. Approved for both letter and S/U grading. May be repeated to a maximum of 12 graduate hours in separate terms. Credit received will depend on transfer approved from visited institution. Prerequisite: Registration will be controlled by Graduate Records.

GC 499  Graduate College Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/GC/499)
Provides campus credit for study at accredited foreign institutions or approved overseas programs. Final determination of credit granted is made after the student's successful completion of work. Credit will not count toward residence requirements. 0 to 18 undergraduate hours. 0 to 18 graduate hours. Approved for both letter and S/U grading. 0 to 18 hours fall and spring semesters. 0 to 12 hours summer term. Prerequisite: Full academic standing in the Graduate College and consent of major department and Graduate College.

GC 500  URAP Graduate Mentor Practicum  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/GC/500)
The Office of Undergraduate Research (OUR) and the Graduate College offer the opportunity for first and second-year undergraduate students to assist advanced graduate students with their research projects. Through a one-on-one research experience with their graduate student mentor, undergraduate students will have the opportunity to learn what it means to do research, create knowledge, and produce scholarship. This course will serve as a formal record of the graduate mentoring side of the apprenticeship (i.e., "practicum"). 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

GC 599  Thesis Research  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/GC/599)
For doctoral students who have a guaranteed student loan that needs deferral, have completed the credit requirements for the doctorate, have passed the preliminary examination, do not have any financial assistance that would cover tuition and fees, and are eligible to register for 599 in their own academic units. Approved for S/U grading only. May be repeated.

**Grand Challenge Learning (GCL)**

GCL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/GCL)

**Courses**

GCL 101  Introduction to Energy Sources  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/101)
Explanation of energy technologies using an elementary approach presupposing no prior scientific or technical background. Coverage of all energy sources including fossil fueled, solar, hydro, and nuclear power. Integral demonstrations and a tour of the University's power plant. Discussion of energy related incidents with emphasis on environmental, economic, and social impact. Credit is not given for both GCL 101 and NPRE 101.
This course satisfies the General Education Criteria for: Grand Challenge-Sustainability
Nat Sci Tech - Phys Sciences
Quantitative Reasoning II

GCL 124  Sustainable Earth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/124)
Provides an introduction to sustainability that explores how today's human societies can endure in the face of global change, ecosystem degradation, and limited resources. Emphasizes the fundamentals of the physical sciences and the scientific method while also exploring the special impact of sustainability challenges on minority cultures in the U.S.
This course satisfies the General Education Criteria for: Grand Challenge-Sustainability
Nat Sci Tech - Phys Sciences

GCL 125  Health and Wellness in Life Sciences  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/125)
Grand Challenge Learning course in the Health & Wellness pathway. Introduces students to the fundamentals of life sciences with an emphasis on health & wellness and experiential learning through projects, design-based thinking, community-engaged scholarship, or field trips.
Topics vary by section.
This course satisfies the General Education Criteria for: Grand Challenge-Health/Well
Nat Sci Tech - Life Sciences

Information listed in this catalog is current as of 07/2019
GCL 126 Sustainability and Social Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/126)
Grand Challenge Learning course in the Sustainability, Energy & the Environment pathway. Introduction to the fundamentals of social science with an emphasis on environmental sustainability and experiential learning through projects, design-based thinking, community-engaged scholarship, or field trips. Topics vary by section. This course satisfies the General Education Criteria for: 
Grand Challenge-Sustainability 
Social Beh Sci - Soc Sci 

GCL 127 History and Philosophy of Sustainable Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/127)
Grand Challenge Learning course in the Sustainability, Energy & the Environment pathway. Introduction the history of sustainable design practices that prepares students to think about, act upon and share their growing knowledge. Focuses on environmental philosophy, and "systems thinking", with an on active, engaged participation in a variety of learning activities, design challenges, and field experiences. Topics vary by section. This course satisfies the General Education Criteria for: 
Grand Challenge-Sustainability 
Humanities - Hist Phil 

GCL 128 Sustainability in Fiction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/128)
Grand Challenge Learning course in the Sustainability, Energy & the Environment Pathway. Exploration of how narrative fiction focused on sustainability – such as "cli-fi" (dystopian fiction about climate change) – shapes our relation to the natural world. Includes experiential learning projects. Topics vary by section. This course satisfies the General Education Criteria for: 
Grand Challenge-Sustainability 
Humanities - Lit Arts 

GCL 129 Sustainable Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/129)
Interdisciplinary Grand Challenge Learning pilot course in the Sustainability, Energy & the Environment pathway. Provides an introduction to sustainable art forms, media, and/or the social function of art as it relates to sustainability. Topics vary by section. Each section emphasizes experiential learning through design-based thinking and practice supplemented by field trips and community-engaged scholarship in comparative contexts. This course satisfies the General Education Criteria for: 
Grand Challenge-Sustainability 
Humanities - Lit Arts 
Cultural Studies - Non-West 

GCL 137 Documenting Inequality  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/137)
Exploration of how economic and social inequality affects the lives of children and minors in the U.S.—especially in minority communities—through the study of documentary film, photography and other kinds of socially conscious art. Students will watch and critique documentaries made by artists and filmmakers in the areas of Education, Housing, and Law Enforcement; go behind the scenes at the Krannert Art Museum to investigate the museum's documentary holdings; and make their own documentary projects. Final projects will be exhibited in the Krannert Art Museum at the end of the semester. Part of the Grand Challenge Learning Inequality & Cultural Understanding pathway. This course satisfies the General Education Criteria for: 
Grand Challenge-Inequality 
Humanities - Lit Arts 
Cultural Studies - US Minority 

GCL 143 Mapping Inequalities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/143)
Grand Challenge Learning course in Inequality & Cultural Understanding. Immerses students in the history of Inequality in the United States through mapping the geographic, historical, and/or social movement of minority cultures using quantitative and social science methods. Topics vary by section, but each section emphasizes experiential learning through community-engaged scholarship, field-trips, or computer programming projects. No previous computer programming experience is required. No previous computer programming experience is required. This course satisfies the General Education Criteria for: 
Grand Challenge-Inequality 
Quantitative Reasoning II 
Social Beh Sci - Soc Sci 
Cultural Studies - US Minority 

GCL 144 Stereotypes, Prejudice & Discrimination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/144)
Grand Challenge Learning course in Inequality & Cultural Understanding provides an interdisciplinary introduction to questions related to societal inequality. Each section emphasizes experiential learning through, for example, field trips or hands-on, community-based research projects. This course satisfies the General Education Criteria for: 
Social Beh Sci - Beh Sci 
Grand Challenge-Inequality 
Cultural Studies - US Minority 

GCL 145 Social Justice and the Arts  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/145)
Interdisciplinary Grand Challenge Learning course in the Inequality & Cultural Understanding pathway. Provides an introduction to the social dimensions of art and its use in social justice movements. Each section emphasizes experiential learning through projects, design-based thinking, community-engaged scholarship, or field trips. This course satisfies the General Education Criteria for: 
Grand Challenge-Inequality 
Humanities - Lit Arts 
Cultural Studies - US Minority
GCL 146 Fundamental Causes of Disease: The HIV/AIDS Pandemic credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/146)
Examination of the HIV/AIDS pandemic globally and locally. Introduces students to the fundamentals of the socio-demographic tradition, including risk behaviors and contexts and data skills associated with epidemiology. Upon completing the course, students will be better informed about the HIV/AIDS pandemic, familiar with core social science theories, and able to develop and assess public health measures and models in addition to enhanced core academic skills (critical reading skills, note taking, data analysis, and writing). Prerequisite: This course is intended for first and second year students.
This course satisfies the General Education Criteria for:
Grand Challenge-Inequality
Social Beh Sci - Soc Sci

GCL 147 Social Justice in the Social Sciences credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/147)
Interdisciplinary Grand Challenge Learning course in the Inequality and Cultural Understanding pathway. Exploration of causes and solutions to inequality from a variety of viewpoints, such as sociology, economics, political science, and journalism. Includes experiential learning projects. Topics vary by section.
This course satisfies the General Education Criteria for:
Grand Challenge-Inequality
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

GCL 148 Historical Perspectives on Social Justice credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/148)
Grand Challenge Learning course in the Inequality & Cultural Understanding pathway. Focuses on the historical dimensions of Inequality & Cultural Understanding from an interdisciplinary perspective and emphasizes experiential learning through projects, community-engaged scholarship, video conferences with experts and other collaborative classroom activities. Topics vary by section.
This course satisfies the General Education Criteria for:
Grand Challenge-Inequality
Humanities - Hist Phil

GCL 149 Health, Wellness, and the Black Experience credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/149)
Exploration of issues relating to health in African American communities such as environment, lifestyle, chronic disease, intervention, research, policy, social justice and cultural experience. Includes experiential learning projects as part of the Grand Challenge Learning Initiative.
This course satisfies the General Education Criteria for:
Grand Challenge-Health/Well
Social Beh Sci - Soc Sci
Cultural Studies - US Minority

GCL 150 Approaches to Health in Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/150)
Interdisciplinary, experiential Grand Challenge Learning course in Health & Wellness. Exploration of the ways methodological and moral principles interact to inform policy choices related to health and society; consideration of topics of ethical and public policy concern (e.g., abortion, animal experimentation, drug and trials, organ donation, vaccination, and provision of healthcare), with an emphasis on relevant formal, quantitative tools (e.g., probability, statistics, decision theory, modal logic, and graphical causal modeling).
This course satisfies the General Education Criteria for:
Grand Challenge-Health/Well
Humanities - Hist Phil
Quantitative Reasoning II

GCL 151 Morality, Methods, and Medicine: Formal and Philosophical Approaches to Health in Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/151)
Interdisciplinary, experiential Grand Challenge Learning course in Health & Wellness. Exploration of the ways methodological and moral principles interact to inform policy choices related to health and society; consideration of topics of ethical and public policy concern (e.g., abortion, animal experimentation, drug and trials, organ donation, vaccination, and provision of healthcare), with an emphasis on relevant formal, quantitative tools (e.g., probability, statistics, decision theory, modal logic, and graphical causal modeling).
This course satisfies the General Education Criteria for:
Grand Challenge-Health/Well
Humanities - Hist Phil
Quantitative Reasoning II

GCL 152 Undergraduate Open Seminar credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/152)
Topics course that varies each semester and by section. The topics offered each semester will be listed in the Class Schedule. May be repeated as topics vary.
This course satisfies the General Education Criteria for:
Grand Challenge-Inequality

GCL 153 Frameworks for Inequality credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/153)
Different disciplines approach issues of inequality in distinct ways. This course presents an interdisciplinary introduction to the study of social inequality. Co-taught by faculty from the arts, humanities, and social sciences, it addresses how inequality related to work, race and ethnicity, gender, urban space, incarceration, global debt and migration relate to one another and across disciplinary boundaries. Presentations by visiting activists will expose students to contemporary social justice efforts to address inequalities. Meets twice per week: on Tuesdays all students meet together, and on Thursdays the class breaks into small seminars, each led by one of the course's main instructors. Credit is not given for both GCL 200 and GCL 201.
This course satisfies the General Education Criteria for:
Grand Challenge-Inequality
Humanities - Hist Phil
Cultural Studies - US Minority
GCL 201  Frameworks for Inequality & Cultural Understanding - ACP credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/201)
Frameworks for Inequality & Cultural Understanding introduces students to one of the most urgent social issues of our era: economic and racial inequality. As an innovative course in Grand Challenge Learning, GCL 201 gathers expert faculty from across campus—all renowned for excellent teaching and research. Students will explore inequality across the arts, natural sciences, humanities, and social sciences while earning General Education credit in US Minority Cultures and Humanities & the Arts.
GCL 201 meets twice per week: on Tuesday for a lecture that gathers all students and faculty, and Thursdays in seminars of up to 20 students. Through this unique structure, students benefit from the expertise of seven different faculty while joining a seminar with one professor and a small network of peers. Registration for GCL 201 includes the lecture as well as enrollment in one of the participating professor’s seminars (for a total of 3 credit hours). Credit is not given for both GCL 201 and GCL 200.
Prerequisite: Completion of campus Composition I requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Grand Challenge-Inequality
Humanities - Hist Phil
Cultural Studies - US Minority

GCL 210  Frameworks for Sustainability, Energy, & the Environment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/210)
Different disciplines approach issues of sustainability in different ways. This course presents an interdisciplinary introduction to the study of sustainability, energy and the environment. Co-taught by faculty from the humanities, social sciences, natural sciences, business, and engineering, it addresses how environmental and energy sustainability challenges are not only technical problems but are also social, political and economic ones. Students will be able to evaluate various problems and solutions to enhance energy and environmental sustainability. Meets twice per week: first for a lecture that includes all students and faculty, and next in individual faculty-led seminars. Through this structure, students benefit from the expertise of multiple faculty while participating in a seminar with one professor and a small network of peers.
This course satisfies the General Education Criteria for:
Grand Challenge-Sustainability
Humanities - Hist Phil
Cultural Studies - Western

GCL 299  Interdisciplinary Research Experience credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GCL/299)
Introduces students to interdisciplinary research and the skills needed to become an effective researcher. Enables students to conduct authentic research in one of the campus’s interdisciplinary research centers under the supervision and mentorship of faculty. Approved for S/U grading only. May be repeated in separate terms up to 6 credit hours if topics vary.
Prerequisite: Registration by permission of instructor.

Greek (GRK)

GRK Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GRK)

Courses

GRK 101  Elementary Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/101)
Introduces ancient Greek (both classical and koine), including the reading of simple prose. Same as REL 111.

GRK 102  Elementary Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/102)
Continuation of GRK 101. Grammar and reading in classical and koine Greek. Same as REL 112. Prerequisite: GRK 101.

GRK 199  Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/199)
May be repeated.

GRK 201  Classical & Koine Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/201)
Readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 200. Prerequisite: GRK 102.

GRK 202  Classical & Koine Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/202)
Continuation of GRK 201. Further readings in classical Greek prose, and narrative and epistolary New Testament texts. Same as REL 204. Prerequisite: GRK 201 or equivalent.

GRK 251  Elementary Modern Greek I credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/251)
Same as GRKM 201. See GRKM 201.

GRK 252  Elementary Modern Greek II credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRK/252)
Same as GRKM 202. See GRKM 202.

GRK 401  Homeric Greek credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/GRK/401)
Introduction to Epic Greek; readings of Homer. 3 undergraduate hours. 2 graduate hours. Prerequisite: GRK 202 or equivalent.

GRK 403  Intermediate Modern Greek I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/403)
Same as GRKM 403. See GRKM 403.

GRK 404  Intermediate Modern Greek II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/404)
Same as GRKM 404. See GRKM 404.

GRK 411  Greek Prose Composition credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/GRK/411)
Practice in the writing of Greek prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: GRK 201 or equivalent.
GRK 491  Readings in Greek Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/491)
Readings in authors or special topics chosen by the instructor from the entire extant literature in Greek. 3 undergraduate hours. 3 or 4 graduate hours. May be repeated. Prerequisite: GRK 401 or equivalent.

GRK 492  Senior Thesis  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/492)
Thesis and honors. Open to candidates for distinction in Greek. 2 to 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

GRK 493  Independent Reading  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/493)
1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: GRK 401 and consent of instructor.

GRK 498  Senior Survey  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/498)
For candidates for honors in Greek and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

GRK 511  Advanced Composition  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/GRK/511)
Practice in writing continuous Greek prose, with special attention to stylistic problems.

GRK 520  Proseminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/520)
Alternating poetry and prose, concentrates on a major author from one of the following areas: epic, history, lyric poetry, oratory, drama, or philosophy. Areas normally follow this sequence in successive years. May be repeated to a maximum of 20 hours if topics vary. Prerequisite: GRK 491 or equivalent.

GRK 531  Special Disciplines  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/531)
Variable content course concentrating on an area such as comparative grammar, epigraphy, metrics, palaegraphy, or papyrology. Same as LAT 531. May be repeated if topics vary. Prerequisite: GRK 491 and LAT 491, or equivalent.

GRK 580  Greek Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/580)
Research on special problems of Greek literature; required of all majors in classical philology. May be repeated if topics vary. Prerequisite: A Greek proseminar.

GRK 595  Intro to Classical Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRK/595)
Introductory survey for graduate students in classics; prepares students for work at the graduate level and surveys basic bibliography and methodology. Same as LAT 595. Prerequisite: Graduate standing in classics.

GRK 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/GRK/599)
Guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.

Hebrew, Modern and Classical (HEBR)

HEBR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HEBR)

Courses

HEBR 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/199)
May be repeated.

HEBR 201  Elementary Modern Hebrew I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/201)
Acquaints students with the fundamental principles of the Hebrew language. Develops all four language skills; reading, writing, listening and speaking. Grammar and comprehension are exercised through the textbook, the audio-visual materials and the computer. Easy stories will be used during the term to strengthen reading comprehension. Participation in the language laboratory is required.

HEBR 202  Elementary Modern Hebrew II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/202)
Continuation of HEBR 201, with introduction of more advanced grammar, and with emphasis on more fluency in speaking and reading. Participation in the language laboratory is required. Prerequisite: HEBR 201 or equivalent.

HEBR 205  Intensive Biblical Hebrew  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/205)
Same as REL 205. See REL 205.

HEBR 403  Intermediate Modern Hebrew I  credit: 4 or 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/403)
Advanced examination of the fundamental principles of the Hebrew language. Develops all four language skills: reading, writing, listening and speaking. Grammar and comprehension are exercised through the textbooks, the audio-visual materials and the computer. Examples of Hebrew fiction, largely easy stories, will be used during the term to strengthen reading comprehension. Participation in the language laboratory is required. 5 undergraduate hours. 4 graduate hours. Prerequisite: HEBR 202 or equivalent.

HEBR 404  Intermediate Modern Hebrew II  credit: 4 or 5 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/404)
Continuation of HEBR 403. Concentration on ability to engage in reasonable fluent discourse in Hebrew, comprehensive knowledge of formal grammar, and an ability to read easy Hebrew texts. Israeli television programs and movies are used to develop communicative skills and cultural knowledge. Participation in the language laboratory is required. 5 undergraduate hours. 4 graduate hours. Prerequisite: HEBR 403 or equivalent.

HEBR 405  Advanced Modern Hebrew I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/405)
For students who have mastered the fundamental principles of the Hebrew language. Develops competence through reading Hebrew fiction and studying Israeli newspapers and television programs. Communication skills are exercised by means of class discussions, oral presentations, compositions and written reports on stories. 3 undergraduate hours. 3 graduate hours. Prerequisite: HEBR 404 or equivalent.
HEBR 406  Advanced Modern Hebrew II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/406)
Course for advanced knowledge of spoken and written standard Modern Hebrew with emphasis on Modern Hebrew literature and language, Israeli newspapers and Israeli television programs. Communication skills are exercised by means of class discussions, oral presentations, compositions and written reports on stories. 3 undergraduate hours. 3 graduate hours. Prerequisite: HEBR 405 or equivalent.

HEBR 407  Topics Hebrew Lang & Lit I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/407)
Study of advanced topics in the Hebrew language, based upon a selection of Hebrew literature from either the Bible or the modern period. Historical and cultural background of the material will be stressed, together with literary analysis. In certain years, the course will be offered as a course using English translation of texts, with separate discussion section for students who want to read texts in the original. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 9 hours. Prerequisite: HEBR 205 or HEBR 406 or consent of instructor.

HEBR 408  Topics Hebrew Lang & Lit II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HEBR/408)
Study of advanced topics in the Hebrew language, based upon a selection of Hebrew literature from either the Bible or the modern period. Historical and cultural background of the material will be stressed, together with literary analysis. In certain years, the course will be offered as a course using English translation of texts, with separate discussion section for students who want to read texts in the original. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 9 hours. Prerequisite: HEBR 205 or HEBR 406 or consent of instructor.

Hindi (HNDI)

HNDI Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HNDI)

Courses

HNDI 115  Language and Culture in India  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/115)
Same as LING 115 and REL 115. See REL 115. This course satisfies the General Education Criteria for: Cultural Studies • Non-West

HNDI 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/199)
May be repeated.

HNDI 201  Elementary Hindi-Urdu I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/201)
Introduction to the Hindi/Urdu language; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, and a minimum of formal grammar and Devanagari writing; introduction to Arabic-Persian script by arrangement. Participation in the language laboratory is required.

HNDI 202  Elementary Hindi-Urdu II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/202)
Second term of spoken Hindi/Urdu; includes conversation with a native Hindi/Urdu-speaking tutor under the direction of a linguist instructor, formal grammar based on conversational materials, and work on written Hindi; concentration on written Urdu by arrangement. Participation in the language laboratory is required. Prerequisite: HNDI 201.

HNDI 403  Intermediate Hindi I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/403)
First term of second year of the Hindi language, including drill for more advanced conversational fluency; introduction to a greater variety of styles and levels of discourse and usage; and increasing study of the written language and more formal grammar. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 202 or equivalent.

HNDI 404  Intermediate Hindi II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/404)
Concentration on ability to engage in reasonably fluent discourse in Hindi, on comprehensive knowledge of formal grammar, and on ability to read ordinary texts in Hindi. 4 undergraduate hours. 4 graduate hours. Prerequisite: HNDI 403 or equivalent.

HNDI 405  Advanced Hindi I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/405)
Course for advanced knowledge of spoken and written Hindi. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 404 or consent of instructor.

HNDI 406  Advanced Hindi II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/406)
Course for advanced knowledge of spoken and written Hindi with emphasis on modern Hindi literature and language. Participation in the language laboratory is required. 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 405 or consent of instructor.

HNDI 408  Intro to South Asian Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/408)
Introduces selected literatures of South Asia in a cross-cultural and comparative perspective: emphasizes relating literary texts and trends to the historical, sociocultural, political, and literary contexts of the subcontinent. Texts for South Asian languages are offered in English translation; in addition, there will be texts by South Asian authors written in English. Knowledge of a South Asian language not required. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of course coordinator.

HNDI 412  Business Hindi  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HNDI/412)
Study and analysis of Business Hindi in a wide variety of contexts and settings (from Metropolitan to rural). 3 undergraduate hours. 3 graduate hours. Prerequisite: HNDI 403 or higher or consent of instructor.

History (HIST)

HIST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HIST)
Courses

HIST 100  Global History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/100)
Broad introduction to global history, by exploring the global structures and transnational forces that have shaped human history, from the emergence of agriculture and urban centers to our contemporary global village.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 101  History Now!  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/101)
Teaches students how to apply historical thinking to present day problems. Each version starts with contemporary headlines about a current issue, moves to an investigation of its historical roots and legacies, and pivots back to the present to assess the impact of past history on present reality and to capture those relationships in a collaborative student project. It aims to show, in short, how and why history matters NOW.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 104  Black Music  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/104)
What is black music, and how do we know what we think we know about it? Together, we will examine musical creations pioneered by Africans and individuals of African descent over several centuries and across hemispheres. Doing so will allow us to consider the unity of the African Diaspora and its music, and also examine internal differences and diversity. Special focus is given to Latin America and the U.S., but, depending on the semester, we will also read about, listen to, and talk about music and musicians in Asia, Africa, and Europe.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 105  Latin America to Independence  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/105)
Survey of Latin American history from the discovery of America to 1824. This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 106  Modern Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/106)
History of the Latin American republics from their independence to the present; emphasis on Argentina, Brazil, Chile, Colombia, Cuba, and Mexico.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 110  History of Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/110)
Survey of the early history of the continent, nineteenth century developments, and the period of colonial occupation and independence, with particular focus on case studies from East Africa, South Africa and West Africa at the conclusion of the term.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 120  East Asian Civilizations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/120)
Surveys the three major East Asian civilizations from ancient and classical times, through the period of Western influence, political revolution, and modernization, to the contemporary age and the emergence of East Asian superpowers. Same as EALC 120. Credit is not given for both HIST 120 and EALC 135.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 130  History of South Asia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/130)
Multidisciplinary introduction to the history of modern South Asia from the consolidation of early modern state formations, the negotiation of religious, cultural and linguistic formations, European colonial interactions, and the rise of the modern nation states of Bangladesh, India, Pakistan and Sri Lanka. Same as ANTH 130.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 135  History of Islamic Middle East  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/135)
Introduction to fourteen centuries of Middle East history from the rise of Islam to modern times. Examines the development of Islamic thought, and of religious, social, and political institutions; as well as the transformations of the 19th and 20th centuries in the area consisting of Egypt, the Fertile Crescent, Arabia, Turkey, and Iran.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 140  Western Civ to 1660-ACP  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/140)
Course is identical to HIST 141 except for the additional writing component. See HIST 141. Credit is not given for both HIST 140 and HIST 141. Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

HIST 141  Western Civ to 1660  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/141)
Fundamental developments in the history of Western societies from antiquity to early modern Europe; includes the Greek and Roman worlds, the influence of Christianity and Islam, the emergence of medieval monarchies, the rise of cities, the commercial and intellectual revolutions of the Middle Ages, the birth of the university, the conquest and colonization of the Atlantic world, the Renaissance and Reformation, the political and religious upheavals of the sixteenth and seventeenth centuries. Credit is not given for both HIST 141 and HIST 140.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western
HIST 142 Western Civ Since 1660 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/142)
Fundamental developments - social, economic, cultural, intellectual, and political - in the history of mankind and Western society since 1660; includes the rise of modern science, the French and Industrial revolutions, the Romantic movement, the growth of nationalism and socialism, imperialism, urbanization, the Russian Revolution, Nazi Germany, the world wars, and the West and the developing world. Credit is not given for both HIST 142 and HIST 143.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 143 Western Civ Since 1660-ACP credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/143)
Course is identical to HIST 142 except for the additional writing component. Credit is not given for both HIST 143 and HIST 142.
Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

HIST 164 The Automobile credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/164)
Interdisciplinary examination of the automobile industry, its production systems, its marketing strategies, and the way automobiles reflect the changing landscapes of consumer tastes and value over time.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 166 A History of Judaism credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/166)
Same as JS 120 and REL 120. See REL 120.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil

HIST 170 US Hist to 1877-ACP credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/170)
Course is identical to HIST 171 except for the additional writing component. Credit is not given for both HIST 170 and HIST 171.
Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

HIST 171 US Hist to 1877 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/171)
Colonial foundations, movement for independence, and early years of the Republic. Credit is not given for both HIST 171 and HIST 170.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 172 US Hist Since 1877 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/172)
Evolution of an industrial, urbanized, and pluralistic society, grappling with domestic and global problems. Credit is not given for both HIST 172 and HIST 173.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 173 US Hist Since 1877-ACP credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/173)
Course is identical to HIST 172 except for the additional writing component. Credit is not given for both HIST 173 and HIST 172.
Prerequisite: Completion of campus Composition I General Education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - Western

HIST 174 Black America, 1619-Present credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/174)
Same as AFRO 101. See AFRO 101.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 191 Freshman Honors Tutorial credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/191)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated once. Prerequisite: Consent of departmental honors advisor.

HIST 198 Freshman Seminar credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/198)
Through research, reports, and discussion in a selected field of historical study, the seminar provides a thorough understanding of the problems of that field and of the methods of history as a discipline. May be repeated to a maximum of 6 hours. Prerequisite: James Scholar standing or other designation as a superior student; consent of instructor.

HIST 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/HIST/199)
May be repeated.

HIST 200 Intro Hist Interpretation credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/200)
Through the careful examination of a specific topic or theme, this course provides a thorough introduction to historical interpretation. Particular attention will be devoted to research strategies, writing practices, handling primary and secondary sources, and the analysis of historiography. May be repeated to a maximum of 6 hours with permission of the Director of Undergraduate Studies.

HIST 202 American Environmental History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/202)
Introduction to the historical study of Americans' relationship with the natural world. Examination of the ways that "natural" forces have helped to shape American history; the ways that human beings have shaped, altered, and interacted with nature over time; and the ways that cultural, philosophical, scientific, and political attitudes toward the environment have changed from pre-history to the present. Same as ESE 202 and NRES 202.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western
HIST 203  Reacting to the Past  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/203)
An introduction to history through participation in role-playing games set in the past. Topics will vary each time the course is taught. Students will take on the roles of historical figures (famous or obscure) engaged in difficult and complicated situations, and will be obliged to adhere to the beliefs and circumstances of those figures while attempting to pursue a course of action that will help them win the game -- and possibly alter the course of history.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 205  LatAm Hist: Primary Accounts  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/205)
Examining the history through the primary texts written by Latin Americans, this course introduces students to theories, contents and methods of historical inquiry, as well as the nuances and the complexities of Latin American history. Reading primary texts written by all strata of society, students will look through the eyes of the diverse populations in Latin America. Students will analyze the traditional narrative of Latin America and gain insight into the lived experience of Latin Americans. Together we will advance our individual and collective understanding of Latin America's rich and complex past.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 207  Publishing the Past  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/207)
Introduction to the craft of publishing historical materials, with a special focus on how to publish the past in the digital age. Assignments will include historical and methodological readings, as well as hands-on instruction in digital publishing techniques. Skills taught include historical research, content development, project management, and copyright analysis.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 211  History of Southern Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/211)
Survey of major themes and events in Southern African history, with emphasis on the period after World War II: the inception and development of apartheid in South Africa, the growth of contests over African nationalism in the subcontinent, wars of liberation and the demise of white domination.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 212  History of Eastern Africa  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/212)
Introduction to the history of Eastern Africa from the nineteenth century to the present. Attention to the region's pre-colonial history and institutions is stressed, in order to understand both the transformations brought by European colonialism as well as its limits. The final weeks of the course will examine the differing political, economic, and religious trajectories of the new nation-states since independence in the 1960s.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 213  African Muslim Societies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/213)
Focuses on the history and historiography of Muslim societies in Africa. Investigates the dynamics of the spread of Islam in Africa, and explores differences in Islam in Africa from other areas of the Islamic world, with attention to the image in Western scholarship of Islam in Africa. Provides students with the knowledge and skills they need to understand this central phenomenon in modern world history. Same as AFST 213 and REL 215.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 219  History of the Prison  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/219)
Same as AFRO 221 and LA 221. See LA 221.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 220  Traditional China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/220)
Historical background to the modern age, tracing the Chinese state and empire from the earliest times until 1644 A.D. Basic political, social, and economic patterns; cultural, intellectual, and technological achievements; and China's impact on Asia and the world. Same as EALC 220.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 221  Modern China  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/221)
General introduction to the major themes of the Chinese Revolution from 1840 to the present, emphasizing the interplay between politics, ideas, and culture. Themes include the tension between cultural integrity and Western ideologies, between democratic participation and the tradition of centralized control, and the representation of cultural identity in high and mass cultures. Same as EALC 221.
This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

HIST 222  Chinese Thought and Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/222)
Same as EALC 222 and REL 224. See EALC 222.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 225  Southeast Asian Civilizations  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/225)
Same as ANTH 286 and ASST 286. See ANTH 286.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 226  Premodern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/226)
Introduction to the history of the Japanese people, their social and cultural systems, politics, and economy, from the earliest times to the sixteenth century. Same as EALC 226.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West
HIST 227  Modern Japanese History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/227)  
Introduction to the history of the Japanese people, their social and cultural systems, politics, and economy, from the mid-sixteenth century to the mid-twentieth century. Same as EALC 227.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Non-West

HIST 240  Ancient Greek Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/240)  
The history of ancient Greece and neighboring civilizations from the Archaic Period to the conquests of Alexander.

HIST 241  History of Ancient Rome  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/241)  
Survey of the political, social, economic, military, institutional, religious and cultural development of Rome from 753 BCE until 480 CE.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 245  Wives, Workers and Witches in Pre-Modern Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/245)  
Examines the history of women and the evolution of concepts of gender in western Europe from roughly 400 to 1700. Topics include the interactions of class and ethnicity with women's experiences, the social construction of sexuality and gender, the misogynist tradition, and women's self-images. Same as GWS 245 and MDVL 245.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 247  Medieval Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/247)  
From the fragmentation of the Roman Empire to the formation of territorial monarchies, this course surveys the events, innovations, crises, and movements that shaped western Europe in a pivotal era known as "the Middle Ages." Topics will include the spread of Christianity, the migration of peoples, fundamental changes in economic and social structures, the development of political institutions, the role of women, and the cultural achievements of different communities (the monastery, the town, the court). Same as MDVL 247.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 251  Warfare Milit Insts & Soc  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/251)  
History of warfare and its relationship to changing technologies, tactics, and political structures, with an emphasis on the ways that military institutions are integrated with society as a whole. Same as GLBL 251.  

HIST 252  The Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/252)  
Exploration of the Holocaust in historical perspective by examining European anti-Semitism, political developments in Germany, the rise to power of the Nazis, and the origins of the Holocaust with first-hand accounts, films, and historical texts, concluding with the legacy of the Holocaust in the contemporary world. Same as JS 252.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 253  Enlightenment to Existentialism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/253)  
Survey of the major authors, ideas, events, and styles in the cultural and intellectual history of Europe from the seventeenth to the mid-twentieth centuries, focusing on the intellectual traditions of France, Germany, and Great Britain.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 254  Vikings to Volvos: Scandinavia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/254)  
Same as SCAN 225. See SCAN 225  
This course satisfies the General Education Criteria for: Humanities - Lit Arts  
Cultural Studies - Western

HIST 255  British Isles to 1688  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/255)  
Survey of the political, social and economic, religious, and cultural history of the British people from the "prehistoric" era through the revolution of 1688. Same as MDVL 255.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 256  Britain and World Since 1688  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/256)  
Historical survey of the British Isles and the British Empire since the late seventeenth century.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 257  Terrorism, Past and Present  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/257)  
Explores the history of terrorism, its goals and practices. We recognize that it is not specific to any one ideology, religion, or people. Terrorism is political violence, psychological warfare meant to manipulate a large target audience. Same as GLBL 228.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 258  20thC World to Midcentury  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/258)  
Economic, social, political, and cultural developments in twentieth-century world history from late nineteen-century to Second World War era.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

HIST 259  20thC World from Midcentury  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/259)  
Economic, social, political, and cultural developments in twentieth-century world history from Second World War era to the present.  
This course satisfies the General Education Criteria for: Humanities - Hist Phil  
Cultural Studies - Western

Information listed in this catalog is current as of 07/2019
This course satisfies the General Education Criteria for:

HIST 260  History of Russia  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/260)
Main themes and problems of Russian history from earliest times to the present.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 261 Intro Russian-Jewish Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/261)
Same as RUSS 261. See RUSS 261.
This course satisfies the General Education Criteria for:

Cultural Studies - Western

HIST 265 Science in Western Civ credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/265)
Topics in the intellectual and social history of science in the West.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 268 The Darwinian Revolution credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/268)
The ideas of Charles Darwin initiated one of the most profound and provocative transformations in human thought, science, and culture. This course examines the intellectual origins, scientific content, and social, cultural, and religious impacts of Darwinian evolutionary theory in the 19th and 20th centuries, provides students with a historical case study in the development and diffusion of radical scientific ideas, and explores the origins of the most successful and comprehensive theory in the modern life sciences.

HIST 269 Jewish History Since 1700 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/269)
Explores how life was lived by Jewish women and men through the past three centuries. Will also focus on wider place of the Jews in European society, and the achievements and tragedies of the modern Jewish-non-Jewish relationship. Same as JS 269 and REL 269.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 270 United States History to 1815 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/270)
Social, economic, and political survey of the region and its relation to the evolving Atlantic community.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 271 Nineteenth Century America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/271)
History of the United States from 1815 to 1900.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 272 Twentieth Century America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/272)
One major emphasis on foreign policy, including the emergence of the United States as a great power after 1898; a second emphasis on the Progressive movement and recurrent attempts at the reform of American society; and racial and urban problems and the conservation of natural resources included.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 273 Illinois History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/273)
History of Chicago and Illinois from prehistoric times to the present, illustrating the jarring conflicts and great achievements of peoples from all over the world. Politics, economics, popular and high culture, education, mass media, racial problems, and ethnic diversity are especially featured. There is an emphasis on the relation of city, state, and region to one another.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 274 US & World Since 1917 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/274)
Over the course of the twentieth century the United States rose to superpower status, in the process profoundly shaping world affairs. Students will study the connections between U.S. and global history in this pivotal period. Explores the impact of the United States on world affairs from roughly 1917 through the end of the Cold War. Attention given to the perspectives of people affected by U.S. policies and the limits of U.S. power in the face of developments such as anticolonial nationalism and great power rivalries.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Western

HIST 275 Afro-American History to 1877 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/275)
History of Africans in the Americas, surveying the African slave trade, slavery in the European colonies of the Americas, early United States slavery, and the Afro-American in the Civil War and Reconstruction. Same as AFRO 275.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority
HIST 276  Afro-American Hist Since 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/276)
History of Afro-Americans in the age of white supremacy; the rise of modern protest organizations; the era of integration; and the black power movement. Same as AFRO 276.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 277  Encounters in Native America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/277)
An examination of pivotal events in the history of Native peoples in North America. Students will explore the complexity of encounters between American Indians and others through a focus on key moments. These will include religious encounters, military confrontations, and legal struggles as well as social and artistic interactions. Same as AIS 277.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 278  Native American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/278)
A survey of the Native American experience in North America from the time of first contact to the present. The course will examine the dynamics and consequences of Native dispossession as well as the continuities in American Indian life and culture. Course materials will include writing and testimony by Native people as well as historical narratives, court decisions and government documents. Same as AIS 278.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 279  Mexican-American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/279)
Same as LLS 279. See LLS 279.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 280  Caribbean Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/280)
Study of the economic, political, and social forces which shaped migration, settlement, and community formation of Puerto Ricans, Cubans, and Dominicans living in the United States. Same as LLS 280.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 281  Constructing Race in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/281)
Interdisciplinary examination of the historical, cultural, and social dimensions of race and ethnicity in the United States. Explores the complex and intricate pursuit of multiracial and multicultural democracy. Same as AAS 281, AFRO 281, and LLS 281.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 283  Asian American History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/283)
Exploration of the migrations of peoples from the Asian continent into the United States, their attempts to build family and community, and their subsequent impact on American history. Same as AAS 283.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 284  Af Am Urban Hist Since 1917  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/284)
Same as AFRO 290. See AFRO 290.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority

HIST 285  US Gender History to 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/285)
Traces the experiences of North American women and men from the earliest encounters between Europeans and Native Americans; examines gender systems in the colonies, under slavery, during industrialization and westward expansion; assesses impact of the Civil War and Reconstruction on gender roles; considers gendered division of labor in factories and domestic environments and construction of gender ideologies. Same as GWS 285.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 286  US Gender History Since 1877  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/286)
Examines the experiences of women and men in modern America, focusing on variations according to class, race, ethnicity, religion, region, and sexual preference; considers the impact of social movements on gender politics; gender and the wars of the 20th century; gender, reform, and social welfare policy; and the place of popular culture in the production of gender ideologies. Same as GWS 286.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 287  African-American Women  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/287)
Examines the history of African American women, beginning with the West African background during the transatlantic slave trading era, emphasizing the experiences of black women in the United States during slavery and their political, civic, community and reform activities from slavery to the present, analyzed within the context of racism, sexism, and economic deprivation. African women in the diaspora, and the impact of feminism/womanism, Afrocentrism, and multicultural diversity on the African American woman are considered. Same as AFRO 287 and GWS 287.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil

HIST 288  American Indians of Illinois  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/288)
Same as ANTH 288 and AIS 288. See ANTH 288.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - US Minority
HIST 289 History of Religion in America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/289)
Same as REL 235. See REL 235.
This course satisfies the General Education Criteria for: Humanities - Hist Phil

HIST 290 Religion, Violence & America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/290)
Same as REL 236. See REL 236.
This course satisfies the General Education Criteria for: Cultural Studies - Western

HIST 291 History of the Bible credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/291)
Same as REL 203. See REL 203.

HIST 292 Latina/o Social Movements credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/292)
Same as LLS 238. See LLS 238.

HIST 293 The President and the People credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/293)
A chronological survey of the American presidency that examines individual presidents and the times in which they lived. Major themes include: The creation and development of the office of the president; the nature of presidential power; Americans’ evolving relationship with presidents; the impact of party politics, campaigning, and the media on the office.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

HIST 295 Honors Colloquium credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/295)
Topics will vary. May be repeated. Prerequisite: Chancellor’s Scholar or consent of department and director of Campus Honors Program.

HIST 300 Topics in Film and History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/300)
Examines films as a significant medium of commentary on society and history. Explores the motives and careers of moviemakers, the ways in which films are influenced by their audiences, and how audiences’ perception of historical processes are affected by films. Topics will vary. Same as MACS 300. May be repeated to a maximum of 6 hours if topics vary. Students may register in more than one section per term. May be repeated to a maximum of 6 hours.

HIST 305 Andean Countries of S America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/305)
The history of Colombia, Ecuador, Peru, Bolivia, and Chile; emphasizes common problems and diverse responses, from European conquest in the sixteenth century to the struggles for development in the twentieth.

HIST 306 History of Central America credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/306)
Major themes of Central American history since conquest: the colonial regimes, ethnic diversity, the independence movement, fragmentation in the nineteenth century, export economies and imperialism, 1880-1932, social movements and populism in the twentieth century, revolution and intervention since the 1950s.

HIST 307 History of Mexico from 1519 credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/307)
Development of Mexico from the conquest to the postrevolutionary present.

HIST 310 Global Capitalism in History credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/310)
Explores the historical relations between multinational corporations and host countries focusing on political and economic issues.

HIST 311 Global History of Intelligence credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/311)
Examines the role of both diplomatic and military intelligence in the political history of major global events and developments from the nineteenth century to the present day. Studies the histories of several major intelligence organizations, as well as the roles played by smaller and non-institutional actors in the global production of intelligence. Focuses on the interplay between intelligence, state policy, and information environments to understand not only the role intelligence played in major events, but also how intelligence practices shaped and reflected political cultures across the world.

HIST 312 Immigrant America credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/312)
History of immigration and immigrant groups in the United States from 1830 to 1980. Covers major waves of immigration and focuses on the diverse cultural heritage, social structure, and political activism of immigrants from Europe, the Americas, and Asia.

HIST 313 Cultural Histories of the University of Illinois credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/313)
This course explores the history of the University of Illinois from its establishment in 1867 to the present day. Developed around a theme chosen by the instructor, for example, the built environment, literary history, disability, sexuality, or crime, it will consider how the university, its student body, and local communities responded to and shaped local attitudes. The course will contextualize these attitudes within larger trends in United States history, specifically the history of race, sexuality, gender, and class. A research component will draw on the university's archives.

HIST 314 Material Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/314)
Historical and theoretical investigation of everyday objects, artifacts, structures, landscapes, built environments. Students will learn to question existing perceptions of material phenomena, will engage in the work of historicizing and contextualizing them, and will arrive at a more informed understanding of the ways that they influence, shape, and reflect human history.

HIST 315 Discovery, Tourism and Travel credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/315)
History of discovery, travel and tourism in Western history from classical antiquity to the present. Focus on two themes: first is the history of discovery, Greek adventures in the Mediterranean, European missionary trips to China, or modern European expansion into the Americas and the Pacific; second is the psychological and spiritual transformations that may accompany travel to foreign places. Pays special attention to how people from different cultures are able to communicate with each other and how travel writings document globalization in the nineteenth and twentieth century. Readings include original source material by travelers, fictional travel accounts, and narratives by recent historians. Also makes use of visual materials, cultural artifacts, and music as sources with much to teach us about travel encounters between cultures. Same as RST 312.
HIST 325 History of Korea  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/325)
Same as EALC 367. See EALC 367.
This course satisfies the General Education Criteria for:
Humanities - Hist Phil
Cultural Studies - Non-West

HIST 334 Modern Palestinian History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/334)
Examines the main themes of Palestinian history since 1800. The Israeli-Palestinian conflict frames the latter part of this history, but it is not the central issue. The focus of the course is Palestinian political, social, and cultural history.

HIST 335 Middle East 1566-1914  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/335)
Political, social, cultural, and ideological developments in Egypt, Arabia, the Fertile Crescent, Iran and Turkey from the mid 16th century to the eve of World War I. Premodern society and institutions, the question of "decline" and "awakening", encounters with Europe and self-strengthening reforms, relations between Muslims, Christians, and Jews, the role of women and the family, class formation, and religion and nationalism. Same as JS 335.

HIST 337 Middle East Since World War I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/337)
Political-economic, social and ideological developments in Egypt, Arabia, and Fertile Crescent (including Israel), Iran and Turkey since 1918 to the present, including U.S. involvement.

HIST 338 Egypt Since World War I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/338)
Examines the twentieth-century history of Egypt, emphasizing the internal social, political, economic, and ideological developments, with attention to Egypt's role in regional and international politics. Readings include novels and short stories to introduce students to modern Egyptian culture. Same as AFST 338.

HIST 339 The Early Russian Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/339)
Introduction to one of the most transformative events in early modern world history: the creation of the Russian Empire. We will study how Moscow, a modest medieval kingdom, suddenly expanded into the world's largest state, fated to play an outsized role in world politics and culture. Chronologically, the course extends from 1500-1750, and considers topics ranging from religion and rebellion to material culture and everyday life.

HIST 342 Cultural Hist of Technoscience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/342)
Addresses the myriad ways American culture interacts with scientific and technological artifacts, practices, and knowledge. Some of the issues addressed are: how science and technology are deployed and used for cultural ends; how cultural beliefs and ideologies are "built" into science and technology; how the interaction of cultural experience, science, and technology shapes the built environment; how science and technology privilege certain cultural communities in America. Course requirements include participation, leadership in class discussions, as well as a research project.

HIST 343 Technology & Sport  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/343)
Traditionally sport has been a competition between humans or humans and nature. Recent technological developments have altered this arrangement. Now technology is a continuative component of sport and has changed modes of play. Examines the history of the evolving relationships between contemporary sport, emerging technology, and cultural experience. The fundamental question this course will address is: how has technology, in its multiple forms, reshaped sport? Same as RST 357.

HIST 345 Medieval Civilization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/345)
The architectural, artistic, philosophical, political, and religious components of medieval culture, thought, and patterns of behavior; includes monasticism and society and the individual. Same as MDVL 345 and REL 345.

HIST 346 The Age of the Renaissance  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/346)
An introduction to the cultural history of Europe in the fifteenth and sixteenth centuries, embracing the Renaissance movements in Italy and in Northern Europe. Same as MDVL 346 and REL 346.

HIST 347 Protestant & Catholic Refs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/347)
New sources of secular power and spiritual authority define the age of the Protestant and Catholic Reformations. In this advanced European history course students expand their knowledge of the people, events, and ideas of the fifteenth and sixteenth centuries while deepening their understanding of a wide range of primary sources created by theologians and peasants, nuns and monarchs, and artists and rebels. Key works by Luther, Calvin, and Loyola are placed in their intellectual and social contexts. Same as REL 347.

HIST 348 Early Euro Absolut & Expansion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/348)
In the seventeenth and eighteenth centuries Europeans transformed political relations within Europe and their economic relationships with the wider world. This course examines continuities and change from 1600 to 1789, following the themes of authority and power. Topics include the rise of "absolute monarchy" and its alternatives in countries like, England and the Netherlands, as well as European trade and consumption, popular culture, the family, food, clothing, sexuality, and labor.

HIST 349 Age of Revolution, 1775-1815  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/349)
Comparative survey of domestic upheavals in the North Atlantic world: America, Haiti, England, Prussia, and France; the rise of Napoleon and the response of Europe; and the fate of innovation and reform in the immediate aftermath.

HIST 350 19thC Romanticism & Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/350)
Among the topics of this course will be Romanticism, which is still the basic form of modern culture today, with its emphasis on feeling, imagination, and self-expression; the nation-state, a new form of political organization; and the creation of a globalized world for the first time in human history.

HIST 352 Europe in the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/352)
Colonial encounters between Europe and today's Third World viewed in comparative historical perspective. Equal emphasis placed on (colonizing) Europe and colonial experience of Asia, Africa, and South America.
HIST 353  European History 1918 to 1939  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/353)
Survey of European society from 1918 to 1939, with emphasis on
the impact of World War I, the Russian Revolution, fascism, and the
intellectual trends of the twenties and thirties.

HIST 354  Twentieth Century Europe  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/354)
Cultural history of Europe in an age of global warfare and political, social,
and economic upheaval.

HIST 355  Soviet Jewish History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/355)
An examination of how Jewish life and culture contributed to the creation
of the world's first socialist society. Makes use of primary sources,
 scholarly essays and monographs, archival documents, literature,
memoirs, film, and visual culture as a way of introducing students to
Soviet Jewish History, from the reign of the last tsar, Nicholas II, to the
dissolution of the Soviet Union in 1991. Special topics to be examined
include: the breakup of the Pale of Settlement during the Great War;
the role of Jews in revolution and revolutionary culture; Soviet nationality
policy; shtetl culture; antisemitism; everyday life; the purges of the
1930s; the Jewish experience in World War II; the Holocaust; and mass
emigration. Same as JS 355.

HIST 357  Modern France  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/357)
The development of modern France, with special attention to social and
cultural phenomena.

HIST 360  European Culture in a Global Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/360)
Railways, steamships, telegraph, quinine, machine guns: these were
some of the European innovations that created a unified world between
1850 and 1914. The transforming force of new technologies, global
commerce and Western imperialism also had a profound impact on the
arts. We will study this globalization of culture in world spectacles, the
visual arts, music, and literature.

HIST 361  Euro Thght & Soc Since 1789  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/361)
Examines the reciprocal relationship between thought and society in
western Europe from the French Revolution to the present.

HIST 362  Spain and Portugal to 1808  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/362)
Introduction to the history of the Iberian peninsula to 1808. After a brief
overview of Roman and Visigoth Iberia, the course will study the cultural,
technological, and intellectual accomplishments of Moorish Iberia and
the imperial expansion of Christian Spain and Portugal in the early
modern period.

HIST 365  Fict & Historical Imagination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/365)
Explores the relationship between history and fiction by focusing on
specific cultural locations.

HIST 367  History of Western Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/367)
Rise and development of medicine in the West since the sixteenth
century; interrelations of physiology, pathology, and social demands
with the theory and practice of medicine; pattern of professionalization;
social role of the physician; conflict among ideas of medicine as an art,
a science, and a social service; and problems of mental illness, medical
ethics, and nontraditional forms of practice.

HIST 369  Spain and Portugal from 1808  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/369)
A modern history of Spain and Portugal.

HIST 370  Colonial America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/370)
An interpretive survey of American colonial history from 1492 through
1763. Themes include encounters between Natives and Europeans
in the New World, contests for colonization, settler societies and the
development of various colonial social patterns in North America and
the Caribbean, the beginnings of slavery, and the gradual emergence
of distinctive provincial cultures in the North American colonies of the
British Empire. Throughout all of this, there is an examination of colonial
American history as part of the larger Atlantic World, understanding
early American history as a process of exchange and interaction which
included Europe, Africa, the Caribbean, and North America.

HIST 371  The American Revolution  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/371)
Examines the momentous founding age of United States history.
Explores the growing estrangement of the American colonies from
Great Britain and the culmination of this process in the Declaration of
Independence. It then examines the controversial process of creating a
new nation, and the government of the United States. Intense focus on
primary source materials from the period.

HIST 372  America's Republic, 1780-1880  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/372)
A study of political life in the U.S. during the century following the
Revolution. The course covers the appearance and evolution of republican government, the Constitution, the expansion of voting rights,
the rise and fall of political parties, and the relationship of all these things
to the development of economic and social relationships.

HIST 373  Origins of the Civil War  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/373)
Examination of changes in economic, social, cultural, and political life in
the United State that ultimately plunged the national into the bloodiest
and most important war in its history. Particular attention is paid to the
way in which diverse segments of the country's population - North and
South, urban and rural, rich and poor, slave and free, black and white,
males and females - affected and were affected by these changes.

HIST 374  Civil War and Reconstruction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/374)
The United States' civil war (1861-1865) and the years of postwar
"reconstruction" (conventionally dated as 1865-1877). During this period
as a whole, the nation underwent its second revolution -- a revolution
more radical in its impact than the one that freed it from the British
Empire. Much about U.S. history for the next century and more was
decided during these critical years.

HIST 375  Soc History Indus Am to 1918  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/375)
The impact of industrialization, immigration, and urbanization on
American society to the end of World War I.

HIST 376  Soc History Indus Am from 1918  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/376)
Study of the impact of industrial technology, business enterprise,
immigration, and urbanization on American society.
HIST 377 United States since 1932  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/377)
Discusses the New Deal, the Cold War, Franklin D. Roosevelt and subsequent presidents, the structure of American imperialism, and America’s role in world politics.

HIST 379 Latina/os and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/379)
Same as LLS 379. See LLS 379.

HIST 380 US in an Age of Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/380)
Study of the imperial dimensions of U.S. history from about 1877 to 1920. This was an era marked by an imperial world system, unprecedented levels of international trade and investments, massive labor migrations, significant missionary endeavors, and consolidation of U.S. power over Native Americans, and growing U.S. political and military assertion in the international arena. Considers how the United States and its peoples positioned themselves in an international context by investigating not only government policies but also commercial endeavors and cultural practices.

HIST 381 Urban History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/381)
Examines the history of urban centers, paying special attention to the relationship between the city and its surrounding territory, the impact of migration and immigration, the delineation of space and the transformation of the built environment, and the role of a city’s inhabitants in creating social networks, political structures, and cultural institutions. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 382 Race and Migration in Chicago  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/382)
Same as LLS 382. See LLS 382.

HIST 383 Hist of Blk Women’s Activism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/383)
Same as AFRO 383 and GWS 383. See AFRO 383.

HIST 384 Class Politics & Blk Community  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/384)
Same as AFRO 372. See AFRO 372. This course satisfies the General Education Criteria for: Advanced Composition

HIST 385 Transnational Sexualities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/385)
Same as GWS 385. See GWS 385.

HIST 386 Public History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/386)
An examination of major genres historians have employed to present history in the public arena, including documentary films, public memorials, legal testimony and museum exhibits. Students will explore both the social dynamics of public commemoration and the techniques historians employ when communicating complex ideas and events to a general audience.

HIST 387 History of Sexuality in U.S.  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/387)
Same as GWS 387. See GWS 387.

HIST 389 Race and Revolutions  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/389)
Same as AFRO 378. See AFRO 378.

HIST 390 Sport and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/390)
In various societies, organized sport has operated as site of nation-building, the struggle for inclusion, and indicator of societal advancement. Examines the history of the roles that sport has played in society through a series of topical foci, as selected by the professor each semester. Course readings revisit popular and scholarly debates about sport and discuss the different actors and social forces that shaped those discussions. Same as KIN 345. May be repeated in separate terms to a maximum of 6 hours if topics vary.

HIST 391 Oral History Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/391)
Introduces students to the ethical discourses and practical methods in oral history. Its primary purpose is to prepare students with oral and archival research skills that are crucial for the examination of the history and memory of communities. Among the questions that the class will consider are: what is the connection between the historical record and the remembered past? How reliable are these memories and does reliability matter? How do people mobilize and manipulate accounts of the past for purposes of community building, historic preservation, and political development? Same as LLS 391.

HIST 392 The 1960s in the U.S.  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/392)
A study of the history of the 1960s, a tumultuous decade in the social and political history of the United States. The class has two main goals: 1) Provide a solid knowledge of the history of this period and its social and economic developments. 2) Develop skills as an analytic reader and writer in U.S. history.

HIST 393 The World of Jewish Sepharad  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/393)
Same as ANTH 393 and REL 393. See ANTH 393. This course satisfies the General Education Criteria for:

HIST 394 Hidden Political Figures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/394)
Examination of recent United States history with an emphasis on the presidential elections, public policy, popular culture, activism, and economic and social trends that helped define American life after 1964. The political contributions of lesser known figures will be highlighted to explore the development of American politics elicited by the civil rights movement and subsequent struggles to influence a newly transformed body politic. The course is designed as a topics course that may revolve around other “hidden figures” in political history. May be repeated once if topics vary.

HIST 395 Topics in Law and Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/395)
Topics and problems in the history of laws, legal institutions, jurisprudence, concepts of justice, and their role(s) in shaping societies over time. Specific readings and foci will vary. May be repeated in the same or separate terms for a maximum of 6 hours if topics vary.

HIST 396 Special Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/396)
Topics are given on an experimental one-time-only basis. May be repeated if topics vary.
HIST 397  Sexuality in Modern Europe credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/397) What is sexuality? How is it practiced, policed, represented, liberated and controlled? How do religion, the state, the law and the media influence sexual identities and practices? Focusing on modern Europe, we will examine the history of sexuality from the late eighteenth century to the present in order to explore how historians have answered these questions. We will investigate topics from pornography, prostitution, sex and totalitarianism, queer sexualities, sex and colonialism, and masturbation, to sex education, sexual revolutions, hermaphroditism, sex surveys and AIDS. Same as GWS 397.

HIST 398  Internship in Public History credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/398) With a faculty sponsor, a qualified student will develop a program of study or research related to an internship or other relevant employment opportunity. Consult departmental undergraduate advisor or Director of Undergraduate Studies. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of faculty sponsor and Director of Undergraduate Studies required.

HIST 399  Independent Study credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/399) Readings in selected fields in consultation with the instructor resulting in a 20-30 page paper. May be repeated with permission of the Director of Undergraduate Studies. Prerequisite: Junior or senior standing pursuing a History major; written consent of instructor and History undergraduate advisor required.

HIST 400  War, Soc, Politics, & Culture credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/400) Topics will be listed in the department's course guide at http://www.history.illinois.edu. 3 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours in the same or subsequent terms if topics vary.

HIST 401  History of Terrorism credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/401) Historical examination of strategies of terror, their relationship to conventional warfare, and their political, social, cultural, and religious contexts. 3 undergraduate hours. 4 graduate hours.

HIST 405  History of Brazil from 1808 credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/405) Problems of a neocolonial society; themes include family structure, slavery, imperialism, modernization, and the crisis of traditional institutions. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 407  Slavery & Race in Latin Am credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/407) Selected topics on Indians and Spaniards, whites and blacks, emphasizing Mexico, the Caribbean, and Brazil. Same as AFRO 407. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 410  Decolonization in Africa credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/410) Almost all African countries fell under European colonial rule by the beginning of the 20th century, but formal colonialism did not last the century. Surveys the crucial ideological, political, social, and military strategies enlisted by African people and movements to shed colonial rule. Also examines the paradox of the coupling of “flag independence” with continuing economic dependence on Europe. 3 undergraduate hours. 4 graduate hours.

HIST 411  20thC Africa Intellectual Hist credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/411) The development of influential political and cultural ideas on the African continent over the course of the long 20th century, highlighting the interactions of individuals (as members of educated elites and of rural societies) and institutions (such as universities) in developing trademark African intellectualism. These concepts include: Pan-Africanism, the need for political independence, Negritude, feminism/womanism, calls for the promotion of indigenous languages and ubuntu; as well as the contested justifications for one-party rule. Students will gain an appreciation of the breadth, depth and creativity of African thought and activism. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 412  Southern Africa Race & Power credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/412) Interdisciplinary survey of both the internal and international dimensions of the changing situation in Africa south of the Zambezi; focuses on the historical background - and a political, economic, and social analysis of - current events in the Republic of South Africa, Mozambique, Namibia, and Zimbabwe, emphasizing the central significance of race and power in this region. Same as AFST 425. 3 undergraduate hours. 4 graduate hours.

HIST 420  China Under the Qing Dynasty credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/420) The period of Manchu domination in China (1644-1912); emphasis on Chinese reactions to Western influences during the nineteenth century. Same as EALC 420. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 422  Soc-Econ Hist Modern China credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/422) Disintegration of traditional social and economic systems during the nineteenth and twentieth centuries, and the political effects of that disintegration; examines changes in the agricultural economy, changing rural elites, urbanization, and emergence of new social classes. It is recommended that students take HIST 420 before registration in HIST 422. Same as EALC 421. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 425  Classical Chinese Thought credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/425) Same as CWL 478 and EALC 476. See EALC 476.

HIST 426  Early Modern Japan credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/426) Study of the people, culture, and society from 1600 to 1868. Traces the rise of Japan's first truly national culture. Same as EALC 426. 3 undergraduate hours. 4 graduate hours.

HIST 427  Twentieth-Century Japan credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/427) Study of the people, culture, and society from Japan from 1868 to the present. Traces Japan's transformation from an insular bastion of " centralized feudalism" into a cross-cultural crucible of post-industrial democracy. Same as EALC 427. 3 undergraduate hours. 4 graduate hours.

HIST 430  India from Colony to Nation credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/430) Mughal Empire and British Raj. Indian national awakening, and struggle for independence under Gandhi and Nehru. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 432  History of Early Judaism credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HIST/432) Same as JS 442 and REL 442. See REL 442.
HIST 433 History of Jews in Diaspora credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/433)
Deals with the history of the Jewish people from the destruction of the Jewish state by Rome to the reestablishment of a Jewish state in 1948. The emphasis is on the interaction between the Jewish and non-Jewish worlds as well as changes internal to the Jewish communities. Same as REL 434. 3 undergraduate hours. 4 graduate hours.

HIST 434 Women in Muslim Societies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/434)
Same as ANTH 403, GLBL 403, GWS 403, REL 403, and SAME 403. See REL 403.

HIST 436 Jewish Life-Writing credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/436)
Same as CWL 421, REL 420, SLAV 420, and YDSH 420. See YDSH 420.

HIST 439 The Ottoman Empire credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/439)
Economy, society, law, and government; the Ottomans and Mediterranean society; Ottoman culture and Islamic tradition; minorities; trade, diplomacy, and capitulations; "decline" and dismemberment; and traditional and westernizing attempts at revival. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 440 Roman Republic to 44 B.C. credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/440)
Examination of the political, social, economic, military, institutional, religious and cultural development of Rome from 753 BCE until 14 CE. Same as CLCV 440. 3 undergraduate hours. 4 graduate hours.

HIST 441 The Roman Empire credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/441)
Examination of the political, social, economic, military, institutional, religious and cultural development of the Roman Empire from the reign of Augustus (27 BCE - 14 CE) through the fall of the Western Roman Empire ca. 480 CE. 3 undergraduate hours. 4 graduate hours.

HIST 442 Roman Law and Legal Trad credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/442)
Examines Roman law and legal tradition in the context of historical, political, and social developments; origins of law in primitive and ancient classical societies; surveys development of precedent, codification, and preservation of Roman law, and the impact of Roman law on western legal traditions. 3 undergraduate hours. 4 graduate hours.

HIST 443 Byzantine Empire AD 284-717 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/443)
Examination of the political, social, economic, military, institutional, religious and cultural development of the early Byzantine Empire from the reign of Diocletian (AD 284-305) through the Heraclian Dynasty (AD 610-717). Same as MDVL 443. 3 undergraduate hours. 4 graduate hours.

HIST 444 European Education to 1600 credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/444)
Same as EPS 403 and MDVL 403. See EPS 403. This course satisfies the General Education Criteria for: Advanced Composition Humanities - Hist Phil Cultural Studies - Western

HIST 445 Medieval England credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/445)
Key sources and topics of English history, from the end of Roman rule in Britain (c. 410) to the fifteenth century. Recurrent themes include the development of law, the role of women, the status of commoners, intellectual trends, and the importance of public media for the dissemination of ideas (writing, performance). Same as MDVL 444. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 446 Early Modern British Isles credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/446)
Social, economic, cultural and political history of the "four Kingdoms" of England, Scotland, Wales, and Ireland between 1450 and 1800. Covers the Tudor and Stuart dynasties, Shakespeare, the English Civil War, the development of British colonial holdings across the globe, and the effects of empire at home. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 447 Modern Britain credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/447)
History of modern Britain's social, economic, cultural and political life with a special emphasis on the role of empire in shaping its career as a global power and its "domestic" national culture at home. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 449 British Imperialism credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/449)
Thematic approach to Britain's role as an imperial power, its impact on global issues and affairs, and the effect of colonies and colonial peoples on the history of its development as a Western "nation". 3 undergraduate hours. 2 or 4 graduate hours.

HIST 450 European Working Class History credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/450)
Comparative study of the rise of the working class in European countries; formation, culture, and daily life; stratification within the working class; workers in organized labor and revolutionary movements. Same as LER 450 and SOC 422. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 456 Twentieth-Century Germany credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/456)
Political upheavals of twentieth-century Germany; topics include the First World War's impact on German society, the war's revolutionary aftermath, the political struggles and cultural achievements of the Weimar Republic, the rise of Hitler, the Third Reich, the Holocaust, the Second World War, and the divided postwar Germanies; novels and films complement readings. 3 undergraduate hours. 4 graduate hours.

HIST 457 European Education since 1600 credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/457)
Same as EPS 404. See EPS 404. This course satisfies the General Education Criteria for: Advanced Composition Humanities - Hist Phil Cultural Studies - Western

HIST 458 Christians and Jews 1099-1789 credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/458)
Same as REL 458. See REL 458.

HIST 459 Postcolonial/Queer credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/459)
Same as GWS 459. See GWS 459.
HIST 461 Russia- Peter the Great to Rev  credit: 2 to 4 Hours.  Investigates the character of American political tolerance and freedom in times of crisis, through a series of case studies: images of the American "enemy"; the Red Scare after World War I; the internment of Japanese-Americans in World War II; McCarthyism; and the resentments generated by protest movements in the late 1960's. 3 undergraduate hours. 2 or 4 graduate hours.  Graduate students will be required to do more reading and to write an additional paper.

HIST 462 Soviet Union Since 1917  credit: 2 to 4 Hours.  Focuses on working class formation, culture, ideas, and organization; examines daily experience of work and community life; special emphasis on race, ethnicity, and gender in the process of class formation; labor relations and the changing patterns of working class protest and accommodation. Same as REL 479. 3 undergraduate hours. 2 or 4 graduate hours.  Morality. 3 undergraduate hours. 2 or 4 graduate hours.  Graduate students will be required to do more reading and to write an additional paper.

HIST 463 The Modern Balkans through Literature and Film  credit: 3 or 4 Hours.  The political, economic, and cultural history of this region's peoples, including the Rumanians, South Slavs, Greeks, and Albanians; the impact of Ottoman rule; the rise of nationalism and the formation of national states; and the Orthodox Church. 3 undergraduate hours. 4 graduate hours.  Prerequisite: Junior or Senior standing, or consent of instructor.

HIST 466 The Balkans  credit: 3 or 4 Hours.  The political, economic, and cultural history of the Balkan states during the 19th and 20th centuries. Special attention is given to Balkan nationalism, its roots, evolution and various manifestations. Other topics cover the modernization of the rural societies, ethnic conflict and/or accommodation, inter-Balkan relations, and the role of the great powers. Finally, a close look will be taken on contemporary developments in the Balkans, especially the Yugoslav crisis, the fall of communism and post-communist development. By discussing fictional work and films by Balkan authors, students will be introduced to the intellectual production of the region. 3 undergraduate hours. 4 graduate hours.  Prerequisite: Junior or Senior standing, or consent of instructor.

HIST 467 Eastern Europe  credit: 3 or 4 Hours.  The political, economic, and cultural history of Poland, Czechoslovakia, Hungary, Rumania, Yugoslavia, Bulgaria, Greece, and Albania; particular emphasis upon the post-World War II era. 3 undergraduate hours. 4 graduate hours.

HIST 468 Locating Queer Culture  credit: 3 Hours.  Same as GWS 467.  See GWS 467.

HIST 470 Plantation Soc in Americas  credit: 3 or 4 Hours.  Same as AFRO 453.  See AFRO 453.

HIST 472 Immigrant America  credit: 3 or 4 Hours.  History of immigration and immigrant groups in the United States from 1830 to 1980. Covers major waves of immigration and focuses on the diverse cultural heritage, social structure, and political activism of immigrants from Europe, the Americas, and Asia. 3 undergraduate hours. 4 graduate hours.

HIST 473 Crises of Political Tolerance  credit: 2 to 4 Hours.  Investigates the character of American political tolerance and freedom in times of crisis, through a series of case studies: images of the American "enemy"; the Red Scare after World War I; the internment of Japanese-Americans in World War II; McCarthyism; and the resentments generated by protest movements in the late 1960's. 3 undergraduate hours. 2 or 4 graduate hours.  Graduate students will be required to do more reading and to write an additional paper.

HIST 475 Formation of US Public Health  credit: 3 or 4 Hours.  Introduces the history of American public health and health policy. Emergence of modern public-health institutions in America; relation of public health to conceptions of disease, social order, and the role of government; emergence and development of public policy issues in public health and medical care, of the environment for the formulation of policy, and the relation of policy to broader issues of social development, incidence of disease, and assumptions about the proper distribution of public and private responsibility. 3 undergraduate hours. 4 graduate hours.

HIST 476 History of the American West  credit: 3 or 4 Hours.  Examines the changing image of the American West by focusing on the process of conquest and resistance present within the region's history. Same as LLS 475. 3 undergraduate hours. 4 graduate hours.

HIST 478 Black Freed Move, 1955-Present  credit: 3 or 4 Hours.  Examines the changing image of the American West by focusing on the process of conquest and resistance present within the region's history. Same as LLS 475. 3 undergraduate hours. 4 graduate hours.

HIST 479 19thC US Intel & Cultr Hist  credit: 2 to 4 Hours.  Examines diverse strains of cultural and intellectual life in the US from the early Republic through the 1890s. Emphasizes popular culture, religious revivalism, educational institutions, reform movements, art, science, and literature and the roles of cultural elites, women, working-classes, African Americans, Native Americans and immigrants in shaping national, regional and local cultures. Same as REL 478. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 480 US Work Class Hist Since 1780  credit: 2 to 4 Hours.  Focuses on working class formation, culture, ideas, and organization; examines daily experience of work and community life; special emphasis on race, ethnicity, and gender in the process of class formation; labor relations and the changing patterns of working class protest and accommodation. Same as LER 480. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 481 20th Century US Culture Wars  credit: 2 to 4 Hours.  What ideas does "American Culture" include? How does it incorporate diverse religious traditions as well as new scientific perspectives? How are ethnicity, gender and race important? Topics of current "cultural wars", these and other questions about cultural conflict in the US have been hotly debated for over a century. This course explores such culture wars in the 20th century US and helps students evaluate contested cultural concepts they have produced, including pragmatism, pluralism, religious diversity, scientific objectivity, economic equality, as well as "popular," "high" and "democratic" culture. Same as REL 479. 3 undergraduate hours. 2 or 4 graduate hours.
HIST 482  Slavery in the United States  credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/482](https://courses.illinois.edu/schedule/terms/HIST/482))
Same as AFRO 460. See AFRO 460.
This course satisfies the General Education Criteria for: Advanced Composition

HIST 483  Race, Science, and Medicine  credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/483](https://courses.illinois.edu/schedule/terms/HIST/483))
Same as AFRO 466. See AFRO 466.

HIST 486  Revivalism and Evangelicalism  credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/486](https://courses.illinois.edu/schedule/terms/HIST/486))
Same as REL 435. See REL 435.

HIST 487  Great Books in History  credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/487](https://courses.illinois.edu/schedule/terms/HIST/487))
An approach to History through a selection of prize-winning, influential, and lasting books, the point being to consider the role of the book in History and its relation to other forms of historical interpretation, including essays, web sites, films, lectures, and exhibits. It will hone students' composition abilities through careful attention to writing, craft, and genre. Each iteration of this course will focus on a particular theme. 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 6 undergraduate hours or 8 graduate hours.

HIST 488  The American Political Divide  credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/488](https://courses.illinois.edu/schedule/terms/HIST/488))
Examines the diversity of political thought in the twentieth century by exploring the ways that Americans from diverse backgrounds have talked about, made sense of, and sought to influence change in modern American government. Throughout the course, students will examine the enduring debate about the proper role of the federal government, which has been central to some of the fiercest ideological divides in American history. 3 undergraduate hours. 4 graduate hours.

HIST 490  Honors Independent Study  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/HIST/490](https://courses.illinois.edu/schedule/terms/HIST/490))
Independent reading, research, and writing under the supervision of an individual instructor. Seniors in the History Honors Program taking this course in place of the Honors Senior Thesis must complete a substantive research paper (25-30 pages). No graduate credit. May be repeated to a maximum of 6 hours. Each 3-hour class must be taken with a different instructor. Prerequisite: Admission to the History Honors Program; or junior or senior of high standing with the consent of the Director of Undergraduate Studies.

HIST 491  Directed Research in Digital History  credit: 1 to 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/491](https://courses.illinois.edu/schedule/terms/HIST/491))
Advanced projects in Digital History undertaken with a faculty supervisor. 1 to 3 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 undergraduate hours or 4 graduate hours. Prerequisite: Consent of sponsoring faculty supervisor and Director of Undergraduate Studies or Director of Graduate Studies required for all students.

HIST 492  Historiography and Methodology  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/HIST/492](https://courses.illinois.edu/schedule/terms/HIST/492))
A seminar for all students in the History Honors Program, to be taken no later than the spring of the Junior year. Students will study the development of the historian's craft and will be exposed to new research methods and techniques. The course will culminate in the preparation of a research proposal for the Honors Senior Thesis, developed in consultation with an individual faculty advisor. The instructor of HIST 492 and the Director of Undergraduate Studies will assist students in the selection of an appropriate mentor. Even those students who may not be planning to write the Honors Senior Thesis must enroll in this course and prepare a research proposal. 3 undergraduate hours. No graduate credit. Prerequisite: Admission to the History Honors Program or consent of the Director of Undergraduate Studies.
This course satisfies the General Education Criteria for: Advanced Composition

HIST 493  Honors Senior Thesis  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/HIST/493](https://courses.illinois.edu/schedule/terms/HIST/493))
Two-term independent research and writing project under the supervision of a faculty advisor. Students enrolled in this course must submit a completed Honors Senior Thesis at the end of the second term, for evaluation by the faculty advisor and a second reader. 3 undergraduate hours. No graduate credit. Must be repeated for a total of 6 hours. Students will receive separate grades for each semester's work. Prerequisite: Admission to the History Honors Program and consent of supervising professor; HIST 492 and HIST 495; concurrent enrollment in HIST 499 is required.

HIST 495  Honors Research & Writing Seminar  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/HIST/495](https://courses.illinois.edu/schedule/terms/HIST/495))
A topic-specific course required of all students in the History Honors Program, and meeting with HIST 498. Each student's work will be evaluated and graded by the instructor of the HIST 498. In addition, students will complete a self-assessment exercise supervised by the Director of Undergraduate Studies. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: HIST 200 and admission to the History Honors Program.
This course satisfies the General Education Criteria for: Advanced Composition

HIST 497  History of Historiography  credit: 2 to 4 Hours. ([courses.illinois.edu/schedule/terms/HIST/497](https://courses.illinois.edu/schedule/terms/HIST/497))
An exploration of the different approaches to the conceptualization and narration of history in various times and places, with special emphasis on the social, cultural, and political role(s) of the historian. 3 undergraduate hours. 2 or 4 graduate hours.

HIST 498  Research and Writing Seminar  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/HIST/498](https://courses.illinois.edu/schedule/terms/HIST/498))
Capstone course required of all majors. Students will make history by researching and writing a work of original scholarship. Several of these seminars are offered each term and each focuses on a special topic, thus allowing students with similar interests to work through the process of gathering, interpreting, and organizing historical evidence under the direction of an expert in the field. The topics on offer each semester will be listed in the Class Schedule and described in the department's course guide at http://www.history.illinois.edu. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. This course satisfies the General Education Criteria for: Advanced Composition
HIST 499  Thesis Seminar  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/HIST/499)
A required seminar for all seniors writing Honor Theses in history, this course will meet throughout the year and will supplement individual students' meetings with their primary advisors. Provides an intellectually supportive environment in which students work together on common methodological problems, share the results of their research, and critique developing projects. 1 to 2 undergraduate hours. 1 to 2 graduate hours. Approved for S/U grading only. May be repeated in separate terms to a maximum of 3 hours. Prerequisite: Admission to the History Honors Program; HIST 492; and HIST 495. Concurrent enrollment in HIST 493 is required.

HIST 502  Prob in Comparative History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/502)
Intensive comparative examinations of particular issues in the histories of multiple countries, cultures or periods; emphasizes methodology, the discipline of comparative history, and the nature of historiography in a cross-cultural and interdisciplinary context. May be repeated to a maximum of 12 hours.

HIST 503  Prob in Comp Women's Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/503)
Examines major works in global women's history from about 1700 to 1950. Introduces students to major themes in women's history as well as major historiographical debates. Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as GWS 501. May be repeated to a maximum of 12 hours if topics vary.

HIST 504  Seminar in History of Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/504)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 505  Seminar in History of Medicine  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/505)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 507  Prob in Latin American Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/507)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 508  Seminar in Latin American Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/508)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 510  Problems in African History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/510)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as AFST 510. May be repeated to a maximum of 12 hours if topics vary.

HIST 511  Seminar in African History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/511)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as AFST 511. May be repeated to a maximum of 12 hours if topics vary. Prerequisite: One upper-level African history course.

HIST 519  Colonialism & Postcolonialism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/519)
Same as ANTH 504. See ANTH 504.

HIST 520  Problems in Chinese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/520)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as EALC 520. May be repeated to a maximum of 12 hours if topics vary.

HIST 521  Seminar in Chinese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/521)
Research seminar in Chinese history designed to provide training to graduate students in research skills with an emphasis on the use of source materials in Chinese language. Same as EALC 522. May be repeated to a maximum of 8 graduate hours. Prerequisite: Proficiency in written Classical or Modern Chinese, EALC 500 for EALC graduate students, and HIST 520 for History graduate students, or the consent of instructor.

HIST 526  Problems in Japanese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/526)
Period covered will alternate between the Early Modern (1550 - 1850) and Modern (1850 - present) eras. Same as EALC 526. May be repeated to a maximum of 8 hours.

HIST 527  Seminar in Japanese History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/527)
Period covered will alternate between the Early Modern (1550 - 1850) and Modern (1850 - present) eras. Same as EALC 527. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: Graduate standing in HIST, EALC, or other related discipline and reading knowledge of Japanese, or consent of instructor.

HIST 535  Prob Middle Eastern History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/535)
Covers, in depth, major problems of specific periods and areas and the relevant literature of Near and Middle Eastern History, which will vary from term to term. May be repeated to a maximum of 8 hours if topics vary.

HIST 536  Seminar in Middle Eastern Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/536)
Investigates research topics in Near and Middle Eastern history in accordance with students' needs. Topics may vary from term to term. Students will prepare oral and written reports. May be repeated to a maximum of 8 hours.

HIST 542  Problems in Medieval History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/542)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as MDVL 542. May be repeated to a maximum of 12 hours if topics vary.

HIST 543  Seminar in Medieval History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/543)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. Same as MDVL 543. May be repeated to a maximum of 12 hours if topics vary.

HIST 545  Seminar in Early Modern Europe  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/545)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.
HIST 546  Prob English Hist Since 1688  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/546)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 549  Sem Eng & Brit Emp Since 1688  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/549)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 550  Prob Early Mod European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/550)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 551  Prob European Hist Since 1789  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/551)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 552  European Seminar Since 1789  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/552)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 553  Approaches to History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/553)
Required course for entering history graduate students offering in initial foray into historiography, methods, and conceptual approaches for students in all fields. Provides experience dealing with three challenges that face all practitioners of the discipline: identifying the historical problem to be tackled, deciding what methodologies are best suited to that problem, and locating and then making use of the primary sources necessary for analyzing the subject at hand. Assigned materials, class discussions, and assignments will prepare students for the second semester required research seminar. Restricted to first-year graduate students in history.

HIST 554  Intro Historical Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/554)
Seminar for first-year graduate students and is the second half of the introductory graduate sequence. Focuses on the process of writing an original piece of historical scholarship. Topics to be discussed include: developing an argument, exploring sources, arriving at a research strategy, planning and structuring an article, presenting complex data, and producing scholarship that is a coherent representation of an author's perspective on the past. Over the course of the semester, each seminar participant will develop and write an original, article length research paper. Students will work with the assistance of the instructors and an advisor from her or his own research field. Prerequisite: HIST 593.

HIST 555  Problems African American Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/555)
Same as REL 535. See REL 535.

HIST 556  Individual Research Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/556)
Directed research in special fields; may be taken in lieu of seminars in fields in which seminars are seldom offered. Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 557  Reading Course  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/557)
Directed readings in special fields. Primarily, but not exclusively, for students with a master's degree or equivalent, who are preparing for the preliminary examination in history and who need instruction in areas not provided by current course offerings. Approved for letter and S/U grading. May be repeated in the same or subsequent terms as topics vary. Prerequisite: Consent of instructor.

HIST 558  Teaching of College History  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HIST/558)
Approved for S/U grading only. May be repeated. Prerequisite: Candidate for Ph.D. degree in history.

HIST 560  Problems in Russian History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/560)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 561  Seminar in Russian History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/561)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 562  Seminar for first-year graduate students and is the second half of the introductory graduate sequence. Focuses on the process of writing an original piece of historical scholarship. Topics to be discussed include: developing an argument, exploring sources, arriving at a research strategy, planning and structuring an article, presenting complex data, and producing scholarship that is a coherent representation of an author’s perspective on the past. Over the course of the semester, each seminar participant will develop and write an original, article length research paper. Students will work with the assistance of the instructors and an advisor from her or his own research field. Prerequisite: HIST 593.

HIST 563  Seminar in Amer Hist to 1830  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/563)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 564  Seminar in Amer Hist since 1830  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/564)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 565  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/565)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 566  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/566)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 567  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/567)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 568  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/568)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 569  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/569)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 570  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/570)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 571  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/571)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 572  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/572)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated in the same or subsequent terms as topics vary.

HIST 573  Seminar in Modern European Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/573)
Topics will be listed in the department's course guide at http://www.history.illinois.edu. May be repeated to a maximum of 12 hours if topics vary.

HIST 574  Historiography of Religion in America  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/574)
Same as REL 535. See REL 535.

HIST 575  Problems African American Hist  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/575)
Covers in depth, major problems in the African American experience and in the historiography of that experience, including historical periods, themes and paradigms. Same as AFRO 501. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.

HIST 576  History and Social Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/576)
Introduces recent historical work drawing upon theories and concepts from the social sciences; considers fields of inquiry which include family history, demographic history, labor history, prosopographical and entrepreneurial studies, local and regional studies, and others.

HIST 577  Approaches to History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/577)
Required course for entering history graduate students offering in initial foray into historiography, methods, and conceptual approaches for students in all fields. Provides experience dealing with three challenges that face all practitioners of the discipline: identifying the historical problem to be tackled, deciding what methodologies are best suited to that problem, and locating and then making use of the primary sources necessary for analyzing the subject at hand. Assigned materials, class discussions, and assignments will prepare students for the second semester required research seminar. Restricted to first-year graduate students in history.

HIST 578  Intro Historical Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/578)
Seminar for first-year graduate students and is the second half of the introductory graduate sequence. Focuses on the process of writing an original piece of historical scholarship. Topics to be discussed include: developing an argument, exploring sources, arriving at a research strategy, planning and structuring an article, presenting complex data, and producing scholarship that is a coherent representation of an author’s perspective on the past. Over the course of the semester, each seminar participant will develop and write an original, article length research paper. Students will work with the assistance of the instructors and an advisor from her or his own research field. Prerequisite: HIST 593.

HIST 579  Approaches to History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HIST/579)
Directed readings in special fields. Primarily, but not exclusively, for students with a master's degree or equivalent, who are preparing for the preliminary examination in history and who need instruction in areas not provided by current course offerings. Approved for letter and S/U grading. May be repeated in the same or subsequent terms as topics vary. Prerequisite: Consent of instructor.

HIST 580  Teaching of College History  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HIST/580)
Approved for S/U grading only. May be repeated. Prerequisite: Candidate for Ph.D. degree in history.

Information listed in this catalog is current as of 07/2019
HIST 599  Thesis Research  credit: 0 to 16 Hours. ([https://courses.illinois.edu/schedule/terms/HIST/599](https://courses.illinois.edu/schedule/terms/HIST/599))
Individual direction in research and guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.

Horticulture (HORT)

HORT Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HORT](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HORT))

Courses

HORT 100  Introduction to Horticulture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/100](https://courses.illinois.edu/schedule/terms/HORT/100))
Basic principles of plant growth and development as they apply to the production, marketing, and utilization of fruits, vegetables, and ornamental plants. Credit is not given for both HORT 100 and HORT 106.

HORT 105  Vegetable Gardening  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/105](https://courses.illinois.edu/schedule/terms/HORT/105))
The science and art of growing vegetables and the connection between gardening and food. Topics include nutrient and pest management, history, folklore, growing requirements, and quality characteristics of vegetables. Lecture and laboratory. Additional fees may apply. See Class Schedule.

HORT 106  The Sustainable Home Garden  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/106](https://courses.illinois.edu/schedule/terms/HORT/106))
Create inviting and sustainable indoor and outdoor living spaces with plants, whether your landscape is several acres or a few containers on an urban balcony. This blended-format class meets 1 hour per week for lecture and discussion with additional instruction presented through independent learning activities including virtual field trips, on-line lectures, and instructional videos. Learn the fundamentals of environmentally sound resource use when designing with and maintaining flowering, fruit and vegetable plants, lawns, trees and shrubs around your home. Become a savvy horticultural consumer and develop a healthy lifestyle that supports positive physical and mental well-being by including greenspace activities in your daily life. Credit is not given for both HORT 106 and HORT 100.

HORT 107  Introduction to Floral Design  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/107](https://courses.illinois.edu/schedule/terms/HORT/107))
Introduces the art of arranging flowers, foliages, and accessories according to the principles of design. Additional fees may apply. See Class Schedule.

HORT 180  Medicinal Plants and Herbology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/180](https://courses.illinois.edu/schedule/terms/HORT/180))
The use of cultivated and wild plants in medicines and health products according to Eastern and Western medical traditions. Consideration of herbal medicine use from ancient times to the present, important medicinal chemicals produced by plants, and the evaluation of plant chemical products as potential human medicines. Same as CPSC 180.

HORT 199  Special Topics  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/199](https://courses.illinois.edu/schedule/terms/HORT/199))
Experimental course on a special topic in horticulture. Approved for Letter and S/U grading. May be repeated as topics vary.

HORT 205  Local Food Networks  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/205](https://courses.illinois.edu/schedule/terms/HORT/205))
Prepares students to be leaders and facilitators in local food networks. The focus is on providing the knowledge and skills to initiate and manage community food gardens, school gardens and curricula, institutional buying programs, farmers markets, community supported agriculture, and urban farm networks. Requires a group food network project and an experience with a local food organization. Prerequisite: An introductory course in HORT or CPSC or consent of instructor.

HORT 223  The Intelligent Behavior of Plants  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/223](https://courses.illinois.edu/schedule/terms/HORT/223))
This course provides students with an introduction into the study of plant behavior, which focuses on how plants interact with and respond to the world around them. Topics include a basic overview of plant anatomy and physiology, a comparative examination of behavioral and communication mechanisms used by plants and animals, and an analysis of the controversial arguments regarding plant intelligence. This course satisfies the General Education Criteria for: Advanced Composition

Nat Sci Tech - Life Sciences

HORT 226  Introduction to Weed Science  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/226](https://courses.illinois.edu/schedule/terms/HORT/226))
Same as CPSC 226. See CPSC 226.

HORT 240  Plant Propagation  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/240](https://courses.illinois.edu/schedule/terms/HORT/240))
Examines theories and methods employed in propagation of plants, emphasizing anatomical, physiological, and ecological principles involved in sexual propagation (seeds) and asexual propagation (division, cuttings, budding, grafting, tissue culture, etc.) Prerequisite: IB 103.

HORT 261  Biotechnology in Agriculture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/261](https://courses.illinois.edu/schedule/terms/HORT/261))
Same as CPSC 261. See CPSC 261.
This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

HORT 293  Off-Campus Horticulture Internship  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/293](https://courses.illinois.edu/schedule/terms/HORT/293))
Supervised, off-campus experience in a field directly pertaining to a subject matter in horticulture. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, cumulative GPA of 2.0 or above at the time the internship is arranged, and consent of instructor.

HORT 294  On-Campus Horticulture Internship  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/294](https://courses.illinois.edu/schedule/terms/HORT/294))
 Supervised, on-campus learning experience with faculty engaged in research. Approved for S/U grading only. May be repeated in separate terms. Independent Study courses are limited to 12 hours total applying to a degree in ACES. For registration in this course students should contact the Department Undergraduate Program Coordinator. Prerequisite: Sophomore standing, 2.0 GPA, consent of the advisor, and consent of the Department Undergraduate Program Coordinator.

HORT 295  Undergrad Research or Thesis  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HORT/295](https://courses.illinois.edu/schedule/terms/HORT/295))
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Cumulative GPA of 2.5 or above at the time the activity is arranged and consent of instructor.

Information listed in this catalog is current as of 07/2019
HORT 298 Undergraduate Seminar credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/298)
Group discussion on a special topic in a field of study directly pertaining to subject matter in horticulture. May be repeated to a maximum of 12 hours. Prerequisite: Junior standing.

HORT 301 Woody Landscape Plants credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/301)
Systematic approach to the identification, ornamental characters, culture, and use of woody landscape deciduous and evergreen trees, shrubs, vines and groundcovers, with special emphasis on cultivated varieties. Prerequisite: IB 103.

HORT 341 Greenhouse Mgmt and Production credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/341)
The course focuses on how controlled environments can be managed to obtain optimal plant growth. Lectures cover greenhouse operations, management, and production, including: greenhouse design, location, glazing, heating, cooling, environmental control, irrigation systems, light control, root media, fertilization, watering, integrated pest management, and automation. The course also has a large laboratory component, in which students conduct experiments in the greenhouse. A required all-day field trip to nearby greenhouse operations rounds out the course experience. Additional fees may apply. See Class Schedule. Prerequisite: NRES 201 and HORT 100.

HORT 344 Planting for Biodiversity and Aesthetics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/344)
As the demand for food increases, plants in ornamental landscapes will need to provide not only beauty but also species biodiversity critical for supporting sustainable food production. Course emphasizes species identification (predominantly herbaceous perennials), management, and planting design principles. Designing for multiple contexts, such as residential and community gardens, and large scale production sites, to provide multiple ecosystem services, especially supporting human aesthetic preferences, and habitat for pollinators. Prerequisite: IB 103.

HORT 360 Vegetable Crop Production credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HORT/360)
Instruction on the commercial production of vegetable crops. The first part of the course focuses on broad issues important to all crops including methods of vegetable production, basic soil and nutritional management, irrigation, and weed, insect, and disease management. Both organic and conventional production are discussed with a focus on sustainability. Basic farm and business management topics, including postharvest handling, food safety, crop and farm budgets, business structures, marketing, insurance, and regulations are also discussed. The second part of the course focuses on specific crops, emphasizing their origin, production, growth and development, insects, and diseases as well as harvesting and postharvest handling. Prerequisite: HORT 100 or equivalent.

HORT 361 Small Fruit Production credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/361)
Technological application of biological principles to the culture of strawberry, grape, blueberry, raspberry, blackberry, currant, gooseberry, and miscellaneous small fruits. Prerequisite: HORT 100 or IB 103.

HORT 362 Tree Fruit Production credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/362)
Examines biological principles and cultural practices involved in the growth and production of apple, pear, peach, cherry, plum, apricot, almond, and miscellaneous citrus and nut crops. Offered every fall semester. Prerequisite: HORT 100 or IB 103.

HORT 363 Postharvest Handling Hort Crop credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/363)
Provides theoretical and practical experience in the principles and practices of postharvest handling of cut flowers, ornamentals, fruits, and vegetables, emphasizing factors that impact quality, shelf-life, and safety. Requires two field trips, one to a local produce warehouse and the other to local supermarkets. Offered every fall semester. Prerequisite: HORT 100, CHEM 102, CHEM 103, IB 103.

HORT 396 Ug Honors Research or Thesis credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/396)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated. Independent Study courses are limited to 12 hours total applying to a degree in ACES. Prerequisite: Junior standing, admission to the ACES Honors Program, and consent of instructor.

HORT 421 Horticultural Physiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HORT/421)
Horticultural crop growth is examined in relation to plant structure, environment, and cultural practices. Emphasizes environmental control of whole plant growth as influenced by the supply of the raw materials required for growth: water, carbon dioxide, radiant energy, including the influence of temperature and photoperiod on plant growth and development. The shoot and root interactions with the environment are characterized relative to cultural practices. 4 undergraduate hours. 4 graduate hours. Prerequisite: HORT 100 or IB 103 and junior standing.

HORT 430 Children and Nature credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/430)
Study of research theory and evidence suggesting the importance of children's contact with natural environments including, designed urban greenspaces, managed sustainable landscapes, and wilderness, for healthy child development, ecological literacy, and pro-environmental behavior as adults. Discussion of research implications and applications for redesigning our communities' outdoor spaces, societal values, public policies and education systems to foster children's access to, and bonding with, nature. Same as LA 430. 2 undergraduate hours. 2 graduate hours.

HORT 434 Designing Urban Agriculture credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HORT/434)
Emphasizes the design process and principles related to food production in urban environments. Lecture topics will include assessing, planning, and transforming the landscape at multiple scales from regional to neighborhood to specific site. In group discussions students will critically review readings from peer-reviewed and popular literature. Students will engage in analysis and design of an existing site to integrate multiple functions, emphasizing the permanent infrastructure and perennial vegetation. Access to a computer that can be loaded with appropriate software (Sketchup) is necessary for mapping and design projects. Online lecture/discussion course. 2 undergraduate hours. 2 graduate hours. HORT 100 or CPSC 112 or equivalent introductory course in plant science, one course in Humanities & the Arts, and one course in Social & Behavioral Sciences. Prerequisite: Junior standing required.

Information listed in this catalog is current as of 07/2019
HORT 435  Urban Food Production  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/435)
Explore opportunities and challenges for maximizing the productivity and sustainability of urban food production systems, considering agricultural, environmental, energy, social, and economic issues. Students will examine the science and practice of urban agriculture through scientific and popular literature, case studies, online discussion, and service-learning opportunities. Production systems covered will include both outdoor (e.g., vacant lot urban farms) and controlled environment (e.g., hydroponics and aquaponics) agriculture. 3 undergraduate hours. 3 graduate hours. Prerequisite: HORT 100 or CPSC 112 or equivalent introductory course in plant science.

HORT 442  Plant Nutrition  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/442)
Mechanisms and factors affecting the absorption, transport, distribution, and functions of the essential elements required by higher plants. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: CPSC 352.

HORT 453  Principles of Plant Breeding  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/453)
Same as CPSC 453. See CPSC 453.

HORT 447  Horticultural Plant Breeding  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/447)
Methodology, objectives, and constraints of breeding for improved cultivars of flowers, woody ornamentals, turfgrasses, fruits, and vegetables. Emphasis on breeding objectives unique to horticultural commodities such as color, appearance, flavor, shelf-life, nutritional value, and other characteristics that determine product quality. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: NRES 201 and IB 420.

HORT 466  Growth and Dev of Hort Crops  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/466)
Factors affecting growth, development, and quality of horticultural crops, such as photoperiodism, growth regulators, and carbon dioxide levels. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHEM 104; HORT 421 or IB 420.

HORT 475  Permaculture & Agroforestry  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/475)
Lecture/discussion course covering the scientific basis and design of permaculture (permanent agriculture) and temperate agroforestry systems. Lecture topics will include: permaculture principles, site assessment, soil remediation, water management, agroforestry case studies, urban food forests, and integration of livestock, among others. Education resources will be provided from peer-reviewed literature and popular sources. Students will work on projects to critically review the principles of permaculture and to design a multifunctional agroforestry system for a temperate site. 3 undergraduate hours. 3 graduate hours. Prerequisite: HORT 100 or CPSC 112 or equivalent introductory course in plant science and one course in ecology, environmental sciences, or natural resources. Junior standing required.

HORT 499  Advanced Special Topics  credit: 1 to 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/499)
Advanced experimental course on a special topic in horticulture. 1 to 4 undergraduate hours. 1 to 4 graduate hours. Approved for Letter and S/U grading. May be repeated if topics vary.

HORT 566  Plant Gene Regulation  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/566)
Same as CPSC 566. See CPSC 566.

HORT 588  Plant Biochemistry  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/588)
Same as CPSC 588 and IB 524. See CPSC 588.

HORT 598  Experimental Graduate Courses  credit: 1 to 4 Hours.  (https://courses.illinois.edu/schedule/terms/HORT/598)
Experimental course on a special topic in Horticulture. May be repeated in the same or separate terms to a maximum of 12 hours as topics vary.

Human Dev and Family Studies (HDFS)

HDFS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/HDFS)

Courses

HDFS 101  Issues & Careers in HDFS  credit: 1 Hour.  (https://courses.illinois.edu/schedule/terms/HDFS/101)
Introduction to career opportunities related to human development and family studies, academic and other preparation for different fields, and emerging issues for practitioners and researchers.

HDFS 105  Intro to Human Development  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/105)
Systematic overview of the psychological, biological, familial, and cultural factors related to human growth and development across the life span. This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

HDFS 120  Intro to Family Studies  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/120)
Overview of current concepts, theories, and substantive issues in family studies from an interdisciplinary perspective. Gives attention to variation in family form and function across different social/cultural contexts and how family experience is structured by gender. Examines issues of family development (marriage, parenting, divorce, remarriage, aging family) and explores the links between families and other social institutions. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

HDFS 140  Intro Gender & Women's Studies  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/140)
Same as GWS 100 and SOC 130. See GWS 100. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

HDFS 143  Biology of Human Behavior  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/143)
Same as ANTH 143. See ANTH 143. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

HDFS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/199)
Experimental course on a special topic in human development and family studies. Approved for both letter and S/U grading. May be repeated in the same or subsequent terms as topics vary.

HDFS 206  Early Childhood Curriculum Dev  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/HDFS/206)
Introduces development of curriculum for children from birth to age five; integrates child development theory and principles with programming for young children in preschool and childcare setting. Prerequisite: HDFS 105.

Information listed in this catalog is current as of 07/2019
HDFS 208  Child Fam with Special Needs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/208)
Multi-disciplinary approach to the study of issues related to exceptional children and their families. Explores social, emotional, and economic aspects of exceptionality for both children and families; examines processes of identification, intervention, and integration of children who deviate significantly from developmental norms. Designed for students studying child development, early childhood education, special education, social work, nursing and other disciplines involved with children who have special needs and their families. Recommended for students preparing for internships and careers as Child Life Specialists. Prerequisite: HDFS 105.

HDFS 220  Families in Global Perspective  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/220)
Explores economic, political, cultural and social factors affecting families in different countries; examines variations among families in developed and developing nations and their historical, political and cultural contexts. Same as ANTH 210.
This course satisfies the General Education Criteria for: Cultural Studies - Non-West Social Beh Sci - Soc Sci

HDFS 221  Asian Families in America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/221)
Same as AAS 297 and SOCW 297. See SOCW 297.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci Cultural Studies - US Minority

HDFS 225  Close Relationships  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/225)
Initiation, development, and dissolution of committed relationships with same- or opposite-sex partners within familial, cultural, and societal contexts. Prerequisite: Sophomore standing.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

HDFS 259  Motor Development and Control  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/259)
Same as KIN 259. See KIN 259.
This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

HDFS 261  Self-Help Group Dev & Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/261)
 Defines nature and use of self-help groups in different contexts. Includes role of professionals in group formation and maintenance and develops group planning and management skills. Includes practice in group formation and visits to working groups in the community.

HDFS 262  Motor Develop, Growth & Form  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/262)
Same as KIN 262. See KIN 262.
This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

HDFS 263  Diversity in Recreation, Sport, and Tourism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/263)
Same as KIN 230 and RST 230. See RST 230.
This course satisfies the General Education Criteria for: Cultural Studies - US Minority

HDFS 290  Intro to Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/290)
Introduction to quantitative and qualitative research methods used to study human development and families. Provides experience conducting observations and survey interviews, evaluating research results, and writing research reports. Prerequisite: HDFS 105.
This course satisfies the General Education Criteria for: Advanced Composition

HDFS 291  HDFS Career Planning & Preparation  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/HDFS/291)
Overview of job opportunities, graduate, and professional school programs that prepare students for careers in health care, counseling, social work, higher education, policymaking and other fields related to Human Development and Family Studies. Examines types of jobs, graduate and professional opportunities and the preparation they require. Students develop personal job, graduate/professional school preparation plans. Approved for S/U grading only.

HDFS 293  Off-Campus Internship  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/293)
Supervised, off-campus experience in a field directly pertaining to subject matter in Human Development and Family Studies. Intended primarily for students seeking supervised internship experience needed for certification as a Child Life Specialist. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours.
Credit is not given for more than a total of 12 hours of Independent Study (IND) courses applying to a degree in ACES. Prerequisite: Prior or concurrent enrollment in HDFS 408 and consent of instructor.

HDFS 294  Research Internship  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/294)
Students work one-on-one or in a small group with a faculty member engaged in research. Students must arrange this research experience with a professor prior to registering for the course. A list of possible research projects can be found at: http://hdfs.illinois.edu/undergraduate/research-opportunities. Once you have found a project that interests you, email the professor and ask to participate in his or her research opportunity. Approved for Letter and S/U grading. May be repeated in the same or separate terms to a maximum of 12 hours.
Prerequisite: Consent of instructor; not open to students on probation.

HDFS 295  Independent Study or Research  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/295)
Individual research, special problems, thesis, development and/or design work under the supervision of an appropriate member of the faculty. May be repeated in the same or separate terms to a maximum of 12 hours.
Credit is not given for more than a total of 12 hours of Independent Study (IND) courses applying to a degree in ACES.

HDFS 301  Infancy & Early Childhood  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/301)
Reviews development during the first five years of life, including cognitive, social, and biological aspects of early development; includes first-hand observation of young children to supplement and extend lecture material. Prerequisite: HDFS 105 or PSYC 216.

HDFS 305  Middle Childhood  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/305)
Systematic overview of the normative changes that occur in the physical, cognitive, social, emotional, and moral domains during the middle childhood period as well as current social issues that confront many of today's children (such as school violence or poverty). Prerequisite: HDFS 105.
HDFS 310  Adult Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/310)
Focuses on adult development as a means for understanding the quality of family relationships and community functioning. Uses current theoretical approaches to understand adult development and evaluate each approach's usefulness for adults in the contexts of family, health, work, leisure and challenges over the life course. Prerequisite: HDFS 105 or equivalent.

HDFS 314  Introduction to Aging  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/314)
Same as CHLH 314, RST 314, PSYC 314, and REHB 314. See CHLH 314.

HDFS 322  US Latina and Latino Families  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/322)
Explores a variety of topics and provides a basic overview of issues relevant to the understanding of Latina/Latino families and children in the United States. Examines recent demographic changes in the U.S. population and their implications for the socialization and education of Latina/Latino children and their families. Course content looks at such areas as who are Latina/Latino families; how are those families different from others; what are the similarities and differences within Latinas/Latinos; how does acculturation and language fit into our understanding of these families; and what are the implications for the education success of current and future Latina/Latino children. Same as LLS 322.

This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

HDFS 324  African Amer Families in Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/324)
Same as AFRO 382. See AFRO 382.

HDFS 340  Gender, Relationships & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/340)
Explores the production of gender through social interaction within families and other specific interpersonal and institutional relationships that change over time. Gender is also linked to race, class, ability, and sexuality. Same as GWS 340 and SOC 322. Prerequisite: HDFS 105 or SOC 100.

HDFS 341  Asian American Youth  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/341)
Same as AAS 346. See AAS 346.

HDFS 361  Creative Dance for Children  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/361)
Same as ARTE 350 and DANC 350. See DANC 350.

HDFS 379  HDFS Study Abroad Experience  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/379)
International experience in areas related to human development and family studies involving foreign travel and study without enrollment in another institution. Experience must be planned and approved in advance via consultation with an HDFS Faculty member. May be repeated in separate terms to a maximum of 8 hours if topics vary.

HDFS 396  Honors Research or Thesis  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/396)
Individual research, special problems, thesis, development and/or design work under the direction of the Honors advisor. May be repeated in the same or subsequent terms. Prerequisite: Junior standing, admission to the ACES Honors Program.

HDFS 398  Undergraduate Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/398)
Special topics in a field of study directly pertaining to subject matter in human development and family studies. May be repeated in the same or subsequent terms to a maximum of 12 hours as topics vary. Prerequisite: Junior standing.

HDFS 401  Socialization and Development  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/401)
Presents and uses theories of socialization to evaluate and analyze current issues and socialization practices; delineates historical and philosophical trends in socialization, and discusses the implications of these trends for generating social policy affecting the developing individual. 4 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 301 and PSYC 100.

HDFS 404  Gerontology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/404)
Same as CHLH 404. See CHLH 404.

HDFS 405  Adolescent Development  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/405)
Examines paths of experience and individual development within the family, the peer group, and other domains through this socially-defined stage of life. 3 undergraduate hours. 3 graduate hours. Prerequisite: HDFS 105 and PSYC 100.

HDFS 406  Child Dev Class Supervision  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/406)
Examines the relationships between child development theories and developmentally appropriate and individualized instruction techniques, discipline and guidance strategies, and the role of the family in child development programs. Emphasizes program supervision. Includes direct experience with children and families in a laboratory setting. 5 undergraduate hours. 5 graduate hours. Prerequisite: HDFS 206, HDFS 220, and junior standing.

HDFS 408  Hospitalized Children  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/408)
Examines the developmental needs and stress reactions of children and families in a hospital/medical setting; examines responses of family and staff facing terminal illness and the death of a family member; familiarizes students with general hospital procedures, medical terms, and illnesses; introduces the role of Child Life programs and the Child Life Specialist. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 105 or consent of instructor.

HDFS 420  Inequality, Public Policy, and U.S. Families  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/420)
Examines influence of economic, demographic and social changes on families in the U.S. and on the opportunities of individual family members. Explores interactions of social class, poverty, race and gender and their effects on family life and on child and adolescent development. Includes critical analysis of health care, employment, immigration, family leave, welfare and other social policy options that affect family life and well-being. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120.

HDFS 424  Racial and Ethnic Families  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/424)
Same as AFRO 421 and EPS 421. See EPS 421.
HDFS 425  Family Stress and Change  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/425)
Applies family theories (e.g. family systems, family stress, multigenerational developmental perspectives) to understand how families change and adapt to stress across time and diverse contexts. Attention is given to assessing intergenerational family dynamics and working with individuals and families to reduce negative patterns. 4 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120 and HDFS 290.

HDFS 426  Family Conflict Management  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/426)
Examines processes of conflict management in family and community disputes; emphasizes negotiation and mediation as modes of dispute settlement. 3 undergraduate hours. 4 graduate hours. Prerequisite: HDFS 120.

HDFS 427  Family Adaptation & Resilience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/427)
Examines complex factors, including culture, economy, and values conflicts, that challenge families and the range of adaptive strategies that families deploy amid various challenges and stressors. Activities include developing a research or action proposal related to developing family resiliency. 3 undergraduate hours. 3 graduate hours. Credit is not given for both HDFS 427 and HDFS 527. Prerequisite: HDFS 425 or consent of instructor.

HDFS 444  LGBT Indiv. Fam & Community  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/444)
Examines contemporary sexual and gender minority experiences in the context of societal inequality. Of particular interest to students pursuing educational, human service, legal, and/or health profession careers. Same as CHLH 444. 3 undergraduate hours. 4 graduate hours. Prerequisite: SOC 100 or an introductory course on gender issues.

HDFS 450  Practicum in HDFS  credit: 1 to 12 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/450)
Supervised on- or off-campus learning experience related to human development or family studies, supervised in cooperation with an appropriate agency or institution. Not available to students on probation. 1 to 12 undergraduate hours. 1 to 12 graduate hours. May be repeated for up to 12 hours in separate semesters. Only 6 hours of the course may be applied to the total required for a graduate or undergraduate degree in Human Development and Family Studies. Prerequisite: Human Development and Family Studies major; junior standing.

HDFS 459  Physical Activity & Aging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/459)
Same as KIN 459. See KIN 459.

HDFS 461  Family Life Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/461)
Examines the theory and practice of designing family life education programs for children, youth, and/or families. Introduces strategies for translating science-based information into learning experiences. Family life education topics such as parenting (including managing difficult children and children with special needs), relationships (dating, marriage), family transitions (becoming new parents, divorce, and stepfamilies), and health and well-being (obesity, stress) will be reviewed. Principles of effective program design will be explored along with online program delivery skills. 3 undergraduate hours. No graduate credit. Credit is not given for both HDFS 461 and HDFS 561. Prerequisite: HDFS 120 or consent of instructor.

HDFS 494  Applied Research Methods  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/494)
Participation in faculty-supervised research as a member of a transdisciplinary team investigating questions related to the health and well-being of children and families. Students propose their own research questions and present findings developed from data gathered by the team. 1 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours in the same term or to a maximum of 12 hours in separate terms. Prerequisite: Consent of instructor.

HDFS 499  Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/499)
Special topics in human development, family studies, or community development. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or subsequent terms to a maximum of 12 hours as topics vary.

HDFS 500  Professional Development  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/HDFS/500)
Overview of issues in professional development in the field of human development and family studies; focuses on both academic and applied career paths. Approved for S/U grading only. May be repeated to a maximum of 4 hours.

HDFS 501  Human Development Theories  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/501)
Overview of basic theories and theoretical perspectives on human development; focuses on major concepts, issues, and questions in the field.

HDFS 503  Social-Emotional Development  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/503)
Theory and research related to social and emotional development from infancy through middle childhood. Key topics include emotional regulation and social-emotional understanding, with special attention to the interpersonal contexts of social-emotional development, including parent-child, sibling and peer relationships. Prerequisite: HDFS 501.

HDFS 505  Advanced Adolescence  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/505)
Advanced interdisciplinary examination of current research on adolescence as a life course stage and developmental period; focuses on principal contexts of adolescents' lives, such as family, peers and school, and examines how experience in these contexts relates to preparation for adulthood. Designed for students with prior course work on adolescence or related topics who plan to do research, teaching, or policy work pertinent to this age period. Prerequisite: Prior course work in human development, developmental psychology or life course sociology.

HDFS 521  Family Theories  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/521)
Contemporary family theories and their application in family research.

HDFS 523  Ethnic Families  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/523)
Historical, social, economic, contextual (neighborhood), and subcultural factors that influence the organization and dynamics of ethnic-racial family life in the United States: family and group immigration and migration histories, acculturation, identity development, family organization, gender roles, parent-child relations, family rituals, neighborhood influences on family life and child-adolescent development, and the relationship between social class and ethnicity-race. Particular emphasis is given to qualitative studies that detail the first-hand experiences of families.
HDFS 525 Family Interaction credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/525)
Observation and qualitative analysis of the family as a system; how family organization emerges, is maintained, and changes through social interaction.

HDFS 526 Intimate Partner Violence credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/526)
Extent, nature, causes, and consequences of intimate partner violence in the United States. Examines the complexities of intimate partner violence, including individual, societal, and historical factors that contribute to violence, the implications of making distinctions in types of violence and perpetrators, and the relationship between institutional responses and individual decision-making. Also examines theoretical methodological and ethical issues related to violence research.

HDFS 527 Family Resiliency credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/527)
Examines complex factors, including culture, economy, and values conflicts, that challenge families and the range of adaptive strategies that families deploy amid various challenges and stressors. Activities include developing a research or action proposal related to developing family resiliency. Credit is not given for both HDFS 527 and HDFS 427. Prerequisite: HDFS 521 or HDFS 525 or equivalent.

HDFS 528 Parenting credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/528)
Explores how parenthood has been conceptualized and investigated in human development, family studies, and related disciplines. Major theoretical perspectives and emerging line of research will be reviewed including parental style, beliefs and cognition, identity, fathering and diverse parenting contexts. Prerequisite: HDFS 501 or HDFS 521.

HDFS 529 Youth and Family Acculturation credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/529)
Examines acculturation in youth and families related to immigration and globalization (e.g., via media, trade). Covers theory regarding individual acculturation styles such as assimilation or integration/biculturalism, and explores societal influences. Also examines how youth and families adapt, including psychological and social adjustment, parent-child acculturation gaps, and risk/protective factors for family resilience. Films and discussions cover different types of acculturating individuals (e.g., immigrants, refugees, non-migrants) and span several world regions. Prerequisite: Prior coursework in family studies, child/adolescent development or related topics, or consent of instructor.

HDFS 530 Community In American Society credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/530)
Classic U. S. community studies are paired with current journal articles to examine how people in rural, suburban, and urban places go about making, maintaining or losing "community" in the context of societal change. The community studies provide a window on change at the local level including: urbanization, suburbanization, ethnic group interactions, inner-city poverty concentration, household structure variation, economic restructuring, and environmental impacts. Community studies are also critically evaluated both theoretically and as a research strategy. Same as SOC 572 and UP 533. 4 graduate hours. No professional credit.

HDFS 531 Childhood Obesity I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/531)
Same as CHLH 530, FSHN 530, KIN 530, NUTR 530, SOCW 570. See NUTR 530.

HDFS 532 Childhood Obesity II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/532)
Same as CHLH 531, FSHN 531, KIN 531, NUTR 531, SOCW 571. See NUTR 531.

HDFS 533 Community In American Society credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/533)
Theoretical and practical aspects of planned efforts to influence the development of children, youth, and families in the context of communities, particularly efforts to promote competence and well-being of children and youth, positive parenting, and well-being and adjustment of adults. Examines literature from four approaches: family life education, youth development, prevention/applied developmental science, as well as health promotion and community health.
HDFS 562  Child & Family Program Eval  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/562)
Introduces practical skills for evaluating service, intervention, and educational programs, including needs assessment, program monitoring and impact assessment, with emphasis on outcome measure selection, randomized and quasi-experimental designs, statistical power analysis, and ethical issues.

HDFS 590  Advanced Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/590)
Overview of positivist, interpretive, and critical research paradigms and their quantitative and qualitative methodologies; critical evaluation of current social science literature; students develop their own research proposals. 4 graduate hours. No professional credit.

HDFS 591  Qualitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/591)
Qualitative methods in the social sciences: epistemological context; data collection and relationships with participants; data management, analysis and evaluation; writing strategies. Specific content emphasis alternates annually between field research and grounded theory. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours.

HDFS 592  Advanced Statistical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/592)
Introduction to the conceptual bases and uses of advanced statistical techniques in human development and family research, including factor analysis, cluster analysis, multilevel modeling, and logistic regression. Special attention given to the longitudinal and dyadic analyses and techniques for handling missing data. Students use common statistical packages and their own data set to produce a journal-style manuscript. 4 graduate hours. No professional credit. Prerequisite: HDFS 594 or a graduate-level course in multivariate statistical analysis.

HDFS 594  Intermed Statistical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/594)
Overview of common quantitative research methods and statistical analyses used in human development, family, and community research; covers sampling, data management, bivariate analyses, multivariate regression. Students frame a research question and use a common data set and statistical analysis software to prepare methods and results sections of a manuscript suitable for publication. 4 graduate hours. No professional credit. Prerequisite: HDFS 590 or equivalent.

HDFS 595  Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/595)
Discussion and evaluation of current literature on selected topics in human and community development. 1 to 4 graduate hours. No professional credit. May be repeated in the same or subsequent terms.

HDFS 596  Advanced Studies in HDFS  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/596)
Library or experimental research on specific problems of limited scope. May be taken in addition to 32 hours required for a master's degree by students who do not write a thesis. For non-thesis students only. May be repeated to a maximum of 4 hours.

HDFS 597  Advanced Statistical Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/597)
Introduction to the conceptual bases and uses of advanced statistical techniques in human development and family research, including factor analysis, cluster analysis, multilevel modeling, and logistic regression. Special attention given to the longitudinal and dyadic analyses and techniques for handling missing data. Students use common statistical packages and their own data set to produce a journal-style manuscript. 4 graduate hours. No professional credit. Credit is not given for both HDFS 592 and HDFS 597. Prerequisite: HDFS 594 or a graduate-level course in multivariate statistical analysis.

HDFS 598  Special Problems in HDFS credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/598)
Research or independent study on a special problem that is not part of thesis work. 1 to 4 graduate hours. No professional credit. May be repeated in the same or separate terms to a maximum of 8 hours.

HDFS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/HDFS/599)
Individual thesis research under supervision of faculty in specialized fields of human and community development. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated.

Human Dimensions of Env Sys (HDES)

HDES Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HDES)

Courses

HDES 410  Neighborhoods and Politics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HDES/410)
Same as PS 410. See PS 410.

HDES 595  Res Sem Human Enviro  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/HDES/595)
Trains students to propose, conduct, communicate, and evaluate research in the human dimensions of environmental systems. Participants present and receive feedback on work in progress in formal seminars and in small multidisciplinary groups. May be repeated to a maximum of 20 hours. Prerequisite: HDES Scholar status or consent of instructor.

HDES 598  Special Topics in HDES  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/HDES/598)
Special topics in the human dimensions of environmental systems (HDES), with a focus on contemporary environmental and sustainability issues. An introduction course for graduate students who wish to explore the interdisciplinary studies offered through the Program in HDES. Approved for both letter and S/U grading. May be repeated in the same term to a maximum of 8 hours as topics vary. May be repeated in separate terms to a maximum of 12 hours as topics vary.

Human Resource Development (HRD)

HRD Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HRD)
Courses

HRD 400  Principles of HRE  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/400)
Study of the basic concepts and practices of education for and about work: its philosophical foundations and historical development, mission and goals, structure and function, curricular areas of emphasis, learner audiences served and settings in which programs are conducted, and issues and trends affecting program change. 3 undergraduate hours. 4 graduate hours.

HRD 401 Training in Business/Industry credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/401)
Study of the status of education, training and development within business and industry; includes an overview of the systemic process for planning, delivery, and evaluation of training programs; and explores major problems, trends, and issues associated with the field. 3 undergraduate hours. 4 graduate hours.

HRD 402 Business Principles for HRD credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/402)
Study of essential business understandings, knowledge, and skills required for HRD professionals to interact effectively with others in the business community. 3 undergraduate hours. 4 graduate hours.

HRD 411 Instructional and Training System Design credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/411)
Provides instruction and practice in the selection, organization, and preparation of content for instructional programs in business and technical settings. Provides students with a theoretical orientation to instructional design as well as the opportunity to experience the instructional design process as it applies to business and technical settings through the development of instructional materials. 3 undergraduate hours. 4 graduate hours.

HRD 412 Instructional Techniques credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/412)
Provides a research-based exploration of effective teaching techniques for instructors of business, industry, and community college technical programs. Equips students with a conceptual framework for instruction and provides guidance and experience in the planning, delivery, and evaluation of instruction. 3 undergraduate hours. 4 graduate hours.

HRD 414 Facilitation Skills credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/414)
Provides an in-depth examination into the body of research of effectively facilitating groups, including the nature of groups, the dynamics of individuals within groups, effective planning, role clarification, identification of intervention points in groups, and effective use of tools and techniques. The theoretical foundations for the course reside in theories of human values, group dynamics, decision-making, communication, managing conflicts, and effective group intervention. Course emphasis is on experiential learning, with students practicing self-reflection and self-directed facilitations. 3 undergraduate hours. 4 graduate hours.

HRD 415 Diversity in the Workplace credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/415)
Assists educators, as well as trainers and managers in business and industry, to effectively recognize and understand diversity in school and work settings. Activities focus on understanding the nature of diverse populations, their unique learning needs, and potential collaborative efforts between educators and work place personnel. 3 undergraduate hours. 4 graduate hours.

HRD 440 Work Analysis credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/440)
The ability to analyze work is a fundamental skill for individuals interested in human resource development. Work analysis is necessary for identifying job standards, designing training programs, performance support systems, evaluating work performance, and perhaps most importantly improving performance. This course will provide students with the opportunity to learn and use range of work analysis techniques and to apply this information in service to an organization. 3 undergraduate hours. 4 graduate hours. Prerequisite: HRD 400 or consent of instructor.

HRD 470 Designing and Evaluating E-Learning Systems credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/470)
This course surveys and examines models and theories for designing e-learning systems across disciplines and organizations. Particular emphasis is given to topics on designing instructor-led and/or autonomous learning systems for individual learners and for organizations in contemporary technology-enabled environments. In addition, this course covers introductory methodologies for evaluating the efficacy of various e-learning systems. The guiding philosophy of the course is that intended learning outcomes by any e-learning system should be achieved through systematic and pedagogically grounded design and evaluation processes while considering various individuals’ and organizations’ needs. 3 undergraduate hours. 4 graduate hours.

HRD 472 Learning Technologies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/472)
The course addresses two important needs of educators. First, educators should be aware of recent developments in the area of instructional technology. Second, educators must be able to select, develop, and effectively use appropriate instructional technologies to enhance learning and communication. To meet these needs, this course covers a wide range of instructional technologies that are used for instructional and administrative purposes. Traditional instructional media are considered in the course although significant emphasis is placed on more recent developments that involve the use of the computer and its applications in education. Instructional technologies such as computer-based instruction, computer-based testing, distance learning, interactive video, and intelligent instructional technologies are covered. Through course readings, discussions, and projects, students in the course are expected to gain skills in choosing appropriate instructional technologies, designing effective presentations that rely on those technologies, and properly using instructional technologies to enhance communication with an audience. Same as CI 484. 3 undergraduate hours. 4 graduate hours. Prerequisite: HRD 411 or equivalent course in instructional design.

HRD 474 Evaluating Learning Technology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/474)
Same as EPSY 474. See EPSY 474.

HRD 475 Project Management Principles and Applications credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/HRD/475)
Effective project management skills are essential for successful professional development. This course, in particular, studies the basic principles, techniques, and best practices related to managing personnel, time, and resources in education and training projects. Through a variety of learning activities, including case study review and project simulation, students will apply project management concepts and tools in various training and education-related project development. 3 undergraduate hours. 4 graduate hours.
HRD 480 Introduction to eLearning  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/480](https://courses.illinois.edu/schedule/terms/HRD/480))
The course seeks to build foundational knowledge in areas associated with online teaching and learning and distance education in both higher education and workplace learning settings. Major areas of interest include the overview of online teaching and learning strategies, digital learning system design, digital media for learning, and evaluation online teaching and learning. 3 undergraduate hours. 4 graduate hours. Prerequisite: Open to all graduate students.

HRD 490 Issues and Developments in HRD  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/490](https://courses.illinois.edu/schedule/terms/HRD/490))
Special course for experimentation or for seminar on topics not treated by regularly scheduled courses. Topics vary; consult Class Schedule for specific section offerings. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours.

HRD 491 Professional Skill Development  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/491](https://courses.illinois.edu/schedule/terms/HRD/491))
Designed to teach practitioner-oriented skills in specialized areas of human resource education. Topics vary; consult Class Schedule for specific section offerings. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours.

HRD 492 Supervised Internship in HRE  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/492](https://courses.illinois.edu/schedule/terms/HRD/492))
While employed in approved cooperating organizations, students observe the relationship between HRE and organizational performance. 2 or 4 undergraduate hours. 2 or 4 graduate hours.

HRD 495 Special Study & Investigation  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/495](https://courses.illinois.edu/schedule/terms/HRD/495))
Offers opportunity for an individual to study, on or off campus, selected problems, trends, and new developments or to conduct specialized investigations for the improvement of instructional programs in areas related to education and training. 2 or 4 undergraduate hours. 2 or 4 graduate hours. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.

HRD 501 The Community College  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/501](https://courses.illinois.edu/schedule/terms/HRD/501))
Same as EOL 573. See EOL 573.

HRD 509 Advanced Theories in HRD  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/509](https://courses.illinois.edu/schedule/terms/HRD/509))
Provides a reading of advanced texts related to Human Resource Development from a variety of applied social science disciplines. Targeted towards doctoral students in the later stage of their course work who are interested in HRE theory and social science foundations. Prerequisite: HRD 400, HRD 411, HRD 530.

HRD 517 Community College Program Dev  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/517](https://courses.illinois.edu/schedule/terms/HRD/517))
Synthesizes selected sociological, psychological, and epistemological foundations for curriculum development in education and training; application of theories from fundamental disciplines to practice in existing and emerging curricula involving perceptual and psychomotor learning.

HRD 530 Organization Development  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/530](https://courses.illinois.edu/schedule/terms/HRD/530))
Addresses the history, concepts, theories, and techniques of Organization Development as applied in Human Resource Education; emphasis on creating, managing, and sustaining system-wide change in public and private organizations; organized around diagnosis, implementation, and evaluation of individual, team, and organization-wide interventions.

HRD 531 Quality Process Improvement  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/531](https://courses.illinois.edu/schedule/terms/HRD/531))
Examines quality and process improvement philosophies, theories, and strategies as they apply to the practice of professionals in human resource education. Based on a critical analysis of the historical antecedents, theoretical foundations, and empirical research results of Total Quality Management (TQM) and Continuous Process Improvement (CPI), students will be able to apply improvement strategies and evaluate the merits and limitations in public and private settings. Same as EOL 587.

HRD 532 Strategic HRD  credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/532](https://courses.illinois.edu/schedule/terms/HRD/532))
Study of the theories, research, and applications of strategic human resource development in a variety of organizational settings.

HRD 533 Management of HRD  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/533](https://courses.illinois.edu/schedule/terms/HRD/533))
Study of management fundamentals related to planning, organizing, staffing, leading, and controlling the HRD function in organizations.

HRD 534 Economics of Human Resources  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/534](https://courses.illinois.edu/schedule/terms/HRD/534))
Same as LER 545. See LER 545.

HRD 535 Consulting in HRD  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/535](https://courses.illinois.edu/schedule/terms/HRD/535))
Analysis of key elements of consulting in the human resource development profession. Emphasis is placed on subject matter expertise, consulting skills, marketing, organization, business management, communication, and life/work balance. The course examines both the internal and external consulting practices. Issues of education and training of consultants for work in industry, business, government, and non-profit sectors are covered in detail.

HRD 536 International HRD  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/536](https://courses.illinois.edu/schedule/terms/HRD/536))
Course is designed to provide insights into international HRD at macro and micro levels. Course will cover: cross-cultural issues in international HRD; design and delivery of international HRD programs; HRD practices and programs in different regions of the world; national HRD programs; expatriate training and training in multinational corporations.

HRD 540 Learning on the Job  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/540](https://courses.illinois.edu/schedule/terms/HRD/540))
Research and practice suggest that individuals learn most of what they know and can do while on-the-job, not in a corporate classroom or some other formal learning setting. This seminar will provide opportunity to examine the literature on this topic and consider how they also might contribute to the literature through their own research. The seminar will also provide the opportunity to experience how to design a workplace learning system, such as structured on-the-job training. Prerequisite: HRD 400 and HRD 411 or consent of instructor.

HRD 550 Adult & Professional Education  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/550](https://courses.illinois.edu/schedule/terms/HRD/550))
This course takes a broad look at the philosophy, theory, research, and practice of adult education, along with additional considerations for the development of professionals. The broad perspective includes the social, cultural, and political factors that affect the research, planning, development, and implementation of adult education. You may explore the major adult learning theories, the practice of adult education, and the aims and challenges of professional education that match your scholarly and practical interests.
HRD 572 e-Learning Ecologies credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/572](https://courses.illinois.edu/schedule/terms/HRD/572))
An examination of emerging environments of e-learning, some setting out to emulate the heritage social relationships and discourses of the classroom, others attempting to create new forms of learning. Aims to push the imaginative boundaries of what might be possible in e-learning environments. Explores the ways in which assessments can be constructed and implemented which are integral to the learning process, with the assistance of today’s new media, ‘big data’ and other information technologies. 4 graduate hours. No professional credit.

HRD 575 Innovation in E-Learning credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/575](https://courses.illinois.edu/schedule/terms/HRD/575))
Designed to provide an in-depth look at ongoing innovations in Web-based electronic technologies that can be used to deliver e-Learning content and to enhance learning experiences in e-Learning environments. Students will acquire and synthesize advanced content knowledge and critically review research on ongoing innovations that are integrated with targeted content in today’s eCommunication and e-Learning environments. Prerequisite: Open to all graduate students.

HRD 580 Disciplined Inquiry in Educa credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/580](https://courses.illinois.edu/schedule/terms/HRD/580))
Provides an analysis and synthesis of disciplined inquiry in human resource education including an historical perspective, formulation of the research process, and the utilization and communication of research.

HRD 585 Program Evaluation credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/585](https://courses.illinois.edu/schedule/terms/HRD/585))
Theory and techniques of evaluation in cognitive, affective, and psychomotor domains at different educational levels and settings; development and analysis of activities and instruments for students and program evaluation, follow-up studies, and interpretation of results for self-evaluation and for administrative decision making.

HRD 590 Seminar for Advanced Students credit: 0 to 8 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/590](https://courses.illinois.edu/schedule/terms/HRD/590))
Seminar open to persons who have been admitted for doctoral study in human resource education. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.

HRD 592 Special Topics in HRE credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/HRD/592](https://courses.illinois.edu/schedule/terms/HRD/592))
Introduction to significant problems, points of view, and trends in the field; explores significant research relating to organization, content, and techniques. Topics vary; consult Class Schedule for specific section offerings. May be repeated with approval.

**Human Resource Education (HRE)**

HRE Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HRE](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HRE))

**Humanities Courses (HUM)**

HUM Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HUM](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/HUM))

**Courses**

HUM 191 Freshman Honors Tutorial credit: 1 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/191](https://courses.illinois.edu/schedule/terms/HUM/191))
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated one time. Prerequisite: Consent of departmental honors adviser.

HUM 199 Undergraduate Open Seminar credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/199](https://courses.illinois.edu/schedule/terms/HUM/199))
May be repeated.

HUM 387 French & Comparative Cinema I credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/387](https://courses.illinois.edu/schedule/terms/HUM/387))
Same as CWL 387, FR 387, and MACS 382. See FR 387.

HUM 389 French & Comparative Cinema II credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/389](https://courses.illinois.edu/schedule/terms/HUM/389))
Same as CWL 389, FR 389, and MACS 383. See FR 389.

HUM 390 Individual Study credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/390](https://courses.illinois.edu/schedule/terms/HUM/390))
Supervised reading and research on interdisciplinary humanities topics chosen by the student in consultation with a faculty member. May be repeated to a maximum of 8 hours. Prerequisite: Consent of humanities adviser (An approved Learning Agreement must be submitted to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).

HUM 395 Special Topics credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/395](https://courses.illinois.edu/schedule/terms/HUM/395))
Interdisciplinary topics in the humanities; topics vary, but are normally related to one of the options in the humanities major. May be repeated if topics vary. Students may register in more than one section per term.

HUM 397 Special Topics Junior credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/397](https://courses.illinois.edu/schedule/terms/HUM/397))
Interdisciplinary seminar and tutorial in selected topics related to one of the options in the humanities major. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing and consent of humanities adviser (Tutorial students must submit an Approved Learning Agreement to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).

HUM 492 Senior Thesis credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/492](https://courses.illinois.edu/schedule/terms/HUM/492))
Individual research for majors in humanities leading to the completion of a thesis. 0 to 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 8 hours. Prerequisite: Senior standing, a declared option in humanities major, and consent of advisor.

HUM 495 Special Advanced Topics credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/495](https://courses.illinois.edu/schedule/terms/HUM/495))
Offers interdisciplinary topics in the humanities; topics vary, but normally relate to the interdisciplinary areas of study within the humanities major or to the special humanities facilities (e.g., the Language Learning Laboratory). 3 undergraduate hours. 4 graduate hours. May be repeated as topics vary to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Will vary according to topic. See Class Schedule.

HUM 498 Special Topics Senior credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/HUM/498](https://courses.illinois.edu/schedule/terms/HUM/498))
Interdisciplinary seminar and tutorial in selected topics related to one of the options in the humanities major. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing and consent of humanities adviser (Tutorial students must submit an approved Learning Agreement to 2002 Lincoln Hall, 702 S. Wright Street, Urbana, not later than the second week of the semester or the first week of the summer session).

**I-Health (IHLT)**

IHLT Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IHLT](https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IHLT))

**Information listed in this catalog is current as of 07/2019**
Courses

IHLT 101 Introduction to i-Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/101)
Introduction to the interdisciplinary major in Health. The course is designed to familiarize students with the concepts of interdisciplinary health, campus resources, academic policies, and program requirements.

IHLT 102 Survey of Interdisc Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/102)
Introduction to topics in interdisciplinary health with particular emphasis on the five dimensions of health: physical, emotional, social, intellectual and spiritual. Students will explore their personal health beliefs and patterns and discuss the benefits of studying health within an interdisciplinary curriculum.

IHLT 230 Leadership in Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/230)
Develops a framework to understand practices of exemplary leadership. Topics include: 1) Modeling behavior, 2) Inspiring a shared vision, 3) Challenging processes, 4)Enabling others to act, and 5) Encouraging passionate leadership. Case studies of individuals who are recognized leaders in health and well-being at local, regional, national and global levels will be explored. Through various assignments, students identify their own leadership style and understand the important role they can play as leaders to address local and global health challenges.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

IHLT 232 Health Disparities in the U.S. credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/232)
Provides an overview of health disparities in the United States, including existence and magnitude of health disparities, theories that explain health disparities, strategies to address their complexity, and solutions required to eliminate them. Disparities are examined related to groups of diverse racial/ethnic backgrounds, socio-economic status, gender, age, and ability level.
This course satisfies the General Education Criteria for: Cultural Studies - US Minority

IHLT 240 Aging and Health Policy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/240)
Provides an understanding of the policies that affect service delivery to older adults including key historical and current policies such as the Older Americans Act, Medicare, Medicaid, and Social Security. Theories of public policy and involvement of older adults in the political process will be introduced. Challenges of issues such as chronic disease prevention, housing, transportation, nutrition, and elder abuse will also be explored.
This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

IHLT 375 Interdisc Collab in Health Serv credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/375)
Provides scholarly knowledge and field experiences for interdisciplinary collaboration in the health services. Topic include health service delivery systems, vulnerable populations, models of health and health promotion, communication, policy and ethics in health care. Emphasis on introducing students to the importance of working with individuals from a variety of health disciplines to best address issues of health in society.

IHLT 474 Pre-Field Experience in Health credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IHLT/474)
This is an independent study course that expands student’s knowledge of health professions and prepares them for field work in an applied setting with a variety of health professionals. 1 undergraduate hour. 1 graduate hour.

IHLT 475 Field Experience in i-Health credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/475)
Designed to emphasize field/research experiences that facilitate working with individuals from a variety of health disciplines. Field experience/research placements will be selected to best prepare students address issues of health within their concentrations areas. In class sessions will focus on interdisciplinary collaboration, professionalism and important global health issues. Serves as the capstone course for i-Health majors. 4 undergraduate hours. 4 graduate hours. Prerequisite: Restricted to senior i-Health majors.

IHLT 498 Interdisciplinary Health Study Abroad credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/IHLT/498)
An advanced-level study abroad experience where students complete assigned scholarly readings; participate in facilitated discussions prior to, during, and/or after the trip; and write a final paper. The on-campus and abroad activities are supervised and facilitated by campus faculty. 1 to 6 undergraduate hours. No graduate credit. May be repeated in separate terms for a total of 12 undergraduate hours, if the countries differ between terms. Prerequisite: Social & Behavioral Sciences General Education requirement fulfilled, and sophomore or higher standing.

Industrial Engineering (IE)

IE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IE)

Courses

IE 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IE/199)
May be repeated.

IE 297 Independent Study credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/297)
Individual investigations of any phase of Industrial Engineering. May be repeated in separate terms. Prerequisite: Consent of instructor.

IE 300 Analysis of Data credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/300)
Nature of probabilistic models for observed data; discrete and continuous distribution function models; inferences on universe parameters based on sample values; control charts, acceptance sampling, and measurement theory. Credit is not given for both IE 300 and CEE 202. Prerequisite: MATH 241.

IE 310 Deterministic Models in Optimization credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/310)
Linear Optimization - Simplex method, duality, and sensitivity analysis, Transportation and Assignment Problems, Network Optimization Models, Dynamic Programming, Nonlinear optimization, and Discrete optimization. Credit is not given for both IE 310 and CEE 201. Prerequisite: Credit or concurrent registration in MATH 415.

IE 311 Operations Research Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IE/311)
Applications of OR models with the use of software tools. Prerequisite: Concurrent registration in IE 310.
IE 330  Industrial Quality Control  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/330)
Contemporary concepts and methods for quality and productivity design and improvement; philosophies of Deming, Taguchi, and others leading the quality management and engineering movement; Shewhart’s methods for statistical process control; process capability analysis; statistical methods for tolerance assessment; process control methods employing attribute data; design of experiments, concepts, and methods. Prerequisite: IE 300.

IE 340  Human Factors  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/340)
Introduction to human factors, ergonomics, engineering psychology, history of ergonomics, human-machine relations, displays and controls, human-computer interaction, industrial and aviation systems, physiology of work and anthropometrics, cognitive ergonomics, human reliability, human as manual controller, human-machine systems design, prototyping, professional practice and ethics, laboratory exercises. Same as PSYC 358. Prerequisite: PSYC 100, PSYC 103, or consent of instructor.

IE 360  Facilities Planning and Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/360)
Facility planning, plant layout design, and materials handling analysis; determination of facilities requirements, site selection, materials flow, use of analytical and computerized techniques including simulation, and applications to areas such as manufacturing, warehousing, and office planning. Prerequisite: Credit or concurrent enrollment in IE 310.

IE 361  Production Planning & Control  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/361)
Scope of production systems and activities involved in their design, establishment, management, operation, and maintenance; mathematical and computer models for planning and control of facilities, human resources, projects, products, material, and information in production systems. Prerequisite: IE 310.

IE 370  Stochastic Processes and Applications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/370)
Introduction to stochastic processes with applications in decision-making under uncertainty. Topics include newsvendor problem, discrete-time Markov chain (including classification of states, stationary distribution, absorbing states), Poisson processes (including time-homogenous, time-nonhomogeneous, thinning Poisson), continuous-time Markov chain (including Markov property, generator matrix, stationary distribution), queuing theory (including M/M/k queue, open Jackson network), and Markov decision processes (including finite-horizon models, infinite-horizon models). Prerequisite: IE 300 and IE 310.

IE 397  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/397)
Individual investigations or studies of any phase of Industrial Engineering. May be repeated in separate terms. Prerequisite: Consent of instructor.

IE 398  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/398)
Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

IE 400  Design & Analysis of Experiments  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/400)
Concepts and methods of design of experiments for quality design, improvement and control. Simple comparative experiments, including concepts of randomization and blocking, and analysis of variance techniques; factorial and fractional factorial designs; Taguchi’s concepts and methods; second-order designs; response surface methodology. Engineering applications and case studies. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

IE 405  Computing for ISE  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/405)
This course will introduce students to algorithm design, computer programming in C++, and database SQL queries. It will provide the fundamental methods, concepts and principles of these topics to give students enough breadth to use these techniques in their jobs and to prepare them to pursue advanced topics in these areas. There will be weekly programming assignments to implement algorithms and SQL covered in the class. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 or equivalent.

IE 410  Advanced Topics in Stochastic Processes & Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/410)
Modeling and analysis of stochastic processes. Transient and steady-state behavior of continuous-time Markov chains; renewal processes; models of queueing systems (birth-and-death models, embedded-Markov-chain models, queuing networks); reliability models; inventory models. Familiarity with discrete-time Markov chains, Poisson processes, and birth-and-death processes is assumed. Same as CS 481. 3 undergraduate hours. 4 graduate hours. Prerequisite: IE 310.

IE 411  Optimization of Large Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/411)
Practical methods of optimization of large-scale linear systems including extreme point algorithms, duality theory, parametric linear programming, generalized upper bounding technique, price-directive and resource-directive decomposition techniques, Lagrangian duality, Karmarkar’s algorithm, applications in engineering systems, and use of state-of-the-art computer codes. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 310 and MATH 415.

IE 412  OR Models for Mfg Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/412)
Operations research techniques applied to problems in manufacturing and distribution. Single and multi-stage lot sizing problems, scheduling and sequencing problems, and performance evaluation of manufacturing systems. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 310.

IE 413  Simulation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/413)
Use of discrete-event simulation in modeling and analysis of complex systems. Data structures and event-list management; verification and validation of simulation models; input modeling, including selection of probability distributions and random variate generation; statistical analysis of output data. Same as CS 482. 3 undergraduate hours. 4 graduate hours. Prerequisite: CS 101 and IE 310.
IE 420  Financial Engineering  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/420)
Introduction to the theory and practice of financial engineering: basics of derivative securities and risk management; Markowitz portfolio theory and capital asset pricing model; interest rate and bonds; forward and futures contracts, hedging using futures contracts; option contracts and arbitrage relationship; binomial model, no-arbitrage pricing, risk-neutral pricing, and American options pricing; Brownian motion, Black-Scholes-Merton model, delta hedging, Greek letters, implied volatility, and volatility smile. 3 undergraduate hours. 4 graduate hours. Prerequisite: IE 300.

IE 430  Economic Found of Quality Syst  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/430)
Total quality systems for planning, developing, and manufacturing world-class products. Economic foundations of total quality. Product value, cost, pricing, environmental quality, activity-based costing, design for assembly, organization structure, lead time, innovation, Taguchi methods, simulation-based significance testing, Strategic Quality Deployment, statistical process control, and conjoint analysis. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IE 300.

IE 431  Design for Six Sigma  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IE/431)
Quality Engineering principles and the Six Sigma Define-Measure-Analyze-Improve-Control (DMAIC) process. Application of concepts and methods of statistical process control, designed experiments, and measurement systems analysis to cases of quality and productivity improvement; application of the fundamentals of quality engineering and the Six Sigma to areas of produce development, service enterprise, and manufacturing processes. 3 undergraduate hours. 3 graduate hours. Prerequisite: IE 300.

IE 445  Human Performance and Cognition in Context  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/445)
Same as EPSY 456 and PSYC 456. See EPSY 456.

IE 497  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/497)
Independent study of advanced problems related to industrial engineering. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated. Prerequisite: Consent of instructor.

IE 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/498)
Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary to a maximum of 9 hours.

IE 510  Applied Nonlinear Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/510)
Optimization of nonlinear systems; survey of classical methods and concepts such as the Lagrangian method, the Jacobian method, and Kuhn-Tucker conditions; modern algorithms; numerical methods for digital computers; applications in engineering design; use of state-of-the-art computer codes. Prerequisite: IE 310.

IE 511  Integer Programming  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/511)
Optimization of linear systems over discrete decision domains. Topics to be covered include Modeling, Polyhedral theory, Integral Polyhedra, Totally Unimodular Matrices, Total Dual Intergrality, Computational Complexity, Cutting plane method, Branch and Bound method, and Lagrangian Dual. Structured integer programs involving Matchings, Knapsack, Cuts and Matroids will be studied as applications. 4 graduate hours. No professional credit. Prerequisite: IE 411 or MATH 482.

IE 512  Network Analysis of Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/512)
Basic concepts, theories, and techniques of systems analysis, including modeling of large scale systems, forecasting, planning, control, and information handling; modeling of systems with network techniques, including distance, flow, and project networks; advanced network topics such as out-of-kilter algorithm and project resource analysis. Prerequisite: IE 361 or CEE 201.

IE 513  Optimal System Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/513)
This course is designed to address the fundamental mathematical theories for complex engineering system (product) design optimization in multidisciplinary environment. The course starts with the basics of nonlinear programing (continuous optimization), then expands to the area of multidisciplinary design optimization (MDO) in depth. Analytical Target Cascading (ATC) - a well-established hierarchal optimization method - is covered in-depth with assignments in written and programming forms. After a successful completion of the course, the students will be able to model and solve basic MDO problems and apply MDO in a research-based semester project. Prior experience in coding (in Matlab or similar) will be helpful but not required. 4 graduate hours. No professional credit. Prerequisite: IE 310.

IE 514  Optimization Methods for Large-Scale, Network-Based Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/514)
The course will cover topics related to optimization over large-scale networks. We will look at data-driven methodologies by which very large-scale optimization problems, primarily integer programs, can be solved. We will consider motivations from application areas such as airline scheduling, vehicle routing, and communications. Topics covered include shortest paths; multi-commodity flows; decomposition techniques; Lagrangean relaxation; set-covering and set-partitioning problems (with special characteristics); column generation and branch-and-price and cut; composite variables; large-scale neighborhood search techniques; modeling robustness and uncertainty; stochastic modeling in large-scale integer programs; data-driven optimization. The course will include real-world modeling examples from applications including vehicle routing, freight logistics, and airline schedule planning. 4 graduate hours. No professional credit. Prerequisite: IE 411 or the equivalent.

IE 515  Stochastic Simulation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/515)
Random variable generation; sample path generation; variance reduction; simulation optimization; introduction to Sequential Monte Carlo and MCMC; applications in finance. Prerequisite: IE 410 and STAT 410.
IE 519 Combinatorial Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/519)
The course will cover a series of topics in combinatorial optimization. The emphasis will be on polyhedral theory, structural results and their applications to designing algorithms. Specific topics to be covered include: Matchings, b-matchings, T-joins, T-cuts, Arborascences, Branchings, Matroids, Matroid Intersection, Polymatroids, Submodular Functions, Directed Cuts, Multi-flows. Same as CS 586. 4 graduate hours. No professional credit. Prerequisite: Familiarity with linear programs (IE 411 or equivalent), Algorithms (CS 374 or equivalent), and Graph Theory (MATH 412 or equivalent).

IE 520 Variational Inequalities  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/520)
Finite dimensional variational inequality and complementarity problems; characterization of solutions; nonsmooth Newton methods; interior-point methods; projected gradient schemes; applications of variational inequalities in game theory. Prerequisite: One of ECE 490, IE 510, IE 521, MATH 484.

IE 521 Convex Optimization  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/521)
Finite dimensional convex optimization problems; characterization of optimal solutions; iterative algorithms for differentiable and nondifferentiable problems; distributed optimization algorithms; robust problems and solutions; applications of convex optimization models. Prerequisite: ECE 490 or IE 411; MATH 415; MATH 444.

IE 522 Statistical Methods in Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/522)
Methods of statistical modeling of signals and systems with an emphasis on finance applications. Review of linear algebra, probability theory, and spectral analysis; Linear Time Invariant (LTI) and ARX models; least-squares, maximum-likelihood, non-parametric, and frequency-domain methods; convergence, consistency and identifiability of linear models; asymptotic distribution of parameter estimates; techniques of model validation; Principle Component Analysis (PCA) for dimension reduction; ARCH and GARCH processes and their related models; implementation, application, and case-studies of recursive identification; Monte Carlo simulation. Credit is not given for both IE 522 and GE 524. Prerequisite: MATH 415.

IE 523 Financial Computing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/523)
Visual Basic (VB) types and loops, macros, arrays, and objects; C++ structures, classes, overloading, inheritance, and I/O; C++ standard libraries; financial computing case studies; illustrations of financial engineering topics using VB and illustrations of the same topics for financial markets using .NET. Prerequisite: CS 225.

IE 524 Optimization in Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/524)
Basic optimization models, theory and methods for financial engineering including linear, quadratic, nonlinear, dynamic integer, and stochastic programming; applications to portfolio selection, index fund tracking, asset management, arbitrage detection, option pricing and risk management; optimization software for classes of optimization problems. Projects requiring building optimization models based on financial market data and solutions using optimization solvers. Prerequisite: FIN 500 and MATH 415.

IE 525 Numerical Methods in Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/525)
Numerical methods of the pricing and risk management of financial derivatives: Monte Carlo simulation; variance reduction techniques; quasi-Monte Carlo methods; finite difference methods for partial differential equations; time discretization schemes; free boundary problems for American options. Prerequisite: FIN 500.

IE 526 Stochastic Calculus in Finance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/526)
Stochastic calculus approach to the pricing and risk management of derivative securities; no arbitrage pricing; Brownian motion; stochastic calculus; the Black-Scholes-Merton mode; risk neutral valuation; Feynman-Kac theorem; transform methods; exotic derivatives; change of numeraire; term structure interest rate mode; stochastic volatility and jump models. Prerequisite: IE 525.

IE 527 MSFE Professional Development  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IE/527)
This course is required to encourage participation in professional development activities. Students will be required to be in attendance for at least 70% of the Practitioner Speaker Series in addition to other sanctioned MSFE Events. The Practitioner Speaker Series is an essential part of the MSFE curriculum. It allows firsthand interaction with Quantitative Practitioners. Exposure to insights on how the financial world is changing; regarding new products and needs, evolving data and information systems, and much more. Other events might include but are not limited to special seminars, workshops and conversation groups. 1 graduate hour. No professional credit. Approved for S/U grading only. May be repeated in separate terms up to 2 hours. Note that this course is for 1 credit hour during your first and second semester and will require a mandatory final paper. Prerequisite: Graduate MS: Financial Engineering Students only.

IE 528 Computing for Data Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/528)
Hands-on programming course on select topics in data science and big data with major emphasis on a semester long project. Course will cover a variety of topics and tools in big data including Hadoop MapReduce Framework, HBase, and Storm; Machine Learning; and Optimization. 4 graduate hours. No professional credit. Prerequisite: CS 242, CS 446. All ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MSAA) are eligible to take the course.

IE 529 Stats of Big Data & Clustering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/529)
This course will cover various foundational topics in data science. Parametric and non-parametric methods. Hypothesis testing; Regression; Classification; Dimension reduction; and Regularization. Unsupervised and semi-supervised learning, along with a few case studies. 4 graduate hours. No professional credit. Prerequisite: MATH 415 and IE 300 or equivalent. All ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MSAA) are eligible to take the course.

IE 530 Optimization for Data Analytics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/530)
Basic optimization methods for data analytics, optimization modeling languages such as AMPL and GAMS, and optimization software including the NEOS server. Linear and integer, and their applications to compressed sensing, data mining, and pattern classification. 4 graduate hours. No professional credit. Prerequisite: IE 411. All ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MSAA) are eligible to take the course.
IE 531 Algorithms for Data Analytics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/531)
This course will introduce the student to a set of algorithms for data analytics which include: hashing, indexes, caching; algorithms for structured datasets; streaming data models; PageRank algorithms for market-basket models; clustering algorithms; and case studies. 4 graduate hours. No professional credit. Prerequisite: IE 411, CS 225. ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA) are eligible to take the course.

IE 532 Analysis of Network Data credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/532)
This course will focus on statistical aspects analyzing network data. It will review illustrative problems relating to aggregation of information, decision-making, and inference tasks over various graphical models and networks. 4 graduate hours. No professional credit. Prerequisite: MATH 412. ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA) are eligible to take the course.

IE 533 Big Graphs and Social Networks credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/533)
This course will cover the fundamentals of graph theory and network optimization. It will focus on algorithmic challenges associated with big graphs and intertwine the Hadoop Framework for solving example problems like shortest paths, link analysis, graph association and inexact graph matching. Applications in social network analysis will include study of network types, random graph models, exact and approximate computation of centrality measure, finding high value individuals, community detection, diffusion processes and cascading models, and influence maximization. 4 graduate hours. No professional credit. Prerequisite: MATH 213, IE 300, IE 411. ISE graduate students and students enrolled in the Master of Science in Advanced Analytics (MCAA) are eligible to take the course.

IE 534 Deep Learning credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/534)
This course provides an introduction to neural networks and recent advances in deep learning. Topics include training and implementation of neural networks, convolution neural networks, recurrent neural networks (LSTM and gated recurrent), residual networks, reinforcement learning, and Q-learning with neural networks. A part of the course will especially focus on recent work in deep reinforcement learning. The course will also cover deep learning libraries (e.g., Chainer, Tensorflow) and how to train neural networks using GPUs and GPU clusters. Same as CS 547. 4 graduate hours. No professional credit. Prerequisite: CS 446 or equivalent. Graduate students only.

IE 542 Cooperative Problem Solving credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/542)
Advanced graduate seminar on problem-solving models and taxonomies, models of coordination of activity and communication among multiple agents, design of human-machine cooperative problem-solving systems, adaptive automation, and intelligent decision support. Readings drawn from work in pragmatics, distributed artificial intelligence, cognitive engineering, and related areas. 4 graduate hours. No professional credit. Prerequisite: Credit or concurrent registration in either CS 440 or PSYC 527.

IE 546 Human Factors in HCES credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/546)
Same as EPSY 546. See EPSY 546.

IE 547 Healthcare Operations and Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/547)
Delivers an introduction of healthcare systems and strategic issues in their operations, and a background of healthcare, health systems, hospitals and elements of care centers. The course blends quantitative and qualitative material, modeling and practical perspectives, and includes demand management, forecasting methods, workforce planning, inventory and materials planning, supply chain management in healthcare, process improvement and patient flow, facility design and planning, and operations scheduling. Financial performance and metrics, as well as case studies and project work will be included. 4 graduate hours. No professional credit. Prerequisite: The student should have a Bachelors Degree in Industrial Engineering, Operations Management, or closely related disciplines. Specifically, they should have: (1) Basic Calculus sequence (Calc I, II and III at UIUC these are MATH 220, MATH 231, and MATH 241; MATH 234 can also be used); (2) Elementary Probability and Statistics (IE 300 or STAT 400, MATH 463 or equivalent); (3) Notions or Linear Algebra (MATH 415) and preference for Linear Programming (IE 310/IE 311). Priority will be given to students enrolled in the Healthcare Engineering Systems Concentration of M.Eng. degree program.

IE 590 Seminar credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/IE/590)
Presentation and discussion of significant developments in industrial engineering. Approved for S/U grading only. May be repeated.

IE 597 Independent Study credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/597)
Independent study of advanced problems related to industrial engineering. May be repeated in the same or separate terms if topics vary to a maximum of 12 hours. Prerequisite: Consent of instructor.

IE 598 Special Topics credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IE/598)
Subject offerings of new and developing areas of knowledge in industrial engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. Approved for letter and S/U grading. May be repeated in the same or separate terms if topics vary.

IE 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/IE/599)
Approved for S/U grading only. May be repeated.

Informatics (INFO)

INFO Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/INFO)

Courses

INFO 102 Little Bits to Big Ideas credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/102)
Broad introduction to the nature, capabilities, and limitations of computing. Topics range from the way data is represented and stored, to the way today's computers work, to the general ideas of algorithms and computational efficiency, to the future of computing. Covers "Great Ideas" across various areas of the field, including, for example, cryptography and internet security, problem solving, modeling and simulation, and artificial intelligence. Same as CS 102. This course satisfies the General Education Criteria for: Quantitative Reasoning I.
INFO 199  Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/199)
May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

INFO 202  Social Aspects Info Tech  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/202)
Explores the way in which information technologies have and are transforming society and how these affect a range of social, political and economic issues from the individual to societal levels. Same as IS 202 and MACS 202. Prerequisite: Sophomore standing.
This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

INFO 303  Writing Across Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/303)
The ability to communicate effectively in multiple types of media is a crucial part of literacy in our society. In this course, students will explore the intersections of various media: print, film, images, sound, etc.
Students will consider the ways in which writing—as an object and as a practice—is shaped by multimodal interactions. Also integrates practical activities with broader theoretical issues in order to provide effective strategies for designing multimedia presentations, projects, and texts that integrate photography, video, and sound. Same as WRIT 303.
This course satisfies the General Education Criteria for:
Advanced Composition

INFO 310  Computing in the Humanities  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/310)
Same as IS 310. See IS 310.

INFO 325  Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/325)
Same as EPS 325, AFST 325, ASST 325, EURO 325, LAST 325, REES 325, and SAME 325. See EPS 325.

INFO 326  New Media, Culture & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/326)
Same as MACS 326. See MACS 326.

INFO 345  Digital & Gender Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/345)
Same as GWS 345, MACS 345, and SOC 345. See GWS 345.

INFO 390  Special Topics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/390)
Explores a variety of informatics topics. Topics and prerequisites vary by section; see current Class Schedule for details. May be repeated up to 6 hours if topics vary.

INFO 399  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/399)
Individual study in a subject related to informatics not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

INFO 403  An Introduction to Top Down Video Game Design  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/INFO/403)
The emphasis of this course is on developing an understanding of top down video game design using the various design methodologies and tools introduced in class. Students will form small groups (4-6) and work on their own design within a selected genre (to be determined at the beginning of the semester). Areas of focus include high level design vision, audience evaluation, User Interface and its impact on the design, iteration of a series of design documents (high, medium and low level) and the team dynamics of communication, critique and integration. The goal of the class is to have the small teams use the concepts and the tools taught in class to create a complete design document that will be cataloged for later use. 3 undergraduate hours. 3 graduate hours.

INFO 490  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/490)
Topics of current interest. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor.
Other prerequisites as specified for each topic offering. See Class Schedule.

INFO 491  Ugrad Bioinformatics Seminar  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/INFO/491)
Introduces the field of bioinformatics and computational biology. Same as CPSC 491 and IS 483. 0 to 2 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 2 undergraduate hours. Prerequisite: Consent of instructor.

INFO 500  Orientation Seminar  credit: 0 or 1 Hours. (https://courses.illinois.edu/schedule/terms/INFO/500)
A broad introduction to faculty research in each Informatics Area. Consists of weekly presentations by Informatics faculty highlighting their recent research, practice, and related concepts. Approved for S/U grading only. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Graduate standing in any field.

INFO 510  Research Practicum  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/510)
A one semester directed research project supervised by a member of the informatics faculty in the student's area of specialization or closely related area. These are intended to be practical research, not just literature surveys, and must have a definite output such as a paper or demonstration project. The research should be relevant to the thesis work or preparatory work to support the thesis. Informatics students must take two semesters, usually each semester should be under a different Informatics faculty member, but with the concurrence of their advising committee both may be taken under a single faculty member. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Graduate standing in any Informatics.

INFO 555  Advanced Educational Technologies for Engagement and Interactive Learning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/555)
Same as CI 555 and EPSY 555. See EPSY 555.

INFO 590  Advanced Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/INFO/590)
Subject offerings of new and developing areas of knowledge in Informatics, intended to augment existing curriculum. See Class Schedule for specific topics and prerequisites. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary. Prerequisite: Graduate Student Standing.
INFO 591  Grad Bioinformatics Seminar  credit: 0 to 2 Hours.  
This seminar series focuses on research in the field of bioinformatics and computational biology. Same as ANSC 591, CPSC 591, and IS 583. 0 to 2 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Consent of instructor.

INFO 597  Individual Study  credit: 2 to 4 Hours.  
Individual study in a subject related to informatics not covered in normal course offerings. May be repeated in same term for a maximum of 8 hours or separate terms for a maximum of 16 hours if topics vary. Prerequisite: Consent of instructor.

INFO 599  Thesis Research  credit: 0 to 16 Hours.  
Research for Ph.D. thesis. May be repeated in separate terms. Prerequisite: Instructor approval required.

Information Sciences (IS)

IS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IS)

Courses

IS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.  
Undergraduate Open Seminar. May be repeated.

IS 202  Social Aspects Info Tech  credit: 3 Hours.  
Same as INFO 202 and MACS 202. See INFO 202. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

IS 310  Computing in the Humanities  credit: 3 Hours.  
Explores use and application of technology to scholarly activity in the humanities, including projects that put classic texts on the web or create multimedia application on humanities topics. Same as INFO 310. Prerequisite: Sophomore standing.

IS 351  The Design of Usable Information Interfaces  credit: 3 Hours.  
Examines issues of Human Computer Interaction and the design of better computer interfaces. Prerequisite: Sophomore standing.

IS 390  Special Topics in Information Studies  credit: 1 to 3 Hours.  
Directed and supervised investigation of selected topics in information studies that may include among others computers and culture; information policy; community information systems; production, retrieval and evaluation of scientific or social science knowledge; computer-mediated communication; and computer-supported cooperative work. May be repeated. Prerequisite: Sophomore standing.

IS 403  Literature and Resources for Children  credit: 2 to 4 Hours.  
Evaluation, selection and use of books and other resources for children (ages 0-14) in public libraries and school media centers; explores standard selection criteria for print and nonprint materials in all formats and develops the ability to evaluate and promote materials according to their various uses (personal and curricular) and according to children's various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.

IS 404  Literature and Resources for Young Adults  credit: 2 to 4 Hours.  
Evaluation, selection and use of books and other resources for young adults (ages 12-18) in public libraries and school media centers; explores standard selection criteria for print and nonprint materials in all formats and develops the ability to evaluate and promote materials according to their various uses (personal and curricular) and according to young adults' various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.

IS 409  Storytelling  credit: 2 to 4 Hours.  
Fundamental principles of the art of storytelling including techniques of adaptation and presentation; content and sources of materials; methods of learning; practice in storytelling; planning the story hour for school and public libraries and other public information settings; and audio, video, and digital media. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: For undergraduates, junior or senior standing and consent of instructor.

IS 418  Community Engagement  credit: 3 or 4 Hours.  
Community engagement refers to the multiple ways that information professionals in libraries and other settings learn about, collaborate with, and provide service and outreach to community members. Provides an introduction to, and overview of, community engagement theory and practice. A significant portion of coursework will take the form of service learning or community-based research via approved projects that match students' interests. 3 undergraduate hours. 4 graduate hours.

IS 445  Information Books and Resources for Youth  credit: 2 to 4 Hours.  
Evaluation, selection and use of information books and other resources for young people (ages 0-18) in public libraries and school media centers; explores standard selection criteria for factual print and nonprint materials in all formats and develops the ability to evaluate and promote nonfiction books and resources according to their various uses (personal and curricular) and according to young people's various needs (intellectual, emotional, social and physical). 3 undergraduate hours. 2 or 4 graduate hours.

IS 446  Fantasy Literature and Media for Youth  credit: 2 to 4 Hours.  
The selection and evaluation of historical and contemporary fantasy literature and media for library collections aimed at children and young adults. Texts examined will include books, movies, and games. 3 undergraduate hours. 2 or 4 graduate hours.
IS 451 Introduction to Network Information Systems credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/451](https://courses.illinois.edu/schedule/terms/IS/451))

Hands-on introduction to technology systems for use in information environments. The course steps students through choosing, installing, and managing computer hardware and operating systems, as well as networking hardware and software. The course also explores alternatives for administering IT and how to assess emerging technologies and their applicability to library settings. While students are expected to have basic computer competencies per the School of Information Sciences admissions requirements, the goal of the course is to provide practical detailed knowledge of the technology for all levels of competency. The primary objective is to provide a conceptual understanding of the topics of the day through concrete hands-on examples of implementation. By learning the underlying concepts, students will be better prepared to help design networked systems that not only work well today, but also develop systems that can be easily adapted for the needs and technologies of tomorrow. Additional fees may apply. See Class Schedule. 4 undergraduate hours. 4 graduate hours.

IS 452 Foundations of Information Processing credit: 2 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/452](https://courses.illinois.edu/schedule/terms/IS/452))

Covers common data, document processing, and programming constructs and concepts. Focuses on problem solving and abstraction with a programming language. By the end of the course students will be able to design, develop and test a moderately complex computer program to manage full text, bibliographic records or multimedia. The course prepares students for working with applications in data analytics, data science, digital libraries, text mining and knowledge management. No prior programming background is assumed. 4 undergraduate hours. 2 or 4 graduate hours.

IS 453 Systems Analysis and Management credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/453](https://courses.illinois.edu/schedule/terms/IS/453))

Covers how to evaluate, select and manage information systems that will be used in the daily operation of libraries and information centers. Includes the systems used by technical staff and the information consumers. Course will focus on information as a product. Attention is given to the operation of an organization as a whole and the impact of change on the integration of resources, work flow and usability. Formal methods for modeling systems, and industry practice techniques of analysis are used to address these problems and opportunities. 3 undergraduate hours. 4 graduate hours.

IS 456 Information Storage and Retrieval credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/456](https://courses.illinois.edu/schedule/terms/IS/456))

Introduces problems of document representation, information need specification, and query processing. Describes the theories, models, and current research aimed at solving those problems. Primary focus is on bibliographic, text, and multimedia records. 3 undergraduate hours. 4 graduate hours.

IS 457 Introduction to Data Science credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/457](https://courses.illinois.edu/schedule/terms/IS/457))

This course introduces students to data science approaches that have emerged from recent advances in programming and computing technology. They will learn to collect and use data from a variety of sources, including the web, in a modern statistical inference and visualization paradigm. The course will be based in the programming language R, but will also use HTML, regular expressions, basic unix tools, XML, and SQL. Supervised and unsupervised statistical learning techniques made possible by recent advances in computing power will also be covered. 4 undergraduate hours. 4 graduate hours.

IS 458 Instructional Strategies and Techniques for Information Professionals credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/458](https://courses.illinois.edu/schedule/terms/IS/458))

Provides an introduction to learning theories and instructional methods used in a variety of information settings, including libraries, archives, museums, online, and educational environments. Includes an overview of theoretical and applied research and discusses relevant issues and concepts. Students will have an opportunity to design and present an instructional program. 3 undergraduate hours. 2 or 4 graduate hours.

IS 461 Museum Informatics credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/461](https://courses.illinois.edu/schedule/terms/IS/461))

The course examines various ways that information technologies are and might be used in museums and other cultural heritage settings. Museum websites, visitor apps, interactive exhibits, and uses of digitized and federated collections are explored. Students gain an introduction to Design Thinking by working on a final project that involves the development of a novel computational resource. Students are encouraged to approach class topics from their individual backgrounds in the humanities, sciences, or social sciences. 4 undergraduate hours. 4 graduate hours. Prerequisite: Junior or senior standing and consent of instructor for undergraduates; consent of instructor for non-iSchool graduate students for on-campus sections.

IS 462 Information Assurance credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/462](https://courses.illinois.edu/schedule/terms/IS/462))

The course provides an introduction to the concepts, technologies, practices and challenges of Information Assurance. It takes a broad view of Information Security and Privacy and covers the essential principles for the protection of information systems; the relevant technologies; organizational concerns; policies, human aspects; legal approaches; criminology; and ethical issues. Students will gain an appreciation for the difficulty of designing, developing, deploying and maintaining information systems, services and software products that are secure and comply with expectations of security and privacy. 3 undergraduate hours. 4 graduate hours.

IS 482 Writing Technologies credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/482](https://courses.illinois.edu/schedule/terms/IS/482))

Same as ENGL 482. See ENGL 482.

IS 483 Ugrad Bioinformatics Seminar credit: 0 to 2 Hours. ([https://courses.illinois.edu/schedule/terms/IS/483](https://courses.illinois.edu/schedule/terms/IS/483))

Same as CPSC 491 and INFO 491. See INFO 491.

IS 490 Advanced Topics in Information Studies credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/IS/490](https://courses.illinois.edu/schedule/terms/IS/490))

Directed and supervised investigation of selected topics in information studies that may include among others the social, political, and historical contexts of information creation and dissemination; computers and culture; information policy; community information systems; production, retrieval and evaluation of knowledge; computer-mediated communication. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated. Prerequisite: For undergraduates, junior standing and IS 202, or consent of instructor.
IS 501 Information Organization and Access credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/501)
Emphasizes information organization and access in settings and systems of different kinds. Traces the information transfer process from the generation of knowledge through its storage and use in both print and non-print formats. Consideration will be given to the creation of information systems: the principles and practice of selection and preservation, methods of organizing information for retrieval and display, the operation of organizations that provide information services, and the information service needs of various user communities. 4 graduate hours. No professional credit. Required M.S. in library and information science degree core course.

IS 502 Libraries, Information and Society credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/502)
Explores major issues in the library and information science professions as they involve their communities of users and sponsors. Analyzes specific situations that reflect the professional agenda of these fields, including intellectual freedom, community service, professional ethics, social responsibilities, intellectual property, literacy, historical and international models, the socio-cultural role of libraries and information agencies and professionalism in general, focusing in particular on the interrelationships among these issues. 2 or 4 graduate hours. No professional credit. Prerequisite: Required M.S. in library and information science degree core course.

IS 503 Use and Users of Information credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/503)
Explores information needs and uses at a general level, addressing formal and informal information channels, barriers to information, issues of value, and impacts of technology. Examines information seeking practices of particular communities and within various environments, introducing recent approaches to user-centered system design and digital library development. Provides an overview of methods that can be used to study information needs, information seeking behavior, and related phenomena. 4 graduate hours. No professional credit. Prerequisite: IS 501.

IS 504 Reference and Information Services credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/504)
Explores reference and information services in a variety of settings, introduces widely used print and online sources, and develops question negotiation skills and search strategies. 4 graduate hours. No professional credit.

IS 505 Administration & Management of Libraries and Information Centers credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/505)
Designed to explore the principles that govern how organizations and institutions work, this course provides a foundation for and introduction to the theories, practices and procedures involved in the management and administration of libraries and information centers. 4 graduate hours. No professional credit.

IS 506 Youth Services Librarianship credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/506)
Theory and techniques in planning, implementing and evaluating library programs/services for youth (age 0-18) in public and school libraries/media centers; the knowledge base, skills, and competencies needed by the library media professional in the development of all aspects of young people's reading/viewing/listening and information literacy skills. 4 graduate hours. No professional credit.

IS 507 Introduction to Bibliographic Metadata credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/507)
Introduction to basic principles and concepts of descriptive and subject cataloging in the context of information service needs for various user communities. Explores principles, structures, standards, technologies and practices relating to organizing and creating access to print and non-print media. Includes coverage of subject analysis and descriptive practices. Introduces controlled vocabularies. 4 graduate hours. No professional credit. Prerequisite: IS 501, or concurrent enrollment in IS 501 and IS 507.

IS 508 Collection Development credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/508)
Examines issues affecting the development and management of collections for academic, public, special, and school libraries: collection development policies, collection assessment, the marketplace, publishing, legal issues, and budget allocation; document delivery; collaboration and cooperation. 4 graduate hours. No professional credit. Prerequisite: IS 501, or concurrent enrollment in IS 501 and IS 508.

IS 510 Adult Public Services credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/510)
The literature, history, and problems of providing library service to the general adult user; investigation of user characteristics and needs, and the effectiveness of various types of adult services. 4 graduate hours. No professional credit.

IS 511 Bibliography credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/511)
Covers enumerative bibliography, the practices of compiling lists; analytical bibliography, the design, production, and handling of books as physical objects; and historical bibliography, the history of books and other library materials, from the invention of printing to the present. 2 or 4 graduate hours. No professional credit. Prerequisite: Consent of instructor.

IS 512 History of Libraries credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/512)
The origins, development, and evolution of libraries and related institutions, from antiquity to the twentieth century, as a reflection of literacy, recognition of archival responsibility, humanitarian achievement, scientific information needs, and service to society. Same as MDIA 512. 2 or 4 graduate hours. No professional credit.

IS 514 History of Children's Lit credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/514)
Interpretation of children's literature from the earliest times, including the impact of changing social and cultural patterns on books for children; attention to early printers and publishers of children's books and to magazines for children. 2 or 4 graduate hours. No professional credit.

IS 515 Media Literacy for Youth credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/515)
Provides students with theoretical knowledge and practical methods useful to librarians and other professionals working with young people and media. Building on traditional understandings of literacy, media literacy explores the consumption and production of diverse types of texts including print, images, games, and music. Topics for this course may include the role of race in media, media literacy as a catalyst for social change, and intellectual property issues related to media education. 2 or 4 graduate hours. No professional credit.
IS 516  School Library Media Center  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/516)
School Library Information Specialists serve children and young adults (ages 5-18) in K-12 school library media centers. Students will acquire specific knowledge, skills and competencies needed to design, develop, integrate and assess curriculum and instruction with an emphasis on the information needs of K-12 students. Readings and projects provide students with opportunities to apply the practical knowledge and skills they have learned about building reading literacy, teaching information literacy skills, collaborating with teachers and integrating resources into teaching and learning. 2 or 4 graduate hours. No professional credit.

IS 518  Community Informatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/518)
Survey of an emerging field that studies how local, historical communities use information and communication technologies or otherwise access, create, organize, and share information. Covers key principles for working in libraries or the wider non-profit/public sectors as individuals, organizations, and communities harness new technologies and media. Prepares both professionals and researchers, whatever their technology background. Especially useful for those interested in public or community libraries, youth services, university public engagement, social work, education, and anyone interested in working with or studying underserved communities. 4 graduate hours. No professional credit.

IS 519  Soc Sc Research in LIS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/519)
Introduces students to the fundamentals of doing social science research in LIS. Students will learn how to frame a research problem, choose an appropriate research method, apply it, and write up the research for presentation and publication. 4 graduate hours. No professional credit.

IS 522  Information Sources and Services in the Sciences  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/522)
Overview of the information needs and practices of researchers, practitioners, and the general public. Detailed consideration of disciplinary literatures and print and electronic reference materials. Advanced training in addressing reference questions and research problems in the sciences. 2 or 4 graduate hours. No professional credit. Prerequisite: IS 504 or consent of instructor.

IS 523  Information Sources and Services in the Social Sciences  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/523)
Overview of the information needs and practices of researchers, practitioners, and the general public. Detailed consideration of disciplinary literatures and print and electronic reference materials. Advanced training in addressing reference questions and research problems in the social sciences. 2 or 4 graduate hours. No professional credit. Prerequisite: IS 504 or consent of instructor.

IS 524  Information Sources and Services in the Arts and Humanities  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/524)
Overview of the information needs and practices of researchers, practitioners, and the general public. Detailed consideration of disciplinary literatures and print and electronic reference materials. Advanced training in addressing reference questions and research problems in the arts and humanities. 2 or 4 graduate hours. No professional credit. Prerequisite: IS 504 or consent of instructor.

IS 525  Government Information  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/525)
Aims to acquaint students with government publications, their variety, interest, value, acquisition, and bibliographic control, and to develop proficiency in their reference and research use; considers publications of all types and all governments (local, national, international) with special emphasis on U. S., state and federal governments, and on the United Nations and its related specialized agencies. 4 graduate hours. No professional credit. Prerequisite: IS 504 or consent of instructor.

IS 526  Searching Online Information Systems  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/526)
Explores the state-of-the-art in online information retrieval systems, with particular emphasis on their use as part of reference service in libraries; acquaints students with the characteristics of both bibliographic and nonbibliographic databases; and trains students in the use of at least one currently available online retrieval system. 2 or 4 graduate hours. No professional credit. Prerequisite: IS 504 or consent of instructor.

IS 527  Literacy, Reading, and Readers  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/527)
Reading and literacy play a central role in all areas of LIS, as well as in education, communication, literature, and writing studies. This course considers reading as a physical, social, and educational activity that is historically and culturally situated. It provides a multidisciplinary investigation into different forms of literacy and how people acquire them. Drawing upon scholarship in LIS, education, literature, history, sociology, psychology, and anthropology, and with special consideration given to age, gender, class, religion, and culture, we will expand upon traditional notions of literacy and explore the range of scholarly approaches to the study of literacy, reading, and readers. For assignments, students choose between an experiential track, which offers practical experience through volunteer work in a literacy tutoring position, or a scholarship track, which features a research project without a volunteer component. All students have the same weekly readings and share knowledge gained from their volunteer placement and research. 4 graduate hours. No professional credit.

IS 528  Adult Popular Literature  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/528)
A survey of genre fiction, readers’ advisory services, the promotion of fiction, narrative nonfiction & media collections in libraries, the social effects of reading, and publishing as a business. Course objectives include: understanding why adults read for pleasure; gaining familiarity with popular fiction genres and their authors; understanding principles and tools of readers’ advisory services; examining the issues of popular fiction publishing including the impact of technology in creating new formats; and the process of acquisition, maintenance, and marketing of popular fiction in libraries. 2 or 4 graduate hours. No professional credit.

IS 530  Information Needs of Particular Communities  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/530)
Special topics sections for in-depth study of the characteristics and information needs of specialist users of libraries; goals and objectives, policies, and services; reference and bibliographical aids; and effective services that satisfy these special needs. 2 or 4 graduate hours. No professional credit. May be repeated. Prerequisite: IS 504 or consent of instructor.
IS 531 Foundations of Data Curation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/531)
Data curation is the active and on-going management of data through its lifecycle of interest and usefulness to scholarship, science, and education; curation activities and policies enable data discovery and retrieval, maintain data quality and add value, and provide for re-use over time. This course provides an overview of a broad range of theoretical and practical problems in the emerging field, examining issues related to appraisal and selection, long-lived data collections, research lifecycles, workflows, metadata, and legal and intellectual property issues. 4 graduate hours. No professional credit.

IS 532 Theory & Practice of Data Cleaning  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/532)
Data cleaning (also: cleansing) is the process of assessing and improving data quality for later analysis and use, and is a crucial part of data curation and analysis. This course identifies data quality issues throughout the data lifecycle, and reviews specific techniques and approaches for checking and improving data quality. Techniques are drawn primarily from the database community, using schema-level and instance-level information, and from different scientific communities, which are developing practical tools for data pre-processing and cleaning. Same as CS 513. 4 graduate hours. No professional credit.

IS 534 Data Policy Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/534)
This course will survey recent policy changes and the literature regarding scientific data, including archiving, repositories, legal encumbrances and access, the lifecycle of data, and strategies for reporting data 4 graduate hours. No professional credit.

IS 537 Race, Gender, and Sexuality in the Information Professions  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/537)
This course examines how issues of race, gender and sexuality are represented in information professions and will study how they affect, and are affected by, information technologies. Socially constructed (mis)representations (or lack of representations) of race, gender and sexual identity will be critically examined in different settings as they intersect, overlap, and impact the information use, technology practices, and the design of information resources and services in the library and information science and related fields. 2 graduate hours. No professional credit. Prerequisite: Restricted to LIS graduate students.

IS 538 Competitive Intelligence & Knowledge Management  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/538)
This course examines two of the most popular practices of business research: Competitive Intelligence (CI) & Knowledge Management (KM). This course provides theoretical foundations and conceptual framework of CI & KM, as students acquire skills in translating research data into actionable intelligence and managing organizations’ intellectual capital systematically. This course will introduce concepts of strategic analyses of businesses, and students will also explore key KM technologies widely used in the industry. 4 graduate hours. No professional credit.

IS 539 Information Consulting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/539)
This course is designed to provide fundamental knowledge in providing research services and also introduce the latest trends and innovative approaches in research services. Information professionals are increasingly being challenged to provide not just data but insights and recommendations that are critical for strategic decision making. Using methodologies widely adopted by professional firms and researchers, this course will cover basics of research consulting including framing research problems, developing deliverables, and presenting professionally. 4 graduate hours. No professional credit.

IS 540 Applied Business Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/540)
As an experiential learning class, this course covers advanced techniques of business research with an emphasis on managing real-world client projects. Students will be assigned to teams and work with clients to identify research requirements and construct recommendations. Students will acquire critical skills in creating professional deliverables through client engagements. Students will build professional research portfolios at the conclusion of their projects. 4 graduate hours. No professional credit. May be repeated in separate terms up to 8 hours if topics vary. Prerequisite: Instructor approval required.

IS 542 Data, Statistical Models and Information  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/542)
An introduction to statistical and probabilistic models as they pertain to quantifying information, assessing information quality, and principled application of information to decision making, with focus on model selection and gauging model quality. The course reviews relevant results from probability theory, parametric and non-parametric predictive models, as well as extensions of these models for unsupervised learning. Applications of statistical and probabilistic models to tasks in information management (e.g. prediction, ranking, and data reduction) are emphasized. 4 graduate hours. No professional credit. Prerequisite: Graduate standing.

IS 543 Sociotechnical Information Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/543)
The character, success, and costs/benefits of information technologies are socio-technical matters. Because of this, best practice for IT design and integration relies on participants’ ability to understand and create for the totality of those settings, including social and technical dimensions. This course provides students with analytic tools for examining socio-technical settings and experience in applying that knowledge in IT modeling, design and management. 4 graduate hours. No professional credit.

IS 544 Library Cooperation & Networks  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/544)
Development of library systems, with special reference to public libraries as a norm for the development of library services; detailed treatment of library standards, the growth and development of county and regional libraries, and the role of the state library and of federal legislation. 4 graduate hours. No professional credit. Prerequisite: IS 505 or consent of instructor.

IS 545 Social Justice in the Information Professions  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/545)
This course is intended to provide a historic and contemporary overview of social justice and advocacy work in librarianship. The course will be primarily focused on activities in the United States, though international movements and perspectives will be addressed. Topics include: desegregation of libraries and professional associations; recruitment and retention of library workers from traditionally underrepresented populations; library outreach; intellectual freedom; and emerging critical theories and issues in the field. 2 graduate hours. No professional credit. Prerequisite: Graduate student.
IS 546  Intellectual Freedom and Censorship  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/546)
Examines intellectual freedom issues throughout the United States and the world. Approaches intellectual freedom as an ethical issue based in interpretations of the First Amendment and the United Nations Declaration of Human Rights. The course encourages information professionals to view commitment to intellectual freedom as a core professional value and gives students the opportunity to develop skills and strategies needed to navigate censorship controversies in the workplace. 2 graduate hours. No professional credit. Prerequisite: IS 502 or consent of instructor.

IS 547  Information Services for Diverse Populations  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/547)
This course is designed to prepare future information professionals to develop and provide inclusive services to underrepresented populations, and to analyze and evaluate services to ensure equality of access to information in a range of institutional settings. Through readings, discussion, guest lectures, and site visits, students will explore diversity issues that impact information services and develop skills for planning, implementing, and evaluating programs and services for addressing these issues. Specific diversity issues include race and ethnicity; education; language; literacy; disability; gender and sexual orientation; social class; national origin; physical, psychological, and learning ability; and age. 2 or 4 graduate hours. No professional credit.

IS 548  Library Buildings  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/548)
Studies the library's physical plant in the light of changing concepts and patterns of library service; analyzes present-day library buildings (both new and remodeled), and their comparison with each other as well as with buildings of the past; examines the interrelationship of staff, collections, users, and physical plant; discussion supplemented by visits to new libraries and conference with their staffs. A two-day field trip is required. Additional fees may apply. See Class Schedule. 2 or 4 graduate hours. No professional credit.

IS 549  Economics of Information  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/549)
The various definitions of information in economic and social terms as discussed in library and information science as well as other literatures are related to government public policies and social policies. Issues such as information as a commodity and as a public good are explored. The impact of the economics of information and related public policies on libraries and information centers is discussed from a national and international perspective. 4 graduate hours. No professional credit.

IS 555  Usability Engineering  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/555)
The course provides an introduction to: issues in Human Computer Interaction; analysis of interfaces and their use; the interface design process as an engineering activity; designing usable interfaces under constraints; and the rapid prototyping and evaluation cycle. The course covers interface design in multiple contexts including websites, web-based applications, smartphone apps, regular computer apps and new contexts of interacting with computers. Elective course for the CAS in Digital Libraries concentration. 4 graduate hours. No professional credit.

IS 556  Implementation of Information Storage and Retrieval Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/556)
Engages the design, deployment and evaluation of information retrieval systems in a variety of environments. Emphasis is twofold. First, students will study advance methods of query and document representation and related formalisms for performing retrieval. Second, students will work with a variety of data sets and several open-source information retrieval and information analysis software suites. The course is intended to extend students' understanding of state-of-the art search and retrieval methods. 4 graduate hours. No professional credit. Prerequisite: IS 452 (either the 2 credit hours or the 4 credit hours are acceptable) and IS 456.

IS 559  Network Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/559)
Network Analysis has become a widely adopted method for studying the interactions between social agents, information and infrastructures. The strong demand for expertise in network analysis has been fueled by the widespread acknowledgement that everything is connected and the popularity of social networking services. This interdisciplinary course introduces students to fundamental theories, concepts, methods and applications of network analysis in a practical manner. Students learn and practice hands-on skills in collecting, analyzing and visualizing network data. 4 graduate hours. No professional credit.

IS 560  Digital Libraries  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/560)
A comprehensive examination of the history and state-of-the-art in digital library research and practice. Focuses upon the theoretical, technological, human factors and evaluative components of digital library research and practice. Course includes an intensive reading of the literature, review of existing technologies and proof-of-concepts implementation projects. Students should have access to a personal computer on which they can experiment on their own with downloaded software tools. Students must be competent in basic computing including the installation and configuration of software packages. 4 graduate hours. No professional credit. Prerequisite: IS 501 or consent of instructor; previous or concurrent enrollment in IS 452 (either the 2 credit hours or the 4 credit hours of IS 452 are acceptable), or proof of competency in programming.

IS 561  Information Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/561)
An introduction to the foundations of information modeling methods used in current digital library applications. The specific methods considered include relational database design, conceptual modeling, markup systems, and ontologies. The basic concepts underlying these methods are, respectively, relations, entities, grammars, and logic. Implementations include relational database design, ER/EER/ UML diagrams, XML markup languages, and RDF/OWL semantic web languages. First order logic is emphasized throughout as the foundational framework for information modeling in general, and for contemporary web-based information management and delivery systems (including semantic web technologies) in particular. 4 graduate hours. No professional credit.
IS 562 **Metadata in Theory & Practice** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/562)
Combines theoretical examination of the design of metadata schema with their practical application in a variety of settings. Hands-on experience in the creation of descriptive, administrative, and structural metadata, along with their application in systems such as OAI harvesting, OpenURL resolution systems, metasearch systems and digital repositories, will help students develop a thorough understanding of current metadata standards as well as such issues as crosswalking, metadata schema, metadata's use in information retrieval and data management applications, and the role of standards bodies in metadata schema development. 4 graduate hours. No professional credit. Prerequisite: IS 501 or consent of instructor.

IS 567 **Academic Librarianship** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/567)
Introduces the higher education environment in which academic librarians and other information professionals operate in order to prepare students for leadership roles both within academic libraries and in their parent institutions. This course explores academic librarianship through a variety of lenses including: history and organization of higher education; accreditation; characteristics of students; roles of faculty and other campus professionals; and current issues and challenges. 4 graduate hours. No professional credit.

IS 568 **Theological Librarianship** credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/568)
Provides an overview of the contexts, materials, services, and issues characterizing theological librarianship. Students interact with a number of librarians currently working in the field. 2 or 4 graduate hours. No professional credit.

IS 569 **Financial Management** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/569)
Designed to familiarize the student with the basic principles of library financial administration, including budgeting and planning within the mission and goals of the organization. Provides an orientation to the variety of financial management techniques appropriate for libraries and information centers, with an emphasis on sources for obtaining financial support, controlling expenditures, creating and controlling budgets, financial decision making and exploring specific financial and budgetary problems for the major operational areas of libraries - public services, technical services, information technology and facilities. 4 graduate hours. No professional credit.

IS 571 **History of the Book** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/571)
Explores the role of the book in the production and transmission of knowledge through time. Major themes include the design, materiality, and performance of reading and writing technologies. Particular attention will be paid to the graphic representation and visualization of information across media. Students will examine different approaches to the study of books and documents, including those of palaeography, diplomatics, bibliography, art history, musicology, textual criticism, digital humanities, and new media studies. 4 graduate hours. No professional credit.

IS 572 **Medieval Manuscripts and Early Modern Books** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/572)
This course explores a wide variety of medieval manuscripts from their creation in the Middle Ages to today and considers the following topics: production of manuscripts, use of books and their cultural significance, patronage and demand for books, translations, literacy, book collecting, libraries and reproduction in the modern age. The course will include visits to the Rare Book and Manuscript Library and hands-on experience with manuscripts. 2 graduate hours. No professional credit.

IS 577 **Advanced Bibliographic Metadata** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/577)
Seminar on theoretical and applied approaches to cataloging, including the creation and management of complex descriptive and subject metadata. Topics include current developments in conceptual models for bibliographic materials; information processing and mapping; socio-cultural and critical warrant; and ethical foundations of information organization. Students will engage critically with principles and practices in the application of bibliographic standards in a variety of contexts. 4 graduate hours. No professional credit. Prerequisite: IS 507 or consent of instructor.

IS 578 **Technical Services Functions** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/578)
Seminar on the principles, problems, trends, and issues of acquiring, identifying, recording, and conserving/preserving materials in all types of libraries and information centers; includes the special problems of serials management; emphasizes service aspects. 4 graduate hours. No professional credit.

IS 580 **Rare Book and Special Collections Librarianship** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/580)
Designed as a practical introduction to Rare Book and Special Collections Librarianship, to cover for the neophyte as well as the experienced librarian the many issues of these departments’ responsibilities, including selection, acquisition, receiving, cataloging, processing, shelving, circulation, inter-library loan, reference, preservation and conservation, security, exhibition, publication, and so forth, including the uses of information technology. 2 graduate hours. No professional credit.

IS 581 **Administration and Use of Archival Materials** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/581)
Administration of archives and manuscript collections in various types of institutions. Theoretical principles and archival practices of appraisal, acquisition, accessioning, arrangement, description, preservation, and reference services. Topics will include: records management programs, collecting archives programs/special collections, legal and ethical issues, public programming and advocacy, and the impact of new information technologies for preservation and access. Lectures, discussion, internet demonstration, and field trips to the Special Collections Department and University Archives. 4 graduate hours. No professional credit.

IS 582 **Preserving Info Resources** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/582)
Covers the broad range of library preservation and conservation for book and nonbook materials relating these efforts to the total library environment; emphasizes how the preservation of collections affects collection management and development, technical services, access to materials and service to users. 4 graduate hours. No professional credit.

IS 583 **Grad Bioinformatics Seminar** credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/583)
Same as ANSC 591, CPSC 591 and INFO 591. See INFO 591.

IS 584 **Archival Arrangement and Description** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/584)
Provides seminar discussions and a hands-on processing experience that applies current theories and practices utilized to solve the most common problems that are encountered by today’s archivists and curators when arranging and describing historical records, archives, manuscripts, and artifacts. Issues of intellectual and physical arrangement, description, and access are addressed. 2 graduate hours. No professional credit.
IS 585  International Librarianship  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/585)
Focuses on international librarianship (how librarians communicate on international issues) and how that differs from comparative librarianship (the comparative study of library services in specific contexts). Examines how concepts such as "one-world" and "free flow of information" are valid in the international information arena; the importance of internationalizing library education; the role of international information agencies and the need for formulating information policies. Local and regional issues relating to library and information science are studied in the context of global issues. 4 graduate hours. No professional credit.

IS 586  Digital Preservation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/586)
Examines current problems with and approaches to digital preservation that are fundamental to the long-term accessibility of digital materials. Examines the range of current research problems, along with emerging methods and tools, and assesses a variety of organizational scenarios to plan and implement a preservation plan. Topics include basic information theory, preservation of complex digital objects; standards and specifications; sustainability and risk assessment; authenticity, integrity, quality control, and certification; and management of preservation activities. 4 graduate hours. No professional credit.

IS 587  History and Foundations of Library and Information Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/587)
This required course for all first-semester library and information science (LIS) doctoral students introduces students to the historical foundations of LIS. Examinations of the interactions of socio-cultural, technological and professional factors underlying the emergence of LIS provide a basis for exploring more recent developments in theory and practice. 4 graduate hours. No professional credit. Prerequisite: LIS doctoral student in their first semester.

IS 588  Research Design in Library and Information Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/588)
Provides an introduction to the design of LIS research, beginning with an in-depth consideration of the philosophical and logical underpinnings of research. A brief survey of different methods used in LIS research is followed by an exploration of research design issues through comparative hands-on exercises. Throughout the course, the emphasis will be on research design choices, especially the connections between research questions and research methods. Required Ph.D. course. 4 graduate hours. No professional credit.

IS 590  Advanced Problems in Information Sciences  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/590)
Variety of newly developed and special topics courses on different aspects of the information sciences intended to augment the existing curriculum, offered as sections of IS 590. Additional fees may apply. See Class Schedule. 1 to 4 graduate hours. No professional credit. May be repeated.

IS 591  Practicum  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IS/591)
Supervised field experience of professional-level duties in an approved library or information center. 2 graduate hours. No professional credit. Approved for S/U grading only. A maximum of 2 hours may be applied toward a degree program. Prerequisite: Completion of 12 graduate hours of information sciences courses; submission of Practicum forms.

IS 592  Independent Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/IS/592)
Permits the intermediate or advanced student opportunity to undertake the study of a topic not otherwise offered in the curriculum or to pursue a topic beyond or in greater depth than is possible within the context of a regular course. 2 to 4 graduate hours. No professional credit. May be repeated by MS students to a maximum of 4 graduate hours. May be repeated by CAS students to a maximum of 8 graduate hours. May be repeated by PhD students to a maximum of 16 graduate hours. Prerequisite: Submission of "Request to Enroll in IS 592" form.

IS 593  CAS Project  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/IS/593)
Individual study of a problem in library and information science; forms the culmination of the Certificate of Advanced Study program. 0 to 8 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. Only eight hours will apply to the Certificate of Advanced Study. Prerequisite: Admission to Certificate of Advanced Study program in library and information science; submission of "Request to Enroll in IS 593 - CAS Project" form.

IS 594  Information Sciences Practice  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/IS/594)
Full-time or part-time practice of of any information sciences in an off-campus information science environment. 0 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. Prerequisite: IS students only.

IS 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/IS/599)
Individual study and research. 0 to 16 graduate hours. No professional credit. Approved for S/U grading only. May be repeated. M.S. candidates, 0 to 8 hours. Doctoral candidates, 0 to 16 hours. Prerequisite: MS students must submit a "Request to Enroll in IS 599 - Master's Thesis" form.

Integrative Biology (IB)

IB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/IB)

Courses

IB 100  Biology in Today's World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/100)
Introduction to biology for the non-major. In-depth focus on three contemporary problems-maintaining a livable environment, issues of human health, and evolution. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 103  Introduction to Plant Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/103)
Basic principles of growth and form, physiology, genetics, evolution, and ecology in plant biology. Lecture and laboratory. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 104  Animal Biology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/104)
Introductory zoological concepts with emphasis on the diversity and comparative anatomy of animals and the fundamentals of physiology, genetics, evolution, and behavior. Lecture and laboratory. The laboratory includes vertebrate dissection.
IB 105  Environmental Biology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/105](https://courses.illinois.edu/schedule/terms/IB/105))
Introduction to ecological principles in relation to understanding environmental problems; lecture and discussion emphasize impacts upon ecosystems by human activities such as air and water pollution, usage of pesticides and pest control measures, expansion of agriculture in tropics and arid regions, harvesting the oceans, and development of energy sources.
This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 108  The Biology of Dinosaurs  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/108](https://courses.illinois.edu/schedule/terms/IB/108))
The origin, diversity, and extinction of dinosaurs will serve as a conceptual framework to explore fundamental principles of biology. We will consider dinosaurs as animals, examining evidence for their physiology and behavior, and how evolution and speciation produced the diversity of dinosaurs. We will relate the influence of Earth’s changing environments on dinosaurs to environmental change on human timescales. We will emphasize how scientists collect and evaluate fossil data through an understanding of living organisms.
This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 150  Organismal & Evolutionary Biol  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/150](https://courses.illinois.edu/schedule/terms/IB/150))
Introduction to physiology, genetics, and evolution of organisms, and their ecology and diversity.
This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 151  Organismal & Evol Biol Lab  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/IB/151](https://courses.illinois.edu/schedule/terms/IB/151))
Topics follow lecture topics in IB 150 and include labs in ecology, plant and animal function, and genetics and evolution. Designed for non-majors needing a year of biology with lab. Credit is not given for IB 151 for Integrative Biology or Molecular and Cellular Biology majors. Prerequisite: Credit or concurrent registration in IB 150.

IB 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/IB/199](https://courses.illinois.edu/schedule/terms/IB/199))
Approved for both letter and S/U grading. May be repeated to a maximum of 5 hours.

IB 202  Physiology  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/202](https://courses.illinois.edu/schedule/terms/IB/202))
How animals function in acquiring, processing, and allocating resources in the face of environmental constraints. The inquiry-based laboratory emphasizes testing of hypotheses related to functioning of physiological components of the basic systems of animals. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. The laboratory includes vertebrate dissection. Prerequisite: IB 150 and MCB 150.

IB 203  Ecology  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/203](https://courses.illinois.edu/schedule/terms/IB/203))
The links between evolution and ecology, population dynamics, community structure and function, and ecosystem function on local and global scales. Basic ecology needed to understand environmental problems and to conserve biodiversity. Investigations in both field and laboratory included. Prerequisite: IB 150 and MCB 150.
This course satisfies the General Education Criteria for: Advanced Composition

IB 204  Genetics  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/204](https://courses.illinois.edu/schedule/terms/IB/204))
The fundamentals of inheritance, with an emphasis on eukaryotes. Major topics include transmission genetics, quantitative genetics, cytogenetics, genomics, genetics of development and behavior, and population genetics. Laboratory emphasizes an experimental, inquiry-based approach to modern and classical genetics. Lecture only, 3 hours; with laboratory, 4 hours. Students must complete the laboratory portion of the course to receive 4 hours of credit. Prerequisite: IB 150 and MCB 150.

IB 220  Applied Entomology  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/IB/220](https://courses.illinois.edu/schedule/terms/IB/220))
Same as CPSC 270 and NRES 270. See CPSC 270.
This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

IB 270  Evolution of Molecules & Cells  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/IB/270](https://courses.illinois.edu/schedule/terms/IB/270))
The major evolutionary transitions of biomolecules and cells including: energy acquisition and metabolism; information inheritance, system regulation, and genomes; the origin of life and of the prokaryotic cell, eukaryotic cell, and multicellularity. Lecture and laboratory. Credit is not given for both IB 270 and either MCB 250 or MCB 252. Prerequisite: Admission to the IB honors biology option; credit or concurrent registration in organic chemistry.

IB 271  Organismal Biology  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/IB/271](https://courses.illinois.edu/schedule/terms/IB/271))
Integrated study of the diversity and structure and function of plants and animals in evolutionary and environmental contexts. Conceptual themes and techniques of molecular and cellular levels of biological organization will be integrated as well. Lecture and laboratory. The laboratory includes vertebrate dissection. Credit is not given for both IB 271 and IB 202.
Prerequisite: IB 270; good standing in the honors biology option.
This course satisfies the General Education Criteria for: Advanced Composition

IB 292  Translating Your IB Degree Into Career Success  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/IB/292](https://courses.illinois.edu/schedule/terms/IB/292))
Explores what jobs and industries are available to Integrative Biology graduates, and what it takes to be successful on the job market. Experts will serve as resources, including biology alumni that have been in your shoes and are now professionals in a range of fields. The final project will be a real-life application of the course material, with every component meant to further your career goals. Approved for S/U grading only.
Prerequisite: For students pursuing IB-related careers.

IB 299  Undergraduate Special Course  credit: 0 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/IB/299](https://courses.illinois.edu/schedule/terms/IB/299))
Approved for letter and S/U grading. May be repeated in the same term; may be repeated in separate terms to a maximum of 6 hours.

IB 302  Evolution  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/IB/302](https://courses.illinois.edu/schedule/terms/IB/302))
Broad introduction to evolutionary biology, including natural selection and microevolution, phylogeny, speciation, molecular evolution, macroevolution and the fossil records. The laboratory emphasizes a survey of biodiversity and processes and patterns of evolution. Prerequisite: IB 204 or consent of instructor.
IB 303 Anatomy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/303)
An overview of the body structure of vertebrate animals, with a special focus on mammals including humans. Body structure will be investigated from evolutionary, developmental, and human health perspectives through lectures, in-class activities, and required laboratory dissections. Through this course, students will develop a better understanding of anatomy vocabulary, the anatomical design of vertebrates, vertebrate development, and how vertebrate anatomy and development are related to each other, to organismal function, and to human health. Prerequisite: IB 150.

IB 329 Animal Behavior credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/329)
Introductory course emphasizing how patterns of behavior promote survival, change through evolution, and are modified by the environment. Same as ANSC 366, ANTH 342, and PSYC 329.

IB 335 Systematics of Plants credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/335)
Introduces the principles and methods of the identification, naming, classification, systematics, and evolution of flowering plants; includes a survey of selected flowering plant families with information on their interrelationships. Prerequisite: One of the following: IB 100, IB 103, IB 150, or consent of instructor.

IB 348 Fish and Wildlife Ecology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/348)
Same as NRES 348. See NRES 348.

IB 360 Evolution and Human Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/360)
Our health is inseparably tied to our evolutionary history. As a result, evolution is an important underpinning discipline for health professionals. This course first provides an overview of evolutionary processes, molecular evolution, human evolution, life history theory, and evolutionary-developmental biology. Second, it illustrates the application of these principles to our understanding of nutrition and metabolism, reproduction, disease and stress, and behavior. Third, it shows in practical terms how the principles of evolutionary medicine can be applied in medical practice and public health. Same as ANTH 360. Prerequisite: IB 302 or MCB 250 or MCB 244, or consent of instructor.

IB 361 Ecology and Human Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/361)
Exploration of the emergence of infectious diseases and other human health issues from an ecological perspective, including vector-borne diseases, diseases spread from wildlife in terrestrial and aquatic ecosystems, and the role of pathogens and parasites in community and population ecology, food webs, and ecosystem functioning. Attention will be placed on how current and future global change and biodiversity loss will contribute to the increasing prevalence of human emerging diseases. Same as ANTH 361. Prerequisite: IB 302 or MCB 250 or MCB 244, or consent of instructor.

IB 362 Marine Biology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/362)
Study of the major marine environments on earth, the huge diversity of organisms that live in them, and the ecological and functional reasons why these organisms live where they do. Also examines the impacts of human and their activities upon the sustainability of marine resources. Designed for students with some background in biology and evolution and interest in marine biodiversity, ecology, and conservation.

IB 364 Genomics and Human Health credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/364)
Highlights advances in understanding the human genome, by utilizing the latest techniques in bioinformatics, i.e. acquiring, analyzing, storing, and displaying the information from the entire genome and protein sequences. The course describes the theory and practices behind modern sequencing techniques and explores the genome with a particular emphasis on the use of extensive online databases and software. Students will analyze one human disorder using bioinformatics software and databases in order to update older published literature about the genomics underpinning the disorder. Prerequisite: IB 204 or consent of instructor.

IB 368 Vertebrate Natural History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/368)
Introduction to the classification, life histories, adaptations, and ecology of fishes, amphibians, reptiles, birds, and mammals. Focus is on species of the Midwest region. Laboratory emphasizes identification and distribution of Illinois’ vertebrate fauna. Some Saturday field trips are required. Same as NRES 368. Prerequisite: IB 203 or NRES 219 or consent of instructor.

IB 372 Ecology and Evolution credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/372)
Integrated study of ecology, population genetics, and evolution. Conceptual themes and techniques from the molecular, cellular, and organismal levels of biology will be integrated as well. Lecture, laboratory, and field work. Credit is not given for both IB 372 and either IB 203 or IB 302. Prerequisite: IB 271; good standing in the IB honors biology option.

IB 390 Introductory Research credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/390)
Laboratory and/or field research and/or reading supervised by faculty members in the School of Integrative Biology. Approved for S/U grading only. May be repeated in separate terms up to 10 hours, if topics vary. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor.

IB 401 Introduction to Entomology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/401)
Integrated studies of the principal morphological, physiological, ecological and behavioral relationships among insects. Lecture and laboratory. 3 or 4 undergraduate hours. 3 or 4 graduate hours. An insect collection will be required for 4 hours credit. Prerequisite: IB 150; or consent of instructor.

IB 405 Ecological Genetics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/405)
Study of the genetics of natural populations, stressing empirical observations and experiments. Emphasis on recent theories of genotype/environmental interactions and their relationship to evolutionary processes. Offered in alternate years. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 204; or consent of instructor.
IB 411 Bioinspiration credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/411](https://courses.illinois.edu/schedule/terms/IB/411))

Focuses on how experts in biology and technological fields find inspiration in nature and use it as a model to make technological innovations and solve societal problems. In the future, our day-to-day living, health, and the environment will benefit from interdisciplinary teams using findings in basic biological research for technological innovation. Topics to be explored include human health, efficient architecture, cooperative control, robotics, swarm logic, and advanced biological materials. 3 undergraduate hours. 3 graduate hours.

IB 416 Population Genetics credit: 3 or 4 Hours. ([courses.illinois.edu/schedule/terms/IB/416](https://courses.illinois.edu/schedule/terms/IB/416))

Same as ANSC 446. See ANSC 446.

IB 420 Plant Physiology credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/420](https://courses.illinois.edu/schedule/terms/IB/420))

General course concerned with plant functions, including water relations, mineral nutrition, metabolism, growth, and reproduction. Same as CPSC 484. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 103 or IB 150 and MCB 150; CHEM 232; or consent of instructor.

IB 421 Photosynthesis credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/421](https://courses.illinois.edu/schedule/terms/IB/421))

Comprehensive description of photosynthesis. Topics include: the photosynthetic membranes, light absorption, electron and proton transfer, photosynthesis, water oxidation, RUBP carboxylase/oxygenase, photosynthesis, whole plant photosynthesis, gas exchange and atmospheric interactions, and impacts of global environmental change. Same as BIOP 432 and CPSC 489. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 420, MCB 354, MCB 450, BIOP 401, or equivalent; or consent of instructor.

IB 426 Env and Evol Physl of Animals credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/426](https://courses.illinois.edu/schedule/terms/IB/426))

Physiological adaptations of invertebrate and vertebrate animals to diverse aquatic and terrestrial environments and the extreme habitats embodied therein. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 150, IB 202; CHEM 232; or consent of instructor.

IB 427 Insect Physiology credit: 4 Hours. ([courses.illinois.edu/schedule/terms/IB/427](https://courses.illinois.edu/schedule/terms/IB/427))

The principal physiological and biochemical functions of insects. Lecture and laboratory. Offered in alternate years. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 202 and IB 401; or consent of instructor.

IB 430 Animal Behavior Lab credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/430](https://courses.illinois.edu/schedule/terms/IB/430))

Inquiry-driven laboratory course in animal behavior. Students work in groups to generate hypotheses, design experiments, collect and analyze data, and write up their results. Experiments will be carried out in both the field and lab. Discussions emphasize the scientific process, including hypothesis testing, and experimental design and statistics. 3 undergraduate hours. No graduate credit. Prerequisite: IB 329. For majors only.

IB 431 Behavioral Ecology credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/431](https://courses.illinois.edu/schedule/terms/IB/431))

In-depth examination of areas of current interest at the interface of behavior, ecology, and evolution; focuses on communication, foraging, and social behavior. 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 329; or consent of instructor.

IB 432 Genes and Behavior credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/432](https://courses.illinois.edu/schedule/terms/IB/432))

Concepts, methods, and problems in the analysis of the relationship between genes and behavior, the complex neurobiological processes that mediate action on behavior, in appropriate ecological and evolutionary contexts. Same as ANTH 432, NEUR 432, and PSYC 432. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 and IB 204; or consent of instructor.

IB 434 Physical Principles in Biology credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/434](https://courses.illinois.edu/schedule/terms/IB/434))

Examines the interaction between biological processes and the fundamental laws of mechanics. Covers general topics, such as structural analyses of anatomy, kinematics of movement, the behavior of organisms in fluids, and the importance of scaling, as well as specific topics, such as bird flight, fluid flow in cardiovascular systems, and high speed predation. Lab culminates in student-designed, group projects to collect novel biomechanical data to answer questions about the organism of the students' choice. 3 undergraduate hours. No graduate credit. Prerequisite: IB 202 or consent of instructor; Physics 101 is recommended.

IB 435 Critical Evaluation of Herbal Remedies credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/435](https://courses.illinois.edu/schedule/terms/IB/435))

One-third of Americans use health care products derived from natural sources, particularly plants, but also animals, and fungi. This course examines the biological activity of natural products with respect to their ecological functions and their therapeutic uses. Principles of evidence-based medicine will be reviewed and students will evaluate natural remedies through lectures, in-class activities, discussions, and analyses of scientific papers. Overall, students develop skills useful for evaluating alternative remedies and for communicating their conclusions to the general public. 3 undergraduate hours. No graduate credit. Prerequisite: IB 202 or IB 203 or consent of instructor.

IB 439 Biogeography credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/439](https://courses.illinois.edu/schedule/terms/IB/439))

Spatial and temporal patterns of biological diversity and the factors that govern the distribution and abundance of taxa. This course addresses two of its subfields: historical biogeography - the origin, dispersal, and extinction of taxa and biotas; and ecological biogeography - the role physical and biotic environments have played in determining taxonomic distributions. Also explores the ecological, evolutionary, climatological, and paleontological foundations for the distribution of species and biological communities. Includes a review of many of the field's classical papers, the current synthesis of biogeographic theory, and the relevance of biogeography to modern conservation goals. Offered in alternate years. Same as ANTH 436, ESE 439, GEOG 436, and NRES 441. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 150 or other introductory biology course, or consent of instructor.

IB 440 Plants and Global Change credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/440](https://courses.illinois.edu/schedule/terms/IB/440))

Same as CPSC 431 and NRES 431. See CPSC 431.

IB 442 Evolution of Infectious Disease credit: 3 Hours. ([courses.illinois.edu/schedule/terms/IB/442](https://courses.illinois.edu/schedule/terms/IB/442))

Same as MCB 435. See MCB 435.
IB 443 Evolutionary Ecology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/443) Emphasizes the evolution of life-history strategies in plants and animals (reproductive rates, life cycles, sex ratios, breeding and mating systems) and the coevolution of animals and plants (pollination, dispersal, and herbivory). 3 undergraduate hours. 3 graduate hours. Offered in alternate years. Prerequisite: IB 203 or equivalent; IB 302; or consent of instructor.

IB 444 Insect Ecology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/444) Discussion of the practical and theoretical aspects of ecology in relation to insects as individuals, populations, and communities; emphasis on the role of insects in the environment. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Offered in alternate years. Lecture only, 3 hours; with laboratory, 4 hours. Prerequisite: IB 150 and MCB 150 or consent of instructor.

IB 447 Field Ecology credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/447) Study of habitats in various sections of North America during spring vacation or intersession. Outdoor cooking and camping; transportation in University cars. Additional fees may apply. See Class Schedule. 1 undergraduate hour. 1 graduate hour. May be repeated to a maximum of 3 hours. Prerequisite: IB 203; or consent of instructor.

IB 449 Limnology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/449) Fresh water biology; study of the lake, pond, and river with emphasis on the physical environment as well as on the plants and animals which live in fresh water. Lectures, discussions, laboratory, and field work. Students must complete the laboratory portion of the course to receive 4 hours of credit. Offered in alternate years. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Prerequisite: IB 203 or consent of instructor.

IB 450 Stream Ecology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/450) Same as CEE 432. See CEE 432.

IB 451 Conservation Biology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/451) Synthesis of conservation biology with an emphasis on the preservation of biological diversity and its evolutionary potential. Laboratory includes an introduction to the use of modern molecular techniques in conservation biology, computer simulation modeling, and field conservation problem solving. Same as CPSC 436 and ENVS 420. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 203 or consent of instructor.

IB 452 Ecosystem Ecology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/452) Distribution and structure of ecosystems on earth; integration of multiple disciplines to gain a holistic view of ecosystem function; ecosystem concepts as they apply to understand natural and anthropogenic environmental change. Offered in alternate years. Same as ESE 452 and NRES 462. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 102 and CHEM 104; or consent of instructor.

IB 453 Community Ecology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/453) The direct and indirect interactions among species that determine the structure and composition of plant and animal communities. Emphasis will be on the maintenance of species diversity and its consequences at both local and regional scales. Offered in alternate years. Same as NRES 452. 3 undergraduate hours. 3 graduate hours. Prerequisite: IB 203 or consent of instructor.

IB 461 Ornithology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/461) Structure, function, ecology, behavior, and evolution of the birds of the world; laboratory devoted to anatomy and identification; and field studies devoted to identification and behavior of birds. Independent research project and two optional weekend field trips. Same as NRES 461. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 203; or consent of instructor.

IB 462 Mammalogy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/462) Classification, distribution, structure, function, life history, evolution and identification of mammals. Lecture/discussions, laboratory and field work. The laboratory includes vertebrate dissection. Same as NRES 442. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 202 and IB 203; or consent of instructor.

IB 463 Ichthyology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/463) Classification, anatomy, ecology, behavior, distribution, and evolution of fishes of the world. Emphasis is on morphological, ecological, and behavioral diversification of fishes in a phylogenetic context. Laboratory devoted to anatomy and identification. Same as NRES 463. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 302; or consent of instructor.

IB 464 Herpetology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/464) Classification, diversity, structure, function, ecology, behavior and evolution of amphibians and reptiles. Laboratory devoted to anatomy and identification. Offered in alternate years. Same as NRES 464. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 302; or consent of instructor.

IB 467 Principles of Systematics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/467) Comprehensive survey of the theory and methodology of systematics as they are applied today to all groups of organisms, with a practical experience in the acquisition and analysis of systematic data. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 302 and IB 335 or IB 468; or consent of instructor.

IB 468 Insect Classification and Evolution credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/468) Analytical survey of the classification and evolution of the orders and principal families of insects, with practical experience in the identification of insects at these taxonomic levels; field trips required. Lecture and laboratory. 4 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: IB 401 or consent of instructor.

IB 471 General Mycology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/471) Structure, classification, and identification of fungi, including those of economic importance. Offered in alternate years. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 150 and MCB 150; IB 302 recommended; or consent of instructor.

IB 472 Plant Molecular Biology credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/472) The basic concepts and methodologies of measuring plant gene expression and gene product activity and constructing transgenic plants are presented and discussed. Same as CPSC 462. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 and IB 204; or consent of instructor.
IB 473  Plant Genomics  credit: 1 Hour.  
Provides broad overview of structural and functional genomics, including 
genetic and physical mapping, whole genome sequencing, comparative 
genomic analysis, evolution of gene families and repetitive sequences, 
genome-wide expression analysis. Emphasis on structural and 
comparative genomics with brief introduction to functional genomics and 
biinformatics. Same as CPSC 467. 1 undergraduate hour. 1 graduate 
hour. Prerequisite: MCB 250; IB 472; or consent of instructor. 

IB 477  Genomics for Plant Improvement  credit: 2 Hours.  
Same as CPSC 466. See CPSC 466. 

IB 478  Advanced Plant Genetics  credit: 3 Hours.  
Same as CPSC 452. See CPSC 452. 

IB 481  Vector-borne Diseases  credit: 4 Hours.  
Study of the major groups of arthropods and associated pathogens 
that affect the health and well-being of humans and other animals. 
Training will include ecology, evolutionary biology, and epidemiology of 
vector-borne diseases; taxonomy and identification of vector arthropods; 
practical skills in molecular and mathematical biology, spatial analysis 
and field research. Lecture will make use of technology-enhanced 
classroom for group-based active learning exercises to address critical 
challenges in vector-borne disease control. 4 undergraduate hours. 4 
graduate hours. Offered in alternate years. Prerequisite: IB 361 or IB 401 
or consent of instructor. 

IB 482  Insect Pest Management  credit: 3 Hours.  
The principles underlying the control of important insect pests of 
agriculture and of human and animal health; emphasis on integrated pest 
management involving a systems approach which combines biological, 
cultural, and chemical suppressive factors into ecologically sound and 
socially and economically acceptable technology. Lecture and laboratory. 
Same as CPSC 479. 3 undergraduate hours. 3 graduate hours. Offered 
in alternate years. Prerequisite: IB 150 or equivalent; or consent of 
department. 

IB 483  Insect Pathology  credit: 3 Hours.  
The general principles of pathology as they apply to insects; includes 
non-infectious and infectious diseases caused by viruses, bacteria, 
fungi, protozoa, and nematodes. Studies the epizootiology of naturally 
occurring insect disease and the use of insect pathogens as microbial control agents. Same as CPSC 475. 3 undergraduate hours. 3 graduate hours. Lecture in alternate years. Prerequisite: IB 150 and MCB 150 or consent of instructor. 

IB 484  Paleoclimatology  credit: 4 Hours.  
Same as GEOI 484. See GEOI 484. 

IB 485  Environ Toxicology & Health  credit: 3 Hours.  
Explores toxicological, environmental, public health, occupational and 
ecological aspects of the use and release of toxic substances in the 
environment; features case histories of environmental contamination that 
illustrate ecological, health, and social aspects of pollution; emphasizes 
biocological mechanisms and ecosystem consequences. Same as CHHLH 461 and ENVS 431. 3 undergraduate hours. 3 graduate hours. Prerequisite: A college chemistry course and a college biology course; or consent of instructor. 

IB 486  Pesticide Toxicology  credit: 3 or 4 Hours.  
Examines the biological effects of major classes of insecticides and 
herbicides, and of selected individual fungicides, including: toxicity to nontarget organisms, persistence and fate in the environment, 
biotransformation, and ecological consequences. Current regulations on pesticide testing will also be presented. The mechanism of action on target species will be discussed only in relation to effects on nontarget organisms. Same as CB 434 and ENVS 433. 3 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: One year of college chemistry and one year of college biology; or consent of instructor. 

IB 487  Math Modeling in Life Sciences  credit: 3 or 4 Hours.  
Examines the biological effects of major classes of insecticides and 
gerbicides, and of selected individual fungicides, including: toxicity to nontarget organisms, persistence and fate in the environment, 
biotransformation, and ecological consequences. Current regulations on pesticide testing will also be presented. The mechanism of action on target species will be discussed only in relation to effects on nontarget organisms. Same as CB 434 and ENVS 433. 3 undergraduate hours. 4 graduate hours. Offered in alternate years. Prerequisite: One year of college chemistry and one year of college biology; or consent of instructor. 

IB 488  Undergraduate Research Abroad  credit: 1 to 4 Hours.  
Students assist in research under University of Illinois faculty supervision at a location outside of the United States. Topics and type of assistance vary. 1 to 4 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of UI faculty member supervising the work (who will have examined the proposed research plan); and approval of the school. Not available to freshman. 

IB 490  Independent Study  credit: 1 to 5 Hours.  
Laboratory and/or field research supervised by faculty members in the School of Integrative Biology. A written report is required. 1 to 5 undergraduate hours. No graduate credit. May be repeated. Credit is not given for more than a combined maximum of 10 hours of IB 390 or IB 490 towards graduation for IB majors. Prerequisite: Consent of instructor. 

IB 491  Biological Modeling  credit: 3 or 4 Hours.  
Students will encode biological mechanisms into mathematical models, develop the skills to find solutions to these models and relate them to biological data, and analyze and discuss relevant primary literature. Examples will be drawn largely from ecology and evolutionary biology. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 299, IB 390, IB 490, or consent of instructor. Junior and Senior IB majors only. 

IB 492  Science Communication Skills  credit: 2 Hours.  
A successful career in scientific research, teaching and service requires 
tools and skills for communicating research. Students interested in 
going into science careers need to know how to write a competitive 
graduate school or job application, a thesis proposal for graduate 
research, a fellowship or grant proposal, and how to give a good scientific 
presentation. This course is designed to teach students these skills 
with targeted in and out of class exercises. 2 undergraduate hours. No 
graduate credit. Prerequisite: IB 203 or IB 271; AND one of the following: IB 299, IB 390, IB 490, or consent of instructor. Junior and Senior IB majors only. 

IB 493  Theoretical Biology + Models  credit: 4 Hours.  
Biologists are increasingly using mathematical and computer-based 
models to complement fieldwork and experimental data. These models 
provide a context in which to understand and answer existing questions, 
and also lead us to new questions and new insights. Students will encode 
biological mechanisms into mathematical models, develop the skills to 
find solutions to these models and relate them to biological data, and 
analyze and discuss relevant primary literature. Examples will be drawn largely from ecology and evolutionary biology. 4 undergraduate hours. 4 graduate hours. Prerequisite: IB 299, IB 390, IB 490, or consent of instructor. Junior and Senior IB majors only.
IB 496 Special Courses credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/IB/496)
Experimental and temporary courses. Additional fees may apply. See Class Schedule. 1 to 5 undergraduate hours. 1 to 4 graduate hours. Approved for letter and S/U grading. May be repeated as topics vary. Prerequisite: Consent of instructor.

IB 501 Programming for Genomics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/501)
Students will learn to think algorithmically by constructing a biological hypothesis, and implementing code or deploying an existing code implementation, to test that hypothesis. Students will learn to use UNIX and to program in Python, using biological data sets from high-throughput sequencing projects. We will cover major genomics approaches and the algorithms that underlie them, including K-mer analysis, genome and transcriptome assembly, databases and SQL, and visualization techniques. Same as CPSC 501. 4 graduate hours. No professional credit. Prerequisite: Courses in Ecology, Evolution, and Molecular Biology, or consent of instructor.

IB 502 Biological Networks credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/502)
This taxon-neutral course prepares students to organize, integrate and analyze complex, multi-scale data that describe biological systems. It provides training, collecting, and processing "omic"-scale data (genomics, transcriptomics and proteomics) into network models, and analyzing these models using current in silico tools to determine biological significance and function of the resulting network interactions. Students will be introduced to Gene Ontology and open source tools for data integration and visualization, including Cytoscape, Multiple Experiment Viewer and STRING. 2 graduate hours. No professional credit. Prerequisite: Graduate student status or consent of instructor. At least one upper level undergraduate course in molecular biology or its equivalent.

IB 504 Genomic Analysis of Insects credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/IB/504)
Comprehensive and integrated presentation of insect genomic analysis from the molecular level to that of the population; concepts are applied to certain aspects of insect population regulation. Offered in alternate years. Prerequisite: IB 204 or consent of instructor.

IB 505 Bioinformatics & Systems Biol credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/505)
Same as CPSC 567. See CPSC 567.

IB 506 Applied Bioinformatics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/506)
Same as ANSC 542 and CPSC 569. See ANSC 542.

IB 507 Statistical Genomics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/507)
Same as ANSC 545 and CPSC 545. See ANSC 545.

IB 508 Multivariate Biostatistics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/508)
Same as PATH 528. See PATH 528.

IB 510 Discussions in Plant Biology credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/510)
All graduate students in plant biology, except those with conflicting teaching assignments, are required to register in and attend the general seminar. Approved for both letter and S/U grading. No credit given except to those students presenting the results of their Ph.D. thesis research or industry research projects in the PSM program.

IB 512 Plant Metabolomics credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/512)
Plants are sessile organisms that must respond dynamically to environmental signals. Key to their response and survival is the intricate network of metabolic pathways that result in the differential accumulation of metabolites. This course will familiarize students with the fundamentals of plant metabolomics research. Metabolomics is presented in relation to plant development, nutrition, and response to stress, among other topics. Students will use online tools to analyze, organize, and visualize metabolomics data. Course goals include a critical evaluation of a current topic in plant metabolomics and how metabolomics technology can enhance their own research objectives. 2 graduate hours. No professional credit. Prerequisite: Graduate student status or consent of instructor; at least one upper level undergraduate course in biochemistry or its equivalent.

IB 513 Disc in Plant Physiology credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/513)
Approved for letter and S/U grading. May be repeated.

IB 516 Ecosystem Biogeochemistry credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/516)
Same as NRES 516. See NRES 516.

IB 524 Plant Biochemistry credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/524)
Same as CPSC 588 and HORT 588. See CPSC 588.

IB 526 Seminar in Entomology credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/IB/526)
Discussions, reviews, and appraisals of special topics in the field of entomology. Approved for both letter and S/U grading. May be repeated to a maximum of 4 hours.

IB 531 Emerging Infectious Diseases credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/531)
Examines new human infectious diseases, such as Asian flu, West Nile virus, AIDS, and Lyme disease, that are a major threat to human health. Explores the historic links among human health, disease pathogens, and ecology, as well as the origin of each new disease and how it is regulated by specific environmental conditions. Also explores how global change and biodiversity loss will increase the possibility of future ecological epidemic and the steps needed to reduce their effects on human health. In this course, students also produce teaching materials for their classrooms.

IB 532 Sustainability & Global Change credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/532)
Examines how on-going global change affects sustainability. Explores climate change, global warming, alternative biofuels, future food security, and conservation of biodiversity, and their effects on society. Examines how to make better use of the Earth’s natural resources with little to no damage to the ecosystem, while taking into account ever mounting demands for energy resources and climate change. In this course, students also produce teaching materials for their classrooms.
IB 533 Human Genome & Bioinformatics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/533)
Highlights advances in understanding the human genome, utilizing the latest techniques in bioinformatics, i.e. acquiring, analyzing, storing, and displaying the information from the entire genome and protein sequences. Explores the latest laboratory techniques, as well as the use of extensive online databases and software. Students explore the significance of sequencing the human genome, applying bioinformatics to the genome, and realizing its potential to understand human health, disease, and the place of humans in the large ecosystem. In this course, students also produce teaching materials for their classrooms.

IB 534 Evolution and Medicine credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/534)
Explores how human health is inseparably tied to our evolutionary history. Principles that apply to human health include evolutionary processes, e.g. natural selections, as well as molecular evolution, human evolution, and evolutionary-developmental biology. Explores how these principles can be applied to understand human nutrition and metabolism, reproduction, disease and stress, and behavior. These principles assist physicians, researchers, and the general public in understanding how natural selection has acted on humans over time and left us vulnerable to disease and injury. In this course, students also produce teaching materials for their classrooms.

IB 535 Biology and Tech Innovation credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/535)
Focuses on how experts in biology and technological fields use bio-inspiration to create technology innovations to solve human problems. Classic examples, such as how the observation that seeds with barbs stick to animal fur led to Velcro, are explored. Students use and expand upon their current biological knowledge to explore new ways to create biologically-based sustainable innovations. Topics to be explored include nest building as inspiration for energy-efficient architecture, plant chemistry as inspiration for green manufacturing, animal locomotion and sensing as inspiration for robots, and the advances in understanding of biological nanostructures and nanoproceses as inspiration for nanotechnology. In this course, students also produce teaching materials for their classrooms.

IB 536 Evolutionary Biology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/536)
Examines fundamental topics for understanding evolution, the unifying principle for all of biology. Evidence for evolution is all around us, and learning how to view life through 'evolutionary tinted' lenses greatly changes our perspective. Emphasizes the creative ways that scientists are gaining insights into how and why life evolved as it is. Provides avenues to use in the classroom to provide scholarly evidence for the basis of evolution to refute non-academic arguments. Students will produce teaching materials for their classrooms. 4 graduate hours. No professional credit. Prerequisite: For graduate students in the Online Masters of Science Teaching Biology program (OMST).

IB 542 Environmental Plant Physiology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/IB/542)
The interaction of plants and environment at the level of the whole organism, extending to the cell and the community; emphasis on heat and mass transfer, plant and soil potentials, and effects of light on growth. Same as CPSC 538. Offered in alternate years. Prerequisite: IB 420; consent of instructor.

IB 545 Fish and Wildlife Ecol Seminar credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/IB/545)
Modern ecological principles and concepts to specific problems in fisheries and wildlife. Approved for letter and S/U grading. Offered in alternate years.

IB 546 Topics in Ecology & Evolution credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/IB/546)
Speaker seminar series featuring discussion, review and critical analysis of general concepts and specific problems in ecology and evolution. Approved for both letter and S/U grading. May be repeated.

IB 590 Individual Topics credit: 2 to 12 Hours. (https://courses.illinois.edu/schedule/terms/IB/590)
Individual topics in research conducted under the supervision of faculty members in the School of Integrative Biology. Designed for graduate students who would like to become more familiar with specialized fields of study prior to committing themselves to a specific area for their doctorate degree. Approved for S/U grading only. May be repeated to a maximum of 16 hours. Prerequisite: Consent of instructor.

Italian (ITAL)

ITAL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ITAL)

Courses

ITAL 101 Elementary Italian I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/101)
For students who have no credit in Italian.

ITAL 102 Elementary Italian II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/102)
Continuation of ITAL 101. Prerequisite: ITAL 101 or one year of high school Italian.

ITAL 103 Intermediate Italian I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/103)
Rapid reading, review of grammar, composition, and conversation. Prerequisite: ITAL 102 or two years of high school Italian.

ITAL 104 Intermediate Italian II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/104)
Continuation of ITAL 103. Prerequisite: ITAL 103 or three years of high school Italian.

ITAL 156 Exploring Rome: History and Culture of the Eternal City credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/156)
Examines Rome and its roles (religious, political, cultural) in Italian culture from ancient times to the present day. Through history, film, literature, painting and architecture, we will explore the Rome through its various historical and political developments and the effects the city has had on wider Italian and global perception of the "Eternal City". All readings and class meetings are in English. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

ITAL 191 Freshman Honors Tutorial credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/191)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars and Associates. May be repeated one time to a maximum of 6 hours. Prerequisite: Consent of departmental honors adviser in Italian.
ITAL 199  Undergraduate Open Seminar  credit: 1 to 5 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/199)
Approved for letter and S/U grading. May be repeated to a maximum of 5 hours.

ITAL 200  Italian Studies in a Mediterranean Context  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/200)
Introduces students to the study of Italy and Italian culture, emphasizing Italy's central position in Mediterranean networks of cultural, economic and linguistic exchange. Prerequisite: ITAL 104 or consent of instructor.

ITAL 210  Practical Review Italian  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/210)
Reviews major challenges in Italian grammar, with particular emphasis on the verb system (major tenses and moods, morphology, and aspect) and areas of contrast with English. Prerequisite: Credit or concurrent enrollment in ITAL 104 or equivalent.

ITAL 220  Contemporary Italian, Oral and Written  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/220)
Training in oral-aural skill and in writing.

ITAL 240  Italy Middle Ages & Renaisss  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/240)
The development of Medieval Italian civilization in a literary context from the Sicilian School of love poetry to the early Renaissance in Florence; lectures and readings are in English. Same as CWL 240 and MDVL 240. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ITAL 270  Introduction to Italian Cinema  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/270)
Introduction to major films, movements and directors in the Italian tradition, paying particular attention to questions of national identity, gender and political and social history. Knowledge of Italian not required. This course satisfies the General Education Criteria for: Humanities - Lit Arts

ITAL 310  Advanced Grammar  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/310)
Study of the structure of modern Italian in both its phonological and syntactic aspects for the student who already has a functional command of the language, with an emphasis on developing ability to analyze and interpret grammatical structures. Prerequisite: ITAL 210 or consent of instructor.

ITAL 380  Ital Business & Profess  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/380)
Builds preexisting language skills through the study of Italian business practices: financial systems, transactions, banking, import/export and commercial correspondence. Prerequisite: ITAL 210 or equivalent.

ITAL 390  Spec Topics Italian Studies  credit: 2 to 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/390)
Selected substantive readings for independent study on a given special topic of Italian literature, culture, language, or linguistics. May be repeated. Prerequisite: ITAL 104 and consent of instructor.

ITAL 406  Italian Culture and Globalization  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/406)
Introduction to factors that have shaped present-day Italy, with particular attention to globalization; basic concepts contributing to understanding its present social and cultural development in a European and global context; taught in Italian. 3 undergraduate hours. 4 graduate hours. Prerequisite: ITAL 200 or ITAL 220, or consent of instructor.

ITAL 413  Dante  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/413)
Interpretation of Dante's Divine Comedy with special attention to its position in the medieval world; a knowledge of Italian not required. Same as CWL 413 and MDVL 413. 3 undergraduate hours. 4 graduate hours.

ITAL 414  Petrarch & Boccaccio  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/414)
Studies in Petrarch and Boccaccio; nonmajors in Italian may read the works in translation; lectures are in English. Same as CWL 414 and MDVL 414. 3 undergraduate hours. 4 graduate hours. Prerequisite: Fulfillment of campus rhetoric requirement.

ITAL 415  Europe and the Mediterranean  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/415)
Same as EURO 415 and PS 415. See EURO 415.

ITAL 418  Language & Minorities in Europe  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/418)
Same as EURO 418, FR 418, GER 418, LING 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

ITAL 420  Masterpieces Renaisss Lit  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/420)
Reading of masterpieces of the 1400 and 1500s and a study of their predecessors and influence; nonconcentrators in Italian may read the works in translation; lectures are in English. Content rotates. Same as CWL 420 and MDVL 420. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 8 hours with consent of instructor. Prerequisite: Fulfillment of campus rhetoric requirement.

ITAL 435  Introduction to Romance Linguistics  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/435)
Same as FR 462, LING 462, PORT 435, RMLG 435 and SPAN 435. See SPAN 435.

ITAL 440  Modern Italian Novel  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/440)
An in-depth examination of a particular writer, genre, form or period in modern Italian literature (such as Italo Calvino, Italian detective fiction, or the contemporary Italian novel). See online schedule for specific topic. 3 undergraduate hours. 4 graduate hours. Prerequisite: ITAL 200 or consent of instructor.

ITAL 450  Italian Syntax & Phonology  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/450)
Introduction to the essential syntactic and phonological structures of Modern Standard Italian in combination with appropriate discussion of corresponding linguistic concepts. 3 undergraduate hours. 4 graduate hours. Prerequisite: ITAL 310 or consent of instructor.

ITAL 460  Principles of Language Testing  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/460)
Same as EIL 460, EPSY 487, FR 460, GER 460, PORT 460, SLS 460, and SPAN 460. See EIL 460.

ITAL 470  Topics in Italian Cinema  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/470)
An in-depth examination of a particular director, genre or school from the Italian cinematic tradition (e.g., Fellini, Italian horror, or noerealism); topic will very each semester. No knowledge of Italian is required. Same as MACS 470. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours.

ITAL 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/ITAL/489)
Same as FR 481, GER 489, LING 489, PORT 489, and SPAN 489. See LING 489.
ITAL 490  Italian Critical Theory  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/490)
An advanced introduction to the critical theory of major Italian thinkers and philosophers (e.g., Gramsci, Negri, Agamben, Esposito). 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours if topic varies. Prerequisite: At least two 200-level courses in Italian, or consent of instructor.

ITAL 491  Honors Senior Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/491)
For candidates for honors in Italian. No graduate credit. May be repeated.

ITAL 505  Teaching College and Secondary Foreign Language  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/505)
Same as FR 505. See FR 505.

ITAL 510  Seminar in Italian Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/510)
Graduate seminar in Italian culture, literature, linguistics, or critical theory. Topics vary. May be repeated in the same semester to a maximum of 8 hours as topics vary. May be repeated in separate semesters to a maximum of 16 hours as topics vary.

ITAL 530  Introduction to Research and Text Criticism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/530)
Same as FR 530. See FR 530.

ITAL 559  Sem Romance Ling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/559)
Same as FR 559, LING 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

ITAL 573  Professional/Academic Writing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/573)
Same as GER 553, PORT 573, and SPAN 573. See SPAN 573.

ITAL 580  Classroom Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/580)
Same as EIL 580, FR 580, GER 580, PORT 580, SLS 580, and SPAN 580. See SPAN 580.

ITAL 584  Theories in Second Language Acquisition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/584)
Same as CI 584, EALC 584, EPSY 563, FR 584, GER 584, LING 584, PORT 584, and SPAN 584. See SPAN 584.

ITAL 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/588)
Same as EALC 588, FR 588, GER 588, LING 588, PORT 588, and SPAN 588. See SPAN 588.

ITAL 595  Spec Topics in Italian  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/595)
Independent study/research under the direction of a faculty member. May or may not fulfill requirements for a particular degree program in Spanish, Italian, and Portuguese. Consult graduate advisor. May be repeated in same or subsequent terms to a maximum of 8 hours.

ITAL 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ITAL/599)
Approved for S/U grading only. May be repeated.

Japanese (JAPN)

JAPN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JAPN)

Courses

JAPN 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/199)
May be repeated.

JAPN 201  Elementary Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/201)
Introduction to Japanese, spoken language skills and the reading and writing of hiragana, katakana, and kanji.

JAPN 202  Elementary Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/202)
Continuation of JAPN 201. Prerequisite: JAPN 201.

JAPN 203  Intermediate Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/203)
Prerequisite: JAPN 202 or equivalent.

JAPN 204  Intermediate Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/204)
Continuation of JAPN 203. Prerequisite: JAPN 203 or equivalent.

JAPN 305  Advanced Japanese I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/305)
Readings in graded Japanese texts with oral practice designed to help students acquire the sophisticated vocabulary and grammatical structures of written Japanese. Prerequisite: JAPN 204 or placement test for students who have Japanese background or who have previously taken a course(s) in Japanese.

JAPN 306  Advanced Japanese II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/306)
Continuation of JAPN 305. Prerequisite: JAPN 305 or be placement test.

JAPN 407  Introduction to Classical Japanese  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/407)
Introduction to the grammar, morphology, vocabulary, and style of classical Japanese language as found in premodern Japanese literary and historical writings. 3 undergraduate hours. 4 graduate hours.

JAPN 408  Readings in Classical Japanese  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/408)
Readings in texts in classical Japanese selected from historical and literary sources of the premodern period. Attention is given to grammatical, morphological, and stylistic features and to problems in translation. Introduction to reading of classical syllabaries and manuscript texts. 3 undergraduate hours. 3 graduate hours. Prerequisite: JAPN 407 or equivalent.

JAPN 409  Social Science Rdgs Japanese  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/409)
Readings in Japanese social science materials, including articles from newspapers, periodicals, and learned journals. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 9 undergraduate hours or 12 graduate hours. Prerequisite: JAPN 306 or equivalent.

JAPN 440  Fourth Year Japanese I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/440)
Further developments of skills in sophisticated Japanese language use, including readings in authentic materials in a wide variety of writing styles, writing for formal occasions, and speaking appropriately according to the situation while using precise vocabulary in correct level of speech. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 306 or equivalent.
JAPN 441  Fourth Year Japanese II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/441)
Continuation of JAPN 440. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 440 or equivalent.

JAPN 460  Japanese as a 2nd Language I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/460)
Introduction to basic theory of Japanese pedagogy; teaching methods, and theory and practice of teaching Japanese grammar. 3 undergraduate hours. 4 graduate hours.

JAPN 461  Japanese as a 2nd Language II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/461)
Application of pedalinguistics of Japanese; theory and method of instructional exercise development for teaching Japanese in practice teaching of Japanese in the classroom. 3 undergraduate hours. 4 graduate hours. Prerequisite: JAPN 460 or equivalent.

JAPN 490  Readings in Japanese Lit  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/490)
Guided readings in Japanese literature in the vernacular with regular individual conferences and a paper. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 8 graduate hours. Prerequisite: Reading knowledge of Japanese and consent of instructor.

JAPN 499  Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/JAPN/499)
Lectures, seminars, and practical work in the Japanese language, literature, and civilization, and in other academic areas appropriate to the student's course of study. No graduate credit. Approved for letter and S/U grading. Prerequisite: Junior standing and a GPA of 3.00.

---

Jewish Studies (JS)

JS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JS)

Courses

JS 108  Religion & Society in West I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/108)
Same as ANTH 108, PHIL 108, REL 108, and SOC 108. See REL 108. This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

JS 120  A History of Judaism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/120)
Same as HIST 168 and REL 120. See REL 120. This course satisfies the General Education Criteria for: Advanced Composition
Humanities - Hist Phil

JS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/JS/199)
Faculty offer seminars in a range of areas that provide an opportunity for undergraduates to be exposed to key dimensions of Jewish Studies. May be repeated in the same or separate terms to a maximum of 10 hours.

JS 201  History of Antisemitism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/201)
Studies the negative representations of Judaism and Jews from antiquity to the modern world. Topics include: Greco-Roman concepts of the Jewish religion; medieval Christian symbolization of the demonic Jew; Jews and negative attitudes to capitalism; blood purity and blood libel; the rise of racial prejudice in the modern nation state; totalitarianism and genocide; antisemitism and anti-Zionism. Same as REL 212.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

JS 209  Jewish American and US Minority Literatures in Dialogue  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/209)
Using a combination of careful reading with historical contextualization we will discuss how the field of Jewish American literature emerged, and get a sense of where it might be heading. We will address topics such as what makes a literary work Jewish American other than the Jewishness of its author; in what ways the field of Jewish American literature has changed over time; and what might be the underlying trends/themes of this field of literature. Same as CWL 209 and ENGL 222.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

JS 211  War & Peace in Israeli Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/211)
Same as CWL 211 and SAME 211. See CWL 211.

JS 220  Jewish Storytelling  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/220)
Same as CWL 221, ENGL 223, REL 220, and YDSH 220. See YDSH 220.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

JS 252  The Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/252)
Same as HIST 252. See HIST 252. This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

JS 261  The Holocaust in Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/261)
Same as CWL 273, ENGL 269, and GER 261. See GER 261. This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

JS 269  Jewish History Since 1700  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/269)
Same as HIST 269 and REL 269. See HIST 269. This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

JS 290  Jewish Cultures of the World  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/290)
Same as ANTH 290. See ANTH 290. This course satisfies the General Education Criteria for: Cultural Studies - Non-West

Information listed in this catalog is current as of 07/2019
JS 300  Jewish Chicago  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/300)
The history of Jewish Chicago from 1820 to the present will be taught in Chicago during Summer I. The class includes excursions all over the city as well as class time at the Newberry Library. Topics of study include immigration, Jews in the labor movement, Jewish political activism, Jewish religious practice, Jewish art, literature, and Yiddish theater. The course will contextualize our study of Jewish Chicago in terms of American history, urban history, gender history, and labor history.

JS 320  Lit Responses to the Holocaust  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/320)
Same as REL 496. See REL 496. courses.illinois.edu/schedule/terms/JS/496)
JS 496  Topics in History of Judaism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/496)
Same as REL 496. See REL 496. courses.illinois.edu/schedule/terms/JS/496)

JS 335  Middle East 1566-1914  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/335)
Same as HIST 335. See HIST 335.

JS 341  Love & Sex in Hebrew Lit  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/341)
Same as CWL 341, REL 340, and SAME 341. See CWL 341.

JS 344  Medieval Jewish Thought  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/344)
Same as MDVL 344 and REL 344. See REL 344.

JS 355  Soviet Jewish History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/355)
Same as HIST 355. See HIST 355.

JS 399  Special Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/399)
Faculty offer special topics in their areas of expertise that provide an opportunity for undergraduates to be exposed to some of the most current developments in faculty research. May be repeated in the same or separate term to a maximum of 9 hours.

JS 442  History of Early Judaism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JS/442)
Same as HIST 432 and REL 442. See REL 442.

JS 454  Topics in Israeli Lit & Culture  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/454)
Same as CWL 454 and SAME 454. See CWL 454.

JS 495  Independent Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/495)
Readings in selected fields in consultation with the instructor along with the completion of a specified writing assignment. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated in the same term to a maximum of 4 undergraduate hours or 8 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours and 16 graduate hours. Prerequisite: Consent of instructor.

JS 496  Topics in History of Judaism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/496)
Same as REL 496. See REL 496.

JS 501  Grad Intro to Jewish Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/501)
Interdisciplinary graduate-level introduction to the study of Jewish culture and society. Focuses on the significations of Jewishness in modern history through a wide range of recent writings by historians, anthropologists, philosophers and cultural theorists. Key themes will include the relationship of Judaism to the other monotheistic religions, the varied pathways of Jewish modernization, the construction of Jewish Otherness in Europe and beyond, and responses to the Holocaust and the creation of the state of Israel.

JS 502  Holocaust Genocide Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/502)
Interdisciplinary graduate-level introduction to Holocaust, Genocide, and Memory Studies, focusing on the origins and unfolding of genocidal violence and the legacies of genocide in collective memory, literature, and artistic representation. Key themes will include the relationship between perpetrators, victims, and bystanders; the problems of historical comparison; trauma and testimony; violence and representation.

JS 551  Seminar in Jewish Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/551)
Analysis of selected topics of special interest in Jewish Studies. May be repeated in the same term to a maximum of 8 hours. May be repeated in separate terms to a maximum of 16 hours. Prerequisite: Consent of instructor.

JS 552  Seminar Holocaust & Genocide  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JS/552)
Analysis of selected topics of special interest in Holocaust, Genocide, Memory Studies. May be repeated in the same term to a maximum of 8 hours. May be repeated in separate terms to a maximum of 16 hours. Prerequisite: Consent of instructor.

Journalism (JOUR)
JOUR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/JOUR)
Courses

JOUR 199  Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/199)
A changing array of courses focusing on special topics in journalism. Approved for Letter and S/U grading. May be repeated to a maximum of 12 hours in separate semesters, if topics vary.

JOUR 200  Introduction to Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/200)
Discussion of the history, freedom, technologies, ethics, and functions of the news media. Training in clear, descriptive writing techniques, using journalistic models. Prerequisite: Completion of Composition I general education requirement.
This course satisfies the General Education Criteria for: Advanced Composition

JOUR 205  History of American Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/205)
Surveys the history of the field of journalism since pre-colonial times. Includes the evolution of the media in the United States and the evolution of cultural concepts concerning the media, including rights granted under the First Amendment. Credit is not given for JOUR 205 if credit for JOUR 405 has been earned.
JOUR 210  Newsgathering Across Platforms  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/210)
Fundamentals of journalistic reporting and writing across print, broadcast and digital platforms. Credit is not given for JOUR 210 if credit for JOUR 400 has been earned. Prerequisite: JOUR 200.

JOUR 215  Multimedia Reporting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/215)
Designed to acquaint students with the fundamentals of digital photography, video, audio and multimedia as it applies to journalism. Instruction will include conceptual frameworks and techniques to create multimedia journalism content; the conception, planning and creation of multimedia projects; coverage of events with audio, video and photographs; the technical and creative aspects of digital photography, video, and multimedia; delivery platforms for multimedia content including the Web and evolving communication technologies. Credit is not given for JOUR 215 if credit for JOUR 410 has been earned. Prerequisite: JOUR 210 or consent of Journalism Department.

JOUR 220  News Editing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/220)
Editing and headline writing, news judgment, ethics and leadership. Credit is not given for JOUR 220 if credit for JOUR 320 has been given.

JOUR 250  Journalism Ethics & Diversity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/250)
Focuses on media decision-making and news judgment, specifically ethics and diversity in news gathering with regard to scope, privacy, bias, economic concerns, and accountability. Examines real-life news decisions and the thoughts of journalists who lived through famous and infamous ethics situations. Key provisions in the Society of Professional Journalists Code of Ethics regarding use of diverse voices will be discussed and applied in practical ways, and both students and the instructor will find current examples of ethics issues to present to the class. Diversity education is part of the required standard for achieving journalism accreditation from the discipline's national accrediting body.

JOUR 293  Digital Photography for Everyone  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/293)
Foundations of digital photography, techniques to produce photographs; the conception and planning of pictures; the pictorial coverage of locations, events and human interest situations; and the planning and execution of photos in print, on the web and other electronic media are the focus of this hands-on course. You will develop a practical understanding of the potentials and realities of photographic communication to better use them for full expression of your vision. Approved for Letter and S/U grading.

JOUR 311  Media Law  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/311)
Detailed analysis of the theories of freedom of expression, the legal doctrines of greatest concern to mass communicators, and contemporary issues related to free speech and press, including libel, copyright, and news-gathering in a digital age. Credit is not given for JOUR 311 if credit for JOUR 411 has been earned.

JOUR 315  Adv Public Affairs Reporting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/315)
Study and extensive practice of in-depth public affairs reporting - its concepts, techniques, traditions, ethics, and social obligations. Credit is not given for JOUR 315 if credit for JOUR 415 has been earned. Prerequisite: JOUR 210.

JOUR 335  Audio Journalism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/335)
Reporting and writing news for audio programs and websites. Credit is not given for JOUR 335 if credit for JOUR 435 has been earned. Prerequisite: JOUR 210.

JOUR 340  Video Reporting & Storytelling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/340)
Introduces news studio and field production and principles of field reporting and editing of news video; principles of planning, producing, and directing news and public affairs programs. Credit is not given for JOUR 340 if credit for JOUR 440 has been earned. Prerequisite: JOUR 210.

JOUR 360  The Media and You  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/360)
The course will survey contemporary public relations to clarify several elements: publicity, advertising, branding, press agentry, public affairs, issues management, lobbying, investor relations and development. Students will learn to work with the press and the ethical dimensions of the relationships that form. The course will employ real and hypothetical case studies. Teams will develop strategies to reach a PR goal. Each team will make presentations to be judged by real clients or the instructor and guest judges.

JOUR 361  Readings in Sports Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/361)
Books about sports and sports personalities are perennial best-sellers. Students in this course will read, analyze and discuss long-form sports journalism. Some of the books and stories are considered classics of the form; others may be fairly recent and news-worthy publications. All will represent varied approaches to sports journalism in books, magazines and digital experiments and forms.

JOUR 421  Editing for Publication  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/421)
Principles and practice of editing across disciplines. Content includes style, grammar, punctuation, word usage, clarity and brevity. Both print and digital environments are considered. Students will edit text and display copy such as headlines and photo captions. 3 undergraduate hours. 3 graduate hours. Credit is not given for both JOUR 421 and JOUR 320. Journalism majors should enroll in JOUR 320. Prerequisite: Advanced Composition.

JOUR 425  Multimedia Editing and Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/425)
Principles of visual reporting and editing; seeks to instill application-level competency in a wide array of non-linear, non-narrative techniques of journalistic storytelling across various media. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 215.

JOUR 445  Video Storytelling 2-Producing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/445)
Advanced techniques for reporting, producing, writing, shooting, and editing video news stories and for producing and airing regularly scheduled news programs on deadline. 4 undergraduate hours. 4 graduate hours. Prerequisite: JOUR 340.

JOUR 450  Media and Public Opinion  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/450)
Theory of public opinion and communications; relation of communication systems to public opinion, social systems, and the political order. 3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I.
JOUR 451 Research Methods in Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/451)
Introduction to social science principles of measurement, sampling, statistical inference and logic of research design in collection, analysis and interpretation of information used in journalism and mass media.
3 undergraduate hours. 3 graduate hours. Prerequisite: Completion of Quantitative Reasoning I requirement. JOUR 200 recommended, or graduate standing.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

JOUR 452 Great Books of Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/452)
Books written by journalists have had great impact on U.S. public policy and understanding, covering such topics as corporate power, political corruption, rural poverty, the atomic bombing of Japan, Watergate, and a soldiers-eye view of war. From hard-edged investigations to nonfiction literature, the readings broaden and deepen understanding of the power and purpose of journalism beyond breaking news and celebrities. Readings from eight groundbreaking books, assessment of social and professional impact, ethical issues, reporting and writing approaches, and extensive class discussion. 3 undergraduate hours. 3 graduate hours.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

JOUR 453 Crisis Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/453)
Students will take on the role of a public relations/public affairs officer to learn how to deal with the media when managing a crisis for a client, whether a multinational corporation or a professional athlete. Students will use case studies of actual events to examine how the media dealt with the crisis. Students will get a look at the inner workings of a major PR firm devoted to telling the truth while managing the message. 3 undergraduate hours. 3 graduate hours.

JOUR 454 Propaganda & the News Media  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/454)
The course examines techniques and processes of propaganda in a democratic society. It draws from contemporary theories of influence and persuasion to identify propaganda in the context of modern journalism, to delineate differences between propaganda and information, and to assess the impact of propaganda on democratic decision making in the digital age. Particular attention is given to the news media practices and consumption patterns that unwittingly facilitate strategies of modern propagandists. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior, Senior or Graduate standing.

JOUR 460 Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/460)
A changing array of special projects, research or reading in journalism. Additional fees may apply. See Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary.

JOUR 470 International Reporting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/470)
Role of international news in daily lives. Examines those who report it and those who pioneered it. Students monitor how U.S. and international media cover selected countries and learn how to write international news. In selected semesters, students may research issues and life in a foreign country in preparation for an international reporting trip. 3 undergraduate hours. 3 graduate hours.

JOUR 471 Science Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/471)
Students will explore media coverage of science. They will examine the interconnections of scientific advances and public understanding. The seminar format will allow students to interview scientists and journalists, to discuss work, and to become science communicators. Subject matter of reporting projects will be determined by the background and interests of the students. Field trips and Illinois science will be featured. 3 undergraduate hours. 3 graduate hours.

JOUR 472 Business Reporting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/472)
Learning to follow the money is a key part of covering corporate America, professional sports or Hollywood. No need to fear financial statements: This course shows you easy methods to pick them apart and turn them into smart stories. Students learn to report and write stories using the Wall Street Journal's feature methods. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210 or JOUR 400. Journalism or Agricultural Communications major(s). Restricted to students with Sophomore, Junior, Senior, or Graduate class standing.

JOUR 475 Magazine Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/475)
Preparation of feature stories and articles; techniques of marketing, market analysis, and publishing articles written in the course. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210.

JOUR 480 Advanced Reporting Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/480)
Advanced reporting projects or techniques, with separate sections for a varying array of topics such as investigative reporting, immersion journalism, literary journalism, business and financial journalism, online publishing, radio news features, sports writing, broadcast documentary production, digital journalism, and photo journalism. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary. Prerequisite: JOUR 210.

JOUR 481 Literary Feature Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/481)
Course focuses on concept, reporting practice, and ethics of literary approaches to create evocative, story-like journalism articles. Students report and write a single in-depth story that will be re-reported and re-written three times. Includes extensive readings illustrating the finest literary journalism. The class includes extensive self, class and professor criticism and editing. Articles for this class have been published in the News-Gazette and other publications. An archive of published stories can be found at intimatejournalism.com. 3 undergraduate hours. 3 graduate hours. Prerequisite: JOUR 210. Journalism majors only.

JOUR 482 Immersion Journalism  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/482)
The interview methodology students learn is seen as the best way to provide the ethnographer/writer/reporter with insight into social phenomena. The methodology can be used to examine living conditions, family history and attitudes of ethnic groups at any class level — wealthy, affluent, middle class, poor or underclass. Students with insatiable curiosity about behavior will be able to extract from participants surprising revelations about their needs, desires and motivations. Students will learn how personalities, circumstances, and choices made by participants' parents and forebears affect the participant's life today. Same as AFRO 482. 3 undergraduate hours. 4 graduate hours. Prerequisite: Juniors, Seniors and Graduate students of any discipline.
JOUR 483 Investigative Journalism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/483)
The investigative methodology students learn is seen as the best way to provide the producer/editor/reporter with insight into social issues, government and businesses practices and systems. The methodology can be used to examine and topics or issue. Students will use data, documents, interviews and field observation to collect information, do basic data analysis, test hypotheses, and produce stories in text, audio, or video or all. Students will learn how to do deep research, organize complex material, and produce presentations that are easy for the public to understand. 3 undergraduate hours. 3 graduate hours.

JOUR 490 Professional Project  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/490)
Individual and team-produced advanced enterprise projects in specialized fields. 3 undergraduate hours. 3 graduate hours. May be repeated in the same or subsequent semesters if topics vary.

JOUR 495 Internship Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/495)
Seminar based on internship experience. Offered for College of Media students who complete an approved professional, industry related internship. 0 to 1 undergraduate hours. 0 to 1 graduate hours. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 undergraduate hours or 2 graduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours or 3 graduate hours. Prerequisite: Consent of instructor.

JOUR 500 Current Issues in Journalism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/500)
Seminar on issues of contemporary importance in journalism in their historical, multicultural contexts. Emphasis on ethical, legal, social, professional aspects of those issues. Aimed at helping students to develop their own journalism philosophies and high standards of conduct. Prerequisite: Consent of department.

JOUR 501 Multimedia Storytelling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/501)
The course is designed to equip graduate students who have little or no journalism experience to report in a multimedia environment. In the first part of the course, students learn where to find stories and how to develop story ideas, as well as basic research and interviewing techniques. Students will then be introduced to the various ways in which stories can be told using media platforms such as print, radio, television and the web. Prerequisite: Graduate students only.

JOUR 505 Journalism Proseminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/505)
Introduction to scholarship and research in journalism and mass communication examining theoretical approaches to the meanings, uses, and effects of mass media in society; discussion of media freedom and accountability, humanistic and social scientific contributions to understanding mass communication. Prerequisite: Consent of department.

JOUR 515 Master's Project  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/515)
A professional journalism project demonstrating development of analytical and critical thinking abilities appropriate to the profession and effective application of journalism methodology. May be repeated up to 8 hours. Prerequisite: Consent of department.

JOUR 590 Advanced Topics in Journalism  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/JOUR/590)
Advanced special projects, research or reading in journalism at the master's and doctoral level. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 8 hours; may be repeated in separate terms to a maximum of 24 hours.

Kinesiology (KIN)

KIN Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/KIN)

Courses

KIN 100 Development Activities  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/100)
Skills and knowledge essential for leisure-time activities which are classified as developmental activities. Prerequisites and descriptions for each developmental activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 2 hours.

KIN 101 Dance Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/101)
Skills and knowledge essential for leisure-time activities which are classified as dance activities. May be repeated; more than one activity (Sections A through Z) may be taken in the same term. Prerequisite: See Class Schedule for prerequisites for each dance activity.

KIN 102 Individual and Dual Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/102)
Skills and knowledge essential for leisure-time activities which are classified as individual and dual activities. Prerequisites for each individual or dual activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.

KIN 103 Indoor Court Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/103)
Skills and knowledge essential for leisure-time activities which are classified as indoor court activities. Prerequisites for each indoor court activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term.

KIN 104 Skating Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/104)
Skills and knowledge essential for leisure-time activities which are classified as skating activities. Prerequisites for each skating activity are provided in the Class Schedule. Additional Ice Skating Rink Facility charges are required and provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.

KIN 107 Aquatic Sport Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/107)
Skills and knowledge essential for leisure-time activities which are classified as aquatic sport activities. Prerequisites for each aquatic sport activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term. Additional fees may apply. See Class Schedule.
KIN 109  Team Sport Activities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/109)
Skills and knowledge essential for leisure-time activities which are classified as team sport activities. Prerequisites for each team sport activity are provided in the Class Schedule. More than one activity (Sections A through Z) may be taken in the same term.

KIN 110  Intro to the Health Sciences  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/110)
Same as CHLH 110. See CHLH 110.

KIN 111  Prescribed Exercise  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/111)
Prescribed exercises adapted to individual needs, capacities, and interests; open to persons with paraplegia, permanently disabled, and individuals with significant temporary disabilities who will require long term rehabilitation. Students must be registered or eligible to register with DRES. May be repeated to a maximum of 4 hours. Prerequisite: Enrollment restricted to students with permanent disabilities or disabilities which are long-term in nature. Student should be registered or eligible to register with DRES.

KIN 120  Injuries in Sport  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/120)
Emphasizes injury mechanisms, means of injury prevention, and emergency care applied to various types of sport injuries; laboratory sessions emphasize preventive and therapeutic taping and emergency first aid. Additional fees may apply. See Class Schedule.

KIN 121  Survey of Sports Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/121)
Introduction to sports medicine for non-kinesiology majors; includes discussion of training, conditioning, preparation for sports, injury aspects of sports, and rehabilitation.

KIN 122  Physical Activity and Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/122)
Provides the scientific evidence of physical activity in preventing disease and optimizing quality of life. Teaches behavioral change strategies to achieve an active lifestyle.

KIN 125  Orientation KIN & Comm Health  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/125)
Serves as an introduction to the Kinesiology and Community Health Department and provides an overview of the Kinesiology and Community Health curricula, areas of study, and opportunities available for a career in the field. Enrollment required for Kinesiology freshmen and transfer students. Credit is not given for both KIN 125 and CHLH 125.

KIN 130  Analysis of Basic Movement  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/130)
Introduction to human movement through development of skills and knowledge relative to structure and function of the human body in selected physical activities including: basic postural and locomotion patterns and fundamental throwing patterns; also studies developmental aspects of typical and atypical movement skills. Emphasizes performance and qualitative analysis of movement skills.

KIN 140  Social Sci of Human Movement  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/140)
Introduction to the social scientific aspects of human movement including sport; particular emphasis on concepts derived from the social sciences (including psychology) that are appropriate to human movement. Additional fees may apply. See Class Schedule. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

KIN 142  Contemporary Issues in Sport  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/142)
Examines current issues in sport relative to competition, economics, race, sex, youth, educational institutions, deviant behavior, religion, psychology, and the media.

KIN 150  Bioscience of Human Movement  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/150)
Integrates anatomical and physiological aspects of human movement; emphasizes how the body moves, physiological responses to exercise stress, physical conditioning and physical fitness. Additional fees may apply. See Class Schedule. This course satisfies the General Education Criteria for:
Nat Sci Tech - Life Sciences

KIN 160  Introduction to Kinesiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/160)
Kinesiology is the interdisciplinary study of physical activity that includes a number of sub-disciplines. This course will examine these areas of study within Kinesiology from scientific, applied, and experiential perspectives. Students will study fundamental/introductory concepts associated with each area of Kinesiology, explore those concepts within research and applied contexts, and complete activities in which they experience various dimensions of those concepts.

KIN 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/KIN/199)
Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. May be repeated.

KIN 201  Physical Activity Research Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/201)
This course provides an introduction of physical activity measurement and methods. The course will focus on (a) defining physical activity and associated terms and concepts; (b) providing detailed understanding of approaches and tools for measuring physical activity; and (c) facilitating understanding of scientific methods for physical activity research (e.g., experimental and non-experimental designs).

KIN 230  Diversity in Recreation, Sport, and Tourism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/230)
Same as HDFS 263 and RST 230. See RST 230. This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

KIN 247  Intro to Sport Psychology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/247)
Analysis of the competitive sport process, with study of how personality and situational variables affect motivation, anxiety, and aggression in sport. Attention is given to the psychological skills needed by coaches and athletes for successful and enjoyable sports participation.

KIN 249  Sport & Modern Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/249)
The sociological analysis of sport in modern societies with regard to social class, politics, community, education, and collective behavior. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci
KIN 257  Coordination, Control & Skill  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/257](https://courses.illinois.edu/schedule/terms/KIN/257))
Introduction to the concepts and principles of the coordination and control of movement and the development of skilled action. The course will focus on such topics as fundamental movement activities; movement control processes; acquisition, retention and transfer of skill; and the role of constraints to action. These topics have implications for understanding skilled performance, motor development and human performance in general. Additional fees may apply. See Class Schedule. Prerequisite: KIN 140 and KIN 150 or consent of instructor.

KIN 259  Motor Development and Control  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/259](https://courses.illinois.edu/schedule/terms/KIN/259))
This course provides students with an overview of motor development across the life span as well as an introduction to the discipline of motor behavior/control. Specifically, it focuses on the concepts and principles of coordination, the control of movement, and development of skilled action throughout the life span. The course focuses on such topics as the development of fundamental movement activities; movement control processes; acquisition, retention and transfer of skill; and the role of constraints to action. Same as HDFS 259. Additional fees may apply. See Class Schedule. Credit is not given for both KIN 259 and KIN 257. This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

KIN 260  Teaching Activities I  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/260](https://courses.illinois.edu/schedule/terms/KIN/260))
An activity-based course focusing on skills, knowledge, and teaching progressions related to territorial and net sports for school age students. Students will develop knowledge of the basic skills and teaching progressions related to the activities covered in the class. Prerequisite: KIN 130.

KIN 261  Teaching Activities II  credit: 2 Hours. ([courses.illinois.edu/schedule/terms/KIN/261](https://courses.illinois.edu/schedule/terms/KIN/261))
An activity-based course focusing on skills, knowledge, and teaching progressions related to target sports, rhythms, dance and fitness activities, and adventure education activities for school age students. Students will develop knowledge of the basic skills and teaching progressions related to the activities covered in the class. Prerequisite: KIN 130.

KIN 262  Motor Develop, Growth & Form  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/262](https://courses.illinois.edu/schedule/terms/KIN/262))
Examination of the concepts of motor development, physical growth, and body form throughout the lifespan. Major emphasis is on the period of birth through adolescence. Same as HDFS 262. This course satisfies the General Education Criteria for: Social Beh Sci - Beh Sci

KIN 268  Children's Movement  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/268](https://courses.illinois.edu/schedule/terms/KIN/268))
Introduction and overview of kinesiology principles and physical activity related to children. Laboratory portion of class focuses on the application of information to teaching physical activity to elementary school children. Prerequisite: For non-kinesiology majors.

KIN 340  Soc & Psych of Phys Activity  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/340](https://courses.illinois.edu/schedule/terms/KIN/340))
Discusses how social and psychological processes and constraints affect human action in physical activity environments. Attention is given to socialization, personal dynamics, stratification, and ideological and economic constraints upon the manifestations of physical activity. Prerequisite: KIN 140 or PSYC 100 and completion of the Campus Composition I general education requirement. This course satisfies the General Education Criteria for: Advanced Composition

KIN 345  Sport and Society  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/345](https://courses.illinois.edu/schedule/terms/KIN/345))
Same as HIST 390. See HIST 390.

KIN 346  Case Study: Endless Summer  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/346](https://courses.illinois.edu/schedule/terms/KIN/346))
The 1966 classic film --The Endless Summer-- and related films and literature are used as lenses for the historical-cultural study of human movement in the form of riding waves of water. Surf culture and films are global phenomena and by using such as unique cases, students gain mastery in cultural-interpretive theories, themes, and vocabulary, and in articulating perspectives on social roles, knowledge, and power. Same as RST 346 and MACS 346.

KIN 352  Bioenergetics of Movement  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/352](https://courses.illinois.edu/schedule/terms/KIN/352))
Study of the nature of energy transfer during physical activity; mechanisms of metabolic control, force production, cardiorespiratory support and adaptation relative to physical activity. Additional fees may apply. See Class Schedule.

KIN 355  Biomechanics of Human Movement  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/355](https://courses.illinois.edu/schedule/terms/KIN/355))
Studies the biological and mechanical principles of human motor performance; analyzes selected movement skills in depth. Additional fees may apply. See Class Schedule.

KIN 360  Adapted Physical Education  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/360](https://courses.illinois.edu/schedule/terms/KIN/360))
Organization, administration, and conduct of physical education programs for the most prevalent types of medical conditions found in school settings; emphasis on analyzing motoric needs and prescribing programs of motor activity for special populations, including individuals with mental retardation and learning disabilities Prequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of instructor.

KIN 361  Curriculum in Grades K-6  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/361](https://courses.illinois.edu/schedule/terms/KIN/361))
Examines the theoretical and philosophic curricular principles necessary to the development of a sound, professionally grounded, and research-based curriculum for children in grades K-6. Requires planning a variety of developmentally appropriate learning activities that are taught to children during micro-teaching experiences in the field. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of the instructor.

KIN 362  Curriculum in Grades 7-12  credit: 3 Hours. ([courses.illinois.edu/schedule/terms/KIN/362](https://courses.illinois.edu/schedule/terms/KIN/362))
Provides students with theoretical knowledge and professional practice in secondary physical education curriculum and instruction. This research-based course emphasizes effective teaching, development of content, and analysis of curricular models in grades 7-12. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of instructor.
KIN 363 **Instructional Strategies in PE** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/363)
Analyzes the teaching-learning process, emphasizing the identification of instructional strategies specific to the development of skilled performance in movement activities. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program.

KIN 364 **Exper in the Common School** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/364)
Supervised practice in observing, assisting, and teaching children in elementary, junior high school, and senior high school. Emphasis is on understanding motor behavior, teacher-learner behavior, and interrelatedness with other aspects of the learning environment. May be repeated to a maximum of 6 hours. Prerequisite: Junior standing or above and enrollment in the Teacher Certification program or consent of the instructor.

KIN 365 **Civic Engagement in Wellness** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/365)
Provides scholarly knowledge and practical experience related to environmental, intellectual, physical, psychological, spiritual, and social wellness. Students acquire leadership and real-world skills while working in teams to develop and implement projects that facilitate health and well-being in the population of adults living in the community. Projects emphasize integrative learning and are showcased in both written and oral formats. Same as AHS 365, CHLH 365, RST 365, and SHS 370.

KIN 369 **Coaching Strategies** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/369)
Examination of philosophy, ethics, strategies, motivational techniques, performance analysis, program organization, contest administration, and equipment and facility management related to coaching.

KIN 375 **Comm Partners & Health** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/375)
Same as AHS 375 and SHS 375. See SHS 375.

KIN 385 **Exper in Kinesiology Research** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/385)
Supervised laboratory experiences in kinesiology research; individual work under the supervision of members of the faculty in their respective fields. The student assists with data collection, processing, and analysis for research in progress. May be repeated to a maximum of 12 hours. Prerequisite: Consent of instructor.

KIN 386 **Exercise Instruction & Elderly** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/386)
This course is designed to offer practical experience opportunities to undergraduate Kinesiology students aspiring to work in applied exercise fields with a diverse aged population. It will entail extensive "on the job" training through the Lifetime Fitness Program, an older adult service program of the Department of Kinesiology. Additionally, students will gain training in current program management practices. May be repeated to a maximum of 6 hours. Prerequisite: KIN 352 or consent of instructor is required. A current CPR is required at the beginning of the term and certification must remain current.

KIN 387 **Exper in the Agency Setting** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/387)
Supervised practical experience in leadership roles in nonschool agency settings; emphasis on observing, planning, and conducting physical activity programs for children and/or adults in preschool, recreation, or other social agencies. May be repeated for a maximum of 6 hours.

KIN 389 **Exper in the Agency Setting** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/KIN/389)
Course is restricted to James Scholars pursuing the Civic Commitment and Leadership Tracks. Designed to support completion of the James Scholar honors project. Same as CHLH 390 and RST 390. May be repeated to a maximum of 6 hours. Prerequisite: James Scholar standing.

KIN 391 **Special Project-Problems** credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/391)
Special projects in research and independent investigation in any phase of health, kinesiology, physical education, and related areas selected by the students. May be repeated to a maximum of 6 hours. Prerequisite: Junior or senior standing; grade-point average of 2.5; consent of instructor.

KIN 393 **Honors Thesis** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/393)
Planning, researching and writing of an honors thesis, under supervision of a faculty member, on a problem of appropriate scope and character. Paper will be presented at a suitable meeting and/or seminar. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing when enrolling; minimum grade point average (total, University and Kinesiology prefix courses) of 3.25; a minimum of one full year (2 semesters) remaining at the University of Illinois, Urbana-Champaign campus; and submission of a written proposal.

KIN 401 **Measure & Eval in Kinesiology** credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/401)
Examines the concepts of observation, measurement, and evaluation of human motor performance and functioning in physical activity contexts. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 140 and KIN 150, or graduate standing, or consent of instructor.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

KIN 407 **Disability, Culture & Society** credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/407)
Same as ANTH 404, CHLH 407, and REHB 407. See CHLH 407.

KIN 442 **Body, Culture & Society** credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/442)
Analysis of the significant social aspects of the human body including anthropological, historical, psychological and sociological perspectives. Places emphasis on cross-cultural and cross-national studies of bodily behavior with particular stress on exercise, health and sport practices. Same as GWS 442. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 249 or SOC 249, or graduate standing; or consent of instructor.

KIN 443 **Psychophysiology in Ex & Sport** credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/443)
Designed to give the student an understanding of the interaction between psychological processes and physiological parameters in exercise and sport. Examines psychophysiological exercise and sport research with particular attention to relevant models and theories. Same as PSYC 443. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 249 or SOC 249, or graduate standing; or consent of instructor.

KIN 444 **Physical Activity and Chronic Diseases** credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/444)
Focuses on the scientific evidence regarding the health benefits of exercise, physical activity, and physical fitness in the prevention and management of chronic diseases. 3 undergraduate hours. 4 graduate hours.
KIN 447  Psych of Sport Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/447)  Outlines the social psychological parameters which influence behavior and performance in sport; emphasizes the impact of social influences upon the individual within the sport context, including such factors as achievement motivation, competition, anxiety, aggression, and personality. Same as PSYC 447. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 140, KIN 247, or PSYC 201, or graduate standing, or consent of instructor.

KIN 448  Exercise & Health Psychology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/448)  Examines the psychological determinants and consequences of exercise and physical activity as a health promoting behavioral process. Same as CHLH 448. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above, or graduate standing, or consent of instructor.

KIN 450  Biochemistry of Exercise  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/450)  Introduces the metabolic and biochemical adaptation of the body in response to acute and chronic physical activity. Primary focus is given to the subcellular and enzymatic regulation and integration during exercise. Substrate metabolism, bioenergetics, hormonal action and nutritional influences as related to exercise are emphasized. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352 or MCB 450; or consent of instructor.

KIN 451  Skeletal Muscle Physiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/451)  Offers basic information on skeletal muscle anatomy, physiology and function which will provide a basis for understanding changes in muscle structure and function during periods of increased or decreased use. Knowledge gained in this course can be used in areas such as design of training programs, physical therapy, or injury prevention. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352 or prior consent of the instructor.

KIN 452  Clin & Applied Ex Physiology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/452)  Physical fitness appraisal and guidance in clinical and applied settings with emphasis on medical clearance, risk factor assessment, physical fitness assessment and exercise prescription. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 352, or graduate standing, or consent of instructor.

KIN 453  Nutrition for Performance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/453)  Nutrition for performance is the fusion of two disciplines, nutrition and exercise physiology, which provides the knowledge-base to support and optimize training, performance, and recovery. This course will provide information regarding the use of nutrition to increase performance in athletes training for strength or endurance. Same as FSHN 453. 3 undergraduate hours. 4 graduate hours.

KIN 457  Motor Learning & Control  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/457)  Discussion and analysis of scientific principles related to the learning and control of motor skills; review of related literature and research in motor learning and control. The focus of the course is on mechanisms for the control of movement and recent theories of how movements are acquired and performed. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 257 or graduate standing or consent of instructor.

KIN 458  Neurobio of Aging  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/458)  Same as PSYC 451 and NEUR 451. See PSYC 451.

KIN 459  Physical Activity & Aging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/459)  Examines aging and age-related changes in the cells, tissues, organs, and systems of the human body; emphasizes the role of physical activity and other lifestyle choices in modifying the aging process and in influencing the onset and progression of the chronic diseases which accompany aging. Same as HDFS 459. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior, Senior, or graduate standing or consent of instructor.

KIN 460  Technology & Pedagogical KINES  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/460)  Promotes mastery of technology skills and complex computer applications through the analysis of research and critical issues related to technology in Kinesiology. The completion of technology modules, requiring problem solving and the collection and analysis of assessment data, will culminate in an interactive, multimedia project. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing.

KIN 470  Exercise Endocrinology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/470)  The objective of this course is to gain a better understanding of the endocrine system and its response to physical exercise. Therefore, this course will provide a basic review of 1) the major glands and tissues that secrete chemical messengers, 2) the ability of acute exercise and exercise training to regulate chemical messengers, and 3) the physiological consequences of endocrine adaptation to exercise. Clinical disorders associated with endocrine dysfunction will also be discussed when relevant. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: KIN 352.

KIN 474  Tech-Driven Health Intervention  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/474)  Course will review and critique the state of the science of technology-driven health behavior interventions. A broad scope of technologies and health behaviors will be covered and students will acquire an understanding of current uses of technology for facilitating health behavior change and maintenance. Students will examine the efficacy and potential for large-scale adoption and dissemination; and develop skills necessary to apply technology-based solutions to address public health problems. 3 undergraduate hours. 4 graduate hours.

KIN 475  Skill Acquisition Strategies  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/475)  Examines theory and practice related to structuring practice conditions to maximize the acquisition and performance of motor skills. The nature of skill, activities, and strategies for enhancing skill are discussed with particular emphasis placed on strategies that instructors, teachers, and/or coaches can use to enhance skill acquisition and performance. 3 undergraduate hours. 4 graduate hours. Prerequisite: KIN 257 or graduate standing or consent of instructor.

KIN 477  Physical Activity & Aging  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/477)  Examines the psychological determinants and consequences of exercise and physical activity as a health promoting behavioral process. Same as CHLH 448. 3 undergraduate hours. 4 graduate hours. Prerequisite: Junior standing or above, or graduate standing, or consent of instructor.

KIN 485  Clin Exper in Sports Medicine  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/KIN/485)  Clinical experiences in medical supervision of sports programs, in the areas of therapeutic exercises, fitness programming, and cardiac rehabilitation. 2 to 8 undergraduate hours. 2 to 8 graduate hours. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

KIN 494  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/494)  Lecture course on topics of current interest; specific topics announced in the Class Schedule. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated.
KIN 501  Kinesiology Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/501)
Review and appraisal of common research procedures; application of statistical procedures, library methods, evaluation procedures, and experimental methods.

KIN 530  Childhood Obesity I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/KIN/530)
Same as CHLH 530, FSHN 530, HDFS 551, NUTR 530, SOCW 570. See NUTR 530.

KIN 531  Childhood Obesity II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/531)
Same as CHLH 531, FSHN 531, HDFS 552, NUTR 531, SOCW 571. See NUTR 531.

KIN 540  Health Behavior: Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/540)
Same as CHLH 540. See CHLH 540.

KIN 543  Physical Activity & Cognition  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/543)
Examines the relationship between physical activity and fitness on brain and cognition across the lifespan. The psychobiology of physical activity effects on cognition is emphasized. Other areas of study include aging, development, and psychosocial factors. Methodological issues as well as human and animal models of research will be studied.

KIN 551  Sci Basis of Phys Performance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/551)
Contemporary trends in the study of human performance and exercise stress; analysis of the research literature, experimental strategies, and research instrumentation. Lecture-discussion and laboratory.

KIN 552  Adv Skeletal Muscle Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/552)
Course provides an in-depth understanding of skeletal muscle anatomy, cell biology, and physiology. Classroom discussions of primary literature and other activities will focus on muscle structure and function. Information will also be provided on the molecular and cellular basis for adaptations that occur with increased use, such as endurance or strength training, or periods of disuse, such as injury and disease.

KIN 553  Circulorespiratory Physiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/553)
Aerobic performance responses to short-term, intermittent, and prolonged physical activity; special consideration given to endurance training methods and assessment techniques, ergogenic aids, and problems associated with growth, environmental influences, and competitive sport. Prerequisite: KIN 551 or consent of instructor.

KIN 557  Stress Immunology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/557)
This course will examine the role of stress in modulating immune function and the pathobiological mechanisms resulting in disease. An emphasis will be placed upon the reciprocal communication pathways that exist between the central nervous, endocrine and immune systems. Prerequisite: Consent of the instructor. It will be assumed that students will have introductory knowledge in biochemistry, endocrinology, and immunology.

KIN 560  Research on Teacher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/560)
Critically examines advanced theories, trends, problems, and implications of research on teacher education in Kinesiology. Students will complete a series of written assignments that are grounded in theory, illustrate critical thinking skills, and demonstrate extensive knowledge of the literature. Prerequisite: Graduate standing.

KIN 564  Qualitative Research Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/564)
Introduces students to qualitative methodology in the educational and health-related professions settings. Students will learn to interpret qualitative research, understand its theoretical underpinnings, acquire interviewing and observation skills, design and evaluate a community-based group research project, learn to collaborate with others, and critically assess the contributions to the project of self and peers.

KIN 565  Teaching in the Professoriate  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/565)
Provides scholarly knowledge and practical experience necessary for effectively assuming the roles of teaching, mentoring, and presenting in the professoriate. Students will team teach an undergraduate course with an assigned faculty mentor, give a scholarly research presentation, and attend a series of theoretically grounded lectures focusing on instructional design, learner characteristics, and successfully conveying information to others. Same as CHLH 565, RST 560, and SHS 565. Prerequisite: Must be a PhD student in the College of Applied Health Sciences.

KIN 590  Independent Study  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/590)
Independent research on special projects. May be repeated.

KIN 591  Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/KIN/591)
Lectures, discussions, and critiques on kinesiology and community health related subjects by faculty members and visiting professional leaders; presentation and criticism of student research. Approved for S/U grading only. May be repeated in subsequent terms as topics vary.

KIN 594  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/KIN/594)
Lecture course in topics of current interest; specific subject matter announced in the Schedule. May be repeated.

KIN 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/KIN/599)
Preparation of theses in kinesiology. Approved for S/U grading only. May be repeated.

KOR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/KOR)

Courses

KOR 201  Elementary Korean I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/KOR/201)
First semester of Korean for students without any background of the Korean language, starting from the Korean alphabet (Hangul) and learning basic grammar, vocabulary, and commonly used expressions, to achieve beginning level of speaking, listening, reading, writing, and basic grammar skills in Korean. Credit is not given for KOR 201 if credit for KOR 221 has been earned.
KOR 202  Elementary Korean II  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/202](https://courses.illinois.edu/schedule/terms/KOR/202))
Continuation of KOR 201, and second semester of first year Korean. Students learn basic grammar, vocabulary, and commonly used expressions by practicing conversations and reading conversation based texts, to achieve beginning-intermediate levels of speaking, listening, reading, and writing in the Korean language. Credit is not given for KOR 202 if credit in KOR 222 has been earned. Prerequisite: KOR 201 or as determined by placement test and instructor. Students must have taken KOR 201 at this University. Otherwise, they must take the placement test given in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 203  Intermediate Korean I  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/203](https://courses.illinois.edu/schedule/terms/KOR/203))
Continuation of KOR 202 and first semester of the second year Korean. Students practice conversations, study grammar based on conversational materials with variety of styles and levels of discourse and usage, and learn about Korean culture, to achieve intermediate-level fluency. Credit is not given for KOR 203 if credit for KOR 222 has been earned; determination is based on the placement test. Prerequisite: KOR 202 or as determined by a placement exam and an instructor. Students must have taken KOR 202 at this University. Otherwise, they should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 204  Intermediate Korean II  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/204](https://courses.illinois.edu/schedule/terms/KOR/204))
Continuation of KOR 203 and second semester of the second year Korean. Students practice conversations and study grammar based on conversational materials with variety of styles and levels of discourse and usage, to achieve intermediate-level fluency in speaking, listening, reading and writing in the Korean language. Credit is not given for KOR 204 if credit for KOR 241 has been earned. Prerequisite: KOR 203 or as determined by a placement exam and an instructor. Students must have taken KOR 203 at this University. Otherwise, they should take the placement exam in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 221  Korean Reading and Writing I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/221](https://courses.illinois.edu/schedule/terms/KOR/221))
First semester of spoken and written Korean for the students with background in spoken Korean. Starting from the Korean alphabet (Hangul) students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning level proficiency in reading and writing as well as in speaking. Credit is not given for KOR 221 if credit for KOR 202 has been earned. Prerequisite: Ability to speak and understand spoken Korean as determined by a placement test and an instructor. Students with prior knowledge of Korean must take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 222  Korean Reading and Writing II  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/222](https://courses.illinois.edu/schedule/terms/KOR/222))
Continuation of KOR 221 and second semester of spoken and written Korean for the students with background in Korean. Students learn basic grammar, vocabulary, and commonly used expressions, to achieve the beginning-intermediate level proficiency in reading and writing as well as in speaking of Korean. Credit is not given for KOR 222 if credit for KOR 202 has been earned; determination is based on the placement test. Prerequisite: KOR 221 or as determined by a placement test and an instructor. Students must have taken KOR 221 at this University. Otherwise, those with prior knowledge of Korean must take placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 241  Korean Reading and Writing III  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/241](https://courses.illinois.edu/schedule/terms/KOR/241))
Continuation of KOR 222 and first semester of the second year of spoken and written Korean. Students learn grammar and vocabulary to achieve intermediate-level speaking, listening, reading and writing in Korean. Credit is not given for KOR 241 if credit for KOR 204 has been earned; determination is based on the placement exam. Prerequisite: KOR 222 or as determined by a placement exam and an instructor. Students must have taken KOR 222 at this University. Otherwise, those with prior knowledge of Korean must take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 242  Korean Reading and Writing IV  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/242](https://courses.illinois.edu/schedule/terms/KOR/242))
Continuation of KOR 241 and second semester of the second year of spoken and written Korean. Students are exposed to theme-related passages and dialogues, practicing speaking, listening, reading, and writing, in order to achieve advanced-intermediate level proficiency in Korean. Credit is not given for KOR 242 if credit for KOR 306 has been earned. Prerequisite: KOR 241 or as determined by a placement exam and an instructor. Students must have taken KOR 241 at this University. Otherwise, those with prior knowledge of Korean must take the placement test in January. Sign up for the test in the office of the EALC Department (244-2725).

KOR 305  Advanced Korean I  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/305](https://courses.illinois.edu/schedule/terms/KOR/305))
Continuation of KOR 204 and first semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students learn more advanced-level vocabulary and everyday expressions and read more authentic texts in Korean. Credit is not given for KOR 305 if credit for KOR 241 has been earned; determination is based on placement test. Prerequisite: KOR 204 or as determined by a placement exam and an instructor. Students must have taken KOR 204 at this University. Otherwise, they should take the placement test in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 306  Advanced Korean II  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/KOR/306](https://courses.illinois.edu/schedule/terms/KOR/306))
Continuation of KOR 305 and second semester of third year Korean. Concentrates on enhancing the level of fluency in speaking, listening, reading and writing of Korean. Students will learn more advanced-level vocabulary and everyday expressions and read texts in Korean where Korean culture is introduced and discussed. Credit is not given for KOR 306 if credit for KOR 242 has been earned. Prerequisite: KOR 305 or as determined by a placement test and an instructor. Students must have taken KOR 305 at this University. Otherwise, they should take the placement text in January. Sign up for the exam in the office of the EALC Department (244-2725).
KOR 440 Fourth Year Korean I credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/440)
Develop the ability to engage in fluent discourse, to understand authentic texts through the acquisition of advanced-level vocabulary and expressions, and to refine and improve their writing in Korean. Students are expected to engage in class discussions on various topics of Korean culture and society. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 306 or KOR 242 or as determined by a placement test and an instructor. Students must have taken KOR 306 or KOR 242 at this University. Otherwise, those with prior knowledge of Korean should take the placement exam in August. Sign up for the test in the office of the EALC Department (244-2725).

KOR 441 Fourth Year Korean II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/KOR/441)
Allows advanced students to further develop their reading comprehension of authentic texts through the acquisition of advanced-level vocabulary and expressions, and to discuss and write on various topics and issues related to contemporary Korea. 3 undergraduate hours. 4 graduate hours. Prerequisite: KOR 440 or as determined by a placement test and an instructor. Students must have taken KOR 440 at this University. Otherwise, those with prior knowledge of Korean should take the placement test in January. Sign up for the test in the office of the EALC Office (244-2725).

**Labor and Employment Relations (LER)**

LER Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LER)

**Courses**

LER 100 Introduction to Labor Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/100)
Provides an overview of workers and unions in American society. Looks at economic, political, and workplace issues facing working people, why and how workers join unions, how unions are structured and function, and how unions and management bargain a contract. Provides a historical overview of the American labor movement, and discusses the contemporary struggles workers and unions face in a rapidly changing global economy.

This course satisfies the General Education Criteria for:

- Social Beh Sci - Soc Sci

LER 110 Labor and Social Movements credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/110)
Explores the role of labor unions in American society. Discusses the role of labor unions in initiating actions on social issues that impact the U.S. working class, the economy, public policy, and politics. Analyzes the labor movement’s interaction with the civil rights, women’s, student, global justice, and living wage movements.

LER 120 Contemporary Labor Problems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/120)
Focuses on problems and challenges facing American workers and the U.S. labor movement. Topics include the deterioration of the labor-management “social contract” in recent decades; a review of labor and employment law; the health care crisis; globalization and cross-border union alliances; and union democracy.

LER 120 Contemporary Labor Problems credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/130)
Do working people have a history worth studying? What does the history of the U.S. look like when viewed from the point of view of those who built the country? Introduces U.S. labor and working class history. Examines the conditions of life and work of the various groups of working people: enslaved, indentured, small farmers, but especially wage workers and their families from the civil War to the present. Studies the main collective actions workers have taken to protect and improve their lives and the organizations and social movements they created to do this. Students who complete LER 130 and want a more in-depth look at the subject should enroll in HIST 480.

LER 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LER/199)
May be repeated.

LER 200 Globalization and Workers credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/200)
Is globalization good for working people in the United States and around the world? Globalization is the driving force in the world economy but it is also provoking tremendous debate and popular resistance. Students will learn the basics about globalization and its institutions from the perspective of workers’ right in the U.S. and the Third World. Analyses the debate over free trade and sweatshops, trade agreements such as the North American Free Trade Agreement, and institutions such as the World Trade Organization and the International Monetary Fund. Closely examines working conditions in several Third World countries, and explores the role of the global justice movement.

LER 210 Images of Labor in Film credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/210)
Uses feature-length film to take an in-depth look at key labor strikes and organizing drives from the 1910s through the 1980s. Students will view some of the most powerful films on worker and labor themes ever produced. Studies the work lives and labor unions of miners; railroad porters; packinghouse workers; textile workers; and farm workers. Discusses the meaning of the events depicted in the films by situating them in historical context with detailed readings; engage the debates raised in the films about labor organizing methods and strike strategies that are relevant to today’s labor movement; reflect on issues of race, gender, class consciousness, working conditions, union goals, anti-communism, and labor-management relations raised in the films and readings; analyze how effectively the films, and Hollywood in general, portray workers and unions; and compare and contrast the films.

LER 220 The Media, Workers, and Unions credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/220)
Workers, unions, and how the news media tells their stories. Looks at the past, the present and future. Analyzes how these stories are told in the mainstream and independent news media in the U.S., and examines the Internet’s explosion and impact on these stories. Looks at how blogs, online videos, citizen journalism, and the fast changing world of Internet communication has given voice to workers and their issues. Compares the print and online media with the work done in documentaries and the cinema. Looks at the global telling of these stories. Lastly, examines the ways that unions can better tell their stories.
This course analyzes how China is reshaping the world economy, labor markets, unions, forms of worker resistance, and the lives of workers around the globe. We will examine China’s transition from socialism to state capitalism; working conditions facing Chinese workers; evolving labor and employment relations; the role and function of the All-China Federation of Trade Unions; and worker protests and strikes demanding improved conditions.

**LER 290 Introduction to Employment Law** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/290)
Addresses and critiques the content, interpretation, and applications of the laws that govern employer-employee relations in the American workplace. Explores the historical sources, underlying ideology, and current content of anti-discrimination and civil rights laws, of laws that seek to guarantee a safe and healthy workplace for all Americans, of laws that guarantee minimum wages and overtime pay, of legal protections of privacy on the job, of unemployment insurance and workers’ compensation laws, and of laws that guarantee workers the right to collective action and collective bargaining.

**LER 300 Workers, Unions, and Politics** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/300)
What is the meaning and impact of politics seen from the perspective of those at the bottom of the pyramid of political power rather than from the usual focus on the actions and perceptions of political elites? In what ways do workers become involved in politics? Under what circumstances are they likely to be successful in bringing about change? This course addresses these questions by exploring political power, political participation, and political change from a broad historical and cross-cultural perspective, but always focusing on a view of politics from the bottom up. The course analyzes the political economy of labor, and the labor movement’s political influence in politics.

**LER 320 Gender, Race, Class and Work** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/320)
Provides a historical and contemporary overview of the impact and interplay of gender, race, class and other issues of identity in the workplace. Topics include: pay gap, occupational segregation, workplace harassment, low wage work, and employment discrimination laws. The response of labor unions to identity issues will also be examined. Prerequisite: LER 100, LER 110 or one course that covers race or gender issues is required.

**LER 330 Comparative Labor Relations** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LER/330)
Designed as an overview of comparative labor movements and labor relation systems. Develops a framework for understanding union formation and the development of industrial relations system in a variety of countries around the world. An emphasis will be placed on each country’s interaction between unions and political organizations, national labor policies, the machinery for the resolution of workplace problems, the level of shop floor disturbances, bargaining coverage of employees, and the issues of workers’ control. Also addresses how globalization has transformed the capacity of any nation’s labor relations’ system to respond to economic challenge and workplace conflicts. Examines the possibility of developing transnational union.
LER 542 Collective Bargaining credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/542)
Examination of: social values and social science concepts to develop a framework for explaining the basis and shape of collective bargaining as it has been practiced in the United States; government and law, unions, and employers as part of the development of this framework; the environment of collective bargaining with respect to the role of economics and bargaining structure; the negotiating process as the interactive basis for union-management relations; conflict and conflict resolution as part of the negotiating process; wage and other effects of collective bargaining as bargaining outcomes; contemporary changes in union management relations. Case materials and exercises may be used to supplement course materials. Same as ECON 542. Prerequisite: Consent of instructor.

LER 543 Workplace Dispute Resolution credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/543)
Examination of the use of procedures to resolve employment disputes in both union and nonunion workplaces; comparative analysis of grievance arbitration, interest arbitration, mediation, fact-finding, and combinations of these procedures; special emphasis given to the role of third party intervention. Same as ECON 543 and LAW 665. 3 professional hours. 4 graduate hours.

LER 545 Economics of Human Resources credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/545)
Study of the economics of personnel with the modern corporation. Topics include hiring, promotion, evaluation, discrimination, raiding, job definition, pay schemes, benefits, and design of work. Same as HRD 534. Prerequisite: LER 593 or equivalent, or consent of instructor.

LER 547 Labor Law I credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/547)
Same as LAW 662. See LAW 662.

LER 548 Topics in Personnel Mgmt credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/548)
Same as BADM 511. See BADM 511.

LER 556 Industrial Relations Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/556)
Integrated analysis of the principles of industrial relations through the study of the works of the major theorists and their critics. Prerequisite: Consent of instructor.

LER 557 Human Resources Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/557)
Continuation of LER 556. Focuses on contemporary research in human resource management and related fields.

LER 558 Faculty-Student Workshop credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/558)
Training and experience for Ph.D. students in the application of social science and industrial relations theory and research methodology to contemporary industrial relations problems through presentation and discussion of faculty and student research. Ph.D. students are required to make presentations and to participate in workshop discussions during the entire period of their campus residency. Approved for letter and S/U grading.

LER 559 Micro Research Methods credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/559)
Provides doctoral students a foundation for conducting independent, scholarly micro research (i.e., individuals or small groups as the primary unit of analysis) by addressing the components of the research process. This foundation for conducting independent research is based on the research process as an open system of interconnected choices that unfold sequentially: (1) Choosing and framing a research question, (2) Choosing an hypothesis to address the research question, (3) Choosing a Strategy and Design, (4) Choosing modes for treating constructs, (5) Choosing Forms for Converting Data into Observations, (6) Choosing procedures to analyze data, and (7) Choosing conclusions for interpreting results. Prerequisite: Doctoral degree student in LER, Department of Psychology, Economics, College of Business, College of Education. Master's degree students who are considering a doctoral degree program subject to instructor approval.

LER 561 Compensation Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/561)
Compensation theory and practice. Course addresses the theoretical and practical issues associated with the design of effective compensation systems. The design phases include establishing internal equity, external equity, and individual equity. Budgeting and administration are also addressed. Case analyses and computer simulations may be used to supplement course materials.

LER 562 HR Planning and Staffing credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/562)
Examines conceptual issues, policies, and practices relating to the attraction, selection, development, and planning for the most effective utilization of human resources.

LER 564 HR Training and Development credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/564)
Provides students a firm understanding of human resource training and development systems in today's business environment. A constant theme setting the back drop for this course will be on the various kinds of change facing organizations and how these changes relate to human resource training and development. Aspiring HR professionals will gain essential knowledge to effectively manage employee training and development systems in a variety of companies.

LER 565 HR Management and Strategy credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/565)
Designed to provide integration across the specific functional areas of the human resources management (HRM) field, while at the same time demonstrating the linkages horizontally within HRM and vertically with strategic management of the firm. This case-focused course places emphasis on human resources issues of strategic importance to the organization. Same as BADM 512. Prerequisite: One prior course from the Organizational Behavior and Personnel Management distribution subject area list (in the MHRIIR degree requirements for the graduate degree in Labor and Employment Relations).

LER 566 International HR Management credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/566)
Human resource management issues examined from the perspective of the multinational firm. Topics include globalization and human resource strategy, management and the structure of multinational firms, dealing with intercultural differences, selecting employees for foreign assignments, training and developing expatriate employees, evaluation and compensation of employees in international assignments. Individual and group projects. Prerequisite: Graduate standing.
LER 567 Negotiation in HR Decisions  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/567)
General survey course concerning the strategies and tactics of bargaining and negotiation, with special emphasis on applications in human resource management contexts. Topics covered include: the structure of negotiated outcomes; integrative bargaining tactics; distributive bargaining tactics; negotiation planning; power, persuasion and influence; communication; negotiating in teams and groups; negotiating using 3rd parties (arbitrators, mediators, agents); cross-cultural negotiations. Students will discuss negotiation issues and build negotiation skills through a series of experiential exercises and cases. Credit is not given for both LER 567 and MBA 505 (Sections W1 and W2: Managerial Negotiations). Prerequisite: Graduate standing. An introductory course in social psychology or organizational behavior is preferred but not required.

LER 568 Firm Performance and HR  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/568)
The purpose of this course is to enable students to understand some basic ideas about and measures of firm performance with heavy emphasis on the role of human resource managers. Students will gain an understanding of how human resource professionals fit into the organization, structure, and function of business firms. Many basic ideas from the field of finance will be studied. The course covers theoretical ideas and has many empirical, policy, and practitioner-relevant applications, all with the goal of providing human resource managers fundamental financial analysis tools to enable them to function effectively in their post-graduate corporate workplaces.

LER 569 Power & Influence in HRM  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/569)
Designed to help prospective human resource managers learn how to use power and influence as effective tools for understanding the surroundings in which they will be working with and managing people, and achieving the goals that they set for themselves. It provides frameworks and practical tools that allow students to make sense of on-the-job learning experiences and equip them with basic diagnostic and action-planning skills that they can use at different points in their careers and to consider difficult ethical questions in the process. Prepares students to get things done in the real world, where personalities and office politics sometimes hinder rather than help them.

LER 570 Leadership for HR Managers  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LER/570)
In contemporary organizations, the HR function is often called on to serve a variety of leadership roles. Thus, HR managers will not only need to learn how to utilize and improve their leadership skills in different and changing contexts, but also how to help other employees become effective leaders. The goals of this course are (1) to analyze and discuss a number of key frameworks that will provide students with knowledge of leadership in different types of organizations, and (2) to provide students with practical tools to help them make sense of their own on-the-job experiences and equip them with basic action-planning skills that they can use on the job.

LER 580 Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LER/580)
Full or part-time practice of human resources or employment relations in an off-campus government, corporate or not-for-profit environment. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: Must be a student in the LER program.

LER 590 Individual Topics  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LER/590)
Students in labor and industrial relations may register for this unit with the consent of the curriculum adviser and the adviser under whom the student will perform individual study or research. Such individual work may include special study in a subject matter for which no course is available or an individual research project, including on-the-job research in industry, which is not being undertaken for a thesis. Approved for letter and S/U grading.

LER 591 Employment Relations Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/591)
General framework for the analysis of employment relationships. Topics include industrial relations theory, the American system of collective bargaining, intercountry system differences, and human resource management strategies and practices. Prerequisite: Graduate standing.

LER 593 Quantitative Methods in LER  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/593)
Application of statistical methods to problems in human resources and industrial relations. Analysis and presentation of results using computer software. Covers statistical techniques through analysis of variance and multiple regression. Prerequisite: Any elementary statistics course.

LER 594 Tutorial Seminar  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/594)
Research experience for Master's students in carrying out a problem solving project from formulation to written report in a chosen area of labor and industrial relations. Each student selects an individual topic with the approval and guidance of a faculty member and participates in a Tutorial Workshop. Approved for both letter and S/U grading. Prerequisite: Completion of no fewer than 24 graduate hours of LER course work.

LER 595 Managing Diversity Globally  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/595)
In a global economy workplace diversity is not a trend; it is a reality faced by corporate leaders, human resource professionals and management consultants. Within the US, immigration, migration, and gender and racial differences have been major trends shaping workplace composition. Globalization places additional pressures on managing workplace diversity effectively. In this setting, training managers and human resource professionals to manage differences and adapt to multiple national and cultural contexts is an imperative. Course provides an in-depth understanding of how managers and HR professionals can be effective in not only managing diversity in a global context, but also in leveraging global diversity as a competitive advantage. By the end of this course students will have a holistic appreciation of the tools necessary to implement effective diversity management practices for a globally inclusive workplace.

LER 597 Employee Motivation & Performance  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LER/597)
Managing and motivating employees effectively is one of the most complex and challenging issues facing companies today. While business leaders acknowledge the need for implementing effective performance management systems, recent studies indicate that an overwhelming majority of performance management systems are unsuccessful. Takes a strategic approach to employee motivation and performance starting with a firm level view to reviewing current approaches to employee motivation and performance management. Aims at providing students with practical and conceptual tools that will aid them in future endeavors to design and implement employee development and performance management systems. Format includes in-class discussions, case studies and individual assignments and papers.
Landscape Architecture (LA)

Courses

LA 101 Introduction to Landscape Arch credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/101)
Introduction to primary concepts and methods of landscape inquiry as a means to understand experiential qualities of landscape and to guide landscape design and planning projects.

LA 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/199)
Additional fees may apply. See Class Schedule. May be repeated.

LA 212 Water and Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/212)
A comparative investigation of built landscapes and hydraulic resources through history. Examines problems of water scarcity, abundance and changes in ecology, human social organization, economy, law, and cultural values related to natural water conditions and human management. Comparative case studies include the ancient Near East and modern Middle East, ancient and modern Egypt, the Roman empire, Peru, the Netherlands, South Asia, Illinois River basin, and the American West.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

LA 218 S Asian Cultural Landscapes credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/218)
Survey of Hindu, Buddhist, and Islamic landscapes of South Asia. Examines urban structures, building typologies, and open space types through history as influenced by concepts of the natural, sacred, political, and social. Same as ASST 218.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Non-West

LA 220 Exploring African Cities credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/220)
Examines the buildings, landscapes, and societies of pre-colonial, sub-Saharan African cities from the third century BCE until the nineteenth century CE. Same as ANTH 223.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Non-West

LA 221 History of the Prison credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/221)
History of prison architecture, landscapes, and carceral regimes from ancient times until the present. Topics include: philosophy of punishment, the invention of the modern prison, the advent of mass incarceration, and 21st century geographies of incarceration. The course focuses on the western experience, but also includes international examples, e.g. from China, East Africa, and Japan. Interdisciplinary approach includes readings in architectural history, urban planning, sociology, philosophy, psychology, history, and landscape studies. Same as AFRO 221 and HIST 219.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western

LA 222 Islamic Gardens & Architecture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/222)
Study of the formation, history, and meaning of the landscape and architecture of the Islamic world. Same as ARCH 222.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Non-West

LA 233 Foundation Design Studio credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/233)
Introduction to the fundamentals of design, including studies in two- and three-dimensional abstract and applied problems, basic elements and procedures of design, and principles of landscape composition. Additional fees may apply. See Class Schedule. Open to Landscape Architecture majors only. Prerequisite: Credit or concurrent registration in LA 280 or consent of instructor.

LA 234 Site Design Studio credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/234)
Site as the fundamental unit of landscape design. Involves ecological, cultural and experiential understanding of sites, and the creation of place-specific designs. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: LA 233 or consent of instructor.

LA 241 Landform Design & Construction credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/241)
Introduction to landform design, drainage, stormwater management, surveying, and materials. Prerequisite: MATH 014 or 016.

LA 242 Nature and American Culture credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/242)
Same as RST 242, and NRES 242. See RST 242.
This course satisfies the General Education Criteria for: Cultural Studies - Western

LA 250 Environmental Site Analysis credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/250)
Principles and practices of identifying, analyzing, and recording landscape resources. Field trip required. Prerequisite: GEOL 100, 101, 103 or GEOG 103 or consent of instructor.
This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences

LA 270 Behavioral Factors in Design credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/270)
Introduces the impacts of cultural and social factors, such as age, gender, physical ability, economic status, ethnicity and how people interact with the environment. Reading assignments, short exercises, field trips, and evaluation of space will enable students to evaluate and potentially design more socially and ecologically responsive environments.
LA 280  Design Communications I  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/LA/280](https://courses.illinois.edu/schedule/terms/LA/280))
Fundamentals of visual communication in the design process and presentation for landscape architecture. Includes freehand and constructed drawing, color, media, and models. Open to Landscape Architecture majors only. Prerequisite: Concurrent registration in LA 233.

LA 281  Design Communications II  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/LA/281](https://courses.illinois.edu/schedule/terms/LA/281))
Advanced principles and techniques of visual communication in landscape architectural rendering, emphasizing computer-based techniques. Open to Landscape Architecture majors only. Prerequisite: Concurrent registration in LA 234; completion of LA 280 and completion of campus Composition I general education requirement or consent of instructor.

LA 301  Senior Honors  credit: 1 to 6 Hours. ([https://courses.illinois.edu/schedule/terms/LA/301](https://courses.illinois.edu/schedule/terms/LA/301))
Independent guided study and research in a selected area of landscape architecture; for candidates for honors in landscape architecture. May be repeated to a maximum of 9 hours. Prerequisite: Senior standing in landscape architecture, a university grade-point average of 3.0, and consent of head of department.

LA 314  History of World Landscapes  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LA/314](https://courses.illinois.edu/schedule/terms/LA/314))
Analysis of the development of landscape architecture as a result of environmental and cultural influences. Same as ARCH 314. This course satisfies the General Education Criteria for: Advanced Composition Humanities - Hist Phil Cultural Studies - Western

LA 315  History of Modern Landscape Arch  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/LA/315](https://courses.illinois.edu/schedule/terms/LA/315))
A selected overview of developments in landscape architecture in the western world from 1900 to the present. Prerequisite: LA 314.

LA 335  Community & Open Space Studio  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/LA/335](https://courses.illinois.edu/schedule/terms/LA/335))
Development of design solutions at site and master plan scale relative to community, urban and open space problems; emphasizes development of analysis and design techniques to integrate physical context of place with social context. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: LA 234 or consent of instructor.

LA 336  Design Workshop Studio I  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/LA/336](https://courses.illinois.edu/schedule/terms/LA/336))
Project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, and urban problems, housing, recreation, and natural areas; emphasizes problem analysis and generation of innovative design alternatives. Students select from several sections depending on specific interests. Additional fees may apply. See Class Schedule. Prerequisite: LA 335 or consent of instructor.

LA 342  Site Engineering  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LA/342](https://courses.illinois.edu/schedule/terms/LA/342))
Principles of site engineering including landform design, stormwater management, site surveying, circulation systems and site utility planning. Prerequisite: LA 241 and college trigonometry, or consent of instructor.

LA 343  Landscape Construction  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LA/343](https://courses.illinois.edu/schedule/terms/LA/343))
Construction methods, materials, and procedures related to the design of landscape structures; development of design details and cost estimating. Prerequisite: LA 342 or consent of instructor.

LA 345  Professional Internship  credit: 0 to 10 Hours. ([https://courses.illinois.edu/schedule/terms/LA/345](https://courses.illinois.edu/schedule/terms/LA/345))
Professionally supervised field experience in design offices and public agencies intended to introduce students to practice. Students work in the department-approved firm or agency of their choice. Seventy five hours of employment is required for each one hour of course credit. Approved for S/U grading only. May be repeated to a maximum of 10 hours. Prerequisite: Upper division undergraduate standing or consent of instructor.

LA 346  Professional Practice  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/LA/346](https://courses.illinois.edu/schedule/terms/LA/346))
Study of the profession of landscape architecture including an introduction to modes of practice, career evolution, organizational theory, office procedures, project management and professional ethics. Field trip required. Additional fees may apply. See Class Schedule. Prerequisite: Junior standing or consent of instructor.

LA 370  Environmental Sustainability  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/LA/370](https://courses.illinois.edu/schedule/terms/LA/370))
Explores the challenges of creating a sustainable world. Examines: a) trends and conditions of the earth’s major ecosystems, b) ways in which our economic system has created levels of consumption that threaten sustainability, c) the extent to which equity and justice contribute to sustainable systems, and d) evidence demonstrating how human creativity and innovation can create a more sustainable world. Same as ENSU 300 and NRES 370.

LA 390  Independent Study  credit: 1 to 6 Hours. ([https://courses.illinois.edu/schedule/terms/LA/390](https://courses.illinois.edu/schedule/terms/LA/390))
Supervised independent study, research, or special project in a selected area related to landscape architecture. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 6 hours. Prerequisite: Junior or senior standing; consent of instructor and head of department prior to advance enrollment and registration.

LA 399  Off-Campus Study  credit: 0 to 15 Hours. ([https://courses.illinois.edu/schedule/terms/LA/399](https://courses.illinois.edu/schedule/terms/LA/399))
Provides campus credit for off-campus study. Approved for letter and S/U grading. (Summer session, 0 to 6 undergraduate hours). Final determination of appropriate credit is made by a faculty review committee upon completion of the student’s work. Maximum credit, 15 hours (summer session, 6 hours), all of which must be earned within one term. Prerequisite: Junior standing; prior review and approval of the student’s written proposal by a faculty committee and the department head.

LA 427  Amer Vernacular Cultural Land  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/LA/427](https://courses.illinois.edu/schedule/terms/LA/427))
Focuses on vernacular structures in the cultural landscape, especially common houses, barns, and commercial and industrial structures; examines origin and geographical diffusion of vernacular architecture in the United States. 4 undergraduate hours. 4 graduate hours.

LA 430  Children and Nature  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/LA/430](https://courses.illinois.edu/schedule/terms/LA/430))
Same as HORT 430. See HORT 430.

LA 437  Regional Design Studio  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/LA/437](https://courses.illinois.edu/schedule/terms/LA/437))
Ecological design and planning studio emphasizing team approaches to design development and evaluation using current human and environmental research results. Projects require field work, analysis, problem-solving, and advanced design and presentation products. 5 undergraduate hours. 5 graduate hours. Prerequisite: LA 336 or consent of instructor.

Information listed in this catalog is current as of 07/2019
LA 438 Design Workshop Studio II credit: 3 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/438)
Project design at various scales utilizing problems of a wide range of complexity and subject matter; rural, community, and urban problems, housing, recreation, and natural areas; and emphasizes problem analysis and generation of innovative design alternatives. The student selects from several sections depending on specific interests. Additional fees may apply. See Class Schedule. 5 undergraduate hours. 3 to 6 graduate hours. May be repeated. Prerequisite: LA 336 or consent of instructor.

LA 441 Land Resource Evaluation credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/441)
Examines concepts for the value of land, land resource problems and policy responses, methods for evaluating land resource development and policy alternatives, and case studies of land resource evaluation. Same as UP 441. 4 undergraduate hours. 4 graduate hours. Prerequisite: Graduate standing or consent of instructor.

LA 446 Sustainable Planning Seminar credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/446)
Examines sustainability issues of concern to planners, such as resource conservation, urban growth, environmental justice, industrial development, social equity, sustainable agriculture, and economic development. Presents holistic approaches ranging from theoretical concepts to detailed case studies that combine urban and regional land use, physical design, and policymaking. Same as GEGG 446, NRES 446, and UP 446. 4 undergraduate hours. 4 graduate hours.

LA 450 Ecology for Land Restoration credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/450)
Ecological implications of alternative land use patterns; equipment, field techniques, and nomenclature in current use by environmental consultants; and elements of a baseline ecosystem study. 4 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

LA 452 Natural Precedent in Planting credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/452)
Biogeography; identification of native species, uses of native plants in the landscape; and restoration and planting design projects. Field trips required. 3 undergraduate hours. 3 graduate hours. Additional fees may apply. See Class Schedule. Prerequisite: HORT 302 or consent of instructor.

LA 453 Cultural Precedent in Planting credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/453)
Planting design issues; historic precedent and contemporary comprehensive design projects; management practices; technical documents; and plant use and identification. Field trips required. 3 undergraduate hours. 3 graduate hours. Prerequisite: LA 452.

LA 454 Landscape Archaeology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/454)
Same as ANTH 453. See ANTH 453.

LA 460 Heritage Management credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/460)
Same as ANTH 460 and RST 459. See ANTH 460.

LA 466 Energy, Plng & Blt Environment credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/466)
Same as UP 466. See UP 466.

LA 470 Social/Cultural Design Issues credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/470)
Critical discussion of notions and theories pertaining to the reciprocal effects of landscape architectural design and human behavior. 3 undergraduate hours. 3 graduate hours.

LA 472 Museum Theory and Practice credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/472)
Same as ANTH 462 and ARTH 462. See ANTH 462.

LA 480 Sustainable Design Principles credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/480)
Introduction to key concepts for the sustainable design of buildings and landscapes, including concepts that form the core of the U.S Green Building Council rating system (LEED). Introduction to LEED accreditation. Same as UP 480. 2 undergraduate hours. 2 graduate hours.

LA 482 Advanced Communication in Urban Design credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/482)
This intensive, advanced, representation course teaches the use of software and workflow procedures used to design urban settings, visualize design ideas for 21st-century urbanism, and communicate ideas about urban design to professionals and non-experts. Students will gain advanced skills for creating three-dimensional representation of urban designs. 4 undergraduate hours. 4 graduate hours. Prerequisite: Students should have skills at intermediate level representation and have the equivalent skills and knowledge of the material in LA 280 and LA 281. Concurrent enrollment in either LA 438 - Design Workshop Studio II or LA 538 - Urban Design Research Studio. Students must have at least Senior standing.

LA 501 Landscape Arch Theory & Prac credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LA/501)
Seminar to introduce the discipline, profession, and practice of landscape architecture. Emphasis is on understanding the skills and knowledge base of the profession including environmental, social, and historical factors in design.

LA 505 Methods in Arch & LA History credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/505)
Seminar on the historiography of architectural and landscape history, including an introduction to the major concepts and figures in the discipline, past and present. Students will learn of approaches historians have used for analyzing the built environment from traditional methods to newer interpretive frameworks, and examine how contemporary values determine or inform the writing of history.

LA 506 Landscape and Vision credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/506)
A study of the major 20th-century texts on vision, perception, and perspective as applied to architecture and landscape. Prerequisite: Doctoral students only; master's level students must receive permission from instructor.

LA 513 History of World Landscapes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/513)
Introduction to the landscape architectural heritage of the past in its social, environmental and historical context. Same as ARCH 513.

LA 515 Hist & Thry of Modrn Land Arch credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/515)
A selected overview of developments in landscape architecture in the western world from 1900 to the present. Prerequisite: LA 513 or approval of instructor.
LA 535  Local Policy & Immigration  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/535)
Same as UP 535 and SOCW 535. See UP 535.

LA 537  Landscape Plan & Design Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/537)
Ecological design and planning studio emphasizing design that reflects evaluation and integration of human and environmental research results. Detailed investigation of design options. Additional fees may apply. See Class Schedule. Prerequisite: LA 441 and LA 450, or consent of instructor.

LA 538  Urban Design Research Studio  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LA/538)
This advanced studio broadens and strengthens students' understanding of urban design research methods and prepares students to conduct independent urban design work. Students learn research strategies and methods and examine research precedents and texts during the first portion of the course. In the second portion, students develop and carry out individual research design proposals. The semester ends with formal presentations of the findings from the design research projects. 5 graduate hours. No professional credit. Prerequisite: Concurrent enrollment in LA 482: Contemporary Representation in Urban Design required.

LA 562  Social Construction of Space  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/562)
Same as ANTH 557. See ANTH 557.

LA 563  Soc/Beh Research Designed Env  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/563)
Same as ARCH 563. See ARCH 563.

LA 570  Landscapes and Human Health  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/570)
We will explore the challenge of, and science behind, creating healthy, sustainable places. We will engage this topic by learning about four mechanisms through which places impact health. We will examine the empirical evidence in support of each of these mechanisms. Learning in this course grows from a series of readings, active participation in class discussion, and the development of a review paper or a research proposal. Same as CHLH 580 and GEOG 561. 3 graduate hours. No professional credit. Prerequisite: Graduate student standing.

LA 587  Graduate Seminar  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/587)
Preparation, presentation, and discussion of research papers on current and future areas of landscape architectural application. May be repeated. Prerequisite: Consent of instructor.

LA 589  Sustainable Urban Design Theory  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/589)
This advanced theory seminar introduces students to key urban design theory literature that draw on a range of disciplines and subjects. This seminar situates urban design at the overlap of architecture, landscape architecture, and urban planning, and examines the historic and contemporary influences of those environmental arts on urban design theory and practice. 4 graduate hours. No professional credit.

LA 590  Directed Research  credit: 1 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LA/590)
Nature and scope of projects to be determined by consultation between student and faculty adviser; open to landscape architecture majors as well as those from other disciplines who wish to engage in interdisciplinary work. Additional fees may apply. See Class Schedule. Approved for letter and S/U grading. May be repeated. Prerequisite: Consent of instructor.

LA 592  Urban Design Capstone Studio  credit: 6 Hours. (https://courses.illinois.edu/schedule/terms/LA/592)
In this summer studio, students will work closely with their instructor to turn their design research strategies from LA 538 Urban Design Research Studio into solutions customized specifically for their particular site, client, and set of constraints. Students will draw upon previous coursework in theory, design, research, real estate, and representation to produce comprehensive and compelling design solutions and demonstrate how their solutions meet a variety of performance criteria. 6 graduate hours. No professional credit. Prerequisite: LA 538 Urban Design Research Studio. This course is open only to students enrolled in the Masters of Sustainable Urban Design program.

LA 593  Islamic & S Asian Landscapes  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/593)
Topics in Islamic and South Asian cultural landscape history, including historiography, methodology and recent scholarship. An advanced course that requires disciplinary familiarity with research on the built environment, material culture and visual culture. May be repeated to a maximum of 8 hours per semester; may be repeated to a maximum of 12 total hours.

LA 594  Cultural Heritage  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LA/594)
Topics in cultural landscape heritage, conservation planning and design. Investigates theories of landscape, heritage, and their intersections, with readings drawn from anthropology, geography, and landscape studies, as well as applied work on historical landscape conservation, preservation and management. Same as ANTH 594. May be repeated to a maximum of 10 hours per semester; may be repeated to a maximum of 16 total hours. Prerequisite: Concurrent enrollment in LA 438 may be required in the spring semester; check Class Schedule.

LA 597  Research Design & Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LA/597)
This graduate-level course provides instruction and application of research and scholarly methods for landscape architecture and related fields. Students are introduced to the basic steps of inquiry and development of a thesis/research proposal. Course content includes: problem identification; choosing and articulating a research topic; synthesis of topical/theoretical background from literature; choice of research strategy; design of a plan for investigation; selection of data sources, methods and analysis; proof of concept; feasibility planning; and other necessary components of a successful research proposal. 3 graduate hours. No professional credit. Prerequisite: Second year or post-professional MLA students; graduate students in other majors may enroll with permission of instructor.

LA 598  Master's Project  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LA/598)
Major independent or small-group project synthesizing knowledge from previous coursework. Approved for letter and S/U grading. Prerequisite: Consent of instructor and program adviser.

LA 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LA/599)
Approved for S/U grading only. May be repeated. Prerequisite: Graduate standing in landscape architecture.

Latin (LAT)

LAT Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAT)
Courses

LAT 101 Elementary Latin I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/101)
Grammar and reading for students who have had no work in Latin.

LAT 102 Elementary Latin II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/102)
Grammar and reading of easy prose. Prerequisite: LAT 101 or one year of high school Latin.

LAT 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAT/199)
May be repeated.

LAT 201 Intermediate Latin  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/201)
Review of grammar; reading of easy narrative prose. Prerequisite: LAT 102 or two years of high school Latin.

LAT 202 Intro to Latin Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/202)
Continuation of LAT 201, with readings chiefly in Latin poetic literature.

LAT 401 Survey of Latin Literature  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAT/401)
Intermediate level readings in classical Latin literature. 3 undergraduate hours. 2 graduate hours. May be repeated for a total of 6 undergraduate hours or 4 graduate hours in separate semesters, if topics vary. Prerequisite: LAT 202 (formerly LAT 104) or four years of high school Latin.

LAT 411 Intermediate Prose Composition  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAT/411)
Practice in the writing of Latin prose. 3 undergraduate hours. 3 graduate hours. Prerequisite: LAT 202 (formerly LAT 104) or the equivalent.

LAT 460 Medieval Latin  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/460)
Literary and historical texts in prose and poetry will be read in the original; the course will also cover patristic writings. Same as MDVL 460. 3 undergraduate hours. 4 graduate hours. Prerequisite: Two years of college Latin or consent of instructor.

LAT 491 Readings in Latin Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/491)
Readings in authors or special topics chosen by the instructor from the entire extant literature in Latin. 3 undergraduate hours. 4 graduate hours. May be repeated. Prerequisite: Three years of college Latin or equivalent; consent of instructor.

LAT 492 Senior Thesis  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/492)
Thesis and honors. For candidates for honors in Latin and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

LAT 493 Independent Reading  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/493)
See Department of the Classics for information. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours or 12 graduate hours. Prerequisite: LAT 401 and consent of instructor.

LAT 498 Senior Survey  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/498)
For candidates for honors in Latin and for other seniors. 2 or 4 undergraduate hours. No graduate credit. Prerequisite: Senior standing and consent of Classics Honors Program.

LAT 511 Advanced Prose Composition  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAT/511)
Practice in writing Latin prose, with special attention to stylistic questions.

LAT 520 Proseminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/520)
Alternating poetry and prose, concentrates on a major author from one of the following areas: epic, oratory, lyric and elegiac poetry, history, drama, philosophy, satire, or epistolography. Areas normally follow this sequence in successive years. May be repeated to a maximum of 20 hours if topics vary. Prerequisite: LAT 491 or equivalent.

LAT 531 Special Disciplines  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/531)
Same as GRK 531. See GRK 531.

LAT 580 Latin Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/580)
Research on special problems of Latin literature; required of all majors in classical philology. May be repeated if topics vary. Prerequisite: A Latin proseminar.

LAT 595 Intro to Classical Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAT/595)
Same as GRK 595. See GRK 595.

LAT 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LAT/599)
Guidance in writing theses for advanced degrees. Approved for S/U grading only. May be repeated.

Latin American & Caribbean St (LAST)

LAST Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAST)

Courses

LAST 170 Introduction to Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/170)
Interdisciplinary introduction to the ways of life of Latin American peoples, their origins and current expressions; discusses social, economic issues, and domestic and international policies related to them in the context of other societies in developing countries. This course satisfies the General Education Criteria for: Cultural Studies - Non-West Social Beh Sci - Soc Sci

LAST 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAST/199)
May be repeated.

LAST 232 Spanish in the Community  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/232)
Same as SPAN 232. See SPAN 232.

LAST 240 Constr Afr and Carib Identity  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/240)
Same as AFST 209, CWL 225, and FR 240. See FR 240. This course satisfies the General Education Criteria for: Cultural Studies - Non-West
LAST 325 Social Media and Global Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/325)
Same as EPS 325, AFST 325, ASST 325, EURO 325, INFO 325, REES 325, and SAME 325. See EPS 325.

LAST 342 Arts of Colonial Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/342)
Same as ARTH 342. See ARTH 342.

LAST 343 Arts of Modern Latin America  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/343)
Same as ARTH 343. See ARTH 343.

LAST 395 Special Topics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/395)
Topical survey of cultural, social, economic, and political factors in Latin American life. Each term a particular topic is considered. Prerequisite: A basic course in a humanities or social science discipline.

LAST 440 International Water Project I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/440)
Same as ENG 440. See ENG 440.

LAST 441 International Water Project II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAST/441)
Same as ENG 441. See LAST 441.

LAST 445 Native Latin Amer Languages  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/445)
Upon the consent of the Director of the Center for Latin American and Caribbean Studies, tutorials are available in special native Latin American languages not regularly offered by the University (ie. Quechua, Kagchikel Mayan). Tutorials at the elementary, intermediate, and advanced levels may be arranged. Students registering for unit credit for the first two terms must first present satisfactory evidence of knowledge of the language at the elementary level, either in the form of credit earned at another institution or by passing a proficiency examination. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated in 6 terms successively, to a maximum of 16 hours. Graduate credit is given only for work beyond the elementary level. Prerequisite: Consent of instructor.

LAST 490 Individual Study  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAST/490)
Major tutorial normally taken in the senior year. Students read the works from list devised in consultation with a faculty tutor and write a term paper. 1 to 5 undergraduate hours. 1 to 5 graduate hours. May be repeated as topics vary to a maximum of 6 hours. Prerequisite: LAST 170; a declared major in Latin American and Caribbean Studies; consent of instructor.

LAST 550 Interdisc Seminar Latin Am St  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/550)
Examines the interconnections among research approaches and problems in the field of Latin American and Caribbean Studies. May be repeated to a maximum of 8 hours if topics vary. Prerequisite: M.A. standing in Latin American and Caribbean Studies or consent of instructor.

LAST 597 M.A. Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/597)
Open to students who choose to complete their M.A. by submitting two departmental papers. May be repeated in the same or subsequent terms to a maximum of 8 hours. Prerequisite: M.A. standing in Latin American Studies and consent of instructor and advisor.

LAST 599 Thesis Research  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAST/599)
Preparation of M.A. thesis. Approved for S/U grading only. May be repeated to a maximum of 8 hours with approval. Students may register in more than one section per term. Prerequisite: M.A. standing in Latin American and Caribbean Studies and consent of instructor.

Latina/Latino Studies (LLS)

LLS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/LLS)

Courses

LLS 100 Intro Latina/Latino Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/100)
Interdisciplinary introduction to the basis for a Latina/Latino ethnicity in the United States. Topics include immigration and acculturation experiences and their commonalities and differences, comparison of Latina/Latino experiences to those of other racial, ethnic and immigrant groups, and the potential for a pan-ethnic identity.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - US Minority

LLS 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LLS/199)
May be repeated.

LLS 200 U.S. Race and Empire  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/200)
Same as AAS 200. See AAS 200.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - US Minority

LLS 201 US Racial & Ethnic Politics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/201)
Same as AAS 201, AFRO 201, and PS 201. See PS 201.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci
Cultural Studies - US Minority

LLS 215 US Citizenship Comparatively  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/215)
Same as AAS 215, AFRO 215, AIS 295, and GWS 215. See AAS 215.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - US Minority

LLS 220 Latina/o Migration  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/220)
General overview of international migration to the United States, using Latin American migration to the U.S. as the focal point. Topics discussed include the history of international migration to the United States, the relationship between history and the contemporary context, the development of U.S. immigration policy, the incorporation of Latino immigrants in U.S. society, and immigrant and community responses to migration. Same as SOC 221.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci
Cultural Studies - US Minority
LLS 227 Latina/Latinos in the Contemporary United States  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/227)  
Same as SOC 227. See SOC 227.  
This course satisfies the General Education Criteria for:  
Cultural Studies - US Minority

LLS 230 Latina/o Genders & Sexualities  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/230)  
Survey of major theories and debates surrounding the gendered and  
sexualized dimensions of the Latina/o experience in the United States.  
The course is comprised of three major units: Gender, Sexuality, and Sex.  
In these units, students will read about and discuss issues pertaining to  
femininity/marianismo, masculinity/machismo, family/familism, desire,  
sexual behavior, sex work, sexual and gendered violence, and gendered  
and sexualized representations in pop culture. Same as GWS 230.  
This course satisfies the General Education Criteria for:  
Cultural Studies - US Minority

LLS 238 Latina/o Social Movements  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/238)  
Focuses on the history and theory of Latina/o social movements.  
Topics include immigrant mobilizations, transnational organizing,  
agrarian and farm worker movements, political representation, feminisms  
and reproductive rights, environmental justice, labor and educational  
struggles, and urban social movements. Same as HIST 292.

LLS 240 Latina/o Popular Culture  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/240)  
Provides an introduction to Latina/o popular culture in the United States.  
Specific modes of popular culture might include mass media, music, film,  
video, performance, and other expressive forms. Lecture and readings are  
in English. Same as ENGL 224 and SPAN 240.  
This course satisfies the General Education Criteria for:  
Cultural Studies - US Minority

LLS 242 Intro to Latina/o Literature  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/242)  
Survey of literature by and about people of Mexican, Puerto Rican, Cuban,  
and other Latina/o descent in the United States. Taught in English. Same  
as ENGL 225 and SPAN 242.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority

LLS 246 Gender & Sexuality in Latina/o Literature  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/246)  
Same as SPAN 246. See SPAN 246.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority

LLS 250 Latina/os on the Bronze Screen  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/250)  
Critical, historical, and theoretical exploration of Latina/o representations  
in U.S. film from the 1900s to the present. Examination of cinematic  
representations as well as the social, political, and cultural context in  
which those representations are produced. The focus is on Mexican American  
and Puerto Rican images, but Hollywood's treatment of other  
Latina/o communities and ethnic groups will be discussed. Students will  
be required to attend weekly movie screenings. Same as MACS 250.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - US Minority

LLS 258 Muslims in America  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/258)  
Same as AAS 258 and REL 258. See AAS 258.  
This course satisfies the General Education Criteria for:  
Social Beh Sci - Soc Sci  
Cultural Studies - US Minority

LLS 259 Latina/o Cultures  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/259)  
Same as ANTH 259. See ANTH 259.

LLS 260 Graffiti and Murals  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/260)  
Same as ARTH 260. See ARTH 260.  
This course satisfies the General Education Criteria for:  
Humanities - Lit Arts  
Cultural Studies - Western

LLS 265 Politics of Hip Hop  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/265)  
Examines hip hop as politics, culture, and commodity. Emphasis given to  
hip hop's relation to urban spaces deeply impacted by state surveillance,  
cuts in social welfare programs, immigration, and the global restructuring  
of capital. Also considers the viability of a "politics of hip hop" in the  
wake of the music's rising value as a global commodity and analyzes hip  
hop as a transnational site in which gendered and sexual identities are  
created, contested, and rearticulated. Same as AAS 265.  
This course satisfies the General Education Criteria for:  
Cultural Studies - US Minority

LLS 278 Mapping Latina/o Inequalities  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/278)  
Explores contemporary structural forces that contribute to the  
concentration of Latinas/os in segregated neighborhoods, and the  
detrimental effects of housing inequality on Latina/o communities.  
Focuses on the influence of geographic context in creation and  
maintenance of racial inequalities as they affect urban, suburban, and  
small town locals. Further examines the role of space and place in the  
development and persistence of community identities. Same as SOC 278.

LLS 279 Mexican-American History  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/279)  
Examination of the history of Mexican Americans living within the United  
States from the Spanish Conquest to the twentieth century. Explores the  
process of migration, settlement, assimilation, and discrimination with  
emphasis on continuity and change in Mexican cultural development.  
Same as HIST 279.  
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority

LLS 280 Caribbean Latina/o Migration  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/280)  
Same as HIST 280. See HIST 280.  
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority

LLS 281 Constructing Race in America  
credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/281)  
Same as AAS 281, AFRO 281, and HIST 281. See HIST 281.  
This course satisfies the General Education Criteria for:  
Humanities - Hist Phil  
Cultural Studies - US Minority
LLS 296 Topics Latina/o Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/296)
Course examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity, historical foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in same or separate terms to a maximum of 6 hours.

LLS 301 19thC US Latina/o Lit-ACP credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/301)
Focuses on the fiction (historical novels and poetry) as well as the critical essays of the 1848 Mexican-American War and the 1898 Spanish-American War, the two key 19th century events that determined the status of the people of the Caribbean and Mexican descent in the United States. Prerequisite: Completion of campus Composition I general education requirement.
This course satisfies the General Education Criteria for:
Advanced Composition
Humanities - Hist Phil
Cultural Studies - US Minority

LLS 305 Theories of Race, Gender, and Sexuality credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/305)
Same as AAS 300 and GWS 305. See AAS 300.
This course satisfies the General Education Criteria for:
Advanced Composition
LLS 308 Spanish in the United States credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/308)
Same as SPAN 308. See SPAN 308.
LLS 310 Race and Cultural Diversity credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/310)
Same as AAS 310, AFRO 310, and EPS 310. See EPS 310.
This course satisfies the General Education Criteria for:
Advanced Composition
Cultural Studies - US Minority

LLS 316 Latina/Latino Politics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/316)
Same as PS 316. See PS 316.

LLS 320 Gender & Latina/o Migration credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/320)
Study of the gendered social process of international immigration, focusing on Latin American migration to the United States. Established theories of migration, the history of international immigration to the U.S., and historical and contemporary Mexico, Caribbean and Central American migration flows will be discussed in great detail. Primary focus on how gender shapes the migration experiences of immigrants and the gendered impact of migration on the economic, political, and social status of individuals. Same as SOC 321 and GWS 320. Prerequisite: LLS 100 or SOC 100.

LLS 322 US Latina and Latino Families credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/322)
Same as HDFS 322. See HDFS 322.
This course satisfies the General Education Criteria for:
Cultural Studies - US Minority

LLS 343 Criminalization and Punishment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/343)
Examines how populations are criminalized due to race/ethnicity, gender, sexuality, class, and immigration status. Readings analyze how laws are created and normalized. In order to effectively engage in critical inquiry, students will be asked to suspend moral judgments so that they can analytically approach the study of crime, criminals, and criminal activity. Same as AAS 343, AFRO 343, AIS 343, and GWS 343.

LLS 355 Race and Mixed Race credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/355)
Explores the history of racial classification in the U.S. with special attention to the census and the role of the state more generally in defining race. Emphasis on how race-mixing has been understood in American culture, and on the current literature on “multiracials” and the future of “race” in the U.S. Readings are drawn from interdisciplinary sources, but examined from a sociological perspective. Same as AAS 355 and SOC 355. Prerequisite: Any lower division LLS or SOC or AAS course.

LLS 360 Contemporary US Latina/o Lit credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/360)
Focuses on the major U.S. Latina/Latino writers and texts and their depictions of the events that have shaped 20th and 21st Century U.S. Latina/Latino cultures.
This course satisfies the General Education Criteria for:
Humanities - Lit Arts
Cultural Studies - US Minority

LLS 368 Latinas/os & Public Policy credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/368)
Examines the effectiveness of current U.S. public policies in addressing the social, economic, and political problems affecting Latina/o individuals and communities. Specifically, it evaluates current policy in the areas of public assistance, fair housing, criminal justice, immigration enforcement, and reproductive health. Although this interdisciplinary course primarily focuses on national policies and programs, it also addresses, as necessary, the particulars of public policy in the state of Illinois.

LLS 370 Latina/o Ethnography credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/370)
Addresses the theoretical, methodological, and ultimately political implications and questions generated by a range of ethnographic materials on Latina/os. Specifically explores culture and power (e.g., racism, sexism, and activism) through ethnographic methods and modes of representation, including literature. Fundamental to the course is the requirement that students engage in ethnographic practice, producing ethnographic research on Latina/os at the University of Illinois. Same as ANTH 370. Prerequisite: Any lower division course in LLS or ANTH.

LLS 372 Immigration, Law, and Rights credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/372)
Same as AAS 370. See AAS 370.

LLS 375 Latina/o Media in the US credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/375)
Same as MACS 375. See MACS 375.

LLS 377 Prisons, Race, and Terror credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/377)
Same as AAS 375. See AAS 375.
LLS 379  Latina/os and the City  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/379)
Examination of the migration and settlement of Latina/o populations (Mexicans, Puerto Ricans, Cubans, Dominicans, and Central and South Americans) in U.S. cities. Focus on the historic, economic, social and political factors that influenced these migrations and the choices migrants made to come to the United States and to urban areas in particular. Study of the regional variation among Latina/o groups, and coalition building and collaborative ventures between Latina/os and other communities of color in urban areas. Same as HIST 379.

LLS 382  Race and Migration in Chicago  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/382)
As the "Second City" located in the heartland of America, Chicago is central to many debates on urban space, race, and nation. Specifically, it is an influential site in which Latina/os, African-Americans, Asian-Americans, and ethnic whites have come to understand meanings of race in a highly segregated setting. This course takes an interdisciplinary approach to the study of racial and ethnic groups in this city, examining issues of migration, gender, segregation, labor, and education from the late nineteenth century to the present. Same as HIST 382. Prerequisite: One course in either LLS or HIST.

LLS 385  Theory and Methods in LLS  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/385)
Introduction to the interdisciplinary theories and methods of Latina/Latino Studies. Traditional approaches to the study of ethnicity and race will be interrogated through critical scholarship produced by Latina/Latino Studies scholars across a variety of approaches (anthropology, communications, literature, history, sociology, among others). By learning about a variety of methodological approaches, students will become proficient in conducting ethnic studies research projects about U.S. Latina/o populations. Prerequisite: LLS 100.
This course satisfies the General Education Criteria for: Advanced Composition

LLS 387  Race, Gender and the Body  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/387)
Focuses generally on the relation between power and the body. In western culture, the body is typically thought of as a natural, biological entity. However, as a number of social theorists have pointed out, the body can never be reduced to mere biology. It is also always a product of culture and therefore necessarily implicated in relations of dominance and subordination. Using this framework, the class is specifically concerned with how raced, gendered, and sexed bodies have been imagined in US culture (as abnormal, diseased, criminal, etc.) and with how such bodies have been rendered objects of surveillance, discipline, and regulation. Same as SOC 387. Prerequisite: LLS 100.

LLS 390  Independent Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/390)
Special topics not treated in regularly scheduled courses; designed especially for advanced Undergraduates. Approved for letter and S/U grading. May be repeated in the same or subsequent terms as topics vary to a maximum of 6 hours. Prerequisite: One course in Latina/Latino Studies and consent of instructor.

LLS 391  Oral History Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/391)
Same as HIST 391. See HIST 391.

LLS 392  Chicanas&Latinas: Self&Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/392)
Explores the experiences of Chicanas and Latinas through the lens of contemporary sociological research. Topics to be discussed include: community formation and activism, Chicana/Latina feminisms, sexuality, religion, health, family, immigration, education, work, media, and artistic expression. Readings emphasize the link between the structural inequalities of society, and the day-to-day lived experiences of Chicanas/ Latinas. Same as GWS 392 and SOC 392. Prerequisite: Any 100, 200, or 300-level LLS, GWS, or SOC course. This course satisfies the General Education Criteria for: Advanced Composition

LLS 396  Adv Topics Latina/o Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LLS/396)
Examines specific topics in Latina/Latino Studies not addressed in regularly offered courses. Examples include theories of ethnic identity, historical foundations, cultural expression, and relevant topics in public policy studies of Latina/Latino communities. May be repeated in the same or separate terms to a maximum of 6 hours.

LLS 410  Writing Latina/o Chicago  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/410)
Examination of novels, poetry, film and memoirs by Latinas and Latinos writing from and/or about Chicago. Through these texts, the course will simultaneously track a Chicago-based Latina/o literary history and analyze articulations of Latina/o everyday life and politics grounded in the city's distinct topographical and social contexts. Issues of migration, gentrification, segregation, youth culture, gender, sexuality, race, violence, poverty, class consciousness, and struggles for social justice will figure prominently in lectures and class discussions. 3 undergraduate hours. 4 graduate hours. Prerequisite: LLS 100.

LLS 412  Hispanics in the U.S.  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/412)
Same as SOCW 412. See SOCW 412.

LLS 433  Found of Bilingual Educ  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/433)
Same as CI 433. See CI 433.

LLS 435  Commoditying Difference  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/435)
An interdisciplinary examination of how racial, ethnic and gender difference is negotiated through media and popular culture, and how racial, ethnic and gendered communities use cultural forms to express identity and difference. Among the theoretical questions explored are the politics of representation, ethnic/racial authenticity, cultural commodification and transnational popular culture. Some of the cultural forms examined are cultural festivals/parades, ethnic/race-based beauty pageants, cinematic and televisual texts and musical forms, such as Hip-Hop and Salsa. Same as AAS 435, AFRO 435, GWS 435, and MACS 432. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any combination of 6 hours from Latina/o Studies, Asian American Studies, Afro-American Studies, Gender and Women Studies or Media and Cinema Studies; graduate standing, or consent of instructor.

LLS 442  Latina Literature  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/442)
Examines literary productions by and about women of Mexican, Puerto Rican, Cuban, and other Latina/o descent in the United States. Taught in English. Same as GWS 445 and SPAN 442. 3 undergraduate hours. 4 graduate hours. Prerequisite: At least one previous course in U.S. Latina/Latino Studies or Gender and Women’s Studies, or consent of instructor.
LLS 449 Issues in Latina/o Educ credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/449)
Same as CI 449. See CI 449.

LLS 458 Latina/o Performance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/458)
Focuses on Latina/o performances to underscore the relationship between practices of everyday life and acts on stage. Pays particular attention to the material (human) body and bodies of work. Students will critically engage with performance theory and scripts, media works of performances, and theorizations of Latinidad and the body. Same as ENGL 458. 3 undergraduate hours. 4 graduate hours.

LLS 460 Critical Ethnic Studies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/460)
Same as AAS 400. See AAS 400.

LLS 465 Race, Sex, and Deviance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/465)
Explores how racial stereotypes rely on sexual stereotypes by examining the intersections of ethnic studies, gender and women’s studies, and queer studies. Interdisciplinary course that draws from critical legal studies, sociology, anthropology, literary criticism, and history. Same as AAS 465, AFRO 465, and GWS 465. 3 undergraduate hours. 4 graduate hours. Prerequisite: Any lower division course in LLS, AAS, AFRO, or GWS.

LLS 468 Latinas/os & the Law credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/468)
Examines the Latina/Latino experience in the U.S. how and when the law, through the courts, has most often operated as an instrument of subordination and oppression, but has also at times been leveraged for positive social transformation. Students will come to understand that the law is a deeply contested social space that is central to U.S. social hierarchies based upon race, ethnicity, sexuality, gender, class, immigration status, and religion. 3 undergraduate hours. 4 graduate hours.

LLS 472 Border Latina, Latino Cultures credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/472)
Same as ANTH 472. See ANTH 472.

LLS 473 Immigration, Health & Society credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/473)
This interdisciplinary seminar examines the social determinants of US racial and ethnic health inequalities through the lens of (im)migration. Topics to be addressed include: conceptualizations of race and ethnicity, immigrant-adaptation theories, discrimination, place, and the intersections of race, ethnicity, poverty, immigration, gender and health. Same as CHLH 473, SOC 473, and SOCW 473. 3 undergraduate hours. 4 graduate hours.

LLS 475 History of the American West credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/475)
Same as HIST 476. See HIST 476.

LLS 479 Race, Medicine, and Society credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/479)
The idea of race has historically been central to how Western cultures conceptualize and think about human difference. This course examines the historical significance of race through one domain of knowledge: medicine. Specifically, it will be concerned with "race" as a central category in the medical construction and management of individuals and populations. Case studies might focus on colonial medicine, race and public health, sexuality and reproduction, global health disparities, and genetics and genomics. Same as AAS 479 and ANTH 479. 3 undergraduate hours. 4 graduate hours. Prerequisite: LLS 100 or consent of instructor.

LLS 490 Research and Writing Seminar credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/490)
This capstone seminar, designed for advanced majors in LLS, will guide students through the process of writing a senior research paper relevant to the field of Latina/Latino Studies. Students will develop research skills through discussions, writing exercises, and workshops. 4 undergraduate hours. No graduate credit. Prerequisite: LLS 385; senior standing; and enrollment as a major in Latina/Latino Studies.

LLS 495 Senior Honors Thesis credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/495)
Research project leading to a thesis. 2 or 4 undergraduate hours. No graduate credit. May be repeated in separate terms to a maximum of 4 undergraduate hours. May be taken by honors students in partial fulfillment of department honors requirement. Prerequisite: Senior standing; enrollment as a major in Latina/Latino Studies; a cumulative grade point average of at least 3.25; a minimum 3.5 grade point average in the major; and consent of supervising professor.

LLS 496 Seminar in Latina/o Studies credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/496)
3 undergraduate hours. 4 graduate hours. May be repeated up to a maximum of 6 undergraduate hours or 12 graduate hours.

LLS 517 Bilingual and English as a Second Language Assessment credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/517)
Same as CI 517. See CI 517.

LLS 554 Inequalities In A Diverse Society credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/554)
Same as HDF 541 and SOCW 554. See SOCW 554.

LLS 561 Race and Cultural Critique credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/561)
Same as AAS 561, AFRO 531, ANTH 565, and GWS 561. See AAS 561.

LLS 577 Perspectives in LLS credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/577)
Provides an overview of scholarly work and research in the field of Latina/o Studies. Prerequisite: One undergraduate or graduate course in Latina/Latino Studies or consent of instructor.

LLS 590 Independent Study credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/590)
Independent study on special topics not treated in regularly scheduled courses. Approved for letter and S/U grading. May be repeated to a maximum of 8 hours.

LLS 596 Graduate Seminar in LLS credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LLS/596)
Examination of specific topics in Latina/Latino Studies. Topics vary. May be repeated in the same or subsequent semesters to a maximum of 12 hours.

Information listed in this catalog is current as of 07/2019
Law (LAW)

LAW Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/LAW)

Courses

LAW 199 Undergraduate Open Seminar  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/199)
Approved for letter and S/U grading. May be repeated in the same term up to 6 hours, if topics vary. May be repeated in separate terms up to 12 hours, if topics vary.

LAW 201 Basic Constitutional Law & Individual Rights  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/201)
An introduction to the main themes of the American Constitution - with an emphasis on the First and Fourteenth Amendments - and to basic techniques of constitutional interpretation. Attention will be paid to the interplay of constitutional text, judicial doctrine, and constitutional decision-making outside the judiciary. No prerequisites.

LAW 301 Introduction to Law  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/301)
Guides the undergraduate student in an initial study of law and legal reasoning. Covers the nature and function of rules/law, the distinctiveness of legal reasoning, and the way in which law responds to social phenomena and contributes to the development of different social, business and economic institutions. Includes both criminal and civil proceedings. Serves as a general foundation course for those interested in applying to law school. Also of interest to students who are not interested in pursuing a more formal law education, but for whom general legal training will enhance their career aspirations. Develops skills that are transferable to virtually any career. This course satisfies the General Education Criteria for: Humanities - Hist Phil

LAW 302 Transitional Justice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/302)
Wrongdoing is part of the history of many, if not most, political communities around the globe. This course examines the moral questions that dealing with past wrongdoing raise. Our focus is specifically on political wrongdoing, that is, wrongdoing inflicted on individuals by the state or groups contesting the state. Such wrongdoing has taken different forms, from slavery, to forced disappearances, to programs of torture and of land appropriation. We also focus on two specific political contexts: the United States and South Africa. In this course, we survey a range of legal measures including criminal punishment, truth commissions, reparations, and apology, that have been, and can be used, to deal with legacies of wrongdoing. Not available for Graduate or Professional credit. This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - US Minority

LAW 303 Living the Law  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/303)
This course first applies the legal understanding developed in LAW 301 to situations in the real world, and then explores how the law is viewed through different social science lenses. Students interested in deepening their knowledge of how the law operates in today's world, and how the law is studied in the social sciences will benefit from this class. Prerequisite: LAW 301.

LAW 499 LAW Study Abroad  credit: 0 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LAW/499)
Provides campus credit for study at accredited foreign institutions or approved overseas programs. Final determination of credit granted is made after the student's successful completion of work. 0 to 8 undergraduate hours. 0 to 8 graduate hours. Approved for letter and S/U grading. Prerequisite: Full academic standing in the College of Law or Graduate College and consent of major department. Law students, successful completion of the year's requirements.

LAW 500 LLM Legal Writing and Research  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/500)
Designed and developed to equip incoming LL.M students with the necessary background in U.S. constitutional law, legal research, analysis, and writing for effective classroom performance. Approved for S/U grading only. Prerequisite: Admission to the U.S. LLM program.

LAW 501 Professional Responsibility  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/501)
This course concerns itself with the laws, regulations, and customs that govern the legal profession in the United States, and considers those matters in the context of an increasingly globalized legal profession. 3 or 4 graduate hours. No professional credit. Students will be expected to attend class, review the assigned reading before class, participate in class discussions and exercises, complete written assignments, and examinations.

LAW 598 Law Partner Scholar Notation  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAW/598)
Illinois Law Partner Scholars Program requirements provide designated students an opportunity to enhance their professional and personal competences in four areas: cultural awareness, leadership and team-building, academic excellence, and community involvement. The activities and contributions of designated students will advance the development of global law practice skills within the College of Law: 1) by providing points of comparison and contrast to U.S. Law; and 2) by understanding the social and business context of law outside the U.S. 0 graduate hours. No professional credit. Approved for S/U grading only. Prerequisite: For students who are identified by Illinois Law Partner schools for admission into the Illinois LL.M. program.

LAW 599 Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LAW/599)
Approved for S/U grading only.

LAW 600 Pro Bono Service  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAW/600)
Course carries no academic credit, but recognizes law students who provide at least sixty hours of pro bono legal service to the community. The sixty hours of service may be performed at any time during the student's three years of law school, and must be documented through reports to the Associate Dean for Academic Affairs. 0 graduate hours. 0 professional hours. Approved for S/U grading only. Students may enroll only with permission of the Associate Dean for Academic Affairs. Prerequisite: Enrollment in the J.D. or LL.M. program at the College of Law.

LAW 601 Contracts  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/601)
Enforceability of promises including unjust enrichment and reliance, offer and acceptance, mistake, unfairness and overreaching, unconscionability, Statute of Frauds, interpretation of contract language, conditions, and third party beneficiaries. 4 graduate hours. 4 professional hours.
LAW 602  Property  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/602)
Basic first-year course in property law, required of all students. Provides an overview of law of the land, with incidental coverage of personal property; includes the concept of property, acquisition of private property, recognized property interests, and gratuitous transfer of property interests. 4 graduate hours. 4 professional hours.

LAW 603  Torts  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/603)
Basic course in civil wrongs, including intentional torts (such as assault and battery), negligence (duty, unreasonable risk analysis, actual and proximate cause), and strict liability. 4 graduate hours. 4 professional hours. Prerequisite: Law students only.

LAW 604  Criminal Law  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/604)
Sources and purposes of the criminal law; the meaning of criminal responsibility; and the characteristics of particular crimes. 4 graduate hours. 4 professional hours. Prerequisite: Law students only.

LAW 605  Criminal Proc: Investigation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/605)
Problems in the administration of criminal justice with emphasis on right to counsel, arrest, search, interrogation, lineups, and the scope and administration of exclusionary rules. 4 graduate hours. 3 professional hours.

LAW 606  Constitutional Law I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/606)
Basic first-year course provides an introduction to constitutional law, including the origins of judicial review, basic Article III limits on federal court jurisdiction, the nature and scope of federal legislative power, the Commerce Clause, and the relationship of the federal government to the states. 4 graduate hours. 4 professional hours.

LAW 607  Civil Procedure  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/607)
Role and importance of procedure in litigation, including jurisdiction, pleadings and parties, pretrial motions and discovery, trial practice (except evidence), relationship between judge and jury, the effect of a decision in one case on subsequent litigation between the same or different parties (res judicata), verdicts and judgements, and appellate review. 4 graduate hours. 4 professional hours.

LAW 609  Legal Writing & Analysis  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/609)
Emphasis on development and improvement of skills in legal writing, and training in legal bibliography. Assignments may include brief writing and preparation of legal memoranda and opinions. 3 graduate hours. 2 professional hours.

LAW 610  Introduction to Advocacy  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/610)
Continuation of LAW 609. Introduction to Advocacy is required in the second semester of the first year for further development of legal research skills persuasive writing and oral advocacy. Each student will work on the preparation of a summary judgment motion and an appellate brief relating to their first semester assignment, then argue their assigned case before a panel of local attorneys and faculty. 2 graduate hours. 3 professional hours. Approved for Letter and S/U grading.

LAW 612  Constitutional Law III  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/612)
This elective for second-and third-year law students is an intensive study of the First Amendment to the Constitution and its application to the states through the Fourteenth Amendment. Examines decisions of the U.S. Supreme Court in areas concerning freedom of speech, religion, and the press. Specific topics include punishment of criminal advocacy; regulation of picketing and public demonstrations; obscenity; commercial speech; regulation of news media; and religious exemptions from government regulation. 4 graduate hours. 3 professional hours. Prerequisite: LAW 606.

LAW 615  Administrative Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/615)
Functions of administrative tribunals in federal, state, and municipal government; the procedure before such administrative tribunals; and judicial relief from administrative decisions. 4 graduate hours. 3 professional hours.

LAW 616  Environmental Law and Pol I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/616)
Course is the basic introduction to Environment Law; it considers the principal legal approaches used to deal with environmental problems, including common-law, statutory, regulatory, and economic-incentive systems. 4 graduate hours. 3 professional hours.

LAW 618  Natural Resources  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/618)
Legal problems associated with the ownership and use of land, water, and mineral resources. 2 or 4 graduate hours. 3 professional hours.

LAW 619  Wildlife Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/619)
Covers a variety of legal issues relating to the status and treatment of wildlife and the management of natural areas for the conservation of biodiversity. 4 graduate hours. 3 professional hours.

LAW 620  Health Law Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/620)
This course focuses on the profound legal and policy issues raised by changes in health law and the U.S. health care delivery system including: access to health law and the U.S. health care delivery system including: access to health services; the financing and organization of the health care system; development of legal standards to ensure quality of care; and issues of long-term care. In addition, we will focus on the process of making laws and polices; what entities, institutions, and individuals control decisions about the quality and cost of health care. We will also explore the need and basis for reform. 4 graduate hours. 3 professional hours.

LAW 622  Land Use Planning  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/622)
Examination of the legal and administrative aspects of land development and regulation in an urban society, including the techniques and problems of planning; the tools of plan effectuation, such as zoning, subdivision regulation, renewal and redevelopment, and housing programs; and the allocation of decision-making among various levels of government. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 624  Real Estate Finance  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/624)
Methods of financing land acquisition and residential and commercial development, including publicly owned and subsidized housing. 4 graduate hours. 3 professional hours.
LAW 625 State and Local Government credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/625)
The law governing the structure, powers, and operation of local governments in urban and suburban areas with analysis of political, economic, and social implications. 4 graduate hours. 3 professional hours. Prerequisite: LAW 606.

LAW 627 Legal Research credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/627)
Introduction to the basic tools and methodology used in conducting legal research and will develop the skills necessary to identify and locate relevant, complete and current legal information in both print and digital formats. Weekly problem-based research exercises will be assigned. 1 graduate hour. 1 or 2 professional hours. Approved for letter and S/U grading. Required in the first year, fall term.

LAW 629 Bankruptcy credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/629)
Study of the regulation of the relationship between debtors and creditors under the federal Bankruptcy Code. 4 graduate hours. 3 or 4 professional hours.

LAW 631 Secured Transactions credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/631)
Study of secured transactions under Article 9 of the Uniform Commercial Code. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 633 Business Associations I credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/633)
Examines the basic legal consequences for individuals, organizations, and society of the formation, control, and financing of organizations. Surveys agency relationships, partnerships, and close and public corporations. 4 graduate hours. 3 or 4 professional hours.

LAW 634 Securities Regulation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/634)
Explores the federal securities laws governing issuance of securities in the primary markets. Emphasis on regulatory requirements governing corporate financing. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 635 Securities Litigation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/635)
Focuses in detail on the substantive law and strategic considerations that are important in securities litigation, whether private suits by individual investors, private class actions under federal securities laws, or federal and state government enforcement proceedings. Topics include: 10(b) fraud suits under the 1934 Act, 11 and 12(a)(2) suits under the 1933 Act, insider trader liability, procedural issues in class actions, and litigation under federal proxy solicitation and tender offer regulations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 636 Business Associations II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/636)
The second course in the sequence. Covers derivative suits, corporate finance, introduction to securities regulation, insider trading and mergers and acquisitions. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 638 White Collar Crime credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/638)
This course will focus on the federal statutes commonly invoked in corporate and white collar prosecutions, including those used in prosecutions for conspiracy, mail and wire fraud, RICO, extortion, bribery, tax offenses, obstruction of justice, and false statements. The class will investigate the theoretical and policy framework for individual and institutional responsibility in our criminal justice system and will also explore emerging theories of corporate criminal liability and the principles underlying the sanctions imposed for white collar crime. Prerequisite: This course is appropriate for law students who have completed introductory courses in criminal law and procedure. Some students have found it helpful to complete the course in LAW 633 before taking this course, but it is not a prerequisite.

LAW 639 Corporate Finance credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/639)
Analysis of corporate and securities law problems using the tools of modern financial theory. Emphasis will typically include valuation, capital structure, and fundamental changes of public corporations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 633.

LAW 642 Antitrust Law credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/642)
The limitations imposed by the Sherman Act, Clayton Act, and Federal Trade Commission Act on anticompetitive practices by business firms; emphasizes price fixing and other agreements among competitors, monopolization, mergers, exclusive dealing, tying arrangements. Considers applicability of traditional rules to intellectual property and new technologies. 4 graduate hours. 3 professional hours.

LAW 643 Trademark & Unfair Competition credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/643)
Course introduces basic legal concepts relating to statutory and common-law trademark, interference with contractual relations and trade libel, the federalization of unfair competition law, and the role of the Federal Trade Commission in consumer protection activities. 4 graduate hours. 3 professional hours.

LAW 644 Copyright Law credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/644)
Offers an in-depth look at the legal aspects of copyright with special emphasis on the application of traditional copyright principles to new technologies and media of expression. 4 graduate hours. 3 professional hours.

LAW 645 Patent Law credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/645)
Historical development of protection of ideas, inventions, and discoveries; patentability; securing the patent; amendment and correction of patents; and infringement remedies, defenses, and procedure. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 647 Income Taxation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/647)
The fundamental course in federal income taxation. Includes materials relating to income taxation of individuals and an introduction to taxation of corporations and shareholders. 4 graduate hours. 3 or 4 professional hours.

LAW 648 Corporate Taxation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/648)
In-depth study of federal income tax law related to taxation of corporations, shareholders, partnerships, and partners. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647.

Information listed in this catalog is current as of 07/2019
LAW 649 Partnership Taxation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/649)
Involves the study of Subchapter K of the Internal Revenue Code, including partnership formation, allocations, distributions, and liquidations. Also examines the tax treatment of Subchapter S corporations. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647.

LAW 651 Tax Exempt Organizations  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/651)
Covers the rationale and technical tax requirements for exempting charities from federal and state taxes. Subjects will include the rationale for exemption (especially with respect to churches, schools, and hospitals), qualification rules under I.R.C. Section 5 (c) (3), the Unrelated Business Income Tax, and if time permits, the charitable contributions deduction. 4 graduate hours. 3 professional hours. Prerequisite: LAW 647 is a prerequisite, though it may be waived in appropriate cases.

LAW 653 International Business Trans  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/653)
Doing business abroad: export-import regulations, use of foreign commission merchants, licensing of patents and know-how, investment and exchange problems, establishing a foreign operation (including forms of business organization available abroad), and application of United States and foreign antitrust law to the business operation. 4 graduate hours. 3 professional hours.

LAW 654 International Trade Policy  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/654)
Analysis of the regulation of trade between nations by international agreement (e.g., the GATT), by multinational organizations (e.g., the European Communities), and by individual countries; emphasizes U.S. import restraints, export controls, and related laws. 4 graduate hours. 3 professional hours.

LAW 655 European Union Law  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/655)
Intensive study of the European Common Market, particularly of its laws relating to trade barriers, establishment of companies, and antitrust; and United States legislation in the field of international trade. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 656 International Law  credit: 3 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/656)
The nature, sources, and subjects of international law and its place in the control of international society; includes an examination of the law of jurisdiction, territory, recognition and succession of states, rights and immunities of states in foreign courts, diplomatic immunities, treaties, protection of citizens abroad, settlement of international disputes, war and neutrality, the United Nations, and the International Court of Justice. 4 graduate hours. 3 professional hours.

LAW 657 International Human Rights Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/657)
Studies established and developing legal rules and procedures governing the protection of international human rights, including Marxist and Third World, as well as Western, conceptions of those rights. 4 graduate hours. 3 professional hours.

LAW 660 Individual Employee Rights  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/660)
This course investigates the legal rights and responsibilities of employees in the non-union workplace. The course will emphasize particularly the role of law in adjusting the balance of power between individual employees and employers. It will study the regulation of contract, tort, and statute of such areas as hiring, discharge, compensation, employee privacy and dignity and the like.

LAW 662 Labor Law I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/662)
Study of the National Labor Relations Act as amended, the pre-act history of the labor movement, and the judiciary's response thereto, with emphasis on understanding the problems, experiments, and forces leading to the enactment; includes the negotiation and administration of the collective bargaining agreement, especially the grievance arbitration procedure, its operation and place in national labor policy, and explores the relationship of the individual and the union. Same as LER 547. 4 graduate hours. 3 or 4 professional hours.

LAW 664 Employment Discrimination  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/664)
Problems arising under federal statutory prohibitions of discrimination in employment, with particular emphasis on evidentiary problems and the use of statistical proofs; defining relevant labor pools, using statistical analyses of data, and establishing proof of test validation. 2 or 4 graduate hours. 2 to 3 professional hours.

LAW 665 Workplace Dispute Resolution  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/665)
Same as ECON 543 and LER 543. See LER 543.

LAW 667 Family Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/667)
The creation and dissolution of the family, and legal relationships established by marriage, cohabitation and procreation. Covers the law of marriage, divorce, annulment, separation, unmarried cohabitation, illegitimacy, adoption and rights of child custody, parental property on divorce, inheritance, and related rights. Legal rules are placed into the social setting in which they operate, and emphasis is given to family policy as reflected in current developments in family law reform, including constitutional law. 4 graduate hours. 3 professional hours.

LAW 668 Decedents' Estates and Trusts  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/668)
Studies the means of transferring wealth, with primary emphasis on gratuitous transfers; the means available for making gratuitous transfers, including the validity and effect of testamentary instruments and trust deeds; and problems concerning the dispositive provisions of any type of instrument which transfers wealth. 4 graduate hours. 3 professional hours.

LAW 670 Elder Law  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/670)
Examines the various legal implications of people living longer, with special emphasis on public policies and programs affecting the financing of medical care, housing arrangements, and income maintenance of persons aged 60 years and older. 4 graduate hours. 3 professional hours.
LAW 673 Workers Compensation credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/673)
A general survey class on rules relating to workers compensation claims and litigation. Begins with an overview of the historical development of workers compensation laws, then surveys the general principles applicable to such laws, with particular emphasis on the Illinois Workers Compensation Act. Guest speakers will include an arbitrator, a petitioner's attorney, and a claims manager. 3 graduate hours. 2 professional hours.

LAW 675 Products Liability credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/675)
Substantive theories of products liability: negligence, breach of warranty, strict liability, and tortious misrepresentation; procedural and remedial problems with, and defenses to, each substantive theory. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 676 Insurance Law credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/676)
Covers principles generally applicable to insurance law and includes distinctive rules governing certain types of insurance coverage; objectives are to examine the nature of the insurance contract, marketing of insurance, principles of indemnity, individuals and entities protected by insurance rules, and risks that are shifted by insurance coverage. 4 graduate hours. 3 professional hours.

LAW 678 Anthropology and Law credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/678)
Same as ANTH 560. See ANTH 560.

LAW 679 Criminal Proc: Adjudication credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/679)
Problems in the administration of criminal justice, with emphasis upon the commencement of formal proceedings (bail, decision to prosecute, grand jury, preliminary hearing, location of prosecution, scope of prosecution, speedy trial); the adversary system (pleas, discovery, jury trials, prejudicial publicity, ethical problems, double jeopardy); and post conviction review (post-trial motions, appeals, habeas corpus, related post-conviction remedies). 4 graduate hours. 3 professional hours.

LAW 680 Professional Responsibility credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/680)
Problem course analyzing ethical issues that arise in the practice of law and considering the approaches to such issues taken by the American Bar Association's Code of Professional Responsibility, Model Rules of Professional Conduct, and Code of Judicial Conduct. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 682 Evidence credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/682)
Law governing the proof of disputed issues of fact; function of the court and jury; competence and examination of witnesses; standards of relevancy; privileged communications; illegal evidence; hearsay rule; best evidence rule; presumptions; and judicial notice. 4 graduate hours. 3 or 4 professional hours.

LAW 683 Complex Litigation credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/683)
Legal and practical issues in "complex" cases: problems of joinder in multi-party cases, consolidation of cases brought independently (including the activities of the Judicial Panel of Multidistrict Litigation), class actions, discovery issues including the assertion and waiver of evidentiary privileges and use of computers, consequences of active judicial "management" of litigation at the pretrial stage, settlement of complex cases, and res judicata problems. 4 graduate hours. 3 professional hours.

LAW 684 Federal Courts credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/684)
Examination of the relationship of federal courts to other organs of federal government and to the states, including an analysis of cases dealing with congressional control over jurisdiction, federal review of state court decisions (including the relationship between state and federal substantive and procedural law), and application of law to fact; the scope of the federal question of jurisdiction in federal courts; abstention; federal injunctions of state criminal proceedings; and problems of justiciability, advisory opinions, and mootness. 4 graduate hours. 3 professional hours.

LAW 685 Dispute Resolution credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/685)
Examination of the limitations, consequences, and costs, as well as the indispensability of some aspects of modern litigation; the possibilities, requirements, and legal problems of consensual and of court-annexed dispute resolution processes alternative to final judicial adjudication, including legal counseling, negotiation, mediation, arbitration, mini-trials, summary trials, summary jury trials, early neutral evaluation, private resolution providers, and settlement processes; current disputes used for illustration. 2 to 4 graduate hours. 2 to 3 professional hours.

LAW 686 Remedies credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/686)
Survey of legal and equitable remedies for the protection of personal and property rights. Procedural and substantive aspects of injunctions; restitution of unjust enrichment in the context of the receipt of unsolicited benefits, benefits derived from the commission of tortious acts, and the mistaken acquisition of benefits; alternative remedies arising from bargain transactions; and remedies for violations of civil rights. 2 or 4 graduate hours. 2 to 3 professional hours.

LAW 687 Jurisprudence credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/687)
The place of law in society; the nature, goals, and methods of law; and the relation of law and social science. 4 graduate hours. 3 professional hours.

LAW 688 American Legal History credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/688)
Studies selected topics in the development of law and legal institutions in the United States with particular emphasis on the history of the legal profession, legal education, and the role of lawyers and courts in U.S. society. 4 graduate hours. 3 professional hours. Prerequisite: Some prior study of U.S. history, particularly social and intellectual, is helpful but not required.

LAW 689 Law and Economics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/689)
Introduction to the economic analysis of law, including property, contracts, torts, criminal law, and related topics. 4 graduate hours. 3 professional hours.

LAW 692 Field Placements credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/692)
Several field placements offer practical legal education, through field work in various agencies. Students engage in legal work under the supervision of experiences attorneys; the work may include conducting client interviews; doing legal research and fact investigation, preparing legal documents, negotiating, and in some cases, engaging in real trials. 1 to 4 professional hours. May be repeated in the same or separate terms.
LAW 693 Clinical Training  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAW/693)
Several clinics offer practical legal education through a variety of in-house clinics. The clinics focus on specific lawyering skills that are relevant to a particular area of practice (e.g., litigation or family advocacy), and have a classroom component. Students engage in legal work under the supervision of experienced attorneys; the work may include conducting client interviews, doing legal research and fact investigation, preparing legal documents, negotiating, and in some cases, engaging in real trials. No graduate credit. 1 to 5 professional hours. Approved for Letter and S/U grading. May be repeated for up to 12 professional hours if topics vary.

LAW 694 Trial Advocacy  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LAW/694)
Examination of the problems of advocacy and tactics at the trial level. Students engage in all aspects of actual trial work, including witness preparation, opening and closing statements, direct and cross examination, and jury instructions; culminates in student conduct of a full jury trial in late spring; demonstrations are conducted by staff and visiting judges and practitioners. 2 professional hours. 3 graduate hours. May be repeated to a total of 4 hours. Approved for both letter and S/U grading. Prerequisite: Completed or enrolled concurrently with LAW 682.

LAW 695 Fundamentals of Trial Practice  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/695)
Explores the theory and reality of trial practice, from developing a theory of the case through submission of jury instructions; topics include fact gathering, jury selection, opening statements, direct and cross-examination, exhibits, expert witnesses, and closing arguments. 3 professional hours. 4 graduate hours. Approved for both letter and S/U grading. Prerequisite: LAW 694 and completion or concurrent enrollment in LAW 682.

LAW 696 Legal Problems  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/696)

LAW 697 Moot Court  credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/697)
Preparation of an appellate brief; presentation of an appellate oral argument; participation in intramural, state, national, or international moot court competition. 1 to 3 graduate hours. 1 to 2 professional hours. Approved for S/U grading only. May be repeated to a maximum of 5 hours.

LAW 699 Independent Study  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/LAW/699)
Individual research on a special problem selected in consultation with the instructor. 0 to 2 graduate hours. 0 to 2 professional hours. Approved for letter and S/U grading. May be repeated to a maximum of 2 hours.

LAW 792 Current Legal Problems  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/792)
This is an umbrella course listing for specialty topics of current legal issues of interest. Additional fees may apply. See Class Schedule. 2 to 4 graduate hours. 1 to 4 professional hours. Approved for letter and S/U grading. May be repeated.

LAW 793 Advanced Litigation Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/793)
This is an umbrella course listing for specialty topics of current interest in litigation. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for letter and S/U grading. May be repeated if topics vary.

LAW 794 Adv Topics in Business Law  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/794)
This is an umbrella course listing in business law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for letter and S/U grading. May be repeated if topics vary.

LAW 795 Adv Topics in Criminal Law  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/795)
This is an umbrella course listing in criminal law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. May be repeated if topics vary.

LAW 796 Comparative Law Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/796)
This is an umbrella course listing in comparative law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. Approved for letter and S/U grading. May be repeated if topics vary.

LAW 797 Intellectual Property Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/797)
This is an umbrella course listing in intellectual property law for specialty topics of current interest. 1 to 4 graduate hours. 1 to 4 professional hours. May be repeated if topics vary.

LAW 798 Seminars  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAW/798)
This is an umbrella course listing for specialty topics of special interest. Approved for professional and graduate credit. May be repeated.

Liberal Arts and Sciences (LAS)

LAS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LAS)

Courses

LAS 100 Success in LAS for International Students  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/LAS/100)
Prepares international students for their transition to campus by examining expectations and focusing on the purpose and value of the higher education experience from a US perspective. Introduces critical concepts to know about academic programs, and engages students in planning their program of study as well as their personal and professional development. Serves as a complement to LAS 101/LAS 102/LAS 122 for students new to the US education system.

LAS 101 Freshman Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/101)
Orientation seminar for first-year students enrolled in LAS curricula. Prepares students for collaborative learning environments through campus orientation, study skills, and project-based assignments. Introduces students to the multiple perspectives represented by the Humanities, the Social Sciences, and the Physical and Life Sciences, and helps them appreciate the strengths and weaknesses of both qualitative and quantitative data in addressing real world problems. Prerequisite: Restricted to first-year students in LAS.
LAS 102  Transfer Advantage  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/102)
Introduction for first-term transfer students to the college and campus.
Familiarizes transfer student with the resources available to them and helps them connect with other students and form a bond with the college. Prerequisite: For first-term LAS transfer students only.

LAS 110  Workshop-Tutorial  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LAS/110)
Independent study and experimental seminars open to Unit One students and to others; specific offerings vary each term. Approved for letter and S/U grading. May be repeated if topics vary. Credit toward college or departmental requirements is contingent upon approval by the appropriate unit. A total of 12 hours of LAS 110 credit may be applied toward graduation in the College of Liberal Arts and Sciences. Prerequisite: Unit One students or consent of Unit One Director.

LAS 122  Leadership and Society  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/122)
Engages first-year LAS honors students in the realms of citizenship, stewardship and leadership for the 21st century. En route to becoming competent and agile learners, first-year honors students experience an orientation to Illinois that fosters greater awareness and knowledge of campus resources and an examination of scholarly and personal leadership, global issues, and civic engagement. The course serves as a means for students to enhance their independence, cultural awareness and connection to community. Students work with a small cohort of peer scholars in a one-hour weekly graded session led by an upper-level LAS James Scholar peer mentor. Students are expected to work together and individually on projects involving community partners and campus groups. Assignments will incorporate the concept of service in connection with civic engagement.

LAS 199  Undergraduate Open Seminar  credit: 0 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LAS/199)
Topics will vary. See class schedule. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated.

LAS 289  Internship Experience  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAS/289)
Students follow a program of study and research through an approved internship. Written work report required. Approved for S/U grading only. May be repeated in separate semesters. Prerequisite: Consent of course instructor required. Restricted to students enrolled in the College of Liberal Arts and Sciences.
This course satisfies the General Education Criteria for:
UIUC: Ugrad Zero Credit Intern

LAS 290  FLAS Seminar  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/LAS/290)
Foreign Language and Area Studies Off-Campus Studies provides campus credit for off-campus study by undergraduate Foreign Language and Area Studies Fellows. Final determination of appropriate credit is made by a faculty review committee upon completion of the student's approved foreign language program. May be repeated in separate terms to a maximum of 12 hours. Prerequisite: Junior standing; intermediate or advanced study of a less-commonly taught language; awarding of FLAS fellowship by campus Title VI National Resource Center; prior review and approval of the student's program by Center's FLAS Fellowship Coordinator.

LAS 291  Global Perspectives for Intercultural Learning  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LAS/291)
Prepares students who are going abroad for a semester or academic year for their transition through a) examining expectations, b) focusing on the purpose and value of the abroad experience, c) preparing students culturally and logistically, d) addressing issues of culture shock, e) helping students with articulating their experience for future personal and professional goals, f) enhancing intercultural communication and global understanding, and g) assisting with re-entry planning. Approved for S/U grading only. May be repeated in separate terms.

LAS 292  Global Perspectives in Cross-Cultural Contexts  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/LAS/292)
Provides an opportunity for students studying abroad to consider how their journey might be articulated as a global learning experience. Requires students to discuss what they are learning, reflect upon it, and discern ways to apply the knowledge gained through their experiences. May be repeated in separate terms. Prerequisite: LAS 291.

LAS 299  LAS Study Abroad  credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/LAS/299)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student’s completion of the work. Approved for letter and S/U grading. (Summer session, 0 to 8 hours). May be repeated to a maximum of 36 term hours per academic year or to a total of 44 term hours, all of which must be earned within one calendar year. Prerequisite: One year of residence at UIUC, good academic standing, and prior approval of the major department and the College of Liberal Arts and Sciences.

LAS 399  Leadership & Professional Development  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LAS/399)
Leadership and professional development seminar for student interns. Interns will learn teaching, mentoring, leadership and professional skills that will enable them to lead a section of an LAS transition course or experience and share their successful academic experiences with undergraduate students who are new to the University. Interns will help their students develop the skills necessary to succeed at the University. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Instructor approval required.

LAS 490  LAS Advanced Seminar  credit: 1 to 6 Hours. (https://courses.illinois.edu/schedule/terms/LAS/490)
See Class Schedule for current topics. 1 to 6 undergraduate hours. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours.

LAS 494  Senior Project  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LAS/494)
For students seeking graduation with distinction in IPS. 2 or 4 undergraduate hours. No graduate credit. May be repeated to a maximum of 4 undergraduate hours. Prerequisite: Consent of instructor and IPS Advisory Committee; open only to students whose major is IPS and who have a cumulative grade point average of at least 3.25.

Library & Information Science (LIS) -- Changed to Information Sciences (IS)
LIS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LIS)
Lingala (LGLA)

LGLA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LGLA)

Courses

LGLA 201 Elementary Lingala I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/201)
Introduction to Lingala; emphasizes grammar, pronunciation, reading and conversation in standard Lingala. Participation in language laboratory required. Same as AFST 211.

LGLA 202 Elementary Lingala II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/202)
Continuation of elementary Lingala, with introduction of more advanced grammar; emphasizes more fluency in speaking, reading, and writing simple sentences in standard Lingala. Same as AFST 212. Participation in language laboratory required. Prerequisite: LGLA 201.

LGLA 403 Intermediate Lingala I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/403)
Survey of more advanced grammar, with emphasis on increasing conversational fluency, composition skills, study of written texts in the standard and spoken Lingala dialects, and discussion of grammatical variations. Same as AFST 413. 4 undergraduate hours. 4 graduate hours. Prerequisite: LGLA 202.

LGLA 404 Intermediate Lingala II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/404)
Continuation of LGLA 403. Emphasizes ability to engage in reasonably fluent discourse in Lingala, comprehensive knowledge of formal grammar, and ability to read ordinary texts in various Lingala dialects. Same as AFST 414. 4 undergraduate hours. 4 graduate hours. Prerequisite: LGLA 403.

LGLA 405 Advanced Lingala I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/405)
Third-year Lingala with emphasis on conversational fluency and on increased ability in reading and comprehending texts, including newspaper prose and Central African cultural materials, in at least two Lingala varieties. Course will also deal with the advanced level grammar found in such texts. Same as AFST 415. 3 graduate hours. Prerequisite: LGLA 404 or equivalent.

LGLA 406 Advanced Lingala II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/406)
Continuation of LGLA 405 with increased emphasis on conversational fluency and comprehension of advanced level grammar in the reading of a variety of prose texts on current cultural issues. Same as AFST 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: LGLA 405 or equivalent.

LGLA 407 Topics Lingala Lang & Lit I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/407)
Selected readings from modern Lingala authors and composers, with a focus on novels, plays, music, and basic poetry illustrative of Central African cultural issues and advanced level Lingala grammar, as well as development of expository writing skills. Same as AFST 417. 3 undergraduate hours. 3 graduate hours. Prerequisite: LGLA 406.

LGLA 408 Topics Lingala Lang & Lit II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LGLA/408)
Continuation of LGLA 407 with increased emphasis on the reading and comprehension of literary texts exemplified in advanced level novels, plays, and poetry, as well as on advanced mastery of expository writing skills. Same as AFST 418. Prerequisite: LGLA 407.

Linguistics (LING)

LING Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/LING)

Courses

LING 100 Intro to Language Science  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/100)
Introduction to the theory and methodology of general linguistics; includes the various branches and applications of linguistics. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LING 104 Talking Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/104)
Same as ANTH 104. See ANTH 104. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LING 105 Language in Daily Life  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/105)
Analysis of what constitutes knowledge of language, how it is used in daily life, and how speakers are perceived by others. Emphasis on discovering what makes language function as it does through an examination of its forms and functions in real life. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LING 110 Cultural Experiences of the Muslim World  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/LING/110)
Explores the languages and cultures of the Muslim world through different co-curricular activities. Students will acquire a higher proficiency of the target language and exposure to other languages that are spoken within this region. They will expand their knowledge and gain a better understanding of the target culture as well as those in the Muslim world. Only offered in conjunction with the Summer Institute for Languages of the Muslim World. Additional fees may apply. See Class Schedule. Approved for S/U grading only. May be repeated if SILMW language course varies.

LING 111 Language in Globalization  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/111)
Introduction to the role of language in globalization by examining communication issues concerning language use across cultural, political and geographic boundaries. Explores the interaction of language and other cultural forms in the global context. Among the topics discussed are issues of identity, spread of English and its acculturation to local contexts of use, creativity in language mixing, language in global pop cultures, language in cyberspace, as well as minority language experiences, and loss of indigenous languages. This course satisfies the General Education Criteria for:
Cultural Studies - Non-West
LING 115 Language and Culture in India  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/115)
Examines the relationship between language and culture in the multilingual and multicultural context of India. Special topics of focus are: linguistic and cultural diversity in India, impact of the language and cultural contact on the structure and function of languages (convergence, diglossia, code-mixing, pidgins and creoles), language and identity, language of religion, language and gender, language in the media, literature and culture, language and power, language and globalization. Same as HNDI 115 and REL 115. This course satisfies the General Education Criteria for:
Cultural Studies - Non-West

LING 191 Freshman Honors Tutorial  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/191)
Study of selected topics on an individually arranged basis. Open only to honors majors or to Cohn Scholars. May be repeated once. Prerequisite: Consent of departmental honors advisor.

LING 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LING/199)
May be repeated.

LING 210 Language History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/210)
Addresses the question "Why does language change?" Specific topics include: the history and origin of writing; why pronunciation changes; change in vocabulary and what it tells us about change in culture and society; the relation between "language" and "dialect"; multilingualism and its consequences, including Pidgins and Creoles; genetic relationship between languages, with focus on the "Indo-European" family (English, German, French, Russia, Latin, Greek, and Sanskrit, etc.) and the relationships between human languages. Prerequisite: Fulfillment of the foreign language requirement of the College of Liberal Arts and Sciences. This course satisfies the General Education Criteria for:
Humanities - Hist Phil

LING 221 American Sign Language II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/221)
Same as SHS 221. See SHS 221.

LING 225 Language, Mind, and Brain  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/225)
Introduction to the theory and methodology of psycholinguistics with emphasis on language acquisition and linguistic behavior. This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

LING 240 Language in Human History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/240)
Role of language in the life of nations as a tool of communication, as a symbol of identity, and as a means of power. Scripts and orthographies, language planning, culture and language glossopolitics. Prerequisite: Three years of high school foreign language study or fulfillment of the foreign language requirement of Liberal Arts and Sciences. This course satisfies the General Education Criteria for:
Humanities - Hist Phil

LING 250 Language Diversity in the USA  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/250)
Investigation of the uses and users of different language varieties - English and non-English - as well as issues of language discrimination, gender/race/class, youth culture, and new communication technologies. This course satisfies the General Education Criteria for:
Social Beh Sci - Soc Sci

LING 270 Language, Technology & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/270)
What technologies have humans developed to augment the quintessential human ability: language? We start with the development of writing, the first technology that was specifically designed for language, and trace its history through the invention of printing, and into the digital age. With the advent of computers the relevance of language for technology has broadened significantly. We review technologies such as automatic speech recognition, speech synthesis and automatic translation, and discuss their implications for present and future human-machine interaction. Prerequisite: LING 100 or consent of instructor. This course satisfies the General Education Criteria for:
Social Beh Sci - Beh Sci

LING 290 Individual Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/290)
Individual readings and research reports on special topics dealing with the theoretical or applied aspects of the linguistic sciences. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor.

LING 291 Linguistics Laboratory Research Experience  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/291)
Supervised participation in laboratory or other research, usually as an assistant to a senior researcher. May be repeated up to a maximum of 9 hours. Prerequisite: Consent of instructor.

LING 300 Anat & Physiol Spch Mechanism  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/300)
Same as SHS 300. See SHS 300.

LING 301 Elements of Syntax  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/301)
Introduction to concepts and techniques essential for syntactic analysis and description, with special attention to testing analyses and justifying them. Prerequisite: LING 100 or consent of instructor. This course satisfies the General Education Criteria for:
Advanced Composition

LING 302 Elements of Phonology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/302)
Introduces elements of phonological theory and data analysis. Emphasis is placed on both Structuralist and Generative theories, introducing students to the principles of phonological contrast, allophony, neutralization, and markedness. Formal phonological models are considered, including both distinctive feature theory and prosodic theory. Equal emphasis is placed on linguistic data analysis. Prerequisite: LING 100 or consent of instructor.

LING 303 General Speech Science  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/303)
Same as SHS 301. See SHS 301.

LING 304 Elements of Morphology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/304)
An introduction to the concepts and methods of morphology, the linguistic study of word formation. We examine the smallest units of word structure—how they are arranged and organized, and how they interact with sentence structures (syntax) and sound patterns (phonology). Students will consider data from many different languages, and investigate how those languages are similar and different in terms of how they form their words. Prerequisite: LING 100.
LING 307  Elmnts Semantics & Pragmatics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/307)
Introduction to the theory of meaning for natural language, including techniques for the description of lexical meaning, compositional determination of phrase and sentence meaning, and pragmatist effects on interpretation in context. Same as PHIL 307. Prerequisite: LING 100 or consent of instructor.

LING 321  American Sign Language III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/321)
Same as SHS 321. See SHS 321.

LING 357  Intro to Conversation Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/357)
Analysis of everyday conversation and talk in institutional settings, including basic organizational features of talk such as turn-taking, sequences of actions, openings and closings, and repair; ways that participants use talk to perform social actions such as complimenting, inviting, arguing, blaming, and apologizing; and ways that talk is used in professional settings such as 911 emergency calls, courtroom interactions, and doctor-patient interviews to perform the work of these social institutions. Same as CMN 357.

LING 391  Honors Individual Study  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/391)
Study and research for honors thesis; open only to seniors in the linguistics major who are eligible for departmental distinction. May be repeated to a maximum of 8 hours. Prerequisite: Written consent of instructor and linguistics course average of 3.4.

LING 400  Intro to Linguistic Structure  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/400)
Introduction to the theory and methodology of the science of linguistics with special reference to phonology, morphology, syntax and semantics. Not intended for undergraduate majors in linguistics. 3 undergraduate hours. 4 graduate hours.

LING 401  Intro to General Phonetics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/401)
Introduction to the main branches of general phonetics and phonological theory; emphasis on analysis of non-Western languages and research techniques. 3 undergraduate hours. 4 graduate hours.

LING 402  Tools & Tech Spch & Lang Proc  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/402)
Introduction to aspects of the tools and methods of studies in speech and natural language processing (NLP), with a focus on programming for NLP and speech applications, statistical methods for data analysis, and tools for displaying and manipulating speech data. 3 undergraduate hours. 3 graduate hours.

LING 404  Tutorials in Non-Western Lang  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/LING/404)
Advanced or intensive language instruction in a selected non-Western language, excludes instruction in East or Southeast Asian languages. 1 to 5 undergraduate hours. 2 to 4 graduate hours. May be repeated with approval. Prerequisite: Consent of instructor.

LING 406  Intro to Computational Ling  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/406)
Introduces the field of natural language processing and computational linguistics. Topics include finite-state methods, parsing, probabilistic methods, machine learning in NLP, computational semantics and applications of NLP technology. The course is mostly about concepts rather than programming, though some programming assignments will be given. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 402 or a 100-level computer science programming course, or consent of instructor.

LING 407  Logic and Linguistic Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/407)
Introduction to the theory of logic as applied in linguistic analysis. Same as PHIL 407. 3 undergraduate hours. 4 graduate hours. Prerequisite: For undergraduate students: LING 307 or equivalent background with consent of instructor.

LING 410  Historical Linguistics  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/410)
Introduction to historical and comparative linguistics with particular attention to theoretical issues. 3 undergraduate hours. 2 or 4 graduate hours. Prerequisite: LING 401 (or concurrent registration), and either LING 301 and LING 302, or LING 400.

LING 412  Lang in African Culture & Soc  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/412)
Introductory survey of the role of language in African cultures and societies, with particular emphasis on the study of indigenous African linguae francae in multilingual settings, their spread, and use as media of communication in various domains, and as tools of development. Same as AFST 412. 3 undergraduate hours. 4 graduate hours. Prerequisite: AFST 222 or consent of instructor.

LING 415  Machine Translation: History and Applications  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/415)
Same as TRST 415. See TRST 415.

LING 416  Structure of French Language  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/LING/416)
Same as FR 416. See FR 416.

LING 418  Language & Minorities in Europe  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/418)
Same as EURO 418, FR 418, GER 418, ITAL 418, PS 418, SLAV 418, and SPAN 418. See FR 418.

LING 420  Intro to African Linguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/420)
Introduction to the genetic and typological classification of the main language families of Africa; concentration on grammatical and phonological characteristics. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100 or LING 400, consent of instructor.

LING 423  Language Acquisition  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/423)
Same as MACS 423 and PSYC 423. See PSYC 423.

LING 425  Intro to Psycholinguistics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/425)
Introductory survey of psychological and linguistic approaches to the study of communication. Same as MACS 425. 3 undergraduate hours. 4 graduate hours. Credit is not given for both LING 425 and PSYC 425. Prerequisite: An introductory course in linguistics or psychology.
LING 426  Child & Adult Lang Acquisition  credit: 3 or 4 Hours. The study of first and second language acquisition by children and adults. Course topics will include the following: first language acquisition, including signed and spoken languages; bilingualism and second language acquisition; the comparison of monolingual and bilingual language development. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or psychology.

LING 427  Language and the Brain  credit: 3 or 4 Hours. Same as PSYC 427 and SHS 427. See SHS 427.

LING 430  Intro to East Asian Ling  credit: 3 or 4 Hours. Introduction to the genetic relation of the Far Eastern languages with other languages; concentration on synchronic analysis of phonology and syntax. Same as EALC 430. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 400; consent of instructor.

LING 432  Gender and Language  credit: 3 or 4 Hours. Same as CMN 432 and GWS 432. See CMN 432.

LING 438  Philosophy of Language  credit: 3 or 4 Hours. Same as PHIL 438. See PHIL 438.

LING 450  Sociolinguistics I  credit: 2 to 4 Hours. Introduction to the fundamental concepts, philosophy, and research methods of the study of language in its social contexts. Special attention to language spread, and language variation; language attitudes; language diversity; code-switching; language standardization; and language identity and loyalty. 3 undergraduate hours. 2 or 4 graduate hours.

LING 462  Introduction to Romance Linguistics  credit: 3 or 4 Hours. Same as FR 462, ITAL 435, PORT 435, RMLG 435, and SPAN 435. See SPAN 435.

LING 469  Structure of Semitic Languages  credit: 3 or 4 Hours. In-depth survey of comparative issues in Semitic Linguistics, with particular emphasis on morphology, syntax, phonology and language change from the perspectives of current linguistic theories. Same as AFST 469. 3 undergraduate hours. 4 graduate hours. Prerequisite: LING 100, LING 400, or consent of instructor.

LING 480  Intro to Slavic Linguistics  credit: 3 or 4 Hours. Same as SLAV 480. See SLAV 480.

LING 489  Theoretical Foundations of SLA  credit: 3 or 4 Hours. General introduction to second language acquisition (SLA) theory. Examines nativist, interactionist and cognitive approaches to SLA and explores the role of learner characteristics. Same as FR 481, GER 489, ITAL 489, PORT 489, and SPAN 489. 3 undergraduate hours. 4 graduate hours. Prerequisite: An introductory course in linguistics or consent of instructor.

LING 490  Special Topics in Linguistics  credit: 3 or 4 Hours. Course provides an opportunity to focus on various subfields of the linguistic sciences, depending on the interests of the faculty and student. 3 undergraduate hours. 4 graduate hours. May be repeated as topic varies to a maximum of 9 undergraduate hours or 12 graduate hours. Students may register for up to two sections in the same term. Prerequisite: LING 100, LING 400, or consent of instructor.

LING 501  Syntax I  credit: 4 Hours. Introduction to the fundamental concepts, philosophy, and methods of syntactic theory. Prerequisite: LING 400 or equivalent.

LING 502  Phonology I  credit: 4 Hours. Examination of language-specific phonological problems with a view toward formulating a language-independent theory of phonology. Prerequisite: LING 401 or consent of instructor.

LING 504  Practicum  credit: 2 Hours. Supervised practical experience in extended linguistic research on individual topics of the student’s choice. Concurrent enrollment in at least 2 hours of LING 590 is required. May be repeated to a maximum of 4 hours. Prerequisite: LING 501 and LING 502.

LING 505  Language Teaching Practicum  credit: 1 Hour. Introduction for graduate teaching assistants to issues specific to the teaching of the so-called less commonly taught language (LCTLs) offered by the Department of Linguistics (African Languages, Arabic, Hindi, Persian, Sanskrit, and Turkish). Familiarizes the instructors with developments in second language acquisition research with special focus on LCTLs. Different approaches to LCTL teaching will be discussed together with practical information on how to develop instructional materials using new technologies and online resources. A number of presentations, demonstrations, and discussions will be led by visiting experts from UIUC and outside UIUC. May be repeated to a maximum of 2 hours in separate terms.

LING 506  Topics in Computational Ling  credit: 4 Hours. Provides an introduction to practical problems in computational linguistics in a laboratory setting. At the beginning of the semester, a substantial project will be assigned to the class, and the class will work as a team towards implementing a solution, and evaluating the final product against a test corpus, which will also be developed during the class. Topical readings will also be assigned and will be discussed. Approved for letter or S/U grading. May be repeated in more than one section per term to a maximum of 8 hours, if topics vary; may be repeated in subsequent terms to a maximum of 12 hours, if topics vary. Prerequisite: LING 406, and an introductory level Computer Science programming course, or consent of instructor.

LING 507  Formal Semantics I  credit: 4 Hours. Introduction to formal semantic theory for natural language, with attention to quantification, anaphora, tense, intensionality, and related topics. Same as PHIL 507. Prerequisite: LING 407 or consent of the instructor.

LING 512  Language and Culture  credit: 4 Hours. Same as ANTH 512. See ANTH 512.
LING 514 Design and Methodology in Linguistic Research credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/514)
Introduction to a quantitatively oriented approach to research design and methodology in language study, with emphasis on the construction of appropriate research designs for different subfields of linguistics (with a particular focus on designs for research in syntax/semantics and language acquisition / bilingualism). A variety of research methods are covered in detail, including both offline and online methodologies. Term paper required. 4 graduate hours. No professional credit. Prerequisite: LING 400 or equivalent; LING 425, or EIL 489 or consent of instructor.

LING 516 Field Methods credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/516)
Analysis of the phonetic, phonological, morphological, and syntactic structure of an undescribed language through the elicitation of data from a native language consultant. The class develops a linguistic sketch of the language, including a computerized lexicon. Prerequisite: LING 501 and LING 502.

LING 518 Language in Culture II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/518)
Same as ANTH 518. See ANTH 518.

LING 520 Acoustic Phonetics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/520)
Explores advanced issues in acoustic theory and digital signal processing in the context of linguistic phonetics and phonological research. Emphasis is placed on the spectral properties of speech sounds and their instrumental documentation. A significant portion of the course will utilize the phonetics laboratory. Prerequisite: LING 401 and LING 502.

LING 522 Articulatory Phonetics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/522)
Explores advanced issues in sound production in the context of linguistic phonetics and phonological research. Three main areas of focus include an overview of vocal tract physiology and anatomy, laboratory/instrumental methodology, and linguistic patterns such as assimilations and coarticulations. Prerequisite: LING 401 or equivalent.

LING 524 Dev Psycholinguistics credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/524)
Same as MDIA 524 and PSYC 524. See PSYC 524.

LING 525 Psycholinguistics credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/525)
Same as MDIA 525 and PSYC 525. See PSYC 525.

LING 529 Second Lang Acq & Bilingualism credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/529)
Research seminar: students will design and execute a research project on second language acquisition and/or bilingualism. Same as PSYC 529. Prerequisite: Consent of instructor.

LING 541 Syntax II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/541)
Issues in the theory and practice of syntactic description, with special attention to implications for universal grammar. Prerequisite: LING 501 or consent of instructor.

LING 542 Phonology II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/542)
Continuation of LING 502. Prerequisite: LING 502.

LING 547 Formal Semantics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/547)
A continuation of LING 507 covering advanced topics in formal semantic theory. Same as PHIL 547. Prerequisite: LING 507 or consent of instructor.

LING 550 Sociolinguistics II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/550)
Focus on a critical examination of issues in the theory and practice of sociolinguistics concerning the study of language variation from a cross-linguistic perspective, language diversity, multilingualism, language ideology and power. Prerequisite: LING 450 or equivalent.

LING 551 Pragmatics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/551)
Examination of the major theoretical frameworks in Gricean and post-Gricean pragmatics with an emphasis on theories of implicature, speech acts and im/politeness. Same as PHIL 551. Prerequisite: LING 501 and LING 507, or consent of instructor.

LING 559 Sem Romance Ling credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/559)
Same as FR 559, ITAL 559, PORT 559, RMLG 559, and SPAN 557. See SPAN 557.

LING 560 Seminar in Bilingualism credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/560)
Research-oriented seminar on theoretical and applied aspects of bilingualism; critical evaluation of linguistic, neurolinguistic, sociolinguistic, and psycholinguistic approaches to bilingualism; and concentration on selected case studies from Western and non-Western societies, especially Asia and Africa. May be repeated if topics vary. Prerequisite: LING 450 or an introductory course in linguistics.

LING 570 Seminar in Cognitive Science credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/570)
Same as PSYC 514, ANTH 514, CS 549, EPSY 551, and PHIL 514. See PSYC 514.

LING 575 Exper Phon I Spch Physiol credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/575)
Same as SHS 500. See SHS 500.

LING 576 Exper Phon II Spch Acous Perc credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/576)
Same as SHS 501. See SHS 501.

LING 581 Topics in Syntactic Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/581)
Investigation of syntactic universals; recent developments in the theory of syntax. May be repeated if topics vary. Prerequisite: LING 541 or consent of instructor.

LING 582 Topics in Phonological Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/582)
Recent developments in the theory of phonology. May be repeated if topics vary. Prerequisite: LING 542 or consent of instructor.

LING 584 Theories in Second Language Acquisition credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/584)
Same as CI 584, EALC 584, EPSY 563, FR 584, GER 584, ITAL 584, PORT 584, and SPAN 584. See SPAN 584.

LING 587 Topics in Sociolinguistics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/587)
Discussion of current topics in sociolinguistics that have relevance to contemporary societies. Approved for both letter and S/U grading. May be repeated in more than one section per term to a maximum of 8 hours. May be repeated in subsequent terms to a maximum of 12 hours. Prerequisite: LING 450.
LING 588  Sem Second Lang Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/588)
Same as EALC 588, FR 588, GER 588, ITAL 588, PORT 588, and SPAN 588. See SPAN 588.

LING 590  Special Topics in Linguistics  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/LING/590)
Individual studies in the areas of linguistics not covered by regular course offerings. May be repeated.

LING 591  Seminar in Linguistic Analysis  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/LING/591)
Discussion of advanced topics of current interest. May be repeated with approval. Prerequisite: LING 501 and LING 502.

LING 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/LING/599)
Approved for S/U grading only. May be repeated.

LiteraturesCulturesLinguistics (SLCL)
SLCL Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/SLCL)

Courses
SLCL 200  Topics in Global Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SLCL/200)
Explores the regional and global dimensions of a cultural theme or practice; topics vary and could include Global Languages and Cultures, Global Memory Studies, Global Cinema, Languages and Cultures of the Mediterranean, and Islands and Oceans. See Class Schedule for current topics. May be repeated in separate terms up to 9 hours if topics vary. This course satisfies the General Education Criteria for: Humanities - Hist Phil Cultural Studies - Western

SLCL 303  Intro to Research Methods  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/SLCL/303)
Introduces undergraduate students to both quantitatively and qualitatively oriented approaches to research design, data collection and data analysis in the study of language, literature, and culture. This course covers the basics of research design, archival methods, data collection, data analyses, and analytical writing appropriate for the disciplines represented in the School of Literatures, Cultures and Linguistics. Students develop their own research projects as part of the course. May be repeated in separate terms up to 6 hours if topics vary.

MBA Program (MBA)
MBA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MBA)

Courses
MBA 500  Issues in Business  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MBA/500)
MBA students are faced with a wide variety of issues in the work place. This course will introduce and encourage discussions related to careers transitions, leadership, ethics, and uses of technology in the work place. Guest lecturers and experts in their field will discuss different approaches to these issues and give students the opportunity to discuss strategies and practice skills that will prepare them for the business environment. 0 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: Co-requisite MBA 501 and MBA 502.

MBA 501  Foundations of Business I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/501)
Provides foundations in the form of principles, concepts, tools, and skills important both to the study of business and to the development of business acumen. Specific foundation topics include planning and measuring firm resources, economic theory of the firm, decision making under uncertainty, consumer behavior, financial management, business communication and computing. May be repeated in the same term. Credit is not given for MBA 501 and either ACCY 500, BADM 520, BADM 572, or ECON 567. Prerequisite: Admission to the Master of Business Administration program.

MBA 502  Foundations of Business II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/502)
Provides additional foundations in the form of principles, concepts, tools, and skills important both to the study of business and to the development of business acumen. Specific foundation topics include organizational theory and design, financial accounting and reporting, manufacturing and services processes, marketing management, business communications and computing. May be repeated in the same term. Credit is not given for MBA 502 and either ACCY 500, BADM 509, BADM 520, or BADM 567. Prerequisite: Enrollment in good standing in the MBA program.

MBA 503  Prin & Proc of Management I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/503)
Presents management topics important to the study of business organizations and the economic landscapes within which they exist. Specific topics include financial resources management, human resources management, strategic management and management of technology. May be repeated in the same term. Students who receive credit for MBA 503 may not receive credit for the following courses: FIN 520, BADM 508, and BADM 544. Prerequisite: Enrollment in good standing in the MBA program.

MBA 504  Prin & Proc of Management II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/504)
Presents additional management topics important to the study of business organizations and the economic landscapes within which they exist. Specific topics include financial management, global strategy, decision and risk analysis, leadership, and ethics. May be repeated in the same term. Prerequisite: Enrollment in good standing in the MBA program.

MBA 505  Topics in Management  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MBA/505)
Special topics important to the study of business and management. Examples of topics include international business, strategic thinking, operations analysis, project management, information technology, negotiations. May be repeated in the same term. Prerequisite: Enrollment in good standing in the MBA program.

MBA 520  Corporate and Global Strategy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MBA/520)
Focuses on key issues in formulating and implementing corporate strategies with an emphasis on the international operations of firms. Issues are approached from the orientation of the general manager, whose job is to diagnose what is critical in complex business situations and find realistic solutions to strategic and organizational problems. Designed to integrate various functional areas and provide a "total business" perspective on issues pertaining to corporate and international strategy. Builds on learning experiences in previous modules, and acts as an integrative capstone module. Prerequisite: Completion of the first year of the Master of Business Administration Program, including MBA 501, MBA 502, MBA 503, MBA 504, and MBA 505.
MBA 530 Internship  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/MBA/530](https://courses.illinois.edu/schedule/terms/MBA/530))
Approved for S/U grading only. May not be repeated for credit. 
Prerequisite: Completion of first year of Master of Business Administration program.

MBA 531 Special Projects  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/MBA/531](https://courses.illinois.edu/schedule/terms/MBA/531))
Individual projects selected by the student in consultation with a faculty member and approved by the executive officer of the program. Approved for letter and S/U grading. May be repeated in the same or subsequent terms to a maximum of 12 hours. Prerequisite: Completion of first year of Master of Business Administration program.

### Materials Science & Engr (MSE)

MSE Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/MSE](https://courses.illinois.edu/schedule/DEFAULT/MSE))

### Courses

**MSE 101 Materials in Today's World**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/101](https://courses.illinois.edu/schedule/terms/MSE/101))
Introduction to the field of materials science. Examination and demonstration of materials and their properties in the context of their use in everyday objects. Survey of the role materials have played and will continue to play in shaping society. Intended for non-engineering majors. Technical elective credit is not given to College of Engineering majors. This course satisfies the General Education Criteria for: Nat Sci Tech - Phys Sciences

**MSE 182 Introduction to MatSE**  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/182](https://courses.illinois.edu/schedule/terms/MSE/182))
Overview of MatSE as a basis for understanding how structure, property, and processing relationships are developed and used for different types of materials. Case studies of advances in new materials and processes illustrating the role of materials in modern society. Laboratory-discussion demonstrations and experiments. Design-team analysis or synthesis of objects that use materials creatively.

**MSE 183 Freshman Materials Laboratory**  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MSE/183](https://courses.illinois.edu/schedule/terms/MSE/183))
Team-based laboratory developing concepts introduced in MSE 182. Practical descriptions of materials concepts, literature research, experimental design, concept validation, teamwork, and presentation of results. Prerequisite: MSE 182.

**MSE 199 Undergraduate Open Seminar**  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/199](https://courses.illinois.edu/schedule/terms/MSE/199))
May be repeated to a maximum of 5 hours. May be repeated in the same term.

**MSE 201 Phases and Phase Relations**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/201](https://courses.illinois.edu/schedule/terms/MSE/201))
Understanding microstructure. Quantitative examination of phases (crystalline and non-crystalline structures) and the relationships between phases (phase diagrams). Commercial practices for producing desired microscopic phase configurations and macroscopic shapes (processing). Credit is not given for both MSE 201 and MSE 280. Prerequisite: MSE 182; credit or concurrent enrollment in CHEM 104, MATH 231 and PHYS 211.

**MSE 206 Mechanics for MatSE**  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/206](https://courses.illinois.edu/schedule/terms/MSE/206))
Statics, mechanics of materials, and fluid mechanics concepts pertinent to the fields of materials science and engineering: force resultant; stresses and strains produced in elastic bodies; microscopic effects of different loading states (tension, compression, torsion, and bending) on deformable bodies; beam stresses and deflections; three-dimensional stresses and strains; stress and strain-rate relationships for Newtonian and non-Newtonian fluids; conservation equations (control volume analysis) for fluid flow; Reynolds number; slow inertial and turbulent flows. Credit is not given for both MSE 206 and either TAM 251 or TAM 335. Prerequisite: MATH 225, MATH 241 and PHYS 211; credit or concurrent enrollment in CS 101 and MSE 201.

**MSE 280 Engineering Materials**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/280](https://courses.illinois.edu/schedule/terms/MSE/280))
Materials science and engineering of ceramics, electronic materials, metals and polymers. Bonding; crystallography; imperfections; processing and properties of semiconductors, polymers, metals, ceramics and composites; phase diagrams. Case studies. Credit is not given for both MSE 280 and any of CEE 300, ME 330, MSE 201. Prerequisite: CHEM 102 and PHYS 211.

**MSE 304 Electronic Properties of Matls**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/304](https://courses.illinois.edu/schedule/terms/MSE/304))
Experiments using optical and scanning electron microscopy and various thermal and thermodynamic measuring techniques. Familiarization with laboratory test instruments. MSE 304 and MSE 308 are approved for General Education credit only as a sequence. Both courses must be completed to receive Advanced Composition credit. Prerequisite: Credit or concurrent registration in MSE 401 and either MSE 201 or MSE 280. This course satisfies the General Education Criteria for: Advanced Composition

**MSE 307 Materials Laboratory I**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/307](https://courses.illinois.edu/schedule/terms/MSE/307))
Experiments characterizing mechanical, transport, and magnetic-electric properties of materials and the use optical and scanning electron microscopy and infrared spectroscopy. MSE 307 and MSE 308 are approved for General Education credit only as a sequence. Both courses must be completed to receive Advanced Composition credit. Prerequisite: MSE 307; credit or concurrent registration in MSE 304 and MSE 405. This course satisfies the General Education Criteria for: Advanced Composition

**MSE 308 Materials Laboratory II**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/308](https://courses.illinois.edu/schedule/terms/MSE/308))
Experiments characterizing mechanical, transport, and magnetic-electric properties of materials and the use optical and scanning electron microscopy and infrared spectroscopy. MSE 307 and MSE 308 are approved for General Education credit only as a sequence. Both courses must be completed to receive Advanced Composition credit. Prerequisite: MSE 307; credit or concurrent registration in MSE 304 and MSE 405. This course satisfies the General Education Criteria for: Advanced Composition

**MSE 395 Materials Design**  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MSE/395](https://courses.illinois.edu/schedule/terms/MSE/395))
Design of various engineering devices, objects, or systems. Team-based and faculty-guided projects directed toward the development of materials-based solutions to problems originating from student, faculty, and industrial suggestions. Solutions are based on the knowledge, skills, and design experience acquired in earlier course work and incorporate engineering standards and realistic constraints such as economic, environmental, sustainability, manufacturability, ethical, health and safety, social, and political concerns. Prerequisite: This course is available to engineering majors with senior standing only.
MSE 396  Introduction to Research  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/396)
Fundamental tenets of research including an introduction to laboratory safety, constructing a hypothesis, and the design of experiments to test the hypothesis. Basics of mathematical modeling and statistical analysis of data, including the analysis of research data. Emphasis on exposure to the basic procedures comprising engineering communication and the importance of verbal and written communication. Approved for Letter and S/U grading. May be repeated in separate terms.

MSE 397  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/397)
Individual study of any topic in materials science and engineering selected by the student and conducted under the supervision of a member of the faculty. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MSE 398  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/398)
Subject offerings of new and developing areas of knowledge in materials science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

MSE 401  Thermodynamics of Materials  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/401)
Basic thermodynamic principles including energy, entropy, and free energy; macroscopic properties of hard and soft materials systems, such as equilibrium states, phases, and phase transitions. Application of phase diagrams. Statistical interpretation of thermodynamics on the atomistic level. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MSE 401 and CHEM 444 or PHYS 427. Prerequisite: MSE 201 or MSE 280; credit or concurrent registration in MATH 285.

MSE 402  Kinetic Processes in Materials  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/402)
Kinetics of chemical reactions; rate equations, reaction mechanisms; transport processes; diffusion equations, atomic and molecular diffusion; phase transformations; nucleation, crystallization, displacive, spinodal decomposition; surface and interface phenomena; sintering, grain growth, recovery, and recrystallization. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 201 and MSE 401.

MSE 403  Synthesis of Materials  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/403)
Fundamentals of the synthesis of materials. Principles of synthesis; processes, approaches, synthetic methodology and probes; methodologies in materials synthesis; polymerization, sol-gel processes, liquid and vapor phase synthesis, materials coupling reactions, and precursor-derived, radiation-induced and asymmetric synthesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 201; credit or concurrent registration in MSE 401.

MSE 404  Laboratory Studies in Materials Science and Engineering  credit: 1.5 Hours. (https://courses.illinois.edu/schedule/terms/MSE/404)
Experiments include direct hands-on investigations or are performed through computational approaches. Laboratory experiences include both fundamental studies as well as investigations on more applied topics. 1.5 undergraduate hours. 1.5 graduate hours. May be repeated if topics vary. Prerequisite: MSE 307 and MSE 308 or permission of instructor. Senior standing.

MSE 405  Microstructure Determination  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/405)
Fundamentals and applications of various forms of microscopy and diffraction for characterization of physical microstructure of materials and of various forms of spectroscopy for characterization of chemical microstructure. 3 undergraduate hours. 3 graduate hours. Prerequisite: PHYS 214, CHEM 104, MSE 201, and MSE 307.

MSE 406  Thermal-Mech Behavior of Matls  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/406)
Fundamentals of elastic, viscoelastic and plastic deformation of materials, elementary theory of statics and dynamics of dislocations; strengthening mechanisms; behavior of composites; fracture and fatigue behavior; fundamentals of thermal behavior: heat capacity, thermal expansion and conductivity; effects of thermal stress. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MSE 406 and either ME 430 or TAM 424. Prerequisite: MSE 206; credit or concurrent registration in MSE 401.

MSE 420  Ceramic Materials & Properties  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/420)
Ceramic material fundamentals, emphasizing structure-property relations. Development, use, and control of the properties of a wide variety of ceramic materials from a physico-chemical point of view. 3 undergraduate hours. 3 graduate hours.

MSE 421  Ceramic Processing  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/421)
Microstructure development and processing of ceramic materials, with an emphasis on structure-property-processing relationships. Processing methodologies and their effects on microstructural development. Illustration and examination of several ceramic components within this context. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MSE 420.

MSE 422  Electrical Ceramics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/422)
Electrical ceramics, from insulators to conductors, and magnetic and optical materials; the role of the processing cycle and microstructure development on the design and performance of electrical components; capacitors, resistors, and inductors; structure-property relations for pyro-, piezo-, and ferroelectric materials; perovskite and spinel based structures; varistors, thermistors, transducers, actuators, memory elements, multilayered components, and their applications. Design project. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 420.

MSE 423  Ceramic Processing Laboratory  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/423)
Experiments and demonstrations involving a wide range of modern ceramic processing methods will be conducted to develop fundamental understanding of the relationships between raw materials, processing methods, microstructural development, and physical properties. Lab emphasis on the underlying physics and chemistry of processing and design of processing routes to achieve desired material properties. Technical reports. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 421.

MSE 440  Mechanical Behavior of Metals  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/440)
Mechanical behavior of solids: crystal plasticity, dislocations, point defects and grain boundaries, creep and fatigue behavior, and fracture. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 406.
MSE 441 Metals Processing credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/441)
Melt, mechanical, thermal, powder, and surface processing of metals. Extraction of metals, joining of metals, metal composites, and metal recycling. Relationships between the processing of metals, the microstructures that are produced, and the behavior of metal components. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 406.

MSE 442 Metals Laboratory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/442)
Advanced metallurgy laboratory. Effects of heat treatment; mechanical testing; oxidation and corrosion; metallography of selected alloys. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 308, MSE 440, and MSE 441.

MSE 443 Design of Engineering Alloys credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/443)
Application of science and engineering principles to the design, selection, and performance of engineering alloys. Alloy classes, design, effect of alloying elements, relation to processing variables, and structure-property relationships; design project. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 401 and MSE 402.

MSE 445 Corrosion of Metals credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/445)
Electrochemistry, thermodynamics, and kinetics of corrosion; behavior of ferrous and nonferrous metals; corrosion rates; corrosion control; cathodic and anodic protection; high-temperature corrosion; corrosion testing; electrolytic machining methods. 3 undergraduate hours. 3 or 4 graduate hours.

MSE 450 Polymer Science & Engineering credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/450)
Polymer solution properties, conformation, and molecular weight characterization. Rheological and viscoelastic behavior: relaxations and transitions, rubber elasticity. Crystallinity, morphology, and deformation of crystalline polymers. Blends and composites. Methods of fabrication. 3 undergraduate hours. 3 or 4 graduate hours.

MSE 452 Polymer Laboratory credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/452)
Experimental investigations of polymer synthesis, characterization (molecular, thermal, structural and electronic), processing and device fabrication. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 450.

MSE 453 Plastics Engineering credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/453)
Engineering characteristics of plastics; viscoelasticity, viscosity, yield, and fracture; reinforced polymers; processing; environmental considerations; applicability of technical data sheets; design (project); current advances. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 450.

MSE 454 Mechanics of Polymers credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/454)
Same as AE 427 and TAM 427. See TAM 427.

MSE 455 Macromolecular Solids credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/455)
Mechanical behavior of amorphous and semi-crystalline polymers; overview of polymer structure and characterization; polymer morphology; orientation effects, rubber elasticity, polymer linear viscoelasticity using Boltzmann superposition and mechanical models; measurement of viscoelastic properties; relaxation and transitions; polymeric yield phenomena and plastic flow; deformation mechanisms; fracture and craze formation; impact and fatigue. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 450.

MSE 456 Mechanics of Composites credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/456)
Behavior of composite materials and their use in engineering structures: behavior and properties of the constituent fibers and matrices, micromechanical predictions of composite properties, anisotropic elasticity, behavior of composite laminae, and classical lamination theory; fracture mechanisms, failure theories; behavior of composite plates and beams. Same as AE 428 and TAM 428. 3 undergraduate hours. 3 graduate hours. Prerequisite: AE 321, CEE 300, ME 330, or MSE 406.

MSE 457 Polymer Chemistry credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/457)
Methods used to make polymers including reaction mechanisms, kinetics, and analytical techniques. Emphasis on understanding how macromolecule structure, composition, and properties are controlled through a variety of synthetic approaches. Same as CHEM 480. 3 undergraduate hours. 3 or 4 graduate hours.

MSE 458 Polymer Physics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/458)
Physics of polymer systems. Equilibrium conformation, structure, properties and phase transitions of polymer solutions, dense melts, liquid crystals, mixtures, block copolymers, surfaces and interfaces, gels and rubbers, biopolymers, and electronic polymers. Same as CHEM 482. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MSE 401.

MSE 460 Electronic Materials I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/460)
Materials science, engineering, and processing of semiconductors. Semiconductor structure and chemistry relationships to electronic and optical properties. Control of processing to achieve desired properties; design and production of novel materials. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340; MSE 304 or PHYS 460.

MSE 461 Electronic Materials II credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/461)
Materials science, engineering, and processing of microlithographic materials, conductors, and dielectrics for electronic applications. Performance related to materials properties and processing. Processing commonly used in microelectronic circuit manufacture for metallization, dielectric formation, and lithography. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340.

MSE 462 Electronic Materials Lab credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/462)
Fabrication, analysis, and properties of thin film materials. Principles and practice of (i) deposition of thin film materials by vacuum evaporation, sputtering and plasma assisted processes; (ii) modification of properties by thermal reaction, surface treatment, etc.; (iii) characterization of key properties including electrical conductivity, optical properties, and stress. Methods to optimize the film microstructure and engineering properties via growth techniques. 3 undergraduate hours. 3 graduate hours. Prerequisite: ECE 340.
MSE 466 Materials in Electrochem Syst credit: 3 Hours. Materials issues in electrochemical systems including fundamental thermodynamics, kinetics and electrode processes in electrochemical systems and materials specific issues in the materials design, materials in energy storage and conversion systems, and electrochemical corrosion. Emphasis placed on issues of materials selection, microstructure, systems design, materials limitations, and data analysis. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MSE 466 and CHEM 524.

MSE 470 Design and Use of Biomaterials credit: 3 Hours. Characterization and use of biomaterials in medical applications. Concepts of biocompatibility in terms of structure and properties of materials and interactions between materials and proteins, cells, and tissue. Issues related to the design of biomaterials. Design of biomaterials to meet specific medical needs. 3 undergraduate hours. 3 graduate hours. Prerequisite: Credit or concurrent registration in both MCB 252 and either CHEM 450 or MSE 457.

MSE 472 Biomaterials Laboratory credit: 3 Hours. Experiments involving the chemistry and physics of biomaterials, biocompatibility of materials, tissue regeneration, rheology of biomaterials and tissues, structural studies of biomaterials, and controlled release of small molecules and drugs. Laboratory techniques for protein purification, cytotoxicity testing, tissue culture, mechanical testing, microscopy, and X-ray diffraction. Same as BIOE 473. 3 undergraduate hours. 3 graduate hours. Prerequisite: MSE 470.

MSE 473 Biomolecular Materials Science credit: 3 Hours. Fundamental and unifying principles in biomolecular materials science. Nucleic acids, proteins, lipids, and sugars. Specific and non-specific interactions which govern biomolecular behavior in a wide range of contexts (e.g., self-assembly, cell adhesion). Present knowledge and empirical evidence integrated with discussions of experimental characterization and manipulation techniques in biotechnology. Application of course content and expository research into current literature via a case study term project. 3 undergraduate hours. 3 graduate hours.

MSE 474 Biomaterials and Nanomedicine credit: 3 Hours. Design and synthesis of polymeric biomaterials and nanobiomaterials for their applications in drug and gene delivery. Part (1) fundamental biopolymer synthesis: functional group protection and de-protection; bioconjugation; protein pegylation and design and synthesis of natural and synthetic non-degradable and degradable polymers, hydrogels, bio-inspired materials, and stimuli responsive biomaterials. Part (2) preparation of nanomedicines for drug and gene delivery: nanofabrication of micelles, nanoparticles, protein conjugates, drug conjugates, nanoencapsulates, and polymeric vesicles; in-vitro and in-vivo small-molecule, gene, and protein delivery. Impact of the chemical structures of biopolymers on the stability, biocompatibility, toxicity, and in-vitro and in-vivo efficacy; clinical translation of the resulting nanomedicines in drug delivery. 3 undergraduate hours. 3 graduate hours. Prerequisite: CHEM 236 or MSE 457; MCB 450.

MSE 480 Surfaces and Colloids credit: 3 or 4 Hours. Chemistry and physics of surfaces and interfaces, with emphasis on behavior in liquid media. Surface composition; surface and interfacial forces; colloidal stability and flocculation; amphiphilic molecules. Same as CHEM 488. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MSE 401.

MSE 481 Electron Microscopy credit: 3 or 4 Hours. Theory and application of transmission electron microscopy and diffraction with emphasis on thin crystals; electron optics, interference phenomena, interpretation of images and diffraction patterns, specimen preparation. 3 undergraduate hours. 4 graduate hours. Prerequisite: MSE 405.

MSE 484 Composite Materials credit: 3 or 4 Hours. Metal, ceramic, and polymer matrix composites. Interrelationships between processing, microstructure, and properties. Selecting composite materials for different engineering applications. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MSE 201 and MSE 206.

MSE 485 Atomic Scale Simulations credit: 3 or 4 Hours. Application of Monte Carlo and Molecular Dynamics techniques in primarily classical simulations to understand and predict properties of microscopic systems in materials science, physics, biology, and chemistry. Numerical algorithms, connections between simulation results and real properties of materials (structural or thermodynamic), and statistical and systematic error estimation using real simulation programs. Simulation project comprised of scientific research, algorithm development, and presentation. Same as CSE 485 and PHYS 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: MSE 401; one of C, C++, or Fortran programming experience.

MSE 487 Materials for Nanotechnology credit: 3 or 4 Hours. Survey of the synthesis, processing, structure properties and technological applications of materials with nanometer dimensions. Semiconductor nanocrystals and size-dependent optical properties; metal nanostructures and plasmonics; nanowires and nanotubes; electronics and optoelectronics; nanoscale heterostructures; assembly and fabrication. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MSE 401 and PHYS 214.

MSE 488 Optical Materials credit: 3 or 4 Hours. Optical properties of materials of current and potential technological importance and application to devices. Applicable optics fundamentals based on Maxwell’s equations. Liquid crystals for displays; photopolymers for holographic data storage; electro-optic materials for high speed light modulators; electroluminescent materials for light emitting diodes. Application of optics, materials and chemistry in design of practical devices. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: MATH 285 and PHYS 214.
MSE 489  Matl Select for Sustainability  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/489)
Quantitative methods to optimize the selection of materials including traditional (minimize mass or volume, maximize performance) and sustainability (minimize energy consumption and CO2 emission during synthesis, maximize recyclability) goals. Tradeoff methods to optimize both via engineering design and materials selection for product lifetime, economic outlay and return, time dynamics and materials consumption, recycling, and disposal. Application of commercial software to optimize selections. For engineering and science majors only. 3 undergraduate hours. 4 graduate hours.

MSE 492  Lab Safety Fundamentals  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MSE/492)
Key aspects of laboratory setups, operating procedures, and emergency preparedness measures necessary for the experimentalist. Same as CHEM 494. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only.

MSE 497  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/497)
Individual study of any topic in materials science and engineering under the supervision of a member of the faculty. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MSE 498  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/498)
Subject offerings of new and developing areas of knowledge in materials science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated in the same or separate terms if topics vary.

MSE 499  Senior Thesis  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MSE/499)
Individual research in an area of materials science and engineering under the supervision of members of the staff. 1 to 5 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Grade point average of 3.0 and consent of instructor.

MSE 500  Statistical Thermodyn of Matls  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/500)
Atomistic concepts of statistical thermodynamics and their relationship to classical phenomenological thermodynamics. Application of the methods of statistical thermodynamics and statistical mechanics to describe the structure, phase behavior, and properties of both hard and soft materials. Prerequisite: MSE 401.

MSE 501  Kinetic Processes in Materials  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/501)
Fundamentals of rate processes in materials, both from a phenomenological and an atomistic point of view, with special emphasis on the kinetics of transformations and the transport of matter in solids. Prerequisite: MSE 500 or PHYS 560.

MSE 529  Hard Materials Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MSE/529)
Seminar on current research in science and engineering of hard materials; presentations by visiting lecturers, staff, and students. Approved for S/U grading only. May be repeated.

MSE 559  Soft Materials Seminar  credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MSE/559)
Seminar on current research in the science and engineering of soft materials; presentations by visiting lecturers, staff, and students. Approved for S/U grading only. May be repeated.

MSE 565  Thin Film Materials  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MSE/565)
Thin solid films bonded to relatively thick substrates such as microelectronic devices, thermal barrier coatings in gas turbine engines, mems devices, flexible electronics, and biomedical instruments. Quantitative understanding of the consequences of mechanical stress in film-substrate structures, arising from fabrication methods or service conditions: substrate curvature, film delamination, film fracture, dislocation formation, plastic flow and stress-driven evolution of surface morphology.

MSE 580  Diffraction Physics of Matls  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/580)
Quantitative treatment of the physical basis of X-ray, electron, and neutron diffraction instrumentation and use for structural characterization. Applications in materials science and condensed matter physics including structure of condensed matter, defects, phase transitions, disorder, surfaces, and interfaces. Prerequisite: MSE 405 or PHYS 436.

MSE 581  Advanced Electron Microscopy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/581)
Theory of electron microscopy and use for materials structure characterization and microanalysis. Physics of electron microscopes; kinematic and dynamic electron diffraction theory; defect image contrast; high resolution electron microscopy; electron probe formation; STEM; inelastic scattering and microanalysis. Practical experience via laboratory demonstrations and project assignments. Prerequisite: MSE 405 and MSE 481.

MSE 582  Surface Physics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/582)
Theory and experiment describing atomic behavior on crystal surfaces; thermodynamics of surfaces; surface energy; diffraction and structure; gas-solid collisions; Brownian motion, diffusion, and evaporation; electron and ion emission, tunneling; Van der Waals forces; theory of chemical interactions; kinetics and statistics of adsorption. Prerequisite: MSE 501 or PHYS 560.

MSE 583  Dynamics of Complex Fluids  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/583)
Microscopic statistical treatment of the structure and dynamics of polymers, colloids, gels, and other soft materials. Fundamental connections between molecular architecture, intermolecular forces, collective fluid structure, and time-dependent phenomena; Brownian motion, Langevin equation theory, and viscoelasticity; diffusion in colloidal suspensions, gels, and glasses; dynamics of polymer solutions and melts. Prerequisite: MSE 401.

MSE 584  Point and Line Defects  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/584)
Formation and interactions of point and line defects in solids including metals, semiconductors, dielectrics, and ionic conductors. Theoretical treatment of thermal equilibrium and non-equilibrium conditions. Application to impurity diffusion, ion irradiation, dislocation generation and motion, ionic conductivity, and deep level electronic defects. Prerequisite: MSE 401 or MSE 501; PHYS 460 or PHYS 560.
MSE 585 Materials Engrg Practicum credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/MSE/585)
Internships or co-ops in industrial or governmental settings pre-approved by the department to foster engineering educational aspects and utilized prior MatSE course work. A paper describing the general area of the practicum, with appropriate references and, to the extent permitted by employer confidentiality, the student’s contribution required. In addition to the paper, a report documenting work completed, verified by the work supervisor, to the extent permitted by confidentiality, and a questionnaire answered by the work supervisor form the basis for the grade. Approved for S/U grading only. May be repeated in separate terms to a maximum of 4 hours.

MSE 590 Research Seminars credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MSE/590)
Discussions and lectures on current research under the direction of individual staff members. Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.

MSE 595 Materials Colloquium credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MSE/595)
Presentation of (i) cutting-edge materials research by visiting lectures from academia as well as national and industrial research laboratories and (ii) some of the current research conducted in the Department. Approved for S/U grading only. May be repeated.

MSE 597 Independent Study credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/597)
Individual study of any topic in materials science and engineering under the supervision of a member of the faculty. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MSE 598 Special Topics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MSE/598)
Subject offerings of new and developing areas of knowledge in materials science and engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

MSE 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MSE/599)
Approved for S/U grading only. May be repeated.

Mathematics (MATH)

MATH Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MATH)

Courses

MATH 002 Introductory Algebra credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/002)
Methods of elementary algebra, including simplification of algebraic expressions, solving linear and quadratic equations, equations of lines, systems of linear equations, and radicals. Approved for Letter and S/U grading. Enrollment is restricted. Credit may not be used toward graduation at the University of Illinois. Prerequisite: Score on appropriate placement test, or consent of Mathematics Department.

MATH 101 Thinking Mathematically credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/101)
Designed for students in majors that do not specifically require a mathematics course beyond the level of precalculus. Focus is on critical thinking and applications. All topics are covered from a contextual standpoint. Topics include proportional reasoning and modeling, functions, sets, consumer math, probability, and statistics. Other topics may be covered as time permits. Prerequisite: Three years of high school mathematics. Undergraduates only.

MATH 103 Theory of Arithmetic credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/103)
Analyzes of the mathematical issues and methodology underlying elementary mathematics in grades K-5. Topics include sets, arithmetic algorithms, elementary number theory, rational and irrational numbers, measurement, and probability. There is an emphasis on problem solving. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary or childhood education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent. This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 112 Algebra credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/112)
Rapid review of basic techniques of factoring, rational expressions, equations and inequalities; functions and graphs; exponential and logarithm functions; systems of equations; matrices and determinants; polynomials; and the binomial theorem. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of 1.5 units of high school algebra and 1 unit of high school geometry.

MATH 114 Trigonometry credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MATH/114)
Studies degrees and radians, the trigonometric functions, identities and equations, inverse functions, oblique triangles and applications. Credit is not given for MATH 114 and either MATH 014 or MATH 115. Prerequisite: 1.5 units of high school algebra; 1 unit of high school geometry.

MATH 115 Preparation for Calculus credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/115)
Reviews trigonometric, rational, exponential, and logarithmic functions; provides a full treatment of limits, definition of derivative, and an introduction to finding area under a curve. Intended for students who need preparation for MATH 220, either because they lack the content background or because they are not prepared for the rigor of a university calculus course. Credit is not given for both MATH 115 and either MATH 014 or MATH 114. Credit is not given for MATH 115 if credit for either MATH 220 or MATH 221 has been earned. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112. This course satisfies the General Education Criteria for: Quantitative Reasoning I
MATH 117  Elementary Mathematics  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/117](https://courses.illinois.edu/schedule/terms/MATH/117))
Analyses of the mathematical issues and methodology underlying elementary mathematics in grades 6-8. Topics include the Real number system and field axioms, sequences and series, functions and math modeling with technology, Euclidean and non-Euclidean geometry, probability and statistics. Priority registration will be given to students enrolled in teacher education programs leading to certification in elementary education. Prerequisite: MATH 112 (formerly MATH 012) or equivalent.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 119  Ideas in Geometry  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/119](https://courses.illinois.edu/schedule/terms/MATH/119))
General education course in mathematics, for students who do not have mathematics as a central part of their studies. The goal is to convey the spirit of mathematical thinking through topics chosen mainly from plane geometry. Prerequisite: Two units of high school algebra; one unit of high school geometry; or equivalent.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 124  Finite Mathematics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/124](https://courses.illinois.edu/schedule/terms/MATH/124))
Introduction to finite mathematics for students in the social sciences; introduces the student to the basic ideas of logic, set theory, probability, vectors and matrices, and Markov chains. Problems are selected from social sciences and business. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 125  Elementary Linear Algebra  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/125](https://courses.illinois.edu/schedule/terms/MATH/125))
Basic concepts and techniques of linear algebra; includes systems of linear equations, matrices, determinants, vectors in n-space, and eigenvectors, together with selected applications, such as Markov processes, linear programming, economic models, least squares, and population growth. Credit is not given for both MATH 125 and any of MATH 225, MATH 410, or MATH 415. Prerequisite: MATH 112 (formerly MATH 012) or an adequate ALEKS score.

MATH 181  A Mathematical World  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/181](https://courses.illinois.edu/schedule/terms/MATH/181))
Introduction to selected areas of mathematical sciences through application to modeling and solution of problems involving networks, circuits, trees, linear programming, random samples, regression, probability, inference, voting systems, game theory, symmetry and tilings, geometric growth, comparison of algorithms, codes and data management. Prerequisite: Three years of high school mathematics, including two years of algebra and one year of geometry.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 198  Freshman Seminar  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/198](https://courses.illinois.edu/schedule/terms/MATH/198))
Guides the student in the study of selected topics not considered in standard courses. Prerequisite: Enrollment in the mathematics honors program; consent of department.

MATH 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/199](https://courses.illinois.edu/schedule/terms/MATH/199))
Approved for both letter and S/U grading. May be repeated.

MATH 200  Elementary Statistics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/200](https://courses.illinois.edu/schedule/terms/MATH/200))
Introduction to statistics with applications to various disciplines. Topics include descriptive statistics, elementary probability, estimation, hypothesis testing, regression, and correlation. Credit is not given for both MATH 200 and either MATH 201 or MATH 234. Prerequisite: MATH 112 (formerly MATH 012) or equivalent.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 213  Basic Discrete Mathematics  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/213](https://courses.illinois.edu/schedule/terms/MATH/213))
Beginning course on discrete mathematics, including sets and relations, functions, basic counting techniques, recurrence relations, graphs and trees, and matrix algebra; emphasis throughout is on algorithms and their efficacy. Credit is not given for both MATH 213 and CS 173. Prerequisite: MATH 220 or MATH 221, or equivalent.
This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 220  Calculus  credit: 5 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/220](https://courses.illinois.edu/schedule/terms/MATH/220))
First course in calculus and analytic geometry; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 220 and either MATH 221 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of topics of MATH 115. Students with previous calculus experience should consider MATH 221.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 221  Calculus I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/221](https://courses.illinois.edu/schedule/terms/MATH/221))
First course in calculus and analytic geometry for students with some calculus background; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and trigonometric functions. Credit is not given for both MATH 221 and either MATH 220 or MATH 234. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/ and either one year of high school calculus or a minimum score of 2 on the AB Calculus AP exam.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 225  Introductory Matrix Theory  credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/225](https://courses.illinois.edu/schedule/terms/MATH/225))
Systems of linear equations, matrices and inverses, determinants, and a glimpse at vector spaces, eigenvalues and eigenvectors. Credit is not given for both MATH 225 and any of MATH 125, MATH 410, or MATH 415. Prerequisite: MATH 220 or MATH 221, or equivalent.

MATH 231  Calculus II  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/231](https://courses.illinois.edu/schedule/terms/MATH/231))
Second course in calculus and analytic geometry; techniques of integration, conic sections, polar coordinates, and infinite series. Prerequisite: MATH 220 or MATH 221.
This course satisfies the General Education Criteria for: Quantitative Reasoning I

MATH 234  Calculus for Business I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/234](https://courses.illinois.edu/schedule/terms/MATH/234))
Introduction to the concept of functions and the basic ideas of the calculus. Credit is not given for both MATH 234 and either MATH 220 or MATH 221. Prerequisite: An adequate ALEKS placement score as described at http://math.illinois.edu/ALEKS/, demonstrating knowledge of the topics of MATH 112.
This course satisfies the General Education Criteria for: Quantitative Reasoning I
MATH 241 Calculus III credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/241)
Third course in calculus and analytic geometry including vector analysis: Euclidean space, partial differentiation, multiple integrals, line integrals and surface integrals, the integral theorems of vector calculus. Credit is not given for both MATH 241 and MATH 292. Prerequisite: MATH 231. This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 249 Honors Supplement credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MATH/249)
Supplemental credit hour for honors courses with additional material or special projects. Prerequisite: Concurrent registration in a specially designated honors section and consent of department.

MATH 284 Intro Differential Systems credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/284)
First order differential equations; mathematical models and numerical methods; linear systems and matrices; higher-order linear differential equations; eigenvalues and eigenvectors; linear systems of differential equations; Laplace transform methods. Credit is not given for both MATH 284 and either MATH 285 or MATH 286. Prerequisite: MATH 231 or equivalent.

MATH 285 Intro Differential Equations credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/285)
Techniques and applications of ordinary differential equations, including Fourier series and boundary value problems, and an introduction to partial differential equations. Intended for engineering majors and others who require a working knowledge of differential equations. Credit is not given for both MATH 285 and any of MATH 284, MATH 286, MATH 441. Prerequisite: MATH 241. This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 286 Intro to Differential Eq Plus credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/286)
Techniques and applications of ordinary differential equations, including Fourier series and boundary value problems, linear systems of differential equations, and an introduction to partial differential equations. Covers all the MATH 285 plus linear systems. Intended for engineering majors and other who require a working knowledge of differential equations. Credit is not given for both MATH 286 and any of MATH 284, MATH 285, MATH 441. Prerequisite: MATH 241. This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 290 Symbolic Computation Lab credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MATH/290)
Laboratory component to courses using a symbolic programming package. Prerequisite: Consent of department; concurrent registration in a designated section of a mathematics course with symbolic computation component. May be taken only once for credit.

MATH 292 Vector Calculus Supplement credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MATH/292)
Course in multivariable calculus. Topics include gradient, divergence, and curl; line and surface integrals; and the theorems of Green, Stokes, and Gauss. Intended for transfer students whose multivariable calculus course did not include the integral theorems of vector calculus. Credit is not given for both MATH 292 and MATH 241. Prerequisite: Consent of instructor.

MATH 299 Topics in Mathematics credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/299)
Topics course; see Class Schedule or department office for current topics. May be repeated in the same or subsequent semesters to a maximum of 8 hours. Prerequisite: MATH 220 or MATH 221; consent of instructor.

MATH 348 Fundamental Mathematics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/348)
Fundamental ideas used in many areas of mathematics. Topics will include: techniques of proof, mathematical induction, binomial coefficients, rational and irrational numbers, the least upper bound axiom for real numbers, and a rigorous treatment of convergence of sequences and series. This will be supplemented by the instructor from topics available in the various texts. Students will regularly write proofs emphasizing precise reasoning and clear exposition. Credit is not given for both MATH 347 and MATH 348. Prerequisite: MATH 231. This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 362 Probability with Engrg Applic credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/362)
Same as ECE 313. See ECE 313.

MATH 357 Numerical Methods I credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/357)
Same as CS 357. See CS 357.

MATH 390 Individual Study credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/390)
Guided individual study of advanced topics not covered in other courses. May be repeated to a maximum of 8 hours. Approved for both letter and S/U grading. Prerequisite: Consent of instructor.

MATH 399 Math/Actuarial Internship credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MATH/399)
Full-time or part-time practice of math or actuarial science in an off-campus government, industrial, or research laboratory environment. Summary report required. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: After obtaining an internship, Mathematics majors must request entry from the Mathematics Director of Undergraduate Studies; Actuarial Science majors must request entry from the Director of the Actuarial Science Program. This course satisfies the General Education Criteria for: UIUC: Ugrad Zero Credit Intern
MATH 402 Non Euclidean Geometry credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/402)
Historical development of geometry; includes tacit assumptions made by Euclid; the discovery of non-Euclidean geometries; geometry as a mathematical structure; and an axiomatic development of plane geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent; or consent of instructor.
This course satisfies the General Education Criteria for: 

Quantitative Reasoning II

MATH 403 Euclidean Geometry credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/403)
Selected topics from geometry, including the nine-point circle, theorems of Cera and Menelaus, regular figures, isometries in the plane, ordered and affine geometries, and the inverse plane. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or 348, or equivalent; or consent of instructor.

MATH 405 Teacher's Course credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/405)
In-depth, advanced perspective look at selected topics covered in the secondary curriculum. Connects mathematics learned at the university level to content introduced at the secondary level. Intended for students who plan to seek a secondary certificate in mathematics teaching. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent; or consent of instructor.

MATH 406 History of Calculus credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/406)
Examination of the historical origins and genesis of the concepts of the calculus; includes mathematical developments from the ancient Greeks to the eighteenth century. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 412 Graph Theory credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/412)
Examines basic concepts and applications of graph theory, where graph refers to a set of vertices and edges that join some pairs of vertices; topics include subgraphs, connectivity, trees, cycles, vertex and edge coloring, planar graphs and their colorings. Draws applications from computer science, operations research, chemistry, the social sciences, and other branches of mathematics, but emphasis is placed on theoretical aspects of graphs. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience or CS 374.

MATH 413 Intro to Combinatorics credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/413)
Permutations and combinations, generating functions, recurrence relations, inclusion and exclusion, Polya's theory of counting, and block designs. Same as CS 413. 3 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience.

MATH 414 Mathematical Logic credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/414)
Introduction to the formalization of mathematics and the study of axiomatic systems; expressive power of logical formulas; detailed treatment of propositional logical and predicate logic; compactness theorem and Godel completeness theorem, with applications to specific mathematical theories; algorithmic aspects of logical formulas. Proofs are emphasized in this course, which can serve as an introduction to abstract mathematics and rigorous proof; some ability to do mathematical reasoning required. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or equivalent experience.

This course satisfies the General Education Criteria for: 

Quantitative Reasoning II

MATH 415 Applied Linear Algebra credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/415)
Introductory course emphasizing techniques of linear algebra with applications to engineering; topics include matrix operations, determinants, linear equations, vector spaces, linear transformations, eigenvalues, and eigenvectors, inner products and norms, orthogonality, equilibrium, and linear dynamical systems. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 415 and any of MATH 125, MATH 225, MATH 410, or MATH 416. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor.

MATH 416 Abstract Linear Algebra credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/416)
Rigorous proof-oriented course in linear algebra. Topics include determinants, vector spaces over fields, linear transformations, inner product spaces, eigenvectors and eigenvalues, Hermitian matrices, Jordan Normal Form. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 416 and either MATH 410 or MATH 415. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or consent of instructor; MATH 347 is recommended.

MATH 417 Intro to Abstract Algebra credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/417)
Fundamental theorem of arithmetic, congruences. Permutations. Groups and subgroups, homomorphisms. Group actions with applications. Polynomials. Rings, subrings, and ideals. Integral domains and fields. Roots of polynomials. Maximal ideals, construction of fields. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: Either MATH 416 or one of MATH 410, MATH 415 together with one of MATH 347, MATH 348, CS 374; or consent of instructor.

MATH 418 Intro to Abstract Algebra II credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/418)
Rings of quotients of an integral domain. Euclidean domains, principal ideal domains. Unique factorization in polynomial rings. Fields extensions, ruler and compass constructions. Finite fields with applications. Modules. Structure theorem for finitely generated modules over principal ideal domains. Application to finitely generated abelian groups and canonical forms of matrices. Introduction to error-correcting codes. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 417 or consent of instructor.

Information listed in this catalog is current as of 07/2019
MATH 423  Differential Geometry  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/423)
Applications of the calculus to the study of the shape and curvature of curves and surfaces; introduction to vector fields, differential forms on Euclidean spaces, and the method of moving frames for low-dimensional differential geometry. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 424  Honors Real Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/424)
A rigorous treatment of basic real analysis via metric spaces recommended for those who intend to pursue programs heavily dependent upon graduate level Mathematics. Metric space topics include continuity, compactness, completeness, connectedness and uniform convergence. Analysis topics include the theory of differentiation, Riemann-Darboux integration, sequences and series of functions, and interchange of limiting operations. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Credit is not given for both MATH 424 and either MATH 444 or MATH 447. Approved for honors grading. Prerequisite: An honors section of MATH 347 or an honors section of MATH 416, and consent of the department.

MATH 425  Honors Advanced Analysis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/425)
A theoretical treatment of differential and integral calculus in higher dimensions. Topics include inverse and implicit function theorems, submanifolds, the theorems of Green, Gauss and Stokes, differential forms, and applications. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Prerequisite: MATH 424 and either MATH 415 or MATH 416, and consent of the department.

MATH 427  Honors Abstract Algebra  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/427)
Group theory, counting formulae, factorization, modules with applications to Abelian groups and linear operators. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. Approved for honors grading. Credit is not given for both MATH 427 and MATH 417. Prerequisite: Consent of the department is required. Prerequisite courses are either an honors section of MATH 416, or MATH 415 together with an honors section of MATH 347.

MATH 428  Honors Topics in Mathematics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MATH/428)
A capstone course in the Mathematics Honors Sequences. Topics will vary. As part of the honors sequence, this course will be rigorous and abstract. 3 undergraduate hours. No graduate credit. May be repeated in the same or separate terms to a maximum of 12 hours. Prerequisite: Consent of the department.

MATH 432  Set Theory and Topology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/432)
Informal set theory, cardinal and ordinal numbers, and the axiom of choice; topology of metric spaces and introduction to general topological spaces. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 347 or MATH 348 or consent of instructor.

MATH 439  Philosophy of Mathematics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/439)
Same as PHIL 439. See PHIL 439.

MATH 441  Differential Equations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/441)
Basic course in ordinary differential equations; topics include existence and uniqueness of solutions and the general theory of linear differential equations; treatment is more rigorous than that given in MATH 285. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 441 and any of MATH 284, MATH 285, MATH 286. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348 is recommended.

MATH 442  Intro Partial Diff Equations  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/442)
Introduces partial differential equations, emphasizing the wave, diffusion and potential (Laplace) equations. Focuses on understanding the physical meaning and mathematical properties of solutions of partial differential equations. Includes fundamental solutions and transform methods for problems on the line, as well as separation of variables using orthogonal series for problems in regions with boundary. Covers convergence of Fourier series in detail. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 444  Elementary Real Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/444)
Careful treatment of the theoretical aspects of the calculus of functions of a real variable intended for those who do not plan to take graduate courses in Mathematics. Topics include the real number system, limits, continuity, derivatives, and the Riemann integral. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 444 and either MATH 424 or MATH 447. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348, or equivalent.

MATH 446  Applied Complex Variables  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/446)
For students who desire a working knowledge of complex variables; covers the standard topics and gives an introduction to integration by residues, the argument principle, conformal maps, and potential fields. Students desiring a systematic development of the foundations of the subject should take MATH 448. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 446 and MATH 448. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241.

MATH 447  Real Variables  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/447)
Careful development of elementary real analysis for those who intend to take graduate courses in Mathematics. Topics include completeness property of the real number system; basic topological properties of n-dimensional space; convergence of numerical sequences and series of functions; properties of continuous functions; and basic theorems concerning differentiation and Riemann integration. 3 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 446 and MATH 448. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241.

Information listed in this catalog is current as of 07/2019
MATH 441 Complex Variables  credit: 3 or 4 Hours.  
For students who desire a rigorous introduction to the theory of functions of a complex variable; topics include Cauchy's theorem, the residue theorem, the maximum modulus theorem, Laurent series, the fundamental theorem of algebra, and the argument principle. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 448 and MATH 446. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 447.

MATH 450 Numerical Analysis  credit: 3 or 4 Hours.  
Same as CS 450, CSE 401 and ECE 491. See CS 450.

MATH 453 Elementary Theory of Numbers  credit: 3 or 4 Hours.  
Basic introduction to the theory of numbers. Core topics include divisibility, primes and factorization, congruences, arithmetic functions, quadratic residues and quadratic reciprocity, primitive roots and orders. Additional topics covered at the discretion of the instructor include sums of squares, Diophantine equations, continued fractions, Farey fractions, recurrences, and applications to primality testing and cryptography. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

This course satisfies the General Education Criteria for: Quantitative Reasoning II

MATH 461 Probability Theory  credit: 3 or 4 Hours.  
Introduction to mathematical probability; includes the calculus of probability, combinatorial analysis, random variables, expectation, distribution functions, moment-generating functions, and central limit theorem. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both MATH 461 and either MATH 408 or ECE 313. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 463 Statistics and Probability I  credit: 4 Hours.  
Same as STAT 400. See STAT 400.

MATH 464 Statistics and Probability II  credit: 3 or 4 Hours.  
Same as STAT 410. See STAT 410.

MATH 473 Algorithms  credit: 4 Hours.  
Same as CS 473 and CSE 414. See CS 473.

MATH 475 Formal Models of Computation  credit: 3 or 4 Hours.  
Same as CS 475. See CS 475.

MATH 481 Vector and Tensor Analysis  credit: 3 or 4 Hours.  
Introductory course in modern differential geometry focusing on examples, broadly aimed at students in mathematics, the sciences, and engineering. Emphasis on rigorously presented concepts, tools and ideas rather than on proofs. The topics covered include differentiable manifolds, tangent spaces and orientability; vector and tensor fields; differential forms; integration on manifolds and Generalized Stokes Theorem; Riemannian metrics, Riemannian connections and geodesics. Applications to configuration and phase spaces, Maxwell equations and relativity theory will be discussed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 and one of MATH 415 or MATH 416 or equivalent.

MATH 482 Linear Programming  credit: 3 or 4 Hours.  
Rigorous introduction to a wide range of topics in optimization, including a thorough treatment of basic ideas of linear programming, with additional topics drawn from numerical considerations, linear complementarity, integer programming and networks, polyhedral methods. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 410, MATH 415, or MATH 416.

MATH 484 Nonlinear Programming  credit: 3 or 4 Hours.  
Iterative and analytical solutions of constrained and unconstrained problems of optimization; gradient and conjugate gradient solution methods; Newton's method, Lagrange multipliers, duality and the Kuhn-Tucker theorem; and quadratic, convex, and geometric programming. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241; MATH 347 or MATH 348; or equivalent; MATH 415 or equivalent; or consent of instructor.

MATH 487 Advanced Engineering Math  credit: 3 or 4 Hours.  
Complex linear algebra, inner product spaces, Fourier transforms and analysis of boundary value problems, Sturm-Liouville theory. Same as ECE 493. 3 or 4 graduate hours. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.

MATH 488 Math Methods In Engineering  credit: 3 or 4 Hours.  
Matrices, determinants, bounds and approximations to eigenvalues, introduction to linear operator theory and inner product spaces, orthogonal expansions, and Fourier transforms. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 241 or equivalent.

MATH 489 Dynamics & Differential Eqns  credit: 3 or 4 Hours.  
Studies mathematical theory of dynamical systems, emphasizing both discrete-time dynamics and nonlinear systems of differential equations. Topics include: chaos, fractals, attractors, bifurcations, with application to areas such as population biology, fluid dynamics and classical physics. Basic knowledge of matrix theory will be assumed. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and completion of additional work of substance. Prerequisite: One of MATH 284, MATH 285, MATH 286, MATH 441.
MATH 490  Advanced Topics in Mathematics  credit: 1 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/490](https://courses.illinois.edu/schedule/terms/MATH/490))
Deals with selected topics and applications of mathematics; see Class Schedule or department office for current topics. 1 to 4 undergraduate hours. May be repeated with approval.
Prerequisite: Consent of instructor.

MATH 492  Undergraduate Research in Math  credit: 1 to 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/492](https://courses.illinois.edu/schedule/terms/MATH/492))
Work closely with department faculty on a well-defined research project. Topics and nature of assistance vary. Capstone paper or computational project required. 1 to 3 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms up to 8 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head.

MATH 495  Models in Mathematical Biology  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/495](https://courses.illinois.edu/schedule/terms/MATH/495))
Research-motivated subject matter from Mathematical Biology with emphasis on modeling. 3 undergraduate hours. 4 graduate hours. Prerequisite: MATH 220 or equivalent.

MATH 496  Honors Seminar  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/496](https://courses.illinois.edu/schedule/terms/MATH/496))
Careful study of a selected area of mathematics, carried out either deductively from axioms or inductively through problems; subject matter varies with instructor. 3 undergraduate hours. No graduate credit. May be repeated to a maximum of 6 hours. Prerequisite: Consent of Mathematics Honors Committee.

MATH 499  Introduction Graduate Research  credit: 1 Hour. ([https://courses.illinois.edu/schedule/terms/MATH/499](https://courses.illinois.edu/schedule/terms/MATH/499))
Seminar is required of all first-year graduate students in Mathematics. It provides a general introduction to the courses and research work in all of the areas of mathematics that are represented at the University of Illinois at Urbana-Champaign. 1 undergraduate hour. 1 graduate hour. Approved for S/U grading only. May be repeated to a maximum of 2 hours. Prerequisite: Graduate standing or consent of instructor.

MATH 500  Abstract Algebra I  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/500](https://courses.illinois.edu/schedule/terms/MATH/500))

MATH 501  Abstract Algebra II  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/501](https://courses.illinois.edu/schedule/terms/MATH/501))

MATH 502  Commutative Algebra  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/502](https://courses.illinois.edu/schedule/terms/MATH/502))
Commutative rings and modules, prime ideals, localization, noetherian rings, primary decomposition, integral extensions and Noether normalization, the Nullstellensatz, dimension, flatness, Hensel's lemma, graded rings, Hilbert polynomial, valuations, regular rings, singularities, unique factorization, homological dimension, depth, completion. Possible further topics: smooth and etale extensions, ramification, Cohen-Macaulay modules, complete intersections. Prerequisite: MATH 501 or consent of instructor.

MATH 503  Intro Geometric Group Theory  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/503](https://courses.illinois.edu/schedule/terms/MATH/503))
Free groups, groups given by generators and relations, van Kampen diagrams. Free product with amalgamations and HNN-extensions, Bass-Serre theory. Solvable and nilpotent groups. Quasi-isometries and geometric properties of groups. Prerequisite: MATH 500 or equivalent.

MATH 505  Homological Algebra  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/505](https://courses.illinois.edu/schedule/terms/MATH/505))
Topics include: 1. Snake lemma, homology, long exact sequence in homology; 2. Projective and injective modules and resolutions; 3. Categories, functors and derived functors. Tor and Ext, local cohomology; 4. Group cohomology, bar resolution; 5. Spectral sequences, techniques of computation, Serre spectral sequence. Grothendieck spectral sequence of composite functors; 6. Time permitting: Derived categories, Gysin sequence, Kunen formula, universal coefficient theorem, Eilenberg-Moore sequence. Prerequisite: MATH 501 or equivalent.

MATH 506  Group Representation Theory  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/506](https://courses.illinois.edu/schedule/terms/MATH/506))
Representation of groups by linear transformations, group algebras, character theory, and modular representations. Prerequisite: MATH 501 or equivalent.

MATH 510  Riemann Surf & Algebraic Curv  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/510](https://courses.illinois.edu/schedule/terms/MATH/510))
An introduction to Riemann Surfaces from both the algebraic and function-theoretic points of view. Topics include holomorphic and meromorphic differential forms, integration of differential forms, divisors and linear equivalence, the genus of a compact Riemann surface, projective algebraic curves, the Riemann-Roch theorem, and applications. Prerequisite: MATH 542.

MATH 511  Intro to Algebraic Geometry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/511](https://courses.illinois.edu/schedule/terms/MATH/511))
An introduction to the study of algebraic sets defined by polynomial equations; affine and projective space and their subvarieties; rational and regular functions and mappings; divisors, linear systems, and projective embeddings; birational geometry, blowing up; Grassmannians and other special varieties. Prerequisite: MATH 500.

MATH 512  Modern Algebraic Geometry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/512](https://courses.illinois.edu/schedule/terms/MATH/512))
An introduction to the tools and ideas of contemporary algebraic geometry, with particular focus on the language of schemes. 4 graduate hours. No professional credit. Prerequisite: MATH 500, and one of MATH 510, MATH 511, or consent of instructor.

MATH 514  Complex Algebraic Geometry  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MATH/514](https://courses.illinois.edu/schedule/terms/MATH/514))
Hodge theory of complex manifolds; examples, applications, and topological invariants. 4 graduate hours. No professional credit. Credit is not given for MATH 514 if credit for MATH 524 has been earned. Prerequisite: MATH 448 or consent of instructor.
MATH 518 Differentiable Manifolds I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/518)
Definitions and properties of differentiable manifolds and maps, (co)tangent bundles, vector fields and flows, Frobenius theorem, differential forms, exterior derivatives, integration and Stokes' theorem, deRham cohomology, inverse function theorem, Sard's theorem, transversality and intersection theory. Prerequisite: MATH 423 or MATH 481, or consent of instructor.

MATH 519 Differentiable Manifolds II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/519)
Vector bundles, principal bundles, connections, parallel transport, curvature, Chern-Weyl theory, Hodge-deRham theory. Other topics may include Riemannian geometry, symplectic geometry, spin geometry, and harmonic maps. Prerequisite: MATH 518 or consent of instructor.

MATH 520 Symplectic Geometry credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/520)
Introduction to the foundational tools, ideas, examples and theorems of symplectic geometry. It is intended for PhD students studying symplectic geometry. Poisson geometry, and symplectic topology, as well as students in related areas such as dynamical systems, algebraic geometry, complex geometry and low dimensional topology. Covers the local and global structure of symplectic manifolds, their submanifolds, the special automorphisms they support (Hamiltonian flows), their natural boundaries (contact manifolds), their special geometric features (almost complex structures), and their symmetries. The last three weeks of the course will be devoted to a more advanced topic to be determined by the interests of both the instructor and the students. 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: MATH 518.

MATH 522 Lie Groups and Lie Algebras I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/522)
A general introduction to Lie groups and algebras and their representation theory. Theory of finite group representations, Lie groups as matrix groups, and as differentiable manifolds, Lie algebras as tangent spaces and as abstract objects, and their representations. Examples of the classical groups. May be repeated up to 8 hours. Prerequisite: Undergraduate linear algebra, abstract algebra, point set topology, differentiation on manifolds.

MATH 525 Algebraic Topology I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/525)
Introduction to the study of topological spaces by means of algebraic invariants. Topics include the fundamental group, covering spaces and their classification, simplicial and singular homology, applications such as the Brouwer fixed point theorem and the Jordan curve theorem. Prerequisite: MATH 417 and MATH 448 or consent of instructor.

MATH 526 Algebraic Topology II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/526)
CW-complexes, relative homeomorphism theorem, cellular homology, cohomology, Kunneth theorem, Eilenberg-Zilber theorem, cup products, Poincaré duality, examples. Prerequisite: MATH 525, MATH 500; or consent of instructor. MATH 501 is recommended but not required.

MATH 527 Homotopy Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/527)
Homotopy groups, fibrations and cofibrations, Hurewicz theorem, obstruction theory, Whitehead theorem and additional topics perhaps drawn from Postnikov towers, Freudenthal suspension theorem, Blakers-Massey theorem, spectra. Prerequisite: MATH 526. MATH 501 is recommended but not required.

MATH 530 Algebraic Number Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/530)
Further development of the theory of fields covering topics from valuation theory, ideal theory, units in algebraic number fields, ramification, function fields, and local class field theory. Prerequisite: MATH 500 or equivalent.

MATH 531 Analytic Theory of Numbers I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/531)
Problems in number theory treated by methods of analysis; arithmetic functions, Dirichlet series, Riemann zeta function, L-functions, Dirichlet's theorem on primes in progressions, the prime number theorem. Prerequisite: MATH 448 and either MATH 417 or MATH 453.

MATH 532 Analytic Theory of Numbers II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/532)
Development of themes from MATH 531 and further topics chosen from additive number theory, asymptotic properties of multiplicative functions, circle method, diophantine approximation, lattice point problems, metric theory, modular forms, sieve theory. May be repeated. Prerequisite: MATH 531.

MATH 533 Fiber Spaces and Char Classes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/533)
Study of fiber bundles and their associated characteristic classes; applications to geometric problems. Prerequisite: MATH 526.

MATH 535 General Topology credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/535)
Study of topological spaces and maps, including Cartesian products, identifications, connectedness, compactness, uniform spaces, and function spaces. Prerequisite: Consent of instructor.

MATH 540 Real Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/540)
Lebesgue measure on the real line; integration and differentiation of real valued functions of a real variable; and additional topics at discretion of instructor. Prerequisite: MATH 447 or equivalent.

MATH 541 Functional Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/541)
Fundamental results in functional analysis; spectral theory of compact operators; further topics chosen by the instructor. Prerequisite: MATH 540.

MATH 542 Complex Variables I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/542)
Topics include the Cauchy theorem, harmonic functions, entire and meromorphic functions, and the Riemann mapping theorem. Prerequisite: MATH 446 and MATH 447, or MATH 448.

MATH 543 Complex Variables II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/543)
Continuation of MATH 542. Topics include Riemann Surfaces, Hyperbolic Metric, Potential Theory and Quasiconformal Mappings. Prerequisite: MATH 542.

MATH 545 Harmonic Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/545)
Harmonic analysis on the circle, the line, and the integers, i.e., Fourier series and transforms; locally compact Abelian groups; convergence and summability; conjugate functions; Hardy spaces; uniqueness; Tauberian theorems; almost-periodic functions; commutative Banach algebras. Prerequisite: MATH 448 and MATH 541; knowledge of Banach algebras.

Information listed in this catalog is current as of 07/2019
MATH 546 Hilbert Spaces credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/546)
Geometrical properties of Hilbert spaces, spectral theorems for compact, bounded and unbounded operators, basic theory of operator algebras, and additional material depending on the instructor. Prerequisite: MATH 541.

MATH 547 Banach Spaces credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/547)
Basic properties and fundamental theorems of Banach spaces and bounded linear maps, trace duality, absolutely summing maps, local theory, type and cotype, probabilistic techniques in Banach spaces, and further topics depending on the instructor. 4 graduate hours. No professional credit. Prerequisite: MATH 541.

MATH 550 Dynamical Systems I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/550)
An introduction to the study of dynamical systems. Considers continuous and discrete dynamical systems at a sophisticated level: differential equations, flows and maps on Euclidean space and other manifolds. Emphasis will be placed on the fundamental theoretical concepts and the interaction between the geometry and topology of manifolds and global flows. Discrete dynamics includes Bernoulli shifts, elementary Anosov diffeomorphisms and surfaces of sections of flows. Bifurcation phenomena in both continuous and discrete dynamics will be studied. Prerequisite: MATH 489 or consent of instructor.

MATH 551 Dynamical Systems II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/551)
A second course in the study of dynamical systems. Students who intend to do research in nonlinear dynamics are encouraged to take this course. A specific selection will be chosen from the following list to illustrate the theory and use of techniques from global analysis and nonlinear dynamics: (1) discrete dynamical systems, (2) global theory of ordinary differential equations, (3) Hamiltonian systems, (4) KAM theory, (5) bifurcation and stability, (6) Hopf index theory of vector fields, (7) Morse theory of gradient vector fields, (8) Lyapunov theory, (9) infinite dimensional dynamical systems, (10) structural stability. Prerequisite: Consent of instructor.

MATH 553 Partial Differential Equations credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/553)
Basic introduction to the study of partial differential equations; topics include: the Cauchy problem, power-series methods, characteristics, classification, canonical forms, well-posed problems, Riemann’s method for hyperbolic equations, the Goursat problem, the wave equation, Sturm-Liouville problems and separation of variables, Fourier series, the heat equation, integral transforms, Laplace’s equation, harmonic functions, potential theory, the Dirichlet and Neumann problems, and Green’s functions. Prerequisite: Consent of instructor.

MATH 554 Linear Analysis and Partial Differential Equations credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/554)
Course will provide students with the basic background in linear analysis associated with partial differential equations. The specific topics chosen will be largely up to the instructor, but will cover such areas as linear partial differential operators, distribution theory and test functions, Fourier transforms, Sobolev spaces, pseudodifferential operators, microlocal analysis, and applications of the above topics. 4 graduate hours. No professional credit. Prerequisite: MATH 553 or consent of instructor.

MATH 555 Nonlinear Analysis and Partial Differential Equations credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/555)
Course will provide students with the basic background in nonlinear analysis associated with partial differential equations. The specific topics chosen will be largely up to the instructor, but will cover such areas as existence and uniqueness techniques, nonexistence and finite time blow-up results, hyperbolic conservation laws, weak solutions, stability theory, nonlinear elliptic theory, regularity theory. 4 graduate hours. No professional credit. May be repeated as topics vary. Prerequisite: Consent of instructor.

MATH 558 Methods of Applied Mathematics credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/558)
Introduction to modern methods of applied mathematics, including nondimensionalization and scaling analysis, regular and singular asymptotics, analysis of multiscale systems, and analysis of complex systems. Each technique is illustrated with applications from science and engineering. The mathematical frameworks will include ordinary, partial and stochastic differential equations, point processes, and Markov chains. Prerequisite: Undergraduate background in ODEs, PDEs, and probability theory (MATH 441, MATH 442, and MATH 461, or equivalents), or consent of instructor.

MATH 561 Theory of Probability I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/561)
Mathematical foundations of probability and stochastic processes; probability measures, random variables, distribution functions, convergence theory, the Central Limit Theorem, conditional expectation, and martingale theory. Same as STAT 551. Prerequisite: MATH 541 or consent of instructor.

MATH 562 Theory of Probability II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/562)
Continuation of MATH 561. Same as STAT 552. Prerequisite: MATH 561.

MATH 563 Risk Modeling and Analysis credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/563)
Quantitative tools for measuring risks and modeling dependencies. Topics include risk measures, stochastic orders, copulas, dependence measures, and their statistical inferences. Same as STAT 558. 4 graduate hours. No professional credit. Prerequisite: MATH 408 or MATH 461.

MATH 564 Applied Stochastic Processes credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/564)
Introduction to topics such as spectral analysis, filtering theory, and prediction theory of stationary processes; Markov chains and Markov processes. Same as STAT 555. Prerequisite: MATH 446 and MATH 447.

MATH 570 Mathematical Logic credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/570)
Development of first order predicate logic; completeness theorem; formalized number theory and the Godel incompleteness theorem. Prerequisite: MATH 417 or consent of instructor.

MATH 571 Model Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MATH/571)
Techniques for constructing models, including compactness and Lowenheim-Skolem theorems, unions of elementary chains, and omitting types construction; categorical theories; ultraproducts; saturated models; quantifier elimination; applications to algebraically closed fields, real closed fields, and other fundamental structures of mathematics. Prerequisite: MATH 570 or consent of instructor.
MATH 573  Recursive Function Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/573)
Various characterizations of the class of recursive (i.e., computable) functions; the Church-Turing thesis; unsolvability of the halting problem; the recursion theorem and the enumeration theorem; relative computability, the jump operation, and the arithmetical hierarchy; recursively enumerable sets; degrees of unsolvability; and the priority method. Prerequisite: MATH 570 or consent of instructor.

MATH 574  Set Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/574)
Zermelo-Fraenkel axiomatic set theory; basic concepts in set theory such as ordinal, cardinal, rank, and definition by transfinite recursion; Godel’s constructible universe; introduction to forcing; Boolean valued universes; large cardinals; consistency and independence of the continuum hypothesis and the axiom of choice. Prerequisite: MATH 570 or consent of instructor.

MATH 580  Combinatorial Mathematics  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/580)
Fundamental results on core topics of combinatorial mathematics: classical enumeration, basic graph theory, extremal problems on finite sets, probabilistic methods, design theory, discrete optimization. Same as CS 571. Prerequisite: Consent of instructor.

MATH 581  Extremal Graph Theory  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/581)
Extremal problems and parameters for graphs. Distance and connectivity, matching and factors, vertex and edge colorings, perfect and imperfect graphs, intersection classes and intersection parameters, Turan’s theorem, graph Ramsey theory, graph decomposition and other extremal problems. Same as CS 572. Prerequisite: Consent of instructor.

MATH 582  Structure of Graphs  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/582)
Structure of graphs and properties of special classes of graphs. Degree sequences and reconstruction, structure of k-connected graphs, Hamiltonian cycles and circumference, planar graphs and their properties, graph minors, cycle coverings, matroidal and algebraic aspects of graphs. Prerequisite: MATH 580 or consent of instructor.

MATH 583  Partial Orders and Comb Optim  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/583)
Combinatorial aspects of partially ordered sets and their relation to optimization problems. Structure of posets and lattices, Dilworth’s theorem and generalizations, linear extensions and sorting, dimension of posets, order ideals, extremal set theory, integer programming and minmax relations, matroids and their applications. Prerequisite: MATH 580 or consent of instructor.

MATH 584  Methods of Combinatorics  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/584)
Combinatorial methods and other mathematical methods for combinatorial problems. Enumeration by bijections and generating functions, probabilistic methods for existence proofs and asymptotic analysis, randomized algorithms, Ramsey’s theorem and related topics, combinatorial designs and their applications, geometric problems and methods. Same as CS 575. Prerequisite: MATH 580 or consent of instructor.

MATH 585  Probabilistic Combinatorics  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/585)
Techniques and applications of probabilistic methods in combinatorics. Draws applications from a variety of areas, but emphasizes theoretical aspects of random graphs, including connectivity, trees & cycles, planarity, and coloring problems. Techniques include the second moment method, Lovasz Local Lemma, martingales, Talgrand’s Inequality, the Rodl Nibble, and Szemerédi’s Regularity Lemma. Applications may come from discrete geometry, coding theory, algorithms & complexity, additive number theory, percolation, positional games, etc. Prerequisite: MATH 580 or consent of instructor.

MATH 586  Algebraic Combinatorics  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/586)
Prepares students for research in modern algebraic combinatorics by focusing on its three principal components: enumerative techniques, symmetric functions, and multivariate polynomials. 4 graduate hours. No professional credit. Prerequisite: MATH 580 or consent of instructor.

MATH 588  Optimization in Networks  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/588)
Theory and methods for optimization over directed graphs; paths, cuts, flows, and potentials; matchings; PERT and CPM; max flow, min path, out-of-kilter, Hungarian, and other algorithms; nonlinear cost functionals; painting theory; and existence and duality. Prerequisite: MATH 412 or 413 or equivalent.

MATH 589  Conjugate Duality and Optim  credit: 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/589)
Convex analysis for constrained extremum problems; convex sets, cones, and functions; separation; Fenchel transform; duality correspondences; differential theory; nonlinear programming; sensitivity; and perturbational duality for primal, dual, and Lagrangian problems. Prerequisite: MATH 415 and MATH 447, or consent of instructor.

MATH 593  Mathematical Internship  credit: 0 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/593)
Full-time or part-time practice of graduate-level mathematics in an off-campus government, industrial, or research laboratory environment. Summary report required. 0 graduate credit. No professional credit. Approved for S/U grading only. May be repeated in separate terms.

MATH 595  Advanced Topics in Mathematics  credit: 1 to 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/595)
See Class Schedule for current topics. 1 to 4 graduate hours. No professional credit. May be repeated in the same or separate semesters. Prerequisite: Consent of instructor.

MATH 597  Reading Course  credit: 1 to 8 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/597)
Independent study in Mathematics. 1 to 8 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or separate terms, with a maximum of 8 hours per semester. Prerequisite: Consent of instructor.

MATH 598  Literature Seminar in Math  credit: 0 to 4 Hours.  (https://courses.illinois.edu/schedule/terms/MATH/598)
Seminar on topics of current interest in mathematics. Students present seminars and discussions on various topics. See Class Schedule for current topics. Recommended for all Mathematics students. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in the same or separate semesters as topics vary. Prerequisite: Consent of instructor.

Information listed in this catalog is current as of 07/2019
ME 310   Fundamentals of Fluid Dynamics   credit: 4 Hours. 
Prerequisite: Consent of Instructor.

ME Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/ME)

Courses

ME 170 Computer-Aided Design credit: 3 Hours. 
Prerequisite: Consent of Instructor.

ME 199 Undergraduate Open Seminar credit: 1 to 5 Hours.
May be repeated.

ME 200 Thermodynamics credit: 3 Hours.
Prerequisite: Consent of Instructor.

ME 270 Design for Manufacturability credit: 3 Hours.
Prerequisite: Consent of Instructor.

ME 290 Seminar credit: 0 Hours.
Lectures by faculty and invited authorities, concerning the ethics and practices of mechanical engineering/mechanical engineering, as well as its relationship to other fields of engineering, economics, and society. Offered fall term only. Approved for S/U grading only.

ME 297 Introductory Independent Study credit: 1 to 3 Hours.
Independent study and/or individual projects related to mechanical engineering. Approved for Letter and S/U grading. May be repeated to a maximum of 6 credit hours for letter grade; no limit for S/U grade mode. Prerequisite: Consent of Instructor.

ME 310 Fundamentals of Fluid Dynamics credit: 4 Hours.
Prerequisite: Consent of Instructor.

ME 320 Heat Transfer credit: 4 Hours.
Fundamentals of fluid mechanics with coverage of theory and applications of incompressible viscous and inviscid flows, and compressible high speed flows. Credit is not given for both ME 310 and TAM 335. Prerequisite: MATH 285 OR MATH 286 OR MATH 441; credit or concurrent registration in ME 200.

ME 330 Engineering Materials credit: 4 Hours.
Structures of polymers, metals, and ceramics as the basis for their mechanical behavior. Manipulation of structure through such processes as heat treatment and solidification. Mechanisms of material failure in service (yielding, fracture, fatigue, creep, corrosion, and wear) and simple design techniques to avoid these failures. Strategies for materials selection in design. Credit is not given for both ME 330 and either CEE 300 or MSE 280. Prerequisite: CHEM 102 and TAM 251.

ME 340 Dynamics of Mechanical Systems credit: 3.5 Hours.
Dynamic modeling of mechanical components and systems; time-domain and frequency-domain analyses of linear time-invariant systems; multidegree-of-freedom systems; linearization of nonlinear systems. Credit is not given for both ME 340 and either GE 340 or AE 353. Prerequisite: MATH 285 OR MATH 286 OR MATH 441; TAM 212; credit or concurrent registration in ECE 205 and MATH 415.

ME 351 Analysis of Mfg Processes credit: 3 Hours.
Mechanistic and empirical modeling of manufacturing processes including metal cutting theory, casting analysis, forging analysis, sheet metal forming, plastics molding, welding and mechanical joining assembly analysis. Also, hands-on exposure to manufacturing processes, CAD/CAM software (MasterCam), 5 axis machining (ShopBot), Wire EDM machining, statistical process control (SPC), and geometric dimensioning and tolerancing (GD&T) metrology principles using CMM. Prerequisite: ME 270.

ME 360 Signal Processing credit: 3.5 Hours.
Basic electromechanical techniques used in modern instrumentation and control systems. Use of transducers and actuators. Signal conditioning, grounding, and shielding. Analog and digital signal processing and feedback control methods with emphasis on frequency domain techniques. Frequency response of continuous and discrete systems. Credit is not given for both ME 360 and ABE 425. Prerequisite: ME 340.

ME 370 Mechanical Design I credit: 3 Hours.
Kinematics and dynamics of machinery, including introduction to user-centered design and design thinking, analytical and computer-aided design of kinematics, dynamic force analysis, principle of virtual work, cam and gear design, and balancing. Project-based learning of multi-mechanism system design, analysis, fabrication, and evaluation. Prerequisite: ME 270, TAM 212, and TAM 251.

ME 371 Mechanical Design II credit: 3 Hours.
Design and analysis of machinery for load-bearing and power transmission. Consideration of material failure modes, including yielding, fracture, and fatigue. Design and selection of machine elements: threaded fasteners, springs, rolling-element bearings, fluid film lubrication, gears and friction drives. Prerequisite: ME 330 OR CEE 300; ME 370.
ME 400  Energy Conversion Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/400)
Processes and systems for energy conversion, including power and refrigeration cycles, air conditioning, thermoelectrics and fuel cells; ideal-gas mixtures and psychrometrics. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 200.

ME 401  Refrigeration and Cryogenics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/401)
Theory of operation and design of equipment for production of low temperatures, from below ambient to near absolute zero; industrial, consumer, aerospace, medical, and research applications. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 320.

ME 402  Design of Thermal Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/402)
Selection of components in fluid- and energy-processing systems to meet system-performance requirements; computer-aided design; system simulation; optimization techniques; investment economics and statistical combinations of operating conditions. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 320.

ME 403  Internal Combustion Engines  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/403)
Theory and analysis of reciprocating internal-combustion engines; fuels, carburetion, combustion, exhaust emissions, detonation, fuel injection, and factors affecting performance; laboratory work on variables that affect performance. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: Credit or concurrent registration in ME 400 or ABE 466.

ME 404  Intermediate Thermodynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/404)
Classical thermodynamics, including the TdS equations and the Maxwell relations; development of thermodynamic property relations, behavior of real gases, thermodynamics of mixtures, phase equilibrium and chemical reactions and equilibrium with an emphasis on combustion reactions; statistical thermodynamics including the effect of molecular and atomic structure, statistical concepts and distributions, calculation of thermodynamic properties of gas-phase atoms and molecules, kinetic theory of gases, and vibrations in crystals and the electron gas in metals; selected applications. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ME 404 and any of PHYS 427, CHEM 442, or CHEM 444. Prerequisite: ME 200.

ME 410  Intermediate Gas Dynamics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/410)
Solution of internal compressible-flow problems by one-dimensional techniques, both steady and unsteady; flows with smooth and abrupt area change, with friction, with heat addition, and with mass addition; flows with weak and strong waves, multiple confined streams, and shock waves. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 200; ME 310, TAM 335 or AE 311.

ME 411  Viscous Flow & Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/411)
Same as AE 412. See AE 412.

ME 412  Numerical Thermo-Fluid Mechs  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/412)
Numerical techniques for solving the equations governing conduction and convective heat transfer in steady and unsteady fluid flows: finite-difference and finite-volume techniques, basic algorithms, and applications to real-world fluid-flow and heat-transfer problems. Same as CSE 412. 2 or 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 310 OR TAM 335; ME 320.

ME 420  Intermediate Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/420)
Conduction heat transfer, radiation heat transfer, mass transfer, phase change, heat exchangers; numerical methods. 4 undergraduate hours. 4 graduate hours. Prerequisite: ME 310 OR TAM 335; ME 320.

ME 430  Failure of Engrg Materials  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/430)
Material anisotropy and elasto-plastic properties at the crystal level; microstructural basis for fatigue, fracture, and creep in metals, polymers, and ceramics; failure mechanisms and toughening in composites; structure and behavior of metal-matrix composites, ceramic-matrix composites, and polymer composites. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 330 OR TAM 324.

ME 431  Mechanical Component Failure  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/431)
Relationship of materials and mechanics concepts to the design of structures and components: elasticity, plasticity, thermal loading, creep, fatigue, fracture, and residual-life assessments as they relate to materials selection and design. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 330 and ME 371; Recommended: ME 430.

ME 432  Fundamentals of Photovoltaics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/432)
In this course, we will develop a fundamental understanding of how solar cells convert light to electricity, how solar cells are made, how solar cell performance is evaluated, and the photovoltaic technologies that are currently on the market and/or under development. Using thermodynamics, materials physics, and engineering analysis we will assess and critique the potential and drawbacks of modern photovoltaic technologies, including single- and multi- crystalline silicon, tandem cells, CdTe, CIGS, PVT, bulk heterojunctions (organic), Graetzel cells, nanostructure-based, and third generation PV. 3 undergraduate hours. 4 graduate hours. Approved for Letter and S/U grading. Prerequisite: PHYS 212 and ME 330 or equivalent.

ME 440  Kinem & Dynamics of Mech Syst  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/440)
Kinematics and dynamics of constrained rigid-body mechanical systems; use of modern computer-based analysis software packages. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 370.

ME 445  Introduction to Robotics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/445)
Same as AE 482 and ECE 470. See ECE 470.

ME 466  Robot Dynamics and Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MED/466)
Same as ECE 489 and SE 422. See SE 422.
ME 450  Modeling Materials Processing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/450)
Manufacturing processes for metals and polymers; creation of process models based on momentum, heat, and mass transfer; model simplification by estimation and scaling; applications to casting, microstructure evolution, polymer molding and extrusion, and welding. 3 undergraduate hours. 3 graduate hours. Prerequisite: ME 320 and ME 330.

ME 451  Computer-Aided Mfg Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/451)
The application of computer technology and operations research to manufacturing systems. Use of microprocessors for direct numeric control of machine tools, adaptive control and optimization, and integrated manufacturing systems. Applications of industrial robots. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 270.

ME 452  Num Control of Mfg Processes  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/452)
Numerical control systems, manufacturing processes, principles and practices basic to numerical control, and programming methodology for numerical control. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: CS 101 and ME 270.

ME 455  Micromanufacturing Process & Automation  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/455)
Scaling laws in miniaturization, Micro-machine tools design and characterization, Micromanufacturing process modeling, simulation and automation, Micro-metrology and Micro-assembly systems. 3 undergraduate hours. 4 graduate hours. Prerequisite: ME 270 or equivalent or consent of instructor.

ME 460  Industrial Control Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/460)
Industrial control techniques; case studies of industrial systems; design, selection, and maintenance of industrial control systems, including electromechanical, pneumatic, thermal, and hydraulic systems. 4 undergraduate hours. 4 graduate hours. Credit is not given for both ME 460 and ECE 486. Prerequisite: ME 340 and ME 360.

ME 461  Computer Cntrl of Mech Systems  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/461)
Microcomputer control of thermal and mechanical systems: sensors and transducers, signal transmission and conversion, and regulator actuation. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: ME 360 or ABE 425.

ME 465  Optics: Theory & Applications  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/465)
Introduction to basic concepts in electromagnetic fields and waves as they pertain to measurement science and subsurface imaging. Related applications using wave-based probes, such as acoustic fields and waves with an emphasis on current phenomena and technologies. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 212, MATH 285 OR MATH 286 OR MATH 441. Restricted to students with Senior or Graduate standing, or instructor permission.

ME 470  Senior Design Project  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/470)
Solution of a real-world design problem: development, evaluation, and recommendation of alternative solutions subject to realistic constraints that include most of the following considerations: economics, environment, sustainability, manufacturability, ethics, health and safety, society, and politics. 3 undergraduate hours. No graduate credit. Departmental approval required. Prerequisite: Concurrent enrollment in no more than two required ME courses; completion of all required courses.
This course satisfies the General Education Criteria for:
Advanced Composition

ME 471  Finite Element Analysis  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/471)
The finite element method and its application to engineering problems: truss and frame structures, heat conduction, and linear elasticity; use of application software; overview of advanced topics such as structural dynamics, fluid flow, and nonlinear structural analysis. Same as AE 420 and CSE 451. 3 or 4 undergraduate hours. 3 or 4 graduate hours. Credit is not given for both ME 471 and CEE 470. Prerequisite: CS 101 and ME 371 or TAM 470. Alternatively, AE 370 for AE students.

ME 472  Introduction to Tribology  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/472)
Friction, wear, and lubrication; engineering surfaces; surface properties and surface topography; Hertzian contacts and contact of rough surfaces; friction of surfaces in contact; wear and surface failures; boundary lubrication; fluid properties; hydrodynamic lubrication; elastohydrodynamic lubrication; bearing selection; introductory micro- and nanotribology. 3 undergraduate hours. 3 or 4 graduate hours.

ME 481  Whole-Body Musculoskel Biomech  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/481)
Exploration of the human musculoskeletal system with an emphasis on the whole-body or organism level; modeling and analysis techniques for examining human movement, such as rigid-body modeling techniques, forward and inverse dynamics, and Lagrangian mechanics; examination of current topics, such as orthopedic biomechanics, prosthetics and orthotics, postural control, and locomotion; use of computerized motion-capture equipment and software to examine, simulate, and analyze human movement. Same as BIOE 481. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: TAM 212 and TAM 251.

ME 482  Musculoskel Tissue Mechanics  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/482)
Composition-structure-function relationships for musculoskeletal tissues, including bone, tendon, ligament, cartilage, and muscle; hierarchical structure of tissues from the macro- to nano-scales; relation of composition to mechanical properties of health and diseased tissue; experimental methods used to obtain mechanical properties. Same as BIOE 482. 3 undergraduate hours. 3 or 4 graduate hours. Prerequisite: TAM 251.

ME 483  Mechanobiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/483)
Integrative approach to mechanobiology; mechanics of cell adhesion; cytoskeletal structure and mechanics; mechanotransduction; mechanics of cell proliferation, apoptosis, cancer cells, and stem cells; aging; critical issues facing the mechanobiological sciences. 4 undergraduate hours. 4 graduate hours. Prerequisite: CHEM 103 and TAM 251.

ME 485  MEMS Devices & Systems  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/485)
Same as ECE 485. See ECE 485.
ME 487 MEMS-NEMS Theory & Fabrication  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/487)
Physical and chemical theory, design, and hands-on fabrication of micro- and nano-electromechanical systems (MEMS and NEMS); cleanroom fabrication theory, including general cleanroom safety, lithography, additive and subtractive processes, bulk and surface micromachining, deep reactive ion etching (DRIE), lithographic Galvanoformung Abformung (LIGA), packaging, scaling, actuators, and micro-nanofluids; fabrication of two take-home devices, such as piezoresistive sensors and microfluidic logic chips, that demonstrate advanced fabrication processing. 4 undergraduate hours. 4 graduate hours. Prerequisite: PHYS 212.

ME 496 Honors Project  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/496)
Special project or reading course for James Scholars in engineering. 1 to 4 undergraduate hours. No graduate credit. May be repeated. Prerequisite: Consent of instructor.

ME 497 Independent Study  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/ME/497)
Independent study of advanced problems related to mechanical engineering. 1 to 3 undergraduate hours. No graduate credit. May be repeated in separate terms to a maximum of 6 hours, as topics vary. Prerequisite: Consent of Instructor. Students with Junior or Senior standing.

ME 498 Special Topics  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/498)
Subject offerings of new and developing areas of knowledge in mechanical engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. 0 to 4 undergraduate hours. 0 to 4 graduate hours. May be repeated in the same or separate terms if topics vary to a maximum of 9 hours.

ME 501 Combustion Fundamentals  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/501)
Fundamentals of kinetic theory, transport phenomena, chemical equilibria, and reaction kinetics; flames, their gross properties, structure, and gas dynamics including oscillatory and turbulent burning; solid and liquid propellant combustion; one-dimensional detonation theory including structure and initiation; three-dimensional and other complex detonation waves; supersonic burning. Same as AE 538. Prerequisite: AE 311 or ME 410.

ME 502 Thermal Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/502)
Steady-state simulation and optimization of thermal systems, dynamic performance, and probabilities in system design. Prerequisite: ME 402.

ME 503 Design of IC Engines  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/503)
Design of internal combustion engines, including gas forces, inertia loads, bearing analysis, torsional vibration, balance, lubrication, valve and cam design, and stress analysis of major engine components. Prerequisite: ME 403.

ME 504 Multiphase Systems & Processes  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/504)
Dynamics and thermodynamics of multiphase and multicomponent systems with special relevance to air-pollution control and energy conversion; relaxation phenomena; general motion of systems of disparate elemental masses; diffusion in gravitational and electric fields, and boundary-layer motion with mass transport; dispersion and collection of particulate matter; transport with surface reactions. Prerequisite: ME 404.

ME 510 Advanced Gas Dynamics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/510)
Theoretical gas dynamics; fundamental laws and basic equations for subsonic, transonic, and supersonic steady and unsteady flow processes. Same as AE 510. Prerequisite: ME 410.

ME 520 Heat Conduction  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/520)
Fundamentals of heat conduction in isotropic and anisotropic materials; methods of solution to steady and transient heat conduction problems in one, two, and three dimensions; internal heat sources; periodic flow of heat; problems involving phase change; approximate analytical techniques; numerical methods; study of current articles on the subject. Prerequisite: ME 420.

ME 521 Convective Heat Transfer  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/521)
Fundamentals of convective heat transfer; calculation of heat transfer within ducts and over submerged objects for laminar and turbulent flow; natural convection; film condensation and boiling; liquid metals. Prerequisite: ME 411.

ME 522 Thermal Radiation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/522)
Fundamentals of radiant-energy transport in absorbing and nonabsorbing media; pyrometry; applications to selected problems involving combined energy-transport mechanisms. Prerequisite: ME 420.

ME 523 Nanoscale Energy Transport  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/523)
An advanced treatment of diverse transport phenomena at the nanometer scale involving solids, liquids and gases emphasizing common features in transport by molecules, electrons, phonons, photons, and other quasi-particles of interest, oriented toward applied research in the areas of nanoscale heat transfer and nanoscale energy conversion. Topics include intermolecular forces at surfaces and in the bulk, momentum and species transport in microfluidics, linear response theory, free molecular flow in gases, electron and phonon transport in crystals, Boltzmann equation and its moments, ballistic and diffusive transport, thermoelectric energy conversion, interfacial transport, energy transport in nanostructures and radiative transport in the near-field. Approved for letter and S/U grading.

ME 530 Fatigue Analysis  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/530)
Fatigue analysis methods for the design of structures and components: stress-life, strain-life, and crack-propagation approaches; multiaxial and high-temperature fatigue; interrelationship among material properties, geometry, and design methodology appropriate for a wide range of mechanical engineering components. Prerequisite: ME 430.

ME 531 Inelastic Design Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/531)
Material deformation under combined mechanical and thermal loading; constitutive equations and their application in engineering design and in inelastic finite element methods; material and structural degradation under fatigue and creep conditions. Prerequisite: ME 471 and ME 430.
ME 532  Fracture Resistant Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/532)
Application of fracture mechanics and microstructural behavior to materials selection for design; practical approximation of linear and inelastic fracture parameters for evaluation of complex components; destructive and nondestructive tests for control of toughness in manufacture; residual life assessment involving time-dependent fracture (creep, fatigue, stress, corrosion); case studies; design project. Prerequisite: ME 430.

ME 533  Physical Basis for Plasticity  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/533)
Physical and mathematical foundation for plasticity in crystalline materials, with application to deformation processes. Metal forming; deformation processes in other materials, such as slip in geological materials and polymers; rate dependence of plastic flow, with underlying physical mechanisms; kinetics of dislocation motion, mechanisms of work hardening, and crystallographic texture; theoretical framework for modeling the constitutive response of rate-dependent materials undergoing crystallographic slip, and allied computational procedures. Prerequisite: TAM 445.

ME 540  Control System Theory & Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/540)
Same as ECE 515. See ECE 515.

ME 541  Control of Machine Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/541)
Modeling machining processes and machine tools. Mechanistic modeling of machining processes, machine-tool errors, characterization of machined surfaces, machine-tool system dynamics and stability, and topics in motion control. 4 graduate hours. No professional credit. Prerequisite: ME 340 and ME 270.

ME 544  Dynamic System Reliability  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/544)
Same as ECE 554. See ECE 554.

ME 546  Analysis of Nonlinear Systems  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/546)
Same as ECE 528 and SE 520. See ECE 528.

ME 550  Solidification Processing  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/550)
Principles of control of structure, properties, and shape in processes involving liquid-solid transformations; stresses, heat flow, mass transport, solute redistribution, and nucleation and growth kinetics; relationship between process variables and structures and properties in the resultant material; examples are drawn from existing commercial and new developing processes. Prerequisite: ME 450.

ME 554  Computational Process Modeling  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/554)
Development and application of computer models to solve practical problems involving fluid flow, heat transfer, and deformation phenomena. Advanced topics in computational methods for materials process modeling; case studies. Same as CSE 561. Prerequisite: ME 412 or ME 471; ME 450.

ME 561  Convex Methods in Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/561)
Use of convex optimization in analysis and control of dynamical systems; robust control methods and the use of semidefinite programming; linear matrix inequalities, operator theory, model reduction, H-2 and H-infinity optimal control, S-procedure and integral quadratic constraints, structured singular value and mu-synthesis, and Markovian jump systems; applications in control design. Prerequisite: ECE 515.

ME 562  Robust Adaptive Control  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/562)
Mathematical foundation for synthesis and analysis of adaptive control systems: Lyapunov stability theory; methods of direct and indirect model reference adaptive control; recent methods, such as L1 adaptive control, that enable adaptive control with desired transient and steady-stage performance specifications. Prerequisite: Any of ECE 486, ECE 515, ECE 528, GE 424, ME 460.

ME 570  Nonlinear Solid Mech Design  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/570)
Optimality conditions; finite element methods; design sensitivity analysis; nonlinear analysis; transient analysis; thermo-mechanical solid mechanics. Same as AE 524. 4 graduate hours. No professional credit. Prerequisite: One of AE 420, CEE 470, ME 471, TAM 470, TAM 445, TAM 551.

ME 586  Mechanics of MEMS  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/586)
Mechanics and dynamics of microelectromechanical systems (MEMS); scaling laws in electrostatics, magnetics, and fluids; analytical models for thin-film growth and etching; effect of surface tension in small dimensions in relations to stability of MEMS during web fabrication; size effects on mechanical properties of MEMS materials; equations of motion for MEMS, involving coupled elastic and electric fields that give rise to nonlinear dynamical behavior; Mathieu behavior and chaotic systems. Prerequisite: ME 485.

ME 590  Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ME/590)
Presentation and discussion of significant developments in mechanical engineering. Approved for S/U grading only. May be repeated.

ME 591  Interest Group Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/ME/591)
Seminars on current topics in mechanical science and engineering. May be repeated in the same term if topics vary. May be repeated in separate terms.

ME 597  Independent Study  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/597)
Independent study of advanced problems related to mechanical engineering. May be repeated in the same term or in separate terms if topics vary to a maximum of 12 hours. Prerequisite: Consent of instructor.

ME 598  Special Topics  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/ME/598)
Subject offerings of new and developing areas of knowledge in mechanical engineering intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

ME 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/ME/599)
Approved for S/U grading only. May be repeated.
Media (MDIA)

MDIA Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MDSA)

Courses

MDIA 100 College of Media Orientation credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MDSA/100)
College of Media Orientation is designed to build academic and social integrity and to give students the resources they need to be responsible members of the University of Illinois community who earn degrees in a timely manner.

MDIA 199 Special Topics credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/199)
Subject offerings of new and developing areas of knowledge and practice in the fields of media. The course is intended to augment the existing curriculum. See Class Schedule or college course information for topics and prerequisites. Approved for letter and S/U grading. May be repeated in the same term to a maximum of 6 hours if topics vary; may be repeated in separate terms to a maximum of 12 hours if topics vary.

MDIA 223 Watching the Environment credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/223)
This course examines how films portray the health environment and the need for environmental protection. The course focuses on series of questions including: To what extent does a film suggest that the world has environmental concerns? What are the constraints that narrative form, production routines, financing and distribution put on representing environmental problems and environmentalists? Is the information in the film to be trusted? In documentaries, are physical and social scientists’ explanations of environmental problems and solutions reliable? What cues can we use from within and outside the film to evaluate the film for credibility? During the course participants will compare the science and economics of selected environmental issues with film presentations, examine what drives of environmental participation (and the limits of film in presenting science), and look at the constraints of producing special interest versus broad distribution films on presentations of the environment. Class includes viewing blockbuster, Oscar, and award-winning documentaries. Lecture attendance is mandatory. Same as NRES 223.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

MDIA 270 Introduction to Media Sales credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/270)
This course is guided by theory related to persuasion and social influence as it explores prevalent inter-personal and business-focused communication styles, methods and techniques used in the media sales industry. The course will cover the entire media sales cycle, from planning, to research, to setting sales objectives/strategies/goals and then how to effectively negotiate, "pitch" and "close" the sale, and evaluate and measure the sale once it is completed. It will consist of class lectures, in-class activities, role-playing exercises and also include guest lectures brought in from the sales industry.

MDIA 290 Undergraduate Open Seminar credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/290)
Experimental course on special topics pertinent to the disciplines studied within the College of Media. Topics will vary. Approved for letter and S/U grading. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary.

MDIA 299 Media Study Abroad credit: 0 to 18 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/299)
Provides credit toward the undergraduate degree for study at accredited foreign institutions or approved overseas programs. Final determination of credit is made upon the student’s completion of the work. Approved for letter and S/U grading. May be repeated in separate terms to a maximum of 44 hours. Prerequisite: One year of residence at UIUC, good academic standing, and prior approval of the College of Media.

MDIA 320 Media Sales Management credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/320)
This course addresses conceptual and methodological issues related to the management of sales within media organizations. Responsibilities, function and skills necessary to be an effective media sales manager are covered, including an evaluation of sales organization structures, recruiting, selecting, testing, and training of media salespeople. Related topics include compensation plans, controlling expenses, sales forecasting/projections, routing, quotas, ethics and motivation. It will consist of class lectures, in-class activities, role playing exercises and also include guest lecture from industry leaders/alumni with experience in media sales management. Prerequisite: MDIA 270 (Introduction to Media Sales).

MDIA 370 Advanced Media Sales credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/370)
This course focuses on consultative and persuasive selling and interpersonal relationship building, with an emphasis on specific media vehicles (broadcast, print, digital, out-of-home, non-traditional, etc.). It will discuss how to be a successful media salesperson for each medium (listed above), including major account selling, value-added selling, coordination between salespeople and the firm’s other functional areas, team selling, negotiating, communication styles, career management, and personal development. The course will also cover the relationship between advertising agencies, advertising clients and salespeople. It will include mock interviews, written sales proposals, and role-playing exercises that will facilitate application of effective media sales techniques. It will also feature exposure to media sales experts for each medium covered in class. Prerequisite: MDIA 270 (Introduction to Media Sales).

MDIA 380 21st Century Documentaries credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/380)
Documentary has exploded in the past decade, with more being created, screened and watched than at any time in history. But what has this growth meant to documentary, and how has it impacted what we see on screen and how documentary stories are being told? We will examine the changes and trends taking place in film and television documentaries over the past decade. We will watch and analyze a documentaries over the past decade. We will watch and analyze a
explanations of environmental problems and solutions reliable? What cues can we use from within and outside the film to evaluate the film for credibility? During the course participants will compare the science and economics of selected environmental issues with film presentations, examine what drives of environmental participation (and the limits of film in presenting science), and look at the constraints of producing special interest versus broad distribution films on presentations of the environment. Class includes viewing blockbuster, Oscar, and award-winning documentaries. Lecture attendance is mandatory. Same as NRES 223.
This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

MDIA 390 Special Topics in Media credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDSA/390)
Special topics course focusing on cultural, economic, historical, political, and social themes and issues that influence or are influenced by the media. Topics will vary. Additional fees may apply. See Class Schedule. Approved for Letter and S/U grading. May be repeated for a maximum of 6 hours if topics vary. Prerequisite: One year of Media courses, Junior or senior standing in the College of Media, or consent of instructor.
MDIA 400  Special Topics  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/400)
Varying topics including the cultural, social, historical, legal, economic, political, and other issues that influence or are influenced by Media. 1 to 3 undergraduate hours. 1 to 3 graduate hours. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary. Prerequisite: Previous classes in either AGCM, ADV, JOUR, or MACS.

MDIA 512  History of Libraries  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/512)
Same as IS 512. See IS 512.

MDIA 524  Dev Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/524)
Same as LING 524 and PSYC 524. See PSYC 524.

MDIA 525  Psycholinguistics  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/525)
Same as LING 525 and PSYC 525. See PSYC 525.

MDIA 560  Feminist Media Studies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/560)
Addresses major areas of theoretical debate or interest in the broad topic of "Feminist Media Studies" and looks in depth at a number of theoretical issues which define it. Develops an understanding of historical, psychoanalytic, interpretive, and social scientific approaches to the study of film and television texts, their reception, and their production. Readings are extensive and directed toward illustrating the range of theoretical and empirical approaches applied to addressing questions of central interest in the field. Viewings will emphasize some lesser-known historical texts central to theoretical debates in the field. Viewings and readings are focused on "popular" film and television. Same as GWS 560.

MDIA 568  Political Economy of Comm  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/568)
Analyzes the structure, policy, and behavior of such media of communication as newspapers, magazines, books, postal service, telegraph, telephone, broadcasting, and film; special emphasis on their relationships to the political order and the economy. Prerequisite: Consent of department.

MDIA 570  Popular Culture  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/570)
Examines problems of cultural analysis related to the media of communications and the social implications of communications research.

MDIA 571  Proseminar I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/571)
Addresses the mass media of communications, their role as social institutions, and their control and support. Examines evolution of research on mass media content, audience, and effects. Prerequisite: Consent of department.

MDIA 572  Proseminar II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/572)
Addresses the problems of communications, including the individual as a communicating system, symbolic processes, analysis of messages, psycholinguistics, and language as social behavior. Prerequisite: Consent of department.

MDIA 573  Freedom of Expression  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/573)
Examines the development of the Anglo-American press system and the idea of freedom of the press; explores contemporary mass media and their implications for freedom and democracy.

MDIA 574  Media and Society  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/574)
Addresses the problems of communications, including the individual as a communicating system, symbolic processes, analysis of messages, psycholinguistics, and language as social behavior. Prerequisite: Consent of department.

MDIA 575  Cultural Studies and Critical Interpretation  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/575)
Same as EPS 575. See EPS 575.

MDIA 577  Philosophy of Technology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/577)
Introduces students to those thinkers who understand technology philosophically as a central component in modern culture. Examines major perspectives on the nature of technology, rooted in Norbert Weiner, Karl Marx, and Martin Heidegger. Links media technologies, information systems, and global communications background problems and basic issues to technology more generally. Develops instrumentalism, feminist and critical approaches, ethical concerns, and alternative technologies in the context of technology as a cultural activity.

MDIA 578  Communication Ethics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/578)
This course introduces the latest literature in, or directly relevant to, communication, media and information ethics. It examines current efforts in applied and professional ethics, feminist ethics, and social ethics to develop ethical models that are cross-cultural, gender inclusive and international. The major ethical issues are considered in such areas as global communication, new media technologies, information systems, news, and entertainment.

MDIA 580  Advanced Interpretive Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/580)
Same as SOC 580. See SOC 580.

MDIA 589  Special Topics  credit: 2 to 8 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/589)
May be repeated in the same or in multiple semesters if topics vary.

MDIA 592  Quantitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/592)
Introduces the methods of empirical research in the behavioral sciences applicable to research problems in human communication, with emphasis on studies of mass communication. Lectures, readings, and laboratory practice.

MDIA 593  Qualitative Methods  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/593)
Introduces qualitative concepts and strategies in the social sciences and humanities which apply to research problems in mass communications.

MDIA 599  Thesis Research  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MDIA/599)
Approved for S/U grading only. May be repeated to a maximum of 16 hours.

Media and Cinema Studies (MACS)
MACS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MACS)
Courses

MACS 100  Intro to Popular TV & Movies  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/100](https://courses.illinois.edu/schedule/terms/MACS/100))
The goal of this course is for students to begin to develop a critical understanding of the role of popular movies and television in their own lives and in U.S. culture. The course looks at issues of the relationship of media to social violence, gender identities, sexual identities, adolescents, minority cultures, and the role of the U.S. media globally. It also considers some of the major media genres that characterize U.S. popular television and movies.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Western

MACS 101  Intro to the Media  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/101](https://courses.illinois.edu/schedule/terms/MACS/101))
Introduces students to core issues in communication, ranging from the role of language in human history to political questions posed by electronic and digital technologies. Exploring key contemporary problems through timely readings, students learn and write about how the media affect everyday life. Prerequisite: Freshman or sophomore standing.

This course satisfies the General Education Criteria for:
- Advanced Composition

MACS 104  Intro to Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/104](https://courses.illinois.edu/schedule/terms/MACS/104))
Same as ENGL 104. See ENGL 104.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

MACS 117  Shakespeare on Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/117](https://courses.illinois.edu/schedule/terms/MACS/117))
Same as ENGL 117. See ENGL 117.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts

MACS 150  Introduction to Digital Media Production  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/150](https://courses.illinois.edu/schedule/terms/MACS/150))
An introduction to aesthetic, conceptual, and technical skills needed to create audiovisual media for digital distribution. Students will learn to communicate and creatively express themselves through new and emerging technologies while becoming more critical digital media consumers and producers. No prior media production experience or equipment is necessary to enroll.

MACS 156  Contemporary Media Literacy  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/156](https://courses.illinois.edu/schedule/terms/MACS/156))
Develops critical media production skills to assess the importance of new media in contemporary culture. The course emphasizes both social and technical aspects of media. As part of the course, students prepare their own media and evaluate current media literacy projects.

This course satisfies the General Education Criteria for:
- Social Beh Sci - Soc Sci

MACS 199  Undergraduate Open Seminar  credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/199](https://courses.illinois.edu/schedule/terms/MACS/199))
May be repeated to a maximum of 12 hours in separate semesters if topics vary.

MACS 202  Social Aspects Info Tech  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/202](https://courses.illinois.edu/schedule/terms/MACS/202))
Same as INFO 202 and IS 202. See INFO 202.

This course satisfies the General Education Criteria for:
- Social Beh Sci - Soc Sci

MACS 203  Contemporary Movies  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/203](https://courses.illinois.edu/schedule/terms/MACS/203))
Provides a critical context for recent international cinema by exploring several kinds of genres, aesthetics, and technologies. We will discuss transnational trends in cinema relating to the influence of other media such as gaming, social networking, and personal electronics, as well as consider impacts of economic structures of global filmmaking production and exhibition. We will view popular and art movies, and query longstanding categories such as the teen pic, "woman's" film, and documentary.

MACS 204  Gender in Gaming  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/204](https://courses.illinois.edu/schedule/terms/MACS/204))
Same as ENGL 277 and GWS 204. See GWS 204.

MACS 205  Introduction to Documentary  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/205](https://courses.illinois.edu/schedule/terms/MACS/205))
This course introduces students to one of the fastest growing areas in media today: the documentary. It's designed for students who want to expand their knowledge and appreciation of documentaries in all their forms. Using weekly in-class screenings, discussion, readings, ad writing, students will examine a wide variety of documentaries, looking at their styles, purposes, and storytelling "voices", as well as learning the language and other fundamentals of documentary. We will also cover some of the basic methods involved in planning and creating a documentary. Please note: this is NOT a hands-on production course. Prerequisite: Sophomore standing or above required.

MACS 207  Indian Cinema in Context  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/207](https://courses.illinois.edu/schedule/terms/MACS/207))
Same as CWL 207. See CWL 207.

This course satisfies the General Education Criteria for:
- Humanities - Lit Arts
- Cultural Studies - Non-West

MACS 211  Intro to African-American Film  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/211](https://courses.illinois.edu/schedule/terms/MACS/211))
Examination of the history, theory, and aesthetics of African-American filmmaking from the silent era to the present. Films are analyzed within their sociocultural contexts, with particular attention to how constructions of race, identity, and community interact with class, gender, and sexuality; and the link between film and other forms of Black expressive culture. The impact of African-American film on popular culture, links to the African Diaspora, and relations with other communities of color will also be discussed. Same as AFRO 211.

This course satisfies the General Education Criteria for:
- Cultural Studies - US Minority

MACS 224  Sportsmedia Technology & Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/224](https://courses.illinois.edu/schedule/terms/MACS/224))
This course is designed for students who are curious about (a) how new technologies are changing sportsmedia cultures, and (b) the kinds of knowledges and skills needed to effectively engage with this powerful cultural and economic industry. We'll use four primary focal points (ESPN, Sport Fandom, Action-Sports, Data Production / Smart Stadiums) to help us understand today's sportsmedia cultural industry's challenges and possibilities, and the kinds of challenges and possibilities that the sportsmedia cultural industry creates for society. We'll also use our course focal points and related industry websites to concretize the key concepts (drawn from theoretical readings and applied studies in media studies, sociology, sport studies, and technology studies).

MACS 227  Studies in Black Television  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/227](https://courses.illinois.edu/schedule/terms/MACS/227))
Same as AFRO 227. See AFRO 227.
MACS 250  Animation in a Historical Context  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/250)
Same as LLS 250. See LLS 250.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority
MACS 261  Survey of World Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/261)
Survey of the development of equipment, techniques, and themes of the cinema from its origins through the coming of sound; lectures, discussions, and showings of selected films.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
MACS 264  Creative and Information Economies  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MACS/264)
An introduction to the political economy of the media in the U.S. The purpose of the class is to acquaint students with a core understanding of how the media system operates, and with what effects, in a capitalist society. The course examines the role of advertising, public relations, corporate concentration, and government regulation upon journalism, entertainment, culture, and participatory democracy. The class also examines issues such as the Internet, globalization, and public broadcasting.
This course satisfies the General Education Criteria for: Humanities - Hist Phil
Cultural Studies - Western
MACS 273  American Cinema Since 1950  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/273)
Same as ENGL 273. See ENGL 273.
MACS 275  Am Indian and Indigenous Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/275)
Same as AIS 275 and ENGL 275. See AIS 275.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority
MACS 284  Animated Media from Mickey to GIFs  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/284)
This course examines the technological, stylistic, industrial, and cultural history of animated media from the late 19th century to the present day. Topics covered include animation in the silent era, Disney and Warner Bros., Japanese anime, television animation, abstract animation, cartoons and race, computer-generated animation, GIFs, and motion capture. Weekly required screenings. Using source footage and voiceover narration, students will create several video essays that offer an original analysis of animated works in a historical context.
MACS 295  Intro Media/Cinema Topics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/295)
Introduction to the study of special topics in media and cinema studies, including cultural, social, historical, economic, and/or political issues in media and/or cinema. Topics vary but may include: genres, stars, historical movements, thematic studies, television, convergence culture, new media. Additional fees may apply. See Class Schedule. May be repeated in the same or separate terms to a maximum of 6 hours if topics vary.
MACS 300  Topics in Film and History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/300)
Same as HIST 300. See HIST 300.
MACS 317  Media History  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/317)
Presents the nature and development of communication systems; history of communication media; history of journalism, advertising, and broadcasting; and communications in the modern world.
MACS 320  Popular Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/320)
Examines the critical literature on mass media entertainment; reviews significant contemporary issues and develops perspectives for understanding popular culture.
MACS 321  Film Culture  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/321)
Introduces students to key issues of, major theoretical approaches to, and current debates about the cultural function of films. Course addresses theories of spectatorship, the politics of pleasure, the culture of entertainment, and the cinematic construction of race, class, and gender.
This course satisfies the General Education Criteria for: Cultural Studies - Western
MACS 322  Politics and the Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/322)
Same as CMN 325 and PS 312. See PS 312.
MACS 323  Studies Film/Media Production  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/323)
Provides analytical framework for pursuing film/media production. Emphasizes critical analysis of various aspects of production: e.g., scriptwriting, storyboarding, cinematography, editing, set and costume design, location and studio shooting, sound. Covers theories of representation, narrative, meaning-making, experimentation, and audience in relation to film/media production practices. Does not, however, teach students how to do film and media production (e.g., how to work a camera, etc.). Therefore, students must come to the course with experience in film and/or media production (can be self-taught). Both individual and group projects are encouraged. Students should expect to work as crew for other students in class. Culminates in a public screening at which students present an analysis of their own project—both the process and the finished product. To apply for course, students (individually or in groups) must propose an idea or concept for a film/media project they would like to produce during the class. May be repeated in separate terms to a maximum of 6 hours. May be repeated by students who wish to pursue a longer project in two consecutive semesters (may include summer). Students may not repeat the course to pursue separate projects. Prerequisite: Consent of instructor.
MACS 326  New Media, Culture & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/326)
Digital media is an immensely pervasive and powerful form of communication that despite its rapid growth has yet to reach most of the world’s population. This lecture-based survey course for undergraduates traces the history and formation of personal computing and the Internet, the development of virtual communities and virtual worlds, evolving forms of digital representation and communication, digital visual cultures, features of new media industries, and the rise of participatory media. Evaluation and assessment is based on written exams, quizzes, class discussion in section, and practice-based assignments using new media technologies such as wikis, blogs, games, and digital video. Emphasis is on mastering key concepts of digital media through theory and history, and on critical discussion of distinctive features of digital media objects. Lectures and discussion sections are held in computer-equipped classrooms. Same as INFO 326.

MACS 331  Media and Democracy  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/331)
Studies the philosophical bases of the functions and the responsibilities of mass communications.

MACS 335  Film, TV, and Gender  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/335)
Same as GWS 335. See GWS 335.

MACS 345  Digital & Gender Cultures  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/345)
Same as GWS 345, INFO 345, and SOC 345. See GWS 345.

MACS 346  Case Study: Endless Summer  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/346)
Same as KIN 346 and RST 346. See KIN 346.

MACS 351  Social Aspects of Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/351)
Explores media structures in relation to cultural content and social functions; examines problems of life and society as treated in mass-produced communications. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci

MACS 352  Attitude Theory and Change  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/352)
Same as PSYC 352. See PSYC 352.

MACS 356  Sex & Gender in Popular Media  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/356)
Examines the notion that the mass media influence our development as gendered individuals, looking at those who argue for and against this notion. Considers different forms of feminist theory applied to the study of mass media, the history and scholarly criticisms of the media and their portrayal of women, and feminist attempts to create alternatives to mainstream media images. Throughout, the course considers representation of minorities in the dominant media and examines newly created alternative representations. Same as GWS 356. This course satisfies the General Education Criteria for: Cultural Studies - Western

MACS 361  Film Theory and Criticism  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/361)
Study of major aesthetic and critical theories about film; study of theory and practice of film criticism.

MACS 364  Topics in Media Business  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/364)
Addresses the business, industry, and economic implications of the interaction of Internet, television, radio, film, and print outlets through digitization-driven platform and interactive technologies. Explores historical and emergent business models, ownership and work patterns, and investment arrangement related to media convergence. Investigates novel forms of individual and collective labor structures and globally distributed modes of production and consumption. Includes attention to economic and scholarly models seeking to analyze media business structures. Specific topics may vary by semester, but may include Google, Disney, and Hollywood studio system, or activist media organizations. May be repeated for a maximum of 6 hours if topics vary.

MACS 365  Asian American Media and Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/365)
Same as AAS 365. See AAS 365.

MACS 373  Special Topics in Film Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/373)
Same as ENGL 373. See ENGL 373.

MACS 375  Latina/o Media in the US  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/375)
Examines the portrayal and participation of Latinas and Latinos in the U.S. media using a variety of interdisciplinary approaches. Addresses historical and political movements that have been critical to Latina/Latino print, broadcast, and electronic communication within the broader context of cultural diversity. Same as LLS 375.

MACS 377  Global Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/377)
Introduces students to the multiple dimensions of cross-national and comparative communications. Specific topics will vary according to instructor’s focus, but may include human dimensions of global communication, intercultural communication, media impact, structure and processes of institutional communication (i.e. propaganda, diplomacy).

MACS 381  Black Women and Film  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/381)
Same as AFRO 381. See AFRO 381.

MACS 382  French & Comparative Cinema I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/382)
Same as CWL 387, FR 387, and HUM 387. See FR 387.

MACS 383  French & Comparative Cinema II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/383)
Same as CWL 389, FR 389, and HUM 389. See FR 389.

MACS 389  International Communications  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/389)
Provides an interdisciplinary approach to international communications; its structure and content; the role of international communications in conflict and conflict resolution; the semantics of international communication; the technical and economic aspects of international mass communications; and government-industry relations in communications. Same as PS 389.

MACS 391  Individual Study  credit: 0 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MACS/391)
Individual research and exploration of media and cinema studies topics under the guidance of a faculty advisor. May be repeated in the same or in multiple semesters, if topics vary. Prerequisite: Consent of instructor.
MACS 395 Special Media/Cinema Topics credit: 3 Hours. Examines factors reshaping TV and its relationship to culture, including genres, industry practices (advertising, production, distribution), new media technologies (YouTube, Twitter, and newer developments), and computer gaming. Analyzes places/spaces of television, mobility, surveillance, television as instruction/guide (dating, cooking, fashion), citizenship, consumption, and TV in everyday life. Focuses on contemporary aspects of TV, with some attention to earlier forms and practices of television. Students required to view and analyze some television programs outside of class. 3 undergraduate hours. 4 graduate hours.

MACS 410 Media Ethics credit: 3 or 4 Hours. Surveys the major ethical problems in news, advertising, publications and entertainment media; includes case studies and moral reasoning on confidentiality, privacy, conflicts of interest, deception, violence, and pornography. 3 undergraduate hours. 4 graduate hours.

MACS 419 Russian & East European Film credit: 3 or 4 Hours. Examines topics vary but may include: genres, historical movements, thematic studies, television, convergence culture, new media. May be repeated to a maximum of 6 hours if topics vary.

MACS 423 Language Acquisition credit: 3 or 4 Hours. Examines the influence of Japan's traditional aesthetics on its cinema and surveys its major film movements, genres, and directors. Same as CWL 467 and EALC 466. 3 undergraduate hours. 4 graduate hours. Prerequisite: One course in the College of Media or East Asian Languages and Cultures, or consent of instructor.

MACS 470 Topics in Italian Cinema credit: 3 or 4 Hours. Examines the history and significance of film festivals: What they mean as cultural, social, historical, economic, and/or political issues in media and/or cinema; topics vary but may include: genres, historical movements, thematic studies, television, convergence culture, new media. May be repeated to a maximum of 6 hours if topics vary.

MACS 492 Scandinavian Cinema credit: 3 or 4 Hours. Examines the production, distribution, and marketing of films. Students required to view and analyze some films outside of class. 3 undergraduate hours. 4 graduate hours. May be repeated in separate terms to a maximum of 4 undergraduate hours. May be repeated in the same term to a maximum of 2 undergraduate hours. May be repeated in separate terms to a maximum of 3 undergraduate hours. Prerequisite: Consent of instructor.

MACS 496 Advanced Media/Cinema Topics credit: 3 or 4 Hours. Examines the history and significance of film festivals: What they mean for the film industry (marketing, distribution, production), audiences (both at the festival and beyond), film history, and the evolution of filmmaking. Covers specific local, national, and international festivals including festivals focused on particular issues (e.g., Chicago International Children's Film Festival, San Francisco International Asian American Film Festival, Miami Gay and Lesbian Film Festival, and our own local IUB 48-Hour Film Contest). Coordinated with Roger Ebert's Film Festival (which is held in Champaign every April) including internship/volunteer opportunities, screenings, and meetings with guests. Class culminates with a UIUC student film festival, organized, judged, and sponsored by the class. 3 undergraduate hours. 4 graduate hours.

Information listed in this catalog is current as of 07/2019
MACS 504  Theories of Cinema  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MACS/504](https://courses.illinois.edu/schedule/terms/MACS/504))
Seminar on influential theories and accompanying debates about the
textual/extra-textual mechanisms and cultural/political impact of cinema
and related screen media. Same as CWL 504 and ENGL 504.

Medical Scholars Program (MSP)

MSP Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/MSP](https://courses.illinois.edu/schedule/DEFAULT/MSP))

Courses

MSP 600  MSP: Pre-M1 Completion  credit: 0 to 20 Hours. ([https://courses.illinois.edu/schedule/terms/MSP/600](https://courses.illinois.edu/schedule/terms/MSP/600))
MSP 601  MSP: Post-M1 Completion  credit: 0 to 20 Hours. ([https://courses.illinois.edu/schedule/terms/MSP/601](https://courses.illinois.edu/schedule/terms/MSP/601))
MSP 620  Nursing Holding Sections  credit: 0 Hours. ([https://courses.illinois.edu/schedule/terms/MSP/620](https://courses.illinois.edu/schedule/terms/MSP/620))

Medieval Studies (MDVL)

MDVL Class Schedule ([https://courses.illinois.edu/schedule/DEFAULT/MDVL](https://courses.illinois.edu/schedule/DEFAULT/MDVL))

Courses

MDVL 111  Ancient to Medieval Art  credit: 4 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/111](https://courses.illinois.edu/schedule/terms/MDVL/111))
Same as ARTH 111. See ARTH 111.
This course satisfies the General Education Criteria for:
 Humanities - Lit Arts

MDVL 122  Swords, Sorcery & Sex: The Middle Ages in Popular Culture  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/122](https://courses.illinois.edu/schedule/terms/MDVL/122))
Same as ENGL 122. See ENGL 122.
This course satisfies the General Education Criteria for:

MDVL 256  Medieval Jewish Thought  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/256](https://courses.illinois.edu/schedule/terms/MDVL/256))
Same as JS 256 and REL 256. See REL 256.

MDVL 344  Medieval Jewish Thought  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/344](https://courses.illinois.edu/schedule/terms/MDVL/344))
Same as JS 344 and REL 344. See REL 344.

MDVL 345  Medieval Civilization  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/345](https://courses.illinois.edu/schedule/terms/MDVL/345))
Same as HIST 345 and REL 345. See HIST 345.

MDVL 346  The Age of the Renaissance  credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/346](https://courses.illinois.edu/schedule/terms/MDVL/346))
Same as HIST 346 and REL 346. See HIST 346.

MDVL 403  European Education to 1600  credit: 2 to 4 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/403](https://courses.illinois.edu/schedule/terms/MDVL/403))
Same as EPS 403 and HIST 440. See EPS 403.
This course satisfies the General Education Criteria for:
 Advanced Composition
 Humanities - Hist Phil
 Cultural Studies - Western

MDVL 407  Introduction to Old English  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/407](https://courses.illinois.edu/schedule/terms/MDVL/407))
Same as ENGL 407. See ENGL 407.

MDVL 410  Topics in Medieval Brit Lit  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/410](https://courses.illinois.edu/schedule/terms/MDVL/410))
Same as CWL 411 and ENGL 412. See ENGL 412.

MDVL 411  Chaucer  credit: 3 or 4 Hours. ([https://courses.illinois.edu/schedule/terms/MDVL/411](https://courses.illinois.edu/schedule/terms/MDVL/411))
Same as ENGL 411. See ENGL 411.

Information listed in this catalog is current as of 07/2019
MDVL 444 Medieval England credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/444)
Same as HIST 445. See HIST 445.

MDVL 460 Medieval Latin credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/460)
Same as LAT 460. See LAT 460.

MDVL 470 Middle Ages to Baroque credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/470)
Same as GER 470. See GER 470.

MDVL 500 Seminar in Medieval Studies credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/500)
Team-taught, interdisciplinary seminar on varying topics in Medieval Studies drawing on faculty from UIUC and invited scholars from other universities. Approved for letter and S/U grading. May be repeated to a maximum of 12 hours.

MDVL 501 Topics in Medieval Studies credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/501)
Experimental and Temporary Courses. May be repeated in separate terms as topics vary.

MDVL 504 Genesis in History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/504)
Same as REL 504. See REL 504.

MDVL 505 Old Norse-Icelandic I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/505)
Same as SCAN 505. See SCAN 505.

MDVL 506 Old Norse-Icelandic II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/506)
Same as SCAN 506. See SCAN 506.

MDVL 508 Beowulf credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/508)
Same as ENGL 508. See ENGL 508.

MDVL 511 Chaucer credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/511)
Same as ENGL 511. See ENGL 511.

MDVL 512 Seminar in Medieval Arch credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/512)
Same as ARCH 512. See ARCH 512.

MDVL 514 Seminar in Medieval Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/514)
Same as ENGL 514. See ENGL 514.

MDVL 515 Middle High German credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/515)
Same as GER 515. See GER 515.

MDVL 522 Seminar in Medieval Art credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/522)
Same as ARTH 522. See ARTH 522.

MDVL 530 Old High German credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/530)
Same as GER 530. See GER 530.

MDVL 540 Seminar in N. Renaissance Art credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/540)
Same as ARTH 540. See ARTH 540.

MDVL 542 Problems in Medieval History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/542)
Same as HIST 542. See HIST 542.

MDVL 543 Seminar in Medieval History credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/543)
Same as HIST 543. See HIST 543.

MDVL 570 Seminar Old French Literature credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/570)
Same as FR 570. See FR 570.

MDVL 571 Medieval German Studies credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MDVL/571)
Same as GER 571. See GER 571.

Microbiology (MICR)

MICR Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MICR)

Courses

MICR 590 Individual Topics credit: 1 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MICR/590)
Approved for S/U grading only. May be repeated. Prerequisite: Consent of instructor.
Military Science (MILS)

MILS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MILS)

Courses

MILS 101 Introduction to Leadership credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MILS/101)
This course introduces you to the personal challenges and competencies that are critical for effective leadership. You will learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officeship, and the Army profession. The focus is on developing basic knowledge and comprehension of Army leadership dimensions, attributes and core leader competencies while gaining a big picture understanding of the ROTC program, its purpose in the Army, and its advantages for the student.

MILS 201 Individual Leadership Studies credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MILS/201)
Explores the dimensions of creative leadership strategies and styles by examining team dynamics and leadership theories; also explores military mountaineering. Prerequisite: Class is only available to students who have less than 60 credit hours.

MILS 202 Leadership and Teamwork credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MILS/202)
Fundamentals of rifle marksmanship. Systematic study of the maintenance, operation, and employment of the U.S. Army's primary individual weapon system, the M16 rifle. Also includes instruction on weapons safety, military marksmanship techniques and tactics, an introduction to risk assessment and management, and an integration of a live-fire M16 range. Includes field trips. Prerequisite: Only available to students who have less than 60 credit hours.

MILS 212 Leadership Laboratory credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/212)
Intermediate level practical application of military skills and leadership; includes mountaineering and rappelling, first aid, small unit marching, weapons firing, and physical fitness. Field trip required. Approved for S/U grading only. May be repeated.

MILS 214 Leadership Laboratory credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/214)
Continuation of MILS 212 to include military radio communication procedures and small unit tactics. Field trip required. Approved for S/U grading only. May be repeated.

MILS 301 Leadership and Problem Solving credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MILS/301)
Fundamentals of small unit military operations including operations planning, military orders, troop leading procedures, small unit offensive and defensive operations. Includes field practical application. Prerequisite: Successful completion of MILS 101, MILS 102, MILS 201 and MILS 202 is required to enroll in MILS 301.

MILS 302 Leadership and Ethics credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MILS/302)
Principles of leadership including management practices and their relationship to leadership, problem solving, decision making, human behavior and motivation, superior-subordinate relations, and leadership problems in the military environment. Includes field practical application. Prerequisite: Successful completion of MILS 301 is required to enroll in MILS 302.
MILS 312 Leadership Laboratory  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/312)
Advanced level practical application of military skills and leadership with emphasis on the student's ability to direct and supervise others; includes advanced land navigation, advanced first aid, platoon and company drill and ceremonies, and advanced communications procedures. Field trip required. Approved for S/U grading only. May be repeated.

MILS 314 Leadership Laboratory  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/314)
Continuation of MILS 312 to include small unit tactics and patrolling techniques. Field trip required. Approved for S/U grading only. May be repeated.

MILS 322 Leadership Laboratory  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/322)
Unique opportunity for advanced course students to fully plan, execute, and supervise the military training and activities of other military science students. Emphasis is on leadership, organizing and managing activities, decision making, and effective instructional techniques. Field trip required. Approved for S/U grading only. May be repeated.

MILS 324 Leadership Laboratory  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MILS/324)
Continuation of MILS 322. Field trip required. Approved for S/U grading only. May be repeated.

MILS 325 Independent Study  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MILS/325)
Supervised reading and research in a selected area of Military Science. May be repeated to a maximum of 6 hours.

MILS 341 Leadership and Management  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MILS/341)
Fundamentals of military law including Law of Land Welfare, the application of federal law to the military, and the military justice system. Examines ethics, values, and professional standards through case studies. Includes introductory instruction on training management. Prerequisite: Successful completion of MILS 301 and MILS 302 is required to enroll in MILS 341.

MILS 342 Officership  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MILS/342)
Basic examination of all military management systems: personnel, supply, logistics, training, maintenance, finance, and administration. Includes instruction on military administrative skills - written and verbal communications, meeting management, and briefing techniques. Discusses motivation and counseling techniques. Basic instruction on Army environmental protection policies. Prerequisite: Successful completion of MILS 341 required to enroll in MILS 342.

Modern Greek (GRKM)

GRKM 201 Elementary Modern Greek I  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/201)
Develops elementary proficiency in spoken and written Modern Greek, and introduces elements of cultural knowledge. Familiarizes beginning students with the Greek alphabet and modern Greek pronunciation rules, and introduces Modern Greek morphology and syntax. Emphasizes listening comprehension, reading skills, and basic conversational skills. Online language laboratory and internet assignments required. Same as GRK 251.

GRKM 202 Elementary Modern Greek II  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/202)
Develops elementary proficiency in spoken and written Modern Greek, including familiarity with elements of cultural knowledge and Modern Greek morphology and syntax. Emphasizes listening comprehension, reading skills, writing and conversational abilities. Online language laboratory and internet assignments required. Same as GRK 252. Prerequisite: GRKM 201.

GRKM 403 Intermediate Modern Greek I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/403)
Advances students' knowledge of Modern Greek grammar and vocabulary and enables them to converse in Modern Greek by exposing them to different uses of Modern Greek in day-to-day communication, and to expand their knowledge of Modern Greek culture. Online language laboratory and internet assignments required. Same as GRK 403. 4 undergraduate hours. 4 graduate hours. Prerequisite: GRKM 202 or consent of the instructor.

GRKM 404 Intermediate Modern Greek II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/404)
Consolidates students' knowledge of Modern Greek grammar and vocabulary and enables them to converse in Modern Greek by exposing them to different uses of Modern Greek in day-to-day communication. Also offers an introduction to aspects of Modern Greek literature. In addition to listening comprehension and reading skills, the course emphasizes writing and conversational abilities. Online language laboratory and internet assignments required. Same as GRK 404. 4 undergraduate hours. 4 graduate hours. Prerequisite: GRKM 403 or consent of instructor.

GRKM 453 Intermediate Modern Greek I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/453)
Continued practice to enable students to attain conversational fluency and to become independent users of the language who deal effectively with a good deal of accuracy with familiar communication situations. 3 undergraduate hours. 3 graduate hours. Prerequisite: GRKM 454 or consent of instructor.

GRKM 454 Intermediate Modern Greek II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/GRKM/454)
Continued practice to enable students to improve their fluency and use Modern Greek effectively in a variety of contexts. 4 undergraduate hours. 4 graduate hours. Offered Spring terms only. Prerequisite: GRKM 453 or consent of instructor.

Molecular and Cell Biology (MCB)

MCB Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MCB)
Courses

MCB 100 Introductory Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/100)  
Introduction to the principal activities and properties of microorganisms, including bacteria, yeasts, molds, and viruses; consideration of the role of natural processes, such as photosynthesis; and man's use and control of microorganisms in the production of antibodies and vaccines in industrial fermentations, in sanitation and public health, and in agriculture. Credit is not given for both MCB 100 and MCB 300. Prerequisite: There are no prerequisites for MCB 100, but some chemistry is recommended. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

MCB 101 Intro Microbiology Laboratory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/101)  
Laboratory introduction to the techniques employed in the investigation of microbial activities and properties; experiments designed to familiarize the student with the handling, identification, and characterization of microorganisms and their activities, particularly those of interest to man. Credit is not given for both MCB 101 and MCB 301. Prerequisite: Credit or concurrent registration in MCB 100.

MCB 150 Molec & Cellular Basis of Life  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/150)  
Introductory course focusing on the basic structure, metabolic, and molecular processes (including membranes, energy metabolism, genes) common to all cells. Emphasis on unique properties that differentiate the major sub-groups of organisms (Archaea, Bacteria, plants, and animals), and will discuss how cells are integrated into tissues and organs in multicellular organisms. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

MCB 151 Molec & Cellular Laboratory  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/151)  
Introductory laboratory course focusing on basic techniques in molecular and cellular biology. Credit is not given for MCB 151 for students majoring in Molecular and Cellular Biology, or Integrative Biology; Credit is not given for both MCB 151 and MCB 251. Prerequisite: Credit or concurrent enrollment in MCB 150.

MCB 170 Society and the Brain  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/170)  
Presents recent findings concerning the brain-society interaction. The facts will span many levels, from molecular and cellular interactions, to the functions of specific brain regions, and on to the behaviors of individuals, groups and societies. Intended to bring a broad range of neurobiological data and ideas into an interesting and relevant context. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

MCB 180 Human Reproduction & Society  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/180)  
Lectures and discussions on topics in human reproduction where technological and clinical advances are having economic, social, and ethical consequences. This course satisfies the General Education Criteria for: Nat Sci Tech - Life Sciences

MCB 198 Internship  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MCB/198)  
Full-time or part-time internship at another University or an off-campus medical facility, research institute or other approved institution. Approved for S/U grading only. May be repeated. Prerequisite: For MCB and Biochemistry majors only. This course satisfies the General Education Criteria for: UIUC: Ugrad Zero Credit Intern

MCB 199 Undergraduate Open Seminar  credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MCB/199)  
Approved for letter and S/U grading. May be repeated to a maximum of 10 hours.

MCB 215 Foundation in Mol & Cell Bio  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/215)  
Online course that will provide transfer students with the essential bases in Molecular and Cellular Biology needed to succeed in the MCB core curriculum, when entering it at the sophomore level. Students will be exposed to the major concepts and the experimental aspects of MCB and be presented with an integrated view of a cell and its inner workings. In addition, a strong peer mentoring program will help students transitioning from their previous institutions by introducing them to the complex setting of a large undergraduate campus. Prerequisite: Successful completion of two semesters of college biology. Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent, or consent of instructor.

MCB 244 Human Anatomy & Physiology I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/244)  
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems; skeletal, muscle, nervous, sensory, and endocrine. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 245 Human Anat & Physiol Lab I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/245)  
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems; skeletal, muscle, nervous, sensory, and endocrine. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 246 Human Anatomy & Physiology II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/246)  
Organ system biology with an emphasis on normal human anatomy and physiology, physiological processes and associated disease processes of the following systems: tissue, skeletal, nervous, muscular, sensory, and endocrine. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: Credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

MCB 247 Human Anat & Physiol Lab II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/247)  
Laboratory exploration of normal human anatomy and physiology and relevant disease processes for the following systems: digestive, cardiovascular, respiratory, renal, and reproductive. Previously dissected human cadavers are an important part of the learning experience in this course, but students will not dissect human cadavers. Neither animal dissection or animal use are elements of this course. Prerequisite: MCB 245 and credit or concurrent enrollment in CHEM 101, CHEM 102, or equivalent; or consent of instructor.

Information listed in this catalog is current as of 07/2019
MCB 250 Molecular Genetics credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/250](https://courses.illinois.edu/schedule/terms/MCB/250))
Fundamentals of molecular biology including structure of DNA, RNA and proteins, mechanisms of DNA replication, transcription and translation, gene organization, genetic variation and repair, and regulation of gene expression in Bacteria, and Eukarya. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 150, CHEM 102 and CHEM 104, or equivalents or consent of instructor.

MCB 251 Exp Techniqs in Molecular Biol credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/251](https://courses.illinois.edu/schedule/terms/MCB/251))
Laboratory course emphasizing a range of molecular biology questions, and the experimental approaches and methodologies needed to answer these questions. Lectures will accompany labs to explain theoretical background and experimental rationale. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Credit is not given for both MCB 251 and MCB 151. Prerequisite: Concurrent or prior enrollment in MCB 250 or consent of instructor.

MCB 252 Cells, Tissues & Development credit: 3 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/252](https://courses.illinois.edu/schedule/terms/MCB/252))
Functional organization and physiology of cells and tissues, including cellular signaling, cellular interactions, and developmental processes. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Prerequisite: MCB 250 or equivalent with consent of instructor.

MCB 253 Exp Techniqs in Cellular Biol credit: 2 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/253](https://courses.illinois.edu/schedule/terms/MCB/253))
Laboratory course emphasizing experimental techniques in cellular biology, cellular physiology, and developmental biology. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. Credit is not given for both MCB 253 and MCB 151. Prerequisite: Concurrent or prior enrollment in MCB 252 or consent of instructor.

MCB 250 Undergraduate Research credit: 1 to 5 Hours. ([https://courses.illinois.edu/schedule/terms/MCB/290](https://courses.illinois.edu/schedule/terms/MCB/290))
Students assist in and /or conduct research under faculty supervision in an MCB research laboratory. The topics and nature of the work will vary but will be defined as work conducted in MCB research laboratories. For each hour of course credit in fall and spring terms, the student will be expected to complete 5 hours of work in the lab as directed. 75-80 total hours would be the expectation for 1 credit hour during 15-16 week terms. May be repeated to a maximum of 10 hours. Prerequisite: Consent of instructor.

Information listed in this catalog is current as of 07/2019
**MCB 314 Introduction to Neurobiology** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/314)
Introduction to functional and organizational principles of the mammalian nervous system. Topics include the function of nerve cells, neural signaling, sensory and motor systems, learning and memory, attention, motivation, emotions, language, neural development and neurological disorders. A general introduction appropriate for all majors. Same as NEUR 314. Prerequisite: Junior or senior standing.

**MCB 316 Genetics and Disease** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/316)
Introduction of the structure, expression, and regulation of genes of higher eukaryotes with an emphasis upon animal cells. Specific topics will include chromatin structure and its relation to gene expression, regulation of gene expression during development, recombination, molecular genetic technologies, gene replacement therapy, and the molecular genetics of cancers. Credit is not given for both MCB 316 and MCB 317. Prerequisite: MCB 150 and credit or concurrent registration in MCB 250 or consent of instructor.

**MCB 317 Genetics and Genomics** credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/317)
Study of genetics as a discipline, genetic analysis as a tool to understand biology and the role of genome sciences in biology. Credit is not given for both MCB 317 and MCB 316. Prerequisite: MCB 250, MCB 251, MCB 252, and MCB 253; or consent of instructor.

**MCB 320 Mechanisms of Human Disease** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/320)
The advent of molecular biology and the Human Genome Project has dramatically increased our understanding of the mechanisms of human disease. The underlying molecular causes for many diseases have been elucidated. This course examines how abnormalities that occur at the molecular and cellular level manifest as pathologies affecting the structure and function of human tissues and organs. In addition, this course focuses on the pathophysiology of common human diseases and the environmental, genetic and epigenetic causes of specific disease types. Prerequisite: MCB 252 or consent of instructor.

**MCB 354 Biochem & Phys Basis of Life** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/354)
Introduction to biochemical and structural biology emphasizing the physical and chemical properties of macromolecules. Credit is not given for both MCB 354 and MCB 450. Prerequisite: CHEM 232 or CHEM 236, and MCB 250 and MCB 252, or consent of instructor.

**MCB 364 Eukaryotic Cell Biology Laboratory** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/364)
Laboratory course emphasizing biochemical, immunological and molecular biological techniques used to probe the molecules and processes of eukaryotic cells. Special emphasis will be given to the cell cycle, intracellular trafficking, and cellular differentiation. Students will also learn proper data handling and reporting techniques. Prerequisite: MCB 252 and MCB 253 or consent of instructor. Priority is given to undergraduate MCB and Biochemistry majors.

**MCB 395 Special Topics in Human Physiology** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/395)
This course consists of 2 components: (1) a journal club, in which students explore current advances in the diagnosis, treatment, and understanding of human diseases by reading, presenting and discussing primary research articles; and (2) instructional support for MCB 246, in which students hold open office hours and make brief (10-15 minute) instructional videos that highlight advanced topics covered in journal club. Prerequisite: MCB 244 and MCB 246 and instructor approval.

**MCB 396 Special Topics in Human Health and Disease** credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/396)
This course consists of 2 components: (1) a journal club, in which students explore current advances in the diagnosis, treatment, and understanding of human diseases by reading, presenting and discussing primary research articles; and (2) instructional support for MCB 246, in which students hold open office hours and make brief (10-15 minute) instructional videos that highlight advanced topics covered in journal club. Prerequisite: MCB 244 and MCB 246 and instructor approval.

**MCB 400 Cancer Cell Biology** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/400)
Principles of eukaryotic cell biology with an emphasis on cancer cell biology; consideration of molecular and fine structural components of the cell with an emphasis on experimental analysis of the relationship of structure to function of gene, membrane, cytoskeleton, and extracellular matrix. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and credit or concurrent registration in MCB 354 or MCB 450 or consent of instructor.

**MCB 401 Cell & Membrane Physiology** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/401)
Cellular and molecular basis of physiological process with an emphasis on phenomena taking place at the membrane of cells and organelles (e.g., signal transduction, ion transport, synaptic transmission, nerve conduction, bioelectricity, synaptic plasticity.) Structure and function of biological membranes through a quantitative lens. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

**MCB 402 Sys & Integrative Physiology** credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/402)
Examines human systems physiology. Topics to be covered include the nervous and endocrine systems, muscle physiology, cardiac physiology, respiratory physiology, blood and immune homeostasis, renal physiology, and gastrointestinal physiology and energy homeostasis. Special emphasis is on homeostatic control and integration of body systems in both health and disease. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

**MCB 403 Cell & Membrane Physiology Lab** credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/403)
Experimental investigation of cellular functions common to most eukaryotic cells; emphasis on biochemical, electrical, and mechanical recording techniques. Some animal dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of or the dissection of animal tissues can be directed to the Instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent registration in MCB 401 and previous biology laboratory experience.

**MCB 404 Sys & Integrative Physiol Lab** credit: 1 to 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/404)
Experimental investigation of organ systems of vertebrates with emphasis on biochemical, electrical and physical recording techniques. Some animal dissection and the use of animal tissues are required in this course. Alternatives are not available. Inquiries concerning the use of, or the dissection of animal tissues can be directed to the instructor or Head of the Department. 2 undergraduate hours. 1 graduate hour. Prerequisite: Credit or concurrent registration in MCB 402 and previous biology laboratory experience.
MCB 406 Gene Expression & Regulation  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/406)
Provides in-depth and up-to-date coverage of gene expression and regulation. Lectures are centered on the principles of regulating gene expression in euukaryotic cells. The course covers macromolecule structure and function in gene expression; molecular mechanisms of the key gene expression events including transcription, RNA processing, localization and translation. Applications of these principles in medicine and therapeutics such as aging, cancer and drug design are also discussed. Same as BIOL 406. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 354 or consent of instructor.

MCB 408 Immunology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/408)
Introduction to fundamentals of immunology with emphasis on biological application; basic background for understanding immunological responses and techniques applicable to biological research. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 251, MCB 252, MCB 253, and MCB 354; or consent of instructor.

MCB 410 Developmental Biology, Stem Cells and Regenerative Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/410)
Survey of molecular and cellular mechanisms involved in development and growth of animals, as well as recent advancement in stem cell and Regenerative medicine research. Topics to be covered include fertilization and early cell lineage, body axis formation, gastrulation, neural induction and patterning, segmentation, and other aspects of pattern formation including organogenesis and limb development, as well as embryonic stem cells, induced pluripotent stem cells, adult stem cells, regeneration and regenerative medicine. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 413 Endocrinology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/413)
Physiology and biochemistry of the endocrine system and its hormones with special reference to vertebrates and to human endocrine disorders. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 or consent of instructor. One semester of biochemistry is recommended.

MCB 419 Brain, Behavior & Info Process  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/419)
Exploration of the neural basis of animal behavior. Emphasis on the information processing problems that animals face in complex natural environments and how nervous systems have evolved to solve these problems. Introduction to the use of computer modeling and simulation techniques for exploring principles of nervous system design and function. Current literature in computational neurobiology and neuroethology will be incorporated in readings and class discussion. Same as BIOP 419 and NEUR 419. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 421 Microbial Genetics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/421)
Prokaryotic microbial genetic systems; emphasis on typical data analyses, together with the basic classes of genetic phenomena. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or consent of instructor.

MCB 424 Microbial Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/424)
Examines the biochemical ecology of diverse microbial groups with emphasis on anaerobic systems. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 and MCB 354 or MCB 450, or consent of instructor.

MCB 426 Bacterial Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/426)
Emphasizes prokaryotes that cause important diseases in humans and other animals; host-parasite bacteriology; and chemistry and genetics of mechanisms of pathogenesis. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354, or consent of instructor.

MCB 428 Microbial Pathogens Laboratory  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/428)
Laboratory study of methods of recognition and differentiation, diagnostic tests, and mechanisms of bacterial and viral pathogenesis. Topics include infections of the urinary tract, respiratory tract, gastrointestinal tract, and sexually transmitted diseases. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 300 and MCB 301 or consent of instructor.

MCB 429 Cellular Microbiology & Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/429)
Emphasizes cell biology of infectious diseases, using cellular, molecular, and animal models. Will stress molecular cross-talk that drives host-pathogen interactions, state-of-the-art approaches for investigating host and microbial cell and molecular biology, latest paradigms in host cell biology, and, the evolutionary basis by which pathogens can manipulate host cell cytoskeleton, membranes, organelles, cell cycle, gene expression, and signaling in eukaryotic cells. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and MCB 354 or consent of instructor.

MCB 430 Molecular Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/430)
Modern contributions to the science of microbiology; emphasizes the structure, function, and synthesis of informational macromolecules and on the role microorganisms have played in molecular biology. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 and credit or concurrent registration in MCB 354, or consent of instructor.

MCB 431 Microbial Physiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/431)
Examines bacterial physiology, including discussions of energetics, regulation of metabolism, and cell structure. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or equivalent; credit or concurrent registration in a biochemistry course.

MCB 432 Computing in Molecular Biology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/432)
Examination of computational aspects of biology with an emphasis on the relationships between biological questions and their recastings as mathematical or logical problems. Topics are drawn from biochemistry, genetics, molecular sequence analysis, and molecular structure. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, MCB 354, and calculus I (MATH 220 or MATH 221), and calculus II (MATH 231) or biostatistics (STAT 212); or consent of instructor.

MCB 433 Virology & Viral Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/433)
Same as PATH 433. See PATH 433.
MCB 434  Food & Industrial Microbiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/434)
Same as FSHN 471. See FSHN 471.

MCB 435  Evolution of Infectious Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/435)
Understanding the evolution and ecology of the microbial world is of great importance to human health and the health of our planet. Students will explore the ecology and evolution principles that apply to viruses, microbial eukaryotes, archaea and bacteria. The primary literature on historical and emerging infectious diseases will be used to illustrate critical applications of these basic principles. Examples include applying genomics tools to understand the evolutionary basis for antibiotic resistance, the spread of emerging pathogens, and the ecology of probiotics and the human microbiome. The objective of this class is to better understand how humans shape the diversity and dynamics of the microbial world living in and around us every day. Same as IB 442. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 300 or consent of instructor.

MCB 436  Global Biosecurity  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/436)
Designed to provide students with broad coverage of key areas of scientific, legal, social, ethical, and political aspects of biosecurity, emphasizing current problems and research in the areas of biodefense, emerging infectious diseases, synthetic biology, and other topics. In combination with related reading assignments, the weekly special topics-based seminar will integrate knowledge of modern biomedical research, advances in biotechnology, and natural and manmade biological threats with the skills to analyze and develop public policies and strategies for enhancing global biosecurity. 1 undergraduate hour. 1 graduate hour. Prerequisite: MCB 150 or the equivalent or consent of instructor.

MCB 442  Comparative Immunobiology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/442)
Same as ANSC 450 and PATH 410. See ANSC 450.

MCB 446  Physical Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/446)
Same as CHEM 472 and BIOC 446. See BIOC 446.

MCB 450  Introductory Biochemistry  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/450)
Chemistry and metabolism of carbohydrates, lipids, proteins, nucleic acids, vitamins, and coenzymes and their relation to the regulation and processes of organisms, cells, and subcellular components. Students who enter the University Fall 2011 or later are responsible for additional course-based tuition of $300 unless they are already paying differential tuition during the term of course enrollment. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 3 graduate hours. Credit is not given for both MCB 450 and MCB 354. Prerequisite: CHEM 232 or CHEM 236, or equivalent, or consent of instructor. Not intended for students in the MCB or biochemistry curricula.

MCB 458  Basic Human Pathology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/458)
Introduction to the basic mechanisms of human disease with a focus on the building blocks of pathological processes at the sub-organismal and organisinal level. Basic biological processes will be stressed including tissue adaptation, injury, inflammation, repair and neoplasia. Pathology synthesizes cellular and molecular biology, biochemistry and immunology holistically so as to understand the body's limited responses to the cornucopia of experienced physiological insults. 3 undergraduate hours. No graduate credit. Prerequisite: MCB 354 or equivalent, or consent of instructor. For MCB and Biochemistry undergraduate majors only.

MCB 460  Regeneration and Medicine  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/460)
A survey of regeneration biology and medicine at the organ, tissues, and cellular/genetic/molecular/levels. Basic concepts are presented with a focus on contemporary methods and seminal experiments. Students will learn to think critically and creatively about experimentation and analyses of three regenerative medicine strategies: stem cell transplantation, bioartificial tissues, and chemical induction of regeneration in vivo. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 410 or consent of instructor. Recommended: knowledge of vertebrate histology and anatomy.

MCB 461  Cell & Molecular Neuroscience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/461)
Designed as an in-depth foundation course for graduate and undergraduate students with strong neuroscience interests. Covers up-to-date cellular and molecular neurobiology (including basic principles of neuronal function, signaling, and plasticity) and introductory brain anatomy that underlie brain function and animal behaviors. Pathogenic mechanisms of neurological diseases and disorders from the latest research will be heavily explored. Same as NEUR 461. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252, MCB 250 or equivalent, or consent of instructor. May be taken concurrently with MCB 462.

MCB 462  Integrative Neuroscience  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/462)
Employs integrative, multi-level systems approaches to nervous system and behavior. Focuses on neural circuits in sensory integration, pattern generation, the integration of sensation, internal states and learning in behavioral decision, the neuronal natures of pain, sleep, and biological rhythms, neuroeconomics, new vistas in neural modeling and interfacing brain and machine. Students are presented in neuroethological contexts of evolution and the economics of behavior and physiology. Same as NEUR 462. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 252 or consent of instructor. May be taken concurrently with MCB 461.

MCB 465  Human Metabolic Disease  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/465)
Examination of the molecular and physiological basis of human metabolic disease. Disruption of metabolic and energy homeostasis plays key roles leading to metabolic disorders. We will examine how lipid/glucose levels and energy balance are controlled in health and how they are abnormally regulated in disease sates. In addition, we will cover current topics related to control of metabolism including aging and circadian rhythms. Methodologies leading to scientific discoveries and potential preventive and therapeutic agents will also be discussed. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250, MCB 252, or consent of instructor.
Molecular and Cell Biology (MCB)

MCB 471  Cell Structure and Dynamics  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/471) Molecular basis of cellular organization focusing on how cells secrete, move, adhere, divide, communicate, and die. Material will emphasize critical analysis of experiments, current controversies and hypothesis testing. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 250 and MCB 252 or consent of instructor. Prior or concurrent enrollment in MCB 354 desirable.

MCB 480  Eukaryotic Cell Signaling  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/480) General principles of molecular signaling regulating membrane, cytoplasmic, and nuclear events in eukaryotic cells with emphasis on mammalian systems. Contemporary methods of investigation and the principles of identifying and solving problems related to signal transduction will be emphasized. 2 undergraduate hours. 2 graduate hours. Prerequisite: MCB 252 or consent of instructor.

MCB 481  Developmental Neurobiology  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/481) Principles of vertebrate and invertebrate developmental neurobiology with emphasis on the molecular and cellular mechanisms controlling neuronal determination, axon pathfinding, synapse formation, and plasticity. Same as NEUR 481. 3 undergraduate hours. 3 graduate hours. Prerequisite: MCB 400 or MCB 461 or consent of instructor.

MCB 492  Senior Thesis  credit: 3 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MCB/492) Research conducted under the direction of a faculty member in the School of Molecular and Cellular Biology. Normally, the student enrolls in MCB 492 during the last semester on campus prior to graduation. In the semester preceding enrollment, interested students should consult with their faculty advisors concerning enrollment procedures. A minimum of 3 credit hours is required, and a thesis must be presented for credit to be received. Successful completion of MCB 492 is required in order to be eligible for graduation with distinction in MCB. 3 to 5 undergraduate hours. No graduate credit. Prerequisite: Two consecutive semesters of at least 2 credit hours of MCB 290 under the guidance of the same faculty member, or consent of instructor.

MCB 493  Special Topics Mol Cell Biol  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/493) Discussion of current topics of interest within the broad domain of molecular and cellular biology; seminar or lecture format. Topics vary. May be repeated to a maximum of 12 hours. Prerequisite: Junior standing and consent of instructor.

MCB 501  Advanced Biochemistry  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/501) Focuses upon structure-function analyses of biomolecules and the chemical and evolutionary foundations of metabolic networks. Emphasis is on research methodology and current problems.

MCB 502  Advanced Molecular Genetics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/502) An advanced course in molecular genetics. Emphasis is on research methodology and current problems.

MCB 508  Intro to Systems Neuroscience  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/508) Same as NEUR 508 and PSYC 508. See PSYC 508.

MCB 509  Curr Topics Mol & Int Physiol  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/509) Advanced seminars in current physiological research. May be repeated once for credit. Prerequisite: Consent of instructor.

MCB 511  Mol Bio of Microbe-Plant Inter  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/511) Same as PLPA 509. See PLPA 509.

MCB 512  Advanced Endocrinology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/512) Seminars, lectures, student reports, and discussions of recent advances in endocrinology. Same as ANSC 530 and CB 512. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

MCB 513  Survey of Neurobiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/513) Overview of the functional and organizational principles of the mammalian nervous system. Intended for graduate students with little or no prior coursework in neurobiology. Students will read and discuss current scientific papers from the neurobiological literature. Same as NEUR 513.

MCB 520  Advanced Molecular Biology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/520) Advanced graduate level, primary literature-based discussion course on molecular microbiology. Graduate level companion course for MCB 430. Prerequisite: Concurrent registration in MCB 430 or consent of instructor.

MCB 521  Advanced Microbial Genetics  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/521) Advanced level, primary literature-based discussion course on microbial genetics. Graduate level companion course for MCB 421. Prerequisite: Concurrent or prior enrollment in MCB 421 or consent of instructor.

MCB 526  Adv Bacterial Pathogenesis  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/526) Advanced primary literature-based discussion course on bacterial pathogenesis. Graduate level companion course for MCB 426. Prerequisite: Concurrent or prior enrollment in MCB 426 or consent of instructor.

MCB 529  Special Topics Cell Devel Biol  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/529) Discussion of current topics of interest in higher eukaryotic cellular and molecular biology, development, neurobiology; seminar or lecture format. Topics vary. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

MCB 530  Reproductive Physiol Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/530) Presentation and discussion of current literature as well as graduate student and staff research proposals and findings in reproductive physiology. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MCB 532  Advanced Microbial Physiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/532) Advanced primary literature-based discussion course on microbial physiology. Graduate level companion course for MCB 431. Prerequisite: Concurrent or prior registration in MCB 431 or consent of instructor.

MCB 533  Repro Physiol Lab Methods  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/533) Same as ANSC 533 and CB 533. See ANSC 533.

MCB 534  Advanced Microbial Metabolism  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/534) Advanced primary literature-based discussion course on microbial metabolism. Graduate level companion course for MCB 424. Prerequisite: Concurrent or prior enrollment in MCB 424 or consent of instructor.
MCG 539  Advanced Cellular Microbiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/539)
Advanced primary literature-based discussion course on cellular microbiology and underlying infectious diseases. Graduate level companion course for MCB 429. Prerequisite: Concurrent or prior enrollment in MCB 429 or consent of instructor.

MCG 540  Scientific Writing  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/540)
Study of scientific communication, geared toward biologists. Topics include writing mechanics, grammar and sentence structure, abstracts for different audiences and purposes, grant writing, manuscript preparation, figure construction, oral presentations, and the grant-review process. Class consists of both lectures and time working in small groups to revise writing assignments. Assignments include weekly writing exercises, a full NIH-style grant proposal and grant reviews for a mock study section. 2 graduate hours. No professional credit.

MCG 542  Interdisciplinary Approaches to Neuroscience I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/542)
Same as NEUR 542 and PSYC 542. See NEUR 542.

MCG 543  Interdisciplinary Approaches to Neuroscience II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/543)
Same as NEUR 543 and PSYC 543. See NEUR 543.

MCG 545  Functional Genomics in Principle and Practice  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/545)
Experimental and analytical foundations of functional genomics, tailored to experimental biologists who are using high-throughput sequencing technologies to analyze function in animal genomes. Lectures cover experimental methods and tools available for bioinformatics analysis; students will gain experience in the use of online or command-line bioinformatics tools through weekly assignments. Advanced knowledge in eukaryotic molecular genetics is needed but bioinformatics skills are not required. 3 graduate hours. No professional credit. Students must have access to a networked computer on which they can load software in order to complete required assignments for the course. Prerequisite: MCB 502 or equivalent or consent of instructor.

MCG 550  Biomolecular Physics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/550)
Same as BIOP 550 and PHYS 550. See PHYS 550.

MCG 553  Enzyme Reaction Mechanisms  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/553)
Same as CHEM 572. See CHEM 572.

MCG 555  Analytical Biochemical Literature  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/555)
Discussions of current research and literature. Required of all graduate students whose major is biochemistry. Same as BIOC 555. Prerequisite: Second year graduate standing in biochemistry or consent of instructor.

MCG 561  Mechanisms of Viral Pathogenesis  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/561)
Same as PATH 519. See PATH 519.

MCG 571  Bioinformatics  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MCB/571)
Same as ANSC 543, CHBE 571, and STAT 530. See CHBE 571.

MCG 580  Res Ethics & Responsibilities  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/580)
Lecture/discussion course focusing on research ethics and a variety of related issues that can influence success in graduate school in the biological sciences, including scientific integrity and compliance with regulations for laboratory research. Approved for letter and S/U grading. Prerequisite: Consent of instructor.

MCG 581  Laboratory Rotation I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/581)
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets first five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 582.

MCG 582  Laboratory Rotation II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/582)
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets second five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 581.

MCG 583  Laboratory Rotation III  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MCB/583)
Laboratory research methods; familiarization of first-year graduate students with experimental methods used in molecular and cellular biology research. Required of all first-year students entering MCB. Meets third five weeks of each term. Approved for S/U grading only. Prerequisite: First-year graduate status and consent of MCB graduate programs; concurrent registration in MCB 581 and MCB 582.

MCG 585  Current Topics in Microbiology  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/585)
Discussions, reviews, and appraisal of special topics in microbiology and molecular biology; seminar or lecture. Topics vary. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

MCG 586  Concepts/Topics Immunology  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MCB/586)
Same as PATH 518. See PATH 518.

MCG 595  MCB Graduate Seminar  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MCB/595)
Advanced seminars on current topics of interest in molecular and cellular biology. Approved for S/U grading only. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Consent of instructor.

Molecular & Integrative Physiology (MIP)

MIP Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/MIP)

Courses

MIP 590  Individual Topics  credit: 1 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MIP/590)
For graduate students wishing to study individual problems or topics not assigned in other courses. Approved for S/U grading only. May be repeated. Prerequisite: Approval of department.
MIP 595 Seminars in Physiology credit: 0 to 1 Hours. (https://courses.illinois.edu/schedule/terms/MIP/595)
Advanced seminars on current topics of interest in physiology. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Consent of instructor.

MIP 599 Thesis Research credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MIP/599)
Research may be conducted under supervision of the thesis advisor in the following areas: (a) cellular and molecular physiology; (b) comparative physiology; (c) mammalian physiology; (d) human physiology; (e) endocrinology; (f) neurophysiology; (g) radiobiology; and (h) environmental and stress physiology. Approved for S/U grading only. May be repeated.

Museum Studies (MUSE)

MUSE Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MUSE)

Courses

MUSE 200 Introduction to Museums credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/200)
A broad introduction to the museum world, focusing on what a museum is, what differentiates various types of museums, and how museums function. Examines museums in terms of education, curation, exhibition, public relations, research, administration, ethical and legal obligations, funding and knowledge. Prerequisite: One year of college coursework.

MUSE 250 The World Through Museums credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/250)
Examination of contemporary museums around the world, evaluating their roles as social institutions and communicators of heritage in increasingly global contexts. The first half of the course develops a framework for museum literacy (how to read museums) that incorporates anthropological, globalization, media and critical theories. The second half of the course is a virtual tour and evaluates museums using this analytical skill set. Same as ANTH 250. This course satisfies the General Education Criteria for: Social Beh Sci - Soc Sci Cultural Studies - Western

MUSE 330 Learning in Museums credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/330)
An applied course in the multiple responsibilities of professionals in the field of Museum Education. Examines how people, ideas and objects connect in museums; trends in interpretation and museum ethics; best practice and current learning theories; and exemplary programs involving highly varied audiences, community collaboration and advanced technology. Provides practical experience in program development, facilitation, documentation and assessment. Requires some in-museum work outside of regularly scheduled class hours. Includes field trips to local museums. Prerequisite: MUSE 200.

MUSE 389 Seminar in Museum Studies credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/389)
Study of special themes, selected topics or current issues in museum studies for undergraduate students with backgrounds in museology. Course may be in seminar or lecture format. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: MUSE 200 and ANTH 462.

MUSE 390 Museum Internship credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/390)
Supervised field experience in museums, both on and off-campus, designed to introduce students to professional practice. Builds on museum studies coursework, and provides opportunities for applying academic knowledge and analyzing personal development. Students work part-time (150 hours) in a program-approved museum under the guidance of an instructional team. Requires an internship contract before the term, regular reporting and documentation during the term, and compilation of a project portfolio at the end of the term. May be repeated in same and separate terms to a maximum of six hours. Prerequisite: Three courses (nine hours) within the undergraduate minor in Museum Studies. Requires approval of the Museum Studies program advisor.

MUSE 420 Collections Management credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/420)
An applied course in the preservation, documentation, and maintenance of the physical integrity of museum collections. Examines agents of deterioration and how to mitigate damage to collections; the chemical and physical properties of inorganic, organic, composite and textile materials; collections packing, shipping and storage methods; and collections hazards, safety and emergency planning. Provides practical experience and encourages skills development in collections management. Requires some in-museum work outside of regularly scheduled class hours. 3 undergraduate hours. 4 graduate hours. Prerequisite: MUSE 200 or MUSE 500.

MUSE 440 Museum Registration credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/440)
An applied course in the management and care of museum collections through registration and records. Examines legal and ethical issues of collections stewardship, and current professional practices and standards. Provides practical experience and encourages skills development in museum registration. Requires some in-museum work outside of regularly scheduled class hours. Includes a field trip to a local museum. 3 undergraduate hours. 4 graduate hours. Prerequisite: MUSE 200 or MUSE 500.

MUSE 500 Core Prob Museum Theory & Prac credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/500)
A critical examination of both historical and current theoretical issues in museum practice. Addresses the development of museums within varied social, cultural and intellectual contexts, and the conceptualizations and criticisms of museums in terms of paradigmatic, institutional, symbolic and other theories. In addition to surveying the broad range of theoretical frameworks adopted in contemporary museum scholarship, students will examine and evaluate curatorial and institutional strategies for responding to the myriad external pressure (including multiple constituencies, standards and best practices) currently placed on museums. Prerequisite: Graduate standing.

MUSE 589 Special Topics Museum Studies credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/589)
Intensive study of selected topics and problems of special interest in Museum Studies. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Consent of instructor.
MUSE 590  Museum Studies Capstone  credit: 0 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUSE/590)
Supervised individual study involving a museum-based internship, museum-related project or museum-related research paper and fulfilling the capstone requirement for the Graduate Minor in Museum Studies. 0 to 4 graduate hours. No professional credit. Approved for Letter and S/U grading. Prerequisite: Approval of the Museum Studies Program Coordinator.

Music (MUS)

MUS Class Schedule (https://courses.illinois.edu/schedule/DEFAULT/MUS)

Courses

MUS 090  Seminar in Music Education  credit: 0 Hours. (https://courses.illinois.edu/schedule/terms/MUS/090)
Seminar for students preparing to enter student teaching. Students should enroll in the semester prior to student teaching. Approved for letter and S/U grading. Prerequisite: Music education majors or consent of instructor.

MUS 101  Music Theory and Practice I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/101)
Fundamental theory including terminology and notation; visual analysis of music elements, procedures, and forms; written applications in short projects. Credit is not given for both MUS 101 and MUS 103. Prerequisite: Placement by examination.

MUS 102  Music Theory and Practice II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/102)
Continuation of MUS 101. Credit is not given for both MUS 102 and MUS 104. Prerequisite: MUS 101 or placement by examination.

MUS 103  Rudiments of Music Theory I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/103)
Introduces non-music majors to basic terminology, technology, notation and concepts of music, with a co-emphasis on digital audio. Credit is not given for both MUS 103 and MUS 101.

MUS 104  Rudiments of Music Theory II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/104)
Continuation of MUS 103. Includes study of modulation, chromatic harmony, form, and an introduction to twentieth-century composition and inter-disciplinary music techniques. Credit is not given for both MUS 104 and MUS 102. Prerequisite: MUS 103 or placement by examination; non-music majors only.

MUS 105  Computation and Music I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/105)
Applies foundational concepts in computer science to the composition and analysis of symbolic music information. Course proceeds in parallel with CS 125 (Introduction to Computer Science) and MUS 101 (Music Theory and Practice I) to integrate key CS techniques with music concepts. Course is run as a workshop presenting eight large programming projects in which students design and implement software systems that analyze and compose musical scores in different formats. Prerequisite: Concurrent enrollment with CS 125 and MUS 101. Restricted to entering CS+Music students and Music Technology students with strong programming experience, or consent of the instructor.

MUS 106  Beginning Composition  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/106)
Class instruction in contemporary compositional practice at the beginning stages. May be repeated to a maximum of 6 hours. Prerequisite: Consent of instructor on the basis of a student portfolio of composition submitted to the composition-theory faculty and accepted after evaluation.

MUS 107  Musicianship I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/107)
Beginning aural skills training in the areas of intervals, scales, chords, rhythm, melody, and harmony.

MUS 108  Musicianship II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/108)
Continuation of aural skills training from MUS 107. Development of performance, notational, and listening skills in the areas of rhythm, melody, harmony, counterpoint, and formal aspects of musical structure; emphasizes tonal pitch structures. Prerequisite: MUS 101 and MUS 107, or placement by examination.

MUS 110  Intro Art Mus: Intl Perspect  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/110)
Surveys the history of European and American art music in an international context; examines major artistic styles, representative composers and works, and their relationship to pertinent non-western musical traditions and philosophies; reviews fundamental music concepts; strengthens aural analytical skills; familiarizes students with the music library, and research and writing techniques. Prerequisite: First year standing in music or consent of instructor.

MUS 120  English Diction  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/120)
Phonetics applied to English song literature; individual clinical analysis and practice. To be taken with MUS 181. Prerequisite: Freshman standing in voice or consent of instructor.

MUS 121  Italian Diction  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/121)
Phonetics applied to Italian song literature; class and individual clinical analysis and practice. To be taken with MUS 181. Prerequisite: Freshman standing in voice or consent of instructor.

MUS 122  German Diction  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/122)
German pronunciation applied to German vocal literature; class and individual clinical analysis and practice. To be taken with MUS 181. Prerequisite: Sophomore standing in voice or consent of instructor.

MUS 123  French Diction  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/123)
French pronunciation applied to French vocal literature; class and individual clinical analysis and practice. To be taken with MUS 181. Prerequisite: At least one semester of French or equivalent required, sophomore standing in voice, or consent of instructor.
MUS 125  English Diction and Dialects  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/125)
English Diction and Dialects introduces students to the variety of sounds of spoken English throughout the world. Coursework will include study of recorded resources, IPA (International Phonetic Alphabet) transcription, and performance of monologues, scenes, and musical numbers in a variety of dialects. Transcription will consist of both written IPA and imitative listening and speaking. Coursework will consist of in-class presentations, quizzes, transcriptions, and assessments of video and audio resources. Prerequisite: Restricted to students majoring in Music, or by consent of instructor.

MUS 130  Intro to the Art of Music  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/130)
Provides non-music majors with basic listening skills, the ability to discuss music intelligently, and an acquaintance with many types of music. Prerequisite: For non-music majors only.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

MUS 132  Popular Music Studies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/132)
Courses within this rubric provide an analytical and historical introduction to genres of popular music from the United States and around the world. Iterations of the course may focus on a specific genre, such as Rock, Reggae, or Afropop, or may deal with broader subjects such as the continua of styles including R&B, Soul, Funk, and Hip Hop, or the pan-generic, international phenomenon of pop music globalization in the twentieth century.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - US Minority

MUS 133  Introduction to World Music  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/133)
A survey of various musical traditions from different regions and peoples of the world.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Non-West

MUS 134  History of Musical Events  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/134)
Focuses on seminal performances of musical works such as, but not limited to, premiere performances and/or recordings. Prerequisite: For non-music majors only.
This course satisfies the General Education Criteria for: Humanities - Lit Arts
Cultural Studies - Western

MUS 140  String Instrument Class  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/140)
Class instruction to enable students to demonstrate proper technique and a characteristic sound on two bowed string instruments (violin or viola, and cello or double bass) in order to teach, via demonstration, beginning string students toward their maximum technical and musical development. May be repeated to a maximum of 4 hours. Prerequisite: For music education majors only, with two semesters required for music education string majors.

MUS 144  Supp WW Inst: Clarinet  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/144)
Class instruction in the fundamentals of playing and teaching the clarinet. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for woodwind majors in the BME instrumental concentration.

MUS 146  Supp WW Inst: Flute  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/146)
Class instruction in the fundamentals of playing and teaching the flute. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 147  Supp WW Inst: Oboe  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/147)
Class instruction in the fundamentals of playing and teaching the oboe. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 148  Supp WW Inst: Saxophone  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/148)
Class instruction in the fundamentals of playing and teaching the saxophone. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 149  Supp WW Inst: Bassoon  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/149)
Class instruction in the fundamentals of playing and teaching the bassoon. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 151  Supp Brass Inst: Trumpet  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/151)
Class instruction in the fundamentals of playing and teaching the trumpet. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for brass majors in the BME instrumental concentration.

MUS 153  Supp Brass Inst: Horn  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/153)
Class instruction in the fundamentals of playing and teaching the horn. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 154  Supp Brass Inst: Trombone  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/154)
Class instruction in the fundamentals of playing and teaching the trombone. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.

MUS 155  Supp Brass Inst: Euph/Tuba  credit: .5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/155)
Class instruction in the fundamentals of playing and teaching the euphonium and tuba. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Oriented for music majors in the BME instrumental concentration.
MUS 158  Supp Percussion Instruments  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/158)
Class instruction in the fundamentals of playing and teaching percussion instruments. Acquire knowledge on recommended instruments and equipment, maintenance procedures, and training materials. Prerequisite: Intended for music majors in the BME instrumental concentration.

MUS 160  Jazz Piano Improvisation I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/160)
Study of jazz theory, harmony, and improvisational techniques at the piano; includes experience in solo and ensemble situations, and a historical survey of jazz development from about 1910. Prerequisite: Completion of MUS 174 or equivalent; MUS 202 and MUS 208 or equivalent; consent of instructor.

MUS 161  Jazz Piano Improvisation II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/161)
Continuation of MUS 160. Study of jazz theory, harmony, and improvisational techniques at the piano; includes experience in solo and ensemble situations, and a historical survey of jazz development from about 1910. Prerequisite: MUS 160 or consent of instructor.

MUS 163  Jazz Keyboard Studies I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/163)
Prepares the student (through class participation) to perform one jazz standard on a functional level. Includes basic technique, chord voicing, comping, and lead sheet realization with functional fluency in all keys. Furnishes the student with class instruction on piano, focusing on jazz and improvisational idioms. An in-depth study of overall instrument technique, eminent styles, and other performance practices relevant to jazz piano and improvisation. Prerequisite: MUS 172 and MUS 173, or consent of the instructor.

MUS 164  Jazz Keyboard Studies II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/164)
Continuation of materials presented in MUS 163, focusing on improvisational idioms of jazz piano. Prepares the student (through class participation) to perform three jazz standards on a functional level. Emphasizes the blues form, minor II-V-I chord progressions with both hands, and introduces all major modes. Includes technique, chord voicing concepts, comping, and lead sheet realization with mid-level fluency in all keys. A continuing in-depth study of overall instrument technique, eminent styles, and other performance practices relevant to jazz piano and improvisation. Prerequisite: MUS 163, or placement exam, or consent of the instructor.

MUS 165  Applied Jazz Instruction  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/165)
Instruction at the undergraduate level in voice or instruments normally associated with the jazz idiom. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Successful performance audition for the jazz faculty.

MUS 166  Class Jazz Improvisation I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/166)
Examines the dynamics of group improvisation at a fundamental level. Techniques of individual melodic development, group melodic development, and group contouring will be discussed and practiced. Requires preparation of group improvisations using the blues, a 32-bar song form, and a modal form, as well as class presentations and group demonstrations of basic group improvisational techniques.

MUS 167  Class Jazz Improvisation II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/167)
Continues to examine the dynamics of group improvisation as presented in MUS 166. Discussion and practical application of techniques of individual melodic development, group melodic development, and group contouring. Requires preparation of group improvisations using blues, 32-bar song form, and free group improvising forms, as well as class presentations and group demonstrations of more advanced improvisational techniques. Prerequisite: MUS 166.

MUS 169  Unit One Sem Instruct in Music  credit: 0 to 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/169)
Experimental seminar courses to introduce non-music majors to contemporary ideas in music. Approved for letter and S/U grading. May be repeated to a maximum of 4 hours. Prerequisite: For non-music majors only.

MUS 170  Grp Instr Pno NonMus Maj I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/170)
Beginning piano for non-music majors. Includes fundamentals of reading, technique, and creative activities; study and performance of simple solo and ensemble repertoire.

MUS 171  Grp Instr Pno NonMus Maj II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/171)
Continuation of basic skills presented in MUS 170. Elementary piano for non-music majors. Includes reading, technique, creative activities; simple solo and ensemble repertoire. Prerequisite: MUS 170 or equivalent.

MUS 172  Grp Instr Pno for Mus Major I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/172)
Group instruction in beginning piano for music majors whose principal performing medium is voice, or an orchestral or band instrument. Study of simple piano literature, development of skills in technique, sight reading, harmonization, transposition, improvisation, and analysis. This is the first of two courses that addresses the keyboard competency policy for non-piano majors.

MUS 173  Grp Instr Pno for Mus Maj II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/173)
Continuation of skills introduced in MUS 172. Group instruction in elementary piano for music majors whose principal performing medium is voice, or an orchestral or band instrument. Sight-reading, harmonization, transposition, and improvisation. Easy solos from the main historical periods with appropriate technical development; introduction to piano ensemble literature. This is the second of two courses that addresses the keyboard competency policy for non-piano majors. Prerequisite: MUS 101 and MUS 107; MUS 172 or equivalent; or consent of instructor.

MUS 174  Grp Instr Pno for Mus Maj III  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/174)
Continuation of skills introduced in MUS 173. Group instruction in intermediate piano for music majors whose principal performing medium is voice, or an orchestral or band instrument. Study of intermediate level solos and ensemble compositions, harmonization with chromatic chords, sight reading, transposition of four-voice works, improvisation, and learning of patriotic songs. Prerequisite: MUS 102 and MUS 108; MUS 173 or equivalent; or consent of instructor.

Information listed in this catalog is current as of 07/2019
MUS 175  Grp Instr Pno for Mus Maj IV  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/175)
Continuation of skills introduced in MUS 174. Group instruction in moderately advanced piano for music majors whose principal performing medium is voice, or an orchestral or band instrument. Emphasis on solos, ensemble compositions, technical development, and more advanced work in sight reading, harmonization, improvisation, transposition, and aural skills. Prerequisite: MUS 201 and MUS 207; MUS 174 or equivalent; or consent of instructor.

MUS 178  Guitar  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/178)
Instruction in guitar at the undergraduate level, predominantly classical. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 179  Harpsichord  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/179)
Instruction in harpsichord at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 180  Piano  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/180)
Instruction in piano at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 181  Voice  credit: 2 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/181)
Instruction in voice at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 182  Organ  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/182)
Instruction in organ at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 183  Violin  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/183)
Instruction in violin at the undergraduate level. Music majors must register concurrently in MUS 250. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 184  Viola  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/184)
Instruction in viola at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course. Music majors must register concurrently in MUS 250.

MUS 185  Cello  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/185)
Instruction in cello at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course. Music majors must register concurrently in MUS 250.

MUS 186  Double Bass  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/186)
Instruction in double bass at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 187  Harp  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/187)
Instruction in harp at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 188  Flute  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/188)
Instruction in flute at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 189  Clarinet  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/189)
Instruction in clarinet at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 190  Oboe  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/190)
Instruction in oboe at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 191  Bassoon  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/191)
Instruction in bassoon at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 192  Saxophone  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/192)
Instruction in saxophone at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 193  Trumpet  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/193)
Instruction in trumpet at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

Information listed in this catalog is current as of 07/2019
MUS 194 Horn credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/194)
Instruction in horn at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 195 Trombone credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/195)
Instruction in trombone at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 196 Euphonium credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/196)
Instruction in euphonium at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 197 Tuba credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/197)
Instruction in tuba at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 198 Percussion credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/198)
Instruction in percussion at the undergraduate level. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 16 hours. Prerequisite: Passing of a performance audition is required prior to the initial registration in any applied music course.

MUS 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/199)
May be repeated to a maximum of 12 hours.

MUS 201 Music Theory and Practice III credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/201)
Continuation of MUS 102. Gradually increased emphasis on contrapuntal techniques, dissonance in tonal music, and musical form. Prerequisite: MUS 102 and MUS 108, or placement by examination.

MUS 202 Music Theory and Practice IV credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/202)
Continuation of MUS 201. Study of twentieth century compositional methods. Prerequisite: MUS 201 and MUS 207, or placement by examination.

MUS 205 Computation and Music II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/205)
A follow-up course to Computation and Music I that introduces students to programming music applications with special emphasis on issues related to real-time audio system design. The class will begin by introducing students to the fundamentals of real-time audio synthesis using a graphical audio language such as Max/MSP, and then turn to hands-on design of real-time audio systems using an industry standard language such as C++. The course content reinforces materials presented in CS 126 (Software Design), including GUI frameworks, prototyping, user interface design, code refactoring and debugging. Prerequisite: CS 125, CS 126, and MUS 101, or consent of instructor. Restricted to CS+Music students and Music Technology students with strong programming experience, or by consent of the instructor.

MUS 206 Intermediate Composition credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/206)
Class instruction in contemporary compositional practice at the secondary stages. May be repeated to a maximum of 6 hours. Prerequisite: MUS 106 and consent of composition-theory faculty.

MUS 207 Musicianship III credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/207)
Continuation of MUS 108. Emphasis on extensions of tonality by means of changing tonal centers and altered chords. Prerequisite: MUS 102 and MUS 108, or placement by examination.

MUS 208 Musicianship IV credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/208)
Continuation of MUS 207. Emphasis on atonal pitch structures and complex rhythmic organization. Prerequisite: MUS 201 and MUS 207, or placement by examination.

MUS 209 Music, Sound, Technology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/209)
This course examines the role modern digital technology plays in musical performance, composition, listening, and analysis. The course is divided into three large subject areas each lasting approximately five weeks: (1) sound, sound fields, and digital recording, (2) digital technology in composition and performance, and (3) psychoacoustics and digitized music analysis. Within each subject area, students are first introduced to relevant acoustic and musical principles, then learn about their implementation in the digital domain, and lastly gain practical experience with the subject matter through hands-on projects involving the capture, creation, editing and analysis of musical sound using standard hardware and computer applications. Prerequisite: Restricted to Music Technology students, or by consent of instructor.

MUS 222 Singing in Musical Theatre credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/222)
This is a highly participatory class appropriate for all levels of singing experience and ability, and includes a final cabaret-style performance at the end of the semester to showcase in-class learning. Methods of instruction include vocal exercises, group somatic and vocal work, song memorization, and in-class performances. May be repeated in separate terms up to 4 hours. Prerequisite: Instructor approval required.

MUS 240 Orientation Mus Tchg Lng K-HS credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/240)
Provides guided practice in observing music teaching and learning in a variety of settings. Develops professional perspective and vocabulary for analyzing effective teaching, diverse learning styles, and patterns of music instruction in a variety of contexts. Includes early field experience hours. Must complete criminal background check prior to observing in schools. Prerequisite: Music education majors accepted into Teacher Certification Track.

MUS 242 Elements of Conducting credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/242)
Fundamental elements of conducting, score analysis and preparation, transcription and transposition for choral and instrumental ensembles. Focused on development of conducting skills appropriate for use in public school teaching. A special section is offered for music majors not majoring in music education. Prerequisite: Music majors or consent of instructor.
MUS 243  Introductory Music Ed Tech  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/243)
Overview and exploration of the ways that technology benefits music education. Opportunities for practical development of skills, work, and play with a variety of software and hardware, and group projects that tie multiple technologies together in larger curricular units. Recent research readings. Consideration of the appropriateness for technology with special learners, as well as in ensemble and early childhood settings. Prerequisite: MUS 240 or consent of instructor.

MUS 244  Social Foundations of Music Ed  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/244)
Explores the social and cultural contexts of music teaching and learning from multiple perspectives. Examines contemporary and historical American music education philosophy, practice, and policy as well as music education's place within broader systems of education. Special emphasis will be placed on issues of cultural diversity and social justice and problematizing dominant narratives and potential assumptions relevant to music education. Employs scholarship within and beyond music education concerned with critical theories, history, philosophy, and sociology. Prerequisite: MUS 240 or consent of instructor.

This course satisfies the General Education Criteria for:
Advanced Composition

MUS 250  University Orchestra  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/250)
May be repeated. Prerequisite: Consent of instructor.

MUS 252  Ethnomusicology Perf Ensembles  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/252)
Instruction and experience in the performance of various non-Western and vernacular music traditions such as African mbira, Andean panpipes, North American string band, European traditional music, etc. Topics vary according to available instructors. May be repeated in the same or subsequent terms. Prerequisite: Consent of instructor.

MUS 253  Collegium Musicum  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/253)
Performs medieval, renaissance, and baroque music; various small groups formed for the performance of sonatas and cantatas of Bach and Handel, wind serenades of Mozart, etc. Interested students may play on lute, harpsichord, and other instruments from the University's collection. May be repeated. Prerequisite: Consent of instructor.

MUS 254  String Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/254)
Participation in trios, quartets, quintets, etc., for the study of chamber music literature. May be repeated. Prerequisite: Consent of instructor.

MUS 255  Woodwind Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/255)
May be repeated. Prerequisite: Consent of instructor.

MUS 256  Brass Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/256)
Ensembles of mixed brasses in both small and large forms. May be repeated. Prerequisite: Consent of instructor.

MUS 257  Percussion Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/257)
May be repeated in the same term. Prerequisite: Consent of instructor.

MUS 258  Piano Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/258)
May be repeated. Prerequisite: Consent of instructor.

MUS 260  Oratorio Society  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/260)
An advanced mixed-voice choir open to students, faculty, and members of the community. Performance of oratorios and other major choral works in cooperation with the University Symphony Orchestra or Wind Symphony. May be repeated. Prerequisite: Consent of instructor.

MUS 261  Choral Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/261)
A mixed-voice choir for average and beginning singers open to students, faculty, and members of the community. Performance of cantatas and other choral works. May be repeated. Prerequisite: Consent of instructor.

MUS 262  Women's Glee Club  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/262)
Practical experience in the rehearsal and public performance of choral music of various periods and styles. Open to all women students. May be repeated. Prerequisite: Consent of instructor.

MUS 263  Men's Glee Club  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/263)
Practical experience in the rehearsal and public performance of choral music of various periods and styles. Open to all men students. May be repeated. Prerequisite: Consent of instructor.

MUS 264  Concert Choir  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/264)
A highly advanced group of competent student singers. Practical experience in mixed-voice singing of accompanied and unaccompanied music of various periods and styles. May be repeated. Prerequisite: Consent of instructor.

MUS 265  Opera  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/265)
Preparation and public performance of grand or light opera. Includes only singing and acting (students desiring experience in costuming, stage management, scenery, publicity, etc., should apply to the University Theatre Department, which cooperates in the opera productions). May be repeated. Prerequisite: Consent of instructor.

MUS 266  Jazz Ensemble  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/266)
Ensembles of various sizes designed to acquaint proficient instrumentalists with jazz compositions, arrangements, and improvisational procedures, and to promote a high degree of stylistic and technical competence in performance. May be repeated. Prerequisite: Consent of instructor.

MUS 267  Chamber Music  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/267)
Students will be assigned to chamber groups that will be coached on a weekly basis by members of the faculty. One public performance per term may be required. May be repeated. Prerequisite: Music majors or consent of instructor.

MUS 268  Wind Symphony  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/268)
Maintains a complete large wind ensemble instrumentation for the study and performance of band/wind ensemble/chamber wind literature. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the ensemble. May be repeated. Prerequisite: Consent of instructor.
MUS 269  Wind Orchestra  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/269)
Maintains a large wind ensemble instrumentation for the study and performance of all types of band literature. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated in separate terms. Prerequisite: Consent of instructor.

MUS 270  Harding Symphonic Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/270)
Maintains a complete symphonic band instrumentation for the study and performance of all types of band literature. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated. Prerequisite: Consent of instructor.

MUS 271  Hindsley Symphonic Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/271)
Maintains the instrumentation of a standard concert band. The literature studied and performed is of the highest caliber and technical difficulty. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated in separate terms. Prerequisite: Consent of instructor.

MUS 272  Concert Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/272)
Maintains the instrumentation of a large concert band. The high quality band literature is technically less difficult than that of MUS 268-MUS 271. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated in separate terms. Prerequisite: Consent of instructor.

MUS 273  Marching Illini  credit: 1 to 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/273)
Prepares and performs music of the highest available quality in at least six shows per football season. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated. Prerequisite: Consent of instructor.

MUS 274  Basketball Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/274)
Performs for home basketball games. May be repeated. Credit is given for spring term only. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. Prerequisite: Band Division audition during early October, or consent of instructor.

MUS 275  Brass Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/275)
Maintains a complete British Brass Band instrumentation for the study and performance of all types and styles of brass band literature. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the bands. May be repeated. Prerequisite: Concurrent registration in MUS 268, MUS 269, MUS 270, MUS 271, or MUS 272, and consent of instructor.

MUS 276  Summer Band  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/276)
Maintains the instrumentation of the standard band for the study and performance of all types of band literature. Open to all students who have been accepted by audition, with assignments made according to proficiency and instrumentation. Completion of each course involves, in addition to the regular schedule of rehearsals, participation in public performances by the band. May be repeated. Prerequisite: Consent of instructor.

MUS 299  Thesis/Adv UG Honors in Music  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/299)
Special individual research projects. Required of seniors in the history of music and music theory curricula; open also to advanced undergraduates, including James Scholars, who have achieved university or college honors and who desire to do research in specialized areas of music, including performance. May be repeated to a maximum of 4 hours. Counts for advanced hours in LAS. Prerequisite: Senior standing in the history of music or music theory curricula, or consent of instructor.

MUS 313  The History of Music I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/313)
Survey of the development of music as an art in Western civilization from about 1750 to the present. Emphasis on an acquaintance with representative musical works and style, and on understanding musical concepts in the light of their historical and general cultural context. Prerequisite: MUS 110 or consent of instructor.

This course satisfies the General Education Criteria for: Humanities - Lit Arts

MUS 314  The History of Music II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/314)
Survey of the development of music as an art in Western civilization from about 1750 to the present. Emphasizes an acquaintance with formal and stylistic problems through the study of representative works and on understanding specific musical concepts in the light of their historical and general cultural context. Prerequisite: MUS 313 or consent of instructor.

This course satisfies the General Education Criteria for: Humanities - Lit Arts

MUS 317  Intro to Piano Literature  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/317)
Overview of representative works for the piano, from Scarlatti to the present. Prerequisite: MUS 314.

MUS 320  Pre-Student Tchng Experience  credit: 1 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/320)
Early Field Experiences in music teacher education. Includes supervised practicum work in observation, co-teaching, and individual teaching in local public schools. Twenty-seven (27) clock hours of EFE required for each hour of credit. May be repeated to a maximum of 4 hours, but only 2 hours may be applied toward the degree. Prerequisite: Music education majors or consent of instructor.

Information listed in this catalog is current as of 07/2019
MUS 326  Practicum in Piano Teaching  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/326)
Coordinates lesson planning for teaching pre-college piano pupils with extensive teaching experience; gives close examination to beginning and intermediate teaching literature.

MUS 330  Advanced Choral Conducting I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/330)
Laboratory/practicum course for review and development of choral conducting skills and their integration into the student's full complement of teaching skills and knowledge. Score analysis and preparation lead to the application of teaching and rehearsal skills. Prerequisite: Music education majors; MUS 242; concurrent registration in MUS 348 is required.

MUS 331  Advanced Choral Conducting II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/331)
Practicum course emphasizing teaching and rehearsal techniques, score preparation, and interpretation. Focuses on the integration of aural, vocal, keyboard, and conducting skills for the choral teacher/conductor. Prerequisite: MUS 330; music education majors, or consent of instructor.

MUS 332  Advanced Wind Band Conducting and Rehearsal Strategies  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/332)
Develops skills in rehearsal techniques and aural skills. Application of teaching strategies and learning theory. Refinement of fundamental concepts of gesture; development of advanced conducting skills and score reading skills; development of score analysis techniques. Prerequisite: MUS 242; instrumental music education majors, or consent of instructor.

MUS 333  Cond/Teach Strings-Grp Setting  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/333)
Survey of concert and training literature for school orchestras; refinement of fundamental concepts of gesture; development of advanced skills in conducting, score reading, and score analysis. Prerequisite: MUS 242; music education majors, or consent of instructor.

MUS 335  Elem and Mid Sch Instrum Music  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/335)
Examines pedagogical and organizational techniques for teaching elementary and middle school instrumental music. Must be taken concurrently with MUS 320 WP or MUS 320 S, an Early Field Experience. Prerequisite: May only be taken one or two semesters prior to student teaching; music education majors, or consent of instructor.

MUS 336  Service Learning in Music Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/336)
Service Learning and participatory action research in music education. Students facilitate music learning in cooperation with community partners in Champaign-Urbana, Illinois and surrounding communities. Collaborative planning, learning through inquiry, engaged scholarship, and democratic teaching practices. Student teams develop or work on ongoing projects with community teachers, musicians, or organizations. May be repeated in separate terms.

MUS 339  Principles and Techniques in Music Education  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/339)
Overview of music education in K-12 settings, emphasizing philosophy and history of music education, jazz education, methodologies commonly utilized in school curricula, music in special education, and classroom/rehearsal management. Five weeks are devoted to content exploring basic statistical techniques and procedures. Prerequisite: Senior standing in music education, or consent of instructor, plus 80 hours of early field experiences in the teaching of music; completion of the Quantitative Reasoning I requirement. This course satisfies the General Education Criteria for: Quantitative Reasoning II

MUS 342  Music in Childhood  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/342)
Provides a model of comprehensive musicianship in general music K-5. Considers musical and conceptual development of learners at various ages. Includes lesson planning and assessment strategies for classroom music instruction including listening, performing, and composing experiences. Prerequisite: MUS 240 or consent of instructor.

MUS 343  Music in Adolescence  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/343)
Detailed consideration of the general music program in both middle school and high school. Emphasis on adolescent characteristics and alternative methods of instruction. Prerequisite: MUS 240 or consent of instructor.

MUS 344  Instrumental Methods for Secondary Ensembles  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/344)
Surveys repertoire for secondary wind and string ensembles; develops administrative skills for organizing a school music program; increases skills in rehearsal techniques and addresses current issues in music education. Prerequisite: MUS 240, MUS 350; or approval of instructor.

MUS 345  Mus Methods in Early Childhood  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/345)
Approaches for teaching music to children ages 2 through 8 in preschool and early elementary school settings. Focuses on understanding the role of music in early childhood, developing musical concepts, and organizing appropriate learning experiences.

MUS 346  Choral Methods for Secondary Ensembles  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/346)
Lecture/discussion methods course that addresses curriculum development, organization/administration, repertoire, vocal pedagogy and the changing voice, diction, and additional topics typical of secondary school choral music program. Prerequisite: MUS 240, MUS 350; or consent of instructor.

MUS 348  Choral Literature  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/348)
Exploration of choral literature appropriate for middle and high school music programs. Students carry out lesson plans through peer teaching/rehearsal sequences, culminating in public performance. May be repeated to a maximum of 2 hours. Prerequisite: MUS 242. Restricted to Music Education majors, or consent of instructor.
MUS 350  Music Teaching in Ensemble Settings  credit: 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/350)
Emphasizing the collaborative nature of teaching and learning, this team-taught, comprehensive course engages students in teaching music through school ensembles of all kinds. Topics include comprehensive musicianship, creativity and composition, instructional planning, management structures and routines, and inclusive practices in music education. Prerequisite: MUS 240, MUS 342 or MUS 343; or consent of instructor.

MUS 352  Tchng Strings in Grp Settings  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/352)
Organize and teach sequential string playing technique to students in a group setting to develop their aural skills and left hand and right hand technique; refresh and improve the string performance skills gained in MUS 140; survey materials for string classes; develop awareness of personal teaching delivery skills. Offered only in spring semesters. Prerequisite: Music Education major, completion of MUS 320S, or consent of instructor.

MUS 360  Jazz Improv:Theory and Pract I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/360)
Fundamentals of jazz improvisation, with an emphasis on aural recognition of jazz chord voicings, harmonic progressions, and scales. Includes interactive software related to jazz improvisation ear-training. Application of melodic, harmonic, and rhythmic materials with regard to improvisation. Prerequisite: MUS 102 and MUS 108; MUS 167; or placement by exam with consent of instructor.

MUS 361  Jazz Improv:Theory and Pract II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/361)
Continuation of MUS 360. Exploration of advanced harmonic procedures with an emphasis on aural recognition of advanced forms of jazz harmonic structures, scales, chord qualities, and chord progressions. Additional emphasis on scales, chordscale relationships, and standard jazz harmonic forms such as blues, standard jazz tunes, and modal tunes. Prerequisite: MUS 360, or placement by exam with consent of instructor.

MUS 362  Jazz Arranging I  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/362)
Fundamentals of jazz arranging with an introduction to techniques such as schematic design, score layout, analysis, voicing, section writing, and orchestration. Emphasis on arranging for rhythm section, along with part layout and forms, voicing techniques, and basic harmonic concepts. Three major written projects are required. Prerequisite: MUS 166, or placement by exam/portfolio with consent of instructor.

MUS 363  Jazz Arranging II  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/363)
Advanced melodic, harmonic, and rhythmic arranging techniques as applied to jazz instrumentation. Emphasis on practice in analysis, voicing and orchestration techniques such as 4-way closed position double lead, 4-way closed-position drop-2 double lead, 4-way closed position drop-2, and 4-and 5-way closed position. Three major written projects are required. Prerequisite: MUS 362, or placement by exam/portfolio with consent of instructor.

MUS 364  Jazz Composition I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/364)
Examines the basic elements of jazz composition from melodic, harmonic, rhythmic, and tone color perspectives focusing on distinctive styles of jazz. Promotes a better understanding of various jazz compositional styles, jazz composers, creative elements and abilities, melody writing, harmonic systems, rhythmic compositional devices, and jazz reharmonization techniques. Prerequisite: MUS 363.

MUS 365  Jazz Composition II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/365)
Examines advanced elements of jazz composition such as melody construction, harmonic devices, and rhythmic devices used in modern jazz compositions as a continuation and expansion of materials presented in MUS 364. Melodic and harmonic contouring, asymmetrical forms, advanced chromatic-modal construction, and creative practices will be discussed and practiced through written assignments and projects. Prerequisite: MUS 364, or consent of instructor upon approval of a portfolio of jazz compositions.

MUS 368  Jazz Improvisation Styles I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/368)
Survey of improvisational/jazz artists. Students write and present four papers over the course of the semester, accompanied by four transcriptions of four major improvisational/jazz artists representing four distinct improvisational/jazz styles. All presentations will be done in class. Prerequisite: Consent of instructor.

MUS 369  Jazz Improvisation Styles II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/369)
A continuation of the survey of improvisational/jazz artists at an advanced level. Students write and present four papers and associated recording transcriptions of four advanced improvisational/jazz artists representing four distinct and advanced improvisational/jazz styles. All presentations will be done in class. Prerequisite: MUS 368 or consent of instructor.

MUS 400  Counterpoint and Fugue  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/400)
Study of contrapuntal writing, including fugue, with emphasis on the works of J.S. Bach. Includes analysis of contrapuntal writing. 3 undergraduate hours. 3 graduate hours. Prerequisite: MUS 202 and MUS 208, or consent of instructor.

MUS 404  Contemp Compos Techniques  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/404)
Studies in specialized areas of composition for advanced undergraduates and graduates majoring in composition-theory. May be elected by others with consent of instructor. 2 undergraduate hours. 2 graduate hours. May be repeated. Prerequisite: MUS 106, MUS 202 and MUS 208, or consent of instructor.

MUS 405  Analytical Systems 20thC Mus  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/405)
Study of various analytical techniques developed for music written in the twentieth century based on compositional procedures other than those derived from the common practice period. 3 undergraduate hours. 3 graduate hours. Prerequisite: MUS 202 and MUS 208, or consent of instructor.
MUS 408 Analysis of Musical Form credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/408)
Extensive study of the formal structure of representative musical compositions from various historical periods: (a) Renaissance and Baroque; (b) Viennese classical; (c) nineteenth century; (d) first half of twentieth century; and (e) since World War II. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 9 hours. Prerequisite: MUS 202 and MUS 208.

MUS 409 Elec Music Techniques II credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/409)
Intermediate level study of Musical Instrument Digital Interface (MIDI) technology, sound design, digital audio engineering techniques, multi-track digital editing and audio processing in music composition, and the study of compositional, technical, and performance considerations as applied to electroacoustic concert art music. Weekly lab times assigned. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 407 or placement by examination.

MUS 410 Period Studies in Musicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/410)
Intensive study of the music of a specific historical period. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: MUS 313 and MUS 314, junior standing in music or consent of instructor.

MUS 411 Genre Studies in Musicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/411)
Examination of one or more aspects of musical genre defined by composer(s), historical era, region, performance issues, philosophy, etc. Can include the study of the relationship between genre and performance, genre and pedagogy, genre and the creative process, genre and reception, etc. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 12 hours if topic varies. Prerequisite: MUS 313 and MUS 314; junior standing; or consent of instructor.

MUS 412 Composer Studies in Musicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/412)
Intensive study of the music of a specific composer. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours if topic varies. Prerequisite: MUS 313 and MUS 314, junior standing in music or consent of instructor.

MUS 413 Music and Performance credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/413)
Examination of one or more aspects of musical performance defined by historical era, region, genre, philosophy, etc. Can include the study of the relationship between performance, improvisation and creative process; performance and publication; performance practices of a specific genre, period, or community; etc. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 12 hours if topic varies. Prerequisite: MUS 313 and MUS 314, junior standing; or consent of instructor.

MUS 414 Music and Society credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/414)
Examination of the social context, function and meaning of music/music-making in one or more communities, from one or more areas of the world, in one or more time periods. May address music in relation to such social issues as gender, ethnicity, politics, etc. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours if topic varies. Prerequisite: MUS 313 and MUS 314, junior standing in music; or consent of instructor.

MUS 415 Music and Media credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/415)
Intensive study of the impact of various media such as recordings, radio, film, television and/or computer technology on the creation, performance, dissemination and/or patronage of a given repertoire. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 12 hours if topic varies. Prerequisite: MUS 313 and MUS 314; junior standing; or consent of instructor.

MUS 416 Anthropology of Music credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/416)
Introduction to the anthropological study of music, including the role of music in the world’s societies and non-Western musical systems and cultures. Same as ANTH 416. 3 undergraduate hours. 3 graduate hours. Prerequisite: ANTH 103 or consent of instructor.

MUS 418 Regional Studies in Musicology credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/418)
Seminar devoted to intensive study in the music of specific peoples, states, or geographic regions from around the world. 3 undergraduate hours. 4 graduate hours. May be repeated to a maximum of 12 undergraduate hours or 16 graduate hours. Prerequisite: MUS 313 and MUS 314; junior standing; MUS 528A (for DMA or MM performance or composition students); or consent of instructor.

MUS 419 Sr Seminar in Musicology credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/419)
Intensive capstone seminar for musicology majors directed at graduate school preparation, senior thesis or project development, professional portfolio design, and the cultivation of scholarly writing skills. Introduces advanced research methods and analytical paradigms. Addresses special topics or issues tailored to student interests and faculty expertise, as well as contemporary developments in the discipline or current musical events, from diverse perspectives. 3 undergraduate hours. No graduate credit. Prerequisite: For senior musicology majors (BA or BM) with senior standing, or consent of instructor.

MUS 420 History of Opera credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/420)
Surveys opera and related forms from the end of the 16th century to the present; studies representative works in some detail. 3 undergraduate hours. 3 graduate hours. Prerequisite: MUS 314 or consent of instructor.
MUS 421  The Music of America  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/421) Study of chamber, choral, and orchestral music written by American composers from about 1850 to the present; jazz and its offshoots; folk and popular music; and experimental music in America. 3 undergraduate hours. 3 graduate hours. May be repeated to a maximum of 6 hours. Prerequisite: Senior standing in music or consent of instructor.

MUS 422  Musical Theatre Repertoire  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/422) Musical Theatre Repertoire is a high-contact class, conducted in a studio setting. Methods of instruction include vocal exercises, studying and singing Musical Theatre repertoire, song memorization, studying and evaluating performances, and utilizing both class and individual evaluations. Vocal health and wellness are stressed as students become familiar with styles of singing in both classical and contemporary Musical Theatre. 2 undergraduate hours. 2 graduate hours. May be repeated in separate terms to a maximum of 8 undergraduate hours or 4 graduate hours. Prerequisite: Students must have two years of applied voice lessons (MUS 181) in order to register for this course. For Music majors, or by consent of instructor.

MUS 423  Intro to Piano Technology  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/423) Introduction to the mechanism and operation of the modern piano, including the historical development of keyboard instruments. Introduction to tuning and regulation, theory, and practice. No previous experience tuning or regulating pianos is necessary. 2 undergraduate hours. 2 graduate hours.

MUS 424  Musical Informatics  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/424) A 21st century approach to music theory: fundamental elements of music illustrated through logical and mathematical concepts, unencumbered by stylistic considerations. Defines the internal structure of sounds and presents a few general methods of organizing them into complex compositions. Intended for musicians having limited familiarity with mathematics, as well as scientifically inclined students with little musical background. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of instructor.

MUS 426  Orchestration  credit: 3 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/426) A thorough study of writing for all of the orchestral instruments in combinations ranging from solo to varying sizes of chamber ensembles and full orchestra. Includes analysis of musical examples and composing short works for various instrumental ensembles. 3 undergraduate hours. 3 graduate hours. Prerequisite: MUS 202 and MUS 208.

MUS 430  Applied Music Pedagogy  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/430) Survey of techniques, practices, and materials; presentation of group and individual instruction; an approach to teaching problems, tone production, musical styles, and interpretation for various age levels; actual teaching experience under faculty supervision. Required of performance majors in voice. 2 undergraduate hours. 2 graduate hours. May be repeated to a maximum of 4 hours. Prerequisite: Senior standing in music or consent of instructor.

MUS 431  Piano Pedagogy I  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/431) Objectives, techniques, literature, and materials for teaching piano to children from about ages five through ten (elementary level); observation of lessons and supervised student teaching experience. 2 undergraduate hours. 2 graduate hours. Required of piano performance majors. Prerequisite: Senior standing in music or music education, or consent of instructor.

MUS 432  Piano Pedagogy II  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/432) Objectives, techniques, literature, and materials for teaching the young pianist from about ages 11 through 18 (middle school to pre-college level); teaching the adult beginner; observation of lessons and supervised student teaching experience. 2 undergraduate hours. 2 graduate hours. Required of piano performance majors. Prerequisite: Senior standing in music or music education, or consent of instructor.

MUS 433  Music Interdisciplinary Curriculum  credit: 2 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/433) This course focuses on the principles and processes of an interdisciplinary curriculum, with primary emphasis on music's relationship to other areas of study. The organizing framework for the course is grounded on the premise that music influences, and in turn is influenced by, complementary realms of human experience. The purpose is to enable music educators and other interested persons to create sound educative experiences in music built upon strong relationships among persons, ideas, artistic practices, and disciplines. 2 undergraduate hours. 2 or 4 graduate hours. Prerequisite: MUS 240, MUS 342, and MUS 343; or grad standing; or consent of instructor.

MUS 434  Assessment and Evaluation in Music Education  credit: 3 or 4 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/434) Overview of assessment and evaluation techniques in music education, emphasizing the design of performance assessments, how to collect quality data in the music classroom, and how to use data to improve instruction. Five weeks devoted to context-exploring basic statistical techniques, including how to interpret data. 3 undergraduate hours. 4 graduate hours. Prerequisite: MUS 240, MUS 342, MUS 343; or grad standing; or consent of instructor.

MUS 435  Jazz Aural Skills I  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/435) Jazz Aural Skills I is the first of two courses designed to equip students for the rigorous demands of a professional jazz musician. The course is designed to strengthen the student's ability to recognize chord progressions, scales, chord alterations, and common forms in order to react and integrate them into solo improvisation and group playing. Students learn how to strengthen their own relative pitch recognition through singing and or playing their instrument(s), including piano. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 107, 108, 172 and 173, or by consent of instructor. This course is open to jazz majors, music majors, and interested students.

MUS 436  Jazz Aural Skills II  credit: 2 Hours.  (https://courses.illinois.edu/schedule/terms/MUS/436) Jazz Aural Skills II is a continuation of ear training for the jazz musician and composer. The ability to hear all parts of a tune - chord changes, rhythmic patterns, and the harmonic implications of the chord extensions is considered a fundamental essential skill of the professional jazz and commercial musician. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 107, 108, 17, 173 and 435, or by consent of instructor.
MUS 437  Popular Music Pedagogy  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/437)
Explores various vernacular, popular, and folk musical traditions. Experiences will focus on oral/aural creation and performance as well as responding to and connecting with relevant sociocultural issues and contexts. Special emphasis will include the potential application and inclusion of these musical traditions within school music programs. 2 undergraduate hours. 2 or 4 graduate hours. Prerequisite: MUS 240, MUS 342, and MUS 343; or grad standing; or consent of instructor.

MUS 438  Designing Musical Experiences  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/438)
Students develop their musicianship through reflective engagement with a variety of approaches to non-performance oriented music learning. Equal emphasis is placed on various kinds of music (literature and repertoire) and the ways in which teachers can structure experiences for students. Students will plan and lead experiences, sing and perform on a variety of instruments, and review recent research and scholarship in the field. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 240 and MUS 342.

MUS 439  Differentiating Music Instruction  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/439)
Strategies for adapting and modifying music instruction for students with disabilities in general, choral, and instrumental music classes. 3 undergraduate hours. 3 graduate hours. Prerequisite: MUS 240, MUS 342 or MUS 343; or grad standing; or consent of instructor.

MUS 440  Marching Band Procedures  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/440)
Detailed consideration of principles and procedures for preparing a marching band to participate in parades, ceremonials, and shows for sports events. 2 undergraduate hours. 2 graduate hours. Prerequisite: Junior standing in instrumental music education.

MUS 441  Contemp Issues in Inst Mus Ed  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/441)
Research-based investigation of concepts and principles of school band programs including repertoire and curriculum, score study and teaching strategies, and leadership and advocacy. 2 undergraduate hours. 2 graduate hours. Prerequisite: Completion of student teaching, graduate standing in music education, or consent of instructor.

MUS 442  Band Arranging  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/442)
Development of basic scoring and arranging skills for various small instrumental ensembles and marching band. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 202 and MUS 208 or equivalent.

MUS 443  Orchestral Repertory  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/443)
Laboratory class designed for brass, woodwind, and percussion performance majors who wish to become more familiar with orchestral literature and a variety of interpretational orchestral techniques. Emphasis on individual and sectional parts of orchestral masterworks. 1 undergraduate hour. 1 graduate hour. May be repeated to a maximum of 4 undergraduate hours and 4 graduate hours. A maximum of 6 hours of credit is cumulative within either the BM or MM degree, or a combination of the two. Prerequisite: Consent of instructor in consultation with the appropriate studio teacher.

MUS 444  Healthy Music Practices  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/444)
This course is intended for the promotion of healthy musical and lifestyle habits and choices, as well as enhancement as a performer and teacher through knowledge of all aspects of their musical selves - physical, psychological, and spiritual. The course will focus on general self-care but will also cover the four target areas identified by the Health Promotion in Schools of Music Conference as crucial for musicians: musculoskeletal issues, hearing conservation, voice care, and psychological issues. 2 undergraduate hours. 2 graduate hours. Prerequisite: Music students, or instructor approval.

MUS 446  Songwriting  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/446)
Develops and refines music composition techniques and self-expression in popular, vernacular, and folk music genres. Students will write, record, and perform original songs for class, provide constructive feedback for their peers, reflect personally on their experiences through journaling, and will engage with readings and recordings relevant to class activities. Students should be comfortable singing and creating/performing on an accompanying instrument (e.g. guitar, piano, self-composed digital backing tracks). 2 undergraduate hours. 2 graduate hours.

MUS 447  Advanced Music Ed Technology  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/447)
A deepening of ideas and skills presented in MUS 243. Provides advanced exploration and construction of digital learning environments, as well as exploring the computer as a musical instrument. Students will work alone and in teams to create curricular materials grounded by historical, philosophical, and research in technology and education. 2 or 4 undergraduate hours. 2 or 4 graduate hours. Prerequisite: MUS 240, MUS 243; or grad standing; or consent of instructor.

MUS 448  Computer Music  credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/448)
Introduction to the multiple ways computers are used in music, with an emphasis on digital sounds synthesis and composition. Elements of acoustics, psychoacoustics, and programming are introduced in order to allow students to use and modify the existing software DISSCO/Sound Maker developed at UIUC. 3 undergraduate hours. 3 graduate hours. Prerequisite: Consent of instructor.

MUS 449  Teaching Young Singers  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/449)
Provides music education students with techniques for implementing developmentally appropriate music-learning experiences with an emphasis on teaching young singers. Includes theoretical and research literature in the field of vocal development and early childhood music education. Learning goals of the course focus on strategies for supporting and remediating vocal development, integrating singing into general music curricula, identifying and selecting song literature for young singers that encompasses a wide range of genres and styles with attention to children's musical interests, assessing vocal development and growth, and selecting and programing choral literature for early elementary-aged singers. Early field experiences and peer teaching are included in the course work. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 240, MUS 342, and MUS 343; or grad standing; or consent of instructor.

MUS 450  Advanced Ensemble Music  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/450)
Selected projects in the study and performance of ensemble literature, including the areas of operatic, instrumental, vocal-choral, and accompanying. 1 undergraduate hour. 1 graduate hour. May be repeated. Prerequisite: Consent of instructor.
MUS 451  Basso Continuo  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/451)
Introduction to figured bass realization. Techniques of accompanying singers and instrumentalists from a figured bass. 2 undergraduate hours. 2 graduate hours. May be repeated. Prerequisite: Advanced standing in music as a piano, organ, harpsichord, or accompanying major, or consent of instructor.

MUS 452  Special Topics in Harpsichord  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/452)
Practical and theoretical studies in historical tuning and temperament; early fingerings, harpsichord tutors (treatises), styles of figured bass improvisation, harpsichord literature, and other topics related to harpsichord performance. 2 undergraduate hours. 2 graduate hours. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MUS 453  Special Topics in Organ  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/453)
Development of practical keyboard skills related primarily to the work of the church organist: transposition, score-reading, harmonization, modulation, hymn-playing, and solo and anthem accompaniment. 2 undergraduate hours. 2 graduate hours. May be repeated to a maximum of 4 hours. Prerequisite: Consent of instructor.

MUS 454  Advanced Keyboard Skills I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/454)
Comprehensive keyboard musicianship course for advanced pianists emphasizing the development of the following skills: sight reading, harmonization, transposition, improvisation, playing by ear, and vocal and instrumental score reading. Ensemble piano music is performed. This course addresses the keyboard competency policy for undergraduate piano performance majors. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 180 (12 hours completed) or MUS 175, and MUS 202 and MUS 208 or equivalent; and consent of instructor.

MUS 455  Advanced Keyboard Skills II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/455)
Continuation of the topics introduced in MUS 454. 2 undergraduate hours. 2 graduate hours. Prerequisite: MUS 180 (12 hours completed) or MUS 175; MUS 202 and MUS 208 or equivalent; MUS 454 or equivalent; and consent of instructor.

MUS 456  Adv Jazz Piano Improvisation  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/456)
Study of solo jazz piano improvisation on an advanced level. Includes practical experience in traditional, modern, and abstract solo performance, as well as theoretical, stylistic, and historical background. 2 undergraduate hours. 2 graduate hours. May be repeated to a maximum of 4 hours. Prerequisite: MUS 161 or equivalent.

MUS 457  Organ History and Design  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/457)
Survey of the important national and historical styles of organ building and their relation to musical composition, performance practice, and modern organ design. Includes visits to regional organ installations chosen for their pertinent design features. 2 undergraduate hours. 2 graduate hours. Prerequisite: Consent of instructor.

MUS 459  Professional Internship  credit: 0 to 12 Hours. (https://courses.illinois.edu/schedule/terms/MUS/459)
Professional work with an approved musical organization that is external to the School of Music, in an area related to the student's academic program; exposure to and participation in professional music-related activities. Full documentation and approval of internship activities required. The default credit will always be 0 credits unless a student, with the faculty advisor's support, petitions the appropriate academic committee (UG or Grad) with a detailed proposal outlining the academic nature, content, and scope of the internship. 0 to 12 undergraduate hours. 0 to 12 graduate hours. Approved for S/U grading only. May be repeated in separate terms to a maximum of 4 hours if topics vary.

MUS 462  Jazz Listening Seminar I  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/462)
Examines the fundamental aural elements of improvisation in a jazz idiom. A chronological survey of jazz artists presented via recordings. Topics will vary with the introduction of each new artist or group. 2 undergraduate hours. 2 graduate hours. Prerequisite: Jazz majors or consent of instructor.

MUS 463  Jazz Listening Seminar II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/463)
A continuation in greater depth of material presented in MUS 462. Further examines the aural elements of improvisation in a jazz idiom. A chronological survey of jazz artists presented via recordings. Topics will vary with the introduction of each new artist or group. 2 undergraduate hours. 2 graduate hours. Prerequisite: Jazz majors or consent of instructor.

MUS 464  Jazz History I  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/464)
Presents jazz music history chronologically while providing historical background information drawn from other disciplines to illuminate the many ways that jazz has influenced, and been influenced by, American and global societies. Explores the many ways that jazz has encountered other art forms. Unpacks the many issues deeply associated with jazz music's history -- issues of race, class, mass media, gender, critical reception, etc. 3 undergraduate hours. 4 graduate hours. Prerequisite: Prior musical knowledge and training preferred but not required. Consent of instructor.

MUS 465  Jazz History II  credit: 3 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/465)
A continuation of the materials presented in MUS 464. Allows the students to look both forward and backward to explore jazz music’s unfolding in the twentieth century, beginning roughly in 1945 and continuing to the present. Looks at music and its creators using recorded music, film transcription, theory, and various other analytical and media techniques. 3 undergraduate hours. 4 graduate hours. Prerequisite: Prior musical knowledge and training preferred but not required. Consent of instructor.

MUS 466  Applied Jazz Instruction  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/466)
Instruction at the advanced undergraduate or graduate level in voice or instruments normally associated with the jazz idiom. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 undergraduate hours or 20 graduate hours. Prerequisite: Successful performance audition for the jazz faculty.
MUS 467 Lyric Theatre Voice  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/467)
This is an individualized voice class setting where the student and teacher work exclusively with the technical, musical, and communicative aspects of Lyric Theatre repertoire in a one-on-one setting. Students receive a great deal of feedback from the instructor during each weekly lesson. 2 undergraduate hours. 2 graduate hours. Prerequisite: Passage of a performance audition is required prior to the initial registration in any applied music course. For Music majors only, or by consent of instructor.

MUS 468 Lyric Studio  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/468)
Acquaints the student with a variety of opera, operetta, and musical theatre literature in contrasting styles and historical periods, culminating in a public performance of sung theatre (opera, operetta, musical theatre) productions and scenes each semester. Develops skills as both a solo and ensemble performer. Introduces skills related to the field of sung theatre performance, including, but not limited to, stage movement, mind-body awareness, diction, acting, and improvisational techniques. Forms and integrates a performing ensemble to serve as an outreach group that may perform in select venues off campus. Intended for voice majors (BM-Performance and BMA) and vocal accompanying/coaching majors; others by consent of instructor. Audition required. 2 undergraduate hours. 2 graduate hours. May be repeated in separate terms to a maximum of 12 undergraduate hours or 8 graduate hours. Prerequisite: Consent of instructor.

MUS 469 Opera Production I  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/469)
Studies the problems of the lyric stage. Investigation of and practice with casting methods, program selection, production procedures, stage direction, coaching methods, and opera dramas. 3 undergraduate hours. 2 undergraduate hours. May be repeated up to a maximum of 6 undergraduate hours or 4 graduate hours. Prerequisite: MUS 265 and MUS 481; consent of instructor.

MUS 470 Opera Production II  credit: 2 or 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/470)
Continuation of topics introduced in MUS 469. 3 undergraduate hours. 2 graduate hours. May be repeated to a maximum of 6 undergraduate hours or 4 graduate hours. Prerequisite: MUS 469.

MUS 471 Composer-Chor Workshop  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/471)
Same as DANC 464. See DANC 464.

MUS 472 Senior Project Showcase  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/472)
Senior Project Showcase will be a sequenced, two semester course, culminating in a final performance(s) in the spring semester. Students will use class time for individual and team writing during the fall semester, presenting their work for faculty approval at the end of the first semester. Students will meet weekly in large and small groups, as well as frequent individual sessions with their advisors, receiving and providing feedback, working on staging, choreography and arrangements, and, later, assisting in the production design as well. Improvisation will play a central role in the development of concept and specific songs from character driven work. 1 undergraduate hour. No graduate credit. May be repeated to a maximum of 2 hours in separate terms. Prerequisite: Musical Theatre Repertoire (MUS 422). For BMA in Lyric Theatre majors only.

MUS 474 Vocal Repertoire I  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/474)
Study of the standard solo literature including solo excerpts from larger works, i.e., cantata, oratorio, and opera. Supplements the student’s knowledge of the literature in his/her major field. 1 undergraduate hour. 1 graduate hour. Prerequisite: Junior standing in voice, or consent of instructor and concurrent registration in MUS 481.

MUS 475 Vocal Repertoire II  credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/475)
Continuation of the study of the standard solo literature including solo excerpts from larger works, i.e., cantata, oratorio, and opera. Supplements the student’s knowledge of the literature in his/her major field. 1 undergraduate hour. 1 graduate hour. Prerequisite: Junior standing in voice, or consent of instructor and concurrent registration in MUS 481.

MUS 477 Principles of Accompanying  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/477)
Principles of accompanying singers and instrumentalists. Practical experience in accompanying and facility in sight reading for keyboard performers. 2 or 4 undergraduate hours. 2 or 4 graduate hours. May be repeated. (Summer session, 2 undergraduate or graduate hours). Prerequisite: Advanced undergraduate or graduate standing in music or music education, and consent of instructor.

MUS 478 Guitar  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/478)
Instruction in guitar at the advanced undergraduate and graduate levels, predominantly classical. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing or above. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 479 Harpsichord  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/479)
Instruction in harpsichord at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing or above. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 480 Piano  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/480)
Instruction in piano at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: For students in the Bachelor of Music program. Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 481 Voice  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/481)
Instruction in voice at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 or 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: Primarily for music majors; junior standing and above. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

Information listed in this catalog is current as of 07/2019
MUS 482  Organ  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/482)
Instruction in organ at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 483  Violin  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/483)
Instruction in violin at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 or 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: Music majors must register concurrently in MUS 250. Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 484  Viola  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/484)
Instruction in viola at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 or 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: Music majors must register concurrently in MUS 250. Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 485  Cello  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/485)
Instruction in cello at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 or 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: Music majors must register concurrently in MUS 250. Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 486  Double Bass  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/486)
Instruction in double bass at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 or 3 undergraduate hours. 2 or 4 graduate hours. May be repeated to a maximum of 12 hours. Prerequisite: Music majors must register concurrently in MUS 250. Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 487  Harp  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/487)
Instruction in harp at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 488  Flute  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/488)
Instruction in flute at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 489  Clarinet  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/489)
Instruction in clarinet at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 490  Oboe  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/490)
Instruction in oboe at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 491  Bassoon  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/491)
Instruction in bassoon at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 492  Saxophone  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/492)
Instruction in saxophone at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 493  Trumpet  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/493)
Instruction in cornet and trumpet at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 494  Horn  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/494)
Instruction in horn at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.
MUS 495 Trombone credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/495)
Instruction in trombone at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 496 Euphonium credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/496)
Instruction in euphonium at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 497 Tuba credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/497)
Instruction in tuba at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 498 Percussion credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/498)
Instruction in percussion at the advanced undergraduate and graduate level. Additional fees may apply. See Class Schedule. 2 to 4 undergraduate hours. 2 to 4 graduate hours. May be repeated to a maximum of 16 hours. Prerequisite: Primarily for music majors; junior standing. Passing of an audition is required prior to initial registration in any applied music course as approved by the faculty of the appropriate applied music division.

MUS 499 Proseminar in Music credit: .5 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/499)
Special preparation in specialized fields of musicology, composition-theory, performance, and music education. 0.5 to 4 undergraduate hours. 0.5 to 4 graduate hours. May be repeated to a maximum of 8 hours; undergraduate students in open studies may repeat the course unlimited times with approval of the open studies advisor. Prerequisite: Senior or graduate standing in music or music education; consent of instructor.

MUS 500 Artist Diploma Recital credit: 1 Hour. (https://courses.illinois.edu/schedule/terms/MUS/500)
Recital presented in partial fulfillment of requirements for the Artist Diploma. Approved for S/U grading only. May be repeated in the same term to a maximum of 2 hours. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Admission to the Artist Diploma program on the basis of an audition.

MUS 501 Grad Music History Review credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/501)
Review of Western music history both before 1750 (MUS 501 section A) and after 1750 (MUS 501 section B). Refreshes knowledge and understanding of representative examples of repertoire as well as the historical context in which music was written. May be repeated up to 8 hours in separate terms.

MUS 502 Graduate Theory Review credit: 3 Hours. (https://courses.illinois.edu/schedule/terms/MUS/502)
Review of concepts from undergraduate music theory, including materials from the common practice period (50xA) and the twentieth century (50xB). Concepts studied include compositional materials and basic form and analysis. May be repeated up to 6 hours in separate terms if topics vary. Credit is not given towards graduate degrees.

MUS 504 Grad. Jazz Improv. I credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/504)
Practical application of mid- to upper level melodic, harmonic, and rhythmic principles used in jazz improvisation. Practice in the use of jazz chord qualities, upper extensions, and upper altered extensions used in jazz. Descriptions of mid-level improvisational sequences, modal improvising, symmetric/synthetic scale usage, symmetric chord usage, and approach-note/enclosure techniques. 4 graduate hours. No professional credit. Prerequisite: Graduate standing in Jazz Performance or consent of instructor. For Graduate Jazz Performance majors only.

MUS 505 Individ Topics in Music Theory credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/505)
Studies in specialized areas of analysis, theoretical systems, and aesthetics for composition and theory majors and cognates. May be repeated to a maximum of 12 hours. Prerequisite: Graduate standing in music and consent of instructor.

MUS 506 Graduate Level Composition credit: 2 to 6 Hours. (https://courses.illinois.edu/schedule/terms/MUS/506)
Advanced instruction in contemporary compositional practice. May be repeated to a maximum of 16 hours.

MUS 507 Sem in Music Comp and Theory credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/507)
Intensive study of selected topics in the fields of music composition and theory. May be repeated. Prerequisite: Graduate standing in music composition-theory, or consent of instructor.

MUS 508 Grad. Jazz Improv. II credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/508)
The advanced application and examination of improvisational methods, device, and techniques. Study of advanced chord/scale relationships, modal harmonic concepts, harmonic analysis, patterns, linear/vertical approaches to improvising, and various jazz song forms including: advanced blues forms, asymmetrical standards, free improvisational forms, and advanced modal forms. 4 graduate hours. No professional credit. Prerequisite: MUS 504 or consent of instructor. Graduate Jazz Performance majors only.

MUS 509 Graduate Seminar in Band Conducting, History, and Literature credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/509)
This seminar will explore current topics facing the contemporary wind band conductor. Subject matter will include but not be limited to the exploration of new literature, works for chamber winds, and an historical survey of cornerstone repertoire. There will also be a conducting component, using a chamber ensemble. 2 graduate hours. No professional credit. May be repeated to a maximum of 8 hours in separate terms, if topics vary. Prerequisite: Graduate Band Conducting Majors and Admitted Cognate Program Members Only, or with Instructor permission.

MUS 510 History of Music Theory credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/510)
The development of theoretical concepts from antiquity through the Renaissance; a study of selected theoretical treatises written before 1550. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in musicology or composition-theory, or consent of instructor.
MUS 511  Fdns/Methods of Musicology I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/511)
Introduction to the field for graduate students in musicology. Includes a study of bibliographic resources and techniques; on-line and CD ROM resources; database creation and management; basic historical method; evidence and argumentation in historical research; critical reading and logical analysis; and the nature and taxonomy of musical sources.
Students begin a project on the state of research on a particular subject of their choice, which is to be completed in MUS 512. Prerequisite: Graduate standing in musicology or consent of instructor.

MUS 512  Fdns/Methods of Musicology II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/512)
Continues materials introduced in MUS 511. Focuses on the major resources, intellectual history, theories and methodologies of ethnomusicology. Students pursue a state-of-research project on a topic relevant to their interests, selected in consultation with the instructor. 4 graduate hours. No professional credit. Prerequisite: MUS 511 or consent of instructor.

MUS 514  Musicology and Pedagogy  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/514)
Seminar-style practicum in the teaching of undergraduate courses in Western and non-western music for musicology and non-musicology majors. Intensive review and discussion of pedagogical materials. Instruction in syllabus and lecture design, presentational and discussion styles, and use of multimedia and educational technology. Prerequisite: Graduate musicology majors or consent of instructor.

MUS 515  Topics in Vocal Music  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/515)
Intensive or comparative study of specific repertoires of vocal music, of particular genres or styles of vocal composition or performance practice, and/or of particular vocal artists. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours. Prerequisite: MUS 528A, graduate standing in musicology, or consent of instructor. For graduate students in Music.

MUS 516  Fieldwork and Ethnography  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/516)
Prepares students for the various phases of preparing for and doing ethnomusicological fieldwork and ethnographic analysis and writing. Beginning with the project design and grand-writing stages, participants study and practice fieldwork techniques such as participant observations, interviewing, writing and analyzing field notes, and audio and video recording. The politics and ethics of fieldwork and ethnographic writing are considered through readings and discussion. Finally, a variety of approaches to ethnographic writing are considered through the study of finished musical ethnographies. Prerequisite: MUS 512 or consent of instructor.

MUS 517  Topics in Instrumental Music  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/517)
Intensive or comparative study of specific repertoires of instrumental music, or of particular genres or styles of instrumental composition and performance practice, and/or of particular instrumentalists. Includes broad reading in the social and intellectual climate of the musical practices at issue; pertinent analytical approaches or paradigms; and work with relevant source materials. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours. Prerequisite: MUS 528A (consult Class Schedule for specific section information), or graduate standing in musicology, or consent of instructor.

MUS 518  Topics in Opera History  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/518)
Intensive study of a period or school of opera composition or of a particular aspect of the history of opera. Wide reading in the social and intellectual climate of the period concerned; literary, dramatic, and musical analysis; and work with primary sources, whenever possible. May be repeated to a maximum of 8 hours. (Summer session, 2 graduate hours). Prerequisite: MUS 528A (consult Class Schedule for specific section information), graduate standing in musicology, or consent of instructor.

MUS 519  Analytical Methods: Musicology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/519)
Practical, hands-on experience with and exposure to the transcription, analysis, theoretical constructs, and/or notation of music from any of the world's repertories examined within a musicological framework and from both a synchronic and diachronic perspective. A series of case studies posing an array of technical problems encourage students to think critically about the place of theory and analysis in the history of musicology and their own work. May be repeated, as topics vary, in the same term to a maximum of 8 hours and in separate terms to a maximum of 12 hours. Students repeating should consult with the instructor before enrolling. Prerequisite: MUS 511 and MUS 512; or consent of instructor. Graduate students in music will be considered if they passed MUS 528A (consult Class Schedule for specific section information).

MUS 520  Soc Theory in Ethnomusicology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/520)
History of theoretical ideas and paradigms that have influenced ethnomusicology from the late 19th century through the early 21st century. Helps students to sharpen their own theoretical tools for conducting ethnomusicological research, teaching, and analysis of existing literature. Participants will study theoretical approaches from anthropology, folkloristics, sociology, semiotics, linguistics, communications, and ethnomusicology that have been influential in ethnomusicology. Participants will write a series of short papers to develop their theoretical thinking, writing, and argumentation. Prerequisite: MUS 512, or consent of instructor. Graduate students in music will be considered if they passed MUS 528A (consult Class Schedule for specific section information).

MUS 521  Hist Studies in 20thC Music  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/521)
Seminar in contemporary music, with emphasis on the historical foundations of current trends in musical composition. May be repeated to a maximum of 8 hours. Prerequisite: MUS 528A (consult Class Schedule for specific section information), or graduate standing in musicology, or consent of instructor.

MUS 522  Special Topics Seminar  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/522)
Intensive study of special topics in musicology, whether historical, ethnomusicological, or interdisciplinary in approach; seminar format. 4 graduate hours. No professional credit. May be repeated to a maximum of 8 hours. Prerequisite: MUS 528A or consent of instructor. For graduate students in Music; this course is intended for performance and composition majors, especially DMA students seeking advanced musicology credit.
MUS 523  Seminar in Musicology  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/523)
Problems in historical and systematic musicology or ethnomusicology; discussions of special problems and reports on individual research. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in musicology or consent of instructor. Graduate students in music will be considered if they passed MUS 528A (consult Class Schedule for specific section information).

MUS 524  Sem in Wrks of Select Composer  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/524)
Intensive historical and analytical study of the works of important composers; each term devoted to one composer. May be repeated to a maximum of 16. (Summer session, 2 or 4 graduate hours). Prerequisite: Graduate standing in musicology or consent of instructor. Graduate students in music will be considered if they passed MUS 528A (consult Class Schedule for specific section information).

MUS 525  Rdgs in Musicol and Mus Theory  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/525)
Individual guidance in intensive readings in the literature of musicology or music theory, selected in consultation with the instructor and in accordance with the needs and interests of the student. May be repeated. (Summer session, 2 graduate hours). Prerequisite: Graduate standing in musicology or music theory.

MUS 526  Baroque Performance Practice  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/526)
Study of musical performance from ca. 1600-1750; discussion of musical instruments, ornamentation, basso continuo, etc., supplemented by demonstration performances using the University's collection of instruments. Prerequisite: Graduate standing in music; for undergraduates, consent of instructor.

MUS 527  Classical Performance Practice  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/527)
Study of musical performance of the classical period, with an emphasis on the music of Haydn, Mozart, and early Beethoven; discussion of musical instruments, ornamentation, tempo, vibrato, etc., supplemented by demonstration performances using the University's collection of instruments. Prerequisite: Graduate standing in music; for undergraduates, consent of instructor.

MUS 528  Res & Bibliography in Music  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/528)
Introduction to basic research skills appropriate to graduate study in music. Topics include accessing library resources and online databases; citation formats and plagiarism issues; critical reading and writing; and critical editions of music. For DMA students additional topics include skills for planning and writing a large research paper; study strategies and resources; and professional skills. All DMA students will complete a draft of their proposal for a final DMA project by the conclusion of this class. Required of all incoming graduate students in the MM (2 hours of credit), except those majoring in musicology, and in the DMA (4 hours of credit). Prerequisite: If required, all remedial coursework in ESL and/or music history must be satisfied prior to enrollment.

MUS 529  Transformative Music Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/529)
Music educators in all settings operate in a crosscurrent of social, musical, educational, and person values. In order to improve our professional practice and transform the profession, we need to examine society's expectations of schools, education, music and the arts as well as our own. In this course, students will learn how sociology can be used to identify and clarify these connections.

MUS 530  Critical Readings in Mus Ed  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/530)
Independent critical readings and reflections of topics not treated in regularly scheduled courses. Includes program of approved research that culminates in a written report and/or formal presentations. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music education.

MUS 531  Psychology of Music  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/531)
The practice of making, creating, and experiencing music studied from a psychological perspective. Covers a range of psychological issues of interest to musicians and music educator, with the aim of challenging students to consider new ways of thinking about and participating in music as a result of having developed informed approaches to their own musical development and that of others. Prerequisite: Graduate standing in music education.

MUS 532  Curricular Perspectives on Music Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/532)
Examines current issues and trends within music education from both a local and global perspective. Focuses on the status and role of the music curriculum in contemporary schools and includes a critical examination of a range of evidence-based principles and approaches that govern music teaching and learning in formal and informal settings. Prerequisite: Graduate standing in music education or consent of instructor.

MUS 533  Research in Music Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/533)
Examines the sources of research literature in music education, provides an overview of traditional research methodologies, and introduces terminology and procedures utilized in qualitative and quantitative research. The purpose of the course is to enable graduate students to become intelligent consumers and interpreters of the music education research literature. Prerequisite: Advanced undergraduate or graduate standing in music or music education, or consent of instructor.

MUS 534  Doctoral Research in Mus Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/534)
Considers music education research within a wider political and social context and addresses some of the dilemma and choices faced when designing and conducting research. Explores different approaches and considers theoretical and methodological issues relevant to the design and conduct of music education research. Students are expected to design a research project that will make a distinct contribution to knowledge and afford evidence of originality, either by the discovery of new evidence, or by the exercise of independent critical judgments. Prerequisite: MUS 533 or equivalent, or consent of instructor.

MUS 535  Philosphic Inquiry in Mus Ed  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/535)
Consideration of the philosophical assumptions that have guided decisions regarding why, what, and how music is taught in schools. Assists students in placing their present values and beliefs about music learning in the context of scholarly ideas on this subject. Addresses questions such as: What is music? Why do people listen to, create, and perform music? What is music’s value for individuals and society? Why teach music in school? How does music fit the large goals of schooling? How have answers to the foregoing changed over the past century? Prerequisite: Graduate standing in music or music education, or consent of instructor.
MUS 536 Soc-Cultur Inquiry Music Learn  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/536)
Consideration of the implications of developmental and socio-contextual inquiry for enhancing music education practice, with an examination of the implications of contemporary theory for the development of more effective teaching and learning processes. Prerequisite: Graduate standing in music or music education, or consent of instructor.

MUS 538 The General Music Program  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/538)
Overview of methodologies, historical approaches, and new trends. Additionally, students will explore and develop their own pedagogic content knowledge and general musicianship abilities (improvisation, composition, etc.) within the class setting. Prerequisite: Graduate standing in music education, or consent of instructor.

MUS 539 Music in Higher Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/539)
Provides an orientation to the organization, teaching and administration of music in the college or university. Includes topics such as preparing for and securing a college/university faculty position, promotion and tenure, faculty ethics and evaluation, and personnel/personal relations. Prerequisite: Graduate standing in music or music education.

MUS 540 Graduate Wind Band Conducting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/540)
Examination of techniques of rehearsal, conducting, and preparation of wind band and chamber wind ensembles for concert performance. Emphasizes discussion, analysis, and preparation of selected scores for private and group lessons, as well as coaching/experience with live ensembles and select performance opportunities. May be repeated to a maximum of 16 hours. Prerequisite: MM wind band conducting students and/or consent of instructor.

MUS 541 Chor Prog in Secondary Schools  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/541)
In-depth study of the methods, materials and literature for teaching choral music in the secondary schools. Emphasis on curriculum development, musical literacy, and advanced rehearsal techniques. Prerequisite: Graduate standing in music or music education.

MUS 542 Technology in Music Education  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/542)
Critical exploration of technology in all aspects of music learning. Theoretical approaches, trends in software and hardware, and consideration of technologies as prosthesis of the mind are explored in a seminar format. Limited instruction in hardware and software are also included as needed. The higher amount of credit will require a major project outside of class in consultation with the instructor. Prerequisite: MUS 447; graduate standing, or consent of instructor.

MUS 543 Music Teacher Education  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/543)
This course focuses on the issues, concepts, and processes for the development of preservice music teachers. Intended for prospective university teachers of undergraduate music education majors. Covers educational philosophy, curriculum design, methods of teaching and evaluation, and student teaching and observational experiences as they relate to undergraduate music teacher programs. 4 graduate hours. No professional hours. Prerequisite: PhD Students in Music Education, or as approved by instructor.

MUS 544 Doctoral Seminar in Music Education  credit: 0 or 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/544)
Weekly seminar involving special topic discussions on critical issues within the profession. Required each semester for all resident doctoral students in music education during their residency. 0 or 2 graduate hours. No professional credit. Prerequisite: Graduate standing in music education.

MUS 545 Topics in Music Education  credit: 1 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/545)
In-depth study of a topic or issue within music education. May be repeated. Prerequisite: Graduate standing in music education.

MUS 546 Orchestral Literature I  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/546)
Study of orchestral and symphonic literature from about 1700 to 1850. May be repeated up to 6 hours. Prerequisite: Graduate orchestral conducting majors only; consent of instructor.

MUS 547 Orchestral Literature II  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/547)
Study of orchestral and symphonic literature from about 1850 to the present. May be repeated up to 6 hours. Prerequisite: Graduate orchestral conducting majors only; consent of instructor.

MUS 548 Advanced Jazz Harmony I  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/548)
A survey of advanced improvisational theory and its conception, use, and historical lineage. Examines synthetic, symmetric, and asymmetric scales and modes generated from each. Discussion and analysis of chord symbols and their functions in asymmetric song forms. In-class demonstration by students of linear and vertical approaches to improvising on uncommon chord functions. Prerequisite: MUS 361, or placement by exam with consent of instructor.

MUS 549 Advanced Jazz Harmony II  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/549)
Continuation of materials introduced in MUS 548. Surveys advanced improvisational theory and its conception, use, and historical lineage. Examines use of polychords, pentatonic scales, diminished scales, and the modes generated from each. Discussion and analysis of chord functions in all song forms. Students demonstrate in class a variety of linear and vertical approaches to improvising using harmonic major scales. Prerequisite: MUS 548, or placement by exam with consent of instructor.

MUS 550 Orchestral Literature III  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/550)
Study of orchestral and symphonic literature from about 1850 to the present. May be repeated up to 6 hours. Prerequisite: Graduate orchestral conducting majors only; consent of instructor.

MUS 551 Choral Literature II  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/551)
Survey of choral repertoire about 1750 to the present. Prerequisite: Graduate standing in music; consent of instructor.

MUS 552 Graduate Orchestral Conducting  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/553)
Study of conducting techniques and problems related to standard orchestral literature. May be repeated up to 12 hours. Prerequisite: MUS 333 or equivalent, and consent of instructor.

MUS 556 Advanced Choral Techniques II  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/556)
Intensive survey of choral literature with laboratory organization for reading, conducting, and interpreting choral music of all periods, styles, and voice arrangements. Prerequisite: Graduate standing in choral music or consent of instructor.

Information listed in this catalog is current as of 07/2019
MUS 557 Piano Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/557)
May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 558 Vocal Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/558)
Study of solo song in larger works and solo art song. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 559 Organ Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/559)
Intensive study of organ literature from Bach to the present; includes the music itself, recordings, and collateral readings. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 560 String Instrument Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/560)
May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 561 Wind Instrument Literature  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/561)
Survey of solo and ensemble wind literature; includes analysis and performance (when possible) of the music itself, recordings, and collateral readings. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 562 Percussion Instruments Lit  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/562)
Survey and analysis of the field of solo and ensemble percussion literature; includes analysis and performance (when possible) of the music itself, recordings, and collateral readings. May be repeated to a maximum of 8 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 563 Hist of Voc Ens and Chor Music  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/563)
Critical and analytical study of vocal ensemble and choral music from the Middle Ages to the present. May be repeated to a maximum of 8 hours. Prerequisite: MUS 551 or equivalent, or consent of instructor.

MUS 564 Choral Conducting Project  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/564)
Participation in a graduate choral conducting laboratory and preparation of a choral ensemble for public performance. Required during the final term in residence for candidates in the Master of Music in choral music curriculum. Prerequisite: Consent of instructor.

MUS 565 Adv Choral Perform Techniques  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/565)
Study of performance problems and musical analysis of choral music with techniques of preparation and rehearsal from the various style periods: Renaissance, Baroque, Classic-Romantic, and Contemporary. May be repeated to a maximum of 8 hours. Prerequisite: Admission into the Doctor of Musical Arts choral music program, or the equivalent background in other doctoral programs.

MUS 566 Graduate Applied Jazz Instruc  credit: 2 to 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/566)
Instruction at the graduate level in voice or in instruments normally associated with the jazz idioms. May be repeated to a maximum of 20 hours. Prerequisite: Successful performance audition for the jazz faculty.

MUS 567 Adv Instrument: Chamber/Symph  credit: 2 or 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/567)
Orchestration for chamber and symphony orchestras; works of Classical, Romantic, and Contemporary composers. Prerequisite: Undergraduate course in instrumentation.

MUS 569 Music Education Thesis  credit: 2 Hours. (https://courses.illinois.edu/schedule/terms/MUS/569)
Completion of Master of Music Education thesis in approved area of study. 2 graduate hours. No professional credit. Prerequisite: MUS 533.

MUS 570 Pract Pro Tchg Child and Teens  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/570)
Student teaching of group piano and musicianship classes for elementary, middle school, and high school students; weekly seminar devoted to evaluation and improvement of teaching techniques. Prerequisite: Graduate standing in music or consent of instructor.

MUS 571 Practicum in Piano Tchg Adults  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/571)
Student teaching of group piano for adults in the private studio, community college, and university; weekly seminar devoted to evaluation and improvement of teaching techniques. Prerequisite: Graduate standing in music or consent of instructor.

MUS 572 Doctoral Orchestral Conducting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/572)
Advanced study in orchestral conducting performance, pedagogy, score study/analysis, and rehearsal techniques. May be repeated to a maximum of 16 hours. Prerequisite: Admission into the doctoral concentration in orchestral conducting; consent of instructor.

MUS 573 Doctoral Wind Band Conducting  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/573)
Advanced study in wind band conducting performance, pedagogy, score study/analysis, and rehearsal techniques. May be repeated to a maximum of 16 hours. Prerequisite: Admission into the doctoral concentration in wind band conducting; for doctoral cognate students, consent of instructor.

MUS 574 Jazz Arranging III  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/574)
Advanced arranging styles and orchestration techniques, with emphasis on brass section arranging, saxophone section arranging, and big band arranging. Orchestration techniques with emphasis on band planing (parallelism), 5-part spread, cluster voicings, and line-writing. Study of jazz related re-harmonization techniques with emphasis on tonicization, secondary dominants, and passing chord re-harmonization. Prerequisite: MUS 363, or placement by exam/portfolio with consent of instructor.

MUS 575 Jazz Arranging IV  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/575)
Continued practice and examination of arranging applications for advanced re-harmonization techniques, including tonicization, secondary dominant re-harmonizations, and passing chord re-harmonizations. Score study of advanced voicing techniques, including 5-part spread, whole and half-step planing (parallelism), and modal line-writing. Advanced notation software is introduced and applied in the classroom. Includes discussion of practical application of jazz arranging in a modern music business context. Prerequisite: MUS 574, or placement by exam/portfolio with consent of instructor.
MUS 576  Doctoral Projects  credit: 0 to 16 Hours. (https://courses.illinois.edu/schedule/terms/MUS/576)
Special projects for candidates for the Doctor of Musical Arts degree. Open only to students in the Doctor of Musical Arts program. Approved for S/U grading only. May be repeated. (Summer session, 0 to 8 graduate hours). Prerequisite: Consent of instructor.

MUS 577  Advanced Accompanying  credit: 4 Hours. (https://courses.illinois.edu/schedule/terms/MUS/577)
Principles of accompanying singers and instrumentalists, practical experience in accompanying, and facility in sight reading for keyboard performers. May be repeated to a maximum of 12 hours. Prerequisite: Graduate standing in music or consent of instructor.

MUS 579  Graduate Level Harpsichord  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/579)
Selected studies from the masterworks of harpsichord literature. Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for appropriate faculty members of the Organ/Harpsichord Division.

MUS 580  Graduate Level Piano  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/580)
Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for the piano faculty.

MUS 581  Graduate Level Voice  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/581)
Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for the voice faculty.

MUS 582  Graduate Level Organ  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/582)
Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Selected studies from the masterworks of organ literature. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for appropriate faculty members of the Organ/Harpsichord Division.

MUS 583  Graduate Level Violin  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/583)
Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for the string faculty; concurrent registration in MUS 450 section K for students in the Master of Music curriculum in strings.

MUS 584  Graduate Level Viola  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/584)
Additional fees may apply. See Class Schedule. May be repeated to a maximum of 20 hours. Prerequisite: Graduate standing in music, or successful completion of a qualifying audition for the string faculty; concurrent registration in MUS 450 section K for students in the Master of Music curriculum in strings.

MUS 585  Graduate Level Cello  credit: 2 to 5 Hours. (https://courses.illinois.edu/schedule/terms/MUS/585)
