

# UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN

---

The University of Illinois Urbana-Champaign was founded in 1867 as a state-supported, land-grant institution with a threefold mission of teaching, research, and public service. The university has earned a reputation as an institution of international stature. It is recognized for the high quality of its academic programs and the outstanding facilities and resources it makes available to students and faculty. Scholars and educators rank it among a select group of the world's great universities.

## The Campus

Located in the adjoining cities of Champaign and Urbana, approximately 140 miles south of Chicago, the university and its surrounding communities offer a cultural and recreational environment ideally suited to the work of a major research institution.

The University of Illinois Urbana-Champaign is a residential campus of classrooms, laboratories, libraries, residence halls, and recreational and cultural facilities with 354 buildings in the university district. Farmland throughout the state of Illinois is used by the College of Agricultural, Consumer and Environmental Sciences as experimental fields.

Nearly every facility on campus is accessible to people with physical disabilities, and the university's programs and services for people with disabilities have served as models worldwide.

## Colleges and Schools

Ten undergraduate-serving academic units offer over 150 programs of study leading to baccalaureate degrees. They are the College of Agricultural, Consumer and Environmental Sciences; the College of Applied Health Sciences; the Gies College of Business; the College of Education; The Grainger College of Engineering; the College of Fine and Applied Arts; the College of Liberal Arts and Sciences; the College of Media; the School of Social Work; and the School of Information Sciences. Post-baccalaureate students study in more than 100 fields through the Graduate College and in professional programs through the College of Law, the Carle Illinois College of Medicine, and College of Veterinary Medicine. National surveys consistently rank the University of Illinois Urbana-Champaign among the top ten institutions in many fields of study, with several colleges and departments ranked among the top five.

# GENERAL INFORMATION

---

The *University of Illinois at Urbana-Champaign 2021-2022 Academic Catalog* is the official listing of courses, programs, and degree requirements for undergraduate and graduate students. Information on courses, curricula, fees, policies, regulations and other matters is subject to change during the period for which the *Catalog* is in effect.

The class schedule is available each term in the Course Explorer (<http://courses.illinois.edu>). The class schedule lists those courses that will be offered during specific terms, as well as times and locations. Not all courses listed in this *Catalog* are offered every term.

## Course Descriptions

The *Catalog* lists courses of instruction alphabetically by subject and numerically by course number. The course number denotes the intended/recommended level of the course:

**Courses numbered 000-099** are for preparatory work that does not count toward a degree but do count for tuition and load.

**Courses numbered 100-199** are intended primarily for freshmen and correspond to entry-level work. They may be taken by sophomores, juniors, and seniors.

**Courses numbered 200-299** are intended for lower-division students who satisfy the published prerequisite(s), if any. Transfer credit from two-year colleges would correspond to 100- and 200-level offerings.

**Courses numbered 300-399** are intended primarily for juniors and seniors who satisfy the published prerequisite(s), if any. Transfer work from two-year colleges does not correspond to these numbers.

**Courses numbered 400-499** are intended for upper-division undergraduate students sometimes also for graduate students.

**Courses numbered 500-599** are intended for graduate and professional school students.

**Courses numbered 600-799** are available for certain professional school courses with restricted enrollments. These courses apply primarily to law, medicine, and veterinary programs.

Course credit is listed after each course title. The university counts credit in credit hours. Following the credit hours is a brief description of the content, requirements for registration to the course (if any), and other advisory statements. Additional information relating to the course content is available in the Course Explorer (<http://courses.illinois.edu>). For information on credit policies, see the *Student Code*.

A **crosslisted** course refers to a course offered under the same course title by a different department. Courses may be crosslisted with one or more departments and will be noted by the statement: "**Same as:**" The description of a crosslisted course is found only in the entry for the controlling department. Reference to the controlling department's course is noted by "See...."

**Prerequisites** are advisory statements that refer to special requirements for registration in certain courses. These may include one or more courses that must be completed prior to, or in the same term. These statements may also recommend knowledge, skills or standards, or class standing that must be demonstrated prior to registration.

## Degree and General Education Requirements

### General Education Requirements

The University of Illinois Urbana-Champaign requires that all undergraduate students take General Education - or "Gen Ed" - courses to gain and use broad knowledge beyond the specialized learning they will do in a major field of study. These Gen Ed requirements cover the kinds of knowledge all students should have: the humanities and arts, social and behavioral sciences, natural sciences and technology, quantitative reasoning, composition/writing, and cultural studies.

General Education courses at Illinois are mindful of our students' diverse backgrounds, needs, and interests, and are an essential component of the transformative learning that prepares our graduates to become alumni who make a significant societal impact. These courses build students' abilities to think critically, solve problems, generate new ideas and create knowledge, make connections between academic disciplines, respect and understand differences, and develop as citizens and leaders.

General Education at Illinois is more than a set of required courses; it is a gateway into the Illinois experience.

Courses are noted as fulfilling one or more of the following categories:

- Composition I
- Advanced Composition
- Humanities and the Arts: Literature & the Arts or Historical & Philosophical Perspectives

- Natural Sciences and Technology: Life Science or Physical Science
- Quantitative Reasoning
- Social and Behavioral Sciences
- Cultural Studies: Western/Comparative Cultures, Non-Western Cultures, and US Minority Cultures

For a list of current courses approved for General Education credit, please visit the Course Explorer (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

## Written Communication Requirement

### Undergraduate Students:

- Satisfactory proficiency in written communication is a requirement for all undergraduate degrees awarded at the University of Illinois Urbana-Champaign. This proficiency can be certified by the satisfactory completion of the "Composition I" general education requirement via the one-semester, four-hour course Rhetoric 105 (Writing and Research); the two-semester, eight-hour sequence of Rhetoric 101 (Principles of Writing) and 102 (Principles of Research) with Rhetoric 100 tutorials in both semesters; or the two-semester, six-hour sequence Communication 111 and 112 (Oral & Written Communication I and II).
- A student who achieved, prior to enrolling in college-level coursework, a sufficiently high score on either the appropriate college-preparatory English exam (currently ACT, SAT, AP, or IB) will earn course credit that fulfills the general education "Composition I" requirement and thus will satisfy the Written Communication requirement for graduation. More information can be found under "Proficiency Testing" at [go.illinois.edu/pnp](http://go.illinois.edu/pnp) (<http://go.illinois.edu/pnp/>).
- Non-native English-speaking students who are mandated to take the English Placement Test (EPT) and given an English as a Second Language (ESL) placement must fulfill their Written Communication requirement by taking the two-semester, six-hour sequence of ESL 111 and 112 or the one-semester, four-hour ESL 115 course. They might also be required to take ESL 110 (Pronunciation). Non-native English-speaking students who are not required to take the EPT due to sufficiently high TOFEL iBT or IELTS scores may elect to satisfy the Written Communication requirement by taking the ESL, or the Rhetoric, or the Communication sequences. Students in this category who wish to take ESL must take the EPT to determine correct placement.
- If the academic credentials of a transfer student do not indicate fulfillment of coursework equivalent to fulfill the Written Communication graduation requirement, the student will need to do additional coursework to satisfy this requirement. Non-native English-speaking transfer students may be required to take the English Placement Test (EPT).

### Graduate Students:

- Satisfactory proficiency in academic writing in English is a requirement for all graduate degrees awarded at the University of Illinois Urbana-Champaign.
- Graduate students who are admitted on limited status because they do not meet this proficiency requirement prior to admission may be placed into mandatory ESL courses based on the results of the EPT exam.
- Proficiency can then be certified by the satisfactory completion of a one-semester course (ESL 515) or the two-semester sequence (ESL 511 and 512). Students may also select equivalent coursework from the "English for specific purposes" tracks available through ESL (e.g., business track ESL 521, 522). International graduate students may also be required to take ESL 510 (Pronunciation).
- Mandatory ESL course assignments must be fulfilled in order to be eligible for graduation.

## Kinesiology, Language Other Than English, and Undergraduate Open Seminar Credit

### Credit for Kinesiology

Kinesiology courses numbered from 100 through 110 are activity courses. Credit earned in kinesiology activity courses may be included in the grade point average at the discretion of the individual colleges and may, at the discretion of the individual colleges, be included in the total hours required for graduation.

### Language Other Than English Credit

- Effective for all entering freshmen in Fall 2000 or later, the following language requirement must be completed for graduation.
- This requirement may be satisfied by:
  1. Successfully completing a third-semester college-level course in a language other than English;
  2. Successful completion, in high school, of the third year of a language other than English; or
  3. Demonstrating proficiency at the third semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.
- Generally, one year of high school language study is equivalent to one semester of college study.
- Current list ([http://fms.registrar.illinois.edu/Report/?file=CatalogInformation%5CLanguage%20Reqs%5CCourses\\_Approved\\_Language\\_Requirements.xml](http://fms.registrar.illinois.edu/Report/?file=CatalogInformation%5CLanguage%20Reqs%5CCourses_Approved_Language_Requirements.xml)) of courses approved to satisfy the language requirement.

- If you enter UIUC without three years of language other than English in high school, or you plan to continue with the language you studied in high school, you must take a language placement test to determine the courses in which you should enroll.
- An exception to the University third-level requirements is for all students in the Sciences and Letters Curriculum of the College of Liberal Arts and Sciences (LAS) and students in the Gies College of Business (BUS) who matriculated prior to Fall 2021. These students are expected to gain language knowledge equivalent to the completion of the fourth semester of college study in a language. The Language requirement may be met in any of the following ways:
  1. Successfully completing a fourth-semester college-level course in a language other than English;
  2. Successful completion, in high school, of the fourth year of a language other than English;
  3. Successful completion of the third-semester level in each of two different languages other than English by any combination of high school and college work;
  4. Demonstrating proficiency at the fourth-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.
- Students enrolled in the LAS Chemistry and Chemical Engineering Specialized Curricula are exempt from the four semester LAS Language requirement and must instead adhere to the Campus requirement of three semesters or equivalent. Please contact your adviser if you have any further questions.
- Except as prohibited or limited by the established policy of the student's college, credit in University of Illinois Urbana-Champaign language courses other than English taken to remove high school entrance deficiencies may, at the discretion of the college:
  1. be counted in the total hours required for graduation, or
  2. be accepted in partial or complete satisfaction of the language other than English requirement for the degree.
- Normally no more than ten hours of proficiency credit for the study of a single language other than English at the elementary and intermediate level shall be counted for graduation in the College of Liberal Arts and Sciences. Additional credit may be granted for advanced courses emphasizing literature and language structure rather than communicative competence in the language.
- Students with a verified Seal of Biliteracy will earn 8 hours of credit equivalent to the first two levels of foreign language regardless of the language other than English. The credit will appear as 8.00 Earned hours from Seal of Biliteracy on the official University of Illinois at Urbana-Champaign transcript in the Transfer Credit Accepted by the Institution section.

#### **Credit for Undergraduate Open Seminar Courses**

- Credit in each 199 course shall not exceed four credit hours per semester.
- A student may accumulate an unlimited number of credit hours in 199 courses, but no more than 12 such hours listed on the student's transcript may be counted toward fulfilling graduation requirements, except in cases in which a larger number of credit hours in 199 courses is an integral part of a formal, college-approved program of study (e.g., Individual Plans of Study).
- A 199 course appears on a student's transcript with the departmental rubric and the title "Undergraduate Open Seminar" when a specific section title has not been assigned by the department offering the course.

## **Policy Notes**

### **Registration Status**

Registration status for enrollment reporting by the university is determined by the cumulative academic credit hours across all parts of term for the fall or spring semesters and is the same for all student levels:

- Full-time – 12 or more credit hours per semester
- Three-Quarter time – 9 to 11.99 credit hours per semester
- Half time – 6 to 8.99 credit hours per semester

Exceptions to this policy are provided in Student Code 3-301 (<https://studentcode.illinois.edu/article3/part3/3-301/>).

### **Illinois Copyright Policy**

The University of Illinois Urbana-Champaign makes every effort to comply with laws and institutional policies on copyright and to encourage awareness within its community of both responsibilities and appropriate actions for compliance.

Copyright law can be a complex topic to navigate, and the issues students, faculty and staff must confront when it comes to copyright are often different. For that reason, the University has compiled a variety of resources to help you navigate your copyright responsibilities.

Copyright Resources (<http://copyright.illinois.edu/resources/>)

In addition, a variety of laws and regulations shape the specifics of copyright law. The Higher Education Opportunity Act is one of the laws that shapes copyright policies and education efforts at colleges and universities in America. How the University of Illinois at Urbana-Champaign satisfies the requirements of HEOA are outlined on this page (<http://copyright.illinois.edu/compliance/>).

## Religious Observances

The University of Illinois Urbana-Champaign supports religious, spiritual, and secular inclusion (<https://diversity.illinois.edu/diversity-campus-culture/religious-inclusion/>). The institution complies with the University Religious Observances Act (110 ILCS 110/). Details of the Act are available here (<http://www.ilga.gov/legislation/ilcs/ilcs3.asp?ActID=1076&ChapterID=18>).

## Smoke and Tobacco-Free Campus

Smoking and the use of all non-combustible tobacco products and non-FDA approved nicotine delivery devices and products is prohibited on all campus property, both indoors and outdoors, and in university-owned vehicles and in privately owned vehicles parked on campus property. The advertising, sale, and free sampling of tobacco products and non-FDA approved nicotine delivery devices and products are prohibited on campus property. Littering the remains of tobacco and non-FDA approved nicotine delivery devices or products or any other related waste products on campus property is prohibited. The complete policy is available here (<http://cam.illinois.edu/v/v-B-2.1.htm>).

## State Approving Agency Certification

Effective August 1, 2019, the University of Illinois at Urbana-Champaign is in compliance with Title 38, Veterans' Benefits, Part III, Readjustment and Related Benefits, Section 3679, Disapproval of courses, Subsection e. [38 U.S. Code 3679(e) (<https://uscode.house.gov/view.xhtml/?path=/prelim@title38/part3/chapter36&edition=prelim>)].

## Student Code

Policies and procedures applying to all undergraduate, graduate, and professional students enrolled at the University of Illinois Urbana-Champaign are found in the Student Code (<http://studentcode.illinois.edu/>).

## Student Consumer Information

Information and disclosures regarding institutional accreditation, programs, and services at the University of Illinois at Urbana-Champaign is available on the Office of the Provost's website (<http://provost.illinois.edu/student-consumer-information/>). This includes a description of the institution's accreditation and state authorization, contact information for filing complaints with the accreditor and the state, financial aid, campus security, intercollegiate athletics, gainful employment programs, and student outcomes. A paper copy of the information on the website can be made available upon request.

## U of I System Statement on Sex Discrimination, Sexual Harassment and Other Sexual Misconduct

Please refer to the University of Illinois System website (<https://www.hr.uillinois.edu/cms/One.aspx?portalId=4292&pageId=5671>) for the most up-to-date statement on Sex Discrimination, Sexual Harassment and Other Sexual Misconduct.

## Professional Licensure Disclosures

The University of Illinois Urbana-Champaign provides public licensure disclosures pursuant to 34 CFR 668.43(a)(5)(v) (<https://www.federalregister.gov/d/2019-23129/p-1593/>) for educational programs designed to meet or advertised as meeting requirements for professional licensure or certification.

Disclosures by College (<http://www.dmi.illinois.edu/ProfLicDis.htm>)

## GI Bill®<sup>1</sup> Pending Payment Policy

Beginning August 1, 2019, and despite any policy to the contrary, the University of Illinois Urbana-Champaign will not take any of the four following actions toward any student using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while their payment from the United States Department of Veterans Affairs is pending to the educational institution:

- Prevent their enrollment;
- Assess a late penalty fee to;
- Require they secure alternative or additional funding;
- Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Produce the VA's Certificate of Eligibility by the first day of class;
- Provide written request to be certified;

- Provide additional information needed to properly certify the enrollment as described in other institutional policies (see our VA School Certifying Official for all requirements).

I hereby certify this addendum to be true and correct in content and policy.

Our institution will adopt this addendum, or one of similar import, in the next revision of our catalog.

<sup>1</sup> GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>. ([https://urldefense.proofpoint.com/v2/url/?u=https-3A\\_\\_www.benefits.va.gov\\_gibill.-2522&d=DwQFAg&c=OCIEmEwdEq\\_aNIsP4fF3gFqSN-E3mIr2t9JcDdfOZag&r=001BuolzVf\\_EKxGsnR6C4GHELOQMtS7tEDYeze9kStc&m=cmPTaWhemCt7JTt4tZrjwlLwU\\_9-ZuB0kznSP0smShQ&s=cJbsWj-nMuP32Nz\\_Be1ebklzXE7b-1Zuk7\\_12mcn42U&e=](https://urldefense.proofpoint.com/v2/url/?u=https-3A__www.benefits.va.gov_gibill.-2522&d=DwQFAg&c=OCIEmEwdEq_aNIsP4fF3gFqSN-E3mIr2t9JcDdfOZag&r=001BuolzVf_EKxGsnR6C4GHELOQMtS7tEDYeze9kStc&m=cmPTaWhemCt7JTt4tZrjwlLwU_9-ZuB0kznSP0smShQ&s=cJbsWj-nMuP32Nz_Be1ebklzXE7b-1Zuk7_12mcn42U&e=))

## Annual Announcement of Copyright Policies

Provided below is the University of Illinois Urbana-Champaign annual announcement of copyright policies.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under Section 106 of the Copyright Act (Title 17 of the United States Code). Infringement may occur when a copyright protected work is reproduced or distributed without authorization, including when it is uploaded or downloaded from the Internet or otherwise published without permission. Protected works may include (among other works) photographic images, music, movies, and television programs. Although there are limited exceptions not requiring permission, such as the doctrine of fair use, sharing substantial portions of such works, including on peer-to-peer networks, without authorization by the rights owner or by meeting the exception requirements is an infringement.

Penalties for copyright infringement include civil and criminal penalties. Copyright compliance enforcement agencies aggressively pursue infringers. If you are infringing, even unknowingly, you can be subject to civil damages per work infringed, and even criminal fines and jail time.

All universities of the University of Illinois System make every effort to comply with laws and institutional policies on copyright. Individuals who receive a copyright infringement notice may face disciplinary or employment actions. These actions may include, but are not limited to, loss of network access, mandatory training about copyright infringement, conduct sanctions, and potential dismissal from the University.

For more information about copyright at the University of Illinois, please visit: <http://copyright.illinois.edu>.

# UNDERGRADUATE PROGRAM INDEX

The undergraduate Colleges and Schools offer over 150 programs of study leading to baccalaureate degrees. Undeclared students begin their college career in the Division of General Studies before transferring to a degree program.

Degree Programs (emphasis)	School/College	Undergraduate
Accountancy	BUS	BS (p. 13)
Acting	FAA	CONC (p. 733)
Actuarial Science	LAS	BSLAS (p. 16)
Adult Development	ACES	Minor (p. 814)
Advertising	MDIA	BS (p. 18)

# Accountancy, BS

for the degree of Bachelor of Science Major in Accountancy

**department office:** 360 Wohlers Hall, 1206 South Sixth, Champaign, IL 61820

**phone:** (217) 333-0857

**department catalog page:** A ([http://catalog.illinois.edu/gies\\_business/accy/](http://catalog.illinois.edu/gies_business/accy/))ccountancy (<http://catalog.illinois.edu/undergraduate/bus/accountancy-bs/>)

**department website:** <https://giesbusiness.illinois.edu/accountancy> (<https://giesbusiness.illinois.edu/accountancy/>)

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**college website:** <https://giesbusiness.illinois.edu/>

The Gies accountancy major combines technical knowledge in accounting, assurance, taxation, and data analytics with professional competencies in critical thinking, communication, leadership, and strategic decision-making. Accountancy majors will study the principles, concepts, and methods used to record and report the transactions and activities of a business entity, as well as the tools and processes to audit and analyze accounting information. Accountancy majors will also study the role of accounting information in shaping and implementing key business strategies. Career opportunities for accountancy majors include positions in audit and assurance services, corporate accounting, taxation, consulting and advisory services, and in governmental and not-for-profit entities.

In addition to the accountancy major requirements, students in accountancy must meet the University General Education requirements and the College of Business core requirements (for more detail, see the Gies College of Business undergraduate section (p. 2096)).

for the degree of Bachelor of Science Major in Accountancy

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	

Cultural Studies: Western/Comparative Cultures (1 course)

Quantitative Reasoning (2 courses) <sup>7</sup>**Language Other Than English**

Code	Title	Hours
Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.		0-15

**Business Core Requirements**

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.  
Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

<sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

Minimum requirements in the major for the Bachelor of Science Degree in Accountancy are:

Code	Title	Hours
ACCY 301	Atg Measurement & Disclosure	3
ACCY 302	Decision Making for Atg	3
ACCY 303	Accounting Institutions and Regulation	3
ACCY 304	Accounting Control Systems	3
ACCY 312	Principles of Taxation	3
ACCY 405 or ACCY 415	Assurance and Attestation Auditing Std's and Practice	3
Select one of the following:		3
ACCY 410	Advanced Financial Reporting	

ACCY 451

Advanced Income Tax Problems

Total Hours

21

Accountancy courses (both required and elective) to be applied toward the 124-hour requirement for the Bachelor of Science Degree in Accountancy may not be taken on a credit/no-credit basis. In addition, a limit of 33 hours of accountancy courses (including ACCY 201 and ACCY 202) may be counted toward the 124 total hour requirement. Finally, students must select from **either** ACCY 405 **or** ACCY 415. Both courses cannot count toward the Bachelor of Science degree.

## Learning Outcomes: Accountancy, BS

*Learning Outcomes for the degree of Bachelor of Science Major in Accountancy*

- 
1. Discipline-based competency: Students will acquire sufficient discipline-based competency to address business and accounting problems, both current and future. Such competency will include using accounting knowledge and using research tools to address accounting and business problems.
  2. Written and verbal communication competency: Students will be able to effectively communicate, both verbally and in writing. This competency will extend to communication in individual and team settings.
  3. Attitude-related Professional Preparation: Students will develop an understanding for and appreciation of an accountant's professional responsibility, and will become aware of society's expectations.

# Actuarial Science, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Actuarial Science

**program website:** Actuarial Science (<https://math.illinois.edu/academics/actuarial-science/>)

**program faculty:** Actuarial Science Faculty (<https://math.illinois.edu/research/faculty-research/actuarial-science/>)

**department website:** <https://math.illinois.edu/>

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** ASRM-advising@illinois.edu

This major is sponsored by the Department of Mathematics, and is an interdisciplinary subject involving mathematics, statistics, and financial economics. It is designed to prepare students to enter the actuarial profession, as well as to provide a background in quantitative finance and risk management.

## Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 16)

Mathematics, BSLAS (p. 506)

Mathematics & Computer Science, BSLAS (p. 514)

for the degree of Bachelor of Science in Liberal Arts & Sciences, Major in Actuarial Science

**Departmental distinction:** To qualify for distinction, the student must have a grade point average in ASRM courses of at least 3.25, and pass at least two examinations offered by the professional actuarial societies. To qualify for high or highest distinction, the student must have passed at least three professional exams, with highest distinction going to those whose grade point averages in mathematics are at least 3.75. Finance courses and additional professional exams may also be given consideration in close decisions.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: normally equates to 58-61 hours including 32-33 hours of actuarial courses beyond calculus.**

**Twelve hours of 300- or 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours. Students will complete 40 hours of upper division coursework (these hours can be drawn from all elements of the degree).**

Code	Title	Hours
Calculus through:		11-12
MATH 220	Calculus	
or MATH 221	Calculus I	
MATH 231	Calculus II	
MATH 241	Calculus III (or equivalent )	
Select one of the following:		3
CS 101	Intro Computing: Engrg & Sci	
CS 105	Intro Computing: Non-Tech	
CS 125	Introduction to Computer Science	
ASRM 210	Theory of Interest (formerly MATH 210)	3
ASRM 401	Actuarial Statistics I	4
ASRM 402	Actuarial Statistics II	4
ASRM 406	Linear Algebra with Financial Applications (formerly MATH 410)	3
ASRM 450	Methods of Applied Statistics	3
Select four of the following:		12-13
ASRM 409	Stochastic Processes for Finance and Insurance	
ASRM 410	Investments and Financial Markets (formerly MATH 476)	
ASRM 451	Basics of Statistical Learning	
ASRM 461	Loss Models (formerly MATH 478)	
ASRM 469	Casualty Actuarial Mathematics (formerly MATH 479)	

ASRM 471	Life Contingencies I	
ASRM 472	Life Contingencies II (formerly MATH 472)	
Select an additional course from the above list or ASRM 499		3
FIN 221	Corporate Finance	3
Three additional courses from:		9
ACCY 200	Fundamentals of Accounting	
ECON 302	Inter Microeconomic Theory	
ECON 303	Inter Macroeconomic Theory	
FIN 230	Introduction to Insurance	
FIN 300	Financial Markets	
FIN 321	Advanced Corporate Finance	
FIN 431	Property-Liability Insurance	
FIN 432	Managing Fin Risk for Insurers	
FIN 434	Employee Benefit Plans	
<b>Total Hours minimum</b>		<b>58</b>

## Learning Outcomes: Actuarial Science, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Actuarial Science

### Student Learning Outcomes

1. Have sufficient exposure to actuarial and financial mathematics to be familiar with at least 80% of the material on five of preliminary Society of Actuaries credentialing exams.
2. Be familiar with the role of insurance in society, basic economic theory, and the basics of how insurance and financial markets operate.
3. Have familiarity with several of the technical tools, computer languages or software packages used by actuaries.
4. Develop communication, leadership and teamwork skills, and understand their importance in the actuarial industry.
5. Be able to apply this knowledge and these skills in new combinations and to new problems.

# Advertising, BS

## for the degree of Bachelor of Science Major in Advertising

**department website:** <https://media.illinois.edu/advertising> (<https://media.illinois.edu/advertising/>)

**department faculty:** <https://media.illinois.edu/advertising/faculty> (<https://media.illinois.edu/advertising/faculty/>)

**department email:** [addept@illinois.edu](mailto:addept@illinois.edu)

**overview of college admissions & requirements:** College of Media (p. 2089)

**college website:** <https://media.illinois.edu/>

ADVERTISING (ADV), offers students the opportunity to learn and think about advertising as a way of modeling the mind, as a material reflection of social structure, as a fundamentally modern phenomenon, as an art form and even as a basis for community, by drawing on insights from psychology, sociology, history, literature, and anthropology. This program will thoroughly infuse the understanding of consumer behavior and message knowledge base and, therefore, provide a long-lasting education for students.

## Programs in Advertising

### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minors:** Public Relations (p. 938) | Media (p. 919)

### Graduate Programs:

**degree:** Advertising, MS (p. 994)

**degree:** Strategic Brand Communication, MS (p. 1797)

## for the degree of Bachelor of Science Major in Advertising

To graduate from the advertising curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade:

Code	Title	Hours
<b>Required Major Courses</b>		<b>24</b>
ADV 150	Introduction to Advertising	3
ADV 281	Advertising Research Methods	3
ADV 283	Advertising and Brand Strategy	3
ADV 284	Consumer Insight	3
ADV 390	Content Creation	3
ADV 460	Innovation in Advertising	3
ADV 483	Audience Analysis	3
ADV 498	The Sandage Project	3
<b>Major Electives</b>		<b>12</b>
Any ADV course not already required above		
<b>College of Media Electives <sup>1</sup></b>		<b>8-16</b>
<b>Hours outside the College of Media (72 hours minimum)</b>		<b>72</b>
<b>Other Required Supporting Coursework:</b>		
BADM 320	Principles of Marketing <sup>2</sup>	3
ECON 102	Microeconomic Principles	3
ECON 103	Macroeconomic Principles	3
STAT 100	Statistics <sup>3</sup>	3
Select two of the following:		7-8
ANTH 103	Anthro in a Changing World	3
PSYC 100	Intro Psych	4
SOC 100	Introduction to Sociology	4

### Advanced Hours Requirement

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. At least 9 of the 20 hours must be in courses numbered 300 or above.

Please note: Courses used to fulfill University General Education requirements or to fulfill requirements for a minor may count toward these requirements. Courses used to fulfill the College of Media's advanced outside hours requirement may also count toward these requirements.

**Total Hours**
**124**

- <sup>1</sup> College of Media elective courses offered by or cross-listed with Advertising (ADV), Journalism (JOUR), Media and Cinema Studies (MACS), or the College of Media (MDIA) count toward this number.
- <sup>2</sup> Which may be credited toward the College requirement of advanced hours outside the College.
- <sup>3</sup> Or another approved basic course or course sequence in statistical methods, which currently includes ECON 202, EPSY 280, PSYC 235, SOC 280, SOCW 225. Such courses may, if they qualify, also be credited toward the requirement of advanced ours and General Education courses outside the College.

## Learning Outcomes: Advertising, BS

Learning outcomes for the degree of Bachelor of Science Major in Advertising

---

Students graduating with the BS in Advertising will be able to:

1. Evaluate the ethical, economic, legal, cultural, and historical dimensions of advertising in a global society.
2. Conduct research and analyze data to develop appropriate use metrics for advertising planning.
3. Ethically meet brand objectives and reach diverse audiences by critically evaluating and analyzing media outlets
4. Apply creative concepts and innovative thinking to produce culturally relevant brand storytelling and content creation.
5. Create strategic brand communications built on research and evidence-based strategies appropriate for the intended audience.
6. Effectively collaborate within diverse teams to design and deliver strategic and engaging presentations.

# Aerospace Engineering, BS

for the degree of Bachelor of Science in Aerospace Engineering

**department website:** <https://aerospace.illinois.edu>

**department faculty:** Aerospace Engineering Faculty (<https://aerospace.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://aerospace.illinois.edu/admissions/program-objectives-abet> (<https://aerospace.illinois.edu/admissions/program-objectives-abet/>)

The Aerospace Engineering curriculum provides a strong fundamental background in engineering, mathematics, and science, along with the ability to apply this fundamental knowledge to the analysis and design of future aircraft and spacecraft. It also prepares students for lifelong learning and the attainment of their career goals in the field of aerospace engineering and in a wide range of other areas. The concepts of system design are introduced early in the curriculum and culminate in the yearlong senior capstone design experience (AE 442, AE 443), in which students work in teams to respond to a design challenge from industry, government, or a professional engineering society. A total of 18 hours of technical and free electives allows the student to pursue an individualized program of study.

for the degree of Bachelor of Science in Aerospace Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

Code	Title	Hours

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>4</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>5</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> AE 442 and AE 443 satisfy the General Education Advanced Composition requirement.

<sup>4</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>5</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Aerospace Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/aerospace-map/>).

### First Year

First Semester		Hours
AE 100	Intro to Aerospace Engineering	2
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
AE 140	Aerospace Computer-Aided Design	2

RHET 105 (or General Writing and Research education elective) <sup>2,3</sup>		4-3
Semester Hours		16-15
<b>Second Semester</b>		
MATH 231	Calculus II	3

Technical Electives <sup>5</sup>	9
Free Elective	3
Semester Hours	17
Total Hours:	128

- <sup>1</sup> MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) may be substituted with four of the five credit hours applying toward the degree. MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) is appropriate for students with no background in calculus.
- <sup>2</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s), (ii) one non-western, and (iii) one U.S. minority culture(s) course from the General Education cultural studies lists. Most students select liberal education courses that simultaneously satisfy the Humanities and the Arts and cultural studies course requirements.
- <sup>3</sup> RHET 105 (<http://catalog.illinois.edu/search/?P=RHET%20105>) (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if UIN is odd). General education elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.
- <sup>4</sup> Sequence satisfies the General Education Advanced Composition requirement.
- <sup>5</sup> Technical elective credits totaling twelve hours, selected from a departmentally approved list of Technical Electives (<https://aerospace.illinois.edu/academics/undergraduate/undergraduate-tech-electives/>), satisfying these distribution requirements: (i) six hours of AE Technical Electives; (ii) six hours of AE Technical Electives or Non-AE Technical Electives.

## Learning Outcomes: Aerospace Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Aerospace Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Aerospace Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# African American Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies

**department website:** <https://afro.illinois.edu/>

**department faculty:** African American Studies Faculty (<https://afro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [cmjenki@illinois.edu](mailto:cmjenki@illinois.edu)

African American Studies is a field that systematically explores the life and culture of African American peoples and their African Diaspora relationships, patterns, and ties. Those who major in African American Studies will learn about the historical, political, ideological, legal, social, artistic, and economic issues affecting African Americans. They will learn about the dignity-affirming struggles of African American people to have their humanity acknowledged, valued, and understood.

The major in African American Studies (AAS) is to provide students with a transdisciplinary perspective on the origin, role and policy implications of race in the United States and world political economy, society and culture, over time. AAS students will learn diverse concepts, theories and methodologies for analyzing the experiences and perspectives and the cultural and intellectual production of African Americans and African descended people, largely though not exclusively in the United States. An African American studies major will be encouraged to achieve excellence in developing vital creative and critical competencies, including oral and written communication, computer and statistical skills. Students majoring in AAS will also be encouraged to join a new generation of leadership grounded in African American studies knowledge and committed to public engagement to meet the continuing challenges of a diverse democratic society; and to foster national discourse to produce public policy aimed at achieving social justice.

This program is designed to serve undergraduate students primarily interested in the social sciences and humanities, though all students are welcome and encouraged to enroll in the program. This program prepares students for graduate study and research in traditional disciplines and interdisciplinary fields and for careers in the private or public sectors such as teaching, social work, human resources, criminal justice, management and administration, city planning, marketing, policy-making, medicine and law.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

## Departmental distinction:

To graduate with distinction, students must complete the following:

1. 3.3 overall G.P.A
2. 3.6 program G.P.A
3. Complete AFRO 495 Senior Thesis Seminar with a grade of 3.3 or better

1.

Code	Title	Hours
<b>I. Core course requirements</b>		
AFRO 100	Intro to African American St	3
AFRO 220	Intro to Research Methods AfAm	3
AFRO 490	Theory in African American St	3
AFRO 495	Senior Thesis Seminar	3
<b>II. Theory and Methods Requirement</b>		
At least one theory and one methods course beyond the core. The courses must be selected from a list maintained in the Department's advising office.		6
<b>III. Thematic Areas</b>		
Students must take at least one course each from the following five areas. At least 6 of the remaining hours must be taken from only one of any of the five areas. A list of courses is maintained in the Department's advising office.		21
A. Comparative Race, Racialized Communities and Identities		
B. Cultural Production and Cultural Movements		
C. Political Economy, Public Policy and Contemporary Issues		

D. Global Interconnections: Black Transnationalism and the African Diaspora

E. Black Women, Gender and Sexuality Studies

#### IV. Cognate or Supporting Coursework

Students must complete 9 hours of supporting coursework. Supporting coursework consists of a set of courses which are logically grouped, and which reflect or support a student's interests outside of the African American Studies major. Supporting coursework courses must be approved by the Department's undergraduate advisor.

9

**Total Hours**

48

## Learning Outcomes: African American Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in African American Studies

Upon completion of the major in African American Studies, students will be able to:

- **DESCRIBE** the main stages in the historical development of the African American experience that reflects both continuity and change, and the different component parts of the human experience.
- **ASSESS** the historical development of peoples of African descent in broad global context, emphasizing historical, contemporary, and future implications.
- **ANALYZE** the experiences of Black people using the perspectives, data, and interpretations from two or more disciplinary fields (e.g., historical studies, cultural studies, social studies).
- **EVALUATE** successes and failures as people have used their values to initiate efforts to achieve social justice for African Americans and people of diverse social backgrounds.
- **DESIGN** a strategies and tactics that provide a solution to a major civic or social challenge facing Black communities in various parts of the world, illustrating how "Academic Excellence and Social Responsibility" in Black Studies have contributed to this process.

# Agricultural & Biological Engineering, BS

for the degree of Bachelor of Science in Agricultural & Biological Engineering

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>

**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

**Current Program Educational Objectives:** <https://abe.illinois.edu/undergraduate/abe-program-objectives> (<https://abe.illinois.edu/undergraduate/abe-program-objectives/>)

Students pursuing this major select one of two concentrations:

- Agricultural Engineering Concentration (p. 28)
- Biological Engineering Concentration (p. 35)

## Agricultural & Biological Engineering: Agricultural Engineering, BS

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Agricultural Engineering Concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)

**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>

**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

### Agricultural Engineering Concentration

Students pursuing B.S. Degree in Agricultural and Biological Engineering choose from one of two concentrations, one of which is the concentration in *Agricultural Engineering*. This concentration includes the integration of physical and biological sciences as a foundation for engineering applications in agriculture, food systems, energy, natural resources, the environment, and related biological systems. Students pursuing this concentration are involved in the design of systems for renewable energy, off-road equipment, water quality, and the utilization and protection of soil and water resources. Important design constraints are economics, conservation of materials and energy, safety, and environmental quality. Within this concentration, students are strongly encouraged to select a set of coherent courses that constitutes a specialization in their area of career interest either from the following list or a customized area chosen in consultation with an advisor.

- Bioenvironmental Engineering
- Renewable Energy Systems
- Off-Road Equipment Engineering
- Soil and Water Resources Engineering

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Agricultural Engineering Concentration

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103 or ACE 100). Specific Advanced Composition course required for this degree is listed below.

### Orientation and Professional Development

Code	Title	Hours
ABE 100	Intro Agric & Biological Engrg <sup>1</sup>	1

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/abe-ag-engr-map/>).

### First Year

First Semester		Hours
ABE 100	Intro Agric Biological Engrg	1
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or SE 101 <sup>2</sup>	Writing and Research	4-3
General education elective <sup>3,4</sup>		3
Semester Hours		16-15

### Second Semester

ABE 141	ABE Principles: Biological	2
MATH 231	Calculus II	3
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 211	University Physics: Mechanics	4
SE 101 or RHET 105 <sup>2</sup>	Engineering Graphics Design	3-4
Semester Hours		16-17

### Second Year

#### First Semester

ABE 223	ABE Principles: Machine Syst	2
ABE 224	ABE Principles: Soil Water	2
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
CS 101	Intro Computing: Engrg Sci	3
TAM 210 or 211 <sup>5</sup>	Introduction to Statics	2
Semester Hours		17

#### Second Semester

ABE 225	ABE Principles: Bioenvironment	2
ABE 226	ABE Principles: Bioprocessing	2
MATH 225	Introductory Matrix Theory	2
MATH 285	Intro Differential Equations	3
PHYS 213	Univ Physics: Thermal Physics	2
TAM 212	Introductory Dynamics	3
General education elective <sup>3,4</sup>		3
Semester Hours		17

### Third Year

#### First Semester

CEE 202, IE 300, ABE 440, or STAT 400 <sup>5</sup>	Engineering Risk Uncertainty	3
ECE 205	Electrical and Electronic Circuits	3
TAM 335, CHBE 421, or ME 310	Introductory Fluid Mechanics	4
Agricultural and biological engineering technical elective <sup>6</sup>		3
General education elective <sup>3,4</sup>		3
Semester Hours		16

#### Second Semester

ECON 103, 102, or ACE 100 <sup>3</sup>	Macroeconomic Principles	3
ME 200	Thermodynamics	3
ECE 206	Electrical and Electronic Circuits Lab	1
TAM 251	Introductory Solid Mechanics	3
Agricultural and biological engineering technical elective <sup>6</sup>		3
Biological and Natural Sciences Electives <sup>7</sup>		3
Semester Hours		16
<b>Fourth Year</b>		
<b>First Semester</b>		
ABE 430	Project Management	2
Agricultural and biological engineering technical elective <sup>6</sup>		3
Other technical elective <sup>6</sup>		3
General education elective <sup>3,4</sup>		3
Free elective		3
Semester Hours		14
<b>Second Semester</b>		
ABE 469 <sup>4</sup>	Industry-Linked Design Project	4
Biological and natural sciences elective <sup>7</sup>		3
Other technical elective <sup>6</sup>		3
General education elective <sup>3,4</sup>		3
Free elective		3
Semester Hours		16
Total Hours:		128

- <sup>1</sup> MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.
- <sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 103 (or ECON 102 or ACE 100 by permission) must be one of the social & behavioral sciences courses, recommended to be taken early. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.
- <sup>4</sup> ABE 469 satisfies the General Education Advanced Composition requirement.
- <sup>5</sup> The extra hour of credit for this course may be used to help meet free elective requirements.
- <sup>6</sup> Students must complete 15 hours of Technical Electives (<https://abe.illinois.edu/undergraduate/technical-electives/>) chosen in consultation with an advisor. At least 8 hours must be Agricultural and Biological Engineering Technical Electives. Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.
- <sup>7</sup> Students must complete 6 hours from the approved list of Biological and Natural Sciences Electives (<https://abe.illinois.edu/undergraduate/biological-natural-sciences-electives/>). Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.

## Agricultural & Biological Engineering: Biological Engineering, BS

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)

**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>

**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

Agricultural and biological engineering is the application of mathematics, physical and biological science, and engineering to agriculture, food systems, energy, natural resources, the environment, and related biological systems. This ABET-accredited program has special emphasis on environmental protection and the biological interface of plants, animals, soils, and microorganisms with the design and performance of environments, machines, mechanisms, processes, and structures.

The Department of Agricultural and Biological Engineering offers programs through the College of ACES and The Grainger College of Engineering.

Students pursuing the B.S. Degree in Agricultural and Biological Engineering choose from one of two concentrations, one of which is the concentration in *Biological Engineering*. This concentration integrates biology and engineering to provide solutions to problems related to living systems (plants, animals, and microorganisms). Engineered biological systems vary widely in scale. At the molecular level, nanometer-scale devices consist of a few biomolecules inside individual cells. At the other extreme, regionally-scaled complex ecosystems depend upon multiple species of interacting living organisms. Such systems are becoming increasingly important in areas such as bioenergy, bioprocessing, nanotechnology, biosensing, bio-informatics, and bioenvironment. Within this concentration, students are strongly encouraged to select a set of coherent courses that constitutes a specialization in their area of career interest either from the following list or a customized area chosen in consultation with an advisor:

- Bioenvironmental Engineering
- Ecological Engineering
- Food and Bioprocess Engineering
- Nanoscale Biological Engineering

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103 or ACE 100). Specific Advanced Composition course required for this degree is listed below.**

### Orientation and Professional Development

Code	Title	Hours
ABE 100	Intro Agric & Biological Engrg <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Orientation Hours:		1

### Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
MATH 221	Calculus I <sup>2</sup>	4
MATH 225	Introductory Matrix Theory	2
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
Total Foundational Mathematics and Science Hours:		34

### Agricultural and Biological Engineering Technical Core

Code	Title	Hours
<b>For Both Concentrations:</b>		
ABE 141	ABE Principles: Biological	2
ABE 223	ABE Principles: Machine Syst	2
ABE 224	ABE Principles: Soil & Water	2

ABE 225	ABE Principles: Bioenvironment	2
ABE 226	ABE Principles: Bioprocessing	2
ABE 430	Project Management	2
ABE 469	Industry-Linked Design Project <sup>3</sup>	4
CS 101	Intro Computing: Engrg & Sci	3
ECE 205	Electrical and Electronic Circuits	3
SE 101	Engineering Graphics & Design	3
TAM 210 or TAM 211	Introduction to Statics <sup>4</sup> Statics	2
TAM 212	Introductory Dynamics	3
Total Agricultural and Biological Engineering Technical Core Hours:		30
Total Hours		60

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> ABE 469 satisfies the general education advanced composition requirement.

<sup>4</sup> The extra hour of credit for this course may be used to help meet free elective requirements.

<sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>).

<sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

## Biological Engineering Concentration Requirements

Code	Title	Hours
ABE 341	Transport Processes in ABE	3
CHBE 321	Thermodynamics	4
CHEM 232	Elementary Organic Chemistry I <sup>1</sup>	3
MCB 150	Molec & Cellular Basis of Life	4

### Electives

<b>Biological and natural sciences electives chosen from a departmentally approved list of Biological and Natural Sciences Electives. Three of the six credit hours must be at the 300 or 400 level. Must include one course with a lab component.</b>		<b>6</b>

NPRE 470	Fuel Cells & Hydrogen Sources	3
NPRE 475	Wind Power Systems	3 or 4

<sup>1</sup> May be taken for 4 credit hours; the extra hour may be used to help meet free elective requirements.

for the degree of Bachelor of Science in Agricultural & Biological Engineering, Biological Engineering Concentration

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/abe-bio-engr-map/>).

### Suggested Sequence

#### First Year

First Semester		Hours
ABE 100	Intro Agric Biological Engrg	1
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or SE 101 <sup>2</sup>	Writing and Research	4-3
General education elective <sup>3,4</sup>		3
Semester Hours		16-15

#### Second Semester

ABE 141	ABE Principles: Biological	2
MATH 231	Calculus II	3
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 211	University Physics: Mechanics	4
SE 101 or RHET 105 <sup>2</sup>	Engineering Graphics Design	3-4
Semester Hours		16-17

#### Second Year

##### First Semester

ABE 223	ABE Principles: Machine Syst	2
ABE 224	ABE Principles: Soil Water	2
CS 101	Intro Computing: Engrg Sci	3
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
TAM 210 or 211 <sup>5</sup>	Introduction to Statics	2-3
Semester Hours		17-18

##### Second Semester

ABE 225	ABE Principles: Bioenvironment	2
ABE 226	ABE Principles: Bioprocessing	2
MATH 225	Introductory Matrix Theory	2
MATH 285	Intro Differential Equations	3
CHEM 232 <sup>6</sup>	Elementary Organic Chemistry I	3-4

PHYS 213	Univ Physics: Thermal Physics	2
TAM 212	Introductory Dynamics	3
Semester Hours		17-18
<b>Third Year</b>		
<b>First Semester</b>		
ABE 341	Transport Processes in ABE	3
ECE 205	Electrical and Electronic Circuits	3
MCB 150	Molec Cellular Basis of Life	4
Agricultural and biological engineering technical elective <sup>7</sup>		3
General education elective <sup>3,4</sup>		3
Semester Hours		16
<b>Second Semester</b>		
ECON 103, 102, or ACE 100 <sup>3</sup>	Macroeconomic Principles	3
CHBE 321	Thermodynamics	4
Agricultural and biological engineering technical elective <sup>7</sup>		3
Biological and natural sciences elective <sup>8</sup>		3
General education elective <sup>3,4</sup>		3
Semester Hours		16
<b>Fourth Year</b>		
<b>First Semester</b>		
ABE 430	Project Management	2
Agricultural and biological engineering technical elective <sup>7</sup>		3
Other technical elective <sup>7</sup>		3
General education elective <sup>3,4</sup>		3
Free elective		3
Semester Hours		14
<b>Second Semester</b>		
ABE 469 <sup>4</sup>	Industry-Linked Design Project	4
Biological and natural sciences elective <sup>8</sup>		3
Other technical elective <sup>7</sup>		3
General education elective <sup>3,4</sup>		3
Free elective		3-1
Semester Hours		16-14
Total Hours:		128

<sup>1</sup> MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 103 (or ECON 102 or ACE 100 by permission) must be one of the social & behavioral sciences courses, recommended to be taken early.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> ABE 469 satisfies the General Education Advanced Composition requirement.

<sup>5</sup> The extra hour of credit for this course may be used to help meet free elective requirements.

<sup>6</sup> May be taken for 4 credit hours; the extra hour may be used to help meet free elective requirements.

<sup>7</sup> Students must complete 15 hours of Technical Electives (<https://abe.illinois.edu/undergraduate/technical-electives/>) chosen in consultation with an advisor. At least 8 hours must be Agricultural and Biological Engineering Technical Electives. Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.

- <sup>8</sup> *Students must complete 6 hours from the approved list of Biological and Natural Sciences Electives (<https://abe.illinois.edu/undergraduate/biological-natural-sciences-electives/>). Students in the Biological Engineering Concentration must complete at least one course with a laboratory component.*

## Learning Outcomes: Agricultural & Biological Engineering, BS

Learning outcomes for the degree of Bachelor of Science Major in Agricultural & Biological Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Agricultural & Biological Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Agricultural & Biological Engineering, BS and Agricultural & Biological Engineering, BSAG

for the dual degree of Bachelor of Science in Agricultural & Biological Engineering and the Bachelor of Science in Agriculture in Agricultural & Biological Engineering

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty> (<https://abe.illinois.edu/directory/faculty/>)

**College websites:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>) & The Grainger College of Engineering (<https://grainger.illinois.edu/>)

## Dual Degree – Five Year Academic Program

Students who successfully complete this five-year academic program receive the Bachelor of Science with a major in Agricultural and Biological Engineering from The Grainger College of Engineering as well as the Bachelor of Science in Agriculture with a major in Agricultural and Biological Engineering from the College of ACES.

Students enroll in the College of ACES and then transfer to The Grainger College of Engineering after two years. Students then complete the ABET-accredited degree program in Agricultural and Biological Engineering in The Grainger College of Engineering while taking additional coursework in ACES to complete the requirements for the Bachelor of Science in Agriculture in Agricultural and Biological Engineering degree program in ACES. The suggested program of study that follows fulfills the additional graduation requirements for the second degree, which requires completion of the Grainger College of Engineering degree.

Agricultural and biological engineering is the application of mathematics, physical and biological science, and engineering to agriculture, food systems, energy, natural resources, the environment, and related biological systems. This program has special emphasis on environmental protection and the biological interface of plants, animals, soils, and microorganisms with the design and performance of environments, machines, mechanisms, processes, and structures. Graduates are employed by industry, consulting firms, and government for research, education, and manufacturing.

for the degree of Bachelor of Science in Agricultural & Biological Engineering

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** Agricultural & Biological Engineering Faculty (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college websites:** <https://aces.illinois.edu/> and <https://grainger.illinois.edu/>

**email:** [abe@illinois.edu](mailto:abe@illinois.edu)

**Current Program Educational Objectives:** <https://abe.illinois.edu/undergraduate/abe-program-objectives> (<https://abe.illinois.edu/undergraduate/abe-program-objectives/>)

Students pursuing this major select one of two concentrations:

- Agricultural Engineering Concentration (p. 28)
- Biological Engineering Concentration (p. 35)

for the dual degree of Bachelor of Science in Agricultural & Biological Engineering and the Bachelor of Science in Agriculture in Agricultural & Biological Engineering

While completing the Agricultural & Biological Engineering, B.S. the student takes additional classes in ACES for the BSAG degree. The student is in ACES in years 1 and 2, transferring to The Grainger College of Engineering for years 3 through 5. The curriculum for the additional classes to complete the BSAG degree is as follows:

## Agricultural & Biological Engineering, BSAG Requirements in addition to completion of Agricultural & Biological Engineering, B.S.

Code	Title	Hours
<b>Communication</b>		<b>3</b>
CMN 101	Public Speaking	
<b>Biological Sciences Coursework; choose 4 hours from:</b> <sup>1</sup>		<b>4</b>
ANSC 100	Intro to Animal Sciences

<b>Agricultural Sciences Coursework <sup>3</sup></b>	
<b>Free Electives <sup>4</sup></b>	
<b>Total hours required to receive an Agricultural and Biological Engineering, BS and an Agricultural and Biological Engineering, BSAG</b>	
	<b>15</b>
	<b>158</b>

<sup>1</sup> In addition to the Biological and Natural Sciences Elective hours required for Agricultural and Biological Engineering (6 hours), a further 4 hours of biological sciences must be completed to make up a **total of 10 hours**.

<sup>2</sup> *CHEM 232 and MCB 150 are required for the BIO concentration.*

<sup>3</sup> Fifteen hours of agricultural sciences with courses from at least two subject areas other than Agricultural and Biological Engineering and Technical Systems Management, and approval of advisers are required.

<sup>4</sup> Sufficient free electives selected to total minimum curriculum requirement of 158 hours. All requirements of the combined curriculum must be completed to satisfy the requirements for both degrees.

# Agricultural & Consumer Economics, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of nine concentrations:

- Agri-Accounting (p. 47)
- Agribusiness Markets and Management (p. 49)
- Consumer Economics & Finance (p. 50)
- Environmental Economics & Policy (p. 52)
- Farm Management (p. 54)
- Finance in Agribusiness (p. 55)
- Financial Planning (p. 57)
- Policy, International Trade & Development (p. 59)
- Public Policy & Law (p. 60)

## Agricultural & Consumer Economics: Agri-Accounting, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Agri-Accounting concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Agri-Accounting complete a comprehensive program that enables them to apply accounting principles in production, processing, or retailing sectors in agribusiness industries. Graduates find professional opportunities as consultants and managerial accountants.

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Agri-Accounting concentration

### Prescribed Core Courses including Campus General Education

# Agricultural & Consumer Economics: Agribusiness Markets & Management, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Agribusiness Markets & Management Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Agribusiness Markets and Management obtain management skills; strategy development and implementation; and an awareness of the interaction among agricultural technology, supply, distribution, processing, and marketing firms in the business environment. Graduates are prepared for entry-level management, sales and marketing, and technical analyst positions, and are sought by firms involved in the production, marketing, sales, and financing of farm inputs, agricultural commodities, and food and other retail products.

## Agricultural & Consumer Economics: Consumer Economics & Finance, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Consumer Economics & Finance Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Consumer Economics and Finance develop knowledge and skills to help consumers with everyday problems. Coursework in consumer economics, personal finance, and economics gives students a broad-based background and an understanding of the role of consumers in the marketplace. Students can choose an emphasis in consumer economics, family economics, or financial planning and counseling, which leads to career opportunities with government and public agencies, marketing and sales firms, and financial institutions.

**college website:** <https://aces.illinois.edu/>

Students in Environmental Economics and Policy study environmental and resource management issues at the local, state, national, and international levels. Graduates are prepared for positions in governmental, environmental, and resource management agencies; interest groups; and the environmental area of private firms. Course concentrations include law, policy, management, administration, quantitative methods, and sociology, as well as economics.

## Agricultural & Consumer Economics: Farm Management, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Farm Management Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Farm Management study the principles of economics, finance, risk and the decision-making process - all central to the successful management of a farm enterprise. Students develop skills to combine and manage land, labor, and capital resources for a competitive return. Also, students may learn how to appraise farmland and other assets. Farm (and other asset) appraisal is a growing part of professional farm management and can be pursued as a profession in itself.

## Agricultural & Consumer Economics: Finance in Agribusiness, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Finance in Agribusiness Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Finance in Agribusiness study finance as used in agribusiness, farming, financial institutions, and more broadly, in the financial services industry. In addition to positions as loan officers in banks and other lending institutions, recent graduates are working in trust and other banking operations, investments and securities firms, rural appraisals, financial management, financial planning, insurance, real estate, and related fields.

## Agricultural & Consumer Economics: Financial Planning, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Financial Planning Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in the Financial Planning concentration study finance and economics as they apply to individuals, households, and small businesses in the course of accumulating and using financial resource. Students are introduced to issues of credit management, insurance and other risk management strategies, saving and investing, retirement planning, and estate planning. Students also study the financial marketplace as it relates to the needs of households and small businesses.

# Agricultural & Consumer Economics: Policy, International Trade & Development, BS

for the degree of Bachelor of Science Major in Agricultural & Consumer Economics, Policy, International Trade, & Development Concentration

**department website:** <https://ace.illinois.edu/>

**department faculty:** <https://ace.illinois.edu/faculty> (<https://ace.illinois.edu/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Students in Policy, International Trade, and Development enjoy a broad exposure to policy, international trade, and agricultural development from an economics perspective. The concentration provides a global and societal perspective ideally suited for exploring studies in administration, government, policy analysis, social processes, and international economics. Graduates are prepared for positions in firms with international business; in federal or state government agencies dealing with policy, trade, or development; in trade organizations; and in public interest groups.

AGCM 320	Public Information Campaigns	4
JOUR 200	Introduction to Journalism	3
ADV 150	Introduction to Advertising	3
ADV 281	Advertising Research Methods	3
ADV 283	Advertising and Brand Strategy	3
ADV 284	Consumer Insight	3
Select three of the following:		9
ADV 390	Content Creation	
ADV 409	Media Entrepreneurship	
ADV 460	Innovation in Advertising	
ADV 483	Audience Analysis	
Select three of the following:		8-12
AGCM 230	Agricultural and Environmental Photography	
AGCM 250	Visual Principles for Ag Comm	
AGCM 270	Ag Sales and Persuasive Communication	
AGCM 315	Social Media Management in Agricultural Communications	
AGCM 330	Environmental Communications	
AGCM 398	Undergraduate Seminar <sup>1</sup>	
AGCM 430	Comm in Env Social Movements	
ALEC 293	Communications Internship	
LEAD 260	Foundations of Leadership	
Students must also complete the ACES Minor in Food and Environmental Systems		18

<sup>1</sup> ALEC 293 and AGCM 398 must be taken at 3 hours to meet this requirement.

### For the ACES Minor in Food & Environmental Systems

#### Required Courses for the Food and Environmental Systems Minor

Code	Title	Hours
ACES 102	Intro Sustainable Food Systems	3
FSHN 101	The Science of Food and How it Relates to You	3
NRES 100	Fundamentals of Env Sci	3
Select a minimum of three hours from the following introductory level courses:		3
ANSC 100	Intro to Animal Sciences	
ANSC 101	Contemporary Animal Issues	
ANSC 110	Life With Animals and Biotech	

ANSC 223	Animal Nutrition
ANSC 224	Animal Reproduction and Growth
ANSC 250	Companion Animals in Society
ACE 100	Introduction to Applied Microeconomics
ACE 210	Environmental Economics
ACE 222	Agricultural Marketing
ACE 231	Food and Agribusiness Mgt
ACE 232	Farm Management
ACE 251	The World Food Economy
CPSC 112	Introduction to Crop Sciences
CPSC 116	The Global Food Production Web
CPSC 226	
FSHN 120 or FSHN 220	Contemporary Nutrition Principles of Nutrition
FSHN 232	Science of Food Preparation
FSHN 260	Raw Materials for Processing
HORT 105	Vegetable Gardening
HORT 106	The Sustainable Home Garden
NRES 109	Global Environmental Issues
NRES 201	Introductory Soils
NRES 219	Applied Ecology
NRES 287	Environment and Society
PLPA 204	
TSM 100	Technical Systems in Agr
Select a minimum of six hours from the following advanced level courses:	
ACE 306	Food Law
ACE 310	Natural Resource Economics
ACE 346	Tax Policy and Finan Planning
ACE 403	Agricultural Law
ACE 406	Environmental Law
ACE 411	Environment and Development
ACE 430	Food Marketing
ACE 431	Agri-food Strategic Management
ACE 432	Advanced Farm Management
ACE 435	Global Agribusiness Management
ACE 436	International Business Immersion
ACE 451	Agriculture in Intl Dev
ACE 456	Agr and Food Policies
ANSC 305	Human Animal Interactions
ANSC 306	Equine Science
ANSC 309	Meat Production and Marketing
ANSC 322	Livestock Feeds and Feeding
ANSC 363	Behavior of Domestic Animals
ANSC 400	Dairy Herd Management
ANSC 401	Beef Production
ANSC 402	Sheep and Goat Production
ANSC 403	Pork Production
ANSC 404	Poultry Science
ANSC 405	Advanced Dairy Management
ANSC 406	Zoo Animal Conservation Sci
ANSC 407	Animal Shelter Management
ANSC 409	Meat Science

6

ANSC 422	Companion Animal Nutrition
ANSC 423	Advanced Dairy Nutrition
ANSC 431	Advanced Reproductive Biology
ANSC 438	Lactation Biology
ANSC 444	Applied Animal Genetics
ANSC 446	Population Genetics
ANSC 450	Comparative Immunobiology
ANSC 451	Microbes and the Anim Indust
ANSC 452	Animal Growth and Development
ANSC 467	Applied Animal Ecology
CPSC 407	Diseases of Field Crops
CPSC 418	Crop Growth and Management
CPSC 431	Plants and Global Change
FSHN 302	Sensory Evaluation of Foods
FSHN 322	Nutrition and the Life Cycle
FSHN 425	Food Marketing
FSHN 428	Community Nutrition
NRES 325	Natural Resource Policy Mgmt
NRES 330	Environmental Communications <sup>1</sup>
NRES 348	Fish and Wildlife Ecology
NRES 370	Environmental Sustainability
NRES 409	Fishery Ecol and Conservation
NRES 419	Env and Plant Ecosystems
NRES 420	Restoration Ecology
NRES 430	Comm in Env Social Movements <sup>1</sup>
NRES 431	Plants and Global Change
NRES 474	Soil and Water Conservation
NRES 488	Soil Fertility and Fertilizers
PLPA 407	
TSM 311	Humanity in the Food Web

Total Hours

18

<sup>1</sup> These courses may only be used to satisfy the requirements of the major in Ag Communications or the Food and Environmental Systems minor, but not both.

## Agricultural Leadership, Education, & Communications: Agricultural Communications - Journalism, BS

for the degree of Bachelor of Science Major in Agricultural Leadership, Education, & Communications, Agricultural Communications - Journalism concentration

# Learning Outcomes: Agricultural Leadership, Education, & Communications, BS

Learning Outcomes for the degree of Bachelor of Science Major in Agricultural Leadership, Education, & Communications

---

## Communications

The faculty identified three major categories of student learning outcomes that entail awareness, understanding, and application of the following: (A) food and environmental systems, (B) the role, nature, and context of agricultural journalism and communications, and (C) practices and skills in agricultural journalism and communications.

A1: Awareness, understanding, and application of knowledge about food and environmental systems (achieved through courses required in the mandatory Food and Environmental Systems minor)

1. Contemporary issues in the human, food, and natural resource systems
2. Introduction to the fundamentals of modern crop, livestock and other agricultural production systems, including future challenges and opportunities for addressing world food needs
3. Critical systems thinking and collaborative analysis across multiple disciplines involved in the food, feed, fiber, renewable energy, and rural complex
4. Evolution of the food system and overview of food in relation to nutrition, health, safety, processing, regulations, and other dimensions
5. Introduction to the environmental sciences and current environmental issues in relation to population growth, world food supplies, agriculture, water use, conservation, climate change, and other aspects
6. Relationships between humans and the natural systems that contain our air, water, energy, and biotic and food sources.

B1: Awareness, understanding, and application of knowledge about the role, nature, and context of agricultural journalism and communications (achieved through Agricultural Communications courses)

1. Scope, scale, mission/role, and impacts of communications within agriculture, including the rural-urban dimensions of it, locally to internationally
2. History and development of agricultural information systems and services in the U.S. and beyond
3. Current agricultural communications systems and services in the U.S., including those involving new and emerging media
4. Availability and sources of agricultural communications research, including current types of research issues being addressed in various sectors of this field
5. Concept of information flow and knowledge management for decision making that involves agriculture, broadly defined
6. Audiences/publics for agricultural journalism and communications within the food complex and beyond
7. Theories and conceptual foundations for agricultural journalism and communications
8. Trends, forces for change, and opportunities in agricultural journalism and communications, including fronts for innovation
9. Contemporary issues in agricultural journalism and communications in the U.S. and beyond
10. International and intercultural dimensions of communications in agricultural/rural development and sustainability, including elements of intercultural sensitivity
11. Legal and ethical issues in agricultural journalism and communications
12. Role of the agricultural communicator, including emphasis on the concepts of joint problem solving and the honest broker perspective. Also, current and emerging fields of professional activity in agricultural communications, broadly defined.

B2: Awareness, understanding, and application of knowledge about the role, nature, and context of agricultural journalism and communications (achieved through College of Media courses)

1. Conceptual frameworks for creating multimedia journalism content
2. Theories of freedom of expression, the legal doctrines of greatest concern to mass communicators, and contemporary issues related to free speech and press, including libel, copyright, and news gathering in the digital age
3. Introduction to the profession of advertising
4. How advertising and journalism relate to society in cultural, social, ethical, and regulatory contexts
5. Theories of persuasion, advertising, and marketing

C1: Awareness, understanding, and application of practices and skills in agricultural journalism and communications (achieved through Agricultural Communications courses)

1. Writing and editing in varied settings and for varied purposes, including science writing related to the dimensions of agriculture
2. Coverage and reporting of news, features, and research related to agriculture in print, broadcast, and online media, including risk and crisis communications
3. Communication materials related to agriculture—planning and management, editing, design, layout, production, distribution, and evaluation in print and electronic formats
4. Media analysis and selection in settings related to agriculture, encompassing all means by which humans interact and including all channels and media, earliest to newest
5. Communications planning and management in non-commercial settings (such as Extension and social marketing) related to agriculture
6. Marketing communications related to agriculture— settings, roles, principles, and skills in advertising, promotion, public relations, and sales
7. Visual communications (photography, graphic design, videography) related to agriculture —skills in planning, selection, composition, digital editing, and design
8. Production and presentation of programming in agriculture-related radio and television broadcasting, and other audio/video channels
9. Use of current information and communications technologies (ICT) and software being employed in relation to the varied dimensions of agriculture

C2: Awareness, understanding, and application of practices and skills in agricultural journalism and communications (achieved through College of Media courses)

1. Introductory journalism reporting and writing across print, broadcast, and digital platforms
2. Fundamentals of digital photography, video, audio, and multimedia production as applied in journalism.
3. Introductory practices in advertising and integrated promotion—account planning, creatives, audience analysis, consumer behavior, sales promotion, media research, and interactive advertising
4. Research methods in advertising, including qualitative and quantitative techniques commonly used in the advertising industry
5. Insights about consumer knowledge, interests, attitudes, and decision making
6. Developing and applying brand strategies using theories of advertising and marketing, as well as techniques for persuasive presentation

#### **Leadership & Education**

1. Communicate in-depth understanding of agricultural systems to provide meaningful educational experiences for learners ranging from PreK through adult.
2. Assess the human capital needs of a group, organization, or community and engage with stakeholders to formulate a solution to an identified need.
3. Apply theories of leadership and learning to plan and deliver positive educational experiences in diverse instructional settings.
4. Demonstrate principles of transformative leadership in the context of a diverse group.

# Agricultural Leadership & Science Education, BS

for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education

**program website:** <https://alec.illinois.edu/>

**program faculty:** <https://alec.illinois.edu/directory>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/> (<https://engineering.illinois.edu/>)

Students pursuing this major select from two concentrations:

- Agricultural Leadership Education (p. 79)
- Agricultural Science Education (p. 81)

The Bachelor of Science with a Major in Agricultural Leadership & Science Education curriculum prepares students for positions requiring expertise in formal and non-formal education. Examples include teaching agriculture in the public schools; cooperative extension work; training and program development; and other education-related positions in agricultural and environmental agencies and businesses.

A minimum of 126 hours is required for graduation.

## Agricultural Leadership & Science Education: Agricultural Leadership Education, BS

for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education, Agricultural Leadership Education concentration

**program website:** <https://aged.illinois.edu/>

**program faculty:** Agricultural Education Faculty (<https://aged.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/> (<https://engineering.illinois.edu/>)

The Bachelor of Science with a Major in Agricultural Leadership & Science Education curriculum prepares students for positions requiring expertise in formal and non-formal education. Examples include teaching agriculture in the public schools; cooperative extension work; training and program development; and other education-related positions in agricultural and environmental agencies and businesses.

A minimum of 126 hours is required for graduation. Students pursuing this major select from two concentrations: agricultural leadership education or agricultural science education. Students completing the agricultural science education concentration will be eligible for Illinois teacher certification in agricultural education, and will have instruction in key pedagogical areas as well as agriculture. For teacher education requirements applicable to all curricula, see the Council on Teacher Education ([www.cote.illinois.edu/](http://www.cote.illinois.edu/) (<http://www.cote.illinois.edu/>)).

The Agricultural Leadership Education concentration prepares students for educational leadership, training and outreach positions in agricultural, extension, community and governmental agencies. Coursework focuses on designing educational/training programs, making professional presentations, leadership development, teaching/training methods and interpersonal communications. A 4 to 12-week business/agency summer internship is required. The curriculum provides the flexibility for students to specialize in a chosen area of agriculture.

## Learning Outcomes: Agricultural Leadership & Science Education, BS

Learning outcomes for the degree of Bachelor of Science Major in Agricultural Leadership & Science Education

- 
1. Communicate in-depth understanding of agricultural systems to provide meaningful educational experiences for learners ranging from PreK through adult.
  2. Assess the human capital needs of a group, organization, or community and engage with stakeholders to formulate a solution to an identified need.
  3. Apply theories of leadership and learning to plan and deliver positive educational experiences in diverse instructional settings.
  4. Demonstrate principles of transformative leadership in the context of a diverse group.

# Agronomy, BS

for the degree of Bachelor of Science Major in Agronomy

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Agronomy is the fundamental agricultural science: managing multiple parts of agricultural systems to sustainability and economically meet the growing need for food, fuel and fiber. The agronomy major provides a foundation that by necessity integrates the science and practice of agricultural production through courses in plant biology, genetics, weed and pest management, soil science, environmental quality, and agricultural management practices. The program also offers many opportunities to participate in research and internships. This curriculum prepares students for careers in agricultural sciences as well as for entrance into graduate and professional schools. Our students pursue employment in scientific research or fields related to agronomy including crop consulting, soil and crop management, international food security and agricultural development, and science policy.

# Animal Sciences, BS

for the degree of Bachelor of Science Major in Animal Sciences

**department website:** <https://ansc.illinois.edu/>

**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of three concentrations:

- Companion Animal and Equine Science Concentration (p. 86)
- Food Animal Production and Management Concentration (p. 89)
- Science, Pre-Veterinary and Medical Concentration (p. 92)

## Animal Sciences: Companion & Equine Science, BS

for the degree of Bachelor of Science Major in Animal Sciences, Companion & Equine Science Concentration

**department website:** <https://ansc.illinois.edu/>

**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The companion animal and equine science concentration is designed for students intending to pursue a career in those industries generally not associated with traditional meat animal or dairy production. Students will take courses that prepare them for careers in specialized fields of animal care, animal health and animal well-being associated with zoos, kennels, research laboratories, and the racing industry.

## Animal Sciences: Food Animal Production & Management, BS

for the degree of Bachelor of Science Major in Animal Sciences, Food Animal Production & Management concentration

**department website:** <https://ansc.illinois.edu/>

**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The Food Animal Production and Management Concentration is designed for students intending to pursue a career in animal care and management or one of the associated food production industries. It emphasizes the scientific disciplines and the application of technology involved in animal production and animal products, as well as providing the opportunity to enhance a student's practical knowledge through business courses.

## Animal Sciences: Science, Pre-Veterinary & Medical, BS

*for the degree of Bachelor of Science Major in Animal Sciences, Science, Pre-Veterinary & Medical concentration*

**department website:** <https://ansc.illinois.edu/>

**department faculty:** Animal Sciences Faculty (<https://ansc.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The science and pre-veterinary medical concentration is specifically designed for students interested in graduate school, professional training, or technical positions after the undergraduate degree. It is intended to satisfy most entrance requirements to post-graduate programs and emphasizes basic science courses. The concentration enables a student to complete all of the pre-veterinary science requirements while working towards a B.S. degree.

*for the degree of Bachelor of Science Major in Animal Sciences, Science, Pre-Veterinary & Medical concentration*

### Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
RHET 105	Writing and Research (or equivalent) (see college Composition I requirement)	4
CMN 101	Public Speaking	3
<b>Advanced Composition</b>		
Select from campus approved list.		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following:		4-5
MATH 220	Calculus	
MATH 221	Calculus I	
MATH 234	Calculus for Business I	
<b>Quantitative Reasoning II</b>		
Select one of the following:		3-4
ACE 261	Applied Statistical Methods	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
PSYC 235	Intro to Statistics	
STAT 100	Statistics	
SOC 280	Intro to Social Statistics	
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4
MCB 100 & MCB 101	Introductory Microbiology and Intro Microbiology Laboratory	5
<b>Humanities and the Arts</b>		
Courses selected from campus approved list		6

**Social Sciences**

ECON 102	Microeconomic Principles	3
or ACE 100	Introduction to Applied Microeconomics	
Additional social or behavioral science course; cannot be an economics course.		3-4

**ACES Required**

ACES 101	Contemporary Issues in ACES	2
----------	-----------------------------	---

**Animal Sciences Required**

ANSC 100	Intro to Animal Sciences	4
ANSC 101	Contemporary Animal Issues	3
ANSC 103	Working With Farm Animals	2
ANSC 221	Cells, Metabolism and Genetics	3
ANSC 222	Anatomy and Physiology	3
ANSC 223	Animal Nutrition	3
ANSC 224	Animal Reproduction and Growth	4
ANSC 298	Animal Science Careers and Professional Development	1
ANSC 398	UG Experiential Learning <sup>1</sup>	1
ANSC 498	Integrating Animal Sciences	2

<sup>1</sup> ANSC 398 only fulfills the degree requirement when taken for a standard letter grade.

<b>Total Hours</b>		<b>126</b>

<sup>1</sup> ANSC 398 only fulfills the degree requirement when taken for a standard letter grade.

## Learning Outcomes: Animal Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Animal Sciences

Upon successful completion of a degree in Animal Sciences, students will:

1. Demonstrate a mastery of the basic principles of animal genetics, nutrition, reproduction and physiology
2. Apply knowledge of animal husbandry, behavior and handling techniques to effectively interact with animals in a safe and humane manner
3. Appreciate the breadth of animal sciences in terms of the variety of career paths, the diversity of the animal industries, and the many roles of animals in society
4. Communicate effectively, both written and orally, and demonstrate confidence in attaining transferable job or post-graduate skills
5. Practice the scientific method in solving 'real-world' problems including collecting and evaluating information, forming predictions, collecting and interpreting data and implementing actions
6. Build and sustain productive relationships to create positive change in response to challenging issues with animals and the agriculture industry at the local, national and international levels

# Anthropology, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology*

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

Students pursuing this major must select one of the following in consultation with an advisor:

Major in Anthropology (p. 96)

Archaeology Concentration (p. 97)

Human Evolutionary Biology Concentration (p. 99)

Sociocultural & Linguistic Anthropology Concentration (p. 101)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Anthropology*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60- 75 hours). Please see your adviser.

**Departmental distinction:** The department may award distinction, high distinction, or highest distinction to any Anthropology major whose overall and major grade point averages are 3.25 or higher; and who successfully completes 33 hours of anthropology courses, including 4-6 hours of ANTH 494 and ANTH 495 resulting in an Honors Thesis. The level of distinction is based on evaluation of the honors thesis. See the departmental academic advisor for details. All students must discuss their selection of anthropology courses and supporting course work with a departmental adviser.

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
-------------	--------------	--------------

When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.

<b>Anthropology Core Courses</b>	<b>9</b>
----------------------------------	----------

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220 or ANTH 105	Introduction to Archaeology World Archaeology
ANTH 230 or ANTH 103	Sociocultural Anthropology Anthro in a Changing World
ANTH 240 or ANTH 102	Biological Anthropology Human Origins and Culture
ANTH 270/271 or ANTH 104	Language in Culture Talking Culture

<b>Thematic Area Courses</b>	<b>21</b>
------------------------------	-----------

Choose courses in Thematic Areas within the Department of Anthropology. Students must meet with the departmental advisor to discuss selection of courses. Thematic Areas:

Anthropology of North, Central and South America
Anthropology of Africa, Asia, Europe
Criminality, Law and Social Justice
Environment, Landscape and Sustainability
Family, Community and Social Life
Health, Wellness and Society
Heritage, Museums and Tourism
Human Evolution and Culture

Identity: Race, Class, Gender, Sexuality, Disability	
Immigration, Transnationalism and Diaspora	
Language, Culture and Communication	
Performance, Body, Arts and Media	
Science and Technology	
<b>Additional courses within Anthropology or closely related departments that complement the student's thematic area of study</b>	<b>9</b>
<b>Research and Service Learning Coursework</b>	<b>3</b>
Choose one of the following areas in consultation with the departmental advisor:	
Archaeology	
ANTH 454	Archaeological Field School
or ANTH 455	Lab Analysis in Archaeology
Biological Anthropology	
ANTH 444	Methods in Bioanthropology
or ANTH 445	Research in Bioanthropology
Sociocultural/Linguistic Anthropology	
ANTH 411	Research Methods in Socio-Cultural Anthropology (or ANTH 499- Research Methods in Linguistic Anthropology section)
Museum Anthropology	
ANTH 462	Museum Theory and Practice
or MUSE 390	Museum Internship
<b>Senior Capstone Project</b>	<b>3-6</b>
Choose one option below (Honors Thesis, Senior Capstone Seminar, Internship, Study Abroad, Field School or Research) in consultation with the departmental advisor:	
Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis	
ANTH 494	Honors Senior Thesis I
ANTH 495	Honors Senior Thesis II
Senior Capstone Seminar (Independent Research)- 3 hours	
ANTH 498	Senior Capstone Seminar
Internship- 3 hours. A portfolio and report associated with an approved departmental internship	
ANTH 390	Individual Study
Study Abroad- 3 hours. A portfolio and report associated with an approved Study Abroad experience	
ANTH 390	Individual Study
Research and/or Field School- 3-6 hours. Data analysis and a research report associated with one of the following:	
ANTH 454 & ANTH 455	Archaeological Field School and Lab Analysis in Archaeology
ANTH 444 & ANTH 445	Methods in Bioanthropology and Research in Bioanthropology
<b>Total Hours</b>	<b>45</b>

## Anthropology: Archaeology, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Archaeology Concentration

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The Archaeology Concentration offers students a program to explore the human past through its material remains to understand cultural and societal change through time, and the role of heritage in the present. We offer many opportunities for students to conduct research with faculty in our archaeology labs, field schools, and in our extensive research collections.

ANTH 240 or ANTH 102	Biological Anthropology Human Origins and Culture
ANTH 270/271 or ANTH 104	Language in Culture Talking Culture

**Archaeology Courses (18 hours distributed as follows):**

One course in Cultural archaeology history chosen from the following:	3
---	---

ANTH 358	People of the Ice Age
ANTH 448	The Prehistory of Africa
ANTH 449	North American Archeology
ANTH 459	The Ancient Maya

Two courses in Methods/Materials analysis chosen from the following:	6
--	---

ANTH 358	People of the Ice Age
ANTH 420	Case Studies Global Heritage
ANTH 451	Archaeological Surveying
ANTH 452	Stone Tool Technology Analysis
ANTH 453	Landscape Archaeology
ANTH 460	Heritage Management
ANTH 462	Museum Theory and Practice
ANTH 477	Pottery Analysis

Three Archaeology courses chosen from the following:	9
--	---

ANTH 358	People of the Ice Age
ANTH 420	Case Studies Global Heritage
ANTH 448	The Prehistory of Africa
ANTH 449	North American Archeology
ANTH 451	Archaeological Surveying
ANTH 452	Stone Tool Technology Analysis
ANTH 453	Landscape Archaeology
ANTH 459	The Ancient Maya
ANTH 460	Heritage Management
ANTH 461	Hist of Archaeological Theory
ANTH 462	Museum Theory and Practice

ANTH 477	Pottery Analysis	
<b>Additional Archaeology Anthropology coursework (9 hours distributed as follows):</b>		
One course in Biological Anthropology		3
Two courses related to the student's area of emphasis and approved by the departmental advisor		6
<b>Research and Service Learning Coursework</b>		
ANTH 454	Archaeological Field School	3
ANTH 455	Lab Analysis in Archaeology	3

**Minimum required major and supporting course work: Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.		
<b>Anthropology Core Courses</b>		<b>9</b>

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220	Introduction to Archaeology	
or ANTH 105	World Archaeology	
ANTH 230	Sociocultural Anthropology	

or ANTH 103	Anthro in a Changing World
ANTH 240	Biological Anthropology
or ANTH 102	Human Origins and Culture
ANTH 270/271	Language in Culture
or ANTH 104	Talking Culture

### **Human Evolutionary Biology Courses** **18**

Students take courses from 4 different categories: 2 courses from each of 2 categories, plus 1 course in each of the 2 remaining categories.

<b>Evolution and Genetics</b>	
ANTH 241	Human Biological Variation
ANTH 242	History of Human Evolution
ANTH 249	Evolution and Human Disease
ANTH 408	Human Evolutionary Anatomy
ANTH 435	The Neandertal Debate
ANTH 438	Primate Life History Evolution
ANTH 440	Human Paleontology
ANTH 441	Human Genetics
<b>Health</b>	
ANTH 258	Sex in Nature and Culture
ANTH 343	Behavior and Biology of Women
ANTH 347	Human Osteology
ANTH 437	Primate Behav Endocrinology
ANTH 438	Primate Life History Evolution
ANTH 447	Advanced Skeletal Biology
<b>Behavior</b>	
ANTH 243	Sociality of the Great Apes
ANTH 258	Sex in Nature and Culture
ANTH 343	Behavior and Biology of Women
ANTH 347	Human Osteology
ANTH 435	The Neandertal Debate
ANTH 437	Primate Behav Endocrinology
ANTH 438	Primate Life History Evolution
ANTH 440	Human Paleontology
ANTH 443	Primate Form and Behavior
ANTH 446	Behavioral Inference & Fossils
ANTH 447	Advanced Skeletal Biology
<b>Comparative Anatomy</b>	
ANTH 243	Sociality of the Great Apes
ANTH 346	Forensic Anthropology
ANTH 347	Human Osteology
ANTH 408	Human Evolutionary Anatomy
ANTH 435	The Neandertal Debate
ANTH 443	Primate Form and Behavior
ANTH 446	Behavioral Inference & Fossils
ANTH 447	Advanced Skeletal Biology

3 additional courses from any of the 4 elective categories, or another field of anthropology, or a related field such as statistics, psychology, chemistry etc. Course selection should complement the student's Human Evolutionary Biology focus. Meet with the departmental advisor to discuss course selection. 9

### **Research and Service Learning Coursework** **3**

Choose one of the following:

ANTH 444	Methods in Bioanthropology
ANTH 445	Research in Bioanthropology

### **Senior Capstone Project** **3-6**

Choose one option below (Honors Thesis, Senior Seminar, Internship, or Research) in consultation with the departmental advisor:

Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis

ANTH 494 Honors Senior Thesis I

ANTH 495 Honors Senior Thesis II

Senior Capstone Seminar (Independent Research)- 3 hours

ANTH 498 Senior Capstone Seminar

Internship- 3 hours. A portfolio and report associated with an approved departmental internship

ANTH 390 Individual Study

Research and/or Additional Field School- 3-6 hours. If not taken to meet the Research and Service Learning Coursework requirement above choose one of the following:

ANTH 444 Methods in Bioanthropology

ANTH 445 Research in Bioanthropology

Further data analysis- ANTH 445 or an additional approved biological anthropology research project- ANTH 444.

Total Hours

42

## Anthropology: Sociocultural & Linguistic Anthropology, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Sociocultural and Linguistic Anthropology Concentration*

**department website:** <https://anthro.illinois.edu/>

**department faculty:** Anthropology Faculty (<https://anthro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

The Sociocultural and Linguistic Anthropology Concentration offers students a program of more focused coursework in these closely related fields. Sociocultural anthropologists study the daily lives of people around the world, both at home and abroad. They conduct field research to get a hands-on feel for people's lives and passions and examine everything from beauty pageants to political protest marches, from Disney films to the lab practices of nuclear scientists. Sociocultural anthropology distinguishes itself from other disciplines by its conviction that these local and personal details offer a crucial window on the largest processes and problems of our time, from globalization to race relations and violence.

Linguistic anthropology complements sociocultural anthropology with detailed attention to spoken and signed languages—their structure and use in the daily lives of people around the world, both at home and abroad. Linguistic anthropologists examine such things as the “English Only” movement in the United States, the persuasive language of advertising and politics, racism and hate speech, oral/gestural storytelling traditions around the world, communication in the classroom, on social media, or at the United Nations, as well as how the way we talk creates our sense of self and reality.

*for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Anthropology, Sociocultural and Linguistic Anthropology Concentration*

**A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.**

**Departmental Distinction:** The department may award distinction, high distinction, or highest distinction to any Anthropology major whose overall and major grade point averages are 3.25 or higher; and who successfully completes 33 hours of anthropology courses, including 4-6 hours of ANTH 494 and ANTH 495 resulting in an Honors Thesis. The level of distinction is based on evaluation of the honors thesis.

**See the departmental academic advisor for details.**

All students must discuss their selection of coursework with a departmental adviser.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.

**Minimum hours required for graduation:** 120 hour

Code	Title	Hours

When a course is listed under two or more categories, the student may decide which of the requirements the course should fulfill; however, it may not be used to fulfill more than one of those requirements.

### Anthropology Core Courses

9

Choose 3 of the following core courses. Students may make one substitution for 1 of the 3 required courses, choosing from the option listed.

ANTH 220	Introduction to Archaeology
----------	-----------------------------

or ANTH 105	World Archaeology	
ANTH 230	Sociocultural Anthropology	
or ANTH 103	Anthro in a Changing World	
ANTH 240	Biological Anthropology	
or ANTH 102	Human Origins and Culture	
ANTH 270/271	Language in Culture	
or ANTH 104	Talking Culture	
<b>Socio-cultural and Linguistic Anthropology Courses</b>		
7 courses selected from the list maintained in the advisor's office. Students select 3 courses from locations across at least 2 regions of the world and 4 courses from theoretical or topical areas course offerings in socio-cultural and linguistic anthropology chosen in consultation with the departmental advisor. Four courses must be at the 300- or 400-level.		21
Additional socio-cultural and linguistics anthropology courses or courses in related fields such as Sociology, Linguistics, Psychology, Education, History, Gender and Women's Studies, African American Studies, Latina/Latino Studies, Asian American Studies, African Studies, Jewish Studies that complement the student's sociocultural/linguistic focus. Meet with the departmental advisor to discuss the selection of courses.		9
<b>Research and Service Learning Coursework</b>		3
Choose one of the following:		
Research Methods in Cultural Anthropology - ANTH 411 Methods of Cultural Anth		
Research Methods in Linguistic Anthropology - ANTH 499		
<b>Senior Capstone Project</b>		3-6
Choose one option below (Honors Thesis, Senior Seminar, Internship, or Study Abroad) in consultation with the departmental advisor:		
Honors Thesis- 6 hours. Two consecutive semesters of research resulting in a written thesis		
ANTH 494	Honors Senior Thesis I	
ANTH 495	Honors Senior Thesis II	
Senior Capstone Seminar (Independent Research)- 3 hours		
ANTH 498	Senior Capstone Seminar	
Internship- 3 hours. A portfolio and report associated with an approved departmental internship		
ANTH 390	Individual Study	
Study Abroad- 3 hours. A portfolio and report associated with an approved Study Abroad experience		
ANTH 390	Individual Study	
<b>Total Hours</b>		<b>45</b>

# Architectural Studies, BS

## for the Bachelor of Science Major in Architectural Studies

**Director of the School:** Francisco Javier Rodríguez-Suárez

**School website:** <https://arch.illinois.edu/>

**Overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**College website:** <https://faa.illinois.edu/>

**Email:** [architecture@illinois.edu](mailto:architecture@illinois.edu)

The Bachelor of Science in Architectural Studies BSAS is a pre-professional degree that prepares students to enter a professional 2-year M ARCH degree. The program provides a strong foundation in design, technology and history as they relate to architectural practice. The degree also provides students with a broad liberal arts foundation that can lead to many other career options.

In this curriculum, normal progress is imperative. A student failing to complete any required course more than one semester later than the time designated in the curriculum is prohibited from progressive registration in architectural courses until the deficiency is corrected. To continue at the sophomore level and beyond, a student must have a cumulative grade point average of 2.00 (A = 4.0) for all University course work attempted. For the Bachelor of Science in Architectural Studies degree, a total of 120 semester hours are required.

## for the Bachelor of Science Major in Architectural Studies

### General Education Requirements

Code	Title	Hours
Some courses may fulfill multiple General Education categories. Courses may also fulfill both major requirements and Gen Ed categories.		
Composition I		4
Advanced Composition (ARCH 314 can fulfill)		3
Quantitative Reasoning I and II (specific courses required):		7-10
MATH 220	Calculus	
	or MATH 221Calculus I	
MATH 231	Calculus II (MATH 231 required for concentration in Building Structures and Structural Engineering)	
	or PHYS 101 College Physics: Mech & Heat	
Humanities and the Arts (ARCH 222 and ARCH 314 can fulfill)		6
Cultural Studies: Western Comparative Cultures (ARCH 314 can fulfill)		3
Cultural Studies: U.S. Minority Culture(s)		3
Cultural Studies: Non-Western Cultures (ARCH 222 can fulfill)		3
Natural Sciences and Technology		6
Social and Behavioral Sciences		6
<b>Total</b>		<b>26-44</b>
Language Other than English <sup>1</sup>		0-12

Electives <sup>3</sup>	6
Semester Hours	12
Total Hours:	120

<sup>1</sup> See current University of Illinois General Education requirements. (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>)  
The General Education quantitative reasoning requirement I is satisfied by the required MATH 220 or MATH 221 course; the quantitative reasoning II requirement is satisfied by the MATH 231 or PHYS 101 course. Students considering a concentration in Building Structures or Structural Engineering should take MATH 231. The Advanced Composition requirement may be fulfilled by either a separate, approved Advanced Composition course or by an Advanced Composition course which also satisfies one of the general education distribution list requirements. If by the latter, electives would be taken to make up the credit deficiency.  
General Education foreign language requirement 0-12 hours: Students entering the University of Illinois as freshmen in fall 2000 or later need to complete the foreign language requirement in order to graduate. To satisfy this requirement, students must complete a third semester level college foreign language course. This requirement may also be satisfied by three years of the same foreign language in high school. Students entering the University of Illinois without three years of the same foreign language in high school must take a foreign language placement test to determine the courses in which to enroll.

<sup>2</sup> The Composition I requirement may be fulfilled by any of the following courses or course sequences (placement is determined by examination): ESL 111 and ESL 112; ESL 115; RHET 101, and RHET 102; or RHET 105; or CMN 111 and CMN 112.

<sup>3</sup> For information about electives, see the Undergraduate Handbook at the FAA website (<https://faa.illinois.edu/>). A maximum of nine hours may be taken as professional electives.

<sup>4</sup> Architectural history: All students in the undergraduate program in architecture must fulfill the architectural history requirement: one course in addition to ARCH 210. Select from: ARCH 222, ARCH 314, ARCH 402, ARCH 403, ARCH 407, ARCH 409, Section B (Barcelona only), ARCH 410, ARCH 411, ARCH 412, ARCH 413, ARCH 414, ARCH 415, ARCH 416, ARCH 417, or ARCH 418.

- <sup>5</sup> The UP 101 requirement can be fulfilled by substituting one of the following approved courses: ARCH 418, ARCH 468, GEOG 204, GEOG 210, and GEOG 483.

## Learning Outcomes: Architectural Studies, BS

Learning outcomes for the Bachelor of Science Major in Architectural Studies

---

The Bachelor of Science in Architectural Studies (BSAS) curriculum combines a comprehensive design education with the broad perspective necessary to become active and engaged global citizens. Students learn to address and solve tomorrow's complex problems at the intersection of the social, political, economic and environmental realms. Two- and three-dimensional design form the foundation of the four-year BSAS degree. Technology, history, and structures courses complete the curriculum, preparing students to enter a two-year NAAB-accredited Master of Architecture degree program, or to pursue a graduate degree or career in an allied discipline.

When students complete the BSAS degree they will be able to:

### 1. Employ Specialized Knowledge

- Apply design thinking approaches to address environmental and societal challenges.
- Implement design processes—documentation, research, analysis and application—intervening to improve a set of environmental conditions.
- Communicate ideas and concepts through verbal and graphic, physical and digital, means.

### 2. Put Broad and Integrative Knowledge to Use

- Identify complex problems and approaches to addressing them.
- Understand diverse community dynamics and social relationships.
- Explore the intersections among environmental, social, cultural, political and economic aspects.

### 3. Exercise Intellectual Skills:

- Evaluate and apply theories of the built environment's impact on human wellbeing.
- Differentiate and assess various means of manufacture and their suitability for use in a number of diverse contexts.
- Acknowledge different theories for analyzing and intervening in urban contexts.
- Evidence proficiency integrating technological systems to improve environmental performance.
- Critically examine humanistic perspectives in architecture, urban and landscape throughout time.

### 4. Demonstrate Proficiency in Applied and Collaborative Learning:

- Apply skills needed for successful teamwork and consensus decision making.
- Employ leadership skills.
- Recognize the value of multidisciplinary contributions in the realm of environmental design.

### 5. Illustrate Civic and Global Understanding:

- Demonstrate empathic and ethical decision making.
- Apply sustainable practices across a variety of scales and contexts.
- Cultivate self-learning skills and curiosity to learn and broaden cultural perspectives.
- Utilize contemporary and historical perspectives in design thinking processes.

# Art & Art History, BFA

for the degree of Bachelor of Fine Arts Major in Art & Art History

**school office:** 143 Art and Design Building, Champaign, IL 61820

**academic advisor:** Bryan VanGinhoven

**school website:** School of Art & Design (<https://art.illinois.edu/>)

**school faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

The Program in Art & Art History at the University of Illinois, Urbana-Champaign is unique. Housed in the School of Art & Design in the College of Fine and Applied Arts, the Program in Art History offers a Bachelor of Fine Arts degree in a combined Art History and Studio/Design course of study, providing a broad cultural education that unites academic and studio training. Students who earn this degree will be qualified to pursue a range of careers, museum work, or graduate study in either art history or studio practice.

A portfolio review is required for admission to the School of Art & Design.

**Departmental Distinction: a student must earn a 3.25 overall GPA, and 3.50 GPA in Art History. The student will complete at least 4 semester hours of independent research to write a senior research paper. See the undergraduate adviser for further details.**

for the degree of Bachelor of Fine Arts Major in Art & Art History

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

The curriculum in art education requires 130 credit hours and prepares students for positions as teachers of art in the public and private schools, grades kindergarten through twelve. The program places emphasis on theory, methods, materials, processes, and practice teaching in Illinois schools. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>).

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area course GPA of 3.0, and professional education course GPA of 3.0 (A=4.0). Candidates should consult their art education advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

# Learning Outcomes: Art Education, BFA

## *for the Bachelor of Fine Arts Major in Art Education*

---

Students graduating with the BFA in Art Education should be able to:

1. Understand the diverse characteristics and abilities of their students and how individuals develop and learn within the context of their social, economic, cultural, linguistic, and academic experiences. Our graduates are prepared to use these experiences to create instructional opportunities that maximize student learning in diverse art education settings such as schools, museums, and community centers.
2. Understand content area knowledge in fine art and visual culture that includes central concepts, methods of inquiry, structures of the disciplines, and content area literacy. Our graduates are prepared to create meaningful learning experiences for students through both content area and pedagogical knowledge.
3. Plan and design instruction for diverse art education settings based upon content area knowledge, diverse student characteristics, student performance data, curriculum goals, and the community context.
4. Create safe and healthy art education learning environments that facilitate cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction, mutual respect, active engagement, academic risk-taking, self-motivation, and personal goal-setting.
5. Differentiate instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous growth and learning. Our graduates understand that art education settings are dynamic, thus requiring ongoing modification of instruction to enhance learning for each student.
6. Enact critical and humanizing expressions of art education that redress and challenge systemic injustices that relate to social identities associated with race, class, gender, sexuality, immigrant origin, religion, age, mental and physical disabilities, and mental and physical illnesses.
7. Possess foundational knowledge of reading, writing, and oral communication within art education (e.g. curriculum and lesson planning, assessment tools, etc.) and recognizes and addresses how student reading, writing, and oral communication facilitate the acquisition of knowledge in art education.
8. Understand the purposes, characteristics, and limitations of different types of assessments in art education, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools.
9. Build and maintain collaborative relationships with colleagues, students, parents, and community members to foster cognitive, linguistic, physical, and social and emotional development of their students.
10. Exhibit ethical, reflective, and professional practices, while providing leadership in their educational settings and advocating for students, parents or guardians, and the profession.

## First Year Curricula for All Art & Design Majors

The School of Art & Design offers bachelor of fine arts degrees in art & art history, art education, graphic design, industrial design, and studio art (with concentrations in fashion, general studio art, new media, painting, photography, printmaking, and sculpture), and a bachelor of arts degree in studio art (with the same concentrations). All majors' first year curriculum will include courses in drawing, 2D, 3D, and 4D practices. Undeclared students will declare their Art & Design major December 1 of their first year of study.

*This first year curriculum is shared across all majors and serves as the temporary major declaration for those who enter as "undeclared."*

Courses in the history and appreciation of art and certain courses in studio work are open to students from other colleges of the University. A field of concentration in history of art is also offered in the College of Liberal Arts and Sciences. The school has studios, computing labs, workshops, classrooms, and offices in several different University buildings.

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

# Asian American Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

**department website:** <http://www.asianam.illinois.edu/>

**department faculty:** Asian American Studies Faculty (<https://asianam.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [asian-am@illinois.edu](mailto:asian-am@illinois.edu)

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

**Advising:** The Department of Asian American Studies provides advising for students. Students must officially declare their major by registering with the Associate Head of Asian American Studies. Students will work with their advisor to choose appropriate courses from the Additional Coursework List and the Approved Elective List to help plan a coherent program of study. A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
AAS 100	Intro Asian American Studies	3
AAS 200	U.S. Race and Empire	3
AAS 215	US Citizenship Comparatively	3
AAS 300	Theories of Race, Gender, and Sexuality	3
Additional Coursework		15
Complete at least 15 additional hours of substantive coursework offered by Department of Asian American Studies listed on the Approved Additional Coursework List.		
Electives		6
Choose 6 hours from the Approved Elective Course List.		
Total Hours		33

Approved Additional Coursework List and Approved Elective List are maintained in the department office and with the AAS advisor.

## Learning Outcomes: Asian American Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Asian American Studies

### 1) Intellectual Reasoning and Knowledge

Students acquire proficiency in the field and area of Asian American Studies. This includes, for example, knowledge based in intersectional, comparative, and interdisciplinary approaches. While largely based in an area approach to the United States, Asian American Studies is also deeply concerned with transnational, diasporic, and global studies. Students learn the history of Asian Americans and theories and methods of the social sciences and humanistic approaches to understand the Asian American experience. The conceptual rubrics broadly include migration, social movements, US imperialism and racism, and ideas of citizenship and belonging.

### 2) Critical Inquiry and Discovery

Applying theories in Asian American Studies students develop skills of critical inquiry that draw on intersectional and comparative approaches. As a mode of discovery students exercise their skills using methods of the social sciences and humanities through verbal communication in the classroom and written research projects. Students are asked to apply their critical modes of learning in original and unique projects of discovery through research.

### 3) Effective Leadership and Community Engagement

Students study models of community leadership and engagement through the histories of Asian American social movements, political culture, and community activism. Reflection based on these approaches provides a context from which to understand the role of classroom learning and the application of theories of social change in communities.

#### **4) Social Awareness and Cultural Understanding**

Students learn the dimensions of intersectional analysis of social, cultural, economic, and political issues concerning the Asian Americans. Social theories of power inform how students are taught to understand a number of categories of analysis including race, gender, sexuality, class, ethnicity, religion, and disability, to name a few.

#### **5) Global Consciousness**

Students gain an understanding of the global dimensions of intersectional approaches in a broad range of fields and disciplines including literary, historical, cultural and ethnographic approaches. Through the study of migration and diaspora, the broad understanding of individual and collective dynamics are observed, analyzed, and theorized. Students are also asked to think in terms of a comparative framework to understand how race, gender, and sexuality, for example, are thought of from a number of vantage points.

# Astronomy, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

**department website:** <https://astro.illinois.edu/>

**department faculty:** Astronomy Faculty (<https://astro.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [astronomy@illinois.edu](mailto:astronomy@illinois.edu)

The Department of Astronomy also offers a BSLAS in Computer Science & Astronomy (p. 236)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

**Departmental distinction:** A student majoring in astronomy may earn distinction or high distinction by attaining a minimum grade point average of 3.4 or 3.75, respectively, in required major courses (defined in the table below) taken at UIUC. For highest distinction, in addition to meeting the minimum requirements for high distinction, a senior thesis (ASTR 490) must be completed with strong endorsement by the research supervisor. Questions about eligibility for distinction status should be directed to an astronomy advisor before the senior year.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 47-48 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Astronomy Core</b>		
ASTR 210	Introduction to Astrophysics <sup>1</sup>	3
Select three of the following:		9-10
ASTR 404	Stellar Astrophysics	
ASTR 405	Planetary Systems	
ASTR 406	Galaxies and the Universe	
ASTR 414	Astronomical Techniques	
Select at least 12 hours of 300- or 400-level ASTR or PHYS courses <sup>2, 3</sup>		12
<b>Supporting Technical Courses</b>		
Physics		12
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 213	Univ Physics: Thermal Physics	
PHYS 214	Univ Physics: Quantum Physics	
Mathematics		11
MATH 221	Calculus I <sup>4</sup>	
MATH 231	Calculus II	
MATH 241	Calculus III	

<sup>1</sup> Students without a background in physics or astronomy are encouraged to take ASTR 121 and ASTR 122 during their freshman year.

<sup>2</sup> Other 300- or 400-level technical classes, e.g. chemistry, computer science engineering, or statistics can be substituted with academic adviser approval.

<sup>3</sup> A maximum of 4 hours of credit in ASTR 390 (or equivalent "Independent Study" course, such as PHYS 497) can be counted towards this requirement.

<sup>4</sup> MATH 220 may be substituted for MATH 221. MATH 220 is appropriate for students with no background in calculus.

## Learning Outcomes: Astronomy, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Astronomy

Undergraduate Astronomy majors will graduate with a demonstrated ability to:

LO1. Understand the hierarchical architecture of the cosmos, increasing in scale from the Solar System to the Galaxy to the Universe, and decreasing in scale to atoms and their nuclei. Understand the interplay among these scales.

LO2. Define and use fundamental principles and techniques of astronomy and astrophysics.

- Identify which principles should be applied to a specified situation
- Show familiarity with astronomical observables and their physical origin.
- Understand and apply basic physics and computational techniques to solve problems in astrophysics, and interpret the results.

LO3. Analyze astronomical data, and quantitative data generally.

- Demonstrate the ability to link observation and theory.
- Demonstrate the ability to draw qualitative conclusions from quantitative information, and vice versa.
- Demonstrate the ability to plan observational programs, use astronomical telescopes and instrumentation, and to analyze and present astronomical data.

LO4. Plan and perform guided research, or attain an advanced-level understanding of a topic of contemporary interest in astronomy and astrophysics.

LO5. Demonstrate the ability to communicate effectively both verbally and in writing.

# Atmospheric Sciences, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences*

**department website:** <https://atmos.illinois.edu/>

**department faculty:** Atmospheric Sciences Faculty (<https://atmos.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [atmos-sci@illinois.edu](mailto:atmos-sci@illinois.edu)

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences*

**Departmental distinction:** Students majoring in Atmospheric Sciences can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**For distinction:** A minimum cumulative grade point average of 3.3 and have also completed an approved independent study project, approved senior thesis, or approved capstone.

**For high distinction:** A minimum cumulative grade point average of 3.5 and have also completed an approved independent study project, approved senior thesis, or approved capstone.

**For highest distinction:** A minimum cumulative grade point average of 3.7 and also completed an approved senior thesis or approved research capstone.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** normally equates to 58-59 hours including at least 32 hours in Atmospheric Sciences.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
MATH 220 or MATH 221	Calculus Calculus I	4-5
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations	3
ATMS 201	General Physical Meteorology	3
ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ATMS 304	Radiative Transfer-Remote Sens	3
ATMS 305	Computing and Data Analysis	3
ATMS 306	Cloud Physics	3
ATMS 307	Climate Processes	3
ATMS 313	Synoptic Weather Forecasting	4
ATMS 314	Mesoscale Dynamics	3
Total Hours		58-59

## Learning Outcomes: Atmospheric Sciences, BSLAS

*Learning outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Atmospheric Sciences*

1. All students will have a fundamental understanding of the atmosphere and the dynamical and physical processes that control weather and climate.
2. All students will have demonstrable computational problem solving skills, and have the opportunity to participate in scientific research.
3. All students will understand practical applications of weather analysis and forecasting, and the impact of weather analysis and forecasting on public safety and the economy.

4. All students will develop competency in clear scientific written and oral communication.
5. All students will develop an understanding of the natural and anthropogenic processes that control climate and global change, their impact on human livelihood, and ways that individuals can contribute to the reduction of societal risk from weather and climate events and impacts.

# Biochemistry, BS

for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)

**department website:** <http://mcb.illinois.edu/departments/biochemistry> (<http://mcb.illinois.edu/departments/biochemistry/>)

**department faculty:** Biochemistry Faculty (<http://mcb.illinois.edu/faculty/biochemistry/>)

**college website:** <https://las.illinois.edu/>

**email:** [biocug@mcb.uiuc.edu](mailto:biocug@mcb.uiuc.edu)

## Undergraduate degree programs in Molecular & Cellular Biology

Biochemistry, BS (p. 120)

Molecular & Cellular Biology, BSLAS (p. 542)

for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)

The typical program of courses required to satisfy this degree totals 126-131 hours as outlined below including up to 12 hours of non-primary language (if not completed in high school); in no case will a program totaling less than 120 hours qualify for graduation. In addition, in order to graduate there is a minimum 2.0 cumulative academic grade point average and student must attain a 2.5 academic grade point average in the chemistry, biochemistry, biology, mathematics, physics and advanced electives in science/engineering courses specified in this curriculum. All proposals for course substitutions must be approved by the academic advisor. This curriculum is intended for those students who desire a rigorous education in chemistry, biochemistry, and biology, who have definite research-oriented goals, and whose career objectives include graduate school, MD/PhD programs, or industry.

Students earning the Biochemistry degree automatically complete the Chemistry minor. Students earning a degree in the Specialized Curriculum in Biochemistry may not earn a second degree in the Science and Letters Curriculum in Molecular and Cellular Biology.

### Departmental distinction: A student seeking distinction must satisfy the following:

- Complete a minimum of 6 credit hours of undergraduate research (BIOC 290 and BIOC 492) with a minimum of 4 credit hours of BIOC 492.
- Earn at least a 3.25 grade-point average.
- Present a senior thesis to the department.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Select one of the following:		8-10
CHEM 202 & CHEM 203 & CHEM 204 & CHEM 205	Accelerated Chemistry I and Accelerated Chemistry Lab I and Accelerated Chemistry II and Accelerated Chemistry Lab II (preferred sequence)	
CHEM 102 & CHEM 103 & CHEM 104 & CHEM 105	General Chemistry I and General Chemistry Lab I and General Chemistry II and General Chemistry Lab II (with advisor approval)	
Organic chemistry, select from:		9-10
CHEM 236 & CHEM 237 & CHEM 436	Fundamental Organic Chem I and Structure and Synthesis and Fundamental Organic Chem II (preferred sequence)	
CHEM 232 & CHEM 233 & CHEM 332	Elementary Organic Chemistry I and Elementary Organic Chem Lab I and Elementary Organic Chem II (with advisor approval)	
Molecular and Cellular Biology		17
MCB 150	Molec & Cellular Basis of Life	
MCB 250	Molecular Genetics	
MCB 251	Exp Techniqs in Molecular Biol	
MCB 252	Cells, Tissues & Development	

MCB 253	Exp Techniqs in Cellular Biol	
MCB 354	Biochem & Phys Basis of Life	
or equivalent as approved by academic advisor		
Physical chemistry, select one group of courses:		7-8
CHEM 440	Physical Chemistry Principles (Biological Perspective Section)	
BIOC 446	Physical Biochemistry (preferred sequence)	
or		
CHEM 442	Physical Chemistry I	
CHEM 444	Physical Chemistry II (with advisor approval)	
Mathematics & Statistics		14-15
STAT 212	Biostatistics	
MATH 220	Calculus	
or MATH 221	Calculus I	
MATH 231	Calculus II	
MATH 241	Calculus III	
Physics, select from: <sup>3</sup>		10
PHYS 211 & PHYS 212 & PHYS 213	University Physics: Mechanics and University Physics: Elec & Mag and Univ Physics: Thermal Physics (preferred sequence)	
or		
PHYS 101 & PHYS 102	College Physics: Mech & Heat and College Physics: E&M & Modern (or equivalent as approved by academic advisor (with advisor approval)	
Biochemistry: <sup>4</sup>		13
BIOC 455	Technqs Biochem & Biotech	
BIOC 460	Biochemistry Senior Seminar	
BIOC 406	Gene Expression & Regulation	
BIOP 401	Introduction to Biophysics	
Select 10 hours of Advanced Science/Technical Electives (may include up to 7 hours of BIOC 492, Senior Thesis) from approved list. <sup>5</sup>		10
Nontechnical Requirements: <sup>6</sup>		variable
General education:		
Foreign language - three semesters of college study (or three years of high school study) in a single foreign language to satisfy the campus foreign language requirement		
Composition I writing requirement to satisfy the campus Composition I requirement		
Advanced Composition writing requirement (BIOC 460 is required)		
Humanities/Arts to satisfy the campus general education requirements		
Social/Behavioral sciences to satisfy the campus general education requirements		
Cultural Studies to satisfy the campus general education requirement		
Electives (not including any credit in satisfaction of the above requirements)		variable

<sup>1</sup> Transfer credit must be approved by an advisor in biochemistry in order to be used to satisfy degree requirements.

<sup>2</sup> A more detailed description of the requirements is listed in the Biochemistry Curriculum Handbook, available in room 419A of Roger Adams Laboratory.

<sup>3</sup> PHYS 213 is not required if CHEM 442/CHEM 444 sequence is taken.

<sup>4</sup> Freshman orientation course is under development and will be required. See advisor for details.

<sup>5</sup> An approved list of current courses will be updated annually in January/February for the coming year. Contact advisor.

<sup>6</sup> The requirements for the Campus General Education categories of Natural Sciences and Technology and Quantitative Reasoning I are fulfilled through coursework in the curriculum.

## Learning Outcomes: Biochemistry, BS

Learning outcomes for the degree of Bachelor of Science Major in Biochemistry (Specialized Curriculum)

Upon successful completion of the Biochemistry Specialized Curriculum, students will be able to:

1. Understand and appreciate that the diversity of life evolved over time by biomolecular processes of mutation, selection, genetic change, and epigenetics.
2. Explain that molecular and macromolecular structure as well as supramolecular architecture determine function and regulation.
3. Explain that information storage and flow are molecular-based, dynamic, and interactive.
4. Understand and appreciate that biochemical mechanisms and kinetics ensure relative cellular stability and function under external or internal changing condition.
5. Explain that energy is required by and transformed in biochemical systems as governed by the laws of thermodynamics.
6. Illustrate that living organisms and biological systems interact via molecular connections.
7. Design a scientific process and employ the scientific method, demonstrating that biochemistry is evidence-based and grounded in the formal practices of observation, objective measurement, and hypothesis testing.
8. Execute quantitative analysis and mathematical reasoning to interpret biochemical data.
9. Construct and utilize predictive models and simulations that define chemical relationships, as well as molecular interactions of complex systems.
10. Apply concepts from other sciences that span biology, chemistry, physics, mathematics, computation, and engineering to interpret biochemical phenomena.
11. Communicate biochemical concepts and understanding to members of a diverse scientific community, as well as to the general public.
12. Identify social and health-related dimensions of biochemical investigations.

# Bioengineering, BS

## for the degree of Bachelor of Science in Bioengineering

**department website:** <https://bioengineering.illinois.edu/>

**department faculty:** Bioengineering Faculty (<https://bioengineering.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://bioengineering.illinois.edu/academics/undergraduate/education-objectives> (<https://bioengineering.illinois.edu/academics/undergraduate/education-objectives/>)

Bioengineers use engineering principles to solve problems in the life sciences, human health and medicine, and related industries. At the undergraduate level, the goal of bioengineering education is to instill a fundamental understanding of biology while developing core skills to design technologies relevant to human health and disease.

The Bioengineering department at the University of Illinois at Urbana-Champaign provides a rigorous engineering education that prepares graduates to:

- # secure and excel in jobs as engineers in industries of biotechnology, health care equipment and technology, life science tools, and pharmaceuticals,
- # pursue graduate studies in bioengineering-related fields, and
- # pursue professional degrees in the health sciences, law, and business.

During the first and second years of the curriculum, fundamental courses in biology, chemistry, computing, mathematics, and physics introduce students to the multidisciplinary principles underlying bioengineering as a field. Throughout the curriculum, core coursework becomes progressively more integrative across the disciplines and in years three and four, students specialize in a chosen bioengineering subdiscipline. The program is distinguished by laboratory courses that provide diverse experiences and hands-on skills as well as a capstone design course in which students practice the rigorous application of engineering fundamentals to biological problems identified by faculty, clinicians, and industrial partners.

Recommended Free Elective		
CHEM 442	Physical Chemistry I	4

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. <sup>3</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>4</sup>		8
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>2</sup> May be taken for 3 or 4 credit hours; the extra hour may be used to help meet free elective requirements.
- <sup>3</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>4</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).
- <sup>5</sup> Students select one track option to complete; this course can only be applied in the specific track area where the course is listed.

### for the degree of Bachelor of Science in Bioengineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/bioengineering-map/>).

### First Year

First Semester		Hours
BIOE 100	Bioengineering Freshman Seminar	1
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or MCB 150 <sup>2</sup>	Writing and Research	4
General education elective <sup>3</sup>		3
Semester Hours		16

### Second Semester

BIOE 120	Introduction to Bioengineering	1
MATH 231	Calculus II	3
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 211	University Physics: Mechanics	4
MCB 150 or RHET 105 <sup>2</sup>	Molec Cellular Basis of Life	4
Semester Hours		16

### Second Year

#### First Semester

BIOE 201	Conservation Principles Bioeng	3
BIOE 206	Cellular Bioengineering	3
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
CS 101	Intro Computing: Engrg Sci	3
Semester Hours		17

#### Second Semester

BIOE 202	Cell Tissue Engineering Lab	2
BIOE 205	Signals Systems in Bioengr	3
BIOE 210	Linear Algebra for Biomedical Data Science	3

CHEM 232 <sup>4</sup>	Elementary Organic Chemistry I	4
MATH 285	Intro Differential Equations	3
Semester Hours		15
<b>Third Year</b>		
<b>First Semester</b>		
BIOE 302	Modeling Human Physiology	3
BIOE 303	Quantitative Physiology Lab	2
BIOE 476	Tissue Engineering	3
Track elective <sup>5</sup>		3
Free elective		2
General education elective <sup>3</sup>		3
Semester Hours		16
<b>Second Semester</b>		
BIOE 310	Comp Tools Bio Data	3
BIOE 360	Transport Flow in Bioengrg	3
BIOE 414	Biomedical Instrumentation	3
BIOE 415	Biomedical Instrumentation Lab	2
Track elective <sup>5</sup>		3
General education elective <sup>3</sup>		3
Semester Hours		17
<b>Fourth Year</b>		
<b>First Semester</b>		
BIOE 435	Senior Design I	2
Track electives <sup>5</sup>		6
General education elective <sup>3</sup>		6
Free elective		3
Semester Hours		17
<b>Second Semester</b>		
BIOE 436	Senior Design II	2
BIOE 420	Intro Bio Control Systems	3
Track elective <sup>5</sup>		3
General education elective <sup>3</sup>		3
Free electives		3
Semester Hours		14
Total Hours:		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). MCB 150 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> May be taken for 3 or 4 credit hours; the extra hour may be used to help meet free elective requirements.

<sup>5</sup> To be selected from a departmentally approved list of track elective courses (<http://bioengineering.illinois.edu/undergraduate-programs/track-electives/>) if a pre-approved track is chosen. Alternately a student may devise a special track which must be approved by the Bioengineering Department.

# Learning Outcomes: Bioengineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Bioengineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Bioengineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Biology

Students interested in applying to either school of biology should simply choose Biology as their major. After taking two introductory courses, students will choose a major in either Integrative Biology or Molecular and Cellular Biology.

Integrative Biology, School of (<http://www.life.uiuc.edu/sib/>)

Director of School: Carla Cáceres

School Office: 286 Morrill Hall, 505 South Goodwin Avenue, Urbana, (217) 333-3044

Molecular and Cellular Biology, School of (<http://mcb.illinois.edu/>)

Director of School: Milan Bagchi

School Office: 393 Morrill Hall, 505 South Goodwin Avenue, Urbana, (217) 333-3166

Also, see majors in Integrative Biology (<http://catalog.illinois.edu/undergraduate/las/academic-units/integrative-bio/#majorstext>) and Molecular and Cellular Biology (p. 542).

# Brain & Cognitive Science, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Brain & Cognitive Science*

**department website:** <http://www.psychology.illinois.edu/undergrad/>

**department faculty:** Psychology Faculty (<https://psychology.illinois.edu/directory/faculty/>)

**advising:** Psychology advising (<https://psychology.illinois.edu/academics/undergraduate-program/advising-services/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [psych-advising@illinois.edu](mailto:psych-advising@illinois.edu) ([bcog-advising@illinois.edu](mailto:bcog-advising@illinois.edu))

The **Brain and Cognitive Science major** introduces the student to a simple question: How do intelligent systems work? Our world provides two examples of complex intelligent systems—human beings (and possibly some other animals) and intelligent computer systems. Brain and Cognitive Science majors investigate the brain and behavior of intelligent biological systems (e.g. people) from the perspective that the brain is a kind of computer. Consequently, students must learn about how brains and computers work, and how these can explain what we know about mental functions including perception, learning, memory, and language. Brain and Cognitive Science majors make use of discoveries from a number of different disciplines, including psychology, neuroscience, computer science, linguistics, philosophy, and anthropology, and has applications to the development of technology in education, health, language sciences, and design.

The Brain and Cognitive Science major provides fundamental training in psychology, neuroscience, and computation, and it allows a great deal of flexibility with regard to more advanced courses. The major requires training in statistics, a laboratory course, and the capstone course. Students should contact our Undergraduate Advising Office for help in creating a plan of study and research that best meets their goals and interests.

## Academic Advising

The Psychology Undergraduate Advising Office is open to help students choose patterns of courses relevant to their interests, as well as to help students explore graduate school, professional school, and career options. Advising is done by an award-winning staff of academic professionals along with mentoring by faculty for students with research interests. Peer registration assistants are also available to help with the registration process.

## Undergraduate Degree Programs in Psychology

BSLAS in Brain & Cognitive Science (p. 131)

BSLAS in Psychology (p. ) with the following concentrations:

- Behavioral Neuroscience (p. 623)
- Clinical/Community Psychology (p. 624)
- Cognitive Neuroscience (p. 626)
- Cognitive Psychology (p. 627)
- Developmental Psychology (p. 628)
- Diversity Science (p. 629)
- Intradisciplinary Psychology (p. 631)
- Organizational Psychology (p. 632)
- Personality Psychology (p. 633)
- Social Psychology (p. 634)

*For the Degree of Bachelor of Science in Liberal Arts and Sciences Major in Brain and Cognitive Science*

**A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours).**

**Departmental distinction:** To be eligible for graduation with Distinction in Psychology, a student must complete a two-semester research sequence in PSYC 494, submit a Senior Thesis that must be approved by the department, and maintain an overall 3.0 GPA at the time of submission. A student can also enroll in PSYC 492 to facilitate the preparation of a Bachelor's thesis.

**To be eligible for High or Highest Distinction,** a student must first be admitted to the Honors Program (requirements: junior standing, 3.5 GPA in Psychology overall, and completion of the statistics and laboratory requirements). The student then has to complete the three semester Honors sequence (PSYC 398, PSYC 498, PSYC 499), submit a Senior Thesis that must be approved by the department, and maintain an overall GPA of at least 3.0 to be awarded High Distinction or a GPA of 3.5 for Highest Distinction.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 42 hours of coursework, including at least 12 hours of advanced coursework.

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
BCOG 100	Introduction to the Brain and Cognitive Science	3
BCOG 200	Introduction to Programming for the Brain and Cognitive Sciences	4
Statistics Course		4
PSYC 235	Intro to Statistics (or equivalent)	
<b>Multi-disciplinary Breadth Courses</b>	<b>Select two of the following:</b>	<b>6-7</b>
ANTH 101	Introduction to Anthropology	
or ANTH 102	Human Origins and Culture	
or ANTH 104	Talking Culture	
or ANTH 143	Biology of Human Behavior

# Chemical Engineering, BS

for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

**department website:** <https://chbe.illinois.edu/>

**department faculty:** Chemical & Biomolecular Engineering Faculty (<https://chbe.illinois.edu/directory/>)

**advising:** SCS Academic Advising (<https://scs.illinois.edu/academics/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**Current Program Educational Objectives:** <https://chbe.illinois.edu/about/accreditation> (<https://chbe.illinois.edu/about/accreditation/>)

The first two years of the Chemical Engineering curriculum provide a strong foundation in basic sciences through Physics, Mathematics, Chemistry, an introduction to what Chemical Engineers do, and the fundamental basis of Chemical Engineering (Mass and Energy Balances and Thermodynamics.)

In the third year, students delve deeper into more specialized Chemistry courses such as Physical and Analytical Chemistry, while exploring fundamental Chemical Engineering courses such as Momentum Transfer, Separations, and Reactor Design. The Senior year incorporates all of this learning through high level technical electives, Process Control, Capstone Lab, and Capstone Design courses. It is through the lab and design class that students apply everything they have learned in previous Chemical Engineering courses to real-world team projects and presentations.

The Chemical Engineering specialized curriculum provides two areas of concentration: Chemical Engineering and Biomolecular Engineering. Each area is based on a strong fundamental understanding of Chemical Engineering, however the Biomolecular concentration's technical electives focus more on bio-applied processing and technology.

## Areas of Concentration

- Chemical Engineering (p. 134): The chemical engineering concentration is designed to prepare students for careers in the energy, chemical, food, energy, pharmaceutical, semiconductor processing, personal care, fiber and materials industries.
- Biomolecular Engineering (p. 139): The Biomolecular Engineering concentration builds upon the traditional principles of chemical engineering, but specializes in biological and biotechnological systems in order to better prepare students who are interested in or seek employment in the food, pharmaceutical, and biotechnology industries.

for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A grade point average of 2.5 or higher in all courses required for the major earned on the UIUC campus is required in order to be accepted by the department as juniors and seniors.**

**Minimum hours required for graduation: The curriculum requires 129 hours for graduation and is organized as shown below.**

## Orientation and Professional Development

These courses introduce opportunities and resources the college, department, and curriculum offers students. They also provide background on the Chemical Engineering curriculum, what chemical engineers do, and the skills to work effectively and successfully in the engineering profession.

Code	Title	Hours
CHBE 121	CHBE Profession <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		1

## Foundational Mathematics and Science

These courses stress the basic mathematical and scientific principles upon which the engineering discipline is based.

Code	Title	Hours
CHEM 202	Accelerated Chemistry I <sup>2</sup>	3
CHEM 203	Accelerated Chemistry Lab I	2
CHEM 204	Accelerated Chemistry II	3
CHEM 205	Accelerated Chemistry Lab II	2
MATH 221	Calculus I <sup>3</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations <sup>4</sup>	3
MATH 415	Applied Linear Algebra	3

PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 214	Univ Physics: Quantum Physics	2
Total Hours		37

### Chemical and Biomolecular Engineering Technical Core

These courses stress fundamental concepts and basic laboratory techniques that comprise the common intellectual understanding of chemical engineering and chemical science.

Code	Title	Hours
CHBE 221	Principles of CHE	3
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2
CHEM 315	Instrumental Chem Systems Lab <sup>5</sup>	2
CHEM 420	Instrumental Characterization	2
CHEM 442	Physical Chemistry I	4
CS 101	Intro Computing: Engrg & Sci	3
IE 300	Analysis of Data	3
Total Hours		49

### For Chemical Engineering

Code	Title	Hours
Technical Core		49
CHEM 436 or MCB 450	Fundamental Organic Chem II Introductory Biochemistry	3
Total Hours		52

### Technical Electives

These courses stress the rigorous analysis and design principles practiced in the major subdisciplines of chemical engineering embodied in the chemical engineering and biomolecular engineering concentrations.

### For Chemical Engineering

Code	Title	Hours
Selected from the departmentally approved List of Approved Chemical Engineering Technical Electives, satisfying these distribution requirements: <sup>6</sup>		
400-level ChBE courses, with not more than 3 hours being CHBE 497 or CHBE 499 <sup>7</sup>		6
Any 400-level course from List 1 <sup>7</sup>		3
Any courses from List 1 <sup>7</sup>		6
Any 400-level course from List 2		4
Total Hours		19

### Social Sciences and Humanities

The social sciences and humanities courses ensure that students have exposure in breadth and depth to areas of intellectual activity that are essential to the general education of any college graduate.

Code	Title	Hours
General education courses to satisfy the university requirements for social & behavioral sciences, humanities & the arts, and cultural studies (Non-Western, U.S. Minority, and Western Cultures).		16

## Composition

These courses teach fundamentals of expository writing.

Code	Title	Hours
RHET 105	Writing and Research	4

Advanced Composition (satisfied by completing the sequence CHBE 430 and CHBE 431 in the Chemical Engineering Technical Core).

Total Hours	4
-------------	---

<sup>1</sup> For students entering the curriculum after the freshman year, 1 additional hour of credit from the list of approved engineering technical electives may be substituted in place of CHBE 121.

<sup>2</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> MATH 441 may be substituted for MATH 285. MATH 286 (4 hours) may be substituted for MATH 285 (3 hours).

<sup>5</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.

<sup>6</sup> List of Approved Chemical Engineering Technical Electives. (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>)

<sup>7</sup> A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit.

## for the degree of Bachelor of Science Major in Chemical Engineering

The schedule that follows is illustrative, showing the typical sequence in which courses would be taken by a student with no college course credit already earned and who intends to graduate in four years. Each individual's case may vary, but the position of required named courses is generally indicative of the order in which they should be taken. The first three semesters of the Suggested Sequence is the same for all chemical engineering students. The fifth through eighth semesters vary with the area of concentration chosen. Refer to the appropriate sequence continuation below.

### First Year

First Semester		Hours
CHEM 202 <sup>1</sup>	Accelerated Chemistry I	3
CHEM 203	Accelerated Chemistry Lab I	2
ENG 100 <sup>2</sup>	Engineering Orientation	0
MATH 221 <sup>3</sup>	Calculus I	4
RHET 105	Writing and Research	4
Elective in Social Sciences or Humanities <sup>4,5</sup>		3
Semester Hours		16

Second Semester		Hours
CHBE 121 <sup>2</sup>	CHBE Profession	1
CHEM 204	Accelerated Chemistry II	3
CHEM 205	Accelerated Chemistry Lab II	2
CS 101	Intro Computing: Engrg Sci	3
MATH 231	Calculus II	3
PHYS 211 <sup>6</sup>	University Physics: Mechanics	4
Semester Hours		16

### Second Year

First Semester		Hours
CHBE 221	Principles of CHE	3
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2
MATH 241	Calculus III	4

## Major in Chemical Engineering

For the Concentration in Biomolecular Engineering, see below (p. 137)

### Second Year

#### First Semester

Second Year First Semester course information is above in the Suggested Sequence that is common for all students

Semester Hours 17

#### Second Semester

CHBE 321 Thermodynamics 4

CHEM 436 or MCB 450 Fundamental Organic Chem II 3

MATH 285<sup>7a</sup> Intro Differential Equations 3

MATH 415 Applied Linear Algebra 3

PHYS 214<sup>6</sup> Univ Physics: Quantum Physics 2

Elective in Social Sciences or Humanities or Technical Elective<sup>4,5,8a</sup> 3

Semester Hours 18

### Third Year

#### First Semester

CHBE 421 Momentum and Heat Transfer 4

CHEM 315<sup>9</sup> Instrumental Chem Systems Lab 2

CHEM 420 Instrumental Characterization 2

CHEM 442 Physical Chemistry I 4

Elective in Social Sciences or Humanities or Technical Elective<sup>4,5,8a</sup> 3

Semester Hours 15

#### Second Semester

CHBE 422 Mass Transfer Operations 4

CHBE 424 Chemical Reaction Engineering 3

IE 300 Analysis of Data 3

Elective in Social Sciences or Humanities or Technical Elective<sup>4,5,8a</sup> 7

Semester Hours 17

### Fourth Year

#### First Semester

CHBE 430<sup>10,11</sup> Unit Operations Laboratory 4

CHBE 440 Process Control and Dynamics 3

Elective in Social Sciences or Humanities or Technical Elective<sup>4,5,8a</sup> 9

Semester Hours 16

#### Second Semester

CHBE 431<sup>10,11</sup> Process Design 4

Elective in Social Sciences or Humanities or Technical Elective<sup>4,5,8a</sup> 10

Semester Hours 14

Total Hours: 97

Semester Hours		14
Total Hours:		97

<sup>1</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>2</sup> For students entering the curriculum after the freshman year, 1 additional hr of credit from the list of approved engineering technical electives (List 1) may be substituted in place of CHBE 121. The ENG 100 requirement will be waived. Under no circumstances will these requirements be waived for students who are in the chemical engineering curriculum during their freshman year.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>4</sup> At least 16 hours must be taken. All Campus General Education requirements must be satisfied, including those in approved course work in the Humanities/Arts, Social/Behavioral Sciences, and Cultural Studies, including the Western, Non-Western and/or U.S. Minorities components. The requirements for the Campus General Education categories Natural Sciences/Technology, Quantitative Reasoning I and II, Composition I, and Advanced Composition are fulfilled through required course work in the curriculum.

<sup>5</sup> Three semesters of college credit in one foreign language is required. Three years of high school credit in one foreign language are equivalent to three semesters of college credit and satisfy the requirement.

<sup>6</sup> Under no circumstances will PHYS 101-PHYS 102 be accepted as a substitute for any part of the Physics sequence.

<sup>7a</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>7b</sup> MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.

<sup>8a</sup> At least 19 hours must be selected from the departmentally approved List of Approved Chemical Engineering Technical Electives (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:

a) 6 hours must be 400-level ChBE courses, with not more than 3 hours being CHBE 497 or 499.

b) 3 hours any 400-level course from List 1.

c) 6 hours any courses from List 1.

d) 4 hours any 400-level courses from List 2.

A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Chemical Engineering Technical Electives may be obtained in 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)

- 8b At least 19 hours must be selected from the departmentally approved [List of Approved Biomolecular Engineering Technical Electives Categories](http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf) (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:
- a) 9 hours must be from Category A
  - b) 6 hours must be from Category B
  - c) 4 hours must be 400-level courses from List 2.
- A maximum of 3 hours from Category A may be undergraduate research credit. A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Biomolecular Engineering Technical Electives may be obtained in Room 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)
- 9 Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.
- 10 Enrollment in CHBE 430 is limited. Thus CHBE 430 may need to be taken in the second semester and CHBE 431 and/or additional electives taken in the first semester instead. Students in their final semester will have priority for getting into CHBE 430 and CHBE 431.
- 11 The sequence CHBE 430 and CHBE 431 satisfies the General Education Advanced Composition requirement.

## Chemical Engineering: Biomolecular Engineering, BS

for the degree of Bachelor of Science in Chemical Engineering, Biomolecular Engineering Concentration (Specialized Curriculum)

department website: <https://chbe.illinois.edu/>

department faculty: Chemical & Biomolecular Engineering Faculty (<https://chbe.illinois.edu/directory/>)

advising: SCS Academic Advising (<https://scs.illinois.edu/academics/advising/>)

overview of college admissions & requirements: Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

college website: <https://las.illinois.edu/>

The first two years of the Chemical Engineering curriculum provide a strong foundation in basic sciences through Physics, Mathematics, Chemistry, an introduction to what Chemical Engineers do, and the fundamental basis of Chemical Engineering (Mass and Energy Balances and Thermodynamics.)

In the third year, students delve deeper into more specialized Chemistry courses such as Physical and Analytical Chemistry, while exploring fundamental Chemical Engineering courses such as Momentum Transfer, Separations, and Reactor Design. The Senior year incorporates all of this learning through high level technical electives, Process Control, Capstone Lab, and Capstone Design courses. It is through the lab and design class that students apply everything they have learned in previous Chemical Engineering courses to real-world team projects and presentations.

The Chemical Engineering specialized curriculum provides two areas of concentration: Chemical Engineering and Biomolecular Engineering. Each area is based on a strong fundamental understanding of Chemical Engineering, however the Biomolecular concentration's technical electives focus more on bio-applied processing and technology.

### Areas of Concentration

- Chemical Engineering (p. 134): The chemical engineering concentration is designed to prepare students for careers in the energy, chemical, food, energy, pharmaceutical, semiconductor processing, personal care, fiber and materials industries.
- Biomolecular Engineering (p. 139): The Biomolecular Engineering concentration builds upon the traditional principles of chemical engineering, but specializes in biological and biotechnological systems in order to better prepare students who are interested in or seek employment in the food, pharmaceutical, and biotechnology industries.

for the degree of Bachelor of Science in Chemical Engineering, Biomolecular Engineering Concentration (Specialized Curriculum)

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work: A grade point average of 2.5 or higher in all courses required for the major earned on the UIUC campus is required in order to be accepted by the department as juniors and seniors.**

**Minimum hours required for graduation: The curriculum requires 129 hours for graduation and is organized as shown below.**

### Orientation and Professional Development

These courses introduce opportunities and resources the college, department, and curriculum offers students. They also provide background on the Chemical Engineering curriculum, what chemical engineers do, and the skills to work effectively and successfully in the engineering profession.

Code	Title	Hours
CHBE 121	CHBE Profession <sup>1</sup>	1
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		1

### Foundational Mathematics and Science

These courses stress the basic mathematical and scientific principles upon which the engineering discipline is based.

Code	Title	Hours
CHEM 202	Accelerated Chemistry I <sup>2</sup>	3
CHEM 203	Accelerated Chemistry Lab I	2
CHEM 204	Accelerated Chemistry II	3
CHEM 205	Accelerated Chemistry Lab II	2
MATH 221	Calculus I <sup>3</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations <sup>4</sup>	3
MATH 415	Applied Linear Algebra	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 214	Univ Physics: Quantum Physics	2
Total Hours		37

### Chemical and Biomolecular Engineering Technical Core

These courses stress fundamental concepts and basic laboratory techniques that comprise the common intellectual understanding of chemical engineering and chemical science.

Code	Title	Hours
CHBE 221	Principles of CHE	3
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2
CHEM 315	Instrumental Chem Systems Lab <sup>5</sup>	2
CHEM 420	Instrumental Characterization	2
CHEM 442	Physical Chemistry I	4
CS 101	Intro Computing: Engrg & Sci	3
IE 300	Analysis of Data	3
Total Hours		49

### For Biomolecular Engineering

Code	Title	Hours
Technical Core		49
MCB 450	Introductory Biochemistry	3
Total Hours		52

### Technical Electives

These courses stress the rigorous analysis and design principles practiced in the major subdisciplines of chemical engineering embodied in the chemical engineering and biomolecular engineering concentrations.

### For Biomolecular Engineering

Code	Title	Hours
Selected from the departmentally approved List of Approved Biomolecular Engineering Technical Electives Categories A and B, satisfying these distribution requirements: <sup>6</sup>		
Any courses from Category A <sup>7,8</sup>		9
Any courses from Category B <sup>8</sup>		6

Any 400-level course from List <sup>8</sup>	4
Total Hours	19

### Social Sciences and Humanities

The social sciences and humanities courses ensure that students have exposure in breadth and depth to areas of intellectual activity that are essential to the general education of any college graduate.

Code	Title	Hours
General education courses to satisfy the university requirements for social & behavioral sciences, humanities & the arts, and cultural studies (Non-Western, U.S. Minority, and Western Cultures).		16

### Composition

These courses teach fundamentals of expository writing.

Code	Title	Hours
RHET 105	Writing and Research	4
Advanced Composition (satisfied by completing the sequence CHBE 430 and CHBE 431 in the Chemical Engineering Technical Core).		
Total Hours		4

- <sup>1</sup> For students entering the curriculum after the freshman year, 1 additional hour of credit from the list of approved engineering technical electives may be substituted in place of CHBE 121.
- <sup>2</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.
- <sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>4</sup> MATH 441 may be substituted for MATH 285. MATH 286 (4 hours) may be substituted for MATH 285 (3 hours).
- <sup>5</sup> Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.
- <sup>6</sup> List of Approved Biomolecular Engineering Technical Electives Categories A and B (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>)
- <sup>7</sup> A maximum of 3 hours from this Category may be undergraduate research credit.
- <sup>8</sup> A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit.

### for the degree of Bachelor of Science Major in Chemical Engineering, Biomolecular Engineering Concentration

The schedule that follows is illustrative, showing the typical sequence in which courses would be taken by a student with no college course credit already earned and who intends to graduate in four years. Each individual's case may vary, but the position of required named courses is generally indicative of the order in which they should be taken. The first three semesters of the Suggested Sequence is the same for all chemical engineering students. The fifth through eighth semesters vary with the area of concentration chosen. Refer to the appropriate sequence continuation below.

#### First Year

First Semester		Hours
CHEM 202 <sup>1</sup>	Accelerated Chemistry I	3
CHEM 203	Accelerated Chemistry Lab I	2
ENG 100 <sup>2</sup>	Engineering Orientation	0
MATH 221 <sup>3</sup>	Calculus I	4
RHET 105	Writing and Research	4
Elective in Social Sciences or Humanities <sup>4,5</sup>		3
Semester Hours		16

#### Second Semester

CHBE 121 <sup>2</sup>	CHBE Profession	1
CHEM 204	Accelerated Chemistry II	3
CHEM 205	Accelerated Chemistry Lab II	2
CS 101	Intro Computing: Engrg Sci	3
MATH 231	Calculus II	3

PHYS 211 <sup>6</sup>	University Physics: Mechanics	4
	Semester Hours	16
<b>Second Year</b>		
<b>First Semester</b>

<sup>1</sup> Students who do not place into CHEM 202, or who do not satisfy the mathematics prerequisite for CHEM 202, may substitute the sequence CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 222, and CHEM 223 for CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>2</sup> For students entering the curriculum after the freshman year, 1 additional hr of credit from the list of approved engineering technical electives (List 1) may be substituted in place of CHBE 121. The ENG 100 requirement will be waived. Under no circumstances will these requirements be waived for students who are in the chemical engineering curriculum during their freshman year.

<sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

- 4 At least 16 hours must be taken. All Campus General Education requirements must be satisfied, including those in approved course work in the Humanities/Arts, Social/Behavioral Sciences, and Cultural Studies, including the Western, Non-Western and/or U.S. Minorities components. The requirements for the Campus General Education categories Natural Sciences/Technology, Quantitative Reasoning I and II, Composition I, and Advanced Composition are fulfilled through required course work in the curriculum.
- 5 Three semesters of college credit in one foreign language is required. Three years of high school credit in one foreign language are equivalent to three semesters of college credit and satisfy the requirement.
- 6 Under no circumstances will PHYS 101-PHYS 102 be accepted as a substitute for any part of the Physics sequence.
- 7a MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.
- 7b MATH 441 may be substituted for MATH 285. MATH 286 may be substituted for MATH 285.
- 8a At least 19 hours must be selected from the departmentally approved List of Approved Chemical Engineering Technical Electives (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:
- a) 6 hours must be 400-level ChBE courses, with not more than 3 hours being CHBE 497 or 499.
  - b) 3 hours any 400-level course from List 1.
  - c) 6 hours any courses from List 1.
  - d) 4 hours any 400-level courses from List 2.
- A maximum of 10 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Chemical Engineering Technical Electives may be obtained in 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)
- 8b At least 19 hours must be selected from the departmentally approved List of Approved Biomolecular Engineering Technical Electives Categories (<http://chbe.illinois.edu/wp-content/uploads/2015/11/Technical.Electives.Current.pdf>), satisfying these distribution requirements:
- a) 9 hours must be from Category A
  - b) 6 hours must be from Category B
  - c) 4 hours must be 400-level courses from List 2.
- A maximum of 3 hours from Category A may be undergraduate research credit. A maximum of 9 total hours of undergraduate research may be counted toward Technical Elective credit. The List of Approved Biomolecular Engineering Technical Electives may be obtained in Room 99 RAL or from the department Web site. (<http://chbe.illinois.edu/undergraduate/explore-chbe-at-illinois/curriculum-academic-advising/>)
- 9 Students must register in one of the Chemical Engineering-specific CHEM 315 lab sections.
- 10 Enrollment in CHBE 430 is limited. Thus CHBE 430 may need to be taken in the second semester and CHBE 431 and/or additional electives taken in the first semester instead. Students in their final semester will have priority for getting into CHBE 430 and CHBE 431.
- 11 The sequence CHBE 430 and CHBE 431 satisfies the General Education Advanced Composition requirement.

## Learning Outcomes: Chemical Engineering, BS

Learning outcomes for the degree of Bachelor of Science in Chemical Engineering (Specialized Curriculum)

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Chemical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**department faculty:** Chemistry Faculty (<https://chemistry.illinois.edu/directory/faculty-by-type/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**advising contact:** SCS Academic Advising (<http://advising.scs.illinois.edu/>)

---

Students interested in majoring in chemistry may choose the Specialized Curriculum in Chemistry (<http://catalog.illinois.edu/undergraduate/las/chemistry-bs/>), leading to the Bachelor of Science Major in Chemistry, or the Chemistry Major (<http://catalog.illinois.edu/undergraduate/las/chemistry-bslas/#requirementstext>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The Specialized Curriculum in Chemistry is a rigorous, specialized program suitable for those planning careers in chemistry. The Chemistry Major in the Sciences and Letters Curriculum is used by some students planning chemistry careers, but it is more often chosen by students wishing to obtain chemistry backgrounds for use in related fields.

## Undergraduate Degree Programs in Chemistry

### For the Degree of Bachelor of Science in Liberal Arts and Sciences

- Major in Computer Science & Chemistry, BSLAS (p. 238)
- Major in Chemistry (Sciences and Letters) (p. 151)
- Major in Chemistry (Sciences and Letters), Chemistry Teaching Concentration (p. 152)

### For the Degree of Bachelor of Science in Chemistry

- Major in Chemistry (Specialized Curriculum) (p. 146)
- Major in Chemistry (Specialized Curriculum), Environmental Chemistry Concentration (p. 148)

for the degree of Bachelor of Science in Chemistry (Specialized Curriculum)

### Specialized Curriculum

The typical program of courses required to satisfy this degree totals 128-134 hours; in no case will a program totaling less than 120 hours qualify for graduation. Graduation requires grade point averages of at least 2.0 overall and 2.0 in chemistry, mathematics, and physics courses. The Department of Chemistry will supply, upon request, a brochure showing recommended semester-by-semester programs for the completion of the curriculum.

Students in the specialized curriculum in Chemistry must include a course in Biochemistry in the Advanced Hours area or the Technical Elective area to be certified by the American Chemical Society as having met its specifications.

**Departmental distinction:** Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have a UIUC coursework major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75, respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

### Requirements

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Core Chemistry <sup>1</sup>		37

CHEM 447	Physical Principles Lab II	
CHEM 483	Solid State Structural Anlys <sup>5</sup>	
Additional chemistry/biochemistry courses to complete the 11-hour requirement in advanced chemistry		
Mathematics:		11-12
MATH 220	Calculus	
or MATH 221	Calculus I	
MATH 231	Calculus II	
MATH 241	Calculus III	
Physics: <sup>1</sup>		10
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 214	Univ Physics: Quantum Physics	
Technical Electives, including the following		14
Required Mathematics:		
MATH 225	Introductory Matrix Theory <sup>6</sup>	
or MATH 415	Applied Linear Algebra	
MATH 285 or equivalent		
Strongly Recommended:		
CHEM 499	Senior Thesis (maximum of 10 hours)	
Recommended: basic computer science		
Other technical courses chosen from:		14
Chemistry (300 or higher), biochemistry, chemical engineering (200 or higher)		
Courses in life sciences (all courses at 200 or higher)		
Mathematics or computer science above the basic level		
Other courses in the physical and biological sciences and engineering including CHEM 199 <sup>7</sup>		
Nontechnical Requirements <sup>8</sup>		Variable
General education:		
Foreign language - three semesters of college study (or three years of high school study) in a single foreign language		
Composition I		
Advanced Composition <sup>9</sup>		
Humanities/Arts to satisfy the campus general education requirements		
Social/Behavioral sciences to satisfy the campus general education requirements		
Cultural Studies to satisfy the campus general education requirement <sup>10</sup>		
Free electives <sup>11</sup>		30

<sup>1</sup> Hours given are those typical to meet requirement.

<sup>2</sup> On and off-campus transfer students in the BS curriculum may substitute 1 additional hour of 200 level or higher Chemistry (including CHEM 297, CHEM 397, CHEM 496, CHEM 497, or CHEM 499) for CHEM 150. This may not include CHEM 222 or CHEM 223 for students who took the CHEM 102, CHEM 103, CHEM 104 and CHEM 105 sequence instead of CHEM 202, CHEM 203, CHEM 204, and CHEM 205.

<sup>3</sup> If necessary, CHEM 102 and CHEM 103, CHEM 104 and CHEM 105, CHEM 222, and CHEM 223 may be substituted for CHEM 202, CHEM 203, CHEM 204, and CHEM 205. Warning: CHEM 222 and CHEM 223 are offered only in the fall semester.

<sup>4</sup> The course chosen from CHEM 317, CHEM 437, or CHEM 447 cannot be used to satisfy the additional chemistry lab requirement.

- 5 Students who present less than 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation must complete two additional courses chosen from the list. Students who will present at least 6 semester hours credit in a combination of CHEM 397, CHEM 497 and/or CHEM 499 for graduation are required to complete only one laboratory course from the list.
- 6 Students contemplating transfer to the chemical engineering curriculum should choose MATH 415.
- 7 Three hours maximum credit in CHEM 199. Additional courses in the sciences and engineering can be taken upon the approval of the chair of the chemistry department advising committee. Most approved courses must have a strong technical prerequisite, such as one year of college-level math or science.
- 8 The requirements for the Campus General Education categories Natural Sciences and Technology and Quantitative Reasoning I and II are fulfilled through required coursework in the curriculum.
- 9 The courses taken to satisfy Advanced Composition requirement may also be used to partially satisfy one of the core chemistry, advanced chemistry, mathematics, physics, or technical electives requirements (if appropriate), or may be used to partially satisfy the free electives requirements.
- 10 The courses taken to satisfy Western and/or Non-Western Civilization requirements may also be used to satisfy nontechnical and/or free elective categories.
- 11 Restrictions: (1) Courses preparatory to or used to satisfy the minimum requirements specified in the above requirements may not be included as free electives. (2) No first-year foreign language course (e.g., 101, 102, or equivalent) may be included unless it is a different language than used to satisfy the foreign language nontechnical requirement.

## Chemistry: Environmental Chemistry, BS

For the Degree of Bachelor of Science in Chemistry, Environmental Chemistry Concentration

**department website:** <https://chemistry.illinois.edu>

**department faculty:** Chemistry Faculty (<https://chemistry.illinois.edu/directory/faculty-by-type/>)

**advising:** SCS Academic Advising (<http://advising.scs.illinois.edu/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

This concentration is designed to provide a background in environmental chemistry that is sufficient in breadth and depth to prepare a person to work as an environmental chemist in the public or private sectors and/or to pursue an advanced degree in the field. Students who complete this concentration will be certified in environmental chemistry by the American Chemical Society (ACS). The Environmental Chemistry Concentration is based on the Specialized Curriculum in Chemistry. Students will take a 3-hour, 300-level course in environmental chemistry and three 3-hour, upper level technical courses in environmental areas. These courses can be used as part of the required 14 hours of technical electives for the Specialized Curriculum in Chemistry.

### Undergraduate Degree Programs in Chemistry

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

- Major in Computer Science & Chemistry, BSLAS (p. 238)
- Major in Chemistry (Sciences and Letters) (p. 151)
- Major in Chemistry (Sciences and Letters), Chemistry Teaching Concentration (p. 152)

(2) No first-year foreign language course (e.g., 101, 102, or equivalent) may be included unless it is a different language than used to satisfy the foreign language nontechnical requirement.

Code	Title	Hours
<b>Required Technical Elective Courses for the Environmental Chemistry Concentration</b>		
Basic Courses		
CHEM 360	Chemistry of the Environment	3
or CEE 330	Environmental Engineering	
Advanced Courses: Select three courses from the following:		9
CHEM 460	Green Chemistry	
CEE 443	Env Eng Principles, Chemical	
GEOL 380	Environmental Geology	
IB 485	Environ Toxicology & Health	
CHEM 397	Individual Study Junior	
CHEM 497	Individual Study Senior	
CHEM 499	Senior Thesis	
Other 400-level courses dealing with economic, engineering, biological aspects of environmental chemistry upon consultation with the faculty advisor.		

## Learning Outcomes: Chemistry, BS

Learning outcomes for the degree of Bachelor of Science Major in Chemistry

Students graduating with the BS in Chemistry will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

- Major in Chemistry (Specialized Curriculum), Environmental Chemistry Concentration (p. 148)

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Chemistry

The Department of Chemistry will supply, upon request, a brochure showing recommended semester-by-semester programs for the completion of the curriculum.

**Departmental distinction:** Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have a UIUC coursework major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75 respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required major and supporting course work normally equates to 48-51 hours including at least 30 hours in Chemistry or Biochemistry courses. Twelve hours of 300- and 400-level in Chemistry and/or Biochemistry must be taken on this campus. Transfer credit in chemistry must be approved by an adviser in chemistry in order to be included in the 30 hours.

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Chemistry and biochemistry courses including: <sup>1, 2</sup>		22-26
CHEM 150	First Semester Success in Chemistry <sup>3</sup>	
CHEM 440	Physical Chemistry Principles	
or CHEM 442	Physical Chemistry I	
Two other 300- or 400-level courses, at least one of which must be outside physical chemistry.		4-8
MATH 220	Calculus	4-5
or MATH 221	Calculus I	
MATH 231	Calculus II	3
MATH 241	Calculus III	4
Select one of the following:		8-10
PHYS 101 & PHYS 102	College Physics: Mech & Heat and College Physics: E&M & Modern	
PHYS 211 & PHYS 212	University Physics: Mechanics and University Physics: Elec & Mag	

- <sup>1</sup> Excluding CHEM 101, CHEM 108, and CHEM 199.
- <sup>2</sup> No more than 10 hours of the following courses may count toward the 22-26 hours in Chemistry: CHEM 197, CHEM 199, CHEM 297, CHEM 397, CHEM 496, CHEM 497, and CHEM 499.
- <sup>3</sup> On- and off-campus transfer students in the BSLAS curriculum may substitute CHEM 152 for CHEM 150. Alternatively, transfer students may elect to take an additional 1 hour of 200 level or higher Chemistry, including CHEM 297, CHEM 397, CHEM 496, CHEM 497, or CHEM 499 as long as no more than 10 total hours of the total 22-26 required Chemistry hours come from CHEM 297, CHEM 397, CHEM 496, CHEM 497, CHEM 499.

## Chemistry: Chemistry Teaching, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Chemistry, Chemistry Teaching Concentration*

---

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

---

This concentration fulfills state certification requirements to teach high school (grades 9-12) chemistry through the AP/honors level and biology, earth and space science, environmental science and physics up to but not including the AP/honors level.

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours). See the College of Education section for requirements of the minor (p. 960).

Time to degree completion varies. Minimum time to completion is 8 semesters. Some students require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

---

### Requirements for the Teacher Education in Secondary School Teaching Minor

Code	Title	Hours
<b>Professional Education Required Courses</b>		
EDUC 201	Identity and Difference in Education <sup>1</sup>	3
EDUC 202	Social Justice, School and Society <sup>1</sup>	3
CI 401	Introductory Teaching in a Diverse Society	3
CI 403	Teaching a Diverse High School Student Population	3
CI 404	Teaching and Assessing Secondary School Students	3
CI 473	Disciplinary Literacy	3
EPSY 201	Educational Psychology <sup>1, 2</sup>	3
EPSY 485	Assessing Student Performance	3
SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	12
Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Learning Outcomes: Chemistry, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Chemistry (Sciences & Letters)

Students graduating with the BSLAS in Chemistry (Sciences & Letters) will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.

3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

# Civil Engineering, BS

for the degree of Bachelor of Science in Civil Engineering

**department website:** Department of Civil & Environmental Engineering (<https://cee.illinois.edu/>)

**department faculty:** Department of Civil & Environmental Engineering Faculty (<https://cee.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://cee.illinois.edu/admissions/undergraduate/program-objectives> (<https://cee.illinois.edu/admissions/undergraduate/program-objectives/>)

Civil and environmental engineers apply basic principles of science, supported by mathematical and computational tools, to address the biggest challenges facing society: ensuring clean air, safe drinking water and sanitation; addressing our changing environment; protecting the population from natural and man-made hazards; designing a sustainable infrastructure that serves everyone; re-imagining human and commodity traffic for an automated future; and of course designing and constructing the world's tallest buildings and most iconic bridges.

The civil engineering program comprises seven focus areas (construction engineering and management, construction materials, environmental engineering and science, geotechnical engineering, water resources engineering and science, structural engineering, and transportation engineering) and three interdisciplinary programs (sustainable and resilient infrastructure systems; energy-water-environment sustainability; and societal risk and hazard mitigation). Although each area and program has its own special body of knowledge and engineering tools, civil and environmental engineering projects often use knowledge and data from many of these topical areas together in order to address societal challenges.

CEE's Program Education Objectives are to educate CEE students to:

1. Successfully enter the civil and environmental engineering profession as practicing engineers and consultants with prominent companies and organizations in diverse topic areas it comprises;
2. Pursue graduate education and research at major research universities and national laboratories;
3. Pursue professional licensure;
4. Advance to leadership positions in the profession;
5. Engage in continued learning through professional development;
6. Participate in and contribute to professional societies and community services.

## Program Review and Approval

To qualify for the degree of Bachelor of Science in Civil Engineering, each student's academic program plan must be reviewed by a standing committee of the faculty (the Program Review Committee) and approved by the Associate Head of Civil and Environmental Engineering in charge of undergraduate programs. This review and approval process ensures that individual programs satisfy the educational objectives and all of the requirements of the civil and environmental engineering program, that those programs do not abuse the substantial degree of flexibility that is present in the curriculum, and that the career interests of each student are cultivated and served.

for the degree of Bachelor of Science in Civil Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition course required for this degree is listed below.

### Orientation and Professional Development

Code	Title	Hours
CEE 190	Project-Based Introduction to CEE <sup>1</sup>	4
CEE 495	Professional Practice <sup>2</sup>	0

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
MATH 221	Calculus I <sup>4</sup>	4
MATH 225	Introductory Matrix Theory	2
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 285	Intro Differential Equations <sup>5</sup>	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
Total Hours		34

## Civil Engineering Technical Core

Code	Title	Hours
CEE 201	Systems Engrg & Economics	3
CEE 202	Engineering Risk & Uncertainty	3
CS 101	Intro Computing: Engrg & Sci	3
SE 101	Engineering Graphics & Design	3
TAM 211	Statics	3
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
TAM 335	Introductory Fluid Mechanics	4
Total Hours		25

## Science Elective

Code	Title	Hours
<b>Science elective, selected in accord with recommendations for the chosen primary field in civil engineering.</b>		<b>3</b>
ATMS 120	Severe and Hazardous Weather	3
CHBE 321	Thermodynamics	4
CHEM 222	Quantitative Analysis Lecture	2
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
ME 200	Thermodynamics	3
STAT 420	Methods of Applied Statistics	3 or 4

## Civil Engineering Technical Electives

Students choose primary and secondary fields, of which there are seven traditional areas of study and three interdisciplinary programs. The specific choices of courses in this category are made through the submission of a Plan of Study, which is subject to approval by the faculty Program Review Committee.

Code	Title	Hours
<b>Civil engineering technical courses, selected as follows, to at least include:</b>		<b>34</b>
Civil Engineering Core Courses		
The courses that are required and recommended for the primary and secondary fields are listed below. Select at least 5 courses from the following list:		15-16
CEE 300	Behavior of Materials <sup>6</sup>	4
CEE 310	Transportation Engineering	3

CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

**Primary Field Advanced Technical Electives. Select courses from approved lists for appropriate programs of study within the seven areas or three interdisciplinary programs of civil engineering. Design experience is distributed in 200-level, 300-level, and 400-level CEE courses including integrated design courses. See list below:** **12-13**

#### **Construction Engineering and Management**

Science Electives Required - NONE

Science Electives Recommended - See below:

ATMS 120	Severe and Hazardous Weather	3
ATMS 303	Synoptic-Dynamic Wea Analysis	4
ECE 205	Electrical and Electronic Circuits	3
FIN 221	Corporate Finance	3
GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
GEOL 333	Earth Materials and the Env	4
GEOL 380	Environmental Geology	4
ME 200	Thermodynamics	3
NPRE 201	Energy Systems	2 or 3
SE 400	Engineering Law	3 or 4
STAT 420	Methods of Applied Statistics	3 or 4
UP 205	Ecology & Environmental Sustainability	3

Civil Engineering Core Courses:

CEE 300	Behavior of Materials	4
CEE 320	Construction Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Civil Engineering Core Courses Recommended- None

Advanced Technical Courses - Required:

CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning (Required Integrated Design Course)	3 or 4
CEE 422	Construction Cost Analysis	3 or 4
CEE 461	Reinforced Concrete I	3

Advanced Technical Courses - Recommended:

CEE 401	Concrete Materials	4
CEE 424	Sustainable Const Methods	4
CEE 460	Steel Structures I	3
CEE 469	Wood Structures	3 or 4

#### **Construction Materials Engineering**

Science Electives Required - None

Science Electives Recommended:

GEOL 107	Physical Geology	4
ME 430	Failure of Engrg Materials	3 or 4
MSE 201	Phases and Phase Relations	3
TAM 428	Mechanics of Composites	3

Civil Engineering Core Courses Required:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3

Civil Engineering Core Courses Recommended:

CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required:		
CEE 401	Concrete Materials (Required Integrated Design Course)	4
CEE 405	Asphalt Materials I	3 or 4
Advanced Technical Courses Recommended:		
CEE 406	Pavement Design I	3 or 4
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 469	Wood Structures	3 or 4
CEE 483	Soil Mechanics and Behavior	4
MSE 401	Thermodynamics of Materials	3
MSE 402	Kinetic Processes in Materials	3
MSE 406	Thermal-Mech Behavior of Matls	3
MSE 420	Ceramic Materials & Properties	3
MSE 450	Polymer Science & Engineering	3 or 4
<b>Environmental Engineering</b>		
Science Electives Required - None		
Science Electives Recommended:		
CHEM 222	Quantitative Analysis Lecture	2
CHEM 232	Elementary Organic Chemistry I	3 or 4
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
MCB 300	Microbiology	3
ME 200	Thermodynamics	3
MSE 401	Thermodynamics of Materials	3
STAT 420	Methods of Applied Statistics	3 or 4
Civil Engineering Core Courses Required:		
CEE 330	Environmental Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 350	Water Resources Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required - At least one of:		
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 445		
CEE 446	Air Quality Engineering	4
Advanced Technical Course Recommended:		
CEE 430	Ecological Quality Engineering	2
CEE 434	Environmental Systems I	3
CEE 435	Public Health Engineering	3 or 4
CEE 438	Science & Environmental Policy	3
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 445		
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab (Required Integrated Design Course)	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3

**Geotechnical Engineering**

Science Electives Required:		
GEOL 107	Physical Geology	4
Science Electives Recommended:		
GEOL 333	Earth Materials and the Env	4
GEOL 380	Environmental Geology	4
GEOL 401	Geomorphology	4
GEOL 411	Structural Geol and Tectonics	4
GEOL 440	Sedimentology and Stratigraphy	4
GEOL 470	Introduction to Hydrogeology	4
Civil Engineering Core Courses Required:		
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
Advanced Technical Courses Required:		
CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics (Required Integrated Design Course)	3 or 4
Advanced Technical Courses Recommended:		
CEE 457	Groundwater	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 463	Reinforced Concrete II	3 or 4
<b>Structural Engineering</b>		
Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4
GEOL 118	Natural Disasters	3
ME 200	Thermodynamics	3
Civil Engineering Core Courses:		
CEE 300	Behavior of Materials	4
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 320	Construction Engineering	3
Advanced Technical Courses Required:		
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems (Required Integrated Design Course)	3
CEE 470	Structural Analysis	4
Advanced Technical Courses Recommended - None		
<b>Transportation Engineering</b>		
Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4

ME 200	Thermodynamics	3
ME 340	Dynamics of Mechanical Systems	3.5
MSE 401	Thermodynamics of Materials	3
SE 320	Control Systems	4
STAT 420	Methods of Applied Statistics	3 or 4
Civil Engineering Core Courses Required:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses: You must select one course from each of the three Areas below and one course from the recommended list.		
Area 1 - Facilities		
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
Area 2 - Systems:		
CEE 407	Airport Design	3 or 4
CEE 415	Geometric Design of Roads (Required Integrated Design Course)	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 418	Public Transportation Systems	3 or 4
Area 3 - Railroad:		
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
Recommended:		
CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4
<b>Water Resources Engineering and Science</b>		
Science Electives Required - None		
Science Electives Recommended:		
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
ME 200	Thermodynamics	3
Civil Engineering Core Courses Required:		

CEE 350	Water Resources Engineering	3
Civil Engineering Core Courses Recommended:		
CEE 300	Behavior of Materials	4
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required (Choose one):		
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics (Required Integrated Design Course)	4
Advanced Technical Courses Recommended:		
CEE 432	Stream Ecology	3 or 4
CEE 433	Water Technology and Policy	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 458	Water Resources Field Methods	4
CEE 498	Special Topics (Section EH)	1 to 4
<b>Energy-Water-Environment Sustainability</b>		
Science Electives Required:		
ME 200 or CHBE 321	Thermodynamics Thermodynamics	3-4
Science Electives Recommended - None		
Civil Engineering Core Courses Required:		
CEE 340	Energy and Global Environment	3
Civil Engineering Core Courses Recommended:		
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
Advanced Technical Courses Required:		
CEE 493	Sustainable Design Eng Tech (Must also select 3 courses from recommended list below)	4
Advanced Technical Courses Recommended:		
ABE 436	Renewable Energy Systems	3 or 4
ARCH 441	Heat and Moisture in Buildings	3
CEE 424	Sustainable Const Methods	4
CEE 433	Water Technology and Policy	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 446	Air Quality Engineering	4
CEE 449	Environmental Engineering Lab	3
CEE 450	Surface Hydrology	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 498	Special Topics (Section EH)	1 to 4
ENG 471	Seminar Energy & Sustain Engrg	1
ME 400	Energy Conversion Systems	3 or 4
NPPE 402	Nuclear Power Engineering	3 or 4
NPPE 475	Wind Power Systems	3 or 4

**Societal Risk and Hazard Mitigation**

Science Electives Required - None

Science Electives Recommended:

FIN 230	Introduction to Insurance	3
GEOL 118	Natural Disasters	3
LAW 301	Introduction to Law	2 or 3
NRES 287	Environment and Society	3
STAT 420	Methods of Applied Statistics	3 or 4

Civil Engineering Core Courses Required:

CEE 340	Energy and Global Environment	3
---------	-------------------------------	---

Civil Engineering Core Courses Recommended:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Advanced Technical Courses Required:

CEE 491	Decision and Risk Analysis (and select 3 from the recommended list below)	3 or 4
---------	---	--------

Advanced Technical Courses Recommended:

CEE 406	Pavement Design I	3 or 4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 449	Environmental Engineering Lab	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems	3
CEE 472	Structural Dynamics I	3 or 4
CEE 473	Wind Effects on Structures	4
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
NPRE 442	Radioactive Waste Management	3
SE 450	Decision Analysis I	3 or 4
STAT 425	Statistical Modeling I	3 or 4
STAT 429	Time Series Analysis	3 or 4
STAT 430	Topics in Applied Statistics	3 or 4
UP 438	Disasters and Urban Planning	4

**Sustainable and Resilient Infrastructure Systems**

Science Electives Required - None

Science Electives Recommended:

ATMS 120	Severe and Hazardous Weather	3
CS 357	Numerical Methods I	3
ENSU 300	Environmental Sustainability	3
ESE 140	Climate and Global Change	3
ESE 320	Water Planet, Water Crisis	3
ESE 482	Challenges of Sustainability	3
FIN 221	Corporate Finance	3
GEOG 103	Earth's Physical Systems	4
NPRE 201	Energy Systems	2 or 3
NRES 439	Env and Sustainable Dev	3

SE 320	Control Systems	4
STAT 420	Methods of Applied Statistics	3 or 4
UP 406	Urban Ecology	4

## Civil Engineering Core Courses Required:

CEE 340	Energy and Global Environment	3
---------	-------------------------------	---

## Civil Engineering Core Courses Recommended:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

## Advanced Technical Courses Required:

CEE 491	Decision and Risk Analysis (And select 3 courses from the recommended list below)	3 or 4
---------	---	--------

## Advanced Technical Courses Recommended:

ABE 436	Renewable Energy Systems	3 or 4
CEE 401	Concrete Materials	4
CEE 406	Pavement Design I	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 424	Sustainable Const Methods	4
CEE 434	Environmental Systems I	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 458	Water Resources Field Methods	4
CEE 465	Design of Structural Systems	3
CEE 493	Sustainable Design Eng Tech	4
CEE 498	Special Topics (Section PS)	1 to 4
MSE 489	Matl Select for Sustainability	3 or 4
UP 466	Energy & the Built Environment	4
UP 480	Sustainable Design Principles	2

**General Civil Engineering**

Science Electives Required - Choose one course from recommended list below:

## Science Electives Recommended:

GEOL 107	Physical Geology	4
CHEM 222	Quantitative Analysis Lecture	2
CHEM 232	Elementary Organic Chemistry I	3 or 4
ME 200	Thermodynamics	3
STAT 400	Statistics and Probability I	4

Civil Engineering Core Courses Required - Should take 7 courses from list below:

CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Advanced Technical Courses Required - Option I: Pick no more than one course from each area below such that the sum of the core and advanced courses is at least 34 credit hours. Option II: Pick 2 courses from one area and no more than one course from each of the remaining areas to total 34 credit hours.

Construction:

CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 422	Construction Cost Analysis	3 or 4

Environmental:

CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 446	Air Quality Engineering	4

Geotechnical:

CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics	3 or 4

Materials:

CEE 401	Concrete Materials	4
---------	--------------------	---

Structures:

CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3

Transportation:

CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4

Water Resources:

CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4

**Secondary Field Advanced Technical Electives. Select courses from approved lists to complement the primary area and add breadth to the program of study. See list below:**

**6**

**Construction Engineering and Management**

Civil Engineering Core Courses Required:

CEE 320	Construction Engineering	3
---------	--------------------------	---

Advanced Technical Courses Required:

CEE 421	Construction Planning	3 or 4
CEE 420	Construction Productivity	3-4
or CEE 422	Construction Cost Analysis	

Advanced Technical Courses Recommended:

CEE 424	Sustainable Const Methods	4
---------	---------------------------	---

**Construction Materials Engineering**

Civil Engineering Core Courses Required:

CEE 300	Behavior of Materials	4
---------	-----------------------	---

Advanced Technical Courses Required - Pick 2 courses from the recommended list below:

Advanced Technical Courses Recommended:

CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3 or 4

CEE 406	Pavement Design I	3 or 4
<b>Environmental Engineering</b>		
Civil Engineering Core Courses Required:		
CEE 330	Environmental Engineering	3
Advanced Technical Courses Required - Choose 2 courses from the recommended list below:		
CEE 430	Ecological Quality Engineering	2
CEE 434	Environmental Systems I	3
CEE 435	Public Health Engineering	3 or 4
CEE 437	Water Quality Engineering	3
CEE 438	Science & Environmental Policy	3
CEE 445		
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 446	Air Quality Engineering	4
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab	3
<b>Geotechnical Engineering</b>		
Civil Engineering Core Courses Required:		
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required:		
CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics	3 or 4
Advanced Technical Courses Recommended - NONE		
<b>Structural Engineering</b>		
Civil Engineering Core Courses Required:		
CEE 360	Structural Engineering	3
Advanced Technical Courses Required:		
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
<b>Transportation Engineering</b>		
Civil Engineering Core Courses Required:		
CEE 310	Transportation Engineering	3
Advanced Technical Courses Required: Select 2 courses, each from a different Area		
Area 1 - Facilities:		
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
Area 2 - Systems:		
CEE 407	Airport Design	3 or 4
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 418	Public Transportation Systems	3 or 4
Area 3 - Railroad:		
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
<b>Water Resources Engineering and Science</b>		
Civil Engineering Core Courses Required:		
CEE 350	Water Resources Engineering	3

Advanced Technical Courses Required: 2 courses from the recommended list below:

**Advanced Technical Courses Recommended:**

CEE 432	Stream Ecology	3 or 4
CEE 433	Water Technology and Policy	3 or 4
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 458	Water Resources Field Methods	4
CEE 498	Special Topics (Section EH)	1 to 4

**Energy-Water-Environment Sustainability**

Civil Engineering Core Courses Required:

CEE 340	Energy and Global Environment	3
---------	-------------------------------	---

Advanced Technical Courses Required:

CEE 493	Sustainable Design Eng Tech (and select one course from the recommended list below:)	4
---------	--	---

**Advanced Technical Courses Recommended:**

ABE 436	Renewable Energy Systems	3 or 4
ARCH 441	Heat and Moisture in Buildings	3
CEE 424	Sustainable Const Methods	4
CEE 433	Water Technology and Policy	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 446	Air Quality Engineering	4
CEE 449	Environmental Engineering Lab	3
CEE 450	Surface Hydrology	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 498	Special Topics (Section EH)	1 to 4
ENG 471	Seminar Energy & Sustain Engrg	1
ME 400	Energy Conversion Systems	3 or 4
NPPE 402	Nuclear Power Engineering	3 or 4
NPPE 475	Wind Power Systems	3 or 4

**Societal Risk and Hazard Mitigation**

Civil Engineering Core Courses Required - None

Advanced Technical Courses Required:

CEE 491	Decision and Risk Analysis (and select one from the recommended list below:)	3 or 4
---------	--	--------

**Advanced Technical Courses Recommended:**

CEE 406	Pavement Design I	3 or 4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 449	Environmental Engineering Lab	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems	3
CEE 472	Structural Dynamics I	3 or 4
CEE 473	Wind Effects on Structures	4
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
NPPE 442	Radioactive Waste Management	3

SE 450	Decision Analysis I	3 or 4
STAT 425	Statistical Modeling I	3 or 4
STAT 429	Time Series Analysis	3 or 4
STAT 430	Topics in Applied Statistics	3 or 4
UP 438	Disasters and Urban Planning	4
<b>Sustainable and Resilient Infrastructure Systems</b>		
Civil Engineering Core Courses Required:		
CEE 340	Energy and Global Environment	3
Civil Engineering Core Courses Recommended:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses Required:		
CEE 491	Decision and Risk Analysis (And select one course from the recommended list below:)	3 or 4
Advanced Technical Courses Recommended:		
ABE 436	Renewable Energy Systems	3 or 4
CEE 401	Concrete Materials	4
CEE 406	Pavement Design I	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 416	Traffic Capacity Analysis	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 424	Sustainable Const Methods	4
CEE 434	Environmental Systems I	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 458	Water Resources Field Methods	4
CEE 465	Design of Structural Systems	3
CEE 493	Sustainable Design Eng Tech	4
CEE 498	Special Topics (Section PS)	1 to 4
MSE 489	Matl Select for Sustainability	3 or 4
UP 466	Energy & the Built Environment	4
UP 480	Sustainable Design Principles	2
<b>Global Context</b>		
Science Electives Recommended:		
CPSC 116	The Global Food Production Web	3
ESE 140	Climate and Global Change	3
ESE 320	Water Planet, Water Crisis	3
ESE 482	Challenges of Sustainability	3
Civil Engineering Core Courses Recommended:		
CEE 330 or CEE 350	Environmental Engineering Water Resources Engineering	3
CEE 340	Energy and Global Environment	3
Advanced Technical Courses Recommended: Must take at least 3 credit hours in each of the 2 areas below:		
Knowledge and Skills Needed to Effectively Address Global Issues:		
ACE 451	Agriculture in Intl Dev	3 to 4
ATMS 421	Earth Systems Modeling	4
CEE 438	Science & Environmental Policy	3

CEE 445		
CEE 447	Atmospheric Chemistry	4
CEE 450	Surface Hydrology	3
ECON 420	International Economics	2 to 4
Global CEE Design:		
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 449	Environmental Engineering Lab	3
CEE 465	Design of Structural Systems	3

**CEE Multidisciplinary**

Science Electives Recommended: Any recommended science electives from existing CEE Primary and Secondary listed above

Civil Engineering Core Courses Recommended: Core courses relevant to the student's interests

Advanced Technical Courses: Students work with CEE Academic Advisors

**Atmosphere Science (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

ATMS 302	Atmospheric Dynamics I	3
ATMS 410	Radar Remote Sensing	4
ATMS 411	Satellite Remote Sensing	4
ATMS 421	Earth Systems Modeling	4

CEE 445		
CEE 447	Atmospheric Chemistry	4

**Chemistry (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 315	Instrumental Chem Systems Lab	2
CHEM 332	Elementary Organic Chem II	4
CHEM 420	Instrumental Characterization	2
CHEM 440	Physical Chemistry Principles	4

**Chemical Engineering (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3

Advanced Technical Courses Recommended:

CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3

**Microbiology (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
---------	---------------------------	---

Advanced Technical Courses Recommended:

MCB 301	Experimental Microbiology	3
MCB 431	Microbial Physiology	3
MCB 450	Introductory Biochemistry	3
CEE 444	Env Eng Principles, Biological	4

**Toxicology (Primary Field: Environmental Engineering)**

Civil Engineering Core Courses Required:

CEE 330	Environmental Engineering	3
Advanced Technical Courses Recommended:		
CHEM 332	Elementary Organic Chem II	4
ENVS 431	Environ Toxicology & Health	3
ENVS 480	Basic Toxicology	3
MCB 450	Introductory Biochemistry	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>7</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>8</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> CEE 190 is offered in the fall semester.
- <sup>2</sup> CEE 495 is offered in the fall and spring semesters.
- <sup>3</sup> External transfer students take ENG 300.
- <sup>4</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>5</sup> Math 284 or Math 286 (4 hours) are acceptable substitutes for MATH 285 (3 hours).
- <sup>6</sup> CEE 300 satisfies the General Education Advanced Composition requirement.
- <sup>7</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>8</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/cee-map/>).

### First Year

First Semester		Hours
CEE 190 <sup>1</sup>	Project-Based Introduction to CEE	4
ENG 100	Engineering Orientation	0
MATH 221 <sup>2</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or SE 101 <sup>3</sup>	Writing and Research	4-3
Semester Hours		16-15

### Second Semester

MATH 231	Calculus II	3
CHEM 104	General Chemistry II	3
CHEM 105	General Chemistry Lab II	1
PHYS 211	University Physics: Mechanics	4
CS 101	Intro Computing: Engrg Sci	3
SE 101 or RHET 105 <sup>3</sup>	Engineering Graphics Design	3-4
Semester Hours		17-18

### Second Year

First Semester		Hours
CEE 201	Systems Engrg Economics	3
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
TAM 211	Statics	3

MATH 225	Introductory Matrix Theory	2
	Semester Hours	16
<b>Second Semester</b>		
CEE 202	Engineering Risk Uncertainty	3
PHYS 213	Univ Physics: Thermal Physics	2
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
General education elective <sup>4</sup>		3
Free elective		3
	Semester Hours	17
<b>Third Year</b>		
<b>First Semester</b>		
TAM 335	Introductory Fluid Mechanics	4
Civil engineering technical courses <sup>5</sup>		6
Science elective <sup>6</sup>		3
General education elective <sup>4</sup>		3
	Semester Hours	16
<b>Second Semester</b>		
CEE 300 <sup>7</sup>	Behavior of Materials	4
MATH 285	Intro Differential Equations	3
Civil engineering technical courses <sup>5</sup>		6
General education elective <sup>4</sup>		3
	Semester Hours	16
<b>Fourth Year</b>		
<b>First Semester</b>		
CEE 495	Professional Practice	0
Civil engineering technical courses <sup>5</sup>		9
General education electives <sup>4</sup>		6
	Semester Hours	15
<b>Second Semester</b>		
Civil engineering technical courses <sup>5</sup>		9
General education elective <sup>4</sup>		3
Free elective		3
	Semester Hours	15
	Total Hours:	128

<sup>1</sup> Offered in the fall semester, student should take in the first or second semester of enrollment in Civil Engineering.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>5</sup> Civil engineering technical courses are defined as core courses and advanced technical electives and must total 34 hours of credit. Five courses and a minimum of fifteen hours must be core courses as outlined in the Civil Engineering Undergraduate Handbook. (<http://cee.illinois.edu/handbooks/>) Advanced technical electives are selected to correspond with chosen primary and secondary areas of emphasis in civil engineering as outlined in the Civil Engineering Undergraduate Handbook. (<http://cee.illinois.edu/handbooks/>) A minimum of twelve and six hours must be taken for the primary and secondary areas, respectively.

- <sup>6</sup>     *The science elective is selected in accord with recommendations for the chosen primary area of emphasis in civil engineering as outlined in the Civil Engineering Undergraduate Handbook (<http://cee.illinois.edu/handbooks/>).*
- <sup>7</sup>     *CEE 300 satisfies the general education advanced composition requirement.*

## Learning Outcomes: Civil Engineering

Learning Outcomes for the degree of Bachelor of Science Major in Civil Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Civil Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Classics, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics*

---

**department website:** <http://www.classics.illinois.edu/>

**department faculty:** Classics Faculty (<https://classics.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [classics@illinois.edu](mailto:classics@illinois.edu)

---

Students choose from the following concentrations:

Classical Civilizations (p. 173)

Classical Languages (p. 174)

For students interested in adding licensure to the BALAS in Classics, please visit the Department of the Classics academics page: <https://classics.illinois.edu/academics/undergraduate-program/teaching-latin/> (<https://classics.illinois.edu/academics/undergraduate-program/teaching-latin/>)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics*

---

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Majors choosing the Classical Civilization and Classical Archaeology concentrations are advised, but not required, to satisfy the campus general education language requirement with one of the classical languages.**

**Departmental distinction: Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult a member of the department's honors committee at the earliest opportunity.**

---

Students choose from the following concentrations:

Classical Civilizations (p. 173)

Classical Languages (p. 174)

## Classics: Classical Civilizations, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics, Classical Civilizations Concentration*

---

**department website:** <http://www.classics.illinois.edu/>

**department faculty:** Classics Faculty (<https://classics.illinois.edu/directory/faculty/>)

**Departmental distinction:** Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult the Director of Undergraduate Studies at the earliest opportunity.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting coursework:** Normally equates to 44 hours. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Classical Civilization and Archaeology courses chosen from the following courses. 12 hours must be at the advanced level (300 or 400 level).		32
CLCV 114	Introduction to Greek Culture	
CLCV 115	Mythology of Greece and Rome	
CLCV 116	The Roman Achievement	
CLCV 120	The Classical Tradition	
CLCV 131	Classical Archaeology, Greece	
CLCV 132	Class Archaeology, Rome-Italy	
CLCV 133	Archaeology of Israel	
CLCV 160	Ancient Greek & Roman Religion	
CLCV 206	Classical Allusions in Cinema	
CLCV 220	Origins of Western Literature	
CLCV 221	Odysseus and Other Heroes	
CLCV 222	Introduction to Greek and Roman Theater	
CLCV 223	Myth,History,Fiction,Tradition	
CLCV 224	American Race and Ethnicity in the Classical Tradition	
CLCV 225	Greco-Roman Demo, Econ, Cult	
CLCV 230	Ancient Engineering	
CLCV 231	Development of Ancient Cities	
CLCV 232	Ancient Greek Sanctuaries	
CLCV 240	Gender & Sexuality in Greco-Roman Antiquity	
CLCV 323	The Comic Imagination	
CLCV 443	The Archaeology of Greece	
CLCV 444	The Archaeology of Italy	
CLCV 490	Topics in Classical Literature	
CLCV 491	Topics Classic Arch & Civ	
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of the Classics Director of Undergraduate Studies		12
Total Hours		44

## Learning Outcomes: Classical Civilization Concentration

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics, Classical Civilization Concentration

1. Acquire a detailed knowledge of the culture of Ancient Greek and Roman civilizations, especially the broader historical, social, and cultural contexts and their development.
2. Acquire familiarity with contemporary methods of cultural and historical analysis to facilitate self-directed inquiry of Ancient Greek and Roman cultures.
3. Acquire an awareness of the place of Ancient Greek and Roman culture in the western tradition in order to understand connections between past and present.
4. Acquire an appreciation of how the careful engagement with other cultures can facilitate new ways of understanding and interpreting one's own contemporary culture.

## Classics: Classical Languages, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics, Classical Languages Concentration

**department website:** <http://www.classics.illinois.edu/>

**department faculty:** Classics Faculty (<https://classics.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [classics@illinois.edu](mailto:classics@illinois.edu)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics, Classical Languages Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

**Departmental distinction:** Students seeking departmental distinction must have at least a 3.5 average in relevant courses and should consult the Director of Undergraduate Studies at the earliest opportunity.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting coursework:** Normally equates to 44 hours. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

**Students choose one of three tracks:** Ancient Greek, Latin, or Ancient Greek & Latin

#### Ancient Greek Track

GRK 101, Elementary Greek I, is a prerequisite for subsequent GRK courses; does not count toward the 32 hours for the concentration.

Code	Title	Hours
Ancient Greek Track		
GRK 102	Elementary Greek II	4
GRK 201	Classical & Koine Greek I	4
GRK 202	Classical & Koine Greek II	4
GRK 411	Greek Prose Composition	3
CLCV 114	Introduction to Greek Culture	3
11 hours of Greek courses, at least 6 hours of which must be at the 300-400 level, from the following:		11
GRK 251	Elementary Modern Greek I	
GRK 252	Elementary Modern Greek II	
GRK 401	Survey of Greek Literature	
GRK 403	Intermediate Modern Greek I	
GRK 404	Intermediate Modern Greek II	
GRK 491	Readings in Greek Literature	
GRK 492	Senior Thesis	
GRK 493	Independent Reading	
One additional CLCV course (3 hours)		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of Classics Director of Undergraduate Studies		12
Total Hours		44

#### Latin Track

LAT 101, Elementary Latin I, is a prerequisite for subsequent LAT courses and does not count toward the 32 hours for the concentration.

Code	Title	Hours
Latin Track		
LAT 102	Elementary Latin II	4
LAT 201	Intermediate Latin	4
LAT 202	Intro to Latin Literature	4
LAT 411	Intermediate Prose Composition	3
CLCV 116	The Roman Achievement	3
11 hours of latin courses, at least 6 hours of which must be at the 300-400 level, chosen from the following:		11

LAT 401	Survey of Latin Literature	
LAT 460	Medieval Latin	
LAT 491	Readings in Latin Literature	
LAT 492	Senior Thesis	
LAT 493	Independent Reading	
One additional CLCV course		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of the Classics Director of Undergraduate Studies		12
Total Hours		44

**Ancient Greek & Latin Track**

LAT 101, Elementary Latin I (a prerequisite for subsequent LAT courses) and GRK 101, Elementary Greek I (a prerequisite for subsequent GRK courses) and do not count toward the 32 hours for the concentration.

Code	Title	Hours
Ancient Greek & Latin Track		
GRK 102	Elementary Greek II	4
GRK 201	Classical & Koine Greek I	4
GRK 202	Classical & Koine Greek II	4
LAT 102	Elementary Latin II	4
LAT 201	Intermediate Latin	4
LAT 202	Intro to Latin Literature	4
GRK 411	Greek Prose Composition	3
or LAT 411	Intermediate Prose Composition	
Additional GRK or LAT coursework at 400-level		2
One CLCV course		3
Supporting coursework, a minor or a second major in an area of study chosen by the student and approved by the Department of the Classics Director of Undergraduate Studies		12
Total Hours		44

## Learning Outcomes: Classics, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Classics

1. Acquire and retain a detailed knowledge of Greek and Latin grammar, syntax, vocabulary, and modes of expression so as to be able to read literary and subliterate texts composed in Greek and Latin between roughly 800 BCE and 500 CE.
2. Situate knowledge of the languages within the cultural contexts in which they were used in order to understand the crucial role of language in social dynamics and cross-cultural communication.
3. Acquire facility with contemporary methods of literary and historical analysis sufficient to carry out original, self-directed research into cultures that made use of the Greek and Latin languages.
4. Acquire critical awareness of the place of Greek and Latin in western literary history in order to appreciate the powerful role of tradition in interpreting the texts and events of the past.
5. Acquire a detailed knowledge of the culture of Ancient Greek and Roman civilizations, especially the broader historical, social, and cultural contexts and their development.

# Communication, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication

**department website:** <https://communication.illinois.edu/>

**department faculty:** Communication Faculty (<https://communication.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [communication@illinois.edu](mailto:communication@illinois.edu)

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication

**Departmental distinction:** Superior students are encouraged to consult the departmental honors adviser about requirements and opportunities for participation in the departmental honors program.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** At least 15 hours of the required 37 hours in Communication must be at the 300 level or above. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
Introduction to Public Speaking (choose one):		3
CMN 101	Public Speaking	
OR		
CMN 112	Oral & Written Comm II <sup>1</sup>	
CMN 102	Introduction to Communication	4
Communication Courses: Students will select an option (A or B) and a specialization (if Option B is chosen) in consultation with an undergraduate advisor in Communication.		30
OPTION A: Students who wish a general course of study will take at least one course from five of the following six areas and the remaining hours will be selected in consultation with an advisor.		
OPTION B: Students who choose to concentrate within an area must take four courses from one of the six areas listed below and the remaining hours will be selected in consultation with an advisor. Students may complete more than one specialization by completing four courses in each area desired; however, individual courses may not be counted toward more than one specialization.		

## Communication & Culture Area

CMN 232	Intro to Intercultural Comm
CMN 250	Social Movement Communication
CMN 275	Media, Money and Power
CMN 280	Comm Technology & Society
CMN 320	Comm Controversy Public Policy
CMN 326	Mass Media and the Audience
CMN 357	Intro to Conversation Analysis
CMN 361	Storytelling as Oral Communication
CMN 375	Popular Media and Culture
CMN 429	Race and the Mass Media
CMN 432	Gender Communication
CMN 450	Topics in Public Communication

## Communication & Health Area:

CMN 220	Communicating Public Policy
CMN 230	Intro to Interpersonal Comm
CMN 260	Intro to Health Communication
CMN 321	Strategies of Persuasion
CMN 323	Argumentation
CMN 368	Sexual Communication
CMN 421	Persuasion Theory & Research

CMN 467	Communication & Health Equity
CMN 435	Adv Interpersonal Comm
CMN 462	Interpersonal Health Comm
CMN 463	Organizational Health Comm
CMN 464	Health Communication Campaigns
CMN 465	Social Marketing
<b>Communication &amp; Organizations Area:</b>	
CMN 211	Business and Professional Communication
CMN 212	Intro to Organizational Comm
CMN 213	Small Group Communication
CMN 215	Interviewing: The Art and Science of Effective Questioning
CMN 232	Intro to Intercultural Comm
CMN 280	Comm Technology & Society
CMN 312	Communicating for Innovation
CMN 323	Argumentation
CMN 370	Political Economy of Communication
CMN 377	Propaganda and Modern Society
CMN 410	Workplace Comm Technology
CMN 411	Organizational Comm Assessment
CMN 412	Adv Organizational Comm
CMN 413	Adv Small Group Communication

CMN 415	Classical Rhetorics
CMN 416	Early Modern Rhetorics
CMN 417	Contemporary Rhetorics
CMN 421	Persuasion Theory & Research
CMN 423	Rhetorical Criticism
CMN 424	Campaigning to Win
CMN 450	Topics in Public Communication
CMN 464	Health Communication Campaigns
CMN 476	Commercialism and the Public

Total Hours

37

<sup>1</sup> CMN 111 is a prerequisite for CMN 112. Credit in CMN 111 will not count towards the minimum of 37 hours of Communication courses required for the major.

## Learning Outcomes: Communication, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Communication

1. Students will demonstrate competence in oral and written communication, including public speaking, argumentation and reasoning, deliberation, and media analysis and critique.
2. Students will have broad knowledge of communication research and theory and understand how to apply theoretical concepts in practical settings.
3. Students will understand the political and social import of communication and develop competencies required to engage productively with discourses related to all aspects of public and private life.
4. Students will understand the communicative implications of human diversity, including issues related to race, culture, class, religion, gender, sexual identity, and disability.
5. Students will gain communication competencies that afford them rewarding opportunities, such as satisfying employment or post-graduate study.

# Community Health, BS

for the Bachelor of Science Major in Community Health

**Department Website:** <http://kch.illinois.edu/>

**Department Faculty:** Kinesiology & Community Health Faculty (<http://kch.illinois.edu/faculty/>)

**College Catalog Page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**College Website:** <http://ahs.illinois.edu/>

Students pursuing this major select one of three concentrations:

Health Education & Promotion (p. 180)

Health Planning & Administration (p. 188)

Rehabilitation Studies (p. 195)

## Programs in Community Health and Kinesiology

### Undergraduate Programs:

**major:** Community Health, BS (p. 180)

**concentration:** Community Health: Health Education & Promotion, BS (p. 180)

**concentration:** Community Health: Health Planning & Administration, BS (p. 188)

**concentration:** Community Health: Rehabilitation Studies, BS (p. 195)

**major:** Kinesiology, BS (p. 441)

**concentration:** Kinesiology: Teacher Certification, BS (p. 443)

**minor:** Kinesiology (p. 903)

**minor:** Disability Studies (p. 850)

**joint degree:** Community Health, BS and Public Health, MPH (p. 780)

**joint degree:** Community Health, BS and Epidemiology, MPH (p. 778)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 799)

**joint degree:** Kinesiology, BS and Epidemiology, MPH (p. 797)

**joint degree:** Interdisciplinary Health Sciences, BS & Epidemiology, MPH (p. 792)

### Graduate Programs:

**degree:** Kinesiology, MS ([http://catalog.illinois.edu/graduate/ms\\_kines/](http://catalog.illinois.edu/graduate/ms_kines/))

**degree:** Kinesiology, PhD (<http://catalog.illinois.edu/graduate/graduate-majors/kinesiology/#doctoratetext>)

CHLH 485	Community Health Internship	8

### Correlates Choices

Community Health Supporting Electives

Guidelines for Choosing Supporting Electives:

- 18 credit hours (about 6 separate classes) are required in Supporting Electives for the major;
- 9 credit hours or more of Supporting Electives should be completed within the Department of Kinesiology and Community Health: CHLH, IHTL, KIN, or REHB courses;
- If you are taking a course as part of your primary concentration, it will not also count as a Supporting Elective;
- Your academic advisor will work with you to help determine what coursework is appropriate to count as your Supporting Electives and/or you may select from this approved list of courses.

## CHLH Courses

**degree:** Public Health, MPH (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/>)

**joint degree:** Community Health, BS and Public Health, MPH (p. 780)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 799)

The Community Health Program at the University of Illinois prepares students in the ever changing world of health care and health behavior as practitioners and offers three concentrations at the undergraduate level: Health Education & Promotion (p. 180), Health Planning & Administration (p. 188), and Rehabilitation Studies (p. 195). All curricula are built on a foundation of general education courses which emphasize communication skills and critical thinking. The Professional Core courses are designed to help students develop skills in planning, implementation, and evaluation in the context of health services and programs. Students must complete an internship during their senior year in a setting related to the degree and their interests. Recent internship sites have included the American Heart Association, the American Red Cross, hospitals, nursing homes, fitness centers, work site health education programs, and substance abuse prevention centers.

Further information is available from the Academic Affairs Office, Department of Kinesiology & Community Health, University of Illinois at Urbana-Champaign, 1206 S. Fourth Street, 2021 Khan Annex, Huff Hall, Champaign, IL 61820, (217) 333-2307.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with both BS and MPH degrees. A summary of the requirements for the MPH degree is provided here (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/#degreerequirementstext>). The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

*for the Bachelor of Science Major in Community Health, Health Planning & Administration Concentration*

The Community Health Program requires certain courses from the approved lists be taken as noted below. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education Requirements provided they are on the appropriate General Education List.

A total of 128 hours is required for a degree in Community Health with all the above requirements met. There will be range of electives a student will be able to take depending on the general education number of hours.

## Correlate Areas

### Community Health Supporting Electives

#### Guidelines for Choosing Supporting Electives:

- 18 credit hours (about 6 separate classes) are required in Supporting Electives for the major;
- 9 credit hours or more of Supporting Electives should be completed within the Department of Kinesiology and Community Health: CHLH, IHTL, KIN, or REHB courses;
- If you are taking a course as part of your primary concentration, it will not also count as a Supporting Elective;
- Your academic advisor will work with you to help determine what coursework is appropriate to count as your Supporting Electives and/or you may select from this approved list of courses.

#### CHLH Courses

Code	Title	Hours
CHLH 126	Campus Acquaintance Rape Education	3
CHLH 199	Undergraduate Open Seminar	1 to 5
CHLH 200	Mental Health	2
CHLH 203	Introduction to Health Technology	3
CHLH 206	Human Sexuality	2
CHLH 243	Drug Use and Abuse	2
CHLH 244	Health Statistics	3
CHLH 260	Introduction to Medical Ethics	3
CHLH 314	Introduction to Aging	3
CHLH 330	Disability in American Society	3
CHLH 365	Civic Engagement in Wellness	3
CHLH 393	Special Projects	2 or 3
CHLH 404	Gerontology	3 or 4
CHLH 407	Disability, Culture & Society	3 or 4
CHLH 409	Women's Health	3
CHLH 415	International Health	3 or 4
CHLH 429	Research Techniques	4
CHLH 441	Health Behavior and Technology	3 or 4
CHLH 448	Exercise & Health Psychology	3 or 4
CHLH 455	Health Services Financing	3
CHLH 456	Organization of Health Care	2 to 4
CHLH 457	Health Planning	3
CHLH 458	Health Administration	3
CHLH 469	Environmental Health	3 or 4
CHLH 470	Technology, Health, and Aging	3 or 4
CHLH 494	Special Topics	1 to 4

### Programs in Community Health and Kinesiology

#### Undergraduate Programs:

**major:** Community Health, BS (p. 180)

**concentration:** Community Health: Health Education & Promotion, BS (p. 180)

**concentration:** Community Health: Health Planning & Administration, BS (p. 188)

**concentration:** Community Health: Rehabilitation Studies, BS (p. 195)

**major:** Kinesiology, BS (p. 441)

**concentration:** Kinesiology: Teacher Certification, BS (p. 443)

**minor:** Kinesiology (p. 903)

**minor:** Disability Studies (p. 850)

**joint degree:** Community Health, BS and Public Health, MPH (p. 780)

**joint degree:** Community Health, BS and Epidemiology, MPH (p. 778)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 799)

**joint degree:** Kinesiology, BS and Epidemiology, MPH (p. 797)

**joint degree:** Interdisciplinary Health Sciences, BS & Epidemiology, MPH (p. 792)

#### Graduate Programs:

**degree:** Kinesiology, MS ([http://catalog.illinois.edu/graduate/ms\\_kines/](http://catalog.illinois.edu/graduate/ms_kines/))

**degree:** Kinesiology, PhD (<http://catalog.illinois.edu/graduate/graduate-majors/kinesiology/#doctoratetext>)

**degree:** Community Health, MS (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/ms-comm-health/>)

**degree:** Rehabilitation, MS (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/ms-rehab/>)

**degree:** Public Health, MPH (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/>)

**joint degree:** Community Health, BS and Public Health, MPH (p. 780)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 799)

The Community Health Program at the University of Illinois prepares students in the ever changing world of health care and health behavior as practitioners and offers three concentrations at the undergraduate level: Health Education & Promotion (p. 180), Health Planning & Administration (p. 188), and Rehabilitation Studies (p. 195). All curricula are built on a foundation of general education courses which emphasize communication skills and critical thinking. The Professional Core courses are designed to help students develop skills in planning, implementation, and evaluation in the context of health services and programs. Students must complete an internship during their senior year in a setting related to the degree and their interests. Recent internship sites have included the American Heart Association, the American Red Cross, hospitals, nursing homes, fitness centers, work site health education programs, and substance abuse prevention centers.

Further information is available from the Academic Affairs Office, Department of Kinesiology & Community Health, University of Illinois at Urbana-Champaign, 1206 S. Fourth Street, 2021 Khan Annex, Huff Hall, Champaign, IL 61820, (217) 333-2307.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with both BS and MPH degrees. A summary of the requirements for the MPH degree is provided here (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/#degreerequirementstext>). The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

for the Bachelor of Science Major in Community Health, Rehabilitation Studies Concentration

The Community Health Program requires certain courses from the approved lists be taken as noted below. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education Requirements provided they are on the appropriate General Education List.

A total of 128 hours is required for a degree in Community Health with all the above requirements met. There will be range of electives a student will be able to take depending on the general education number of hours.

## General Education

Code	Title	Hours
<b>Communication Arts</b>		
Composition I and an approved speech performance course; or CMN 111 and CMN 112		6-7
Advanced Composition (CHLH 304 fulfills requirement)		3-4

## Learning Outcomes: Community Health, BS

*Learning outcomes for the Bachelor of Science Major in Community Health*

1. **Content Knowledge:** Students will know and comprehend the significant theories, models, themes, and ideas in the biomechanical, physiological, behavioral, pedagogical, biological, socioeconomic, environmental, and sociocultural correlates of Kinesiology and Community Health.
2. **Critical Thinking and Discovery:** Students will comprehend and demonstrate ethical practices and the application of scientific findings and/or critical analysis in order to interpret, promote inquiry, propose solutions, and/or create new ideas related to health, rehabilitation, and/or human movement.
3. **Awareness and Understanding:** Students will understand and appreciate the diverse socioeconomic, behavioral, sociocultural, biological, environmental, philosophical, and historical factors that influence health, rehabilitation, and human movement.
4. **Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases.
5. **Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

# Comparative & World Literature, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature*

**program website:** <https://complit.illinois.edu/>

**program faculty:** Comparative & World Literature Faculty (<https://complit.illinois.edu/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [complit@illinois.edu](mailto:complit@illinois.edu) ([complit@illinois.edu](mailto:complit@illinois.edu))

Students must select one of the following in consultation with an advisor:

Major in Comparative & World Literature, Comparative Literature Concentration (p. 203)

Major in Comparative & World Literature, World Literature Concentration (p. 204)

## Comparative & World Literature: Comparative Literature, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature, Comparative Literature Concentration*

**program website:** <https://complit.illinois.edu/>

**program faculty:** Comparative & World Literature Faculty (<https://complit.illinois.edu/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [complit@illinois.edu](mailto:complit@illinois.edu)

The Major in Comparative & World Literature, Comparative Literature Concentration provides an engagement with two or more literary and cultural traditions, studied in historical depth, in their original languages (6 hours of advanced foreign language required).

Study abroad and work across cultures and disciplines is strongly encouraged. The distribution of course work allows for considerable flexibility. The concentration in Comparative Literature can be easily combined with a major or minor in any national literature, classics, global studies, area studies, ethnic studies, gender and women's studies, or majors and minors in anthropology, art history, cinema and media studies, history, music, philosophy, world religion, the visual arts, or with a certificate in translation studies.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature, Comparative Literature Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60 - 75 hours). Please see your adviser.

**Departmental distinction:** To be eligible for distinction, a student must have at least a 3.25 cumulative grade-point average and a 3.75 grade-point average in departmental courses, complete a senior thesis (CWL 493), and receive the approval of the departmental honors committee. The departmental honors committee will determine the level of distinction to be awarded.

### Comparative Literature Concentration Requirements

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work** equate to 39 hours with at least 18 hours of Comparative Literature courses. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours. Students will complete 40 hours of upper division coursework (these hours can be drawn from all elements of the degree).

Code	Title	Hours
Language: A minimum of 6 hours of advanced language at the 200-400 level (may be satisfied with a proficiency exam)		6
CWL 202	Literature and Ideas	3
Five core CWL courses chosen from broadly comparative courses, from the following:		15
At least two courses must be at the 300- 400-level. At least one course must be in a period prior to 1800 and one course in a period since 1800.		
CWL 114	Global Consciousness and Lit	
CWL 151	Cross-Cultural Thematics	
CWL 189	Literatures of the Islamic World	
CWL 190	Modern Asian and African Literatures	
CWL 201	Comparative Lit Studies	
CWL 241	Early Masterpieces of Western Culture	

CWL 242	Modern Masterpieces of Western Culture	
CWL 395	Special Topics Comp Lit I	
CWL 441	Themes in Narrative	
CWL 461	Lit Genres and Forms	
CWL 471	International Lit Relations	
CWL 496	Special Topics in Comp Lit II	
<b>Major Literature Coursework- Three courses in a major literature, taught in the original language, at 200-400-level. No more than 2 courses at the 200-level.</b>		<b>9</b>
<b>Focus Area Coursework - At least two courses from one of the following focus areas, at 200-400 level. No more than 1 course at the 200-level:</b>		<b>6</b>
Minor Literature: courses in a second national literature, taught in the original language.		<sup>2</sup>
Interdisciplinary: courses in another discipline, such as philosophy, cinema, art history, fine arts, music, religion, science, medical humanities, law, creative writing		
Cultural Studies: courses with a focus on race, gender, class, postcolonialism, environmental studies, or the like		
Area Studies: courses in a geographical area related to major literature (Africa, Middle East, Latin America, South Asia, East Asia, Eastern Europe, the European Union).		
<b>Minimum Required Hours:</b>		<b>39</b>

- <sup>1</sup> *Literature in the Original Language is defined by what is currently offered by the University (i.e. English, French, German, Italian, Spanish, etc.). Literatures generally taught in translation (including, but not limited to, Arabic, Chinese, Hebrew, Japanese, Persian, Polish, Russian, and Yiddish) may be chosen in consultation with the Director of Undergraduate Studies.*
- <sup>2</sup> *If one of the literatures studied is English, a student who continues in a graduate program in comparative literature will be required to acquire a reading knowledge of a second foreign language (i.e., one foreign language for the B.A., two foreign languages for the M.A., three foreign languages for the Ph.D.).*

## Comparative & World Literature: World Literature, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative & World Literature, World Literature Concentration*

**program website:** <https://complit.illinois.edu/>

CWL 461	Lit Genres and Forms
CWL 471	International Lit Relations
CWL 496	Special Topics in Comp Lit II

**Three courses from at least two national traditions at 200-400 level. No more than 2 courses at the 200-level. Chosen from any literature courses offered by the following departments:** **9**

African American Studies
American Indian Studies
Asian American Studies
Gender & Women's Studies
Classics
East Asian Languages & Cultures
English
French & Italian
Germanic Languages & Literature
Jewish Culture & Society
Latino/Latina Studies
Slavic Languages & Literature
Spanish & Portuguese

**Area / Cultural Studies Coursework - Two courses at 300-400 level in any literature or in one of the following fields:** **6**

Another discipline: e.g. philosophy, cinema, art history, fine arts, music, religion, science, medical humanities, law, creative writing.
Cultural studies: e.g. race, gender, class, postcolonialism, environmental studies.
Area Studies: Africa, Middle East, Latin America, South Asia, East Asia, Eastern Europe, the European Union.

**Minimum Required Hours:** **33**

## Learning Outcomes: Comparative & World Literature, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Comparative Literature

1. **Social Awareness and Cultural Understanding / Global Consciousness:** CWL students will develop a comparative understanding of national literatures in the context of a globalizing world, and an ability to situate texts in their cultural and historical contexts.
  - a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.
2. **Intellectual Reasoning and Knowledge:** CWL students will appreciate the aesthetic qualities of literary texts and develop an awareness of influential critical and interpretive methods.
  - a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.
3. **Intellectual Reasoning and Knowledge:** CWL students will demonstrate a general understanding of the conventions of literary genres and of the major developments in literary history.
  - a. *Measurable by:* analysis of student work samples; degree progress and course completion; focus groups; course syllabus comparison.
4. **Creative Inquiry and Discovery:** Students will demonstrate ability to express oneself orally and in writing in a clear, coherent and persuasive manner, and to construct an interpretive argument.
  - a. *Measurable by:* analysis of student work samples; focus groups.
5. **For Comparative Literature concentration only:** Students will demonstrate mastery of at least two languages.
  - a. *Measurable by:* participation in 200-400 level courses in the original language; degree progress and course completion.

# Computer Engineering, BS

for the degree of Bachelor of Science in Computer Engineering

**department website:** <https://ece.illinois.edu>

**department faculty:** Electrical & Computer Engineering Faculty (<https://ece.illinois.edu/about/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://ece.illinois.edu/academics/educational-objectives> (<https://ece.illinois.edu/academics/educational-objectives/>)

Computer Engineering at The Grainger College of Engineering focuses on the development of vital computing technologies, ranging from chips to computers to networks to programming tools to key algorithms for building exciting applications. Fundamentally, Computer Engineering addresses the problem of building scalable, trustworthy computing systems, and the faculty's interests span a broad spectrum of issues pertinent to this theme. Computer engineering has taken the lead in revolutionizing many science and engineering disciplines with parallel computing, from chips to clouds to planet-scale critical infrastructures, and has defined new standards of security, privacy, and dependability for systems ranging from small circuits to the electric power grids of many nations. Students need a broad and sound set of mathematical and computing skills, and are well-served by a flexible curriculum that enables them to pursue topics of interest among the many subdisciplines in computing.

The computer engineering core curriculum focuses on fundamental computer engineering knowledge: circuits, systems, electromagnetics, computer systems, electronics for information processing and communication, and computer science. The rich set of ECE elective courses permits students to concentrate in any sub-discipline of computer engineering including: hardware systems; cyberphysical systems; foundations and theory; software and languages; algorithms and mathematical tools; trust, reliability, security; networking, mobile and distributed computing; big data analytics and systems; artificial intelligence, robotics, cybernetics.

for the degree of Bachelor of Science in Computer Engineering

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for ECE courses (except ECE 316). See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

ECE 496	Senior Research Project (and ECE 499 - Senior Thesis) <sup>6</sup>	4

**Electives**

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>7</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>8</sup>		12
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

**Footnotes**

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.
- <sup>4</sup> MATH 213 may be substituted.
- <sup>5</sup> STAT 410 may be substituted.
- <sup>6</sup> Advanced Composition may be satisfied by completing ECE 445 or ECE 496 and ECE 499 or a course within either the general education or free elective categories which has the Advanced Composition designation.
- <sup>7</sup> The Grainger College of Engineering approved liberal education course list (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>8</sup> The Grainger College of Engineering restrictions to free electives (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Computer Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/ce-map/>).

**First Year**

First Semester		Hours
ECE 120	Introduction to Computing	4
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
RHET 105 (or General Education elective) <sup>2,3</sup>	Writing and Research	4-3
General Education elective <sup>3</sup>		3
Semester Hours		15-14
Second Semester		
ECE 110 <sup>4</sup>	Introduction to Electronics	3
MATH 231	Calculus II	3
PHYS 211	University Physics: Mechanics	4
ECE 220	Computer Systems Programming	4
General Education elective (or RHET 105) <sup>2,3</sup>		3-4
Semester Hours		17-18

**Second Year****First Semester**

MATH 241	Calculus III	4
MATH 257	Linear Algebra with Computational Applications	3
PHYS 212	University Physics: Elec Mag	4
CS 173 <sup>5</sup>	Discrete Structures	3
General Education elective <sup>3</sup>		3
Semester Hours		17
<b>Second Semester</b>		
MATH 285	Intro Differential Equations	3
ECE 210	Analog Signal Processing	4
CS 225	Data Structures	4
PHYS 213	Univ Physics: Thermal Physics	2
PHYS 214	Univ Physics: Quantum Physics	2
Semester Hours		15
<b>Third Year</b>		
<b>First Semester</b>		
ECE 313 <sup>6</sup>	Probability with Engrg Applic	3
ECE 385	Digital Systems Laboratory	3
Technical elective <sup>7</sup>		3
General education elective <sup>3</sup>		3
Free elective		3
Semester Hours		15
<b>Second Semester</b>		
ECE 391	Computer Systems Engineering	4
Technical elective <sup>7</sup>		7
General Education elective <sup>3</sup>		3
Free elective		3
Semester Hours		17
<b>Fourth Year</b>		
<b>First Semester</b>		
ECE 374	Introduction to Algorithms Models of Computation	4
Technical electives <sup>7</sup>		6
General Education elective <sup>3</sup>		3
Free elective		3
Semester Hours		16
<b>Second Semester</b>		
ECE 411	Computer Organization Design	4
Technical electives <sup>7</sup>		9
Free elective		3
Semester Hours		16
Total Hours:		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.

- 5 MATH 213 may be substituted.
- 6 STAT 410 may be substituted.
- 7 All are to be chosen from the departmentally approved List of Technical Electives (<https://ece.illinois.edu/academics/ugrad/curriculum/tech-electives-06/>). Students must earn a minimum of 29 hours of technical electives consisting of an Advanced EE Core, three Advanced Computing Electives, a Design Elective and the remaining hours may be chosen from the entire list.
- 8 ECE 445 or ECE 496 AND ECE 499 may be substituted.

## Learning Outcomes: Computer Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Computer Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Computer Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Computer Science, BS

for the degree of Bachelor of Science in Computer Science

**department website:** <https://cs.illinois.edu>

**department faculty:** Computer Science Faculty (<https://cs.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://cs.illinois.edu/about/accreditation> (<https://cs.illinois.edu/about/accreditation/>)

The Computer Science curriculum provides both a broad and deep knowledge of the theory, design, and application of computer systems, with an emphasis on software systems. Because computing is ubiquitous, application areas involve virtually any field imaginable - from developing gene sequencing algorithms via techniques in computational biology, to designing user interfaces for mobile applications; from designing methods for high frequency trading, to creating computer generated graphics and special effects in the gaming industry; and from creating embedded real time systems to be deployed in medical devices, to analyzing social data from internet communication patterns. During the first two years the curriculum provides a strong foundation in mathematics, science, and computation. Advanced coursework in areas of the student's choosing follows in the second two years, which include either a senior thesis or a senior project. Graduates may go on to graduate study or leading positions in industry.

A combined B.S.-M.S. and B.S.-M.C.S. degree program is available. The admission and course requirements are described on the Computer Science website (<https://cs.illinois.edu/academics/graduate/fifth-year-masters-programs/5-year-bs-ms-program/>).

for the degree of Bachelor of Science in Computer Science

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for CS and Math courses. See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

### Orientation and Professional Development

Code	Title	Hours
CS 100	Freshman Orientation (optional course highly recommended may be used to help meet free elective requirements)	1
CS 210 or CS 211	Ethical & Professional Issues Ethical and Professional Conduct	2 or 3
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		3-4

## Foundational Mathematics and Science

Code	Title	Hours
<b>Total Hours chosen from the following:</b>		<b>25</b>
MATH 221	Calculus I <sup>2</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 415 or MATH 257 or MATH 416	Applied Linear Algebra Linear Algebra with Computational Applications Abstract Linear Algebra	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
<b>One Science elective course:</b>		<b>3</b>

Students must take one course from the Natural Science & Technology (NST) list, in addition to those taken as part of the General Education requirements. The course must be a course that is allowed for credit by the Grainger College of Engineering.

Exceptions to the list are: ASTR 100, PHYS 101 and PHYS 102, and CHEM 101.

Students who select either ASTR 121, ASTR 122, or ASTR 150 to satisfy the Science Elective requirement will not be allowed to take ASTR 131 and ASTR 132 as free elective (maximum of 4 credit hours of ASTR 100-level can count towards graduation requirements for all Grainger College of Engineering Undergraduates)

CS 421	Programming Languages & Compilers	3
Total Hours		35

## Technical Electives

Code	Title	Hours
<b>Students must take a minimum of (6) six additional technical electives with at least eighteen (18) cumulative credit hours and chosen from CS 397 and the CS 400-level courses, not including CS 400, CS 401, CS 402, CS 403 or CS 491. CS 500-level courses may be used as technical electives, but only with special permission from the CS Academic Office. CS 397 and CS 499 may be used with a cumulative maximum of six (6) credits from them counting as technical electives. One "CS-like" course in another department (e.g., ECE) may also be counted as a CS 400-level course with permission of the CS Academic Office. Non-CS tech electives will not be considered in focus areas.</b>		<b>18</b>

**At least one (1) of the CS courses used for technical electives must be chosen from the list below of CS courses satisfying the team project requirement.**

### Team Project Course List:

CS 417	Virtual Reality (Virtual Reality)	3
CS 427	Software Engineering I	3 or 4
CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 437	Topics in Internet of Things (Topics in Internet of Things)	3
CS 465	User Interface Design	4
CS 467	Social Visualization	3 or 4
CS 493	Senior Project II, ACP	3
CS 494	Senior Project II	3
CS 497	CS Team Project	1 to 3

**At least three (3) of the CS courses used for technical electives must be chosen from a single focus area, from among the list of focus areas listed below. The team project course may be used as one of them.**

CS 498 Special Topics and CS 598 Special Topics classes may be included in a focus area by department approval.

### Software Foundations:

CS 407	Cryptography (Cryptography)	3 or 4
CS 409	The Art of Web Programming (The Art of Web Design)	3
CS 422	Programming Language Design	3 or 4
CS 426	Compiler Construction	3 or 4
CS 427	Software Engineering I	3 or 4
CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 474	Logic in Computer Science (Logic in Computer Science)	3 or 4
CS 476	Program Verification	3 or 4
CS 477	Formal Software Development Methods	3 or 4

CS 492	Senior Project I	3
CS 521	Advanced Topics in Programming Systems (Advanced Topics in Programming Systems)	4
CS 522	Programming Language Semantics	4
CS 524	Concurrent Progrmg Languages	4
CS 526	Advanced Compiler Construction	4
CS 527	Topics in Software Engineering	4
CS 528	Obj-Oriented Progrmg & Design	4
CS 576	Topics in Automated Deduction	2 to 4
<b>Algorithms and Models of Computation:</b>		
CS 407	Cryptography (Cryptography)	3 or 4
CS 413	Intro to Combinatorics	3 or 4
CS 473	Algorithms	4
CS 474	Logic in Computer Science (Logic in Computer Science)	3 or 4
CS 475	Formal Models of Computation	3 or 4
CS 476	Program Verification	3 or 4
CS 477	Formal Software Development Methods	3 or 4
CS 481	Advanced Topics in Stochastic Processes & Applications	3 or 4
CS 482	Simulation	3 or 4
CS 571	Combinatorial Mathematics	4
CS 572	Extremal Graph Theory	4
CS 573	Algorithms	4
CS 574	Randomized Algorithms	4
CS 575	Methods of Combinatorics	4
CS 576	Topics in Automated Deduction	2 to 4
CS 579	Computational Complexity	4
CS 580	Topics in Algorithmic Game Theory (Topics in Algorithmic Game Theory)	4
CS 583	Approximation Algorithms	4
CS 584	Embedded System Verification	4
<b>Intelligence and Big Data:</b>		
CS 410	Text Information Systems	3 or 4
CS 411	Database Systems	3 or 4
CS 412	Introduction to Data Mining	3 or 4
CS 414	Multimedia Systems	3 or 4
CS 416	Data Visualization (Data Visualization)	3 or 4
CS 440	Artificial Intelligence	3 or 4
CS 441	Applied Machine Learning (Applied Machine Learning)	3 or 4
CS 445	Computational Photography	3 or 4
CS 446	Machine Learning	3 or 4
CS 447	Natural Language Processing	3 or 4
CS 448	Audio Computing Laboratory (Audio Computing Laboratory)	3 or 4
CS 464	Topics in Societal and Ethical Impacts of Computer Technology (Topics in Societal and Ethical Impacts of Computer Technology)	3
CS 466	Introduction to Bioinformatics	3 or 4
CS 467	Social Visualization	3 or 4
CS 469	Computational Advertising Infrastructure (Computational Advertising)	3
CS 510	Advanced Information Retrieval	4
CS 511	Advanced Data Management	4
CS 512	Data Mining Principles	4
CS 514	Advanced Topics in Network Science (Advanced Topics in Network Science)	4
CS 540	Deep Learning Theory (Deep Learning Theory)	4
CS 542	Statistical Reinforcement Learning (Statistical Reinforcement Learning)	4
CS 543	Computer Vision	4

CS 544	Optimiz in Computer Vision	4
CS 545	Machine Learning for Signal Processing (Machine Learning for Signal Processing)	4
CS 546	Advanced Topics in Natural Language Processing (Advanced Topics in NLP)	4
CS 548	Models of Cognitive Processes	4
CS 562	Advanced Topics in Security, Privacy, and Machine Learning (Advanced Topics in Security, Privacy, and ML)	4
CS 567	Social Signals and Social Media (Social Signals and Social Media)	4
CS 576	Topics in Automated Deduction	2 to 4
<b>Human and Social Impact:</b>		
CS 409	The Art of Web Programming (The Art of Web Design)	3 or 4
CS 416	Data Visualization (Data Visualization)	3 or 4
CS 417	Virtual Reality (Virtual Reality)	3 or 4
CS 441	Applied Machine Learning (Applied Machine Learning)	3 or 4
CS 460	Security Laboratory	3 or 4
CS 461	Computer Security I	4
CS 463	Computer Security II	3 or 4
CS 464	Topics in Societal and Ethical Impacts of Computer Technology (Topics in Societal and Ethical Impacts of Computer Technology)	3
CS 465	User Interface Design	4
CS 467	Social Visualization	3 or 4
CS 468	Tech and Advertising Campaigns	3
CS 469	Computational Advertising Infrastructure (Computational Advertising)	3
CS 500	Current Topics in Computing Education Research (Current Topics in Computing Education Research)	4
CS 514	Advanced Topics in Network Science (Advanced Topics in Network Science)	4
CS 562	Advanced Topics in Security, Privacy, and Machine Learning (Advanced Topics in Security, Privacy, and ML)	4
CS 563	Advanced Computer Security	4
CS 565	Human-Computer Interaction	4
CS 566	(Experimental HCI)	4
CS 567	Social Signals and Social Media (Social Signals and Social Media)	4
<b>Media:</b>		
CS 409	The Art of Web Programming (The Art of Web Design)	3 or 4
CS 414	Multimedia Systems	3 or 4
CS 417	Virtual Reality (Virtual Reality)	3 or 4
CS 418	Interactive Computer Graphics	3 or 4
CS 419	Production Computer Graphics	3 or 4
CS 445	Computational Photography	3 or 4
CS 448	Audio Computing Laboratory (Audio Computing Laboratory)	3 or 4
CS 465	User Interface Design	4
CS 467	Social Visualization	3 or 4
CS 468	Tech and Advertising Campaigns	3
CS 469	Computational Advertising Infrastructure (Computational Advertising)	3 or 4
CS 519	Scientific Visualization	4
CS 545	Machine Learning for Signal Processing (Machine Learning for Signal Processing)	4
CS 565	Human-Computer Interaction	4
CS 567	Social Signals and Social Media (Social Signals and Social Media)	4
<b>Scientific, Parallel, and High Performance Computing:</b>		
CS 419	Production Computer Graphics	3 or 4
CS 435	Cloud Networking (Cloud Networking)	3 or 4
CS 450	Numerical Analysis	3 or 4
CS 457	Numerical Methods II	3
CS 466	Introduction to Bioinformatics	3 or 4

CS 482	Simulation	3 or 4
CS 483	Applied Parallel Programming	4
CS 484	Parallel Programming	3 or 4
CS 519	Scientific Visualization	4
CS 554	Parallel Numerical Algorithms	4
CS 555	Numerical Methods for PDEs	4
CS 556	Iterative & Multigrid Methods	4
CS 558	Topics in Numerical Analysis	4
<b>Distributed Systems, Networking, and Security:</b>		
CS 407	Cryptography (Cryptography)	3 or 4
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 431	Embedded Systems	3 or 4
CS 435	Cloud Networking (Cloud Networking)	3 or 4
CS 436	Computer Networking Laboratory	3 or 4
CS 437	Topics in Internet of Things (Topics in Internet of Things)	3 or 4
CS 438	Communication Networks	3 or 4
CS 439	Wireless Networks	3 or 4
CS 460	Security Laboratory	3 or 4
CS 461	Computer Security I	4
CS 463	Computer Security II	3 or 4
CS 483	Applied Parallel Programming	4
CS 484	Parallel Programming	3 or 4
CS 523	Advanced Operating Systems	4
CS 524	Concurrent Progrmg Languages	4
CS 525	Advanced Distributed Systems	4
CS 537	Advanced Topics in Internet of Things (IoT) (Advanced Topics in Internet of Things)	4
CS 538	Advanced Computer Networks	4
CS 562	Advanced Topics in Security, Privacy, and Machine Learning (Advanced Topics in Security, Privacy, and ML)	4
CS 563	Advanced Computer Security	4
<b>Machines:</b>		
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 426	Compiler Construction	3 or 4
CS 431	Embedded Systems	3 or 4
CS 433	Computer System Organization	3 or 4
CS 484	Parallel Programming	3 or 4
CS 523	Advanced Operating Systems	4
CS 526	Advanced Compiler Construction	4
CS 533	Parallel Computer Architecture	4
CS 534	Advanced Topics in Computer Architecture (Advanced Topics in Computer Architecture)	4
CS 536	Fault-Tolerant Dig Syst Design	4
CS 541	Computer Systems Analysis	4
CS 584	Embedded System Verification	4

## Computer Science Advanced Electives

Code	Title	Hours
Students must take for a letter grade a minimum of two (2) advanced elective courses comprising at least six (6) credit hours. These advanced elective courses must be distinct from courses used to satisfy the technical electives. They may be chosen from CS 397 Individual Study and the 400-level coursework offered for letter grade in ANY area offered at the University of Illinois at Urbana-Champaign. It is expected that students will select these additional advanced courses in a way that best augments their program of study. Consultation with a faculty mentors is highly encouraged. A maximum of six (6) credit hours of CS 397 may be used in the combination of technical electives and advanced electives.		6
Total Hours		6

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>3</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>4</sup>		18
Total Hours of Curriculum to Graduate		128

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>4</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Computer Science

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/cs-map/>).

### First Year

First Semester		Hours
CS 100 <sup>1</sup>	Freshman Orientation	1
CS 124	Introduction to Computer Science I	3
ENG 100	Engineering Orientation	0
MATH 221 <sup>2</sup>	Calculus I	4
Science elective <sup>3</sup>		3
RHET 105 (or General Education elective) <sup>4,5</sup>	Writing and Research	4-3
Semester Hours		15-14

### Second Semester

CS 128	Introduction to Computer Science II	3
CS 173	Discrete Structures	3
MATH 231	Calculus II	3
General education elective (or RHET 105) <sup>4,5</sup>		3-4
General education elective <sup>5</sup>		3
Semester Hours		15-16

### Second Year

First Semester		Hours
CS 222	Software Design Lab	1
CS 225	Data Structures	4
MATH 241	Calculus III	4

PHYS 211	University Physics: Mechanics	4
General Education Elective <sup>5</sup>		3
Semester Hours		16
<b>Second Semester</b>		
CS 233	Computer Architecture	4
CS 361	Probability Statistics for Computer Science	3
MATH 257 <sup>6</sup>	Linear Algebra with Computational Applications	3
PHYS 212	University Physics: Elec Mag	4
Free elective		3
Semester Hours		17
<b>Third Year</b>		
<b>First Semester</b>		
CS 210 <sup>7</sup>	Ethical Professional Issues	2
CS 241	System Programming	4
CS 357	Numerical Methods I	3
CS Technical elective <sup>8</sup>		3
Free Elective		4
Semester Hours		16
<b>Second Semester</b>		
CS 374	Introduction to Algorithms Models of Computation	4
CS Technical electives <sup>8</sup>		6
General Education elective <sup>5</sup>		6
Semester Hours		16
<b>Fourth Year</b>		
<b>First Semester</b>		
CS 421	Programming Languages Compilers	3
CS Technical electives <sup>8</sup>		6
General Education electives <sup>5</sup>		3
Free electives		5
Semester Hours		17
<b>Second Semester</b>		
CS Technical electives <sup>8</sup>		9
Free electives		7
Semester Hours		16
Total Hours:		128

<sup>1</sup> This optional course is highly recommended for freshmen, who may use it to help meet free elective requirements.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Students must take one course from the Natural Science & Technology (NST) list, in addition to those taken as part of the General Education Requirements. The course must be one that is allowed for credit by the Grainger College of Engineering.

<sup>4</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>5</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>6</sup> MATH 415 or MATH 416 may be substituted

<sup>7</sup> CS 211 may be substituted. The extra 1 credit hour difference between CS 210 and CS 211 will apply to free electives.

- <sup>8</sup>     *To be chosen from a departmentally approved list (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/bs-computer-science-engineering/#technical-electives>), and to include at least three courses from a single focus area.*

## Learning Outcomes: Computer Science, BS

*Learning Outcomes for the degree of Bachelor of Science Major in Computer Science*

---

By the time of graduation, students will have the ability to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

# Computer Science + Advertising, BS

for the degree of Bachelor of Science Major in Computer Science & Advertising

**computer science degree information:** CS+X Degrees (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)

**advertising department website:** CS+Advertising (<https://media.illinois.edu/degrees-programs/computer-science-advertising/>)

**overview of college admissions & requirements:** College of Media (p. 2089)

**college websites:** <https://media.illinois.edu/> and <https://engineering.illinois.edu>

**advertising email:** [media-ssc@illinois.edu](mailto:media-ssc@illinois.edu)

**computer science email:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu) ([academic@cs.illinois.edu](mailto:academic@cs.illinois.edu))

COMPUTER SCIENCE AND ADVERTISING is sponsored jointly by the Departments of Computer Science and Advertising. This is a program for students who plan to pursue careers in the advertising field with a technology focus. Cloud computing, the availability and ubiquity of data, and the rapid and pervasive adoption of mobile technology have created a paradigm shift in the advertising industry. Projected areas of growth in advertising and communications will be in Search Engine Optimization, web analytics, Computational Advertising, and other emerging areas of technology/media. The degree will prepare students for advanced study at the graduate level as well as immediate entry into the workforce at advertising agencies, businesses with in-house advertising and marketing divisions, and technology companies.

## Programs in Advertising

### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minors:** Public Relations (p. 938) | Media (p. 919)

### Graduate Programs:

**degree:** Advertising, MS (p. 994)

**degree:** Strategic Brand Communication, MS (p. 1797)

for the degree of Bachelor of Science Major in Computer Science & Advertising

Please see a computer science advisor in 1210 Siebel Center, as well as an advertising advisor in the College of Media Student Services Center in 18 Gregory Hall.

A Major Plan of Study Form must be completed and submitted to the Department of Computer Science Office of Undergraduate Affairs by the beginning of the fifth semester (60-75 hours).

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work:** Minimum required major and supporting course work normally equates to 68 hours plus 12 additional hours of College of Media requirements. All campus general education and foreign language requirements must be met. The minimum hours required for graduation is 124. At least 12 hours of 300- and 400-level course work must be taken on this campus, and a minimum of 40 hours of upper-division course work is required.

**Minimum hours required for graduation: 124 hours**

To graduate from the Computer Science & Advertising curriculum, a student must complete the following courses, all of which must be taken for a traditional letter grade.

Code	Title	Hours
<b>Computer Science Core</b>		
CS 124	Introduction to Computer Science I	3
CS 128	Introduction to Computer Science II	3
CS 173	Discrete Structures	3
CS 222	Software Design Lab	1
CS 225	Data Structures	4
CS 240	Introduction to Computer Systems	3
CS 374	Introduction to Algorithms & Models of Computation	4

CS 421	Programming Languages & Compilers	3 or 4
Computer Science Technical Electives: Two 400-level courses chosen in consultation with an advisor. These two courses must be above CS 403, not CS 491, and distinct from all other courses used to fulfill program requirements or options.		6
<b>Mathematical Foundations (also fulfills QR I and II gen eds.)</b>		
MATH 220 or MATH 221	Calculus Calculus I	5
MATH 231	Calculus II	3
MATH 225 or MATH 257	Introductory Matrix Theory Linear Algebra with Computational Applications	2 or 3

## for the degree of Bachelor of Sciences in Liberal Arts & Sciences Major in Computer Science & Anthropology

Please see the computer science advisor as well as the anthropology advisor.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours). Please see the computer science advisor as well as the anthropology advisor.

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 66 hours. Twelve hours of 300- and 400-level Anthropology courses must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
<b>Required Computer Science Coursework</b>		
CS 100	Freshman Orientation (recommended) <sup>1</sup>	1
CS 124	Introduction to Computer Science I	3
CS 128	Introduction to Computer Science II	3
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 222	Software Design Lab	1
Choose one of the following combinations		8-11
CS 233 & CS 241	Computer Architecture and System Programming	
OR		
CS 240	Introduction to Computer Systems	
& two CS courses at the 400 level above CS 403, excluding CS 421 and CS 491		
Choose one of the following:		
STAT 200	Statistical Analysis	
STAT 212	Biostatistics	
CS 361	Probability & Statistics for Computer Science	
CS 374	Introduction to Algorithms & Models of Computation	4
CS 421	Programming Languages & Compilers	3
<b>Mathematics (may also fulfill the General Education Quantitative Reasoning I and II requirements)</b>		
MATH 221 or MATH 220	Calculus I Calculus	4-5
MATH 225 or MATH 257	Introductory Matrix Theory Linear Algebra with Computational Applications	2 or 3
MATH 231	Calculus II	3
<b>Required Anthropology Coursework - Minimum of 24 hours</b>		
<b>Required Foundation Courses. Select at least 4 courses from the following. Students may make one course substitution for one of the required foundation courses, choosing from the option listed.</b>		<b>12-18</b>
ANTH 101	Introduction to Anthropology	

ANTH 110	Humanizing Science
ANTH 220 or ANTH 105	Introduction to Archaeology World Archaeology
ANTH 230 or ANTH 103	Sociocultural Anthropology Anthro in a Changing World
ANTH 240 or ANTH 102	Biological Anthropology Human Origins and Culture
ANTH 270 or ANTH 104	Language in Culture Talking Culture
ANTH 374 or ANTH 372	Anth of Science and Technology Topics in Lang & Culture
<b>Electives (Substitutions with permission of advisor)</b>	
<b>6-9</b>	
ANTH 241	Human Biological Variation
ANTH 268	Images of the Other
ANTH 368	'America' in the World
ANTH 375	The Culture of Nature
ANTH 399	Special Topics (check with advisor for appropriate topics)
ANTH 411	Research Methods in Socio-Cultural Anthropology
ANTH 423	Economic Anthropology
ANTH 453	Landscape Archaeology
ANTH 499	Topics in Anthropology (check with advisor for appropriate topics)
Optional Senior Capstone Project (See advisor for details)	

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

Additional ASTR course(s) at the 300 level or higher		2-3

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

## Learning Outcomes: Computer Science + Astronomy, BSLAS

*Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Computer Science & Astronomy*

---

Undergraduate Computer Science & Astronomy majors will graduate with a demonstrated ability to:

LO1. Understand the hierarchical architecture of the cosmos, increasing in scale from the Solar System to the Galaxy to the Universe, and decreasing in scale to atoms and their nuclei. Understand the interplay among these scales.

LO2. Define and use fundamental principles and techniques of astronomy and astrophysics.

- Identify which principles should be applied to a specified situation
- Show familiarity with astronomical observables and their physical origin.
- Understand and apply basic physics and computational techniques to solve problems in astrophysics, and interpret the results.

LO3. Analyze astronomical data, and quantitative data generally.

- Demonstrate the ability to link observation and theory.
- Demonstrate the ability to draw qualitative conclusions from quantitative information, and vice versa.
- Demonstrate the ability to plan observational programs, use astronomical telescopes and instrumentation, and to analyze and present astronomical data.

LO4. Plan and perform guided research, or attain an advanced-level understanding of a topic of contemporary interest in astronomy and astrophysics.

LO5. Demonstrate the ability to communicate effectively both verbally and in writing.

MATH 231	Calculus II	3

**Required Chemistry Coursework - Minimum of 24 hours****Foundation Courses- 12 hours required**

Select one of the following (General or Accelerated Chemistry): 8

CHEM 102 & CHEM 103 & CHEM 104 & CHEM 105	General Chemistry I and General Chemistry Lab I and General Chemistry II and General Chemistry Lab II	
--	--	--

or

CHEM 202 & CHEM 203 & CHEM 204	Accelerated Chemistry I and Accelerated Chemistry Lab I and Accelerated Chemistry II	
--------------------------------------	--	--

CHEM 232	Elementary Organic Chemistry I	4
or CHEM 236	Fundamental Organic Chem I	

**Advanced Chemistry Courses- 12 hours**

CHEM 440	Physical Chemistry Principles	4
or CHEM 442	Physical Chemistry I	

In consultation with an advisor, choose 8 hours of 300- or 400- level chemistry courses <sup>2</sup> 8

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

<sup>2</sup> The following courses may not be used to complete the advanced chemistry hours: CHEM 315, CHEM 397, CHEM 445, CHEM 447, CHEM 492, CHEM 494, CHEM 496, CHEM 497 and CHEM 499; and any course in another unit, such as any BIOC or MCB course.

## Learning Outcomes: Computer Science + Chemistry, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Computer Science and Chemistry

By the time of graduation, students will have:

**Computer Science:**

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
4. An ability to function effectively on teams to accomplish a common goal
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. A recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity

**Chemistry:**

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the sub-fields of chemistry, including analytical, inorganic, organic and physical chemistry.

3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

# Computer Science + Crop Sciences, BS

for the degree of Bachelor of Science Major in Computer Science & Crop Sciences

**crop sciences department website:** <https://cropsciences.illinois.edu/>  
**computer science degree information:** <https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs#requirements> (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college websites:** <https://aces.illinois.edu/> and <https://engineering.illinois.edu>  
**computer science contact:** [undergrad@cs.illinois.edu](mailto:undergrad@cs.illinois.edu) ([academic@cs.illinois.edu](mailto:academic@cs.illinois.edu))  
**crop sciences contact:** [ugrad@cropsciences.illinois.edu](mailto:ugrad@cropsciences.illinois.edu)

Computer Science + Crop Sciences (CS+CPSC) is a first-of-its-kind partnership between The Grainger College of Engineering's Department of Computer Science and the Department of Crop Sciences in the College of Agricultural, Consumer and Environmental Sciences.

Our growing population and changing climate demand out-of-the-box, multidisciplinary thinkers who can handle increasingly rich data sets. CS +CPSC students fill this crucial gap in the agriculture sector, combining a strong technical background with crop sciences expertise powerful enough to change the world.

Students will be among the first to analyze robotics-enabled soil and field measurements, predict weather and climate impacts on food supplies, and accelerate plant improvement through the simultaneous analysis of genetics, environment, and management.

for the degree of Bachelor of Science Major in Computer Science & Crop Sciences

Please see the Computer Science advisor in 1210 Siebel Center, as well as the Crop Sciences advisor in AE-116 Turner Hall.

To graduate from the Computer Science and Crop Sciences curriculum, a student must complete the following courses, all of which must be taken for a traditional letter grade.

Code	Title	Hours
<b>Composition I and Speech</b>		<b>6-7</b>
RHET 105 & CMN 101	Writing and Research and Public Speaking	
OR		
CMN 111 & CMN 112	Oral & Written Comm I and Oral & Written Comm II	
<b>Advanced Composition</b>		
Select from campus-approved list.		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		0-15
<b>Quantitative Reasoning I</b>		
See Mathematical Foundations for specific requirement.		3
<b>Quantitative Reasoning II</b>		
See Mathematical Foundations for specific requirement.		3
<b>Natural Sciences and Technology</b>

TRST 415	Machine Translation: History and Applications	
LING 490	Special Topics in Linguistics (Check with advisor for appropriate topics. May be repeated to meet this requirement if topics vary)	
CS 446	Machine Learning	
<b>Linguistics Breadth Course</b>		<b>3</b>
Any 200-level or higher Linguistics Course (with the exception of ESL and language courses)		

- <sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

## Learning Outcomes: Computer Science + Linguistics, BSLAS

### *Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Computer Science & Linguistics*

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline.
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution.
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
4. An ability to function effectively on teams to accomplish a common goal.
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. A recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity
12. An ability to apply knowledge of linguistics appropriate to the discipline.
13. An ability to analyze a problem, and identify and define the computing as well as the linguistics requirements appropriate to its solution.
14. An ability to design, implement, and evaluate a computational linguistics-based system, process, component, or program to meet desired text processing needs.
15. An ability to analyze the local and global impact of computing, language, as well as language technologies on individuals, organizations, and society.
16. An ability to use current linguistics and computational techniques, skills, and tools necessary for computational linguistics practice.
17. An understanding of Linguistics and Computer Science sufficient to be able to apply computational processes to solve problems naturally arising in language.

# Computer Science + Music, BS

for the degree of Bachelor of Science in Computer Science and Music

**Computer Science "CS + X" degree information:** <https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs#requirements> (<https://cs.illinois.edu/academics/undergraduate/degree-program-options/cs-x-degree-programs/#requirements>)

**School of Music website:** <https://music.illinois.edu/>

**Overview of Music Admissions & Requirements:** <https://music.illinois.edu/application-process> (<https://music.illinois.edu/application-process/>)

**Music Admissions email:** [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)

The Bachelor of Science in Computer Science & Music (CS + Music) is designed for students who plan to pursue a career in music technology, as well as students who want to push the state-of-the-art in music composition and explore new avenues of expression. This degree will prepare students for advanced study at the graduate level for many existing programs in music and audio technology, as well as equip them with the proper skills to successfully join and lead a vibrant workforce centered around the creation and distribution of entertainment media through constantly evolving technological platforms.

The CS + Music curriculum provides a broad knowledge of the theory, design, and application of computer systems integrated with the theory, history, and application of music. The curriculum is formed around courses in music, mathematics, science, and computation. Advanced coursework includes either a senior thesis or a senior project. A minimum of 120 hours is required for graduation.

For admission requirements for the Bachelor of Science in CS + Music, please see the School of Music's Admissions website (listed above) or contact the Music Admissions Office:

Music Admissions Office  
School of Music  
1114 West Nevada Street  
Urbana, IL 61801  
(217) 244-7899

In consultation with an advisor, choose at least 9 additional hours of coursework in philosophy, with at least 6 of those hours being at the 300- or 400-level.		9
Total Hours		68-74

<sup>1</sup> CS 100 is an orientation course aimed at first-year students, so students who declare the major after the freshman year are not required to complete it.

## Crafts, BFA

for the Bachelor of Fine Arts Major in Crafts

### No longer accepting students: Fall 2020

**department website:** <https://art.illinois.edu>

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select a concentration:

Metals Concentration (p. 254)

## Crafts: Metals, BFA

for the Bachelor of Fine Arts Major in Crafts, Metal Concentration

### No longer accepting students: Fall 2019

**department website:** <https://art.illinois.edu>

**department faculty:**

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

The curriculum in Crafts consists of a concentration in Metal. The BFA program focuses on the development of individual artistic and design capabilities, critical perceptions, and the mastery of comprehensive technical skills. The program emphasizes strengths in conceptual and material specialization. The curriculum supports professional training for the self-sustaining visual artist and provides the skills necessary for students to pursue an advanced degree in the arts. The curriculum in Crafts requires 122 credit hours.

for the Bachelor of Fine Arts Major in Crafts, Metal Concentration

A portfolio review is required for admission to the School of Art and Design.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Some Art and Design courses will also apply toward the General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements.**

## Learning Outcomes: Metals Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Crafts: Metal Concentration

1. the ability to conceive of, design, problem solve, execute, analyze, and critique utilitarian and non-utilitarian objects;
2. the ability to employ and demonstrate technical competency in the making of jewelry, hollowware, and objects using traditional and new approaches in a wide variety of materials;
3. the ability to demonstrate a knowledge of historical and contemporary metalwork practice;
4. the ability to recognize and use jewelry design and metalworking terminology;
5. the ability to apply the elements and principles of two and three-dimensional design to the making of jewelry, hollowware, objects;
6. the ability to create original utilitarian and non-utilitarian objects;
7. the ability to apply critical thinking when analyzing objects;
8. the ability to demonstrate a higher level of perceptual awareness;
9. the ability to demonstrate confidence in and strategies toward individual creativity;
10. the ability to demonstrate a knowledge of safe and effective lab processes.

## Undergraduate Degree Programs in English

### Majors:

English, BALAS (p. 330) with concentrations:

English, English Concentration, BALAS (p. 330)

English, English Teaching Concentration, BALAS (p. 331)

English, Topics in English Concentration, BALAS (p. 333)

Creative Writing, BALAS (p. 256)

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Creative Writing

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements.

**Minimum required coursework** equates to 36 hours in CW and ENGL courses. Twelve hours of 300- or 400-level courses in the major must be taken on this campus, of which at least three (3) hours must be Creative Writing Courses CW 404CW 406

### Minimum hours required for graduation: 120 hours

Code	Title	Hours
<b>Major Requirements</b>		
<b>Literature for Creative Writers</b>		<b>6</b>
CW 100	Intro to Creative Writing	
CW 200	Reading for Writers	
<b>Craft</b>		<b>3</b>
CW 243	The Craft Essay: Creative Reading, Reflection, and Revision	
<b>Creative Writing Workshops</b>		<b>12</b>
12 hours of Creative Writing Workshops, including at least one of the following		
3-course (9-hour) Workshop sequences:		
CW 106 & CW 206 & CW 406	Poetry Workshop I and Poetry Workshop II and Poetry Workshop III	
or		
CW 104 & CW 204 & CW 404	Fiction Workshop I and Fiction Workshop II and Fiction Workshop III	
The remaining 3 hours in this category can be satisfied by a fourth CW Workshop outside of the chosen sequence. <sup>1</sup>		
<b>Writing and Literature</b>		<b>3</b>
3 hours of Writing and Literature coursework, either:		
3 hours of non-Workshop CW coursework (CW 460, or another approved non-Workshop CW course) <sup>2</sup>		
or		
3 hours of ENGL coursework <sup>3</sup>		
<b>Additional Literature Coursework</b> <sup>4</sup>		<b>12</b>
12 additional hours of approved ENGL coursework, including:		
9 hours of approved ENGL Literature coursework <sup>5</sup>		

3 hours of an ENGL Difference & Diaspora course<sup>6</sup>

Total Hours

36

- <sup>1</sup> CW 404 and CW 406 may be repeated once for credit, but may not be repeated to fulfill this requirement.
- <sup>2</sup> Some sections of CW 199, CW 202, and CW 463 may or may not count as a non-Workshop class, depending on the topics offered in a given semester.
- <sup>3</sup> These hours must be taken at the 200-level or above.
- <sup>4</sup> A maximum of 3 hours of 100-level coursework may be counted towards the Additional Literature Coursework requirement.
- <sup>5</sup> Chosen from a list maintained by the Creative Writing Program and the English Advising Office.
- <sup>6</sup> Chosen from the *Difference & Diaspora* list maintained by the English Program and the English Advising office.

## Learning Outcomes: Creative Writing, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Creative Writing

1. **Concepts:** Students will identify, analyze, and use the elements of literary craft appropriate for their chosen writing genre.
2. **Writing:** Students will develop a personal style, apply craft techniques that they learn during workshops, and choose from several strategies to revise written work.
3. **Workshop:** Students will identify and learn to use the most effective workshop practices. They will learn how to critique the written work of their peers, both orally and in writing, in constructive and mutually beneficial ways.
4. **Reading:** Students will read, analyze, and evaluate contemporary and other literature from the perspective of literary craft and the study of creative writing.
5. **Literary Community and Profession:** Students will learn to evaluate, discuss, and research contemporary literary publishing and editing.

# Crop Sciences, BS

for the degree of Bachelor of Science Major in Crop Sciences

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of these concentrations:

- Agroecology Concentration (p. 258)
- Biological Sciences Concentration (p. 259)
- Crop Agribusiness Concentration (p. 260)
- Crops Concentration (p. 262)
- Horticultural Food Systems Concentration (p. 264)
- Plant Biotechnology and Molecular Biology Concentration (p. 266)
- Plant Protection Concentration (p. 269)

## Crop Sciences: Agroecology, BS

for the degree of Bachelor of Science Major in Crop Sciences, Agroecology Concentration

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The Agroecology Concentration addresses ecologically based management of cropping systems, stewardship of the environment, and sustainable food production systems. The intersection between crop plants and their environment is emphasized in this concentration. Graduates of the Agroecology concentration are prepared for careers in integrated plant health management, government regulatory and environmental agencies or for entrance into graduate or professional school.

for the degree of Bachelor of Science Major in Crop Science, Agroecology Concentration

### Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
RHET 105	Writing and Research	4
or equivalent - see College Composition I requirement (3 or 4)		
CMN 101	Public Speaking	3
<b>Advanced Composition</b>		
Select from campus approved list.		3-4
<b>Cultural Studies</b>		

Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. 9

#### Foreign Language

Coursework at or above the third level is required for graduation.

#### Quantitative Reasoning I

Select one of the following: 4-5

MATH 220 Calculus

MATH 221 Calculus I

MATH 234 Calculus for Business I

#### Quantitative Reasoning II

CPSC 241 Intro to Applied Statistics 3

#### Natural Sciences and Technology

See Specific Concentration Requirements

#### Humanities and the Arts

Select from campus approved list 6

#### Social and Behavioral Sciences

ACE 100 Introduction to Applied Microeconomics <sup>1</sup> 3-4  
or ECON 102 Microeconomic Principles

Select from campus approved list. 3-4

#### ACES required

ACES 101 Contemporary Issues in ACES 2

**Required Concentration** 58-79

Concentration prescribed courses. See specific concentration requirements.

**Total Hours** 126

<sup>1</sup> ACE 100 or ECON 102 are not required for the Biological Sciences Concentration.

## Agroecology Concentration Requirements

Code	Title	Hours
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4

## Crop Sciences: Biological Sciences, BS

for the degree of Bachelor of Science Major in Crop Science, Biological Sciences Concentration

**department website:** <https://cropsciences.illinois.edu/>  
**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>  
**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)  
**college website:** <https://aces.illinois.edu/>

### No longer accepting applications Fall 2022 - See Agronomy, BS (p. 84)

The biological sciences concentration is designed for students who plan to enter a graduate study program or who want professional positions that require more science than is included in the other concentrations. Students follow a first-year program of General Education courses similar to students in other Crop Sciences concentrations. Programs for the second, third, and fourth years are planned in consultation with the student's faculty advisor, in the area of biological sciences. Students and advisors are encouraged to consult individual graduate schools for the specific entrance requirements. Although flexibility in individual course selection is a characteristic of this concentration, graduation requirements are established by selection of elective courses.

## Crop Sciences: Crop Agribusiness, BS

for the degree of Bachelor of Science Major in Crop Sciences, Crop Agribusiness Concentration

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The concentration in crop agribusiness is designed for students wanting to combine agronomic production and business management. This concentration prepares students for careers in production and marketing, cropping systems management, and a broad range of multi-functional agricultural enterprises, or for entrance into graduate school.

## Crop Sciences: Horticultural Food Systems, BS

for the degree of Bachelor of Science Major in Crop Science, Horticultural Food Systems Concentration

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunittext>)

**college website:** <https://aces.illinois.edu/>

This concentration provides students with a strong foundation in plant sciences along with specialized knowledge in horticultural fruit and vegetable crop systems at urban, local, and commercial scales. Graduates from this program are prepared for careers as crop consultants, crop protection and

production specialists; entrepreneurs in urban and local food systems; greenhouse or farm managers; and as community gardening and horticultural educators. This concentration will also prepare students for graduate studies leading to careers in research, extension, and education. A minimum of 126 total hours is required.

## Crop Sciences: Plant Biotechnology and Molecular Biology, BS

for the degree of Bachelor of Science Major in Crop Sciences, Plant Biotechnology and Molecular Biology Concentration

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty/> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

**This program will no longer accept applications: Spring 2022**  
**Please see our new major: Plant Biotechnology, BS (p. 607)**

The plant biotechnology and molecular biology concentration provides a curriculum that prepares students for careers in biotechnology or for entrance into graduate or professional school. The basic sciences are emphasized, including a strong foundation in biology and genetics. Students are encouraged to participate in undergraduate independent study in a molecular biology laboratory. For those who wish to pursue graduate work later, adequate preparation may be obtained by suitable choices of electives within the framework of this concentration.

## Crop Sciences: Plant Protection, BS

for the degree of Bachelor of Science Major in Crop Sciences, Plant Protection Concentration

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty> (<https://cropsciences.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

### No longer accepting applications Fall 2022 - See Agronomy, BS (p. 84)

The plant protection concentration provides a broad selection of courses in crops, soils, plant diseases, insects and weeds, and the physical sciences. Students learn how to protect plants from the effects of diseases, insects, and weeds. This concentration is designed to prepare students for careers in crop consulting, integrated pest management, and agribusiness management and merchandising, or for entrance into a graduate program.

<b>Cultural Studies</b>		

Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. 9

### Foreign Language

Coursework at or above the third level is required for graduation.

### Quantitative Reasoning I

Select one of the following: 4-5

MATH 220	Calculus
MATH 221	Calculus I
MATH 234	Calculus for Business I

### Quantitative Reasoning II

CPSC 241 Intro to Applied Statistics 3

### Natural Sciences and Technology

See Specific Concentration Requirements

### Humanities and the Arts

Select from campus approved list 6

### Social and Behavioral Sciences

ACE 100 Introduction to Applied Microeconomics <sup>1</sup> 3-4  
or ECON 102 Microeconomic Principles

Select from campus approved list. 3-4

### ACES required

ACES 101 Contemporary Issues in ACES 2

### Required Concentration 58-79

Concentration prescribed courses. See specific concentration requirements.

**Total Hours 126**

<sup>1</sup> ACE 100 or ECON 102 are not required for the Biological Sciences Concentration.

Code	Title	Hours
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4
CHEM 232 or CPSC 382	Elementary Organic Chemistry I Organic Chem of Biol Processes	3-4
IB 103	Introduction to Plant Biology	4
Select one of the following:		4-5
MCB 100 & MCB 101	Introductory Microbiology and Intro Microbiology Laboratory	
IB 104	Animal Biology	
<b>Plant Protection Concentration Required</b>		
CPSC 112	Introduction to Crop Sciences	4
CPSC 226		3

NRES 201	Introductory Soils	4
NRES 488	Soil Fertility and Fertilizers	3
PLPA 204		3
Select one of the following:		3-4
ANSC 100	Intro to Animal Sciences	
HORT 100	Introduction to Horticulture	
FSHN 101	The Science of Food and How it Relates to You	

NRES 102	Introduction to NRES	
TSM 100	Technical Systems in Agr	
Select one of the following:		2-3
CPSC 418	Crop Growth and Management	
HORT 361	Small Fruit Production	
HORT 362	Tree Fruit Production	
Select 12 hours from the following:		12
CPSC 426	Weed Mgt in Agronomic Crops	
CPSC 431	Plants and Global Change	
CPSC 473	Mgmt of Field Crop Insects	
CPSC 475	Insect Pathology	
IB 444	Insect Ecology	
IB 468	Insect Classification and Evol	
IB 482	Insect Pest Management	
PLPA 403	Advanced Plant Pathology	
PLPA 407		
TSM 465	Chemical Applications Systems	

Total ACES prescribed and elective courses must total 35 hours, of which 20 must be completed in residence.

35

## Learning Outcomes: Crop Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Crop Sciences

---

Students graduating with the B.S. in Crop Sciences should be able to:

1. Demonstrate knowledge in the key subject matter areas of applied plant biology; crop growth and development; crop management and protection; and soil science.
2. Demonstrate an ability to identify a problem and develop solutions using quantitative reasoning skills for analysis of biological data.
3. Demonstrate oral and written communication skills necessary to listen and make effective arguments, to share applied scientific concepts with the public, and to make use of a broad variety of media.
4. Demonstrate an ability to lead and function in multidisciplinary teams.
5. Demonstrate the ability to perform self-guided discovery in agricultural sciences, practicing skills of engagement to enhance intellectual curiosity.

# Dance, BA

## for the degree of Bachelor of Arts Major in Dance

**department website:** <http://dance.illinois.edu/>

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

**email:** [dance@illinois.edu](mailto:dance@illinois.edu)

The BA curriculum in dance is designed to provide an integrated and individualized approach to undergraduate studies of dance. The degree is designed for students who want to explore interdisciplinary approaches to art-making, and/or simultaneously pursue a minor or major in another discipline. Students will study three core areas in Dance: Technique, Creative Process, and Dance Academics. Students will identify at least one other key area of interest such as Theater, Music, Anthropology, Business, Art & Design, Environment, Film, Gender Studies, Cultural Studies, etc., and will choose a Major, Minor or Focused Electives in this area of study under consultation with an advisor. Under the mentorship of a faculty member, students will create a BA Capstone Project in their senior year as a synthesis of the studies within dance and another area of study.

Students pursuing a Dance degree at the University of Illinois must be admitted to the BFA in Dance (audition required). Once admitted, those desiring a broader education may choose to apply for admittance into the BA in Dance, rather than continuing in the BFA.

<b>Hours in non-Dance classes, chosen in consultation with an advisor</b>		<b>15</b>
<b>Open electives as needed to total 120 hours minimum</b>		<b>120</b>

<sup>1</sup> DANC 160 and 260 must be taken for at least 4 hours each but are repeatable beyond 4 hours.

<sup>2</sup> Students will enroll in one credit hour of DANC 497, BA Capstone Project in fall of their senior year and two credit hours of DANC 497 in spring of their senior year for a total of three credit hours.

## Learning Outcomes: Dance, BA

Learning outcomes for the degree of Bachelor of Arts Major in Dance

---

Upon graduation the BA student will be able to:

1. Dance with physical, technical and performance skills.
2. Utilize knowledge of anatomical and somatic approaches in theory and practice.
3. Engage in creative processes and collaborate across domains.
4. Produce a capstone project that reflects synthesis of studies in dance and other fields.
5. Employ diverse modes of thinking, both orally and in writing, to communicate ideas relating to dance and other fields.
6. Demonstrate critical self-reflection, curiosity, self-motivation, and entrepreneurial spirit in creative processes and final products.

# Dance, BFA

## for the degree of Bachelor of Fine Arts Major in Dance

**department website:** <http://dance.illinois.edu/>

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

**email:** [dance@illinois.edu](mailto:dance@illinois.edu)

The BFA curriculum in dance is an intensive program of study for the dedicated student, offering coursework in the areas of technique, composition, and performance. The curriculum also includes requirements in production, improvisation, music theory and literature for dance, teaching, history, movement sciences, and repertory. Electives may be taken in additional ballet and modern classes, tap, jazz, improvisation, contact improvisation, global dance forms, yoga, Alexander Technique, partnering and Laban movement analysis, Labanotation, screendance, choreographer-composer workshop, dance technology, and independent study.

Program requirements include core daily technique classes consisting of three modern and two ballet classes per week each semester in residence, plus elective technique classes for a minimum of one additional credit hour per semester. A minimum of two courses in additional dance forms (jazz, tap, world dance, etc.) is required. Majors must achieve the advanced technical level in modern and the intermediate level in ballet for a minimum of two semesters prior to graduation. The improvisation/composition sequence consists of a minimum of 11 hours of studio courses culminating in the performance of a senior choreographic project. A minimum of 6 hours of credit is required in performance/repertory courses. The curriculum includes as much as 20 hours of credit in professional electives, which may be taken in professional dance courses and/or related arts and sciences.

Evaluation of majors is an ongoing process. Continued enrollment in the program is contingent upon satisfactory performance. A student is expected to maintain a minimum 2.75 grade point average in all professional course work and a 3.0 cumulative average in studio classes in order to remain in good standing in the department.

It is possible for transfer students to complete degree requirements in a three-year period contingent upon prior completion of general education requirements and the fulfillment of the advanced technique requirement for two semesters prior to graduation.

A total of 130 hours is required for this degree.

for the degree of Bachelor of Fine Arts Major in Dance

### Minimum hours for graduation: 130 hours.

Code	Title	Hours
<b>General Education Requirements</b>		
Composition I		4-6
Advanced Composition		3-4
Humanities & the Arts		6-8
Social & Behavioral Sciences		6-8
Cultural Studies: Non-Western Cultures		3-4
Cultural Studies: U.S. Minority Cultures		3-4
Cultural Studies: Western/Comparative Culture(s)		3-4
Natural Sciences & Technology		6-10
Quantitative Reasoning		6-9

The Language Requirement may be satisfied by:

- Successfully completing a third-semester college-level course in a language other than English;
- Successful completion, in high school, of the third year of a language other than English; or
- Demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

### Foundation Courses

FAA 101	Arts at Illinois	1
DANC 150	Orientation to Dance	2

Code	Title	Hours
<b>Technique/Physical Practice</b>		<b>32</b>

Four credit hours per semester, to include core technique classes each semester in residence, consisting of three modern and two ballet classes per week (3 hours of credit), plus elective technique courses for a minimum of one additional credit hour per semester.

DANC 160	Beg Contemp Modern Tech Core	1 to 3
DANC 166	Beginning Ballet Tech Core	1 or 2
DANC 167	Beginning Ballet Tech Elect	1 or 2
DANC 210	Int Jazz Technique	1
DANC 211	Int Hip Hop Technique	1
DANC 215	Int Tap Dance Technique	1
DANC 260	Int Contemp Modern Tech Core	1 to 3
DANC 261	Int Contemp Modern Tech Elect	1 to 3
DANC 256	Choreographic Laboratory Intermediate	1 to 2
DANC 266	Intermediate Ballet Tech Core	1 or 2
DANC 267	Intermediate Ballet Tech Elect	1 or 2
DANC 360	Int/Adv Contemp Mod Tech Core	1 to 3

DANC 461	Adv Contemp Modern Tech Elect	1 to 3
DANC 466	Advanced Ballet Tech Core	1 to 3
DANC 467	Advanced Ballet Tech Elect	1 to 3

A minimum of two courses (two credit hours) from the following list:

DANC 210	Int Jazz Technique
DANC 211	Int Hip Hop Technique
DANC 212	Musical Theater Dance
DANC 215	Int Tap Dance Technique
DANC 310	Dancing Techniques/Dance Majors:
DANC 410	Advanced Jazz Technique
DANC 411	Adv Hip Hop Technique

#### **Creative Process/Performance and Production 17-20**

Choose 1 of the following Improvisation courses:

DANC 259	Contact Improvisation for Actors, Musicians and Dancers	1
----------	---	---

Creative Process:

DANC 262	Choreographic Process I	2
----------	-------------------------	---

Choose a minimum of 3 courses from the following Advanced Creative Process courses. Courses listed below are repeatable:

DANC 362	Choreographic Process II
DANC 363	Advanced Improvisation
DANC 464	Composer-Chor Workshop
DANC 465	Screendance

Choose 6 hours from the following Performance courses: <sup>1</sup>

DANC 220	Perf Pract Student Works I
DANC 221	Performance in Grad Thesis I
DANC 222	Perf Pract November I
DANC 223	Perf Pract February I
DANC 232	Repertory Company
DANC 420	Perf Pract Student Works II
DANC 421	Performance in Grad Thesis II
DANC 422	Perf Pract November II
DANC 423	Perf Pract February II
DANC 424	Collaborative Performance

Production

DANC 375	Production in Dance	1
Choose 4 hours from the following Production courses:		
DANC 131	Production Practicum I	
DANC 231	Production Practicum II	
DANC 330	Dance Documentation	
DANC 331	Production Practicum III	
DANC 431	Production Practicum IV	
<b>Dance Academics</b>		<b>20</b>
Dance history/theory		
DANC 240	Dance History	3
Select one of the following:		
ANTH 363	Anth of Dance/Movement	
DANC 340	Dancing Black Popular Culture	
DANC 441	Dance History Seminar	
Six hours of Music for Dance courses:		
DANC 268	Music Theory for Dancers	3
Select one of the following (all meet a general education requirement):		
MUS 130	Music Then and Now	
MUS 132	Popular Music Studies	
MUS 133	Introduction to World Music	
Four hours of Dance Sciences courses:		
DANC 245	Introduction to Somatics	1
DANC 345	Dance Anatomy and Kinesiology	3
Choose 3 hours from the following Dance Education courses:		
DANC 350	Creative Dance for Children	
DANC 450	Teaching Workshop	
Current issues and topics		
DANC 495	Senior Career Seminar	1
<b>Senior Capstone Project</b>		<b>4</b>
DANC 498	Senior Thesis Production	1 or 2
DANC 499	Senior Thesis Project	1 to 2
<b>Professional Electives <sup>2</sup></b>		<b>6-9</b>
Focused Electives, chosen in consultation with an advisor. Additional courses in dance such as technique, choreography, performance, "non-categorized" courses in dance, coursework in Music, Theater, or Art.		
<b>Electives as needed to reach a minimum of 130 hours</b>		<b>130</b>

<sup>1</sup> A maximum of 16 hours may be accumulated toward degree requirements in DANC 220, DANC 221, DANC 222, DANC 223, DANC 420, DANC 421, DANC 422, DANC 423.

<sup>2</sup> A minimum of 6 - 9 hours must be taken in the area of professional electives, to bring total of Dance courses to 84 hours. It is strongly recommended that dance majors consider taking theatre/arts courses outside of the Department of Dance offerings.

## Learning Outcomes: Dance, BFA

Learning outcomes for the degree of Bachelor of Fine Arts Major in Dance

Upon graduation the BFA student will be able to:

1. Dance with substantial physicality, exhibiting technical and performance skill, musicality, and creativity.
2. Utilize knowledge of anatomical and somatic approaches in theory and practice.
3. Locate a creative process, conduct choreographic inquiries, and produce a well-conceived dance work for a performance event.

4. Teach a well-structured movement class with an understanding of pedagogical principles.
5. Employ diverse modes of thinking, both verbally and in writing, to communicate ideas relating to dance.
6. Understand basic technology and its application to dance making, teaching, research, and public relations.

## Dance, BA & Kinesiology, BS

*for the dual degree of Bachelor of Arts Major in Dance and the Bachelor of Science, Major in Kinesiology*

**Dance Department Website:** <http://dance.illinois.edu/>  
**Kinesiology & Community Health Department Website:** <http://www.kch.illinois.edu/>  
**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**FAA college website:** <https://faa.illinois.edu/>  
**AHS College Website:** <https://www.ahs.illinois.edu/>  
**Dance email:** [dance@illinois.edu](mailto:dance@illinois.edu)

For further information regarding the dual degree opportunity or admissions, please contact the department of dance at [dance@illinois.edu](mailto:dance@illinois.edu)

The BA curriculum in dance is designed to provide an integrated and individualized approach to undergraduate studies of dance. The degree is designed for students who want to explore interdisciplinary approaches to art-making, and simultaneously pursue a major or minor in other discipline. Students will study three core areas in Dance: Technique, Creative Process, and Dance Academics. The key other area of interest for this Dual Degree Pathway is Kinesiology. Under the mentorship of a faculty member, students will create a BA Capstone Project in their senior year as a synthesis of the studies within dance and another area of study.

Students pursuing a Dance degree at the University of Illinois must be admitted to the BFA in Dance (audition required). Once admitted, those desiring a broader education may choose to apply for admittance into the BA in Dance, rather than continuing in the BFA.

The Kinesiology curriculum leads to a bachelor of science degree that will prepare students for careers in human movement-related fields and/or advanced professional or graduate study. The undergraduate program provides the student with a broad general education, a departmental core integral to the understanding of the diverse aspects of human movement, and a correlate area of courses specific to the student's area of concentration within Kinesiology, which in this Dual Degree Pathway is Dance.

### ***for the dual degree of Bachelor of Arts Major in Dance and the Bachelor of Science, Major in Kinesiology***

Students are expected to follow all the degree requirements of each degree and may double-count courses, provided the total number of credit hours earned is 158.

## Curriculum Preparatory to Early Childhood School Teaching

This program prepares student candidates to teach birth to grade 2. A minimum of 120 semester hours of credit is necessary for graduation<sup>1</sup>.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education (<http://www.cote.illinois.edu/>).

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

This is a Gateways to Opportunity (<http://www.ilgateways.com/en/>) approved program.

<b>Total minimum hours for degree</b> <sup>6</sup>		<b>120</b>

<sup>1</sup> Required to meet ISBE Science requirement. Exclusions apply including, but not limited to: Horticulture, Dance, and Urban Planning. Must be a science rubric. Consult with advisors for further information.

<sup>2</sup> Courses must be selected from a College of Education approved list ([http://education.illinois.edu/docs/default-source/saao-documents/ece-earth\\_space-recommended.pdf?sfvrsn=0](http://education.illinois.edu/docs/default-source/saao-documents/ece-earth_space-recommended.pdf?sfvrsn=0)).

<sup>3</sup> Across these gen ed categories, students will need to take at least one course from each of the following four different rubrics: ECON, GEOG, HIST, PS to meet the ISBE Social Science requirement.

<sup>4</sup> A maximum of six hours of upper-level ROTC coursework can count toward the degree as free electives.

<sup>5</sup> PSYC 100 is a prerequisite for EPSY 201.

<sup>6</sup> The total hours required for the degree may be higher for students who have not already completed the language other than English requirement.

## Learning Outcomes: Early Childhood Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Early Childhood Education

1. Students will acquire deep knowledge of child development as it relates to the field of Education.
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction children from infancy to age eight.
3. Students will use assessment data to drive decisions and solve problems in and out of the classroom.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices)

## Earth, Society, & Environmental Sustainability, BSLAS

for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability

**school website:** <https://www.earth.illinois.edu/>

**school faculty:** Earth, Society & Environment Faculty (<https://earth.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**E-mail:** [sese-info@illinois.edu](mailto:sese-info@illinois.edu)

Students select one concentration in consultation with an academic advisor:

- Science of the Earth System (SES) Concentration (p. 281)
- Society and the Environment (SAE) Concentration (p. 282)

**On-campus UIUC students** can transfer to this degree without any special requirements.

**Off-campus students** who plan to transfer to this degree should have completed, or have in progress, the following:

- the Composition 1 requirement.
- the third level of high school foreign language or second level of college foreign language.

It is highly recommended that off-campus students complete the following requirements before transferring to the online degree - students who have not completed the following requirements may have to take additional coursework (either at UIUC or elsewhere) and should consult the program advisor:

- the UIUC LAS language requirement should be satisfied.
- the General Education Distribution Requirements of the College of Liberal Arts and Sciences should be completed.
- the Cognate Coursework should be completed.

## Earth, Society, & Environmental Sustainability: Science of the Earth System (SES), BSLAS

*for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability, Science of the Earth System Concentration*

**department website:** <https://www.earth.illinois.edu/>

**department faculty:** Earth, Society & Environment Faculty (<https://earth.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**E-mail:** [sese-info@illinois.edu](mailto:sese-info@illinois.edu)

All students wishing to attend graduate school in any field should discuss necessary supplementary course work with their advisor as early as possible.

A Major Plan of Study form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Study abroad courses may be substituted for major and minor requirements with approval of advisor.

Departmental distinction: Students who maintain grade point averages of at least 3.3 in all courses within the major and who undertake a faculty-guided individual research project for credit in the major are recommended for graduation with distinction.

*for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability, Science of the Earth System Concentration*

All students wishing to attend graduate school in any field should discuss necessary supplementary course work with their advisor as early as possible.

A Major Plan of Study form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Study abroad courses may be substituted for major and minor requirements with approval of advisor.

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone.

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone.

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone.

**ESE Core Requirements:**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 48-58 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus. Substitutions may be made with advisor approval.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
ESES Introductory Core: Students take one approved introductory or advanced course from at least four of the following five areas. Approved courses within these areas are available from the ESE advisor <sup>1</sup>		12-14
	Environment and the Human Response	
	Sustainability, Policy, and Global Change	
	Earth's Physical Systems, Resources, and Hazards	
	Visualizing the Earth System	
	Earth's Biosphere and Ecology	
ESE coursework		6
GEOG 379	Intro to GIS Systems	
ESE 200	Earth Systems	
Advanced Courses		15-20
A minimum of five 300- and 400-level courses, from the approved list and in an academically coherent program approved by the advisor, are required. At least three of these five advanced courses must be listed or cross-listed as an ESE or ENSU course. Courses taken to satisfy the "ESE Introductory Core" requirement cannot simultaneously be used to satisfy the Advanced Course requirement. These courses should be used to help meet the LAS requirement of 21 hours of 300- or 400-level courses overall, and the 12 hours of 300- or 400- level courses in the major. It is strongly recommended that students complete the LAS requirement with 21 hours of 300- or 400-level courses related to the ESE curriculum.

Code	Title	Hours
Cognate Course Work		16-18
10-12 hours-Introductory Social Science (Select three courses from approved list)		
3 hours-Statistics (Select one course from approved list)		
3 hours-Economics: ECON 102		
Highly recommended: CHEM 101 or CHEM 102		

## **Learning Outcomes: Earth, Society, & Environmental Sustainability, BSLAS**

*Learning Outcomes for the degree of Bachelor Science in Liberal Arts and Sciences Major in Earth, Society, & Environmental Sustainability*

---

1. Be able to recognize, critique and implement commonly accepted Sustainability models and ideas in a wide variety of settings, using systems thinking to link social and natural science concepts.
2. Have a fundamental understanding of the underlying natural science (SES concentration) or social science (SAE concentration) concepts; being able to recognize and apply appropriate scientific methods (SES concentration) and social science methods (SAE concentration).
3. Use quantitative methods to describe, understand and evaluate theoretical and applied issues in environmental and sustainability study; this includes direct calculation, working with data, and using quantitative models.
4. Be able to critically evaluate and then communicate environmental and sustainability concepts to both specialized and wide audiences.
5. Prepare students for professional work in environmental and sustainability practice, such as laboratory and field techniques, apprehending and implementing Geographic Information Sciences (including the use of appropriate software), and quantitative and qualitative methods.

# East Asian Languages & Cultures, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences : Major in East Asian Languages & Cultures

**department website:** <https://ealc.illinois.edu/>

**department faculty:** East Asian Languages & Cultures Faculty (<https://ealc.illinois.edu/directory/faculty-by-area/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://www.las.illinois.edu/>

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in East Asian Languages & Cultures

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** normally equates to 33-57 hours. Twelve hours of 300- or 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
One year of a single East Asian Language beyond the intermediate level (i.e., beyond CHIN 204 or CHIN 242; JAPN 204; KOR 204 or KOR 241). <sup>1</sup>		10-30
Disciplinary and period courses: <sup>2</sup>		12
EALC 120	East Asian Civilizations	
One course on East Asia dealing substantially with the period before 1800		
One course in East Asian history		
One course in East Asian literature		
Advanced courses:		12
Four non-language courses at the 300- or 400-level.		
EALC 398	Colloquium in EALC (or an approved senior project.) <sup>3</sup>	3

<sup>1</sup> Students testing out of the advanced language requirement (306-level) must take two additional non-language courses from East-Asian-related offerings.

<sup>2</sup> No course may be counted more than once toward these requirements and at least two courses must be at the 200-level or above.

<sup>3</sup> Students selecting the senior project option must submit to the Director of Undergraduate Study a proposal outlining the project to be undertaken, the course in which the project is to be completed and an agreement signed by the faculty member supervising the project.

## Learning Outcomes: East Asian Languages & Cultures, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences : Major in East Asian Languages & Cultures

- Linguistic Competence and Cultural Understanding:** EALC students will effectively deal with the routine tasks and social situations and express personal meaning in the language of a target country in a linguistically and culturally appropriate manner.
- Intellectual Reasoning and Knowledge:** EALC students will demonstrate broad and deep knowledge of East Asian cultures through coursework in more than one discipline.
- Creative Inquiry and Discovery:** EALC students will develop a critical and reflective orientation toward social, cultural, and linguistic differences and apply the knowledge to promote inquiry, discover solutions, and generate new ideas and creative works in the form of research.

# Econometrics & Quantitative Economics, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Econometrics & Quantitative Economics

**department website:** <https://economics.illinois.edu/>

**department faculty:** Economics Faculty (<https://economics.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [econug@illinois.edu](mailto:econug@illinois.edu)

## Undergraduate Degree Programs in Economics

- Econometrics & Quantitative Economics, BSLAS (p. 286)
- Economics, BALAS (p. 287)
- Computer Science & Economics, BSLAS (p. 243)

For further information, please visit the Economics undergraduate program page (<http://www.economics.illinois.edu/undergrad/info/>).

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Econometrics & Quantitative Economics

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required major and supporting course work normally equates to 63-65 hours including a minimum of 30 hours of economics courses excluding ECON 199, ECON 220, ECON 398, and ECON 399. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours

Code	Title	Hours
<b>Economics Courses including:</b>		<b>30</b>
ECON 102	Microeconomic Principles	3
ECON 103	Macroeconomic Principles	3
ECON 198	Economics at Illinois	1
ECON 202	Economic Statistics I	3
ECON 203	Economic Statistics II	3
ECON 302	Inter Microeconomic Theory	3
ECON 303	Inter Macroeconomic Theory	3
11 additional hours of economics at the 300- or 400-level <sup>1</sup>		
<b>12 hours of economics at the 400-level chosen from a set of courses on econometrics, quantitative economics, computational economics, and mathematical economics.</b>		<b>12</b>
<b>Mathematics, Statistics, and Computer Science Courses including:</b>		<b>15-16</b>
MATH 220	Calculus	5
or MATH 221	Calculus I	
MATH 231	Calculus II	3
MATH 225	Introductory Matrix Theory	2
Statistics		3
STAT 385	Statistics Programming Methods	
CS 105	Intro Computing: Non-Tech (or CS 101 or CS 125)	3
<b>Supporting course work</b>		<b>6</b>
Six hours of courses outside of economics but related to econometrics, quantitative economics, computational economics, or mathematical economics. This would include additional courses in mathematics, statistics, or computer science.		
<b>Total Hours</b>		<b>63-65</b>

<sup>1</sup> Excluding ECON 398 and ECON 399.

## Learning Outcomes: Economics, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Economics

1. **Analytical Skills/Problem-Solving:** ECON students will effectively visualize, conceptualize, articulate, and solve complex problems or address problems that do not have a clear answer, with available information, through experimentation and observation, using microeconomic and macroeconomic theory, as well as calculus and statistical tools.
2. **Critical Thinking:** ECON students will apply economic analysis to everyday problems helping them to understand events, evaluate specific policy proposals, compare arguments with different conclusions to a specific issue or problem, and assess the role played by assumptions in arguments that reach different conclusions to a specific economic or policy problem.
3. **Quantitative Reasoning:** ECON students will understand how to apply empirical evidence to economic arguments. Specifically, they may obtain and/or collect relevant data, develop empirical evidence using appropriate statistical techniques, and interpret the results of such analyses.
4. **Specialized Knowledge and Practical Application:** ECON students will develop deeper analytical, critical, and quantitative skills in specialized areas by applying economic concepts to real world situations.
5. **Interdisciplinary Knowledge, Diverse Issues, and Global Consciousness:** ECON students will broaden their global and disciplinary knowledge, enhancing their understanding of the world around them both within economics and beyond.

# Electrical Engineering, BS

For the Degree of Bachelor of Science in Electrical Engineering

**department website:** <https://ece.illinois.edu>

**department faculty:** Electrical & Computer Engineering Faculty (<https://ece.illinois.edu/about/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://ece.illinois.edu/academics/educational-objectives> (<https://ece.illinois.edu/academics/educational-objectives/>)

Electrical engineering is a multifaceted discipline that over the last century has produced an astounding progression of technological innovations that have shaped virtually every aspect of modern life. Electrical engineers need a broad and solid foundation in mathematics and physics to support their education in the engineering principles of analysis, synthesis, design, implementation, and testing of the devices and systems that provide the bedrock of modern energy, communication, sensing, computing, medical, security, and defense infrastructures. Within each subdiscipline one can find application domains that strongly rely on hands-on experimental work or that are based on theoretical, mathematical and computational approaches. The multidisciplinary nature of the electrical engineering education addresses the growing demand for the innovation and design of sensing, communication, computing, and decision-making systems of increasing complexity in consumer, defense, and medical applications.

The curriculum starts with a core of fundamental courses on circuits, electromagnetics, solid-state electronics, and computer systems, leading to a comprehensive array of specialized courses and laboratories in all of the important areas of modern electrical engineering.

For the Degree of Bachelor of Science in Electrical Engineering

## Overview of Curricular Requirements

The curriculum requires 128 hours for graduation and is organized as shown below.

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for ECE courses (except ECE 316). See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

## Orientation and Professional Development

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
Total Hours		0

## Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
MATH 221	Calculus I <sup>2</sup>	4
MATH 231	Calculus II	3
MATH 241	Calculus III	4
MATH 257 or MATH 416	Linear Algebra with Computational Applications (Linear Algebra) Abstract Linear Algebra	3
MATH 285	Intro Differential Equations	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2

PHYS 214	Univ Physics: Quantum Physics	2
Total Hours		33

## Electrical Engineering Technical Core

Code	Title	Hours
ECE 110	Introduction to Electronics <sup>3</sup>	3
ECE 120	Introduction to Computing	4
ECE 220	Computer Systems & Programming	4
ECE 210	Analog Signal Processing	4
ECE 313	Probability with Engrg Applic <sup>4</sup>	3
ECE 329	Fields and Waves I	3
ECE 340	Semiconductor Electronics	3
ECE 385	Digital Systems Laboratory	3
ECE 445	Senior Design Project Lab <sup>5,6</sup>	4
Total Hours		31

## Technical Electives

Code	Title	Hours
<b>From Departmentally Approved List of Technical Electives, to include: at least 6 hours of non-ECE electives, at least 20 hours of ECE electives, at least 3 Advanced Core Electives, at least 3 ECE Labs, where at least one must be a Hardware Lab</b>		<b>30</b>

Non-ECE courses from list below:		6
AE 202	Aerospace Flight Mechanics	3
AE 302	Aerospace Flight Mechanics II	3
AE 311	Incompressible Flow	3
AE 312	Compressible Flow	3
AE 321	Mechs of Aerospace Structures	3
AE 352	Aerospace Dynamical Systems	3
AE 353	Aerospace Control Systems	3
AE 402	Orbital Mechanics	3 or 4
AE 403	Spacecraft Attitude Control	3 or 4
AE 410	Computational Aerodynamics	3 or 4
AE 412	Viscous Flow & Heat Transfer	4
AE 416	Applied Aerodynamics	3 or 4
AE 419	Aircraft Flight Mechanics	3 or 4
AE 420	Finite Element Analysis	3 or 4
AE 428	Mechanics of Composites	3
AE 433	Aerospace Propulsion	3 or 4
AE 434	Rocket Propulsion	3 or 4
AE 435	Electric Propulsion	3 or 4
AE 451	Aeroelasticity	3 or 4
AE 460	Aerodynamics & Propulsion Lab	2

Ag and Bio Eng. - All 300 and 400 level courses except ABE 440. Except seminars and special topics courses, which may be reviewed in the Advising Office

ASTR 210	Introduction to Astrophysics	3
ASTR 310	Computing in Astronomy	3
ASTR 330	Extraterrestrial Life	3
ASTR 350	The Big Bang, Black Holes, and the End of the Universe	3
ASTR 404	Stellar Astrophysics	3
ASTR 405	Planetary Systems	3
ASTR 406	Galaxies and the Universe	3
ASTR 414	Astronomical Techniques	4
ASTR 450	Astrochemistry	4
ATMS 201	General Physical Meteorology	3

ATMS 301	Atmospheric Thermodynamics	3
ATMS 302	Atmospheric Dynamics I	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>7</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>8</sup>		12
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

## Footnotes

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> Freshmen take ECE 110 for 3 credit hours. Lab-only version taken by transfer students (with special permission) is 1 credit hour.
- <sup>4</sup> STAT 410 may be substituted.
- <sup>5</sup> ECE 496 AND ECE 499 may be substituted.
- <sup>6</sup> Advanced Composition may be satisfied by completing ECE 445, or a course in either the general education or free elective categories which has the Advanced Composition designation.
- <sup>7</sup> The Grainger College of Engineering approved liberal education course list (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>8</sup> The Grainger College of Engineering restrictions to free electives (<https://go.grainger.illinois.edu/FreeElectives/>).

For the Degree of Bachelor of Science in Electrical Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/ee-map/>).

### First Year

First Semester		Hours
ECE 110 <sup>1</sup>	Introduction to Electronics	3
ENG 100	Engineering Orientation	0
MATH 221 <sup>2</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 (or General Education elective) <sup>3,4</sup>	Writing and Research	4-3
Semester Hours		15-14

### Second Semester

ECE 120	Introduction to Computing	4
MATH 231	Calculus II	3
MATH 257	Linear Algebra with Computational Applications	3
PHYS 211	University Physics: Mechanics	4
General Education elective (or RHET 105) <sup>3,4</sup>		3-4
Semester Hours		17-18

### Second Year

First Semester		Hours
MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
ECE 220	Computer Systems Programming	4
General Education elective <sup>4</sup>		3
Free Elective		3
Semester Hours		18

**Second Semester**

PHYS 213	Univ Physics: Thermal Physics	2
PHYS 214	Univ Physics: Quantum Physics	2
MATH 285	Intro Differential Equations	3
ECE 210	Analog Signal Processing	4
Free elective		3
Semester Hours		14

**Third Year****First Semester**

ECE 329	Fields and Waves I	3
ECE 385	Digital Systems Laboratory	3
Technical elective <sup>5</sup>		4
General education elective <sup>4</sup>		6
Semester Hours		16

**Second Semester**

ECE 313 <sup>6</sup>	Probability with Engrg Applic	3
ECE 340	Semiconductor Electronics	3
Technical electives <sup>5</sup>		7
General education elective <sup>4</sup>		3
Semester Hours		16

**Fourth Year****First Semester**

Technical electives <sup>5</sup>		11
Free electives		3
General Education elective <sup>4</sup>		3
Semester Hours		17

**Second Semester**

ECE 445 <sup>7</sup>	Senior Design Project Lab	4
Technical electives <sup>5</sup>		8
Free electives		3
Semester Hours		15
Total Hours:		128

<sup>1</sup> Freshmen take ECE 110 for 3 credit hours. Lab only version of ECE 110 taken by transfer students (with special permission) is 1 credit hour.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>5</sup> A minimum of 30 hours chosen from the departmentally approved list of Technical Electives (<https://ece.illinois.edu/academics/ugrad/curriculum/tech-electives-06/>). Of these, at least three courses are to be chosen from the ECE advanced core electives and three courses from the list of ECE laboratory electives; 20 hours must be ECE course work, six hours non-ECE course work, and the remaining hours may be chosen from the entire List.

<sup>6</sup> STAT 410 may be substituted

<sup>7</sup> Advanced Composition. May be satisfied by completing ECE 445 or ECE 496 AND ECE 499 or a course within either the liberal education or free elective categories which has the Advanced Composition designation.

# Learning Outcomes: Electrical Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Electrical Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Electrical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Elementary Education, BS

for the degree of Bachelor of Science Major in Elementary Education

**department office:** Curriculum & Instruction

**overview of college admissions & requirements:** College of Education (<https://education.illinois.edu/programs/undergrad/programs-degrees/ci-ele-ug/>)  
**college website:** <https://education.illinois.edu/> (<http://education.illinois.edu/>)

This program prepares teachers for grades one through six. A minimum of 120 semester hours is necessary for graduation<sup>1</sup>.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education (<http://www.cote.illinois.edu/>)

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

CI 475	Teaching Elementary Reading and Language Arts I	3
CI 476	Teaching Elementary and Middle Grade Language Arts	3
FAA 202	Artsful Teaching through Integ	3
CI 452	Social Studies as Action and Inquiry	3
Total Hours		120

TOTAL minimum hours include general education and professional education credits. <sup>5</sup>

<sup>1</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

<sup>2</sup> Exclusions apply including, but not limited to: Horticulture, Dance and Urban Planning. Must be a science rubric. Consult with advisers for further information.

<sup>3</sup> Across these gen-ed categories, students will need to take courses that include at least four different rubrics from the following: ANTH, ECON, GEOG, GLBL, HIST, PS, PSYC, SOC to meet the ISBE Social Science requirement.

<sup>4</sup> ISBE standards require demonstration of proficiency in algebra and statistics. Consult with adviser for further information.

<sup>5</sup> The total hours required for the degree may be higher for students who have not already completed the language other than English requirement and/or the ISBE algebra requirement.

<sup>6</sup> PYSC 100 is a prerequisite for EPSY 201.

<sup>7</sup> Students will register for EDPR 250 during their spring term of the year one professional education sequence year for zero credit hours and register for EDPR 250 again their fall term of the year two professional education sequence for four credit hours.

## Learning Outcomes: Elementary Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Elementary Education

1. Students will acquire deep knowledge of content in the field of Education
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for elementary students, grades 1-6.
3. Students will use data to drive decisions and solve problems in and out of the classroom
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices)

# Engineering Mechanics, BS

for the degree of Bachelor of Science in Engineering Mechanics

**department website:** <http://mechse.illinois.edu/>

**department faculty:** Mechanical Science & Engineering Faculty (<https://mechse.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://mechse.illinois.edu/undergraduate> (<https://mechse.illinois.edu/undergraduate/>)

The Engineering Mechanics program at Illinois (accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org)) is a major that focuses on the principles of mechanics that underpin design and engineering in diverse industries including materials, energy, biotechnology, civil, and aerospace to name a few. Students learn rigorous mathematical, scientific, and engineering principles in subject areas such as statics, dynamics, strength of materials, and fluid dynamics. Further, Engineering Mechanics students learn how to apply these basic principles in modern engineering design through laboratory and project work. The program also benefits from a cohesive secondary field which students can tailor to fit their academic and career objectives. Engineering Mechanics is well suited for students with an interest in analysis and design, and physical principles.

for the degree of Bachelor of Science in Engineering Mechanics

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for required Engineering courses and any technical elective courses. See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.

### Orientation and Professional Development

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
TAM 195	Mechanics in the Modern World	1
ME 290	Seminar	0

## Secondary Field Option Electives

Code	Title	Hours
Secondary field electives selected from departmentally approved courses for Secondary Field Options. Each secondary field generally specifies two required courses and two additional courses from a list of approved elective courses. For each of the secondary fields, the required and approved elective courses specified for each are listed below. To add flexibility to the program and to accommodate particular interests, the student may fashion an individualized secondary field option. The only requirements are that the courses be related to mechanics, form a coherent and cohesive group, include at least two engineering courses, and total at least 12 hours of advanced-level coursework that are distinct from required courses in the Engineering Mechanics curriculum. This can include 500-level courses, if the student has the adequate preparation, for any of the secondary field elective courses. Each student must formally declare their choice of secondary field with a Mechanical Science and Engineering Undergraduate Programs Office advisor using a Secondary Field Options form.		12

### Biomechanics

Required Courses		
MCB 150	Molec & Cellular Basis of Life	4
MCB 151	Molec & Cellular Laboratory	1
TAM 461	Cellular Biomechanics	4
Approved Courses		
ECE 473	Fund of Engrg Acoustics	3 or 4
ECE 380	Biomedical Imaging	3
ME 481	Whole-Body Musculoskel Biomech	3 or 4
ME 482	Musculoskel Tissue Mechanics	3 or 4
ME 483	Mechanobiology	4
BIOP 401	Introduction to Biophysics	3
TAM 497	Independent Study	1 to 3

### Computational Mechanics

Required Courses		
CS 357	Numerical Methods I	3
ME 471	Finite Element Analysis	3 or 4
Approved Courses		
CS 450	Numerical Analysis	3 or 4
CS 457	Numerical Methods II	3
ME 412	Numerical Thermo-Fluid Mechs	2 to 4
TAM 497	Independent Study	1 to 3

### Engineering Science and Applied Mathematics

## Required Courses

MATH 446	Applied Complex Variables	3-4
or MATH 448	Complex Variables	
Any 400 level MATH course, excluding MATH 415, MATH 441, and MATH 442		3 or 4

## Approved Courses

AE 353	Aerospace Control Systems	3
AE 402	Orbital Mechanics	3 or 4
CEE 491	Decision and Risk Analysis	3 or 4
ECE 329	Fields and Waves I	3
ECE 330	Power Ckts & Electromechanics	3
ECE 473	Fund of Engrg Acoustics	3 or 4
PHYS 402	Light	3 or 4
TAM 497	Independent Study	1 to 3

**Experimental Mechanics**

## Required Courses

TAM 456	Experimental Stress Analysis	3
ECE 206	Electrical and Electronic Circuits Lab	1

## Approved Courses

CS 357	Numerical Methods I	3
ECE 473	Fund of Engrg Acoustics	3 or 4
ME 360	Signal Processing	3.5
PHYS 402	Light	3 or 4
TAM 497	Independent Study	1 to 3

**Fluid Mechanics**

## Required Courses

TAM 435	Intermediate Fluid Mechanics	4
ME 410	Intermediate Gas Dynamics	3 or 4

## Approved Courses

AE 412	Viscous Flow & Heat Transfer	4
CEE 445		
CEE 451	Environmental Fluid Mechanics	3
CEE 453	Urban Hydrology and Hydraulics	4
ECE 473	Fund of Engrg Acoustics	3 or 4
ME 412	Numerical Thermo-Fluid Mechs	2 to 4
TAM 497	Independent Study	1 to 3

**Mechanics of Materials**

## Required Courses

TAM 424	Mechanics of Structural Metals	3 or 4
TAM 428	Mechanics of Composites	3

## Approved Courses

CEE 310	Transportation Engineering	3
MSE 401	Thermodynamics of Materials	3
MSE 455	Macromolecular Solids	3
MSE 489	Matl Select for Sustainability	3 or 4
NPRE 431	Materials in Nuclear Engrg	3
TAM 497	Independent Study	1 to 3

**Solid Mechanics**

## Required Courses

TAM 424	Mechanics of Structural Metals	3 or 4
TAM 451	Intermediate Solid Mechanics	4

## Approved Courses

CEE 360	Structural Engineering	3
---------	------------------------	---

CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CS 357	Numerical Methods I	3
ECE 473	Fund of Engrg Acoustics	3 or 4
TAM 497	Independent Study	1 to 3

**Electives**

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>10</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>11</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> CHEM 103 (<http://catalog.illinois.edu/search/?P=CHEM%20103>) requirement waived for students who received test-based credit (AP, IB, or proficiency) for CHEM 102 (<http://catalog.illinois.edu/search/?P=CHEM%20102>), similarly CHEM 105 (<http://catalog.illinois.edu/search/?P=CHEM%20105>) requirement waived for students who received test-based credit for CHEM 104 (<http://catalog.illinois.edu/search/?P=CHEM%20104>). Students are still required to have 128 hours minimum to graduate.
- <sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>4</sup> MATH 415 (<http://catalog.illinois.edu/search/?P=MATH%20415>) may be substituted for students entering prior to Fall 2021.
- <sup>5</sup> Transfer or incoming students with credit upon admission to the Engineering Mechanics program may substitute MATH 284 (<http://catalog.illinois.edu/search/?P=MATH%20284>) or MATH 285 (<http://catalog.illinois.edu/search/?P=MATH%20285>) with a grade of B+ or higher.
- <sup>6</sup> CS 124 or CS 125 (<http://catalog.illinois.edu/search/?P=CS%20125>) or ECE 220 (<http://catalog.illinois.edu/search/?P=ECE%20220>) may be substituted.
- <sup>7</sup> ECE 110 (<http://catalog.illinois.edu/search/?P=ECE%20110>) and ECE 210 (<http://catalog.illinois.edu/search/?P=ECE%20210>) (or ECE 211 (<http://catalog.illinois.edu/search/?P=ECE%20211>)) combined may be substituted.
- <sup>8</sup> Advanced Composition satisfied by completing TAM 324 and ME 470.
- <sup>9</sup> Transfers and Physics minor/dual degree students may substitute PHYS 325 (<http://catalog.illinois.edu/search/?P=PHYS%20325>).
- <sup>10</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>11</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Engineering Mechanics

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite and corequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/engineering-mechanics-map/>).

## Learning Outcomes: Engineering Mechanics, BS

Learning Outcomes for the degree of Bachelor of Science Major in Engineering Mechanics

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Engineering Mechanics graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Engineering Technology & Management for Agricultural Systems, BS

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty/> (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The major in Engineering Technology and Management for Agricultural Systems is designed to prepare students as problem solvers for systems involving the application, management, and/or marketing of engineering technologies. Students are instructed in engineering and business principles in preparation as technically competent business persons for professional careers as entrepreneurs, marketing representatives, or plant managers working with service organizations, manufacturers, corporate farms, retail dealers, power suppliers, contractors, or management companies from production through processing and distribution.

Students pursuing this major select one of four concentrations:

- Agricultural Production & Processing (p. 313)
- Construction Management (p. 317)
- Digital & Precision Agriculture (p. 321)
- Energy & the Environment (p. 324)

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems

## Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
Select one of the following:		6-7
RHET 105 & CMN 101	Writing and Research and Public Speaking (or equivalent (see college Composition I requirement))	
CMN 111 & CMN 112	Oral & Written Comm I and Oral & Written Comm II	
<b>Advanced Composition</b>		3-4
Select from the below list		
AGCM 220	Communicating Agriculture	
BADM 340	Ethical Dilemmas of Business	
BTW 250	Principles Bus Comm	
BTW 261	Principles Tech Comm	
ECE 316	Ethics and Engineering	
ESE 360	Environmental Writing	
LEAD 230	Leadership Communications	
NRES 419	Env and Plant Ecosystems	
PLPA 200	Plants, Pathogens, and People	
TSM 311	Humanity in the Food Web	
<b>Cultural Studies</b>		9
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
MATH 234	Calculus for Business I (or equivalent)	4
<b>Quantitative Reasoning II</b>		3 or 4

Select one of the following:		
ACE 262	Applied Statistical Methods and Data Analytics I	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
STAT 107	Data Science Discovery	
<b>Natural Sciences and Technology</b>		
CHEM 102	General Chemistry I	4
& CHEM 103	and General Chemistry Lab I	
PHYS 101	College Physics: Mech & Heat	5
Select one of the following:		4-5
CHEM 104	General Chemistry II	
& CHEM 105	and General Chemistry Lab II	
OR		
PHYS 102	College Physics: E&M & Modern	
<b>Humanities and the Arts</b>		
Select from campus approved list.		6
<b>Social and Behavioral Sciences</b>		
ACE 100	Introduction to Applied Microeconomics	3-4
or ECON 102	Microeconomic Principles	
Social and behavioral sciences. Select from campus approved list.		3 or 4
<b>ACES Prescribed</b>		
ACES 101	Contemporary Issues in ACES	2
<b>TSM Required</b>		
CS 105	Intro Computing: Non-Tech	3
TSM 100	Technical Systems in Agr	3
TSM 339	Optimization in Engineering Technology and Management	3
TSM 421	Ag Safety-Injury Prevention	3
or TSM 422	Ag Health-Illnesses Prevention	
TSM 430	Project Management	2
TSM 439	Capstone Experience	4
<b>Business electives</b>		<b>6</b>
A total of 6 hours from the Business Electives list which do not satisfy any other requirements.		
ACCY 200	Fundamentals of Accounting	3
ACCY 201	Accounting and Accountancy I	3

## Engineering Technology & Management for Agricultural Systems: Agricultural Production & Processing, BS

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems: Agricultural Production & Processing concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty> (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students in the Agricultural Production & Processing concentration learn the technology, machinery, and management of the agricultural production system. Students will gain knowledge and skills in topics including: 1) the agricultural industry from an operational and management perspective; 2) agricultural machinery, grain storage systems, and bioprocessing systems; 3) numerical and scientific processes to drive management decisions; and 4) the science and management of the complete food production system. Graduates of the Agricultural Production & Processing concentration are prepared for careers in industry with both small and large companies, agricultural retailers and service providers, production farming operations, government and environmental agencies, or for entrance into graduate or professional school.

## Engineering Technology & Management for Agricultural Systems: Construction Management, BS

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems: Construction Management concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty> (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students in the Construction Management concentration are trained in construction skills and concepts, as well as management practices and principles. Students learn to 1) manage residential, agricultural, and industrial construction technologies; 2) operate and manufacture systems that provide the desired environmental conditions for animals, people, crop storage, and greenhouses; 3) maintain systems to handle and treat biowaste; and 4) develop alternative housing and nutrient management practices. Graduates of the Construction Management concentration are prepared for careers with private construction companies, government and environmental agencies, or for entrance into graduate or professional school.

## Engineering Technology & Management for Agricultural Systems: Digital & Precision Agriculture, BS

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems: Digital & Precision Agriculture concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty> (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students in the Digital & Precision Agriculture concentration learn the application of technology in agriculture and the larger system of production agriculture, including machinery, agronomy, and business management. Students will gain an understanding of 1) the application of advanced technology used in agriculture with an emphasis on geospatial information systems and machinery technology; 2) the functional workings and management of agricultural machinery; 3) crop and soil science and their interactions with advanced technologies; 4) numerical and scientific processes to drive agricultural management decisions; and 5) business operations and management with a focus on the agricultural industry. Graduates of the Digital & Precision Agriculture concentration are prepared for careers in industry with both small and large companies, agricultural retailers and service providers, production farming operations, government and environmental agencies, or for entrance into graduate or professional school.

## Engineering Technology & Management for Agricultural Systems: Energy & the Environment, BS

for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems: Energy & the Environment concentration

**department website:** <https://abe.illinois.edu/undergraduate/>

**department faculty:** <https://abe.illinois.edu/directory/faculty> (<https://abe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students in the Energy and the Environment concentration focus on renewable energy systems, environmental systems, or both. Students will 1) gain an understanding of the science behind renewable energy from sunlight wind, geothermal, and biomass sources; 2) perform economic analysts of proposed systems; 3) manage energy systems to blend appropriate sources into reliable, cost-effective, and long-lasting systems; and 4) develop, construct, and operate large-scale, grid-connected renewable energy projects. Students will also have the ability to utilize GIS and other technologies to develop and manage practices for controlling the transport of agricultural and other non-point sources of pollution in the environment, and to implement systems for sustaining and improving water quality, maintaining ecosystems, managing stormwater, and developing optimal irrigation use and drainage systems. Graduates of the Energy & the Environment concentration are prepared for careers with private consulting firms, government and environmental agencies, both small and large technology companies, or for entrance into graduate or professional school.

*for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems, Energy & the Environment concentration*

## Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
Select one of the following:		6-7
RHET 105 & CMN 101	Writing and Research and Public Speaking (or equivalent (see college Composition I requirement))	
CMN 111 & CMN 112	Oral & Written Comm I and Oral & Written Comm II	
<b>Advanced Composition</b>		3-4
Select from the below list		
AGCM 220	Communicating Agriculture	
BADM 340	Ethical Dilemmas of Business	
BTW 250	Principles Bus Comm	
BTW 261	Principles Tech Comm	
ECE 316	Ethics and Engineering	
ESE 360	Environmental Writing	
LEAD 230	Leadership Communications	
NRES 419	Env and Plant Ecosystems	
PLPA 200	Plants, Pathogens, and People	
TSM 311	Humanity in the Food Web	
<b>Cultural Studies</b>		9
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
MATH 234	Calculus for Business I (or equivalent)	4
<b>Quantitative Reasoning II</b>		3 or 4
Select one of the following:		
ACE 262	Applied Statistical Methods and Data Analytics I	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
STAT 107	Data Science Discovery	
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4

PHYS 101	College Physics: Mech & Heat	5
Select one of the following:		4-5
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	
OR		
PHYS 102	College Physics: E&M & Modern	
<b>Humanities and the Arts</b>		
Select from campus approved list.		6
<b>Social and Behavioral Sciences</b>		
ACE 100 or ECON 102	Introduction to Applied Microeconomics Microeconomic Principles	3-4
Social and behavioral sciences. Select from campus approved list.		3 or 4
<b>ACES Prescribed</b>		
ACES 101	Contemporary Issues in ACES	2
<b>TSM Required</b>		
CS 105	Intro Computing: Non-Tech	3
TSM 100	Technical Systems in Agr	3
TSM 339	Optimization in Engineering Technology and Management	3
TSM 421 or TSM 422	Ag Safety-Injury Prevention Ag Health-Illnesses Prevention	3
TSM 430	Project Management	2
TSM 439	Capstone Experience	4
<b>Business electives</b>		
A total of 6 hours from the Business Electives list which do not satisfy any other requirements.		
ACCY 200	Fundamentals of Accounting	3
ACCY 201	Accounting and Accountancy I	3
ACCY 202	Accounting and Accountancy II	3
ACCY 211	Understanding Financial Statements	3
ACCY 212	Understanding Accounting for Business Decisions	3
ACE 210	Environmental Economics	3
ACE 240	Personal Financial Planning	3
ACE 310	Natural Resource Economics	3
ACE 345	Finan Decision Indiv Sm Bus	3
ACE 346	Tax Policy and Finan Planning	3
ACE 432	Advanced Farm Management	3 or 4
ACE 435	Global Agribusiness Management	3
AGCM 270	Ag Sales and Persuasive Communication	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh	3
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 313	Strategic Human Resource Management	3
BADM 314	Leading Negotiations	3
BADM 320	Principles of Marketing	3
BADM 322	Marketing Research	3
BADM 323	Marketing Communications	3
BADM 326	Pricing Strategy	3
FIN 221	Corporate Finance	3
FIN 230	Introduction to Insurance	3
LER 290	Introduction to Employment Law	3
LEAD 140	Harnessing Your Interpersonal Intelligence	2
LEAD 260	Foundations of Leadership	3

LEAD 340	Leadership Ethics & Society: Addressing Contemporary Challenges	3
LEAD 380	Leadership in Groups and Teams	3
LEAD 440	Interpersonal Intelligence for Professional Success	2
SE 361	Emotional Intelligence Skills	3
SE 400	Engineering Law	3 or 4
TE 230	Design Thinking/Need-Finding	3
TE 250	From Idea to Enterprise	2
TE 333	Creativity, Innovation, Vision	4
TE 360	Lectures in Engineering Entrepreneurship	1
TE 450	Startups: Incorporation, Funding, Contracts, & Intellectual Property	3
<b>Introductory Related Courses</b>		
Select 2 courses from the list for your concentration.		6-8
<b>TSM Electives</b>		
A total of 20 hours from the list for your concentration with a minimum of 11 hours at the advanced level.		20
<b>Concentration Electives</b>		
Select 18 hours from the list for your concentration, which do not satisfy any other requirements, with a minimum of 12 hours at the advanced level.		18
<b>Total Hours</b>		<b>126</b>
ETMAS majors will need 40 hours of upper-level courses (300- and 400-level) to satisfy the campus minimum requirement of 40 hours of advanced coursework.		

## Concentration Requirements

CPSC 416	Native Plants, Pollinators, & Food Ecosystems
CPSC 431	Plants and Global Change
CPSC 437	Principles of Agroecology
ESE 465	Transportation & Sustainability
ESE 482	Challenges of Sustainability
GLBL 201	Energy Systems

## Learning Outcomes: Engineering Technology & Management for Agricultural Systems, BS

Learning outcomes for the degree of Bachelor of Science Major in Engineering Technology & Management for Agricultural Systems

---

Students graduating with the B.S. in Engineering Technology & Management for Agricultural Systems should be able to:

1. Obtain subject matter expertise
2. Identify problems and develop problem solving abilities / critical thinking
3. Function effectively on multidisciplinary teams
4. Demonstrate professional and ethical values
5. Communicate effectively in written and oral forms
6. Engage in life-long learning skills
7. Develop leadership and interpersonal skills

8. Analyze and interpret data
9. Understand social and cultural contexts
10. Develop global perspective

*for the degree of Bachelors of Arts in Liberal Arts & Sciences Major in English, English Concentration*

Minimum required major and supporting coursework equates to 39 hours of English department courses. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours), and 6 of these hours must come from two different period areas.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

Minimum hours required for graduation: 120 hours.

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in graduating with distinction or high distinction are encouraged to consult the English department advising office.

## Concentration Requirements

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>
ENGL 200	Introduction to the Study of Literature and Culture (prerequisite for other English courses; can be taken at the same time as a course that satisfies the Composition I requirement)	
ENGL 301	Introduction to Critical Theory	
ENGL 350	Writing about Literature, Text, and Culture	
<b>Historical Surveys</b>		<b>6</b>
Students are encouraged to take these required survey courses as early as possible after completing ENGL 200		
Two courses from the following options:		
ENGL 209	Early British Literature and Culture	
ENGL 255	Early American Literature and Culture	
ENGL 259	Early African American Literature and Culture	
Any ethnic literature survey with a significant pre-1900 focus <sup>1</sup>		
<b>Period Courses (American, British, Anglophone, etc.)</b>		<b>15</b>
6 hours: At least two courses that cover at least two of the following categories:		
Medieval Literature & Culture (before 1550)		
Shakespeare		
Early Modern Literature & Culture (1550-1660, other than Shakespeare)		
Eighteenth-Century Literature & Culture (1660-1800)		
3 hours: At least one course in Nineteenth-Century Literature & Culture		
3 hours: At least one course in Twentieth-Century Literature & Culture		
3 hours: At least one course in Contemporary Literature & Culture		
<b>Elective Coursework <sup>1,2</sup></b>		<b>9</b>
At least three courses chosen from those controlled by or cross-listed with the Department of English (Business and Technical Writing, Creative Writing, and English)		
One course in Difference and Diaspora. This requirement can be fulfilled by taking an appropriately focused course from among ENGL 350: Writing about Literature, Text, and Culture; the historical surveys; the period courses; or the elective coursework.		
Total Hours		39

<sup>1</sup> Chosen from the list maintained in the Department of English. Note: ENGL 350 can serve as a period course, a cluster course, an elective course, and/or a Difference and Diaspora course only when it is not also being used to fulfill a core requirement. Students who wish to use ENGL 350 in this way must thus take the course a second time (and with a different topic than the first time).

<sup>2</sup> Student may count one Independent Study course (ENGL 290, ENGL 390 or BTW 290) toward the additional coursework requirement.

## English: English Teaching, BALAS

*for the degree of Bachelors of Arts in Liberal Arts & Sciences Major in English, English Teaching Concentration*

**department website:** <https://www.english.illinois.edu/>

### Undergraduate Degree Programs in English

**Majors:**

English, BALAS (p. 330) **with concentrations:**

English, English Concentration, BALAS (p. 330)

English, English Teaching Concentration, BALAS (p. 331)

English, Topics in English Concentration, BALAS (p. 333)

Creative Writing, BALAS (p. 256)

*for the degree of Bachelors of Arts in Liberal Arts & Sciences: Major in English, English Teaching Concentration*

This concentration fulfills state certification requirements to teach high school (grades 9-12) English Language Arts through the AP/honors level.

Minimum required concentration and supporting coursework normally equates to 78 hours: 39 hours of English department courses and 39 hours of courses from the Teacher Education Minor in Secondary School Teaching. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours). Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

Time to degree completion varies. Minimum time to completion is eight semesters, with some students requiring ten semesters. Transfer students may need ten total semesters combined to complete the program. Please see the LAS Transfer Handbook for more information.

To remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, content area, and professional education grade point averages of 2.5 (A=4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages.

Prerequisites to transfer to the English Teaching concentration: Students must complete ENGL 200, the two required historical surveys, and ENGL 301 (Intro to Critical Theory). In addition, it is strongly recommended that students complete five additional ENGL courses (chosen in consultation with an English advisor) appropriate to the English Teaching Concentration.

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in the departmental honors program should contact the English department advising office.

### English Teaching Requirements

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>
ENGL 200	Introduction to the Study of Literature and Culture (prerequisite for other English courses; can be taken at the same time as a course that satisfies the Composition I requirement)

### Undergraduate Degree Programs in English

#### Majors:

English, BALAS (p. 330) **with concentrations:**

English, English Concentration, BALAS (p. 330)

English, English Teaching Concentration, BALAS (p. 331)

English, Topics in English Concentration, BALAS (p. 333)

Creative Writing, BALAS (p. 256)

*for the degree of Bachelors of Arts in Liberal Arts & Sciences: Major in English, Topics in English Concentration*

Minimum required major and supporting coursework equates to 39 hours of English department courses. Students must complete at least 15 hours of coursework at the 300-level or above (ENGL 301, ENGL 350, and 9 more hours) and 9 of these hours (including the capstone) must be taken in the student's chosen field.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

Minimum hours required for graduation: 120 hours

For this concentration, students will complete 12 hours of coursework (4 courses) in one of three cluster areas: Literature and Science, Media Cultures, or Race, Indigeneity, Gender, and Sexuality. These 12 hours will be selected from an approved list of courses for this category maintained by the English department. Students can access these lists and a further description of each cluster on the Department of English website (<https://english.illinois.edu/academics/undergraduate-studies/majors-minors/>).

**Departmental Distinction:** Students interested in graduating with distinction or high distinction are encouraged to consult the departmental honors adviser. In addition, students interested in the departmental honors program should contact the English department advising office.

### Topics in English

Code	Title	Hours
<b>Core Courses</b>		<b>9</b>
ENGL 200	Introduction to the Study of Literature and Culture (prerequisite for other English courses; can be taken at the same time as a course that satisfies the Composition I requirement)	
ENGL 301	Introduction to Critical Theory	
ENGL 350	Writing about Literature, Text, and Culture	
<b>Cluster Courses</b> <sup>1</sup>		<b>12</b>
Four courses in one of the following clusters, selected from approved lists maintained by the English Department:		
Literature and Science		
Media Cultures		
Race, Indigeneity, Gender, and Sexuality		
<b>Capstone Course</b>		<b>3</b>
ENGL 400	Senior Capstone Seminar (guided research in the student's chosen field)	
<b>Elective Coursework</b> <sup>1,2</sup>		<b>15</b>
At least five courses chosen from those controlled by or cross-listed with the Department of English (Business and Technical Writing, Creative Writing, and English)		

One course in Difference and Diaspora. This requirement can be fulfilled by taking an appropriately focused course from among ENGL 350: Writing about Literature, Text, and Culture; the cluster courses; or the elective coursework.<sup>1</sup>

Total Hours 39

- <sup>1</sup> Chosen from the list maintained in the Department of English. Note: ENGL 350 can serve as a period course, a cluster course, an elective course, and/or a Difference and Diaspora course only when it is not also being used to fulfill a core requirement. Students who wish to use ENGL 350 in this way must thus take the course a second time (and with a different topic than the first time).
- <sup>2</sup> Students may count one Independent Study course (ENGL 290, ENGL 390 or BTW 290) toward the additional coursework requirement.

## Learning Outcomes: English, BALAS

Learning Outcomes for the degree of Bachelors of Arts in Liberal Arts & Sciences Major in English

- 
1. Capacity to understand, analyze, and interpret 'texts', broadly construed, through a variety of methods including close reading.
  2. Capacity to understand literature and literary history in relation to historical, theoretical, aesthetic, and political contexts.
  3. Ability to craft rigorous and well-supported arguments that demonstrate an awareness of audience (skills associated with the research paper).
  4. Literacy, including clarity of written expression and the capacity to evaluate external sources.
  5. Awareness of the ways in which forms of difference, including racial, ethnic, gender, and sexual difference, inform the production and reception of literature.

# Finance, BS

for the degree of Bachelor of Science Major in Finance

The field of finance is primarily concerned with the acquisition and management of funds by business firms, governments, and individuals. A business seeks financial advice when considering the purchase of new equipment, the expansion of present facilities, or the raising of additional funds. Determining the value of financial and real assets and derivatives is a key activity in finance.

As the study of finance is designed to provide the student with both the theoretical background and the analytical tools required to make effective judgments in finance, many students select careers in business financial management, commercial and investment banking, investments, government finance, insurance, and real estate. In addition to the finance major requirements, students in finance must meet the University General Education requirements and the Gies College of Business core requirements (for more detail, see the Gies College of Business undergraduate section (<https://giesbusiness.illinois.edu/undergraduate-hub/majors-and-minors/finance/>)).

for the degree of Bachelor of Science Major in Finance

## Advising Notes

- Courses taken to fulfill major requirements may not be taken on a credit-no credit basis.
- It is recommended that Finance majors take additional accounting. ACCY 201 and ACCY 202 are required in the business core. Many employers look favorably upon additional accounting courses.

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	

Cultural Studies: Western/Comparative Cultures (1 course)

Quantitative Reasoning (2 courses) <sup>7</sup>**Language Other Than English**

Code	Title	Hours
Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.		0-15

**Business Core Requirements**

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.  
Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

<sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

Code	Title	Hours
For Students Admitted Prior to Fall 2016		
FIN 300	Financial Markets (Prerequisite: FIN 221 Corporate Finance)	3
FIN 321	Advanced Corporate Finance (Prerequisite: FIN 300 Financial Markets)	3
Three additional full-semester, 3-hour 400-level Finance courses except FIN 494 or FIN 495 (Senior Research) and FIN 490 (Special Topics).		9
Select one of the following (Major elective):		3-4
ACCY 301	Atg Measurement & Disclosure (Prerequisite: ACCY 202)	
ACCY 302	Decision Making for Atg (Prerequisite: ACCY 202)	
ACE 428	Commodity Futures and Options	
BADM 374	Management Decision Models (Prerequisite: ECON 202 or consent of instructor)	
Economics: any 300- or 400-level course excluding ECON 302		

**GEOG 483                      Urban Geography**

Mathematics or statistics: any course above the minimum mathematics or statistics requirement of the college with the exception of MATH 225.

Other courses as recommended by the Department of Finance faculty and approved by the Department of Finance chairperson.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
For Students Admitted Fall 2016 and Later		
FIN 300	Financial Markets (Prerequisite: FIN 221 Corporate Finance)	3
FIN 321	Advanced Corporate Finance (Prerequisite FIN 300 Financial Markets)	3
FIN 411	Investment & Portfolio Mngt (Prerequisite: FIN 300 Financial Markets)	3
Four additional full-semester, 3 hour 400 level-Finance courses except FIN 494 or FIN 495 (Senior Research) and FIN 490 (Special Topics).		12
One additional full-semester, 3-hour Finance course at the 200-level or above.		3

## Learning Outcomes: Finance, BS

Learning Outcomes for the degree of Bachelor of Science Major in Finance

1. Discipline-based competency: Students will acquire sufficient discipline based competency to address current and future corporate and investment finance problems. Such competency includes using finance knowledge and tools necessary to value real and financial assets, analyze a company's financial performance, and identify risk factors underlying such valuations or analysis.
2. Written and verbal communication competency: Students will be able to effectively integrate information into a coherent, well-organized, professional report.
3. Proficiency in the tools of the trade: Students should be able to demonstrate proficiency in the tools of the trade. First and foremost is Excel, but proficiency in Bloomberg, Morningstar, Capital IQ and the other tools of our trade.
4. Professional practice and ethics: Students should be familiar with professional practice and demonstrate consistent ethical behavior.

## Food Science & Human Nutrition, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition

**department website:** <https://fshn.illinois.edu>

**department faculty:** <https://fshn.illinois.edu/directory/faculty/>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

### Learning Outcomes

Students pursuing this major select one of four concentrations:

- Food Science Concentration (p. 341)
- Dietetics Concentration (p. 338)
- Human Nutrition Concentration (p. 346)
- Hospitality Management Concentration (p. 343)

## Food Science & Human Nutrition: Dietetics, BS

for Bachelor of Science: Major in Food Science & Human Nutrition, Dietetics concentration

**department website:** <https://fshn.illinois.edu>

**department faculty:** <https://fshn.illinois.edu/directory/faculty/>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunittext>)

**college website:** <https://aces.illinois.edu/>

The Dietetics Concentration meets the requirements set by the Accreditation Council on Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) and qualifies students for competitive dietetic internships. Upon completion of a postgraduate internship, students selecting this concentration may take the examination to become Registered Dietitians. Students choosing this concentration who do not complete an internship will be prepared for entry-level supervisory positions in food service facilities and in the food and pharmaceutical industries.

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Dietetics concentration

<sup>1</sup> Cannot be used to fulfill more than one requirement.

## Learning Outcomes: Dietetics Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Dietetics Concentration

---

All graduates of the University of Illinois Didactic Program in Dietetics (DPD) will be able to:

KRDN 1.1 Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.

KRDN 1.2 Use current information technologies to locate and apply evidence-based guidelines and protocols.

KRDN 1.3 Apply critical thinking skills.

KRDN 2.1 Demonstrate effective and professional oral and written communication and documentation.

KRDN 2.2 Describe the governance of nutrition and dietetics practice, such as the Scope of Nutrition and Dietetics Practice and the Code of Ethics for the Profession of Nutrition and Dietetics; and describe interprofessional relationships in various practice settings.

KRDN 2.3 Assess the impact of a public policy position on nutrition and dietetics practice.

KRDN 2.4 Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.

KRDN 2.5 Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates in the delivery of food and nutrition services.

KRDN 2.6 Demonstrate an understanding of cultural competence/sensitivity.

KRDN 2.7 Demonstrate identification with the nutrition and dietetics profession through activities such as participation in professional organizations and defending a position on issues impacting the nutrition and dietetics profession.

KRDN 2.8 Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.

KRDN 3.1 Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.

KRDN 3.2 Develop an educational session or program/educational strategy for a target population.

KRDN 3.3 Demonstrate counseling and education methods to facilitate behavior change and enhance wellness for diverse individuals and groups.

KRDN 3.4 Explain the processes involved in delivering quality food and nutrition services.

KRDN 3.5 Describe basic concepts of nutritional genomics.

KRDN 4.1 Apply management theories to the development of programs or services.

KRDN 4.2 Evaluate a budget and interpret financial data.

KRDN 4.3 Describe the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.

KRDN 4.4 Apply the principles of human resource management to different situations.

KRDN 4.5 Describe safety principles related to food, personnel and consumers.

KRDN 4.6 Analyze data for assessment and evaluate data to be used in decision-making for continuous quality improvement.

## Food Science & Human Nutrition: Food Science, BS

*for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Food Science Concentration*

**department website:** <https://fshn.illinois.edu>

**department faculty:** <https://fshn.illinois.edu/directory/faculty/>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)

**college website:** <https://aces.illinois.edu/>

The Food Science concentration exposes students to all components of food production: harvesting and raw-product handling, food-processing procedures and techniques, packaging, and food storage. Students selecting this concentration are prepared for careers in many areas of the food industry.

## Learning Outcomes: Food Science Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Food Science Concentration

---

All graduates of the University of Illinois Food Science concentration will achieve the following:

1. Graduates are A) competent in core food science areas and B) can integrate and apply their knowledge to solve real-world problems and make decisions. Core Food Science Areas include: Food Chemistry and Analysis, Food Safety and Microbiology, Food Processing and Engineering, and Sensory Science. Associated Areas include: Nutrition and Health, Quality Assurance, Food Laws and Regulations
2. Graduates possess strong critical thinking and problem solving skills.
3. Graduates are proficient communicators.
4. Graduates possess impactful professional and leadership skills.

Aspirational goals

Graduates of our Food Science program: 1) value diversity, 2) are confident in their abilities, 3) volunteer their services to their professional and societal communities, and 4) take professional and ethical responsibility for their actions.

## Food Science & Human Nutrition: Hospitality Management, BS

The Hospitality Management concentration prescribes courses that meet the professional needs of the hospitality industry and career goals of students entering the major. The concentration is designed for students interested in integrating the basic principles of business and hospitality management with the goal of pursuing professional and management careers in hospitality-related industries. The program comprises 35 hours of hospitality-related course work, including food science; food management; nutrition; sanitation; purchasing; and the management of institutional, commercial, and fine dining facilities. Through the integration of food-focused theory, practice, and experience, it is the mission of the program to prepare leaders in the hospitality industry with a foundation in science, business, and management.

## Learning Outcomes: Hospitality Management Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science &amp; Human Nutrition: Hospitality Management Concentration

All graduates of the University of Illinois Hospitality Management concentration will be able to:

1. Professionally manage the preparation, presentation and service of quality food. Apply science concepts to the food and beverage component of the hospitality industry. Identify hotel/lodging management and allied hospitality industries' concepts. (Industry Skills)
2. Integrate human, financial and physical resources management into hospitality related operations. Practice and evaluate elements of service management. (Management Skills)
3. Demonstrate ability to analyze, assess, evaluate, adapt and apply problem solving skills. (Problem Solving)
4. Demonstrate effective written and oral communication skills. (Communication)
5. Gain practical and professional experiences. Integrate and practice ethics, leadership, and collaboration. (Professional Experiences)

## Food Science & Human Nutrition: Human Nutrition, BS

for the degree of Bachelor of Science Major in Food Science & Human Nutrition, Human Nutrition Concentration

**department website:** <https://fshn.illinois.edu>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#academicunitstext>)

**college website:** <https://aces.illinois.edu/>

This program of study provides the background for students who plan to pursue careers in nutrition and related health sciences. This concentration focuses on the field of human nutrition and reflects the growing need to prepare individuals for careers in health and nutrition. For students who expect to pursue advanced degrees in nutritional sciences or professional degrees in medicine, dentistry or law, the human nutrition concentration may be chosen. The concentration emphasizes a strong science background and allows students to obtain a strong human nutrition preparation that is not available elsewhere on campus. For those interested in practicing nutrition or nutrition counseling, please see Dietetics.

Select one course from campus approved list of Advanced Composition courses.		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists. <sup>1</sup>		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following: <sup>2</sup>		4-5
MATH 220	Calculus	
MATH 221	Calculus I	
MATH 234	Calculus for Business I (This course does not count for students in the Food Science Concentration; choose from the other two options.)	
<b>Quantitative Reasoning II</b>		
Select one of the following:		3-4
ACE 261	Applied Statistical Methods	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
PSYC 235	Intro to Statistics	
STAT 100	Statistics	
<b>Natural Sciences and Technology</b>		

Chemistry <sup>3</sup>		3 or 8
CHEM 101	Introductory Chemistry	
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	
MCB 100	Introductory Microbiology	3
MCB 101	Intro Microbiology Laboratory <sup>4</sup>	2
<b>Humanities and the Arts</b>		
Select from campus approved list.		6
<b>Social and Behavioral Sciences</b>		
Select from campus approved list and/or see individual concentration. <sup>5</sup>		9
<b>ACES Prescribed Course</b>		
ACES 101	Contemporary Issues in ACES	2
<b>Required Concentration</b>		
Concentration prescribed courses. See specific requirements for each concentration listed below.		
<b>Total Hours<sup>6</sup></b>		<b>126 or 130</b>

- <sup>1</sup> Students in the Food Science Concentration must choose CPSC 116, and one course from Western cultures, and one from U.S. minority cultures from campus approved lists.
- <sup>2</sup> Students in the Food Science Concentration must select from MATH 220 or MATH 221.
- <sup>3</sup> Students in the Hospitality Management Concentration must take CHEM 101. All other concentrations take CHEM 102 + 103 & CHEM 104 + 105, which are **not** required for the Hospitality Management Concentration.
- <sup>4</sup> Not required for the Food Science Concentration
- <sup>5</sup> AGED 230 or 260 and 3 hours selected from the campus approved list for students in the Food Science Concentration - 6 hours total.
- <sup>6</sup> The Food Science Concentration requires a minimum of 130 hours; the Dietetics, Human Nutrition, and Hospitality Management Concentrations each require a minimum of 126 hours.

Code	Title	Hours
<b>Other Natural Science and Technology Required</b>		
CHEM 232	Elementary Organic Chemistry I	4
CHEM 233	Elementary Organic Chem Lab I	2
MCB 244	Human Anatomy & Physiology I	3
MCB 246	Human Anatomy & Physiology II	3
MCB 450	Introductory Biochemistry	3
<b>Human Nutrition Required</b>		
FSHN 101	The Science of Food and How it Relates to You	3
FSHN 220	Principles of Nutrition	4
FSHN 420	Nutritional Aspects of Disease	3
FSHN 426	Biochemical Nutrition I	3
FSHN 427	Biochemical Nutrition II	3
<b>Select a minimum of two courses from the following list of Restricted Electives:</b>		<b>6</b>
FSHN 249	Food Service Sanitation	
FSHN 302	Sensory Evaluation of Foods	
FSHN 322	Nutrition and the Life Cycle	
FSHN 329	Communication in Nutrition	
FSHN 344	Business Etiquette	
FSHN 345	Strategic Operations Management	
FSHN 398	Undergraduate Seminar	
FSHN 414	Food Chemistry	
FSHN 418	Food Analysis	
FSHN 421	Pediatric Clinical Nutrition	
FSHN 425	Food Marketing	
FSHN 428	Community Nutrition	

FSHN 429	Nutrition Assessment & Therapy
FSHN 440	Applied Statistical Methods I
FSHN 460	Food Processing Engineering
FSHN 465	Principles of Food Technology
FSHN 471	Food & Industrial Microbiology
FSHN 480	Basic Toxicology
FSHN 481 & FSHN 483	Food Processing Unit Operations I and Food Processing Unit Operations II (8 week courses)
<b>Science electives: A minimum of two science courses from below list. Courses cannot be used to fulfill other requirements.</b>	
ANSC 100	Intro to Animal Sciences
ANSC 110	Life With Animals and Biotech
ANSC 207	The Science of Pets and How to Care for Them
ANSC 221	Cells, Metabolism and Genetics
ANSC 222	Anatomy and Physiology
ANSC 223	Animal Nutrition
ANSC 224	Animal Reproduction and Growth
ANSC 350	Cellular Metabolism in Animals

Elective hours as needed to reach minimum of 126

## Learning Outcomes: Human Nutrition Concentration

Learning outcomes for the degree of Bachelor of Science Major in Food Science & Human Nutrition: Human Nutrition Concentration

---

All graduates of the University of Illinois Human Nutrition concentration will be able to:

1. Demonstrate critical thinking, problem solving and communication skills.
2. Understand basic sciences relevant to nutrition, research and application of nutrition and an awareness of social and economic factors in food.
3. Prepared to pursue careers in the food, health, and fitness industries, or enter medicine, dentistry, nursing, and other health professions.

# Foreign Language Teaching

## Curricula Preparatory to Teach Foreign Languages

The College of Liberal Arts and Sciences offers curricula for the preparation of teachers of French (<http://catalog.illinois.edu/undergraduate/las/academic-units/french-italian/curriculum-preparatory-teaching-french/>), German (<http://catalog.illinois.edu/undergraduate/las/academic-units/german/curriculum-preparatory-teaching-german/>), Latin (<http://catalog.illinois.edu/undergraduate/las/academic-units/classics/teach-latin/>), and Spanish (<http://catalog.illinois.edu/undergraduate/las/academic-units/spanish-portuguese/teaching-spanish-major/>).

Illinois law requires all candidates for licensure in World Languages pass the appropriate language content-area test prior to student teaching, and an oral proficiency test in their content major language prior to licensure.

A student must have at least 2.5 (A+ = 4.0) cumulative and University of Illinois grade point averages to remain in the teaching option. A student must also maintain at least a 2.5 grade point average in all attempts at content area and pedagogy courses taken at the University of Illinois in order to remain in the teaching option.

E-mail: [flte@illinois.edu](mailto:flte@illinois.edu)

### Prerequisite to application to the Teaching Option

GPA of 2.5 in all content courses in the intended majors of French, German, Latin, Spanish.

General Education Requirements: Students in the Foreign Language Teaching Curricula of French, German, Latin, and Spanish will be expected to complete the Campus General Education (<https://courses.illinois.edu/>) requirements (including the campus general education language requirement).

Code	Title	Hours
FLTE 471	Introduction to Second Language Teaching	4
FLTE 475	Learning to Teach World Language	4
FLTE 478	Secondary World Language Teaching <sup>1</sup>	4
EPS 201	Foundations of Education	3
EPSY 201	Educational Psychology	3
SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	8
Total Hours		29

<sup>1</sup> In the fall semester, students enroll for 3 hours with instruction occurring in the first 10 weeks. In the spring semester, students enroll for 1 hour with instruction occurring in the first 4 weeks.

## French, BALAS

*for the degree of Bachelor of Arts in Liberal Arts and Science Major in French*

---

**department website:** <https://frit.illinois.edu/>

**department faculty:** French & Italian Faculty (<https://frit.illinois.edu/directory/faculty/>)

**advising:** French & Italian advising (<https://frit.illinois.edu/academics/advising/>)

---

The **BALAS in French** allows students to specialize in one of the following concentrations:

The French Studies concentration focuses on courses in language, literature, culture, film, and linguistics.

The French Commercial Studies concentration combines a focus on French language and culture with appropriate courses in business.

Select a concentration in consultation with your adviser.

- French Commercial Studies Concentration (p. 352)
- French Studies Concentration (p. 353)

### Undergraduate degree programs in French & Italian:

French, BALAS (p. 352)

Teaching of French, BA (p. 727)

Italian, BALAS (p. 434)

---

### 5 Year BALAS /MA in French and European Union Studies

The Department of French and Italian with the European Union Center offers a 5-year BALAS/MA degree program in French and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

FR 337	Contemporary France	
<b>Literature Courses</b>		
Two courses at the 300- or 400-level in French and/or Francophone literature		6
<b>Medieval and Early Modern Period course</b>		

Students must take one course focused on the medieval/early modern period. Students may choose from FR 335 or FR 301. This course can be used to fulfill the Culture or Literature Courses requirement.

Electives

Three French courses at the 300- or 400-level in any of the following areas: language and translation, business, cinema, culture, linguistics, literature, media. 9

Total Hours 37

# Learning Outcomes: French, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts and Science Major in French

Upon graduating with a major in French, students shall be able to do the following:

1. **Language proficiency and accuracy:** reach an advanced level of proficiency and accuracy in reading, writing, listening, and speaking in interpretive, presentational, and interpersonal modes of communication(based on proficiency guidelines outlined by the American Council on the Teaching of Foreign Languages [ACTFL]and the Common European Framework of Reference for Languages [CEFR]).
2. **Research skills and literacy in texts, media, and technology in French:** access, manage, evaluate, select, and effectively use culturally authentic and relevant sources according to the standards of professional conduct; understand how these resources relate to language and culture; use appropriate tools when interpreting sources, interacting with others, and producing written, oral, or visual content.
3. **Intercultural awareness, knowledge, and competence:** identify and analyze products, practices, and perspectives of the French and Francophone world, and compare them to their own and other cultures.
4. **Knowledge about literature and the visual arts in French:** acquire general and specific knowledge of literature in French and visual arts from a formal, historical, and global perspective.
5. **Knowledge about French linguistics:** acquire general knowledge about the structure and history of the French language.

# Gender & Women's Studies, BALAS

**department website:** <https://www.gws.illinois.edu/>

**department faculty:** Gender & Women's Studies Faculty (<https://gws.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [gws-email@illinois.edu](mailto:gws-email@illinois.edu)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Gender & Women's Studies*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction: To be eligible for graduation with distinction, a student must have a cumulative grade-point average (GPA) of 3.5 and a 3.5 GPA within the major.**

High distinction. To be eligible for graduation with high distinction, a student must have a cumulative grade point average (GPA) of 3.5, a GPA of 3.7 within the major, and complete a thesis or project in a 400-level GWS course that is approved by the department.

**Advising:** The Department of Gender and Women's Studies provides advising for students to help plan a coherent program of study.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Required Courses</b>		
GWS 201	Race, Gender & Power	3
GWS 202	Sexualities	3
GWS 498	Senior Seminar	3
GWS 350	Feminist & Gender Theory	3
or GWS 370	Queer Theory	
<b>Additional Coursework <sup>1</sup></b>		
At least 15 additional hours of coursework offered by the Gender & Women's Studies Department, with no more than 3 hours at the 100 or 200 level. Required courses are offered by the Department of Gender & Women's Studies and are on an approved list maintained in the department office and with the GWS advisor.		15
<b>Area Electives</b>		
Two courses in Gender and Women's Studies. No more than one may be counted from the 100 or 200 level. For a list of approved courses contact the GWS department or the GWS advisor.		6
Of the 33 hours in the major, students must take at least one course focused on transnational or non-U.S. issues. For a list of approved courses contact the GWS department or the GWS advisor.		
Total Hours		33

<sup>1</sup> *Topics courses (GWS 199, GWS 295, GWS 395, GWS 495) may count up to 3 hours toward the additional coursework with consent of the GWS advisor. GWS 390 or GWS 490 may count up to 3 hours toward additional coursework with consent of the GWS advisor.*

## Learning Outcomes: Gender and Women's Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Gender and Women's Studies

- 1. Intellectual Reasoning and Knowledge:** Students will acquire a level of proficiency in Gender and Women's Studies, which can include but is not limited to broad and deep knowledge about feminist movements, intersectionality, queer and trans studies, imperialism and coloniality, and feminist and queer theories and methods across academic disciplines and fields. Students will learn that feminisms are both historical movements as well as bodies of critical inquiry, encompassing a wide range of actors and objects of study, including forms of information retrieval and knowledge production.

2. **Critical Inquiry and Creative Literacy:** Students will apply feminist and queer theories in developing their own capacities for critical inquiry and creative literacy. Students will also exercise their skills in oral and written communication, expressing new ideas in scholarly compositions and also generating multidisciplinary projects.
3. **Social Awareness and Understanding Power:** Students will recognize the gendered dimensions of social, philosophical, aesthetic, cultural, and political claims about national and global movements and events. Students will become familiar with feminist and queer theories and movements that consider together indigeneity, race, religion, nation, disability, gender, and sexuality to understand historical and contemporary formations of power.
4. **Self-Reflexivity and Community Engagement:** Students will demonstrate self-reflexivity about their ideas and social and political positions in their classrooms and communities, learning how to build and sustain relationships in striving for both immediate harm reduction and long-term social justice.
5. **Global Consciousness:** Students will understand how complex and interdependent forces –environmental, social, cultural, economic, and political – shape a range of possibilities and foreclosures for individuals and populations unevenly across the world, learning to apply indigenous, postcolonial, and transnational feminist and queer critiques to those forces.

## Geography & Geographic Information Science

**department website:** <https://www.ggis.illinois.edu/>

**department faculty:** Geography & GIS Faculty (<https://www.ggis.illinois.edu/people/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** g (geology@illinois.edu) eography@illinois.edu (geography@illinois.edu)

Students interested in majoring in Geography and Geographic Information Science may choose the Bachelor of Arts in Liberal Arts & Sciences (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/>), or the Bachelor of Science in Liberal Arts & Sciences (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/>).

Students pursuing the Bachelor of Arts in Liberal Arts & Sciences select one of two concentrations:

General Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/general-geography/>)

Geography majors integrate social science, physical science, and technology in their study of how humans use the Earth's surface. Majors in Geography & GIS can sample courses from different subfields of geography without having to choose one specialty of the discipline. Upon completion, the students are prepared for diverse employment opportunities, or further studies in a geography graduate program.

Human Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-balas/human-geography/>)

The Human Geography concentration allows students to specialize in the social science aspect of modern geography. The curriculum includes the systematic study of human social organization and its environmental consequences. Employment opportunities for human geographers include urban and regional planning, transportation, marketing, real estate, tourism, and international business.

Students pursuing the Bachelor of Science in Liberal Arts & Sciences select one of two concentrations:

Geographic Information Science Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/geographic-information-science/>)

The Geographic Information Science (GIS) concentration emphasizes the creation, use and analysis of digital geographic information to examine economic, environmental, physical and social phenomena. The GIS concentration provides students with in-depth training in contemporary software packages to prepare them for careers in the field. There is growing demand for professional knowledge of the earth's systems and the use of geographic information systems to enhance business, protect the environment and manage the massive amounts of spatial data now widely available on the internet. The U.S. Department of Labor has identified geospatial technologies as one of the fastest-growing domestic job sectors.

Physical Geography Concentration (<http://catalog.illinois.edu/undergraduate/las/geography-geographic-information-science-bslas/physical-geography/>)

The Physical Geography concentration examines the earth sciences including patterns of climates, land-forms, vegetation, soils, and water. Graduates of our physical geography concentration will be equipped for careers in infrastructure development, land and water resources management, and surveying.

## Geography & Geographic Information Science, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences: Major in Geography & Geographic Information Science*

**department website:** <https://www.ggis.illinois.edu/>

### Undergraduate Degree Programs in Geography & Geographic Information Science

**For the Degree of Bachelor of Science in Liberal Arts and Sciences**

- Major in Computer Science & Geography & GIS, BSLAS (p. 245)
- Major in Geography & Geographic Information Science, Geographic Information Science Concentration, BSLAS (p. 361)
- Major in Geography & Geographic Information Science, Physical Geography Concentration, BSLAS (p. 363)

**For the Degree of Bachelor of Arts in Liberal Arts and Sciences**

- Major in Geography & Geographic Information Science, General Geography Concentration, BALAS (p. 358)
- Major in Geography & Geographic Information Science, Human Geography Concentration, BALAS (p. 359)

*for the degree of Bachelor of Arts in Liberal Arts & Sciences: Major in Geography & Geographic Information Science, General Geography Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours).

**Departmental distinction:** Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

- For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.
- For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.
- For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** A minimum of 35 credit hours of Geography and Geographic Information Science courses. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

### Geography and Geographic Information Science Core Requirements

## Geography & Geographic Information Science: Human Geography, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences: Major in Geography & Geographic Information Science, Human Geography Concentration*

**department website:** <https://ggis.illinois.edu/>

**department faculty:** Geography & GIS Faculty (<https://ggis.illinois.edu/directory/faculty/>)

**advising:** Geography & GIS advising (<https://ggis.illinois.edu/academics/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [geography@illinois.edu](mailto:geography@illinois.edu)

### Undergraduate Degree Programs in Geography & Geographic Information Science

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

- Major in Computer Science & Geography & GIS, BSLAS (p. 245)
- Major in Geography & Geographic Information Science, Geographic Information Science Concentration, BSLAS (p. 361)
- Major in Geography & Geographic Information Science, Physical Geography Concentration, BSLAS (p. 363)

#### For the Degree of Bachelor of Arts in Liberal Arts and Sciences

- Major in Geography & Geographic Information Science, General Geography Concentration, BALAS (p. 358)
- Major in Geography & Geographic Information Science, Human Geography Concentration, BALAS (p. 359)

### *for the degree of Bachelor of Arts in Liberal Arts & Sciences: Major in Geography & Geographic Information Science, Human Geography Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office by the beginning of the fifth semester (60-75 hours).

**Departmental distinction:** Students majoring in Geography and Geographic Information Science can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

- For distinction: 3.3 GPA overall; 3.3 GPA in GGIS courses.
- For high distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses.
- For highest distinction: 3.3 GPA overall; 3.75 GPA in GGIS courses; satisfactorily complete an independent project (GEOG 391).

Students should consult their advisors regarding distinction requirements as soon as they enter the major (no later than the end of their junior year).

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**  
**Minimum required major and supporting course work: A minimum of 35 credit hours of Geography and Geographic Information Science courses. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

## Learning Outcomes: Geography & Geographic Information Science, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geography & Geographic Information Science

### 1. Geographic Understanding

- Definition: GGIS students will understand the interconnectedness of places and scales in human-environmental systems, including the sustainability of those systems.

### 2. Spatial Patterns and Processes

- Definition: GGIS students will be able to analyze spatial patterns, distributions, processes, and connections within and among different human-environmental systems, using qualitative, quantitative, computational, and/or spatial methods of research appropriate to their level of training and their field of geographic inquiry.

### 3. Problem-Solving and Communication

- Definition: GGIS students will be able to formulate and conduct geographic analyses and communicate the results in verbal, written, and visual form.

# Geology

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)

**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

Students interested in majoring in geology may choose the Specialized Curriculum in Geology (<http://catalog.illinois.edu/undergraduate/las/geology-bs/#degreerequirementstext>), leading to the Bachelor of Science Major in Geology, or the Geology Major (<http://catalog.illinois.edu/undergraduate/las/geology-bslas/#degreerequirementstext>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The Specialized Curriculum in Geology is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology areas, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum.

The Geology Major in the Science and Letters Curriculum is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Curriculum in Geology.

## Geology, BS

*for the degree of Bachelor of Science Major in Geology (Specialized Curriculum)*

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)

**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=225782>)

**advising:** Geology advising (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=258530>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The **Specialized Curriculum in Geology (BS)** is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology areas, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum. Students must choose one of the following: Geology, Geophysics, or Environmental Geology.

### Undergraduate Degree Programs in Geology

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 371)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 372)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 374)

#### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 366)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 369)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 368)

*for the degree of Bachelor of Science Major in Geology*

## Specialized Curriculum

Graduation requires a grade point average of at least 2.0 overall and a 2.0 average in all required science and technical courses (geology, physics, mathematics, chemistry, and technical requirements listed below). The Department of Geology will supply upon request a Guide for Geology Undergraduates giving more information about the curriculum.

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 126 hours.**

Code	Title	Hours
<b>Chemistry: Select one group of courses:</b>		<b>8-9</b>
CHEM 102	General Chemistry I	
CHEM 103	General Chemistry Lab I	
CHEM 104	General Chemistry II	
CHEM 105	General Chemistry Lab II	
or		
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II	
<b>45 hours of Geology Courses: <sup>1</sup></b>		
GEOL 107	Physical Geology <sup>2</sup>	4
GEOL 208	History of the Earth System	4
GEOL 143	History of Life	3
GEOL 411	Structural Geol and Tectonics	4
GEOL 417	Geol Field Methods, Western US <sup>3</sup>	6
GEOL 432	Mineralogy and Mineral Optics	4
GEOL 436	Petrology and Petrography	4
GEOL 440	Sedimentology and Stratigraphy	4
Select one of the following:		3-4
GEOL 450	Investigating the Earth's Interior	
or GEOL 452	Introduction to Geophysics	
GEOL 460	Geochemistry	3
6 additional hours 300- or 400-level geology		6
<b>Mathematics</b>		<b>13-15</b>
MATH 220	Calculus	
or MATH 221	Calculus I	
MATH 231	Calculus II

<b>Physics. Select one group of courses:</b>		<b>8-10</b>
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
or		
PHYS 101	College Physics: Mech & Heat	

PHYS 102	College Physics: E&M & Modern
<b>Additional Technical Requirements</b>	
Select at least 3 hours from the following:	
IB 103	Introduction to Plant Biology
IB 104	Animal Biology
CS 101	Intro Computing: Engrg & Sci
CS 125	Introduction to Computer Science
CPSC 440	Applied Statistical Methods I
STAT 400	Statistics and Probability I
MATH 285	Intro Differential Equations
MATH 441	Differential Equations
PHYS 213	Univ Physics: Thermal Physics
PHYS 214	Univ Physics: Quantum Physics

- <sup>1</sup> Students transferring into the geology concentration from another science or engineering program may substitute up to 8 hours of 300-or 400-level science or engineering credits for 8 hours of 300-or 400-level geology courses with departmental approval.
- <sup>2</sup> Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.
- <sup>3</sup> GEOL 417 is a 6-hour summer field course taught off campus.

## Geology: Geophysics, BS

*for the degree of Bachelor of Science Major in Geology, Geophysics Concentration (Specialized Curriculum)*

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)  
**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/people/>)

PHYS 325	Classical Mechanics I
or	
TAM 210	Introduction to Statics
& TAM 212	and Introductory Dynamics
<b>Additional Technical Requirements</b>	
<b>13</b>	
CS 101	Intro Computing: Engrg & Sci
or CS 125 Introduction to Computer Science	
MSE 401	Thermodynamics of Materials
or PHYS 427 Thermal & Statistical Physics	
or CHEM 444Physical Chemistry II	
Six hours of other 300- or 400-level science, math, or engineering courses selected with adviser approval.	

<sup>1</sup> Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

## Geology: Environmental Geology, BS

for the degree of Bachelor of Science Major in Geology, Environmental Geology Concentration (Specialized Curriculum)

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)

**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/people/>)

**advising:** Geology advising (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=258530>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The **Specialized Curriculum in Geology (BS)** is designed for students who plan to pursue graduate study in geology or geophysics or who wish to work professionally in the environmental field upon obtaining the bachelor's degree. It consists of geology, geophysics, and environmental geology areas, and offers more training in geology and related science than is required of students who make geology their major in the Sciences and Letters Curriculum. Students must choose one of the following: Geology, Geophysics, or Environmental Geology.

### Undergraduate Degree Programs in Geology

#### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 371)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 372)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 374)

#### For the Degree of Bachelor of Science in Geology

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 366)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 369)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 368)

*for the degree of Bachelor of Science Major in Geology, Environmental Geology Concentration*

Graduation requires a grade point average of at least 2.0 overall and a 2.0 average in all required science and technical courses (geology, physics, mathematics, chemistry, and technical requirements listed below). The Department of Geology will supply upon request a Guide for Geology Undergraduates giving more information about the curriculum.

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**High Distinction:** A minimum cumulative grade point average of 3.5, and have also completed an approved independent study project, approved senior thesis, or approved capstone

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and also completed an approved senior thesis or approved research capstone

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum hours required for graduation: 126 hours.**

TAM 211	Statics

<sup>1</sup> Students who decide to follow the curriculum after first taking GEOL 100 or GEOL 103 should enroll in GEOL 208. GEOL 100 or GEOL 103 will be accepted as a substitute for GEOL 107, but students should be aware that these courses are not intended for science majors.

<sup>2</sup> GEOL 417 is a 6-hour summer field course taught off campus.

## Learning Outcomes: Geology, BS

Learning Outcomes for the degree of Bachelor of Science Major in Geology

1. Students will develop cross-disciplinary skills of observation, data collection, and spatial display of data (e.g., map making) related to geological materials, features, and processes.
2. Students will develop an understanding of the physical, chemical and mathematical theories fundamental to earth processes through rigorous coursework and research.
3. Students will develop and apply critical thinking skills to synthesize principles learned in the classroom, and data collected in the laboratory and in the field in order to evaluate hypotheses and solve geological problems.
4. Students will demonstrate the ability to communicate effectively scientific data, interpretations, and hypotheses through written and oral methods.
5. Students will hone and apply interpersonal skills in a professional setting through group work, research activities, and field studies.

## Geology, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters)

**department website:** <https://www.geology.illinois.edu/undergraduate> (<https://www.geology.illinois.edu/undergraduate/>)  
**department faculty:** Geology Faculty (<https://www.geology.illinois.edu/people/>)  
**advising:** Geology advising (<https://www.geology.illinois.edu/cms/One.aspx?portalId=127672&pageId=258530>)

**college website:** <https://las.illinois.edu/>  
**email:** [geology@illinois.edu](mailto:geology@illinois.edu)

The **Sciences and Letters Curriculum in Geology (BSLAS)**, administered by the Department of Geology, is designed for students who want a more flexible course of study than is provided by the Specialized Curriculum in Geology and Geophysics. It may be used by those wishing to obtain a more liberal education and/or background in geology for use in fields such as anthropology, business, mineral economics, regional planning, journalism, law, sales, or library and information science. It is

not intended to prepare a student for graduate work in the geological sciences unless the student selects additional courses in mathematics, chemistry, and physics comparable to those required in the Specialized Geology and Geophysics Curriculum. Students must choose from the following: Geology, Earth and Environmental Sciences, or Earth Science Teaching. The Earth Science Teaching Concentration is designed for students preparing to teach earth science at the secondary school level.

## Undergraduate Degree Programs in Geology

### For the Degree of Bachelor of Science in Liberal Arts and Sciences

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 371)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 372)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 374)

### Undergraduate Degree Programs in Geology

#### **For the Degree of Bachelor of Science in Liberal Arts and Sciences**

Students select one of the following in consultation with an adviser:

- Major in Geology (Sciences and Letters) (p. 371)
- Major in Geology (Sciences and Letters), Earth and Environmental Sciences Concentration (p. 372)
- Major in Geology (Sciences and Letters), Earth Science Teaching Concentration (p. 374)

#### **For the Degree of Bachelor of Science in Geology**

Students select one of the following in consultation with an adviser:

- Major in Geology (Specialized Curriculum) (p. 366)
- Major in Geology (Specialized Curriculum), Environmental Geology Concentration (p. 369)
- Major in Geology (Specialized Curriculum), Geophysics Concentration (p. 368)

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters), Earth Science Teaching Concentration*

This concentration fulfills state certification requirements to teach high school (grades 9-12) Earth and Space Science through the AP/honors level and biology, chemistry, environmental science and physics up to but not including the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters. Some students require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental Distinction:** Students majoring in Geology can earn distinction, high distinction, and highest distinction upon graduation. The requirements for these awards are:

**Distinction:** A minimum cumulative grade point average of 3.3, and must present evidence of exemplary teaching

**High Distinction:** A minimum cumulative grade point average of 3.5, and must present evidence of exemplary teaching

**Highest Distinction:** A minimum cumulative grade point average of 3.7, and must present evidence of exemplary teaching

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 55-59 hours in the concentration and 39 hours for the Teacher Education Minor in Secondary School Teaching. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
GEOL 107	Physical Geology <sup>1</sup>	4
GEOL 208	History of the Earth System	4
GEOL 333	Earth Materials and the Env <sup>2</sup>	4
MATH 220	Calculus	4-5
or MATH 221	Calculus I	
or MATH 234	Calculus for Business I	
<b>Additional Required Coursework</b>		
Teacher Education Minor in Secondary School Teaching ( <a href="http://catalog.illinois.edu/undergraduate/education/secondary/">http://catalog.illinois.edu/undergraduate/education/secondary/</a> )		39
Select one group of courses:		5-6
ASTR 100 & ASTR 131 & ASTR 132	Introduction to Astronomy and The Solar System Lab and Stars and Galaxies Lab	
or		
ASTR 121 & ASTR 122	Solar System and Worlds Beyond and Stars and Galaxies	
ATMS 100	Introduction to Meteorology	3
IB 100	Biology in Today's World	3
Select one group of courses:		4
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	
or		
CHEM 202 & CHEM 203	Accelerated Chemistry I and Accelerated Chemistry Lab I	
GEOL 117	The Oceans	3
GEOL 143	History of Life	3
Advanced-hour course work in Geology		8
Select one group of courses:		10-12

### Requirements for the Teacher Education in Secondary School Teaching Minor

Code	Title	Hours
<b>Professional Education Required Courses</b>		
EDUC 201	Identity and Difference in Education <sup>1</sup>	3
EDUC 202	Social Justice, School and Society <sup>1</sup>	3
CI 401	Introductory Teaching in a Diverse Society	3
CI 403	Teaching a Diverse High School Student Population	3
CI 404	Teaching and Assessing Secondary School Students	3
CI 473	Disciplinary Literacy	3
EPSY 201	Educational Psychology <sup>1, 2</sup>	3
EPSY 485	Assessing Student Performance	3

SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	12
Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

## Learning Outcomes: Geology, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Geology (Sciences & Letters)

- 
1. Students will develop cross-disciplinary skills of observation, data collection, and spatial display of data (e.g., map making) related to geological materials, features, and processes.
  2. Students will develop an understanding of the physical, chemical and mathematical theories fundamental to earth processes through rigorous coursework and research.
  3. Students will develop and apply critical thinking skills to synthesize principles learned in the classroom, and data collected in the laboratory and in the field in order to evaluate hypotheses and solve geological problems.
  4. Students will demonstrate the ability to communicate effectively scientific data, interpretations, and hypotheses through written and oral methods.
  5. Students will hone and apply interpersonal skills in a professional setting through group work, research activities, and field studies.

## Germanic Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies*

**department website:** <https://www.germanic.illinois.edu>

**department faculty:** Germanic Languages & Literatures Faculty (<https://germanic.illinois.edu/directory/faculty/>)

**advising:** German advising (<https://germanic.illinois.edu/academics/german/undergraduate-programs/undergraduate-advisor/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [germanic@illinois.edu](mailto:germanic@illinois.edu)

**The BALAS in Germanic Studies serves to develop competence in German or Scandinavian languages and cultures. Students will gain familiarity with the structure of the language and its use in the context of business, contemporary culture, intellectual history, literature, and science. Students must select one concentration in consultation with an adviser:**

- German Studies Concentration (<http://catalog.illinois.edu/undergraduate/las/germanic-studies-balas/german-culture-literature/>)
- German Business & Commercial Studies Concentration (p. 377)
- Scandinavian Studies Concentration (p. 380)

**The Department of German Languages & Literatures also offers a BA in the Teaching of German (p. 729).**

### 5 year BALAS/MA in Germanic Studies

The Department of Germanic Languages and Literatures offers a 5-year program leading to two degrees, a BALAS in Germanic Studies and an MA in German. In order to be admitted to this program, student can apply during their second or third year of studies. Requirements for this program are identical to those for the BALAS and the MA in the Department of Germanic Languages and Literatures.

In order to be admitted to the 5-year BALAS/MA during their *second* year, students will need to be in good standing, have finished GER 211 and GER 331, have a general **GPA of 3.0** and a German GPA of 3.0, and be required to write a short essay in German.

In order to apply for the 5-year BALAS/MA during their *third* year, students will have to have finished GER 401 and GER 420, have a general **GPA of 3.0** and a German GPA of 3.0, and be required to write a short essay in German.

The department will continue to monitor the GPAs of students admitted to the BALAS/MA program into their third and fourth years and before formal admission to the Graduate College. The decision about students' admission to the 5-year program will be made by the graduate admissions committee in conjunction with undergraduate and graduate advisors of the department. The Department will consider students in the fifth year of this program for departmental support as Teaching Assistants and Research Assistants, or for fellowships and scholarships.

The minimum total number of hours required for graduation from the BALAS/MA program is 152. Up to 12 hours not required for the BALAS (120 hours) taken during the fourth year can be used to meet the requirements for the MA (32 hours). Students admitted to the program will receive both degrees once all requirements for the 5-year BALAS/MA degree program have been successfully completed. More detailed information may be obtained from the departmental office.

### 5 Year BALAS/MA in German and European Union Studies

The Department of Germanic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in German (including a Scandinavian Studies Concentration) and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the standalone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## Germanic Studies: German Business & Commercial Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies, German Business & Commercial Studies Concentration*

## Learning Outcomes: Germanic Studies, BALAS

### Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Germanic Studies

1. *Language ability*: Students develop and improve their foreign language abilities, i.e. their ability to read, speak, write, and listen in German and/or a modern Scandinavian language in order to work with texts and communicate with others in these languages.
2. *Cultural-historical literacy and knowledge*: Students develop and improve their ability to function in non-native cultural-historical and linguistic contexts and communities in order to respect and navigate cultural differences and build upon similarities. Furthermore, students will synthesize knowledge relevant to broad cultural and linguistic areas within German and/or Scandinavian studies in order to apply that knowledge toward the other learning outcomes outlined here.
3. *Analytical and argumentative skills*: Students develop and improve their abilities to analyze diverse cultural artifacts in order to apply analytical thinking and discursive skills to the construction of sound, supported, factual argumentation rather than merely expression of opinion, completely or in part.
4. *Writing development*: Students will demonstrate and produce well-written, communicative, argumentative, and interpretive texts in German, Swedish, and/or English in order to competently meet diverse writing tasks carried out in any of the relevant languages above. Furthermore, students will be able to carry out various forms of research in support of their writing in order to create more substantive texts, which are also genre appropriate and written for a particular audience.

## 5 Year BALAS/MA in Global Studies and European Union Studies

The Program in Global Studies with the European Union Center offers a 5-year BALAS /MA degree program in Global Studies and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Global Studies

A Major Plan of Study Form must be completed and submitted to the Global Studies academic advisor before the end of the fourth semester (60 hours) and prior to the required study abroad. Please see your advisor.

**Departmental distinction:** The department may award distinction, high distinction, or highest distinction to any Global Studies major whose overall and major grade point averages are 3.25 or higher, who successfully completes 3 hours of GLBL 494 or other approved research methods course and who completes a distinction research project. See the departmental academic advisor for details.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.  
**Minimum required major and supporting course work:** Normally equates to 51-52 hours and includes a semester-long full time study abroad program and a minimum of 12 hours of 300- and 400-level courses.  
**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
<b>Foundations Requirements</b>		
GLBL 100	Intro to Global Studies	3
Global Studies. Four courses must be selected from the approved course list; they must include no more than one course from four of the following six departments: Anthropology, Economics, Geography, History, Political Science, and Sociology.		12
Global Studies Seminars. Students study current events and contemporary global issues. Select three courses from GLBL 296 or one GLBL 298 course and one GLBL 296 course.		3-4
<b>Language and Culture Requirements</b>		
Language. Select courses from the approved course list in a language other than your primary language(s). These various courses represent the 5th and 6th level of study.		6
Area Studies. 200- to 400-level courses which complement the language requirement must include work in at least two disciplinary departments. Area Studies and Language must be geographically related and correspond to language and study abroad location.		9
One Semester (Fall or Spring) Study Abroad. Students study a variety of subjects in an approved study abroad program that furthers their language and cultural knowledge or their cultural knowledge and thematic area knowledge. Students must be enrolled full-time to receive credit toward this requirement.		
<b>Thematic Area Requirements</b>		
Students choose an approved thematic area and, in consultation with a Global Studies advisor, construct an appropriate customized curriculum of a minimum of 18 hours. Students cannot include more than 3 hours of 100-level work and must complete 9 hours of 300- and 400-level coursework. Courses must be taken from more than one department. Approved thematic areas are:		18
A. Cultures in Contact		
B. Wealth and Poverty in a Globalized World		
C. Human Rights		
D. Governance, Conflict and Resolution		

E. Knowledge, Communication and Information Systems

F. Environment, Sustainability, and Social Responsibility

G. Global Health

Optional Senior Capstone. Students do an individual research project (GLBL 200, 494 and GLBL 495) based on their Thematic Area.

Total Hours

51-52

### 5 Year BALAS/MA in Global Studies and European Union Studies

Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## Learning Outcomes: Global Studies, BALAS

Learning outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Global Studies

**Student Learning Outcomes:** LAS Global Studies strongly supports the campus-wide Student Learning Outcomes as recognized by the Office of the Provost Committee on Student Learning Outcomes. Global Studies majors will be able to:

1. Global Consciousness is not only our most important learning outcome, it is one that we extend beyond its definition in the 2017 SLOs.
  - a. Our majors will discover how complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions
  - b. Beyond that however, they will have developed new skills in how to research these interconnections
  - c. Required advanced language acquisition and study abroad are indispensable in developing global consciousness.
2. Creative Inquiry and Discovery is a learning outcome we continue to give an increasing emphasis.
  - a. Our majors will apply knowledge to promote inquiry, discover solutions, and generate new ideas and creative works and beyond that an increasing number will also conduct their own research.
3. Intellectual Reasoning and Knowledge is produced not only through courses but also through study abroad programs.
4. Gain Social Awareness and Cultural Understanding as a learning outcome is secured through intensive experiential, cross-cultural learning through coursework, advanced language study and study abroad.
  - a. Study abroad and advanced language acquisition will foster cultural and linguistic immersion, community engagement, intercultural competency and creative inquiry.
  - b. Experiential learning can take place in local, national and global settings.
  - c. All of these are crucial in developing a critical and reflective orientation toward such social and cultural differences as race, indigeneity, gender, class, sexuality, language, and disability.
5. Effective Leadership and Community Engagement are important skills our students acquire through developing their ability to make deliberate and independent choices about their intellectual and professional trajectories and through combining coursework and experiential learning with the pursuit of leadership opportunities (such as the Global Studies Leaders), fieldwork, RSO engagement, volunteer opportunities, and internships with governmental and non-governmental organizations.

# Graphic Design, BFA

for the degree of Bachelor of Fine Arts Major in Graphic Design

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** mavery@illinois.edu

**phone:** (217) 333-6632

**department website:** School of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The curriculum in graphic design requires 122 credit hours and prepares the student for entrance into the professional practice of design visual communications. Studio work addresses graphic design fundamentals (typography and image making), design history and contemporary practices, research methods, user experience, and social responsibility. Students engage with complex problems and are asked to identify opportunities where design can intervene. In addition, students have the opportunity to develop their personal interests by taking advantage of a highly interdisciplinary selection of elective courses offered by the School of Art + Design, including photography, video, traditional printmaking, sustainability, advanced interaction design, and the design of Ninth Letter (<http://www.ninthletter.com/>), a nationally-distributed and award-winning literary arts journal.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

for the degree of Bachelor of Fine Arts Major in Graphic Design

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

## Learning Outcomes: Graphic Design, BFA

*Learning outcomes for the degree of Bachelor of Fine Arts Major in Graphic Design*

1. A deep understanding of effective typography and image relationships as used in the graphic design discipline.
2. Ability to realize an idea through an iterative creative making process of refinement.
3. Skills to see, research, organize, and visualize abstract ideas across multiple media.
4. Ability to use and embrace the research methods, frameworks, tools, technologies, and techniques of the graphic design discipline as it evolves.
5. Ability to apply knowledge of perception, cognition, and embodiment.
6. An understanding of the diverse professional, social, and ethical impacts of the graphic design discipline.
7. Understanding the use of tools and technology, including their roles in the creation, reproduction, and distribution of visual messages.

# History of Art, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences, major in History of Art

**department website:** Art History information (<http://www.art.illinois.edu/index.php/prospective/academics/undergraduate-programs/art-history/>)

**advising information:** LAS Advising site (<http://www.las.illinois.edu/students/advising/declared/>)

**department faculty:** Art History Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The Program in Art History is unique at the University of Illinois, Urbana-Champaign. Though housed in the School of Art and Design in the College of Fine and Applied Arts, the Program in Art History offers a Bachelor of Arts degree in the History of Art from the College of Liberal Arts and Sciences. The College of Liberal Arts and Sciences administers admission to the major in the History of Art; however, the Program in Art History advises all History of Art majors.

The curriculum in the History of Art requires 120 credit hours and offers a broad historical and cultural education related to the visual and built world. The curriculum provides sound preparation for the graduate study required for museum work or teaching at the college level.

for the degree of Bachelor of Arts in Liberal Arts & Sciences, major in History of Art

**Departmental distinction:** To be eligible for distinction, a student must earn a high grade point average and complete at least 4 semester hours of independent research to write a senior research paper. See the undergraduate adviser for details.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
<b>Total required Core Hours</b>		<b>39</b>
<b>1 course in studio art, graphic design or industrial design</b>		<b>3</b>
<b>1 foundational gateway course at the 100-level:</b>		<b>3</b>
ARTH 110	Introduction to the History of Art and Visual Culture	
<b>Three (3) Supporting Courses in the Humanities offered by LAS:</b>		<b>9</b>
These courses must be approved by the Art History advisor and be outside the field of art history with the goal of enhancing the student's understanding of the cultural context within which works of art and architecture have been created.		
See list of Approved Supplemental Courses below		
<b>Six (6) 200-400 level courses in Art History, offered in the School of Art &amp; Design <sup>1</sup></b>		<b>18</b>
Students must take at least one course in three of the following areas: 1) Africa and the Middle East; 2) Asia; 3) the Americas; 4) Europe		
At least one course must cover material before 1700		
At least one course must cover material after 1700		
With an advisor's approval, up to 6 credit hours of courses in the history of architecture or landscape architecture at the 200-400 level may be taken towards the fulfillment of these required hours		
Though students must take a total of 6 courses, some may count toward the fulfillment of more than one area and period requirement. For instance, a course in 20th century African art could count as a class covering both Africa and the Middle East and material after 1700.		
<b>Two (2) seminars in Art History at the 400-level</b>		<b>6</b>
Courses must be designated as art history seminars (not all 400-level courses have this designation), or be approved as a seminar by the undergraduate advisor		
See approved list below		
<b>Total Hours required for graduation</b>		<b>120</b>

<sup>1</sup> Though students must take a total of 6 courses, some courses may count toward the fulfillment of more than one area and period requirement. For instance, a course in 20th century African art could count as a class covering both Africa and the Middle East and material after 1700.

Studying History at the University of Illinois, Urbana-Champaign will prepare you for informed participation in public life and wide array of career paths, including in law, government, public policy, business, film-making, teaching, advertising, public relations, social work, the media, publishing, diplomacy, and military intelligence. The requirement that every Illinois History major successfully complete a work of original historical research means that our graduates have a demonstrated capacity to think contextually, locate and analyze evidence, evaluate competing viewpoints, assess causation, offer new interpretations, and solve complex problems.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in History

**Departmental distinction:** To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 498, HIST 492 and successful completion of either:

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR
2. The completion of two approved independent research projects under the supervision of two different advisors (HIST 490). (in which case, students will be eligible for an award of distinction only, but not high or highest distinction).

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major course work: 36 hours of History courses.**

Code	Title	Hours
Minimum of 36 hours of History courses including:		
	Two introductory History courses at the 100 level (preliminary coursework)	6
	African, Asian, Global, Latin American, Middle Eastern History courses at the 200-level or above, at least 3 hours at the 300 level or above <sup>1</sup>	6
	European History courses at the 200-level or above, at least 3 hours at the 300 level or above <sup>1</sup>	6
	U.S. History courses at the 200-level or above, at least 3 hours at the 300 level or above. 3 hours must be in U.S. Minority History. <sup>1</sup>	6
	Hours of history electives (at the 200-level or above). NOTE: HIST 200 and HIST 498 are required. HIST 200 and HIST 498 may count toward any of the area requirements or the 12 hours of History electives. For those students in the Honors Program, HIST 490 or HIST 493 may count toward any of the area requirements or the 12 hours of History electives. HIST 492 and HIST 499 must be taken as part of the 12 hours of required History electives.	12
	Of the 36 hours of History courses, students must take 6 hours in a pre-modern period, one defined as before 1600 and one defined as before 1800 (HIST 100 and HIST 142 may not be used to fulfill this requirement). <sup>1</sup>	
<b>Total Hours required for graduation<sup>2</sup></b>		<b>120</b>

<sup>1</sup> Chosen from the list maintained in the Department of History

<sup>2</sup> Eighteen advanced hours (300- and 400-level) of History courses are required in the major. 12 of those 18 advanced hours must be taken on this campus.

## History: Social Science: History Teaching, BALAS

For the Degree of Bachelor of Arts in Liberal Arts & Sciences Major in History, History Teaching Concentration

**department website:** <https://www.history.illinois.edu/> (<https://history.illinois.edu/>)

**department faculty:** History Faculty (<https://history.illinois.edu/directory/faculty/>)

**advising:** History advising (<https://history.illinois.edu/academics/undergraduate-studies/academic-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**email:** [history@illinois.edu](mailto:history@illinois.edu)

This concentration fulfills state certification requirements to teach high school history (grades 9-12) through the AP/honors level and high school economics, geography, political science, psychology, and sociology/anthropology up to but not including the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters, but some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

*For the Degree of Bachelor of Arts in Liberal Arts & Sciences Major in History, History Teaching Concentration*

This concentration fulfills state certification requirements to teach high school history (grades 9-12) through the AP/honors level and high school economics, geography, political science, psychology, and sociology/anthropology up to but not including the AP/honors level.

Time to degree completion varies, but when following the new requirements effective Fall 2020, the expected completion time is 8 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction: To be eligible for distinction, a student must be admitted to the Honors Program in History and complete its required coursework. Those admitted (ideally before the beginning of the junior year) must have earned at least a 3.5 GPA in History and a 3.25 GPA overall. They will then pursue a sequence consisting of HIST 498, HIST 492 and successful completion of either**

1. HIST 493 and HIST 499 in two consecutive semesters (in which case, the level of distinction awarded to student will be decided by the examining committee) OR
2. The completion of two approved independent research projects under the supervision of two different advisors (HIST 490) (in which case, students will be eligible for an award of distinction only, but not high or highest distinction).

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Students are required to take a minimum of 33 hours in History courses. Only one of the following Advanced Composition courses (HIST 140, HIST 143, HIST 170, HIST 173) will count toward the 33 hours required in History courses.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours).**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
Select one of the following Political Science courses:		3
PS 100	Intro to Political Science	
PS 101	Intro to US Gov & Pol	
PS 240	Intro to Comp Politics	
PS 241	Comp Politics in Dev Nations	
PSYC 100	Intro Psych	4
SOC 100	Introduction to Sociology	4
HIST 200	Intro Hist Interpretation	3
Select one course each from two of the following three categories:		6-8
<b>Global History</b>		
HIST 100	Global History	
<b>Western Civilization</b>		
HIST 140	Western Worlds: Ancient and Medieval Societies from the Mediterranean to N. Europe (ACP)	

or HIST 141	Western Worlds: Ancient and Medieval Societies from the Mediterranean to Northern Europe	
HIST 142	Modern Europe and the World	
or HIST 143	Modern Europe and the World - ACP	
<b>United States History</b>		
HIST 170	US History to 1877-ACP	
or HIST 171	US History to 1877	
HIST 172	US History Since 1877	
or HIST 173	US History Since 1877-ACP	
HIST 174	Black America, 1619-Present	
<b>Additional Required coursework</b>		
Teacher Education Minor in Secondary School Teaching ( <a href="http://catalog.illinois.edu/undergraduate/education/secondary/">http://catalog.illinois.edu/undergraduate/education/secondary/</a> )		39
<b>United States History</b>		
Select one of the following (A US History survey course if not taken as a foundation course):		3-4
HIST 170	US History to 1877-ACP	
or HIST 171	US History to 1877	
HIST 172	US History Since 1877	
or HIST 173	US History Since 1877-ACP	
HIST 174	Black America, 1619-Present	
One 100-400 level course in US history		3
One 100-400 level course in US history focusing on US minorities history		3
HIST 273	Illinois History	3
or HIST 288	American Indians of Illinois	
or HIST 382	Race and Migration in Chicago	
<b>Nonwestern and Global History</b>		
HIST 100	Global History (if not taken as a foundation course)	3
One 100-400 level course in global or nonwestern history		3
One 100-400 level course in global or nonwestern history		3
<b>European History</b>		
Select one of the following (A Western Civ survey course if not taken as a foundation course):		3-4
HIST 140	Western Worlds: Ancient and Medieval Societies from the Mediterranean to N. Europe (ACP)	
or HIST 141	Western Worlds: Ancient and Medieval Societies from the Mediterranean to Northern Europe	
HIST 142	Modern Europe and the World	
or HIST 143	Modern Europe and the World - ACP	
One 100-400 level course in European history		3
One 100-400 level course in European History		3
Students must take HIST 498 - Research and Writing Seminar. Students may count the 3 hours towards any of the history areas noted above: US, Nonwestern/Global, or European.		
Students must complete 12 hours of advanced (300+) coursework in History. HIST 498 may count toward those 12 hours.		
Pre modern requirement: One History course must have a significant pre-1800 component.		
<b>Social Science Requirement</b>		
ECON 102	Microeconomic Principles	3
or ECON 103	Macroeconomic Principles	
One 100-400 level Geography course		3-4

## Learning Outcomes: History, BALAS

Learning outcomes for the degree of Bachelor or Arts in Liberal Arts & Sciences Major in History

1. Historical interpretation:
  - a. Students will be able to connect past and present, demonstrating an understanding of ways that the past has shaped the world we live in today
  - b. Students will be able to grasp the complexity of historical causation

- c. Students will have a broad and empathetic understanding of the commonalities and differences of the human experience, as influenced by factors such as culture, race, ethnicity, gender, and class in a matrix of time and place
  - d. Students will be able to critically assess different sources of information and points of view
2. Historical research:
- a. Students will be able to formulate historical questions
  - b. Students will be able to locate, organize, analyze, and synthesize data to answer these questions
  - c. Students will be able to craft original historical arguments
  - d. Students will be able to position these arguments contextually
3. Historical communication:
- a. Students will be able to express their ideas clearly, logically, and in evidence-based ways
  - b. Students will be able to convey their ideas to different audiences
  - c. Students will be able to evaluate, review, and edit historical writing and other forms of historical communication

# Human Development & Family Studies, BS

for the Bachelor of Science Major in Human Development & Family Studies

**department website:** <https://hdfs.illinois.edu/>

**department faculty:** Human Development & Family Studies Faculty (<https://hdfs.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

The Human Development and Family Studies program prepares students for graduate/professional education or employment in areas such as pediatric services in hospitals, medicine and allied health fields, marriage and family therapy, family law, human resources, child care services, family life education, social work, counseling, human services, and business activities related to children and families. Students select course work according to their interests in human development, such as infancy, early childhood or adolescence, and relationship and family science, such as intimate relationships, parent-child interaction, and family stress and change. Basic courses in these areas are linked to practical experiences in educational and community settings, and most courses emphasize issues related to cultural diversity and gender. Students develop an individualized plan within this major according to their career and professional interests.

## This concentration will no longer accept students: Spring 2022

see Human Development & Family Studies, BS (p. 394)

Students in the Family Studies concentration focus on how families operate, develop, and change in response to the challenges of modern life. Students learn to appreciate the diversity of family life by studying different cultures and how families learn to manage stress and become resilient. Graduates with this concentration are qualified to provide many services to families. Career opportunities include family life educator, human resource specialist, caseworker or family service coordinator. Graduates also may choose to pursue graduate education in a variety of fields, including, marriage and family therapy, social work, policy specialist, psychology, family law, medicine, or human resources.

HDFS 425	Family Stress and Change	4
Three courses selected from:		9
HDFS 225	Close Relationships	
HDFS 420	Inequality, Public Policy, and U.S. Families	
HDFS 426	Family Conflict Management	
HDFS 427		
One course selected from:		3-4
HDFS 301	Infancy & Early Childhood	
HDFS 305	Middle Childhood	
HDFS 310	Adult Development	
HDFS 405	Adolescent Development	
<b>Total Hours</b>		<b>16-17</b>

## Learning Outcomes: Human Development & Family Studies, BS

Learning outcomes for the Bachelor of Science Major in Human Development & Family Studies

1. HDFS students will demonstrate a strong foundation in theories and empirical knowledge associated with human development and family studies (i.e., developmental periods and domains; socialization contexts; diversity among families and children; research methods; family dynamics, transitions, and resilience; and family policy)

- a. Recall key terminology (theoretical, empirical, methodological, substantive concepts)
- b. Describe current and historical challenges affecting individuals and families (e.g., social, political, economic, cultural, ethical, including research ethics)
- c. Summarize key theories, models, and principles (e.g., grand, disciplinary, substantive, methodological)
- d. Apply theories, models, and principles to developmental, relationship, familial, and social issues
- e. Apply knowledge to global contexts
- f. Integrate knowledge across courses and content areas (i.e., human development and family studies; lower level to higher level courses)
- g. Critique current theoretical and empirical knowledge of and methodological approaches to studying human development, relationships, and families
2. *HDFS students will exhibit the skills necessary to effectively apply knowledge and generate new ideas to solve real world issues*
  - a. Use effective written communication
  - b. Use e to achieve group goals
  - c. Apply research-based knowledge to working with children, families, and communities and/or agencies that serve them
3. *HDFS students will demonstrate a critical and reflexive orientation toward and sensitivity to issues of diversity and inclusion*
  - a. Describe the historical and current relevance of diversity and inclusion to individuals, relationships, families, and communities
  - b. Reflect on one's own interconnected positions, privileges, and disadvantages across multiple contexts
  - c. Critically examine one's own beliefs, assumptions, values, attitudes, and biases
  - d. Demonstrate awareness of and sensitivity to issues of diversity and inclusion in one's own work (e.g., written and oral communication)
  - e. Critically evaluate the cultural respectfulness and appropriateness of research, programs, and policies related to human development and families
  - f. Critically evaluate the potential impact of research, programs, and policies on diversity and inclusion
  - g. Demonstrate awareness of global factors (e.g., economic, political, cultural, social) and how they may affect individuals, families and communities
4. *HDFS students will develop professional competence skills and establish well-informed career and professional goals*
  - a. Identify and compare/contrast a range of career options for HDFS majors
  - b. Create professional/job-related materials (e.g., resume, cover letter, purpose statement)
  - c. Connect discipline knowledge to personal and professional life
  - d. Develop leadership skills (e.g., through formal positions; informal mentoring to prospective/new students; representing the department; participation in class teamwork)
  - e. Develop professional connections to support career and professional goals (e.g., relationships with professors, internship supervisors who can serve as references; connections to professionals through attending conferences/workshops or engaging with guest speakers in class)
    - i. Make decisions appropriate grammar and writing mechanics
    - ii. Demonstrate a working knowledge of APA style
    - iii. Respond to constructive criticism (e.g., revision process, peer review)
    - iv. Produce written work that is organized, logical, and fully developed
  - f. Use effective oral communication (e.g., clearly and logically present ideas aloud through presentation to class or group)
  - g. Apply knowledge to formulate and investigate hypotheses or research questions
  - h. Apply knowledge to propose or create research-based programs or policies
  - i. Critically evaluate the quality of published research, programs, and policies and their implications for individuals, relationships, and families
  - j. Collaborate and solve problems
    - i. Independently
    - ii. Collaboratively
  - k. Exhibit professional and ethical behavior

## Individual Plans of Study, BALAS or BSLAS

*For the Degree of Bachelor of Arts in Liberal Arts and Sciences, or Bachelor of Science in Liberal Arts and Sciences Major in Individual Plans of Study*

**academic advisor:** Tenaya Reifsteck

**program address:** 2002 Lincoln Hall, 702 S. Wright St., Urbana, IL 61801

**program information:** <http://www.las.illinois.edu/students/programs/majors/ips/>

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [las-ips@illinois.edu](mailto:las-ips@illinois.edu)

Minimum required major and supporting course work normally equates to 51-70 hours.

General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

Minimum hours required for graduation: 120 hours

Departmental distinction: To graduate with distinction, a student must

1. have a cumulative grade point average of at least 3.25 and
2. successfully complete a project that has been approved by the IPS advisory committee.

Further information on requirements for graduation with distinction may be obtained from the secretary of the IPS advisory committee.

Students in the College of Liberal Arts and Sciences may choose any of the undergraduate degree programs offered within the college. These majors and specialized curricula, each with its own pattern of requirements and electives, are continuously reviewed by the sponsoring departments and the college and revised as needed. At the same time, it is not possible to anticipate or specify all possible undergraduate fields of study. So, in order to encourage the growth of new academic disciplines, the college sponsors the experimental major-the Individual Plans of Study program. IPS allows the student to create an original major more appropriate for the individual's educational needs and characterized by a unique pattern of upper-level courses with a new academic direction. Recent IPS students have successfully pursued such innovative majors as Cinematography, Entomology, Neuroscience, Meteorology, and Middle Eastern Studies.

The development of an IPS program begins with the student's perception that a more appropriate field of study could exist beyond the present majors. Consultation with the secretary of the IPS advisory committee and with faculty members in related fields will soon establish whether an original major is appropriate. Then, with the cooperation of one or more faculty members who consent to serve as advisers for this IPS program, an IPS major is planned and justified as carefully as if this were a departmental major.

Once an IPS program is formulated, the student and adviser make formal application to the IPS advisory committee, which evaluates and decides whether a proposed IPS program is appropriate for the aims of both the student and the college. The IPS Advisory Committee and the college will determine whether BA or BS is appropriate for the proposed program of study. Students interested in IPS are encouraged to inquire as early as possible in the sophomore year. In all cases, IPS programs must be initiated and approved before the end of the student's junior year. If program innovation sounds challenging and attractive, additional information is available at the LAS Student Academic Affairs Office, 2002 Lincoln Hall.

## Industrial Design, BFA

*for the degree of Bachelor of Fine Arts Major in Industrial Design*

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

**phone:** (217) 333-6632

**department website:** School of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

The Industrial design program focuses on a human centered approach to identify opportunities to design new products and services. The studio courses emphasize learning through problem-solving, understanding user experience, market demand, materials, and production processes. Students can develop their interest, and engage in creating intuitive, innovative products and services, that are in visual harmony with their environment. Designs that satisfy the consumer desire while being responsive to changes in technology and culture benefit society.

The curriculum in Industrial Design requires 122 credit hours.

*for the degree of Bachelor of Fine Arts Major in Industrial Design*

---

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

## First Year Curriculum

Code	Title	Hours
FAA 101	Arts at Illinois	1
ARTF 101	Contemporary Issues in Art	2
ARTE 101	Art, Design, and Society	2
ARTH 110	Introduction to the History of Art and Visual Culture	3
Select one Drawing course:		3
ARTF 102	Observational Drawing	
ARTF 104	Expressive Drawing	
ARTF 106	Visualization Drawing	
Select one course in 2D Category:		3
ARTD 151	Introduction to Graphic Design	
ARTS 205	Introduction to Printmaking (required for Studio Art: Printmaking)	
ARTS 221	Fashion Illustration (required for Studio Art: Fashion)	
ARTS 251	Beginning Painting (required for Studio Art: Painting)	
ARTS 264	Basic Photography (required for Studio Art: Photography)	
Select one course in 3D Category:		3
ARTD 101	Introduction to Industrial Design	
ARTS 210	Ceramics Sculpture I	
ARTS 230	Jewelry/Metals I	
ARTS 280	Beginning Sculpture (required for Studio Art: Sculpture)	
Select one course in 4D Category:		3
ARTS 241	Image Practice	
ARTS 243	Time Arts I

Art + Design courses (art and design courses not in industrial design requirements or used as industrial design electives)		12
Open electives as needed to total a minimum of 122 hours.		

# Learning Outcomes: Industrial Design, BFA

Learning outcomes for the degree of Bachelor of Fine Arts Major in Industrial Design

1. **Research**...the ability to select and use appropriate research and experimental methods, to access existing data sources or to generate new data, to analyze and draw insights for future work, with particular emphasis on identifying human needs
2. **Creative synthesis**...the ability to produce creative proposals from investigation, or in response to identified opportunities or requirements, using appropriate thinking, modeling and making strategies, taking account of users, audience, market needs, makers, producers or exhibitors as appropriate
3. **Production**...the ability to select and use appropriate making and manufacturing processes in your own work, with an understanding of the potential of new technologies
4. **Organization**...the ability to plan and implement action, identifying targets and organizing resources, effectively managing self and collaborations with others
5. **Communication**...the ability to use various forms of communication as appropriate to elicit information, to explain, to debate and persuade, adapting to audience and situations
6. **Conceptualization**...the ability to realize an idea through an iterative creative making process of refinement
7. **Understanding impacts**...of the diverse professional, social, and ethical effects of the industrial design discipline
8. **Contextualization**...the ability to understand the multiple contexts of design practice, including the historical, theoretical, critical, professional, cultural, environmental and technological
9. **Learning**...the ability to carry out independent learning as a basis for academic study, lifelong learning and for personal professional development including the ability to independently evaluate your own work with the aim of improving and developing your own practice

# Industrial Engineering, BS

for the degree of Bachelor of Science in Industrial Engineering

**department website:** <https://ise.illinois.edu> (<https://ise.illinois.edu/>)

**department faculty:** Industrial & Enterprise Systems Faculty (<https://ise.illinois.edu/directory/faculty.html>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://ise.illinois.edu/undergraduate/abet> (<https://ise.illinois.edu/undergraduate/abet/>)

Industrial engineering is a discipline that encompasses the analysis, development, improvement, implementation, and evaluation of integrated systems and their components, including materials, information, energy, people, money, time, equipment, and associated processes. Industrial engineering draws upon a variety of disciplines, from mathematics to psychology, from communications to computer science, and from production management to process control. Industrial engineers design efficient, productive systems in a wide range of business, industrial, and governmental settings.

The technical portion of the Industrial Engineering curriculum is designed as a sequence of increasingly specialized experiences. The entering student's first year is spent mastering the basics of science: math, chemistry, and physics. Second-year students begin to take fundamental engineering courses such as statics, dynamics, statistics, and strength of materials. Third-year students take a core of industrial engineering courses and begin their chosen area of specialization in one of five tracks, including: Operations Research; Quality Engineering; Supply Chain, Manufacturing, and Logistics; Economics and Finance; and Industrial Engineering Fundamentals. During their senior year, students broaden and deepen their knowledge with additional technical elective courses. Finally, all students participate in the practice of engineering through the capstone senior design course in which they work in teams to solve problems submitted by industry partnering companies, and present their solutions in reports and presentations supported by complete economic analyses. Engineering design, communication, teamwork, and laboratory experiences are integrated throughout all four years of the curriculum.

for the degree of Bachelor of Science in Industrial Engineering

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for required Engineering and Technical Elective courses, as well as MATH 415. See **Technical GPA** to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.

### Orientation and Professional Development

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
SE 100	Introduction to ISE	1
SE 290	ISE Undergraduate Seminar	0
Total Hours		1

### Foundational Mathematics and Science

Code	Title	Hours

## Track Option Electives

Code	Title	Hours
Track option electives. Courses selected from departmentally approved lists of Track Option Electives or by petition to the department. The current Track options include:		12

### Economics and Finance (E&F)

Track Core - Complete at least 2 of the following 3 courses:

ACE 427	Commodity Price Analysis	3
IE 420	Financial Engineering	3 or 4
SE 450	Decision Analysis I	3 or 4

Track Electives - Complete 2 of the following courses:

ACCY 200	Fundamentals of Accounting	3
ACE 410	Energy Economics	3 or 4
ACE 427	Commodity Price Analysis	3
ACE 428	Commodity Futures and Options	3
ECON 302	Inter Microeconomic Theory	3
ECON 303	Inter Macroeconomic Theory	3
ECON 420	International Economics	2 to 4
ECON 471	Intro to Applied Econometrics	2 to 4
FIN 221	Corporate Finance	3
FIN 300	Financial Markets	3
FIN 411	Investment & Portfolio Mngt	3
FIN 412	Options and Futures Markets	3
FIN 415	Fixed Income Portfolios	3
FIN 461	Banking and Financial Regulation	3

### Human Factors

Track Core - Complete the following course:

IE 340	Human Factors	4
--------	---------------	---

Track Electives - Complete at least 3 of the following courses:

Physical Ergonomics Focus

BIOE 461	Cellular Biomechanics	4
or TAM 461	Cellular Biomechanics	
KIN 355	Biomechanics of Human Movement	3
KIN 401	Measure & Eval in Kinesiology	3 or 4
ME 481	Whole-Body Musculoskel Biomech	3 or 4
ME 482	Musculoskel Tissue Mechanics	3 or 4
TSM 421	Ag Safety-Injury Prevention	3
TSM 422	Ag Health-Illnesses Prevention	3
TSM 425	Managing Ag Safety Risk	3
Cognitive Ergonomics Focus		
SE 450	Decision Analysis I	3 or 4
IE 445	Human Performance and Cognition in Context	3 or 4
Organizational Ergonomics Focus		
ANTH 411	Research Methods in Socio-Cultural Anthropology	3 or 4
ARCH 423	Soc/Beh Factors for Design	3
BADM 310	Mgmt and Organizational Beh	3
BADM 312	Designing and Managing Orgs	3
BADM 357	Digital Making Seminar	3
PSYC 245	Industrial Org Psych	3
Optional Health Focus		
CHLH 470	Technology, Health, and Aging	3 or 4
<b>Industrial Engineering Fundamentals (IEF)</b>		
Track Core - Complete the following 4 courses:		
IE 330	Industrial Quality Control	3
IE 411	Optimization of Large Systems	3 or 4
IE 412	OR Models for Mfg Systems	3 or 4
IE 340	Human Factors	4
<b>Operations Research (OR)</b>		
Track Core - Complete the following 2 courses:		
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
IE 411	Optimization of Large Systems	3 or 4
Track Electives - Complete 2 of the following courses:		
ECE 490	Introduction to Optimization	3 or 4
IE 420	Financial Engineering	3 or 4
MATH 444	Elementary Real Analysis	3-4
or MATH 447	Real Variables	
MATH 484	Nonlinear Programming	3 or 4
SE 411	Reliability Engineering	3 or 4
STAT 410	Statistics and Probability II	3-4
or MATH 464	Statistics and Probability II	
STAT 420/ASRM 450	Methods of Applied Statistics	3 or 4
STAT 424	Analysis of Variance	3 or 4
STAT 425	Statistical Modeling I	3 or 4
<b>Quality Engineering (QE)</b>		
Track Core - Complete the following course:		
IE 330	Industrial Quality Control	3
Track Core - Complete 1 of the following courses:		
IE 431	Design for Six Sigma	3
SE 411	Reliability Engineering	3 or 4
Track Elective- Complete 1 of the following courses:		
STAT 410	Statistics and Probability II	3-4
or MATH 464	Statistics and Probability II	

STAT 420/ASRM 450	Methods of Applied Statistics	3 or 4
STAT 424	Analysis of Variance	3 or 4
STAT 426	Statistical Modeling II	3 or 4

### Supply Chain, Manufacturing and Logistics (SC&L)

Track Core - Complete the following course:

IE 412	OR Models for Mfg Systems	3 or 4
--------	---------------------------	--------

Track Electives - Complete 3 of the following courses:

ECE 470	Introduction to Robotics	4
IE 330	Industrial Quality Control	3
ME 451	Computer-Aided Mfg Systems	3 or 4
ME 452	Num Control of Mfg Processes	3 or 4

## Technical Electives

Code	Title	Hours
<b>Computer science elective selected from the departmentally approved list of Computer Science Electives below:</b>		<b>3</b>
CS 225	Data Structures	4
CS 357	Numerical Methods I	3
CS 411	Database Systems	3 or 4
CS 450	Numerical Analysis	3 or 4
IE 405	Computing for ISE	3 or 4
<b>IE technical electives selected from the departmentally approved list of IE Technical Electives below:</b>		<b>3</b>
IE 330	Industrial Quality Control	3
IE 340	Human Factors	4
IE 411	Optimization of Large Systems	3 or 4
IE 412	OR Models for Mfg Systems	3 or 4
IE 420	Financial Engineering	3 or 4
IE 431	Design for Six Sigma	3
IE 445	Human Performance and Cognition in Context	3 or 4
SE 310	Design of Structures and Mechanisms	3
SE 320	Control Systems	4
SE 424	State Space Design for Control	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>4</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>5</sup>		7
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

<sup>1</sup> External transfer students take ENG 300 instead.

<sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>3</sup> Advanced Composition satisfied by completing the combination of SE 494 and SE 495.

<sup>4</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.

<sup>5</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Industrial Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/industrial-engineering-map/>).

### First Year

First Semester		Hours
SE 100	Introduction to ISE	1
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or SE 101 <sup>2</sup>	Writing and Research	4-3
General Education elective <sup>3</sup>		3
Semester Hours		16-15
Second Semester		
MATH 231	Calculus II	3
PHYS 211	University Physics: Mechanics	4
CS 101	Intro Computing: Engrg Sci	3
ECE 110	Introduction to Electronics	3
SE 101 or RHET 105 <sup>2</sup>	Engineering Graphics Design	3-4
Semester Hours		16-17

### Second Year

First Semester		
PHYS 212	University Physics: Elec Mag	4
TAM 211	Statics	3
SE 261	Business Side of Engineering	2
MATH 241	Calculus III	4
General Education elective <sup>3</sup>		3
Semester Hours		16
Second Semester		
IE 300	Analysis of Data	3
MATH 285	Intro Differential Equations	3

TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
SE 290	ISE Undergraduate Seminar	0
General Education elective <sup>3</sup>		3
Semester Hours		17

### Third Year

First Semester		
IE 310	Deterministic Models in Optimization	3
IE 360	Facilities Planning and Design	3
MATH 415	Applied Linear Algebra	3
ME 330	Engineering Materials	4
General Education elective <sup>3</sup>		3
Semester Hours		16
Second Semester		
IE 361	Production Planning Control	3
IE 370	Stochastic Processes and Applications	3
IE Technical elective <sup>4</sup>		3

Track option electives <sup>5</sup>		6
Semester Hours		15
<b>Fourth Year</b>		
<b>First Semester</b>		
IE 400	Design Anlys of Experiments	3
SE 494 & SE 495 <sup>6,7</sup>	Senior Engineering Project I	5-3
OR		
Free electives		
Computer Science elective <sup>8</sup>		3
Track option elective <sup>5</sup>		3
General Education elective <sup>3</sup>		3
Semester Hours		17-15
<b>Second Semester</b>		
IE 413	Simulation	3
Free electives		
OR		
SE 494 & SE 495 <sup>6,7</sup>	Senior Engineering Project I	3-5
Track option elective <sup>5</sup>		3
General Education elective <sup>3</sup>		3
Additional Free electives		3
Semester Hours		15-17
Total Hours:		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Selected from the departmentally approved list of IE Technical Electives (<https://ise.illinois.edu/undergraduate/electives.html#ie>)

<sup>5</sup> Selected from the departmentally approved lists of Track Option Electives (<https://ise.illinois.edu/undergraduate/industrial-engineering-degree/industrial-engineering-track-options.html>) or by petition to the department.

<sup>6</sup> SE 494 and SE 495 may be taken in the first or second semester of the fourth year as authorized. The alternative is a free elective.

<sup>7</sup> Combination satisfies the General Education Advanced Composition requirement.

<sup>8</sup> Selected from the departmentally approved list of Computer Science Electives (<https://ise.illinois.edu/undergraduate/electives.html#ie>)

## Learning Outcomes: Industrial Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Industrial Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Industrial Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Information Sciences, BS

*For the Degree of Bachelor of Science in Information Sciences*

## Initial Admission Term: Fall 2020

**school website:** School of Information Sciences (<https://ischool.illinois.edu/>)

**school faculty:** iSchool Faculty (<https://ischool.illinois.edu/people/faculty/>)

**overview of school admission & requirements:** <http://catalog.illinois.edu/schools/ischool/academic-units/#undergraduatetext>

**school office:** 501 E. Daniel St., Champaign, IL 61820

**email:** [ischool@illinois.edu](mailto:ischool@illinois.edu)

The Bachelor of Science in Information Sciences prepares students for a wide range of careers within the knowledge economy. In today's technology-centered job market, there is a high demand for information professionals. By earning a B.S. in Information Sciences (BS/IS) from the School of Information Sciences (iSchool), you will gain a competitive edge. Our interdisciplinary, STEM-designated degree will prepare students for careers in a variety of fields. As a BS/IS student, you'll learn how to manage data and other types of information to help organizations achieve their goals. You will become an information technology expert who understands the human perspective, social context, and policy implications.

**degree website:** School of Information Sciences (<https://ischool.illinois.edu/degrees-programs/bs-information-sciences/>), B.S.

**Departmental Distinction:** The top 10% of the graduating class will graduate with distinction.

*For the Degree of Bachelor of Science in Information Sciences*

**Minimum required major and supporting course work:** Students must earn at least 51 hours in the School of Information Sciences or in approved courses offered by other departments, approved by an IS advisor. Twelve hours of 300/400 level (advanced) courses in Information Sciences (IS) must be taken on this campus.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

**Minimum required major and supporting course work:** Students must earn at least 51 hours in the School of Information Sciences or in approved courses offered by other departments. Students must demonstrate proficiency in at least one programming language.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements.

**GPA Requirement:** 2.5 - Earn a cumulative grade point average of 2.50 (A = 4.00) in all courses presented for the degree and a cumulative 2.50 grade point average for all courses taken in the School.

# Information Systems, BS

for the degree of Bachelor of Science Major in Information Systems

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Information Systems major prepares students to comfortably navigate through the challenges posed by the new-age organizations and society that are increasingly getting digitized.

Students learn about the design, implementation, and protection of systems and technology to address the information processing needs of an organization, and provide data and information for managerial decision-making. IS majors take both, technology and business courses which equip them with the required skill-set to be able to design, develop and deploy computer and software-based solutions in order to help businesses attain their tactical and strategic objectives.

Some of the key courses taken by IS majors include information technology for networked organizations, systems analysis and design, and database management. Because computers and software are used in all functional areas of business today, IS majors may choose to take additional courses in data analytics, information security/cyber-security, project management, human-computer interaction, programming, and social media applications to strengthen their resume, gain a wider exposure to domains supported by IS specialists, and prepare themselves to face the challenges in the technology-driven business world of today. IS majors will have the required knowledge and skill-set to make decisions about the selection and implementation of information systems/information technology, be a liaison between non-technical managers, computer programmers, and technical managers, assume a wide variety of roles requiring computer-based solutions, and generally be business leaders of the digital era.

for the degree of Bachelor of Science Major in Information Systems

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
Composition I: Principles of Composition <sup>1</sup>		4-7
Advanced Composition		3

## General Education Requirements

Code	Title	Hours
A minimum of six courses is required, as follows:		18
Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>		
Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>		
Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>		
Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>		
Behavioral Sciences (1 course)		
Cultural Studies: Non-Western Cultures (1 course)		
Cultural Studies: U.S. Minorities Cultures (1 course)		

Cultural Studies: Western/Comparative Cultures (1 course)

Quantitative Reasoning (2 courses) <sup>7</sup>**Language Other Than English**

Code	Title	Hours
Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.		0-15

**Business Core Requirements**

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

<sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

<sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.  
Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

<sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

<sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

<sup>6</sup> This course includes limited voluntary participation as a subject in experiments.

<sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

Code	Title	Hours
BADM 350	IT for Networked Organizations	3

BADM 395	Special Topics (Sec. ISM) <sup>1</sup>	
BADM 395	Special Topics (Sec. ID) <sup>1</sup>	
BADM 395	Special Topics (Sec. IOP) <sup>1</sup>	
Total Hours		27

<sup>1</sup> Each section of BADM 395 can only be applied to one (1) of the two (2) elective categories.

## Learning Outcomes: Information Systems, BS

Learning Outcomes for the degree of Bachelor of Science in Information Systems

1. Develop an understanding of fundamental concepts and key principles in the area of Management Information Systems.
2. The ability to analyze managerial and organizational issues, apply relevant knowledge to come up with solutions, and make recommendations.
3. The ability to use knowledge and skills related to digital technologies to enhance business administration and decision making.
4. The ability to collaborate as a team member in varying roles in a diverse group and communicate effectively.

# Innovation, Leadership & Engineering Entrepreneurship (ILEE), BS

for the degree of Bachelor of Science in Innovation, Leadership & Engineering Entrepreneurship

**center website:** <http://www.tec.illinois.edu>

**college website:** <https://grainger.illinois.edu/>

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

The Technology Entrepreneur Center offers studies leading to the Bachelor of Science in Innovation, Leadership and Engineering Entrepreneurship (ILEE). The BS in ILEE degree is intended for Grainger Engineering students to better understand the innovative processes involved in identifying problems and creating, developing, and leading efforts to provide their engineering solutions. The curriculum is based on a sound disciplinary engineering technical core with additional aspects of problem identification and innovation, and complex multidisciplinary engineering project management and leadership.

**Currently, the BS in ILEE degree is only being offered as a dual degree for current Grainger Engineering students and Chemical Engineering students.**

Students should follow their Grainger Engineering primary/first department's curriculum and take the additional 31 hours of ILEE Orientation and Technical Core.

## Overview of Curricular Requirements

The curriculum requires 128 hours for graduation from student's Grainger Engineering primary/first department curriculum and take 31 additional hours of ILEE Technical core (total: 159 credit hours).

# Instrumental Music, BMUS

for the degree of Bachelor of Music Major in Instrumental Music

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students may major in piano, organ, harpsichord, guitar, violin, viola, cello, double bass, harp, electric violin, electric viola, flute, oboe, bassoon, clarinet, saxophone, trumpet, horn, euphonium, trombone, tuba, or percussion.

for the degree of Bachelor of Music Major in Instrumental Music

**Minimum required major and supporting course work:** A student enrolled in this major normally takes two applied subjects, one a major (24-32 semester hours in the same applied area) and the other a minor (8 semester hours in the same applied area). Third- and fourth-year students must present satisfactory public junior and senior recitals as part of the requirements for the Instrumental Performance Major within the Bachelor of Music degree.

## General Education and College Orientation

Code	Title	Hours
<b>Orientation to Arts at Illinois</b>		
FAA 101	Arts at Illinois	1
<b>General Education Requirements</b>		
Composition I		4
Advanced Composition		3
Humanities and the Arts - fulfilled by MUS 313 and MUS 314		6
Cultural Studies: Western/Comparative Culture(s)		3
Cultural Studies: Non-Western Comparative Culture(s)		3
Cultural Studies: US Minority Culture(s)		3
Social and Behavioral Sciences		6
Quantitative Reasoning I and II		6
Natural Sciences and Technology		6
Foreign Language <sup>1</sup>		0-12
<b>Total Hours <sup>2</sup></b>		<b>41-53</b>

<sup>1</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

<sup>2</sup> Six hours of general education requirements in the Humanities and the Arts are met by courses required in the BMUS degree (MUS 313 and MUS 314).

## Music Core and Instrumental Performance Coursework

Code	Title	Hours
<b>Music Theory and Musicianship</b>

MUS 172	Grp Instr Pno for Mus Major I <sup>6</sup>	2
MUS 173	Grp Instr Pno for Mus Maj II <sup>6</sup>	2
MUS 242	Elements of Conducting	2
Junior Recital		
Senior Recital		
<b>Keyboard Performance Majors only</b>		
MUS 317	Intro to Piano Literature	3
MUS 431	Piano Pedagogy I	2
MUS 432	Piano Pedagogy II	2
Electives as needed to total 130 hours		
<b>Total Hours required for graduation</b>		<b>130</b>

- <sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.
- <sup>2</sup> String majors will register for four semester hours of applied music in the first year; thereafter, string majors will register for three semester hours of applied music and one semester hour of MUS 267 in the second, third, and fourth years. Brass majors will register for three semesters hours of applied music and one semester hour of MUS 267 each semester for all four years. All other instrumental majors register for four semester hours of applied music each semester.
- <sup>3</sup> Concurrent registration in MUS 250 is required for all students who register for any of MUS 183-MUS 186 and MUS 483-MUS 486.
- <sup>4</sup> Keyboard majors are required to complete only 6 hours of minor applied music.
- <sup>5</sup> All music majors are required to participate in an approved ensemble every semester in residence. All string majors must audition for the orchestras at the beginning of each fall. For a complete list of approved ensembles, please refer to the Undergraduate Music Handbook.
- <sup>6</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173. Keyboard performance majors demonstrate keyboard competency by successfully completing MUS 454.

## Learning Outcomes: Instrumental Music, BMUS

Learning outcomes for the degree of Bachelor of Music Major in Instrumental Music

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

# Integrative Biology, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology*

**department website:** <http://sib.illinois.edu/>

**department faculty:** School of Integrative Biology Faculty ([http://sib.illinois.edu/people/faculty\\_all/](http://sib.illinois.edu/people/faculty_all/))

**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [sib@illinois.edu](mailto:sib@illinois.edu)

The Integrative Biology major provides students with a solid preparation in genetics, evolution, anatomy, physiology, ecology, and molecular biology. After completion of the foundational 100- and core 200-300-level courses in IB, students complete the required advanced coursework by taking a variety of IB and other courses or focusing on a limited area of IB. Plans for the student's combination of advanced courses are developed in consultation with an adviser.

All undergraduates in this field are required to have a strong background in the biological and physical sciences.

Students pursuing a degree in Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

For students interested in adding licensure to the BSLAS in Integrative Biology, please visit the Biology Teaching page: <http://sib.illinois.edu/undergraduate/programs/teaching> (<http://sib.illinois.edu/undergraduate/programs/teaching/>)

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology*

**Distinction for Excellence in Research: To be eligible for graduation with Distinction for excellence in Research a student must:**

**Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester.**

**Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Give a poster presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor. Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the Advisor's evaluation.**

**High or Highest Distinction for Excellence in Research: To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must:**

**Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester. Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Submit a written thesis and give an oral presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor.**

**The level of Distinction will be determined by the SIB Distinction Committee based on the written thesis, the oral presentation, and the Advisor's evaluation.**

**For additional information visit:** <http://sib.illinois.edu/undergraduate/distinction> (<http://sib.illinois.edu/undergraduate/distinction/>)

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 66-76 hours.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours

IB 302	Evolution	4
At least 14 hours of coursework from the Approved List of Advanced Courses ( <a href="http://sib.illinois.edu/courses/area">http://sib.illinois.edu/courses/area</a> ( <a href="http://sib.illinois.edu/courses/area/">http://sib.illinois.edu/courses/area/</a> )) for IB majors, including:		14

**At least one course from two of the following three areas:**

Area I: Organismal and Evolutionary Biology

Area II: Behavior, Ecology, and the Environment

Area III: Integrative Anatomy, Physiology, and Molecular Biology

**One advanced course with a laboratory and/or field component.**<sup>1</sup> The Biocalculus section of MATH 220 is strongly recommended for IB Majors.<sup>2</sup> IB 202 requires animal dissection and no equivalent alternative is available. IB majors are required to enroll in the 4-hour version of this course.<sup>3</sup> IB majors are required to enroll in the 4-hour version of IB 204.

## Learning Outcomes: Integrative Biology, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts &amp; Sciences Major in Integrative Biology

By the time they graduate, an Integrative Biology major should:

**Content-related understandings**

1. Possess a significant knowledge base in Integrative Biology, including but not limited to:
  - a. Structure and function
  - b. Ecology
  - c. Genetics
  - d. Evolution
  - e. Molecular biology
  - f. Statistical inference
2. Understand that biology is integrative and multidisciplinary
3. Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life
4. Understand how paradigms of biology relate to society and policy as well as their own lives

**Competencies**

1. Carry out the process of scientific inquiry
2. Use critical thinking skills and solve problems
3. Use quantitative reasoning and computation skills
4. Apply simple models (equations/math) to biological phenomena
5. Gain proficiency in scientific writing and speaking

6. Read and evaluate primary scientific literature
7. Critically evaluate science-related news and information
8. Work collaboratively

## Integrative Biology: Honors Integrative Biology, BSLAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration*

**department website:** <http://sib.illinois.edu/>

**department faculty:** School of Integrative Biology Faculty ([http://sib.illinois.edu/people/faculty\\_all/](http://sib.illinois.edu/people/faculty_all/))

**advising:** SIB advising (<http://sib.illinois.edu/undergraduate/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [honors@sib.illinois.edu](mailto:honors@sib.illinois.edu) ([ibhonors@life.illinois.edu](mailto:ibhonors@life.illinois.edu))

Honors Integrative Biology is designed for superior students wishing to pursue an intensive program in integrative biology and, concurrently, to gain a strong background in the physical sciences and mathematics. Admission is by interview in spring of the freshman year prior to registration for fall. An overall 3.0 GPA is required to apply for admission. Honors Integrative Biology provides preparation suitable for graduate and professional training in biology, as well as for biology careers in the private and public sectors.

Students earning the Honors Integrative Biology Concentration will also earn the Chemistry minor.

Students pursuing a degree in Honors Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Honors Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

Substitutions or other changes in the requirements below may be made only by petition to and approval of the director of the Honors Integrative Biology Concentration.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration*

**Distinction for Excellence in Research:** To be eligible for graduation with Distinction for excellence in Research a student must:

**Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester.**

**Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Give a poster presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor. Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the Advisor's evaluation.**

**High or Highest Distinction for Excellence in Research:** To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must:

**Complete 2 or more semesters of IB 390 or IB 490 for 2 credit hours or more each semester. Be signed up for IB 490 prior to or during the semester the student is being considered for Distinction.**

**Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.**

**Submit a written thesis and give an oral presentation at the Undergraduate Research Symposium or other approved venue.**

**Have a completed distinction evaluation form submitted by their Faculty Research Advisor.**

**The level of Distinction will be determined by the SIB Distinction Committee based on the written thesis, the oral presentation, and the Advisor's evaluation.**

**For additional information visit:** <http://sib.illinois.edu/undergraduate/distinction> (<http://sib.illinois.edu/undergraduate/distinction/>)

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 80-91 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**No more than 8 hours of credit in 100-level courses in IB or MCB may be counted toward graduation.**

**Students may count toward graduation no more than a combined maximum of 10 hours of IB 390 and IB 490 credit offered for independent study.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
IB 150	Organismal & Evolutionary Biol	4
MCB 150	Molec & Cellular Basis of Life	4
IB 270	Evolution of Molecules & Cells	5
IB 271	Organismal Biology	5
IB 372	Ecology and Evolution <sup>1</sup>	5

MATH 220 or MATH 221	Calculus (Biocalculus section) Calculus I	4-5
MATH 231 or IB 494	Calculus II <sup>2</sup> Theoretical Biology + Models	3-4
Select one group of courses:		8-10
CHEM 202	Accelerated Chemistry I	
CHEM 203	Accelerated Chemistry Lab I	
CHEM 204	Accelerated Chemistry II	
CHEM 205	Accelerated Chemistry Lab II	
OR		
CHEM 102	General Chemistry I <sup>3</sup>	
CHEM 103	General Chemistry Lab I	
CHEM 104	General Chemistry II	
CHEM 105	General Chemistry Lab II	
Select one group of courses:		6
CHEM 236	Fundamental Organic Chem I	
CHEM 237	Structure and Synthesis	
OR		
CHEM 232	Elementary Organic Chemistry I	
CHEM 233	Elementary Organic Chem Lab I	
At least six hours of advanced courses in Chemistry <sup>4</sup>		6-8
MCB 450	Introductory Biochemistry	3
Select one group of courses		8-14
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
OR		
PHYS 101	College Physics: Mech & Heat	
PHYS 102	College Physics: E&M & Modern	
An approved 300- or 400-level course that includes physical/math principles <sup>5</sup>		
An approved 300- or 400- level course in statistics <sup>6</sup>		3
IB 490	Independent Study (2 semesters) <sup>7</sup>	6
300- or 400- level courses in the biological sciences		10

<sup>1</sup> Continuation in the Integrative Biology Honors Concentration requires a grade of B or better in each of IB 270, IB 271, and IB 372 and a 3.0 overall cumulative GPA.

<sup>2</sup> If IB 494 is taken instead of MATH 231, it will not count towards the requirement of 10 hours of 300- or 400-level courses in the biological sciences.

<sup>3</sup> Introductory chemistry should be completed prior to enrolling in IB 270.

<sup>4</sup> Recommended courses are: CHEM 312, CHEM 332, CHEM 360, CHEM 437, CHEM 440. Students should discuss alternate choices with the IB advising office. To earn the Chemistry minor students must choose 3 or 4 hour Chemistry courses, excluding research or independent study.

<sup>5</sup> Recommended courses are: ATMS 421, ANSC 448, MCB 432 or IBH Director approved.

<sup>6</sup> NRES 421 is recommended. Other suitable courses are CPSC 440 or STAT 400.

<sup>7</sup> Independent study equivalent to IB 490 in non-IB programs must first be approved by Director of IBH Concentration.

## Learning Outcomes: Honors Integrative Biology, BSLAS

### Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Integrative Biology, Honors Integrative Biology Concentration

By graduation we want all Integrative Biology Honors students to have acquired:

#### Content-related understandings

1. Possess a significant knowledge base in Integrative Biology and Chemical Sciences, including but not limited to:
  - a. Molecular genetics and biology
  - b. Diversity and structures and physiological functions of plants and animals

- c. Ecology and evolution
  - d. Biochemical and chemical bases of life and/or systems
  - e. Statistical inference and modeling of systems
2. Understand that biology is integrative and multidisciplinary
  3. Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life
  4. Understand how paradigms of biology relate to society and policy as well as their own lives

**Competencies**

1. Carry out the process of scientific inquiry
2. Use critical thinking skills and solve problems
3. Use quantitative reasoning and computation skills
4. Apply models (equations/math) to biological phenomena
5. Gain proficiency in scientific writing and speaking
6. Read and evaluate primary scientific literature
7. Critically evaluate science-related news and information
8. Work collaboratively

# Interdisciplinary Health Sciences, BS

for the degree of Bachelor of Science Major in Interdisciplinary Health Sciences

**Department website:** <http://ihealth.illinois.edu/>

## Learning Outcomes: Interdisciplinary Health Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Interdisciplinary Health Sciences

1. Students will understand the influence of behavior and culture on health and well-being.
2. Students will gain a comprehensive and holistic perspective of health which will prepare them to enter a variety of health related careers.
3. Students will apply health-related knowledge through community service and experientially-based opportunities.
4. Students will be able to identify various health determinants in order to improve equity and access for vulnerable populations.

## Interdisciplinary Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies*

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>

Students pursuing this major select one of two concentrations:

- Jewish Studies Concentration (p. 430)
- Medieval Studies Concentration (<http://catalog.illinois.edu/undergraduate/las/academic-units/interdisc-studies/medieval-civilization-concentration/>)

### Requirements

Elect one of the concentrations offered within the major and file a concentration declaration with the LAS Student Academic Affairs Office no later than the end of the first semester of the junior year. Students who do not begin work on concentration requirements by the junior year will be at a disadvantage.

Select specific courses counted toward completion of a concentration with the advice and approval of the concentration advisor, subject to specific concentration requirements. Students are strongly encouraged also to enroll in 6-7 hours of Western civilization (HIST 140 or HIST 141 and HIST 142 or HIST 143, or CWL 241 and CWL 242).

For the elected concentration, complete the stated minimum number of hours in courses applicable toward the major and in accord with the concentration requirements; at least 25 hours must be at the 200, 300 or 400 level.

## Interdisciplinary Studies: Jewish Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Jewish Studies Concentration*

**program website:** <https://jewishculture.illinois.edu/>

**program faculty:** Jewish Culture & Society Faculty (<https://jewishculture.illinois.edu/directory/affiliate-faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The Program in Jewish Culture & Society (<https://jewishculture.illinois.edu/>) sponsors this concentration. This concentration provides the student with knowledge of the Hebrew language, the opportunity to begin a study of Yiddish, and a broad appreciation of Jewish religion, culture, and history.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Jewish Studies Concentration*

All substitutions must be approved by the Advisor in the Program in Jewish Culture and Society Office (<https://jewishculture.illinois.edu/academics/undergraduate/jewish-studies-major/>). Substitution for specific courses listed will be approved by the concentration advisor only in exceptional cases.

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction:** To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of "distinction" by a committee of at least two faculty members.

**High distinction:** To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of "high distinction" by a committee of at least two faculty members.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 45-51 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
JS 199	Undergraduate Open Seminar (An Independent Study experience to be arranged with a Jewish Studies affiliated faculty member)	3
Hebrew and/or Yiddish language courses, including:		26-29
HEBR 201	Elementary Modern Hebrew I	
HEBR 202	Elementary Modern Hebrew II	
HEBR 403	Intermediate Modern Hebrew I	
HEBR 404	Intermediate Modern Hebrew II

REL 205	Intensive Biblical Hebrew	
or HEBR 406	Advanced Modern Hebrew II	
or YDSH 102	Beginning Yiddish II	
One course at the 100 or 200 level from each of the following clusters in the Jewish Studies Minor: Religion, Culture, and History. List maintained by the Advisor in the Program in Jewish Culture and Society Office.		9
Three courses at the 300 level or above from any of the four clusters in the Jewish Studies Minor: Religion, Culture, History, and Language. List maintained by the Advisor in the Program in Jewish Culture and Society Office.		9

## Interdisciplinary Studies: Medieval Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Medieval Studies Concentration*

**program website:** <http://www.medieval.illinois.edu/education/undergrad/>

**program faculty:** Medieval Studies Faculty (<http://www.medieval.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [medievalstudies@illinois.edu](mailto:medievalstudies@illinois.edu)

The Program in Medieval Studies (<http://www.medieval.illinois.edu/education/undergrad/>) sponsors this concentration.

This concentration introduces students to medieval (ca. 500- ca. 1500 CE) cultures across the world, providing them with an understanding of periods and movements, institutions, material culture, ideas, beliefs, and values of the diverse cultures that comprise the medieval globe. The coursework spans both geographic regions and disciplines to introduce students to the breadth of medieval cultures as well as to the diversity of methods and perspectives for their study.

The concentration includes a minimum of 45 hours, divided into (I) an introductory course in global medieval literatures and cultures; (II) geographical distribution coursework as specified below; (III) advanced medieval coursework selected by the student in consultation with a Medieval Studies faculty advisor; and (IV) a capstone experience involving an intensive writing and research project. Because Medieval Studies is an interdisciplinary field of study, students are urged to consult with a Medieval Studies faculty advisor to ensure that they take a diverse range of courses providing some exposure to the fields of History and Anthropology; Literature; the Arts; and Philosophy or Religion. Although study of medieval languages is not a requirement, students who intend to pursue graduate study in Medieval Studies should complete at least two courses in an appropriate language; up to twelve hours of appropriate language study can be applied to the Additional Medieval Studies Coursework.

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Interdisciplinary Studies, Medieval Studies Concentration*

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

Substitution for specific courses listed below will be approved by the concentration advisor only in exceptional cases.

**Departmental distinction:** To be eligible for graduation with distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.5, completion of HUM 498 with a grade of A, and completion of a semester paper in HUM 498 that is judged to be deserving of "distinction" by a committee of at least two faculty members.

**High distinction:** To be eligible for graduation with high distinction, a student must have a college grade point average of 3.5, a major concentration grade point average of 3.7, and must have completed HUM 492 (instead of HUM 498) with a grade of A and a thesis in HUM 492 that is judged to be deserving of "high distinction" by a committee of at least two faculty members.

**Medieval Studies Concentration Requirements**

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work: Normally equates to 45-51 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Medieval-related coursework from participating departments selected in consultation with the concentration advisor. At least 12 hours must be at the 300- or 400-level. A list of courses in Medieval Studies is maintained on the Medieval Studies Program website. Up to 12 hours of appropriate language study can be applied to meet this requirement with approval of a Medieval Studies faculty advisor. <sup>3</sup>		21
<b>Capstone Experience</b>		
A capstone experience (normally in the student's senior year) involving intensive interdisciplinary research and writing on a medieval topic. Any 400-level MDVL course (or medieval-related course not cross-listed with MDVL, with the approval of a Medieval Studies faculty advisor) can be designated as a capstone experience with approval of the instructor. For the course to qualify as a capstone experience, the student must undertake a substantial research project that supplements the standard course requirements, in the form either of an additional project or of a longer and more research-intensive version of an existing course project. The project must involve both primary and secondary research using advanced disciplinary methodologies and resources. <sup>4</sup>		3
Total Hours		45

**Footnotes**

- <sup>1</sup> A student may substitute the "Medieval World" section of HIST 100, by petition to a Medieval Studies faculty advisor. Only the section of HIST 100 devoted to the Middle Ages may be substituted.
- <sup>2</sup> A student may substitute up to 6 hours in geographical distribution coursework with courses on the medieval civilizations of the Americas: ANTH 277, ANTH 278, or both. However, at least one course must still be taken from each of the three regional areas.
- <sup>3</sup> List of courses to fulfill Additional Medieval Studies Coursework. (<http://www.medieval.illinois.edu/education/undergrad/>)
- <sup>4</sup> A student may also petition to satisfy the capstone experience by enrolling in MDVL 500, Seminar in Medieval Studies. Enrollment requires approval of the instructor and Director of the Program in Medieval Studies.

# Italian, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

**department website:** <https://frit.illinois.edu/academics/italian/undergraduate-studies> (<https://frit.illinois.edu/academics/italian/undergraduate-studies/>)

## Undergraduate degree programs in French & Italian:

French, BALAS (p. 352)

Teaching of French, BA (p. 727)

Italian, BALAS (p. 434)

## 5 Year BALAS /MA in Italian and European Union Studies

The Department of French and Italian with the European Union Center offers a 5-year BALAS/MA degree program in Italian and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction: To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.**

Code	Title	Hours
Select 18 credits (max) from the following:		18
ITAL 200	Italian Studies in a Mediterranean Context	
ITAL 210	Practical Review Italian	
ITAL 220	Contemporary Italian, Oral and Written	
ITAL 240	Italy Middle Ages & Renaiss	
ITAL 270	Introduction to Italian Cinema

ITAL 470	Topics in Italian Cinema	
ITAL 490	Italian Critical Theory	

Supporting course work or a minor chosen in consultation with an adviser, in one related area (or a combination, with no fewer than 8 hours in each). Areas may include, for example, any other language and literature, history, political science, biology (premed), international law (prelaw), economics, finance, business administration, education, architecture, fine arts, journalism.

15-18

<sup>1</sup> A minor consists of 16-21 hours.

## Learning Outcomes: Italian, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Italian

---

Upon graduating with a major in Italian, students shall be able to do the following:

1. **Language proficiency and accuracy:** reach proficiency and accuracy in written and oral comprehension and production of Italian (based on proficiency guidelines outlined by the American Council on the Teaching of Foreign Languages [ACTFL] and the Common European Framework of Reference for Languages [CEFR]).
2. **Research skills and literacy in text, media, and technology in Italian:** access, manage, evaluate, and effectively use culturally relevant sources according to the standards of professional conduct; understand how these resources relate to language and culture; use appropriate tools when interpreting sources, interacting with others, and producing written, oral, or visual content; develop sensitivity to the changes in cultures and languages produced by emerging technologies.
3. **Intercultural awareness, knowledge, and competence:** develop an awareness of differences between Italian and their own cultures. Identify implicit assumptions present in Italian linguistic practices and relate them to their own cultural conventions. Learn how to identify the cultural component of everyday practices, from food to body language, and recognize difference as culturally specific.
4. **Proficiency in Italian Literature and Culture:** acquire familiarity with Italian literature and culture, their history and their contexts, as well as the critical tools used in their analysis.
5. **Competence in Italian linguistics:** acquire competence in the structure and history of the Italian language.

# Jazz Performance, BMUS

for the degree of Bachelor of Music Major in Jazz Performance

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students majoring in jazz performance may do so with piano, double bass, saxophone/clarinet, trumpet, trombone, percussion, guitar, strings, or voice as the major instrument.

for the degree of Bachelor of Music Major in Jazz Performance

**Minimum required major and supporting course work:** Third- and fourth-year students must present satisfactory public junior and senior recitals as part of the requirements for the Bachelor of Music degree in jazz performance. All students must successfully complete one semester of Conducting, MUS 242.

## General Education and College Orientation

Code	Title	Hours

MUS 435	Jazz Aural Skills I	2
MUS 436	Jazz Aural Skills II <sup>5</sup>	2
Junior Recital		
Senior Recital		
Electives as needed to total 130 hours		
<b>Total Hours required for graduation</b>		<b>130</b>

<sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.

<sup>2</sup> Of the eight semesters of applied music, two semesters (4 hours) must be in classical applied study.

<sup>3</sup> All music majors are required to enroll in at least one approved performance ensemble each semester in residence. Jazz Performance majors register for at least one Jazz ensemble each semester. For a listing of approved ensembles, please refer to the Undergraduate Music Handbook.

<sup>4</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173. For students with no keyboard skills, MUS 172 and MUS 173 taken in the first year, followed by Jazz Keyboard I and II in the second year will satisfy the secondary applied instrument requirement. For students whose principal instrument is piano, a secondary instrument or jazz voice may be chosen as a substitute for MUS 172, MUS 173 and Jazz Keyboard I and II, in consultation with the advisor.

<sup>5</sup> MUS 436 now replaces MUS 499 (Proseminar in Music).

## Learning Outcomes: Jazz Performance, BMUS

Learning outcomes for the degree of Bachelor of Music Major in Jazz Performance

---

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.

7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

# Journalism, BS

for the degree of Bachelor of Science Major in Journalism

**department website:** <https://media.illinois.edu/journalism> (<https://media.illinois.edu/journalism/>)

**department faculty:** <https://media.illinois.edu/journalism/faculty> (<https://media.illinois.edu/journalism/faculty/>)

**department email:** [journ@illinois.edu](mailto:journ@illinois.edu)

**overview of college admissions & requirements:** College of Media (p. 2089)

**college website:** <https://media.illinois.edu/>

JOURNALISM (JOUR), prepares students for exciting and fulfilling careers in broadcast journalism, news-editorial journalism, and emerging media. The primary professional aim is to train students as public affairs and enterprise journalists. The Journalism Department seeks to prepare broadly educated professionals who will assume decision-making and leadership roles in a variety of media organizations.

## Programs in Journalism

### Undergraduate Programs:

**major:** Journalism, BS (p. 439)

**major:** Journalism, BS-MJ (p. 794)

**minors:** Journalism (p. 901) | Media (p. 919) | Public Relations (p. 938)

### Graduate Programs:

**degree:** Journalism, BS-MJ (p. 794)

**degree:** Journalism, MS (p. 1463)

**joint degree:** Journalism, MS and Law, JD (p. 2020)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 1208).

## Learning Outcomes: Journalism, BS

Learning outcomes for the degree of Bachelor of Science Major in Journalism

---

Student Learning Outcomes are adapted from requirements of the accrediting body for the Department of Journalism (ACEJMC)

1. Understand and apply principles and laws related to media and freedom of information
2. Write correctly and clearly in appropriate forms and styles
3. Apply basic numerical and statistical concepts
4. Apply current tools and technologies appropriate for the communications profession and to understand the digital world.
5. Demonstrate understanding of the history of journalism development and the role of professionals and institutions in shaping communications
6. Demonstrate an understanding of journalism ethical principles
7. Demonstrate understanding of diversity, both domestic and global
8. Understand concepts and apply theories in the use and presentation of images
9. Conduct research and evaluate information by methods appropriate to the profession
10. Demonstrate an ability to think critically and evaluate their own work and that of others
11. Document professional practice through internships, student media and other publication of student work.

**joint degree:** Community Health, BS and Public Health, MPH (p. 780)

**joint degree:** Kinesiology, BS and Public Health, MPH (p. 799)

The Kinesiology curriculum leads to a bachelor of science degree that will prepare students for careers in human movement-related fields and/or advanced professional or graduate study. The undergraduate program provides the student with a broad general education, a departmental core integral to the understanding of the diverse aspects of human movement, and a correlate area of courses specific to the student's area of concentration within Kinesiology.

The Kinesiology program is committed to the study and research of human movement in all its dimensions. Undergraduate study focuses on exercise stress, movement efficiency, and fitness; the social, cultural, and psychological aspects of participation in physical activity and sport; coordination, control, and skill of physical activity; physical growth, development, and body form throughout the lifespan; the effects of therapeutic techniques of Kinesiology upon recovery from physical injury; and the instructional process of teaching/coaching of physical activity and sport.

The curriculum combines a comprehensive liberal arts and sciences education with in-depth study in a particular area of interest. The program of study provides knowledge and understanding essential for human movement and sport careers in either public or private agencies. The hours required for graduation include prescribed courses for all students as well as requirements determined by the various areas of emphasis selected by the student. Teaching and research emphasize hands-on learning through the use of technology and modern laboratory equipment. Graduates find employment in a variety of fields including teaching, corporate fitness, coaching, and athletic training. Many students continue their education and become physical therapists, physicians, exercise physiologists, and sport psychologists.

A 5 year BS MPH joint degree program is available for students majoring in Community Health, I-Health, or Kinesiology. Students apply for the program in the latter part of their third year (junior year) of study. Students accepted into the BS MPH joint degree program take 12 credit hours of coursework in their senior year that apply to both BS and MPH degrees. In the 5th year of study, students complete the remaining requirements for the MPH degree, and graduate simultaneously with both BS and MPH degrees. The requirements are explained in more detail on the MPH program website: <http://www.mph.illinois.edu/Program/>.

for the Bachelor of Science Major in Kinesiology

## Requirements Including General Education

The Kinesiology Program requires that General Education requirements must be selected from the Campus General Education course list. The prescribed courses prepare the student for upper division study and may be used to satisfy General Education requirements provided they are on the appropriate General Education list. Specifically required General Education courses are listed below.

Code	Title	Hours
<b>Communication Arts</b>		
Composition I and an approved speech performance course; or CMN 111 and CMN 112		6-7
Advanced Composition (KIN 340 fulfills requirement)		3
<b>Quantitative Reasoning I &amp; II</b>		
From the approved campus list		6
<b>Humanities and Arts</b>		
From the approved campus list		6
<b>Behavioral and Social Sciences</b> <sup>1</sup>		
KIN 140	Social Sci of Human Movement (Social Science)	3
KIN 259	Motor Development and Control	3
<b>Natural Sciences</b>		
KIN 150	Bioscience of Human Movement (Life Science)	3
From the approved campus physical science list		3
<b>Cultural Studies</b> <sup>2</sup>		
From Western Cultures approved campus list		3
From Non-Western Cultures approved campus list		3
From U.S. Minority Cultures approved campus list		3
Foreign language: Completion through the third level of the same language in high school or college		
<b>Anatomy</b>		
MCB 244 & MCB 245	Human Anatomy & Physiology I and Human Anat & Physiol Lab I	5
MCB 246 & MCB 247	Human Anatomy & Physiology II and Human Anat & Physiol Lab II	5
<b>Kinesiology and Community Health Department Core</b>		
CHLH 101	Introduction to Public Health	3
KIN 122	Physical Activity and Health	3
<b>Kinesiology Core Requirements</b>		
KIN 125	Orientation KIN & Comm Health	1
KIN 140	Social Sci of Human Movement <sup>3</sup>	3
KIN 150	Bioscience of Human Movement <sup>3</sup>	3

Application to the Teacher Licensure curriculum is made at the end of the sophomore year. Admission depends on meeting minimum grade point average requirements. In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, and content area grade point averages of 2.5 (A=4.0), and a professional education grade point average of 3.0. Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages.

## Requirements for Teacher Licensure

Application to the Teacher Licensure curriculum is made at the end of the sophomore year. Admission depends on meeting minimum grade point average requirements. Students must pass an Illinois-approved content-area test of basic skills prior to student teaching.

In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, and content area grade point averages of 2.5 (A=4.0), and a professional education grade point average of 3.0. Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade point averages. In addition, candidates must receive a B- or higher in KIN 360, KIN 361, KIN 362, KIN 363, KIN 364, and KIN 460, and meet professional standards of scholarship, ethics, and responsibility as evaluated by the Physical Education Area of Specialization Committee. In addition, students must complete all professional education and content-area courses with a grade of C- or better for licensure.

Code	Title	Hours
<b>Required Electives and Correlate Area Studies</b>		
KIN 360	Adapted Physical Education	3
KIN 361	Curriculum in Grades K-6	3
KIN 362	Curriculum in Grades 7-12	3
KIN 363	Instructional Strategies in PE	3
KIN 364	Exper in the Common School	3
KIN 401	Measure & Eval in Kinesiology	3
KIN 460	Technology & Pedagogical KINES	3
KIN 260	Teaching Activities I	3
KIN 261	Teaching Activities II	2
CI 473	Disciplinary Literacy	2
EPS 201	Foundations of Education	3
EPSY 201	Educational Psychology	3
EDPR 438	Educational Practice in Special Fields	8
EDPR 442	Educational Practice in Secondary Education	8

## Summary of Degree Requirements

Code	Title	Hours
General Education and supporting coursework		49
Kinesiology and Community Health Department Core		6
Kinesiology Core		22
Elective Kinesiology courses		12
Correlate Area		18
Free electives		21
Total Hours		128

## Footnotes

- <sup>1</sup> Students pursuing teacher licensure must complete PSYC 100 or PSYC 103 in addition to KIN 259.
- <sup>2</sup> Courses in cultural studies may be completed through other categories where appropriate.
- <sup>3</sup> Fulfills University General Education Requirements

## Learning Outcomes: Kinesiology, BS

*Learning outcomes for the Bachelor of Science Major in Kinesiology*

1. **Content Knowledge:** Students will know and comprehend the significant theories, models, themes, and ideas in the biomechanical, physiological, behavioral, pedagogical, biological, socioeconomic, environmental, and sociocultural correlates of Kinesiology and Community Health.
2. **Critical Thinking and Discovery:** Students will comprehend and demonstrate ethical practices and the application of scientific findings and/or critical analysis in order to interpret, promote inquiry, propose solutions, and/or create new ideas related to health, rehabilitation, and/or human movement.
3. **Awareness and Understanding:** Students will understand and appreciate the diverse socioeconomic, behavioral, sociocultural, biological, environmental, philosophical, and historical factors that influence health, rehabilitation, and human movement.
4. **Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, physical activity adoption and adherence, and the prevention and treatment of diseases.
5. **Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing an appreciation and commitment to health and physical activity as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

The department's administrative office, upper-level studios, faculty offices, and classrooms are located in Temple Hoyne Buell Hall. The department also has a studio located in Mumford Hall.

## for the degree of Bachelor of Landscape Architecture

A student must have and maintain a minimum 2.00 cumulative grade point average.

University of Illinois transfer applicants must have completed 30 or more semester hours of undergraduate course work with an earned GPA of at least 2.0 (A = 4.0). Transfer students from other institutions must have earned a GPA of at least 2.5 (A = 4.0). Prerequisite credits in composition and pre-calculus or introductory statistics are required. Courses in physical geography and plant or environmental biology are highly recommended.

## General Education Requirements

Code	Title	Hours
Some courses may fulfill multiple General Education categories. Courses may also fulfill both major requirements and Gen Ed categories.		
Composition I		4
Advanced Composition (LA 314 fulfills)		
Quantitative Reasoning I (specific course required):		3
STAT 100	Statistics	
or MATH 115	Preparation for Calculus	
Quantitative Reasoning II		3
Humanities and the Arts (LA 314 fulfills)		
Humanities and the Arts (some courses in Social/Cultural Factors in Design Elective category will fulfill this)		0-3
Cultural Studies: Western Comparative Cultures (LA 314 fulfills)		
Cultural Studies: U.S. Minority Culture(s)		3
Cultural Studies: Non-Western Cultures (some courses in Social/Cultural Factors in Design Elective category will fulfill this)		0-3
Natural Sciences & Technology (specific courses required)		6-8
GEOG 103	Earth's Physical Systems	
or GEOL 100	Planet Earth

Total Hours:		120

<sup>1</sup> IB 103 or IB 105 and GEOG 103 or GEOL 100 fulfill the natural sciences and technology general education requirements for this curriculum.

<sup>2</sup> General Education: See current University of Illinois General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Foreign Language Requirement 0 - 12 hours: Students entering the University of Illinois as freshmen in fall 2000 or later need to complete the foreign language requirement in order to graduate. To satisfy this requirement, students must complete a third semester level college foreign language course. This requirement may also be satisfied by three years of the same foreign language in high school. Students entering the University of Illinois without three years of the same foreign language in high school must take a foreign language placement test to determine the courses in which to enroll.

<sup>3</sup> Social/Cultural factors elective course options are LA 212, LA 218, LA 220, LA 221, LA 222, LA 242, LA 270, and LA 470.

<sup>4</sup> A minimum of 12 credit hours of professionally related courses selected from the department's recommended list of supporting electives is required, with a minimum of three credit hours in each of the categories of history, communications, techniques, and environment.

## Learning Outcomes: Landscape Architecture, BLA

*Learning outcomes for the degree of Bachelor of Landscape Architecture*

Bachelor of Landscape Architecture students will:

1. **Build Knowledge & Develop Reasoning Skills** in applying broad and deep knowledge across academic disciplines and fields and using this knowledge to develop design proposals.
2. Apply knowledge of the **Natural World** to guide design decisions and activities taking into account natural resource constraints that impact land use.
3. **Strengthen Social Awareness** to better understand the social and cultural influences on human behavior and the social, political, economic, and legal institutions which influence land-use and design decisions.
4. Employ **Creative Inquiry and Discovery** in addition to a range of analytical skills, and general knowledge to develop design proposals, solve problems, generate new ideas, and produce creative work.
5. Demonstrate **Responsible Leadership** in working with the land and the people for whom we design.

# Latin American Studies, BALAS

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

**center website:** [http://www.clacs.illinois.edu/academics/undergrad/und\\_major.aspx](http://www.clacs.illinois.edu/academics/undergrad/und_major.aspx)

**center faculty:** Latin American Studies Faculty (<http://www.clacs.illinois.edu/about/people/faculty.aspx>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [clacs@illinois.edu](mailto:clacs@illinois.edu)

A major in Latin American Studies, which is administered by the Center for Latin American and Caribbean Studies, provides an integrated exploration of a major world area. Depending upon the student's interests and career aspirations, individual programs of study are designed in close consultation with the Associate Director of the Center, who also serves as the academic adviser. Consultation revolves around the career goals of the student. The undergraduate program reflects an integrative, cross-disciplinary approach, and courses must be taken from these categories:

1. LAST 170 (<http://catalog.illinois.edu/search/?P=LAST%20170>)-Introduction to Latin American Studies;
2. Approved courses with content focused on Latin America;
3. Approved courses with content focused on Latin America in a global context;
4. LAST 490 (<http://catalog.illinois.edu/search/?P=LAST%20490>) - Independent Study, or approved Study Abroad course, or approved service-learning course.

Courses for the major must be selected in consultation with the Associate Director of the Center.

Students are also expected to demonstrate a substantial command of a Latin American language (Spanish, Portuguese, Quechua or other Native American language indigenous to MesoAmerica or South America), either by passing a proficiency examination or through advanced courses of Latin American language(s) beyond the general Liberal Arts and Sciences language requirement.

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

Each student's course of study is devised in consultation with the Associate Director of the Center for Latin American and Caribbean Studies and is subject to the Associate Director's approval.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** To be eligible, a student must achieve at least a 3.5 grade point average in the major, complete a senior thesis, and receive the approval of the center's research committee.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 33 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
LAST 170	Introduction to Latin America <sup>1</sup>	3
Approved courses with primary focus on Latin America.		12
Approved courses with primary focus on Latin America in a global context.		12
LAST 490	Individual Study (or an approved study abroad course or an approved service-learning course.) <sup>2</sup>	3
Advanced language course in a Latin American language (Spanish, Portuguese, Quechua, or other Native American language indigenous to Mexico, Central, or South America) beyond the level specified by the LAS language requirement, or the equivalent as demonstrated by special examination. At the end of their language study, all students are urged to take an oral proficiency test based on ACTFL guidelines.		3
Total Hours		33

<sup>1</sup> Normally taken in the freshman or sophomore year.

<sup>2</sup> Normally taken in the senior year.

# Learning Outcomes: Latin American Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latin American Studies

---

1. **Strong Declarative Knowledge Base** on Latin American Culture and its position in the broader global world
  - Students should understand the diversity and complexity of Latin American cultures and languages and their historical, cultural, political, and economic development.
  - Students should develop appropriate expertise on a sub-region or culture of Latin America and/or a thematic topic related to Latin America
  - Students should also be able to place their knowledge of Latin American in a broader global context.
2. **Critical Thinking**
  - Students should be able to critically and reasonably evaluate and formulate claims about social, cultural, political, historic, and economic issues related to Latin America in both academic and popular media.
  - Students should be able to critically and reasonably evaluate and apply their knowledge to real world problems.
3. **Effective Written Communication**
  - Students should be able to identify research problems, approach these problems with appropriate methodologies and effectively communicate the results. They should be able to apply their knowledge to real world situations.
  - Students should be able to effectively communicate their knowledge of Latin American culture and language to a broad non-specialist audience.
4. **Advanced Proficiency in Spanish or Portuguese OR Intermediate – High proficiency in an Indigenous Latin American Language** - This will be assessed through completion of appropriate level course work and through OPI or equivalent testing.

The Undergraduate Major in Latina/Latino Studies explores the experiences and lives of Latinas/os in the context of the United States. The major provides a broad and deep approach to theory, research, and multidisciplinary study of the Latina/o experience. Students will complete 34 hours of required and elective courses, and a minimum of 18 hours of supporting course work or a minor in an area outside of the major. Students majoring in Latina/Latino Studies receive excellent preparation for graduate study or careers in education, social and welfare policy, counseling, law, public policy, and other fields that address Latino issues.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latina/Latino Studies

**Advising:** The Department of Latina/Latino Studies provides advising for students. Students will also be assigned a faculty advisor to help plan a coherent program in their selected area of study.

**Departmental distinction:** To graduate with distinction in Latina/Latino Studies, a student must have at least a 3.25 overall GPA, a minimum 3.5 GPA in the major, and complete a senior honors thesis. To complete the honors thesis requires a student to enroll in four hours of LLS 495, normally distributed evenly across two consecutive semesters. Students graduating with at least a 3.5 GPA in the major (and meeting the other conditions) will be awarded Distinction; those with at least a 3.7 GPA in the major will be given High Distinction.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** 52 hours required, including 34 hours in Latina/Latino Studies courses. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
LLS 100	Intro Latina/Latino Studies	3
LLS 385	Theory and Methods in LLS	3

## Thematic Areas

Students must take two courses in each of the following three areas:

A. Literature, Media and Culture		6
LLS 240	Latina/o Popular Culture	
LLS 242	Intro to Latina/o Literature	
LLS 250	Latina/os on the Bronze Screen	
LLS 259	Latina/o Anthropology	
LLS 301	19thC US Latina/o Lit-ACP	
LLS 357	Literatures of the Displaced	
LLS 360	Contemporary US Latina/o Lit	
LLS 365	Chicana/Latina Autobiography, Memoir, Testimonio	
LLS 375	Latina/o Media in the US	
LLS 410	Writing Latina/o Chicago	
LLS 435	Commodifying Difference	
LLS 458	Latina/o Performance	
LLS 472	Border Latina, Latino Cultures	
B. Race, Gender, and Sexuality		6
LLS 230	Latina/o Genders & Sexualities	
LLS 235	Race and the Politics of Reproduction	
LLS 265	Politics of Hip Hop	
LLS 320	Gender & Latina/o Migration	

LLS 355	Race and Mixed Race	
LLS 387	Race, Gender and the Body	
LLS 392	Chicanas&Latinas: Self&Society	
LLS 442	Latina Literature	
LLS 465	Race, Sex, and Deviance	
LLS 479	Race, Medicine, and Society	
C. History, Politics, and Society		6

Total Hours		52

## Learning Outcomes: Latina/Latino Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Latina/Latino Studies

- Intellectual Reasoning and Knowledge:** Students will become proficient in the field of Latina/Latino Studies, which includes, but is not limited to, interdisciplinary, intersectional, and transnational knowledge about:
  - sociohistorical, political, economic and cultural processes that affect Latina/Latino groups in contemporary society;
  - Latina/Latino social movements;
  - Latina/Latino cultural productions;
  - the relationship between class, gender, sexuality, race/ethnicity and migration in the construction of Latina/Latino cultural and racial formations; and
  - Latina/Latino Studies theories and methods. Students will learn that Latina/Latino Studies is a body of critical inquiry that encompasses a wide range of topics and objects of study, and that leverages multiple forms of knowledge production.
- Critical and Creative Inquiry:** Students will apply Latina/Latino Studies theories in developing their capacities for critical and creative inquiry. Specifically, students will exercise their oral and written communication skills as they express new ideas and generate projects that build upon Latina/Latino Studies theories and draw from the range of interdisciplinary Latina/Latino Studies methods.
- Self-Reflexivity and Community Engagement:** To help promote effective leadership and community engagement, students will demonstrate self-reflexivity about their ideas as well as about their social and political positions in their classrooms and communities. They will also learn to build and sustain relationships and take leadership towards the elimination of social inequities at the local, national, and global levels.
- Social Awareness and Understanding Power:** Student will recognize that Latina/Latino lives and communities unfold within historically unequal and racialized social, cultural, economic, and political power relations. Students will become familiar with Latina/Latino theories and social movements that consider indigeneity, race, class, gender, sexuality and citizenship to understand and intervene on historical and contemporary power formations.
- Global Consciousness:** Students will understand how complex and interdependent historical and contemporary global forces—environmental, social, cultural, economic, and political— impact and are impacted by Latinas/Latinos. They will learn to apply Latina/Latino Studies critiques to these forces, including but not limited to those related to migration and transnationalism.

This curriculum prepares individuals for positions requiring expertise in formal and non-formal learning and educational settings that do NOT require licensure (becoming a licensed teacher). Students interested in becoming a licensed teacher should consider the licensure program in the majors of Elementary Education, Early Childhood Education, Special Education, or Middle Grades Education.

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the following concentrations:

- Applied Learning Science (p. 457)
- Educational Equality and Cultural Understanding (p. 462)
- Workplace Training and Development (p. 465)
- Digital Environments for Learning, Teaching and Agency (p. 460)

Total minimum hours include general education, language other than English, concentration and core credits.

<sup>1</sup> General Education Requirement. Courses must be selected from the Campus General Education Approved Course List (<https://courses.illinois.edu/>).

<sup>2</sup> Concentration and Core Requirement courses found on the General Education Approved Course List (<https://courses.illinois.edu/>) may also be credited toward the General Education requirements.

<sup>3</sup> Courses except EDUC 202 and EPS 402 may be counted toward both the Core and Concentration requirements.

## Learning & Education Studies: Applied Learning Science, BS (AppLeS)

*for the degree of Bachelor of Science Major in Learning & Education Studies, Applied Learning Science concentration*

**assistant dean for academic affairs: Kathy Ryan****department office: 110 Education Building****1310 South Sixth****Champaign, IL 61820****phone: (217) 333-2800****email: saao@education.illinois.edu****program website:** Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)**faculty:** College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)**college website:** <https://education.illinois.edu/>

The undergraduate non-licensure concentration in Applied Learning Science (AppLeS) will provide a thorough grounding in the learning sciences through an innovative program that includes courses in learning, language understanding, quantitative reasoning and statistics, designing learning environments, and human performance. The program culminates in a capstone course in which the student works on a research project under the direction of one or more faculty members. Graduating students will have a solid preparation for graduate study in this emerging area of scholarship (such as the new Learning Science and Engineering Professional MS Program at Carnegie-Mellon University), as well as in education, psychology, business, law, and other more traditional areas of study. In addition, through their coursework and research experience, international and domestic students will be prepared for a wide range of current (and future) jobs that require expertise in design, analysis, and evaluation of learning environments, as teachers, policy makers, analysts, and professionals in government, healthcare, business, and nonprofit organizations.

Students in the AppLeS concentration will:

- Explore theories, phenomena, and methods in the learning sciences (i.e., the biological, cognitive, dispositional, and sociocultural underpinnings of learning).
- Identify general principles of learning, their contextual variations, and how they can be applied in the classroom, at work and home, and diverse settings of daily life.
- Acquire flexible learning and problem solving skills that can be broadly applied in diverse contexts, including research, quantitative reasoning, communication, and collaborative problem solving.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested minors are: Communication, Computer Science, Informatics, Linguistics, Mathematics or Statistics.

## Learning & Education Studies: Digital Environments for Learning, Teaching & Agency, BS (DELTA)

*for the degree of Bachelor of Science Major in Learning & Education Studies, Digital Environments for Learning, Teaching & Agency concentration*

**assistant dean for academic affairs: Kathy Ryan**

**department office:** 110 Education Building  
1310 South Sixth  
Champaign, IL 61820

**phone:** (217) 333-2800

**email:** [saao@education.illinois.edu](mailto:saao@education.illinois.edu)

**program website:** Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

**faculty:** College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)

**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

**college website:** <https://education.illinois.edu/>

The undergraduate non-licensure concentration in Digital Environments for Learning, Teaching, and Agency (DELTA) will provide students with a strong background in the design, development and implementation of technology for a range of learning environments. Courses will introduce students to learning theory, designing and using technology to support learning, and issues encountered when deploying technology to schools, workplaces and informal learning spaces. The program culminates in a capstone course in which students work on a design project under the direction of one or more faculty members.

Graduating students will be prepared to engage with various stakeholders interested in using technology to support learning in a range of different contexts. Examples include selecting and deploying appropriate technology to support pedagogic goals for schools, corporations, or informal learning environments such as museums and afterschool clubs, designing educational games or toys and educational application development. One of the main objectives for students in DELTA is to build new ways to support learning, and prepare them for leadership roles in formal and informal environments, technology design and implementation strategies. They will also be prepared to pursue graduate study in a range of programs, such as educational technology, learning sciences, or instructional technology at the University of Illinois or elsewhere.

Students are encouraged to pursue a relevant minor or coherent set of electives from several related departments. Suggested minors include: computer science, communication, psychology, informatics, media and cinema studies or sociology. Students may also consider a minor in a specific content area from the arts and sciences to develop expertise in a particular field.

The DELTA concentration consists of 24 hours of course work. Students are required to take a minimum of two foundations courses, three core courses and three elective courses. The core courses are designed to ensure students leave the program with foundational knowledge and skills necessary to design, develop, implement, manage, and evaluate digital environments. The elective courses allow students to tailor the concentration to fit individual career goals and areas of interest. Students should take the foundation course *Introduction to Digital Environments* in the first semester

they join DELTA. Similarly, the *Capstone Research Project* should be taken in the last semester after the majority of DELTA-related course work is complete.

**for the degree of Bachelor of Science Major in Learning & Education Studies, Digital Environments for Learning, Teaching & Agency concentration**

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

# Learning & Education Studies: Educational Equality & Cultural Understanding, BS

*for the degree of Bachelor of Science Major in Learning & Education Studies, Educational Equality & Cultural Understanding concentration*

**assistant dean for academic affairs: Kathy Ryan**

**department office: 110 Education Building**

**1310 South Sixth**

**Champaign, IL 61820**

**phone: (217) 333-2800**

**email: saao@education.illinois.edu**

**program website:** Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

**faculty:** College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)

**overview of college admissions & requirements:** U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

**college website:** <https://education.illinois.edu/>

This undergraduate non-licensure concentration will prepare students to better understand the role of education in enabling equality and cultural understanding in domestic and international perspectives. Focusing on equality, diversity, and cultural understanding will give students a unique perspective on the historical place of education in both challenging inequities and helping to justify social divisions. Understanding how education as an institution operates to perpetuate social and economic stratification will give students a perspective on the challenges of creating a more equitable distribution of education. Classes will cover a wide range of disciplinary approaches, including history, social science, educational policy analysis, and theory. Students will understand the contemporary and historical barriers to the distribution of education and examine recent human rights-based demands for extending education to people of all social classes, regions, ethnicity, language groups, and genders.

Knowing how equity, social justice, and cultural understanding are enabled through education requires an in-depth understanding of domestic and international contexts. Introductory courses will cover basic definitions of educational justice and educational equality, survey international minorities in the United States or minorities in other countries in relationship to education, and explore political, economic, and social contexts for education.

Intermediary classes will invite students to apply their basic understanding of such processes to more local and detailed contexts, like shifts in the U.S. that have extended public schooling and higher education opportunities to historically marginalized populations such as people of color, immigrants, women and citizens from low socioeconomic status. Advanced classes will introduce students to the theoretical approaches to studying social justice and difference, including Critical Race Theory, transnational and global theory, and globalized critical pedagogy.

These courses will be designed to appeal to international and domestic students seeking employment in both the United States and international educational settings, including teaching English as a second language. In addition, understanding the role of education in fostering the expansion of universal human rights will enable students interested in international business and NGOs to explore the problems and potentials of policies intent on improving conditions in the United States and abroad. As all areas of study and trade are increasingly situated in transnational networks, the concentration in Educational Equality and Cultural Understanding provides a firm grounding on key issues of rights, obligations, and new institutions that help maintain commitments for educational equity and justice under these new circumstances.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested minors are: English as a Second Language, African-American Studies, Asian American Studies, Global Studies, Latina/Latino Studies, South Asian Studies, Gender and Women's Studies, or LGBT/Queer Studies.

### ***for the degree of Bachelor of Science Major in Learning & Education Studies, Educational Equality & Cultural Understanding concentration***

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. program website: Learning and Education Studies (<https://education.illinois.edu/programs/undergrad/learning-and-education-studies/>)

faculty: College of Education Faculty (<https://education.illinois.edu/faculty-finder/>)

overview of college admissions & requirements: U (<https://admissions.illinois.edu/myillini-apply/>) Undergraduate Admissions (<https://education.illinois.edu/programs/undergrad/>)

college website: <https://education.illinois.edu/>

Workplace Training and Development is a non-licensure undergraduate concentration. The concentration will provide international and domestic students with the broad sets of knowledge and skills necessary to develop, deliver, and evaluate training and development programs across workplace settings, such as businesses and industries, two-year post-secondary schools, or community and government agencies. In addition, it will serve a growing demand for graduates who have an interest in helping adults learn about and seek to improve organizational performance. The demand comes from a range of business sectors, specifically health care, manufacturing, and logistics.

Students in this concentration will receive an overview of the human resource development field and specifically focus on the training and development aspects of the field. Students will acquire the knowledge and practical skills, in such areas as job and task analysis, training program design, and training program coordination. Students will also be introduced to learning management systems, which most organizations now use to track the learning progress of their employees.

An internship is recommended during the program, but it is not required. For internship credit, students can register in HRD 491 Professional Skill Development before the internship starts. At the end of the internship, a letter from the internship supervisor is submitted to the Workplace Training and Development departmental contact.

The concentration appeals to the following potential students:

- Individuals who wish to combine the study of organizations and learning in their academic studies;
- Individuals who currently work in a technical role, such as a lab tech or nurse in health care, and who want to become more involved in training others about their occupation;

- Individuals with an associates degree who work as information technology specialists and who are asked to develop and deliver training for others;
- Individuals who wish to work in the business and industry outreach departments of community colleges;
- Individuals who serve or wish to serve as instructors in post-secondary technical education schools;
- Individuals who wish to serve as a staff member in the human resource development department of an organization; and
- Individuals who wish to prepare for future graduate study in human resource development.

Students are encouraged to pursue a minor or a coherent set of electives from several departments as approved by their adviser. Suggested minors are: Business, Leadership, Communication, Technology and Management or Global Labor Studies.

***for the degree of Bachelor of Science Major in Learning & Education Studies, Workplace Training & Development concentration***

A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.

**Degree Requirements**

## Learning Outcomes: Learning & Education Studies, BS

Learning Outcomes for the degree of Bachelor of Science Major in Learning & Education Studies

1. Students will acquire deep knowledge of content in the workplace.
2. Students will effectively learn the skills and disposition to develop, plan, and implement culturally relevant and responsive outcomes in their respective professions and civic engagements.

3. Students will use data to drive decisions and solve problems in their professional careers.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices).

# Linguistics, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics

**department website:** <https://linguistics.illinois.edu/>

**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

**advising:** Linguistics Advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The Department of Linguistics offers undergraduate instruction of four types: courses in linguistics, in English as an International Language, English as a Second Language, and in non-Western languages.

Linguistics courses focus on empirical and theoretical issues connected with how languages are structured, how they are used, and how they change through time. These courses are of interest not only to linguistics majors, but to students in any field where the analysis of languages is important: anthropology, speech and hearing science, psychology, philosophy, computer science, foreign languages, and others.

English as an International Language courses are concerned with the teaching of English to speakers of other languages, and are useful to any students planning a career in language teaching.

English as a Second Language courses are for students whose first language is not English, to build up skills in speaking, understanding, reading, and writing English.

Non-Western Language courses build up skills in speaking, listening, reading and writing a specific language; familiarize students with literatures and cultures connected with the language; and examine linguistic issues peculiar to the language itself. These courses are of interest to students planning international careers, or simply desiring to broaden their perspective and learn about a different language and culture. Languages offered by the department are: African Languages (Bamana, Lingala, Swahili, Wolof, and Zulu), Arabic, Hindi, Modern Greek, Persian, Sanskrit, Turkish.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Students are strongly encouraged to fulfill the requirements for completing their program with distinction. Candidates for the degree with distinction must register their candidacy with their advisers no later than the end of the second semester of the junior year. They must achieve a grade point average of at least 3.4 for the required 36 hours in linguistics, and register for at least 4 hours of LING 391 - Honors Individual Study, plus submit a senior honors thesis to the Department of Linguistics by the first day of the month preceding the month of graduation.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 50-52 hours.

**Students must complete 21 hours of coursework at the 300- or 400-level, including at least 12 hours of 300- or 400-level linguistics courses on this campus. These courses may be included in the core courses or electives.**

**Twelve hours of 300- or 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Major core courses:		18
LING 100	Intro to Language Science	
LING 210	Language History	
LING 301	Elements of Syntax	
LING 302	Elements of Phonology	
LING 307	Elmnts Semantics & Pragmatics	
LING 401	Intro to General Phonetics	
Select one of the following:		3
LING 225	Language, Mind, and Brain	
LING 250	American Voices: Linguistic Diversity in the US	
Major electives: 15 hours of Linguistics courses at the 200- to 400-level, chosen in consultation with the student's advisor		15

Students must fulfill the LAS foreign language requirement, and in addition, complete at least 8 hours in a second foreign language. One of these languages must be a non-Western language chosen from the following list or approved in consultation with the student's advisor: American Sign Language, Arabic, Bamana, Basque, Chinese, Hebrew, Hindi/Urdu, Japanese, Korean, Lingala, Persian, Quechua, Sanskrit, Swahili, Turkish, Wolof, Zulu. Courses used to complete this requirement may also be used to meet the requirement of "Courses in linguistically relevant areas," below.	8-10
Courses in linguistically relevant areas chosen in consultation with the student's advisor. There are two ways of meeting this requirement:  A. The courses may come from any of the following disciplines: any foreign language, anthropology, classics, computer science, English, English as an international language, philosophy, psychology, speech and hearing science, communication.  B. Students desiring to specialize in the linguistics of a particular language should complete at least four semesters of instruction in that language beyond the elementary level, and a linguistics course or independent study focusing on the selected language or its language family.	14

## Learning Outcomes: Linguistics, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics

- 
1. Students will acquire substantial understanding of how languages are structured, including the organization of phonological, morphological, syntactic, and semantic systems; of the ways such systems vary from language to language; and of how they change over time.
  2. Students will gain a sense of how languages function: how they are processed psychologically, how they are learned, how they are effectively taught, how they express social identity, and/or how computational and other technologies may be applied to them.
  3. Students will learn to think analytically about language, to present and justify analyses systematically, to support claims with sound arguments and empirical evidence, and to evaluate claims about language critically.

# Linguistics & Teaching English as a Second Language, BALAS (TESL)

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics & Teaching English as a Second Language (TESL)

**department website:** <https://linguistics.illinois.edu/>

**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

**advising:** Linguistics Advising (<https://linguistics.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

The Department of Linguistics offers undergraduate instruction of three types: courses in linguistics, English as an International Language, English as a Second Language, and in non-Western languages.

Linguistics courses focus on empirical and theoretical issues connected with how languages are structured, how they are used, and how they change through time. These courses are of interest to students in the Linguistics, CS + Linguistics, as well as Linguistics + TESL majors. These courses will also be of interest to students in other fields where the analysis of languages is important: anthropology, speech and hearing science, education, psychology, philosophy, computer science, foreign languages, and others.

English as an International Language courses are concerned with the teaching of English to speakers of other languages. These courses are of interest to not only Linguistics + TESL majors, but to students planning a career in language teaching.

English as a Second Language courses are for students whose first language is not English, to build up skills in speaking, understanding, reading, and writing English.

Non-Western Language courses build up skills in speaking, listening, reading and writing a specific language; familiarize students with literatures and cultures connected with the language; and examine linguistic issues peculiar to the language itself. These courses are of interest to students planning international careers, or simply desiring to broaden their perspective and learn about a different language and culture. Languages offered by the department are: African Languages (Bamana, Lingala, Swahili, Wolof, and Zulu), Arabic, Hindi, Modern Greek, Persian, Sanskrit, Turkish.

for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Linguistics & Teaching English as a Second Language

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required course work equates to a total of 41 credit hours of Linguistics and TESL courses, including at least 8 hours of foreign languages. Please see your academic advisor. A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Twelve hours of 300- and 400-level courses must be taken on this campus.

**Minimum hours required for graduation:** 120 hours. Students will complete 40 hours of upper-division coursework (these hours can be drawn from all elements of the degree).

Code	Title	Hours
<b>LING Core Courses</b>		<b>15</b>
LING 100 or EIL 486	Intro to Language Science Ling for Language Teachers

Foreign Language Requirement		8
In addition the LAS foreign language language requirement, students must complete at least 8 hours in a second foreign language. One of the languages must be a non-Western language.		
Total Hours		41

# Lyric Theatre, BMA

for the degree of Bachelor of Musical Arts Major in Lyric Theatre

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of two concentrations:

Creative Concentration (p. 473)

Performance Concentration (p. 475)

The Bachelor of Musical Arts with a major in Lyric Theatre is an interdisciplinary degree designed for the singer-actor, which incorporates training in dance and theatre in addition to music. This degree requires students to choose one of two Concentrations: Performance (performer) or Creative (director, choreographer, dramaturg, set designer, composer).

The BMA Lyric Theatre curriculum is formed around courses in music, dance, and theatre. Advanced coursework includes a senior project. This degree requires a minimum of 129 semester hours of credit for graduation.

For admission requirements for the Bachelor of Musical Arts, please see the School of [Music's Admissions website](#) or contact the Music Admissions Office:

Music Admissions Office

School of Music

1114 W. Nevada Street

Urbana, IL 61801

Phone: (217) 244-7899

E-mail: [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu) (%20musicadmissions@illinois.edu)

## Lyric Theatre: Creative, BMA

for the degree of Bachelor of Musical Arts Major in Lyric Theatre, Creative Concentration

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

In addition to the Music and Lyric Theatre core areas, students who choose the Creative Concentration must also complete a minimum of twelve (12) hours of coursework within the concentration. Students may choose a combination of the below courses in consultation with and approval of their advisor. At least six (6) hours must be taken from the first three (3) courses which deal with the performance of original work. With the other courses, similar type classes may be substituted with the approval of the Lyric Theatre faculty.

# Management, BS

for the degree of Bachelor of Science Major in Management

**department office:** 330 Wohlers Hall, 1206 South Sixth Street, Champaign, IL 61820

**phone:** 217-333-4240

**email:** [ba@business.illinois.edu](mailto:ba@business.illinois.edu) (<http://catalog.illinois.edu/undergraduate/bus/management-business-bs/ba@business.illinois.edu>)

**department website:** <https://giesbusiness.illinois.edu/business-administration> (<https://giesbusiness.illinois.edu/business-administration/>)

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**college website:** <https://giesbusiness.illinois.edu/>

The Management Major is designed to enable business students to be leaders and innovators in their work teams and organizations. You'll be trained to analyze and solve managerial problems – be they around people, organizations, or markets - that every organization faces in its day-to-day operations. You'll take courses about leading individuals and teams, designing and managing organizations, effective negotiation, and strategic human resource management. You'll also choose from a variety of electives, including new product development, project management, entrepreneurship, and international business.

for the degree of Bachelor of Science Major in Management

Minimum requirements for the major in the Bachelor of Science Degree in Management are:

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
A minimum of six courses is required, as follows:		18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	
	Quantitative Reasoning (2 courses) <sup>7</sup>	

## Language Other Than English

Code	Title	Hours
	Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.	0-15

## Business Core Requirements

## **Learning Outcomes: Management, BS**

Learning Outcomes for the degree of Bachelor of Science Major in Management

---

1. Critical Thinking and Problem Solving Skills
2. Leadership and Teamwork
3. Communication Skills
4. Multicultural Diversity & Managing Business Cross-Culturally
5. Managing Small Business Formation & Growth

# Marketing, BS

## for the degree of Bachelor of Science in Marketing

**department website:** <https://business.illinois.edu/ba/undergraduate/marketing/>

**department faculty:** Marketing Faculty (<https://business.illinois.edu/ba/directories/marketing/>)

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)

**college website:** <https://business.illinois.edu/>

**email:** [ba-undergrad@illinois.edu](mailto:ba-undergrad@illinois.edu)

The Marketing student studies business activities directly related to the process of developing, deciding, and placing meaningful assortments of goods and services in the hands of the consumer. The Marketing major is concerned with the efficient and effective performance of marketing activities and coordinating with the other operations of the firm. In addition to the Marketing Major's requirements, Business Administration students must also fulfill the Urbana-Champaign campus's General Education requirements and the Gies College of Business's Core Courses requirements (for more detail, refer to the [Gies College of Business Undergraduate Section \(http://catalog.illinois.edu/schools/gies-business/academic-units/\)](http://catalog.illinois.edu/schools/gies-business/academic-units/)).

## for the degree of Bachelor of Science in Marketing

### Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## Learning Outcomes: Marketing, BS

Learning Outcomes for the degree of Bachelor of Science in Marketing

- 
1. Master core concepts that pertain to contemporary marketing practices and technologies.
  2. Demonstrate the ability to analyze real-world marketing problems, develop alternative solutions, evaluate the strengths and weaknesses of these solutions and choose and implement a solution.
  3. Demonstrate the ability to collaborate and problem-solve in teams, and to collaborate with team members and clients across business functions and disciplines.
  4. Cultivate a global mindset – an appreciation, curiosity, and empathy toward other cultures, and a capacity to develop innovative solutions to global as well as local marketing problems.
  5. Communicate effectively in writing and orally across all modalities – written, oral, and digital.

# Materials Science & Engineering, BS

for the degree of Bachelor of Science in Materials Science & Engineering

**department website:** <https://matse.illinois.edu>

**department faculty:** Materials Science & Engineering Faculty (<https://matse.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://matse.illinois.edu/academics/undergraduate-programs/student-outcomes> (<https://matse.illinois.edu/academics/undergraduate-programs/student-outcomes/>)

Materials science and engineering is the basis for all engineering. Improvements in the quality of life require knowledge of the processing and properties of current materials and the design, development and application of new materials. The Materials Science and Engineering (MatSE) curriculum provides an understanding of the underlying principles of synthesis and processing of materials and of the interrelationships between structure, properties, and processing. Students learn how to create advanced materials and systems required, e.g., for flexible electronic displays and photonics that will change communications technologies, for site specific drug delivery, for self-healing materials, for enabling the transition to a hydrogen-based economy, and for more efficient photovoltaics and nuclear systems for energy production. The curriculum uses concepts from both basic physics and chemistry and provides a detailed knowledge of what makes the materials we use every day behave as they do.

Students in the first two years take courses in general areas of science and engineering as well as courses introducing the concepts in MatSE. In the third year, students study the common, central issues related to MatSE. In the senior year, students focus on an area of MatSE of their greatest interest, providing them with the detailed knowledge to be immediately useful to corporations, become entrepreneurs, or to provide the underpinning knowledge for graduate study. Note: students interested in biomaterials take a specific set of courses to provide them with a background in biology and chemistry while maintaining a strong engineering focus.

for the degree of Bachelor of Science in Materials Science & Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. Specific Advanced Composition courses required for this degree are listed below.**

### Orientation and Professional Development

MSE 405	Microstructure Determination	3
Subtotal		6
<b>Total for all non-Biomaterials Students</b>		<b>42</b>

## Technical Electives

### For the Biomaterials Area

Code	Title	Hours
Biomaterials area topical lectures selected from the list of topical lectures established by the department. See Topical Lecture list below:		5
MSE 404	Laboratory Studies in Materials Science and Engineering (Each section of MSE 404 is 1.5 hours. Students take 2 unique sections of MSE 404 for 3 hours.)	3
MSE 470	Design and Use of Biomaterials	3
Topical lectures outside the biomaterials area. See Topical Lecture list below.		6
Total Hours		17

### For All Other Areas

Code	Title	Hours
Topical lectures selected for the list of courses established by the department below. No more than 6 hours may be from introductory topical lectures		12
MSE 404	Laboratory Studies in Materials Science and Engineering (Each section of MSE 404 is 1.5 hours. Students take 4 unique sections of MSE 404 for 6 hours.)	6
Technical elective courses selected from the list of technical electives below.		6
Total Hours		24

**Topical Lectures**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Introductory - No more than 2 introductory courses can count for Topical Lecture</b>		
MSE 420	Ceramic Materials & Properties	3
MSE 441	Metals Processing	3
MSE 450	Polymer Science & Engineering	3 or 4
MSE 470	Design and Use of Biomaterials	3
ECE 340	Semiconductor Electronics	3
<b>Biomaterials</b>		
MSE 473	Biomolecular Materials Science	3
MSE 474	Biomaterials and Nanomedicine	3
ABE 446	Biological Nanoengineering	3 or 4
BIOE 416	Biosensors	3
BIOE 461	Cellular Biomechanics	4
BIOE 476	Tissue Engineering	3
BIOE 487	Stem Cell Bioengineering	3 or 4
CHBE 473	Biomolecular Engineering	3 or 4
ECE 380	Biomedical Imaging	3
ECE 414	Biomedical Instrumentation	3
ECE 415	Biomedical Instrumentation Lab	2
ECE 472	Biomedical Ultrasound Imaging	3
ME 482	Musculoskel Tissue Mechanics	3 or 4
ME 483	Mechanobiology	4
<b>Biomaterials Science - Can only count one science course for Topical Lecture Biomaterials</b>		
BIOC 446	Physical Biochemistry	3
BIOC 455	Technqs Biochem & Biotech	4
BIOP 401	Introduction to Biophysics	3
<b>All Other Areas</b>		
MSE 403	Synthesis of Materials	3
MSE 421	Ceramic Processing	3 or 4
MSE 422	Electrical Ceramics	3
MSE 440	Mechanical Behavior of Metals	3
MSE 443	Design of Engineering Alloys	3
MSE 445	Corrosion of Metals	3 or 4
MSE 453	Plastics Engineering	3
MSE 455	Macromolecular Solids	3
MSE 456	Mechanics of Composites	3
MSE 457	Polymer Chemistry	3 or 4
MSE 458	Polymer Physics	3 or 4
MSE 460	Electronic Materials I	3
MSE 461	Electronic Materials II	3
MSE 466	Materials in Electrochem Syst	3
MSE 480	Surfaces and Colloids	3
MSE 481	Electron Microscopy	3
MSE 484	Composite Materials	3
MSE 485	Atomic Scale Simulations	3
MSE 487	Materials for Nanotechnology	3
MSE 488	Optical Materials	3 or 4
MSE 489	Matl Select for Sustainability	3
ABE 482	Package Engineering	3
CEE 401	Concrete Materials	4
CEE 460	Steel Structures I	3

CHBE 457	Microelectronics Processing	3
ECE 441	Physcs & Modeling Semicond Dev	3
ECE 443	LEDs and Solar Cells	4
ECE 444	IC Device Theory & Fabrication	4
ECE 481	Nanotechnology	4
ECE 485	MEMS Devices & Systems	3
ECE 487	Intro Quantum Electr for EEs	3
ECE 488	Compound Semicond & Devices	3
ECE 495	Photonic Device Laboratory	3
IE 431	Design for Six Sigma	3
ME 431	Mechanical Component Failure	3 or 4
ME 450		
ME 472	Introduction to Tribology	3 or 4
ME 487	MEMS-NEMS Theory & Fabrication	4
NPRE 470	Fuel Cells & Hydrogen Sources	3
SE 412	Nondestructive Evaluation	3 or 4
TAM 427		
TAM 451	Intermediate Solid Mechanics	4
TAM 456	Experimental Stress Analysis	3
<b>Science - Can only count one science course for Topical Lecture</b>		
CHEM 436	Fundamental Organic Chem II	3
PHYS 485	Atomic Phys & Quantum Theory	3
PHYS 486	Quantum Physics I	4
PHYS 487	Quantum Physics II	4

### Technical Elective courses

Code	Title	Hours
Technical electives selected from the list below of approved courses established by the department:		6
AE 202	Aerospace Flight Mechanics	3
AE 302	Aerospace Flight Mechanics II	3
AE 311	Incompressible Flow	3
AE 312	Compressible Flow	3
AE 321	Mechs of Aerospace Structures	3
AE 323	Applied Aerospace Structures	3
AE 352	Aerospace Dynamical Systems	3
AE 353	Aerospace Control Systems	3
AE 370	Aerospace Numerical Methods	3
AE 402	Orbital Mechanics	3 or 4
AE 403	Spacecraft Attitude Control	3 or 4
AE 410	Computational Aerodynamics	3 or 4
AE 412	Viscous Flow & Heat Transfer	4
AE 416	Applied Aerodynamics	3 or 4
AE 419	Aircraft Flight Mechanics	3 or 4
AE 420	Finite Element Analysis	3 or 4
AE 427		
AE 428	Mechanics of Composites	3
AE 433	Aerospace Propulsion	3 or 4
AE 434	Rocket Propulsion	3 or 4
AE 435	Electric Propulsion	3 or 4
AE 442	Aerospace Systems Design I	3
AE 443	Aerospace Systems Design II	3
AE 451	Aeroelasticity	3 or 4
AE 454	Systems Dynamics & Control	3 or 4

AE 460	Aerodynamics & Propulsion Lab	2
AE 461	Structures & Control Lab	2
AE 468	Optical Remote Sensing	3
AE 482	Introduction to Robotics	4
AE 483	Autonomous Systems Lab	2
ABE 223	ABE Principles: Machine Syst	2
ABE 224	ABE Principles: Soil & Water	2
ABE 225	ABE Principles: Bioenvironment	2
ABE 226	ABE Principles: Bioprocessing	2
ABE 341	Transport Processes in ABE	3
ABE 361	Off-Road Machine Design	3
ABE 425	Engrg Measurement Systems	4
ABE 430	Project Management	2
ABE 436	Renewable Energy Systems	3 or 4
ABE 446	Biological Nanoengineering	3 or 4
ABE 454	Environmental Soil Physics	3
ABE 455	Erosion and Sediment Control	2
ABE 456	Land & Water Resources Engrg	3 or 4
ABE 457	NPS Pollution Processes	2
ABE 458	NPS Pollution Modeling	2
ABE 459	Drainage and Water Management	3 or 4
ABE 463	Electrohydraulic Systems	3
ABE 466	Engineering Off-Road Vehicles	3
ABE 469	Industry-Linked Design Project	4
ABE 474	Indoor Environmental Control	3 or 4
ABE 476	Indoor Air Quality Engineering	4
ABE 482	Package Engineering	3
ABE 483	Engineering Properties of Food Materials	3
ABE 488	Bioprocessing Biomass for Fuel	4
BIOC 446	Physical Biochemistry	3
BIOC 455	Technqs Biochem & Biotech	4
BIOE 201	Conservation Principles Bioeng	3
BIOE 202	Cell & Tissue Engineering Lab	2
BIOE 205	Signals & Systems in Bioengrg	3
BIOE 301		
BIOE 302	Modeling Human Physiology	3
BIOE 303	Quantitative Physiology Lab	2
BIOE 306	Biofabrication Lab	3
BIOE 360	Transport & Flow in Bioengrg	3
BIOE 380	Biomedical Imaging	3
BIOE 414	Biomedical Instrumentation	3
BIOE 415	Biomedical Instrumentation Lab	2
BIOE 416	Biosensors	3
BIOE 420	Intro Bio Control Systems	3
BIOE 430	Intro Synthetic Biology	3 or 4
BIOE 461	Cellular Biomechanics	4
BIOE 467	Biophotonics	3
BIOE 476	Tissue Engineering	3
BIOE 479	Cancer Nanotechnology	3
BIOE 480	Magnetic Resonance Imaging	3 or 4
BIOE 481	Whole-Body Musculoskel Biomech	3 or 4
BIOE 482	Musculoskel Tissue Mechanics	3 or 4

BIOE 487	Stem Cell Bioengineering	3 or 4
BIOP 401	Introduction to Biophysics	3
BIOP 419	Brain, Behavior & Info Process	3
BIOP 432	Photosynthesis	3
BTW 261	Principles Tech Comm	3
CHBE 221	Principles of CHE	3
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
CHBE 430	Unit Operations Laboratory	4
CHBE 431	Process Design	4
CHBE 440	Process Control and Dynamics	3
CHBE 451	Transport Phenomena	3
CHBE 452	Chemical Kinetics & Catalysis	3
CHBE 456	Polymer Science & Engineering	3
CHBE 457	Microelectronics Processing	3
CHBE 471	Biochemical Engineering	3 or 4
CHBE 472	Techniques in Biomolecular Eng	3 or 4
CHBE 473	Biomolecular Engineering	3 or 4
CHBE 474	Metabolic Engineering	3 or 4
CHBE 475	Tissue Engineering	3
CHBE 476	Biotransport	3
CHBE 478	Bioenergy Technology	3
CHEM 222	Quantitative Analysis Lecture	2
CHEM 223	Quantitative Analysis Lab	2
CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 233	Elementary Organic Chem Lab I	2
CHEM 236	Fundamental Organic Chem I	4
CHEM 237	Structure and Synthesis	2
CHEM 312	Inorganic Chemistry	3
CHEM 315	Instrumental Chem Systems Lab	2
CHEM 317	Inorganic Chemistry Lab	3
CHEM 332	Elementary Organic Chem II	4
CHEM 360	Chemistry of the Environment	3
CHEM 420	Instrumental Characterization	2
CHEM 436	Fundamental Organic Chem II	3
CHEM 437	Organic Chemistry Lab	3
CHEM 438	Advanced Organic Chemistry	3
CHEM 440	Physical Chemistry Principles	4
CHEM 442	Physical Chemistry I	4
CHEM 445	Physical Principles Lab I	2
CHEM 447	Physical Principles Lab II	2
CHEM 450	Astrochemistry	4
CHEM 451	Astrochemistry Laboratory	3 or 4
CHEM 460	Green Chemistry	3 or 4
CHEM 472	Physical Biochemistry	3
CHEM 480	Polymer Chemistry	3 or 4
CHEM 482	Polymer Physics	3 or 4
CHEM 483	Solid State Structural Anlys	4
CHEM 488	Surfaces and Colloids	3 or 4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3

CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3 or 4
CEE 406	Pavement Design I	3 or 4
CEE 407	Airport Design	3 or 4
CEE 408	Railroad Transportation Engrg	3 or 4
CEE 409	Railroad Track Engineering	3 or 4
CEE 410	Railway Signaling & Control	3 or 4
CEE 411	RR Project Design & Constr	3 or 4
CEE 412	High-Speed Rail Engineering	3 or 4
CEE 430	Ecological Quality Engineering	2
CEE 432	Stream Ecology	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 445		
CEE 446	Air Quality Engineering	4
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab	3
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 462	Steel Structures II	3 or 4
CEE 463	Reinforced Concrete II	3 or 4
CEE 465	Design of Structural Systems	3
CEE 467	Masonry Structures	3 or 4
CEE 468	Prestressed Concrete	3 or 4
CEE 469	Wood Structures	3 or 4
CEE 470	Structural Analysis	4
CEE 471	Structural Mechanics	3 or 4
CEE 472	Structural Dynamics I	3 or 4
CEE 480		
CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics	3 or 4
CEE 491	Decision and Risk Analysis	3 or 4
CSE 401	Numerical Analysis	3 or 4
CSE 402	Parallel Progrmg: Sci & Engrg	3 or 4
CSE 414	Algorithms	4
CSE 422	Computer System Organization	3 or 4
CSE 423	Operating Systems Design	3 or 4
CSE 426	Software Engineering I	3 or 4
CSE 427	Interactive Computer Graphics	3 or 4

CSE 429	Software Engineering II	3 or 4
CSE 441	Introduction to Optimization	3 or 4
CSE 450	Computational Mechanics	3 or 4
CSE 451	Finite Element Analysis	3 or 4
CSE 461	Computational Aerodynamics	3 or 4
CSE 485	Atomic Scale Simulations	3 or 4
CS 173	Discrete Structures	3
CS 210	Ethical & Professional Issues	2
CS 225	Data Structures	4
CS 233	Computer Architecture	4
CS 241	System Programming	4
CS 242	Programming Studio	3
CS 357	Numerical Methods I	3
CS 374	Introduction to Algorithms & Models of Computation	4
CS 410	Text Information Systems	3 or 4
CS 411	Database Systems	3 or 4
CS 412	Introduction to Data Mining	3 or 4
CS 413	Intro to Combinatorics	3 or 4
CS 414	Multimedia Systems	3 or 4
CS 418	Interactive Computer Graphics	3 or 4
CS 419	Production Computer Graphics	3 or 4
CS 420	Parallel Progrmg: Sci & Engrg	3 or 4
CS 421	Programming Languages & Compilers	3 or 4
CS 422	Programming Language Design	3 or 4
CS 423	Operating Systems Design	3 or 4
CS 424	Real-Time Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 426	Compiler Construction	3 or 4
CS 427	Software Engineering I	3 or 4
CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 431	Embedded Systems	3 or 4
CS 433	Computer System Organization	3 or 4
CS 436	Computer Networking Laboratory	3 or 4
CS 438	Communication Networks	3 or 4
CS 439	Wireless Networks	3 or 4
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
CS 447	Natural Language Processing	3 or 4
CS 450	Numerical Analysis	3 or 4
CS 457	Numerical Methods II	3
CS 460	Security Laboratory	3 or 4
CS 461	Computer Security I	4
CS 463	Computer Security II	3 or 4
CS 465	User Interface Design	4
CS 466	Introduction to Bioinformatics	3 or 4
CS 467	Social Visualization	3 or 4
CS 473	Algorithms	4
CS 475	Formal Models of Computation	3 or 4
CS 476	Program Verification	3 or 4
CS 477	Formal Software Development Methods	3 or 4
CS 481	Advanced Topics in Stochastic Processes & Applications	3 or 4

CS 482	Simulation	3 or 4
CS 483	Applied Parallel Programming	4
CS 484	Parallel Programming	3 or 4
ECE 206	Electrical and Electronic Circuits Lab	1
ECE 210	Analog Signal Processing	4
ECE 211	Analog Circuits & Systems	2
ECE 304	Photonic Devices	3
ECE 307	Techniques for Engrg Decisions	3
ECE 310	Digital Signal Processing	3
ECE 311	Digital Signal Processing Lab	1
ECE 329	Fields and Waves I	3
ECE 330	Power Ckts & Electromechanics	3
ECE 333	Green Electric Energy	3
ECE 340	Semiconductor Electronics	3
ECE 342	Electronic Circuits	3
ECE 343	Electronic Circuits Laboratory	1
ECE 350	Fields and Waves II	3
ECE 380	Biomedical Imaging	3
ECE 385	Digital Systems Laboratory	3
ECE 391	Computer Systems Engineering	4
ECE 395	Advanced Digital Projects Lab	2 or 3
ECE 401	Signal and Image Analysis	4
ECE 402	Electronic Music Synthesis	3
ECE 403	Audio Engineering	3
ECE 408	Applied Parallel Programming	4
ECE 411	Computer Organization & Design	4
ECE 412	Microcomputer Laboratory	3
ECE 414	Biomedical Instrumentation	3
ECE 415	Biomedical Instrumentation Lab	2
ECE 416	Biosensors	3
ECE 417	Multimedia Signal Processing	4
ECE 418	Image & Video Processing	4
ECE 419	Security Laboratory	3 or 4
ECE 420	Embedded DSP Laboratory	2
ECE 422	Computer Security I	4
ECE 424	Computer Security II	3 or 4
ECE 425	Intro to VLSI System Design	3
ECE 428	Distributed Systems	3 or 4
ECE 431	Electric Machinery	4
ECE 432	Advanced Electric Machinery	3
ECE 435	Computer Networking Laboratory	3 or 4
ECE 437	Sensors and Instrumentation	3
ECE 438	Communication Networks	3 or 4
ECE 439	Wireless Networks	3 or 4
ECE 441	Physcs & Modeling Semicond Dev	3
ECE 443	LEDs and Solar Cells	4
ECE 444	IC Device Theory & Fabrication	4
ECE 445	Senior Design Project Lab	4
ECE 446	Principles of Experimental Research in Electrical Engineering	4
ECE 447	Active Microwave Ckt Design	3
ECE 448	Artificial Intelligence	3 or 4
ECE 451	Adv Microwave Measurements	3

ECE 452	Electromagnetic Fields	3
ECE 453	Wireless Communication Systems	4
ECE 454	Antennas	3
ECE 455	Optical Electronics	3 or 4
ECE 456	Global Nav Satellite Systems	4
ECE 457	Microwave Devices & Circuits	3
ECE 458	Applic of Radio Wave Propag	3
ECE 459	Communications Systems	3
ECE 460	Optical Imaging	4
ECE 461	Digital Communications	3
ECE 462	Logic Synthesis	3
ECE 463	Digital Communications Lab	2
ECE 464	Power Electronics	3
ECE 465	Optical Communications Systems	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>6</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>7</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> This optional course may be used to help meet free elective requirements.
- <sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>4</sup> The replacement of IE 300 with STAT 400 is not allowed for students in the Biomaterials Area unless one of their biomaterials area topical lectures and one of their topical lectures outside the biomaterials area are deemed by the Accreditation Board for Engineering and Technology (ABET) to be an engineering course. The extra hour of credit for STAT 400 may be used to help meet free elective requirements.
- <sup>5</sup> Advanced Composition satisfied by completing MSE 307 and MSE 308.
- <sup>6</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>7</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Materials Science & Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (biomaterials) (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/matse-biomaterials-map/>) and here (all other areas) (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/matse-non-biomaterials-map/>).

### First Year

First Semester		Hours
MSE 182	Introduction to MatSE	2
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 (or General education elective) <sup>2,3</sup>	Writing and Research	4-3
Semester Hours		14-13
Second Semester		
MSE 183 <sup>4</sup>	Freshman Materials Laboratory	1
MATH 231	Calculus II	3
MATH 225	Introductory Matrix Theory	2
CHEM 104	General Chemistry II	3

CHEM 105	General Chemistry Lab II	1
PHYS 211	University Physics: Mechanics	4
General education elective (or RHET 105) <sup>2,3</sup>		3-4
Semester Hours		17-18

**Second Year****First Semester**

CS 101	Intro Computing: Engrg Sci	3
MATH 241	Calculus III	4
MSE 201	Phases and Phase Relations	3
PHYS 212	University Physics: Elec Mag	4
General education elective <sup>3</sup>		3
Semester Hours		17

**Second Semester**

ECE 205	Electrical and Electronic Circuits	3
MATH 285	Intro Differential Equations	3
MSE 206	Mechanics for MatSE	4
PHYS 214	Univ Physics: Quantum Physics	2
General education elective <sup>3</sup>		3
Semester Hours		15
Total Hours:		63

**All students except Biomaterials Area****Third Year****First Semester**

	Hours
IE 300 or STAT 400 <sup>5</sup>	3
MSE 307 <sup>6</sup>	3
MSE 401	3
MSE 406	3
General education elective <sup>3</sup>	3
Semester Hours	15

**Second Semester**

MSE 304	Electronic Properties of Matls	3
MSE 308 <sup>6</sup>	Materials Laboratory II	3
MSE 402	Kinetic Processes in Materials	3
MSE 405	Microstructure Determination	3
Topical lecture (intro level suggested) <sup>7</sup>		3
General education elective <sup>3</sup>		3
Semester Hours		18

**Fourth Year****First Semester**

Topical lecture courses <sup>7</sup>	6
MSE 404 <sup>9</sup>	3
Technical elective <sup>8,10</sup>	3
General education elective <sup>3</sup>	3
Free elective <sup>8</sup>	3
Semester Hours	18

**Second Semester**

MSE 395	Materials Design	3
MSE 404 <sup>9</sup>	Laboratory Studies in Materials Science and Engineering	3
Topical lecture <sup>7</sup>		3
Technical elective <sup>8,10</sup>		3

Free elective <sup>8</sup>	3
Semester Hours	15
Total Hours:	66

## Biomaterials Area

### Third Year

First Semester	Hours
CHEM 232 Elementary Organic Chemistry I	3
MSE 307 <sup>6</sup> Materials Laboratory I	3
MSE 401 Thermodynamics of Materials	3
MSE 406 Thermal-Mech Behavior of Matls	3
MCB 150 Molec Cellular Basis of Life	4
Semester Hours	16
Second Semester	
MCB 252 Cells, Tissues Development	3
IE 300 or STAT 400 <sup>5</sup> Analysis of Data	3
MSE 308 <sup>6</sup> Materials Laboratory II	3
MSE 402 Kinetic Processes in Materials	3
General education elective <sup>3</sup>	3
Semester Hours	15

### Fourth Year

First Semester	
MSE 470 Design and Use of Biomaterials	3
MCB 450 Introductory Biochemistry	3
Topical lecture in biomaterials area <sup>7</sup>	2
Topical lecture outside of biomaterials area <sup>7</sup>	3
General education elective <sup>3</sup>	3
Free Elective <sup>8</sup>	3
Semester Hours	17
Second Semester	
MSE 395 Materials Design	3
MSE 404 <sup>9</sup> Laboratory Studies in Materials Science and Engineering	3
Topical lecture in biomaterials area <sup>7</sup>	3
Topical lecture outside of biomaterials area <sup>7</sup>	3
General education elective <sup>3</sup>	3
Free elective <sup>8</sup>	3
Semester Hours	18
Total Hours:	66

Code	Title	Hours
Total Hours all semesters		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts.  
Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> This course is highly recommended for freshmen, who may use it to help meet free elective requirements.

- 5     *The replacement of IE 300 with STAT 400 is not allowed for students in the Biomaterials Area unless one of their biomaterials area topical lectures and one of their topical lectures outside the biomaterials area are deemed by the Accreditation Board for Engineering and Technology (ABET) to be an engineering course. The extra hour of credit for STAT 400 may be used to help meet free elective requirements.*
- 6     *Satisfies the General Education Advanced Composition requirement.*
- 7     *To be selected from list of topical lecture courses (<https://matse.illinois.edu/academics/undergraduate-programs/topical-lectures/>) established by the department to provide an acceptable level of study in the student's chosen focus area.*
- 8     *During fourth year, strongly recommended is incorporation of one or more of an internship, co-op position, and a research project during summers or an academic semester, or both. For students who intend to continue in graduate school, recommended additionally is the undertaking of a research project (Senior Thesis) in the senior year. The project may take the place of up to 3 hours of technical electives with the remainder counting for free electives.*
- 9     Each section of MSE 404 is 1.5 hours. Students take 2 unique sections of MSE 404 for 3 hours.
- 10    *Selected from the departmental list of approved technical electives (<https://matse.illinois.edu/academics/undergraduate-programs/undergraduate-curriculum/technical-electives/>).*

## Learning Outcomes: Materials Science & Engineering, BS

Learning outcomes for the degree of Bachelor of Science Major in Materials Science & Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Materials Science & Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Mathematics, BSLAS

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics

**department website:** <https://www.math.illinois.edu/>

**department faculty:** Mathematics Faculty (<https://math.illinois.edu/directory/faculty/>)

**advising:** Math advising (<https://math.illinois.edu/academics/undergraduate-program/undergraduate-advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [mathadvising@illinois.edu](mailto:mathadvising@illinois.edu)

Students in the Mathematics major can choose one of the following to complete the major.

Mathematics major (p. 506)

Mathematics major, Applied Mathematics concentration (p. 507)

Mathematics major, Graduate Preparation concentration (p. 508)

Mathematics major, Mathematics Teaching concentration (p. 510)

Mathematics major, Operations Research concentration (p. 512)

Mathematics is a broad discipline that contains a range of areas of specialization within it. The required core courses provide fundamental background for mathematics in general. The concentrations allow the student to broaden this background or begin to specialize. Students must complete the core courses and a concentration.

An entering student in mathematics should have academic preparation to enroll in MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) during the first semester. Admission to MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) requires an acceptable ALEKS score. A student should attain grades of B in calculus in order to complete the advanced courses successfully.

## Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 16)

Mathematics, BSLAS (p. 506)

Mathematics & Computer Science, BSLAS (p. 514)

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Mathematics

A Major Plan of Study form, declaring concentration and supporting coursework, must be completed and submitted to the LAS Student Academic Affairs Office except for students in the Teaching of Mathematics concentration. Please complete this form with an advisor in the Mathematics Undergraduate Office within 1-2 semesters of completing MATH 347 or MATH 348.

**Departmental distinction:** Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: normally equates to 46-57 hours including 27-35 hours of mathematics beyond calculus, 3-4 hours of computer science, and 12 hours of supporting coursework. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
<b>Required Core Courses</b>		
MATH 241	Calculus III <sup>1</sup>	4
MATH 347	Fundamental Mathematics	3-4
or MATH 348	Fundamental Mathematics-ACP	
MATH 416	Abstract Linear Algebra <sup>2</sup>	3
MATH 417	Intro to Abstract Algebra	3
or MATH 427	Honors Abstract Algebra	
MATH 424	Honors Real Analysis <sup>3</sup>	3

or MATH 444	Elementary Real Analysis	
or MATH 447	Real Variables	
MATH 461	Probability Theory <sup>4</sup>	3-4
or STAT 400	Statistics and Probability I	
CS 101	Intro Computing: Engrg & Sci	3-4
or CS 125	Introduction to Computer Science	
Approved supporting coursework or any minor		12
<b>Mathematics Courses</b>		
Select a total of two courses from two of the following three lists:		6
<b>Geometry</b>		
MATH 402	Non Euclidean Geometry	
MATH 403	Euclidean Geometry	
MATH 423	Differential Geometry	
MATH 481	Vector and Tensor Analysis	
<b>Differential Equations and Complex Analysis</b>		
MATH 441	Differential Equations	
MATH 446	Applied Complex Variables	
MATH 448	Complex Variables	
<b>Number Theory</b>		
MATH 453	Number Theory	
Two additional 400- or 500-level Math courses		6
Total Hours		46-49

<sup>1</sup> Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.

<sup>2</sup> Beginning in Fall 2012, students may not receive credit for both MATH 416 and either ASRM 406(formerly MATH 410) or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of ASRM 406 (formerly MATH 410) or MATH 415.

<sup>3</sup> If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.

<sup>4</sup> If STAT 400 is completed, a requirement for the Operations Research concentration has been satisfied.

**college website:** <https://las.illinois.edu/>

**email:** [mathadvising@illinois.edu](mailto:mathadvising@illinois.edu)

Mathematics is a broad discipline that contains a range of areas of specialization within it. The required core courses provide fundamental background for mathematics in general. The concentrations allow the student to broaden this background or begin to specialize. Students must complete the core courses and a concentration.

An entering student in mathematics should have academic preparation to enroll in MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) during the first semester. Admission to MATH 220 (<http://catalog.illinois.edu/search/?P=MATH%20220>) requires an acceptable ALEKS score. A student should attain grades of B in calculus in order to complete the advanced courses successfully.

### Undergraduate programs in Mathematics

Actuarial Science, BSLAS (p. 16)

Mathematics, BSLAS (p. 506)

Mathematics & Computer Science, BSLAS (p. 514)

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics, Mathematics Teaching Concentration

This concentration fulfills state certification requirements to teach high school math (grades 9-12) through the AP/honors level.

Time to degree completion varies. Minimum time to completion is 8 semesters, with some students requiring 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook ([https://admissions.illinois.edu/Content/docs/Handbook\\_LAS.pdf](https://admissions.illinois.edu/Content/docs/Handbook_LAS.pdf)) for more information.

To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** Distinction will be awarded on the basis of selection of 400-level courses in mathematics and the grade point average. Graduation with High Distinction or Highest Distinction in Mathematics requires participation in the Program for Distinction in Mathematics or Mathematics Education. Full details are available at the departmental website.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 80-84 hours including 27-29 hours of mathematics beyond calculus, 3-4 hours of computer science, and 39 hours for the Teacher Education Minor in Secondary School Teaching.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching (39 hours).

Code	Title	Hours
<b>Foundation Courses</b>		
The following courses must be completed or in progress when students apply to the Secondary Education minor.		
MATH 220 or MATH 221	Calculus Calculus I	4-5
MATH 231	Calculus II	3
MATH 241	Calculus III <sup>1</sup>	4
Three advanced mathematics courses, including		
MATH 347 or MATH 348	Fundamental Mathematics Fundamental Mathematics-ACP	3-4
<b>Required Core Courses</b>		
MATH 416	Abstract Linear Algebra <sup>2</sup>	3
MATH 417 or MATH 427	Intro to Abstract Algebra Honors Abstract Algebra	3
MATH 424 or MATH 444 or MATH 447	Honors Real Analysis <sup>3</sup> Elementary Real Analysis Real Variables	3
MATH 461 or STAT 400	Probability Theory <sup>4</sup> Statistics and Probability I	3-4
CS 101 or CS 125	Intro Computing: Engrg & Sci Introduction to Computer Science	3-4
Teacher Education Minor in Secondary School Teaching ( <a href="http://catalog.illinois.edu/undergraduate/education/secondary/">http://catalog.illinois.edu/undergraduate/education/secondary/</a> )		39
<b>Mathematics Teaching Courses</b>		
MATH 402 or MATH 403	Non Euclidean Geometry Euclidean Geometry	3
MATH 453	Number Theory	3
Two additional 400- or 500-level mathematics courses		6
Total Hours		80-84

<sup>1</sup> Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.

<sup>2</sup> Students may not receive credit for both MATH 416 and either ASRM 406 (formerly MATH 410) or MATH 415.

<sup>3</sup> If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.

<sup>4</sup> If STAT 400 is completed, a group requirement for the Operations Research concentration has been satisfied.

### Requirements for the Teacher Education in Secondary School Teaching Minor

Code	Title	Hours
<b>Professional Education Required Courses</b>		
EDUC 201	Identity and Difference in Education <sup>1</sup>	3
EDUC 202	Social Justice, School and Society <sup>1</sup>	3
CI 401	Introductory Teaching in a Diverse Society	3
CI 403	Teaching a Diverse High School Student Population	3
CI 404	Teaching and Assessing Secondary School Students	3
CI 473	Disciplinary Literacy	3
EPSY 201	Educational Psychology <sup>1, 2</sup>	3
EPSY 485	Assessing Student Performance	3
SPED 405	General Educator's Role in Special Education	3

- <sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.
- <sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

Total Hours		47-49

<sup>1</sup> Students should have credit for MATH 220/MATH 221 and MATH 231 before enrolling in MATH 241.

<sup>2</sup> Beginning in Fall 2012, students may not receive credit for both MATH 416 and either ASRM 406(formerly MATH 410) or MATH 415. However, if one course is taken prior to Fall 2012, credit may be earned for both MATH 416 and either of ASRM 406(formerly MATH 410) or MATH 415.

<sup>3</sup> If MATH 424 or MATH 447 is completed, a requirement for the Graduate Preparatory concentration has been satisfied.

## Learning Outcomes: Mathematics, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics

- 
1. Ability to construct proofs and recognize when proofs are complete.
  2. Ability to use theorems in order to solve problems.
  3. Technical proficiency in calculus and linear algebra
  4. The ability to apply mathematics; translating real-world problems into mathematical problems and solving them.

for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Mathematics & Computer Science

**Departmental distinction:** To graduate with distinction requires a specified minimum grade point average in all Computer Science and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction. In addition, students must complete at least three semester hours of additional Computer Science or Mathematics courses selected from the following: CS 196, CS 296, CS 397, CS 492, CS 493, CS 499, any CS course numbered 411 or higher, MATH 412, MATH 414, MATH 417, MATH 418, MATH 423, MATH 432, MATH 448, MATH 482, MATH 484, MATH 496.

**NOTE:** A student taking a cross-listed course in this major may designate it as either mathematics or computer science.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

## Requirements

Code	Title	Hours
CS 100	Freshman Orientation (recommended)	1
Calculus through MATH 241-Calculus III		11-12
CS 124	Introduction to Computer Science I	3
CS 128	Introduction to Computer Science II	3
MATH 347	Fundamental Mathematics	3
or MATH 348	Fundamental Mathematics-ACP	
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 222	Software Design Lab	1
Choose one of the following combinations		8-11
CS 233 & CS 241	Computer Architecture and System Programming	
OR		
CS 240	Introduction to Computer Systems	
& two CS courses at the 400 level above CS 403, excluding CS 421 and CS 491. These two courses must be distinct from all other courses used to fulfill program requirements or options.		
CS/MATH 357	Numerical Methods I	3
CS 374	Introduction to Algorithms & Models of Computation	4
CS 421	Programming Languages & Compilers	3
CS 450	Numerical Analysis	3 or 4

MATH 415	Applied Linear Algebra	3
or MATH 416	Abstract Linear Algebra	
400-level mathematics and computer science requirements:		18
Students must select at least six 400-level mathematics and computer science courses, including one from each of the following groups:		
GROUP I		
CS 361	Probability & Statistics for Computer Science (recommended)	
MATH 461	Probability Theory	
STAT 400/MATH 463	Statistics and Probability I	
GROUP II		
MATH 412	Graph Theory	
MATH 413	Intro to Combinatorics	
MATH 417	Intro to Abstract Algebra	
MATH 427	Honors Abstract Algebra	
GROUP III		
MATH 441	Differential Equations	
MATH 446	Applied Complex Variables	
MATH 484	Nonlinear Programming	
GROUP IV		
MATH 424	Honors Real Analysis	
MATH 444	Elementary Real Analysis	
MATH 447	Real Variables	
GROUP V		
MATH 414	Mathematical Logic	
CS/MATH 473	Algorithms	
CS/MATH 475	Formal Models of Computation	
CS 476	Program Verification	
CS 477	Formal Software Development Methods	

Total Hours

68-76

## Learning Outcomes: Mathematics & Computer Science, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Mathematics & Computer Science

By the time of graduation, students will have:

### Computer Science:

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
4. An ability to function effectively on teams to accomplish a common goal
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. A recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity

### Mathematics:

1. An ability to construct proofs and recognize when proofs are complete
2. An ability to use theorems in order to solve problems
3. Technical proficiency in calculus and linear algebra

# Mechanical Engineering, BS

for the degree of Bachelor of Science in Mechanical Engineering

**department website:** <http://mechse.illinois.edu/>

**department faculty:** Mechanical Science & Engineering Faculty (<https://mechse.illinois.edu/people/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://mechse.illinois.edu/undergraduate> (<https://mechse.illinois.edu/undergraduate/>)

The Mechanical Engineering program at Illinois (accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org)) is one of the most diverse engineering majors and plays a major role in advancing almost every industry. Students study physical principles behind how forces act on bodies of solids or fluids and the interaction of these bodies with their environments through exchanges of energy. Further, Mechanical Engineering students learn how to apply these basic principles in designing, manufacturing, and controlling machines and complex systems. Examples include systems that apply loads, transport matter and energy, and convert one form of energy to another. Mechanical Engineering is a broad major that is well suited for students interested in how the world around them moves and changes.

for the degree of Bachelor of Science in Mechanical Engineering

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for required Engineering courses and any technical elective courses. See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.

### Orientation and Professional Development

Code	Title	Hours
ENG 100	Engineering Orientation <sup>1</sup>	0
ME 290	Seminar	0
Total Hours		0

### Foundational Mathematics and Science

Code	Title	Hours
CHEM 102	General Chemistry I	3

**Electives**

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>14</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>15</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> CHEM 103 (<http://catalog.illinois.edu/search/?P=CHEM%20103>) requirement waived for students who received test-based credit (AP, IB, or proficiency) for CHEM 102 (<http://catalog.illinois.edu/search/?P=CHEM%20102>), similarly CHEM 105 (<http://catalog.illinois.edu/search/?P=CHEM%20105>) requirement waived for students who received test-based credit for CHEM 104 (<http://catalog.illinois.edu/search/?P=CHEM%20104>). Students are still required to have 128 hours minimum to graduate.
- <sup>3</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>4</sup> MATH 415 (<http://catalog.illinois.edu/search/?P=MATH%20415>) may be substituted for students entering prior to Fall 2021.
- <sup>5</sup> MATH 284 (<http://catalog.illinois.edu/search/?P=MATH%20284>) may be substituted.
- <sup>6</sup> CS 124 (<http://catalog.illinois.edu/search/?P=CS%20124>) or CS 125 (<http://catalog.illinois.edu/search/?P=CS%20125>) or ECE 220 (<http://catalog.illinois.edu/search/?P=ECE%20220>) may be substituted.
- <sup>7</sup> ECE 110 (<http://catalog.illinois.edu/search/?P=ECE%20110>) and ECE 210 (<http://catalog.illinois.edu/search/?P=ECE%20210>) (or ECE 211 (<http://catalog.illinois.edu/search/?P=ECE%20211>)) combined may be substituted.
- <sup>8</sup> Advanced Composition satisfied by completing ME 470.
- <sup>9</sup> Transfers and Physics minor/dual degree students may substitute PHYS 325 (<http://catalog.illinois.edu/search/?P=PHYS%20325>).
- <sup>10</sup> Transfers and ECE minor/dual degree students may substitute ECE 313 (<http://catalog.illinois.edu/search/?P=ECE%20313>).
- <sup>11</sup> A maximum of 3 hours of independent/individual study courses may be used to satisfy the MechSE Elective or Technical Elective requirements.
- <sup>12</sup> Depending on the technical content, some Special Topics courses may not be approved for Technical Elective credit. Please provide a syllabus of the course to the Mechanical Science and Engineering Undergraduate Programs Office to request use of the course for Technical Elective credit prior to registering for the course.
- <sup>13</sup> Professional Elective course. No more than 3 hours of professional elective credit may be used to satisfy the Technical Electives requirements.
- <sup>14</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>15</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Mechanical Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite and corequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/mechanical-map/>).

**First Year**

First Semester		Hours
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or ME 170 <sup>2</sup>	Writing and Research	4-3
General education elective <sup>3</sup>		3
Semester Hours		15-14

**Second Semester**

MATH 231	Calculus II	3
PHYS 211	University Physics: Mechanics	4
CS 101	Intro Computing: Engrg Sci	3
ME 170 or RHET 105 <sup>2</sup>	Computer-Aided Design	3-4
Science electives <sup>4</sup>		4
Semester Hours		17-18

**Second Year****First Semester**

MATH 241	Calculus III	4
MATH 257	Linear Algebra with Computational Applications	3
PHYS 212	University Physics: Elec Mag	4
TAM 210	Introduction to Statics	2
ME 270	Design for Manufacturability	3
ME 290	Seminar	0
Semester Hours		16

**Second Semester**

ECE 205	Electrical and Electronic Circuits	3
MATH 285	Intro Differential Equations	3
ME 200	Thermodynamics	3
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
General education elective <sup>3</sup>		3
Semester Hours		18

**Third Year****First Semester**

ME 310	Fundamentals of Fluid Dynamics	4
ME 330	Engineering Materials	4
ME 340	Dynamics of Mechanical Systems	3.5
ME 370	Mechanical Design I	3
ECE 206	Electrical and Electronic Circuits Lab	1
Semester Hours		15.5

**Second Semester**

ME 320	Heat Transfer	4
ME 360	Signal Processing	3.5
ME 371	Mechanical Design II	3
General education elective <sup>3</sup>		3
Free elective		3
Semester Hours		16.5

**Fourth Year****First Semester**

MechSE elective <sup>5</sup>		3
Statistics elective <sup>6</sup>		3
ME 470 (or Technical elective) <sup>7</sup>	Senior Design Project	3
General education elective <sup>3</sup>		6
Semester Hours		15

**Second Semester**

Technical Elective (or ME 470) <sup>7</sup>		3
MechSE elective <sup>5</sup>		3
Technical elective <sup>7</sup>		3
General education elective <sup>3</sup>		3

Free elective	3
Semester Hours	15
Total Hours:	128
1	<i>MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.</i>
2	<i>RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). ME 170 is taken the other semester. Composition I guidelines can be found at <a href="http://catalog.illinois.edu/general-information/degree-general-education-requirements/">http://catalog.illinois.edu/general-information/degree-general-education-requirements/</a> under Written Communication Requirement.</i>
3	<i>Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.</i>
4	<i>Science elective(s) – 4 hours required. Choose from CHEM 104 + CHEM 105, MCB 150, or PHYS 213 + PHYS 214. If MCB 150 is taken, then MCB 151 is recommended. Note that PHYS 213 and PHYS 214 will normally be taken in the fourth semester or later, since they have PHYS 211 and PHYS 212, respectively, as prerequisites, in addition to MATH 241.</i>
5	<i>MechSE electives – 6 hours required. Choose from a departmentally approved list of MechSE Electives (<a href="http://mechanical.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives">http://mechanical.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives</a>).</i>
6	<i>Statistics elective—3 hours required. Choose either IE 300 or STAT 400.</i>
7	<i>Technical electives—6 hours required. Choose from a departmentally approved list of Technical Electives. (<a href="https://mechse.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives">https://mechse.illinois.edu/undergraduate/bs-mechanical-engineering/#METechElectives</a>)</i>

## Learning Outcomes: Mechanical Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Mechanical Engineering

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Mechanical Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Media & Cinema Studies, BS

for the degree of Bachelor of Science Major in Media & Cinema Studies

**department website:** <https://media.illinois.edu/media-cinema-studies> (<https://media.illinois.edu/media-cinema-studies/>)

**department faculty:** <https://media.illinois.edu/media-cinema-studies/faculty> (<https://media.illinois.edu/media-cinema-studies/faculty/>)

**overview of college admissions & requirements:** College of Media (p. 2089)

**college website:** <https://media.illinois.edu/>

MEDIA AND CINEMA STUDIES (MACS), prepares students with dynamic skills for careers in media, information, creative, and visual industries, as well as informed interaction with everyday media technologies. Majors have the opportunity to participate in original research, mixed media production, internships, study abroad, and public engagement through a transformative learning environment.

## Programs in Cinema Studies

### Undergraduate Programs:

**major:** Media & Cinema Studies, BS (p. 530)

**minors:** Cinema Studies (p. 835) | Critical Film Production (p. 848) | Media (p. 919)

### Graduate Programs:

**minor:** Cinema Studies (p. 1968)

for the degree of Bachelor of Science Major in Media & Cinema Studies

To graduate from the media and cinema studies curriculum, a student must meet all general University and College requirements for the degree and must complete the following courses, all of which must be taken for a traditional letter grade:

Code	Title	Hours
<b>Core Curriculum</b>		<b>16</b>
MACS 203	Contemporary Movies	3
MACS 264	Creative and Information Economies	4
MACS 317	Media History	3
MACS 320	Popular Culture	3
MACS 351	Social Aspects of Media	3
MACS 499	Senior Project <sup>1</sup>	0

## Footnotes

<sup>1</sup> Students will take MACS 499 concurrent with a 400-level course to complete a senior project.

Code	Title	Hours
<b>Thematic Areas</b>		<b>15</b>
5 additional courses in at least 2 of the following thematic areas.		
In addition, students can declare a specialization by taking 4 courses in 1 thematic area or by completing the requirements of a related certificate program.		
<b>Cinema Studies</b>		
MACS 100	Intro to Popular TV & Movies	
MACS 205	Introduction to Documentary	
MACS 261	Survey of World Cinema I	
MACS 262	Survey of World Cinema II	
MACS 321	Film Culture	
MACS 361	Film Theory and Criticism	
MACS 464	Film Festivals	
See advisor for list of other approved classes or contact the department for approval of other classes.		
<b>Media Industries &amp; Cultures</b>		
MACS 100	Intro to Popular TV & Movies	
MACS 224	Sportsmedia Technology & Culture	
MACS 321	Film Culture	

MACS 326	New Media, Culture & Society
MACS 380	21st Century Documentaries
MACS 408	TV Studies
See advisor for list of other approved classes or contact the department for approval of other classes.	

**Difference & Power**

MACS 100	Intro to Popular TV & Movies
MACS 326	New Media, Culture & Society
LLS 435	Commodifying Difference
MACS/GWS 356	Sex & Gender in Popular Media
MACS/AAS 375	Latina/o Media in the US
MACS/AFRO 381	Black Women and Film
MACS 389	International Communications

See advisor for list of other approved classes or contact the department for approval of other classes.

Code	Title	Hours
<b>College of Media Electives</b>		<b>36</b>

Students must earn at least 36 hours in the College of Media. Remaining hours are completed with ADV, JOUR, MACS, or MDIA electives.

Code	Title	Hours
<b>Required Area of Study or Minor Outside the College of Media</b>		<b>9</b>

In addition to the courses in the major plan described above, students must complete 9 hours in an approved area outside the College of Media. Approved areas include: African American Studies; American Indian Studies; Anthropology; Art History; Asian American Studies; Business Administration; Communication; Computer Science; Creative Writing; Economics; Food Science and Human Nutrition; Gender and Women's Studies; History; Kinesiology and Community Health; Latina/o Studies; Linguistics; Literature; Natural Resources and Environmental Sciences; Non-English Languages; Philosophy; Political Science; Psychology; Recreation, Sport and Tourism; Regional Area Studies; or Sociology. A university-approved minor may substitute for this requirement. Courses may, if they qualify, also count toward the requirement for advanced hours outside of the College.

Code	Title	Hours
<b>Advanced Hours Requirement</b>		<b>20</b>

At least 20 hours in courses numbered 200 or above. These courses must be outside and not cross-listed with the College of Media. At least 9 of the 20 hours must be in courses numbered 300 and above.

Code	Title	Hours
<b>Total hours required for graduation</b>		<b>124</b>

## Learning Outcomes: Media & Cinema Studies, BS

Learning outcomes for the degree of Bachelor of Science Major in Media & Cinema Studies

---

Student Learning Outcomes: Students in Media and Cinema Studies will be able to:

1. Demonstrate a thorough knowledge of media and cinema studies' subject matter areas.
  - a. Students demonstrate a broad knowledge of the field by accurately identifying and defining the subject matter areas of media and cinema studies.
2. Demonstrate a comprehension of foundational media and cinema studies' theories and concepts.
  - a. Students can identify, use, and relate key concepts and frameworks that are central to the field.
3. Demonstrate critical thinking skills.
  - a. Students can reflexively apply concepts and frameworks to promote inquiry, understanding, and solutions.
4. Demonstrate the ability to critically evaluate media representations in relation to social justice issues.
  - a. Students apply methods to demonstrate, through a production-based activity, how representations are connected to social, political, economic, and cultural issues.
5. Demonstrate the ability to work collaboratively to successfully communicate ideas and outcomes of creative research across a range of modalities.
  - a. Students present their senior projects using at least two different platforms.

# Metropolitan Food & Environmental Systems, BS

for the degree of Bachelor of Science Major in Metropolitan Food & Environmental Systems

**department website:** <https://mfst.illinois.edu/>

**overview of college admissions & requirements:** <https://academics.aces.illinois.edu/prospective-students/> (<https://academics.aces.illinois.edu/prospective-students/>)

**college website:** <https://aces.illinois.edu/>

**program director:** Megan Dailey, Ph.D., [mdailey5@illinois.edu](mailto:mdailey5@illinois.edu)

**program office:** 215 Mumford Hall, 1301 W. Gregory Dr., Urbana IL

**program phone:** (217) 244-5567

The Metropolitan Food & Environmental Systems (MFST) program uses an interdisciplinary approach to understanding and implementing solutions in the area of urban food and environmental systems to ensure the sustainability of readily available nutritious foods for metropolitan populations. The students in this major will learn to understand the science and practice of food production and security across urban environmental, economic, social, and health contexts, while maintaining environmental sustainability. Students in this program will be prepared for jobs in impact areas related to food systems, such as government, non-governmental organizations, institutional food buyers, investment firms, financial and insurance companies, industry, retail, and food service. Alternatively, students may choose to pursue post-baccalaureate education, including law school and graduate school in food systems or in specific areas of the food system. Because the MFST curricula includes required training in STEM education, critical thinking, scientific literacy, communication and leadership, students will obtain the skills necessary to traverse an ever-changing job market and have the freedom to choose from many career-life options.

A minimum of 127 credit hours are required for graduation, including General Education Requirements and the MFST Core Curriculum. Because the core curriculum includes many College of Agricultural, Consumer and Environmental Sciences (ACES) departmental course requirements, the students in MFST have the unique opportunity to minor in many of the ACES departments or to delve deeper into a food system area of interest in addition to the core courses, including (but not limited to) advanced nutrition, plant or animal production, food processing, food safety, environmental sustainability, climate change, or landscape architecture.

# Middle Grades Education, BS

for the degree of Bachelor of Science in Middle Grades Education

**department office:** Curriculum & Instruction  
311 Education Building  
1310 South Sixth  
Champaign, IL 61820  
**phone:** (217) 244-8286

**department website:** <https://education.illinois.edu/ci> (<http://education.illinois.edu/ci/>)

**department faculty:** Curriculum & Instruction Faculty (<https://education.illinois.edu/faculty-finder/ci/>)

**overview of college admissions & requirements:** College of Education (<https://education.illinois.edu/programs/undergrad/programs-degrees/middle-grades-education/>)

**college website:** <https://education.illinois.edu/> (<http://education.illinois.edu/>)

This program prepares teachers for grades five through eight. A minimum of 120 semester hours is necessary for graduation.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

Students are admitted to Middle Grades Education as freshmen. In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional grade point averages of 2.5 (A=4.0). Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. For teacher education licensure applicable to all curricula, see the Council on Teacher Education.

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

Students in the Middle Grades Education licensure program must complete the Campus General Education Requirements, the courses for one or more concentration (literacy, social sciences, science or math) and the professional education coursework.

## Learning Outcomes: Middle Grades Education, BS

Learning Outcomes for the degree of Bachelor of Science in Middle Grades Education

1. Students will acquire deep knowledge of content in the field of Education
2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for elementary students, grades 5-8.
3. Students will use data to drive decisions and solve problems in and out of the classroom.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21<sup>st</sup> century skills and practices).

# Molecular & Cellular Biology, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

**school website:** <https://mcb.illinois.edu/undergrad/>

**school faculty:** School Faculty (<https://mcb.illinois.edu/people/>)

**advising:** MCB advising (<https://mcb.illinois.edu/undergrad/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad@mcb.illinois.edu](mailto:undergrad@mcb.illinois.edu)

The Molecular and Cellular Biology major provides students with a solid preparation in molecular biology, molecular genetics, microbiology, cellular biology, biochemistry, physiology, and structural biology. Students will also acquire a strong background in chemistry, math and physical sciences. After completion of the core curriculum in MCB, students may complete the required advanced course work by taking a variety of MCB courses or by selecting a more focused group of courses in any of the following areas: biochemistry, cells and tissues, developmental biology, infection and immunity, microbiology, genetics, neurobiology and physiology. The MCB Advising Program (MAP) staff is available to help students plan their combination of advanced courses.

For students interested in adding licensure to the BSLAS in Molecular & Cellular Biology, please visit the Biology Teaching page: <http://mcb.illinois.edu/undergrad/advising/teaching/>

## Undergraduate degree programs in Molecular & Cellular Biology

Biochemistry, BS (p. 120)

Molecular & Cellular Biology, BSLAS (p. 542)

Molecular & Cellular Biology Honors Concentration, BSLAS (p. 543)

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

Certain advanced courses may be taken prior to completion of the MCB 250-MCB 253, MCB 354 sequence with permission of an academic advisor. A minimum of 15 hours of 300- or 400-level courses in MCB from the approved list is required.

In addition, undergraduate research (MCB 290, or departmental equivalent) is strongly recommended for students planning to go to graduate school. No more than 10 hours of MCB 290, or departmental equivalent credit may be counted towards the 120 hours required for a degree in MCB.

Students earning a degree in Molecular and Cellular Biology may not also earn a second degree in the Specialized Curriculum in Biochemistry.

Students earning a degree in Molecular and Cellular Biology may not double major in Integrative Biology.

## Distinction

Students in MCB can qualify for Distinction via one of the following:

Distinction for Excellence in Research:

**To be eligible for graduation with Distinction a student must:**

Complete 3 semesters of MCB 290 for 2 credit hours or more each semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator.

**To be eligible for graduation with High Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester of MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee.

**To be eligible for graduation with Highest Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.90 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research

symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee. Distinction for Excellence in Academics:

**To be eligible for graduation with Academic Distinction a student must:**

Maintain a major GPA of 3.90 or higher in the MCB major (biology, chemistry, physics and math courses for the MCB major) at the end of their penultimate semester.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: 67-71 hours, including 21 hours of 300- or 400-level courses; 12 hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

## Molecular & Cellular Biology: Honors, BSLAS

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology, Honors Concentration*

**school website:** <https://mcb.illinois.edu/undergrad/>

**school faculty:** School Faculty (<https://mcb.illinois.edu/people/>)

**advising:** MCB advising (<https://mcb.illinois.edu/undergrad/advising/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad@mcb.illinois.edu](mailto:undergrad@mcb.illinois.edu)

The Molecular and Cellular Biology Honors Concentration is designed for students whose preparation and interests motivate them to desire a more intensive undergraduate biology experience and to prepare for graduate or professional school. The MCB Honors Concentration is based on the MCB concentration (<http://catalog.illinois.edu/undergraduate/las/academic-units/molecular-cell-bio/molecular-cellular-biology-concentration/>). Students must satisfy all of the requirements for the MCB concentration in addition to the requirements for the MCB Honors Concentration. Students interested in the MCB Honors Concentration (<http://mcb.illinois.edu/undergrad/honors/>) should contact the MCB Honors Concentration coordinator ([shawna@illinois.edu](mailto:shawna@illinois.edu)) during the freshman year for more information.

### **Undergraduate degree programs in Molecular & Cellular Biology**

Biochemistry, BS (p. 120)

Molecular & Cellular Biology, BSLAS (p. 542)

Molecular & Cellular Biology Honors Concentration, BSLAS (p. 543)

*for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology, Honors Concentration*

---

Certain advanced courses may be taken prior to completion of the MCB 250 MCB 250 -MCB 253, MCB 354 MCB 354 sequence with permission of an academic advisor. A minimum of 15 hours of 300- or 400-level courses in MCB from the approved list is required.

In addition, undergraduate research (MCB 290, or departmental equivalent) is strongly recommended for students planning to go to graduate school. No more than 10 hours of MCB 290, or departmental equivalent credit may be counted towards the 120 hours required for a degree in MCB.

Students earning a degree in Molecular and Cellular Biology may not also earn a second degree in the Specialized Curriculum in Biochemistry.

Students earning a degree in Molecular and Cellular Biology may not double major in Integrative Biology.

### **Distinction**

Students in MCB can qualify for Distinction via one of the following:

Distinction for Excellence in Research:

**To be eligible for graduation with Distinction a student must:**

Complete 3 semesters of MCB 290 for 2 credit hours or more each semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator.

**To be eligible for graduation with High Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester of MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee.

**To be eligible for graduation with Highest Distinction a student must:**

Complete 2 semesters of MCB 290 for 2 credit hours or more each semester. Complete 1 semester MCB 492 for 3 credit hours or more. Maintain a minimum cumulative GPA of 3.90 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator. Submit a written thesis that is approved by the Distinction Committee. Distinction for Excellence in Academics:

**To be eligible for graduation with Academic Distinction a student must:**

Maintain a major GPA of 3.90 or higher in the MCB major (biology, chemistry, physics and math courses for the MCB major) at the end of their penultimate semester.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: 67-71 hours, including 21 hours of 300- or 400-level courses; 12 hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

<sup>1</sup> Students must consult the Honors Coordinator about MCB Honors Option courses. Only MCB 290 may be repeated, to a maximum of twice, although continuing 290 beyond two semesters is encouraged.

## Learning Outcomes: Molecular & Cellular Biology, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Molecular & Cellular Biology

Upon successful completion of the Molecular & Cellular Biology undergraduate curriculum, students will be able to:

1. understand and appreciate the diversity of life as it evolved over time by processes of mutation, selection and genetic change.
2. illustrate that fundamental structural units define the function of all living things.
3. explain that the growth, development, and behavior of organisms are activated through the expression of genetic information in context.
4. summarize that biological systems grow and change by processes based upon chemical transformation pathways and are governed by the laws of physics.
5. illustrate that living systems are interconnected and interacting across scales of space and time.
6. design a scientific process and employ the scientific method, demonstrating that biology is evidence based and grounded in the formal practices of observation, experimentation, and hypothesis testing.
7. execute quantitative analysis to interpret biological data.
8. construct and utilize predictive models to study and describe complex biological systems.

9. apply concepts from other sciences in order to interpret biological phenomena.
10. communicate biological concepts and understanding to members of a diverse scientific community as well as to the general public.
11. identify social and historical dimensions of biological investigation.

## Music, BA

for the degree of Bachelor of Arts Major in Music

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The Bachelor of Arts with a Major in Music is a 120-hour degree that is designed for students who wish to pursue a music degree with curricular flexibility to complete coursework in secondary and complementary areas of study. The BA in Music requires students to select a specific area of study, called an "option." An option consists of advanced music courses and supporting (non-Music) coursework. The coursework is determined in consultation with the student's advisor. Current options include music technology, music theory, composition, and various branches of musicology; or students may work with an advisor to explore alternate options not listed here (music + "your choice").

BA students work with their BA advisor to designate supplemental coursework to suit their interests and long-term goals. Students may indicate a specific area of study during the admissions process; some students may prefer to select an option after completing the first year of the music core. All BA students should designate their option by no later than the start of the spring semester of the sophomore year.

For admission requirements for the Bachelor of Arts in Music, please see the School of Music's Admissions website (<http://www.music.illinois.edu/prospective-students/>) or contact the Music Admissions Office: Music Admissions Office

School of Music: 1114 W. Nevada Street, Room 2014

Urbana, IL 61801

Phone: (217) 244-7899 | E-mail: [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu)

for the degree of Bachelor of Arts Major in Music

**Minimum required major and supporting course work: normally equates to 48-50 hours excluding the keyboard skills (MUS 172 and MUS 173) requirement, and includes 37-41 hours in music courses, 29-31 hours in core courses. Students who wish to study voice or an instrument for credit are required to satisfy the instrumental or vocal qualifying audition designed for students outside the School of Music. Credits earned in applied music lessons are generally considered elective.**

<b>BA Option Coursework</b>		
Major Plan of Study <sup>3</sup>		
Advanced Music Courses <sup>4</sup>		8-9
Supporting Coursework <sup>5</sup>		11-12
<b>Total hours required for graduation</b>		<b>120</b>

<sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.

<sup>2</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173.

<sup>3</sup> A Major Plan of Study Form must be completed and submitted to the School of Music Undergraduate Academic Advisor (Music Building 2058) before the end of the fifth semester (60-75 hours). Twelve hours of 400-level courses in music must be taken on the Urbana-Champaign campus. Please see your BA Music advisor, or the Undergraduate Academic Advisor, for assistance in completing the form.

<sup>4</sup> Advanced music courses are at the 300- or 400-level. The Senior Project is generally included in this area.

<sup>5</sup> Supporting Coursework is outside the School of Music and is chosen in consultation with an advisor.

## Learning Outcomes: Music, BA

Learning outcomes for the degree of Bachelor of Arts Major in Music

Bachelor of Arts in Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
4. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
5. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
6. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
7. Appreciate how music interacts in communities to enhance and engage social and cultural identities to enrich lifelong learning.

## Music Education, BME

for the degree of Bachelor of Music Education Major in Music Education

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of four concentrations:

- Choral Music Concentration (p. 548)
- General Music Concentration (p. 551)
- Instrumental Music Concentration (p. 554)
- Technology Concentration (p. 557)

A minimum of 130 hours of credit is required for graduation. This curriculum prepares its graduates for teaching music in grades pre-kindergarten through twelve. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>). Students complete a concentration in instrumental (band or strings), choral, technology, or general music education.

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.

All music education students must earn a grade of C- or better in all music and education courses required for licensure.

## Music Education: Choral Music, BME

- <sup>1</sup> PSYC 100 is prerequisite to EPSY 201, required in all teacher education programs.
- <sup>2</sup> Quantitative Reasoning I is satisfied by students in the Technology concentration selecting CS 105 as a Technique course or elective.
- <sup>3</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.
- <sup>4</sup> At least 19 hours of general education requirements are met by courses required by the BME.
- <sup>5</sup> Enrollment in the applied major is normally expected during the first six semesters, 2 semester hours each.
- <sup>6</sup> All music education majors are required to participate in an approved ensemble every semester in residence.
- <sup>7</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173
- <sup>8</sup> Student teaching coursework may be taken for 4-8 credits. Eight hours of student teaching apply toward graduation. Enrolling for at least 12 credits is needed to retain full-time status. You must register for both EDPR 438 and EDPR 442 during the semester of your student teaching. If public school licensure is not desired, the student selects alternative courses totaling 13 semester hours in consultation with the music education advisor, seven semester hours of which must be from the student's applied major, music theory, or music history.

### Choral Music Concentration Requirements

Code	Title	Hours
<b>Technique Courses Requirements: 7 credit minimum to be selected with advisor, from Lists A and B.</b>		
<b>List A: Choose 3 credits (of the 7 total credits for Technique courses) from the list below:</b>		

MUS 140	String Instrument Class	2
MUS 144	Supp WW Inst: Clarinet	.5
MUS 146	Supp WW Inst: Flute	.5
MUS 147	Supp WW Inst: Oboe	.5
MUS 148	Supp WW Inst: Saxophone	.5

<sup>1</sup> PSYC 100 is prerequisite to EPSY 201, required in all teacher education programs.

<sup>2</sup> Quantitative Reasoning I is satisfied by students in the Technology concentration selecting CS 105 as a Technique course or elective.

<sup>3</sup> The Language Requirement may be satisfied by successfully completing a third-semester college-level course in a language other than English; successful completion, in high school, of the third year of a language other than English; or demonstrating proficiency at the third-semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department.

<sup>4</sup> At least 19 hours of general education requirements are met by courses required by the BME.

<sup>5</sup> Enrollment in the applied major is normally expected during the first six semesters, 2 semester hours each.

<sup>6</sup> All music education majors are required to participate in an approved ensemble every semester in residence.

- <sup>7</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173
- <sup>8</sup> Student teaching coursework may be taken for 4-8 credits. Eight hours of student teaching apply toward graduation. Enrolling for at least 12 credits is needed to retain full-time status. You must register for both EDPR 438 and EDPR 442 during the semester of your student teaching. If public school licensure is not desired, the student selects alternative courses totaling 13 semester hours in consultation with the music education advisor, seven semester hours of which must be from the student's applied major, music theory, or music history.

## Music Education: Instrumental Music, BME

for the degree of Bachelor of Music Education Major in Music Education, Instrumental Music Concentration

**department website:** <https://music.illinois.edu>  
**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)  
**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** <https://faa.illinois.edu/>

A minimum of 130 hours of credit is required for graduation. This curriculum prepares its graduates for teaching music in grades kindergarten through twelve. For teacher education requirements applicable to all curricula, see the Council on Teacher Education (<https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx>). Students complete a concentration in instrumental (band or strings), choral, technology, or general music education.

In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.

All music education students must earn a grade of C- or better in all music and education courses required for licensure.

for the degree of Bachelor of Music Education Major in Music Education, Instrumental Music Concentration

**Minimum required major and supporting course work:** In order to be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5, content area (music courses) GPA of 2.75, and professional education course GPA of 3.0 (A=4.0). Candidates should consult the music education handbook, their advisor, or the Council on Teacher Education for a listing of courses used to compute these grade-point averages.  
**Minimum hours required for graduation: 130 hours.**

## Learning Outcomes: Music Education, BME

*Learning outcomes for the degree of Bachelor of Music Education Major in Music Education*

1. The well prepared music teacher has in-depth understanding of content area knowledge that includes central concepts, methods of inquiry, structures of the discipline, and multiple forms of music literacy.
2. The well prepared music teacher plans and designs instruction based on content area knowledge; diverse styles, genres, and repertoires; diverse student characteristics; student performance data; curriculum goals; and the community context.
3. The well prepared music teacher differentiates instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous musical growth and learning.
4. The well prepared music teacher understands and uses appropriate formative and summative assessments for determining student needs, monitoring student progress, measuring student growth, and evaluating student outcomes.
5. The well prepared music teacher is an ethical and reflective practitioner who promotes a culture of professional inquiry.

## Music Composition, BMUS

*for the degree of Bachelor of Music Major in Music Composition*

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

In this major, emphasis may be placed on music composition or on the theory of music. Necessary course adjustments require approval of the composition-theory division.

*for the degree of Bachelor of Music Major in Music Composition*

In this major, emphasis may be placed on music composition or on the theory of music. Necessary course adjustments require approval of the composition-theory division.

**Minimum required major and supporting course work: If the emphasis is on composition, the fourth-year student must present a satisfactory senior recital of original compositions. If the emphasis is on theory, an advanced project ( MUS 299, Thesis, two semesters) approved by the composition-theory division is required in the fourth year.**

MUS 426	Orchestration	3
An additional 400-level advanced music history course		3
Music Theory Electives <sup>4</sup>		14
French, German, or Italian <sup>5</sup>		8
Electives as needed to total 130 hours		
<b>Total Hours required for graduation</b>		<b>130</b>

- <sup>1</sup> Completion of both MUS 313 and MUS 314 meets the general education Humanities and the Arts requirement.
- <sup>2</sup> All students are required to enroll in at least one approved performance ensemble each semester in residence, with a maximum of 16 semester hours of such ensemble applicable to the Bachelor of Music degree. For a listing of approved ensembles, please refer to the Undergraduate Music Handbook.
- <sup>3</sup> All students must demonstrate keyboard competency by examination when they matriculate or by enrolling in MUS 172 and/or MUS 173.
- <sup>4</sup> The music theory electives for the third and fourth years are to be chosen from MUS 404 (may be repeated to a maximum of six semester hours), MUS 405, MUS 407, MUS 408 (may be repeated to a maximum of six semester hours in addition to MUS 408, sections D or E), MUS 409, and MUS 499 (may be repeated to a maximum of four semester hours; senior standing in music required). If the curricular emphasis is in music theory, the following will apply: juniors will substitute an additional three semester hours of MUS 408 for MUS 406; seniors will take MUS 299 (two semesters), MUS 405, and substitute an additional 400-level music history course for MUS 406. Note: The 14 hours of theory electives include the six hours of two courses that were retired in Fall 2017: MUS 402 and MUS 425.
- <sup>5</sup> Students who completed two years of French, German, or Italian in high school have met this requirement. Other languages may be chosen with permission of the composition-theory adviser. Completion of this requirement does not complete the General Education language requirement.

# Learning Outcomes: Music Composition, BMUS

*Learning outcomes for the degree of Bachelor of Music Major in Music Composition*

Bachelor of Music graduates will:

1. Understand, apply, and integrate foundational concepts of musical study in theory, aural skills, history, composition, improvisation, and keyboard competency, and do so independently and cooperatively.
2. Demonstrate the ability to learn independently, make inquiries, think critically, discover solutions, and integrate knowledge across both similar and varied areas of musical study.
3. Develop and demonstrate effective performance skills (technical and expressive) using critical thinking to inform historical and stylistic performance practices and artistic expression.
4. Develop and demonstrate effective communication skills, including artistic self-expression, with diverse audiences through multiple media.
5. Acquire a basic understanding of diverse musical systems and traditions across the world, and develop a sensitivity to and awareness of cultural and societal differences, and their contribution to an interdependent global consciousness.
6. Acquire an understanding of professional and ethical responsibility as musicians and citizens, and demonstrate the ability to work professionally and effectively as leaders and collaborators.
7. Acquire a basic understanding of technology and professional skills, along with knowledge of specific technological developments within area of specialization.
8. Appreciate how music interacts with communities to enhance and engage social and cultural identities and enrich lifelong learning.

## Musicology, BMUS

*for the degree of Bachelor of Music Major in Musicology*

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

This major offers a broad cultural education that unites academic and musical training. It also provides preparation for the graduate study required for research and teaching in musicology or ethnomusicology.

## Music-Open Studies, BMUS

*for the degree of Bachelor of Music Major in Music-Open Studies*

**department website:** <https://music.illinois.edu>

**department faculty:** Music Faculty (<https://music.illinois.edu/people/>)

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The Open Studies major allows students to focus on diverse fields such as music of other cultures, piano pedagogy, music technology, sound engineering, theatre, social or behavioral science, or any other areas of particular interest. Open Studies requires completion of the common requirements for all BMUS degrees and a minimum of 130 semester hours of credit for graduation.

Admission to Open Studies is initiated by petition to a committee of three faculty members, the open studies adviser, and the assistant dean of undergraduate affairs in the College of Fine and Applied Arts. Additional information may be obtained from the:

Music Admissions Office

School of Music: 1114 W. Nevada Street, Room 2014

# Natural Resources & Environmental Sciences, BS

*for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences*

**department website:** <https://nres.illinois.edu/>

**department faculty:** <https://nres.illinois.edu/directory/faculty> (<https://nres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Students pursuing this major select one of four concentrations:

Ecosystem Stewardship & Restoration Ecology (p. 568)

Environmental Science & Management (p. 571)

Fish, Wildlife & Conservation Biology (p. 573)

Human Dimensions of the Environment (p. 575)

Designed for students interested in careers leading the conservation, protection, and management of natural and environmental resources or in pursuing advanced education in one of its many disciplinary areas, the NRES baccalaureate provides a science-based, application-oriented education. The NRES major is unique in its integration of a comprehensive physical, life, and social sciences background with coursework providing the management, decision-making, and analytical knowledge and skills required to solve the world's most pressing problems.

Students in the NRES major begin their studies by taking a set of core courses that provides the background for more focused substantive study at the upper level. The NRES core introduces students to the range of physical, life, and social science content most relevant to their future professions and equips them with tools essential for the discovery, analysis, and application of knowledge important for successful environmental management. NRES students then build upon the core by completing one of four upper-level concentrations. Courses in the concentrations involve focused attention to the theories, data, and analytical tools of a particular set of natural resource and environmental science areas, helping students develop the necessary understanding of the complexities underlying resources management. All students in the major are required to complete a combination of field courses and at least one project-oriented capstone course.

All the concentrations prepare students for graduate study as well as for multiple career paths throughout the public and private sectors. Because of its unique orientation toward integrative application of disciplinary knowledge, the NRES major prepares students for a wide range of careers involving the conservation, protection, and management of natural resources. Many occur within business or government agencies that provide services related to environmental and natural resource management. Other careers are found within social, professional, and advocacy institutions that focus on human impacts and environmental sustainability. The major also prepares students for teaching, research, or other professional activities.

Graduates from the NRES major go on to pursue careers in the direction of environmental education centers; ecological management and restoration; enforcement of laws and regulations; environmental advocacy; environmental consulting; forest and environmental economics; land use analysis and management; law; local, state, and federal government; management of parks, forests and rangelands; plant physiology; policy development and implementation; resource planning and policy analysis; social and environmental impact analysis; soil conservation, science, and testing; technical sales; watershed management; and wildlife conservation and management.

## Natural Resources & Environmental Sciences: Ecosystem Stewardship & Restoration Ecology, BS

*for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Ecosystem Stewardship & Restoration Ecology Concentration*

**department website:** <https://nres.illinois.edu/>

**department faculty:** <https://nres.illinois.edu/directory/faculty> (<https://nres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Ecosystem Stewardship and Restoration Ecology emphasizes the ecology, structure, and function of ecosystems, with a particular focus on plant communities and their interactions with the living and non-living parts of ecosystems. It is designed for students interested in the fundamental properties and practices underlying the restoration and management of soil, watershed, wetland, forest, and grassland ecosystems. The concentration includes coursework in the areas of restoration, landscape, and plant ecology, as well as courses focused on specific ecosystems (e.g. streams, wetlands, agroecosystems), invasive species, community ecology, and ecosystem science.

## Natural Resources & Environmental Sciences: Fish, Wildlife & Conservation Biology, BS

for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Fish, Wildlife & Conservation Biology Concentration

**department website:** <https://nres.illinois.edu/>

**department faculty:** <https://nres.illinois.edu/directory/faculty> (<https://nres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

Fish, Wildlife and Conservation Biology emphasizes the ecology, conservation, and sustainable management of fish and wildlife species and communities. It is designed for students interested in understanding interactions among humans, wild animals, and their habitats. The concentration includes coursework in conservation of threatened and endangered species, management of harvested species, aquatic ecosystem conservation, animal behavior, vertebrate natural history, identification of animals and plants, and advanced ecology.

for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Fish, Wildlife & Conservation Biology Concentration

### Prescribed Courses including Campus General Education

Code	Title	Hours
<b>Composition I and Speech</b>		
Select one of the following:		6-7
RHET 105 & CMN 101	Writing and Research and Public Speaking (or equivalent) (see College Composition I requirement)	
CMN 111 & CMN 112	Oral & Written Comm I and Oral & Written Comm II	
<b>Advanced Composition</b>		
Select from campus approved list		3-4
<b>Cultural Studies</b>		
Select one course from Western culture, one from non-Western culture, and one from U.S. minority culture from campus approved lists.		9
<b>Foreign Language</b>		
Coursework at or above the third level is required for graduation.		
<b>Quantitative Reasoning I</b>		
Select one of the following:		4-5
MATH 220	Calculus	
MATH 221	Calculus I	
MATH 234	Calculus for Business I	
<b>Quantitative Reasoning II</b>		

Select one of the following:		3-4
ACE 261	Applied Statistical Methods	
CPSC 241	Intro to Applied Statistics	
ECON 202	Economic Statistics I	
PSYC 235	Intro to Statistics	
SOC 280	Intro to Social Statistics	
STAT 100	Statistics	
<b>Natural Sciences and Technology</b>		
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I	4
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II	4
IB 103	Introduction to Plant Biology	4
Select one of the following:		4-5
IB 104	Animal Biology	
or IB 150 & IB 151	Organismal & Evolutionary Biol and Organismal & Evol Biol Lab	
Select one of the following:		3-5
GEOG 103	Earth's Physical Systems	
GEOL 107	Physical Geology	
PHYS 101	College Physics: Mech & Heat	
PHYS 211	University Physics: Mechanics	
MCB 100	Introductory Microbiology	
<b>Humanities and the Arts</b>		
Select from campus approved list.		6
<b>Social and Behavioral Sciences</b>		
ACE 100	Introduction to Applied Microeconomics	3-4
or ECON 102	Microeconomic Principles	
Select one additional course from campus approved list.		3-4
<b>Natural Resources and Environmental Sciences Required (Core)</b>		
NRES 102	Introduction to NRES	3
NRES 201	Introductory Soils	4
NRES 219	Applied Ecology	3

## Natural Resources & Environmental Sciences: Human Dimensions of the Environment, BS

for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences, Human Dimensions of the Environment Concentration

**department website:** <https://nres.illinois.edu/> (<https://ace.illinois.edu/>)

**department faculty:** <https://nres.illinois.edu/directory/faculty> (<https://nres.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/>)

**college website:** <https://aces.illinois.edu/>

Human Dimensions of the Environment emphasizes the social scientific interpretations of human-environment interactions at multiple levels, as well as applied policy and management implications. This concentration requires advanced coursework in behavior change science, natural resource economics, environmental and conservation psychology, communications, social impact assessment, environmental policy, and environmental law. Students who have completed degrees in this concentration have gone on to careers in natural resource management, environmental policy, law, advocacy, and education.

## Learning Outcomes: Natural Resources & Environmental Sciences, BS

Learning outcomes for the degree of Bachelor of Science Major in Natural Resources & Environmental Sciences (NRES)

---

Students graduating with the B.S. in NRES should be able to:

1. Understand the scientific method/ways of knowing and critically evaluate information.
2. Integrate principles of biological, chemical, physical, and social sciences and apply them to resource and environmental issues using a systems approach.
3. Understand ecological principles underpinning management of resources, populations, communities, and ecosystems.
4. Use data collection and analysis tools (such as field methods, GIS, modeling, and statistics) to develop plans for managing resource/ environmental challenges and adapt plans in response to rapid change.
5. Understand the policies governing resources and the environment and identify social dimensions (stakeholders, interests, trade#offs, synergies, ethical principles) to consider in the development of management plans.
6. Communicate effectively with colleagues, stakeholders, and the public about environmental and resource management issues.
7. Recognize how diverse groups understand the environment, experience positive and negative environmental impacts, and perceive just and equitable solutions.

# Nuclear, Plasma, & Radiological Engineering, BS

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

**department website:** <https://nppe.illinois.edu/>

**department faculty:** Nuclear, Plasma, & Radiological Engineering Faculty (<https://nppe.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://nppe.illinois.edu/academics/undergraduate/program-educational-objectives> (<https://nppe.illinois.edu/academics/undergraduate/program-educational-objectives/>)

Nuclear, plasma, and radiological engineering is a branch of engineering that is concerned with the development and use of nuclear energy and radiation sources for a wide variety of applications in energy production, in materials processing and science, and for biomedical and industrial uses. Areas of interest include the continued safe and reliable application of fission reactors as central electric power plant thermal sources; plasma processing applications and the longer term development of fusion reactors for electric power generation; and the use of radiation sources in such areas as materials, biological systems, medical treatment, radiation instrumentation, environmental systems, and activation analysis.

The first two years of the curriculum provide a strong foundation in basic sciences (physics, mathematics, and chemistry), engineering sciences (analytical mechanics and thermodynamics), an introduction to computer use, and introduction to nuclear energy systems. Most technical concentration takes place in the third and fourth years of the curriculum according to the educational and career interest of the students. The curriculum provides three professional concentration areas: power, safety and the environment; plasma and fusion science and engineering; and radiological, medical, and instrumentation applications. Each concentration area allows flexibility in developing advanced technical expertise but also requires depth of understanding in the area. The third path meets pre-med requirements and facilitates the minor in bioengineering. To complete this concentration area, students should take certain chemistry and biology courses in the first two years of the curriculum.

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

## Graduation Requirements

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103).**

### Orientation and Professional Development

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> Students may elect to take CS 125 in place of CS 101, and TAM 211 in place of TAM 210. The extra hour will be applied toward the Professional Concentration Area electives.
- <sup>4</sup> Students in the Plasma and Fusion Science Engineering Professional Concentration Area may elect to take PHYS 325 in place of TAM 212. Further, students in this concentration may elect to take both PHYS 325 and PHYS 326 in place of TAM 210 and TAM 212. The extra hour from PHYS 325 and PHYS 326 will be applied toward the Professional Concentration Area electives.
- <sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Nuclear, Plasma, & Radiological Engineering

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/npre-map/>).

### First Year

First Semester		Hours
NPRE 100	Orientation to NPRE	1

Total Hours:	128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). Free Electives are taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>3</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>4</sup> Students may elect to take CS 125 in place of CS 101, and TAM 211 in place of TAM 210. The extra hour will be applied toward the Professional Concentration Area electives.

<sup>5</sup> Consideration should be given to NPRE 101 as a free elective in the spring semester of the freshman or sophomore year. Alternately, free elective hours provide a means to fulfill requirements for campus minors such as Bioengineering, Computer Science, International Minor in Engineering, Mathematics, or Physics, without excessive additional hours beyond the normal degree requirements.

<sup>6</sup> Students in the Plasma and Fusion Science Engineering Professional Concentration Area may elect to take PHYS 325 in place of TAM 212. This facilitates the minor in Physics. Further, students in this concentration may elect to take both PHYS 325 and PHYS 326 in place of TAM 210 and TAM 212. The extra hour from PHYS 325 and PHYS 326 will be applied toward the Professional Concentration Area electives.

<sup>7</sup> A student must fulfill the NPRE Professional Concentration Area requirement (<https://npres.illinois.edu/academics/undergraduate/technical-electives/>) by taking the required technical courses and technical elective courses in one of the three professional concentration areas: Power, Safety, and the Environment; Plasma and Fusion Science Engineering; or Radiological, Medical, and Instrumentation Applications.

<sup>8</sup> Students in the Power, Safety, and the Environment and in the Plasma and Fusion Science Engineering Professional Concentration Areas must take a fluid mechanics course (TAM 335 or ME 310) and NPRE 421. Students in the Radiological, Medical, and Instrumentation Applications Concentration are not required to take these courses. They may instead use the hours otherwise filled with these courses to take electives in the Radiological, Medical and Instrumentation Applications Areas.

## Learning Outcomes: Nuclear, Plasma, & Radiological Engineering, BS

Learning Outcomes for the degree of Bachelor of Science Major in Nuclear, Plasma, & Radiological Engineering

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Nuclear, Plasma, & Radiological Engineering graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Operations Management, BS

for the degree of Bachelor of Science in Operations Management

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Operations Management (OM) Major prepares students for careers in manufacturing and service management, operations strategy consulting, purchasing and supply management, project management, and quality management. OM professionals work with most other units in any organization, more so with engineering, human resource management, information systems, and marketing. The OM curriculum focuses on analytical decision-making, logistics, new product development, operations strategy, process improvement, project management, quality control, and supply chain management. Students are trained in ways of developing, making, and delivering goods and services efficiently and effectively – generating value by satisfying ever-changing customer needs while improving profitability.

for the degree of Bachelor of Science in Operations Management

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition <sup>1</sup>	4-7
	Advanced Composition	3

## General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>	
	Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	
	Quantitative Reasoning (2 courses) <sup>7</sup>	

## Language Other Than English

Code	Title	Hours
	Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.	0-15

## Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

- <sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- <sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- <sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- <sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- <sup>6</sup> This course includes limited voluntary participation as a subject in experiments.
- <sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

Code	Title	Hours
BADM 350	IT for Networked Organizations	3
BADM 374	Management Decision Models (Prerequisite: ECON 203)	3
BADM 375	Operations Strategy	3
BADM 377	Project Management	3
BADM 378	Logistics Management	3
BADM 379	Business Process Improvement	3
<b>Choose two of the following elective courses <sup>1</sup></b>		
BADM 329	New Product Development (Prerequisite: BADM 320) <sup>1</sup>	
BADM 352	Database Design and Management <sup>2</sup>	
BADM 353	Info Sys Analysis and Design (Prerequisite: BADM 350)	
BADM 453	Business Intelligence <sup>2</sup>	
<b>Choose one of the following elective courses: <sup>1</sup></b>		
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 445	Small Business Consulting <sup>3</sup>	4
BADM 446	Entrepreneurship: New Venture Creation <sup>3</sup>	4

BADM 199

Undergraduate Open Seminar (section: Business in Action)<sup>3</sup>

1 to 5

**Total Hours****27-29**

- <sup>1</sup> One of the elective course requirements from either sub-list above may be satisfied by an appropriate internship, approved in advance by the Head of the Department of Business Administration or designee.
- <sup>2</sup> Only one of these two Advanced Information Systems classes may be used for fulfilling the requirement for the major.
- <sup>3</sup> Only one of these three Experiential Learning classes may be used for fulfilling the requirement for the major.

## Learning Outcomes: Operations Management, BS

Learning Outcomes for the degree of Bachelor of Science in Operations Management

- 
1. Disciplinary Competence: Students demonstrate an understanding of fundamental operations concepts, key principles of its management, and relevant analysis approaches.
  2. Critical Thinking: Students demonstrate the ability to understand a real-world unstructured problem, and gather necessary information and data to formulate into a structured problem.
  3. Problem Solving: Students demonstrate ability to develop quantitative and qualitative analysis framework and solution methods, and appropriately implement them to obtain meaningful solutions.
  4. Decision making: Students demonstrate ability to identify strengths and weaknesses of alternative solutions and obtain relevant managerial insights.
  5. Communication: Students express themselves logically, persuasively and succinctly & using correct grammar and composition when communicating in oral or written form.

# Philosophy, BALAS

for the degree of Bachelor of Arts in Liberal Arts and Sciences: Major in Philosophy

**department website:** <http://www.philosophy.illinois.edu/>

**department faculty:** Philosophy Faculty (<https://philosophy.illinois.edu/directory/faculty/>)

**advising:** Philosophy advising (<https://philosophy.illinois.edu/academics/undergraduate-studies/advising/>)

**email:** phildept@illinois.edu

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

Philosophy is the oldest, broadest, and most fundamental form of inquiry. Some philosophical questions have to do with the understanding of ourselves and whatever else there may be. Others focus upon the nature of different forms of knowledge and experience, and upon ethical issues and problems of value. The study of philosophy is one of the most important elements in a good liberal education. It also improves one's ability to think clearly, and to construct, analyze, and criticize arguments of any kind. The major and minor are sponsored by the Department of Philosophy.

for the degree of Bachelor of Arts in Liberal Arts and Sciences: Major in Philosophy

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Students who maintain a GPA  $\geq 3.5$  in the major and receive a grade of A– in PHIL 499 will graduate with distinction.

Students who maintain a GPA  $\geq 3.5$  but  $< 3.7$  in the major and receive a grade of A or better in PHIL 499 will graduate with high distinction.

Students who maintain GPA  $\geq 3.7$  in the major and receive a grade of A or better in PHIL 499 will graduate with highest distinction.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work :** normally equates to 44 hours including at least 32 hours of Philosophy courses.

**Twelve hours of 300- and 400-level courses in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours**

Code	Title	Hours
PHIL 202	Symbolic Logic	3
PHIL 203	Ancient Philosophy	4
PHIL 206	Early Modern Philosophy	4
PHIL 421	Ethical Theories	3
PHIL 426	Metaphysics	3
or PHIL 430	Theory of Knowledge	
PHIL 499	Capstone Seminar	3
At least 12 additional hours of coursework in Philosophy, with 9 of those hours being above the 100-level (including at least two 300- or 400-level courses)		12
A student may select either of two types of programs of supporting course work and should work out a specific program of the type chosen with the help and approval of a departmental adviser.		12
Twelve hours minimum. Select from:		
Option I: Intensive study in another discipline. Courses normally beyond the 100 level in one other discipline. Most approved minors satisfy this requirement. A second major may also be used to satisfy this requirement		
or		
Option II: A special program of study built around a unifying theme or topic. Course work outside philosophy in one or more other discipline(s), normally beyond the 100 level.		
<b>Total Hours</b>		<b>44</b>

## Learning Outcomes: Philosophy, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts and Sciences Major in Philosophy

The Philosophy Department aims to produce four main learning outcomes.

1. **Philosophical Knowledge:** Students will be familiar with major figures and movements in the history of western philosophy; familiar with central topics, theories, and debates in epistemology and metaphysics, in ethics and value theory, and in logic; and familiar with current developments in professional philosophy.
2. **Philosophical Reading:** Students will develop the ability to analyze persuasive and argumentative prose: identifying the main claims asserted, the reasons alleged to support those claims, and the logical relations between the claims and the reasons, including identifying any gaps in the arguments.
3. **Philosophical Inquiry:** Students will develop the ability to formulate abstract principles in epistemology and metaphysics, in ethics and value theory, in logic, and in related special topic areas in philosophy; they will develop the ability to identify consequences of the principles they formulate; and they will develop the ability to construct arguments for those principles and compare them to competing principles.
4. **Philosophical Writing:** Students will develop the ability to write clearly and with logical precision on a wide range of important issues, including (but not limited to): civic and social challenges at local, national, and global levels; social and cultural issues related to race, indigeneity, gender, class, sexuality, language, and disability; and the ways that complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions.

# Photography, BFA

for the Bachelor of Fine Arts Major in Photography

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** mavery@illinois.edu

**phone:** (217) 333-6632

**department website:** School of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

The curriculum in photography requires 122 credit hours; its purpose is to encourage the study of photographic media for personal expression, to explore the social implications of pictures, and to develop the skills needed for careers in photography. General art requirements and electives provide a broad foundation in the visual arts, and photography courses provide a strong background in the history, theory, and practice of photography as art.

A portfolio review is required for admission to the School of Art and Design.

for the Bachelor of Fine Arts Major in Photography

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

## First Year Curriculum

Code	Title	Hours
FAA 101	Arts at Illinois	1
ARTF 101	Contemporary Issues in Art	2
ARTE 101	Art, Design, and Society	2
ARTH 110	Introduction to the History of Art and Visual Culture	3
Select one Drawing course:		3
ARTF 102	Observational Drawing	
ARTF 104	Expressive Drawing	
ARTF 106	Visualization Drawing	
Select one course in 2D Category:		3
ARTD 151	Introduction to Graphic Design	
ARTS 205	Introduction to Printmaking (required for Studio Art: Printmaking)	
ARTS 221	Fashion Illustration (required for Studio Art: Fashion)	
ARTS 251	Beginning Painting (required for Studio Art: Painting)	
ARTS 264	Basic Photography (required for Studio Art: Photography)	
Select one course in 3D Category:		3
ARTD 101	Introduction to Industrial Design	
ARTS 210	Ceramics Sculpture I	
ARTS 230	Jewelry/Metals I	
ARTS 280	Beginning Sculpture (required for Studio Art: Sculpture)	
Select one course in 4D Category:		3
ARTS 241	Image Practice	
ARTS 243	Time Arts I	
ARTS 244	Interaction I	
<b>Total Hours</b>		<b>20</b>

## Photography Requirements

Code	Title	Hours
ARTH 257	History of Photography	3
ARTD 260 or ARTS 264	Basic Photography	3
ARTD 261 or ARTS 265	Photography II	3
ARTD 360 or ARTS 364	Photography III	3
ARTD 460 or ARTS 461	(repeat twice in senior year) Advanced Photography	3 (6)
ARTD 393 or ARTS 394	Special Topics in Photography	3
<b>Total Hours</b>		<b>21</b>

## Photography Electives

Code	Title	Hours
Select 18 hours from the following:		18
ARTS 391	Independent Study	
ARTD 262 or ARTS 266	View Camera	
ARTD 263 or ARTS 267	Digital Photographic Output	
ARTD 362 or ARTS 365	(May be repeated up to 12 hours) Photography Workshop	
ARTD 363 or ARTS 367	RAW Photography	
Total Hours		18

Code	Title	Hours
<b>Art History Requirements</b>		<b>9</b>
Advanced art history (200-level or above)		

## Electives

Code	Title	Hours
Art + Design electives (art + design courses not in photography requirements or used as photography electives)		15
Open electives as needed to total 122 hour degree		

## Learning Outcomes: Photography, BFA

Learning outcomes for the Bachelor of Fine Arts Major in Photography

---

Undergraduate Photography graduates will have:

1. acquired the ability to control the procedural construct of an image via camera, software and darkroom techniques.
2. an understanding of and an ability to employ photography's unique narrative structure.
3. acquired a critical appreciation of the historical and social influences of the medium and the ability to evaluate their own work as well that of others via this construct.
4. developed a cohesive body of work demonstrating technical competency and conceptual awareness.

# Physics

**department website:** Physics (<https://physics.illinois.edu>)

**department faculty:** Department of Physics Directory (<https://physics.illinois.edu/people/directory/>)

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** Liberal Arts & Sciences (<https://las.illinois.edu/>)

Students interested in majoring in physics in the College of Liberal Arts & Sciences may choose the Specialized Curriculum in Physics (<http://catalog.illinois.edu/undergraduate/las/physics-bs/>), leading to the Bachelor of Science Major in Physics, or the Physics Major (<http://catalog.illinois.edu/undergraduate/las/physics-bslas/#text>), leading to the Bachelor of Science in Liberal Arts and Sciences.

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field.

The Physics Major in the Sciences and Letters Curriculum is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields. Students who are certain that they want to go on to graduate study in physics or in a closely allied field should also consider the LAS Specialized Curriculum in Physics.

## Engineering Physics, BS

*for the degree of Bachelor of Science in Engineering Physics*

**department website:** Department of Physics (<https://physics.illinois.edu>)

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/faculty/>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

In the Physics (Engineering) program, students will study, measure, and manipulate the fundamental interactions of matter, energy, space, and time. This fundamental branch of science forms the foundation of all natural sciences and engineering disciplines. Students in this major will gain a deep conceptual and mathematical understanding of the world through their coursework and hands-on learning opportunities. This program will give students the tools to quantitatively break down complex problems to solve scientific mysteries and reveal the inner workings of nature. Further, the program will provide students with the keys to a wide range of challenging and fulfilling careers, whether they plan to enter a graduate or professional school or join the private-sector workforce after graduation. There is also the option for students to earn a Secondary Education minor and obtain certification to teach Physics in high schools.

The Physics (Engineering) program provides a solid training in fundamental physics, but also allows space for electives through a diverse range of technical options. This provides students flexibility to take more advanced Physics coursework or pursue other interests. Students may select from a list of pre-approved options or design a custom option, subject to departmental approval. The current pre-approved options, requiring 12-22 credit hours of course work, are:

- Acoustical Physics
- Astrophysics
- Atmospheric Science
- Biophysics
- Business
- Computational Physics
- Computer Engineering
- Energy/Sustainability
- Materials Science
- Nuclear Physics
- Optical Physics
- Law

- Professional Physics
- Solid State Electronics
- Pre-Med
- Pre-Law

The course work is selected in consultation with the student's advisor to address an intellectually coherent body of knowledge. The curriculum is designed to prepare students for a wide variety of technical and professional careers, including graduate study in physics or a closely allied field.

for the degree of Bachelor of Science in Engineering Physics

## Graduation Requirements

Minimum Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>): **2.0**

TGPA is required for Math and Physics courses. See Technical GPA (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-TechnicalGPARequirement>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

### Orientation and Professional Development

## Electives

Code	Title	Hours
<b>Free Electives</b>		
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. The number of hours varies depending upon the total hours earned in both the Flexible Physics Core and the Technical/Professional Option and whether or not MATH 415 and PHYS 486 are taken in place of PHYS 485. <sup>6</sup>		13-37
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> MATH 285 may be replaced by MATH 441 followed by MATH 442.
- <sup>4</sup> If PHYS 486 is chosen, take prerequisite MATH 415, which may be used to meet free elective requirements. If PHYS 485 is taken, an additional free elective hour or a surplus flexible physics core course hour offsets the one-hour credit differential.
- <sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-GeneralEducationElectives>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://wiki.illinois.edu/wiki/display/ugadvise/Degree+Requirements/#DegreeRequirements-FreeElectives>).

for the degree of Bachelor of Science in Engineering Physics

## Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (with Tech Electives) (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/physics-tech-map/>) and here (Professional Track). (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/physics-prof-map/>)

### First Year

First Semester		Hours
PHYS 110	Physics Careers	0
ENG 100	Engineering Orientation	0
MATH 221 <sup>1,2</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 (or General education elective) <sup>3,4</sup>	Writing and Research	4-3
General education elective <sup>4</sup>		3
Semester Hours		15-14

### Second Semester

CS 101	Intro Computing: Engrg Sci	3
MATH 231	Calculus II	3
PHYS 211 <sup>2</sup>	University Physics: Mechanics	4
General Education elective (or RHET 105) <sup>3,4</sup>		3-4
General Education elective <sup>4</sup>		3
Semester Hours		16-17

### Second Year

#### First Semester

MATH 241	Calculus III	4
PHYS 212	University Physics: Elec Mag	4
PHYS 225	Relativity Math Applications	2
General education electives <sup>4</sup>		6
Semester Hours		16

#### Second Semester

MATH 285 <sup>5</sup>	Intro Differential Equations	3
PHYS 213	Univ Physics: Thermal Physics	2
PHYS 214	Univ Physics: Quantum Physics	2
PHYS 325	Classical Mechanics I	3
Technical/professional option elective <sup>6</sup>		3
General education elective <sup>4</sup>		3
Semester Hours		16

### Third Year

#### First Semester

MATH 415	Applied Linear Algebra	3
PHYS 435	Electromagnetic Fields I	3
Flexible physics core elective <sup>7,8</sup>		3
Mathematics elective <sup>9</sup>		3
Technical/professional option elective <sup>6</sup>		3
Free elective		3
Semester Hours		18

#### Second Semester

Flexible physics core electives <sup>7,8</sup>		6
Technical/professional option electives <sup>6</sup>		10
Semester Hours		16

**Fourth Year****First Semester**

PHYS 485 or 486 <sup>10</sup>	Atomic Phys Quantum Theory	3-4
Technical/professional option electives or Free electives <sup>6,11</sup>		6
Flexible physics core electives or Free electives <sup>7,8</sup>		6
Semester Hours		15-16

**Second Semester**

Free electives		11-10
Technical/professional option electives or Free electives <sup>6,11</sup>		5
Semester Hours		16-15
Total Hours:		128

<sup>1</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

<sup>2</sup> Students with proficiency or advanced placement (AP or IB) credit in MATH 221 are strongly encouraged to enroll in MATH 231 and PHYS 211 for the first semester.

<sup>3</sup> RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). General Education Elective is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.

<sup>4</sup> Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.

<sup>5</sup> MATH 285 may be replaced by MATH 441 followed by MATH 442.

<sup>6</sup> To be chosen from a departmentally approved list of Technical/Professional Option Electives ([http://physics.illinois.edu/current/undergrad/ep\\_options.asp](http://physics.illinois.edu/current/undergrad/ep_options.asp)), in consultation with the student's advisor, for the option elected (or a list fashioned for a departmentally approved custom option). The number of credit hours varies 12-22 depending upon the option chosen.

<sup>7</sup> The flexible physics core requirement consists of three courses chosen from a departmentally approved list of Flexible Physics Core Electives with at least one of them being a lab course, PHYS 401, PHYS 403, PHYS 404, or PHYS 406. The number of credit hours varies 9-15 depending upon the courses chosen.

<sup>8</sup> For courses chosen with more than 3 hours credit, the surplus hours may be used to meet free elective requirements.

<sup>9</sup> To be chosen from a departmentally approved list of Mathematics Electives (<http://physics.illinois.edu/undergrad/math-options.asp>). Any course satisfying the Mathematics Elective cannot be used to satisfy any other requirement.

<sup>10</sup> If PHYS 485 is taken, an additional free elective hour or a surplus flexible physics core course hour offsets the one-hour credit differential.

<sup>11</sup> Taken if needed to complete a technical/professional option requiring more than 12 hours of credit.

## Physics, BS (LAS Specialized Curriculum)

for the degree of Bachelor of Science Major in Physics (LAS Specialized Curriculum)

**department website:** <https://physics.illinois.edu>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** College of Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

The LAS Specialized Curriculum in Physics is designed for students who plan to pursue graduate study in physics or a closely allied field. However, students who want to pursue a combined major and minor, a double major, or a double degree should consider the LAS Science and Letters Curriculum in Physics because of the greater flexibility it offers.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to plan ahead to allow space in their programs for undergraduate research.

for the degree of Bachelor of Science Major in Physics (LAS Specialized Curriculum)

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to take a Freshman Discovery Seminar during the first year fall semester and plan ahead to allow space in their programs for undergraduate research.

**Departmental distinction:** Graduation with distinctions awarded to students who complete 8 additional hours of 300- or 400-level physics courses or advanced courses in closely related technical subjects and who have attained cumulative grade point averages as follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** A minimum of 126 hours required for graduation.

**GPA requirements:** Students in the Specialized Curriculum beyond the freshman year must maintain an overall grade point average of at least 2.5 and also a grade point average of 2.5 in all required mathematics and physics courses.

# Physics, BSLAS (Sciences & Letters)

for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters)

**department website:** <https://physics.illinois.edu/>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

The Physics Major (Sciences and Letters) is a flexible program for students who plan to pursue technical or professional careers in areas requiring a sound grounding in physical science and mathematics. Students can use the concentration to prepare for employment immediately upon graduation or for continuing on to graduate study in a wide variety of fields. Students who are certain that they want to go on to graduate study in physics or in a closely allied field should also consider the LAS Specialized Curriculum in Physics. In some cases, however, the greater flexibility of the Science and Letters Curriculum may make it a better choice for graduate school preparation for those who want to pursue a combined major and minor, a double major, or double degrees.

Students in this major must choose an approved elective technical or professional option no later than the end of the second semester of the sophomore year. A set of pre-approved options is available via the departmental web site (<http://physics.illinois.edu/undergrad/las-options.asp>) and from the departmental undergraduate studies office. Students may also design and follow a "custom option" subject to departmental approval. Students completing the Astrophysics option will earn a minor in Astronomy, if appropriate Minor form is filed.

Entering freshmen typically take calculus, chemistry, rhetoric, and PHYS 110 during the first semester and begin the general physics sequence in the second semester. Students with advance placement in mathematics should begin the general physics sequence in the first semester. All students are strongly encouraged to plan ahead to allow space in their programs for undergraduate research.

for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters)

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Graduation with distinction is awarded to students who complete 8 additional hours of 300- or 400- or 500-level physics courses or advanced courses in closely related technical subjects, and who have attained cumulative grade point averages as follows: distinction, 3.5; high distinction, 3.8; highest distinction, 3.8 plus acknowledgement of truly outstanding work/research.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required major and supporting course work normally equates to 65-73 hours. Twelve hours of 300- and 400-level courses in the major must be taken on this campus. Minimum hours required for graduation: 120 hours.

**GPA requirements:** Students in the major must maintain an overall grade point average of at least 2.0 and also a grade point average of at least 2.0 in all required physics and mathematics courses. To be permitted to enroll in advanced physics courses in this major a student must maintain at least a 2.0 average in all attempts at science and mathematics courses taken at the University of Illinois.

Code	Title	Hours
Fixed Physics Core		23-24
PHYS 110	Physics Careers	
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 213	Univ Physics: Thermal Physics

or MATH 286	Intro to Differential Eq Plus
CHEM 102	General Chemistry I
CHEM 103	General Chemistry Lab I
CS 101	Intro Computing: Engrg & Sci

#### Elective Technical or Professional Option 12

A set of technical or professional courses that addresses an intellectually coherent body of knowledge. At least 9 hours should be at the 200-level or higher. Required courses may not be included in the set. Students may select from a list of pre-approved options or design a custom option, subject to departmental approval.

<sup>1</sup> MATH 220 may be substituted with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.

## Physics: Physics Teaching, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences: Major in Physics (Sciences and Letters), Physics Teaching Concentration

**department website:** <https://physics.illinois.edu/>

**department faculty:** Physics Faculty (<https://physics.illinois.edu/people/directory/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [undergrad-info@physics.illinois.edu](mailto:undergrad-info@physics.illinois.edu)

This concentration fulfills state certification requirements to teach high school physics (grades 9-12) through the AP/honors level and general science (high school biology, chemistry, earth and space science, and environmental science up to but not including the AP/honors level).

Time to degree completion varies. Minimum time to completion is 8 semesters, some students may require 10 semesters. Transfer students may need 10 total semesters combined to complete the program. Please see the LAS section in the transfer handbook for more information.

for the degree of Bachelor of Science in Liberal Arts and Sciences, Major in Physics (Sciences and Letters), Physics Teaching Concentration

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** Distinction is determined by a combination of grade point average and achievement in student teaching. The student's practice teaching experience will be evaluated by the departmental honors adviser and the teaching supervisor. Distinction requires a 3.2 grade point average; high distinction, 3.4; highest distinction, 3.6. Students desiring distinction should consult with the departmental honors adviser during the junior year.

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Minimum required major and supporting course work normally equates to 65-73 hours. Twelve hours of 300- and 400-level courses in the major must be taken on this campus.**

**Teacher Education requirements: Students in this concentration must complete the Teacher Education Minor in Secondary School Teaching.** See the College of Education section for requirements of the minor (<http://catalog.illinois.edu/undergraduate/education/secondary/>) (39 hours).

**GPA requirements: To remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.** <http://www.cote.illinois.edu/>

**Minimum hours required for graduation: 120 hours.**

SPED 405	General Educator's Role in Special Education	3
EDPR 442	Educational Practice in Secondary Education	12
Total Hours		39-40

<sup>1</sup> EDUC 201, EDUC 202 and EPSY 201 can be completed at any time during the degree and are not pre-requisites to apply for the minor.

<sup>2</sup> PSYC 100 is a pre-requisite for EPSY 201.

# Plant Biotechnology, BS

for the degree of Bachelor of Science Major in Plant Biotechnology

**department website:** <https://cropsciences.illinois.edu/>

**department faculty:** <https://cropsciences.illinois.edu/people/faculty/>

**overview of college admissions & requirements:** Agricultural, Consumer & Environmental Sciences (<http://catalog.illinois.edu/schools/aces/academic-units/#text>)

**college website:** <https://aces.illinois.edu/>

With a degree in Plant Biotechnology you can help feed billions sustainably, improve our planet's health, and make a direct impact on agriculture and the world. Advance plant breeding and plant improvement by learning critical skills in molecular biology, genetics, and genomics.

Plant Biotechnology is a part of our daily lives in applications such as developing nutritionally enhanced foods, enabling sustainable agricultural production, and engineering plants for industrial and medical purposes.

The plant biotechnology major provides an interdisciplinary curriculum integrating the science and practice of crop production through courses in molecular biology, genetics and genomics, biochemistry, plant protection, data analysis and more.

## 5 Year BALAS /MA in Political Science and European Union Studies

The Department of Political Science, along with the European Union Center, offers a **5 year BALAS/MA in Political Science and European Union Studies**. In order to be admitted to this degree program, students apply through a joint application process to their BALAS –granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

---

## Departmental distinction

To be eligible for distinction, a student majoring in Political Science must complete one of the following two tracks:

1. Individual Study Track. On this track, a student must:
  - a. Complete a senior thesis,
  - b. Earn a political science major grade point average on this campus of at least 3.25 or higher, and
  - c. Earn a grade point average in of 3.67 or higher.
2. Honors Program Track. On this track, a student must:
  - a. Complete a senior thesis,
  - b. Earn a political science major grade point average on this campus of at least 3.25 or higher,
  - c. Be admitted to and maintain good standing within the departmental honors program, and
  - d. Complete required coursework in the departmental honors program with a grade point average in and between 2.67 and 3.66.

Admission to the departmental honors program requires the following:

1. Completion of or or an acceptable substitute,
2. An on-campus political science major grade point average of 3.5,
3. Completion of nine hours (including at least three advanced hours) of political science on this campus,
4. Application and affirmative vote of a departmental committee.

## High Distinction

To be eligible for high distinction, a student majoring in Political Science must:

1. Complete a senior thesis,
2. Earn a political science major grade point average on this campus of at least 3.25 or higher,

- 3. Be admitted to and maintain good standing in the departmental honors program, and
- 4. Complete required coursework in the departmental honors program with a grade point average in and of 3.67 or higher.

# Political Science: Citizen Politics, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, Citizen Politics Concentration

**department website:** <https://www.pol.illinois.edu>  
**department faculty:** Political Science Faculty (<https://pol.illinois.edu/directory/faculty/>)  
**advising:** Political Science advising (<https://pol.illinois.edu/academics/undergraduate-program/advising/>)  
**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)  
**college website:** <https://las.illinois.edu/>  
**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

Citizen politics is the study of mass politics. Topics include how and why citizens form political attitudes, beliefs, and identities; how people engage in political decision-making; and what political behaviors individuals choose to participate in.

See the Political Science BALAS page (p. 609) for departmental distinction information.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, Citizen Politics Concentration

See the Political Science BALAS page (p. 609) for departmental distinction information.

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor. The plan will consist of the selection of a concentration and 12 hours of supporting coursework approved by an advisor.

Restrictions: Except as otherwise noted, or by petition to the department, PS 191, PS 291, PS 292, PS 490, PS 491, and PS 492 are excluded from all concentration lists maintained by the department. These courses may be used only for requirements of courses “at any level” without respect to concentration. As an exception, these courses may be used toward the General Concentration or the Civic Leadership Concentration.

Students may include in the major no more than nine hours from any combination of PS 291, PS 292, PS 490, PS 491, and PS 492. Of these, only six hours from PS 490, PS 491, and PS 492 within that group can count toward the major.

Students may count a maximum of six (6) hours of credit of any combination of hours from PS 494 toward the advanced hours requirement. Not more than 6 hours of individual study courses in political science (PS 490) or 6 hours of internships (PS 491) or 6 hours of supervised research (PS 492) may be included in the major; a student with any mix of independent study hours and internship hours and supervised research hours may include a maximum of 9 hours of such credit in the major. (PS 496) is reserved for those seniors doing honors theses for distinction in political science and may not be counted in the 45-hour minimum required for the major.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**  
**Minimum required major and supporting course work: Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

This concentration explores political institutions and processes and how and why they work as they do. Courses use historical and contemporary examples to understand the political system the founders established and the ways it has shaped modern politics. Students study institutions such as the presidency, Congress, courts, the bureaucracy, and political parties, with a focus on their organization and on important patterns of behavior within them, such as interest group lobbying and campaigning.

See the Political Science BALAS page (p. 609) for departmental distinction information.

**email:** [pol@illinois.edu](mailto:pol@illinois.edu)

The World Politics concentration compares internal political dynamics of and patterns of political behavior in the world's more than 200 countries. Major comparative themes include democracy, dictatorship and regime change; political institutions (parties, elections, and decision-making); voting behavior, attitudes, and the creation and dissemination of political information; religious and ethnic identity politics; political economy of development and developing countries; social change and political violence; and the impact of globalization and transnational forces such as migration.

See the Political Science BALAS page (p. 609) for departmental distinction information.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science, World Politics Concentration

See the Political Science Distinction page (p. 609) for departmental distinction information.

Students may count a maximum of six (6) hours of credit of any combination of hours from PS 494 toward the advanced hours requirement. Not more than 6 hours of individual study courses in political science (PS 490) or 6 hours of internships (PS 491) or 6 hours of supervised research (PS 492) may be included in the major; a student with any mix of independent study hours and internship hours and supervised research hours may include a maximum of 9 hours of such credit in the major. (PS 496) is reserved for those seniors doing honors theses for distinction in political science and may not be counted in the 45-hour minimum required for the major.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 70 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

#### **World Politics Concentration Coursework Requirements**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
PS 100	Intro to Political Science	3
Select at least one course from the following:		3
PS 240	Intro to Comp Politics	
PS 241	Comp Politics in Dev Nations	
Select any additional 100- or 200-level Political Science courses		6
Select 300- or 400-level Political Science courses, at least nine hours of which come from the World Politics Concentration list maintained by the department. The other six hours may be any 300- or 400-level Political Science course.		15
Select any additional Political Science courses at any level		6
Students will select a second major, or a minor, or a set of courses of at least 12 hours of thematically-related coursework outside political science, developed in conjunction with an academic advisor.		12
<b>Total Hours</b>		<b>45</b>

## Learning Outcomes: Political Science, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Political Science

- 
1. Students will be able to apply central concepts of the scientific method to the study of politics, and demonstrate an ability to draw inferences from data.
  2. Students will have a foundational knowledge of facts, concepts, and typologies in their chosen subfield in political science.
  3. Students will be able to demonstrate basic knowledge of central theories in their chosen subfield and show how to evaluate those theories.
  4. Students will be able to define political science and its subfields, drawing contrasts with other social sciences.
  5. Students will be able to apply concepts, methods, and theories to research projects, internships, and/or off-campus experiences.

## Undergraduate degree programs in Spanish & Portuguese

Spanish, BALAS (p. 659)

Teaching of Spanish, BA (p. 731)

Portuguese, BALAS (p. 620)

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Portuguese

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** 42-45 hours including at least 27 hours in Portuguese courses beyond the 100 level. Twelve hours of 300- and 400-level courses in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours

Code	Title	Hours
PORT 402	Advanced Grammar	3
PORT 403	Readings in Portuguese	3
PORT 404	Studies in Luso-Brazilian Culture	3
PORT 406	Brazilian Film	3
PORT 410	Topics in Brazilian Literature	3
Additional courses in Portuguese literature/culture beyond the 100 level		12
Supporting course work or a minor in a related area of study chosen by the student and approved by the adviser. There is a wide choice of supporting courses because the student's interests may vary from Iberian literature to animal husbandry in Angola and urbanology in Brazil. Supporting areas may include humanities (comparative literature, comparative religion, linguistics, philosophy), social sciences (anthropology, geography, history, Latin American studies, political science, sociology), education, fine and applied arts, and/or journalism. Other fields, or groups of fields, may be approved by the Portuguese undergraduate adviser. <sup>1</sup>		15-18
<b>Total Hours required for graduation</b>		<b>120</b>

<sup>1</sup> A minor consists of a minimum of 18 hours.

## Learning Outcomes: Portuguese, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Portuguese

1. Students learn and practice the nuances of the language in all of its written and spoken modes, formally and informally
2. Students demonstrate special cultural and linguistic literacy in relation to Portuguese and the ability to use concepts and methods from multiple disciplines

3. Students know the history of Brazil's interplay with Latin America and the Lusophone world
4. Students evaluate the dynamics of power between dominant and subordinate groups in Brazil, especially through the lens of class, ethnicity, gender, race, and sexuality
5. Students gain a global perspective on civil society and social justice through Brazil and the Portuguese language

# Psychology, BSLAS

*for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology*

Students choose from the following concentrations:

- Behavioral Neuroscience (p. 623)
- Clinical/Community Psychology (p. 624)
- Cognitive Neuroscience (p. 626)
- Cognitive Psychology (p. 627)
- Developmental Psychology (p. 628)
- Diversity Science (p. 629)
- Intradisciplinary Psychology (p. 631)
- Organizational Psychology (p. 632)
- Personality Psychology (p. 633)
- Social Psychology (p. 634)

The Psychology major is a broad-based curriculum within a research-focused department. The program is designed both for students interested in a liberal arts education with psychology as a focal area and for students who plan to attend graduate or professional school either in psychology or in a different field such as medicine, law, social work, business administration, counseling, labor relations and many others.

The Psychology major provides both depth and breadth of knowledge in Psychology. The major consists of an introductory course, a statistics course, a breadth of knowledge or foundation in the different areas of psychology that comes from a set of core courses, a research methods course, and elective courses that give students a depth of knowledge. Each concentration, except for intradisciplinary psychology, has a core course specific to that area of psychology with a research methods course designed for that concentration. In formulating their Plan of Study, students can decide either to undertake a concentration in Intradisciplinary Psychology and select courses that focus on their own unique interests or to specialize in a particular area of Psychology by fulfilling the requirements for one of the other concentrations listed below. As undergraduate students fulfill the requirements, they also have the opportunity to participate in current research projects by working in labs. Students should contact our Undergraduate Advising Office for help in creating a plan of study and research that best meets their goals and interests.

The Department of Psychology also offers a BSLAS in Brain & Cognitive Science (p. 131).

## Academic Advising

The Psychology Undergraduate Advising Office is open to help students choose patterns of courses relevant to their interests, as well as to help students explore graduate school, professional school, and career options. Advising is done by an award-winning staff of academic professionals along with mentoring by faculty for students with research interests. Peer registration assistants are also available to help with the registration process.

## Areas of Interest

Psychology is the scientific investigation of human and animal behavior. Psychologists study behavior in systems ranging from single cells to the individual person, from small groups of people to communities. Psychologists strive to describe behavior and to understand its underlying biological and social mechanisms. This enterprise, designed to better understand the human condition, accumulates knowledge that can help solve problems faced by individuals and by communities. Students that graduate with a major in psychology acquire a wide range of knowledge and useful skills that allows them to find employment in many different areas.

Areas of interest in psychology, and many of these are reflected in the similarly-titled concentrations that are available within the major:

- Behavioral Neuroscience is the study of the biological mechanisms underlying behavior. Biological psychologists generally are interested in the brain and the nervous system, in the endocrine system, and in other organismic processes.
- Clinical psychology is the study of problems encountered by individuals, groups, and families — especially problems involving psychopathology. Clinical psychologists are interested in the application of psychological knowledge and techniques for the alleviation of these problems.
- Community psychology is the study of the social processes and problems of groups, organizations, and neighborhoods, and the development and evaluation of progress for social change and social policy based on psychological understanding.

- Cognitive neuroscience is concerned with understanding the neuroscientific bases of cognition. Various methods are employed to assess the roles of different brain systems in psychological functions such as memory, attention, language, executive control, decision making, response processing, and emotion.
- Cognitive psychology is the study of basic behavioral and cognitive processes, including learning, memory, problem-solving, motivation, and language.
- Developmental psychology is the study of intellectual development, emerging personality, and the acquisition of language, as well as psychophysiological and social development processes as individuals develop from birth through old age.
- Engineering psychology is the study of human behavior in the context of interactions between humans and machines.
- Organizational psychology is the application of techniques of assessment, prediction, and intervention to areas of human resources in organizations, including, but not limited to, standard personnel selection and training, attitude assessments and interventions, and program evaluations.
- Personality psychology focuses on individual behavior. It is the study of ways to understand and describe an individual's behavior and to predict an individual's future behavior.
- Quantitative psychology specialists develop mathematical models of psychological processes and devise methods for quantitative representation and analysis of data about behavior. These are used in the study of differences between individuals in ability, personality, preferences, and other psychological phenomena.
- Social psychology is the study of attitudes, social perception and cognition, interpersonal relations, interpersonal interactions, and social and cultural factors affecting human behavior.
- Visual cognition and human performance is the study of attention, visual perception, visual memory, and human performance. Visual cognition research uses tools drawn from cognitive psychology and cognitive neuroscience to better understand how visual information is perceived and remembered.

## Prescribing Psychologists

The states of Illinois, New Mexico and Louisiana now allow appropriately qualified psychologists to write prescriptions for psychotropic medications, if they have the necessary training. There are many other states that currently have pending prescriptive authority legislative initiatives. One component of becoming a prescribing psychologist is completion of the following undergraduate courses:

- 2-semester course sequence in chemistry or biochemistry with lab
- 1 semester microbiology with lab
- 1 semester general biology for science majors
- 1 semester physiology
- 1 semester human anatomy
- 1 semester physiology and anatomy
- Medical terminology (class or proficiency)

For more information on becoming a prescribing psychologist and a detailed list of which courses meet these requirements, please consult with one of the academic advisors in psychology.

## Learning Outcomes: Psychology, BSLAS

Learning outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Psychology

The student learning outcomes are adapted from the American Psychological Association's (APA) "Guidelines for the Undergraduate Psychology Major" (2013). These guidelines consist of general learning outcomes along with specific indicators that can be assessed. Two sets of indicators are provided by the APA depending on whether a student has completed just the foundational courses (100# and 200# level classes) or is finishing the elective courses (300# and 400# level classes) necessary for each concentration within the Psychology major. The four learning outcomes that we will be evaluating are:

1. Students will demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings to discuss how psychological principles apply to behavioral phenomena. This includes 1.1) describing key concepts, principles and overarching themes, 1.2) developing a working knowledge of the different content or program areas in psychology, and 1.3) describing the application of psychology to everyday life.
2. Students will develop scientific reasoning and problem solving skills, including effective research methods. This includes 2.1) using scientific reasoning to interpret psychological phenomena; 2.2) demonstrating psychology information literacy; 2.3) engaging in innovative and integrative thinking and problem solving; 2.4) interpreting, designing, and conducting basic psychological research; and 2.5) incorporating sociocultural factors in scientific inquiry when appropriate.
3. Students will develop ethically and socially responsible behaviors for professional and personal settings in a landscape that involves increasing diversity. This goal encompasses 3.1) applying ethical standards to evaluate psychological science and practice; 3.2) building and enhancing interpersonal relationships; and 3.3) adopting values that build community at local, national, and global levels.
4. Students will be prepared to apply psychology#specific content and skills, effective self-reflection, project#management skills, teamwork skills, and career preparation to optimize their competitiveness for securing places in a graduate school, professional school, or in the workforce. For example, students should be able to 4.1) apply psychological content and skills to career goals; 4.2) demonstrate project#management skills and teamwork capacity; and 4.3) develop meaningful professional direction for life after graduation.

# Recreation, Sport & Tourism, BS

for the degree of Bachelor of Science Major in Recreation, Sport & Tourism

**department website:** <http://rst.illinois.edu/>

**department faculty:** Recreation, Sport, & Tourism Faculty (<http://rst.illinois.edu/faculty/>)

**college catalog page:** Applied Health Sciences (<http://catalog.illinois.edu/schools/ahs/academic-units/>)

**college website:** <http://ahs.illinois.edu/>

The Recreation, Sport & Tourism, BS degree program includes a set of three concentrations, of which a student must complete at least one:

Recreation Management Concentration (p. 637)

Sports Management Concentration (p. 638)

Tourism Management Concentration (p. 640)

The Department of Recreation, Sport and Tourism (RST) originated at the University of Illinois in 1940. Today, this program continues to rank nationally among the top three in the field, and takes pride in producing a large number of exceptional professionals. The Department of Recreation, Sport and Tourism offers a bachelor of science degree with three areas of concentration: recreation management, sport management, and tourism management. The curriculum prepares students to design, manage, and deliver RST services to a variety of populations in diverse settings and provides a firm foundation from which students may pursue graduate studies. A broad general education is emphasized and complemented with a core of professional courses. Beyond a strong core integrating theory, management, and research, the program allows students to focus on a major market segment within the RST field by choosing an area of concentration. A total of 128 hours is needed for graduation. For further information, contact the Department of Recreation, Sport and Tourism, 219 Huff Hall, 1206 S. Fourth Street, Champaign, IL 61820, (217) 333-4410.

## Internship Program

All students in the Department of Recreation, Sport and Tourism must satisfactorily complete the Internship Program prior to graduation. The program is designed to augment formal classroom instruction with active experiential learning under the guidance of a university and an agency-based supervisor.

The program consists of two courses (RST 480 and RST 485). Students register for RST 480 after completing a series of required RST courses. During this semester, students make final arrangements for completing RST 485 the following semester.

The RST 485 Internship is taken after the student satisfactorily completes all required RST course work, including RST 480. RST 485 is completed with agencies that are approved by the department and contracted for this program. Since a limited number of assignments are available in the campus area, most students look forward to the opportunity of an off-campus assignment. Students have been placed across the United States and abroad.

## Recreation, Sport & Tourism: Recreation Management, BS

## Learning Outcomes: Recreation, Sport & Tourism, BS

*Learning outcomes for the degree of Bachelor of Science Major in Recreation, Sport & Tourism*

Students graduating with the B.S. in Recreation, Sport & Tourism should be able to:

1. Communicate effectively in writing and in oral presentations about issues in recreation, sport and tourism.
2. Demonstrate a basic understanding of the history and theoretical underpinnings of recreation, sport and tourism in modern society.
3. Demonstrate basic knowledge about various dimensions of diversity, and the impact these dimensions have on service delivery recreation, sport and tourism organizations.
4. Demonstrate a basic understanding of the essential management functions necessary to deliver and manage services in recreation, sport and tourism organizations.
5. Demonstrate an ability to apply knowledge of basic management principles to professional practice.
6. Demonstrate the ability to design, implement, and evaluate services in recreation, sport and tourism venues.
7. Identify basic research methodologies at a level sufficient to collect, analyze, apply, and critique applied research data.

# Religion, BALAS

**college website:** <https://las.illinois.edu/>  
**email:** religion@illinois.edu

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Religion

Each student must complete two courses in any of the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser's office. And each student must complete two courses in any of the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser's office.

Additionally, each student will establish a primary and secondary field of study. For the primary area of study, a student must complete a minimum of three courses (nine credit hours), and for the secondary area two courses (six credit hours) are required. An individual course may not be counted twice toward fulfilling the requirements of the primary and secondary areas of interest. (Students are encouraged to complete more than the minimum of three courses in the primary area of study.)

The following are the areas of study: Buddhism, Christianity, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or individually designed area of study chosen with the approval of the departmental adviser.

Students considering graduate study in Religion are urged to consult with professors on the necessary preparation for graduate study in their area of interest.

### Language Requirements

The major in Religion does not require any language study beyond meeting the University's general education language requirement. However, majors are strongly encouraged to learn the languages relevant to their primary field of study and to begin that course of study as soon as possible. Please consult with the Director of Undergraduate Studies in Religion or a professor in your area of interest about appropriate language study.

### Capstone Experience

Research paper for one 400-level course in Religion (REL): Each major must make special arrangements with a professor teaching a 400-level REL course to conduct a significant research project that results in a research paper of 20 pages (minimum). The goal of this requirement is to ensure that each Religion major has conducted a significant research project. REL 493 can be used to satisfy this requirement.

### Departmental distinction

To be considered for departmental distinction a student must have an overall GPA of at least 3.5. Distinction is granted on the basis of a senior thesis written in the context of REL 493. The level of distinction is based on evaluation of the thesis.

**General education: Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: A minimum of 30 hours of coursework is required for the major. This includes (a) REL 230 or REL 231, and (b) completing a Capstone course. At least 15 of the 30 hours must be at the 300 or 400 level, and no more than 9 hours may be at the 100 level.**

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
Minimum of 30 hours of Religion courses including:		
PHIL/REL 230	Philosophy of Religion Intro	3
or REL 231	Religion and Philosophy	
Distribution Requirement: Courses taken must include:		12
(a) Two courses in the following: Judaism, Christianity, Islam, or religious practices of the ancient Near East, chosen from a list maintained in the departmental adviser's office and		
(b) Two courses in the following: Hinduism, Buddhism, Chinese and Japanese Religions, or indigenous American religious practices, chosen from a list maintained in the departmental adviser's office.		
Three courses in a primary area of study <sup>1</sup>		9
Two courses in a secondary area of study <sup>1</sup>		6

Capstone Experience: a 400-level REL course in which a research project is undertaken and a 20 page research paper is written. This course can be REL 493 and can also be used to fulfill part of the distribution or primary or secondary area of study requirement.

3

<sup>1</sup> *Areas of study include: Buddhism, Christianity, Hinduism, Islam, Judaism, Philosophy of Religion, Religion in America, or an individually designed area of study approved by the departmental advisor. Courses chosen to fulfill the primary area of study cannot also be used to fulfill the secondary area of study.*

## Learning Outcomes: Religion, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Religion

- 
1. Students will be able to understand and explain how global religious traditions reflect the social contexts in which they emerged, and in turn how the traditions have affected and continue to affect those societies;
  2. Students will be able to analyze, and interpret (in both written and oral communication) the relationship between religious traditions and other forms of human cultural and social activity, including languages, literature, arts, political and social movements;
  3. Students will be able to appreciate the diversity of global religious traditions and express that appreciation in activities and experiences meaningful to them.
  4. Students will be able to develop sound and well-formed written arguments on matters of interest to them that respond insightfully to scholarship significant to their field of study.
  5. Students will be able critically to assess and evaluate theories, arguments, and positions that have shaped the fields of the study of religion and individual global traditions.

# Russian, East European, & Eurasian Studies, BALAS

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

**department website:** <https://reeec.illinois.edu/>

**department faculty:** Russian, East European, & Eurasian Studies (<https://reeec.illinois.edu/people/groups/faculty/>) Faculty (<https://reeec.illinois.edu/people/groups/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** reec@illinois.edu

The Russian, East European, and Eurasian Center offers an interdisciplinary major and minor in Russian, East European, and Eurasian Studies (REEES). These programs involve students in the study of an important and complex world area in a manner that draws together the approaches of different disciplines, while at the same time building knowledge in a single discipline. A student will construct an individual program of study, depending on the student's interests and career goals, in consultation with the undergraduate advisor of the Center.

The major in Russian, East European, and Eurasian Studies consists of three components: 1) language study (Russian, Polish, Czech, Ukrainian, Bosnian-Croatian-Serbian, Turkish, and more); 2) a multidisciplinary area studies focus; and 3) concentration in a single discipline. Language study can be in Russian or in any of the other languages of the region offered at the University. Students also take courses in a variety of disciplines (history, sociology, political science) and develop a broad expertise in the history, politics, and culture of the region that includes Russia, but also many other countries, from the Czech Republic to Estonia to Uzbekistan. In addition, the concentration in a single discipline provides students with deep knowledge of a specific field that can qualify them for graduate or professional study. Many students also use this concentration to double major. With this program, the REEES major provides students with an interdisciplinary focus on issues critical to the region and foundational language training necessary for professional specialization in the area.

Students often go on to careers in government service (foreign service, FBI, CIA) or to work at NGOs (environment, human rights, and other international careers) in addition to publishing, editing, writing, translation, international business, law, teaching, and research.

REEES is one of two "Russian" majors (and minors) at the University of Illinois. What is the difference between them and which is the right one for you?

The REEES major has a current affairs focus and multidisciplinary area studies that develops students' skill sets in the humanities, social sciences, and other fields. The major in Slavic Studies emphasizes the study of language and literature, and students develop intensive cultural literacy and communication skills through humanities-oriented training. Many Slavic Studies majors go on to careers in writing and editing, media, or work with international cultural foundations and organizations. Both majors are excellent preparation for law school or graduate school and careers in teaching or research.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

A Major Plan of Study Form must be completed and submitted to the LAS Student Affairs Office before the end of the fifth semester (60-75 hours). Please see your advisor.

**Departmental distinction:** To qualify for departmental distinction, a student must have at least a 3.5 GPA in the courses taken for Component 2 (see below) and must complete a senior thesis in consultation with a faculty member affiliated with the center. Students who wish to qualify for distinction in this major should consult with the center director at the beginning of the junior year or earlier to prepare a suitable plan.

**General education: Students must complete the Campus General Education** (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement.**

**Minimum required major and supporting course work: Normally equates to 48 hours. Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
	Component 1: Completion of three years of college-level study of Russian or another language of Eastern Europe or Eurasia, or equivalent proficiency. This stipulation may be partially satisfied through fulfillment of the LAS two-year language requirement if a regionally appropriate language is chosen for that purpose. A third year of study, however, is demanded beyond this. If a non-Russian, East European or Eurasian language is selected to meet the LAS requirement, then the three years of Russian, East European or Eurasian language study specified here must be taken in addition to those completed to satisfy the LAS requirement. Only the hours earned in the third, most advanced year of language study are calculated into the degree here, as these represent proficiency beyond that required by all LAS BA degree programs and as the first two years of language study are a prerequisite for the third.	6

Component 2: Russian and East European studies core courses, including: 24

REES 200 Intro to Russia and Eurasia

REES 201 Introduction to Eastern Europe

REES 495 Senior Seminar

15 hours: Choose one course from each of three departments other than the department used for component 3 below. The courses comprising the remaining hours of component 2 may be from the same discipline as those under component 3; however, a course may be counted toward the total for only one component. Language courses that concentrate on the basic skills of speaking, listening, reading, and writing cannot be counted as part of this component.

Component 3: Courses in a single discipline. Among those disciplines that are most commonly used with this specialization are anthropology, economics, geography, history, political science, Russian language and literature, and sociology. Among disciplines also used are business administration, comparative literature, education, English, fine arts, French, German, journalism, linguistics, mathematics, music, philosophy, psychology, and various natural sciences. Others are permitted. Consult your advisor.<sup>2</sup> 18

<sup>1</sup> The Center maintains a list of applicable courses on its web site.

<sup>2</sup> If the study of a language is used for this component, 20 hours must be taken beyond the requirement of 6 additional hours outlined under component 1 above.

## Learning Outcomes: Russian, East European, & Eurasian Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Russian, East European, & Eurasian Studies

### 1. Global Competence and Intercultural Skills

- Definition: REES majors will engage and build productive relationships, founded in proficient language skills, with communities, organizations, and individuals across cultures, both at home and abroad.

### 2. Interdisciplinary Perspective

- Definition: REES majors will recognize and mobilize multiple types of data and forms of analysis, drawn from paradigms in the humanities and social sciences, to propose solutions to complex problems.

### 3. Analytical Reasoning and Broad Knowledge Base

- Definition: REES majors will critically analyze and evaluate interpretations of social, cultural, political, and economic phenomena, drawing on a broad knowledge base and research experience.

## Curriculum Preparatory to Secondary School Teaching

This program prepares teachers for grades nine through twelve. A minimum of 120 semester hours is necessary for graduation<sup>1</sup>.

Council on Teacher Education policy require that all candidates for admission to a teacher preparation program pass one of the Illinois approved basic skills tests prior to admission. The Illinois State Board of Education approved basic skills testing options include the ACT Plus Writing/SAT or the Test of Academic Proficiency. See information on the details ([cote.illinois.edu/certification/documents/act\\_procedures\\_for\\_admission.pdf](http://cote.illinois.edu/certification/documents/act_procedures_for_admission.pdf)).

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

Students are admitted to Secondary Education as freshmen. In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional grade point averages of 2.5 (A=4.0). Grades in courses of C- or lower may not be used for State of Illinois licensure, endorsements, or approvals. Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages.

For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education ([www.cote.illinois.edu/](http://www.cote.illinois.edu/)). (<http://www.cote.illinois.edu/>)

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

Students in the Secondary Education licensure program must complete the Campus General Education Requirements, the courses for the Mathematics concentration, and the professional education coursework.

<sup>1</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

# Slavic Studies, BALAS

*for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Slavic Studies*

**department website:** <http://www.slavic.illinois.edu>

**department faculty:** Slavic Faculty (<http://www.slavic.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

**college website:** <https://las.illinois.edu/>

**email:** [slavic@illinois.edu](mailto:slavic@illinois.edu)

Students must select one concentration in consultation with an academic advisor. Students in all concentrations must complete a) 6 hours of language beyond the second year, and b) 24 hours of literature and culture courses.

- Major in Slavic Studies, Czech Studies concentration (p. 648)
- Major in Slavic Studies, Polish Studies Concentration (p. 649)
- Major in Slavic Studies, Russian Language, Literature, & Culture Concentration (p. 650)
- Major in Slavic Studies, South Slavic Studies Concentration (p. 651)
- Major in Slavic Studies, Ukrainian Studies Concentration (p. 652)

Unlike the major in Russian, East European, and Eurasian Studies, which has a multidisciplinary area studies and current affairs focus, the major in Slavic Studies emphasizes the study of language, literature, and culture in their historical context. Students develop intensive cultural literacy and communication skills through humanities-oriented training, and many go on to careers in writing and editing, media, or work with international cultural foundations and organizations. The major is an excellent preparation for law school, business school, or other graduate study, as well as careers in the N.G.O. world, teaching, or research.

## 5 Year BALAS/MA in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and European Union Studies

The Department of Slavic Languages & Literatures with the European Union Center offers a 5-year BALAS/MA degree program in Slavic Studies (Russian Language, Literature & Culture or Polish Studies concentrations) and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS -granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

## Learning Outcomes: Slavic Studies, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Slavic Studies

1. Proficiency in the target language associated with the major track of at least intermediate high level on the ACTFL scale, with some control of advanced low functions.
2. Improved and effective writing and communication skills in the English language.
3. Coherent knowledge and functional grasp of the culture(s) and history(ies) of the region or regions and peoples targeted by the major track.
4. Analytical and interpretive abilities making use of the critical tools and methodologies taught in our courses of literary and cultural study.

## Social Work, BSW

for the degree of Bachelor of Social Work Major in Social Work

**School of Social Work Office: 1010 W. Nevada St., Urbana, IL 61801**

**Director of BSW Program: Carol Wilson-Smith**

**email:** [undergradsocialwork@illinois.edu](mailto:undergradsocialwork@illinois.edu) ([undergradsocialwork@illinois.edu](mailto:undergradsocialwork@illinois.edu))

**phone: (217) 244-5246**

**school website:** <https://socialwork.illinois.edu/>

**school faculty:** School of Social Work Faculty (<https://socialwork.illinois.edu/directory/>)

**overview of school admissions & requirements:** School of Social Work (<https://socialwork.illinois.edu/academics/undergraduate-programs/>)

The Bachelor of Science in Social Work can be completed through our traditional program on the Urbana campus or through our upper level completer program in the Chicago area. The traditional program is open to freshmen, off-campus transfers and inter-campus transfers. Courses are taken on the Urbana campus. The completer program is open to upper division (junior/senior level) off-campus transfers and inter-campus transfers. Courses are a blend of online and in-person in the Chicago area.

The purpose of undergraduate social work education at the School of Social Work is to provide a comprehensive educational experience for students that is grounded in a liberal arts tradition and prepares graduates for excellence in the areas of social work practice, policy, social engagement and leadership.

Upon degree completion, graduates will be prepared for entry into generalist social work practice, advanced standing in graduate social work education, and a multitude of career opportunities. These can include careers in communications, corrections, education, government, healthcare, human resources, law, non-profit organizations, religious studies, and public service. Obtaining an undergraduate degree in Social Work gives students the opportunity to pursue a License of Social Work (LSW). A BSW degree also makes students eligible to pursue Advanced Standing status in many masters of Social Work (MSW) programs. The advanced standing status enables BSW graduates to receive an MSW in only one year.

The focus of undergraduate curriculum delivery is through a student-centered strengths-based educational model that fosters student understanding by providing a challenging, yet supportive environment of high expectations that encourage the development of well-informed and engaged citizens.

The social work major prepares practitioners for generalist social work practice with individuals, groups, families and communities. The curriculum requires a minimum of 120 hours for graduation.

*for the degree of Bachelor of Social Work Major in Social Work (on campus & online)*

**Departmental Distinction:** The top 10% of the BSW graduating class will graduate with distinction.

**Minimum required major and supporting course work:** A minimum of 53 course hours of social work coursework, which includes 15 credit hours of combined agency-based field practicum (internship) and field seminar.

**Learning Outcomes: Social Work, BSW**

Learning outcomes for the degree of Bachelor of Social Work Major in Social Work

Students graduating with the Bachelor of Social Work should be able to:

1. Demonstrate ethical and professional behavior
2. Engage diversity and difference in practice
3. Advance human rights and social, economic, and environmental justice
4. Engage in practice-informed research and research-informed practice
5. Engage in Policy Practice

6. Engage with individuals, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities
8. Intervene with individuals, families, groups, organizations, and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

# Sociology, BALAS

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology

**department website:** <https://sociology.illinois.edu/>

**department faculty:** Sociology Faculty (<https://sociology.illinois.edu/directory/faculty/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** [soc@illinois.edu](mailto:soc@illinois.edu)

Large-scale societal change begins with individuals like you -- hungry for knowledge and ready to make a real difference; in the Department of Sociology you will study the inner workings of society with a focus on either Inequalities or Global Sociology.

Sociologists explore human social life at every level, from personal relationships to global society. Major topics of study include inequality, social movements, criminology, race and class relations, gender, social institutions such as religion and education, and fundamental population processes like immigration and mortality. Sociologists use a range of methods and theories to develop and evaluate ideas about social life.

As a student of Sociology, you will train in research methods and become fluent in social statistics while understanding the complexity of societal diversity and social change. These skills are usable in a wide variety of work settings and are skills that employers value.

Recent graduates have pursued careers with the FBI, as Human Resource Specialists, with non-profit organizations, as policy officers, and have earned advanced degrees in Social Work, Sociology, Law, Medicine, and more. The career paths of Sociology alumni are as diverse as our student population -- who represent the best and the brightest from a variety of backgrounds.

In the Department of Sociology you can choose the major in Sociology, the minor in Sociology, or the minor in Criminology, Law and Society (CLS). Whereas the major and minor in Sociology provide an overview into the broader disciplines of Sociology, the minor in CLS is a more specialized approach for those students interested in law and justice related careers and occupations.

Each student should see a Sociology departmental advisor at least once a year to choose sociology courses and to monitor their progress.

## for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology

A Major Plan of Study Form must be completed and submitted to the LAS Student Academic Affairs Office before the end of the fifth semester (60-75 hours). Please see your adviser.

**Departmental distinction:** In order to achieve distinction, high distinction, or highest distinction, a sociology major must meet the following requirements:

- Have completed SOC 490 or SOC 495
- Attain a UIUC GPA of 3.25 or higher
- If both these requirements are met, then the MAJOR GPA distributes as follows:
  - 3.25 – Distinction
  - 3.50 – High Distinction
  - 3.75 – Highest Distinction

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 44 hours including 32 hours of Sociology courses.

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
SOC 100	Introduction to Sociology	4
SOC 200	Introduction to Sociological Theory	3
SOC 280	Intro to Social Statistics <sup>1</sup>	4
SOC 380	Social Research Methods	4
Select one of the following capstone experiences:		3
SOC 400	Internships	
SOC 450	Senior Capstone Seminar	
SOC 495	Senior Honors Seminar	

Students may select any sociology courses to fulfill the requirement of 32 hours in Sociology	14
Supporting course work taken outside the Department of Sociology <sup>2</sup>	12

- <sup>1</sup>      *If a statistics course is taken outside the Department of Sociology to fulfill this requirement, that course does not count toward the 32 hours of Sociology courses.*
- <sup>2</sup>      *Supporting course work is designed to expand the student's education, and should be taken outside of Sociology. A student may take supporting course work from one department, such as psychology, economics, history, or statistics, or from a cohesive selection of courses in various units. With an advisor's approval, departmental or interdisciplinary minors, or a double major, may be used to fulfill the requirements of supporting course work.*

## Learning Outcomes: Sociology, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Sociology

- 
1. Apply sociological theories to understand social phenomena.

2. Critically evaluate explanations of human behavior and social phenomenon.

3. Apply scientific principles to understand the social world.

4. Evaluate the quality of social scientific methods and data.

5. Rigorously analyze social scientific data.

6. Use sociological knowledge to inform policy debates and promote public understanding.

## Undergraduate degree programs in Spanish & Portuguese

Spanish, BALAS (p. 659)

Teaching of Spanish, BA (p. 731)

Portuguese, BALAS (p. 620)

**5 Year BALAS/MA in Spanish and European Union Studies** - In addition to our 4 year BALAS programs, the Department of Spanish and Portuguese with the European Union Center offers a 5-year BALAS /MA degree program in Spanish and the Master of Arts in European Union Studies (MAEUS). In order to be admitted to this degree program, students apply through a joint application process to their BALAS-granting program and the European Union Center during their third year of studies. Requirements for this degree program are identical to those for the stand-alone BALAS and for the stand-alone MAEUS. Students will receive both degrees when the requirements are met for the degrees; the BALAS and MA degrees will be conferred separately and independently. More detailed information may be obtained from department and EUC offices.

for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Spanish

A Major Plan of Study Form must be completed and submitted to the Student Affairs Office before the end of the fourth semester (48-60 hours). Please see your adviser.

**Departmental distinction:** To be considered for departmental distinction, a student must maintain a 3.5 grade point average and fulfill special additional requirements. See the department's honors adviser.

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** equates to 48 hours, including 33 hours in Spanish courses at the 200-level or higher.

**Twelve hours of 300- and 400-level in the major must be taken on this campus.**

**Minimum hours required for graduation:** 120 hours.

Code	Title	Hours
33 hours of SPAN courses <sup>1</sup>		33
SPAN 228	Spanish Composition	
4 to 6 200-level SPAN courses		
4 to 6 300- and/or 400-level SPAN courses		
Supporting course work, a minor, or a second major in an area of study chosen by the student and approved by the advisor. <sup>2</sup>		15-21
Total Hours		48-54

<sup>1</sup> With permission of the adviser, students will be able to take up to two SPAN courses that are taught in a language other than Spanish. Or up to two 200-level SPAN courses can be substituted with any of the following: BASQ 401 and BASQ 402, CATL 401 and CATL 402, PORT 401 and PORT 402, and LAST 445. These courses do not count for advanced hours and do not substitute for SPAN 228.

<sup>2</sup> A minor generally consists of 16-21 hours.

## Learning Outcomes: Spanish, BALAS

Learning Outcomes for the degree of Bachelor of Arts in Liberal Arts & Sciences Major in Spanish

**1. Intellectual Reasoning and Knowledge**

- Definition: Students of Spanish will acquire and apply broad and deep knowledge about the Spanish language and the cultures of the Spanish-speaking world.

**2. Translingual competence**

- Definition: Students of Spanish will understand and analyze the nature of the Spanish language, “languages” in general, the social nature of languages and demonstrate intercultural communicative competence.

**3. Transcultural competence**

- Definition: Through critical reflection, students of Spanish will understand and analyze the products, practices and perspectives of their own culture, cultures of the Spanish-speaking world and the nature of “culture” itself.

**4. Communicative Competence in Spanish**

- Definition: In reading, writing, listening comprehension and speaking, students will acquire advanced proficiency in Spanish as described by the standards set by the American Council on the Teaching of Foreign Languages (ACTFL).

## Curriculum Preparatory for Learning and Behavior Specialist I in Special Education

This program is designed to prepare special education teachers for students ages 3-21. An applicant must have a cumulative grade point average of at least 2.5 (A = 4.0), a minimum of 50 hours of prior experience with individuals with disabilities<sup>1</sup>, and sophomore or higher standing upon enrollment in the program. A minimum of 125<sup>2</sup> semester hours of credit is required for graduation. To proceed to the five semester professional education sequence, students must have completed all degree requirements outside of the professional education coursework.

Students pursuing teacher licensure programs in the College of Education (COE) must meet requirements in a series of sequential gateways. Included in the gateway requirements are successful completion of specified coursework, achievement of appropriate grade point averages, requirements for clinical experiences, and appropriate tests for the licensure area. Meeting all Gateway requirements leads to degree and licensure completion.

In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign, cumulative, content area, and professional education grade-point averages of 2.5 (A = 4.0). Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages. For teacher education licensure requirements applicable to all curricula, see the Council on Teacher Education. (<http://www.cote.illinois.edu/>)

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

<b>Professional Education Requirements</b>		
EDUC 201 & EDUC 202	Identity and Difference in Education and Social Justice, School and Society (or program-approved equivalent courses)	6
Select one of the following:		3
PSYC 216	Child Psych	
EPSY 201	Educational Psychology	
HDFS 105	Intro to Human Development	
or other approved course		
SHS 320	Development of Spoken Language	3
EDPR 250	School & Community Experiences (LBS)	4
EDPR 420	School Access & Supports (LBE)	6
EDPR 420	School Access & Supports (LBS)	6
EDPR 420	School Access & Supports (LBT)	6
CI 431	Teaching Elementary Mathematics	4
CI 475	Teaching Elementary Reading and Language Arts I	4
<b>Special Education Core Requirements</b>		
SPED 317	Characteristics & Eligibility	3
SPED 424	Foundations of Assessment	3
SPED 426	Collaboration and Teaming	3
SPED 431	Assistive Technology and Physical Disabilities	2
SPED 438	Collaborating with Families	3
SPED 440	Instructional Strategies I	4
SPED 441	Instructional Strategies II	4
SPED 444	Career Development and Transition	3
SPED 446	Curriculum Development I	4
SPED 447	Curriculum Development II	4
SPED 448	Curriculum Development III	4
SPED 461	Alternative and Augmentative Communication and Literacy	3
SPED 470	Learning Environments I	3
SPED 471	Learning Environments II	3
Total Hours		125

TOTAL minimum hours include general education and professional education credits.<sup>4</sup>

<sup>1</sup> Applicants may contact the Department of Special Education for further information on the prior experience requirement.

<sup>2</sup> Six hours of ROTC upper level courses (300 level or above) can count toward the degree as free electives.

<sup>3</sup> General Education Requirement: Courses must be selected from the Campus General Education Approved Course List.

<sup>4</sup> The total hours required for the degree may be higher for students who do not complete the language other than English requirement in high school.

## Learning Outcomes: Special Education, BS

Learning Outcomes for the degree of Bachelor of Science Major in Special Education

1. Students will develop a deep understanding of central concepts, tools of inquiry and structures of the discipline of special education and of the content they teach.

2. Students will apply multiple methods of assessment to generate data for use in monitoring learner progress and guiding teacher decision-making.
3. Students will demonstrate consistently in their practice a commitment to fairness, collaboration, professionalism, and the belief that all students can learn.

# Speech & Hearing Science, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science

**department website:** <http://shs.illinois.edu/>

**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)

**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>

**college website:** <http://www.ahs.illinois.edu/>

Students pursuing this major must select one of these concentrations:

- Audiology (p. 664)
- Cultural-Linguistic Diversity (p. 666)
- Neuroscience of Communication (p. 669)
- Speech-Language Pathology (p. 671)

## Summary of Degree Requirements

Code	Title	Hours
General Education		40-54
Speech and Hearing Science Core		28
Area of Concentration (and Correlate, if required by concentration)		19
Electives		27-41
Total Hours		128

## Speech & Hearing Science: Audiology, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Audiology Concentration

**department website:** <http://shs.illinois.edu/>

**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)

**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>

**college website:** <http://www.ahs.illinois.edu/>

The **Audiology** concentration provides explicit background in the theoretical and clinical areas necessary for graduate study. Students will learn foundational knowledge for understanding human speech, language, swallowing, hearing, and balance processes, with a particular eye toward the implications of differences and disruptions in the communication systems associated with disorders. Although students across any of the concentrations can pursue the graduate study and pre-certification requirements associated with becoming an audiologist or speech-language pathologist, the audiology concentration is the most directly connected to clinical practice in audiology.

More information about the fields of speech-language pathology and audiology may be found on the American Speech-Language Hearing Association's web site: <http://www.asha.org>.

for the degree of Bachelor of Science Major in Speech & Hearing Science, Audiology Concentration

**General Education: Students are advised to select their General Education course requirements from the University's approved list of courses (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) and to work in close consultation with their academic advisor to ensure graduation requirements are addressed.**

Code	Title	Hours
<b>Communication Skills</b>		
Composition I		
RHET 105	Writing and Research	4-6
or CMN 111	Oral & Written Comm I	
& CMN 112	and Oral & Written Comm II	
Advanced Composition		3
One course in Advanced Writing/Composition II from university approved Gen Ed list.		
<b>Quantitative Reasoning I</b>		<b>3</b>

Choose one of the following:

STAT 100	Statistics
STAT 107	Data Science Discovery
STAT 200	Statistical Analysis
STAT 212	Biostatistics

### **Quantitative Reasoning II** **3**

One course from the university approved Gen Ed list.

### **Humanities and the Arts** **6**

Minimum of two courses from university approved Gen Ed list.

### **Social and Behavioral Sciences** **6**

Minimum of two courses from university approved Gen Ed list.

### **Natural Sciences and Technology** **6**

Choose one from the following and one from the university approved Gen Ed list.

CHEM 101	Introductory Chemistry
CHEM 102 & CHEM 103	General Chemistry I and General Chemistry Lab I
CHEM 104 & CHEM 105	General Chemistry II and General Chemistry Lab II
CHEM 108	Chemistry, Everyday Phenomena
CHEM 202 & CHEM 203	Accelerated Chemistry I and Accelerated Chemistry Lab I
CHEM 204 & CHEM 205	Accelerated Chemistry II and Accelerated Chemistry Lab II
PHYS 101	College Physics: Mech & Heat
PHYS 102	College Physics: E&M & Modern
PHYS 123	Physics Made Easy
PHYS 140	How Things Work
PHYS 150	Physics of Societal Issues
PHYS 211	University Physics: Mechanics
PHYS 212	University Physics: Elec & Mag
PHYS 213	Univ Physics: Thermal Physics
PHYS 214	Univ Physics: Quantum Physics

### **Cultural Studies** **9**

One course from Western Cultures university approved Gen Ed list.

One course from Non-Western Cultures university approved Gen Ed list.

One course from U.S. Minority Cultures university approved Gen Ed list.

### **Foreign Language** **0-12**

May be satisfied if had three years of one non-English language in high school or completed the equivalent of three semesters of college level foreign language (through the intermediate level).

Total Hours 40-54

## **Speech and Hearing Science Professional Core Requirements**

All students must complete a series of SHS core classes regardless of their area of concentration. Students are advised to work with the undergraduate academic advisor to ensure courses are taken in proper sequential order. One area of concentration (Speech-Language Pathology, Audiology, Neuroscience of Communication, or Cultural-Linguistic Diversity) must be declared prior to the senior year.

<b>Code</b>	<b>Title</b>	<b>Hours</b>
SHS 170	Intro Hum Comm Sys & Disorders	3
SHS 191	Freshmen Seminar	1
SHS 200	General Phonetics	3
SHS 240	Intro Sound & Hearing Science	3
SHS 300	Anat & Physiol Spch Mechanism	4
or LING 300	Anat & Physiol Spch Mechanism	
SHS 301	General Speech Science	4

or LING 303	General Speech Science	
SHS 320	Development of Spoken Language	3
SHS 385	Evidence-Based Practice in Communication Sciences and Disorders	3
SHS 450	Intro Audiol & Hear Disorders	4
General Education Hours		40-54
Professional Core Hours		28
Concentration Hours		19
Electives		27-41
Total Hours		128

## Electives

All students are encouraged to take electives in and outside the department that will count towards the 128 required hours for graduation (the total number of electives students may take may vary with each individual). Students are encouraged to select electives that will complement their areas of interest and future goals. Areas listed below are only a sampling of possibilities; they are not to be considered as requirements and students are not limited to these choices. All students are responsible for addressing course pre-requisites and course availability may vary.

Relevant areas include: Anthropology (ANTH), Communications (CMN), Kinesiology and Community Health (KIN, CHLH), Educational Organization and Leadership (EOL), Curriculum & Instruction (CI), Educational Policy Studies (EPS), Educational Psychology (EPSY), English (ENGL), English as a Second Language (ESL), Gender and Women's Studies (GWS), Human Development and Family Studies (HDFS), Library and Information Science (LIS), Linguistics (LING), Psychology (PSYC), Recreation, Sport, & Tourism (RST), Rehabilitation Counseling (REHB), Special Education (SPED), Sociology (SOC), Social Work (SOCW). Additional areas to explore may include: courses in a foreign language beyond the completion of the University's requirement, as well as additional courses in science, such as Biology (IB, MCB), Physics (PHYS), microcomputer applications (e.g. ACE), and courses in cultural studies.

## Audiology Concentration

Code	Title	Hours
SHS 271	Communication and Aging	3
SHS 280	Communication Neuroscience	3
SHS 352	Hearing Health and Society	3
SHS 451	Aural Rehab Children to Adults (requires senior standing and completion of core classes)	3
SHS 475	Prepracticum in SHS (requires senior standing and completion of core classes)	1
Students must also take 6 hours from the following specified electives:		6
SHS 222	Language & Culture of Deaf Communities	
SHS 270	Comm Disability in the Media	
SHS 291	Research Lab Experience in SHS (Approved for S/U grading only. Must be arranged with individual faculty member.) <sup>1</sup>	
SHS 333	Children with Neurodevelopmental Disorders Across Communication Contexts	
SHS 375	Comm Partners & Health	
SHS 390	Individual Study <sup>1</sup>	
SHS 395	Honors Individual Study <sup>1</sup>	
SHS 473	Augmentative & Alt Comm (Requires senior standing and completion of core classes)	

**NOTE: For those planning on pursuing graduate studies in Speech-Language Pathology or Audiology, many graduate programs require 25 clinical observation hours. These should be completed and recorded prior to graduation (some may be completed prior to serving as a clinical participant in the required SHS 475 pre-practicum).**

Total Hours	19
-------------	----

<sup>1</sup> No more than 3 credits from SHS 291, SHS 390 and SHS 395 may be counted toward the 6 credits of specified electives.

# Speech & Hearing Science: Cultural-Linguistic Diversity, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Cultural-Linguistic Diversity Concentration

**department website:** <http://shs.illinois.edu/>

**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)

**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>

**college website:** <http://www.ahs.illinois.edu/>

The **Cultural-Linguistic Diversity** concentration is designed to examine ways that individual communication differences, including disorders, interface with sociocultural systems, institutions, and practices. Students will take courses in theory and research methods to explore ways in which sociolinguistic differences shape child development, socialization, and identity. This concentration is intended to help provide students with knowledge related to cultural-linguistic differences (race, ethnicity, socio-economic status, neurodiversity) that is needed to serve an increasingly global society concerned with human rights and responsibilities. Such expertise is expected to enhance multiple career paths in education, law, business, and health-related fields. In addition, undergraduates interested in pursuing careers as an audiologist or speech-language pathologist can combine this concentration with pre-certification requirements.

More information about the fields of speech-language pathology and audiology may be found on the American Speech-Language Hearing Association's web site: <http://www.asha.org>.

*for the degree of Bachelor of Science Major in Speech & Hearing Science, Cultural-Linguistic Diversity Concentration*

**General Education: Students are advised to select their General Education course requirements from the University's approved list of courses (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) and to work in close consultation with their academic advisor to ensure graduation requirements are addressed.**

<sup>1</sup> No more than 3 credits from SHS 291, SHS 390 and SHS 395 may be counted toward the 7 credits of specified electives.

## Speech & Hearing Science: Neuroscience of Communication, BS

for the degree of Bachelor of Science Major in Speech & Hearing Science, Neuroscience of Communication Concentration

**department website:** <http://shs.illinois.edu/>

**department faculty:** <https://ahs.illinois.edu/shs-directory> (<https://ahs.illinois.edu/shs-directory/>)

**college catalog page:** <http://catalog.illinois.edu/schools/ahs/academic-units/>

**college website:** <http://www.ahs.illinois.edu/>

The **Neuroscience of Communication** concentration provides an interdisciplinary understanding of the neurological systems that underlie human communication. Students will study the biological basis of communication in order to understand brain-behavior correlates of typical and disordered speech, language, and hearing function. In addition, students will benefit from faculty research that utilizes innovative technologies to study the structure and function of the sensory-motor systems that underlie human communication abilities. This concentration is intended to help prepare students for health and science-related careers, including medicine and neuroscience. In addition, undergraduates interested in pursuing careers as an audiologist or speech-language pathologist can combine this concentration with pre-certification requirements.

More information about the fields of speech-language pathology and audiology may be found on the American Speech-Language Hearing Association's web site: <http://www.asha.org>.

General Education Hours		40-54
Professional Core Hours		28
Concentration Hours		19
Electives		27-41
Total Hours		128

## Electives

All students are encouraged to take electives in and outside the department that will count towards the 128 required hours for graduation (the total number of electives students may take may vary with each individual). Students are encouraged to select electives that will complement their areas of interest and future goals. Areas listed below are only a sampling of possibilities; they are not to be considered as requirements and students are not limited to these choices. All students are responsible for addressing course pre-requisites and course availability may vary.

Relevant areas include: Anthropology (ANTH), Communications (CMN), Kinesiology and Community Health (KIN, CHLH), Educational Organization and Leadership (EOL), Curriculum & Instruction (CI), Educational Policy Studies (EPS), Educational Psychology (EPSY), English (ENGL), English as a Second Language (ESL), Gender and Women's Studies (GWS), Human Development and Family Studies (HDFS), Library and Information Science (LIS), Linguistics (LING), Psychology (PSYC), Recreation, Sport, & Tourism (RST), Rehabilitation Counseling (REHB), Special Education (SPED), Sociology (SOC), Social Work (SOCW). Additional areas to explore may include: courses in a foreign language beyond the completion of the University's requirement, as well as additional courses in science, such as Biology (IB, MCB), Physics (PHYS), microcomputer applications (e.g. ACE), and courses in cultural studies.

## Speech-Language Pathology Concentration

Code	Title	Hours
SHS 280	Communication Neuroscience	3
SHS 380	Comm Competence and Disorders	3

SHS 451	Aural Rehab Children to Adults	3
SHS 473	Augmentative & Alt Comm	3
SHS 475	Prepracticum in SHS (Requires senior standing and completion of core classes. Offered Fall and Spring.)	1
Students must also take 6 hours from the following specific electives:		6
SHS 271	Communication and Aging	
SHS 291	Research Lab Experience in SHS (Approved for S/U grading only. Must be arranged with individual faculty member.) <sup>1</sup>	
SHS 333	Children with Neurodevelopmental Disorders Across Communication Contexts	
SHS 375	Comm Partners & Health	
SHS 390	Individual Study <sup>1</sup>	
SHS 395	Honors Individual Study <sup>1</sup>	
SHS 410	Stuttering: Theory & Practice (Requires senior standing in the SHS program or instructor consent)	
SHS 430	Devel & Disorders Phonol Artic	
SHS 431	Lang Disorders Preschool Child (requires senior standing in the SHS program or instructor consent)	
Total Hours		19

<sup>1</sup> No more than 3 credits from SHS 291, SHS 390 and SHS 395 may be counted toward the 6 credits of specified electives.

## Learning Outcomes: Speech & Hearing Science, BS

Learning outcomes for the degree of Bachelor of Science Major in Speech & Hearing Science

1. Students will describe basic speech, language, and hearing processes across the lifespan from the biological, behavioral, and social science perspectives.
2. Students will apply knowledge of how disruptions in speech, language, and hearing processes relate to human communication functioning and disability.
3. Students will demonstrate the ability to read and evaluate literature related to human communication processes across academic disciplines.
4. Students will apply knowledge of cultural-linguistic diversity to inform discussions about human communication functioning and disability.

# Statistics, BSLAS

## for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Statistics

**department website:** <https://stat.illinois.edu/>

**department faculty:** Statistics Faculty (<https://stat.illinois.edu/directory/faculty/>)

**advising:** Statistics advising (<https://stat.illinois.edu/academics/advising/>)

**email:** [stat-office@illinois.edu](mailto:stat-office@illinois.edu)

Statistics is the science of modeling, summarizing, and analyzing data, and of using mathematics and computing tools to make predictions and decisions in the face of uncertainty. Statistical ideas are applicable in any area involving quantitative measurement and in almost every area of scholarly pursuit. The major, administered by the Department of Statistics, is designed to provide students with an understanding of the concepts of statistical inference and a familiarity with the methods of applied statistical analysis. A major in statistics will prepare students for a career in business, industry, or government, and for further graduate study in statistics or in a related area.

**Departmental distinction:** To graduate with distinction requires a specified minimum grade point average in all Computer Science, Statistics, and Mathematics courses listed below. A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction.

**General education:** Students must complete the Campus General Education requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Normally equates to 70-72 hours.

Twelve hours of 300- and 400-level in the major must be taken on this campus.

**Minimum hours required for graduation:** 120 hours.

## Learning Outcomes: Statistics, BSLAS

Learning Outcomes for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Statistics

---

Statistics students will:

1. Be able to apply mathematical and statistical reasoning to draw valid conclusions from data;
2. Communicate the results of a statistical analysis effectively in writing, through visualizations, and orally;
3. Be competent in the use of statistical software, in data management, and in writing statistical code;
4. Be adept in the use of modern methods of statistical computing, statistical learning, and data science;
5. Work effectively as part of a team.

This major is sponsored jointly by the Departments of Statistics and Computer Science. The Statistics and Computer Science major is designed for students who would like a strong foundation in computer science, coupled with significant advanced coursework in statistics. The major prepares students for professional or graduate work in statistics and computer science, and for applications of computing in which knowledge of statistics is particularly important, such as data mining and machine learning.

# Strategic Business Development & Entrepreneurship, BS

for the degree of Bachelor of Science Major in Strategic Business Development and Entrepreneurship

**overview of college admissions & requirements:** Gies Catalog (<http://catalog.illinois.edu/schools/gies-business/academic-units/>)  
**college website:** <https://giesbusiness.illinois.edu/> (<https://business.illinois.edu/>)

The Strategic Business Development and Entrepreneurship major examines how business opportunities are identified and exploited for society through existing and new organizations. Students will learn to generate and evaluate ideas, develop those ideas into products and services, assemble resources, mitigate risks, and lead organizations that meet human needs. The degree prepares students to work within existing organizations as well as to create new organizations, both for-profit and not-for-profit.

In addition to the SBDE Major requirements, students must also fulfill the University's General Education requirements and the Gies College of Business Core Courses requirements (for more detail, refer to the Gies College of Business Undergraduate Section).

for the degree of Bachelor of Science Major in Strategic Business Development and Entrepreneurship

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
Composition I: Principles of Composition <sup>1</sup>		4-7
Advanced Composition		3

## General Education Requirements

Code	Title	Hours
A minimum of six courses is required, as follows:		18
Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>		
Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>		
Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>		
Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>		
Behavioral Sciences (1 course)		
Cultural Studies: Non-Western Cultures (1 course)		
Cultural Studies: U.S. Minorities Cultures (1 course)		
Cultural Studies: Western/Comparative Cultures (1 course)		
Quantitative Reasoning (2 courses) <sup>7</sup>		

## Language Other Than English

Code	Title	Hours
Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.		0-15

## Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6
BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6

BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3

BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

- <sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- <sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- <sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- <sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- <sup>6</sup> This course includes limited voluntary participation as a subject in experiments.
- <sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

## Studio Art, BASA

*for the degree of Bachelor of Arts in Studio Art Major in Studio Art*

**school office:** 143 Art and Design Building, Champaign, IL 61820

**contact:** Mark Avery, Coordinator of Undergraduate Academic Affairs

**email:** [mavery@illinois.edu](mailto:mavery@illinois.edu)

**phone:** (217) 333-6632

**department website:** S (<https://art.illinois.edu>)chool of Art & Design (<https://art.illinois.edu/>)

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of seven concentrations:

- General Studio Art Concentration (p. 683)
- Fashion Concentration (p. 681)
- New Media Concentration (p. 685)
- Painting Concentration (p. 686)
- Photography Concentration (p. 688)
- Printmaking Concentration (<http://catalog.illinois.edu/undergraduate/faa/academic-units/school-art-design/studioart/ba/printmakingconcentration/>)
- Sculpture Concentration (p. 691)

The Bachelor of Arts in Studio Art (with concentrations) focuses on the study of art, design, and art history in the context of a broader program of general study offered by the diverse research and teaching activities across the University of Illinois, Urbana/Champaign campus. It differs from the Bachelor of Fine Arts in that it offers students rigorous education in studio art while permitting them time to pursue studies in other areas, with a significant part of the educational experience occurring in areas outside the studio. Students choose from courses that will lead to concentrations in Fashion, Painting, Photography, Sculpture, Printmaking, New Media, or (general) Studio Art. These options permit students to experience a broad range of media practices or to focus on media-specific credits. Concentrations will be noted on the student's degree, indicating a level of expertise in a particular sub-discipline that will be useful in the pursuit of advanced study or in employment opportunities where particular material skills are needed.

Foundation courses for the BA in Studio Art introduce basic materials and conceptual approaches to making art, using traditional media including drawing and painting, printmaking, clay, plaster, wood and metal, to code, digital imaging, interactive media, and time-based applications. By incorporating new and traditional strategies and technologies students will understand visual organization and communication in 2D (artworks in two dimensions, such as drawing, painting or printmaking), 3D (artworks in three dimensions, such as sculpture and installation), and 4D (artworks of a time-based nature, such as coding, video, sound and performance).

The advanced BA Studio Art student can look forward to a changing menu of courses on a variety of topics, taught by a diverse faculty with expertise in a wide variety of conceptual, material and technical strategies for making art. The BA Studio Art's curriculum offerings are designed to reflect an increasingly dynamic culture and provide students with experiences and skills that promote adaptability after graduation.

BA Studio Art students are provided with individual studio spaces housed in a communal studio building, where they pursue a self-selected studio practice. The communal studio configuration provides the geography for a strong, vibrant community of student-artists working together as they establish their focus and participate in exhibitions, performances, and critiques.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

## Studio Art: Fashion, BASA

*for the degree of Bachelor of Arts in Studio Art Major in Studio Art, Fashion Concentration*

**contact: Mark Avery**  
**office: 140 Art and Design Building, Champaign, IL 61820**  
**email: mavery@illinois.edu**  
**phone: (217) 333-6632**

**school catalog page:** Art & Design (<http://catalog.illinois.edu/faa/>)  
**school website:** School of Art & Design (<https://art.illinois.edu/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)  
**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

Students in the BASA and BFASA who choose a concentration in Fashion will focus on developing their own unique apparel design process with an emphasis on sustainable practices while becoming familiar with the various aspects of the fashion industry from concept to consumer. Students will be introduced to various modes of research and ideation, gaining the tools to be able to effectively communicate and produce their two- and three-dimensional designs within the context of the history of fashion and the theoretical underpinnings that drive fashion and contemporary culture.

Introductory courses in Fashion give students an overview of the industry from customer development, design and production through manufacturing, promotion and sales. Students are introduced to the fundamentals of textiles and clothing design, and the basics of creating a fashion collection through the use of hand and digital illustration techniques. Further courses focus on the exploration of experimental design, patternmaking, and sewing skills while encouraging the development of the designer's personal creative vision within the context of fashion history and the consumer market. Additional courses bring a greater understanding of how to enact knowledge gained in an educational setting within the fashion industry, through sustainable fashion collection development and branding. Students are given the unique opportunity to showcase their constructed ensembles and mini-collections on the runway in the Re-Fashioned fashion show presented each spring. We offer experiences in a variety of classrooms designed to support explorations in bringing two-dimensional materials to three-dimensional forms, access to computer labs, digital output technologies including 3D printers, sewing and embroidery machines, and dress forms.

*for the degree of Bachelor of Arts in Studio Art Major in Studio Art, Fashion Concentration*

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

Students in the BASA and BFASA who choose a Photography concentration will focus on creating works of art that use photographic imagery. Faculty in the Photography program are committed to continually redefining fine art photography in an expansive and openly creative way. The ability to understand and employ photography's unique narrative potential is emphasized alongside technical considerations. Our classes provide a balance of practice and theory, which assures the understanding and appreciation of both the interdependence and integration of creativity, production, and research.

Our photography faculty has international exhibition records and work in numerous museum and private collections. Their photographs, installations, books, films, and videos have won critical acclaim in the form of national reviews and grants ranging from the National Endowment for the Arts to the Illinois Arts Council. Faculty members have lectured on their work throughout the United States and abroad.

Collectively the faculty has a wide range of skills, and they use them to teach fine black and white printing, studio lighting, color photography, digital photography, video, installation art, the history of photography, and critical theory. Graduates of our program apply their knowledge in a variety of ways, as fine artists, commercial photographers, designers, gallery and museum professionals, or any field that requires visual literacy and creative thinking.

## Learning Outcomes: Studio Art, BASA

Learning outcomes for the Bachelor of Arts Major in Studio Art

1. Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.
2. Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.
3. Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.
4. Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and

to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

5. Students concentrating in New Media create work for the new disciplinary mechanisms that have arisen to evaluate and promote artwork in digital media, but also for traditional institutional mechanisms of art distribution and art critique. As in Contemporary Art, work in New Media may take the form of performance, sound and radio broadcast, gallery exhibition, curation, public art, cinema and video, a networked event, publication, or even scientific research.
6. Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace. Students in the BASA will produce web and print based documents that serve to market and promote their practice as independent makers.

## Studio Art, BFASA

*for the degree of Bachelor of Fine Arts in Studio Art Major in Studio Art*

**school office:** 143 Art and Design Building, Champaign, IL 61820

**department faculty:** Art & Design Faculty (<https://art.illinois.edu/index.php/people/faculty-staff/>)

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

Students pursuing this major select one of seven concentrations:

- General Studio Art Concentration (p. 696)
- Fashion Concentration (p. 694)
- New Media Concentration (p. 698)
- Painting Concentration (p. 700)
- Photography Concentration (p. 702)
- Printmaking Concentration (p. 704)
- Sculpture Concentration (p. 706)

The Bachelor of Fine Arts in Studio Art (BFASA) at the University of Illinois offers students unprecedented flexibility in determining their own courses and topics of study, engaging in a diverse, innovative curriculum. In response to a rapidly changing world in which artists and designers are constantly presented with new tools, platforms, topics, strategies and venues for exhibition, publication, performance and other types of cultural work, the BFASA prepares students for the workplaces of the future. The BFASA is designed to equip graduates with the skills necessary to not only create artwork, but to communicate, think critically and creatively, and gain experience in a broad range of topics that will prepare them as innovative artists and as global citizens. Students will navigate a dynamic curriculum that is responsive to current trends in art, culture and creativity. It encourages new, interdisciplinary initiatives and fosters collaboration and research at the undergraduate level within the context of a premier research university.

The BFASA at Illinois begins with basic material and technological tools and concepts in a variety of studio courses. Students are guided in the understanding of visual organization and communication in two, three, and four dimensions by utilizing both new and traditional technologies and strategies. Foundation courses introduce basic material and conceptual approaches to making art, using media from traditional disciplines including drawing and painting, printmaking, clay, plaster, wood and metal, to code, digital imaging, interactive media, and time-based applications.

At the intermediate and advanced levels, curriculum offerings are designed to reflect an increasingly dynamic culture, and to provide students with experiences and skills that will enhance their adaptability. A changing menu of courses on a variety of topics is taught by a faculty with expertise in a wide variety of conceptual, material and technical strategies for making art.

BFASA students are provided individual studio spaces, where they develop a self-directed practice, housed in a communal studio building. The studio configuration provides the stage for a strong, vibrant community of student-artists working together as they establish their interests and participate in exhibitions, performances, and critiques.

The capstone experience is the BFASA Thesis course, in which students develop an individually determined body of work based on their entire educational experience. A portfolio and written thesis paper will demonstrate their conceptual, technical and expressive abilities.

Our graduates will enter professional lives as artists at a time when the boundaries between art and other fields are vanishing. Creative individuals with broad and versatile material, technical and intellectual skills will be in demand within expanding diverse practices that comprise contemporary art and society.

Students in the School of Art and Design must complete the Campus General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>). Some Art and Design courses will also apply toward the General Education requirements (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

A portfolio review is required for admission to the School of Art and Design.

---

Students in the BASA and BFASA who choose a concentration in Fashion will focus on developing their own unique apparel design process with an emphasis on sustainable practices while becoming familiar with the various aspects of the fashion industry from concept to consumer. Students will be introduced to various modes of research and ideation, gaining the tools to be able to effectively communicate and produce their two- and three-dimensional designs within the context of the history of fashion and the theoretical underpinnings that drive fashion and contemporary culture.

Introductory courses in Fashion give students an overview of the industry from customer development, design and production through manufacturing, promotion and sales. Students are introduced to the fundamentals of textiles and clothing design, and the basics of creating a fashion collection through the use of hand and digital illustration techniques. Further courses focus on the exploration of experimental design, patternmaking, and sewing skills while encouraging the development of the designer's personal creative vision within the context of fashion history and the consumer market. Additional courses bring a greater understanding of how to enact knowledge gained in an educational setting within the fashion industry, through sustainable fashion collection development and branding. Students are given the unique opportunity to showcase their constructed ensembles and mini-collections on the runway in the Re-Fashioned fashion show presented each spring. We offer experiences in a variety of classrooms designed to support explorations in bringing two-dimensional materials to three-dimensional forms, access to computer labs, digital output technologies including 3D printers, sewing and embroidery machines, and dress forms.

**overview of college admissions & requirements:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** Fine & Applied Arts (<https://faa.illinois.edu/>)

Students in the BASA and BFASA who choose a Photography concentration will focus on creating works of art that use photographic imagery. Faculty in the Photography program are committed to continually redefining fine art photography in an expansive and openly creative way. The ability to understand and employ photography's unique narrative potential is emphasized alongside technical considerations. Our classes provide a balance of practice and theory, which assures the understanding and appreciation of both the interdependence and integration of creativity, production, and research.

Our photography faculty has international exhibition records and work in numerous museum and private collections. Their photographs, installations, books, films, and videos have won critical acclaim in the form of national reviews and grants ranging from the National Endowment for the Arts to the Illinois Arts Council. Faculty members have lectured on their work throughout the United States and abroad.

Collectively the faculty has a wide range of skills, and they use them to teach fine black and white printing, studio lighting, color photography, digital photography, video, installation art, the history of photography, and critical theory. Graduates of our program apply their knowledge in a variety of ways, as fine artists, commercial photographers, designers, gallery and museum professionals, or any field that requires visual literacy and creative thinking.

for the degree of Bachelor of Fine Arts in Studio Art Major in Studio Art, Photography Concentration

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

*for the degree of Bachelor of Fine Arts in Studio Art Major in Studio Art, Sculpture Concentration*

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

Students majoring in this degree program must complete the First Year Curriculum requirements before beginning other major requirements.

## First Year Curriculum

<sup>1</sup> May be repeated to a maximum of 6 hours.

## Learning Outcomes: Studio Art, BFASA

Learning outcomes for the Bachelor of Fine Arts Major in Studio Art

1. Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.
2. Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.
3. Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.
4. Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.
5. Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.
6. Students concentrating in New Media create work for the new disciplinary mechanisms that have arisen to evaluate and promote artwork in digital media, but also for traditional institutional mechanisms of art distribution and art critique. As in Contemporary Art, work in New Media may take the form of performance, sound and radio broadcast, gallery exhibition, curation, public art, cinema and video, a networked event, publication, or even scientific research.
7. Junior and Senior years see students working with critics/professors across the School to develop a portfolio of works in time-based, interactive, physical, networked or performative media. In the process of generating a body of work around a subject and form of their choice, students receive instruction in technical execution, formal composition, and theoretical framing.
8. While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres – artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.
9. Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

# Supply Chain Management, BS

*for the degree of Bachelor of Science Major in Supply Chain Management*

**overview of college admissions & requirements:** Gies Catalog (p. 2096)

**college website:** Gies College of Business (<https://giesbusiness.illinois.edu/>)

The Supply Chain Management student studies the flow of finances, information and materials starting from supply chain planning to the sourcing of raw material, parts and components through the manufacturing or processing sector to the marketing and delivery of end products for industrial customers or individual consumers. The Supply Chain Management Major is available only to qualified students based upon application and personal interviews. For more information, contact the Director of the Supply Chain Management Program.

*for the degree of Bachelor of Science Major in Supply Chain Management*

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course must be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French-no credit below FR 102.

Credit toward the 124 degree hours is not given for MATH 101. Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

**Minimum hours required for graduation: 124 hours.**

## University Composition Requirements

Code	Title	Hours
Composition I: Principles of Composition <sup>1</sup>		4-7
Advanced Composition		3

## General Education Requirements

Code	Title	Hours
A minimum of six courses is required, as follows:		18
Humanities & the Arts: Literature & the Arts (1-2 courses) <sup>4</sup>		
Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) <sup>4</sup>		
Natural Sciences & Technology: Physical Sciences (0-2 courses) <sup>5</sup>		
Natural Sciences & Technology: Life Sciences (0-2 courses) <sup>5</sup>		
Behavioral Sciences (1 course)		
Cultural Studies: Non-Western Cultures (1 course)		
Cultural Studies: U.S. Minorities Cultures (1 course)		
Cultural Studies: Western/Comparative Cultures (1 course)		
Quantitative Reasoning (2 courses) <sup>7</sup>		

## Language Other Than English

Code	Title	Hours
Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.		0-15

## Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6

BUS 101	Professional Responsibility and Business <sup>2</sup>	3
BUS 201	Business Dynamics	3
BUS 301	Business in Action	3
BUS 401	Global Business Perspectives	3
BADM 210 & BADM 211	Business Analytics I and Business Analytics II	6
BADM 275	Fundamentals of Operations Management	3
BADM 300	The Legal Environment of Bus	3
BADM 310	Mgmt and Organizational Beh <sup>6</sup>	3
BADM 320	Principles of Marketing	3
BADM 449	Business Policy and Strategy	3
CMN 101	Public Speaking	3
CS 105	Intro Computing: Non-Tech	3
ECON 102 & ECON 103	Microeconomic Principles and Macroeconomic Principles	6
FIN 221	Corporate Finance	3
Total Hours		54

- <sup>1</sup> For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- <sup>2</sup> BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- <sup>4</sup> Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- <sup>5</sup> Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- <sup>6</sup> This course includes limited voluntary participation as a subject in experiments.
- <sup>7</sup> CS 105 fulfills a Quantitative Reasoning I requirement.

**Specific Major Requirements: Students are required to complete an approved internship to earn the Bachelor of Science in Supply Chain Management degree.**

Code	Title	Hours
BADM 324	Purchasing and Supply Mgmt (Prerequisite: Credit or current enrollment in BADM 320)	3
BADM 335	Supply Chain Management Basics	3
BADM 336	Modeling the Supply Chain (Prerequisite: BADM 335) <sup>1</sup>	3
BADM 337	Practicum in Supply Chain Mgt	3
BADM 338	Global Supply Chain Management	3
BADM 350	IT for Networked Organizations	3
BADM 375	Operations Strategy	3
BADM 378	Logistics Management	3
Select one of the following:		3
BADM 322	Marketing Research (Prerequisite: BADM 320)	
BADM 327	Marketing to Business and Govt	
BADM 328	Advanced Sales Strategies	
BADM 352	Database Design and Management	
BADM 374	Management Decision Models (Prerequisite: BADM 210)	
BADM 377	Project Management	
BADM 379	Business Process Improvement	
Total Hours		27

- <sup>1</sup> The approved internship must be completed prior to enrollment in BADM 336 and a report on the internship must be submitted.

# Learning Outcomes: Supply Chain Management, BS

Learning Outcomes for the degree of Bachelor of Science Major in Supply Chain Management

---

1. **Disciplinary Competence:** Gain an understanding of the structure of supply chains, the fundamental principles of managing them, and their interactions with other business functions.
2. **Disciplinary Competence and Critical Thinking:** Demonstrate the ability to analyze, model and evaluate different parts of a supply chain through appropriate quantitative and qualitative methods.
3. **Critical Thinking:** Develop an ability to critically evaluate real-world supply-chain problems and apply theory and models to create practically implementable solutions.
4. **Group Work:** Demonstrate the ability to collaborate as an effective team member in varying roles in diverse groups/environments.
5. **Communication:** Develop the ability to effectively and professionally tell a persuasive story through oral and written presentations.

# Sustainable Design, BS

for the Bachelor of Science in Sustainable Design

**Bachelor of Science in Sustainable Design**  
**College of Fine and Applied Arts Office of Undergraduate Affairs**  
**110 Architecture Building**  
**608 East Lorado Taft Drive**

**Faculty Program Administrator:** Dr. Daniel Schneider (ddws@illinois.edu)  
**Program Administrator:** Dr. Nicole Turner (nicturn@illinois.edu)  
**Program Website:** <https://faa.illinois.edu/bachelor-science-sustainable-design/> (<https://faa.illinois.edu/bachelor-science-sustainable-design/>)  
**Program Email:** [sustaindesign@illinois.edu](mailto:sustaindesign@illinois.edu) ([sustaindesign@illinois.edu](mailto:sustaindesign@illinois.edu))  
**College Website:** <https://faa.illinois.edu/>

The major in Sustainable Design offers an innovative, interdisciplinary course of study in design, with a focus on building sustainable communities through the intentional design of environmentally sensitive products, buildings, neighborhoods, landscapes and cities.

The program grounds concrete skills development with opportunities to move between disciplinary barriers, allowing students to prepare for the future in a sustainable world where ideas from many disciplines will be necessary to solve the complex problems of pollution reduction, energy conservation, and biodiversity protection in equitable, healthy, and thriving places.

Required introductory coursework provide a solid grounding in design thinking and skills, coupled with a broad understanding of the role of design in achieving sustainable results across scales. Students will apply their skills and knowledge in a required senior capstone project.

With expertise across disciplines, students in this program will be prepared to work in the public and private sector, or continue preparation in a variety of professional graduate programs such as Architecture, Industrial Design, Landscape Architecture, Urban Design and Urban Planning.

<b>Summary of Credits for Bachelor of Science in Sustainable Design</b>		
	General Education requirements <sup>1</sup>	34
	Language Requirements <sup>2</sup>	0 - 12
	Major Requirements	45
	Major Electives	16
	College or University Electives	25
	<b>Total Hours for Bachelor of Science in Sustainable Design <sup>3</sup></b>	<b>120</b>

<sup>1</sup> **Completion of ARTH 211 and UP 136** (major requirements) meets 6 hours of the general education requirement for Humanities and the Arts (3 hours) and Social and Behavioral Science (3 hours).

<sup>2</sup> **Language Requirements**

This requirement may be satisfied by:

- Successfully completing a third-semester college-level course in a language other than English;
- Successful completion, in high school, of the third year of a language other than English; or
- Demonstrating proficiency at the third semester level in a language proficiency examination approved by the College of Liberal Arts and Sciences and the appropriate department
- Current list of courses approved to satisfy the language requirement. If you enter UIUC without three years of language other than English in high school, you must take a language placement test to determine the courses in which you should enroll

<sup>3</sup> **Advanced Hours Requirement:** A minimum of 40 credits at the 300 or 400 course level are required.

# Systems Engineering & Design, BS

*for the degree of Bachelor of Science in Systems Engineering and Design (formerly General Engineering)*

**department website:** <https://ise.illinois.edu/>

**department faculty:** Industrial & Enterprise Systems Faculty (<https://ise.illinois.edu/directory/faculty.html>)

**overview of college admissions & requirements:** The Grainger College of Engineering (<https://grainger.illinois.edu/admissions/>)

**college website:** <https://grainger.illinois.edu/>

**Current Program Educational Objectives:** <https://ise.illinois.edu/undergraduate/abet> (<https://ise.illinois.edu/undergraduate/abet/>)

Systems Engineering and Design (SED) is a comprehensive, interdisciplinary program emphasizing interactions between parts of a whole. It brings together basic sciences, engineering analysis, and engineering design. The curriculum offers flexibility through a Secondary Field Option, while providing a broad background in engineering as a whole and decision-making that supports overall design. Systems Engineers understand how to coordinate interacting parts of a whole and to evaluate engineering within economic and physical constraints.

Through the Secondary Field Option electives, students can tailor their studies to one's interests and career goals in both technical and nontechnical areas. Secondary field options are of two types: pre-approved and customized. Pre-approved secondary fields have designated titles and a specified list of courses, from which several may be selected. Approval for the substitution of a course for one on the specified list may be requested via a petition form submitted to the department. Customized secondary fields may be created to achieve goals in areas not provided by pre-approved fields. To do this, a suitable title and all the courses must be petitioned for acceptance by the department. Petition approval is based on the merit of the secondary field and the coherence of the courses within it relative to the student's goals.

Pursuit of campus minors, dual degrees, and James Scholar contracts may be integrated with customized secondary field options. Courses taken may be applied to minors, dual degrees, or contracts as well as secondary field options.

## Pre-approved Secondary Fields

- Automotive Engineering
- Bioengineering
- Business Systems Integration and Consulting
- Civil Engineering Structures
- Communications and Computer Systems
- Computer Science
- Construction
- Control Systems
- Digital Prototyping
- Engineering Administration
- Engineering Marketing
- Environmental Quality
- Internet of Things (IOT)
- Manufacturing Engineering
- Nondestructive Testing and Evaluation
- Operations Research
- Quality Control
- Rehabilitation Engineering
- Robotics
- Theoretical and Applied Mechanics

## Customized Secondary Fields

Customized secondary fields differ from pre-approved ones in that no sets of specified courses to choose from have been predefined. For all customized secondary field options, a course list must be constructed and submitted for approval by the department.

The following list contains examples of over fifty titles of customized secondary field options which have been approved. The complete list may be found at the department's secondary field website (<http://ise.illinois.edu/undergraduate-programs/general-engineering-degree/secondary-field-option/>). Additional titles beyond those listed may be proposed.

- A foreign language (several)
- An engineering discipline (several)
- Audio Engineering

- Economics
- Entrepreneurship
- Finance
- Fluid Dynamics
- International Business
- Mathematics
- Pre-Law
- Pre-Med
- Renewable Energy

Design experience and project management are emphasized and integrated across the core with a focus on establishing critical problem-solving skills applied across disciplines, strong communication skills, and the ability to work effectively and get results in a team environment.

The capstone experience for Systems Engineering and Design undergraduates is the Senior Project Course. Students work collaboratively with industry and a team of faculty members on a real-world problem during their final semester. The results are documented in a final written report and a formal presentation at the end of the semester to the company so that the student recommendations may be implemented.

*for the degree of Bachelor of Science in Systems Engineering and Design (formerly General Engineering)*

## Graduation Requirements

**Minimum Technical GPA** (<https://go.grainger.illinois.edu/TechnicalGPA/>): **2.0**

TGPA is required for Engineering and Technical Elective courses and MATH 415. See Technical GPA (<https://go.grainger.illinois.edu/TechnicalGPA/>) to clarify requirements.

**Minimum Overall GPA: 2.0**

**Minimum hours required for graduation: 128 hours**

**General education: Students must complete the** Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) **requirements including the campus general education language requirement. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). Specific Advanced Composition courses required for this degree are listed below.**

MATH 285	Intro Differential Equations	3
MATH 415	Applied Linear Algebra	3
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4
PHYS 213	Univ Physics: Thermal Physics	2
Total Hours		31

## Systems Engineering and Design Technical Core

Code	Title	Hours
CS 101	Intro Computing: Engrg & Sci	3
ECE 110	Introduction to Electronics	3
ECE 211	Analog Circuits & Systems	2
IE 300	Analysis of Data	3
IE 310	Deterministic Models in Optimization	3
SE 101	Engineering Graphics & Design	3
SE 261	Business Side of Engineering	1
SE 310	Design of Structures and Mechanisms	3
SE 311	Engineering Design Analysis	3
SE 312	Instrumentation and Test Lab	1
SE 320	Control Systems	4
SE 424	State Space Design for Control	3
SE 494	Senior Engineering Project I <sup>3</sup>	3
SE 495	Senior Engineering Project II <sup>3</sup>	2
TAM 211	Statics	3
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
TAM 335	Introductory Fluid Mechanics	4
Total Hours		50

## Secondary Field Option Electives

Code	Title	Hours
Secondary field option electives selected from departmentally approved list below or by petition to the department. <sup>4</sup>		12
<b>Automotive Engineering</b>		
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
ECE 431	Electric Machinery	4
ECE 464	Power Electronics	3
ECE 470/AE 482/ME 445	Introduction to Robotics	4
ECE 486	Control Systems	4
ME 320	Heat Transfer	4
ME 360	Signal Processing	3.5
ME 400	Energy Conversion Systems	3 or 4
ME 403	Internal Combustion Engines	3 or 4
ME 460	Industrial Control Systems	4
ME 461	Computer Cntrl of Mech Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 497	Independent Study (May be taken for up to 3 credit hours, based on automotive Engineering project approved by SFO faculty mentor)	0 to 4
TAM 412	Intermediate Dynamics	4
TAM 416	Introduction to Nonlinear Dynamics and Vibrations	4
In addition to completing 12 credit hours from the list of approved courses above, students must complete:		
Dynamics/Controls (select at least one course):		
ECE 470/AE 482/ME 445	Introduction to Robotics	4
ECE 486	Control Systems	4
ME 460	Industrial Control Systems	4
TAM 412	Intermediate Dynamics	4
TAM 416	Introduction to Nonlinear Dynamics and Vibrations	4
Automotive Power Systems (select at least one course):		
ME 400	Energy Conversion Systems	3 or 4

ME 403	Internal Combustion Engines	3 or 4
ECE 431	Electric Machinery	4
ECE 464	Power Electronics	3
<b>Autonomous Systems and Robotics</b>		
CS 225	Data Structures	4
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
ECE 470	Introduction to Robotics	4
ECE 486	Control Systems	4
ECE 490	Introduction to Optimization	3 or 4
ME 351		
ME 461	Computer Cntrl of Mech Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 411	Reliability Engineering	3 or 4
SE 423	Mechatronics	3
<b>Bioengineering</b>		
BIOE 120	Introduction to Bioengineering	1
BIOE 414	Biomedical Instrumentation	3
or ECE 414	Biomedical Instrumentation	
BIOE 415	Biomedical Instrumentation Lab	2
or ECE 415	Biomedical Instrumentation Lab	
BIOE 498	Special Topics	3
BIOP 401	Introduction to Biophysics	3
CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 233	Elementary Organic Chem Lab I	2
IE 340/PSYC 358	Human Factors	4
KIN 355	Biomechanics of Human Movement	3
MCB 150	Molec & Cellular Basis of Life (recommended only if a prerequisite to another listed course)	4
MCB 250	Molecular Genetics (recommended only if a prerequisite to another listed course)	3
MCB 251	Exp Techniqs in Molecular Biol (recommended only if a prerequisite to another listed course)	2
MCB 401	Cellular Physiology	3
MCB 402	Sys & Integrative Physiology	3
MCB 403	Cell & Membrane Physiology Lab	1 or 2
MCB 404	Sys & Integrative Physiol Lab	1 to 2
MCB 450	Introductory Biochemistry	3
SE 400	Engineering Law	3 or 4
<b>Business Systems Integration &amp; Consulting</b>		
Core Requirement:		
SE 400	Engineering Law	3 or 4
Group I (At least one course):		
ACCY 200	Fundamentals of Accounting (A basic accounting course is highly recommended)	3
ACCY 201	Accounting and Accountancy I (A basic accounting course is highly recommended)	3
ACCY 202	Accounting and Accountancy II (A basic accounting course is highly recommended)	3
ADV 150	Introduction to Advertising	3
BADM 310	Mgmt and Organizational Beh	3
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 320	Principles of Marketing	3
BADM 445	Small Business Consulting	4
BADM 446	Entrepreneurship: New Venture Creation	4

BTW 250	Principles Bus Comm	3
BTW 261	Principles Tech Comm	3
FIN 221	Corporate Finance	3
FIN 300	Financial Markets	3
IE 420	Financial Engineering	3 or 4
Group II (At least one course)		
BADM 352	Database Design and Management	3
BADM 353	Info Sys Analysis and Design	3
CS 225	Data Structures	4
All other 200-, 300-, 400-level CS courses		
<b>Civil Engineering Structures</b>		
CEE 380	Geotechnical Engineering	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 462	Steel Structures II	3 or 4
CEE 463	Reinforced Concrete II	3 or 4
CEE 465	Design of Structural Systems	3
SE 400	Engineering Law	3 or 4
<b>Computer Science</b>		
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 410	Text Information Systems	3 or 4
CS 411	Database Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 438	Communication Networks	3 or 4
All other 200-,300-,400-level CS courses		
SE 400	Engineering Law	3 or 4
<b>Construction</b>		
CEE 300	Behavior of Materials (Credit will not be given for CEE 300, ME 330 and MSE 280 (only one course may be taken out of these three))	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 380	Geotechnical Engineering	3
CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning	3 or 4
CEE 422	Construction Cost Analysis	3 or 4
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems	3
ME 330	Engineering Materials (Credit will not be given for CEE 300, ME 330 and MSE 280 (only one course may be taken out of these three))	4
SE 400	Engineering Law	3 or 4
<b>Control Systems</b>		
CS 225	Data Structures	4
ECE 470/AE 482/ME 445	Introduction to Robotics	4
ECE 486	Control Systems	4
ECE 490	Introduction to Optimization	3 or 4
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
MATH 444	Elementary Real Analysis	3 or 4
MATH 461	Probability Theory	3 or 4
MATH 464	Statistics and Probability II	3 or 4
ME 360	Signal Processing	3.5

ME 460	Industrial Control Systems	4
ME 461	Computer Cntrl of Mech Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 420	Digital Control Systems	4
SE 422	Robot Dynamics and Control	4
SE 423	Mechatronics	3
<b>Digital Prototyping</b>		
ME 270	Design for Manufacturability	3
ME 451	Computer-Aided Mfg Systems	3 or 4
ME 452	Num Control of Mfg Processes	3 or 4
ME 471/AE 420/CSE 451	Finite Element Analysis	3 or 4
SE 400	Engineering Law	3 or 4
SE 402	Comp-Aided Product Realization	3 or 4
SE 410	Component Design (SE Design Electives - one course must be taken to fulfill the design elective requirement but additional design electives may then be taken and will count towards this SFO)	3
SE 413	Engineering Design Optimization (SE Design Electives - one course must be taken to fulfill the design elective requirement but additional design electives may then be taken and will count towards this SFO)	3 or 4
SE 423	Mechatronics (SE Design Electives - one course must be taken to fulfill the design elective requirement but additional design electives may then be taken and will count towards this SFO)	3
TAM 302	Engineering Design Principles	3
<b>Engineering Administration</b>		
Core Requirement:		
SE 400	Engineering Law	3 or 4
Elective Options:		
ACCY 200	Fundamentals of Accounting	3
ACCY 201	Accounting and Accountancy I	3
ACCY 202	Accounting and Accountancy II	3
ADV 150	Introduction to Advertising	3
BADM 310	Mgmt and Organizational Beh	3
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 313	Strategic Human Resource Management	3
BADM 375	Operations Strategy	3
BADM 380	International Business	3
BADM 381	Multinational Management	3
BTW 250	Principles Bus Comm	3
BTW 261	Principles Tech Comm	3
ECON 302	Inter Microeconomic Theory	3
FIN 221	Corporate Finance	3
GEOG 205	Business Location Decisions	3
IE 330	Industrial Quality Control	3
IE 340/PSYC 358	Human Factors	4
IE 361	Production Planning & Control	3
IE 420	Financial Engineering	3 or 4
IE 445	Human Performance and Cognition in Context	3 or 4
PS 321	Principles of Public Policy	3
SE 411	Reliability Engineering	3 or 4
<b>Engineering Marketing</b>		
Core Requirement:		
SE 400	Engineering Law	3 or 4

## Elective Options:

ACCY 200	Fundamentals of Accounting	3
ACCY 201	Accounting and Accountancy I	3
ACCY 202	Accounting and Accountancy II	3
ADV 150	Introduction to Advertising	3
BADM 310	Mgmt and Organizational Beh	3
BADM 320	Principles of Marketing	3
BADM 322	Marketing Research	3
BADM 323	Marketing Communications	3
BADM 325	Consumer Behavior	3
BADM 327	Marketing to Business and Govt	3
BADM 380	International Business	3
BADM 382	International Marketing	3
BADM 420	Advanced Marketing Management	3
BTW 250	Principles Bus Comm	3
BTW 261	Principles Tech Comm	3
PSYC 245	Industrial Org Psych	3
<b>Environmental Quality</b>		
ACE 310	Natural Resource Economics	3
CEE 330	Environmental Engineering	3
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 445		
CEE 446	Air Quality Engineering	4
ENVS 336	Tomorrow's Environment	3
ENVS 431	Environ Toxicology & Health	3
IB 105	Environmental Biology	3
NPRE 241	Intro to Radiation Protection	2
NRES 419	Env and Plant Ecosystems	3
NRES 472	Environmental Psychology	4
SE 400	Engineering Law	3 or 4
<b>Internet of Things</b>		
Core Requirements:		
ECE 385	Digital Systems Laboratory	3
SE 423	Mechatronics	3
Elective Options:		
CS 125	Introduction to Computer Science	4
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 233	Computer Architecture	4
CS 241	System Programming	4
ECE 120	Introduction to Computing	4
<b>Manufacturing Engineering</b>		
ME 330	Engineering Materials (Credit will not be given for CEE 300, ME 330 and MSE 280 (only one course may be taken out of these three))	4
SE 400	Engineering Law	3 or 4
SE 423	Mechatronics	3
Other courses from Digital Prototyping and Control Systems SFO		
<b>Nondestructive Testing and Evaluation</b>		

Core Requirement:		
SE 412	Nondestructive Evaluation	3 or 4
Elective Options:		
CEE 300	Behavior of Materials (Credit is not give for CEE 300 and MSE 280)	4
CS 225	Data Structures	4
CS 440	Artificial Intelligence	3 or 4
CS 446	Machine Learning	3 or 4
ECE 470	Introduction to Robotics	4
ECE 473	Fund of Engrg Acoustics	3 or 4
ME 351		
ME 471	Finite Element Analysis	3 or 4
SE 400	Engineering Law	3 or 4
TAM 412	Intermediate Dynamics	4
TAM 456	Experimental Stress Analysis	3
<b>Operations Research</b>		
IE 360	Facilities Planning and Design	3
IE 361	Production Planning & Control	3
MATH 461	Probability Theory	3 or 4
MATH 464	Statistics and Probability II	3 or 4
ME 351		
ME 451	Computer-Aided Mfg Systems	3 or 4
SE 400	Engineering Law	3 or 4
SE 411	Reliability Engineering	3 or 4
<b>Rehabilitation Engineering</b>		
CHEM 232	Elementary Organic Chemistry I	3 or 4
ECE 414	Biomedical Instrumentation	3
ECE 415	Biomedical Instrumentation Lab	2
MCB 150	Molec & Cellular Basis of Life	4
MCB 250	Molecular Genetics	3
MCB 251	Exp Techniqs in Molecular Biol	2
REHB 401	Introduction to Rehabilitation	4
REHB 402	Medical Aspects of Disability	4
SE 400	Engineering Law	3 or 4
<b>Theoretical and Applied Mechanics</b>		
CEE 300	Behavior of Materials (Credit will not be given for CEE 300, ME 330 and MSE 280 (only one course may be taken out of these three))	4
ME 471	Finite Element Analysis	3 or 4
SE 400	Engineering Law	3 or 4
TAM 412	Intermediate Dynamics	4
TAM 424	Mechanics of Structural Metals	3 or 4
TAM 428	Mechanics of Composites	3
TAM 435	Intermediate Fluid Mechanics	4
TAM 445	Continuum Mechanics	4
TAM 451	Intermediate Solid Mechanics	4
TAM 456	Experimental Stress Analysis	3
<b>Technical Electives</b>		
<b>Code</b>	<b>Title</b>	<b>Hours</b>
Design elective selected from the departmentally approved list of Design Electives below:		3
SE 410	Component Design	3
SE 420	Digital Control Systems	4
SE 423	Mechatronics	3

SE 413	Engineering Design Optimization	3 or 4
Engineering science elective selected from the departmentally approved list of Engineering Science Electives below:		3
ME 200	Thermodynamics	3
MSE 280	Engineering Materials	3

## Electives

Code	Title	Hours
The Grainger College of Engineering Liberal Education course list, or additional courses from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts <sup>5</sup>		6
Free electives. Additional unrestricted course work, subject to certain exceptions as noted by the College, so that there are at least 128 credit hours earned toward the degree. <sup>6</sup>		6
<b>Total Hours of Curriculum to Graduate</b>		<b>128</b>

- <sup>1</sup> External transfer students take ENG 300 instead.
- <sup>2</sup> MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- <sup>3</sup> Advanced Composition satisfied by completing the combination of SE 494 and SE 495.
- <sup>4</sup> The following course substitutions may be used interchangeably to comply with prerequisites of specified courses in some of the secondary fields:
- CEE 202, IE 300, STAT 400
  - CEE 201, IE 310
  - MSE 406, CEE 300
  - ECE 486, SE 320, ME 340
- <sup>5</sup> The Grainger College of Engineering approved liberal education course list can be found here (<https://go.grainger.illinois.edu/LiberalEducation/>). Note that these credit hours could carry the required cultural studies designation required for campus general education requirements.
- <sup>6</sup> The Grainger College of Engineering restrictions to free electives can be found here (<https://go.grainger.illinois.edu/FreeElectives/>).

for the degree of Bachelor of Science in Systems Engineering and Design (formerly General Engineering)

### Suggested Sequence

The curriculum sequence below is a suggested sequence, as all Grainger Engineering students work with a department academic advisor to achieve their educational goals, specific to their needs and preparation. Dynamic and Static curricular maps, which include prerequisite sequencing, can be found here (<https://grainger.illinois.edu/academics/undergraduate/majors-and-minors/systems-engineering-map/>).

#### First Year

First Semester		Hours
SE 100	Introduction to ISE	1
ENG 100	Engineering Orientation	0
MATH 221 <sup>1</sup>	Calculus I	4
CHEM 102	General Chemistry I	3
CHEM 103	General Chemistry Lab I	1
RHET 105 or SE 101 <sup>2</sup>	Writing and Research	4-3
General education elective <sup>3</sup>		3
Semester Hours		16-15

#### Second Semester

MATH 231	Calculus II	3
PHYS 211	University Physics: Mechanics	4
CS 101	Intro Computing: Engrg Sci	3
ECE 110	Introduction to Electronics	3
SE 101 or RHET 105 <sup>2</sup>	Engineering Graphics Design	3-4
Semester Hours		16-17

#### Second Year

First Semester		Hours
MATH 241	Calculus III	4

PHYS 212	University Physics: Elec Mag	4
SE 261	Business Side of Engineering	1
TAM 211	Statics	3
General education elective <sup>3</sup>		3
Semester Hours		15
<b>Second Semester</b>		
SE 290	ISE Undergraduate Seminar	0
MATH 285	Intro Differential Equations	3
PHYS 213	Univ Physics: Thermal Physics	2
IE 300	Analysis of Data	3
TAM 212	Introductory Dynamics	3
TAM 251	Introductory Solid Mechanics	3
General education elective <sup>3</sup>		3
Semester Hours		17
<b>Third Year</b>		
<b>First Semester</b>		
SE 310	Design of Structures and Mechanisms	3
SE 320	Control Systems	4
MATH 415	Applied Linear Algebra	3
ECE 211	Analog Circuits Systems	2
Secondary field option elective <sup>4</sup>		3
Semester Hours		15
<b>Second Semester</b>		
SE 311	Engineering Design Analysis	3
SE 312	Instrumentation and Test Lab	1
SE 424	State Space Design for Control	3
IE 310	Deterministic Models in Optimization	3
TAM 335	Introductory Fluid Mechanics	4
General education elective <sup>3</sup>		3
Semester Hours		17
<b>Fourth Year</b>		
<b>First Semester</b>		
Secondary field option elective <sup>4</sup>		3-5
OR		
SE 494 & SE 495 <sup>5,6</sup>		
Design elective <sup>7</sup>		3
Engineering science elective <sup>8</sup>		3
Secondary field option elective <sup>4</sup>		3
General education elective <sup>3, 5</sup>		3
Semester Hours		15-17
<b>Second Semester</b>		
SE 494 & SE 495 <sup>5,6</sup>	Senior Engineering Project I	5-3
OR		
Secondary field option elective <sup>4</sup>		
Secondary field option elective <sup>4</sup>		3
General education elective <sup>3</sup>		3
Free electives		6
Semester Hours		17-15
Total Hours:		128

- 1 MATH 220 may be substituted, with four of the five credit hours applying toward the degree. MATH 220 is appropriate for students with no background in calculus.
- 2 RHET 105 (or an alternative Composition I sequence) is taken either in the first or second semester of the first year, according to the student's UIN (Spring if your UIN is Odd). SE 101 is taken the other semester. Composition I guidelines can be found at <http://catalog.illinois.edu/general-information/degree-general-education-requirements/> under Written Communication Requirement.
- 3 Students must take 6 hours from the campus General Education Social and Behavioral Sciences list, 6 hours from campus General Education Humanities and the Arts list, and 6 hours from a liberal education list approved by the college or from the campus General Education lists for Social and Behavioral Sciences or Humanities and the Arts. ECON 102 or ECON 103 must be one of the Social and Behavioral Sciences courses. Students must also complete the campus cultural studies requirement by completing (i) one western/comparative culture(s) course, (ii) one non-western culture(s) course, and (iii) one U.S. Minority Culture(s) course from the General Education cultural studies lists. Most students select general education courses that simultaneously satisfy these cultural studies requirements.
- 4 Selected from the departmentally approved lists of Secondary Field Option Electives (<http://ise.illinois.edu/undergraduate-programs/general-engineering-degree/secondary-field-option/preapproved-secondary-field/>) or by petition to the department.
- 5 SE 494 and SE 495 may be taken in the first or second semester of the fourth year as authorized. The alternative is a secondary field option elective.
- 6 Combination satisfies the General Education Advanced Composition requirement.
- 7 Selected from the departmentally approved list of Design Electives (<https://ise.illinois.edu/undergraduate/electives.html>).
- 8 Selected from the departmentally approved list of Engineering Science Electives (<https://ise.illinois.edu/undergraduate/electives.html>).

## Learning Outcomes: Systems Engineering and Design, BS

Learning Outcomes for the degree of Bachelor of Science Major in Systems Engineering and Design (formerly General Engineering)

---

Student learning outcomes are based on learning outcomes in line with the ABET accreditation process.

Systems Engineering and Design graduates will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

# Teaching of French, BA

for the degree of Bachelor of Arts in the Teaching of French

**department website:** <https://frit.illinois.edu/>

**department faculty:** French & Italian Faculty (<https://frit.illinois.edu/directory/faculty/>)

**advising:** French advising (<https://frit.illinois.edu/academics/advising/>) and Foreign Language Teacher advising (<https://flte.illinois.edu/program-overview/>)

**overview of college admissions & requirements:** Liberal Arts & Sciences (<http://catalog.illinois.edu/schools/las/academic-units/>)

**college website:** <https://las.illinois.edu/>

**email:** french-italian@illinois.edu

## Undergraduate degree programs in French & Italian:

French, BALAS (p. 352)

Teaching of French, BA (p. 727)

Italian, BALAS (p. 434)

for the degree of Bachelor of Arts in the Teaching of French

In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, content area, and professional education grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

**Departmental distinction:** A student must have a minimum 3.5 cumulative grade point average, including a 'Satisfactory' in the teaching practicum; complete two additional advanced-level courses in French or the teaching minor; complete FR 492, and provide two letters of recommendation as evidence of exceptional teaching potential. Consult the teacher education adviser for details.

**General education:** Consult the Curricula Preparatory to Teaching Foreign Languages (p. 351).

**Minimum required major and supporting course work:** Normally equates to 37 hours of French courses and 29 hours of professional education courses. The required coursework could be 16 additional hours, respectively, if the student does not already have the equivalent of French 101-102-133-134. **NOTE: FR 299 is strongly recommended.**

**Minimum hours required for graduation: 120 hours.**

Code	Title	Hours
FR 207	Writing and Grammar Workshop	3
FR 211	Introduction to Literary Studies	3
FR 212	Introduction to Cultural Analysis: French Identities	3
<b>Language Courses</b>		
FR 205	Oral French	2
FR 213	French Phonetics	2
FR 314	Advanced Grammar in Context	3
<b>Culture Courses</b>		
Choose two of the following:		6
FR 335	French Cultural History to 1789	
FR 336	French Cultural History 1789-1968	
FR 337	Contemporary France	
<b>Literature Courses</b>		
Two courses at the 300- or 400-level in French and/or Francophone literature		6
<b>Medieval and Early Modern Period course</b>		
Students must take one course focused on the medieval/early modern period. This course can be used to fulfill the Culture or Literature Courses requirement.		
FR 301	Medieval and Early Modern Literature	
or FR 335	French Cultural History to 1789	
<b>Electives</b>		
Three French courses at the 300- or 400-level in any of the following areas: Language and translation, business, cinema, culture, linguistics, literature, media.		9

Professional education courses. (See Foreign Languages- Curricula Preparatory to Teaching Foreign Languages.) (p. 351)	29
Total Hours	66

## Learning Outcomes: Teaching of French, BA

Learning Outcomes for the degree of Bachelor of Arts in the Teaching of French

- 
1. **Teacher Candidates\* will be able to** demonstrate their understanding of SLA theories and methodologies through the instructional activities and materials that they design to support all students' learning and skill building in the three modes of communication.
  2. Using Bloom's taxonomy and knowledge of cultural analysis, **Teacher Candidates will be able to** stimulate analytical skills in their second language learners when reading literary or historical texts or periodicals, such as newspapers, magazines, or blog posts discussing current events.
  3. Using their knowledge of French linguistics and the sounds of French, **Teacher Candidates will be able to** model accurate and authentic pronunciation for their learners during instruction.
  4. **Teacher Candidates will be able to** demonstrate her/his understanding of and skills in designing multiple methods of assessment that monitor learner progress in the three modes of communication, promote learner efficacy, and guide decision-making of the learner and teacher.

*\*BAT students = Teacher Candidates*

Scandinavian Studies Concentration within German Studies BALAS (p. 380)

## for the degree of Bachelor of Arts Major in the Teaching of German

In order to remain in good standing in this program and be recommended for certification, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Consult the certification officer at 505 East Green Suite 203 for additional information. <http://www.cote.illinois.edu/>

**Departmental distinction:** Students should consult their advisers by the second semester of the junior year for information pertaining to seminar honors work and honors awards in the department.

The total of 47 hours may be reduced by as much as 16 hours through prerequisite credit for work equivalent to GER 101-GER 104 taken in secondary school.

**General education:** Consult the Curricula Preparatory to Teaching Foreign Languages (p. 351).

**Minimum required major and supporting course work:** Normally equates to 76 hours.

**Minimum hours required for graduation:** 120 hours.

### for the degree of Bachelor of Arts in the Teaching of Spanish

Prerequisite to application to the Teaching program

GPA of 2.5 in all Spanish content courses in the major.

Contact the Foreign Language Teacher Education Program for information: <https://flte.illinois.edu/>

In order to remain in good standing in this program and be recommended for licensure, candidates are required to maintain UIUC, cumulative, content area, and professional education, grade-point averages of 2.5 (A+= 4.0). Candidates should consult their advisor or the Council on Teacher Education for the list of courses used to compute these grade-point averages.

Illinois law requires all candidates for licensure in World Languages pass the appropriate language content-area test prior to student teaching, and an oral proficiency test in their content major language prior to licensure.

**Departmental distinction:** To be eligible for departmental distinction, a student must have a minimum grade point average of 3.0, display exceptional teaching ability, and complete an approved project or series of projects. Consult the Spanish departmental advisor for details.

**Study Abroad:** It is strongly recommended that future teachers of Spanish engage in one or more semesters of study in a Spanish-speaking country. A number of the curricular requirements may be met through the Year Abroad Program or other approved programs; see Study Abroad Programs (<https://spanport.illinois.edu/academics/education-abroad/>).

**General education:** Students must complete the Campus General Education (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>) requirements including the campus general education language requirement.

**Minimum required major and supporting course work:** Minimum required course work normally equates to 33-36 hours in Teaching Area of Concentration and 33 hours of professional education courses.

**Minimum hours required for graduation:** 127 hours.

# Theatre, BFA

*for the Bachelor of Fine Arts Major in Theatre*

---

**department website:** <https://theatre.illinois.edu>

**department faculty:** <https://theatre.illinois.edu/people/meet-our-faculty/>

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

---

Students pursuing this major select one of eight concentrations:

Acting (p. 733)

Arts & Entertainment Technology (p. 735)

Costume Design & Technology (p. 738)

Lighting Design & Technology (p. 740)

Scenic Design (p. 742)

Scenic Technology (p. 744)

Sound Design & Technology (p. 746)

Stage Management (p. 748)

Theatre Studies (p. 750)

---

The curricular concentrations in the Department of Theatre provide extensive preparation for the rigorous demands of a professional career in the theatre and allied arts.

The BFA is an intensive undergraduate professional training curriculum with concentrations in Acting, Costume Design and Technology, Lighting Design and Technology, Scenic Design, Scenic Technology, Sound Design and Technology, Stage Management, and Theatre Studies. The Theatre Studies concentration is intended for students who want to explore the many facets of theatre or plan to pursue advanced training in directing, dramaturgy, playwriting, arts management, social issues theatre, and theatre history and criticism.

As part of the application process, prospective students must complete an interview and participate in auditions or portfolio reviews. Acting applicants should bring a resume/headshot and present 2 contrasting monologues of no more than 2 minutes each for their audition. Applicants who wish to pursue one of the concentrations in Design, Technology, or Management should bring a resume and a portfolio showing examples of their theatrical work, which can include a range of interests and experiences. Applicants who intend to pursue the Theatre Studies Concentration should present a writing portfolio that includes a resume and a short essay on theatre or another short, written creative work.

In the second year of study in the department, BFA Acting students are evaluated for promotion into the advanced studio classes in acting (Junior and Senior years.) In addition to successful completion of all classes in their first and second years, acceptance will be based on each student's potential for professional-caliber performance.

As one of the Resident Producing Organizations at the Krannert Center for the Performing Arts, the Department of Theatre produces six or seven fully mounted productions each academic year. The theatres, rehearsal halls and shops of the Krannert Center serve as laboratories for theatre students, who have the opportunity to learn and to work alongside an outstanding staff of resident theatre professionals and visiting artists. In addition, the department sponsors a small experimental theatre space for student-written and student-directed productions.

All theatre majors must successfully complete production crew assignments at the Krannert Center under THEA 100 (Practicum I) and THEA 200 (Practicum II). Students working on Department of Theatre productions in their specific concentration area also take THEA 300 (Practicum III) or THEA 400 (Practicum IV.) Design, Technology, and Management concentration students will also receive practicum credit for working on productions in Lyric Theatre, Department of Dance and Events.

### Acting Concentration

The acting concentration provides intensive training in a wide range of performance aspects. In the first and second years, students take foundational courses in acting that include movement and vocal production. In the second year of study in the department, BFA Acting students are evaluated

for promotion into the advanced studio classes in acting (Junior and Senior years.) In addition to successful completion of all classes in their first and second years, acceptance will be based on each student's potential for professional-caliber performance. Considerations include potential for expressive movement, effective voice and speech, emotionally connected characterization, intellectually thorough. Analysis and reliable discipline for intensive study. Students who are not promoted into the advanced studio classes may apply to the Theatre Studies concentration. Third- and fourth-year students meet in daily four-hour sessions, each of which includes voice and speech, movement and acting. Students acquire skills in stage combat and dialects. The four semesters of acting scene study focus on modern classical plays, musical theatre, Shakespeare and acting for the camera. Students. In the professional studio in acting are expected to audition for department productions and perform as cast.

## Learning Outcomes: Costume & Design Technology Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Costume Design & Construction Concentration

### Student Learning Outcomes

1. Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.

2. Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage.
3. Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to costume design and technology for a stage production
4. Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera and dance.
5. Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of costume design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.

Choose 3 credit hours:		3
THEA 432	Lighting for Non-Theatrical Spaces and Styles	
THEA 491	Advanced CAD Drafting for Lighting Designers	
THEA 492	Digital Rendering for Lighting	
THEA 493	Lighting Opera & Musicals	
THEA 494	Advanced Problem Solving for Lighting Designers	
<b>Total Hours</b>		<b>50</b>
Total Hours		50

## Learning Outcomes: Lighting Design & Technology Concentration

Learning outcomes for the Bachelor of Fine Arts Major in Theatre, Lighting Design Concentration

## Student Learning Outcomes

1. Communicate design and production ideas to collaborators through graphic skills, language and research and the ability to analyze and interpret creative, critical and theoretical works.
2. Demonstrates the practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to lighting design for a stage production.
3. Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera, dance and non-traditional venues and styles of design.
4. Gain the practical ability to see their designs come to life from concept through realization by collaborating on current productions with peers, faculty, staff and guest artists.
5. Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of lighting design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.

## Theatre: Scenic Design, BFA

for the Bachelor of Fine Arts Major in Theatre, Scenic Design Concentration

### Level 21: Design, Technology and Management Concentrations

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

for the Bachelor of Fine Arts Major in Theatre, Scenic Design Concentration

A minimum of 128 hours of credit is required for the degree.

**Twelve hours of 300 and 400-level courses in the major must be taken on this campus.**  
**40 credits hours in degree required in 300-400 level coursework to meet IBHE requirements.**

**college catalog page:** Fine & Applied Arts (<http://catalog.illinois.edu/faa/>)

**college website:** <https://faa.illinois.edu/>

## Theatre Studies Program

The theatre studies concentration focuses on the practical applications of theatre and explores theatrical productions as a collaborative art form that is grounded in practice, theory, criticism, history, research and writing. The theatre studies concentration is intended to lay the foundation for students planning to pursue professional careers in the areas of theatre for which advanced training or specialization at the graduate level is normally required. These areas include, but are not limited to: directing, dramaturgy, playwriting, arts management, social issues theatre and theatre history and criticism. Emphasis is given to a comprehensive study of theatre practices of the past, participation in theatre practices of the present and the discovery and development of theatre practices for the future.

Students pursuing this major select one of four concentrations:

Global Cities (p. 753)

Policy & Planning (p. 755)

Social Justice (p. 757)

Sustainability (p. 759)

The Department of Urban and Regional Planning offers a program leading to the degree of Bachelor of Arts in Urban Studies and Planning. The aim of urban planning is to sustain and enhance the quality of life in cities and regions. Therefore, in addition to technical skills, students also acquire a broad liberal education that leads to an understanding of the natural and social environments, their problems, and their potential for enriching human life. The urban planning degree emphasizes skills in analysis, problem solving, and communication within complex urban and social contexts. As a result, undergraduate planning education leads to diverse professional careers or graduate study in urban planning or related professions, such as law, business, public policy or public administration. Continuation in the program requires the student to maintain a 2.00 grade point average. The degree is professionally accredited by the Planning Accreditation Board.

A transfer student must have completed 30 or more semester hours of acceptable undergraduate college work (including introductory courses in microeconomics, statistics, and sociology; a sequence in English composition is desirable) with an earned grade point average of at least 2.75 (A = 4.0). Transfer applicants not meeting these requirements will be considered in special cases.

*For the degree of Bachelor of Arts Major in Urban Studies & Planning*

## Summary of Requirements

Code	Title	Hours
<b>1st Year</b>		
UP 101	Introduction to City Planning	
UP 201	Planning in Action	
4 Foundation Courses		
<b>2nd Year</b>		
UP 203 or UP 204	Cities: Planning & Urban Life Chicago: Planning & Urban Life	
Concentration Gateway Course		
<b>3rd Year</b>		
UP 312	Communication for Planners	
UP 316	Urban Informatics II	
Concentration Electives		
UP 301	Capstone Preparation	
<b>4th Year</b>		
Concentration Workshop (UP 447, UP 455, UP 456, UP 457, or UP 478)		
Capstone Experience (UP 390 or UP 397)		
UP 401	Undergraduate Capstone Seminar	
Plus 15 hours of UP electives, GE not met by UP foundation & core, and open electives.

SOC 100	Introduction to Sociology	
ECON 102	Microeconomic Principles	3
or ACE 100	Introduction to Applied Microeconomics	
UP 116	Urban Informatics I (or equivalent)	3
or STAT 100	Statistics	
Total Hours		10

## Urban Studies & Planning Core

Code	Title	Hours
UP 101	Introduction to City Planning	3
UP 201	Planning in Action	3
UP 203	Cities: Planning & Urban Life (or UP 204 Chicago: Planning and Urban Life)	3
UP 312	Communication for Planners	4
UP 316	Urban Informatics II	3
Select one workshop from:		4
UP 447	Land Use Planning Workshop	
UP 455	Economic Development Workshop	
UP 456	Sustainable Planning Workshop	
UP 457	Small Town/Rural Planning Workshop	
UP 478	Community Development Workshop	
Plus 15 hours of UP electives, GE not met by UP foundation & core, and open electives		15

## Capstone

Required Courses:	Required Hours
Capstone Preparation: During the 3rd year, students enroll in UP 301, Capstone Preparation. Students meet individually with their capstone advisor to develop a plan to meet the capstone requirement. To pass this course students must turn in a proposal at the end of the semester.	1
Capstone Experience: Students engage in a semester or summer-long applied activity outside of the classroom. The Capstone Experience is intended to engage the students in the real world and prepare them for the job market. Students typically complete this requirement during their junior year, but have the option to complete it during the summer between their 3rd and 4th year. Examples include a paid or unpaid internship, volunteer work, consulting project with a client, summer research and more. Students enroll in UP 390, Planning Internship, and/or UP 397, Undergraduate Project, to receive credit.	3
Capstone Seminar: During the 4th year, students enroll in UP 401 for 2 semesters. Students will participate in monthly activities to discuss and reflect on the Capstone Experience. In addition, students will present a poster summarizing their capstone experience in a public setting; for example at a public engagement conference, public meeting or community meeting, McNair Scholars conference, James Scholars event, Illinois American Planning Association meeting, undergraduate research symposium, or other venue. The seminar sessions also include career development such as resume writing, interviewing and networking with professionals through the Wetmore Lecture Series.	2

## Global Cities Concentration

Code	Title	Hours
UP 185	Cities in a Global Perspective (Gateway)	3
Select 2 courses from:		6-8
UP 246	International Environmental Planning and Governance	
UP 335	Cities and Immigrants	
UP 406	Urban Ecology	
UP 423	Community Development in the Global South	
UP 486	Planning with Climate Change
