

# GENERAL INFORMATION

The *University of Illinois at Urbana-Champaign 2020-2021 Academic Catalog* is the official listing of courses, programs, and degree requirements for undergraduate and graduate students. Information on courses, curricula, fees, policies, regulations and other matters is subject to change during the period for which the *Catalog* is in effect.

The class schedule is available each term in the Course Explorer (<http://courses.illinois.edu>). The class schedule lists those courses that will be offered during specific terms, as well as times and locations. Not all courses listed in this *Catalog* are offered every term.

## Course Descriptions

The *Catalog* lists courses of instruction alphabetically by subject and numerically by course number. The course number denotes the intended/recommended level of the course:

**Courses numbered 000-099** are for preparatory work that does not count toward a degree but do count for tuition and load.

**Courses numbered 100-199** are intended primarily for freshmen and correspond to entry-level work. They may be taken by sophomores, juniors, and seniors.

**Courses numbered 200-299** are intended for lower-division students who satisfy the published prerequisite(s), if any. Transfer credit from two-year colleges would correspond to 100- and 200-level offerings.

**Courses numbered 300-399** are intended primarily for juniors and seniors who satisfy the published prerequisite(s), if any. Transfer work from two-year colleges does not correspond to these numbers.

**Courses numbered 400-499** are intended for upper-division undergraduate students sometimes also for graduate students.

**Courses numbered 500-599** are intended for graduate and professional school students.

**Courses numbered 600-799** are available for certain professional school courses with restricted enrollments. These courses apply primarily to law, medicine, and veterinary programs.

Course credit is listed after each course title. The university counts credit in credit hours. Following the credit hours is a brief description of the content, requirements for registration to the course (if any), and other advisory statements. Additional information relating to the course content is available in the Course Explorer (<http://courses.illinois.edu>). For information on credit policies, see the *Student Code*.

A **crosslisted** course refers to a course offered under the same course title by a different department. Courses may be crosslisted with one or more departments and will be noted by the statement: "**Same as.**" The description of a crosslisted course is found only in the entry for the controlling department. Reference to the controlling department's course is noted by "See...."

**Prerequisites** are advisory statements that refer to special requirements for registration in certain courses. These may include one or more courses that must be completed prior to, or in the same term. These statements may also recommend knowledge, skills or standards, or class standing that must be demonstrated prior to registration.

# Degree and General Education Requirements

## General Education Requirements

The University of Illinois at Urbana-Champaign requires that all undergraduate students take General Education - or "Gen Ed" - courses to gain and use broad knowledge beyond the specialized learning they will do in a major field of study. These Gen Ed requirements cover the kinds of knowledge all students should have: the humanities and arts, social and behavioral sciences, natural sciences and technology, quantitative reasoning, composition/writing, and cultural studies.

General Education courses at Illinois are mindful of our students' diverse backgrounds, needs, and interests, and are an essential component of the transformative learning that prepares our graduates to become alumni who make a significant societal impact. These courses build students' abilities to think critically, solve problems, generate new ideas and create knowledge, make connections between academic disciplines, respect and understand differences, and develop as citizens and leaders.

General Education at Illinois is more than a set of required courses; it is a gateway into the Illinois experience.

Courses are noted as fulfilling one or more of the following categories:

- Composition I
- Advanced Composition
- Humanities and the Arts: Literature & the Arts or Historical & Philosophical Perspectives
- Natural Sciences and Technology: Life Science or Physical Science
- Quantitative Reasoning
- Social and Behavioral Sciences
- Cultural Studies: Western/Comparative Cultures, Non-Western Cultures, and US Minority Cultures

For a list of current courses approved for General Education credit, please visit the Course Explorer (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

## Written Communication Requirement

### Undergraduate Students:

- Satisfactory proficiency in written communication is a requirement for all undergraduate degrees awarded at the University of Illinois at Urbana-Champaign. This proficiency can be certified by the satisfactory completion of the "Composition I" general education requirement via the one-semester, four-hour course Rhetoric 105 (Writing and Research); the two-semester, eight-hour sequence of Rhetoric 101 (Principles of Writing) and 102 (Principles of Research) with Rhetoric 100 tutorials in both semesters; or the two-semester, six-hour sequence Communication 111 and 112 (Oral & Written Communication I and II).
- A student who achieved, prior to enrolling in college-level coursework, a sufficiently high score on either the appropriate college-preparatory English exam (currently ACT, SAT, AP, or IB) will earn course credit that fulfills the general education "Composition I" requirement and thus will satisfy the Written Communication requirement for graduation. More information can be found under "Proficiency Testing" at [go.illinois.edu/pnp](http://go.illinois.edu/pnp) (<http://go.illinois.edu/pnp/>).
- Non-native English-speaking students who are mandated to take the English Placement Test (EPT) and given an English as a Second

Language (ESL) placement must fulfill their Written Communication requirement by taking the two-semester, six-hour sequence of ESL 111 and 112 or the one-semester, four-hour ESL 115 course. They might also be required to take ESL 110 (Pronunciation). Non-native English-speaking students who are not required to take the EPT due to sufficiently high TOFEL iBT or IELTS scores may elect to satisfy the Written Communication requirement by taking the ESL, or the Rhetoric, or the Communication sequences. Students in this category who wish to take ESL must take the EPT to determine correct placement.

- If the academic credentials of a transfer student do not indicate fulfillment of coursework equivalent to fulfill the Written Communication graduation requirement, the student will need to do additional coursework to satisfy this requirement. Non-native English-speaking transfer students may be required to take the English Placement Test (EPT).

#### Graduate Students:

- Satisfactory proficiency in academic writing in English is a requirement for all graduate degrees awarded at the University of Illinois at Urbana-Champaign.
- Graduate students who are admitted on limited status because they do not meet this proficiency requirement prior to admission may be placed into mandatory ESL courses based on the results of the EPT exam.
- Proficiency can then be certified by the satisfactory completion of a one-semester course (ESL 515) or the two-semester sequence (ESL 511 and 512). Students may also select equivalent coursework from the "English for specific purposes" tracks available through ESL (e.g., business track ESL 521, 522). International graduate students may also be required to take ESL 510 (Pronunciation).
- Mandatory ESL course assignments must be fulfilled in order to be eligible for graduation.

## Kinesiology, Language Other Than English, and Undergraduate Open Seminar Credit

### Credit for Kinesiology

Kinesiology courses numbered from 100 through 110 are activity courses. Credit earned in kinesiology activity courses may be included in the grade point average at the discretion of the individual colleges and may, at the discretion of the individual colleges, be included in the total hours required for graduation.

### Language Other Than English Credit

- Effective for all entering freshmen in Fall 2000 or later, the following language requirement must be completed for graduation.
- This requirement may be satisfied by:
  1. Successfully completing a third-semester college-level course in a language other than English;
  2. Successful completion, in high school, of the third year of a language other than English; or
  3. Demonstrating proficiency at the third semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.
- Generally, one year of high school language study is equivalent to one semester of college study.

- Current list ([http://fms.registrar.illinois.edu/Report/?file=CatalogInformation%5CLanguage%20Reqs%5CCourses\\_Approved\\_Language\\_Requirements.xml](http://fms.registrar.illinois.edu/Report/?file=CatalogInformation%5CLanguage%20Reqs%5CCourses_Approved_Language_Requirements.xml)) of courses approved to satisfy the language requirement.
- If you enter UIUC without three years of language other than English in high school, or you plan to continue with the language you studied in high school, you must take a language placement test to determine the courses in which you should enroll.
- Students in the Sciences and Letters Curriculum of the College of Liberal Arts and Sciences (LAS) and the Gies College of Business (BUS) are expected to gain language knowledge equivalent to the completion of the fourth semester of college study in a language. The LAS and BUS Language requirement may be met in any of the following ways:

1. Successfully completing a fourth-semester college-level course in a language other than English;
2. Successful completion, in high school, of the fourth year of a language other than English;
3. Successful completion of the third-semester level in each of two different languages other than English by any combination of high school and college work;
4. Demonstrating proficiency at the fourth-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

- Students enrolled in the LAS Chemistry and Chemical Engineering Specialized Curricula are exempt from the four semester LAS Language requirement and must instead adhere to the Campus requirement of three semesters or equivalent. Please contact your adviser if you have any further questions.
- Except as prohibited or limited by the established policy of the student's college, credit in University of Illinois at Urbana-Champaign language courses other than English taken to remove high school entrance deficiencies may, at the discretion of the college:
  1. be counted in the total hours required for graduation, or
  2. be accepted in partial or complete satisfaction of the language other than English requirement for the degree.

- Normally no more than ten hours of proficiency credit for the study of a single language other than English at the elementary and intermediate level shall be counted for graduation in the College of Liberal Arts and Sciences. Additional credit may be granted for advanced courses emphasizing literature and language structure rather than communicative competence in the language.
- Students with a verified Seal of Biliteracy will earn 8 hours of credit equivalent to the first two levels of foreign language regardless of the language other than English. The credit will appear as 8.00 Earned hours from Seal of Biliteracy on the official University of Illinois at Urbana-Champaign transcript in the Transfer Credit Accepted by the Institution section.

### Credit for Undergraduate Open Seminar Courses

- Credit in each 199 course shall not exceed four credit hours per semester.
- A student may accumulate an unlimited number of credit hours in 199 courses, but no more than 12 such hours listed on the student's

transcript may be counted toward fulfilling graduation requirements, except in cases in which a larger number of credit hours in 199 courses is an integral part of a formal, college-approved program of study (e.g., Individual Plans of Study).

- A 199 course appears on a student's transcript with the departmental rubric and the title "Undergraduate Open Seminar" when a specific section title has not been assigned by the department offering the course.

## Policy Notes

### Illinois Copyright Policy

The University of Illinois at Urbana-Champaign makes every effort to comply with laws and institutional policies on copyright and to encourage awareness within its community of both responsibilities and appropriate actions for compliance.

Copyright law can be a complex topic to navigate, and the issues students, faculty and staff must confront when it comes to copyright are often different. For that reason, the University has compiled a variety of resources to help you navigate your copyright responsibilities.

Copyright Resources (<http://copyright.illinois.edu/resources/>)

In addition, a variety of laws and regulations shape the specifics of copyright law. The Higher Education Opportunity Act is one of the laws that shapes copyright policies and education efforts at colleges and universities in America. How the University of Illinois at Urbana-Champaign satisfies the requirements of HEOA are outlined on this page (<http://copyright.illinois.edu/compliance/>).

### Religious Observances

The University of Illinois at Urbana-Champaign complies with the University Religious Observances Act (110 ILCS 110/). Details of the Act are available here (<http://www.ilga.gov/legislation/ilcs/ilcs3.asp?ActID=1076&ChapterID=18>).

### Smoke and Tobacco-Free Campus

Smoking and the use of all non-combustible tobacco products and non-FDA approved nicotine delivery devices and products is prohibited on all campus property, both indoors and outdoors, and in university-owned vehicles and in privately owned vehicles parked on campus property. The advertising, sale, and free sampling of tobacco products and non-FDA approved nicotine delivery devices and products are prohibited on campus property. Littering the remains of tobacco and non-FDA approved nicotine delivery devices or products or any other related waste products on campus property is prohibited. The complete policy is available here (<http://cam.illinois.edu/v/v-B-2.1.htm>).

### State Approving Agency Certification

Effective August 1, 2019, the University of Illinois at Urbana-Champaign is in compliance with Title 38, Veterans' Benefits, Part III, Readjustment and Related Benefits, Section 3679, Disapproval of courses, Subsection e. [38 U.S. Code 3679(e) (<https://uscode.house.gov/view.xhtml/?path=/prelim@title38/part3/chapter36&edition=prelim>)].

### Student Code

Policies and procedures applying to all undergraduate, graduate, and professional students enrolled at the University of Illinois

at Urbana-Champaign are found in the Student Code (<http://studentcode.illinois.edu/>).

## Student Consumer Information

Information and disclosures regarding institutional accreditation, programs, and services at the University of Illinois at Urbana-Champaign is available on the Office of the Provost's website (<http://provost.illinois.edu/student-consumer-information/>). This includes a description of the institution's accreditation and state authorization, contact information for filing complaints with the accreditor and the state, financial aid, campus security, intercollegiate athletics, gainful employment programs, and student outcomes. A paper copy of the information on the website can be made available upon request.

## **Annual Announcement of Copyright Policies**

Provided below is the University of Illinois at Urbana-Champaign annual announcement of copyright policies.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under Section 106 of the Copyright Act (Title 17 of the United States Code). Infringement may occur when a copyright protected work is reproduced or distributed without authorization, including when it is uploaded or downloaded from the Internet or otherwise published without permission. Protected works may include (among other works) photographic images, music, movies, and television programs. Although there are limited exceptions not requiring permission, such as the doctrine of fair use, sharing substantial portions of such works, including on peer-to-peer networks, without authorization by the rights owner or by meeting the exception requirements is an infringement.

Penalties for copyright infringement include civil and criminal penalties. Copyright compliance enforcement agencies aggressively pursue infringers. If you are infringing, even unknowingly, you can be subject to civil damages per work infringed, and even criminal fines and jail time.

All universities of the University of Illinois System make every effort to comply with laws and institutional policies on copyright. Individuals who receive a copyright infringement notice may face disciplinary or employment actions. These actions may include, but are not limited to, loss of network access, mandatory training about copyright infringement, conduct sanctions, and potential dismissal from the University.

For more information about copyright at the University of Illinois, please visit: <http://copyright.illinois.edu>.

# UNDERGRADUATE MAJORS & CONCENTRATIONS

The undergraduate Colleges and Schools offer over 150 programs of study leading to baccalaureate degrees. Undeclared students begin their college career in the Division of General Studies before transferring to a degree program.

Degree Programs (emphasis)	School/College	Undergraduate
Accountancy	BUS	BS (p. 10)
Acting	FAA	CONC (p. 404)
Actuarial Science	LAS	BSLAS (p. 11)

## Accountancy, BS

for the degree of Bachelor of Science Major in Accountancy

**department office:** 360 Wohlers Hall, 1206 South Sixth, Champaign, IL 61820

**phone:** (217) 333-0857

**department catalog page:** A ([http://catalog.illinois.edu/gies\\_business/accy/](http://catalog.illinois.edu/gies_business/accy/))ccountancy (<http://catalog.illinois.edu/undergraduate/bus/accountancy-bs/>)

**department website:** <https://giesbusiness.illinois.edu/accountancy> (<https://giesbusiness.illinois.edu/accountancy/>)

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**college website:** <https://giesbusiness.illinois.edu/>

The Gies accountancy major combines technical knowledge in accounting, assurance, taxation, and data analytics with professional competencies in critical thinking, communication, leadership, and strategic decision-making. Accountancy majors will study the principles, concepts, and methods used to record and report the transactions and activities of a business entity, as well as the tools and processes to audit and analyze accounting information. Accountancy majors will also study the role of accounting information in shaping and implementing key business strategies. Career opportunities for accountancy majors include positions in audit and assurance services, corporate accounting, taxation, consulting and advisory services, and in governmental and not-for-profit entities.

In addition to the accountancy major requirements, students in accountancy must meet the University General Education requirements and the College of Business core requirements (for more detail, see the Gies College of Business undergraduate section (p. 1163)).

for the degree of Bachelor of Science Major in Accountancy

### Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 120 hours.**

### University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

### General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

### Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

### Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
Total Hours		58

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.

Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

Minimum requirements in the major for the Bachelor of Science Degree in Accountancy are:

Code	Title	Hours
ACCY 301	Atg Measurement & Disclosure	3
ACCY 302	Decision Making for Atg	3
ACCY 303	Accounting Institutions and Regulation	3
ACCY 304	Accounting Control Systems	3
ACCY 312	Principles of Taxation	3
ACCY 405	Assurance and Attestation	3
	or ACCY 411: Auditing Stds and Practice	
Select one of the following:		3
ACCY 410	Advanced Financial Reporting	
ACCY 451	Advanced Income Tax Problems	
Total Hours		21

Accountancy courses (both required and elective) to be applied toward the 124-hour requirement for the Bachelor of Science Degree in Accountancy may not be taken on a credit/no-credit basis. In addition, a limit of 33 hours of accountancy courses (including ACCY 201 and ACCY 202) may be counted toward the 124 total hour requirement. Finally, students must select from **either** ACCY 405 **or** ACCY 415. Both courses cannot count toward the Bachelor of Science degree.

## Learning Outcomes: Accountancy, BS

*Learning Outcomes for the degree of Bachelor of Science Major in Accountancy*

1. Discipline-based competency: Students will acquire sufficient discipline-based competency to address business and accounting problems, both current and future. Such competency will include using accounting knowledge and using research tools to address accounting and business problems.
2. Written and verbal communication competency: Students will be able to effectively communicate, both verbally and in writing. This

competency will extend to communication in individual and team settings.

3. Attitude-related Professional Preparation: Students will develop an understanding for and appreciation of an accountant's professional responsibility, and will become aware of society's expectations.

## Actuarial Science, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Actuarial Science*

**program website:** Actuarial Science (<https://math.illinois.edu/academics/actuarial-science/>)

**program faculty:** Actuarial Science Faculty (<https://math.illinois.edu/research/faculty-research/actuarial-science/>)

**department website:** <https://math.illinois.edu/>

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [ASRM-advising@illinois.edu](mailto:ASRM-advising@illinois.edu)

This major is sponsored by the Department of Mathematics, and is an interdisciplinary subject involving mathematics, statistics, and financial economics. It is designed to prepare students to enter the actuarial profession, as well as to provide a background in quantitative finance and risk management.

### Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 11)

Mathematics, BSLAS (p. 274)

Mathematics & Computer Science, BSLAS (p. 272)

*for the degree of Bachelor of Science in Liberal Arts & Sciences, Major in Actuarial Science*

**Departmental distinction:** To qualify for distinction, the student must have a grade point average in ASRM courses of at least 3.25, and pass at least two examinations offered by the professional actuarial societies. To qualify for high or highest distinction, the student must have passed at least three professional exams, with highest distinction going to those whose grade point averages in mathematics are at least 3.75. Finance courses and additional professional exams may also be given consideration in close decisions.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** normally equates to 58-61 hours including 32-33 hours of actuarial courses beyond calculus.

**Twelve hours of 300- or 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours. Students will complete 40 hours of upper division coursework (these hours can be drawn from all elements of the degree).**

Code	Title	Hours
Calculus through:		11-12
MATH 220	Calculus	

or MATH Calculus I		
MATH 231	Calculus II	
MATH 241	Calculus III (or equivalent )	
Select one of the following:	3	
CS 101	Intro Computing: Engrg & Sci	
CS 105	Intro Computing: Non-Tech	
CS 125	Intro to Computer Science	
ASRM 210	Theory of Interest (formerly MATH 210)	3
ASRM 401	Actuarial Statistics I	4
ASRM 402	Actuarial Statistics II	4
ASRM 406	Linear Algebra with Financial Applications (formerly MATH 410)	3
ASRM 450	Methods of Applied Statistics	3
Select four of the following:	12-13	
ASRM 409	Stochastic Processes for Finance and Insurance	
ASRM 410	Investments and Financial Markets (formerly MATH 476)	
ASRM 451	Basics of Statistical Learning	
ASRM 461	Loss Models (formerly MATH 478)	
ASRM 469	Casualty Actuarial Mathematics (formerly MATH 479)	
ASRM 471	Life Contingencies I	
ASRM 472	Life Contingencies II (formerly MATH 472)	
Select an additional course from the above list or ASRM 499	3	
FIN 221	Corporate Finance	3
Three additional courses from:	9	
ACCY 200	Fundamentals of Accounting	
ECON 302	Inter Microeconomic Theory	
ECON 303	Inter Macroeconomic Theory	
FIN 230	Introduction to Insurance	
FIN 300	Financial Markets	
FIN 321	Advanced Corporate Finance	
FIN 431	Property-Liability Insurance	
FIN 432	Managing Fin Risk for Insurers	
FIN 434	Employee Benefit Plans	
<b>Total Hours minimum</b>	<b>58</b>	

## Learning Outcomes: Actuarial Science, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Actuarial Science

### Student Learning Outcomes

1. Have sufficient exposure to actuarial and financial mathematics to be familiar with at least 80% of the material on five of preliminary Society of Actuaries credentialing exams.
2. Be familiar with the role of insurance in society, basic economic theory, and the basics of how insurance and financial markets operate.
3. Have familiarity with several of the technical tools, computer languages or software packages used by actuaries.

4. Develop communication, leadership and teamwork skills, and understand their importance in the actuarial industry.
5. Be able to apply this knowledge and these skills in new combinations and to new problems.

## Advertising, BS

*for the degree of Bachelor of Science Major in Advertising*

**department website:** <https://media.illinois.edu/advertising> (<https://media.illinois.edu/advertising/>)

**department faculty:** <https://media.illinois.edu/advertising/faculty> (<https://media.illinois.edu/advertising/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

ADVERTISING (ADV), offers students the opportunity to learn and think about advertising as a way of modeling the mind, as a material reflection of social structure, as a fundamentally modern phenomenon, as an art form and even as a basis for community, by drawing on insights from psychology, sociology, history, literature, and anthropology. This program will thoroughly infuse the understanding of consumer behavior and message knowledge base and, therefore, provide a long-lasting education for students.

### Programs in Advertising

#### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minor:** Public Relations (p. 493)

#### Graduate Programs:

**degree:** Advertising, MS (p. 522)

**degree:** Strategic Brand Communication, MS (p. 1005)

*for the degree of Bachelor of Science Major in Advertising*

To graduate from the advertising curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade:

Code	Title	Hours
<b>Required Major Courses</b>		<b>24</b>
ADV 150	Introduction to Advertising	3
ADV 281	Advertising Research Methods	3
ADV 283	Advertising and Brand Strategy	3
ADV 284	Consumer Insight	3
ADV 390	Content Creation	3
ADV 460	Innovation in Advertising	3
ADV 483	Audience Analysis	3
ADV 498	The Sandage Project	3
<b>College of Media Electives <sup>1</sup></b>		<b>20-28</b>
<b>Hours outside the College of Media (72 hours minimum)</b>		<b>72</b>

**Other Required Supporting Coursework:**

BADM 320	Principles of Marketing <sup>2</sup>	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
STAT 100	Statistics <sup>3</sup>	3
Select two of the following:		7-8
ANTH 103	Anthro in a Changing World	3
PSYC 100	Intro Psych	4
SOC 100	Introduction to Sociology	4

**Advanced Hours Requirement**

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. At least 9 of the 20 hours must be in courses numbered 300 or above.

Please note: Courses used to fulfill University General Education requirements or to fulfill requirements for a minor may count toward these requirements. Courses used to fulfill the College of Media's advanced outside hours requirement may also count toward these requirements.

**124 total hours are required for graduation**

<sup>1</sup> College Electives must include at least six credits of Advertising elective courses numbered 300 or above for students admitted to the major starting in Fall 2016. Students admitted to the major prior to Fall 2016 are also strongly encouraged to fulfill six credits of Advertising elective courses numbered 300 or above. College of Media elective courses offered by or cross-listed with Journalism (JOUR), Media and Cinema Studies (MACS), or the College of Media (MDIA) count toward the remainder.

<sup>2</sup> Which may be credited toward the College requirement of advanced hours outside the College.

<sup>3</sup> Or another approved basic course or course sequence in statistical methods, which currently includes ECON 202, EPSY 280, PSYC 235, SOC 280, SOCW 225. Such courses may, if they qualify, also be credited toward the requirement of advanced ours and General Education courses outside the College.

## Learning Outcomes: Advertising, BS

Learning outcomes for the degree of Bachelor of Science Major in Advertising

1. Intellectual reasoning and knowledge
2. Creative inquiry and discovery
3. Effective collaboration and communication
4. Effective leadership and community engagement
5. Social, cultural and global understanding
6. Passion for learning

## Aerospace Engineering, BS

for the degree of Bachelor of Science in Aerospace Engineering

**department website:** <https://ae.illinois.edu/>  
**department faculty:** Aerospace Engineering Faculty (<https://ae.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

The Aerospace Engineering curriculum provides a strong fundamental background in engineering, mathematics, and science, along with the ability to apply this fundamental knowledge to the analysis and design of future aircraft and spacecraft. It also prepares students for lifelong learning and the attainment of their career goals in the field of aerospace engineering and in a wide range of other areas. The concepts of system design are introduced early in the curriculum and culminate in the yearlong senior capstone design experience (AE 442, AE 443), in which students work in teams to respond to a design challenge from industry, government, or a professional engineering society. A total of 18 hours of technical and free electives allows the student to pursue an individualized program of study.

for the degree of Bachelor of Science in Aerospace Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

Code	Title	Hours
AE 100	Intro to Aerospace Engineering	2

## Technical Electives

**Code Title Hours**

Selected from the departmentally approved list of Technical Electives, satisfying these distribution requirements:

**Chosen from AE Technical Electives listed below 6**

AE 199	Undergraduate Open Seminar	0 to 5
AE 402	Orbital Mechanics	3 or 4
AE 403	Spacecraft Attitude Control	3 or 4
AE 410	Computational Aerodynamics	3 or 4
AE 412	Viscous Flow & Heat Transfer	4
AE 416	Applied Aerodynamics	3 or 4
AE 419	Aircraft Flight Mechanics	3 or 4
AE 420	Finite Element Analysis	3 or 4
AE 427	Mechanics of Polymers	3
AE 428	Mechanics of Composites	3
AE 434	Rocket Propulsion	3 or 4
AE 435	Electric Propulsion	3 or 4
AE 451	Aeroelasticity	3 or 4
AE 454	Systems Dynamics & Control	3 or 4
AE 456	Global Nav Satellite Systems	4
AE 468	Optical Remote Sensing	3
AE 482	Introduction to Robotics	4
AE 497	Independent Study	1 to 4
AE 498	Special Topics	1 to 4
ENG 491	Interdisciplinary Design Proj (CU1 & CU2)	1 to 4

**Chosen from AE Technical Electives or Non-AE Technical Electives 6**

ASTR 404	Stellar Astrophysics	3
ASTR 405	Planetary Systems	3
ASTR 406	Galaxies and the Universe	3
ASTR 414	Astronomical Techniques	4
ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ATMS 304	Radiative Transfer-Remote Sens	3

ME 320	Heat Transfer	4
ME 360	Signal Processing	3.5
ME 370	Mechanical Design I	3
ME 400	Energy Conversion Systems	3 or 4
ME 401	Refrigeration and Cryogenics	3 or 4
ME 498	Special Topics	0 to 4
MSE 450	Polymer Science & Engineering	3 or 4
MSE 453	Plastics Engineering	3
MSE 457	Polymer Chemistry	3 or 4
NPRE 201	Energy Systems	2 or 3
NPRE 402	Nuclear Power Engineering	3 or 4
NPRE 470	Fuel Cells & Hydrogen Sources	3
NPRE 475	Wind Power Systems	3 or 4
NPRE 498	Special Topics (Energy Storage and Conveyance)	1 to 4
PHYS 325	Classical Mechanics I	3
PHYS 326	Classical Mechanics II	3

## Electives

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>4</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>5</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> AE 442 and AE 443 satisfy the General Education Advanced Composition requirement.

<sup>4</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>5</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Aerospace Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/aerospace-map/>).

### First Year

First Semester	Hours	
AE 100	Intro to Aerospace Engineering	2
ENG 100	Engineering Orientation	0
MATH 221	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
AE 140	Aerospace Computer-Aided Design	2
RHET 105	Writing and Research	4-3
(or General education elective) <sup>2,3</sup>		
Semester Hours		16-15

### Second Semester

MATH 231	Calculus II	3
MATH 225	Introductory Matrix Theory	2
PHYS 211	University Physics: Mechanics	4
CS 101	Intro Computing: Engrg Sci	3
General education elective (or RHET 105) <sup>2,3</sup>		3-4
Semester Hours		15-16

### Second Year

#### First Semester

MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
TAM 210	Introduction to Statics	2
MSE 280	Engineering Materials	3
General education elective <sup>2</sup>		3
Semester Hours		16

#### Second Semester

MATH 285	Intro Differential Equations	3
ME 200	Thermodynamics	3
AE 202	Aerospace Flight Mechanics	3
TAM 212	Introductory Dynamics	3
General education elective <sup>2</sup>		6
Semester Hours		18

### Third Year

#### First Semester

AE 311	Incompressible Flow	3
AE 321	Mechs of Aerospace Structures	3
AE 352	Aerospace Dynamical Systems	3
ECE 205	Electrical and Electronic Circuits	3
General education elective <sup>2</sup>		3
Semester Hours		15

<b>Second Semester</b>		
AE 312	Compressible Flow	3
AE 323	Applied Aerospace Structures	3
AE 353	Aerospace Control Systems	3
AE 370	Aerospace Numerical Methods	3
General education elective <sup>2</sup>		3
Semester Hours		15
<b>Fourth Year</b>		
<b>First Semester</b>		
AE 442 <sup>4</sup>	Aerospace Systems Design I	3
AE 433	Aerospace Propulsion	3
AE 460	Aerodynamics Propulsion Lab	2
AE 483	Autonomous Systems Lab	2
Technical Elective <sup>5</sup>		3
Free Elective		3
Semester Hours		16
<b>Second Semester</b>		
AE 443 <sup>4</sup>	Aerospace Systems Design II	3
AE 461	Structures Control Lab	2
Technical Electives <sup>5</sup>		9
Free Elective		3
Semester Hours		17
Total Hours:		128

<sup>1</sup> MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) may be substituted with four of the five credit hours applying toward the degree. MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) is appropriate for students with no background in calculus.

<sup>2</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s), (ii) one non-western, and (iii) one U.S. minority culture(s) course from the General Education cultural studies lists. Most students select liberal education courses that simultaneously satisfy the Humanities and the Arts and cultural studies course requirements.

<sup>3</sup> RHET 105 (<http://catalog.illinois.edu/search/?P=RHET%20105>) (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if UIN is odd). General education elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

<sup>4</sup> Sequence satisfies the General Education Advanced Composition requirement.

<sup>5</sup> Technical elective credits totaling twelve hours, selected from a departmentally approved list of Technical Electives (<https://aerospace.illinois.edu/academics/undergraduate/undergraduate-tech-electives/>), satisfying these distribution requirements: (i) six hours of AE Technical Electives; (ii) six hours of AE Technical Electives or Non-AE Technical Electives.

## Learning Outcomes: Aerospace Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Aerospace Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Aerospace Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## African American Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies

**department website:** <https://afro.illinois.edu/>

**department faculty:** African American Studies Faculty (<https://afro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [cmjenki@illinois.edu](mailto:cmjenki@illinois.edu)

African American Studies is a field that systematically explores the life and culture of African American peoples and their African Diaspora relationships, patterns, and ties. Those who major in African American Studies will learn about the historical, political, ideological, legal, social, artistic, and economic issues affecting African Americans. They will learn about the dignity-affirming struggles of African American people to have their humanity acknowledged, valued, and understood.

The major in African American Studies (AAS) is to provide students with a transdisciplinary perspective on the origin, role and policy implications of race in the United States and world political economy, society and culture, over time. AAS students will learn diverse concepts, theories and methodologies for analyzing the experiences and perspectives and the cultural and intellectual production of African Americans and African descended people, largely though not exclusively in the United States. An

African American studies major will be encouraged to achieve excellence in developing vital creative and critical competencies, including oral and written communication, computer and statistical skills. Students majoring in AAS will also be encouraged to join a new generation of leadership grounded in African American studies knowledge and committed to public engagement to meet the continuing challenges of a diverse democratic society; and to foster national discourse to produce public policy aimed at achieving social justice.

This program is designed to serve undergraduate students primarily interested in the social sciences and humanities, though all students are welcome and encouraged to enroll in the program. This program prepares students for graduate study and research in traditional disciplines and interdisciplinary fields and for careers in the private or public sectors such as teaching, social work, human resources, criminal justice, management and administration, city planning, marketing, policy-making, medicine and law.

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies*

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

#### Departmental distinction:

To graduate with distinction, students must complete the following:

1. 3.3 overall G.P.A
2. 3.6 program G.P.A
3. Complete AFRO 495 Senior Thesis Seminar with a grade of 3.3 or better

1.

Code	Title	Hours
<b>I. Core course requirements</b>		
AFRO 100	Intro to African American St	3
AFRO 220	Intro to Research Methods AfAm	3
AFRO 490	Theory in African American St	3
AFRO 495	Senior Thesis Seminar	3
<b>II. Theory and Methods Requirement</b>		
At least one theory and one methods course beyond the core. The courses must be selected from a list maintained in the Department's advising office.		6
<b>III. Thematic Areas</b>		
Students must take at least one course each from the following five areas. At least 6 of the remaining hours must be taken from only one of any of the five areas. A list of courses is maintained in the Department's advising office.		21
A. Comparative Race, Racialized Communities and Identities		
B. Cultural Production and Cultural Movements		
C. Political Economy, Public Policy and Contemporary Issues		
D. Global Interconnections: Black Transnationalism and the African Diaspora		
E. Black Women, Gender and Sexuality Studies		

#### IV. Cognate or Supporting Coursework

Students must complete 9 hours of supporting coursework. Supporting coursework consists of a set of courses which are logically grouped, and which reflect or support a student's interests outside of the African American Studies major. Supporting coursework courses must be approved by the Department's undergraduate advisor.

**Total Hours** 48

## Learning Outcomes: African American Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies

Upon completion of the major in African American Studies, students will be able to:

- **DESCRIBE** the main stages in the historical development of the African American experience that reflects both continuity and change, and the different component parts of the human experience.
- **ASSESS** the historical development of peoples of African descent in broad global context, emphasizing historical, contemporary, and future implications.
- **ANALYZE** the experiences of Black people using the perspectives, data, and interpretations from two or more disciplinary fields (e.g., historical studies, cultural studies, social studies).
- **EVALUATE** successes and failures as people have used their values to initiate efforts to achieve social justice for African Americans and people of diverse social backgrounds.
- **DESIGN** a strategies and tactics that provide a solution to a major civic or social challenge facing Black communities in various parts of the world, illustrating how "Academic Excellence and Social Responsibility" in Black Studies have contributed to this process.

## Agricultural & Biological Engineering, BS

*for the degree of Bachelor of Science in Agricultural & Biological Engineering*

**department website:** <https://abe.illinois.edu/undergraduate/>  
**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)  
**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>  
**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

Students pursuing this major select one of two concentrations:

- Agricultural Engineering Concentration (p. 19)
- Biological Engineering Concentration (p. 23)

## Agricultural & Biological Engineering, BS and Agricultural & Biological Engineering, BSAG

for the dual degree of Bachelor of Science in Agricultural & Biological Engineering and the Bachelor of Science in Agriculture in Agricultural & Biological Engineering

**department website:** <https://abe.illinois.edu/undergraduate/>  
**department faculty:** <https://abe.illinois.edu/directory/faculty/>  
(<https://abe.illinois.edu/directory/faculty/>)

**College websites:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>) & The Grainger College of Engineering (<https://grainger.illinois.edu/>)

### Dual Degree – Five Year Academic Program

Students who successfully complete this five-year academic program receive the Bachelor of Science with a major in Agricultural and Biological Engineering from The Grainger College of Engineering as well as the Bachelor of Science in Agriculture with a major in Agricultural and Biological Engineering from the College of ACES.

Students enroll in the College of ACES and then transfer to The Grainger College of Engineering after two years. Students then complete the ABET-accredited degree program in Agricultural and Biological Engineering in The Grainger College of Engineering while taking additional coursework in ACES to complete the requirements for the Bachelor of Science in Agriculture in Agricultural and Biological Engineering degree program in ACES. The suggested program of study that follows fulfills the additional graduation requirements for the second degree, which requires completion of the Grainger College of Engineering degree.

Agricultural and biological engineering is the application of mathematics, physical and biological science, and engineering to agriculture, food systems, energy, natural resources, the environment, and related biological systems. This program has special emphasis on environmental protection and the biological interface of plants, animals, soils, and microorganisms with the design and performance of environments, machines, mechanisms, processes, and structures. Graduates are employed by industry, consulting firms, and government for research, education, and manufacturing.

for the degree of Bachelor of Science in Agricultural & Biological Engineering

**department website:** <https://abe.illinois.edu/undergraduate/>  
**department faculty:** Agricultural & Biological Engineering Faculty  
(<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>  
**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

Students pursuing this major select one of two concentrations:

- Agricultural Engineering Concentration (p. 19)
- Biological Engineering Concentration (p. 23)

for the dual degree of Bachelor of Science in Agricultural & Biological Engineering and the Bachelor of Science in Agriculture in Agricultural & Biological Engineering

While completing the Agricultural & Biological Engineering, B.S. the student takes additional classes in ACES for the BSAG degree. The student is in ACES in years 1 and 2, transferring to The Grainger College of Engineering for years 3 through 5. The curriculum for the additional classes to complete the BSAG degree is as follows:

### Agricultural & Biological Engineering, BSAG Requirements in addition to completion of Agricultural & Biological Engineering, B.S.

Code	Title	Hours
<b>Communication</b>		<b>3</b>

### Agricultural Engineering Concentration

Students pursuing B.S. Degree in Agricultural and Biological Engineering choose from one of two concentrations, one of which is the concentration in *Agricultural Engineering*. This concentration includes the integration of physical and biological sciences as a foundation for engineering applications in agriculture, food systems, energy, natural resources, the environment, and related biological systems. Students pursuing this concentration are involved in the design of systems for renewable energy, off-road equipment, water quality, and the utilization and protection of soil and water resources. Important design constraints are economics, conservation of materials and energy, safety, and environmental quality. Within this concentration, students are strongly encouraged to select a set of coherent courses that constitutes a specialization in their area of career interest either from the following list or a customized area chosen in consultation with an advisor:

- Bioenvironmental Engineering
- Renewable Energy Systems
- Off-Road Equipment Engineering
- Soil and Water Resources Engineering

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Agricultural Engineering Concentration

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103 or ACE 100). Specific Advanced Composition course required for this degree is listed below.**

### Orientation and Professional Development

Code	Title	Hours
ABE 100	Intro Agric & Biological Engrg <sup>1</sup>	1

## Agricultural & Biological Engineering: Biological Engineering, BS

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration

**department website:** <https://abe.illinois.edu/undergraduate/>  
**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)  
**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>  
**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

Agricultural and biological engineering is the application of mathematics, physical and biological science, and engineering to agriculture, food systems, energy, natural resources, the environment, and related biological systems. This ABET-accredited program has special emphasis on environmental protection and the biological interface of plants, animals, soils, and microorganisms with the design and performance of environments, machines, mechanisms, processes, and structures.

The Department of Agricultural and Biological Engineering offers programs through the College of ACES and The Grainger College of Engineering.

Students pursuing the B.S. Degree in Agricultural and Biological Engineering choose from one of two concentrations, one of which is the concentration in *Biological Engineering*. This concentration integrates biology and engineering to provide solutions to problems related to living systems (plants, animals, and microorganisms). Engineered biological systems vary widely in scale. At the molecular level, nanometer-scale devices consist of a few biomolecules inside individual cells. At the other extreme, regionally-scaled complex ecosystems depend upon multiple species of interacting living organisms. Such systems are becoming increasingly important in areas such as bioenergy, bioprocessing, nanotechnology, biosensing, bio-informatics, and bioenvironment. Within this concentration, students are strongly encouraged to select a set of coherent courses that constitutes a specialization in their area of career interest either from the following list or a customized area chosen in consultation with an advisor:

- Bioenvironmental Engineering
- Ecological Engineering
- Food and Bioprocess Engineering
- Nanoscale Biological Engineering

*for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration*

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103 or ACE 100). Specific Advanced Composition course required for this degree is listed below.**

### Orientation and Professional Development

Code	Title	Hours
ABE 100	Intro Agric & Biological Engrg <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Orientation Hours:		1

## Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
MATH 221	Calculus I <sup>2</sup>	4
MATH 225	Introductory Matrix Theory	2
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
Total Foundational Mathematics and Science Hours:		34

## Agricultural and Biological Engineering Technical Core

Code	Title	Hours
<b>For Both Concentrations:</b>		
ABE 141	ABE Principles: Biological	2
ABE 223	ABE Principles: Machine Syst	2
ABE 224	ABE Principles: Soil & Water	2
ABE 225	ABE Principles: Bioenvironment	2
ABE 226	ABE Principles: Bioprocessing	2
ABE 430	Project Management	2
ABE 469	Industry-Linked Design Project <sup>3</sup>	4
CS 101	Intro Computing: Engrg & Sci	3
ECE 205	Electrical and Electronic Circuits	3
SE 101	Engineering Graphics & Design	3
TAM 210	Introduction to Statics <sup>4</sup>	2
	or TAM 211 Statics	
TAM 212	Introductory Dynamics	3
Total Agricultural and Biological Engineering Technical Core Hours:		30
Total Hours		60

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>		6
Total Hours of Curriculum to Graduate		128

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> ABE 469 satisfies the general education advanced composition requirement.

<sup>4</sup> The extra hour of credit for this course may be used to help meet free elective requirements.

<sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>).

<sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

*for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration*

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/abe-bio-engr-map/>).

### Suggested Sequence

#### First Year

##### First Semester

	Hours
ABE 100 Intro Agric Biological Engrg	1
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research or SE 101 <sup>2</sup>	4-3
General education elective <sup>3,4</sup>	3
Semester Hours	16-15

##### Second Semester

ABE 141 ABE Principles: Biological	2
MATH 231 Calculus II	3
CHEM 104 General Chemistry II	3
CHEM 105 General Chemistry Lab II	1
PHYS 211 University Physics: Mechanics	4
SE 101 Engineering Graphics Design or RHET 105 <sup>2</sup>	3-4
Semester Hours	16-17

#### Second Year

##### First Semester

ABE 223 ABE Principles: Machine Syst	2
ABE 224 ABE Principles: Soil Water	2
CS 101 Intro Computing: Engrg Sci	3
MATH 241 Calculus III	4
PHYS 212 University Physics: Elec Mag	4
TAM 210 Introduction to Statics or 211 <sup>5</sup>	2-3
Semester Hours	17-18

##### Second Semester

ABE 225 ABE Principles: Bioenvironment	2
ABE 226 ABE Principles: Bioprocessing	2
MATH 225 Introductory Matrix Theory	2
MATH 285 Intro Differential Equations	3
CHEM 232 <sup>6</sup> Elementary Organic Chemistry I	3-4
PHYS 213 Univ Physics: Thermal Physics	2
TAM 212 Introductory Dynamics	3
Semester Hours	17-18

#### Third Year

##### First Semester

ABE 341 Transport Processes in ABE	3
ECE 205 Electrical and Electronic Circuits	3

MCB 150 Molec Cellular Basis of Life	4
Agricultural and biological engineering technical elective <sup>7</sup>	3
General education elective <sup>3,4</sup>	3
Semester Hours	16

##### Second Semester

ECON 103, Macroeconomic Principles 102, or ACE 100 <sup>3</sup>	3
CHBE 321 Thermodynamics	4
Agricultural and biological engineering technical elective <sup>7</sup>	3
Biological and natural sciences elective <sup>8</sup>	3
General education elective <sup>3,4</sup>	3
Semester Hours	16

#### Fourth Year

##### First Semester

ABE 430 Project Management	2
Agricultural and biological engineering technical elective <sup>7</sup>	3
Other technical elective <sup>7</sup>	3
General education elective <sup>3,4</sup>	3
Free elective	3
Semester Hours	14

##### Second Semester

ABE 469 <sup>4</sup> Industry-Linked Design Project	4
Biological and natural sciences elective <sup>8</sup>	3
Other technical elective <sup>7</sup>	3
General education elective <sup>3,4</sup>	3
Free elective	3-1
Semester Hours	16-14
Total Hours:	128

<sup>1</sup> MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 103 (or ECON 102 or ACE 100 by permission) must be one of the social & behavioral sciences courses, recommended to be taken early. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> ABE 469 satisfies the General Education Advanced Composition requirement.

<sup>5</sup> The extra hour of credit for this course may be used to help meet free elective requirements.

<sup>6</sup> May be taken for 4 credit hours; the extra hour may be used to help meet free elective requirements.

<sup>7</sup> Students must complete 15 hours of Technical Electives (<https://abe.illinois.edu/undergraduate/technical-electives/>) chosen in consultation with an advisor. At least 8 hours must be Agricultural and Biological Engineering Technical Electives. Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.

<sup>8</sup> Students must complete 6 hours from the approved list of Biological and Natural Sciences Electives (<https://abe.illinois.edu/undergraduate/biological-natural-sciences-electives/>). Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.

## Learning Outcomes: Agricultural & Biological Engineering, BS

Learning outcomes for the degree of Bachelor of Science Major in Agricultural & Biological Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Agricultural & Biological Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Agricultural & Consumer Economics, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics

**department website:** <https://ace.illinois.edu/>  
**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of nine concentrations:

- Agri-Accounting (p. 28)
- Agribusiness Markets and Management (p. 29)
- Consumer Economics & Finance (p. 30)
- Environmental Economics & Policy (p. 31)
- Farm Management (p. 32)
- Finance in Agribusiness (p. 33)
- Financial Planning (p. 34)
- Policy, International Trade & Development (p. 35)
- Public Policy & Law (p. 36)

## Agricultural & Consumer Economics: Agri-Accounting, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Agri-Accounting concentration

**department website:** <https://ace.illinois.edu/>  
**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Agri-Accounting complete a comprehensive program that enables them to apply accounting principles in production, processing, or retailing sectors in agribusiness industries. Graduates find professional opportunities as consultants and managerial accountants.

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Agri-Accounting concentration

## Agricultural & Consumer Economics: Consumer Economics & Finance, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Consumer Economics & Finance Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Consumer Economics and Finance develop knowledge and skills to help consumers with everyday problems. Coursework in consumer economics, personal finance, and economics gives students a broad-based background and an understanding of the role of consumers in the marketplace. Students can choose an emphasis in consumer economics, family economics, or financial planning and counseling, which leads to career opportunities with government and public agencies, marketing and sales firms, and financial institutions.

## Agricultural & Consumer Economics: Farm Management, BS

*for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Farm Management Concentration***department website:** <https://ace.illinois.edu/>**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)**college website:** <https://aces.illinois.edu/>

Students in Farm Management study the principles of economics, finance, risk and the decision-making process - all central to the successful management of a farm enterprise. Students develop skills to combine and manage land, labor, and capital resources for a competitive return. Also, students may learn how to appraise farmland and other assets. Farm (and other asset) appraisal is a growing part of professional farm management and can be pursued as a profession in itself.

## Agricultural & Consumer Economics: Policy, International Trade & Development, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Policy, International Trade, & Development Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Policy, International Trade, and Development enjoy a broad exposure to policy, international trade, and agricultural development from an economics perspective. The concentration provides a global and societal perspective ideally suited for exploring studies in administration, government, policy analysis, social processes, and international economics. Graduates are prepared for positions in firms with international business; in federal or state government agencies dealing with policy, trade, or development; in trade organizations; and in public interest groups.

ACE 455 International Trade in Food and Agriculture

**Required Concentration** 15-27

Concentration prescribed courses. See specific requirements for the concentration listed below.

**Total Hours** 126

<sup>1</sup> Requirement must be satisfied by end of first year.

<sup>2</sup> Students are encouraged to complete this requirement prior to the seventh semester.

Code	Title	Hours
<b>Required for the Policy, International Trade and Development Concentration in Addition to Department Requirements</b>		
ACE 251	The World Food Economy	3
ACE 455	International Trade in Food and Agriculture	3
ACE 456	Agr and Food Policies	3
Select two of the following:		6
ACE 410	Energy Economics	
ACE 411	Environment and Development	
ACE 451	Agriculture in Intl Dev	
ACE 454	Econ Dev of Tropical Africa	
ECON 452	The Latin American Economies	
<b>Total Hours</b>		<b>15</b>

## Agricultural & Consumer Economics: Public Policy & Law, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Public Policy & Law Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Public Policy and Law become expert in the economics of public policy in general and in its application to specific areas of interest. This concentration will expose students to the legal and institutional structures in which policies are developed, the analysis of the economics impacts of policies, and special circumstances of public policy and law pertaining to the environment, consumers, the agricultural sector, international relations, and other.

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Public Policy & Law Concentration

### Prescribed Core Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech <sup>1</sup></b>		
RHET 105	Writing and Research	7
& CMN 101	and Public Speaking (or equivalent (see College Composition I requirement))	
<b>Advanced Composition <sup>2</sup></b>		
Select from campus-approved list		3-4
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		

Select one of:	7-8
MATH 124 Finite Mathematics	
MATH 125 Elementary Linear Algebra	
MATH 231 Calculus II	
Select one of:	
MATH 220 Calculus	
MATH 221 Calculus I	
MATH 234 Calculus for Business I	
<b>Quantitative Reasoning II</b>	<b>6</b>
ACE 262 Applied Statistical Methods and Data Analytics I	
ACE 264 Applied Statistical Methods & Data Analytics 2	
<b>Humanities and the Arts</b>	
Selected from campus approved list.	6
<b>Natural Sciences and Technology</b>	
Selected from campus approved list.	6
<b>Social and Behavioral Sciences</b>	
Selected from campus approved list.	6
<b>Cultural Studies</b>	
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.	9
<b>ACES Prescribed</b>	
ACES 101 Contemporary Issues in ACES (for freshmen only)	2
<b>Department Requirements</b>	
Minimum Hours in the College of ACES of which 20 must be in the Department of ACE	35
Minimum of two 400-level courses in ACE	6
ACE 100 Introduction to Applied Microeconomics <sup>1</sup>	4
ACE 161 Microcomputer Applications or CS 105 Intro Computing: Non-Tech	3
ACE 300 Intermediate Applied Microeconomics <sup>2</sup>	3
ACE 341 Issues&Careers in Applied Econ	1 or 2
ACCY 201 Accounting and Accountancy I	3
ECON 103 Macroeconomic Principles	3
At least 3 hours of credit for study abroad or one international course selected from:	3-4
ACE 435 Global Agribusiness Management	
ACE 436 International Business Immersion	
ACE 451 Agriculture in Intl Dev	
ACE 452 The Latin American Economies	
ACE 454 Econ Dev of Tropical Africa	
ACE 455 International Trade in Food and Agriculture	
<b>Required Concentration</b>	<b>15-27</b>
Concentration prescribed courses. See specific requirements for the concentration listed below.	
<b>Total Hours</b>	<b>126</b>

<sup>1</sup> Requirement must be satisfied by end of first year.

<sup>2</sup> Students are encouraged to complete this requirement prior to the seventh semester.

Code	Title	Hours
<b>Required for the Public Policy and Law Concentration in Addition to Department Requirements</b>		
PS 220	Intro to Public Policy	3
ECON 411	Public Sector Economics	3
Select one of the following:		3
ACE 210	Environmental Economics	
ACE 251	The World Food Economy	
ACE 255	Economics of Food and Environmental Justice	
ACE 270	Consumer Economics	
Select one of the following:		3
ACE 306	Food Law	
ACE 403	Agricultural Law	
ACE 406	Environmental Law	
ECON 484	Law and Economics	
Select three of the following: (excluding courses taken to meet above "choose one" requirement)		9
ACE 306	Food Law	
ACE 310	Natural Resource Economics	
ACE 403	Agricultural Law	
ACE 406	Environmental Law	
ACE 410	Energy Economics	
ACE 411	Environment and Development	
ACE 451	Agriculture in Intl Dev	
ACE 454	Econ Dev of Tropical Africa	
ACE 455	International Trade in Food and Agriculture	
ACE 456	Agr and Food Policies	
ACE 471	Consumer Economic Policy	
ACE 474	Economics of Consumption	
ACE 476	Behavioral Economics and Financial Decision Making	
<b>Total Hours</b>		<b>21</b>

## Learning Outcomes: Agricultural & Consumer Economics, BS

*Learning Outcomes for the degree of Bachelor of Science Major in Agricultural & Consumer Economics*

1. ACE students will acquire broad and deep knowledge of Agricultural and Consumer Economics.
2. ACE students will develop a critical and reflective orientation toward global systems (such as natural, environmental, social, cultural, economic, and political) and cultural differences (such as race, indigeneity, gender, class, sexuality, language, and disability).
3. ACE students will develop critical thinking and problem solving skills.
4. ACE students will develop their ability to communicate in a variety of settings.
5. ACE students will build and sustain productive relationships to be effective leaders who can respond to civic and social challenges at local, national, and global levels, creating positive change in their communities.

## Agricultural Leadership, Education, & Communications, BS

for the degree of Bachelor of Science Major in Agricultural Leadership, Education, & Communications

**department website:** <https://aged.illinois.edu/>  
**department faculty:** <https://aged.illinois.edu/directory> (<https://aged.illinois.edu/directory/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/> (<https://engineering.illinois.edu/>)

Students pursuing the Agricultural Leadership, Education, & Communications, BS (p. 38) select from four concentrations:

- Agricultural Communications - Advertising (p. 38)
- Agricultural Communications - Journalism (p. 40)
- Agricultural Education (p. 42)
- Organizational & Community Leadership (p. 44)

The Bachelor of Science with a Major in Agricultural Leadership, Education, & Communications

## Agricultural Leadership, Education, & Communications: Agricultural Communications - Advertising, BS

for the degree of Bachelor of Science Major in Agricultural Leadership, Education, & Communications, Agricultural Communications - Advertising

**department website:** <https://agcomm.illinois.edu/>  
**department faculty:** <https://agcomm.illinois.edu/faculty-staff> (<https://agcomm.illinois.edu/faculty-staff/>)

## Learning Outcomes: Agricultural Leadership, Education, & Communications, BS

Learning Outcomes for the degree of Bachelor of Science Major in Agricultural Leadership, Education, & Communications

### Communications

The faculty identified three major categories of student learning outcomes that entail awareness, understanding, and application of the following: (A) food and environmental systems, (B) the role, nature, and context of agricultural journalism and communications, and (C) practices and skills in agricultural journalism and communications.

A1: Awareness, understanding, and application of knowledge about food and environmental systems (achieved through courses required in the mandatory Food and Environmental Systems minor)

1. Contemporary issues in the human, food, and natural resource systems
2. Introduction to the fundamentals of modern crop, livestock and other agricultural production systems, including future challenges and opportunities for addressing world food needs
3. Critical systems thinking and collaborative analysis across multiple disciplines involved in the food, feed, fiber, renewable energy, and rural complex
4. Evolution of the food system and overview of food in relation to nutrition, health, safety, processing, regulations, and other dimensions
5. Introduction to the environmental sciences and current environmental issues in relation to population growth, world food supplies, agriculture, water use, conservation, climate change, and other aspects
6. Relationships between humans and the natural systems that contain our air, water, energy, and biotic and food sources.

B1: Awareness, understanding, and application of knowledge about the role, nature, and context of agricultural journalism and communications (achieved through Agricultural Communications courses)

1. Scope, scale, mission/role, and impacts of communications within agriculture, including the rural-urban dimensions of it, locally to internationally
2. History and development of agricultural information systems and services in the U.S. and beyond
3. Current agricultural communications systems and services in the U.S., including those involving new and emerging media
4. Availability and sources of agricultural communications research, including current types of research issues being addressed in various sectors of this field
5. Concept of information flow and knowledge management for decision making that involves agriculture, broadly defined
6. Audiences/publics for agricultural journalism and communications within the food complex and beyond
7. Theories and conceptual foundations for agricultural journalism and communications
8. Trends, forces for change, and opportunities in agricultural journalism and communications, including fronts for innovation
9. Contemporary issues in agricultural journalism and communications in the U.S. and beyond
10. International and intercultural dimensions of communications in agricultural/rural development and sustainability, including elements of intercultural sensitivity
11. Legal and ethical issues in agricultural journalism and communications
12. Role of the agricultural communicator, including emphasis on the concepts of joint problem solving and the honest broker perspective. Also, current and emerging fields of professional activity in agricultural communications, broadly defined.

B2: Awareness, understanding, and application of knowledge about the role, nature, and context of agricultural journalism and communications (achieved through College of Media courses)

1. Conceptual frameworks for creating multimedia journalism content
2. Theories of freedom of expression, the legal doctrines of greatest concern to mass communicators, and contemporary issues related to free speech and press, including libel, copyright, and news gathering in the digital age
3. Introduction to the profession of advertising
4. How advertising and journalism relate to society in cultural, social, ethical, and regulatory contexts
5. Theories of persuasion, advertising, and marketing

C1: Awareness, understanding, and application of practices and skills in agricultural journalism and communications (achieved through Agricultural Communications courses)

1. Writing and editing in varied settings and for varied purposes, including science writing related to the dimensions of agriculture
2. Coverage and reporting of news, features, and research related to agriculture in print, broadcast, and online media, including risk and crisis communications
3. Communication materials related to agriculture—planning and management, editing, design, layout, production, distribution, and evaluation in print and electronic formats

4. Media analysis and selection in settings related to agriculture, encompassing all means by which humans interact and including all channels and media, earliest to newest
5. Communications planning and management in non-commercial settings (such as Extension and social marketing) related to agriculture
6. Marketing communications related to agriculture— settings, roles, principles, and skills in advertising, promotion, public relations, and sales
7. Visual communications (photography, graphic design, videography) related to agriculture —skills in planning, selection, composition, digital editing, and design
8. Production and presentation of programming in agriculture-related radio and television broadcasting, and other audio/video channels
9. Use of current information and communications technologies (ICT) and software being employed in relation to the varied dimensions of agriculture

C2: Awareness, understanding, and application of practices and skills in agricultural journalism and communications (achieved through College of Media courses)

1. Introductory journalism reporting and writing across print, broadcast, and digital platforms
2. Fundamentals of digital photography, video, audio, and multimedia production as applied in journalism.
3. Introductory practices in advertising and integrated promotion— account planning, creatives, audience analysis, consumer behavior, sales promotion, media research, and interactive advertising
4. Research methods in advertising, including qualitative and quantitative techniques commonly used in the advertising industry
5. Insights about consumer knowledge, interests, attitudes, and decision making
6. Developing and applying brand strategies using theories of advertising and marketing, as well as techniques for persuasive presentation

#### **Leadership & Education**

1. Communicate in-depth understanding of agricultural systems to provide meaningful educational experiences for learners ranging from PreK through adult.
2. Assess the human capital needs of a group, organization, or community and engage with stakeholders to formulate a solution to an identified need.
3. Apply theories of leadership and learning to plan and deliver positive educational experiences in diverse instructional settings.
4. Demonstrate principles of transformative leadership in the context of a diverse group.

## **Agricultural Leadership & Science Education, BS**

*for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education*

**program website:** <https://aged.illinois.edu/>  
**program faculty:** Agricultural Education Faculty (<https://aged.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/> (<https://engineering.illinois.edu/>)

Students pursuing this major select from two concentrations:

- Agricultural Leadership Education (p. 47)
- Agricultural Science Education (p. 48)

**The Bachelor of Science with a Major in Agricultural Leadership & Science Education** curriculum prepares students for positions requiring expertise in formal and non-formal education. Examples include teaching agriculture in the public schools; cooperative extension work; training and program development; and other education-related positions in agricultural and environmental agencies and businesses.

A minimum of 126 hours is required for graduation.

## Agricultural Leadership & Science Education: Agricultural Leadership Education, BS

*for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education, Agricultural Leadership Education concentration*

**program website:** <https://aged.illinois.edu/>  
**program faculty:** Agricultural Education Faculty (<https://aged.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/> (<https://engineering.illinois.edu/>)

**The Bachelor of Science with a Major in Agricultural Leadership & Science Education** curriculum prepares students for positions requiring expertise in formal and non-formal education. Examples include teaching agriculture in the public schools; cooperative extension work; training and program development; and other education-related positions in agricultural and environmental agencies and businesses.

A minimum of 126 hours is required for graduation. Students pursuing this major select from two concentrations: agricultural leadership education or agricultural science education. Students completing the agricultural science education concentration will be eligible for Illinois teacher certification in agricultural education, and will have instruction in key pedagogical areas as well as agriculture. For teacher education requirements applicable to all curricula, see the Council on Teacher Education ([www.cote.illinois.edu/](http://www.cote.illinois.edu/) (<http://www.cote.illinois.edu/>)).

The **Agricultural Leadership Education concentration** prepares students for educational leadership, training and outreach positions in agricultural, extension, community and governmental agencies. Coursework focuses on designing educational/training programs, making professional presentations, leadership development, teaching/training methods and

interpersonal communications. A 4 to 12-week business/agency summer internship is required. The curriculum provides the flexibility for students to specialize in a chosen area of agriculture.

## Learning Outcomes: Agricultural Leadership & Science Education, BS

Learning outcomes for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education

1. Communicate in-depth understanding of agricultural systems to provide meaningful educational experiences for learners ranging from PreK through adult.

Select from campus approved list. 3-4

**Cultural Studies**

Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. 9

**Foreign Language**

Coursework at or above the third level is required for graduation.

**Quantitative Reasoning I**

Select one of the following: 4-5

MATH 220 Calculus

MATH 221 Calculus I

MATH 234 Calculus for Business I

**Quantitative Reasoning II**

Select one of the following: 3-4

ACE 261 Applied Statistical Methods

CPSC 241 Intro to Applied Statistics

ECON 202 Economic Statistics I

PSYC 235 Intro to Statistics

STAT 100 Statistics

SOC 280 Intro to Social Statistics

**Natural Sciences and Technology**

CHEM 102 General Chemistry I & CHEM 103 and General Chemistry Lab I 4

CHEM 104 General Chemistry II & CHEM 105 and General Chemistry Lab II 4

MCB 100 Introductory Microbiology & MCB 101 and Intro Microbiology Laboratory 5

**Humanities and the Arts**

Courses selected from campus approved list 6

**Social Sciences**

ECON 102 Microeconomic Principles 3  
or ACE 100 Introduction to Applied Microeconomics

Additional social or behavioral science course; cannot be an economics course. 3-4

**ACES Required**

ACES 101 Contemporary Issues in ACES 2

**Animal Sciences Required**

ANSC 100 Intro to Animal Sciences 4

ANSC 101 Contemporary Animal Issues 3

ANSC 103 Working With Farm Animals 2

ANSC 221 Cells, Metabolism and Genetics 3

ANSC 222 Anatomy and Physiology 3

ANSC 223 Animal Nutrition 3

ANSC 224 Animal Reproduction and Growth 4

ANSC 298 Undergraduate Seminar 1

ANSC 398 UG Experiential Learning <sup>1</sup> 1

ANSC 498 Integrating Animal Sciences 2

<sup>1</sup> ANSC 398 only fulfills the degree requirement when taken for a standard letter grade.

**Code Title Hours**

**Companion Animal and Equine Science Concentration Required**

Choose one group: <sup>1</sup> 6

ANSC 250 Companion Animals in Society & ANSC 307and Companion Animal Management

or

ANSC 206 Horse Management & ANSC 306and Equine Science

Select two of the following Applied Sciences courses: <sup>1</sup> 6

ANSC 201 Principles of Dairy Production

ANSC 204 Intro Dairy Cattle Evaluation

ANSC 205 World Animal Resources

ANSC 206 Horse Management <sup>1</sup>

ANSC 211 Breeding Animal Evaluation

ANSC 219 Meat Technology

ANSC 250 Companion Animals in Society <sup>1</sup>

## Animal Sciences: Food Animal Production & Management, BS

for the degree of Bachelor of Science Major in Animal Sciences, Food Animal Production & Management concentration

**department website:** <https://ansc.illinois.edu/>  
**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The Food Animal Production and Management Concentration is designed for students intending to pursue a career in animal care and management or one of the associated food production industries. It emphasizes the scientific disciplines and the application of technology involved in animal

production and animal products, as well as providing the opportunity to enhance a student's practical knowledge through business courses.

## Animal Sciences: Science, Pre-Veterinary & Medical, BS

for the degree of Bachelor of Science Major in Animal Sciences, Science, Pre-Veterinary & Medical concentration

**department website:** <https://ansc.illinois.edu/>  
**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The science and pre-veterinary medical concentration is specifically designed for students interested in graduate school, professional training, or technical positions after the undergraduate degree. It is intended to satisfy most entrance requirements to post-graduate programs and

emphasizes basic science courses. The concentration enables a student to complete all of the pre-veterinary science requirements while working towards a B.S. degree.

## Learning Outcomes: Animal Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Animal Sciences

Upon successful completion of a degree in Animal Sciences, students will:

1. Demonstrate a mastery of the basic principles of animal genetics, nutrition, reproduction and physiology

2. Apply knowledge of animal husbandry, behavior and handling techniques to effectively interact with animals in a safe and humane manner
3. Appreciate the breadth of animal sciences in terms of the variety of career paths, the diversity of the animal industries, and the many roles of animals in society
4. Communicate effectively, both written and orally, and demonstrate confidence in attaining transferable job or post-graduate skills
5. Practice the scientific method in solving 'real-world' problems including collecting and evaluating information, forming predictions, collecting and interpreting data and implementing actions
6. Build and sustain productive relationships to create positive change in response to challenging issues with animals and the agriculture industry at the local, national and international levels

## Anthropology, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology*

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

Students pursuing this major must select one of the following in consultation with an advisor:

Major in Anthropology (p. 54)

Archaeology Concentration (p. 55)

Human Evolutionary Biology Concentration (p. 56)

Sociocultural & Linguistic Anthropology Concentration (p. 58)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Anthropology*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60- 75 hours). Please see your adviser.

**Departmental distinction:** The department may award distinction, high distinction, or highest distinction to any Anthropology major whose overall and major grade point averages are 3.25 or higher; and who successfully completes 33 hours of anthropology courses, including 4-6 hours of ANTH 494 and ANTH 495 resulting in an Honors Thesis. The level of distinction is based on evaluation of the honors thesis. See the departmental academic advisor for details. All students must discuss their selection of anthropology courses and supporting course work with a departmental adviser.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
<b>When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.</b>		
<b>Anthropology Core Courses</b>		<b>9</b>

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220 Introduction to Archaeology  
or ANTH World Archaeology

ANTH 230 Sociocultural Anthropology  
or ANTH Anthro in a Changing World

ANTH 240 Biological Anthropology  
or ANTH Human Origins and Culture

ANTH 270/271 Language in Culture  
or ANTH Talking Culture

<b>Thematic Area Courses</b>		<b>21</b>
------------------------------	--	-----------

Choose courses in Thematic Areas within the Department of Anthropology. Students must meet with the departmental advisor to discuss selection of courses. Thematic Areas:

Anthropology of North, Central and South America

Anthropology of Africa, Asia, Europe

Criminality, Law and Social Justice

Environment, Landscape and Sustainability

Family, Community and Social Life

Health, Wellness and Society

Heritage, Museums and Tourism

Human Evolution and Culture

Identity: Race, Class, Gender, Sexuality, Disability

Immigration, Transnationalism and Diaspora

Language, Culture and Communication

Performance, Body, Arts and Media

Science and Technology

<b>Additional courses within Anthropology or closely related departments that complement the student's thematic area of study</b>		<b>9</b>
---	--	----------

<b>Research and Service Learning Coursework</b>		<b>3</b>
---	--	----------

Choose one of the following areas in consultation with the departmental advisor:

Archaeology

ANTH 454 Archaeological Field School  
or ANTH 455 Analysis in Archaeology

Biological Anthropology

ANTH 444 Methods in Bioanthropology  
or ANTH 445 Research in Bioanthropology

Sociocultural/Linguistic Anthropology

ANTH 411 Research Methods in Socio-Cultural Anthropology (or ANTH 499- Research Methods in Linguistic Anthropology section)

Museum Anthropology

ANTH 462 Museum Theory and Practice  
or MUSE 463 Museum Internship

<b>Senior Capstone Project</b>		<b>3-6</b>
--------------------------------	--	------------

Choose one option below (Honors Thesis, Senior Capstone Seminar, Internship, Study Abroad, Field School or Research) in consultation with the departmental advisor:

Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis

ANTH 494 Honors Senior Thesis I

ANTH 495 Honors Senior Thesis II

Senior Capstone Seminar (Independent Research)- 3 hours

ANTH 498 Senior Capstone Seminar

Internship- 3 hours. A portfolio and report associated with an approved departmental internship

ANTH 390 Individual Study

Study Abroad- 3 hours. A portfolio and report associated with an approved Study Abroad experience

ANTH 390 Individual Study

Research and/or Field School- 3-6 hours. Data analysis and a research report associated with one of the following:

ANTH 454 Archaeological Field School & ANTH 455 and Lab Analysis in Archaeology

ANTH 444 Methods in Bioanthropology & ANTH 445 and Research in Bioanthropology

<b>Total Hours</b>	<b>45</b>
--------------------	-----------

## Anthropology: Archaeology, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Archaeology Concentration

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The Archaeology Concentration offers students a program to explore the human past through its material remains to understand cultural and societal change through time, and the role of heritage in the present. We offer many opportunities for students to conduct research with faculty in our archaeology labs, field schools, and in our extensive research collections.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Archaeology Concentration

**A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60- 75 hours). Please see your adviser.**

Code	Title	Hours
<b>When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.</b>		

#### Anthropology Core Courses 9

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220	Introduction to Archaeology or ANTH World Archaeology	
ANTH 230	Sociocultural Anthropology or ANTH Anthro in a Changing World	
ANTH 240	Biological Anthropology or ANTH Human Origins and Culture	
ANTH 270/271	Language in Culture or ANTH Talking Culture	

#### Archaeology Courses (18 hours distributed as follows): 3

One course in Cultural archaeology history chosen from the following:

ANTH 358	People of the Ice Age	
ANTH 448	The Prehistory of Africa	
ANTH 449	North American Archeology	
ANTH 459	The Ancient Maya	

Two courses in Methods/Materials analysis chosen from the following:

ANTH 358	People of the Ice Age	
ANTH 420	Case Studies Global Heritage	
ANTH 451	Archaeological Surveying	
ANTH 452	Stone Tool Technology Analysis	
ANTH 453	Landscape Archaeology	
ANTH 460	Heritage Management	
ANTH 462	Museum Theory and Practice	
ANTH 477	Pottery Analysis	

Three Archaeology courses chosen from the following: 9

ANTH 358	People of the Ice Age	
----------	-----------------------	--

ANTH 420 Case Studies Global Heritage

ANTH 448 The Prehistory of Africa

ANTH 449 North American Archeology

ANTH 451 Archaeological Surveying

ANTH 452 Stone Tool Technology Analysis

ANTH 453 Landscape Archaeology

ANTH 459 The Ancient Maya

ANTH 460 Heritage Management

ANTH 461 Hist of Archaeological Theory

ANTH 462 Museum Theory and Practice

ANTH 477 Pottery Analysis

#### Additional Archaeology Anthropology coursework (9 hours distributed as follows):

One course in Biological Anthropology	3
Two courses related to the student's area of emphasis and approved by the departmental advisor	6

#### Research and Service Learning Coursework

ANTH 454 Archaeological Field School	3
ANTH 455 Lab Analysis in Archaeology	3

#### Senior Capstone Project 3-6

Choose one option below (Honors Thesis or Senior Capstone Seminar or Research) in consultation with the departmental advisor:

Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis

ANTH 494 Honors Senior Thesis I

ANTH 495 Honors Senior Thesis II

Senior Capstone Seminar (Independent Research)- 3 hours

ANTH 498 Senior Capstone Seminar

Research and/or Additional Field School- 3-6 hours. Further data analysis and a research report associated with ANTH 455 or an additional approved ANTH 454-Archaeology Field School and ANTH 455- Lab Analysis in Archaeology)

**Total Hours 45**

## Anthropology: Human Evolutionary Biology, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Anthropology, Human Evolutionary Biology Concentration*

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The Human Evolutionary Biology Concentration offers students a program to examine the interconnections between genetics, environment and culture to address issues from human origins and morphology to forensics and modern health.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Anthropology, Human Evolutionary Biology Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60- 75 hours). Please see your adviser.

**Departmental distinction:** The department may award distinction, high distinction, or highest distinction to any Anthropology major whose overall and major grade point averages are 3.25 or higher; and who successfully completes 33 hours of anthropology courses, including 4-6 hours of ANTH 494 and ANTH 495 resulting in an Honors Thesis. The level of distinction is based on evaluation of the honors thesis. See the departmental academic advisor for details.

All students must discuss their selection of anthropology courses and supporting course work with a departmental adviser.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
------	-------	-------

**When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.**

#### **Anthropology Core Courses 9**

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220	Introduction to Archaeology or ANTH World Archaeology
----------	--

ANTH 230	Sociocultural Anthropology or ANTH Anthro in a Changing World
----------	--

ANTH 240	Biological Anthropology or ANTH Human Origins and Culture
----------	--

ANTH 270/271	Language in Culture
--------------	---------------------

ANTH 270/271	Talking Culture
--------------	-----------------

#### **Human Evolutionary Biology Courses 18**

Students take courses from 4 different categories: 2 courses from each of 2 categories, plus 1 course in each of the 2 remaining categories.

##### Evolution and Genetics

ANTH 241	Human Biological Variation
----------	----------------------------

ANTH 242	History of Human Evolution
----------	----------------------------

ANTH 249	Evolution and Human Disease
----------	-----------------------------

3 additional courses from any of the 4 elective categories, or another field of anthropology, or a related field such as statistics, psychology, chemistry etc. Course selection should complement the student's Human Evolutionary Biology focus. Meet with the departmental advisor to discuss course selection. 9

#### **Research and Service Learning Coursework 3**

Choose one of the following:

ANTH 444	Methods in Bioanthropology
----------	----------------------------

ANTH 445	Research in Bioanthropology
----------	-----------------------------

#### **Senior Capstone Project 3-6**

Choose one option below (Honors Thesis, Senior Seminar, Internship, or Research) in consultation with the departmental advisor.

Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis

ANTH 494	Honors Senior Thesis I
----------	------------------------

ANTH 495	Honors Senior Thesis II
----------	-------------------------

Senior Capstone Seminar (Independent Research)- 3 hours

ANTH 498	Senior Capstone Seminar
----------	-------------------------

Internship- 3 hours. A portfolio and report associated with an approved departmental internship

ANTH 390	Individual Study
----------	------------------

Research and/or Additional Field School- 3-6 hours. If not taken to meet the Research and Service Learning Coursework requirement above choose one of the following:

ANTH 444	Methods in Bioanthropology
----------	----------------------------

ANTH 445	Research in Bioanthropology
----------	-----------------------------

Further data analysis- ANTH 445 or an additional approved biological anthropology research project- ANTH 444.

42

## Anthropology: Sociocultural & Linguistic Anthropology, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Sociocultural and Linguistic Anthropology Concentration*

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The Sociocultural and Linguistic Anthropology Concentration offers students a program of more focused coursework in these closely related fields. Sociocultural anthropologists study the daily lives of people around the world, both at home and abroad. They conduct field research to get a hands-on feel for people's lives and passions and examine everything from beauty pageants to political protest marches, from Disney films to the lab practices of nuclear scientists. Sociocultural anthropology distinguishes itself from other disciplines by its conviction that these local and personal details offer a crucial window on the largest processes and problems of our time, from globalization to race relations and violence.

Linguistic anthropology complements sociocultural anthropology with detailed attention to spoken and signed languages—their structure and use in the daily lives of people around the world, both at home and abroad. Linguistic anthropologists examine such things as the “English Only” movement in the United States, the persuasive language of advertising and politics, racism and hate speech, oral/gestural storytelling traditions around the world, communication in the classroom, on social media, or at the United Nations, as well as how the way we talk creates our sense of self and reality.

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Sociocultural and Linguistic Anthropology Concentration*

**A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60- 75 hours). Please see your adviser.**

**Departmental Distinction:** The department may award distinction, high distinction, or highest distinction to any Anthropology major whose overall and major grade point averages are 3.25 or higher; and who successfully completes 33 hours of anthropology courses, including 4-6 hours of ANTH 494 and ANTH 495 resulting in an Honors Thesis. The level of distinction is based on evaluation of the honors thesis. See the departmental academic advisor for details.

All students must discuss their selection of coursework with a departmental adviser.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hour**

Code	Title	Hours
<b>When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.</b>		

### Anthropology Core Courses 9

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220 Introduction to Archaeology  
or ANTH World Archaeology

ANTH 230 Sociocultural Anthropology  
or ANTH Anthro in a Changing World

ANTH 240 Biological Anthropology  
or ANTH Human Origins and Culture

ANTH 270/271 Language in Culture  
or ANTH Talking Culture

### Socio-cultural and Linguistic Anthropology Courses 21

7 courses selected from the list maintained in the advisor's office. Students select 3 courses from locations across at least 2 regions of the world and 4 courses from theoretical or topical areas course offerings in socio-cultural and linguistic anthropology chosen in consultation with the departmental advisor. Four courses must be at the 300- or 400-level.

Additional socio-cultural and linguistics anthropology courses or courses in related fields such as Sociology, Linguistics, Psychology, Education, History, Gender and Women's Studies, African American Studies, Latina/Latino Studies, Asian American Studies, African Studies, Jewish Studies that complement the student's sociocultural/linguistic focus. Meet with the departmental advisor to discuss the selection of courses.

### Research and Service Learning Coursework 3

Choose one of the following:

Research Methods in Cultural Anthropology - ANTH 411  
Methods of Cultural Anth

Research Methods in Linguistic Anthropology - ANTH 499

### Senior Capstone Project 3-6

Choose one option below (Honors Thesis, Senior Seminar, Internship, or Study Abroad) in consultation with the departmental advisor:

Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis

ANTH 494 Honors Senior Thesis I

ANTH 495 Honors Senior Thesis II

Senior Capstone Seminar (Independent Research)- 3 hours

ANTH 498 Senior Capstone Seminar

Internship- 3 hours. A portfolio and report associated with an approved departmental internship

ANTH 390 Individual Study	
Study Abroad- 3 hours. A portfolio and report associated with an approved Study Abroad experience	
ANTH 390 Individual Study	
<b>Total Hours</b>	<b>45</b>

## Architectural Studies, BS

*for the Bachelor of Science Major in Architectural Studies*

**Director of the School: Francisco Javier Rodríguez-Suárez**  
**School website:** <https://arch.illinois.edu/>  
**Overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**College website:** <https://faa.illinois.edu/>  
**Email:** [architecture@illinois.edu](mailto:architecture@illinois.edu)

The Bachelor of Science in Architectural Studies BSAS is a pre-professional degree that prepares students to enter a professional 2-year M ARCH degree. The program provides a strong foundation in design, technology and history as they relate to architectural practice. The degree also provides students with a broad liberal arts foundation that can lead to many other career options.

In this curriculum, normal progress is imperative. A student failing to complete any required course more than one semester later than the time designated in the curriculum is prohibited from progressive registration in architectural courses until the deficiency is corrected. To continue at the sophomore level and beyond, a student must have a cumulative grade point average of 2.00 (A = 4.0) for all University course work attempted. For the Bachelor of Science in Architectural Studies degree, a total of 120 semester hours are required.

*for the Bachelor of Science Major in Architectural Studies*

### General Education Requirements

Code	Title	Hours
	Some courses may fulfill multiple General Education categories. Courses may also fulfill both major requirements and Gen Ed categories.	
Composition I		4
Advanced Composition (ARCH 314 can fulfill)		3
Quantitative Reasoning I and II (specific courses required):		7-10
MATH 220 Calculus or MATH 221 Calculus I		
MATH 231 Calculus II (MATH 231 required for concentration in Building Structures and Structural Engineering) or PHYS College Physics: Mech & Heat		
Humanities and the Arts (ARCH 222 and ARCH 314 can fulfill)		6
Cultural Studies: Western Comparative Cultures (ARCH 314 can fulfill)		3
Cultural Studies: U.S. Minority Culture(s)		3
Cultural Studies: Non-Western Cultures (ARCH 222 can fulfill)		3
Natural Sciences and Technology		6
Social and Behavioral Sciences		6

<b>Total</b>	<b>26-44</b>

Electives <sup>3</sup>		6
Semester Hours		12
Total Hours:		120

<sup>1</sup> See current University of Illinois General Education requirements. (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) The General Education quantitative reasoning requirement I is satisfied by the required MATH 220 or MATH 221 course; the quantitative reasoning II requirement is satisfied by the MATH 231 or PHYS 101 course. Students considering a concentration in Building Structures or Structural Engineering should take MATH 231. The Advanced Composition requirement may be fulfilled by either a separate, approved Advanced Composition course or by an Advanced Composition course which also satisfies one of the general education distribution list requirements. If by the latter, electives would be taken to make up the credit deficiency.

General Education foreign language requirement 0-12 hours: Students entering the University of Illinois as freshmen in fall 2000 or later need to complete the foreign language requirement in order to graduate. To satisfy this requirement, students must complete a third semester level college foreign language course. This requirement may also be satisfied by three years of the same foreign language in high school. Students entering the University of Illinois without three years of the same foreign language in high school must take a foreign language placement test to determine the courses in which to enroll.

<sup>2</sup> The Composition I requirement may be fulfilled by any of the following courses or course sequences (placement is determined by examination): ESL 111 and ESL 112; ESL 115; RHET 101, and RHET 102; or RHET 105; or CMN 111 and CMN 112.

<sup>3</sup> For information about electives, see the Undergraduate Handbook at the FAA website (<https://faa.illinois.edu/>). A maximum of nine hours may be taken as professional electives.

<sup>4</sup> *Architectural history: All students in the undergraduate program in architecture must fulfill the architectural history requirement: one course in addition to ARCH 210. Select from: ARCH 222, ARCH 314, ARCH 402, ARCH 403, ARCH 407, ARCH 409, Section B (Barcelona only), ARCH 410, ARCH 411, ARCH 412, ARCH 413, ARCH 414, ARCH 415, ARCH 416, ARCH 417, or ARCH 418.*

<sup>5</sup> *The UP 101 requirement can be fulfilled by substituting one of the following approved courses: ARCH 418, ARCH 468, GEOG 204, GEOG 210, and GEOG 483.*

## Learning Outcomes: Architectural Studies, BS

Learning outcomes for the Bachelor of Science Major in Architectural Studies

Student Learning Outcomes for the BSAS program of study derive from the National Architecture Accrediting Board's Conditions for Accreditation. The 2009 version of the Conditions are referenced here, as it was this version that guided reaccreditation of the Master of Architecture (M.Arch) degree in 2015. Reaccreditation of the M.Arch degree depended on demonstrations of student learning in a substantial number of undergraduate Architecture courses that lead to admission to Illinois' and other M.Arch degree programs.

Learning outcomes—Student Performance Criteria (SPC), in NAAB parlance—fall into three broad “educational realms”. They are quoted here verbatim from the NAAB Conditions for Reaccreditation (2009), pp. 21-25 (<http://www.naab.org/wp-content/uploads/2009-Procedures-for-Accreditation.pdf>):

### 1. Educational Realm A – Critical Thinking and Representation:

Architects must have the ability to build abstract relationships and understand the impact of ideas based on research and analysis of multiple theoretical, social, political, economic, cultural and environmental contexts. This ability includes facility with the wider range of media used to think about architecture including writing, investigative skills, speaking, drawing and model making. Students' learning aspirations include:

- Being broadly educated.
- Valuing lifelong inquisitiveness.
- Communicating graphically in a range of media.
- Recognizing the assessment of evidence.
- Comprehending people, place, and context.
- Recognizing the disparate needs of client, community, and society.

### 2. Educational Realm B – Integrated Building Practices, Technical Skills, and Knowledge:

Architects are called upon to comprehend the technical aspects of design, systems and materials, and be able to apply that comprehension to their services. Additionally, they must appreciate their role in the implementation of design decisions, and the impact of such decisions on the environment. Student learning aspirations include:

- Creating building designs with well-integrated systems.
- Comprehending constructability.
- Incorporating life safety systems.
- Integrating accessibility.
- Applying principles of sustainable design.

- Educational Realm C – Leadership and Practice:** Architects need to manage, advocate, and act legally, ethically and critically for the good of the client, society and the public. This includes collaboration, business, and leadership skills. Student learning aspirations include:
  - Knowing societal and professional responsibilities.
  - Comprehending the business of building.
  - Collaborating and negotiating with clients and consultants in the design process.
  - Discerning the diverse roles of architects and those in related disciplines.
  - Integrating community service into the practice of architecture.

## Art & Art History, BFA

for the degree of Bachelor of Fine Arts Major in Art & Art History

**school office:** 143 Art and Design Building, Champaign, IL 61820

**coordinator of undergraduate academic affairs:** Mark Avery

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

**phone:** (217) 333-6632

**director of undergraduate studies:** Professor Kristin Romberg

**email:** [kromberg@illinois.edu](mailto:kromberg@illinois.edu)

**school website:** School of Art & Design (<https://art.illinois.edu/>)

**school faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The Program in Art and Art History at the University of Illinois, Urbana-Champaign is unique. Housed in the School of Art and Design in the College of Fine and Applied Arts, the Program in Art History offers a Bachelor of Fine Arts degree in a combined Art History and Studio/Design course of study, providing a broad cultural education that unites academic and studio training. Students who earn this degree will be qualified to pursue a range of careers, museum work, or graduate study in either art history or studio practice.

A portfolio review is required for admission to the School of Art and Design.

**Departmental Distinction: a student must earn a 3.25 overall GPA, and 3.50 GPA in Art History. The Student will complete at least 4 semester hours of independent research to write a senior research paper. See the undergraduate adviser for further details.**

for the degree of Bachelor of Fine Arts Major in Art & Art History

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

### First Year Curriculum

Code	Title	Hours
FAA 101	Arts at Illinois	1

**Learning Outcomes: Art History, BFA**

Learning outcomes for the degree of Bachelor of Fine Arts Major in Art & Art History

1. Students will be able to demonstrate familiarity with key artistic monuments and modes of art production from various global contexts.
2. Students will be able to analyze and interpret works of art and architecture situated in a variety of historical and social contexts, and in comparative perspective.
3. Students will be able to use visual and verbal primary sources, secondary sources, and core critical frameworks of art historical analysis to develop and articulate persuasive arguments about works of art and the cultures that produced them.

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The curriculum in art education requires 130 credit hours and prepares students for positions as teachers of art in the public and private schools, grades kindergarten through twelve. The program places emphasis on theory, methods, materials, processes, and practice teaching in Illinois schools. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>).

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area course GPA of 3.0, and professional education course GPA of 3.0 (A=4.0). Candidates should consult their art education advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

### for the Bachelor of Fine Arts Major in Art Education

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

# Learning Outcomes: Art Education, BFA

## for the Bachelor of Fine Arts Major in Art Education

Students graduating with the BFA in Art Education should be able to:

1. Understand the diverse characteristics and abilities of their students and how individuals develop and learn within the context of their social, economic, cultural, linguistic, and academic experiences. Our graduates are prepared to use these experiences to create instructional opportunities that maximize student learning in diverse art education settings such as schools, museums, and community centers.
2. Understand content area knowledge in fine art and visual culture that includes central concepts, methods of inquiry, structures of the disciplines, and content area literacy. Our graduates are prepared to create meaningful learning experiences for students through both content area and pedagogical knowledge.
3. Plan and design instruction for diverse art education settings based upon content area knowledge, diverse student characteristics, student performance data, curriculum goals, and the community context.
4. Create safe and healthy art education learning environments that facilitate cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction, mutual respect, active engagement, academic risk-taking, self-motivation, and personal goal-setting.
5. Differentiate instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous growth and learning. Our graduates understand that art education settings are dynamic, thus requiring ongoing modification of instruction to enhance learning for each student.
6. Enact critical and humanizing expressions of art education that redress and challenge systemic injustices that relate to social identities associated with race, class, gender, sexuality, immigrant origin, religion, age, mental and physical disabilities, and mental and physical illnesses.
7. Possess foundational knowledge of reading, writing, and oral communication within art education (e.g. curriculum and lesson planning, assessment tools, etc.) and recognizes and addresses how student reading, writing, and oral communication facilitate the acquisition of knowledge in art education.
8. Understand the purposes, characteristics, and limitations of different types of assessments in art education, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools.
9. Build and maintain collaborative relationships with colleagues, students, parents, and community members to foster cognitive, linguistic, physical, and social and emotional development of their students.
10. Exhibit ethical, reflective, and professional practices, while providing leadership in their educational settings and advocating for students, parents or guardians, and the profession.

**school office:** 143 Art and Design Building, Champaign, IL 61820

## First Year Curricula for All Art + Design Majors

The School of Art + Design offers bachelor of fine arts degrees in art education, graphic design, art & art history, industrial design, photography, and studio art (with concentrations in general studio, new media, painting, printmaking, and sculpture), and a bachelor of arts degree in studio art (with the same concentrations). All majors' first year curriculum will include courses in drawing, 2D, 3D, and 4D practices. Undeclared students will declare their Art + Design major March 1 of their first year of study.

*This first year curriculum is shared across all majors and serves as the temporary major declaration for those who enter as "undeclared."*

Courses in the history and appreciation of art and certain courses in studio work are open to students from other colleges of the University. A field of concentration in history of art is also offered in the College of Liberal Arts and Sciences. The school has studios, computing labs, workshops, classrooms, and offices in several different University buildings.

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

## Asian American Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

**department website:** <http://www.asianam.illinois.edu/>  
**department faculty:** Asian American Studies Faculty (<http://www.asianam.illinois.edu/people/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [aas@illinois.edu](mailto:aas@illinois.edu)

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

**Advising: The Department of Asian American Studies provides advising for students. Students must officially declare their major by registering with the Associate Head of Asian American Studies. Students will work with their advisor to choose appropriate courses from the Additional Coursework List and the Approved Elective List to help plan a coherent program of study. A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
AAS 100	Intro Asian American Studies	3
AAS 200	U.S. Race and Empire	3
AAS 215	US Citizenship Comparatively	3
AAS 300	Theories of Race, Gender, and Sexuality	3
Additional Coursework		15
Complete at least 15 additional hours of substantive coursework offered by Department of Asian American Studies listed on the Approved Additional Coursework List.		
Electives		6

Choose 6 hours from the Approved Elective Course List.	
<b>Total Hours</b>	<b>33</b>

Approved Additional Coursework List and Approved Elective List are maintained in the department office and with the AAS advisor.

## Learning Outcomes: Asian American Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

### 1) Intellectual Reasoning and Knowledge

Students acquire proficiency in the field and area of Asian American Studies. This includes, for example, knowledge based in intersectional, comparative, and interdisciplinary approaches. While largely based in an area approach to the United States, Asian American Studies is also deeply concerned with transnational, diasporic, and global studies. Students learn the history of Asian Americans and theories and methods of the social sciences and humanistic approaches to understand the Asian American experience. The conceptual rubrics broadly include migration, social movements, US imperialism and racism, and ideas of citizenship and belonging.

### 2) Critical Inquiry and Discovery

Applying theories in Asian American Studies students develop skills of critical inquiry that draw on intersectional and comparative approaches. As a mode of discovery students exercise their skills using methods of the social sciences and humanities through verbal communication in the classroom and written research projects. Students are asked to apply their critical modes of learning in original and unique projects of discovery through research.

### 3) Effective Leadership and Community Engagement

Students study models of community leadership and engagement through the histories of Asian American social movements, political culture, and community activism. Reflection based on these approaches provides a context from which to understand the role of classroom learning and the application of theories of social change in communities.

### 4) Social Awareness and Cultural Understanding

Students learn the dimensions of intersectional analysis of social, cultural, economic, and political issues concerning the Asian Americans. Social theories of power inform how students are taught to understand a number of categories of analysis including race, gender, sexuality, class, ethnicity, religion, and disability, to name a few.

### 5) Global Consciousness

Students gain an understanding of the global dimensions of intersectional approaches in a broad range of fields and disciplines including literary, historical, cultural and ethnographic approaches. Through the study of migration and diaspora, the broad understanding of individual and collective dynamics are observed, analyzed, and theorized. Students are also asked to think in terms of a comparative framework to understand how race, gender, and sexuality, for example, are thought of from a number of vantage points.

## Astronomy, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

**department website:** <https://astro.illinois.edu/>

**department faculty:** Astronomy Faculty (<https://astro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [astronomy@illinois.edu](mailto:astronomy@illinois.edu)

The Department of Astronomy also offers a BSLAS in Computer Science & Astronomy (p. 132)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

**Departmental distinction:** A student majoring in astronomy may earn distinction or high distinction by attaining a minimum grade point average of 3.4 or 3.75, respectively, in required major courses (defined in the table below) taken at UIUC. For highest distinction, in addition to meeting the minimum requirements for high distinction, a senior thesis (ASTR 490) must be completed with strong endorsement by the research supervisor. Questions about eligibility for distinction status should be directed to an astronomy advisor before the senior year.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 47-48 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Astronomy Core</b>		
ASTR 210	Introduction to Astrophysics <sup>1</sup>	3
Select three of the following:		9-10
ASTR 404	Stellar Astrophysics	
ASTR 405	Planetary Systems	
ASTR 406	Galaxies and the Universe	
ASTR 414	Astronomical Techniques	
Select at least 12 hours of 300- or 400-level ASTR or PHYS courses <sup>2,3</sup>		12
<b>Supporting Technical Courses</b>		
Physics		12
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 213	Univ Physics: Thermal Physics	
PHYS 214	Univ Physics: Quantum Physics	
Mathematics		11
MATH 221	Calculus I <sup>4</sup>	

MATH 231 Calculus II

MATH 241 Calculus III

- <sup>1</sup> Students without a background in physics or astronomy are encouraged to take ASTR 121 and ASTR 122 during their freshman year.
- <sup>2</sup> Other 300- or 400-level technical classes, e.g. chemistry, computer science engineering, or statistics can be substituted with academic adviser approval.
- <sup>3</sup> A maximum of 4 hours of credit in ASTR 390 (or equivalent "Independent Study" course, such as PHYS 497) can be counted towards this requirement.
- <sup>4</sup> MATH 220 may be substituted for MATH 221. MATH 220 is appropriate for students with no background in calculus.

## Learning Outcomes: Astronomy, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

Undergraduate Astronomy majors will graduate with a demonstrated ability to:

LO1. Understand the hierarchical architecture of the cosmos, increasing in scale from the Solar System to the Galaxy to the Universe, and decreasing in scale to atoms and their nuclei. Understand the interplay among these scales.

LO2. Define and use fundamental principles and techniques of astronomy and astrophysics.

- Identify which principles should be applied to a specified situation
- Show familiarity with astronomical observables and their physical origin.
- Understand and apply basic physics and computational techniques to solve problems in astrophysics, and interpret the results.

LO3. Analyze astronomical data, and quantitative data generally.

- Demonstrate the ability to link observation and theory.
- Demonstrate the ability to draw qualitative conclusions from quantitative information, and vice versa.
- Demonstrate the ability to plan observational programs, use astronomical telescopes and instrumentation, and to analyze and present astronomical data.

LO4. Plan and perform guided research, or attain an advanced-level understanding of a topic of contemporary interest in astronomy and astrophysics.

LO5. Demonstrate the ability to communicate effectively both verbally and in writing.

## Atmospheric Sciences, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences

**department website:** <https://atmos.illinois.edu/>  
**department faculty:** Atmospheric Sciences Faculty (<https://atmos.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [atmos-sci@illinois.edu](mailto:atmos-sci@illinois.edu)

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences*

**Departmental distinction: Students majoring in Atmospheric Sciences can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:**

**For distinction: A minimum cumulative grade point average of 3.3 and have also completed an approved independent study project, approved senior thesis, or approved capstone.**

**For high distinction: A minimum cumulative grade point average of 3.5 and have also completed an approved independent study project, approved senior thesis, or approved capstone.**

**For highest distinction: A minimum cumulative grade point average of 3.7 and also completed an approved senior thesis or approved research capstone.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: normally equates to 58-59 hours including at least 32 hours in Atmospheric Sciences.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
MATH 220	Calculus	4-5
	or MATH 220 Calculus I	
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations	3
ATMS 201	General Physical Meteorology	3
ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ATMS 304	Radiative Transfer-Remote Sens	3
ATMS 305	Computing and Data Analysis	3
ATMS 306	Cloud Physics	3
ATMS 307	Climate Processes	3
ATMS 313	Synoptic Weather Forecasting	4
ATMS 314	Mesoscale Dynamics	3
Total Hours		58-59

## Learning Outcomes: Atmospheric Sciences, BSLAS

*Learning outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences*

1. All students will have a fundamental understanding of the atmosphere and the dynamical and physical processes that control weather and climate.
2. All students will have demonstrable computational problem solving skills, and have the opportunity to participate in scientific research.
3. All students will understand practical applications of weather analysis and forecasting, and the impact of weather analysis and forecasting on public safety and the economy.
4. All students will develop competency in clear scientific written and oral communication.
5. All students will develop an understanding of the natural and anthropogenic processes that control climate and global change, their impact on human livelihood, and ways that individuals can contribute to the reduction of societal risk from weather and climate events and impacts.

## Biochemistry, BS

*for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)*

**department website:** <http://mcb.illinois.edu/departments/biochemistry/>  
**department faculty:** Biochemistry Faculty (<http://mcb.illinois.edu/faculty/biochemistry/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [biocug@mcb.uiuc.edu](mailto:biocug@mcb.uiuc.edu)

**Undergraduate degree programs in Molecular & Cellular Biology**  
 Biochemistry, BS (p. 68)

Molecular & Cellular Biology, BSLAS (p. 293)

*for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)*

The typical program of courses required to satisfy this degree totals 126-131 hours as outlined below including up to 12 hours of non-primary language (if not completed in high school); in no case will a program totaling less than 120 hours qualify for graduation. In addition, in order to graduate there is a minimum 2.0 cumulative academic grade point average and student must attain a 2.5 academic grade point average in the chemistry, biochemistry, biology, mathematics, physics and advanced electives in science/engineering courses specified in this curriculum. All proposals for course substitutions must be approved by the academic advisor. This curriculum is intended for those students who desire a rigorous education in chemistry, biochemistry, and biology, who have definite research-oriented goals, and whose career objectives include graduate school, MD/PhD programs, or industry.

Students earning the Biochemistry degree automatically complete the Chemistry minor. Students earning a degree in the Specialized Curriculum in Biochemistry may not earn a second degree in the Science and Letters Curriculum in Molecular and Cellular Biology.

**Departmental distinction: A student seeking distinction must satisfy the following:**

- Complete a minimum of 6 credit hours of undergraduate research (BIOC 290 and BIOC 492) with a minimum of 4 credit hours of BIOC 492.
- Earn at least a 3.25 grade-point average.
- Present a senior thesis to the department.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Select one of the following:		8-10
CHEM 202	Accelerated Chemistry I & CHEM 202and Accelerated Chemistry Lab I & CHEM 202and Accelerated Chemistry II & CHEM 202and Accelerated Chemistry Lab II (preferred sequence)	
CHEM 102	General Chemistry I & CHEM 102and General Chemistry Lab I & CHEM 102and General Chemistry II & CHEM 102and General Chemistry Lab II (with advisor approval)	
Organic chemistry, select from:		9-10
CHEM 236	Fundamental Organic Chem I & CHEM 236and Structure and Synthesis & CHEM 436and Fundamental Organic Chem II (preferred sequence)	
CHEM 232	Elementary Organic Chemistry I & CHEM 232and Elementary Organic Chem Lab I & CHEM 332and Elementary Organic Chem II (with advisor approval)	
Molecular and Cellular Biology		17
MCB 150	Molec & Cellular Basis of Life	
MCB 250	Molecular Genetics	
MCB 251	Exp Techniqs in Molecular Biol	
MCB 252	Cells, Tissues & Development	
MCB 253	Exp Techniqs in Cellular Biol	
MCB 354	Biochem & Phys Basis of Life	
or equivalent as approved by academic advisor		
Physical chemistry, select one group of courses:		7-8
CHEM 440	Physical Chemistry Principles (Biological Perspective Section)	
BIOC 446	Physical Biochemistry (preferred sequence)	
or		
CHEM 442	Physical Chemistry I	
CHEM 444	Physical Chemistry II (with advisor approval)	
Mathematics & Statistics		14-15
STAT 212	Biostatistics	
MATH 220	Calculus	

or MATH 220Calculus I		
MATH 231	Calculus II	
MATH 241	Calculus III	
Physics, select from:		10
PHYS 211	University Physics: Mechanics & PHYS 212and University Physics: Elec & Mag & PHYS 213and Univ Physics: Thermal Physics (preferred sequence)	
or		
PHYS 101	College Physics: Mech & Heat & PHYS 102and College Physics: E&M & Modern (or equivalent as approved by academic advisor (with advisor approval)	
Biochemistry:		13
BIOC 455	Technqs Biochem & Biotech	
BIOC 460	Biochemistry Senior Seminar	
BIOC 406	Gene Expression & Regulation	
BIOP 401	Introduction to Biophysics	
Select 10 hours of Advanced Science/Technical Electives (may include up to 7 hours of BIOC 492, Senior Thesis) from approved list.		10
Nontechnical Requirements:		variable
General education:		
Foreign language - three semesters of college study (or three years of high school study) in a single foreign language to satisfy the campus foreign language requirement		
Composition I writing requirement to satisfy the campus Composition I requirement		
Advanced Composition writing requirement (BIOC 460 is required)		
Humanities/Arts to satisfy the campus general education requirements		
Social/Behavioral sciences to satisfy the campus general education requirements		
Cultural Studies to satisfy the campus general education requirement		
Electives (not including any credit in satisfaction of the above requirements)		variable

- <sup>1</sup> Transfer credit must be approved by an advisor in biochemistry in order to be used to satisfy degree requirements.
- <sup>2</sup> A more detailed description of the requirements is listed in the Biochemistry Curriculum Handbook, available in room 419A of Roger Adams Laboratory.
- <sup>3</sup> PHYS 213 is not required if CHEM 442/CHEM 444 sequence is taken.
- <sup>4</sup> Freshman orientation course is under development and will be required. See advisor for details.
- <sup>5</sup> An approved list of current courses will be updated annually in January/February for the coming year. Contact advisor.
- <sup>6</sup> The requirements for the Campus General Education categories of Natural Sciences and Technology and Quantitative Reasoning I are fulfilled through coursework in the curriculum.

## Learning Outcomes: Biochemistry, BS

Learning outcomes for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)

Upon successful completion of the Biochemistry Specialized Curriculum, students will be able to:

1. Understand and appreciate that the diversity of life evolved over time by biomolecular processes of mutation, selection, genetic change, and epigenetics.
2. Explain that molecular and macromolecular structure as well as supramolecular architecture determine function and regulation.
3. Explain that information storage and flow are molecular-based, dynamic, and interactive.
4. Understand and appreciate that biochemical mechanisms and kinetics ensure relative cellular stability and function under external or internal changing condition.
5. Explain that energy is required by and transformed in biochemical systems as governed by the laws of thermodynamics.
6. Illustrate that living organisms and biological systems interact via molecular connections.
7. Design a scientific process and employ the scientific method, demonstrating that biochemistry is evidence-based and grounded in the formal practices of observation, objective measurement, and hypothesis testing.
8. Execute quantitative analysis and mathematical reasoning to interpret biochemical data.
9. Construct and utilize predictive models and simulations that define chemical relationships, as well as molecular interactions of complex systems.
10. Apply concepts from other sciences that span biology, chemistry, physics, mathematics, computation, and engineering to interpret biochemical phenomena.
11. Communicate biochemical concepts and understanding to members of a diverse scientific community, as well as to the general public.
12. Identify social and health-related dimensions of biochemical investigations.

## Bioengineering, BS

*for the degree of Bachelor of Science in Bioengineering*

**department website:** <https://bioengineering.illinois.edu/>

**department faculty:** Bioengineering Faculty (<https://bioengineering.illinois.edu/directory/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

Bioengineers use tools from biology, chemistry, physics and math to solve engineering problems that arise in biological systems related to biomaterials, biomechanics and prosthetics, tissue engineering, molecular modeling, imaging, bioinformatics, nanomedicine, synthetic biology, and drug delivery. The goal of research and education in bioengineering is to advance fundamental understanding of how human biological systems function, and to develop effective technology-based

solutions to the wide spectrum of societal needs in human development and disease diagnosis, treatment, and prevention.

The Bioengineering department (BIOE) aims to graduate students who:

- Enter into industry jobs in prominent companies as engineers who work in the areas of:
  - Medical device design
  - Manufacturing
  - Quality control
  - Marketing
  - And work toward the advancement of medicine
- Pursue graduate studies in bioengineering-related fields such as:
  - Imaging and Sensing
  - Therapeutics
  - Tissue Engineering
  - Computational and Systems Biology
  - Biomechanics
- Broaden their education by attending professional school in areas of medicine, law, and business
- Maintain professional development through societal memberships and industry workshops

The curriculum includes integration of principles of biology and engineering in coursework such as modeling of human physiology, bioinstrumentation, and cell and tissue engineering. The curriculum is project-based and has a strong emphasis on systems-thinking as an approach to large-scale bioengineering problems. During the first and second years, students take fundamental courses introducing them to bioengineering as a field and introducing clinically relevant projects as learning experiences. The program also features hands-on laboratory courses for real-world experience throughout the curriculum. The final two years allow students to focus on a particular track of Bioengineering for further study. A year-long senior capstone design course provides experience in applying engineering fundamentals to biological problems submitted by faculty, clinicians, and industrial firms.

### *for the degree of Bachelor of Science in Bioengineering* Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for Math, Engineering, and Science courses. See **Technical GPA** to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

BIOE 415 Biomedical Instrumentation Lab	2		
Track elective <sup>5</sup>	3		

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). MCB 150 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> May be taken for 3 or 4 credit hours; the extra hour may be used to help meet free elective requirements.

<sup>5</sup> To be selected from a departmentally approved list of track elective courses (<http://bioengineering.illinois.edu/undergraduate-programs/track-electives/>) if a pre-approved track is chosen. Alternately a student may devise a special track which must be approved by the Bioengineering Department.

## Learning Outcomes: Bioengineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Bioengineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Bioengineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Biology

Students interested in applying to either school of biology should simply choose Biology as their major. After taking two introductory courses, students will choose a major in either Integrative Biology or Molecular and Cellular Biology.

Integrative Biology, School of (<http://www.life.uiuc.edu/sib/>)

Director of School: Carla Cáceres

School Office: 286 Morrill Hall, 505 South Goodwin Avenue, Urbana, (217) 333-3044

Molecular and Cellular Biology, School of (<http://mcb.illinois.edu/>)

Director of School: Milan Bagchi

School Office: 393 Morrill Hall, 505 South Goodwin Avenue, Urbana, (217) 333-3166

An interschool option in Teaching of Biology (<http://catalog.illinois.edu/undergraduate/las/biology-teacher-education-bslas/>) is sponsored by the School of Integrative Biology and the School of Molecular and Cellular Biology.

Also, see majors in Integrative Biology (<http://catalog.illinois.edu/undergraduate/las/academic-units/integrative-bio/#majorstext>) and Molecular and Cellular Biology (p. 293).

## Brain & Cognitive Science, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Brain & Cognitive Science*

**department website:** <http://www.psychology.illinois.edu/undergrad/>  
**department faculty:** Psychology Faculty (<https://psychology.illinois.edu/directory/faculty/>)  
**advising:** Psychology advising (<https://psychology.illinois.edu/academics/undergraduate-program/advising-services/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [psych-advising@illinois.edu](mailto:psych-advising@illinois.edu) ([bcog-advising@illinois.edu](mailto:bcog-advising@illinois.edu))

The **Brain and Cognitive Science major** introduces the student to a simple question: How do intelligent systems work? Our world provides two examples of complex intelligent systems—human beings (and possibly some other animals) and intelligent computer systems. Brain and Cognitive Science majors investigate the brain and behavior of intelligent biological systems (e.g. people) from the perspective that the brain is a kind of computer. Consequently, students must learn about how brains and computers work, and how these can explain what we know about mental functions including perception, learning, memory, and language. Brain and Cognitive Science majors make use of discoveries from a number of different disciplines, including psychology, neuroscience, computer science, linguistics, philosophy, and anthropology, and has applications to the development of technology in education, health, language sciences, and design.

The Brain and Cognitive Science major provides fundamental training in psychology, neuroscience, and computation, and it allows a great deal of flexibility with regard to more advanced courses. The major requires training in statistics, a laboratory course, and the capstone course. Students should contact our Undergraduate Advising Office for help in creating a plan of study and research that best meets their goals and interests.

### Academic Advising

The Psychology Undergraduate Advising Office is open to help students choose patterns of courses relevant to their interests, as well as to help students explore graduate school, professional school, and career options. Advising is done by an award-winning staff of academic professionals along with mentoring by faculty for students with research interests. Peer registration assistants are also available to help with the registration process.

### Undergraduate Degree Programs in Psychology

BSLAS in Brain & Cognitive Science (p. 74)

BSLAS in Psychology (p. ) with the following concentrations:

- Behavioral Neuroscience (p. 345)
- Clinical/Community Psychology (p. 346)
- Cognitive Neuroscience (p. 347)
- Cognitive Psychology (p. 348)
- Developmental Psychology (p. 349)
- Diversity Science (p. 349)
- Intradisciplinary Psychology (p. 350)
- Organizational Psychology (p. 351)
- Personality Psychology (p. 351)
- Social Psychology (p. 352)

*For the Degree of Bachelor of Science in Liberal Arts and Sciences Major in Brain and Cognitive Science*

**A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours).**

**Departmental distinction: To be eligible for graduation with Distinction in Psychology, a student must complete a two-semester research sequence in PSYC 494, submit a Senior Thesis that must be approved by the department, and maintain an overall 3.0 GPA at the time of submission. A student can also enroll in PSYC 492 to facilitate the preparation of a Bachelor's thesis.**

**To be eligible for High or Highest Distinction, a student must first be admitted to the Honors Program (requirements: junior standing, 3.5 GPA in Psychology overall, and completion of the statistics and laboratory requirements). The student then has to complete the three semester Honors sequence (PSYC 398, PSYC 498, PSYC 499), submit a Senior Thesis that must be approved by the department, and maintain an overall GPA of at least 3.0 to be awarded High Distinction or a GPA of 3.5 for Highest Distinction.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 42 hours of coursework, including at least 12 hours of advanced coursework.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

## Chemical Engineering, BS

for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

**department website:** <https://chbe.illinois.edu/>

**department faculty:** Chemical & Biomolecular Engineering Faculty (<https://chbe.illinois.edu/directory/>)

**advising:** SCS Academic Advising (<https://scs.illinois.edu/academics/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The first two years of the Chemical Engineering curriculum provide a strong foundation in basic sciences through Physics, Mathematics, Chemistry, an introduction to what Chemical Engineers do, and the fundamental basis of Chemical Engineering (Mass and Energy Balances and Thermodynamics.) In the third year, students delve deeper into more specialized Chemistry courses such as Physical and Analytical Chemistry, while exploring fundamental Chemical Engineering courses such as Momentum Transfer, Separations, and Reactor Design. The Senior year incorporates all of this learning through high level technical electives, Process Control, Capstone Lab, and Capstone Design courses. It is through the lab and design class that students apply everything they have learned in previous Chemical Engineering courses to real-world team projects and presentations.

The Chemical Engineering specialized curriculum provides two areas of concentration: Chemical Engineering and Biomolecular Engineering. Each area is based on a strong fundamental understanding of Chemical Engineering, however the Biomolecular concentration's technical electives focus more on bio-applied processing and technology.

### Areas of Concentration

- Chemical Engineering (p. 76): The chemical engineering concentration is designed to prepare students for careers in the energy, chemical, food, energy, pharmaceutical, semiconductor processing, personal care, fiber and materials industries.

- Biomolecular Engineering (p. 79): The Biomolecular Engineering concentration builds upon the traditional principles of chemical engineering, but specializes in biological and biotechnological systems in order to better prepare students who are interested in or seek employment in the food, pharmaceutical, and biotechnology industries.

for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A grade point average of 2.5 or higher in all courses required for the major earned on the UIUC campus is required in order to be accepted by the department as juniors and seniors.**

**Minimum hours required for graduation: The curriculum requires 129 hours for graduation and is organized as shown below.**

### Orientation and Professional Development

These courses introduce opportunities and resources the college, department, and curriculum offers students. They also provide background on the Chemical Engineering curriculum, what chemical engineers do, and the skills to work effectively and successfully in the engineering profession.

Code	Title	Hours
CHBE 121	CHBE Profession <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
<b>Total Hours</b>		<b>1</b>

### Foundational Mathematics and Science

These courses stress the basic mathematical and scientific principles upon which the engineering discipline is based.

Code	Title	Hours

### Chemical and Biomolecular Engineering Technical Core

These courses stress fundamental concepts and basic laboratory techniques that comprise the common intellectual understanding of chemical engineering and chemical science.

Code	Title	Hours
CHBE 221	Principles of CHE	3
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2
CHEM 315	Instrumental Chem Systems Lab <sup>5</sup>	2
CHEM 420	Instrumental Characterization	2
CHEM 442	Physical Chemistry I	4
CS 101	Intro Computing: Engrg & Sci	3
IE 300	Analysis of Data	3
Total Hours		49

### For Chemical Engineering

Code	Title	Hours
Technical Core		49
CHEM 436	Fundamental Organic Chem II or MCB 450 Introductory Biochemistry	3
Total Hours		52

### Technical Electives

These courses stress the rigorous analysis and design principles practiced in the major subdisciplines of chemical engineering embodied in the chemical engineering and biomolecular engineering concentrations.

### For Chemical Engineering

Code	Title	Hours
Selected from the departmentally approved List of Approved Chemical Engineering Technical Electives, satisfying these distribution requirements: <sup>6</sup>		
400-level ChBE courses, with not more than 3 hours being CHBE 497 or CHBE 499 <sup>7</sup>		6
Any 400-level course from List 1 <sup>7</sup>		3
Any courses from List 1 <sup>7</sup>		6
Any 400-level course from List 2		4
Total Hours		19

### Social Sciences and Humanities

The social sciences and humanities courses ensure that students have exposure in breadth and depth to areas of intellectual activity that are essential to the general education of any college graduate.

Code	Title	Hours
General education courses to satisfy the university requirements for social & behavioral sciences, humanities & the arts, and cultural studies (Non-Western, U.S. Minority, and Western Cultures).		16

### Composition

These courses teach fundamentals of expository writing.

Code	Title	Hours
RHET 105	Writing and Research	4
Advanced Composition (satisfied by completing the sequence CHBE 430 and CHBE 431 in the Chemical Engineering Technical Core).		
Total Hours		4

<sup>1</sup> For students entering the curriculum after the freshman year, 1 additional hour of credit from the list of approved engineering technical electives may be substituted in place of CHBE 121.

<sup>2</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> MATH 441 may be substituted for MATH 285. MATH 286 (4 hours) may be substituted for MATH 285 (3 hours).

<sup>5</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.

<sup>6</sup> List of Approved Chemical Engineering Technical Electives. (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>)

<sup>7</sup> A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit.

### for the degree of Bachelor of Science Major in Chemical Engineering

The schedule that follows is illustrative, showing the typical sequence in which courses would be taken by a student with no college course credit already earned and who intends to graduate in four years. Each individual's case may vary, but the position of required named courses is generally indicative of the order in which they should be taken. The first three semesters of the Suggested Sequence is the same for all chemical engineering students. The fifth through eighth semesters vary with the area of concentration chosen. Refer to the appropriate sequence continuation below.

#### First Year

First Semester	Hours	
CHEM 202 <sup>1</sup> Accelerated Chemistry I	3	
CHEM 203 Accelerated Chemistry Lab I	2	
ENG 100 <sup>2</sup> Engineering Orientation	0	
MATH 221 <sup>3</sup> Calculus I	4	
RHET 105 Writing and Research	4	
Elective in Social Sciences or Humanities <sup>4,5</sup>	3	
Semester Hours		16

#### Second Semester

CHBE 121 <sup>2</sup> CHBE Profession	1	
CHEM 204 Accelerated Chemistry II	3	
CHEM 205 Accelerated Chemistry Lab II	2	
CS 101 Intro Computing: Engrg Sci	3	
MATH 231 Calculus II	3	
PHYS 211 <sup>6</sup> University Physics: Mechanics	4	
Semester Hours		16

**Second Year****First Semester**

CHBE 221 Principles of CHE	3
CHEM 236 Fundamental Organic Chem I	4
CHEM 237 Structure and Synthesis	2
MATH 241 Calculus III	4
PHYS 212 <sup>6</sup> University Physics: Elec Mag	4
<b>Semester Hours</b>	<b>17</b>
<b>Total Hours:</b>	<b>49</b>

**Major in Chemical Engineering**

For the Concentration in Biomolecular Engineering, see below (p. 78)

Elective in Social Sciences or Humanities or Technical Elective <sup>4,5,8a</sup>	7
<b>Semester Hours</b>	<b>17</b>

**Fourth Year****First Semester**

CHBE 430 <sup>10,11</sup> Unit Operations Laboratory	4
CHBE 440 Process Control and Dynamics	3
Elective in Social Sciences or Humanities or Technical Elective <sup>4,5,8a</sup>	9
<b>Semester Hours</b>	<b>16</b>

**Second Semester**

CHBE 431 <sup>10,11</sup> Process Design	4
Elective in Social Sciences or Humanities or Technical Elective <sup>4,5,8a</sup>	10
<b>Semester Hours</b>	<b>14</b>
<b>Total Hours:</b>	<b>97</b>

<sup>1</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>2</sup> For students entering the curriculum after the freshman year, 1 additional hr of credit from the list of approved engineering technical electives (List 1) may be substituted in place of CHBE 121. The ENG 100 requirement will be waived. Under no circumstances will these requirements be waived for students who are in the chemical engineering curriculum during their freshman year.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> At least 16 hours must be taken. All Campus General Education requirements must be satisfied, including those in approved course work in the Humanities/Arts, Social/Behavioral Sciences, and Cultural Studies, including the Western, Non-Western and/or U.S. Minorities components. The requirements for the Campus General Education categories Natural Sciences/Technology, Quantitative Reasoning I and II, Composition I, and Advanced Composition are fulfilled through required course work in the curriculum.

<sup>5</sup> Three semesters of college credit in one foreign language is required. Three years of high school credit in one foreign language are equivalent to three semesters of college credit and satisfy the requirement.

<sup>6</sup> Under no circumstances will PHYS 101-PHYS 102 be accepted as a substitute for any part of the Physics sequence.

<sup>7a</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>7b</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>8a</sup> At least 19 hours must be selected from the departmentally approved List of Approved Chemical Engineering Technical Electives (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:

a) 6 hours must be 400-level ChBE courses, with not more than 3 hours being CHBE 497 or 499.

b) 3 hours any 400-level course from List 1.

c) 6 hours any courses from List 1.

d) 4 hours any 400-level courses from List 2.

A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Chemical Engineering Technical Electives may be obtained in 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)

<sup>8b</sup> At least 19 hours must be selected from the departmentally approved List of Approved Biomolecular Engineering Technical Electives Categories (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:

a) 9 hours must be from Category A

b) 6 hours must be from Category B

c) 4 hours must be 400-level courses from List 2.

A maximum of 3 hours from Category A may be undergraduate research credit. A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Biomolecular Engineering Technical Electives may be obtained in Room 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)

<sup>9</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.

<sup>10</sup> Enrollment in CHBE 430 is limited. Thus CHBE 430 may need to be taken in the second semester and CHBE 431 and/or additional electives taken in the first semester instead. Students in their final semester will have priority for getting into CHBE 430 and CHBE 431.

<sup>11</sup> The sequence CHBE 430 and CHBE 431 satisfies the General Education Advanced Composition requirement.

## Chemical Engineering: Biomolecular Engineering, BS

*for the degree of Bachelor of Science in Chemical Engineering, Biomolecular Engineering Concentration (Specialized Curriculum)*

**department website:** <https://chbe.illinois.edu/>

**department faculty:** Chemical & Biomolecular Engineering Faculty (<https://chbe.illinois.edu/directory/>)

**advising:** SCS Academic Advising (<https://scs.illinois.edu/academics/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The first two years of the Chemical Engineering curriculum provide a strong foundation in basic sciences through Physics, Mathematics, Chemistry, an introduction to what Chemical Engineers do, and the fundamental basis of Chemical Engineering (Mass and Energy Balances and Thermodynamics.) In the third year, students delve deeper into more specialized Chemistry courses such as Physical and Analytical Chemistry, while exploring fundamental Chemical Engineering courses such as Momentum Transfer, Separations, and Reactor Design. The Senior year incorporates all of this learning through high level technical electives, Process Control, Capstone Lab, and Capstone Design courses. It is through the lab and design class that students apply everything they have learned in previous Chemical Engineering courses to real-world team projects and presentations.

The Chemical Engineering specialized curriculum provides two areas of concentration: Chemical Engineering and Biomolecular Engineering. Each area is based on a strong fundamental understanding of Chemical Engineering, however the Biomolecular concentration's technical electives focus more on bio-applied processing and technology.

### Areas of Concentration

- Chemical Engineering (p. 76): The chemical engineering concentration is designed to prepare students for careers in the energy, chemical, food, energy, pharmaceutical, semiconductor processing, personal care, fiber and materials industries.
- Biomolecular Engineering (p. 79): The Biomolecular Engineering concentration builds upon the traditional principles of chemical engineering, but specializes in biological and biotechnological systems in order to better prepare students who are interested in or seek employment in the food, pharmaceutical, and biotechnology industries.

*for the degree of Bachelor of Science in Chemical Engineering, Biomolecular Engineering Concentration (Specialized Curriculum)*

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A grade point average of 2.5 or higher in all courses required for the major earned on the UIUC campus is required in order to be accepted by the department as juniors and seniors.**

**Minimum hours required for graduation: The curriculum requires 129 hours for graduation and is organized as shown below.**

### Orientation and Professional Development

These courses introduce opportunities and resources the college, department, and curriculum offers students. They also provide background on the Chemical Engineering curriculum, what chemical engineers do, and the skills to work effectively and successfully in the engineering profession.

Code	Title	Hours
CHBE 121	CHBE Profession <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		1

### Foundational Mathematics and Science

These courses stress the basic mathematical and scientific principles upon which the engineering discipline is based.

Code	Title	Hours
CHEM 202	Accelerated Chemistry I <sup>2</sup>	3
CHEM 203	Accelerated Chemistry Lab I	2
CHEM 204	Accelerated Chemistry II	3
CHEM 205	Accelerated Chemistry Lab II	2
MATH 221	Calculus I <sup>3</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations <sup>4</sup>	3
MATH 415	Applied Linear Algebra	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 214	Univ Physics: Quantum Physics	2
Total Hours		37

### Chemical and Biomolecular Engineering Technical Core

These courses stress fundamental concepts and basic laboratory techniques that comprise the common intellectual understanding of chemical engineering and chemical science.

Code	Title	Hours
CHBE 221	Principles of CHE	3
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2

CHEM 315	Instrumental Chem Systems Lab <sup>5</sup>	2
CHEM 420	Instrumental Characterization	2
CHEM 442	Physical Chemistry I	4
CS 101	Intro Computing: Engrg & Sci	3
IE 300	Analysis of Data	3
Total Hours		49

### For Biomolecular Engineering

Code	Title	Hours
Technical Core		49
MCB 450	Introductory Biochemistry	3
Total Hours		52

### Technical Electives

These courses stress the rigorous analysis and design principles practiced in the major subdisciplines of chemical engineering embodied in the chemical engineering and biomolecular engineering concentrations.

### For Biomolecular Engineering

Code	Title	Hours
Selected from the departmentally approved List of Approved Biomolecular Engineering Technical Electives Categories A and B, satisfying these distribution requirements: <sup>6</sup>		
Any courses from Category A <sup>7,8</sup>		9
Any courses from Category B <sup>8</sup>		6
Any 400-level course from List <sup>8</sup>		4
Total Hours		19

### Social Sciences and Humanities

The social sciences and humanities courses ensure that students have exposure in breadth and depth to areas of intellectual activity that are essential to the general education of any college graduate.

Code	Title	Hours
General education courses to satisfy the university requirements for social & behavioral sciences, humanities & the arts, and cultural studies (Non-Western, U.S. Minority, and Western Cultures).		16

### Composition

These courses teach fundamentals of expository writing.

Code	Title	Hours
RHET 105	Writing and Research	4
Advanced Composition (satisfied by completing the sequence CHBE 430 and CHBE 431 in the Chemical Engineering Technical Core).		
Total Hours		4

<sup>1</sup> For students entering the curriculum after the freshman year, 1 additional hour of credit from the list of approved engineering technical electives may be substituted in place of CHBE 121.

<sup>2</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> MATH 441 may be substituted for MATH 285. MATH 286 (4 hours) may be substituted for MATH 285 (3 hours).

<sup>5</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.

<sup>6</sup> List of Approved Biomolecular Engineering Technical Electives Categories A and B (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>)

<sup>7</sup> A maximum of 3 hours from this Category may be undergraduate research credit.

<sup>8</sup> A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit.

### for the degree of Bachelor of Science Major in Chemical Engineering, Biomolecular Engineering Concentration

<sup>1</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>2</sup> For students entering the curriculum after the freshman year, 1 additional hr of credit from the list of approved engineering technical electives (List 1) may be substituted in place of CHBE 121. The ENG 100 requirement will be waived. Under no circumstances will these requirements be waived for students who are in the chemical engineering curriculum during their freshman year.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> At least 16 hours must be taken. All Campus General Education requirements must be satisfied, including those in approved course work in the Humanities/Arts, Social/Behavioral Sciences, and Cultural Studies, including the Western, Non-Western and/or U.S. Minorities components. The requirements for the Campus General Education categories Natural Sciences/Technology, Quantitative Reasoning I and II, Composition I, and Advanced Composition are fulfilled through required course work in the curriculum.

<sup>5</sup> Three semesters of college credit in one foreign language is required. Three years of high school credit in one foreign language are equivalent to three semesters of college credit and satisfy the requirement.

<sup>6</sup> Under no circumstances will PHYS 101-PHYS 102 be accepted as a substitute for any part of the Physics sequence.

<sup>7a</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>7b</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>8a</sup> At least 19 hours must be selected from the departmentally approved List of Approved Chemical Engineering Technical Electives (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:

a) 6 hours must be 400-level ChBE courses, with not more than 3 hours being CHBE 497 or 499.

b) 3 hours any 400-level course from List 1.

c) 6 hours any courses from List 1.

d) 4 hours any 400-level courses from List 2.

A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Chemical Engineering Technical Electives may be obtained in 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)

<sup>8b</sup> At least 19 hours must be selected from the departmentally approved List of Approved Biomolecular Engineering Technical Electives Categories (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:

a) 9 hours must be from Category A

b) 6 hours must be from Category B

c) 4 hours must be 400-level courses from List 2.

A maximum of 3 hours from Category A may be undergraduate research credit. A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Biomolecular Engineering Technical Electives may be obtained in Room 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)

<sup>9</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.

<sup>10</sup> Enrollment in CHBE 430 is limited. Thus CHBE 430 may need to be taken in the second semester and CHBE 431 and/or additional electives taken in the first semester instead. Students in their final semester will have priority for getting into CHBE 430 and CHBE 431.

<sup>11</sup> The sequence CHBE 430 and CHBE 431 satisfies the General Education Advanced Composition requirement.

## Learning Outcomes: Chemical Engineering, BS

Learning outcomes for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Chemical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemistry

**department website:** <https://chemistry.illinois.edu>

**department faculty:** Chemistry Faculty (<https://chemistry.illinois.edu/directory/faculty-by-type/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**advising contact:** SCS Academic Advising (<http://advising.scs.illinois.edu/>)

Students interested in majoring in chemistry may choose the Specialized Curriculum in Chemistry (<http://catalog.illinois.edu/undergraduate/las/chemistry-bs/>), leading to the Bachelor of Science Major in Chemistry, or the Chemistry Major (<http://catalog.illinois.edu/undergraduate/las/chemistry-bslas/#requirementstext>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The Specialized Curriculum in Chemistry is a rigorous, specialized program suitable for those planning careers in chemistry. The Chemistry

Major in the Sciences and Letters Curriculum is used by some students planning chemistry careers, but it is more often chosen by students wishing to obtain chemistry backgrounds for use in related fields.

### Undergraduate Degree Programs in Chemistry

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

- Major in Computer Science & Chemistry, BSLAS (p. 133)
- Major in Chemistry (Sciences and Letters) (p. 85)
- Major in Chemistry (Sciences and Letters), Chemistry Teaching Concentration (p. 85)

#### For the Degree of Bachelor of Science in Chemistry

- Major in Chemistry (Specialized Curriculum) (p. 83)
- Major in Chemistry (Specialized Curriculum), Environmental Chemistry Concentration (p. 87)

for the degree of Bachelor of Science in Chemistry (Specialized Curriculum)

#### Specialized Curriculum

The typical program of courses required to satisfy this degree totals 128-134 hours; in no case will a program totaling less than 120 hours qualify for graduation. Graduation requires grade point averages of at least 2.0 overall and 2.0 in chemistry, mathematics, and physics courses. The Department of Chemistry will supply, upon request, a brochure showing recommended semester-by-semester programs for the completion of the curriculum.

Students in the specialized curriculum in Chemistry must include a course in Biochemistry in the Advanced Hours area or the Technical Elective area to be certified by the American Chemical Society as having met its specifications.

**Departmental distinction:** Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have a UIUC coursework major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75, respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

**Requirements**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Core Chemistry <sup>1</sup>		35
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II <sup>2</sup>	
CHEM 236	Fundamental Organic Chem I	
CHEM 237	Structure and Synthesis	
CHEM 312	Inorganic Chemistry	
CHEM 315	Instrumental Chem Systems Lab	
CHEM 420	Instrumental Characterization	
CHEM 436	Fundamental Organic Chem II	
CHEM 442	Physical Chemistry I	
CHEM 444	Physical Chemistry II	
CHEM 445	Physical Principles Lab I	
Advanced Chemistry		11
Chemistry/Biochemistry courses numbered 300 or higher, which must include one from the following: <sup>3</sup>		
CHEM 317	Inorganic Chemistry Lab	
CHEM 437	Organic Chemistry Lab	
CHEM 447	Physical Principles Lab II	
Additional laboratory work: <sup>3,4</sup>		
BIOC 455	Technqs Biochem & Biotech	
CHEM 317	Inorganic Chemistry Lab	
CHEM 437	Organic Chemistry Lab	
CHEM 447	Physical Principles Lab II	
CHEM 483	Solid State Structural Anlysis	
Additional chemistry/biochemistry courses to complete the 11-hour requirement in advanced chemistry		
Mathematics: <sup>1</sup>		11-12
MATH 220	Calculus or MATH Calculus I	
MATH 231	Calculus II	
MATH 241	Calculus III	
Physics: <sup>1</sup>		10
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 214	Univ Physics: Quantum Physics	
Technical Electives, including the following <sup>4</sup>		14
Required Mathematics: <sup>5</sup>		
MATH 225	Introductory Matrix Theory or MATH 445 Applied Linear Algebra	
MATH 285	or equivalent	
Strongly Recommended:		
CHEM 499	Senior Thesis (maximum of 10 hours)	
Recommended: basic computer science		
Other technical courses chosen from:		

Chemistry (300 or higher), biochemistry, chemical engineering (200 or higher)	
Courses in life sciences (all courses at 200 or higher)	
Mathematics or computer science above the basic level	
Other courses in the physical and biological sciences and engineering including CHEM 199 <sup>6</sup>	
Nontechnical Requirements <sup>7</sup>	variable
General education:	
Foreign language - three semesters of college study (or three years of high school study) in a single foreign language	
Composition I writing requirement (RHET 105, CMN 111 and CMN 112, or equivalent)	
Advanced Composition writing requirement <sup>8</sup>	
Humanities/Arts to satisfy the campus general education requirements	
Social/Behavioral sciences to satisfy the campus general education requirements	
Cultural Studies to satisfy the campus general education requirement <sup>9</sup>	
Free electives <sup>10</sup>	31

<sup>1</sup> Hours given are those typical to meet requirement.

<sup>2</sup> If necessary, CHEM 102 and CHEM 103, CHEM 104 and CHEM 105, CHEM 222, and CHEM 223 may be substituted for CHEM 202, CHEM 203, CHEM 204, and CHEM 205. Warning: CHEM 222 and CHEM 223 are offered only in the fall semester.

<sup>3</sup> The course chosen from CHEM 317, CHEM 437, or CHEM 447 cannot be used to satisfy the additional chemistry lab requirement.

<sup>4</sup> Students who present less than 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation must complete two additional courses chosen from the list. Students who will present at least 6 semester hours credit in a combination of CHEM 397, CHEM 497 and /or CHEM 499 for graduation are required to complete only one laboratory course from the list.

<sup>5</sup> Students contemplating transfer to the chemical engineering curriculum should choose MATH 415 .

<sup>6</sup> Three hours maximum credit in CHEM 199. Additional courses in the sciences and engineering can be taken upon the approval of the chair of the chemistry department advising committee. Most approved courses must have a strong technical prerequisite, such as one year of college-level math or science.

<sup>7</sup> The requirements for the Campus General Education categories Natural Sciences and Technology and Quantitative Reasoning I and II are fulfilled through required course work in the curriculum.

<sup>8</sup> The course taken to satisfy the Advanced Composition requirement may also be used to partially satisfy one of the core chemistry, advanced chemistry, mathematics, physics, or technical electives requirements (if appropriate), or may be used to partially satisfy the free electives requirements.

<sup>9</sup> The courses taken to satisfy Western and/or Non-Western Civilization requirements may also be used to satisfy nontechnical and/or free elective categories.

<sup>10</sup> *Restrictions: (1) Courses preparatory to or used to satisfy the minimum requirements specified in the above requirements may not be included as free electives. (2) No first-year foreign language course (e.g., 101, 102, or equivalent) may be included unless it is a different language than used to satisfy the foreign language nontechnical requirement.*

**college website:** <https://las.illinois.edu/>

This concentration fulfills state certification requirements to teach high school (grades 9-12) chemistry through the AP/honors level and biology, earth and space science, environmental science and physics up to but not including the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 502).

Time to degree completion varies. Minimum time to completion is 8 semesters. Some students require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see

the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Chemistry: Environmental Chemistry, BS

*For the Degree of Bachelor of Science in Chemistry, Environmental Chemistry Concentration*

**department website:** <https://chemistry.illinois.edu>  
**department faculty:** Chemistry Faculty (<https://chemistry.illinois.edu/directory/faculty-by-type/>)  
**advising:** SCS Academic Advising (<http://advising.scs.illinois.edu/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

This concentration is designed to provide a background in environmental chemistry that is sufficient in breadth and depth to prepare a person to work as an environmental chemist in the public or private sectors and/or to pursue an advanced degree in the field. Students who complete this concentration will be certified in environmental chemistry by the American Chemical Society (ACS). The Environmental Chemistry Concentration is based on the Specialized Curriculum in Chemistry. Students will take a 3-hour, 300-level course in environmental chemistry and three 3-hour, upper level technical courses in environmental areas. These courses can be used as part of the required 14 hours of technical electives for the Specialized Curriculum in Chemistry.

### Undergraduate Degree Programs in Chemistry

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Core Chemistry <sup>1</sup>		35
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II <sup>2</sup>	
CHEM 236	Fundamental Organic Chem I	
CHEM 237	Structure and Synthesis	
CHEM 312	Inorganic Chemistry	
CHEM 315	Instrumental Chem Systems Lab	
CHEM 420	Instrumental Characterization	
CHEM 436	Fundamental Organic Chem II	
CHEM 442	Physical Chemistry I	
CHEM 444	Physical Chemistry II	
CHEM 445	Physical Principles Lab I	
Advanced Chemistry		11

Chemistry/Biochemistry courses numbered 300 or higher, which must include one from the following: <sup>3</sup>	
CHEM 317 Inorganic Chemistry Lab	
CHEM 437 Organic Chemistry Lab	
CHEM 447 Physical Principles Lab II	
Additional laboratory work: <sup>3,4</sup>	
BIOC 455 Technqs Biochem & Biotech	
CHEM 317 Inorganic Chemistry Lab	
CHEM 437 Organic Chemistry Lab	
CHEM 447 Physical Principles Lab II	
CHEM 483 Solid State Structural Anlyns	
Additional chemistry/biochemistry courses to complete the 11-hour requirement in advanced chemistry	
Mathematics: <sup>1</sup>	11-12
MATH 220 Calculus or MATH Calculus I	
MATH 231 Calculus II	
MATH 241 Calculus III	
Physics: <sup>1</sup>	10
PHYS 211 University Physics: Mechanics	
PHYS 212 University Physics: Elec & Mag	
PHYS 214 Univ Physics: Quantum Physics	
Technical Electives, including the following <sup>4</sup>	14
Required Mathematics: <sup>5</sup>	
MATH 225 Introductory Matrix Theory or MATH 455 Applied Linear Algebra	
MATH 285 or equivalent	
Strongly Recommended:	
CHEM 499 Senior Thesis (maximum of 10 hours)	
Recommended: basic computer science	
Other technical courses chosen from:	
Chemistry (300 or higher), biochemistry, chemical engineering (200 or higher)	
Courses in life sciences (all courses at 200 or higher)	
Mathematics or computer science above the basic level	
Other courses in the physical and biological sciences and engineering including CHEM 199 <sup>6</sup>	
Nontechnical Requirements <sup>7</sup>	variable
General education:	
Foreign language - three semesters of college study (or three years of high school study) in a single foreign language	
Composition I writing requirement (RHET 105, CMN 111 and CMN 112, or equivalent)	
Advanced Composition writing requirement <sup>8</sup>	
Humanities/Arts to satisfy the campus general education requirements	
Social/Behavioral sciences to satisfy the campus general education requirements	
Cultural Studies to satisfy the campus general education requirement <sup>9</sup>	
Free electives <sup>10</sup>	31

- <sup>1</sup> Hours given are those typical to meet requirement.
- <sup>2</sup> If necessary, CHEM 102 and CHEM 103, CHEM 104 and CHEM 105, CHEM 222, and CHEM 223 may be substituted for CHEM 202, CHEM 203, CHEM 204, and CHEM 205. Warning: CHEM 222 and CHEM 223 are offered only in the fall semester.
- <sup>3</sup> The course chosen from CHEM 317, CHEM 437, or CHEM 447 cannot be used to satisfy the additional chemistry lab requirement.
- <sup>4</sup> Students who present less than 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation must complete two additional courses chosen from the list. Students who will present at least 6 semester hours credit in a combination of CHEM 397, CHEM 497 and /or CHEM 499 for graduation are required to complete only one laboratory course from the list.
- <sup>5</sup> Students contemplating transfer to the chemical engineering curriculum should choose MATH 415 .
- <sup>6</sup> Three hours maximum credit in CHEM 199. Additional courses in the sciences and engineering can be taken upon the approval of the chair of the chemistry department advising committee. Most approved courses must have a strong technical prerequisite, such as one year of college-level math or science.
- <sup>7</sup> The requirements for the Campus General Education categories Natural Sciences and Technology and Quantitative Reasoning I and II are fulfilled through required course work in the curriculum.
- <sup>8</sup> The course taken to satisfy the Advanced Composition requirement may also be used to partially satisfy one of the core chemistry, advanced chemistry, mathematics, physics, or technical electives requirements (if appropriate), or may be used to partially satisfy the free electives requirements.
- <sup>9</sup> The courses taken to satisfy Western and/or Non-Western Civilization requirements may also be used to satisfy nontechnical and/or free elective categories.
- <sup>10</sup> Restrictions: (1) Courses preparatory to or used to satisfy the minimum requirements specified in the above requirements may not be included as free electives. (2) No first-year foreign language course (e.g., 101, 102, or equivalent) may be included unless it is a different language than used to satisfy the foreign language nontechnical requirement.

Code	Title	Hours
<b>Required Technical Elective Courses for the Environmental Chemistry Concentration</b>		
Basic Courses		
CHEM 360	Chemistry of the Environment or CEE 330 Environmental Engineering	3
Advanced Courses: Select three courses from the following:		
CHEM 460	Green Chemistry	9
CEE 443	Env Eng Principles, Chemical	
GEOL 380	Environmental Geology	
IB 485	Environ Toxicology & Health	
CHEM 397	Individual Study Junior	
CHEM 497	Individual Study Senior	
CHEM 499	Senior Thesis	
Other 400-level courses dealing with economic, engineering, biological aspects of environmental chemistry upon consultation with the faculty advisor.		

## Learning Outcomes: Chemistry, BS

Learning outcomes for the degree of Bachelor of Science Major in Chemistry

Students graduating with the BS in Chemistry will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

## Learning Outcomes: Chemistry, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Chemistry (Sciences & Letters)

Students graduating with the BSLAS in Chemistry (Sciences & Letters) will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

*for the degree of Bachelor of Science in Civil Engineering*

**department website:** Department of Civil & Environmental Engineering (<https://cee.illinois.edu/>)

**department faculty:** Department of Civil & Environmental Engineering Faculty (<https://cee.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

Civil engineering is a profession that applies the basic principles of science in conjunction with mathematical and computational tools to solve problems associated with developing and sustaining civilized life on our planet. Civil engineering works are generally one-of-a-kind projects; they are often grand in scale; and they usually require cooperation among professionals of many different disciplines. The completion of

a civil engineering project involves the solution of technical problems in which uncertainty of information and myriad non-technical factors often play a significant role. Some of the most common examples of civil engineering works include bridges, buildings, dams, airports, highways, tunnels, and water distribution systems. Civil engineers are concerned with flood control, landslides, air and water pollution, and the design of facilities to withstand earthquakes and other natural hazards, in addition to protecting our environment for a sustainable future.

The civil engineering program comprises seven areas (construction engineering and management, construction materials engineering, environmental engineering, geotechnical engineering, environmental hydrology and hydraulics, structural engineering, and transportation engineering) and three interdisciplinary programs (sustainable and resilient infrastructure systems; energy, water, and environmental sustainability; and societal risk and hazard mitigation). Although each area has its own special body of knowledge and engineering tools, they all rely on the same fundamental core principles. Civil engineering projects often draw expertise from many of these areas and programs.

CEE's Program Education Objectives are to educate CEE students to:

1. Successfully enter the civil and environmental engineering profession as practicing engineers and consultants with prominent companies and organizations in diverse areas that include structural, transportation, geotechnical, materials, environmental, and hydrologic engineering; construction management; or other related or emerging fields.
2. Pursue graduate education and research at major research universities in civil and environmental engineering, and related fields.
3. Pursue professional licensure.
4. Advance to leadership positions in the profession.
5. Engage in continued learning through professional development.
6. Participate in and contribute to professional societies and community services.

## Program Review and Approval

To qualify for the degree of Bachelor of Science in Civil Engineering, each student's academic program plan must be reviewed by a standing committee of the faculty (the Program Review Committee) and approved by the Associate Head of Civil and Environmental Engineering in charge of undergraduate programs. This review and approval process ensures that individual programs satisfy the educational objectives and all of the requirements of the civil engineering program, that those programs do not abuse the substantial degree of flexibility that is present in the curriculum, and that the career interests of each student are cultivated and served.

*for the degree of Bachelor of Science in Civil Engineering*

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). The Advanced Composition course must be BTW 261.**

### Orientation and Professional Development

Code	Title	Hours
CEE 195	About Civil Engineering	1
CEE 495	Professional Practice	0
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		1

### Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
MATH 221	Calculus I <sup>2</sup>	4
MATH 225	Introductory Matrix Theory	2
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
Total Hours		34

### Civil Engineering Technical Core

Code	Title	Hours
CEE 201	Systems Engrg & Economics	3
CEE 202	Engineering Risk & Uncertainty	3
CS 101	Intro Computing: Engrg & Sci	3
SE 101	Engineering Graphics & Design	3
TAM 211	Statics	3
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
TAM 335	Introductory Fluid Mechanics	4
Total Hours		25

### Science Elective

Code	Title	Hours
Science elective, selected in accord with recommendations for the chosen primary field in civil engineering.		3
ATMS 120	Severe and Hazardous Weather	3
CHBE 321	Thermodynamics	4
CHEM 222	Quantitative Analysis Lecture	2
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3

GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
ME 200	Thermodynamics	3
STAT 420	Methods of Applied Statistics	3 or 4

### Civil Engineering Technical Electives

Students choose primary and secondary fields, of which there are seven traditional areas of study and three interdisciplinary programs. The specific choices of courses in this category are made through the submission of a Plan of Study, which is subject to approval by the faculty Program Review Committee.

Code	Title	Hours
<b>Civil engineering technical courses, selected as follows, to at least include:</b>		<b>34</b>

Civil Engineering Core Courses		Hours
The courses that are required and recommended for the primary and secondary fields are listed below. Select at least 5 courses from the following list:		15-16
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
<b>Primary Field Advanced Technical Electives. Select courses from approved lists for appropriate programs of study within the seven areas or three interdisciplinary programs of civil engineering. Design experience is distributed in 200-level, 300-level, and 400-level CEE courses including integrated design courses. See list below:</b>		<b>12-13</b>

#### Construction Engineering and Management

Science Electives Required - NONE		
Science Electives Recommended - See below:		
ATMS 120	Severe and Hazardous Weather	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ECE 205	Electrical and Electronic Circuits	3
FIN 221	Corporate Finance	3
GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
GEOL 333	Earth Materials and the Env	4
GEOL 380	Environmental Geology	4
ME 200	Thermodynamics	3
NPRE 201	Energy Systems	2 or 3
SE 400	Engineering Law	3 or 4
STAT 420	Methods of Applied Statistics	3 or 4
UP 205	Ecology & Environmental Sustainability	3

#### Civil Engineering Core Courses:

CEE 300	Behavior of Materials	4
CEE 320	Construction Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Civil Engineering Core Courses Recommended- None		

## Advanced Technical Courses - Required:

CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning (Required Integrated Design Course)	3 or 4
CEE 422	Construction Cost Analysis	3 or 4
CEE 461	Reinforced Concrete I	3

## Advanced Technical Courses - Recommended:

CEE 401	Concrete Materials	4
CEE 424	Sustainable Const Methods	4
CEE 460	Steel Structures I	3
CEE 469	Wood Structures	3 or 4
CEE 480	Foundation Engineering	3

**Construction Materials Engineering**

## Science Electives Required - None

## Science Electives Recommended:

GEOL 107	Physical Geology	4
ME 430	Failure of Engrg Materials	3 or 4
MSE 201	Phases and Phase Relations	3
TAM 427	Mechanics of Polymers	3
TAM 428	Mechanics of Composites	3

## Civil Engineering Core Courses Required:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3

## Civil Engineering Core Courses Recommended:

CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

## Advanced Technical Courses Required:

CEE 401	Concrete Materials (Required Integrated Design Course)	4
CEE 405	Asphalt Materials I	3 or 4

## Advanced Technical Courses Recommended:

CEE 406	Pavement Design I	3 or 4
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 469	Wood Structures	3 or 4
CEE 483	Soil Mechanics and Behavior	4
MSE 401	Thermodynamics of Materials	3
MSE 402	Kinetic Processes in Materials	3
MSE 406	Thermal-Mech Behavior of Matls	3
MSE 420	Ceramic Materials & Properties	3
MSE 450	Polymer Science & Engineering	3 or 4

**Environmental Engineering**

## Science Electives Required - None

## Science Electives Recommended:

CHEM 222	Quantitative Analysis Lecture	2
CHEM 232	Elementary Organic Chemistry I	3 or 4
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
MCB 300	Microbiology	3
ME 200	Thermodynamics	3
MSE 401	Thermodynamics of Materials	3
STAT 420	Methods of Applied Statistics	3 or 4

## Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

## Civil Engineering Core Courses Recommended:

CEE 350	Water Resources Engineering	3
CEE 380	Geotechnical Engineering	3

## Advanced Technical Courses Required - At least one of:

CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 445	Air Quality Modeling	4
CEE 446	Air Quality Engineering	4

## Advanced Technical Course Recommended:

CEE 430	Ecological Quality Engineering	2
CEE 434	Environmental Systems I	3
CEE 438	Science & Environmental Policy	3
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 445	Air Quality Modeling	4
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab (Required Integrated Design Course)	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3

**Geotechnical Engineering**

## Science Electives Required:

GEOL 107	Physical Geology	4
----------	------------------	---

## Science Electives Recommended:

GEOL 333	Earth Materials and the Env	4
GEOL 380	Environmental Geology	4
GEOL 401	Geomorphology	4
GEOL 411	Structural Geol and Tectonics	4
GEOL 440	Sedimentology and Stratigraphy	4
GEOL 470	Introduction to Hydrogeology	4

## Civil Engineering Core Courses Required:

CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

## Civil Engineering Core Courses Recommended:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3

## Advanced Technical Courses Required:

CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics (Required Integrated Design Course)	3 or 4

## Advanced Technical Courses Recommended:

CEE 457	Groundwater	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 463	Reinforced Concrete II	3 or 4

**Structural Engineering**

Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
ME 200	Thermodynamics	3
Civil Engineering Core Courses:		
CEE 300	Behavior of Materials	4
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 320	Construction Engineering	3
Advanced Technical Courses Required:		
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems (Required Integrated Design Course)	3
CEE 470	Structural Analysis	4
Advanced Technical Courses Recommended - None		

**Transportation Engineering**

Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4
ME 200	Thermodynamics	3
ME 340	Dynamics of Mechanical Systems	3.5
MSE 401	Thermodynamics of Materials	3
SE 320	Control Systems	4
STAT 420	Methods of Applied Statistics	3 or 4
Civil Engineering Core Courses Required:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Advanced Technical Courses: You must select one course from each of the three Areas below and one course from the recommended list.

Area 1 - Facilities		
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
Area 2 - Systems:		
CEE 407	Airport Design	3 or 4
CEE 415	Geometric Design of Roads (Required Integrated Design Course)	4
CEE 416	Traffic Capacity Analysis	3 or 4

CEE 418	Public Transportation Systems	3 or 4
---------	-------------------------------	--------

## Area 3 - Railroad:

CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4

## Recommended:

CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4

**Water Resources Engineering and Science**

Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
ME 200	Thermodynamics	3
Civil Engineering Core Courses Required:		
CEE 350	Water Resources Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 300	Behavior of Materials	4
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required (Choose one):		
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics (Required Integrated Design Course)	4
Advanced Technical Courses Recommended:		
CEE 432	Stream Ecology	3 or 4
CEE 433	Water Technology and Policy	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 458	Water Resources Field Methods	4
CEE 498	Special Topics (Section EH)	1 to 4

**Energy-Water-Environment Sustainability**

Science Electives Required:		
-----------------------------	--	--

ME 200	Thermodynamics or CHBE 32TThermodynamics	3-4	CEE 416	Traffic Capacity Analysis	3 or 4
Science Electives Recommended - None			CEE 417	Urban Transportation Planning	4
Civil Engineering Core Courses Required:			CEE 437	Water Quality Engineering	3
CEE 340	Energy and Global Environment	3	CEE 440	Fate Cleanup Environ Pollutant	4
Civil Engineering Core Courses Recommended:			CEE 449	Environmental Engineering Lab	3
CEE 330	Environmental Engineering	3	CEE 460	Steel Structures I	3
CEE 350	Water Resources Engineering	3	CEE 461	Reinforced Concrete I	3
Advanced Technical Courses Required:			CEE 465	Design of Structural Systems	3
CEE 493	Sustainable Design Eng Tech (Must also select 3 courses from recommended list below)	4	CEE 472	Structural Dynamics I	3 or 4
Advanced Technical Courses Recommended:			CEE 498	Special Topics (Section WE)	1 to 4
ABE 436	Renewable Energy Systems	3 or 4	IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
ARCH 441	Heat and Moisture in Buildings	3	NPRE 442	Radioactive Waste Management	3
CEE 424	Sustainable Const Methods	4	SE 450	Decision Analysis I	3 or 4
CEE 433	Water Technology and Policy	3 or 4	STAT 425	Applied Regression and Design	3 or 4
CEE 434	Environmental Systems I	3	STAT 429	Time Series Analysis	3 or 4
CEE 437	Water Quality Engineering	3	STAT 430	Topics in Applied Statistics	3 or 4
CEE 446	Air Quality Engineering	4	UP 438	Disasters and Urban Planning	4
CEE 449	Environmental Engineering Lab	3	<b>Sustainable and Resilient Infrastructure Systems</b>		
CEE 450	Surface Hydrology	3	Science Electives Required - None		
CEE 452	Hydraulic Analysis and Design	3	Science Electives Recommended:		
CEE 453	Urban Hydrology and Hydraulics	4	ATMS 120	Severe and Hazardous Weather	3
CEE 457	Groundwater	3	CS 357	Numerical Methods I	3
CEE 498	Special Topics (Section EH)	1 to 4	ENSU 300	Environmental Sustainability	3
ENG 471	Seminar Energy & Sustain Engrg	1	ESE 140	Climate and Global Change	3

NPRE 402	Nuclear Power Engineering	3 or 4	ESE 482	Challenges of Sustainability	3
NPRE 475	Wind Power Systems	3 or 4	FIN 221	Corporate Finance	3
<b>Societal Risk and Hazard Mitigation</b>			GEOG 103	Earth's Physical Systems	4
Science Electives Required - None			NPRE 201	Energy Systems	2 or 3
Science Electives Recommended:			NRES 439	Env and Sustainable Dev	3
FIN 230	Introduction to Insurance	3	SE 320	Control Systems	4
GEOL 118	Natural Disasters	3	STAT 420	Methods of Applied Statistics	3 or 4
LAW 301	Introduction to Law	2 or 3	UP 406	Urban Ecology	4
NRES 287	Environment and Society	3	Civil Engineering Core Courses Required:		
STAT 420	Methods of Applied Statistics	3 or 4	CEE 340	Energy and Global Environment	3
Civil Engineering Core Courses Required:			Civil Engineering Core Courses Recommended:		
CEE 340	Energy and Global Environment	3	CEE 300	Behavior of Materials	4
Civil Engineering Core Courses Recommended:			CEE 310	Transportation Engineering	3
CEE 300	Behavior of Materials	4	CEE 320	Construction Engineering	3
CEE 310	Transportation Engineering	3	CEE 330	Environmental Engineering	3
CEE 320	Construction Engineering	3	CEE 350	Water Resources Engineering	3
CEE 330	Environmental Engineering	3	CEE 380	Geotechnical Engineering	3
CEE 350	Water Resources Engineering	3	Advanced Technical Courses Required:		
CEE 360	Structural Engineering	3	CEE 491	Decision and Risk Analysis (And select 3 courses from the recommended list below)	3 or 4
CEE 380	Geotechnical Engineering	3	Advanced Technical Courses Recommended:		
Advanced Technical Courses Required:			ABE 436	Renewable Energy Systems	3 or 4
CEE 491	Decision and Risk Analysis (and select 3 from the recommended list below)	3 or 4	CEE 401	Concrete Materials	4
Advanced Technical Courses Recommended:			CEE 406	Pavement Design I	3 or 4
CEE 406	Pavement Design I	3 or 4	CEE 408	Railroad Transportation Engrg	3 or 4
			CEE 409	Railroad Track Engineering	3 or 4

CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 424	Sustainable Const Methods	4
CEE 434	Environmental Systems I	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 458	Water Resources Field Methods	4
CEE 465	Design of Structural Systems	3
CEE 493	Sustainable Design Eng Tech	4
CEE 498	Special Topics (Section PS)	1 to 4
MSE 489	Matl Select for Sustainability	3 or 4
UP 466	Energy & the Built Environment	4
UP 480	Sustainable Design Principles	2

**General Civil Engineering**

Science Electives Required - Choose one course from recommended list below:

Science Electives Recommended:

GEOL 107	Physical Geology	4
CHEM 222	Quantitative Analysis Lecture	2
CHEM 232	Elementary Organic Chemistry I	3 or 4
ME 200	Thermodynamics	3
STAT 400	Statistics and Probability I	4

Civil Engineering Core Courses Required - Should take 7 courses from list below:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Advanced Technical Courses Required - Option I: Pick no more than one course from each area below such that the sum of the core and advanced courses is at least 34 credit hours.

Option II: Pick 2 courses from one area and no more than one course from each of the remaining areas to total 34 credit hours.

**Construction:**

CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 422	Construction Cost Analysis	3 or 4

**Environmental:**

CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 446	Air Quality Engineering	4

**Geotechnical:**

CEE 480	Foundation Engineering	3
CEE 483	Soil Mechanics and Behavior	4

**Materials:**

CEE 401	Concrete Materials	4
---------	--------------------	---

**Structures:**

CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
<b>Transportation:</b>		
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4

**Water Resources:**

CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4

**Secondary Field Advanced Technical Electives. Select 6 courses from approved lists to complement the primary area and add breadth to the program of study. See list below:**

**Construction Engineering and Management**

Civil Engineering Core Courses Required:

CEE 320	Construction Engineering	3
---------	--------------------------	---

Advanced Technical Courses Required:

CEE 421	Construction Planning	3 or 4
CEE 420	Construction Productivity	3-4
or CEE 422 Construction Cost Analysis		

Advanced Technical Courses Recommended:

CEE 424	Sustainable Const Methods	4
---------	---------------------------	---

**Construction Materials Engineering**

Civil Engineering Core Courses Required:

CEE 300	Behavior of Materials	4
---------	-----------------------	---

Advanced Technical Courses Required - Pick 2 courses from the recommended list below:

Advanced Technical Courses Recommended:

CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4

**Environmental Engineering**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Required - Choose 2 courses from the recommended list below:

CEE 430	Ecological Quality Engineering	2
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 438	Science & Environmental Policy	3
CEE 445	Air Quality Modeling	4
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 446	Air Quality Engineering	4

CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab	3

**Geotechnical Engineering**

Civil Engineering Core Courses Required:

CEE 380	Geotechnical Engineering	3
---------	--------------------------	---

Advanced Technical Courses Required:

CEE 480	Foundation Engineering	3-4
	or CEE 484 Applied Soil Mechanics	

CEE 483	Soil Mechanics and Behavior	4
---------	-----------------------------	---

Advanced Technical Courses Recommended - NONE

**Structural Engineering**

Civil Engineering Core Courses Required:

CEE 360	Structural Engineering	3
---------	------------------------	---

Advanced Technical Courses Required:

CEE 460	Steel Structures I	3
---------	--------------------	---

CEE 461	Reinforced Concrete I	3
---------	-----------------------	---

**Transportation Engineering**

Civil Engineering Core Courses Required:

CEE 310	Transportation Engineering	3
---------	----------------------------	---

Advanced Technical Courses Required: Select 2 courses, each from a different Area

Area 1 - Facilities:

CEE 405	Asphalt Materials I	3 or 4
---------	---------------------	--------

CEE 406	Pavement Design I	3 or 4
---------	-------------------	--------

CEE 407	Airport Design	3 or 4
---------	----------------	--------

Area 2 - Systems:

CEE 407	Airport Design	3 or 4
---------	----------------	--------

CEE 415	Geometric Design of Roads	4
---------	---------------------------	---

CEE 416	Traffic Capacity Analysis	3 or 4
---------	---------------------------	--------

CEE 418	Public Transportation Systems	3 or 4
---------	-------------------------------	--------

Area 3 - Railroad:

CEE 408	Railroad Transportation Engrg	3 or 4
---------	-------------------------------	--------

CEE 409	Railroad Track Engineering	3 or 4
---------	----------------------------	--------

CEE 410	Railway Signaling & Control	3 or 4
---------	-----------------------------	--------

CEE 411	RR Project Design & Constr	3 or 4
---------	----------------------------	--------

**Water Resources Engineering and Science**

Civil Engineering Core Courses Required:

CEE 350	Water Resources Engineering	3
---------	-----------------------------	---

Advanced Technical Courses Required: 2 courses from the recommended list below:

Advanced Technical Courses Recommended:

CEE 432	Stream Ecology	3 or 4
---------	----------------	--------

CEE 433	Water Technology and Policy	3 or 4
---------	-----------------------------	--------

CEE 450	Surface Hydrology	3
---------	-------------------	---

CEE 451	Environmental Fluid Mechanics	3
---------	-------------------------------	---

CEE 452	Hydraulic Analysis and Design	3
---------	-------------------------------	---

CEE 453	Urban Hydrology and Hydraulics	4
---------	--------------------------------	---

CEE 457	Groundwater	3
---------	-------------	---

CEE 458	Water Resources Field Methods	4
---------	-------------------------------	---

CEE 498	Special Topics (Section EH)	1 to 4
---------	-----------------------------	--------

**Energy-Water-Environment Sustainability**

Civil Engineering Core Courses Required:

CEE 340	Energy and Global Environment	3
---------	-------------------------------	---

Advanced Technical Courses Required:

CEE 493	Sustainable Design Eng Tech (and select one course from the recommended list below:)	4
---------	--	---

Advanced Technical Courses Recommended:

ABE 436	Renewable Energy Systems	3 or 4
---------	--------------------------	--------

ARCH 441	Heat and Moisture in Buildings	3
----------	--------------------------------	---

CEE 424	Sustainable Const Methods	4
---------	---------------------------	---

**Global Context**

Science Electives Recommended:

CPSC 116	The Global Food Production Web	3
ESE 140	Climate and Global Change	3
ESE 320	Water Planet, Water Crisis	3
ESE 482	Challenges of Sustainability	3

Civil Engineering Core Courses Recommended:

CEE 330	Environmental Engineering or CEE 350 Water Resources Engineering	3
CEE 340	Energy and Global Environment	3

Advanced Technical Courses Recommended: Must take at least 3 credit hours in each of the 2 areas below:

Knowledge and Skills Needed to Effectively Address Global Issues:

ACE 451	Agriculture in Intl Dev	3 to 4
ATMS 421	Earth Systems Modeling	4
CEE 438	Science & Environmental Policy	3
CEE 445	Air Quality Modeling	4
CEE 447	Atmospheric Chemistry	4
CEE 450	Surface Hydrology	3
ECON 420	International Economics	2 to 4

Global CEE Design:

CEE 408	Railroad Transportation Engrg	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 449	Environmental Engineering Lab	3

CEE 465	Design of Structural Systems	3
---------	------------------------------	---

**CEE Multidisciplinary**

Science Electives Recommended: Any recommended science electives from existing CEE Primary and Secondary listed above

Civil Engineering Core Courses Recommended: Core courses relevant to the student's interests

Advanced Technical Courses: Students work with CEE Academic Advisors

**Atmosphere Science (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

ATMS 302	Atmospheric Dynamics I	3
ATMS 410	Radar Remote Sensing	4
ATMS 411	Satellite Remote Sensing	4
ATMS 421	Earth Systems Modeling	4
CEE 445	Air Quality Modeling	4
CEE 447	Atmospheric Chemistry	4

**Chemistry (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 315	Instrumental Chem Systems Lab	2
CHEM 332	Elementary Organic Chem II	4
CHEM 420	Instrumental Characterization	2
CHEM 440	Physical Chemistry Principles	4

**Chemical Engineering (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3

Advanced Technical Courses Recommended:

CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3

**Microbiology (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

MCB 301	Experimental Microbiology	3
MCB 431	Microbial Physiology	3
MCB 450	Introductory Biochemistry	3
CEE 444	Env Eng Principles, Biological	4

**Toxicology (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

CHEM 332	Elementary Organic Chem II	4
ENVS 431	Environ Toxicology & Health	3

ENVS 480	Basic Toxicology	3
MCB 450	Introductory Biochemistry	3

## Electives

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>3</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>4</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>4</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/cee-map/>).

### First Year

First Semester	Hours
CEE 195 <sup>1</sup> About Civil Engineering	1
ENG 100 Engineering Orientation	0
MATH 221 <sup>2</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research or SE 101 <sup>3</sup>	4-3
General education elective <sup>4</sup>	3
<b>Semester Hours</b>	<b>16-15</b>

### Second Semester

MATH 231 Calculus II	3
CHEM 104 General Chemistry II	3
CHEM 105 General Chemistry Lab II	1
PHYS 211 University Physics: Mechanics	4
CS 101 Intro Computing: Engrg Sci	3

SE 101 Engineering Graphics Design or RHET 105 <sup>3</sup>	3-4
<b>Semester Hours</b>	<b>17-18</b>

### Second Year

#### First Semester

CEE 201 Systems Engrg Economics	3
MATH 241 Calculus III	4
PHYS 212 University Physics: Elec Mag	4
TAM 211 Statics	3
MATH 225 Introductory Matrix Theory	2

<b>Semester Hours</b>	<b>16</b>
-----------------------	-----------

#### Second Semester

CEE 202 Engineering Risk Uncertainty	3
PHYS 213 Univ Physics: Thermal Physics	2
TAM 212 Introductory Dynamics	3
TAM 251 Introductory Solid Mechanics	3
General education elective <sup>4</sup>	3
Free elective	3

<b>Semester Hours</b>	<b>17</b>
-----------------------	-----------

### Third Year

#### First Semester

MATH 285 Intro Differential Equations	3
TAM 335 Introductory Fluid Mechanics	4
Civil engineering technical courses <sup>5</sup>	6
Science elective <sup>6</sup>	3

<b>Semester Hours</b>	<b>16</b>
-----------------------	-----------

#### Second Semester

BTW 261 Principles Tech Comm	3
Civil engineering technical courses <sup>5</sup>	10
General education elective <sup>4</sup>	3

<b>Semester Hours</b>	<b>16</b>
-----------------------	-----------

### Fourth Year

#### First Semester

CEE 495 Professional Practice	0
Civil engineering technical courses <sup>5</sup>	9
General education electives <sup>4</sup>	6

<b>Semester Hours</b>	<b>15</b>
-----------------------	-----------

#### Second Semester

Civil engineering technical courses <sup>5</sup>	9
General education elective <sup>4</sup>	3
Free elective	3

<b>Semester Hours</b>	<b>15</b>
-----------------------	-----------

<b>Total Hours:</b>	<b>128</b>
---------------------	------------

<sup>1</sup> Offered in the fall semester, student should take in the first or second semester of enrollment in Civil Engineering.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

- <sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.
- <sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.
- <sup>5</sup> Civil engineering technical courses are defined as core courses and advanced technical electives and must total 34 hours of credit. Five courses and a minimum of fifteen hours must be core courses as outlined in the Civil Engineering Undergraduate Handbook. (<http://cee.illinois.edu/handbooks/>) Advanced technical electives are selected to correspond with chosen primary and secondary areas of emphasis in civil engineering as outlined in the Civil Engineering Undergraduate Handbook. (<http://cee.illinois.edu/handbooks/>) A minimum of twelve and six hours must be taken for the primary and secondary areas, respectively.
- <sup>6</sup> The science elective is selected in accord with recommendations for the chosen primary area of emphasis in civil engineering as outlined in the Civil Engineering Undergraduate Handbook (<http://cee.illinois.edu/handbooks/>).

## Learning Outcomes: Civil Engineering

Learning Outcomes for the degree of Bachelor of Science Major in Civil Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Civil Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Classics, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics

---

**department website:** <http://www.classics.illinois.edu/>  
**department faculty:** Classics Faculty (<https://classics.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [classics@illinois.edu](mailto:classics@illinois.edu)

---

Students choose from the following concentrations:

Classical Civilizations (p. 99)

Classical Languages (p. 99)

For students interested in adding licensure to the BALAS in Classics, please visit the Department of the Classics academics page: <https://classics.illinois.edu/academics/undergraduate-program/teaching-latin/> (<https://classics.illinois.edu/academics/undergraduate-program/teaching-latin/>)

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics

---

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Majors choosing the Classical Civilization and Classical Archaeology concentrations are advised, but not required, to satisfy the campus general education language requirement with one of the classical languages.**

**Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department's honors committee at the earliest opportunity.**

Students choose from the following concentrations:

Classical Civilizations (p. 99)

Classical Languages (p. 99)

## Learning Outcomes: Classics, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics

1. Acquire and retain a detailed knowledge of Greek and Latin grammar, syntax, vocabulary, and modes of expression so as to be able to read literary and subliterary texts composed in Greek and Latin between roughly 800 BCE and 500 CE.

- Situate knowledge of the languages within the cultural contexts in which they were used in order to understand the crucial role of language in social dynamics and cross-cultural communication.
- Acquire facility with contemporary methods of literary and historical analysis sufficient to carry out original, self-directed research into cultures that made use of the Greek and Latin languages.
- Acquire critical awareness of the place of Greek and Latin in western literary history in order to appreciate the powerful role of tradition in interpreting the texts and events of the past.
- Acquire a detailed knowledge of the culture of Ancient Greek and Roman civilizations, especially the broader historical, social, and cultural contexts and their development.

**Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult the Director of Undergraduate Studies at the earliest opportunity.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting coursework: Normally equates to 44 hours. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

**Students choose one of three tracks: Ancient Greek, Latin, or Ancient Greek & Latin**

### Ancient Greek Track

GRK 101, Elementary Greek I, is a prerequisite for subsequent GRK courses; does not count toward the 32 hours for the concentration.

Code	Title	Hours
Ancient Greek Track		
GRK 102	Elementary Greek II	4
GRK 201	Classical & Koine Greek I	4
GRK 202	Classical & Koine Greek II	4
GRK 411	Greek Prose Composition	3
CLCV 114	Introduction to Greek Culture	3
11 hours of Greek courses, at least 6 hours of which must be at the 300-400 level, from the following:		11
GRK 251	Elementary Modern Greek I	
GRK 252	Elementary Modern Greek II	
GRK 401	Survey of Greek Literature	
GRK 403	Intermediate Modern Greek I	
GRK 404	Intermediate Modern Greek II	
GRK 491	Readings in Greek Literature	
GRK 492	Senior Thesis	
GRK 493	Independent Reading	
One additional CLCV course (3 hours)		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of Classics Director of Undergraduate Studies		12
Total Hours		44

### Latin Track

LAT 101, Elementary Latin I, is a prerequisite for subsequent LAT courses and does not count toward the 32 hours for the concentration.

Code	Title	Hours
Latin Track		
LAT 102	Elementary Latin II	4
LAT 201	Intermediate Latin	4
LAT 202	Intro to Latin Literature	4
LAT 411	Intermediate Prose Composition	3
CLCV 116	The Roman Achievement	3
11 hours of latin courses, at least 6 hours of which must be at the 300-400 level, chosen from the following:		11
LAT 401	Survey of Latin Literature	
LAT 460	Medieval Latin	

LAT 491	Readings in Latin Literature	
LAT 492	Senior Thesis	
LAT 493	Independent Reading	
One additional CLCV course		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of the CLassics Director of Undergraduate Studies		12
Total Hours		44

### Ancient Greek & Latin Track

LAT 101, Elementary Latin I (a prerequisite for subsequent LAT courses) and GRK 101, Elementary Greek I (a prerequisite for subsequent GRK courses) and do not count toward the 32 hours for the concentration.

Code	Title	Hours
Ancient Greek & Latin Track		
GRK 102	Elementary Greek II	4
GRK 201	Classical & Koine Greek I	4
GRK 202	Classical & Koine Greek II	4
LAT 102	Elementary Latin II	4
LAT 201	Intermediate Latin	4
LAT 202	Intro to Latin Literature	4
GRK 411	Greek Prose Composition	3
	or LAT 411 Intermediate Prose Composition	
Additional GRK or LAT coursework at 400-level		2
One CLCV course		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of the Classics Director of Undergraduate Studies		12
Total Hours		44

## Communication, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication*

**department website:** <https://communication.illinois.edu/>

**department faculty:** Communication Faculty (<https://communication.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [communication@illinois.edu](mailto:communication@illinois.edu)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication*

**Departmental distinction: Superior students are encouraged to consult the departmental honors adviser about requirements and opportunities for participation in the departmental honors program. General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: At least 15 hours of the required 37 hours in Communication must be at the 300 level or above. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Introduction to Public Speaking (choose one):		3
CMN 101	Public Speaking	
OR		
CMN 112	Oral & Written Comm II <sup>1</sup>	
CMN 102	Introduction to Communication	4
Communication Courses: Students will select an option (A or B) and a specialization (if Option B is chosen) in consultation with an undergraduate advisor in Communication.		30

OPTION A: Students who wish a general course of study will take at least one course from five of the following six areas and the remaining hours will be selected in consultation with an advisor.

OPTION B: Students who choose to concentrate within an area must take four courses from one of the six areas listed below and the remaining hours will be selected in consultation with an advisor. Students may complete more than one specialization by completing four courses in each area desired; however, individual courses may not be counted toward more than one specialization.

#### Communication & Culture Area

CMN 232	Intro to Intercultural Comm
CMN 250	Social Movement Communication
CMN 275	Media, Money and Power
CMN 280	Comm Technology & Society
CMN 320	Comm Controversy Public Policy
CMN 326	Mass Media and the Audience
CMN 357	Intro to Conversation Analysis
CMN 361	Storytelling as Oral Communication
CMN 375	Popular Media and Culture
CMN 429	Race and the Mass Media
CMN 432	Gender Communication
CMN 450	Topics in Public Communication

#### Communication & Health Area:

CMN 220	Communicating Public Policy
CMN 230	Intro to Interpersonal Comm
CMN 260	Intro to Health Communication
CMN 321	Strategies of Persuasion
CMN 323	Argumentation
CMN 368	Sexual Communication
CMN 421	Persuasion Theory & Research
CMN 467	Communication & Health Equity
CMN 435	Adv Interpersonal Comm
CMN 462	Interpersonal Health Comm

CMN 463	Organizational Health Comm
CMN 464	Health Communication Campaigns
CMN 465	Social Marketing

#### Communication & Organizations Area:

CMN 211	Business and Professional Communication
CMN 212	Intro to Organizational Comm
CMN 213	Small Group Communication
CMN 215	Interviewing: The Art and Science of Effective Questioning
CMN 232	Intro to Intercultural Comm
CMN 280	Comm Technology & Society
CMN 312	Communicating for Innovation
CMN 323	Argumentation
CMN 370	Political Economy of Communication
CMN 377	Propaganda and Modern Society
CMN 410	Workplace Comm Technology
CMN 411	Organizational Comm Assessment
CMN 412	Adv Organizational Comm
CMN 413	Adv Small Group Communication
CMN 463	Organizational Health Comm
CMN 464	Health Communication Campaigns
CMN 476	Commercialism and the Public

#### Interpersonal Communication Area:

CMN 213	Small Group Communication
CMN 230	Intro to Interpersonal Comm
CMN 232	Intro to Intercultural Comm
CMN 260	Intro to Health Communication
CMN 321	Strategies of Persuasion
CMN 323	Argumentation
CMN 336	Family Communication
CMN 338	Relationships and Technologies
CMN 357	Intro to Conversation Analysis
CMN 368	Sexual Communication

Total Hours 37

<sup>1</sup> CMN 111 is a prerequisite for CMN 112. Credit in CMN 111 will not count towards the minimum of 37 hours of Communication courses required for the major.

## Learning Outcomes: Communication, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication

- Students will demonstrate competence in oral and written communication, including public speaking, argumentation and reasoning, deliberation, and media analysis and critique.
- Students will have broad knowledge of communication research and theory and understand how to apply theoretical concepts in practical settings.
- Students will understand the political and social import of communication and develop competencies required to engage productively with discourses related to all aspects of public and private life.
- Students will understand the communicative implications of human diversity, including issues related to race, culture, class, religion, gender, sexual identity, and disability.
- Students will gain communication competencies that afford them rewarding opportunities, such as satisfying employment or post-graduate study.

## Community Health, BS

for the Bachelor of Science Major in Community Health

**Department Website:** <http://kch.illinois.edu/>

**Department Faculty:** Kinesiology & Community Health Faculty (<http://kch.illinois.edu/faculty/>)

**College Catalog Page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**College Website:** <http://ahs.illinois.edu/>

Students pursuing this major select one of three concentrations:

Health Education & Promotion (p. 103)

Health Planning & Administration (p. 107)

Rehabilitation Studies (p. 113)

### Programs in Community Health and Kinesiology

**Undergraduate Programs:**

**major:** Community Health, BS (p. 102)

**concentration:** Community Health: Health Education & Promotion, BS (p. 103)

**concentration:** Community Health: Health Planning & Administration, BS (p. 107)

**concentration:** Community Health: Rehabilitation Studies, BS (p. 113)

**major:** Kinesiology, BS (p. 237)

**concentration:** Kinesiology: Teacher Certification, BS (p. 238)

**minor:** Kinesiology (p. 481)

**minor:** Disability Studies (<http://catalog.illinois.edu/undergraduate/ahs/minors/disability-studies/>)

for the Bachelor of Science Major in Community Health, Health Education & Promotion Concentration

#### Correlates

The Community Health Program requires certain courses from the approved lists be taken as noted below. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education Requirements provided they are on the appropriate General Education List.

A total of 128 hours is required for a degree in Community Health with all the above requirements met. There will be range of electives a student will be able to take depending on the general education number of hours.

### General Education

Code	Title	Hours
<b>Communication Arts</b>		
	Composition I and an approved speech performance course; or CMN 111 and CMN 112	6-7
	Advanced Composition (CHLH 304 fulfills requirement)	3-4
<b>Quantitative Reasoning I &amp; II</b>		
	From approved campus list (must include a course in statistics from approved campus list) (CHLH 244 and CHLH 421 fulfills requirement)	6
<b>Humanities and the Arts</b>		
	From approved campus list (CHLH 260 fulfills 3 hours of requirement)	9
<b>Social and Behavioral Sciences</b>		
	From approved campus list	9
<b>Natural Sciences and Technology</b>

The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

for the Bachelor of Science Major in Community Health, Health Planning & Administration Concentration

The Community Health Program requires certain courses from the approved lists be taken as noted below. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education Requirements provided they are on the appropriate General Education List.

A total of 128 hours is required for a degree in Community Health with all the above requirements met. There will be range of electives a student will be able to take depending on the general education number of hours.

## General Education

Code	Title	Hours
<b>Communication Arts</b>		
	Composition I and an approved speech performance course; or CMN 111 and CMN 112	6-7
	Advanced Composition (CHLH 304 fulfills requirement)	3-4
<b>Quantitative Reasoning I &amp; II</b>		
	From approved campus list (must include a course in statistics from approved campus list) (CHLH 244 and CHLH 421 fulfills requirement)	6
<b>Humanities and the Arts</b>		
	From approved campus list (CHLH 260 fulfills 3 hours of requirement)	9
<b>Social and Behavioral Sciences</b>		
	From approved campus list	9
<b>Natural Sciences and Technology</b>		
	From approved campus list	9
<b>Cultural Studies</b> <sup>1</sup>		
	One course from Non-Western Cultures approved campus list.	3
	One course from U.S. Minority Cultures approved campus list	3
	One course from Western Cultures approved campus list	3
	Foreign Language: Completion through the third level of the same language in high school or college	
	Total Hours	51-53

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

The Community Health Program at the University of Illinois prepares students in the ever changing world of health care and health behavior as practitioners and offers three concentrations at the undergraduate level: Health Education & Promotion (p. 103), Health Planning & Administration (p. 107), and Rehabilitation Studies (p. 113). All curricula are built on a foundation of general education courses which emphasize communication skills and critical thinking. The Professional Core courses are designed to help students develop skills in planning, implementation, and evaluation in the context of health services and programs. Students must complete an internship during their senior year in a setting related to the degree and their interests. Recent internship sites have included the American Heart Association, the American Red Cross, hospitals, nursing homes, fitness centers, work site health education programs, and substance abuse prevention centers.

Further information is available from the Academic Affairs Office, Department of Kinesiology & Community Health, University of Illinois at Urbana-Champaign, 1206 S. Fourth Street, 2021 Khan Annex, Huff Hall, Champaign, IL 61820, (217) 333-2307.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with

both BS and MPH degrees. A summary of the requirements for the MPH degree is provided here (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/#degreerequirementstext>). The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

*for the Bachelor of Science Major in Community Health, Rehabilitation Studies Concentration*

The Community Health Program requires certain courses from the approved lists be taken as noted below. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education Requirements provided they are on the appropriate General Education List.

A total of 128 hours is required for a degree in Community Health with all the above requirements met. There will be range of electives a student will be able to take depending on the general education number of hours.

## General Education

Code	Title	Hours
<b>Communication Arts</b>		
	Composition I and an approved speech performance course; or CMN 111 and CMN 112	6-7
	Advanced Composition (CHLH 304 fulfills requirement)	3-4
<b>Quantitative Reasoning I &amp; II</b>		
	From approved campus list (must include a course in statistics from approved campus list) (CHLH 244 and CHLH 421 fulfills requirement)	6
<b>Humanities and the Arts</b>		
	From approved campus list (CHLH 260 fulfills 3 hours of requirement)	9
<b>Social and Behavioral Sciences</b>		
	From approved campus list	9
<b>Natural Sciences and Technology</b>		
	From approved campus list	9
<b>Cultural Studies</b> <sup>1</sup>		
	One course from Non-Western Cultures approved campus list.	3
	One course from U.S. Minority Cultures approved campus list	3
	One course from Western Cultures approved campus list	3
	Foreign Language: Completion through the third level of the same language in high school or college	
	Total Hours	51-53

## Learning Outcomes: Community Health, BS

*Learning outcomes for the Bachelor of Science Major in Community Health*

- Content Knowledge:** Students will know and comprehend the significant theories, models, themes, and ideas in the biomechanical, physiological, behavioral, pedagogical, biological, socioeconomic, environmental, and sociocultural correlates of Kinesiology and Community Health.
- Critical Thinking and Discovery:** Students will comprehend and demonstrate ethical practices and the application of scientific findings and/or critical analysis in order to interpret, promote inquiry, propose solutions, and/or create new ideas related to health, rehabilitation, and/or human movement.
- Awareness and Understanding:** Students will understand and appreciate the diverse socioeconomic, behavioral, sociocultural, biological, environmental, philosophical, and historical factors that influence health, rehabilitation, and human movement.
- Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases.
- Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and

sustain productive relationships and work for the common good at local, national, and global levels.

## Community Health, BS & Public Health, MPH

*for the Bachelor of Science Major in Community Health*

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

The Community Health Program at the University of Illinois prepares students in the ever changing world of health care and health behavior as practitioners and offers three concentrations at the undergraduate level: Health Education & Promotion, Health Planning & Administration, and Rehabilitation Studies. All curricula are built on a foundation of general education courses which emphasize communication skills and critical thinking. The Professional Core courses are designed to help students develop skills in planning, implementation, and evaluation in the context of health services and programs. Students must complete an internship during their senior year in a setting related to the degree and their interests. Recent internship sites have included the American Heart Association, the American Red Cross, hospitals, nursing homes, fitness centers, work site health education programs, and substance abuse prevention centers.

Further information is available from the Academic Affairs Office, Department of Kinesiology & Community Health, University of Illinois at Urbana-Champaign, 1206 S. Fourth Street, 2021 Khan Annex, Huff Hall, Champaign, IL 61820, (217) 333-2307.

*for the Bachelor of Science Major in Community Health*

Only students who have completed their junior year but have not yet completed their senior year are eligible to apply. The curriculum, degree requirements, and faculty for the 5-year BS-MPH program (MPH portion) are the same as the regular MPH program.

The BS-MPH program is accelerated. Students take a heavier course load during the fifth year, called the MPH year. The MPH year consists of one Fall semester, one Spring semester, and one Summer semester.

For students in the Epidemiology concentration, the MPH portion of the degree consists of one Fall semester, one Spring semester, one Summer semester, and a second Fall semester, with students graduating in December.

## Comparative & World Literature, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature*

The Major in Comparative & World Literature, Comparative Literature Concentration provides an engagement with two or more literary and cultural traditions, studied in historical depth, in their original languages (6 hours of advanced foreign language required).

Study abroad and work across cultures and disciplines is strongly encouraged. The distribution of course work allows for considerable flexibility. The concentration in Comparative Literature can be easily combined with a major or minor in any national literature, classics, global studies, area studies, ethnic studies, gender and women's studies, or majors and minors in anthropology, art history, cinema and media studies, history, music, philosophy, world religion, the visual arts, or with a certificate in translation studies.

### *for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature, Comparative Literature Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

**Departmental distinction: To be eligible for distinction, a student must have at least a 3.25 cumulative grade-point average and a 3.75 grade-point average in departmental courses, complete a senior thesis (CWL 493), and receive the approval of the departmental honors committee. The departmental honors committee will determine the level of distinction to be awarded.**

#### **Comparative Literature Concentration Requirements**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work equate to 39 hours with at least 18 hours of Comparative Literature courses.**

**Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours. Students will complete 40 hours of upper division coursework (these hours can be drawn from all elements of the degree).**

Code	Title	Hours
<b>Language: A minimum of 6 hours of advanced language at the 200-400 level (may be satisfied with a proficiency exam)</b>		<b>6</b>
CWL 202	Literature and Ideas	3

<b>Five core CWL courses chosen from broadly comparative courses, from the following:</b>		<b>15</b>
---	--	-----------

At least two courses must be at the 300- 400-level. At least one course must be in a period prior to 1800 and one course in a period since 1800.

CWL 114	Global Consciousness and Lit	
CWL 151	Cross-Cultural Thematics	
CWL 189	Lit of Asia & Africa I	
CWL 190	Lit of Asia & Africa II	
CWL 201	Comparative Lit Studies	
CWL 241	Early Masterpieces of Western Culture	
CWL 242	Modern Masterpieces of Western Culture

CWL 441	Themes in Narrative	
CWL 461	Lit Genres and Forms	
CWL 471	International Lit Relations	
CWL 496	Special Topics in Comp Lit II	

<b>Major Literature Coursework- Three courses in a major literature, taught in the original language, at 200-400-level. No more than 2 courses at the 200-level.</b>	<b>9</b>
--	----------

<b>Focus Area Coursework - At least two courses from one of the following focus areas, at 200-400 level. No more than 1 course at the 200-level:</b>	<b>6</b>
--	----------

Minor Literature: courses in a second national literature, taught in the original language.<sup>2</sup>

Interdisciplinary: courses in another discipline, such as philosophy, cinema, art history, fine arts, music, religion, science, medical humanities, law, creative writing

Cultural Studies: courses with a focus on race, gender, class, postcolonialism, environmental studies, or the like

Area Studies: courses in a geographical area related to major literature (Africa, Middle East, Latin America, South Asia, East Asia, Eastern Europe, the European Union).

Minimum Required Hours:

39

<sup>1</sup> Literature in the Original Language is defined by what is currently offered by the University (i.e. English, French, German, Italian, Spanish, etc.). Literatures generally taught in translation (including, but not limited to, Arabic, Chinese, Hebrew, Japanese, Persian, Polish, Russian, and Yiddish) may be chosen in consultation with the Director of Undergraduate Studies.

<sup>2</sup> If one of the literatures studied is English, a student who continues in a graduate program in comparative literature will be required to acquire a reading knowledge of a second foreign language (i.e., one foreign language for the B.A., two foreign languages for the M.A., three foreign languages for the Ph.D.).

## Comparative & World Literature: World Literature, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature, World Literature Concentration

**program website:** <https://complit.illinois.edu/>

**program faculty:** Comparative & World Literature Faculty (<https://complit.illinois.edu/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [complit@illinois.edu](mailto:complit@illinois.edu)

The Major in Comparative & World Literature, World Literature Concentration focuses on breadth in the study of literatures and cultures from around the globe, read in English translation (no foreign language required beyond the General Education requirement). This concentration can be easily combined with a certificate in Translation Studies, a major or minor in Global Studies, Area Studies, Ethnic Studies, Gender and Women's Studies, or majors and minors in anthropology, cinema and media studies, history, music, political science, philosophy, world religion, the visual arts, and related fields.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative and World Literature, World Literature Concentration

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

**Departmental distinction:** To be eligible for distinction, a student must have at least a 3.25 cumulative grade-point average and a 3.75 grade-point average in departmental courses, complete a senior thesis (CWL 493), and receive the approval of the departmental honors committee. The departmental honors committee will determine the level of distinction to be awarded.

### World Literature Concentration Requirements

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work** equate to 33 hours with at least 18 hours of Comparative Literature courses.

**Twelve hours of 300- 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours. Students will complete 40 hours of upper division coursework (these hours can be drawn from all elements of the degree).**

Code	Title	Hours
CWL 202	Literature and Ideas	3

**Five core CWL courses chosen from broadly comparative courses, from the following:** 15

At least two courses must be at the 300-400- level. At least one course must be in a period prior to 1800 and one course in a period since 1800.

CWL 114	Global Consciousness and Lit	
CWL 151	Cross-Cultural Thematics	
CWL 189	Lit of Asia & Africa I	
CWL 190	Lit of Asia & Africa II	
CWL 201	Comparative Lit Studies	
CWL 241	Early Masterpieces of Western Culture	
CWL 242	Modern Masterpieces of Western Culture	
CWL 395	Special Topics Comp Lit I	
CWL 441	Themes in Narrative	
CWL 461	Lit Genres and Forms	
CWL 471	International Lit Relations	
CWL 496	Special Topics in Comp Lit II	

**Three courses from at least two national traditions at 200-400 level. No more than 2 courses at the 200-level.** 9

**Chosen from any literature courses offered by the following departments:**

African American Studies	
American Indian Studies	
Asian American Studies	
Gender & Women's Studies	
Classics	
East Asian Languages & Cultures	
English	
French & Italian	
Germanic Languages & Literature	
Jewish Culture & Society	
Latino/Latina Studies	
Slavic Languages & Literature	
Spanish & Portuguese	

**Area / Cultural Studies Coursework - Two courses at 300-400 level in any literature or in one of the following fields:** 6

Another discipline: e.g. philosophy, cinema, art history, fine arts, music, religion, science, medical humanities, law, creative writing.

Cultural studies: e.g. race, gender, class, postcolonialism, environmental studies.

Area Studies: Africa, Middle East, Latin America, South Asia, East Asia, Eastern Europe, the European Union.

Minimum Required Hours:

33

## Learning Outcomes: Comparative & World Literature, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative Literature

### 1. Social Awareness and Cultural Understanding / Global Consciousness:

CWL students will develop a comparative understanding of national literatures in the context of a globalizing world, and an ability to situate texts in their cultural and historical contexts.

- a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.

### 2. Intellectual Reasoning and Knowledge:

CWL students will appreciate the aesthetic qualities of literary texts and develop an awareness of influential critical and interpretive methods.

- a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.

### 3. Intellectual Reasoning and Knowledge:

CWL students will demonstrate a general understanding of the conventions of literary genres and of the major developments in literary history.

- a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.

### 4. Creative Inquiry and Discovery:

Students will demonstrate ability to express oneself orally and in writing in a clear, coherent and persuasive manner, and to construct an interpretive argument.

- a. *Measurable by:* analysis of student work samples; focus groups.

### 5. For Comparative Literature concentration only:

Students will demonstrate mastery of at least two languages.

- a. *Measurable by:* participation in 200-400 level courses in the original language; degree progress and course completion.

building exciting applications. Fundamentally, Computer Engineering addresses the problem of building scalable, trustworthy computing systems, and the faculty's interests span a broad spectrum of issues pertinent to this theme. Computer engineering has taken the lead in revolutionizing many science and engineering disciplines with parallel computing, from chips to clouds to planet-scale critical infrastructures, and has defined new standards of security, privacy, and dependability for systems ranging from small circuits to the electric power grids of many nations. Students need a broad and sound set of mathematical and computing skills, and are well-served by a flexible curriculum that enables them to pursue topics of interest among the many subdisciplines in computing.

The computer engineering core curriculum focuses on fundamental computer engineering knowledge: circuits, systems, electromagnetics, computer systems, electronics for information processing and communication, and computer science. The rich set of ECE elective courses permits students to concentrate in any sub-discipline of computer engineering including: hardware systems; cyberphysical systems; foundations and theory; software and languages; algorithms and mathematical tools; trust, reliability, security; networking, mobile and distributed computing; big data analytics and systems; artificial intelligence, robotics, cybernetics.

for the degree of Bachelor of Science in Computer Engineering

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>): **2.0**

TGPA is required for ECE courses (except ECE 316). See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

ECE 445	Senior Design Project Lab <sup>6</sup>	4
ECE 496	Senior Research Project (and ECE 499 - Senior Thesis) <sup>6</sup>	4

**Electives**

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>7</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>8</sup>	12
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.

<sup>4</sup> MATH 213 may be substituted.

<sup>5</sup> STAT 410 may be substituted.

<sup>6</sup> Advanced Composition may be satisfied by completing ECE 445 or ECE 496 and ECE 499 or a course within either the general education or free elective categories which has the Advanced Composition designation.

<sup>7</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-GeneralEducation>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>8</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Computer Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/ce-map/>).

### First Year

First Semester	Hours
ECE 120 Introduction to Computing	4
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research (or General Education elective) <sup>2,3</sup>	4-3

Semester Hours 16-15

### Second Semester

ECE 110 <sup>4</sup> Introduction to Electronics	3
MATH 231 Calculus II	3
PHYS 211 University Physics: Mechanics	4
ECE 220 Computer Systems Programming	4
General Education elective (or RHET 105) <sup>2,3</sup>	3-4

Semester Hours 17-18

### Second Year

First Semester	Hours
MATH 241 Calculus III	4
PHYS 212 University Physics: Elec Mag	4
CS 173 <sup>5</sup> Discrete Structures	3
General Education elective <sup>3</sup>	3
Free elective	3

Semester Hours 17

### Second Semester

MATH 286 Intro to Differential Eq Plus	4
ECE 210 Analog Signal Processing	4
CS 225 Data Structures	4
General Education elective <sup>3</sup>	3

Semester Hours 15

### Third Year

First Semester	Hours
PHYS 213 Univ Physics: Thermal Physics	2
PHYS 214 Univ Physics: Quantum Physics	2
ECE 313 <sup>6</sup> Probability with Engrg Applic	3
ECE 385 Digital Systems Laboratory	3

Technical elective <sup>7</sup>	3
General education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>16</b>
<b>Second Semester</b>	
ECE 391 Computer Systems Engineering	4
Technical elective <sup>7</sup>	6
General education elective <sup>3</sup>	3
Free elective	3
<b>Semester Hours</b>	<b>16</b>
<b>Fourth Year</b>	
<b>First Semester</b>	
ECE 374 Introduction to Algorithms Models of Computation	4
Technical electives <sup>7</sup>	6
General education elective <sup>3</sup>	3
Free elective	3
<b>Semester Hours</b>	<b>16</b>
<b>Second Semester</b>	
ECE 411 Computer Organization Design	4
Technical electives <sup>7</sup>	8
Free elective	3
<b>Semester Hours</b>	<b>15</b>
<b>Total Hours:</b>	<b>128</b>

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.

<sup>5</sup> MATH 213 may be substituted.

<sup>6</sup> STAT 410 may be substituted.

<sup>7</sup> All are to be chosen from the departmentally approved List of Technical Electives (<https://ece.illinois.edu/academics/ugrad/curriculum/tech-electives-06/>).

<sup>8</sup> ECE 445 or ECE 496 AND ECE 499 may be substituted

## Learning Outcomes: Computer Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Computer Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Computer Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Computer Science + Advertising, BS

for the degree of Bachelor of Science Major in Computer Science & Advertising

**computer science degree information:** <https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs#requirements> (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)

**advertising department website:** <https://media.illinois.edu/degrees-programs/computer-science-advertising> (<https://media.illinois.edu/degrees-programs/computer-science-advertising/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college websites:** <https://media.illinois.edu/> and <https://engineering.illinois.edu>

**advertising email:** [media-ssc@illinois.edu](mailto:media-ssc@illinois.edu)

**computer science email:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu) ([academic@cs.illinois.edu](mailto:academic@cs.illinois.edu))

COMPUTER SCIENCE AND ADVERTISING, sponsored jointly by the Departments of Computer Science and Advertising. This is a program for students who plan to pursue careers in the advertising field that have a technology focus. Cloud computing, the availability and ubiquity of data, and the rapid and pervasive adoption of mobile technology have created a paradigm shift in the advertising industry. Projected areas of growth in

advertising and communications will be in Search Engine Optimization, web analytics, Computational Advertising, and other emerging areas of technology/media. The degree will prepare students for advanced study at the graduate level as well as immediate entry into the workforce at advertising agencies, businesses with in-house advertising and marketing divisions, and technology companies.

## Programs in Advertising

### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minor:** Public Relations (p. 493)

### Graduate Programs:

**degree:** Advertising, MS (p. 522)

**degree:** Strategic Brand Communication, MS (p. 1005)

for the degree of Bachelor of Science Major in Computer Science & Advertising

Please see the computer science advisor in 1210 Siebel Center, as well as an advertising advisor in the College of Media Student Services Center in 18 Gregory Hall.

A Major Plan of Study Form must be completed and submitted to the Department of Computer Science Office of Undergraduate Affairs by the beginning of the fifth semester (60-75 hours).

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Minimum required major and supporting course work normally equates to 68 hours plus 12 additional hours of College of Media requirements.**

**All campus general education and foreign language requirements must be met. The minimum hours required for graduation is 124. At least 12 hours of 300- and 400-level course work must be taken on this campus, and a minimum of 40 hours of upper-division course work is required.**

**Minimum hours required for graduation: 124 hours**

To graduate from the Computer Science & Advertising curriculum, a student must complete the following courses, all of which must be taken for a traditional letter grade.

Code	Title	Hours
<b>Computer Science Core</b>		
CS 125	Intro to Computer Science	4
CS 126	Software Design Studio	3
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 240	Introduction to Computer Systems	3
CS 374	Introduction to Algorithms & Models of Computation	4
CS 421	Programming Languages & Compilers	3 or 4

Computer Science Technical Electives: Two 400-level courses chosen in consultation with an advisor. 6

### Mathematical Foundations (also fulfills QR I and II gen eds.)

MATH 220	Calculus or MATH 220 Calculus I	5
MATH 231	Calculus II	3
MATH 225	Introductory Matrix Theory	2
CS 361	Probability & Statistics for Computer Science	3

### College of Media Foundations

Select one from:		3-4
ANTH 103	Anthro in a Changing World	
PSYC 100	Intro Psych	
SOC 100	Introduction to Sociology	
ECON 102	Microeconomic Principles	3
ECON 103	Macroeconomic Principles or ECON 302 Inter Microeconomic Theory	3
BADM 320	Principles of Marketing	3

### Advertising Core

ADV 150	Introduction to Advertising	3
ADV 281	Advertising Research Methods	3
ADV 283	Advertising and Brand Strategy	3
ADV 284	Consumer Insight	3
ADV 390	Content Creation	3
ADV 460	Innovation in Advertising	3
ADV 483	Audience Analysis	3
ADV 461	Computational Advertising	3
ADV 492	Tech and Advertising Campaigns	3

**Total Hours** 124

Select 2 courses from the following list:		6-7
ASTR 404	Stellar Astrophysics	
ASTR 405	Planetary Systems	
ASTR 406	Galaxies and the Universe	
ASTR 414	Astronomical Techniques	
Additional ASTR course(s) at the 300 level or higher (2-3 hours) <small>Minimum 12 total advanced ASTR hours required</small>		2-3

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

## Learning Outcomes: Computer Science + Astronomy, BSLAS

*Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Computer Science & Astronomy*

Undergraduate Computer Science & Astronomy majors will graduate with a demonstrated ability to:

LO1. Understand the hierarchical architecture of the cosmos, increasing in scale from the Solar System to the Galaxy to the Universe, and decreasing in scale to atoms and their nuclei. Understand the interplay among these scales.

LO2. Define and use fundamental principles and techniques of astronomy and astrophysics.

- Identify which principles should be applied to a specified situation
- Show familiarity with astronomical observables and their physical origin.
- Understand and apply basic physics and computational techniques to solve problems in astrophysics, and interpret the results.

LO3. Analyze astronomical data, and quantitative data generally.

- Demonstrate the ability to link observation and theory.
- Demonstrate the ability to draw qualitative conclusions from quantitative information, and vice versa.
- Demonstrate the ability to plan observational programs, use astronomical telescopes and instrumentation, and to analyze and present astronomical data.

LO4. Plan and perform guided research, or attain an advanced-level understanding of a topic of contemporary interest in astronomy and astrophysics.

LO5. Demonstrate the ability to communicate effectively both verbally and in writing.

CHEM 202	Accelerated Chemistry I & CHEM 20:and Accelerated Chemistry Lab I & CHEM 20:and Accelerated Chemistry II	
CHEM 232	Elementary Organic Chemistry I or CHEM 236undamental Organic Chem I	4
<b>Advanced Chemistry Courses- 12 hours</b>		
CHEM 440	Physical Chemistry Principles or CHEM 442physical Chemistry I	4
In consultation with an advisor, choose 8 hours of 300- or 400-level chemistry courses <sup>2</sup>		8

- <sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.
- <sup>2</sup> The following courses may not be used to complete the advanced chemistry hours: CHEM 315, CHEM 397, CHEM 445, CHEM 447, CHEM 492, CHEM 494, CHEM 496, CHEM 497 and CHEM 499; and any course in another unit, such as any BIOC or MCB course.

## Learning Outcomes: Computer Science + Chemistry, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Computer Science and Chemistry

By the time of graduation, students will have:

### Computer Science:

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
4. An ability to function effectively on teams to accomplish a common goal
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. A recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity

### Chemistry:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the sub-fields of chemistry, including analytical, inorganic, organic and physical chemistry.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

## Computer Science + Crop Sciences, BS

for the degree of Bachelor of Science Major in Computer Science & Crop Sciences

**crop sciences department website:** <https://cropsciences.illinois.edu/>  
**computer science degree information:** <https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs#requirements> (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college websites:** <https://aces.illinois.edu/> and <https://engineering.illinois.edu>  
**computer science contact:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu) ([academic@cs.illinois.edu](mailto:academic@cs.illinois.edu))  
**crop sciences contact:** [sbartlet@illinois.edu](mailto:sbartlet@illinois.edu)

Computer Science + Crop Sciences (CS+CPSC) is a first-of-its-kind partnership between The Grainger College of Engineering's Department of Computer Science and the Department of Crop Sciences in the College of Agricultural, Consumer and Environmental Sciences.

Our growing population and changing climate demand out-of-the-box, multidisciplinary thinkers who can handle increasingly rich data sets. CS+CPSC students fill this crucial gap in the agriculture sector, combining a strong technical background with crop sciences expertise powerful enough to change the world.

Students will be among the first to analyze robotics-enabled soil and field measurements, predict weather and climate impacts on food supplies, and accelerate plant improvement through the simultaneous analysis of genetics, environment, and management.

for the degree of Bachelor of Science Major in Computer Science & Crop Sciences

Please see the Computer Science advisor in 1210 Siebel Center, as well as the Crop Sciences advisor in AE-116 Turner Hall.

To graduate from the Computer Science and Crop Sciences curriculum, a student must complete the following courses, all of which must be taken for a traditional letter grade.

Code	Title	Hours
<b>Composition I and Speech</b>		<b>6-7</b>
RHET 105 & CMN 101	Writing and Research & Public Speaking	
OR		
CMN 111 & CMN 112	Oral & Written Comm I & Oral & Written Comm II	
<b>Advanced Composition</b>		
Select from campus-approved list.		3-4
<b>Cultural Studies</b>		

Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. 9

**Foreign Language**

Coursework at or above the third level is required for graduation. 0-15

**Quantitative Reasoning I**

See Mathematical Foundations for specific requirement. 3

**Quantitative Reasoning II**

See Mathematical Foundations for specific requirement. 3

**Natural Sciences and Technology**

See Crop Sciences Core for specific requirement. 6

**Humanities and the Arts**

Select from campus-approved list. 6

**Social and Behavioral Sciences**

Select from campus-approved list. 6

**ACES Required**

ACES 101 Contemporary Issues in ACES 2

**Computer Science Core 22**

CS 100 Freshman Orientation (recommended) 1

CS 125 Intro to Computer Science 4

CS 126 Software Design Studio 3

CS 173 Discrete Structures 3

CS 225 Data Structures 4

CS 374 Introduction to Algorithms & Models of Computation 4

CS 421 Programming Languages & Compilers 3

**Computer Science Technical Track 8-11**

Choose from the following options:

CS 233 Computer Architecture & CS 241 and System Programming

OR

CS 240 Introduction to Computer Systems

& Two CS Any two (2) 400-level CS courses except 4XX CS 491

**Mathematical Foundations (fulfills Quantitative Reasoning I and II) 12-13**

CS 361 Probability & Statistics for Computer Science 3

MATH 220 Calculus 4-5  
or MATH 220 Calculus I

MATH 225 Introductory Matrix Theory 2

MATH 231 Calculus II 3

**Crop Sciences Core 16**

CPSC 102 Foundational Skills in Crop Sciences 2

CPSC 112 Introduction to Crop Sciences 4

CPSC 393 Crop Sciences Internship 3  
or CPSC 393 Undergrad Research or Thesis

CPSC 498 Crop Sci Professional Developmt 1

Select two of the following: 6

CPSC 226 Introduction to Weed Science

CPSC 270 Applied Entomology

PLPA 204 Introductory Plant Pathology

**Foundational Data Analytics 6-8**

CPSC 440 Applied Statistical Methods I 4

And select one of the following:

CPSC 441 Introduction to R Programming

CPSC 444 Introduction to Spatial Analytics

**Crop Sciences Electives 6**

CPSC/ At least one (1) 400-level CPSC/HORT/PLPA  
HORT/ course  
PLPA 4XX

CPSC/ Any CPSC/HORT/PLPA course except  
HORT/ CPSC 241  
PLPA XXX

**Total Hours 126**

8. A recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity
12. An ability to apply knowledge of linguistics appropriate to the discipline.
13. An ability to analyze a problem, and identify and define the computing as well as the linguistics requirements appropriate to its solution.
14. An ability to design, implement, and evaluate a computational linguistics-based system, process, component, or program to meet desired text processing needs.
15. An ability to analyze the local and global impact of computing, language, as well as language technologies on individuals, organizations, and society.
16. An ability to use current linguistics and computational techniques, skills, and tools necessary for computational linguistics practice.
17. An understanding of Linguistics and Computer Science sufficient to be able to apply computational processes to solve problems naturally arising in language.

## Computer Science + Philosophy, BSLAS

*for the degree of Bachelor of Sciences in Liberal Arts & Sciences Major in Computer Science & Philosophy*

## Learning Outcomes: Computer Science + Linguistics, BSLAS

*Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Computer Science & Linguistics*

**computer science degree information:** CS + X Degrees (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)

**philosophy information:** CS + Philosophy (<https://philosophy.illinois.edu/academics/undergraduate-studies/cs-philosophy-major/>)

**department page:** <http://www.philosophy.illinois.edu/>

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college websites:** <https://las.illinois.edu/> and <https://engineering.illinois.edu>

**philosophy advising:** Philosophy Advising (<https://philosophy.illinois.edu/academics/undergraduate-studies/advising/>)

**computer science email:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu) ([academic@cs.illinois.edu](mailto:academic@cs.illinois.edu))

Please see the computer science advisor as well as the philosophy advisor.

### **for the degree of Bachelor of Sciences in Liberal Arts & Sciences Major in Computer Science & Philosophy**

Please see the computer science advisor as well as the philosophy advisor.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours).

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 71-73 hours. Twelve hours of 300- and 400-level**

**Philosophy courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
<b>Required Computer Science Courses (32-33 hours):</b>		
CS 100	Freshman Orientation (recommended) <sup>1</sup>	1
CS 125	Intro to Computer Science	4
CS 126	Software Design Studio	3
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 233	Computer Architecture	4
CS 241	System Programming	4
Choose one of the following:		3
STAT 200	Statistical Analysis	
STAT 212	Biostatistics	
CS 361	Probability & Statistics for Computer Science	
CS 374	Introduction to Algorithms & Models of Computation	4
CS 421	Programming Languages & Compilers	3
<b>Mathematics (may also fulfill the General Education Quantitative Reasoning I and II requirements)</b>		
MATH 220	Calculus	4-5
	or MATH 22Calculus I	
MATH 225	Introductory Matrix Theory	2

MATH 231	Calculus II	3
----------	-------------	---

#### **Required Philosophy coursework**

PHIL 222	Philosophical Foundations of Computer Science	3
----------	---	---

PHIL 223	Minds & Machines	3
----------	------------------	---

PHIL 421	Ethical Theories	3
----------	------------------	---

Choose one of the following:		3
------------------------------	--	---

PHIL 426	Metaphysics	
----------	-------------	--

PHIL 430	Theory of Knowledge	
----------	---------------------	--

Choose one of the following:		3
------------------------------	--	---

PHIL 425	Philosophy of Mind	
----------	--------------------	--

PHIL 438	Philosophy of Language	
----------	------------------------	--

PHIL 439	Philosophy of Mathematics	
----------	---------------------------	--

PHIL 477	Philosophy of Psychology	
----------	--------------------------	--

PHIL 454	Advanced Symbolic Logic	3
----------	-------------------------	---

PHIL 499	Capstone Seminar	3
----------	------------------	---

In consultation with an advisor, choose at least 9 additional hours of coursework in philosophy, with at least 6 of those hours being at the 300- or 400-level.		9
---	--	---

Total Hours		71-73
-------------	--	-------

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

## **Computer Science, BS**

*for the degree of Bachelor of Science in Computer Science*

**department website:** <https://cs.illinois.edu>

**department faculty:** Computer Science Faculty (<https://cs.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

The Computer Science curriculum provides both a broad and deep knowledge of the theory, design, and application of computer systems, with an emphasis on software systems. Because computing is ubiquitous, application areas involve virtually any field imaginable - from developing gene sequencing algorithms via techniques in computational biology, to designing user interfaces for mobile applications; from designing methods for high frequency trading, to creating computer generated graphics and special effects in the gaming industry; and from creating embedded real time systems to be deployed in medical devices, to analyzing social data from internet communication patterns. During the first two years the curriculum provides a strong foundation in mathematics, science, and computation. Advanced coursework in areas of the student's choosing follows in the second two years, which include either a senior thesis or a senior project. Graduates may go on to graduate study or leading positions in industry.

A combined B.S.-M.S. Computer Science degree program is available. The admission and course requirements are described on the Computer Science website (<https://cs.illinois.edu/academics/graduate/fifth-year-masters-programs/5-year-bs-ms-program/>).

A Software Engineering Certificate (<https://wiki.cites.illinois.edu/wiki/display/undergradProg/Degree+Requirements/#DegreeRequirements-softengcert>) is also available to all students in the computer science curriculum interested in a career in software engineering. It provides the depth and breadth necessary for satisfying possible future software engineering accreditation requirements.

for the degree of Bachelor of Science in Computer Science

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for CS and Math courses. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

## Orientation and Professional Development

Code	Title	Hours
CS 100	Freshman Orientation (optional course highly recommended may be used to help meet free elective requirements) <sup>1</sup>	1

## Technical Electives

Code	Title	Hours
<b>Technical electives to be chosen from departmentally approved list below. Students select eight courses, at least six of which must be advanced CS courses. Three courses must be selected from one area of CS and at least one course should satisfy the team project requirement.</b>		<b>24</b>

CS 427	Software Engineering I	3 or 4	CS 584	Embedded System Verification	4
CS 428	Software Engineering II	3 or 4	CS 598	Special Topics (Crypto)	2 to 4
CS 429	Software Engineering II, ACP	3	Intelligence and Big Data:		
CS 445	Computational Photography (Until Spring 2018)	3 or 4	CS 410	Text Information Systems	3 or 4
CS 465	User Interface Design	3 or 4	CS 411	Database Systems	3 or 4
CS 467	Social Visualization	3 or 4	CS 412	Introduction to Data Mining	3 or 4
CS 493	Senior Project II, ACP	3	CS 414	Multimedia Systems	3 or 4
CS 494	Senior Project II	3	CS 440	Artificial Intelligence	3 or 4
CS 497	CS Team Project	1 to 3	CS 445	Computational Photography	3 or 4
CS 498	Special Topics (Virtual Reality (Spring 2018 and later); Mobile Interactive Design (Spring 2019 and later); Internet of Things (Fall 2019 and later))	1 to 4	ECE 470	Introduction to Robotics	4
<b>Three of the CS courses must be chosen from a single focus area, from among the areas below:</b>			CS 446	Machine Learning	3 or 4
Software Foundations:			CS 447	Natural Language Processing	3 or 4
CS 422	Programming Language Design	3 or 4	CS 466	Introduction to Bioinformatics	3 or 4
CS 426	Compiler Construction	3 or 4	CS 467	Social Visualization	3 or 4
CS 427	Software Engineering I	3 or 4	CS 498	Special Topics (Data Visualization; Deep Learning; Applied Machine Learning; Social and Info Networks, Theory II (until Fall 2017); AI for Computer Games (until Fall 2017); Cyber Dystopia; Data Science & Analytics (Spring 2018 and after))	1 to 4
CS 428	Software Engineering II	3 or 4	CS 510	Advanced Information Retrieval	4
CS 429	Software Engineering II, ACP	3	CS 511	Advanced Data Management	4
CS 476	Program Verification	3 or 4	CS 512	Data Mining Principles	4
CS 477	Formal Software Development Methods	3 or 4	CS 543	Computer Vision	4
CS 492	Senior Project I	3	CS 544	Optimiz in Computer Vision	4
CS 498	Special Topics (Art and Science of Web Programming; Logic; Applied Cryptography; Software Testing)	1 to 4	CS 546	Machine Learning in NLP	4
CS 522	Programming Language Semantics	4	CS 548	Models of Cognitive Processes	4
CS 524	Concurrent Progrmg Languages	4	CS 576	Topics in Automated Deduction	2 to 4
CS 526	Advanced Compiler Construction	4	CS 598	Special Topics (Machine Learning and Signal Processing)	2 to 4
CS 527	Topics in Software Engineering	4	Human and Social Impact:		
CS 528	Obj-Oriented Progrmg & Design	4	CS 460	Security Laboratory	3 or 4
CS 576	Topics in Automated Deduction	2 to 4	CS 461	Computer Security I	4
CS 598	Special Topics (Verification; Languages)	2 to 4	CS 463	Computer Security II	3 or 4
Algorithms and Models of Computation:			CS 465	User Interface Design	3 or 4
CS 413	Intro to Combinatorics	3 or 4	CS 467	Social Visualization	3 or 4
CS 473	Algorithms	4	CS 468	Tech and Advertising Campaigns	3
CS 475	Formal Models of Computation	3 or 4	CS 498	Special Topics (Art and Science of Web Prog; Computational Advertising; Data Visualization; Applied Machine Learning; HCI; Social and Information Networks; Virtual Reality; Cyber Dystopia; Cyber Physical Systems; Data Science & Analytics (Spring 2018 and after); Smart Cities; Learning and Computer Science; Intro to Online Learning Sys; Mobile Interactive Design)	1 to 4
CS 476	Program Verification	3 or 4	CS 563	Advanced Computer Security	4
CS 477	Formal Software Development Methods	3 or 4	CS 565	Human-Computer Interaction	4
CS 481	Advanced Topics in Stochastic Processes & Applications	3 or 4	Media:		
CS 482	Simulation	3 or 4	CS 414	Multimedia Systems	3 or 4
CS 498	Special Topics (Logic; Parallel Algorithms; Computational Geometry)	1 to 4	CS 418	Interactive Computer Graphics	3 or 4
CS 571	Combinatorial Mathematics	4	CS 419	Production Computer Graphics	3 or 4
CS 572	Extremal Graph Theory	4	CS 445	Computational Photography	3 or 4
CS 573	Algorithms	4	CS 465	User Interface Design	3 or 4
CS 574	Randomized Algorithms	4			
CS 575	Methods of Combinatorics	4			
CS 576	Topics in Automated Deduction	2 to 4			
CS 579	Computational Complexity	4			
CS 583	Approximation Algorithms	4			

CS 467	Social Visualization	3 or 4
CS 468	Tech and Advertising Campaigns	3
CS 498	Special Topics (Art and Science of Web Prog; Computational Advertising; Virtual Reality; Data Visualization; Audio Computing Lab)	1 to 4
CS 519	Scientific Visualization	4
CS 565	Human-Computer Interaction	4
CS 598	Special Topics (Machine Learning and Signal Proc.)	2 to 4
Scientific, Parallel, and High Performance Computing:		
CS 419	Production Computer Graphics	3 or 4
CS 450	Numerical Analysis	3 or 4
CS 457	Numerical Methods II	3
CS 466	Introduction to Bioinformatics	3 or 4
CS 482	Simulation	3 or 4
CS 483	Applied Parallel Programming	4
CS 484	Parallel Programming	3 or 4
CS 498	Special Topics (Parallel Algorithms)	1 to 4
CS 519	Scientific Visualization	4
CS 554	Parallel Numerical Algorithms	4
CS 555	Numerical Methods for PDEs	4
CS 556	Iterative & Multigrid Methods	4
CS 558	Topics in Numerical Analysis	4
Distributed Systems, Networking, and Security:		
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 431	Embedded Systems	3 or 4
CS 436	Computer Networking Laboratory	3 or 4
CS 438	Communication Networks	3 or 4
CS 439	Wireless Networks	3 or 4
CS 460	Security Laboratory	3 or 4
CS 461	Computer Security I	4
CS 463	Computer Security II	3 or 4
CS 483	Applied Parallel Programming	4
CS 484	Parallel Programming	3 or 4
CS 498	Special Topics (Wireless Network Labs; Digital Forensics; Digital Forensics II; Applied Cryptography; Cyber Physical Systems; Internet of Things (Spring 2019 or after); Smart Cities)	1 to 4
CS 523	Advanced Operating Systems	4
CS 524	Concurrent Progrmg Languages	4
CS 525	Advanced Distributed Systems	4
CS 538	Advanced Computer Networks	4
CS 563	Advanced Computer Security	4
Machines:		
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 426	Compiler Construction	3 or 4
CS 431	Embedded Systems	3 or 4
CS 433	Computer System Organization	3 or 4
CS 484	Parallel Programming	3 or 4

CS 498	Special Topics (Internet of Things (Spring 2019 and after); Digital Forensics; Digital Forensics II)	3 or 4
CS 523	Advanced Operating Systems	4
CS 526	Advanced Compiler Construction	4
CS 533	Parallel Computer Architecture	4
CS 536	Fault-Tolerant Dig Syst Design	4
CS 541	Computer Systems Analysis	4
CS 584	Embedded System Verification	4
CS 598	Special Topics (Parallel)	2 to 4

## Computer Science Advanced Electives

Code	Title	Hours
Students must take at least two courses comprising at least 6 hours of 400-level coursework in ANY area offered at the University (including independent study - CS 397 may also be used to count towards these two additional advanced courses). These might be CS courses but don't have to be. Courses must be taken for a letter grade (CS 491 and other seminar courses do not count). It is expected that students will select these additional advanced courses in a way that best augments their program of study. Consultation with faculty mentor is highly encouraged.		6
Total Hours		6

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>3</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>4</sup>		18
Total Hours of Curriculum to Graduate		128

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>4</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Computer Science

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite

sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/cs-map/>).

### First Year

	Hours
<b>First Semester</b>	
CS 100 <sup>1</sup> Freshman Orientation	1
CS 125 Intro to Computer Science	4
ENG 100 Engineering Orientation	0
MATH 221 <sup>2</sup> Calculus I	4
Science elective <sup>3</sup>	3
RHET 105 Writing and Research (or General Education elective) <sup>4,5</sup>	4-3
Semester Hours	16-15

### Second Semester

CS 126 Software Design Studio	3
CS 173 Discrete Structures	3
MATH 231 Calculus II	3
General education elective (or RHET 105) <sup>4,5</sup>	3-4
General education elective <sup>5</sup>	3
Semester Hours	15-16

### Second Year

#### First Semester

CS 225 Data Structures	4
MATH 241 Calculus III	4
PHYS 211 University Physics: Mechanics	4
General Education Elective <sup>5</sup>	3
Free Elective	2
Semester Hours	17

#### Second Semester

CS 233 Computer Architecture	4
MATH 415 Applied Linear Algebra	3
CS 361 Probability Statistics for Computer Science	3
PHYS 212 University Physics: Elec Mag	4
Free elective	3
Semester Hours	17

### Third Year

#### First Semester

CS 210 Ethical Professional Issues	2
CS 241 System Programming	4
CS 357 Numerical Methods I	3
CS Technical elective <sup>6</sup>	3
General Education elective <sup>5</sup>	3
Semester Hours	15

#### Second Semester

CS 374 Introduction to Algorithms Models of Computation	4
CS Technical electives <sup>6</sup>	6
General Education elective <sup>5</sup>	3
Free elective	3
Semester Hours	16

### Fourth Year

#### First Semester

CS 421 Programming Languages Compilers	3
CS Technical electives <sup>6</sup>	6
General Education electives <sup>5</sup>	3
Free electives	4
Semester Hours	16

#### Second Semester

CS Technical electives <sup>6</sup>	9
Free electives	7
Semester Hours	16
Total Hours:	128

<sup>1</sup> This optional course is highly recommended for freshmen, who may use it to help meet free elective requirements.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Students can choose from departmentally approved science elective (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/bs-computer-science-engineering/science-electives-cs/>) for 3 credit hours.

<sup>4</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

<sup>5</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>6</sup> To be chosen from a departmentally approved list (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/bs-computer-science-engineering/#technical-electives>), and to include at least three courses from a single focus area.

## Learning Outcomes: Computer Science, BS

Learning Outcomes for the degree of Bachelor of Science Major in Computer Science

By the time of graduation, students will have the ability to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

## Crafts, BFA

for the Bachelor of Fine Arts Major in Crafts

### No longer accepting students: Fall 2020

**department website:** <https://art.illinois.edu>

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select a concentration:

Metals Concentration (p. 144)

The curriculum in Crafts consists of a concentration in Metals. The BFA program focuses on the development of individual artistic and design capabilities, critical perceptions, and the mastery of comprehensive technical skills. The program emphasizes strengths in conceptual and material specialization. The curriculum supports professional training for the self-sustaining visual artist and provides the skills necessary for students to pursue an advanced degree in the arts. The curriculum in Crafts requires 122 credit hours.

Mark Avery, Coordinator of Undergraduate Academic Affairs

## Learning Outcomes: Metals Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Crafts: Metal Concentration

1. the ability to conceive of, design, problem solve, execute, analyze, and critique utilitarian and non-utilitarian objects;
2. the ability to employ and demonstrate technical competency in the making of jewelry, hollowware, and objects using traditional and new approaches in a wide variety of materials;
3. the ability to demonstrate a knowledge of historical and contemporary metalwork practice;
4. the ability to recognize and use jewelry design and metalworking terminology;
5. the ability to apply the elements and principles of two and three-dimensional design to the making of jewelry, hollowware, objects;
6. the ability to create original utilitarian and non-utilitarian objects;
7. the ability to apply critical thinking when analyzing objects;
8. the ability to demonstrate a higher level of perceptual awareness;
9. the ability to demonstrate confidence in and strategies toward individual creativity;
10. the ability to demonstrate a knowledge of safe and effective lab processes.

## Creative Writing, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Creative Writing

**department website:** English (<http://www.english.illinois.edu/>)

**creative writing website:** Creative Writing (<https://english.illinois.edu/academics/undergraduate-studies/majors-minors/creative-writing-major/>)

**department faculty:** English Faculty (<https://english.illinois.edu/directory/specialty-areas/>)

**advising:** English & Creative Writing advising (<https://www.english.illinois.edu/undergraduate/advising/>)

**email:** [english@illinois.edu](mailto:english@illinois.edu)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu> (<https://las.illinois.edu/>)

## Undergraduate Degree Programs in English

### Majors:

English, BALAS (p. 175) with concentrations:

English, English Concentration, BALAS (p. 176)

English, English Teaching Concentration, BALAS (p. 177)

English, Topics in English Concentration, BALAS (p. 178)

Creative Writing, BALAS (p. 145)

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Creative Writing

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required core and supporting course work normally equates to 36 hours.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus, of which at least three hours must be Creative Writing Courses (CW 404 or CW 406).

All Creative Writing courses must be taken in sequence (CW 104 before CW 204, etc.).

Minimum hours required for graduation: 120 hours

Code	Title	Hours
<b>Literature Foundational Coursework</b>		
CW 100	Intro to Creative Writing	3
CW 200	Reading for Writers	3
<b>Expository Writing (Advanced Composition)</b>		
CW 243	The Craft Essay: Creative Reading, Reflection, and Revision <sup>1</sup>	3
<b>Creative Writing Coursework</b>		
Students complete 12 hours of creative writing coursework, including at least one of the following 3-course (9-hour) sequences:		12
CW 106 & CW 206 & CW 406	Poetry Workshop I and Poetry Workshop II and Poetry Workshop III	
or		
CW 104 & CW 204 & CW 404	Fiction Workshop I and Fiction Workshop II and Fiction Workshop III	

The remaining three hours of writing coursework can be satisfied by a fourth CW workshop outside of the mandatory sequence or any of the following writing courses: ENGL 401, 402, 403, and 481; BTW 250, 261, and 271; CMN 310, 423, and 432; JOUR 475; and THEA 211

ENGL 418	Shakespeare or ENGL 211 Introduction to Shakespeare	3
<b>Literature Coursework:</b>		
6 hours of English or American literature coursework chosen from approved list.		6
<b>Supporting coursework</b>		
History and Culture Coursework: Choose one of the following pairs:		6

CWL 241 Early Masterpieces of Western Culture  
& CWL 242 and Modern Masterpieces of Western Culture

HIST 141 Western Civ to 1660  
& HIST 142 and Western Civ Since 1660

HIST 171 US History to 1877  
& HIST 172 and US History Since 1877

HIST 255 British Isles to 1688  
& HIST 256 and Britain and World Since 1688

Total Hours 36

<sup>1</sup> Credit is not given for both RHET 233 and CW 243. Students who have taken RHET 233 prior to declaring the CW major must take CW 208 instead of CW 243 to complete this requirement. Students who take CW 208 for their Expository Writing requirement cannot count CW 208 toward the required 12 hours of Creative Writing coursework.

## Learning Outcomes: Creative Writing, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Creative Writing

- Concepts:** Students will identify, analyze, and use the elements of literary craft appropriate for their chosen writing genre.
- Writing:** Students will develop a personal style, apply craft techniques that they learn during workshops, and choose from several strategies to revise written work.
- Workshop:** Students will identify and learn to use the most effective workshop practices. They will learn how to critique the written work of their peers, both orally and in writing, in constructive and mutually beneficial ways.
- Reading:** Students will read, analyze, and evaluate contemporary and other literature from the perspective of literary craft and the study of creative writing.
- Literary Community and Profession:** Students will learn to evaluate, discuss, and research contemporary literary publishing and editing.

## Learning Outcomes: Crop Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Crop Sciences

Students graduating with the B.S. in Crop Sciences should be able to:

- Demonstrate knowledge in the key subject matter areas of applied plant biology; crop growth and development; crop management and protection; and soil science.
- Demonstrate an ability to identify a problem and develop solutions using quantitative reasoning skills for analysis of biological data.
- Demonstrate oral and written communication skills necessary to listen and make effective arguments, to share applied scientific concepts with the public, and to make use of a broad variety of media.
- Demonstrate an ability to lead and function in multidisciplinary teams.

- Demonstrate the ability to perform self-guided discovery in agricultural sciences, practicing skills of engagement to enhance intellectual curiosity.

## Crops Sciences, BS

for the degree of Bachelor of Science Major in Crop Sciences

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of these concentrations:

- Agroecology Concentration (p. 146)
- Biological Sciences Concentration (p. 147)
- Crop Agribusiness Concentration (p. 148)
- Crops Concentration (p. 149)
- Horticultural Food Systems Concentration (p. 151)
- Plant Biotechnology and Molecular Biology Concentration (p. 152)
- Plant Protection Concentration (p. 153)

## Crop Sciences: Agroecology, BS

for the degree of Bachelor of Science Major in Crop Sciences, Agroecology Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The Agroecology Concentration addresses ecologically based management of cropping systems, stewardship of the environment, and sustainable food production systems. The intersection between crop plants and their environment is emphasized in this concentration. Graduates of the Agroecology concentration are prepared for careers in integrated plant health management, government regulatory and environmental agencies or for entrance into graduate or professional school.

CMN 101	Public Speaking	3

<b>Advanced Composition</b>		
Select from campus approved list.		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following:		4-5
MATH 220 Calculus		
MATH 221 Calculus I		
MATH 234 Calculus for Business I		
<b>Quantitative Reasoning II</b>		
CPSC 241 Intro to Applied Statistics		3
<b>Natural Sciences and Technology</b>		
See Specific Concentration Requirements		
<b>Humanities and the Arts</b>		
Select from campus approved list		6
<b>Social and Behavioral Sciences</b>		
ACE 100 Introduction to Applied Microeconomics <sup>1</sup>		3-4
or ECON 102 Microeconomic Principles		
Select from campus approved list.		3-4
<b>ACES required</b>		
ACES 101 Contemporary Issues in ACES		2
<b>Required Concentration</b> 58-79		
Concentration prescribed courses. See specific concentration requirements.		
<b>Total Hours</b>		<b>126</b>

<sup>1</sup> ACE 100 or ECON 102 are not required for the Biological Sciences Concentration.

### Agroecology Concentration Requirements

Code	Title	Hours
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4
CHEM 232	Elementary Organic Chemistry I	3-4
	or CPSC 38:Organic Chem of Biol Processes	
IB 103	Introduction to Plant Biology	4
IB 150	Organismal & Evolutionary Biol	4
IB 203	Ecology	4
MCB 150	Molec & Cellular Basis of Life	4
Select one of the following:		4-5
MCB 100 & MCB 101	Introductory Microbiology and Intro Microbiology Laboratory	
IB 104	Animal Biology	
<b>Agroecology Concentration Required</b>		
CPSC 112	Introduction to Crop Sciences	4
CPSC 226	Introduction to Weed Science	3

CPSC 270	Applied Entomology	3
CPSC 336	Tomorrow's Environment	3
CPSC 431	Plants and Global Change	3
CPSC 437	Principles of Agroecology	3
CPSC 498	Crop Sci Professional Developmt	1
NRES 201	Introductory Soils	4
NRES 474	Soil and Water Conservation	3
	or NRES 488 Soil Fertility and Fertilizers	
PLPA 204	Introductory Plant Pathology	3
Select one course from three of the following groups:		9-12
ACE 210	Environmental Economics	
	or ACE 3 Natural Resource Economics	
CPSC 412	Principles of Crop Production	
	or CPSC 414 Forage Crops & Pasture Ecology	
	or CPSC 415 Energy Crops	
	or CPSC 416 Crop Growth and Management	
CPSC 426	Weed Mgt in Agronomic Crops	
CPSC 473	Mgmt of Field Crop Insects	
NRES 401	Watershed Hydrology	
	or NRES Env and Plant Ecosystems	
	or NRES Env and Sustainable Dev	
	or NRES Soil Fertility and Fertilizers	
PLPA 403	Advanced Plant Pathology	
	or PLPA 404 Plant Disease Diagnosis & Mgmt	
	or PLPA 405 Diseases of Field Crops	
Select one of the following:		3-4
ANSC 100	Intro to Animal Sciences	
FSHN 101	The Science of Food and How it Relates to You	
HORT 100	Introduction to Horticulture	
NRES 102	Introduction to NRES	
TSM 100	Technical Systems in Agr	
Total ACES prescribed and elective courses must total 35 hours, of which 20 hours must be completed in residence.		35

## Crop Sciences: Biological Sciences, BS

for the degree of Bachelor of Science Major in Crop Science, Biological Sciences Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The biological sciences concentration is designed for students who plan to enter a graduate study program or who want professional positions that require more science than is included in the other concentrations. Students follow a first-year program of General Education courses similar to students in other Crop Sciences concentrations. Programs for the second, third, and fourth years are planned in consultation with the

student's faculty advisor, in the area of biological sciences. Students and advisors are encouraged to consult individual graduate schools for the specific entrance requirements. Although flexibility in individual course selection is a characteristic of this concentration, graduation requirements are established by selection of elective courses.

## Crop Sciences: Crop Agribusiness, BS

for the degree of Bachelor of Science Major in Crop Sciences, Crop Agribusiness Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
 (<https://cropsciences.illinois.edu/people/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The concentration in crop agribusiness is designed for students wanting to combine agronomic production and business management. This concentration prepares students for careers in production and marketing, cropping systems management, and a broad range of multi-functional agricultural enterprises, or for entrance into graduate school.

Total Hours 126

## Crop Sciences: Horticultural Food Systems, BS

for the degree of Bachelor of Science Major in Crop Science, Horticultural Food Systems Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)  
**college website:** <https://aces.illinois.edu/>

This concentration provides students with a strong foundation in plant sciences along with specialized knowledge in horticultural fruit and vegetable crop systems at urban, local, and commercial scales. Graduates from this program are prepared for careers as crop consultants, crop protection and production specialists; entrepreneurs in urban and local food systems; greenhouse or farm managers; and as community gardening and horticultural educators. This concentration will also prepare students for graduate studies leading to careers in research, extension, and education. A minimum of 126 total hours is required.

HORT 447	Horticultural Plant Breeding
HORT 475	Permaculture & Agroforestry
TSM 311	Humanity in the Food Web

Total ACES prescribed and elective hours must total 35 hours, of which 20 must be completed in residence.

**Total Required Concentration Hours: 51-52**

<sup>1</sup> May only be applied here if not used as a Specialized Course.

## Crop Sciences: Plant Biotechnology and Molecular Biology, BS

for the degree of Bachelor of Science Major in Crop Sciences, Plant Biotechnology and Molecular Biology Concentration

**department website:** <https://croppsciences.illinois.edu/>  
**department faculty:** <https://croppsciences.illinois.edu/people/faculty>  
[\(https://croppsciences.illinois.edu/people/faculty/\)](https://croppsciences.illinois.edu/people/faculty/)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The plant biotechnology and molecular biology concentration provides a curriculum that prepares students for careers in biotechnology or for entrance into graduate or professional school. The basic sciences are emphasized, including a strong foundation in biology and genetics. Students are encouraged to participate in undergraduate independent study in a molecular biology laboratory. For those who wish to pursue graduate work later, adequate preparation may be obtained by suitable choices of electives within the framework of this concentration.

## Crop Sciences: Plant Protection, BS

for the degree of Bachelor of Science Major in Crop Sciences, Plant Protection Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The plant protection concentration provides a broad selection of courses in crops, soils, plant diseases, insects and weeds, and the physical sciences. Students learn how to protect plants from the effects of diseases, insects, and weeds. This concentration is designed to prepare students for careers in crop consulting, integrated pest management, and agribusiness management and merchandising, or for entrance into a graduate program.

## Dance, BA

### for the degree of Bachelor of Arts Major in Dance

**department website:** <http://dance.illinois.edu/>  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>  
**email:** [dance@illinois.edu](mailto:dance@illinois.edu)

The BA curriculum in dance is designed to provide an integrated and individualized approach to undergraduate studies of dance. The degree is designed for students who want to explore interdisciplinary approaches to art-making, and/or simultaneously pursue a minor or major in another discipline. Students will study three core areas in Dance: Technique, Creative Process, and Dance Academics. Students will identify at least one other key area of interest such as Theater, Music, Anthropology, Business, Art & Design, Environment, Film, Gender Studies, Cultural Studies, etc., and will choose a Major, Minor or Focused Electives in this area of study under consultation with an advisor. Under the mentorship of a faculty member, students will create a BA Capstone Project in their senior year as a synthesis of the studies within dance and another area of study.

Students pursuing a Dance degree at the University of Illinois must be admitted to the BFA in Dance (audition required). Once admitted, those desiring a broader education may choose to apply for admittance into the BA in Dance, rather than continuing in the BFA.

<b>Hours in non-Dance classes, chosen in consultation with an advisor</b>		<b>15</b>
<b>Open electives as needed to total 120 hours minimum</b>		<b>120</b>

- <sup>1</sup> DANC 160 and 260 must be taken for at least 4 hours each but are repeatable beyond 4 hours.
- <sup>2</sup> Students will enroll in one credit hour of DANC 497, BA Capstone Project in fall of their senior year and two credit hours of DANC 497 in spring of their senior year for a total of three credit hours.

## Learning Outcomes: Dance, BA

Learning outcomes for the degree of Bachelor of Arts Major in Dance

Upon graduation the BA student will be able to:

1. Dance with physical, technical and performance skills.
2. Utilize knowledge of anatomical and somatic approaches in theory and practice.
3. Engage in creative processes and collaborate across domains.
4. Produce a capstone project that reflects synthesis of studies in dance and other fields.
5. Employ diverse modes of thinking, both orally and in writing, to communicate ideas relating to dance and other fields.
6. Demonstrate critical self-reflection, curiosity, self-motivation, and entrepreneurial spirit in creative processes and final products.

## Dance, BFA

*for the degree of Bachelor of Fine Arts Major in Dance*

**department website:** <http://dance.illinois.edu/>  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>  
**email:** [dance@illinois.edu](mailto:dance@illinois.edu)

The BFA curriculum in dance is an intensive program of study for the dedicated student, offering coursework in the areas of technique, composition, and performance. The curriculum also includes requirements in production, improvisation, music theory and literature for dance, teaching, history, movement sciences, and repertory. Electives may be taken in additional ballet and modern classes, tap, jazz, improvisation, contact improvisation, global dance forms, yoga, Alexander Technique, partnering and Laban movement analysis, Labanotation, screendance, choreographer-composer workshop, dance technology, and independent study.

Program requirements include core daily technique classes consisting of three modern and two ballet classes per week each semester in residence, plus elective technique classes for a minimum of one additional credit hour per semester. A minimum of two courses in additional dance forms (jazz, tap, world dance, etc.) is required. Majors must achieve the advanced technical level in modern and the intermediate level in ballet for a minimum of two semesters prior to graduation. The improvisation/composition sequence consists of a minimum of 11 hours of studio courses culminating in the performance of a senior choreographic project. A minimum of 6 hours of credit is required in performance/repertory courses. The curriculum includes as much as 20 hours of credit in professional electives, which may be taken in professional dance courses and/or related arts and sciences.

Evaluation of majors is an ongoing process. Continued enrollment in the program is contingent upon satisfactory performance. A student is expected to maintain a minimum 2.75 grade point average in all

professional course work and a 3.0 cumulative average in studio classes in order to remain in good standing in the department.

It is possible for transfer students to complete degree requirements in a three-year period contingent upon prior completion of general education requirements and the fulfillment of the advanced technique requirement for two semesters prior to graduation.

A total of 130 hours is required for this degree.

for the degree of Bachelor of Fine Arts Major in Dance

### Minimum hours for graduation: 130 hours.

Code	Title	Hours
<b>General Education Requirements</b>		
Composition I		4-6
Advanced Composition		3-4
Humanities & the Arts		6-8
Social & Behavioral Sciences		6-8
Cultural Studies: Non-Western Cultures		3-4
Cultural Studies: U.S. Minority Cultures		3-4
Cultural Studies: Western/Comparative Culture(s)		3-4
Natural Sciences & Technology		6-10
Quantitative Reasoning		6-9

The Language Requirement may be satisfied by:

-Successfully completing a third-semester college-level course in a language other than English;

-Successful completion, in high school, of the third year of a language other than English; or

-Demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

### Foundation Courses

FAA 101	Arts at Illinois	1
DANC 150	Orientation to Dance	2

Code	Title	Hours
<b>Technique/Physical Practice</b>		<b>32</b>

Four credit hours per semester, to include core technique classes each semester in residence, consisting of three modern and two ballet classes per week (3 hours of credit), plus elective technique courses for a minimum of one additional credit hour per semester.

DANC 160	Beg Contemp Modern Tech Core	1 to 3
DANC 166	Beginning Ballet Tech Core	1 or 2
DANC 167	Beginning Ballet Tech Elect	1 or 2
DANC 210	Int Jazz Technique	1
DANC 211	Int Hip Hop Technique	1
DANC 215	Int Tap Dance Technique	1
DANC 260	Int Contemp Modern Tech Core	1 to 3
DANC 261	Int Contemp Modern Tech Elect	1 to 3
DANC 266	Intermediate Ballet Tech Core	1 or 2
DANC 267	Intermediate Ballet Tech Elect	1 or 2
DANC 360	Int/Adv Contemp Mod Tech Core	1 to 3

DANC 460	Adv Contemp Modern Tech Core	1 to 3
DANC 461	Adv Contemp Modern Tech Elect	1 to 3
DANC 466	Advanced Ballet Tech Core	1 to 3
DANC 467	Advanced Ballet Tech Elect	1 to 3

A minimum of two courses (two credit hours) from the following list:

DANC 210	Int Jazz Technique	
DANC 211	Int Hip Hop Technique	
DANC 212	Musical Theater Dance	
DANC 215	Int Tap Dance Technique	
DANC 310	Dancing Techniques/Dance Majors:	
DANC 410	Advanced Jazz Technique	
DANC 411	Adv Hip Hop Technique	

### Creative Process/Performance and Production 17-20

Choose 1 of the following Improvisation courses:

DANC 259	Contact Improv for Act/Mus/Dan	1
----------	--------------------------------	---

Creative Process:

DANC 262	Choreographic Process I	2
----------	-------------------------	---

Choose a minimum of 3 courses from the following Advanced Creative Process courses. Courses listed below are repeatable:

DANC 362	Choreographic Process II	
DANC 363	Advanced Improvisation	
DANC 464	Composer-Chor Workshop	

Choose 6 hours from the following Performance courses:<sup>1</sup>

DANC 220	Perf Pract Student Works I	
DANC 221	Performance in Grad Thesis I	
DANC 222	Perf Pract November I	
DANC 223	Perf Pract February I	
DANC 232	Repertory Company	
DANC 420	Perf Pract Student Works II	
DANC 421	Performance in Grad Thesis II	
DANC 422	Perf Pract November II	
DANC 423	Perf Pract February II	
DANC 424	Collaborative Performance	

Production

DANC 375	Production in Dance	1
----------	---------------------	---

Choose 4 hours from the following Production courses:

DANC 131	Production Practicum I	
DANC 231	Production Practicum II	
DANC 330	Dance Documentation	
DANC 331	Production Practicum III	
DANC 431	Production Practicum IV	

### Dance Academics 20

Dance history/theory		
DANC 240	Dance History	3

Select one of the following:

ANTH 363	Anth of Dance/Movement	
DANC 340	Dancing Black Popular Culture	

DANC 441	Dance History Seminar	
Six hours of Music for Dance courses:		
DANC 268	Music Theory for Dancers	3
Select one of the following (all meet a general education requirement):		
MUS 130	Music Then and Now	
MUS 132	Popular Music Studies	
MUS 133	Introduction to World Music	
Four hours of Dance Sciences courses:		
DANC 245	Introduction to Somatics	1
DANC 345	Dance Anatomy and Kinesiology	3
Choose 3 hours from the following Dance Education courses:		
DANC 350	Creative Dance for Children	
DANC 450	Teaching Workshop	
Current issues and topics		
DANC 495	Senior Career Seminar	1
<b>Senior Capstone Project</b>		<b>4</b>
DANC 498	Senior Thesis Production	1 or 2
DANC 499	Senior Thesis Project	1 to 2
<b>Professional Electives</b> <sup>2</sup>		<b>6-9</b>
Focused Electives, chosen in consultation with an advisor. Additional courses in dance such as technique, choreography, performance, "non-categorized" courses in dance, coursework in Music, Theater, or Art.		
<b>Electives as needed to reach a minimum of 130 hours</b>		<b>130</b>

<sup>1</sup> A maximum of 16 hours may be accumulated toward degree requirements in DANC 220, DANC 221, DANC 222, DANC 223, DANC 420, DANC 421, DANC 422, DANC 423.

<sup>2</sup> A minimum of 6 - 9 hours must be taken in the area of professional electives, to bring total of Dance courses to 84 hours. It is strongly recommended that dance majors consider taking theatre/arts courses outside of the Department of Dance offerings.

## Learning Outcomes: Dance, BFA

Learning outcomes for the degree of Bachelor of Fine Arts Major in Dance

Upon graduation the BFA student will be able to:

1. Dance with substantial physicality, exhibiting technical and performance skill, musicality, and creativity.
2. Utilize knowledge of anatomical and somatic approaches in theory and practice.
3. Locate a creative process, conduct choreographic inquiries, and produce a well-conceived dance work for a performance event.
4. Teach a well-structured movement class with an understanding of pedagogical principles.
5. Employ diverse modes of thinking, both verbally and in writing, to communicate ideas relating to dance.
6. Understand basic technology and its application to dance making, teaching, research, and public relations.

### Curriculum Preparatory to Early Childhood School Teaching

This program prepares student candidates to teach birth to grade 2. A minimum of 120 semester hours of credit is necessary for graduation<sup>1</sup>.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education (<http://www.cote.illinois.edu/>).

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

This is a Gateways to Opportunity (<http://www.ilgateways.com/en/>) approved program.

for the degree of Bachelor of Science Major in Early Childhood Education

---

### Curriculum Preparatory to Early Childhood School Teaching

This program prepares student candidates to teach birth to grade 2. A minimum of 120 semester hours of credit is necessary for graduation<sup>1</sup>.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the

licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education (<http://www.cote.illinois.edu/>).

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

This is a Gateways to Opportunity (<http://www.ilgateways.com/en/>) approved program.

## Degree Requirements

HDFS 301	Infancy & Early Childhood	4
MUS 345	Mus Methods in Early Childhood	2
SPED 414	Assessment in Early Childhood Special Education	3
SPED 450	Introduction to Early Childhood Special Education	2
SPED 465	Curriculum and Methods in Early Childhood Special Education	3
<b>Total minimum hours for degree</b> <sup>6</sup>		<b>120</b>

<sup>1</sup> Required to meet ISBE Science requirement. Exclusions apply including, but not limited to: Horticulture, Dance, and Urban Planning. Must be a science rubric. Consult with advisors for further information.

<sup>2</sup> Courses must be selected from a College of Education approved list ([http://education.illinois.edu/docs/default-source/saao-documents/ece-earth\\_space-recommended.pdf?sfvrsn=0](http://education.illinois.edu/docs/default-source/saao-documents/ece-earth_space-recommended.pdf?sfvrsn=0)).

<sup>3</sup> Across these gen ed categories, students will need to take at least one course from each of the following four different rubrics: ECON, GEOG, HIST, PS to meet the ISBE Social Science requirement.

<sup>4</sup> A maximum of six hours of upper-level ROTC coursework can count toward the degree as free electives.

<sup>5</sup> PSYC 100 is a prerequisite for EPSY 201.

<sup>6</sup> The total hours required for the degree may be higher for students who have not already completed the language other than English requirement.

## Learning Outcomes: Early Childhood Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Early Childhood Education

- Students will acquire deep knowledge of child development as it relates to the field of Education.
- Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction children from infancy to age eight.

- Students will use assessment data to drive decisions and solve problems in and out of the classroom.
- Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices)

## Earth, Society, & Environmental Sustainability, BSLAS

for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability

---

**school faculty:** Earth, Society & Environment Faculty (<https://earth.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**E-mail:** [sese-info@illinois.edu](mailto:sese-info@illinois.edu)

---

Students select one concentration in consultation with an academic advisor.

- Science of the Earth System (SES) Concentration (p. 159)
  - Society and the Environment (SAE) Concentration (p. 160)
- 

**On-campus UIUC students** can transfer to this degree without any special requirements.

**Off-campus students** who plan to transfer to this degree should have completed, or have in progress, the following:

- the Composition 1 requirement.
- the third level of high school foreign language or second level of college foreign language.

It is highly recommended that off-campus students complete the following requirements before transferring to the online degree - students who have not completed the following requirements may have to take additional coursework (either at UIUC or elsewhere) and should consult the program advisor.

- the UIUC LAS language requirement should be satisfied.
- the General Education Distribution Requirements of the College of Liberal Arts and Sciences should be completed.
- the Cognate Coursework should be completed.

---

All students wishing to attend graduate school in any field should discuss necessary supplementary course work with their advisor as early as possible.

A Major Plan of Study form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Study abroad courses may be substituted for major and minor requirements with approval of advisor.

Departmental distinction: Students who maintain grade point averages of at least 3.3 in all courses within the major and who undertake a faculty-guided individual research project for credit in the major are recommended for graduation with distinction.

for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability, Science of the Earth System Concentration

A Major Plan of Study form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Study abroad courses may be substituted for major and minor requirements with approval of advisor.

**Distinction: A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone.**  
**High Distinction: A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone.**  
**Highest Distinction: A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone.**

---

### ESE Core Requirements:

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 48-58 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus. Substitutions may be made with advisor approval.**

**Minimum hours required for graduation: 120 hours.**

---

Code	Title	Hours
ESES	Introductory Core: Students take one approved introductory or advanced course from at least four of the following five areas. Approved courses within these areas are available from the ESE advisor <sup>1</sup>	12-14
	Environment and the Human Response	

Sustainability, Policy, and Global Change	
Earth's Physical Systems, Resources, and Hazards	
Visualizing the Earth System	
Earth's Biosphere and Ecology	
ESE coursework	6
GEOG 379 Intro to GIS Systems	
ESE 200 Earth Systems	
Advanced Courses	15-20
A minimum of five 300- and 400-level courses, from the approved list and in an academically coherent program approved by the advisor, are required. At least three of these five advanced courses must be listed or cross-listed as an ESE or ENSU course. Courses taken to satisfy the "ESE Introductory Core" requirement cannot simultaneously be used to satisfy the Advanced Course requirement. These courses should be used to help meet the LAS requirement of 21 hours of 300- or 400-level courses overall, and the 12 hours of 300- or 400-level courses in the major. It is strongly recommended that students complete the LAS requirement with 21 hours of 300- or 400-level courses related to the ESE curriculum.

	Highly recommended: CHEM 101 or CHEM 102	

## Learning Outcomes: Earth, Society, & Environmental Sustainability, BSLAS

*Learning Outcomes for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability*

1. Be able to recognize, critique and implement commonly accepted Sustainability models and ideas in a wide variety of settings, using systems thinking to link social and natural science concepts.
2. Have a fundamental understanding of the underlying natural science (SES concentration) or social science (SAE concentration) concepts; being able to recognize and apply appropriate scientific methods (SES concentration) and social science methods (SAE concentration).
3. Use quantitative methods to describe, understand and evaluate theoretical and applied issues in environmental and sustainability study; this includes direct calculation, working with data, and using quantitative models.
4. Be able to critically evaluate and then communicate environmental and sustainability concepts to both specialized and wide audiences.
5. Prepare students for professional work in environmental and sustainability practice, such as laboratory and field techniques, apprehending and implementing Geographic Information Sciences (including the use of appropriate software), and quantitative and qualitative methods.

## East Asian Languages & Cultures, BALAS

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://www.las.illinois.edu/>

**Students pursuing this major may also choose a concentration:**  
 Teaching of East Asian Languages (<http://catalog.illinois.edu/undergraduate/las/east-asian-languages-cultures-balas/teaching-east-asian-languages/>)  
*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in East Asian Languages & Cultures*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement. Minimum required major and supporting course work: normally equates to 33-57 hours. Twelve hours of 300- or 400-level courses in the major must be taken on this campus. Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
	One year of a single East Asian Language beyond the intermediate level (i.e., beyond CHIN 204 or CHIN 242; JAPN 204; KOR 204 or KOR 241). <sup>1</sup>	10-30
	Disciplinary and period courses: <sup>2</sup>	12
	EALC 120 East Asian Civilizations	
	One course on East Asia dealing substantially with the period before 1800	
	One course in East Asian history	
	One course in East Asian literature	
	Advanced courses:	12
	Four non-language courses at the 300- or 400-level.	
EALC 398	Colloquium in EALC (or an approved senior project.) <sup>3</sup>	3

<sup>1</sup> *Students testing out of the advanced language requirement (306-level) must take two additional non-language courses from East-Asian-related offerings.*

<sup>2</sup> *No course may be counted more than once toward these requirements and at least two courses must be at the 200-level or above.*

<sup>3</sup> *Students selecting the senior project option must submit to the Director of Undergraduate Study a proposal outlining the project to be undertaken, the course in which the project is to be completed and an agreement signed by the faculty member supervising the project.*

## Learning Outcomes: East Asian Languages & Cultures, BALAS

*Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences : Major in East Asian Languages & Cultures*

1. **Linguistic Competence and Cultural Understanding:** EALC students will effectively deal with the routine tasks and social situations and

express personal meaning in the language of a target country in a linguistically and culturally appropriate manner.

- Intellectual Reasoning and Knowledge:** EALC students will demonstrate broad and deep knowledge of East Asian cultures through coursework in more than one discipline.
- Creative Inquiry and Discovery:** EALC students will develop a critical and reflective orientation toward social, cultural, and linguistic differences and apply the knowledge to promote inquiry, discover solutions, and generate new ideas and creative works in the form of research.

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Econometrics & Quantitative Economics

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required major and supporting course work normally equates to 63-65 hours including a minimum of 30 hours of economics courses excluding ECON 199, ECON 220, ECON 398, and ECON 399. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours

Code	Title	Hours
<b>Economics Courses including:</b>		<b>30</b>
ECON 102	Microeconomic Principles	3
ECON 103	Macroeconomic Principles	3
ECON 198	Economics at Illinois	1
ECON 202	Economic Statistics I	3
ECON 203	Economic Statistics II	3
ECON 302	Inter Microeconomic Theory	3
ECON 303	Inter Macroeconomic Theory	3

11 additional hours of economics at the 300- or 400-level <sup>1</sup>

**12 hours of economics at the 400-level chosen from a set of courses on econometrics, quantitative economics, computational economics, and mathematical economics.** 12

**Mathematics, Statistics, and Computer Science Courses including:** 15-16

MATH 220	Calculus or MATH 22Calculus I	5
MATH 231	Calculus II	3
MATH 225	Introductory Matrix Theory	2
Statistics		3
STAT 385	Statistics Programming Methods	
CS 105	Intro Computing: Non-Tech (or CS 101 or CS 125)	3

**Supporting course work** 6

Six hours of courses outside of economics but related to econometrics, quantitative economics, computational economics, or mathematical economics. This would include additional courses in mathematics, statistics, or computer science.

**Total Hours** 63-65

<sup>1</sup> Excluding ECON 398 and ECON 399.

## Learning Outcomes: Economics, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Economics

- Analytical Skills/Problem-Solving:** ECON students will effectively visualize, conceptualize, articulate, and solve complex problems or address problems that do not have a clear answer, with available information, through experimentation and observation, using microeconomic and macroeconomic theory, as well as calculus and statistical tools.
- Critical Thinking:** ECON students will apply economic analysis to everyday problems helping them to understand events, evaluate specific policy proposals, compare arguments with different conclusions to a specific issue or problem, and assess the role played by assumptions in arguments that reach different conclusions to a specific economic or policy problem.
- Quantitative Reasoning:** ECON students will understand how to apply empirical evidence to economic arguments. Specifically, they may obtain and/or collect relevant data, develop empirical evidence using

appropriate statistical techniques, and interpret the results of such analyses.

- Specialized Knowledge and Practical Application:** ECON students will develop deeper analytical, critical, and quantitative skills in specialized areas by applying economic concepts to real world situations.
- Interdisciplinary Knowledge, Diverse Issues, and Global Consciousness:** ECON students will broaden their global and disciplinary knowledge, enhancing their understanding of the world around them both within economics and beyond.

## Electrical Engineering, BS

*For the Degree of Bachelor of Science in Electrical Engineering*

**department website:** <https://ece.illinois.edu>  
**department faculty:** Electrical & Computer Engineering Faculty (<https://ece.illinois.edu/directory/faculty.asp>)  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

Electrical engineering is a multifaceted discipline that over the last century has produced an astounding progression of technological innovations that have shaped virtually every aspect of modern life. Electrical engineers need a broad and solid foundation in mathematics and physics to support their education in the engineering principles of analysis, synthesis, design, implementation, and testing of the devices and systems that provide the bedrock of modern energy, communication, sensing, computing, medical, security, and defense infrastructures. Within each subdiscipline one can find application domains that strongly rely on hands-on experimental work or that are based on theoretical, mathematical and computational approaches. The multidisciplinary nature of the electrical engineering education addresses the growing demand for the innovation and design of sensing, communication, computing, and decision-making systems of increasing complexity in consumer, defense, and medical applications.

The curriculum starts with a core of fundamental courses on circuits, electromagnetics, solid-state electronics, and computer systems, leading to a comprehensive array of specialized courses and laboratories in all of the important areas of modern electrical engineering.

*For the Degree of Bachelor of Science in Electrical Engineering*

## Overview of Curricular Requirements

The curriculum requires 128 hours for graduation and is organized as shown below.

## Graduation Requirements

**Minimum Technical GPA** (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>): **2.0**

TGPA is required for ECE courses (except ECE 316). See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>) to clarify requirements.

**Minimum Overall GPA: 2.0****Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

**Orientation and Professional Development**

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0

ECE 329	Fields and Waves I	3
ECE 340	Semiconductor Electronics	3
ECE 385	Digital Systems Laboratory	3
ECE 445	Senior Design Project Lab <sup>5,6</sup>	4
Total Hours		31

**Technical Electives**

Code	Title	Hours
<b>32 hours, to include:</b>		
Non-ECE courses from list below:		6
AE 202	Aerospace Flight Mechanics	3
AE 302	Aerospace Flight Mechanics II	3
AE 311	Incompressible Flow	3
AE 312	Compressible Flow	3
AE 321	Mechs of Aerospace Structures	3
AE 352	Aerospace Dynamical Systems	3
AE 353	Aerospace Control Systems	3
AE 402	Orbital Mechanics	3 or 4
AE 403	Spacecraft Attitude Control	3 or 4
AE 410	Computational Aerodynamics	3 or 4

AE 412	Viscous Flow & Heat Transfer	4
AE 416	Applied Aerodynamics	3 or 4
AE 419	Aircraft Flight Mechanics	3 or 4
AE 420	Finite Element Analysis	3 or 4
AE 427	Mechanics of Polymers	3
AE 428	Mechanics of Composites	3
AE 433	Aerospace Propulsion	3 or 4
AE 434	Rocket Propulsion	3 or 4
AE 435	Electric Propulsion	3 or 4
AE 451	Aeroelasticity	3 or 4
AE 460	Aerodynamics & Propulsion Lab	2
Ag and Bio Eng. - All 300 and 400 level courses except ABE 440. Except seminars and special topics courses, which may be reviewed in the Advising Office		
ASTR 210	Introduction to Astrophysics	3
ASTR 310	Computing in Astronomy	3
ASTR 330	Extraterrestrial Life	3
ASTR 350	The Big Bang, Black Holes, and the End of the Universe	3
ASTR 404	Stellar Astrophysics	3
ASTR 405	Planetary Systems	3
ASTR 406	Galaxies and the Universe	3
ASTR 414	Astronomical Techniques	4
ASTR 450	Astrochemistry	4
ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ATMS 304	Radiative Transfer-Remote Sens	3
ATMS 305	Computing and Data Analysis	3
ATMS 404	Risk Analysis in Earth Science	3 or 4
ATMS 405	Boundary Layer Processes	4
ATMS 406	Tropical Meteorology	4
ATMS 410	Radar Remote Sensing	4
ATMS 411	Satellite Remote Sensing	4
ATMS 420	Atmospheric Chemistry	4
ATMS 421	Earth Systems Modeling	4
ATMS 425	Air Quality Modeling	4
ATMS 447	Climate Change Assessment	3
ATMS 449	Biogeochemical Cycles	4
BIOC 406	Gene Expression & Regulation	3
BIOC 440	Physical Chemistry Principles	4
BIOC 446	Physical Biochemistry	3
BIOC 455	Technqs Biochem & Biotech	4
BIOE 201	Conservation Principles Bioeng	3
BIOE 202	Cell & Tissue Engineering Lab	2
BIOE 302	Modeling Human Physiology	3
BIOE 414	Biomedical Instrumentation	3
BIOE 415	Biomedical Instrumentation Lab	2
BIOE 461	Cellular Biomechanics	4
BIOE 467	Biophotonics	3
BIOE 476	Tissue Engineering	3
BIOE 480	Magnetic Resonance Imaging	3 or 4

Biophysics (BIOP): All 400 level courses except seminars and special topics courses, which may be reviewed in the Advising Office.

CHBE 221	Principles of CHE	3
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHBE 451	Transport Phenomena	3
CHBE 452	Chemical Kinetics & Catalysis	3
CHBE 453	Electrochemical Engineering	2 or 3
CHBE 456	Polymer Science & Engineering	3
CHBE 457	Microelectronics Processing	3
CHBE 471	Biochemical Engineering	3 or 4
CHBE 472	Techniques in Biomolecular Eng	3 or 4
CHBE 473	Biomolecular Engineering	3 or 4
CHBE 474	Metabolic Engineering	3 or 4
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
Chemistry (CHEM): All 200, 300 and 400 level except 397, 497, and 499. Exceptions also include seminars and special topics, which may be reviewed in the Advising Office.		
CEE 310	Transportation Engineering	3
CEE 330	Environmental Engineering	3
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 430	Ecological Quality Engineering	2
CEE 447	Atmospheric Chemistry	4
CEE 491	Decision and Risk Analysis	3 or 4
CS 101	Intro Computing: Engrg & Sci (By Approval)	3
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 242	Programming Studio	3
CS 357	Numerical Methods I	3
CS 410	Text Information Systems	3 or 4
CS 411	Database Systems	3 or 4
CS 412	Introduction to Data Mining	3 or 4
CS 413	Intro to Combinatorics	3 or 4
CS 414	Multimedia Systems	3 or 4
CS 418	Interactive Computer Graphics	3 or 4
CS 419	Production Computer Graphics	3 or 4
CS 420	Parallel Progrmg: Sci & Engrg	3 or 4
CS 421	Programming Languages & Compilers	3 or 4
CS 422	Programming Language Design	3 or 4
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 426	Compiler Construction	3 or 4
CS 427	Software Engineering I	3 or 4

CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 431	Embedded Systems	3 or 4
CS 433	Computer System Organization	3 or 4
CS 436	Computer Networking Laboratory	3 or 4
CS 438	Communication Networks	3 or 4
CS 439	Wireless Networks	3 or 4
CS 440	Artificial Intelligence	3 or 4
CS 445	Computational Photography	3 or 4
CS 446	Machine Learning	3 or 4
CS 447	Natural Language Processing	3 or 4
CS 450	Numerical Analysis	3 or 4
CS 460	Security Laboratory	3 or 4
CS 461	Computer Security I	4
CS 463	Computer Security II	3 or 4
CS 465	User Interface Design	3 or 4
CS 466	Introduction to Bioinformatics	3 or 4
CS 467	Social Visualization	3 or 4
CS 473	Algorithms	4
CS 475	Formal Models of Computation	3 or 4
CS 476	Program Verification	3 or 4
CS 477	Formal Software Development Methods	3 or 4
CS 481	Advanced Topics in Stochastic Processes & Applications	3 or 4
CS 484	Parallel Programming	3 or 4
CS 398	Special Topics (As Approved)	1 to 4
CS 498	Special Topics (As Approved)	1 to 4
ECE 297	Individual Study	1
ECE 304	Photonic Devices	3
ECE 307	Techniques for Engrg Decisions	3
ECE 310	Digital Signal Processing	3
ECE 311	Digital Signal Processing Lab	1
ECE 314	Probability in Engineering Lab	1
ECE 329	Fields and Waves I	3

## Electives

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>7</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>8</sup>	12
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.  
<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.  
<sup>3</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.  
<sup>4</sup> STAT 410 may be substituted.  
<sup>5</sup> ECE 496 AND ECE 499 may be substituted.  
<sup>6</sup> Advanced Composition may be satisfied by completing ECE 445, or a course in either the general education or free elective categories which has the Advanced Composition designation.

<sup>7</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>8</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

For the Degree of Bachelor of Science in Electrical Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/ee-map/>).

First Year		Hours
<b>First Semester</b>		
ECE 110 <sup>1</sup>	Introduction to Electronics	3
ENG 100	Engineering Orientation	0
MATH 221 <sup>2</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105	Writing and Research (or General Education elective) <sup>3,4</sup>	4-3
Semester Hours		15-14
<b>Second Semester</b>		
ECE 120	Introduction to Computing	4
MATH 231	Calculus II	3
PHYS 211	University Physics: Mechanics	4
General Education elective (or RHET 105) <sup>3,4</sup>		3-4
General Education elective <sup>4</sup>		3
Semester Hours		17-18
<b>Second Year</b>		
<b>First Semester</b>		
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
ECE 220	Computer Systems Programming	4
General Education elective <sup>4</sup>		3
Free Elective		3

	General Education elective <sup>4</sup>	3
Semester Hours		17

**Second Semester**

ECE 445 <sup>7</sup>	Senior Design Project Lab	4
	Technical electives <sup>5</sup>	8
	Free electives	3
Semester Hours		15

Total Hours: 128

<sup>1</sup> Freshmen take ECE 110 for 3 credit hours. Lab only version of ECE 110 taken by transfer students (with special permission) is 1 credit hour.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>5</sup> A minimum of 32 hours chosen from the departmentally approved list of Technical Electives (<https://ece.illinois.edu/academics/ugrad/curriculum/tech-electives-06/>). Of these, at least three courses are to be chosen from the ECE advanced core electives and three courses from the list of ECE laboratory electives; 20 hours must be ECE course work, six hours non-ECE course work, and the remaining hours may be chosen from the entire List.

<sup>6</sup> STAT 410 may be substituted

<sup>7</sup> Advanced Composition. May be satisfied by completing ECE 445 or ECE 496 AND ECE 499 or a course within either the liberal education or free elective categories which has the Advanced Composition designation.

## Learning Outcomes: Electrical Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Electrical Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Electrical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Elementary Education, BS

for the degree of Bachelor of Science Major in Elementary Education

**department faculty:** Curriculum & Instruction Faculty (<https://education.illinois.edu/faculty-finder/ci/>)

**overview of college admissions & requirements:** College of Education (<https://education.illinois.edu/programs/undergrad/programs-degrees/ci-ele-ug/>)

**college website:** <https://education.illinois.edu/> (<http://education.illinois.edu/>)

This program prepares teachers for grades one through six. A minimum of 120 semester hours is necessary for graduation<sup>1</sup>.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education (<http://www.cote.illinois.edu/>)

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

CI 475	Teaching Elementary Reading and Language Arts I	3
CI 476	Teaching Elementary and Middle Grade Language Arts	3
FAA 202	Artsful Teaching through Integ	3
CI 452	Social Studies as Action and Inquiry	3
Total Hours		120

TOTAL minimum hours include general education and professional education credits.<sup>5</sup>

<sup>1</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

<sup>2</sup> Exclusions apply including, but not limited to: Horticulture, Dance and Urban Planning. Must be a science rubric. Consult with advisers for further information.

<sup>3</sup> Across these gen-ed categories, students will need to take courses that include at least four different rubrics from the following: ANTH, ECON, GEOG, GLBL, HIST, PS, PSYC, SOC to meet the ISBE Social Science requirement.

<sup>4</sup> ISBE standards require demonstration of proficiency in algebra and statistics. Consult with adviser for further information.

<sup>5</sup> The total hours required for the degree may be higher for students who have not already completed the language other than English requirement and/or the ISBE algebra requirement.

<sup>6</sup> PYSC 100 is a prerequisite for EPSY 201.

<sup>7</sup> Students will register for EDPR 250 during their spring term of the year one professional education sequence year for zero credit hours and register for EDPR 250 again their fall term of the year two professional education sequence for four credit hours.

## Learning Outcomes: Elementary Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Elementary Education

1. Students will acquire deep knowledge of content in the field of Education
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for elementary students, grades 1-6.
3. Students will use data to drive decisions and solve problems in and out of the classroom
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices)

## Engineering Mechanics, BS

for the degree of Bachelor of Science in Engineering Mechanics

**department website:** <http://mechse.illinois.edu/>  
**department faculty:** Mechanical Science & Engineering Faculty (<https://mechse.illinois.edu/people/>)  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

Engineering mechanics is a discipline devoted to the solution of engineering and mechanics problems through integrated application of mathematical, scientific, and engineering principles. Special emphasis is placed on the physical principles underlying modern engineering design.

In this program (accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org)), students in engineering mechanics develop a strong foundation in mathematics, physics, and chemistry. The program derives its strength from a rigorous curriculum composed of statics, dynamics, solid mechanics, fluid mechanics, and mechanics of materials courses. These topics form the basis of all engineering disciplines and have wide applicability in modern engineering. Special emphasis is placed on advanced dynamics, continuum mechanics, and the rapidly emerging field of computational mechanics. Laboratory experiments in fluid mechanics and mechanics of materials complement an integrated design sequence, which starts freshman year. Engineering design, communication, teamwork, and laboratory experiences are integrated throughout the entire curriculum. Students also have the opportunity for independent, creative work in a one-on-one or small group environment under the supervision of a faculty member.

Students in engineering mechanics also benefit from a built-in area of specialization in one of seven secondary fields within mechanics. The seven pre-approved secondary fields are:

- Biomechanics
- Computational Mechanics
- Engineering Science and Applied Mathematics
- Experimental Mechanics
- Fluid Mechanics

- Mechanics of Materials
- Solid Mechanics

Alternatively, students may fashion their own area of specialization with departmental approval. At the end of the curriculum, students take the capstone senior design course where the knowledge and skills they have learned are applied to projects submitted to the department by corporate or faculty sponsors, preparing Engineering Mechanics students for their next leap into industry or graduate school.

for the degree of Bachelor of Science in Engineering Mechanics

## Graduation Requirements

**Minimum Technical GPA** (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for required Engineering courses and any technical elective courses. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

## Secondary Field Option Electives

Code	Title	Hours
<b>Secondary field electives selected from departmentally approved courses for Secondary Field Options. Each secondary field generally specifies two required courses and two additional courses from a list of approved elective courses. For each of the secondary fields, the required and approved elective courses specified for each are listed below. To add flexibility to the program and to accommodate particular interests, the student may fashion an individualized secondary field option. The only requirements are that the courses be related to mechanics, form a coherent and cohesive group, include at least two engineering courses, and total at least 12 hours of advanced-level coursework that are distinct from required courses in the Engineering Mechanics curriculum. This can include 500-level courses, if the student has the adequate preparation, for any of the secondary field elective courses. Each student must formally declare their choice of secondary field with a Mechanical Science and Engineering Undergraduate Programs Office advisor using a Secondary Field Options form.</b>		12

**Biomechanics**

Required Courses		
MCB 150	Molec & Cellular Basis of Life	4
MCB 151	Molec & Cellular Laboratory	1
TAM 461	Cellular Biomechanics	4
Approved Courses		
ECE 473	Fund of Engrg Acoustics	3 or 4
ECE 380	Biomedical Imaging	3
ME 481	Whole-Body Musculoskel Biomech	3 or 4
ME 482	Musculoskel Tissue Mechanics	3 or 4
ME 483	Mechanobiology	4
BIOP 401	Introduction to Biophysics	3
TAM 499	Senior Thesis	3

### Computational Mechanics

Required Courses		
CS 357	Numerical Methods I	3
ME 471	Finite Element Analysis	3 or 4

Approved Courses		
CS 450	Numerical Analysis	3 or 4
CS 457	Numerical Methods II	3
ME 412	Numerical Thermo-Fluid Mechs	2 to 4
TAM 499	Senior Thesis	3

### Engineering Science and Applied Mathematics

Required Courses		
MATH 446	Applied Complex Variables or MATH 44Complex Variables	3-4
Any 400 level MATH course, excluding MATH 415, MATH 441, and MATH 442		3 or 4

Approved Courses		
AE 353	Aerospace Control Systems	3
AE 402	Orbital Mechanics	3 or 4
CEE 491	Decision and Risk Analysis	3 or 4
ECE 329	Fields and Waves I	3
ECE 330	Power Ckts & Electromechanics	3
ECE 473	Fund of Engrg Acoustics	3 or 4
MATH 423	Differential Geometry	3 or 4
MATH 447	Real Variables	3 or 4
MATH 482	Linear Programming	3 or 4
MATH 484	Nonlinear Programming	3 or 4
MATH 489	Dynamics & Differential Eqns	3 or 4
MATH 490	Advanced Topics in Mathematics	1 to 4
PHYS 402	Light	3 or 4
STAT 400	Statistics and Probability I	4
STAT 410	Statistics and Probability II	3 or 4
TAM 499	Senior Thesis	3

### Experimental Mechanics

Required Courses		
TAM 456	Experimental Stress Analysis	3
ECE 206	Electrical and Electronic Circuits Lab	1
Approved Courses		
CS 357	Numerical Methods I	3
ECE 473	Fund of Engrg Acoustics	3 or 4
ME 360	Signal Processing	3.5
PHYS 402	Light	3 or 4
TAM 499	Senior Thesis	3

### Fluid Mechanics

Required Courses		
TAM 435	Intermediate Fluid Mechanics	4
ME 410	Intermediate Gas Dynamics	3 or 4
Approved Courses		
AE 412	Viscous Flow & Heat Transfer	4
CEE 445	Air Quality Modeling	4
CEE 451	Environmental Fluid Mechanics	3
CEE 453	Urban Hydrology and Hydraulics	4
ECE 473	Fund of Engrg Acoustics	3 or 4
ME 412	Numerical Thermo-Fluid Mechs	2 to 4
TAM 499	Senior Thesis	3

**Mechanics of Materials**

Required Courses		
TAM 424	Mechanics of Structural Metals	3 or 4
TAM 427	Mechanics of Polymers	3
	or TAM 428 Mechanics of Composites	
Approved Courses		
CEE 310	Transportation Engineering	3
MSE 401	Thermodynamics of Materials	3
MSE 489	Matl Select for Sustainability	3 or 4
NPRES 431	Materials in Nuclear Engrg	3
TAM 499	Senior Thesis	3

**Solid Mechanics**

Required Courses		
TAM 424	Mechanics of Structural Metals	3 or 4
TAM 451	Intermediate Solid Mechanics	4
Approved Courses		
CEE 360	Structural Engineering	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CS 357	Numerical Methods I	3
ECE 473	Fund of Engrg Acoustics	3 or 4
TAM 499	Senior Thesis	3

**Electives**

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>9</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>10</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> CHEM 103 (<http://catalog.illinois.edu/search/?P=CHEM%20103>) requirement waived for students who received test-based credit (AP, IB, or proficiency) for CHEM 102 (<http://catalog.illinois.edu/search/?P=CHEM%20102>), similarly CHEM 105 (<http://catalog.illinois.edu/search/?P=CHEM%20105>) requirement waived for students who received test-based credit for CHEM 104 (<http://catalog.illinois.edu/search/?P=CHEM%20104>). Students are still required to have 128 hours minimum to graduate.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> Transfer or incoming students with credit upon admission to the Engineering Mechanics program may substitute MATH 284 (<http://catalog.illinois.edu/search/?P=MATH%20284>) or MATH 285 (<http://catalog.illinois.edu/search/?P=MATH%20285>) with a grade of B+ or higher.

<sup>5</sup> CS 125 (<http://catalog.illinois.edu/search/?P=CS%20125>) or ECE 220 (<http://catalog.illinois.edu/search/?P=ECE%20220>) may be substituted.

<sup>6</sup> ECE 110 (<http://catalog.illinois.edu/search/?P=ECE%20110>) and ECE 210 (<http://catalog.illinois.edu/search/?P=ECE%20210>) (or ECE 211 (<http://catalog.illinois.edu/search/?P=ECE%20211>)) combined may be substituted.

<sup>7</sup> Advanced Composition satisfied by completing TAM 324 and ME 470.

<sup>8</sup> Transfers and Physics minor/dual degree students may substitute PHYS 325 (<http://catalog.illinois.edu/search/?P=PHYS%20325>).

<sup>9</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>10</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Engineering Mechanics

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/engineering-mechanics-map/>).

Total Hours:		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). ME 170 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Selected from departmentally approved list of Secondary Field Electives (<http://mechanical.illinois.edu/undergraduate/bs-engineering-mechanics/#EMSecondaryFields>).

## Learning Outcomes: Engineering Mechanics, BS

Learning Outcomes for the degree of Bachelor of Science Major in Engineering Mechanics

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Engineering Mechanics graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

 English, English Teaching Concentration, BALAS (p. 177)  
 English, Topics in English Concentration, BALAS (p. 178)  
 Creative Writing, BALAS (p. 145)

**for the degree of Bachelors of Arts in Liberal Arts & Sciences Major in English, English Concentration**

Minimum required major and supporting coursework equates to 39 hours of English department courses. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours), and 6 of these hours must come from two different period areas.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

Minimum hours required for graduation: 120 hours.

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in graduating with distinction or high distinction are encouraged to consult the English department advising office.

## Concentration Requirements

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>
ENGL 200	Introduction to the Study of Literature and Culture (prerequisite for other English courses; can be taken at the same time as a course that satisfies the Composition I requirement)	
ENGL 301	Introduction to Critical Theory	
ENGL 350	Writing about Literature, Text, and Culture	
<b>Historical Surveys</b>		<b>6</b>
Students are encouraged to take these required survey courses as early as possible after completing ENGL 200		
Two courses from the following options:		
ENGL 209	Early British Literature and Culture	
ENGL 255	Early American Literature and Culture	
ENGL 259	Early African American Literature and Culture	
Any ethnic literature survey with a significant pre-1900 focus <sup>1</sup>		
<b>Period Courses (American, British, Anglophone, etc.)</b>		<b>15</b>
6 hours: At least two courses that cover at least two of the following categories:		
Medieval Literature & Culture (before 1550) Shakespeare		
Early Modern Literature & Culture (1550-1660, other than Shakespeare)		
Eighteenth-Century Literature & Culture (1660-1800)		
3 hours: At least one course in Nineteenth-Century Literature & Culture		
3 hours: At least one course in Twentieth-Century Literature & Culture		
3 hours: At least one course in Contemporary Literature & Culture		
<b>Elective Coursework</b> <sup>1,2</sup>		<b>9</b>
At least three courses chosen from those controlled by or cross-listed with the Department of English (Business and Technical Writing, Creative Writing, and English)		

One course in Difference and Diaspora. This requirement can be fulfilled by taking an appropriately focused course from among ENGL 350: Writing about Literature, Text, and Culture; the historical surveys; the period courses; or the elective coursework.

Total Hours 39

<sup>1</sup> Chosen from the list maintained in the Department of English. Note: ENGL 350 can serve as a period course, a cluster course, an elective course, and/or a Difference and Diaspora course only when it is not also being used to fulfill a core requirement. Students who wish to use ENGL 350 in this way must thus take the course a second time (and with a different topic than the first time).

<sup>2</sup> Student may count one Independent Study course (ENGL 290, ENGL 390 or BTW 290) toward the additional coursework requirement.

### Undergraduate Degree Programs in English

#### Majors:

English, BALAS (p. 175) **with concentrations:**  
English, English Concentration, BALAS (p. 176)  
English, English Teaching Concentration, BALAS (p. 177)  
English, Topics in English Concentration, BALAS (p. 178)  
Creative Writing, BALAS (p. 145)

*for the degree of Bachelors of Arts in Liberal Arts & Sciences: Major in English, English Teaching Concentration*

This concentration fulfills state certification requirements to teach high school (grades 9-12) English Language Arts through the AP/honors level.

Minimum required concentration and supporting coursework normally equates to 78 hours: 39 hours of English department courses and 39 hours of courses from the Teacher Education Minor in Secondary School Teaching. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours). Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

Time to degree completion varies. Minimum time to completion is eight semesters, with some students requiring ten semesters. Transfer

students may need ten total semesters combined to complete the program. Please see the LAS Transfer Handbook for more information.

To remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages.

Prerequisites to transfer to the English Teaching concentration: Students must complete ENGL 200, the two required historical surveys, and ENGL 301 (Intro to Critical Theory). In addition, it is strongly recommended that students complete five additional ENGL courses (chosen in consultation with an English advisor) appropriate to the English Teaching Concentration.

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in the departmental honors program should contact the English department advising office.

### English Teaching Requirements

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>

### Undergraduate Degree Programs in English

#### Majors:

- English, BALAS (p. 175) with concentrations:
  - English, English Concentration, BALAS (p. 176)
  - English, English Teaching Concentration, BALAS (p. 177)
  - English, Topics in English Concentration, BALAS (p. 178)
- Creative Writing, BALAS (p. 145)

for the degree of Bachelors of Arts in Liberal Arts & Sciences: Major in English, Topics in English Concentration

Minimum required major and supporting coursework equates to 39 hours of English department courses. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours) and 9 of these hours (including the capstone) must be taken in the student's chosen field.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

Minimum hours required for graduation: 120 hours

For this concentration, students will complete 12 hours of coursework (4 courses) in one of three cluster areas: Literature and Science, Media Cultures, or Race, Indigeneity, Gender, and Sexuality. These 12 hours will

be selected from an approved list of courses for this category maintained by the English department. Students can access these lists and a further description of each cluster on the Department of English website (<https://english.illinois.edu/academics/undergraduate-studies/majors-minors/>).

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in the departmental honors program should contact the English department advising office.

### Topics in English

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>
ENGL 200	Introduction to the Study of Literature and Culture (prerequisite for other English courses; can be taken at the same time as a course that satisfies the Composition I requirement)	
ENGL 301	Introduction to Critical Theory	
ENGL 350	Writing about Literature, Text, and Culture	
<b>Cluster Courses</b> <sup>1</sup>		<b>12</b>
Four courses in one of the following clusters, selected from approved lists maintained by the English Department:		
Literature and Science		
Media Cultures		
Race, Indigeneity, Gender, and Sexuality		
<b>Capstone Course</b>		<b>3</b>
ENGL 400	Senior Capstone Seminar (guided research in the student's chosen field)	
<b>Elective Coursework</b> <sup>1,2</sup>		<b>15</b>
At least five courses chosen from those controlled by or cross-listed with the Department of English (Business and Technical Writing, Creative Writing, and English)		
One course in Difference and Diaspora. This requirement can be fulfilled by taking an appropriately focused course from among ENGL 350: Writing about Literature, Text, and Culture; the cluster courses; or the elective coursework. <sup>1</sup>		
Total Hours		39

<sup>1</sup> Chosen from the list maintained in the Department of English. Note: ENGL 350 can serve as a period course, a cluster course, an elective course, and/or a Difference and Diaspora course only when it is not also being used to fulfill a core requirement. Students who wish to use ENGL 350 in this way must thus take the course a second time (and with a different topic than the first time).

<sup>2</sup> Students may count one Independent Study course (ENGL 290, ENGL 390 or BTW 290) toward the additional coursework requirement.

## Learning Outcomes: English, BALAS

Learning Outcomes for the degree of Bachelors of Arts in Liberal Arts & Sciences Major in English

- Capacity to understand, analyze, and interpret 'texts', broadly construed, through a variety of methods including close reading.

- Capacity to understand literature and literary history in relation to historical, theoretical, aesthetic, and political contexts.
- Ability to craft rigorous and well-supported arguments that demonstrate an awareness of audience (skills associated with the research paper).
- Literacy, including clarity of written expression and the capacity to evaluate external sources.
- Awareness of the ways in which forms of difference, including racial, ethnic, gender, and sexual difference, inform the production and reception of literature.

## Finance, BS

for the degree of Bachelor of Science Major in Finance

The field of finance is primarily concerned with the acquisition and management of funds by business firms, governments, and individuals. A business seeks financial advice when considering the purchase of new equipment, the expansion of present facilities, or the raising of additional funds. Determining the value of financial and real assets and derivatives is a key activity in finance.

As the study of finance is designed to provide the student with both the theoretical background and the analytical tools required to make effective judgments in finance, many students select careers in business financial management, commercial and investment banking, investments, government finance, insurance, and real estate. In addition to the finance major requirements, students in finance must meet the University General Education requirements and the Gies College of Business core requirements (for more detail, see the Gies College of Business undergraduate section (<http://catalog.illinois.edu/undergraduate/business/>)).

for the degree of Bachelor of Science Major in Finance

### Advising Notes

- Courses taken to fulfill major requirements may not be taken on a credit-no credit basis.
- It is recommended that Finance majors take additional accounting. ACCY 201 and ACCY 202 are required in the business core. Many employers look favorably upon additional accounting courses.

### Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 120 hours.**

### University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

### General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

### Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

### Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3

ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
Total Hours		58

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

Code	Title	Hours
For Students Admitted Prior to Fall 2016		
FIN 300	Financial Markets (Prerequisite: FIN 221 Corporate Finance)	3
FIN 321	Advanced Corporate Finance (Prerequisite: FIN 300 Financial Markets)	3
Three additional full-semester, 3-hour 400-level Finance courses except FIN 494 or FIN 495 (Senior Research) and FIN 490 (Special Topics).		9
Select one of the following (Major elective):		3-4
ACCY 301	Atg Measurement & Disclosure (Prerequisite: ACCY 202)	
ACCY 302	Decision Making for Atg (Prerequisite: ACCY 202)	
ACE 428	Commodity Futures and Options	
BADM 374	Management Decision Models (Prerequisite: ECON 202 or consent of instructor)	
Economics: any 300- or 400-level course excluding ECON 302		
GEOG 483	Urban Geography	
Mathematics or statistics: any course above the minimum mathematics or statistics requirement of the college with the exception of MATH 225.		
Other courses as recommended by the Department of Finance faculty and approved by the Department of Finance chairperson.		

Code	Title	Hours
For Students Admitted Fall 2016 and Later		
FIN 300	Financial Markets (Prerequisite: FIN 221 Corporate Finance)	3
FIN 321	Advanced Corporate Finance (Prerequisite: FIN 300 Financial Markets)	3
FIN 411	Investment & Portfolio Mngt (Prerequisite: FIN 300 Financial Markets)	3
Four additional full-semester, 3 hour 400 level-Finance courses except FIN 494 or FIN 495 (Senior Research) and FIN 490 (Special Topics).		12
One additional full-semester, 3-hour Finance course at the 200-level or above.		3

## Learning Outcomes: Finance, BS

Learning Outcomes for the degree of Bachelor of Science Major in Finance

1. Discipline-based competency: Students will acquire sufficient discipline based competency to address current and future corporate and investment finance problems. Such competency includes using finance knowledge and tools necessary to value real and financial assets, analyze a company's financial performance, and identify risk factors underlying such valuations or analysis.
2. Written and verbal communication competency: Students will be able to effectively integrate information into a coherent, well-organized, professional report.
3. Proficiency in the tools of the trade: Students should be able to demonstrate proficiency in the tools of the trade. First and foremost is Excel, but proficiency in Bloomberg, Morningstar, Capital IQ and the other tools of our trade.
4. Professional practice and ethics: Students should be familiar with professional practice and demonstrate consistent ethical behavior.

## Food Science & Human Nutrition, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition

**department website:** <https://fshn.illinois.edu>  
**department faculty:** <https://fshn.illinois.edu/directory/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

### Learning Outcomes

Students pursuing this major select one of four concentrations:

- Food Science Concentration (p. 183)
- Dietetics Concentration (p. 181)
- Human Nutrition Concentration (p. 185)
- Hospitality Management Concentration (p. 184)

# Food Science & Human Nutrition: Dietetics, BS

for Bachelor of Science: Major in Food Science & Human Nutrition, Dietetics concentration

**department website:** <https://fshn.illinois.edu>  
**department faculty:** <https://fshn.illinois.edu/directory/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)  
**college website:** <https://aces.illinois.edu/>

The Dietetics Concentration meets the requirements set by the Accreditation Council on Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) and qualifies students for competitive dietetic internships. Upon completion of a postgraduate internship, students selecting this concentration may take the examination to become Registered Dietitians. Students choosing this concentration who do not complete an internship will be prepared for entry-level supervisory positions in food service facilities and in the food and pharmaceutical industries.

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Dietetics concentration

## Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
Select one of the following:		6-7
RHET 105	Writing and Research & CMN 101 and Public Speaking (or equivalent) (see college Composition I requirement)	
CMN 111 & CMN 112	Oral & Written Comm I and Oral & Written Comm II	
<b>Advanced Composition</b>		
Select one course from campus approved list of Advanced Composition courses.		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. <sup>1</sup>		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following: <sup>2</sup>		4-5
MATH 220	Calculus	
MATH 221	Calculus I	
MATH 234	Calculus for Business I (This course does not count for students in the Food Science Concentration; choose from the other two options.)	
<b>Quantitative Reasoning II</b>		
Select one of the following:		3-4
ACE 261	Applied Statistical Methods	

CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
PSYC 235	Intro to Statistics	
STAT 100	Statistics	
<b>Natural Sciences and Technology</b>		
Chemistry <sup>3</sup>		3 or 8
CHEM 101	Introductory Chemistry	
CHEM 102	General Chemistry I & CHEM 103 and General Chemistry Lab I	
CHEM 104	General Chemistry II & CHEM 105 and General Chemistry Lab II	
MCB 100	Introductory Microbiology	3
MCB 101	Intro Microbiology Laboratory <sup>4</sup>	2
<b>Humanities and the Arts</b>		
Select from campus approved list.		6
<b>Social and Behavioral Sciences</b>		
Select from campus approved list and/or see individual concentration. <sup>5</sup>		9
<b>ACES Prescribed Course</b>		
ACES 101	Contemporary Issues in ACES	2
<b>Required Concentration</b>		
Concentration prescribed courses. See specific requirements for each concentration listed below.		
<b>Total Hours<sup>6</sup></b>		<b>126 or 130</b>

<sup>1</sup> Students in the Food Science Concentration must choose CPSC 116, and one course from Western cultures, and one from U.S. minority cultures from campus approved lists.

<sup>2</sup> Students in the Food Science Concentration must select from MATH 220 or MATH 221.

<sup>3</sup> Students in the Hospitality Management Concentration must take CHEM 101. All other concentrations take CHEM 102 + 103 & CHEM 104 + 105, which are **not** required for the Hospitality Management Concentration.

<sup>4</sup> Not required for the Food Science Concentration

<sup>5</sup> AGED 230 or 260 and 3 hours selected from the campus approved list for students in the Food Science Concentration - 6 hours total.

<sup>6</sup> The Food Science Concentration requires a minimum of 130 hours; the Dietetics, Human Nutrition, and Hospitality Management Concentrations each require a minimum of 126 hours.

Code	Title	Hours
<b>Other Natural Sciences and Technology Required</b>		
CHEM 232	Elementary Organic Chemistry I	4

**Dietetics Concentration Electives - select one of the following:** **2-4**

BIOC 455	Technqs Biochem & Biotech	
CHLH 210	Community Health Organizations	
Any course in CHLH numbered 300-499 <sup>1</sup>		
Any course in FSHN numbered 300-499 <sup>1</sup>		
HDFS 301	Infancy & Early Childhood	
HDFS 305	Middle Childhood	
HDFS 310	Adult Development	
HDFS 322	US Latina and Latino Families	
HDFS 405	Adolescent Development	
Any course in KIN numbered 300-499 <sup>1</sup>		

**Elective hours as needed to reach a minimum of 126**

<sup>1</sup> Cannot be used to fulfill more than one requirement.

## Learning Outcomes: Dietetics Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Dietetics Concentration

All graduates of the University of Illinois Didactic Program in Dietetics (DPD) will be able to:

KRDN 1.1 Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.

KRDN 1.2 Use current information technologies to locate and apply evidence-based guidelines and protocols.

KRDN 1.3 Apply critical thinking skills.

KRDN 2.1 Demonstrate effective and professional oral and written communication and documentation.

KRDN 2.2 Describe the governance of nutrition and dietetics practice, such as the Scope of Nutrition and Dietetics Practice and the Code of Ethics for the Profession of Nutrition and Dietetics; and describe interprofessional relationships in various practice settings.

KRDN 2.3 Assess the impact of a public policy position on nutrition and dietetics practice.

KRDN 2.4 Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.

KRDN 2.5 Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates in the delivery of food and nutrition services.

KRDN 2.6 Demonstrate an understanding of cultural competence/sensitivity.

KRDN 2.7 Demonstrate identification with the nutrition and dietetics profession through activities such as participation in professional organizations and defending a position on issues impacting the nutrition and dietetics profession.

KRDN 2.8 Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.

KRDN 3.1 Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.

KRDN 3.2 Develop an educational session or program/educational strategy for a target population.

KRDN 3.3 Demonstrate counseling and education methods to facilitate behavior change and enhance wellness for diverse individuals and groups.

KRDN 3.4 Explain the processes involved in delivering quality food and nutrition services.

KRDN 3.5 Describe basic concepts of nutritional genomics.

KRDN 4.1 Apply management theories to the development of programs or services.

KRDN 4.2 Evaluate a budget and interpret financial data.

KRDN 4.3 Describe the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.

KRDN 4.4 Apply the principles of human resource management to different situations.

KRDN 4.5 Describe safety principles related to food, personnel and consumers.

KRDN 4.6 Analyze data for assessment and evaluate data to be used in decision-making for continuous quality improvement.

# Food Science & Human Nutrition: Food Science, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Food Science Concentration

**department website:** <https://fshn.illinois.edu>  
**department faculty:** <https://fshn.illinois.edu/directory/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)  
**college website:** <https://aces.illinois.edu/>

The Food Science concentration exposes students to all components of food production: harvesting and raw-product handling, food-processing procedures and techniques, packaging, and food storage. Students selecting this concentration are prepared for careers in many areas of the food industry.

ACE 306	Food Law	
CHEM 233	Elementary Organic Chem Lab I	

## Learning Outcomes: Food Science Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Food Science Concentration

All graduates of the University of Illinois Food Science concentration will achieve the following:

1. Graduates are A) competent in core food science areas and B) can integrate and apply their knowledge to solve real-world problems and make decisions. Core Food Science Areas include: Food Chemistry and Analysis, Food Safety and Microbiology, Food Processing and Engineering, and Sensory Science. Associated Areas include: Nutrition and Health, Quality Assurance, Food Laws and Regulations
2. Graduates possess strong critical thinking and problem solving skills.
3. Graduates are proficient communicators.
4. Graduates possess impactful professional and leadership skills.

### Aspirational goals

Graduates of our Food Science program: 1) value diversity, 2) are confident in their abilities, 3) volunteer their services to their professional and societal communities, and 4) take professional and ethical responsibility for their actions.

## Food Science & Human Nutrition: Hospitality Management, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Hospitality Management Concentration

**department website:** <https://fshn.illinois.edu>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)  
**college website:** <https://aces.illinois.edu/>

The Hospitality Management concentration prescribes courses that meet the professional needs of the hospitality industry and career goals of students entering the major. The concentration is designed for students interested in integrating the basic principles of business and hospitality management with the goal of pursuing professional and management careers in hospitality-related industries. The program comprises 35 hours of hospitality-related course work, including food science; food management; nutrition; sanitation; purchasing; and the management of institutional, commercial, and fine dining facilities. Through the integration of food-focused theory, practice, and experience, it is the mission of the program to prepare leaders in the hospitality industry with a foundation in science, business, and management.

## Learning Outcomes: Hospitality Management Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Hospitality Management Concentration

All graduates of the University of Illinois Hospitality Management concentration will be able to:

1. Professionally manage the preparation, presentation and service of quality food. Apply science concepts to the food and beverage component of the hospitality industry. Identify hotel/lodging management and allied hospitality industries' concepts. (Industry Skills)
2. Integrate human, financial and physical resources management into hospitality related operations. Practice and evaluate elements of service management. (Management Skills)
3. Demonstrate ability to analyze, assess, evaluate, adapt and apply problem solving skills. (Problem Solving)
4. Demonstrate effective written and oral communication skills. (Communication)
5. Gain practical and professional experiences. Integrate and practice ethics, leadership, and collaboration. (Professional Experiences)

## Food Science & Human Nutrition: Human Nutrition, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Human Nutrition Concentration

**department website:** <https://fshn.illinois.edu>  
**department faculty:** <https://fshn.illinois.edu/directory/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)  
**college website:** <https://aces.illinois.edu/>

This program of study provides the background for students who plan to pursue careers in nutrition and related health sciences. This concentration focuses on the field of human nutrition and reflects the growing need to prepare individuals for careers in health and nutrition. For students who expect to pursue advanced degrees in nutritional sciences or professional degrees in medicine, dentistry or law, the human nutrition concentration may be chosen. The concentration emphasizes a strong science background and allows students to obtain a strong human nutrition preparation that is not available elsewhere on campus. For those interested in practicing nutrition or nutrition counseling, please see Dietetics.

## Learning Outcomes: Human Nutrition Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Human Nutrition Concentration

All graduates of the University of Illinois Human Nutrition concentration will be able to:

1. Demonstrate critical thinking, problem solving and communication skills.
2. Understand basic sciences relevant to nutrition, research and application of nutrition and an awareness of social and economic factors in food.
3. Prepared to pursue careers in the food, health, and fitness industries, or enter medicine, dentistry, nursing, and other health professions.

## Foreign Language Teaching Curricula Preparatory to Teach Foreign Languages

The College of Liberal Arts and Sciences offers curricula for the preparation of teachers of French (<http://catalog.illinois.edu/undergraduate/las/academic-units/french-italian/curriculum-preparatory-teaching-french/>), German (<http://catalog.illinois.edu/undergraduate/las/academic-units/german/curriculum-preparatory-teaching-german/>), Latin (<http://catalog.illinois.edu/undergraduate/las/academic-units/classics/teach-latin/>), and Spanish (<http://catalog.illinois.edu/undergraduate/las/academic-units/spanish-portuguese/teaching-spanish-major/>).

Illinois law requires all candidates for licensure in World Languages pass the appropriate language content-area test prior to student teaching, and an oral proficiency test in their content major language prior to licensure.

A student must have at least 2.5 (A+ = 4.0) cumulative and University of Illinois grade point averages to remain in the teaching option. A student must also maintain at least a 2.5 grade point average in all attempts at content area and pedagogy courses taken at the University of Illinois in order to remain in the teaching option.

E-mail: [flte@illinois.edu](mailto:flte@illinois.edu)

### Prerequisite to application to the Teaching Option

GPA of 2.5 in all content courses in the intended majors of French, German, Latin, Spanish.

General Education Requirements: Students in the Foreign Language Teaching Curricula of French, German, Latin, and Spanish will be expected to complete the Campus General Education (<https://courses.illinois.edu/>) requirements (including the campus general education language requirement).

Code	Title	Hours
FLTE 471	Introduction to Second Language Teaching	4
FLTE 475	Learning to Teach World Language	4

FLTE 478	Secondary World Language Teaching <sup>1</sup>	4
EPS 201	Foundations of Education	3
EPSY 201	Educational Psychology	3
SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	8
Total Hours		29

<sup>1</sup> In the fall semester, students enroll for 3 hours with instruction occurring in the first 10 weeks. In the spring semester, students enroll for 1 hour with instruction occurring in the first 4 weeks.

## French, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Science Major in French

**department website:** <https://frit.illinois.edu/>  
**department faculty:** French & Italian Faculty (<https://frit.illinois.edu/directory/faculty/>)  
**advising:** French & Italian advising (<https://frit.illinois.edu/academics/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [french-italian@illinois.edu](mailto:french-italian@illinois.edu)

The **BALAS in French** allows students to specialize in one of the following concentrations:

The French Studies concentration focuses on courses in language, literature, culture, film, and linguistics.

The French Commercial Studies concentration combines a focus on French language and culture with appropriate courses in business.

Select a concentration in consultation with your adviser.

- French Commercial Studies Concentration (p. 189)
- French Studies Concentration (p. 189)

### Undergraduate degree programs in French & Italian:

French, BALAS (p. 188)

Teaching of French, BA (p. 399)

Italian, BALAS (p. 235)

### 5 Year BALAS /MA in French and European Union Studies

The Department of French and Italian with the European Union Center offers a 5-year BALAS/MA degree program in French and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## French: French Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in French, French Studies Concentration

**department website:** <https://frit.illinois.edu/academics/french> (<https://frit.illinois.edu/academics/french/>)  
**department faculty:** French & Italian Faculty (<https://frit.illinois.edu/directory/faculty/>)  
**advising:** French & Italian advising (<https://frit.illinois.edu/academics/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** french-italian@illinois.edu

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in French, French Studies Concentration

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

**Departmental distinction: A student must have at least a 3.45 LAS cumulative grade point average, complete a senior thesis FR 492, and complete two additional advanced-level courses in French or in supporting course work. Consult the honors adviser for details.**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 37 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
FR 207	Writing and Grammar Workshop	3
FR 211	Introduction to Literary Studies	3
FR 212	Introduction to Cultural Analysis: French Identities	3

### Language Courses

FR 205	Oral French	2
FR 213	French Phonetics	2
FR 314	Advanced Grammar in Context	3

### Culture Courses

Choose two of the following:		6
FR 335	French Cultural History to 1789	
FR 336	French Cultural History 1789-1968	
FR 337	Contemporary France	

### Literature Courses

Two courses at the 300- or 400-level in French and/or Francophone literature		6
--	--	---

### Medieval and Early Modern Period course

Students must take one course focused on the medieval/early modern period. Students may choose from FR 335 or FR 301. This course can be used to fulfill the Culture or Literature Courses requirement.

#### Electives

Three French courses at the 300- or 400-level in any of the following areas: language and translation, business, cinema, culture, linguistics, literature, media. 9

Total Hours 37

## Learning Outcomes: French, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Science Major in French

Upon graduating with a major in French, students shall be able to do the following:

- Language proficiency and accuracy:** reach an advanced level of proficiency and accuracy in reading, writing, listening, and speaking in interpretive, presentational, and interpersonal modes of communication (based on proficiency guidelines outlined by the American Council on the Teaching of Foreign Languages [ACTFL] and the Common European Framework of Reference for Languages [CEFR]).
- Research skills and literacy in texts, media, and technology in French:** access, manage, evaluate, select, and effectively use culturally authentic and relevant sources according to the standards of professional conduct; understand how these resources relate to language and culture; use appropriate tools when interpreting sources, interacting with others, and producing written, oral, or visual content.
- Intercultural awareness, knowledge, and competence:** identify and analyze products, practices, and perspectives of the French and Francophone world, and compare them to their own and other cultures.
- Knowledge about literature and the visual arts in French:** acquire general and specific knowledge of literature in French and visual arts from a formal, historical, and global perspective.
- Knowledge about French linguistics:** acquire general knowledge about the structure and history of the French language.

## Gender & Women's Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Gender and Women's Studies*

**department website:** <https://www.gws.illinois.edu/>  
**department faculty:** Gender & Women's Studies Faculty (<https://gws.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [gws-email@illinois.edu](mailto:gws-email@illinois.edu)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Gender & Women's Studies*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction: To be eligible for graduation with distinction, a student must have a cumulative grade-point average (GPA) of 3.5 and a 3.5 GPA within the major.**

High distinction. To be eligible for graduation with high distinction, a student must have a cumulative grade point average (GPA) of 3.5, a GPA of 3.7 within the major, and complete a thesis or project in a 400-level GWS course that is approved by the department.

**Advising:** The Department of Gender and Women's Studies provides advising for students to help plan a coherent program of study.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Required Courses</b>		
GWS 201	Race, Gender & Power	3
GWS 202	Sexualities	3
GWS 498	Senior Seminar	3
GWS 350	Feminist & Gender Theory	3

or GWS 370 Queer Theory

#### Additional Coursework<sup>1</sup>

At least 15 additional hours of coursework offered by the Gender & Women's Studies Department, with no more than 3 hours at the 100 or 200 level. Required courses are offered by the Department of Gender & Women's Studies and are on an approved list maintained in the department office and with the GWS advisor. 15

#### Area Electives

Two courses in Gender and Women's Studies. No more than one may be counted from the 100 or 200 level. For a list of approved courses contact the GWS department or the GWS advisor. 6

Of the 33 hours in the major, students must take at least one course focused on transnational or non-U.S. issues. For a list of approved courses contact the GWS department or the GWS advisor.

Total Hours 33

<sup>1</sup> *Topics courses (GWS 199, GWS 295, GWS 395, GWS 495) may count up to 3 hours toward the additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.*

## Learning Outcomes: Gender and Women's Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Gender and Women's Studies

1. **Intellectual Reasoning and Knowledge:** Students will acquire a level of proficiency in Gender and Women's Studies, which can include but is not limited to broad and deep knowledge about feminist movements, intersectionality, queer and trans studies, imperialism and coloniality, and feminist and queer theories and methods across academic disciplines and fields. Students will learn that feminisms are both historical movements as well as bodies of critical inquiry, encompassing a wide range of actors and objects of study, including forms of information retrieval and knowledge production.
2. **Critical Inquiry and Creative Literacy:** Students will apply feminist and queer theories in developing their own capacities for critical inquiry and creative literacy. Students will also exercise their skills in oral and written communication, expressing new ideas in scholarly compositions and also generating multidisciplinary projects.
3. **Social Awareness and Understanding Power:** Students will recognize the gendered dimensions of social, philosophical, aesthetic, cultural, and political claims about national and global movements and events. Students will become familiar with feminist and queer theories and movements that consider together indigeneity, race, religion, nation, disability, gender, and sexuality to understand historical and contemporary formations of power.
4. **Self-Reflexivity and Community Engagement:** Students will demonstrate self-reflexivity about their ideas and social and political positions in their classrooms and communities, learning how to build and sustain relationships in striving for both immediate harm reduction and long-term social justice.
5. **Global Consciousness:** Students will understand how complex and interdependent forces – environmental, social, cultural, economic, and political – shape a range of possibilities and foreclosures for individuals and populations unevenly across the world, learning to apply indigenous, postcolonial, and transnational feminist and queer critiques to those forces.

## Geography & Geographic Information Science

**department website:** <https://www.geog.illinois.edu/>

**department faculty:** Geography Faculty (<https://www.geog.illinois.edu/people/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** g (geology@illinois.edu)geography@illinois.edu (geography@illinois.edu)

Students interested in majoring in Geography and Geographic Information Science may choose the Bachelor of Arts in Liberal Arts & Sciences (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/>), or the Bachelor of Science in Liberal Arts & Sciences (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/>).

Students pursuing the Bachelor of Arts in Liberal Arts & Sciences select one of two concentrations:

General Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/general-geography/>)

Geography majors integrate social science, physical science, and technology in their study of how humans use the Earth's surface. Majors in Geography & GIS can sample courses from different subfields of geography without having to choose one specialty of the discipline. Upon completion, the students are prepared for diverse employment opportunities, or further studies in a geography graduate program.

Human Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/human-geography/>)

The Human Geography concentration allows students to specialize in the social science aspect of modern geography. The curriculum includes the systematic study of human social organization and its environmental consequences. Employment opportunities for human geographers include urban and regional planning, transportation, marketing, real estate, tourism, and international business.

Students pursuing the Bachelor of Science in Liberal Arts & Sciences select one of two concentrations:

Geographic Information Science Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/geographic-information-science/>)

The Geographic Information Science (GIS) concentration emphasizes the creation, use and analysis of digital geographic information to examine economic, environmental, physical and social phenomena. The GIS concentration provides students with in-depth training in contemporary software packages to prepare them for careers in the field. There is growing demand for professional knowledge of the earth's systems and the use of geographic information systems to enhance business, protect the environment and manage the massive amounts of spatial data now widely available on the internet. The U.S. Department of Labor has identified geospatial technologies as one of the fastest-growing domestic job sectors.

Physical Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/physical-geography/>)

The Physical Geography concentration examines the earth sciences including patterns of climates, land-forms, vegetation, soils, and water. Graduates of our physical geography concentration will be equipped for careers in infrastructure development, land and water resources management, and surveying.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours).

**Departmental distinction:** Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

- For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.
- For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.
- For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an
- independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

---

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement. Minimum required major and supporting course work: A minimum of 35 credit hours of Geography and Geographic Information Science courses. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

- Major in Geography & Geographic Information Science, Physical Geography Concentration, BSLAS (p. 195)

### For the Degree of Bachelor of Arts in Liberal Arts and Sciences

- Major in Geography & Geographic Information Science, General Geography Concentration, BALAS (p. 192)
- Major in Geography & Geographic Information Science, Human Geography Concentration, BALAS (p. 194)

**for the degree of Bachelor of Science in Liberal Arts & Sciences: Major in Geography & Geographic Information Science, Physical Geography Concentration**

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours).

**Departmental distinction:** Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

- For distinction: 3.3 GPA overall; 3.3 GPA in GIS courses.
- For high distinction: 3.3 GPA overall; 3.75 GPA in GIS courses.
- For highest distinction: 3.3 GPA overall; 3.75 GPA in GIS courses; satisfactorily complete an
- independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: a minimum of 40 upper-division hours. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

## Geography and Geographic Information Science Core Requirements

Code	Title	Hours
<b>Total Core Hours</b>		<b>10-16</b>
<b>Select one of the following three(3) courses:</b>		<b>3-4</b>
GEOG 100	Introduction to Meteorology	
GEOG 103	Earth's Physical Systems	
GEOG 222	Big Rivers of the World	
<b>Select one of the following six (6) courses:</b>		<b>3-4</b>
GEOG 101	Global Development&Environment	
GEOG 104	Social and Cultural Geography	
GEOG 105	The Digital Earth	
GEOG 106	Geographies of Globalization	
GEOG 210	Social & Environmental Issues	
GEOG 221	Geographies of Global Conflict	
<b>Select one of the following two (2) courses:<sup>1</sup></b>		<b>4-8</b>
GEOG 371	Spatial Analysis	
GEOG 379	Intro to GIS Systems	

<sup>1</sup> Students pursuing the Geographic Information Science Concentration are required to take both GEOG 371 and GEOG 379.

## Physical Geography Concentration Requirements:

Code	Title	Hours
<b>Total Concentration required hours</b>		
200- to 400-level Geography and Geographic Information Science courses (of which at least 6 hours must be at the 300 or 400 level) selected from the following:		25-27
GEOG 210	Social & Environmental Issues	
GEOG 222	Big Rivers of the World	
GEOG/ NRES 287	Environment and Society	
GEOG 370/ ESE 320	Water Planet, Water Crisis	
GEOG 371	Spatial Analysis	
GEOG 390	Individual Study	
GEOG 391	Honors Individual Study	
GEOG/ NRES 401	Watershed Hydrology	
GEOG 405	Geography Field Course	
GEOG 406	Fluvial Geomorphology	
GEOG 408	Humans and River Systems	
GEOG 412	Geospatial Tech & Society	
GEOG/ ATMS 421	Earth Systems Modeling	
GEOG 436/ IB 439	Biogeography	
GEOG 460	Aerial Photo Analysis	
GEOG 468	Biological Modeling	
GEOG 471	Recent Trends in Geog Thought	
GEOG 473	Digital Cartography & Map Design	
GEOG 476	Applied GIS to Environ Studies	
GEOG 477	Introduction to Remote Sensing	
GEOG 478	Techniques of Remote Sensing	
MATH 220	Calculus	4-5
or MATH 22Calculus I		
PHYS 101	College Physics: Mech & Heat	4-5
or PHYS 21 University Physics: Mechanics		
<b>Select one of the following:</b>		<b>4</b>
CHEM 102 General Chemistry I & CHEM 103and General Chemistry Lab I		
CHEM 104 General Chemistry II & CHEM 104and General Chemistry Lab II		
<b>Total Hours required for graduation</b>		<b>120</b>

## Learning Outcomes: Geography & Geographic Information Science, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geography & Geographic Information Science

**1. Geographic Understanding**

- Definition: GIS students will understand the interconnectedness of places and scales in human-environmental systems, including the sustainability of those systems.

**2. Spatial Patterns and Processes**

- Definition: GIS students will be able to analyze spatial patterns, distributions, processes, and connections within and among different human-environmental systems, using qualitative, quantitative, computational, and/or spatial methods of research appropriate to their level of training and their field of geographic inquiry.

**3. Problem-Solving and Communication**

- Definition: GIS students will be able to formulate and conduct geographic analyses and communicate the results in verbal, written, and visual form.

---

## Geology

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)  
**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

---

Students interested in majoring in geology may choose the Specialized Curriculum in Geology (<http://catalog.illinois.edu/undergraduate/las/geology-bs/#degreerequirementstext>), leading to the Bachelor of Science Major in Geology, or the Geology Major (<http://catalog.illinois.edu/undergraduate/las/geology-bslas/#degreerequirementstext>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The Specialized Curriculum in Geology is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology areas, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum.

The Geology Major in the Science and Letters Curriculum is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Curriculum in Geology.

## Geology, BS

*for the degree of Bachelor of Science Major in Geology (Specialized Curriculum)*

---

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)

**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

---

The **Specialized Curriculum in Geology (BS)** is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology areas, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum. Students must choose one of the following: Geology, Geophysics, or Environmental Geology.

### Undergraduate Degree Programs in Geology

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 201)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 202)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 203)

#### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 197)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 199)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 198)

*for the degree of Bachelor of Science Major in Geology*

---

### Specialized Curriculum

Graduation requires a grade point average of at least 2.0 overall and a 2.0 average in all required science and technical courses (geology, physics, mathematics, chemistry, and technical requirements listed below). The Department of Geology will supply upon request a Guide for Geology Undergraduates giving more information about the curriculum.

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 126 hours.**

Code	Title	Hours
<b>Chemistry: Select one group of courses:</b>		<b>8-9</b>
CHEM 102	General Chemistry I	
CHEM 103	General Chemistry Lab I	
CHEM 104	General Chemistry II	
CHEM 105	General Chemistry Lab II	
or		
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II	
<b>45 hours of Geology Courses:</b> <sup>1</sup>		
GEOL 107	Physical Geology <sup>2</sup>	4
GEOL 208	History of the Earth System	4
GEOL 143	History of Life	3
GEOL 411	Structural Geol and Tectonics	4
GEOL 417	Geol Field Methods, Western US <sup>3</sup>	6
GEOL 432	Mineralogy and Mineral Optics	4
GEOL 436	Petrology and Petrography	4
GEOL 440	Sedimentology and Stratigraphy	4
Select one of the following:		3-4
GEOL 450 Probing the Earth's Interior		
or GEOL 452 Introduction to Geophysics		
GEOL 460	Geochemistry	3
6 additional hours 300- or 400-level geology		6
<b>Mathematics</b>		<b>13-15</b>

PHYS 211 University Physics: Mechanics  
& PHYS 212 and University Physics: Elec & Mag

or

PHYS 101 College Physics: Mech & Heat  
& PHYS 102 and College Physics: E&M & Modern

### Statistics- Select one of the following: 4

CPSC 440 Applied Statistical Methods I

STAT 400 Statistics and Probability I

### Additional Technical Requirements 24

Select from the following courses. At least 9 hours must be geology courses and at least 9 hours must be non-geology courses.

CEE 330 Environmental Engineering

CHEM 232 Elementary Organic Chemistry I

CS 101 Intro Computing: Engrg & Sci

CS 125 Intro to Computer Science

ENVS 431 Environ Toxicology & Health

GEOG 477 Introduction to Remote Sensing

GEOL 411 Structural Geol and Tectonics

GEOL 417 Geol Field Methods, Western US <sup>2</sup>

GEOL 432 Mineralogy and Mineral Optics

GEOL 436 Petrology and Petrography

GEOL 440 Sedimentology and Stratigraphy

GEOL 460 Geochemistry

MATH 225 Introductory Matrix Theory

MATH 415 Applied Linear Algebra

MATH 285 Intro Differential Equations

MATH 441 Differential Equations

MCB 100 Introductory Microbiology

MCB 101 Intro Microbiology Laboratory

PHYS 213 Univ Physics: Thermal Physics

PHYS 214 Univ Physics: Quantum Physics

STAT 420 Methods of Applied Statistics

TAM 210 Introduction to Statics

TAM 211 Statics

<sup>1</sup> Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

<sup>2</sup> GEOL 417 is a 6-hour summer field course taught off campus.

## Learning Outcomes: Geology, BS

Learning Outcomes for the degree of Bachelor of Science Major in Geology

1. Students will develop cross-disciplinary skills of observation, data collection, and spatial display of data (e.g., map making) related to geological materials, features, and processes.
2. Students will develop an understanding of the physical, chemical and mathematical theories fundamental to earth processes through rigorous coursework and research.
3. Students will develop and apply critical thinking skills to synthesize principles learned in the classroom, and data collected in the laboratory and in the field in order to evaluate hypotheses and solve geological problems.
4. Students will demonstrate the ability to communicate effectively scientific data, interpretations, and hypotheses through written and oral methods.
5. Students will hone and apply interpersonal skills in a professional setting through group work, research activities, and field studies.

## Geology, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters)

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)  
**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/people/>)  
**advising:** Geology advising (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=258530>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The **Sciences and Letters Curriculum in Geology (BSLAS)**, administered by the Department of Geology, is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Geology and Geophysics Curriculum. Students must choose from the following: Geology, Earth and Environmental Sciences, or Earth Science Teaching. The Earth Science Teaching Concentration is designed for students preparing to teach earth science at the secondary school level.

### Undergraduate Degree Programs in Geology

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 201)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 202)

- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 203)

#### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 197)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 199)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 198)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters)

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Minimum required course work normally equates to 47-52 hours including at least 26 hours in Geology. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Core requirements:		
GEOL 107	Physical Geology <sup>1</sup>	4
GEOL 208	History of the Earth System	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
Select one of the following MATH courses: <sup>2</sup>		4-5
MATH 220	Calculus	
	or MATH 221 Calculus I	
MATH 234	Calculus for Business I	
Additional requirements beyond the core requirements:		
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 101	College Physics: Mech & Heat	4-5
	or PHYS 21 University Physics: Mechanics	
GEOL 411	Structural Geol and Tectonics	4
GEOL 417	Geol Field Methods, Western US <sup>3</sup>	6
GEOL 432	Mineralogy and Mineral Optics	4
GEOL 436	Petrology and Petrography	4

GEOL 440	Sedimentology and Stratigraphy	4
Three to four hours of advanced Geology or cognate science elective		3-4

<sup>1</sup> *Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.*

<sup>2</sup> An introductory Statistics course, e.g., STAT 100, SOC 280, ECON 202, or a second semester of Calculus is recommended

<sup>3</sup> GEOL 417 is a summer field course taught off campus.

**college website:** <https://las.illinois.edu/>

**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The **Sciences and Letters Curriculum in Geology (BSLAS)**, administered by the Department of Geology, is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Geology and Geophysics Curriculum. Students must choose from the following: Geology, Earth and Environmental Sciences, or Earth Science Teaching. The Earth Science Teaching Concentration is designed for students preparing to teach earth science at the secondary school level.

### Undergraduate Degree Programs in Geology

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 201)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 202)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 203)

#### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 197)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 199)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 198)

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters), Earth & Environmental Sciences Concentration*

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 43 hours including at least 26 hours in Geology. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Core requirements:		
GEOL 107	Physical Geology <sup>1</sup>	4
GEOL 208	History of the Earth System	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
Select one of the following MATH courses: <sup>2</sup>		4-5
MATH 220	Calculus	
	or MATH 221 Calculus I	
MATH 234	Calculus for Business I	
Courses beyond the core requirements		
ATMS 140	Climate and Global Change	3
	or GEOL 111 Natural Disasters	
GEOL 333	Earth Materials and the Env	4
	or GEOL 432 Mineralogy and Mineral Optics	
GEOL 380	Environmental Geology	4
Ten to twelve hours of additional advanced geology courses		10-12
Six to eight hours Environmental Studies electives. (see Geology advisor for list of approved courses)		6-8

<sup>1</sup> *Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.*

<sup>2</sup> An introductory Statistics course, e.g., STAT 100, SOC 280, ECON 202, or a second semester of Calculus is recommended.

### Undergraduate Degree Programs in Geology

**For the Degree of Bachelor of Science in Liberal Arts and Sciences**  
 Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 201)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 202)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 203)

### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 197)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 199)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 198)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters), Earth Science Teaching Concentration

This concentration fulfills state certification requirements to teach high school (grades 9-12) Earth and Space Science through the AP/honors level and biology, chemistry, environmental science and physics up to but not including the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters. Some students require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and must present evidence of exemplary teaching

**High Distinction:** A minimum cumulative grade point average of 3.5, and must present evidence of exemplary teaching

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and must present evidence of exemplary teaching

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 55-59 hours in the concentration and 39 hours for the Teacher Education Minor in Secondary School Teaching. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
GEOL 107	Physical Geology <sup>1</sup>	4
GEOL 208	History of the Earth System	4
GEOL 333	Earth Materials and the Env <sup>2</sup>	4
MATH 220	Calculus	4-5
	or MATH 22 Calculus I	
	or MATH 23 Calculus for Business I	
<b>Additional Required Coursework</b>		
Teacher Education Minor in Secondary School Teaching ( <a href="http://catalog.illinois.edu/undergraduate/education/secondary/">http://catalog.illinois.edu/undergraduate/education/secondary/</a> )		39
Select one group of courses:		5-6
ASTR 100 Introduction to Astronomy & ASTR 131 and The Solar System Lab & ASTR 132 and Stars and Galaxies Lab		

or

ASTR 121	Solar System and Worlds Beyond & ASTR 122and Stars and Galaxies	
ATMS 100	Introduction to Meteorology	3
IB 100	Biology in Today's World	3
Select one group of courses:		4
CHEM 102	General Chemistry I & CHEM 103and General Chemistry Lab I	
or		
CHEM 202	Accelerated Chemistry I & CHEM 203and Accelerated Chemistry Lab I	
GEOL 117	The Oceans	3
GEOL 143	History of Life	3
Advanced-hour course work in Geology		8
Select one group of courses:		10-12
PHYS 101	College Physics: Mech & Heat & PHYS 102and College Physics: E&M & Modern	
or		
PHYS 211	University Physics: Mechanics & PHYS 212and University Physics: Elec & Mag & PHYS 213and Univ Physics: Thermal Physics & PHYS 214and Univ Physics: Quantum Physics	

### Requirements for the Teacher Education in Secondary School Teaching Minor

Code	Title	Hours
<b>Professional Education Required Courses</b>		
EDUC 201	Identity and Difference in Education <sup>1</sup>	3
EDUC 202	Social Justice, School and Society <sup>1</sup>	3
CI 401	Introductory Teaching in a Diverse Society	3
CI 403	Teaching a Diverse High School Student Population	3
CI 404	Teaching and Assessing Secondary School Students	3
CI 473	Disciplinary Literacy	3
EPSY 201	Educational Psychology <sup>1, 2</sup>	3
EPSY 485	Assessing Student Performance	3
SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	12
Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Learning Outcomes: Geology, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters)

1. Students will develop cross-disciplinary skills of observation, data collection, and spatial display of data (e.g., map making) related to geological materials, features, and processes.
2. Students will develop an understanding of the physical, chemical and mathematical theories fundamental to earth processes through rigorous coursework and research.

3. Students will develop and apply critical thinking skills to synthesize principles learned in the classroom, and data collected in the laboratory and in the field in order to evaluate hypotheses and solve geological problems.
4. Students will demonstrate the ability to communicate effectively scientific data, interpretations, and hypotheses through written and oral methods.
5. Students will hone and apply interpersonal skills in a professional setting through group work, research activities, and field studies.

## Germanic Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies*

**department website:** <https://www.germanic.illinois.edu>

**department faculty:** Germanic Languages & Literatures Faculty (<https://germanic.illinois.edu/directory/faculty/>)

**advising:** German advising (<https://germanic.illinois.edu/academics/german/undergraduate-programs/undergraduate-advisor/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [germanic@illinois.edu](mailto:germanic@illinois.edu)

**The BALAS in Germanic Studies serves to develop competence in German or Scandinavian languages and cultures. Students will gain familiarity with the structure of the language and its use in the context of business, contemporary culture, intellectual history, literature, and science. Students must select one concentration in consultation with an adviser:**

- German Studies Concentration (<http://catalog.illinois.edu/undergraduate/las/germanic-studies-balas/german-culture-literature/>)
- German Business & Commercial Studies Concentration (p. 205)
- Scandinavian Studies Concentration (p. 206)

**The Department of German Languages & Literatures also offers a BA in the Teaching of German (p. 400).**

### 5 year BALAS/MA in Germanic Studies

The Department of Germanic Languages and Literatures offers a 5-year program leading to two degrees, a BALAS in Germanic Studies and an MA in German. In order to be admitted to this program, student can apply during their second or third year of studies. Requirements for this program are identical to those for the BALAS and the MA in the Department of Germanic Languages and Literatures.

In order to be admitted to the 5-year BALAS/MA during their *second* year, students will need to be in good standing, have finished GER 211 and GER 331, have a general **GPA of 3.0** and a German GPA of 3.0, and be required to write a short essay in German.

In order to apply for the 5-year BALAS/MA during their *third* year, students will have to have finished GER 401 and GER 420, have a general **GPA of 3.0** and a German GPA of 3.0, and be required to write a short essay in German.

The department will continue to monitor the GPAs of students admitted to the BALAS/MA program into their third and fourth years and before formal admission to the Graduate College. The decision about students' admission to the 5-year program will be made by the graduate

admissions committee in conjunction with undergraduate and graduate advisors of the department. The Department will consider students in the fifth year of this program for departmental support as Teaching Assistants and Research Assistants, or for fellowships and scholarships.

The minimum total number of hours required for graduation from the BALAS/MA program is 152. Up to 12 hours not required for the BALAS (120 hours) taken during the fourth year can be used to meet the requirements for the MA (32 hours). Students admitted to the program will receive both degrees once all requirements for the 5-year BALAS/MA degree program have been successfully completed. More detailed information may be obtained from the departmental office.

## 5 Year BALAS/MA in German and European Union Studies

The Department of Germanic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in German (including a Scandinavian Studies Concentration) and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the standalone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## Germanic Studies: German Business & Commercial Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies, German Business & Commercial Studies Concentration*

**department website:** <http://www.germanic.illinois.edu/undergraduate/>

**department faculty:** Germanic Languages & Literatures Faculty (<https://germanic.illinois.edu/directory/faculty/>)

**advising:** German advising (<https://germanic.illinois.edu/academics/german/undergraduate-programs/undergraduate-advisor/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [germanic@illinois.edu](mailto:germanic@illinois.edu)

The German Business and Commercial Studies concentration focuses on the language and customs of the business world in German-speaking countries, together with study of international affairs and commerce, especially trade with Europe.

## Undergraduate degree programs in Germanic Languages & Literatures:

Germanic Studies: German Studies, BALAS (p. 204)

Germanic Studies: German Business & Commercial Studies, BALAS (p. 205)

Teaching of German, BA (p. 400)

Germanic Studies: Scandinavian Studies, BALAS (p. 206)

## *for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies, German Business & Commercial Studies Concentration*

The German Business and Commercial Studies concentration focuses on the language and customs of the business world in German-speaking countries, together with study of international affairs and commerce, especially trade with Europe.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Students majoring in the Department of Germanic Languages and Literatures are urged to consult the departmental honors adviser by the second semester of the junior year for information pertaining to senior honors work and honors awards in the department.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 34 hours in German. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
Minimum of 34 hours of German courses including:		
GER 211	Conversation and Writing I	3
GER 212	Conversation and Writing II	3
GER 320	German for Business	3
GER 321	German for Economics	3
GER 420	German Cultural History	4
Select 18 hours, including at least 12 hours of 300- and 400-level coursework from this list:		18
GER 103	Intermediate German I	
GER 104	Intermediate German II	
GER 201	German Popular Culture	
GER 205	Germany and Europe	
GER 250	Grimms' Fairy Tales - ACP	
	or GER 2 Grimm's Fairy Tales in Context	
GER 260	The Holocaust in Context - ACP	
	or GER 260 The Holocaust in Context	
GER 270	Sexuality and Literature	
GER 331	Intro to German Literature	
GER 332	German Literature and Culture	
GER 385	Politics of the European Union	
GER 401	Global Issues in German	
GER 403	German-English Translation: Theory & Practice	
GER 465	Ling Structures of German	
GER 470	Middle Ages to Baroque	
GER 471	Enlightenment to Romanticism	
GER 472	Realism to Expressionism	
GER 473	1920s to Today	

GER 493	German Cinema I	
GER 494	German Cinema II	
Total Hours		34

## Germanic Studies: German Studies, BALAS

## Learning Outcomes: Germanic Studies, BALAS

### Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies

1. *Language ability:* Students develop and improve their foreign language abilities, i.e. their ability to read, speak, write, and listen in German and/or a modern Scandinavian language in order to work with texts and communicate with others in these languages.

2. *Cultural-historical literacy and knowledge:* Students develop and improve their ability to function in non-native cultural-historical and linguistic contexts and communities in order to respect and navigate cultural differences and build upon similarities. Furthermore, students will synthesize knowledge relevant to broad cultural and linguistic areas within German and/or Scandinavian studies in order to apply that knowledge toward the other learning outcomes outlined here.
3. *Analytical and argumentative skills:* Students develop and improve their abilities to analyze diverse cultural artifacts in order to apply analytical thinking and discursive skills to the construction of sound, supported, factual argumentation rather than merely expression of opinion, completely or in part.
4. *Writing development:* Students will demonstrate and produce well-written, communicative, argumentative, and interpretive texts in German, Swedish, and/or English in order to competently meet diverse writing tasks carried out in any of the relevant languages above. Furthermore, students will be able to carry out various forms of research in support of their writing in order to create more substantive texts, which are also genre appropriate and written for a particular audience.

### 5 Year BALAS/MA in Global Studies and European Union Studies

The Program in Global Studies with the European Union Center offers a 5-year BALAS /MA degree program in Global Studies and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Global Studies

A Major Plan of Study Form must be completed and submitted to the Global Studies academic advisor before the end of the fourth semester (60 hours) and prior to the required study abroad. Please see your advisor.

**Departmental distinction:** The department may award distinction, high distinction, or highest distinction to any Global Studies major whose overall and major grade point averages are 3.25 or higher, who

successfully completes 3 hours of GLOBL 494 or other approved research methods course and who completes a distinction research project. See the departmental academic advisor for details.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 51-52 hours and includes a semester-long full time study abroad program and a minimum of 12 hours of 300- and 400-level courses.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Foundations Requirements</b>		
GLBL 100	Intro to Global Studies	3
	Global Studies. Four courses must be selected from the approved course list; they must include no more than one course from four of the following six departments: Anthropology, Economics, Geography, History, Political Science, and Sociology.	12
	Global Studies Seminars. Students study current events and contemporary global issues. Select three courses from GLOBL 296 or one GLOBL 298 course and one GLOBL 296 course.	3-4
<b>Language and Culture Requirements</b>		
	Language. Select courses from the approved course list in a language other than your primary language(s). These various courses represent the 5th and 6th level of study.	6
	Area Studies. 200- to 400-level courses which complement the language requirement must include work in at least two disciplinary departments. Area Studies and Language must be geographically related and correspond to language and study abroad location.	9
	One Semester (Fall or Spring) Study Abroad. Students study a variety of subjects in an approved study abroad program that furthers their language and cultural knowledge or their cultural knowledge and thematic area knowledge. Students must be enrolled full-time to receive credit toward this requirement.	
<b>Thematic Area Requirements</b>		
	Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum of a minimum of 18 hours. Students cannot include more than 3 hours of 100-level work and must complete 9 hours of 300- and 400-level coursework. Courses must be taken from more than one department. Approved thematic areas are:	18
	A. Cultures in Contact	
	B. Wealth and Poverty in a Globalized World	
	C. Human Rights	
	D. Governance, Conflict and Resolution	
	E. Knowledge, Communication and Information Systems	
	F. Environment, Sustainability, and Social Responsibility	
	G. Global Health	

Optional Senior Capstone. Students do an individual research project (GLBL 200, 494 and GLOBL 495) based on their Thematic Area.

### 5 Year BALAS/MA in Global Studies and European Union Studies

The Program in Global Studies with the European Union Center offers a 5-year BALAS /MA degree program in Global Studies and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## Learning Outcomes: Global Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Global Studies

**Student Learning Outcomes:** LAS Global Studies strongly supports the campus-wide Student Learning Outcomes as recognized by the Office of the Provost Committee on Student Learning Outcomes. Global Studies majors will be able to:

1. Global Consciousness is not only our most important learning outcome, it is one that we extend beyond its definition in the 2017 SLOs.
  - a. Our majors will discover how complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions
  - b. Beyond that however, they will have developed new skills in how to research these interconnections
  - c. Required advanced language acquisition and study abroad are indispensable in developing global consciousness.
2. Creative Inquiry and Discovery is a learning outcome we continue to give an increasing emphasis.
  - a. Our majors will apply knowledge to promote inquiry, discover solutions, and generate new ideas and creative works and beyond that an increasing number will also conduct their own research.
3. Intellectual Reasoning and Knowledge is produced not only through courses but also through study abroad programs.
4. Gain Social Awareness and Cultural Understanding as a learning outcome is secured through intensive experiential, cross-cultural learning through coursework, advanced language study and study abroad.
  - a. Study abroad and advanced language acquisition will foster cultural and linguistic immersion, community engagement, intercultural competency and creative inquiry.
  - b. Experiential learning can take place in local, national and global settings.

- c. All of these are crucial in developing a critical and reflective orientation toward such social and cultural differences as race, indigeneity, gender, class, sexuality, language, and disability.
5. Effective Leadership and Community Engagement are important skills our students acquire through developing their ability to make deliberate and independent choices about their intellectual and professional trajectories and through combining coursework and experiential learning with the pursuit of leadership opportunities (such as the Global Studies Leaders), fieldwork, RSO engagement, volunteer opportunities, and internships with governmental and non-governmental organizations.

## Graphic Design, BFA

for the degree of Bachelor of Fine Arts Major in Graphic Design

**school office:** 143 Art and Design Building, Champaign, IL 61820  
**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** mavery@illinois.edu

**phone:** (217) 333-6632

**department website:** School of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The curriculum in graphic design requires 122 credit hours and prepares the student for entrance into the professional practice of design visual communications. Studio work addresses graphic design fundamentals (typography and image making), design history and contemporary practices, research methods, user experience, and social responsibility. Students engage with complex problems and are asked to identify opportunities where design can intervene. In addition, students have the opportunity to develop their personal interests by taking advantage of a highly interdisciplinary selection of elective courses offered by the School of Art + Design, including photography, video, traditional printmaking, sustainability, advanced interaction design, and the design of Ninth Letter (<http://www.ninthletter.com/>), a nationally-distributed and award-winning literary arts journal.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

Open electives as needed to total 122 hour degree		

## Learning Outcomes: Graphic Design, BFA

Learning outcomes for the degree of Bachelor of Fine Arts Major in Graphic Design

1. A deep understanding of effective typography and image relationships as used in the graphic design discipline.
2. Ability to realize an idea through an iterative creative making process of refinement.
3. Skills to see, research, organize, and visualize abstract ideas across multiple media.
4. Ability to use and embrace the research methods, frameworks, tools, technologies, and techniques of the graphic design discipline as it evolves.
5. Ability to apply knowledge of perception, cognition, and embodiment.
6. An understanding of the diverse professional, social, and ethical impacts of the graphic design discipline.
7. Understanding the use of tools and technology, including their roles in the creation, reproduction, and distribution of visual messages.

## History of Art, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences, major in History of Art

**department website:** Art History information (<http://www.art.illinois.edu/index.php/prospective/academics/undergraduate-programs/art-history/>)

**advising information:** LAS Advising site (<http://www.las.illinois.edu/students/advising/declared/>)

**department faculty:** Art History Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

The Program in Art History is unique at the University of Illinois, Urbana-Champaign. Though housed in the School of Art and Design in the College of Fine and Applied Arts, the Program in Art History offers a Bachelor of Arts degree in the History of Art from the College of Liberal Arts and Sciences.

The College of Liberal Arts and Sciences administers admission to the major in the History or Art; however, the Program in Art History advises all History of Art majors.

The curriculum in the History of Art requires 120 credit hours and offers a broad historical and cultural education related to the visual and build world. The curriculum provides sound preparation for the graduate study required for museum work or teaching at the college level.

for the degree of Bachelor of Arts in Liberal Arts & Sciences, major in History of Art

**Departmental distinction: To be eligible for distinction, a student must earn a high grade point average and complete at least 4 semester hours of independent research to write a senior research paper. See the undergraduate adviser for details.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Total required Core Hours</b>		<b>39</b>
<b>1 course in studio art, graphic design or industrial design</b>		<b>3</b>
<b>1 foundational gateway course at the 100-level:</b>		<b>3</b>
ARTH 110	Introduction to the History of Art and Visual Culture	

**Three (3) Supporting Courses in the Humanities offered by LAS:**

These courses must be approved by the Art History advisor and be outside the field of art history with the goal of enhancing the student's understanding of the cultural context within which works of art and architecture have been created.

See list of Approved Supplemental Courses below

**Six (6) 200-400 level courses in Art History, offered in the School of Art & Design <sup>1</sup>** **18**

Students must take at least one course in three of the following areas: 1) Africa and the Middle East; 2) Asia; 3) the Americas; 4) Europe

At least one course must cover material before 1700

At least one course must cover material after 1700

With an advisor's approval, up to 6 credit hours of courses in the history of architecture or landscape architecture at the 200-400 level may be taken towards the fulfillment of these required hours

Though students must take a total of 6 courses, some may count toward the fulfillment of more than one area and period requirement. For instance, a course in 20th century African art could count as a class covering both Africa and the Middle East and material after 1700.

**Two (2) seminars in Art History at the 400-level** **6**

Courses must be designated as art history seminars (not all 400-level courses have this designation), or be approved as a seminar by the undergraduate advisor

See approved list below

**Total Hours required for graduation 120**

<sup>1</sup> *Though students must take a total of 6 courses, some courses may count toward the fulfillment of more than one area and period requirement. For instance, a course in 20th century African art could count as a class covering both Africa and the Middle East and material after 1700.*

**email:** [history@illinois.edu](mailto:history@illinois.edu)

Studying History at the University of Illinois, Urbana-Champaign will prepare you for informed participation in public life and wide array of career paths, including in law, government, public policy, business, film-making, teaching, advertising, public relations, social work, the media, publishing, diplomacy, and military intelligence. The requirement that every Illinois History major successfully complete a work of original historical research means that our graduates have a demonstrated capacity to think contextually, locate and analyze evidence, evaluate competing viewpoints, assess causation, offer new interpretations, and solve complex problems.

for the degree of Bachelor or Arts in Liberal Arts and Sciences Major in History

**Departmental distinction:** To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 498, HIST 492 and successful completion of either:

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR
2. The completion of two approved independent research projects under the supervision of two different advisors (HIST 490). (in which case, students will be eligible for an award of distinction only, but not high or highest distinction).

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement. Minimum required major course work: 36 hours of History courses.**

Code	Title	Hours
Minimum of 36 hours of History courses including:		
Two introductory History courses at the 100 level (preliminary coursework)		6
African, Asian, Global, Latin American, Middle Eastern History courses at the 200-level or above, at least 3 hours at the 300 level or above <sup>1</sup>		6
European History courses at the 200-level or above, at least 3 hours at the 300 level or above <sup>1</sup>		6
U.S. History courses at the 200-level or above, at least 3 hours at the 300 level or above. 3 hours must be in U.S. Minority History. <sup>1</sup>		6
Hours of history electives (at the 200-level or above). NOTE: HIST 200 and HIST 498 are required. HIST 200 and HIST 498 may count toward any of the area requirements or the 12 hours of History electives. For those students in the Honors Program, HIST 490 or HIST 493 may count toward any of the area requirements or the 12 hours of History electives. HIST 492 and HIST 499 must be taken as part of the 12 hours of required History electives.		12
Of the 36 hours of History courses, students must take 6 hours in a pre-modern period, one defined as before 1600 and one defined as before 1800 (HIST 100 and HIST 142 may not be used to fulfill this requirement). <sup>1</sup>		
<b>Total Hours required for graduation <sup>2</sup></b>		<b>120</b>

- <sup>1</sup> Chosen from the list maintained in the Department of History
- <sup>2</sup> Eighteen advanced hours (300- and 400-level) of History courses are required in the major. 12 of those 18 advanced hours must be taken on this campus.

## History: Social Science: History Teaching, BALAS

For the Degree of Bachelor of Arts in Liberal Arts & Sciences Major in History, History Teaching Concentration

**department website:** <https://www.history.illinois.edu/> (<https://history.illinois.edu/>)  
**department faculty:** History Faculty (<https://history.illinois.edu/directory/faculty/>)  
**advising:** History advising (<https://history.illinois.edu/academics/undergraduate-studies/academic-advising/>)

**college website:** <https://las.illinois.edu/>  
**email:** [history@illinois.edu](mailto:history@illinois.edu)

This concentration fulfills state certification requirements to teach high school history (grades 9-12) through the AP/honors level and high school economics, geography, political science, psychology, and sociology/anthropology up to but not including the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters, but some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

For the Degree of Bachelor of Arts in Liberal Arts & Sciences Major in History, History Teaching Concentration

This concentration fulfills state certification requirements to teach high school history (grades 9-12) through the AP/honors level and high school economics, geography, political science, psychology, and sociology/anthropology up to but not including the AP/honors level.

Time to degree completion varies, but when following the new requirements effective Fall 2020, the expected completion time is 8 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction: To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 498, HIST 492 and successful completion of either**

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Students are required to take a minimum of 33 hours in History courses. Only one of the following Advanced Composition courses (HIST 140, HIST 143, HIST 170, HIST 173) will count toward the 33 hours required in History courses.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours).**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
Select one of the following Political Science courses:		3
PS 100	Intro to Political Science	
PS 101	Intro to US Gov & Pol	
PS 240	Intro to Comp Politics	
PS 241	Comp Politics in Dev Nations	
PSYC 100	Intro Psych	4
SOC 100	Introduction to Sociology	4
HIST 200	Intro Hist Interpretation	3
Select one course each from two of the following three categories:		6-8
<b>Global History</b>		
HIST 100	Global History	
<b>Western Civilization</b>		
HIST 140	Western Civ to 1660-ACP or HIST 143 Western Civ to 1660	
HIST 142	Western Civ Since 1660 or HIST 143 Western Civ Since 1660-ACP	
<b>United States History</b>		
HIST 170	US History to 1877-ACP or HIST 173 US History to 1877	
HIST 172	US History Since 1877 or HIST 173 US History Since 1877-ACP	
HIST 174	Black America, 1619-Present	

**Additional Required coursework**

Teacher Education Minor in Secondary School Teaching 39  
(<http://catalog.illinois.edu/undergraduate/education/secondary/>)

#### United States History

Select one of the following (A US History survey course if not taken as a foundation course): 3-4

HIST 170 US History to 1877-ACP  
or HIST 105 History to 1877

HIST 172 US History Since 1877  
or HIST 1US History Since 1877-ACP

HIST 174 Black America, 1619-Present

One 100-400 level course in US history 3

One 100-400 level course in US history focusing on US minorities history 3

HIST 273 Illinois History 3  
or HIST 288 American Indians of Illinois  
or HIST 382 Race and Migration in Chicago

#### Nonwestern and Global History

HIST 100 Global History (if not taken as a foundation course) 3

One 100-400 level course in global or nonwestern history 3

One 100-400 level course in global or nonwestern history 3

#### European History

Select one of the following (A Western Civ survey course if not taken as a foundation course): 3-4

HIST 140 Western Civ to 1660-ACP  
or HIST 1Western Civ to 1660

HIST 142 Western Civ Since 1660  
or HIST 1Western Civ Since 1660-ACP

One 100-400 level course in European history 3

One 100-400 level course in European History 3

Students must take HIST 498 - Research and Writing Seminar. Students may count the 3 hours towards any of the history areas noted above: US, Nonwestern/Global, or European.

Students must complete 12 hours of advanced (300+) coursework in History. HIST 498 may count toward those 12 hours.

Pre modern requirement: One History course must have a significant pre-1800 component.

#### Social Science Requirement

ECON 102 Microeconomic Principles 3  
or ECON 103 Macroeconomic Principles

One 100-400 level Geography course 3-4

## Learning Outcomes: History, BALAS

Learning outcomes for the degree of Bachelor or Arts in Liberal Arts & Sciences Major in History

### 1. Historical interpretation:

- Students will be able to connect past and present, demonstrating an understanding of ways that the past has shaped the world we live in today
- Students will be able to grasp the complexity of historical causation

- Students will have a broad and empathetic understanding of the commonalities and differences of the human experience, as influenced by factors such as culture, race, ethnicity, gender, and class in a matrix of time and place
  - Students will be able to critically assess different sources of information and points of view
- Historical research:
    - Students will be able to formulate historical questions
    - Students will be able to locate, organize, analyze, and synthesize data to answer these questions
    - Students will be able to craft original historical arguments
    - Students will be able to position these arguments contextually
  - Historical communication:
    - Students will be able to express their ideas clearly, logically, and in evidence-based ways
    - Students will be able to convey their ideas to different audiences
    - Students will be able to evaluate, review, and edit historical writing and other forms of historical communication

## Human Development & Family Studies, BS

for the Bachelor of Science Major in Human Development & Family Studies

**department website:** <https://hdfs.illinois.edu/>  
**department faculty:** Human Development & Family Studies Faculty (<https://hdfs.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of two concentrations:

- Child and Adolescent Development Concentration (p. 215)
- Family Studies Concentration (p. 216)

The Human Development and Family Studies program prepares students for graduate/professional education or employment in areas such as pediatric services in hospitals, medicine and allied health fields, marriage and family therapy, family law, human resources, child care services, family life education, social work, counseling, human services, and business activities related to children and families. Students select course work according to their interests in human development, such as infancy, early childhood or adolescence, or family studies, such as the marital relationship, parent-child interaction, family change or conflict and conflict management in the family. Basic courses in these areas are linked to practical experiences in educational and community settings, and most courses emphasize issues related to cultural diversity and gender. Students select one of two concentrations within this major: Child and Adolescent Development or Family Studies. Completion of the Family Studies option may qualify some graduates for provisional certification as a Family Life Educator by the National Council on Family Relations. Additional information is available at the NCFR website.

# Human Development & Family Studies: Child & Adolescent Development, BS

for the degree of Bachelor of Science Major in Human Development & Family Studies, Child and Adolescent Development Concentration

**department website:** <https://hdfs.illinois.edu/>  
**department faculty:** Human Development & Family Studies Faculty (<https://hdfs.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)  
**college website:** <https://aces.illinois.edu/>

The Child and Adolescent Development concentration emphasizes the influence of environment, biology, families, peer groups, schools, and communities on the well-being of children and adolescents. Graduates with this concentration are qualified to provide a wide range of services and lead programs for children and their families. Career opportunities include child life specialist, parent education, developmental therapy, adoption case work and day-care administration. Graduates also choose to pursue graduate education in a variety of fields, including pediatrics, occupational therapy, nursing, law, human development research, education, psychology, social work, and business.

HDFS 420	Inequality, Public Policy, and U.S. Families	

HDFS 425	Family Stress and Change	
HDFS 426	Family Conflict Management	
HDFS 427	Family Adaptation & Resilience	
Total Hours		16-18

## Human Development & Family Studies: Family Studies, BS

for the degree of Bachelor of Science Major in Human Development & Family Studies, Family Studies Concentration

**department website:** <https://hdfs.illinois.edu/>  
**department faculty:** Human Development & Family Studies Faculty (<https://hdfs.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)  
**college website:** <https://aces.illinois.edu/>

Students in the Family Studies concentration focus on how families operate, develop, and change in response to the challenges of modern life. Students learn to appreciate the diversity of family life by studying different cultures and how families learn to manage stress and become resilient. Graduates with this concentration are qualified to provide many services to families. Career opportunities include family life educator, human resource specialist, caseworker or family service coordinator. Graduates also may choose to pursue graduate education in a variety of fields, including, marriage and family therapy, social work, policy specialist, psychology, family law, medicine, or human resources.

The Family Studies concentration is approved by the National Council of Family Relations (NCFR) for the provisional Certified Family Life Educator credential. Family life education focuses on healthy family functioning within a family systems perspective and provides a primarily preventive approach. The goal of family life education is to teach and foster skills and knowledge to enable individuals and families to function optimally. Within two years after receiving their degree, graduates who have completed the Family Studies curriculum and four elective courses (HDFS 427: Family Adaptation and Resilience, CHLH 206: Human Sexuality, HDFS 401: Socialization and Development, and HDFS 461: Family Life Education) can apply for the Provisional level of the CFLE credential through an abbreviated application process (details available on the NCFR website).

## Learning Outcomes: Human Development & Family Studies, BS

Learning outcomes for the Bachelor of Science Major in Human Development & Family Studies

1. *HDFS students will demonstrate a strong foundation in theories and empirical knowledge associated with human development and family studies (i.e., developmental periods and domains; socialization contexts; diversity among families and children; research methods; family dynamics, transitions, and resilience; and family policy)*
  - a. Recall key terminology (theoretical, empirical, methodological, substantive concepts)
  - b. Describe current and historical challenges affecting individuals and families (e.g., social, political, economic, cultural, ethical, including research ethics)
  - c. Summarize key theories, models, and principles (e.g., grand, disciplinary, substantive, methodological)
  - d. Apply theories, models, and principles to developmental, relationship, familial, and social issues
  - e. Apply knowledge to global contexts
  - f. Integrate knowledge across courses and content areas (i.e., human development and family studies; lower level to higher level courses)
  - g. Critique current theoretical and empirical knowledge of and methodological approaches to studying human development, relationships, and families
2. *HDFS students will exhibit the skills necessary to effectively apply knowledge and generate new ideas to solve real world issues*
  - a. Use effective written communication
  - b. Use e to achieve group goals
  - c. Apply research-based knowledge to working with children, families, and communities and/or agencies that serve them
3. *HDFS students will demonstrate a critical and reflexive orientation toward and sensitivity to issues of diversity and inclusion*
  - a. Describe the historical and current relevance of diversity and inclusion to individuals, relationships, families, and communities
  - b. Reflect on one's own interconnected positions, privileges, and disadvantages across multiple contexts
  - c. Critically examine one's own beliefs, assumptions, values, attitudes, and biases
  - d. Demonstrate awareness of and sensitivity to issues of diversity and inclusion in one's own work (e.g., written and oral communication)
  - e. Critically evaluate the cultural respectfulness and appropriateness of research, programs, and policies related to human development and families
  - f. Critically evaluate the potential impact of research, programs, and policies on diversity and inclusion
  - g. Demonstrate awareness of global factors (e.g., economic, political, cultural, social) and how they may affect individuals, families and communities
4. *HDFS students will develop professional competence skills and establish well-informed career and professional goals*
  - a. Identify and compare/contrast a range of career options for HDFS majors
  - b. Create professional/job-related materials (e.g., resume, cover letter, purpose statement)
  - c. Connect discipline knowledge to personal and professional life
  - d. Develop leadership skills (e.g., through formal positions; informal mentoring to prospective/new students; representing the department; participation in class teamwork)
  - e. Develop professional connections to support career and professional goals (e.g., relationships with professors, internship supervisors who can serve as references; connections to professionals through attending conferences/workshops or engaging with guest speakers in class)
    - i. Make decisions appropriate grammar and writing mechanics
    - ii. Demonstrate a working knowledge of APA style
    - iii. Respond to constructive criticism (e.g., revision process, peer review)
    - iv. Produce written work that is organized, logical, and fully developed
  - f. Use effective oral communication (e.g., clearly and logically present ideas aloud through presentation to class or group)
  - g. Apply knowledge to formulate and investigate hypotheses or research questions
  - h. Apply knowledge to propose or create research-based programs or policies
    - i. Critically evaluate the quality of published research, programs, and policies and their implications for individuals, relationships, and families
    - j. Collaborate and solve problems
      - i. Independently
      - ii. Collaboratively
  - k. Exhibit professional and ethical behavior

## Individual Plans of Study, BALAS or BSLAS

*For the Degree of Bachelor of Arts in Liberal Arts and Sciences, or Bachelor of Science in Liberal Arts and Sciences Major in Individual Plans of Study*

**academic advisor:** Tenaya Reifsteck

**program address:** 2002 Lincoln Hall, 702 S. Wright St., Urbana, IL 61801

**program information:** <http://www.las.illinois.edu/students/programs/majors/ips/>

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [las-ips@illinois.edu](mailto:las-ips@illinois.edu)

Minimum required major and supporting course work normally equates to 51-70 hours.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To graduate with distinction, a student must

1. have a cumulative grade point average of at least 3.25 and
2. successfully complete a project that has been approved by the IPS advisory committee.

Further information on requirements for graduation with distinction may be obtained from the secretary of the IPS advisory committee.

Students in the College of Liberal Arts and Sciences may choose any of the undergraduate degree programs offered within the college. These majors and specialized curricula, each with its own pattern of requirements and electives, are continuously reviewed by the sponsoring departments and the college and revised as needed. At the same time, it is not possible to anticipate or specify all possible undergraduate fields of study. So, in order to encourage the growth of new academic disciplines, the college sponsors the experimental major-the Individual Plans of Study program. IPS allows the student to create an original major more appropriate for the individual's educational needs and characterized by a unique pattern of upper-level courses with a new academic direction. Recent IPS students have successfully pursued such innovative majors as Cinematography, Entomology, Neuroscience, Meteorology, and Middle Eastern Studies.

The development of an IPS program begins with the student's perception that a more appropriate field of study could exist beyond the present majors. Consultation with the secretary of the IPS advisory committee and with faculty members in related fields will soon establish whether an original major is appropriate. Then, with the cooperation of one or more faculty members who consent to serve as advisers for this IPS

program, an IPS major is planned and justified as carefully as if this were a departmental major.

Once an IPS program is formulated, the student and adviser make formal application to the IPS advisory committee, which evaluates and decides whether a proposed IPS program is appropriate for the aims of both the student and the college. The IPS Advisory Committee and the college will determine whether BA or BS is appropriate for the proposed program of study. Students interested in IPS are encouraged to inquire as early as possible in the sophomore year. In all cases, IPS programs must be initiated and approved before the end of the student's junior year. If program innovation sounds challenging and attractive, additional information is available at the LAS Student Academic Affairs Office, 2002 Lincoln Hall.

## Industrial Design, BFA

*for the degree of Bachelor of Fine Arts Major in Industrial Design*

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

**phone:** (217) 333-6632

**department website:** School of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

The Industrial design program focuses on a human centered approach to identify opportunities to design new products and services. The studio courses emphasize learning through problem-solving, understanding user experience, market demand, materials, and production processes. Students can develop their interest, and engage in creating intuitive, innovative products and services, that are in visual harmony with their environment. Designs that satisfy the consumer desire while being responsive to changes in technology and culture benefit society.

The curriculum in Industrial Design requires 122 credit hours.

*for the degree of Bachelor of Fine Arts Major in Industrial Design*

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

### First Year Curriculum

Code	Title	Hours
FAA 101	Arts at Illinois	1
ARTF 101	Contemporary Issues in Art	2
ARTE 101	Art, Design, and Society	2
ARTH 110	Introduction to the History of Art and Visual Culture	3

Select one Drawing course:	3
ARTF 102 Observational Drawing	
ARTF 104 Expressive Drawing	
ARTF 106 Visualization Drawing	
Select one course in 2D Category:	3
ARTD 151 Introduction to Graphic Design	
ARTS 205 Introduction to Printmaking (required for Studio Art: Printmaking)	
ARTS 221 Fashion Illustration (required for Studio Art: Fashion)	
ARTS 251 Beginning Painting (required for Studio Art: Painting)	
ARTS 264 Basic Photography (required for Studio Art: Photography)	
Select one course in 3D Category:	3
ARTD 101 Introduction to Industrial Design	
ARTS 210 Ceramics Sculpture I	
ARTS 230 Jewelry/Metals I	
ARTS 280 Beginning Sculpture (required for Studio Art: Sculpture)	
Select one course in 4D Category:	3
ARTS 241 Image Practice	
ARTS 243 Time Arts I	
ARTS 244 Interaction I	
<b>Total Hours</b>	<b>20</b>

## Industrial Design Requirements

Code	Title	Hours
ARTD 201 & ARTD 202	Industrial Design I and Industrial Design II	8
ARTD 301 & ARTD 302	Industrial Design III and Industrial Design IV	8
ARTD 401 & ARTD 402	Industrial Design V and Industrial Design VI	8
ARTD 225	Design Drawing	3
ARTD 228	Computer Applications	3
ARTD 326	Sustainability & Manufacturing	3
ARTD 328	Human-Centered Product Design	3
ARTD 426	Product Innovation	3
ARTD 448	Professional Design Practice	3

Code	Title	Hours
	Art + Design courses (art and design courses not in industrial design requirements or used as industrial design electives)	12
	Open electives as needed to total a minimum of 122 hours.	

## Learning Outcomes: Industrial Design, BFA

Learning outcomes for the degree of Bachelor of Fine Arts Major in Industrial Design

- Research**...the ability to select and use appropriate research and experimental methods, to access existing data sources or to generate new data, to analyze and draw insights for future work, with particular emphasis on identifying human needs
- Creative synthesis**...the ability to produce creative proposals from investigation, or in response to identified opportunities or requirements, using appropriate thinking, modeling and making strategies, taking account of users, audience, market needs, makers, producers or exhibitors as appropriate
- Production**...the ability to select and use appropriate making and manufacturing processes in your own work, with an understanding of the potential of new technologies
- Organization**...the ability to plan and implement action, identifying targets and organizing resources, effectively managing self and collaborations with others
- Communication**...the ability to use various forms of communication as appropriate to elicit information, to explain, to debate and persuade, adapting to audience and situations  
**Conceptualization**...the ability to realize an idea through an iterative creative making process of refinement
- Conceptualization**...the ability to realize an idea through an iterative creative process of refinement.
- Understanding impacts**...of the diverse professional, social, and ethical effects of the industrial design discipline
- Contextualization**...the ability to understand the multiple contexts of design practice, including the historical, theoretical, critical, professional, cultural, environmental and technological
- Learning**...the ability to carry out independent learning as a basis for academic study, lifelong learning and for personal professional development including the ability to independently evaluate your own work with the aim of improving and developing your own practice

## Industrial Engineering, BS

for the degree of Bachelor of Science in Industrial Engineering

**department website:** <https://ise.illinois.edu> (<https://ise.illinois.edu/>)  
**department faculty:** Industrial & Enterprise Systems Faculty (<https://ise.illinois.edu/directory/faculty.html>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

Industrial engineering is a discipline that encompasses the analysis, development, improvement, implementation, and evaluation of integrated systems and their components, including materials, information, energy, people, money, time, equipment, and associated processes. Industrial engineering draws upon a variety of disciplines, from mathematics to psychology, from communications to computer science, and from production management to process control. Industrial engineers design

efficient, productive systems in a wide range of business, industrial, and governmental settings.

The technical portion of the Industrial Engineering curriculum is designed as a sequence of increasingly specialized experiences. The entering student's first year is spent mastering the basics of science: math, chemistry, and physics. Second-year students begin to take fundamental engineering courses such as statics, dynamics, statistics, and strength of materials. Third-year students take a core of industrial engineering courses and begin their chosen area of specialization in one of five tracks, including: Operations Research; Quality Engineering; Supply Chain, Manufacturing, and Logistics; Economics and Finance; and Industrial Engineering Fundamentals. During their senior year, students broaden and deepen their knowledge with additional technical elective courses. Finally, all students participate in the practice of engineering through the capstone senior design course in which they work in teams to solve problems submitted by industry partnering companies, and present their solutions in reports and presentations supported by complete economic analyses. Engineering design, communication, teamwork, and laboratory experiences are integrated throughout all four years of the curriculum.

for the degree of Bachelor of Science in Industrial Engineering

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for required Engineering and Technical Elective courses, as well as MATH 415. See **Technical GPA** to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

Code	Title	Hours

## Track Option Electives

Code	Title	Hours
Track option electives. Courses selected from departmentally approved lists of Track Option Electives or by petition to the department. The current Track options include:		12

### Economics and Finance (E&F)

Track Core - Complete at least 2 of the following 3 courses:

ACE 427	Commodity Price Analysis	3
IE 420	Financial Engineering	3 or 4
SE 450	Decision Analysis I	3 or 4

Track Electives - Complete 2 of the following courses:

ACCY 200	Fundamentals of Accounting	3
ACE 410	Energy Economics	3 or 4
ACE 427	Commodity Price Analysis	3
ACE 428	Commodity Futures and Options	3
ECON 302	Inter Microeconomic Theory	3
ECON 303	Inter Macroeconomic Theory	3
ECON 420	International Economics	2 to 4
ECON 471	Intro to Applied Econometrics	2 to 4
FIN 221	Corporate Finance	3
FIN 300	Financial Markets	3
FIN 411	Investment & Portfolio Mngt	3
FIN 412	Options and Futures Markets	3
FIN 415	Fixed Income Portfolios	3
FIN 461	Banking and Financial Regulation	3

### Human Factors

Track Core - Complete the following course:

IE 340	Human Factors	4
--------	---------------	---

Track Electives - Complete at least 3 of the following courses:

Physical Ergonomics Focus		
BIOE 461	Cellular Biomechanics	4
	or TAM 461 Cellular Biomechanics	
KIN 355	Biomechanics of Human Movement	3
KIN 401	Measure & Eval in Kinesiology	3 or 4
ME 481	Whole-Body Musculoskel Biomech	3 or 4
ME 482	Musculoskel Tissue Mechanics	3 or 4
TSM 421	Ag Safety-Injury Prevention	3
TSM 422	Ag Health-Illnesses Prevention	3
TSM 425	Managing Ag Safety Risk	3
Cognitive Ergonomics Focus		
SE 450	Decision Analysis I	3 or 4
IE 445	Human Performance and Cognition in Context	3 or 4
Organizational Ergonomics Focus		
ANTH 411	Research Methods in Socio-Cultural Anthropology	3 or 4
ARCH 423	Soc/Beh Factors for Design	3
BADM 310	Mgmt and Organizational Beh	3
BADM 312	Designing and Managing Orgs	3
BADM 357	Digital Making Seminar	3
PSYC 245	Industrial Org Psych	3
Optional Health Focus		
CHLH 470	Technology, Health, and Aging	3 or 4
Industrial Engineering Fundamentals (IEF)		
Track Core - Complete the following 4 courses:		
IE 330	Industrial Quality Control	3
IE 411	Optimization of Large Systems	3 or 4
IE 412	OR Models for Mfg Systems	3 or 4
IE 340	Human Factors	4
Operations Research (OR)		
Track Core - Complete the following 2 courses:		
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
IE 411	Optimization of Large Systems	3 or 4
Track Electives - Complete 2 of the following courses:		
ECE 490	Introduction to Optimization	3 or 4
IE 420	Financial Engineering	3 or 4
MATH 444	Elementary Real Analysis	3-4
	or MATH 444 Real Variables	
MATH 484	Nonlinear Programming	3 or 4
SE 411	Reliability Engineering	3 or 4
STAT 410	Statistics and Probability II	3-4
	or MATH 464 Statistics and Probability II	
STAT 420/ ASRM 450	Methods of Applied Statistics	3 or 4
STAT 424	Analysis of Variance	3 or 4
STAT 425	Applied Regression and Design	3 or 4
Quality Engineering (QE)		
Track Core - Complete the following course:		
IE 330	Industrial Quality Control	3
Track Core - Complete 1 of the following courses:		
IE 431	Design for Six Sigma	3
SE 411	Reliability Engineering	3 or 4

Track Elective- Complete 1 of the following courses:

STAT 410	Statistics and Probability II	3-4
	or MATH 464 Statistics and Probability II	
STAT 420/ ASRM 450	Methods of Applied Statistics	3 or 4
STAT 424	Analysis of Variance	3 or 4
STAT 426	Sampling and Categorical Data	3 or 4

### Supply Chain, Manufacturing and Logistics (SC&L)

Track Core - Complete the following course:

IE 412	OR Models for Mfg Systems	3 or 4
--------	---------------------------	--------

Track Electives - Complete 3 of the following courses:

ECE 470	Introduction to Robotics	4
IE 330	Industrial Quality Control	3
ME 451	Computer-Aided Mfg Systems	3 or 4
ME 452	Num Control of Mfg Processes	3 or 4

## Technical Electives

Code	Title	Hours
<b>Computer science elective selected from the departmentally approved list of Computer Science Electives below:</b>		<b>3</b>
CS 225	Data Structures	4
CS 357	Numerical Methods I	3
CS 411	Database Systems	3 or 4
CS 450	Numerical Analysis	3 or 4
IE 405	Computing for ISE	3 or 4
<b>IE technical electives selected from the departmentally approved list of IE Technical Electives below:</b>		<b>3</b>
IE 330	Industrial Quality Control	3
IE 340	Human Factors	4
IE 411	Optimization of Large Systems	3 or 4
IE 412	OR Models for Mfg Systems	3 or 4
IE 420	Financial Engineering	3 or 4
IE 431	Design for Six Sigma	3
IE 445	Human Performance and Cognition in Context	3 or 4
SE 310	Design of Structures and Mechanisms	3
SE 320	Control Systems	4
SE 424	State Space Design for Control	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>4</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>5</sup>		7
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Advanced Composition satisfied by completing the combination of SE 494 and SE 495.

<sup>4</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>5</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Industrial Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/industrial-engineering-map/>).

### First Year

First Semester	Hours
SE 100 Introduction to ISE	1
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research or SE 101 <sup>2</sup>	4-3
General Education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>16-15</b>

### Second Semester

MATH 231 Calculus II	3
PHYS 211 University Physics: Mechanics	4
CS 101 Intro Computing: Engrg Sci	3
ECE 110 Introduction to Electronics	3
SE 101 Engineering Graphics Design or RHET 105 <sup>2</sup>	3-4
<b>Semester Hours</b>	<b>16-17</b>

### Second Year

#### First Semester

PHYS 212 University Physics: Elec Mag	4
TAM 211 Statics	3
SE 261 Business Side of Engineering	2
MATH 241 Calculus III	4
General Education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>16</b>

#### Second Semester

IE 300 Analysis of Data	3
MATH 285 Intro Differential Equations	3
PHYS 213 Univ Physics: Thermal Physics	2
TAM 212 Introductory Dynamics	3
TAM 251 Introductory Solid Mechanics	3

SE 290 ISE Undergraduate Seminar	0
General Education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>17</b>

### Third Year

#### First Semester

IE 310 Deterministic Models in Optimization	3
IE 360 Facilities Planning and Design	3
MATH 415 Applied Linear Algebra	3
ME 330 Engineering Materials	4
General Education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>16</b>

#### Second Semester

IE 361 Production Planning Control	3
IE 370 Stochastic Processes and Applications	3
IE Technical elective <sup>4</sup>	3
Track option electives <sup>5</sup>	6
<b>Semester Hours</b>	<b>15</b>

### Fourth Year

#### First Semester

IE 400 Design Anlys of Experiments	3
SE 494 Senior Engineering Project I & SE 495 <sup>6,7</sup>	5-3
OR	
Free electives	
Computer Science elective <sup>8</sup>	3
Track option elective <sup>5</sup>	3
General Education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>17-15</b>

#### Second Semester

IE 413 Simulation	3
Free electives	
OR	
SE 494 Senior Engineering Project I & SE 495 <sup>6,7</sup>	3-5
Track option elective <sup>5</sup>	3
General Education elective <sup>3</sup>	3
Additional Free electives	3
<b>Semester Hours</b>	<b>15-17</b>

**Total Hours: 128**

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

- <sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.
- <sup>4</sup> Selected from the departmentally approved list of IE Technical Electives (<https://ise.illinois.edu/undergraduate/electives.html#ie>)
- <sup>5</sup> Selected from the departmentally approved lists of Track Option Electives (<https://ise.illinois.edu/undergraduate/industrial-engineering-degree/industrial-engineering-track-options.html>) or by petition to the department.
- <sup>6</sup> SE 494 and SE 495 may be taken in the first or second semester of the fourth year as authorized. The alternative is a free elective.
- <sup>7</sup> Combination satisfies the General Education Advanced Composition requirement.
- <sup>8</sup> Selected from the departmentally approved list of Computer Science Electives (<https://ise.illinois.edu/undergraduate/electives.html#ie>)

## Learning Outcomes: Industrial Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Industrial Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Industrial Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Information Sciences, BS

For the Degree of Bachelor of Science in Information Sciences

### Initial Admission Term: Fall 2020

**school website:** School of Information Sciences (<https://ischool.illinois.edu/>)

**school faculty:** iSchool Faculty (<https://ischool.illinois.edu/people/faculty/>)

**overview of school admission & requirements:** <http://catalog.illinois.edu/schools/ischool/academic-units/#undergraduatetext>

**school office:** 501 E. Daniel St., Champaign, IL 61820

**email:** [ischool@illinois.edu](mailto:ischool@illinois.edu)

The Bachelor of Science in Information Sciences prepares students for a wide range of careers within the knowledge economy. In today's technology-centered job market, there is a high demand for information professionals. By earning a B.S. in Information Sciences (BS/IS) from the School of Information Sciences (iSchool), you will gain a competitive edge. Our interdisciplinary, STEM-designated degree will prepare students for careers in a variety of fields. As a BS/IS student, you'll learn how to manage data and other types of information to help organizations achieve their goals. You will become an information technology expert who understands the human perspective, social context, and policy implications.

**degree website:** School of Information Sciences (<https://ischool.illinois.edu/degrees-programs/bs-information-sciences/>), B.S.

**Departmental Distinction:** The top 10% of the graduating class will graduate with distinction.

For the Degree of Bachelor of Science in Information Sciences

**Minimum required major and supporting course work: Students must earn at least 51 hours in the School of Information Sciences or in approved courses offered by other departments, approved by an IS advisor. Twelve hours of 300/400 level (advanced) courses in Information Sciences (IS) must be taken on this campus.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements .**

**Minimum required major and supporting course work: Students must earn at least 51 hours in the School of Information Sciences or in approved courses offered by other departments. Students must demonstrate proficiency in at least one programming language.**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements .**

**GPA Requirement: 2.5 - Earn a cumulative grade point average of 2.50 (A = 4.00) in all courses presented for the degree and a cumulative 2.50 grade point average for all courses taken in the School.**

## Information Systems, BS

for the degree of Bachelor of Science Major in Information Systems

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Information Systems (IS) major is concerned with the design, implementation, and protection of systems and technology to address the information processing needs of an organization, and provide data and information for managerial decision-making. IS majors take both, technology and business courses which equip them with the required skill-set to be able to design, develop and deploy computer and software-based solutions in order to help businesses attain their tactical and strategic objectives. Some of the key courses taken by IS majors include information technology for networked organizations, systems analysis and design, and database management. Because computers and software are used in all functional areas of business today, IS majors may choose to take additional courses in data analytics, information security/cyber-security, project management, human-computer interaction, programming, and social media applications to strengthen their resume, gain a wider exposure to domains supported by IS specialists, and prepare themselves to face the challenges in the technology-driven business world of today. IS majors will have the required knowledge and skill-set to make decisions about the selection and implementation of information systems/information technology, be a liaison between non-technical managers, computer programmers, and technical managers, assume a wide variety of roles requiring computer-based solutions, and generally be business leaders of the digital era.

for the degree of Bachelor of Science Major in Information Systems

Information listed in this catalog is current as of 10/2020

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 120 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
A minimum of six courses is required, as follows:		18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

## Non-Primary Language Requirement

Code	Title	Hours
Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.		0-12

## Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6

BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
Total Hours		58

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

Code	Title	Hours
BADM 350	IT for Networked Organizations	3
BADM 352	Database Design and Management	3
BADM 353	Info Sys Analysis and Design (Prerequisite: BADM 350)	3
Select two of the following:		6
BADM 351	E-Business Management (Prerequisite: BADM 350)	
BADM 355	Enterprise Software Management	
BADM 453	Business Intelligence	
BADM 458	IT Governance (Prerequisite: BADM 350)	
Select four of the following:		12-14
BADM 311	Leading Individuals and Teams (Prerequisite: BADM 310)	

BADM 312	Designing and Managing Orgs (Prerequisite: BADM 310)	
BADM 322	Marketing Research (Prerequisite: BADM 320)	
BADM 324	Purchasing and Supply Mgmt (Prerequisite: Credit or concurrent enrollment in BADM 320)	
BADM 374	Management Decision Models (Prerequisite: BADM 211)	
BADM 375	Operations Management	
BADM 377	Project Management	
BADM 379	Business Process Improvement	
BADM 380	International Business	
BADM 445	Small Business Consulting	
BADM 446	Entrepreneurship: New Venture Creation	
Total Hours		27

## Learning Outcomes: Information Systems, BS

Learning Outcomes for the degree of Bachelor of Science in Information Systems

1. Develop an understanding of fundamental concepts and key principles in the area of Management Information Systems.
2. The ability to analyze managerial and organizational issues, apply relevant knowledge to come up with solutions, and make recommendations.
3. The ability to use knowledge and skills related to digital technologies to enhance business administration and decision making.
4. The ability to collaborate as a team member in varying roles in a diverse group and communicate effectively.

## Innovation, Leadership & Engineering Entrepreneurship (ILEE), BS

for the degree of Bachelor of Science in Innovation, Leadership & Engineering Entrepreneurship

**center website:** <http://www.tec.illinois.edu>  
**college website:** <https://grainger.illinois.edu/>  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

The Technology Entrepreneur Center offers studies leading to the Bachelor of Science in Innovation, Leadership and Engineering Entrepreneurship (ILEE). The BS in ILEE degree is intended for Grainger Engineering students to better understand the innovative processes involved in identifying problems and creating, developing, and leading efforts to provide their engineering solutions. The curriculum is based on a sound disciplinary engineering technical core with additional aspects of problem identification and innovation, and complex multidisciplinary engineering project management and leadership.

**Currently, the BS in ILEE degree is only being offered as a dual degree for current Grainger Engineering Students.**

Students should follow their Grainger Engineering primary/first department's curriculum and take the additional 31 hours of ILEE Orientation and Technical Core.

## Overview of Curricular Requirements

The curriculum requires 128 hours for graduation from student's Grainger Engineering primary/first department curriculum and take 31 additional hours of ILEE Technical core (total: 159 credit hours).

### Innovation, Leadership and Engineering Entrepreneurship Orientation

## Integrative Biology, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology*

**department website:** <http://sib.illinois.edu/>

**department faculty:** School of Integrative Biology Faculty ([http://sib.illinois.edu/people/faculty\\_all/](http://sib.illinois.edu/people/faculty_all/))

**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [sib@illinois.edu](mailto:sib@illinois.edu)

The Integrative Biology major provides students with a solid preparation in genetics, evolution, anatomy, physiology, ecology, and molecular biology. After completion of the foundational 100- and core 200-300-level courses in IB, students complete the required advanced coursework by taking a variety of IB and other courses or focusing on a limited area of IB. Plans for the student's combination of advanced courses are developed in consultation with an adviser.

All undergraduates in this field are required to have a strong background in the biological and physical sciences.

Students pursuing a degree in Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

For students interested in adding licensure to the BSLAS in Integrative Biology, please visit the Biology Teaching page: <http://sib.illinois.edu/undergraduate/programs/teaching> (<http://sib.illinois.edu/undergraduate/programs/teaching/>)

### **for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology**

**Distinction for Excellence in Research: To be eligible for graduation with Distinction for excellence in Research a student must: Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester.**

**Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Give a poster presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor. Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the Advisor's evaluation.**

**High or Highest Distinction for Excellence in Research: To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must:**

**Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester. Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Submit a written thesis and give an oral presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor.**

**The level of Distinction will be determined by the SIB Distinction Committee based on the written thesis, the oral presentation, and the Advisor's evaluation.**

**For additional information visit: <http://sib.illinois.edu/undergraduate/distinction> (<http://sib.illinois.edu/undergraduate/distinction/>)**

**Integrative Biology Distinction: To be eligible for distinction a student must:**

**Graduate with a grade-point average of at least 3.25 and submit a report of an independent student project (IB 490) about two months prior to graduation for approval by the Integrative Biology Distinction Committee. For additional information visit: <http://sib.illinois.edu/undergraduate/distinction> (<http://sib.illinois.edu/undergraduate/distinction/>)**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 66-76 hours.**

**Minimum hours required for graduation: 120 hours.**

IB 302 Evolution 4

At least 14 hours of coursework from the Approved List of Advanced Courses (<http://sib.illinois.edu/courses/> area (<http://sib.illinois.edu/courses/area/>)) for IB majors, including:

#### **At least one course from two of the following three areas:**

Area I: Organismal and Evolutionary Biology

Area II: Behavior, Ecology, and the Environment

Area III: Integrative Anatomy, Physiology, and Molecular Biology

#### **One advanced course with a laboratory and/or field component.**

<sup>1</sup> The Biocalculus section of MATH 220 is strongly recommended for IB Majors.

<sup>2</sup> IB 202 requires animal dissection and no equivalent alternative is available. IB majors are required to enroll in the 4-hour version of this course.

<sup>3</sup> IB majors are required to enroll in the 4-hour version of IB 204.

## **Learning Outcomes: Integrative Biology, BSLAS**

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology

By the time they graduate, an Integrative Biology major should:

#### **Content-related understandings**

1. Possess a significant knowledge base in Integrative Biology, including but not limited to:

- Structure and function
  - Ecology
  - Genetics
  - Evolution
  - Molecular biology
  - Statistical inference
- Understand that biology is integrative and multidisciplinary
  - Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life
  - Understand how paradigms of biology relate to society and policy as well as their own lives

### Competencies

- Carry out the process of scientific inquiry
- Use critical thinking skills and solve problems
- Use quantitative reasoning and computation skills
- Apply simple models (equations/math) to biological phenomena
- Gain proficiency in scientific writing and speaking
- Read and evaluate primary scientific literature
- Critically evaluate science-related news and information
- Work collaboratively

## Integrative Biology: Honors Integrative Biology, BSLAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration*

**department website:** <http://sib.illinois.edu/>

**department faculty:** School of Integrative Biology Faculty ([http://sib.illinois.edu/people/faculty\\_all/](http://sib.illinois.edu/people/faculty_all/))

**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [honors@sib.illinois.edu](mailto:honors@sib.illinois.edu) ([ibhonors@life.illinois.edu](mailto:ibhonors@life.illinois.edu))

Honors Integrative Biology is designed for superior students wishing to pursue an intensive program in integrative biology and, concurrently, to gain a strong background in the physical sciences and mathematics. Admission is by interview in spring of the freshman year prior to registration for fall. An overall 3.0 GPA is required to apply for admission. Honors Integrative Biology provides preparation suitable for graduate and professional training in biology, as well as for biology careers in the private and public sectors.

Students earning the Honors Integrative Biology Concentration will also earn the Chemistry minor.

Students pursuing a degree in Honors Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Honors Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

Substitutions or other changes in the requirements below may be made only by petition to and approval of the director of the Honors Integrative Biology Concentration.

### **for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration**

#### **Departmental distinction: Candidates for distinction must:**

- Consult with an IB Honors adviser no later than the beginning of their junior year to discuss their proposed research plan.
- Have a minimum GPA of 3.25 when applying for distinction.
- Present an acceptable written report on the research to the Integrative Biology Distinction Committee about two months prior to graduation. The research must have been an in-depth experience and produced substantial results to be considered eligible for distinction. Additional details on requirements, procedures, and deadlines are available at [sib.illinois.edu/undergraduate/distinction](http://sib.illinois.edu/undergraduate/distinction) (<http://sib.illinois.edu/undergraduate/distinction/>).

Students must consult with their Integrative Biology honors adviser at least once each semester.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 80-91 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**No more than 8 hours of credit in 100-level courses in IB or MCB may be counted toward graduation.**

**Students may count toward graduation no more than a combined maximum of 10 hours of IB 390 and IB 490 credit offered for independent study.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
IB 150	Organismal & Evolutionary Biol	4
MCB 150	Molec & Cellular Basis of Life	4
IB 270	Evolution of Molecules & Cells	5
IB 271	Organismal Biology	5
IB 372	Ecology and Evolution <sup>1</sup>	5
MATH 220	Calculus (Biocalculus section) or MATH 22Calculus I	4-5
MATH 231	Calculus II <sup>2</sup> or IB 494 Theoretical Biology + Models	3-4
Select one group of courses:		8-10
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II	
OR		
CHEM 102	General Chemistry I <sup>3</sup>	
CHEM 103	General Chemistry Lab I	
CHEM 104	General Chemistry II	
CHEM 105	General Chemistry Lab II	
Select one group of courses:		6
CHEM 236	Fundamental Organic Chem I	
CHEM 237	Structure and Synthesis	

OR

CHEM 232	Elementary Organic Chemistry I	
CHEM 233	Elementary Organic Chem Lab I	
At least six hours of advanced courses in Chemistry <sup>4</sup>		6-8
MCB 450	Introductory Biochemistry	3
Select one group of courses		8-14
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	

OR

PHYS 101	College Physics: Mech & Heat	
PHYS 102	College Physics: E&M & Modern	
An approved 300- or 400-level course that includes physical/math principles <sup>5</sup>		
An approved 300- or 400- level course in statistics <sup>6</sup>		3
IB 490	Independent Study (2 semesters) <sup>7</sup>	6
300- or 400- level courses in the biological sciences		10

<sup>1</sup> Continuation in the Integrative Biology Honors Concentration requires a grade of B or better in each of IB 270, IB 271, and IB 372 and a 3.0 overall cumulative GPA.

<sup>2</sup> If IB 494 is taken instead of MATH 231, it will not count towards the requirement of 10 hours of 300- or 400-level courses in the biological sciences.

<sup>3</sup> Introductory chemistry should be completed prior to enrolling in IB 270.

<sup>4</sup> Recommended courses are: CHEM 312, CHEM 332, CHEM 360, CHEM 437, CHEM 440. Students should discuss alternate choices with the IB advising office. To earn the Chemistry minor students must choose 3 or 4 hour Chemistry courses, excluding research or independent study.

<sup>5</sup> Recommended courses are: ATMS 421, ANSC 448, MCB 432 or IBH Director approved.

<sup>6</sup> NRES 421 is recommended. Other suitable courses are CPSC 440 or STAT 400.

<sup>7</sup> Independent study equivalent to IB 490 in non-IB programs must first be approved by Director of IBH Concentration.

## Learning Outcomes: Honors Integrative Biology, BSLAS

### Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration

By graduation we want all Integrative Biology Honors students to have acquired:

#### Content-related understandings

- Possess a significant knowledge base in Integrative Biology and Chemical Sciences, including but not limited to:
  - Molecular genetics and biology
  - Diversity and structures and physiological functions of plants and animals
  - Ecology and evolution
  - Biochemical and chemical bases of life and/or systems
  - Statistical inference and modeling of systems
- Understand that biology is integrative and multidisciplinary

- Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life
- Understand how paradigms of biology relate to society and policy as well as their own lives

#### Competencies

- Carry out the process of scientific inquiry
- Use critical thinking skills and solve problems
- Use quantitative reasoning and computation skills
- Apply models (equations/math) to biological phenomena
- Gain proficiency in scientific writing and speaking
- Read and evaluate primary scientific literature
- Critically evaluate science-related news and information
- Work collaboratively

## Interdisciplinary Health Sciences, BS

for the degree of Bachelor of Science Major in Interdisciplinary Health Sciences

**department website:** <http://ihealth.illinois.edu/>  
**department faculty:** I-Health Faculty and Staff (<http://ihealth.illinois.edu/faculty-staff/>)  
**college catalog page:** Applied Health Sciences Catalog (p. 1149)  
**college website:** <http://www.ahs.illinois.edu/>

The Interdisciplinary Health Sciences, BS degree program includes a set of three concentrations, of which a student must complete at least one:

Health & Aging Concentration (p. 229)

Health Behavior Change Concentration (p. 230)

Health Diversity Concentration (<http://catalog.illinois.edu/undergraduate/ahs/interdisciplinary-health-sciences/health-diverse/>)

## Interdisciplinary Health Sciences: Health & Aging, BS

for the degree of Bachelor of Science Major in Interdisciplinary Health Science, Health & Aging Concentration

## Learning Outcomes: Interdisciplinary Health Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Interdisciplinary Health Sciences

1. Students will understand the influence of behavior and culture on health and well-being.
2. Students will gain a comprehensive and holistic perspective of health which will prepare them to enter a variety of health related careers.
3. Students will apply health-related knowledge through community service and experientially-based opportunities.
4. Students will be able to identify various health determinants in order to improve equity and access for vulnerable populations.

## Interdisciplinary Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

Students pursuing this major select one of two concentrations:

- Jewish Studies Concentration (p. 233)
- Medieval Studies Concentration (<http://catalog.illinois.edu/undergraduate/las/academic-units/interdisc-studies/medieval-civilization-concentration/>)

### Requirements

Elect one of the concentrations offered within the major and file a concentration declaration with the LAS Student Academic Affairs Office no later than the end of the first semester of the junior year. Students who do not begin work on concentration requirements by the junior year will be at a disadvantage.

Select specific courses counted toward completion of a concentration with the advice and approval of the concentration advisor, subject to

specific concentration requirements. Students are strongly encouraged also to enroll in 6-7 hours of Western civilization (HIST 140 or HIST 141 and HIST 142 or HIST 143, or CWL 241 and CWL 242).

For the elected concentration, complete the stated minimum number of hours in courses applicable toward the major and in accord with the concentration requirements; at least 25 hours must be at the 200, 300 or 400 level.

---

## Interdisciplinary Studies: Jewish Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Jewish Studies Concentration*

**program website:** <https://jewishculture.illinois.edu/>  
**program faculty:** Jewish Culture & Society Faculty (<https://jewishculture.illinois.edu/directory/affiliate-faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

The Program in Jewish Culture & Society (<https://jewishculture.illinois.edu/>) sponsors this concentration. This concentration provides the student with knowledge of the Hebrew language, the opportunity to begin a study of Yiddish, and a broad appreciation of Jewish religion, culture, and history.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Jewish Studies Concentration*

All substitutions must be approved by the Advisor in the Program in Jewish Culture and Society Office (<https://jewishculture.illinois.edu/academics/undergraduate/jewish-studies-major/>). Substitution for specific courses listed will be approved by the concentration advisor only in exceptional cases.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction: To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of "distinction" by a committee of at least two faculty members.**

**High distinction: To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of "high distinction" by a committee of at least two faculty members.**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 45-51 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
JS 199	Undergraduate Open Seminar (An Independent Study experience to be arranged with a Jewish Studies affiliated faculty member)	3
Hebrew and/or Yiddish language courses, including:		26-29

## Interdisciplinary Studies: Medieval Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Medieval Studies Concentration*

**program website:** <http://www.medieval.illinois.edu/education/undergrad/>  
**program faculty:** Medieval Studies Faculty (<http://www.medieval.illinois.edu/people/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [medievalstudies@illinois.edu](mailto:medievalstudies@illinois.edu)

The Program in Medieval Studies (<http://www.medieval.illinois.edu/education/undergrad/>) sponsors this concentration.

This concentration introduces students to medieval (ca. 500- ca. 1500 CE) cultures across the world, providing them with an understanding of periods and movements, institutions, material culture, ideas, beliefs, and values of the diverse cultures that comprise the medieval globe. The coursework spans both geographic regions and disciplines to introduce students to the breadth of medieval cultures as well as to the diversity of methods and perspectives for their study.

The concentration includes a minimum of 45 hours, divided into (I) an introductory course in global medieval literatures and cultures; (II) geographical distribution coursework as specified below; (III) advanced medieval coursework selected by the student in consultation with a Medieval Studies faculty advisor; and (IV) a capstone experience involving an intensive writing and research project. Because Medieval Studies is an interdisciplinary field of study, students are urged to consult with a Medieval Studies faculty advisor to ensure that they take a diverse range of courses providing some exposure to the fields of History and Anthropology; Literature; the Arts; and Philosophy or Religion. Although study of medieval languages is not a requirement, students who intend to pursue graduate study in Medieval Studies should complete at least two courses in an appropriate language; up to twelve hours of appropriate language study can be applied to the Additional Medieval Studies Coursework.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Medieval Studies Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Substitution for specific courses listed below will be approved by the concentration advisor only in exceptional cases.

**Departmental distinction: To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of "distinction" by a committee of at least two faculty members.**

**High distinction: To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of "high distinction" by a committee of at least two faculty members.**

### Medieval Studies Concentration Requirements

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 45-51 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

CWL 208	Cultures & Literatures of South Asia	

### Additional Medieval Studies Coursework

Medieval-related coursework from participating departments selected in consultation with the concentration advisor. At least 12 hours must be at the 300- or 400-level. A list of courses in Medieval Studies is maintained on the Medieval Studies Program website. Up to 12 hours of appropriate language study can be applied to meet this requirement with approval of a Medieval Studies faculty advisor.<sup>3</sup>

### Capstone Experience

A capstone experience (normally in the student's senior year) involving intensive interdisciplinary research and writing on a medieval topic. Any 400-level MDVL course (or medieval-related course not cross-listed with MDVL, with the approval of a Medieval Studies faculty advisor) can be designated as a capstone experience with approval of the instructor. For the course to qualify as a capstone experience, the student must undertake a substantial research project that supplements the standard course requirements, in the form either of an additional project or of a longer and more research-intensive version of an existing course project. The project must involve both primary and secondary research using advanced disciplinary methodologies and resources.<sup>4</sup>

3

Total Hours 45

<sup>1</sup> A student may substitute the "Medieval World" section of HIST 100, by petition to a Medieval Studies faculty advisor. Only the section of HIST 100 devoted to the Middle Ages may be substituted.

<sup>2</sup> A student may substitute up to 6 hours in geographical distribution coursework with courses on the medieval civilizations of the Americas: ANTH 277, ANTH 278, or both. However, at least one course must still be taken from each of the three regional areas.

<sup>3</sup> List of courses to fulfill Additional Medieval Studies Coursework. (<http://www.medieval.illinois.edu/education/undergrad/>)

<sup>4</sup> A student may also petition to satisfy the capstone experience by enrolling in MDVL 500, Seminar in Medieval Studies. Enrollment requires approval of the instructor and Director of the Program in Medieval Studies.

## Italian, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

Italian, BALAS (p. 235)

### 5 Year BALAS /MA in Italian and European Union Studies

The Department of French and Italian with the European Union Center offers a 5-year BALAS/MA degree program in Italian and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements

are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction: To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.**

Code	Title	Hours
Select 18 credits (max) from the following:		18
ITAL 200	Italian Studies in a Mediterranean Context	
ITAL 210	Practical Review Italian

ITAL 450	Italian Syntax & Phonology	
ITAL 470	Topics in Italian Cinema	
ITAL 490	Italian Critical Theory	

Supporting course work or a minor chosen in consultation with an adviser, in one related area (or a combination, with no fewer than 8 hours in each). Areas may include, for example, any other language and literature, history, political science, biology (premed), international law (prelaw), economics, finance, business administration, education, architecture, fine arts, journalism.<sup>1</sup>

<sup>1</sup> A minor consists of 16-21 hours.

## Learning Outcomes: Italian, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

Upon graduating with a major in Italian, students shall be able to do the following:

- 1. Language proficiency and accuracy:** reach proficiency and accuracy in written and oral comprehension and production of Italian (based on proficiency guidelines outlined by the American Council on the

Teaching of Foreign Languages [ACTFL] and the Common European Framework of Reference for Languages [CEFR]).

2. **Research skills and literacy in text, media, and technology in Italian:** access, manage, evaluate, and effectively use culturally relevant sources according to the standards of professional conduct; understand how these resources relate to language and culture; use appropriate tools when interpreting sources, interacting with others, and producing written, oral, or visual content; develop sensitivity to the changes in cultures and languages produced by emerging technologies.
3. **Intercultural awareness, knowledge, and competence:** develop an awareness of differences between Italian and their own cultures. Identify implicit assumptions present in Italian linguistic practices and relate them to their own cultural conventions. Learn how to identify the cultural component of everyday practices, from food to body language, and recognize difference as culturally specific.
4. **Proficiency in Italian Literature and Culture:** acquire familiarity with Italian literature and culture, their history and their contexts, as well as the critical tools used in their analysis.
5. **Competence in Italian linguistics:** acquire competence in the structure and history of the Italian language.

## Journalism, BS

for the degree of Bachelor of Science Major in Journalism

**department website:** <https://media.illinois.edu/journalism> (<https://media.illinois.edu/journalism/>)

**department faculty:** <https://media.illinois.edu/journalism/faculty> (<https://media.illinois.edu/journalism/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

JOURNALISM (JOUR), prepares students for exciting and fulfilling careers in traditional broadcast journalism, news-editorial journalism, and emerging media. The primary professional aim is to train students as public affairs and enterprise journalists. The Journalism Department seeks to prepare broadly educated professionals who will assume decision-making and leadership roles in a variety of media organizations.

### Programs in Journalism

#### Undergraduate Programs:

**major:** Journalism, BS (p. 236)

**major:** Journalism, BS-MJ (p. 438)

**minor:** Journalism (p. 480)

#### Graduate Programs:

**degree:** Journalism, BS-MJ (p. 438)

**degree:** Journalism, MS (p. 801)

**joint degree:** Journalism, MS and Business Administration, MBA (p. 1120)

**joint degree:** Journalism, MS and Law, JD (p. 1120)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 648).

for the degree of Bachelor of Science Major in Journalism

**General requirements: To graduate from the journalism curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade:**

Code	Title	Hours
<b>Required Major Courses</b>		<b>39</b>
JOUR 200	Introduction to Journalism	3
JOUR 210	Newsgathering Across Platforms	4
JOUR 215	Multimedia Reporting	4
JOUR 250	Journalism Ethics & Diversity	3
JOUR 311	Media Law	3
One of the following courses:		3
JOUR 205	History of American Journalism	
JOUR 452	Great Books of Journalism	
Four of the following courses:		16
JOUR 220	News Editing	
JOUR 315	Adv Public Affairs Reporting	
JOUR 335	Audio Journalism	
JOUR 340	Video Reporting & Storytelling	
JOUR 425	Multimedia Editing and Design	
JOUR 445	Video Storytelling 2-Producing	
One of the following courses:		3
JOUR 450	Media and Public Opinion	
JOUR 451	Research Methods in Journalism	
<b>Electives within the College of Media</b>		<b>12-13</b>
(including any course not chosen to fill a requirement listed above)		
<b>Total Hours in the College of Media</b>		<b>51-52</b>

Code	Title	Hours
<b>Courses outside the College of Media</b>		
CS 105	Intro Computing: Non-Tech	3
ECON 102	Microeconomic Principles	3
ECON 103	Macroeconomic Principles	3
PSYC 100	Intro Psych	4
RHET 105	Writing and Research (or Comp. I equivalent)	4
SOC 100	Introduction to Sociology	4
STAT 100	Statistics	3

<b>Campus General Education requirements not met by classes listed above</b>		<b>12</b>
<b>Minor or Specialization</b>		<b>18</b>
Recognized minor or one 18-hour specialization or two 9-hour specializations, approved by adviser, from outside College of Media and Department of Communication. May include hours listed above. Students may choose to complete a Public Relations minor in addition to the non-Media minor or specialization		
<b>Total Hours Outside the College of Media</b>		<b>72-73</b>

#### Advanced Hours Requirement

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. Nine of the 20 hours must be in courses numbered 300 or above.

Please note: Courses used to fulfill University General Education requirements or to fulfill requirements for a minor may count toward these requirements. Courses used to fulfill the College of Media's advanced outside hours requirement may also count toward these requirements.

**Minimum Total Hours required for graduation** 124

## Learning Outcomes: Journalism, BS

Learning outcomes for the degree of Bachelor of Science Major in Journalism

Student Learning Outcomes are adapted from requirements of the accrediting body for the Department of Journalism (ACEJMC)

1. Understand and apply principles and laws related to media and freedom of information
2. Write correctly and clearly in appropriate forms and styles
3. Apply basic numerical and statistical concepts
4. Apply current tools and technologies appropriate for the communications profession and to understand the digital world.
5. Demonstrate understanding of the history of journalism development and the role of professionals and institutions in shaping communications
6. Demonstrate an understanding of journalism ethical principles
7. Demonstrate understanding of diversity, both domestic and global
8. Understand concepts and apply theories in the use and presentation of images
9. Conduct research and evaluate information by methods appropriate to the profession
10. Demonstrate an ability to think critically and evaluate their own work and that of others
11. Document professional practice through internships, student media and other publication of student work.

**joint degree:** Community Health, BS and Public Health, MPH (p. 118)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

The Kinesiology curriculum leads to a bachelor of science degree that will prepare students for careers in human movement-related fields and/or advanced professional or graduate study. The undergraduate program provides the student with a broad general education, a departmental core integral to the understanding of the diverse aspects of human movement, and a correlate area of courses specific to the student's area of concentration within Kinesiology.

The Kinesiology program is committed to the study and research of human movement in all its dimensions. Undergraduate study focuses on exercise stress, movement efficiency, and fitness; the social, cultural, and psychological aspects of participation in physical activity and sport; coordination, control, and skill of physical activity; physical growth, development, and body form throughout the lifespan; the effects of therapeutic techniques of Kinesiology upon recovery from physical injury; and the instructional process of teaching/coaching of physical activity and sport.

The curriculum combines a comprehensive liberal arts and sciences education with in-depth study in a particular area of interest. The program of study provides knowledge and understanding essential for human movement and sport careers in either public or private agencies. The hours required for graduation include prescribed courses for all students as well as requirements determined by the various areas of emphasis selected by the student. Teaching and research emphasize hands-on learning through the use of technology and modern laboratory equipment. Graduates find employment in a variety of fields including

teaching, corporate fitness, coaching, and athletic training. Many students continue their education and become physical therapists, physicians, exercise physiologists, and sport psychologists.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with both BS and MPH degrees. The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

for the Bachelor of Science Major in Kinesiology

## Requirements Including General Education

The Kinesiology Program requires that General Education requirements must be selected from the Campus General Education course list. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education requirements provided they are on the appropriate General Education list. Specifically required General Education courses are listed below.

Code	Title	Hours
<b>Communication Arts</b>		
Composition I and an approved speech performance course; or CMN 111 and CMN 112		6-7
Advanced Composition (KIN 340 fulfills requirement)		3
<b>Quantitative Reasoning I &amp; II</b>		
From the approved campus list		6
<b>Humanities and Arts</b>		
From the approved campus list		6
<b>Behavioral and Social Sciences</b> <sup>1</sup>		
KIN 140	Social Sci of Human Movement (Social Science)	3
KIN 259	Motor Development and Control	3
<b>Natural Sciences</b>		
KIN 150	Bioscience of Human Movement (Life Science)	3
From the approved campus physical science list		3
<b>Cultural Studies</b> <sup>2</sup>		
From Western Cultures approved campus list		3
From Non-Western Cultures approved campus list		3
From U.S. Minority Cultures approved campus list		3
Foreign language: Completion through the third level of the same language in high school or college		
<b>Anatomy</b>		
MCB 244 & MCB 245	Human Anatomy & Physiology I and Human Anat & Physiol Lab I	5
MCB 246 & MCB 247	Human Anatomy & Physiology II and Human Anat & Physiol Lab II	5
<b>Kinesiology and Community Health Department Core</b>		
CHLH 101	Introduction to Public Health	3
KIN 122	Physical Activity and Health	3
<b>Kinesiology Core Requirements</b>		

KIN 125	Orientation KIN & Comm Health	1
KIN 140	Social Sci of Human Movement <sup>3</sup>	3
KIN 150	Bioscience of Human Movement <sup>3</sup>	3
KIN 201	Physical Activity Research Methods	3
KIN 259	Motor Development and Control <sup>3</sup>	3
KIN 340	Soc & Psych of Phys Activity <sup>3</sup>	3
KIN 352	Bioenergetics of Movement	3
KIN 355	Biomechanics of Human Movement	3

- <sup>1</sup> Students pursuing teacher licensure must complete PSYC 100 or PSYC 103 in addition to KIN 259.
- <sup>2</sup> Courses in cultural studies may be completed through other categories where appropriate.
- <sup>3</sup> Fulfills University General Education Requirements

## Kinesiology Program Guided Electives

Code	Title	Hours
<b>Elective Kinesiology Courses</b>		
All courses must be at the 200, 300, or 400 level. At least six or more hours must be at the 400 level (at least 12 hours).		12
<b>Correlate Area Studies</b>		
Students select a standardized correlate that will prepare them for further education toward their career goals (at least 18 hours).		18

## Summary of Degree Requirements

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

Application to the Teacher Licensure curriculum is made at the end of the sophomore year. Admission depends on meeting minimum grade point average requirements. In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, and content area grade point averages of 2.5 (A=4.0), and a professional education grade point average of 3.0. Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages. In addition, candidates must receive a B- or higher in KIN 360, KIN 361, KIN 362, KIN 363, KIN 364, and KIN 460, and meet professional standards of scholarship, ethics, and responsibility as evaluated by the Physical Education Area of Specialization Committee. In addition, students must complete all professional education and content-area courses with a grade of C- or better for licensure.

Code	Title	Hours
<b>Required Electives and Correlate Area Studies</b>

<sup>1</sup> As identified in the Illinois State Board of Education (ISBE)'s Teach Illinois: Strong Teachers, Strong Classrooms report, beginning June 30, 2019, the Test of Academic Proficiency (TAP400) will be put on hold indefinitely while ISBE conducts a study of alternative basic skills assessments. The last day to register for the TAP is June 27, 2019. TAP tests passed prior to June 30, 2019, will continue to be accepted to meet the Illinois basic skills requirement past June 30, 2019. ISBE will continue to require specific scores on the ACT or SAT as a test of basic skills for the issuance of a Professional Educator License.

## Learning Outcomes: Kinesiology, BS

Learning outcomes for the Bachelor of Science Major in Kinesiology

- Content Knowledge:** Students will know and comprehend the significant theories, models, themes, and ideas in the biomechanical, physiological, behavioral, pedagogical, biological, socioeconomic, environmental, and sociocultural correlates of Kinesiology and Community Health.
- Critical Thinking and Discovery:** Students will comprehend and demonstrate ethical practices and the application of scientific findings and/or critical analysis in order to interpret, promote inquiry, propose solutions, and/or create new ideas related to health, rehabilitation, and/or human movement.
- Awareness and Understanding:** Students will understand and appreciate the diverse socioeconomic, behavioral, sociocultural, biological, environmental, philosophical, and historical factors that influence health, rehabilitation, and human movement.
- Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases.
- Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

## Landscape Architecture, BLA

**for the degree of Bachelor of Landscape Architecture**

A student must have and maintain a minimum 2.00 cumulative grade point average.

University of Illinois transfer applicants must have completed 30 or more semester hours of undergraduate course work with an earned GPA of at least 2.0 (A = 4.0). Transfer students from other institutions must have earned a GPA of at least 2.5 (A = 4.0). Prerequisite credits in composition and pre-calculus or introductory statistics are required. Courses in physical geography and plant or environmental biology are highly recommended.

**Curriculum in Landscape Architecture**

**First Year**

**First Semester**

FAA 101	Arts at Illinois	1
GEOG 103	Earth's Physical Systems or GEOL 100 <sup>1</sup>	3-4

Total Hours:		124
--------------	--	-----

<sup>1</sup> IB 103 or IB 105 and GEOG 103 or GEOL 100 fulfill the natural sciences and technology general education requirements for this curriculum.

<sup>2</sup> General Education: See current University of Illinois General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Foreign Language Requirement 0 - 12 hours: Students entering the University of Illinois as freshmen in fall 2000 or later need to complete the foreign language requirement in order to graduate. To satisfy this requirement, students must complete a third semester level college foreign language course. This requirement may also be satisfied by three years of the same foreign language in high school. Students entering the University of Illinois without three years of the same foreign language in high school must take a foreign language placement test to determine the courses in which to enroll.

<sup>3</sup> Social/Cultural factors elective course options are LA 212, LA 218, LA 220, LA 221, LA 222, LA 242, LA 270, and LA 470.

- <sup>4</sup> A minimum of 12 credit hours of professionally related courses selected from the department's recommended list of supporting electives is required, with a minimum of three credit hours in each of the categories of history, communications, techniques, and environment.

## Learning Outcomes: Landscape Architecture, BLA

Learning outcomes for the degree of Bachelor of Landscape Architecture

Bachelor of Landscape Architecture students will:

1. **Build Knowledge & Develop Reasoning Skills** in applying broad and deep knowledge across academic disciplines and fields and using this knowledge to develop design proposals.
2. Apply knowledge of the **Natural World** to guide design decisions and activities taking into account natural resource constraints that impact land use.
3. **Strengthen Social Awareness** to better understand the social and cultural influences on human behavior and the social, political, economic, and legal institutions which influence land-use and design decisions.
4. Employ **Creative Inquiry and Discovery** in addition to a range of analytical skills, and general knowledge to develop design proposals, solve problems, generate new ideas, and produce creative work.
5. Demonstrate **Responsible Leadership** in working with the land and the people for whom we design.

## Latin American Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

**center website:** [http://www.clacs.illinois.edu/academics/undergrad/und\\_major.aspx](http://www.clacs.illinois.edu/academics/undergrad/und_major.aspx)

**center faculty:** Latin American Studies Faculty (<http://www.clacs.illinois.edu/about/people/faculty.aspx>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [clacs@illinois.edu](mailto:clacs@illinois.edu)

A major in Latin American Studies, which is administered by the Center for Latin American and Caribbean Studies, provides an integrated exploration of a major world area. Depending upon the student's interests and career aspirations, individual programs of study are designed in close consultation with the Associate Director of the Center, who also serves as the academic adviser. Consultation revolves around the career goals of the student. The undergraduate program reflects an integrative, cross-disciplinary approach, and courses must be taken from these categories:

1. LAST 170 (<http://catalog.illinois.edu/search/?P=LAST%20170>)- Introduction to Latin American Studies;
2. Approved courses with content focused on Latin America;
3. Approved courses with content focused on Latin America in a global context;
4. LAST 490 (<http://catalog.illinois.edu/search/?P=LAST%20490>) - Independent Study, or approved Study Abroad course, or approved service-learning course.

Courses for the major must be selected in consultation with the Associate Director of the Center.

Students are also expected to demonstrate a substantial command of a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to MesoAmerica or South America), either by passing a proficiency examination or through advanced courses of Latin American language(s) beyond the general Liberal Arts and Sciences language requirement.

### for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

Each student's course of study is devised in consultation with the Associate Director of the Center for Latin American and Caribbean Studies and is subject to the Associate Director's approval.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** To be eligible, a student must achieve at least a 3.5 grade point average in the major, complete a senior thesis, and receive the approval of the center's research committee.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
LAST 170	Introduction to Latin America <sup>1</sup>	3
Approved courses with primary focus on Latin America.		12
Approved courses with primary focus on Latin America in a global context.		12
LAST 490	Individual Study (or an approved study abroad course or an approved service-learning course.) <sup>2</sup>	3
Advanced language course in a Latin American language (Spanish, Portuguese, Quechua, or other Native American language indigenous to Mexico, Central, or South America) beyond the level specified by the LAS language requirement, or the equivalent as demonstrated by special examination. At the end of their language study, all students are urged to take an oral proficiency test based on ACTFL guidelines.		3
Total Hours		33

<sup>1</sup> Normally taken in the freshman or sophomore year.

<sup>2</sup> Normally taken in the senior year.

## Learning Outcomes: Latin American Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

1. **Strong Declarative Knowledge Base** on Latin American Culture and its position in the broader global world
  - Students should understand the diversity and complexity of Latin American cultures and languages and their historical, cultural, political, and economic development.
  - Students should develop appropriate expertise on a sub-region or culture of Latin America and/or a thematic topic related to Latin America
  - Students should also be able to place their knowledge of Latin American in a broader global context.
2. **Critical Thinking**
  - Students should be able to critically and reasonably evaluate and formulate claims about social, cultural, political, historic, and economic issues related to Latin America in both academic and popular media.
  - Students should be able to critically and reasonably evaluate and apply their knowledge to real world problems.
3. **Effective Written Communication**
  - Students should be able to identify research problems, approach these problems with appropriate methodologies and effectively communicate the results. They should be able to apply their knowledge to real world situations.
  - Students should be able to effectively communicate their knowledge of Latin American culture and language to a broad non-specialist audience.
4. **Advanced Proficiency in Spanish or Portuguese OR Intermediate – High proficiency in an Indigenous Latin American Language** - This will be assessed through completion of appropriate level course work and through OPI or equivalent testing.

## Latina/Latino Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latina/Latino Studies

**department website:** <https://lls.illinois.edu/>  
**department faculty:** Latina/Latino Faculty (<https://lls.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**email:** [lls-studies@illinois.edu](mailto:lls-studies@illinois.edu) or [aprodrig@illinois.edu](mailto:aprodrig@illinois.edu)

The Undergraduate Major in Latina/Latino Studies explores the experiences and lives of Latinas/os in the context of the United States. The major provides a broad and deep approach to theory, research, and multidisciplinary study of the Latina/o experience. Students will complete 34 hours of required and elective courses, and a minimum of 18 hours of supporting course work or a minor in an area outside of the major. Students majoring in Latina/Latino Studies receive excellent preparation for graduate study or careers in education, social and welfare policy, counseling, law, public policy, and other fields that address Latino issues.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latina/Latino Studies

**Advising:** The Department of Latina/Latino Studies provides advising for students. Students will also be assigned a faculty advisor to help plan a coherent program in their selected area of study.

**Departmental distinction:** To graduate with distinction in Latina/Latino Studies, a student must have at least a 3.25 overall GPA, a minimum 3.5 GPA in the major, and complete a senior honors thesis. To complete the honors thesis requires a student to enroll in four hours of LLS 495, normally distributed evenly across two consecutive semesters. Students graduating with at least a 3.5 GPA in the major (and meeting the other conditions) will be awarded Distinction; those with at least a 3.7 GPA in the major will be given High Distinction.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** 52 hours required, including 34 hours in Latina/Latino Studies courses. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
LLS 100	Intro Latina/Latino Studies	3
LLS 385	Theory and Methods in LLS	3

### Thematic Areas

Students must take two courses in each of the following three areas:

A. Literature, Media and Culture		6
LLS 240	Latina/o Popular Culture	
LLS 242	Intro to Latina/o Literature	
LLS 250	Latina/os on the Bronze Screen	
LLS 259	Latina/o Anthropology	
LLS 301	19thC US Latina/o Lit-ACP	
LLS 357	Literatures of the Displaced	
LLS 360	Contemporary US Latina/o Lit	
LLS 365	Chicana/Latina Autobiography, Memoir, Testimonio	
LLS 375	Latina/o Media in the US	
LLS 410	Writing Latina/o Chicago	
LLS 435	Commodifying Difference	
LLS 458	Latina/o Performance	

LLS 472	Border Latina, Latino Cultures	
B. Race, Gender, and Sexuality		6
LLS 230	Latina/o Genders & Sexualities	
LLS 235	Race and the Politics of Reproduction	
LLS 265	Politics of Hip Hop	
LLS 320	Gender & Latina/o Migration	
LLS 355	Race and Mixed Race	
LLS 387	Race, Gender and the Body	
LLS 392	Chicanas&Latinas: Self&Society	
LLS 442	Latina Literature	
LLS 465	Race, Sex, and Deviance	
LLS 479	Race, Medicine, and Society	
C. History, Politics, and Society		6
LLS 220	Latina/o Migration	
LLS 238	Latina/o Social Movements	
LLS 278	Mapping Latina/o Inequalities	
LLS 279	Mexican-American History	
LLS 280	Caribbean Latina/o Migration	
LLS 343	Criminalization and Punishment	
LLS 368	Latinas/os & Public Policy	
LLS 370	Latina/o Ethnography	
LLS 379	Latina/os and the City	
LLS 382	Race and Migration in Chicago	
LLS 468	Latinas/os & the Law	
LLS 473	Immigration, Health & Society	
LLS 490	Research and Writing Seminar	4
	or LLS 495 Senior Honors Thesis	
LLS Electives selected from the list of all LLS and cross-listed LLS classes		6
Supporting coursework chosen in consultation with an advisor; may be a campus approved minor		18
Total Hours		52

## Learning Outcomes: Latina/Latino Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latina/Latino Studies

- 1. Intellectual Reasoning and Knowledge:** Students will become proficient in the field of Latina/Latino Studies, which includes, but is not limited to, interdisciplinary, intersectional, and transnational knowledge about:
  - a. sociohistorical, political, economic and cultural processes that affect Latina/Latino groups in contemporary society;
  - b. Latina/Latino social movements;
  - c. Latina/Latino cultural productions;
  - d. the relationship between class, gender, sexuality, race/ethnicity and migration in the construction of Latina/Latino cultural and racial formations; and
  - e. Latina/Latino Studies theories and methods. Students will learn that Latina/Latino Studies is a body of critical inquiry that encompasses a wide range of topics and objects of study, and that leverages multiple forms of knowledge production.

- 2. Critical and Creative Inquiry:** Students will apply Latina/Latino Studies theories in developing their capacities for critical and creative inquiry. Specifically, students will exercise their oral and written communication skills as they express new ideas and generate projects that build upon Latina/Latino Studies theories and draw from the range of interdisciplinary Latina/Latino Studies methods.
- 3. Self-Reflexivity and Community Engagement:** To help promote effective leadership and community engagement, students will demonstrate self-reflexivity about their ideas as well as about their social and political positions in their classrooms and communities. They will also learn to build and sustain relationships and take leadership towards the elimination of social inequities at the local, national, and global levels.
- 4. Social Awareness and Understanding Power:** Student will recognize that Latina/Latino lives and communities unfold within historically unequal and racialized social, cultural, economic, and political power relations. Students will become familiar with Latina/Latino theories and social movements that consider indigeneity, race, class, gender, sexuality and citizenship to understand and intervene on historical and contemporary power formations.
- 5. Global Consciousness:** Students will understand how complex and interdependent historical and contemporary global forces— environmental, social, cultural, economic, and political— impact and are impacted by Latinas/Latinos. They will learn to apply Latina/Latino Studies critiques to these forces, including but not limited to those related to migration and transnationalism.

This curriculum prepares individuals for positions requiring expertise in formal and non-formal learning and educational settings that do NOT require licensure (becoming a licensed teacher). Students interested in becoming a licensed teacher should consider the licensure program in the majors of Elementary Education, Early Childhood Education, Special Education, or Middle Grades Education.

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take

a set of core courses, as well as coursework in one of the following concentrations:

- Applied Learning Science (p. 246)
- Educational Equality and Cultural Understanding (p. 250)
- Workplace Training and Development (p. 251)
- Digital Environments for Learning, Teaching and Agency (p. 248)

<b>Orientation Seminar</b>		
EDUC 101	Education Orientation Seminar	1

The following degree requirements also meet general education course requirements and must be selected from the campus general education (<https://courses.illinois.edu/>) course list. Selections of core requirements courses should be made in consultation with the adviser.

Code	Title	Hours
<b>Composition</b> <sup>1</sup>		
Composition I		4-6
Advanced Composition		3-4
<b>Quantitative Reasoning</b> <sup>1</sup>		
An approved basic course in statistical methods such as STAT 100, SOC 280, or PSYC 235		3-4
From approved campus list		3
<b>Natural Sciences and Technology</b> <sup>1</sup>		
From approved campus list		6
<b>Humanities and the Arts</b> <sup>1</sup>		
From approved campus list		6
<b>Social and Behavioral Sciences</b> <sup>1</sup>		
From approved campus list (must include PSYC 100)		6
<b>Cultural Studies</b> <sup>1</sup>		
From Western Culture(s) approved campus list		3
From U.S. Minority Culture(s) approved campus list		3
From Non-Western Culture(s) approved campus list		3
<b>Language other than English</b>		
Three years of one language other than English in high school or completion of the third semester of college-level language		0-12
<b>Core Requirements</b> <sup>2</sup>		
Choose 2 from the following Education Foundations:		6-7

EPS 201, Foundations of Education; EPS 202, Foundations of Education Advanced Composition; or EDUC 201, Identity and Difference in Edu

EPSY 220	Career Theory and Practice	
EPSY 236	Child Development in Education	
SPED 117	The Culture of Disability	
Choose 6 from the following, with at least 2 in each area:		18-20
<b>Learning and Instruction:</b>		
CI 210	Introduction to Digital Learning Environments	
CI 415	Language Varieties, Cultures and Learning	
EPOL 350	Social Learning and Knowledge	
EPSY 201	Educational Psychology	
EPSY 400	Psychology of Learning in Education	
EPSY 401	Child Language and Education	
<b>Leadership in a Diverse Global Economy:</b>		
EDUC 202	Social Justice, School and Society <sup>3</sup>	
EPS 310	Race and Cultural Diversity	
EPS 402	Asian American Education <sup>3</sup>	
EPS 405	Historical and Social Barriers	
HRD 414	Facilitation Skills	
HRD 415	Diversity in the Workplace	

<b>Concentration</b> <sup>2</sup>		24
Students must complete 24 credit hours within one of the following areas of concentration: 1) Applied Learning Science, 2) Educational Equality and Cultural Understanding, 3) Workplace Training and Development, or 4) Digital Environments for Learning, Teaching and Agency.		

<b>Electives</b>		12-31
Electives (including minor, if taken)		
<b>Total Hours</b>		<b>120</b>

Total minimum hours include general education, language other than English, concentration and core credits.

- <sup>1</sup> General Education Requirement. Courses must be selected from the Campus General Education Approved Course List (<https://courses.illinois.edu/>).
- <sup>2</sup> Concentration and Core Requirement courses found on the General Education Approved Course List (<https://courses.illinois.edu/>) may also be credited toward the General Education requirements.
- <sup>3</sup> Courses except EDUC 202 and EPS 402 may be counted toward both the Core and Concentration requirements.

## Learning & Education Studies: Applied Learning Science, BS (AppLeS)

for the degree of Bachelor of Science Major in Learning & Education Studies, Applied Learning Science concentration

**assistant dean for academic affairs: Kathy Ryan**  
**department office: 110 Education Building**  
**1310 South Sixth**  
**Champaign, IL 61820**

**phone: (217) 333-2800**

**email: saao@education.illinois.edu**

**program website:** Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

**faculty:** College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)

**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

**college website:** <https://education.illinois.edu/>

The undergraduate non-licensure concentration in Applied Learning Science (AppLeS) will provide a thorough grounding in the learning sciences through an innovative program that includes courses in learning, language understanding, quantitative reasoning and statistics, designing learning environments, and human performance. The program culminates in a capstone course in which the student works on a research project under the direction of one or more faculty members. Graduating students will have a solid preparation for graduate study in this emerging area of scholarship (such as the new Learning Science and Engineering Professional MS Program at Carnegie-Mellon University), as well as in education, psychology, business, law, and other more traditional areas of study. In addition, through their coursework and research experience, international and domestic students will be prepared for a wide range of current (and future) jobs that require expertise in design, analysis, and evaluation of learning environments, as teachers, policy makers, analysts, and professionals in government, healthcare, business, and nonprofit organizations.

Students in the AppLeS concentration will:

- Explore theories, phenomena, and methods in the learning sciences (i.e., the biological, cognitive, dispositional, and sociocultural underpinnings of learning).
- Identify general principles of learning, their contextual variations, and how they can be applied in the classroom, at work and home, and diverse settings of daily life.
- Acquire flexible learning and problem solving skills that can be broadly applied in diverse contexts, including research, quantitative reasoning, communication, and collaborative problem solving.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested minors are: Communication, Computer Science, Informatics, Linguistics, Mathematics or Statistics.

### ***for the degree of Bachelor of Science Major in Learning & Education Studies, Applied Learning Sciences concentration***

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

## Learning & Education Studies: Digital Environments for Learning, Teaching & Agency, BS (DELTA)

*for the degree of Bachelor of Science Major in Learning & Education Studies, Digital Environments for Learning, Teaching & Agency concentration*

**assistant dean for academic affairs: Kathy Ryan**  
**department office: 110 Education Building**  
**1310 South Sixth**  
**Champaign, IL 61820**

**phone: (217) 333-2800**

**email: saao@education.illinois.edu**

**program website: Learning and Education Studies** (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

**faculty: College of Education Faculty** (<https://education.illinois.edu/faculty-finder/>)

**overview of college admissions & requirements: U** (<https://admissions.illinois.edu/myillini-apply/>) **Undergraduate Admissions** (<https://education.illinois.edu/programs/undergrad/>)

**college website: <https://education.illinois.edu/>**

The undergraduate non-licensure concentration in Digital Environments for Learning, Teaching, and Agency (DELTA) will provide students with a strong background in the design, development and implementation of technology for a range of learning environments. Courses will introduce students to learning theory, designing and using technology to support learning, and issues encountered when deploying technology to schools, workplaces and informal learning spaces. The program culminates in a capstone course in which students work on a design project under the direction of one or more faculty members.

Graduating students will be prepared to engage with various stakeholders interested in using technology to support learning in a range of different contexts. Examples include selecting and deploying appropriate technology to support pedagogic goals for schools, corporations, or informal learning environments such as museums and afterschool clubs, designing educational games or toys and educational application development. One of the main objectives for students in DELTA is to build new ways to support learning, and prepare them for leadership roles in formal and informal environments, technology design and implementation strategies. They will also be prepared to pursue graduate study in a range of programs, such as educational technology, learning sciences, or instructional technology at the University of Illinois or elsewhere.

Students are encouraged to pursue a relevant minor or coherent set of electives from several related departments. Suggested minors include: computer science, communication, psychology, informatics, media and cinema studies or sociology. Students may also consider a minor in a specific content area from the arts and sciences to develop expertise in a particular field.

The DELTA concentration consists of 24 hours of course work. Students are required to take a minimum of two foundations courses, three core

courses and three elective courses. The core courses are designed to ensure students leave the program with foundational knowledge and skills necessary to design, develop, implement, manage, and evaluate digital environments. The elective courses allow students to tailor the concentration to fit individual career goals and areas of interest. Students should take the foundation course *Introduction to Digital Environments* in the first semester they join DELTA. Similarly, the *Capstone Research Project* should be taken in the last semester after the majority of DELTA-related course work is complete.

### **for the degree of Bachelor of Science Major in Learning & Education Studies, Digital Environments for Learning, Teaching & Agency concentration**

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

## Learning & Education Studies: Educational Equality & Cultural Understanding, BS

*for the degree of Bachelor of Science Major in Learning & Education Studies, Educational Equality & Cultural Understanding concentration*

**assistant dean for academic affairs: Kathy Ryan**  
**department office: 110 Education Building**  
**1310 South Sixth**  
**Champaign, IL 61820**

**phone: (217) 333-2800**

**email: saao@education.illinois.edu**

**program website:** Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

**faculty:** College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)

**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

**college website:** <https://education.illinois.edu/>

This undergraduate non-licensure concentration will prepare students to better understand the role of education in enabling equality and cultural understanding in domestic and international perspectives. Focusing on equality, diversity, and cultural understanding will give students a unique perspective on the historical place of education in both challenging inequities and helping to justify social divisions. Understanding how education as an institution operates to perpetuate social and economic stratification will give students a perspective on the challenges of creating a more equitable distribution of education. Classes will cover a wide range of disciplinary approaches, including history, social science, educational policy analysis, and theory. Students will understand the contemporary and historical barriers to the distribution of education and examine recent human rights-based demands for extending education

to people of all social classes, regions, ethnicity, language groups, and genders.

Knowing how equity, social justice, and cultural understanding are enabled through education requires an in-depth understanding of domestic and international contexts. Introductory courses will cover basic definitions of educational justice and educational equality, survey international minorities in the United States or minorities in other countries in relationship to education, and explore political, economic, and social contexts for education.

Intermediary classes will invite students to apply their basic understanding of such processes to more local and detailed contexts, like shifts in the U.S. that have extended public schooling and higher education opportunities to historically marginalized populations such as people of color, immigrants, women and citizens from low socioeconomic status. Advanced classes will introduce students to the theoretical approaches to studying social justice and difference, including Critical Race Theory, transnational and global theory, and globalized critical pedagogy.

These courses will be designed to appeal to international and domestic students seeking employment in both the United States and international educational settings, including teaching English as a second language.

In addition, understanding the role of education in fostering the expansion of universal human rights will enable students interested in international business and NGOs to explore the problems and potentials of policies intent on improving conditions in the United States and abroad. As all areas of study and trade are increasingly situated in transnational networks, the concentration in Educational Equality and Cultural Understanding provides a firm grounding on key issues of rights, obligations, and new institutions that help maintain commitments for educational equity and justice under these new circumstances.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested minors are: English as a Second Language, African-American Studies, Asian American Studies, Global Studies, Latina/Latino Studies, South Asian Studies, Gender and Women's Studies, or LGBT/Queer Studies.

*for the degree of Bachelor of Science Major in Learning & Education Studies, Educational Equality & Cultural Understanding concentration*

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

**college website:** <https://education.illinois.edu/>

Workplace Training and Development is a non-licensure undergraduate concentration. The concentration will provide international and domestic students with the broad sets of knowledge and skills necessary to develop, deliver, and evaluate training and development programs across workplace settings, such as businesses and industries, two-year post-secondary schools, or community and government agencies.

In addition, it will serve a growing demand for graduates who have an interest in helping adults learn about and seek to improve organizational performance. The demand comes from a range of business sectors, specifically health care, manufacturing, and logistics.

Students in this concentration will receive an overview of the human resource development field and specifically focus on the training and development aspects of the field. Students will acquire the knowledge and practical skills, in such areas as job and task analysis, training program design, and training program coordination. Students will also be introduced to learning management systems, which most organizations now use to track the learning progress of their employees.

An internship is recommended during the program, but it is not required. For internship credit, students can register in HRD 491 Professional Skill Development before the internship starts. At the end of the internship, a letter from the internship supervisor is submitted to the Workplace Training and Development departmental contact.

The concentration appeals to the following potential students:

- Individuals who wish to combine the study of organizations and learning in their academic studies;
- Individuals who currently work in a technical role, such as a lab tech or nurse in health care, and who want to become more involved in training others about their occupation;
- Individuals with an associates degree who work as information technology specialists and who are asked to develop and deliver training for others;
- Individuals who wish to work in the business and industry outreach departments of community colleges;
- Individuals who serve or wish to serve as instructors in post-secondary technical education schools;
- Individuals who wish to serve as a staff member in the human resource development department of an organization; and
- Individuals who wish to prepare for future graduate study in human resource development.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested

minors are: Business, Leadership, Communication, Technology and Management or Global Labor Studies.

### **for the degree of Bachelor of Science Major in Learning & Education Studies, Workplace Training & Development concentration**

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

## Learning Outcomes: Learning & Education Studies, BS

Learning Outcomes for the degree of Bachelor of Science Major in Learning & Education Studies

1. Students will acquire deep knowledge of content in the workplace.
2. Students will effectively learn the skills and disposition to develop, plan, and implement culturally relevant and responsive outcomes in their respective professions and civic engagements.
3. Students will use data to drive decisions and solve problems in their professional careers.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices).

## Linguistics, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics

**college website:** <https://las.illinois.edu/>

The Department of Linguistics offers undergraduate instruction of four types: courses in linguistics, in English as an International Language, English as a Second Language, and in non-Western languages.

Linguistics courses focus on empirical and theoretical issues connected with how languages are structured, how they are used, and how they change through time. These courses are of interest not only to linguistics majors, but to students in any field where the analysis of languages is important: anthropology, speech and hearing science, psychology, philosophy, computer science, foreign languages, and others.

English as an International Language courses are concerned with the teaching of English to speakers of other languages, and are useful to any students planning a career in language teaching.

English as a Second Language courses are for students whose first language is not English, to build up skills in speaking, understanding, reading, and writing English.

Non-Western Language courses build up skills in speaking, listening, reading and writing a specific language; familiarize students with

literatures and cultures connected with the language; and examine linguistic issues peculiar to the language itself. These courses are of interest to students planning international careers, or simply desiring to broaden their perspective and learn about a different language and culture. Languages offered by the department are: African Languages (Bamana, Lingala, Swahili, Wolof, and Zulu), Arabic, Hindi, Modern Greek, Persian, Sanskrit, Turkish.

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Students are strongly encouraged to fulfill the requirements for completing their program with distinction. Candidates for the degree with distinction must register their candidacy with their advisers no later than the end of the second semester of the junior year. They must achieve a grade point average of at least 3.4 for the required 36 hours in linguistics, and register for at least 4 hours of LING 391 - Honors Individual Study, plus submit a senior honors thesis to the Department of Linguistics by the first day of the month preceding the month of graduation.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 50-52 hours.**

**Students must complete 21 hours of coursework at the 300- or 400-level, including at least 12 hours of 300- or 400-level linguistics courses on this campus. These courses may be included in the core courses or electives.**

**Twelve hours of 300- or 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Major core courses:		18
LING 100	Intro to Language Science	
LING 210	Language History	
LING 301	Elements of Syntax	
LING 302	Elements of Phonology	
LING 307	Elmnts Semantics & Pragmatics	
LING 401	Intro to General Phonetics	
Select one of the following:		3
LING 225	Language, Mind, and Brain	
LING 250	American Voices: Linguistic Diversity in the US	
Major electives: 15 hours of Linguistics courses at the 200- to 400-level, chosen in consultation with the student's advisor		15
Students must fulfill the LAS foreign language requirement, and in addition, complete at least 8 hours in a second foreign language. One of these languages must be a non-Western language chosen from the following list or approved in consultation with the student's advisor: American Sign Language, Arabic, Bamana, Basque, Chinese, Hebrew, Hindi/Urdu, Japanese, Korean, Lingala, Persian, Quechua, Sanskrit,		8-10

Swahili, Turkish, Wolof, Zulu. Courses used to complete this requirement may also be used to meet the requirement of "Courses in linguistically relevant areas," below.

Courses in linguistically relevant areas chosen in consultation with the student's advisor. There are two ways of meeting this requirement: 14

A. The courses may come from any of the following disciplines: any foreign language, anthropology, classics, computer science, English, English as an international language, philosophy, psychology, speech and hearing science, communication.

B. Students desiring to specialize in the linguistics of a particular language should complete at least four semesters of instruction in that language beyond the elementary level, and a linguistics course or independent study focusing on the selected language or its language family.

## Learning Outcomes: Linguistics, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics

1. Students will acquire substantial understanding of how languages are structured, including the organization of phonological, morphological, syntactic, and semantic systems; of the ways such systems vary from language to language; and of how they change over time.
2. Students will gain a sense of how languages function: how they are processed psychologically, how they are learned, how they are effectively taught, how they express social identity, and/or how computational and other technologies may be applied to them.
3. Students will learn to think analytically about language, to present and justify analyses systematically, to support claims with sound arguments and empirical evidence, and to evaluate claims about language critically.

## Lyric Theatre, BMA

*for the degree of Bachelor of Musical Arts Major in Lyric Theatre*

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of two concentrations:

Creative Concentration (p. 255)

Performance Concentration (p. 256)

The Bachelor of Musical Arts with a major in Lyric Theatre is an interdisciplinary degree designed for the singer-actor, which incorporates training in dance and theatre in addition to music. This degree requires

students to choose one of two Concentrations: Performance (performer) or Creative (director, choreographer, dramaturg, set designer, composer).

The BMA Lyric Theatre curriculum is formed around courses in music, dance, and theatre. Advanced coursework includes a senior project.

This degree requires a minimum of 129 semester hours of credit for graduation.

For admission requirements for the Bachelor of Musical Arts, please see the School of [Music's Admissions website](#) or contact the Music Admissions Office:

Music Admissions Office  
School of Music  
1114 W. Nevada Street  
Urbana, IL 61801  
Phone: (217) 244-7899  
E-mail: [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)  
(%20musicadmissions@illinois.edu)

## Lyric Theatre: Creative, BMA

for the degree of Bachelor of Musical Arts Major in Lyric Theatre, Creative Concentration

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

In addition to the Music and Lyric Theatre core areas, students who choose the Creative Concentration must also complete a minimum of twelve (12) hours of coursework within the concentration. Students may choose a combination of the below courses in consultation with and approval of their advisor. At least six (6) hours must be taken from the first three (3) courses which deal with the performance of original work. With the other courses, similar type classes may be substituted with the approval of the Lyric Theatre faculty.

**college website:** <https://giesbusiness.illinois.edu/>

The Management Major is designed to enable business students to be leaders and innovators in their work teams and organizations. You'll be trained to analyze and solve managerial problems – be they around people, organizations, or markets - that every organization faces in its day-to-day operations. You'll take courses about leading individuals and teams, designing and managing organizations, effective negotiation, and strategic human resource management. You'll also choose from a variety of electives, including new product development, project management, entrepreneurship, and international business.

*for the degree of Bachelor of Science Major in Management*

Minimum requirements for the major in the Bachelor of Science Degree in Management are:

**Minimum hours required for graduation: 120 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

## Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

## Management: International Business, BS

for the degree of Bachelor of Science Major in Management, International Business Concentration

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

**This program is no longer accepting applications, see Management, BS (p. 257).**

The International Business Concentration is designed to educate and train future business leaders, decision-makers and strategic thinkers to skillfully manage human capital in firms and organizations. It particularly focuses on challenges associated with multinational firms and management in international contexts with different rules and cultures.

for the degree of Bachelor of Science Major in Management, International Business Concentration

**Minimum hours required for graduation: 120 hours.**

### University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

### General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

### Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

### Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
<b>Total Hours</b>		<b>58</b>

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

## Management Major-International Business Concentration

Code	Title	Hours
PSYC 201	Intro to Social Psych (Preferred prerequisite: PSYC 100 or PSYC 103)	3

PS 347	Gov & Pol of Middle East	
PS 353	Gov & Pol of Latin America	
PS 385	Politics of the European Union	
REES 201	Introduction to Eastern Europe	
SPAN 202	Spanish for Business	
Total Hours		27

<sup>1</sup> The Elective Course Lists will be reviewed periodically and new courses may be added. A Management student may substitute a course not on the lists by obtaining consent in advance from the Department of Business Administration Head or designee.

<sup>2</sup> Courses relating to 1) the European Union or other customs unions or 2) the economy, politics or sociology of a specific nation-state or geographical region.

## Learning Outcomes: Management, BS

Learning Outcomes for the degree of Bachelor of Science Major in Management

1. Critical Thinking and Problem Solving Skills
2. Leadership and Teamwork
3. Communication Skills
4. Multicultural Diversity & Managing Business Cross-Culturally
5. Managing Small Business Formation & Growth

## Marketing, BS

*for the degree of Bachelor of Science in Marketing*

**department website:** <https://business.illinois.edu/ba/undergraduate/marketing/>

**department faculty:** Marketing Faculty (<https://business.illinois.edu/ba/directories/marketing/>)

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**college website:** <https://business.illinois.edu/>

**email:** [ba-undergrad@illinois.edu](mailto:ba-undergrad@illinois.edu)

The Marketing student studies those business activities directly related to the process of placing meaningful assortments of goods and services in the hands of the consumer. The Marketing student is concerned with the efficient performance of marketing activities and with their effective coordination with the other operations of the firm. In addition to the Marketing Major's requirements, Business Administration students must also fulfill the Urbana-Champaign campus's General Education requirements and the Gies College of Business's Core Courses requirements (for more detail, refer to the [Gies College of Business Undergraduate Section \(http://catalog.illinois.edu/schools/gies-business/academic-units/\)](http://catalog.illinois.edu/schools/gies-business/academic-units/)).

*for the degree of Bachelor of Science in Marketing*

### Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of

12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

### Minimum hours required for graduation: 120 hours.

## University Composition Requirements

## Learning Outcomes: Marketing, BS

Learning Outcomes for the degree of Bachelor of Science in Marketing

1. Master core concepts that pertain to contemporary marketing practices and technologies.
2. Demonstrate the ability to analyze real-world marketing problems, develop alternative solutions, evaluate the strengths and weaknesses of these solutions and choose and implement a solution.
3. Demonstrate the ability to collaborate and problem-solve in teams, and to collaborate with team members and clients across business functions and disciplines.
4. Cultivate a global mindset – an appreciation, curiosity, and empathy toward other cultures, and a capacity to develop innovative solutions to global as well as local marketing problems.
5. Communicate effectively in writing and orally across all modalities – written, oral, and digital.

## Materials Science & Engineering, BS

for the degree of Bachelor of Science in Materials Science & Engineering

**department website:** <https://matse.illinois.edu>

**department faculty:** Materials Science & Engineering Faculty (<https://matse.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

Materials science and engineering is the basis for all engineering. Improvements in the quality of life require knowledge of the processing and properties of current materials and the design, development and application of new materials. The Materials Science and Engineering (MatSE) curriculum provides an understanding of the underlying principles of synthesis and processing of materials and of the interrelationships between structure, properties, and processing. Students learn how to create advanced materials and systems required, e.g., for flexible electronic displays and photonics that will change communications technologies, for site specific drug delivery, for self-healing materials, for enabling the transition to a hydrogen-based economy, and for more efficient photovoltaics and nuclear systems for energy production. The curriculum uses concepts from both basic physics and chemistry and provides a detailed knowledge of what makes the materials we use every day behave as they do.

Students in the first two years take courses in general areas of science and engineering as well as courses introducing the concepts in MatSE. In the third year, students study the common, central issues related to MatSE. In the senior year, students focus on an area of MatSE of

their greatest interest, providing them with the detailed knowledge to be immediately useful to corporations, become entrepreneurs, or to provide the underpinning knowledge for graduate study. Note: students interested in biomaterials take a specific set of courses to provide them with a background in biology and chemistry while maintaining a strong engineering focus.

for the degree of Bachelor of Science in Materials Science & Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
MSE 183	Freshman Materials Laboratory <sup>2</sup>	1
Total Hours		1

### Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1

## Electives

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>6</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>7</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> This optional course may be used to help meet free elective requirements.
- <sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>4</sup> The replacement of IE 300 with STAT 400 is not allowed for students in the Biomaterials Area unless one of their biomaterials area topical lectures and one of their topical lectures outside the biomaterials area are deemed by the Accreditation Board for Engineering and Technology (ABET) to be an engineering course. The extra hour of credit for STAT 400 may be used to help meet free elective requirements.
- <sup>5</sup> Advanced Composition satisfied by completing MSE 307 and MSE 308.
- <sup>6</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>7</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Materials Science & Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (biomaterials) (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/matse-biomaterials-map/>) and here (nonbiomaterials) (<https://>

grainger.illinois.edu/academics/undergraduate/majors-and-minors/matse-non-biomaterials-map/).

### First Year

	Hours
<b>First Semester</b>	
MSE 182 Introduction to MatSE	2
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research (or General education elective) <sup>2,3</sup>	4-3
Semester Hours	14-13

### Second Semester

MSE 183 <sup>4</sup> Freshman Materials Laboratory	1
MATH 231 Calculus II	3
MATH 225 Introductory Matrix Theory	2
CHEM 104 General Chemistry II	3
CHEM 105 General Chemistry Lab II	1
PHYS 211 University Physics: Mechanics	4
General education elective (or RHET 105) <sup>2,3</sup>	3-4
Semester Hours	17-18

### Second Year

#### First Semester

CS 101 Intro Computing: Engrg Sci	3
MATH 241 Calculus III	4
MSE 201 Phases and Phase Relations	3
PHYS 212 University Physics: Elec Mag	4
General education elective <sup>3</sup>	3
Semester Hours	17

#### Second Semester

ECE 205 Electrical and Electronic Circuits	3
MATH 285 Intro Differential Equations	3
MSE 206 Mechanics for MatSE	4
PHYS 214 Univ Physics: Quantum Physics	2
General education elective <sup>3</sup>	3
Semester Hours	15
Total Hours:	63

## All students except Biomaterials Area

### Third Year

#### First Semester

	Hours
IE 300 Analysis of Data or STAT 400 <sup>5</sup>	3
MSE 307 <sup>6</sup> Materials Laboratory I	3
MSE 401 Thermodynamics of Materials	3
MSE 406 Thermal-Mech Behavior of Matls	3
General education elective <sup>3</sup>	3
Semester Hours	15

#### Second Semester

MSE 304 Electronic Properties of Matls	3
MSE 308 <sup>6</sup> Materials Laboratory II	3
MSE 402 Kinetic Processes in Materials	3
MSE 405 Microstructure Determination	3
Topical lecture (intro level suggested) <sup>7</sup>	3
General education elective <sup>3</sup>	3
Semester Hours	18

### Fourth Year

#### First Semester

Topical lecture courses <sup>7</sup>	6
MSE 404 <sup>9</sup> Laboratory Studies in Materials Science and Engineering	3
Technical elective <sup>8,10</sup>	3
General education elective <sup>3</sup>	3
Free elective <sup>8</sup>	3
Semester Hours	18

#### Second Semester

MSE 395 Materials Design	3
MSE 404 <sup>9</sup> Laboratory Studies in Materials Science and Engineering	3
Topical lecture <sup>7</sup>	3
Technical elective <sup>8,10</sup>	3
Free elective <sup>8</sup>	3
Semester Hours	15

Total Hours: 66

## Biomaterials Area

### Third Year

	Hours
<b>First Semester</b>	
CHEM 232 Elementary Organic Chemistry I	3
MSE 307 <sup>6</sup> Materials Laboratory I	3
MSE 401 Thermodynamics of Materials	3
MSE 406 Thermal-Mech Behavior of Matls	3
MCB 150 Molec Cellular Basis of Life	4
Semester Hours	16

#### Second Semester

MCB 252 Cells, Tissues Development	3
IE 300 Analysis of Data or STAT 400 <sup>5</sup>	3
MSE 308 <sup>6</sup> Materials Laboratory II	3
MSE 402 Kinetic Processes in Materials	3
General education elective <sup>3</sup>	3
Semester Hours	15

### Fourth Year

#### First Semester

MSE 470 Design and Use of Biomaterials	3
MCB 450 Introductory Biochemistry	3
Topical lecture in biomaterials area <sup>7</sup>	2
Topical lecture outside of biomaterials area <sup>7</sup>	3
General education elective <sup>3</sup>	3
Free Elective <sup>8</sup>	3
Semester Hours	17

**Second Semester**

MSE 395	Materials Design	3
MSE 404 <sup>9</sup>	Laboratory Studies in Materials Science and Engineering	3
	Topical lecture in biomaterials area <sup>7</sup>	3
	Topical lecture outside of biomaterials area <sup>7</sup>	3
	General education elective <sup>3</sup>	3
	Free elective <sup>8</sup>	3
Semester Hours		18
Total Hours:		66

Code	Title	Hours
<b>Total Hours all semesters</b>		<b>128</b>

- <sup>1</sup> *MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.*
- <sup>2</sup> *RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.*
- <sup>3</sup> *Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.*
- <sup>4</sup> *This course is highly recommended for freshmen, who may use it to help meet free elective requirements.*
- <sup>5</sup> *The replacement of IE 300 with STAT 400 is not allowed for students in the Biomaterials Area unless one of their biomaterials area topical lectures and one of their topical lectures outside the biomaterials area are deemed by the Accreditation Board for Engineering and Technology (ABET) to be an engineering course. The extra hour of credit for STAT 400 may be used to help meet free elective requirements.*
- <sup>6</sup> *Satisfies the General Education Advanced Composition requirement.*
- <sup>7</sup> *To be selected from list of topical lecture courses (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/topical-lectures/>) established by the department to provide an acceptable level of study in the student's chosen focus area.*
- <sup>8</sup> *During fourth year, strongly recommended is incorporation of one or more of an internship, co-op position, and a research project during summers or an academic semester, or both. For students who intend to continue in graduate school, recommended additionally is the undertaking of a research project (Senior Thesis) in the senior year. The project may take the place of up to 3 hours of technical electives with the remainder counting for free electives.*
- <sup>9</sup> *Each section of MSE 404 is 1.5 hours. Students take 2 unique sections of MSE 404 for 3 hours.*

- <sup>10</sup> *Selected from the departmental list of approved technical electives (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/technical-electives/>).*

## Learning Outcomes: Materials Science & Engineering, BS

Learning outcomes for the degree of Bachelor of Science Major in Materials Science & Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Materials Science & Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

*for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Mathematics & Computer Science*

**Departmental distinction:** To graduate with distinction requires a specified minimum grade point average in all Computer Science and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction. In addition, students must complete at least three semester hours of additional Computer Science or Mathematics courses selected from the following: CS 196, CS 296, CS 397, CS 492, CS 493, CS 499, any CS course numbered 411 or higher, MATH 412, MATH 414, MATH 417, MATH 418, MATH 423, MATH 432, MATH 448, MATH 482, MATH 484, MATH 496.

**NOTE:** A student taking a cross-listed course in this major may designate it as either mathematics or computer science.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

**Requirements**

Code	Title	Hours
CS 100	Freshman Orientation (recommended)	0-1
	Calculus through MATH 241-Calculus III	11-12
MATH 347	Fundamental Mathematics	3
	or MATH 348 Fundamental Mathematics-ACP	
CS 125	Intro to Computer Science	4
CS 126	Software Design Studio	3
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 233	Computer Architecture	4
CS 241	System Programming	4

CS/MATH 357	Numerical Methods I	3
CS 374	Introduction to Algorithms & Models of Computation	4
CS 421	Programming Languages & Compilers	3
CS 457	Numerical Methods II	3
MATH 415	Applied Linear Algebra or MATH 41 Abstract Linear Algebra	3
	400-level mathematics and computer science requirements:	18
Students must select at least six 400-level mathematics and computer science courses, including one from each of the following groups:		
GROUP I		
CS 361	Probability & Statistics for Computer Science (recommended)	
MATH 461	Probability Theory	
STAT 400/ MATH 463	Statistics and Probability I	
GROUP II		
MATH 412	Graph Theory	
MATH 417	Intro to Abstract Algebra	
GROUP III		
MATH 441	Differential Equations	
MATH 446	Applied Complex Variables	
MATH 484	Nonlinear Programming	
GROUP IV		
MATH 444	Elementary Real Analysis	
MATH 447	Real Variables	
GROUP V		
MATH 414	Mathematical Logic	
CS/MATH 473	Algorithms	
CS/MATH 475	Formal Models of Computation	
CS 476	Program Verification	
CS 477	Formal Software Development Methods	
CS 481	Advanced Topics in Stochastic Processes & Applications	
CS 482	Simulation	

**Learning Outcomes: Mathematics & Computer Science, BSLAS**

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics & Computer Science

By the time of graduation, students will have:

**Computer Science:**

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution

- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- A recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice
- An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
- An ability to apply design and development principles in the construction of software systems of varying complexity

**Mathematics:**

- An ability to construct proofs and recognize when proofs are complete
- An ability to use theorems in order to solve problems
- Technical proficiency in calculus and linear algebra

## Mathematics, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics

**department website:** <https://www.math.illinois.edu/>  
**department faculty:** Mathematics Faculty (<https://math.illinois.edu/directory/faculty/>)  
**advising:** Math advising (<https://math.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [mathadvising@illinois.edu](mailto:mathadvising@illinois.edu)

Students in the Mathematics major can choose one of the following to complete the major:

Mathematics major (p. 274)  
 Mathematics major, Applied Mathematics concentration (p. 275)  
 Mathematics major, Graduate Preparation concentration (p. 276)  
 Mathematics major, Mathematics Teaching concentration (p. 277)  
 Mathematics major, Operations Research concentration (p. 278)

Mathematics is a broad discipline that contains a range of areas of specialization within it. The required core courses provide fundamental background for mathematics in general. The concentrations allow the student to broaden this background or begin to specialize. Students must complete the core courses and a concentration.

An entering student in mathematics should have academic preparation to enroll in MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) during the first semester. Admission to MATH 220 (<http://>

[catalog.illinois.edu/search/?P=MATH%20220](http://catalog.illinois.edu/search/?P=MATH%20220)) requires an acceptable ALEKS score. A student should attain grades of B in calculus in order to complete the advanced courses successfully.

### Undergraduate programs in Mathematics

Mathematics, BSLAS (p. 274)

Mathematics & Computer Science, BSLAS (p. 272)

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Mathematics

A Major Plan of Study form, declaring concentration and supporting coursework, must be completed and submitted to the LAS Student Academic Affairs Office except for students in the Teaching of Mathematics concentration. Please complete this form with an advisor in the Mathematics Undergraduate Office within 1-2 semesters of completing MATH 347 or MATH 348.

**Departmental distinction:** Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: normally equates to 46-57 hours including 27-35 hours of mathematics beyond calculus, 3-4 hours of computer science, and 12 hours of supporting coursework. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Required Core Courses</b>		
MATH 241	Calculus III <sup>1</sup>	4
MATH 347	Fundamental Mathematics	3-4
	or MATH 348 Fundamental Mathematics-ACP	
MATH 416	Abstract Linear Algebra <sup>2</sup>	3
MATH 417	Intro to Abstract Algebra	3
	or MATH 427 Honors Abstract Algebra	
MATH 424	Honors Real Analysis <sup>3</sup>	3
	or MATH 44 Elementary Real Analysis	
	or MATH 44 Real Variables	
MATH 461	Probability Theory <sup>4</sup>	3-4
	or STAT 400 Statistics and Probability I	
CS 101	Intro Computing: Engrg & Sci	3-4
	or CS 125 Intro to Computer Science	
	Approved supporting coursework or any minor	12

**Mathematics Courses**

Select a total of two courses from two of the following three lists: 6

**Geometry**

MATH 402 Non Euclidean Geometry

MATH 403	Euclidean Geometry	
MATH 423	Differential Geometry	
MATH 481	Vector and Tensor Analysis	
<b>Differential Equations and Complex Analysis</b>		
MATH 441	Differential Equations	
MATH 446	Applied Complex Variables	
MATH 448	Complex Variables	
<b>Number Theory</b>		
MATH 453	Elementary Theory of Numbers	
Two additional 400- or 500-level Math courses		6
Total Hours		46-49

- <sup>1</sup> Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
- <sup>2</sup> Beginning in Fall 2012, students may not receive credit for both MATH 416 and either ASRM 406(formerly MATH 410) or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of ASRM 406 (formerly MATH 410) or MATH 415.
- <sup>3</sup> If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.
- <sup>4</sup> If STAT 400 is completed, a requirement for the Operations Research concentration has been satisfied.

### Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 11)

Mathematics, BSLAS (p. 274)

Mathematics & Computer Science, BSLAS (p. 272)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics, Mathematics Teaching Concentration

This concentration fulfills state certification requirements to teach high school math (grades 9-12) through the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters, with some students requiring 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their adviser or the Council on Teacher

Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 80-84 hours including 27-29 hours of mathematics beyond calculus, 3-4 hours of computer science, and 39 hours for the Teacher Education Minor in Secondary School Teaching. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours).

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
MATH 220	Calculus or MATH 220 Calculus I	4-5
MATH 231	Calculus II	3
MATH 241	Calculus III <sup>1</sup>	4
Three advanced mathematics courses, including		
MATH 347	Fundamental Mathematics or MATH 348 Fundamental Mathematics-ACP	3-4
<b>Required Core Courses</b>

EDPR 442	Educational Practice in Secondary Education	12
Total Hours		39-40

- <sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.
- <sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Mathematics: Operations Research, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics, Operations Research Concentration

**department website:** <https://math.illinois.edu/>  
**department faculty:** Mathematics Faculty (<https://math.illinois.edu/directory/faculty/>)  
**advising:** Math advising (<https://math.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [mathadvising@illinois.edu](mailto:mathadvising@illinois.edu)

Mathematics is a broad discipline that contains a range of areas of specialization within it. The required core courses provide fundamental background for mathematics in general. The concentrations allow the student to broaden this background or begin to specialize. Students must complete the core courses and a concentration.

An entering student in mathematics should have academic preparation to enroll in MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) during the first semester. Admission to MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) requires an acceptable

ALEKS score. A student should attain grades of B in calculus in order to complete the advanced courses successfully.

### Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 11)

Mathematics, BSLAS (p. 274)

Mathematics & Computer Science, BSLAS (p. 272)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics, Operations Research Concentration

A Major Plan of Study form, declaring concentration and supporting coursework, must be completed and submitted to the LAS Student Academic Affairs Office except for students in the Teaching of Mathematics concentration. Please complete this form with an advisor in the Mathematics Undergraduate Office within 1-2 semesters of completing MATH 347 or MATH 348.

**Departmental distinction:** Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 46-57 hours including 27-35 hours of mathematics beyond calculus, 3-4 hours of computer science, and 12 hours of supporting coursework.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Required Core Courses</b>		
MATH 241	Calculus III <sup>1</sup>	4
MATH 347	Fundamental Mathematics	3-4
	or MATH 348 Fundamental Mathematics-ACP	
MATH 416	Abstract Linear Algebra <sup>2</sup>	3
MATH 417	Intro to Abstract Algebra	3
	or MATH 427 Honors Abstract Algebra	
MATH 424	Honors Real Analysis <sup>3</sup>	3
	or MATH 44 Elementary Real Analysis	
	or MATH 44 Real Variables	
STAT 400	Statistics and Probability I	4
CS 101	Intro Computing: Engrg & Sci	3-4
	or CS 125 Intro to Computer Science	
Approved supporting coursework or any minor		12
<b>Operations Research Courses</b>		
CS 357	Numerical Methods I	3
MATH 412	Graph Theory	3
	or MATH 48 Nonlinear Programming	

STAT 410	Statistics and Probability II	3
	or STAT 420 Methods of Applied Statistics	
MATH 482	Linear Programming	3
Total Hours		47-49

- <sup>1</sup> Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.
- <sup>2</sup> Beginning in Fall 2012, students may not receive credit for both MATH 416 and either ASRM 406 (formerly MATH 410) or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of ASRM 406 (formerly MATH 410) or MATH 415.
- <sup>3</sup> If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.

## Learning Outcomes: Mathematics, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics

1. Ability to construct proofs and recognize when proofs are complete.
2. Ability to use theorems in order to solve problems.
3. Technical proficiency in calculus and linear algebra
4. The ability to apply mathematics; translating real-world problems into mathematical problems and solving them.

## Mechanical Engineering, BS

for the degree of Bachelor of Science in Mechanical Engineering

**department website:** <http://mechse.illinois.edu/>  
**department faculty:** Mechanical Science & Engineering Faculty (<https://mechse.illinois.edu/people/>)  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

Mechanical engineering is one of the most diverse engineering fields available, embracing many subfields and affecting all aspects of our lives. Mechanical engineers work on new machines, products, and processes that hold the promise of better lives for all of us. They are concerned with both technological and economic aspects in the design, development, and use of their products. Today, one of the challenges is to design efficient, low-cost machines and processes that use the fewest possible natural resources to improve the lives of people throughout the world.

In this program (accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org)), engineering design, communication, teamwork, and laboratory experiences are integrated throughout the curriculum from freshman to senior year. The technical portion of the mechanical engineering curriculum is designed as a sequence of increasingly specialized experiences. The entering student's first year is spent mastering the basics of science: math, chemistry, and physics. Building on this base, in the second year students begin to take fundamental engineering courses such as statics, dynamics, basic circuits and electronics, thermodynamics, and strength of materials. By the third year, students are taking specialized mechanical engineering courses

in the subfields of fluid mechanics, heat transfer, dynamic systems and controls, materials, mechanical design, and manufacturing. Finally, during the senior year, students have the opportunity to both broaden and deepen their knowledge of the field through individually chosen technical elective courses. At the end of the curriculum, students take the capstone senior design course where the knowledge and skills they have learned are applied to projects submitted to the department by corporate or faculty sponsors, preparing Mechanical Engineering students for their next leap into industry or graduate school.

for the degree of Bachelor of Science in Mechanical Engineering

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for required Engineering courses and any technical elective courses. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.**  
**Orientation and Professional Development**

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
ME 290	Seminar	0
Total Hours		0

## Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I <sup>2</sup>	1
MATH 221	Calculus I <sup>3</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations <sup>4</sup>	3
MATH 415	Applied Linear Algebra	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
Total Hours		29

## Mechanical Engineering Technical Core

Code	Title	Hours
CS 101	Intro Computing: Engrg & Sci <sup>5</sup>	3
ECE 205	Electrical and Electronic Circuits <sup>6</sup>	3
ECE 206	Electrical and Electronic Circuits Lab	1
ME 170	Computer-Aided Design	3
ME 270	Design for Manufacturability	3
ME 200	Thermodynamics	3

ME 310	Fundamentals of Fluid Dynamics	4
ME 320	Heat Transfer	4
ME 330	Engineering Materials	4
ME 340	Dynamics of Mechanical Systems	3.5
ME 360	Signal Processing	3.5
ME 370	Mechanical Design I	3
ME 371	Mechanical Design II	3
ME 470	Senior Design Project <sup>7</sup>	3
TAM 210	Introduction to Statics	2
TAM 212	Introductory Dynamics <sup>8</sup>	3
TAM 251	Introductory Solid Mechanics	3
Total Hours		52

## Technical Electives

Code	Title	Hours
Science elective(s), chosen from one of the following:		4
CHEM 104	General Chemistry II & CHEM 104 and General Chemistry Lab II <sup>2</sup>	
MCB 150	Molec & Cellular Basis of Life	
PHYS 213	Univ Physics: Thermal Physics & PHYS 214 and Univ Physics: Quantum Physics	
Statistics elective, one course chosen from: <sup>9</sup>		3
IE 300	Analysis of Data	
STAT 400	Statistics and Probability I	
MechSE electives chosen from a departmentally approved list. See list below		6
Technical electives chosen from a departmentally approved list below.		6
AE 352	Aerospace Dynamical Systems	3
AE 402	Orbital Mechanics	3 or 4
AE 403	Spacecraft Attitude Control	3 or 4
AE 410	Computational Aerodynamics	3 or 4
AE 412	Viscous Flow & Heat Transfer	4
AE 416	Applied Aerodynamics	3 or 4
AE 419	Aircraft Flight Mechanics	3 or 4
AE 420	Finite Element Analysis	3 or 4
AE 427	Mechanics of Polymers	3
AE 428	Mechanics of Composites	3
AE 433	Aerospace Propulsion	3 or 4
AE 434	Rocket Propulsion	3 or 4
AE 442	Aerospace Systems Design I	3
AE 443	Aerospace Systems Design II	3
AE 451	Aeroelasticity	3 or 4
AE 454	Systems Dynamics & Control	3 or 4
AE 456	Global Nav Satellite Systems	4
AE 460	Aerodynamics & Propulsion Lab	2
AE 461	Structures & Control Lab	2
AE 482	Introduction to Robotics	4
AE 483	Autonomous Systems Lab	2
AE 497	Independent Study <sup>10</sup>	1 to 4
AE 498	Special Topics (Depending on topic) <sup>11</sup>	1 to 4
ABE 430	Project Management <sup>12</sup>	2
ABE 436	Renewable Energy Systems	3 or 4

ABE 445	Statistical Methods	4
ABE 455	Erosion and Sediment Control	2
ABE 456	Land & Water Resources Engrg	3 or 4
ABE 459	Drainage and Water Management	3 or 4
ABE 463	Electrohydraulic Systems	3
ABE 466	Engineering Off-Road Vehicles	3
ABE 469	Industry-Linked Design Project	4
ABE 474	Indoor Environmental Control	3 or 4
ABE 476	Indoor Air Quality Engineering	4
ABE 483	Engineering Properties of Food Materials	3
ABE 488	Bioprocessing Biomass for Fuel	4
ABE 497	Independent Study <sup>10</sup>	1 to 4
ABE 498	Special Topics <sup>11</sup>	1 to 4
ASRM 410	Investments and Financial Markets	3 or 4
ASRM 461	Loss Models	3
ASRM 469	Casualty Actuarial Mathematics	3 or 4
ASRM 471	Life Contingencies I	4
ASRM 472	Life Contingencies II	3
BIOC 406	Gene Expression & Regulation	3
BIOC 440	Physical Chemistry Principles	4
BIOC 446	Physical Biochemistry	3
BIOC 455	Technqs Biochem & Biotech	4

<b>Total Hours:</b>	<b>128</b>

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). ME 170 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement>.

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/mechanical-map/>).

<b>First Year</b>	
<b>First Semester</b>	
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research or ME 170 <sup>2</sup>	4-3
General education elective <sup>3</sup>	3
<b>Semester Hours</b>	<b>15-14</b>
<b>Second Semester</b>	
MATH 231 Calculus II	3
PHYS 211 University Physics: Mechanics	4
CS 101 Intro Computing: Engrg Sci	3
ME 170 Computer-Aided Design or RHET 105 <sup>2</sup>	3-4
Science electives <sup>4</sup>	4
<b>Semester Hours</b>	<b>17-18</b>

<b>Second Year</b>	
<b>First Semester</b>	
MATH 241 Calculus III	4
PHYS 212 University Physics: Elec Mag	4
TAM 210 Introduction to Statics	2
ME 270 Design for Manufacturability	3
ME 290 Seminar	0

- <sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.
- <sup>4</sup> Science elective(s) – 4 hours required. Choose from CHEM 104 + CHEM 105, MCB 150, or PHYS 213 + PHYS 214. If MCB 150 is taken, then MCB 151 is also recommended. Note that PHYS 213 and PHYS 214 will normally be taken in the fourth semester or later, since they have PHYS 211 and PHYS 212, respectively, as prerequisites, in addition to MATH 241.
- <sup>5</sup> MechSE electives – 6 hours required. Choose from a departmentally approved list of MechSE Electives (<http://mechanical.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives>).
- <sup>6</sup> Statistics elective—3 hours required. Choose either IE 300 or STAT 400.
- <sup>7</sup> Technical electives—6 hours required. Choose from a departmentally approved list of Technical Electives. (<http://mechanical.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives>)

## Learning Outcomes: Mechanical Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Mechanical Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Mechanical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Media & Cinema Studies, BS

for the degree of Bachelor of Science Major in Media & Cinema Studies

**department website:** <https://media.illinois.edu/media-cinema-studies> (<https://media.illinois.edu/media-cinema-studies/>)  
**department faculty:** <https://media.illinois.edu/media-cinema-studies/faculty> (<https://media.illinois.edu/media-cinema-studies/faculty/>)  
**overview of college admissions & requirements:** College of Media (p. 1159)  
**college website:** <https://media.illinois.edu/>

MEDIA AND CINEMA STUDIES (MACS), prepares students with dynamic skills for careers in media, information, creative, and visual industries, as well as informed interaction with everyday media technologies. Majors have the opportunity to participate in original research, mixed media production, internships, study abroad, and public engagement through a transformative learning environment.

### Programs in Cinema Studies

#### Undergraduate Programs:

**major:** Media & Cinema Studies, BS (p. 286)

**minors:** Cinema Studies (p. 458) | Critical Film Production (p. 463) | Media (p. 487)

#### Graduate Programs:

**minor:** Cinema Studies (p. 1093)

for the degree of Bachelor of Science Major in Media & Cinema Studies

To graduate from the media and cinema studies curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade:

Code	Title	Hours
<b>Core Curriculum</b>		<b>16</b>
MACS 203	Contemporary Movies	3
MACS 264	Creative and Information Economies	4
MACS 317	Media History	3
MACS 320	Popular Culture	3
MACS 351	Social Aspects of Media	3
MACS 499	Senior Project <sup>1</sup>	0

<sup>1</sup> Students will take MACS 499 concurrent with a 400-level course to complete a senior project.

Code	Title	Hours
<b>Thematic Areas</b>		<b>15</b>

5 additional courses in at least 2 of the following thematic areas.

In addition, students can declare a specialization by taking 4 courses in 1 thematic area or by completing the requirements of a related certificate program.

#### Cinema Studies

MACS 100	Intro to Popular TV & Movies
MACS 205	Introduction to Documentary

MACS 261 Survey of World Cinema I

MACS 262 Survey of World Cinema II

MACS 321 Film Culture

MACS 361 Film Theory and Criticism

MACS 464 Film Festivals

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Media Industries & Cultures

MACS 100 Intro to Popular TV & Movies

MACS 224 Sportsmedia Technology & Culture

MACS 321 Film Culture

MACS 326 New Media, Culture & Society

MDIA 380

MACS 408 TV Studies

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Difference & Power

MACS 100 Intro to Popular TV & Movies

MACS 326 New Media, Culture & Society

LLS 435 Commodifying Difference

MACS/  
GWS 356 Sex & Gender in Popular Media

MACS/  
AAS 375 Latina/o Media in the US

MACS/  
AFRO 381 Black Women and Film

MACS 389 International Communications

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Science, Technology, and Visualization

MACS 166 Contemporary Media Literacy

MACS 224 Sportsmedia Technology & Culture

MACS 326 New Media, Culture & Society

MACS/  
GWS 345 Digital & Gender Cultures

AGCM 430 Comm in Env Social Movements

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Global Media and Cinema

MACS 261 Survey of World Cinema I

MACS 262 Survey of World Cinema II

MACS 389 International Communications

MACS/  
SLAV 419 Russian & East European Film

MACS/  
SCAN 492 Scandinavian Cinema

MACS/  
GER 493 German Cinema I

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Sports Media

RST 130 Foundations of Sport Mgt

MACS 224 Sportsmedia Technology & Culture

MACS/KIN Case Study: Endless Summer  
346

MACS 408 TV Studies

JOUR 361 Readings in Sports Journalism

See advisor for list of other approved classes or contact the department for approval of other classes.

#### Media Making, Design and Research

MACS 100 Intro to Popular TV & Movies

MACS 166 Contemporary Media Literacy

MACS 323 Studies Film/Media Production

MACS 326 New Media, Culture & Society

MDIA 380

MACS 464 Film Festivals

See list of other approved classes or contact the department for approval of other classes.

Code	Title	Hours
<b>College of Media Electives</b>		<b>36</b>

Students must earn at least 36 hours in the College of Media. Remaining hours are completed with ADV, JOUR, MACS, or MDIA electives.

Code	Title	Hours
<b>Required Area of Study or Minor Outside the College of Media</b>		<b>9</b>

In addition to the courses in the major plan described above, students must complete 9 hours in an approved area outside the College of Media. Approved areas include: African American Studies; American Indian Studies; Anthropology; Art History; Asian American Studies; Business Administration; Communication; Computer Science; Creative Writing; Economics; Food Science and Human Nutrition; Gender and Women's Studies; History; Kinesiology and Community Health; Latina/o Studies; Linguistics; Literature; Natural Resources and Environmental Sciences; Non-English Languages; Philosophy; Political Science; Psychology; Recreation, Sport and Tourism; Regional Area Studies; or Sociology. A university-approved minor may substitute for this requirement. Courses may, if they qualify, also count toward the requirement for advanced hours outside of the College.

Code	Title	Hours
<b>Advanced Hours Requirement</b>		<b>20</b>

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. At least 9 of the 20 hours must be in courses numbered 300 and above.

Code	Title	Hours
<b>Total hours required for graduation</b>		<b>124</b>

## Learning Outcomes: Media & Cinema Studies, BS

Learning outcomes for the degree of Bachelor of Science Major in Media & Cinema Studies

Student Learning Outcomes: Students in Media and Cinema Studies will be able to:

1. Demonstrate a thorough knowledge of media and cinema studies' subject matter areas.
  - a. Students demonstrate a broad knowledge of the field by accurately identifying and defining the subject matter areas of media and cinema studies.
2. Demonstrate a comprehension of foundational media and cinema studies' theories and concepts.
  - a. Students can identify, use, and relate key concepts and frameworks that are central to the field.
3. Demonstrate critical thinking skills.
  - a. Students can reflexively apply concepts and frameworks to promote inquiry, understanding, and solutions.
4. Demonstrate the ability to critically evaluate media representations in relation to social justice issues.
  - a. Students apply methods to demonstrate, through a production-based activity, how representations are connected to social, political, economic, and cultural issues.
5. Demonstrate the ability to work collaboratively to successfully communicate ideas and outcomes of creative research across a range of modalities.
  - a. Students present their senior projects using at least two different platforms.

## Metropolitan Food & Environmental Systems, BS

for the degree of Bachelor of Science Major in Metropolitan Food & Environmental Systems

**department website:** <https://mfst.illinois.edu/>  
**overview of college admissions & requirements:** <https://academics.aces.illinois.edu/prospective-students> (<https://academics.aces.illinois.edu/prospective-students/>)  
**college website:** <https://aces.illinois.edu/>  
**program director:** Megan Dailey, Ph.D., [mdailey5@illinois.edu](mailto:mdailey5@illinois.edu)  
**program office:** 215 Mumford Hall, 1301 W. Gregory Dr., Urbana IL  
**program phone:** (217) 244-5567

The Metropolitan Food & Environmental Systems (MFST) program uses an interdisciplinary approach to understanding and implementing solutions in the area of urban food and environmental systems to ensure the sustainability of readily available nutritious foods for metropolitan populations. The students in this major will learn to understand the science and practice of food production and security across urban environmental, economic, social, and health contexts, while maintaining environmental sustainability. Students in this program will be prepared for jobs in impact areas related to food systems, such as government, non-governmental organizations, institutional food buyers, investment firms, financial and insurance companies, industry, retail, and food service. Alternatively, students may choose to pursue post-baccalaureate education, including law school and graduate school in food systems or in specific areas of the food system. Because the MFST curricula includes required training in STEM education, critical thinking, scientific literacy, communication and leadership, students will obtain the skills

necessary to traverse an ever-changing job market and have the freedom to choose from many career-life options.

A minimum of 127 credit hours are required for graduation, including General Education Requirements and the MFST Core Curriculum. Because the core curriculum includes many College of Agricultural, Consumer and Environmental Sciences (ACES) departmental course requirements, the students in MFST have the unique opportunity to minor in many of the ACES departments or to delve deeper into a food system area of interest in addition to the core courses, including (but not limited to) advanced nutrition, plant or animal production, food processing, food safety, environmental sustainability, climate change, or landscape architecture.

for the degree of Bachelor of Science Major in Metropolitan Food & Environmental Systems

### Prescribed Courses including Campus General Education

Code	Title	Hours
Composition I		4
RHET 105	Writing and Research	
Advanced Composition		3
LEAD 230	Leadership Communications	
Cultural Studies		9
LEAD 340	Leadership Ethics & Society: Addressing Contemporary Challenges (US Minority)	
ACE 251	The World Food Economy (Non-Western) or CPSC 116 Global Food Production Web	
Western - select one course from campus approved list		
Humanities & the Arts		6
TSM 311	Humanity in the Food Web	
Select one course from campus approved list		
Natural Science and Technology		8
CHEM 102	General Chemistry I & CHEM 103 and General Chemistry Lab I	
CHEM 104	General Chemistry II & CHEM 104 and General Chemistry Lab II	
Quantitative Reasoning I		3-5
Select one course from campus approved list		
Quantitative Reasoning II		3-4
ACE 261	Applied Statistical Methods or CPSC Intro to Applied Statistics	
Social & Behavioral Sciences		7
ACE 100	Introduction to Applied Microeconomics	4
ACE 255	Economics of Food and Environmental Justice	3

### Core Curriculum

Code	Title	Hours
<b>Required Introductory Courses</b>		<b>6-8</b>
ACES 101	Contemporary Issues in ACES or ACES 201 (ACES Transfer Orientation)	0 or 2
ACES 102	Intro Sustainable Food Systems	3
MFST 101	Experiencing Food Systems	3
<b>Understanding Abiotic-Biotic Interactions Necessary for Food</b>		<b>14-15</b>

ANSC 100	Intro to Animal Sciences	4	ACE 306	Food Law	
CPSC 112	Introduction to Crop Sciences or HORT 100 Introduction to Horticulture	3 or 4	ACE 403	Agricultural Law	
NRES 102	Introduction to NRES	3	ACE 406	Environmental Law	
NRES 201	Introductory Soils	4	ACE 410	Energy Economics	
<b>Human Nutrition</b>			ACE 411	Environment and Development	
FSHN 120	Contemporary Nutrition or FSHN 220 Principles of Nutrition	3	ACE 456	Agr and Food Policies	
<b>Economics I and II</b>			NRES 424	US Environ, Justic & Policy	
ACE 100	Introduction to Applied Microeconomics (fulfills SBS requirement)	4	UP 407	State and Local Public Finance	
ACE 255	Economics of Food and Environmental Justice (fulfills SBS requirement)	3	<b>Technology I - Choose one from the following list:</b>		<b>2-4</b>
<b>Food Production I and II - Choose two from the following list:</b>			ABE 141	ABE Principles: Biological	
ANSC 301	Food Animal Production, Management, and Evaluation		ABE 223	ABE Principles: Machine Syst	
ANSC 309	Meat Production and Marketing (If you take ANSC 309, you must take a 4-hour upper-level course here or from another list)		ABE 224	ABE Principles: Soil & Water	
ANSC 400	Dairy Herd Management		ABE 225	ABE Principles: Bioenvironment	
ANSC 401	Beef Production		ABE 226	ABE Principles: Bioprocessing	
ANSC 402	Sheep Production		ANSC 110	Life With Animals and Biotech	
ANSC 403	Pork Production		CPSC 226	Introduction to Weed Science	
ANSC 404	Poultry Science		CPSC 261	Biotechnology in Agriculture	
CPSC 418	Crop Growth and Management		CPSC 265	Genetic Engineering Lab	
CPSC 437	Principles of Agroecology		CPSC 266	Data in Biology and Agriculture	
HORT 341	Greenhouse Mgmt and Production		TSM 232	Materials and Construction Sys

## Middle Grades Education, BS

for the degree of Bachelor of Science in Middle Grades Education

**department office:** Curriculum & Instruction  
311 Education Building  
1310 South Sixth  
Champaign, IL 61820

**phone:** (217) 244-8286

**department website:** <https://education.illinois.edu/ci> (<http://education.illinois.edu/ci/>)

**department faculty:** Curriculum & Instruction Faculty (<https://education.illinois.edu/faculty-finder/ci/>)

**overview of college admissions & requirements:** College of Education (<https://education.illinois.edu/programs/undergrad/programs-degrees/middle-grades-education/>)

**college website:** <https://education.illinois.edu/> (<http://education.illinois.edu/>)

This program prepares teachers for grades five through eight. A minimum of 120 semester hours is necessary for graduation.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

Students are admitted to Middle Grades Education as freshmen. In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional grade point averages of 2.5 (A=4.0). Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. For teacher education licensure applicable to all curricula, see the Council on Teacher Education.

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

Students in the Middle Grades Education licensure program must complete the Campus General Education Requirements, the courses for one or more concentration (literacy, social sciences, science or math) and the professional education coursework.

for the degree of Bachelor of Science in Middle Grades Education

<b>Total minimum hours for degree</b> <sup>4</sup>		<b>120</b>

<sup>1</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

<sup>2</sup> If seeking the Science concentration, exclusions apply including, but not limited to: Horticulture, Dance and Urban Planning. Must be a science rubric. Consult with adviser for further information.

<sup>3</sup> PSYC 100 is a prerequisite for EPSY 201.

<sup>4</sup> The total hours required for the degree may be higher for students who have not already completed the language other than English requirement.

## Concentration Requirements

Some concentration courses can count towards the general education requirements. Courses in concentrations may not be allowed to count for more than two degree requirements. If you have questions, see your adviser.

Code	Title	Hours
<b>Science Concentration</b>		
CI 402	Teaching Diverse Middle Grade Students (Science Section)	3
Physical Science: Select a minimum of one course from CHEM and one from PHYS		6-9
CHEM 101	Introductory Chemistry or CHEM General Chemistry I 102/103	
CHEM 108	Chemistry, Everyday Phenomena	
CHEM 123	Teaching Elementary & Middle School Chemistry	
PHYS 101	College Physics: Mech & Heat	
PHYS 102	College Physics: E&M & Modern	
PHYS 123	Physics Made Easy	
PHYS 140	How Things Work	
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
Life Science: Complete 6 hours with a minimum of 3 hours from the foundations list.		6-8
<b>Foundations:</b>		
IB 100	Biology in Today's World	
IB 103	Introduction to Plant Biology	
IB 104	Animal Biology	
IB 150	Organismal & Evolutionary Biol	
MCB 100	Introductory Microbiology	
MCB 150	Molec & Cellular Basis of Life	
<b>Applications:</b>		
IB 105	Environmental Biology	
MCB 170	Society and the Brain	
MCB 180	Human Reproduction & Society	

Earth and Space Science: Select one from the following Atmospheric Sciences rubric and one from the following Geology rubric:

ATMS 100	Introduction to Meteorology	6-7
ATMS 120	Severe and Hazardous Weather	
ATMS 201	General Physical Meteorology	
GEOL 107	Physical Geology	
GEOL 117	The Oceans	
GEOL 118	Natural Disasters	

Science Electives: To complete any remaining required hours, select additional courses from the courses listed above.

**Total** **24**

Code	Title	Hours
------	-------	-------

#### Social Science Concentration

CI 402	Teaching Diverse Middle Grade Students (Social Sciences Section)	3
--------	--	---

American History: Select one from the following:

HIST 170	US History to 1877-ACP	3-4
HIST 171	US History to 1877	
HIST 172	US History Since 1877	
HIST 173	US History Since 1877-ACP	
HIST 270	United States History to 1815	
HIST 271	Nineteenth Century America	
HIST 272	Twentieth Century America	

Global or World History: Select one from the following:

HIST 100	Global History	3-4
HIST 140	Western Civ to 1660-ACP	
HIST 141	Western Civ to 1660	
HIST 142	Western Civ Since 1660	
HIST 143	Western Civ Since 1660-ACP	

Select from one of the following Geography courses:

GEOG 101	Global Development&Environment	3-4
GEOG 104	Social and Cultural Geography	
GEOG 106	Geographies of Globalization	
GEOG 210	Social & Environmental Issues	
GEOG 221	Geographies of Global Conflict	

PS 101	Intro to US Gov & Pol	3
--------	-----------------------	---

ECON 102	Microeconomic Principles	3
----------	--------------------------	---

Social Science Electives: To complete any remaining hours, select additional courses from the courses above or in sociology.

**Total** **24**

Code	Title	Hours
------	-------	-------

#### Mathematics Concentration

CI 401	Introductory Teaching in a Diverse Society ( Math Section)	3
--------	--	---

CI 402	Teaching Diverse Middle Grade Students ( Math Section)	3
--------	--	---

Note: Only CI 402, M (3 hours) counts toward ISBE content

MATH 117	Elementary Mathematics	4
----------	------------------------	---

Theory of Numbers: Select one from the following:

MATH 103	Theory of Arithmetic	3-4
----------	----------------------	-----

MATH 453	Elementary Theory of Numbers	
----------	------------------------------	--

Geometry: Select one from the following:

MATH 119	Ideas in Geometry	3-4
MATH 402	Non Euclidean Geometry	
MATH 403	Euclidean Geometry	

Statistics: Select one from the following:

STAT 100	Statistics	3-4
STAT 200	Statistical Analysis	
STAT 400	Statistics and Probability I	
STAT 410	Statistics and Probability II	

Calculus: Select one from the following:

MATH 220	Calculus	4-5
MATH 221	Calculus I	

Math Applications: Select one from the following:

CS 101	Intro Computing: Engrg & Sci	3-4
CS 105	Intro Computing: Non-Tech	
CS 125	Intro to Computer Science	
MATH 125	Elementary Linear Algebra	
MATH 181	A Mathematical World	
MATH 213	Basic Discrete Mathematics	
MATH 231	Calculus II	
MATH 241	Calculus III	
MATH 405	Teacher's Course	
MATH 406	History of Calculus	
MATH 415	Applied Linear Algebra	

**Total: At least one course in the math content categories must be taken for more than the minimum hours to reach the ISBE requirement of 24 content hours.** **27-31**

Code	Title	Hours
------	-------	-------

#### Literacy Concentration

CI 402	Teaching Diverse Middle Grade Students (Eng Lang Arts Section)	3
--------	--	---

Composition I minimum  
3 hours

Advanced course: Select one from the following:

BTW 261	Principles Tech Comm	3
ENGL 481	Composition Theory and Practice	
ENGL 482	Writing Technologies	
RHET 233	Adv Rhetoric & Composition	
WRIT 303	Writing Across Media	

Literature: Select one literature course at the 100 level and a second literature course at the 200 level. Must be an English or Comparative & World Literature rubric.

CI 467	Principles in Teaching Literature to Children and Youth	3
--------	---	---

CI 471	Principles and Practices to Foster Independence in Reading	3
--------	--	---

CI 476	Teaching Elementary and Middle Grade Language Arts	3
--------	--	---

**Total** **24**

## Learning Outcomes: Middle Grades Education, BS

Learning Outcomes for the degree of Bachelor of Science in Middle Grades Education

1. Students will acquire deep knowledge of content in the field of Education
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for elementary students, grades 5-8.
3. Students will use data to drive decisions and solve problems in and out of the classroom.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices).

## Molecular & Cellular Biology, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

**school website:** <https://mcb.illinois.edu/undergrad/>  
**school faculty:** School Faculty (<https://mcb.illinois.edu/people/>)  
**advising:** MCB advising (<https://mcb.illinois.edu/undergrad/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [undergrad@mcb.illinois.edu](mailto:undergrad@mcb.illinois.edu)

The Molecular and Cellular Biology major provides students with a solid preparation in molecular biology, molecular genetics, microbiology, cellular biology, biochemistry, physiology, and structural biology. Students will also acquire a strong background in chemistry, math and physical sciences. After completion of the core curriculum in MCB, students may complete the required advanced course work by taking a variety of MCB courses or by selecting a more focused group of courses in any of the following areas: biochemistry, cells and tissues, developmental biology, infection and immunity, microbiology, genetics, neurobiology and physiology. The MCB Advising Program (MAP) staff is available to help students plan their combination of advanced courses.

For students interested in adding licensure to the BSLAS in Molecular & Cellular Biology, please visit the Biology Teaching page: <http://mcb.illinois.edu/undergrad/advising/teaching/>

**Undergraduate degree programs in Molecular & Cellular Biology**  
 Biochemistry, BS (p. 68)

Molecular & Cellular Biology, BSLAS (p. 293)

Molecular & Cellular Biology Honors Concentration, BSLAS (p. 294)

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

Certain advanced courses may be taken prior to completion of the MCB 250-MCB 253, MCB 354 sequence with permission of an academic advisor. A minimum of 15 hours of 300- or 400-level courses in MCB from the approved list is required.

In addition, undergraduate research (MCB 290, or departmental equivalent) is strongly recommended for students planning to go to graduate school. No more than 10 hours of MCB 290, or departmental equivalent credit may be counted towards the 120 hours required for a degree in MCB.

Students earning a degree in Molecular and Cellular Biology may not also earn a second degree in the Specialized Curriculum in Biochemistry.

Students earning a degree in Molecular and Cellular Biology may not double major in Integrative Biology.

### Distinction

Students in MCB can qualify for Distinction via one of the following:

Distinction for Excellence in Research:

**To be eligible for graduation with Distinction a student must:**

Complete 3 semesters of MCB 290 for 2 credit hours or more each semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator.

**To be eligible for graduation with High Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester of MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee.

**To be eligible for graduation with Highest Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.90 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee. Distinction for Excellence in Academics:

**To be eligible for graduation with Academic Distinction a student must:**

Maintain a major GPA of 3.90 or higher in the MCB major (biology, chemistry, physics and math courses for the MCB major) at the end of their penultimate semester.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: 67-71 hours, including 21 hours of 300- or 400-level courses; 12 hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

At least four additional courses at the 300- to 400-level from the Approved List of Advanced Courses for MCB Majors are also required, including one lab course. ( <a href="http://mcb.illinois.edu/undergrad/courses/advanced/">http://mcb.illinois.edu/undergrad/courses/advanced/</a> )		15-16

## Molecular & Cellular Biology: Honors, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology, Honors Concentration*

**school website:** <https://mcb.illinois.edu/undergrad/>  
**school faculty:** School Faculty (<https://mcb.illinois.edu/people/>)  
**advising:** MCB advising (<https://mcb.illinois.edu/undergrad/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad@mcb.illinois.edu](mailto:undergrad@mcb.illinois.edu)

The Molecular and Cellular Biology Honors Concentration is designed for students whose preparation and interests motivate them to desire a more intensive undergraduate biology experience and to prepare for graduate or professional school. The MCB Honors Concentration is based on the MCB concentration (<http://catalog.illinois.edu/undergraduate/las/academic-units/molecular-cell-bio/molecular-cellular-biology-concentration/>). Students must satisfy all of the requirements for the MCB concentration in addition to the requirements for the MCB Honors Concentration. Students interested in the MCB Honors Concentration (<http://mcb.illinois.edu/undergrad/honors/>) should contact the MCB Honors Concentration coordinator ([shawna@illinois.edu](mailto:shawna@illinois.edu)) during the freshman year for more information.

<sup>1</sup> Students must consult the Honors Coordinator about MCB Honors Option courses. Only MCB 290 may be repeated, to a maximum of twice, although continuing 290 beyond two semesters is encouraged.

## Learning Outcomes: Molecular & Cellular Biology, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

Upon successful completion of the Molecular & Cellular Biology undergraduate curriculum, students will be able to:

- understand and appreciate the diversity of life as it evolved over time by processes of mutation, selection and genetic change.
- illustrate that fundamental structural units define the function of all living things.
- explain that the growth, development, and behavior of organisms are activated through the expression of genetic information in context.
- summarize that biological systems grow and change by processes based upon chemical transformation pathways and are governed by the laws of physics.
- illustrate that living systems are interconnected and interacting across scales of space and time.
- design a scientific process and employ the scientific method, demonstrating that biology is evidence based and grounded in the formal practices of observation, experimentation, and hypothesis testing.
- execute quantitative analysis to interpret biological data.
- construct and utilize predictive models to study and describe complex biological systems.
- apply concepts from other sciences in order to interpret biological phenomena.
- communicate biological concepts and understanding to members of a diverse scientific community as well as to the general public.
- identify social and historical dimensions of biological investigation.

## Music Composition, BMUS

for the degree of Bachelor of Music Major in Music Composition

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

In this major, emphasis may be placed on music composition or on the theory of music. Necessary course adjustments require approval of the composition-theory division.

*for the degree of Bachelor of Music Major in Music Composition*

In this major, emphasis may be placed on music composition or on the theory of music. Necessary course adjustments require approval of the composition-theory division.

**Minimum required major and supporting course work: If the emphasis is on composition, the fourth-year student must present a satisfactory senior recital of original compositions. If the emphasis is on theory, an advanced project ( MUS 299, Thesis, two semesters) approved by the composition-theory division is required in the fourth year.**

### General Education and College Orientation

Code	Title	Hours
<b>Orientation to Arts at Illinois</b>		
FAA 101	Arts at Illinois	1
<b>General Education Requirements</b>		
	Composition I	4
	Advanced Composition	3
	Humanities and the Arts - fulfilled by MUS 313 and MUS 314	6
	Cultural Studies: Western/Comparative Culture(s)	3
	Cultural Studies: Non-Western Culture(s)	3
	Cultural Studies: US Minority Culture(s)	3
	Social and Behavioral Sciences	6
	Quantitative Reasoning I and II	6
	Natural Sciences and Technology	6
	Foreign Language <sup>1</sup>	0-12
	<b>Total Hours</b> <sup>2</sup>	<b>41-53</b>

<sup>1</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

<sup>2</sup> Six hours of general education requirements in the Humanities and the Arts are met by courses required in the BMUS degree (MUS 313 and MUS 314).

### Music Core and Composition-Theory Coursework

MUS 242	Elements of Conducting	2
<b>Composition-Theory Studies Coursework</b>		
MUS 106	Beginning Composition	4
MUS 206	Intermediate Composition	4
MUS 406	Advanced Composition	12
MUS 426	Orchestration	3
An additional 400-level advanced music history course		3
Music Theory Electives <sup>4</sup>		14
French, German, or Italian <sup>5</sup>		8
Electives as needed to total 130 hours		
<b>Total Hours required for graduation</b>		<b>130</b>

<sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.

<sup>2</sup> All students are required to enroll in at least one approved performance ensemble each semester in residence, with a maximum of 16 semester hours of such ensemble applicable to the Bachelor of Music degree. For a listing of approved ensembles, please refer to the Undergraduate Music Handbook.

<sup>3</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173.

<sup>4</sup> The music theory electives for the third and fourth years are to be chosen from MUS 404 (may be repeated to a maximum of six semester hours), MUS 405, MUS 407, MUS 408 (may be repeated to a maximum of six semester hours in addition to MUS 408, sections D or E), MUS 409, and MUS 499 (may be repeated to a maximum of four semester hours; senior standing in music required). If the curricular emphasis is in music theory, the following will apply: juniors will substitute an additional three semester hours of MUS 408 for MUS 406; seniors will take MUS 299 (two semesters), MUS 405, and substitute an additional 400-level music history course for MUS 406. Note: The 14 hours of theory electives include the six hours of two courses that were retired in Fall 2017: MUS 402 and MUS 425.

<sup>5</sup> Students who completed two years of French, German, or Italian in high school have met this requirement. Other languages may be chosen with permission of the composition-theory adviser. Completion of this requirement does not complete the General Education language requirement.

## Learning Outcomes: Music Composition, BMUS

*Learning outcomes for the degree of Bachelor of Music Major in Music Composition*

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

## Music Education, BME

*for the degree of Bachelor of Music Education Major in Music Education*

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of four concentrations:

- Choral Music Concentration (p. 297)
- General Music Concentration (p. 299)
- Instrumental Music Concentration (p. 301)
- Technology Concentration (p. 303)

A minimum of 130 hours of credit is required for graduation. This curriculum prepares its graduates for teaching music in grades kindergarten through twelve. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>). Students

complete a concentration in instrumental (band or strings), choral, technology, or general music education.

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.

All music education students must earn a grade of C- or better in all music and education courses required for licensure.

## Music Education: Choral Music, BME

THEA 454	Sound Design I	3

<sup>1</sup> PSYC 100 is prerequisite to EPSY 201, required in all teacher education programs.

<sup>2</sup> Quantitative Reasoning I is satisfied by students in the Technology concentration selecting CS 105 as a Technique course or elective.

<sup>3</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

<sup>4</sup> At least 19 hours of general education requirements are met by courses required by the BME.

<sup>5</sup> Enrollment in the applied major is normally expected during the first six semesters, 2 semester hours each.

<sup>6</sup> All music education majors are required to participate in an approved ensemble every semester in residence.

<sup>7</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173

<sup>8</sup> Student teaching coursework may be taken for 4-8 credits. Eight hours of student teaching apply toward graduation. Enrolling for at least 12 credits is needed to retain full-time status. You must register for both EDPR 438 and EDPR 442 during the semester of your student teaching. If public school licensure is not desired, the student selects alternative courses totaling 13 semester hours in consultation with the music education advisor, seven semester hours of which must be from the student's applied major, music theory, or music history.

## Choral Music Concentration Requirements

**Code Title Hours**  
**Technique Courses Requirements: 7 credit minimum to be selected with advisor, from Lists A and B.**

### List A: Choose 3 credits (of the 7 total credits for Technique courses) from the list below:

Code	Title	Hours
MUS 140	String Instrument Class	2
MUS 144	Supp WW Inst: Clarinet	.5
MUS 146	Supp WW Inst: Flute	.5
MUS 147	Supp WW Inst: Oboe	.5
MUS 148	Supp WW Inst: Saxophone	.5
MUS 149	Supp WW Inst: Bassoon	.5
MUS 151	Supp Brass Inst: Trumpet	.5

<sup>1</sup> PSYC 100 is prerequisite to EPSY 201, required in all teacher education programs.

<sup>2</sup> Quantitative Reasoning I is satisfied by students in the Technology concentration selecting CS 105 as a Technique course or elective.

<sup>3</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

<sup>4</sup> At least 19 hours of general education requirements are met by courses required by the BME.

<sup>5</sup> Enrollment in the applied major is normally expected during the first six semesters, 2 semester hours each.

<sup>6</sup> All music education majors are required to participate in an approved ensemble every semester in residence.

<sup>7</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173

<sup>8</sup> Student teaching coursework may be taken for 4-8 credits. Eight hours of student teaching apply toward graduation. Enrolling for at least 12 credits is needed to retain full-time status. You must register for both EDPR 438 and EDPR 442 during the semester of your student teaching. If public school licensure is not desired, the student selects alternative courses totaling 13 semester hours in consultation with the music education advisor, seven semester hours of which must be from the student's applied major, music theory, or music history.

## Music Education: Technology, BME

for the degree of Bachelor of Music Education Major in Music Education, Technology Concentration

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

A minimum of 130 hours of credit is required for graduation. This curriculum prepares its graduates for teaching music in grades kindergarten through twelve. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>). Students complete a concentration in instrumental (band or strings), choral, technology, or general music education.

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.

All music education students must earn a grade of C- or better in all music and education courses required for licensure.

for the degree of Bachelor of Music Education Major in Music Education, Technology Concentration

**Minimum required major and supporting course work:** In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.  
**Minimum hours required for graduation: 130 hours.**

## Learning Outcomes: Music Education, BME

*Learning outcomes for the degree of Bachelor of Music Education Major in Music Education*

1. The well prepared music teacher has in-depth understanding of content area knowledge that includes central concepts, methods of inquiry, structures of the discipline, and multiple forms of music literacy.
2. The well prepared music teacher plans and designs instruction based on content area knowledge; diverse styles, genres, and repertoires; diverse student characteristics; student performance data; curriculum goals; and the community context.
3. The well prepared music teacher differentiates instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous musical growth and learning.
4. The well prepared music teacher understands and uses appropriate formative and summative assessments for determining student needs, monitoring student progress, measuring student growth, and evaluating student outcomes.
5. The well prepared music teacher is an ethical and reflective practitioner who promotes a culture of professional inquiry.

## Music, BA

*for the degree of Bachelor of Arts Major in Music*

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

The Bachelor of Arts with a Major in Music is a 120-hour degree that is designed for students who wish to pursue a music degree with curricular flexibility to complete coursework in secondary and complementary areas of study. The BA in Music requires students to select a specific area of study, called an "option." An option consists of advanced music courses and supporting (non-Music) coursework. The coursework is determined in consultation with the student's advisor. Current options include music technology, music theory, composition, and various branches of musicology; or students may work with an advisor to explore alternate options not listed here (music + "your choice").

BA students work with their BA advisor to designate supplemental coursework to suit their interests and long-term goals. Students may indicate a specific area of study during the admissions process; some students may prefer to select an option after completing the first year of the music core. All BA students should designate their option by no later than the start of the spring semester of the sophomore year.

For admission requirements for the Bachelor of Arts in Music, please see the School of Music's Admissions website (<http://www.music.illinois.edu/prospective-students/>) or contact the Music Admissions Office: Music Admissions Office

School of Music: 1114 W. Nevada Street, Room 2014  
 Urbana, IL 61801  
 Phone: (217) 244-7899 | E-mail: [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)

*for the degree of Bachelor of Arts Major in Music*

**Minimum required major and supporting course work: normally equates to 48-50 hours excluding the keyboard skills (MUS 172 and MUS 173) requirement, and includes 37-41 hours in music courses, 29-31 hours in core courses. Students who wish to study voice or an instrument for credit are required to satisfy the instrumental or vocal qualifying audition designed for students outside the School of Music. Credits earned in applied music lessons are generally considered elective.**

Major Plan of Study <sup>3</sup>		
Advanced Music Courses <sup>4</sup>		8-9
Supporting Coursework <sup>5</sup>		11-12
<b>Total hours required for graduation</b>		<b>120</b>

<sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.

<sup>2</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173.

<sup>3</sup> A Major Plan of Study Form must be completed and submitted to the School of Music Undergraduate Academic Advisor (Music Building 2058) before the end of the fifth semester (60-75 hours). Twelve hours of 400-level courses in music must be taken on the Urbana-Champaign campus. Please see your BA Music advisor, or the Undergraduate Academic Advisor, for assistance in completing the form.

<sup>4</sup> Advanced music courses are at the 300- or 400-level. The Senior Project is generally included in this area.

<sup>5</sup> Supporting Coursework is outside the School of Music and is chosen in consultation with an advisor.

## Learning Outcomes: Music, BA

Learning outcomes for the degree of Bachelor of Arts Major in Music

Bachelor of Arts in Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
4. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
5. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
6. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
7. Appreciate how music interacts in communities to enhance and engage social and cultural identities to enrich lifelong learning.

## Computer Science + Music, BS

for the degree of Bachelor of Science in Computer Science and Music

**Computer Science "CS + X" degree information:** <https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs#requirements> (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)

**School of Music website:** <https://music.illinois.edu/>

**Overview of Music Admissions & Requirements:** <https://music.illinois.edu/application-process> (<https://music.illinois.edu/application-process/>)

**Music Admissions email:** [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)

The Bachelor of Science in Computer Science & Music (CS + Music) is designed for students who plan to pursue a career in music technology, as well as students who want to push the state-of-the-art in music composition and explore new avenues of expression. This degree will prepare students for advanced study at the graduate level for many existing programs in music and audio technology, as well as equip them with the proper skills to successfully join and lead a vibrant workforce centered around the creation and distribution of entertainment media through constantly evolving technological platforms.

The CS + Music curriculum provides a broad knowledge of the theory, design, and application of computer systems integrated with the theory, history, and application of music. The curriculum is formed around courses in music, mathematics, science, and computation. Advanced coursework includes either a senior thesis or a senior project. A minimum of 120 hours is required for graduation.

For admission requirements for the Bachelor of Science in CS + Music, please see the School of Music's Admissions website (listed above) or contact the Music Admissions Office:

<b>Total Hours required for graduation</b>		<b>130</b>

- <sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.
- <sup>2</sup> String majors will register for four semester hours of applied music in the first year; thereafter, string majors will register for three semester hours of applied music and one semester hour of MUS 267 in the second, third, and fourth years. Brass majors will register for three semesters hours of applied music and one semester hour of MUS 267 each semester for all four years. All other instrumental majors register for four semester hours of applied music each semester.
- <sup>3</sup> Concurrent registration in MUS 250 is required for all students who register for any of MUS 183-MUS 186 and MUS 483-MUS 486.
- <sup>4</sup> Keyboard majors are required to complete only 6 hours of minor applied music.
- <sup>5</sup> All music majors are required to participate in an approved ensemble every semester in residence. All string majors must audition for the orchestras at the beginning of each fall. For a complete list of approved ensembles, please refer to the Undergraduate Music Handbook.
- <sup>6</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173. Keyboard performance majors demonstrate keyboard competency by successfully completing MUS 454.

## Learning Outcomes: Instrumental Music, BMUS

Learning outcomes for the degree of Bachelor of Music Major in Instrumental Music

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and

awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.

6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

## Jazz Performance, BMUS

for the degree of Bachelor of Music Major in Jazz Performance

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

Students majoring in jazz performance may do so with piano, double bass, saxophone/clarinet, trumpet, trombone, percussion, guitar, or voice as the major instrument.

for the degree of Bachelor of Music Major in Jazz Performance

**Minimum required major and supporting course work: Third- and fourth-year students must present satisfactory public junior and senior recitals as part of the requirements for the Bachelor of Music degree in jazz performance. All students must successfully complete one semester of Conducting, MUS 242.**

<sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.

<sup>2</sup> Students enroll in applied music in the same instrument or in voice each semester. It is strongly recommended that students in this major acquire a thorough practical knowledge of the piano beyond basic keyboard competency as part of the applied music study.

<sup>3</sup> All students are required to enroll in at least one approved performance ensemble each semester in residence, with a maximum of 16 semester hours of such ensemble applicable to the Bachelor of Music degree. For a listing of approved ensembles, please refer to the Undergraduate Music Handbook.

<sup>4</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173.

<sup>5</sup> May not be used to satisfy general education requirements.

<sup>6</sup> Students must complete the equivalent of a fourth-level college foreign language course or demonstrate fourth-level proficiency for graduation. French, German, or Italian is strongly encouraged.

## Learning Outcomes: Musicology, BMUS

*Learning outcomes for the degree of Bachelor of Music Major in Musicology*

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

## Music-Open Studies, BMUS

*for the degree of Bachelor of Music Major in Music-Open Studies*

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The Open Studies major allows students to focus on diverse fields such as music of other cultures, piano pedagogy, music technology, sound engineering, theatre, social or behavioral science, or any other areas of particular interest. Open Studies requires completion of the common requirements for all BMUS degrees and a minimum of 130 semester hours of credit for graduation.

Admission to Open Studies is initiated by petition to a committee of three faculty members, the open studies adviser, and the assistant dean of undergraduate affairs in the College of Fine and Applied Arts. Additional information may be obtained from the:

Music Admissions Office  
 School of Music: 1114 W. Nevada Street, Room 2014  
 Urbana, IL 61801

## Voice, BMUS

for the degree of Bachelor of Music Major in Voice

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

The Voice Performance degree is designed to develop skilled performers in all areas of vocal techniques. Voice majors learn the appropriate stylistic approaches to the vocal literature of various historical periods and also study Italian, French, and German in order to better master the diction of works performed in these languages. There are opportunities to perform onstage throughout the degree program either in solo performance or in group productions with our Lyric Theatre program.

For Jazz Voice, please visit the BMUS-Jazz Performance pages.

for the degree of Bachelor of Music Major in Voice

**Minimum required major and supporting course work: At least eight semester hours each in the Italian, French, and German languages are required for the voice major. A student who has not completed at least two years of Italian in high school should take Italian during the first year. Completion of this requirement does not complete the campus general education language requirement, which is twelve semester hours.**

**Third- and fourth-year students must present satisfactory public junior and senior recitals as part of the requirements for the Vocal Performance Major within the Bachelor of Music degree.**

## Natural Resources & Environmental Sciences, BS

*for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences*

**department website:** <https://nres.illinois.edu/>  
**department faculty:** <https://nres.illinois.edu/directory/faculty/>  
 (<https://nres.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of four concentrations:

Ecosystem Stewardship & Restoration Ecology (p. 314)  
 Environmental Science & Management (p. 316)  
 Fish, Wildlife & Conservation Biology (p. 317)  
 Human Dimensions of the Environment (p. 318)

Designed for students interested in careers leading the conservation, protection, and management of natural and environmental resources

or in pursuing advanced education in one of its many disciplinary areas, the NRES baccalaureate provides a science-based, application-oriented education. The NRES major is unique in its integration of a comprehensive physical, life, and social sciences background with coursework providing the management, decision-making, and analytical knowledge and skills required to solve the world's most pressing problems.

Students in the NRES major begin their studies by taking a set of core courses that provides the background for more focused substantive study at the upper level. The NRES core introduces students to the range of physical, life, and social science content most relevant to their future professions and equips them with tools essential for the discovery, analysis, and application of knowledge important for successful environmental management. NRES students then build upon the core by completing one of four upper-level concentrations. Courses in the concentrations involve focused attention to the theories, data, and analytical tools of a particular set of natural resource and environmental science areas, helping students develop the necessary understanding of the complexities underlying resources management. All students in the major are required to complete a combination of field courses and at least one project-oriented capstone course.

All the concentrations prepare students for graduate study as well as for multiple career paths throughout the public and private sectors. Because of its unique orientation toward integrative application of disciplinary knowledge, the NRES major prepares students for a wide range of careers involving the conservation, protection, and management of natural resources. Many occur within business or government agencies that provide services related to environmental and natural resource management. Other careers are found within social, professional, and advocacy institutions that focus on human impacts and environmental sustainability. The major also prepares students for teaching, research, or other professional activities.

Graduates from the NRES major go on to pursue careers in the direction of environmental education centers; ecological management and restoration; enforcement of laws and regulations; environmental advocacy; environmental consulting; forest and environmental economics; land use analysis and management; law; local, state, and federal government; management of parks, forests and rangelands; plant physiology; policy development and implementation; resource planning and policy analysis; social and environmental impact analysis; soil conservation, science, and testing; technical sales; watershed management; and wildlife conservation and management.

## Natural Resources & Environmental Sciences: Ecosystem Stewardship & Restoration Ecology, BS

*for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Ecosystem Stewardship & Restoration Ecology Concentration*

**department website:** <https://nres.illinois.edu/>  
**department faculty:** <https://nres.illinois.edu/directory/faculty/>  
 (<https://nres.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural,  
 Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

Ecosystem Stewardship and Restoration Ecology emphasizes the ecology, structure, and function of ecosystems, with a particular focus on plant communities and their interactions with the living and non-living parts of ecosystems. It is designed for students interested in the fundamental properties and practices underlying the restoration and management of soil, watershed, wetland, forest, and grassland ecosystems. The concentration includes coursework in the areas of restoration, landscape, and plant ecology, as well as courses focused on specific ecosystems (e.g. streams, wetlands, agroecosystems), invasive species, community ecology, and ecosystem science.

**college website:** <https://aces.illinois.edu/>

Environmental Science and Management emphasizes the biological, chemical, and physical features of the environment. It is designed for students interested in the management of soil and water resources and in understanding how to protect and improve environmental quality. The concentration includes coursework in environmental chemistry, environmental microbiology, ecohydrology, and environmental quality, as well as courses focused more specifically on soil and water sciences.

## Natural Resources & Environmental Sciences: Fish, Wildlife & Conservation Biology, BS

for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Fish, Wildlife & Conservation Biology Concentration

**department website:** <https://nres.illinois.edu/>  
**department faculty:** <https://nres.illinois.edu/directory/faculty>  
 (<https://nres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Fish, Wildlife and Conservation Biology emphasizes the ecology, conservation, and sustainable management of fish and wildlife species and communities. It is designed for students interested in understanding interactions among humans, wild animals, and their habitats. The concentration includes coursework in conservation of threatened and endangered species, management of harvested species, aquatic ecosystem conservation, animal behavior, vertebrate natural history, identification of animals and plants, and advanced ecology.

## Natural Resources & Environmental Sciences: Human Dimensions of the Environment, BS

*for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Human Dimensions of the Environment Concentration*

**department website:** <https://nres.illinois.edu/> (<https://aces.illinois.edu/>)  
**department faculty:** <https://nres.illinois.edu/directory/faculty/> (<https://nres.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)  
**college website:** <https://aces.illinois.edu/>

Human Dimensions of the Environment emphasizes the social scientific interpretations of human-environment interactions at multiple levels, as well as applied policy and management implications. This concentration requires advanced coursework in behavior change science, natural resource economics, environmental and conservation psychology, communications, social impact assessment, environmental policy, and environmental law. Students who have completed degrees in this concentration have gone on to careers in natural resource management, environmental policy, law, advocacy, and education.

## Learning Outcomes: Natural Resources & Environmental Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences (NRES)

Students graduating with the B.S. in NRES should be able to:

1. Understand the scientific method/ways of knowing and critically evaluate information.
2. Integrate principles of biological, chemical, physical, and social sciences and apply them to resource and environmental issues using a systems approach.
3. Understand ecological principles underpinning management of resources, populations, communities, and ecosystems.
4. Use data collection and analysis tools (such as field methods, GIS, modeling, and statistics) to develop plans for managing resource/environmental challenges and adapt plans in response to rapid change.
5. Understand the policies governing resources and the environment and identify social dimensions (stakeholders, interests, trade#offs, synergies, ethical principles) to consider in the development of management plans.
6. Communicate effectively with colleagues, stakeholders, and the public about environmental and resource management issues.
7. Recognize how diverse groups understand the environment, experience positive and negative environmental impacts, and perceive just and equitable solutions.

## Nuclear, Plasma, & Radiological Engineering, BS

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

**department website:** <https://npres.illinois.edu/>

**department faculty:** Nuclear, Plasma, & Radiological Engineering Faculty (<https://npres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

Nuclear, plasma, and radiological engineering is a branch of engineering that is concerned with the development and use of nuclear energy and radiation sources for a wide variety of applications in energy production, in materials processing and science, and for biomedical and industrial uses. Areas of interest include the continued safe and reliable application of fission reactors as central electric power plant

thermal sources; plasma processing applications and the longer term development of fusion reactors for electric power generation; and the use of radiation sources in such areas as materials, biological systems, medical treatment, radiation instrumentation, environmental systems, and activation analysis.

The first two years of the curriculum provide a strong foundation in basic sciences (physics, mathematics, and chemistry), engineering sciences (analytical mechanics and thermodynamics), an introduction to digital computer use, and introduction to nuclear energy systems. Most technical concentration takes place in the third and fourth years of the curriculum according to the educational and career interest of the students. The curriculum provides three professional concentration areas: power, safety and the environment; plasma and fusion science and engineering; and radiological, medical, and instrumentation applications. Each concentration area allows flexibility in developing advanced technical expertise but also requires depth of understanding in the area. The third path meets pre-med requirements and facilitates the minor in bioengineering. To complete this concentration area, students should take certain chemistry and biology courses in the first two years of the curriculum.

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103).**

NPRE 480	Energy and Security	3
NPRE 481	Writing on Technol & Security	3 or 4
NPRE 483	Seminar on Security	1
NPRE 498	Special Topics	1 to 4
Remaining 10 credit hours of technical electives from list below. Technical electives selected from departmentally approved Power, Safety, and the Environment elective course work in Common Engineering and Technical Electives or one of the following subfields: Thermal Sciences; Power and Control Systems; Solid, Fluid and Continuum Mechanics; Computational Sciences and Engineering; Environmental Engineering and Science. The student's academic advisor must approve the chosen course set to insure that a strong program is achieved.		
Common Engineering and Technical Electives		
MATH 415	Applied Linear Algebra	3 or 4

NPRE 199	Undergraduate Open Seminar (May be taken up to 2 times in separate seminars for credit towards concentration)	1
NPRE 470	Fuel Cells & Hydrogen Sources	3
NPRE 475	Wind Power Systems	3 or 4
STAT 400	Statistics and Probability I	4
Thermal Sciences		
ME 320	Heat Transfer	4
ME 400	Energy Conversion Systems	3 or 4
ME 402	Design of Thermal Systems	3 or 4
ME 404	Intermediate Thermodynamics	4
ME 410	Intermediate Gas Dynamics	3 or 4
ME 411	Viscous Flow & Heat Transfer	4
ME 420	Intermediate Heat Transfer	4
Power and Control Systems		
ECE 329	Fields and Waves I	3
ECE 310	Digital Signal Processing	3
ECE 330	Power Ckts & Electromechanics	3
ECE 476	Power System Analysis	3
ECE 486	Control Systems	4
Solid, Fluid and Continuum Mechanics		
TAM 251	Introductory Solid Mechanics	3
TAM 252	Solid Mechanics Design	1
TAM 424	Mechanics of Structural Metals	3 or 4
TAM 435	Intermediate Fluid Mechanics	4
TAM 445	Continuum Mechanics	4
TAM 451	Intermediate Solid Mechanics	4
TAM 456	Experimental Stress Analysis	3
Computational Sciences and Engineering		
CS 357	Numerical Methods I	3
CS 450	Numerical Analysis	3 or 4
ME 471	Finite Element Analysis	3 or 4
Environmental Engineering and Science		
CEE 201	Systems Engrg & Economics	3
CEE 330	Environmental Engineering	3
CEE 437	Water Quality Engineering	3
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 445	Air Quality Modeling	4
CEE 446	Air Quality Engineering	4
CEE 447	Atmospheric Chemistry	4
<b>Plasma and Fusion Science and Engineering</b>		
TAM 335	Introductory Fluid Mechanics	4
or ME 310	Fundamentals of Fluid Dynamics	
NPRE 421	Plasma and Fusion Science	3
NPRE 423	Plasma Laboratory	2
NPRE 429	Plasma Engineering	3

Remaining 13 credit hours of technical electives selected from departmentally approved Plasma and Fusion Science and Engineering elective course work in Common Engineering and Technical Electives or one of the following subfields: Physical Science, Electrical Engineering, or Electronic Materials. The student's academic advisor must approve the chosen course set to ensure that a strong program is achieved.

#### Common Engineering and Technical Electives

MATH 415	Applied Linear Algebra	3 or 4
NPRE 199	Undergraduate Open Seminar	1
NPRE 201	Energy Systems	2 or 3
NPRE 398	Special Topics	1 to 4
NPRE 461	Probabilistic Risk Assessment	3 or 4
NPRE 470	Fuel Cells & Hydrogen Sources	3
NPRE 481	Writing on Technol & Security	3 or 4
NPRE 498	Special Topics	1 to 4
STAT 400	Statistics and Probability I	4

#### Physical Science Electives

CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 435	Electromagnetic Fields I	3
PHYS 436	Electromagnetic Fields II	3
PHYS 460	Condensed Matter Physics	4

#### Electrical Engineering Electives

ECE 329	Fields and Waves I	3
ECE 340	Semiconductor Electronics	3
ECE 441	Physcs & Modeling Semicond Dev	3

## Electives

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> Students may elect to take CS 125 in place of CS 101, and TAM 211 in place of TAM 210. The extra hour will be applied toward the Professional Concentration Area electives.
- <sup>4</sup> Students in the Plasma and Fusion Science Engineering Professional Concentration Area may elect to take PHYS 325 in place of TAM 212. Further, students in this concentration may elect to take both PHYS 325 and PHYS 326 in place of TAM 210 and TAM 212. The extra hour from PHYS 325 and PHYS 326 will be applied toward the Professional Concentration Area electives.
- <sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/npre-map/>).

### First Year

#### First Semester

	Hours
NPRE 100 Orientation to NPRE	1
ENG 100 Engineering Orientation	0
MATH 221 <sup>1</sup> Calculus I	4
CHEM 102 General Chemistry I	3
CHEM 103 General Chemistry Lab I	1
RHET 105 Writing and Research (or Free elective) <sup>2</sup>	4-3
General education elective <sup>3</sup>	3
Semester Hours	16-15

#### Second Semester

MATH 231 Calculus II	3
PHYS 211 University Physics: Mechanics	4
CS 101 <sup>4</sup> Intro Computing: Engrg Sci	3
Free elective (or RHET 105) <sup>2,5</sup>	3-4
General education elective <sup>3</sup>	3
Semester Hours	16-17

### Second Year

#### First Semester

MATH 241 Calculus III	4
-----------------------	---

PHYS 212 University Physics: Elec Mag	4
TAM 210 <sup>4,6</sup> Introduction to Statics	2
Professional Concentration Area elective <sup>7</sup>	3
General education elective <sup>3</sup>	3

---

Semester Hours 16

#### Second Semester

MATH 285 Intro Differential Equations	3
ME 200 Thermodynamics	3
PHYS 214 Univ Physics: Quantum Physics	2
NPRE 247 Modeling Nuclear Energy System	3
TAM 212 <sup>6</sup> Introductory Dynamics	3
General education elective <sup>3</sup>	3

---

Semester Hours 17

### Third Year

#### First Semester

ECE 205 Electrical and Electronic Circuits	3
ECE 206 Electrical and Electronic Circuits Lab	1
NPRE 446 Radiation Interact w/Matter I	3
TAM 335 Introductory Fluid Mechanics	4

or ME 310 (or Professional Concentration Area elective in Radiological, Medical, and Instrumentation Applications) <sup>8</sup>	
General education elective <sup>3</sup>	3
Free elective	3

---

Semester Hours 17

#### Second Semester

NPRE 421 Plasma and Fusion Science	3
(or Professional Concentration Area elective in Radiological, Medical, and Instrumentation Applications) <sup>8</sup>	
NPRE 447 Radiation Interact w/Matter II	3
NPRE 451 NPPE Laboratory	3
NPRE 455 Neutron Diffusion Transport	4
Professional Concentration Area elective <sup>7</sup>	3

---

Semester Hours 16

### Fourth Year

#### First Semester

NPRE 431 Materials in Nuclear Engrg	3
NPRE 448 Nuclear Syst Engrg Design	4
Professional Concentration Area electives <sup>7</sup>	6

General education elective <sup>3</sup>	3
Semester Hours	16
<b>Second Semester</b>	
NPRE 441 Radiation Protection	4
NPRE 458 Design in NPRE	4
Professional Concentration Area electives	6
Semester Hours	14
Total Hours:	128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). Free Electives are taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Students may elect to take CS 125 in place of CS 101, and TAM 211 in place of TAM 210. The extra hour will be applied toward the Professional Concentration Area electives.

<sup>5</sup> Consideration should be given to NPRE 101 as a free elective in the spring semester of the freshman or sophomore year. Alternately, free elective hours provide a means to fulfill requirements for campus minors such as Bioengineering, Computer Science, International Minor in Engineering, Mathematics, or Physics, without excessive additional hours beyond the normal degree requirements.

<sup>6</sup> Students in the Plasma and Fusion Science Engineering Professional Concentration Area may elect to take PHYS 325 in place of TAM 212. This facilitates the minor in Physics. Further, students in this concentration may elect to take both PHYS 325 and PHYS 326 in place of TAM 210 and TAM 212. The extra hour from PHYS 325 and PHYS 326 will be applied toward the Professional Concentration Area electives.

<sup>7</sup> A student must fulfill the NPRE Professional Concentration Area requirement (<https://npre.illinois.edu/academics/undergraduate/technical-electives/>) by taking the required technical courses and technical elective courses in one of the three professional concentration areas: Power, Safety, and the Environment; Plasma and Fusion Science Engineering; or Radiological, Medical, and Instrumentation Applications.

<sup>8</sup> Students in the Power, Safety, and the Environment and in the Plasma and Fusion Science Engineering Professional Concentration Areas must take a fluid mechanics course (TAM 335 or ME 310) and NPRE 421. Students in the Radiological, Medical, and Instrumentation Applications Concentration are not required to take these courses. They may instead use the hours otherwise filled with these courses to take electives in the Radiological, Medical and Instrumentation Applications Areas.

## Learning Outcomes: Nuclear, Plasma, & Radiological Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Nuclear, Plasma, & Radiological Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Nuclear, Plasma, & Radiological Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Operations Management, BS

for the degree of Bachelor of Science in Operations Management

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Operations Management (OM) Major prepares students for careers in manufacturing and service management, operations strategy consulting, purchasing and supply management, project management, and quality management. OM professionals work with most other units in any organization, more so with engineering, human resource management, information systems, and marketing. The OM curriculum focuses on analytical decision-making, logistics, new product development, operations strategy, process improvement, project management, quality control, and supply chain management. Students are trained in ways of developing, making, and delivering goods and services efficiently and effectively – generating value by satisfying ever-changing customer needs while improving profitability.

for the degree of Bachelor of Science in Operations Management

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 120 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

## Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

## Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3

BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
<b>Total Hours</b>		<b>58</b>

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

Code	Title	Hours
BADM 350	IT for Networked Organizations	3
BADM 374	Management Decision Models (Prerequisite: ECON 203)	3
BADM 375	Operations Management	3
BADM 377	Project Management	3
BADM 378	Logistics Management	3
BADM 379	Business Process Improvement	3

**Choose two of the following elective courses <sup>1</sup>**

BADM 329	New Product Development (Prerequisite: BADM 320) <sup>1</sup>	
BADM 352	Database Design and Management <sup>2</sup>	
BADM 353	Info Sys Analysis and Design (Prerequisite: BADM 350)	
BADM 453	Business Intelligence <sup>2</sup>	

**Choose one of the following elective courses: <sup>1</sup>**

BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 445	Small Business Consulting <sup>3</sup>	4
BADM 446	Entrepreneurship: New Venture Creation <sup>3</sup>	4
BADM 199	Undergraduate Open Seminar (section: Business in Action) <sup>3</sup>	1 to 5
<b>Total Hours</b>		<b>27-29</b>

<sup>1</sup> One of the elective course requirements from either sub-list above may be satisfied by an appropriate internship, approved in advance by the Head of the Department of Business Administration or designee.

<sup>2</sup> Only one of these two Advanced Information Systems classes may be used for fulfilling the requirement for the major.

<sup>3</sup> Only one of these three Experiential Learning classes may be used for fulfilling the requirement for the major.

## Learning Outcomes: Operations Management, BS

Learning Outcomes for the degree of Bachelor of Science in Operations Management

1. Disciplinary Competence: Students demonstrate an understanding of fundamental operations concepts, key principles of its management, and relevant analysis approaches.
2. Critical Thinking: Students demonstrate the ability to understand a real-world unstructured problem, and gather necessary information and data to formulate into a structured problem.
3. Problem Solving: Students demonstrate ability to develop quantitative and qualitative analysis framework and solution methods, and appropriately implement them to obtain meaningful solutions.
4. Decision making: Students demonstrate ability to identify strengths and weaknesses of alternative solutions and obtain relevant managerial insights.
5. Communication: Students express themselves logically, persuasively and succinctly & using correct grammar and composition when communicating in oral or written form.

## Philosophy, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences: Major in Philosophy

**department website:** <http://www.philosophy.illinois.edu/>

**department faculty:** Philosophy Faculty (<https://philosophy.illinois.edu/directory/faculty/>)

**advising:** Philosophy advising (<https://philosophy.illinois.edu/academics/undergraduate-studies/advising/>)

**email:** phildept@illinois.edu

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

Philosophy is the oldest, broadest, and most fundamental form of inquiry. Some philosophical questions have to do with the understanding of ourselves and whatever else there may be. Others focus upon the nature of different forms of knowledge and experience, and upon ethical issues

and problems of value. The study of philosophy is one of the most important elements in a good liberal education. It also improves one's ability to think clearly, and to construct, analyze, and criticize arguments of any kind. The major and minor are sponsored by the Department of Philosophy.

for the degree of Bachelor of Arts in Liberal Arts and Sciences: Major in Philosophy

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Students who maintain a GPA  $\geq 3.5$  in the major and receive a grade of A- in PHIL 499 will graduate with distinction.

Students who maintain a GPA  $\geq 3.5$  but  $< 3.7$  in the major and receive a grade of A or better in PHIL 499 will graduate with high distinction.

Students who maintain GPA  $\geq 3.7$  in the major and receive a grade of A or better in PHIL 499 will graduate with highest distinction.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work : normally equates to 44 hours including at least 32 hours of Philosophy courses. Twelve hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
PHIL 202	Symbolic Logic	3
PHIL 203	Ancient Philosophy	4
PHIL 206	Early Modern Philosophy	4
PHIL 421	Ethical Theories	3
PHIL 426	Metaphysics	3
	or PHIL 430 Theory of Knowledge	
PHIL 499	Capstone Seminar	3

At least 12 additional hours of coursework in Philosophy, with 9 of those hours being above the 100-level (including at least two 300- or 400-level courses)

A student may select either of two types of programs of supporting course work and should work out a specific program of the type chosen with the help and approval of a departmental adviser.

Twelve hours minimum. Select from:

Option I: Intensive study in another discipline. Courses normally beyond the 100 level in one other discipline. Most approved minors satisfy this requirement. A second major may also be used to satisfy this requirement

or

Option II: A special program of study built around a unifying theme or topic. Course work outside philosophy in one or more other discipline(s), normally beyond the 100 level.

**Total Hours** **44**

## Learning Outcomes: Philosophy, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Philosophy

The Philosophy Department aims to produce four main learning outcomes.

1. **Philosophical Knowledge:** Students will be familiar with major figures and movements in the history of western philosophy; familiar with central topics, theories, and debates in epistemology and metaphysics, in ethics and value theory, and in logic; and familiar with current developments in professional philosophy.
2. **Philosophical Reading:** Students will develop the ability to analyze persuasive and argumentative prose: identifying the main claims asserted, the reasons alleged to support those claims, and the logical relations between the claims and the reasons, including identifying any gaps in the arguments.
3. **Philosophical Inquiry:** Students will develop the ability to formulate abstract principles in epistemology and metaphysics, in ethics and value theory, in logic, and in related special topic areas in philosophy; they will develop the ability to identify consequences of the principles they formulate; and they will develop the ability to construct arguments for those principles and compare them to competing principles.
4. **Philosophical Writing:** Students will develop the ability to write clearly and with logical precision on a wide range of important issues, including (but not limited to): civic and social challenges at local, national, and global levels; social and cultural issues related to race, indigeneity, gender, class, sexuality, language, and disability; and the ways that complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions.

## Photography, BFA

for the Bachelor of Fine Arts Major in Photography

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

**phone:** (217) 333-6632

**department website:** [School of Art & Design \(https://art.illinois.edu/\)](https://art.illinois.edu/)

**department faculty:** [Art & Design Faculty \(https://art.illinois.edu/index.php/people/faculty-staff/\)](https://art.illinois.edu/index.php/people/faculty-staff/)

**overview of college admissions & requirements:** [Fine & Applied Arts \(http://catalog.illinois.edu/faa/\)](http://catalog.illinois.edu/faa/)

**college website:** <https://faa.illinois.edu/>

The curriculum in photography requires 122 credit hours; its purpose is to encourage the study of photographic media for personal expression, to explore the social implications of pictures, and to develop the skills needed for careers in photography. General art requirements and electives provide a broad foundation in the visual arts, and photography

courses provide a strong background in the history, theory, and practice of photography as art.

A portfolio review is required for admission to the School of Art and Design.

for the Bachelor of Fine Arts Major in Photography

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

### First Year Curriculum

Code	Title	Hours
FAA 101	Arts at Illinois	1
ARTF 101	Contemporary Issues in Art	2
ARTE 101	Art, Design, and Society	2
ARTH 110	Introduction to the History of Art and Visual Culture	3

## Learning Outcomes: Photography, BFA

Learning outcomes for the Bachelor of Fine Arts Major in Photography

Undergraduate Photography graduates will have:

1. acquired the ability to control the procedural construct of an image via camera, software and darkroom techniques.
2. an understanding of and an ability to employ photography's unique narrative structure.
3. acquired a critical appreciation of the historical and social influences of the medium and the ability to evaluate their own work as well that of others via this construct.
4. developed a cohesive body of work demonstrating technical competency and conceptual awareness.

## Physics

**department website:** Physics (<https://physics.illinois.edu>)

**department faculty:** Department of Physics Directory (<https://physics.illinois.edu/people/directory/>)

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** Liberal Arts & Sciences (<https://las.illinois.edu/>)

Students interested in majoring in physics in the College of Liberal Arts & Sciences may choose the Specialized Curriculum in Physics (<http://catalog.illinois.edu/undergraduate/las/physics-bs/>), leading to the Bachelor of Science Major in Physics, or the Physics Major (<http://catalog.illinois.edu/undergraduate/las/physics-bslas/#text>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field.

The Physics Major in the Sciences and Letters Curriculum is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields. Students who are certain that they want to go on to graduate study in physics or in a closely allied field should also consider the LAS Specialized Curriculum in Physics.

## Engineering Physics, BS

for the degree of Bachelor of Science in Engineering Physics

**department website:** Department of Physics (<https://physics.illinois.edu>)

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

The Engineering Physics curriculum is a flexible program that combines a firm foundation in physics and mathematics with the freedom to choose from a diverse range of technical options. Students may select from a list of pre-approved options or design a custom option, subject to departmental approval. The current pre-approved options, requiring 12-22 credit hours of course work, are:

- Acoustical Physics
- Astrophysics
- Atmospheric Science
- Biophysics
- Business
- Computational Physics
- Computer Engineering
- Energy/Sustainability
- Materials Science
- Nuclear Physics
- Optical Physics
- Law
- Professional Physics
- Solid State Electronics
- Pre-Med
- Pre-Law

The course work is selected in consultation with the student's advisor to address an intellectually coherent body of knowledge. The curriculum

is designed to prepare students for a wide variety of technical and professional careers, including graduate study in physics or a closely allied field.

for the degree of Bachelor of Science in Engineering Physics

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>): **2.0**

TGPA is required for Math and Physics courses. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvice/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

## Orientation and Professional Development

## Flexible Physics Core Electives

Code	Title	Hours
Flexible physics core electives. Choose three courses from a departmentally approved list below, with at least one being a lab course (PHYS 401, PHYS 402, PHYS 403, PHYS 404, or PHYS 406). The number of hours varies depending upon the courses chosen.		9-15
PHYS 326	Classical Mechanics II	3
PHYS 401	Classical Physics Lab	3
PHYS 402	Light	3 or 4
PHYS 403	Modern Experimental Physics	4 or 5
PHYS 404	Electronic Circuits	4 or 5
PHYS 406	Acoustical Physics of Music	4
PHYS 427	Thermal & Statistical Physics	4
PHYS 436	Electromagnetic Fields II	3
PHYS 460	Condensed Matter Physics	4
PHYS 470	Subatomic Physics	4
PHYS 475	Introduction to Biophysics	3 or 4
PHYS 487	Quantum Physics II	4

## Mathematics Elective

Code	Title	Hours
Mathematics elective, chosen from a departmentally approved list below:		3
CS 357	Numerical Methods I	3
CS 450	Numerical Analysis	3 or 4
MATH 415	Applied Linear Algebra	3 or 4
MATH 417	Intro to Abstract Algebra	3 or 4
MATH 453	Elementary Theory of Numbers	3 or 4
MATH 412	Graph Theory	3 or 4
MATH 413	Intro to Combinatorics	3 or 4
MATH 414	Mathematical Logic	3 or 4
MATH 482	Linear Programming	3 or 4
MATH 347	Fundamental Mathematics	3
MATH 348	Fundamental Mathematics-ACP	4
MATH 424	Honors Real Analysis	3
MATH 441	Differential Equations	3 or 4
MATH 442	Intro Partial Diff Equations	3 or 4
MATH 444	Elementary Real Analysis	3 or 4
MATH 446	Applied Complex Variables	3 or 4
MATH 447	Real Variables	3 or 4
MATH 484	Nonlinear Programming	3 or 4
MATH 489	Dynamics & Differential Eqns	3 or 4
MATH 402	Non Euclidean Geometry	3 or 4
MATH 403	Euclidean Geometry	3 or 4
MATH 423	Differential Geometry	3 or 4
MATH 432	Set Theory and Topology	3 or 4
MATH 481	Vector and Tensor Analysis	3 or 4
MATH 461	Probability Theory	3 or 4
MATH 463	Statistics and Probability I	4
MATH 450	Numerical Analysis	3 or 4

## Technical/Professional Option Electives

Code	Title	Hours
<b>Technical/professional option electives for the option selected, chosen from a departmentally approved list of Technical/Professional Option Electives (or a list designed for a departmentally approved custom option) below. The number of hours varies depending upon the option chosen.</b>		
<b>Acoustical Physics</b>		
ECE 210	Analog Signal Processing	4
ECE 473	Fund of Engrg Acoustics	3 or 4
Choose 2 classes from the following:		
ECE 310	Digital Signal Processing	3
ECE 417	Multimedia Signal Processing	4
ECE 473	Fund of Engrg Acoustics	3
ECE 402	Electronic Music Synthesis	3
PHYS 402	Light	3 or 4
<b>Astrophysics</b>		
ASTR 210	Introduction to Astrophysics	3
ASTR 350	The Big Bang, Black Holes, and the End of the Universe (OR ASTR 406: Galaxies and the Universe)	3
ASTR 404	Stellar Astrophysics	3
ASTR 405	Planetary Systems	3
ASTR 414	Astronomical Techniques	4
<b>Atmospheric Science</b>		
ATMS 201	General Physical Meteorology	3
Choose 4 classes from the following:		
ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3
ATMS 304	Radiative Transfer-Remote Sens	3
ATMS 305	Computing and Data Analysis	3
ATMS 306	Cloud Physics	3
ATMS 314	Mesoscale Dynamics	3
ATMS 405	Boundary Layer Processes	4
<b>BioPhysics</b>		
CHEM 104	General Chemistry II (OR CHEM 204)	3
CHEM 105	General Chemistry Lab II (OR CHEM 205)	1
CHEM 232	Elementary Organic Chemistry I (OR CHEM 236)	3 or 4
CHEM 233	Elementary Organic Chem Lab I	2
Choose 2 classes from the following:		
BIOP 401	Introduction to Biophysics	3
MCB 450	Introductory Biochemistry (OR MCB 354: Biochemistry and Physical Basis of Life)	3
PHYS 498	Special Topics in Physics (Quantitative Biology)	4
<b>Business</b>		
ENG 471	Seminar Energy & Sustain Engrg	1
IE 420	Financial Engineering	3 or 4
SE 400	Engineering Law	3 or 4
TE 100	Introduction to Innovation, Leadership and Engineering Entrepreneurship	1
TE 360	Lectures in Engineering Entrepreneurship	1
TE 333	Creativity, Innovation, Vision	4
TE 461	Technology Entrepreneurship	3
TE 450	Startups: Incorporation, Funding, Contracts, & Intellectual Property	3
TE 466	High-Tech Venture Marketing	2
<b>Computational Physics</b>		
CS 173	Discrete Structures (OR MATH 213: Basic Discrete Structures)	3
CS 225	Data Structures	4
Choose 3 classes from the following:		
CS 357	Numerical Methods I	3
CS 420	Parallel Progrmg: Sci & Engrg	3 or 4
CS 418	Interactive Computer Graphics	3 or 4
CS 450	Numerical Analysis	3 or 4
PHYS 298	Freshmen/Sophomore Special Topics in Physics (Computational Physics)	2
PHYS 498	Special Topics in Physics (Computation in Physics)	3
<b>Electrical and Computer Engineering</b>		
ECE 110	Introduction to Electronics (OR ECE 205: Electrical and Electronic Circuits)	1 to 3
ECE 120	Introduction to Computing	4
ECE 210	Analog Signal Processing	4
Take 1 class from the following:		
ECE 310	Digital Signal Processing	3
ECE 330	Power Ckts & Electromechanics	3
ECE 385	Digital Systems Laboratory	3
PHYS 404	Electronic Circuits (or ECE 342: Electronic Circuits)	4 or 5
<b>Energy/Sustainability</b>		
ATMS 201	General Physical Meteorology	3
ATMS 302	Atmospheric Dynamics I	3
ECE 205	Electrical and Electronic Circuits	3
ENG 471	Seminar Energy & Sustain Engrg	1
NRES 210	Environmental Economics	3
Choose 1 class from the following:		
ECE 333	Green Electric Energy	3
NPRE 402	Nuclear Power Engineering	3 or 4
NPRE 412	Nuclear Power Econ & Fuel Mgmt	3 or 4
NPRE 470	Fuel Cells & Hydrogen Sources	3
NPRE 475	Wind Power Systems	3 or 4
<b>Materials Science</b>		
MSE 206	Mechanics for MatSE	4
MSE 280	Engineering Materials	3
MSE 401	Thermodynamics of Materials (OR PHYS 427: Thermal & Statistical Physics)	3
Choose 1 class from the following:		
MSE 304	Electronic Properties of Matls	3
MSE 402	Kinetic Processes in Materials	3
MSE 403	Synthesis of Materials	3
MSE 405	Microstructure Determination	3
MSE 406	Thermal-Mech Behavior of Matls	3
<b>Nuclear Physics</b>		
NPRE 402	Nuclear Power Engineering	3 or 4

PHYS 470	Subatomic Physics	4
Choose 2 classes from the following:		
NPRE 435	Radiological Imaging	3
NPRE 441	Radiation Protection	4
NPRE 446	Radiation Interact w/Matter I	3
<b>Optical Physics</b>		
ECE 455	Optical Electronics	3 or 4
ECE 460	Optical Imaging	4
ECE 465	Optical Communications Systems	3
Choose 1 class from the following:		
PHYS 402	Light	3 or 4
PHYS 404	Electronic Circuits	4 or 5
PHYS 436	Electromagnetic Fields II	3
<b>Law</b>		
CMN 211	Business and Professional Communication	3
JOUR 200	Introduction to Journalism	3
LAW 301	Introduction to Law	2 or 3
Choose 2 classes from the following:		
ESE 320	Water Planet, Water Crisis	3
NPRE 480	Energy and Security	3
PS 225	Environmental Politics & Policy	3
PS 273	Environment and Society	3
SE 400	Engineering Law	3 or 4
<b>Professional Option</b>		
MATH 415	Applied Linear Algebra	3 or 4
PHYS 326	Classical Mechanics II	3
PHYS 436	Electromagnetic Fields II	3
PHYS 427	Thermal & Statistical Physics	4
PHYS 487	Quantum Physics II	4
Choose 1 lab from the following (cannot count toward Flexible Physics Core):		
PHYS 401	Classical Physics Lab	3
PHYS 402	Light	3 or 4
PHYS 403	Modern Experimental Physics	4 or 5
PHYS 404	Electronic Circuits	4 or 5
<b>Solid State Electronics</b>		
ECE 110	Introduction to Electronics	1 to 3
ECE 444	IC Device Theory & Fabrication	4
PHYS 404	Electronic Circuits	4 or 5
PHYS 460	Condensed Matter Physics	4
Electives		
<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Free Electives</b>		
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>	6

Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. The number of hours varies depending upon the total hours earned in both the Flexible Physics Core and the Technical/Professional Option and whether or not MATH 415 and PHYS 486 are taken in place of PHYS 485.<sup>6</sup>

**Total Hours of Curriculum to Graduate 128**

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> MATH 285 may be replaced by MATH 441 followed by MATH 442.
- <sup>4</sup> If PHYS 486 is chosen, take prerequisite MATH 415, which may be used to meet free elective requirements. If PHYS 485 is taken, an additional free elective hour or a surplus flexible physics core course hour offsets the one-hour credit differential.
- <sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Engineering Physics

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (with Tech Electives) (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/physics-tech-map/>) and here (Professional Track). (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/physics-prof-map/>)

First Year		Hours
First Semester		
PHYS 110	Physics Careers	0
ENG 100	Engineering Orientation	0
MATH 221	<sup>1,2</sup> Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105	Writing and Research (or General education elective) <sup>3,4</sup>	4-3
General education elective <sup>4</sup>		3
Semester Hours		15-14

Second Semester		Hours
CS 101	Intro Computing: Engrg Sci	3

MATH 231 Calculus II	3
PHYS 211 <sup>2</sup> University Physics: Mechanics	4
General Education elective (or RHET 105) <sup>3,4</sup>	3-4
General Education elective <sup>4</sup>	3
Semester Hours	16-17

**Second Year****First Semester**

MATH 241 Calculus III	4
PHYS 212 University Physics: Elec Mag	4
PHYS 225 Relativity Math Applications	2
General education electives <sup>4</sup>	6
Semester Hours	16

**Second Semester**

MATH 285 <sup>5</sup> Intro Differential Equations	3
PHYS 213 Univ Physics: Thermal Physics	2
PHYS 214 Univ Physics: Quantum Physics	2
PHYS 325 Classical Mechanics I	3
Technical/professional option elective <sup>6</sup>	3

Technical/professional option elective <sup>6</sup>	3
Free elective	3
Semester Hours	18

**Second Semester**

PHYS 485 Atomic Phys Quantum Theory or 486 <sup>10</sup>	3-4
Flexible physics core electives <sup>7,8</sup>	6
Technical/professional option electives <sup>6</sup>	6
Semester Hours	15-16

**Fourth Year****First Semester**

Technical/professional option electives or Free electives <sup>6,11</sup>	10
Flexible physics core electives or Free electives <sup>7,8</sup>	6
Semester Hours	16

**Second Semester**

Free electives	11-10
Technical/professional option electives or Free electives <sup>6,11</sup>	5
Semester Hours	16-15

Total Hours: 128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> Students with proficiency or advanced placement (AP or IB) credit in MATH 221 are strongly encouraged to enroll in MATH 231 and PHYS 211 for the first semester.

<sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>5</sup> MATH 285 may be replaced by MATH 441 followed by MATH 442.

<sup>6</sup> To be chosen from a departmentally approved list of Technical/Professional Option Electives ([http://physics.illinois.edu/current/undergrad/ep\\_options.asp](http://physics.illinois.edu/current/undergrad/ep_options.asp)), in consultation with the student's advisor, for the option elected (or a list fashioned for a departmentally approved custom option). The number of credit hours varies 12-22 depending upon the option chosen.

<sup>7</sup> The flexible physics core requirement consists of three courses chosen from a departmentally approved list of Flexible Physics Core Electives with at least one of them being a lab course, PHYS 401, PHYS 403, PHYS 404, or PHYS 406. The number of credit hours varies 9-15 depending upon the courses chosen.

<sup>8</sup> For courses chosen with more than 3 hours credit, the surplus hours may be used to meet free elective requirements.

<sup>9</sup> To be chosen from a departmentally approved list of Mathematics Electives (<http://physics.illinois.edu/undergrad/math-options.asp>). Any course satisfying the Mathematics Elective cannot be used to satisfy any other requirement.

<sup>10</sup> If PHYS 485 is taken, an additional free elective hour or a surplus flexible physics core course hour offsets the one-hour credit differential.

<sup>11</sup> Taken if needed to complete a technical/professional option requiring more than 12 hours of credit.

## Physics, BS (LAS Specialized Curriculum)

for the degree of Bachelor of Science Major in Physics (LAS Specialized Curriculum)

**department website:** <https://physics.illinois.edu>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** College of Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>  
**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double

major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to plan ahead to allow space in their programs for undergraduate research.

*for the degree of Bachelor of Science Major in Physics (LAS Specialized Curriculum)*

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to take a Freshman Discovery Seminar during the first year fall semester and plan ahead to allow space in their programs for undergraduate research.

**Departmental distinction:** Graduation with distinctions awarded to students who complete 8 additional hours of 300- or 400-level physics courses or advanced courses in closely related technical subjects and who have attained cumulative grade point averages as follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A minimum of 126 hours required for graduation.**

**GPA requirements: Students in the Specialized Curriculum beyond the freshman year must maintain an overall grade point average of at least 2.5 and also a grade point average of 2.5 in all required mathematics and physics courses.**

## Physics, BSLAS (Sciences & Letters)

*for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters)*

**department website:** <https://physics.illinois.edu/>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

The Physics Major (Sciences and Letters) is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields. Students who are certain that they want to go on to graduate study in physics or in a closely allied field should also consider the LAS Specialized Curriculum in Physics. In some cases, however, the greater flexibility of the Science and Letters Curriculum may make it a better choice for graduate school preparation for those who want to pursue a combined major and minor, a double major, or double degrees.

Students in this major must choose an approved elective technical or professional option no later than the end of the second semester of the sophomore year. A set of pre-approved options is available via the departmental web site (<http://physics.illinois.edu/undergrad/las-options.asp>) and from the departmental undergraduate studies office. Students may also design and follow a "custom option" subject to departmental approval. Students completing the Astrophysics option will earn a minor in Astronomy, if appropriate Minor form is filed.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement

in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to plan ahead to allow space in their programs for undergraduate research.

*for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters)*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Graduation with distinction is awarded to students who complete 8 additional hours of 300- or 400- or 500-level physics courses or advanced courses in closely related technical subjects, and who have attained cumulative grade point averages as follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Minimum required major and supporting course work normally equates to 65-73 hours. Twelve hours of 300- and 400-level courses in the major must be taken on this campus. Minimum hours required for graduation: 120 hours.**

**GPA requirements: Students in the major must maintain an overall grade point average of at least 2.0 and also a grade point average of at least 2.0 in all required physics and mathematics courses. To be permitted to enroll in advanced physics courses in this major a student must maintain at least a 2.0 average in all attempts at science and mathematics courses taken at the University of Illinois.**

Code	Title	Hours
Fixed Physics Core		23-24
PHYS 110	Physics Careers	
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 213	Univ Physics: Thermal Physics	
PHYS 214	Univ Physics: Quantum Physics	
PHYS 225	Relativity & Math Applications	
PHYS 325	Classical Mechanics I	
PHYS 435	Electromagnetic Fields I	
PHYS 486	Quantum Physics I or PHYS Atomic Phys & Quantum Theory	
Flexible physics core electives. Choose three courses from a departmentally approved list, with at least one being PHYS 401, PHYS 403, PHYS 404, or pPHYS 406. The number of hours varies depending upon the courses chosen. ( <a href="http://physics.illinois.edu/undergrad/las-sl-flexcore.asp">http://physics.illinois.edu/undergrad/las-sl-flexcore.asp</a> )		9-15
Supporting Technical Courses		21-22
MATH 221	Calculus I <sup>1</sup>	
MATH 231	Calculus II	
MATH 241	Calculus III	
MATH 285	Intro Differential Equations or MATH Intro to Differential Eq Plus	
CHEM 102	General Chemistry I	

CHEM 103 General Chemistry Lab I

CS 101 Intro Computing: Engrg & Sci

Elective Technical or Professional Option 12

A set of technical or professional courses that addresses an intellectually coherent body of knowledge. At least 9 hours should be at the 200-level or higher. Required courses may not be included in the set. Students may select from a list of pre-approved options or design a custom option, subject to departmental approval.

<sup>1</sup> MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

## Physics: Physics Teaching, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters), Physics Teaching Concentration*

**department website:** <https://physics.illinois.edu/>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

This concentration fulfills state certification requirements to teach high school physics (grades 9-12) through the AP/honors level and general science (high school biology, chemistry, earth and space science, and environmental science up to but not including the AP/honors level).

Time to degree completion varies. Minimum time to completion is 8 semesters, some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook for more information.

*for the degree of Bachelor of Science in Liberal Arts and Sciences, Major in Physics (Sciences and Letters), Physics Teaching Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Distinction is determined by a combination of grade point average and achievement in student teaching. The student's practice teaching experience will be evaluated by the departmental honors adviser and the teaching supervisor. Distinction requires a 3.2 grade point average; high distinction, 3.4; highest distinction, 3.6. Students desiring distinction should consult with the departmental honors adviser during the junior year.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Minimum required major and supporting course work normally equates to 65-73 hours. Twelve hours of 300- and 400-level courses in the major must be taken on this campus.**

**Teacher Education requirements: Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching.** See the College of Education section for requirements of the minor (<http://catalog.illinois.edu/undergraduate/education/secondary/>) (39 hours).

**GPA requirements: To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages. <http://www.cote.illinois.edu/>**

**Minimum hours required for graduation: 120 hours.**

Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Plant Biotechnology, BS

for the degree of Bachelor of Science Major in Plant Biotechnology

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

Biotechnology is now a part of our daily lives in applications such as developing nutritionally enhanced foods, enabling sustainable

agricultural production, and engineering plants for industrial and medical purposes. The plant biotechnology major provides an interdisciplinary curriculum integrating the science and practice of crop production through courses in molecular biology, genetics and genomics, biochemistry, plant protection, and data analysis. The program also offers many opportunities to participate in research and internships. This curriculum prepares students for careers in biotechnology or for entrance into graduate and professional schools. Our students pursue employment in scientific research or fields related to the biotechnology enterprise including science policy, patent law, and business development.

## 5 Year BALAS /MA in Political Science and European Union Studies

The Department of Political Science, along with the European Union Center, offers a **5 year BALAS/MA in Political Science and European Union Studies**. In order to be admitted to this degree program, students apply through a joint application process to their BALAS –granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

### Departmental distinction

To be eligible for distinction, a student majoring in Political Science must complete one of the following two tracks:

1. Individual Study Track. On this track, a student must:
  - a. Complete a senior thesis,
  - b. Earn a political science major grade point average on this campus of at least 3.25 or higher, and
  - c. Earn a grade point average in of 3.67 or higher.
2. Honors Program Track. On this track, a student must:
  - a. Complete a senior thesis,
  - b. Earn a political science major grade point average on this campus of at least 3.25 or higher,
  - c. Be admitted to and maintain good standing within the departmental honors program, and
  - d. Complete required coursework in the departmental honors program with a grade point average in and between 2.67 and 3.66.

Admission to the departmental honors program requires the following:

1. Completion of or or an acceptable substitute,
2. An on-campus political science major grade point average of 3.5,
3. Completion of nine hours (including at least three advanced hours) of political science on this campus,
4. Application and affirmative vote of a departmental committee.

### High Distinction

To be eligible for high distinction, a student majoring in Political Science must:

1. Complete a senior thesis,
2. Earn a political science major grade point average on this campus of at least 3.25 or higher,
3. Be admitted to and maintain good standing in the departmental honors program, and
4. Complete required coursework in the departmental honors program with a grade point average in and of 3.67 or higher.

## Political Science: Citizen Politics, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, Citizen Politics Concentration*

**department website:** <https://www.pol.illinois.edu>

**department faculty:** Political Science Faculty (<https://pol.illinois.edu/directory/faculty/>)

**advising:** Political Science advising (<https://pol.illinois.edu/academics/undergraduate-program/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

Citizen politics is the study of mass politics. Topics include how and why citizens form political attitudes, beliefs, and identities; how people engage in political decision-making; and what political behaviors individuals choose to participate in.

See the Political Science BALAS page (p. 336) for departmental distinction information.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, Citizen Politics Concentration*

See the Political Science BALAS page (p. 336) for departmental distinction information.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor. The plan will consist of the selection of a concentration and 12 hours of supporting coursework approved by an advisor.

Restrictions: Except as otherwise noted, or by petition to the department, PS 191, PS 291, PS 292, PS 490, PS 491, and PS 492 are excluded from all concentration lists maintained by the department. These courses may be used only for requirements of courses "at any level" without respect to concentration. As an exception, these courses may be used toward the General Concentration or the Civic Leadership Concentration.

Students may include in the major no more than nine hours from any combination of PS 291, PS 292, PS 490, PS 491, and PS 492. Of these, only six hours from PS 490, PS 491, and PS 492 within that group can count toward the major.

Students may count a maximum of six (6) hours of credit of any combination of hours from PS 494 toward the advanced hours requirement. Not more than 6 hours of individual study courses in political science (PS 490) or 6 hours of internships (PS 491) or 6 hours of supervised research (PS 492) may be included in the major; a student with any mix of independent study hours and internship hours and supervised research hours may include a maximum of 9 hours of such credit in the major. (PS 496) is reserved for those seniors doing honors theses for distinction in political science and may not be counted in the 45-hour minimum required for the major.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

### Citizen Politics Concentration Requirements

Code	Title	Hours

**college website:** <https://las.illinois.edu/>  
**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

International relations (IR) is the study of interactions across borders of nation-states. Students explore how global, regional, and domestic factors influence relations among states as well as non-state actors across the interstate system.

Students take advanced courses in two or more of the following topics: international law and organization, international cooperation, international political economy, globalization, foreign policy, diplomacy, political strategy in IR, conflict, interstate war, civil war, terrorism, global environmental politics, and international human rights.

See the Political Science BALAS page (p. 336) for departmental distinction information.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, International Relations Concentration*

See the Political Science Distinction page (p. 336) for departmental distinction information.

Students may count a maximum of six (6) hours of credit of any combination of hours from PS 494 toward the advanced hours requirement. Not more than 6 hours of individual study courses in political science (PS 490) or 6 hours of internships (PS 491) or 6 hours of supervised research (PS 492) may be included in the major; a student with any mix of independent study hours and internship hours and supervised research hours may include a maximum of 9 hours of such credit in the major. (PS 496) is reserved for those seniors doing honors theses for distinction in political science and may not be counted in the 45-hour minimum required for the major.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.

The Law and Power concentration teaches students about how power, law, and ideas about justice shape political life. Courses cover questions concerning the procedures for social and legal change, the status of citizens in social and political institutions in society, and the ways that ideology and identity categories shape the pursuit of equality and justice.

See the Political Science BALAS page (p. 336) for departmental distinction information.

**college website:** <https://las.illinois.edu/>  
**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

This concentration explores political institutions and processes and how and why they work as they do. Courses use historical and contemporary examples to understand the political system the founders established and the ways it has shaped modern politics. Students study institutions such as the presidency, Congress, courts, the bureaucracy, and political

parties, with a focus on their organization and on important patterns of behavior within them, such as interest group lobbying and campaigning.

See the Political Science BALAS page (p. 336) for departmental distinction information.

## Learning Outcomes: Political Science, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science

1. Students will be able to apply central concepts of the scientific method to the study of politics, and demonstrate an ability to draw inferences from data.
2. Students will have a foundational knowledge of facts, concepts, and typologies in their chosen subfield in political science.
3. Students will be able to demonstrate basic knowledge of central theories in their chosen subfield and show how to evaluate those theories.
4. Students will be able to define political science and its subfields, drawing contrasts with other social sciences.
5. Students will be able to apply concepts, methods, and theories to research projects, internships, and/or off-campus experiences.

## Portuguese, BALAS

### Undergraduate degree programs in Spanish & Portuguese

Spanish, BALAS (p. 366)

Teaching of Spanish, BA (p. 401)

Portuguese, BALAS (p. 343)

### **for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Portuguese**

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** 42-45 hours including at least 27 hours in Portuguese courses beyond the 100 level.

**Twelve hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation:** 120 hours

Code	Title	Hours
PORT 402	Advanced Grammar	3
PORT 403	Readings in Portuguese	3
PORT 404	Studies in Luso-Brazilian Culture	3
PORT 406	Brazilian Film	3
PORT 410	Topics in Brazilian Literature	3
Additional courses in Portuguese literature/culture beyond the 100 level		12
Supporting course work or a minor in a related area of study chosen by the student and approved by the adviser. There is a wide choice of supporting courses because the student's interests may vary from Iberian literature to animal husbandry in Angola and urbanology in Brazil. Supporting areas may include humanities (comparative literature, comparative religion, linguistics, philosophy), social sciences (anthropology, geography, history, Latin American studies, political science, sociology), education, fine and applied arts, and/or journalism. Other fields, or groups of fields, may be approved by the Portuguese undergraduate adviser. <sup>1</sup>		15-18
<b>Total Hours required for graduation</b>		<b>120</b>

<sup>1</sup> A minor consists of a minimum of 18 hours.

## **Learning Outcomes: Portuguese, BALAS**

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Portuguese

1. Students learn and practice the nuances of the language in all of its written and spoken modes, formally and informally
2. Students demonstrate special cultural and linguistic literacy in relation to Portuguese and the ability to use concepts and methods from multiple disciplines
3. Students know the history of Brazil's interplay with Latin America and the Lusophone world
4. Students evaluate the dynamics of power between dominant and subordinate groups in Brazil, especially through the lens of class, ethnicity, gender, race, and sexuality
5. Students gain a global perspective on civil society and social justice through Brazil and the Portuguese language

## **Psychology, BSLAS**

### **for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology**

**department faculty:** Psychology Faculty (<https://psychology.illinois.edu/directory/faculty/>)

**advising:** Psychology advising (<https://psychology.illinois.edu/academics/undergraduate-program/advising-services/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [psych-advising@illinois.edu](mailto:psych-advising@illinois.edu)

Students choose from the following concentrations:

- Behavioral Neuroscience (p. 345)
- Clinical/Community Psychology (p. 346)
- Cognitive Neuroscience (p. 347)
- Cognitive Psychology (p. 348)
- Developmental Psychology (p. 349)
- Diversity Science (p. 349)
- Intradisciplinary Psychology (p. 350)
- Organizational Psychology (p. 351)
- Personality Psychology (p. 351)
- Social Psychology (p. 352)

The Psychology major is a broad-based curriculum within a research-focused department. The program is designed both for students interested in a liberal arts education with psychology as a focal area and for students who plan to attend graduate or professional school either in psychology or in a different field such as medicine, law, social work, business administration, counseling, labor relations and many others.

The Psychology major provides both depth and breadth of knowledge in Psychology. The major consists of an introductory course, a statistics course, a breadth of knowledge or foundation in the different areas of psychology that comes from a set of core courses, a research methods course, and elective courses that give students a depth of knowledge. Each concentration, except for intradisciplinary psychology, has a core course specific to that area of psychology with a research methods course designed for that concentration. In formulating their Plan of Study, students can decide either to undertake a concentration in Intradisciplinary Psychology and select courses that focus on their own unique interests or to specialize in a particular area of Psychology by

fulfilling the requirements for one of the other concentrations listed below. As undergraduate students fulfill the requirements, they also have the opportunity to participate in current research projects by working in labs. Students should contact our Undergraduate Advising Office for help in creating a plan of study and research that best meets their goals and interests.

The Department of Psychology also offers a BSLAS in Brain & Cognitive Science (p. 74).

## Academic Advising

The Psychology Undergraduate Advising Office is open to help students choose patterns of courses relevant to their interests, as well as to help students explore graduate school, professional school, and career options. Advising is done by an award-winning staff of academic professionals along with mentoring by faculty for students with research interests. Peer registration assistants are also available to help with the registration process.

## Areas of Interest

Psychology is the scientific investigation of human and animal behavior. Psychologists study behavior in systems ranging from single cells to the individual person, from small groups of people to communities. Psychologists strive to describe behavior and to understand its underlying biological and social mechanisms. This enterprise, designed to better understand the human condition, accumulates knowledge that can help solve problems faced by individuals and by communities. Students that graduate with a major in psychology acquire a wide range of knowledge and useful skills that allows them to find employment in many different areas.

Areas of interest in psychology, and many of these are reflected in the similarly-titled concentrations that are available within the major:

- Behavioral Neuroscience is the study of the biological mechanisms underlying behavior. Biological psychologists generally are interested in the brain and the nervous system, in the endocrine system, and in other organismic processes.
- Clinical psychology is the study of problems encountered by individuals, groups, and families — especially problems involving psychopathology. Clinical psychologists are interested in the application of psychological knowledge and techniques for the alleviation of these problems.
- Community psychology is the study of the social processes and problems of groups, organizations, and neighborhoods, and the development and evaluation of progress for social change and social policy based on psychological understanding.
- Cognitive neuroscience is concerned with understanding the neuroscientific bases of cognition. Various methods are employed to assess the roles of different brain systems in psychological functions such as memory, attention, language, executive control, decision making, response processing, and emotion.
- Cognitive psychology is the study of basic behavioral and cognitive processes, including learning, memory, problem-solving, motivation, and language.
- Developmental psychology is the study of intellectual development, emerging personality, and the acquisition of language, as well as psychophysiological and social development processes as individuals develop from birth through old age.
- Engineering psychology is the study of human behavior in the context of interactions between humans and machines.

- Organizational psychology is the application of techniques of assessment, prediction, and intervention to areas of human resources in organizations, including, but not limited to, standard personnel selection and training, attitude assessments and interventions, and program evaluations.
- Personality psychology focuses on individual behavior. It is the study of ways to understand and describe an individual's behavior and to predict an individual's future behavior.
- Quantitative psychology specialists develop mathematical models of psychological processes and devise methods for quantitative representation and analysis of data about behavior. These are used in the study of differences between individuals in ability, personality, preferences, and other psychological phenomena.
- Social psychology is the study of attitudes, social perception and cognition, interpersonal relations, interpersonal interactions, and social and cultural factors affecting human behavior.
- Visual cognition and human performance is the study of attention, visual perception, visual memory, and human performance. Visual cognition research uses tools drawn from cognitive psychology and cognitive neuroscience to better understand how visual information is perceived and remembered.

## Prescribing Psychologists

The states of Illinois, New Mexico and Louisiana now allow appropriately qualified psychologists to write prescriptions for psychotropic medications, if they have the necessary training. There are many other states that currently have pending prescriptive authority legislative initiatives. One component of becoming a prescribing psychologist is completion of the following undergraduate courses:

- 2-semester course sequence in chemistry or biochemistry with lab
- 1 semester microbiology with lab
- 1 semester general biology for science majors
- 1 semester physiology
- 1 semester human anatomy
- 1 semester physiology and anatomy
- Medical terminology (class or proficiency)

For more information on becoming a prescribing psychologist and a detailed list of which courses meet these requirements, please consult with one of the academic advisors in psychology.

## Psychology: Clinical/Community Psychology, BSLAS

**for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology, Clinical/Community Psychology Concentration**

**department website:** <http://www.psychology.illinois.edu/undergrad/>  
**department faculty:** Psychology Faculty (<https://psychology.illinois.edu/directory/faculty/>)  
**advising:** Psychology advising (<https://psychology.illinois.edu/academics/undergraduate-program/advising-services/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [psych-advising@illinois.edu](mailto:psych-advising@illinois.edu)

Clinical psychology is the study of problems encountered by individuals, groups, and families — especially problems involving psychopathology. Clinical psychologists are interested in the application of psychological knowledge and techniques for the alleviation of these problems.

Community psychology is the study of the social processes and problems of groups, organizations, and neighborhoods, and the development and evaluation of progress for social change and social policy based on psychological understanding.

**for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology, Clinical/Community Psychology Concentration**

**Please see your academic advisor. A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours).**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 32-36 hours of Psychology courses.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

PSYC 408	Human Behavior Genetics	
PSYC 465	Personality and Soc Dev	
PSYC 468	Psych and Law	
PSYC 496	Adv Current Topics in Psych (if taught by faculty members in the Social Psychology program area)	
<b>Total Hours</b>		<b>35</b>

## Learning Outcomes: Psychology, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology

The student learning outcomes are adapted from the American Psychological Association's (APA) "Guidelines for the Undergraduate Psychology Major" (2013). These guidelines consist of general learning outcomes along with specific indicators that can be assessed. Two sets of indicators are provided by the APA depending on whether a student has completed just the foundational courses (100# and 200# level classes) or is finishing the elective courses (300# and 400# level classes) necessary for each concentration within the Psychology major. The four learning outcomes that we will be evaluating are:

1. Students will demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings to discuss how psychological principles apply to behavioral phenomena. This includes 1.1) describing key concepts, principles and overarching themes, 1.2) developing a working knowledge of the different content or program areas in psychology, and 1.3) describing the application of psychology to everyday life.
2. Students will develop scientific reasoning and problem solving skills, including effective research methods. This includes 2.1) using scientific reasoning to interpret psychological phenomena; 2.2) demonstrating psychology information literacy; 2.3) engaging in innovative and integrative thinking and problem solving; 2.4) interpreting, designing, and conducting basic psychological research; and 2.5) incorporating sociocultural factors in scientific inquiry when appropriate.
3. Students will develop ethically and socially responsible behaviors for professional and personal settings in a landscape that involves increasing diversity. This goal encompasses 3.1) applying ethical standards to evaluate psychological science and practice; 3.2) building and enhancing interpersonal relationships; and 3.3) adopting values that build community at local, national, and global levels.
4. Students will be prepared to apply psychology-specific content and skills, effective self-reflection, project management skills, teamwork skills, and career preparation to optimize their competitiveness for securing places in a graduate school, professional school, or in the workforce. For example, students should be able to 4.1) apply psychological content and skills to career goals; 4.2) demonstrate project management skills and teamwork capacity; and 4.3) develop meaningful professional direction for life after graduation.

## Recreation, Sport & Tourism, BS

for the degree of Bachelor of Science Major in Recreation, Sport & Tourism

**department website:** <http://rst.illinois.edu/>

**department faculty:** Recreation, Sport, & Tourism Faculty (<http://rst.illinois.edu/faculty/>)

**college catalog page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**college website:** <http://ahs.illinois.edu/>

The Recreation, Sport & Tourism, BS degree program includes a set of three concentrations, of which a student must complete at least one:

Recreation Management Concentration (p. 354)

Sports Management Concentration (p. 355)

Tourism Management Concentration (p. 356)

The Department of Recreation, Sport and Tourism (RST) originated at the University of Illinois in 1940. Today, this program continues to rank nationally among the top three in the field, and takes pride in producing a large number of exceptional professionals in the field. The Department of Recreation, Sport and Tourism offers a bachelor of science degree with three areas of concentration: recreation management, sport management, and tourism management. The curriculum prepares students to design, manage, and deliver RST services to a variety of populations in diverse settings and provides a firm foundation from which students may pursue graduate studies. A broad general education is emphasized and complemented with a core of professional courses. Beyond a strong core integrating theory, management, and research, the program allows students to focus on a major market segment within the RST field by choosing an area of concentration. A total of 128 hours is needed for graduation. For further information, contact the Department of Recreation, Sport and Tourism, 219 Huff Hall, 1206 S. Fourth Street, Champaign, IL 61820, (217) 333-4410.

## Internship Program

All students in the Department of Recreation, Sport and Tourism must satisfactorily complete the Internship Program prior to graduation. The program is designed to augment formal classroom instruction with active experiential learning under the guidance of a university and an agency-based supervisor.

The program consists of two courses (RST 480 and RST 485). Students register for RST 480 after completing a series of required RST courses. During this semester, students make final arrangements for completing RST 485 the following semester.

The RST 485 Internship is taken after the student satisfactorily completes all required RST course work, including RST 480. RST 485 is taken in agencies that are approved by the department and contracted for this program. Since a limited number of assignments are available in the campus area, most students look forward to the opportunity of an off-campus assignment. Students have been placed across the United States and even abroad.

## Recreation, Sport & Tourism: Recreation Management, BS

*for the degree of Bachelor of Science Major in Recreation, Sport & Tourism, Recreation Management Concentration*

## Learning Outcomes: Recreation, Sport & Tourism, BS

Learning outcomes for the degree of Bachelor of Science Major in Recreation, Sport & Tourism

Students graduating with the B.S. in Recreation, Sport & Tourism should be able to:

1. Communicate effectively in writing and in oral presentations about issues in recreation, sport and tourism.
2. Demonstrate a basic understanding of the history and theoretical underpinnings of recreation, sport and tourism in modern society.
3. Demonstrate basic knowledge about various dimensions of diversity, and the impact these dimensions have on service delivery recreation, sport and tourism organizations.
4. Demonstrate a basic understanding of the essential management functions necessary to deliver and manage services in recreation, sport and tourism organizations.
5. Demonstrate an ability to apply knowledge of basic management principles to professional practice.
6. Demonstrate the ability to design, implement, and evaluate services in recreation, sport and tourism venues.
7. Identify basic research methodologies at a level sufficient to collect, analyze, apply, and critique applied research data.

## Religion, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Religion*

**department website:** <https://www.religion.illinois.edu/>  
**department faculty:** Religion Faculty (<https://www.religion.illinois.edu/directory/faculty/>)  
**advising:** Religion advising (<https://las.illinois.edu/academics/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [religion@illinois.edu](mailto:religion@illinois.edu)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Religion*

Each student must complete two courses in any of the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser's office. And each student must complete two courses in any of the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser's office.

Additionally, each student will establish a primary and secondary field of study. For the primary area of study, a student must complete a minimum of three courses (nine credit hours), and for the secondary area two courses (six credit hours) are required. An individual course may not be counted twice toward fulfilling the requirements of the primary and secondary areas of interest. (Students are encouraged to complete more than the minimum of three courses in the primary area of study.)

The following are the areas of study: Buddhism, Christianity, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or individually designed area of study chosen with the approval of the departmental adviser.

Students considering graduate study in Religion are urged to consult with professors on the necessary preparation for graduate study in their area of interest.

### Language Requirements

The major in Religion does not require any language study beyond meeting the University's general education language requirement. However, majors are strongly encouraged to learn the languages relevant to their primary field of study and to begin that course of study as soon as possible. Please consult with the Director of Undergraduate Studies in Religion or a professor in your area of interest about appropriate language study.

### Capstone Experience

Research paper for one 400-level course in Religion (REL): Each major must make special arrangements with a professor teaching a 400-level REL course to conduct a significant research project that results in a research paper of 20 pages (minimum). The goal of this requirement is to ensure that each Religion major has conducted a significant research project. REL 493 can be used to satisfy this requirement.

### Departmental distinction

To be considered for departmental distinction a student must have an overall GPA of at least 3.5. Distinction is granted on the basis of a senior thesis written in the context of REL 493. The level of distinction is based on evaluation of the thesis.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A minimum of 30 hours of coursework is required for the major. This includes (a)REL 230 or REL 231, and (b) completing a Capstone course. At least 15 of the 30 hours must be at the 300 or 400 level, and no more than 9 hours may be at the 100 level.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Minimum of 30 hours of Religion courses including:		
PHIL/REL 230	Philosophy of Religion Intro	3
	or REL 231 Religion and Philosophy	
Distribution Requirement: Courses taken must include:		12
(a) Two courses in the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser's office and		
(b) Two courses in the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser's office.		
Three courses in a primary area of study <sup>1</sup>		9
Two courses in a secondary area of study <sup>1</sup>		6
Capstone Experience: a 400-level REL course in which a research project is undertaken and a 20 page research paper is written. This course can be REL 493 and can also be used to fulfill part of the distribution or primary or secondary area of study requirement.		3

<sup>1</sup> Areas of study include: Buddhism, Christianity, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or an individually designed area of study approved by the departmental advisor. Courses chosen to fulfill the primary area of study cannot also be used to fulfill the secondary area of study.

## Learning Outcomes: Religion, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Religion

1. Students will be able to understand and explain how global religious traditions reflect the social contexts in which they emerged, and in turn how the traditions have affected and continue to affect those societies;
2. Students will be able to analyze, and interpret (in both written and oral communication) the relationship between religious traditions and other forms of human cultural and social activity, including languages, literature, arts, political and social movements;
3. Students will be able to appreciate the diversity of global religious traditions and express that appreciation in activities and experiences meaningful to them.
4. Students will be able to develop sound and well-formed written arguments on matters of interest to them that respond insightfully to scholarship significant to their field of study.
5. Students will be able critically to assess and evaluate theories, arguments, and positions that have shaped the fields of the study of religion and individual global traditions.

## Russian, East European, & Eurasian Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

**department website:** <https://reec.illinois.edu/>  
**department faculty:** Russian, East European, & Eurasian Studies (<https://reec.illinois.edu/people/groups/faculty/>) Faculty (<https://reec.illinois.edu/people/groups/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [reec@illinois.edu](mailto:reec@illinois.edu)

The Russian, East European, and Eurasian Center offers an interdisciplinary major and minor in Russian, East European, and Eurasian Studies (REEES). These programs involve students in the study of an important and complex world area in a manner that draws together the approaches of different disciplines, while at the same time building knowledge in a single discipline. A student will construct an individual program of study, depending on the student's interests and career goals, in consultation with the undergraduate advisor of the Center.

The major in Russian, East European, and Eurasian Studies consists of three components: 1) language study (Russian, Polish, Czech, Ukrainian, Bosnian-Croatian-Serbian, Turkish, and more); 2) a multidisciplinary area studies focus; and 3) concentration in a single discipline. Language study can be in Russian or in any of the other languages of the region offered at the University. Students also take courses in a variety of disciplines

(history, sociology, political science) and develop a broad expertise in the history, politics, and culture of the region that includes Russia, but also many other countries, from the Czech Republic to Estonia to Uzbekistan. In addition, the concentration in a single discipline provides students with deep knowledge of a specific field that can qualify them for graduate or professional study. Many students also use this concentration to double major. With this program, the REEES major provides students with an interdisciplinary focus on issues critical to the region and foundational language training necessary for professional specialization in the area.

Students often go on to careers in government service (foreign service, FBI, CIA) or to work at NGOs (environment, human rights, and other international careers) in addition to publishing, editing, writing, translation, international business, law, teaching, and research.

REEES is one of two "Russian" majors (and minors) at the University of Illinois. What is the difference between them and which is the right one for you?

The REEES major has a current affairs focus and multidisciplinary area studies that develops students' skill sets in the humanities, social sciences, and other fields. The major in Slavic Studies emphasizes the study of language and literature, and students develop intensive cultural literacy and communication skills through humanities-oriented training. Many Slavic Studies majors go on to careers in writing and editing, media, or work with international cultural foundations and organizations. Both majors are excellent preparation for law school or graduate school and careers in teaching or research.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction:** To qualify for departmental distinction, a student must have at least a 3.5 GPA in the courses taken for Component 2 (see below) and must complete a senior thesis in consultation with a faculty member affiliated with the center. Students who wish to qualify for distinction in this major should consult with the center director at the beginning of the junior year or earlier to prepare a suitable plan.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 48 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Component 1: Completion of three years of college-level study of Russian or another language of Eastern Europe or Eurasia, or equivalent proficiency. This stipulation may be partially satisfied through fulfillment of the LAS two-year language requirement if a regionally appropriate language is chosen for that purpose. A third year of study, however, is demanded beyond this. If a non-Russian, East European or Eurasian language is selected to meet the LAS requirement, then the three years of Russian, East European or Eurasian language study specified here must be taken in addition to those completed to satisfy the LAS requirement. Only the hours earned in the third, most advanced year of language study are calculated into the degree here, as these represent proficiency beyond that required by all LAS BA degree programs and as the first two years of language study are a prerequisite for the third.		6
Component 2: Russian and East European studies core courses, including:		24
REES 200	Intro to Russia and Eurasia	
REES 201	Introduction to Eastern Europe	
REES 495	Senior Seminar	
15 hours: Choose one course from each of three departments other than the department used for component 3 below. The courses comprising the remaining hours of component 2 may be from the same discipline as those under component 3; however, a course may be counted toward the total for only one component. Language courses that concentrate on the basic skills of speaking, listening, reading, and writing cannot be counted as part of this component.		
Component 3: Courses in a single discipline. Among those disciplines that are most commonly used with this specialization are anthropology, economics, geography, history, political science, Russian language and literature, and sociology. Among disciplines also used are business administration, comparative literature, education, English, fine arts, French, German, journalism, linguistics, mathematics, music, philosophy, psychology, and various natural sciences. Others are permitted. Consult your advisor. <sup>2</sup>		18

<sup>1</sup> The Center maintains a list of applicable courses on its web site.

<sup>2</sup> If the study of a language is used for this component, 20 hours must be taken beyond the requirement of 6 additional hours outlined under component 1 above.

## Learning Outcomes: Russian, East European, & Eurasian Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

### 1. Global Competence and Intercultural Skills

- Definition: REEES majors will engage and build productive relationships, founded in proficient language skills, with communities, organizations, and individuals across cultures, both at home and abroad.

### 2. Interdisciplinary Perspective

- Definition: REEES majors will recognize and mobilize multiple types of data and forms of analysis, drawn from paradigms in the humanities and social sciences, to propose solutions to complex problems.
3. **Analytical Reasoning and Broad Knowledge Base**
- Definition: REEES majors will critically analyze and evaluate interpretations of social, cultural, political, and economic phenomena, drawing on a broad knowledge base and research experience.

## Slavic Studies, BALAS

### for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Slavic Studies

**department website:** <http://www.slavic.illinois.edu>

**department faculty:** Slavic Faculty (<http://www.slavic.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [slavic@illinois.edu](mailto:slavic@illinois.edu)

Students must select one concentration in consultation with an academic advisor. Students in all concentrations must complete a) 6 hours of language beyond the second year, and b) 24 hours of literature and culture courses.

- Major in Slavic Studies, Czech Studies concentration (p. 360)
- Major in Slavic Studies, Polish Studies Concentration (p. 360)
- Major in Slavic Studies, Russian Language, Literature, & Culture Concentration (p. 361)
- Major in Slavic Studies, South Slavic Studies Concentration (p. 362)
- Major in Slavic Studies, Ukrainian Studies Concentration (p. 362)

Unlike the major in Russian, East European, and Eurasian Studies, which has a multidisciplinary area studies and current affairs focus, the major in Slavic Studies emphasizes the study of language, literature, and culture in their historical context. Students develop intensive cultural literacy and communication skills through humanities-oriented training, and many go on to careers in writing and editing, media, or work with international cultural foundations and organizations. The major is an excellent preparation for law school, business school, or other graduate study, as well as careers in the N.G.O. world, teaching, or research.

### 5 Year BALAS/MA in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and European Union Studies

The Department of Slavic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS -granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be

conferred separately and independently. More detailed information may be obtained from department and EUC offices.

**overview of school admissions & requirements: School of Social Work (<http://catalog.illinois.edu/social-work/>)**

The purpose of undergraduate social work education at the School of Social Work is to provide a comprehensive educational experience for students that is grounded in a liberal arts tradition and prepares graduates for excellence in the areas of social work practice, policy, social engagement and leadership.

Upon degree completion, graduates will be prepared for entry into generalist social work practice, advanced standing in graduate social work education, and a multitude of career opportunities. These can include careers in communications, corrections, education, government, healthcare, human resources, law, non-profit organizations, religious studies, and public service. Obtaining an undergraduate degree in Social Work gives students the opportunity to pursue a License of Social Work (LSW). A BSW degree also makes students eligible to pursue Advanced Standing status in many masters of Social Work (MSW) programs. The advanced standing status enables BSW graduates to receive an MSW in only one year.

The focus of undergraduate curriculum delivery is through a student-centered strengths-based educational model that fosters student understanding by providing a challenging, yet supportive environment of high expectations that encourage the development of well-informed and engaged citizens.

The social work major prepares practitioners for generalist social work practice with individuals, groups, families and communities. The curriculum requires a minimum of 120 hours for graduation.

*for the degree of Bachelor of Social Work Major in Social Work*

**Departmental Distinction:** The top 10% of the BSW graduating class will graduate with distinction.

**Minimum required major and supporting course work:** A minimum of 53 course hours of social work coursework, which includes 15 credit hours of combined agency-based field practicum (internship) and field seminar.

## Learning Outcomes: Social Work, BSW

Learning outcomes for the degree of Bachelor of Social Work Major in Social Work

Students graduating with the Bachelor of Social Work should be able to:

1. Demonstrate ethical and professional behavior
2. Engage diversity and difference in practice
3. Advance human rights and social, economic, and environmental justice
4. Engage in practice-informed research and research-informed practice
5. Engage in Policy Practice
6. Engage with individuals, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities

8. Intervene with individuals, families, groups, organizations, and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

## Sociology, BALAS

### *for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology*

**department website:** <https://sociology.illinois.edu/>

**department faculty:** Sociology Faculty (<https://sociology.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [soc@illinois.edu](mailto:soc@illinois.edu)

Large-scale societal change begins with individuals like you -- hungry for knowledge and ready to make a real difference; in the Department of Sociology you will study the inner workings of society with a focus on either Inequalities or Global Sociology.

Sociologists explore human social life at every level, from personal relationships to global society. Major topics of study include inequality, social movements, criminology, race and class relations, gender, social institutions such as religion and education, and fundamental population processes like immigration and mortality. Sociologists use a range of methods and theories to develop and evaluate ideas about social life.

As a student of Sociology, you will train in research methods and become fluent in social statistics while understanding the complexity of societal diversity and social change. These skills are usable in a wide variety of work settings and are skills that employers value.

Recent graduates have pursued careers with the FBI, as Human Resource Specialists, with non-profit organizations, as policy officers, and have earned advanced degrees in Social Work, Sociology, Law, Medicine, and more. The career paths of Sociology alumni are as diverse as our student population -- who represent the best and the brightest from a variety of backgrounds.

In the Department of Sociology you can choose the major in Sociology, the minor in Sociology, or the minor in Criminology, Law and Society (CLS). Whereas the major and minor in Sociology provide an overview into the broader disciplines of Sociology, the minor in CLS is a more specialized approach for those students interested in law and justice related careers and occupations.

Each student should see a Sociology departmental advisor at least once a year to choose sociology courses and to monitor their progress.

### *for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology*

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** In order to achieve distinction, high distinction, or highest distinction, a sociology major must meet the following requirements:

- Have completed SOC 490 or SOC 495
- Attain a UIUC GPA of 3.25 or higher
- If both these requirements are met, then the MAJOR GPA distributes as follows:
  - 3.25 – Distinction
  - 3.50 – High Distinction
  - 3.75 – Highest Distinction

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 44 hours including 32 hours of Sociology courses. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours

Students may select any sociology courses to fulfill the requirement of 32 hours in Sociology		14
Supporting course work taken outside the Department of Sociology <sup>2</sup>		12

<sup>1</sup> *If a statistics course is taken outside the Department of Sociology to fulfill this requirement, that course does not count toward the 32 hours of Sociology courses.*

<sup>2</sup> *Supporting course work is designed to expand the student's education, and should be taken outside of Sociology. A student may take supporting course work from one department, such as psychology, economics, history, or statistics, or from a cohesive selection of courses in various units. With an advisor's approval, departmental or interdisciplinary minors, or a double major, may be used to fulfill the requirements of supporting course work.*

## Learning Outcomes: Sociology, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology

1. Apply sociological theories to understand social phenomena.
2. Critically evaluate explanations of human behavior and social phenomenon.
3. Apply scientific principles to understand the social world.
4. Evaluate the quality of social scientific methods and data.
5. Rigorously analyze social scientific data.

6. Use sociological knowledge to inform policy debates and promote public understanding.

### 5 Year BALAS/MA in Spanish and European Union Studies

The Department of Spanish and Portuguese with the European Union Center offers a 5-year BALAS /MA degree program in Spanish and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

#### Undergraduate degree programs in Spanish & Portuguese

Spanish, BALAS (p. 366)

Teaching of Spanish, BA (p. 401)

Portuguese, BALAS (p. 343)

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Spanish

A Major Plan of Study Form must be completed and submitted to the Student Affairs Office before the end of the fourth semester (48-60 hours). Please see your adviser.

**Departmental distinction:** To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: equates to 48 hours, including 33 hours in Spanish courses at the 200-level or higher.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
33 hours of SPAN courses <sup>1</sup>		33
SPAN 228	Spanish Composition	
4 to 6 200-level SPAN courses		
4 to 6 300- and/or 400-level SPAN courses		
Supporting course work, a minor, or a second major in an area of study chosen by the student and approved by the advisor. <sup>2</sup>		15-21
Total Hours		48-54

<sup>1</sup> With permission of the adviser, students will be able to take up to two SPAN courses that are taught in a language other than Spanish. Or up to two 200-level SPAN courses can be substituted with any of the following: BASQ 401 and BASQ 402, CATL 401 and CATL 402, PORT 401 and PORT 402, and LAST 445. These courses do not count for advanced hours and do not substitute for SPAN 228.

<sup>2</sup> A minor generally consists of 16-21 hours.

## Learning Outcomes: Spanish, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Spanish

#### 1. Intellectual Reasoning and Knowledge

- Definition: Students of Spanish will acquire and apply broad and deep knowledge about the Spanish language and the cultures of the Spanish-speaking world.

#### 2. Translingual competence

- Definition: Students of Spanish will understand and analyze the nature of the Spanish language, "languages" in general, the social nature of languages and demonstrate intercultural communicative competence.

#### 3. Transcultural competence

- Definition: Through critical reflection, students of Spanish will understand and analyze the products, practices and perspectives of their own culture, cultures of the Spanish-speaking world and the nature of "culture" itself.

#### 4. Communicative Competence in Spanish

- Definition: In reading, writing, listening comprehension and speaking, students will acquire advanced proficiency in Spanish as described by the standards set by the American Council on the Teaching of Foreign Languages (ACTFL).

## Curriculum Preparatory for Learning and Behavior Specialist I in Special Education

This program is designed to prepare special education teachers for students ages 3-21. An applicant must have a cumulative grade point average of at least 2.5 (A = 4.0), a minimum of 50 hours of prior experience with individuals with disabilities<sup>1</sup>, and sophomore or higher standing upon enrollment in the program. A minimum of 125<sup>2</sup> semester hours of credit is required for graduation. To proceed to the five semester professional education sequence, students must have completed all degree requirements outside of the professional education coursework.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade-point averages of 2.5 (A = 4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education. (<http://www.cote.illinois.edu/>)

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

<sup>1</sup> Applicants may contact the Department of Special Education for further information on the prior experience requirement.

<sup>2</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

<sup>3</sup> General Education Requirement: Courses must be selected from the Campus General Education Approved Course List.

<sup>4</sup> The total hours required for the degree may be higher for students who do not complete the language other than English requirement in high school.

## Learning Outcomes: Special Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Special Education

1. Students will develop a deep understanding of central concepts, tools of inquiry and structures of the discipline of special education and of the content they teach.
2. Students will apply multiple methods of assessment to generate data for use in monitoring learner progress and guiding teacher decision-making.
3. Students will demonstrate consistently in their practice a commitment to fairness, collaboration, professionalism, and the belief that all students can learn.

## Speech & Hearing Science, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

Students pursuing this major must select one of these concentrations:

- Audiology (p. 368)
- Cultural-Linguistic Diversity (p. 370)
- Neuroscience of Communication (p. 371)
- Speech-Language Pathology (p. 373)

## Summary of Degree Requirements

Code	Title	Hours
General Education		40-54
Speech and Hearing Science Core		28

Area of Concentration (and Correlate, if required by concentration)	Hours
Electives	27-41
Total Hours	128

## Speech & Hearing Science: Audiology, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Audiology Concentration

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

The **Audiology** concentration provides explicit background in the theoretical and clinical areas necessary for graduate study. Students will learn foundational knowledge for understanding human speech, language, swallowing, hearing, and balance processes, with a particular eye toward the implications of differences and disruptions in the communication systems associated with disorders. Although students across any of the concentrations can pursue the graduate study and pre-certification requirements associated with becoming an audiologist or speech-language pathologist, the audiology concentration is the most directly connected to clinical practice in audiology.

More information about the fields of speech-language pathology and audiology may be found on the American Speech-Language Hearing Association's web site: <http://www.asha.org>.

for the degree of Bachelor of Science Major in Speech & Hearing Science, Audiology Concentration

**General Education: Students are advised to select their General Education course requirements from the University's approved list of courses (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) and to work in close consultation with their academic advisor to ensure graduation requirements are addressed.**

& CHEM 203 and Accelerated Chemistry Lab I

CHEM 204 Accelerated Chemistry II  
& CHEM 205 and Accelerated Chemistry Lab II

PHYS 101 College Physics: Mech & Heat

PHYS 102 College Physics: E&M & Modern

PHYS 123 Physics Made Easy

PHYS 140 How Things Work

PHYS 150 Physics of Societal Issues

PHYS 211 University Physics: Mechanics

PHYS 212 University Physics: Elec & Mag

PHYS 213 Univ Physics: Thermal Physics

PHYS 214 Univ Physics: Quantum Physics

**Cultural Studies** 9

One course from Western Cultures university approved Gen Ed list.

One course from Non-Western Cultures university approved Gen Ed list.

One course from U.S. Minority Cultures university approved Gen Ed list.

**Foreign Language** 0-12

May be satisfied if had three years of one non-English language in high school or completed the equivalent of three semesters of college level foreign language (through the intermediate level).

Total Hours 40-54

## Speech and Hearing Science Professional Core Requirements

All students must complete a series of SHS core classes regardless of their area of concentration. Students are advised to work with the undergraduate academic advisor to ensure courses are taken in proper sequential order. One area of concentration (Speech-Language Pathology, Audiology, Neuroscience of Communication, or Cultural-Linguistic Diversity) must be declared prior to the senior year.

Code	Title	Hours
SHS 170	Intro Hum Comm Sys & Disorders	3
SHS 191	Freshmen Seminar	1
SHS 200	General Phonetics	3

SHS 240	Intro Sound & Hearing Science	3
SHS 300	Anat & Physiol Spch Mechanism or LING 300 Anat & Physiol Spch Mechanism	4
SHS 301	General Speech Science or LING 303 General Speech Science	4
SHS 320	Development of Spoken Language	3
SHS 385	Evidence-Based Practice in Communication Sciences and Disorders	3
SHS 450	Intro Audiol & Hear Disorders	4
General Education Hours		40-54
Professional Core Hours		28
Concentration Hours		19
Electives		27-41
Total Hours		128

## Electives

All students are encouraged to take electives in and outside the department that will count towards the 128 required hours for graduation (the total number of electives students may take may vary with each individual). Students are encouraged to select electives that will complement their areas of interest and future goals. Areas listed below are only a sampling of possibilities; they are not to be considered as requirements and students are not limited to these choices. All students are responsible for addressing course pre-requisites and course availability may vary.

Anthropology (ANTH), Communications (CMN), Kinesiology and Community Health (KIN, CHLH), Educational Organization and Leadership (EOL), Curriculum & Instruction (CI), Educational Policy Studies (EPS), Educational Psychology (EPSY), English (ENGL), English as a Second Language (ESL), Gender and Women's Studies (GWS), Human Development and Family Studies (HDFS), Library and Information Science (LIS), Linguistics (LING), Psychology (PSYC), Recreation, Sport, & Tourism (RST), Rehabilitation Counseling (REHB), Special Education (SPED), Sociology (SOC), Social Work (SOCW). Additional areas to explore may include: courses in a foreign language beyond the completion of the University's requirement, as well as additional courses in science, such as Biology (IB, MCB), Physics (PHYS), microcomputer applications (e.g. ACE), and courses in cultural studies.

## Audiology Concentration

Code	Title	Hours
SHS 271	Communication and Aging	3
SHS 280	Communication Neuroscience	3
SHS 352	Hearing Health and Society	3
SHS 451	Aural Rehab Children to Adults (requires senior standing and completion of core classes)	3
SHS 475	Prepracticum in SHS (requires senior standing and completion of core classes)	1
Students must also take 6 hours from the following specified electives:		6
SHS 222	Language & Culture of Deaf Communities	
SHS 270	Comm Disability in the Media	
SHS 291	Research Lab Experience in SHS (Approved for S/U grading only. Must be arranged with individual faculty member.) <sup>1</sup>	

SHS 333	Children with Neurodevelopmental Disorders Across Communication Contexts
SHS 375	Comm Partners & Health
SHS 390	Individual Study <sup>1</sup>
SHS 395	Honors Individual Study <sup>1</sup>
SHS 473	Augmentative & Alt Comm (Requires senior standing and completion of core classes)

**NOTE: For those planning on pursuing graduate studies in Speech-Language Pathology or Audiology, many graduate programs require 25 clinical observation hours. These should be completed and recorded prior to graduation (some may be completed prior to serving as a clinical participant in the required SHS 475 pre-practicum).**

Total Hours 19

<sup>1</sup> No more than 3 credits from SHS 291, SHS 390 and SHS 395 may be counted toward the 6 credits of specified electives.

## Speech & Hearing Science: Cultural-Linguistic Diversity, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Cultural-Linguistic Diversity Concentration

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

The **Cultural-Linguistic Diversity** concentration is designed to examine ways that individual communication differences, including disorders, interface with sociocultural systems, institutions, and practices. Students will take courses in theory and research methods to explore ways in which sociolinguistic differences shape child development, socialization, and identity. This concentration is intended to help provide students with knowledge related to cultural-linguistic differences (race, ethnicity, socioeconomic status, neurodiversity) that is needed to serve an increasingly global society concerned with human rights and responsibilities. Such expertise is expected to enhance multiple career paths in education, law, business, and health-related fields. In addition, undergraduates interested in pursuing careers as an audiologist or speech-language pathologist can combine this concentration with pre-certification requirements.

for the degree of Bachelor of Science Major in Speech & Hearing Science, Cultural-Linguistic Diversity Concentration

**General Education: Students are advised to select their General Education course requirements from the University's approved list of courses (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) and to work in close consultation with their academic advisor to ensure graduation requirements are addressed.**

## Speech & Hearing Science: Neuroscience of Communication, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Neuroscience of Communication Concentration

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

The **Neuroscience of Communication** concentration provides and interdisciplinary understanding of the neurological systems that underlie human communication. Students will study the biological basis of communication in order to understand brain-behavior correlates of typical and disordered speech, language, and hearing function. In addition, students will benefit from faculty research that utilizes innovative technologies to study the structure and function of the sensory-motor systems that underlie human communication abilities. This concentration is intended to help prepare students for health and science-related careers, including medicine and neuroscience. In addition, undergraduates interested in pursuing careers as an audiologist or speech-language pathologist can combine this concentration with pre-certification requirements.

for the degree of Bachelor of Science Major in Speech & Hearing Science, Neuroscience of Communication Concentration

One course from Western Cultures university approved Gen Ed list.		

One course from Non-Western Cultures university approved Gen Ed list.

One course from U.S. Minority Cultures university approved Gen Ed list.

**Foreign Language** **0-12**

May be satisfied if had three years of one non-English language in high school or completed the equivalent of three semesters of college level foreign language (through the intermediate level).

Total Hours 40-54

## Speech and Hearing Science Professional Core Requirements

All students must complete a series of SHS core classes regardless of their area of concentration. Students are advised to work with the undergraduate academic advisor to ensure courses are taken in proper sequential order. One area of concentration (Speech-Language Pathology, Audiology, Neuroscience of Communication, or Cultural-Linguistic Diversity) must be declared prior to the senior year.

Code	Title	Hours
SHS 170	Intro Hum Comm Sys & Disorders	3
SHS 191	Freshmen Seminar	1
SHS 200	General Phonetics	3
SHS 240	Intro Sound & Hearing Science	3
SHS 300	Anat & Physiol Spch Mechanism or LING 300 Anat & Physiol Spch Mechanism	4
SHS 301	General Speech Science or LING 303 General Speech Science	4
SHS 320	Development of Spoken Language	3
SHS 385	Evidence-Based Practice in Communication Sciences and Disorders	3
SHS 450	Intro Audiol & Hear Disorders	4
General Education Hours		40-54
Professional Core Hours		28
Concentration Hours		19
Electives		27-41
Total Hours		128

## Electives

All students are encouraged to take electives in and outside the department that will count towards the 128 required hours for graduation (the total number of electives students may take may vary with each individual). Students are encouraged to select electives that will complement their areas of interest and future goals. Areas listed below are only a sampling of possibilities; they are not to be considered as requirements and students are not limited to these choices. All students are responsible for addressing course pre-requisites and course availability may vary.

Anthropology (ANTH), Communications (CMN), Kinesiology and Community Health (KIN, CHLH), Educational Organization and Leadership (EOL), Curriculum & Instruction (CI), Educational Policy Studies (EPS), Educational Psychology (EPSY), English (ENGL), English as a Second Language (ESL), Gender and Women's Studies (GWS), Human Development and Family Studies (HDFS), Library and Information Science (LIS), Linguistics (LING), Psychology (PSYC), Recreation, Sport, & Tourism (RST), Rehabilitation Counseling (REHB), Special Education (SPED),

Sociology (SOC), Social Work (SOCW). Additional areas to explore may include: courses in a foreign language beyond the completion of the University's requirement, as well as additional courses in science, such as Biology (IB, MCB), Physics (PHYS), microcomputer applications (e.g. ACE), and courses in cultural studies.

## Neuroscience of Communication Concentration

Code	Title	Hours
SHS 280	Communication Neuroscience	3
SHS 389	Neuroplasticity and Communication	3
SHS 427	Language and the Brain	3
SHS 470	Neural Bases Spch Lang	4
<b>Students must also take 6 hours from the following specified electives:</b>		<b>6</b>
Any Chemistry or Physics 100-level class		
IB 100	Biology in Today's World	
PSYC 204	Intro to Brain and Cognition	
PSYC 216	Child Psych	
	or EPSY 236 Child Development in Education	
PSYC 230	Perception & Sensory Processes	
PSYC 224	Cognitive Psych	
PSYC 248	Learning and Memory	
SHS 271	Communication and Aging	
SHS 291	Research Lab Experience in SHS <sup>1</sup>	
SHS 333	Children with Neurodevelopmental Disorders Across Communication Contexts	
SHS 375	Comm Partners & Health	
SHS 390	Individual Study <sup>1</sup>	
SHS 395	Honors Individual Study <sup>1</sup>	
SHS 473	Augmentative & Alt Comm	
SHS 475	Prepracticum in SHS	
Total Hours		19

<sup>1</sup> No more than 3 credits from SHS 291, SHS 390 and SHS 395 may be counted toward the 6 credits of specified electives.

## Speech & Hearing Science: Speech-Language Pathology, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Speech-Language Pathology Concentration

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory/> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

The **Speech-Language Pathology** concentration provides explicit background in the theoretical and clinical areas necessary for graduate study. Students will learn foundational knowledge for understanding human speech, language, swallowing, hearing, and balance processes, with a particular eye toward the implications of differences and disruptions in the communication systems associated with disorders. Although students across any of the concentrations can pursue

the graduate study and pre-certification requirements associated with becoming an audiologist or speech-language pathologist, the Speech-Language Pathology concentration is the most directly associated with opportunities for clinical practice in speech-language pathology.

More information about the fields of speech-language pathology and audiology may be found on the American Speech-Language Hearing Association's web site: <http://www.asha.org>.

for the degree of Bachelor of Science Major in Speech & Hearing Science, Speech-Language Pathology Concentration

**General Education: Students are advised to select their General Education course requirements from the University's approved list of courses (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) and to work in close consultation with their academic advisor to ensure graduation requirements are addressed.**

## Learning Outcomes: Speech & Hearing Science, BS

Learning outcomes for the degree of Bachelor of Science Major in Speech & Hearing Science

1. Students will describe basic speech, language, and hearing processes across the lifespan from the biological, behavioral, and social science perspectives.
2. Students will apply knowledge of how disruptions in speech, language, and hearing processes relate to human communication functioning and disability.
3. Students will demonstrate the ability to read and evaluate literature related to human communication processes across academic disciplines.
4. Students will apply knowledge of cultural-linguistic diversity to inform discussions about human communication functioning and disability.

## Statistics & Computer Science, BSLAS

This major is sponsored jointly by the Departments of Statistics and Computer Science. The Statistics and Computer Science major is designed for students who would like a strong foundation in computer science, coupled with significant advanced coursework in statistics. The major prepares students for professional or graduate work in statistics and computer science, and for applications of computing in which knowledge of statistics is particularly important, such as data mining and machine learning.

### Undergraduate degree programs in Statistics

Statistics, BSLAS (p. 376)

Statistics & Computer Sciences, BSLAS (p. 375)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Statistics & Computer Science

**Departmental distinction:** To graduate with distinction requires a specified minimum grade point average in all Computer Science, Statistics, and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement. Minimum required major and supporting course work: Normally equates to 68-69 hours. At least 12 hours of 300- and 400-level courses must be taken on this campus. Minimum hours required for graduation: 120 hours**

Code	Title	Hours
CS 100	Freshman Orientation (recommended)	0-1
Calculus through MATH 241 - Calculus III		11-12
MATH 415	Applied Linear Algebra	3
Required Computer Science Foundation:		32
CS 125	Intro to Computer Science	
CS 173	Discrete Structures	
CS 126	Software Design Studio	
CS 225	Data Structures	
CS 233	Computer Architecture	
CS 241	System Programming	
CS 357	Numerical Methods I	
CS 374	Introduction to Algorithms & Models of Computation	
CS 421	Programming Languages & Compilers	
Required Probability and Statistics Foundation:		10
STAT 400	Statistics and Probability I <sup>1</sup>	
STAT 410	Statistics and Probability II	
STAT 428	Statistical Computing	
At least four other statistics, computer science, or mathematics courses, with at least one chosen from each of the following groups:		12
Group I: Statistical Methods		
STAT 200	Statistical Analysis	
STAT 212	Biostatistics	
CS 361	Probability & Statistics for Computer Science	
Group II: Mathematical Analysis and Modeling		
MATH 347	Fundamental Mathematics	
MATH 441	Differential Equations	
MATH 444	Elementary Real Analysis	
MATH 447	Real Variables	
Group III: Computational Application Areas		
STAT 385	Statistics Programming Methods	
CS 410	Text Information Systems	
CS 411	Database Systems	
CS 412	Introduction to Data Mining	
CS 446	Machine Learning	
CS 481	Advanced Topics in Stochastic Processes & Applications	
CS 482	Simulation	
Group IV: Statistical Analysis and Modeling		
STAT 420	Methods of Applied Statistics	
STAT 425	Applied Regression and Design	
STAT 426	Sampling and Categorical Data	
STAT 448	Advanced Data Analysis	

<sup>1</sup> Students should take a course from Group I before taking STAT 400.

## Statistics, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Statistics*

**department website:** <https://stat.illinois.edu/>

**department faculty:** Statistics Faculty (<https://stat.illinois.edu/directory/faculty/>)

**advising:** Statistics advising (<https://stat.illinois.edu/academics/advising/>)

**college website:** <https://las.illinois.edu/>

**email:** [stat-office@illinois.edu](mailto:stat-office@illinois.edu)

Statistics is the science of modeling, summarizing, and analyzing data, and of using mathematics and computing tools to make predictions and decisions in the face of uncertainty. Statistical ideas are applicable in any area involving quantitative measurement and in almost every area of scholarly pursuit. The major, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A major in statistics will prepare students for a career in business, industry, or government, and for further graduate study in statistics or in a related area.

STAT 480	Data Science Foundations	

## Learning Outcomes: Statistics, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Statistics

Statistics students will:

1. Be able to apply mathematical and statistical reasoning to draw valid conclusions from data;
2. Communicate the results of a statistical analysis effectively in writing, through visualizations, and orally;
3. Be competent in the use of statistical software, in data management, and in writing statistical code;
4. Be adept in the use of modern methods of statistical computing, statistical learning, and data science;
5. Work effectively as part of a team.

## Strategic Business Development & Entrepreneurship, BS

*for the degree of Bachelor of Science Major in Strategic Business Development and Entrepreneurship*

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Strategic Business Development and Entrepreneurship major examines how business opportunities are identified and exploited for society through existing and new organizations. Students will learn to generate and evaluate ideas, develop those ideas into products and services, assemble resources, mitigate risks, and lead organizations that meet human needs. The degree prepares students to work within existing organizations as well as to create new organizations, both for-profit and not-for-profit.

In addition to the SBDE Major requirements, students must also fulfill the University's General Education requirements and the Gies College of Business Core Courses requirements (for more detail, refer to the Gies College of Business Undergraduate Section).

for the degree of Bachelor of Science Major in Strategic Business Development and Entrepreneurship

**General Student Requirements: Students must fulfill the Urbana-Champaign Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements and the Gies College of Business's Core Courses.**

**Specific Major Requirements:**

## Studio Art, BASA

for the degree of Bachelor of Arts in Studio Art Major in Studio Art

**school office: 143 Art and Design Building, Champaign, IL 61820**  
**contact: Mark Avery, Coordinator of Undergraduate Academic Affairs**

**email: mavery@illinois.edu**

**phone: (217) 333-6632**

**department website: S** (<https://art.illinois.edu>)chool of Art & Design (<https://art.illinois.edu/>)

**department faculty: Art & Design Faculty** (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements: Fine & Applied Arts** (<http://catalog.illinois.edu/faa/>)

**college website: <https://faa.illinois.edu/>**

Students pursuing this major choose one of the following concentrations:

General Studio Art Concentration (p. 378)

New Media Concentration (p. 378)

Painting Concentration (p. 379)

Printmaking Concentration (<http://catalog.illinois.edu/undergraduate/faa/academic-units/school-art-design/studioart/ba/printmakingconcentration/>)

Sculpture Concentration (p. 381)

The Bachelor of Arts in Studio Art (with concentrations) focuses on the study of art, design, and art history in the context of a broader program of general study offered by the diverse research and teaching activities across the University of Illinois, Urbana/Champaign campus. It differs from the Bachelor of Fine Arts in that it offers students rigorous education in studio art while permitting them time to pursue studies in other areas, with a significant part of the educational experience occurring in areas outside the studio. Students choose from courses that will lead to concentrations in Drawing, Painting, Sculpture, Printmaking, New Media, or (general) Studio Art. These options permit students to experience a broad range of media practices or to focus on media-specific credits. Concentrations will be noted on the student's degree, indicating a level of expertise in a particular sub-discipline that will be useful in the pursuit of advanced study or in employment opportunities where particular material skills are needed.

Foundation courses for the BA in Studio Art introduce basic materials and conceptual approaches to making art, using traditional media including drawing and painting, printmaking, clay, plaster, wood and metal, to code, digital imaging, interactive media, and time-based applications. By incorporating new and traditional strategies and technologies students will understand visual organization and communication in 2D (artworks in two dimensions, such as drawing, painting or printmaking), 3D (artworks in three dimensions, such as sculpture and installation), and 4D (artworks of a time-based nature, such as coding, video, sound and performance).

The advanced BA Studio Art student can look forward to a changing menu of courses on a variety of topics, taught by a diverse faculty with expertise in a wide variety of conceptual, material and technical strategies for making art. The BA Studio Art's curriculum offerings are designed to reflect an increasingly dynamic culture and provide students with experiences and skills that promote adaptability after graduation.

BA Studio Art students are provided with individual studio spaces housed in a communal studio building, where they pursue a self-selected studio practice. The communal studio configuration provides the geography for a strong, vibrant community of student-artists working together as they establish their focus and participate in exhibitions, performances, and critiques.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

## Learning Outcomes: Studio Art, BASA

Learning outcomes for the Bachelor of Arts Major in Studio Art

1. Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.
2. Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.
3. Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of

communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4. Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.
5. Students concentrating in New Media create work for the new disciplinary mechanisms that have arisen to evaluate and promote artwork in digital media, but also for traditional institutional mechanisms of art distribution and art critique. As in Contemporary Art, work in New Media may take the form of performance, sound and radio broadcast, gallery exhibition, curation, public art, cinema and video, a networked event, publication, or even scientific research.
6. Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace. Students in the BASA will produce web and print based documents that serve to market and promote their practice as independent makers.

## Studio Art, BFASA

for the degree of Bachelor of Fine Arts in Studio Art Major in Studio Art

**school office: 143 Art and Design Building, Champaign, IL 61820**  
**contact: Mark Avery, Coordinator of Undergraduate Academic Affairs**

**email: mavery@illinois.edu**

**phone: (217) 333-6632**

**department website: S** (<https://art.illinois.edu>)chool of Art & Design (<https://art.illinois.edu/>)

**department faculty: Art & Design Faculty** (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements: Fine & Applied Arts** (<http://catalog.illinois.edu/faa/>)

**college website: <https://faa.illinois.edu/>**

Students pursuing this major select one of five concentrations:

- General Studio Art Concentration (p. 383)
- New Media Concentration (p. 384)
- Painting Concentration (p. 385)
- Printmaking Concentration (p. 387)
- Sculpture Concentration (p. 388)

The Bachelor of Fine Arts in Studio Art (BFASA) at the University of Illinois offers students unprecedented flexibility in determining their own courses and topics of study, engaging in a diverse, innovative curriculum. In response to a rapidly changing world in which artists and designers are constantly presented with new tools, platforms, topics, strategies and venues for exhibition, publication, performance and other types of cultural

work, the BFASA prepares students for the workplaces of the future. The BFASA is designed to equip graduates with the skills necessary to not only create artwork, but to communicate, think critically and creatively, and gain experience in a broad range of topics that will prepare them as innovative artists and as global citizens. Students will navigate a dynamic curriculum that is responsive to current trends in art, culture and creativity. It encourages new, interdisciplinary initiatives and fosters collaboration and research at the undergraduate level within the context of a premier research university.

The BFASA at Illinois begins with basic material and technological tools and concepts in a variety of studio courses. Students are guided in the understanding of visual organization and communication in two, three, and four dimensions by utilizing both new and traditional technologies and strategies. Foundation courses introduce basic material and conceptual approaches to making art, using media from traditional disciplines including drawing and painting, printmaking, clay, plaster, wood and metal, to code, digital imaging, interactive media, and time-based applications.

At the intermediate and advanced levels, curriculum offerings are designed to reflect an increasingly dynamic culture, and to provide students with experiences and skills that will enhance their adaptability. A changing menu of courses on a variety of topics is taught by a faculty with expertise in a wide variety of conceptual, material and technical strategies for making art.

BFASA students are provided individual studio spaces, where they develop a self-directed practice, housed in a communal studio building. The studio configuration provides the stage for a strong, vibrant community of student-artists working together as they establish their interests and participate in exhibitions, performances, and critiques. The capstone experience is the BFASA Thesis course, in which students develop an individually determined body of work based on their entire educational experience. A portfolio and written thesis paper will demonstrate their conceptual, technical and expressive abilities. Our graduates will enter professional lives as artists at a time when the boundaries between art and other fields are vanishing. Creative individuals with broad and versatile material, technical and intellectual skills will be in demand within expanding diverse practices that comprise contemporary art and society.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

## Learning Outcomes: Studio Art, BFASA

Learning outcomes for the Bachelor of Fine Arts Major in Studio Art

1. Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.
2. Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.
3. Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.
4. Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.
5. Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.
6. Students concentrating in New Media create work for the new disciplinary mechanisms that have arisen to evaluate and promote artwork in digital media, but also for traditional institutional mechanisms of art distribution and art critique. As in Contemporary Art, work in New Media may take the form of performance, sound and radio broadcast, gallery exhibition, curation, public art, cinema and video, a networked event, publication, or even scientific research.
7. Junior and Senior years see students working with critics/professors across the School to develop a portfolio of works in time-based, interactive, physical, networked or performative media. In the process

of generating a body of work around a subject and form of their choice, students receive instruction in technical execution, formal composition, and theoretical framing.

8. While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres – artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.
9. Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

## Supply Chain Management, BS

*for the degree of Bachelor of Science Major in Supply Chain Management*

**overview of college admissions & requirements:** Gies Catalog (p. 1163)

**college website:** Gies College of Business (<https://giesbusiness.illinois.edu/>)

The Supply Chain Management student studies the flow of finances, information and materials starting from supply chain planning to the sourcing of raw material, parts and components through the manufacturing or processing sector to the marketing and delivery of end products for industrial customers or individual consumers. The Supply Chain Management Major is available only to qualified students based upon application and personal interviews. For more information, contact the Director of the Supply Chain Management Program.

*for the degree of Bachelor of Science Major in Supply Chain Management*

### Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must

be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 120 hours.**

### University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

### General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	

### Non-Primary Language Requirement

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12

### Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I <sup>3</sup>	4
Total Hours		58

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101 and BUS 201 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.

Inter-College transfer students take BUS 101 and BUS 201 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>3</sup> MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete on course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

**Specific Major Requirements: Students are required to complete an approved internship to earn the Bachelor of Science in Supply Chain Management degree.**

Code	Title	Hours
BADM 324	Purchasing and Supply Mgmt (Prerequisite: Credit or current enrollment in BADM 320)	3
BADM 327	Marketing to Business and Govt (Prerequisite: BADM 320)	3

BADM 336	Modeling the Supply Chain (Prerequisite: BADM 335) <sup>1</sup>	3
BADM 337	Practicum in Supply Chain Mgt	3
BADM 338	Global Supply Chain Management	3
BADM 350	IT for Networked Organizations	3
BADM 375	Operations Management	3
BADM 378	Logistics Management	3
Select one of the following:		3
BADM 322	Marketing Research (Prerequisite: BADM 320)	
BADM 327	Marketing to Business and Govt	
BADM 328	Advanced Sales Strategies	
BADM 352	Database Design and Management	
BADM 374	Management Decision Models (Prerequisite: BADM 211)	
BADM 377	Project Management	
BADM 379	Business Process Improvement	
Total Hours		30

<sup>1</sup> The approved internship must be completed prior to enrollment in BADM 336 and a report on the internship must be submitted.

## Learning Outcomes: Supply Chain Management, BS

Learning Outcomes for the degree of Bachelor of Science Major in Supply Chain Management

1. Disciplinary Competence: Gain an understanding of the structure of supply chains, the fundamental principles of managing them, and their interactions with other business functions.
2. Disciplinary Competence and Critical Thinking: Demonstrate the ability to analyze, model and evaluate different parts of a supply chain through appropriate quantitative and qualitative methods.
3. Critical Thinking: Develop an ability to critically evaluate real-world supply-chain problems and apply theory and models to create practically implementable solutions.
4. Group Work: Demonstrate the ability to collaborate as an effective team member in varying roles in diverse groups/environments.
5. Communication: Develop the ability to effectively and professionally tell a persuasive story through oral and written presentations.

## Sustainable Design, BS

for the Bachelor of Science in Sustainable Design

**Bachelor of Science in Sustainable Design**  
**College of Fine and Applied Arts Office of Undergraduate Affairs**  
**110 Architecture Building**  
**608 East Lorado Taft Drive**

**Faculty Program Administrator:** Dr. Daniel Schneider (ddws@illinois.edu)  
**Program Administrator:** Dr. Nicole Turner (nicturn@illinois.edu)  
**Program Website:** <https://faa.illinois.edu/bachelor-science-sustainable-design> (<https://faa.illinois.edu/bachelor-science-sustainable-design/>)  
**Program Email:** [sustaindesign@illinois.edu](mailto:sustaindesign@illinois.edu) ([sustaindesign@illinois.edu](mailto:sustaindesign@illinois.edu))  
**College Website:** <https://faa.illinois.edu/>

The major in Sustainable Design offers an innovative, interdisciplinary course of study in design, with a focus on building sustainable communities through the intentional design of environmentally sensitive products, buildings, neighborhoods, landscapes and cities.

The program grounds concrete skills development with opportunities to move between disciplinary barriers, allowing students to prepare for the future in a sustainable world where ideas from many disciplines will be necessary to solve the complex problems of pollution reduction, energy conservation, and biodiversity protection in equitable, healthy, and thriving places.

Required introductory coursework provide a solid grounding in design thinking and skills, coupled with a broad understanding of the role of design in achieving sustainable results across scales. Students will apply their skills and knowledge in a required senior capstone project.

With expertise across disciplines, students in this program will be prepared to work in the public and private sector, or continue preparation in a variety of professional graduate programs such as Architecture, Industrial Design, Landscape Architecture, Urban Design and Urban Planning.

<b>Summary of Credits for Bachelor of Science in Sustainable Design</b>		
General Education requirements <sup>1</sup>		37 (40)
Language Requirements <sup>2</sup>		0 - 12
Major Requirements		44
Major Electives		16
College or University Electives		23
<b>Total Hours for Bachelor of Science in Sustainable Design <sup>3</sup></b>		<b>120</b>

<sup>1</sup> Completion of ARTH 211 (major requirement) meets 3 hours of the general education requirement for Humanities and the Arts.

**<sup>2</sup> Language Requirements**

This requirement may be satisfied by:

- Successfully completing a third-semester college-level course in a language other than English;
- Successful completion, in high school, of the third year of a language other than English; or
- Demonstrating proficiency at the third semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department
- Current list of courses approved to satisfy the language requirement. If you enter UIUC without three years of language other than English in high school, you must take a language placement test to determine the courses in which you should enroll

<sup>3</sup> **Advanced Hours Requirement:** A minimum of 40 credits at the 300 or 400 course level are required.

# Systems Engineering & Design, BS

for the degree of Bachelor of Science in Systems Engineering and Design  
(formerly General Engineering)

**department website:** <https://ise.illinois.edu/>

**department faculty:** Industrial & Enterprise Systems Faculty  
(<https://ise.illinois.edu/directory/faculty.html>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

Systems Engineering and Design (SED) is a comprehensive, interdisciplinary program emphasizing interactions between parts of a whole. It brings together basic sciences, engineering analysis, and engineering design. The curriculum offers flexibility through a Secondary Field Option, while providing a broad background in engineering as a whole and decision-making that supports overall design. Systems Engineers understand how to coordinate interacting parts of a whole and to evaluate engineering within economic and physical constraints.

Through the Secondary Field Option electives, students can tailor their studies to one's interests and career goals in both technical and nontechnical areas. Secondary field options are of two types: pre-approved and customized. Pre-approved secondary fields have designated titles and a specified list of courses, from which several may be selected. Approval for the substitution of a course for one on the specified list may be requested via a petition form submitted to the department. Customized secondary fields may be created to achieve goals in areas not provided by pre-approved fields. To do this, a suitable title and all the courses must be petitioned for acceptance by the department. Petition approval is based on the merit of the secondary field and the coherence of the courses within it relative to the student's goals.

Pursuit of campus minors, dual degrees, and James Scholar contracts may be integrated with customized secondary field options. Courses taken may be applied to minors, dual degrees, or contracts as well as secondary field options.

## Pre-approved Secondary Fields

- Automotive Engineering
- Bioengineering
- Business Systems Integration and Consulting
- Civil Engineering Structures
- Communications and Computer Systems
- Computer Science
- Construction
- Control Systems
- Digital Prototyping
- Engineering Administration
- Engineering Marketing
- Environmental Quality
- Internet of Things (IOT)
- Manufacturing Engineering
- Nondestructive Testing and Evaluation
- Operations Research
- Quality Control
- Rehabilitation Engineering

- Robotics
- Theoretical and Applied Mechanics

## Customized Secondary Fields

Customized secondary fields differ from pre-approved ones in that no sets of specified courses to choose from have been predefined. For all customized secondary field options, a course list must be constructed and submitted for approval by the department.

The following list contains examples of over fifty titles of customized secondary field options which have been approved. The complete list may be found at the department's secondary field website (<http://ise.illinois.edu/undergraduate-programs/general-engineering-degree/secondary-field-option/>). Additional titles beyond those listed may be proposed.

- A foreign language (several)
- An engineering discipline (several)
- Audio Engineering
- Economics
- Entrepreneurship
- Finance
- Fluid Dynamics
- International Business
- Mathematics
- Pre-Law
- Pre-Med
- Renewable Energy

Design experience and project management are emphasized and integrated across the core with a focus on establishing critical problem-solving skills applied across disciplines, strong communication skills, and the ability to work effectively and get results in a team environment.

The capstone experience for Systems Engineering and Design undergraduates is the Senior Project Course. Students work collaboratively with industry and a team of faculty members on a real-world problem during their final semester. The results are documented in a final written report and a formal presentation at the end of the semester to the company so that the student recommendations may be implemented.

for the degree of Bachelor of Science in Systems Engineering and Design  
(formerly General Engineering)

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>): **2.0**

TGPA is required for Engineering and Technical Elective courses and MATH 415. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPAREquirement>) to clarify requirements.

**Minimum Overall GPA: 2.0****Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.**

**Orientation and Professional Development**

Code	Title	Hours

**Secondary Field Option Electives**

**Code Title Hours**  
**Secondary field option electives selected from departmentally approved list below or by petition to the department. <sup>4</sup> 12**

Automotive Engineering		
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
ECE 431	Electric Machinery	4
ECE 464	Power Electronics	3
ECE 470/	Introduction to Robotics	4
AE 482/		
ME 445		
ECE 486	Control Systems	4
ME 320	Heat Transfer	4
ME 360	Signal Processing	3.5
ME 400	Energy Conversion Systems	3 or 4
ME 403	Internal Combustion Engines	3 or 4
ME 460	Industrial Control Systems	4
ME 461	Computer Cntrl of Mech Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 497	Independent Study (May be taken for up to 3 credit hours, based on automotive Engineering project approved by SFO faculty mentor)	0 to 4
TAM 412	Intermediate Dynamics	4
TAM 416	Introduction to Nonlinear Dynamics and Vibrations	4

In addition to completing 12 credit hours from the list of approved courses above, students must complete:

Dynamics/Controls (select at least one course):		
ECE 470/	Introduction to Robotics	4
AE 482/		
ME 445		
ECE 486	Control Systems	4
ME 460	Industrial Control Systems	4
TAM 412	Intermediate Dynamics	4
TAM 416	Introduction to Nonlinear Dynamics and Vibrations	4

Automotive Power Systems (select at least one course):		
ME 400	Energy Conversion Systems	3 or 4
ME 403	Internal Combustion Engines	3 or 4
ECE 431	Electric Machinery	4
ECE 464	Power Electronics	3

Autonomous Systems and Robotics		
CS 225	Data Structures	4
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
ECE 470	Introduction to Robotics	4
ECE 486	Control Systems	4
ECE 490	Introduction to Optimization	3 or 4
ME 351	Analysis of Mfg Processes	3
ME 461	Computer Cntrl of Mech Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 411	Reliability Engineering	3 or 4
SE 423	Mechatronics	3

SE 411 Reliability Engineering 3 or 4

**Rehabilitation Engineering**

CHEM 232 Elementary Organic Chemistry I 3 or 4

ECE 414 Biomedical Instrumentation 3

ECE 415 Biomedical Instrumentation Lab 2

MCB 150 Molec &amp; Cellular Basis of Life 4

MCB 250 Molecular Genetics 3

MCB 251 Exp Techniqs in Molecular Biol 2

REHB 401 Introduction to Rehabilitation 4

REHB 402 Medical Aspects of Disability 4

SE 400 Engineering Law 3 or 4

**Theoretical and Applied Mechanics**

CEE 300 Behavior of Materials (Credit will not be given for CEE 300, ME 330 and MSE 280 (only one course may be taken out of these three)) 4

ME 471 Finite Element Analysis 3 or 4

SE 400 Engineering Law 3 or 4

TAM 412 Intermediate Dynamics 4

TAM 424 Mechanics of Structural Metals 3 or 4

TAM 428 Mechanics of Composites 3

TAM 435 Intermediate Fluid Mechanics 4

TAM 445 Continuum Mechanics 4

TAM 451 Intermediate Solid Mechanics 4

TAM 456 Experimental Stress Analysis 3

**Technical Electives**

Code	Title	Hours
	Design elective selected from the departmentally approved list of Design Electives below:	3
SE 410	Component Design	3
SE 420	Digital Control Systems	4
SE 423	Mechatronics	3
SE 413	Engineering Design Optimization	3 or 4
	Engineering science elective selected from the departmentally approved list of Engineering Science Electives below:	3
ME 200	Thermodynamics	3
MSE 280	Engineering Materials	3

**Electives**

Code	Title	Hours
	The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>	6
	Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>	6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Advanced Composition satisfied by completing the combination of SE 494 and SE 495.

<sup>4</sup> The following course substitutions may be used interchangeably to comply with prerequisites of specified courses in some of the secondary fields:

- CEE 202, IE 300, STAT 400
- CEE 201, IE 310
- MSE 406, CEE 300
- ECE 486, SE 320, ME 340

<sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Systems Engineering and Design (formerly General Engineering)

**Suggested Sequence**

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/systems-engineering-map/>).

<b>First Year</b>		General education elective <sup>3</sup>	3
<b>First Semester</b>	<b>Hours</b>	Semester Hours	17
SE 100 Introduction to ISE	1	<b>Fourth Year</b>	
ENG 100 Engineering Orientation	0	<b>First Semester</b>	
MATH 221 <sup>1</sup> Calculus I	4	Secondary field option elective <sup>4</sup>	3-5
CHEM 102 General Chemistry I	3	OR	
CHEM 103 General Chemistry Lab I	1	SE 494	
RHET 105 Writing and Research	4-3	& SE 495 <sup>5,6</sup>	
or SE		Design elective <sup>7</sup>	3
101 <sup>2</sup>		Engineering science elective <sup>8</sup>	3
General education elective <sup>3</sup>	3	Secondary field option elective <sup>4</sup>	3
Semester Hours	16-15	General education elective <sup>3,5</sup>	3
<b>Second Semester</b>		Semester Hours	15-17
MATH 231 Calculus II	3	<b>Second Semester</b>	
PHYS 211 University Physics: Mechanics	4	SE 494 Senior Engineering Project I	5-3
CS 101 Intro Computing: Engrg Sci	3	& SE 495 <sup>5,6</sup>	
ECE 110 Introduction to Electronics	3	OR	
SE 101 Engineering Graphics Design	3-4	Secondary field option elective <sup>4</sup>	
or RHET		Secondary field option elective <sup>4</sup>	3
105 <sup>2</sup>		General education elective <sup>3</sup>	3
Semester Hours	16-17	Free electives	6
<b>Second Year</b>		Semester Hours	17-15
<b>First Semester</b>		Total Hours:	128
MATH 241 Calculus III	4		
PHYS 212 University Physics: Elec Mag	4	<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.	
SE 261 Business Side of Engineering	1	<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <a href="http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement">http://catalog.illinois.edu/general-information/degree-general-education-requirements/under-written-communication-requirement</a> .	
TAM 211 Statics	3	<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.	
General education elective <sup>3</sup>	3	<sup>4</sup> Selected from the departmentally approved lists of Secondary Field Option Electives ( <a href="http://ise.illinois.edu/undergraduate-programs/general-engineering-degree/secondary-field-option/preapproved-secondary-field/">http://ise.illinois.edu/undergraduate-programs/general-engineering-degree/secondary-field-option/preapproved-secondary-field/</a> ) or by petition to the department.	
Semester Hours	15	<sup>5</sup> SE 494 and SE 495 may be taken in the first or second semester of the fourth year as authorized. The alternative is a secondary field option elective.

## Learning Outcomes: Systems Engineering and Design, BS

Learning Outcomes for the degree of Bachelor of Science Major in Systems Engineering and Design (formerly General Engineering)

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Systems Engineering and Design graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Teaching of French, BA

for the degree of Bachelor of Arts in the Teaching of French

### Undergraduate degree programs in French & Italian:

French, BALAS (p. 188)

Teaching of French, BA (p. 399)

Italian, BALAS (p. 235)

for the degree of Bachelor of Arts in the Teaching of French

In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** A student must have a minimum 3.5 cumulative grade point average, including a 'Satisfactory' in the teaching practicum; complete two additional advanced-level courses in French or the teaching minor; complete FR 492, and provide two letters of recommendation as evidence of exceptional teaching potential. Consult the teacher education adviser for details.

**General education: Consult the Curricula Preparatory to Teaching Foreign Languages (p. 188).**

**Minimum required major and supporting course work: Normally equates to 37 hours of French courses and 29 hours of professional education courses. The required coursework could be 16 additional hours, respectively, if the student does not already have the equivalent of French 101-102-133-134. NOTE: FR 299 is strongly recommended.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
FR 207	Writing and Grammar Workshop	3
FR 211	Introduction to Literary Studies	3
FR 212	Introduction to Cultural Analysis: French Identities	3

#### Language Courses

FR 205	Oral French	2
FR 213	French Phonetics	2
FR 314	Advanced Grammar in Context	3

#### Culture Courses

Choose two of the following:		6
FR 335	French Cultural History to 1789	
FR 336	French Cultural History 1789-1968	
FR 337	Contemporary France	

#### Literature Courses

Two courses at the 300- or 400-level in French and/or Francophone literature	6
--	---

#### Medieval and Early Modern Period course

Students must take one course focused on the medieval/early modern period. This course can be used to fulfill the Culture or Literature Courses requirement.

FR 301	Medieval and Early Modern Literature	
	or FR 335 French Cultural History to 1789	

#### Electives

Three French courses at the 300- or 400-level in any of the following areas: Language and translation, business, cinema, culture, linguistics, literature, media.	9
---	---

Professional education courses. (See Foreign Languages-Curricula Preparatory to Teaching Foreign Languages.) (p. 188)	29

## Technical Systems Management, BS

for the degree of Bachelor of Science Major in Technical Systems Management

**department website:** <https://abe.illinois.edu/undergraduate/>  
**department faculty:** <https://abe.illinois.edu/directory/faculty>  
 (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

This major in Technical Systems Management is designed to prepare students as problem solvers for systems involving the application, management, and/or marketing of agricultural engineering technologies. Students are instructed in engineering and business principles in preparation as technically competent business persons for professional careers as entrepreneurs, marketing representatives, or plant managers working with service organizations, manufacturers, corporate farms, retail dealers, power suppliers, contractors, or management companies from production through processing and distribution. Students can specialize in Construction Systems Management; Environmental Systems Management; Mechanization, Marketing, and Technology Management Systems; Production Systems; or Renewable Energy Systems.

## Learning Outcomes: Technical Systems Management, BS

Learning outcomes for the degree of Bachelor of Science Major in Technical Systems Management (TSM)

Students graduating with the B.S. in TSM should be able to:

1. Obtain subject matter expertise
2. Identify problems and develop problem solving abilities / critical thinking
3. Function effectively on multidisciplinary teams
4. Demonstrate professional and ethical values
5. Communicate effectively in written and oral forms
6. Engage in life-long learning skills
7. Develop leadership and interpersonal skills
8. Analyze and interpret data
9. Understand social and cultural contexts
10. Develop global perspective

## Theatre, BFA

for the Bachelor of Fine Arts Major in Theatre

**department website:** <https://theatre.illinois.edu>

**department faculty:** <https://theatre.illinois.edu/people/meet-our-faculty/>

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of eight concentrations:

- Acting (p. 404)
- Arts & Entertainment Technology (p. 405)
- Costume Design & Technology (p. 406)
- Lighting Design & Technology (p. 408)
- Scenic Design (p. 409)
- Scenic Technology (p. 410)
- Sound Design & Technology (p. 412)
- Stage Management (p. 413)
- Theatre Studies (p. 414)

The curricular concentrations in the Department of Theatre provide extensive preparation for the rigorous demands of a professional career in the theatre and allied arts.

The BFA is an intensive undergraduate professional training curriculum with concentrations in Acting, Costume Design and Technology, Lighting Design and Technology, Scenic Design, Scenic Technology, Sound Design and Technology, Stage Management, and Theatre Studies. The Theatre Studies concentration is intended for students who want to explore the many facets of theatre or plan to pursue advanced training in directing, dramaturgy, playwriting, arts management, social issues theatre, and theatre history and criticism.

As part of the application process, prospective students must complete an interview and participate in auditions or portfolio reviews. Acting applicants should bring a resume/headshot and present 2 contrasting monologues of no more than 2 minutes each for their audition.

Applicants who wish to pursue one of the concentrations in Design, Technology, or Management should bring a resume and a portfolio showing examples of their theatrical work, which can include a range of interests and experiences. Applicants who intend to pursue the Theatre Studies Concentration should present a writing portfolio that includes a

resume and a short essay on theatre or another short, written creative work.

In the second year of study in the department, BFA Acting students are evaluated for promotion into the advanced studio classes in acting (Junior and Senior years.) In addition to successful completion of all classes in their first and second years, acceptance will be based on each student's potential for professional-caliber performance.

As one of the Resident Producing Organizations at the Krannert Center for the Performing Arts, the Department of Theatre produces six or seven fully mounted productions each academic year. The theatres, rehearsal halls and shops of the Krannert Center serve as laboratories for theatre students, who have the opportunity to learn and to work alongside an outstanding staff of resident theatre professionals and visiting artists. In addition, the department sponsors a small experimental theatre space for student-written and student-directed productions.

All theatre majors must successfully complete production crew assignments at the Krannert Center under THEA 100 (Practicum I) and THEA 200 (Practicum II). Students working on Department of Theatre productions in their specific concentration area also take THEA 300 (Practicum III) or THEA 400 (Practicum IV.) Design, Technology, and Management concentration students will also receive practicum credit for working on productions in Lyric Theatre, Department of Dance and Events.

## Theatre: Acting, BFA

for the Bachelor of Fine Arts Major in Theatre, Acting Concentration

**department website:** <https://theatre.illinois.edu>

**department faculty:** <https://theatre.illinois.edu/people/meet-our-faculty/>

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

### Acting Concentration

The acting concentration provides intensive training in a wide range of performance aspects. In the first and second years, students take foundational courses in acting that include movement and vocal production. In the second year of study in the department, BFA Acting students are evaluated for promotion into the advanced studio classes in acting (Junior and Senior years.) In addition to successful completion of all classes in their first and second years, acceptance will be based on each student's potential for professional-caliber performance.

Considerations include potential for expressive movement, effective voice and speech, emotionally connected characterization, intellectually thorough. Analysis and reliable discipline for intensive study. Students who are not promoted into the advanced studio classes may apply to the Theatre Studies concentration. Third- and fourth-year students meet in daily four-hour sessions, each of which includes voice and speech, movement and acting. Students acquire skills in stage combat and dialects. The four semesters of acting scene study focus on modern classical plays, musical theatre, Shakespeare and acting for the camera. Students. In the professional studio in acting are expected to audition for department productions and perform as cast.

for the Bachelor of Fine Arts Major in Theatre, Acting Concentration

A minimum of 128 hours of credit is required for the degree.

**Twelve hours of 300 and 400-level courses in the major must be taken on this campus.**

**40 credits hours in degree required in 300-400 level coursework to meet IBHE requirements.**

## Learning Outcomes: Acting Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Acting Concentration

### Student Learning Outcomes

1. Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
2. Demonstrates ability to creatively engage in the collaborative process in rehearsal, construction, and performance of works for the stage.
3. Demonstrates an ability to analyze, prepare, and perform in dramatic material including works from contemporary theatre, modern classics, Shakespeare, musical theatre, and media including film, television, and web, among others.
4. Demonstrates increasing ability to recognize and adjust voice, speech, and movement skills (including stage combat techniques) in application to performance for the stage.
5. Demonstrates an understanding of the expectations of professional practice in auditioning for and working in professional theatre, film, television, and other media.

## Theatre: Arts & Entertainment Technology, BFA

for the Bachelor of Fine Arts Major in Theatre, Arts & Entertainment Technology Concentration

**department website:** <https://theatre.illinois.edu>  
**department faculty:** <https://theatre.illinois.edu/people/meet-our-faculty/>  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

### Arts & Entertainment Technology Concentration

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

for the Bachelor of Fine Arts Major in Theatre, Arts & Entertainment Technology Concentration

A minimum of 128 hours of credit is required for the degree.

**Twelve hours of 300 and 400-level courses in the major must be taken on this campus.**  
**40 credits hours in degree required in 300-400 level coursework to meet IBHE requirements.**

## Learning Outcomes: Lighting Design & Technology Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Lighting Design Concentration

### Student Learning Outcomes

1. Communicate design and production ideas to collaborators through graphic skills, language and research and the ability to analyze and interpret creative, critical and theoretical works.
2. Demonstrates the practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to lighting design for a stage production.
3. Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera, dance and non-traditional venues and styles of design.
4. Gain the practical ability to see their designs come to life from concept through realization by collaborating on current productions with peers, faculty, staff and guest artists.
5. Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of lighting design and technology including

significant technical mastery, showing the capacity to produce work and solve problems independently.

## Learning Outcomes: Scenic Technology Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Scenic Technology Concentration

#### Student Learning Outcomes

1. Demonstrates practical application of learned methodologies to successfully fulfill a leadership role for a stage production.
2. Demonstrate proficiency in technical, managerial and leadership skills required to attain professional, entry-level positions in the live entertainment industry.
3. Demonstrate the ability to effectively communicate ideas, concepts and outcomes through the build, load in, tech and performance of a stage production.
4. Demonstrate the ability to synthesize independently acquired knowledge through the successful execution of a capstone project.

5. Demonstrates the ability to analyze and interpret creative, critical and theoretical works in the field of theatre and performance, both past and present.

## Learning Outcomes: Sound Design & Technology Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Sound Design & Technology Concentration

### Student Learning Outcomes

1. Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
2. Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage.
3. Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to sound design for a stage production.
4. Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera and dance.
5. Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of sound design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.

## Level 21: Design, Technology and Management Concentrations

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of

assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

## Theatre Studies Program

The theatre studies concentration focuses on the practical applications of theatre and explores theatrical productions as a collaborative art form that is grounded in practice, theory, criticism, history, research and writing. The theatre studies concentration is intended to lay the foundation for students planning to pursue professional careers in the areas of theatre for which advanced training or specialization at the graduate level is normally required. These areas include, but are not limited to: directing, dramaturgy, playwriting, arts management, social issues theatre and theatre history and criticism. Emphasis is given to a comprehensive study of theatre practices of the past, participation in theatre practices of the present and the discovery and development of theatre practices for the future.

## Learning Outcomes: Theatre Studies Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Theatre Studies Concentration

### Student Learning Outcomes

1. Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
2. Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage. Demonstrates comprehension of theory and application of practices in areas of emphasis through production related activities.
3. Demonstrates necessary skills and knowledge to acquire an entry-level position in the theatre showing the capacity to work and solve problems independently and with initiative (demonstrated through participation in a professional internship).
4. Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and outcomes of creative research (demonstrated in public presentation of a senior thesis project).

## Urban Studies & Planning, BA

For the degree of Bachelor of Arts Major in Urban Studies & Planning

**department website:** <https://urban.illinois.edu>  
**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of four concentrations:

Global Cities (p. 416)  
 Policy & Planning (p. 417)  
 Social Justice (p. 418)  
 Sustainability (p. 420)

The Department of Urban and Regional Planning offers a program leading to the degree of Bachelor of Arts in Urban Studies and Planning. The aim of urban planning is to sustain and enhance the quality of life in cities and regions. Therefore, in addition to technical skills, students also acquire a broad liberal education that leads to an understanding of the natural and social environments, their problems, and their potential for enriching human life. The urban planning degree emphasizes skills in analysis, problem solving, and communication within complex urban and social contexts. As a result, undergraduate planning education leads to diverse professional careers or graduate study in urban planning or related professions, such as law, business, public policy or public administration. Continuation in the program requires the student to maintain a 2.00 grade point average. The degree is professionally accredited by the Planning Accreditation Board.

A transfer student must have completed 30 or more semester hours of acceptable undergraduate college work (including introductory courses

in microeconomics, statistics, and sociology; a sequence in English composition is desirable) with an earned grade point average of at least 2.75 (A = 4.0). Transfer applicants not meeting these requirements will be considered in special cases.

*For the degree of Bachelor of Arts Major in Urban Studies & Planning*

## Summary of Requirements

Code	Title	Hours
<b>1st Year</b>		
UP 101	Introduction to City Planning	
UP 201	Planning in Action

## Capstone

Required Courses:	Required Hours
Capstone Preparation: During the 3rd year, students enroll in UP 301, Capstone Preparation. Students meet individually with their capstone advisor to develop a plan to meet the capstone requirement. To pass this course students must turn in a proposal at the end of the semester.	1
Capstone Experience: Students engage in a semester or summer-long applied activity outside of the classroom. The Capstone Experience is intended to engage the students in the real world and prepare them for the job market. Students typically complete this requirement during their junior year, but have the option to complete it during the summer between their 3rd and 4th year. Examples include a paid or unpaid internship, volunteer work, consulting project with a client, summer research and more. Students enroll in UP 390, Planning Internship, and/or UP 397, Undergraduate Project, to receive credit.	3
Capstone Seminar: During the 4th year, students enroll in UP 401 for 2 semesters. Students will participate in monthly activities to discuss and reflect on the Capstone Experience. In addition, students will present a poster summarizing their capstone experience in a public setting; for example at a public engagement conference, public meeting or community meeting, McNair Scholars conference, James Scholars event, Illinois American Planning Association meeting, undergraduate research symposium, or other venue. The seminar sessions also include career development such as resume writing, interviewing and networking with professionals through the Wetmore Lecture Series.	2

## Global Cities Concentration

Code	Title	Hours
UP 185	Cities in a Global Perspective (Gateway)	3
Select 2 courses from:		6-8
UP 335	Cities and Immigrants	
UP 406	Urban Ecology	
UP 423	Community Development in the Global South

Capstone Preparation: During the 3rd year, students enroll in UP 301, Capstone Preparation. Students meet individually with their capstone advisor to develop a plan to meet the capstone requirement. To pass this course students must turn in a proposal at the end of the semester.	1	
Capstone Experience: Students engage in a semester or summer-long applied activity outside of the classroom. The Capstone Experience is intended to engage the students in the real world and prepare them for the job market. Students typically complete this requirement during their junior year, but have the option to complete it during the summer between their 3rd and 4th year. Examples include a paid or unpaid internship, volunteer work, consulting project with a client, summer research and more. Students enroll in UP 390, Planning Internship, and/or UP 397, Undergraduate Project, to receive credit.	3	
Capstone Seminar: During the 4th year, students enroll in UP 401 for 2 semesters. Students will participate in monthly activities to discuss and reflect on the Capstone Experience. In addition, students will present a poster summarizing their capstone experience in a public setting; for example at a public engagement conference, public meeting or community meeting, McNair Scholars conference, James Scholars event, Illinois American Planning Association meeting, undergraduate research symposium, or other venue. The seminar sessions also include career development such as resume writing, interviewing and networking with professionals through the Wetmore Lecture Series.	2	
<b>Social Justice Concentration</b>

## Urban Studies & Planning: Sustainability, BA

*For the degree of Bachelor of Arts Major in Urban Studies & Planning,  
Sustainability Concentration*

**department website:** <https://urban.illinois.edu>  
**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

The Department of Urban and Regional Planning offers a program leading to the degree of Bachelor of Arts in Urban Studies and Planning. The aim of urban planning is to sustain and enhance the quality of life in cities and regions. Therefore, in addition to technical skills, students also acquire a broad liberal education that leads to an understanding of the natural and social environments, their problems, and their potential for enriching human life. The urban planning degree emphasizes skills in analysis, problem solving, and communication within complex urban and social contexts. As a result, undergraduate planning education leads to diverse professional careers or graduate study in urban planning or related professions, such as law, business, public policy or public administration. Continuation in the program requires the student to maintain a 2.00 grade point average. The degree is professionally accredited by the Planning Accreditation Board.

A transfer student must have completed 30 or more semester hours of acceptable undergraduate college work (including introductory courses in microeconomics, statistics, and sociology; a sequence in English composition is desirable) with an earned grade point average of at least 2.75 (A = 4.0). Transfer applicants not meeting these requirements will be considered in special cases.

*For the degree of Bachelor of Arts Major in Urban Studies & Planning,  
Sustainability Concentration*

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

### Foundation Courses

Code	Title	Hours
RHET 105	Writing and Research (or equivalent)	4
3-4 hours selected from:		
AAS 100	Intro Asian American Studies	
AFRO 100	Intro to African American St

## Learning Outcomes: Urban Studies & Planning

*Learning outcomes for the degree of Bachelor of Arts Major in Urban Studies & Planning*

To be consistent with our accreditation requirements, we are using the Knowledge, Skills, and Values identified by the Planning Accreditation Board as desired outcomes for planning education:

1. General planning knowledge:
  - a. Purpose and Meaning of Planning:.
  - b. Planning Theory:
  - c. Planning Law:
  - d. Human Settlements and History of Planning:
  - e. The Future:
  - f. Global Dimensions of Planning:
2. Planning skills:
  - a. Research Written, Oral and Graphic Communication:
  - b. Quantitative and Qualitative Methods:
  - c. Plan Creation and Implementation: is able to use

## Aerospace Engineering, BS and Engineering: Energy Systems, MEng

*for the joint degree of Bachelor of Science in Aerospace Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

---

**department website:** <https://ae.illinois.edu/>  
**department faculty:** Aerospace Engineering Faculty (<https://ae.illinois.edu/directory/faculty/>)  
**college website:** <https://grainger.illinois.edu/>  
**email:** [aerospace@illinois.edu](mailto:aerospace@illinois.edu)

---

The joint B.S.-M.Eng. in Engineering with a Concentration in Energy Systems program combines two degrees: a B.S. in select engineering undergraduate majors with the M.Eng. in Engineering with a Concentration in Energy Systems. Current Illinois students enrolled in the College of Engineering with junior standing (normally at least 90 credit

hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in a standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S.-M.Eng. degree have been successfully completed but will be permitted to participate in the B.S. degree graduation ceremonies with their class if they have completed the equivalent number of credit hours. This program is not intended for students intending to pursue a Ph.D. degree.

---

### Admissions

For deadlines and procedures, consult the department Web site (<https://www.ae.illinois.edu/>). Current Illinois Engineering students who are in their junior year (normally at least 90 credit hours, including those in progress, and at least one year of undergraduate coursework remaining) with an overall GPA of at least 3.0 and a technical GPA 3.0 may apply for provisional admission to the program. Admission decisions are based on overall academic performance, letters of reference, and statement of purpose. Admissions to this program will occur both in the fall and spring term. The application deadline for spring term will be December 1 and for fall term will be July 1. The Energy and Sustainability Engineering M.Eng. admissions committee will review applications for this program and students accepted into the program will be given "provisional admission." Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.0 through completion of the B.S. component of the degree to remain in the program.
- may register for graduate courses and earn graduate hours credit, with approval from their graduate academic advisor, if they have less than 12 credit hours remaining in their B.S. component.
- must earn at least 124 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component, students:

- must apply and be officially admitted into the Graduate College.
- will be issued letters of admission from the Graduate College and the NPRE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- must satisfy the graduate student minimum residence requirement, which is 24 graduate credit hours.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

---

### Withdrawal

Students may withdraw from the program at any time by notifying the Office of the Associate Dean for Undergraduate Programs. Students who do not complete both the B.S.-M.Eng. degree program requirements may request by petition to have graduate hours earned converted to undergraduate hours and applied toward the student's traditional engineering undergraduate major. Students reverting to the traditional B.S. degree program must complete 128 hours and must satisfy all degree requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

\*The 124-hour B.S. degree from the B.S.-M.Eng. Program is not ABET accredited, but would be if the student withdrew from the M.Eng. component and completed the requirements of the traditional 128-hour B.S. program. It is noted students desiring to have their B.S. degree ABET

accredited should remain in their BS (128 hours) program and apply for the M.Eng. degree in their senior year.

*for the joint degree of Bachelor of Science in Aerospace Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

---

## Course Requirements

### B.S. Component (124 hours):

- Same required courses as the traditional B.S. degree with the minimum hours required reduced from 128 to 124 hours.
  - The reduction of 4 credit hours is based on the utilization of 4 hours in free elective in the student's undergraduate curriculum.
- Illinois undergraduate student minimum residence requirement satisfied.
- Overall grade point average (GPA) of 3.0 maintained through completion of B.S. component of the program.

### M.Eng. Component (32 additional hours of coursework)

- Identical to the current M.Eng. in Engineering with a concentration in Energy Systems (<http://catalog.illinois.edu/graduate/concentrations/energy-systems-meng/>). A total of 32 hours (including the shared coursework) are required.
- Satisfy Illinois' graduate student minimum residence requirement.
- Overall GPA of 3.00 must be maintained through completion of M.Eng. component of the program.

## Aerospace Engineering, BS-MS

*for the joint degree of Bachelor of Science in Aerospace Engineering and Master of Science in Aerospace Engineering*

---

**department website:** <https://ae.illinois.edu/>  
**department faculty:** Aerospace Engineering Faculty (<https://ae.illinois.edu/directory/faculty/>)  
**college website:** <https://grainger.illinois.edu/>  
**email:** [aerospace@illinois.edu](mailto:aerospace@illinois.edu)

The joint B.S.-M.S. program in AE combines two degrees: a B.S. in AE with a M.S. in AE. Current AE students enrolled in The Grainger College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that in the standard four-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S.-M.S. degree have been successfully completed.

### Admission

For deadlines and procedures, consult the department web site (<https://www.ae.illinois.edu/>). Current Grainger AE students can apply after they complete their junior-level courses, but before they start their senior year. Students with an overall GPA of at least 3.00 may apply for admission to the program. Admission decisions are based on overall academic performance, letters of reference, and statement of purpose. The GRE general test is not required.

Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.00 through completion of the B.S. component of the program in order to remain in the program.
- must maintain a technical GPA of 3.40 through completion of the B.S. component of the program.
- may register for graduate courses and earn graduate hour credits, with approval from their graduate academic advisor, when they have less than 12 credit hours remaining in their B.S. component.
- must earn at least 121 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component students:

- must apply and be officially admitted into the Graduate College.
- are assigned a graduate academic advisor when B.S. courses are completed.
- will be issued letters of admission from the Graduate College and the AE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- must satisfy the graduate student minimum residence requirement, which is 24 graduate credit hours.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

### Withdrawal

Students may withdraw from the program at any time by notifying the AE Undergraduate Programs Office. Students who do not complete all 5-year B.S.-M.S. degree program requirements may request by petition to have graduate hours earned converted to undergraduate hours and applied toward a traditional B.S. in AE degree. Students reverting to a traditional B.S. degree program must complete 128 hours and satisfy all degree requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

\*The 121-hour B.S. degree from the B.S. - M.S. program is not ABET accredited, but would be if the student withdrew from the M.S. component and completed the requirements of the traditional 128-hour B.S. program.

*for the joint degree of Bachelor of Science in Aerospace Engineering and Master of Science in Aerospace Engineering*

---

### Course Requirements

#### B.S. Component (121 hours)<sup>1</sup>

- Same required courses as the traditional B.S. degree with minimum hours required reduced from 128 to 121.
- The reduction of 7 credit hours includes:
  - a. 4 hours in Free Electives in both AE curricula
  - b. 3 hours in other non-AE Technical Electives
- Overall GPA of 3.40 must be maintained through completion of B.S. component of the program.
- Students can apply after they complete their junior-level courses, but before they start their senior year.

- Illinois undergraduate student minimum residence requirement must be satisfied.

At the graduate level, requirements are identical for both the M.S. Non-Thesis Track (<http://catalog.illinois.edu/graduate/ms-aero-eng/#degreerequirementstext>) (32 additional hours of coursework) and the M.S. Thesis Track (<http://catalog.illinois.edu/graduate/ms-aero-eng/#degreerequirementstext>) (32 additional hours of coursework).

<sup>1</sup> *If the student withdraws from the MS component they must revert to the traditional BS degree program and satisfy all degree requirements of the BS curriculum.*

## Agricultural & Biological Engineering, BS and Engineering: Energy Systems, MEng

*for the joint degree of Bachelor of Science in Agricultural & Biological Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

**department website:** <https://abe.illinois.edu/undergraduate/>

*for the joint degree of Bachelor of Science in Agricultural & Biological Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

### Course Requirements

#### B.S. Component (124 hours):

- Same required courses as the traditional B.S. degree with the minimum hours required reduced from 128 to 124 hours.
  - The reduction of 4 credit hours is based on the utilization of 4 hours in free elective in the student's undergraduate curriculum.
- Illinois undergraduate student minimum residence requirement satisfied.
- Overall grade point average (GPA) of 3.0 maintained through completion of B.S. component of the program.

#### M.Eng. Component (32 additional hours of coursework)

- Identical to the current M.Eng. in Engineering with a concentration in Energy Systems (<http://catalog.illinois.edu/graduate/concentrations/energy-systems-meng/>). A total of 32 hours (including the shared coursework) are required.
- Satisfy Illinois' graduate student minimum residence requirement.

- Overall GPA of 3.00 must be maintained through completion of M.Eng. component of the program.

# Agricultural & Consumer Economics, BS and Agricultural & Applied Economics, MAAE

for the degrees of Bachelor of Science Major in Agricultural & Consumer Economics and Master of Agricultural & Applied Economics in Agricultural & Applied Economics

**department website:** <https://ace.illinois.edu/>  
**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The MAAE program includes a combined BS/MAAE option for ACE undergraduates. Combined program students must meet all requirements for their BS degree in ACE, and take an additional 26 hours of graduate credit to earn the MAAE degree. Six hours of upper-level electives will count jointly for both degrees. As a combined program, students will receive both degrees at the completion of both programs.

for the degrees of Bachelor of Science Major in Agricultural & Consumer Economics and Master of Agricultural & Applied Economics in Agricultural & Applied Economics

<sup>1</sup> Six hours of upper level electives will count jointly in the BS and Masters programs.

## Animal Sciences BS-MANSC

for the degree of Bachelor of Science Major in Animal Sciences and Master of Animal Sciences in Animal Science

**department website:** <https://ansc.illinois.edu/>

**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The joint BS/MANSC program in Animal Sciences integrates a baccalaureate (BS) in Animal Sciences preparation with a non-thesis Master of Animal Sciences (MANSC) preparation. Students enrolled in the BS in Animal Sciences program that have completed a minimum of 60 credit hours of degree requirements and that have a minimum GPA of 3.0 are eligible to apply and be admitted to this program. Students that have a GPA above 2.75 may be admitted on probationary status. The Department of Animal Sciences will support the application to the MANSC program of the students in this joint program that have completed the required 126 credit hours towards a BS in Animal Sciences degree (including a minimum of 40 hours of 300- or 400- level courses) and that have a minimum GPA of 3.0. Up to 12 graduate-level (400- or 500-level) credit hours from the BS program will count towards the 32 credit-hour requirement of the MANSC program.

for the degree of Bachelor of Science Major in Animal Sciences and Master of Animal Sciences in Animal Science

The joint BS/MANSC program in Animal Sciences integrates a baccalaureate (BS) in Animal Sciences preparation with a non-thesis Master of Animal Sciences (MANSC) preparation. Students enrolled in the BS in Animal Sciences program that have completed a minimum of 60 credit hours of degree requirements and that have a minimum GPA of 3.0 are eligible to apply and be admitted to this program. Students that have a GPA above 2.75 may be admitted on probationary status.

The Department of Animal Sciences will support the application to the MANSC program of the students in this joint program that have completed the required 126 credit hours towards a BS in Animal Sciences degree (including a minimum of 40 hours of 300- or 400- level courses) and that have a minimum GPA of 3.0. Up to 12 graduate-level (400- or 500-level) credit hours from the BS program will count towards the 32 credit-hour requirement of the MANSC program.

Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following:		4-5
MATH 220	Calculus	
MATH 221	Calculus I	
MATH 234	Calculus for Business I	
<b>Quantitative Reasoning II</b>		
Select one of the following:		3-4
ACE 261	Applied Statistical Methods	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
PSYC 235	Intro to Statistics	
STAT 100	Statistics	
SOC 280	Intro to Social Statistics	
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4
MCB 100 & MCB 101	Introductory Microbiology and Intro Microbiology Laboratory	5
<b>Humanities and the Arts</b>		
Courses selected from campus approved list		6
<b>Social Sciences</b>		
ECON 102	Microeconomic Principles	3
	or ACE 100 Introduction to Applied Microeconomics	
Additional social or behavioral science course; cannot be an economics course.		3-4
<b>ACES Required</b>		
ACES 101	Contemporary Issues in ACES	2
<b>Animal Sciences Required</b>		
ANSC 100	Intro to Animal Sciences	4
ANSC 101	Contemporary Animal Issues	3
ANSC 103	Working With Farm Animals	2
ANSC 221	Cells, Metabolism and Genetics	3
ANSC 222	Anatomy and Physiology	3
ANSC 223	Animal Nutrition	3
ANSC 224	Animal Reproduction and Growth	4
ANSC 298	Undergraduate Seminar	1

ANSC 398	UG Experiential Learning <sup>1</sup>	1
ANSC 498	Integrating Animal Sciences	2

## Other Requirements

### Requirement

The required 126 hours for the B.S. degree must include a minimum of 40 hours of 300- and 400-level courses

Minimum GPA: 3.0

<sup>1</sup> ANSC 398 only fulfills the degree requirement when taken for a standard letter grade.

**For the Bachelor of Science students must choose one of the concentrations, Companion Animal & Equine Science, Food Animal Production & Management, or Science, Pre-Veterinary & Medical listed below:**

Code	Title	Hours
<b>Companion Animal and Equine Science Concentration Required</b>		
Choose one group: <sup>1</sup>		6
ANSC 250 Companion Animals in Society & ANSC 307and Companion Animal Management		
or		
ANSC 206 Horse Management & ANSC 306and Equine Science		
Select two of the following Applied Sciences courses: <sup>1</sup>		6
ANSC 201	Principles of Dairy Production	
ANSC 204	Intro Dairy Cattle Evaluation	
ANSC 205	World Animal Resources	
ANSC 206	Horse Management <sup>1</sup>

#### Other Requirements

##### Requirement

Other Requirements and conditions may overlap

A maximum of 12 graduate-level credit hours from the B.S. degree will count towards the MANSC degree

Minimum GPA: 3.0

## Computer Engineering, BS and Electrical & Computer Engineering, MEng

for the joint degree of Bachelor of Science in Computer Engineering and Master of Engineering in Electrical & Computer Engineering

### This program is not currently accepting applications.

for the joint degree of Bachelor of Science in Computer Engineering and Master of Engineering in Electrical & Computer Engineering

The joint B.S. - M.Eng. program in Electrical and Computer Engineering combines two degrees: a B.S. in CompE with a M.Eng. in ECE. Current Grainger ECE students enrolled in the College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in the standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements

for both the B.S. - M.Eng. degree have been successfully completed. Students may participate in the graduation ceremonies for their B.S. degree once the 120 credit-hour requirement is met. There will be no Graduate College or BOT waivers allowed for students in this program. This program is not intended for students intending to pursue the Ph.D. degree—such students should apply to the traditional M.S. (with thesis) degree program.

### Course Requirements

#### B.S. Component (120 hours)

- Same required courses as the traditional B.S. degree with minimum hours required reduced from 128 to 120.
- The reduction of 8 credit hours includes:
  - 6 hours in Free Electives in CompE curricula
  - 2 hours in ECE or CS courses in CompE Technical Electives.
- Overall GPA of 3.40 must be maintained through completion of B.S. component of the program.
- Illinois undergraduate student minimum residence requirement must be satisfied.

#### M.Eng. Component (32 additional hours of coursework)

- Identical to stand-alone M.Eng. degree requirements. (<http://catalog.illinois.edu/graduate/graduate-majors/ece/me-ece/>)

## Computer Science, BS-MCS

*for the joint degree of Bachelor of Science in Computer Science and Master of Computer Science in Computer Science*

**department website:** <https://cs.illinois.edu>

**department faculty:** Computer Science Faculty (<https://cs.illinois.edu/people/faculty/>)

**college website:** <https://grainger.illinois.edu/>

The 5-year program in Computer Science combines two degrees: a B.S. in Computer Science with an M.C.S. in Computer Science. This program is competitive and admission is based on overall academic performance, letters of recommendation, and statement of purpose.

### Admission

For deadlines and procedures, please consult the department website (<https://cs.illinois.edu/academics/graduate/fifth-year-masters-programs/5-year-bs-mcs-program/>). Current Computer Science students enrolled in The Grainger College of Engineering with a junior standing (must have at least one year left of their undergraduate study after admitted into the program) who maintain an excellent academic performance are eligible to apply for this program. Students admitted to this program will receive both degrees once all requirements for both degrees have been successfully completed. Transfer students entering the CS undergraduate program their junior year are also eligible to apply to this program.

Students provisionally admitted to the program:

- are assigned a graduate academic advisor.
- must maintain an overall GPA of 3.0 through completion of the B.S. component of the program to remain in the program.
- may register for graduate courses and earn graduate credit hours, with approval from their graduate academic advisor, if they have

12 hours or less to complete in their FINAL semester of their undergraduate studies. Please note that students cannot transfer more than 12 credit hours of coursework over to their M.C.S. degree, which includes the shared coursework.

- must earn at least 120 hours of undergraduate credit, 9 hours of graduate credit (this is the "Breadth Requirement (<http://cs.illinois.edu/prospective-students/graduate-students/professional-masters-mcs/professional-masters-mcs-degree-requ/>)"), and satisfy all B.S. requirements to be officially recommended for admission to the Graduate College.

Upon successful completion of the B.S. component (including grades of B- or better in the "Breadth Requirement (<http://cs.illinois.edu/prospective-students/graduate-students/professional-masters-mcs/professional-masters-mcs-degree-requ/>)"), and an overall GPA of at least 3.0 GPA, students

- will be officially admitted into the Graduate College, with the application fee paid by the department.
- will be issued letter of admission from the Graduate College Admission Office and the Department of Computer Science, at which time they will be considered graduate students and assessed graduate tuition the following semester. International students may be required to submit additional documentation at this time.
- must continue to maintain a graduate GPA of 3.0 or better in order to remain in the combined program.
- must complete all the remaining M.C.S. degree requirements within two semesters (fall-spring, spring-summer, or spring-fall). Please note that if you finish your B.S. requirements in less than four years, you will not be given extra time to complete the M.C.S. degree requirements. You will just finish this joint program in less than 5-years and be able to start working sooner!

### Withdrawal

Students who do not complete all 5-Year B.S.- M.C.S. degree program requirements may request by petition to have graduate hours earned, including the Breadth Requirement coursework, converted to undergraduate hours and applied toward a traditional B.S. in Computer Science degree. Students reverted back to the B.S. degree program must earn the minimum number of hours and satisfy all degree requirements of whichever version of the B.S. curriculum appropriate. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

*for the joint degree of Bachelor of Science in Computer Science and Master of Computer Science in Computer Science*

### Requirements

B.S. Component: 120 hours plus 3 "Breadth Requirement" courses for 9-12 graduate hours

- Same required courses as the traditional B.S. degree with the minimum hours required reduced to 120 hours.
- Must complete 3 out of the 4 "Breadth Requirement" courses: four different courses, each from a different area, from the following eight core areas with a grade of B- or higher.
- University undergraduate minimum residence requirement satisfied.

- Overall GPA of 3.0 or higher maintained through the completion of the B.S. component of the program.

M.C.S. Component: Minimum 20-23 additional coursework hours

- Program is identical to the traditional M.C.S. program with the 3 out of 4 "Breadth Requirement (<http://cs.illinois.edu/prospective-students/graduate-students/professional-masters-mcs/professional-masters-mcs-degree-requ/>)" courses satisfied while still classified as an undergraduate.
- Students who take the "Breadth Requirement (<http://cs.illinois.edu/prospective-students/graduate-students/professional-masters-mcs/professional-masters-mcs-degree-requ/>)" courses for 3 credit hours instead of 4 will need to complete a minimum of 23 additional graduate level coursework hours.
- Students must satisfy the university's graduate student minimum residence requirement.
- Students must complete remaining M.C.S. degree requirements in two semesters (fall-spring, spring-summer, or spring-fall).
- Students must maintain an overall GPA of 3.0 through completion of the M.C.S. component of the program.

## Computer Science, BS-MS

*for the joint degree of Bachelor of Science in Computer Science and Master of Science in Computer Science*

**department website:** <https://cs.illinois.edu>

**department faculty:** Computer Science Faculty (<https://cs.illinois.edu/people/faculty/>)

**college website:** <https://grainger.illinois.edu/>

The five-year B.S.-M.S. program in Computer Science combines two degrees: a B.S. in Computer Science with an M.S. (with thesis) in Computer Science. Current Computer Science students enrolled in The Grainger College of Engineering with junior standing who maintain superior academic performance are eligible to apply for this program. Students admitted to the program will receive both degrees once all requirements for the 5-year B.S.-M.S. degree program have been successfully completed.

### Admission

For deadlines and procedures, consult the department website (<https://cs.illinois.edu/academics/graduate/fifth-year-masters-programs/5-year-bs-ms-program/>). Current Grainger Engineering Computer Science students who are in their junior year (normally at least 90+ credit hours, including those in progress, and at least one year of undergraduate course work remaining) with an overall GPA of at least 3.50 may apply for provisional admission to the program. The 5-year program is highly competitive. Admission is based on overall academic performance, letters of reference, and statement of purpose. The GRE General Test is not required.

Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.00 through completion of the B.S. component of the program, to remain in the program.
- may register for graduate courses and earn graduate hours credit, with approval from their graduate academic advisor, even if they are more than 10 hours from completing the B.S. component.

- must earn at least 120 hours of undergraduate credit, 9 hours of graduate credit (in the Breadth Requirement courses), and satisfy all B.S. requirements to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component (including grades of B- or better in the Breadth Requirement), and an overall GPA of at least 3.00 in all graduate course work, students:

- will be officially admitted into the Graduate College.
- will be issued letters of admission from the Office of Admissions and Records and the Computer Science Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- may apply or be considered for graduate research or teaching assistantships, tuition waivers, as well as fellowships and scholarships available to graduate students.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

### Withdrawal

Students may withdraw from the program at any time by notifying the Office of the Associate Dean for Undergraduate Programs and the Assistant Director of CS Graduate Programs. Students who do not complete all 5-year B.S.- M.S. degree program requirements may upon request have all graduate hours earned, including the Breadth Requirement course work converted to undergraduate hours and applied toward a traditional B.S. in Computer Science degree. Students reverted back to the B.S. degree program must earn the minimum number of hours and satisfy all degree requirements of whichever version of the B.S. curriculum is appropriate. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

### Continued Graduate Study

Students in the program are eligible to apply for the Ph.D. program in Computer Science near completion of the M.S. component. If admitted, the combined degree will count as Stage 1 of the Ph.D. program, as if the student is admitted with a master's degree.

Students are strongly advised to seek faculty counsel about the 5-year program to be sure they understand the pros and cons of pursuing a master's degree via the 5-year program. If their intention is to ultimately pursue a Ph.D., then it may be preferable to avoid the rapid pace of the 5-year program and instead invest time in research as an undergraduate. For admission to competitive Ph.D. programs, the expectation of publications and extensive research experience is higher for M.S. graduates. Therefore, as an alternative to the 5-year program, many top students may prefer to conduct research, possibly leading to a B.S. thesis, as a way to improve their admissions chances into top Ph.D. programs.

*for the joint degree of Bachelor of Science in Computer Science and Master of Science in Computer Science*

### Requirements

B.S. Component (120 hours plus three 400-level courses for 9-12 graduate hours):

- Same required courses as the traditional B.S. degree with the minimum hours required – not counting technical electives taken for graduate credit (see below) – reduced from 128 to 120.

- Course work shared by the B.S. and M.S. components must include three courses and at most 12 credit hours of 400-level CS courses required for the B.S. which also count towards the Breadth Requirement course work of the M.S. component, all of which must be taken for graduate credit. (Students must take the graduate section of the courses if offered and are strongly encouraged to take the 4-hour section if available). The CS Graduate academic advisor will assist students in mapping out this course work.
- Illinois undergraduate student minimum residence requirement satisfied
- Overall grade point average (GPA) of 3.00 maintained through completion of B.S. component of the program.

M.S. Component (minimum 16 additional credit hours plus 4 hours of CS 599):

- Identical to the traditional M.S. program with the Breadth Requirement course work satisfied while still classified as undergraduate (though held to the standards of a graduate student). A total of 32 credit hours (including the shared course work) are required.
- Satisfy Illinois' graduate student minimum residence requirement.
- Overall GPA of 3.00 must be maintained through completion of M.S. component of the program.

## Computer Science & Animal Sciences, BS & Animal Science, MANSC

for the degree of Bachelor of Science in Computer Science & Animal Sciences and the Master of Animal Sciences in Animal Science

Please see the Computer Science advisor in 1210 Siebel Center, as well as the Animal Sciences Undergraduate Curriculum Coordinator, Dr. David Miller, 116 Animal Sciences Lab.

for the degree of Bachelor of Science in Computer Science & Animal Sciences and the Master of Animal Sciences in Animal Science

The joint BS (CS+ANSC)/MANSC program integrates a baccalaureate degree (BS) preparation in Computer Sciences and Animal Sciences (CS+ANSC) with a non-thesis Master of Animal Sciences (MANSC) preparation. Students enrolled in the BS (CS+ANSC) program that have completed at least 60 credit hours of degree requirements and that

have a minimum GPA of 3.0 are eligible to apply and be admitted to this program. Students that have a GPA above 2.75 may be admitted on probationary status.

The Department of Animal Sciences will support the application to the MANSC program of the students in this joint program that have completed the required 126 credit hours towards a BS (CS+ANSC) degree (including 40 hours of 300- or 400- level courses) and that have a minimum GPA of 3.0. Up to 12 graduate-level (400- or 500-level) credit hours from the BS program will count towards the 32 credit-hour requirement of the MANSC program.

## Electrical Engineering, BS and Electrical & Computer Engineering, MEng

for the joint degree of Bachelor of Science in Electrical Engineering and Master of Engineering in Electrical & Computer Engineering

### This program is not currently accepting applications.

for the joint degree of Bachelor of Science in Electrical Engineering and Master of Engineering in Electrical & Computer Engineering

The joint B.S. - M.Eng. program in Electrical and Computer Engineering combines two degrees: a B.S. in EE with a M.Eng. in ECE. Current Grainger ECE students enrolled in the College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in the standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S. - M.Eng. degree have been successfully completed. Students may participate in the graduation ceremonies for their B.S. degree once the 120 credit-hour requirement is met. There will be no Graduate College or BOT waivers allowed for students in this program. This program is not intended for students intending to pursue the Ph.D. degree—such students should apply to the traditional M.S. (with thesis) degree program.

#### Course Requirements

##### B.S. Component (120 hours)

- Same required courses as the traditional B.S. degree with minimum hours required reduced from 128 to 120.
- The reduction of 8 credit hours includes:
  - 6 hours in Free Electives in EE curricula
  - 2 hours in ECE courses in EE Technical Electives or 2 hours in ECE.
- Overall GPA of 3.40 must be maintained through completion of B.S. component of the program.
- Illinois undergraduate student minimum residence requirement must be satisfied.

##### M.Eng. Component (32 additional hours of coursework)

- Identical to stand-alone M.Eng. degree requirements. (<http://catalog.illinois.edu/graduate/graduate-majors/ece/me-ece/>)

## Engineering Physics, BS and Engineering: Energy Systems, MEng

for the joint degree of Bachelor of Science in Engineering Physics and Master of Engineering in Engineering, Energy Systems Concentration

**department website:** Department of Physics (<https://physics.illinois.edu>)

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

The joint B.S.-M.Eng. in Engineering with a Concentration in Energy Systems program combines two degrees: a B.S. in select engineering undergraduate majors with the M.Eng. in Engineering with a Concentration in Energy Systems. Current Illinois students enrolled in the College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in a standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S.-M.Eng. degree have been successfully completed but will be permitted to participate in the B.S. degree graduation ceremonies with their class if they have completed the equivalent number of credit hours. This program is not intended for students intending to pursue a Ph.D. degree.

### Admissions

For deadlines and procedures, consult the department Web site. Current Grainger Engineering students who are in their junior year (normally at least 90 credit hours, including those in progress, and at least one year of undergraduate coursework remaining) with an overall GPA of at least 3.0 and a technical GPA 3.0 may apply for provisional admission to the program.

Admission decisions are based on overall academic performance, letters of reference, and statement of purpose.

Admissions to this program will occur both in the fall and spring term. The application deadline for spring term will be December 1 and for fall term will be July 1. The Energy and Sustainability Engineering M.Eng.

admissions committee will review applications for this program and students accepted into the program will be given “provisional admission.” Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.0 through completion of the B.S. component of the degree to remain in the program.
- may register for graduate courses and earn graduate hours credit, with approval from their graduate academic advisor, if they have less than 12 credit hours remaining in their B.S. component.
- must earn at least 124 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component, students:

- must apply and be officially admitted into the Graduate College.
- will be issued letters of admission from the Graduate College and the NPRE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- must satisfy the graduate student minimum residence requirement, which is 24 graduate credit hours.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

---

## Withdrawal

Students may withdraw from the program at any time by notifying the Office of the Associate Dean for Undergraduate Programs. Students who do not complete both the B.S.-M.Eng. degree program requirements may request by petition to have graduate hours earned converted to undergraduate hours and applied toward the student’s traditional engineering undergraduate major. Students reverting to the traditional B.S. degree program must complete 128 hours and must satisfy all degree requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

\*The 124-hour B.S. degree from the B.S.-M.Eng. Program is not ABET accredited, but would be if the student withdrew from the M.Eng. component and completed the requirements of the traditional 128-hour B.S. program. It is noted students desiring to have their B.S. degree ABET accredited should remain in their BS (128 hours) program and apply for the M.Eng. degree in their senior year.

*for the joint degree of Bachelor of Science in Engineering Physics and Master of Engineering in Engineering, Energy Systems Concentration*

---

## Course Requirements

### B.S. Component (124 hours):

- Same required courses as the traditional B.S. degree with the minimum hours required reduced from 128 to 124 hours.
  - The reduction of 4 credit hours is based on the utilization of 4 hours in free elective in the student’s undergraduate curriculum.
- Illinois undergraduate student minimum residence requirement satisfied.
- Overall grade point average (GPA) of 3.0 maintained through completion of B.S. component of the program.

### M.Eng. Component (32 additional hours of coursework)

- Identical to the current M.Eng. in Engineering with a concentration in Energy Systems (<http://catalog.illinois.edu/graduate/concentrations/>

energy-systems-meng/). A total of 32 hours (including the shared coursework) are required.

- Satisfy Illinois’ graduate student minimum residence requirement.
- Overall GPA of 3.00 must be maintained through completion of M.Eng. component of the program.

## Industrial Engineering, BS and Engineering: Energy Systems, MEng

*for the joint degree of Bachelor of Science in Industrial Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

**phone: (217) 333-0709**

---

## Master of Journalism

The Department of Journalism offers the M.J. degree as part of a 4+1 program focused on the development of a broad range of professional skills for undergraduates enrolled in the Bachelor of Science in Journalism program at the University of Illinois at Urbana-Champaign. Students can apply for the B.S./M.J. program in the first semester of their junior year; admitted students select their remaining undergraduate journalism elective courses according to a plan of study that reserves certain upper-division courses for the graduate portion of their program.

---

## Programs in Journalism

### Undergraduate Programs:

**major:** Journalism, BS (p. 236)

**major:** Journalism, BS-MJ (p. 438)

**minor:** Journalism (p. 480)

### Graduate Programs:

**degree:** Journalism, BS-MJ (p. 438)

**degree:** Journalism, MS (p. 801)

**joint degree:** Journalism, MS and Business Administration, MBA (p. 1120)

**joint degree:** Journalism, MS and Law, JD (p. 1120)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 648).

---

## Admission

Both the M.S. and M.J. programs place a strong emphasis on journalism, and candidates who are accepted are most often those with a demonstrated interest in practicing journalism. It is imperative that all applicants supply writing samples.

Applicants to the M.J. program must be University of Illinois at Urbana-Champaign students in the B.S. in Journalism program with a cumulative GPA of at least a 3.40 and have junior standing (at least 60 but no more than 89 credit hours) to be eligible to apply. Because the master's program has an enrollment ceiling, some applicants with grade point averages of 3.4 or higher may not be admitted.

Letters of recommendation are required. An interview with the head of the department or director of graduate studies is helpful but not required. Students whose native language is not English must present their official scores on the Test of English as a Foreign Language (TOEFL) examination as part of their applications. The department follows the Graduate College's recommendations for English proficiency. Detailed information about admissions and financial aid can be found on the

department's website (<https://media.illinois.edu/journalism/degrees-programs/masters/>).

## Financial Aid

M.J. students may not hold assistantships or other tuition and fee waiver-generating appointments. A limited number of merit-based scholarships are available for B.S./M.J. students.

### *for the degrees of Bachelor of Science in Journalism and Master of Journalism in Journalism*

#### **Total hours: 32 for M.J. portion, 152 for B.S. and M.J. combined**

The B.S./M.J. is an integrated, accelerated program for Illinois Journalism majors that may be completed in less time than is required to complete both degrees separately and provides sharper focus on professional multimedia skills than would be available with the two existing degrees combined. Students who maintain superior academic performance are eligible to apply as juniors (after earning at least 60 but not more than 89 credit hours). Accepted students then work on both degrees simultaneously and will receive both at the same time, once all requirements for each have been completed.

### Journalism, B.S. component

Code	Title	Hours
In College of Media		
JOUR 200	Introduction to Journalism	3
JOUR 205	History of American Journalism	3
JOUR 210	Newsgathering Across Platforms	4
JOUR 215	Multimedia Reporting	4
JOUR 220	News Editing	4
JOUR 250	Journalism Ethics & Diversity	3
JOUR 311	Media Law	3
JOUR 315	Adv Public Affairs Reporting	4
JOUR 335	Audio Journalism	4
JOUR 340	Video Reporting & Storytelling	4

**degree:** Public Health, MPH (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/>)

**joint degree:** Community Health, BS and Public Health, MPH (p. 118)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

The Kinesiology curriculum leads to a bachelor of science degree that will prepare students for careers in human movement-related fields and/or advanced professional or graduate study. The undergraduate program provides the student with a broad general education, a departmental core integral to the understanding of the diverse aspects of human movement, and a correlate area of courses specific to the student's area of concentration within Kinesiology.

The Kinesiology program is committed to the study and research of human movement in all its dimensions. Undergraduate study focuses on exercise stress, movement efficiency, and fitness; the social, cultural, and psychological aspects of participation in physical activity and sport; coordination, control, and skill of physical activity; physical growth, development, and body form throughout the lifespan; the effects of therapeutic techniques of Kinesiology upon recovery from physical injury; and the instructional process of teaching/coaching of physical activity and sport.
