The curriculum combines a comprehensive liberal arts and sciences education with in-depth study in a particular area of interest. The program of study provides knowledge and understanding essential for human movement and sport careers in either public or private agencies. The hours required for graduation include prescribed courses for all students as well as requirements determined by the various areas of emphasis selected by the student. Teaching and research emphasize hands-on learning through the use of technology and modern laboratory equipment. Graduates find employment in a variety of fields including

teaching, corporate fitness, coaching, and athletic training. Many students continue their education and become physical therapists, physicians, exercise physiologists, and sport psychologists.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with both BS and MPH degrees. The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

*for the degrees of Bachelor of Science Major in Kinesiology and Master of Public Health in Public Health*

Only students who have completed their junior year but have not yet completed their senior year are eligible to apply. The curriculum, degree requirements, and faculty for the 5-year BS-MPH program (MPH portion) are the same as the regular MPH program.

The BS-MPH program is accelerated. Students take a heavier course load during the fifth year, called the MPH year. The MPH year consists of one Fall semester, one Spring semester, and one Summer semester.

For students in the Epidemiology concentration, the MPH portion of the degree consists of one Fall semester, one Spring semester, one Summer semester, and a second Fall semester, with students graduating in December.

## Materials Science & Engineering, BS and Engineering: Energy Systems, MEng

*for the joint degree of Bachelor of Science in Materials Science & Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

**department website:** <https://matse.illinois.edu>

**department faculty:** Materials Science & Engineering Faculty (<https://matse.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

The joint B.S.-M.Eng. in Engineering with a Concentration in Energy Systems program combines two degrees: a B.S. in any engineering undergraduate major with the M.Eng. in Engineering with a Concentration in Energy Systems. Current Illinois students enrolled in The Grainger College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in a standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S.-M.Eng. degree have been successfully completed but will be permitted to participate in the B.S. degree graduation ceremonies with their class if they have completed the equivalent number of credit hours. This program is not intended for students intending to pursue a Ph.D. degree.

---

## Admissions

For deadlines and procedures, consult the department Web site. Current Grainger Engineering students who are in their junior year (normally at least 90 credit hours, including those in progress, and at least one year of undergraduate coursework remaining) with an overall GPA of at least 3.0 and a technical GPA 3.0 may apply for provisional admission to the program.

Admission decisions are based on overall academic performance, letters of reference, and statement of purpose.

Admissions to this program will occur both in the fall and spring term.

The application deadline for spring term will be October 2 and for fall term will be June 1. The Energy and Sustainability Engineering M.Eng. admissions committee will review applications for this program and students accepted into the program will be given "provisional admission." Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.0 through completion of the B.S. component of the degree to remain in the program.
- may register for graduate courses and earn graduate hours credit, with approval from their graduate academic advisor, if they have less than 12 credit hours remaining in their B.S. component.
- must earn at least 124 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component, students:

- must apply and be officially admitted into the Graduate College.
- will be issued letters of admission from the Graduate College and the NPRE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- must satisfy the graduate student minimum residence requirement, which is 24 graduate credit hours.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

---

## Withdrawal

Students may withdraw from the program at any time by notifying the Office of the Associate Dean for Undergraduate Programs. Students who do not complete both the B.S.-M.Eng. degree program requirements may request by petition to have graduate hours earned converted to undergraduate hours and applied toward the student's traditional engineering undergraduate major. Students reverting to the traditional B.S. degree program must complete 128 hours and must satisfy all degree requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

*for the joint degree of Bachelor of Science in Materials Science & Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

---

## Requirements

B.S. Component (120 hours)

- Same required courses as the traditional B.S. degree with minimum hours reduced to 120 hours
- The reduction of 8 credit hours includes:
  - 5 hours of free electives.
  - 3 hours of the area specialty course in a different area (the latter becomes part of M.Eng. program requirements)

- At least one semester (or 2 summers) devoted to an industrial internship or co-op.<sup>2</sup>
- It is strongly suggested that the student take 2 courses in some aspect of business, economics, environmental studies, labor and industrial relations, technology entrepreneurship or technology and management as the elective component of their Liberal Education requirements. Partial or complete fulfillment of the Technology and Management or Business minor or the Technology Commercialization Certificate is recommended for those admitted by application if available hours permit. The students are expected to complete, during the combined program, at least 10 hours of courses in the areas of business, technology management and/or entrepreneurship from an approved list (available from the department), with additional hours recommended. It is noted that since receipt of the B.S. degree is delayed until the requirements for the M. Eng are completed, the student has the opportunity to complete the undergraduate minors while taking the M. Eng requirements.
- Overall GPA of 3.00 maintained through completion of B.S. component of the program and minimum residency requirements satisfied.

## M.Eng. Component (minimum 36 additional hours of coursework)

- 36 hours course work, including at least 19 graduate hours of MatSE courses with 12 hours credit overall in 500-level courses. The course work shall include MSE 585 (two semesters or equivalent, 30 weeks total, of industrial internships or co-ops; one of the semesters can be during the B.S. program)<sup>1</sup>, 6 hours of 400- or 500-level area specialty courses in the student's area, 3 hours of 400- or 500- level MSE courses from a different area, 2 hours of MSE 595, and 2 hours of MSE 529 or MSE 559. Ten hours of courses in one or more of the areas of business or technology management, and entrepreneurship are required to be included in the overall program. Completion of the requirements for the various Certificates granted by the Technology Entrepreneur Center is recommended
- MSE 492; credit does not count toward degree.

<sup>1</sup> *Students find internship companies and positions with the help of the departmental and College Placement offices. The MSE 585 internship requires approval by the departmental Director of Graduate Studies to insure that it matches the student's individual career objectives and meets the learning goals of the program. Students taking an internship as part of their undergraduate B.S program should also check with the Director of Graduate Studies; his/her approval is required if the student is already accepted in the combined B.S./M. Eng. Program. Students will be expected to present an oral report on their internship in either MSE 529 or MSE 559, as appropriate, the semester following completion of the internship.*

## Materials Science & Engineering, BS and Materials Engineering, MEng

*for the joint degrees of Bachelor of Science Major in Materials Science & Engineering and Materials Engineering, MEng*

---

**This program is not currently accepting applications.**

---

for the joint degrees of Bachelor of Science Major in Materials Science & Engineering & Materials Engineering, MEng

Eng. Program. Students will be expected to present an oral report on their internship in either MSE 529 or MSE 559, as appropriate, the semester following completion of the internship.*

## Materials Science & Engineering, BS and Materials Science & Engineering, MS

for the joint degrees of Bachelor of Science Major in Materials Science & Engineering and Master of Science in Materials Science & Engineering

**department website:** <https://matse.illinois.edu>

**department faculty:** Materials Science & Engineering Faculty (<https://matse.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://engineering.illinois.edu/>

Materials science and engineering is the basis for all engineering. Improvements in the quality of life require knowledge of the processing and properties of current materials and the design, development and application of new materials. The Materials Science and Engineering (MatSE) curriculum provides an understanding of the underlying principles of synthesis and processing of materials and of the interrelationships between structure, properties, and processing. Students learn how to create advanced materials and systems required, e.g., for flexible electronic displays and photonics that will change communications technologies, for site specific drug delivery, for self-healing materials, for enabling the transition to a hydrogen-based economy, and for more efficient photovoltaics and nuclear systems for energy production. The curriculum uses concepts from both basic physics and chemistry and provides a detailed knowledge of what makes the materials we use every day behave as they do.

Students in the first two years take courses in general areas of science and engineering as well as courses introducing the concepts in MatSE. In the third year, students study the common, central issues related to MatSE. In the senior year, students focus on an area of MatSE of their greatest interest, providing them with the detailed knowledge to be immediately useful to corporations, become entrepreneurs, or to provide the underpinning knowledge for graduate study. Note: students interested in biomaterials take a specific set of courses to provide them with a background in biology and chemistry while maintaining a strong engineering focus.

A combined B.S.-M.S. Materials Science and Engineering degree program is available. Its admission and course requirements are described in the College of Engineering program information section (<https://currentcourses.illinois.edu/undergraduate/engineer/>) and the department's website.

### Admission to the Program

Current Illinois MatSE students with Junior standing and with an overall grade point average (GPA) of at least 3.00 (A = 4.00) may apply for provisional admission to the program. Admission is based on overall academic performance, letters of reference, and statement of purpose. The GRE General Test is not required.

Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.00 through completion of the B.S. component of the program, in order to remain in the program

- may register for graduate courses and earn graduate hour credits, with approval from their graduate academic advisor, even if they are more than 10 hours from completing the B.S. component
- must earn at least 120 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component, with grades of B or better in the advanced area coursework, and an overall GPA of at least 3.00 in all graduate coursework, students:

- will be officially admitted into the Graduate College
- will be issued letters of admission from the Office of Admissions and Records and the MatSE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester
- may apply or be considered for graduate teaching assistantships and tuition waivers, as well as fellowships and scholarships (in MatSE only) available to graduate students in MatSE.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

Students in the program are not eligible to continue in the Ph.D. program in MatSE. Students wishing to pursue a Ph.D. must apply separately for admission to that program.

### Withdrawal

Students who do not complete all of the 5-year B.S.-M.Eng. degree program requirements may request, by petition to the Graduate College after obtaining approval by their advisor, the department, and the Associate Dean for Undergraduate Programs in the College of Engineering, to have graduate hours earned converted to undergraduate hours and applied toward a traditional B.S. degree in MatSE. Students reverting to the traditional B.S. degree program must satisfy all degree requirements, including completion of the required "area specialty course(s) in a different area" and the stated credit hour requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

*for the joint degrees of Bachelor of Science Major in Materials Science & Engineering and Master of Science in Materials Science & Engineering*

---

### Course Requirements

BS Component (120 hours including 3 advanced, graduate level, area courses for at least 9 hours). Note that the BS component of this BS/MS degree is not ABET accredited.

- Same required courses as the traditional BS degree with minimum hours reduced to 120 hours; except MSE 395 is dropped (i.e. 1 hour). At present, students in their fourth or fifth year considering withdrawing from the MS portion of the program should register for MSE 395 in the spring semester; the resulting BS degree would then be ABET accredited. It is anticipated that, in the near future, senior thesis will be accepted by ABET as an appropriate 'design experience' when approved, MSE 395 will no longer be required.
- 2 of the required remaining 4 area courses are to be taken at the graduate level (i.e. the students will be held to the course and grading requirements of a graduate student). The 3rd advanced level course can be either in the area or in another area as a tech elective.

- Reduction of 7 hours in free electives and 3 hours in tech electives (10 hours).
- Senior thesis to be taken in lieu of MSE 395 and one area course (6 hours total recommended, with 2 being the remaining 2 hours of free electives).
- Student retains one tech elective.
- Overall GPA of 3.5 maintained through completion of BS component of the program and minimum residency requirements satisfied.

MS Component (minimum 24 additional hours of coursework, plus 8 hours of MSE 599 thesis).

- Same overall requirements as for traditional MS with thesis
- At least one 400-500 level course (for the BS or MS) will be a MatSE course from a different area.
- Complete a MS thesis according to MatSE Department requirements; research for the senior thesis will often serve as a beginning for the MS thesis but the student may change thesis advisors.

## Nuclear, Plasma & Radiological Engineering, BS and Engineering: Energy Systems, MEng

*for the joint degree of Bachelor of Science in Nuclear, Plasma & Radiological Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

---

**department website:** <https://npri.illinois.edu/>

The joint B.S.-M.Eng. in Engineering with a Concentration in Energy Systems program combines two degrees: a B.S. in select engineering undergraduate majors with the M.Eng. in Engineering with a Concentration in Energy Systems. Current Illinois students enrolled in the College of Engineering with junior standing (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) who maintain superior academic performance are eligible to apply for this program. The program is designed to broaden a student's knowledge beyond that possible in a standard 4-year curriculum. Students admitted to the program will receive both degrees once all requirements for both the B.S.-M.Eng. degree have been successfully completed but will be permitted to participate in the B.S. degree graduation ceremonies with their class if they have completed the equivalent number of credit hours. This program is not intended for students intending to pursue a Ph.D. degree.

---

### Admissions

For deadlines and procedures, consult the department Web site. Current Grainger Engineering students who are in their junior year (normally at least 90 credit hours, including those in process, and at least one year of undergraduate coursework remaining) with an overall GPA of at least 3.0 and a technical GPA 3.0 may apply for provisional admission to the program.

Admission decisions are based on overall academic performance, letters of reference, and statement of purpose.

Admissions to this program will occur both in the fall and spring term.

The application deadline for spring term will be December 1 and for fall term will be July 1. The Energy and Sustainability Engineering M.Eng. admissions committee will review applications for this program and students accepted into the program will be given "provisional admission." Students provisionally admitted to the program:

- are assigned a graduate academic advisor when admitted.
- must maintain an overall GPA of 3.0 through completion of the B.S. component of the degree to remain in the program.
- may register for graduate courses and earn graduate hours credit, with approval from their graduate academic advisor, if they have less than 12 credit hours remaining in their B.S. component.
- must earn at least 124 hours of undergraduate credit and satisfy all B.S. requirements of this program to be officially admitted to the Graduate College.

Upon successful completion of the B.S. component, students:

- must apply and be officially admitted into the Graduate College.
- will be issued letters of admission from the Graduate College and the NPRE Department, at which time they will be considered graduate students and assessed graduate tuition the following semester.
- must satisfy the graduate student minimum residence requirement, which is 24 graduate credit hours.
- must continue to maintain a graduate GPA of 3.00 or better in order to remain in the combined program.

## Withdrawal

Students may withdraw from the program at any time by notifying the Office of the Associate Dean for Undergraduate Programs. Students who do not complete both the B.S.-M.Eng. degree program requirements may request by petition to have graduate hours earned converted to undergraduate hours and applied toward the student's traditional engineering undergraduate major. Students reverting to the traditional B.S. degree program must complete 128 hours and must satisfy all degree requirements. Graduate credit not used to fulfill the B.S. degree requirements will remain on the transcript and may, at some future point, be considered for transfer to another degree program.

\*The 124-hour B.S. degree from the B.S.-M.Eng. Program is not ABET accredited, but would be if the student withdrew from the M.Eng. component and completed the requirements of the traditional 128-hour B.S. program. It is noted students desiring to have their B.S. degree ABET accredited should remain in their BS (128 hours) program and apply for the M.Eng. degree in their senior year.

*for the joint degree of Bachelor of Science in Nuclear, Plasma & Radiological Engineering and Master of Engineering in Engineering, Energy Systems Concentration*

## Course Requirements

### B.S. Component (124 hours):

- Same required courses as the traditional B.S. degree with the minimum hours required reduced from 128 to 124 hours.
  - The reduction of 4 credit hours is based on the utilization of 4 hours in free elective in the student's undergraduate curriculum.
- Illinois undergraduate student minimum residence requirement satisfied.

- Overall grade point average (GPA) of 3.0 maintained through completion of B.S. component of the program.

### M.Eng. Component (32 additional hours of coursework)

- Identical to the current M.Eng. in Engineering with a concentration in Energy Systems (<http://catalog.illinois.edu/graduate/concentrations/energy-systems-meng/>). A total of 32 hours (including the shared coursework) are required.
- Satisfy Illinois' graduate student minimum residence requirement.
- Overall GPA of 3.00 must be maintained through completion of M.Eng. component of the program.

## Recreation, Sport & Tourism, BS-MS

*for the degrees of Bachelor of Science and Master of Science, Major in Recreation, Sport & Tourism*

**department website:** <http://rst.illinois.edu/>

**department faculty:** Recreation, Sport, & Tourism Faculty (<http://rst.illinois.edu/faculty/>)

**college catalog page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**college website:** <http://ahs.illinois.edu/>

The Department of Recreation, Sport and Tourism (RST) offers an integrated and accelerated program for outstanding students that combines a bachelor's and master's degree, referred to as the 5-year BS/MS option. This option can be completed in less time than is required for the two degrees separately. The 5-year BS/MS option is designed to provide students with the academic and professional skills needed to succeed in the recreation, sport and tourism industry.

RST majors with a GPA of 3.5 are eligible to apply at the beginning of their junior year. Accepted students will then work on both degrees simultaneously and will receive both degrees at the same time, once all requirements for each have been completed. Although their degrees will not officially be awarded, students may participate in the bachelor's graduation ceremonies once they have completed the 120 credit-hour requirement for that degree.

\*The 124-hour B.S. degree from the B.S.-M.Eng. Program is not ABET accredited, but would be if the student withdrew from the M.Eng. component and completed the requirements of the traditional 128-hour B.S. program. It is noted students desiring to have their B.S. degree ABET accredited should remain in their BS (128 hours) program and apply for the M.Eng. degree in their senior year.

for the joint degree of Bachelor of Science in Systems Engineering & Design and Master of Engineering in Engineering, Energy Systems Concentration

### Course Requirements

#### B.S. Component (124 hours):

- Same required courses as the traditional B.S. degree with the minimum hours required reduced from 128 to 124 hours.
  - The reduction of 4 credit hours is based on the utilization of 4 hours in free elective in the student's undergraduate curriculum.
- Illinois undergraduate student minimum residence requirement satisfied.
- Overall grade point average (GPA) of 3.0 maintained through completion of B.S. component of the program.

#### M.Eng. Component (32 additional hours of coursework)

- Identical to the current M.Eng. in Engineering with a concentration in Energy Systems (<http://catalog.illinois.edu/graduate/concentrations/energy-systems-meng/>). A total of 32 hours (including the shared coursework) are required.
- Satisfy Illinois' graduate student minimum residence requirement.
- Overall GPA of 3.00 must be maintained through completion of M.Eng. component of the program.

# Urban Studies & Planning, BA & Urban Planning, MUP

For the degrees of Bachelor of Arts Major in Urban Studies & Planning and Master of Urban Planning in Urban Planning

**department website:** <https://urban.illinois.edu>  
**department faculty:** Urban & Regional Planning Faculty (<https://urban.illinois.edu/people/meet-our-faculty/>)  
**college catalog page:** Fine & Applied Arts (p. 1152)  
**college website:** <https://www.faa.illinois.edu/>

The 4+1 program allows for students completing the BAUSP degree in the Department to complete the MUP on an accelerated timeline. The 4+1 program is highly selective. Each year, a limited number of outstanding BAUSP juniors are identified and invited to apply to the program. While students can notify the BAUSP Director of their interest in the 4+1 program, the Department will independently review student academic records to identify eligible candidates for the program.

In the fall and spring semesters of their senior year, the BAUSP Director will collect feedback on 4+1 student performance from their course instructors, and will make a determination regarding adequate progress in the program.

At the end of the senior year, the 4+1 student is qualified to graduate with the BAUSP degree, having met all the requirements of that program. In the senior year, 4+1 students wishing to complete the MUP degree will formally apply to the MUP program, submitting a full application package including recommendations, GRE scores, and transcripts.

For the degrees of Bachelor of Arts Major in Urban Studies & Planning and Master of Urban Planning in Urban Planning

## BAUSP

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
UP 101	Introduction to City Planning	3
UP 201	Planning in Action	3
UP 203	Cities: Planning & Urban Life (or UP 204 Chicago: Planning and Urban Life)	3
UP 312	Communication for Planners	4
UP 316	Urban Informatics II	3
	Capstone Preparation: During the 3rd year, students enroll in UP 301, Capstone Preparation. Students meet individually with their capstone advisor to develop a plan to meet the capstone requirement. To pass this course students must turn in a proposal at the end of the semester.	1
	Capstone Experience: Students engage in a semester or summer-long applied activity outside of the classroom. The Capstone Experience is intended to engage the students in the real world and prepare them for the job market. Students typically complete this requirement during their junior year, but have the option to complete it during the summer between their 3rd and 4th year. Examples include a paid or unpaid internship, volunteer work, consulting project with a client, summer research and more. Students enroll in UP 390, Planning Internship, and/or UP 397, Undergraduate Project, to receive credit.	3
	Capstone Seminar: During the 4th year, students enroll in UP 401 for 2 semesters. Students will participate in monthly activities to discuss and reflect on the Capstone Experience. In addition, students will present a poster summarizing their capstone experience in a public setting; for example at a public engagement conference, public meeting or community meeting, McNair Scholars conference, James Scholars event, Illinois American Planning Association meeting, undergraduate research symposium, or other venue. The seminar sessions also include career development such as resume writing, interviewing and networking with professionals through the Wetmore Lecture Series.	2
	Concentration (select one): Sustainability, Policy & Planning, Social Justice, or Global Cities	9-11
Total Hours		31-33

Code	Title	Hours
<b>BAUSP Senior Year</b>		
The MUP core courses meet the BAUSP requirements for UP electives and planning-related electives. 4+1 students are expected to enroll in the first year MUP core courses in their senior year, although they are not yet admitted to the MUP program.		
	Senior Workshop (pick 1 from the following or discuss other offerings with your advisor)	4
UP 447	Land Use Planning Workshop	
UP 455	Economic Development Workshop	
UP 456	Sustainable Planning Workshop	
UP 457	Small Town/Rural Planning Workshop	
UP 478	Community Development Workshop	
UP 501	Planning History and Theory	4
UP 503	Physical Planning	4
UP 504	Urban History and Theory	4

UP 505	Urban and Regional Analysis	4
UP 511	Law and Planning	4

## MUP

Code	Title	Hours
UP 510	Plan Making	4
UP 591	Capstone Seminar (enrollment required for two semesters- 0 hours total)	0
UP 598 or UP 599	Master's Project Thesis Research	8

**Once admitted to the MUP program, a 4+1 student must take 32 hours of graduate courses, 20 of which must be UP courses. These courses include the capstone seminar and master's project or thesis. The 32 hours of graduate courses is a minimum requirement for the MUP degree; it cannot be reduced by UP 590 internship or course waivers.**

Requirement	Description
Other MUP Requirements	
Up to two MUP core courses may be included among the 32 hours. If more core courses are needed, then correspondingly more than 32 hours will be required for the MUP degree.	
Minimum Hours Required Within the 20 Unit:	
Minimum 500-level Hours Required	16 (12 in UP)
Overall:	
Minimum GPA:	3.0

## Adult Development Minor

*for the minor in Adult Development*

**department website:** <http://hdfs.illinois.edu/>  
**department faculty:** <https://hdfs.illinois.edu/directory/faculty/>  
 (<https://hdfs.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/undergraduate/aces/>)  
**college website:** <https://aces.illinois.edu/>

The Adult Development minor combines theoretical and practical approaches to understanding issues faced by adults as individuals, partners, family members, learners, caregivers, and clients of social agencies. Course work examines adults from age 25 to 90+ in the contexts of evolving family roles, health issues, and social service needs. Students anticipating careers in social or health-related services will find an understanding of adult development and its attendant issues a valuable complement to other professional skills.

The minor requires a minimum of 18 hours. Students may count three hours earned in a community-based practicum or research project related to adult development toward the minor.

**Minimum required hours and supporting course work: At least six hours of advanced coursework must be distinct from credit earned for the student's major or another minor. Courses in the minor may not be taken Credit/No Credit. Students may count three hours earned in a community-based practicum or research project related to adult development toward the minor.**

**Minimum hours for minor: 18 hours.**

Code	Title	Hours
<b>Foundation courses</b>		<b>9</b>
HDFS 105	Intro to Human Development	
HDFS 120	Intro to Family Studies	
HDFS 310	Adult Development <sup>1</sup>	
One course selected from:		
<b>Adult roles in the family context</b>		<b>3-4</b>
HDFS 225	Close Relationships	
HDFS 425	Family Stress and Change	
HDFS 426	Family Conflict Management	
<b>Adult choices/challenges</b>		<b>6</b>
Choose at least 6 hours from:		
AGED 490	Adult Learning Principles	
CMN 336	Family Communication	
CMN 368	Sexual Communication	
EPSY 407	Adult Learning and Development	
HDFS/ CHLH 404	Gerontology	
PSYC 361	The Psychology of Aging	
RST 316	Human Development and Recreation, Sport and Tourism	
SOCW 240	Death & Dying	
SOCW 315	Social Work Services for Older Adults	
Credit from HDFS 294, HDFS 450, or HDFS 494 may count towards the minor as approved by the minor advisor. <sup>2</sup>		
<b>Total Hours</b>		<b>18-19</b>

<sup>1</sup> HDFS majors pursuing the minor may not use this course to meet a major requirement.

<sup>2</sup> HDFS 294 - Research Internship, HDFS 450 - Practicum in HDFS, or HDFS 494-Applied Research Methods may count towards the Adult Development minor if these field/research experiences are focused on adults ages 25 - 90+. No more than 3 combined hours of HDFS 294, HDFS 450, HDFS 494 or equivalent field/research experience may be counted toward minor requirements.

## African-American Studies Interdisciplinary Minor

*Interdisciplinary Minor in African-American Studies*

**department website:** <https://afro.illinois.edu/>

**department faculty:** African American Studies Faculty (<https://afro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** afro-public@illinois.edu

The Department of African American Studies offers a campus-wide interdisciplinary minor in African American Studies. The minor is premised on the following principles: Interdisciplinarity, the centrality of Black women and gender, the use of the Global Africa/African Diaspora as a contextualizing framework and an emphasis on black agency or self-determining activity of African peoples. A minimum grade point average of 2.33 is required for completion of courses taken in the program. The Department of African American Studies must approve a student's minor course plan.

Code	Title	Hours
<b>I. Core course requirements</b>		
AFRO 100	Intro to African American St	3
AFRO 490	Theory in African American St or AFRO 220Intro to Research Methods AfAm	3
AFRO 495	Senior Thesis Seminar	3
<b>II. Areas of Concentration</b>		
A. Comparitive Race, Racialized Communities & Identities. Students must take at least one course in this area. Students may choose courses from a list in the Department office.		3-4
B. Cultural Production & Cultural Movements. Students must take at least one course in this area. Students may choose courses from a list in the Department office.		3-4
C. Political Economy, Public Policy & Contemporary Issues. Students must take at least one course in this area. Students may choose courses from a list in the Department office.		3-4
Elective in any of the above areas		3
Students must take at least one course focusing on Black Women, Gender, and Sexuality Studies chosen from a list in the Department office. Students may count this course toward any of the required areas above.		
Total Hours		21

Students must not take more than 6 hours of 100-level courses. A minimum of 6 hours of 300- and 400-level courses is required.

## Agricultural Safety & Health Minor

*for the Minor in Agricultural Safety & Health*

## American Indian Studies Minor

*for the Minor in American Indian Studies*

**program website:** <http://ais.illinois.edu>

**program faculty:** American Indian Studies Faculty (<https://ais.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [ais@illinois.edu](mailto:ais@illinois.edu)

American Indian Studies (AIS) prepares students in a range of methodologies, theories, technologies, and teaching approaches that compliments a thorough undergraduate education.

Specifically, an undergraduate minor is designed to assist students in preparing for graduate school or for careers in a variety of pursuits including public and business administration, education, public relations, marketing, politics, and government, especially as they relate to American

Indian and Native American constituencies. Career opportunities also exist in agencies such as Indian Health Services, the Bureau of Indian Affairs, and the Bureau of Land Management.

For many, AIS is an ideal minor that presents a critical and intellectual foundation for success in an increasingly challenging world.

American Indian Studies (AIS) is an interdisciplinary program with four subject areas:

1. Culture, Identity, Ethics, and Community
2. Sovereignty, Governance, and Politics
3. Literature, Language, and Performance
4. Colonialism, Decolonization, and Indigeneity

The courses chosen must form a coherent program of study and be approved by an AIS advisor.

Code	Title	Hours
<b>Foundation Courses</b>		
AIS 101	Intro to Amer Indian Studies	3
AIS 102	Contemp Issues in Ind Country	3
<b>Subject Area Courses</b>		
Students must complete 12 hours selected from 3 of the 4 subject areas.		12
<b>Culture, Identity, Ethics, and Community</b>		
AIS 140	Native Religious Traditions	
AIS 165	Lang & Culture Native North Am	
AIS 288	American Indians of Illinois	
<b>Sovereignty, Governance, and Politics</b>		
AAS 215	US Citizenship Comparatively	
HIST 277	Encounters in Native America	
HIST 278	Native American History	
AIS 280	Intro to Federal Indian Policy	
AIS 430	Indigenous Governance	
<b>Literature, Language, and Performance</b>		
AIS 265	Intro to American Indian Lit	
AIS 275	Am Indian and Indigenous Film	
AIS 451	Politics in Children's Lit	
AIS 459	Topics in American Indian Lit	
AIS 461	Politics of Popular Culture	
<b>Colonialism, Decolonization, and Indigeneity</b>		
AIS 285	Indigenous Thinkers	
AIS 481	History of American Indian Education	
Total Hours		18

Only three courses (9 hours total) at the 100-level may be counted toward the minor. Students also are required to complete two courses (6 hours) at the 300- or 400-level. These advanced course credits must be distinct from credit earned for the student's major or another minor

## Animal Sciences Minor

*for the Minor in Animal Sciences*

**department website:** <https://ansc.illinois.edu/>  
**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)  
**college website:** <https://aces.illinois.edu/>

The minor in Animal Sciences is designed to provide students with a basic understanding and knowledge of a discipline subject matter area of their choice. Subject matter areas include animal production and management, nutrition, genetics, animal behavior, immunology, meat science/muscle biology, microbiology, reproductive physiology, and molecular biology. Courses in the minor cannot be completed Credit/No Credit.

Code	Title	Hours
<b>Courses Required</b>		
ANSC 100	Intro to Animal Sciences	4
ANSC 101	Contemporary Animal Issues	3
Select two of the following:		6-7
ANSC 223	Animal Nutrition	
ANSC 224	Animal Reproduction and Growth	
ANSC 221	Cells, Metabolism and Genetics	
ANSC 222	Anatomy and Physiology	
<b>Courses Required</b>		
Minimum two additional 300- or 400-level ANSC courses. These courses must be distinct from the student's major or an additional minor. ANSC 398 and ANSC 499 do not count toward the minor.		6-8
Total Hours		20

## Anthropology Minor

*for the Minor in Anthropology*

**department website:** <https://anthro.illinois.edu/>  
**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

## Architectural Studies Minor

for the Minor in Architectural Studies

**School website:** <https://arch.illinois.edu/>  
**Overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**College website:** <https://faa.illinois.edu/>  
**email:** [architecture@illinois.edu](mailto:architecture@illinois.edu)

The minor in Architectural Studies allows non-architecture undergraduate students to gain an overview of architecture by taking a series of required courses in architecture. This is the only undergraduate minor offered by the School of Architecture.

### Course Requirements

The architecture minor requires the successful completion of a minimum of 19 hours of architecture courses. Students entering the program with advanced credit for required courses must take courses from the Additional Courses list to attain the total hours needed for completion of the minor. All students in the minor must have at least 6 hours of 300- or 400-level courses.

Code	Title	Hours
<b>Required Courses</b>		
ARCH 171	Concepts and Theories of Architectural Design	3
ARCH 210	Introduction to the History of World Architecture	3
ARCH 231	Anatomy of Buildings	4
ARCH 273	Strategies of Architectural Design	3
<b>Elective courses: Must choose six credit hours minimum from the following:</b>		
ARCH 321	Environment, Architecture, and Global Health	
ARCH 434	Environmental Control Systems I	
ARCH 314	History of World Landscapes	
ARCH 402	Introduction to the History of Architectural Theory	
ARCH 403	Special Topics in Architectural History	
ARCH 407	Rome: City of Visible History	
ARCH 410	Ancient Egyptian & Greek Arch	
ARCH 411	Ancient Roman Architecture	
ARCH 412	Medieval Architecture	
ARCH 413	Renaissance Architecture	
ARCH 414	Baroque & Rococo Arch	
ARCH 415	Modernity's Mirror: Nineteenth-Century Architecture 1750-1900	
ARCH 416	The Architecture of the United States, c.1650 to Present	
ARCH 417	Modern and Contemporary Global Architecture	
ARCH 418	History of the Urban Environment	
<b>Total credit hours required for Architectural Studies Minor: 19 minimum</b>		

## Prerequisites

Students must comply with the prerequisite requirements of courses to be taken under this program. Some of these requirements may be satisfied while in the program.

## Admission

Admission to the minor will be processed by the School of Architecture Undergraduate Programs Office. Students may enter the Minor in Architectural Studies from sophomore year until such time that allows the completion of the minor before graduating in their major area of study.

## Advising

Advising of students in the minor will be conducted by the advisors in the Undergraduate Programs Office of the School of Architecture.

## Certification of Successful Completion

The Associate Dean for Undergraduate Academic Affairs in the College of Fine and Applied Arts (FAA) will certify successful completion of the minor.

Students must declare their intentions and be admitted to the program to pursue the Minor in Architectural Studies.

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The Art and Design Minor provides students with the opportunity to integrate creative art and design practices with other academic or research pursuits. Students selecting the Art and Design Minor do not necessarily wish to pursue a career as a practicing artist or designer, but do want the chance to work creatively in the visual arts and design, and develop related skills. Students can choose to focus on one particular art form (e.g., photography) or a variety of different media (e.g., photography, typography, and ceramics).

Applicants for admission to the Minor in Art+Design should submit a personal essay explaining their interest in art and design to the Minor Advisor. A minimum cumulative GPA of 2.00 is required.

## Course Requirements

Students must meet the following course requirements for a total of 18 hours.

Students will be required to have passed one of the approved courses for non-majors (ART 102-105, 140) for entry into the Minor.

Code	Title	Hours
<b>Distribution of Courses</b>		
A minimum of 2 courses from the academic course menu. Academic courses include: ART 100, ART 140, ARTE 260, ARTE 475, ARTE 480, ARTH 110 or any 100, 200, 300, or 400 level ARTH course. <sup>1</sup>		6
A minimum of 3 courses from the studio course menu. Studio courses include: ART (except 100, 140), ARTD, ARTE (except 260, 475, 480), ARTF, and ARTS courses. <sup>2</sup>		9
At least 1 additional course in either an academic or studio course menu.		3
A minimum of six hours must be completed at the 300 or 400 level.		
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> At least one of these courses must be chosen from the following: ARTH 110, ART 100 or ART 140.

<sup>2</sup> High demand Industrial Design and Graphic Design courses are typically not available to minors.

## Art History Minor

*for the minor in Art History*

**minor office:** 140 Art and Design Building, Champaign, IL 61820  
**minor advisor:** Mark Avery  
**email:** mavery@illinois.edu  
**phone:** (217) 333-6632

**school website:** School of Art & Design (<https://art.illinois.edu/>)  
**school faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The minor in art history is designed for students who seek to study art history in depth as a compliment to their major area of study. The minor provides students with an education in art history that is balanced and diverse culturally, temporally, and geographically. It allows students to choose from a variety of introductory courses that cover a variety of regions, cultures, and periods.

**Minimum required major and supporting course work: Students must meet the following course requirements for a total of 18 hours**

Code	Title	Hours
<b>A maximum of one course from other universities will satisfy the requirements for upper-level Art History courses.</b>		
ARTH 110	Introduction to the History of Art and Visual Culture	3
Select one course below, which focuses on a subject outside of Europe and the Modern Americas		3
ARCH 222	Islamic Gardens & Architecture	
LA 218	S Asian Cultural Landscapes	
LA 220	Exploring African Cities	
LA 222	Islamic Gardens & Architecture	
ARTH 342	Arts of Colonial Latin America	
ARTH 402	Ways of Seeing in Edo Japan	

ARTH 403 Word and Image in Chinese Art	
Other courses may be approved in consultation with the minor advisor.	
Additional ARTH courses at the 200, 300 or 400 level	6
Additional ARTH courses at the 300 or 400 level	3
At least 6 hours of the minor must be advanced (300 or 400) level courses.	
ARTH 400-level designated seminar course	3
<b>Total credits required for Art History Minor: 18</b>	

Code	Title	Hours
------	-------	-------

**A maximum of one course from either section below at UIUC will count toward the requirements of the Art History Minor**

#### History of Architecture courses

ARCH 222	Islamic Gardens & Architecture	3
ARCH 314	History of World Landscapes	4
ARCH 402	Introduction to the History of Architectural Theory	3
ARCH 412	Medieval Architecture	3
ARCH 413	Renaissance Architecture	3
ARCH 414	Baroque & Rococo Arch	3
ARCH 415	Modernity's Mirror: Nineteenth-Century Architecture 1750-1900	3
ARCH 416	The Architecture of the United States, c. 1650 to Present	3
ARCH 417	Modern and Contemporary Global Architecture	3

#### History of Landscape Architecture courses

LA 218	S Asian Cultural Landscapes	3
LA 220	Exploring African Cities	3
LA 222	Islamic Gardens & Architecture	3
LA 242	Nature and American Culture	3
LA 314	History of World Landscapes	4
LA 315	History of Modern Lndscpe Arch	3

## Asian American Studies Interdisciplinary Minor

*for the Interdisciplinary Minor in Asian American Studies*

**department website:** <http://www.asianam.illinois.edu/>  
**department faculty:** Asian American Studies Faculty (<http://www.asianam.illinois.edu/people/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [aas@illinois.edu](mailto:aas@illinois.edu)

The Asian American Studies Department offers a campus-wide Interdisciplinary Minor. This minor represents a coherent program for students who wish to deepen their study of Asian American histories, experiences, contemporary issues and social problems as a part of their liberal education and understanding of race and diversity in the United States and transnationally. It is relevant to curricula such as letters and sciences, business, economics, education, health studies, pre-law, social work, or urban and regional planning.

Code	Title	Hours
AAS 100	Intro Asian American Studies	3
<b>Asian American Studies Core Coursework</b>		
AAS 200	U.S. Race and Empire	3
AAS 215	US Citizenship Comparatively	3
AAS 300	Theories of Race, Gender, and Sexuality	3
<b>Approved Electives</b> <b>6</b>		
Students complete 6 hours of AAS coursework (a minimum of 3 hours must be at the 300- or 400-level)		
Total Hours		18

## Astronomy Minor

*for the Minor in Astronomy*

**department website:** <https://astro.illinois.edu/>  
**department faculty:** Astronomy Faculty (<https://astro.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [astronomy@illinois.edu](mailto:astronomy@illinois.edu)

The minor in astronomy is designed to broaden the student's knowledge of science and our place in the universe. The minor in Astronomy will benefit especially those students who are eager to learn astronomy but who do not anticipate it to be their career. The Astronomy minor is also suitable for students who intend to pursue careers in areas that may benefit from a good knowledge of astronomy such as aerospace industry, science writing, scientific journalism, or science teaching in schools.

Code	Title	Hours
<b>Basic Astronomy</b>		
Select one of the following:		3-6
ASTR 100	Introduction to Astronomy <sup>1</sup>	
ASTR 121	Solar System and Worlds Beyond & ASTR 122 and Stars and Galaxies <sup>1</sup>	
ASTR 210	Introduction to Astrophysics	
<b>Advanced Astronomy</b>		
300- or 400-level courses taught by the Department of Astronomy <sup>2</sup>		9
Courses at any level taught by the Department of Astronomy <sup>2</sup>		3-6
<b>Minimum total hours</b>		<b>18</b>

<sup>1</sup> Credit not granted for both ASTR 100 and the ASTR 121/ASTR 122 sequence.

<sup>2</sup> No more than 4 hours of ASTR 390 will be counted towards the minor.

## Atmospheric Sciences Minor

*Minor in Atmospheric Sciences*

**department website:** <https://atmos.illinois.edu/>  
**department faculty:** Atmospheric Sciences Faculty (<https://atmos.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [atmos-sci@illinois.edu](mailto:atmos-sci@illinois.edu)

The minor in Atmospheric Sciences is designed for students who desire a significant background in Atmospheric Sciences to support work in their major field. This minor will especially benefit students who choose to pursue careers in environmental areas in which multidisciplinary background is essential. The Atmospheric Science minor can complement majors in engineering and agriculture; or scientific pursuits such as chemistry, physics, biology, and scientific writing.

Code	Title	Hours
Choose from the following:		
ATMS 100	Introduction to Meteorology	0-6
ATMS 120	Severe and Hazardous Weather	
ATMS 140	Climate and Global Change	
ATMS 201	General Physical Meteorology	
300- and 400-level courses from the approved course list. Please see the Atmospheric Sciences advisor for a current list.		12-18
Total Hours		18

## Bioengineering Minor

*for the Minor in Bioengineering*

**College:** The Grainger College of Engineering (<https://grainger.illinois.edu/>)  
**webpage:** Bioengineering Minor (<https://bioengineering.illinois.edu/academics/undergraduate/advising/minors/>)

Bioengineering is a broad, interdisciplinary field that brings together engineering, biology, and medicine to create new techniques, devices, and understanding of living systems to improve the quality of human life. Its practice ranges from the fundamental study of the behavior of biological materials at the molecular level to the design of medical devices to help the disabled.

Any of the existing engineering programs can provide a good foundation for work in bioengineering. However, the engineering undergraduate needs additional education in the biologically oriented sciences to obtain a strong background for bioengineering. With such a background, the student should be able to progress rapidly on the graduate level in any branch of bioengineering. In industry, the graduate will be competent to handle engineering tasks related to biology.

For students pursuing the Bioengineering Minor from non-engineering backgrounds, please note that upper level electives may have engineering courses as prerequisites and these, and any subsequent prerequisite courses, are required for anyone taking the course. For more information regarding the Bioengineering minor, visit the Bioengineering minor Web site (<http://bioengineering.illinois.edu/undergraduate-programs/undergraduate-minor/bioengineering-minor-engineering->

students/), contact the Bioengineering Department Office (1240 Everitt Lab, 217-300-8066, [bioe-ugradprograms@illinois.edu](mailto:bioe-ugradprograms@illinois.edu), ([bioe-ugradprograms@illinois.edu](mailto:bioe-ugradprograms@illinois.edu)) or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

Students may fulfill the requirements for a minor in bioengineering by completing the following course sequence. Engineering students who are proficient in biology may waive MCB 150 as a prerequisite for courses in this minor.

Code	Title	Hours
BIOE 120	Introduction to Bioengineering	1
BIOE 414	Biomedical Instrumentation or CHBE 47: Techniques in Biomolecular Eng	3
CHEM 232	Elementary Organic Chemistry I	3
MCB 244	Human Anatomy & Physiology I	3
MCB 246	Human Anatomy & Physiology II or MCB 250 Molecular Genetics	3
MCB 252	Cells, Tissues & Development	3
MCB 253	Exp Techniqs in Cellular Biol	2
Bioengineering Related Technical Electives. See list below:		3
BIOE 414	Biomedical Instrumentation	3
CHBE 472	Techniques in Biomolecular Eng	3
BIOE 480	Magnetic Resonance Imaging	3
CHBE 471	Biochemical Engineering	3
CHBE 473	Biomolecular Engineering	3
CHBE 474	Metabolic Engineering	3
ECE 473	Fund of Engrg Acoustics	3
MCB 400	Cancer Cell Biology	3
MCB 450	Introductory Biochemistry	3
MSE 470	Design and Use of Biomaterials	3
TAM 461	Cellular Biomechanics	4
Other Department Specialities related to Bioengineering (taken as electives)		3 to 4

## Biomolecular Engineering Minor

*for the Minor in Biomolecular Engineering*

**department website:** <https://chbe.illinois.edu/>  
**department faculty:** Chemical & Biomolecular Engineering Faculty (<http://chbe.illinois.edu/directory/>)  
**advising:** SCS Academic Advising (<https://scs.illinois.edu/academics/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

Biomolecular Engineering is a broad, interdisciplinary field with its main goal of engineering value-added biomolecules and biomolecular systems for applications in medical, chemical, agricultural and food industries. Its practice ranges from fundamental study of biomolecules and biomolecular systems to the design of cellular factories and artificial organs. The Biomolecular Engineering minor is designed to better prepare non-chemical engineering students for careers in the food, pharmaceutical, personal care, and biotechnology industries. This minor is not open to students majoring in chemical engineering. Those students

should instead take the biomolecular engineering concentration if they are interested in biomolecular engineering coursework.

Students may fulfill the requirements for a minor in biomolecular engineering by completing the following course sequence. For further information, please contact the Department of Chemical and Biomolecular Engineering.

Code	Title	Hours
MCB 450	Introductory Biochemistry	3
CHBE 221	Principles of CHE	3
CHEM 232	Elementary Organic Chemistry I	3
Biomolecular Engineering Electives <sup>1</sup>		9
Technical Electives <sup>2</sup>		3
Total Hours		21

<sup>1</sup> Students must take at least three "Biomolecular Engineering" courses offered by the Department of Chemical and Biomolecular Engineering (for example, including CHBE 471, CHBE 472, CHBE 473, and CHBE 474). Students may obtain a current list of courses that may be used to satisfy this requirement in Room 99 RAL.

<sup>2</sup> Course to be selected from a departmentally approved list of biomolecular engineering related technical electives.

For more information regarding to the Biomolecular Engineering minor, contact the Chemical and Biomolecular Engineering Department Office, 114 Roger Adams Laboratory, (217) 244-2021, chbe-advicing@scs.illinois.edu.

## Business Minor for Non-Business Majors

### for the Minor in Business for Non-Business Majors

**department catalog page:** Gies College of Business (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**department website:** U (<https://www.business.illinois.edu/ba/>) Undergraduate Programs (<https://giesbusiness.illinois.edu/programs/undergraduate/>)

**department faculty:** G (<https://business.illinois.edu/ba/directories/all-faculty/>) Gies College of Business faculty (<https://giesbusiness.illinois.edu/faculty-research/faculty-profiles/>)

**minor email:** busminor@business.illinois.edu

**overview of business minor admissions & requirements:** Business Minor website (<https://business.illinois.edu/minor/>)

**college website:** Gies College of Business (<https://www.las.illinois.edu/>)

Please refer to the Business Minor website (<https://business.illinois.edu/minor/>) for important changes to the application process and requirements.

The Business Minor is for students earning Undergraduate degrees in colleges other than the Gies College of Business. The Business Minor provides coursework through which Non-Business students learn skills used in business. The Business Minor is not available to Gies College of Business students and Technology and Management Minor students. The Business Minor is not to be considered as preparation for transfer into the Gies College of Business to earn an Undergraduate Business degree.

To declare their Minors, Non-Business students must submit their Statement of Intent to Pursue a Campus-Approved Minor (<http://provost.illinois.edu/files/2017/01/Intent-to-Pursue-Minor.pdf>) (Statements) to 1055 Business Instructional Facility (BIF) at any time.

1. Please note that not every business minor course will be offered every semester or term. Students must select judiciously and enroll in the business minor courses when they are offered throughout any academic year.
2. Business minor students must register for the online sections of all minor courses if online sections are offered.
3. Enrollment instructions are noted in the semester's class schedule course's Section Detail & Information in Course Explorer. Students must complete all business minor course prerequisites. Students who have not completed a minor course's prerequisite will have their enrollment canceled in that specific course by the department.
4. A minimum number of off-campus transfer courses will be permitted to fulfill the minor core and elective course requirements. You should use Transferology to confirm the off-campus course's transferability to fulfill the minor requirements. You may confirm with the business minor program if a proposed off-campus course will fulfill the minor requirements.
5. Courses taken through a University of Illinois study abroad program will fulfill the business minor core and elective course requirements. These requirements are fulfilled only if the course taken exactly matches course articulations of the Gies Business course. For example, the study abroad exact equivalent course to our campus's BADM 380 course is an acceptable business minor elective course. Study abroad BADM 3- and BADM 4- courses will not fulfill the minor's core and elective course requirements. In addition, minor core and elective course requirements are *not* fulfilled with study abroad courses in finance, information systems, operations management, management, marketing, or supply chain management.
6. The Business Minor is designed to be completed within three academic years. Gies College of Business cannot guarantee minor completion.

Contact busminor@business.illinois.edu to address academic questions.

**Minimum required minor and supporting course work: All six Business Minor courses must be completed with letter grades. Sophomore standing. For all courses for which online delivery is available, students pursuing the minor must enroll in online sections.**

**GPA Requirement: a minimum 2.0 GPA is required to declare the minor.**

### Core Courses Requirement

Code	Title	Hours
ACCY 200	Fundamentals of Accounting (Enrollment is permitted only to Business Minor students.)	3
BADM 310	Mgmt and Organizational Beh	3
BADM 320	Principles of Marketing	3
FIN 221	Corporate Finance	3

Note: ACCY 200, BADM 310, BADM 320, FIN 221 and the two Elective Courses **must be earned** from the Urbana-Champaign campus. No exceptions will be made for study abroad and transfer courses to fulfill the minor's course requirements.

## Elective Courses Requirement

Business Minor students must select only **two** of the listed Elective Courses to fulfill the minor's course requirements.

Code	Title	Hours
BADM 300	The Legal Environment of Bus	3
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 313	Strategic Human Resource Management	3
BADM 314	Leading Negotiations	3
BADM 323	Marketing Communications	3
BADM 326	Pricing Strategy	3
BADM 340	Ethical Dilemmas of Business	3
BADM 350	IT for Networked Organizations	3
BADM 367	Mgmt of Innov and Technology	3
BADM 375	Operations Management	3
BADM 380	International Business	3
BADM 381	Multinational Management	3

## Chemistry Minor

for minor in Chemistry

**department website:** <https://chemistry.illinois.edu>

**department faculty:** Chemistry Faculty (<https://chemistry.illinois.edu/directory/faculty-by-type/>)

**advising:** SCS Academic Advising (<http://advising.scs.illinois.edu/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

Code	Title	Hours
Choose one group of Chemistry courses below		8-10
CHEM 102	General Chemistry I	
CHEM 103	General Chemistry Lab I	
CHEM 104	General Chemistry II	
CHEM 105	General Chemistry Lab II	
or		
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II	
CHEM 232	Elementary Organic Chemistry I	3 or 4
or CHEM 235 Fundamental Organic Chem I		
CHEM 233	Elementary Organic Chem Lab I	2
or CHEM 233 Structure and Synthesis		
Choose two 3-4 credit hour courses from the List of Advanced Courses Approved for Chemistry Minor Credit (300- and 400-level Chemistry courses, not research or independent study, 3 hours credit or more). The two courses to be taken should be from different subdisciplines of Chemistry. <sup>1</sup>		6-8
Total Hours		19-24

<sup>1</sup> The following courses may not be used to complete the minor: CHEM 492, CHEM 495.

## Cinema Studies Undergraduate Minor

for the Minor in Cinema Studies - Undergraduate

**department website:** <https://media.illinois.edu/media-cinema-studies> (<https://media.illinois.edu/media-cinema-studies/>)

**department faculty:** <https://media.illinois.edu/media-cinema-studies/faculty> (<https://media.illinois.edu/media-cinema-studies/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

The Cinema Studies minor provides undergraduate students with core coursework in the film studies discipline while also allowing them freedom to explore various approaches to the subject, presented by world-class Media & Cinema Studies department faculty as well as film scholars throughout campus.

Students pursuing the Cinema Studies minor will take coursework that is core to the discipline with themes including contemporary movies, surveys of world cinema, and film theory and criticism. Students will take at least one course related to either non-U.S. cinema or about identity, culture, and politics within the United States as it interfaces with film.

### Programs in Cinema Studies

**Undergraduate Programs:**

**major:** Media & Cinema Studies, BS (p. 286)

**minors:** Cinema Studies (p. 458) | Critical Film Production (p. 463)

**Graduate Programs:**

**minor:** Cinema Studies (p. 1093)

Minor in Cinema Studies - Undergraduate

Students are expected to complete 18 hours of approved Cinema Studies minor coursework, of which 6 hours must be at the 300-400-level. At least 3 hours of 300-400-level coursework must be offered by or cross-listed with the Department of Media & Cinema Studies (MACS), other than those used to fulfill the requirements below.

Code	Title	Hours
<b>Required Courses</b>		<b>12</b>
MACS 203	Contemporary Movies	3
MACS 261	Survey of World Cinema I	3
MACS 262	Survey of World Cinema II	3
MACS 361	Film Theory and Criticism	3
<b>Select one course from EITHER Non-US Cinema OR Identity Culture and Politics</b>		<b>3</b>
Non-US Cinema (Contact department for complete list)		
MACS 207	Indian Cinema in Context	
MACS 382	French & Comparative Cinema I	
MACS 383	French & Comparative Cinema II	
MACS 419	Russian & East European Film	
MACS 466	Japanese Cinema	
MACS 470	Topics in Italian Cinema	
MACS 490	Green Screen: Film and Nature	
MACS 493	German Cinema I	

ANTH 266	African Film and Society
ITAL 270	Introduction to Italian Cinema
Identity Culture and Politics (Contact department for complete list)	
MACS 205	Introduction to Documentary
MACS 211	Intro to African-American Film
MACS 250	Latina/os on the Bronze Screen
MACS 275	Am Indian and Indigenous Film
MACS 335	Film, TV, and Gender
MACS 356	Sex & Gender in Popular Media
MACS 365	Asian American Media and Film
MACS 375	Latina/o Media in the US
MACS 381	Black Women and Film
MACS 432	Commodifying Difference
MACS 461	Politics of Popular Culture
MDIA 223	Watching the Environment
MDIA 380	
ENGL 272	Minority Images in Amer Film

Select one additional course (300-level or above) on film offered by or cross-listed with MACS, other than those used to fulfill the requirements above 3

## Classical Civilizations Minor

for the Undergraduate Minor in Classical Civilizations

**department website:** <http://www.classics.illinois.edu/>  
**department faculty:** Classics Faculty (<https://classics.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

This minor is sponsored by the Department of the Classics. The department also sponsors a minor in Classical Civilizations (p. 459).

### Ancient Greek Track

GRK 101, Elementary Greek I, is a prerequisite for subsequent GRK courses and does not count toward the 18 hours for the minor.

Code	Title	Hours
Ancient Greek Track		Hours
GRK 102	Elementary Greek II	4
GRK 201	Classical & Koine Greek I	4
GRK 202	Classical & Koine Greek II	4
6 hours in GRK courses at the 400-level, chosen from the following:		6
GRK 401	Survey of Greek Literature	
GRK 411	Greek Prose Composition	
GRK 491	Readings in Greek Literature	
GRK 493	Independent Reading	
Total Hours		18

### Modern Greek Track

GRKM 201 Elementary Modern Greek I (prerequisite for subsequent GRK courses; does not count toward the 18 hours)

Code	Title	Hours
Modern Greek Track		Hours
GRKM 202	Elementary Modern Greek II	5

GRKM 403	Intermediate Modern Greek I	4
GRKM 404	Intermediate Modern Greek II	4
5 hours in GRK courses at the 400-level chosen from the following:		5
GRK 491	Readings in Greek Literature	
GRK 493	Independent Reading	
Total Hours		18

**Latin Track**

LAT 101, Elementary Latin I is a prerequisite for subsequent Latin courses and does not count toward 18 hours for the minor.

Code	Title	Hours
Latin Track		Hours
LAT 102	Elementary Latin II	4
LAT 201	Intermediate Latin	4
LAT 202	Intro to Latin Literature	4
6 hours in Latin courses at the 400-level from the following:		6
LAT 401	Survey of Latin Literature	
LAT 411	Intermediate Prose Composition	
LAT 460	Medieval Latin	
LAT 491	Readings in Latin Literature	
LAT 493	Independent Reading	
Total Hours		18

## Communication Minor

*for the Minor in Communication*

**department website:** <https://communication.illinois.edu/>  
**department faculty:** Communication Faculty (<https://communication.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [communication@illinois.edu](mailto:communication@illinois.edu)

The undergraduate minor in Communication is designed for students who wish to obtain a deeper understanding of communication processes and how they influence social, cultural, and political processes. It is appropriate for students majoring in a variety of disciplines in the social sciences or humanities and for students in professionally-oriented programs.

Code	Title	Hours
CMN 101	Public Speaking <sup>1</sup> or CMN 112 Oral & Written Comm II	3
CMN 102	Introduction to Communication	4

At least one course from each of two areas of specialization within the Department of Communication (Communication and Culture, Communication and Health, Communication and Organizations, Interpersonal Communication, Mediated Communication and Technology, and Rhetoric and Public Communication). These courses must be numbered at the 200-level or above. A list of courses is available from the Communication undergraduate advisor.

Additional hours in Communication. These courses must be numbered at the 200-level or above.	6
Total Hours	19

<sup>1</sup> CMN 111 is a prerequisite for CMN 112. Credit in CMN 111 will not count towards the 19 hours of Communication courses required for the minor.

At least 6 hours must be at the 300-level or 400-level.

## Community-Based Art Education Minor

*for the minor in Community-Based Art Education*

**minor office:** 129 Art and Design Building, Champaign, IL 61820  
**minor advisor:** Jennifer Bergmark  
**email:** [bergmar1 \(bergmar1@illinois.edu\)](mailto:bergmar1@illinois.edu)@illinois.edu  
[mavery@illinois.edu](mailto:mavery@illinois.edu)  
**phone:** (217) 244-7467

**school website:** School of Art & Design (<https://art.illinois.edu/>)  
**school faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The Community-Based Art Education Minor is designed for students who seek to study the role of the visual arts in a variety of locations including cultural centers, museums, hospitals, nursing homes, adult day care centers, schools, recreation centers, and other community settings. In addition to the completion of the required art education foundation courses, students choose electives in art education, art history, design, and art studio. Throughout their course of study, students will engage Art Education as it meets the challenges of the 21st century, including emerging technologies, new social formations, and new forms of cultural expression.

This minor does not lead to Illinois State Board of Education K-12 certification to teach art.

**Minimum required major and supporting course work: Students must meet the following course requirements for a total of 18 hours. A minimum of six hours must be completed at the 300 or 400 level.**

Code	Title	Hours
ARTE 201	Foundations of Art Education	3
ARTE 202	Facilitating the Art Experience	3
Electives from Art Education Division Offerings		
Select 6 to 12 hours from the following:		6-12
ART 140	Introduction to Art	
ARTE 260	Museums in Action	
ARTE 402	Artistic Development	
ARTE 480	Popular Visual Culture	
Electives from the School of Art and Design in the following areas: ART, ARTD, ARTE, ARTH, ARTS		0-6
Total Hours		18

# Computational Science & Engineering Minor

for the Minor in Computational Science & Engineering

**College:** The Grainger College of Engineering (<https://grainger.illinois.edu/>)

**webpage:** Computational Science & Engineering Minor (<https://cse.illinois.edu/cse-educational-programs/undergraduate-minor/>)

Code	Title	Hours
<b>Core Courses</b>		
<b>Programming</b>		
CS 101	Intro Computing: Engrg & Sci	3
CS 125	Intro to Computer Science	4
CS 225	Data Structures	4
ECE 220	Computer Systems & Programming	4
LING 402	Tools & Tech Spch & Lang Proc	3
<b>Applied Math</b>		
ECE 493	Advanced Engineering Math	3 or 4
MATH 441	Differential Equations or MATH 44 Intro Partial Diff Equations or MATH 48 Dynamics & Differential Eqns	3 or 4
MATH 415	Applied Linear Algebra	3 or 4
MATH 444	Elementary Real Analysis or MATH 44 Real Variables	3 or 4
MATH 446	Applied Complex Variables or MATH 448 Complex Variables	3 or 4
MATH 482	Linear Programming or MATH 48 Nonlinear Programming	3 or 4
STAT 408	Actuarial Statistics I or STAT 409 Actuarial Statistics II or STAT 410 Statistics and Probability II or STAT 420 Methods of Applied Statistics or STAT 430 Topics in Applied Statistics or MATH 46 Probability Theory	4
<b>Computational Methods</b>		
CS 411	Database Systems	3 or 4
CS 450	Numerical Analysis or CSE 401 Numerical Analysis	3 or 4
CS 466	Introduction to Bioinformatics	3 or 4
ECE 448	Artificial Intelligence	3 or 4
GEOG 489	Programming for GIS	4
LING 402	Tools & Tech Spch & Lang Proc	3
STAT 440	Statistical Data Management	3 or 4
TAM 470	Computational Mechanics or CSE 450 Computational Mechanics	3 or 4
<b>Application Coursework/Computing Elective</b>		
OPTION 1		
Three 400-level CSE courses; see list below:		
<b>Core Courses:</b>		
CSE 401	Numerical Analysis	3 or 4
CSE 402	Parallel Progrmg: Sci & Engrg	3 or 4

CSE 408	Applied Parallel Programming	4
CSE 510	Numerical Methods for PDEs	4
CSE 527	Scientific Visualization	4

**Computing Electives. Courses below are topically organized and are cross listed with many departments. Double counting from Core courses and application courses is not allowed. Choose Option 1 or Option 2 below.**

## Option 1

Biological, Chemical and Atmospheric Sciences:		
CHEM 576	Computational Chemical Biology	4
CS 466	Introduction to Bioinformatics	3 or 4
CEE 534	Surface Water Quality Modeling	4
CEE 557	Groundwater Modeling	4
CSE 566	Numerical Fluid Dynamics	4
CHEM 550	Advanced Quantum Dynamics	4
Computer Software, Hardware and Graphics		
CSE 402	Parallel Progrmg: Sci & Engrg	3 or 4
CSE 422	Computer System Organization	3 or 4
CSE 423	Operating Systems Design	3 or 4
CSE 426	Software Engineering I	3 or 4
CSE 427	Interactive Computer Graphics	3 or 4
CSE 429	Software Engineering II	3 or 4
CSE 521	Computer Architecture	4
CSE 522	Parallel Computer Architecture	4
CSE 527	Scientific Visualization	4
Electronics and Electromagnetics:		
CSE 530	Computational Electromagnetics	4
CSE 532	Numerical Circuit Analysis	4
Fluid Mechanics		
CSE 450	Computational Mechanics	3 or 4
CSE 461	Computational Aerodynamics	3 or 4
CSE 560	Computational Fluid Mechanics	4
CSE 561	Computational Process Modeling	4
CSE 566	Numerical Fluid Dynamics	4
CSE 412	Numerical Thermo-Fluid Mechs	2 to 4
Numerical Computing:		
CSE 401	Numerical Analysis	3 or 4
CSE 414	Algorithms	4
CSE 441	Introduction to Optimization	3 or 4
CSE 510	Numerical Methods for PDEs	4
CSE 511	Iterative & Multigrid Methods	4
CSE 512	Parallel Numerical Algorithms	4
CSE 513	Topics in Numerical Analysis	4
CSE 515	Algorithms	4
CS 598	Special Topics (Integral Equation and Fast Algorithms)	2 to 4
CSE 517	Adv Finite Element Methods	4
CSE 553	Computational Inelasticity	4
Other Related Fields:		
TAM 598	Advanced Special Topics (Uncertainty Quantification)	1 to 4
CS 598	Special Topics (Integral Equations and Fast Methods)	2 to 4

CEE 528	Construction Data Modeling	4
ASTR 510	Computational Astrophysics	4
Physics and Materials Science:		
CSE 485	Atomic Scale Simulations	3 or 4
MSE 498	Special Topics (Atomic Scale Simulations)	1 to 4
AE 598	Special Topics (Mult-scale Modeling of Materials)	1 to 4
Power Systems, Control and Signal and Image Processing:		
CSE 441	Introduction to Optimization	3 or 4
CSE 543	Topics in Image Processing	4
ECE 513	Vector Space Signal Processing	4
ECE 558	Digital Imaging	4
Solid Mechanics:		
CSE 450	Computational Mechanics	3 or 4
CSE 451	Finite Element Analysis	3 or 4
CSE 517	Adv Finite Element Methods	4
CSE 551	Finite Element Methods	4
CSE 552	Nonlinear Finite Elements	4
ME 570	Nonlinear Solid Mech Design	4
TAM 598	Advanced Special Topics (Computational Nonlinear Dynamics)	1 to 4
Statistics and Data Sciences:		
CSE 428	Statistical Computing	3 or 4
CSE 440	Statistical Data Management	3 or 4
CSE 448	Advanced Data Analysis	4
CSE 525	Computational Statistics	4
STAT 530	Bioinformatics	4
CSE 542	Statistical Learning	4
STAT 430	Topics in Applied Statistics (Big Data Analysis Foundation; Basics of Statistical Learning)	3 or 4
STAT 432	Basics of Statistical Learning	3 or 4
CS 412	Introduction to Data Mining	3 or 4
CS 410	Text Information Systems	3 or 4

**OPTION 2**

Two 400-level CSE courses listed above AND an independent study on a computational topic. In order for an independent study to fulfill the minor requirement, the student must conduct the undergraduate research with one of the CSE affiliated faculty.

## Computer Science Minor

for the Minor in Computer Science

**College:** The Grainger College of Engineering (<https://grainger.illinois.edu/>)

**webpage:** CS Minor (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/minor-computer-science/>)

**email:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu)

This minor is offered by the Department of Computer Science for students seeking significant knowledge of digital computers without the more complete treatment of a major in computer science. This minor

may be taken by any student except Computer Science and Computer Engineering majors.

Code	Title	Hours
The following three courses are required: <sup>1</sup>		
CS 125	Intro to Computer Science <sup>2</sup>	11
CS 173	Discrete Structures <sup>2</sup>	
CS 225	Data Structures <sup>2</sup>	

Three courses, including at least one at the 400 level, chosen from the departmentally approved list below. These courses must be taken as University of Illinois credit (though one may be taken in a Study Abroad program). Students may apply 2-3 of the additional courses from among the 400-level offerings: <sup>3</sup>

CS 233	Computer Architecture
CS 241	System Programming <sup>2</sup>
CS 357	Numerical Methods I
CS 374	Introduction to Algorithms & Models of Computation

Any CS course between and including CS 410 and CS 498 except CS 413, CS 491, CS 492, CS 493, CS 494

<sup>1</sup> Transfer equivalents of CS 125, CS 173 and/or CS 225 may satisfy these requirements – even if the number of credits for the transfer courses do not equal that for the UIUC equivalents – as long as the student completes at least 18 total credit hours, minimum, for the minor.

<sup>2</sup> The following substitutions are allowed: ECE 220 for CS 125; MATH 213 for CS 173; and ECE 391 for CS 241.

<sup>3</sup> Students must submit a course modification for any study abroad course used in this category.

For more information, please visit the CS minor Web site (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/minor-computer-science/>), contact the Computer Science Academic Office (1210 Siebel Center, 217-333-4428, [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu)), or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

## Creative Writing Minor

for the Minor in Creative Writing

**department website:** English (<http://www.english.illinois.edu/>)

**creative writing website:** Creative Writing (<https://english.illinois.edu/academics/undergraduate-studies/majors-minors/creative-writing-major/>)

**department faculty:** English Faculty (<https://english.illinois.edu/directory/specialty-areas/>)

**advising:** English & Creative Writing advising (<https://www.english.illinois.edu/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu> (<https://las.illinois.edu/>)

**email:** [englishadvising@illinois.edu](mailto:englishadvising@illinois.edu)

The Creative Writing minor, administered by the Department of English's Creative Writing Program, is designed to augment majors from all over campus with a program of small workshops (poetry or fiction) and a variety of other writing, literature, and film courses. The result should

be the development of a range of analytical and creative skills that will enrich the undergraduate experience and help prepare students for work in any number of fields.

Code	Title	Hours
CW 100	Intro to Creative Writing	3
<b>Creative Writing Coursework</b>		<b>9</b>
Students complete 9 hours of creative writing coursework by choosing one of the following 3-course (9-hour) sequences:		
CW 106	Poetry Workshop I	
CW 206	Poetry Workshop II	
CW 406	Poetry Workshop III	
OR		
CW 104	Fiction Workshop I	
CW 204	Fiction Workshop II	
CW 404	Fiction Workshop III	
<b>Approved Electives</b>		<b>6</b>
Students complete 6 hours of coursework in any of the following areas (a minimum of 3 hours must be at the advanced 300 /400 level):		
Any ENGL or CW course		
CMN 310	The Rhetorical Tradition	
CMN 423	Rhetorical Criticism	
JOUR 475	In-Depth Writing Styles	
THEA 211	Introduction to Playwriting	
IS 410	Storytelling	
Total Hours		18

## Criminology, Law, & Society Minor

*for the Minor in Criminology, Law, & Society*

**department website:** <https://sociology.illinois.edu/>  
**department faculty:** Sociology Faculty (<https://sociology.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [soc@illinois.edu](mailto:soc@illinois.edu)

Criminology, Law, and Society provides a foundation for students seeking to supplement their major area of study, to develop knowledge and skills needed for criminological, law, and justice related occupations, or to lay foundation for law school or graduate study in sociology, criminology, or justice fields. Students take a range of sociology courses that provide theoretical and practical knowledge while exposing students to current sociological, legal, and justice issues.

Code	Title	Hours
SOC 100	Introduction to Sociology	3-4
	or SOC 163 Social Problems	
SOC 275	Criminology	3
One of the following courses:		3
SOC 378	Sociology of Law	
SOC 477	Law and Society- ACP	
SOC 479	Law and Society <sup>1</sup>	

**Choose three courses from the following (9 hours minimum); at least 3 hours must be at the 300- or 400-level:** **9**

SOC 101	Sociology of Gender
SOC 225	Race and Ethnicity
SOC 310	Sociology of Deviance
SOC 373	Social Inequality
SOC 375	Criminal Justice System
SOC 378	Sociology of Law <sup>1</sup>
SOC 390	Individual Study <sup>2</sup>
SOC 396	Topics in Sociology <sup>2</sup>
SOC 400	Internships <sup>2</sup>
SOC 477	Law and Society- ACP <sup>1</sup>
SOC 479	Law and Society
SOC 490	Advanced Independent Study <sup>2</sup>
SOC 496	Advanced Topics in Sociology <sup>2</sup>
Total Hours	18

<sup>1</sup> *If not taken as part of the core. Credit is not given for SOC 477 and SOC 479.*

<sup>2</sup> *Advisor approval required – course topic must be focused in criminology and/or law.*

## Critical Film Production Minor

*for the Minor in Critical Film Production - Undergraduate*

**department website:** <https://media.illinois.edu/media-cinema-studies/> (<https://media.illinois.edu/media-cinema-studies/>)  
**department faculty:** <https://media.illinois.edu/media-cinema-studies/faculty/> (<https://media.illinois.edu/media-cinema-studies/faculty/>)  
**overview of college admissions & requirements:** College of Media (p. 1159)  
**college website:** <https://media.illinois.edu/>

The Minor in Critical Film Production provides undergraduate students with a rigorous introduction to core critical, formal, and technical aspects of filmmaking through the four required courses. The additional electives allow students to gain deeper theoretical, historical and/or methodological knowledge to enrich their filmmaking practice.

## Programs in Cinema Studies

**Undergraduate Programs:**

**major:** Media & Cinema Studies, BS (p. 286)

**minors:** Cinema Studies (p. 458) | Critical Film Production (p. 463)

**Graduate Programs:**

**minor:** Cinema Studies (p. 1093)

*for the Minor in Critical Film Production - Undergraduate*

The Minor in Film Production requires a minimum of 21 hours distributed over six courses as follows. At least six hours of advanced (300 or 400) level courses are included. A course cannot be used to satisfy more than one requirement within the minor.

Code	Title	Hours
<b>Required Courses (12 hours)</b>		
MACS 150	Introduction to Digital Media Production	4
MACS 260	Film Production	4
MACS 370	Cinematography and Sound	4
	or MACS 37 Editing and Post-production for Cinema	
MACS 370 and MACS 371 do not count toward elective credits in the minor.		
<b>Select ONE of the following foundational study electives (3 hours)</b>		
MACS 261	Survey of World Cinema I <sup>1</sup>	3
MACS 262	Survey of World Cinema II <sup>1</sup>	3
MACS 361	Film Theory and Criticism <sup>1</sup>	3
<b>Select TWO electives from the following list of film history, theory, and criticism courses (6 hours)</b>		
At least one of the elective courses must be at the 300-level or above		
MACS 203	Contemporary Movies	3
MACS 205	Introduction to Documentary	3
MACS 261	Survey of World Cinema I <sup>1</sup>	3
MACS 262	Survey of World Cinema II <sup>1</sup>	3
MACS 282	A World of Death and Blood: The Horror Movie	3
MACS 284	Animated Media from Mickey to GIFs	3
MACS 361	Film Theory and Criticism <sup>1</sup>	3
MACS 372	Screenwriting	3
MACS 380	21st Century Documentaries	3
MACS 464	Film Festivals	3 or 4
MACS 485	Making Video Essays	3 or 4

<sup>1</sup> A course cannot be used toward more than one requirement in the minor.

## Crop & Soil Management Minor

*for the Minor in Crop and Soil Management*

**department website:** <https://croppsciences.illinois.edu/>  
**department faculty:** <https://croppsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The Crop and Soil Management minor is designed for students who desire a significant background in crop and soil systems to support study and practice of their major field. Selection of additional courses beyond the core will depend on the student's major and interests. Enrollment in the Crop and Soil Management minor is not available to students enrolled in the Crop Sciences major. Courses in the minor cannot be taken Credit/No Credit.

Code	Title	Hours
CPSC 112	Introduction to Crop Sciences	4
CPSC 418	Crop Growth and Management	3
NRES 201	Introductory Soils	4
NRES 488	Soil Fertility and Fertilizers	3

Select one course from the following:	3
NRES 438 Soil Nutrient Cycling	
NRES 471 Pedology	
NRES 474 Soil and Water Conservation	
NRES 475 Environmental Microbiology	
Select 3 hours from any CPSC, HORT, or PLPA course (excluding CPSC 393/HORT 393 & CPSC 395/HORT 395/PLPA 395).	3
<b>Total Hours</b>	<b>20</b>

## Earth, Society, & Environment Minor

*for the Minor in Earth, Society, and Environment*

**school website:** <https://www.earth.illinois.edu/>  
**school faculty:** Earth, Society & Environment Faculty (<https://earth.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**E-mail:** [sese-info@illinois.edu](mailto:sese-info@illinois.edu)

The Earth, Society & Environment (ESE) minor is designed for students who desire to obtain a background in topics related to environmental studies, in order to support study and practice of their major field. A minimum of 18 hours is required.

Course lists can be found on the School's ESE Minor site (<https://earth.illinois.edu/academics/earth-society-and-environmental-sustainability-academics/eses-minor-requirements/>).

Code	Title	Hours
	Introductory course from the Earth's Physical Systems, Resources, and Hazards Area course list.	3-4
	Introductory course from either the Environment and the Human Response or Sustainability, Policy, and Global Change Area course lists	3-4
ESE 200	Earth Systems	3
	Three Advanced Courses from a list maintained by the minor advisor, at least two of which must be listed or cross listed as ESE courses	9-12
<b>Total Hours</b>		<b>18-23</b>

## East Asian Languages & Cultures Minor

*Minor in East Asian Languages and Cultures*

**department website:** <https://ealc.illinois.edu/>  
**department faculty:** East Asian Languages & Cultures Faculty (<https://ealc.illinois.edu/directory/faculty-by-area/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

Code	Title	Hours
Select one of the following:		5
CHIN 204	Intermediate Chinese II	
JAPN 204	Intermediate Japanese II	
KOR 204	Intermediate Korean II	
Non-language courses as follows:		15
EALC 120	East Asian Civilizations	
12 additional hours of East Asia-related courses (at least 6 of these hours must be at the 300 or 400 level)		
Total Hours		20

Note: Completion of CHIN 204, JAPN 204, or KOR 204 satisfies the LAS foreign language requirement.

## Ecology & Conservation Biology Minor

### for the Minor in Ecology & Conservation Biology

**department website:** <http://sib.illinois.edu/>  
**department faculty:** School of Integrative Biology Faculty (<http://sib.illinois.edu/people/faculty/>)  
**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [sib@illinois.edu](mailto:sib@illinois.edu)

The minor, administered by the School of Integrative Biology, is designed for students interested in gaining strength in this subdiscipline of biology. Preparation for many careers is advanced by coursework in ecology and conservation, e.g. environmental lawyer, environmental consultant, conservation technician, environmental educator, and environmental engineer.

Code	Title	Hours
IB 150	Organismal & Evolutionary Biol	4
IB 203	Ecology	4
IB 204	Genetics	3-4
Select two of the following:		6-8
NRES/IB 348	Fish and Wildlife Ecology	
IB 362	Marine Biology	
IB 431	Behavioral Ecology	
CPSC 431/ IB 440	Plants and Global Change	
IB 443	Evolutionary Ecology	
IB 444	Insect Ecology	
IB 451	Conservation Biology	
IB 452	Ecosystem Ecology	
IB 453	Community Ecology	
Total Hours		17-20

## Economics Minor

for the Minor in Economics

**department website:** <https://economics.illinois.edu/>  
**department faculty:** Economics Faculty (<https://economics.illinois.edu/directory/faculty/>)  
**advising:** Economics Advising (<https://economics.illinois.edu/academics/undergraduate-program/academic-advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [econug@illinois.edu](mailto:econug@illinois.edu)

The minor in economics, administered by the Department of Economics, is designed to provide students who are not majoring in economics with a basic foundation in economic analysis. The minor offers training in economic theory through the intermediate level, instruction in quantitative methods of econometrics, and opportunity for advanced work in a student's particular area of interest following the microeconomic, macroeconomic, or econometric track. Students completing the minor in economics will enhance their major field of study and prepare them for a career in their chosen field and/or for graduate studies in a variety of fields. The minor consists of 18-21 hours within economics. Students must complete the prerequisite mathematics and economics courses with the required grade/GPA in order to apply. Interested students should work with the Economics Undergraduate Studies Office. Students must choose from the Microeconomics, Macroeconomics, or Econometrics Track.

### Prerequisite to applying for the Economics Minor:

Microeconomics and Macroeconomics tracks:

- MATH 220-Calculus or MATH 221 - Calculus I with a grade of C or higher. *MATH 234 can substitute for MATH 220 or MATH 221, with a grade of C or higher. Discuss your intended plan with the Department of Economics Advising Office to ensure MATH 234 will prepare you for advanced Economics coursework.*
- ECON 102 and ECON 202 with a 2.33 or higher Illinois Economics GPA. At least one ECON course must be taken on campus (please see an Economics Academic Advisor if you have completed these courses off-campus or have other credit).

Econometrics track:

- MATH 220-Calculus or MATH 221 - Calculus I with a grade of C or higher.
- MATH 225 with a grade of C or higher. (Recommended prior to application, but not required)
- ECON 102, ECON 202 and ECON 203 with a 2.33 or higher Illinois Economics GPA. At least one ECON course must be taken on campus (please see an Economics Academic Advisor if you have completed these courses off-campus or have other credit).

Code	Title	Hours
<b>Core Economics Requirements</b>		
ECON 102	Microeconomic Principles	3
ECON 202	Economic Statistics I	3
ECON 203	Economic Statistics II	3

ECON 302	Inter Microeconomic Theory	3
Students will select one of the following tracks:		
<b>Microeconomics Track</b>		<b>6</b>
Two 400-level elective courses in Microeconomics:		
ECON 411	Public Sector Economics	
ECON 414	Urban Economics	
ECON 440	Economics of Labor Markets	
ECON 450	Development Economics	
ECON 451	Program Evaluation in Developing Economies	
ECON 452	The Latin American Economies	
ECON 480	Industrial Comp and Monopoly	
ECON 481	Govt Reg of Economic Activity	
ECON 483	Econ of Innovation and Tech	
ECON 482		
ECON 484	Law and Economics	
ECON 490	Topics in Economics	
<b>Macroeconomics Track</b>		<b>9</b>
ECON 103	Macroeconomic Principles	
ECON 303	Inter Macroeconomic Theory	
One 400-level elective course in Macroeconomics:		
ECON 420	International Economics	
ECON 452	The Latin American Economies	
ECON 462		
ECON 490	Topics in Economics (Including: Monetary Policy, Economic Growth))	
<b>Econometrics Track</b>		<b>9</b>
ECON 471	Intro to Applied Econometrics	
Two 400-level elective courses in Econometrics:		
ECON 465		
ECON 490	Topics in Economics (Including: Financial Econometrics, Economic Forecasting, Topics in Econometrics, Numerical Methods for Economics)	
<b>Total Hours</b>		<b>18-21</b>

## Electrical & Computer Engineering Minor

for the Minor in Electrical & Computer Engineering

**College:** The Grainger College of Engineering (<https://grainger.illinois.edu/>)

**webpage:** Electrical & Computer Engineering Minor (<https://ece.illinois.edu/academics/ugrad/ece-minor.asp>)

Electrical and Computer Engineering (ECE) transforms our day-to-day lives through a multitude of innovative technologies and products. The ECE minor is intended to expose students from other disciplines to the unlimited opportunities for innovation in this exciting field, and to the methodologies and tools used by electrical and computer engineers for the exploration and design of new technologies and products. The minor is open to undergraduates outside the ECE Department. Computer

Science majors cannot elect the Computer Engineering Option within the minor.

Code	Title	Hours
<b>Circuits Requirement:</b>		<b>4</b>
Select one of the following:		
ECE 110	Introduction to Electronics	3
ECE 205	Electrical and Electronic Circuits	
<b>Programming Requirement:</b> <sup>1</sup>		<b>3-4</b>
Select one of the following (with no particular preference):		
CS 101	Intro Computing: Engrg & Sci	
CS 125	Intro to Computer Science	
<b>A probability or statistics course chosen from an approved list below:</b>		<b>3-4</b>
ECE 313	Probability with Engrg Applic	3
IE 300	Analysis of Data	3
BIOE 310	Comp Tools Bio Data	3
MATH 461	Probability Theory	3 or 4
MATH 463	Statistics and Probability I	4
CEE 202	Engineering Risk & Uncertainty	3
CS 361	Probability & Statistics for Computer Science	3
<b>Select one of the following options below. Both the Core and Advanced Core courses from Option A or B must be completed</b>		<b>9-11</b>
<b>A. Electrical Engineering Option</b>		
Core requirement:		
ECE 210	Analog Signal Processing	
Advanced Core Electives:		
Two ECE courses chosen from an approved list below:		
ECE 310	Digital Signal Processing	3
ECE 329	Fields and Waves I	3
ECE 330	Power Ckts & Electromechanics	3
ECE 340	Semiconductor Electronics	3
ECE 342	Electronic Circuits	3
& ECE 343	and Electronic Circuits Laboratory	
<b>B. Computing Engineering Option</b>		
Core Requirement:		
ECE 120	Introduction to Computing	
ECE 220	Computer Systems & Programming	
Advanced Core Electives:		
Two ECE courses chosen from an approved list below:		
ECE 385	Digital Systems Laboratory	3
ECE 391	Computer Systems Engineering	4
ECE 411	Computer Organization & Design	4
<b>Elective ECE Courses to achieve a minimum of 18 hours of ECE course work.</b> <sup>2</sup>		<b>0-5</b>

<sup>1</sup> If the student will be taking ECE 220 following ECE 120, this requirement will be waived.

<sup>2</sup> Completion of the minor requires a minimum of 18 hours ECE course work. No additional hours are needed in this category if all courses taken to satisfy the previous requirements are ECE courses. Otherwise choose from any 300 and 400 level classes except ECE 316, ECE 317, ECE 396, ECE 397, ECE 496, ECE 499.

## English as a Second Language Minor

**department website:** <https://linguistics.illinois.edu/>

**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

**advising:** Linguistics advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The English as a Second Language minor, sponsored by the Department of Linguistics, prepares a student to teach English overseas and in contexts other than U.S. public schools. Completion of the minor fulfills the course work requirement for a Certificate in Teaching English as a Second Language (TESL). To receive a Certificate in TESL and a letter of completion from the department, the student must apply for the Certificate after completing all certificate requirements. Students must declare their minor at the start of their study. The Certificate in TESL does not lead to ISBE State certification for K-12 Schools.

Code	Title	Hours
Introduction to Linguistics (select one of the following)		3
LING 100	Intro to Language Science	
LING 400	Intro to Linguistic Structure	
EIL 487	Topics in Second Lang Studies	
LING 489	Theoretical Foundations of SLA	3
EIL 411	Intro to TESL Methodology	3
Select three of the following:		9
EIL 422	Engl Grammar for ESL Teachers	
EIL 445	Second Lang Reading & Writing	
EIL 456	Lang and Social Interaction I	
EIL 460	Principles of Language Testing	
EIL 488	Phonology for Second Language Teachers	
Total Hours		18

ENGL 301	Introduction to Critical Theory	3
One 200-level course in British literature before 1800		3
One 200-level course in British or American literature after 1800		3

Two additional 300- or 400-level courses in English	6
One English or Creative Writing course selected in consultation with an English Department advisor	3
<b>Total Hours</b>	<b>21</b>

## Environmental Economics & Law Minor

*for the Minor in Environmental Economics and Law*

The minor in Environmental Economics and Law is designed to provide students with basic skills in economic and legal analysis, and to teach them how to apply those tools to environmental problems. Students will emerge from this minor with in-depth knowledge about issues related to environmental protection and natural resource management and possibly sustainable development or land-use planning. The 300- and 400-level courses may have additional prerequisites not included in requirements for the minor.

Code	Title	Hours
<b>Required for the Minor in Environmental Economics and Law</b>		
ACE 210	Environmental Economics	3
ACE 310	Natural Resource Economics	3
Select one of the following:		3-4
ACE 100	Introduction to Applied Microeconomics	
ECON 102	Microeconomic Principles	
Select two of the following:		6
ACE 306	Food Law	
ACE 403	Agricultural Law	
ACE 406	Environmental Law	
ACE 456	Agr and Food Policies	
BADM 300	The Legal Environment of Bus	
Select one of the following:		3
ACE 411	Environment and Development	
CEE 434	Environmental Systems I	
ECON 414	Urban Economics	
ECON 484	Law and Economics	
<b>Total Hours</b>		<b>18-19</b>

A minimum of 18 hours must be completed for this minor. Courses in the minor cannot be completed Credit/No Credit.

Enrollment in the Environmental Economics and Law minor is not available to students enrolled in the Environmental Economics and Policy concentration of the Department of ACE. Enrollment is also not available to those enrolled in the Human Dimensions of the Environment concentration of the major in Natural Resources and Environmental Sciences if enrolled in that concentration was prior to January, 2013.

## Food & Agribusiness Management Minor

*for the Minor in Food and Agribusiness Management*

The Food and Agribusiness Management minor is designed for students to deepen their knowledge of the economics and management of agribusinesses as a complement to studies and practices in their major field. Courses will address food, biofuels, biotechnology, agriculture, the environment, and management within the global agribusiness system.

Code	Title	Hours
<b>Required for the Minor in Food and Agribusiness Management</b>		
ACE 100	Introduction to Applied Microeconomics or ECON 10: Microeconomic Principles	3-4
ACE 222	Agricultural Marketing	3
ACE 231	Food and Agribusiness Mgt	3
Select at least three hours from:		3
ACE 210	Environmental Economics	
ACE 251	The World Food Economy	
ACE 306	Food Law	
ACE 335	Food Marketing and Behavior	
ACE 345	Finan Decision Indiv Sm Bus	
Select two of the following:		6-7
ACE 427	Commodity Price Analysis	
ACE 428	Commodity Futures and Options	
ACE 430	Food Marketing	
ACE 431	Agri-food Strategic Management	
ACE 435	Global Agribusiness Management	
ACE 436	International Business Immersion	
ACE 444	Financial Services & Investing Planning	
<b>Total Hours:</b>		<b>18-20</b>

A minimum of 18 hours must be completed for this minor. Courses in the minor cannot be completed Credit/No Credit.

Enrollment in the Food and Agribusiness Minor is not available to students enrolled in the Agribusiness Markets and Management concentration of the Department of ACE, but students in other concentrations in ACE may be admitted to the minor. The 300- and 400-level courses may have additional prerequisites not included in requirements for the minor.

## Food & Environmental Systems Minor

*for the Minor in Food and Environmental Systems*

The Minor in Food and Environmental Systems is designed primarily for students who are enrolled in the Agricultural Communications Major which is jointly administered by the College of ACES and the College of Media. The eighteen hours of coursework in this minor provide a significant background in consumer sciences, agricultural management and production, and environmental and natural resources to support the study and practice of Agricultural Communications. Selection of additional courses beyond the core will depend on the student's major and interests.

Enrollment in ACES 102, FSHN 101, and NRES 100, four hours from selected 100- and 200-level courses, and six hours of 300- and 400-level courses as listed below is required for all students completing this minor. Courses in the minor cannot be taken Credit/No Credit. This minor is administratively based in ACES Academic Programs. Student advising will take place in this unit.

### Required Courses for the Food and Environmental Systems Minor

Code	Title	Hours
ACES 102	Intro Sustainable Food Systems	3
FSHN 101	The Science of Food and How it Relates to You	3
NRES 100	Fundamentals of Env Sci	3
Select a minimum of three hours from the following introductory level courses:		3
ANSC 100	Intro to Animal Sciences	
ANSC 101	Contemporary Animal Issues	
ANSC 110	Life With Animals and Biotech	
ANSC 223	Animal Nutrition	
ANSC 224	Animal Reproduction and Growth	
ANSC 250	Companion Animals in Society	
ACE 100	Introduction to Applied Microeconomics	
ACE 210	Environmental Economics	
ACE 222	Agricultural Marketing	
ACE 231	Food and Agribusiness Mgt	
ACE 232	Farm Management	
ACE 251	The World Food Economy	
CPSC 112	Introduction to Crop Sciences	
CPSC 116	The Global Food Production Web	
CPSC 226	Introduction to Weed Science	
FSHN 120	Contemporary Nutrition or FSHN Principles of Nutrition	
FSHN 232	Science of Food Preparation	
FSHN 260	Raw Materials for Processing	
HORT 105	Vegetable Gardening

NRES 219	Applied Ecology	
NRES 287	Environment and Society	
PLPA 204	Introductory Plant Pathology	
TSM 100	Technical Systems in Agr	
Select a minimum of six hours from the following advanced level courses:		6
ACE 306	Food Law	
ACE 310	Natural Resource Economics	
ACE 346	Tax Policy and Finan Planning	
ACE 403	Agricultural Law	
ACE 406	Environmental Law	
ACE 411	Environment and Development	
ACE 430	Food Marketing	
ACE 431	Agri-food Strategic Management	
ACE 432	Farm Management	
ACE 435	Global Agribusiness Management	
ACE 436	International Business Immersion	
ACE 451	Agriculture in Intl Dev	
ACE 456	Agr and Food Policies	
ANSC 305	Human Animal Interactions	
ANSC 306	Equine Science	
ANSC 309	Meat Production and Marketing	
ANSC 322	Livestock Feeds and Feeding	

ANSC 363	Behavior of Domestic Animals
ANSC 400	Dairy Herd Management
ANSC 401	Beef Production
ANSC 402	Sheep Production
ANSC 403	Pork Production
ANSC 404	Poultry Science
ANSC 405	Advanced Dairy Management
ANSC 406	Zoo Animal Conservation Sci
ANSC 407	Animal Shelter Management
ANSC 409	Meat Science
ANSC 422	Companion Animal Nutrition
ANSC 423	Advanced Dairy Nutrition
ANSC 431	Advanced Reproductive Biology
ANSC 438	Lactation Biology
ANSC 444	Applied Animal Genetics
ANSC 446	Population Genetics
ANSC 450	Comparative Immunobiology
ANSC 451	Microbes and the Anim Indust
ANSC 452	Animal Growth and Development
ANSC 467	Applied Animal Ecology
CPSC 407	Diseases of Field Crops
CPSC 418	Crop Growth and Management
CPSC 431	Plants and Global Change
FSHN 302	Sensory Evaluation of Foods
FSHN 322	Nutrition and the Life Cycle
FSHN 425	Food Marketing
FSHN 428	Community Nutrition
NRES 325	Natural Resource Policy Mgmt
NRES 330	Environmental Communications <sup>1</sup>
NRES 348	Fish and Wildlife Ecology
NRES 370	Environmental Sustainability
NRES 409	Fishery Ecol and Conservation
NRES 419	Env and Plant Ecosystems
NRES 420	Restoration Ecology
NRES 430	Comm in Env Social Movements <sup>1</sup>
NRES 431	Plants and Global Change
NRES 474	Soil and Water Conservation
NRES 488	Soil Fertility and Fertilizers
PLPA 407	Diseases of Field Crops
TSM 311	Humanity in the Food Web

Total Hours 18

<sup>1</sup> These courses may only be used to satisfy the requirements of the major in Ag Communications or the Food and Environmental Systems minor, but not both.

## Food Science Minor

for the Minor in Food Science

The minor in Food Science is designed to broaden the student's knowledge of science and in particular food chemistry, food microbiology, and food engineering. The Food Science minor is also suitable for students who intend to pursue careers in engineering, microbiology,

chemistry, scientific journalism, hospitality management, or science secondary education.

Code	Title	Hours
<b>Courses required for minor in food science</b>		
FSHN 101	The Science of Food and How it Relates to You	3
FSHN 414	Food Chemistry	3
FSHN 471	Food & Industrial Microbiology	3
<b>Select one of the following:</b>		<b>3-6</b>
FSHN 465	Principles of Food Technology or FSHN and & FSHN 4	
<b>Select one of the following:</b> <sup>1</sup>		<b>3-6</b>
FSHN 232	Science of Food Preparation	
FSHN 260	Raw Materials for Processing	
FSHN 302	Sensory Evaluation of Foods	
FSHN 416	Food Chemistry Laboratory	
FSHN 418	Food Analysis	
FSHN 460	Food Processing Engineering	
FSHN 466	Food Product Development	
ANSC 350	Cellular Metabolism in Animals	
MCB 450	Introductory Biochemistry	
ABE 483	Engineering Properties of Food Materials	
<b>Total Hours Required</b>		<b>18</b>

<sup>1</sup> Students who take FSHN 461 & FSHN 462 for 6 hours only need to select one course (3 hours) at minimum from the second list to reach the total minimum required hours. Students who take FSHN 465, 3 hours, will need to select two courses (6 hours) at minimum from the second list to reach the total minimum required hours.

For a FS minor with an emphasis in food processing it is recommended that students select the FSHN 461 and FSHN 462 option. However, FSHN 461 and FSHN 462 have prerequisites that not every student seeking a minor may choose to meet.

Students cannot take both FSHN 461 and FSHN 462 and FSHN 465.

## French Minor

for the French Minor

**department website:** <https://frit.illinois.edu/>

**department faculty:** French & Italian Faculty (<https://frit.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

Code	Title	Hours
FR 207	Writing and Grammar Workshop	3
FR 211	Introduction to Literary Studies	3
FR 212	Introduction to Cultural Analysis: French Identities	3
FR 205	Oral French	2
or FR 213	French Phonetics	
Select one of the following:		3

FR 335	French Cultural History to 1789	
FR 336	French Cultural History 1789-1968	
FR 337	Contemporary France	
Two French courses at the 300- or 400-level in any of the following areas: language and translation, business, cinema, culture, linguistics, literature, media		6
Total Hours		20

## Gender & Women's Studies Minor

### for the Minor in Gender and Women's Studies

**department website:** <https://www.gws.illinois.edu/>  
**department faculty:** Gender & Women's Studies Faculty (<https://www.gws.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [gws-email@illinois.edu](mailto:gws-email@illinois.edu)

A minor in GWS provides complementary tools for many majors in the humanities, arts and sciences. The minor advocates actively reading, questioning, challenging, and understanding racialized, sexualized, and gendered bodies. The Department of Gender and Women's Studies must approve a student's minor course plan. Students must register their minor with the Gender and Women's Studies advisor.

Code	Title	Hours
Select two of the following:		6
GWS 201	Race, Gender & Power	
GWS 202	Sexualities	
GWS 350	Feminist & Gender Theory	
Additional Coursework- At least 9 additional hours of coursework offered by the Gender and Women's Studies Department at the 300- or 400-level. Required courses consist of a selected list of courses offered by the Department of Gender & Women's Studies; they are on an approved list maintained in the department office and with the GWS advisor. <sup>1</sup>		9
3 hours of area electives at any level. For a list of approved courses contact the GWS department office or the GWS advisor.		3
Total Hours		18

<sup>1</sup> *Topics courses (GWS 395, GWS 495) may count up to 3 hours toward additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.*

At least 6 hours of advanced coursework must be distinct from credit earned for the student's major or another minor.

## Geography & Geographic Information Science Minor

### for the Minor in Geography & GIS

**department website:** <https://www.geog.illinois.edu/>  
**department faculty:** Geography & GIS Faculty (<https://www.geog.illinois.edu/people/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [geography@illinois.edu](mailto:geography@illinois.edu)

The minor in Geography and GIS will expose students to a comprehensive selection of courses embracing our three broad areas of study: human geography, physical/environmental geography, and geographic information science. Students select 6 hours at the 100 level, then 3 hours each from the human, physical/environmental, and geospatial sub-disciplines (as listed below), and then 3 additional hours from any of the three sub-disciplines for a total of 18 credits. At least 6 hours total must be at the 300 or 400 level.

Code	Title	Hours
Two courses selected from the following:		6
ATMS/ GEOG 100	Introduction to Meteorology	
GEOG 101	Global Development&Environment	
GEOG 103	Earth's Physical Systems	
GEOG 104	Social and Cultural Geography	
GEOG 105	The Digital Earth	
GEOG 106	Geographies of Globalization	
GEOG 221	Geographies of Global Conflict	
One course in human geography, selected from the following:		3
GEOG 204	Cities of the World	
GEOG 205	Business Location Decisions	
GEOG 224	Geog Patterns of Illinois	
GEOG 350	Sustainability and the City	
GEOG 356	Sustainable Development in South Asia	
GEOG 384	Population Geography	
GEOG 405	Geography Field Course	
GEOG 410	Green Development	
GEOG 438	Geography of Health Care	
GEOG 455	Geog of Sub-Saharn Africa	
GEOG 465	Transportation & Sustainability	
GEOG 466	Environmental Policy	
GEOG 471	Recent Trends in Geog Thought	
GEOG 483	Urban Geography	
GEOG 484	Cities, Crime, and Space	
One course in physical/environmental geography, selected from the following:		3
GEOG 210	Social & Environmental Issues	
GEOG 222	Big Rivers of the World	
ESE 320	Water Planet, Water Crisis	
NRES/ GEOG 401	Watershed Hydrology	
GEOG 405	Geography Field Course	
GEOG 406	Fluvial Geomorphology	
GEOG 408	Humans and River Systems	
GEOG 412	Geospatial Tech & Society	
GEOG 459	Ecohydraulics	

GEOG 496	Climate & Social Vulnerability	
One course in geographic information science, selected from the following:		3
GEOG 371	Spatial Analysis	
GEOG 379	Intro to GIS Systems	
GEOG 380	GIS II: Spatial Prob Solving	
GEOG 412	Geospatial Tech & Society	
GEOG 440	Business Applications of GIS	
PATH 439	Health Applications of GIS	
GEOG 460	Aerial Photo Analysis	
GEOG 468	Biological Modeling	
GEOG 473	Digital Cartography & Map Design	
GEOG 476	Applied GIS to Environ Studies	
GEOG 477	Introduction to Remote Sensing	
GEOG 478	Techniques of Remote Sensing	
GEOG 479	Advanced Topics in GIS	
GEOG 480	Principles of GIS	
One 200-400 level course selected from any of the above.		3
Total Hours		18

At least 6 hours total must be at the 300 or 400 level.

## Geology Minor

*for the Minor in Geology*

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)  
**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=225782>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The geology minor is designed for students who desire a significant background in Geology to support study and practice of their major field. Selection of courses at the 300- or 400- level will depend on the major and interests of the student.

Code	Title	Hours
GEOL 107	Physical Geology <sup>1</sup>	4
GEOL 208	History of the Earth System	4
Select at least 10 hours of advanced geology courses from the following:		10-11
GEOL 333	Earth Materials and the Env	
GEOL 380	Environmental Geology	
400-level courses taught by the Department of Geology		
Total Hours		18-19

<sup>1</sup> Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

## German Minor

*for the Minor in German*

**department website:** <https://www.germanic.illinois.edu>  
**department faculty:** Germanic Languages & Literatures Faculty (<https://germanic.illinois.edu/directory/faculty/>)

Total Hours		19-21

## Global Labor Studies Minor

*for the minor in Global Labor Studies*

**website:** <https://ler.illinois.edu/labor-education/>

**email:** [illinoislabored@illinois.edu](mailto:illinoislabored@illinois.edu)

**overview of school admissions & requirements:** Labor & Employment Relations (<http://catalog.illinois.edu/ler/>)

Global Labor Studies analyzes the interplay of class, gender, race, and labor organizations in the workplace, the economy, and the political arena from a multi-disciplinary and global perspective. A minor in Global Labor Studies requires 18 credit hours in LER Global Labor Studies Courses.

A minimum grade point average of 2.75 is required for completion of the minor and all courses required for the minor must be taken for a grade.

Code	Title	Hours
LER 100	Introduction to Labor Studies	3
LER 130	Intro Labr Wrkng Class History	3
Minimum of six hours 300- or 400-level courses.		6
Two courses that focus on international or comparative labor issues. (LER 200, LER 240, LER 330 and LER 410).		6
Total Hours		18

## Global Markets & Society Minor

*for the Minor in Global Markets & Society*

**department website:** <https://globalstudies.illinois.edu/>

**department faculty:** Global Studies Faculty (<https://globalstudies.illinois.edu/directory/faculty-and-staff/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [globalstudies@illinois.edu](mailto:globalstudies@illinois.edu)

The LAS **Global Markets and Society** Minor enables students at the University of Illinois to gain interdisciplinary knowledge of global market-society relations through historical and global perspectives that emphasize the social, political, and economic forces that shape market institutions and practices. The minor requires 18-21 hours of coursework completed through six courses, *with a minimum of six hours at the advanced level (300- or 400-level)*. A professional development capstone experience course is optional and can be met by completing an internship or participating in a research experience and/or written project. The LAS Global Markets and Society Minor is open to undergraduate students in any major at the University of Illinois at Urbana-Champaign campus.

### Applications Requirements and Procedures

Completion of 30 hours of undergraduate coursework by the end of the Spring semester of application.

Students are admitted by application into the LAS Global Markets and Society Minor. Interested students will be asked to demonstrate a commitment to the program through (a) completing an application to the program, including a written statement of goals for participation in the program and/or evidence of or commitment to participation in activities designed to enhance leadership, and (b) developing a program plan with the program coordinator and/or their academic advisor prior to admission.

Only students officially admitted into the LAS Global Markets and Society Minor may earn the minor.

Code	Title	Hours
GLBL 270	Introduction to Global Markets and Society	3
<b>Core Courses</b>		<b>6</b>
Choose 2 from the following list (Courses used in the core cannot be used again in your Specialization Track)		
CMN 211	Business and Professional Communication	
CS 105	Intro Computing: Non-Tech	

ECON 102	Microeconomic Principles
GEOG 205	Business Location Decisions
HIST 259	20thC World from Midcentury
PS 220	Intro to Public Policy
PSYC 245	Industrial Org Psych
SOC 160	Global Ineq and Social Change

### Specialization Track 9

Choose three courses in your track. At least 2 of the 3 courses must be at the 300- or 400-level. Alternate courses may be considered on a case-by-case basis.

Students choose courses from a list maintained by LAS Global Studies, and reviewed annually by the Global Markets and Society Advisory Committee. (<http://www.globalstudies.illinois.edu/current/academics/globalmarket/>)

**Global Markets and Governance.** The economy is intricately connected to institutions at the local, national, and international levels that affect market practices and outcomes. This track focuses on the institutions and social relations that govern global market practices.

**Science, Technology, and Markets.** Technological innovations in transportation and communications are driving business location decision-making and operations at the global scale. This track is aimed at science and technology majors with entrepreneurial ambitions as well as students in the social sciences and humanities investigating the interface between science, technology, and society.

**Global Encounters.** Participation in the global economy requires firms to be geographically dispersed and capable of partnering with a global audience of stakeholders. This track is focused on the historical and cross-cultural understanding necessary to engage in global markets.

**Markets, Development, and the Environment.** Global markets can create positive environmental outcomes in the locations where they operate. This track focuses on the challenges in designing, building, and evaluating sustainable environmental and development outcomes, including ecological modernization, market environmentalism, and political ecology.

**The Global Workforce.** Global production systems depend on the effective organization and participation of workers in the global workforce. This track focuses on human resources, organizational structures, and group communication in the contexts of working class history and global labor markets.

**Analytical Approaches & Languages.** Investigating global market-society relations requires a basic level of competence in communication skills, research methods, and analytical techniques. This track offers students a range of market language, methods, and skills oriented courses that build such competency.

### OPTIONAL Professional Development Capstone Experience (3 hours)

Choose one option in consultation with the Global Markets and Society minor advisor:

Internship or Field Experience in a market-focused organization

Research Experience with a Faculty Member

Analytical/Research Paper with Faculty Guidance

Credit is awarded for each of these three options on the basis of an analytical/research paper written by the student under the supervision of a faculty adviser

**Total Minimum Hours**

**18**

## Global Studies Minor

*for the Minor in Global Studies*

**department website:** <https://globalstudies.illinois.edu/>

**department faculty:** Global Studies Faculty (<https://globalstudies.illinois.edu/directory/faculty-and-staff/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [globalstudies@illinois.edu](mailto:globalstudies@illinois.edu)

The Global Studies Minor provides a multidisciplinary study of a global theme with the requirement of advanced language training to promote the development of intercultural skills. In consultation with an advisor, students select 21 hours of thematically-related courses from a variety of departments to form a coherent program of study suited to individual interests, educational and/or career aspirations. The Global Studies Minor can complement any major.

Code	Title	Hours
	Global Studies. Three courses must be selected from the approved course list; they must include no more than one course each from three of the following departments: Anthropology, Economics, Geography, History, Political Science, and Sociology.	9
	Language and Culture. Select courses from the approved course list in a language other than your primary language. These various courses represent the 5th level of study or above.	3
	Thematic Area: Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum. Students must choose 200- to 400-level courses and at least 6 hours must be at the 300- or 400-level.	9
Total Hours		21

A minimum of 6 hours of 300- and 400-level course work must be completed.

## Hindi Studies Minor

*for the Minor in Hindi Studies*

**department website:** <https://linguistics.illinois.edu/>

**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

**advising:** Linguistics advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The minor in Hindi Studies is designed for students interested in receiving training in processing and using Hindi in a wide variety of

authentic (from informal to institutional) contexts. Students will be encouraged to read authentic Hindi material from different genres and registers (including Hindi print media). Completion of the minor requires at least 19 hours in applicable courses.

Code	Title	Hours
Hindi language requirement		10
HNDI 404	Intermediate Hindi II	
HNDI 405	Advanced Hindi I	
HNDI 406	Advanced Hindi II	
Two courses in Indian Linguistics/sociolinguistics (to be chosen from the following list in consultation with advisor)		6
LING 115	Language and Culture in India	
HNDI 412	Business Hindi	
LING 111		
One historically significant language course related to Modern Hindi or a course on Indian/South Asian Literature		3-5
SNSK 201	Elementary Sanskrit I	
SNSK 202	Elementary Sanskrit II	
ARAB 201	Elementary Standard Arabic I	
ARAB 202	Elementary Standard Arabic II	
PERS 201	Elementary Persian I	
PERS 202	Elementary Persian II	
HNDI 408	Intro to South Asian Lit	
Students with prior knowledge of any of the languages mentioned above can also meet the 3-5 credit requirement by taking upper level courses of the languages.		
Total Hours		19-21

## History Minor

*for the Minor in History*

**department website:** <https://www.history.illinois.edu/> (<https://history.illinois.edu/>)  
**department faculty:** History Faculty (<https://history.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [history@illinois.edu](mailto:history@illinois.edu)

The history minor is designed for students who would like to pursue a passion for history in conjunction with any major at the university. History minors graduate with an advanced capacity to think contextually, locate and analyze evidence, evaluate competing viewpoints, assess causation, offer new interpretations, and solve complex problems. There is considerable flexibility in the minor, with course options that may be selected based on student interests.

Code	Title	Hours
HIST 200	Intro Hist Interpretation	3
One History course focused on Non-Western (African, Asian, Global, Latin American, Middle Eastern) history, chosen from a list maintained in the department		3

Additional History coursework, selected with an advisor	12
<b>Total Hours</b> <sup>1</sup>	<b>18</b>

<sup>1</sup> At least 6 hours must be at the 300- or 400-level; no more than 6 hours at the 100-level. With permission, 3 hours may be study abroad hours.

## Horticulture Minor

*for the Minor in Horticulture*

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/> (<https://cropsciences.illinois.edu/people/faculty/>)/  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

The Horticulture minor is designed for students who desire a significant background in horticulture to support study and practice of their major field. Selection of additional courses beyond the core will depend on the student's major and interests. Courses in the minor cannot be taken Credit/No Credit. At least 6 hours of the minor must be advanced (300 or 400) level courses that are distinct from classes meeting requirements in the student's major.

Code	Title	Hours
<b>Core Requirements</b>		<b>7</b>
HORT 100	Introduction to Horticulture	
HORT 341	Greenhouse Mgmt and Production	
<b>HORT Electives</b>		<b>11</b>
At least 2 additional hours of HORT 3XX-4XX. <sup>1</sup>		
Select a minimum of 9 hours from any HORT courses (excluding HORT 393 and HORT 395).		
Total Hours		18

<sup>1</sup> At least six hours of coursework for the minor should be advanced (300-level or 400-level courses) and must be distinct from credit earned for the student's major or another minor.

## Informatics Minor

*for the Minor in Informatics*

**contact:** Karin Readel, Senior Education Coordinator, (217)-244-1220

**Informatics Minor website:** <https://www.informatics.illinois.edu/minor-program/>

**email:** [info-\(inf-minor@illinois.edu\)minor@illinois.edu](mailto:info-(inf-minor@illinois.edu)minor@illinois.edu)

The Minor in Informatics will teach you to become a better creator and user of computing technology in your major area and to think critically about new technology's role in society. No other field has, and will have, a greater influence on humanity in our generation.

Informatics studies the design, application, use and impact of information technology. The ability to handle vast amounts of information cheaply has changed the way we live. Advances in computer power, the World Wide Web, search engines, social networking, mobile technology, GIS, and large-scale collaborative initiatives, to name a few, have

revolutionized the way knowledge is created and shared. Information has become a ubiquitous, indispensable component of our everyday lives, as we strive to manage information, create knowledge, and make decisions.

The Informatics Minor signals that you have concrete expertise in computing and Information Technology (IT) and understand their human implications.

Students from any major interested in applying technology or studying its effect on humanity are encouraged to apply, preferably by the end of sophomore year. Although there are no prerequisites, basic familiarity with computers is expected. To receive the Informatics Minor students must complete three core courses plus three upper-level classes with sufficient informatics or computational content from an approved list of courses offered from a wide range of disciplines. The core courses are INFO 102, CS 105, and INFO 202. INFO 102 is a broad introduction to computer science and provides an understanding of the nature, capabilities, and limitations of IT. CS 105 is an introduction to computer programming for non-science and non-engineering majors. INFO 202 explores the ways in which IT has and is transforming society and how these technologies affect a range of social, political, and economic issues from the individual to societal levels. Some substitutions can be made. The list of upper-level courses that count toward the minor is here: <https://www.informatics.illinois.edu/courses-for-the-minor/>. This list is dynamic as new classes are added each year.

### Course requirements for students who are not CS majors or minors or ECE majors:

Code	Title	Hours
INFO 102	Little Bits to Big Ideas	4
INFO 202	Social Aspects Info Tech	3
Select one of the following:		3
CS 105	Intro Computing: Non-Tech	
CS 101	Intro Computing: Engrg & Sci	
CS 125	Intro to Computer Science	
STAT 107	Data Science Discovery	
ECE 120 & ECE 220	Introduction to Computing and Computer Systems & Programming	
3 upper-level courses from an Informatics-approved list of courses from a variety of disciplines, all with sufficient informatics or computational content		9-12
Total Hours		19-22

### Course requirements for CS and ECE majors and CS minors:

Code	Title	Hours
INFO 202	Social Aspects Info Tech	3
Select one of the following:		3-4
CS 101	Intro Computing: Engrg & Sci	
CS 125	Intro to Computer Science	
ECE 220	Computer Systems & Programming	
4 upper-level, non-CS courses from an Informatics-approved list		12
Total Hours		18-19

Visit <https://www.informatics.illinois.edu/minor-program/> for information about the Informatics Minor. This minor is offered by the Illinois Informatics Institute, <https://www.informatics.illinois.edu/>, 333-4930.

## Integrative Biology Minor

### for the Minor in Integrative Biology

**department website:** <http://sib.illinois.edu/>  
**department faculty:** School of Integrative Biology Faculty (<http://sib.illinois.edu/people/faculty/>)  
**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [advising@sib.illinois.edu](mailto:advising@sib.illinois.edu)

The minor, administered by the School of Integrative Biology, is designed for students intending to have a career in a field other than biology, but for whom a background in biology is nevertheless complementary, e.g. law, technology, bioinformatics, business, scientific writing, and engineering. A minor in integrative biology provides an understanding of fundamental principles for one major subdiscipline of biology, whether this be organismal and evolutionary biology; behavior, ecology and the environment; or integrative anatomy, physiology, and molecular biology.

Code	Title	Hours
Select one of the following:		4
IB 150	Organismal & Evolutionary Biol	
IB 103	Introduction to Plant Biology	
IB 104	Animal Biology	
Select two of the following:		6-8
IB 202	Physiology	
IB 203	Ecology	
IB 204	Genetics	
IB 302	Evolution	
Two additional courses at the 300 or 400 level (3-4 hours, some 5 hours) selected from the IB Area Courses. The prerequisite course(s) must be taken if specified by an advanced course. ( <a href="http://sib.illinois.edu/courses/area/">http://sib.illinois.edu/courses/area/</a> )		6-8
Total Hours		16-20

Other possible combinations of courses are possible for the Integrative Biology minor, if an SIB advisor approves the combination.

## Interdisciplinary Minor in African Studies

### for the Interdisciplinary Minor in African Studies

**center website:** <http://www.afrst.illinois.edu/>  
**center faculty:** African Studies Faculty (<http://www.afrst.illinois.edu/people/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [african@illinois.edu](mailto:african@illinois.edu)

The Center for African Studies offers an interdisciplinary minor as a complement to any major. The 20 hours selected by students for the African studies minor should form a coherent program of study. This program must be approved by the Center for African Studies. The Dean

of the College of Liberal Arts and Sciences will verify that the student has completed the program on the recommendation of the Director of the Center for African Studies and on completion of the requirements below.

## Requirements

Code	Title	Hours
	Study of an indigenous African Language. Acceptable languages include but are not limited to Arabic, Bamana, Lingala, Swahili, Wolof, and Zulu.	5
<b>African Studies core courses. These courses contain a minimum of 50 percent African content and are defined according to a list maintained and regularly updated by the Center for African Studies. Courses completed to satisfy the core must come from at least 3 separate departments and must include the following three components:</b>		
	Course-work surveying the continent. Choose one of the following:	3
AFST 210	Introduction to Modern African Literature	
AFST 222	Introduction to Modern Africa	
AFST 254	Economic Systems in Africa	
HIST 111	History of Africa to 1800	
HIST 112	History of Africa from 1800	
SOC 122	Africa in World Perspective	
	300- or 400-level core courses. Language courses cannot be used to meet this requirement.	6
	Additional core courses at any level. African language courses may be used to satisfy this requirement if they are at the advanced level (fifth semester or higher). Only 3 hours of AFST 199 may be used to satisfy the requirements of the minor.	6
Total Hours		20

## Interdisciplinary Minor in Aging

*for the Interdisciplinary Minor in Aging*

**department website:** <http://ihealth.illinois.edu/>  
**department faculty:** I-Health Faculty and Staff (<http://ihealth.illinois.edu/faculty-staff/>)  
**college catalog page:** Applied Health Sciences Catalog (p. 1149)  
**college website:** <http://www.ahs.illinois.edu/>

The Interdisciplinary Minor in Aging provides students with the opportunity to study aging as it relates to health, communication, development and activity. The minor is offered through the College of Applied Health Sciences. There are no prerequisites for the minor. Minors should be declared by filling out the intent to pursue a minor form which can be found at <http://provost.illinois.edu/programs/advising/declare.html> and turning the form into Julie Bobitt, Interdisciplinary Health Sciences Program, in 228 Huff Hall or contact Julie via email at [jbobbitt@illinois.edu](mailto:jbobbitt@illinois.edu).

Code	Title	Hours
Required Courses		9
IHLT 240	Health and Aging Policy	
CHLH 404	Gerontology	
PSYC 361	The Psychology of Aging	

Additional aging-related courses chosen from the following list: <sup>1</sup> 9

KIN 459	Physical Activity & Aging	
SOCW 240	Death & Dying	
SOCW 315	Social Work Services for Older Adults	
CHLH 494	Special Topics <sup>2</sup>	
RST 316	Human Development and Recreation, Sport and Tourism	
RST 335	Leisure and Consumer Culture	
SHS 271	Communication and Aging	
KIN 386	Exercise Instruction & Elderly	
EPSY 407	Adult Learning and Development	
UP 340	Planning for Healthy Cities	
Total Hours		18

<sup>1</sup> *Students may also earn elective credit by participating in an aging-related internship or independent study that is also pre-approved by the advisor for the minor. Minor modification forms should be filled out if you are requesting to use an independent study or internship. Forms can be found at <http://provost.illinois.edu/files/2017/01/Minor-Modification-Form.pdf>.*

<sup>2</sup> *Special Topics courses must include aging-related content and be approved by the Aging minor advisor.*

## Interdisciplinary Minor in Jewish Culture & Society

*for the Interdisciplinary Minor in Jewish Culture and Society*

**program website:** <https://jewishculture.illinois.edu/>  
**program faculty:** Jewish Culture & Society Faculty (<https://jewishculture.illinois.edu/directory/affiliate-faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [jewishculture@illinois.edu](mailto:jewishculture@illinois.edu)

The Program in Jewish Culture and Society offers an interdisciplinary minor and a concentration in Jewish Studies (through the LAS Interdisciplinary Studies Major (<http://catalog.illinois.edu/undergraduate/las/academic-units/interdisc-studies/jewish-studies-concentration/>)).

Code	Title	Hours
	One course in the cluster of Religion, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.	3
	One course in the cluster of Culture, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.	3
	One course in the cluster of History, chosen from a list of courses maintained by the Advisor in the Program in Jewish Culture and Society Office.	3
Electives within the minor. Students may choose additional courses from any of the three clusters or can choose from the following language courses:		9
HEBR 199	Undergraduate Open Seminar	
HEBR 201	Elementary Modern Hebrew I	

HEBR 202	Elementary Modern Hebrew II	
HEBR 205	Intensive Biblical Hebrew	
HEBR 403	Intermediate Modern Hebrew I <sup>1</sup>	
HEBR 404	Intermediate Modern Hebrew II <sup>1</sup>	
HEBR 405	Advanced Modern Hebrew I	
HEBR 406	Advanced Modern Hebrew II	
HEBR 407	Topics Hebrew Lang & Lit	
YDSH 103	Intermediate Yiddish I	
YDSH 104	Intermediate Yiddish II	
Total Hours		18

Of the 18 required hours, two courses (6 hours) must be 300-or 400-level courses. HEBR 403 and HEBR 404 cannot be used to satisfy this requirement.

<sup>1</sup> HEBR 403 and HEBR 404 cannot be used to satisfy LAS Advanced Hours requirement (<http://www.las.illinois.edu/students/requirements/minimum/>) or the 6 hours of 300- or 400- level courses for the Jewish Culture and Society Interdisciplinary Minor.

No more than 6 hours (two courses) may be at the 100 level.

The 18 hours selected by students for a minor in Jewish Culture and Society should form a coherent program and must be approved by the undergraduate advisor for the Program in Jewish Culture and Society.

A list of courses, regularly updated by the Program in Jewish Culture and Society, is available from the Program Office (<http://www.jewishculture.illinois.edu/>), 109 English Bldg., 608 South Wright Street, Urbana, Illinois, 61801.

## Interdisciplinary Minor in Medieval Studies

for the Interdisciplinary Minor in Medieval Studies

**department website:** <http://www.medieval.illinois.edu/education/undergrad/>

**department faculty:** Medieval Studies Faculty (<http://www.medieval.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [medievalstudies@illinois.edu](mailto:medievalstudies@illinois.edu)

This minor introduces students to medieval (ca. 500- ca. 1500 CE) cultures across the world, providing them with an understanding of periods and movements, institutions, material culture, ideas, beliefs, and values of the diverse cultures that comprise the medieval globe. The coursework spans both geographical regions and disciplines to introduce students to the breadth of medieval cultures as well as to the diversity of methods and perspectives for their study.

The minor includes a minimum of 21 hours, divided into (I) an introductory course in global medieval literatures and cultures; (II) geographical distribution coursework as specified below; and (III) advanced medieval coursework selected by the student in consultation with a faculty advisor. 3 hours of appropriate language study can be applied to the Additional Medieval Studies Coursework.

Code	Title	Hours
<b>Introduction to Medieval Studies <sup>1</sup></b>		
ENGL 202/ MDVL 201/ CWL 253	Medieval Literature and Culture	3
<b>Geographical Distribution Coursework <sup>2</sup></b>		<b>9</b>
3 hours- Medieval Europe- One course chosen from the following:		
ARTH/ MDVL 111	Ancient to Medieval Art	
ARTH/ MDVL 222	Medieval Art	
ARTH/ MDVL 231	Northern Renaissance Art	
ITAL/MDVL 240	Italy Middle Ages & Renaiss	
HIST/ MDVL 245	Wives, Workers and Witches in Pre-Modern Europe	
HIST/ MDVL 247	Medieval Europe	
SCAN/ MDVL 251	Viking Mythology	
SCAN/ MDVL 252	Viking Sagas in Translation	
HIST/ MDVL 255	British Isles to 1688	
ARCH/ MDVL 412	Medieval Architecture	
3 hours-Classical and Medieval East Asia- One course chosen from the following:		
HIST 220	Traditional China	
HIST 226	Premodern Japanese History	
EALC 240	Chinese Civilization	
EALC 275	Masterpieces of East Asian Lit	
REL 287	Introduction to Buddhism	
3 hours-Medieval Central Asia, South Asia, or the Middle East- One course chosen from the following:		
HIST 130	History of South Asia	
HIST 135	History of Islamic Middle East	
LA 218	S Asian Cultural Landscapes	
LA 222	Islamic Gardens & Architecture	
REL 213		
or REL 2' Introduction to Islam		
REL 223	The Qur'an (Koran)	
REL 260	Mystics and Saints in Islam	
REL 283	Jewish Sacred Literature	
CWL 208	Cultures & Literatures of South Asia	
<b>Additional Medieval Studies Coursework</b>		<b>9</b>

Medieval-related coursework from participating departments selected in consultation with the minor advisor. At least 6 hours must be at the 300- or 400-level. A list of courses is maintained on the Medieval Studies Program website. 3 hours of appropriate language study can be applied to meet this requirement with approval of the Director of the Program in Medieval Studies.<sup>3</sup>

Total Hours 21

<sup>1</sup> A student may substitute the "Medieval World" section of HIST 100 by petition to the Director of Medieval Studies. Only the section of HIST 100 devoted to the Middle Ages may be substituted.

<sup>2</sup> A student may substitute 3 hours in geographical distribution coursework with a course on the medieval civilizations of the Americas: ANTH 277 or ANTH 278.

<sup>3</sup> List of courses to fulfill Additional Medieval Studies Coursework. (<http://www.medieval.illinois.edu/education/undergrad/>)

## International Business Minor

### for the Minor in International Business

**department website:** U (<https://www.business.illinois.edu/ba/>) Undergraduate Programs (<https://giesbusiness.illinois.edu/programs/undergraduate/>)

**department faculty:** G (<https://business.illinois.edu/ba/directories/all-faculty/>) Gies College of Business faculty (<https://giesbusiness.illinois.edu/faculty-research/faculty-profiles/>)

**college website:** Gies College of Business (<https://giesbusiness.illinois.edu/>)

**minor email:** [ba@business.illinois.edu](mailto:ba@business.illinois.edu)

### overview of business minor admissions & requirements:

Please refer to the *International Business Minor* website for important changes to the application process and requirements.

The International Business Minor is for students earning Undergraduate degrees in the Gies College of Business and is not open to students earning Undergraduate degrees in colleges other than the Gies College. The International Business Minor provides a program of study that exposes students to global business in a manner that complements their existing studies in Accountancy, Finance, Information Systems, Management, Marketing, Operations Management, Supply Chain Management, and Strategic Business Development & Entrepreneurship.

Specifically, the Minor provides students with a clear understanding of the opportunities and challenges involved with international business transactions, as global managers face a diverse set of circumstances when engaging in cross-border business: e.g., enhanced globalization (& de-globalization) forces, cross-national variation in institutions and cultures, increased competition from emerging economies, and altered economic incentives. Thus, the International Business Minor is designed to educate and train future business leaders, decision-makers and strategic thinkers to skillfully manage in the evolving global business environment.

To declare their Minors, Business students must submit their *Statement of Intent to Pursue a Campus-Approved Minor* (Statements) to 1055 Business Instructional Facility (BIF) at any time.

Code	Title	Hours
<b>Minor Core Requirements</b>		<b>15</b>
BADM 338	Global Supply Chain Management	3
BADM 380	International Business	3
BADM 381	Multinational Management	3
BADM 382	International Marketing	3
BADM 383	Topics in International Business	3
<b>Minor Elective Requirements<sup>1</sup></b>		<b>3</b>
BADM 383	Topics in International Business	3
Any 200-level language course <sup>2</sup>		3
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> In order to fulfill the elective requirement, students have the option of taking either a second 'Topics in International Business' section or a 200-level language course. The Academic Director of the minor will also consider substitutes for the elective requirement (e.g., study-abroad courses) upon petition.

<sup>2</sup> Any course taught in any modern foreign language beyond Beginning and Intermediate language instruction (which in most, but not all, language departments is numbered in the 200-series) will be counted.

## International Development Economics Minor

### Minor in International Development Economics

Code	Title	Hours
<b>Required for the Minor in International Development Economics</b>		
ACE 100	Introduction to Applied Microeconomics or ECON 10 Microeconomic Principles	3-4
ACE 251	The World Food Economy	3
Select one of the following:		3
ACE 222	Agricultural Marketing	
ACE 254	Economic Systems in Africa	
ACE 255	Economics of Food and Environmental Justice	
ACE 270	Consumer Economics	
Select two of the following:		6
ACE 411	Environment and Development	
ACE 436	International Business Immersion	
ACE 451	Agriculture in Intl Dev	
ACE 452	The Latin American Economies	
ACE 454	Econ Dev of Tropical Africa	
ACE 455	International Trade in Food and Agriculture	
At least 12 hours taken from the preceding two categories		3
<b>TOTAL HOURS</b>		<b>18-19</b>

Some of these courses have additional non-ACE prerequisites. A semester-long study abroad experience in an emerging market or development economy (i.e. countries not part of the OECD) will be accepted in lieu of one of these courses.

The minor should consist of at least 18 hours of course work. At least 6 hours of the minor must be advanced (300 or 400) level courses.

Courses in the minor cannot be completed Credit/No-Credit.

## International Minor in Agricultural, Consumer, & Environmental Sciences

*for the International Minor in Agricultural, Consumer, and Environmental Sciences*

This minor will help students prepare for life and work in a global society and will provide the international skills employers expect of our graduates. While it is the intent of this minor to encourage students to spend time abroad and to develop proficiency in a foreign language, neither is required.

Students enrolled in this minor will be able to draw on resources outside the college as well as select from courses offered by the seven departments in the College of ACES. At least 12 of the total 21 credit hours required for this minor must be College of ACES courses. At least 6 credit hours (ACES or non-ACES) must come from 400-level courses. Courses in the minor cannot be completed Credit/No Credit.

This minor is administratively based in ACES Academic Programs. Student advising will take place in this unit.

### Required Courses for the ACES International Minor

Code	Title	Hours
<b>Global Study in the Social Science Disciplines</b>		
Minimum of 3 hours, maximum of 9 hours selected from:		3-9
ACE 251	The World Food Economy	
ACE 411	Environment and Development	
ACE 435	Global Agribusiness Management	
ACE 451	Agriculture in Intl Dev	
ACE 455	International Trade in Food and Agriculture	
AGCM 320	Public Information Campaigns	
ANTH 262	Women's Lives	
BADM 380	International Business	
BADM 381	Multinational Management	
BADM 382	International Marketing	
ECON 420	International Economics	
ECON 450	Development Economics	
FIN 451	Intl Financial Markets	
GEOG 204	Cities of the World	
GEOG 210	Social & Environmental Issues	
GEOG 410	Green Development	
HDFS 220	Families in Global Perspective	
HIST 258	20thC World to Midcentury	
HIST 259	20thC World from Midcentury	
NRES 287	Environment and Society	
PS 241	Comp Politics in Dev Nations	
PS 280	Intro to Intl Relations	
PS 382	Intl Political Economy	
PS 389	International Communications	
REL 110	World Religions	
UP 423	Community Development in the Global South	

### Global Study in the Natural Science Disciplines

Minimum of 3 hours, maximum of 9 hours, selected from:	3-9
ANSC 205	World Animal Resources
ATMS 140	Climate and Global Change
CPSC 116	The Global Food Production Web
CPSC 431	Plants and Global Change
NRES 109	Global Environmental Issues
PLPA 200	Plants, Pathogens, and People
TSM 311	Humanity in the Food Web

### Regional Specialization

The following four approaches/options can be used (separately or in combinations) to complete this portion of the minor. 3-9

Academic credit earned through study or supervised activities outside the U.S. through:

ACES 293	International Internship
ACES 298	International Experience
ACES 299	ACES Study Abroad

Completion of one or more of the following courses offered by the Department of Agricultural and Consumer Economics

ACE 254	Economic Systems in Africa
ACE 452	The Latin American Economies
ACE 454	Econ Dev of Tropical Africa

Completion of courses that are approved by Area Studies Programs (see minor advisor)

Center for African Studies
Center for East Asian and Pacific Studies
Center for Latin American and Caribbean Studies
Program in South Asian and Middle Eastern Studies
European Union Center

Foreign language courses that exceed College of ACES graduation requirements.

**Total Hours** 21

## International Minor in Engineering

*for the International Minor in Engineering*

**international minor website:** <https://grainger.illinois.edu/academics/study-abroad> (<https://grainger.illinois.edu/academics/study-abroad/>)  
**college website:** <https://grainger.illinois.edu/>

Many Grainger Engineering graduates will be involved in international activities during their professional careers. In anticipation of such involvement, the college offers an opportunity for students to complete an international minor as part of any engineering degree program. All international minor requirements must be satisfied before graduation. The requirements are:

- Completion of all degree requirements in the student's selected engineering discipline. Courses for the International Minor can be combined with degree requirements.
- Completion of foreign language studies in a language of the student's choice of geographical area (proficiency level will vary with the geographical area selected) if applicable. Students completing a

minor in Great Britain or Australian studies will NOT have to have completed a foreign language.

- Completion of a minimum of 21 hours of cultural and language studies related to the geographical area of concentration; 9 hours must be other than language credit and include at least one 300- or 400-level course. These courses can be used as campus and college general education requirements. Courses taken on campus for the minor must be taken for grade. Students completing the Great Britain or Australian minor will complete their 21 hours of related coursework in the "other" non-language area.
- Completion of a minimum four-week approved residence in the chosen country or geographic area, whether it be for work or study.

The student will be expected to select a specific geographical area for concentration, which will be identified in the designation of the minor; for example International Minor-Latin American studies. Course work selected for the minor must be approved by the International Programs in Engineering Office; a list of suggested courses is available.

International Programs in Engineering sponsors academic year, semester, and summer programs that include language and cultural courses and satisfy the residency requirement. With sufficient foreign language background before entering engineering, a student will normally be able to complete the degree and minor in four years. Those not having this background, or taking a year of study at a foreign institution, may take four and one-half to five years to complete their degrees.

For more information regarding the International Minor (IM), contact the Engineering Study Abroad Office (210 Engineering Hall, (217)244-0054, [ipeng@illinois.edu](mailto:ipeng@illinois.edu)) or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

## Italian Minor

<sup>1</sup> At least 6 of the 15 hours must be taken from among the following advanced-level courses: ITAL 310, ITAL 380, ITAL 406, ITAL 413, ITAL 414, ITAL 420, ITAL 440, ITAL 450, ITAL 470, ITAL 490.

## Journalism Minor

*for the Minor in Journalism*

**department website:** <https://media.illinois.edu/journalism> (<https://media.illinois.edu/journalism/>)

**department faculty:** <https://media.illinois.edu/journalism/faculty> (<https://media.illinois.edu/journalism/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

The Minor in Journalism allows a student to explore the role of journalism in a democracy and to assess how journalism is meeting its social responsibility to engage, enlighten and empower citizens. The minor equips students to participate in the ever-changing world of media delivery and consumption.

### Programs in Journalism

**Undergraduate Programs:**

**major:** Journalism, BS (p. 236)

**major:** Journalism, BS-MJ (p. 438)

**minor:** Journalism (p. 480)

**Graduate Programs:**

**degree:** Journalism, BS-MJ (p. 438)

**degree:** Journalism, MS (p. 801)

**joint degree:** Journalism, MS and Business Administration, MBA (p. 1120)

**joint degree:** Journalism, MS and Law, JD (p. 1120)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 648).

*for the Minor in Journalism*

Fundamental journalistic skills—identifying questions, obtaining answers, then communicating them effectively—are huge advantages in virtually every profession. Now students of all majors can begin to learn how to find engaging topics, locate and interview key sources, analyze and visualize important data, and present material impactfully in written,

audio/visual, and interactive forms across media platforms. Students explore introductory principles in four courses in writing, history, ethics, and law, which also may fulfill General Education requirements, then choose at least two elective courses, which again may meet Gen Ed requirements, from a list that includes research and practical courses.

Code	Title	Hours
JOUR 200	Introduction to Journalism	3
JOUR 205	History of American Journalism	3
JOUR 250	Journalism Ethics & Diversity	3
JOUR 311	Media Law	3
<b>Select two courses from the following:</b>		<b>6-7</b>
JOUR 210	Newsgathering Across Platforms <sup>1</sup>	
JOUR 220	News Editing	
JOUR 360	The Media and You	
JOUR 361	Readings in Sports Journalism	
JOUR 450	Media and Public Opinion	
JOUR 451	Research Methods in Journalism <sup>2</sup>	
JOUR 452	Great Books of Journalism	
JOUR 453	Crisis Communications	
JOUR 454	Propaganda & the News Media	
JOUR 470	International Reporting	
JOUR 471	Science Journalism	
JOUR 482	Immersion Journalism	
JOUR 483	Investigative Journalism	
Total Hours		18-19

<sup>1</sup> JOUR 200 is a prerequisite for JOUR 210.

<sup>2</sup> JOUR 200 and Quantitative Reasoning I are prerequisites for JOUR 451.

## Kinesiology Minor

**degree:** Rehabilitation, MS (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/ms-rehab/>)

**degree:** Public Health, MPH (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/>)

**joint degree:** Community Health, BS and Public Health, MPH (p. 118)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 439)

The Kinesiology Program is committed to the study and research of human movement in all its dimensions. Undergraduate study focuses on exercise stress, movement efficiency, and fitness; the social, cultural, and psychological aspects of participation in physical activity and sport; coordination, control and skill physical activity; physical growth, development, and body form throughout the lifespan; the effects of therapeutic techniques of kinesiology upon recovery from physical injury; and the instructional process of teaching/coaching of physical activity and sport.

The curriculum combines a comprehensive liberal arts and sciences education with in-depth study in a particular area of interest. The program of study provides knowledge and understanding essential for human movement and sport careers in either public or private agencies. The hours required for graduation include prescribed courses for all students as well as requirements determined by the various areas of emphasis selected by the student. Teaching and research emphasize hands-on learning through the use of technology and modern laboratory equipment. Graduates find employment in a variety of fields including teaching-related occupations, corporate fitness, coaching, and athletic training. Many students continue their education and become certified K-12 physical education teachers, physical therapists, physicians, exercise physiologists, and sports psychologists.

*for the Undergraduate Minor in Kinesiology*

To declare the minor or ask questions about the requirements, please contact:

Alicia Richards, M.S.; alrich17@illinois.edu; 217-300-1058

**Minimum required course work: Students must complete 12 hours of foundational courses and 9 hours within an area of specialization, including at least 6 hours of 300- and 400-level courses.**

**Minimum hours required for completion: 21 hours.**

## Foundational Courses

<sup>1</sup> Students are allowed to enroll in courses outside their areas as needed based on advisor approval.

# Landscape Studies Minor - Undergrad

**department website:** <https://landarch.illinois.edu/>

**department faculty:** <https://landarch.illinois.edu/faculty/>

**overview of college admissions & requirements:** <http://catalog.illinois.edu/schools/faa/academic-units/>

**college website:** <https://faa.illinois.edu/>

**email:** [ladept@illinois.edu](mailto:ladept@illinois.edu)

The Minor in Landscape Studies enables students to gain considerable knowledge of the ecological, social, cultural and historical factors that have shaped landscapes of the western and non-western world. Students interested in integrative studies of the natural, cultural and built environment, and those concerned with landscape as context for art and design, will develop a comprehensive theoretical framework for work in their major field of study.

**Minimum required major and supporting course work: A minimum of 17 credit hours from the following three categories is required for completion of the minor. A minimum of 6 hours of 300 or 400-level coursework that is distinct from your major is required.**

Code	Title	Hours
<b>Studies of the Professions Engaged in Landscape Inquiry</b>		
LA 101	Introduction to Landscape Arch	2
<b>Studies of the Professions Engaged in Landscape Inquiry</b>		
Select a minimum of 6 hours from the following:		6
LA 212	Water and Society	
LA 250	Environmental Site Analysis	
LA 270	Behavioral Factors in Design	
LA 370	Environmental Sustainability	
<b>Study of Historical and Cultural Landscapes</b>		
Select a minimum of 9 hours from the following:		9
LA 218	S Asian Cultural Landscapes	
LA 220	Exploring African Cities	
LA 221	History of the Prison	
LA 222	Islamic Gardens & Architecture	
LA 242	Nature and American Culture	
LA 314	History of World Landscapes	
LA 315	History of Modern Lndscpe Arch	
LA 390	Independent Study	
LA 427	Amer Vernacular Cultural Land	
LA 470	Social/Cultural Design Issues	

Students are permitted to substitute one Landscape Architecture course from the 'Study of Historical and Cultural Landscapes' category for one of the courses in 'Study of the Professions Engaged in Landscape Inquiry' category upon the approval of the Academic Affairs Coordinator in the Department of Landscape Architecture.

### Admission to the minor

University of Illinois students with a minimum GPA of 2.0 and completion of the campus Composition I and Quantitative Reasoning I requirements are eligible for admission. Applicants from other institutions must have a minimum GPA of 2.5. Students must declare their intentions and be admitted to the program by the Academic Affairs Coordinator in the Department of Landscape Architecture (ladept@illinois.edu).

### Prerequisites

Students must comply with any prerequisite requirements of courses to be taken under this program.

### Advising

Advising of students in the minor will be conducted by the Academic Affairs Coordinator in the Department of Landscape Architecture.

### Certification of Successful Completion

Completion of the Minor in Landscape Studies will be certified by the student's home college office.

## Latin American Studies, Interdisciplinary Minor

*for the Interdisciplinary Minor in Latin American Studies*

**center website:** [http://www.clacs.illinois.edu/academics/undergrad/und\\_major.aspx](http://www.clacs.illinois.edu/academics/undergrad/und_major.aspx)

**center faculty:** Latin American Studies Faculty (<http://www.clacs.illinois.edu/about/people/faculty.aspx>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [clacs@illinois.edu](mailto:clacs@illinois.edu)

The Center for Latin American and Caribbean Studies offers an interdisciplinary minor for students majoring in another discipline. The minor in Latin American Studies consists of a total of 21 credit hours selected from offerings by the Center and various departments. This program must be approved by the Associate Director.

The minor is for those students who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. For students completing a major sponsored by the College of Liberal Arts and Sciences, the department or unit sponsoring the student's major must approve the minor.

Code	Title	Hours
	Two courses in a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to Middle or South America) beyond the level specified by the LAS language requirement, or the equivalent as demonstrated by special examination. At the end of their language study, all students are urged to take an oral proficiency test based on ACTFL guidelines.	5-6

Courses drawn from the Latin American Studies curriculum. The curriculum normally consists of courses with 50 percent or more Latin American content and is defined according to a list maintained and regularly updated by the Center for Latin American and Caribbean Studies. Courses include:	15-16
---	-------

LAST 170 Introduction to Latin America

No more than 6 hours chosen from a single department

Six hours of 300- to 400-level course offerings

No more than 6 hours of literature

Total Hours	21
-------------	----

## Latina/Latino Studies Minor

*for the Minor in Latina/Latino Studies*

**department website:** <https://lls.illinois.edu/>

---

The Legal Studies minor, administered by the College of Law, is designed to provide students with a better understanding of how the law operates in a variety of contexts and develop critical thinking skills. The minor requires 18 hours of credit, with nine hours of core courses taught by College of Law professors and affiliated faculty, and an additional nine hours in one of three tracks: 1) Law & Politics; 2) Law & Cultures; or 3) Law & Economics of Food Security and Sustainability. 6 credit hours must be in 300- or 400- level courses. Other qualifying 300- or 400- level courses may be approved in consultation with the minor advisor. Students must have completed 30 credit hours prior to application, have Academic Good Standing status, and have a cumulative 3.25 GPA or higher.

Prospective Legal Studies Minors must apply for acceptance into the program. For more information, please contact [lawundergrad@illinois.edu](mailto:lawundergrad@illinois.edu) for general instructions on how to apply for the minor.

Code	Title	Hours

**email:** [gws@illinois.edu](mailto:gws@illinois.edu)

The LGBT/Queer Studies minor provides students the opportunity to explore how various political, social, and cultural definitions of sexual identities and their expression have been constructed and challenged in different places and points in time. Attention is given to queer politics, and interactions with nation, race, ethnicity, and gender. A minor in LGBT/Queer Studies provides complementary tools for many majors in the humanities, arts and sciences.

The Department of Gender and Women's Studies must approve a student's minor course plan. Students must register their minor with the Gender and Women's Studies advisor.

Code	Title	Hours
GWS 202	Sexualities or GWS 255 Queer Lives, Queer Politics	3
GWS 370	Queer Theory	3
Additional Coursework- Select three of the following: <sup>1</sup>		9
GWS 325	Lesbian/Queer Media Cultures	
GWS 385	Transnational Sexualities	
GWS 387	History of Sexuality in U.S.	
GWS 459	Gender, Sex, & Postcoloniality	
GWS 467	Locating Queer Culture	
GWS 470	Transgender Studies	
GWS 478	Sex, Power and Politics	
Area electives at any level. For a list of approved courses contact the GWS Department office or the GWS advisor.		3
<b>Total Hours</b>		<b>18</b>

<sup>1</sup> *Topics courses (GWS 395, GWS 495) may count up to 3 hours toward additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.*

At least 6 hours of advanced coursework must be distinct from credit earned for the student's major or another minor.

Students may choose to major in Gender & Women's Studies and Minor in LGBT/Queer Studies, but classes may not count towards both.

## Linguistics Minor

for the Minor in Linguistics

**department website:** <https://linguistics.illinois.edu/>  
**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)  
**advising:** Linguistics advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

The Linguistics Minor is designed for students who seek a basic familiarity with the field and is especially suited for students with majors in foreign language and other language-related fields such as anthropology, computer science, English, psychology, communication, and for anyone interested in the nature of language.

Code	Title	Hours
LING 100	Intro to Language Science	3
Select two of the following:		6
LING 301	Elements of Syntax	
LING 302	Elements of Phonology	
LING 307	Elements Semantics & Pragmatics	
Nine additional hours of linguistics courses, including at least six hours chosen from the following:		9
LING 301	Elements of Syntax (if not chosen for the second requirement above)	
LING 302	Elements of Phonology (if not chosen for the second requirement above)	

LING 307	Elmnts Semantics & Pragmatics (if not chosen for the second requirement above)
LING 210	Language History
LING 225	Language, Mind, and Brain
LING 250	American Voices: Linguistic Diversity in the US
LING 400	Intro to Linguistic Structure
LING 401	Intro to General Phonetics
LING 406	Introduction to Computational Linguistics

## Materials Science & Engineering Minor

for the Minor in Materials Science & Engineering

**department website:** <https://matse.illinois.edu/>  
**department faculty:** <https://matse.illinois.edu/directory/faculty/>  
 (<https://matse.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)  
**college website:** <https://grainger.illinois.edu/>

Materials are the basis for all engineering and also are the basis for much of the research in various areas of science. The Minor in Materials Science and Engineering is designed to give students in other areas of engineering and science both a broad view of all materials as well as several courses in a particular area of materials, knowledge that will be of value whether the student pursues a career in industry, government, or academia.

The courses, listed below, have been selected to give an undergraduate student both a strong background in all types of materials as well as more detailed knowledge of a particular area of materials (e.g., ceramics, metals, polymers, electronic materials or biomaterials).

### Minor Requirements:

Code	Title	Hours
Core Course Work		
MSE 280	Engineering Materials	3
MSE 401	Thermodynamics of Materials (Other thermodynamics courses may be substituted upon petition.)	3
One additional course chosen from an approved list below:		
MSE 304	Electronic Properties of Matls	3
MSE 402	Kinetic Processes in Materials	3
MSE 403	Synthesis of Materials	3
MSE 405	Microstructure Determination	3
MSE 406	Thermal-Mech Behavior of Matls	3
Nine additional hours in advanced courses selected from:		
MSE 404	Laboratory Studies in Materials Science and Engineering	1.5
MSE 420	Ceramic Materials & Properties	3
MSE 421	Ceramic Processing	3 or 4
MSE 422	Electrical Ceramics	3
MSE 440	Mechanical Behavior of Metals	3
MSE 441	Metals Processing	3
MSE 443	Design of Engineering Alloys	3

MSE 445	Corrosion of Metals	3 or 4
MSE 450	Polymer Science & Engineering	3 or 4
MSE 453	Plastics Engineering	3
MSE 454	Mechanics of Polymers	3
MSE 455	Macromolecular Solids	3
MSE 456	Mechanics of Composites	3
MSE 457	Polymer Chemistry	3 or 4
MSE 458	Polymer Physics	3 or 4
MSE 460	Electronic Materials I	3
MSE 461	Electronic Materials II	3
MSE 466	Materials in Electrochem Syst	3
MSE 470	Design and Use of Biomaterials	3
MSE 473	Biomolecular Materials Science	3
MSE 474	Biomaterials and Nanomedicine	3
MSE 480	Surfaces and Colloids	3 or 4
MSE 481	Electron Microscopy	3 or 4
MSE 484	Composite Materials	3 or 4
MSE 485	Atomic Scale Simulations	3 or 4
MSE 487	Materials for Nanotechnology	3 or 4
MSE 488	Optical Materials	3 or 4
MSE 489	Matl Select for Sustainability	3 or 4
ECE 444	IC Device Theory & Fabrication	4

For more information regarding the Materials Science and Engineering minor, visit the Materials Science and Engineering minor Web site (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/matse-minor/>), contact the MatSE Department Office (201 MSEB, 217-333-1441, [matse@illinois.edu](mailto:matse@illinois.edu)), or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

## Mathematics Minor

for the Minor in Mathematics

**department website:** <https://www.math.illinois.edu/>  
**department faculty:** Mathematics Faculty (<https://math.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [mathadvising@illinois.edu](mailto:mathadvising@illinois.edu)

Students must complete MATH 241, and at least one 400-level MATH course for admission into the minor. The Mathematics minor is designed to prepare students majoring in some other discipline with a background in mathematics that is both broad and deep. Students interested in pursuing the minor should have completed the calculus sequence through MATH 241, and one additional Math course at the 400-level demonstrating a strong record of success in college-level mathematics courses. Given the cumulative character of mathematics preparation, students earning grades of C or below in previous mathematics courses are advised not to pursue the minor.

Code	Title	Hours
MATH 241	Calculus III	4
Completed in one of two ways:		15

MATH 347 Fundamental Mathematics (and four courses chosen from at least two of the following lists of courses)

OR

five courses chosen from at least two of the following lists of courses.

#### Algebra

ASRM 406 Linear Algebra with Financial Applications (formerly MATH 410)

MATH 415 Applied Linear Algebra

MATH 416 Abstract Linear Algebra

MATH 417 Intro to Abstract Algebra

MATH 418 Intro to Abstract Algebra II

MATH 427 Honors Abstract Algebra

MATH 453 Elementary Theory of Numbers

#### Discrete Mathematics

MATH 412 Graph Theory

MATH 413 Intro to Combinatorics

MATH 414 Mathematical Logic

MATH 482 Linear Programming

#### Analysis

MATH 284 Intro Differential Systems

MATH 285 Intro Differential Equations

MATH 286 Intro to Differential Eq Plus

MATH 424 Honors Real Analysis

MATH 425 Honors Advanced Analysis

MATH 441 Differential Equations

MATH 442 Intro Partial Diff Equations

MATH 444 Elementary Real Analysis

MATH 446 Applied Complex Variables

MATH 447 Real Variables

MATH 448 Complex Variables

CS 450 Numerical Analysis

MATH 484 Nonlinear Programming

MATH 487 Advanced Engineering Math

MATH 489 Dynamics & Differential Eqns

#### Geometry

MATH 402 Non Euclidean Geometry

MATH 403 Euclidean Geometry

MATH 423 Differential Geometry

MATH 428 Honors Topics in Mathematics

MATH 432 Set Theory and Topology

MATH 481 Vector and Tensor Analysis

#### Probability and Statistics

MATH 461 Probability Theory

STAT 400 Statistics and Probability I

STAT 410 Statistics and Probability II <sup>1</sup>

or STAT 420 Methods of Applied Statistics

Total Hours 19

<sup>1</sup> Students may use STAT 410 or STAT 420, but not both toward the minor.

## Media Minor

for the Minor in Media

**department website:** <https://media.illinois.edu/media-cinema-studies> (<https://media.illinois.edu/media-cinema-studies/>)

**department faculty:** <https://media.illinois.edu/media-cinema-studies/faculty> (<https://media.illinois.edu/media-cinema-studies/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

MEDIA AND CINEMA STUDIES (MACS), prepares students with dynamic skills for careers in media, information, creative, and visual industries, as well as informed interaction with everyday media technologies. Majors have the opportunity to participate in original research, mixed media production, internships, study abroad, and public engagement through a transformative learning environment.

### Programs in Cinema Studies

#### Undergraduate Programs:

**major:** Media & Cinema Studies, BS (p. 286)

**minors:** Cinema Studies (p. 458) | Critical Film Production (p. 463) | Media (p. 487)

#### Graduate Programs:

**minor:** Cinema Studies (p. 1093)

for the Minor in Media

The minor in media offers students both breadth and depth in the study of media in the 21<sup>st</sup> century. Students take one introductory course in each of three disciplines in the College of Media (Advertising, Journalism, and Media & Cinema Studies), for a total of 9 hours. Completion of the minor requires an additional 9 hours of advanced (300 and 400 level) courses. The advanced courses must cross at least two departments within the College of Media. Students may choose to follow a thematic area, but are not required to do so. Please see the College of Media website for thematic areas and related courses.

Code	Title	Hours
100- or 200-level Advertising Course		3
100- or 200-level Journalism Course		3
100- or 200-level Media and Cinema Studies Course		3
Additional 300- or 400-level Courses - Must be from at least two different College of Media departments		9
<b>Total Hours</b>		<b>18</b>

## Molecular and Cellular Biology Minor

for the Minor in Molecular & Cellular Biology

**school website:** <https://mcb.illinois.edu/undergrad/>  
**school faculty:** School Faculty (<https://mcb.illinois.edu/people/>)  
**advising:** MCB advising (<https://mcb.illinois.edu/undergrad/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [undergrad@mcb.illinois.edu](mailto:undergrad@mcb.illinois.edu)

The minor, administered by the School of Molecular and Cellular Biology, is designed to provide students with an understanding of foundational principles of physiology, cellular and developmental biology, microbiology, molecular genetics and biochemistry. A minor in Molecular and Cellular Biology will prepare students for training in medicine and other health sciences, graduate studies in related disciplines, as well as for employment opportunities in pharmaceutical and biotechnology industries.

Students must contact an MCB advisor (<https://mcb.illinois.edu/undergrad/advising/>) for acceptance into the minor. MCB 150 (<http://catalog.illinois.edu/search/?P=MCB%20150>) must be completed or in progress before acceptance into the minor.

Code	Title	Hours
MCB 244	Human Anatomy & Physiology I	3
	or MCB 246 Human Anatomy & Physiology II	
MCB 250	Molecular Genetics	3
MCB 251	Exp Techniqs in Molecular Biol	2

MCB 253	Exp Techniqs in Cellular Biol	2
MCB 354	Biochem & Phys Basis of Life	3
	or MCB 450 Introductory Biochemistry	
	Choose one additional 3-5 credit hour course from the approved list of 300- and 400-level courses for MCB majors.	3-5
Total Hours		19-21

## Music Minor

for the Minor in Music

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

The School of Music offers non-music majors an exposure to music through courses in musicology and ethnomusicology, music theory, music composition, music technology, jazz history and studies, and performance studies (through applied lessons and ensemble). The Music Minor is intended for student musicians with previously established, fundamental musical experiences - individuals who wish to expand upon already obtained musical skills and related study - and is not intended to be an introduction to music.

### Admission to the Music Minor

Prospective Music Minors must apply for acceptance into the program. For more information, please see <https://my.faa.illinois.edu/>

[gradstat/login.asp](#), or contact the Music Admissions Office ([musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)) (in Music Building Room 2018) for general instructions on how to apply for the minor.

### Course Requirements

The Music Minor requires the successful completion of 21 semester hours of courses in music according to the following distribution:

- Six to eight (6-8) credit hours in music core coursework, including either four (4) credits in Music Theory and Practice I and II (MUS 101 and MUS 102) or six (6) credits in Rudiments of Music Theory I and II (MUS 103 and MUS 104), plus two (2) credits in Introduction to Art Music (MUS 110);
- At least six credit hours must derive from upper division or advanced music courses. This includes MUS 313 and MUS 314 (which also serve as General Education courses), or any other MUS 300- or 400-level music course with instructor approval;
- Additional music elective credit hours may include private lessons (applied lessons) pending successful completion of an audition with the appropriate music professor and availability of teaching staff;
- Up to three (3) credit hours of ensembles may be used for electives and can be selected from MUS 250, MUS 252-MUS 257, MUS 260-MUS 272;
- Topics offered under MUS 199 or MUS 499 must be approved for credit toward by the music minor advisor.

Code	Title	Hours
<b>Music Theory</b>		
MUS 101 & MUS 102	Music Theory and Practice I and Music Theory and Practice II <sup>1</sup>	4
or		
MUS 103 & MUS 104	Rudiments of Music Theory I and Rudiments of Music Theory II <sup>1</sup>	6
<b>Musicology</b>		
MUS 110	Introd Art Mus: Intl Perspect	2
<b>Upper Division Music Courses</b>		
Music courses at the 300-400 level. <sup>2, 3, 4</sup>		6
<b>Music Electives</b>		
Music electives to be taken from theory, aural skills, musicology, jazz history, applied lessons, music technology, conducting, composition, ensembles, etc. <sup>5, 6, 7</sup>		7-9
Note: Up to three (3) ensemble credits will apply toward the Music Minor. Approved ensembles include MUS 250, MUS 252-MUS 257, and MUS 260-MUS 272.		
<b>Total Hours</b>		<b>21</b>

- <sup>1</sup> MUS 101 and MUS 102 are two (2) credits each. MUS 103 and MUS 104 are three (3) credits each. You cannot mix and match courses: MUS 101 and 102 are paired together; MUS 103 and 104 are paired together.
- <sup>2</sup> 300-level courses open to Music Minors include MUS 313-314, MUS 317, MUS 339, and MUS 360-369.
- <sup>3</sup> MUS 400 and MUS 408 will be open only to Music Minors who have taken and passed MUS 201 and MUS 202.
- <sup>4</sup> Courses in the MUS 410-421 series will be open only to Music Minors who have taken and passed either MUS 313 or MUS 314; courses will be selected in consultation with the Music Minor advisor in accordance with their interests. Music Minors must obtain instructor permission to register for any course in the 410-421 series.

- <sup>5</sup> This includes both MUS 462-463 (Jazz Listening Seminar I and II) and MUS 464-465 (Jazz History I and II).
- <sup>6</sup> Students must audition, be accepted into a studio, and pay a nominal fee for applied lessons.
- <sup>7</sup> Topics offered under MUS 199 or MUS 499 must be approved for credit toward by the music minor advisor.

## Musical Theatre Minor for Performing Artists

for the degree of Minor in Musical Theatre in Performing Arts

**department website:** <https://www.music.illinois.edu/>  
**department faculty:** <https://www.music.illinois.edu/people> (<https://www.music.illinois.edu/people/>)  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>  
**email:** [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)

The Musical Theatre Minor is intended for students in the performing arts who are majoring in either dance or the acting concentration of the theatre major in the College of Fine and Applied Arts. These are individuals who wish to expand upon their performance skills in a related study, which has an emphasis in Musical Theatre.

This minor is not intended for students outside the College of Fine and Applied Arts.

### Prerequisites for the Minor in Musical Theatre:

1. MUS 103, Rudiments of Music Theory I
2. MUS 222, Singing in Musical Theatre
3. THEA 170, Fundamentals of Acting (dance majors only)
4. DANC 101, Modern Dance I (acting majors only)
5. DANC 107, Ballet I (acting majors only)

### Admission Requirements

1. Applicants must be dance or acting majors who have completed at least 30 credit hours prior to the January application period to become eligible for admission review.
2. Applicants must complete all prerequisite courses prior to the January application period to become eligible for admission review and must have Academic Good Standing status (2.0 cumulative GPA or higher), plus have a cumulative 2.5 GPA or higher in prerequisite courses.
3. Formal application is made through the School of Music Admissions Office in the Music Building. Email: [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).
4. Applications are reviewed in February, and successful applicants are invited to audition for the Lyric Theatre faculty. Final decision of all applicants is made by the end of March.
5. Only those students officially admitted into the Musical Theatre Minor Program by the School of Music may earn the Musical Theatre Minor.

### Course Requirements

The Musical Theatre Minor requires the successful completion of 21 semester hours for Dance majors and 22 semester hours for Acting concentration in Theatre majors according to the following distribution.

for the degree of Minor in Musical Theatre in Performing Arts

### Musical Theatre Minor Requirements - Dance Majors

Code	Title	Hours

## Natural Resource Conservation Minor

for the Minor in Natural Resource Conservation

The Natural Resource Conservation minor offers an integrated approach to managing natural resources from a sustainability perspective. This minor addresses the diverse biological, physical, social, economic, and political aspects of natural resources and stewardship. Ultimately, this curriculum offers students interested in the conservation of natural resources a challenging and rewarding experience while simultaneously preparing them for future careers requiring a fundamental and strong background in the management and conservation of natural resources. A minimum of 18 hours are required for this minor, of which at least 6 credit hours must be 400-level. Courses taken to fulfill the minor may not be counted toward the major in Natural Resources and Environmental Sciences.

## Physics Minor

for the Minor in Physics

**College:** <https://grainger.illinois.edu/>  
**webpage:** Physics Minor (<https://physics.illinois.edu/admissions/undergraduates/minor-in-physics.html>)

Physics and technology go hand in hand, with physics providing the foundation for a broad range of technical fields. This minor is intended to encourage you to expand your understanding of physics beyond the introductory level, to deepen your understanding of fundamental principles, and to enhance your ability to keep abreast of an ever-changing technological world. Depending on your choice of 300- and 400-level physics courses, a total of 21-25 hours is required.

Code	Title	Hours
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
or PHYS 214	Univ Physics: Quantum Physics	
PHYS 225	Relativity & Math Applications	2
PHYS 325	Classical Mechanics I	3
Any two PHYS courses at the 300 or 400 level except PHYS 419 and PHYS 420		6-10
Total Hours		21-25

For more information regarding the Physics minor, visit the Physics minor website (<https://physics.illinois.edu/admissions/undergraduates/minor-in-physics.html>), (<http://physics.illinois.edu/undergrad/minor.asp>) contact the Physics Undergraduate Programs Office (233 Loomis Laboratory of Physics, 217-333-4361, [undergrad@physics.illinois.edu](mailto:undergrad@physics.illinois.edu)), or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

## Political & Civic Leadership Minor

*for the Minor in Political and Civic Leadership*

**department website:** <https://www.pol.illinois.edu>  
**department faculty:** Political Science Faculty (<https://pol.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

The Minor in Political and Civic Leadership is for students who are not political science majors. Minors must be admitted to the Civic Leadership Program and meet all of its requirements (17 hours). At least three courses (nine hours) must be at the advanced level.

Code	Title	Hours
PS 100	Intro to Political Science	3
PS 101	Intro to US Gov & Pol	
GLBL 100	Intro to Global Studies	
GLBL 220	Governance	
An intermediate (200 level) or advanced (300 level) course in public policy <sup>1</sup>		3
A course examining the construction and consequences of social identity relating to race, religion, ethnicity, or gender		3
A course exploring different perspectives on a just, ordered, and moral society		3
PS 491 or approved internship course in another department		3
At least two sections of PS 191 designated as pertaining to the Civic Leadership Program. A list of such sections is available in the Undergraduate Studies Office of the Department of Political Science.		2
Total Hours		17

<sup>1</sup> Choose from a list maintained by the Department of Political Science.

**department faculty:** Political Science Faculty (<https://pol.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

A minor in political science is designed for students who want to improve their ability to deal intelligently and critically with issues and ideas about government and politics. The minor introduces students to courses involving important theoretical and applied questions about the role of citizens, associations, and states in the application of political power. Students will be exposed to advanced courses that build on relevant introductory courses.

Code	Title	Hours
PS 100	Intro to Political Science	3
Select two additional 100- or 200-level Political Science courses		6
Select three 300- or 400-level Political Science courses from courses offered on the Urbana-Champaign campus		9
Total Hours		18

## Polymer Science & Engineering Minor

*for the Minor in Polymer Science & Engineering*

**webpage:** Polymer Science and Engineering Minor (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/polymer-science-and-engineering-minor/>)  
**Administered by** Materials Science and Engineering (<https://matse.illinois.edu/>)

Polymer science and engineering is a broad, interdisciplinary field that brings together various aspects of chemistry, physics, and engineering for the understanding, development, and application of the materials science of polymers. Many of the existing engineering programs provide a good foundation for work in polymer science and engineering. However, the undergraduate student needs additional courses specifically dealing with the science and engineering of large molecules. With such a background, the student should be able to progress rapidly in industry or at the graduate level. In addition to those students specifically desiring a career in polymers, this minor also can be valuable to students interested in the development, design, and application of materials in general.

The courses listed below have been selected specifically to give an undergraduate student a strong background in polymer science and engineering. A minimum of eight courses is required, including 3 Core courses, one course each in thermodynamics, mechanical properties, and chemistry and two additional polymer-related courses, as listed below. Several of these the student would normally take to satisfy the requirements of the basic degree. The student should consult the Department of Materials Science and Engineering when formulating a

plan of course work. The following courses are required. Credit hours will exceed 25 if a Thermodynamics course-pair option is chosen.

Code	Title	Hours
Core Course Work		
MSE 450	Polymer Science & Engineering or CHBE 451 Polymer Science & Engineering	3-4
MSE 452		3
MSE 453	Plastics Engineering	3
Thermodynamics - Choose one of the following:		3-8
CHBE 321	Thermodynamics	
CHEM 442	Physical Chemistry I	
CHEM 444	Physical Chemistry II	
ME 200	Thermodynamics	
MSE 401	Thermodynamics of Materials	
PHYS 427	Thermal & Statistical Physics	
TAM 251	Introductory Solid Mechanics (Mechanical Properties)	3
CHEM 236	Fundamental Organic Chem I (Chemistry)	4
Polymer Related - Choose at least two of the following:		6
CHEM 436	Fundamental Organic Chem II	
CHEM 437	Organic Chemistry Lab	
ME 450	Modeling Materials Processing	
MSE 455	Macromolecular Solids	
MSE 457	Polymer Chemistry	
MSE 458	Polymer Physics	
MSE 480	Surfaces and Colloids	
FSHN 469	Package Engineering	
TAM 427	Mechanics of Polymers	

For more information, visit the Polymer Science and Engineering minor website (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/polymer-science-and-engineering-minor/>), contact the MatSE Department Office (201 MSEB, (217)-333-1441, [matse@illinois.edu](mailto:matse@illinois.edu)), or visit the Office of the Associate Dean for Undergraduate Programs, 206 Engineering Hall.

## Portuguese Minor

### for the Minor in Portuguese

## Psychology Minor

for the Minor in Psychology

**department website:** <http://www.psychology.illinois.edu/>  
**department faculty:** Psychology Faculty (<https://psychology.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [psych-advising@illinois.edu](mailto:psych-advising@illinois.edu)

The minor in psychology should be tailored to each student's individual needs. The Psychology minor is suitable for students who intend to pursue careers in a wide variety of fields including business, medicine, law, political science, and education. Students should work with their major advisor to determine the Psychology courses that best fit their interests and career goals.

Code	Title	Hours
PSYC 100	Intro Psych <sup>1</sup>	3-4
PSYC 235	Intro to Statistics (or equivalent) <sup>2</sup>	3
<b>Biological/Cognitive Psychology Course</b>		<b>3</b>
Select one from the following:		
PSYC 204	Intro to Brain and Cognition	
PSYC 210	Behavioral Neuroscience	
PSYC 220	Images of Mind	
PSYC 224	Cognitive Psych	
PSYC 230	Perception & Sensory Processes	
PSYC 248	Learning and Memory	
<b>Clinical/Developmental/Social Psychology Course</b>		<b>3</b>
Select one from the following:		
PSYC 201	Intro to Social Psych	
PSYC 216	Child Psych	
PSYC 238	Psychopathology and Problems in Living	
PSYC 239	Community Psych	
PSYC 245	Industrial Org Psych	
PSYC 250	Psych of Personality	
Select two 300- or 400- level Psychology courses		6
Total Hours		18-19

The Psychology Minor requires 18 hours of Psychology courses. PSYC 290, PSYC 340, PSYC 341, PSYC 398, PSYC 492, PSYC 494, PSYC 495, PSYC 498, and PSYC 499 credit hours cannot be counted toward the minor requirement.

<sup>1</sup> Students who transfer credit from another institution only receive 3 credits for PSYC 100.

<sup>2</sup> Current equivalent courses include: STAT 100, ECON 202, EPSY 480, PSYC 301, and SOC 485. Contact the Psychology Advising Office to consult on other equivalents. Students who do not take PSYC 235 or PSYC 301 to satisfy their statistics requirement will need to take an additional Psychology course to meet the minimum of 18 hours of Psychology courses.

## Public Relations Minor

for the Minor in Public Relations

**department website:** <https://media.illinois.edu/advertising/degrees-programs/pr-minor/> (<https://media.illinois.edu/advertising/degrees-programs/pr-minor/>)

**department faculty:** Advertising Faculty (<https://media.illinois.edu/advertising/faculty/>), Journalism Faculty (<https://media.illinois.edu/journalism/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 1159)

**college website:** <https://media.illinois.edu/>

The Public Relations (PR) minor is designed to provide undergraduate students with a foundational understanding of how public relations practitioners manage relationships between organizations and their stakeholders and manage the reputations of those organizations. Courses within the PR minor will help students develop skills in writing, research, strategic planning, relationship management, and crisis communication that can be applied in business, nonprofit, or government contexts.

Students who plan to pursue careers in public relations, advertising, communications, marketing, or other related fields will find that the PR minor serves as a valuable complement to the courses in their major. Students from other majors who wish to have a better understanding of the role public relations plays in organizations and who wish to sharpen skills in writing, persuasion, strategic planning, and public communication will also benefit from the minor. The minor requires a minimum of 18 credit hours. Students majoring in Advertising or Journalism must complete at least six hours of advanced course work for the minor distinct from credits earned for their major.

### Programs in Advertising

#### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minor:** Public Relations (p. 493)

#### Graduate Programs:

**degree:** Advertising, MS (p. 522)

**degree:** Strategic Brand Communication, MS (p. 1005)

for the Minor in Public Relations

Code	Title	Hours
<b>Foundations of public relations</b>		<b>9</b>
Courses all students must complete:		

JOUR 200	Introduction to Journalism	
ADV 310	Intro to Public Relations	
ADV 410	Public Relations Strategies	
<b>Writing for public relations and media</b>		<b>3-4</b>
Students must select one course from:		
ADV 350	Writing for Public Relations	
JOUR 210	Newsgathering Across Platforms	
CMN 220	Communicating Public Policy	
<b>Advanced topics in public relations</b>		<b>6</b>
Students must select two courses from:		
ADV 393	Advertising and Society	
ADV 490	Advanced Special Topics in Advertising <sup>1</sup>	
ADV 494	Persuasion Consumer Response	
JOUR 360	The Media and You	
JOUR 453	Crisis Communications	
JOUR 460	Special Topics <sup>1</sup>	
CMN 321	Strategies of Persuasion	
CMN 377	Propaganda and Modern Society	
CMN 464	Health Communication Campaigns	
Total Hours		18-19

<sup>1</sup> Will be announced in course description as "Eligible for PR minor."

## Recreation, Sport & Tourism Minor

for the Minor in Recreation, Sport & Tourism

**department website:** <http://rst.illinois.edu/>  
**department faculty:** Recreation, Sport, & Tourism Faculty (<http://rst.illinois.edu/faculty/>)

**college catalog page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**college website:** <http://ahs.illinois.edu/>  
**minor contact:** Kim Shinew at [shinew@illinois.edu](mailto:shinew@illinois.edu)

This minor is directed towards students who have an interest in working in the sports, recreation and/or tourism industries, or students who feel knowledge in these areas will help them succeed in their careers.

The course requirements for the minor are 19-21 hours. This includes three foundational courses (9 hours) that all students are required to take followed by 10-12 courses from a list of approved electives. The foundational courses will enable students to acquire knowledge about the broad range of the field and introduce them to the different areas of the industry. At least 6 hours will be advanced (300 or 400 level course), meeting the requirement for all minors. The elective courses will allow students to gain expertise in a particular area of the field, or develop a deeper knowledge base of the field and industry.

for the Minor in Recreation, Sport & Tourism

**Minimum required course work: Students must complete 9 hours of foundational courses and 10-12 hours from approved electives, including at least six hours of advanced (300-level or 400-level courses) and six hours of coursework must be distinct from credit earned for the student's major or another minor.**

**Minimum hours required for completion: 19 hours.**

## Religion Minor

*for the Minor in Religion*

**department website:** <https://www.religion.illinois.edu/>

**department faculty:** Religion Faculty (<https://www.religion.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** religion@illinois.edu

The Minor in Religion is designed to give students the opportunity either to gain a broad knowledge of a number of religious traditions or to emphasize one field in the academic study of Religion. Completion of the minor requires 6 courses selected by the student in consultation with the director of undergraduate studies.

Code	Title	Hours
Six REL courses, at least 6 hours at the 300- or 400-level, no more than 6 hours at the 100-level		18
<b>Total Hours</b>		<b>18</b>

## Russian Language & Literature Minor

*for the Minor in Russian Language & Literature*

**department website:** <http://www.slavic.illinois.edu>

**department faculty:** Slavic Faculty (<http://www.slavic.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** slavic@illinois.edu

A minor in Russian language and literature may be useful and enriching for students in many disciplines, from economics and political science through comparative literature and theatre to engineering and mathematics. The 18- to 20-hour program listed below provides considerable flexibility within a general structure. Additional information may be obtained from the undergraduate adviser in the Department of Slavic Languages and Literatures.

6 hours must be advanced (300- or 400-) level courses.

Code	Title	Hours
Introduction to Slavic culture. Select from:		3
RUSS 115	Intro to Russian Culture	
RUSS 261	Intro Russian-Jewish Culture	
SLAV 117	Russ & E Euro Science Fiction	
SLAV 120	Russian & E Euro Folktales	
Intermediate Russian Language:		6-8
RUSS 201	Second-Year Russian I	
RUSS 202	Second-Year Russian II (or equivalent)	
Russian literature and culture: Three 200-, 300- or 400-level courses from the list maintained by the undergraduate advisor, including at least one at the 300- or 400-level. Advanced Russian language (RUSS 301, 302, 305, or equivalent) can substitute for one course in this requirement.		9
<b>Total Hours</b>		<b>18-20</b>

## Russian, East European, & Eurasian Studies Minor

*for the Interdisciplinary Minor in Russian, East European, & Eurasian Studies*

**center website:** <https://reec.illinois.edu/>

**center faculty:** Russian, East European, & Eurasian Studies (<https://reec.illinois.edu/people/groups/faculty/>) Faculty (<https://reec.illinois.edu/people/groups/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** reec@illinois.edu

The interdisciplinary minor in Russian, East European, and Eurasian studies allows students in diverse fields to complement their programs with a study of Russia, Eastern Europe, and Eurasia. Programs of study can be tailored to the needs and interests of individual students, in consultation with the undergraduate advisor.

Code	Title	Hours
	The equivalent of three semesters of college-level language study in Russian or another language of Eastern Europe or Eurasia. This stipulation may be satisfied through partial fulfillment of the LAS two-year language requirement if a regionally appropriate language is chosen for that purpose. If a non-REEE language is selected to meet the LAS requirement, then the three semesters of REEE language study specified here must be taken in addition to those completed to satisfy the LAS requirement. Only those hours earned in the second and third semester of language study are calculated into the degree, as the first semester represents a prerequisite for the other two.	6-8
	Courses on Russia, Eastern Europe, or Eurasia from at least three different academic units. (Literature courses are acceptable for this requirement; language courses are not.) No more than 6 hours may be counted from any one unit; 6 hours must be at the 300- or 400-level.	15
	<b>Total Hours</b> <sup>2</sup>	<b>21</b>

<sup>1</sup> The Center maintains a list of applicable courses.

<sup>2</sup> No more than 9 hours may be taken at the 100-level.

## Science & Technology in Society Minor

for the Minor in Science & Technology in Society

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

The Interdisciplinary Minor in Science and Technology in Society requires students to integrate and synthesize a wide variety of materials. Students will enrich their experiences in diverse disciplines with a substantive engagement with science studies. Required courses in the minor emphasize critical and creative thinking and many courses require substantial writing and research. This minor is administered by the LAS Student Academic Affairs Office.

All courses must be selected in consultation with the adviser from the list of courses approved for the minor. No more than 3 hours of course work may be 100-level. Students must maintain a 3.0 GPA in course work in the minor.

Code	Title	Hours

## Slavic Language, Literature, & Culture Minor

### for the Minor in Slavic Language, Literature & Culture

**department website:** <http://www.slavic.illinois.edu>  
**department faculty:** Slavic Faculty (<http://www.slavic.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [slavic@illinois.edu](mailto:slavic@illinois.edu)

A minor in Slavic language, literature, and culture may be useful and enriching for students in many disciplines, from economics and political science through comparative literature and theatre to engineering and mathematics. The 18- to 20-hour program listed below provides considerable flexibility within a general structure. In completing the requirements for the minor, students may choose to pursue study of a particular Slavic language and culture, or may combine study of a single language with other courses that treat the region more broadly. For example, a student could specialize in Polish by taking POL 201, POL 202, POL 301 for the language and POL 115, POL 245, and HIST 467 for the literature and culture requirements. Please consult the Undergraduate Advisor to choose coursework.

Code	Title	Hours
Introduction to Slavic culture. Select from:		3
BCS 115	South Slavic Cultures	
POL 115	Intro to Polish Culture	
REES 200	Intro to Russia and Eurasia	
REES 201	Introduction to Eastern Europe	
RUSS 261	Intro Russian-Jewish Culture	
SLAV 117	Russ & E Euro Science Fiction	
SLAV 120	Russian & E Euro Folktales

## Sociology Minor

### for the Minor in Sociology

**department website:** <https://sociology.illinois.edu/>

**department faculty:** Sociology Faculty (<https://sociology.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [soc@illinois.edu](mailto:soc@illinois.edu)

A minor in sociology requires that students learn the basic theoretical and methodological approaches in sociology. Students must also learn about the substance of sociology in some depth and are thus required to take at least two sociology courses at an advanced level and a total of at least 18 hours of sociology courses. The course work must include the requirements listed below.

Code	Title	Hours
SOC 100	Introduction to Sociology	4
SOC 200	Introduction to Sociological Theory	3
SOC 280	Intro to Social Statistics <sup>1</sup>	4
At least two Sociology courses at the 300- or 400-level		6
Elective Sociology hours as needed to fill the 18 hour requirement		3-6
Total Hours		18

<sup>1</sup> If a statistics course is taken outside the Department of Sociology to fulfill this requirement, that course does not count toward the 18 hours of Sociology courses.

## South Asian Studies Interdisciplinary Minor

### for the Interdisciplinary Minor in South Asian Studies

**center website:** <http://www.csames.illinois.edu/>

**center faculty:** Center for South Asian & Middle Eastern Studies Faculty (<http://www.csames.illinois.edu/people/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [csames@illinois.edu](mailto:csames@illinois.edu)

The Center for South Asian and Middle Eastern Studies (<http://www.csames.illinois.edu/>) offers an Interdisciplinary Minor in South Asian Studies. The minor is especially suited for students interested in a program of studies with focus on South Asia, as a complement to their disciplinary study. The structure of the minor provides students a great amount of flexibility; possible areas of emphasis include language and literature, as well as history and social sciences. A minimum grade-point

average of 2.75 in South Asian Studies courses is required for completion of the minor. The 18-20 hours of courses selected by students for the South Asian Studies Minor should form a coherent program of study and must meet the approval of an advisor in the Center for South Asian and Middle Eastern Studies. The program must include at least 6 hours of 300- or 400-level courses. A student's plan of courses for the minor must be approved by the program.

Code	Title	Hours
Fourth-semester course work in an area-relevant language. A course that meets this requirement and is currently offered on a regular basis is HNDI 404 (5 hours). The requirement may also be met by comparable courses in these and other South Asian and South Asia-related languages, taught at UIUC or at other universities, through online courses (where available), and through a proficiency examination.		3-5
HIST/ANTH 130	History of South Asia	3
Courses on South Asian history, language, literature, culture, and society from the following list: <sup>1</sup>		12
ANTH 499	Topics in Anthropology (appropriate sections)	
ASST 398	Colloquium in Asian Studies (appropriate sections)	
CWL 189	Lit of Asia & Africa I (appropriate sections) or CWL 1 Lit of Asia & Africa II	
ECON 450	Development Economics (appropriate sections)	
HNDI 405 & HNDI 406	Advanced Hindi I and Advanced Hindi II	
HNDI 408	Intro to South Asian Lit	
HIST 430	India from Colony to Nation	
LA/ASST 218	S Asian Cultural Landscapes	
PS/ASST 346	Gov & Pol of South Asia	
REL 104	Asian Mythology	
REL 213		
REL 260	Mystics and Saints in Islam	
REL 286	Introduction to Hinduism	
REL 494	Topics in Religious Thought	
REL 403	Women in Muslim Societies	
REL 408	Islam & Politics in Mid. East	
Total Hours		18-20

<sup>1</sup> Other area-relevant courses may be substituted as they are offered, with approval of the advisor. These include courses in languages other than Hindi and independent study courses with South Asia teaching faculty and with appropriate topics, such as the following ANTH 390, HIST 490, LING 290, PS 490, REL 390, SOC 390. Students wanting to take such independent study courses need to get permission from the instructor; not more than two independent study courses may be taken to meet the degree requirements.

For a list of approved courses, visit CSAMES Course Archive (<http://www.csames.illinois.edu/program/courses/archive/all/>).

## Spanish Minor

### for the Minor in Spanish

**department website:** <https://spanport.illinois.edu/>  
**department faculty:** Spanish & Portuguese Faculty (<https://spanport.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**email:** [span-port@illinois.edu](mailto:span-port@illinois.edu)

Code	Title	Hours
<b>Minimum 18 hours of Spanish Courses</b>		
SPAN 228	Spanish Composition	3
2 to 3 additional SPAN courses at the 200-level <sup>1</sup>		6-9
2 to 3 SPAN courses at the 300- or 400-level		6-9
Total Hours		18

<sup>1</sup> One 200-level SPAN course can be substituted with a language course in CATL, BASQ, PORT or LAST (Quechua), from among the following options: BASQ 401, 402; CATL 401, 402, PRT 401, 402; and LAST 445. This course does not count for advanced hours and does not substitute for SPAN 228.

## Spatial & Quantitative Methods in Natural Resources & Environmental Sciences Minor

for the Minor in Spatial and Quantitative Methods in Natural Resources and Environmental Sciences

The Spatial and Quantitative Methods in Natural Resources and Environmental Sciences minor is ideal for students in NRES and allied fields seeking preparation for careers requiring skills in geographic information systems, statistics, research design, and/or mathematical modeling. This minor is open to students in all majors and is especially relevant for those pursuing a major related to natural resource and environmental issues who want to distinguish themselves with more advanced analytical skills. In order to be eligible to declare this minor, a student must have successfully completed the Quantitative Reasoning I and Quantitative Reasoning II requirements. The minor requires the completion of an additional 18 hours of coursework selected from the following list. Students must earn credit for at least three hours in each of the three categories. Courses taken to fulfill the minor may not be counted towards the NRES major, but may count towards majors in other fields.

Code	Title	Hours
<b>Required Courses for a Minor in Spatial and Quantitative Methods in Natural Resources and Environmental Sciences</b>		
<b>Statistics &amp; Research Design</b>		
Select one of the following:		3-4
NRES 340	Environ Social Sci Res Meth	
NRES 421	Quantitative Methods in NRES

ANSC 448	Math Modeling in Life Sciences	
GEOG 468	Biological Modeling	
<b>Spatial Analysis</b>		
Select one of the following:		3-5
NRES 454	GIS in Natural Resource Mgmt	
NRES 455	Adv GIS for Nat Res Planning	
NRES 465	Landscape Ecology	
GEOG 478	Techniques of Remote Sensing	
GEOG 479	Advanced Topics in GIS	
GEOG 489	Programming for GIS	
<b>Minimum hours required for the minor</b>		<b>18</b>

## Speech & Hearing Science Minor

for the Speech & Hearing Science Minor

**department website:** <http://shs.illinois.edu/>  
**department faculty:** <https://ahs.illinois.edu/shs-directory/> (<https://ahs.illinois.edu/shs-directory/>)  
**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>  
**college website:** <http://www.ahs.illinois.edu/>

The undergraduate Speech and Hearing Science Minor is designed for students who seek a basic familiarity with the physical, behavioral, biological, and social aspects of human communication. The minor is tailored to each student's individual needs, thus accommodating students from different disciplines across the campus. There are no prerequisites for this minor. For more information contact Kathi Ritten, Academic Advisor, at [ritten@illinois.edu](mailto:ritten@illinois.edu).

**Minimum required major and supporting course work:** Students must meet the following course requirements for a total of 17-19 hours.

Code	Title	Hours
SHS 170	Intro Hum Comm Sys & Disorders	3
Select two of the following:		6-7
SHS 222	Language & Culture of Deaf Communities	
SHS 240	Intro Sound & Hearing Science	
SHS 300	Anat & Physiol Spch Mechanism	
SHS 320	Development of Spoken Language	
SHS 352	Hearing Health and Society	
Eight (8) to nine (9) additional hours of speech and hearing science courses chosen from the following list, with at least six (6) credit hours at the 300-400 level.		8-9
SHS 120	Child, Comm, & Lang Ability	
SHS 200	General Phonetics	
SHS 271	Communication and Aging	
SHS 280	Communication Neuroscience	
SHS 301	General Speech Science	

SHS 333	Children with Neurodevelopmental Disorders Across Communication Contexts
SHS 375	Comm Partners & Health
SHS 380	Comm Competence and Disorders
SHS 389	Neuroplasticity and Communication

SHS 450	Intro Audiol & Hear Disorders
SHS 451	Aural Rehab Children to Adults
SHS 473	Augmentative & Alt Comm

## Statistics Minor

for the Minor in Statistics

**department website:** <https://stat.illinois.edu/>  
**department faculty:** Statistics Faculty (<https://stat.illinois.edu/directory/faculty/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [stat-office@illinois.edu](mailto:stat-office@illinois.edu)

The minor, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A minor in statistics will assist students with their major field of study to better prepare them for a career in their chosen field. It will also prepare students to for graduate studies in statistics or in one of many areas where data analysis plays an important role. Interested students should contact the Statistics undergraduate advisor for admission into the minor. Students should have completed the calculus sequence through MATH 241 before entering the minor. Students must choose from either the Applied or Mathematical Statistics Track.

### Applied Statistics Track

Code	Title	Hours
Select one of the following:		2-3
MATH 125	Elementary Linear Algebra	
MATH 225	Introductory Matrix Theory	
MATH 415	Applied Linear Algebra	
Select one of the following:		3-4
ACE 261	Applied Statistical Methods	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
EPSY 280	Elements of Statistics	
PSYC 235	Intro to Statistics	
STAT 100	Statistics	
SOC 280	Intro to Social Statistics	
STAT 200	Statistical Analysis or STAT 212 Biostatistics	3
STAT 400	Statistics and Probability I <sup>1</sup>	4
STAT 420	Methods of Applied Statistics	3

Choose one 300- or 400-level course from the list maintained by the department. Please see the Statistics advisor for a current list.

Total Hours 18-21

### Mathematical Statistics Track Minor

Code	Title	Hours
MATH 415	Applied Linear Algebra	3-4
STAT 200	Statistical Analysis or STAT 212 Biostatistics	3
STAT 400	Statistics and Probability I <sup>1</sup>	4
STAT 410	Statistics and Probability II or ECE 313 Probability with Engrg Applic	3

Choose two 300- or 400-level courses from the list maintained by the department. Please see the Statistics advisor for a current list.

Total Hours 19-20

<sup>1</sup> Students who have completed STAT 408 and STAT 409 will not need to take STAT 400.

## Study of the Islamic World, Interdisciplinary Minor

for the Interdisciplinary Minor in Study of the Islamic World

**center website:** <http://www.csames.illinois.edu/>  
**center faculty:** Center for South Asian & Middle Eastern Studies Faculty (<http://www.csames.illinois.edu/people/>)

**college website:** <https://las.illinois.edu/>  
**email:** [csames@illinois.edu](mailto:csames@illinois.edu)

An interdisciplinary minor in the Study of the Islamic World is offered by the Center for South Asian and Middle Eastern Studies. It is designed for students interested in developing an expertise in one or more parts of the Islamic world or in Islamic culture generally, as a complement to their disciplinary major. Completion of the minor requires 19 credit hours in applicable courses with a minimum grade-point average of 2.75.

For a list of approved courses, visit CSAMES Course Archive (<http://www.csames.illinois.edu/program/courses/archive/all/>).

Code	Title	Hours
Completion of a fourth semester course in an Islamic language (e.g. Arabic, Turkish, Swahili, Wolof). Select courses from the approved course list.		4
Select one of the following:		3
HIST 135	History of Islamic Middle East	
SAME 152	The New Middle East	
REL 214	Introduction to Islam or REL 213	

Additional courses chosen from the approved course list. The courses must come from at least two disciplines. At least six hours must be at the 300- or 400-level.

Total Hours 19

## Sub-Saharan African Languages Minor

for the Minor in Sub-Saharan African Languages

**department website:** <https://linguistics.illinois.edu/>  
**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)  
**advising:** Linguistics advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

The minor in Sub-Saharan African Languages is designed for students who are interested in developing proficiency in any one of the languages for which there is faculty expertise, and to develop their understanding of the region, as a complement to their disciplinary major. Available African Languages include: Bamana, Lingala, Swahili, Wolof and Zulu. Completion of the minor requires at least 18 hours.

Code	Title	Hours
Language		6
	Advanced African Language courses beyond the second year courses chosen in consultation with the minor advisor. Only one African Language can be chosen to fulfill this requirement.	
African Linguistics		6
	3 hours: Introductory course chosen from the following:	
	LING 100 Intro to Language Science	
	LING 400 Intro to Linguistic Structure	
	3 hours: 300 or 400-level course chosen from the following:	
	LING 412 Lang in African Culture & Soc	
	LING 420	
	A similar course at the 300- or 400-level approved by the advisor	
African Studies		6
	Courses must be selected in consultation with the advisor.	
	One course chosen from the list of approved introductory courses; and	
	One course chosen from the list of approved courses at the 300 or 400-level.	
	Note that many courses on the list require a prerequisite such as AFST 222 or HIST 110.	
Total Hours		18

## Sustainability, Energy, and Environment Minor

for the Minor in Sustainability, Energy, and Environment

**Institute for Sustainability, Energy, and Environment**  
**Professor Madhu Khanna, iSEE Associate Director for Education & Outreach**  
**department office:** 1101 W. Peabody, Suite 350 (NSRC), MC-635 | Urbana, IL 61801

**institute website:** <http://sustainability.illinois.edu/education/sustainability-minor/>

Why is true sustainability so hard to achieve? Behind every environmentally friendly practice is a web of consequences, trade-offs, feedbacks, and barriers – and this undergraduate minor administered by the Institute for Sustainability, Energy, and Environment (iSEE) will help you develop a systems-level perspective of the economic, environmental and social dimensions of sustainability to help you navigate them.

The Sustainability, Energy, and Environment Fellows Program (SEE FP) is a campuswide undergraduate minor that prepares students for pursuing careers in the corporate sector, nonprofit organizations, government agencies and environmental advocacy groups.

To find out more about the minor and the enrollment process, email Professor Madhu Khanna, iSEE Associate Director for Education & Outreach, at [see-fellows@illinois.edu](mailto:see-fellows@illinois.edu).

Gregory, Champaign, IL 61820

phone: (217) 244-5752

email: [tech-mgmt@illinois.edu](mailto:tech-mgmt@illinois.edu)

Successful management of technology-driven businesses today requires that employees work effectively in interdisciplinary teams. Team-based project management requires that each member of the team contribute

not only in his or her own area of expertise, but in other aspects of the project as well. The better equipped a new employee is to reach this level of competency quickly, the more valuable will be his or her contributions. Moreover, an employee having such competency will be better prepared to assume positions of increased responsibility and challenge.

The Hoeft Technology & Management Program offers a minor in Technology & Management to undergraduate students in Gies College of Business and The Grainger College of Engineering. Students in the Colleges of ACES and LAS may also be eligible based on their major. The minor is designed to prepare students for success in a wide variety of careers. Today, more than ever, employers have high expectations of undergraduate hires. The T&M Program provides a comprehensive experience to ready graduates for early career success.

Students in the minor are able to acquire a thorough foundation in their major course of study and a comprehensive understanding of the fundamental elements of a cross-discipline education. The course of study leading to a minor in Technology & Management is comprised of the following:

Code	Title	Hours
<b>Required Courses Taken by Engineering Students Only (in order taken)</b>		
BADM 365	New Product Marketing	3
ACCY 200	Fundamentals of Accounting	3
<b>Required Course Taken by Engineering Students Only (taken at any time)</b>		
FIN 221	Corporate Finance	3
<b>Required Courses Taken by Business Students Only (in order taken)</b>		
MSE 101	Materials in Today's World	3
ECE 317	ECE Technology & Management	3
TAM 201	Mechanics for Technol & Mgmt	3
<b>Required Courses Taken by Engineering and Business Students Together (in order taken)</b>		
TMGT 367	Mgmt of Innov and Technology	3
TMGT 366	Product Design and Development	3
TMGT 460	Business Process Modeling	3
TMGT 461	Tech, Eng, & Mgt Final Project	2

Throughout the minor, emphasis is placed on an interdisciplinary team approach to the development of comprehensive solutions to real-world problems. In many cases, the problems are provided by industry sponsors who, along with business and engineering faculty advisors, provide assistance and guidance to student teams.

The T&M Program is sponsored by leading companies in a variety of industries. These companies provide strategic guidance, access to senior executives, real-world business problems, and internship and full-time employment opportunities. The current T&M Corporate Affiliates include Abbott, Anheuser-Busch, Boeing, BP, Caterpillar, John Deere, Motorola Solutions, and Synchro.

In addition to formal courses, the T&M Program offers a comprehensive set of co-curricular activities to develop skills and provide valuable experiences to students. These include leadership development, career development, and professional development workshops (for example, professional branding and etiquette, improvisation training, and

negotiation training), an international immersion trip, and an international business plan competition.

The Hoeft Technology & Management Program aims to prepare graduates for successful careers in a variety of functions and roles. T&M students have pursued careers in a wide range of industries and fields.

Students who wish to pursue this minor must apply for admission to The Hoeft Technology & Management Program during winter break of their sophomore year. Enrollment in the minor is limited and admission is competitive. Applications are reviewed by the program staff and academic directors. Offers of admission are based on the student's academic record, extracurricular involvement, leadership potential, and personal/professional goals.

## Theatre Minor

*for the Minor in Theatre*

**department website:** <https://theatre.illinois.edu>  
**department faculty:** <https://theatre.illinois.edu/people/meet-our-faculty/>  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

The Minor in Theatre offers students a comprehensive overview of the study of theatre. The purpose is to expose undergraduate students to the field by reinforcing the integrated nature of theatre as a scholarly and aesthetic pursuit. Students are required to take a core of required courses totaling ten hours and a minimum of six hours of electives in two general areas: History/Criticism and Production/Performance with at least one course from each area.

Contact the Department of Theatre for admission information.

Code	Title	Hours
<b>Required Courses</b>		<b>10</b>
THEA 100	Practicum I	1
THEA 101	Introduction to Theatre Arts	3
THEA 208	21st Century Dramaturgy	3
Select one of the following courses to fulfill the theatre history requirement:		3
THEA 304	Global Theatre Performance	
THEA 364	Topics in Theatre History	
<b>Elective Courses</b>		<b>6</b>
At least one course must be 300 level or higher. The following courses are traditionally open to non-majors and students pursuing a Minor in Theatre. Please refer to the university course time table in terms of when and how often these courses are offered. All prerequisites for the courses apply.		
Select one course from History/Criticism:		
THEA 110	Broadway Musicals	
THEA 210	Introduction to Greek and Roman Theater	
THEA 211	Introduction to Playwriting

# PREPROFESSIONAL PROGRAMS

---

Dentistry (p. 506)  
 Law (p. 506)  
 Medicine (p. 506)  
 Nursing (p. 506)  
 Occupational Therapy (p. 506)  
 Optometry (p. 506)  
 Pharmacy (p. 506)  
 Physical Therapy (p. 506)  
 Physician Assistant (p. 507)  
 Veterinary Medicine (p. 507)

## Dentistry

Students in any major can pursue a career in dentistry. For information regarding pre-dental coursework and preparation visit <https://www.careercenter.illinois.edu/dentistry-preparation-and-requirements/> (<https://www.careercenter.illinois.edu/dentistry-preparation-and-requirements/>).

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Law

<http://prelaw.illinois.edu>

All information on Pre-Law Advising Services (PLAS) is available on their website (<http://prelaw.illinois.edu/>).

## Medicine

Students in any major can pursue a career in medicine. For information regarding pre-medicine coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/medicine> (<https://www.careercenter.illinois.edu/health-profession/medicine/>).

For information regarding the Carle Illinois College of Medicine visit <https://medicine.illinois.edu/>. (<https://medicine.illinois.edu/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Nursing

The University of Illinois-Chicago College of Nursing offers a Bachelor of Science in Nursing (BSN) degree on the Urbana Regional Campus. Information on this program is available at <http://www.nursing.uic.edu/> bachelor-science-nursing (<http://www.nursing.uic.edu/bachelor-science-nursing/>).

Students in any major can pursue a career in Nursing. For information regarding coursework and preparation visit <https://www.careercenter.illinois.edu/nursing-preparation-and-requirements>

(<https://www.careercenter.illinois.edu/nursing-preparation-and-requirements/>).

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Occupational Therapy

Students in any major can pursue a career in Occupational Therapy. For information regarding pre-OT coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/occupational-therapy>. (<https://www.careercenter.illinois.edu/health-profession/occupational-therapy/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Optometry

Students in any major can pursue a career in optometry. For information regarding pre-optometry coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/optometry>. (<https://www.careercenter.illinois.edu/health-profession/optometry/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Pharmacy

Students in any major can pursue a career in pharmacy. For information regarding coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/pharmacy> (<https://www.careercenter.illinois.edu/health-profession/pharmacy/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Physical Therapy

Students in any major can pursue a career in physical therapy. For information regarding pre-PT coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/physical-therapy>. (<https://www.careercenter.illinois.edu/health-profession/physical-therapy/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Physician Assistant

Students in any major can pursue a career as a physician assistant. For information regarding pre-PA coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/physician-assistant>. (<https://www.careercenter.illinois.edu/health-profession/physician-assistant/>)

Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

## Veterinary Medicine

Students in any major can pursue a career in veterinary medicine. For information regarding pre-vet coursework and preparation visit <https://www.careercenter.illinois.edu/health-profession/veterinary-medicine>. (<https://www.careercenter.illinois.edu/health-profession/veterinary-medicine/>)

Information regarding the University of Illinois College of Veterinary Medicine visit <https://vetmed.illinois.edu/education/doctor-veterinary-medicine-degree/admissions/minimum-academic-standards-admission/>. Health Professions advising is part of The Career Center (<https://www.careercenter.illinois.edu/>) at the University of Illinois at Urbana-Champaign. All information on Health Professions advising is available on their website (<https://www.careercenter.illinois.edu/instructable/pre-health-illinois/>).

# Teacher Education

Nancy Latham, Executive Director  
1310 S. 6th Street, Room 130  
Champaign, IL 61820

PH: 217-333-2804  
<http://cote.illinois.edu>

The Council on Teacher Education formulates, modifies, implements, and monitors compliance with policies related to the education of future educators. The Council also facilitates communication and promotes collaboration among all participants involved in the preparation and continuing professional development of educators. The Council is the designated unit responsible for the coordination of teacher, school support personnel, and administrator education curricula at the Urbana campus and serves as the liaison between the campus and state educator licensure and program approval authorities.

Six colleges and two schools of the University of Illinois at Urbana-Champaign offer degree programs in teacher, school support personnel, and administrator education: the Colleges of Agricultural, Consumer and Environmental Sciences; Applied Health Sciences; Education; Fine and Applied Arts; Liberal Arts and Sciences; and the Graduate College in addition to the School of Information Sciences and the School of Social Work. The list of educator preparation curricula can be found at the end of this section.

Candidates may consult their educator preparation advisers or the Council for additional information about academic regulations and other policies affecting educator preparation. Consult the Executive Director of the Council for information about the Grievance Policy and Procedures for Students Enrolled in Educator Preparation Programs under the purview of the Council on Teacher Education.

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education (ISBE) or the Illinois General Assembly.

## Requirements

### Admissions

Applicants to educator preparation programs must meet the admission requirements of the colleges and departments offering the chosen curricula.

Applicants are advised that certain felony convictions, enumerated in Articles 10-21.9 and 21B-80 of the School Code of Illinois (<http://www.ilga.gov/legislation/ilcs/ilcs3.asp?ActID=1005&ChapAct=105%2%A0ILCS&160;5/&ChapterID=17&ChapterName=SCHOOLS&ActName=School+Code.>), prohibit licensure or employment in public schools. Questions pertaining to this matter should be addressed to the Council.

### Continuation in an Educator Preparation Program

To be eligible for continuation in an educator preparation program, candidates must satisfy all requirements of the applicable Transition Points which includes maintaining a University of Illinois at Urbana-Champaign and overall grade point averages of 2.5 (A = 4.0) or higher. In addition, candidates must meet the content area and professional education grade-point requirements specific to their programs. The full text of the three Transition Point Plans is available on the Council website (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx/>

[webpage/?page\\_level=2.3](#)). The Council on Teacher Education reviews each candidate's academic progress after the fall and spring semesters. Candidates who do not meet the criteria of the appropriate Transition Point will receive a warning letter from the Council advising them that their continuation in the program, entry into student teaching, and receiving a recommendation for licensure from the University are at risk. Candidates will be directed to their college deans for more information. Candidates may be dropped from licensure programs by the Council if they fail to meet the criteria of the appropriate Transition Point after receiving an initial warning letter.

Teaching effectiveness is influenced not only by academic proficiency, but also by the dispositions and professional behaviors of the candidate. Therefore, faculty members take these characteristics into account as they evaluate candidates' progress in the program. Teaching effectiveness can also be influenced by the candidate's health. For this reason, the University provides counseling and medical services for all students. A candidate wishing additional information about these services may call/visit the Council office or contact their advisor or program coordinator.

Because it is essential that counseling and medical services be offered as soon as the need becomes apparent, educator preparation advisers and faculty members are asked to recommend for assistance or examination any candidate about whom they feel concern. A candidate who is recommended for assistance or examination will receive a written request to make an appointment to discuss the situation. It is a requirement of the Council on Teacher Education that a candidate who receives such a request must respond. Failure to do so will jeopardize the candidate's continuation in their educator preparation program. During the appointment, the candidate will be informed of the counseling (<http://www.counselingcenter.illinois.edu/>) and medical services (<http://www.mckinley.illinois.edu/>) available at the University. The candidate's use of these services is usually optional. In exceptional cases, however, the Council may require a candidate to satisfactorily complete a mental health or physical examination with one of the campus services. Candidates who wish to continue in teacher education must comply with such referrals.

### Student Teaching

State law mandates candidates to pass the appropriate content area test prior to student teaching. Students who have not passed the appropriate content area test will not be permitted to student teach. Student teaching application forms are available in the college clinical experiences office that houses each program. (Candidates may obtain referrals to the appropriate office by contacting the Council.) A candidate seeking placement in student teaching should contact the appropriate program's clinical experiences office no later than October 1 of the academic year preceding the desired placement to determine departmental deadlines and meeting dates. Departments may set earlier deadlines. Candidates who apply after their departments' deadlines cannot be guaranteed a student teaching assignment during the next academic year. A candidate who will not be on campus during the fall semester, but who expects to enroll in educational practice (student teaching) during the next school year, should secure an application form from his or her program's clinical experiences office before leaving campus. A candidate who has submitted an application will receive a student teaching assignment pending verification that he or she has completed all requirements of the appropriate Transition Point Plan.

Only those candidates officially registered in teacher education curricula are eligible for student teaching placements. The Council reserves the

right to deny student teaching placement to candidates who have not met all requirements of the appropriate Transition Point Plan. Candidates may also be denied a student teaching placement for health reasons.

Candidates in teacher education should anticipate and plan for student teaching assignments. For most candidates, additional expense will be incurred during the semester in which student teaching is scheduled. Candidates cannot be guaranteed assignments in local schools. Student teaching is a full-time commitment on the part of teacher candidates. Teacher candidates should not plan to take additional coursework outside their program during student teaching, nor should they plan to be employed. School districts have the right to not accept a candidate and therefore, the Council cannot guarantee each candidate a placement. However, each program will exhaust every effort to seek a placement for each candidate.

Candidates are expected to complete all field experiences, including student teaching, at the University of Illinois at Urbana-Champaign. A candidate who wishes to complete student teaching through another university, yet receive a University of Illinois at Urbana-Champaign degree and recommendation for licensure, must secure the prior approval of his or her adviser, clinical experiences program coordinator, college, and the Council on Teacher Education via petition. The petition must be supported by verification from the other university that it will accept the candidate as a student teacher and will comply with all Council on Teacher Education requirements. Approvals of such arrangements are rare, and candidates should expect to incur additional costs. Consult the Council for additional information.

### Teacher Licensure

A candidate who completes all of the coursework and other requirements in a program approved for purposes of licensure by the Illinois State Board of Education is entitled to receive the recommendation of the University for the appropriate license and endorsement(s), provided the candidate has met all of the requirements of the appropriate Transition Point Plan and has passed all licensure tests and assessments required by the State of Illinois. In addition, all professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval must have been passed with a grade no lower than C- or equivalent in order to be counted towards fulfillment of the applicable requirements.

In some instances, a candidate may be denied a recommendation for licensure but be granted a degree by his or her college. A candidate who believes that the recommendation for licensure has been withheld unjustly may seek redress through the grievance policy established by the Council on Teacher Education.

**General Education ([https://my.illinois.edu/uPortal/render.userLayoutRootNode.uP?&uP\\_sparam=activeTabTag&activeTabTag=Academics&uP\\_fname=illinois-ssdt-courseinformationsuite&pltp\\_action=genedCatView](https://my.illinois.edu/uPortal/render.userLayoutRootNode.uP?&uP_sparam=activeTabTag&activeTabTag=Academics&uP_fname=illinois-ssdt-courseinformationsuite&pltp_action=genedCatView))**

Candidates for licensure are required to complete coursework that includes the theoretical and practical understanding generally expected of a liberally educated person. General education includes developing knowledge related to the arts, communications, history, literature, mathematics, philosophy, sciences, and the social studies from multicultural and global perspectives. This requirement is satisfied by the University of Illinois general education pattern incorporated into all undergraduate teacher education programs.

## Licensure Tests

All candidates for licensure as teachers, school administrators, and school support personnel must pass tests mandated by the Illinois State Board of Education as a condition for licensure. Illinois law requires that applicants to all educator preparation programs pass a test in their major area. All candidates in programs leading to teaching must also pass a teacher performance assessment (edTPA). Candidates for Learning Behavior Specialist I licensure must pass a third test: Special Education General Curriculum.

## Time Limit on Licensure

Because licensure requirements are subject to change at any time as a result of new mandates from the Illinois State Board of Education and the Illinois General Assembly, the University is unable to guarantee a recommendation for licensure to anyone who does not apply for licensure immediately upon completion of licensure requirements. A candidate completing an approved program is strongly encouraged to apply for licensure during his or her last term on campus and claim said license on the Educator Licensure Information System (ELIS) once it has been entitled. Applications for licensure are available on the candidate's student portal or in the Council office. Failure to claim a license through the ELIS once it has been entitled could result in additional requirements should candidate seek to claim license at a later date.

## Background Investigation of Applicants for Field Placement and Employment

State law mandates that all candidates for public school licensure in programs under the purview of the Council on Teacher Education complete a criminal background check and checks of the Statewide Sex Offender Database and Statewide Child Murderer and Violent Offender Against Youth Database before they may be placed in schools. Candidates are responsible for all fees connected with this procedure.

This means each educator preparation candidate in an Illinois school district is required to authorize the school district to initiate a criminal background check which will include a request for fingerprints. A school district may host an educator preparation candidate only after a background check has been initiated and may not knowingly host an educator preparation candidate who has been convicted of a felony or of attempting to commit certain offenses enumerated in The School Code of Illinois. This criminal background check is in addition to any background check you may have completed for the University of Illinois at Urbana-Champaign.

Final decisions regarding the placement of candidates in schools are made in agreement between the relevant department/college/program and the school/district.

The criminal background check is typically conducted prior to any field experiences in the schools and before student teaching or internship.

## Curricula

A candidate seeking licensure must complete the requirements of both his or her chosen curriculum, Council on Teacher Education requirements, and all additional State mandated requirements. Teacher education, school support personnel, and administrator curricula and the colleges and departments that offer them are listed below. All curricula have been approved by the Illinois State Board of Education.

Candidates are advised that licensure requirements may be altered at any time by the Illinois State Board of Education or the legislature. In such

cases, candidates may be compelled to satisfy the new requirements to qualify for the University's recommendation for licensure.

### College of Agriculture, Consumer and Environmental Sciences (<http://catalog.illinois.edu/undergraduate/aces/>)

- Agricultural Education

### College of Applied Health Sciences (<http://catalog.illinois.edu/undergraduate/ahs/>)

- Physical Education

### College of Education (<http://catalog.illinois.edu/undergraduate/education/>)

- Early Childhood Education, Birth - Grade 2 (Includes Early Childhood Special Education Approval)
- Elementary Education, Grades 1-6
- Learning Behavior Specialist I
- Middle Grades Education, Grades 5-8
  - (Options include English Language Arts, Math, Social Science, Science)
- Teacher Education Minor in Secondary School Teaching

### College of Fine and Applied Arts (<http://catalog.illinois.edu/undergraduate/faa/>)

- Music Education
- Visual Arts Education

### College of Liberal Arts and Sciences (<http://catalog.illinois.edu/undergraduate/las/>)

- English Language Arts

- Foreign Language: German
- Foreign Language: Latin
- Foreign Language: Spanish
- Mathematics
- Science: Biology
- Science: Chemistry
- Science: Earth and Space Science
- Science: Physics
- Social Science: History

### Graduate College

Graduate-level licensure programs are offered in the areas listed below. For additional information, contact the Council on Teacher Education or departmental office indicated.

#### Agricultural Education

- College of Agricultural, Consumer and Environmental Sciences, Office of Academic Programs

#### Director of Special Education

- Department of Special Education

#### Early Childhood Education

- Department of Curriculum and Instruction

### Elementary Education

- Department of Curriculum and Instruction

### Foreign Language: German

- Department of Germanic Languages and Literatures

### Foreign Language: Latin

- Department of Classics

### Foreign Language: Spanish

- Department of Spanish, Italian, and Portuguese

### Learning Behavior Specialist I

- Department of Special Education

### Learning Behavior Specialist II

- (Options: Behavior Interventions, Multiple Disabilities)
- Department of Special Education

### Library Information Specialist

- School of Information Sciences

### Music Education

- School of Music

### Principal

- Department of Education Policy, Organization and Leadership

### School Social Worker

- School of Social Work

### Secondary Education (English Language Arts, Mathematics, Sciences, Social Science: History) <sup>1</sup>

- Department of Curriculum and Instruction

### Speech-Language Pathologist: Non-teaching

- Department of Speech and Hearing Science

### Superintendent

- Department of Education Policy, Organization and Leadership

### Teacher Leader

- Department of Education Policy, Organization and Leadership

### Visual Arts

- School of Art and Design

<sup>1</sup> This minor is a required component of the teaching option within the following Science and Letters majors in the College of Liberal Arts and Sciences: biology, chemistry, English, geology, history, mathematics, physics, and Engineering physics.

### Teacher Education Minors

- English as a second language
- Mathematics: Grades 9-12

Candidates should be aware that the state recognizes teaching fields that are not listed above. Candidates may obtain subsequent teaching endorsements for any fields for which they satisfy the state minimum requirements. Contact the Council on Teacher Education

for additional information regarding the endorsement fields available and the qualifications for each. Endorsement requirements (<http://www.cote.illinois.edu/certification/Endorsements.html>) are also listed on the Council on Teacher Education Web site. (<http://cote.illinois.edu/>) Further questions may be directed to the Council on Teacher Education.

## Legend: College/School

ACES	College of Agricultural, Consumer and Environmental Sciences
AHS	College of Applied Health Sciences
BUS	Gies College of Business
CIMED	Carle Illinois College of Medicine
EDUC	College of Education
ENGR	College of Engineering
FAA	College of Fine and Applied Arts
GRAD	Graduate College
LAS	College of Liberal Arts and Sciences
LAW	College of Law
LER	School of Labor and Employment Relations
IS	School of Information Science
MDIA	College of Media
SOCW	School of Social Work
VETMED	College of Veterinary Medicine

## Programs

AD	Artist Diploma
AMusD	Doctor of Musical Arts
AuD	Doctor of Audiology
CAS	Certificate of Advanced Study
CONC	Concentration
DVM	Doctor of Veterinary Medicine
EdD	Doctor of Education
EdM	Master of Education
JSD	Doctor of the Science of Law
LLM	Master of Laws
MA	Master of Arts
MANSC	Master of Animal Science
MARCH	Master of Architecture
MAS	Master of Accountancy Science
MBA	Master of Business Administration
MCS	Master of Computer Science
MD	Doctor of Medicine
MENG	Master of Engineering
MFA	Master of Fine Arts
MHRIR	Master of Human Resources and Industrial Relations
Minor	Minor
MJ	Master of Journalism
MLA	Master of Landscape Architecture
MMus	Master of Music
MME	Master of Music Education
MPH	Master of Public Health
MS	Master of Science
MSL	Master of Science in Law
MSW	Master of Social Work
MSUD	Master of Sustainable Urban Design
MUP	Master of Urban Planning
PSM	Professional Science Masters Concentration
PhD	Doctor of Philosophy

---

The M.A.S. program is a one-year program for students who have completed or are pursuing a Bachelor of Science in Accountancy from an accredited U.S. institution. Each student will select either a Taxation or Financial Reporting & Assurance Option as a primary focus. Each Option (listed below) includes room for graduate electives. By design, the program emphasizes the emerging trend of data analytics in the practice of accounting, with a standard course plan that leads to a graduate concentration in data analytics in accountancy (<http://catalog.illinois.edu/graduate/graduate-majors/accountancy/data-analytics-conc/>) to fulfill the graduate electives. Students have the choice of remaining in the standard course plan or selecting from among the following alternative graduate concentrations to fulfill the graduate elective requirement: corporate governance and international business (p. 1065), finance (p. 1071), financial reporting & assurance (p. 516), information technology & control (p. 1074), real estate ([http://catalog.illinois.edu/graduate/graduate-majors/finance/graduate\\_concentration\\_in\\_real\\_estate/](http://catalog.illinois.edu/graduate/graduate-majors/finance/graduate_concentration_in_real_estate/)), and supply chain management ([http://catalog.illinois.edu/graduate/graduate-majors/bus-admin-ms/graduate\\_concentration\\_in\\_supply\\_chain\\_mgmt/](http://catalog.illinois.edu/graduate/graduate-majors/bus-admin-ms/graduate_concentration_in_supply_chain_mgmt/)). Students who wish to deviate from the standard course plan, but do not wish to pursue a listed graduate concentration, may petition to take other graduate courses of interest subject to approval of an Accountancy Advisor. Admission to a concentration requires application to the Department no later than February 1 for fall admission. Admission to some concentrations may be competitive.

---

## Graduate Degree Programs in Accountancy

Accountancy, MAS (p. 515)

**with optional concentrations:**

Business & Public Policy (p. 1062) | Corporate Governance & International Business (p. 1065) | Data Analytics in Accountancy (p. 1067) | Finance (p. 737) | Financial Reporting & Assurance (p. 516) | Information Technology & Control (p. 1074) | Real Estate (p. 1078) | Supply Chain Management (p. 1082) | Taxation (p. 1084)

Accountancy, MS (p. 517) (on campus & online)

**on campus concentrations:**

Business & Public Policy (p. 1062) | Corporate Governance & International Business (p. 1065) | Data Analytics in Accountancy (p. 1067) | Finance (p. 1071) | Information Technology & Control (p. 1074) | Supply Chain Management (p. 1082) | Taxation (p. 1084)

**online concentrations:**

Accountancy Analytics (p. 518)

Accountancy, PhD (p. 519)

**Minor:**

Accountancy (p. 1087)

### Admission

All applicants to the Master of Accounting Science program should refer to MAS program (<https://giesbusiness.illinois.edu/mas/admissions/>).

*for the degree of Master of Accounting Science in Accountancy*

For additional details and requirements refer to the department's program information online (<https://business.illinois.edu/mas/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
<b>Choose one (1) from:</b>		<b>4</b>
ACCY 410	Advanced Financial Reporting	
ACCY 451	Advanced Income Tax Problems	
<b>Choose one (1) Accounting elective from this list:</b>		<b>4</b>
ACCY 510	Financial Reporting Standards	
ACCY 512	Data Analytics for Management Accounting	
ACCY 515	Auditing & Assurance Standards	
ACCY 517	Financial Statement Analysis	
ACCY 518	Financial Statement Fraud	
ACCY 550	Multistate Taxation	
ACCY 554	International Taxation	
ACCY 570	Data Analytics Foundations for Accountancy	
ACCY 571	Statistical Analyses for Accountancy	
ACCY 574	Risk Management and Innovation	
ACCY 575	Data Analytics Applications in Accountancy	
ACCY 592	Introduction to Accounting Research	
<b>Choose one (1) of these two (2) concentrations:</b>		<b>12</b>
Taxation		
Financial Reporting & Assurance		
<b>Choose one (1) additional concentration from this list:</b>		<b>12</b>
Corporate Governance & International Business		
Data Analytics in Accountancy		

Information listed in this catalog is current as of 10/2020

Financial Reporting & Assurance

Finance

Information Technology & Control

Real Estate

Supply Chain Management

Taxation

Total Hours

32

### Other Requirements

Requirement	Description
Other requirements may overlap	
The prescribed courses may only be used to satisfy the requirements of one concentration.	
All 32 graduate hours must be completed at the University of Illinois at Urbana-Champaign.	
Minimum GPA:	3.0

<sup>1</sup> ACCY 451 and ACCY 410 are currently offered for differential credit (3 hours undergraduate or 4 hours graduate credit). Students in the Taxation concentration that complete both of these courses during the undergraduate timeframe will take ACCY 510 or ACCY 517 instead. Students in the Financial Reporting & Assurance concentration that complete both ACCY 451 and ACCY 410 for 3 hours of undergraduate credit would either take ACCY 518 or ACCY 574, or an approved elective. All graduate electives must be approved by an Accountancy Advisor.

## Accountancy: Financial Reporting & Assurance, MAS

## Learning Outcomes: Accountancy, MAS

Learning Outcomes for the degree of Master of Accounting Science in Accountancy

### Learning Objective 1: Advanced accounting competency

Students will build on their undergraduate knowledge of accounting by adding advanced knowledge of more complex accounting transactions. Students also will gain the ability to derive decision-relevant information from financial statements to make more strategic use of accounting information for decision-making.

### Learning Objective 2: Advanced Professional Research Skills

Students will be able to identify, interpret and apply the authoritative literature related to their areas of specialization to address accounting questions characterized by uncertainty and ambiguity.

### Learning Objective 3: Attitude-related Professional Preparation

Students will develop an understanding for and appreciation of an accountant's professional responsibility, and will become aware of society's expectations.

**The Master of Science in Accountancy can be completed either on campus or online.**

The University of Illinois at Urbana-Champaign has consistently ranked among the top accountancy schools in the United States. The Public Accounting Report and Accounting Degree Review have rated the Illinois graduate accounting program as one of the top accountancy masters programs in the United States.

The MS in Accountancy (MSA) program (<https://giesbusiness.illinois.edu/msa/>) offers a one year accounting degree. Our students include those with limited prior accounting education as well as students with an undergraduate degree in accounting. The MSA core curriculum applies to all of our students. However, for those students who have previously taken significantly equivalent courses to any of those in our core curriculum, we will work with our students to find a suitable replacement to recognize the sufficiency of their prior accounting education.

The online Master of Science in Accountancy (<https://onlinemsa.illinois.edu/>) (iMSA) is a fully online program that can be completed in 18 to 36 months. The highly-engaging delivery format and our world-renowned faculty provide students with a hands-on and practice-oriented learning experience. The iMSA is designed for those already working in the accounting field looking to refresh their skill set and for those who intend to use the degree to enter the field for the first time. A mirror of the on-campus Master of Science in Accountancy (MSA) curriculum, the online MSA (iMSA) uses a flexible program format. It allows students to balance academic life with other obligations.

The MSA program (<https://giesbusiness.illinois.edu/msa/>) begins in June each year with Summer Session II.

The iMSA program (<https://onlinemsa.illinois.edu>) begins in August and in January each year.

## Graduate Degree Programs in Accountancy

Accountancy, MAS (p. 515)

### with optional concentrations:

Business & Public Policy (p. 1062) | Corporate Governance & International Business (p. 1065) | Data Analytics in Accountancy (p. 1067) | Finance (p. 737) | Financial Reporting & Assurance (p. 516) | Information Technology & Control (p. 1074) | Real Estate (p. 1078) | Supply Chain Management (p. 1082) | Taxation (p. 1084)

Accountancy, MS (p. 517) (on campus & online)

### on campus concentrations:

Business & Public Policy (p. 1062) | Corporate Governance & International Business (p. 1065) | Data Analytics in Accountancy (p. 1067) | Finance (p. 1071) | Information Technology & Control (p. 1074) | Supply Chain Management (p. 1082) | Taxation (p. 1084)

### online concentrations:

Accountancy Analytics (p. 518)

Accountancy, PhD (p. 519)

### Minor:

Accountancy (p. 1087)

## Admission

All applicants to the Master of Science in Accountancy program should refer to the MSA program (<https://giesbusiness.illinois.edu/msa/admissions/>) or the iMSA program (<https://onlinemsa.illinois.edu/overview/>) for the online program.

*for the degree of Master of Science in Accountancy (on campus & online)*

For additional details and requirements refer to the department's program information online (<https://giesbusiness.illinois.edu/accountancy/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## This degree program can be completed either on campus or online; the requirements are listed below:

Code	Title	Hours
ACCY 501	Accounting Analysis I	4
ACCY 502	Accounting Analysis II	4
ACCY 503	Managerial Accounting	4
ACCY 504	Auditing	4
ACCY 505	Federal Taxation	4
or substitute graduate accountancy courses approved by a program advisor		
Graduate electives with at least 4 hours credit in a non-accountancy graduate course		12
Total Hours		32

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall: 20 (of the total 32 required)	
Students shall earn at least 24 of the 32 total graduate hours while enrolled in the Graduate College at Urbana-Champaign.	
Electives shall form a coherent program of study approved by a program advisor.	
Minimum MSA program coursework 3.0 cumulative GPA, both by semester and program overall	
Minimum MSA accountancy coursework cumulative GPA, both by semester and program overall	3.0

An optional CPA Review course (ACCY 398) is available. The credit hours for the CPA Review Course do not count towards the 32 credit hours required to graduate.

International students with TOEFL scores below 613 (paper-based), 257 (computer-based), or 103 (internet-based), or IELTS score below 7.0, are required to take the English Placement Test (EPT) when they arrive on campus. After taking the EPT, most students are required to take a Business English course sequence. For these students, completion of the ESL course sequence is **mandatory** but does not count towards the 32 hour degree requirement.

**The Accountancy Analytics concentration can be completed online.**

The Accountancy Analytics Concentration is designed to develop leaders who understand (1) how to apply data analytics in a variety of

accounting and business contexts, (2) critically solve business problems using data-intensive business and accounting information, and (3) synthesize and effectively communicate data-intensive information, findings, and conclusions to other environment-constituents, including supervisors, peers and subordinates, clients, and regulatory agencies. This concentration will not only provide a strong foundational knowledge of data analytics, but also provide students multiple opportunities to apply this knowledge via experiential learning opportunities.

## Learning Outcomes: Accountancy, MS

Learning Outcomes for the degree of Master of Science in Accountancy (on-campus & online)

### Learning Objective #1: Discipline-based competency

One goal of the MSA degree is to impart competency in traditional accountancy topics (financial reporting, cost accounting, federal income tax, and auditing), with an expectation of performance at a level higher than undergraduates. Besides providing a technical foundation for career success, a secondary goal of this learning objective is to prepare students to pass the AICPA Uniform CPA examination.

### Learning Objective #2: Social and Communication Skills

Students should be able to communicate with others regarding technical accounting topics.

### Learning Objective #3: Teamwork

Students should demonstrate the ability to collaborate as an effective team member in varying roles in a diverse group in and in diverse tasks.

email: [accy@illinois.edu](mailto:accy@illinois.edu)

The student's doctoral program is determined in consultation with a faculty advisory committee. The student's evolving plans for the doctoral thesis serve as a guide in planning the program. Program coursework is comprised of two general categories: core studies and advanced studies within an area of specialization (i.e., a supporting field). The latter coursework is tailored to facilitate the student's dissertation.

In addition, candidates must pass a written accountancy core examination and both oral preliminary and oral final examinations on the doctoral thesis. In the accountancy core examination, candidates must demonstrate a thorough knowledge of research methods and accounting theory; a general acquaintance with the subject matter of the variety addressed within accountancy doctoral core studies; and proficiency in

the required areas of economic theory, quantitative methods, behavioral science and financial economics.

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum Hours Required Within the 56 Unit:	
Minimum 500-level Hours Required	60
Overall:	
Students must present a research paper at the Accountancy Research Forum in the beginning of their third year.	
Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the accountancy Ph.D. program.	
Masters Degree Required for Admission to PhD?	No
Qualifying Exam Required (Accountancy Core Examination)	Yes
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Learning Outcomes: Accountancy, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Accountancy

### Learning Objective #1: Interdisciplinary knowledge, skills and attitudes

Students should possess sufficient knowledge of the economics and other behavioral science theories that are the roots of the accountancy discipline, knowledge of relevant accountancy research literatures, knowledge of the institutional features that characterize the production and utilization of accounting information, and knowledge of design and analysis methods necessary to conduct research in accountancy.

### Learning Objective #2: Functioning as a competent researcher

Students should be able to design and conduct a research study in an accountancy related area and to write and present a research paper based on this study to the accountancy faculty. Students should demonstrate accomplishment of this goal in a research study other than their dissertation.

### Learning Objective #3: Functioning as a competent educator at the undergraduate level

Students should possess the knowledge, skills and attitudes necessary to teach an undergraduate course based on a common course syllabus developed by a faculty team. These knowledge, skills and attitudes include planning and delivering a class lecture, planning and supervising class activities, and planning and performing assessments of student learning.

## Actuarial Science, MS

for the Master of Science in Actuarial Science

**department chair:** Jeremy Tyson

**director of graduate studies:** Lee DeVille

**overview of admissions & requirements:**

## Programs in Advertising

### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minor:** Public Relations (p. 493)

### Graduate Programs:

**degree:** Advertising, MS (p. 522)

**degree:** Strategic Brand Communication, MS (p. 1005)

Advertising education was founded at the University of Illinois in 1946, when Charles H. Sandage, the "father of advertising", arrived on campus. His vision of educating the future of the industry was grounded in theoretical and foundational courses emphasizing the "why of advertising" - not just the "how."

Our courses provide the theoretical, research, and strategic decision-making skills essential for any career in advertising or advanced degree program. Our program allows for flexibility of specialized interest through electives within and outside the department.

## Admission

Students are required to complete 36 hours towards the degree, including a professional project or thesis requirement. Full-time status requires 12 hours per semester, making it possible to complete the degree in three semesters. Admission is only granted for fall semester.

for the degree of Master of Science in Advertising

## Learning Outcomes: Advertising, MS

Learning Outcomes for the degree of Master of Science in Advertising

1. Intellectual reasoning and knowledge
  - a. MS graduates will develop an understanding of the “why of advertising” not just the “how”.
  - b. MS graduates will demonstrate critical thinking skills, making the intellectual connection between quantitative and qualitative tools, theories and context to properly and effectively solve problems and make decisions related to the fast-changing media and advertising industries.
2. Creative inquiry and discovery
  - a. MS graduates will have a strategic understanding of advertising and be able to take into account the relationships between this discipline and other related disciplines.
  - b. MS graduates will assess the interdependent, fast-changing, and diverse world of media and advertising.
  - c. MS graduates will demonstrate proficiency in analyzing and interpreting research data that is fundamental to innovative problem solving and strategic thinking.
3. Effective leadership and community engagement
  - a. MS graduates will utilize interpersonal and group leadership skills (through taking classes with the same cohort every semester and group projects) to be highly effective advertising managers and leaders; demonstrating curiosity, visionary and strategic thinking, teamwork, and knowledge transfer skills.
4. Social awareness and cultural understanding
  - a. MS graduates will demonstrate ethical reasoning skills, generate new knowledge, and strengthen professional development.
  - b. MS graduates will demonstrate a strong work ethic to foster individual and professional integrity and mutual respect.
  - c. MS graduates will be able to think critically and creatively and to apply theory to practice in an atmosphere of inquiry and dynamic exchange with faculty and their peers.
  - d. MS graduates will have opportunities for learning outside the classroom.
5. Global consciousness
  - a. MS graduates will have opportunity to learn about the fast-changing international and global advertising industry.
6. Professional development
  - a. MS graduate students will have the opportunity at least twice per semester to meet with advertising professionals to discuss career goals (i.e., presentations, workshops and collaborations)

## Aerospace Engineering, MS

for the degree of Master of Science in Aerospace Engineering (on campus & non-thesis online)

**department head:** Gregory Elliott (elliottg@illinois.edu)  
**director of graduate studies:** Daniel J Bodony (bodony@illinois.edu)  
**overview of admissions & requirements:** <https://aerospace.illinois.edu/admissions/graduate> (<https://aerospace.illinois.edu/admissions/graduate/>)  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**department website:** <https://aerospace.illinois.edu/>  
**program website:** <https://aerospace.illinois.edu/academics/graduate/ms-degree-program> (<https://aerospace.illinois.edu/academics/graduate/ms-degree-program/>)  
**department faculty:** <https://aerospace.illinois.edu/directory/faculty> (<https://ae.illinois.edu/directory/faculty/>)  
**college website:** <https://grainger.illinois.edu/>  
**contact:** Staci McDannel (tank@illinois.edu)  
**address:** 306 Talbot Laboratory, 104 S Wright St, Urbana, IL 61801  
**phone:** (217) 333-2651  
**email:** [aerospace@illinois.edu](mailto:aerospace@illinois.edu)

The Department of Aerospace Engineering offers both an MS with thesis (<https://aerospace.illinois.edu/academics/graduate/ms-degree-program/ms-degree-thesis/>) and an MS non-thesis (<https://ae.illinois.edu/academics/graduate/ms-degree-program/ms-degree-non-thesis-campus/>) program. Students in the MS with thesis program are required to have a research advisor and applicants are encouraged to contact department faculty (<https://aerospace.illinois.edu/directory/faculty/>) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

The Department of Aerospace Engineering accepts applications for admission to the MS with thesis and MS non-thesis graduate programs per the following deadlines:

#### Fall Admission

For MS with thesis admission and full consideration for funding opportunities: January 1

For MS non-thesis admission: July 1

#### Spring Admission

For MS with thesis admission and full consideration for funding opportunities: October 8

For MS non-thesis admission: December 1

Typically, the prerequisite for graduate study is the equivalent of the BS in Aerospace Engineering (<https://aerospace.illinois.edu/academics/undergraduate/>); however, graduates of curricula leading to degrees in other fields of engineering, the physical sciences, or mathematics may also be admitted to advanced study. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, having a GPA higher than the minimum is no guarantee of admission. Scores on the Graduate Record Examination (GRE) (<http://ets.org/>) general test are required of all applicants. There are no minimum GRE score requirements.

Applicants to the Aerospace Engineering graduate program are asked to complete a supplemental form that will capture additional

information about their specific interests. Applicants receive an email after submitting the online application which contains the link to the supplemental form. Applicants may select up to three areas from the following list:

- additive manufacturing
- aeroacoustics
- aerodynamics
- aeroelasticity
- aerospace materials
- aerospace structures
- aerospace systems design and simulation
- combustion and propulsion
- composite materials
- computational fluid mechanics
- computational mechanics
- controls, dynamical systems and estimation
- experimental fluid mechanics
- flow control
- fracture mechanics and fatigue
- GPS
- hypersonics
- information technology
- laser and optical diagnostics
- nanomechanics and micromechanics
- nanosatellites
- plasma physics
- robotics
- space environment and space mission design
- space systems
- structural mechanics/ structural dynamics design
- unmanned aerial vehicles

All applicants whose native language is not English are required to submit the results of the TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) as evidence of meeting the English proficiency requirements for full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>). Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

Applicants who are non-native speakers of English and who wish to be considered for teaching assistantships must provide evidence (<https://grad.illinois.edu/admissions/taengprof.htm>) of spoken English language proficiency. Specifically, they must score 24 or higher on the SPEAK portion of the TOEFL exam and 8 or higher on the speaking sub-section of the IELTS.

For full information on admission requirements and how to apply, see the department's graduate programs Web site (<https://aerospace.illinois.edu/academics/graduate/>).

## Financial Aid

Students in the MS non-thesis program are not eligible for funding from the department. Financial aid for graduate students in thesis graduate programs is available in the form of fellowships (<https://grad.illinois.edu/fellowships/about/>), as well as teaching and research assistantships (<https://grad.illinois.edu/assistantships/>). A block grant from the National Aeronautics and Space Administration supports a multidisciplinary research and training program. Qualified candidates are considered for financial support upon application. In addition, graduate students making satisfactory progress toward their degrees may also be considered for financial support.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency ([http://](http://www.grad.illinois.edu/admissions/taengprof.htm)

[www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm)) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the TOEFL or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Graduate Teaching Experience

MS students are not required to hold a teaching assistantship.

## Department Research

Research activities in the Department of Aerospace Engineering encompass a wide range of problem areas in aerospace engineering and related engineering disciplines as described on the department's research area Web site (<https://aerospace.illinois.edu/research/>).

There are several nationally renowned interdisciplinary centers in The Grainger College of Engineering where Aerospace Engineering faculty members engage in research along with many other campus faculty. A list of these, along with links to full descriptions, appears at the department's interdisciplinary centers Web site (<https://aerospace.illinois.edu/research/interdisciplinary-centers/>). Among these are the Beckman Institute for Advanced Science and Technology, Center for Exascale Simulation of Plasma-Coupled Combustion (XPACC), Coordinated Science Laboratory (CSL), Micro and Nanotechnology Laboratory, National Center for Supercomputing Applications (NCSA), Air Conditioning and Refrigeration Center (ACRC), Information Trust Institute (ITI), Center for UAS Propulsion (CUP), and Center for Cryogenic High-Efficiency Electrical Technologies for Aircraft (CHEETA).

Members of the Aerospace Engineering Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department's research facilities Web site (<https://aerospace.illinois.edu/research/research-facilities/>).

## Other Graduate Programs in the Department of Aerospace Engineering

degrees:

Aerospace Engineering, PhD (p. 526)

### optional concentrations:

Computational Science & Engineering (p. 1064)

Aerospace Engineering, Direct PhD (<https://aerospace.illinois.edu/academics/graduate/phd-program/phd-student-status-and-requirements/direct-phd/>)

### optional concentrations:

Computational Science & Engineering (p. 1064)

concentrations:

Aerospace Systems Engineering (p. 720)

### available for:

Engineering, MENG (p. 720)

The Department of Aerospace Engineering (AE) offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Aerospace Engineering and a Master of Engineering in Engineering degree with a concentration in Aerospace Systems Engineering. The AE graduate program provides students with a strong background in

engineering and applied science while placing emphasis on aircraft and spaceflight engineering. Students may major in one of the following general areas: aerodynamics, astrodynamics, combustion and propulsion, control systems, dynamical systems, fluid mechanics, structural mechanics, materials, and space systems.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

*for the degree of Master of Science in Aerospace Engineering (on campus & non-thesis online)*

The MS in Aerospace Engineering is also offered online. The degree requirements are the same as for the on-campus MS non-thesis program and the degree awarded to online students is the same degree awarded to resident students. Online students have five years to complete the program.

Online students should develop a course program plan in consultation with their advisor. Suggested program tracks (<https://aerospace.illinois.edu/academics/graduate/suggested-program-tracks/>) are provided for each of the three main technical divisions in the department:

1. Aerodynamics, Fluid Mechanics, Combustion and Propulsion (AFMCP);
2. Astrodynamics, Controls and Dynamical Systems (ACDS); and
3. Structural Mechanics and Materials (SMM).

*For additional details and requirements, refer to the department's Website (<http://aerospace.illinois.edu/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).*

**Thesis Option**

Code	Title	Hours
AE 599	Thesis Research (min-max applied toward the degree)	8
AE 590	Seminar (registration of 0 hours every term while in residence )	0
Aerospace Engineering breadth requirement ( <a href="https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/">https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/</a> )		6-8
One mathematics course from an approved list ( <a href="https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/">https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/</a> )		3-4
Elective courses chosen in consultation with an advisor (subject to Other Requirements and Conditions below)		12-15
Total Hours		32

**Other Requirements and Conditions <sup>1</sup>**

Requirement	Description
Other Requirements and Conditions may overlap	

	A minimum of 16 hours of AE course work at the 400-level and above. (May include up to 8 hours of AE 599.)
	A minimum of 12 500-level credit hours overall applied toward the degree, with 8 hours being AE courses. (May include up to 4 hours of AE 599.)
	No hours of AE 597 (or other independent study) may be applied in this option.
	Attendance at all Aerospace Engineering AE 590 seminars each semester while on campus.
Minimum GPA:	3.0
	A departmental petition is required to change from the thesis to the non-thesis option.

<sup>1</sup> For additional details and requirements refer to the department's Website (<http://aerospace.illinois.edu/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

**Non-Thesis Option**

Code	Title	Hours
AE 590	Seminar (registration for 0 hours every term while in residence )	
Aerospace Engineering breadth requirement ( <a href="https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/">https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/</a> )		9-12
One mathematics course from an approved list ( <a href="https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/">https://aerospace.illinois.edu/academics/graduate/breadth-and-mathematics-requirements/</a> )		3-4
Elective courses chosen in consultation with an advisor (subject to Other Requirements and Conditions below)		16-20
Total Hours		32

**Other Requirements and Conditions <sup>1</sup>**

Requirement	Description
Other Requirements and Conditions may overlap	
	A minimum of 16 hours of AE course work at the 400-level and above.
	A minimum of 12 500-level credit hours overall applied toward the degree, with 8 hours being AE courses.
	A maximum of 4 hours of AE 597 (or other independent study) may be applied toward the elective course work requirement.
	Attendance at all Aerospace Engineering AE 590 seminars each semester while on campus.
Minimum GPA:	3.0

Generally, students holding a research assistantship will not be allowed in the non-thesis option.

A departmental petition is required to change from the thesis to the non-thesis option and vice-versa.

<sup>1</sup> For additional details and requirements refer to the department's Website (<https://aerospace.illinois.edu/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Aerospace Engineering, MS

Learning Outcomes for the degree of Master of Science in Aerospace Engineering (on-campus & non-thesis online)

1. An ability to utilize and apply advanced mathematical, computational, design and/or experimental skills
2. An ability to identify, formulate and solve advanced problems in aerospace engineering
3. Effectively communicate technical ideas through reports, presentations, or other media at the high level associated with graduate education
4. Depth of knowledge in one or more sub-disciplines associated with aerospace engineering and their research or technical area of interest.
5. Knowledgeable about contemporary research in aerospace engineering and related disciplines
6. Knowledgeable about ethical standards of conducting research, analyzing data and disseminating information as part of the engineering profession
6. An ability to conduct research, analyze results, report findings, and draw conclusions that result in original contributions to knowledge in aerospace engineering and/or related fields (Not a requirement for M.S. Non-thesis students)
7. Effectively train and/or teach others in a classroom, laboratory, seminar, or other setting to disseminate knowledge in the aerospace engineering discipline. (Not a requirement for M.S. students)

The Department of Aerospace Engineering offers both a traditional doctoral program and a direct doctoral program (<https://aerospace.illinois.edu/academics/graduate/phd-program/phd-student-status-and-requirements/direct-phd/>). Students in both programs are required to have a research advisor and applicants are encouraged to contact department faculty (<https://aerospace.illinois.edu/directory/faculty/>) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

The Department of Aerospace Engineering accepts applications for admission to both the traditional doctoral program and the direct doctoral program per the following deadlines:

#### Fall Admission

For admission and full consideration for funding opportunities: January 1

#### Spring Admission

For admission and full consideration for funding opportunities: October 8

Typically, the prerequisite for graduate study is the equivalent of the BS in Aerospace Engineering (<https://aerospace.illinois.edu/academics/undergraduate/>); however, graduates of curricula leading to degrees in other fields of engineering, the physical sciences, or mathematics may also be admitted to advanced study. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, having a GPA higher than the minimum is no guarantee of admission. Scores on the Graduate Record Examination (GRE) (<http://ets.org/>) general test are required of all applicants. There are no GRE minimum score requirements.

Applicants to the Aerospace Engineering graduate program are asked to complete a supplemental form that will capture additional information about their specific interests. Applicants receive an email after submitting the online application which contains the link to the supplemental form. Applicants may select up to three areas from the following list:

•additive manufacturing	•aeroacoustics	•aerodynamics	•aeroelasticity	•aerospace materials
•aerospace structures	•aerospace systems design and simulation	•applied aerodynamics	•astrodynamics	•autonomous vehicles
•combustion and propulsion	•composite materials	•computational fluid mechanics	•computational mechanics	•controls, dynamical systems and estimation
•experimental fluid mechanics	•flow control	•fracture mechanics and fatigue	•GPS	•hypersonics
•information technology	•laser and optical diagnostics	•nanomechanics and micromechanics	•satellites	•plasma physics
•robotics	•space environment and space mission design	•space systems	•structural mechanics/ structural dynamics design	•unmanned aerial vehicles

All applicants whose native language is not English are required to submit the results of the TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) as evidence of meeting the English proficiency requirements for full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>). Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

Applicants who are non-native speakers of English and who wish to be considered for teaching assistantships must provide evidence (<https://grad.illinois.edu/admissions/taengprof.htm>) of spoken English language proficiency. Specifically, they must score 24 or higher on the SPEAK portion of the TOEFL exam and 8 or higher on the speaking sub-section of the IELTS.

For full information on admission requirements and how to apply, see the department's graduate programs Web site (<https://aerospace.illinois.edu/academics/graduate/>).

## Financial Aid

Financial aid for graduate students in thesis graduate programs is available in the form of fellowships (<https://grad.illinois.edu/fellowships/about/>), as well as teaching and research assistantships (<https://grad.illinois.edu/assistantships/>). Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend. A block grant from the National Aeronautics and Space Administration supports a multidisciplinary research and training program. Qualified candidates are considered for financial support upon application. In addition, graduate students making satisfactory progress toward their degrees may also be considered for financial support.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://www.grad.illinois.edu/admissions/taengprof.htm>) by achieving a

minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the TOEFL or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Graduate Teaching Experience

PhD students are required to hold a 25% teaching assistantship for at least one semester in order to meet the requirements for the Department of Aerospace Engineering doctoral program. Information about teaching assistantships can be found on the department's teaching assistantships Web site (<https://aerospace.illinois.edu/academics/graduate/funding-fees-and-fellowships/teaching-assistantships/>).

## Department Research

Research activities in the Department of Aerospace Engineering encompass a wide range of problem areas in aerospace engineering and related engineering disciplines as described on the department's research area Web site (<https://aerospace.illinois.edu/research/>).

There are several nationally renowned interdisciplinary centers in The Grainger College of Engineering where Aerospace Engineering faculty members engage in research along with many other campus faculty. A list of these, along with links to full descriptions, appears at the department's interdisciplinary centers Web site (<https://aerospace.illinois.edu/research/interdisciplinary-centers/>). Among these are the Beckman Institute for Advanced Science and Technology, Center for Exascale Simulation of Plasma-Coupled Combustion (XPACC), Coordinated Science Laboratory (CSL), Micro and Nanotechnology Laboratory, National Center for Supercomputing Applications (NCSA), Air Conditioning and Refrigeration Center (ACRC), Information Trust Institute (ITI), Center for UAS Propulsion (CUP), and Center for Cryogenic High-Efficiency Electrical Technologies for Aircraft (CHEETA).

Members of the Aerospace Engineering Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department's research facilities Web site (<https://aerospace.illinois.edu/research/research-facilities/>).

**email:** [african@illinois.edu](mailto:african@illinois.edu)

The Center for African Studies administers a two-year program of area studies courses and intensive African language instruction leading to a Master of Arts degree designed to give students an interdisciplinary perspective on the study of Africa. The program provides both language and area training for three constituencies of students: those seeking to match area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those for whom the degree would stand on its own. For more information about the Center's graduate programs, please visit: <http://www.afrst.illinois.edu/academics/grad/>.

## Graduate Degree Programs in African Studies

African Studies, MA (p. 529)

African Studies Graduate Minor (p. 1088)

**Joint Degree Program:**

African Studies, MA and Library and Information Science, MS (p. 1113)

## Admissions

The Center for African Studies admits students in the fall term only. Applicants to the Masters degree in African Studies should hold at least a Bachelor's degree from an accredited college or university in the United States or from a recognized institution of higher education abroad. All graduate college admission requirements also apply. The Center does not require the Graduate Record Examination (GRE) scores, but it is highly recommended for students applying for the Foreign Language and Area Studies (FLAS) fellowship. Successful applicants should have a grade point average of at least 3.0 (4.0=A) calculated for the last 60 semester hours of undergraduate course work. International applicants or applicants whose native language is not English must have a minimum TOEFL score of 550 on the paper-based test (PBT) -- 213 on the computer-based test (CBT) or 79 on the internet-based test (IBT). For information about the application process and to access both domestic and international student applications, start here: <https://grad.illinois.edu/admissions/apply/>.

For more information about the Center's admission requirements and procedures, and deadlines please visit [www.afrst.illinois.edu/academics/grad/apply/](http://www.afrst.illinois.edu/academics/grad/apply/) (<http://www.afrst.illinois.edu/academics/grad/apply/>).

Students interested in the graduate minor in African Studies must be in good standing in a graduate program, have permission from the major program, and demonstrate an interest in African Studies. For more information, contact Dr. Maimouna Barro ([barro@illinois.edu](mailto:barro@illinois.edu)).

## Faculty Research

The Center for African Studies' has both core and affiliate faculty represented in over 34 units across campus encompassing various disciplines in the humanities and social sciences, as well as in professional schools. The faculty is the backbone of the Center and constitutes the most critical element of the graduate experience. They excel in teaching at all levels and have a strong commitment to innovative research. Both Center faculty and teaching assistants have received numerous college and campus teaching awards. For more information about the Center faculty, please visit: <http://www.afrst.illinois.edu/people/faculty/>

## Facilities and Resources

Established since 1970, the Center for African Studies is one the largest and most dynamic African National resource Centers in the country. The Center promotes excellence in research and teaching on Africa in all disciplines. The Center also exists to increase and disseminate knowledge about Africa to the larger community through various outreach activities to colleges, schools, community groups and businesses. At a time when the university of Illinois is expanding its international dimension, the Center for African Studies is dedicated to promoting a vibrant African Studies program and to fostering an understanding of Africa and African peoples through research, teaching and various Africa-related programs and events. The Center organizes a wide range of activities including conferences, lectures, film festivals, art exhibits, language institutes, workshops, and symposia. In addition, the Center regularly hosts visitors from the United States and abroad, namely Africa, and is strongly committed to developing linkages with individuals and institutions based in the African continent.

In 2012, the University of Illinois Library reorganized its international and area studies units into one large International and Area Studies Library (IASL) in an excellent renovated space. This new unit includes the African Studies library and other world areas library collections. The University Library has supported a full-time African Studies Bibliographer since 1969, and has provided the necessary acquisitions, cataloging, and processing staff since then.

The African Studies collection include over 354,000 items in all formats, with more than 300,000 in printed volumes and in English and French and a smaller number in Portuguese, German and other European languages. The Library adds about 900 items written in African languages each year. About 16,000 volumes written in Arabic deal with topics related to Africa, and more than 7000 are in Amharic, Bamana, Hausa, Lingala, Swahili, Tigrinya, Wolof, and Zulu. There are roughly 2,900 serials and 46,000 maps, of which 2849 have been digitized, as well as 12,000 microforms, and more than 800 audio-visual materials. The collection covers all African countries and includes materials in about 80 African languages. Priority countries for collecting include: Burkina Faso, Côte d'Ivoire, Democratic Republic of the Congo, Egypt, Eritrea, Ethiopia, Gambia, Kenya, Morocco, Mozambique, Nigeria, Senegal, South Sudan, South Africa, Tanzania, Tunisia, Zambia, and Zimbabwe. The collection is interdisciplinary and concentrated mainly in the humanities, social sciences, human rights and law, and agriculture. Our large collection of primary source materials, covering all of Africa, includes 120,000 pages of Arabic manuscripts and thousands of United States, United Kingdom, and African government documents. The Africana film collection is one

of the finest in the US, and our African film database provides access to more than 800 films from or about Africa. UI's rich museum collections include the Krannert Art Museum and the Spurlock Museum and hold over 10,000 African artifacts. The museums present interesting exhibits and host African performances. Teacher kits on various African topics are also provided by the Krannert Art Museum.

The African studies bibliographer runs the Africana library and teaches IS 530, one of the Center's core courses and plays a key role in the Center's graduate program. For further information about the Africana library, please visit: <http://www.library.illinois.edu/ias/africana/>

## Financial Aid

Students must apply and be admitted according to the set deadlines to be considered for assistantships and fellowships. The Center evaluates and ranks entering students on the basis of academic promise. This ranking becomes part of the basis for financial aid decisions. Funding is generally awarded to cover the fall and spring semesters and occasionally on a semester-by-semester basis. Multiple years of funding cannot be guaranteed, but the Center considers it a priority to fund students and see them through the program. Continued funding is based on academic (in the case of Foreign Language and Area Studies Fellowships) and job performance (in the case of assistantships), the availability of positions, and the Center's budget in a given year or US Department of Education Title VI funding cycle.

Students are encouraged to check the Graduate College's website (<http://www.grad.uiuc.edu/>) for funding opportunities--whether they are fellowships or assistantships: <https://grad.illinois.edu/>

For information about available awards and application deadlines, visit: <http://www.afrst.illinois.edu/academics/grants/>.

*for the Master of Arts in African Studies*

## Learning Outcomes: African Studies, MA

Learning Outcomes for the Master of Arts in African Studies

- Strong interdisciplinary knowledge of African area studies, of Africa and its cultures and societies in a broader international and global context
  - Students should have a good understanding of the various historical, cultural, social, economic and political conditions that shaped the development of the continent
  - Students should be able to place their knowledge of Africa and African studies in a broader world context and from a multidisciplinary perspective.
- Proficiency in African language and a solid knowledge of research methodologies
  - Students should develop appropriate expertise in a region or country in African, acquire proficiency in a language of a particular region/country and equip themselves with a good understanding of the appropriate research tools to study that region/country.
- Although international experience is not a requirement for the MA program, experience through study abroad is an integral part of the graduate experience, especially when fellowship opportunities for African language study do exist. Students should demonstrate commitment to conduct fieldwork whenever opportunities for study abroad are available.

4. Students should be able to demonstrate strong research skills. Completion of an MA thesis by the end of the second year is a good indication that they have acquired good research skills. However, participation in conferences will also be a good assessment of students' ability to conduct research.
5. Students should be able to make a practical contribution to the center and to African Studies through participation in internships. The Center for African Studies has strong partnerships with organizations and institutions of higher education based on the African continent and can help students identify international internship programs. In case a student is not able to do an internship by the time they graduate, an alternative option would be for them to complete our practicum course (AFST 515). Students enrolled in this course will complete independent projects and will be able to demonstrate their knowledge and practice their skills in real-world settings.

## Agricultural & Applied Economics, MAAE

*for the Master of Agricultural and Applied Economics in Agricultural and Applied Economics*

**Department Head: Sean Fox**

**Director of Graduate Studies: Nick Paulson**

**Director of Graduate Recruiting and Admissions: Madhu Khanna**  
**Address: 326 Mumford Hall, MC-710, 1301 West Gregory Drive, Urbana, IL 61801**

**Phone: (217) 333-1810**

**Fax: (217) 333-5538**

**email: ace-grad@illinois.edu**

### MAAE Program Overview

The MAAE degree is a course-based (non-thesis) program that provides students with training in economic theory along with the quantitative skills needed to pursue careers as analysts and managers in industry, government, and related organizations. Available course offerings cover a broad range of potential specialization areas within agricultural and applied economics to suit student interests. Course plans for specialization must be approved by the student's academic advisor and the Director of Graduate Studies. In addition to coursework, the MAAE program includes a required internship component.

### Admission

Graduate College requirements apply, including a 3.0 (A = 4.0) GPA for the last two years of undergraduate coursework and any graduate work completed. International applicants whose native language is not English must have a Test of English as a Foreign Language (TOEFL iBT) score of at least 88 (230 computer-based and 570 paper-based) or an International English Language Testing System (IELTS) academic examination overall score of at least 6.5 with a minimum sub-section score of 6 in each of the four modules (speaking, listening, writing, and reading). Graduate Record Examination (GRE) general test scores are suggested, but not required for MAAE applicants. Applicants should be able to demonstrate a strong background in mathematics, microeconomics, and statistics.

### Financial Aid

MAAE students are not eligible for graduate assistantships. Limited scholarship funds may be available for outstanding applicants.

**email: ace-grad@illinois.edu**

## Program Overview

The ACE M.S. program offers considerable flexibility. Students using the degree as a foundation for a doctorate emphasize economic theory and analytical research tools. Students seeking the terminal master's degree focus their study on the concepts and analytical techniques used by analysts and managers in industries, governments, and other organizations.

## Admission

Graduate College requirements apply, including a 3.0 (A = 4.0) GPA for the last two years of undergraduate coursework and any graduate work completed. International applicants whose native language is not English are required to follow the Graduate College's Minimum Requirements for Admission. Graduate Record Examination (GRE) general test scores are required for all M.S. program applicants. Applicants to the Ph.D. program are required to provide a sample of their academic writing; a writing sample is optional for M.S. applicants. Students having an inadequate background in theory or quantitative methods will be asked to take additional coursework to prepare for graduate study. Students may commence study in either semester, but initial enrollment in fall semester is preferable.

## Student Thesis and Dissertation Research

Our students' research uses economics to address important social and economic challenges. Thesis and dissertation topics include designing policies for environmental protection and resource management, evaluating international efforts to reduce poverty and hunger, and enhancing the performance of commodity and speculative markets.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program and is strongly recommended for those intending to pursue an academic career.

## Financial Aid

Graduate fellowships, assistantships, and tuition and fee waivers are awarded on a competitive basis.

Fellowships. The department offers fellowships from internal resources and by nominating students for college and campus fellowships. These fellowships, often combined with assistantship support, provide monetary stipends and, in most cases, exemptions from tuition and some student fees. Recipients must register for the equivalent of at least 12 hours of graduate credit in each semester and four hours in an eight-week summer session. Fellowship holders are encouraged to involve themselves with research and teaching in the department.

Assistantships. Research and teaching assistantships provide an opportunity for graduate students to work with faculty. Most research assistantships are funded by grants and contracts involving the analysis of contemporary issues. Most assistantships carry waivers of tuition and some fees.

Tuition and Fee Waivers. Waivers may be awarded. In most cases they are awarded to students with fellowship support from certain external programs.

## Graduate Degree Programs in Agricultural and Applied Economics

Agricultural and Applied Economics, MAE (p. 531)

Agricultural and Applied Economics, MS (p. 531)

Agricultural and Applied Economics, PhD (p. 533)

*for the Master of Science in Agricultural and Applied Economics*

Students must earn a 3.0 (A = 4.0) GPA for a minimum of 32 graduate hours of credit. M.S. students entering the ACE graduate program will be admitted only to the Thesis Option. For the Thesis Option, a thesis is prepared under the supervision of a faculty advisory committee. The thesis is defended in a formal oral examination, which usually coincides with an open departmental seminar, administered by the thesis committee. The Non-Thesis Option requires advanced coursework in lieu of a thesis. The Non-Thesis Option is available only to students already enrolled in the Thesis Option of the ACE M.S. program or in the ACE Ph.D. program. Application for admission to the Non-Thesis Option is by petition to the Department after at least two semesters of graduate coursework have been completed.

For additional details and requirements refer to the department's Graduate Program information for the Master's degree (<http://ace.illinois.edu/grad/masters/>) and the Graduate College Handbook (<http://www.grad.uiuc.edu/gradhandbook/>).

## Learning Outcomes: Agricultural and Applied Economics, MS

Learning Outcomes for the Master of Science in Agricultural and Applied Economics

1. Develop a knowledge base in, and demonstrate an understanding of how to use, microeconomic concepts to set up and analyze economic problems.
2. Identify, summarize, interpret, and critique relevant scholarly literature.
3. Demonstrate the ability to identify important research problems and formulate well-defined research objectives (e.g., testable hypotheses).
4. Identify and use appropriate quantitative methods to accomplish research objectives.
5. Effectively use written and verbal communication skills to present economic concepts and analyses.
6. Understand features of agriculture and natural resources (e.g., inherent risk, institutions, unique government policies, and cultural importance of food) that make them unique for applications of economic principles.
7. Practice highest levels of professional conduct (e.g., in professional activities take responsibility, be accountable, show integrity, have strong ethics, and respect diversity).

## Agricultural & Applied Economics, PhD

*for the Doctor of Philosophy in Agricultural and Applied Economics*

**Department Head: Sean Fox**

**Director of Graduate Studies: Nick Paulson**

**Director of Graduate Recruiting and Admissions: Madhu Khanna**

**Address: 326 Mumford Hall, MC-710, 1301 West Gregory Drive, Urbana, IL 61801**

**Phone: (217) 333-1810**

**Fax: (217) 333-5538**

**email: ace-grad@illinois.edu**

### PhD Program Overview

The Doctor of Philosophy is a research-oriented degree that prepares successful candidates for positions in higher education, governmental agencies, nongovernmental organizations, and the research and management functions of the private sector. In consultation with a faculty advisor, students develop an area of specialization to fit their career aspirations. Typical areas of specialization include:

•agricultural finance	•environmental and natural resource economics	•family and consumer economics	•farm and agribusiness management
•international and policy economics	•price analysis and agricultural marketing	•regional economics and public policy	

Students pursue coursework in theory, quantitative methods, and their area of specialization; pass a written core exam, a second-year research paper requirement, an oral preliminary examination which includes the formal proposal for dissertation research; and complete and defend a dissertation. The core courses cover the theory and quantitative methods upon which advanced research, teaching, and service in ACE are based. The specialty courses build on the knowledge gained in the core courses and provide an understanding of the application of economic theory and the tools of economic analysis. Students are encouraged to complete substantial coursework in other departments, such as economics, finance, and business administration.

### Admission

Graduate College requirements apply, including a 3.0 (A = 4.0) GPA for the last two years of undergraduate coursework and any graduate work completed. International applicants whose native language is not English are required to follow the Graduate College's Minimum Requirements for Admission. Graduate Record Examination (GRE) general test scores are required for all applicants. Applicants to the Ph.D. program are required to provide a sample of their academic writing. Students having an inadequate background in theory or quantitative methods will be asked to take additional coursework to prepare for graduate study. Students may commence study in either semester, but initial enrollment in fall semester is preferable. An applicant with a master's degree in an appropriate discipline will be considered for the Ph.D. degree. Applicants with a baccalaureate degree can apply directly to the PhD program, but will need to demonstrate sufficient preparation to be admitted.

### Student Thesis and Dissertation Research

Our students' research uses economics to address important social and economic challenges. Thesis and dissertation topics include designing policies for environmental protection and resource management, evaluating international efforts to reduce poverty and hunger, and enhancing the performance of commodity and speculative markets.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program and is strongly recommended for those intending to pursue an academic career.

### Financial Aid

Graduate fellowships, assistantships, and tuition and fee waivers are awarded on a competitive basis.

Fellowships. The department offers fellowships from internal resources and by nominating students for college and campus fellowships. These fellowships, often combined with assistantship support, provide monetary stipends and, in most cases, exemptions from tuition and some student fees. Recipients must register for the equivalent of at least 12 hours of graduate credit in each semester and four hours in an eight-

week summer session. Fellowship holders are encouraged to involve themselves with research and teaching in the department.

**Assistantships.** Research and teaching assistantships provide an opportunity for graduate students to work with faculty. Most research assistantships are funded by grants and contracts involving the analysis of contemporary issues. Most assistantships carry waivers of tuition and some fees.

**Tuition and Fee Waivers.** Waivers may be awarded. In most cases they are awarded to students with fellowship support from certain external programs.

**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

## Admission Requirements

Admission requirements include completion of an undergraduate program equivalent to the Agricultural and Biological Engineering (ABE) curriculum with at least a 3.0 grade point average (A = 4.0) for the last two years of undergraduate course work. Applicants must submit Graduate Record Examination (GRE) scores.

All applicants whose native language is not English must submit a minimum TOEFL (<http://www.toefl.org/>) score of 88 (iBT), 230 (CBT) or 570 (PBT); or minimum International English Language Testing System (IELTS) (<http://www.ielts.org/>) academic exam scores of 6.5 overall. Applicants may be exempt from the TOEFL if certain criteria (<http://grad.illinois.edu/admissions/instructions/04c/>) are met. For those taking the TOEFL or IELTS, full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 7.0 (IELTS). Limited status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (<http://linguistics.illinois.edu/students/esl/guidelines/>) based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Financial Aid

Fellowships, supported by University, College of Agricultural, Consumer and Environmental Sciences, and College of Engineering funds, are available on a competitive basis. A limited number of assistantships, providing both teaching and research experience, are often available on a half-time basis.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the

Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Current research interests of the faculty include off-road equipment engineering (robotics and machinery automation, remote sensing and precision agriculture, machinery management systems, pesticide application technology, engines and biofuels); soil and water resources (hydrology, erosion and sediment transport, water management, wetlands, and water quality); bioenvironmental engineering (building environment and energy conservation, air quality, renewable energy, biomass to bioenergy conversion, structural analysis and facility design, building materials evaluation, environmental control and ergonomic design for plant, animal, and human housing systems and facilities); food and bioprocess engineering (engineering properties of foods, physical properties of biological products, grain drying, grain quality evaluation, dry-grind corn processing, wet and dry milling, modified bioprocesses for improved co-products, fuel and chemicals, fermentation, and transport phenomenon in biological materials); or electronic and electrical systems (biosensors and controls, energy systems, machine vision, near-infrared spectroscopy applications, bionanotechnology, microfabricated devices, bioconjugation techniques, transcriptional control, modeling life support systems, and multiscale biological processes). For more details, visit the department's research Web site. (<https://abe.illinois.edu/research/areas/>)

## Other Graduate Programs in the Department of Agricultural & Biological Engineering

degrees:

Agricultural & Biological Engineering, PhD (p. 536)  
**optional concentration:**

Computational Science & Engineering (p. 1064)  
 Technical Systems Management, MS (p. 1019)  
 Technical Systems Management, MS - Professional Science Master's (p. 1021)

The Department of Agricultural & Biological Engineering offers a graduate degree program which is at the forefront of the application of engineering principles to solve problems of agricultural production, utilization, environmental control, and biological systems and to improve the quality of life. Students may concentrate study in one of the faculty research interest areas listed below. Supporting course work includes: mathematics; computer science; statistics; engineering mechanics; chemical, civil, electrical, and mechanical engineering; animal science; crop sciences; food science; and other appropriate fields.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

A minimum of 12 500-level credit hours applied toward the degree.

The non-thesis option is only allowed with departmental approval at or before initiation of graduate study, and a final report is required.

Minimum GPA: 3.0

## Learning Outcomes: Agricultural & Biological Engineering, MS

Learning Outcomes for the degree of Master of Science in Agricultural & Biological Engineering

Student learning outcomes are based on educational outcomes suggested by the Accreditation Board for Engineering and Technology (ABET) and the objectives of the program:

1. An ability to apply knowledge of mathematics, science, and engineering;
2. An ability to design and conduct experiments, as well as to analyze and interpret data;
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. An ability to function in multidisciplinary teams;
5. An ability to identify, formulate, and solve engineering problems;
6. An understanding of professional and ethical responsibility;
7. An ability to communicate effectively;
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. A recognition of the need for and an ability to engage in life-long learning;
10. A knowledge of contemporary issues;
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice;
12. Conduct independent research with expertise in research design, methods, and analysis;
13. Function effectively in leadership roles in their professional careers and activities in professional societies.

## Admission Requirements

Admission to the PhD program is limited to individuals who have demonstrated exceptional ability through outstanding performance in obtaining an MS degree and/or through a high degree of technical and professional accomplishment. Candidates must also satisfy entrance requirements for the MS degree program.

All applicants whose native language is not English must submit a minimum TOEFL (<http://www.toefl.org/>) score of 88 (iBT), 230 (CBT) or 570 (PBT); or minimum International English Language Testing System (IELTS) (<http://www.ielts.org/>) academic exam scores of 6.5 overall. Applicants may be exempt from the TOEFL if certain criteria (<http://grad.illinois.edu/admissions/instructions/04c/>) are met. For those taking the TOEFL or IELTS, full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 7.0 (IELTS). Limited status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (<http://linguistics.illinois.edu/students/esl/guidelines/>) based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Financial Aid

Fellowships, supported by University, College of Agricultural, Consumer and Environmental Sciences, and The Grainger College of Engineering funds, are available on a competitive basis. A limited number of assistantships, providing both teaching and research experience, are often available on a half-time basis. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum

score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all PhD candidates in this program. For details of expectations, see the department's Graduate Handbook (<https://abe.illinois.edu/graduate/handbook/>).

## Department Research

Current research interests of the faculty include off-road equipment engineering (robotics and machinery automation, remote sensing and precision agriculture, machinery management systems, pesticide application technology, engines and biofuels); soil and water resources (hydrology, erosion and sediment transport, water management, wetlands, and water quality); bioenvironmental engineering (building environment and energy conservation, air quality, renewable energy, biomass to bioenergy conversion, structural analysis and facility design, building materials evaluation, environmental control and ergonomic design for plant, animal, and human housing systems and facilities); food and bioprocess engineering (engineering properties of foods, physical properties of biological products, grain drying, grain quality evaluation, dry-grind corn processing, wet and dry milling, modified bioprocesses for improved co-products, fuel and chemicals, fermentation, and transport phenomenon in biological materials); or electronic and electrical systems (biosensors and controls, energy systems, machine vision, near-infrared spectroscopy applications, bionanotechnology, microfabricated devices, bioconjugation techniques, transcriptional control, modeling life support systems, and multiscale biological processes). For more details, visit the department's research Web site. (<https://abe.illinois.edu/research/areas/>)

Computational Science & Engineering (p. 1064)

Technical Systems Management, MS (p. 1019)

Technical Systems Management, MS - Professional Science Master's (p. 1021)

The Department of Agricultural & Biological Engineering offers a graduate degree program which is at the forefront of the application of engineering principles to solve problems of agricultural production, utilization, environmental control, and biological systems and to improve the quality of life. Students may concentrate study in one of the faculty research interest areas listed below. Supporting course work includes: mathematics; computer science; statistics; engineering mechanics; chemical, civil, electrical, and mechanical engineering; animal science; crop sciences; food science; and other appropriate fields.

Opportunity also exists for specializing in energy and sustainability engineering via the

## Learning Outcomes: Agricultural & Biological Engineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Agricultural & Biological Engineering

Student learning outcomes are based on educational outcomes suggested by the Accreditation Board for Engineering and Technology (ABET) and the objectives of the program:

1. An ability to apply knowledge of mathematics, science, and engineering;
2. An ability to design and conduct experiments, as well as to analyze and interpret data;
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
4. An ability to function in multidisciplinary teams;
5. An ability to identify, formulate, and solve engineering problems;
6. An understanding of professional and ethical responsibility;
7. An ability to communicate effectively;
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
9. A recognition of the need for and an ability to engage in life-long learning;
10. A knowledge of contemporary issues;
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice;
12. Conduct independent research with expertise in research design, methods, and analysis;
13. Function effectively in leadership roles in their professional careers and activities in professional societies.
14. For Ph.D. graduates entering academia, function effectively as instructors with presentation skills, e.g., teaching skills (in addition to 1-13)

## Graduate Degree Programs in Agricultural Education

### Graduate Major:

#### Agricultural Education, MS (on campus & online) (p. 538)

The M.S. in Agricultural Education is a professional degree for training classroom-based educators and community and organizational developers to address issues as they pertain to teaching and learning in and about the agricultural, life, and environmental sciences.

Students are typically interested in either furthering their career in Extension, agricultural classrooms in secondary education, professional organizations in training and supervisory roles, or community development. We also work with students interested in gaining licensure for teaching agriculture in Illinois public schools for grades 9-12.

Agricultural Education can be pursued as an online degree. Please refer to <http://aged.illinois.edu/grad/online-MS> (<http://aged.illinois.edu/grad/online-MS/>) for more information.

### Admission

We are looking for highly motivated students with strong academic records. Students with backgrounds in agriculture, education, behavioral or social sciences are especially encouraged to apply. The minimum undergraduate grade-point average for admission is 3.0 (A = 4.0). Applicants for the online/off-campus program are not required to take the Graduate Record Examination (GRE). International applicants from non-English-speaking countries must have official TOEFL scores of at least 575 (written version) or 233 (computer-based version) to be eligible for admission. To receive full consideration for admission (and financial aid opportunities if you are applying for the full-time, on-campus program), please apply by February 15 for possible admission the following fall semester or September 15 for possible admission to the following spring semester.

Each applicant's undergraduate transcript will be evaluated for completion of general education courses required for certification by the Illinois State Board of Education. Students with deficiencies may be admitted with the stipulation that these be met before completion of the master's program.

### Financial Aid

We are committed to funding as many of full-time on-campus students who are making timely progress as possible. The duration and amount of our commitment varies. Funding may include fellowships, research assistantships, and/or teaching assistantships. These opportunities typically include stipends and tuition waivers. In some cases, fees are also waived. All applicants are automatically considered for all department funding opportunities; there is no separate application process. Federal and state financial aid is completely separate from the support provided by our department. For information regarding federal and state financial aid, please refer to [www.osfa.illinois.edu/](http://www.osfa.illinois.edu/) (<http://www.osfa.illinois.edu/>).

## Learning Outcomes: Agricultural Education, MS

Learning Outcomes for the degree of Master of Science in Agricultural Education (on campus & online)

1. Apply theories of leadership and learning to plan curriculum and deliver effective educational experiences in diverse instructional settings.
2. Apply prior learning from past post-secondary experiences to deliver effective educational experiences in diverse instructional settings.
3. Assess the human capital needs of a group, organization, or community and formulate a solution to an identified need.
4. Create a plan of research inquiry or curriculum development that articulates the human capital challenges within a particular agricultural sector(e.g. education, industry, non-profit, governance)

### Graduate Degree Programs in Agricultural Production

Agricultural Production, MS -- Professional Science Master's (p. 540)

The College of Agricultural, Consumer and Environmental Sciences (ACES) offers graduate work leading to the Master of Science degree with a Major in Agricultural Production and Concentration in Professional Science Master's (PSM). Fields of specialization within this interdisciplinary program include Food Animal Production, Crop Production, and Sustainable Production Systems. In addition to the rigorous scientific training in the area of agricultural production, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities.

### Admission

Candidates for admission to the M.S. and Ph.D. programs must have a bachelor's degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. A grade point average of 3.0 or higher (A = 4.0) for the last 60 hours of undergraduate work and for any graduate study is required for admission. Graduate Record Examination (GRE) scores are required of all applicants and the minimum acceptable Test of English as a Foreign Language (TOEFL) score is 590 on the paper-based test, 243 on the computer-based test, or 79 on the internet-based test. Applications are only accepted for the fall semester. Transfer credit may not be applied.

### Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted.

#### Graduate Majors:

Animal Sciences, MANSC (p. 541)

Animal Sciences, MS (p. 542)

Animal Sciences, PhD (p. 543)

#### Graduate Concentrations:

Bioinformatics: Animal Sciences, MS (p. 601)

### Research Areas

The Department of Animal Sciences offers graduate work leading to the Master of Animal Sciences, Master of Science, and Doctor of Philosophy degrees. Fields of specialization include:

- animal breeding & genetics
- animal behavior
- biochemistry
- nutrition
- systems of animal management & production
- physiology of lactation
- environmental physiology
- meat science & muscle biology
- physiology of reproduction
- immunobiology
- microbiology

Beef and dairy cattle, horses, poultry, sheep, swine, and a variety of companion and laboratory animals are available for study.

The genomic and proteomic projects are generating large amounts of complex biological data that require effective storage, retrieval, analysis and interpretation. The bioinformatics degree program provides students with the skills necessary to augment the understanding and use of agricultural, biological and medical information and resources

through the application of molecular, chemical, physical, computational, statistical, mathematical and informatic techniques. Students interested in this program may come with undergraduate training in one of the following areas:

1. biological and agricultural sciences,
2. statistical, mathematical and computer sciences,
3. informatics and engineering sciences.

Graduates from the Bioinformatics program will be able to integrate basic and applied concepts in the three areas and applied them to biotechnology and medical research.

### Admission

Candidates for admission to the M.S. and Ph.D. programs must have a bachelor's degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. A grade point average of 3.0 or higher (A = 4.0) for the last two years of undergraduate work and for any graduate study is required for admission. Students must take the Graduate Record Examination (GRE) and are recommended to take the advanced test in biology. English proficiency requirements for admission follow Graduate College requirement. Emphasis is placed on a student's interest and ability in research as demonstrated by previous work and letters of recommendation. Admission is possible for spring and summer semesters.

For the M.A.N.S.C., application materials include baccalaureate degree transcripts, resume, personal statement, Graduate Record Examination (GRE) general test scores, and three letters of recommendation. One letter of recommendation must be provided by the Animal Sciences faculty member that will advise the student indicating commitment to mentor. A departmental committee will evaluate the applications and recommend admissions.

### Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is encouraged as part of the academic work of students in the M.S. and Ph.D. programs.

for the Master of Science in Animal Sciences Major in Animal Sciences

**Total Hours** 32

### Other Requirements

#### Requirement

Other Requirements and conditions may overlap

Minimum GPA: 3.0

ANSC 592 or ANSC 593 Research Studies:

- In consultation with their faculty advisor, students will select courses that support the individual research studies project and strengthen career opportunities. The individual research studies project or internship experience and a written report will fulfill the ANSC 592 (Advanced Topics in Animal Science) or ANSC 593 (Research Studies in Animal Sciences) capstone project requirement. The project or internship and the written product provide evidence that the student:
  - i) understands and can apply the scientific method;
  - ii) has the capability to analyze and interpret scientific information; and
  - iii) can effectively communicate scientific information in a field of animal sciences. The written product will follow the format and style of a peer-reviewed manuscript.

## Learning Outcomes: Animal Sciences, MANSC

Learning Outcomes for the Master of Science in Animal Sciences Major in Animal Sciences

The recipient of a Master of Animal Sciences in Animal Sciences will demonstrate:

1. Graduate-level understanding of essential concepts and approaches in the area of animal science specialization. The essential concepts will enable the graduate to strengthen the application to a D.V.M or Ph.D. degree, advance throughout the employment ranks, or secure a mid-management position in industry or federal agencies.
2. Capacity to execute a supervised independent studies project including: a) understanding of the scientific method, research objectives, materials and methods, basic data analysis, and appreciation of the findings; and b) effectively assist on the implementation of essential research activities.
3. Ability to effectively communicate essential disciplinary knowledge and independent studies findings in written format.
4. Aptitude to advocate for interdisciplinary research and education efforts to improve food security, food safety, animal and human health and wellbeing or environmental stewardship.

## Graduate Degree Programs in Animal Sciences

### Graduate Majors:

Animal Sciences, MANSC (p. 541)

Animal Sciences, MS (p. 542)

Animal Sciences, PhD (p. 543)

### Graduate Concentrations:

Bioinformatics: Animal Sciences, MS (p. 601)

## Research Areas

The Department of Animal Sciences offers graduate work leading to the Master of Animal Sciences, Master of Science, and Doctor of Philosophy degrees. Fields of specialization include:

- animal breeding and genetics
- animal behavior
- biochemistry
- environmental physiology
- immunobiology
- meat science and muscle biology
- microbiology
- nutrition
- systems of animal management and production
- physiology of lactation
- physiology of reproduction

Beef and dairy cattle, horses, poultry, sheep, swine, and a variety of companion and laboratory animals are available for study.

The genomic and proteomic projects are generating large amounts of complex biological data that require effective storage, retrieval, analysis and interpretation. The bioinformatics degree program provides students with the skills necessary to augment the understanding and use of agricultural, biological and medical information and resources through the application of molecular, chemical, physical, computational, statistical, mathematical and informatic techniques. Students interested in this program may come with undergraduate training in one of the following areas:

1. biological and agricultural sciences,
2. statistical, mathematical and computer sciences,
3. informatics and engineering sciences.

Graduates from the Bioinformatics program will be able to integrate basic and applied concepts in the three areas and applied them to biotechnology and medical research.

## Admission

Candidates for admission to the M.S. and Ph.D. programs must have a bachelor's degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. A grade point average of 3.0 or higher (A = 4.0) for the last two years of undergraduate work and for any graduate study is required for admission. Students must take the Graduate Record Examination (GRE) and are recommended to take the advanced test in biology. English proficiency requirements for admission follow Graduate College requirement. Emphasis is placed on a student's interest and ability in research as demonstrated by previous work and letters of recommendation. Admission is possible for spring and summer semesters.

For the M.A.N.S.C., application materials include baccalaureate degree transcripts, resume, personal statement, Graduate Record Examination (GRE) general test scores, and three letters of recommendation. One letter of recommendation must be provided by the Animal Sciences faculty member that will advise the student indicating commitment to mentor. A departmental committee will evaluate the applications and recommend admissions.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is encouraged as part of the academic work of students in the M.S. and Ph.D. programs.

*for the Doctor of Philosophy in Animal Sciences*

## Animal Sciences, PhD

### Entering with an approved Master's Degree

Students must pass preliminary and final examinations administered by committees appointed by the dean of the Graduate College.

Code	Title	Hours
	Advanced lecture and laboratory courses (400- and 500-level courses; excludes ANSC 590 and ANSC 599)	20-28
	Graduate seminar (ANSC 590) enrollment is required every semester (max 4 hours can be applied to the degree)	4
ANSC 599	Thesis Research (min/max applied toward degree)	32-40
Total Hours		64

### Other Requirements <sup>1</sup>

Requirement	Description
Other requirements and conditions may overlap	
Masters Degree Required for Admission to PhD?	Masters level requirements must be met
Qualifying Exam Required:	No
Preliminary Exam Required:	Yes
Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes
Minimum GPA:	3.0

### Entering with an approved baccalaureate degree

Students must pass a qualifier examination and preliminary and final examinations administered by committees appointed by the dean of the Graduate College.

Students enrolled in this baccalaureate to Doctor of Philosophy program will not be granted automatically a Masters in Animal Sciences degree. Students enrolled in the baccalaureate to Doctor of Philosophy that wish to receive a Masters degree will be transferred to the Masters in Animal Sciences program and will be expected to fulfill the requirements to secure a Masters degree. Students that secure a Masters in Animal Sciences can be transferred to the Doctor of Philosophy program.

Code	Title	Hours
	Advanced lecture and laboratory courses (400- and 500-level courses; excludes ANSC 590 and ANSC 599)	42-50
	Graduate seminar (ANSC 590) enrollment is required every semester (max 4 hours can be applied to the degree)	6
ANSC 599	Thesis Research (min/max applied toward degree)	40-48
Total Hours		96

### Other Requirements <sup>1</sup>

Requirement	Description
Other requirements and conditions may overlap	
Masters Degree Required for Admission to PhD?	No
Qualifying Exam Required:	Yes
Preliminary Exam Required:	Yes

Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Handbook (<http://ansci.illinois.edu/grads/degree-requirements/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Animal Sciences, PhD

Learning Outcomes for the Doctor of Philosophy in Animal Sciences

The recipient of a Doctor of Philosophy in Animal Sciences will demonstrate:

1. Graduate-level understanding of advanced concepts and approaches in the area of animal science specialization. The advance concepts will enable the graduate to secure a leadership position in industry or federal agencies or a professor position in academia and to advance throughout the professional ranks.
2. Capacity to independently execute dissertation research including: a) ability to formulate hypothesis and research objectives, to use appropriate materials, methods and advanced data analysis approaches, and to evaluate the results; and b) leadership on the implementation of the scientific method and research activities, interpretation of findings, and identification of implications.
3. Ability to effectively communicate advanced disciplinary knowledge and dissertation research findings in oral and written formats.
4. Aptitude to lead interdisciplinary research and education efforts to improve food security, food safety, animal and human health and well being or environmental stewardship.

## Anthropology, MA

for the Master of Arts in Anthropology

**head of the department:** Brenda Farnell  
**director of graduate studies:** Ellen Moodie  
**museum studies program coordinator:** Susan Frankenberg  
**overview of admissions & requirements:** <http://www.anthro.illinois.edu>  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**college website:** <https://las.illinois.edu/>  
**department website:** <http://www.anthro.illinois.edu>  
**department faculty:**  
**department office:** 109 Davenport Hall, 607 South Mathews Avenue, Urbana, IL 61801  
**phone:** (217) 333-3616

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The master's degree can be a first stage toward the doctorate or may be used by students wishing to apply knowledge of anthropology to a related field. Candidates must present a thesis or paper in lieu of a thesis

acceptable to their advisers and another member of the graduate faculty within the department.

## Graduate Degree Programs in Anthropology

Anthropology, MA (p. 545)  
 Anthropology, PhD (p. 546)  
 optional concentration: Second Language Acquisition and Teacher Education (p. 1080)

Museum Studies Graduate Minor (p. 1105)

## Admission

Students without the equivalent of the department's undergraduate concentration may be admitted to either degree program, but they may be required to make up any deficiencies in their anthropological backgrounds. In addition to the Graduate College admission requirements, students are required to submit Graduate Record Examination (GRE) scores. Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) (<http://www.grad.illinois.edu/admissions/instructions/04c/>), with minimum scores set by the Graduate College. Students are admitted for the fall term only.

Students wishing to pursue the minor in Museum Studies must be in good standing in the graduate program of an academic department, and must apply for acceptance into the minor. Admission to the minor is contingent upon approval of the student's home department and the Museum Studies Steering Committee. Students may apply to the minor during the first week of the fall and spring semesters in any academic year, and should contact the Museum Studies Program Coordinator for application instructions or more information.

## Degree Requirements

Each subfield (Archaeology, Biological Anthropology, and Sociocultural/Linguistic Anthropology) requires a specific set of courses for graduation. Achieving doctoral candidacy in all three subfields entails passing (a) language (and/or skill) exam(s), (b) passing a set of preliminary examinations, and (c) successfully submitting a predissertation paper, and/or a doctoral proposal, all to be defended in an oral examination. For specific details and requirements for admission to and navigation of the Ph.D. program, please refer to the Anthropology Department Graduate Programs Handbook (<http://www.anthro.illinois.edu/programs/graduate/resources/AnthGradHandbook.pdf>) and the University of Illinois Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the Anthropology Department recognizes the importance of teaching experience as part of a graduate education. Most Anthropology graduate students will have the opportunity to work as teaching assistants, to learn to design their own classes, and possibly teach their own classes.

## Faculty Research Interests and Facilities

Courses and individualized study provide broad coverage of sociocultural, linguistic, archaeological, and physical anthropology. The department provides special emphases in the analyses of state ideologies and cultural transformations; complex societies in transition; kinship and gender relations; politics, economics, and business studies; social movements and youth; border studies, criminalities, violence, and security; religion, race, and ethnicity; democracy, governance, and policing; social classification; performance and embodiment; food and

environment; language and culture; discourse and narrative analysis; transnationalism and diasporas; human evolution; agricultural origins and development; landscape histories and heritage; hunter-gatherer adaptations; climate change and sustainability; diet and nutrition; paleoecology and paleobiology; evolutionary genetics; population genetics; peopling of the Americas; ancient DNA; biomechanics of locomotion; exercise and neurobiology; functional morphology; comparative and analytical osteology; forensics; demography; immunology; evolutionary medicine; microbe-host interaction; reproductive ecology; female reproductive physiology; conservation; and nonhuman primate evolution, morphology, behavior, and ecology. The department's research facilities include laboratories for archaeology, GIS and spatial computing, faunal analysis, casting, stable-isotope analysis, ethnography, ancient DNA, skeletal biology, locomotion and motion analysis, and endocrinology.

Departmental funds and a grant from the National Science Foundation, as well as from area studies centers, are available for graduate students' summer field research. An archaeology field school is held at various locations in Illinois and outside of the US (location varies from year to year). Graduate student programs are enriched by close departmental relationships with the various interdisciplinary units, including area studies centers on campus (African, East Asian and Pacific, European Union, Latin America and Caribbean, Russian and East European; South Asian and Middle Eastern Studies), the ethnic and gender studies units (the American Indian Studies Program and the departments of African-American Studies, Asian American Studies, Gender and Women's Studies, and Latina/Latino Studies), along with the Women and Gender in Global Perspectives Program, Spurlock Museum, the Museum of Natural History, Krannert Art Museum, the Institute for Genomic Biology, and the Program in Ancient Technologies and Archaeological Materials.

Agreements between the University and various governments and institutes facilitate research in many nations. Training is available in various languages (some with funding available), including Arabic, Bengali, Burmese, Chinese, Hausa, Hebrew, Hindi, Indonesian, Japanese, Korean, Portuguese, Quechua, Lingala, Russian, Shona, Swahili, Thai, and Urdu. Students have ready access to the extensive computer facilities of the University and to the department's facilities.

## Financial Aid

University fellowships, Graduate College fellowships for under-represented minorities, and teaching and research assistantships provide variable levels of funding for most graduate students who do not hold external awards. Tuition and service fee waivers accompany most fellowships and assistantships. Foreign Language and Area Studies (FLAS) fellowships are available through various area centers. University of Illinois public archaeology programs, including the Illinois State Archaeological Survey and the Public Service Archaeology and Architecture Program, have provided support and research employment for graduate students in the past, as has the U.S. Army Construction Engineering Research Laboratory in Champaign.

## Learning Outcomes: Anthropology, MA

### Learning Outcomes for the Master of Arts in Anthropology

- Skills for independent research.** Graduate students will acquire professional-level research and reasoning skills to identify important research problems and to subsequently design, execute, and clearly report the results of independent research programs.
- Subfield-specific expertise.** Our program encompasses the four fields of anthropology, while our core curriculum grounds the separate graduate trajectories. Graduate students should develop an in-depth understanding of the differences and similarities of people through a combination of technical skills, language abilities, and theoretical approaches relevant to their chosen expertise.
- Contributions to discipline.** Graduate students will develop their intellectual skills to contribute to the discipline through service, research, teaching, and publishing.
- Ethical and professional standards.** Graduate students will abide by accepted ethical standards of professional anthropological conduct.

## Anthropology, PhD

### for the Doctor of Philosophy in Anthropology

**head of the department: Brenda Farnell**

### for the Doctor of Philosophy in Anthropology

The preliminary examination consists of a pre-dissertation research paper, a proposal for doctoral research, and a written examination designed by the student's doctoral committee followed by a two-hour oral examination. The final examination is a defense of the doctoral thesis. Fieldwork is strongly recommended, although not required.

Code	Title	Hours
	Master's degree or equivalent number of hours	32
	Electives	32
	Language Requirement: High proficiency in one, or reading ability in two, foreign languages is required. Statistics, computer modeling, or similar expertise, however, may be used in lieu of one foreign language.	
ANTH 599	Thesis Research (min/max applied toward degree)	0-32
	Total Hours	96

The MS in Applied Mathematics program is intended for students wishing to pursue a career in applied mathematics. It is also suitable as preparation for a PhD program in Applied Mathematics. It is rare for students to enter the PhD program at the University of Illinois after finishing this degree. Students may choose one of three tracks: Optimization and Algorithms, Applications to the Sciences, or Computational Science and Engineering. This degree program requires 32 credit hours and can normally be completed in 18 months. A master's thesis is optional. Applications are accepted for Fall semester. Financial aid is generally not available.

### Graduate Degree Programs in Mathematics

Actuarial Science, MS (p. 521)

Applied Mathematics, MS (p. 548)

Mathematics, MS (p. 842)

Mathematics, PhD (p. 843)

**optional concentrations:**

Actuarial Science & Risk Analytics (p. 844)

Computational Science and Engineering (p. 1064)

Teaching of Mathematics, MS (p. 1018)

*for the Master of Science in Applied Mathematics*

Students pursuing the M.S. in Applied Mathematics have the opportunity to customize their studies the following ways:

- Through the Actuarial Science Concentration (<http://catalog.illinois.edu/graduate/graduate-majors/math/ms-applied=math-conc-actuarial-science/>);
- By completing the coursework for the option in Optimization and Algorithms (<http://go.math.illinois.edu/GraduateGuide/>);
- By completing the coursework for the option in Applications to the Sciences (<http://go.math.illinois.edu/GraduateGuide/>);
- By completing the coursework for the option in Computational Science and Engineering (<http://go.math.illinois.edu/GraduateGuide/>).

Additional details are available in the Department of Mathematics Graduate Guide (<https://files.webservices.illinois.edu/7917/GraduateGuide18-19.pdf>).

## Degree Requirements

Code	Title	Hours
	MATH 405, MATH 406, MATH 415, MATH 444, and MATH 499 cannot be counted toward this graduate degree.	
Minimum hours required within the unit:		20
Minimum 500-level hours required overall:		12 (8 in Mathematics)
<b>Total Hours (graduate study)</b>		<b>32</b>

## Other Requirements <sup>1</sup>

- <sup>1</sup> For additional details and requirements refer to the department's Guide to Graduate Studies (<https://files.webservices.illinois.edu/7917/GraduateGuide18-19.pdf>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Applied Mathematics, MS

Learning outcomes for the Master of Science in Applied Mathematics

### Optimization and Algorithms Track

1. Students will gain fundamental understanding in at least four of the seven core subjects of graph theory, combinatorics, numerical analysis, algorithms, applied statistics, linear programming, nonlinear programming.
2. Students will gain breadth of knowledge in at least three of the following areas: optimization, control theory and coding theory, combinatorics/graph theory, algorithms/theory of computation, statistics.
3. Students will gain experience in original research in applied mathematics, if desired. This goal applies to students on the thesis track of this program.

### Applications to the Sciences Track

1. Students will gain depth of understanding of the theory of differential equations and dynamical systems.
2. Students will gain the ability to engage with theoretical mathematical thinking in areas relevant to the application of differential equations and dynamical systems to the sciences, at the graduate level.

3. Students will gain exposure to the application of mathematics in one or more of the sciences.
4. Students will gain experience in original research in applied mathematics, if desired. This goal applies to students on the thesis track of this program.

### Computational Science and Engineering (CSE) Track

1. Students will gain a fundamental understanding of the theory of differential equations/dynamical systems.
2. Students will gain a fundamental understanding, at the graduate level, of at least one of the core subjects of abstract algebra, real analysis, complex analysis.
3. Students will gain an understanding of the use of computational techniques in the study of applied mathematics.
4. Students will gain experience in original research in applied mathematics, if desired. This goal applies to students on the thesis track of this program.

Computational Science and Engineering (p. 1064)

Teaching of Mathematics, MS (p. 1018)

*for the Doctor of Philosophy in Mathematics, Actuarial Science and Risk Analytics Concentration*

Students working toward a Ph.D. degree usually require four to six years to complete the requirements. Each student must pass the comprehensive examinations (testing the student's knowledge of basic graduate-level mathematics in algebra, analysis, and other areas) and the preliminary examination (testing the student's ability to begin or continue research in a chosen field). Students must also write and defend a research thesis in their field of mathematics.

For additional details and requirements refer to the department's Guide to Graduate Studies (<https://files.webservices.illinois.edu/7917/GraduateGuide18-19.pdf>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Requirements

Code	Title	Hours
<b>Students must demonstrate competence in five core courses including the following:</b> <sup>1</sup>		
MATH 540	Real Analysis	4
MATH 561	Theory of Probability I	4
MATH 563	Risk Modeling and Analysis	4
STAT 510	Mathematical Statistics I	4
Select one of:		
MATH 511	Intro to Algebraic Geometry	
MATH 518	Differentiable Manifolds I	
MATH 525	Algebraic Topology I	
MATH 530	Algebraic Number Theory	
MATH 531	Analytic Theory of Numbers I	
MATH 542	Complex Variables I	
MATH 550	Dynamical Systems I	
MATH 553	Partial Differential Equations	
MATH 570	Mathematical Logic	
MATH 580	Combinatorial Mathematics	
Students must also demonstrate proficiency in undergraduate complex analysis, which can be done by a B+ in MATH 448, a B+ in MATH 542, or by passing the exam associated to MATH 542.		
<b>Students must demonstrate competence in the following:</b>		
MATH 564	Applied Stochastic Processes	4
STAT 425	Applied Regression and Design	3 or 4
FIN 591	Theory of Finance	4
<b>Students must demonstrate competence in two of the following:</b>		
ASRM 575	Life Insurance and Pension Mathematics	4
ASRM 510	Financial Mathematics	4
ASRM 561	Loss Data Analytics & Credibility	4
<b>Master's equivalency</b>		<b>32</b>

Comprehensive Exam Required	Yes
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA	3.25

<sup>1</sup> To demonstrate competence, a student must receive a B+ or higher in the course, or pass a written exam on the topic.

## Learning Outcomes: Actuarial Science, MS

Learning Outcomes for the Master of Science in Applied Mathematics, Actuarial Science Concentration

1. Acquire a broad foundation of actuarial knowledge.
2. Develop actuarial modeling skills.
3. Be able to utilize actuarial knowledge to address various technical problems arising from a variety of areas of actuarial practice.

## Architectural Studies, MS

*for the Master of Science in Architectural Studies*

**Director of the School: Francisco Javier Rodríguez-Suárez**

**Director of graduate studies: Kevin Erickson**

**Department faculty:** [department faculty link](#)

**College website:** <http://faa.illinois.edu>

**School office:** 117 Temple Hoyne Buell Hall, 611 Taft Drive, Champaign, IL 61820

**phone:** (217) 333-7720

**email:** [arch-grad@illinois.edu](mailto:arch-grad@illinois.edu)

## Master of Science in Architectural Studies

The Master of Science in Architectural Studies program is a one-year course of study with a research focused curriculum developed by the student, in close consultation with the faculty advisor. The program is designed to allow students to develop further expertise in research of the built environment.

Students should have a clear and well-articulated area of research focus upon entry to the program. Prospective applicants are encouraged to contact potential faculty advisors prior to application.

While most students admitted to the program will hold a professional degree prior to admission, a professional degree is not required for admission. Applicants holding degrees from related fields are encouraged to apply. Students considering advanced work at the PhD level are encouraged to apply.

Candidates admitted with full status may complete the program in one year of full-time academic study.

## Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

Applicants are selected for admission on the basis of undergraduate academic performance and profession-related experience. Application material is evaluated by faculty members. The faculty's recommendations are based upon an appraisal of the admission grade point average determined from official transcripts, a portfolio or brochure of applicant's past work in architecture, a statement of objectives, three letters of recommendation, and relevant professional work experience.

Application forms for graduate admission and financial aid may be obtained from the Web site above. Application may be made on-line. Completed applications for the Masters or Doctoral programs must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are required for Master of Science applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

## Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

### *for the Master of Science in Architectural Studies*

## Master of Science in Architectural Studies

Admitted students must complete 32 hours of coursework for the degree. Candidates admitted with full status may complete the program in one year of full-time academic study.

*For additional details and requirements refer to the department's p (<http://www.arch.illinois.edu/degrees/master-architecture/>)rogram page (<http://www.arch.illinois.edu/degrees/ms-arch-studies/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

## This degree program can be completed either with or without a thesis, the requirements are listed below:

Code	Title	Hours
<b>Thesis Option:</b>		
	Architectural Electives from dept. list	0-16
	Electives	16
ARCH 599	Thesis Research (min/max applied toward degree)	0-16
<b>Thesis Option Total Hours:</b>		<b>32</b>

<b>Non-Thesis Option:</b>		
	Architectural Electives from dept. list	16
	Electives	16
<b>Non-Thesis Total Hours:</b>		<b>32</b>

## Other Requirements

Requirement	Description
	Other requirements may overlap
	Candidates must spend at least two semesters and earn at least half of the required graduate hours in residence.
Minimum 500-level Hours Required	12
Overall:	
Minimum GPA:	2.75

## Learning Outcomes: Architectural Studies, MS

Learning Outcomes for the Master of Science in Architectural Studies

The accredited degree program must demonstrate that each graduate possesses the knowledge and skills defined by the criteria set out below. The knowledge and skills are the minimum for meeting the demands of an internship leading to registration for practice.

The school must provide evidence that its graduates have satisfied each criterion through required coursework. If credits are granted for courses taken at other institutions or online, evidence must be provided that the courses are comparable to those offered in the accredited degree program.

The criteria encompass two levels of accomplishment:

- **Understanding**—The capacity to classify, compare, summarize, explain and/or interpret information.
- **Ability**—Proficiency in using specific information to accomplish a task, correctly selecting the appropriate information, and accurately applying it to the solution of a specific problem, while also distinguishing the effects of its implementation.

The NAAB establishes performance criteria to help accredited degree programs prepare students for the profession while encouraging educational practices suited to the individual degree program. In addition to assessing whether student performance meets the professional criteria, the visiting team will assess performance in relation to the school's stated curricular goals and content. While the NAAB stipulates the student performance criteria that must be met, it specifies neither the educational format nor the form of student work that may serve

as evidence of having met these criteria. Programs are encouraged to develop unique learning and teaching strategies, methods, and materials to satisfy these criteria. The NAAB encourages innovative methods for satisfying the criteria, provided the school has a formal evaluation process for assessing student achievement of these criteria and documenting the results.

For the purpose of accreditation, graduating students must demonstrate understanding or ability as defined below in the Student Performance Criteria (SPC):

**Student Performance Criteria:** The SPC are organized into realms to more easily understand the relationships between individual criteria.

**Realm A: Critical Thinking and Representation:**

Architects must have the ability to build abstract relationships and understand the impact of ideas based on research and analysis of multiple theoretical, social, political, economic, cultural and environmental contexts. This ability includes facility with the wider range of media used to think about architecture including writing, investigative skills, speaking, drawing and model making. Students' learning aspirations include:

- Being broadly educated.
- Valuing lifelong inquisitiveness.
- Communicating graphically in a range of media.
- Recognizing the assessment of evidence.
- Comprehending people, place, and context.
- Recognizing the disparate needs of client, community, and society.

A.1. Communication Skills: Ability to read, write, speak and listen effectively.

A.2. Design Thinking Skills: Ability to raise clear and precise questions, use abstract ideas to interpret information, consider diverse points of view, reach well-reasoned conclusions, and test alternative outcomes against relevant criteria and standards.

A.3. Visual Communication Skills: Ability to use appropriate representational media, such as traditional graphic and digital technology skills, to convey essential formal elements at each stage of the programming and design process.

A.4. Technical Documentation: Ability to make technically clear drawings, write outline specifications, and prepare models illustrating and identifying the assembly of materials, systems, and components appropriate for a building design.

A.5. Investigative Skills: Ability to gather, assess, record, apply, and comparatively evaluate relevant information within architectural coursework and design processes.

A.6. Fundamental Design Skills: Ability to effectively use basic architectural and environmental principles in design.

A.7. Use of Precedents: Ability to examine and comprehend the fundamental principles present in relevant precedents and to make choices regarding the incorporation of such principles into architecture and urban design projects.

A.8. Ordering Systems Skills: Understanding of the fundamentals of both natural and formal ordering systems and the capacity of each to inform two- and three-dimensional design.

A.9. Historical Traditions and Global Culture: Understanding of parallel and divergent canons and traditions of architecture, landscape and urban design including examples of indigenous, vernacular, local, regional, national settings from the Eastern, Western, Northern, and Southern hemispheres in terms of their climatic, ecological, technological, socioeconomic, public health, and cultural factors

A.10. Cultural Diversity: Understanding of the diverse needs, values, behavioral norms, physical abilities, and social and spatial patterns that characterize different cultures and individuals and the implication of this diversity on the societal roles and responsibilities of architects.

A.11. Applied Research: Understanding the role of applied research in determining function, form, and systems and their impact on human conditions and behavior.

**Realm B: Integrated Building Practices, Technical Skills and Knowledge:**

Architects are called upon to comprehend the technical aspects of design, systems and materials, and be able to apply that comprehension to their services. Additionally, they must appreciate their role in the implementation of design decisions and the impact of such decisions on the environment. Students learning aspirations include:

- Creating building designs with well-integrated systems.
- Comprehending constructability.
- Incorporating life safety systems.
- Integrating accessibility.
- Applying principles of sustainable design.

B.1. Pre-Design: Ability to prepare a comprehensive program for an architectural project, such as preparing an assessment of client and user needs, an inventory of space and equipment requirements, an analysis of site conditions (including existing buildings), a review of the relevant laws and standards and assessment of their implications for the project, and a definition of site selection and design assessment criteria.

B.2. Accessibility: Ability to design sites, facilities, and systems to provide independent and integrated use by individuals with physical (including mobility), sensory, and cognitive disabilities.

B.3. Sustainability: Ability to design projects that optimize, conserve, or reuse natural and built resources, provide healthful environments for occupants/users, and reduce the environmental impacts of building construction and operations on future generations through means such as carbon-neutral design, bioclimatic design, and energy efficiency.

B.4. Site Design: Ability to respond to site characteristics such as soil, topography, vegetation, and watershed in the development of a project design.

B.5. Life Safety: Ability to apply the basic principles of life-safety systems with an emphasis on egress.

B.6. Comprehensive Design: Ability to produce a comprehensive architectural project that demonstrates each student's capacity to make design decisions across scales while integrating the following SPC:

A.2. Design Thinking Skills

A.4. Technical Documentation

A.5. Investigative Skills

A.8. Ordering Systems

A.9. Historical Traditions and Global Culture

B.2. Accessibility

B.3. Sustainability

B.4. Site Design

B.5. Life Safety

B.8. Environmental Systems

B.9. Structural Systems

B.7. Financial Considerations: Understanding of the fundamentals of building costs, such as acquisition costs, project financing and funding, financial feasibility, operational costs, and construction estimating with an emphasis on life-cycle cost accounting.

B.8. Environmental Systems: Understanding the principles of environmental systems' design such as embodied energy, active and passive heating, and cooling, indoor air quality, solar orientation, daylighting and artificial illumination, and acoustics; including the use of appropriate performance assessment tools.

B.9. Structural Systems: Understanding of the basic principles of structural behavior in withstanding gravity and lateral forces and the evolution, range, and appropriate application of contemporary structural systems.

B.10. Building Envelope Systems: Understanding of the basic principles involved in the appropriate application of building envelope systems and associated assemblies relative to fundamental performance, aesthetics, moisture transfer, durability, and energy and material resources.

B.11. Building Service Systems: Understanding of the basic principles and appropriate application and performance of building service systems such as plumbing, electrical, vertical transportation, security, and fire protection systems.

B.12. Building Materials and Assemblies: Understanding of the basic principles utilized in the appropriate selection of construction materials, products, components, and assemblies, based on their inherent characteristics and performance, including their environmental impact and reuse.

#### Realm C: Leadership and Practice:

Architects need to manage, advocate, and act legally, ethically and critically for the good of the client, society and the public. This includes collaboration, business, and leadership skills. Student learning aspirations include:

- Knowing societal and professional responsibilities.
- Comprehending the business of building.
- Collaborating and negotiating with clients and consultants in the design process.

- Discerning the diverse roles of architects and those in related disciplines.
- Integrating community service into the practice of architecture.

C.1. Collaboration: Ability to work in collaboration with others and in multi-disciplinary teams to successfully complete design projects.

C.2. Human Behavior: Understanding of the relationship between human behavior, the natural environment and the design of the built environment.

C.3. Client Role in Architecture: Understanding of the responsibility of the architect to elicit, understand, and reconcile the needs of the client, owner, user groups, and the public and community domains.

C.4. Project Management: Understanding of the methods for competing for commissions, selecting consultants and assembling teams, and recommending project delivery methods.

C.5. Practice Management: Understanding of the basic principles of architectural practice management such as financial management and 24 business planning, time management, risk management, mediation and arbitration, and recognizing trends that affect practice.

C.6. Leadership: Understanding of the techniques and skills architects use to work collaboratively in the building design and construction process and on environmental, social, and aesthetic issues in their communities.

C.7. Legal Responsibilities: Understanding of the architect's responsibility to the public and the client as determined by registration law, building codes and regulations, professional service contracts, zoning and subdivision ordinances, environmental regulation, and historic preservation and accessibility laws.

C.8. Ethics and Professional Judgment: Understanding of the ethical issues involved in the formation of professional judgment regarding social, political and cultural issues in architectural design and practice.

C.9. Community and Social Responsibility: Understanding of the architect's responsibility to work in the public interest, to respect historic resources, and to improve the quality of life for local and global neighbors.

## Architectural Studies: Structures, MS

---

The School of Architecture offers a Structures Concentration under its MS in AS degree program. Completion of this in-depth plan of study will result in recording of Structures as a Concentration on the student's transcript under the MS in AS degree. Students interested in participating in the Structures Concentration must be admitted to the School of Architecture's MS in AS degree program; register their intent to enter the Structures Concentration with the School's Graduate Office prior to completing their first semester in their degree program and complete 27 graduate credit hours of architectural structures courses from the required courses and 5 hours of electives (total 32 hours). Prerequisite subjects for the Structures Concentration include the following: calculus I and II; statics and dynamics; mechanics of materials; one course in structural steel design and one course in reinforced concrete design. Students without these prerequisites may enter the Structures Concentration upon completion of their prerequisite courses.

---

## Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

Applicants are selected for admission on the basis of undergraduate academic performance and profession-related experience. Application material is evaluated by faculty members. The faculty's recommendations are based upon an appraisal of the admission grade point average determined from official transcripts, a portfolio or brochure of applicant's past work in architecture, a statement of objectives, three letters of recommendation, and relevant professional work experience.

Application forms for graduate admission and financial aid may be obtained from the Web site above. Application may be made on-line. Completed applications for the Masters or Doctoral programs must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are not required for School of Architecture Masters Degree applicants; the GRE is required for all Doctor of Philosophy applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

## Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

Architecture, MARCH & Urban Planning, MUP (p. 1115)

The School of Architecture offers a graduate program, leading to a Master of Architecture degree:

The Master of Architecture program is for students holding a four-year Bachelor of Science in Architectural Studies (or similar degree in architecture). Students may be admitted to the Master of Architecture program with Limited Standing if the student holds a bachelor's degree (or higher) in any field other than architecture. Students interested in this track should refer to the Track 3 page for details.

The School of Architecture, together with the graduate programs of computer science, urban and regional planning, and civil and environmental engineering, offers graduate programs leading to the following joint degrees: Master of Architecture and Master of Computer Science, Master of Architecture and Master of Urban Planning, and Master of Architecture and Master of Science in Civil and Environmental Engineering (Construction Engineering and Management) (Structures).

## Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

Applicants are selected for admission on the basis of undergraduate academic performance and profession-related experience. Application material is evaluated by faculty members. The faculty's recommendations are based upon an appraisal of the admission grade point average determined from official transcripts, a portfolio or brochure of applicant's past work in architecture, a statement of objectives, three letters of recommendation, and relevant professional work experience.

To apply go to <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>). Completed applications must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are not required for School of Architecture Masters Degree applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

## Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

## Learning Outcomes: Architecture, MARCH

Learning Outcomes for the degree of Master of Architecture in Architecture

The accredited degree program must demonstrate that each graduate possesses the knowledge and skills defined by the criteria set out below.

The knowledge and skills are the minimum for meeting the demands of an internship leading to registration for practice.

The school must provide evidence that its graduates have satisfied each criterion through required coursework. If credits are granted for courses taken at other institutions or online, evidence must be provided that the courses are comparable to those offered in the accredited degree program.

The criteria encompass two levels of accomplishment:

- **Understanding**—The capacity to classify, compare, summarize, explain and/or interpret information.
- **Ability**—Proficiency in using specific information to accomplish a task, correctly selecting the appropriate information, and accurately applying it to the solution of a specific problem, while also distinguishing the effects of its implementation.

The NAAB establishes performance criteria to help accredited degree programs prepare students for the profession while encouraging educational practices suited to the individual degree program. In addition to assessing whether student performance meets the professional criteria, the visiting team will assess performance in relation to the school's stated curricular goals and content. While the NAAB stipulates the student performance criteria that must be met, it specifies neither the educational format nor the form of student work that may serve as evidence of having met these criteria. Programs are encouraged to develop unique learning and teaching strategies, methods, and materials to satisfy these criteria. The NAAB encourages innovative methods for satisfying the criteria, provided the school has a formal evaluation process for assessing student achievement of these criteria and documenting the results.

For the purpose of accreditation, graduating students must demonstrate understanding or ability as defined below in the Student Performance Criteria (SPC):

**Student Performance Criteria:** The SPC are organized into realms to more easily understand the relationships between individual criteria.

### Realm A: Critical Thinking and Representation:

Architects must have the ability to build abstract relationships and understand the impact of ideas based on research and analysis of multiple theoretical, social, political, economic, cultural and environmental contexts. This ability includes facility with the wider range of media used to think about architecture including writing, investigative skills, speaking, drawing and model making. Students' learning aspirations include:

- Being broadly educated.
- Valuing lifelong inquisitiveness.
- Communicating graphically in a range of media.
- Recognizing the assessment of evidence.
- Comprehending people, place, and context.
- Recognizing the disparate needs of client, community, and society.

A.1. Communication Skills: Ability to read, write, speak and listen effectively.

A.2. Design Thinking Skills: Ability to raise clear and precise questions, use abstract ideas to interpret information, consider

diverse points of view, reach well-reasoned conclusions, and test alternative outcomes against relevant criteria and standards.

A.3. Visual Communication Skills: Ability to use appropriate representational media, such as traditional graphic and digital technology skills, to convey essential formal elements at each stage of the programming and design process.

A.4. Technical Documentation: Ability to make technically clear drawings, write outline specifications, and prepare models illustrating and identifying the assembly of materials, systems, and components appropriate for a building design.

A.5. Investigative Skills: Ability to gather, assess, record, apply, and comparatively evaluate relevant information within architectural coursework and design processes.

A.6. Fundamental Design Skills: Ability to effectively use basic architectural and environmental principles in design.

A.7. Use of Precedents: Ability to examine and comprehend the fundamental principles present in relevant precedents and to make choices regarding the incorporation of such principles into architecture and urban design projects.

A.8. Ordering Systems Skills: Understanding of the fundamentals of both natural and formal ordering systems and the capacity of each to inform two- and three-dimensional design.

A.9. Historical Traditions and Global Culture: Understanding of parallel and divergent canons and traditions of architecture, landscape and urban design including examples of indigenous, vernacular, local, regional, national settings from the Eastern, Western, Northern, and Southern hemispheres in terms of their climatic, ecological, technological, socioeconomic, public health, and cultural factors

A.10. Cultural Diversity: Understanding of the diverse needs, values, behavioral norms, physical abilities, and social and spatial patterns that characterize different cultures and individuals and the implication of this diversity on the societal roles and responsibilities of architects.

A.11. Applied Research: Understanding the role of applied research in determining function, form, and systems and their impact on human conditions and behavior.

#### **Realm B: Integrated Building Practices, Technical Skills and Knowledge:**

Architects are called upon to comprehend the technical aspects of design, systems and materials, and be able to apply that comprehension to their services. Additionally, they must appreciate their role in the implementation of design decisions and the impact of such decisions on the environment. Students learning aspirations include:

- Creating building designs with well-integrated systems.
- Comprehending constructability.
- Incorporating life safety systems.
- Integrating accessibility.
- Applying principles of sustainable design.

B.1. Pre-Design: Ability to prepare a comprehensive program for an architectural project, such as preparing an assessment of client and user needs, an inventory of space and equipment requirements, an analysis of site conditions (including existing buildings), a

review of the relevant laws and standards and assessment of their implications for the project, and a definition of site selection and design assessment criteria.

B.2. Accessibility: Ability to design sites, facilities, and systems to provide independent and integrated use by individuals with physical (including mobility), sensory, and cognitive disabilities.

B.3. Sustainability: Ability to design projects that optimize, conserve, or reuse natural and built resources, provide healthful environments for occupants/users, and reduce the environmental impacts of building construction and operations on future generations through means such as carbon-neutral design, bioclimatic design, and energy efficiency.

B.4. Site Design: Ability to respond to site characteristics such as soil, topography, vegetation, and watershed in the development of a project design.

B.5. Life Safety: Ability to apply the basic principles of life-safety systems with an emphasis on egress.

B.6. Comprehensive Design: Ability to produce a comprehensive architectural project that demonstrates each student's capacity to make design decisions across scales while integrating the following SPC:

A.2. Design Thinking Skills

A.4. Technical Documentation

A.5. Investigative Skills

A.8. Ordering Systems

A.9. Historical Traditions and Global Culture

B.2. Accessibility

B.3. Sustainability

B.4. Site Design

B.5. Life Safety

B.8. Environmental Systems

B.9. Structural Systems

B.7. Financial Considerations: Understanding of the fundamentals of building costs, such as acquisition costs, project financing and funding, financial feasibility, operational costs, and construction estimating with an emphasis on life-cycle cost accounting.

B.8. Environmental Systems: Understanding the principles of environmental systems' design such as embodied energy, active and passive heating, and cooling, indoor air quality, solar orientation, daylighting and artificial illumination, and acoustics; including the use of appropriate performance assessment tools.

B.9. Structural Systems: Understanding of the basic principles of structural behavior in withstanding gravity and lateral forces and the evolution, range, and appropriate application of contemporary structural systems.

B.10. Building Envelope Systems: Understanding of the basic principles involved in the appropriate application of building

envelope systems and associated assemblies relative to fundamental performance, aesthetics, moisture transfer, durability, and energy and material resources.

B.11. Building Service Systems: Understanding of the basic principles and appropriate application and performance of building service systems such as plumbing, electrical, vertical transportation, security, and fire protection systems.

B.12. Building Materials and Assemblies: Understanding of the basic principles utilized in the appropriate selection of construction materials, products, components, and assemblies, based on their inherent characteristics and performance, including their environmental impact and reuse.

### Realm C: Leadership and Practice:

Architects need to manage, advocate, and act legally, ethically and critically for the good of the client, society and the public. This includes collaboration, business, and leadership skills. Student learning aspirations include:

- Knowing societal and professional responsibilities.
- Comprehending the business of building.
- Collaborating and negotiating with clients and consultants in the design process.
- Discerning the diverse roles of architects and those in related disciplines.
- Integrating community service into the practice of architecture.

C.1. Collaboration: Ability to work in collaboration with others and in multi-disciplinary teams to successfully complete design projects.

C.2. Human Behavior: Understanding of the relationship between human behavior, the natural environment and the design of the built environment.

C.3. Client Role in Architecture: Understanding of the responsibility of the architect to elicit, understand, and reconcile the needs of the client, owner, user groups, and the public and community domains.

C.4. Project Management: Understanding of the methods for competing for commissions, selecting consultants and assembling teams, and recommending project delivery methods.

C.5. Practice Management: Understanding of the basic principles of architectural practice management such as financial management and 24 business planning, time management, risk management, mediation and arbitration, and recognizing trends that affect practice.

C.6. Leadership: Understanding of the techniques and skills architects use to work collaboratively in the building design and construction process and on environmental, social, and aesthetic issues in their communities.

C.7. Legal Responsibilities: Understanding of the architect's responsibility to the public and the client as determined by registration law, building codes and regulations, professional service contracts, zoning and subdivision ordinances, environmental regulation, and historic preservation and accessibility laws.

C.8. Ethics and Professional Judgment: Understanding of the ethical issues involved in the formation of professional judgment

regarding social, political and cultural issues in architectural design and practice.

C.9. Community and Social Responsibility: Understanding of the architect's responsibility to work in the public interest, to respect historic resources, and to improve the quality of life for local and global neighbors.

### 2-year Professional Master of Architecture Degree

The two-year professional degree program is intended for students entering with a four-year baccalaureate in architectural studies. The program builds on the undergraduate foundations to develop the knowledge and skills required in today's Architecture profession. Students have the flexibility to pursue individual interests within this 2-year course of study with 16 elective hours of coursework and a variety of thematic studio options each semester. Students may elect to focus in any one of several areas aligned with research-oriented program areas, course offerings and faculty interest. The Master of Architecture degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB) and has a STEM designation.

Candidates admitted with full status to the two-year professional degree program must complete at least 62 hours of graduate work. Candidates admitted with full status may complete the program in two years of full-time academic study.

The School of Architecture, together with the graduate programs of computer science, urban and regional planning, and civil and environmental engineering, offers graduate programs leading to the following joint degrees: Master of Architecture and Master of Computer Science, Master of Architecture and Master of Urban Planning, and Master of Architecture and Master of Science in Civil and Environmental Engineering (Construction Engineering and Management) (Structures).

### Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

Applicants are selected for admission on the basis of undergraduate academic performance and profession-related experience. Application material is evaluated by faculty members. The faculty's recommendations are based upon an appraisal of the admission grade point average determined from official transcripts, a portfolio or brochure of applicant's past work in architecture, a statement of objectives, three letters of recommendation, and relevant professional work experience.

Application forms for graduate admission and financial aid may be obtained from the Web site above. Application may be made on-line. Completed applications for the Masters or Doctoral programs must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are not required for School of Architecture Masters Degree applicants; the GRE is required for all Doctor of Philosophy applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

### Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

### *for the Master of Architecture in Architecture, 2 Year Program Concentration*

The two-year professional degree program, intended for students entering with a four-year baccalaureate in architectural studies, emphasizes further study in architectural disciplines. Students may elect to concentrate in any one of several areas of specialization aligned with research-oriented program areas.

Candidates admitted with full or limited status to the two-year professional degree program must complete at least 62 hours of graduate work. Candidates admitted with full status may complete the program in two years of full-time academic study.

A list of programs and additional requirements can be found on the program's website (<https://arch.illinois.edu/degrees/master-architecture-2/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

### Professional Master of Architecture Degree - Limited Standing

The variable-length professional degree program has been designed for applicants who have a bachelor's degree in any field other than architecture. Emphasis is placed on the development of sufficient background in introductory architectural studies so that the applicants may successfully complete the equivalent of the two-year graduate program described above.

Applicants accepted into this program will initially be admitted with limited status. Full status may be attained by completion of introductory architectural studies. Once full status is attained, a minimum of 54 hours of graduate work is required for completion.

The time necessary to complete the program will depend on the nature of undergraduate coursework completed by the applicant.

Candidates attaining full standing may complete the program in two years of full-time academic study.

**The School of Architecture, together with the graduate programs of computer science, urban and regional planning, and civil and environmental engineering, offers graduate programs leading to the following joint degrees: Master of Architecture and Master of Computer Science, Master of Architecture and Master of Urban Planning, and Master of Architecture and Master of Science in Civil and Environmental Engineering (Construction Engineering and Management) (Structures).**

	Minimum GPA:	2.75

## Architecture, PhD

### *for the degree of Doctor of Philosophy in Architecture*

**Director of the School: Francisco Javier Rodríguez-Suárez**  
**Director of graduate studies: Kevin Erickson**  
**Overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**School website:** <http://arch.illinois.edu>  
**College website:** <http://faa.illinois.edu>  
**School office: 117 Temple Hoyne Buell Hall, 611 Taft Drive, Champaign, IL 61820**  
**phone: (217) 333-7720**  
**email: arch-grad@illinois.edu**

This program offers advanced training for those students whose goal is a career of research and scholarship in academia, industry, or government. Four areas of focus are offered: History and Theory, Environment and Technology, Health and Wellbeing, and Urbanism. The program is administered jointly with the Department of Landscape Architecture.

## Admission

The admission grade point average for full standing in the Graduate College and the school must be at least 3.0 (A = 4.0). For applicants who meet the other requirements but have an admission GPA under 3.0, admission with limited standing may be permitted if evidence of exceptional qualification is presented.

The application process is highly selective. Potential applicants are encouraged to correspond with the chair of the Ph.D. program and/or with prospective advisors. Applicants are selected for admission on the basis of academic performance and relevant experience. Application material is evaluated by the Ph.D. Committee and members of the faculty as necessary. Recommendations for admission are based upon an appraisal of prior academic work determined from official transcripts, the statement of research objectives, three letters of recommendation, and relevant professional work experience.

Application forms for graduate admission and financial aid may be obtained from the Web site above. Application may be made on-line. Completed applications for the Masters or Doctoral programs must reach the Graduate Programs Office by January 15; students are admitted in the fall semester only. Graduate Record Examination (GRE) scores are required for all applicants.

All applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. A minimum score of 590 on the paper-based test or 243 on the computer-based test or 96 on the internet-based test is required. The University of Illinois also accepts IELTS (academic exam) score in lieu of TOEFL, with a minimum score of 6.5 and 6.5 in all sub-sections required.

## Research Methods

Students must complete at least one research methods course.

In addition to research methods courses taught within the School of Architecture and Department of Landscape Architecture, students are encouraged to consider similar courses in other units, consulting with their advisors to determine whether those meet the research methods requirement.

## Preliminary Exams

In consultation with their advisors, students select a committee of faculty members for their preliminary exam. Upon completion of coursework, students prepare a dissertation proposal and undertake the preliminary

examination in two parts: written and oral. Policies governing the preliminary examination are detailed in the Ph.D. Program Handbook. Upon passing the preliminary examination, students are advanced to candidacy and may proceed with work on their dissertations. Dissertation

Because the Doctor of Philosophy degree is primarily a research degree, candidates are required to demonstrate a capacity for independent research by producing an original dissertation on a topic within the discipline of Architecture. Dissertation Defense

After completion of the dissertation, the student is required to defend the dissertation before their Dissertation Committee in a public forum, an event known in the Graduate College as the Final Exam.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Financial Aid

Financial aid for graduate students in architecture is available in the form of fellowships and assistantships (teaching, research, and graduate or resource). Qualified candidates are considered for financial support upon application and in subsequent years of study.

Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

Language and statistics course requirements vary by focus area. To develop proficiency, students may be required to take more than one course. Specific requirements are determined on a case-by-case basis by the Chair of the Ph.D. Committee in consultation with the student's advisor.

<sup>1</sup> For additional details and requirements refer to the department's program page (<http://www.arch.illinois.edu/degrees/phd-architecture/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Architecture, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Architecture

PhD students in the Department of Landscape Architecture will:

- Research Skills.** Develop and practice a variety of research skills. Students will design their research strategy; obtain and analyze evidence; develop evidence-based arguments; identify and evaluate the existing critical literature of the field; master languages in some cases, and in other cases master advanced computer programs.

- Communicate with Clarity.** Develop and demonstrate the ability to communicate complex and original ideas through clear writing supplemented by graphic representations and delivered as text (dissertation), speech (lecture presentations), and image (PowerPoint to accompany lectures). Doctoral students will gain an advanced level of written, visual, and technical literacy.
- Original Research.** Develop and carry out a major, original research investigation; develop it into an extended argument (the dissertation), the outcome of which might be a book, policy guidelines, a series of journal articles, or a patent.
- Design Research.** Use ideas and methods from design research to explore questions that advance knowledge that supports design.
- Pedagogy.** Demonstrate understanding of basic concepts about teaching and practice a range of instructional techniques in classrooms and studio contexts.

**phone:** (217) 333-0642

The degree of Master of Fine Arts in Art and Design is designed to prepare qualified individuals for distinctive achievement in the professional area of their choice. Fields of concentration include Graphic Design, Design for Responsible Innovation, Industrial Design, Photography, Metal, Ceramics, and an interdisciplinary Studio which includes concentrations in Painting, Sculpture, and specialization in New Media. A minimum of 64 hours of graduate credit is required for the M.F.A. degree. Individual studio space and specialized resources essential to the acquisition of a high-quality professional education are available to students in all areas of study. The Graphic Design, Photography, Metal, Ceramics, and interdisciplinary Studio which includes

Painting, Sculpture, and New Media programs require a graduation exhibition of creative work and a written thesis approved by a thesis committee for deposit in the School of Art and Design's graduate office. The Industrial Design and Design for Responsible Innovation programs require a graduation exhibition, a written thesis approved by a thesis committee and a thesis deposit in the Graduate College Thesis Office. Admission for all programs is determined by a faculty review of a portfolio of the applicant's creative work, records of previous education and experience, letters of recommendation, and other significant achievements that may be viewed as predictors for success in the program.

 Art History, PhD (p. 578)  
 Art History Minor (p. 1090)

---

## Admission

Applications are considered for Fall Semester admissions only. The Art History Program requires Graduate Record Examination (GRE) scores. International applicants or applicants who are not native English speakers must present a recent TOEFL score of at least 590 on the paper-based version, 250 score on the Computer-based exam, and a score of 96 on IBT exam. Applications are not currently being accepted for the concentration in Printmaking.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

## Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum's excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

## Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to

the applicant's grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

The University of Illinois offers an MFA in Design for Responsible Innovation that focuses on interdisciplinary making for research and practice. This program prepares students to contribute to the field of design by entering into practice, academia, or both. Students can explore responsible futures through research in traditional print media and emergent technologies including, but not limited to, data visualization, digital interaction, information design, systems thinking, and visual narrative.

The degree offers these specialized tracks of study:

- # Sustainable and regenerative design
- # Urban sociology and critical race design
- # Visual and cultural studies
- # Student-proposed applied research in responsible innovation, social impact, and engagement

Applications are not currently being accepted for the concentration in Printmaking.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

## Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum's excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

## Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to the applicant's grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

## Learning Outcomes: Industrial Design, MFA

Learning Outcomes for the degree of Master of Fine Arts in Art and Design Industrial Design Concentration

- Research and inquiry:** Use appropriate research and experimental methods to access existing data sources, to generate new data and as a basis for defining and solving design problems
- Creative synthesis:** Use design thinking and appropriate sketching, modeling, prototyping and making strategies to produce creative

design solutions which take account of the needs of users, audience, market, and producers as required.

3. **Production:** Select and use appropriate processes for design, production, and manufacture, with an understanding of the potential of new technologies and the demands of sustainability
4. **Contextualization:** To recognize the social responsibility of the profession and to understand the multiple contexts of design practice, including the historical, professional, cultural, theoretical, environmental and technological.
5. **Communication:** Demonstrate appropriate forms of communication during and on completion of the design process to elicit information, to explain, to debate and persuade, adapting to audience and situations as required
6. **Organization:** Plan and implement actions, identifying targets and organizing resources; utilize project management skills with an understanding of developing product timelines. To effectively collaborate with others, using team building and team working skills.
7. **Learning:** Carry out independent learning for academic study, lifelong learning, and professional development. To reflect and independently evaluate your own practice, with the aim of improvement
8. **Teaching:** Demonstrate the ability to employ relevant pedagogical methods for the preparation and delivery of content for college-level teaching in formal and informal situations with reflection on the teaching/learning paradigm.

## Art & Design: Metals, MFA

Art History, PhD (p. 578)

Art History Minor (p. 1090)

## Admission

Applications are considered for Fall Semester admissions only. The Art History Program requires Graduate Record Examination (GRE) scores. International applicants or applicants who are not native English speakers must present a recent TOEFL score of at least 590 on the paper-based version, 250 score on the Computer-based exam, and a score of 96 on IBT exam. Applications are not currently being accepted for the concentration in Printmaking.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

## Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum's excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

## Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to the applicant's grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

The program of study leading to the degree of Master of Education (EdM) in Art Education is designed to provide advanced level study for students of two main kinds. It serves as professional development for art teachers and supervisors in the public schools and as preparation for those interested in a variety of careers, such as museum education, arts advocacy or community arts.

In addition to required courses in art education, students may choose electives in studio art, art education or art history, and any other graduate courses offered by the university that complement their studies or professional aspirations. Specific course selection is determined in consultation with the student's advisor. Students may simultaneously study for teaching certification but graduate credit is not usually granted for such study. A thesis is not required for the EdM degree.

Applicants for admission must hold a bachelor's degree in art education or a related field from an accredited institution. Admission is determined by a review of transcripts, letters of recommendation, resume, personal statement, and a writing sample.

The PhD program in art education is designed for advanced graduate students who want to pursue scholarly study and research in art education. Doctoral level coursework includes studies in both art education and in relevant disciplines and departments within the university.

In addition to required courses in art education, students may choose electives in studio art, art education or art history, and any other graduate courses offered by the university that complement their studies or professional aspirations. Specific course selection is determined in consultation with the student's advisor. A dissertation is required for the PhD degree.

Applicants for admission must hold a master's degree in art education or a related field from an accredited institution. Admission is determined by review of transcripts, letters of recommendation, resume, personal statement, and a writing sample.

This program provides basic preparation for teaching at the college level, background in the history of art for museum work, and preliminary study for the doctoral degree. In addition to the general requirements, the prerequisite for admission is ordinarily an undergraduate degree in art history or a strong preparation in related humanistic studies. Applicants with little background in art history but who have done exceptionally well as undergraduates in other disciplines will be seriously considered. A thesis or scholarly essay is required for completion of the degree.

## Learning Outcomes: Art History, MA

Learning Outcomes for the degree of Master of Arts in Art History

1. Students will be able to demonstrate familiarity with key artistic monuments and modes of art production from various global contexts.
2. Students will be able to analyze and interpret works of art and architecture situated in a variety of historical and social contexts, and in comparative perspective.
3. Students will be able to use visual and verbal primary sources, secondary sources, and core critical frameworks of art historical analysis to develop and articulate persuasive arguments about works of art and the cultures that produced them.
4. Students will be able to engage in art historical writing at the level of an emerging professional scholar. This involves the critical application of standard art historical methods and marshaling visual and textual evidence to support interpretive claims.

## Art History, PhD

*for the degree of Doctor of Philosophy in Art History*

**school director:** Alan Mette

**associate director & director of graduate studies:** Laurie Hogin

**graduate studies advisors:**

**MA; PhD in Art History:** David O'Brien (obrien1@illinois.edu)

**MA; EdM; PhD in Art Education:** Sarah Travis (stravis2@illinois.edu)

**MFA in Studio:** Deke Weaver (dekew@illinois.edu) and Conrad Bakker (cbakker@illinois.edu)

**MFA in Photography:** Luke Batten (lbatten@illinois.edu)

**MFA in Industrial Design:** David Weightman (diw@illinois.edu)

**MFA in Graphic Design:** Molly Briggs (mbriggs@illinois.edu) and Angelica Sibrian (asibrian@illinois.edu)

---

**The program leading to the degree of Doctor of Philosophy in Art History is designed to prepare students for scholarship and for teaching at the college level. Applicants must have the Master of Arts in Art History. Students earning the master's degree at Illinois must write a thesis or research paper of superior quality in order to be admitted to the doctoral program. Students taking the master's degree elsewhere must satisfy the Graduate Committee on the History of Art and Architecture as to their preparation to undertake work on a doctoral level. Students usually elect to major and write a dissertation in one of various fields:**

•Classical	•Medieval	•Renaissance	•History of Photography	•American
•Baroque	•Modern	•Contemporary	•African	•Asian or Latin American

## Graduate Degree Programs in Art & Design

Art & Design, MFA (p. 561)

### concentrations:

Crafts (p. 562), Design for Responsible Innovation (p. 563), Graphic Design (p. 564), Industrial Design (p. 566), Metals (p. 567), Painting (p. 568), Photography (p. 569), Printmaking (p. 570), Sculpture (p. 571)

### specialization: New Media

Art Education, EdM (p. 573)

Art Education, MA (p. 574)

Art Education, PhD (p. 575)

Art History, MA (p. 577)

Art History, PhD (p. 578)

Art History Minor (p. 1090)

---

## Admission

Applications are considered for Fall Semester admissions only. The Art History Program requires Graduate Record Examination (GRE) scores. International applicants or applicants who are not native English speakers must present a recent TOEFL score of at least 590 on the paper-based version, 250 score on the Computer-based exam, and a score of 96 on IBT exam. Applications are not currently being accepted for the concentration in Printmaking.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

## Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum's excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

## Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to the applicant's grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

The Department of Astronomy offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees. The goal of the graduate program in astronomy is to provide broadly based training in modern astrophysics and astronomy for a small and carefully selected student body. Individually designed programs involving close contact with faculty members are encouraged, and an understanding of fundamental principles and techniques and their applications to research problems of current interest is emphasized. Students are expected to acquire a solid knowledge of modern physics as well as of general astronomy. A major objective is to maintain an exciting intellectual environment in which students can develop their scientific creativity and their enthusiasm for astronomy.

### Graduate Degree Programs in Astronomy

Astronomy, MS (p. 580)

Astronomy, PhD (p. 582)

optional concentration: Astrochemistry (p. 1051)

### Admission

Admission to the astronomy graduate program requires an outstanding record of accomplishment and clear evidence of considerable academic promise, as judged by test scores, resume (or c.v.), letters of recommendation, personal statement, and strong intellectual achievements. A bachelor's degree or its equivalent in astronomy, physics, chemistry, mathematics, or another related technical field from an accredited college or university in the U.S. or an approved institution of higher learning abroad is required for admission.

A minimum grade point average of 3.0 (A = 4.0) and satisfactory scores on the Graduate Record Examination (GRE) (verbal, quantitative, and advanced physics portions) are required for admission. Course preparation in intermediate and advanced undergraduate physics and astronomy are essential. Students are expected to make up deficiencies during the first graduate year.

All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency, as required by Graduate College policy. More information on the English Proficiency Requirement can be found at the Graduate College Admissions Web site (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

Admission decisions are normally made once a year in the spring. Applications for admission and financial assistance must be received by January 15. In rare circumstances, applicants may be admitted for the spring semester, in addition to the customary fall semester admissions.

See the Astronomy graduate admissions Web site ([www.astro.illinois.edu/academics/graduate/](http://www.astro.illinois.edu/academics/graduate/)) (<http://www.astro.illinois.edu/academics/graduate/>) for more information and application materials.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Faculty Research Interests

Research activity in the Department of Astronomy includes observational and theoretical investigations of a wide array of astronomical objects:

- Early-universe cosmology (inflation, particle dark matter, cosmic nucleosynthesis)
- Large-scale structure of the universe (cosmic microwave background, galaxy clusters)
- Extragalactic systems (galaxy structure and evolution, interacting galaxies, active galaxies, jets, and quasars)
- Interstellar medium (multiple phases, molecular clouds, HII regions, bubbles and superbubbles, planetary nebulae, supernova remnants, magnetic fields, and galactic structure)
- Stars (formation, structure and evolution, atmospheres, nucleosynthesis, novae, supernovae, pulsars, and stellar statistics)
- Compact objects (black holes, neutron stars, white dwarfs)

Theoretical astrophysics is also a strong research interest many faculty members in the Department of Astronomy and the Department of Physics. Current activity centers on:

- Astrophysical fluid dynamics, magnetohydrodynamics and radiation hydrodynamics
- Physics of dense stellar matter
- Accretion phenomena
- High energy and relativistic astrophysics
- Cosmic inflation and structure formation
- Nuclear and particle processes in cosmology and astrophysics
- Black hole physics and astrophysics
- Gravitational lensing
- Gravitational wave phenomena

## Facilities and Resources

- The Dark Energy Survey
- The Large Synoptic Survey Telescope
- The South Pole Telescope
- Astronomy students and faculty successfully compete for time on national facilities. These include ground-based telescopes of the National Radio Astronomy Observatory, such as the Atacama Large Millimeter Telescope and the Very Large Array, and the National Optical Astronomy Observatory telescopes. Illinois research involves many space-based telescopes, including the Hubble, Planck, Spitzer, Herschel, Chandra, and Fermi.
- A number of projects in the Department of Astronomy partner with the National Center for Supercomputing Applications (NCSA) at Illinois. This includes development and application of astrophysical simulations such as the FLASH package and general relativistic magnetohydrodynamic codes that provide insight into the nature of structure formation and the physics of black holes.

Astronomy faculty also leverage NCSA's pioneering development of cyberinfrastructure environments to facilitate data transport for the Sloan Digital Sky Survey (SDSS), the Dark Energy Survey, the Square Kilometer Array, and the Large Synoptic Survey Telescope. NCSA and the Astronomy Department also jointly founded the Laboratory for Cosmological Data Mining to apply novel algorithms to the rich datasets now available for cosmological analysis, including those from the SDSS and Wilkinson Microwave Anisotropy Probe.

- Illinois is the home of the Blue Waters National Petascale Computing Facility, one of the most powerful supercomputers in the world, and the most powerful on a university campus. A portion of Blue Waters time is dedicated to Illinois faculty, and Astronomy students and faculty use Blue Waters for their research.

## Financial Aid

University fellowships are available and may be combined with part-time teaching assistantships. Most resident students are supported for their first two or three years by half-time teaching assistantships. The typical teaching assistant takes two or three graduate courses per semester and spends twenty hours per week handling quiz sections in elementary astronomy courses. Teaching assistantships are responsible positions, and the concomitant duties are considered to be a valuable part of the student's educational experience. Advanced students may compete for research assistantships offered by faculty members whose research is partially supported by federal grants.

*for the degree of Master of Science in Astronomy*

For additional details and requirements refer to the department's Graduate Programs (<http://www.astro.illinois.edu/academics/graduate/programs/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Astronomy, MS

Code	Title	Hours
ASTR 501	Radiative Processes	4
ASTR 502	Astrophysical Dynamics	4
Additional formal coursework (excluding thesis research, non-thesis research, and independent study credit hours, e.g., ASTR 599, ASTR 590)		16
Research/Project/Independent Study Hours (e.g. ASTR 590; min/max applied toward degree): <sup>1</sup>		4-8
Based on Placement Exam results, students may be required to complete ASTR 404, ASTR 405, ASTR 406, and/or ASTR 414 during their first year. A maximum of 8 hours of these courses may be applied to the degree (Max. 8) <sup>2</sup>		8
Total Hours		32

## Other Requirements

Requirement	Description
Other requirements may overlap	
Of the additional formal coursework, the minimum number of hours in the unit (excluding thesis research, non-thesis research, and independent study credit hours)	8

Of the additional formal coursework, the minimum number of 500-level hours (excluding thesis research, non-thesis research, and independent study credit hours)

<sup>1</sup> **Research Project (minimum 4 hours)**

- The student will complete a research project with an Astronomy Department faculty member (i.e. ASTR 590). A paper reporting the results is required, which must be prepared in scientific journal style and approved by the faculty member.

<sup>2</sup> **Demonstrated Proficiency in Astronomy**

(ASTR 404, ASTR 405, ASTR 406 and ASTR 414)

Students must show proficiency in the four courses by one of the following options:

- Pass the appropriate section of the placement exam (four sections aligned to the four courses), which is offered at the start of every Fall semester. A student can petition to take the exam once more the following year. The decision on petition approval by the graduate advisor will depend on the student's background and proficiency plan.
- Pass the course with a B grade or better.
- Students who have had an equivalent course at another institution (B grade or better) may petition for those courses to count as proficiency.

## Learning Outcomes: Astronomy, MS

Learning Outcomes for the degree of Master of Science in Astronomy

LO1. Infer and characterize the physical mechanisms that govern the observable properties of the Universe and its constituents, including galaxies, stars, and planets, as well as the changes in those properties over time.

LO2. Understand how the observational, statistical, and computational methods of modern astronomy are used to generate the scientific knowledge referred to in LO1.

LO3. Plan and perform original research in astronomy and astrophysics.

LO4. Effectively communicate astronomy knowledge and research results in both oral and written form to a variety of audiences. LO5. Demonstrate the ability to formulate and write a research proposal.

## Astronomy, PhD

### Entering with approved M.A./M.S. degree

Code	Title	Hours
ASTR 501 & ASTR 502	Radiative Processes and Astrophysical Dynamics <sup>1</sup>	8
	Based on Placement Exam results, students may be required to complete ASTR 404, ASTR 405, ASTR 406, and/or ASTR 414 during their first year. A maximum of 8 hours of these courses may be applied to the degree. <sup>2</sup>	8
	Research/Project/Independent Study Hours (e.g. ASTR 590 min/max applied toward degree):	4-24
ASTR 599	Thesis Research (min/max applied toward degree)	32-52
Total Hours		64

### Other Requirements

Requirement	Description
	Other requirements may overlap
	Students may add a graduate concentration in Astrochemistry.
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

### Entering with approved B.A./B.S. degree

Code	Title	Hours
ASTR 501 & ASTR 502	Radiative Processes and Astrophysical Dynamics	8
	Additional formal coursework (excluding thesis research, non-thesis research and independent study credit hours, e.g., ASTR 599, ASTR 590) <sup>3,4</sup>	24
	Based on Placement Exam results, students may be required to complete ASTR 404, ASTR 405, ASTR 406, and/or ASTR 414 during their first year. A maximum of 8 hours of these courses may be applied to the degree. <sup>2</sup>	8

Research/Project/Independent Study Hours (e.g. ASTR 590 min/max applied toward degree):	4-32
ASTR 599 Thesis Research (min/max applied toward degree)	32-60
<b>Total Hours</b>	<b>96</b>

### Other Requirements

Requirement	Description
Other requirements may overlap	
Students may add a graduate concentration in Astrochemistry.	
First Summer Research Project (4 hours)	During the first summer in residence, each student will enroll in ASTR 590 (Independent Study) and will complete a research project with an Astronomy Department faculty member. A paper reporting the results is required, which must be prepared in scientific journal style and approved by the faculty member.
Master's Degree Required Before Admission to PhD?	No
Qualifying Exam Required	No
Preliminary Exam Required	Ph.D. Preliminary Examination consists of a written preliminary paper on the Ph.D. research topic and an oral examination. It must be passed by the end of the third year of study.
Final Exam/Dissertation Defense Required	Completion of an original research project culminating in a dissertation thesis publishable in whole or in part is required. The final examination is a defense of the doctoral dissertation.
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> Students entering with an approved M.A. or M.S. degree may proficiency out of ASTR 501 and ASTR 502 with departmental approval. Other 500-level ASTR graduate courses must be taken in the unit for substitute credit hours

<sup>2</sup> **Demonstrated Proficiency in Astronomy**  
(ASTR 404, ASTR 405, ASTR 406 and ASTR 414)  
Students must show proficiency in the four courses by one of the following options:

- Pass the appropriate section of the placement exam (four sections aligned to the four courses), which is offered at the start of every Fall semester. A student can petition to take the exam once more the following year. The decision on petition approval by the graduate advisor will depend on the student's background and proficiency plan.
- Pass the course with a B grade or better.
- Students who have had an equivalent course at another institution (B grade or better) may petition for those courses to count as proficiency.

<sup>3</sup> Of the additional formal coursework, 8 is the minimum number of hours in the unit (excluding thesis research, non-thesis research, and independent study credit hours)

<sup>4</sup> Of the additional formal coursework, 8 (with 4 in the unit) is the minimum number of 500-level hours (excluding thesis research, non-thesis research, and independent study credit hours)

## Learning Outcomes: Astronomy, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Astronomy

LO1. Infer and characterize the physical mechanisms that govern the observable properties of the Universe and its constituents, including galaxies, stars, and planets, as well as the changes in those properties over time.

LO2. Understand how the observational, statistical, and computational methods of modern astronomy are used to generate the scientific knowledge referred to in LO1.

LO3. Plan and perform original research in astronomy and astrophysics.

LO4. Effectively communicate astronomy knowledge and research results in both oral and written form to a variety of audiences. LO5. Demonstrate the ability to formulate and write a research proposal.

### Graduate Degree Programs in Atmospheric Sciences

Atmospheric Sciences, MS (p. 584)

Atmospheric Sciences, PhD (p. 586)

Graduate programs leading to the Master of Science and Doctor of Philosophy degrees are offered. Opportunity also exists for specializing in computational science and engineering within the department's graduate programs via the Computational Science and Engineering (CSE) Option.

### Admission

Applications for admission are encouraged from students with bachelor's degrees in atmospheric sciences, meteorology, physics, mathematics, computer science, geography, engineering, oceanography, and related fields. It is strongly recommended that students who intend to study for advanced degrees in atmospheric sciences know the fundamentals of classical physics and applied mathematics. Applicants whose native language is not English are required to take the English Placement Test if

accepted. All applicants are required to take the Graduate Record Exam (GRE) and submit three letters of reference.

## Faculty Research Interests

The atmospheric science degree programs are designed for students interested in research and applications on a wide variety of atmospheric topics. Faculty areas of research include the physics of aerosol, clouds and precipitation; atmospheric radiative processes, radar and satellite meteorology, remote sensing, convective phenomena including severe storms, synoptic and mesoscale meteorology, boundary layer meteorology, tropical meteorology, hydrometeorology, numerical weather prediction, atmospheric dynamics, climate variability and climate modeling including chemical, radiative, and transport effects; atmospheric chemistry, land-atmosphere interactions, oceanography, human and natural perturbations of global ozone and climate, biogeochemical cycles, and climate impacts, risks, and policy. This research is carried out in national field campaigns, in theoretical studies, and in numerical modeling efforts using a wide range of models.

## Research Facilities

With more than 2.5 computers per person, the department maintains a capable and extensive computing infrastructure as this is a vital component of all of its educational, research and outreach endeavors. All graduate students, staff, and faculty members have a desktop or laptop computer, usually a Windows PC or Mac. There is a departmental computer lab for hands-on class exercises, computers and display projectors in classroom areas and wireless access throughout the buildings. The Department hosts a new synoptic/GIS laboratory, a data visualization laboratory, and an instruments lab all within the Natural History Building. An up-to-date high-capacity network connects these to various departmental computing resources including e-mail, file and web servers, resources provided by the campus as well as our linux-based research computing systems.

These research systems include the department's ever-expanding computing cluster, hundreds of terabytes worth of storage, other departmental systems and a number of systems specific to each faculty member's research group. These systems are used for numerical simulations, analysis and modeling of atmospheric processes ranging from the formation of individual ice crystals to century long climate simulations over the globe and are used for storing, analyzing and visualizing the results. Our faculty research groups regularly use supercomputers including Blue Waters, the NCAR Supercomputing facility, and other supercomputers nationwide.

We receive and process a large quantity of real-time meteorological data and numerical forecasts from a variety of sources including agencies like NOAA, UCAR, international sources and other peer institutions. These are available for visualization with a variety of tools to aid in the understanding of current weather events and case studies of recent major events.

Because computers are only good when they work and you understand how to use them, the department is supported by a dedicated IT staff which is responsible for maintaining everything and personally assisting users with problems, questions and accomplishing their research goals.

The department also has a suite of meteorological instrumentation designed to characterize the vertical profile of precipitation falling from clouds and storms ("SCAMP"), and has also recently acquired a new wind profiler which will be operational in 2020.

## Financial Aid

More information is available on the Department Website: <https://atmos.illinois.edu/admissions/graduate/graduate-financial-aid> (<https://atmos.illinois.edu/admissions/graduate/graduate-financial-aid/>)

## Atmospheric Sciences, MS

### Thesis Option

Code	Title	Hours
ATMS 500	Dynamic Meteorology	4
ATMS 504	Physical Meteorology	4
ATMS 505	Weather Systems	4
ATMS 507	Climate Dynamics	4
Additional Graduate-level courses in ATMS or approved courses in another discipline		8
ATMS 599	Thesis Research (min/max applied toward degree)	8
Total Hours		32

### Other Requirements

Requirement	Description
Other requirements may overlap	
The student is required to write a thesis and give a seminar on his/her thesis research.	
Minimum GPA:	3.0

### Non-Thesis Option

Code	Title	Hours
ATMS 500	Dynamic Meteorology	4
ATMS 504	Physical Meteorology	4
ATMS 505	Weather Systems	4
ATMS 507	Climate Dynamics	4
Additional Graduate-level courses in ATMS or approved courses in another discipline		12
ATMS 596	Non-Thesis Research (max applied toward degree)	4
Total Hours		32

### Other Requirements

Requirement	Description
Other requirements may overlap	
The student is required to develop a project in ATMS 596 that focuses on a topic proposed by the student and approved by the department head and present an informal (non-seminar series) talk to a committee.	
Minimum GPA:	3.0

## Learning Outcomes: Atmospheric Sciences, MS

Learning Outcomes for the Master of Science in Atmospheric Sciences

1. All graduate students will have a fundamental understanding of the core theoretical underpinnings of atmospheric sciences.
2. All graduate students will have a high level of expertise in their chosen research field within the atmospheric and related sciences, and the ability to apply theoretical and technical skills to novel and long-standing problems relevant to society.
3. All graduate students will have the ability to formulate a research problem, demonstrate the value of its solution in advancing knowledge, and develop an approach towards solving that problem.
4. All graduate students will have ethically responsible and effective communication skills, written and verbal, at a professional scientific level.
5. All graduate students will have knowledge of the frontiers in atmospheric science research.

### Graduate Degree Programs in Atmospheric Sciences

Atmospheric Sciences, MS (p. 584)

Atmospheric Sciences, PhD (p. 586)

Graduate programs leading to the Master of Science and Doctor of Philosophy degrees are offered. Opportunity also exists for specializing in computational science and engineering within the department's graduate programs via the Computational Science and Engineering (CSE) Option.

### Admission

Applications for admission are encouraged from students with bachelor's degrees in atmospheric sciences, meteorology, physics, mathematics, computer science, geography, engineering, oceanography, and related fields. It is strongly recommended that students who intend to study for advanced degrees in atmospheric sciences know the fundamentals of classical physics and applied mathematics. Applicants whose native language is not English are required to take the English Placement Test if

accepted. All applicants are required to take the Graduate Record Exam (GRE) and submit three letters of reference.

### Faculty Research Interests

The atmospheric science degree programs are designed for students interested in research and applications on a wide variety of atmospheric topics. Faculty areas of research include the physics of aerosol, clouds and precipitation; atmospheric radiative processes, radar and satellite meteorology, remote sensing, convective phenomena including severe storms, synoptic and mesoscale meteorology, boundary layer meteorology, tropical meteorology, hydrometeorology, numerical weather prediction, atmospheric dynamics, climate variability and climate modeling including chemical, radiative, and transport effects; atmospheric chemistry, land-atmosphere interactions, oceanography, human and natural perturbations of global ozone and climate, biogeochemical cycles, and climate impacts, risks, and policy. This research is carried out in national field campaigns, in theoretical studies, and in numerical modeling efforts using a wide range of models.

### Research Facilities

With more than 2.5 computers per person, the department maintains a capable and extensive computing infrastructure as this is a vital component of all of its educational, research and outreach endeavors. All graduate students, staff, and faculty members have a desktop or laptop computer, usually a Windows PC or Mac. There is a departmental computer lab for hands-on class exercises, computers and display projectors in classroom areas and wireless access throughout the buildings. The Department hosts a new synoptic/GIS laboratory, a data visualization laboratory, and an instruments lab all within the Natural History Building. An up-to-date high-capacity network connects these to various departmental computing resources including e-mail, file and web servers, resources provided by the campus as well as our linux-based research computing systems.

These research systems include the department's ever-expanding computing cluster, hundreds of terabytes worth of storage, other departmental systems and a number of systems specific to each faculty member's research group. These systems are used for numerical simulations, analysis and modeling of atmospheric processes ranging from the formation of individual ice crystals to century long climate simulations over the globe and are used for storing, analyzing and visualizing the results. Our faculty research groups regularly use supercomputers including Blue Waters, the NCAR Supercomputing facility, and other supercomputers nationwide.

We receive and process a large quantity of real-time meteorological data and numerical forecasts from a variety of sources including agencies like NOAA, UCAR, international sources and other peer institutions. These are available for visualization with a variety of tools to aid in the understanding of current weather events and case studies of recent major events.

Because computers are only good when they work and you understand how to use them, the department is supported by a dedicated IT staff which is responsible for maintaining everything and personally assisting users with problems, questions and accomplishing their research goals.

The department also has a suite of meteorological instrumentation designed to characterize the vertical profile of precipitation falling from clouds and storms ("SCAMP"), and has also recently acquired a new wind profiler which will be operational in 2020.

## Graduate Degree Programs in Speech & Hearing Science

Audiology, AuD (p. 587)

Speech & Hearing Science, MA (p. 997)

Speech & Hearing Science, PhD (p. 999)

**optional concentration (PhD only):**

Second Language Acquisition and Teacher Education (p. 1080)

## Graduate Degree Programs

The department offers programs leading to the Master of Arts, Doctor of Audiology, and Doctor of Philosophy degrees, with specialization

in various aspects of audiology and speech-language pathology.

The Department of Speech and Hearing Science offers graduate programs of study in speech-language pathology, audiology, and speech, language, and hearing science. The department prepares scientists and professionals who specialize in the study of perception and production of spoken, written, signed, and alternative communication and communication disorders, as well as dysphagia. Graduate degrees are offered at the master's and doctoral levels.

## Admission

Although a B.A./B.S. in the field is not required for admission to the clinical M.A. or Au.D. programs, recommended background includes undergraduate credit in the following areas or their equivalents: phonetics, anatomy and physiology of the speech and hearing mechanism, hearing science, speech science, speech pathology, audiology, and aural rehabilitation. The M.A. and Au.D. programs begin in the fall only.

For more information about admissions, see: <https://ahs.illinois.edu/doctor-of-audiology> (<https://ahs.illinois.edu/doctor-of-audiology/>)

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

*for the degree of Doctor of Audiology in Audiology*

## Learning Outcomes: Audiology, AUD

Learning Outcomes for the degree of Doctor of Audiology in Audiology

1. Students will demonstrate academic knowledge and clinical skills in the foundations of the practice of audiology, including principles and practices derived from the study of hearing and balance in normal and disordered populations across the lifespan.
2. Students will demonstrate, with knowledge and skills, the ability to work as independent clinicians, for the prevention, identification, assessment, and intervention of hearing and balance disorders across the lifespan.
3. Students will demonstrate, with knowledge and skills, the ability to advocate, consult, and educate on behalf of individuals with hearing and balance disorders across the lifespan.
4. Students will demonstrate, with knowledge and skills, the ability to critically review and discuss research evidence and apply this ability to evidence-based practice for audiological services.

## Biochemistry, MS

*for the Master of Science in Biochemistry*

**head of the department:** Satish K. Nair

## Graduate Degree Programs in Biochemistry

Biochemistry, MS (p. 588)

Biochemistry, PhD (p. 590)

The Department of Biochemistry offers graduate programs leading to the Master of Science and the Doctor of Philosophy degrees. For an application and departmental materials that provide greater detail on programs, offerings, admission, degree requirements, and financial aid, visit our website at [www.mcb.illinois.edu/graduate/gradprospect.html](http://www.mcb.illinois.edu/graduate/gradprospect.html). The Department of Biochemistry is a part of the School of Molecular and Cellular Biology (MCB), which also includes the Departments of Cell and Developmental Biology, Microbiology and Molecular and Integrative Physiology as well as Programs in Biophysics and Neurosciences. The Department is part of an umbrella program in MCB that encompasses over 70 different research laboratories. Students admitted into any of these departmental graduate programs can select faculty thesis advisors from these active research laboratories in the School. In addition, dual degrees via the Medical Scholars Program are offered. Close ties are also maintained with the School of Integrative Biology, the School of Chemical Sciences, the College of Medicine, and the College of Veterinary Medicine.

## Admission

Interested students must apply directly to the School of Molecular and Cellular Biology ([www.mcb.illinois.edu/graduate/gradprospect.html](http://www.mcb.illinois.edu/graduate/gradprospect.html)). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December in mutual agreement with their desired advisor and formally join the appropriate graduate program/department at that time. Students electing biochemistry as a major for an advanced degree should have a strong background in chemistry, biology, physics, and calculus and a grade point average of a 3.0 or higher (A = 4.0). Admission requirements include: a bachelor's degree; Graduate Record Examination (GRE) scores. In addition to the above requirements, international students must attain a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 590 (243 on the computer-based test). A score of 96 on the internet-based test (iBT), with a score of 24 on the speaking section, is also accepted. The department does not normally admit students directly into the M.S. program.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

## Centers, Programs, and Institutes

Biochemistry faculty are appointed and active in several cross-campus academic and research units, including the Center for Biophysics & Computational Biology, the Beckman Institute for Advanced Science and Technology, the Institute for Genomic Biology, as well as the interdepartmental graduate programs in Biophysics & Computational Biology, and Neuroscience, and the joint M.D./Ph.D. Medical Scholars Program of the College of Medicine.

## Faculty Research Interests

Faculty research in the Department of Biochemistry covers a broad spectrum of the most dynamic areas of current research in biological chemistry and molecular biology: physical approaches to the structure and function of macromolecules and membranes; nucleic acid biochemistry and enzymology, enzyme mechanisms and evolution; membrane biochemistry and bioenergetics; protein-lipid interactions; protein-nucleic acid interactions and molecular recognition; molecular biological approaches to gene organization and expression; immunology; microbial physiology, and signal transduction.

## Facilities and Resources

Campus resources for science research are state-of-the-art and available to all faculty research programs. Notably among these is the Roy J. Carver Biotechnology Center, which comprises the W.M. Keck Center for Comparative and Functional Genomics (Custom Library Services, High-Throughput Sequencing and Genotyping, DNA Core Sequencing, Fragment Analysis, Oligonucleotide Synthesis, Functional Genomics and Bioinformatics), Proteomics Services (Protein Science Facility, Immunological Resource Center and Flow Cytometry Facility), a Metabolomics Center and a Transgenic Mouse Facility. It also provides career counseling through the Career Services Office. Many other cross-campus facilities are important for the faculty research programs in Biochemistry, including the Fred Seitz Materials Research Laboratory, the National Center for Supercomputing Applications (NCSA), the high-field VOICE NMR Laboratory, Mass Spectrometry Center, Microanalysis Laboratory, Cell Media Facility, and many electronics, machine and glass shop service facilities. The University of Illinois is also a full member of the LS-CAT beamline for macromolecular crystallography at the Advanced Photon Source, Argonne National Laboratory.

## Financial Aid

Financial aid for Ph.D. graduate students in biochemistry is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. In addition, interdepartmental training grants from the National Institutes of Health support multidisciplinary training programs. Qualified candidates are considered for financial support upon application. Graduate students making satisfactory progress toward their degrees generally receive a stipend, as well as a full tuition waiver and a partial fee waiver.

## for the Master of Science in Biochemistry

For additional details and requirements refer to the department's Program of Study (<http://www.mcb.illinois.edu/departments/biochemistry/gradpgmstudy.html>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

# Learning Outcomes: Biochemistry, MS

Learning Outcomes for the Master of Science in Biochemistry

At the conclusion of the degree program students will be able to:

1. Develop and demonstrate an in-depth knowledge of a specific area of biochemical research, which may include (but is not limited to) protein, nucleic acid and/or membrane biochemistry, cancer and molecular immunology, computational and quantitative biology, etc.
2. Demonstrate independent and critical skills necessary to formulate specific experiments aimed at understanding molecular processes.
3. Gain the necessary experience and skills to train others in the performance of experiments.
4. Develop communication skills suitable to discuss scientific outcomes at a level for the layperson to understand but critical enough for peers. Typically, such training is developed through writing and editing scientific manuscripts, with input from a faculty advisor.
5. Deliver effective oral and written presentations of the results and conclusions of experimental work.
6. Be able to ask and answer questions within the research areas of Biochemistry.
7. Develop skills and abilities for effective teaching of Biochemistry in a course room setting.

8. Develop the skills and intellectual background to succeed at postdoctoral work in academics or in the commercial sector.
9. Demonstrate ethical conduct within the research process and the responsibilities of the scientist.

### Other Requirements

Requirement	Description
Other requirements may overlap	
A minimum of one semester at 50% FTE or two semesters of 25% FTE of teaching in lecture or laboratory courses is required.	
A thesis based on original research must be presented to a review committee at least two weeks before the final oral examination.	
Masters Degree Required Before Admission to PhD?	No, but Masters level requirements must be met (32 hours)
Preliminary Exam Required	Yes, administered by the end of the second year.
Final Exam/Dissertation Defense Required	Yes, and the final examination is limited to a defense of the thesis research.
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Learning Outcomes: Biochemistry, PhD

Learning Outcomes for the Doctor of Philosophy in Biochemistry

The Biochemistry Department has the following expectations and goals for graduates of its Ph.D. degree program: Many basic outcomes from Standards for the Ph.D. Degree in Biochemistry and Molecular Biology. Recommendations of the Education Committee of the International Union of Biochemistry. TIBS(1989)14:205-209.

At the conclusion of the degree program students will be able to:

1. Develop and demonstrate an in-depth knowledge of a specific area of biochemical research, which may include (but is not limited to) protein, nucleic acid and/or membrane biochemistry, cancer and molecular immunology, computational and quantitative biology, etc.
2. Demonstrate independent and critical skills necessary to formulate specific experiments aimed at understanding molecular processes.
3. Gain the necessary experience and skills to train others in the performance of experiments.
4. Develop communication skills suitable to discuss scientific outcomes at a level for the layperson to understand but critical enough for peers. Typically, such training is developed through writing and editing scientific manuscripts, with input from a faculty advisor.

5. Deliver effective oral and written presentations of the results and conclusions of experimental work.
6. Be able to ask and answer questions within the research areas of Biochemistry.
7. Develop skills and abilities for effective teaching of Biochemistry in a course room setting.
8. Develop the skills and intellectual background to succeed at postdoctoral work in academics or in the commercial sector.
9. Demonstrate ethical conduct within the research process and the responsibilities of the scientist.

## Bioengineering, MEng

*for the degree of Master of Engineering in Bioengineering (on campus & online)*

**department head:** Mark Anastasio (mfi@illinois.edu)

**director of graduate studies:** Gregory Underhill (gunderhi@illinois.edu)

**director of MEng program:** Wawrzyniec Dobrucki (dobrucki@illinois.edu)

**overview of admissions & requirements:** <https://bioemeng.illinois.edu/admissions/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**program website:** <https://bioemeng.illinois.edu>

**college website:** <https://grainger.illinois.edu/>

**contact:** Liezl Bowman (liezlb@illinois.edu)

**address:** 1102 Everitt Laboratory, 1406 W Green St, Urbana, IL 61801

**phone:** (217) 333-1867

**email:** [bio-meng@illinois.edu](mailto:bio-meng@illinois.edu)

The MEng in Bioengineering is a professionally-oriented degree designed to bridge the skills gap by developing students with advanced technical know-how, a better understanding of the medical healthcare industry and more business acumen through coursework and project work, which provides students exposure to real world industry issues.

Students pursuing this major must select one of three concentrations:

Bioinstrumentation (p. 593)

Computational Genomics (p. 594)

General Bioengineering (p. 595)

### Admission Requirements

Students must select one of the concentrations under the MEng in Bioengineering program to apply to and will not be able to complete multiple concentrations. Students should have an undergraduate degree in an engineering or a science related field or must have taken engineering or science related coursework. Applicants should have a minimum grade point average of 3.00 (A = 4.00) or equivalent for the last two years of undergraduate study and show evidence of strong quantitative skills and of serious interest in the life sciences through their personal statement. Students with less than a 3.0 GPA may be considered for a limited status admission. Students in the program do not have automatic admission to the PhD program in any engineering department.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

### Financial Aid

The tuition and fees for the MEng in Bioengineering are the standard Graduate and Professional Programs rates for The Grainger College of Engineering, plus a one-time \$2,000 program fee. For tuition information and external funding resources, please visit the program's tuition and fees Web site (<https://bioemeng.illinois.edu/tuition-fees/>). Students in the MEng in Bioengineering program are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

### Department Research

Bioengineering faculty perform research in the areas of Bio-Imaging at Multi-Scale; Molecular, Cellular and Tissue Engineering; Bio-Micro and Nanotechnology; Computational and Systems Bioengineering; and Synthetic Bioengineering. MEng students are able to do independent study research projects with Bioengineering faculty and affiliate faculty (<https://bioengineering.illinois.edu/directory/>) for class credit.

### Other Graduate Programs in the Department of Bioengineering

degrees:

Bioengineering, MS (p. 596)

**optional concentrations:**

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)

Bioengineering, PhD (p. 598)

**optional concentrations:**

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science and Engineering (p. 1064)

The Department of Bioengineering offers studies leading to the Master of Engineering in Bioengineering (MEng), the Master of Science in Bioengineering (MS), and the Doctor of Philosophy (PhD) in Bioengineering. The Bioengineering Graduate Program provides students with educational and research experiences that integrate the sciences of biology and medicine with the practices and principles of engineering. For the MS and PhD programs, areas of focus include Bio-imaging, Cell & Tissue Engineering, Micro and Molecular Technologies, and Computational Biology.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option** (<http://ease.illinois.edu/>)

*for the degree of Master of Engineering in Bioengineering (on campus & online)*

Students pursuing this major must select one of three concentrations:

Bioinstrumentation (p. 593)  
 Computational Genomics (p. 594)  
 General Bioengineering (p. 595)

## Learning Outcomes: Bioengineering, MENG

Learning Outcomes for the degree of Master of Engineering in Bioengineering (on campus & online)

1. Ability to apply quantitative skills and engineering principles to propose novel and practical solutions to medical/human health problems
2. Prepare students for professional careers
3. Ability to gain basic understanding of business, finances, intellectual property and regulatory matters
4. Understanding of professional and ethical responsibilities
5. Ability to communicate real-world scientific problems with bigger vision and offer solutions, as well as their impact, effectively to a diverse audience and stakeholders, both orally and in writing
6. Demonstrate moderate to high technical mastery in chosen research area, shown by the ability to identify an important scientific problem, formulate a hypothesis, and design experiments to conduct research and data analysis to test the hypothesis. The student should also be able to formulate alternatives.
7. Develop effective leadership skills in order to foster the ability to conduct collaborative research and work with a diverse team

**phone:** (217) 333-1867

**email:** [bio-gradprograms@illinois.edu](mailto:bio-gradprograms@illinois.edu) ([bioengineering@illinois.edu](mailto:bioengineering@illinois.edu))

The Department of Bioengineering offers both an MS with thesis and an MS non-thesis program. Students in the MS with thesis program are required to have a research advisor and applicants are encouraged to contact department faculty (<https://bioengineering.illinois.edu/directory/>) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1060) optional graduate concentration and ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1063) optional graduate concentration.

## Admission Requirements

Applicants should have an undergraduate degree in a natural science, computer science, or engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. Applicants should show evidence of strong quantitative skills and of serious interest in the life sciences. All applicants must submit results

from the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Qualified students may qualify for financial aid in the form of fellowships, teaching and research assistantships, and waivers of tuition and service fees.

All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Bioengineering faculty perform research in the areas of Bio-Imaging at Multi-Scale, Molecular, Cellular and Tissue Engineering, Bio-Micro and Nanotechnology, Computational and Systems Bioengineering, and Synthetic Bioengineering. In addition to Bioengineering faculty, the Department of Bioengineering has more than 50 affiliate faculty (<http://bioengineering.illinois.edu/directory/>).

## Learning Outcomes: Bioengineering, MS

Learning Outcomes for the degree of Master of Science in Bioengineering

### Thesis Option

1. Ability to apply **quantitative skills and engineering principles** to propose novel and practical solutions to medical/human health problems
2. Understanding of **professional and ethical responsibilities**
3. Ability to **communicate** scientific problems and solutions, as well as their impact, effectively to a diverse audience and stakeholders, both orally and in writing
4. Demonstrate moderate **technical** mastery in chosen research area, shown by the ability to identify an important scientific problem, formulate a hypothesis, and design experiments to conduct research and data analysis to test the hypothesis. The student should also be able to formulate alternatives.
5. Develop effective **leadership** skills in order to foster the ability to conduct **collaborative** research and work with a diverse team

### Non-Thesis Option

1. Ability to apply quantitative skills and engineering principles to propose novel and practical solutions to medical/human health problems
2. Understanding of professional and ethical responsibilities

3. Ability to communicate scientific problems and solutions, as well as their impact, effectively to a diverse audience and stakeholders, both orally and in writing
4. Demonstrate moderate conceptual mastery in chosen research area, with the capability of expanding it into a future research project in preparation for an industry career or PhD degree
5. Develop effective leadership skills in order to foster the ability to conduct collaborative research and work with a diverse team

## Bioengineering, PhD

for the degree of Doctor of Philosophy in Bioengineering

**email:** [bioe-gradprograms@illinois.edu](mailto:bioe-gradprograms@illinois.edu) ([bioengineering@illinois.edu](mailto:bioengineering@illinois.edu))

---

The Department of Bioengineering offers both a traditional doctoral program (for students with a previous master's degree) and a direct doctoral program (for students with only a bachelor's degree). Students in both programs are required to have a research advisor and applicants are encouraged to contact department faculty (<https://bioengineering.illinois.edu/directory/>) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1060) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1063) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

Applicants should have an undergraduate or graduate degree in a natural science, computer science, or engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. Applicants should show evidence of strong quantitative skills and of serious interest in the life sciences. All applicants must submit results from the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Qualified students may apply for financial aid in the form of fellowships, teaching and research assistantships, and waivers of tuition and service fees. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching ([http://cte.illinois.edu/programs/ta\\_train.html](http://cte.illinois.edu/programs/ta_train.html)) conducted prior to the start of the semester.

## Department Research

Bioengineering faculty perform research in the areas of Bio-Imaging at Multi-Scale; Molecular, Cellular and Tissue Engineering; Bio-Micro and Nanotechnology; Computational and Systems Bioengineering; and Synthetic Bioengineering. In addition to Bioengineering faculty, the Department of Bioengineering has more than 50 affiliate faculty (<http://bioengineering.illinois.edu/directory/>).

## Other Graduate Programs in the Department of Bioengineering

degrees:

Bioengineering, MEng (p. 592)

### optional concentrations:

Bioinstrumentation (p. 593)|Computational Genomics (p. 594)|General Bioengineering (p. 595)

Bioengineering, MS (p. 596)

### optional concentrations:

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)

concentrations:

Biomechanics (p. 1060)

### available for:

Bioinformatics: Bioengineering, MS (p. 602)|Electrical & Computer Engineering, MS (p. 713)|Electrical & Computer Engineering, PhD (p. 714)|Materials Engineering, MEng (p. 836)|Materials Science & Engineering, MS (p. 837)|Materials Science & Engineering, PhD (p. 839)|Mechanical Engineering, MS (p. 846)|Mechanical Engineering, MEng (p. 845)|Mechanical Engineering, PhD (p. 848)|Theoretical & Applied Mechanics, MS (p. 1029)|Theoretical & Applied Mechanics, PhD (p. 1031)

Cancer Nanotechnology (p. 1063)

### available for:

Bioinformatics: Bioengineering, MS (p. 602)|Electrical & Computer Engineering, MS (p. 713)|Electrical & Computer Engineering, PhD (p. 714)|Materials Engineering, MEng (p. 836)|Materials Science & Engineering, MS (p. 837)|Materials Science & Engineering, PhD (p. 839)|Mechanical Engineering, MS (p. 846)|Mechanical Engineering, MEng (p. 845)|Mechanical Engineering, PhD (p. 848)|Theoretical & Applied Mechanics, MS (p. 1029)|Theoretical & Applied Mechanics, PhD (p. 1031)

The Department of Bioengineering offers studies leading to the Master of Engineering in Bioengineering (MEng), the Master of Science in Bioengineering (MS), and the Doctor of Philosophy (PhD) in Bioengineering. The Bioengineering Graduate Program provides students with educational and research experiences that integrate the sciences of biology and medicine with the practices and principles of engineering. For the MS and PhD programs, areas of focus include Bio-imaging, Cell & Tissue Engineering, Micro and Molecular Technologies, and Computational Biology.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

*for the degree of Doctor of Philosophy in Bioengineering*

For additional details and requirements for all degrees, please refer to the department's Graduate Studies Web site (<http://bioengineering.illinois.edu/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Entering with approved M.S. degree

## Learning Outcomes: Bioengineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Bioengineering

1. Ability to apply **quantitative** skills and **engineering principles** to propose novel and practical solutions to medical/human health problems
2. Understanding of **professional** and **ethical** responsibilities
3. Ability to **communicate** scientific problems and solutions, as well as their impact, effectively to a diverse audience and stakeholders, both orally and in writing
4. Demonstrate moderate **technical** mastery in chosen research area, shown by the ability to identify an important scientific problem, formulate a hypothesis, and design experiments to conduct research and data analysis to test the hypothesis. The student should also be able to formulate alternatives.
5. Develop effective **leadership** skills in order to foster the ability to conduct **collaborative** research and work with a diverse team

## Bioinformatics, MS

*for the degree of Master of Science in Bioinformatics*

**informatics website:** <https://www.informatics.illinois.edu/>  
**informatics faculty affiliates:** <https://www.informatics.illinois.edu/faculty-affiliates/>  
**overview of school admissions & requirements:** <https://www.informatics.illinois.edu/phd-admission/>  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**on-campus contact: Karin Readel, Senior Education Coordinator, Informatics,**  
**phone: (217)-244-1220**  
**email: [kereadel@illinois.edu](mailto:kereadel@illinois.edu)**

Students pursuing this major must choose one of these concentrations:

Animal Sciences (p. 601)  
 Crop Sciences (p. 606)  
 Chemical & Biomolecular Engineering (p. 603)  
 Computer Science (p. 605)  
 Bioengineering (p. 602)  
 Library & Information Science (p. 608)

The MS degree can be taken in a thesis or non-thesis format, depending on the department. For either format, the research adviser must be affiliated with the Bioinformatics program.

## Programs in Informatics

### Undergraduate Minor

Informatics Minor (p. 474)

### Graduate Majors

Bioinformatics, MS ([http://catalog.illinois.edu/graduate/provost/ms\\_bioinfo/](http://catalog.illinois.edu/graduate/provost/ms_bioinfo/))  
 Animal Sciences Concentration (p. 601)  
 Bioengineering Concentration (p. 602)  
 Chemical & Biomolecular Engineering Concentration (p. 603)  
 Computer Science Concentration ([http://catalog.illinois.edu/graduate/engineering/ms-bioinfo\\_cs/](http://catalog.illinois.edu/graduate/engineering/ms-bioinfo_cs/))  
 Crop Science Concentration (p. 606)  
 Library & Information Science Concentration ([http://catalog.illinois.edu/graduate/ischool/ms\\_bioinfo\\_lis/](http://catalog.illinois.edu/graduate/ischool/ms_bioinfo_lis/))  
 Informatics, PhD ([http://catalog.illinois.edu/graduate/provost/phd\\_informatics/](http://catalog.illinois.edu/graduate/provost/phd_informatics/))

## Admission

Applicants must hold a bachelor's degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for graduate students entering the Bioinformatics degree program is a bachelor's or master's degree in life sciences, computer and mathematical sciences, or engineering, with a minimum of five hours of molecular and cell biology, six hours of general chemistry, nineteen hours of mathematics and statistics, and three hours of introduction to computing. Prerequisites vary somewhat for the different departmental concentrations. Students should view the web page of the specific department they wish to apply to for detailed information about admission criteria and degree requirements. Those links are below:

- Department of Animal Sciences (<http://www.ansci.illinois.edu>)
- Department of Bioengineering (<http://bioengineering.illinois.edu/>) - Not currently accepting applications
- Department of Chemical and Biomolecular Engineering (<http://chbe.illinois.edu>) - Not currently accepting applications
- Department of Computer Science (<http://cs.illinois.edu>)
- Department of Crop Sciences (<http://www.cropsci.illinois.edu>)
- School of Information Sciences (<http://ischool.illinois.edu>)

## Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis by the admitting department. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships (the most common form of financial aid for new graduate students in the department) must submit a score of at least 50 on the Test of Spoken English (TSE) (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

## Other Requirements

Requirement
Other Requirements and conditions may overlap
A concentration is required.
Minimum Hours Overall Required Within the Unit: 8
Minimum 500-level Hours Required Overall: 12
A comprehensive oral examination concerning the thesis and other areas of Bioinformatics and Animal Sciences is required.
Thesis Deposit Required: Yes
Minimum GPA: 3.0

## Learning Outcomes: Animal Sciences Concentration

Learning Outcomes for the Master of Science Major in Bioinformatics, Animal Sciences Concentration

1. Graduate-level understanding of essential concepts and approaches in the area of bioinformatics with application to animal sciences. The essential bioinformatics concepts will enable the graduate to secure a mid-management position in industry or federal agencies or pursue Ph.D. studies and to advance throughout the professional ranks.
2. Capacity to execute supervised thesis research including: a) understanding of the scientific method, research objectives, materials and methods, advanced data analysis, and appreciation of the findings; and b) leadership on the implementation of essential research activities.
3. Ability to effectively communicate essential bioinformatics and animal sciences knowledge and thesis research findings in oral and written formats.
4. Aptitude to advocate for interdisciplinary research and education efforts to advance food security, food safety, animals and human health and wellbeing or environmental stewardship.

The Department of Computer Science is one of the longest established computer science departments in the world and is consistently ranked as a top-5 graduate program.

The MS in Bioinformatics, Computer Science Concentration is an interdisciplinary degree that can be counted toward the PhD in Computer Science.

## Admission Requirements

Applicants must hold a bachelor's degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for students entering a Computer Science graduate degree program is a bachelor's degree in computer science or computer engineering. The Graduate Record Examination (GRE) (<http://www.ets.org/>) general aptitude tests (Verbal, Quantitative, and Analytical) are no longer required. However, in some cases, GRE general scores may provide helpful supporting information.

Applicants to the Computer Science Concentration of the MS in Bioinformatics program must have a minimum grade point average (GPA)

of 3.20 (A = 4.00) in their undergraduate studies (international GPAs are systematically converted) to be considered. The department reserves the right to admit applicants with lower GPAs under rare and exceptional circumstances. If an applicant also holds a graduate degree, the minimum GPA for that degree must be 3.00. Full details of the programs offered by Computer Science, admissibility, application procedures, and deadlines can be found at the department's Prospective Graduate Student Information Web site (<http://cs.illinois.edu/admissions/graduate/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Research assistantships and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS (academic exam). Students who are unable to take the iBT or IELTS are required to receive a minimum score of 5 on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Other Graduate Programs in the Department of Computer Science

degrees:

Computer Science, MCS (p. 654)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

Computer Science, MS (p. 656)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

Computer Science, PhD (p. 658)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

**joint programs:**

Computer Science, MCS & Architecture, MArch (p. 1114)

Computer Science, MCS & Law, JD (p. 1115)

The Department of Computer Science (CS) offers other graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Computer Science and a Master of Computer Science (MCS). The MCS program is also available online for students who are working full-time and unable to come to campus.

*for the degree of Master of Science in Bioinformatics, Computer Science Concentration*

The Computer Science concentration for the MS in Bioinformatics is an interdisciplinary degree that can be counted toward the Computer Science PhD.

For additional details and requirements refer to the department's Graduate Degree Requirements (<http://cs.illinois.edu/academics/graduate/ms-bioinformatics-program/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Bioinformatics: Crop Science, MS

for the Master of Science in Bioinformatics, Crop Science Concentration

**head of department:** Adam Davis

**advisor:** Nathan Schroeder

**department website:** <https://cropsciences.illinois.edu/>

**email:** [cptomlin@illinois.edu](mailto:cptomlin@illinois.edu)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://aces.illinois.edu/>

**department office:** AW-101 Turner Hall, 1102 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 244-0396

### Graduate Degree Programs in Crop Sciences

Crop Sciences, MS (p. 661) (on campus & online)

Bioinformatics: Crop Science, MS (p. 606)

Plant Biotechnology, MS - Professional Science Master's (p. 941)

Crop Sciences, PhD (p. 663)

The genomic and proteomic projects are generating large amounts of complex biological data that require effective storage, retrieval, analysis and interpretation. The bioinformatics degree program provides students with the skills necessary to augment the understanding and use of agricultural, biological and medical information and resources through the application of molecular, chemical, physical, computational, statistical, mathematical and informatic techniques. Students interested in this program may come with undergraduate training in one of the following areas:

1. biological and agricultural sciences,
2. statistical, mathematical and computer sciences,
3. informatics and engineering sciences.

Graduates from the bioinformatics program will be able to integrate basic and applied concepts in the three areas and apply them to biotechnology and medical research. For additional information, please see our website at <https://cropsciences.illinois.edu/graduate/>.

### Admission

Applicants are considered for admission to the Master of Science program if they have a bachelor's or equivalent degree comparable to that granted by the University of Illinois. Strong letters of reference, evident motivation to undertake graduate study, and good preparation in basic science courses enhance an applicant's credentials. For some programs, greater emphasis is given to previous training in plant sciences, chemistry, or mathematics. A grade point average equivalent to at least a B in the last 60 semester hours of undergraduate course work plus any graduate level work completed is required. All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University.

Additional information for international applicants can be found at: <https://grad.illinois.edu/admissions/apply/begin/international> (<https://grad.illinois.edu/admissions/apply/begin/international/>). Please see our web page for additional information: <https://cropsciences.illinois.edu/graduate/admissions/>.

## Graduate Teaching Experience

Experience in teaching is considered an important part of the graduate experience in this program.

## Faculty Research Interests

Please refer to the following webpage for a detailed listing of our faculty and their areas of interest <https://cropsciences.illinois.edu/people/faculty/>.

## Financial Aid

Fellowships and assistantships are available to outstanding students on a competitive basis. Awards for financial assistance are based principally on a candidate's academic record, statement of plans, and letters of reference.

*for the Master of Science in Bioinformatics, Crop Science Concentration*

The Crop Science concentration within the M.S. degree in Bioinformatics can be earned with a thesis option or a non-thesis option, which requires optional supervised research experiences.

For additional details and requirements refer to the department's graduate handbook ([http://cropsci.illinois.edu/sites/cropsci.illinois.edu/files/pdf/Grad\\_Student\\_Handbook\\_2013.pdf](http://cropsci.illinois.edu/sites/cropsci.illinois.edu/files/pdf/Grad_Student_Handbook_2013.pdf)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Bioinformatics: Crop Sciences, MS

Learning Outcomes for the Master of Science in Bioinformatics, Crop Sciences Concentration

**Thesis**

1. Students will be able to read, understand, knowledgeably discuss and summarize in writing the primary scientific literature of their particular disciplinary research area (bioinformatics and statistics, crop genetic improvement, crop production, plant protection, sustainable food systems, and water quality and environmental systems).
2. Students will assume responsibility and ownership in research project development and execution.
3. Students will acquire professional scientific writing and communication skills.
4. Students will develop the capacity to communicate and collaborate across interdisciplinary boundaries.
5. Students will develop the interpersonal skills to be competitive for career opportunities in plant sciences and agriculture.

**Non-Thesis**

1. Students will be able to read, understand, knowledgeably discuss and summarize in writing the primary scientific literature of their particular disciplinary research area (bioinformatics and statistics, crop genetic improvement, crop production, plant protection, sustainable food systems, and water quality and environmental systems).
2. Students will acquire professional scientific writing and communication skills.
3. Students will develop the capacity to communicate and collaborate across interdisciplinary boundaries.
4. Students will develop the interpersonal skills to be competitive for career opportunities in plant sciences and agriculture.

## Bioinformatics: Library & Information Science, MS

*for the degree of Master of Science in Bioinformatics, Library and Information Science Concentration*

**dean: Eunice Santos**

**overview of MS/LIS admissions & requirements:** <https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply> (<https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**school website:** School of Information Sciences (<https://ischool.illinois.edu/>)

**school faculty:** <https://ischool.illinois.edu/people/faculty> (<https://ischool.illinois.edu/people/faculty/>)

**graduate office:** 501 East Daniel Street, Champaign, IL 61820-6211

**program contact:** Moises Orozco Villicana

**phone:** (217) 333-7197, (800) 982-0914 (within the US)

**email:** [ischool-apply@illinois.edu](mailto:ischool-apply@illinois.edu)

A typical student will take 6 required courses (24 hours) 1 Biology, 1 Computer Science, 1 Fundamental Bioinformatics, and 3 Information Sciences. The student must then choose 3 courses (12 hours) of electives to complete the degree. It is strongly encouraged that up to 2 courses of these electives (8 hours) are thesis. Our expectation is that each student will arrange a custom program of study, suitable for the information management of their particular biological informatics application. Currently, this program requires students to be in residence in Champaign-Urbana.

### Graduate Degree Programs in the School of Information Science

Bioinformatics: Library & Information Science, MS (p. 608) **(on campus & online)**

Information Management, MS (p. 793) **(on campus & online)**  
Library & Information Science, MS (p. 827) **(on campus & online)**

Library & Information Science, CAS (p. 824) **(on campus & online)**

**concentration:**

Digital Libraries (p. 825)  
Information Sciences, PhD (p. 795)

**concentration:**

Writing Studies (p. 1084)

**Joint Degree Programs:**

Library & Information Science, MS and African Studies, MA (p. 1113)

Library & Information Science, MS and History, MA (p. 1117)

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 1113)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of

Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

---

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

## School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

## Facilities and Resources

Among the major areas of faculty research are:

- **community informatics**
- **data analytics**
- **data curation**
- **digital humanities**
- **digital libraries**
- **history of information**
- **information retrieval**
- **organization of knowledge and information**
- **privacy, security, and trust**
- **ethics and values for information**
- **youth literature, culture, and services**

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, *Library Trends* and *The Bulletin of the Center for Children's Books*. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

Learning Outcomes for the degree of Master of Science in Bioinformatics, Library and Information Science Concentration

1. Students will be able to describe the essential concepts in data stewardship, data analytics and systems analysis and policy and the ways in which those concepts impact bioinformatics.
2. Students will demonstrate the ability to read, analyze, discuss, and critique scientific advances and limitations described in the research literature.
3. Students will execute a research project that includes their articulation of a tractable research question that is addressed and analyzed using the appropriate scientific methods.
4. Students will effectively and accurately communicate to an interdisciplinary audience in both oral and written formats.
5. Students will adhere to the highest level of ethical standards in all stages of their research and professional activities.

**Biology, MS**

**phone:** (217) 333-7801

Students pursuing this major select the Ecology, Ethology, and Evolution concentration (p. 611).

## Graduate Degree Programs in Evolution, Ecology, and Behavior

Biology, MS (p. 610)

**required concentration:**

Biology: Ecology, Ethology, & Evolution, MS (p. 611)

Biology, PhD (p. 612)

**required concentration:**

Biology: Ecology, Ethology, & Evolution, PhD (p. 613)

The Department of Evolution, Ecology, and Behavior administers graduate degree programs as concentrations in biology. Areas of training include the broadly defined disciplines of Animal Behavior, Biomechanics, Comparative Anatomy, Conservation Biology, Ecology, Evolution, Genetics/Genomics and Physiology.

## Admission

Acceptance for graduate study in animal biology is based on the applicant's research potential and academic achievement. An undergraduate degree in the life sciences is the usual preparation, but students majoring in mathematics, computer science, or the physical and social sciences are also considered. Courses required for admission are inorganic and organic chemistry, a year of physics, and mathematics through calculus. Students lacking one or more of these courses may be admitted with the provision that such deficiencies be completed in addition to the normal graduate course load. A grade point average of at least 3.0 (A = 4.0) for the last two years of undergraduate work in a four-year undergraduate degree program or the last three years of a five-year undergraduate program and for any graduate study is mandatory. Considerable emphasis is placed on a student's interest and ability in research as demonstrated by previous work and letters of recommendation. Applications are considered for fall admission only. The deadline for application materials is December 15. A minimum paper-based Test of English as a Foreign Language (TOEFL) score of 570 (230 on the computer-based version, 88 on the internet-based version) is preferred for international applicants.

## Financial Aid

Financial aid is available in the form of fellowships and teaching and research assistantships for qualified students.

## Learning Outcomes: Biology, MS

Learning Outcomes for the degree of Master of Science in Biology

Since the subject matter of our Program is interdisciplinary and broad, there is no one set of subject-based learning outcomes that is suitable for the evaluation of our graduate students. Instead, we will focus on appropriate research and professional development skills.

1. Design and implement independent research and integrate and apply core knowledge related to their field in 3 core areas out of 6 (behavior, conservation biology, ecology, evolution, genetics/genomics, physiology/ anatomy)
2. Demonstrate effective oral and written communication skills
  - a. Presentations
  - b. Publications
  - c. Grant writing
3. Apply rigorous statistics/analytical methods that typify their area of study
4. Professional skills
  - a. Data management
  - b. Citation management
  - c. Mentoring
  - d. Ethics
  - e. Professionalism
  - f. Networking
5. Teaching experience

## Biology: Ecology, Ethology, & Evolution, MS

*for the Master of Science in Biology, Ecology, Ethology, and Evolution Concentration*

**email:** eeb@life.illinois.edu

Students pursuing this major select the Ecology, Ethology, and Evolution concentration (p. 613).

## Graduate Degree Programs in Evolution, Ecology, and Behavior

Biology, MS (p. 610)

**required concentration:**

Biology: Ecology, Ethology, & Evolution, MS (p. 611)

Biology, PhD (p. 612)

**required concentration:**

Biology: Ecology, Ethology, & Evolution, PhD (p. 613)

The Department of Evolution, Ecology, and Behavior administers graduate degree programs as concentrations in biology. Areas of training include the broadly defined disciplines of Animal Behavior, Biomechanics, Comparative Anatomy, Conservation Biology, Ecology, Evolution, Genetics/Genomics and Physiology.

### Admission

Acceptance for graduate study in the Department of Evolution, Ecology, and Behavior is based on the applicant's research potential and academic achievement. An undergraduate degree in the life sciences is the usual preparation, but students majoring in mathematics, computer science, or the physical and social sciences are also considered. Courses required for admission are inorganic and organic chemistry, a year of physics, and mathematics through calculus. Students lacking one or more of these courses may be admitted with the provision that such deficiencies be completed in addition to the normal graduate course load. A grade point average of at least 3.0 (A = 4.0) for the last two years of undergraduate work in a four-year undergraduate degree program or the last three years of a five-year undergraduate program and for any graduate study is mandatory. Considerable emphasis is placed on a student's interest and ability in research as demonstrated by previous work and letters of recommendation. Applications are considered for fall admission only. The deadline for application materials is December 15. A minimum paper-based Test of English as a Foreign Language (TOEFL) score of 570 (230 on the computer-based version, 88 on the internet-based version) is preferred for international applicants.

### Financial Aid

Financial aid is available in the form of fellowships and teaching and research assistantships for qualified students.

*for the Master of Science in Biology, Ecology, Ethology, and Evolution Concentration*

For additional details and requirements refer to the department and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Degree Programs in Department

Biophysics and Quantitative Biology, MS (p. 614)

Biophysics and Quantitative Biology, PhD (p. 616)

**optional concentration:**

Computational Science and Engineering (p. 1064)

Biophysics and Quantitative Biology offers a doctor of philosophy degree program. In rare circumstances and with special permission of the director and advisor, a current student may obtain a terminal master's degree after meeting the requirements of the degree. Biophysics students are not admitted initially into the program for a master's degree. Opportunity also exists for specializing in computational science and engineering within the department's graduate program via the Computational Science and Engineering (CSE) Concentration (<http://www.cse.illinois.edu/education/minor-and-concentration/graduate-concentration/>).

## Admission

The objective of the program in biophysics is to give students sufficient training in physics, chemistry, and biology to enable them to apply the conceptual, instrumental, and mathematical approaches of the physical sciences for solving biological problems. The curriculum is broadly based and provides sufficient flexibility for students entering with either previous training in the physical sciences or for students with a background in biology and some experience in the physical sciences.

Admission requirements are usually one year of college biology, one year of college physics, chemistry through organic chemistry, and mathematics through calculus; however deficiencies in one of these areas can be corrected during the first two years of study. Most applicants who are accepted into the program have general Graduate Record Examination (GRE) scores in the 70%-90% range. The Biophysics and Quantitative Biology Program does not require the subject GRE for admission. The Test of English as a Foreign Language (TOEFL iBT) or IELTS is required for international applicants.

Please refer to the Biophysics and Quantitative Biology Admissions web page (<http://www.life.illinois.edu/biophysics/program/admissions.html>) for additional information and application deadlines.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program. Every biophysics student is required to serve as a teaching assistant for one semester at the quarter time level or higher.

## Faculty Research Interests

Over 40 faculty members from the Schools of Molecular and Cellular Biology, Chemical Sciences, and Medicine, and the Colleges of Engineering and Veterinary Medicine, are affiliated with the Center for Biophysics and Quantitative Biology. Faculty interests range from experimental biophysics (single molecule spectroscopy, protein and RNA folding, molecular dynamics, cellular biophysics, imaging, etc.) to computational and theoretical biophysics (utilizing a wide range of computer platforms to simulate diverse biological phenomena at many levels as well as bioinformatics). Individual faculty interests can be found on the Biophysics web site (<http://biophysics.illinois.edu/people/faculty/>).

## Facilities and Resources

Center faculty and students have access to world-class research facilities at the University of Illinois, including the Beckman Institute, the Carl R Woese Institute for Genomic Biology, Blue Waters Sustained Petascale Computing, the National Center for Supercomputing Applications, the Biomedical Imaging Center, the Roy J Carver Biotechnology Center, and the School of Chemical Sciences' Mass Spectroscopy Center and Electron Paramagnetic Resonance (EPR) Research Center.

## Financial Aid

All incoming graduate students in biophysics will be supported by the Center for the first semester in the program. Continuing support for subsequent years will be granted as long as students remain in good standing and continue to make satisfactory academic progress, contingent upon the availability of funds. This support can be in the form of research assistantships, teaching assistantships, traineeships, or fellowships. After the first semester of study, most students are supported directly by their research advisor in the form of a research assistantship.

*for the degree of Master of Science in Biophysics and Quantitative Biology*

---

For additional details and requirements refer to the department's Student Handbook (<http://biophysics.illinois.edu/program/courses/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

This support can be in the form of research assistantships, teaching assistantships, traineeships, or fellowships. After the first semester of study, most students are supported directly by their research advisor in the form of a research assistantship.

*for the degree of Doctor of Philosophy in Biophysics and Quantitative Biology*

A qualifying examination is offered each spring. This qualifier must be passed by the end of the second year. By the end of the third year, after formulating a definite research problem, the student takes a preliminary

examination where the chosen research topic is presented to the student's faculty committee. The committee also examines the candidate on their chosen general research area. The Ph.D. thesis is based on original work of the student and is defended at a final public examination. The thesis and the exam must demonstrate a thorough knowledge of theory and techniques in one of the areas of biophysics.

For additional details and requirements refer to the department's Student Handbook (<http://biophysics.illinois.edu/program/courses/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Minimum GPA:	2.75

## Learning Outcomes: Bioprocessing and Bioenergy, PSM

Learning Outcomes for the degree of Master of Bioprocessing & Bioenergy: Professional Master's Concentration

1. Advanced knowledge in bioprocessing and bioenergy. There is no specific undergraduate major that focuses on either bioprocessing or bioenergy, so introducing the scientific basis for converting biomass to value-added products is the key component of the bioprocessing and bioenergy curriculum.
2. Business: Introduce students with strong technical undergraduate degrees to business fundamental concepts such as project management, finance, and accounting.
3. Industry experience that gives the students a realistic view of job opportunities and the hurdles faced by bioprocessing and bioenergy companies.
4. PSM: ability to identify career interests, career path, goals to reach career aspirations, materials and knowledge for a successful internship & career search.
5. PSM: ability to communicate science to a non-science audience; ability to work on a team.

## Business Administration, MBA - Online (iMBA)

*for the Masters of Business Administration in Business Administration*

**associate dean: W. Brooke Elliott**  
**email:** [onlineMBA@illinois.edu](mailto:onlineMBA@illinois.edu)

**college website:** <https://giesbusiness.illinois.edu/>  
**department office: 2019 Business Instructional Facility, 515 E. Gregory, Champaign, IL 61820**  
**phone: (217) 333-4240**

The Gies College of Business offers a degree program leading to the Master of Business Administration (M.B.A.) in 3 delivery modes. The traditional full-time MBA and the Professional MBA are offered on the Urbana campus. The online edition is offered for students who need more flexibility in their MBA programs.

All Illinois MBA programs require 72 hours of credit. Students graduate with a Masters of Business Administration from the University of Illinois at Urbana-Champaign. Student transcripts do not vary based upon program format.

The **Full-time MBA** is offered in a lockstep, face-to-face cohort format for the first-year core curriculum. The core consists of 40 hours of classwork that provide the foundation. During the second year, students have the flexibility to customize their area of concentration by taking 32 hours of business and non-business courses.

The Illinois **Professional MBA** uses a lockstep hybrid cohort format, including in-person and. The program consists of eighteen four-credit courses for a total of 72 credit hours. Modules (semesters) are ten or five weeks long, unless otherwise noted. The cohort class structure allows members of each class to begin the program at the same time and advance through the curriculum together. During each module, study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class.

The **online MBA(iMBA)** uses a flexible program format. The iMBA consists of eighteen four-credit courses for a total of 72 credit hours. During each course, virtual study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class. The online MBA caters to a segment of the population that values mobility, convenience, and believes that the online programs better fit their learning styles and life circumstances.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 622) (**Full-Time**)  
**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Corporate Governance & International Business (p. 1065), Information Technology & Control (p. 1074), Real Estate (p. 1078), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 620) (**Professional - part-time**)

**with optional concentrations:** Business Data Analytics (p. 1061), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 618) (**online-iMBA**)

Business Administration, MS (p. 623)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Corporate Governance & International Business (p. 1065), Supply Chain Management (p. 1082)

Management, MS (p. 833)

**with optional concentrations:** Business Data Analytics (p. 1061)

Technology Management, MS (p. 1023)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, PhD (p. 624)

### Minors:

Information Technology & Control (p. 1101)  
 Corporate Governance & International Business (p. 1095)  
 Supply Chain Management (p. 1110)

### Concentrations:

Business Data Analytics (p. 1061)  
 Corporate Governance & International Business (p. 1065)  
 Information Technology & Control (p. 1074)  
 Supply Chain Management (p. 1082)

### Joint Degree Programs:

MBA Joint Degree Program: (p. 1122) **the M.B.A. can be earned jointly with any master's or Ph.D. program offered on campus as well as the Law, JD** ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/)).

## Admission

Admission to the Illinois Gies MBA is dependent upon an earned undergraduate degree, acceptable scores on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE), two letters of recommendation, professional resume and essays. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL) or the IELTS. For additional requirements the applicant should refer to the MBA application.

Applicants to the **online MBA (iMBA)** program must have completed an earned undergraduate degree and submit scores on the Graduate

Management Admission Test (GMAT) or Graduate Record Examination (GRE) if available. Two letters of recommendation and essays are also required. Applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL) or the IELTS.

## Scholarships/Financial Aid

Scholarships are generally not available for the iMBA.

*for the Masters of Business Administration in Business Administration*

The goal for the iMBA program at Illinois is to deliver a high-quality program that is accessible to global audiences. A mirror of the EMBA curriculum, the online MBA (iMBA) uses a flexible program format. During each iMBA course, virtual study teams are created that are designed to draw upon the diverse academic and professional backgrounds of the class. The program caters to a segment of the population that values mobility, convenience, and believes that the online programs better fit their learning styles and life circumstances.

For additional details and requirements refer to the department's curriculum overview (<https://onlinemba.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**department office: 350 Wohlers Hall, 1206 S. Sixth Street, Champaign, IL 61820**

**phone: (217) 333-4240**

The Master of Science in Business Administration is a 40 graduate hours master's program best suited for those with a strong technical expertise in one of the concentrations offered within the Ph.D. program. The focus is on preparation for advanced study in the doctoral program or for a research-oriented position. The coursework can usually be completed in four semesters. A major must be specified from one of six areas offered within the Department of Business Administration: organizational behavior/theory, strategic management, marketing, decision sciences and information systems, and process management/management science. At least two courses should be chosen from another area within the Department of Business Administration or a related area outside the department or college.

The program also admits a cohort of professional students focusing on International Business. The cohort requires 12 hours of coursework in International Business, normally completed in three semesters. Students have the option of pursuing an internship during their third (summer) semester.

This program offers an in-depth education in teaching and research in selected areas of business and administration. Doctoral students can specialize in marketing, organizational behavior/theory, management science/process management, information systems, and strategic management. The program is intensive, flexible, and adapted to individual needs.

Each student's program entails sufficient study and preparation to achieve the following:

1. competence in a common core covering substantive and research methods courses, which are formulated by the faculty in each area;
2. in-depth expertise in a major area;
3. expertise in at least one area in addition to the chosen major area, with this minor area selected from within or outside the department;
4. teaching experience; and
5. research or problem-solving competence.

Competency is determined by comprehensive written and/or oral examinations. Following successful completion of all coursework and comprehensive examinations in major and minor areas, students must propose and gain approval of a thesis topic at a public colloquium. The final program requirement is the successful oral defense of the thesis. Applicants should contact the department for current requirements and program design.

The program usually is completed in four years. Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 622) (**Full-Time**)  
**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Corporate Governance & International Business (p. 1065), Information Technology & Control (p. 1074), Real Estate (p. 1078), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 620) (**Professional - part-time**)

**with optional concentrations:** Business Data Analytics (p. 1061), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 618) (**online-iMBA**)

Business Administration, MS (p. 623)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Corporate Governance & International Business (p. 1065), Supply Chain Management (p. 1082)

Management, MS (p. 833)

**with optional concentrations:** Business Data Analytics (p. 1061)

Technology Management, MS (p. 1023)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, PhD (p. 624)

### Minors:

Information Technology & Control (p. 1101)  
 Corporate Governance & International Business (p. 1095)  
 Supply Chain Management (p. 1110)

### Concentrations:

Business Data Analytics (p. 1061)  
 Corporate Governance & International Business (p. 1065)  
 Information Technology & Control (p. 1074)  
 Supply Chain Management (p. 1082)

### Joint Degree Programs:

MBA Joint Degree Program: (p. 1122) **the M.B.A. can be earned jointly with any master's or Ph.D. program offered on campus as well as the Law, JD** ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/)).

## Admission

Admission to the Ph.D. program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours, acceptable scores on the Graduate Management Admission Test (GMAT) or Graduate Records Examination (GRE), three letters of recommendation, and a statement of career goals including research interests.

Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL), CBT, iBT or IELTS. Ph.D. candidates must achieve the University minimum scores on these examinations.

The Ph.D. program allows fall admission only. Please check the Departmental listing for current requirements and program information:

<https://giesbusiness.illinois.edu/programs/doctoral/business-administration> (<https://giesbusiness.illinois.edu/programs/doctoral/business-administration/>)

## Faculty Research Interests

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The Gies College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

## Financial Aid

Most Ph.D. students receive some form of financial assistance. This assistance is likely to be in the form of a teaching or research assistantship, which includes a waiver of tuition and some fees, and/or the award of a merit-based fellowship.

## Graduate Degree Programs in Cell & Developmental Biology

Cell & Developmental Biology, MS (p. 626)  
Cell & Developmental Biology, PhD (p. 628)

The graduate curriculum in Cell and Developmental Biology is designed to educate students for careers in research and teaching in the biological sciences. Departmental faculty are concerned with the structural and functional relationships of cells and organisms, with research emphases upon eukaryotic cell and molecular biology, neurobiology, developmental biology, and molecular genetics. The department has embarked on a major program to develop research strengths in molecular aspects of developmental, neural, structural, and eukaryotic cell biology to complement existing faculty interests. Students are not admitted to the M.S. program; M.S. requirements are completed as part of the Ph.D. program.

### Admission

Students interested in this program must apply directly to the School of Molecular and Cellular Biology ([www.mcb.illinois.edu/graduate/gradprospect.html](http://www.mcb.illinois.edu/graduate/gradprospect.html) (<http://www.mcb.illinois.edu/graduate/gradprospect.html>)). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December and formally join the appropriate graduate program/department at that time.

Important factors in the evaluation of applications are general academic performance, background in the biological and chemical sciences and mathematics, Graduate Record Examination (GRE) scores, and letters of recommendation from college professors. The department does not admit students to the M.S. program.

### Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

### Facilities and Resources

Facilities include modern, well-equipped laboratories for cellular, developmental, genetic, molecular, and structural studies. The University offers exceptional and broadly based research support services. These include the Center for Electron Microscopy, with state-of-the-art instrumentation; the Center for Biotechnology, which includes facilities for molecular cloning, DNA and protein synthesis and sequencing, and transgenic animals; the Cell Science Center, which houses and staffs a hybridoma facility and flow cytometry unit; School of Molecular and Cellular Biology-subsidized shops; and a superb university library system, the third largest in the nation. The University offers outstanding computer services and is home to the National Center for Supercomputing Applications. The Beckman Institute for Advanced Science and Technology combines research in the physical and biological sciences. Opportunities for interaction in the cellular and molecular sciences are also available in many other units within the Schools of Molecular and Cellular Biology, Integrative Biology, and Chemical Sciences and the Colleges of Medicine, Agricultural, Consumer and Environmental Sciences, and Engineering.

### Financial Aid

Financial aid is available to qualified applicants in the form of university fellowships (awarded on a competitive basis), teaching assistantships (awarded by the department), research assistantships, and tuition and fee

waivers. Outstanding applicants are nominated for support from the Cell and Molecular Biology, Molecular Biophysics.

### for the Master of Science in Cell & Developmental Biology

For additional details and requirements refer to the department's Graduate Student Handbook (<http://mcb.illinois.edu/departments/cdb/gradcurrent.html>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Completion of one of the following: Pass the Preliminary Exam, or approval of the graduate program committee (chaired by a tenured CDB faculty member and comprised of at least 5 CDB faculty members), or by approval of the research advisor and department head.	
Minimum GPA:	3.00

## Learning Outcomes: Cell & Developmental Biology, MS

Learning Outcomes for the Master of Science in Cell & Developmental Biology

Cell & Developmental Biology graduates will:

1. Have mastered the foundational knowledge that defines the fields of cell and developmental biology.
2. Be able to write clearly and effectively about cell and developmental biology at the graduate level as well as in layperson terms.
3. Be able to explain cell and developmental biology orally to professional scientists, students of the discipline, and to a lay audience.
4. Be prepared to teach foundational cell and developmental biology at the college level.
5. Be able to analyze scientific data and draw conclusions from it.

6. Be able to identify important unsolved problems in cell and developmental biology.
7. Be able to articulate a hypothesis of an unsolved problem and design a research plan to test the hypothesis.
8. Be able to perform controlled experiments to test hypotheses.
9. Be able to organize results from experiments into a clear narrative that advances the field.
10. Be able to articulate the significance of their research in the broader context of the field.

## Learning Outcomes: Chemical Engineering, MS

Learning Outcomes for the degree of Master of Science in Chemical Engineering

1. Knowledge of the concepts and problem-solving skills in mathematics, science, and engineering that are relevant to identifying, formulating, and solving defined research problems in the field of chemical and biomolecular engineering.
2. Ability to clearly and persuasively communicate (orally and in writing) the motivation for a research project, relevant scientific and engineering concepts, approach, experimental data, data interpretation, conclusions drawn from the research, and the significance of the findings to both experts in the field and non-expert scientists and engineers.
3. Ability to develop and conduct appropriate experimentation or computer simulation, analyze and interpret data, and use engineering judgment to draw conclusions.
4. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

---

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

Ideal candidates for advanced degrees in chemical engineering should have a background in chemistry and chemical engineering comparable to the training offered in the undergraduate chemical engineering curriculum at the University of Illinois at Urbana-Champaign. Students whose prior training is deficient in one or more basic areas of chemistry or chemical engineering may be admitted with the understanding that extra coursework will be required to address their deficiencies. Graduate College admission requirements also apply.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Students who remain in good standing and continue to make satisfactory academic progress are guaranteed a funded appointment that includes a full tuition waiver, a partial fee waiver, and a stipend for the duration of their studies in the program.

### Graduate Teaching Experience

Experience in teaching is considered a vital part of the Chemical & Biomolecular Engineering PhD program. As part of their academic work, all students in the program are required to serve as a teaching assistant for at least three semesters.

In order to satisfy this requirement, all students whose native language is not English, regardless of US citizenship, must demonstrate spoken English language proficiency (<http://www.grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

### Department Research

Please see [chbe.illinois.edu/research](http://chbe.illinois.edu/research/) (<http://chbe.illinois.edu/research/>).

### Other Graduate Programs in Chemical & Biomolecular Engineering

degrees:

Chemical Engineering, MS (p. 629)  
 Bioinformatics: Chemical & Biomolecular Engineering, MS (p. 603)

The Department of Chemical and Biomolecular Engineering offers graduate programs leading to degree of Master of Science and Doctor of Philosophy in Chemical Engineering, as well as a Chemical & Biomolecular Engineering Concentration under the MS in Bioinformatics.

Chemistry, MS (p. 633)

Chemistry, PhD (p. 634)

### concentrations:

Astrochemistry (p. 1051)|Computational Science & Engineering (p. 1064)

Chemical Physics, PhD (p. 631)

Teaching of Chemistry, MS (p. 1014)

### joint programs:

Chemistry, MS & Law, JD (p. 1121)

Chemistry, MS & Business Administration, MBA (p. 1115)

A chemical physics program leading to the Doctor of Philosophy makes it possible for students to gain the necessary background and perform original research in this interdisciplinary field of science. Fundamental research on many properties of molecular and solid-state systems is based on an understanding of chemistry, physics, and mathematics that can best be obtained by training in more than one department. Students may use the facilities in both the School of Chemical Sciences and the Department of Physics.

## Admission

Applicants who have fulfilled the usual undergraduate course requirements, including at least 25 semester hours in chemistry (properly distributed) and a grade point average of 3.0 (A = 4.0), may be considered for admission to the graduate programs. Applications from students with less than the usual preparation in chemistry or with grade point averages below 3.0 may be considered on an individual basis. In addition, applicants must submit results from the Graduate Record Examination general test and the Graduate Record Examination chemistry subject test.

International students whose native language is not English are required to have a minimum paper-based TOEFL score of 580 (237 on the

computer-based test). In addition, teaching is a requirement in the Chemistry graduate program and there are special requirements for applicants whose native language is not English. The University requires a minimum TOEFL iBT speaking score of 24 for a contact teaching assistant appointment. Any applicant whose native language is not English is expected to provide TOEFL scores in order to receive full consideration for admission and financial aid.

Please contact chemistry graduate admissions for further information.

## Financial Aid

Students may apply for fellowships and assistantships from either the Department of Chemistry or the Department of Physics.

for the degree of Doctor of Philosophy in Chemical Physics

Students entering through the Department of Chemistry must satisfy the registration examination, literature seminar, preliminary examination, and original research proposal requirements of Physical Chemistry. The guidelines for these requirements are in the Department of Chemistry Graduate Manual. Students entering through the Department of Physics must satisfy the PhD requirements of the Department of Physics. Research for the thesis is performed under the direction of faculty members who are currently active in chemical physics. Many of these staff members are affiliated with the Materials Research Laboratory (MRL). MRL is a multidisciplinary facility shared by staff and students from the Departments of Physics, Chemistry, Materials Science and Engineering, Electrical and Computer Engineering, and other related departments that have common interests in materials science.

## Not accepting applications at this time

### Graduate Degree Programs in Chemistry

Chemistry, MA (p. 632)

Chemistry, MS (p. 633)

Chemistry, PhD (p. 634)

#### concentrations:

Astrochemistry (p. 1051) | Computational Science & Engineering (p. 1064)

Chemical Physics, PhD (p. 631)

Teaching of Chemistry, MS (p. 1014)

#### joint programs:

Chemistry, MS & Law, JD (p. 1121)

Chemistry, MS & Business Administration, MBA (p. 1115)

## Admission

Graduate College requirements apply. Further, applicants should have at least 25 semester hours in chemistry (properly distributed) and a grade point average of 3.0 (A = 4.0), to be considered for admission to the graduate programs. Applications from students with less than the usual preparation in chemistry or with grade point averages below 3.0 may be considered on an individual basis. In addition, we ask applicants

to submit results from the Graduate Record Examination (GRE) General Test and the GRE Chemistry Subject Test.

International students whose native language is not English are required to have a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 580 (237 on the computer-based test). In addition, teaching is a requirement in the chemistry graduate program, and there are special requirements for applicants whose native language is not English. The University requires a minimum Test of Spoken English (TSE) score of 50. Any applicant whose native language is not English is expected to provide TSE scores in order to receive full consideration for admission and financial aid.

Students who are currently enrolled in graduate programs at other institutions are advised that they should first complete degree work at their current institution before they will be considered for admission to the chemistry PhD program at the University of Illinois. In addition, we require a statement from the applicant and a letter from the applicant's research adviser or department head detailing the situation. Students might be admitted without a degree from their current institution under exceptional circumstances that will need to be described in detail via a letter from the applicant and a separate statement from the department head of the student's current graduate program.

Contact chemistry graduate admissions for further information. The department does not currently accept applications for the MA program.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program.

## Financial Aid

Support for graduate students is available through fellowships and assistantships. All candidates are considered for these upon application. Graduate students making normal progress toward their degrees generally receive a tuition waiver as well as a stipend.

## Learning Outcomes: Chemistry, MA

Learning outcomes for the degree of Master of Arts in Chemistry

NOTE: Some of the learning outcomes below were taken or adapted from the 2013 American Chemical Society Presidential Commission on Graduate Education in the Chemical Sciences. The Department of Chemistry uses these as its main guidelines.

1. To have a deep working knowledge of the principles, techniques, and concepts of contemporary chemistry.
2. To be able to effectively design and carry out independent research leading to new knowledge or a practical, applicable result.
3. To be able to communicate clearly and effectively within and across disciplinary lines.
4. To be able to educate students interested in chemical sciences.
5. To be aware of and prepare for various career opportunities with an advanced degree in chemistry.
6. To clearly understand the ethical conduct of research.
7. To understand and adopt the best safety practices in chemical research.

## Financial Aid

Support for graduate students is available through fellowships and assistantships. All candidates are considered for these upon application. Graduate students making normal progress toward their degrees generally receive a tuition waiver as well as a stipend.

*for the Doctor of Philosophy in Chemistry*

Doctoral programs are offered in a wide range of specialties, including the traditional areas of analytical, inorganic, organic, and physical chemistry as well as materials chemistry and chemical biology. The formal course requirements involve 12 or more hours of 500-level courses, plus 8 or fewer hours of 400-level courses, for a total of 20 hours in chemistry and allied relevant fields. Besides completing formal coursework, students will present a literature seminar, have a formal review of progress following the completion of coursework, pass an oral preliminary examination on research preparation, present and defend an original research proposal not related to their thesis research, and submit a thesis on original research, which is defended at a final oral examination.

For additional details and requirements refer to the department's Graduate Programs (<https://chemistry.illinois.edu/academics/graduate-studies/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**email:** [civil@illinois.edu](mailto:civil@illinois.edu)

The Department of Civil and Environmental Engineering, consistently ranked as having one of the best graduate programs in the country, offers graduate work leading to master's and doctoral degrees. These are in a variety of specialized areas through departmental and joint programs which are described on this page.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

The Department of Civil & Environmental Engineering accepts applications for admission to the graduate program for both fall and spring semesters.

A prerequisite for graduate study in civil engineering is the equivalent of the BS in Civil Engineering (p. 89) from an accredited institution whose requirements for the bachelor's degree are substantially equivalent to those of the University of Illinois and his or her cumulative grade point average is at least 3.00 (A = 4.00). The Graduate Record Examination (GRE) (<http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnnextoid=b195e3b5f64f4010VgnVCM10000022f95190RCRD>) is required.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

Applicants to the joint programs with Architecture or Urban Planning must meet the admissions standards for both degree programs and be accepted by both programs. For more information on the joint degree program, please see Civil Engineering, MS & Architecture, MARCH (p. 1114) or Urban Planning, MUP & Related majors, MS (p. 1133)

## Financial Aid

Financial aid is available in the form of fellowships and research and teaching assistantships. All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://www.grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 50 or 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Areas of study and research pursued by our world-renowned faculty are focused in the following ten specializations:

- construction management
- environmental engineering and science
- environmental hydrology and hydraulic engineering
- geotechnical engineering
- materials
- structural engineering
- transportation engineering
- sustainable and resilient infrastructure systems
- energy- and water- environment sustainability
- societal risk and hazard mitigation

More information about these specialized areas may be found at the department's research Web site (<https://cee.illinois.edu/areas/>).

Through the research centers based in the department, CEE students participate in a wide range of groundbreaking research projects with immediate relevance to real-world engineering applications. For more information, see the department's research centers Web site (<https://cee.illinois.edu/research/research-centers/>).

CEE at Illinois is one of the nation's best-equipped programs, with a broad range of facilities for civil and environmental engineering education and research. For more information, see the department's research facilities Web site (<https://cee.illinois.edu/research/research-facilities/>).

## Other Graduate Programs in the Department of Civil & Environmental Engineering

degrees:

Civil Engineering, PhD (p. 638)

### optional concentrations:

Computational Science and Engineering (p. 1064)

Environmental Engineering in Civil Engineering, MS (p. 731)

### optional concentrations:

Computational Science and Engineering (p. 1064)

Environmental Engineering in Civil Engineering, PhD (p. 733)

### optional concentrations:

Computational Science and Engineering (p. 1064)

concentrations:

Railway Engineering (p. 724)

### available for:

Engineering, MENG (p. 720)

joint programs:

Civil Engineering, MS & Architecture, MARCH (p. 1114),  
**(Construction Management or Structures)**

Civil Engineering, MS & Urban Planning, MS (p. 1133)

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

*for the degree of Master of Science in Civil Engineering (on campus & non-thesis online)*

The degree requirements for the online programs are the same as for the on-campus non-thesis M.S. program—36 hours of course work—and the degree awarded to online students is the same degree awarded to resident students. Online students have five years to complete the program.

The M.S. degree in Civil Engineering offered online is currently available for specialization in Construction Management, Infrastructure, Structural Engineering, and Transportation Engineering. Students can also develop cross-disciplinary programs in consultation with their advisers. Additional courses are available online in the following areas of concentration to complement the student's area of specialty above: Construction Materials, Environmental Engineering and Science, Environmental Hydrology and Hydraulic Engineering, and Geotechnical Engineering.

For additional details and requirements refer to the department's Graduate Handbook (<https://cee.illinois.edu/academics/graduate-programs/graduate-handbook/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## This degree program can be completed either on campus or online; with or without a thesis, the requirements are listed below:

Code	Title	Hours
<b>Non-Thesis Option</b>		
Elective courses	36 hours subject to Other Requirements and Conditions below	
<b>Total Hours</b>	<b>Non-Thesis Option</b>	<b>36</b>

<b>Thesis Option</b>		
CEE 599	Thesis Research (4 to 12 hours)	
Elective courses	20-28 hours subject to Other Requirements and Conditions below	
<b>Total Hours</b>	<b>Thesis Option</b>	<b>32</b>

## Other Requirements

Requirement	Description
Other Requirements may overlap	
Individual programs are developed by the students in consultation with their academic advisors.	
A minimum of 16 hours of credit within the major field with 8 graded and at the 500 level.	
A minimum of 12 hours at the 500-level overall.	

A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement.

At least half of the minimum hours required for the degree must be in Illinois courses meeting on the Urbana-Champaign campus or in courses meeting in other locations approved by the Graduate College for residency credit for the degree.

Minimum program GPA 2.75

## Learning Outcomes: Civil Engineering, MS

Learning Outcomes for the degree of Master of Science in Civil Engineering (on campus & non-thesis online)

1. Ability to identify and utilize advanced mathematical, computational, design and/or experimental skills to solve complex problems in civil and environmental engineering
2. Demonstrate technical knowledge and depth in at least one or more CEE subject areas and breadth of knowledge in at least one additional area.
3. Demonstrate the ability to communicate effectively (written, oral presentation, and other media) technical ideas, design concepts, or research results.
4. Understanding of the student's professional and scientific ethical responsibilities;
5. Propose, plan, and execute original research idea that target current or future societal challenges related to civil and environmental engineering.
6. Demonstrate skills to teach technical subjects in CEE at the university level

## Civil Engineering, PhD

**email:** [civil@illinois.edu](mailto:civil@illinois.edu)

The Department of Civil and Environmental Engineering, consistently ranked as having one of the best graduate programs in the country, offers graduate work leading to master's and doctoral degrees. These are in a variety of specialized areas through departmental programs which are described on this page.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

### Admission Requirements

The Department of Civil & Environmental Engineering accepts applications for admission to the graduate program for both fall and spring semesters.

Admission to the Graduate College with full status in civil engineering is granted to graduates of accredited institutions whose requirements for the master's degree are substantially equivalent to those of the University of Illinois, provided the applicant's preparation is appropriate for advanced study in his or her chosen major field and his or her cumulative grade point average is at least 3.00 (A = 4.00). The Graduate Record Examination (GRE) (<http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnextoid=b195e3b5f64f4010VgnVCM10000022f95190RCRD>) is required. For additional information, see the departmental Web site (<http://cee.illinois.edu/programs/Grad/GradApps/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Financial aid is available in the form of fellowships and research and teaching assistantships. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment

for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://www.grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 50 or 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

### Department Research

Areas of study and research pursued by our world-renowned faculty are focused in the following ten specializations:

- construction management
- environmental engineering and science
- environmental hydrology and hydraulic engineering
- geotechnical engineering
- materials
- structural engineering
- transportation engineering
- sustainable and resilient infrastructure systems
- energy-water environment sustainability
- societal risk and hazard mitigation

More information about these specialized areas may be found at the department's research Web site (<https://cee.illinois.edu/areas/>).

Through the research centers based in the department, CEE students participate in a wide range of groundbreaking research projects with immediate relevance to real-world engineering applications. For more information, see the department's research centers Web site (<https://cee.illinois.edu/research/research-centers/>).

CEE at Illinois is one of the nation's best-equipped programs, with a broad range of facilities for civil and environmental engineering education and research. For more information, see the department's research facilities Web site (<https://cee.illinois.edu/research/research-facilities/>).

#### *for the degree of Doctor of Philosophy in Civil Engineering*

---

The degree of Doctor of Philosophy, primarily a research degree, requires from three to four years of graduate study beyond the master's degree.

The major area of specialization encompasses courses and research that are closely related, but the courses need not be offered by a single major department. Candidates must demonstrate a capacity for independent research by preparing an original thesis on a topic within the major field of study, must meet the qualifying requirements or examination in the area of specialization, and must pass both preliminary and final examinations.

For additional details and requirements refer to the department's Graduate Handbook (<http://cee.illinois.edu/online-graduate-handbook/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

### Entering with an approved Master's Degree:

Code	Title	Hours
CEE 599	Thesis Research (min-max applied toward degree)	32
Elective courses (subject to Other Requirements and Conditions below)		32
Total Hours		64

### Other Requirements

Requirement	Description
Other Requirements and Conditions may overlap	
A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement; approval required.	
There is no department-wide foreign language requirement. However, the faculties of some areas of specialization may require foreign language proficiency if essential to the conduct of research in that area.	
64 graduate hours must be completed in residence.	
A Masters degree is required for admission to the Ph.D. program.	
Ph.D. exam and dissertation requirements:	
Qualifying exam <sup>1</sup>	
Preliminary exam	

Final exam or dissertation defense

Dissertation deposit

The minimum program GPA is 2.75.

### Entering with an approved Baccalaureate Degree:

Code	Title	Hours
CEE 599	Thesis Research	32-40
Elective Courses (subject to Other Requirements and Conditions below)		56-64
Total Hours		96

### Other Requirements

Requirement	Description
Other Requirements and Conditions may overlap	
A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement; approval required.	
There is no department-wide foreign language requirement. However, the faculties of some areas of specialization may require foreign language proficiency if essential to the conduct of research in that area.	
24 credit hours must be in major field. 24 credit hours of elective coursework must be at the 500-level, with at least 12 hours in major field.	
64 graduate hours must be completed in residence.	
Ph.D. exam and dissertation requirements:	
Qualifying exam <sup>1</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
The minimum program GPA is 2.75.	

<sup>1</sup> Qualifying Exam Information (<http://cee.illinois.edu/academics/graduate-programs/phd-degree-and-curriculum/>)

## Learning Outcomes: Civil Engineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Civil Engineering

1. Ability to identify and utilize advanced mathematical, computational, design and/or experimental skills to solve complex problems in civil and environmental engineering
2. Demonstrate technical knowledge and depth in at least one or more CEE subject areas and breadth of knowledge in at least one additional area.

3. Demonstrate the ability to communicate effectively (written, oral presentation, and other media) technical ideas, design concepts, or research results.
4. Understanding of the student's professional and scientific ethical responsibilities;
5. Propose, plan, and execute original research idea that target current or future societal challenges related to civil and environmental engineering.
6. Demonstrate skills to teach technical subjects in CEE at the university level

## Classical Philology, PhD

*for the degree of Doctor of Philosophy in Classical Philology*

**chair of department: Antonios Augoustakis**

**director of graduate studies: Ariana Trill**

**department website:** <http://www.classics.illinois.edu>

**college website:** <https://las.illinois.edu/>

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**overview of college admissions & requirements:**

**department office: 4080 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801**

**phone: (217) 333-1008**

**email: [classics@illinois.edu](mailto:classics@illinois.edu)**

The Doctor of Philosophy is offered only in classical philology, which requires advanced work in both Greek and Latin. Candidates for the Ph.D. program are eligible for acceptance upon completion of the master's degree in classics or its equivalent. Once admitted, they must complete at least 64 additional graduate hours of coursework. Admission to Stage III requires passing examinations in the translation of Greek and Latin into English, the history of Greek and Latin literature, and a special author, as well as a preliminary oral examination (dissertation prospectus).

### Graduate Degree Programs in Classics

Classics, MA (p. 642)

**concentrations:** Greek (p. 643) | Latin (p. 644) |

Medieval Studies (p. 1076)

Teaching of Latin, MA (p. 1016)

Classical Philology, PhD (p. 640)

**concentration:** Medieval Studies (p. 1076)

### Admission

Applicants for admission to the MA in Classics (Greek and Latin) must ordinarily present a minimum of 20 semester hours in one of the two languages (Greek or Latin) and 15 semester hours in the other language; candidates for admission to the MA with specialization in either Greek or Latin, or the MAT in Latin, must ordinarily present at least 20 semester hours in the relevant language. Previous work in ancient history, ancient art and archaeology, philosophy, literary criticism, or linguistics is desirable.

Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a personal statement of 2-3 pages, a resume or CV, transcripts showing all undergraduate and graduate work completed, and a writing sample of approximately 20 pages (one or two papers) that showcases the applicant's ability to work in the original classical languages and

incorporates relevant scholarship as appropriate. Three letters of recommendation are also required.

Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Certifications

Students wishing to add teacher certification in Latin to an MAT, M.A. in Latin, or Ph.D. must apply to the Foreign Language Teacher Education Program (<http://www.flte.illinois.edu>).

In order to receive certification, students must complete an M.A. in Classics with a concentration in Latin, an M.A. in Classics with a concentration in Greek and Latin, or an M.A. in the Teaching of Latin.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and almost all students teach. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Faculty Research Interests

Greek and Latin literature of all periods; gender and sexuality; Latin poetry of the imperial period; Greek historiography and ethnography; Greek and Roman drama; reception of Classics, especially in film; animal studies; pedagogy. For further details see [www.classics.illinois.edu/people/](http://www.classics.illinois.edu/people/) (<http://www.classics.illinois.edu/people/>).

## Facilities and Resources

We have a renowned university library which boasts the second largest number of volumes among US university libraries after Harvard. Housed within the main library building is our first-rate Classics collection (see [www.library.illinois.edu/clx/](http://www.library.illinois.edu/clx/) (<http://www.library.illinois.edu/clx/>)) with over 60,000 volumes on open shelves. The University of Illinois Library's Rare Book Room houses the Turyn Archive of Greek manuscript photographs and the American Center of the International Photographic Archive of Papyri. The Department of the Classics also publishes the widely circulating peer-reviewed journal *Illinois Classical Studies* and its Supplements. The Krannert Art Museum and the Spurlock Museum of World Cultures have outstanding collections of ancient vases and other artifacts.

## Financial Aid

University fellowships are available for the academic year. Teaching assistantships are available for both the academic year and Summer Session II.

### for the degree of Doctor of Philosophy in Classical Philology

Code	Title	Hours
CLCV 550	Intro to Teaching of Classics (if not taken previously)	0 or 4

24 hours of Greek and Latin, with at least eight hours in each language and at least twenty at the 500 level, including:	24
GRK 595 Intro to Classical Studies (if not taken previously)	
or LAT 595 Intro to Classical Studies	
LAT 511 Advanced Prose Composition (if not taken previously)	
GRK 511 Advanced Composition (if not taken previously)	
LAT 580 Latin Seminar	
GRK 580 Greek Seminar	
Elective	4-8
Language Requirement: Reading knowledge of two ancillary languages: German, and either French or Italian. Knowledge of one of these languages must be demonstrated at the time of admission to Stage II and the second before the start of the second year at Stage II.	
GRK/LAT 599 Thesis Research	12-32
Total Hours	64

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Masters Degree Required for Admission to PhD?:	Yes
Qualifying Exam Required:	Yes
Preliminary Exam Required:	Yes
Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes
Minimum GPA:	2.75

## Learning Outcomes: Classical Philology, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Classical Philology

1. Students demonstrate knowledge of Greek and/or Latin languages at an expert level. Students are able to carry out a detailed analysis of the language, style, and content of individual works of Greek and/or Latin literature.
2. Students demonstrate expert knowledge of the history of Greek and Latin literature (as well as of the relevant secondary work on those subjects) and the ways in which classical texts have been transmitted through the centuries down to our own time.
3. Students are able to conduct and effectively present the results of original scholarly research.
4. Students are familiar with the printed and electronic resources available for advanced study of classical languages and literatures.
5. Students are prepared to teach college-level courses in the languages and literature of ancient Greece and Rome in an effective manner.

Students know about opportunities for alternative employment/non-academic career paths and can articulate the value of a Classical education for these.

## Classics, MA

### for the degree of Master of Arts in Classics

**chair of department:** Antonios Augoustakis  
**director of graduate studies:** Ariana Traill  
**department website:** <http://www.classics.illinois.edu>  
**college website:** <https://las.illinois.edu/>

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and almost all students teach. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Faculty Research Interests

Greek and Latin literature of all periods; gender and sexuality; Latin poetry of the imperial period; Greek historiography and ethnography; Greek and Roman drama; reception of Classics, especially in film; animal studies; pedagogy. For further details see [www.classics.illinois.edu/people/](http://www.classics.illinois.edu/people/) (<http://www.classics.illinois.edu/people/>).

## Facilities and Resources

We have a renowned university library which boasts the second largest number of volumes among US university libraries after Harvard. Housed within the main library building is our first-rate Classics collection (see [www.library.illinois.edu/clx/](http://www.library.illinois.edu/clx/) (<http://www.library.illinois.edu/clx/>)) with over 60,000 volumes on open shelves. The University of Illinois Library's Rare Book Room houses the Turyn Archive of Greek manuscript photographs and the American Center of the International Photographic

Archive of Papyri. The Department of the Classics also publishes the widely circulating peer-reviewed journal *Illinois Classical Studies* and its Supplements. The Krannert Art Museum and the Spurlock Museum of World Cultures have outstanding collections of ancient vases and other artifacts.

## Financial Aid

University fellowships are available for the academic year. Teaching assistantships are available for both the academic year and Summer Session II.

### *for the degree of Master of Arts in Classics, Latin Concentration*

*For additional details and requirements refer to the department's graduate program requirements (<http://www.classics.illinois.edu/programs/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

## Learning Outcomes: Classics, MA

Learning Outcomes for the degree of Master of Arts in Classics

1. Students demonstrate knowledge of Greek and/or Latin languages at an advanced level. Students are able to carry out a detailed analysis of the language, style, and content of individual works of Greek and/or Latin literature.
2. Students demonstrate an advanced knowledge of the history of Greek and Latin literature and the ways in which classical texts have been transmitted through the centuries down to our own time.
3. Students are familiar with the methods of research and criticism in Classics and can use these to generate new ideas.
4. Students are familiar with the printed and electronic resources available for advanced study of classical languages and literatures.
5. Students are able to teach Greek and/or Latin language and literature in an effective manner.

## Communication, MA

### Graduate Degree Programs in Communication

Communication, MA (p. 646)

**concentration:**

Medieval Studies (p. 1076)

Health Communication, MS (on campus & online) (p. 772)

**concentration:**

Medieval Studies (p. 1076)

Communication, PhD (p. 647)

**concentration:**

Medieval Studies (p. 1076)|Second Language Acquisition & Teacher Education (p. 1080)|Writing Studies Concentration (p. 1084)

The Department of Communication offers a broad curriculum in communication research. In consultation with an advisor, students assemble individualized programs, concentrating in organizational and

group communication, interpersonal and family communication, health communication, communication technology, political communication, rhetoric and public discourse, communication in cultural contexts, or mass communication. Interdisciplinary programs are also encouraged.

### Admission

An application must include official transcripts from every post-secondary institution the applicant has attended; scores on the general aptitude parts of the Graduate Record Examination (GRE); at least three letters of recommendation, preferably from academic recommenders; a major paper or essay as a sample of academic writing; and a statement of purpose. Students whose native language is not English must present their official scores on the Test of English as a Foreign Language (TOEFL) examination as part of their applications. The department follows the Graduate College's recommendations for English proficiency. Detailed information about admissions and financial aid can be found on the department's Web site (<https://communication.illinois.edu/admissions/apply-graduate-program/>). Ordinarily, students are admitted to begin graduate study in the fall semester.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

### Financial Aid

Financial aid is usually offered in the form of part-time teaching assistantships; some fellowships and research assistantships are available.

*for the degree of Master of Arts in Communication (on campus & online)*

The entering student should present the equivalent of 16 semester hours of undergraduate work in communication or a related area. In some cases an oral examination is also stipulated. A thesis is optional.

### Thesis Option

Code	Title	Hours
	Elective hours	24
	Independent Study Hours (4 max applied toward degree)	0-4
CMN 599	Thesis Research (8 max applied toward degree)	8
Total Hours		32

## Learning Outcomes: Communication, MA

Learning Outcomes for the degree of Master of Arts in Communication (on-campus & online)

- Intellectual Reasoning and Knowledge:** Students will acquire broad and deep knowledge of communication research, theory, and practice.
- Creative Inquiry and Discovery:** Students will assimilate and conduct original research to generate new ideas about communication.
- Proficiency with diversity:** Students will engage in constructive discourse and deliberation about ideas from across the breadth of the field of communication and cognate fields.
- Career Preparedness:** Students will gain professional development experiences that afford them rewarding career opportunities in education, policy, business, and/or industry.

## Communication, PhD

for the degree of Doctor of Philosophy in Communication

chair of department: John Caughlin

director of graduate studies: Travis Dixon

department website: <http://communication.illinois.edu>

college website: <https://las.illinois.edu/>

## Communications & Media, PhD

*Doctor of Philosophy in Communications and Media*

**director of graduate studies: Mira Sotirovic**

**email:** [icr@illinois.edu](mailto:icr@illinois.edu)

**department website:** <https://media.illinois.edu/icr> (<https://media.illinois.edu/icr/>)

**department faculty:** <https://media.illinois.edu/phd-program/faculty> (<https://media.illinois.edu/phd-program/faculty/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** College of Media (<https://media.illinois.edu/>)

**department office:** 119 Gregory Hall, 810 S. Wright Street, Urbana, IL 61801

**phone:** (217) 333-1549

Since its inception, the Institute of Communications Research's (ICR) doctoral program has encouraged interdisciplinary studies of communication and media. ICR faculty represent the three academic departments within the College of Media: Advertising (<https://media.illinois.edu/advertising/>), Journalism (<https://media.illinois.edu/journalism/>), Media & Cinema Studies (<https://media.illinois.edu/media-cinema-studies/>). ICR faculty are also active in a wide array of interdisciplinary campus initiatives which include but are not limited to: Illinois Informatics Institute, Beckman, Institute for Advanced Science and Technology, National Center for Supercomputing Applications (NCSA), Unit for Criticism and Interpretive Theory, Center for Advanced Study (CAS), Center for Latin American and Caribbean Studies, Illinois Program for Research in the Humanities (IPRH), and the Departments of Gender and Women's Studies, Latina/Latino Studies, Communication, Psychology and Business Administration. These affiliate networks allow ICR students to develop and pursue unique programs of research that extend the boundaries of current scholarship.

Coursework: The ICR requires 64 credits of coursework and dissertation research for students entering with a Master's degree. Students are responsible for designing their own programs of coursework, which are submitted for approval by the Institute's Program Evaluation Committee. Although students are given the broadest latitude in designing interdisciplinary programs, they must include courses that fill certain requirements. Specifically, all new students will take a two course Proseminar sequence during their first year. Because students are admitted from diverse backgrounds, these courses introduce them to the history of and current trends in the field of media and communication research. This sequence also helps new students begin to locate their own research interests more precisely within the broad landscape of contemporary media and communication research.

## Programs in the Institute of Communications Research

**Graduate Programs:**

**degree:** Communications and Media, PhD (p. 648)

### Admission

Any student with a bachelor's or master's degree and with a substantial background in the humanities, social sciences, or physical sciences is eligible to apply to the doctoral program. It is suggested *but not required* that students have or will have a master's degree before starting the program. All candidates for admission must submit an application for admission along with the application fee, official transcripts of all undergraduate and graduate courses taken and grades earned, three letters of recommendation, and Graduate Record Examination scores.

Our application process is administered through the ApplyYourself (<http://www.grad.illinois.edu/admissions/apply/>) system managed by the Graduate College at the University of Illinois. Applicants should consult the instructions on the Graduate College's website and the guidelines to applicants available on the ICR web page.

Applicants from non-English-speaking countries are required to take the Test of English as a Foreign Language (TOEFL) before they come to the University. Depending on the results, they may be required to take further instruction in English after their arrival. Rules for "International Students & Applicants" can be found on the Graduate College website.

New students will begin the program during the fall term. All material for fall admission should be submitted by a date designated each year on the ICR website.

---

## Financial Aid

Financial aid is available in the form of assistantships and fellowships. Students from populations underrepresented in communications research are eligible for certain University fellowships. Currently, all admitted ICR students receive financial support, including a tuition waiver and stipend. Insofar as possible, the Institute makes financial aid and admission decisions simultaneously.

See also Graduate College Financial Aid (<http://www.grad.illinois.edu/funding-jobs/>) and Fellowship Office (<http://www.grad.illinois.edu/fellowships/>).

## Entering with an approved Masters Degree

Code	Title	Hours
<b>Proseminar</b>		
MDIA 571	Proseminar I	4
MDIA 572	Proseminar II	4
Two research methods courses, 1 quantitative and 1 qualitative		8
Elective Hours		32
MDIA 599	Thesis Research (min/max applied toward degree)	16
Total Hours		64

## Other Requirements <sup>1</sup>

Requirement	Description
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Research Methods

Students must complete at least 8 hours in research methods. In order to provide a competent background for constructively understanding the field's wide-ranging literature, students are required to take one quantitative and one qualitative course.

In addition to methodology courses taught by the College of Media faculty, students are encouraged to consider relevant courses in quantitative or non-quantitative methods elsewhere on campus. Listings of such courses are available in the ICR office.

## Preliminary Exams

Students, in consultation with their chosen advisors, select a committee of four faculty members for their preliminary exams. Upon completion of coursework, students undertake preparing written examinations. Upon completing written answers for each examiner, along with a dissertation proposal, students undergo a 2-hour oral examination. Upon passing the preliminary examination, students proceed with work on their dissertations.

## Dissertation

Because the Doctor of Philosophy degree is primarily a research degree, candidates are required to demonstrate a capacity for independent research by producing an original dissertation on a topic within the general area of communications and media research.

## Final Examination

After students distribute polished drafts of their dissertations, they take final oral examinations administered by their chosen committees. The student is required to support and interpret the dissertation to the committee's satisfaction, as well as to show an adequate grasp of the selected area of concentration that it represents.

## Learning Outcomes: Communications and Media, PhD

Learning Outcomes for the Doctor of Philosophy in Communications and Media

1. Knowledge of both important historical themes and current trends in Media and Communication scholarship.
2. Expertise in at least one research methodology, and general familiarity with both quantitative and qualitative methods, since both methods have informed research traditions in Media & Communication Studies. Expertise in these two methods is one facet of our doctoral program's emphasis on interdisciplinary perspectives theory and research practices. Students in our program

are encouraged to design a program of study across departments, within and beyond the College of Media.

- Teaching proficiency, as demonstrated by serving as the Instructor of Record (IOR) for at least one course as a graduate student.
- Understanding of the various professional nuances of academia, including the job-search process, promotion and tenure, institutional differences (e.g. Carnegie classifications), research/teaching/service expectations, etc.
- Presence in a community of scholars through organizational membership, conference participation, etc.

## Community Health, MS

for the Master of Science in Community Health

**Program Website: <https://ahs.illinois.edu/master-of-science-in-community-health> (<https://ahs.illinois.edu/master-of-science-in-community-health/>)**

### Admissions

Applications are due on **January 15** for Fall admissions. Applications are due **October 1** for Spring admissions.

Applicants should have a grade point average of at least 3.0 (A = 4.0) for the last 60 semester hours of their undergraduate degree work (excluding fieldwork, student teaching, and physical activity courses). In addition, satisfactory scores on the Graduate Record Examination (GRE) are required. A statement of education and career goals, and three letters of recommendation are required.

International students must also submit Test of English as a Foreign Language (TOEFL) scores, with a minimum for full status admission: greater than 102 (IBT), greater than 253 (CBT), greater than 610 (PBT), or greater than 7.0 (IELTS). Scores cannot be more than 2 years old. (see <https://grad.illinois.edu/admissions/instructions/04c> (<https://grad.illinois.edu/admissions/instructions/04c/>))

## Learning Outcomes: Community Health, MS

Learning Outcomes for the Master of Science in Community Health

- Content Knowledge:** Students will demonstrate an advanced understanding of current and historically significant theories, models, themes, and ideas in the biomechanical, physiological, psychological, behavioral, pedagogical, biological, socioeconomic, epidemiological, environmental, and sociocultural correlates of Community Health.
- Critical Thinking and Discovery:** Students will demonstrate ethical practices while applying advanced quantitative and/or qualitative methods in collecting, analyzing, and interpreting data which will then be disseminated through publications and/or oral presentations.
- Awareness and Understanding:** Students will understand and appreciate the diverse environmental, biological, psychological, socioeconomic, sociocultural, philosophical, and historical factors that influence health, rehabilitation, and human movement.
- Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to public health, health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases in culturally diverse populations.
- Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

## Joint Degree Program: Public Health, MPH & Community Health, PhD (p. 1128)

### Admissions

Applications are due on **January 15** for Fall admissions. Applications are due on **October 1** for Spring admissions.

Admissions to the PhD degree program requires a minimum of a baccalaureate degree from an accredited institution of higher education with a minimum grade point average of 3.5 (A = 4.0) for the last two years of undergraduate study. Applicants who have a master's degree should have a grade point average of 3.5 for previous graduate-level work. All applicants are required to submit Graduate Record Examination (GRE) test scores, a statement of interest, and three letters of recommendation.

International students must also submit Test of English as a Foreign Language (TOEFL) scores, with a minimum for full status admission: greater than 102 (IBT), greater than 253 (CBT), greater than 610 (PBT), or greater than 7.0 (IELTS). Scores cannot be more than 2 years old. (see <https://grad.illinois.edu/admissions/instructions/04c> (<https://grad.illinois.edu/admissions/instructions/04c/>)).

*for the Doctor of Philosophy in Community Health*

Graduate course experience in public health and statistics with grades of B or better is expected prior to admission. Before admission to the Ph.D. program, students may be required to take up to 12 hours of additional coursework to remedy deficiencies. The candidate is required to pass written preliminary examinations covering disciplinary and professional aspects of community health, the literature and theoretical perspectives in the major area of study and methodological perspectives and research techniques. Students must also pass an oral preliminary examination on the area of specialization and dissertation proposal; and to pass an oral defense of dissertation research.

The candidate must demonstrate a competency in at least two foreign languages as well as in English. Latin is required for students specializing in European and/or American literatures before 1800. Competence in the languages offered is measured either by the successful completion of one advanced course in the literature of each of the languages chosen or by passing an examination administered by the program in comparative literature with the assistance of an expert in the language concerned. This choice is intended to provide for languages that may not be taught in regular departments.

**concentration:**

Medieval Studies (p. 1076)

The Program in Comparative & World Literature offers graduate courses leading to the Doctor of Philosophy degree, and is designed to provide a systematic study of subjects and problems common to several literatures. Its purpose is to enable students who have varied linguistic competence and preparation to explore the theory of literature and criticism; the interrelations of several literatures; the main currents, periods, and movements in literary history; the development of literary themes and types; and the relations between literature and the other arts. Students are not normally admitted to a terminal master's degree program.

### Admission

A student entering the program should have an undergraduate major in Comparative Literature, English, the classics, or a foreign language. Majors in history and philosophy or other humanistic areas that present suitable linguistic and literary competence may also be granted admission by the Admissions Committee. Students entering with a recognized Masters degree from another university or from another department of this University have the option of taking the comparative literature and critical theory component and a literary component of this program's regular Master of Arts examination at the end of the first year

as a qualifying test. For all other student, the Master of Arts examination will function as the qualifying test to proceed to stage two of the PhD program.

Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) (<http://www.grad.illinois.edu/admissions/apply/>), submit a statement of purpose, three letters of recommendation and a writing sample.

Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services, 3070 Foreign Languages Bldg., 707 S. Mathews Ave., Urbana, IL 61801. Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 105 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c/](http://www.grad.illinois.edu/Admissions/instructions/04c/)) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu)

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm)) (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

### Financial Aid

The Program aims to support all graduate students for five years through a combination of fellowships, teaching, and other means, but support is always contingent on the student making timely progress to the degree. Such progress is measured by course load, taking exams on time, grades, and other factors.

### *for the degree of Master of Arts in Comparative Literature*

The candidate must complete a minimum of 32 gh of credit, including two courses in the theory of literature (CWL 501 and CWL 502), and two seminars in comparative literature selected from CWL 551, CWL 561, CWL 571, and CWL 581. At least 12 of the other 16 gh should be taken in two or three national literatures in a distribution approved by the adviser. The candidate must pass a written examination based on a reading list, which is designed to test knowledge of literary history as well as ability to interpret a literary or critical text.

Code	Title	Hours
CWL 501 & CWL 502	Theory of Literature and Methods of Comparative Lit	8
Select two of the following:		8
CWL 551	Seminar Lit Movements	
CWL 561	Seminar Genres - Forms	
CWL 571	Seminar in Literary Relations	
CWL 581	Seminar Lit Themes	
One or two courses in the major literature		4-8
At least one course in the minor literature		4

One or two courses from the above categories. (A student may take one course in a non-literary field that will provide cultural and historical contexts for the study of the student's literatures.)

4-8

Total Hours 32

### Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
The candidate must pass a written examination based on a reading list, which is designed to test knowledge of literary history as well as ability to interpret a literary or critical text.	
Minimum 500-level Hours Required	20
Overall:	
Minimum GPA:	3.25

<sup>1</sup> For additional details and requirements refer to the department's graduate handbook ([http://www.complit.illinois.edu/Graduate\\_files/Grad%20Handbook.pdf](http://www.complit.illinois.edu/Graduate_files/Grad%20Handbook.pdf)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Comparative Literature, MA

Learning Outcomes for the degree of Master of Arts in Comparative Literature

- Linguistic Mastery:** Mastery of at least three foreign languages (one of which can be English) and a research language.
- Comparative and Cross-Cultural Analysis:** Ability to analyze problems and questions that cut across national, linguistic, and cultural lines.
- Literary / Critical Theory:** Demonstration of mastery of major fields of theoretical inquiry current in the discipline, such as Marxism, psychoanalysis, post-structuralism, feminism / queer studies, post-colonialism.
- Teaching experience:** Ability to teach a wide range of literary topics; put together syllabi, tests, written assignments, and lectures. Familiarity with current trends in pedagogy for language, literature, and culture. Depending on the area of specialization, teaching in the target language or in the Rhetoric program.
- Professionalization:** Completion of CWL 582 (Proseminar), including learning to give talks, making a syllabus, converting seminar papers into conference presentations and journal articles, learning to write book reviews, learning to write cover letters, fellowship applications, and grant applications. Preparation for the academic job market in literary studies and other allied fields. Preparation for relevant non-academic jobs, including editing and publishing, museum work, journalism, artistic and creative careers.

## Comparative Literature, PhD

for the degree of Doctor of Philosophy in Comparative Literature

**chair of department: Robert A. Rushing**  
**director of graduate studies: Brett Kaplan**  
**department website:** <http://www.complit.illinois.edu/Welcome.html>  
**college website:** <https://las.illinois.edu/>  
**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)  
**overview of college admissions & requirements:** department office: 3080 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801  
**phone: (217) 333-4987**  
**email: [complit@illinois.edu](mailto:complit@illinois.edu)**

A candidate for the Doctor of Philosophy degree must fulfill the general requirements of the Graduate College in addition to those specified for the master's degree. At least 12 additional gh of work, normally at the 500 level, should be taken in courses regularly offered by the literature departments; among these, courses cross listed with the program in comparative literature are especially recommended. The candidate is responsible for a knowledge of the history of the literature in one modern language. The student also selects a period of major interest and is responsible for a knowledge of two other literatures in this period, which are considered as minors. The periods may be the Middle Ages, Renaissance, Neoclassicism and the Enlightenment, or the modern (nineteenth and twentieth centuries). Some chronological variations in coordinating the minors will be allowed for students studying non-Western literatures. A preliminary examination, i.e. a four-part written examination based on the individual program, and an oral examination with emphasis on the thesis project must be passed. The candidate must present an acceptable thesis embracing several national literatures and pass a final oral examination on the thesis.

### Graduate Degree Programs in Comparative Literature

- Comparative Literature, MA (p. 652)  
**concentration:**  
 Medieval Studies (p. 1076)
- Comparative Literature, PhD (p. 653)  
**concentration:**  
 Medieval Studies (p. 1076)

The Program in Comparative & World Literature offers graduate programs leading to the degrees of Master of Arts and Doctor of Philosophy and is designed to provide a systematic study of subjects and problems common to several literatures. Its purpose is to enable students who have varied linguistic competence and preparation to explore the theory of literature and criticism; the interrelations of several literatures; the main currents, periods, and movements in literary history; the development of literary themes and types; and the relations between literature and the other arts. We consider the Master of Arts program to be the first step toward the Ph.D. degree; we expect students admitted to the M.A. program to receive the M.A. and go on to complete a Ph.D. We therefore do not offer a formal terminal M.A. program.

### Admission

A student entering the program should have an undergraduate major in Comparative Literature, English, the classics, or a foreign language. Majors in history and philosophy or other humanistic areas that present suitable linguistic and literary competence may also be granted admission by the Admissions Committee. Students entering with a recognized Masters degree from another university or from another department of this University have the option of taking the comparative literature and critical theory component and a literary component of this

program's regular Master of Arts examination at the end of the first year as a qualifying test. All other students typically take the Master of Arts examination at the end of their second year as the qualifying exam to proceed to stage two of the PhD.

Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/) (<http://www.grad.illinois.edu/admissions/apply/>)), submit a statement of purpose, three letters of recommendation and a writing sample.

Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services, 3070 Foreign Languages Bldg., 707 S. Mathews Ave., Urbana, IL 61801. Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 105 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c/](http://www.grad.illinois.edu/Admissions/instructions/04c/) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu)

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. The Department of Computer Science is one of the longest established computer science departments in the world and is consistently ranked as a top-5 graduate program.

The MCS in Computer Science is a professionally-oriented, coursework-based degree program offered as an on-campus program or online. The online option allows individuals to earn the MCS from a leader in information technology entirely online with no required campus visits. Online students have the option to complete the comprehensive MCS track or the MCS program with a data science track. All online classes are taught by our world-recognized faculty. Online students also receive additional instructional support from Computer Science Graduate Teaching Assistants and program staff. The on-campus MCS program is designed to allow students to complete the degree in as little as one year with a maximum of three continuous semesters. Online students have 5 years in which to complete the program.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

---

## Admission Requirements

Applicants must hold a bachelor's degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for students entering a Computer Science graduate degree program is a bachelor's in computer science or computer engineering. The Graduate Record Examination (GRE) (<http://www.ets.org/>) general aptitude tests (Verbal, Quantitative, and Analytical) are not required. However, in some cases, GRE general scores may provide helpful supporting information.

Applicants to the MCS program must have a minimum grade point average (GPA) of 3.20 (A = 4.00) in their undergraduate studies (international GPAs are systematically converted) to be considered. The department reserves the right to admit applicants with lower GPAs under rare and exceptional circumstances. If an applicant also holds a graduate degree, the minimum GPA for that degree must be 3.00. Full details of the programs offered by Computer Science, admissibility, application procedures, and deadlines can be found at the department's Prospective Graduate Student Information Web site (<http://cs.illinois.edu/admissions/graduate/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

## Financial Aid

Research assistantships and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. Students who are unable to take the iBT or IELTS are required to receive a minimum score of 5 on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/ept\\_overview.html](http://cte.illinois.edu/testing/oral_eng/ept_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

The Department of Computer Science does not offer research or teaching assistantships to students enrolled in our online programs, including the Online MCS.

## This degree program can be completed either on campus or online; the requirements are listed below:

Code	Title	Hours
	Breadth Requirement ( <a href="http://cs.illinois.edu/academics/graduate/professional-mcs-program/mcs-degree-requirements/">http://cs.illinois.edu/academics/graduate/professional-mcs-program/mcs-degree-requirements/</a> )	12-16
	Advanced courses – chosen from CS 500 - CS 590 and CS 598; CS 597, or an approved non-CS 500-level course may satisfy 4 credit hours of this requirement.	12
	Elective courses (subject to Other Requirements and Conditions below)	4-8
	Total Hours	32

### Other Requirements and Conditions

#### Requirement

Other Requirements and Conditions may overlap

A minimum of 24 CS credit hours must be taken from the University of Illinois at Urbana-Champaign campus.

A minimum of 12 500-level credit hours overall.

A maximum of 4 hours of CS 591 and CS 491 may be applied toward the degree.

A grade of B- or higher is required for Breadth course work.

At most, 12 semester credit hours of previous graduate course work may be transferred and applied to the M.C.S. degree requirements and 12 credit hours of non-degree graduate courses completed in the Department of Computer Science at the University of Illinois at Urbana-Champaign campus may be transferred and applied to the M.C.S. degree requirements.

All degree requirements must be completed within three consecutive semesters (only fall and spring semesters are counted).

Off-campus students have 5 years in which to complete this degree.

The minimum program GPA is 3.0.

## Learning Outcomes: Computer Science, MCS

Learning Outcomes for the degree of Master of Computer Science in Computer Science (on campus or online)

1. Plan and conduct original research that addresses questions of significance in a particular subject area in Computer Science.
2. Analyze and be able to articulate the scientific advances and limitations of results described in the research literature.
3. Demonstrate the ability to effectively communicate research proposals and results.
4. Demonstrate in-depth knowledge of a particular subject area and broad knowledge of other areas in Computer Science.
5. Demonstrate an understanding of and ability to follow ethical standards in research, teaching, and professional service.
6. Demonstrate the ability to teach concepts in Computer Science at the university level. Additionally, for the MS Bioinformatics program:
7. Demonstrate broad knowledge of topics in bioinformatics.
8. Demonstrate knowledge of at least one subject in biological sciences.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence

of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS (academic exam). Students who are unable to take the iBT or IELTS are required to receive a minimum score of 5 on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Illinois has been an international leader in computing research for almost five decades. Broadly organized around 11 research areas (<http://cs.illinois.edu/research/>), 80 faculty members (<http://cs.illinois.edu/people/faculty/>) conduct research with over 450 graduate students, and about 30 research staff members. They regularly collaborate with researchers across campus, in other departments or research units.

The home of the Department of Computer Science at Illinois is the Thomas M. Siebel Center for Computer Science (<http://cs.illinois.edu/about-us/>), a state-of-the-art building that opened its doors in 2004. On the north side of campus, home to The Grainger College of Engineering (<https://grainger.illinois.edu/>), Siebel Center is an interactive computing habitat, made possible by a gift from alumnus Tom Siebel. The vision for the building was not only to create a magnificent space to work in, but to offer opportunities to investigate and apply computing tools on the building itself. Advanced wireless and wired communication networks, sensors, actuators, video capture and display equipment, video walls and information panels and storage and computing capabilities within the building allow researchers to examine communication and computation issues related to pervasive computing, multimedia infrastructure, building intelligence, security and privacy, and art.

*for the degree of Master of Science in Computer Science*

---

The Master of Science (MS) in Computer Science is a research-oriented degree that can be counted toward the Computer Science Ph.D. For additional details and requirements refer to the department's Graduate Degree Requirements (<https://cs.illinois.edu/academics/graduate/ms-program/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

The Master of Science (M.S.) in Computer Science is a research-oriented degree that can be counted toward the Computer Science Ph.D. For additional details and requirements refer to the department's Graduate Degree Requirements (<http://cs.illinois.edu/academics/graduate/ms-program/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Requirements

Code	Title	Hours
CS 599	Thesis Research (minimum applied toward degree)	4
Breadth Requirement - One course from each of three different (out of eight) core areas ( <a href="http://cs.illinois.edu/current-students/graduate-students/ms-thesis/">http://cs.illinois.edu/current-students/graduate-students/ms-thesis/</a> )		9-12
Advanced courses – One 500-level course from one of the three areas selected in the Breadth Requirement; Remaining hours from any 500-level CS course (500-590 or 598) except CS 591 or CS 597. An approved 500-level non-CS course may satisfy 4 credit hours of this requirement; CS 599 (thesis) may satisfy 4 credit hours of this requirement.		12
Elective courses (subject to Other Requirements and Conditions below)		4-7
Total Hours		32

## Other Requirements

### Requirement

Other Requirements and Conditions may overlap

A minimum of 16 CS credit hours must be taken from the University of Illinois at Urbana-Champaign campus.

A minimum of 12 500-level credit hours overall.

A maximum of 4 hours of CS 591 and CS 491 may be applied toward the degree.

A grade of B- or higher is required for Breadth Requirement course work.

At most, 12 semester credit hours of previous graduate course work may be transferred and applied to the M.S. degree requirements and 12 credit hours of non-degree graduate courses completed in the Department of Computer Science at the University of Illinois at Urbana-Champaign may be transferred and applied to the M.S. degree requirements.

It is each student's responsibility to secure a M.S. thesis advisor and start thesis research no later than the beginning of the third semester in the program.

All degree requirements must be completed within five consecutive semesters (only fall and spring semesters are counted).

The minimum program GPA is 3.0.

## Learning Outcomes: Computer Science, MS

Learning Outcomes for the degree of Master of Science in Computer Science

1. Plan and conduct original research that addresses questions of significance in a particular subject area in Computer Science.
2. Analyze and be able to articulate the scientific advances and limitations of results described in the research literature.
3. Demonstrate the ability to effectively communicate research proposals and results.
4. Demonstrate in-depth knowledge of a particular subject area and broad knowledge of other areas in Computer Science.
5. Demonstrate an understanding of and ability to follow ethical standards in research, teaching, and professional service.
6. Demonstrate the ability to teach concepts in Computer Science at the university level. Additionally, for the MS Bioinformatics program:
7. Demonstrate broad knowledge of topics in bioinformatics.
8. Demonstrate knowledge of at least one subject in biological sciences.

## Computer Science, PhD

*for the degree of Doctor of Philosophy in Computer Science*

**department head:** Nancy Amato (namato@illinois.edu)

**director of graduate studies:** Brian P Bailey (bpbailey@illinois.edu)

**address:** 1210 Siebel Center, 201 N Goodwin, Urbana, IL 61801

**phone:** (217) 333-4428

**email:** [academic@cs.illinois.edu](mailto:academic@cs.illinois.edu)

The Department of Computer Science is one of the longest established computer science departments in the world and is consistently ranked as a top-5 graduate program.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

## Admission Requirements

Applicants must hold a bachelor's degree equivalent to that granted by the University of Illinois at Urbana-Champaign. The recommended background for students entering a Computer Science graduate degree program is a bachelor's or a master's degree (only if applying to the PhD program) in computer science or computer engineering. The Graduate Record Examination (GRE) (<http://www.ets.org/>) general aptitude tests (Verbal, Quantitative, and Analytical) are no longer required. However, in some cases, GRE general scores may provide helpful supporting information.

Applicants to the computer science PhD program must have a minimum grade point average (GPA) of 3.40 (A = 4.00) in their undergraduate studies (international GPAs are systematically converted) to be considered. The department reserves the right to admit applicants with lower GPAs under rare and exceptional circumstances. If an applicant also holds a graduate degree, the minimum GPA for that degree must be 3.00. Full details of the programs offered by Computer Science, admissibility, application procedures, and deadlines can be found at the department's Prospective Graduate Student Information Web site (<http://cs.illinois.edu/admissions/graduate/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships (one of the most common forms of financial aid for new graduate students in the department) must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. Students who are unable to take the iBT or IELTS are required to receive a minimum score of 5 on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Illinois has been an international leader in computing research for almost five decades. Broadly organized around 11 research areas (<http://cs.illinois.edu/research/>), 80 faculty members (<http://cs.illinois.edu/people/faculty/>) conduct research with over 450 graduate students, and about 30 research staff members. They regularly collaborate with researchers across campus, in other departments or research units.

The home of the Department of Computer Science at Illinois is the Thomas M. Siebel Center for Computer Science (<http://cs.illinois.edu/about-us/>), a state-of-the-art building that opened its doors in 2004. On the north side of campus, home to The Grainger College of Engineering (<https://grainger.illinois.edu/>), Siebel Center is an interactive computing habitat, made possible by a gift from alumnus Tom Siebel. The vision for the building was not only to create a magnificent space to work in, but to offer opportunities to investigate and apply computing tools on the building itself. Advanced wireless and wired communication networks, sensors, actuators, video capture and display equipment, video walls and information panels and storage and computing capabilities within the building allow researchers to examine communication and computation issues related to pervasive computing, multimedia infrastructure, building intelligence, security and privacy, and art.

## Other Graduate Programs in the Department of Computer Science

degrees:

Computer Science, MCS (p. 654)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

Computer Science, MS (p. 656)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

Bioinformatics: Computer Science, MS (p. 605)

**joint programs:**

Computer Science, MCS & Architecture, MArch (p. 1114)

Computer Science, MCS & Law, JD (p. 1115)

The Department of Computer Science offers other graduate programs leading to the degrees of Master of Science in Computer Science and Master of Computer Science (MCS), as well as a Computer Science concentration under the interdisciplinary Master of Science in Bioinformatics. The MCS program is also available online for students who are working full-time and unable to come to campus.

*for the degree of Doctor of Philosophy in Computer Science*

For additional details and requirements refer to the department's Graduate Degree Requirements (<http://cs.illinois.edu/academics/graduate/phd-program/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Doctor of Philosophy in Computer Science

### Entering with approved M.S. degree

Code	Title	Hours
CS 599	Thesis Research (minimum applied toward degree)	32
500-level course work (12 hours must be CS courses)		16
Additional graduate-level course work or thesis research credit (subject to Other Requirements and Conditions below)		16
Total Hours		64

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	

Minimum hours of CS course work: 12

CS 597 and CS 591 may not be applied to the 500-level course work requirement.

CS 591 section PHD must be taken in the first semester. A maximum of 4 credit hours of CS 591 can be applied toward the Ph.D. degree.

A teaching assistantship for an entire term, with a satisfactory performance evaluation by the department, is required by the end of the 5th year.

Ph.D. exam and dissertation requirements:

International Students must show demonstration of English proficiency (equivalent to that necessary to be a TA-see Financial Aid) before taking the Qualifying Exam.

Qualifying exam<sup>1</sup>

Preliminary exam<sup>2</sup>

Final exam or dissertation defense<sup>3</sup>

Dissertation deposit<sup>4</sup>

Minimum GPA: 3.0

### Entering with B.S. degree

Code	Title	Hours
CS 599	Thesis Research (minimum applied toward degree)	32
500-level course work (12 hours must be CS courses)		24
400- or 500-level course work		24
Additional graduate-level course work or thesis research credit (subject to Other Requirements and Conditions below)		16
Total Hours		96

### Other Requirements and Conditions

## Learning Outcomes: Computer Science, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Computer Science

1. Plan and conduct original research that addresses questions of significance in a particular subject area in Computer Science.
2. Analyze and be able to articulate the scientific advances and limitations of results described in the research literature.
3. Demonstrate the ability to effectively communicate research proposals and results.
4. Demonstrate in-depth knowledge of a particular subject area and broad knowledge of other areas in Computer Science.
5. Demonstrate an understanding of and ability to follow ethical standards in research, teaching, and professional service.
6. Demonstrate the ability to teach concepts in Computer Science at the university level. Additionally, for the MS Bioinformatics program:
7. Demonstrate broad knowledge of topics in bioinformatics.
8. Demonstrate knowledge of at least one subject in biological sciences.

## Creative Writing, MFA

*for the degree of Master of Fine Arts in Creative Writing*

**head of department: Bob Markley**  
**director of graduate studies: Justine Murison**  
**director of creative writing: Ted Sanders**  
**associate director of creative writing: John Dudek**  
**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)  
**overview of college admissions & requirements:**  
**department website:** <http://creativewriting.english.illinois.edu/>  
**college website:** <https://las.illinois.edu/>  
**department office: 210 English Building, 608 South Wright Street, Urbana, IL 61801**  
**phone: (217) 333-3646**  
**email: [shockey@illinois.edu](mailto:shockey@illinois.edu)**

The Department of English offers a program of study in Creative Writing leading to the Master of Fine Arts degree. We welcome qualified students who wish to pursue their interests in fiction or poetry writing.

### Graduate Degree Programs in Creative Writing

Creative Writing, MFA (p. 660)

#### Admission

A candidate for the MFA must spend at least four semesters or the equivalent in residence and complete at least 48 graduate hours. A full-time student typically completes this program in three academic years. Because applications for admission usually far exceed capacity, in recent years undergraduate grade point averages of students admitted have been significantly higher than the 3.0 (A = 4.0) required by the Graduate College.

All applicants whose native language is not English are required to submit Test of English as a Foreign Language (TOEFL) scores. Currently, a minimum score of 550 on the paper-based test (213 on the computer-based test) is required. Before a teaching assistantship involving classroom instruction or student consultation can be awarded to a non-native speaker of English, the applicant must take the Test of Spoken English (TSE) and achieve a score of 50 or higher (230 or higher before 1996).

The committee on admissions tends to select those applicants who have a solid array of undergraduate courses, strong recommendations, and above all a compelling writing sample: in short, a demonstration of an academic record that shows promise of a student capable of doing outstanding work in the field and earning a degree within a reasonable time. Preference is given to applicants who will be full-time students and active degree candidates. Applicants are considered only in spring for fall admission, and the deadline for submitting applications is December 1st.

#### Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and all MFA candidates will have ample opportunity to teach undergraduate writing classes.

#### Financial Aid

Financial aid is available to students in the form of fellowships, teaching assistantships, and waivers of tuition and service fees. For complete information about the program, prospective applicants should consult our website at <https://english.illinois.edu/admissions/our-mfa-creative->

writing (<https://english.illinois.edu/admissions/our-mfa-creative-writing/>).

### for the degree of Master of Fine Arts in Creative Writing

## Master of Fine Arts in Creative Writing

Code	Title	Hours
	Workshops	16
	Craft course in the appropriate genre	4
	Proseminar	4
	Approved Literature courses at the 400 and 500 level	8
	Electives	8
CW 595	Final Project	0-12
Total Hours		40-52

### Other Requirements <sup>1</sup>

Requirement
Other requirements may overlap
Four semesters in residence
Teaching experience is required.
A public reading from the completed project is required for graduation
Minimum 500-level Hours Required Overall: 12
Minimum GPA: 3.0

<sup>1</sup> For additional details and requirements refer to the department's program requirements (<http://creativewriting.english.illinois.edu/graduate/requirements/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Creative Writing, MFA

Learning outcomes for the degree of Master of Fine Arts in Creative Writing

1. Writing: Students will focus on creating works of high literary quality, honing their own distinctive personal writing styles. They will demonstrate the ability to revise drafts of their work in response to useful critical commentary. Upon completion of the program, students will understand how to create and polish individual shorter works; they will also understand how to compile and complete a book-length manuscript in the genre of their choice.
2. Craft discussion: Students will demonstrate an advanced ability to read, analyze, and discuss published works of literature—especially contemporary literature—from a craft perspective, identifying authorial choices and evaluating the effect of those choices on the work.
3. Literary Community and Profession: Students will demonstrate an understanding of the professional creative writing field with regards to literary journals, presses, and other iterations of the literary community, and will have participated in one or more professional activities, including editorial work on Ninth Letter, giving a public reading, attending a writers' conference, etc.
4. Teaching: Students will learn best practices for leading creative writing workshops and mentoring beginning writers.

## Crop Sciences, MS

for the Master of Science in Crop Sciences (on campus & online)

head of department: Adam Davis  
 director of graduate studies: Nathan Schroeder  
 director of online MS degree program: DoKyoung Lee

director of admissions committee: Nathan Schroeder  
 email: c (sdcarson@illinois.edu)ptomlin@illinois.edu  
 department website: <https://cropsciences.illinois.edu/>  
 department faculty: <https://cropsciences.illinois.edu/people/faculty/>

overview of grad college admissions & requirements: <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

college website: <https://aces.illinois.edu/>

 phone:(217) 244-0396

### Graduate Degree Programs in Crop Sciences

Crop Sciences, MS (p. 661) (on campus & online)

Bioinformatics: Crop Sciences, MS (p. 606)

Plant Biotechnology, MS - Professional Science Master's (p. 941)

Crop Sciences, PhD (p. 663)

### Admission

Applicants are considered for admission to the Master of Science program if they have a bachelor's or equivalent degree comparable to that granted by the University of Illinois. Admission to the Ph.D. program will be considered for applicants with the M.S., those nearing completion of the M.S., and in some cases, those with the B.S. Because of the diversity of programs in the Department of Crop Sciences, the preparation that is needed varies considerably. Strong letters of reference, evident motivation to undertake graduate study, and good preparation in basic science courses enhance an applicant's credentials. For some programs, greater emphasis is given to previous training in plant sciences, chemistry, or mathematics. A grade point average equivalent to at least a B in the last 60 semester hours of undergraduate course work plus any graduate level work completed is required. All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University.

Additional information for international applicants can be found at: <https://grad.illinois.edu/admissions/apply/begin/international> (<https://grad.illinois.edu/admissions/apply/begin/international/>).

### Graduate Teaching Experience

Experience in teaching is considered an important part of the graduate experience in this program.

### Faculty Research Interests

Please refer to the following webpage for a detailed listing of our faculty and their areas of interest <https://cropsciences.illinois.edu/people/faculty/>.

## Financial Aid

Fellowships and assistantships are available to outstanding on campus MS students on a competitive basis. Awards for financial assistance are based principally on a candidate's academic record, statement of plans, and letters of reference.

*for the Master of Science in Crop Sciences (on campus & online)*

Candidates must complete 32 hours of graduate study as approved by their graduate guidance committee with at least a B average. An oral final examination is required of all M.S. candidates, and written examinations may be required at the option of the examining committee.

The Online M.S. in Crop Sciences program enables students to strengthen their education typically through part-time study, as most students are working professionals. Courses are delivered mainly through online and other distance education technologies and occasional site-based programming (site-based courses are optional and not required to complete the degree). The Crop Sciences Online M.S. degree program is completed as a non-thesis degree. The program has a 30-plus year history of providing high quality University of Illinois courses and began granting off-campus MS degrees in 1986 to agriculture professionals across Illinois, as well as in neighboring states. Students may enroll in individual courses for personal or professional advancement or may apply for admission to the master's degree program in Crop Sciences. Students who successfully complete three qualifying courses may also receive a Professional Development Certificate in Crop Sciences.

The Online M.S. in Crop Sciences program also works in conjunction with the Natural Resources and Environmental Studies Online M.S. program and the Agriculture Education Online M.S. program to offer a diverse set of courses. The Department of Crop Sciences is looking to the future and the needs of non-traditional students. Therefore, new courses are continually in development for online delivery and blended formats. A student may complete their entire degree requirements online from anywhere in the world and they are available to in-state students and out-of-state students at the same tuition rates. For more information on Crop Sciences, the Online M.S. in Crop Sciences degree program or certificate offerings, please visit <https://cropsciences.illinois.edu/online/>.

*For additional details and requirements refer to the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

## This degree program can be completed either on campus or online; with or without a thesis, the requirements are listed below:

Code	Title	Hours
<b>Thesis Option</b>		
CPSC 594	Professional Orientation CPSC	1
CPSC 598	Seminar (when presenting)	1
Electives including at least 4 hours of graded coursework at the 500 level other than CPSC 599		
CPSC/PLPA 599	Thesis Research (min-max applied toward degree)	
<b>Total Hours Thesis</b>		<b>32</b>
<b>Non-Thesis Option</b>		
CPSC 594	Professional Orientation CPSC	1
CPSC 598	Seminar ((when presenting))	1

Electives including at least 4 hours of graded coursework at the 500 level other than CPSC 599	30
<b>Total Hours Non-Thesis</b>	<b>32</b>

## Other Requirements

Requirement
Other requirements and conditions may overlap
Minimum Hours Required Within the Unit: 5
Minimum 500-level Hours Required overall: 12
Minimum GPA: 3.0

## Learning Outcomes: Crop Sciences, MS

Learning Outcomes for the Master of Science in Crop Sciences (on campus & online)

### Thesis

1. Students will be able to read, understand, knowledgeably discuss and summarize in writing the primary scientific literature of their particular disciplinary research area (bioinformatics and statistics, crop genetic improvement, crop production, plant protection, sustainable food systems, and water quality and environmental systems).
2. Students will assume responsibility and ownership in research project development and execution.
3. Students will acquire professional scientific writing and communication skills.
4. Students will develop the capacity to communicate and collaborate across interdisciplinary boundaries.
5. Students will develop the interpersonal skills to be competitive for career opportunities in plant sciences and agriculture.

### Non-Thesis

1. Students will be able to read, understand, knowledgeably discuss and summarize in writing the primary scientific literature of one or more disciplinary areas (bioinformatics and statistics, crop genetic improvement, crop production, plant protection, sustainable food systems, and water quality and environmental systems).
2. Students will acquire professional scientific writing and communication skills.
3. Students will develop the capacity to communicate and collaborate across interdisciplinary boundaries.
4. Students will develop the interpersonal skills to be competitive for career opportunities in plant sciences and agriculture.

### Online

1. Students will be able to evaluate crop research methods critically and significantly contribute in the research community.
2. Students will be able to apply principles of crop sciences to determine agronomic problems and formulate and implement practical management.
3. Students will be able to describe and critically review concepts and practices associated with agriculture and the environment.

4. Students will be able to critically assess scientific papers. Students will be able to synthesize concepts to solve complex scientific problems.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

### Faculty Research Interests

Please refer to the following webpage for a detailed listing of our faculty and their areas of interest <https://cropsciences.illinois.edu/people/faculty/>.

### Financial Aid

Fellowships and assistantships are available to outstanding students on a competitive basis. Awards for financial assistance are based principally on a candidate's academic record, statement of plans, and letters of reference.

for the degree of Doctor of Philosophy in Crop Sciences

Students are required to pass a preliminary examination within five semesters of first enrolling, not including the summer terms, and after substantial completion of the Ph.D. graded coursework requirement. The preliminary examination is comprised of both an oral and written component and students are expected to defend their Thesis Proposal at the oral component of the examination. Those students on the BA to PhD plan must also pass a Qualifying Exam. An acceptable dissertation is required. Residence requirements are the same as those of the Graduate College.

For additional details and requirements refer to the department's graduate handbook ([http://cropsci.illinois.edu/sites/cropsci.illinois.edu/files/pdf/Grad\\_Student\\_Handbook\\_2013.pdf](http://cropsci.illinois.edu/sites/cropsci.illinois.edu/files/pdf/Grad_Student_Handbook_2013.pdf)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master's degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education (Birth - Grade 2), Elementary Education (Grades 1 - 6), and Secondary Education (Grades 9 - 12). In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master's students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master's candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally

combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

## Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

## Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with

planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

### *for the Certificate of Advanced Study in Curriculum and Instruction*

A list of additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=cas&department=ci>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in Bilingual-Bicultural Education. (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>)

## Learning Outcomes: Curriculum & Instruction, EdD

Learning Outcomes for the degree of Doctor of Education Major in Curriculum and Instruction

1. Students will develop a deep knowledge of a content area and a related cognate connected to curriculum and instruction.
2. Students will demonstrate the ability to plan, implement, analyze data, and author a dissertation.
3. Students will read, interpret, and critique scholarship in their academic field and across multiple fields.
4. Students will understand issues related to school and society including existing inequities.
5. Students will connect research with instructional practices that support learning and connect research to their professional practices.

## Graduate Degree Programs in Curriculum & Instruction

Curriculum and Instruction, EdM (p. 668) **(on campus, off-campus & online)**

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Curriculum and Instruction, MA (p. 670)

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Curriculum and Instruction, MS (p. 673)

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Curriculum and Instruction, CAS (p. 664) **(on campus, off-campus & online)**

**optional concentration:** Bilingual-Bicultural Education (p. 1052)

Curriculum and Instruction, EdD (p. 666) **(on campus, off-campus & online)**

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Curriculum and Instruction, PhD (p. 675)

**optional concentrations (PhD only):**  
 Digital Learning (p. 1068)|Second Language Acquisition and Teacher Education (<http://www.slate.illinois.edu/>)  
 Writing Studies (p. 1084)

Early Childhood Education, EdM (p. 679) **with teacher licensure**

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Elementary Education, EdM (p. 717) **with teacher licensure**

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Secondary Education, EdM (p. 968) **with teacher licensure**

**concentrations:** English (p. 970)|Mathematics (p. 971)|Sciences (p. 972)|Social Science: History (p. 973)

**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master's degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education (Birth - Grade 2), Elementary Education (Grades 1 - 6), and Secondary Education (Grades 9 - 12). In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master's students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master's candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

## Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

## Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

### for the degree of Master of Arts in Curriculum and Instruction

The Department of Curriculum and Instruction offers many programs leading to the degree of Master of Arts (M.A.). A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edm&department=ci>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>) or Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

Minimum GPA	3.0

<sup>1</sup> All students will take a minimum of 16-20 credit hours, depending on area of methodology focus, in approved research methods courses (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/phd/#PhDResearch>).

## Learning Outcomes: Curriculum & Instruction, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Curriculum & Instruction

1. Students will develop a deep knowledge of a content area connected to curriculum and instruction
2. Students will demonstrate the ability to plan, implement, analyze data, and author academic papers.
3. Students will read, interpret, and critique scholarship in their academic field and across multiple fields.
4. Students will understand issues related to school and society including existing inequities.
5. Students will connect research with instructional practices that support learning.

## Dance, MFA

*for the degree of Master of Fine Arts in Dance*

**department head: Jan Erkert**  
**director of the MFA program: Jennifer Monson**  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**department website:** Dance (<https://dance.illinois.edu/>)  
**college website:** College of Fine & Applied Arts (<https://faa.illinois.edu/>)  
**department office: 907 1/2 West Nevada Street, Urbana, IL 61801**  
**phone: (217) 333-3890**  
**email: [dance@illinois.edu](mailto:dance@illinois.edu)**

The MFA Curriculum is designed to promote a candidate's progress through our stated objectives: **Choreography, Communication, Moving, Teaching, and Career Planning.** Included in these are courses in dance studies, somatics, pedagogy, and two semesters devoted to an innovative lab team taught by our faculty and designed in collaboration with students. The final year of study is devoted to synthesizing the above objectives evidenced by the production of the candidate's choreography, their written thesis document, oral presentation, and plans for propelling students' career into the professional sphere.

## Graduate Degree Programs in Dance

Dance, MFA (p. 677)  
 Graduate Minor in Dance (p. 1096)

The Department of Dance offers a graduate program leading to the Master of Fine Arts degree. The mission of the MFA Program is to foster substantive choreographic research that posits dance as a force in contemporary culture. The program embraces a wide spectrum of individual movement research and embodied practice to create a dynamic learning atmosphere for critical engagement with choreographic process.

The Dance Department expects MFA candidates to conduct a creative inquiry that leads to the development of a sophisticated sense of self-definition. Individual research and analysis should culminate in the development of a personal artistic process and mission and should be evident in the following contexts:

- **Choreographing-** Candidates will develop a distinctive choreographic research methodology and demonstrate its skillful application in a performative context. This ideology must establish solid foundation for ongoing research and engagement that contributes to the global dialogue about dance and contemporary culture.
- **Communicating-** Candidates will develop the ability to express their choreographic vision and process in verbal and written language that is clear, cogent, and convincing and demonstrates clear analytic skill, critical thinking, awareness of historical context, and knowledge of contemporary culture.
- **Moving-** Candidates will demonstrate a commitment to movement investigation and practice that defines, advances, and sustains their choreographic vision.
- **Teaching-** Candidates will apply their research vision in clear pedagogic principles while fostering a stimulating teaching/ learning environment.
- **Career Planning-** Candidates are assessed on their ability to develop innovative career strategies in order to advance their artistic mission

in the field and demonstrate the capacity to implement these plans with professionalism in all the above contexts.

## Admission Requirements

Prerequisites for admission to the MFA program are:

1. An undergraduate degree and significant experience in dance is required.
2. Demonstrated choreographic achievement and potential to make innovative contributions to the field.
3. Demonstrated potential to engage in critical thinking and writing.
4. A minimum grade point average of 3.0 on a 4 point scale, computed from the last 60 hours of undergraduate work and any graduate work completed.

International students must be eligible for full status admission.

International students who receive a TOEFL score greater than 103 on the internet-based test, 257 on the computer-based test, or 613 on the paper test are eligible for full status admission. Students with these scores are exempt from the English as a Second Language Placement Test. The GRE is not required.

## Faculty Research Interests

An extraordinary faculty of artists, researchers and scholars has gathered at Illinois, who are creating new paradigms for interactions between the professional arena and the academic training ground. Our group of professional artists includes Jan Erkert, Sara Hook, Philip Johnston, Linda Lehovc, Jennifer Monson, Kemal Nance, Rebecca Netti-Fiol, Tere O'Connor, Cynthia Oliver, Kirstie Simson, Endalyn Taylor, John Toenjes, and Abby Zbikowski, all of whom share a commitment to teaching and preparing students for leadership roles in the field of dance.

## Financial Aid

Two forms of financial aid are offered to graduate students by the Department of Dance:

- Teaching and administration assistantships are available to graduate students. Assistantships of 25% or greater qualify the student for a tuition waiver. All students are required to apply for Federal Work Study.
- A variety of Fellowships are available through The Graduate College each year, including: (A full listing of Fellowships can be found at: [www.grad.illinois.edu/fellowships](http://www.grad.illinois.edu/fellowships) (<http://www.grad.illinois.edu/fellowships/>))
  - The Creative and Performing Arts Fellowship, which may include stipends up to a maximum of \$6,000 for a student demonstrating outstanding choreographic and performance talent.
  - The Graduate College Fellowship for Underrepresented Students provides fellowships in the amount of \$8,000 and are available to outstanding minority students.

Prospective MFA candidates are encouraged to apply for financial assistance through the Office of Student Financial Aid, 420 Student Services Bldg., University of Illinois at Urbana-Champaign, Champaign, IL 61820. (217) 333-0100.

Elementary Education, EdM (p. 717) **with teacher licensure**  
**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Secondary Education, EdM (p. 968) **with teacher licensure**  
**concentrations:** English (p. 970)|Mathematics (p. 971)|Sciences (p. 972)|Social Science: History (p. 973)  
**optional concentrations:** Bilingual-Bicultural Education (p. 1052)|Digital Learning (p. 1068)

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master's degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education (Birth - Grade 2), Elementary Education (Grades 1 - 6), and Secondary Education (Grades 9 - 12). In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master's students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master's candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally

combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

## Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

## Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with

planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

### ***for the degree of Master of Education in Early Childhood Education with teaching licensure***

Additional requirements can be found on the program's website, (<https://education.illinois.edu/ci/programs-degrees/ec/>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>) or Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

## Learning Outcomes: Early Childhood Education, EdM

Learning Outcomes for the degree of Master of Education in Early Childhood Education with teaching licensure

1. Students will acquire deep knowledge of child development as it relates to the field of Education.
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction children from infancy to age eight.
3. Students will use assessment data to drive decisions and solve problems in and out of the classroom.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices)

## East Asian Languages & Cultures, MA

for the degree of Master of Arts in East Asian Languages & Cultures

**chair of department:**

**director of graduate studies:**

**overview of admissions & requirements:** Graduate Degree Information East Asian Languages & Cultures (<https://ealc.illinois.edu/academics/degree-programs/graduate/graduate-admissions/>)

**department website:** Department of East Asian Languages & Cultures (<https://ealc.illinois.edu/>)

**department faculty:** East Asian Languages & Cultures Faculty (<https://ealc.illinois.edu/directory/faculty-by-area/>)

**department office:** 2090 Foreign Languages Building, 707 South Mathews, Urbana, IL 61801

**phone:** (217) 244-1432

**email:** [ealc@illinois.edu](mailto:ealc@illinois.edu)

### Graduate Degree Programs in East Asian Languages & Cultures

East Asian Languages & Cultures, MA (p. 681)

East Asian Languages and Cultures, PhD (p. 683)

**optional concentrations:**

Medieval Studies (p. 1076) | Second Language Acquisition & Teacher Education (p. 1080)

### Admission

Applicants are expected to have a strong background in at least one East Asian language; normally, this means a minimum of two years of formal study. Applicants to the graduate program must submit an application for admission online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply)) and submit a statement of purpose, three letters of reference completed by teachers, advisers, or recent employers, and a 10-20 page writing sample. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
3070 Foreign Languages Bldg.  
707 S. Mathews Ave.  
Urbana, IL 61801

Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 103 on the internet-based test (iBT) for admission with full standing; they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)). Students with a B.A. or B.S. only should apply to the M.A. Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

### Medical Scholars Program

The Medical Scholars Program permits highly qualified students to integrate the study of medicine with study for a graduate degree in a second discipline, including East Asian Languages and Cultures. Students may apply to the Medical Scholars Program prior to beginning graduate school or while in the graduate program. Applicants to the Medical Scholars Program must meet the admissions standards for and be accepted into both the doctoral graduate program and the

College of Medicine. Students in the dual degree program must meet the specific requirements for both the medical and graduate degrees. On average, students take eight years to complete both degrees. Further information on this program is available by contacting the Medical Scholars Program, 125 Medical Sciences Building, (217) 333-8146 or at <https://www.med.illinois.edu/mdphd/>.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. Therefore, applicants are requested to include information on teaching background as part of the application, and students can normally be expected to teach at least one semester as part of their graduate experience. Non-native English speakers must first pass a test of their oral English ability.

[www.grad.uiuc.edu/admissions/taengprof.htm](http://www.grad.uiuc.edu/admissions/taengprof.htm) (<http://www.grad.uiuc.edu/admissions/taengprof.htm>)

## Financial Aid

The Department makes every effort to assist graduate students in securing financial aid. Financial aid packages usually combine some form of fellowship support with teaching or research assistantships in a manner that allows for both teaching experience and timely completion of the degree. In recent years, almost all EALC graduate students have received some form of financial support. Financial aid for graduate students in the Department of East Asian Languages and Cultures may include:

- University Fellowships
- Foreign Language and Area Studies (FLAS) Fellowships
- University Dissertation Completion Fellowships
- Minority Academic Partnership Plan (MAPP) Fellowships
- teaching assistantships
- research assistantships

All awards of financial aid are made following competitive application.

<https://www.grad.illinois.edu/fellowship/>

*for the degree of Master of Arts East Asian Languages and Cultures*

For additional details and requirements refer to the department's guide to Graduate Programs (<http://www.ealc.illinois.edu/programs/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Thesis Option

## Learning Outcomes: East Asian Languages & Cultures, MA

Learning Outcomes for the degree of Master of Arts in East Asian Languages & Cultures

- 1. Learning goal in East Asian languages:** Language proficiency in two East Asian languages.
- 2. Learning goal in East Asian disciplines:** Familiarity with a major field and at least one minor field outside of the student's focused area to broaden students' perspectives and ability to conduct interdisciplinary research and to teach general courses.
- 3. Learning goal in East Asian periods:** Understanding of both modern and pre-modern periods of East Asian societies.
- 4. Learning goal in teaching preparedness:** Proficiency in teaching methodologies to teach languages or to teach Gen-Ed courses.

5. **Learning goal in research:** Completion of MA thesis or qualifying exams in three fields for MA students. Three qualifying exams, oral exam, and the completion of the dissertation and defense for Ph.D. students.

## East Asian Languages and Cultures, PhD

### *for the degree of Doctor of Philosophy Major in East Asian Languages & Cultures*

### Graduate Degree Programs in East Asian Languages & Cultures

East Asian Languages & Cultures, MA (p. 681)

East Asian Languages and Cultures, PhD (p. 683)

**optional concentrations:**

Medieval Studies (p. 1076)|Second Language Acquisition & Teacher Education (p. 1080)

### Admission

Applicants to the PhD program normally must hold a master's degree in East Asian studies or a related discipline with an East Asian concentration.

Candidates for the PhD may specialize in culture (e.g., religion, literature, history, anthropology), language acquisition, or language pedagogy, with a major concentration in China, Japan, or Korea.

Other general requirements include: an annual review of progress, including an evaluation of research capability; a written and oral preliminary examination in the major and two minor fields (after completion of coursework); presentation of a dissertation proposal (often as part of the preliminary exam); **and completion and defense of the dissertation.**

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. Therefore, applicants are requested to include information on teaching background as part of the application, and students can normally be expected to teach at least one semester as part of their graduate experience. Non-native English speakers must first pass a test of their oral English ability.

<b>Language Requirement:</b>		
Candidates must demonstrate a knowledge of one East Asian language at the fourth-year level by satisfactory completion of appropriate (400-level) coursework or examination and passage of a written examination covering material studied while in residence.		
Demonstration of proficiency in a second language relevant to the student's course of study usually Chinese, Japanese, Korean evidenced by either a) completion of minimum of two years of an approved sequence courses; or b) by examination.		
EALC 599	Thesis Research (32 max applied toward degree)	0-32
Total Hours		64

**Other Requirements**<sup>1</sup>

Requirement	Description
Other Requirements may overlap	
In addition to the language requirements noted above, Ph.D. students whose primary focus is Japan are required to take one year of classical Japanese, and those whose primary focus is China are required to take one year of classical Chinese. These may be counted toward degree requirements.	
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	2.75

<sup>1</sup> For additional details and requirements refer to the department's guide to Graduate Programs (<http://www.ealc.illinois.edu/programs/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**Entering with approved B.S./B.A. degree**

Code	Title	Hours
EALC 500	Proseminar in EALC	4
	Two 500-level courses in the major field including one course designated as a research seminar in which the student produces a research paper using Asian language sources.	8
	Distribution requirements. a minimum of two (8 hours) 400- or 500-level courses that are: 1. outside the major field of interest. 2. in an East Asian culture other than the major areas of interest. 3. in a Second Period (modern or premodern)	8
	Elective hours to earn MA equivalency	12
	Courses in the major field defined by culture and discipline (500-level)	16
	Research seminars (500-level)	8
	Elective 500-level courses	8

**Learning Outcomes: East Asian Languages & Cultures, PhD**

Learning Outcomes for the degree of Doctor of Philosophy Major in East Asian Languages & Cultures

- 1. Learning goal in East Asian languages:** Language proficiency in two East Asian languages.
- 2. Learning goal in East Asian disciplines:** Familiarity with a major field and at least one minor field outside of the student's focused area to broaden students' perspectives and ability to conduct interdisciplinary research and to teach general courses.
- 3. Learning goal in East Asian periods:** Understanding of both modern and pre-modern periods of East Asian societies.
- 4. Learning goal in teaching preparedness:** Proficiency in teaching methodologies to teach languages or to teach Gen-Ed courses.
- 5. Learning goal in research:** Completion of MA thesis or qualifying exams in three fields for MA students. Three qualifying exams, oral exam, and the completion of the dissertation and defense for Ph.D. students.

**Graduate Degree Programs in Ecology, Evolution & Conservation Biology**

Ecology, Evolution & Conservation Biology, MS (p. 684)

Ecology, Evolution & Conservation Biology, PhD (p. 686)

The Program in Ecology, Evolution and Conservation Biology (PEEC) is an interdepartmental program designed to provide individualized training in preparation for careers in these disciplines. Because of

the breadth of fields covered by this program, there will be no fixed course requirements other than attendance at the program's seminar series and annual graduate student symposium. Courses taken by a student and the student's Advisory Committee generally will come from multiple departments. The goal of the program's regulations is to allow maximum flexibility while providing close supervision, with the outcome of producing scientists who are broadly educated and technically competent in ecology, evolutionary biology and associated disciplines. The program offers M.S. and Ph.D. degrees.

## Admission

Prospective candidates must meet the requirements for admission set by the Graduate College of the University of Illinois at Urbana-Champaign. Only applicants who have graduated from an accredited college or university and who hold or will be granted a baccalaureate degree (or its equivalent) comparable in content and completed credit hours to that granted by the University of Illinois will be considered. Applicants must have a minimum grade-point average of 3.0 (A = 4.0) computed from the last two years of undergraduate (and any graduate) work completed. The program will give preference to candidates who hold a degree in biology or a closely related discipline and show promise of excellence in research and teaching. Typically, only students with strong letters of recommendation and a GPA well above the minimum stated above will be admitted. Demonstration of academic excellence by other means (e.g., extensive field or laboratory research experience) will also be considered. The Admissions Committee will make decisions concerning admission. For students whose native language is not English, the Program requires a minimum paper-based TOEFL score of 613 (257 on the computer-based test or 103-104 on the web-based test).

## Financial Aid

Students admitted to the Program are typically offered two years of support for the M.S. degree and five years of support for the Ph.D. Support consists of fellowships, teaching assistantships or research assistantships. Such support typically comes with a waiver of tuition, service fees, or both. Continued offers of assistantships or fellowships each academic year will depend on an evaluation of satisfactory progress by the Director of the Program. Students who require more than two years to complete the M.S. degree or five years to complete the Ph.D. degree must submit a written petition to the Director of the Program, supported by their Advisor, to be considered for an additional year of support.

### ***for the degree of Master of Science in Ecology, Evolution & Conservation Biology***

All students must register for and attend the weekly PEEC seminar series (IB 546A) each semester in residence. An orientation seminar (IB 546B) must be taken the first fall semester in residence. Excuses because of conflicts must be approved by the Director of the Program. Graduation requires the completion of a thesis. Student research will be guided and approved by an Advisory Committee of three faculty from at least two departments, including the Major Advisor who will serve as chair. The director of the program must approve membership of the Masters Advisory Committee.

## Requirements

Code	Title	Hours
IB 546	Topics in Ecology & Evolution (Sections A & B, A to be taken each semester of enrollment)	1-10

Thesis Hours Required (min/max applied toward degree) (credit in rubrics other than BIOL, NRES, PBIO or ENT must be petitioned to apply):	8-12
---	------

Total Hours	32
-------------	----

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Course work in three core areas with grades no lower than B or S.	
Minimum 500-level Hours Required	12
Overall:	
Minimum GPA:	3.0

## Learning Outcomes: Ecology, Evolution & Conservation Biology, MS

Learning outcomes for the degree of Master of Science in Ecology, Evolution & Conservation Biology

Since the subject matter of our Program is interdisciplinary and broad, there is no one set of subject-based learning outcomes that is suitable for the evaluation of our graduate students. Instead, we will focus on appropriate research and professional development skills.

- Design and implement independent research and integrate and apply core knowledge related to their field in 3 core areas out of 6 (behavior, conservation biology, ecology, evolution, genetics/genomics, physiology/ anatomy).
- Demonstrate effective oral and written communication skills
  - Presentations
  - Publications
  - Grant writing
- Apply rigorous statistics/analytical methods that typify their area of study
- Professional skills
  - Data management
  - Citation management
  - Mentoring
  - Ethics
  - Professionalism
  - Networking
- Teaching experience
  - Lead Discussions/Lab Activities Effectively
  - Effective in the presentation of information/lecture
  - Consistent Grader with meaningful feedback to students
  - Genuine concern for the learning outcomes of all students

## Graduate Degree Programs in Ecology, Evolution & Conservation Biology

Ecology, Evolution & Conservation Biology, MS (p. 684)

Ecology, Evolution & Conservation Biology, PhD (p. 686)

The Program in Ecology, Evolution and Conservation Biology (PEEC) is an interdepartmental program designed to provide individualized training in preparation for careers in these disciplines. Because of the breadth of fields covered by this program, there will be no fixed course requirements other than attendance at the program's seminar series and annual graduate student symposium. Courses taken by a student and the student's Advisory Committee generally will come from multiple departments. The goal of the program's regulations is to allow maximum flexibility while providing close supervision, with the outcome of producing scientists who are broadly educated and technically competent in ecology, evolutionary biology and associated disciplines. The program offers M.S. and Ph.D. degrees.

### Admission

Prospective candidates must meet the requirements for admission set by the Graduate College of the University of Illinois at Urbana-Champaign. Only applicants who have graduated from an accredited college or university and who hold or will be granted a baccalaureate degree (or its equivalent) comparable in content and completed credit hours to that granted by the University of Illinois will be considered. Applicants must have a minimum grade-point average of 3.0 (A = 4.0) computed from the last two years of undergraduate (and any graduate) work completed. The program will give preference to candidates who hold a degree in biology or a closely related discipline and show promise of excellence in research and teaching. Typically, only students with strong letters of recommendation and a GPA well above the minimum stated above will be admitted. Demonstration of academic excellence by other means (e.g., extensive field or laboratory research experience) will also be considered. The Admissions Committee will make decisions concerning admission. For students whose native language is not English, the Program requires a minimum paper-based TOEFL score of 613 (257 on the computer-based test or 103-104 on the web-based test).

### Financial Aid

Students admitted to the Program are typically offered two years of support for the M.S. degree and five years of support for the Ph.D.

Support consists of fellowships, teaching assistantships or research assistantships. Such support typically comes with a waiver of tuition, service fees, or both. Continued offers of assistantships or fellowships each academic year will depend on an evaluation of satisfactory progress by the Director of the Program. Students who require more than two years to complete the M.S. degree or five years to complete the Ph.D. degree must submit a written petition to the Director of the Program, supported by their Advisor, to be considered for an additional year of support.

### *for the degree of Doctor of Philosophy in Ecology, Evolution & Conservation Biology*

All students must register for and attend the weekly PEEC seminar series (IB 546A) each semester in residence. The Director of the Program must approve excuses because of conflicts. An orientation seminar (IB 546B) must be taken the first fall semester in residence.

No later than their second semester in the program, the student in consultation with their Major Advisor will select members of the student's Doctoral Committee, which will meet annually with the student to plan coursework and research and to review and facilitate progress toward the degree. Students will prepare a short written report of their activities during the previous year for consideration by the Doctoral Committee. The Doctoral Committee will thoroughly consider all aspects of the student's activities, after which the Major Advisor will provide a written report of progress to the Director of the Program.

The faculty constituting a student's Doctoral Committee must come from two or more departments, comprise a minimum of four members (including the Major Advisor), be familiar with the student's area of research interest, and be approved by the Director of the Program. The chair of the Doctoral Committee is typically the Major Advisor, provided that the advisor is both a member of the University's Graduate Faculty and the Program in Ecology, Evolutionary and Conservation Biology. If this is not the case, the Director of the Program will appoint a chairperson who fulfills these requirements from among the committee membership. The Doctoral Committee will be responsible for administering the necessary examinations. No later than their sixth semester in the program, and preferably in their fifth semester before the deadline for submission of a proposal for an NSF Dissertation Improvement Grant (typically, the third Friday in November), doctoral students must take a Preliminary Examination. For this exam, a member of the Doctoral Committee other than the major advisor will be appointed chair by the Director of the Program. The first part of the three-hour oral exam will be general and cover the student's three core areas of emphasis. The second part of the exam will be a defense of the research proposal. Two weeks prior to the exam, the student must present to the Doctoral Committee a proposal prepared in the format of a proposal for an NSF Dissertation Improvement Grant. It should describe the objectives of the research project, the experimental plan and rationale, the results of pilot studies, a budget, and a tentative timetable for its completion. The student will present evidence of feasibility and significance of the proposal, but the main research for the dissertation shall not have been performed prior to the Preliminary Examination. A detailed report of the exam and a copy of the research proposal shall be submitted to the Director of the Program. A passing grade qualifies the student as a Ph.D. candidate. A failing grade will require the student to take a second preliminary examination no later than the following semester. A second failure will result in dismissal from the program.

Upon completion of a dissertation and the other requirements of the program, the student shall be subject to a Final Examination, which shall consist of a defense of the dissertation. Copies of the completed

dissertation, approved by the Major Advisor, should be submitted to the Doctoral Committee at least two weeks prior to the Final Examination. The thesis will be judged in relation to published scholarly work in the field, and students will be encouraged to begin publishing their results before taking their Final Examination. Passing this exam and presentation of the dissertation by the student at a public seminar sponsored by the program qualify the student for the Ph.D. degree. Failure will require the student to conduct additional research and to repeat the Final Examination.

Economics, MS (p. 687)

### concentration:

Economics: Policy Economics, MS (p. 688)

Economics, PhD (<http://catalog.illinois.edu/graduate/las/graduate/las/economics-phd/>)

## Admission

Admission to the Ph.D. program is available only for the fall semester. In addition to the standard undergraduate preparation in economics, students are expected to have had at least two semesters of calculus and one of linear algebra to be admitted to the Ph.D. program. The results of the Graduate Record Examination (GRE) should accompany applications for admission. Graduate College admission requirements apply. In addition, international students must submit Test of English as a Foreign Language (TOEFL) or IELTS results; if they wish to apply for a teaching assistantship, the Test of Spoken English (TSE) or completion of the speaking section of the TOEFL-iBT or IELTS is also required.

## Graduate Teaching Experience

Experience in teaching is considered an important part of the graduate program and is encouraged as part of the academic work of all Ph.D. candidates in this program.

## Financial Aid

In recent years, the Department of Economics has been able to offer assistantships to most students who meet the standards for admission or continuation in the Ph.D. program. In order to qualify for a teaching assistantship, non-native speakers of English must pass a speaking proficiency test of the English language.

## Learning Outcomes: Economics, MS

Learning outcomes for the Master of Science in Economics

1. **Research Skills:** The main objective of the program is to train students to become independent researchers, who are able to produce high-quality research for both academic and non-academic settings. This requires students to learn how to identify interesting questions, find creative solutions, and learn how to present the results of their work to the scientific community.
2. **Analytical Skills:** We want to make sure that students have all the mathematical and statistical tools necessary for their future careers. This includes a solid foundation in the core areas of Economics: Microeconomics, Macroeconomics, and Econometrics.
3. **Problem Solving Skills:** We want to teach students how to solve complex problems, by applying the technical tools that they have acquired, and by identifying and correctly using data sources.
4. **Expertise in a Student's Field of Research:** Students need to acquire a solid foundation in their chosen field of research. They should be familiar with the key past and present contributions in their area.
5. **Presentation and Writing Skills:** To be successful in the program and their future career, students must successfully present their work both in seminars and in written form.

## Economics: Policy Economics, MS

**email:** [econ@illinois.edu](mailto:econ@illinois.edu)

This is a specially designed one- to two-year program to address the needs of two groups of students. One is promising young professionals and administrators who need additional training in the areas of economic analysis and quantitative techniques. The other is students who are potentially interested in pursuing a Ph.D. degree but require additional qualification to enable them to do so. While earning the master's degree

and acquiring the necessary tools for further studies, they will learn if the pursuit of a Ph.D. degree is within their reach and suits their purposes.

Students enter the program only in the fall term.

The required coursework is further enriched through

1. academic advising wherein an academic advisor with an open-door policy allows the MSPE students to drop by his office at their convenience, discuss their academic questions with him, and re-optimize their program of study on a continual basis. The academic advisor also provides guidance on study plans beyond graduation and provides support in achieving them;
2. an orientation program that includes an intensive mathematics course; this course serves as a refresher for the math content to be utilized during the students' courses in the program;
3. opportunities to participate in field trips to observe the operation of financial institutions, modern industrial production facilities, federal and state government agencies, and international institutions;
4. scheduled lectures by outstanding, internationally known economists;
5. discussion groups and tutoring for participants who are having difficulty;
6. program staff assistance with visas, housing, and other nonacademic concerns; and
7. participation in social activities, including graduation dinners, holiday parties, picnics, and special luncheons.

This is a designated full-cost recovery program and no financial aid is available for the students in this program.

Please see <https://economics.illinois.edu/mspe> (<https://economics.illinois.edu/mspe/>) for detailed information on the MSPE Program.

Minimum Hours Required Within the 32 Unit:	
Minimum 500-level Hours Required Overall:	32
Minimum GPA:	3.0

## Learning Outcomes: Economics: Policy Economics, MS

Learning outcomes for the Master of Science in Economics, Policy Economics Concentration

1. **Basic Training Economics:** Develop in-depth competency in the core areas of economics: microeconomic theory, macroeconomic theory. Develop additional competency in one area of specialization through elective coursework and econometrics. Popular fields of specialization include advanced econometrics, development, international economics, monetary economics, public economics, and industrial organization.
2. **Quantitative Skills:** Provide solid training for statistical and econometrics skills. MSPE students will understand how to apply empirical evidence to economic arguments. Specifically, they will learn to obtain and/or collect data, develop empirical evidence using appropriate econometrics techniques, and interpret the results of such analyses.
3. **Preparation for Ph.D. programs:** The Ph.D. track option provides an opportunity for students to continue to the Ph.D. program in economics at UIUC. In addition, provides appropriate preparation for interested students to pursue a doctorate in economics.
4. **Critical Thinking:** MSPE students will apply economic analysis to everyday problems helping them to understand events, evaluate specific policy proposals, compare arguments with different conclusions to a specific issue or problem, and assess the role played by assumptions in arguments that reach different conclusions to a specific economic or policy problem.
5. **Social skills & cultural awareness:** Enrich the student experience through seminars featuring guest speakers, field trips, events like a picnic, holiday party, Thanksgiving lunch, and graduation dinners.

## Economics, PhD

*for the Doctor of Philosophy in Economics*

**head of the department:** Martin Perry  
**associate head:** George Deltas  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**college website:** <https://las.illinois.edu/>  
**department website:** <http://www.economics.illinois.edu>  
**department office:** 214 David Kinley Hall, 1407 W. Gregory Dr., Urbana, IL 61801  
**phone:** (217) 333-0120  
**fax:** (217) 244-6571  
**email:** [econ@illinois.edu](mailto:econ@illinois.edu)

Students must pass comprehensive qualifying examinations on Econometrics, Macroeconomics and Microeconomics. Those who fail the comprehensive examinations will have a 2nd chance in the start of the fall semester and a 3rd chance at the end of the fourth semester (in this 3rd chance they will take the exams with the first year students of the next cohort). Students who have failed the 3rd chance will not be allowed to register for the following year. Upon meeting course and GPA requirements, they will be eligible to receive a master's degree in Economics, provided they have not previously received such a degree from another institution.

Candidates must also successfully complete two fields through coursework and/or a written examination. A research paper must be submitted prior to the start of the third year and approved prior to the end of that year. Students who fail to meet these deadlines will have reduced financial support and be placed on academic probation. Unless they return to good standing by satisfying the requirement, they will be dropped from the program at the end of the following semester.

A dissertation is also required. In addition, candidates are required to give an oral defense of the dissertation proposal and pass an oral final examination covering the research. A student with an appropriate background who devotes full time to graduate work can complete the Ph.D. degree in four years beyond the bachelor's degree. An additional year or more is usually necessary, especially for those holding part-time assistantships. Students in the Ph.D. program may earn a master's degree as they work toward the Ph.D. degree.

**The candidate for a Ph.D. may specialize in the following fields:**

- microeconomic theory
- public economics
- macroeconomic theory
- international economics
- labor economics
- development economics
- mathematical economics
- econometrics
- industrial organization

### *for the Doctor of Philosophy in Economics*

Optional: A not-for-credit Math Camp after campus orientation, consisting of 12 hours of instruction. The aim of the Math Camp is to prepare students with no master's level coursework in mathematical economics for the program's first year classes. However, it will be open to all incoming students.

Additional information can be found at [www.economics.illinois.edu/programs/phdprogram/](http://www.economics.illinois.edu/programs/phdprogram/) (<http://www.economics.illinois.edu/programs/phdprogram/>).

## Entering with approved B.S./B.A. degree

Code	Title	Hours
	Macroeconomic theory	8
	Microeconomic theory	8
	Statistics and econometrics	8
	Field electives	24
	Workshop and research seminar	16
ECON 599	Thesis Research (min/max applied toward degree)	32
Total Hours		96

## Other Requirements <sup>1</sup>

Requirement	Description
Other Requirements may overlap	
Research paper must be submitted before the start of the third year of study and be approved by the end of the third year.	
Master's Degree Required for Admission to Ph.D.?	No
Qualifying Exam Required	Yes
Preliminary Exam Required	Yes

Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate programs (<http://www.economics.uiuc.edu/programs/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Entering with approved M.S./M.A. degree

Code	Title	Hours
	Field electives	24
	Workshop and research seminar	16
ECON 599	Thesis Research (min/max applied toward degree)	32
Total Hours		72

### Other Requirements <sup>1</sup>

<sup>1</sup> For additional details and requirements refer to the department's graduate programs (<http://www.economics.uiuc.edu/programs/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Economics, PhD

Learning outcomes for the Doctor of Philosophy in Economics

1. **Research Skills:** The main objective of the program is to train students to become independent researchers, who are able to produce high-quality research for both academic and non-academic settings. This requires students to learn how to identify interesting questions, find creative solutions, and learn how to present the results of their work to the scientific community.
2. **Analytical Skills:** We want to make sure that students have all the mathematical and statistical tools necessary for their future careers. This includes a solid foundation in the core areas of Economics: Microeconomics, Macroeconomics, and Econometrics.
3. **Problem Solving Skills:** We want to teach students how to solve complex problems, by applying the technical tools that they have acquired, and by identifying and correctly using data sources.

4. **Expertise in a Student's Field of Research:** Students need to acquire a solid foundation in their chosen field of research. They should be familiar with the key past and present contributions in their area.
5. **Presentation and Writing Skills:** To be successful in the program and their future career, students must successfully present their work both in seminars and in written form.

(on campus)

**optional concentrations: EPOL concentrations listed below** | Bilingual-Bicultural Education (p. 1052) | Digital Learning (p. 1068) | African American Studies (p. 1051)

Education Policy, Organization and Leadership, PhD (p. 698)  
(on campus)

**optional concentration: EPOL concentrations listed below** | Digital Learning (p. 1068) | African American Studies (p. 1051) | Writing Studies (p. 1084)

**EPOL concentrations:** Diversity & Equity in Education (p. 1069), Educational Administration & Leadership (p. 1070), Global Studies in Education (p. 1072), Higher Education (p. 1072), History of Education (p. 1073), Human Resource Development (p. 1074), Learning Design & Leadership (p. 1075), Philosophy of Education (p. 1077), Social Sciences & Education Policy (p. 1082)

College Teaching Minor (p. 1094)

### joint programs:

Education Policy, Organization and Leadership, EdM and Business Administration, MBA (p. 1122)  
Education Policy, Organization and Leadership, MA and Business Administration, MBA (p. 1122)

Degree programs in the Department of Education Policy, Organization and Leadership are designed to meet the academic and professional interests of individuals preparing for careers as academic professionals, adult educators, college professors, corporate trainers, educational policy analysts, governmental administrators, instructional designers/technologists, non-profit representatives, organizational development specialists, and university administration leaders.

## Admission

The Department of Education Policy, Organization and Leadership carefully considers all applicants for graduate study. Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). The quality of the applicant's undergraduate and graduate training and grade point average are primary considerations. Other important factors evaluated include the three letters of recommendation and statement of purpose. International applicants must submit a TOEFL score.

## Off-Campus Programs

The Education Policy, Organization and Leadership department offers selected off-campus programs in the Chicago region, through the use of a cohort model. The Ed.M. and C.A.S. degree options with General

Administrative Endorsement are offered in the Chicago region. An Ed.D. degree cohort also is available in School Executive Leadership. Requirements for the off-campus Ed.M., C.A.S., and Ed.D. programs are identical to the on-campus degrees.

## Facilities and Resources

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

*for the Certificate of Advanced Study in Education Policy, Organization & Leadership*

The Department of Education Policy, Organization & Leadership offers many programs leading to the degree of Certificate of Advanced Study (C.A.S.). A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=cas&department=epol>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in:

Diversity & Equity in Education (p. 1069), Educational Administration & Leadership (p. 1070), Global Studies in Education (p. 1072), Higher Education (p. 1072), History of Education (p. 1073), Human Resource Development (p. 1074), Learning Design & Leadership (p. 1075), Philosophy of Education (p. 1077), Social Sciences & Education Policy (p. 1082)

If the student does not have a Master's degree from the University of Illinois at Urbana-Champaign, the foundation courses listed below must be completed. The minimum GPA is 3.0.

Code	Title	Hours
	<b>Psychological Foundations Courses in Educational Psychology</b>	<b>4</b>
Select one of the following:		
EPSY 400	Psychology of Learning in Education	
EPSY 401	Child Language and Education	

EPSY 402	Sociocultural Influence on Learning	
EPSY 404	Adjustment in School Settings	
EPSY 405	Personality and Soc Dev	
EPSY 406	Psychology of Classroom Management	
EPSY 407	Adult Learning and Development	
EPSY 408	Learning and Human Development with Educational Technology	
EPSY 430	Early Adolescent Development	
EPSY 485	Assessing Student Performance	
EPSY 490	Developments in Educational Psychology	
EPSY 553	Global Issues in Learning	
<b>Philosophical and Social Foundations Courses in Education</b>		<b>4</b>
<b>Policy, Organization and Leadership</b>		
Select one of the following:		
EPOL 401	History of American Education	
EPOL 402	Asian American Education	
EPOL 403	Historical and Social Barriers	
EPOL 405	School and Society	
EPOL 406	Professional Ethics in Education	
EPOL 407	Critical Thinking in Education	
EPOL 408	Aesthetic Education	
EPOL 409	Sociology of Education	
EPOL 410	Racial and Ethnic Families	
EPOL 412	Politics of Education	
EPOL 413	Economics of Education	
EPOL 480	Technology and Educational Reform	
EPOL 539	Political & Cultural Context of Education	
500-Level Courses		16
400/500-Level Courses		16
Independent Study		0-8
(Optional) Concentration Courses. May overlap with other general coursework requirements		12-24
Total Hours		32

## Graduate Degree Programs in Education Policy, Organization & Leadership

Education Policy, Organization and Leadership, CAS (p. 691)  
**(on campus and off-campus)**

Education Policy, Organization and Leadership, EdD (p. 696)  
**(on campus, off-campus & online)**

**optional concentrations: EPOL concentrations listed below**| Bilingual-Bicultural Education (p. 1052)| Digital Learning (p. 1068)| African American Studies (p. 1051)| Writing Studies (p. 1084)

Education Policy, Organization and Leadership, EdM (p. 693)  
**(on campus, off-campus & online)**

**optional concentrations: EPOL concentrations listed below**| Bilingual-Bicultural Education (p. 1052)| Digital Learning (p. 1068)

Education Policy, Organization and Leadership, MA (p. 695)  
**(on campus)**

**optional concentrations: EPOL concentrations listed below**| Bilingual-Bicultural Education (p. 1052)| Digital Learning (p. 1068)| African American Studies (p. 1051)

Education Policy, Organization and Leadership, PhD (p. 698)  
**(on campus)**

**optional concentration: EPOL concentrations listed below**| Digital Learning (p. 1068)| African American Studies (p. 1051)| Writing Studies (p. 1084)

**EPOL concentrations:** Diversity & Equity in Education (p. 1069), Educational Administration & Leadership (p. 1070), Global Studies in Education (p. 1072), Higher Education (p. 1072), History of Education (p. 1073), Human Resource Development (p. 1074), Learning Design & Leadership (p. 1075), Philosophy of Education (p. 1077), Social Sciences & Education Policy (p. 1082)

College Teaching Minor (p. 1094)

### joint programs:

Education Policy, Organization and Leadership, EdM and Business Administration, MBA (p. 1122)

Education Policy, Organization and Leadership, MA and Business Administration, MBA (p. 1122)

Degree programs in the Department of Education Policy, Organization and Leadership are designed to meet the academic and professional interests of individuals preparing for careers as academic professionals, adult educators, college professors, corporate trainers, educational policy analysts, governmental administrators, instructional designers/technologists, non-profit representatives, organizational development specialists, and university administration leaders.

## Admission

The Department of Education Policy, Organization and Leadership carefully considers all applicants for graduate study. Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). The quality of the applicant's undergraduate and graduate training and grade point average are primary considerations. Other important factors evaluated include the three letters of recommendation and statement of purpose. International applicants must submit a TOEFL score.

## Off-Campus Programs

The Education Policy, Organization and Leadership department offers selected off-campus programs in the Chicago region, through the use of a cohort model. The Ed.M. and C.A.S. degree options with General Administrative Endorsement are offered in the Chicago region. An Ed.D. degree cohort also is available in School Executive Leadership. Requirements for the off-campus Ed.M., C.A.S., and Ed.D. programs are identical to the on-campus degrees.

## Facilities and Resources

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

*for the Doctor of Education in Education Policy, Organization and Leadership (on campus, off-campus & online)*

---

A list of programs and additional requirements can be found on the program's website (<https://education.illinois.edu/faceted-search/programs/?degree=edd&department=epol>), the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/graduate-programs-handbook/>).

students/graduate/coe-graduate-handbook/), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in:

African American Studies (p. 1051), Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>), Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>), Diversity & Equity in Education (p. 1069), Educational Administration & Leadership (p. 1070), Global Studies in Education (p. 1072), Higher Education (p. 1072), History of Education (p. 1073), Human Resource Development (p. 1074), Learning Design & Leadership (p. 1075), Philosophy of Education (p. 1077), Social Sciences & Education Policy (p. 1082), Writing Studies (p. 1084)

### This degree program can be completed either on campus or online; the requirements are listed below:

Required Courses:	Required Hours
Major subject coursework (includes concentration courses)	12
Research methods	12
Elective hours (includes 0-12 hours of independent study)	36
Dissertation research hours required (min/max applied toward degree)	4-16
Total minimum hours	64

#### Other Requirements

Requirement	Description
Other Requirements may overlap	
A concentration is not required	
Masters degree required for admission to Ed. D.	
Residency:	16 hours over 4 consecutive semesters of study
Qualifying exams	
Human subjects approval	
Preliminary exam	
Final exam/dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

## Education Policy, Organization & Leadership, PhD

for the Doctor of Philosophy in Education Policy, Organization & Leadership

 African American Studies (p. 1051) **(available to all on campus degrees)**  
 Second Language Acquisition and Teacher Education (<http://www.slate.illinois.edu/>) (PhD only)

---

## Admission

Students entering without a master's degree must first complete the requirements for a Master of Science (including a master's thesis).

The Department offers admission to a terminal on-campus Master of Science (M.S.) degree with a focus on Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES).

There is no admission to terminal masters degrees in Cognitive Science of Teaching and Learning (CSTL), Developmental Sciences, or Counseling Psychology areas of specialization.

The department accepts applications for the Ph.D. degree, from both applicants who have completed their bachelor's degrees and those who have a master's degree. Students who enter the program without a prior master's incorporate their master's class work and research into their doctoral program, and earn a master's degree as the first step toward their Ph.D (satisfying the "Early Research Project" requirement). The department does not accept applications for master's degrees in CSTL, Developmental Sciences, or Counseling Psychology.

## Applications

Doctoral applicants must submit a complete application for university admission, including three letters of reference, transcripts from all schools where undergraduate and graduate degrees were awarded or expect to be awarded prior to the application enrollment term, and other items listed in the department Web site (<http://www.education.illinois.edu/edpsy/>). Applicants to our doctoral program apply for Fall enrollment. Current deadlines are posted on our department Web site (<http://www.education.illinois.edu/edpsy/>).

Doctoral candidates are admitted into one of four divisions: CSTL, Developmental Sciences, QUERIES and Counseling Psychology. When making admission decisions, division committees consider academic performance (e.g., grade-point average, GPA), GRE scores, letters of recommendation, and statement of purpose. Preference is given to those with research experience and research interests that are aligned with existing research programs in the Department.

Master's candidates are only admitted into QUERIES.

## Grade Point Average

The preferred department standard for grade point average is 3.5 on a 4.0 scale. The University calculates undergraduate GPAs on the last two years of grades for degreed applicants and in the last one year for students who have not yet completed their bachelor's degree. Graduate GPAs are calculated on the total of all graduate level courses taken beyond the undergraduate degree.

## Test of English as a Foreign Language (TOEFL)

International applicants must have demonstrated English language competence with TOEFL scores of greater than 610 (paper and pencil test), greater than 253 (computer-based test), or greater than 102 iBT. An IELTS score of greater than 6.5 overall, with at least 6 in each sub-section, can be substituted for the TOEFL score. Students who are accepted with lower scores will be required by the University to enroll on a limited status basis for at least their first semester.

## Area of Study Affiliation

All applicants to the Educational Psychology doctoral program must specify one of four areas in which they wish to study:

- Cognitive Science of Teaching and Learning (CSTL)
- Counseling Psychology (Counseling);
- Developmental Sciences
- Studies in Interpretive, Statistical Measurement, and Evaluative Methodologies for Research (QUERIES)

Detailed information about each area and about the research interests of the faculty can be found on the department Web site (<http://www.education.illinois.edu/edpsy/>).

Although all Ph.D. students are admitted to a specific area of study, the actual coursework, research, and faculty often overlap area boundaries. Departmental policy makes it possible for a student to change advisers and affiliation from one area to another when interests and research foci become more clearly defined or change. Many faculty members are affiliated with more than one area of study.

## Faculty Research Interests

The faculty's research agendas span a wide range of topics related to the study and application of psychological principles to develop and inform educational interventions and facilitate human development

across the life span. Faculty conduct basic and translational research that explores the cognitive, life-span developmental, social-emotional, and socio-cultural factors that affect behavior, learning, and achievement in educational, clinical, and community contexts. They also engage in research on approaches to educational inquiry and the development of quantitative, qualitative and evaluative methodologies that underpin the development of evidence-based, policy-relevant studies. For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Center, Programs, and Institutes

Department faculty are affiliated with both research centers and institutes in the College of Education and the university more broadly, including the Adult Learning Lab, the Center for Education in Small Urban Communities, the Center for Advanced Study, the Beckman Institute, the Center for the Study of Reading, the Social Development Consortium, and others.

## Facilities and Resources

The Department of Educational Psychology puts a high priority on working with its graduate students to secure fellowships and other awards.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

The department does not require a separate financial aid application.

## for the degree of Master of Education in Educational Psychology

The Department of Educational Psychology offers many programs leading to the degree of Master of Education (Ed.M.). A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edm&department=edpsy>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

The online Ed.M. program is not currently accepting applications.

Students may select a concentration in Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>) or Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

Requirement	Description
Minimum GPA	3.0

<sup>1</sup> *Students pursuing the Concentration in African American Studies (<http://catalog.illinois.edu/graduate/graduate-majors/african-american-studies/#concentrationconcentrationtext>) are required to take 24 hours of Concentration courses, for a total of 56 hours.*

## Learning Outcomes: Educational Psychology, EdM

Learning Outcomes for the degree of Master of Education in Educational Psychology

---

### Counseling Psychology Division

1. Counseling Psychology students will possess a broad knowledge of the core areas of psychology.
2. Counseling Psychology students will have an understanding of the basic statistical analytical methods, research designs, measurement models, and research approaches.<sup>3</sup>
3. Counseling Psychology students will demonstrate skills at independently designing, conducting, writing, and presenting research studies.
4. Counseling Psychology students will be skilled in psychological assessment in all aspects (design, psychometric evaluation, administering, and communicating results) as well as in a variety of contexts (e.g., both environmental and individual assessment).
5. Counseling Psychology students will have the ability to conceptualize clients from a variety of theoretical and scientifically-informed frameworks, present such a conceptualization to others and establish means and methods to evaluate its accuracy
6. Counseling Psychology students will possess theoretical and scientific knowledge regarding skills in the provision of interventions.
7. Counseling Psychology students will value and develop competence in aspects of diversity and individual differences.
8. Counseling Psychology students will have knowledge and appreciation of the ethical issues involved in being a psychologist.
9. Counseling Psychology students will adopt a critical, scientific approach to professional activities.

### Developmental Sciences Division

1. Developmental Sciences students will obtain a broad knowledge of the core areas of developmental research across the lifespan. This includes but is not limited to: a) social and emotional development; b) language and mathematical development; c) academic motivation and future planning/orientation; d) bullying and peer harassment; and e) identity formation with respect to gender, race, and ethnicity.
2. Developmental Sciences students will develop a deep expertise in a relevant specialized topic within or across these core areas. This includes mastering research findings in a topic area selected by the student, understanding the relevant theoretical perspectives related to this topic and learning about the appropriate methodological approaches to understanding the core area.
3. Developmental Sciences students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to scholarly literature in Developmental Sciences broadly and their specialized topic in particular. Specifically, they will develop skills to independently design, conduct, write, and present/publish research studies related to their area of focus/career path.

### Cognitive Science of Teaching and Learning (CSTL) Division

1. CSTL students will obtain a broad knowledge of the core areas related to the cognitive science of teaching and learning. This includes knowledge of theoretical perspectives, methodological approaches, and key research findings in the core areas of (a) cognition and learning across the lifespan, (b) learning and the psychology of language, (c) multimodal information processing, and (d) sociocultural dimensions of learning.
2. CSTL students will obtain a deep expertise in a relevant topic within or cutting across these core areas. This involves mastering theoretical perspectives, methodological approaches, and key research findings in a topic selected by the student. In addition, they will develop skills at independently designing, conducting, writing, and presenting/publishing research studies.
3. CSTL students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to the professional literature and their chosen professional identity/career path. This involves understanding the basic statistical analytical methods, research designs, measurement models, and research approaches.

### Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES) Division

1. QUERIES students will obtain a broad basic knowledge of the core areas of educational research methodologies, quantitative, qualitative, and evaluative research methods.
2. QUERIES students will obtain a sophisticated knowledge base of quantitative and/or qualitative research approaches and analytic tools necessary for contribution to the professional literature.
3. QUERIES students in Measurement will become skilled in the development and use of techniques for collecting and analyzing 'test' data through the study of measurement methods.
4. QUERIES students in Statistics will be skilled in traditional and modern quantitative analytic methods.
5. QUERIES students in Evaluation will have the skills required for Evaluation scholars –in education, social welfare, health services, community development, human resource development, and other domains.

---

## Admission

Students entering without a master's degree must first complete the requirements for a Master of Science (including a master's thesis).

The Department offers admission to a terminal on-campus Master of Science (M.S.) degree with a focus on Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES).

There is no admission to terminal masters degrees in Cognitive Science of Teaching and Learning (CSTL), Developmental Sciences, or Counseling Psychology areas of specialization.

The department accepts applications for the Ph.D. degree, from both applicants who have completed their bachelor's degrees and those who have a master's degree. Students who enter the program without a prior master's incorporate their master's class work and research into their doctoral program, and earn a master's degree as the first step toward their Ph.D (satisfying the "Early Research Project" requirement). The department does not accept applications for master's degrees in CSTL, Developmental Sciences, or Counseling Psychology.

## Applications

Doctoral applicants must submit a complete application for university admission, including three letters of reference, transcripts from all schools where undergraduate and graduate degrees were awarded or expect to be awarded prior to the application enrollment term, and other items listed in the department Web site (<http://www.education.illinois.edu/edpsy/>). Applicants to our doctoral program apply for Fall enrollment. Current deadlines are posted on our department Web site (<http://www.education.illinois.edu/edpsy/>).

Doctoral candidates are admitted into one of four divisions: CSTL, Developmental Sciences, QUERIES and Counseling Psychology. When making admission decisions, division committees consider academic performance (e.g., grade-point average, GPA), GRE scores, letters of recommendation, and statement of purpose. Preference is given to those with research experience and research interests that are aligned with existing research programs in the Department.

Master's candidates are only admitted into QUERIES.

## Grade Point Average

The preferred department standard for grade point average is 3.5 on a 4.0 scale. The University calculates undergraduate GPAs on the last two years of grades for degreed applicants and in the last one year for students who have not yet completed their bachelor's degree. Graduate GPAs are calculated on the total of all graduate level courses taken beyond the undergraduate degree.

## Test of English as a Foreign Language (TOEFL)

International applicants must have demonstrated English language competence with TOEFL scores of greater than 610 (paper and pencil test), greater than 253 (computer-based test), or greater than 102 iBT. An IELTS score of greater than 6.5 overall, with at least 6 in each sub-section, can be substituted for the TOEFL score. Students who are accepted with lower scores will be required by the University to enroll on a limited status basis for at least their first semester.

## Area of Study Affiliation

All applicants to the Educational Psychology doctoral program must specify one of four areas in which they wish to study:

- Cognitive Science of Teaching and Learning (CSTL)
- Counseling Psychology (Counseling);
- Developmental Sciences
- Studies in Interpretive, Statistical Measurement, and Evaluative Methodologies for Research (QUERIES)

Detailed information about each area and about the research interests of the faculty can be found on the department Web site (<http://www.education.illinois.edu/edpsy/>).

Although all Ph.D. students are admitted to a specific area of study, the actual coursework, research, and faculty often overlap area boundaries. Departmental policy makes it possible for a student to change advisers and affiliation from one area to another when interests and research foci become more clearly defined or change. Many faculty members are affiliated with more than one area of study.

## Faculty Research Interests

The faculty's research agendas span a wide range of topics related to the study and application of psychological principles to develop and inform educational interventions and facilitate human development

across the life span. Faculty conduct basic and translational research that explores the cognitive, life-span developmental, social-emotional, and socio-cultural factors that affect behavior, learning, and achievement in educational, clinical, and community contexts. They also engage in research on approaches to educational inquiry and the development of quantitative, qualitative and evaluative methodologies that underpin the development of evidence-based, policy-relevant studies. For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Center, Programs, and Institutes

Department faculty are affiliated with both research centers and institutes in the College of Education and the university more broadly, including the Adult Learning Lab, the Center for Education in Small Urban Communities, the Center for Advanced Study, the Beckman Institute, the Center for the Study of Reading, the Social Development Consortium, and others.

## Facilities and Resources

The Department of Educational Psychology puts a high priority on working with its graduate students to secure fellowships and other awards.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

The department does not require a separate financial aid application.

### **for the degree of Master of Arts in Educational Psychology**

The Department of Educational Psychology offers many programs leading to the degree of Master of Arts (M.A.). A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edm&department=edpsy>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>) or Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

## Learning Outcomes: Educational Psychology, MA

Learning Outcomes for the degree of Master of Arts in Educational Psychology

---

### Counseling Psychology Division

1. Counseling Psychology students will possess a broad knowledge of the core areas of psychology.
2. Counseling Psychology students will have an understanding of the basic statistical analytical methods, research designs, measurement models, and research approaches.<sup>3</sup>
3. Counseling Psychology students will demonstrate skills at independently designing, conducting, writing, and presenting research studies.
4. Counseling Psychology students will be skilled in psychological assessment in all aspects (design, psychometric evaluation, administering, and communicating results) as well as in a variety of contexts (e.g., both environmental and individual assessment).
5. Counseling Psychology students will have the ability to conceptualize clients from a variety of theoretical and scientifically-informed frameworks, present such a conceptualization to others and establish means and methods to evaluate its accuracy
6. Counseling Psychology students will possess theoretical and scientific knowledge regarding skills in the provision of interventions.
7. Counseling Psychology students will value and develop competence in aspects of diversity and individual differences.
8. Counseling Psychology students will have knowledge and appreciation of the ethical issues involved in being a psychologist.
9. Counseling Psychology students will adopt a critical, scientific approach to professional activities.

### Developmental Sciences Division

1. Developmental Sciences students will obtain a broad knowledge of the core areas of developmental research across the lifespan. This includes but is not limited to: a) social and emotional development; b) language and mathematical development; c) academic motivation and future planning/orientation; d) bullying and peer harassment; and e) identity formation with respect to gender, race, and ethnicity.
2. Developmental Sciences students will develop a deep expertise in a relevant specialized topic within or across these core areas. This includes mastering research findings in a topic area selected by the student, understanding the relevant theoretical perspectives related to this topic and learning about the appropriate methodological approaches to understanding the core area.
3. Developmental Sciences students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to scholarly literature in Developmental Sciences broadly and their specialized topic in particular. Specifically, they will develop skills to independently design, conduct, write, and present/publish research studies related to their area of focus/career path.

### Cognitive Science of Teaching and Learning (CSTL) Division

1. CSTL students will obtain a broad knowledge of the core areas related to the cognitive science of teaching and learning. This includes knowledge of theoretical perspectives, methodological approaches, and key research findings in the core areas of (a) cognition and learning across the lifespan, (b) learning and the psychology of language, (c) multimodal information processing, and (d) sociocultural dimensions of learning.
2. CSTL students will obtain a deep expertise in a relevant topic within or cutting across these core areas. This involves mastering theoretical perspectives, methodological approaches, and key research findings in a topic selected by the student. In addition, they will develop skills at independently designing, conducting, writing, and presenting/publishing research studies.
3. CSTL students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to the professional literature and their chosen professional identity/career path. This involves understanding the basic statistical analytical methods, research designs, measurement models, and research approaches.

### Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES) Division

1. QUERIES students will obtain a broad basic knowledge of the core areas of educational research methodologies, quantitative, qualitative, and evaluative research methods.
2. QUERIES students will obtain a sophisticated knowledge base of quantitative and/or qualitative research approaches and analytic tools necessary for contribution to the professional literature.
3. QUERIES students in Measurement will become skilled in the development and use of techniques for collecting and analyzing 'test' data through the study of measurement methods.
4. QUERIES students in Statistics will be skilled in traditional and modern quantitative analytic methods.
5. QUERIES students in Evaluation will have the skills required for Evaluation scholars –in education, social welfare, health services, community development, human resource development, and other domains.

## Admission

Students entering without a master's degree must first complete the requirements for a Master of Science (including a master's thesis).

The Department offers admission to a terminal on-campus Master of Science (M.S.) degree with a focus on Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES).

There is no admission to terminal masters degrees in Cognitive Science of Teaching and Learning (CSTL), Developmental Sciences, or Counseling Psychology areas of specialization.

The department accepts applications for the Ph.D. degree, from both applicants who have completed their bachelor's degrees and those who have a master's degree. Students who enter the program without a prior master's incorporate their master's class work and research into their doctoral program, and earn a master's degree as the first step toward their Ph.D (satisfying the "Early Research Project" requirement). The department does not accept applications for master's degrees in CSTL, Developmental Sciences, or Counseling Psychology.

## Applications

Doctoral applicants must submit a complete application for university admission, including three letters of reference, transcripts from all schools where undergraduate and graduate degrees were awarded or expect to be awarded prior to the application enrollment term, and other items listed in the department Web site (<http://www.edpsy.illinois.edu/>). Applicants to our doctoral program apply for Fall enrollment. Current deadlines are posted on our department Web site (<http://www.edpsy.illinois.edu/>).

Doctoral candidates are admitted into one of four divisions: CSTL, Developmental Sciences, QUERIES and Counseling Psychology. When making admission decisions, division committees consider academic performance (e.g., grade-point average, GPA), GRE scores, letters of recommendation, and statement of purpose. Preference is given to those with research experience and research interests that are aligned with existing research programs in the Department.

Master's candidates are only admitted into QUERIES.

## Grade Point Average

The preferred department standard for grade point average is 3.5 on a 4.0 scale. The University calculates undergraduate GPAs on the last two years of grades for degreed applicants and in the last one year for students who have not yet completed their bachelor's degree. Graduate GPAs are calculated on the total of all graduate level courses taken beyond the undergraduate degree.

## Test of English as a Foreign Language (TOEFL)

International applicants must have demonstrated English language competence with TOEFL scores of greater than 610 (paper and pencil test), greater than 253 (computer-based test), or greater than 102 iBT. An IELTS score of greater than 6.5 overall, with at least 6 in each sub-section, can be substituted for the TOEFL score. Students who are accepted with lower scores will be required by the University to enroll on a limited status basis for at least their first semester.

## Area of Study Affiliation

All applicants to the Educational Psychology doctoral program must specify one of four areas in which they wish to study:

- Cognitive Science of Teaching and Learning (CSTL)
- Counseling Psychology (Counseling);
- Developmental Sciences
- Studies in Interpretive, Statistical Measurement, and Evaluative Methodologies for Research (QUERIES)

Detailed information about each area and about the research interests of the faculty can be found on the department Web site (<http://www.edpsy.illinois.edu/>).

Although all Ph.D. students are admitted to a specific area of study, the actual coursework, research, and faculty often overlap area boundaries. Departmental policy makes it possible for a student to change advisers and affiliation from one area to another when interests and research foci become more clearly defined or change. Many faculty members are affiliated with more than one area of study.

## Faculty Research Interests

The faculty's research agendas span a wide range of topics related to the study and application of psychological principles to develop and inform educational interventions and facilitate human development

across the life span. Faculty conduct basic and translational research that explores the cognitive, life-span developmental, social-emotional, and socio-cultural factors that affect behavior, learning, and achievement in educational, clinical, and community contexts. They also engage in research on approaches to educational inquiry and the development of quantitative, qualitative and evaluative methodologies that underpin the development of evidence-based, policy-relevant studies. For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Center, Programs, and Institutes

Department faculty are affiliated with both research centers and institutes in the College of Education and the university more broadly, including the Adult Learning Lab, the Center for Education in Small Urban Communities, the Center for Advanced Study, the Beckman Institute, the Center for the Study of Reading, the Social Development Consortium, and others.

## Facilities and Resources

The Department of Educational Psychology puts a high priority on working with its graduate students to secure fellowships and other awards.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

The department does not require a separate financial aid application.

### ***for the degree of Doctor of Philosophy in Educational Psychology***

The Department of Educational Psychology offers many programs leading to the degree of Doctor of Philosophy (Ph.D.). A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edd&department=edpsy>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students may select a concentration in Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

Code	Title	Hours
Completion of at least 64 hours beyond the master's degree including:		
Major Subject Coursework (minimum)		32
EPSY 599	Thesis Research (min/max applied toward degree)	4-20
Independent Study (min/max applied toward degree)		0-12
Research Coursework <sup>1</sup>		16-20
<b>Total Hours <sup>2</sup></b>		<b>64</b>

## Other Requirements

Requirement	Description
Master's degree is not required for admission to the Ph.D. but is required for completion.	
Minimum GPA	3.0
Residency	2 consecutive full-time (12 hours) semesters of study on campus
Early Research Requirement	
Qualifying Exams	
Human Subjects Approval	
Preliminary Exam	
Final Exam/Dissertation Defense	
Dissertation Deposit	

<sup>1</sup> All students will take a minimum of 16-20 credit hours, depending on area of methodology focus, in approved research methods courses (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/phd/#PhDRsearch>).

<sup>2</sup> Students pursuing the Concentration in African American Studies (<http://catalog.illinois.edu/graduate/graduate-majors/african-american-studies/#concentrationconcentrationtext>) are required to take 24 hours of Concentration courses, for a total of 88 hours.

# Learning Outcomes: Educational Psychology, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Educational Psychology

### Counseling Psychology Division

1. Counseling Psychology students will possess a broad knowledge of the core areas of psychology.
2. Counseling Psychology students will have an understanding of the basic statistical analytical methods, research designs, measurement models, and research approaches.
3. Counseling Psychology students will demonstrate skills at independently designing, conducting, writing, and presenting research studies.
4. Counseling Psychology students will be skilled in psychological assessment in all aspects (design, psychometric evaluation, administering, and communicating results) as well as in a variety of contexts (e.g., both environmental and individual assessment).

- Counseling Psychology students will have the ability to conceptualize clients from a variety of theoretical and scientifically-informed frameworks, present such a conceptualization to others and establish means and methods to evaluate its accuracy
- Counseling Psychology students will possess theoretical and scientific knowledge regarding skills in the provision of interventions.
- Counseling Psychology students will value and develop competence in aspects of diversity and individual differences.
- Counseling Psychology students will have knowledge and appreciation of the ethical issues involved in being a psychologist.
- Counseling Psychology students will adopt a critical, scientific approach to professional activities.
- QUERIES students will obtain a sophisticated knowledge base of quantitative and/or qualitative research approaches and analytic tools necessary for contribution to the professional literature.
- QUERIES students in Measurement will become skilled in the development and use of techniques for collecting and analyzing 'test' data through the study of measurement methods.
- QUERIES students in Statistics will be skilled in traditional and modern quantitative analytic methods.
- QUERIES students in Evaluation will have the skills required for Evaluation scholars –in education, social welfare, health services, community development, human resource development, and other domains.

#### Developmental Sciences Division

- Developmental Sciences students will obtain a broad knowledge of the core areas of developmental research across the lifespan. This includes but is not limited to: a) social and emotional development; b) language and mathematical development; c) academic motivation and future planning/orientation; d) bullying and peer harassment; and e) identity formation with respect to gender, race, and ethnicity.
- Developmental Sciences students will develop a deep expertise in a relevant specialized topic within or across these core areas. This includes mastering research findings in a topic area selected by the student, understanding the relevant theoretical perspectives related to this topic and learning about the appropriate methodological approaches to understanding the core area.
- Developmental Sciences students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to scholarly literature in Developmental Sciences broadly and their specialized topic in particular. Specifically, they will develop skills to independently design, conduct, write, and present/publish research studies related to their area of focus/career path.

#### Cognitive Science of Teaching and Learning (CSTL) Division

- CSTL students will obtain a broad knowledge of the core areas related to the cognitive science of teaching and learning. This includes knowledge of theoretical perspectives, methodological approaches, and key research findings in the core areas of (a) cognition and learning across the lifespan, (b) learning and the psychology of language, (c) multimodal information processing, and (d) sociocultural dimensions of learning.
- CSTL students will obtain a deep expertise in a relevant topic within or cutting across these core areas. This involves mastering theoretical perspectives, methodological approaches, and key research findings in a topic selected by the student. In addition, they will develop skills at independently designing, conducting, writing, and presenting/publishing research studies.
- CSTL students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to the professional literature and their chosen professional identity/career path. This involves understanding the basic statistical analytical methods, research designs, measurement models, and research approaches.

#### Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES) Division

- QUERIES students will obtain a broad basic knowledge of the core areas of educational research methodologies, quantitative, qualitative, and evaluative research methods.

---

The MEng in Electrical & Computer Engineering is a professionally-oriented degree intended for students interested in extending the depth and/or breadth of their technical knowledge in Electrical and Computer Engineering or in a subfield thereof and is most appropriate for students who intend to enter the professional workforce after completing the degree.

### Admission Requirements

Applicants must have completed an electrical engineering curriculum or a computer engineering curriculum substantially equivalent to those of the University of Illinois at Urbana-Champaign. Graduates of curricula in the physical sciences, mathematics, and computer science may be admitted if they are judged to have the necessary background to profit from graduate work in electrical and computer engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, due to space limitations, applicants with GPAs below 3.50 are less likely to be admitted. All applicants must submit scores from the general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://>

grad.illinois.edu/admissions/instructions/04c/) are set by the Graduate College.

## Financial Aid

Students in the MEng in Electrical and Computer Engineering program are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

## Other Graduate Programs in the Department of Electrical & Computer Engineering

degrees:

### Electrical & Computer Engineering, MS (p. 713)

#### optional concentrations:

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science and Engineering (p. 1064)

### Electrical & Computer Engineering, PhD (p. 714)

#### optional concentrations:

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science and Engineering (p. 1064)

The Department of Electrical & Computer Engineering (ECE) offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Electrical & Computer Engineering and a Master of Engineering in Electrical & Computer Engineering. Virtually every specialty within electrical and computer engineering is represented with courses and research opportunities in the following areas: applied computational theory; bioengineering, acoustics, and biomedical imaging; communications; computer-aided design and testing; computer systems, computer vision and robotics; decision and control; electromagnetic fields; optics, lasers, and plasmas; integrated circuits; microelectro-mechanical systems; mobile computing and communication; optoelectronics; power and energy systems; power electronics; remote sensing and propagation; semiconductor materials and devices, semiconductor physics and computational electronics; signal, image, and speech processing.

Opportunity also exists for specializing in energy and sustainability engineering via the

### Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Master of Engineering in Electrical & Computer Engineering

For additional details and requirements refer to the department's Graduate Study Manual (<https://ece.illinois.edu/academics/grad/overview/meng-manual.asp>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

**This degree program can be completed either on campus or online; the requirements are listed below:**

Required Courses:	Required Hours
-------------------	----------------

ECE 500-registration (0 hours) every 0 term while in residence	
--	--

500-level courses, including 8 hours of ECE 500-level courses and up to 4 hours of non-ECE 500-level courses (subject to Other Requirements and Conditions below)	12
---	----

Professional Development: ECE 596 4 Master's Project supervised by ECE (or affiliate) graduate faculty or course(s) in leadership, entrepreneurship, or other business-related topic approved by ECE Director of Graduate Studies	
---	--

Elective courses (subject to Other Requirements and Conditions below)	16
---	----

Total credit hours for the degree	32
-----------------------------------	----

## Other Requirements and Conditions (may overlap)

Requirement	Description
-------------	-------------

A minimum of 12 credit hours of coursework at the 500-level must be applied toward the degree, including at least 8 hours of ECE coursework. Up to 4 hours of ECE 596 and/or ECE 597 (or other individual study) may be applied toward this degree requirement. Up to 4 hours of non-ECE 500-level course(s) from approved list or as approved by the ECE Director of Graduate Studies may be applied toward this degree requirement.	
---	--

Coursework must include at least 18 credit hours of ECE courses; 15 of these hours must be from no more than 3 different focus areas. The ECE Graduate Committee maintains the focus area course lists.	
---	--

Credit in ECE 415, 445, 590, PHYS 404, 405, 435, 436, and STAT 400 do not count toward the degree.	
--	--

No course used to fulfill any degree requirement may be taken using the "Credit/No Credit" option.	
--	--

This degree option is non-thesis only.	
--	--

Minimum program GPA:	3.0
----------------------	-----

## Learning Outcomes: Electrical & Computer Engineering, MENG

Learning Outcomes for the degree of Master of Engineering in Electrical & Computer Engineering

We expect each graduate student to achieve at least five of the following outcomes:

1. To be able to identify technical challenges, and formulate problems in Electrical and Computer Engineering.
2. To be able to apply theoretical and/or experimental methods to solve problems in Electrical and Computer Engineering.
3. To have in-depth knowledge of at least one sub-area within Electrical and Computer Engineering.
4. To be able to effectively communicate findings to peers in written and oral form.
5. To be able to teach topics in Electrical and Computer Engineering at the university level.
6. To have broad understanding of the scope of research in Electrical and Computer Engineering.
7. To be able to function as an engineer.

Applicants with a bachelor's degree may apply to the MS program or to the direct PhD (p. 714) program.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1060) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1063) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

---

### Admission Requirements

Admission for the spring semester is possible, in addition to the usual fall semester admissions.

Applicants must have completed an electrical engineering curriculum or a computer engineering curriculum substantially equivalent to those of the University of Illinois at Urbana-Champaign. Graduates of curricula in the physical sciences, mathematics, and computer science may be admitted if they are judged to have the necessary background to profit from

graduate work in electrical and computer engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, because of space limitations, applicants with GPAs below 3.50 are rarely admitted. All applicants must submit scores from the general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are available for the majority of students who are admitted to the MS and PhD programs. International applicants generally are not awarded teaching assistantships, but are eligible for the other forms of financial aid.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 5 is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester and register for ECE 590TL.

### Department Research

Research interests of the Electrical and Computer Engineering faculty include the broad areas of study described in the graduate programs section and more. Many faculty members hold affiliate status with other departments, and a number of faculty members from other departments hold affiliate status with the department. In addition, some faculty hold appointments in the Beckman Institute for Advanced Science and Technology, the Coordinated Science Laboratory, the Materials Research Laboratory, and the Micro and Nanotechnology Laboratory. All these affiliations provide opportunities for graduate student appointments to conduct research. For a detailed list of current research interests of the faculty, visit the department's research website (<https://ece.illinois.edu/research/>).

There are numerous interdisciplinary programs, laboratories, and centers for research within the department. These are described at the department's research centers website (<https://ece.illinois.edu/research/centers.asp>).

The Department of Electrical & Computer Engineering offers both a traditional doctoral program (for students with a previous master's

degree) and a direct doctoral program (for students with only a bachelor's degree). Applicants with master's degrees are admitted only if a faculty member is willing to serve as the PhD thesis advisor. Accordingly, such applicants should write, call, or e-mail prospective PhD advisors and discuss their research interests and potential PhD thesis topics well in advance of application deadlines.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1060) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1063) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

---

## Admission Requirements

Admission for the spring semester is possible, in addition to the usual fall semester admissions.

Applicants must have completed an electrical engineering curriculum or a computer engineering curriculum substantially equivalent to those of the University of Illinois at Urbana-Champaign. Graduates of curricula in the physical sciences, mathematics, and computer science may be admitted if they are judged to have the necessary background to profit from graduate work in electrical and computer engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required. However, because of space limitations, applicants with GPAs below 3.50 are rarely admitted. All applicants must submit scores from the general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>).

Up to 4 credit hours of ECE 590 (Seminar) can be applied towards Elective courses.	
Up to 12 credit hours of ECE 597 (Independent Study) can be applied towards Elective courses.	
Credit in ECE 415, ECE 445, ECE 596, PHYS 404, PHYS 435, PHYS 436, STAT 400 does not count toward the degree.	
At least one ECE 500-level course must be taken other than ECE 590, ECE 597, and ECE 599.	
No course used to fulfill any degree requirement may be taken using the "Credit/No Credit" option.	
A Masters degree is required for admission to this Ph.D. program.	
Ph.D. exam and dissertation requirements:	
Qualifying exam <sup>1</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

**Entering with an approved Baccalaureate Degree:**

Code	Title	Hours
ECE 599	Thesis Research (min-max applied toward degree)	40-48
ECE 500	ECE Colloquium (registration for 0 hours every term while in residence)	0
3 permanent 500-level courses in 3 different Ph.D. Breadth Requirement areas ( <a href="http://www.ece.illinois.edu/students/grad/overview/#breadth">http://www.ece.illinois.edu/students/grad/overview/#breadth</a> )		12
Elective courses (subject to Other Requirements and Conditions below)		36-44
Total Hours		96

**Other Requirements and Conditions (may overlap)**

Requirement	Description
Up to 4 credit hours of ECE 590 (Seminar) can be applied towards Elective courses.	
Up to 16 credit hours of ECE 597 (Independent Study) can be applied towards Elective courses.	
Credit in ECE 415, ECE 445, ECE 596, PHYS 404, PHYS 435, PHYS 436, STAT 400 does not count toward the degree.	
16-credit hours must be ECE 500-level course must be taken other than ECE 590, ECE 597, and ECE 599.

**Learning Outcomes: Electrical & Computer Engineering, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Electrical & Computer Engineering

We expect each graduate student to achieve at least five of the following outcomes:

1. To be able to identify technical challenges, and formulate problems in Electrical and Computer Engineering.
2. To be able to apply theoretical and/or experimental methods to solve problems in Electrical and Computer Engineering.
3. To have in-depth knowledge of at least one sub-area within Electrical and Computer Engineering.
4. To be able to effectively communicate findings to peers in written and oral form.
5. To be able to teach topics in Electrical and Computer Engineering at the university level.
6. To have broad understanding of the scope of research in Electrical and Computer Engineering.
7. To be able to function as an engineer.

---

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master's degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education (Birth - Grade 2), Elementary Education (Grades 1 - 6), and Secondary Education (Grades 9 - 12). In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master's students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master's candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally

combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

## Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

## Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with

planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

## Learning Outcomes: Elementary Education, EdM

Learning Outcomes for the degree of Master of Education in Elementary Education with teaching licensure

1. Students will acquire deep knowledge of content in the field of Education.
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for elementary students, grades 1-6.
3. Students will use data to drive decisions and solve problems in and out of the classroom.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices).
5. Students will display a deep understanding of educational philosophy and reflective practice.

 Public Health, MPH & Urban Planning, MUP (p. 1130)

Admissions: <https://ahs.illinois.edu/application-requirements> (<https://ahs.illinois.edu/application-requirements/>)

How to Apply for MPH: <https://ahs.illinois.edu/how-to-apply> (<https://ahs.illinois.edu/how-to-apply/>)

How to Apply for BS-MPH: <https://ahs.illinois.edu/how-to-apply-bs-mp> (<https://ahs.illinois.edu/how-to-apply-bs-mp/>)

*for the Master of Public Health in Epidemiology*

The MPH in Epidemiology degree program requires a minimum of 48 hours. The program includes:

1. Five required core courses in basic content areas of public health
2. Four required courses in the Epidemiology focus area
3. An Applied Practice Experience (practicum)
4. An Integrative Learning Experience (capstone)
5. Seminars and electives

MPH students must complete all core coursework before enrolling in the MPH Applied Practice Experience. It is highly preferable for the applied practice experience to occur during summer term. The Integrative Learning Experience must be completed in the last term of study. There is no thesis requirement. Applicants to the epidemiology program should demonstrate strong quantitative skills. Applications for the Master of Public Health (MPH) in Epidemiology are only accepted for Fall admission. The program generally takes 1.5 to 2 years to complete. University of Illinois undergraduate students who major in Kinesiology, Community Health, or Interdisciplinary Health Sciences are eligible to apply for a 5.5 year joint BS-MPH degree program after their 3rd (junior) year of undergraduate study. Students in the BS-MPH program begin some MPH coursework in their 4th (senior) year of undergraduate study, and begin graduate status in the MPH coursework in their 5th year of study.

## Engineering, MEng

for the degree of Master of Engineering in Engineering

### associate dean for graduate, professional and online programs :

Harry Dankowicz (danko@illinois.edu)

**overview of admissions & requirements:** <https://grainger.illinois.edu/academics/graduate> (<https://grainger.illinois.edu/academics/graduate/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://grainger.illinois.edu/>

**address: 402 Engineering Hall, 1308 W Green St, Urbana, Illinois 61801**

**phone: (217) 244-2745**

**email: engr-gpp@illinois.edu**

The Grainger College of Engineering offers a Master of Engineering (MEng) degree program for students whose primary intent is a professional career in industry or government. This degree differs from the Master of Science (MS) degree in that it is a professionally-oriented master's degree that is not a pathway to a doctoral program. The Major in Engineering for the M.Eng. degree requires the selection of an interdisciplinary concentration, which must be identified at the time of application. Available concentrations are:

- Aerospace Systems Engineering (p. 720)
- Energy Systems (p. 723)
- Plasma Engineering (p. 722)
- Railway Engineering (p. 724)

### Admission

Students with bachelor's or master's degrees in engineering or related sciences will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. Admission is possible for the both the fall and spring semesters. Full details of admission requirements are on the Web page of the department offering the concentration.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Higher requirements may be imposed by specific concentrations.

### Financial Aid

Students in concentrations under the MEng in Engineering major are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

for the degree of Master of Engineering in Engineering

Students pursuing this major must select one of four concentrations:

- Aerospace Systems Engineering (p. 720)
- Energy Systems (p. 723)
- Plasma Engineering (p. 722)
- Railway Engineering (p. 724) **(36 credit hours)**

For additional details and requirements, please refer to the Web page of the concentration's home unit and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
	Professional Development (an internship with a company, laboratory, or agency with a subsequent archiveable report; a design project; or business-oriented or leadership courses)	4
<b>Concentration hours</b>		<b>28</b>
Technical course work in primary area and one course from outside the primary area (12-20 hours)		
Elective courses 0-8 hours chosen in consultation with advisor.		
Total Hours		32

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
A concentration is required.	
A minimum of 12 500-level credit hours with a minimum of 8 500-level credit hours applied toward the concentration.	
A minimum of 8 hours must be in ENG or the home unit of the concentration.	
Minimum program GPA:	3.0

## Engineering: Aerospace Systems Engineering, MEng

for the degree of Master of Engineering in Engineering, Aerospace Systems Engineering Concentration (on campus & online)

**department head:** Gregory Elliott (elliottg@illinois.edu)

The MEng in Engineering, Plasma Engineering Concentration is a professionally-oriented degree program for students whose primary intent is a career in industry or government. This degree differs from the Master of Science degree in that it is a terminal degree and not a pathway to a doctoral program. Other concentrations under the MEng in Engineering major include Aerospace Systems Engineering (p. 720), Energy Systems (p. 723), and Railway Engineering (p. 724).

## Admission Requirements

Students with bachelor's or master's degrees in engineering or related fields will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. Admission is possible for the spring term, but most admissions are for the fall term. Full details of admission requirements are on the Plasma Engineering Concentration website (<https://plasmameng.engineering.illinois.edu/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Students in concentrations under the MEng in Engineering major are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

## Other Graduate Programs in the Department of Nuclear, Plasma & Radiological Engineering

degrees:

Nuclear, Plasma, & Radiological Engineering, MS (p. 923)  
**optional concentrations:**

Computational Science & Engineering (p. 1064)  
 Nuclear, Plasma, & Radiological Engineering, PhD (p. 925)  
**optional concentrations:**

Computational Science & Engineering (p. 1064)  
 concentrations:

Energy Systems (p. 723)

**available for:**

Engineering, MENG (p. 720)

The Department of Nuclear, Plasma & Radiological Engineering (NPRES) offers programs leading to degrees of Master of Science and Doctor of Philosophy in Nuclear, Plasma & Radiological Engineering, as well as Master of Engineering in Engineering with a Concentration in Energy Systems or a Concentration in Plasma Engineering. The Master of Science and Doctor of Philosophy degree programs are centered around three theme areas:

- nuclear power engineering
- fusion and plasma science and engineering
- radiological engineering and medical physics

Advanced course work and active research programs are offered in all of these areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

for the degree of Master of Engineering, Major in Engineering, Plasma Engineering Concentration (on campus & online)

Code	Title	Hours
<b>Core Coursework</b>		<b>16</b>
NPRES 421	Plasma and Fusion Science	3
NPRES 423	Plasma Laboratory	2
NPRES 429	Plasma Engineering	3
NPRES 527	Plasma Technology of Gaseous Electronics	4
Must complete one of the following courses:		
NPRES 481	Writing on Technol & Security	3 or 4
ENG 573	Capstone Project	1 to 8
NPRES 523, Plasma Waves		
NPRES 526, Plasma-Materials Interactions		
<b>Additional Coursework</b>		
Elective Courses to be selected with approval of an advisor		12
Professional Development Courses from approved list		4
<b>Total Hours</b>		<b>32</b>
<b>Other Requirements and Conditions (may overlap):</b>		
A minimum of 20 credit hours must be taken from the University of Illinois Urbana-Champaign campus.		
A minimum of 12 500-level credit hours, with a minimum of 8 hours of NPRES 500-level coursework.		
No courses used to fulfill any degree requirements may be taken using the "Credit/No Credit" option		
Minimum GPA:		3.0

## Engineering: Energy Systems, MEng

for the degree of Master of Engineering in Engineering, Energy Systems Concentration

**department head:** Rizwan Uddin (rizwan@illinois.edu)  
**overview of admissions & requirements:** <https://energysystemsmeng.engineering.illinois.edu/admissions/>  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**department website:** <http://npre.illinois.edu> (<https://npre.illinois.edu/>)  
**program website:** <https://energysystemsmeng.engineering.illinois.edu/>  
**college website:** <https://grainger.illinois.edu/>  
**contact:** Amy McCullough (amccul2@illinois.edu)  
**address:** 403 A-2 Engineering Hall, 1308 W Green St, Urbana, IL 61801  
**phone:** (217) 300-2378  
**email:** [meng-es@illinois.edu](mailto:meng-es@illinois.edu)

The MEng in Engineering, Energy Systems Concentration is a professionally-oriented degree program for students whose primary intent is a career in industry or government. This degree differs from the Master of Science degree in that it is a terminal degree and not a pathway to a doctoral program. Other concentrations under the MEng in Engineering major include Aerospace Systems Engineering (p. 720), Plasma Engineering (p. 722), and Railway Engineering (p. 724).

### Admission

Students with bachelor's or master's degrees in engineering or related fields will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. Admission is possible for the spring term, but most admissions are for the fall term. Full details of admission requirements are on the Energy Systems Concentration website (<https://energysystemsmeng.engineering.illinois.edu/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Students in concentrations under the MEng in Engineering major are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

### Other Graduate Programs in the Department of Nuclear, Plasma & Radiological Engineering

degrees:

Nuclear, Plasma, & Radiological Engineering, MS (p. 923)  
**optional concentrations:**

Computational Science & Engineering (p. 1064)  
 Nuclear, Plasma, & Radiological Engineering, PhD (p. 925)  
**optional concentrations:**

Computational Science & Engineering (p. 1064)  
 concentrations:

Plasma Engineering (p. 722)

**available for:**  
 Engineering, MENG (p. 720)

The Department of Nuclear, Plasma & Radiological Engineering (NPRE) offers programs leading to degrees of Master of Science and Doctor of Philosophy in Nuclear, Plasma & Radiological Engineering, as well as Master of Engineering in Engineering with a Concentration in Energy Systems or a Concentration in Plasma Engineering. The Master of Science and Doctor of Philosophy degree programs are centered around three theme areas:

- nuclear power engineering
- fusion and plasma science and engineering
- radiological engineering and medical physics

Advanced course work and active research programs are offered in all of these areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

for the degree of Master of Engineering, Major in Engineering, Energy Systems Concentration

For additional details and requirements refer to the program's Website (<https://energysystemsmeng.engineering.illinois.edu/curriculum/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

**This degree program can be completed either on campus or online; the requirements are listed below:**  
**Requirements**

Code	Title	Hours
<b>Core Courses</b>		<b>12</b>
ENG 471	Seminar Energy & Sustain Engrg	
ENG 571	Theory Energy & Sustain Engrg	
ABE 436	Renewable Energy Systems	
NPRE 480	Energy and Security	
	or NPRE 480 Writing on Technol & Security	
<b>Electives (approved by academic advisor)</b>		<b>16</b>
<b>Professional Development (choose from these 3 options):</b>		<b>4</b>
ENG 572	Professional Practicum (4 hours)	
ENG 573	Capstone Project (4 hours)

<b>Total Hours</b>		<b>32</b>

**Other Requirements**

Requirement	Description
Other requirements may overlap	
A minimum of 20 credit hours must be taken from the University of Illinois Urbana-Champaign campus.	
A minimum of 12 500-level credit hours, with a minimum of 8 hours of ENG or NPPE 500-level coursework.	
A maximum of one 1-credit-hour course may be applied toward the minimum 12 500-level credit-hour requirement.	
No courses used to fulfill any degree requirement may be taken using the "Credit/No Credit" option.	
Minimum GPA:	3.0

## Learning Outcomes: Energy Systems Concentration

Learning Outcomes for the degree of Master of Engineering in Engineering, Energy Systems Concentration

1. Develop an ability to analyze energy systems at a holistic level and perform lifecycle assessment.
2. Obtain an understanding (at the graduate level) of fundamental limits to energy production, transmission, storage and consumption due to physics and chemistry constraints.
3. Understand the concepts of engineering and economic optimization, and learn their application.
4. Develop an interdisciplinary breadth of understanding of the variety of approaches to development, deployment and sustainability of global energy resources.
5. Develop an understanding of the broader policy and decision-making context in which development of and deployment of energy systems takes place.
6. Complete a study of a particular problem relevant to energy systems in a manner analogous to a professional career assignment.

## Engineering: Railway Engineering, MEng

for the Master of Engineering in Engineering, Railway Engineering Concentration

**head of department:** Benito J Marinas (marinas@illinois.edu)  
**director of graduate studies:** Jeffery R Roesler (jroesler@illinois.edu)

**email:** meng-railway@illinois.edu

The MEng in Engineering, Railway Engineering Concentration is a professionally-oriented degree program for students whose primary intent is a career in industry or government. This degree differs from the Master of Science degree in that it is a terminal degree and not a pathway to a doctoral program. Other concentrations under the MEng in Engineering major include Aerospace Systems Engineering (p. 720), Energy Systems (p. 723), and Plasma Engineering (p. 722).

This program is a collaborative effort between the Rail Transportation of Engineering Center (RailTEC) and the Railway Group at KTH Royal Institute of Technology in Stockholm, Sweden.

### Admission Requirements

The Department of Civil & Environmental Engineering accepts applications for admission to the graduate program for both fall and spring semesters.

Applicants must hold a bachelor's or master's degree in engineering or related fields equivalent to those granted by the University of Illinois at Urbana-Champaign with cumulative grade point average of at least 3.00 (A = 4.00). The Graduate Record Examination (GRE) (<http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnnextoid=b195e3b5f64f4010VgnVCM1000022f95190RCRD>) is required.

Full details of admission requirements are on the Railway Engineering Concentration website (<http://railwaymeng.engineering.illinois.edu/>).

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Students in concentrations under the MEng in Engineering major are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

## Other Graduate Programs in the Department of Civil & Environmental Engineering

degrees:

Civil Engineering, MS (p. 636)

### optional concentrations:

Computational Science and Engineering (p. 1064)

Civil Engineering, PhD (p. 638)

### optional concentrations:

Computational Science and Engineering (p. 1064)

Environmental Engineering in Civil Engineering, MS (p. 731)

### optional concentrations:

Computational Science and Engineering (p. 1064)

Environmental Engineering in Civil Engineering, PhD (p. 733)

### optional concentrations:

Computational Science and Engineering (p. 1064)

joint programs:

Civil Engineering, MS & Architecture, MARCH (p. 1114),  
(**Construction Management or Structures**)

Civil Engineering, MS & Urban Planning, MS (p. 1133)

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

*for the Master of Engineering in Engineering Railway Engineering Concentration*

For additional details and requirements, please refer to the concentration's website (<http://railwaymeng.engineering.illinois.edu/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Concentration Requirements

Code	Title	Hours
<b>Core Courses from Illinois</b>		<b>6</b>
CEE 409	Railroad Track Engineering	
CEE 412	High-Speed Rail Engineering	
Alternate Illinois course from approved list for students who have completed one or both of the required courses in previous degree		
<b>Core Courses from KTH</b>		<b>12</b>
CEE 498	Special Topics (RTV, KTH SD2307, Rail Vehicle Technology)	
CEE 498	Special Topics (TMS, KTH AK2036, Theory and Methodology of Science with Applications)	
CEE 598	Special Topics (ET, KTH EJ2400, Electric Traction)	
CEE 598	Special Topics (RVD, KTH SD2313, Rail Vehicle Dynamics)	
<b>Elective Courses from Illinois</b>		<b>14</b>
Railway Elective Courses from Approved List A, minimum 6 hours		
Engineering Elective Courses from Approved List B, minimum 6 hours		

Professional Development courses from approved list	4
Total Hours	36

## Other Requirements and Conditions (may overlap)

Requirement	Description
Minimum of 20 credit hours must be taken at the University of Illinois at Urbana-Champaign campus	
Minimum of 12 500-level credit hours in the concentration with at least 8 credit hours in the core concentration	
No courses used to fulfill any degree requirement may be taken using the Credit/No Credit option.	
Minimum program GPA	3.0

## English, MA

*for the degree of Master of Arts in English*

**head of department: Bob Markley**

**director of graduate studies: Justine Murison**

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**overview of department admissions & requirements:** <https://english.illinois.edu/admissions/graduate-admission/> (<https://english.illinois.edu/admissions/graduate-admission/>)

**department website:** <http://www.english.illinois.edu>

**college website:** <https://las.illinois.edu/>

**department office:** 210 English Building, 608 South Wright Street, Urbana, IL 61801

**phone:** (217) 333-3646

**email:** [engl\\_resources@ad.uiuc.edu](mailto:engl_resources@ad.uiuc.edu) ([http://catalog.illinois.edu/graduate/las/english-ma/engl\\_resources@ad.uiuc.edu](http://catalog.illinois.edu/graduate/las/english-ma/engl_resources@ad.uiuc.edu))

The Department of English offers programs of study leading to the Master of Arts and the Doctor of Philosophy degrees. We welcome qualified students who wish to pursue their interests in English, American, and Anglophone language, literature and film beyond the undergraduate level. The Ph.D. program is, in general, designed to educate and train teacher-scholars who will take positions in colleges and universities throughout the country. We consider the Master of Arts program to be the first step toward the Ph.D. degree; we expect students admitted to the M.A. program to receive the M.A. and go on to complete a Ph.D. We therefore do not offer a formal terminal M.A. program.

Both the M.A. and Ph.D. may be earned with a specialization in Writing Studies. Also, doctoral students specializing in other fields may earn a graduate concentration in Writing Studies.

## Graduate Degree Programs in English

English, MA (p. 725)

**concentration:** Medieval Studies (p. 1076)

English, PhD (p. 727)

**concentration:** Medieval Studies (p. 1076)|Writing Studies (p. 1084)

**for information on the Master of Fine Arts (M.F.A.) program in Creative Writing, see Creative Writing (p. 660).**

**Affiliated Programs offering certificates or minors:**

- Department of African American Studies
- Asian American Studies Program
- American Indian Studies
- Center for Latin American and Caribbean Studies
- Gender and Women's Studies Program
- The Holocaust, Genocide, and Memory Studies Initiative
- Illinois Program for Research in the Humanities
- Latina-Latino Studies Program
- The Program in Jewish Culture and Society
- Unit for Cinema Studies
- Unit for Criticism and Theory

## Admission

A student who wishes to be considered for admission to graduate studies in English must present the equivalent of at least 20 semester hours of undergraduate work in English and American literature, excluding required work in rhetoric or composition. Graduate Record Examination (GRE) scores are required for those applying for the Literary Studies and Writing Studies programs. The GRE subject test for literature in English is not required. **For the 2020-2021 application season, the English Department is not requiring the GRE general test, and such scores will not be considered by the readers of applications in their deliberations.** All applicants whose native language is not English are required to submit Test of English as a Foreign Language (TOEFL) scores. Currently, a minimum score of 550 on the paper-based test (213 on the computer-based test) is required. Before a teaching assistantship involving classroom instruction or student consultation can be awarded to a non-native speaker of English, the applicant must take the Test of Spoken English (TSE) and achieve a score of 50 or higher (230 or higher before 1996). Because applications for admission usually far exceed capacity, in recent years undergraduate grade point averages of students admitted have been significantly higher than the 3.0 (A = 4.0) required by the Graduate College. The committee on admissions tends to select those applicants who have a solid array of undergraduate courses, knowledge of a foreign language, strong recommendations, and a compelling writing sample: in short, an academic record that shows promise of doing outstanding work in the field and earning degrees within a reasonable time. We do not admit part-time students. Applicants are considered only in spring for fall admission, and the deadline for submitting applications is noon on December 2nd.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and all M.A. and Ph.D. candidates will have ample opportunity to teach undergraduate writing classes.

## Financial Aid

Financial aid is available to students in the form of fellowships, teaching assistantships, research assistantships, and waivers of tuition and service fees. For complete information about the program, prospective

applicants should consult our website at <https://english.illinois.edu/admissions/graduate-admission> (<https://english.illinois.edu/admissions/graduate-admission/>) or write to the above address.

## for the degree of Master of Arts in English

A full-time student can complete this program in two academic years.

Students must choose to complete a specialization in Literature or Writing Studies.

Code	Title	Hours
	Virtually every student will teach rhetoric classes, and is required to enroll in a teaching proseminar (ENGL 593).	4
	Course work selected from list below in consultation with advisor	
	Language Requirement: Students must demonstrate a reading knowledge of at least one foreign language.	
	Total Hours	32

## Other Requirements <sup>1</sup>

Requirement	Description
	Other requirements may overlap
	At least two semesters or the equivalent in residence
Minimum Hours Overall Required	24 (12 at 500-level)
Within the Unit:	
Minimum 500-level Hours Required	16
Overall:	
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Studies in English (<http://www.english.illinois.edu/graduate/>) Website and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Course work listing for M.A. requirements for the Literature Specialization:

Eight semester-long courses in British and American Literature and Critical Theory.

Courses (worth four hours of credit each) must be taken in six of the following nine areas:

- Medieval British Literature (beginning to 1485)
- Renaissance British Literature (1485-1660)
- Restoration/Eighteenth-Century British Literature (1660-1800)
- Nineteenth-Century British Literature (1800-1900)
- Twentieth-Century British Literature (1900-2000)
- Early American Literature (beginning to Civil War)
- Later American Literature (Civil War to present)
- Anglophone Literature (other than British and American)
- Critical Theory

Candidates may substitute another area (such as film) for one on the above list with the permission of the Director of English Graduate Studies. However, all students must take at least one course in a period before 1660, and one course in either Early or Later American Literature.

At least four of the eight courses must be in 500-level graduate seminars (limited to 14-18 students). The others may (but need not) be in 400-level

courses (limited to 36 students) in which graduate students complete work beyond that expected of undergraduates.

In their first year of teaching, students are required to complete a Professional Seminar in the teaching of composition or business and technical writing for four hours of credit. (ENGL 593)

The Foreign Language Requirement may be satisfied by demonstrating a reading knowledge of an appropriate foreign language in one of the following three ways:

1. By completing the equivalent of three full years of undergraduate work
2. By passing a proficiency exam administered by a UIUC foreign language department
3. By passing a non-credit 501 language course with a grade of B or better

### Course work listing for M.A. requirements for the Writing Specialization:

Eight semester-long courses in Writing Studies, Literature, and Theory.

Courses (worth four hours each) must be taken as follows:

At least 16 of the 32 required hours must be in 500-level courses. Eight of the 16 hours must be ENGL 505 and 1 course from the following list: ENGL 582, ENGL 583, ENGL 584. In addition, students must take two courses in Literature or Theory and four courses approved by the Writing Studies advisor.

At least four of the eight courses must be 500-level graduate seminars (limited to 14-18 students). The others may (but need not) be 400-level courses (limited to 36 students) in which graduate students complete work in addition to that expected of undergraduates.

In their first year of teaching, students are required to complete a Professional Seminar (ENGL 593) in the teaching of composition or the teaching of business and technical writing for four hours of credit.

The Foreign Language Requirement may be satisfied by demonstrating a reading knowledge of an appropriate foreign language in one of the following three ways:

1. By completing the equivalent of three full years of undergraduate work
2. By passing a proficiency exam administered by a University of Illinois foreign language department
3. By passing a non-credit 501 language course with a grade of B or better.

## English, PhD

For complete information about the program, prospective applicants should consult our website at <https://english.illinois.edu/admissions/graduate-admission> (<https://english.illinois.edu/admissions/graduate-admission/>) or write to the above address.

## for the degree of Doctor of Philosophy in English

Students in the program who have earned their master's degrees must apply formally to the Ph.D. program. Applicants who have completed their master's degrees elsewhere may also apply. Seldom are applicants accepted with graduate grade point averages below 3.5. Students must choose to complete a specialization in Literature or Writing Studies. In addition, students may choose to complete the graduate concentration in Writing Studies (<http://catalog.illinois.edu/graduate/graduate-majors/writing-studies/>).

Interdisciplinary work is encouraged. Students may take courses outside of English. The special field examination is taken as the student completes coursework and prepares to write the thesis. The student then goes on to complete and defend the thesis under the direction of a committee composed of four professors. A full-time student can complete this program in four years beyond the master's degree.

Code	Title	Hours
	Virtually every student will teach rhetoric classes, and is required to enroll in a teaching proseminar (ENGL 593) if s/he has not taken such a class at the Master's level.	
	Elective hours selected from the list below in consultation with advisor, to bring total course work hours to 32	32
	Language Requirement: Students must demonstrate knowledge of one foreign language in a level equivalent to that required of master's candidates in the English Department's program.	

ENGL 599	Thesis Research (32 max applied toward degree)	32
Total Hours		64

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
The special field examination is taken as the student completes coursework and prepares to write the thesis.	
Masters Degree Required for Admission to PhD?	Yes
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Studies in English (<http://www.english.illinois.edu/graduate/>) Website and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Course work listing for Ph.D. requirements for the Literature Specialization:

- Eight additional semester-long courses at the 400 and 500 level. These, selected in consultation with a faculty advisor, either focus on the proposed field of specialization and allied fields—in English or in other disciplines—or fill gaps in the student's background.
- Doctoral students in literature will either take a Professional Seminar in the teaching of literature or film or act as a teaching assistant for two semesters in a large lecture course before they teach literature courses. They are expected to teach at least one literature course during their Ph.D. work.
- The Foreign Language Requirement (if not already satisfied at the M.A. level) may be satisfied by demonstrating a reading knowledge of an appropriate foreign language in one of the following three ways: By completing the equivalent of three full years of undergraduate work; By passing a proficiency exam administered by a UIUC foreign language department; By passing a non-credit 501 language course with a grade of B or better.
- Completion of a Special Field Examination (oral, written, or both). The exam, administered by a committee of four faculty members selected by the student, is based upon the student's approved Special Field list of primary and secondary sources, including a discussion of its rationale and relation to the proposed dissertation topic. Approved fields include historical periods, genres, film, and critical theory.
- Completion and two-hour oral defense of a dissertation. Students working on their dissertations are eligible for fellowship support or released time from teaching. All students in good standing and making good progress will ordinarily receive at least one semester free from teaching. A few students receive a year or more of fellowship aid to work full-time on their dissertations.

## Course work listing for Ph.D. requirements for the Writing Studies Specialization:

- Eight additional semester-long courses at the 400 and 500 level. These selected in consultation with a faculty advisor, focus on the proposed field of specialization and allied fields—in English or in other disciplines—or fill gaps in the student’s background and include ENGL 505 and 2 methodology courses (at least one of which is an ENGL 582; the second methodology course should be approved by the advisor and typically will be approved by the Center for Writing Studies for the methodology requirement in its Writing Studies Graduate Concentration). In addition, students must take one course in Literature or Theory. Specific courses taken at the MA level (ENGL 505 and ENGL 582) are counted as fulfilling those specific requirements at the PhD level.
- Students who enter the Ph.D. program with an M.A. from another institution must show demonstrated reading knowledge of a foreign language.
- Completion of a Special Field Examination (oral, written, or both). This exam, administered by a committee of four faculty members selected by the student, is based upon the student’s approved special field list—which includes a discussion of its rationale and relation to the proposed dissertation topic. Lists are representative of the field of Writing Studies and include two or three concentrations within it. Approved fields include: Cognition and Composition, Computers and Composition Studies, Classical Rhetoric, Critical Theory, Discourse Processes, Gender and Writing, Literacy Studies, Technical Communication, Writing Across the Curriculum, Writing in the Disciplines, and Writing Assessment. Other combinations of fields are possible, including those that combine disciplines (e.g. African-American Studies, women’s studies, and literacy).
- Completion and two-hour oral defense of a dissertation. Students working on their dissertations are eligible for fellowship support or released time from teaching. All students in good standing and making good progress will ordinarily receive at least one semester free from teaching. A few students receive a year or more of fellowship aid to work full-time on their dissertations.

## Entomology, MS

*for the degree of Master of Science in Entomology*

**chair of department:** May R. Berenbaum

**co-directors of graduate studies:** Alexandra Harmon-Threatt and Samuel N. Beshers

**overview of department admissions & requirements:** [https://sib.illinois.edu/entomology/graduate\\_admissions/](https://sib.illinois.edu/entomology/graduate_admissions/)

**overview of graduate college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <https://sib.illinois.edu/entomology/>

**department faculty:** <https://sib.illinois.edu/entomology/faculty> (<https://sib.illinois.edu/entomology/faculty/>)

**college website:** Liberal Arts & Sciences: <https://las.illinois.edu/>  
**department office:** 320 Morrill Hall, 505 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 333-2910

**email:** [entowork@life.illinois.edu](mailto:entowork@life.illinois.edu)

The Department of Entomology offers graduate programs leading to the Master of Science and Doctor of Philosophy degrees. The program is designed to accommodate incoming students with a wide range of

entomological expertise. The goal of the program is to provide students with a strong background in basic biology as it relates to insects and to equip them with the specialized intellectual and technical skills to pursue a career in research, teaching, and service in entomology and related biological disciplines.

Major areas of specialization within the department include systematics, evolutionary biology, molecular genetics, genomics, chemical ecology, disease ecology, invasion biology, toxicology, pollinator health, social insect biology, insect-microbe interactions, conservation biology, and integrated pest management.

---

## Graduate Degree Programs in Entomology

Entomology, MS (p. 729)

**concentration:** Computational Science & Engineering (p. 1064)

Entomology, PhD (p. 730)

**concentration:** Computational Science & Engineering (p. 1064)

---

## Admission

The Graduate Record Examination (GRE) general test scores are not required by our Department but can be submitted if they will support your application. A minimum Test of English as a Foreign Language (TOEFL) score of 550 (paper-based test), 213 (computer-based test), or 79 (internet-based test), or an International English Language Testing System (IELTS) score of 6.5, is required. Previous training in entomology is unnecessary. It is recommended that students who intend to study for advanced degrees in entomology gain a thorough grounding in the physical and biological sciences, mathematics, and the liberal arts. Spring admission is possible for special circumstances.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program and serving as a teaching assistant for at least two semesters is required.

## Financial Aid

Graduate student awards are available, including teaching and research assistantships. In addition, fellowships and traineeships are offered by the Graduate College and the School of Integrative Biology. A single application to the department is sufficient for consideration for all awards currently available.

---

## *for the degree of Master of Science in Entomology*

A candidate for the M.S. degree is expected to become knowledgeable in entomology through coursework and independent research and to complete a research thesis in an area of interest chosen in consultation with an adviser.

For additional details and requirements refer to the department’s Graduate Handbook (<http://www.life.illinois.edu/entomology/handbook.html>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
Select four of the following:		
IB 427	Insect Physiology	14

IB 444	Insect Ecology	
IB 468	Insect Classification and Evol	
IB 482	Insect Pest Management	
IB 504	Genomic Analysis of Insects	
ENT 599	Thesis Research (12 max applied toward degree)	12
Total Hours		32

### Other Requirements

Requirement	Description
Other requirements may overlap	
Prescription Exam Required (administered upon entrance into program)	Yes
Masters Thesis Defense Required	Yes
Masters Thesis Deposit Required	Yes
Minimum 500-level Hours Required	12
Overall:	
The grade point average required for degree certification is 3.0 (A = 4.0).	
Minimum GPA:	3.0

## Learning Outcomes: Entomology, MS

Learning outcomes for the degree of Master of Science in Entomology

1. Synthesize and apply core knowledge related to the field of Entomology, particularly from the areas covered in the core courses and the advanced topic seminars.
2. Design and implement independent research, with the overarching goal to obtain mastery of relevant approaches for their area of research
3. Apply rigorous statistical/analytical methods that typify their area of study
4. Demonstrate effective communication skills
  - a. Presentations
  - b. Publications
5. Obtain teaching experience
6. Learn grant and fellowship application writing
7. Acquire other professional skills
  - a. Data management
  - b. Citation management
  - c. Public Outreach/Science Communication
  - d. Research and Professional Ethics

## Entomology, PhD

**address:** 1108 Newmark Civil Engineering Lab, 205 N Mathews Ave, Urbana, IL 61801  
**phone:** (217) 265-4496  
**email:** [civil@illinois.edu](mailto:civil@illinois.edu)

The Department of Civil and Environmental Engineering, consistently ranked as having one of the best graduate programs in the country, offers graduate work leading to master's and doctoral degrees. These are in a variety of specialized areas through departmental programs which are described on this page.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

## Admission Requirements

The Department of Civil & Environmental Engineering accepts applications for admission to the graduate program for both fall and spring semesters.

Admission to the Graduate College with full status in environmental engineering in civil engineering is granted to graduates of accredited institutions whose requirements for the bachelor's degree are substantially equivalent to those of the University of Illinois and his or her cumulative grade point average is at least 3.00 (A = 4.00). The Graduate Record Examination (GRE) (<http://www.ets.org/portal/site/ets/menuitem.fab2360b1645a1de9b3a0779f1751509/?vgnnextoid=b195e3b5f64f4010VgnVCM10000022f95190RCRD>) is required.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

## Financial Aid

Financial aid is available in the form of fellowships and research and teaching assistantships. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language

proficiency (<http://www.grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 50 or 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Areas of study and research pursued by our world-renowned faculty are focused in the following ten specializations:

•construction management	•environmental engineering and science	•environmental hydrology and hydraulic engineering	•geotechnical engineering	•materials
•structural engineering	•transportation engineering	•sustainable and resilient infrastructure systems	•energy- water- environment sustainability	•societal risk and hazard mitigation

More information about these specialized areas may be found at the department's research Web site (<https://cee.illinois.edu/areas/>).

Through the research centers based in the department, CEE students participate in a wide range of groundbreaking research projects with immediate relevance to real-world engineering applications. For more information, see the department's research centers Web site (<https://cee.illinois.edu/research/research-centers/>).

CEE at Illinois is one of the nation's best-equipped programs, with a broad range of facilities for civil and environmental engineering education and research. For more information, see the department's research facilities Web site (<https://cee.illinois.edu/research/research-facilities/>).

## Other Graduate Programs in the Department of Civil & Environmental Engineering

degrees:

Environmental Engineering in Civil Engineering, PhD (p. 733)  
**optional concentrations:**

Computational Science and Engineering (p. 1064)

Civil Engineering, MS (p. 636)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

Civil Engineering, PhD (p. 638)

**optional concentrations:**

Computational Science and Engineering (p. 1064)

concentrations:

Railway Engineering (p. 724)

**available for:**

Engineering, MENG (p. 720)

joint programs:

Civil Engineering, MS & Architecture, MARCH (p. 1114),  
**(Construction Management or Structures)**

Civil Engineering, MS & Urban Planning, MS (p. 1133)

Opportunity also exists for specializing in energy and sustainability engineering via the

### Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Master of Science in Environmental Engineering in Civil Engineering (on campus & non-thesis online)

The degree requirements for the online programs are the same as for the on-campus non-thesis MS program—36 hours of course work—and the degree awarded to online students is the same degree awarded to resident students. Online students have five years to complete the program.

The MS degree in Environmental Engineering offered online includes five core courses in Environmental Engineering and electives chosen in Environmental Engineering, Hydrology and Hydraulic Engineering, or other areas of Civil Engineering to fulfill the degree requirements.

### This degree program can be completed either on campus or online; with or without a thesis, the requirements are listed below:

Code	Title	Hours
<b>Non-Thesis Option</b>		
Elective courses	36 hours subject to Other Requirements and Conditions below	
<b>Total Hours</b>	<b>Non-Thesis Option</b>	<b>36</b>

<b>Thesis Option</b>		
CEE 599	Thesis Research (4 to 12 hours)	
Elective courses	20-28 hours subject to Other Requirements and Conditions below	
<b>Total Hours</b>	<b>Thesis Option</b>	<b>32</b>

### Other Requirements

Requirement	Description
Other Requirements may overlap	
Individual programs are developed by the students in consultation with their academic advisors.	
A minimum of 16 hours of credit within the major field with 8 graded and at the 500 level.	
A minimum of 12 hours at the 500-level overall.	
A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement.	
At least half of the minimum hours required for the degree must be in Illinois courses meeting on the Urbana-Champaign campus or in courses meeting in other locations approved by the Graduate College for residency credit for the degree.	
Minimum program GPA	2.75

## Learning Outcomes: Environmental Engineering, MS

Learning Outcomes for the degree of Master of Science in Environmental Engineering in Civil Engineering (on campus & non-thesis online)

1. Ability to identify and utilize advanced mathematical, computational, design and/or experimental skills to solve complex problems in civil and environmental engineering
2. Demonstrate technical knowledge and depth in at least one or more CEE subject areas and breadth of knowledge in at least one additional area.
3. Demonstrate the ability to communicate effectively (written, oral presentation, and other media) technical ideas, design concepts, or research results.
4. Understanding of the student's professional and scientific ethical responsibilities;
5. Propose, plan, and execute original research idea that target current or future societal challenges related to civil and environmental engineering.
6. Demonstrate skills to teach technical subjects in CEE at the university level

Civil Engineering, MS & Urban Planning, MS (p. 1133)

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

*for the degree of Doctor of Philosophy in Environmental Engineering in Civil Engineering*

The degree of Doctor of Philosophy, primarily a research degree, requires from three to four years of graduate study beyond the master's degree.

The major area of specialization encompasses courses and research that are closely related, but the courses need not be offered by a single major department. Candidates must demonstrate a capacity for independent research by preparing an original thesis on a topic within the major field of study, must meet the qualifying requirements or examination in the area of specialization, and must pass both preliminary and final examinations.

For additional details and requirements refer to the department's Graduate Handbook (<http://cee.illinois.edu/online-graduate-handbook/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Entering with an approved Master's Degree:

Code	Title	Hours
CEE 599	Thesis Research (min-max applied toward degree)	32
Elective courses (subject to Other Requirements and Conditions below)		32
Total Hours		64

### Other Requirements

Requirement	Description
Other Requirements and Conditions may overlap	
A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement; approval required.	
There is no department-wide foreign language requirement. However, the faculties of some areas of specialization may require foreign language proficiency if essential to the conduct of research in that area.	
64 graduate hours must be completed in residence.	
A Masters degree is required for admission to the Ph.D. program.	
Ph.D. exam and dissertation requirements:	
Qualifying exam <sup>1</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
The minimum program GPA is 2.75.	

<sup>1</sup> Qualifying Exam Information (<http://cee.illinois.edu/academics/graduate-programs/phd-degree-and-curriculum/>)

## Entering with an approved Baccalaureate Degree:

Code	Title	Hours
CEE 599	Thesis Research	32-40
Elective Courses (subject to other requirements and conditions below)		56-64
Total Hours		96

### Other Requirements

Requirement	Description

A maximum of 8 hours of CEE 597 (or other independent study) may be applied toward the elective course work requirement; approval required.

There is no department-wide foreign language requirement. However, the faculties of some areas of specialization may require foreign language proficiency if essential to the conduct of research in that area.

64 graduate hours must be completed in residence.

24 credit hours must be in major field. 24 credit hours of elective coursework must be at the 500-level, with at least 12 hours in major field.

Ph.D. exam and dissertation requirements:

Qualifying exam<sup>1</sup>

Preliminary exam

Final exam or dissertation defense

Dissertation deposit

The minimum program GPA is 2.75.

<sup>1</sup> Qualifying Exam Information (<http://cee.illinois.edu/academics/graduate-programs/phd-degree-and-curriculum/>)

## Learning Outcomes: Environmental Engineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Environmental Engineering in Civil Engineering

1. Ability to identify and utilize advanced mathematical, computational, design and/or experimental skills to solve complex problems in civil and environmental engineering
2. Demonstrate technical knowledge and depth in at least one or more CEE subject areas and breadth of knowledge in at least one additional area.
3. Demonstrate the ability to communicate effectively (written, oral presentation, and other media) technical ideas, design concepts, or research results.
4. Understanding of the student's professional and scientific ethical responsibilities;
5. Propose, plan, and execute original research idea that target current or future societal challenges related to civil and environmental engineering.
6. Demonstrate skills to teach technical subjects in CEE at the university level

## European Union Studies, MA

*for the degree of Master of Arts in European Union Studies*

**center director: Emanuel Rota**

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**center website:** [European Union Center \(http://europe.illinois.edu/\)](http://europe.illinois.edu/)

**college website:** [College of Liberal Arts & Sciences \(https://las.illinois.edu/\)](https://las.illinois.edu/)

**department office: European Union Center, 328 International Studies Building, MC-429, 910 S. Fifth Street Champaign, IL 61820**

**phone: (217) 265-7515**

**email: eucenter@illinois.edu**

The European Union Center administers an interdisciplinary program of language and area courses leading to a Master of Arts degree. The program is intended to serve four constituencies of students: those working on the completion of the 5-year BA/MA program; those seeking to combine area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those seeking a stand-alone, professional degree.

## Graduate Degree Programs in European Union Studies

European Union Studies, MA (p. 735)

European Union Studies Minor (p. 1097)

### Admission

Applicants for admission to the Master of Arts program should have completed at least two years of a language of the European Union and hold a bachelor's degree from an accredited institution of higher education. The Graduate Record Examination (GRE), or another post-secondary examination such as the LSAT, GMAT, MCAT, is required and international students are required to take the Test of English as a Foreign Language (TOEFL), with minimum scores set by the Graduate College. All admission requirements of the Graduate College also apply.

Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal quantitative, and written) or other post-secondary examination scores, a writing sample, and three letters of reference." Applicants must also submit to the European Union Center a statement of purpose showing how the M.A. degree in European Union Studies fits into their educational and career plans. This statement must show that the interdisciplinary nature of the MA in EU Studies will serve the student better than a disciplinary degree. Admission is ordinarily limited to the fall semester, but exceptions are made for spring and summer admission.

### for the degree of Master of Arts in European Union Studies

Students pursuing the thesis option are required to conduct an oral thesis defense before an MA thesis committee. The thesis committee must consist of at least two individuals, with a minimum of one individual drawn from the EU Center Executive Staff. The thesis advisor must be a member of the Graduate Faculty.

For additional details and requirements refer to the department's graduate degree requirements (<http://euc.illinois.edu/academic/degree.html>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Thesis Option

Code	Title	Hours
EURO 501 & EURO 502	EU Institutions and Governance and The EU in a Global Context	8
Language Requirement: A candidate must demonstrate proficiency in a language of the European Union, other than English, at the advanced (third-year) level. Up to seven hours of advanced language (third or fourth-year) course work may be used toward the MA total hours. (Max 7)		7
EURO 599	Thesis Research (min/max applied toward degree)	0-8
Total Hours		36

### Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required overall:	12
Coursework must come from at least three different academic units	
Up to twelve hours may be credited for MA-equivalent study abroad courses or eight hours for internship placement	
Up to twelve hours may be credited from graduate level courses taken as an undergraduate enrolled in participating partner departments at the University of Illinois Urbana Champaign as part of the European Union Center's 5-year BA/MA program	
Minimum GPA:	2.75

## Non-Thesis Option

Code	Title	Hours
EURO 501 & EURO 502	EU Institutions and Governance and The EU in a Global Context	8
Language Requirement: A candidate must demonstrate proficiency in a language of the European Union, other than English, at the advanced (third-year) level. Up to seven hours of advanced language (third or fourth-year) course work may be used toward the MA total hours. (Max 7)		7
Total Hours		36

### Other Requirements

Requirement	Description
Other Requirements may overlap	
Minimum 500-level Hours Required overall:	12
At least two substantial research papers on European Union topics as part of course work, when relevant to the candidate's professional orientation, are required.	
Coursework must come from at least three different academic units	

Up to twelve hours may be credited for MA-equivalent study abroad courses or eight hours for internship placement

Up to twelve hours may be credited from graduate level courses taken as an undergraduate enrolled in participating partner departments at the University of Illinois Urbana Champaign as part of the European Union Center's 5-year BA/MA program

Minimum GPA: 2.75

## Learning Outcomes: European Union Studies, MA

Learning Outcomes for the degree of Master of Arts in European Union Studies

1. Describe and discuss the predominant theories, institutions, history, and contemporary challenges of the European Union.
2. Describe and discuss the European Union's historical and contemporary relationship with other countries and regions in the world.
3. Apply thorough knowledge of research methods towards the completion of their own thesis and towards evaluating the work of others.
4. Practice a working command of at least one non-English European language.
5. Examine current events and assess their fit with appropriate historical and theoretical frameworks.

## Finance, MS

## Graduate Degree Programs in Finance

### Majors

Finance, MS (p. 737)

**optional concentrations for the Finance, MS:**

Accountancy (p. 1048), Business & Public Policy (p. 1062), Corporate Governance & International Business (p. 1065), Data Analytics in Finance (p. 1068), Information Technology & Control (p. 1074)

Financial Engineering, MS (p. 739) (**administered by Finance and Industrial & Enterprise Systems Engineering** (<https://msfe.illinois.edu/>))

**optional concentration for the Financial Engineering, MS:** Data Analytics in Finance (p. 1068)

Finance, PhD (p. 738)

### Minors

Finance (p. 1098)

### Concentrations

Data Analytics in Finance (p. 1068)

Finance (p. 1071)

Business & Public Policy (p. 1062)

Real Estate (p. 1078)

Terminal masters: The Master of Science in Finance (terminal master's) is a 15 month program designed primarily for practitioners in finance-related positions. The program is designed to be completed in 15 months, beginning in August.

Admission requirements and other details about the program can be found at <https://giesbusiness.illinois.edu/msf> (<https://giesbusiness.illinois.edu/msf/>).

### Admission

The minimum required grade point average for admission is 3.0 (A = 4.0). To be admitted without deficiencies, the applicant should have completed one undergraduate course each in computer science, financial accounting, managerial accounting, and principles of economics as well as two courses each in calculus, probability and statistics, and financial management. Courses to remove deficiencies may be taken after beginning the program, but such courses will not count toward the departmental requirements for graduation. All applicants are required to submit Graduate Management Admission Test (GMAT) or GRE scores. Most international applicants are also required to submit Test of English as a Foreign Language (TOEFL) IELTS or iBT scores. The test scores will be used by the Admissions Committee, along with other information, in evaluating the applicant's qualifications for graduate study.

*for the Master of Science in Finance*

Terminal masters: The Master of Science in Finance (terminal master's) is a 15 month program designed primarily for practitioners in finance-related positions. The program is designed to be completed in 15 months, beginning in August.

The first stage toward the degree of Doctor of Philosophy ends when the candidate completes certain minimum coursework, fulfillment of other departmental requirements, and successful passing of a qualifying examination. The second stage requires successful completion and presentation of an initial research paper. The third stage includes research and preparation of the dissertation. Completion of this stage requires an oral preliminary thesis proposal defense and an oral final dissertation defense.

The minimum number of graduate hours required for all stages combined is 64. A student plans courses and research with his or her advisor. Consideration is given to previous academic training, career objective and the general requirements of the Graduate College and the Department. The student should become familiar with these requirements and satisfy them as soon as possible.

The Doctor of Philosophy is primarily a research degree, and the candidate must demonstrate the capacity for independent research by producing an original thesis on a topic within his or her major field of study. The subject of the thesis must be reported to the doctoral committee and to the Graduate College at the time of the preliminary examination (proposal defense). The candidate is admitted to the final oral examination by the dean of the Graduate College upon completion of the dissertation and the recommendation of the department.

The doctoral program generally begins in the fall semester. The application period typically runs October 1 through February 15.

Additional details on the program may be found at <https://giesbusiness.illinois.edu/programs/doctoral/finance>

### Admission

The minimum required grade point average for admission is 3.0 (A = 4.0).

All applicants are required to submit Graduate Management Admission Test (GMAT) or GRE scores. Most international applicants are also required to submit Test of English as a Foreign Language (TOEFL) IELTS or iBT scores. The test scores will be used by the Admissions Committee, along with other information, in evaluating the applicant's qualifications for graduate study.

**Financial Engineering (FE)** is the application of quantitative methods to the analysis of financial markets and financial products. The quantitative techniques may include Mathematics, Statistics, Computer Science, Machine Learning, Neural Nets, and generalized Data Analytics. The applications include searching for opportunities as well as deriving solutions to financial problems. All financial markets are a subject for FE, from public exchanges to private over-the-counter markets. Similarly, all financial products, from equities, bonds and derivatives to bitcoins are candidates for quantification. An overarching theme for FE involves balancing reward against techniques for the measurement, management, and mitigation of risk.

**Graduate Degree Programs in Financial Engineering**

The Master of Science in Financial Engineering (MSFE) degree program is jointly sponsored by the Department of Industrial and Enterprise Systems Engineering (ISE) (<https://ise.illinois.edu>) in The Grainger College of Engineering and the Department of Finance (<https://giesbusiness.illinois.edu/finance/>) in the Gies College of Business. Graduates from this program receive the MSFE degree awarded by the Graduate College. The MSFE program complements other graduate programs offered by the sponsoring departments. The Master of Science in Financial Engineering (terminal master's) can be completed in 15 or 24 months, beginning in August each year. The second and subsequent semesters allow students the flexibility to pursue specialized tracks within the program, such as data analytics and electronic trading. A corporate-sponsored "practicum", provides students opportunities to address real world financial modeling problems and provides access to state-of-the-art analytic tools and software products.

**Concentrations**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1049)

Data Analytics in Finance (p. 1068)

**Admission**

Applicants to the MSFE Program will have a Bachelor's degree with one year of calculus, one semester of linear algebra and differential equations, one semester of programming (preferably in C/C++), and one semester of probability and statistics. Knowledge of basic finance and economics is helpful but not necessary. Given its technical emphasis, applicants to this program typically will have completed a Bachelor's degree in an engineering field, mathematics, physics, computer science,

or economics that provides sufficient preparation to facilitate a fast-paced, in-depth learning environment.

All applicants are expected to have a minimum grade point average of at least 3.25 (A=4.00) for the last two years of undergraduate study and a 3.50 for any previous graduate work completed. Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. GMAT (<https://www.gmac.com/gmat-other-assessments/about-the-gmat-exam/the-gmat-advantage/>) scores will also be considered.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

*for the degree of Master of Science in Financial Engineering*

Covering topics in finance, economics, numerical methods, stochastic calculus, and computer programming, the MSFE is a rigorous, three-semester, 48-credit, resident degree program with a summer internship opportunity. Twelve courses each of 4 graduate credits are required for graduation; they are expected to be taken in sequence in the respective semesters.

For additional details and requirements refer to the program's Web site (<http://msfe.illinois.edu/academics/curriculum.aspx>) and the Graduate (<http://www.grad.illinois.edu/gradhandbook/>) College (<http://www.grad.illinois.edu/gradhandbook/>) Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Other Requirements

### Requirement

A minimum of 36 credit hours must be taken from the University of Illinois Urbana-Champaign campus.

Minimum GPA: 2.75

## Learning Outcomes: Financial Engineering, MS

Learning Outcomes for the degree of Master of Science in Financial Engineering

1. Comprehension of common financial engineering techniques (toolkit)
2. Ability to identify and apply the appropriate techniques (tools) to real financial engineering opportunities and problems
3. Ability to minimally code to analysis
4. Awareness & knowledge of the financial environment
5. Ability to assess & articulate results to non-technical peers

## Food Science and Human Nutrition, MS

*for the Master of Science in Food Science and Human Nutrition (on campus & online)*

Food Science (p. 742)

Human Nutrition (p. 744)

**Online: The focus of the online Master of Science in Food Science and Human Nutrition (<https://fshn.illinois.edu/online/>) is Food Science. Students are not required to select a concentration.**

## Graduate Degree Programs in Food Science & Human Nutrition

### Graduate Majors:

Food Science & Human Nutrition, MS (p. 740) **(on campus & online)**

#### concentrations:

Food Science (p. 742)

Human Nutrition (p. 744)

Food Science and Human Nutrition, MS – Professional Science Master's (p. 745)

Food Science and Human Nutrition, PhD (p. 746)

#### concentrations:

Food Science (p. 748)

Human Nutrition (p. 751)

### Joint Degree Program:

Food Science & Human Nutrition, PhD and Master of Public Health, MPH (p. 1116)

## Research Areas

In addition to receiving training in the general field of food science or human nutrition, students have the opportunity to conduct research in the following areas of specialization:

- **Food processing, engineering, and biotechnology**
- **Food ingredients, properties, and interactions**
- **Food microstructures, micro-carriers, and nanotechnology**
- **Food chemistry**
- **Food microbiology and biomass conversion**
- **Food safety and security**
- **Sensory sciences**
- **Dietary quality and food and nutrition patterns for optimal health**
- **Nutrition and disease interactions, including cancer, metabolic disorders, and gastrointestinal health**
- **Nutrition across the life span**
- **Biochemical and molecular nutrition**
- **Clinical nutrition**
- **Community nutrition**

For additional information go to [fshn.illinois.edu/graduate](http://fshn.illinois.edu/graduate) (<http://fshn.illinois.edu/graduate/>).

The PSM involves rigorous scientific training in the area of food science and/or human nutrition; additionally, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities. For additional information go to [psm.illinois.edu/prospectivestudents/programs/foodscience.htm](http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm) (<http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm>).

## Admission

In addition to meeting the Graduate College admission requirements, a student planning to pursue a graduate degree in the department should have a baccalaureate degree in a recognized field of biological, physical, agricultural, or engineering science. Background deficiencies may be removed with graduate credit courses designed for this purpose. Graduate Record Examination (GRE) scores are required of all applicants, and those whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Minimum TOEFL and IELTS scores can be found at [grad.illinois.edu/admissions/instructions/04c](http://grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/>

[instructions/04c/](http://www.grad.illinois.edu/admissions/instructions/04c/)). Students can be admitted to start in fall, spring, or summer semesters except for the PSM concentration, which admits fall semester only. For information on the role faculty have in the admissions process go to [fshn.illinois.edu/graduate/applying](http://fshn.illinois.edu/graduate/applying) (<http://www.fshn.illinois.edu/graduate/applying/>).

## Internship in Dietetics

The Department of Food Science and Human Nutrition offers a dietetic internship for master's and doctoral students specializing in human nutrition. Completion of the degree and the internship qualifies the student to take the Academy of Nutrition and Dietetics registration examination administered by the Commission on Dietetic Registration. For information on our dietetic internship program please contact Ms. Jessica Madson ([jamadson@illinois.edu](mailto:jamadson@illinois.edu)).

## Online Program

A non-thesis Master of Science in Food Science program is offered via live, synchronous online sessions using distance education technology. The program ensures the same degree of excellence, and courses are instructed by the same faculty, as the on-campus non-thesis program. Courses are typically offered in the evening. For requirements and additional information, please contact Dr. Dawn Bohn at [dbrehart@illinois.edu](mailto:dbrehart@illinois.edu).

## Graduate Teaching Experience

Teaching is neither a Graduate College nor a FSHN requirement. A limited number of teaching assistantships are available to FSHN graduate students. Students are selected to be Graduate Teaching Assistants by the Department Head in consultation with the course instructor.

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. Financial aid for non-PSM graduate students is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. Qualified candidates are considered for financial support upon application. Additional information on financial aid for graduate students can be found at [fshn.illinois.edu/graduate/financial-assistance](http://fshn.illinois.edu/graduate/financial-assistance) (<http://fshn.illinois.edu/graduate/financial-assistance/>).

*for the Master of Science in Food Science and Human Nutrition - Online Program*

**Online: Students in online program do not complete a graduate concentration, requirements are shown below.**

**On Campus: Students in the on campus Master of Science in Food Science and Human Nutrition are required to select a concentration:**

Food Science Degree Requirements (p. 742)

Human Nutrition Degree Requirements (p. 744)

For additional details and requirements refer to the department's graduate handbook (<http://fshn.illinois.edu/graduate/student-handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

In addition to meeting the Graduate College admission requirements, a student planning to pursue a graduate degree in the department should have a baccalaureate degree in a recognized field of biological, physical, agricultural, or engineering science. Background deficiencies may be removed with graduate credit courses designed for this purpose. Graduate Record Examination (GRE) scores are required of all applicants, and those whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Minimum TOEFL and IELTS scores can be found at [grad.illinois.edu/admissions/instructions/04c](http://grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>). Students can be admitted to start in fall, spring, or summer semesters except for the PSM concentration, which admits fall semester only. For information on the role faculty have in the admissions process go to [fshn.illinois.edu/graduate/applying](http://fshn.illinois.edu/graduate/applying) (<http://www.fshn.illinois.edu/graduate/applying/>).

---

## Internship in Dietetics

The Department of Food Science and Human Nutrition offers a dietetic internship for master's and doctoral students specializing in human nutrition. Completion of the degree and the internship qualifies the student to take the Academy of Nutrition and Dietetics registration examination administered by the Commission on Dietetic Registration. For information on our dietetic internship program please contact Ms. Jessica Madson ([jamadson@illinois.edu](mailto:jamadson@illinois.edu)).

---

## Online Program

A non-thesis Master of Science in Food Science program is offered via live, synchronous online sessions using distance education technology. The program ensures the same degree of excellence, and courses are instructed by the same faculty, as the on-campus non-thesis program. Courses are typically offered in the evening. For

requirements and additional information, please contact Dr. Dawn Bohn at [dbrehart@illinois.edu](mailto:dbrehart@illinois.edu).

---

## Graduate Teaching Experience

Teaching is neither a Graduate College nor a FSHN requirement. A limited number of teaching assistantships are available to FSHN graduate students. Students are selected to be Graduate Teaching Assistants by the Department Head in consultation with the course instructor.

---

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. Financial aid for non-PSM graduate students is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. Qualified candidates are considered for financial support upon application. Additional information on financial aid for graduate students can be found at [fshn.illinois.edu/graduate/financial-assistance](http://fshn.illinois.edu/graduate/financial-assistance) (<http://fshn.illinois.edu/graduate/financial-assistance/>).

**program website:** <https://fshn.illinois.edu/graduate/human-nutrition>  
(<https://fshn.illinois.edu/graduate/human-nutrition/>)

**department faculty:** <https://fshn.illinois.edu/directory/faculty/>

**college website:** <https://aces.illinois.edu/>

**address:** 260 Bevier Hall, 905 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 244-4498

**email:** FSHNGradAdmissions@illinois.edu  
(fshngradadmissions@illinois.edu)

**On Campus: Master of Science in Food Science and Human Nutrition, students are required to select a concentration:**

Food Science (p. 742)

Human Nutrition (p. 744)

**Online: The focus of the online Master of Science in Food Science and Human Nutrition (<https://fshn.illinois.edu/online/>) is Food Science. Students are not required to select a concentration.**

## Graduate Degree Programs in Food Science & Human Nutrition

### Graduate Majors:

Food Science & Human Nutrition, MS (p. 740) **(on campus & online)**

**concentrations:**

Food Science (p. 742)

Human Nutrition (p. 744)

Food Science and Human Nutrition, MS – Professional Science Master's (p. 745)

Food Science and Human Nutrition, PhD (p. 746)

**concentrations:**

Food Science (p. 748)

Human Nutrition (p. 751)

### Joint Degree Program:

Food Science & Human Nutrition, PhD and Master of Public Health, MPH (p. 1116)

## Research Areas

In addition to receiving training in the general field of food science or human nutrition, students have the opportunity to conduct research in the following areas of specialization:

- Food processing, engineering, and biotechnology
- Food ingredients, properties, and interactions
- Food microstructures, micro-carriers, and nanotechnology
- Food chemistry
- Food microbiology and biomass conversion
- Food safety and security
- Sensory sciences
- Dietary quality and food and nutrition patterns for optimal health
- Nutrition and disease interactions, including cancer, metabolic disorders, and gastrointestinal health
- Nutrition across the life span
- Biochemical and molecular nutrition
- Clinical nutrition
- Community nutrition

For additional information go to [fshn.illinois.edu/graduate](https://fshn.illinois.edu/graduate) (<http://fshn.illinois.edu/graduate/>).

The PSM involves rigorous scientific training in the area of food science and/or human nutrition; additionally, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities. For additional information go to [psm.illinois.edu/prospectivestudents/programs/foodscience.htm](http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm) (<http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm>).

## Admission

In addition to meeting the Graduate College admission requirements, a student planning to pursue a graduate degree in the department should have a baccalaureate degree in a recognized field of biological, physical, agricultural, or engineering science. Background deficiencies may be removed with graduate credit courses designed for this purpose. Graduate Record Examination (GRE) scores are required of all applicants, and those whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Minimum TOEFL and IELTS scores can be found at [grad.illinois.edu/admissions/instructions/04c](http://grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>). Students can be admitted to start in fall, spring, or summer semesters except for the PSM concentration, which admits fall semester only. ## Learning Outcomes: Food Science & Human Nutrition, PhD

Learning Outcomes Doctor of Philosophy in Food Science and Human Nutrition

A FSHN graduate student:

1. Demonstrates knowledge in at least three areas of expertise (based upon required coursework; see FSHN graduate handbook for areas).
2. Displays effective and relevant written and oral communication skills.
3. Conducts methodical and logical research that addresses key issues in food science and/or human nutrition.
4. Displays professional ethics in scholarly achievements.

*Doctor of Philosophy in Food Science and Human Nutrition, Food Science Concentration*

If a candidate has a master's degree in a related area, a minimum of 64 graduate hours, including up to 38 graduate hours of thesis research, must be completed. In consultation with the adviser and advisory committee, the remainder of the 64 graduate hours required for the degree consists of courses selected from inside or outside the department that are appropriate for training in the student's field of specialization. Upon completion of all necessary formal courses and special options, the student is required to take an oral preliminary examination. After passage of the preliminary examination, the student's activities are primarily devoted to thesis research. Upon submission of the dissertation, the candidate is required to pass a final oral examination before a graduate faculty committee.

*For additional details and requirements refer to the department's graduate handbook (<http://fshn.illinois.edu/graduate/student-handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

---

## Concentration Requirements: Entering with approved BS Degree

Code	Title	Hours
<b>Concentration in Food Science</b> <sup>1,2,3</sup>		<b>26-27</b>
<b>Required Courses:</b>		<b>16-17</b>
FSHN 481	Food Processing Unit Operations I	2
FSHN 483	Food Processing Unit Operations II	2
FSHN 514	Advanced Food Chemistry	3
FSHN 573	Advanced Food Microbiology	3
FSHN 593	Seminar in Foods and Nutrition	2
FSHN 595	Nutrition for Food Scientists	4
FSHN 597	Graduate Seminar <sup>4</sup>	0-1
or NUTR 500 Nutritional Sciences Seminar		
<b>Electives:</b> <sup>5,6</sup>		
<b>Food Processing and Engineering</b>		

ABE 498	Engineering Application of Nano-scale Biology	3
FSHN 460	Food Processing Engineering	3
FSHN 482	Food Processing Unit Operations I Lab	1
FSHN 484	Food Processing Unit Operations II Lab	1
FSHN 595	Advanced Food Processing	2
<b>Food Chemistry</b>		
FSHN 416	Food Chemistry Laboratory	3
FSHN 517	Fermented & Distilled Beverages	2
FSHN 518	Chemistry of Lipids in Foods	3
FSHN 519	Flavor Chemistry and Analysis	4
FSHN 595	Transport in Food Biopolymers	1
FSHN 595	Water Relations in Foods	4
<b>Food Microbiology</b>		
FSHN 574	Value Added Biotransformation	3
FSHN 595	Food Safety for Global Food Security	3
<b>Others (of interest to many)</b>		
FSHN 424	Biopsychology of Ingestive Behavior	3
FSHN 440	Applied Statistical Methods I	4
FSHN 502	Advanced Sensory Science	3
FSHN 592	Graduate Internship Experience	2
FSHN 598	Advanced Special Problems <sup>7</sup>	1-8
	or NUTR 59 Individual Topics in Nutrition	
CPSC 541	Regression Analysis	5
CPSC 542	Applied Statistical Methods II	5
NUTR 550	Grantsmanship and Ethics	3

<sup>1</sup> Undergraduate training must include statistics (ACE 261, CPSC 241, ECON 202, MATH 161, PSYC 235, SOC 280, or STAT 100) and basic science courses relevant to the student's chosen focus (including for example, biochemistry, physical chemistry, microbiology, or material science). These undergraduate courses are not required for admission, but must be completed early in the graduate program and do not count toward concentration requirements. Both M.S. and Ph.D. degrees require at least 12 hours of 500-level course work (including thesis research), and at least 8 of these 12 hours must be in the major field for graduation.

<sup>2</sup> Additional courses may be required beyond the concentration minimum, per Advisory Committee recommendations, depending upon student/advisor learning objectives. A student whose prior education includes course work with identical or similar content to those specified above will be guided by their advisor and Advisory Committee regarding the selection of additional course work needed to meet the minimum hours of the FS concentration.

<sup>3</sup> Students are encouraged to take new courses, rather than retake required courses they have already taken. If you have already taken a required course at the University of Illinois, it is highly recommended that you do not retake it. No petition is required. If you have taken a very similar course at another university, you are strongly encouraged to petition for acceptance of that course in lieu of the required course. Courses should be selected to expand and strengthen your knowledge in core and related disciplines, and/or to increase your research capabilities. Retaking a course does not meet that objective. For additional advice on this topic, contact your advisor and faculty advisory committee.

<sup>4</sup> Students are required to enroll in another seminar course if they have a conflict that precludes their enrollment in FSHN 597 or NUTR 500. The seminar course may be offered by another department.

<sup>5</sup> Course selection is flexible beyond this list if decided in consultation with advisor/advisory committee.

<sup>6</sup> Non-thesis M.S. degree students must complete the concentration requirements, including select at least 3 hours of 500-level elective and other courses to equal a total of at least 32 hours.

<sup>7</sup> Up to 2 hours for thesis degrees; up to 6 hour for non-thesis M.S. degree.

## PhD Requirements

### Entering with approved M.S./M.A. degree

#### Graduate Majors:

Food Science & Human Nutrition, MS (p. 740) **(on campus & online)**

**concentrations:**

Food Science (p. 742)

Human Nutrition (p. 744)

Food Science and Human Nutrition, MS – Professional Science Master's (p. 745)

Food Science and Human Nutrition, PhD (p. 746)

**concentrations:**

Food Science (p. 748)

Human Nutrition (p. 751)

#### Joint Degree Program:

Food Science & Human Nutrition, PhD and Master of Public Health, MPH (p. 1116)

### Research Areas

In addition to receiving training in the general field of food science or human nutrition, students have the opportunity to conduct research in the following areas of specialization:

- **Food processing, engineering, and biotechnology**
- **Food ingredients, properties, and interactions**
- **Food microstructures, micro-carriers, and nanotechnology**
- **Food chemistry**
- **Food microbiology and biomass conversion**
- **Food safety and security**
- **Sensory sciences**
- **Dietary quality and food and nutrition patterns for optimal health**
- **Nutrition and disease interactions, including cancer, metabolic disorders, and gastrointestinal health**
- **Nutrition across the life span**
- **Biochemical and molecular nutrition**
- **Clinical nutrition**
- **Community nutrition**

For additional information go to [fshn.illinois.edu/graduate](http://fshn.illinois.edu/graduate) (<http://fshn.illinois.edu/graduate/>).

The PSM involves rigorous scientific training in the area of food science and/or human nutrition; additionally, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities. For additional information go to [psm.illinois.edu/prospectivestudents/programs/foodscience.htm](http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm) (<http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm>).

### Admission

In addition to meeting the Graduate College admission requirements, a student planning to pursue a graduate degree in the department should have a baccalaureate degree in a recognized field of biological, physical, agricultural, or engineering science. Background deficiencies may be removed with graduate credit courses designed for this purpose. Graduate Record Examination (GRE) scores are required of all applicants, and those whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Minimum TOEFL and IELTS scores can be found at [grad.illinois.edu/admissions/instructions/04c](http://grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>). Students can be admitted to start in fall, spring, or summer semesters except for the PSM concentration, which admits fall semester only. For information on the role faculty have in the admissions process go to [fshn.illinois.edu/graduate/applying/](http://fshn.illinois.edu/graduate/applying/) (<http://www.fshn.illinois.edu/graduate/applying/>).

### Internship in Dietetics

The Department of Food Science and Human Nutrition offers a dietetic internship for master's and doctoral students specializing in human nutrition. Completion of the degree and the internship qualifies the student to take the Academy of Nutrition and Dietetics registration examination administered by the Commission on Dietetic Registration. For information on our dietetic internship program please contact Ms. Jessica Madson ([jamadson@illinois.edu](mailto:jamadson@illinois.edu)).

### Online Program

A non-thesis Master of Science in Food Science program is offered via live, synchronous online sessions using distance education technology. The program ensures the same degree of excellence, and courses are instructed by the same faculty, as the on-campus non-thesis program. Courses are typically offered in the evening. For

requirements and additional information, please contact Dr. Dawn Bohn at [dbrehart@illinois.edu](mailto:dbrehart@illinois.edu).

## Graduate Teaching Experience

Teaching is neither a Graduate College nor a FSHN requirement. A limited number of teaching assistantships are available to FSHN graduate students. Students are selected to be Graduate Teaching Assistants by the Department Head in consultation with the course instructor.

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. Financial aid for non-PSM graduate students is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. Qualified candidates are considered for financial support upon application. Additional information on financial aid for graduate students can be found at [fshn.illinois.edu/graduate/financial-assistance](http://fshn.illinois.edu/graduate/financial-assistance) (<http://fshn.illinois.edu/graduate/financial-assistance/>).

*Doctor of Philosophy in Food Science and Human Nutrition: Human Nutrition Concentration*

If a candidate has a master's degree in a related area, a minimum of 64 graduate hours, including up to 38 graduate hours of thesis research, must be completed. In consultation with the adviser and advisory committee, the remainder of the 64 graduate hours required for the degree consists of courses selected from inside or outside the department that are appropriate for training in the student's field of specialization. Upon completion of all necessary formal courses and special options, the student is required to take an oral preliminary examination. After passage of the preliminary examination, the student's activities are primarily devoted to thesis research. Upon submission of the dissertation, the candidate is required to pass a final oral examination before a graduate faculty committee.

For additional details and requirements refer to the department's graduate handbook (<http://fshn.illinois.edu/graduate/student-handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Entering with approved BS degree

Code	Title	Hours
<b>Concentration in Human Nutrition</b> <sup>1,2,3,4</sup>		<b>26</b>
<b>Required Courses:</b>		<b>17-19</b>
MCB 450	Introductory Biochemistry (or higher)	3
FSHN 420	Nutritional Aspects of Disease	3
FSHN 426	Biochemical Nutrition I	3
FSHN 427	Biochemical Nutrition II	3
FSHN 465	Principles of Food Technology	3
FSHN 511	Regulation of Metabolism	4
FSHN 593	Seminar in Foods and Nutrition	2
<b>Required every semester for 0 hours. Register for 1 hour if presenting:</b>		
FSHN 597	Graduate Seminar <sup>5</sup>	0-1
	or NUTR 500 Nutritional Sciences Seminar	

## Electives: <sup>6,7</sup>

To meet 26-27 hours minimum, of which at least 3 (thesis MS) or 6 (non-thesis MS) hours need to be graded courses at the 500-level.

FSHN 421	Pediatric Clinical Nutrition	3
FSHN 424	Biopsychology of Ingestive Behavior	3
FSHN 428	Community Nutrition	3
FSHN 429	Nutrition Assessment & Therapy	3
FSHN 440	Applied Statistical Methods I	4
FSHN 480	Basic Toxicology	3
FSHN 510	Topics in Nutrition Research (Up to 4 hours count toward degree)	1 to 3
FSHN 520	Advanced Clinical Nutrition (up to 6 hours count toward degree)	2
FSHN 590	Dietetic Internship I (Restricted to dietetics internship students only.)	5
FSHN 592	Graduate Internship Experience (Up to 2 hours count toward degree)	0 to 12
FSHN 598	Advanced Special Problems <sup>8</sup>	1-8
	or NUTR 59 Individual Topics in Nutrition	
NUTR 511	Regulation of Metabolism	4
NUTR 550	Grantmanship and Ethics	3
NUTR 590	Disciplinary Seminar (Up to 2 hours count toward degree)	0 to 2
ANSC 421	Minerals and Vitamins	3
ANSC 520	Protein and Energy Nutrition	3
ANSC 524	Nonruminant Nutrition Concepts	2

<sup>1</sup> Undergraduate training must include statistics (ACE 261, CPSC 241, ECON 202, MATH 161, PSYC 235, SOC 280, or STAT 100), nutrition (equivalent to FSHN 220), and systemic physiology (equivalent to MCB 246). These undergraduate courses are not required for admission, but must be completed early in the graduate program and do not count toward concentration requirements. M.S. degrees require at least 12 hours of 500-level course work (including thesis research), and at least 8 of these 12 hours must be in the major field for graduation.

<sup>2</sup> Additional courses may be required beyond the concentration minimum, per Advisory Committee recommendations, depending upon student/advisor learning objectives. A student whose prior education includes course work with identical or similar content to those specified above will be guided by their advisor and Advisory Committee regarding the selection of additional course work needed to meet the minimum hours of the HN concentration.

<sup>3</sup> Students are encouraged to take new courses, rather than retake required courses they have already taken. If you have already taken a required course at the University of Illinois, it is highly recommended that you do not retake it. No petition is required. If you have taken a very similar course at another university, you are strongly encouraged to petition for acceptance of that course in lieu of the required course. Courses should be selected to expand and strengthen your knowledge in core and related disciplines, and/or to increase your research capabilities. Retaking a course does not meet that objective. For additional advice on this topic, contact your advisor and faculty advisory committee.

<sup>4</sup> Students enrolled in the Graduate Dietetic Internship may count up to 5 hours of FSHN 590 or FSHN 591 towards 500-level course requirements.

- <sup>5</sup> Students are required to enroll in another seminar course if they have a conflict that precludes their enrollment in FSHN 597 or NUTR 500. The seminar course may be offered by another department.
- <sup>6</sup> Course selection is flexible beyond this list if decided in consultation with advisor/advisory committee.
- <sup>7</sup> Non-thesis M.S. students must complete the concentration requirements, including at least 6 hours of 500-level courses, and enroll in other courses to total at least 32 hours.
- <sup>8</sup> Up to 2 hours for thesis degrees; up to 6 hour for non-thesis M.S. degree.

## French, MA

### for the degree of Master of Arts in French

**head of department: Zsuzsanna Fagyal**  
**director of graduate studies: François Proulx**  
**department website:** <http://www.frit.illinois.edu/>  
**college website:** <https://las.illinois.edu/>  
**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)  
**overview of college admissions & requirements:** <https://frit.illinois.edu/admissions/french-graduate-admissions/> (<https://frit.illinois.edu/admissions/french-graduate-admissions/>)  
**department office: 2090 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801**  
**phone: (217) 333-2020**  
**email: french-italian@illinois.edu**

The Department of French and Italian offers graduate programs leading to the Master of Arts and the Doctor of Philosophy degrees in French and in Italian. Candidates for the master's degree may specialize in French Studies, French Linguistics, French Language Learning, or Italian. Candidates for the doctoral degree in French may choose one of three specializations: French Studies, French Linguistics, or Second Language Acquisition and Teacher Education (SLATE).

The following minors and certificates may be pursued: Cinema Studies (p. 1093), Gender & Women's Studies (p. 1099), Translation Studies (<http://www.translation.illinois.edu>), Criticism and Interpretive Theory (<https://criticism.english.illinois.edu>)

### Graduate Degree Programs in French & Italian

French, MA (p. 652)  
**concentration:**  
 Medieval Studies (p. 1076)

French, PhD (p. 755)  
**concentration:**  
 Medieval Studies (p. 1076)|Romance Linguistics (p. 1079)|Second Language Acquisition & Teacher Education (p. 1080)

Italian, MA (p. 797)  
**concentration:**  
 Medieval Studies (p. 1076)

Italian, PhD (p. 799)  
**concentration:**  
 Medieval Studies (p. 1076)|Romance Linguistics (p. 1079)|Second Language Acquisition & Teacher Education (p. 1080)

### Admission

**French**  
 Students considering admission to the master's program should usually have had a college major in French. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a statement of purpose, three letters

of recommendation and two writing samples (5-10 pages each), at least one of which must be in French. Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (<http://www.grad.illinois.edu/Admissions/instructions/04c.cfm>). Admission for the spring semester is rare. Students seeking admission to the Ph.D. program with a Master of Arts degree earned elsewhere are expected to have a minimum 3.5 grade point average in graduate coursework. The master's degree should be in French literature, French studies, or French linguistics. Candidates seeking admission to the Ph.D. specialization in Second Language Acquisition and Teacher Education may hold a Master of Arts in Teaching degree instead.

**For more information about how to apply, see** <https://frit.illinois.edu/admissions/french-graduate-admissions> (<https://frit.illinois.edu/admissions/french-graduate-admissions/>). Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

### Italian

The normal prerequisite for a graduate major is an undergraduate major in Italian or consent of the department. Students doing graduate work for any advanced degree in Italian must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the department requires Ph.D. candidates to do some teaching as part of their academic work because such experience is considered a vital part of graduate training and professionalization. Non-native English speakers must first pass a test of their oral English ability. See [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

Teaching Assistants in French and Italian are required to take FR 505 or ITAL 505 respectively (4 hours) as part of their contractual obligation. The course does not count toward the graduate degrees.

### Faculty Research Interests

Our faculty (<https://frit.illinois.edu/directory/faculty/>) possess strengths in literary interpretation, critical theory, the study of civilization, cinema, theoretical and applied linguistics, and computer-assisted teaching. Members of the faculty have received national and international recognition; graduates serve on the faculties of numerous colleges and universities both in this country and abroad. See also the faculty's areas of research (<https://frit.illinois.edu/research/research-areas/>).

### Centers, Programs, and Institutes

Our faculty hold appointments with the Departments of African American Studies, Gender and Women's Studies, Linguistics, Media and Cinema Studies, as well as the European Union Center and the Center for South Asian and Middle Eastern Studies, the Program in Comparative and World Literature, the Program in Jewish Culture and Society, the Program in Medieval Studies, and the Unit for Criticism and Interpretive Theory, broadening opportunities for interdisciplinary work.

### Facilities and Resources

A language learning lab provides computer-based access to resources and audio-video services. The phonetics lab contains state-of-the-art equipment available to graduate student researchers. The Kolb-Proust Archive for Research, a unit of the Library, houses a wealth of information about Marcel Proust and his time, including the important collection of notes and materials assembled by Philip Kolb, who was a professor in the Department. Documents from the collection are accessible on the World-Wide Web through a searchable SGML-encoded Virtual Archive ([www.library.illinois.edu/kolbp](http://www.library.illinois.edu/kolbp)) (<http://www.library.illinois.edu/kolbp/>).

### Financial Aid

All students who apply for admission are considered for financial aid. Subject to budgetary conditions, and assuming satisfactory academic and teaching performance, the Department offers two years of financial aid toward the M.A. degree and an additional four years of support toward completion of the Ph.D.

Teaching Assistantships are the most common form of graduate student support. The usual appointment requires teaching three courses during the academic year.

Research Assistantships require the recipient to assist with a faculty member's research for a specific number of hours per week. A research assistantship may be combined with a teaching assistantship.

Fellowships are offered for new and continuing students. No separate application form is required.

Tuition and Fee Waivers are included in waiver-generating fellowship, teaching assistantship, and research assistantship awards.

Graduate students in French may spend the academic year abroad under exchange agreements with universities in France, Belgium, and Canada, employed as teaching assistants.

### *for the degree of Master of Arts in French*

Candidates in French Studies must take an examination based on a reading list covering the fields of French literature and culture. The written and oral examination in French linguistics is based on a list of readings in linguistics and in literature and/or civilization. The written exam in French linguistics may be substituted by an extended research paper. The examination in French language learning/teaching includes readings in second-language acquisition and teaching methods in

addition to selected readings in French literature and/or civilization. Candidates in all programs are required to demonstrate, at the time of the master's examination, an ability to communicate effectively in both written and oral French.

For additional details and requirements refer to the department's graduate programs (<http://www.french.illinois.edu/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: French, MA

Learning Outcomes for the degree of Master of Arts in French

### French Studies Concentration

- Language:** high level of proficiency in written and oral French. Strong command of written and spoken academic French.
- French Studies:** Acquisition of broad knowledge of French and francophone literature and cultures across several centuries. Development of research and interpretive skills. Familiarity with major research questions within the field and with different approaches to those issues. Introduction to major contemporary works of history, philosophy and/or cultural theory in French.
- Training in theory and methodologies:** Introduction to a variety of methodologies and theoretical approaches to texts and their interpretation in English and in French.
- Teaching:** Ability to teach the French language at the beginning and intermediate levels. Effective communication in French to groups of students with various abilities in the language. Work with faculty to design syllabi and appropriate assessment tools.
- The Profession:** Awareness and development of professional skills, including the ability to write and deliver academic conference presentations, generate syllabi, rework seminar papers, write fellowship applications; awareness of issues in the academic job market in French studies.

### French Language Learning Concentration

- Language:** Students display an Advanced Mid to Advanced High proficiency in reading, writing, listening, and speaking in French, as per ACTFL (American Council on the Teaching of Foreign Languages) guidelines.
- Knowledge of Applied Linguistics:** Students can recall, relate, and explain facts and theories about the structure and the teaching and learning of French.

- Research theories and methodologies:** Students can understand, recall, relate, and explain foundational research theories and methodologies used in the field of applied linguistics.
- Teaching:** Students are able to comfortably teach elementary levels of French language courses and have basic skills teaching intermediate levels of French language courses, aligning with a communicative approach to teaching and learning, grounded in basic principles of proficiency-oriented curriculum and assessment design.
- Professionalism:** Students demonstrate awareness and development of ethical and professional skills relevant to research, teaching, and learning in the field of applied linguistics, including communicative skills for the profession, collegiate demeanor, participation in professional organizations or events, evaluation of standards, issues, and resources used in the field. Work with faculty to design syllabi and appropriate assessment tools.

### French Linguistics Concentration

- Language:** Students display Advanced Mid to Advanced High proficiency in reading, writing, listening, and speaking in French, as per ACTFL (American Council on the Teaching of Foreign Languages) guidelines.
- French Linguistics:** Students acquire broad theoretical and factual knowledge of the structure, history, and contemporary usage of the French language in francophone societies. They learn to establish interdisciplinary connections to literature, film, and the teaching of French and show familiarity with major research questions and methodologies in the field. Among students' applied skills are: the ability to conduct research, translate, and interpret in French.
- Research theories and methods:** Students can understand, recall, relate, and explain in English and in French foundational research theories and methodologies used in the field of theoretical and applied linguistics.
- Teaching:** Students are able to comfortably teach elementary levels of French language courses and have basic skills teaching intermediate levels of French language courses, aligning with a communicative approach to teaching and learning and a proficiency-oriented curriculum and assessment design. Work with faculty to design syllabi and appropriate assessment tools.
- The Profession:** Awareness and development of professional skills, including ability to write and deliver academic conference presentations, generate syllabi, rework seminar papers, write fellowship applications; awareness of issues in the academic job market in French Linguistics and Language Learning/Teaching. Students demonstrate awareness and development of ethical and professional skills relevant to their field, including communicative skills for the profession, collegiate demeanor and participation in professional organizations or events.

## French, PhD

The Department of French and Italian offers graduate programs leading to the Master of Arts and the Doctor of Philosophy degrees in French and in Italian. Candidates for the master's degree may specialize in French Studies, French Linguistics, French Language Learning, or Italian. Candidates for the doctoral degree in French may choose one of three specializations: French Studies, French Linguistics, or Second Language Acquisition and Teacher Education (SLATE).

The following minors and certificates may be pursued: Cinema Studies (p. 1093), Gender & Women's Studies (p. 1099), Translation Studies (<http://www.translation.illinois.edu/>), Criticism and Interpretive Theory (<https://criticism.english.illinois.edu>)

## Admission

### French

Students considering admission to the master's program should usually have had a college major in French. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/) (<http://www.grad.illinois.edu/admissions/apply/>)) and submit a statement of purpose, three letters of recommendation and two writing samples (5-10 pages each), at least one of which must be in French. Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT

with a minimum score of 24 (<http://www.grad.illinois.edu/Admissions/instructions/04c.cfm>). Admission for the spring semester is rare. Students seeking admission to the Ph.D. program with a Master of Arts degree earned elsewhere are expected to have a minimum 3.5 grade point average in graduate coursework. The master's degree should be in French literature, French studies, or French linguistics. Candidates seeking admission to the Ph.D. specialization in Second Language Acquisition and Teacher Education may hold a Master of Arts in Teaching degree instead.

**For more information about how to apply, see** <https://frit.illinois.edu/admissions/french-graduate-admissions/> (<https://frit.illinois.edu/admissions/french-graduate-admissions/>). Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

### Italian

The normal prerequisite for a graduate major is an undergraduate major in Italian or consent of the department. Students doing graduate work for any advanced degree in Italian must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the department requires Ph.D. candidates to do some teaching as part of their academic work because such experience is considered a vital part of graduate training and professionalization. Non-native English speakers must first pass a test of their oral English ability. See [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

Teaching Assistants in French and Italian are required to take FR 505 or ITAL 505 respectively (4 hours) as part of their contractual obligation. The course does not count toward the graduate degrees.

## Faculty Research Interests

Our faculty possess strengths in literary interpretation, critical theory, the study of civilization, cinema, theoretical and applied linguistics, and computer-assisted teaching. Members of the faculty have received national and international recognition; graduates serve on the faculties of numerous colleges and universities both in this country and abroad. See also the faculty's areas of research (<https://frit.illinois.edu/research/research-areas/>).

## Centers, Programs, and Institutes

Our faculty hold appointments with the Departments of African American Studies, Gender and Women's Studies, Linguistics, Media and Cinema Studies, as well as the European Union Center and the Center for South Asian and Middle Eastern Studies, the Program in Comparative and World Literature, the Program in Jewish Culture and Society, the Program in Medieval Studies, and the Unit for Criticism and Interpretive Theory, broadening opportunities for interdisciplinary work.

## Facilities and Resources

A language learning lab provides computer-based access to resources and audio-video services. The phonetics lab contains state-of-the-art equipment available to graduate student researchers. The Kolb-Proust Archive for Research, a unit of the Library, houses a wealth of information about Marcel Proust and his time, including the important collection of notes and materials assembled by Philip Kolb, who was a professor in the Department. Documents from the collection are accessible on the World-Wide Web through a searchable SGML-encoded Virtual Archive ([www.library.illinois.edu/kolbp](http://www.library.illinois.edu/kolbp)) (<http://www.library.illinois.edu/kolbp/>).

## Financial Aid

All students who apply for admission are considered for financial aid. Subject to budgetary conditions, and assuming satisfactory academic and teaching performance, the Department offers two years of financial aid toward the M.A. degree and an additional four years of support toward completion of the Ph.D.

Teaching Assistantships are the most common form of graduate student support. The usual appointment requires teaching three courses during the academic year.

Research Assistantships require the recipient to assist with a faculty member's research for a specific number of hours per week. A research assistantship may be combined with a teaching assistantship.

Fellowships are offered for new and continuing students. No separate application form is required.

Tuition and Fee Waivers are included in waiver-generating fellowship, teaching assistantship, and research assistantship awards.

Graduate students in French may spend the academic year abroad under exchange agreements with universities in France, Belgium, and Canada, employed as teaching assistants.

### ***for the degree of Doctor of Philosophy in French***

For additional details and requirements refer to the department's graduate programs (<http://www.french.illinois.edu/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
	Coursework should be selected in consultation with advisor.	32
	Language Requirement: depends on specialization area	
FR 599	Thesis Research (min/max applied toward degree)	32
	Total Hours	64

## Other Requirements

Requirement	Description
Other requirements may overlap	
Masters Degree Required for Admission to PhD?	Yes
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	2.75

## Specialization in French Studies

The doctoral program in French Studies is designed to prepare specialists in literature and culture. Candidates are required to include courses in textual criticism, linguistics or linguistically oriented textual theory, and French/Francophone literature and culture. Students are expected to demonstrate reading proficiency in one modern foreign language (other than French or English). They may fulfill this requirement by passing a fourth-semester reading course with a grade of B or better or by demonstrating an equivalent ability by examination. Students may choose to complete a minor in Cinema Studies, Gender and Women's Studies, or to obtain a certificate in Medieval Studies, Translation Studies or in Criticism, and Interpretive Theory.

## Specialization in French Linguistics

The Ph.D. curriculum in linguistics offers training in French and Romance linguistics in cooperation with the Department of Spanish and Portuguese and the Department of Linguistics. Candidates selecting this option are required to complete course work in linguistic theory, advanced study of French language and culture, and French and Romance linguistics beyond the requirements of the M.A. in French Linguistics. Advanced course work related to the candidate's research area is chosen from courses offered by participating departments in consultation with the advisors in French and Romance Linguistics. Students are expected to demonstrate proficiency in at least one other Romance language and may select a concentration in Romance Linguistics.

## Specialization in French Second Language Acquisition and Teacher Education (SLATE)

This Ph.D. curriculum in French SLATE combines advanced studies in French with a research focus on some aspect of second language learning and teaching. It is an inter-disciplinary Ph.D. concentration that offers training in a wide range of disciplines related to second language learning and teaching, with a focus on bilingualism, foreign, second, and heritage language teaching and learning. Courses are offered in collaboration with multiple departments and units in the School of Literatures, Cultures, and Linguistics, the College of Liberal Arts and Sciences, and the College of Education. Candidates in French selecting this option are required to complete course work in theories of language teaching and acquisition, linguistic theory, and French language and culture beyond the requirements of the M.A. in Language Learning. Advanced course work related to the candidate's research area is chosen in consultation with the French SLATE advisor.

## Learning Outcomes: French, PhD

Learning Outcomes for the degree of Doctor of Philosophy in French

**French Studies Concentration**

1. **Language:** Near native written and oral proficiency in French. Mastery of written and spoken academic French and English.
2. **French Studies:** Acquisition of broad knowledge of French and francophone literature and cultures across the centuries, with particular expertise in one area or more. Ability to evaluate the field of French Studies, assess the major issues of concern within the field, and evaluate different approaches to those issues. Familiarity with major contemporary works of history, philosophy and/or cultural theory in French.
3. **Training in theory and methodologies:** Strong command of a variety of methodologies and theoretical approaches to texts and their interpretation in English and in French.
4. **Teaching:** Ability to teach French language, literature and culture in a wide variety of undergraduate courses, from beginning to advanced, with broad historical, cultural and linguistic understanding. Effective communication in French to groups of students with various abilities in the language. Work with faculty to design syllabi and appropriate assessment tools.
5. **The Profession:** mastery of professional skills, including ability to write and deliver academic conference presentations, generate syllabi, rework and submit seminar papers for publication as articles, write book reviews and fellowship applications; readiness for academic job market in French studies, including ability to identify successful strategies and evaluate different types of institutions and their teaching and research needs.

**French Linguistics Concentration**

1. **Language:** Students display an Advanced High to Superior proficiency, as well as native likeness in reading, writing, listening, and speaking in both French and English (American Council on the Teaching of Foreign Languages) guidelines.
2. **French Linguistics:** Students can recall, relate, explain, discuss, and utilize theories in the field of French Linguistics to generate research. They acquire broad specialized knowledge in their subfield of specialization.
3. **Research theories and methods:** Students can understand, recall, relate, and explain in English and in French advanced research theories and methodologies used in the field of linguistics.
4. **Teaching:** Students are able to expertly teach a variety of French language and content courses in their field, grounded in principles of proficiency-oriented curriculum and assessment design, as well as in programmatic sequencing.
5. **Professionalism:** Students demonstrate knowledge and application of ethical and professional skills relevant to research, teaching, and learning in the field of applied linguistics, including communicative skills for the profession, collegiate demeanor, participation in professional organizations or events, evaluation of standards, issues, and resources used in the field, readiness for the job market, research publications, and presentations at nationally and internationally recognized research conferences.

**Second Language Acquisition Concentration**

1. **Language:** Students display an Advanced High to Superior proficiency, as well as native likeness in reading, writing, listening, and speaking in both French and English (American Council on the Teaching of Foreign Languages) guidelines.

2. **Expert knowledge in applied linguistics:** Students can recall, relate, explain, discuss, and utilize theories in the field of applied linguistics to generate research.
3. **Research theories and methodologies:** Students can understand, relate, explain, discuss, and defend their use of advanced and updated research theories and methodologies consistent with research in the field of applied linguistics.
4. **Teaching:** Students are able to expertly teach a variety of French language and content courses, aligning with a communicative approach to teaching and learning, as well as with the specificity of a major in French, grounded in principles of proficiency-oriented curriculum and assessment design, as well as in programmatic sequencing.
5. **Professionalism:** Students demonstrate knowledge and application of ethical and professional skills relevant to research, teaching, and learning in the field of applied linguistics, including communicative skills for the profession, collegiate demeanor, participation in professional organizations or events, evaluation of standards, issues, and resources used in the field, readiness for the job market, research publications, and presentations at nationally and internationally recognized research conferences.

Graduate Degree Programs in Geography & Geographic Information Science

Geography, MA (p. 758)  
 Geography, MS (p. 759)  
**concentrations:**  
 Geographic Information Science - Professional Science Master's (p. 761)  
 Computational Science & Engineering (p. 1064)  
 Geography, PhD (p. 762)  
**concentration:**  
 Computational Science & Engineering (p. 1064)

We offer a program leading to the Master of Arts in geography with the following specialization:

- **Cities, Space, and Society**

Urban health and quality of life; Urban governance and politics; Race, class, and city policing; Critical studies of urban transportation and mobilities; Global north and south; Neoliberalization

## Admission

Students applying for admission to the master's program are expected to have a strong undergraduate background in geography and/or related disciplines. In addition to other Graduate College admission requirements, a grade point average of at least 3.0 (A = 4.0) in the undergraduate major is required. GRE scores are not required or evaluated for admission to our graduate programs.

## Assistantships and Fellowships

Geography graduate students are usually supported and receive tuition/fee waivers through teaching assistantships, research assistantships, or fellowships.

## Graduate Teaching Experience

Although previous teaching experience is not a Graduate College requirement, it is considered an important part of the graduate experience in this program. We have implemented a professionalization program in our department, where graduate students work with faculty members to receive advice and gain first-hand experience in teaching undergraduate courses. Several graduate students have also served as lead instructor for several of our introductory undergraduate courses.

## Map and Geography Library

The University Library has a substantial collection of geography books and journals. Most of the new and more recent books are located in the Social Sciences, Health, and Education Library (SSHEL); nearly all geography journals are available full-text through the University Library's website. The Map Library holds a collection of over 626,000 maps and aerial photographs. Additionally, the Map Library houses an extensive collection of books on cartography and geographic information science and the University Library's Scholarly Commons can help students locate and collect geospatial data.

### *for the degree of Master of Arts in Geography*

For additional details and requirements refer to the department's Graduate Programs (<http://www.geog.illinois.edu/students/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Geography, MA

Learning Outcomes for the degree of Master of Arts in Geography

1. All graduate students will have a fundamental understanding of the history and philosophies of geography in all its diversity and breadth.
2. All graduate students will have knowledge of the latest trends and developments in geography as social science, a discipline increasingly rooted in geographic information science, and physical science.
3. All graduate students will have a deep and nuanced comprehension of the latest conceptual developments in their selected research areas.
4. All graduate students will have the ability to formulate a research problem, know the proper conceptual tools and methods to appropriately address it, and properly place it in evolving, relevant literature.
5. All graduate students will have a strong knowledge of proper ethical conduct in the performance and completion of advanced research.

 Graduate College Admissions (<https://grad.illinois.edu/admissions/apply/>)

Successful degree candidates with backgrounds in physical geography or GIS are recommended for a Master of Science; others receive a Master of Arts.

## Graduate Degree Programs in Geography & Geographic Information Science

Geography, MA (p. 758)  
 Geography, MS (p. 759)

### concentrations:

Geographic Information Science - Professional Science Master's (p. 761)  
 Computational Science & Engineering (p. 1064)

Geography, PhD (p. 762)

### concentration:

Computational Science & Engineering (p. 1064)

We offer a program leading to the Master of Science degree in geography with the following specializations:

- **Cities, Space, and Society**  
 Urban health and quality of life; Urban governance and politics; Race, class, and city policing; Critical studies of urban transportation and mobilities; Global north and south; Neoliberalization
- **Geographic Information Science**  
 Geographic information systems; Dynamic modeling of ecological and social systems; Geocomputation and CyberGIS; Aerial photo analysis; Remote sensing; Inter-regional input-output modeling; Regional science; Spatial analysis
- **River, Watershed, and Landscape Dynamics**  
 Fluvial geomorphology; Watershed science and management; Aerial photo analysis; Ecosystem dynamics

## Admission

Students applying for admission to the master's program are expected to have a strong undergraduate background in geography and/or related disciplines. In addition to other Graduate College admission requirements, a grade point average of at least 3.0 (A = 4.0) in the undergraduate major is required. PhD candidates are generally expected to have at least a 3.5 average in previous graduate work. GRE scores are not required or evaluated for admission to our graduate programs.

## Assistantships and Fellowships

Geography graduate students are usually supported and receive tuition/fee waivers through teaching assistantships, research assistantships, or fellowships.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. We have implemented a professionalization program in our department, where graduate students work with faculty members to receive advice and gain first-hand experience in teaching undergraduate courses. Several of our graduate students have also had the opportunity to lead introductory Geography & GIS courses.

## Facilities and Resources

The department also includes several state-of-the-art research laboratories maintained by individual faculty members. The CyberInfrastructure and Geospatial Information (CIGI) Lab (<https://cigi.illinois.edu/>), housed in the department, researches and develops cutting-edge cyberinfrastructure to advance geospatial science and technologies. The department also sponsors the CyberGIS Center for Advanced Digital & Spatial Studies (<https://cybergis.illinois.edu/>) whose mission is to empower advanced digital and spatial studies through innovation of CyberGIS technologies and applications. The lab houses several high performance computers and servers for performing computationally intensive geographic analysis and problem solving in various research, education, and outreach contexts.

## Map and Geography Library

The University Library has a substantial collection of geography books and journals. Most of the new and more recent books are located in the Social Sciences, Health, and Education Library (SSHEL) (<https://www.library.illinois.edu/sshel/>); nearly all geography journals are available full-text through the University Library's website. The Map Library holds a collection of over 626,000 maps and aerial photographs. Additionally, the Map Library houses an extensive collection of books on cartography and geographic information science. Map Library and University Library Scholarly Commons (<https://www.library.illinois.edu/sc/>) staff can also help students locate geospatial data.

**Illinois Professional Science Master's**

This program is designed for careers in business management using geospatial technologies. Students build a flexible, cross-disciplinary expertise around a strong Geographic Information Science core, while acquiring business knowledge and professional skills. The business curriculum includes technology management, marketing, entrepreneurship, finance, project and/or process management. PSM students typically complete the program in 18 months consisting of 3 full-time, on-campus semesters and a summer internship. Graduates are awarded a master's degree in geography with the Professional Science Master's in GIS concentration.

### Admission

Candidates for admission must have a bachelor's degree from an accredited U.S. institution, or comparable degree from a recognized institution abroad with a GPA or 3.0 (4.0 scale) for the last 60 hours of undergraduate or graduate coursework. Application requirements include: three letters of recommendation, proof of funding, and TOEFL or IELTS scores for non-native English speakers. Transfer credit from Illinois or other institutions is not permitted. Please visit the "Graduate College Admissions" link above for complete application details. **GRE scores are not required or evaluated for admission to this program.**

### Financial Aid

Illinois PSM students may not hold assistantships or other tuition/fee waiver-generating appointments, but may be eligible for student loans and graduate hourly appointments. Statutory waivers and tuition scholarships are accepted.

**for the degree of Master of Science in Geography, Geographic Information Science – Professional Science Master's**

Other requirements may overlap.		
The PSM concentration is required.		
Minimum hours required within the unit:		16
Minimum 500-level credit hours (8 in GEOG):		12
Evaluation conducted by the GIS-PSM Director and/or members of the GIS-PSM committee		
Full-time enrollment (12 credit hours or higher) is required in fall and spring semesters; summer enrollment is required for the internship.		
Minimum GPA:		3.0

<sup>1</sup> Students with no previous experience in GIS are required to take a graduate-level GIS course.

## Learning Outcomes: Geography, PSM

Learning Outcomes for the degree of Master of Science (MS) in Geography, with Professional Science Master's in Geographic Information Science Concentration

- All PSM graduate students will have a firm understanding of the theories and applications of geographic information science and all its diversity and development trends.
- All PSM graduate students will have proficiency in at least one GIS toolbox and will have the technical skills for data manipulation, editing, and geospatial data visualization.
- All PSM graduate students will be able to effectively apply critical geospatial thinking to address real-world problems.
- All PSM graduate students will acquire foundational business knowledge and professional skills to work as a geospatial analyst in a pertinent professional team environment.
- All PSM graduate students will have a strong knowledge of proper ethical conduct in the context of developing and executing geospatial solutions.

## Geography, PhD

*for the degree of Doctor of Philosophy in Geography*

**Department Head: Dr. Shaowen Wang**  
**Director of Graduate Studies: Dr. Brian Jefferson**  
**website:** [ggis.illinois.edu](http://www.geog.illinois.edu/) (<http://www.geog.illinois.edu/>)  
**email:** [geography@illinois.edu](mailto:geography@illinois.edu)  
**phone:** (217) 333-1880  
**Office address:**  
**2044 Natural History Building**  
**1301 W. Green Street**  
**Urbana, IL 61801**

College of LAS website (<https://LAS.illinois.edu/>)  
 Graduate College Admissions (<https://grad.illinois.edu/admissions/apply/>)

Students must complete the course requirements as determined by their individually planned program, initiate and complete research projects, and qualify for candidacy by passing the departmental qualifying and preliminary examinations. Although we don't have a foreign language requirement, students may study a foreign language as a research tool.

## Graduate Degree Programs in Geography & Geographic Information Science

Geography, MA (p. 758)  
 Geography, MS (p. 759)

### concentrations:

Geographic Information Science - Professional Science Master's (p. 761)

Computational Science & Engineering (p. 1064)

Geography, PhD (p. 762)

### concentration:

Computational Science & Engineering (p. 1064)

We offer a program leading to the Doctor of Philosophy degree in geography with the following specializations:

- **Cities, Space, and Society**

Urban health and quality of life; Urban governance and politics; Race, class, and city policing; Critical studies of urban transportation and mobilities; Global north and south; Neoliberalization

- **Geographic Information Science**

Geographic information systems; Dynamic modeling of ecological and social systems; Geocomputation and CyberGIS; Aerial photo

analysis; Remote sensing; Inter-regional input-output modeling; Regional science; Spatial analysis

**• River, Watershed, and Landscape Dynamics**

Fluvial geomorphology; Watershed science and management; Aerial photo analysis; Ecosystem dynamics

**Admission**

Students applying for admission to the master's program are expected to have a strong undergraduate background in geography and/or related disciplines. In addition to other Graduate College admission requirements, a grade point average of at least 3.0 (A = 4.0) in the undergraduate major is required. PhD candidates are generally expected to have at least a 3.5 average in previous graduate work. GRE scores are not required or evaluated for admission to our graduate programs.

**Assistantships and Fellowships**

Geography graduate students are usually supported and receive tuition/fee waivers through teaching assistantships, research assistantships, or fellowships.

**Graduate Teaching Experience**

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. We have implemented a professionalization program in our department, where graduate students work with faculty members to receive advice and gain first-hand experience in teaching undergraduate courses. Several of our graduate students have also had the opportunity to lead introductory Geography & GIS courses.

**Facilities and Resources**

The department also includes several state-of-the-art research laboratories maintained by individual faculty members. The CyberInfrastructure and Geospatial Information (CIGI) Lab (<https://cigi.illinois.edu/>), housed in the department, researches and develops cutting-edge cyberinfrastructure to advance geospatial science and technologies. The department also sponsors the CyberGIS Center for Advanced Digital & Spatial Studies (<https://cybergis.illinois.edu/>) whose mission is to empower advanced digital and spatial studies through innovation of CyberGIS technologies and applications. The lab houses several high performance computers and servers for performing computationally intensive geographic analysis and problem solving in various research, education, and outreach contexts.

**Map and Geography Library**

The University Library has a substantial collection of geography books and journals. Most of the new and more recent books are located in the Social Sciences, Health, and Education Library (SSHEL) (<https://www.library.illinois.edu/sshel/>); nearly all geography journals are available full-text through the University Library's website. The Map Library holds a collection of over 626,000 maps and aerial photographs. Additionally, the Map Library houses an extensive collection of books on cartography and geographic information science. Map Library and University Library Scholarly Commons (<https://www.library.illinois.edu/sc/>) staff can also help students locate geospatial data.

**for the degree of Doctor of Philosophy in Geography**

For additional details and requirements refer to the department's Graduate Programs (<http://www.geog.illinois.edu/>

[grad/](http://www.grad.illinois.edu/gradhandbook/)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**Entering with approved M.S./M.A. degree**

Minimum 500-level Hours Required Overall:	12 (8 in Geog)
Must complete a major research paper of publishable quality approved by the student's advisory committee.	
Qualifying Exam Required	Yes
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes

Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Learning Outcomes: Geography, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Geography

1. All graduate students will have a fundamental understanding of the history and philosophies of geography in all its diversity and breadth.
2. All graduate students will have knowledge of the latest trends and developments in geography as social science, a discipline increasingly rooted in geographic information science, and physical science.
3. All graduate students will have a deep and nuanced comprehension of the latest conceptual developments in their selected research areas.
4. All graduate students will have the ability to formulate a research problem, know the proper conceptual tools and methods to appropriately address it, and properly place it in evolving, relevant literature.
5. All graduate students will have a strong knowledge of proper ethical conduct in the performance and completion of advanced research.

## Geology, MS

*for the degree of Master of Science in Geology*

**head of department:** Thomas Johnson  
**director of graduate studies:** Lijun Liu  
**department website:** <https://www.geology.illinois.edu/> (<http://www.geology.illinois.edu/>)  
**college website:** <https://las.illinois.edu/>  
**overview of graduate college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**department contact:** Lana Holben  
**department office:** 3028 Natural History Building, 1301 W. Green Street, Urbana, IL 61801  
**phone:** (217) 333-3540  
**email:** [holben@illinois.edu](mailto:holben@illinois.edu)

Students in the Master of Science program can follow the "standard" (or thesis) option or the "applied geology" (or non-thesis) option. The non-thesis option is intended as a terminal degree for students preparing for professional work in environmental and engineering geology or in applied geophysics and who have already been admitted to the program. We do not currently accept new students for the non-thesis master's degree. Admitted students must declare their intent to pursue the non-thesis option at least one semester prior to completing degree requirements.

### Graduate Degree Programs in Geology

Geology, MS (p. 764)  
 Geology, PhD (p. 765)

The Department of Geology offers programs leading to the Master of Science in Geology and the Doctor of Philosophy in Geology. Students have a wide variety of choices in their courses and research programs. Departmental research programs include many aspects of geology, geochemistry, and geophysics.

### Admission

The admission requirements of the Graduate College apply. In addition, scores for the aptitude test of the Graduate Record Examination (GRE) are required for admission to graduate work in geology, as well as completion of at least one year each of study in college-level calculus, chemistry, and physics. For more information, write to the department contact. Under special circumstances, students can be admitted at the beginning of the spring term.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

### Financial Aid

Candidates for graduate degrees are usually supported through fellowships, research assistantships, teaching assistantships, or work-study programs. Fellowships and assistantships include tuition and service fee waivers. Awards for financial assistance are based principally on a candidate's academic record, statement of plans, and letters of reference. Continuation of financial aid depends on student performance and, in the case of teaching assistants, on the receipt of good evaluations. Some assistants are appointed by the State Geological Survey located on campus.

*for the degree of Master of Science in Geology*

Students in the Master of Science program can follow the "standard" (or thesis) option or the "applied geology" (or non-thesis) option. The non-thesis option is intended as a terminal degree for students preparing for professional work in environmental and engineering geology or in applied geophysics and who have already been admitted to the program. We do not currently accept new students for the non-thesis master's degree. Admitted students must declare their intent to pursue the non-thesis option at least one semester prior to completing degree requirements.

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum Hours Overall Required Within the Unit:	12
Minimum 500-level Hours Required Overall:	12
Requires a written report	
400 level coursework is limited to 8 hours required in any of the options of the undergraduate curriculum in geology and geophysics at Urbana-Champaign	
All students must maintain a minimum grade point average (GPA) of 3.0 (A = 4.0). If the GPA falls below this minimum after 12 or more graduate hours of graded coursework, it must be raised to 3.0 or above after the completion of 12 additional graduate hours of graded coursework and must be maintained at or above the minimum thereafter.	

## Learning Outcomes: Geology, MS

Learning Outcomes for the degree of Master of Science in Geology

- All graduate students will have a broad understanding of basic foundational theories and phenomena that describe the makeup and functioning of the Earth, across the fields of geology and geophysics. Students should have mastered all areas at the level of GEOL 107 and 208, and should have mastered areas close to their area of specialty at the level of the core classes (e.g., 400-level) of our undergraduate curriculum.
- All graduate students will have a high level of expertise (beyond the level of our undergraduate program) in their specialized research area within geoscience and any related sciences, and the ability to apply this expertise, along with theoretical and technical skills, to address new scientific questions in that area.

- All graduate students will have knowledge of the recent development of their specialized area of research and current major research directions and questions.
- Ph.D. students will have mastery of their specialized area of research and the ability to identify new research directions that will advance the area of research.
- All graduate students will have the ability to work independently to develop a research project and creatively answer the questions central to the project.
- Ph.D. students will have the ability to identify and formulate a research problem, demonstrate the value of its solution in advancing knowledge, and develop a creative approach toward solving that problem.
- All graduate students will have ethically responsible and effective communication skills, written and verbal, at a professional scientific level.

Ph.D. students are evaluated by three oral examinations: a qualifying examination, a preliminary examination, and a final examination. The qualifying examination tests breadth of knowledge as well as the ability to define and defend a research proposal in a specialized field at an early stage of graduate study. The preliminary examination tests advanced knowledge in a specialized field and the ability to define and defend a Ph.D. dissertation proposal. The final examination tests the ability to complete and defend Ph.D. dissertation research.

## Learning Outcomes: Geology, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Geology

- All graduate students will have a broad understanding of basic foundational theories and phenomena that describe the makeup and functioning of the Earth, across the fields of geology and geophysics. Students should have mastered all areas at the level of GEOL 107 and 208, and should have mastered areas close to their area of specialty at the level of the core classes (e.g., 400-level) of our undergraduate curriculum.

- All graduate students will have a high level of expertise (beyond the level of our undergraduate program) in their specialized research area within geoscience and any related sciences, and the ability to apply this expertise, along with theoretical and technical skills, to address new scientific questions in that area.
- All graduate students will have knowledge of the recent development of their specialized area of research and current major research directions and questions.
- Ph.D. students will have mastery of their specialized area of research and the ability to identify new research directions that will advance the area of research.
- All graduate students will have the ability to work independently to develop a research project and creatively answer the questions central to the project.
- Ph.D. students will have the ability to identify and formulate a research problem, demonstrate the value of its solution in advancing knowledge, and develop a creative approach toward solving that problem.
- All graduate students will have ethically responsible and effective communication skills, written and verbal, at a professional scientific level.

## German, MA

### *for the degree of Master of Arts in German*

**acting head of department:** Laurie Johnson

**director of graduate studies:** Anke Pinkert

**department website:** <http://www.germanic.illinois.edu>

**college website:** <https://las.illinois.edu/>

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**overview of college admissions & requirements:**

**department office:** 2090 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801

**phone:** (217) 333-2020

**email:** [germanic@illinois.edu](mailto:germanic@illinois.edu)

## Graduate Degree Programs in Germanic Languages & Literatures

German, MA (p. 767)

**concentration:**

Medieval Studies (p. 1076)

German, PhD (p. 769)

**concentration:**

Medieval Studies (p. 1076) | Second Language Acquisition & Teacher Education (p. 1080)

The Department of Germanic Languages and Literatures offers graduate programs leading to the degrees of Master of Arts in German, and Doctor of Philosophy in German. Students in the department may choose an additional specialization in Cultural Studies and Interpretive Research (<http://www.germanic.illinois.edu/graduate/>) or a concentration in Medieval Studies. Candidates for the Ph.D. in German may additionally obtain a certificate in Second Language Acquisition and Teacher Education (<http://www.slate.uiuc.edu/>) (SLATE Certificate).

## Admission

Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a

statement of purpose, three letters of recommendation and a sample of their written work in English or German or both. For admission to the Master of Arts program, the writing sample might be a term paper, and for admission to the doctoral level, a master's thesis or seminar paper. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
3070 Foreign Languages Bldg.  
707 S. Mathews Ave.  
Urbana, IL 61801

Graduate Record Examination (GRE) scores are required. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and all students teach. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Research Interests

The department faculty includes nationally and internationally recognized scholars in all areas of research within the field, from older and modern German language, literature, and culture to Scandinavian languages, literatures and cultures. Some of the current research areas of faculty encompass (but are not limited to) Arctic Studies, Literature and Music, Literature and Medicine, Migration and Multilingualism, Film and Visual Studies, Digital Humanities, Memory Studies, and Intersectional Studies of Race, Gender, and Sexuality. We offer courses on topics in German and Scandinavian languages, literatures, and cultures across all periods, including historical and synchronic Germanic linguistics, and German language pedagogy. The University Library has one of the nation's outstanding collections of works pertaining to study and research in Germanic literatures of all periods and in Germanic and general linguistics.

## Financial Aid

All students accepted into the program have financial support, usually in the form of a Teaching Assistantship (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

The department has contacts with a variety of universities and institutions in German-speaking countries; these cooperative endeavors also include arrangements for graduate students to study and teach abroad.

For continuing graduate students, the awarding of financial aid of all types is contingent upon making satisfactory progress toward a degree.

### *for the degree of Master of Arts in German*

Applicants should have completed undergraduate studies similar to the concentration in German at the University of Illinois at Urbana-

Champaign, have a grade point average of 3.0 (A = 4.0) for the last 60 hours of undergraduate coursework, and be able to follow lectures in the German language. Acquaintance with German history and culture in their relation to the general European background is desirable. Admission to the program is on a competitive basis.

Candidates for the Master of Arts degree may emphasize either German literature or linguistics. All candidates must take courses in both literature and linguistics.

## Thesis Option

Code	Title	Hours
GER 510	Introduction to Graduate Study	4
GER 515	Middle High German	4
	or GER 520 History of the German Language	
	A 500 level course (not including GER 593) in German literature before 1800	4
	A 500 level course (not including GER 593) in German literature after 1800	4
	Electives within or outside of the department with advisor's approval	12
Language Requirement: proficiency in reading one language other than English and German.		
GER 599	Thesis Research	4
Total Hours		32

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum Hours Overall Required	24
Within the Unit:	
Minimum 500-level Hours Required	12
Overall:	
Deficiencies in undergraduate preparation may necessitate more than 32 graduate hours to meet the requirements	
Written and oral examinations	
Minimum GPA:	3.0

## Learning Outcomes: German, MA

Learning Outcomes for the degree of Master of Arts in German

- 1. Disciplinary knowledge, both factual and analytical.** Ours is a very comprehensive graduate program in literature and culture of all periods, visual studies, and linguistics, in which we apply theoretical, digital, and historiographic methods and approaches. We require that students situate their disciplinary knowledge within an interdisciplinary and multicultural context. Graduates will have comprehensive factual knowledge of German literary-cultural periods, movements, authors, and linguistics, as well as the ability to use contemporary tools of analysis. They are able to position themselves within scholarly discourses: broadly at the M.A. level, and, at the Ph.D. level, within their specialties. They express this ability in writing and oral presentation (see outcomes #2 and #4). The program's foundational course (GER 510) covers learning to conduct research in a tier-one research library, techniques of literary analysis and critical approaches, conventions of scholarly writing, use of bibliographic tools, and learning about the profession. Each subsequent course in the program deepens this knowledge and is designed for students to familiarize themselves with methods of systematic literary study that can yield original findings and practice oral and written scholarly communication.
- 2. Research and writing expertise.** Students are familiar with fundamental research tools in the humanities as well as tools specific to the study of German literature, culture, and linguistics. They can sustain a nuanced argument in academic writing and can produce well-written academic texts in English and in German. In their writing, they display an awareness of the audience and an understanding of how textual choices reflect coherent argumentation. Students know how to conduct research and understand the value of multiple-draft writing. They know how to use proper citation, how to evaluate print and online sources, and they understand and avoid plagiarism. Our students are thoroughly trained in theoretical, historical, and comparative methodologies of research and writing. From the

start, students learn scholarly conventions, especially for footnotes and bibliography, including intensive library workshops to become acquainted with key research resources. Students learn and model critical approaches to a literary text through close readings, analysis, and interpretation of key passages in online posts, class presentations, and informal and formal writing; and students learn to develop several possible approaches to literary interpretation and criticism.

3. **Teaching preparedness and praxis.** Our graduate students participate in a thorough teacher-training program that includes a graduate seminar on teaching methodologies and approaches (GER 582), which trains students in pedagogical best practices as well as in current topics of interest in the field. Students receive ongoing, consistent mentorship from the Director of the Basic Language Program as well as from all faculty members, through a structured system of classroom observations and discussions. They teach across the curriculum, in German, and in English; they teach language as well as literature/culture courses. Students are acquainted with leading language teaching and learning theories, and consider the relationship of those theories to pedagogy. They understand the curricular and institutional contexts within which teaching and learning take place. Their German skills are at a near-native level, commensurate with the demands of the language classroom; in courses taught in English, our students are able to teach writing and argumentation at a very advanced level. Students leave our program ready to teach in any type of German curriculum or institutional context.
4. **Professional development.** Our students are able to submit and present conference papers successfully; they receive guidance in essential conference behavior, including acting as a respondent and handling question-answer sessions. They gain experience in presenting research by participating in our department lecture forum. They can write abstracts, apply for grants, and are aware of the relevant professional organizations and the advantages of membership. They receive training in professional ethics. They are mentored in preparation for the academic and non-academic job market and in interviewing for a variety of positions. Their German and English language skills are excellent. Ability in German is supported by participation in departmental exchange programs and help with grant applications to spend time researching and/or teaching in German-speaking countries. In the program's foundational course GER 510, students study the ethics of the profession, and they learn about the profession by writing a professional email, web page content, a CV, MA/PhD reading lists, a grant application, and a conference abstract.
5. **Mobility and academic exchange.** Students all have substantial experience abroad. They gain this experience by participating in one of our departmental exchanges with German universities and/or by spending time in a German-speaking country conducting research with the support of an external grant (e.g., Fulbright, German Academic Exchange Service). The faculty mentors students through the process of writing grant applications. Our exchanges are bidirectional—we host students here and send them abroad, which means that the graduate students here in Illinois have consistent opportunities to interact with German-speaking visitors.

### Graduate Degree Programs in Germanic Languages & Literatures

German, MA (p. 767)

**concentration:**

Medieval Studies (p. 1076)

German, PhD (p. 769)

**concentration:**

Medieval Studies (p. 1076)|Second Language Acquisition & Teacher Education (p. 1080)

The Department of Germanic Languages and Literatures offers graduate programs leading to the degrees of Master of Arts in German, and Doctor of Philosophy in German. Students in the department may choose an additional specialization in Cultural Studies and Interpretive Research (<http://www.germanic.illinois.edu/graduate/>) or a concentration in Medieval Studies. Candidates for the Ph.D. in German may additionally obtain a certificate in Second Language Acquisition and Teacher Education (<http://www.slate.uiuc.edu/>) (SLATE Certificate).

---

### Admission

Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a statement of purpose, three letters of recommendation and a sample of their written work in English or German or both. For admission to the Master of Arts program, the writing sample might be a term paper, and for admission to the doctoral level, a master's thesis or seminar paper. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
 3070 Foreign Languages Bldg.  
 707 S. Mathews Ave.  
 Urbana, IL 61801

Graduate Record Examination (GRE) scores are required. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and all students teach. Non-native English speakers must first pass a test of their oral English

ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Research Interests

The department faculty includes nationally and internationally recognized scholars in all areas of research within the field, from older and modern German language, literature, and culture to Scandinavian languages, literatures and cultures. Some of the current research areas of faculty encompass (but are not limited to) Arctic Studies, Literature and Music, Literature and Medicine, Migration and Multilingualism, Film and Visual Studies, Digital Humanities, Memory Studies, and Intersectional Studies of Race, Gender, and Sexuality. We offer courses on topics in German and Scandinavian languages, literatures, and cultures across all periods, including historical and synchronic Germanic linguistics, and German language pedagogy. The University Library has one of the nation's outstanding collections of works pertaining to study and research in Germanic literatures of all periods and in Germanic and general linguistics.

## Financial Aid

All students accepted into the program have financial support, usually in the form of a Teaching Assistantship (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

The department has contacts with a variety of universities and institutions in German-speaking countries; these cooperative endeavors also include arrangements for graduate students to study and teach abroad.

For continuing graduate students, the awarding of financial aid of all types is contingent upon making satisfactory progress toward a degree.

### *for the degree of Doctor of Philosophy in German*

Applicants must meet the admission standards outlined for the Master of Arts and, in addition, hold a Master of Arts in German (or equivalent) with a graduate grade point average of 3.5 (A = 4.0). Admission to the program is on a competitive basis.

Candidates for the Ph.D. in German may specialize in older German literature, modern German literature, Germanic linguistics, or Scandinavian literature.

Students working toward the Ph.D. degree must have completed all requirements for the Master of Arts degree given above and must complete an additional 40 graduate hours of coursework approved by the graduate adviser. At least 32 graduate hours must be for courses in Germanic Languages and Literatures. No more than 8 hours of credit in 400 level courses beyond those presented for the M.A. will be counted toward these ten units. The 40 hours may include up to 4 hours of GER 593, but may not include any credit for GER 496 for work taken as independent study. Residence requirements are those of the Graduate College.

Code	Title	Hours
	One course in German or Scandinavian literature before 1500	4
	One course in German literature since 1500	4
	One course in German, Germanic, or Scandinavian linguistics	4
GER 582	German Language Teaching	4

GER 515 & GER 520	Middle High German and History of the German Language (unless completed during masters)	8
Course work electives at the 500 level (to total 40)		
GER 593	Research in Special Topics (4 max hours applied toward degree)	0-4
Language Requirement: a reading knowledge of two research languages other than English and German		
GER 599	Thesis Research (min/max applied toward degree)	12-32
Total Hours		68-72

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Credit in GER 496 will not count toward degree requirements	
Teaching of elementary or intermediate German (at least one half-time appointment as teaching assistant for one academic year).	
Minimum Hours Required in the Unit:	32 (not including GER 599)
Minimum 500-level Hours Required Overall:	72
Masters Degree Required for Admission to PhD?	Yes
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Website (<http://www.germanic.illinois.edu/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: German, PhD

Learning Outcomes for the degree of Doctor of Philosophy in German

- 1. Disciplinary knowledge, both factual and analytical.** Ours is a very comprehensive graduate program in literature and culture of all periods, visual studies, and linguistics, in which we apply theoretical, digital, and historiographic methods and approaches. We require that students situate their disciplinary knowledge within an interdisciplinary and multicultural context. Graduates will have comprehensive factual knowledge of German literary-cultural periods, movements, authors, and linguistics, as well as the ability to use contemporary tools of analysis. They are able to position themselves within scholarly discourses: broadly at the M.A. level, and, at the Ph.D. level, within their specialties. They express this ability in writing and oral presentation (see outcomes #2 and #4). The program's foundational course (GER 510) covers learning to conduct research in a tier-one research library, techniques of literary analysis and critical

approaches, conventions of scholarly writing, use of bibliographic tools, and learning about the profession. Each subsequent course in the program deepens this knowledge and is designed for students to familiarize themselves with methods of systematic literary study that can yield original findings and practice oral and written scholarly communication.

2. **Research and writing expertise.** Students are familiar with fundamental research tools in the humanities as well as tools specific to the study of German literature, culture, and linguistics. They can sustain a nuanced argument in academic writing and can produce well-written academic texts in English and in German. In their writing, they display an awareness of the audience and an understanding of how textual choices reflect coherent argumentation. Students know how to conduct research and understand the value of multiple-draft writing. They know how to use proper citation, how to evaluate print and online sources, and they understand and avoid plagiarism. Our students are thoroughly trained in theoretical, historical, and comparative methodologies of research and writing. From the start, students learn scholarly conventions, especially for footnotes and bibliography, including intensive library workshops to become acquainted with key research resources. Students learn and model critical approaches to a literary text through close readings, analysis, and interpretation of key passages in online posts, class presentations, and informal and formal writing; and students learn to develop several possible approaches to literary interpretation and criticism.
3. **Teaching preparedness and praxis.** Our graduate students participate in a thorough teacher-training program that includes a graduate seminar on teaching methodologies and approaches (GER 582), which trains students in pedagogical best practices as well as in current topics of interest in the field. Students receive ongoing, consistent mentorship from the Director of the Basic Language Program as well as from all faculty members, through a structured system of classroom observations and discussions. They teach across the curriculum, in German, and in English; they teach language as well as literature/culture courses. Students are acquainted with leading language teaching and learning theories, and consider the relationship of those theories to pedagogy. They understand the curricular and institutional contexts within which teaching and learning take place. Their German skills are at a near-native level, commensurate with the demands of the language classroom; in courses taught in English, our students are able to teach writing and argumentation at a very advanced level. Students leave our program ready to teach in any type of German curriculum or institutional context.
4. **Professional development.** Our students are able to submit and present conference papers successfully; they receive guidance in essential conference behavior, including acting as a respondent and handling question-answer sessions. They gain experience in presenting research by participating in our department lecture forum. They can write abstracts, apply for grants, and are aware of the relevant professional organizations and the advantages of membership. They receive training in professional ethics. They are mentored in preparation for the academic and non-academic job market and in interviewing for a variety of positions. Their German and English language skills are excellent. Ability in German is supported by participation in departmental exchange programs and help with grant applications to spend time researching and/or teaching in German-speaking countries. In the program's foundational course GER 510, students study the ethics of the profession, and they learn about the profession by writing a professional email, web

page content, a CV, MA/PhD reading lists, a grant application, and a conference abstract.

5. **Mobility and academic exchange.** Students all have substantial experience abroad. They gain this experience by participating in one of our departmental exchanges with German universities and/or by spending time in a German-speaking country conducting research with the support of an external grant (e.g., Fulbright, German Academic Exchange Service). The faculty mentors students through the process of writing grant applications. Our exchanges are bidirectional—we host students here and send them abroad, which means that the graduate students here in Illinois have consistent opportunities to interact with German-speaking visitors.

---

The Master of Science in Health Administration program is designed to prepare graduate students to become successful healthcare managers and administrators. Students will gain the knowledge and skills necessary to manage the complex United States healthcare system efficiently and effectively.

Our mission is: Preparing future leaders in healthcare to improve health systems through effective management.

Our vision is: To be nationally recognized for producing top leaders in healthcare management.

Our values: Professionalism Respect Inclusive Distinguished Excellence

---

The Master of Science in Health Administration program seeks students with a 3.0 GPA or higher from their bachelor's degree and completion of GRE prior to application. Generally the degree is completed in two years, depending upon prior education and experience. No undergraduate courses will satisfy courses for both an undergraduate and master's degree (i.e. "double dipping"). Students entering the program are encouraged to have completed undergraduate coursework in health, health administration, and other business related courses with all majors accepted.

---

### for the degree of Master of Science Major in Health Administration

The Master of Science in Health Administration program requires completion of 48 hours of coursework including an internship. The courses are intended to provide overall knowledge of the United States healthcare system while promoting student's flexibility in selecting electives. The thesis option provides students the opportunity to study a section of the healthcare system more thoroughly through in-depth research.

A student may choose to write an acceptable thesis for 4 hours of credit (i.e., Community Health 599) or select a non-thesis option by substituting 4 hours of credit (i.e., approved credit that includes 4 hours of Community Health 593 (Independent Study)). The independent study is a practical application project in conjunction with the student's internship experience.

## Health Communication, MS

for the degree of Master of Science in Health Communication (on campus & online)

**chair of department:** John Caughlin

**director of graduate studies:** Leanne Knobloch

**department website:** <http://communication.illinois.edu>

**college website:** <https://las.illinois.edu/>

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**overview of department admissions & requirements:** Web site (<https://hcom.illinois.edu/admissions/>)

**department office:** 3001 Lincoln Hall, 702 S. Wright Street, Urbana, IL 61801

**phone:** (217) 333-2683

**email:** [communication@illinois.edu](mailto:communication@illinois.edu)

The Department of Communication offers an online Master of Science degree (M.S.) in Health Communication. This program is not offered in a face to face format. Apply to the Master of Science program only; applications to the online Master of Arts in Communication are not being accepted. More information about the online program is available at [www.hcom.illinois.edu](http://www.hcom.illinois.edu) (<http://www.hcom.illinois.edu/>).

### Graduate Degree Programs in Communication

Communication, MA (p. 646)

**concentration:**

Medieval Studies (p. 1076)

Health Communication, MS (p. 772) (on campus & online)

**concentration:**

Medieval Studies (p. 1076)

Communication, PhD (p. 647)

**concentration:**

Medieval Studies (p. 1076)|Second Language Acquisition & Teacher Education (p. 1080)|Writing Studies Concentration (p. 1084)

The Department of Communication offers a broad curriculum in communication research. In consultation with an advisor, students assemble individualized programs, concentrating in organizational and group communication, interpersonal and family communication, health communication, communication technology, political communication, rhetoric and public discourse, communication in cultural contexts, or mass communication. Interdisciplinary programs are also encouraged.

### Admission

An application must include official transcripts from every post-secondary institution the applicant has attended; scores on the general aptitude parts of the Graduate Record Examination (GRE); at least three letters of recommendation, preferably from academic recommenders; a major paper or essay as a sample of academic writing; and a statement of purpose. Students whose native language is not English must present their official scores on the Test of English as a Foreign Language (TOEFL) examination as part of their applications. The department follows the Graduate College's recommendations for English proficiency. Detailed information about admissions and financial aid can be found on the department's Web site (<https://communication.illinois.edu/admissions/apply-graduate-program/>). Ordinarily, students are admitted to begin graduate study in the fall semester.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Financial Aid

Financial aid is usually offered in the form of part-time teaching assistantships; some fellowships and research assistantships are available.

### *for the degree of Master of Science in Health Communication*

The Department of Communication offers an online Master of Science degree (M.S.) in Health Communication. This program is not offered in a face to face format. Apply to the Master of Science program only; applications to the online Master of Arts in Communication are not being accepted. More information about the online program is available at [www.hcom.illinois.edu](http://www.hcom.illinois.edu) (<http://www.hcom.illinois.edu/>).

*For additional details and requirements refer to the department's Graduate Programs (<http://www.communication.illinois.edu/prospective/grad/degrees/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

## Learning Outcomes: Health Communication, MS

Learning Outcomes for the degree of Master of Science in Health Communication (on-campus & online)

Students who complete the Health Communication program

1. Understand the role of communication processes in the reception and delivery of health care services and information. They learn that communication is not only the transmission of messages but also the interaction between humans and non-human technologies in the creation of practical understandings of health processes.
2. Are able to read and digest qualitative and quantitative research concerning health care services in order to assist practitioners and

patients in the most effective delivery of health care messages and information.

3. Are able to identify the effectiveness and limitations of persuasion strategies used to inform and influence audience's adoption of health care information and behaviors. This outcome includes dedicated health campaigns as well as the influence of media on health behaviors and beliefs.
4. Are familiar with interpersonal communication behaviors in health care settings as well as in private and public life that lead to or prevent the adoption of healthy behaviors. This outcome includes social support and health outcomes, patient-provider communication as well as family and support group communication related to health.
5. Are familiar with the organizational setting in which health communication takes place, particularly with reference to inter-professional communication, managerial communication, and the policies that guide health care services.6....are able to recognize the role of theory in understanding health communication processes and successfully utilize theoretical frameworks to explain breakdowns in health communication and propose methods for repairing communication problems in interpersonal, organizational and social/mediated fields.

## Health Technology, MS

*for the Master of Science in Health Technology*

**Department Head: Kim Graber**  
**Director of Graduate Studies: John Kosciulek**  
**Director of Program: Wendy Rogers**  
**Graduate Office: Julie Jenkins**  
**Graduate Office Address: 906 South Goodwin Ave, 112 Freer Hall MC-052, Urbana, IL 61801**  
**Graduate Phone: (217) 333-1083**  
**Graduate Email: [jjenkins@illinois.edu](mailto:jjenkins@illinois.edu)**  
**Department Website: <https://ahs.illinois.edu/community-health> (<https://ahs.illinois.edu/community-health/>)**  
**Program Website: <https://ahs.illinois.edu/ht-overview> (<https://ahs.illinois.edu/ht-overview/>)**  
**Program Questions: [healthtech@illinois.edu](mailto:healthtech@illinois.edu)**

The MS in Health Technology is designed to educate the next generation of Health Technology Professionals in the development, testing, and use of new consumer-facing technologies that promote health, rehabilitation, mitigate disability, and improve independence and quality of life. This includes bringing end-users (e.g., individuals with chronic conditions, older adults, persons with disabilities), industry professionals, and applied health professionals together with Illinois students and faculty in a multidisciplinary and inter-generational environment to identify existing problems and develop technologies to solve them.

### **Graduate Degree Programs in Applied Health Sciences** Health Technology, MS (p. 773)

### Admissions

Students should have an undergraduate degree in a health or science related field or engineering. Applicants should have a minimum grade point average of 3.00 (A = 4.00) or equivalent for the last two years of undergraduate study and show evidence of strong quantitative skills and of serious interest in health technology through their personal statement.

Students with less than a 3.0 GPA may be considered for a limited status admission.

Program prerequisites\* or equivalents include:

**Introduction to Computer Science (CS 125 or 105)**  
**Introduction to Statistics (CHLH 244)**  
**Introduction to Psychology (PSYC 100)**  
**Intro to Public Health (CHLH 100)**  
**Linear Algebra (MATH 125, or 225, 410, 415)**  
**Research Methods (CHLH 201)**

\*Promising students might be admitted with a contingency that they complete the prerequisites before the start of the first semester.

All applicants must submit GRE scores.

All applicants whose native language is not English must submit a minimum TOEFL score of 103 (iBT), 254 (CBT), or 611 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 7.0 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria are met. Applicants with lesser scores may still apply. Limited status is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Financial Aid

Students in the MS in Health Technology program are not eligible for tuition-waiver generating assistantships. Students may apply for scholarships available through the University.

## History, MA

*for the degree of Master of Arts in History*

**chair of department:** Dana Rabin  
**director of graduate studies:** Carol Symes  
**department website:** <http://www.history.illinois.edu>  
**department faculty:**  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)  
**college website:** <https://las.illinois.edu/>  
**department office:** 309 Gregory Hall, 810 South Wright Street, Urbana, IL 61801  
**phone:** (217) 244-2591  
**email:** [history@illinois.edu](mailto:history@illinois.edu)

Students enrolled in the Ph.D. program can usually petition to earn a Master of Arts in History within three semesters.

## Graduate Degree Programs in History

History, MA (p. 774)

**optional concentrations:**

African American Studies (p. 1051)|Medieval Studies (p. 1076)

History, PhD (p. 774)

**optional concentrations:**

African American Studies (p. 1051)|Medieval Studies (p. 1076)

**Teaching of Social Studies, MA**

**Joint degree:**

History, MA and Library & Information Science, MS (p. 1117)

The Department of History offers graduate courses leading to the Doctor of Philosophy degree, complete details of which may be found in the Graduate Studies section of the department's web site. Students are not normally admitted to a terminal master's degree program.

## Admission

Applicants should have a minimum of 20 semester hours of undergraduate work in history and cognate disciplines with an overall GPA of 3.25 in the last two years. Applicants who have a master's degree should have a grade point average of 3.5 for previous graduate-level work. All applicants are required to submit Graduate Record Examination (GRE) scores (verbal, writing, and quantitative are mandatory; history is optional). All applicants are required to submit a writing sample. Language preparation may be weighted heavily, depending upon the field of specialization. Foreign students whose native language is not English need a paper-based Test of English as a Foreign Language (TOEFL) score of at least 600 (250 on the computer-based test). Most successful applicants have GRE verbal scores of over 80% and/or TOEFL scores of over 630 (260 computer). Only in exceptional circumstances are students admitted for the spring term. The department is not currently admitting to the Teaching of Social Studies program. For additional details refer to [www.history.illinois.edu/graduate/prospective/](http://www.history.illinois.edu/graduate/prospective/) (<http://www.history.illinois.edu/graduate/prospective/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Facilities and Resources

The extraordinary University Library is the department's main research facility; within it, the History, Philosophy & Newspaper Library, the Rare Book Room, and the area studies libraries (Slavic, Africana, Latin American, Asian Libraries) all serve faculty and students with expert bibliographers and focused collections. Among other special collections much used by historians are Afro-Americana and Women's Studies; the library is also a major repository for government documents.

## Financial Aid

Financial aid is almost always awarded on an academic-year basis. Applications by incoming students are considered with admission applications. All fellowships and assistantships include a stipend plus tuition and service fee waiver.

Both University and department endowment fellowships are available to entering students and to advanced doctoral students embarked on their research or the writing of their dissertations. Foreign Language and Area Studies (FLAS) Fellowships may support first- and second-year students who have special interests in foreign area studies. Entering students from underrepresented groups may be awarded one- to three-year Graduate College Fellowships. The Illinois Consortium for Educational Opportunity Program (ICEOP) offers renewable fellowships to underrepresented minority students who are Illinois residents and plan academic careers within the state. Half-time teaching assistantships are the department's primary form of financial aid for graduate students in the Ph.D. program. Students who progress satisfactorily toward their degrees and demonstrate effective teaching will have their teaching assistantships renewed for a second, and usually a third, year.

## for the degree of Master of Arts in History

## Thesis Option

Code	Title	Hours
HIST 598	(2 hours per term) is required of candidates who hold teaching assistantships, during each semester they hold an appointment	
HIST 593 & HIST 594	Approaches to History and Intro Historical Writing	8
	Two additional 500-level courses in history	8
	Two courses in each of two of the fields of specialization offered by the department.	16
	Language Requirement: candidate must demonstrate ability to read one foreign language related to his or her field of interest as approved by the graduate advisers	
HIST 599	Thesis Research (8 max applied toward degree)	8
Total Hours		32

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required	16
Overall:	
At least one research seminar (HIST 596) with a grade of B or better must be included.	

Students may take up to two of the required eight courses in departments other than History, if approved.

Minimum GPA: 3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate degree requirements (<http://www.history.illinois.edu/graduate/current/requirements/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Non-Thesis Option

## Graduate Degree Programs in History

History, MA (p. 774)

**optional concentrations:**

African American Studies (p. 1051)|Medieval Studies (p. 1076)

History, PhD (p. 774)

**optional concentrations:**

African American Studies (p. 1051)|Medieval Studies (p. 1076)

**Teaching of Social Studies, MA**

**Joint degree:**

History, MA and Library & Information Science, MS (p. 1117)

The Department of History offers graduate courses leading to the Doctor of Philosophy degree, complete details of which may be found in the Graduate Studies section of the department's web site. Students are not normally admitted to a terminal master's degree program.

## Admission

Applicants should have a minimum of 20 semester hours of undergraduate work in history and cognate disciplines with an overall GPA of 3.25 in the last two years. Applicants who have a master's degree should have a grade point average of 3.5 for previous graduate-level work. All applicants are required to submit Graduate Record Examination (GRE) scores (verbal, writing, and quantitative are mandatory; history is optional). All applicants are required to submit a writing sample. Language preparation may be weighted heavily, depending upon the field of specialization. Foreign students whose native language is not English need a paper-based Test of English as a Foreign Language (TOEFL) score of at least 600 (250 on the computer-based test). Most successful applicants have GRE verbal scores of over 80% and/or TOEFL scores of over 630 (260 computer). Only in exceptional circumstances are students admitted for the spring term. The department is not currently admitting to the Teaching of Social Studies program. For additional details refer to [www.history.illinois.edu/graduate/prospective/](http://www.history.illinois.edu/graduate/prospective/) (<http://www.history.illinois.edu/graduate/prospective/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Facilities and Resources

The extraordinary University Library is the department's main research facility; within it, the History, Philosophy & Newspaper Library, the Rare Book Room, and the area studies libraries (Slavic, Africana, Latin American, Asian Libraries) all serve faculty and students with expert bibliographers and focused collections. Among other special collections much used by historians are Afro-Americana and Women's Studies; the library is also a major repository for government documents.

## Financial Aid

Financial aid is almost always awarded on an academic-year basis. Applications by incoming students are considered with admission applications. All fellowships and assistantships include a stipend plus tuition and service fee waiver.

Both University and department endowment fellowships are available to entering students and to advanced doctoral students embarked on their research or the writing of their dissertations. Foreign Language and Area Studies (FLAS) Fellowships may support first- and second-year students who have special interests in foreign area studies. Entering students from underrepresented groups may be awarded one- to three-year Graduate College Fellowships. The Illinois Consortium for Educational Opportunity Program (ICEOP) offers renewable fellowships to underrepresented minority students who are Illinois residents and plan academic careers within the state. Half-time teaching assistantships are the department's primary form of financial aid for graduate students in the Ph.D. program. Students who progress satisfactorily toward their degrees and demonstrate effective teaching will have their teaching assistantships renewed for a second, and usually a third, year.

### *for the degree of Doctor of Philosophy in History*

In certain circumstances, a student in British history may substitute courses in quantitative skills for the second language. For the preliminary examination, the candidate customarily offers three fields in history - one major and two minor fields. At least one of these must be a "geographical/chronological field" and one must be a "comparative/thematic" field. One must involve a period of time before 1815. At least two geographical areas must also be represented by the fields offered for the examination. One of the three fields may be in a specialization outside the Department of History or may be a "constructed" field specially designed by the candidate in consultation with field examiners and the major advisor.

## Entering with approved M.S./M.A. degree

Code	Title	Hours
HIST 598	(2 hours per term) is required of candidates who hold teaching assistantships during each semester they hold an appointment; students with research assistantships may enroll for HIST 596 for 2 hours credit per semester during the assistantship.	
HIST 593 & HIST 594	Approaches to History and Intro Historical Writing	8
	Research seminars (or HIST 596), under the direction of at least two faculty members (may be reduced by one four-hour course at the discretion of the advisor)	8
	Three additional courses at the 500 level	12
HIST 591	History and Social Theory	4
HIST 597	Reading Course (Oral History)	4

Another methods course in consultation with the Director of Graduate Studies

To fulfill the minimum requirement of 64 or 96 graduate hours, 16 graduate hours in disciplines other than history may be applied.	0-16
--	------

Language Requirement: The department requires proven competence in two foreign languages for the Ph.D. degree, except for students of US History who must demonstrate competence in one foreign language. Language competence means the ability to read and comprehend a foreign language well enough to paraphrase a scholarly article in English. Students admitted into the Ph.D. program are expected to demonstrate competence in the second language within four semesters and always before they take their last prelim exam. A major advisor may require a student to acquire a reading knowledge of more than two languages, or more than one for US History students.

HIST 599	Thesis Research (32 max applied toward degree)	32
Total Hours		64

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate degree requirements (<http://www.history.illinois.edu/graduate/current/requirements/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: History, PhD

Learning Outcomes for the degree of Doctor of Philosophy in History

- Field expertise:** broad, deep, and critical knowledge of key areas of chosen study, in both selected chronological-geographic fields and comparative thematic fields.
- Methodological knowledge:** understanding and mastery of disciplinary and interdisciplinary methods and concepts.
- Research, writing, and dissemination:** Experience and accomplishment in scholarly research based on primary sources, analytical writing, and presenting this work in print and oral presentation.
- Teaching:** Pedagogical training and experience.
- Professional development:** preparation for the diverse career expectations and possibilities in academia and varied institutions in the public and private sectors.

## Graduate Degree Programs in Human Development & Family Studies

### Graduate Majors:

Human Development and Family Studies, MS (p. 778)  
 Human Development and Family Studies, PhD (p. 780)

The Ph.D. in Human Development and Family Studies (HDFS) focuses on positive development and resilience of diverse children, youth, and families in everyday life contexts. Our doctoral concentration is interdisciplinary, drawing upon the canons of anthropology, economics, education, family studies, human development, psychology, and sociology. Further, we value qualitative, quantitative, and mixed methodologies.

Students who enter the doctoral program without a master's will complete one as the first part of their doctoral requirements.

### Admission

Admission is based upon both academic record and the applicant's fit with faculty research programs. We examine grade point average (GPA), Graduate Record Examination (GRE, we will accept MCAT scores for Medical Scholar applicants) scores, letters of recommendation, and a personal statement. International applicants from non-English speaking countries must have an official paper Test of English as a Foreign Language (TOEFL) score of at least 103 on the internet based test. We will not admit anyone with a GPA less than 3.0 on a 4.0 scale. All applicants are required to submit official GRE scores (MCAT in the case of Medical Scholar applicants) and to have previous coursework in a relevant area of social or behavioral sciences. GRE, MCAT and TOEFL scores should be taken no more than two years prior to application. Our application deadline is December 15 for possible admission the following fall semester. We admit students for fall enrollment only. Please refer to our department website for further information.

### Graduate Teaching Experience

We do not require our students to teach but recognize the importance of teacher development for their future marketability. Thus, we make teaching assistantships available and encourage students to pursue a variety of teaching experiences as well as mentorship from experienced instructors. We also encourage our students to utilize the variety of teacher training resources that are available across campus.

## Faculty Research Interests

Faculty information is available on our department website at <http://hdfs.illinois.edu/directory/faculty> (<http://hdfs.illinois.edu/directory/faculty/>).

## Centers, Programs, and Institutes

Child Care Resource Service (<http://ccrs.illinois.edu/>)  
 Child Development Lab ([www.cdl.illinois.edu](http://www.cdl.illinois.edu/) (<http://www.cdl.illinois.edu/>))

 Early Child Development Lab

## Financial Aid

We are committed to funding all of our students who are making timely progress. The duration and amount of our commitment varies by program. Funding may include fellowships, research assistantships, and/or teaching assistantships. These opportunities typically include stipends and tuition waivers. In some cases, fees are also waived. All applicants are automatically considered for all department funding opportunities; there is no separate application process. Federal and state financial aid is completely separate from the support provided by our department. For information regarding federal and state financial aid, please refer to [www.osfa.illinois.edu/](http://www.osfa.illinois.edu/) (<http://www.osfa.illinois.edu/>).

*for the degree of Master of Science in Human Development & Family Studies*

## Learning Outcomes: Human Development and Family Studies, MS

Learning Outcomes for the degree of Master of Science in Human Development & Family Studies

### HDFS Graduate Student Learning Outcomes

- HDFS graduate students will demonstrate subject matter expertise, including theoretical and substantive expertise in a specialized area
  - Recall key principles, theories, and concepts used in HDFS
  - Apply key principles, theories, and concepts to the study of HDFS
  - Critique current theories and empirical knowledge regarding HDFS
  - Evaluate current knowledge in a specific substantive area using two distinct theories
  - Identify knowledge gaps in a specific substantive area
  - Pose questions to remedy said gap
- HDFS graduate students will demonstrate social science methodology expertise
  - Apply key principles, concepts and analytic strategies used in quantitative research
  - Apply key principles, concepts and analytic strategies used in qualitative research
  - Use data management and analysis software (e.g., SPSS, NVivo, MAXQDA; HLM, R)
  - Evaluate the methodological strengths and limitations of empirical studies
  - Design and defend a complete research project
  - Complete an IRB application
  - Complete an ethics certificate relevant to project
  - Conduct a research project as per protocol and ethical standards
- HDFS graduate students will demonstrate professional competence skills
  - Identify career and professional goals
  - Develop leadership skills (e.g., through formal positions; informal mentoring of undergraduates or new graduate students; representing the department; participation in class or lab teamwork)
  - Develop professional network to support career and professional goals (e.g., relationships with mentors; participation in professional organizations)
  - Create and maintain a CV and other job-related materials (e.g., cover letter; teaching philosophy; research statement)
  - Exhibit professional and ethical behavior

- f. Make decisions and solve problems
  - g. Collaborate to achieve group goals
4. HDFS graduate students will demonstrate scholarly communication skills in English
- a. Use effective written communication
    - i. Use appropriate grammar and writing mechanics
    - ii. Demonstrate a working knowledge of APA style
    - iii. Respond to constructive criticism (e.g., revision process, peer review)
    - iv. Produce written work that is organized, logical, and fully developed
  - b. Use effective oral communication
    - i. Clearly and logically present ideas aloud through presentation to class or group
  - c. Use effective visual communication
    - i. Use clear and logical charts, graphs, and other visual displays to present ideas
5. HDFS graduate students will demonstrate a critical and reflexive orientation toward and sensitivity to issues of diversity and inclusion
- a. Critically examine one's own beliefs, assumptions, values, attitudes, and biases regarding diverse individuals and families
  - b. Reflect on one's own interconnected positions, privileges, and disadvantages across multiple contexts
  - c. Demonstrate awareness of and sensitivity to issues of diversity and inclusion in one's own work (written, oral, and visual communication)

*for the degree of Doctor of Philosophy in Human Development & Family Studies*

Those entering the doctoral program without a master's degree will complete one within their first two years in the doctoral program. Students entering with a non-thesis master's will be required to complete a "thesis equivalency" paper within the first two years of their doctoral program. Requirements for the Ph.D. include 64 graduate hours beyond the M.S. degree, completion of the written qualifying examination, defense of the written dissertation proposal, and a final thesis defense upon completion of the dissertation. Doctoral students may also complete a supporting program in "applied HDFS." This 16 graduate hour option includes 4 hours in program development or policy studies, 4 hours in program evaluation, and two 4 hour internships. The applied optional supporting program prepares students to enter careers in administration, human services, social policy, international aid agencies, and government, as well as traditional careers in teaching and research.

*For additional details and requirements refer to the department's Graduate Program Information (<http://hdfs.illinois.edu/graduate/handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

---

The Ph.D. is an interdisciplinary degree, which typically leads to a career in teaching and research, especially at business schools or industrial relations schools. Research-oriented careers outside the academic world are also available. The program can be completed in five years beyond the baccalaureate degree or four years beyond the master's degree. Doctoral students are required to complete 96 graduate hours of credit beyond the baccalaureate degree. Coursework is usually completed in two years. There is a second year paper requirement, one examination that focuses on the candidate's selected area of specialization, and the preliminary and final exams. Examples of areas of specialization include the effects of technological change on the human resource function; motivation, morale, and job satisfaction; labor-management relations in the public sector; labor markets and employment; and international comparative labor problems. Each student's program of study is chosen in consultation with the Ph.D. Advisory Committee at the School.

### Graduate Degree Programs in Labor & Employment Relations

Human Resources and Industrial Relations, MHRIR (p. 782)  
**(on campus & online)**

Human Resources and Industrial Relations, PhD (p. 785)

**Joint Degree Programs with Human Resources and Industrial Relations, MHRIR (on campus only):**

Business Administration, MBA (p. 1119)|Law, JD (p. 1119)

The School of Labor and Employment Relations offers graduate work leading to both a master's and a doctoral degree. Graduate study in Human Resources and Industrial Relations (HRIR) is based on a multidisciplinary approach to human resources/industrial relations problems and a flexible curriculum. To achieve this, the School has joint faculty appointments or course cross-listings with economics, psychology, law, business administration, history, and finance.

---

### Admission

Students must meet the general admission requirements of the Graduate College, as well as the specific requirements of the School. Admission to the master's program in either the fall or spring semester is based on an applicant's undergraduate record, letters of reference, Graduate Record Examination (GRE) or Graduate Management Aptitude Test (GMAT) scores, a resume and a statement of interest and career goals. The minimum requirements for admission are a course in statistics and an average grade of B in the last two years of a four year undergraduate program. A deficiency in statistics may be made up by taking the required course without graduate credit during the first semester of graduate

study. International applicants must provide Test of English as Foreign Language (TOEFL) test results with a recommended minimum score of 96 on the internet-based IBT (590 on the written test) or IELTS with minimum overall score of 6.5.

Students applying to the online program will have the same admissions criteria as the on-campus MHRIR program. However, a waiver of the GRE or GMAT requirement may be available to applicants with 3 or more years of direct HR/IR experience or 5 years of related managerial experience. Eligibility of this waiver will be assessed by the Associate Director, Online Programs. Admission decisions for the online program are made in all semesters (Fall, Spring, and Summer).

Students with outstanding academic credentials, with or without a master’s degree, are encouraged to apply to the Ph.D. program. Applicants to the doctoral program must submit evidence of research ability, such as a master’s thesis, an undergraduate thesis, special reports, or published articles. This is in addition to the other required application materials as indicated for the on-campus master’s program. Admission to the doctoral program is made for the fall semester only. An exception is made for current HRIR master’s degree students at Illinois, who may submit an internal application in the spring.

### Graduate Teaching Experience

Although the School has no teaching requirement, doctoral students are encouraged to gain teaching experience in this program.

### Financial Aid

The School offers research assistantships, scholarships, and fellowships to graduate students with superior academic credentials in the on-campus MHRIR and Ph.D. programs. A School research/teaching assistant receives a stipend plus waiver of resident or non-resident tuition and some fees (<http://www.grad.illinois.edu/gradhandbook/>). The Graduate College also awards minority fellowships that carry stipends plus tuition and service fee waivers.

The online program is self-supporting and DOES NOT accept the following tuition and fee waivers (TFWs): Non-Academic waivers (including UIUC employees and employees of other state institutions), Academic waivers from UIUC, UIC and UIS employees, Related Agency waivers, waivers granted through fellowships/assistantships as governed by the Graduate College at UIUC, or Retiree waivers. This program DOES accept statutory waivers (veteran grants, etc.)

### *for the degree of Master of Human Resources and Industrial Relations in Human Resources and Industrial Relations (on campus & online)*

## Learning Outcomes: Human Resources and Industrial Relations, MHRIR

Learning Outcomes for the degree of Master of Human Resources and Industrial Relations in Human Resources and Industrial Relations (on campus & online)

The purpose of the Master of Human Resources and Industrial Relations programs are to impart knowledge and skills that individuals may use to advance to mid-and upper-level positions managing employment relations in private-and public-sector organizations as well as in labor union organizations. The online program, in particular, was developed to expand our ability to train future human resource management leaders by making the program and its strengths available to place-bound human resources professionals and career-changers.

The Society for Human Resource Management (SHRM) is the leading professional organization for human resource management practitioners worldwide. SHRM created the Human Resources Certification Institute (HRCI), which is the human resource credentialing body to promote the establishment of standards for the profession. HRCI also recognizes human resource professionals who have met, though demonstrated professional experience and the passing of a written comprehensive exam, HRCI's requirements for mastering the codified HR Body of Knowledge. HRCI regularly reviews exam content for updates and revisions to maintain relevance and include content at the leading edge of the field.

The MHRIR programs have chosen to draw from HRCI's Human Resource Body of Knowledge and other resources such as faculty expertise and prominent practitioners and scholars in the HR field, as the foundation for our student learning outcomes.

1. Students will apply Business Management and Strategy to shape immediate and long-term HR activities, practices, and policies. Students will critically examine the complex link between strategy and business practices, understand and apply workforce metrics to drive decision-making, and apply a strategic lens to international human resources.
2. Students will drive productivity outcomes, use job and company data to predict the success of new hires, and align human capital requirements to achieve business goals to support Workforce Planning and Development within an organization's HR operation.
3. Students will understand the structural elements of compensation system design and evaluate an organization's Compensation and Benefits structure relative to market forces, union agreements, and legal requirements.
4. Students will apply and adhere to statutory and legal requirements when administering HR policies and procedures and employ Risk Management strategies to protect the employer from loss and liability and comply with labor law.
5. Students will lead Employee and Labor Relations by managing workforce relationships, developing inclusive and respectful company culture, and building communication systems.

- To support Human Resource Development, students will support organizational priorities by managing employee performance through evaluating gaps between employee performance and the desired state, building programs to address these gaps, and designing strategies for motivating employees.
- Students will be able to integrate, synthesize, and apply knowledge of ethical dilemmas and solutions in Human Resources. Students will apply strategies for realizing the benefits of diversity and inclusion and employ practices that contribute to healthy, safe, and secure workplaces, communities, and societies as part of the organization's corporate social responsibility.

We have also formed these additional learning outcomes to support a student's immediate and long-term success in the professional world.

- Students will be able to use critical thinking and problem-solving skills to act strategically when making decisions in business and in life.
- Students will produce persuasive and impactful written work and verbal presentations for academic and business audiences.
- Students will be effective leaders of change and apply interpersonal skills to work well in cross-functional teams.
- Students will develop professional skills to support long-term career success: resume and cover letter writing, interviewing, and networking.

## Learning Outcomes: Human Resources and Industrial Relations, PhD

Learning Outcomes for the degree of Doctor of Philosophy Major in Human Resources and Industrial Relations

The purpose of the PhD in Human Resources and Industrial Relations is to train research competence (conducting and communicating research) and the writing of analytical papers of publishable quality. Toward this end, PhD courses and program milestones are designed to impart knowledge and skills that individuals may use to conduct world-class research, primarily in the academic subfields of Human Resources/ Organizational Behavior, Industrial Relations, Economics, Psychology, and/or Sociology.

The following are intended student learning outcomes.

1. Develop skill in writing analytic papers of publishable quality, and publishing those papers.
2. Develop skill in publicly presenting analytical research of publishable quality.
3. Gain foundational knowledge in Human Resources Theory and Industrial Relations Theory.
4. Develop knowledge and skill in using statistics and research methods to conduct research and draw appropriate inferences.
5. Gain specialized knowledge in a social science discipline (e.g., economics, psychology, sociology).

## Industrial Engineering, MS

for the degree of Master of Science in Industrial Engineering (on campus & online)

**department head:** Deborah L Thurston (thurston@illinois.edu)  
**associate head of graduate studies:** Ramavarapu S Sreenivas (rsree@illinois.edu)

**department website:** <https://ise.illinois.edu/>  
**program website:** <https://ise.illinois.edu/graduate/degrees-and-programs/ms-degree-guide.html>  
**department faculty:** <https://ise.illinois.edu/directory/faculty.html>  
**college website:** <https://grainger.illinois.edu/>  
**contact:** Lauren Redman (lredman@illinois.edu)  
**address:** 117 Transportation Building, 104 S Mathews Ave, Urbana, IL 61801  
**phone:** (217) 333-2730  
**email:** [ise-grad@illinois.edu](mailto:ise-grad@illinois.edu)

The Department of Industrial & Enterprise Systems Engineering offers both an MS with thesis and an MS non-thesis program. Students in the MS with thesis program are required to have a research advisor and applicants are encouraged to contact department faculty (<https://>

[ise.illinois.edu/directory/faculty.html](http://ise.illinois.edu/directory/faculty.html)) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in i) advanced analytics via the Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1049) optional graduate concentration and ii) computational science and engineering via the Computational Science & Engineering (p. 1064) optional graduate concentration.

## Admission Requirements

Applicants who have completed degree requirements in an accredited engineering program or its equivalent are eligible to apply for admission. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student for either program, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

## Financial Aid

Qualified students may compete for financial assistance in the form of teaching/graduate/research assistantships, fellowships, grants, and tuition waiver scholarships. Under certain conditions, fellowships may be augmented by part-time assistantships.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the English Proficiency Interview ([http://cte.illinois.edu/testing/oral\\_eng/eipi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/eipi_overview.html)) (EPI), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Faculty research by ISE faculty is pursued in the following fields:

•computer-aided design	•data analytics	•optimization	•design systems	•manufacturing systems
•nondestructive testing and evaluation	•system dynamics and simulation	•control	•robotics	•real-time decision making
•reliability engineering	•financial engineering	•operations research	•management science	•biomechanics
•human factors	•supply chain logistics			

Members of the ISE Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department's research laboratories Web site (<https://ise.illinois.edu/research/labs/>).

Systems & Entrepreneurial Engineering, MS (p. 1008)

### optional concentrations:

Computational Science & Engineering (p. 1064)  
Systems & Entrepreneurial Engineering, PhD (p. 1009)  
Financial Engineering, MS (p. 739) (sponsored jointly with Department of Finance)

### optional concentrations:

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1049) | Data Analytics in Finance (p. 1068)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offers an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

*for the degree of Master of Science in Industrial Engineering (on campus & online)*

The Department of Industrial and Enterprise Systems Engineering offers the non-thesis option in the Master of Science in Industrial Engineering in an online delivery format. Requirements mirror those for the on-campus non-thesis delivery format.

*For additional details and requirements refer to the department's Graduate Programs Web site and the Graduate College Handbook.*

**This degree program can be completed with or without a thesis; either on campus or online, the requirements are listed below:**

### Thesis Option

Code	Title	Hours
IE 599	Thesis Research (min-max applied toward the degree)	8
IE 590	Seminar (registration for 0 hours every term while in residence)	0
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		24
Total Hours		32

### Other Requirements

Requirement	Description
Other Requirements and conditions may overlap	
A minimum of 12 500-level credit hours applied toward the degree, 8 of which must be IE.	
A maximum of 4 hours of IE 597 (or other approved independent study) may be applied toward the elective course work requirement.	
Minimum GPA:	3.0

### Non-Thesis Option

Code	Title	Hours

Requirement	Description
Other Requirements and conditions may overlap	
A minimum of 12 500-level credit hours applied toward the degree, 8 of which must be IE.	
Departmental approval is required to pursue the non-thesis option, for students terminating their studies with the M.S. degree.	

For students in the non-thesis option, 4 hours of IE 597 are required (4 hours maximum allowed towards the M.S. degree), because each student must show evidence of the ability to do independent research.

Minimum GPA: 3.0

## Learning Outcomes: Industrial Engineering, MS

Learning Outcomes for the degree of Master of Science in Industrial Engineering (on campus & online)

Graduate-level students should be able to:

1. Apply theory and methodologies to areas of research that address areas within Industrial and Enterprise Systems Engineering.
2. Effectively relate and communicate their data findings to peers, faculty and possibly peer-reviewed journals.
3. Formulate and solve complex problems with ISE by applying appropriate techniques and tools.
4. Write and defend a thesis that is designed with scientifically accepted methods and can be applied to improve a design or other real-world issue.
5. Teach concepts critical to the discipline of Industrial and Enterprise Systems Engineering at the university level.

## Industrial Engineering, PhD

**contact:** Lauren Redman ([lredman@illinois.edu](mailto:lredman@illinois.edu))

**address:** 117 Transportation Building, 104 S Mathews Ave, Urbana, IL 61801

**phone:** (217) 333-2731

**email:** [ise-grad@illinois.edu](mailto:ise-grad@illinois.edu)

The Department of Industrial & Enterprise Systems Engineering offers both a traditional doctoral program and a direct doctoral program. A Master's degree is not required for admission to the direct doctoral program. Students in both programs are required to have a research advisor and applicants are encouraged to contact department faculty

(<https://ise.illinois.edu/directory/faculty.html>) in their areas of interest to inquire about possible research and funding opportunities.

### Admission Requirements

Applicants who have completed degree requirements in an accredited engineering program or its equivalent are eligible to apply for admission. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student for either program, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

### Financial Aid

Qualified students may compete for financial assistance in the form of teaching/graduate/research assistantships, fellowships, grants, and tuition waiver scholarships. Under certain conditions, fellowships may be augmented by part-time assistantships. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the English Proficiency Interview ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)) (EPI), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

### Department Research

Faculty research by ISE faculty is pursued in the following fields:

•computer-aided design	•data analytics	•optimization	•design systems	•manufacturing systems
•nondestructive testing and evaluation	•system dynamics and simulation	•control	•robotics	•real-time decision making
•reliability engineering	•financial engineering	•operations research	•management science	•biomechanics
•human factors	•supply chain logistics			

Members of the ISE Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity

and are described at the department's research laboratories Web site (<https://ise.illinois.edu/research/labs/>).

## Graduate Programs in Industrial & Enterprise Systems Engineering

degrees:

Industrial Engineering, MS (p. 787)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1049) | Computational Science & Engineering (p. 1064)

Industrial Engineering, PhD (p. 789)

**optional concentrations:**

Computational Science & Engineering (p. 1064) Systems & Entrepreneurial Engineering, MS (p. 1008)

**optional concentrations:**

Computational Science & Engineering (p. 1064) Systems & Entrepreneurial Engineering, PhD (p. 1009) Financial Engineering, MS (p. 739) (sponsored jointly with Department of Finance)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1049) | Data Analytics in Finance (p. 1068)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offers an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

*for the degree of Doctor of Philosophy in Industrial Engineering*

The 96 graduate hours of credit may be divided into three stages of 32 hours each, consisting of 32 hours generally represented by an M.S. degree or equivalent (Stage I), 32 hours of course work beyond the M.S. degree (Stage II), and 32 hours of thesis work for the doctoral thesis (Stage III). Stage I requirements are satisfied by completion of an M.S. degree in the Department or in a related engineering or technical discipline from the University of Illinois or other accredited university. A non-technical M.S. or MBA would normally not count toward the

completion of Stage I. Such students would be required to enroll in one of the Master of Science Programs in the Department and satisfy the requirements therein in order to satisfy Stage I of the Ph.D. degree.

To advance to Stage II all students must pass the Qualifying Examination. To advance from Stage II to Stage III the student must pass the Preliminary Exam. Stage III is comprised of a minimum of 32 hours of IE 599 (Thesis Research) credit and a written dissertation followed by a final oral thesis defense.

The Preliminary Examination is taken after the Qualifying Examination (<https://ise.illinois.edu/graduate/degrees-and-programs/phd-industrial-engineering.html>). A minimum of six months must elapse between the successful completion of the doctoral preliminary examination and the doctoral final examination (oral dissertation defense).

*For additional details and requirements refer to the department's Graduate Programs Web site (<http://ise.illinois.edu/graduate/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).*

## Entering with approved M.S./M.A. degree

Code	Title	Hours
IE 599	Thesis Research (min-max applied toward the degree)	32
IE 590	Seminar (registration for 0 hours every term while in residence)	0
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		32
Total Hours		64

## Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Minimum 500-level Hours Required Overall:	16
A maximum of 4 hours of IE 597 (or other approved independent study) may be applied toward the elective course work requirement.	
4 hours of the elective courses must be from a College of Engineering department, including ABE and CHBE.	
A maximum of 4 CR-graded credit hours in non-IE courses may be applied toward the degree.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: Qualifying examinations should be taken as early as possible	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

## Entering with approved B.S./B.A. degree

Code	Title	Hours
IE 599	Thesis Research (min-max applied toward the degree)	40
IE 590	Seminar (registration for 0 hours every term while in residence)	0
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		56
Total Hours		96

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Minimum 500-level Hours Required	24
Overall:	
For the thesis option, a maximum of 4 hours of IE 597 (or other approved independent study) may be applied toward the elective course work requirement.	
4 hours of the elective courses must be from a College of Engineering department, including ABE and CHBE.	
A maximum of 4 CR-graded credit hours in non-IE courses may be applied toward the degree.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: Qualifying examinations should be taken no later than the fifth semester for those entering with approved B.S. or B.A. degree.	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

## Learning Outcomes: Industrial Engineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Industrial Engineering

Graduate-level students should be able to:

1. Apply theory and methodologies to areas of research that address areas within Industrial and Enterprise Systems Engineering.
2. Effectively relate and communicate their data findings to peers, faculty and possibly peer-reviewed journals.
3. Formulate and solve complex problems with ISE by applying appropriate techniques and tools.
4. Write and defend a thesis that is designed with scientifically accepted methods and can be applied to improve a design or other real-world issue.

5. Teach concepts critical to the discipline of Industrial and Enterprise Systems Engineering at the university level.

### Programs in Informatics

#### Undergraduate Minor

Informatics Minor (p. 474)

#### Graduate Majors

##### Bioinformatics, MS (p. 600)

- Animal Sciences Concentration (p. 601)
- Bioengineering Concentration (p. 602)
- Chemical & Biomolecular Engineering Concentration (p. 603)
- Computer Science Concentration (p. 605)
- Crop Science Concentration (p. 606)
- Library & Information Science Concentration (p. 608)

Informatics, PhD ([http://catalog.illinois.edu/graduate/provost/phd\\_informatics/](http://catalog.illinois.edu/graduate/provost/phd_informatics/))

The Chair of the Governing Committee of the Informatics Ph.D. Program will appoint the supervising committee to approve each student's program of study, which will be called the Advisory Committee (first half of studies) and then the Dissertation Committee (second half of studies). The membership of these committees should remain constant for each half of the student's studies, except in unusual circumstances, but may change when it is constituted for the dissertation. In any case, changes to the supervising committees must be approved by the Chair of the Governing Committee. The supervising committee must contain faculty with expertise in both the Applications area and the Foundations area chosen by the student, including at least four faculty members affiliated with the Informatics Program. The supervising committee will provide each student with a review of his or her progress at the end of each academic year.

### Admission

The admissions process will consist of a formal application, specifying experiences, courses, interests, and letters of recommendation. The Informatics PhD Program will admit graduate students who are approved by the Governing committee in conjunction with representatives of the Areas. With the approval of the appropriate committees, students may be admitted to the program with only a Bachelor's degree. They will work with their Advisory Committee to define appropriate courses to fulfill the 32 hours of Masters-level work. If they wish to receive a Masters degree, they will need to apply to a relevant department and meet the department's existing Masters degree requirements. If they

already hold a Masters degree approved by the IPP Governing Committee, they will receive graduate credit for 32 hours. All applicants whose native language is not English must submit a minimum TOEFL score of 100 (iBT), 250 (CBT), or 600 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections. For those taking the TOEFL or IELTS, full admission status is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include tuition and partial fee waivers) are awarded on a competitive basis. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency by achieving a minimum score of 50 on the Test of Spoken English (TSE), 24 on the speaking subsection of the TOEFL iBT, or 8 on the speaking subsection of the IELTS. For students who are unable to take the TSE, iBT, or IELTS, a minimum score of 50 is required on the SPEAK test, offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching conducted prior to the start of the semester.

## Learning Outcomes: Informatics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Informatics

1. Students will acquire broad and deep knowledge of informatics including both foundation and application areas. Students are expected to become experts in their specialties, but also be knowledgeable about basic principles across the informatics domain.
2. Students will demonstrate the ability to conduct informatics research in their area of specialty through developing an original piece of scholarship.
3. Students will demonstrate skills in oral and written communication sufficient to publish and present work in their field and to prepare grant proposals.
4. Students will interact with people from diverse backgrounds as both leaders and team members with integrity and professionalism.
5. Students will be aware of ethical issues regarding research including the use of human subjects (if appropriate), research misconduct, and publication practice.

## Information Management, MS

*for the degree of Master of Science in Information Management (on campus & online)*

**dean: Eunice Santos**

**overview of MS/LIS admissions & requirements:** <https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply> (<https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**school website:** School of Information Sciences (<https://ischool.illinois.edu/>)

**school faculty:** <https://ischool.illinois.edu/people/faculty> (<https://ischool.illinois.edu/people/faculty/>)

**graduate office:** 501 East Daniel Street, Champaign, IL 61820-6211

**program contact:** Moises Orozco Villicana

**phone:** (217) 333-7197, (800) 982-0914 (within the US)

**email:** [ischool-apply@illinois.edu](mailto:ischool-apply@illinois.edu)

The Master of Science (MS) in Information Management prepares students for professional roles in the design and management of information systems and services in organizations in a range of sectors. Areas of specialization include data science and analytics; privacy, trust, security and ethics; information architecture and design; knowledge management and information consulting.

### On-campus or Online

Two scheduling options are available to students pursuing the M.S. in Information Management. The on-campus option serves students who are in residence at Urbana-Champaign, as well as part-time, commuting students. The online scheduling option is an online education option that uses the Internet and other information technologies for delivery.

### Graduate Degree Programs in the School of Information Science

Bioinformatics: Library & Information Science, MS (p. 608) **(on campus & online)**

Information Management, MS (p. 793) **(on campus & online)**

Library & Information Science, MS (p. 827) **(on campus & online)**

Library & Information Science, CAS (p. 824) **(on campus & online)**

**concentration:**

Digital Libraries (p. 825)

Information Sciences, PhD (p. 795)

**concentration:**

Writing Studies (p. 1084)

#### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 1113)

Library & Information Science, MS and History, MA (p. 1117)

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 1113)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in

Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

### Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

### School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

### Facilities and Resources

Among the major areas of faculty research are:

- community informatics
- data analytics
- data curation
- digital humanities
- digital libraries
- history of information
- information retrieval
- organization of knowledge and information
- privacy, security, and trust
- ethics and values for information
- youth literature, culture, and services

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB)

provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, *Library Trends* and *The Bulletin of the Center for Children's Books*. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

*for the degree of Master of Science in Information Management (on campus & online)*

## This degree program can be completed either on campus or online.

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

Competency in at least one programming language	
Minimum GPA:	2.75

## Learning Outcomes: Information Management, MS

Learning Outcomes for the degree of Master of Science in Information Management (on campus & online)

Graduates of the Illinois MS/IM program will be able to:

1. Apply foundational concepts, theories, and principles to problems of information management.
2. Communicate capably with diverse stakeholders.
3. Understand some of the larger socio-technical contexts in which information management occur.
4. Apply appropriate analytic approaches to the needs of a given problem and understand how aspects of logic, statistical analysis and broader domain knowledge can inform the interpretation and confidence in their analyses.
5. Have an awareness of the rapid change in the evolving information professions, the change in technologies and methods deployed, evolving ethical principles around information use, and the need to be continually learning new skills and sub-specializations in order to be a valuable member of a multidisciplinary team.

## Information Sciences, PhD

*for the degree of Doctor of Philosophy in Information Sciences*

dean: Eunice Santos

overview of MS/LIS admissions & requirements: <https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply> (<https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/>)

overview of grad college admissions & requirements: <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

school website: School of Information Sciences (<https://ischool.illinois.edu/>)

school faculty: <https://ischool.illinois.edu/people/faculty> (<https://ischool.illinois.edu/people/faculty/>)

graduate office: 501 East Daniel Street, Champaign, IL 61820-6211

program contact: Moises Orozco Villicana

phone: (217) 333-7197, (800) 982-0914 (within the US)

email: [ischool-apply@illinois.edu](mailto:ischool-apply@illinois.edu)

The Ph.D. program consists of the following components:

1. a history and foundations of IS seminar (4 graduate hours);
2. research methods (8 or more graduate hours);
3. electives (36 graduate hours);
4. field exam; and
5. thesis (32 or more graduate hours).

Thus, a minimum of 48 graduate hours of coursework plus 32 graduate hours of thesis credit are required.

## Graduate Degree Programs in the School of Information Science

Bioinformatics: Library & Information Science, MS (p. 608) **(on campus & online)**

Information Management, MS (p. 793) **(on campus & online)**

Library & Information Science, MS (p. 827) **(on campus & online)**

Library & Information Science, CAS (p. 824) **(on campus & online)**

### concentration:

Digital Libraries (p. 825)

Information Sciences, PhD (p. 795)

### concentration:

Writing Studies (p. 1084)

### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 1113)

Library & Information Science, MS and History, MA (p. 1117)

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 1113)

### School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

## School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

## Facilities and Resources

Among the major areas of faculty research are:

- **community informatics**
- **data analytics**
- **data curation**
- **digital humanities**
- **digital libraries**
- **history of information**
- **information retrieval**
- **organization of knowledge and information**
- **privacy, security, and trust**
- **ethics and values for information**
- **youth literature, culture, and services**

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, *Library Trends* and *The Bulletin of the Center for Children's Books*. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

### ***for the degree of Doctor of Philosophy Major in Information Science***

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and

the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Information Sciences, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Information Sciences

- Global Information Consciousness
  - Definition:** The iSchool's PhD students will discover how complex, interdependent global systems— including informational, social, and technical —affect and are affected by the characteristics and behavior of individuals, communities, and institutions.
- Intellectual Reasoning and Knowledge
  - Definition:** The iSchool's PhD students will acquire broad and deep expertise, including knowledge and skills, across subfields of information science. This includes the ability to engage with, plan, and conduct interdisciplinary research.
- Creative Inquiry and Discovery
  - Definition:** The iSchool's PhD students will apply their knowledge and skills to promote inquiry, discover solutions, generate new ideas, and communicate their research. This includes conducting independent and exemplary research, presenting their work in public settings, and publishing their work in peer-reviewed venue.
- Social and Cultural Awareness and Understanding
  - Definition:** The iSchool's PhD students will develop a critical and reflective orientation toward such social and cultural differences as race, indigeneity, gender, class, sexuality, language, and disability. This includes the ability to conduct ethical and responsible research.
- Effective Leadership and Community Engagement
  - Definition:** The iSchool's PhD students will build and sustain productive relationships to respond to information-centric, civic and social challenges at local, national, and global levels, creating positive impact in their communities. This includes the ability to convey their knowledge to others, e.g., by teaching or TA courses or workshops, and through outreach and service activities.

## Italian, MA

*for the degree of Master of Arts in Italian*

**head of department:** Zsuzsanna Fagyal  
**director of graduate studies:** François Proulx  
**department website:** <http://www.frit.illinois.edu/>  
**college website:** <https://las.illinois.edu/>  
**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)  
**overview of college admissions & requirements:** <https://frit.illinois.edu/admissions/italian-graduate-admissions/>  
**department office:** 2090 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801  
**phone:** (217) 333-2020  
**email:** [french-italian@illinois.edu](mailto:french-italian@illinois.edu)

The Department of French and Italian offers graduate programs leading to the Master of Arts and the Doctor of Philosophy degrees in French and in Italian. Candidates for the master's degree may specialize in French Studies, French Linguistics, French Language Learning, or Italian. Candidates for the doctoral degree in French may choose one of three specializations: French Studies, French Linguistics, or Second Language Acquisition and Teacher Education (SLATE).

The following minors and certificates may be pursued: Cinema Studies (p. 1093), Gender & Women's Studies (p. 1099), Translation Studies (<https://translation.illinois.edu/>), Criticism and Interpretive Theory (<https://criticism.english.illinois.edu/>)

Italian, PhD (p. 799)

**concentration:**

Medieval Studies (p. 1076)|Romance Linguistics (p. 1079)|Second Language Acquisition & Teacher Education (p. 1080)

## Admission

### French

Students considering admission to the master's program should usually have had a college major in French. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a statement of purpose, three letters of recommendation and two writing samples (5-10 pages each), at least one of which must be in French. Original transcripts showing all undergraduate and graduate work completed should be sent to SLCL Graduate Student Services. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT

with a minimum score of 24 (<http://www.grad.illinois.edu/Admissions/instructions/04c.cfm>). Admission for the spring semester is rare. Students seeking admission to the Ph.D. program with a Master of Arts degree earned elsewhere are expected to have a minimum 3.5 grade point average in graduate coursework. The master's degree should be in French literature, French studies, or French linguistics. Candidates seeking admission to the Ph.D. specialization in Second Language Acquisition and Teacher Education may hold a Master of Arts in Teaching degree instead.

**For more information about how to apply, see** <https://frit.illinois.edu/admissions/french-graduate-admissions/> (<https://frit.illinois.edu/admissions/french-graduate-admissions/>). Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

### Italian

The normal prerequisite for a graduate major is an undergraduate major in Italian or consent of the department. Students doing graduate work for any advanced degree in Italian must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the department requires Ph.D. candidates to do some teaching as part of their academic work because such experience is considered a vital part of graduate training and professionalization. Non-native English speakers must first pass a test of their oral English ability. See [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

Teaching Assistants in French and Italian are required to take FR 505 or ITAL 505 respectively (4 hours) as part of their contractual obligation. The course does not count toward the graduate degrees.

## Faculty Research Interests

Our faculty (<https://frit.illinois.edu/directory/faculty/>) possess strengths in literary interpretation, critical theory, the study of civilization, cinema, theoretical and applied linguistics, and computer-assisted teaching. Members of the faculty have received national and international recognition; graduates serve on the faculties of numerous colleges and universities both in this country and abroad. See also the faculty's areas of research (<https://frit.illinois.edu/research/research-areas/>).

## Centers, Programs, and Institutes

Our faculty hold appointments with the Departments of African American Studies, Gender and Women's Studies, Linguistics, Media and Cinema Studies, as well as the European Union Center and the Center for South Asian and Middle Eastern Studies, the Program in Comparative and World Literature, the Program in Jewish Culture and Society, the Program in Medieval Studies, and the Unit for Criticism and Interpretive Theory, broadening opportunities for interdisciplinary work.

## Facilities and Resources

A language learning lab provides computer-based access to resources and audio-video services. The phonetics lab contains state-of-the-art equipment available to graduate student researchers. The Kolb-Proust Archive for Research, a unit of the Library, houses a wealth of information about Marcel Proust and his time, including the important collection of notes and materials assembled by Philip Kolb, who was a professor in the Department. Documents from the collection are accessible on the World-Wide Web through a searchable SGML-encoded Virtual Archive ([www.library.illinois.edu/kolbp](http://www.library.illinois.edu/kolbp)) (<http://www.library.illinois.edu/kolbp/>).

## Financial Aid

All students who apply for admission are considered for financial aid. Subject to budgetary conditions, and assuming satisfactory academic and teaching performance, the Department offers two years of financial aid toward the M.A. degree and an additional four years of support toward completion of the Ph.D.

Teaching Assistantships are the most common form of graduate student support. The usual appointment requires teaching three courses during the academic year.

Research Assistantships require the recipient to assist with a faculty member's research for a specific number of hours per week. A research assistantship may be combined with a teaching assistantship.

Fellowships are offered for new and continuing students. No separate application form is required.

Tuition and Fee Waivers are included in waiver-generating fellowship, teaching assistantship, and research assistantship awards.

Graduate students in French may spend the academic year abroad under exchange agreements with universities in France, Belgium, and Canada, employed as teaching assistants.

### *for the degree of Master of Arts in Italian*

Areas of specialization offered in Italian are Italian literature and cultural studies and Italian linguistics. The M.A. in Italian requires a minimum of 32 graduate hours. Students must also successfully complete exams in four areas of Italian literature/cultural studies or three areas of Italian linguistics, chosen in consultation with their advisor.

For additional details and requirements refer to the department's guidelines for graduate students and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
	Coursework selected in consultation with advisor	32
	Total Hours	32

## Other Requirements

Requirement	Description
Other Requirements may overlap	
ITAL 505 is required of all teaching assistants	
Minimum 500-level Hours Required	12
Overall:	
Minimum GPA:	3.0

## Learning Outcomes: Italian, MA

Learning Outcomes for the degree of Master of Arts in Italian

- Language:** strong command of spoken and written Italian in all its registers; strong command of academic English, particularly in writing, but also spoken; ability to summarize and explain major issues in language teaching and learning.
- Critical Theory:** can outline major fields of theoretical inquiry current in the discipline, such as marxism, psychoanalysis, post-structuralism, feminism / queer studies, post-colonialism, biopolitics, environmental humanities and ecocriticism, and others. Ability to identify current trends and issues in critical theory of interest to the field, as well as the beginning capacity to critically evaluate different theoretical approaches.
- Italian Studies:** demonstrates an ability to outline the field of Italian Studies, summarize the major issues of concern within the field, and evaluate some approaches to those issues.
- Teaching:** ability to teach Italian language at the beginning and intermediate levels; to create and critically evaluate syllabi, exams, written assignments, and lectures. Ability to identify and assess successful classroom strategies; familiarity with current trends in pedagogy for literature and culture.
- The Profession:** awareness and development of professional skills, including the ability to create seminar papers that can serve as raw material for future articles, give in-class presentations as a prelude to academic talks, and create book reviews and fellowship applications.

## Learning Outcomes: Italian, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Italian

- Language:** mastery of spoken and written Italian in all its registers; mastery of academic English, particularly in writing, but also spoken; ability to summarize and explain major issues in language teaching and learning.
- Critical Theory:** demonstrates ability to synthesize knowledge of major fields of theoretical inquiry current in the discipline, such as Marxism, psychoanalysis, post-structuralism, feminism / queer studies, post-colonialism, biopolitics, environmental humanities and ecocriticism, and others. Ability to identify current trends and issues in critical theory of interest to the field, as well as capacity to critically evaluate different theoretical approaches, and defend one's own approach.
- Italian Studies:** demonstrates an ability to evaluate the field of Italian Studies, assess the major issues of concern within the field, and evaluate different approaches to those issues.
- Teaching:** ability to teach Italian language at all levels, as well as a wide range of literary and cultural topics; to design syllabi, exams, written assignments, and lectures. Ability to identify and assess successful classroom strategies; familiarity with current trends in pedagogy for literature and culture.
- The Profession:** mastery of professional skills, including ability to formulate academic talks, generate syllabi, rewrite seminar papers as articles, construct book reviews and fellowship applications; preparation for academic job market in literary and cultural studies and other allied fields, including ability to identify successful strategies and evaluate different types of institutions and their teaching and research needs.

## Journalism, MS

for the degree Master of Science in Journalism

**head of department: Stephanie Craft**

The M.S. program is designed to meet the goals of three types of students: 1) students who have recently earned a bachelor's degree in Journalism or a related field and want to explore a specific type of journalism in greater depth, 2) mid-career journalists who want to expand their professional skills, and 3) students who either hold or are pursuing a terminal degree in selected fields (including but not limited to science, technology, engineering and math) seeking to complement their expertise with journalistic skills for communicating it to the public.

## Programs in Journalism

### Undergraduate Programs:

**major:** Journalism, BS (p. 236)

**major:** Journalism, BS-MJ (p. 438)

**minor:** Journalism (p. 480)

### Graduate Programs:

**degree:** Journalism, BS-MJ (p. 438)

**degree:** Journalism, MS (p. 801)

**joint degree:** Journalism, MS and Business Administration, MBA (p. 1120)

**joint degree:** Journalism, MS and Law, JD (p. 1120)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 648).

## Admission

Both the M.S. and M.J. programs place a strong emphasis on journalism, and candidates who are accepted are most often those with a demonstrated interest in practicing journalism. It is imperative that all applicants supply writing samples.

Applicants to the M.S. program must have a 4-year bachelor's degree from an accredited U.S. institution or one of recognized standing abroad. A grade point average of 3.0 (A = 4.0) is the minimum requirement for admission to the Graduate College, with exceptions by petition only. Because the master's program has an enrollment ceiling, some applicants with grade point averages of 3.0 or higher may not be admitted. Ordinarily, students are admitted to begin graduate study in the fall semester.

Letters of recommendation are required, and the Graduate Record Examination (GRE) is required of all applicants who do not have either an undergraduate journalism degree from the University of Illinois or an approved post-secondary degree. An interview with the head of the department or director of graduate studies is helpful but not required. Students whose native language is not English must present their official scores on the Test of English as a Foreign Language (TOEFL) examination as part of their applications. The department follows the Graduate College's recommendations for English proficiency. Detailed information about admissions and financial aid can be found on the department's website (<https://media.illinois.edu/journalism/degrees-programs/masters/>).

## Financial Aid

Fellowships are available only for select M.S. students. Fellowships are awarded on a quarter-time basis and carry a waiver of tuition and most fees. A limited number of merit-based scholarships are available for M.S. students.

for the degree Master of Science in Journalism

For additional details and requirements, refer to the department and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

## Master of Science in Journalism<sup>1</sup>

### First Year

Fall Semester	Hours
JOUR 501 Multimedia Storytelling	4
JOUR 505 Journalism Proseminar	4
Electives – minimum of 4 hours at the JOUR 4– level <sup>2</sup>	4
<b>Semester Hours</b>	<b>12</b>
Spring Semester	Hours
JOUR 500 Current Issues in Journalism	4
JOUR 515 Master's Project (Section A)	4

<b>Semester Hours</b>	<b>16</b>
Summer Semester	Hours
JOUR 515 Master's Project (Section B)	4
<b>Semester Hours</b>	<b>4</b>
<b>Total Hours:</b>	<b>32</b>

<sup>1</sup> <sup>1</sup> Undergraduates pursuing a B.S. in Journalism at Illinois are eligible to apply for the M.S. under a joint B.S./M.S. degree program. The B.S./M.S. requires a greater number of credit hours and more theoretical courses than the B.S./M.J. program. Students can apply for the B.S./M.S. program in the first semester of their junior year and, once admitted, are encouraged to select their remaining undergraduate journalism elective courses at the 200- and 300-level from courses covering skills other than those they emphasized in completing their undergraduate degree. As graduate students, they will enroll in a minimum of four advanced electives at the 400- and 500-levels, in addition to the required graduate courses JOUR 500, 505, and 515 (sections A and B). Electives may be in areas inside or outside Journalism to allow them to pursue a topical specialization. Those electives would require the approval of the Director of Graduate Studies. The B.S./M.S. requires a minimum of 16 hours of 500-level coursework, a 3.0 or higher GPA, and additional details and requirements are available on the department's website and in the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

<sup>2</sup> The Director of Graduate Studies must approve any non-Journalism courses chosen as electives.

### Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required	16
Overall:	
Minimum GPA:	3.0

## Learning Outcomes: Journalism, MS

Learning Outcomes for the degree Master of Science in Journalism

1. Knowledge of principles of journalism and its history and trends.
2. Expertise in news gathering through documents and data, interviews, and field observation.

3. Expertise in one of the major presentations methods in journalism, choosing among text, audio or video presentation, with an understanding of all of these presentation methods include the use of mobile devices.
4. An understanding of professional journalism, including its changing business models, job descriptions and increasing cross-disciplinary collaborations.
5. An understanding of various qualitative and quantitative methods in data journalism.

## Kinesiology, MS

for the degree of Master of Science in Kinesiology

**Department Head: Kim Graber**

**Director of Graduate Studies: Steven Petruzzello**

**Graduate Office: Julie Jenkins**

**Graduate Office Address: 906 South Goodwin Ave, 112 Freer Hall MC-052, Urbana, IL 61801**

**Graduate Phone: (217) 333-1083**

**Graduate Email: [jjenkins@illinois.edu](mailto:jjenkins@illinois.edu)**

**Department Website: <https://ahs.illinois.edu/kinesiology> (<https://ahs.illinois.edu/kinesiology/>)**

**Program Website: <https://ahs.illinois.edu/master-of-science-kinesiology> (<https://ahs.illinois.edu/master-of-science-kinesiology/>)**

### Graduate Degree Programs

Kinesiology, MS (p. 803)

Kinesiology, PhD (p. 804)

**Joint Degree Program:**

Kinesiology, PhD and Master of Public Health, MPH (p. 1128)

### Admissions

Students may apply to either the M.S. or the PhD program. Applications are due on **January 15** for Fall admissions. Applications are due on **October 1** for Spring admissions.

Admissions to the M.S. degree program requires a baccalaureate degree from an accredited institution of higher education, a minimum grade point average of 3.0 (A = 4.0) for the last two years of undergraduate study and any graduate work completed, Graduate Record Examination (GRE) test scores, a statement of interest, and three letters of recommendation.

International students must also submit Test of English as a Foreign Language (TOEFL) scores, with a minimum for full status admission: greater than 102 (IBT), greater than 253 (CBT), greater than 610 (PBT), or greater than 7.0 (IELTS). Scores cannot be more than 2 years old. (see <https://grad.illinois.edu/admissions/instructions/04c> (<https://grad.illinois.edu/admissions/instructions/04c/>))

Major areas of specialization at both the master's and doctoral degree levels include:

- Cultural, Interpretive and Science Studies
- Exercise Physiology
- Exercise Psychology

- Motor Control / Biomechanics
- Pedagogy & Physical Activity

for the degree of Master of Science in Kinesiology

It is possible for a full-time student to complete this degree program in one academic year plus one summer session.

### Thesis Option

Code	Title	Hours

## Learning Outcomes: Kinesiology, MS

Learning Outcomes for the degree of Master of Science in Kinesiology

- Content Knowledge:** Students will demonstrate an advanced understanding of current and historically significant theories, models, themes, and ideas in the biomechanical, physiological, psychological, behavioral, pedagogical, biological, socioeconomic, and sociocultural correlates of Kinesiology.
- Critical Thinking and Discovery:** Students will demonstrate ethical practices while applying advanced quantitative and/or qualitative methods in collecting, analyzing, and interpreting data which will then be disseminated through publications and/or oral presentations.
- Awareness and Understanding:** Students will understand and appreciate the diverse biological, psychological, socioeconomic, sociocultural, philosophical, and historical factors that influence health, physical activity, rehabilitation, and human movement.
- Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases in culturally diverse populations.
- Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

Kinesiology, MS (p. 803)

Kinesiology, PhD (p. 804)

#### Joint Degree Program:

Kinesiology, PhD and Master of Public Health, MPH (p. 1128)

## Admissions

Students may apply to either the M.S. or the PhD program. Applications are due on **January 15** for Fall admissions. Applications are due on **October 1** for Spring admissions.

Admission to the PhD degree program requires a minimum of a baccalaureate degree from an accredited institution of higher education with a minimum grade point average of 3.5 (A = 4.0) for the last two years of undergraduate study. Applicants who have a master's degree should have a grade point average of 3.5 for previous graduate-level work. All applicants are required to submit Graduate Record Examination (GRE) test scores, a statement of interest, and three letters of recommendation.

International students must also submit Test of English as a Foreign Language (TOEFL) scores, with a minimum for full status admission: greater than 102 (IBT), greater than 253 (CBT), greater than 610 (PBT), or greater than 7.0 (IELTS). Scores cannot be more than 2 years old. (see <https://grad.illinois.edu/admissions/instructions/04c> (<https://grad.illinois.edu/admissions/instructions/04c/>))

Major areas of specialization at both the master's and doctoral degree levels include:

- Cultural, Interpretive and Science Studies
- Exercise Physiology
- Exercise Psychology
- Motor Control / Biomechanics
- Pedagogy & Physical Activity

## Graduate Degree Programs in Landscape Architecture

Landscape Architecture, MLA (<http://catalog.illinois.edu/graduate/graduate-majors/landscape-arch/#masterstext>)  
Sustainable Urban Design, MSUD (<http://catalog.illinois.edu/graduate/faa/sustainable-urban-design-msud/>)  
Heritage Studies Graduate Minor (<http://catalog.illinois.edu/graduate/faa/minor/heritage-studies/>)

joint programs:

Landscape Architecture, MLA & Urban Planning, MUP  
(p. 1121)

The Department of Landscape Architecture offers the Master of Landscape Architecture (MLA) degree, the Master of Sustainable Urban Design degree (MSUD), and the PhD degree. The programs enable students to gain fresh insights and to conduct new research pertaining to land and its use by people. Courses and faculty research activities range from on-site to regional scales, and include environmental planning and design as well as community design, cultural heritage, and history.

The MLA is an accredited first professional degree. Students may pursue specialized areas that reflect their interests and career aspirations. This may include ecological design, community design, and cultural heritage history and design. Joint MLA/MUP is available.

## Admission

The Graduate College admission requirements apply. Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. MLA candidates from undergraduate design programs must submit portfolios with applications to the MLA program. Candidates without undergraduate preparation in landscape architecture will be admitted on limited status

and must complete undergraduate prerequisite courses in addition to graduate work. All students must begin their studies in the fall semester.

## Financial Aid

**Students compete for fellowships, assistantships and tuition/service fee waivers. Some awards are determined during admissions review and students are informed through the acceptance letter. There are also some financial aid opportunities during the course of study (e.g., semester-long TA positions when available).**

**for the degree of Master of Landscape Architecture in Landscape Architecture**

## Master of Landscape Architecture-Thesis Option

Specific courses to be taken are determined in consultation with an adviser. Some students complete a master's thesis (LA 599), others develop a specialization through additional coursework.

Code	Title	Hours
LA 438	Design Workshop Studio II	3 to 6
LA 470	Social/Cultural Design Issues	3
LA 501	Landscape Arch Theory & Prac	2
LA 597	Research Design & Methods	3
LA 599	Thesis Research	10
Coursework		23
Additional undergraduate coursework will be required of students without a BLA. These prerequisites do not count toward the graduate degree.		
Internship required		0
Total Hours		48

## Other Requirements <sup>1</sup>

Requirement	Description
Internship required	
Other requirements may overlap	
Minimum Hours Required Within the 48 Unit:	
Minimum 500-level Hours Required	24
Overall:	
Minimum GPA:	3.0

## Master of Landscape Architecture-Specialization Option

Specific courses to be taken are determined in consultation with an adviser. Students develop a specialization through elective coursework and design studios. In their final semester, they prepare a document that describes their specialization.

Code	Title	Hours
Required Coursework		18
Design Studio Coursework		
LA 438	Design Workshop Studio II (taken twice)	
LA 470	Social/Cultural Design Issues	
LA 501	Landscape Arch Theory & Prac	
LA 597	Research Design & Methods	
Coursework, including specialization electives <sup>2</sup>		30

Additional undergraduate coursework will be required of students without a BLA. These prerequisites do not count toward the graduate degree. Required internship credit does not count towards the required 48 hours of graduate-level credit.

Total Hours 48

## Other Requirements <sup>1</sup>

Requirement	Description
Minimum Hours within the Unit	24
Minimum 500-level hours required overall	18
Internship required	5
Minimum GPA	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Handbook (<http://www.landarch.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

<sup>2</sup> Specific courses to be taken are determined in consultation with an advisor. Students develop a specialization through elective coursework and design studios. In their final semester, they prepare a document that describes their specialization.

## Learning Outcomes: Landscape Architecture, MLA

Learning Outcomes for the degree of Master of Landscape Architecture in Landscape Architecture

Master of Landscape Architecture students will:

- Design Thinking.** Use a variety of processes to discover and frame opportunities, generate multiple possibilities, evaluate and refine ideas, rapidly prototype and test your proposal, and share your ideas in a compelling manner.
- Communicate with Skill.** Use a variety of digital tools to generate design proposals, test those proposals, and share your ideas with others.
- Tap into Existing Knowledge.** Incorporate our best understanding of natural resources, environmental systems, human development, social systems, professional practice and professional ethics into your work.
- Technical Competence.** Demonstrate the technical competence to translate design proposals into built work.
- Responsibility and Leadership.** Develop and demonstrate a sense of responsibility to the land and the people for whom we design.

## Landscape Architecture, PhD

*for the degree of Doctor of Philosophy in Landscape Architecture*

**Head of the Department D. ---

**Graduate Degree Programs in Landscape Architecture**

Landscape Architecture, MLA (p. 805)

**optional concentration:** Medieval Studies (p. 1076)

Landscape Architecture, PhD (p. 806)

**optional concentration:** Medieval Studies (p. 1076)**joint programs:**

Landscape Architecture, MLA &amp; Business Administration, MBA (p. 1121)

Landscape Architecture, MLA &amp; Urban Planning, MUP (p. 1121)

The Department of Landscape Architecture offers work leading to the Master of Landscape Architecture (MLA) degree (p. 805) and the PhD degree. The programs enable students to gain fresh insights and to conduct new research pertaining to land and its use by people. The PhD program is jointly administered with the School of Architecture and emphasizes both interdisciplinary study and cross-disciplinary inquiry. Areas of concentration include history and theory; technology and environment; and behavioral and cultural factors in design. Before submitting an application, students should consult the department website for information regarding the specific areas of study and the time needed to complete the requirements.

Several faculty members in the department also participate in the doctoral program administered by the Department of Urban and Regional Planning. See the program description under Regional Planning, PhD (p. 961) for more information.

**Admission**

The Graduate College admission requirements apply. Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. The doctoral program prefers candidates with master's degrees: MLA, MArch, or related fields such as art history, ecology, geography, or planning. All graduate students must begin their studies in the fall semester.

**Graduate Teaching Experience**

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the PhD program.

**Financial Aid**

Students compete for fellowships, tuition and service fee waivers, and assistantships. Selection is based on the academic achievement and qualifications of the student.

**for the degree of Doctor of Philosophy in Landscape Architecture**

For additional details and requirements refer to the department's Program Curriculum (<http://www.landarch.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**Research Methods**

Students must complete at least one research methods course.

In addition to research methods courses taught within the School of Architecture and Department of Landscape Architecture, students are encouraged to consider similar courses in other units, consulting with their advisors to determine whether those meet the research methods requirement.

**Preliminary Exams**

In consultation with their advisors, students select a committee of faculty members for their preliminary exam. Upon completion of coursework, students prepare a dissertation proposal and undertake the preliminary examination in two parts: written and oral. Policies governing the preliminary examination are detailed in the Ph.D. Program Handbook. Upon passing the preliminary examination, students are advanced to candidacy and may proceed with work on their dissertations.

**Dissertation**

Because the Doctor of Philosophy degree is primarily a research degree, candidates are required to demonstrate a capacity for independent research by producing an original dissertation on a topic within the discipline of Architecture.

**Dissertation Defense**

After completion of the dissertation, the student is required to defend the dissertation before their Dissertation Committee in a public forum, an event known in the Graduate College as the Final Exam.

**96-hour program for students entering with a Baccalaureate Degree**

Code	Title	Hours
All students are required to enroll in the PhD colloquium during the fall of their first year of course work.

## Learning Outcomes: Landscape Architecture, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Landscape Architecture

PhD students in the Department of Landscape Architecture will:

1. **Research Skills.** Develop and practice a variety of research skills. Students will design their research strategy; obtain and analyze evidence; develop evidence-based arguments; identify and evaluate

the existing critical literature of the field; master languages in some cases, and in other cases master advanced computer programs.

2. **Communicate with Clarity.** Develop and demonstrate the ability to communicate complex and original ideas through clear writing supplemented by graphic representations and delivered as text (dissertation), speech (lecture presentations), and image (PowerPoint to accompany lectures). Doctoral students will gain an advanced level of written, visual, and technical literacy.
3. **Original Research.** Develop and carry out a major, original research investigation; develop it into an extended argument (the dissertation), the outcome of which might be a book, policy guidelines, a series of journal articles, or a patent.
4. **Design Research.** Use ideas and methods from design research to explore questions that advance knowledge that supports design.
5. **Pedagogy.** Demonstrate understanding of basic concepts about teaching and practice a range of instructional techniques in classrooms and studio contexts.

## Latin American Studies, MA

Including classroom and online courses in Quechua, the most spoken native language in the American continent.

Specializations in Latin American and Caribbean Studies are administered by the director of the Center for Latin American and Caribbean Studies.

Candidates for the master's degree who elect a specialization in Latin American and Caribbean Studies must complete 8 graduate hours from the courses prescribed by the center. Doctoral candidates who elect a specialization in this area must complete 16 graduate hours for one specialization or 8 graduate hours for a split specialization. Courses must be taken in at least two departments; a list of courses fulfilling the specialization is available from the center. A specialization in agricultural economics and foreign areas studies (in this case, Latin American and Caribbean Studies) is also available. A high level of proficiency in one or more languages of the region (Spanish, Portuguese, and Amerindian Indian languages) is required. For course information, requirements, and methods used to establish the level of proficiency, contact the center's academic programs coordinator.

Students in technical and professional colleges and schools of the University of Illinois at Urbana-Champaign who seek knowledge of

the Latin American and Caribbean region and languages are invited to consult with the director of the center or with their adviser in order to develop programs suited to their individual needs. Such a program may often be adopted as a specialization under existing regulations if the student so desires. These courses are of particular value to students who intend to undertake technical or professional work in the Latin American and Caribbean area for government, private business, publishing, or religious organizations.

---

## Graduate Degree Programs in Latin American & Caribbean Studies

Latin American Studies, MA (p. 808)  
Graduate Minor in Latin American & Caribbean Studies  
(p. 1103)

The Center for Latin American and Caribbean Studies administers a program of language and area courses leading to an interdisciplinary Master of Arts degree. The master's program facilitates studies in the languages, cultures, and affairs of the region for three constituencies of students: those seeking to match area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those for whom the degree would stand on its own. The center also administers graduate specializations in Latin American and Caribbean Studies with various departments. The center is a Title VI National Resource Center. The center houses the Lemann Institute for Brazilian Studies.

### Language Instruction

The Center offers 3 levels of Quechua, the most spoken language in the American continent, with approximately 13 million of speakers in 6 countries. The Center also offers Quechua online courses and free access to the publication *Correo de Lingüística Andina* and free exercises on Quechua. Visit [www.clacs.illinois.edu/quechua/](http://www.clacs.illinois.edu/quechua/) (<http://www.clacs.illinois.edu/quechua/>).

Other languages in the University that fulfill the M.A. requirements are Spanish and Portuguese, both offered at the School Literatures, Cultures, and Linguistics.

### Faculty Research Interests

More than 100 faculty throughout the University are currently affiliated with the Center. The Center's faculty devote all or a portion of their teaching and research to Latin American subjects, from agriculture to politics, culture and linguistics. Their expertise spans every important discipline and sub-region of Latin America and the Caribbean, with particular strength in the Andean countries, the Caribbean, lowland South America, Mexico, and Brazil.

For a complete list of our affiliated faculty and their research and teaching interests check our people page at <http://www.clacs.illinois.edu/about/people/faculty.aspx>.

### Facilities and Resources

#### Latin American Library Collection (LALC)

The Center assist the Latin American Collection (<http://www.library.illinois.edu/lat/>) at the University Library in purchasing teaching and research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments.

The LALC collection ranks among the six largest in the country and is the largest collection in the Midwest region in purchasing teaching and

research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments. It is located in the third floor of the main UIUC library in room 324 and while the Library itself does not house a circulating collection, our knowledgeable staff is available to help locate relevant materials, answer reference questions, and assist you in developing effective searching strategies.

The Latin American and Caribbean Library collection includes:

- **More than 400,000 monograph titles;**
- **Newspapers and magazines from over 20 Latin American and Caribbean countries;**
- **A strong collection of journals in the humanities and social sciences, as well as publications of professional associations, government agencies, central banks, and non-governmental organizations;**
- **Access to HAPI Online (Hispanic American Periodicals Index), the Handbook of Latin American Studies (<http://lcweb2.loc.gov/hlas/>), and other online databases;**
- **An extensive collection of videos available at the Media Center in the Undergraduate Library;**
- **over 32,000 maps of Latin America (housed in the Map and Geography Library);**
- **comprehensive holdings of Brazilian and Andean materials;**
- **Extensive holdings by and about Gabriel Garcia Marquez;**
- **Publications from the Archivo General de la Nacion de Mexico; and**
- **A comprehensive Latin American music collection.**

### List-serv

The Center administers a listserv with more than 500 subscribers. Weekly mass messages "CALCS/Lemann Institute this Week" contain information on activities in campus related to Latin America and the Caribbean region (conferences, workshops, movies), new courses and job positions as well as future conferences in other Universities. To subscribe contact: Angelina Cotler ([cotler@illinois.edu](mailto:cotler@illinois.edu)).

### CLACS Brownbags

Every Thursday at Noon in Room 101 International Studies Building (910 S. Fifth Street in Champaign) CLACS presents a lecture offered by a faculty, graduate student or outside faculty on topics relevant to the region. These are open and free brownbag lectures. For complete list of presentations during the semester visit our website on the events section.

### Opportunities and Events

The Center keeps update a complete list of jobs, grants, conferences, and fellowships in the U.S. and abroad for graduate students and faculty. Check it at <http://www.clacs.illinois.edu/news/opportunities.aspx>.

### Outreach Program (<http://www.clacs.illinois.edu/outreach/default.aspx>)

One of the goals of our mission is to increase knowledge and awareness of Latin America and the Caribbean in the educational community and the general public by promoting language and area studies in their broadest sense. Outreach at CLACS is a service-oriented program funded through a Title VI Federal Area Studies grant. It is designed to increase public knowledge about Latin America and the Caribbean and Latin American and Caribbean peoples and cultures. All our services are free! Services include

- Speakers Bureau composed by graduate students and faculty for presentations in schools on Latin American topics.
- Outreach Library for k-14 teachers and instructors that includes books and DVDs.
- Collaborates with the Illinois International Review, the University of Illinois' new international publication; produces CLACS this Week, a weekly Calendar of Events; and an annual newsletter on Quechua instruction, *Correo de Linguística Andina*.
- Publishes several curriculum development workbooks including: *Columbus: Beyond the Myth*, *A Teacher's Workbook on Tropical Rain Forests*, and *Historia Oral: The Latina/o Experience in the United States*.
- Organizes the Latin American Brownbag Colloquium, a weekly series of noon seminars in which faculty, students, and visiting scholars present current research and speak on topics of special interest. Additionally, the Center sponsors many cultural events, such as Latin American music and dance ensembles, and art exhibitions.
- Maintains links to Web based curriculum-related materials on its outreach Web pages as a means of facilitating access to curriculum resources and research materials on Latin America and the Caribbean.

For more information visit <http://www.clacs.illinois.edu/outreach/default.aspx>.

## Links

Links to local museums, units and clubs that offer Latin American and Caribbean services as well as external links to institutions abroad and in the U.S. [www.clacs.illinois.edu/resources/](http://www.clacs.illinois.edu/resources/) (<http://www.clacs.illinois.edu/resources/>).

## Financial Aid

The Center is a recipient of Federal Government Title VI Foreign Language and Area Studies (FLAS) Fellowships for Graduate Studies in any discipline that includes a specialization in Latin American Studies and an intensive program of language instruction. Academic year language courses and summer fellowships for intensive language courses abroad or in the United States are available. Information on how to apply, requirements and datelines are posted in <http://publish.illinois.edu/illinoisflas/>.

The Center offers Tinker Summer Fellowship Research Grants for graduate students in any department wishing to do research during the summer in Latin America, the Caribbean and the Iberian Peninsula. Both these programs depend on outside funding and thus cannot be guaranteed in any given year. Information on how to apply, requirements and datelines are posted in <http://www.clacs.illinois.edu/academics/fellowships/tinker.aspx>.

### *for the degree of Master of Science in Latin American Studies*

Specializations in Latin American and Caribbean Studies are administered by the director of the Center for Latin American and Caribbean Studies.

Candidates for the master's degree who elect a specialization in Latin American and Caribbean Studies must complete 8 graduate hours from the courses prescribed by the center. Doctoral candidates who elect a specialization in this area must complete 16 graduate hours for one specialization or 8 graduate hours for a split specialization. Courses must be taken in at least two departments; a list of courses fulfilling the specialization is available from the center. A specialization in agricultural

economics and foreign areas studies (in this case, Latin American and Caribbean Studies) is also available. A high level of proficiency in one or more languages of the region (Spanish, Portuguese, and Amerindian Indian languages) is required. For course information, requirements, and methods used to establish the level of proficiency, contact the center's academic programs coordinator.

Students in technical and professional colleges and schools of the University of Illinois at Urbana-Champaign who seek knowledge of the Latin American and Caribbean region and languages are invited to consult with the director of the center or with their adviser in order to develop programs suited to their individual needs. Such a program may often be adopted as a specialization under existing regulations if the student so desires. These courses are of particular value to students who intend to undertake technical or professional work in the Latin American and Caribbean area for government, private business, publishing, or religious organizations.

Code	Title	Hours
	Core interdisciplinary seminar (LAST 550 or different if indicated)	4
	Graduate hours in 400-500 level courses in theory or research methods appropriate to the student's objectives and primary discipline	4-8
	Area Courses that focus on Latin America or the Caribbean, of which at least 8 graduate hours must be taken in one (primary) discipline	20-24
	Language Requirement: Demonstration that a communicative competence in Spanish, Portuguese, or other language indigenous to the area (excluding English) equivalent to six semesters' (undergraduate) work has been achieved.	
LAST 599	Thesis Research (min/max applied toward degree)	8
Total Hours		40

## Other Requirements

Requirement	Description
	Other requirements may overlap
	A thesis is required.
Minimum 500-level Hours Required	12
Overall:	
Minimum GPA:	3.25

<sup>1</sup> For additional details and requirements refer to the department's graduate program (<http://www.clacs.illinois.edu/academics/graduate/graduate.aspx>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Latin American Studies, MA

Learning Outcomes for the degree of Master of Science in Latin American Studies

1. **Advanced Proficiency in a Latin American Language (Spanish, Portuguese, Indigenous)** - This will be assessed through completion of appropriate level course work and through OPI or equivalent testing.

## 2. Diverse Perspectives

- Students will partake in interdisciplinary inquiry that engages multiple disciplinary lenses and theoretical frameworks.
- Students should be able to apply these frameworks to multiple contexts (spatial, temporal, cultural etc.) within Latin American Studies.

## 3. Critical and Applied Learning

- Students should be able to critically and reasonably evaluate and apply their knowledge to current debates within Latin American Studies.
- Students will be able to apply interdisciplinary learning across multiple contexts, integrating knowledge and practice.

## 4. Interdisciplinary Research

- Students should be able to apply their knowledge to the design and implementation of along-term independent research project that uses both primary and secondary sources and articulates with current debates within Latin American Studies.
- They should be able to effectively communicate the results of that research in written form by producing a MA thesis.

## 5. Effective Communication

- Students should be able to identify research problems, approach these problems with appropriate methodologies and effectively communicate the results. They should be able to apply their knowledge to real-world situations.
- Students should be able to effectively communicate in written and oral form their knowledge of Latin American culture and language to a broad non-specialist audience.

# Law, JSD

## for the Doctor of the Science of Law

dean of the college: **Vikram David Amar**

associate dean for graduate and international programs: **Margareth Etienne**

correspondence and admission information: **Christine Renshaw, Office of Graduate and International Legal Studies**

college website: <https://law.illinois.edu>

college faculty: Law Faculty (<https://law.illinois.edu/faculty-research/faculty-profiles/>)

college address: **244 Law Building, 504 East Pennsylvania Avenue, Champaign, IL 61820**

phone: **(217) 333-6066**

email: [law-gradprograms@illinois.edu](mailto:law-gradprograms@illinois.edu)

The Doctor of the Science of Law (J.S.D.) degree provides students who primarily intend to pursue an academic career an opportunity for extended study, research, and scholarly writing. Those admitted to the program must have demonstrated analytic and research ability, possess outstanding academic credentials, and have completed the LL.M. or other law degree from the University of Illinois or other accredited American law school. In exceptional cases, consideration will be given to applicants who have completed programs of study in common law countries. All candidates must provide evidence of excellent reading and writing skills in English. The J.S.D. program normally takes a minimum of three years. Two years must be completed in residence at the College of Law and must include two semesters of course work. J.S.D. candidates are assigned a primary faculty advisor with expertise in the student's research area and an additional three faculty members, who form the

student's doctoral committee. Each student must pass a qualifying examination demonstrating general proficiency in the student's field of study and a preliminary examination on the research proposal. The student's faculty committee then will assess the student's thesis research and writing progress, make recommendations, and conduct an oral examination on the final draft of the dissertation. The final dissertation will then be completed and deposited with the Graduate College.

#### Joint Degrees with the Law, JD:

Business Administration, MBA (p. 1122)|Chemistry, MS (p. 1121)|Computer Science, MCS (p. 1115)|Human Resources and Industrial Relations, MHRIR (p. 1119)|Journalism, MS (p. 1120)|Natural Resources & Environmental Sciences, MS (p. 1123)|Political Science: Civic Leadership, MA (p. 1127)|Political Science, PhD (p. 1127)|Urban Planning, MUP (p. 1132)|

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

## Learning Outcomes: Law, JSD

Learning Outcomes for the Doctor of the Science of Law

- Demonstrate basic knowledge of American substantive and procedural law. This requires:
  - The foundational rules governing liability for civil and criminal wrongdoing.
  - The foundational rules that regulate the transaction of business among individuals and the ownership of property.
  - The constitutional rules that shape the American legal system.
  - The procedural rules that govern court adjudication.
  - Several advanced areas of substantive or procedural law or both.
- Use legal reasoning and legal analysis. This requires:
  - The ability to identify, formulate, and apply legal rules.
  - The ability to read and analyze judicial opinions.
  - The ability to parse and interpret statutes, regulations, contracts, and other similar legal texts.
  - The ability to construct legal arguments and evaluate critically one's own and others' legal arguments.
  - The ability to identify and evaluate the practical consequences of various legal rules and to formulate policy arguments for and against those rules.
- Develop practical legal skills. This requires:
  - The ability to write clearly and effectively in a wide range of legal contexts and for various audiences, such as courts, clients, opposing counsel and academics.
  - The ability to articulate one's thoughts verbally in a clear and effective manner.
  - Knowledge of and ability to use tools of legal research.
  - The ability to identify and gather factual information relevant to the application of legal rules.

- The ability to work collaboratively with others, including others with opposing interests.
- Conduct himself or herself professionally and in keeping with the highest standards of civic virtue. This requires:
    - Knowledge and appreciation of the ethical rules governing legal practice and/or academic research.
    - The ability to learn and grow professionally through self-reflection and continuing education.
    - An understanding of the lawyer's distinctive role in society and of the lawyer's concomitant responsibility to contribute to society through public service and pro bono representation.
    - The ability to understand and be understood across various social, economic, cultural, political, national, racial, gender, and ethnic backgrounds.
  - Produce a substantial piece of original academic research. This requires:
    - Mastery of literature in a particular area.
    - Mastery of the sub-field in which a thesis will be written.
    - Acquisition of expertise in the subject area of one's thesis.

### for the degree of Master of Laws

Each Concentration offers a directed, optional program of study for LL.M. students in an increasingly important field of global legal practice. Each Concentration provides (1) specialized training in the Concentration field of law, (2) guidance to students in developing a program of study with the courses deemed most useful and relevant to the Concentration, and (3) a Concentration designation on their transcripts that will better allow them to market their expertise, thus gaining a competitive advantage in the legal employment market. In some instances, a Dual Concentration (i.e., in Intellectual Property and Justice, Democracy and Legal Rights) is available to eligible students. Eligible students must apply to pursue the Dual Concentration and may stay in residence an additional semester so that the 14-credit requirements of the second Concentration can be independently met. In the case of the Dual Concentration, credits used to satisfy one Concentration cannot be used to satisfy the requirements for

a second Concentration. Students interested in remaining in residence for a third semester to complete their program of study must apply by the listed deadline at the start of the second semester of the LL.M. degree. The Concentrations require students to complete a minimum of fourteen credit hours in topics integral to each Concentration. Courses taken toward a Concentration will count toward the student's LL.M. degree, and must be selected with the program advisor.

The Master of Laws (LL.M.) degree is designed to prepare students with or without any prior legal training to enhance their professional development by adding familiarity with U.S law. Applicants must hold a bachelor's degree (or equivalent degree) from an approved school listed on the International Association of Universities List of Higher education Institutions. Full consideration for admission to the LL.M. program will be given to applicants holding a bachelor's degree in law or a bachelor's degree in a subject outside law.

The LL.M. degree requires the completion of at least 32 graduate hours of credit and is normally completed in one academic year. All candidates are required to pass Professional Responsibility (LAW 501), a four hour graduate course and LL.M. Legal Research and Writing (LAW 500) a two hour graduate course. The remaining graduate hours are selected from any College of Law course.

Code	Title	Hours
LAW 500	LLM Legal Writing and Research	2
LAW 501	Professional Responsibility	3 or 4
<b>Total Hours</b>		<b>32</b>

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum 500-level (or higher) Hours Required Overall:	12
One academic year in residence	
Minimum GPA:	2.75

Each Concentration offers a directed, optional program of study for LL.M. students in an increasingly important field of global legal practice. Each Concentration provides (1) specialized training in the Concentration field of law, (2) guidance to students in developing a program of study with the courses deemed most useful and relevant to the Concentration, and

(3) a Concentration designation on their transcripts that will better allow them to market their expertise, thus gaining a competitive advantage in the legal employment market. In some instances, a Dual Concentration (i.e., in Intellectual Property and Justice, Democracy and Legal Rights) is available to eligible students. Eligible students must apply to pursue the Dual Concentration and may stay in residence an additional semester so that the 14-credit requirements of the second Concentration can be independently met. In the case of the Dual Concentration, credits used to satisfy one Concentration cannot be used to satisfy the requirements for a second Concentration. Students interested in remaining in residence for a third semester to complete their program of study must apply by the listed deadline at the start of the second semester of the LL.M. degree. The Concentrations require students to complete a minimum of fourteen credit hours in topics integral to each Concentration. Courses taken toward a Concentration will count toward the student's LL.M. degree, and must be selected with the program advisor.

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

## Graduate Degree Programs in the College of Law

Master of Laws, LLM (p. 812)

### concentrations:

Corporate Law, Commercial Law, & Trade (p. 814)|Criminal Law (p. 815)|Intellectual Property & Technology Law (p. 816)|International & Comparative Law (p. 817)|Justice, Democracy, & Legal Rights (<http://catalog.illinois.edu/graduate/graduate-majors/law/justice-democracy-legal-rights-concentration/>)|Regulation, Sustainability, & Compliance (<http://catalog.illinois.edu/graduate/graduate-majors/law/regulation-sustainability-compliance-concentration/>)|US Legal Practice Skills (p. 821)

Master of Studies in Law (<http://catalog.illinois.edu/graduate/law/master-studies-mls/>)

Doctor of the Science of Law (p. 811)

Law, JD ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/))

### Joint Degrees with the Law, JD:

Business Administration, MBA (p. 1122)|Chemistry, MS (p. 1121)|Computer Science, MCS (p. 1115)|Human Resources and Industrial Relations, MHRIR (p. 1119)|Journalism, MS (p. 1120)|Natural Resources & Environmental Sciences, MS (p. 1123)|Political Science: Civic Leadership, MA (p. 1127)|Political Science, PhD (p. 1127)|Urban Planning, MUP (p. 1132)|

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test

of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis

on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

## for the Master of Laws, Regulation, Sustainability, & Compliance Concentration

Each Concentration offers a directed, optional program of study for LL.M. students in an increasingly important field of global legal practice. Each Concentration provides (1) specialized training in the Concentration field of law, (2) guidance to students in developing a program of study with the courses deemed most useful and relevant to the Concentration, and (3) a Concentration designation on their transcripts that will better allow them to market their expertise, thus gaining a competitive advantage in the legal employment market. In some instances, a Dual Concentration (i.e., in Intellectual Property and Justice, Democracy and Legal Rights) is available to eligible students. Eligible students must apply to pursue the Dual Concentration and may stay in residence an additional semester so that the 14-credit requirements of the second Concentration can be independently met. In the case of the Dual Concentration, credits used to satisfy one Concentration cannot be used to satisfy the requirements for a second Concentration. Students interested in remaining in residence for a third semester to complete their program of study must apply by the listed deadline at the start of the second semester of the LL.M. degree. The Concentrations require students to complete a minimum of fourteen credit hours in topics integral to each Concentration. Courses taken toward a Concentration will count toward the student's LL.M. degree, and must be selected with the program advisor.

**email:** [law-gradprograms@illinois.edu](mailto:law-gradprograms@illinois.edu)

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

## Graduate Degree Programs in the College of Law

### Master of Laws, LLM (p. 812)

#### concentrations:

Corporate Law, Commercial Law, & Trade (p. 814)|Criminal Law (p. 815)|Intellectual Property & Technology Law (p. 816)|International & Comparative Law (p. 817)|Justice, Democracy, & Legal Rights (<http://catalog.illinois.edu/graduate/graduate-majors/law/justice-democracy-legal-rights-concentration/>)|Regulation, Sustainability, & Compliance (<http://catalog.illinois.edu/graduate/graduate-majors/law/regulation-sustainability-compliance-concentration/>)|US Legal Practice Skills (p. 821)

### Master of Studies in Law (<http://catalog.illinois.edu/graduate/law/master-studies-mls/>)

### Doctor of the Science of Law (p. 811)

### Law, JD ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/))

#### Joint Degrees with the Law, JD:

Business Administration, MBA (p. 1122)|Chemistry, MS (p. 1121)|Computer Science, MCS (p. 1115)|Human Resources and Industrial Relations, MHRIR (p. 1119)|Journalism, MS (p. 1120)|Natural Resources & Environmental Sciences, MS (p. 1123)|Political Science: Civic Leadership, MA (p. 1127)|Political Science, PhD (p. 1127)|Urban Planning, MUP (p. 1132)|

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

### for the Master of Laws, U.S. Legal Practice Skills Concentration

This concentration requires students to complete a minimum of 12 credit hours in topics integral to U.S. Legal Practice Skills in a third semester. The 12 credit hours for the concentration may not count towards the LL.M. degree or other concentration credit hours and must be completed in addition to the LL.M. or other concentration credit hours.

This concentration will be open to students in the LL.M. degree program at the College of Law. Students are expected to be in good standing and have a minimum overall GPA of 3.0 to be eligible for the concentration. This concentration is only available as a third-semester concentration. Interested students must apply by the listed deadline at the start of the second semester of the LL.M. degree.

## Master of Laws Requirements

Code	Title	Hours
LAW 500	LLM Legal Writing and Research	2

## Learning Outcomes: Law, MSL

Learning Outcomes for the Master of Studies in Law

- Demonstrate basic knowledge of American substantive and procedural law. This requires
  - The foundational rules governing liability for civil or criminal wrongdoing.
  - The foundational rules that regulate the transaction of business among individuals and the ownership of property.
  - The constitutional rules that shape the American legal system.
  - The procedural rules that govern court adjudication.
  - Several advanced areas of substantive or procedural law or both.
- Use legal reasoning and legal analysis. This requires:
  - The ability to identify, formulate, and apply legal rules.
  - The ability to read and analyze judicial opinions.
  - The ability to parse and interpret legal texts such as statutes, regulations, contracts.
- Bring practical legal skills. This requires:
  - The ability to write clearly and effectively in a wide range of legal contexts and for various audiences, such as courts, clients, opposing counsel and academics.
  - The ability to articulate one's thoughts verbally in a clear and effective manner.
  - Knowledge of and ability to use tools of legal research.
  - The ability to identify and gather factual information relevant to the application of legal rules.
  - The ability to work collaboratively with others, including others with opposing interests.
- Conduct himself or herself professionally and in keeping with the highest standards of civic virtue. This requires:
  - Knowledge and appreciation of the ethical rules governing legal practice.
  - The ability to learn and grow professionally through self-reflection and continuing education.
  - An understanding of the lawyer's distinctive role in society and of the lawyer's concomitant responsibility to contribute to society through public service and pro bono representation.

- d. The ability to understand and be understood across various social, economic, cultural, political, national, racial, gender, and ethnic backgrounds.

5. Produce a substantial piece of substantial research and analysis

## Library & Information Science, CAS

*for the Certificate of Advanced Study Major in Library & Information Science (on campus or online)*

**school faculty:** <https://ischool.illinois.edu/people/faculty> (<https://ischool.illinois.edu/people/faculty/>)

**graduate office:** 501 East Daniel Street, Champaign, IL 61820-6211

**program contact:** Moises Orozco Villicana

**phone:** (217) 333-7197, (800) 982-0914 (within the US)

**email:** [ischool-apply@illinois.edu](mailto:ischool-apply@illinois.edu)

Students and faculty advisers work closely together in selecting appropriate courses of study to meet individual needs. Possible areas of focus include digital libraries, management, and youth services.

### On-Campus or Online

The CAS may be completed on-campus or through the online scheduling option.

Students admitted to the CAS program may optionally pursue a concentration in Digital Libraries (p. 825).

## Graduate Degree Programs in the School of Information Science

Bioinformatics: Library & Information Science, MS (p. 608) **(on campus & online)**

Information Management, MS (p. 793) **(on campus & online)**

Library & Information Science, MS (p. 827) **(on campus & online)**

Library & Information Science, CAS (p. 824) **(on campus & online)**

### concentration:

Digital Libraries (p. 825)

Information Sciences, PhD (p. 795)

### concentration:

Writing Studies (p. 1084)

### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 1113)

Library & Information Science, MS and History, MA (p. 1117)

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 1113)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

### School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

### Facilities and Resources

Among the major areas of faculty research are:

- **community informatics**
- **data analytics**
- **data curation**
- **digital humanities**
- **digital libraries**
- **history of information**
- **information retrieval**
- **organization of knowledge and information**
- **privacy, security, and trust**
- **ethics and values for information**
- **youth literature, culture, and services**

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, *Library Trends* and *The Bulletin of the Center for Children's Books*. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

### Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

### ***for the Certificate of Advanced Study Major in Library & Information Science (on campus or online)***

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and

the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

### **This degree program can be completed either on campus or online; the requirements are listed below:**

Code	Title	Hours
IS 593	Advanced Topics in Preservation & Tech Services	8
Elective hours (max. of 8 hours of Independent Study)		32
<b>Total Hours</b>		<b>40</b>

### **Other Requirements (may overlap)**

Requirement	Description
Masters Degree in Library and Information Science is required for admission	
A concentration is not required.	
Minimum Hours Required Within the 24 Unit:	
Minimum 500-level Hours Required	12
Overall:	
The credit-no credit option can only be applied to courses taken outside the library and information science curriculum and courses taken with this option can not be applied to the degree.	
Minimum GPA:	3.25

## **Learning Outcomes: Library & Information Science, CAS**

Learning Outcomes for the Certificate of Advanced Study Major in Library & Information Science (on campus or online)

1. Identify a problem or challenge facing a precisely defined professional community.
2. Articulate current community understanding of and practice with respect to the challenge or problem.
3. Explain the challenge and its broad implications to an audience of professional peers
4. Design a plan of action for engaging with the challenge.
5. Develop and communicate a demonstration of the plan and its execution.

The MS in LIS is accredited by the American Library Association (ALA). Two scheduling options are available to students pursuing the MS degree.

## On-campus or Online

The on-campus option serves students who are in residence at Urbana-Champaign, as well as part-time, commuting students. The online scheduling option is an online education option that uses the Internet and other information technologies for delivery.

A thesis is not required but is available as an option. Students prepare for careers in all types of information organizations. Examples of the professional positions graduates hold include: Internet trainer, webmaster, and knowledge manager, as well as work in reference, automated systems, cataloging, youth services, school media, and other positions in public, academic, school, and special libraries.

## Graduate Degree Programs in the School of Information Science

Bioinformatics: Library & Information Science, MS (p. 608) **(on campus & online)**

Information Management, MS (p. 793) **(on campus & online)**  
Library & Information Science, MS (p. 827) **(on campus & online)**

Library & Information Science, CAS (p. 824) **(on campus & online)**

### concentration:

Digital Libraries (p. 825)

Information Sciences, PhD (p. 795)

### concentration:

Writing Studies (p. 1084)

### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 1113)

Library & Information Science, MS and History, MA (p. 1117)

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 1113)

### School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

## School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

## Facilities and Resources

Among the major areas of faculty research are:

- **community informatics**
- **data analytics**
- **data curation**
- **digital humanities**
- **digital libraries**
- **history of information**
- **information retrieval**
- **organization of knowledge and information**
- **privacy, security, and trust**
- **ethics and values for information**
- **youth literature, culture, and services**

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, *Library Trends* and *The Bulletin of the Center for Children's Books*. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

### ***for the degree of Master of Science in Library & Information Science (on campus & online)***

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and

the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

**This degree program can be completed with or without a thesis, either on campus or online; the requirements are listed below:**

### Thesis Option

Code	Title	Hours
IS 501	Reference and Information Services	4
IS 502		4
Research/Project/Independent Study Hours (4 max applied toward degree)		4
IS 599	Thesis Research	8
Total Hours		40

### Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum Hours Required Within the 28 Unit:	
Minimum 500-level Hours Required	12
Overall:	
The credit-no credit option can only be applied to courses taken outside the library and information science curriculum and courses taken with this option can't be applied to the degree.	
Minimum GPA:	2.75

<sup>1</sup> For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

### Non-Thesis Option

Code	Title	Hours
IS 501	Reference and Information Services	4
IS 502		4
Research/Project/Independent Study Hours (4 max applied toward degree)		4
Total Hours		40

### Other Requirements <sup>1</sup>

## Learning Outcomes: Library & Information Science, MS

Learning outcomes for the degree of Master of Science in Library & Information Science (on-campus & online)

Graduates of the Illinois MS/LIS program will be able to:

1. Apply foundational concepts, theories, and principles to problems of information organization and access.
2. Communicate capably with diverse stakeholders, promoting not just access to but also effective use of information services and systems in specific contexts.
3. Use evidence to help address information problems, meet information needs, and create relationships in their institutions, communities, profession, and the world.
4. Compare and critique contemporary information practices, structures, and standards in relation to historical and global alternatives.
5. Apply core ethical principles to professional practice.

## Linguistics, MA

for the degree of Master of Arts in Linguistics

**head of department: Hye Suk James Yoon**  
**director of graduate studies: Tania Ionin**  
**director of admissions committee: Rakesh Bhatt**  
**email: deptling@illinois.edu**  
**department website: <https://linguistics.illinois.edu/>**  
**department faculty: [Linguistics Faculty \(https://linguistics.illinois.edu/directory/faculty/\)](https://linguistics.illinois.edu/directory/faculty/)**  
**overview of grad college admissions & requirements: <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)**  
**college website: <https://las.illinois.edu/>**  
**department office: 4080 Foreign Languages Building, 707 South Mathews, Urbana, IL 61801**  
**phone: (217) 333-3563**

Students are not admitted to the MA program directly. When Stage I of the doctoral program is completed doctoral students may earn the MA.

### Graduate Degree Programs in Linguistics

(Including African Languages [Bamana, Lingala, Swahili, Wolof, and Zulu], Arabic, Hindi-Urdu, Modern Greek, Persian, Sanskrit, and Turkish)

Linguistics, MA (p. 829)  
 Teaching of English as a Second Language, MA (MATESL)  
 (p. 1015)  
 Linguistics, PhD (p. 831)

**optional concentrations:**

Second Language Acquisition and Teacher Education  
 (p. 1080)

Romance Linguistics (p. 1079)

The Department of Linguistics offers graduate programs leading to the Master of Arts in Teaching English as a Second Language, and Doctor of Philosophy in Linguistics. Students are not normally admitted to a terminal master's in Linguistics degree program. More detailed information on departmental programs, offerings, admission, degree requirements, and financial aid, may be found at: [www.linguistics.illinois.edu](http://www.linguistics.illinois.edu) (<http://www.linguistics.illinois.edu>).

## Admission

Applicants to the MATESL and PhD programs in Linguistics must have completed a bachelor's degree.

For the PhD program in Linguistics, undergraduate preparation should include the study of at least one foreign language; a course equivalent to LING 400 on this campus; and a broad background in the humanities, social sciences, or mathematics.

For the MATESL program, an undergraduate major in linguistics, English, a foreign language, or education is generally recommended, though other majors are also acceptable. Applicants must present a grade point average of at least 3.0 (A = 4.0) for the last 60 hours of undergraduate work. Two years of coursework in a foreign language or the equivalent are also required.

Students may be admitted to the PhD program in Linguistics with or without a prior master's degree in linguistics or a related field. Depending on the student's prior preparation, they may be admitted either into Stage 1 of the PhD or into Stage 2 of the PhD. Students who have completed a master's degree in linguistics or a closely related field may be considered for admission to Stage 2 of the PhD program. Students without an approved prior master's degree will only be considered for admission to Stage 1 of the PhD program. Students admitted to Stage 1 must complete 40 credit hours in the areas listed on the department website, maintain a GPA of 3.5 or better in all core courses, and earn a grade of High Pass on the qualifying examination in order to advance to Stage 2. Students who are admitted directly to Stage 2, but lack any of the core courses required for Stage 1, must complete Stage 1 requirements immediately on entry into the program; the courses will not count toward the 64 hours required for Stage 2 of the PhD.

Applicants to all Linguistics graduate programs should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/) (<http://catalog.illinois.edu/graduate/las/linguistics-ma/www.grad.illinois.edu/admissions/apply/>)) and submit a statement of purpose, three letters of recommendation and a writing sample of 10-20 pages in length. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
 3070 Foreign Languages Bldg.  
 707 S. Mathews Ave.  
 Urbana, IL 61801

Graduate Record Examination (GRE) scores are required. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 (100 preferred) on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Financial Aid

The Linguistics department aims to provide financial aid for all graduate students in the Ph.D. program in Linguistics for up to five years, in the form of fellowships, teaching assistantships, research assistantships, or departmental assistantships. To hold a teaching assistantship non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)). Some students receive aid through other units in the University. New applicants receive automatic consideration for financial aid within the department, including teaching assistantships for the non-Western languages taught in its programs. For details and applications, write to the above address.

For students in the MATESL program, financial assistance is offered to as many qualified applicants as possible, but cannot be awarded to all. A record of extensive experience in teaching English as a second language enhances a candidate's chance of receiving financial assistance during one's first semester. A limited number of University fellowships are available for exceptionally qualified candidates. Teaching assistants ([www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)) teach students in the Division's ESL program and in the Intensive English Institute.

## for the degree of Master of Arts in Linguistics

The aim of the master's program is to instruct students in the major areas of linguistic theory and the methods of linguistic analysis. Candidates for this degree must earn at least 40 graduate hours with a minimum grade point average of 3.0 (A = 4.0) and satisfy other department and Graduate College requirements.

Code	Title	Hours
<b>Core Courses:</b>		<b>20</b>
Select one course each from two of the following four areas, for a total of two courses (8 hours): (a) sociolinguistics; (b) computational linguistics; (c) psycholinguistics/acquisition; (d) second language studies/applied linguistics		
LING 501	Syntax I	
LING 502	Phonology I	
LING 507	Formal Semantics I	
One course in quantitative and/or qualitative research methods		4
LING 590	Special Topics in Linguistics	2
LING 504	Practicum	2
Elective Courses		12
<b>Total Hours</b>	<b>Master's - Stage 1</b>	<b>40</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required	16
Overall:	
Stage 1 qualifying paper and examination, with a grade of Pass or High Pass	
Language Requirement: Students must have proficiency in one language other than their native tongue.	
Minimum GPA:	3.0

## Learning Outcomes: Linguistics, MA

Learning Outcomes for the degree of Master of Arts in Linguistics

1. Students will receive grounding in core areas of language and linguistics.
2. Students will receive grounding in their area of linguistic specialization.
3. Students will learn the research methodology appropriate for their subfield of linguistics.
4. Students will gain academic oral communication and presentation skills.
5. Students will gain academic writing skills.

## Linguistics, PhD

for the degree of Doctor of Philosophy in Linguistics

**head of department:** Hye Suk James Yoon  
**director of graduate studies:** Tania Ionin  
**director of admissions committee:** Rakesh Bhatt  
**email:** deptling@illinois.edu  
**department website:** <https://linguistics.illinois.edu/>  
**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

*for the degree of Doctor of Philosophy in Linguistics*

The aim of the PhD program in Linguistics is to instruct students in the major areas of linguistic theory and the methods of linguistic analysis, and to prepare students to become independent researchers in one or more linguistic subfields. Candidates entering with an approved master's degree must complete 64 graduate hours with a minimum grade point average of 3.0 (A = 4.0) and satisfy other department and Graduate College requirements. Candidates entering without an approved master's degree must complete 104 graduate hours with a minimum grade point average of 3.0 (A = 4.0) and satisfy other department and Graduate College requirements.

## Stage 1

**(Entering WITHOUT an approved Master's. Students are not admitted to the MA program directly. When Stage 1 of the doctoral program is completed doctoral students may earn the MA.)**

Code	Title	Hours
<b>Core Courses (minimum GPA 3.5 required):</b>		<b>20</b>
Select one course each from two of the following four areas, for a total of two courses (8 hours): (a) sociolinguistics; (b) computational linguistics; (c) psycholinguistics/acquisition; (d) second language studies/applied linguistics		
LING 501	Syntax I	
LING 502	Phonology I	
LING 507	Formal Semantics I	
One course in quantitative and/or qualitative research methods		4

LING 590	Special Topics in Linguistics	2
LING 504	Practicum	2
Elective Courses		12
<b>Total Hours</b>	<b>Master's - Stage 1</b>	<b>40</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required	16
Overall:	
Stage 1 qualifying paper and examination, with a grade of High Pass	
Language Requirement: Students must have proficiency in one language other than their native tongue.	
Minimum GPA:	3.0

## Stage 2

**(Entering the PhD Program WITH an approved Master's degree)**

Code	Title	Hours
One upper-level course in Syntax, Phonology, or Semantics		4
One upper-level course in one of the following areas: sociolinguistics, computational linguistics, psycholinguistics/acquisition, or second language studies/applied linguistics		4
Elective courses reflecting the student's interests and professional goals, selected in consultation with advisor		12
Research/Project/Independent Study Hours:		12
LING 599	Thesis Research (min/max applied toward degree)	32
<b>Total Hours</b>	<b>Stage 2 only</b>	<b>64</b>

Code	Title	Hours
<b>Total Hours</b>	<b>PhD (Stage 1 &amp; 2)</b>	<b>104</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
Stage 2 qualifying paper and examination	
Language Requirement: Students must demonstrate knowledge of the structure of a language that is not their native tongue nor the same language that satisfied the foreign language requirement for the MA degree	
One of the languages with which the student is familiar (this may be the student's native language, or the language used to satisfy one of the language requirements) is a non-European or a non-Indo-European language.	
Minimum GPA:	3.0
Master's Degree Required for Admission to PhD?	Yes

Qualifying Exam Required:	Yes
Preliminary Exam Required:	Yes
Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes

## Learning Outcomes: Linguistics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Linguistics

1. Students will receive grounding in core areas of language and linguistics.
2. Students will receive grounding in their area of linguistic specialization.
3. Students will learn the research methodology appropriate for their subfield of linguistics.
4. Students will gain academic oral communication and presentation skills.
5. Students will gain academic writing skills.
6. Students will learn to prepare a portfolio for the job market.

## Livestock Systems Health, MVS

*for the degree of Master of Veterinary Science in Livestock Systems Health*

**dean of the college:** Peter D. Constable

**faculty sponsor:** James F. Lowe

**overview of admissions & requirements:** <https://online.vetmed.illinois.edu/MVS-Application-Process> (<https://online.vetmed.illinois.edu/MVS-Application-Process/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** College of Veterinary Medicine (<http://www.vetmed.illinois.edu/>)

**department website:** Master Veterinary Science (<https://online.vetmed.illinois.edu/Master-Veterinary-Science/>)

**college office:** : i-Learning Center, 2938 Veterinary Medicine Basic Science Building, 2001 S Lincoln Avenue, Urbana, IL 61802

**phone:** 217-300-7439

**email:** [ilearningvetmed@illinois.edu](mailto:ilearningvetmed@illinois.edu)

The primary goal of the MVS degree program is to develop critical thinking skills, instill the desire to be life-long learners, and increase the depth and breadth of veterinary professional knowledge for food-producing animal industries. It aims to develop the skills needed to thrive in multiple career paths including specialized clinical practice, academia, industry, government, and clinical research. The Master of Veterinary Science with a major in Livestock Systems Health is a 32-hour program that will take approximately two years to complete. Design of the program focused on students currently in the workforce. Elective courses will include but are not limited to the following subject areas:

- Pathogen biology
- Immunology and Medical Microbiology
- Epidemiology and animal health economics
- Infectious disease control and management

- Systems management and systematic approaches to problem solving

### *for the degree of Master of Veterinary Science in Livestock Systems Health*

Code	Title	Hours
<b>Required:</b>		
VCM 565	Biostatistics, Information Management, and Data Analytics for Livestock Production Systems	3
VMS Experiential Learning (Capstone)		8
<b>Electives chosen from the following:</b>		<b>20</b>

---

The Master of Science in Management can be completed either on campus or online.

The Master of Science in Management is a 36 graduate hour master's program. It is designed to provide a foundation for practitioners leading and managing teams, units, or organizations. It provides a general management foundation and an opportunity to focus on a particular area of specialization.

Tuition and fee waivers are not available for this program.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 622) (**Full-Time**)  
**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Corporate Governance & International Business (p. 1065), Information Technology & Control (p. 1074), Real Estate (p. 1078), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 620) (**Professional - part-time**)

**with optional concentrations:** Business Data Analytics (p. 1061), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 618) (**online-iMBA**)

Business Administration, MS (p. 623)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Corporate Governance & International Business (p. 1065), Finance (p. 1071), Supply Chain Management (p. 1082)

Management, MS (p. 833) (**on-campus & online**)

**On-campus concentrations:** Business Data Analytics (p. 1061), Finance (p. 1071), Technology Management (p. 835)

Technology Management, MS (p. 1023)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Finance (p. 1071), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, PhD (p. 624)

### Minors:

Information Technology & Control (p. 1101)  
 Corporate Governance & International Business (p. 1095)  
 Supply Chain Management (p. 1110)

### Concentrations:

Business Data Analytics (p. 1061)  
 Corporate Governance & International Business (p. 1065)  
 Information Technology & Control (p. 1074)  
 Supply Chain Management (p. 1082)  
 Technology Management (<http://catalog.illinois.edu/graduate/bus/concentration/badm/technology-management/>)

### Joint Degree Programs:

MBA Joint Degree Program: (p. 1122) **the M.B.A. can be earned jointly with any master's or Ph.D. program offered on campus as well as the Law, JD** ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/)).

---

## Admission

Admission to the MS in Management program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours and for any previous graduate work completed along with completion of at least one college-level quantitative methods class. For additional details, please refer to the program's website. All applicants whose native language is not English must submit a minimum Test of English as a

Foreign Language (TOFEL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections.

## Faculty Research Interests

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The Gies College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

## Financial Aid

The M.S. in Business Administration, the M.S. in Management, the M.S. in Strategic Brand Communication, and the M.S. in Technology Management do not provide assistantships. Tuition and fee waivers are not available for this program.

*for the Master of Science in Management (on-campus and online)*

The MS in Management requires a minimum of 36 hours. Students are required to take at least 2 credit hours in each of the six courses listed under General Management Foundation Courses (12+ hours). Any remaining credit hours of the 24 credit hour core requirement need to be fulfilled by taking General Management Elective Courses. Students also need 12 credit hours of Graduate General Elective courses, which provide flexibility for individualization. Students with sufficient demonstrated background in one or more general management areas may, with permission of the program, replace General Management Foundation courses with additional General Management Elective or Graduate General Electives.

*For additional details and requirements, refer to the department's Program Curriculum (<https://giesbusiness.illinois.edu/msm/curriculum/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).*

Code	Title	Hours
<b>General Management Foundation Courses</b>		<b>12-24</b>
ACCY 503	Managerial Accounting	
FIN 500	Introduction to Finance	
BADM 508	Leadership and Teams	
BADM 520	Marketing Management	
BADM 544	Strategic Management	
BADM 567	Process Management	
<b>General Management Electives</b>		<b>0-12</b>
ACCY 500	Accounting Measurement, Reporting, and Control	
BADM 502	Communicating with Data and Decision Making	
BADM 513	Communication Strategy in Bus	
BADM 550	Technology Practicum	
BADM 588	Business Practice Immersion	

<b>Graduate General Electives - up to 12 hours of general graduate electives as needed to meet the minimum number of hours required.</b>	<b>12</b>
<b>Total Hours</b>	<b>36</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall	24
Minimum GPA:	2.75
International students with TOEFL scores below 613 (paper-based), 257 (computer-based), or 103 (internet-based), or IELTS score below 7.0, are required to take the English Placement Test (EPT) when they arrive on campus. After taking the EPT, most students are required to take a Business English course sequence. For these students, completion of the ESL course sequence is mandatory but does not count towards the 36 hour degree requirement.	

## Management: Technology Management, MS

*for the degree of Master of Science in Management, Technology Management concentration*

**department head: Cele Otnes**  
**director of graduate studies: Jeffrey Loewenstein (MS) and Olga Khessina (PhD)**

**phone: (217) 333-4240**

The concentration in Technology Management is designed to develop managers who can work effectively in technology intensive areas.

The concentration is open to students enrolled in:

### Management, MS (p. 833)

This concentration requires twelve graduate hours of Technology Management coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 622) (**Full-Time**)  
**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Corporate Governance & International Business (p. 1065), Information Technology & Control (p. 1074), Real Estate (p. 1078), Supply Chain Management (p. 1082)

Business Administration, MBA (p. 620) (**Professional - part-time**)

Business Administration, MBA (p. 618) (**online-iMBA**)

Business Administration, MS (p. 623)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Corporate Governance & International Business (p. 1065), Supply Chain Management (p. 1082)

Management, MS (p. 833)

**On-campus concentrations:** Business Data Analytics (p. 1061), Finance (p. 1071), Technology Management (p. 835)

Technology Management, MS (p. 1023)

**with optional concentrations:** Accountancy (p. 1048), Business Data Analytics (p. 1061), Business & Public Policy (p. 1062), Information Technology & Control (p. 1074), Supply Chain Management (p. 1082)

Business Administration, PhD (p. 624)

### Minors:

Information Technology & Control (p. 1101)  
 Corporate Governance & International Business (p. 1095)  
 Supply Chain Management (p. 1110)

### Concentrations:

Business Data Analytics (p. 1061)  
 Corporate Governance & International Business (p. 1065)  
 Information Technology & Control (p. 1074)  
 Supply Chain Management (p. 1082)

### Joint Degree Programs:

MBA Joint Degree Program: (p. 1122) **the M.B.A. can be earned jointly with any master's or Ph.D. program offered on campus as well as the Law, JD** ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/)).

## Admission

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and enrollment in a Gies College of Business graduate program or other graduate approved for the concentration. Admission is limited, and acceptance is considered based on a student's academic standing and space availability.

*for the degree of Master of Science in Management, Technology Management concentration*

This concentration requires twelve graduate hours of Technology Management coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

Code	Title	Hours

### Other Graduate Programs in the Department of Materials Science & Engineering

degrees:

Materials Science & Engineering, MS (p. 837)

#### optional concentrations:

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science & Engineering (p. 1064)

Materials Science & Engineering, PhD (p. 839)

#### optional concentrations:

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science & Engineering (p. 1064)

The Department of Materials Science & Engineering (MatSE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Materials Science & Engineering. The department is consistently ranked among the top programs in the nation (undergraduate and graduate) by U.S. News and World Report. It offers opportunities to specialize in Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions with strong research programs in all of the areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

## Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Master of Engineering in Materials Engineering

For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate-programs/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 585	Materials Engrg Practicum (The equivalent of two semesters of industrial internships or co-ops (30 weeks total; one of the semesters can be during the B.S. program or prior to enrollment).) <sup>1</sup>	2
	Two MSE area specialty courses in the student's chosen area of specialization.	6
	MSE area specialty courses in one area outside the student's chosen area of specialization (subject to Other Requirements and Conditions below)	3-6
	Technical elective course - Chosen from list appropriate for the student's area of specialization	3
	Elective courses – At least 10 hours of these elective courses shall be College of Engineering courses in one or more of the areas of business, technology management, and entrepreneurship as listed on an approved list available from the department. There is the possibility of obtaining one of the Technology Entrepreneur Center Certificates.	13-20
	Total Hours	36

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Minimum hours of MSE course work	11
Minimum of 500-level credit hours overall applied toward the degree.	12
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 2 hours may be applied toward the degree.	
A maximum of 2 hours of MSE 529 or MSE 559 in combination may be applied toward the degree. <sup>2</sup>	Ceramics, Electronic Materials, and Metallurgy area majors take MSE 529 every semester in residence; Polymer and Biomaterials area majors take MSE 559 every semester in residence

One or two MSE area specialty courses in one area outside the student's chosen area of specialization are required (two if one was not taken as part of the B.S. program)

Minimum GPA: 3.0

- <sup>1</sup> Students who are admitted to the M. Eng. program are responsible for finding a suitable internship. Department or college staff may be able to help students in their search for a suitable placement suitable internship but the department does not guarantee a placement. The MSE 585 internship requires approval by the departmental Director of Graduate Studies to insure that it matches the student's individual career objectives and meets the learning goals of the program. Students taking an internship as part of their undergraduate B.S program should also check with the Director of Graduate Studies; his/her approval is required if the student is already accepted in the combined B.S./M.Eng. Program. Students returning to the university after having had materials engineering employment experience, if it is deemed appropriate, may use that as their internship and base their report on that experience
- <sup>2</sup> Students will be expected to present an oral report on their internship in either MSE 529 or MSE 559, as appropriate, the semester following completion of the internship.

## Learning Outcomes: Materials Engineering, MENG

Learning Outcomes for the degree of Master of Engineering in Materials Engineering

1. The ability of students to function as independent scientists and engineers.
2. A deep understanding of the underlying principles of the appropriate theories in their subject area.
3. A deep understanding of the underlying principles of the synthesis and preparation of their subject materials.
4. A deep understanding of the underlying principles of characterization of their subject materials.
5. A deep understanding of the underlying principles of processing of their subject materials.
6. A deep understanding of interrelationships of structure, processing and properties of their subject materials.
7. A broad knowledge of the preparation, characterization and processing of all types of materials.

---

## Admission Requirements

Students with bachelor's or master's degrees in the natural sciences or engineering will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. The general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>) is required. Admission is possible for the spring semester under special circumstances, but most admissions are for the fall semester. Full details of admission requirements are on the department's graduate admissions Web site (<https://matse.illinois.edu/admissions/graduate-admissions/>).

All applicants whose native language is not English are required to submit the results of the TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) as evidence of meeting the English proficiency requirements for full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>). Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

## Financial Aid

Except for special circumstances, MatSE does not provide financial aid to students in the MS program. When available, financial aid is in the form of teaching assistantships.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the TOEFL iBT or IELTS, a minimum score of 4CP, 5 or 6 is required on

the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

The backgrounds of faculty members vary widely within the broad areas of Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions. In addition, research collaborations with other faculty outside the department are frequent. For a detailed list of faculty research interests and publications, view the MatSE department's faculty biographies. (<https://matse.illinois.edu/directory/faculty/>)

The MatSE department has an outstanding array of facilities available for materials research. These facilities, in addition to laboratories in the department's buildings, include, among others, the Materials Research Laboratory, Center for Microanalysis of Materials, Beckman Institute for Advanced Science and Technology, and Micro and Nanotechnology Laboratory. The National Center for Supercomputing Applications and the MRL Center for Computation are readily available. Information about these facilities may be found at the MatSE department's facilities information Web site (<http://www.matse.illinois.edu/research/facilities.html>).

## Admission Requirements

Students with bachelor's or master's degrees in the natural sciences or engineering will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. The general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>) is required. Admission is possible for the spring semester under special circumstances, but most admissions are for the fall semester. Full details of admission requirements are on the department's graduate admissions Web site (<https://matse.illinois.edu/admissions/graduate-admissions/>). (<https://matse.illinois.edu/admissions/graduate-admissions/>)

All applicants whose native language is not English are required to submit the results of the TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) as evidence of meeting the English proficiency requirements for full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>). Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

## Financial Aid

Financial aid is available in the form of research assistantships, teaching assistantships, and partial fellowships for students in the PhD programs. All applicants to the MatSE PhD program are automatically considered for financial support in the form of a research assistantship. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the TOEFL iBT or IELTS, a minimum score of 4CP, 5 or 6 is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. ## Other Graduate Programs in the Department of Materials Science & Engineering

degrees:

**Materials Science & Engineering, MS (p. 837)**  
**optional concentrations:**

Biomechanics (p. 1060)|Cancer Nanotechnology (p. 1063)|Computational Science & Engineering (p. 1064)

The Department of Materials Science & Engineering (MatSE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Materials Science & Engineering. The department is consistently ranked among the top programs in the nation (undergraduate and graduate) by U.S. News and World Report. It offers opportunities to specialize in Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions with strong research programs in all of the areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

---

*for the degree of Doctor of Philosophy in Materials Science & Engineering*

---

For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate-programs/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

### Entering with approved M.S. degree

Code	Title	Hours
MSE 599	Thesis Research (min-max applied toward the degree)	44
	One of CHEM 544, MSE 500, PHYS 504 with a grade of B or higher	4
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 595	Materials Colloquium	0-2
	Advisor group meetings (MSE 590) and area seminars (MSE 529, MSE 559) (subject to Other Requirements and Conditions below)	0-4
	Elective courses (subject to Other Requirements and Conditions below)	10-16
Total Hours		64

### Other Requirements and Conditions <sup>1</sup>

Requirement	Description
Other Requirements and Conditions may overlap	
MSE course work hours	10
500-level credit hours applied toward the degree	10
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 2 hours may be applied toward the degree.	
MSE 529 or MSE 559 (0 or 1 hours) must be taken every semester. A maximum of 4 hours may be applied toward the degree.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: <sup>2</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate/handbook.html>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

<sup>2</sup> Qualifying Exam Information (<https://matse.illinois.edu/academics/graduate/exams/>)

### Entering with approved B.S. degree

Code	Title	Hours
MSE 599	Thesis Research (min-max applied toward the degree)	52

	One of CHEM 544, MSE 500, PHYS 504 with a grade of B or higher	4
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 595	Materials Colloquium	0-4
	Advisor group meetings (MSE 590) and area seminars (MSE 529, MSE 559) (subject to Other Requirements and Conditions below)	0-8
	Elective courses (subject to Other Requirements and Conditions below) (28-40 hours)	28-40
Total Hours		96

### Other Requirements and Conditions <sup>1</sup>

Requirement	Description
Other Requirements and Conditions may overlap	
MSE course work hours	10
500-level credit hours applied toward the degree	10
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 4 hours may be applied toward the degree.	
MSE 529 or MSE 559 (0 or 1 hours) must be taken every semester. A maximum of 8 hours may be applied toward the degree.	
These students may earn a Master of Science degree during the Ph.D. program.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: <sup>2</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate/handbook.html>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

<sup>2</sup> Qualifying Exam Information (<https://matse.illinois.edu/academics/graduate/exams/>)

## Learning Outcomes: Materials Science & Engineering, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Materials Science & Engineering

1. The ability of students to function as independent scientists and engineers.
2. A deep understanding of the underlying principles of the appropriate theories in their subject area.

3. A deep understanding of the underlying principles of the synthesis and preparation of their subject materials.
4. A deep understanding of the underlying principles of characterization of their subject materials.
5. A deep understanding of the underlying principles of processing of their subject materials.
6. A deep understanding of interrelationships of structure, processing and properties of their subject materials.
7. A broad knowledge of the preparation, characterization and processing of all types of materials.

## Mathematics, MS

for the Master of Science in Mathematics

**department chair:** Jeremy Tyson

**director of graduate studies:** Lee DeVille

**overview of admissions & requirements:** <https://math.illinois.edu/admissions/graduate-program-mathematics-admissions#MS-Math> (<https://math.illinois.edu/admissions/graduate-program-mathematics-admissions/#MS-Math>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <http://www.math.illinois.edu>

**department faculty:** <https://math.illinois.edu/research/faculty-research> (<https://math.illinois.edu/research/faculty-research/>) and <https://math.illinois.edu/directory/faculty-by-type> (<https://math.illinois.edu/directory/faculty-by-type/>)

**college website:** <https://las.illinois.edu/>

**department office:** 273 Altgeld Hall, 1409 West Green Street, Urbana, IL 61801

**phone:** (217) 333-5749

**email:** [math-grad@illinois.edu](mailto:math-grad@illinois.edu)

The MS in Mathematics program allows students a wide range of course choices and can offer good preparation either for a job in industry or for pursuit of a doctorate in mathematics at another university. It is rare, though not impossible, for students to enter the PhD program at the University of Illinois after finishing the MS in Mathematics. The degree requires 32 credit hours and can normally be completed in 18 months. A master's thesis is optional. Applications are accepted for Fall semester each year. Financial aid is generally not available.

### Graduate Degree Programs in Mathematics

Actuarial Science, MS (p. 521)

Applied Mathematics, MS (p. 548)

Mathematics, MS (p. 842)

Mathematics, PhD (p. 843)

**optional concentrations:**

Actuarial Science & Risk Analytics (p. 844)

Computational Science and Engineering (p. 1064)

Teaching of Mathematics, MS (p. 1018)

Computational Science and Engineering (p. 1064)

for the Master of Science in Mathematics

For additional details and requirements refer to the department's Guide to Graduate Studies (<https://files.webservices.illinois.edu/7917/>)

GraduateGuide18-19.pdf) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

### Thesis Option

Code	Title	Hours
Select one of the following:		
MATH 448	Complex Variables	3-4
MATH 540	Real Analysis	
MATH 542	Complex Variables I	
Select one of the following:		
3-4		
MATH 418	Intro to Abstract Algebra II	3-4
MATH 500	Abstract Algebra I	
MATH 501	Abstract Algebra II	
MATH 599	Thesis Research (min/max applied toward degree)	4
Total Hours Required: 32		

### Other Requirements

Requirement	Description
Other requirements may overlap	
MATH 405, MATH 406, MATH 415, MATH 444, and MATH 499 cannot be counted toward this graduate degree.	
Minimum Hours Required Within the 24 Unit:	
Minimum 500-level Hours Required	12 (in MATH)
Overall:	
Minimum GPA:	3.0

### Non-Thesis Option

Code	Title	Hours
Select one of the following:		
MATH 448	Complex Variables	3-4
MATH 540	Real Analysis	
MATH 542	Complex Variables I	
Select one of the following:		
3-4		
MATH 418	Intro to Abstract Algebra II	3-4
MATH 500	Abstract Algebra I	
MATH 501	Abstract Algebra II	
Total Hours Required: 32		

### Other Requirements

Requirement	Description
Other requirements may overlap	
MATH 405, MATH 406, MATH 415, MATH 444, and MATH 499 cannot be counted toward this graduate degree.	
Minimum Hours Required Within the 24 Unit:	
Minimum 500-level Hours Required	12 (in MATH)
Overall:	
Minimum GPA:	3.0

## Learning Outcomes: Mathematics, MS

Learning Outcomes for the Master of Science in Mathematics

1. Students will have a strong understanding of abstract algebra.
2. Students will have a strong understanding of real analysis.
3. Students will gain the ability to engage with theoretical mathematical thinking at the graduate level.
4. Students will gain experience in original research in mathematics, if desired. This goal applies to students on the thesis track of this program.

## Mathematics, PhD

for the Doctor of Philosophy in Mathematics

**department chair:** Jeremy Tyson

**director of graduate studies:** Lee DeVille
