## Learning Outcomes: Landscape Architecture, MLA

Learning Outcomes for the degree of Master of Landscape Architecture in Landscape Architecture

Master of Landscape Architecture students will:

1. **Design Thinking.** Use a variety of processes to discover and frame opportunities, generate multiple possibilities, evaluate and refine ideas, rapidly prototype and test your proposal, and share your ideas in a compelling manner.
2. **Communicate with Skill.** Use a variety of digital tools to generate design proposals, test those proposals, and share your ideas with others.
3. **Tap into Existing Knowledge.** Incorporate our best understanding of natural resources, environmental systems, human development, social systems, professional practice and professional ethics into your work.
4. **Technical Competence.** Demonstrate the technical competence to translate design proposals into built work.
5. **Responsibility and Leadership.** Develop and demonstrate a sense of responsibility to the land and the people for whom we design.

## Graduate Degree Programs in Landscape Architecture

Landscape Architecture, PhD (p. 1471)

Landscape Architecture, MLA (p. )

Sustainable Urban Design, MSUD (p. 1799)

Heritage Studies Graduate Minor (<http://catalog.illinois.edu/graduate/faa/minor/heritage-studies/>)

**joint programs:**

Landscape Architecture, MLA & Urban Planning, MUP (p. 2021)

The Department of Landscape Architecture offers the Master of Landscape Architecture (MLA) degree, the Master of Sustainable Urban Design degree (MSUD), and the PhD degree.

The programs enable students to gain fresh insights and to conduct new research pertaining to land and its use by people. The PhD program is jointly administered with the School of Architecture and emphasizes both interdisciplinary study and cross-disciplinary inquiry. Areas of concentration include history and theory; technology and environment; and behavioral and cultural factors in design. Before submitting an application, students should consult the department website for information regarding the specific areas of study and the time needed to complete the requirements.

Several faculty members in the department also participate in the doctoral program administered by the Department of Urban and Regional Planning. See the program description under Regional Planning, PhD (p. 1720) for more information.

## Admission

The Graduate College admission requirements apply. Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. The doctoral program prefers candidates with master's degrees: MLA, MArch, or related fields such as art history, ecology, geography, or planning. All graduate students must begin their studies in the fall semester.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the PhD program.

## Financial Aid

Students compete for fellowships, tuition and service fee waivers, and assistantships. Selection is based on the academic achievement and qualifications of the student.

*for the degree of Doctor of Philosophy in Landscape Architecture*

For additional details and requirements refer to the department's PhD Handbook (<https://go.illinois.edu/PhDArchandPhDLArchHandbook/>), Program Curriculum (<http://www.landarch.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

The requirements may vary slightly according to students' area of focus. Please consult the PhD Handbook (<https://go.illinois.edu/PhDArchandPhDLArchHandbook/>) for more explicit details.

Students are required to defend their dissertation. Policies on format of the doctoral examination can be found in the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Dissertation Deposit Required:	Yes
Minimum GPA:	3.0

Language and statistics course requirements vary by focus area. To develop proficiency, students may be required to take more than one course. Specific requirements are determined on a case-by-case basis by the Chair of the PhD Committee in consultation with the student's advisor.

**Learning Outcomes: Landscape Architecture, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Landscape Architecture

PhD students in the Department of Landscape Architecture will:

1. **Research Skills.** Develop and practice a variety of research skills. Students will design their research strategy; obtain and analyze evidence; develop evidence-based arguments; identify and evaluate the existing critical literature of the field; master languages in some cases, and in other cases master advanced computer programs.
2. **Communicate with Clarity.** Develop and demonstrate the ability to communicate complex and original ideas through clear writing supplemented by graphic representations and delivered as text (dissertation), speech (lecture presentations), and image (PowerPoint to accompany lectures). Doctoral students will gain an advanced level of written, visual, and technical literacy.
3. **Original Research.** Develop and carry out a major, original research investigation; develop it into an extended argument (the dissertation), the outcome of which might be a book, policy guidelines, a series of journal articles, or a patent.
4. **Design Research.** Use ideas and methods from design research to explore questions that advance knowledge that supports design.
5. **Pedagogy.** Demonstrate understanding of basic concepts about teaching and practice a range of instructional techniques in classrooms and studio contexts.

# Latin American Studies, MA

*for the degree of Master of Science in Latin American Studies*

Including classroom and online courses in Quechua, the most spoken native language in the American continent.

Specializations in Latin American and Caribbean Studies are administered by the director of the Center for Latin American and Caribbean Studies.

Candidates for the master's degree who elect a specialization in Latin American and Caribbean Studies must complete 8 graduate hours from the courses prescribed by the center. Doctoral candidates who elect a specialization in this area must complete 16 graduate hours for one specialization or 8 graduate hours for a split specialization. Courses must be taken in at least two departments; a list of courses fulfilling the specialization is available from the center. A specialization in agricultural economics and foreign areas studies (in this case, Latin American and Caribbean Studies) is also available. A high level of proficiency in one or more languages of the region (Spanish, Portuguese, and Amerindian Indian languages) is required. For course information, requirements, and methods used to establish the level of proficiency, contact the center's academic programs coordinator.

Students in technical and professional colleges and schools of the University of Illinois at Urbana-Champaign who seek knowledge of the Latin American and Caribbean region and languages are invited to consult with the director of the center or with their adviser in order to develop programs suited to their individual needs. Such a program may often be adopted as a specialization under existing regulations if the student so desires. These courses are of particular value to students who intend to undertake technical or professional work in the Latin American and Caribbean area for government, private business, publishing, or religious organizations.

## Graduate Degree Programs in Latin American & Caribbean Studies

Latin American Studies, MA (p. 1474)

Graduate Minor in Latin American & Caribbean Studies (p. 1986)

The Center for Latin American and Caribbean Studies administers a program of language and area courses leading to an interdisciplinary Master of Arts degree. The master's program facilitates studies in the languages, cultures, and affairs of the region for three constituencies of students: those seeking to match area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those for whom the degree would stand on its own. The center also administers graduate specializations in Latin American and Caribbean Studies with various departments. The center is a Title VI National Resource Center. The center houses the Lemann Institute for Brazilian Studies.

## Language Instruction

The Center offers 3 levels of Quechua, the most spoken language in the American continent, with approximately 13 million of speakers in 6 countries. The Center also offers Quechua online courses and free access to the publication *Correo de Linguística Andina* and free exercises on Quechua. Visit [www.clacs.illinois.edu/quechua/](http://www.clacs.illinois.edu/quechua/) (<http://www.clacs.illinois.edu/quechua/>).

Other languages in the University that fulfill the M.A. requirements are Spanish and Portuguese, both offered at the School Literatures, Cultures, and Linguistics.

## Faculty Research Interests

More than 100 faculty throughout the University are currently affiliated with the Center. The Center's faculty devote all or a portion of their teaching and research to Latin American subjects, from agriculture to politics, culture and linguistics. Their expertise spans every important discipline and sub-region of Latin America and the Caribbean, with particular strength in the Andean countries, the Caribbean, lowland South America, Mexico, and Brazil.

For a complete list of our affiliated faculty and their research and teaching interests check our people page at <http://www.clacs.illinois.edu/about/people/faculty.aspx>.

## Facilities and Resources

### Latin American Library Collection (LALC)

The Center assist the Latin American Collection (<http://www.library.illinois.edu/lat/>) at the University Library in purchasing teaching and research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments.

The LALC collection ranks among the six largest in the country and is the largest collection in the Midwest region in purchasing teaching and research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments. It is located in the third floor of the main UIUC library in room 324 and while the Library itself does not house a circulating collection, our knowledgeable staff is available to help locate relevant materials, answer reference questions, and assist you in developing effective searching strategies.

The Latin American and Caribbean Library collection includes:

- **More than 400,000 monograph titles;**
- **Newspapers and magazines from over 20 Latin American and Caribbean countries;**
- **A strong collection of journals in the humanities and social sciences, as well as publications of professional associations, government agencies, central banks, and non-governmental organizations;**
- **Access to HAPI Online (Hispanic American Periodicals Index), the Handbook of Latin American Studies (<http://lcweb2.loc.gov/hlas/>), and other online databases;**
- **An extensive collection of videos available at the Media Center in the Undergraduate Library;**
- **over 32,000 maps of Latin America (housed in the Map and Geography Library);**
- **comprehensive holdings of Brazilian and Andean materials;**
- **Extensive holdings by and about Gabriel Garcia Marquez;**
- **Publications from the Archivo General de la Nacion de Mexico; and**
- **A comprehensive Latin American music collection.**

### List-serv

The Center administers a listserv with more than 500 subscribers. Weekly mass messages "CALCS/Lemann Institute this Week" contain information on activities in campus related to Latin America and the Caribbean region (conferences, workshops, movies), new courses and job positions as well as future conferences in other Universities. To subscribe contact: Angelina Cotler ([cotler@illinois.edu](mailto:cotler@illinois.edu)).

### CLACS Brownbags

Every Thursday at Noon in Room 101 International Studies Building (910 S. Fifth Street in Champaign) CLACS presents a lecture offered by a faculty, graduate student or outside faculty on topics relevant to the region. These are open and free brownbag lectures. For complete list of presentations during the semester visit our website on the events section.

### Opportunities and Events

The Center keeps update a complete list of jobs, grants, conferences, and fellowships in the U.S. and abroad for graduate students and faculty. Check it at <http://www.clacs.illinois.edu/news/opportunities.aspx>.

### Outreach Program (<http://www.clacs.illinois.edu/outreach/default.aspx>)

One of the goals of our mission is to increase knowledge and awareness of Latin America and the Caribbean in the educational community and the general public by promoting language and area studies in their broadest sense. Outreach at CLACS is a service-oriented program funded through a Title VI Federal Area Studies grant. It is designed to increase public knowledge about Latin America and the Caribbean and Latin American and Caribbean peoples and cultures. All our services are free!

Services include

- Speakers Bureau composed by graduate students and faculty for presentations in schools on Latin American topics.
- Outreach Library for k-14 teachers and instructors that includes books and DVDs.
- Collaborates with the Illinois International Review, the University of Illinois' new international publication; produces CLACS this Week, a weekly Calendar of Events; and an annual newsletter on Quechua instruction, Correo de Linguistica Andina.
- Publishes several curriculum development workbooks including: Columbus: Beyond the Myth, A Teacher's Workbook on Tropical Rain Forests, and Historia Oral: The Latina/o Experience in the United States.
- Organizes the Latin American Brownbag Colloquium, a weekly series of noon seminars in which faculty, students, and visiting scholars present current research and speak on topics of special interest. Additionally, the Center sponsors many cultural events, such as Latin American music and dance ensembles, and art exhibitions.
- Maintains links to Web based curriculum-related materials on its outreach Web pages as a means of facilitating access to curriculum resources and research materials on Latin America and the Caribbean.

For more information visit <http://www.clacs.illinois.edu/outreach/default.aspx>.

## Links

Links to local museums, units and clubs that offer Latin American and Caribbean services as well as external links to institutions abroad and in the U.S. [www.clacs.illinois.edu/resources/](http://www.clacs.illinois.edu/resources/) (<http://www.clacs.illinois.edu/resources/>).

## Financial Aid

The Center is a recipient of Federal Government Title VI Foreign Language and Area Studies (FLAS) Fellowships for Graduate Studies in any discipline that includes a specialization in Latin American Studies and an intensive program of language instruction. Academic year language courses and summer fellowships for intensive language courses abroad or in the United States are available. Information on how to apply, requirements and datelines are posted in <http://publish.illinois.edu/illinoisflas/>.

The Center offers Tinker Summer Fellowship Research Grants for graduate students in any department wishing to do research during the summer in Latin America, the Caribbean and the Iberian Peninsula. Both these programs depend on outside funding and thus cannot be guaranteed in any given year. Information on how to apply, requirements and datelines are posted in <http://www.clacs.illinois.edu/academics/fellowships/tinker.aspx>.

## *for the degree of Master of Science in Latin American Studies*

Specializations in Latin American and Caribbean Studies are administered by the director of the Center for Latin American and Caribbean Studies.

Candidates for the master's degree who elect a specialization in Latin American and Caribbean Studies must complete 8 graduate hours from the courses prescribed by the center. Doctoral candidates who elect a specialization in this area must complete 16 graduate hours for one specialization or 8 graduate hours for a split specialization. Courses must be taken in at least two departments; a list of courses fulfilling the specialization is available from the center. A specialization in agricultural economics and foreign areas studies (in this case, Latin American and Caribbean Studies) is also available. A high level of proficiency in one or more languages of the region (Spanish, Portuguese, and Amerindian Indian languages) is required. For course information, requirements, and methods used to establish the level of proficiency, contact the center's academic programs coordinator.

Students in technical and professional colleges and schools of the University of Illinois at Urbana-Champaign who seek knowledge of the Latin American and Caribbean region and languages are invited to consult with the director of the center or with their adviser in order to develop programs suited to their individual needs. Such a program may often be adopted as a specialization under existing regulations if the student so desires. These courses are of particular value to students who intend to undertake technical or professional work in the Latin American and Caribbean area for government, private business, publishing, or religious organizations.

Code	Title	Hours
	Core interdisciplinary seminar (LAST 550 or different if indicated)	4
	Graduate hours in 400-500 level courses in theory or research methods appropriate to the student's objectives and primary discipline	4-8
	Area Courses that focus on Latin America or the Caribbean, of which at least 8 graduate hours must be taken in one (primary) discipline	20-24
	Language Requirement: Demonstration that a communicative competence in Spanish, Portuguese, or other language indigenous to the area (excluding English) equivalent to six semesters' (undergraduate) work has been achieved.	
LAST 599	Thesis Research (min/max applied toward degree)	8
Total Hours		40

## Other Requirements

Requirement	Description
Other requirements may overlap	
A thesis is required.	
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	3.25

# Learning Outcomes: Latin American Studies, MA

Learning Outcomes for the degree of Master of Science in Latin American Studies

1. **Advanced Proficiency in a Latin American Language (Spanish, Portuguese, Indigenous)** - This will be assessed through completion of appropriate level course work and through OPI or equivalent testing.

**2. Diverse Perspectives**

- a. Students will partake in interdisciplinary inquiry that engages multiple disciplinary lenses and theoretical frameworks.
- b. Students should be able to apply these frameworks to multiple contexts (spatial, temporal, cultural etc.) within Latin American Studies.

**3. Critical and Applied Learning**

- a. Students should be able to critically and reasonably evaluate and apply their knowledge to current debates within Latin American Studies.
- b. Students will be able to apply interdisciplinary learning across multiple contexts, integrating knowledge and practice.

**4. Interdisciplinary Research**

- a. Students should be able to apply their knowledge to the design and implementation of along-term independent research project that uses both primary and secondary sources and articulates with current debates within Latin American Studies.
- b. They should be able to effectively communicate the results of that research in written form by producing a MA thesis.

**5. Effective Communication**

- a. Students should be able to identify research problems, approach these problems with appropriate methodologies and effectively communicate the results. They should be able to apply their knowledge to real-world situations.
- b. Students should be able to effectively communicate in written and oral form their knowledge of Latin American culture and language to a broad non-specialist audience.

# Law, JSD

## for the Doctor of the Science of Law

dean of the college: Vikram David Amar

associate dean for graduate and international programs: Margareth Etienne

correspondence and admission information: Christine Renshaw, Office of Graduate and International Legal Studies

college website: <https://law.illinois.edu>

college faculty: Law Faculty (<https://law.illinois.edu/faculty-research/faculty-profiles/>)

college address: 244 Law Building, 504 East Pennsylvania Avenue, Champaign, IL 61820

phone: (217) 333-6066

email: [law-gradprograms@illinois.edu](mailto:law-gradprograms@illinois.edu)

The Doctor of the Science of Law (J.S.D.) degree provides students who primarily intend to pursue an academic career an opportunity for extended study, research, and scholarly writing. Those admitted to the program must have demonstrated analytic and research ability, possess outstanding academic credentials, and have completed the LL.M. or other law degree from the University of Illinois or other accredited American law school. In exceptional cases, consideration will be given to applicants who have completed programs of study in common law countries. All candidates must provide evidence of excellent reading and writing skills in English. The J.S.D. program normally takes a minimum of three years. Two years must be completed in residence at the College of Law and must include two semesters of course work. J.S.D. candidates are assigned a primary faculty advisor with expertise in the student's research area and an additional three faculty members, who form the student's doctoral committee. Each student must pass a qualifying examination demonstrating general proficiency in the student's field of study and a preliminary examination on the research proposal. The student's faculty committee then will assess the student's thesis research and writing progress, make recommendations, and conduct an oral examination on the final draft of the dissertation. The final dissertation will then be completed and deposited with the Graduate College.

## Graduate Degree Programs in the College of Law

Master of Laws, LL.M. (p. 1480)

### concentrations:

Corporate Law, Commercial Law, & Trade (p. 1482)|Criminal Law (p. 1484)|Intellectual Property & Technology Law (p. 1486)|International & Comparative Law (p. 1488)|Justice, Democracy, & Legal Rights (<http://catalog.illinois.edu/graduate/graduate-majors/law/justice-democracy-legal-rights-concentration/>)|Regulation, Sustainability, & Compliance (<http://catalog.illinois.edu/graduate/graduate-majors/law/regulation-sustainability-compliance-concentration/>)|US Legal Practice Skills (p. 1494)

Master of Studies in Law (p. 1497)

Doctor of the Science of Law (p. 1478)

Law, JD ([http://catalog.illinois.edu/professional-programs/jd\\_law/](http://catalog.illinois.edu/professional-programs/jd_law/))

### Joint Degrees with the Law, JD:

Chemistry, MS (p. 2022)|Computer Science, MCS (p. 2011)|Human Resources and Industrial Relations, MHRIR (p. 2018)|Journalism, MS (p. 2020)|Natural Resources & Environmental Sciences, MS (p. 2025)|Political Science: Civic Leadership, MA (p. 2033)|Political Science, PhD (p. 2032)|Urban Planning, MUP (p. 2044)|

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

## Learning Outcomes: Law, JSD

Learning Outcomes for the Doctor of the Science of Law

1. Demonstrate basic knowledge of American substantive and procedural law. This requires:
  - a. The foundational rules governing liability for civil and criminal wrongdoing.
  - b. The foundational rules that regulate the transaction of business among individuals and the ownership of property.
  - c. The constitutional rules that shape the American legal system.
  - d. The procedural rules that govern court adjudication.
  - e. Several advanced areas of substantive or procedural law or both.
2. Use legal reasoning and legal analysis. This requires:
  - a. The ability to identify, formulate, and apply legal rules.
  - b. The ability to read and analyze judicial opinions.
  - c. The ability to parse and interpret statutes, regulations, contracts, and other similar legal texts.
  - d. The ability to construct legal arguments and evaluate critically one's own and others' legal arguments.
  - e. The ability to identify and evaluate the practical consequences of various legal rules and to formulate policy arguments for and against those rules.
3. Develop practical legal skills. This requires:
  - a. The ability to write clearly and effectively in a wide range of legal contexts and for various audiences, such as courts, clients, opposing counsel and academics.
  - b. The ability to articulate one's thoughts verbally in a clear and effective manner.
  - c. Knowledge of and ability to use tools of legal research.
  - d. The ability to identify and gather factual information relevant to the application of legal rules.
  - e. The ability to work collaboratively with others, including others with opposing interests.
4. Conduct himself or herself professionally and in keeping with the highest standards of civic virtue. This requires:
  - a. Knowledge and appreciation of the ethical rules governing legal practice and/or academic research.
  - b. The ability to learn and grow professionally through self-reflection and continuing education.
  - c. An understanding of the lawyer's distinctive role in society and of the lawyer's concomitant responsibility to contribute to society through public service and pro bono representation.
  - d. The ability to understand and be understood across various social, economic, cultural, political, national, racial, gender, and ethnic backgrounds.
5. Produce a substantial piece of original academic research. This requires:
  - a. Mastery of literature in a particular area.
  - b. Mastery of the sub-field in which a thesis will be written.
  - c. Acquisition of expertise in the subject area of one's thesis.

# Law, LLM

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

## *for the degree of Master of Laws*

Each Concentration offers a directed, optional program of study for LL.M. students in an increasingly important field of global legal practice. Each Concentration provides (1) specialized training in the Concentration field of law, (2) guidance to students in developing a program of study with the courses deemed most useful and relevant to the Concentration, and (3) a Concentration designation on their transcripts that will better allow them to market their expertise, thus gaining a competitive advantage in the legal employment market. In some instances, a Dual Concentration (i.e., in Intellectual Property and Justice, Democracy and Legal Rights) is available to eligible students. Eligible students must apply to pursue the Dual Concentration and may stay in residence an additional semester so that the 14-credit requirements of the second Concentration can be independently met. In the case of the Dual Concentration, credits used to satisfy one Concentration cannot be used to satisfy the requirements for a second Concentration. Students interested in remaining in residence for a third semester to complete their program of study must apply by the listed deadline at the start of the second semester of the LL.M. degree. The Concentrations require students to complete a minimum of fourteen credit hours in topics

integral to each Concentration. Courses taken toward a Concentration will count toward the student's LL.M. degree, and must be selected with the program advisor.

The Master of Laws (LL.M.) degree is designed to prepare students with or without any prior legal training to enhance their professional development by adding familiarity with U.S. law. Applicants must hold a bachelor's degree (or equivalent degree) from an approved school listed on the International Association of Universities List of Higher education Institutions. Full consideration for admission to the LL.M. program will be given to applicants holding a bachelor's degree in law or a bachelor's degree in a subject outside law.

The LL.M. degree requires the completion of at least 32 graduate hours of credit and is normally completed in one academic year. All candidates are required to pass Professional Responsibility (LAW 501), a four hour graduate course and LL.M. Legal Research and Writing (LAW 500) a two hour graduate course. The remaining graduate hours are selected from any College of Law course.

Code	Title	Hours

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

### Joint Degrees with the Law, JD:

Chemistry, MS (p. 2022)|Computer Science, MCS (p. 2011)|Human Resources and Industrial Relations, MHRIR (p. 2018)|Journalism, MS (p. 2020)|Natural Resources & Environmental Sciences, MS (p. 2025)|Political Science: Civic Leadership, MA (p. 2033)|Political Science, PhD (p. 2032)|Urban Planning, MUP (p. 2044)|

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

## *for the Master of Laws, Justice, Democracy, and Legal Rights Concentration*

Each Concentration offers a directed, optional program of study for LL.M. students in an increasingly important field of global legal practice. Each Concentration provides (1) specialized training in the Concentration field of law, (2) guidance to students in developing a program of study with the courses deemed most useful and relevant to the Concentration, and (3) a Concentration designation on their transcripts that will better allow them to market their expertise, thus gaining a competitive advantage in the legal employment market. In some instances, a Dual Concentration (i.e., in Intellectual Property and Justice, Democracy and Legal Rights) is available to eligible students. Eligible students must apply to pursue the Dual Concentration and may stay in residence an additional semester so that the 14-credit requirements of the second Concentration can be independently met. In the case of the Dual Concentration, credits used to satisfy one Concentration cannot be used to satisfy the requirements for a second Concentration. Students interested in remaining in residence for a third semester to complete their program of study must apply by the listed deadline at the start of the second semester of the LL.M. degree. The Concentrations require students to complete a minimum of fourteen credit hours in topics

integral to each Concentration. Courses taken toward a Concentration will count toward the student's LL.M. degree, and must be selected with the program advisor.

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

### *for the Master of Laws, U.S. Legal Practice Skills Concentration*

This concentration requires students to complete a minimum of 12 credit hours in topics integral to U.S. Legal Practice Skills in a third semester. The 12 credit hours for the concentration may not count towards the LL.M. degree or other concentration credit hours and must be completed in addition to the LL.M. or other concentration credit hours.

This concentration will be open to students in the LL.M. degree program at the College of Law. Students are expected to be in good standing and have a minimum overall GPA of 3.0 to be eligible for the concentration. This concentration is only available as a third-semester concentration. Interested students must apply by the listed deadline at the start of the second semester of the LL.M. degree.

## Learning Outcomes: Law, LLM

Learning Outcomes for the degree of Master of Laws

- Demonstrate basic knowledge of American substantive and procedural law. This requires:
  - The foundational rules governing liability for civil and criminal wrong doing.
  - The foundational rules that regulate the transaction of business among individuals and the ownership of property.
  - The constitutional rules that shape the American legal system.
  - The procedural rules that govern court adjudication.
  - Several advanced areas of substantive or procedural law or both.
- Use legal reasoning and legal analysis in advising and representing clients. This requires:
  - The ability to identify, formulate, and apply legal rules.
  - The ability to read and analyze judicial opinions.
  - The ability to parse and interpret statutes, regulations, contracts, and other similar legal texts.
  - The ability to construct legal arguments and evaluate critically one's own and others' legal arguments.
  - The ability to identify and evaluate the practical consequences of various legal rules and to formulate policy arguments for and against those rules.
- Bring practical legal skills to bear in resolving clients' legal problems. This requires:
  - The ability to write clearly and effectively in a wide range of legal contexts and for various audiences, such as courts, clients, opposing counsel and academics.
  - The ability to articulate one's thoughts verbally in a clear and effective manner.
  - Knowledge of and ability to use tools of legal research.
  - The ability to identify and gather factual information relevant to the application of legal rules.
  - The ability to work collaboratively with others, including others with opposing interests.
  - Knowledge and understanding of practical aspects of the legal profession and market for legal services.

4. Conduct himself or herself professionally and in keeping with the highest standards of civic virtue. This requires:
  - a. Knowledge and appreciation of the ethical rules governing legal practice.
  - b. The ability to learn and grow professionally through self-reflection and continuing education.
  - c. An understanding of the lawyer's distinctive role in society and of the lawyer's concomitant responsibility to contribute to society through public service and pro bono representation.
  - d. The ability to understand and be understood across various social, economic, cultural, political, national, racial, gender, and ethnic backgrounds.

Library & Information Science, MS and African Studies, MA (p. 2005)

Library & Information Science, MS and History, MA (p. 2015)

Library and Information Science, MS & Law, JD ([https://nextcourses.illinois.edu/graduate/is\\_law/joint-degree/library-information-science-ms-law-jd/](https://nextcourses.illinois.edu/graduate/is_law/joint-degree/library-information-science-ms-law-jd/))

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 2005)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

## School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

## Facilities and Resources

Among the major areas of faculty research are:

- community informatics
- data analytics
- data curation
- digital humanities
- digital libraries
- history of information
- information retrieval
- organization of knowledge and information
- privacy, security, and trust
- ethics and values for information
- youth literature, culture, and services

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, Library Trends and The Bulletin of the Center for Children's Books. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

### *for the Certificate of Advanced Study Major in Library & Information Science (on campus or online)*

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
IS 593	Advanced Topics in Preservation & Tech Services	8
Elective hours (max. of 8 hours of Independent Study)		32
<b>Total Hours</b>		<b>40</b>

### **Other Requirements (may overlap)**

Requirement	Description
Masters Degree in Library and Information Science is required for admission	
A concentration is not required.	
Minimum Hours Required Within the Unit:	24
Minimum 500-level Hours Required Overall:	12

The credit-no credit option can only be applied to courses taken outside the library and information science curriculum and courses taken with this option can not be applied to the degree.

Minimum GPA:	3.25
--------------	------

## **Learning Outcomes: Library & Information Science, CAS**

Learning Outcomes for the Certificate of Advanced Study Major in Library & Information Science (on campus or online)

---

1. Identify a problem or challenge facing a precisely defined professional community.
2. Articulate current community understanding of and practice with respect to the challenge or problem.
3. Explain the challenge and its broad implications to an audience of professional peers
4. Design a plan of action for engaging with the challenge.
5. Develop and communicate a demonstration of the plan and its execution.

# Library & Information Science, MS

*for the degree of Master of Science in Library & Information Science (on campus & online)*

**dean:** Eunice Santos

**overview of MS/LIS admissions & requirements:** <https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply> (<https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/>)

**program contact:** Moises Orozco Villicana

**phone:** (217) 333-7197, (800) 982-0914 (within the US)

**email:** [ischool-apply@illinois.edu](mailto:ischool-apply@illinois.edu)

The MS in LIS is accredited by the American Library Association (ALA). Two scheduling options are available to students pursuing the MS degree.

## On-campus or Online

The on-campus option serves students who are in residence at Urbana-Champaign, as well as part-time, commuting students. The online scheduling option is an online education option that uses the Internet and other information technologies for delivery.

A thesis is not required but is available as an option. Students prepare for careers in all types of information organizations. Examples of the professional positions graduates hold include: Internet trainer, webmaster, and knowledge manager, as well as work in reference, automated systems, cataloging, youth services, school media, and other positions in public, academic, school, and special libraries.

## Graduate Degree Programs in the School of Information Science

Bioinformatics: Information Sciences, MS (p. 1134) **(on campus & online)**

Information Management, MS (p. 1448) **(on campus & online)**

Library & Information Science, MS (p. 1503) **(on campus & online)**

Library & Information Science, CAS (p. 1499) **(on campus & online)**

Information Sciences, PhD (p. 1451)

**concentration:**

Writing Studies (p. 1934)

### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 2005)

Library & Information Science, MS and History, MA (p. 2015)

Library and Information Science, MS & Law, JD ([https://nextcourses.illinois.edu/graduate/is\\_law/joint-degree/library-information-science-ms-law-jd/](https://nextcourses.illinois.edu/graduate/is_law/joint-degree/library-information-science-ms-law-jd/))

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 2005)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics

requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

### School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

### Facilities and Resources

Among the major areas of faculty research are:

- community informatics
- data analytics
- data curation
- digital humanities
- digital libraries
- history of information
- information retrieval
- organization of knowledge and information
- privacy, security, and trust
- ethics and values for information
- youth literature, culture, and services

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, Library Trends and The Bulletin of the Center for Children's Books. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

### Financial Aid

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

### *for the degree of Master of Science in Library & Information Science (on campus & online)*

For additional details and requirements, refer to the unit's Graduate Programs of Study (<https://ischool.illinois.edu/degrees-programs/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

**This degree program can be completed with or without a thesis, either on campus or online; the requirements are listed below:**

#### Thesis Option

Code	Title	Hours
IS 505	Information Organization and Access	4
IS 510	Libraries, Information and Society	2 or 4
Research/Project/Independent Study Hours (4 max applied toward degree)		4
IS 599	Thesis Research	8
Total Hours		40

## Non-Thesis Option

Code	Title	Hours
IS 505	Information Organization and Access	4
IS 510	Libraries, Information and Society	2 or 4
Research/Project/Independent Study Hours (4 max applied toward degree)		4
Total Hours		40

## Other Requirements for both Thesis and Non-Thesis

Requirement	Description
Other requirements may overlap	
Minimum Hours Required Within the Unit:	28
Minimum 500-level Hours Required Overall:	12
A C grade or better in required courses.	
The credit-no credit option can only be applied to courses taken outside the library and information science curriculum and courses taken with this option can't be applied to the degree.	
Minimum GPA:	2.75

## Learning Outcomes: Library & Information Science, MS

Learning outcomes for the degree of Master of Science in Library & Information Science (on-campus & online)

---

Graduates of the Illinois MS/LIS program will be able to:

1. Apply foundational concepts, theories, and principles to problems of information organization and access.
2. Communicate capably with diverse stakeholders, promoting not just access to but also effective use of information services and systems in specific contexts.
3. Use evidence to help address information problems, meet information needs, and create relationships in their institutions, communities, profession, and the world.
4. Compare and critique contemporary information practices, structures, and standards in relation to historical and global alternatives.
5. Apply core ethical principles to professional practice.

# Linguistics, MA

for the degree of Master of Arts in Linguistics

**head of department:** Hye Suk James Yoon

**director of graduate studies:** Tania Ionin

**director of admissions committee:** Rakesh Bhatt

**email:** deptling@illinois.edu

**department website:** <https://linguistics.illinois.edu/>

**department faculty:** Linguistics Faculty (<https://linguistics.illinois.edu/directory/faculty/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department office:** 4080 Foreign Languages Building, 707 South Mathews, Urbana, IL 61801

**phone:** (217) 333-3563

Students are not admitted to the MA program directly. When Stage I of the doctoral program is completed doctoral students may earn the MA.

## Graduate Degree Programs in Linguistics

(Including African Languages [Bamana, Lingala, Swahili, Wolof, and Zulu], Arabic, Hindi-Urdu, Modern Greek, Persian, Sanskrit, and Turkish)

Linguistics, MA (p. 1506)

Teaching of English as a Second Language, MA (MATESL) (p. 1815)

Linguistics, PhD (p. 1509)

**optional concentrations:**

Second Language Acquisition and Teacher Education (p. 1926)

Romance Linguistics (p. 1924)

The Department of Linguistics offers graduate programs leading to the Master of Arts in Teaching English as a Second Language, and Doctor of Philosophy in Linguistics. Students are not normally admitted to a terminal master's in Linguistics degree program. More detailed information on departmental programs, offerings, admission, degree requirements, and financial aid, may be found at: [www.linguistics.illinois.edu](http://www.linguistics.illinois.edu) (<http://www.linguistics.illinois.edu>).

## Admission

Applicants to the MATESL and PhD programs in Linguistics must have completed a bachelor's degree.

For the PhD program in Linguistics, undergraduate preparation should include the study of at least one foreign language; a course equivalent to LING 400 on this campus; and a broad background in the humanities, social sciences, or mathematics.

For the MATESL program, an undergraduate major in linguistics, English, a foreign language, or education is generally recommended, though other majors are also acceptable. Applicants must present a grade point average of at least 3.0 (A = 4.0) for the last 60 hours of undergraduate work. Two years of coursework in a foreign language or the equivalent are also required.

Students may be admitted to the PhD program in Linguistics with or without a prior master's degree in linguistics or a related field. Depending on the student's prior preparation, they may be admitted either into Stage 1 of the PhD or into Stage 2 of the PhD. Students who have completed a master's degree in linguistics or a closely related field may be considered for admission to Stage 2 of the PhD program. Students without an approved prior master's degree will only be considered for admission to Stage 1 of the PhD program. Students admitted to Stage 1 must complete 40 credit hours in the areas listed on the department website, maintain a GPA of 3.5 or better in all core courses, and earn a grade of High Pass on the qualifying examination in order to advance to Stage 2. Students who are admitted directly to Stage 2, but lack any of the core courses required for Stage 1, must complete Stage 1 requirements immediately on entry into the program; the courses will not count toward the 64 hours required for Stage 2 of the PhD.

Applicants to all Linguistics graduate programs should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/) (<http://catalog.illinois.edu/graduate/las/linguistics-ma/www.grad.illinois.edu/admissions/apply/>)) and submit a statement of purpose, three letters of recommendation and a writing sample of 10-20 pages in length. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
3070 Foreign Languages Bldg.  
707 S. Mathews Ave.  
Urbana, IL 61801

Graduate Record Examination (GRE) scores are required. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 (100 preferred) on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Financial Aid

The Linguistics department aims to provide financial aid for all graduate students in the Ph.D. program in Linguistics for up to five years, in the form of fellowships, teaching assistantships, research assistantships, or departmental assistantships. To hold a teaching assistantship non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)). Some students receive aid through other units in the University. New applicants receive automatic consideration for financial aid within the department, including teaching assistantships for the non-Western languages taught in its programs. For details and applications, write to the above address.

For students in the MATESL program, financial assistance is offered to as many qualified applicants as possible, but cannot be awarded to all. A record of extensive experience in teaching English as a second language enhances a candidate's chance of receiving financial assistance during one's first semester. A limited number of University fellowships are available for exceptionally qualified candidates. Teaching assistants ([www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)) teach students in the Division's ESL program and in the Intensive English Institute.

## for the degree of Master of Arts in Linguistics

The aim of the master's program is to instruct students in the major areas of linguistic theory and the methods of linguistic analysis. Candidates for this degree must earn at least 40 graduate hours with a minimum grade point average of 3.0 (A = 4.0) and satisfy other department and Graduate College requirements.

Code	Title	Hours
<b>Core Courses:</b>		<b>20</b>
Select one course each from two of the following four areas, for a total of two courses (8 hours): (a) sociolinguistics; (b) computational linguistics; (c) psycholinguistics/acquisition; (d) second language studies/applied linguistics		
LING 501	Syntax I	
LING 502	Phonology I	
LING 507	Formal Semantics I	
One course in quantitative and/or qualitative research methods		4
LING 590	Special Topics in Linguistics	2
LING 504	Practicum	2
Elective Courses		12
<b>Total Hours</b>	<b>Master's - Stage 1</b>	<b>40</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	16
Stage 1 qualifying paper and examination, with a grade of Pass or High Pass	
Language Requirement: Students must have proficiency in one language other than their native tongue.	
Minimum GPA:	3.0

## Learning Outcomes: Linguistics, MA

Learning Outcomes for the degree of Master of Arts in Linguistics

1. Students will receive grounding in core areas of language and linguistics.
2. Students will receive grounding in their area of linguistic specialization.
3. Students will learn the research methodology appropriate for their subfield of linguistics.

4. Students will gain academic oral communication and presentation skills.
5. Students will gain academic writing skills.

# Linguistics, PhD

for the degree of Doctor of Philosophy in Linguistics

**head of department:** Hye Suk James Yoon

**director of graduate studies:** Tania Ionin

**director of admissions committee:** Rakesh Bhatt

**email:** deptling@illinois.edu

**department website:** <https://linguistics.illinois.edu/>

### Other Requirements

Requirement	Description
Other requirements may overlap	
Stage 2 qualifying paper and examination	
Language Requirement: Students must demonstrate knowledge of the structure of a language that is not their native tongue nor the same language that satisfied the foreign language requirement for the MA degree	
One of the languages with which the student is familiar (this may be the student's native language, or the language used to satisfy one of the language requirements) is a non-European or a non-Indo-European language.	
Minimum GPA:	3.0
Master's Degree Required for Admission to PhD?	Yes
Qualifying Exam Required:	Yes
Preliminary Exam Required:	Yes
Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes

## Learning Outcomes: Linguistics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Linguistics

1. Students will receive grounding in core areas of language and linguistics.
2. Students will receive grounding in their area of linguistic specialization.
3. Students will learn the research methodology appropriate for their subfield of linguistics.
4. Students will gain academic oral communication and presentation skills.
5. Students will gain academic writing skills.
6. Students will learn to prepare a portfolio for the job market.

# Livestock Systems Health, MVS

*for the degree of Master of Veterinary Science in Livestock Systems Health*

**dean of the college:** Peter D. Constable

**faculty sponsor:** James F. Lowe

**overview of admissions & requirements:** <https://online.vetmed.illinois.edu/MVS-Application-Process> (<https://online.vetmed.illinois.edu/MVS-Application-Process/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** College of Veterinary Medicine (<http://www.vetmed.illinois.edu/>)

**department website:** Master Veterinary Science (<https://online.vetmed.illinois.edu/Master-Veterinary-Science/>)

**college office:** i-Learning Center, 2938 Veterinary Medicine Basic Science Building, 2001 S Lincoln Avenue, Urbana, IL 61802

**phone:** 217-300-7439

**email:** [ilearningvetmed@illinois.edu](mailto:ilearningvetmed@illinois.edu)

The primary goal of the MVS degree program is to develop critical thinking skills, instill the desire to be life-long learners, and increase the depth and breadth of veterinary professional knowledge for food-producing animal industries. It aims to develop the skills needed to thrive in multiple career paths including specialized clinical practice, academia, industry, government, and clinical research. The Master of Veterinary Science with a major in Livestock Systems Health is a 32-hour program that will take approximately two years to complete. Design of the program focused on students currently in the workforce.

Elective courses will include but are not limited to the following subject areas:

- Pathogen biology
- Immunology and Medical Microbiology
- Epidemiology and animal health economics
- Infectious disease control and management
- Systems management and systematic approaches to problem solving

**The Master of Science in Management can be completed either on campus or online.**

The Master of Science in Management is a 36 graduate hour master's program. It is designed to provide a foundation for practitioners leading and managing teams, units, or organizations. It provides a general management foundation and an opportunity to focus on a particular area of specialization.

Students in this program are not eligible for tuition and fee waivers, except for those that are statutory.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Finance (p. 1909), Supply Chain Management (p. 1930)

Business Analytics, MS (p. 1169)

Management, MS (p. 1514)

**with optional concentrations:** Business Data Analytics (p. 1886), Finance, (p. 1909) Corporate Governance & International Business (p. 1894)

Technology Management, MS (p. 1830)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Finance (p. 1909), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Business Administration, PhD (p. 1166)

### Minors:

Information Technology & Control (p. 1984)

Corporate Governance & International Business (p. 1971)

Supply Chain Management (p. 1998)

### Concentrations:

Business Data Analytics (p. 1886)

Corporate Governance & International Business (p. 1894)

Information Technology & Control (p. 1916)

Supply Chain Management (p. 1930)

### Certificates:

Digital Marketing, CERT (p. 1940)

Entrepreneurship & Strategic Innovation, CERT (p. 1942)

Financial Management, CERT (p. 1944)

Global Challenges in Business, CERT (p. 1946)

Managerial Economics & Business Analysis, CERT (p. 1948)

Strategic Leadership Management, CERT (p. 1953)

Value Chain Management, CERT (p. 1954)

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

## Admission

Admission to the MS in Management program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours and for any previous graduate work completed along with completion of at least one college-level quantitative methods class. For additional details, please refer to the program's website. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOFEL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections.

## Faculty Research Interests

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The Gies College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

## Financial Aid

The M.S. in Business Administration, the M.S. in Management, the M.S. in Strategic Brand Communication, and the M.S. in Technology Management do not provide assistantships. Tuition and fee waivers are not available for this program.

*for the Master of Science in Management (on-campus and online)*

The MS in Management requires a minimum of 36 hours. Students are required to take at least 2 credit hours in each of the six courses listed under General Management Foundation Courses (12+ hours). Any remaining credit hours of the 24 credit hour core requirement need to be fulfilled by taking General Management Elective Courses. Students also need 12 credit hours of Graduate General Elective courses, which provide flexibility for

individualization. Students with sufficient demonstrated background in one or more general management areas may, with permission of the program, replace General Management Foundation courses with additional General Management Elective or Graduate General Electives.

For additional details and requirements, refer to the department's Program Curriculum (<https://giesbusiness.illinois.edu/msm/curriculum/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
<b>General Management Foundation Courses</b>		<b>12-24</b>
ACCY 503	Managerial Accounting	
FIN 500	Introduction to Finance	
BADM 508	Leadership and Teams	
BADM 520	Marketing Management	
BADM 544	Strategic Management	
BADM 567	Process Management	
<b>General Management Electives</b>		<b>0-12</b>
ACCY 500	Accounting Measurement, Reporting, and Control	
BADM 502	Communicating with Data and Decision Making	
BADM 513	Communication Strategy in Bus	
BADM 550	Business Practicum	
BADM 588	Business Practice Immersion	
<b>Graduate General Electives - up to 12 hours of general graduate electives as needed to meet the minimum number of hours required.</b>		<b>12</b>
<b>Total Hours</b>		<b>36</b>

### Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall	24
Minimum GPA:	2.75
International students with TOEFL scores below 613 (paper-based), 257 (computer-based), or 103 (internet-based), or IELTS score below 7.0, are required to take the English Placement Test (EPT) when they arrive on campus. After taking the EPT, most students are required to take a Business English course sequence. For these students, completion of the ESL course sequence is mandatory but does not count towards the 36 hour degree requirement.	

# Management: Technology Management, MS

for the degree of Master of Science in Management, Technology Management concentration

**phone:** (217) 333-4240

The concentration in Technology Management is designed to develop managers who can work effectively in technology intensive areas.

The concentration is open to students enrolled in:

Management, MS (p. 1514)

This concentration requires twelve graduate hours of Technology Management coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Supply Chain Management (p. 1930)

Management, MS (p. 1514)

# Materials Engineering, MENG

for the degree of Master of Engineering in Materials Engineering

## This program is not currently accepting applications.

### Other Graduate Programs in the Department of Materials Science & Engineering

degrees:

Materials Science & Engineering, MS (p. 1521)

#### optional concentrations:

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science & Engineering (p. 1892)

Materials Science & Engineering, PhD (p. 1524)

#### optional concentrations:

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science & Engineering (p. 1892)

The Department of Materials Science & Engineering (MatSE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Materials Science & Engineering. The department is consistently ranked among the top programs in the nation (undergraduate and graduate) by U.S. News and World Report. It offers opportunities to specialize in Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions with strong research programs in all of the areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Master of Engineering in Materials Engineering

For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate-programs/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 585	Materials Engrg Practicum (The equivalent of two semesters of industrial internships or co-ops (30 weeks total; one of the semesters can be during the B.S. program or prior to enrollment).) <sup>1</sup>	2
Two MSE area specialty courses in the student's chosen area of specialization.		6
MSE area specialty courses in one area outside the student's chosen area of specialization (subject to Other Requirements and Conditions below)		3-6
Technical elective course - Chosen from list appropriate for the student's area of specialization		3
Elective courses – At least 10 hours of these elective courses shall be College of Engineering courses in one or more of the areas of business, technology management, and entrepreneurship as listed on an approved list available from the department. There is the possibility of obtaining one of the Technology Entrepreneur Center Certificates.		13-20
Total Hours		36

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Minimum hours of MSE course work	11
Minimum of 500-level credit hours overall applied toward the degree.	12
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 2 hours may be applied toward the degree.	
A maximum of 2 hours of MSE 529 or MSE 559 in combination may be applied toward the degree: <sup>2</sup>	Ceramics, Electronic Materials, and Metallurgy area majors take MSE 529 every semester in residence; Polymer and Biomaterials area majors take MSE 559 every semester in residence

One or two MSE area specialty courses in one area outside the student's chosen area of specialization are required (two if one was not taken as part of the B.S. program)

Minimum GPA:

3.0

- <sup>1</sup>      *Students who are admitted to the M. Eng. program are responsible for finding a suitable internship. Department or college staff may be able to help students in their search for a suitable placement suitable internship but the department does not guarantee a placement. The MSE 585 internship requires approval by the departmental Director of Graduate Studies to insure that it matches the student's individual career objectives and meets the learning goals of the program. Students taking an internship as part of their undergraduate B.S program should also check with the Director of Graduate Studies; his/her approval is required if the student is already accepted in the combined B.S./M.Eng. Program. Students returning to the university after having had materials engineering employment experience, if it is deemed appropriate, may use that as their internship and base their report on that experience*
- <sup>2</sup>      *Students will be expected to present an oral report on their internship in either MSE 529 or MSE 559, as appropriate, the semester following completion of the internship.*

## Learning Outcomes: Materials Engineering, MENG

Learning Outcomes for the degree of Master of Engineering in Materials Engineering

- 
1. The ability of students to function as independent scientists and engineers.
  2. A deep understanding of the underlying principles of the appropriate theories in their subject area.
  3. A deep understanding of the underlying principles of the synthesis and preparation of their subject materials.
  4. A deep understanding of the underlying principles of characterization of their subject materials.
  5. A deep understanding of the underlying principles of processing of their subject materials.
  6. A deep understanding of interrelationships of structure, processing and properties of their subject materials.
  7. A broad knowledge of the preparation, characterization and processing of all types of materials.

---

## Admission Requirements

Students with bachelor's or master's degrees in the natural sciences or engineering will be considered for admission if they have a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate study. The general test of the Graduate Record Examination (GRE) (<http://www.ets.org/>) is required. Admission is possible for the spring semester under special circumstances, but most admissions are for the fall semester. Full details of admission requirements are on the department's graduate admissions Web site (<https://matse.illinois.edu/admissions/graduate-admissions/>).

All applicants whose native language is not English are required to submit the results of the TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) as evidence of meeting the English proficiency requirements for full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>). Under certain circumstances applicants may be exempt (<https://grad.illinois.edu/admissions/instructions/04c/>) from the TOEFL/IELTS requirement.

## Financial Aid

Except for special circumstances, MatSE does not provide financial aid to students in the MS program. When available, financial aid is in the form of teaching assistantships.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the TOEFL iBT or IELTS, a minimum score of 4CP, 5 or 6 is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

The backgrounds of faculty members vary widely within the broad areas of Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions. In addition, research collaborations with other faculty outside the department are frequent. For a detailed list of faculty research interests and publications, view the MatSE department's faculty biographies. (<https://matse.illinois.edu/directory/faculty/>)

The MatSE department has an outstanding array of facilities available for materials research. These facilities, in addition to laboratories in the department's buildings, include, among others, the Materials Research Laboratory, Center for Microanalysis of Materials, Beckman Institute for Advanced Science and Technology, and Micro and Nanotechnology Laboratory. The National Center for Supercomputing Applications and the MRL Center for Computation are readily available. Information about these facilities may be found at the MatSE department's facilities information Web site (<http://www.matse.illinois.edu/research/facilities.html>).

The Department of Materials Science & Engineering (MatSE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Materials Science & Engineering. The department is consistently ranked among the top programs in the nation (undergraduate and graduate) by U.S. News and World Report. It offers opportunities to specialize in Nanoscale Science and Technology, Materials for Energy and the Environment, Materials for Medicine, and Mechanical Properties and Materials for Extreme Conditions with strong research programs in all of the areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Doctor of Philosophy in Materials Science & Engineering

For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate-programs/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Entering with approved M.S. degree

Code	Title	Hours
MSE 599	Thesis Research (min-max applied toward the degree)	44
One of CHEM 544, MSE 500, PHYS 504 with a grade of B or higher		4
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 595	Materials Colloquium	0-2
Advisor group meetings (MSE 590) and area seminars (MSE 529, MSE 559) (subject to Other Requirements and Conditions below)		0-4
Elective courses (subject to Other Requirements and Conditions below)		10-16
Total Hours		64

## Other Requirements and Conditions <sup>1</sup>

Requirement	Description
Other Requirements and Conditions may overlap	
MSE course work hours	10
500-level credit hours applied toward the degree	10
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 2 hours may be applied toward the degree.	
MSE 529 or MSE 559 (0 or 1 hours) must be taken every semester. A maximum of 4 hours may be applied toward the degree.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: <sup>2</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements, please refer to the department's Graduate Degree Requirements Handbook (<https://matse.illinois.edu/academics/graduate/handbook.html>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

<sup>2</sup> Qualifying Exam Information (<https://matse.illinois.edu/academics/graduate/exams/>)

**Entering with approved B.S. degree**

Code	Title	Hours
MSE 599	Thesis Research (min-max applied toward the degree)	52
One of CHEM 544, MSE 500, PHYS 504 with a grade of B or higher		4
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
MSE 595	Materials Colloquium	0-4
Advisor group meetings (MSE 590) and area seminars (MSE 529, MSE 559) (subject to Other Requirements and Conditions below)		0-8
Elective courses (subject to Other Requirements and Conditions below) (28-40 hours)		28-40
Total Hours		96

**Other Requirements and Conditions <sup>1</sup>**

Requirement	Description
Other Requirements and Conditions may overlap	
MSE course work hours	10
500-level credit hours applied toward the degree	10
MSE 595 (0 or 1 hour) must be taken every semester in the first two years of residence. A maximum of 4 hours may be applied toward the degree.	
MSE 529 or MSE 559 (0 or 1 hours) must be taken every semester. A maximum of 8 hours may be applied toward the degree.	
These students may earn a Master of Science degree during the Ph.D. program.	
Ph.D. exam and dissertation requirements:	
Qualifying exam: <sup>2</sup>	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

<sup>2</sup> Qualifying Exam Information (<https://matse.illinois.edu/academics/graduate/exams/>)

**Learning Outcomes: Materials Science & Engineering, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Materials Science & Engineering

1. The ability of students to function as independent scientists and engineers.
2. A deep understanding of the underlying principles of the appropriate theories in their subject area.
3. A deep understanding of the underlying principles of the synthesis and preparation of their subject materials.
4. A deep understanding of the underlying principles of characterization of their subject materials.
5. A deep understanding of the underlying principles of processing of their subject materials.
6. A deep understanding of interrelationships of structure, processing and properties of their subject materials.
7. A broad knowledge of the preparation, characterization and processing of all types of materials.

# Mathematics, MS

for the Master of Science in Mathematics

**department chair:** Vera Hur

**director of graduate studies:** Yuliy Baryshnikov

**email:** [math-grad@illinois.edu](mailto:math-grad@illinois.edu)

The MS in Mathematics program allows students a wide range of course choices and can offer good preparation either for a job in industry or for pursuit of a doctorate in mathematics at another university. It is rare, though not impossible, for students to enter the PhD program at the University of Illinois after finishing the MS in Mathematics. The degree requires 32 credit hours and can normally be completed in 18 months. A master's thesis is optional. Applications are accepted for Fall semester each year. Financial aid is generally not available.

## Graduate Degree Programs in Mathematics

Actuarial Science, MS (p. 992)

Applied Mathematics, MS (p. 1041)

Mathematics, MS (p. 1527)

Mathematics, PhD (p. 1529)

### optional concentrations:

Actuarial Science & Risk Analytics (p. 1531)

Computational Science and Engineering (p. 1892)

Teaching of Mathematics, MS (p. 1820)

Computational Science and Engineering (p. 1892)

for the Master of Science in Mathematics

For additional details and requirements refer to the department's Guide to Graduate Studies (<https://files.webservices.illinois.edu/7917/GraduateGuide18-19.pdf>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Thesis Option

Code	Title	Hours
Select one of the following:		3-4
MATH 448	Complex Variables	
MATH 540	Real Analysis	
MATH 542	Complex Variables I	
Select one of the following:		3-4
MATH 418	Intro to Abstract Algebra II	
MATH 500	Abstract Algebra I	
MATH 501	Abstract Algebra II	
MATH 599	Thesis Research (min/max applied toward degree)	4
Total Hours Required: 32		

## Other Requirements

Requirement	Description
Other requirements may overlap	
MATH 405, MATH 406, MATH 415, MATH 444, and MATH 499 cannot be counted toward this graduate degree.	

Minimum Hours Required Within the Unit:	24
Minimum 500-level Hours Required Overall:	12 (in MATH)
Minimum GPA:	3.0

### Non-Thesis Option

Code	Title	Hours
Select one of the following:		3-4
MATH 448	Complex Variables	
MATH 540	Real Analysis	
MATH 542	Complex Variables I	
Select one of the following:		3-4
MATH 418	Intro to Abstract Algebra II	
MATH 500	Abstract Algebra I	
MATH 501	Abstract Algebra II	

Total Hours Required: 32

### Other Requirements

## Learning Outcomes: Mathematics, MS

Learning Outcomes for the Master of Science in Mathematics

- 
1. Students will have a strong understanding of abstract algebra.
  2. Students will have a strong understanding of real analysis.
  3. Students will gain the ability to engage with theoretical mathematical thinking at the graduate level.
  4. Students will gain experience in original research in mathematics, if desired. This goal applies to students on the thesis track of this program.

# Mathematics, PhD

for the Doctor of Philosophy in Mathematics

## Graduate Degree Programs in Mathematics

Actuarial Science, MS (p. 992)

Applied Mathematics, MS (p. 1041)

Mathematics, MS (p. 1527)

Mathematics, PhD (p. 1529)

**optional concentrations:**

Actuarial Science & Risk Analytics (p. 1531)

Computational Science and Engineering (p. 1892)

Teaching of Mathematics, MS (p. 1820)

Computational Science and Engineering (p. 1892)

for the Doctor of Philosophy in Mathematics

Students working toward a Ph.D. degree usually require from four to six years to complete the requirements. Each student must pass the comprehensive examinations (testing the student's knowledge of basic graduate-level mathematics in algebra, analysis, and other areas) and the preliminary examination (testing the student's ability to begin or continue research in a chosen field). Students must also write and defend a research thesis in their field of mathematics.

For additional details and requirements refer to the department's Guide to Graduate Studies (<https://math.illinois.edu/academics/graduate-program-mathematics/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Requirements

Code	Title	Hours
Students must demonstrate competence in five core courses. Two of these are required to be MATH 500 (Abstract Algebra) and MATH 540 (Real Analysis). The remaining three can be chosen from the following list of electives: MATH 511, MATH 518, MATH 525, MATH 530, MATH 531, MATH 542, MATH 550, MATH 553, MATH 561, MATH 563, MATH 570, MATH 580. To demonstrate competence, a student must receive a B+ or higher in the course, or pass a written exam on the topic.		20
Students must also demonstrate proficiency in undergraduate complex analysis, which can be done by a B+ in MATH 448, a B+ in MATH 542, or by passing the exam associated to MATH 542.		0-4
Master's equivalency		32
MATH 599	Thesis Research (0 min applied toward degree)	0
Total Hours:		96

## Other Requirements

Requirement	Description
Other requirements may overlap	
MATH 405, MATH 406, MATH 415, MATH 444, and MATH 499 cannot be counted toward this graduate degree.	
64 hours in residence	
Masters Degree Required for Admission to PhD?	No
Comprehensive Exam Required	Yes

Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes

The Concentration attracts students with strong interest in financial risk analytics and actuarial applications of mathematics, and equips them with advanced analytical tools for professional and academic careers. Students in the Concentration complete coursework or professional exams in Probability, Risk Modeling and Analysis, Mathematical Statistics, Theory of Finance, and Actuarial Models for Life Contingencies or Financial Economics.

## Graduate Degree Programs in Mathematics

Actuarial Science, MS (p. 992)

Applied Mathematics, MS (p. 1041)

Mathematics, MS (p. 1527)

Mathematics, PhD (p. 1529)

### optional concentrations:

## Learning Outcomes: Mathematics, PhD

Learning Outcomes for the Doctor of Philosophy in Mathematics

1. Acquire a foundation in abstract algebra at the graduate level.
2. Acquire a foundation in real analysis at the graduate level.
3. Acquire a suitable breadth of knowledge to provide a foundation for undertaking high-level research.
4. Gain a broad understanding of the range of current research in the mathematical sciences.
5. Demonstrate depth of knowledge in chosen area of research specialization.
6. Gain the ability to conduct independent mathematical research at a professional level.
7. Gain experience and competence in the teaching of mathematics at the college level.

# Mechanical Engineering, MENG

for the degree of Master of Engineering in Mechanical Engineering (on campus & online)

---

The MEng in Mechanical Engineering is a professionally-oriented degree that provides advanced knowledge and experiential opportunities beyond that of a bachelor's degree. Students may choose to design their curriculum around three tracks of study: Design, Energy, and Control & Manufacturing. Alternate tracks of study may be pursued with the approval and guidance of the director of the MEng program.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1884) optional graduate concentration and ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1890) optional graduate concentration.

---

## Admission Requirements

An applicant for admission to the MEng program at the Department of Mechanical Science and Engineering must:

1. Be a graduate of an institution awarding a baccalaureate degree equivalent to that granted by the University of Illinois at Urbana-Champaign in engineering or a related field;
2. Be adequately prepared for advanced study as demonstrated by his or her previous program of study and scholastic record; and
3. Be recommended for admission by the Department of Mechanical Science and Engineering. A minimum grade point average of 3.00 (A = 4.00) for the last two years of undergraduate study is required.

Due to COVID 19 the department of Mechanical Science and Engineering is waiving the GRE requirement for the Fall 2021 cycle.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

The Department of Mechanical Science and Engineering accepts MEng applications for both Spring and Fall terms.

## Financial Aid

Students in the MEng in Mechanical Engineering program are not eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois.

---

## Other Graduate Programs in the Department of Mechanical Science & Engineering

degree programs:

Mechanical Engineering, MS (p. 1535)  
 Mechanical Engineering, PhD (p. 1538)  
 Theoretical & Applied Mechanics, MS (p. 1842)  
 Theoretical & Applied Mechanics, PhD (p. 1845)

#### optional concentrations available for MS and PhD programs:

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science & Engineering (p. 1892)

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

*for the degree of Master of Engineering in Mechanical Engineering*

## Degree Requirements

Code	Title	Hours
ME or TAM course work		12-20
Applied math/computational science requirement <sup>1</sup>		3-4
Elective courses chosen in consultation with advisor		4-8
Professional development <sup>2</sup>		4-8
<b>Total required hours</b>		<b>32</b>

<sup>1</sup> Choose from approved list; consult the program's website (<https://masterengineering.mechanical.illinois.edu/>) for more information.

<sup>2</sup> Choice or combination of (a) graduate-level capstone project (e.g., ME 597 Independent Study), or (b) course in leadership, entrepreneurship, or other business-related course.

Requirement	Description
A minimum of 4 elective hours must be completed outside of the major department.	
A minimum of 12 500-level credit hours applied toward the degree, 8 of which must be in ME or TAM.	
A maximum of 4 hours of independent study may be applied toward degree requirements.	
Elective course category may include a maximum of 4 hours of special topics credit.	
Professional development category may include a maximum of 4 hours of special topics credit.	
The minimum program GPA is 3.0.	
Requirements and conditions may overlap.	

## Learning Outcomes: Mechanical Engineering, MENG

Learning Outcomes for the degree of Master of Engineering in Mechanical Engineering

---

Illinois MechSE MEng graduates will have:

1. A solid understanding of one or more core areas of Mechanical engineering and technology entrepreneurship (e.g., mechanics of materials, combustion, controls and dynamics, manufacturing, fluid mechanics, solid mechanics).
2. Familiarity with applied math/computational science concepts relevant to Mechanical Engineering.
3. Familiarity with technical concepts in physics, math, and/or other engineering disciplines.
4. Working knowledge of how select business concepts can be applied to Mechanical Engineering.

The MS in Mechanical Engineering is available for both on-campus and online students. Prospective students planning to continue for the PhD should apply to the PhD program.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1884) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1890) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

---

## Admission Requirements

An applicant for admission to the MS program in Mechanical Engineering in the Department of Mechanical Science and Engineering must:

1. Be a graduate of an institution awarding a baccalaureate degree equivalent to that granted by the University of Illinois at Urbana-Champaign;
2. Be adequately prepared for advanced study as demonstrated by his or her previous program of study and scholastic record; and
3. Be recommended for admission by the Department of Mechanical Science and Engineering. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required, and a minimum grade point average of 3.50 (A = 4.00) is required for any previous graduate work completed.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based on the previous preparation of the student, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College. Students applying to the online program must satisfy the full status admissions requirement.

The Department of Mechanical Science and Engineering accepts MS applications for both Spring and Fall terms.

## Financial Aid

Students admitted to the MS program are eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois. All applicants whose native language is not English, regardless of US citizenship, who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8.0 on the speaking subsection of the IELTS. Students who are already at Illinois may request to take the on-campus EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), for which the minimum passing score for TA eligibility is 4CP. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) prior to the start of their first semester as a teaching assistant.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in both the ME and TAM MS programs.

## Department Research

A new paradigm in research is being created in the department by integrating basic sciences such as biology, chemistry, applied mathematics, and applied physics with the traditional mechanical engineering and engineering mechanics disciplines of fluid mechanics/thermal sciences, solid mechanics/materials and controls/dynamics. This integration is fostering new directions and discoveries in nanomechanics, nanomanufacturing, biomechanics and computational science and engineering.

The goal of all research in the department is to address critical societal problems in the areas of health, security/defense, energy/environment, manufacturing, and transportation. While the basic function of departmental research is generation of new knowledge, a growing number of projects are prompted by current needs of the state of Illinois, the United States, and the world. For more information, see the department's research Web site (<https://mechanical.illinois.edu/research/>).

MechSE faculty are major participants in activities at the department, college, and university level via research centers and programs that are integral to the MechSE graduate program. For more information, see the department's research centers Web site (<https://mechanical.illinois.edu/mechse-research-centers/>).

MechSE's wealth of research laboratories allows faculty, graduate and undergraduate research assistants, and postdoctoral and visiting scholars to conduct theoretical and experimental investigations of phenomena related to materials behavior, combustion, micro- and nanomechanical systems, controls and dynamics, thermodynamics, biomechanics, and much more. For more information, see the department's research laboratories Web site (<https://mechanical.illinois.edu/research/mechse-laboratories/>).

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

for the degree of Master of Science in Mechanical Engineering (on campus & online)

---

The online MSME degree program offers both a thesis (32 credit hours) and non-thesis (36 credit hours) option. Online students have five years to complete the degree requirements. The degree awarded through our online program is the exact same degree awarded to on-campus MSME students.

For additional details and requirements refer to the department's graduate program requirements (<http://mechanical.illinois.edu/graduate/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

---

## Thesis Option

Code	Title	Hours
ME 599	Thesis Research (min-max applied toward the degree)	4-8
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
ME 590	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Elective courses (formal graded coursework) – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		24-28
Total Hours		32

**Other Requirements and Conditions (may overlap)**

Requirement	Description
A minimum of 8 ME or TAM credit hours with 4 at the 500 level.	
A minimum of 12 500-level credit hours applied toward the degree.	
For the thesis option, a maximum of 4 hours of ME 597 or TAM 597 (or other approved independent study) may be applied toward the elective course work requirement.	
No ME 599 credit may be applied toward the elective course work requirement (599 is not formal graded coursework).	
Minimum GPA:	3.0

**Non-Thesis Option**

Code	Title	Hours
MSE 492	Lab Safety Fundamentals (credit does not apply toward the degree)	0
ME 590	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
ME 597	Independent Study	4
or TAM 597	Advanced Independent Study	
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		32
Total Hours		36

**Other Requirements and Conditions (may overlap)**

Requirement	Description
A minimum of 8 ME or TAM credit hours with 4 at the 500 level.	
A minimum of 12 500-level credit hours applied toward the degree.	
Departmental approval is required to pursue the non-thesis option.	
Minimum GPA:	3.0

**Learning Outcomes: Mechanical Engineering, MS**

Learning Outcomes for the degree of Master of Science in Mechanical Engineering (on campus & online)

Illinois MechSE ME graduates will have:

1. A deep understanding of at least one core area of Mechanical engineering (e.g., mechanics of materials, combustion, controls and dynamics, manufacturing, fluid mechanics, solid mechanics). [MS/PhD]
2. A broader understanding of at least 1-2 areas of Mechanical Engineering that are different from the area of research of the student's thesis. [MS/PhD]
3. Ability to think critically and creatively in defining research questions and to outline strategies of inquiry. [MS/PhD]
4. Ability to document research outcomes comprehensively for publication. [MS/PhD]
5. Ability to communicate research results to scientific audience in conferences. [PhD]
6. Ability to work collaboratively with other peers. [MS/PhD]

# Mechanical Engineering, PhD

for the degree of Doctor of Philosophy in Mechanical Engineering

**department head:** Anthony Jacobi (a-jacobi@illinois.edu)

**director of graduate studies:** Petros Sofronis

**college website:** <https://grainger.illinois.edu/>

**contact:** Amy Cates (acate2@illinois.edu)

**address:** 168 Mechanical Engineering Building, 1206 West Green Street, Urbana, IL 61801

**phone:** (217) 300-6722

**email:** mechse-grad@illinois.edu

The Department of Mechanical Science & Engineering offers both a traditional doctoral program (for students with a previous master's degree) and a direct doctoral program (for students with only a bachelor's degree) in Mechanical Engineering.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1884) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1890) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

An applicant for admission to the PhD program in Mechanical Engineering in Department of Mechanical Science and Engineering must:

1. Be a graduate of an institution awarding a baccalaureate degree equivalent to that granted by the University of Illinois at Urbana-Champaign;
2. be adequately prepared for advanced study as demonstrated by his or her previous program of study and scholastic record; and
3. be recommended for admission by the Department of Mechanical Science and Engineering. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required, and a minimum grade point average of 3.50 (A = 4.00) is required for any previous graduate work completed.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

The Department of Mechanical Science and Engineering accepts PhD applications for both Spring and Fall terms.

## Financial Aid

Students admitted to the PhD program are eligible for Board of Trustees (BOT) tuition-waiver generating appointments at the University of Illinois, including research assistantships, teaching assistantships, and fellowships. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants whose native language is not English, regardless of US citizenship, who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8.0 on the speaking subsection of the IELTS. Students who are already at Illinois may request to take the on-campus EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), for which the minimum passing score for TA eligibility is 4CP. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) prior to the start of their first semester as a teaching assistant.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in both the ME and TAM PhD programs.

## Department Research

A new paradigm in research is being created in the department by integrating basic sciences such as biology, chemistry, applied mathematics, and applied physics with the traditional mechanical engineering and engineering mechanics disciplines of fluid mechanics/thermal sciences, solid mechanics/materials and controls/dynamics. This integration is fostering new directions and discoveries in nanomechanics, nanomanufacturing, biomechanics and computational science and engineering.

The goal of all research in the department is to address critical societal problems in the areas of health, security/defense, energy/environment, manufacturing, and transportation. While the basic function of departmental research is generation of new knowledge, a growing number of projects are prompted by current needs of the state of Illinois, the United States, and the world. For more information, see the department's research Web site (<https://mechanical.illinois.edu/research/>).

MechSE faculty are major participants in activities at the department, college, and university level via research centers and programs that are integral to the MechSE graduate program. For more information, see the department's research centers Web site (<https://mechanical.illinois.edu/mechse-research-centers/>).

MechSE's wealth of research laboratories allows faculty, graduate and undergraduate research assistants, and postdoctoral and visiting scholars to conduct theoretical and experimental investigations of phenomena related to materials behavior, combustion, micro- and nanomechanical systems, controls and dynamics, thermodynamics, biomechanics, and much more. For more information, see the department's research laboratories Web site (<https://mechanical.illinois.edu/research/mechse-laboratories/>).

---

## Other Graduate Programs in the Department of Mechanical Science & Engineering

degree programs:

Mechanical Engineering, MENG (p. 1533)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)

Mechanical Engineering, MS (p. 1535)

Theoretical & Applied Mechanics, MS (p. 1842)

Theoretical & Applied Mechanics, PhD (p. 1845)

**optional concentrations for MS and PhD programs:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science & Engineering (p. 1892)

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

*for the degree of Doctor of Philosophy in Mechanical Engineering*

---

For the Ph.D. program, a preliminary examination is taken after the qualifying examination. A minimum of six months should elapse between the successful completion of the doctoral preliminary examination and the doctoral final examination (oral dissertation defense).

For additional details and requirements refer to the department's graduate program requirements (<http://mechanical.illinois.edu/graduate/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

---

## Entering with approved M.S. or M.A. degree

Code	Title	Hours
ME 599	Thesis Research (min-max applied toward the degree)	44
MSE 492	Lab Safety Fundamentals (1 hour if not taken while completing the Master's degree; credit does not apply toward the degree)	0
ME 590	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Advanced math requirement from an approved list <sup>1</sup>		3-4
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		16-17
Total Hours		64

**Other Requirements and Conditions (may overlap)**

Requirement	Description
Minimum 500-level credit hours applied toward the degree	16
Maximum hours of ME 597 or TAM 597 (or other approved independent study) which may be applied only toward the elective course work requirement	4
A maximum of 4 hours of ME 597 or TAM 597 (or other approved independent study) may be applied toward the elective course work requirement.	
No ME 599 credit may be applied toward the elective course work requirement.	
Minimum GPA:	3.0
Continuous registration is required after the preliminary exam and until dissertation deposit, while on campus and during semester of final defense.	
Ph.D. exam and dissertation requirements:	
Qualifying Exam: Qualifying examinations should be taken no later than the second calendar semester after initial enrollment.	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	

<sup>1</sup> Advanced math requirement approved list (<http://mechanical.illinois.edu/graduate/mechse-graduate-degrees/phd-mechanical-engineering/>)

**Entering with approved B.S. or B.A. degree**

A student entering with a bachelor's degree has the option of a direct Ph.D. program. It does not award an M.S. degree.

Code	Title	Hours
ME 599	Thesis Research (min-max applied toward the degree)	52
MSE 492	Lab Safety Fundamentals (1 hour if not taken while completing the Master's degree; credit does not apply toward the degree)	0
ME 590	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Advanced math requirement from an approved list <sup>1</sup>		3-4
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		40-41
Total Hours		96

**Other Requirements and Conditions (may overlap)**

Requirement	Description
Minimum 500-level credit hours applied toward the degree	24
Maximum hours of ME 597 or TAM 597 (or other approved independent study) which may be applied only toward the elective course work requirement	8
A maximum of 4 hours of ME 597 or TAM 597 (or other approved independent study) may be applied toward the elective course work requirement.	
No ME 599 credit may be applied toward the elective course work requirement.	
Continuous registration is required after the preliminary exam and until dissertation deposit, while on campus and during semester of final defense.	
Ph.D. exam and dissertation requirements:	
Qualifying Exam: Qualifying examinations should be taken as early as possible, generally no later than the third semester.	
Preliminary exam	
Final exam or dissertation defense	

Dissertation deposit

Minimum GPA: 3.0

<sup>1</sup> Advanced math requirement approved list (<http://mechanical.illinois.edu/graduate/mechse-graduate-degrees/phd-mechanical-engineering/>)

**phone:** (217) 244-3542

**email:** [gradservices@education.illinois.edu](mailto:gradservices@education.illinois.edu)

The Master's of Science in Mental Health Counseling is a two-year, 61-credit hour program. The face-to-face program emphasizes training in psychological science and cultural diversity in practice across the lifespan. Students receive extensive preparation in applied psychology and complete a 100 hour (about 7 hours per week) practicum during the first year and a 600 hour (about 18 hours per week) internship during the second year. Graduates from the mental health counseling and career counseling tracks are Illinois Licensed Professional Counselor (LCP) licensure eligible. Graduates may wish to seek further training at the doctoral level in an applied psychology area or to enter the counseling field as a Master's level professional.

## Graduate Degree Programs in Educational Psychology

**optional concentrations:** Bilingual-Bicultural Education (p. 1882)|Digital Learning (p. 1901)

Educational Psychology, PhD (p. 1306)

**optional concentration:** Digital Learning (p. 1901)

Mental Health Counseling, MS (p. 1542)

**optional concentrations:**

African American Studies (p. 1879) **(available to all on campus degrees)**

Second Language Acquisition and Teacher Education (<http://www.slate.illinois.edu/>) (PhD only)

## Admission

Students entering a Ph.D. program without a master's degree must first complete the requirements for a Master of Science (including a master's thesis).

The Department offers admission to two terminal on-campus Master of Science (M.S.) degrees focusing on Quantitative and Qualitative Methodology, Measurement, and Evaluation (QUERIES) and Mental Health Counseling. There is no admission to terminal masters degrees in Cognitive Science of Teaching and Learning (CSTL), Developmental Sciences, or Counseling Psychology areas of specialization.

The department accepts applications for the Ph.D. degree, from both applicants who have completed their bachelor's degrees and those who have a master's degree. Students who enter the program without a prior master's incorporate their master's class work and research into their doctoral program, and earn a master's degree as the first step toward their Ph.D (satisfying the "Early Research Project" requirement). The department does not accept applications for master's degrees in CSTL, Developmental Sciences, or Counseling Psychology.

## Applications

Applicants must submit a complete application for university admission, including three letters of reference, transcripts from all schools where undergraduate and graduate degrees were awarded or expect to be awarded prior to the application enrollment term, and other items listed in the department Web site (<http://www.education.illinois.edu/edpsy/>). Applicants to our doctoral program and M.S. in Mental Health Counseling apply for Fall enrollment. Current deadlines are posted on our department Web site (<http://www.education.illinois.edu/edpsy/>).

Doctoral candidates are admitted into one of four divisions: CSTL, Developmental Sciences, QUERIES and Counseling Psychology. When making admission decisions, division committees consider academic performance (e.g., grade-point average, GPA), GRE scores (optional), letters of recommendation, and statement of purpose. Preference is given to those with research experience and research interests that are aligned with existing research programs in the Department.

Master's candidates are admitted into QUERIES and Mental Health Counseling.

## Grade Point Average

The preferred department standard for grade point average is 3.0 on a 4.0 scale. The University calculates undergraduate GPAs on the last two years of grades for degreed applicants and in the last one year for students who have not yet completed their bachelor's degree. Graduate GPAs are calculated on the total of all graduate level courses taken beyond the undergraduate degree.

## Test of English as a Foreign Language (TOEFL)

International applicants must demonstrate English Language Proficiency for admission. Please see <https://grad.illinois.edu/admissions/instructions/04c> (<https://grad.illinois.edu/admissions/instructions/04c/>) for additional information on this requirement.

## Area of Study Affiliation

All applicants to the Educational Psychology doctoral program must specify one of four areas in which they wish to study:

- Cognitive Science of Teaching and Learning (CSTL)
- Counseling Psychology (Counseling);
- Developmental Sciences
- Studies in Interpretive, Statistical Measurement, and Evaluative Methodologies for Research (QUERIES)

Detailed information about each area and about the research interests of the faculty can be found on the department Web site (<http://www.education.illinois.edu/edpsy/>).

Although all Ph.D. students are admitted to a specific area of study, the actual coursework, research, and faculty often overlap area boundaries. Departmental policy makes it possible for a student to change advisers and affiliation from one area to another when interests and research foci become more clearly defined or change. Many faculty members are affiliated with more than one area of study.

Mental Health Counseling M.S. students must choose one of three areas of study for their practicum experience:

- Mental Health Counseling
- Career Counseling
- Counseling and Developmental Sciences

## Faculty Research Interests

The faculty's research agendas span a wide range of topics related to the study and application of psychological principles to develop and inform educational interventions and facilitate human development across the life span. Faculty conduct basic and translational research that explores the cognitive, life-span developmental, social-emotional, and socio-cultural factors that affect behavior, learning, and achievement in educational, clinical, and community contexts. They also engage in research on approaches to educational inquiry and the development of quantitative, qualitative and evaluative methodologies that underpin the development of evidence-based, policy-relevant studies. For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Center, Programs, and Institutes

Department faculty are affiliated with both research centers and institutes in the College of Education and the university more broadly, including the Adult Learning Lab, the Center for Education in Small Urban Communities, the Center for Advanced Study, the Beckman Institute, the Center for the Study of Reading, the Social Development Consortium, and others.

## Facilities and Resources

The Department of Educational Psychology puts a high priority on working with its graduate students to secure fellowships and other awards.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

The department does not require a separate financial aid application.

### *for the degree of Master of Science in Mental Health Counseling*

A list of programs and additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edm&department=edpsy>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Students will choose one of three areas of study for their practicum:

- Mental Health Counseling
- Career Counseling
- Counseling and Developmental Sciences

# Microbiology, MS

## *for the degree of Master of Science in Microbiology*

**head of department:** James Slauch

**directors of graduate studies:** Andrei Kuzminov, Cari Vanderpool, and Rachel Whitaker

**mcb graduate admissions email:** mcb-grad@illinois.edu

**department website:** <https://mcb.illinois.edu/departments/microbiology> (<https://mcb.illinois.edu/departments/microbiology/>)

**school website:** <http://mcb.illinois.edu>

**college website:** <https://las.illinois.edu> (<https://las.illinois.edu/>)

**department office:** B103 Chemical and Life Sciences Laboratory, 601 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 333-1736

**The Department of Microbiology does not admit students to the Microbiology MS degree program.** Admission to graduate study is only through the PhD degree program. Information about the Microbiology PhD program can be found here (<http://catalog.illinois.edu/graduate/las/microbiology-phd/>).

## Graduate Degree Program in Microbiology

### Microbiology, PhD (p. 1547)

The Department of Microbiology at Illinois offers unique opportunities for graduate students to become skilled and creative microbiologists. Our graduate program of study leads to the doctor of philosophy degree (PhD). Students interested in the Microbiology PhD program must apply directly to the School of Molecular and Cellular Biology (<http://mcb.illinois.edu/>). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December and formally join the appropriate graduate program at that time.

## Admission

Applicants interested in the Microbiology PhD program will need to apply directly to the School of Molecular and Cellular Biology (MCB) PhD program, <https://mcb.illinois.edu/graduate/gradprospect/>. The MCB PhD program is an umbrella program that requires admitted students to spend their first semester rotating among three different labs to explore their interests before joining one of our four departments.

MCB Admission requirements include a bachelor's degree in biological or physical sciences, a grade point average of a 3.0 or higher (A = 4.0), prior research experience and three letters of recommendation from individuals who can attest to the applicant's academic and research background. The Graduate Record Examination (GRE) is **not** required. Applicants interested in pursuing a PhD in Microbiology should have a total of at least 15 credit hours of physical or biology sciences, including general biology, or microbiology, chemistry through organic chemistry and biochemistry, and mathematics through calculus. In addition to these requirements, non-native English speaking applicants must attain a minimum Test of English as a Foreign Language (TOEFL) overall score of 96, with a score of at least 22 on the speaking section. MCB does **not** accept the International English Language Testing System (IELTS) to show English proficiency. Graduate College requirements also apply.

## *for the degree of Master of Science in Microbiology*

The Department of Microbiology does not admit students to the Microbiology MS degree program. Admission to graduate study is only through the PhD degree program. Information about the Microbiology PhD program can be found here (<http://catalog.illinois.edu/graduate/las/microbiology-phd/>).

For specific information, refer to the Department's Graduate Student Handbook ([https://mcb.illinois.edu/departments/microbiology/downloads/microbiology\\_graduate\\_student\\_handbook.pdf](https://mcb.illinois.edu/departments/microbiology/downloads/microbiology_graduate_student_handbook.pdf)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Thesis Option

## Graduate Degree Program in Microbiology

Microbiology, PhD (p. 1547)

The Department of Microbiology at Illinois offers unique opportunities for graduate students to become skilled and creative microbiologists. Our graduate program of study leads to the doctor of philosophy degree (PhD.) We have outstanding resources in our internationally recognized faculty, graduate students, and research facilities. This exposes our students to the latest research techniques and fosters their development as independent scientists. The program has particular strengths in the areas of microbial physiology, metabolism, genetics, evolution, and pathogenesis. For an application and departmental materials that provide greater detail on programs, offerings, admission, degree requirements, and financial aid, visit our website at [www.mcb.illinois.edu/departments/microbiology/](http://www.mcb.illinois.edu/departments/microbiology/).

Graduates from the Department of Microbiology are employed in colleges and universities, industry, and government. Scientific advances in genetic engineering and biotechnology provide many opportunities in pharmaceutical, chemical, and genetic engineering companies.

The Department of Microbiology is a part of the School of Molecular and Cellular Biology (MCB), which also includes the Departments of Biochemistry, Cell and Developmental Biology, and Molecular and Integrative Physiology. The Department is part of an umbrella program in MCB that encompasses over 70 different research laboratories. Students admitted into any of these departmental graduate programs can select faculty thesis advisors from these active research laboratories in the School. Close ties are also maintained with the School of Integrative Biology, the School of Chemical Sciences, the Carle Illinois College of Medicine, and the College of Veterinary Medicine.

## Admission

Applicants interested in the Microbiology PhD program will need to apply directly to the School of Molecular and Cellular Biology (MCB) PhD program, <https://mcb.illinois.edu/graduate/gradprospect/>. The MCB PhD program is an umbrella program that requires admitted students to spend their first semester rotating among three different labs to explore their interests before joining one of our four departments.

MCB Admission requirements include a bachelor's degree in biological or physical sciences, a grade point average of a 3.0 or higher (A = 4.0), prior research experience and three letters of recommendation from individuals who can attest to the applicant's academic and research background. The Graduate Record Examination (GRE) is **not** required. Applicants interested in pursuing a PhD in Microbiology should have a total of at least 15 credit hours of physical or biology sciences, including general biology, or microbiology, chemistry through organic chemistry and biochemistry, and mathematics through calculus. In addition to these requirements, non-native English speaking applicants must attain a minimum Test of English as a Foreign Language (TOEFL) overall score of 96, with at least a score of 22 on the speaking section. MCB does **not** accept the International English Language Testing System (IELTS) to show English proficiency. Graduate College requirements also apply.

## Graduate Teaching Experience

Experience in teaching is considered to be a vital part of the graduate program and is required as part of the academic work of all PhD degree candidates. For the Department of Microbiology, a minimum of two semesters of teaching experience is a degree requirement.

## Faculty Research Interests

Major areas of research interest include gene expression and regulation in bacteria, archaea, and eukaryotes; virus pathogenesis and host-cell interactions; viruses of bacteria and archaea; membrane biogenesis; lipid and polysaccharide synthesis in bacteria and yeast; cell wall biogenesis; bacterial pathogenesis and bacteria-host interactions; immunology; DNA replication, recombination, and repair; anaerobic microbiology; the biochemistry and physiology of methane formation; mechanisms of oxygen toxicity; bacterial and archaeal genomics, ecology, and evolution. For further details, please consult the Department of Microbiology's website ([www.mcb.illinois.edu/departments/microbiology/](http://www.mcb.illinois.edu/departments/microbiology/)).

## Facilities and Resources

The Microbiology Department is located in the modern Chemical and Life Sciences Laboratory (CLSL). Central to main campus, the CLSL houses all of the major equipment and expertise necessary for research in microbiology, cell biology, molecular biology, genomics, and biochemistry.

The University of Illinois has excellent core facilities to aid in scientific research, many of which are located in buildings adjacent to CLSL. Each core facility has full-time salaried support staff for training and support. The Roy J. Carver Biotechnology Center (<http://biotech.illinois.edu/>) includes core research facilities supporting genomics, proteomics, metabolomics, flow cytometry, bioinformatics and translational medical research (<http://biotech.illinois.edu/>). The Center for Microscopic Imaging is a campus-wide service center for electron, confocal, and light microscopy.

Several services are available to graduate students for support outside of the classroom and laboratory. The University of Illinois library is the nation's third largest university library, allowing access to reference books and on-line scientific journals. The Writers Workshop offers free, personal writing assistance for class assignments, scientific manuscripts, and theses. Please visit the [School of Molecular and Cellular Biology](http://mcb.illinois.edu) (<http://mcb.illinois.edu>) to learn about these and other resources available to graduate students.

## Financial Aid

All students admitted into the PhD program receive financial support throughout their graduate training. Incoming graduate students are supported by the School of Molecular and Cellular Biology. Several University Fellowships are awarded to outstanding applicants on a competitive basis. Financial support is usually in the form of a research assistantship, teaching assistantship, and/or fellowship. In addition to this stipend, we offer a tuition and service fee waiver. A health insurance fee and other miscellaneous fees, must be paid by the student.

### *for the degree of Doctor of Philosophy in Microbiology*

The requirements for a PhD from the Department of Microbiology include successful completion of course work, teaching, two first-author manuscripts in peer-reviewed journals, passing a preliminary examination and annual assessments of progress thereafter, and writing and depositing a research thesis.

For specific information, visit the Department's Graduate Student Handbook ([https://mcb.illinois.edu/departments/microbiology/downloads/microbiology\\_graduate\\_student\\_handbook.pdf](https://mcb.illinois.edu/departments/microbiology/downloads/microbiology_graduate_student_handbook.pdf)) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
Master's level requirements		32
Core coursework:		19
MCB 501	Advanced Biochemistry	
MCB 502	Advanced Molecular and Cell Biology	
MCB 580	Res Ethics & Responsibilities	
MCB 581	Laboratory Rotation I	
MCB 582	Laboratory Rotation II	
MCB 583	Laboratory Rotation III	
MCB 585	Current Topics in Microbiology	
Registration in MICR 595 every semester of enrollment (9 min)		9
400- or 500-level discussion-based courses (3 min)		3
400- or 500-level lecture-based courses (12 min)		12
Research/Project Hours (min/max applied toward degree):		before prelim
MICR 599	Thesis Research (min/max applied toward degree)	after prelim
Total Hours		96

## Other Requirements

Requirement	Description
Other requirements may overlap	
Two first-author manuscripts in peer-reviewed journals. At the time of graduation at least one of these manuscripts must be accepted.	
A minimum of two semesters as a teaching assistant	
Masters Degree Required for Admission to PhD?	No, but Masters level requirements must be met.
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes

Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Learning Outcomes: Microbiology, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Microbiology

---

Students graduating with a PhD in Microbiology will have:

1. Effective oral communication skills that are developed via one or more of the following tasks: group discussions in courses; presentations in departmental seminar courses; discussion of scientific topics in courses; defending their work in a preliminary exam; acting as a teaching assistant for at least 2 semesters; giving yearly student seminars.
2. Effective written communication skills that are developed via one or more of the following tasks: writing at least one original, full-length manuscript that has been accepted for publication in a refereed journal; writing a dissertation; writing an NIH-style grant for the preliminary exam.
3. A level of competency and research independence commensurate with the degree, such that they can obtain an initial science-related placement in a job that uses critical thinking components.
4. Demonstrated ability to organize and execute a research project that uses critical-thinking components and problem-solving expertise, hypothesis-driven, and fills a gap in knowledge.
5. Knowledge of the discipline and acquired technical skills in general Microbiology and in their specialized Microbiology research area.

## Graduate Degree Programs in Molecular & Cellular Biology

The Master of Science in Molecular and Cellular Biology (MS in MCB) at the University of Illinois provides a non-thesis, course-based degree program for those students interested in additional advanced preparation for professional or graduate school or for future careers in industry, government or academia. The goal of the program is to provide students with a strong and broad educational background and problem-solving skill set in molecular and cellular biology at the advanced level without requiring a research thesis component. While the MS in MCB program is suitable as preparation for a PhD program in MCB or related areas, it is uncommon for students to enter the MCB PhD program at the University of Illinois after finishing this degree.

The MS in MCB degree program primarily serves two different audiences:

- Those students who wish to obtain a master's degree during a post-baccalaureate gap year, but prior to admission to professional or graduate school, by deepening and broadening their scientific knowledge base to better prepare for the next degree program.
- Those students who plan to obtain employment in industry, government, or nongovernmental organizations, where additional coursework at the advanced level would enhance their competitiveness, and in particular, where their laboratory skills could be bolstered through advanced laboratory courses without the necessity of conducting a research-based thesis project.

Students will take foundation and advanced courses from an approved list in the School of Molecular and Cellular Biology, choosing from a wide range of course topics, including biochemistry, molecular genetics, cell biology, microbiology, neurobiology, systems and computational biology, and advanced laboratory methods. Students will take advanced lecture, discussion, and seminar courses that hone scientific critical reading, analytical thinking, and communication skills that are highly desirable for advanced degree programs and future employers.

The MS in MCB degree requires a minimum of two full-time semesters of 16 credit hours each. Many students elect to take three semesters to finish the degree program. Some students may choose to take up 4 semesters to complete the program, particularly if they are employed part-or full-time. To maintain active status in the program, students must register for a minimum of 12 credit hours in 400- or 500-level MCB courses per semester.

Students entering the MS in MCB program will be expected to have completed a Bachelor's degree from an accredited 4-year college or university with undergraduate coursework in biology, chemistry, physics, calculus and English composition. Applicants must have completed the last 60 hours of coursework with grades of B (3.0 on a scale of 1 to 4) or better. Deficiencies in these areas will require additional coursework, as necessary, for successful completion of the degree.

*for the degree of Master of Science Major in Molecular & Cellular Biology*

**Minimum required major and supporting course work:** To maintain active status in the program students must register for a minimum of 12 credit hours in 400- or 500-level MCB courses per semester. A course-based master's degree requires a minimum of two full-time semesters. Consult the List of Approved Courses for the MS in MCB Program at this link ([https://mcb.illinois.edu/msmcb/MS\\_MCB\\_ApprCrList.pdf](https://mcb.illinois.edu/msmcb/MS_MCB_ApprCrList.pdf)) for the most up-to-date information. For additional details and requirements refer to the MS MCB Program Handbook and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Core Curriculum

Code	Title	Hours
<b>One 3- or 4-hour 400-level course from each of 4 disciplinary areas:</b>		<b>12-14</b>
Area 1: Biochemistry		
Area 2: Cell & Developmental Biology		
Area 3: Microbiology		
Area 4: Molecular & Integrative Physiology

**department office:** 524 Burrill Hall, 407 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 333-1735

**The Department of Molecular & Integrative Physiology (MIP) does not admit students to the Molecular & Integrative Physiology MS degree program.**

Admission to graduate study is only through the PhD degree program. Information about the Molecular & Integrative Physiology degree PhD program can be found here (<http://catalog.illinois.edu/graduate/las/molecular-integrative-physiology-phd/>).

## Graduate Degree Program in Molecular & Integrative Physiology

Molecular & Integrative Physiology, PhD (p. 1555)

The PhD program in molecular and integrative physiology is designed to provide individualized training in preparation for research and teaching careers in molecular, cellular, and integrative physiology. The objective of the training is to produce scientists who are technically competent and broadly educated. Students interested in the MIP PhD program must apply directly to the School of Molecular and Cellular Biology (<http://mcb.illinois.edu/>). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December and formally join the appropriate graduate program at that time.

## Admission

Applicants interested in the Molecular & Integrative Physiology PhD program will need to apply directly to the School of Molecular and Cellular Biology (MCB) PhD program, <https://mcb.illinois.edu/graduate/gradprospect/>. The MCB PhD program is an umbrella program that requires admitted students to spend their first semester rotating among three different labs to explore their interests before joining one of our four departments.

MCB Admission requirements include a bachelor's degree in biological or physical sciences, a grade point average of a 3.0 or higher (A = 4.0), prior research experience, and three letters of recommendation from individuals who can attest to the applicant's academic and research background. The Graduate Record Examination (GRE) is **not** required. Applicants interested in pursuing a PhD in Molecular & Integrative Physiology should have a strong background in biology, chemistry, and mathematics. In addition to these requirements, non-native English speaking applicants must attain a minimum Test of English as a Foreign Language (TOEFL) overall score of 96, with a score of at least 22 on the speaking section. MCB does **not** accept the International English Language Testing System (IELTS) to show English proficiency. Graduate College requirements also apply.

## for the degree of Master of Science in Molecular & Integrative Physiology

**The Department of Molecular & Integrative Physiology does not admit students to the Molecular & Integrative Physiology MS degree program.**

Admission to graduate study is only through the PhD degree program. ## Learning Outcomes: Molecular & Integrative Physiology, MS

Learning Outcomes for the degree of Master of Science in Molecular & Integrative Physiology

1. Acquire in-depth, leading-edge knowledge of physiological function at multiple levels of biological organization spanning molecular, cellular, tissue and organismal levels.
2. Learn the skills and methodologies of scientific inquiry necessary to conduct original, independent research in physiology that expands the frontiers of knowledge in the field.
3. Develop the professional skills for responsible conduct of research and embody the ethical principles necessary to behave with honesty, integrity, objectivity, and respect in all professional interactions.
4. To develop effective scientific literacy skills necessary to read, write, critique, and analyze a wide range of written materials, including primary scientific literature, review articles, grant proposals, and teaching materials.
5. To become an effective oral communicator of scientific information in multiple settings, including individual and small group discussions, seminars, classroom instruction, and public engagement.

# Molecular & Integrative Physiology, PhD

*for the degree of Doctor of Philosophy in Molecular & Integrative Physiology*

**head of department:** Claudio Grosman

**director of graduate studies:** Lori Raetzman

**mcb graduate admissions email:** mcb-grad@illinois.edu

**overview of MCB admissions requirements:** [https://](https://grad.illinois.edu/admissions/apply/) (<https://grad.illinois.edu/admissions/apply/>) [mcb.illinois.edu/graduate/gradprospect/](https://mcb.illinois.edu/graduate/gradprospect/) (<https://mcb.illinois.edu/graduate/gradprospect/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply/> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <https://mcb.illinois.edu/departments/mip/> (<https://mcb.illinois.edu/departments/mip/>)

**school website:** <http://mcb.illinois.edu> (<https://mcb.illinois.edu>)

**department office:** 524 Burrill Hall, 407 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 333-1735

The doctoral program uses a flexible approach to curriculum requirements. Students are required to take two core courses, three laboratory rotations (five weeks each), and electives. The students in consultation with a faculty advisory committee choose additional courses in chemistry, biochemistry, immunology, molecular biology, mathematics, and cell biology. Students are encouraged to begin research as soon as they identify an area of research interest. The department has a particularly strong focus in cell physiology, comparative physiology, computational biology, neurophysiology, and endocrinology. Courses and lab research are supplemented by a weekly seminar series. Toward the end of the second year, students must submit a report describing their initial research and pass an oral qualifying examination in order to continue in the PhD program. One year after their qualifying examinations, and no later than the end of their eighth semester in the program, students are expected to take their preliminary examinations in which they present their thesis topic and preliminary research to a faculty committee. Finally, a thesis, which is based on original work in one area of physiology and which demonstrates a thorough knowledge of underlying theories and experimental approaches, must be defended at the final examination. Most students complete their PhD training in four to five years.

## Graduate Degree Program in Molecular & Integrative Physiology

Molecular & Integrative Physiology, PhD (p. 1555)

The PhD program in Molecular and Integrative Physiology (MIP) is designed to provide individualized training in preparation for research and teaching careers in molecular, cellular, and integrative physiology. The objective of the training is to produce scientists who are technically competent and broadly educated. Students interested in the MIP PhD program must apply directly to the School of Molecular and Cellular Biology (<http://mcb.illinois.edu/>). During the first semester, students perform three laboratory rotations, choosing from any laboratory in the School. Students select a laboratory for their thesis research in December and formally join the appropriate graduate program at that time.

## Admission

Applicants interested in the Molecular & Integrative Physiology PhD program will need to apply directly to the School of Molecular and Cellular Biology (MCB) PhD program, <https://mcb.illinois.edu/graduate/gradprospect/>. The MCB PhD program is an umbrella program that requires admitted students to spend their first semester rotating among three different labs to explore their interests before joining one of our four departments.

MCB Admission requirements include a bachelor's degree in biological or physical sciences, a grade point average of a 3.0 or higher (A = 4.0), prior research experience, and three letters of recommendation from individuals who can attest to the applicant's academic and research background. The Graduate Record Examination (GRE) is **not** required. Applicants interested in pursuing a PhD in Molecular & Integrative Physiology should have a strong background in biology, chemistry, and mathematics. In addition to these requirements, non-native English speaking applicants must attain a minimum Test of English as a Foreign Language (TOEFL) overall score of 96, with at least a score of 22 on the speaking section. MCB does **not** accept the International English Language Testing System (IELTS) to show English proficiency. Graduate College requirements also apply.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all PhD candidates in this program. Minimum teaching requirement is 50% for one semester. However, it is strongly recommended that students gain experience equivalent to 50% for at least two semesters.

## Financial Aid

Financial support is guaranteed for all students who remain in good academic standing.

*for the degree of Doctor of Philosophy in Molecular & Integrative Physiology*

The Master of Music Education degree program is designed to meet the needs and interests of individuals who are already certified to teach music and who seek to continue their careers as public school music educators or music administrators. It is also possible to structure a program that will enable individuals interested in seeking careers in education-related fields or as a step in preparation for eventual college teaching.

Although prior teaching experience is not a requirement for entrance into this degree program, graduate study will be more meaningful if teaching experience in the field has first been gained. Therefore, individuals considering pursuit of the MME are urged to plan to teach one to three years prior to initial enrollment or before completing the degree. Students interested in gaining certification to teach music as part of the MME should refer to the MME+certification website for information about the MME+Certification Program.

The School of Music has been an accredited member of the National Association of Schools of Music since 1933.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA or PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Music Education, MME

Learning Outcomes for the degree of Master of Music Education in Music Education

1. Students in the MME Program in Music Education will apply sound principles of curriculum design to the creation of comprehensive music programs that will further students' musical growth.
2. Students in the MME Program in Music Education will demonstrate understanding of the techniques of educational research sufficient to design and conduct an inquiry project in their school settings.
3. Students in the MME Program in Music Education will analyze evidence of student learning and demonstrate their ability to synthesize and present these findings in written and oral form.
4. Students in the MME Program in Music Education will refine and expand their musical understanding, skills, and knowledge through focused musical study.
5. Students in the MME Program in Music Education will develop and extend their knowledge of the field of music education through studies in curriculum, instruction, assessment, musical practices, and the role of schooling in education.

The doctoral program in music education consists of the Doctor of Philosophy in Music Education. The Ph.D. is tailored to meet the varying needs and interests of individuals seeking a terminal degree in Music Education. The Ph.D. is appropriate for those students who possess a strong background and interest in research. The Ph.D. places emphasis on research and research methodology training. Students entering the Ph.D. must have already completed a substantial thesis or research project as part of their master's degree.

Final Exam/Dissertation Defense Required:	Yes
Dissertation Deposit Required:	Yes
Minimum GPA:	3.0

<sup>1</sup> Local students must register every semester. Credit is earned only for one semester.

<sup>2</sup> Minimum of 6 hours of electives from music education; or, with approval of the Music Education Graduate Coordinator, courses in other Colleges. (e.g., MUS 529, MUS 530, MUS 531, MUS 532, MUS 533, MUS 536, MUS 539, MUS 541, MUS 542)

<sup>3</sup> MUS 531 may be counted as one EPSY course.

<sup>4</sup> To partially fulfill the EPS requirement, a student may take courses in the College of Education or the following: MUS 539.

<sup>5</sup> A student must take 12 hours of College of Education Research Specialization Methodology courses, unless exceptions are approved by the Music Education Graduate Coordinator. In addition, MUS 534 earns four credits, bringing the total Research Methodology credits to 16.

<sup>6</sup> For additional details and requirements refer to the department's Graduate Handbook (<https://music.illinois.edu/graduate-handbooks/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>)

## Learning Outcomes: Music Education, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Music Education

---

The PhD in Music Education at Illinois emphasizes professional preparation for careers as researchers, music teacher educators, and leaders in the field. Doctoral students enroll in courses that provide depth and breadth in research approaches, theoretical and scholarly analysis, and opportunities to conduct research studies under the guidance of faculty members in music education and across campus. Participation in the MOSAIC Consortium, an ongoing scholarly community of doctoral students and faculty, is a critical part of the doctoral experience at Illinois.

1. Students in the PhD Program in Music Education will demonstrate knowledge of rigorous methods for conducting scholarly inquiry related to music teaching and learning. [Research]
2. Students in the PhD program in Music Education will contribute to the discovery of new evidence or the exercise of critical judgment in research and scholarship, applying and synthesizing key methodological and theoretical perspectives from their research course preparation. [Research]
3. Students in the PhD Program in Music Education will develop a research agenda for primary and secondary research emphases.[Research]
4. Students in the PhD Program in Music Education will demonstrate their ability to plan, implement, and reflect on college-level teaching. [Music Teacher Education]
5. Students in the PhD Program in Music Education will apply understanding of educational philosophy, curriculum design, methods of teaching and evaluation, and supervision of study teaching to undergraduate music teacher preparation.[Music Teacher Education]
6. Students in the PhD Program in Music Education will exhibit leadership in areas of vital importance to the field,such as curricular reform, music teacher education, community music, and social justice. [Professional Leadership]

The fields of specialization for the Artist Diploma are keyboard, voice, and orchestra/band instruments. The degree is intended only for musicians at the highest level of artistic accomplishment and potential, and the entrance audition must reflect this exceptional standard. Upon completion of the Artist Diploma, students are expected to be ready for entrance into the music profession as a solo artist, member of an orchestra or chamber or jazz ensemble, or as an apprentice in an opera company, and should be prepared to compete effectively in international competition.

The University of Illinois at Urbana-Champaign's School of Music complies with the U.S. Department of Education's Gainful Employment requirements by disclosing information to applicants regarding our Artist Diploma program.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate-level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicant's teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement>

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, score reading, and musicianship. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA or PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>).

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester, or by satisfactory test scores. For up-to-date information regarding language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

### *for the Artist Diploma in Music*

Code	Title	Hours
MUS 579- MUS 598,	Applied music/ performance studies	20
MUS 450/ MUS 499,	ensemble participation, both in large and chamber/small groups	8
MUS 500,	performances, including solo and chamber music	4
Total Hours		32

### Other Requirements (may overlap):

Requirement	Description
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	3.0

## Learning Outcomes: Music, AD

Learning Outcomes for the Artist Diploma in Music

Students in the Artist Diploma in Music program will:

1. Develop performance skills as a soloist at the highest professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity and collaboration as appropriate, and will communicate their artistry to diverse audiences.
2. Develop performance skills as an ensemble performer at the highest professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating collaboration and spontaneity as appropriate and will communicate their artistry and musicianship to diverse audiences.
3. Additionally, some Illinois Artist Diploma students may develop experience and expertise in instruction, pedagogy, and student assessment in their major area of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology

and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants to the MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants to the MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

## Learning Outcomes: Choral Music, DMA

Learning Outcomes for the degree of Doctor of Musical Arts in Music, Choral Music Concentration

---

Students in the Doctor of Musical Arts program, with a concentration in **Instrumental Conducting (orchestra) or Instrumental Conducting (wind band) or Choral Music** [which is a degree in choral conducting], will:

1. Develop conducting skills at the highest professional level, using creative and critical thinking to inform stylistic choices and artistic expression, while demonstrating appropriate spontaneity, and will communicate their artistry to diverse audiences; in addition, students will demonstrate effective, musical, and efficient rehearsal techniques.
2. Develop a secondary area of expertise to demonstrate discipline-related breadth at an advanced level, and/or the acquisition of new professional skills.
3. Demonstrate an ability to summarize, synthesize and critique disciplinary content in relation to their major and secondary (cognate) areas of study; in the major area, students will demonstrate a thorough knowledge of the core repertoire.
4. Demonstrate effective analytical and interpretative skills in music theory, musicology and/or performance practice, as well as an ability to communicate an advanced understanding and evaluation of musical knowledge and ideas in written and/or oral forms.
5. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. Utilize and apply appropriate research methods to explore a focused research topic and to contribute original perspectives to discipline-related knowledge, communicating their research findings clearly and professionally in written, oral, and performative forms.
7. In addition, many Illinois DMA students will develop experience and expertise in instruction, pedagogy, and student assessment in at least one area of musical study, also gaining insights into rehearsal strategies for large ensemble in the major area, and appropriate methods of student evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Instrumental Conducting Orchestra, DMA

Learning Outcomes for the degree of Doctor of Musical Arts in Music, Instrumental Conducting Orchestra Concentration

---

Students in the Doctor of Musical Arts program, with a concentration in **Instrumental Conducting (orchestra) or Instrumental Conducting (wind band) or Choral Music** [which is a degree in choral conducting], will:

1. Develop conducting skills at the highest professional level, using creative and critical thinking to inform stylistic choices and artistic expression, while demonstrating appropriate spontaneity, and will communicate their artistry to diverse audiences; in addition, students will demonstrate effective, musical, and efficient rehearsal techniques.
2. Develop a secondary area of expertise to demonstrate discipline-related breadth at an advanced level, and/or the acquisition of new professional skills.
3. Demonstrate an ability to summarize, synthesize and critique disciplinary content in relation to their major and secondary (cognate) areas of study; in the major area, students will demonstrate a thorough knowledge of the core repertoire.
4. Demonstrate effective analytical and interpretative skills in music theory, musicology and/or performance practice, as well as an ability to communicate an advanced understanding and evaluation of musical knowledge and ideas in written and/or oral forms.
5. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. Utilize and apply appropriate research methods to explore a focused research topic and to contribute original perspectives to discipline-related knowledge, communicating their research findings clearly and professionally in written, oral, and performative forms.
7. In addition, many Illinois DMA students will develop experience and expertise in instruction, pedagogy, and student assessment in at least one area of musical study, also gaining insights into rehearsal strategies for large ensemble in the major area, and appropriate methods of student evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA or PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA or PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Jazz Performance, DMA

Learning Outcomes for the degree of Doctor of Musical Arts in Music, Jazz Performance Concentration

---

Students in the Doctor of Musical Arts program, with a concentration in Jazz Performance, will:

1. Develop performance skills in their major area at the highest professional level, using critical thinking and analysis to inform stylistic choices and individual artistic expression while demonstrating spontaneity and collaboration with others, and will communicate their creativity to diverse audiences.
2. Develop a secondary area of expertise to demonstrate discipline-related breadth at an advanced level, and/or the acquisition of new professional skills.
3. Demonstrate an ability to summarize, synthesize and critique disciplinary content (including pedagogical material) in relation to their major and secondary (cognate) areas of study.
4. Demonstrate effective analytical and interpretative skills in music theory and musicology, as well as an ability to communicate an advanced understanding and evaluation of musical knowledge and ideas in written and/or oral form.
5. Pursue specialized studies, to demonstrate expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. Utilize and apply appropriate research methods to explore a focused research topic and to contribute original perspectives to discipline-related knowledge, communicating their research findings clearly and professionally in written, oral, and performative forms.
7. In addition, many Illinois DMA students will develop experience and expertise in instruction, pedagogy, and student assessment in at least one area of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

The School of Music has been an accredited member of the National Association of Schools of Music since 1933.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Music Composition, DMA

Learning Outcomes for the degree of Doctor of Musical Arts in Music, Music Composition Concentration

---

Students in the Doctor of Musical Arts program, with a concentration in Music Composition will:

1. Develop their musical craft and creativity at the highest professional level, using critical thinking, analysis and technology to inform stylistic choices and artistic expression, and will communicate their creativity to diverse audiences through performances of their music.
2. Develop a secondary area of expertise to demonstrate discipline-related breadth at an advanced level, and/or the acquisition of new professional skills.
3. Demonstrate an ability to summarize, synthesize and critique disciplinary content (including pedagogical material) in relation to their major and secondary (cognate) areas of study.
4. Demonstrate effective analytical and interpretative skills in music theory and musicology, as well as an ability to communicate an advanced understanding and evaluation of musical knowledge and ideas in written and/or oral forms.
5. Pursue specialized studies, to demonstrate expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. Exhibit their musical creativity through the production of an original, large-scale composition and will demonstrate their ability to communicate the conceptual and artistic framework for their work clearly and professionally in written and/or oral forms.
7. Utilize and apply appropriate research methods to explore a focused research topic and to contribute original perspectives to discipline-related knowledge, communicating their research findings clearly and professionally in written or oral forms.
8. In addition, many Illinois DMA students will develop experience and expertise in instruction, pedagogy, and student assessment in at least one area of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

## Learning Outcomes: Performance & Literature, DMA

Learning Outcomes for the degree of Doctor of Musical Arts in Music, Performance &amp; Literature Concentration

---

Students in the Doctor of Musical Arts program, with a concentration in Performance and Literature, or Vocal Coaching and Accompanying will:

1. Develop performance skills in their major area at the highest professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity and collaboration as appropriate, and will communicate their artistry to diverse audiences.
2. Develop a secondary area of expertise to demonstrate discipline-related breadth at an advanced level, and/or the acquisition of new professional skills.
3. Demonstrate an ability to summarize, synthesize, and critique disciplinary content (including pedagogical material) in relation to their major and secondary (cognate) areas of study.
4. Demonstrate effective analytical and interpretative skills in music theory and musicology, as well as an ability to communicate an advanced understanding and evaluation of musical knowledge and ideas in written and/or oral forms.
5. Pursue additional, specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. Utilize and apply appropriate research methods to explore a focused research topic and to contribute original perspectives to discipline-related knowledge, communicating their research findings clearly and professionally in written, oral, and performative forms.
7. Additionally, many Illinois DMA students will develop experience and expertise in instruction, pedagogy, and student assessment in at least one area of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

Music Education, PhD (p. 1563)

Musicology, PhD (p. 1642)

**concentration:**

Medieval Studies (p. 1919)

The School of Music has been an accredited member of the National Association of Schools of Music since 1933.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants to the MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Choral Music, MMUS

Learning Outcomes for the degree of Master of Music in Music, Choral Music Concentration

Students in the Master of Music (MM) program, with concentrations in Instrumental Conducting (Wind Band), Instrumental Conducting (Orchestra), and Choral Music will:

1. Develop conducting skills at a high professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating appropriate spontaneity, and will communicate their artistry to diverse audiences; in addition, students will demonstrate effective, musical, and efficient rehearsal techniques.
2. Exhibit an ability to summarize, synthesize, and discuss disciplinary content in relation to their major area of study (including a thorough knowledge of core repertoire), and to communicate their findings, using appropriate academic conventions, in written, oral and/or performative form.

3. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.
4. Demonstrate effective analytical and interpretative skills in music theory, musicology, or performance practice, as well as an ability to communicate an advanced understanding of that knowledge and ideas in written and/or oral form.
5. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. In addition, some Illinois MM students will develop experience and expertise in instruction, pedagogy, and student assessment in one or more areas of musical study, also gaining insights into rehearsal strategies for large ensemble, and appropriate methods of student evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-

Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants to the MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and

musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

#### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

#### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Instrumental Conducting Orchestra, MMUS

Learning Outcomes for the degree of Master of Music in Music, Instrumental Conducting Orchestra Concentration

Students in the Master of Music (MM) program, with concentrations in Instrumental Conducting (Wind Band), Instrumental Conducting (Orchestra), and Choral Music will:

1. Develop conducting skills at a high professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating appropriate spontaneity, and will communicate their artistry to diverse audiences; in addition, students will demonstrate effective, musical, and efficient rehearsal techniques.
2. Exhibit an ability to summarize, synthesize, and discuss disciplinary content in relation to their major area of study (including a thorough knowledge of core repertoire), and to communicate their findings, using appropriate academic conventions, in written, oral and/or performative form.
3. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.
4. Demonstrate effective analytical and interpretative skills in music theory, musicology, or performance practice, as well as an ability to communicate an advanced understanding of that knowledge and ideas in written and/or oral form.
5. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
6. In addition, some Illinois MM students will develop experience and expertise in instruction, pedagogy, and student assessment in one or more areas of musical study, also gaining insights into rehearsal strategies for large ensemble, and appropriate methods of student evaluation.

The School of Music has been an accredited member of the National Association of Schools of Music since 1933.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Learning Outcomes: Jazz Performance, MMUS

Learning Outcomes for the degree of Master of Music in Music, Jazz Performance Concentration

---

Students in the Master of Music program, with a concentration in Jazz Performance will:

1. Develop performance skills at a high professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity and collaboration as appropriate, and will communicate their artistry to diverse audiences.
2. Exhibit an ability to summarize, synthesize, and discuss disciplinary content in relation to their major area of study, and to communicate their findings, using appropriate academic conventions, in written, oral, notational, or performative form.
3. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.
4. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
5. In addition, some Illinois MM students will develop experience and expertise in instruction, pedagogy, and student assessment in one or more areas of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

## Learning Outcomes: Musicology, MMUS

Learning Outcomes for the degree of Master of Music in Music, Musicology Concentration

---

Students in the Master of Music with a concentration in (1) Musicology (thesis option) and (2) Musicology (non-thesis option) will:

1. Acquire a familiarity with the methodological and interpretative conventions of the discipline (such as historiography, source study, theory, ethnography, analysis & aesthetics), while developing a foundational knowledge of specific areas of musicological study.
2. Develop an independent research topic, demonstrating fluency with primary sources and secondary scholarship, as well as showing appropriate skills in foreign language(s), communicating research objectives, methods, and conclusions in oral and written forms, and making a contribution to musicological knowledge and understanding.
3. Pursue specialized studies, developing expertise and synthesizing knowledge and ideas in areas of interest that enhance their required curriculum and/or professional goals.
4. Develop skills in musical performance by participating in a musical ensemble, demonstrating spontaneity and collaboration as appropriate.
5. Develop experience in university-level instruction and assessment in at least one area of musicology, gaining insights into classroom teaching, syllabus design, appropriate methods of evaluation, and current pedagogical issues within the discipline.
6. Gain experience of the workings of the profession and develop a foundational understanding of how to function successfully as a musicologically-trained scholar in a variety of career paths.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

Learning Outcomes for the degree of Master of Music in Music, Performance and Literature Concentration

---

Students in the Master of Music program, with concentrations in Performance and Literature or Vocal Coaching and Accompanying will:

1. Develop performance skills at a high professional level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity and collaboration as appropriate, and will communicate their artistry to diverse audiences.
2. Exhibit an ability to summarize, synthesize, and discuss disciplinary content(including pedagogical material)in relation to their major area of study, and to communicate their findings, using appropriate academic conventions, in written or oral form.
3. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.
4. Pursue specialized studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.
5. In addition, some Illinois MM students will develop experience and expertise in instruction, pedagogy, and student assessment in one or more areas of musical study, gaining insights into studio and/or classroom teaching and appropriate methods of evaluation.

## Admission

For all degree programs, consult the admission requirements stated on the School of Music's website: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>).

Requirements for admission to the **Master of Music (MM)** programs are a Bachelor of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution. Students holding other degrees may be admitted but will be expected to make up any deficiencies in addition to fulfilling all requirements for the graduate degree.

Applicants to choral music, instrumental conducting (wind band or orchestra), jazz performance, piano pedagogy, performance and literature, and vocal accompanying and coaching must pass a qualifying audition for their major area or submit satisfactory recordings. Applicants in musicology and composition must present writings or other evidence of their ability to pursue work at the graduate level. The Graduate Record Examination (GRE) is not required.

The School of Music requires all-new MM students to complete entrance examinations in music theory and musicianship (excluding Musicology). These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/graduate-academic-affairs/>) page for more information.

A prerequisite for admission to the **Artist Diploma** is a bachelor's degree in music performance.

**Applicants** to the **MM and the Artist Diploma (AD)** whose native language is not English must present an iBT score of 79 for admission to the Artist Diploma (AD), 90 for the Master of Music (MM), excluding Musicology; MM in Musicology requires an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements,

please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>). Fall admission only; other terms of entry by departmental petition approval only.

Requirements for admission to the **Master of Music in Education (MME)** are:

1. Undergraduate degree in music education from an accredited institution;
2. An overall grade average for the last 60 credit hours of undergraduate work of at least 3.0 (on a 4.0 scale). The grade average for Music Education and Education courses, when averaged separately, must also be at least 3.0 (on a 4.0 scale);
3. Recommendations from three individuals who can discuss the applicant's musicianship, ability to undertake graduate level study, and teaching ability/potential.
4. The Graduate Record Exam (GRE) is not required for application to the MME, nor do MME students take placement tests in music theory or music history.

For MME applicants with public school experience:

1. recommendation from a principal or supervisor who speaks primarily to the quality of the applicants teaching experience;
2. recommendation from an individual who speaks primarily to the quality of the applicant's musicianship;
3. recommendation from an individual who speaks primarily to the applicants potential for completion of graduate-level study;
4. applicants who wish to be considered for a Teaching Assistantship should ensure that at least one of their references provides specific comments on their potential to engage in university-level teaching duties associated with such an appointment.

For MME applicants without public school experience:

1. recommendation from a music education professor;
2. recommendation from an applied or ensemble music professor;
3. recommendation from an individual who can speak to the applicant's potential for completion of graduate study.

Applicants seeking admission to the MME + Licensure program should review the requirements found online at: <https://music.illinois.edu/prospective-students> (<https://music.illinois.edu/prospective-students/>)

**Applicants** to the **MME** whose native language is not English must present an iBT score of 96 for the Master of Music Education (MME). A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements, please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants** to the **DMA** or **PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

#### Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

### *for the degree of Master of Music in Music, Piano Pedagogy Concentration*

## Learning Outcomes: Piano Pedagogy, MMUS

Learning Outcomes for the degree of Master of Music in Music, Piano Pedagogy Concentration

Students in the Master of Music (MM) program, with a concentration in Piano Pedagogy will:

1. Develop competencies in teaching the piano to students at a range of ability levels, and will demonstrate an advanced knowledge of appropriate pedagogical methods and techniques for both one-on-one and group piano instruction; in addition, they will gain insights into student assessment and appropriate methods of evaluation.
2. Gain and demonstrate a thorough knowledge of the traditional piano teaching literature, as well as resources pertaining to technique, theory and musicianship development, creativity, and professional development.

3. Demonstrate piano performance skills at a high level, using creative and critical thinking to inform stylistic choices and artistic expression while demonstrating spontaneity as appropriate, and will communicate their artistry to diverse audiences.
4. Exhibit an ability to summarize, synthesize, and discuss disciplinary content relating to piano repertoire and pedagogy, and to communicate their findings, using appropriate academic conventions, in written or oral form.
5. Demonstrate an understanding of appropriate methods for library-based musical research and scholarly writing, and a facility in handling print and technology sources.
6. Pursue specialized (elective) studies, to develop expertise and an ability to synthesize knowledge in areas of interest that enhance their required curriculum and/or professional goals.

The School of Music offers an academic year program and a Summers-only MME. For academic year applications, the School of Music offers Fall admission only; spring term of entry by departmental petition approval only.

Requirements for admission to the **Doctor of Musical Arts** and the **Doctor of Philosophy** in Musicology programs are the Master of Music degree from the University of Illinois at Urbana-Champaign or an equivalent degree from another accredited institution.

Applicants to the **Doctor of Musical Arts** programs must have:

1. a high level of proficiency in composition, conducting, or performance - candidates in composition must submit original scores for review, and candidates in performance and literature must pass a qualifying audition or submit satisfactory recordings; and
2. appropriate experience in ensemble performance and/or score reading. Candidates in voice and vocal accompanying and coaching must have fulfilled all foreign language requirements considered prerequisites for the Master of Music degree, including 1 year of college-level study in Italian, French, and German.

The School of Music requires all new **DMA** students to complete entrance examinations in music theory, musicianship, and score reading. These exams take place the week before the fall term begins. See the School of Music's Graduate Resources (<https://music.illinois.edu/resources/>) page for more information.

**Applicants to the DMA or PhD** whose native language is not English must submit an iBT score of 96. A TOEFL iBT of 103 or higher is required for Full Status Admission to the University of Illinois Graduate College and School of Music. For the full English proficiency requirements please see: <https://music.illinois.edu/english-proficiency-requirement> (<https://music.illinois.edu/english-proficiency-requirement/>)

For information about admission to the MME and PhD in Music Education, please visit [www.music.illinois.edu](http://www.music.illinois.edu) (<https://music.illinois.edu/>).

Language Requirements

For the Master of Music program, applicants in voice and vocal accompanying and coaching are required to have had at least one year each of college-level French, German, and Italian or the equivalent. Applicants in other applied music areas, composition, conducting, and musicology are required to have had one year of any language at the college level or the equivalent.

All Doctor of Musical Arts candidates will be required to demonstrate proficiency in at least one language other than English. Each area may specify which language is required or may require proficiency in more than one language. Please review the current Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>) for more details.

Proficiency is required in two languages, depending on the proposed field of specialization, for candidates in the Doctor of Philosophy in Musicology program. This may be demonstrated through two years of undergraduate study in each language.

For all Graduate Degrees:

For those students who do not meet the language requirement at the time of entrance, it may be satisfied by evidence of two years of undergraduate study or the equivalent, or by completion of a two-semester or by satisfactory test scores. For up-to-date information regarding the language requirements of the School of Music, please see the Graduate Music Handbook (<https://music.illinois.edu/graduate-handbooks/>).

### Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience.

### Financial Aid

Fellowships, teaching, graduate, and research assistantships are awarded on a one-year basis with continuation dependent upon success in the program. Specific information on application procedures is available from the Music Admissions Office, (217) 244-7899; [musicadmissions@illinois.edu](mailto:musicadmissions@illinois.edu).

### *for the degree of Doctor of Philosophy in Musicology*

Code	Title	Hours
Minimum of 8 hours selected from:		8

## Learning Outcomes: Musicology, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Musicology

---

Students in the PhD in Musicology program will:

1. Acquire a familiarity with the methodological and interpretative conventions of the discipline (e.g. historiography, theory, ethnography, source studies, analysis & aesthetics), while developing an in-depth and discriminating knowledge of specific areas of musicological study.
2. Develop an independent area of research, demonstrating command of primary sources and secondary scholarship, as well as appropriate skills in foreign language(s), and making an original contribution to musicological knowledge and understanding at the highest professional level.
3. Develop expertise in areas of scholarship outside of musicology and apply that expertise to individual research projects.
4. Exhibit a sophisticated ability to communicate their research objectives, methods, and conclusions in written, oral, and other formats to a variety of audiences.
5. Develop experience in university-level instruction and assessment in at least one area of musicology, gaining insights into classroom teaching, syllabus design, appropriate methods of evaluation, and current pedagogical issues within the discipline.
6. Gain experience of the workings of the profession and develop a multi-faceted understanding of how to function successfully as a musicologically-trained scholar in a variety of career paths.

## Graduate Degree Programs in Natural Resources and Environmental Sciences

### Graduate Majors:

Natural Resources and Environmental Sciences, MS (on-campus & online) (p. 1646)

Natural Resources and Environmental Sciences, PhD (p. 1650)

### Joint Degree Program:

Natural Resources and Environmental Sciences, MS and Law, JD (p. 2025)

---

The Department of Natural Resources and Environmental Sciences is a broad and diverse department offering flexible M.S. and Ph.D. degrees. The mission of the department is to establish and implement research and educational programs that enhance environmental stewardship in the management and use of natural, agricultural, and urban systems in a socially responsible manner. The department is composed of approximately 24 faculty, 60 affiliates, and 160 graduate students. Offering education and research in a variety of disciplines, the department provides a systems-level perspective that few other departments can offer. Further illustrating the breadth of natural resources and environmental sciences, research areas include but are not limited to:

- agronomy/agroecology
- aquatic chemistry
- conservation ecology
- ecosystem science
- environmental education
- fish and wildlife ecology and management
- forest ecology
- humans dimensions of the environment
- landscape ecology
- microbial ecology
- natural resource economics
- natural resource policy
- plant ecology
- physiology and genetics
- restoration ecology
- quantitative and spatial analysis
- soil science and conservation
- sustainability

## Admission

NRES graduate advisers are seeking students with strong letters of reference, evident motivation to undertake graduate study, relevant experience, and good preparation in prerequisite courses. Graduate applicants must have an undergraduate grade point average (GPA) of 3.0 (A = 4.0) calculated on the last 2 years of undergraduate coursework to be admitted with full status. Ph.D. applicants must have earned an M.S. (or expect to be awarded the degree before beginning the NRES program) with a grade point average of at least 3.5. Applicants should have adequate preparation in the fundamental sciences and courses appropriate to their proposed field of study (applicants should talk with prospective advisers about the background

they expect). Those without the necessary prerequisites may be accepted conditionally, and the undergraduate courses must be completed before the degree will be awarded. The Graduate Record Examination (GRE) is required of all students applying to the campus M.S. or Ph.D. program. There is no minimum score for admission, and the results will be examined along with GPA, letters of recommendation, statement of purpose, research experience, and other information in the application package. However, successful applicants typically have a combined quantitative/verbal/analytical GRE percentile of at least 70%. Students whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University. Minimum English test scores and other information for international applicants can be found at: [www.grad.illinois.edu/admissions/apply/begin/international/](http://www.grad.illinois.edu/admissions/apply/begin/international/). Applicants who are not U.S. citizens must also submit evidence that they have sufficient financial support for their program of study. Prospective graduate students are urged to apply for admission to the degree program as early as possible, preferably six to ten months before the beginning of the semester in which they expect to enroll. Prospective students must review important application information available at <http://nres.illinois.edu/graduate/prospective/>. Applicants to the campus programs wishing to be considered for a university-level fellowship must apply for admission to the fall semester by December 15th, and, to be considered for any college or departmental funding, the application deadline is January 1st.

## Graduate Teaching Experience

Although teaching is not a Graduate College requirement, experience in teaching is considered an important part of this graduate program, particularly for Ph.D. students.

## Faculty Research Interests

Graduate degree programs in NRES are informed by the major areas of faculty research, which include:

- agronomy/agroecology
- conservation ecology
- ecosystem science
- fish and wildlife ecology and management
- forest ecology
- global environmental change
- human dimensions of natural resources and ecology
- landscape ecology
- microbial ecosystems
- natural resource policy
- plant ecology
- physiology and genetics
- quantitative and spatial methods
- restoration ecology
- soil science and conservation
- sustainability
- water/biogeochemistry
- wetland ecology

Students in NRES can participate in affiliated programs like those listed below.

**Program in Environmental and Resource Economics:** Students involved in the program in Environmental and Resource Economics (pERE) explore the complex relationships between natural resource allocation, environmental quality and economic prosperity. Students and faculty from five other University departments in addition to NRES are using economics to analyze policy toward some of today's most critical environmental and natural resource issues.

**Human Dimensions of Environmental Systems:** NRES graduate students may participate in HDES, an interdisciplinary program comprised of faculty from six colleges at Illinois. Participants are united in the study of connections between humans and the environment. The program is built on the premise that the best insights are not limited to the domain of a single discipline and is interdisciplinary in all its pursuits.

## Financial Aid

Several sources of financial aid are available within the department:

- research assistantships, supported by federal and grant funds made available to the natural resources and environmental sciences faculty
- teaching assistantships
- departmental fellowships
- University fellowships

- College of Agricultural, Consumer and Environmental Sciences Jonathan Baldwin Turner Fellowships
- waivers of tuition and fees

Most NRES graduate students with financial support have a research assistantship provided by the adviser. Appointments as research and teaching assistants and fellows provide a stipend and waive tuition and some fees.

Financial aid is granted on a competitive basis. Applicants are judged for academic potential based on past performance, experience, motivation, dedication to the designated area of interest and, where applicable, the potential to satisfy the objectives of a donor. Fellowships have minimum GPA and GRE score requirements. Information about the current availability of financial aid can be obtained from the graduate coordinator or, in the case of research assistantships, directly from faculty members working in the area of interest.

*for the Master of Science in Natural Resources and Environmental Sciences (on campus & online)*

Two options are open to students who wish to pursue a Master of Science degree in the Department of Natural Resources and Environmental Sciences. The M.S. Thesis Option program helps students develop into researchers. Coursework is no longer the primary focus, and students learn how to create, plan, and carry out independent research. The M.S. Non-Thesis Option program guides students in the acquisition of professional expertise beyond the undergraduate degree. The program requires a culminating/capstone experience, which may be satisfied in one of three ways: an individual investigative project, a collaborative, possibly interdisciplinary, group project, or a professional internship experience. The Non-Thesis Option may also be appropriate in special cases where a student executes a major special project which is equivalent to a M.S. thesis, but which does not lend itself to the thesis format. Students on campus are admitted into the thesis option and, under certain conditions, may be allowed to transfer into the non-thesis option by petitioning the Department. In contrast, all students in the online M.S. program are admitted into the non-thesis option and, under certain conditions, may be allowed to transfer into the thesis option by petitioning the Department.

The thesis option requires that the student satisfactorily complete a minimum of 32 hours of graduate coursework, of which a minimum of 12 graduate hours are 500- level courses. This coursework shall include NRES Seminar (500) each semester, minus one, that the student is enrolled, Professional Orientation (594) and 4 to 12 graduate hours of Thesis Research (599), which culminates in the completion and oral defense of a thesis.

A non-thesis option student must satisfactorily complete a minimum of 32 hours of graduate coursework, of which a minimum of 12 graduate hours are 500- level courses, Professional Orientation (594), and 3 to 8 hours of capstone experience in the form of a Capstone Research Project (503), Capstone Internship Experience (505), or Capstone Group Research Project (507). The student must prepare and submit a report analyzing the capstone learning experience and perform satisfactorily on written and oral final examinations.

The online M. S. graduate program in NRES enables students to continue their education in disciplines related to natural resources and environmental sciences through part-time study at locations away from the Urbana-Champaign campus. This program meets the needs of persons currently working or wanting to work in the areas of conservation, ecology, restoration ecology, soil science, sustainable development, urban ecology, urban forestry, urban wildlife management, and water resources management. Students can enroll in individual courses for professional and/or academic advancement, or apply for admission to the M.S. degree program. All online M.S. students are admitted to the non-thesis option, though, under certain conditions, a degree-seeking online student may petition the Department to transfer to the thesis option. Application deadlines and other important information are available at <https://nres.illinois.edu/online/apply> (<https://nres.illinois.edu/online/apply/>).

*for the Master of Science in Natural Resources and Environmental Sciences*

*For additional details and requirements refer to the department's Graduate Handbook (<http://nres.illinois.edu/graduate/handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

**This degree program can be completed either on campus or online; with or without a thesis, the requirements are listed below:**

### **Thesis Option**

Code	Title	Hours
<b>Thesis Option:</b>		
NRES 594	NRES Professional Orientation	1
Electives		19-27
NRES 599	Thesis Research (min/max applied toward degree)	4-12
Completion, defense and deposit of thesis		
<b>Total Hours</b>	<b>Thesis Option</b>	<b>32</b>

### **Non-Thesis Option:**

NRES 594	NRES Professional Orientation	1
Select one of the following:		
NRES 503	Capstone Research Project	

NRES 505	Capstone Internship Experience	
NRES 507	Capstone Group Research Project	
Electives		23-28
Written final examination; preparation, presentation, oral exam, and approval of a capstone project report		
<b>Total Hours</b>	<b>Non-Thesis Option</b>	<b>32</b>

### Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	3.0

## Learning Outcomes: Natural Resources & Environmental Sciences, MS

Learning Outcomes for the degree of Master of Science in Natural Resources & Environmental Sciences(on campus & online)

### Thesis

1. Mastery of core knowledge in major field of study and specialized knowledge related to concentration/specialization
2. Understanding the logic of science, including the philosophy of science and research design
3. Facility with research tools/techniques and data analysis techniques relevant for major and concentration/specialization
4. Strong communication skills in conversation, presentation, and writing, particularly scientific/technical writing
5. Ability to function well professionally, with good leadership skills, well-developed problem-solving abilities, and ethical thinking

### Non-Thesis

Completing the non-thesis M.S. program requires a broad grasp of current scholarly understanding of natural resources and environmental sciences. In particular, students are responsible for demonstrating adequate mastery in four core areas of study:

1. Statistics and Research Design,
2. Spatial Analysis and Modeling,
3. Ecosystem Science and Conservation Biology, and
4. Human Dimensions of the Environment, Stewardship, and Management.

Students must take at least one course in each of these four areas and pass a final written exam that covers them.

In order to graduate, students must demonstrate, at a masters level, the following learning objectives:

1. Broad grasp of current scholarly understanding of natural resources and environmental sciences,
2. Understanding and application of the scientific process,
3. Skills in the analysis and interpretation of relevant scientific information, and
4. Proficiency in communicating scientific information

Progress of each student is evaluated through course performance, a written final examination, the capstone paper, and a final oral examination.

## Financial Aid

Several sources of financial aid are available within the department:

- research assistantships, supported by federal and grant funds made available to the natural resources and environmental sciences faculty
- teaching assistantships
- departmental fellowships
- University fellowships

- College of Agricultural, Consumer and Environmental Sciences Jonathan Baldwin Turner Fellowships
- waivers of tuition and fees

Most NRES graduate students with financial support have a research assistantship provided by the adviser. Appointments as research and teaching assistants and fellows provide a stipend and waive tuition and some fees.

Financial aid is granted on a competitive basis. Applicants are judged for academic potential based on past performance, experience, motivation, dedication to the designated area of interest and, where applicable, the potential to satisfy the objectives of a donor. Fellowships have minimum GPA and GRE score requirements. Information about the current availability of financial aid can be obtained from the graduate coordinator or, in the case of research assistantships, directly from faculty members working in the area of interest.

*for the degree of Doctor of Philosophy in Natural Resources & Environmental Sciences*

The Ph.D. program prepares students to be an expert in their fields. Earning a Ph.D. involves mastering a field of study and increasing the knowledge and understanding in that field through the completion of a dissertation that makes a contribution to existing research. Students working toward the Ph.D. degree are required demonstrate competency in at least three content areas by passing a general examination (the preliminary examination) before admission to candidacy for the doctoral degree. Students consult with their advisers to identify their competency content areas and the courses they will take, which are recorded on the Doctoral Plan of Study. The NRES Ph.D. program requires students to register for NRES Seminar (500) each semester, minus two, that the student is enrolled. To earn the doctorate, students must successfully complete a final oral examination (thesis defense). In most cases, students earn a M.S. before starting work on a Ph.D. However, in certain cases, it is possible to take the coursework required for the M.S. as part of a Ph.D. program. Details of the B.S. to Ph.D. program are available from the graduate coordinator.

For additional details and requirements refer to the department's Graduate Handbook (<http://nres.illinois.edu/graduate/handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours

Because of the breadth of the fields in this program, the coursework is tailored to the student's fields of interest as declared by a major and at least two minor areas of concentration from among those listed above. A faculty committee of representatives from the major and minor areas will then meet regularly with the student to plan coursework and research experience. The goal of this plan is to allow maximum flexibility while providing students with close guidance. Courses and laboratory research experience are supplemented by weekly seminars in neuroscience.

## Graduate Degree Programs in Neuroscience

### Neuroscience, PhD (p. 1653)

The Neuroscience Program is an interdisciplinary and highly individualized Ph.D. program. Students have varied backgrounds but typically have undergraduate degrees in psychology, biology, electrical engineering, or computer science. The Neuroscience Program guides students to become productive, scholarly neuroscientists with access to careers in academic research, medicine, industry or non-research careers such as law, policy, or journalism. The faculty have broad and diverse research interests; areas of particular strength include aging, brain plasticity, cognitive functions, neurogenomics, molecular bases of development and disease and neuroengineering. Integrative and collaborative studies that bridge two or more labs are encouraged.

## Admission

Applications are considered individually by the admissions committee, usually for the fall semester. Graduate Record Examination (GRE) scores are optional. International applicants must meet the minimum Test of English as a Foreign Language (TOEFL) requirement set by the Graduate College. Admission and financial aid are considered together.

## Financial Aid

The Neuroscience Program is committed to supporting its students and makes every effort to ensure that students who remain in good academic standing receive full support including tuition waiver and stipend throughout their tenure in the program. Support may come in the form of fellowships, traineeships, research assistantships, or teaching assistantships according to the student's qualifications.

## for the degree of Doctor of Philosophy in Neuroscience

Because of the breadth of the fields in this program, the coursework is tailored to the student's fields of interest as declared by a major and at least two minor areas of concentration from among those listed above. ## Learning Outcomes: Neuroscience, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Neuroscience

- 1. Knowledge of chosen research area:** Students are expected to be acquainted with the full breadth of neuroscience research, but for assessment purposes, each student chooses one major and two minor areas of concentration that form the core of their professional knowledge and are tested on the Qualifying Exam. We believe neuroscience is too broad for every student to master the same core knowledge and be successful; instead, students plan their own programs of study (with committee guidance) and develop independence in building their expertise.
- 2. Mastery of experimental design and methods:** Students plan, design, carry out and interpret experiments; they are expected to be fully competent in the standard techniques of their field and to learn cutting-edge techniques where possible.
- 3. Analytical and quantitative skills:** All students are encouraged to take statistics courses appropriate to their research area and to become experts in the treatment, analysis, and interpretation of data. Most students learn to code their own data management and statistical procedures.
- 4. Writing and presentation skills:** All students must demonstrate strong skills in writing manuscripts for publication and grant proposals, and in giving oral presentations. Students are expected to communicate their research effectively to general scientific and to lay audiences
- 5. Teaching and mentoring:** Students are required to be Teaching Assistants for one semester at 50% (or two semesters at 25%). Some students are able to petition the program to waive the teaching requirement if they can demonstrate equivalent preparation time and direct contact time with another group of students. Most students mentor one or more undergraduate students, or more junior graduate students, during their time in the program.
- 6. Professional skills and ethics:** The program requires completion of a course in Professional Skills and Ethics that covers career planning, grant writing and review, oral presentations, time management, different career stages (postdoc, junior faculty, tenured professor) and non-academic careers, and an introduction to research and professional ethics. Additional required workshops cover standard Responsible Conduct of Research topics mandated by NIH and NSF. We are in the process of requiring completion of this training prior to the Qualifying Exam.
- 7. Citizenship and organizational skills:** Students are expected to have strong interpersonal and collegial skills for collaborations, networking, etc. Neuroscience students have an exceptional culture of participation, volunteering and organizing program events, including our Brain Awareness Day (annual public outreach event) and Open House for visiting recruits. The skills acquired in these experiences are not "scientific", but they have a major impact on students' effectiveness in their varied roles and in the impression they make on visitors to the program and the university.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

Application for admissions to the master's and doctoral degree programs is open to all graduates in engineering, mathematics, and the physical sciences with a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate work and any graduate work completed. Prerequisites for admission include a course in ordinary differential equations plus one other mathematics course beyond calculus; an intermediate course in atomic and nuclear physics or interaction of radiation with matter; a course in electrical circuit theory; a course in thermodynamics; a course in fluid mechanics or continuum mechanics; and a course introducing nuclear engineering. A student may be admitted before completion of these prerequisites, but he or she must allow additional time to make up for these deficiencies; courses taken to make up such deficiencies will not count toward the number of units required for the graduate degree. Transcripts and letters of recommendation are required. The Graduate Record Exam (GRE) (<http://www.ets.org/>) is required. Information such as undergraduate class rank is recommended.

For full consideration of fall admission with financial aid, application receipt deadline is January 1st. Students who wish to enter in the spring term should contact the Department before applying. For full consideration of spring admission with financial aid, application receipt deadline is October 15th.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Most graduate students receive some form of financial aid. Fellowships (<https://grad.illinois.edu/fellowships/about/>) are available to support the best applicants. Other students are supported on teaching or research assistantships (<https://grad.illinois.edu/assistantships/>). Financial aid includes federally sponsored traineeships and fellowships and University and industry fellowships. The University is approved for several fellowships including those from the Department of Energy, Nuclear Regulatory Commission, the National Science Foundation, the Hertz Foundation and others. Part- and full-time assistantships include tuition and partial fee waivers.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Research activities in the Department of NPRES encompass a diverse range of investigation and challenge areas as described on the department's research area website (<https://npres.illinois.edu/research/areas/>), these include but are not limited to: nuclear science and engineering, radiation processes and transport, materials science, thermal sciences, systems engineering, energy conversion processes and systems, plasma sciences and processing, fusion energy, radiation-based medical imaging and therapy, dosimetry and radiation protection, radiation detection analysis, reliability and risk analysis, energy systems, and international security. Graduate students in the Department are active participants and contributors to these areas of education and research and typically pursue careers in one of these areas. Graduate students in the Department are also encouraged to take

part in course work and research activities in other engineering and science departments to complement their professional development in the nuclear engineering field. Faculty in other related fields are available to supervise research for students through formal "affiliate faculty" appointments.

A wide range of major research resources are available for nuclear engineering research. These are described at the department's research facilities website (<https://np.re.illinois.edu/research/facilities/>).

## Other Graduate Programs in the Department of Nuclear, Plasma & Radiological Engineering

degrees:

Nuclear, Plasma, & Radiological Engineering, PhD (p. 1658)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

concentrations:

Energy Systems (p. 1331)

**available for:**

Engineering, MENG (p. 1323)

Plasma Engineering (p. 1329)

**available for:**

Engineering, MENG (p. 1323)

The Department of Nuclear, Plasma & Radiological Engineering (NPRE) offers programs leading to degrees of Master of Science and Doctor of Philosophy in Nuclear, Plasma & Radiological Engineering, as well as Master of Engineering in Engineering with a Concentration in Energy Systems or a Concentration in Plasma Engineering. The Master of Science and Doctor of Philosophy degree programs are centered around five theme areas:

- nuclear power
- plasma physics and fusion
- radiological science
- materials science
- reliability and risk

Advanced course work and active research programs are offered in all of these areas.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)**

---

*for the degree of Master of Science in Nuclear, Plasma & Radiological Engineering*

---

The MS degree takes at least two semesters and a summer session to complete and normally takes three semesters and a summer session. The curriculum requires courses covering the fundamentals of nuclear engineering and interaction of radiation with matter, plus additional courses in an area of concentration chosen by the student in consultation with an advisor. Typical areas are:

- fission engineering including reactor physics and radiation transport
- reactor analysis, thermal hydraulics, and reactor safety
- fuel cycles, radiation effects, and radioactive waste management
- fusion engineering and technology
- plasma engineering and processing
- nuclear materials, corrosion, and irradiation damage
- neutron scattering
- nuclear nonproliferation and public policy issues
- radiation detector development and homeland security applications
- biomedical imaging, MRI applications, radiation protection, radiation-based therapy, and health physics
- reliability and risk analysis and probabilistic risk assessment
- computational methods including Lie Group, integral-differential equation, Monte Carlo, big data and fuzzy logic applications.

*For additional details and requirements refer to the department's printed handbook and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).*

## Requirements

Code	Title	Hours
NPRE 599	Thesis Research (min-max applied toward degree)	4-8
NPRE 501 & NPRE 521	Fundamentals of Nuclear Engrg and Interact of Radiation w/Matter	8
NPRE 596	Seminar in Nuclear Sci & Engrg (registration for 1 hour every semester while in residence; credit does not apply toward the degree.)	0
Two or more NPRE courses in an area of concentration		8
Additional 500-level courses		8
Elective courses (subject to Other Requirements and Conditions below)		0-4
Total Hours		32

## Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Credit in NPRE 402 or NPRE 446 does not count toward the degree.	
Minimum GPA:	2.75

## Learning Outcomes: Nuclear, Plasma & Radiological Engineering, MS

Learning Outcomes for the degree of Master of Science in Nuclear, Plasma & Radiological Engineering

- 
1. Ability to apply knowledge of mathematics, science and engineering
  2. Ability to design and conduct experiments and/or computational projects; analyze and interpret data
  3. Ability to communicate effectively
  4. Demonstrate ability to conduct independent research in a nuclear, plasma or radiological field
  5. Ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

The Department of Nuclear, Plasma and Radiological Engineering offers both a traditional doctoral program and a direct doctoral program. The traditional doctoral program requires candidates enter with an approved master's degree. The direct doctoral program allows highly qualified applicants with a baccalaureate degree to be admitted directly into the PhD program without an MS degree. The direct PHD program has the same coursework requirements as the MS plus PhD route, however students in the direct PhD do not write an MS thesis and do not receive an MS degree.

## Admission Requirements

Application for admissions to the master's and doctoral degree programs is open to all graduates in engineering, mathematics, and the physical sciences with a grade point average of at least 3.00 (A = 4.00) for the last two years of undergraduate work and any graduate work completed. Prerequisites for admission include a course in ordinary differential equations plus one other mathematics course beyond calculus; an intermediate course in atomic and nuclear physics or interaction of radiation with matter; a course in electrical circuit theory; a course in thermodynamics; a course in fluid mechanics or continuum mechanics; and a course introducing nuclear engineering. A student may be admitted before completion of these prerequisites, but he or she must allow additional time to make up for these deficiencies; courses taken to make up such deficiencies will not count toward the number of units required for the graduate degree. Transcripts and letters of recommendation are required. The Graduate Record Exam (GRE) (<http://www.ets.org/>) is required. Information such as undergraduate class rank is recommended.

For full consideration of fall admission with financial aid, application receipt deadline is January 1st. Students who wish to enter in the spring term should contact the Department before applying. For full consideration of spring admission with financial aid, application receipt deadline is October 15th.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Most graduate students receive some form of financial aid. Fellowships (<https://grad.illinois.edu/fellowships/about/>) are available to support the best applicants. Other students are supported on teaching or research assistantships (<https://grad.illinois.edu/assistantships/>). Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend. Financial aid includes federally sponsored traineeships and fellowships and University and industry fellowships. The University is approved for several fellowships including those from the Department of Energy, Nuclear Regulatory Commission, the National Science Foundation, the Hertz Foundation and others.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants

are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

## Graduate Degree Programs in Nutritional Sciences

### Graduate Programs:

**degree:** Nutritional Sciences, MS (p. 1662)

**degree:** Nutritional Sciences, PhD (p. 1665)

**joint degree:** Nutritional Sciences, PhD and Master of Public Health (p. 2029)

The Division of Nutritional Sciences is the interdisciplinary program for graduate education in nutrition at the University of Illinois at Urbana-Champaign. More than 60 faculty, representing 15 different departments in seven colleges on the Urbana and Chicago campuses, are members of the Division. The Division is a comprehensive program of study leading to the M.S. and Ph.D. degrees, alone or in combination with either the M.D. or M.P.H. degrees or the registration in dietetics (R.D.). Flexible graduate programs of study enable students to individualize their coursework and professional training. In addition, extensive research opportunities are available that address the spectrum from research at the level of the genome and proteome to clinical and population-based intervention studies. Specialties are classified into six broad theme areas in which our faculty and students are most active (see Research Interests (<http://nutrsci.illinois.edu/research/>)). These themes best reflect the areas of nutrition research for which the Division is recognized both nationally and internationally.

## Admission

Applicants are expected to have an admission grade point average of 3.0 (A = 4.0) for the last two years of coursework and basic courses in chemistry, biology and mathematics. Deficiencies in these subjects must be removed during the first year of graduate study. The Graduate Record Examination (GRE) is required. Applicants whose native language is not English must achieve a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 550, 213 on the computer-based test or 79 on the iBT TOEFL. Admission in the fall, spring or summer will be considered.

## Internship in Dietetics

Students in the Division of Nutritional Sciences can participate in an Academy of Nutrition and Dietetics (AND) accredited graduate dietetic internship program administered through the Department of Food Science and Human Nutrition. The program includes defined graduate course requirements and a six-month dietetic clinical internship. In order to be eligible for the graduate internship program, students must complete all undergraduate course competencies required by the AND for the Registration in Dietetics (R.D.). Students are accepted into the internship by computer matching through the standard dietetic internship application process. More information on the graduate dietetic internship program can be obtained at [fshn.illinois.edu/graduate/dietetic-internship/prospective](http://fshn.illinois.edu/graduate/dietetic-internship/prospective) (<http://fshn.illinois.edu/graduate/dietetic-internship/prospective/>) or from the Department of Food Science and Human Nutrition (260 Bevier Hall; (217)-244-4498).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Faculty Research Interests

The Division is composed of faculty whose research interests cover many disciplines within nutrition. Descriptions of faculty research interests and a listing of recent publications are available at the Division website. Six broad theme areas are:

- Animal Nutrition
- Biochemical and Molecular Nutrition
- Community Nutrition, Nutrition Education and Consumer Acceptance
- Dietary Bioactive Components
- Food Safety and Toxicology
- Human and Clinical Nutrition

## Facilities and Resources

The Division (<http://www.nutrsci.illinois.edu/>) office is located in room 240 Edward R. Madigan Laboratory. Office and research laboratory facilities utilized by graduate students in Nutritional Sciences are administered by the home department of the student's adviser.

## Financial Aid

Financial assistance is available in the form of assistantships, scholarships and fellowships. Applicants seeking fall admission and expecting to be considered for financial assistance should file their applications before the preceding December 15th. Later applications may be considered, depending on the space and support available.

*for the Master of Science in Nutritional Sciences*

Additional courses are available in:

- human and animal nutrition
- biochemistry
- physiology
- immunology
- endocrinology
- food science
- education
- anthropology
- psychology
- sociology
- statistics
- agricultural economics

The non-thesis degree also requires an oral final exam. Students are not admitted directly into the non-thesis program.

## Thesis Option

Code	Title	Hours

# Learning Outcomes: Nutritional Sciences, MS

Learning outcomes for the Master of Science in Nutritional Science

1. MS students in the Division of Nutritional Sciences will develop specialized knowledge and advanced training in a signature interdisciplinary research area that will equip them to identify and help solve the complex issues facing the highly interdisciplinary field of nutritional sciences.
2. MS students in the Division of Nutritional Sciences will be able to analyze and interpret data from research and scientific literature and apply experimental results to improve health and well-being.
3. MS students in the Division of Nutritional Sciences will develop an understanding of professional and scientific ethics and the impact of nutritional sciences research methods and outcomes in a societal and global context.
4. MS students in the Division of Nutritional Sciences will develop strong oral and written communication skills to facilitate the dissemination of scientific knowledge or interdisciplinary research findings to technical and non-technical audiences.
5. MS students in the Division of Nutritional Sciences will combine interdisciplinary research with robust professional development and leadership training, distinguishing themselves from other students with a nutritional sciences degree and facilitating a highly successful transition to a career as a leader in academia, industry or policy.

**Graduate Programs:**

**degree:** Nutritional Sciences, MS (p. 1662)

**degree:** Nutritional Sciences, PhD (p. 1665)

**joint degree:** Nutritional Sciences, PhD and Master of Public Health (p. 2029)

---

The Division of Nutritional Sciences is the interdisciplinary program for graduate education in nutrition at the University of Illinois at Urbana-Champaign. More than 60 faculty, representing 15 different departments in seven colleges on the Urbana and Chicago campuses, are members of the Division. The Division is a comprehensive program of study leading to the M.S. and Ph.D. degrees, alone or in combination with either the M.D. or M.P.H. degrees or the registration in dietetics (R.D.). Flexible graduate programs of study enable students to individualize their coursework and professional training. In addition, extensive research opportunities are available that address the spectrum from research at the level of the genome and proteome to clinical and population-based intervention studies. Specialties are classified into six broad theme areas in which our faculty and students are most active (see Research Interests (<http://nutrsci.illinois.edu/research/>)). These themes best reflect the areas of nutrition research for which the Division is recognized both nationally and internationally.

---

## Admission

Applicants are expected to have an admission grade point average of 3.0 (A = 4.0) for the last two years of coursework and basic courses in chemistry, biology and mathematics. Deficiencies in these subjects must be removed during the first year of graduate study. The Graduate Record Examination (GRE) is required. Applicants whose native language is not English must achieve a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 550, 213 on the computer-based test or 79 on the iBT TOEFL. Admission in the fall, spring or summer will be considered.

---

## Internship in Dietetics

Students in the Division of Nutritional Sciences can participate in an Academy of Nutrition and Dietetics (AND) accredited graduate dietetic internship program administered through the Department of Food Science and Human Nutrition. The program includes defined graduate course requirements and a six-month dietetic clinical internship. In order to be eligible for the graduate internship program, students must complete all undergraduate course competencies required by the AND for the Registration in Dietetics (R.D.). Students are accepted into the internship by computer matching through the standard dietetic internship application process. More information on the graduate dietetic internship program can be obtained at [fshn.illinois.edu/graduate/dietetic-internship/prospective](http://fshn.illinois.edu/graduate/dietetic-internship/prospective) (<http://fshn.illinois.edu/graduate/dietetic-internship/prospective/>) or from the Department of Food Science and Human Nutrition (260 Bevier Hall; (217)-244-4498).

---

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

---

## Faculty Research Interests

The Division is composed of faculty whose research interests cover many disciplines within nutrition. Descriptions of faculty research interests and a listing of recent publications are available at the Division website. Six broad theme areas are:

- Animal Nutrition
- Biochemical and Molecular Nutrition
- Community Nutrition, Nutrition Education and Consumer Acceptance
- Dietary Bioactive Components
- Food Safety and Toxicology
- Human and Clinical Nutrition

## Facilities and Resources

The Division (<http://www.nutrsci.illinois.edu/>) office is located in room 240 Edward R. Madigan Laboratory. Office and research laboratory facilities utilized by graduate students in Nutritional Sciences are administered by the home department of the student's adviser.

## Financial Aid

Financial assistance is available in the form of assistantships, scholarships and fellowships. Applicants seeking fall admission and expecting to be considered for financial assistance should file their applications before the preceding December 15th. Later applications may be considered, depending on the space and support available.

*for the Doctor of Philosophy in Nutritional Sciences*

In addition to maintaining a 3.0 average in formal coursework, Ph.D. students are required to take a qualifying examination, an oral preliminary examination and a final thesis examination. There is no foreign language requirement, but students whose native language is not English are required to demonstrate competence in English.

Code	Title	Hours
NUTR 500	Nutritional Sciences Seminar (enrollment each semester and one presentation during program)	1
Select one or both of the following, unless taken during M.S. degree (max 4):		4
FSHN 593	Seminar in Foods and Nutrition	
NUTR 590	Disciplinary Seminar	
NUTR 510 or NUTR 561	Topics in Nutrition Research Advanced Clinical Nutrition	1
NUTR 511	Regulation of Metabolism	4
Two additional courses in general nutrition		6-8
Research/Project/Independent Study Hours (2 max applied toward degree)		2
NUTR 599	Thesis Research (min/max applied toward degree)	40 or 48
Total Hours		64

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Coursework total: with M.S. degree in Nutritional Science (16) or with MS in other field (24)	
Masters Degree Required for Admission to PhD?	No, but Masters level requirements must be met (32 additional hours min)
Qualifying Exam Required	Yes
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Final Exam/Dissertation Defense Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Programs information ([http://nutrsci.illinois.edu/about\\_us/program\\_description/degree\\_types/](http://nutrsci.illinois.edu/about_us/program_description/degree_types/)) and the Graduate College Handbook (<http://www.grad.uiuc.edu/gradhandbook/>).

## Learning Outcomes: Nutritional Sciences, PhD

Learning outcomes for the Doctor of Philosophy in Nutritional Science

1. Doctoral students in the Division of Nutritional Sciences will integrate scientific reasoning and advanced knowledge of the principles of nutritional sciences to effectively explain key concepts of nutrition and metabolism and discuss a broad range of nutritional sciences issues.
2. Doctoral students in the Division of Nutritional Sciences will develop expert level knowledge and training in a signature interdisciplinary research area that will equip them to identify and solve the complex issues facing the highly interdisciplinary field of nutritional sciences.
3. Doctoral students in the Division of Nutritional Sciences will be able to analyze and interpret data from research and scientific literature and apply experimental results to improve health and well-being at the local, national and international levels.

4. Doctoral students in the Division of Nutritional Sciences will develop an understanding of professional and scientific ethics and the impact of nutritional sciences research methods and outcomes in a societal and global context.
5. Doctoral students in the Division of Nutritional Sciences will develop outstanding oral and written communication skills to facilitate effective dissemination of scientific knowledge or interdisciplinary research findings to technical and non-technical audiences.
6. Doctoral students in the Division of Nutritional Sciences will combine interdisciplinary research with robust professional development and leadership training, distinguishing themselves from other students with a nutritional sciences degree and facilitating a highly successful transition to a career as a leader in academia, industry or policy.

## Graduate Degree Programs in Philosophy

Philosophy, MA (p. 1668)

**optional concentrations:**

Medieval Studies (p. 1919)

Philosophy, PhD (p. 1670)

**optional concentrations:**

Medieval Studies (p. 1919)

The normal program of graduate study in philosophy is directed toward the Ph.D. The M.A. degree is awarded after completing Stage One. Only under exceptional circumstances and without any commitment of financial aid, students may be allowed to seek only the Master of Arts degree. This happens only rarely. Students seeking solely an M.A. degree are encouraged to apply elsewhere.

---

## Admission

The Graduate College admission requirements apply. Applicants should have had a course in symbolic logic and general courses in the history of ancient and early modern philosophy. Students deficient in these areas may be admitted, but they are required to remedy their deficiencies by taking such courses in their first year. Applicants should also have done some coursework in such central areas of philosophical inquiry as ethics and the theory of knowledge. All applications for admission must be supported by three letters of recommendation from persons qualified to comment on the applicant's aptitude for graduate study in philosophy. They are further required to submit a sample of their written work in philosophy (10-20 pages). International applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL) and submit their scores; a score of at least 600 on the paper-based test (115 on the computer-based test) is required for regular admission. In addition, these students must demonstrate competence in oral English before they will be allowed to assist as preceptors for the department, as described in the information for teaching assistants. ([http://cte.illinois.edu/testing/oral\\_eng/main.html](http://cte.illinois.edu/testing/oral_eng/main.html))

The deadline for applications is January 1 for admission in the following fall semester. Students are not normally permitted to start the program in the spring semester. For additional information see the department's information for prospective graduate students (<http://philosophy.illinois.edu/grad/admissions/>).

## Language Requirement

Every student must demonstrate competence in one of the four basic philosophical languages (French, German, Latin, or Greek) or else satisfy an alternative requirement (as described below), before advancing to the Third Stage of the program. In the case of French this may be done by passing with a grade of B or better or by passing an examination administered by the Department of French. In the case of German this may be done by passing with a grade of B or better or by passing an examination administered by the Department of German. In the case of Latin this may be done by passing with a grade of B or better any LAT course at the 300-, 400-, or 500-level. In the case of Greek this may be done by passing with a grade of B or better any GRK course at the 400- or 500-level (with the exception of and ). Alternatively students may pass a proficiency examination in Latin or Greek administered by the Department of the Classics, the form of which must be approved by the Director of Graduate Studies.

To substitute a language other than one of the basic four, a student must first obtain approval of his or her adviser and of the Graduate Program Committee. Such approval normally will be granted only where the language is directly relevant to the student's work in philosophy.

The student may petition the Graduate Program Committee to replace the language requirement by an approved program of study in her or his area of research. This petition must include a written justification by the student or the advisor. If written by the student, the justification must be approved by the student's advisor. This program of study should be deemed more useful to the student's research than a study of one the philosophical languages. It may, for example, involve intensive study of specific methods that will greatly enhance the student's research, such as scientific, mathematical, or statistical methods, or it may involve obtaining crucial knowledge of some field outside of philosophy, such as concentrated studies in law, psychology, or religion.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Financial Aid

Students admitted to the Ph.D. program are offered financial aid, in the form of fellowships or assistantships, which cover living expenses and include a waiver of tuition and service fees. This aid will usually be continued for up to five years provided the student is making normal progress. Further details are qualifications are given in the department's graduate regulations (<http://philosophy.illinois.edu/grad/regulations/>).

### *for the degree of Master of Arts in Philosophy*

The M.A. degree is awarded after completing Stage I. Students may not apply to the M.A. degree program. Students qualify for the M.A. degree by earning at least 32 hours of graduate credit with at least a 3.25 grade point average (A = 4.0), as specified below.

Code	Title	Hours
Hours in regularly scheduled courses (excluding PHIL 583 and PHIL 590)		24-32
PHIL 590	Directed Research	0-8
or PHIL 583	Individual Topics	
Total Hours		32

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum Number of 500-level Hours Required Overall (excluding 583 and 590):	12
A one-year residence requirement	
Submission of a substantial essay and passing an oral examination on this essay OR admission to Stage II.	
Minimum GPA:	3.25

<sup>1</sup> For additional details and requirements refer to the department's Graduate Program Regulations (<http://www.philosophy.illinois.edu/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Philosophy, MA

Learning Outcomes for the degree of Master of Arts in Philosophy

The Philosophy Department aims to produce four main learning outcomes.

- Philosophical Knowledge:** Students will have advanced familiarity with major figures and movements in the history of western philosophy; with central topics, theories, and debates in epistemology and metaphysics, in ethics and value theory, and in logic; and with current developments in professional philosophy.
- Philosophical Reading:** Students will develop advanced ability to analyze persuasive and argumentative prose: identifying the main claims asserted, the reasons alleged to support those claims, and the logical relations between the claims and the reasons, including identifying any gaps in the arguments.
- Philosophical Inquiry:** Students will have advanced ability to formulate abstract principles in epistemology and metaphysics, in ethics and value theory, in logic, and in related special topic areas in philosophy; they will have advanced ability to identify consequences of the principles they formulate, and they will have advanced ability to construct arguments for those principles and compare them to competing principles.
- Philosophical Writing:** Students will have advanced ability to write clearly and with logical precision on a wide range of important issues, including (but not limited to): civic and social challenges at local, national, and global levels; social and cultural issues related to race, indigeneity, gender, class, sexuality, language, and disability; and the ways that complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions.

### *for the degree of Doctor of Philosophy in Philosophy*

Code	Title	Hours
A course distribution requirement: Two graduate-level courses must be taken in each of the department's main areas of concentration: value theory, history of philosophy, and metaphysics-epistemology-philosophy of mind. (Some hours may be completed during Stage I)		0-24
Students must demonstrate competence in symbolic logic, either by passing an approved course in the subject or by passing a proficiency examination administered by the department.		0-4
Regular Seminars (Some hours may be completed during Stage I)		12-24
Graduate-level study outside of Philosophy: Max hours allowed 8 (see department page for details)		0-8
Language Requirement: Students must demonstrate competence in one of the four basic philosophical languages: German, French, Greek, or Latin. See the department for details.		0
PHIL 599	Thesis Research (16 min applied toward degree)	16
Total Hours		64

## Other Requirements<sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum Hours Required Within the Unit:	88
The max. limit of PHIL 583 (Independent Study) hours that can be used to satisfy Ph.D. requirements:	12
Participation in a dissertation seminar is required each term in the Third Stage, as is participation in one regular seminar per year.	
Masters Degree Required for Admission to PhD?	No, but Masters level requirements must be met (32 hours)
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.25

<sup>1</sup> For additional details and requirements refer to the department's Graduate Program Regulations (<http://www.philosophy.illinois.edu/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

The Ph.D. program has three stages. The first stage is completed when a student has earned 32 hours of graduate credit. The second stage is completed when the student has earned 32 additional hours (or, having received a master's degree previously, has earned and has been allowed transfer credit for a total of 64 hours) and has satisfied the preliminary examination requirement, a course distribution requirement, a foreign language requirement, and a logic requirement (see department website for details). Of the 64 hours required for the Ph.D. (beyond the MA level requirements), only 12 can be in Independent Study courses (PHIL 583), and at least 20 must be earned in regular seminars. The third stage is completed when the student has earned another 32 hours of graduate credit (usually in seminars and thesis research) and has satisfied the thesis and doctoral oral examination requirements (see below). Also required in the Third Stage is participation in a dissertation-writing seminar each term and participation in one regular seminar per year. Third-stage regular seminar participation is typically for 2 hours credit, thus totaling 4 hours beyond the 20 hours (min) of seminars required for Stage 2. A minimum grade point average of 3.33 (A = 4.0) is required for the Ph.D. degree. Candidates must also satisfy the Graduate College residence requirement.

Candidates need not take work in a minor field outside the department. In cases in which advanced study in philosophy would be enhanced by study in a related discipline, students may use such related coursework to satisfy the credit requirements for the degree, limited to 8 hours. If a student wishes the work to count as an extra-departmental minor, the minimum number of hours accepted is 8 and the maximum is 16. Courses applied toward the completion of a minor may not be applied toward the completion of the Course Distributions Requirement for the Philosophy Ph.D.

After satisfying these requirements, a candidate for the Ph.D. must submit an acceptable dissertation and pass a final, oral examination on the thesis. The acceptability of the thesis is judged and the final examination administered by the candidate's doctoral committee.

Ph.D. candidates who wish simultaneously to pursue advanced degrees in other disciplines (e.g., medicine or law) are permitted to do so.

## Learning Outcomes: Philosophy, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Philosophy

---

The Philosophy Department aims to produce five main learning outcomes.

1. **Philosophical Knowledge:** Students will have expert-level familiarity with major figures and movements in the history of western philosophy; with central topics, theories, and debates in epistemology and metaphysics, in ethics and value theory, and in logic; and with current developments in professional philosophy.
2. **Philosophical Reading:** Students will have expert-level ability to analyze persuasive and argumentative prose: identifying the main claims asserted, the reasons alleged to support those claims, and the logical relations between the claims and the reasons, including identifying any gaps in the arguments.
3. **Philosophical Inquiry:** Students will expert-level ability to formulate abstract principles in epistemology and metaphysics, in ethics and value theory, in logic, and in related special topic areas in philosophy; they will have expert-level ability to identify consequences of the principles they formulate, and they will have expert-level ability to construct arguments for those principles and compare them to competing principles.
4. **Philosophical Writing:** Students will have expert-level ability to write clearly and with logical precision on a wide range of important issues, including (but not limited to): civic and social challenges at local, national, and global levels; social and cultural issues related to race, indigeneity, gender, class, sexuality, language, and disability; and the ways that complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions.
5. **Professional Development:** Students are familiar with conference norms, journal publication standards, and venues, and the requirements for teaching college-level courses in philosophy.

## Other Graduate Programs in the Department of Physics

degrees:

Physics, PhD (p. 1675)

**optional concentrations:**

Computational Science and Engineering (p. 1892)

Teaching of Physics, MS (p. 1822)

The Department of Physics offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Physics and Master of Science in Teaching Physics. The Department is actively developing a new paradigm for graduate physics education and research for the 21st century, aimed at enhancing interdisciplinary interactions and creating an integrated approach to educational and research training. Outstanding graduate research opportunities are available in many subdisciplines of physics, including condensed matter physics, high energy and nuclear physics, astrophysics, atomic physics, molecular and optical physics, complex systems, quantum information, biological physics, physics education research.

Students may select experimental, theoretical, or computational thesis projects. Multidisciplinary projects are especially encouraged, and, with the consent of other departments, students may earn master's degrees in areas such as materials science and engineering, or computer science, simultaneously with their PhD degrees in physics.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

for the degree of Master of Science in Physics

---

The M.S. degree is usually completed in 1.5 years of full-time study by students entering in full standing. Students entering with deficiencies may require up to two years to complete the degree requirements.

For additional details and requirements refer to the department's Degree Requirements (<http://physics.illinois.edu/grad/degree-requirements.asp>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Requirements

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

Admission to the physics graduate program requires an outstanding record of accomplishment in an undergraduate physics program and clear evidence of considerable academic promise, as judged by test scores, letters of recommendation, and strong intellectual achievements. A bachelor's degree or its equivalent from an accredited college or university in the U.S. or an approved institution of higher learning abroad, with at least 20 semester hours (30 quarter hours) of intermediate and advanced undergraduate physics course work, is required for admission. Course preparation in electricity and magnetism, optics, mechanics, atomic and nuclear physics, quantum mechanics, mathematical physics, differential equations, and analysis is essential. Any deficiency in these areas may delay degree completion by as much as a year. (Students are expected to make up deficiencies during the first graduate year.)

A minimum GPA of 3.00 (A = 4.00) for the last two years of undergraduate work is required; however, because of space limitations, applicants with GPAs below 3.50 are rarely admitted. Students with prior graduate course work must have a minimum GPA of 3.50 for those courses. All applicants must provide test scores from the General GRE Graduate Record Examination (GRE) (<http://www.ets.org/>). The Physics GRE subject test is optional.

Graduates of curricula in the physical and biological sciences, mathematics, or computer science may be admitted with limited standing if they are judged to have the necessary aptitudes to profit from graduate work in physics. Such students are admitted to full standing after completing course work to remove deficiencies in physics preparation.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

A few applicants may be admitted for the spring semester, in addition to the customary fall semester admissions. See the Physics graduate admissions Web site (<http://physics.illinois.edu/grad/apply.asp>) for lists of deadlines and application materials.

## Financial Aid

Fellowships, research assistantships, and teaching assistantships (all of which include waivers of tuition and some fees) are available for the majority of admitted students. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

The research specialties of Physics faculty fall into the broad categories described in the graduate programs section of this document. Details of each individual's specific interests are available at the department's faculty research Web site. (<http://physics.illinois.edu/research/>) Included are faculty whose primary appointments are in other departments but who supervise Physics students.

The Department of Physics offers world-class research facilities in traditional areas of physics, including condensed matter, nuclear, particle, and optical physics, as well as state-of-the-art instruments for quantum information, nanoscale science and engineering, and biological physics. For a complete description of physics facilities, please consult the department's research facilities Web site (<https://physics.illinois.edu/research/facilities/>).

---

## Other Graduate Programs in the Department of Physics

degrees:

Physics, MS (p. 1673)

Teaching of Physics, MS (p. 1822)

The Department of Physics offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Physics and Master of Science in Teaching Physics. The Department is actively developing a new paradigm for graduate physics education and research for the 21st century, aimed at enhancing interdisciplinary interactions and creating an integrated approach to educational and research training. Outstanding graduate research opportunities are available in many subdisciplines of physics, including condensed matter physics, high energy and nuclear physics, astrophysics, atomic physics, molecular and optical physics, complex systems, quantum information, biological physics, physics education research.

Students may select experimental, theoretical, or computational thesis projects. Multidisciplinary projects are especially encouraged, and, with the consent of other departments, students may earn master's degrees in areas such as materials science and engineering, or computer science, simultaneously with their PhD degrees in physics.

Opportunity also exists for specializing in energy and sustainability engineering via the

## Learning Outcomes: Physics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Physics

Illinois Physics PhD graduates will have:

1. a firm foundation in core physics, math, and current physics research topics;
2. an ability to design and conduct original experiments, model physical phenomena, and analyze and interpret data;
3. an ability to work collaboratively with a diverse team;
4. a mastery of the concepts, techniques, and literature associated with the student's specific research subfield (e.g., theoretical condensed matter physics, experimental high energy physics, etc.);
5. an ability to teach and mentor others effectively;

6. an ability to communicate—both orally and in writing—scientific topics effectively to specialists in the student's research subfield, to scientifically literate non-specialists, and to the general public(outreach);
7. an understanding of the student's professional and scientific ethical responsibilities;
8. an ability to identify important scientific problems and to use modern experimental, computational, and/or analytical techniques to solve scientifically and societally relevant problems.

## Graduate Degree Programs in Plant Biology

Plant Biology, MS (p. 1679)

Plant Biology, PhD (p. 1682)

The Department of Plant Biology offers two graduate degrees, the Master of Science and the Doctor of Philosophy. There are two paths to completing the Master of Science degree, the traditional thesis and a non-thesis option. Students accepted directly into the MS program are expected to complete an MS thesis. The department also participates in the interdepartmental graduate program: the Program in Ecology, Evolution and Conservation Biology (<http://sib.illinois.edu/peec/>).

The Department teaches and conducts foundational research in plant biology. Its focus is integrative. Biological processes are investigated at multiple levels of organization using molecular, biochemical, physiological, morphological, and ecological approaches.

Areas of specialization within the department include:

- biochemistry
- biodiversity
- bioinformatics
- cell biology
- conservation biology
- development
- ecology
- environmental physiology
- evolution
- genetics
- genomics
- modeling
- molecular biology
- mycology
- paleobotany
- paleoecology
- photosynthesis
- phytochemistry
- population biology

- biotechnology
- systems biology
- systematics

Graduate students receive broad biological and professional training and acquire expertise in their areas of specialization.

The Plant Biology Departmental website (<http://www.life.illinois.edu/plantbio/>) provides additional information about the department, its admissions procedures, degree requirements, facilities, and the research interests of its faculty.

Admission

Prospective students are encouraged to identify faculty member(s) whose research specialty(ies) most closely coincide(s) with their interests and to correspond directly with them. Acceptance the Master of Science graduate program is based on the applicant's academic achievement and research potential. While departmental requirements do not specify particular courses as prerequisites for admission, applicants should have had undergraduate coursework in biology or related sciences. Admission to the graduate program requires an undergraduate grade point average of at least 3.0 (A = 4.0). Graduate Record Examination (GRE) scores (or approved equivalent) are not required but may be submitted to strengthen application package; however no minimum scores are specified for admission. International students should have a Test of English as a Foreign Language (TOEFL) score of 600 or above on the paper-based test, or 102 or above on the internet-based test (iBT). The IELTS exam is also accepted, and applicants should have a score of 7.0 or higher.

Facilities and Resources

The Plant Biology Department's diverse state-of-the-art research laboratories are located in Morrill Hall, Edward R. Madigan Laboratory, and the Institute for Genomic Biology. In addition, the department maintains extensive plant growth-chamber facilities, environmentally controlled greenhouses, a conservatory with live teaching and research collections, herbaria, a center for paleobotanical collections, and diverse local and remote field sites including SoyFACE (<http://soyface.illinois.edu/>). The University also offers exceptional research support services including the Roy J. Carver Biotechnology Center (<http://www.biotech.illinois.edu/>), service laboratories in the Institute for Genomic Biology (<http://www.igb.illinois.edu/facilities-services/>), the Beckman Institute (<http://www.beckman.illinois.edu/>), and the University Library (<http://www.library.illinois.edu/>), one of the world's largest.

Financial Aid

Fellowships, teaching assistantships, and research assistantships are available for qualified MS and PhD students in Plant Biology. Fellowships are awarded on a competitive basis.

for the degree of Master of Science in Plant Biology

Thesis Option

Plant Biology Thesis option: The requirement of a thesis for the M.S. degree in Plant Biology is determined in consultation with the candidate's adviser. The program is normally completed within two years. Candidates are expected to complete at least 32 semester hours of graduate coursework and research agreed upon with a faculty adviser.

Code	Title	Hours
Course hours distributed among three of the following areas: anatomy, biochemistry, development, ecology, evolution, genetics, molecular biology, physiology, and systematics (4 of these hours must be outside the immediate research interests of the student)		12
Electives in consultation with and by permission of advisor		12-20
PBIO 599	Thesis Research (8 max applied toward degree)	8
Total Hours		32

Other Requirements <sup>1</sup>

Requirement	Description

## Financial Aid

Fellowships, teaching assistantships, and research assistantships are available for qualified MS and PhD students in Plant Biology. Fellowships are awarded on a competitive basis.

### *for the degree of Doctor of Philosophy in Plant Biology*

Candidates for the Ph.D. are expected to complete a minimum of 96 hours of graduate coursework and research. A formal evaluation (the Two-Year Review) of the student's academic progress is made prior to the end of the second year of study (end of Stage 1). Departmental approval must be obtained at this juncture in order to continue in the graduate program. A Preliminary Examination is taken during the second year (if the student entered with an M.S. degree) or the third year (if the student entered with a B.S. degree) (end of Stage 2). This consists of an oral examination of general knowledge in three of nine broadly-defined areas of plant biology and defense of a written research proposal on the thesis research topic prepared by the student. Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates. The final stage (Stage 3) of the program consists of preparing an acceptable thesis based on independent research designed in consultation with a faculty advisor and approved by a graduate faculty thesis committee. A final oral examination, in which the student defends the thesis, a public seminar, and deposit of an approved thesis complete the program. The Ph.D. degree program is expected to be completed within five years. See the Plant Biology Department's online Graduate Student Handbook (<http://www.life.illinois.edu/plantbio/gradhandbook.htm>) for a detailed description of the Stages and Requirements of the Ph.D. program.

phone:(217) 244-0396

## Admission

Applicants are considered for admission to the Professional Science Master's in Plant Biotechnology if they have a bachelor's or equivalent degree comparable to that granted by the University of Illinois. Strong letters of reference, evident motivation to undertake graduate study, and good preparation in basic science courses enhance an applicant's credentials. A grade point average equivalent to at least a B in the last 60 semester hours of undergraduate course work plus any graduate level work completed is required. All applicants whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University. Additional information for international applicants can be found at: [www.grad.illinois.edu/prospective/international.htm](http://www.grad.illinois.edu/prospective/international.htm) (<http://www.grad.illinois.edu/prospective/international.htm>).

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; however, statutory waivers and tuition scholarships are accepted.

*for the degree of Master of Science in Plant Biotechnology, Professional Science Master's Concentration*

African American Studies (p. 1879)

**Joint Programs:**

Political Science, PhD & Law, JD (p. 2032)

Political Science: Civic Leadership, MA & Law, JD (p. 2033)

The Department of Political Science offers graduate programs leading to the degrees of Master of Arts and Doctor of Philosophy. Students are not admitted to the master's degree program in Political Science, except for the Civic Leadership concentration. The department is not accepting applications to the Public Administration program.

---

## Admission

### Admission to the Ph.D. Program

The Graduate College admission requirements apply. The student should have a minimum of 20 hours of undergraduate work in political science and cognate disciplines such as economics, psychology, finance, sociology, or history. All applicants are required to submit Graduate Record Examination (GRE) scores, a personal statement, and an example of written work. Applicants whose native language is not English must submit the TOEFL iBT or IELTS score. The Ph.D. program typically admits students for the fall semester. Application deadline is December 15th.

### Admission to the Master of Arts with Concentration in Civic Leadership

Admission is restricted to students who were accepted to the Civic Leadership Program as undergraduates at the University of Illinois. Application deadline is December 15. Applicants who wish to obtain a joint MA-JD degree program must apply separately for admission to the Law School.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program and is essential for students whose career goals include college teaching.

## Financial Aid

Students accepted into the department's Ph.D. program are eligible to apply for financial aid. Most incoming students with good credentials and continuing students demonstrating satisfactory progress will receive some type of financial aid, but the type and amount will vary. The Department of Political Science provides, on a competitive basis, aid packages up to \$22,000, plus waivers of tuition and some fees. Financial aid is usually a combination of fellowship money and assistantships. Limited amounts of aid are also available for dissertation field research, internships, and the presentation of papers at professional meetings.

## *for the degree of Master of Science in Political Science*

---

Students enrolled in the Ph.D. program can usually earn a Master of Arts in Political Science within three semesters. It entails the completion of 32 graduate hours and the achievement of a 3.0 GPA in all courses taken. A master's paper is required.

For additional details and requirements refer to the department's graduate handbook (<http://www.pol.illinois.edu/graduates/handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

---

The course of study leading to a Ph.D. in Political Science requires a minimum of three years of full-time study, culminating in the successful defense of a doctoral dissertation. A minimum of 96 graduate hours of academic credit is required, 32 of which may be graduate hours of dissertation research. At least 64 of the 96 graduate hours must be taken in residence. A grade of B or better is required in all courses.

In addition to meeting Graduate College requirements, the Department of Political Science requires that students complete a "scope and methods" sequence, acquire proficiency in analytic skills, and demonstrate expertise in several subfields within the discipline. The progress of doctoral candidates is monitored at various points in the program. In addition to an interim evaluation, students must pass a set of qualifying examinations and present a dissertation proposal. Once the doctoral dissertation is completed, the candidate must successfully complete an oral final defense.

## Graduate Degree Programs in Political Science

Political Science, MA (p. 1687)

**concentrations:**

Civic Leadership (p. 1692)|African American Studies (p. 1879)

Political Science, PhD (p. 1689)

**concentration:**

African American Studies (p. 1879)

**Joint Programs:**

Political Science, PhD & Law, JD (p. 2032)

Political Science: Civic Leadership, MA & Law, JD (p. 2033)

The Department of Political Science offers graduate programs leading to the degrees of Master of Arts and Doctor of Philosophy. Students are not admitted to the master's degree program in Political Science, except for the Civic Leadership concentration. The department is not accepting applications to the Public Administration program.

---

## Admission

### Admission to the Ph.D. Program

The Graduate College admission requirements apply. The student should have a minimum of 20 hours of undergraduate work in political science and cognate disciplines such as economics, psychology, finance, sociology, or history. All applicants are required to submit Graduate Record Examination (GRE) scores, a personal statement, and an example of written work. Applicants whose native language is not English must submit the TOEFL iBT or IELTS score. The Ph.D. program typically admits students for the fall semester. Application deadline is December 15th.

### Admission to the Master of Arts with Concentration in Civic Leadership

Admission is restricted to students who were accepted to the Civic Leadership Program as undergraduates at the University of Illinois. Application deadline is December 15. Applicants who wish to obtain a joint MA-JD degree program must apply separately for admission to the Law School.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program and is essential for students whose career goals include college teaching.

## Financial Aid

Students accepted into the department's Ph.D. program are eligible to apply for financial aid. Most incoming students with good credentials and continuing students demonstrating satisfactory progress will receive some type of financial aid, but the type and amount will vary. The Department of Political Science provides, on a competitive basis, aid packages up to \$22,000, plus waivers of tuition and some fees. Financial aid is usually a combination of fellowship money and assistantships. Limited amounts of aid are also available for dissertation field research, internships, and the presentation of papers at professional meetings.

**for the degree of Doctor of Philosophy in Political Science**

The course of study leading to a Ph.D. in Political Science requires a minimum of three years of full-time study, culminating in the successful defense of a doctoral dissertation. Students who have completed undergraduate coursework in the Civic Leadership Program and are admitted into the Graduate College can usually earn a Master of Arts in Political Science, with a Concentration in Civic Leadership within one year. It entails the completion of 32 graduate hours and the achievement of a 3.0 GPA in all courses taken. A master's paper is required, which is fulfilled by the completion of a collaborative project undertaken as part of the Practicum in Civic Leadership.

Only UIUC students who have participated in the undergraduate portion of the Civic Leadership Program are eligible for admission in the graduate concentration in Civic Leadership. For information contact the Director, Civic Leadership Program, Department of Political Science.

## **Learning Outcomes: Political Science, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Political Science

The Political Science doctoral program is designed to produce broadly educated and well-trained scholars and teachers. Our aim is to produce Ph.D.s who have the breadth and vision to grapple with large questions, the training to make original contributions to research that addresses those questions, and the ability to communicate research results to students, their peers, and society at large. We thus strive to strike an appropriate balance between:

1. Exposure to theoretical models in political and social research,
2. Sophisticated training in the methods and techniques of social science,
3. The development of expertise within a student's primary area of interest,
4. Exposure to classroom teaching, and
5. Exposure to the discipline's professional norms and practices.

More specifically, every Illinois Ph.D. should:

1. Be well-grounded in the social sciences. This includes familiarity with the philosophy of science issues that underlie social scientific inquiry. It also includes exposure to or an acquaintance with the literature and approaches of at least one other discipline as they pertain to inquiries in political science and specifically to students' particular areas of interest.
2. Be familiar with the breadth and diversity of models, approaches, and intellectual traditions within a student's major subfield of expertise (major fields in the department are American politics, comparative politics, international relations, and political theory).
3. Be competent in at least a second substantive area of political science (minor fields in the department are the same as the four major fields, with the addition of political methodology).
4. Be highly competent in research skills appropriate to his or her research endeavors. An Illinois Ph.D. should be exposed to a broad range of methodologies (including both quantitative and qualitative approaches) and have some deeper familiarity with particular sets of research skills (e.g. statistical analysis, formal modeling, game theory, the comparative case study method).
5. Fully understand the research enterprise. This includes an ability to critique others' work and an ability to be a contributing scholar by producing original research.
6. Be prepared to teach graduate courses in his or her primary subfield and undergraduate courses in at least two subfields of the discipline, and understand best practices for student engagement.
7. Be familiar with disciplinary norms and standards, including understanding issues related to ethical practices in research, professional and public engagement, and instruction.

## Graduate Degree Programs in Spanish & Portuguese

Spanish, MA (p. 1767)

**optional concentrations:**

Medieval Studies (p. 1919)|Spanish Linguistics (p. 1769)|Spanish Literatures & Cultures (p. 1771)

Spanish, PhD (p. 1773)

**optional concentrations:**

Medieval Studies (p. 1919)|Romance Linguistics (p. 1924)|Second Language Acquisition & Teacher Education (p. 1926)

Portuguese, MA (p. 1694)

**concentration:**

Brazilian Studies (p. 1697)

Portuguese, PhD (p. 1696) (*Please note: Until further notice, we are accepting applications only to the M.A. in Portuguese, not to the Ph.D.*)

The Department of Spanish and Portuguese offers work leading to the Master of Arts and Doctor of Philosophy in Spanish and Portuguese, and to a Concentration in Second Language Acquisition and Teacher Education (SLATE).

**Fields of specialization are:**

- Spanish linguistics
- Romance linguistics
- Spanish literature and cultural studies
- Latin American literature and cultural studies
- Brazilian Studies
- Luso-Brazilian literature and cultural studies

A graduate course in Catalan literature is available. Also, the department is affiliated with the Latina/Latino Studies Program. Students in the area of Latina/Latino studies may be able to work with experts in the other disciplines in Latina/Latino studies such as anthropology, history, political science, sociology, and so forth in order to design and complete a program of studies in a particular area.

---

## Admission

The normal prerequisite for a graduate major is an undergraduate major in the corresponding Romance language or consent of the department. Students doing graduate work for any advanced degree in Spanish or Portuguese must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers, at least one of which must be written in Spanish or Portuguese (as applicable). Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Centers, Programs, and Institutes

The option to pursue a concentration in SLATE (Second Language Acquisition and Teacher Education) is available to doctoral students in the department's programs in linguistics. Candidates selecting this option are required to complete courses in linguistics, psycholinguistics/sociolinguistics, second language studies, and research methodology in addition to advanced study in linguistics of the particular language. For information about SLATE go to [www.slate.illinois.edu](http://www.slate.illinois.edu) (<http://www.slate.illinois.edu/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, this department requires degree candidates to teach as part of their academic work. Such experience is considered a vital part of the graduate program. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Financial Aid

The department offers financial aid (in the form of fellowships, teaching assistantships, and research assistantships) to all of the students it admits. Other kinds of fellowships and research support are also available on a competitive basis to qualified candidates; they include dissertation research and travel grants, conference travel grants, and summer fellowships.

### *for the degree of Master of Arts in Portuguese*

The M.A. in Portuguese is administered through the Department of Spanish and Portuguese. Its goal is to provide breadth in the various areas of Luso-Brazilian Studies as well as develop the student's ability to interpret and analyze literature, culture, and history. It requires a minimum of 32 graduate hours. Students must also successfully complete a master's thesis, developed in consultation with their advisor.

For additional details and requirements refer to the department's guidelines (<https://spanport.illinois.edu/academics/graduate-program/graduate-guidelines/#degrees>) for graduate students and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Degree Requirements:

Code	Title	Hours
Coursework in Luso-Brazilian literature/cultural studies selected in consultation with advisor.		24
PORT 595	Special Topics Port & Braz Lit	4
PORT 599	Thesis Research	4
<b>Total Hours</b>		<b>32</b>

## Other Requirements

Requirement	Description
Other requirements may overlap	
PORT 571 is required of all teaching assistants	4 hours
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	3.0

## Learning Outcomes: Portuguese, MA

Learning Outcomes for the degree of Master of Arts in Portuguese

1. Students will possess a breadth of knowledge about social, cultural, and historical issues in Brazil and the Portuguese-speaking world, as well as a depth of knowledge about a cluster of research questions corresponding to students' individual interests.
2. Students will develop a familiarity with multiple disciplinary approaches to the study of Brazil specifically and social, cultural, and historical phenomena more generally.
3. Students will possess the ability to identify research questions, develop a research project, and see that project (MA thesis) to completion through sustained engagement with both existing scholarship and novel research.
4. Students will acquire the ability to communicate research findings in a variety of academic venues in spoken and written English and Portuguese.
5. Students will acquire knowledge and experience of teaching methodologies and will be able to teach at the undergraduate level.

### *for the degree of Master of Arts in Portuguese, Brazilian Studies Concentration*

---

In the MA program in Portuguese with a concentration in Brazilian Studies, students broaden and deepen their knowledge of Brazil-related topics and themes, working closely with core and affiliated faculty members in Portuguese. Students draw on the many upper-level course offerings across departments and disciplines to create an individualized plan of study. All students must take SPAN 572 on theory and criticism or an equivalent course. Students with TAs are also required to complete PORT 571, the pro-seminar for language teaching required of all TAs in the department.

Beginning in their second semester, students will enroll in PORT 595 with one of the Portuguese faculty members or affiliate faculty to develop a master's thesis. In their third or fourth semester(s), students can then sign up for PORT 599 (repeatable for up to 16 hours), to produce the thesis, which will be of publishable quality, working with Portuguese core and affiliated faculty. Four independent study hours in PORT 595 and four thesis research hours in PORT 599 count toward the 20 required hours in the Department of Spanish and Portuguese.

*For additional details and requirements refer to the department's guidelines (<https://spanport.illinois.edu/academics/graduate-program/graduate-guidelines/#degrees>) for graduate students and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

Code	Title	Hours
Course work within the Department of Spanish and Portuguese in Brazilian Studies selected in consultation with advisor.		12
PORT 595	Special Topics Port & Braz Lit	4
PORT 599	Thesis Research	4
Coursework in disciplines related to the students' focus with themes relevant to Brazil.		12
<b>Total Hours</b>		<b>32</b>

### Other Requirements

Requirement	Description
Other requirements may overlap	
SPAN 572 or equivalent methods course must be taken by students	4 hours
Minimum 500-level Hours Required Overall:	12
PORT 571 is required of all teaching assistants	4 hours
Minimum GPA:	3.0

### Admission

The Graduate College admission requirements apply for all programs. All candidates for admission must have a minimum grade point average of 3.0 (or B) on a 4.0 scale in courses representing the last 60 hours of work completed for the bachelor's degree. The candidate for admission to the graduate program should ordinarily have the following preparation: a minimum of 15 semester hours in psychology, a laboratory research methods course in psychology, and a course in statistics. Departmental committees also consider Graduate Record Examination (GRE) scores and letters of recommendation. Preference is given to students who have taken mathematics beyond college algebra and to those who have some research experience. Students are accepted only for fall admission. The M.S. in Psychological Science application deadline is February 6, 2022.

In addition to the aforementioned criteria, applicants are evaluated on their supporting documents, career goals, career promise, and research interests. Additional weight is given to the quality and extent of prior research and other relevant experience.

All applicants whose native language is not English or who are from any country other than the US, the United Kingdom, Canada, Australia, or New Zealand (even if they are native English speakers) are required by the University to submit the results of an English language proficiency test. The university will accept the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) to determine admission eligibility.

- The minimum total TOEFL iBT score for admission (including all four sections): 79
- Minimum total TOEFL iBT score for exemption from the English as a Second Language Placement Test (EPT) for admission (including all four sections): 103
- Minimum total IELTS score for admission: 6.5, including a minimum subscore of 6 on all four modules. Students receiving scores below 7 will be required to take the EPT for placement in English as Second Language courses.

Refer to [www.psychology.illinois.edu](http://www.psychology.illinois.edu) (<http://www.psychology.illinois.edu/>) (MS in Psychological Science) for additional information about the Department of Psychology's admission requirements.

### Faculty Research Interests

The program is designed to prepare students for academic and research-oriented careers. Students become actively involved in research throughout the program.

For the most part, we view graduate education as an apprenticeship. Our task is to provide an environment where mature young scholars can gain experience in research as they collaborate with faculty and with other graduate students. Faculty research interests can be viewed here (<https://psychology.illinois.edu/directory/faculty/>).

## Facilities and Resources

Students have designated work and study areas, access to research, library, and computing services. In some cases, student may collaborate with the Psychological Services Center, Illinois NeuroBehavioral Assessment Laboratory, Beckman Institute for Advanced Science and Technology, Educational Psychology, and the School of Labor and Employee Relations.

## Financial Aid

The M.S. in Psychological Science program is self-supporting. The program does not accept non-statutory tuition waivers, and students enrolled in this program are ineligible to hold waiver-generating appointments.

Please refer to this link for the current graduate tuition and fees: <https://registrar.illinois.edu/tuition-fee-rates> (<https://registrar.illinois.edu/tuition-fee-rates/>)

Enrollment for this program spans 4 semesters. Credit hours will range from 6–12 (or more) each semester, depending on course availability, international/domestic status, and student goals. International students are required to register for 12 credit hours to maintain F-1/J-1 student status.

Information regarding fees depends on the individual applicant. Fees are explained at <http://registrar.illinois.edu/fee-info> (<http://registrar.illinois.edu/fee-info/>). Please note that these costs do not include housing, transportation or other costs of living expenses.

## Learning Outcomes: Psychological Science, MS

Learning Outcomes for the Master of Science in Psychological Science

1. Students will demonstrate an advanced level of knowledge about topics in psychological science (e.g., current debates in the field, current methods and measurement practices, and new issues in research ethics).
2. Students will demonstrate depth of knowledge of content and methods in their program of study (e.g., attention and perception, cognitive neuroscience, social psychology, industrial/organizational psychology). Depth of knowledge will be acquired through participation in active research labs, production of a lab report, selection of specialized electives, and the successful practice of critically evaluating research in psychological science. Critical evaluation includes considering internal and external validity, implications for theory, and methodological and analytical integrity.
3. Students will demonstrate research skills (design, analysis, and interpretation of research reports) in major and subfields of psychological science through coursework in statistics and research practices, and through participation in active research laboratories. In courses and in lab contexts, students will use appropriate statistical techniques to analyze data and interpret results.
4. Students will identify and communicate independent research interests. Students will identify independent research interests through discussion with their advisor and through a review of the literature. Students will communicate independent interests through a formal presentation of their ideas as part of a public speaking requirement in core courses. Students will communicate these interests through a written report, or successful submission of a proposal to the OPRS, or the submission of a pre-registered report, or by contributing to the creation of a manuscript.

5. Students will produce examples of academic writing that reflect independent research interests. Students will demonstrate writing competency through a written report, or submission of a pre-registered report, or successful submission of a proposal to the OPRS, or the creation of a manuscript.
6. Students will set academic goals and design action plans for pursuing doctoral work or jobs in the industry through the construction of professional development materials (e.g., the creation of a CV, resume, cover letter, professional profile, personal statement, and research plan).

**phone:** (217) 333-2169

This degree is not designed to prepare a student for a professional position. As part of the doctoral program, students must earn the Master of Science in Psychology degree or submit a master's-level research report to the department.

## Graduate Degree Programs in Psychology

Psychology, MS (p. 1703)

Psychological Science, MS (p. 1700)

Psychology, PhD (p. 1707)

**optional concentrations:**

Developmental Psychopathology (p. 1711) | Second Language Acquisition & Teacher Education (p. 1926)

The Department of Psychology offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy. Doctor of Philosophy programs are offered in the following areas of psychology:

- Attention & Perception
- Behavioral Neuroscience
- Clinical-Community
- Cognitive Neuroscience
- Cognitive
- Developmental
- Industrial-Organizational
- Quantitative
- Social-Personality

An optional Master of Science in Psychology degree is awarded to students in the doctoral program as an intermediate degree.

## Admission

The Graduate College admission requirements apply for all programs. All candidates for admission must have a minimum grade point average of 3.0 (or B) on a 4.0 scale in courses representing the last 60 hours of work completed for the bachelor's degree. The candidate for admission to the graduate program should ordinarily have the following preparation: a minimum of 15 semester hours in psychology, a laboratory research methods course in psychology, and a course in statistics. Departmental committees also consider letters of recommendation. Graduate Record Examination (GRE) scores are required for application to the following areas: Attention & Perception, Cognitive, Developmental, Industrial-Organizational, Quantitative, and Social-Personality. Preference is given to students who have taken mathematics beyond college algebra and to those who have some research experience. Applications for admission to part-time study are usually not approved. Students are accepted only for fall admission. Application deadlines for the Ph.D. program are listed below.

### Fall 2022 Application Deadlines:

- Attention & Perception: **December 1, 2021**
- Behavioral Neuroscience: **December 1, 2021**
- Clinical-Community: **November 15, 2021**
- Cognitive Neuroscience: **December 1, 2021**

- Cognitive: **December 1, 2021**
- Developmental: **December 1, 2021**
- Industrial-Organizational: **December 1, 2021**
- Quantitative: **December 1, 2021**
- Social-Personality: **December 1, 2021**

In addition to the aforementioned criteria, applicants are evaluated on their supporting documents, career goals, career promise, and research interests. Substantial additional weight is given to the quality and extent of prior research and other relevant experience.

All applicants whose native language is not English or who are from any country other than the US, the United Kingdom, Canada, Australia, or New Zealand (even if they are native English speakers) are required by the University to submit the results of an English language proficiency test. The university will accept the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) to determine admission eligibility.

- The minimum total TOEFL iBT score for admission (including all four sections): 79
- Minimum total TOEFL iBT score for exemption from the English as a Second Language Placement Test (EPT) for admission (including all four sections): 103
- Minimum total IELTS score for admission: 6.5, including a minimum subscore of 6 on all four modules. Students receiving scores below 7 will be required to take the EPT for placement in English as Second Language courses.

In addition to the general requirement for English proficiency testing described above, the University of Illinois is also required by state law and University policy to give teaching appointments only to international graduate students who have more specifically passed an English language SPEAKING proficiency test. Applicants have the following options to satisfy this requirement:

- Minimum score of 24 on the speaking section of the TOEFL iBT
- Minimum score of 8 on the speaking section of the IELTS
- Minimum score of 50 on the TSE
- Minimum score of 5 on the EPI (English Proficiency Interview) test.

International applicants to the Ph.D. program must present documentation for one of the above-listed tests of spoken English at the time of application to the Psychology Department. The teaching English proficiency requirements do not apply to the M.S. in Psychological Science applicants.

Refer to [www.psychology.illinois.edu](http://www.psychology.illinois.edu) (<http://www.psychology.illinois.edu/>) (Graduate Program) for additional information about the Department of Psychology's admission requirements.

## Graduate Teaching Experience

The department requires Ph.D. candidates to gain teaching experience as part of their academic work. Such experience is considered a vital part of the graduate program and usually takes the form of a teaching assistantship. Students have the option of teaching two class sections (50% TA) for one semester or one class section (25% TA) for two semesters in order to meet the requirement.

## Faculty Research Interests

The program is designed to prepare students for academic and research-oriented careers. Students become actively involved in research during their first semester, devoting an increasing percent of time toward independent research throughout their graduate careers.

For the most part, we view graduate education as an apprenticeship. Our task is to provide an environment where mature young scholars can gain experience in research as they collaborate with faculty and with other graduate students. The program encourages interdisciplinary study both within psychology and between psychology and other fields. Faculty research interests can be viewed here (<https://psychology.illinois.edu/directory/faculty/>).

## Facilities and Resources

Students have everything they need, including personal office space and full access to research, library, and computing services, as well as to a large pool of research participants. The excellent cooperation between program areas in the department and with other units in the University provides access to expertise and methodology in a variety of areas including but not limited to:

- the Psychological Services Center
- the Counseling Center
- the Beckman Institute for Advanced Science and Technology
- the Center for the Study of Reading
- the Institute of Communications Research
- the School of Labor and Employee Relations

- the Family Resiliency Program
- the Neuroscience Program
- the Institute for Genomic Biology
- the Departments of Computer Science
- Educational Psychology
- Linguistics
- Molecular and Cellular Biology and Statistics
- the Colleges of Law and Medicine

## Financial Aid

Students generally complete the doctoral degree in 4-6 years, and the Psychology Department makes financial support available to all Ph.D. students in good standing for up to 6 years. The University application form and supplemental application materials provide all the information that is required by the committees administering various funding sources, which include teaching assistantships, research assistantships, and fellowships.

The M.S. in Psychological Science is self-supporting. The program does not accept non-statutory tuition waivers, and students enrolled in this program are ineligible to hold waiver-generating appointments.

# Learning Outcomes: Psychology, MS

Learning Outcomes for the Master of Science in Psychology

---

Students will:

1. Have the requisite knowledge to conduct independent research in academic and/or applied settings, including:
  - a. Knowledge of research methodology appropriate to a specific area of study
  - b. Knowledge of data analytic techniques
  - c. Knowledge of a specific area of study within the field of psychology
2. Have effective written communication skills to disseminate research and scholarship and/or pursue funding opportunities.
3. Have effective oral communication skills to disseminate research and scholarship (e.g., as instructors, as conference presenters)
4. Have the knowledge to adhere to professional standards and expectations. Specifically, this learning outcome will attend to the degree to which students:
  - a. Develop the knowledge and skills to engage diversity and inclusion in psychological science (as researchers, teachers, practitioners when applicable, and mentors)
  - b. Develop the knowledge and skills to engage in ethical research and practice (when applicable)
  - c. Develop the knowledge and skills to remain abreast of “cutting edge” issues in their respective program areas (e.g., replicability)

This concentration is available to students in the developmental and clinical-community areas within the Psychology PhD program. The field of developmental psychopathology has grown exponentially in the past twenty years to become a major area of interest in the field of Psychology. This concentration will provide specialized training and professional development guidance within the field of developmental psychopathology; provide exposure to multiple theoretical perspectives and research methods that are used across different labs; facilitate opportunities to be involved in research with multiple faculty, broadening the scope of training and allowing for stronger letters of recommendation when entering the job market; facilitate successful job searches in this area of specialization, for which specific certification in the field would be of benefit.

Students wishing to pursue the concentration should contact the Psychology Graduate Studies Office ([psych-grad@illinois.edu](mailto:psych-grad@illinois.edu)).

- <sup>1</sup> For these courses, only sections taught by faculty affiliated with the concentration and approved by the concentration coordinator will count toward the concentration (i.e., sections related to developmental psychopathology).
- <sup>2</sup> EPSY 590 sections can be taken with concentration coordinator approval.
- <sup>3</sup> Dissertation research must be completed with a faculty member doing research on developmental psychopathology and must be approved by the concentration coordinator.

## Learning Outcomes: Psychology, PhD

Learning Outcomes for the Doctor of Philosophy in Psychology

---

Students will:

1. Have the requisite knowledge to conduct independent research in academic and/or applied settings, including:
  - a. Knowledge of research methodology appropriate to a specific area of study
  - b. Knowledge of data analytic techniques
  - c. Knowledge of a specific area of study within the field of psychology
2. Have effective written communication skills to disseminate research and scholarship and/or pursue funding opportunities.
3. Have effective oral communication skills to disseminate research and scholarship (e.g., as instructors, as conference presenters)
4. Have the knowledge to adhere to professional standards and expectations. Specifically, this learning outcome will attend to the degree to which students:
  - a. Develop the knowledge and skills to engage diversity and inclusion in psychological science (as researchers, teachers, practitioners when applicable, and mentors)
  - b. Develop the knowledge and skills to engage in ethical research and practice (when applicable)
  - c. Develop the knowledge and skills to remain abreast of “cutting edge” issues in their respective program areas (e.g., replicability)

# Public Health, MPH

for the Master of Public Health in Public Health

**Department Head:** Kim Graber

**Director of Graduate Studies:** Steven Petruzzello

**Interim Director of Program:** Laura Rice

**Graduate Phone:** (217) 333-1083

**Graduate Email:** [jjenkins@illinois.edu](mailto:jjenkins@illinois.edu)

**Department Website:** <https://ahs.illinois.edu/community-health> (<https://ahs.illinois.edu/community-health/>)

**Program Website:** <https://ahs.illinois.edu/mph-home> (<https://ahs.illinois.edu/mph-home/>)

## Joint Programs:

Public Health, MPH & Community Health, PhD (p. 2034)

Public Health, MPH & Food Science & Human Nutrition, PhD (p. 2012)

Public Health, MPH & Human Development & Family Studies, PhD (p. 2016)

Public Health, MPH & Kinesiology, PhD (p. 2036)

Public Health, MPH & Nutritional Science, PhD ([http://catalog.illinois.edu/graduate/aces\\_ahs/nutritional-science-phd-public-health-mph/](http://catalog.illinois.edu/graduate/aces_ahs/nutritional-science-phd-public-health-mph/))

Public Health, MPH & Social Work, PhD ([http://catalog.illinois.edu/graduate/ahs\\_socw/joint-degree/public-health-mph-social-work-phd/](http://catalog.illinois.edu/graduate/ahs_socw/joint-degree/public-health-mph-social-work-phd/))

Public Health, MPH & Urban Planning, MUP (p. 2038)

Admissions: <https://ahs.illinois.edu/application-requirements> (<https://ahs.illinois.edu/application-requirements/>)

How to Apply for MPH: <https://ahs.illinois.edu/how-to-apply> (<https://ahs.illinois.edu/how-to-apply/>)

How to Apply for BS-MPH: <https://ahs.illinois.edu/how-to-apply-bs-mph> (<https://ahs.illinois.edu/how-to-apply-bs-mph/>)

for the Master of Public Health in Public Health

The MPH degree program requires a minimum of 48 hours. The program includes:

1. six required core courses in basic content areas of public health
2. three required courses in the Health Behavior and Promotion concentration, as well as one additional concentration course from an approved list
3. a required applied practice experience
4. a required integrative learning experience
5. seminars and electives

MPH students must complete all core coursework before enrolling in the MPH applied practice experience. It is highly preferable for the applied practice experience to occur during summer term. The integrative learning experience must be completed in the last term of study. There is no thesis requirement. A pre-requisite for applying to the MPH program is a college level course in mathematics, statistics, biostatistics, or epidemiology. Applications for the Master of Public Health (MPH) are only accepted for Fall admission, and are accepted until **April 1**. The program generally takes 1.5 to 2 years to complete. University of Illinois undergraduate students who major in Kinesiology, Community Health, or I-Health are eligible to apply for a 5 year joint BS-MPH degree program after their 3rd (junior) year of undergraduate study. Students in the BS-MPH program begin some MPH coursework in their 4th (senior) year of undergraduate study, and take MPH coursework in a 5th year of study in fall, spring, and summer terms.

For additional details and requirements refer to the department's Graduate Handbook (<http://kch.illinois.edu/kch-grad-handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Public Health, MPH

Learning Outcomes for the Master of Public Health

- Content Knowledge:** Students will demonstrate an advanced understanding of current and historically significant theories, models, themes, and ideas related to health promotion, the prevention of chronic illnesses, and the reduction of health disparities.
- Critical Thinking and Discovery:** Students will demonstrate ethical practices while applying advanced quantitative and/or qualitative methods in collecting, analyzing, and interpreting data which could then be disseminated through publications and/or oral presentations.
- Awareness and Understanding:** Students will understand and appreciate the diverse environmental, biological, psychological, socioeconomic, sociocultural, philosophical, and historical factors that influence health promotion, chronic illness prevention, and the reduction of health disparities.
- Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to health promotion, chronic illness prevention, and the reduction of health disparities within culturally diverse populations.
- Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, while promoting effective public health practices as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

# Recreation, Sport & Tourism, MS

for the degree of Master of Science in Recreation, Sport & Tourism (on campus & online)

**Department Head:** Carla Santos

**Director of Graduate Studies:** Monika Stodolska

**Graduate Coordinator:** Tim Tiger

**overview of admissions & requirements:**

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <http://rst.illinois.edu>

**college website:** <http://ahs.illinois.edu>

**Department office:** 219 Huff Hall, 1206 South Fourth Street, Champaign, IL 61821

**Phone:** (217) 333-4410

**email:** [stodolsk@illinois.edu](mailto:stodolsk@illinois.edu) and [ttiger@illinois.edu](mailto:ttiger@illinois.edu)

The M.S. degree may be undertaken as a terminal professional track program or serve as the first step toward the Ph.D. program.

## Graduate Degree Programs in Recreation, Sport & Tourism

Recreation, Sport & Tourism, MS (p. 1715) (on campus & online)

Recreation, Sport & Tourism, PhD (p. 1718)

The Department of Recreation, Sport & Tourism offers programs of study leading to the Master of Science and Doctor of Philosophy degrees. The Master of Science program educates students about leisure behavior, public parks and recreation systems, sport and tourism, in various private, public and semi-public settings providing leisure services. The Ph.D. program is designed to develop researchers and educators in the study of leisure behavior, the management of recreation, tourism, and sport systems that provide leisure services, or both.

## Admission

The Graduate College admission requirements apply. Specifically, the admission requirements are a minimum grade point average of 3.0 (A = 4.0) for the last two years of undergraduate work and any graduate work completed. The Graduate Record Examination (GRE) is required for all campus-based graduate degrees. In accordance with Graduate College requirements, scores on the TOEFL must be greater than 102 and scores on the IELTS must be greater than 7.5. Students are also required to provide a statement of purpose outlining their area of study, and three letters of reference (at least one should be an academic reference). Preference is given to applicants who will be full-time students and active degree candidates. Students may be admitted for the fall, spring, or summer semesters.

## Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program. It is also anticipated that doctoral students will engage in research activities and scholarly communication under the guidance of their advisor.

## Financial Aid

The department offers quarter-time and half-time assistantships in teaching, administration, and research, as well as tuition and fee waivers and the opportunity to apply for fellowships.

for the degree of Master of Science in Recreation, Sport & Tourism

A candidate for the M.S. degree must spend at least one semester on campus. A full-time student can complete the program in three or four semesters.

Students in the online program complete the Non-Thesis option. See below.

For additional details and requirements for all degrees, please refer to the department's website (<http://rst.illinois.edu/grad-overview/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>

**college website:** College of Fine & Applied Arts (<https://faa.illinois.edu/>)

**department office:** 111 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820

**phone:** (217) 333-3890

**email:** [urbplan@illinois.edu](mailto:urbplan@illinois.edu)

Students, together with their faculty adviser and program committee, select theory, methods, and specialization courses to meet the Ph.D. requirements and prepare for a successful career of advanced research and teaching.

A successful dissertation in planning reports original research on a subject appropriate to the field, the results of which produce significant advances in knowledge. Each student takes a Preliminary Examination, which is an oral examination based on the dissertation proposal and is administered by the student's dissertation committee. Upon approval of the dissertation proposal, the candidate can proceed with the research, written analysis, and findings. When the candidate and the supervisor agree that the research and writing are complete, the candidate is ready for the final examination, which is a defense of the dissertation before the committee.

Please consult the department's website (<https://urban.illinois.edu/>) for additional information about doctoral requirements.

## Graduate Degree Programs in Urban Planning

Sustainable Urban Management, MS (p. 1801)

Urban Planning, MUP (p. 1849)

Regional Planning, PhD (p. 1720)

### joint programs:

Urban Planning, MUP & (p. 2010) Architecture, MARCH (p. 2010)

Urban Planning, MUP & Law, JD (p. 2044)

Urban Planning, MUP & Landscape Architecture, MLA (p. 2021)

Urban Planning, MUP & Public Health, MPH (p. 2038)

Urban Planning, MUP & any Illinois master's degree in related field (p. 2045)

The Department of Urban and Regional Planning offers graduate programs leading to the degrees of Master of Urban Planning and Doctor of Philosophy in Regional Planning as well as a Master of Science in Sustainable Urban Management. Students can also apply to obtain a joint degree with another graduate degree simultaneously. The most popular joint degrees are with Architecture, Landscape Architecture, Law and Agricultural and Applied Economics. Joint degrees with any related field are possible. In addition, a small number of the department's Bachelor of Arts in Urban Studies and Planning (B.A.U.S.P.) students participate in the highly selective 4+1 program (<http://catalog.illinois.edu/undergraduate/faa/urban-studies-planning-ba-mup/>) to complete the B.A.U.S.P. and M.U.P. in five years.

## Admission

We welcome applications from people from a wide variety of backgrounds who have demonstrated potential for extraordinary professional achievement. Students seeking a graduate degree in planning come from a diverse range of academic backgrounds. The most frequent are sociology, economics, political science, geography, environmental sciences, architecture, engineering, public administration, urban planning, and public policy, but the natural sciences, humanities, and other fields also provide excellent foundations for graduate study in planning. Prospective students must have a grade point average (GPA) of at least 3.0 computed from the last 60 hours of undergraduate work and any subsequent graduate study, but the average GPA of admitted students is considerably higher. International applicants must meet additional minimum requirements (<http://www.grad.illinois.edu/admissions/countries/>) based on their country of origin, including the Test of English as a Foreign Language (TOEFL).

We place particular emphasis on each applicant's statement of purpose. Applicants should use the statement to convey information about their backgrounds, professional and personal experience, and intellectual perspectives, in the context of articulating why a Master's in Urban Planning or Ph.D. in Regional Planning from the University of Illinois will help them achieve their professional goals. We seek an applicant pool that represents a mix of racial and ethnic populations, a range of social and economic backgrounds, different philosophies and perspectives, and a variety of life

experiences. We are especially interested in applicants with professional experience, though that experience need not be in planning or closely related fields.

Applicants to the Ph.D. program are admitted when they meet the standards of the Department and have a faculty member prepared to serve as their mentor and, if necessary, primary source of financial support. Students interested in pursuing a Ph.D. in Regional Planning should communicate with the Director of the Ph.D. Program and faculty most closely aligned with their interests, in addition to completing the formal application process.

Consult the M.U.P. admissions (<https://urban.illinois.edu/programs-applying/master-urban-planning/>) and Ph.D. admissions (<https://urban.illinois.edu/programs-applying/phd-regional-planning/>) web pages for more information.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the doctoral experience in this program and is strongly encouraged for those intending to pursue an academic career.

## Faculty Research Interests

The mission of the Department of Urban and Regional Planning is to teach and conduct research to improve understanding of human settlements and of planning situations. The department's faculty studies the ecological, economic, social, and institutional aspects of urban and regional development, and the theory and practice of planning processes. Planning is viewed as the achievement of outcomes based on interrelated actions over time and space, and close communication and collaboration with a wide range of disciplines and professions is inherent in the department's approach. The basis of that collaboration is a faculty whose academic training and degrees are in architecture, economics, geography, history, law, political science, regional science, and zoology, in addition to planning. Planning faculty and doctoral students pursue interdisciplinary research and make scholarly contributions to planning and fields closely allied with planning.

## Facilities and Resources

The Department of Urban and Regional Planning shares Temple Hoyne Buell Hall (TBH) with the Department of Landscape Architecture and the School of Architecture. The majority of urban planning classes are held in TBH. The department has a 24-hour instructional computing laboratory. Research project and doctoral student workspace is provided in Noble Hall.

The City Planning and Landscape Architecture Reference and Resource Center is located in Funk Library (<http://www.library.uiuc.edu/agx/>). The planning collection is one of the finest in the world, with books and reports gathered since the collection started over eighty years ago.

## Financial Aid

Students compete for departmental and Graduate College fellowships and departmental teaching and research assistantships. Selection is based on the academic achievement and qualifications of the student.

### *for the degree of Doctor of Philosophy in Regional Planning*

For additional details and requirements refer to the department's Web site (<https://urban.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Not accepting applications at this time.

for the Master of Science in Rehabilitation

Candidates for the M.S. in Rehabilitation will be expected to have completed an undergraduate degree in a rehabilitation-related discipline and/or have a strong background in the social and biological sciences, and a course in introductory statistics. A full-time student can complete the program in three or four semesters. As with all programs, the Graduate College allows students to petition to transfer up to 12 hours of coursework completed prior to admittance to the department. Any approved graduate courses taken on campus in the summer immediately prior to admission count toward the degree and do not have to be transferred.

- 
1. **Content Knowledge:** Students will demonstrate an advanced understanding of current and historically significant theories, models, themes, and ideas within the area of rehabilitation counseling.
  2. **Critical Thinking and Discovery:** Students will demonstrate ethical practices while applying advanced quantitative and/or qualitative methods in collecting, analyzing, and interpreting data which could then be disseminated through publications and/or oral presentations.
  3. **Awareness and Understanding:** Students will understand and appreciate the diverse array of mental health or disability-related problems impacting the individual and the family, in a variety of clinical settings and with respect for the influences of multicultural factors such as culture, ethnicity, race, religion, gender, and sexual orientation.
  4. **Programming and Assessment:** Students will apply best practices in developing, implementing, assessing, and evaluating programs and interventions related to rehabilitation counseling within diverse populations.
  5. **Leadership and Engagement:** Students will demonstrate leadership and effective communication skills, showcasing respect and sensitivity for people with disabilities as they develop and sustain productive relationships and work for the common good at local, national, and global levels.

## Graduate Degree Programs in Religion

Religion, MA (p. 1725)

Religion Graduate Minor (p. 1993)

## Admission

The Graduate College admission requirements apply. Applicants need not have an undergraduate major in the study of religion, but they must demonstrate a capacity to undertake advanced study in this area of inquiry. All applications for admission must be supported by three letters of recommendation from persons qualified to comment on the applicant's aptitude for graduate study in religion. Applicants are required to submit a sample of their written work. The Graduate Record Examination (GRE) is required. International applicants whose native language is not English must take the IELTS or the Test of English as a Foreign Language (TOEFL) and have their scores submitted to Institution Code #1836, Dept. #00. A score of at least 600 on the paper-based test (PBT), or 250 on the computer-based test (CBT), or 100 on the internet-based test (iBT) is required for admission to this program.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Facilities and Resources

The extraordinary University Library is the department's main research facility; within it, the History, Philosophy & Newspaper Library, the Rare Book Room, and the International and Area Studies Library all serve faculty and students with expert bibliographers and focused collections. Among other special collections that are likely to be useful to our students are Afro-Americana and Women's Studies; the library is also a major repository for government documents.

## Financial Aid

Financial aid is available to many students in the form of fellowships or assistantships. More information is available on the Graduate College web site, <http://www.grad.illinois.edu/fellowship/finaid> (<http://www.grad.illinois.edu/fellowship/finaid/>).

*for the degree of Master of Arts in Religion*

For additional details and requirements refer to the department's graduate degree requirements and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Religion, MA

Learning Outcomes for the degree of Master of Arts in Religion

1. Describe the central problems in the teaching of world religions courses and some strategies for addressing those problems.
2. Describe the state of scholarship in the field of concentration and assess its strengths and weaknesses.
3. Articulate academic growth by identifying key issues for future research in the field of concentration.
4. Describe desired research contributions and connect research interests to current scholarship in the field

# Russian, East European, and Eurasian Studies, MA

*for the degree of Master of Arts in Russian, East European, and Eurasian Studies*

**phone:** (217) 333-1244

---

## About the Major

Electives outside Russian, East European, and Eurasian Studies should complement the student's core courses, research, and professional interests. A master's thesis or major research paper is required, to be based on research using primary sources, including sources in the language used to meet the competency requirement.

---

## Graduate Degree Programs in Russian, East European, and Eurasian Studies

The Russian, East European, and Eurasian Center offers a two-year program of language and area studies courses leading to an interdisciplinary Master of Arts degree. The program is designed to meet the needs of students proceeding to disciplinary-based doctoral work and those planning non-academic professional careers with area expertise. Programs offered by the Center:

Russian, East European, and Eurasian Studies, MA (p. 1727)

Russian, East European, and Eurasian Studies Minor (p. 1995)

Balkan Studies Minor (p. 1966)

Joint Degree in Russian, East European, & Eurasian Studies, MA and Library & Information Science, MS (p. 2041)

---

## Admission

Prospective graduate students should have completed at least two years of Russian or another language of Eastern Europe or Eurasia. Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal, quantitative, and written), three letters of reference, and a writing sample. International students must submit Test of English as a Foreign Language (TOEFL) scores. All applicants must meet the requirements of the Graduate College. Admission is ordinarily in the fall semester, but occasional exceptions are made for spring and summer admission.

---

## Faculty Research Interests

The faculty (<https://reec.illinois.edu/people/groups/faculty/>) affiliated with the Center represent a broad range of interests and methodological approaches in the social sciences and the humanities, as well as the professional schools.

---

## Facilities and Resources

The Russian, East European, and Eurasian Center was founded in 1959 and designated a National Resource Center by the U.S. Department of Education. It serves as an intellectual and institutional hub for the University community and the public through conferences, lectures, colloquia, visiting scholars, study groups, exhibits, films, and other activities.

The annual Summer Research Laboratory on Russia, Eastern Europe, and Eurasia features special workshops, seminars, lectures, films, and other events, most of which are free and open to the public.

The International and Area Studies Library (<https://www.library.illinois.edu/ias/>) at the University of Illinois has one of the country's three outstanding Slavic library collections (<https://www.library.illinois.edu/ias/spx/>). The Slavic Reference Service (<https://www.library.illinois.edu/ias/spx/srs/>) serves all faculty and students with expert bibliographers.

Language training is provided by the Departments of Germanic Languages & Literatures (<https://germanic.illinois.edu/>), Linguistics (<https://linguistics.illinois.edu/>), and Slavic Languages & Literatures (<https://slavic.illinois.edu/>) in:

- Bulgarian
- Bosnian, Croatian, Serbian
- Czech

- Old Church Slavonic
- Polish
- Russian
- Turkish
- Ukrainian
- Yiddish

## Financial Aid

Financial aid is awarded on an academic-year basis. All fellowships and assistantships include a stipend plus tuition and fee waiver. Qualified incoming students who are U.S. citizens or permanent residents should also apply for U.S. Department of Education Title VI Foreign Language and Area Studies (FLAS) fellowships (<http://publish.illinois.edu/illinoisflas/>) offered through REEEC or other FLAS-granting campus centers.

Qualified students may also be eligible for other fellowships at the campus or departmental level. A limited number of teaching and graduate assistantships, which include a tuition and fee waiver, may also be available to outstanding students through REEEC and other units. The Graduate College maintains a list of available assistantships (<https://grad.illinois.edu/clearinghouse/>); additional information on need-based financial aid may be obtained from the Graduate College Fellowships Office (<https://grad.illinois.edu/fellowships/about/>).

*for the degree of Master of Arts in Russian, East European, and Eurasian Studies*

Electives outside Russian, East European, and Eurasian Studies should complement the student's core courses, research, and professional interests. A master's thesis or major research paper is required, to be based on research using primary sources, including sources in the language used to meet the competency requirement.

For additional details and requirements refer to the department's Graduate Programs (<https://reeec.illinois.edu/academics/ma-program/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Russian, East European, and Eurasian Studies, MA

*Learning Outcomes for the degree of Master of Arts in Russian, East European, and Eurasian Studies*

The Master of Arts in Russian, East European, and Eurasian Studies (REEES) is a two-year program designed to prepare students for further academic study in a particular discipline or for careers in government, NGOs, business, the media, international law, private foundations, or cultural exchanges. The program provides broad exposure to the history, cultures, societies, and politics of the area as well as to the variety of disciplinary and interdisciplinary approaches to its study. For individuals planning non-academic careers, such study is essential in preparing to respond to the growing opportunities and challenges presented by this region. The program also provides students pursuing academic careers with necessary language skills, disciplinary exploration, and an expanded knowledge base about the REEE region.

By the end of our program, students will have:

1. An advanced understanding of the REEE region achieved through analyzing original scholarship and primary sources (or data) from Russia, East Europe, and Eurasia.
2. An interdisciplinary perspective on the REEES field achieved through required coursework in at least three disciplines, together with exposure to pertinent approaches, paradigms, forms of data and their interpretation, and regional issues and content.
3. An ability to begin to engage with REEES scholarship, cultures, and communities by achieving an intermediate-high proficiency (third-year competency) in at least one regional language.
4. Advanced research skills developed through expert rigorous regional bibliographic and research training.
5. Essential analytical writing skills developed through the production of a thesis or other extensive original research work mentored by a faculty expert.

**optional concentrations:** Bilingual-Bicultural Education (p. 1882)|Digital Learning (p. 1901)

Through the Master of Education and the Certificate of Advanced Study, experienced teachers are prepared to become more competent and better informed practitioners who serve as leaders for educational reform in local schools and school districts.

Also offered are master's degree programs leading to teacher licensure for individuals who have a degree in a field other than education and wish to become teachers. The three majors leading to licensure are Early Childhood Education (Birth - Grade 2), Elementary Education (Grades 1 - 6), and Secondary Education (Grades 9 - 12). In addition to completing the courses required for an Ed.M. degree, students in these programs follow the same sequence of professional education courses as undergraduate students.

Only master's students wishing to become licensed teachers in one of these three areas should apply to the Early Childhood Education, Elementary Education, or Secondary Education majors. Master's candidates who do not wish to become teachers, or are already teachers, should apply to the major in Curriculum and Instruction.

Two doctoral degree programs are offered. The Ph.D. program prepares degree candidates for careers involving research and scholarship, including those in colleges and universities where research is generally combined with teacher education. The Ed.D. Program prepares scholarly practitioners for leadership positions in teacher training institutions, state education agencies, and public school districts.

Length of time for a degree: an Ed.M. program can be completed in a calendar year, while the M.S. or M.A. often takes longer. The Ed.M. with licensure typically takes two years to complete. Doctoral programs usually require four to five years of full time study.

Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

for the degree of Master of Education in Secondary Education with teaching licensure

Students interested in receiving licensure choose a concentration in English (p. 1734), Mathematics (p. 1736), Science (p. 1738), or Social Science: History (p. 1741).

Concentration/licensure requirements are separate from degree requirements, although they may count toward the degree as well.

Students may also select a concentration in Bilingual-Bicultural Education (<http://catalog.illinois.edu/graduate/education/concentration/bilingual-bicultural-education/>) or Digital Learning (<http://catalog.illinois.edu/graduate/education/concentration/digital-learning/>).

Additional requirements can be found on the program's website, (<https://education.illinois.edu/ci/programs-degrees/secondary-education-with-licensure/>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

#### Content-Area Courses:

Code	Title	Hours
A major in English or 32 semester hours of Language Arts are required. Either option must include coursework from the following content-area courses:		
One course in introductory study of literature		
One course in English (British) literature		
One course in American literature		
One course in multicultural literature		
One course in study of works of Shakespeare		
One advanced course in descriptive grammar		

#### Professional Education Courses:

Code	Title	Hours
CI 401	Introductory Teaching in a Diverse Society (Section E)	3
CI 403	Teaching a Diverse High School Student Population (Section E)	3
CI 404	Teaching and Assessing Secondary School Students (Section E)	3
CI 473	Disciplinary Literacy	3
EDPR 442	Educational Practice in Secondary Education	12
EPSY 485	Assessing Student Performance	4
SPED 405	General Educator's Role in Special Education	3
or SPED 517	Disability Issues in Special Education	

**Other Requirements**

Requirement	Description
Content & Professional Education GPA	2.5
Graduate GPA	3.0

\*State rules mandate that no course with a grade lower than a C- be used toward licensure, endorsement, or approvals. This means courses lower than a C- cannot be used.

Requirements are subject to change without notice due to changes in State law and/or rule.

## Secondary Education: Mathematics Entitlement

The following are required to meet the Illinois Approved Program for an Illinois Professional Educator License with a secondary education (grades 9-12) Mathematics entitlement. Please note these requirements are separate from degree requirements, although they may count toward the degree as well.

The Council on Teacher Education oversees licensure requirements. School and Community Experiences coordinates all aspects of field placement.

### Course Requirements\*

#### Foundation Courses:

Code	Title	Hours
<b>Psychological Foundations Courses in Educational Psychology</b>		
EPSY 485 meets this requirement		
<b>Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership</b>		
Select one of the following:		4
EPOL 401	History of American Education	
EPOL 402	Asian American Education	
EPOL 403	Historical and Social Barriers	
EPOL 405	School and Society	
EPOL 406	Professional Ethics in Education

#### Content-Area Courses:

##### Science: Biology

Code	Title	Hours
A major in Biology or 32 semester hours in the sciences is required. In either instance, it must include coursework from the following:		
One year (2 semesters) introductory Biology		
Two advanced courses in biology or related fields, including one laboratory		
One course in Calculus		
Two courses in Chemistry		
One course in Physics		
One course in Earth Science		
One course in Astronomy		

##### Science: Chemistry

Code	Title	Hours
A major in Chemistry or 32 semester hours in the sciences is required. In either instance, it must include coursework from the following:		
one year (two semesters) of introductory college chemistry		
two courses in organic chemistry, including lab		
one course in analytical chemistry, including quantitative analysis		
one course in physical chemistry		
one course in biochemistry or inorganic chemistry		
Related required coursework:		
two courses in calculus		
two courses in physics		

one course in biological science

one course in earth science

one course in astronomy

## Science: Earth and Space Science

Code	Title	Hours
A major in earth & space science or 32 semester hours in the sciences is required. Either option must include coursework from the following:		
One course in astronomy		
One course in atmospheric science or meteorology		
One year of introductory geology, including physical and historical (GEOL 107 and GEOL 208)		
One introductory course in history of life (GEOL 143) OR advanced course in paleontology		
One course in earth materials (GEOL 333 or GEOL 432) OR mineralogy & petrology (GEOL 436)		
One course in sedimentary geology (GEOL 440) OR sedimentology		
One course in structural geology (GEOL 411)		
Additional Science Required:		
One course in biology		
One course in calculus		
One course in chemistry		
One course in physics		

## Science: Physics

Code	Title	Hours
A major in Physics or 32 semester hours in the sciences is required. In either instance, the coursework must include the following:		
One year introductory physics sequences similar to UIUC PHYS 211, PHYS 212, PHYS 213, PHYS 214 (this includes study in electricity and magnetism, mechanics, thermal, and quantum physics)		
Advanced course in classical mechanics		
Advanced course in electricity and magnetism		
Advanced course in quantum physics		
One course in advanced physics laboratory		
Related required coursework		
Two courses in calculus		
One course in chemistry, including lab		
At least one biological science course		
One course in earth science		
One course in astronomy		

## Professional Education Courses:

Code	Title	Hours
CI 401	Introductory Teaching in a Diverse Society (Section S)	3
CI 403	Teaching a Diverse High School Student Population (Section S)	3

## Learning Outcomes: Secondary Education, EdM

Learning Outcomes for the degree of Master of Education in Secondary Education with teaching licensure

- 
1. Students will acquire deep knowledge of content in the field of Education.
  2. Students will effectively plan and implement relevant, culturally responsive and developmentally appropriate instruction for high school students, grades 9-12.
  3. Students will use data to drive decisions and solve problems in and out of the classroom.
  4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices).
  5. Students will display a deep understanding of educational philosophy and reflective practice.

## Graduate Degree Programs in Slavic Languages and Literatures

Slavic Languages & Literatures, MA (p. 1743)

Slavic Languages & Literatures, PhD (p. 1746)

The Department of Slavic Languages and Literatures offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy in Slavic Languages and Literatures. Scope of the department includes Bulgarian, Czech, Polish, Russian, Bosnian/Croatian/Serbian, Yiddish and Ukrainian.

## Admission

Prospective graduate students of Slavic languages and literatures should have had the equivalent of at least three years of college study in the language of their proposed specialization and advanced coursework in that literature. Applicants should apply online ([www.grad.illinois.edu/admissions/apply/](http://www.grad.illinois.edu/admissions/apply/)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services  
3070 Foreign Languages Bldg.  
707 S. Mathews Ave.  
Urbana, IL 61801

Graduate Record Examination (GRE) scores are required for all students. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)).

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is expected as part of the academic work of all Ph.D. candidates in this program. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm)) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Faculty Research Interests

The faculty represent a broad range of interests and methodological approaches, including:

- the intersections of literature and law, empire studies, and medicine
- Russian-Jewish Studies
- gender, sexuality, and the body
- Stalinist culture
- film history and theory
- Czech revival culture
- nationalism and literature
- Polish modernism, postmodernism, and visual culture
- exilic and emigre literature
- East European pop culture

Graduate courses are offered in:

- Russian
- Polish
- Ukrainian
- Bosnian/Serbian/Croatian
- Yiddish
- Czech
- Bulgarian

## Facilities and Resources

The University of Illinois at Urbana-Champaign has one of the country's three outstanding Slavic library collections (<http://www.library.illinois.edu/spx/>). The Illinois Summer Research Laboratory on Russia and Eastern Europe brings to the campus more than one hundred postdoctoral researchers from all over the country every year to take advantage of the Slavic library resources. The University houses *Slavic Review*, the premier journal in Slavic studies.

There are also opportunities for part-time related work in the Slavic and East European Division of the University Library, *Slavic Review*, and elsewhere on campus.

## Centers, Programs and Institutes

The federally-funded Russian, East European, and Eurasian Center (<http://www.reeec.illinois.edu/>) (established in 1959) is an important funding source for our graduate students and hosts a variety of conferences and speakers every year.

## Financial Aid

Students may receive various forms of financial assistance, including University fellowships, Foreign Language and Area Studies (FLAS) Fellowships, teaching assistantships, and research assistantships. There are also opportunities for part-time related work in the Slavic and East European Division of the University Library and elsewhere on the campus. Most students are awarded multiple-year support packages that include a mixture of teaching and fellowship, conditional on satisfactory progress through the program (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

### *for the degree of Master of Arts in Slavic Languages & Literatures*

In addition to fulfilling the requirements of the Graduate College, candidates must pass written examinations, which are largely based on survey courses in the respective fields. All students must complete 32 graduate hours of advanced courses including at least 20 in Slavic Languages and Literatures. No master's thesis is required.

For additional details and requirements refer to the department's Graduate Programs Web pages (<http://www.slavic.uiuc.edu/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours

**Learning Outcomes: Slavic Languages and Literatures, MA**

Learning Outcomes for the degree of Master of Arts in Slavic Languages & Literatures

1. Students will be capable of theoretically informed analytical engagement with the literature of their specialization.
2. Students will be familiar with contemporary literary-historical and theoretical research methods in Slavic studies and able to produce major research output.
3. Students will advance in proficiency in the language of their major fields to the Superior level, enabling professional work in the language. Students will acquire some proficiency in a second relevant regional language.
4. Students will be introduced to current literature and language teaching methodologies and gain practical mentored experience in both.
5. Students will be savvy professionals, able to produce successful grant applications, negotiate in the job market, at professional conferences, and confidently pursue publication.

### *for the degree of Doctor of Philosophy in Slavic Languages & Literatures*

All candidates for the Ph.D. degree must fulfill the general requirements of the Graduate College and must have a reading knowledge of at least one non-Slavic, research related language, most often French or German. A student entering the program with a Master of Arts degree from another department or university must complete SLAV 576. In consultation with the graduate advisor, the Ph.D. student designs an individualized program of study that includes a major field in one Slavic-area literature (any national literature currently offered by the department), study in a second Slavic-area language, and a minor field. A Ph.D. preliminary examination, consisting of written and oral portions on both major and minor fields, is required. A thesis is required for the degree of Doctor of Philosophy.

For additional details and requirements refer to the department's Graduate Programs Web pages (<http://www.slavic.uiuc.edu/graduate/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
Graduate-level courses in a minor field (three courses in a single area, or two courses each in two distinct areas) and may be completed outside the department.		12-14
SLAV 576	Methods in Slavic Grad Study (if not taken during MA program)	4
Language Requirement: Demonstration of knowledge of a second Slavic-area language and a research language; can be satisfied through four semesters of language study or the successful completion of a translation examination.		

SLAV 577	Slavic Languages Pedagogy Seminar (2 credit hour course, students take the course twice)	4
SLAV 599	Thesis Research (min/max applied toward degree)	24
Total Hours		64

**Other Requirements**

Requirement	Description
Other Requirements may overlap	
Minimum Hours Required Within the Unit:	20
Minimum Hours Required in Major Field:	20
Masters Degree Required Before Admission to PhD?	Yes
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	2.75

## Learning Outcomes: Slavic Languages and Literatures, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Slavic Languages & Literatures

1. Students will be capable of theoretically informed analytical engagement with the literature of their specialization.
2. Students will be familiar with contemporary literary-historical and theoretical research methods in Slavic studies and able to produce major research output.
3. Students will advance in proficiency in the language of their major fields to the Superior level, enabling professional work in the language. Students will acquire some proficiency in a second relevant regional language.
4. Students will be introduced to current literature and language teaching methodologies and gain practical mentored experience in both.

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

## Graduate Degree Programs in Social Work

Social Work, MSW (p. 1749) (on campus, online & blended (online/face-to-face))

**concentration required:**

Advanced Clinical Practice (p. 1751)

Leadership & Social Change (p. 1754)

Social Work, PhD (p. 1757)

The MSW program is accredited by the Council on Social Work Education (CSWE). The MSW program offers courses on the Urbana campus and off-campus through its MSW Outreach program.

The master's degree provides specialized study for advanced social work practice. Students take foundation and advanced courses in social work practice methods with individuals, families and organization, in policy and services, in research, and in human behavior and the social environment. A two-semester field placement/internship (minimum 900 hours) in a social service agency is required. A total of 64-72 hours of graduate coursework is required for the M.S.W. degree. The determination of the number of hours needed within the range is determined on a case-by-case basis after considering each student's prior coursework and experience. The curriculum may be completed in 16 to 24 months of full-time study.

MSW students choose from one of these two concentrations:

- In the **Advanced Clinical Practice concentration**, students prepare for clinical practice with individuals, families and groups, and in one of the focus areas. These students' Methods coursework has a clinical focus.
- Students in the **Leadership & Social Change (LSC) concentration** prepare for advanced macro practice which focuses on work with communities and organizations rather than work with individuals and families. In the LSC concentration students are prepared to work in either leadership/administration or advocacy/policy. Methods coursework for this concentration has a Macro focus.

## Admission

**MSW program** applicants must meet the following minimum requirements:

1. a baccalaureate degree from an accredited college or university in the United States or from a recognized institution of higher learning abroad;
2. a grade point average of 3.0 (A = 4.0) or greater for the last 60 semester hours of undergraduate work;
3. 20 hours of completed coursework in a liberal arts core consisting of social and behavioral sciences, the humanities, and biological sciences
4. evidence of personal attributes that are suitable for the profession of social work;
5. a score of 103 or above on the TOEFL test;
6. provision of a written supplementary statement.

**Advanced Standing MSW** applicants who meet all above requirements who have earned a Bachelor of Social Work (BSW) degree from a CSWE-accredited program in the past seven years are considered for admission into the Advanced Standing MSW program. This is a three semester/44 hour program that may be completed in 12 months by most students. Students with a concentration in school social work participate in a one semester internship during their second Fall semester for a 3 semester/44 hour program completed in 16 months.

**Ph.D. program** applicants must meet the following minimum requirements:

1. a master degree in social work or in related disciplines;
2. a GRE score within the last 5 years;
3. demonstrating a potential for research and other scholarly work;
4. aptitude for leadership in the field of social work

*for the degree of Master of Social Work Major in Social Work on campus, online, and blended (online/face-to-face)*

---

Students pursuing the Master of Social Work must apply to and complete a graduate concentration. The concentration selected determines the courses needed to fulfill the requirements below. Select a concentration in:

Advanced Clinical Practice (p. 1752), or  
Leadership & Social Change (p. 1755) (LSC)

# Social Work: Advanced Clinical Practice, MSW

## Graduate Degree Programs in Social Work

Social Work, MSW (p. 1749) (on campus, online & blended (online/face-to-face)

**concentration required:**

Advanced Clinical Practice (p. 1751)

Leadership & Social Change (p. 1754)

Social Work, PhD (p. 1757)

---

The MSW program is accredited by the Council on Social Work Education (CSWE). The MSW program offers courses on the Urbana campus and off-campus through its MSW Outreach program.

The master's degree provides specialized study for advanced social work practice. Students take foundation and advanced courses in social work practice methods with individuals, families and organization, in policy and services, in research, and in human behavior and the social environment. A two-semester field placement/internship (minimum 900 hours) in a social service agency is required. A total of 64-72 hours of graduate coursework is required for the M.S.W. degree. The determination of the number of hours needed within the range is determined on a case-by-case basis after considering each student's prior coursework and experience. The curriculum may be completed in 16 to 24 months of full-time study.

MSW students choose from one of these two concentrations:

- In the **Advanced Clinical Practice concentration**, students prepare for clinical practice with individuals, families and groups, and in one of the focus areas. These students' Methods coursework has a clinical focus.
- Students in the **Leadership & Social Change (LSC) concentration** prepare for advanced macro practice which focuses on work with communities and organizations rather than work with individuals and families. In the LSC concentration students are prepared to work in either leadership/administration or advocacy/policy. Methods coursework for this concentration has a Macro focus.

---

## Admission

**MSW program** applicants must meet the following minimum requirements:

1. a baccalaureate degree from an accredited college or university in the United States or from a recognized institution of higher learning abroad;
2. a grade point average of 3.0 (A = 4.0) or greater for the last 60 semester hours of undergraduate work;
3. 20 hours of completed coursework in a liberal arts core consisting of social and behavioral sciences, the humanities, and biological sciences
4. evidence of personal attributes that are suitable for the profession of social work;
5. a score of 103 or above on the TOEFL test;
6. provision of a written supplementary statement.

**Advanced Standing MSW** applicants who meet all above requirements who have earned a Bachelor of Social Work (BSW) degree from a CSWE-accredited program in the past seven years are considered for admission into the Advanced Standing MSW program. This is a three semester/44 hour program that may be completed in 12 months by most students. Students with a concentration in school social work participate in a one semester internship during their second Fall semester for a 3 semester/44 hour program completed in 16 months.

**Ph.D. program** applicants must meet the following minimum requirements:

1. a master degree in social work or in related disciplines;
2. a GRE score within the last 5 years;
3. demonstrating a potential for research and other scholarly work;
4. aptitude for leadership in the field of social work

for the degree of Master of Social Work Major in Social Work, Advanced Clinical Practice Concentration

**This program is available on campus, online, and blended (online/face-to-face)**

For additional details and requirements refer to the department's Graduate Handbook (<http://socialwork.illinois.edu/academics/master-of-social-work/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

The Ph.D. program is typically a 64 graduate hour program for students who enter with an MSW or other master's degree. The program is interdisciplinary and has a strong research emphasis. The Ph.D. program is organized around five curricular components: (1) seminars in social welfare policy, social work practice theories, and teaching; (2) research methodology and statistics; (3) an interdisciplinary area of study; (4) a qualifying exam; and (5) the dissertation. While the curriculum focuses on issues of relevance to social work and social welfare policy, students select courses not just in the School of Social Work but also from the full range of graduate courses offered, for example: educational psychology, human and community development, sociology, labor and industrial relations, psychology and anthropology. Candidates prepare for teaching, research, policy analysis, and leadership in social services.

## Learning Outcomes: Social Work, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Social Work

1. Obtain knowledge of Social Work as a profession and discipline
  - a. Graduates will be able to:
    - i. Locate their work in the intellectual landscape of social work.
    - ii. Understand the relations among social work education, research, and practice.
    - iii. Understand how knowledge in social work is relevant to public issues, including promoting social justice and increasing equity.
    - iv. Understand the role and importance of social work values and ethics in research and knowledge development.
    - v. Develop expertise in at least one specialized area of knowledge.
2. Develop Core Quantitative and Qualitative Research Skills
  - a. Graduates will be able to:
    - i. Conceptualize significant, meaningful, and relevant social work research questions.
    - ii. Understand both the technical aspects and conceptual underpinnings of a broad range of methodological and statistical techniques.
    - iii. Demonstrate in-depth knowledge in the selection and application of the most rigorous, feasible, and appropriate methodological and data analyses for the research question(s) posed.
    - iv. Design and implement appropriate procedures for sampling and data collection.
3. Engage in academic scholarship
  - a. Graduates will be able to:
    - i. Critically evaluate and review published work in students' areas of expertise.
    - ii. Identify the strengths and limitations of their own research.
    - iii. Conduct research that is guided by theory.
    - iv. Proactively and consistently implementing plans for the responsible and ethical conduct of research.
    - v. Widely disseminate knowledge that contributes to the advancement of social work research, practice, and policy, including writing publishable, peer-reviewed manuscripts; presenting at local, national and international conferences; and producing policy briefs /white papers.
4. Develop Teaching Skills
  - a. Graduates will be able to:
    - i. Understand and apply theories of adult learning.
    - ii. Design and teach a course in a social work curriculum.
    - iii. Create a learning culture and classroom climate that is inclusive of a diverse population of students and diverse learning styles.
    - iv. Address ethical dilemmas that might arise in teaching.
    - v. Understand the place of social work education within the larger context of higher education.
5. Develop analytical skills to critically assess social policy and social science theories

- a. Graduates will be able to:
  - i. Critically analyze paradigms and methods for social work knowledge building.
  - ii. Evaluate representative theories for and studies of social work practice.
  - iii. Understand the current research on practice effectiveness and methods for integrating research and practice.
  - iv. Understand theoretical approaches to analyzing social policy development and implementation.
  - v. Understand selected theories and models that have been influential in the substantive development of broad-scale social policies and programs.
  - vi. Develop skills in empirically assessing policy issues and trends.

# Sociology, MA

*for the degree of Master of Science in Sociology*

**fax:** (217) 333-5225

**email:** [soc@illinois.edu](mailto:soc@illinois.edu)

The master's degree is granted as an intermediate step on the way to the Ph.D. Students should ordinarily complete the requirements during their second year of residence.

## Graduate Degree Programs in Sociology

Sociology, MA (p. 1760)

**concentration:** African American Studies (p. 1879)

Sociology, PhD (p. 1762)

**concentration:** African American Studies (p. 1879)

## Admission

The Graduate College admission requirements apply. Students applying for admission should have a background in one of the social sciences, preferably sociology. Applicants must submit Graduate Record Examination (GRE) scores on the tests of verbal ability, quantitative ability, and analytical ability. The advanced test in sociology is optional. A writing sample is required. Non-native English speakers must also submit Teaching of English as a Foreign Language (TOEFL) scores and the Test of Spoken English (TSE) scores. The department does not accept applications to the M.A. program.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Financial Aid

Financial support is provided for most graduate students through teaching assistantships, research assistantships, tuition and fee waivers, fellowships, and other University and external financial support.

## *for the degree of Master of Science in Sociology*

**Learning Outcomes: Sociology, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Sociology

1. Summarize and explain major theories and theoretical debates in the discipline of sociology
2. Design and complete data collection and analysis for an original piece of research
3. Demonstrate competence with qualitative and quantitative methods and research design

4. Develop professional writing and communicating skills
5. Develop and apply effective and appropriate pedagogical skills

## South Asian & Middle Eastern Studies, MA

*for the degree of Master of Arts in South Asian & Middle Eastern Studies*

**center director:** Hadi Salehi Esfahani

**associate director:** Angela Williams

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**center website:** <http://www.cws.illinois.edu/>

**center faculty:** Center for South Asian & Middle Eastern Studies Faculty (<http://www.csames.illinois.edu/people/>)

**center office:** 221 International Studies Building, Urbana, IL 61801

**phone:** (217) 244-7331

**email:** [csames@illinois.edu](mailto:csames@illinois.edu)

The Center for South Asian and Middle Eastern Studies offers an MA in South Asian Studies and an MA in Middle Eastern Studies. The MA program provides preparation in language and area studies for students intending either to pursue a Ph.D. in a related field or to enter a career requiring language and regional expertise, such as in government, an NGO, business, media, international law, private foundations, or cultural exchanges.

### Graduate Degree Programs in South Asian & Middle Eastern Studies

South Asian & Middle Eastern Studies, MA (p. 1765)

#### Admission

Applicants to the graduate program must submit an application for admission online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply) (<http://www.grad.illinois.edu/admissions/apply/>)) and submit a statement of purpose, three letters of reference completed by teachers, advisers, or recent employers, and a 10-20 page writing sample. Also required are original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed. Applicants are expected to have a strong background in at least one South Asian or Middle Eastern language; normally, this means a minimum of two years of formal study. Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 103 on the internet-based test (iBT) for admission with full standing; they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applicants must have a BA or a BS degree to apply to the MA program. Applications are accepted for fall admission only.

#### Financial Aid

The Center makes every effort to assist graduate students in securing financial aid. Financial aid packages usually combine some form of fellowship support with teaching or research assistantships in a manner that allows for both teaching experience and timely completion of the degree. Financial aid may include: University Fellowships, Foreign Language and Area Studies (FLAS) Fellowships, Minority Academic Partnership Plan (MAPP) Fellowships, teaching assistantships, and research assistantships. All awards of financial aid are made following competitive application.

[www.csames.illinois.edu/program/ma](http://www.csames.illinois.edu/program/ma) (<http://www.csames.illinois.edu/program/ma/>)

[www.flas.illinois.edu](http://www.flas.illinois.edu) (<http://www.flas.illinois.edu/>)

For additional details and requirements refer to the department's Graduate Programs (<http://www.csames.illinois.edu/program/ma/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Master of Arts in South Asian and Middle Eastern Studies

Code	Title	Hours
	Three 500-level courses in the major field in area related courses	12
	Elective hours	20
	Language Requirement: Third-year competency in South Asian or Middle Eastern language, demonstrated by satisfactory completion of appropriate coursework or by proficiency examination.	0
	Total Hours	32

#### Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	12

Upon completion of their coursework, candidates will complete a Master's thesis. Candidates may take up to 8 hours of SAME 599 (Thesis Research), which may be counted toward their elective hours.

Minimum GPA:	3.25
--------------	------

- <sup>1</sup> For additional details and requirements refer to the department's Graduate Programs (<http://www.csames.illinois.edu/program/ma/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).
- <sup>2</sup> For a list of approved courses, see the SAME course archive (<http://www.csames.illinois.edu/program/courses/archive/all/>) and visit the CSAMES website to see current course offerings (<http://www.csames.illinois.edu/program/courses/>) each semester.

## Learning Outcomes: South Asian & Middle Eastern Studies, MA

Learning Outcomes for the degree of Master of Arts in South Asian & Middle Eastern Studies

- 
1. Interdisciplinary knowledge of South Asian (SA) or Middle Eastern (ME) area studies in terms of the cultures and societies of these regions in a broader international and global context
    - a. Students should have a good understanding of the various historical, cultural, social, economic and political conditions that shaped the development of SA or ME region
    - b. Students should be able to place their knowledge of SA or ME studies in a broader world context and from a multidisciplinary perspective.
  2. Proficiency in SA or ME languages and knowledge of research methodologies
    - a. Students should develop appropriate expertise in a region or country in SA or ME, acquire proficiency in a relevant language of that region or country, and equip themselves with a good understanding of the appropriate research tools to study that region/country.
  3. Although international experience is not a requirement for the MA program, experience through study abroad is an integral part of the graduate experience, especially when fellowship opportunities for SA and ME language study are available. Students should demonstrate commitment to conduct fieldwork when opportunities for study abroad are available.
  4. Students should demonstrate adequate research skills at MA level. Currently, this is tested through term papers and an MA Exam. We are in the process of replacing the Exam with a thesis or two research papers. Completion of such requirements, as well as courses that require research papers and participation in conferences are good indications that the student has acquired good research skills.

# Spanish, MA

**phone:** (217) 244-3250

## Graduate Degree Programs in Spanish & Portuguese

Spanish, MA (p. 1767)

**optional concentrations:**

Medieval Studies (p. 1919)|Spanish Linguistics (p. 1769)|Spanish Literatures & Cultures (p. 1771)

Spanish, PhD (p. 1773)

**optional concentrations:**

Medieval Studies (p. 1919)|Romance Linguistics (p. 1924)|Second Language Acquisition & Teacher Education (p. 1926)

Portuguese, MA (p. 1694)

**concentration:**

Brazilian Studies (p. 1697)

Portuguese, PhD (p. 1696) (*Please note: Until further notice, we are accepting applications only to the M.A. in Portuguese, not to the Ph.D.*)

The Department of Spanish and Portuguese offers work leading to the Master of Arts and Doctor of Philosophy in Spanish and Portuguese, and to a Concentration in Second Language Acquisition and Teacher Education (SLATE).

**Fields of specialization are:**

- Spanish linguistics
- Romance linguistics
- Spanish literature and cultural studies
- Latin American literature and cultural studies
- Brazilian Studies
- Luso-Brazilian literature and cultural studies

A graduate course in Catalan literature is available. Also, the department is affiliated with the Latina/Latino Studies Program. Students in the area of Latina/Latino studies may be able to work with experts in the other disciplines in Latina/Latino studies such as anthropology, history, political science, sociology, and so forth in order to design and complete a program of studies in a particular area.

## Admission

The normal prerequisite for a graduate major is an undergraduate major in the corresponding Romance language or consent of the department. Students doing graduate work for any advanced degree in Spanish or Portuguese must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers, at least one of which must be written in Spanish or Portuguese (as applicable). Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Centers, Programs, and Institutes

The option to pursue a concentration in SLATE (Second Language Acquisition and Teacher Education) is available to doctoral students in the department's programs in linguistics. Candidates selecting this option are required to complete courses in linguistics, psycholinguistics/sociolinguistics, second language studies, and research methodology in addition to advanced study in linguistics of the particular language. For information about SLATE go to [www.slate.illinois.edu](http://www.slate.illinois.edu) (<http://www.slate.illinois.edu/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, this department requires degree candidates to teach as part of their academic work. Such experience is considered a vital part of the graduate program. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Financial Aid

The department offers financial aid (in the form of fellowships, teaching assistantships, and research assistantships) to all of the students it admits. Other kinds of fellowships and research support are also available on a competitive basis to qualified candidates; they include dissertation research and travel grants, conference travel grants, and summer fellowships.

### *for the degree of Master of Arts in Spanish, Spanish Literatures & Cultures Concentration*

The M.A. in Spanish, Concentration in Spanish Literatures and Cultures is administered through the Department of Spanish and Portuguese. Its goal is to provide graduate students with rigorous training in all main areas of Spanish Literatures and Cultures, as well as a working knowledge of Brazilian/Lusophone literatures and cultures. It requires coursework in both Latin American and Spanish peninsular literary and cultural production in each of the general chronological periods.

## Graduate Degree Programs in Spanish & Portuguese

Spanish, MA (p. 1767)

**optional concentrations:**

Medieval Studies (p. 1919)|Spanish Linguistics (p. 1769)|Spanish Literatures & Cultures (p. 1771)

Spanish, PhD (p. 1773)

**optional concentrations:**

Medieval Studies (p. 1919)|Romance Linguistics (p. 1924)|Second Language Acquisition & Teacher Education (p. 1926)

Portuguese, MA (p. 1694)

**concentration:**

Brazilian Studies (p. 1697)

Portuguese, PhD (p. 1696) (*Please note: Until further notice, we are accepting applications only to the M.A. in Portuguese, not to the Ph.D.*)

The Department of Spanish and Portuguese offers work leading to the Master of Arts and Doctor of Philosophy in Spanish and Portuguese, and to a Concentration in Second Language Acquisition and Teacher Education (SLATE).

**Fields of specialization are:**

- Spanish linguistics
- Romance linguistics
- Spanish literature and cultural studies
- Latin American literature and cultural studies
- Brazilian Studies
- Luso-Brazilian literature and cultural studies

A graduate course in Catalan literature is available. Also, the department is affiliated with the Latina/Latino Studies Program. Students in the area of Latina/Latino studies may be able to work with experts in the other disciplines in Latina/Latino studies such as anthropology, history, political science, sociology, and so forth in order to design and complete a program of studies in a particular area.

We also teach Catalan and Basque.

---

## Admission

The normal prerequisite for a graduate major is an undergraduate major in the corresponding Romance language or consent of the department. Students doing graduate work for any advanced degree in Spanish or Portuguese must possess a command of the language. Applicants should apply online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply)) (<http://www.grad.illinois.edu/admissions/apply/>) and submit a statement of purpose, three letters of recommendation and a writing sample of approximately 10-20 pages in the form of one or two papers, at least one of which must be written in Spanish or Portuguese (as applicable). Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should also be uploaded. Graduate Record Examination (GRE) scores are required of all domestic applicants and should be submitted to institution code 1836. International applicants who have taken the GRE are encouraged to submit their scores as well. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Centers, Programs, and Institutes

The option to pursue a concentration in SLATE (Second Language Acquisition and Teacher Education) is available to doctoral students in the department's programs in linguistics. Candidates selecting this option are required to complete courses in linguistics, psycholinguistics/sociolinguistics, second language studies, and research methodology in addition to advanced study in linguistics of the particular language. For information about SLATE go to [www.slate.illinois.edu](http://www.slate.illinois.edu) (<http://www.slate.illinois.edu/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, this department requires degree candidates to teach as part of their academic work. Such experience is considered a vital part of the graduate program. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)).

## Financial Aid

The department offers financial aid (in the form of fellowships, teaching assistantships, and research assistantships) to all of the students it admits. Other kinds of fellowships and research support are also available on a competitive basis to qualified candidates; they include dissertation research and travel grants, conference travel grants, and summer fellowships.

### *for the degree of Doctor of Philosophy in Spanish*

For additional details and requirements refer to the department's guidelines for graduate students (<http://www.spanport.illinois.edu/graduate/guidelines/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
SPAN 571	is required of all teaching assistants	4
SPAN 599	Thesis Research (32 max applied toward degree)	0 to 16
Coursework selected in consultation with advisor		
Language Requirement: Students in all doctoral programs except SLATE must demonstrate reading proficiency in two languages besides the foreign language of specialization (not including English).		
<b>Total Hours</b>		<b>64</b>

## Other Requirements <sup>1</sup>

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	16
Masters Degree Required for Admission to PhD?	Yes
Qualifying Exam Required	No
Preliminary Exam Required	Yes
Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

## Learning Outcomes: Spanish, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Spanish

1. Possess in-depth knowledge of the three major populations (Spain, U.S. Latino/a, Latin America) as it pertains to cultural production.
2. Be able to make original scholarly contributions that engage previous research and advance the field.
3. Be able to critically analyze and evaluate scholarly works and debates produced in different contexts.
4. Students will acquire ability to communicate research findings in a variety of academic venues in spoken and written English and in Spanish.
5. Be able to teach at the undergraduate level.

**phone:** (217) 244-3542

**email:** [gradservices@education.illinois.edu](mailto:gradservices@education.illinois.edu)

The Department of Special Education offers several master's program areas of emphasis and licensure: Infancy and Early Childhood Special Education, Learning and Behavior Specialist I (LBS-I), and Learning and Behavior Specialist II (LBS-II). LBS-I is the master's program that prepares teachers for their initial teaching licensure. The other master's programs are available for practicing teachers and other professionals interested in graduate studies. Several of these programs can be completed on a full or part-time basis. In most cases, full-time students take two years to complete their program of studies.

## Graduate Degree Programs in Special Education

Special Education, EdM (p. 1775) **(on campus & off-campus)**

**optional concentrations:** Bilingual-Bicultural Education (p. 1882)|Digital Learning (p. 1901)

Special Education, MS (p. 1778)

**optional concentrations:** Bilingual-Bicultural Education (p. 1882)|Digital Learning (p. 1901)

Special Education, PhD (p. 1781)

## Admission

Applicants must submit a complete application for admission. The applicant must submit three letters of reference and transcripts of all previous undergraduate and graduate work. A 3.0 grade point average (A = 4.0) for the last two years of the undergraduate program and for any previous graduate work is a minimum requirement for admission. The applicant must also submit a goal statement indicating his/her interests, experiences, and goals for pursuing graduate study in special education. In addition to the above items, international students must submit a Test of English as a Foreign Language (TOEFL) score (taken within two years of the start of the semester for which the student is requesting admission). International students must have a total iBT score greater than 102 (72nd-79th percentile). The minimum speaking score is 24 (79th percentile).

## Off-Campus Program

The Department of Special Education offers master's degree programs off-campus in coordination with Federal Personnel Preparation Grant awards. The focus of the off-campus program changes depending on the type of grant award. For example, past emphases have been on behavior intervention and multiple disabilities. For information on currently available off-campus programs, please visit the Department's website at <https://education.illinois.edu/sped>.

## Licensure

The Council on Teacher Education (<http://cote.illinois.edu/>) functions as the all-University governance system for licensure. Graduate students who wish to qualify for the council's recommendation for a teaching or administrative license must complete the appropriate graduate program. The Department of Special Education offers graduate-level licensure programs in Learning and Behavior Specialist I (LBS-I), and Learning and Behavior Specialist II (LBS-II). Early Childhood Special Education master's students who already hold a Professional Educator License who went through an Early Childhood approved program qualify for the Illinois ECSE approval.

## Faculty Research Interests

The Department of Special Education faculty have a variety of research interests. There are multiple opportunities for graduate students to engage in research activities with faculty. For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/sped/>).

## Facilities and Resources

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Students engaged in graduate study and research at the University of Illinois at Urbana-Champaign find an environment where collaboration among faculty members and students is nurtured and rewarded and where the students' contributions are recognized and valued. In many cases, this recognition comes in the form of financial awards that enable students to devote concentrated attention to their studies. Virtually all doctoral candidates receive assistantships/ traineeships. Traineeships are grant funded and are available for full-time students pursuing initial teacher licensure and leadership preparation in specific areas. Other financial aid opportunities (e.g., fellowships and assistantships) are available on a competitive basis. Students receiving traineeships, assistantships, and fellowships are exempt from payment of tuition and some fees.

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

### *for the degree of Master of Education in Special Education*

## Learning Outcomes: Special Education, EdM

Learning Outcomes for the degree of Master of Education in Special Education

All students who complete a master's degree in the Department of Special Education will:

1. Students who complete a master's degree resulting in teacher certification (e.g., LBS I or LBS II) or endorsement/credential (ECSE/EI) will demonstrate the acquisition of the knowledge and skills required to be competent novice special education teachers by meeting the indicators addressed in several sets of standards. These indicators are embedded in coursework, field-based activities, and other related professional experiences.
2. Graduate students who complete the LBS II Multiple Disabilities or ECSE course sequence will demonstrate expertise and leadership in their respective areas of specialization by engaging in: a) collaborative leadership activities, b) mentoring other educators, c) practicing effective communication skills, d) acting as change agents, and e) advocating for learners with disabilities.
3. Graduate students will expand and deepen their attitudes, knowledge and skills about evidence-based practices that result in improved learning and successful outcomes for students with disabilities.
4. Graduate students will acquire the knowledge and skills to understand multiple research methodologies and how research is used to inform instructional practices with persons with disabilities by engaging in a capstone research project.
5. Graduate students will become reflective practitioners who problem solve and change their practice to improve services provided to individuals with disabilities and their families.

The Doctor of Philosophy (Ph.D.) degree is a research focused degree and is tailored to the individual. Each candidate works closely with an adviser to develop an integrated course of study reflecting his or her goals in the area of special education. All doctoral students have the opportunity to be involved in research, university teaching, and service to the field of special education during their doctoral studies. Doctoral students typically complete the program in four to five years of full-time resident study. Please see the Department of Special Education website <https://education.illinois.edu/sped/programs-degrees/phd-sped> (<https://education.illinois.edu/sped/programs-degrees/phd-sped/>) for more information about requirements and to view the Department of Special Education Doctoral Advisement Manual (<https://education.illinois.edu/sped/programs-degrees/phd-sped/current-students/doctoral-student-manual/>).

Virtually all doctoral candidates receive assistantships/ traineeships. Traineeships are grant funded and are available for full-time students pursuing initial teacher

licensure and leadership preparation in specific areas. Other financial aid opportunities (e.g., fellowships and assistantships) are available on a competitive basis. Students receiving traineeships, assistantships, and fellowships are exempt from payment of tuition and some fees.

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

### **for the degree of Doctor of Philosophy in Curriculum and Instruction**

A list of additional requirements can be found on the program's website, (<https://education.illinois.edu/faceted-search/programs/?degree=edd&department=sped>) the College of Education Graduate Programs Handbook (<https://education.illinois.edu/current-students/graduate/coe-graduate-handbook/>), and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## **Special Education, PhD**

Code	Title	Hours
Completion of at least 64 hours beyond the master's degree including:		
Major Subject Coursework (minimum)		32
SPED 599	Thesis Research (min/max applied toward degree)	4-20
Independent Study (min/max applied toward degree)		0-12
Research coursework <sup>1</sup>		16-20
Total Hours		64

### **Other Requirements**

Requirement	Description
Minimum GPA	3.0
Masters Degree Required for Admission to PhD	
Residency: Maintain continuous full time (12 hours) enrollment until the student takes the preliminary examination and during the graduating semester. Zero hours are required for all other semesters.	
Early Research Requirement	
Qualifying Exams	
Human Subjects Approval	
Preliminary Exam	
Final Exam/Dissertation Defense	
Dissertation Deposit	

<sup>1</sup> All students will take a minimum of 16-20 credit hours, depending on area of methodology focus, in approved research methods courses (<http://education.illinois.edu/current-students/graduate/coe-graduate-handbook/phd/research-requirement/>).

## **Learning Outcomes: Special Education, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Special Education

1. Graduates of the Department of Special Education doctoral program will be knowledgeable about the major topics and pressing issues in the special education scholarly literature (e.g., assessment, special education law and policies, universal design for curriculum, etc.) with a focus on their particular research area of interest.
2. Graduates of the Department of Special Education doctoral program will conduct and critically assess research both independently and in collaboration with others in the field of special education.
3. Graduates of the Department of Special Education doctoral program will access resources (e.g., write grants, participate in professional organizations, design policy initiatives, etc.) to enable them to engage in research, teaching, and service that positively impacts the quality of life for individuals with disabilities.
4. Graduates of the Department of Special Education doctoral program will demonstrate the knowledge and skills required to teach, supervise and mentor future special education practitioners.
5. Graduates of the Department of Special Education doctoral program will demonstrate a, ability to share their expertise through scholarly writing, conference presentations, and service activities.

## Graduate Degree Programs in Speech & Hearing Science

Audiology, AuD (p. 1098)

Speech & Hearing Science, MA (p. 1783)

Speech & Hearing Science, PhD (p. 1786)

**optional concentration (PhD only):**

Second Language Acquisition and Teacher Education (p. 1926)

---

The Department of Speech and Hearing Science offers graduate programs of study in speech-language pathology, audiology, and speech, language, and hearing science, including programs leading to the Master of Arts, Doctor of Audiology, and Doctor of Philosophy degrees, with specialization in various aspects of audiology and speech-language pathology. The department prepares scientists and professionals who specialize in the study of perception and production of spoken, written, signed, and alternative communication and communication disorders, as well as dysphagia. Graduate degrees are offered at the master's and doctoral levels.

## Admission

Although a B.A./B.S. in the field is not required for admission to the clinical M.A. or Au.D. programs, recommended background includes undergraduate credit in the following areas or their equivalents: phonetics, anatomy and physiology of the speech and hearing mechanism, hearing science, speech science, speech pathology, audiology, and aural rehabilitation. The M.A. and Au.D. programs begin in the fall only.

For more information about admissions, see: <https://ahs.illinois.edu/master-of-arts-in-speech-&-hearing-science-clinical> (<https://ahs.illinois.edu/master-of-arts-in-speech-%26-hearing-science-clinical/>)

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

*for the degree of Master of Arts in Speech & Hearing Science*

---

In the Master of Arts degree program, students learn about speech-language pathology in medical and educational settings, as well as speech, language and hearing science. This degree may be taken as either a terminal degree or as preparation for further graduate study, including a doctoral degree. For students seeking a terminal degree, the Master of Arts program may be designed with or without clinical practicum experience.

The clinical program ensures clinical competence in speech-language pathology necessary for employment in a healthcare and educational settings, private practice, or industry. Successful completion of this program ensures that the student has met the academic and clinical requirements for the American Speech-Language-Hearing Association (ASHA) certification and can choose to pursue the Illinois state certification required for speech-language pathology in the public schools. The program is accredited by the Council on Academic Accreditation in Speech-Language Pathology and Audiology. The clinical MA program requires a minimum of 60 graduate hours. All students in the clinical program are required to take the following courses:

## Clinical Program, Thesis or Non-thesis

Code	Title	Hours
SHS 410	Stuttering: Theory & Practice	4
SHS 430	Devel & Disorders Phonol Artic	4
SHS 431	Lang Disorders Preschool Child	4
SHS 470	Neural Bases Spch Lang	4
SHS 511	Assessment and Management of Voice Disorders	4
SHS 513	Assessment and Management of Dysphagia	4
SHS 514	Motor Speech Disorders	4
SHS 533	Advanced Language Diagnostics	2
SHS 534	Aphasia and Related Disorders	4
SHS 570	Quant Reasoning Spch Hear Sci	4
SHS 571	Clinical Sociolinguistics	4
SHS 579	Prof/Eth/Legal Issues AuD/SLP	3
SHS 592	Prosem Spch & Hear Sci	0
Elective hours (not including SHS 599) <sup>1</sup>		0-12
Required Clinical Practica		8-12
SHS 599	Thesis Research (A thesis is optional, but if completed 0-8 hrs. may be applied)	0-8
<b>Total Hours</b>		<b>60</b>

Other Requirements

Code	Title	Hours
Other requirements may overlap		
Minimum 500-level Hours Required Overall:		12 min
Minimum GPA:		3.0

<sup>1</sup> To be eligible for the Illinois state professional educator license, students must complete SHS 532, Language Disorders in School-Age Children, and SHS 575, School Speech-Language Clinical Methods. Other electives are identified by the student under the guidance and approval of their academic advisor.

### Other Requirements <sup>1</sup>

Other requirements may overlap

Minimum 500-level Hours Required Overall:	12 min
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate programs (<http://www.shs.illinois.edu/Graduates/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Non-Clinical Program, Thesis or Non-thesis

The non-clinical MA program may prepare the student for employment in industry or for a doctoral program. This program requires 40 graduate hours. SHS 592 is required and the student must build a logical and coherent series of approved courses.

For a student seeking a non-terminal degree, the Master of Arts program enables the student to undertake fundamental coursework that will be an integral part of an overall doctoral program.

The student's program for the Master of Arts degree will be determined on an individual basis, taking into consideration the Graduate College and departmental requirements. A master's thesis should be part of a pre-doctoral student's plan of study.

Code	Title	Hours
SHS 592	Prosem Spch & Hear Sci	0-1
Elective hours		40
SHS 599	Thesis Research (A thesis is optional, but if completed 0-8 hrs. may be applied)	0-8
<b>Total Hours</b>		<b>40</b>

## Other Requirements <sup>1</sup>

Other requirements may overlap

Minimum Hours Required Within the Unit:	20
Minimum 500-level Hours Required Overall:	20
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate programs (<http://www.shs.illinois.edu/Graduates/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Speech & Hearing Science, MA

Learning Outcomes for the degree of Master of Arts in Speech & Hearing Science

1. The student will demonstrate knowledge of **basic human communication and swallowing processes**, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. The applicant must have demonstrated the ability to integrate information pertaining to normal and abnormal human development **across the life span** (ASHA Standard IV-B).
2. The student will demonstrate knowledge of communication and swallowing disorders and differences, including the appropriate **etiologies, characteristics**, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates in the following 9 areas: articulation; fluency; voice/resonance; receptive/expressive language in speaking, listening, reading, writing; hearing; swallowing; cognitive aspects of communication; social aspects of communication; and augmentative and alternative communication modalities (Standard IV-C).
3. For each of the areas specified in #2, the student will demonstrate current knowledge of the principles and methods of prevention, **assessment, and intervention** for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates (Standard IV-D).
4. The student will demonstrate knowledge of **standards of ethical conduct** and skills in adhering to the professional code of ethics and behaving professionally (Standard IV-E).
5. The student will demonstrate knowledge of processes used in **research** and skills in integrating research principles into **evidence-based clinical practice** (Standard IV-F).
6. The student will demonstrate knowledge and skills in applying contemporary **professional issues** in clinical practice (Standard IV-G).
7. The student will demonstrate knowledge of entry-level and advanced certifications, licensure, and other relevant professional credentials, as well as knowledge and skills in applying local, state, and national **regulations** and policies in clinical practice (Standard IV-H).
8. The student will demonstrate skills in **oral and written communication** for academic and professional purposes, including the ability to communicate effectively and complete administrative and reporting functions necessary to support evaluation and intervention (Standard V-A and V-B).
9. The student will demonstrate evaluation and intervention skills with breadth and depth, across the scope of practice, including the lifespan and culturally and linguistically diverse populations; and demonstrate **professional, interactional, and personal skills** of collaborating with other professionals and providing counseling regarding communication and swallowing (Standard V-B-1, V-B-2, V-B-3, and V-F).

## Graduate Degree Programs in Speech & Hearing Science

Audiology, AuD (p. 1098)

Speech & Hearing Science, MA (p. 1783)

Speech & Hearing Science, PhD (p. 1786)

The department offers programs leading to the Master of Arts, Doctor of Audiology, and Doctor of Philosophy degrees, with specialization in various aspects of audiology and speech-language pathology. The Department of Speech and Hearing Science offers graduate programs of study in speech-language pathology, audiology, and speech, language, and hearing science. The department prepares scientists and professionals who specialize in the study of perception and production of spoken, written, signed, and alternative communication and communication disorders, as well as dysphagia. Graduate degrees are offered at the master's and doctoral levels.

## Admission

Admission to the doctoral program requires completion of a bachelor's degree. The doctoral program is divided into three stages: Stage I, which includes the master's degree or its equivalent; Stage II, which is advanced course work and completion of all departmental requirements, with the exception of the dissertation defense and deposit; and Stage III, which is the conduct of the dissertation, its defense and deposit.

For more information about admissions, see: <https://ahs.illinois.edu/speech-&hearing-science/phd> (<https://ahs.illinois.edu/speech-%26-hearing-science/phd/>)

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

*for the degree of Doctor of Philosophy in Speech & Hearing Science*

The program may be planned with specialization in many areas of audiology, speech-language pathology, and speech, language or hearing science. Individual programs of study will be tailored to the student's area of scholarly and research interests and are planned by the student and the advisor. The minimum academic course requirements for this degree are 64 graduate hours of course work beyond those required for a master's degree or equivalent, a qualifying exam, and a dissertation.

The first two to four years of the doctoral program are typically devoted to course work, including the completion of an Early Research Project (ERP), in the area of concentration selected by the student. For students entering with a M.A./M.S., the ERP occurs early in Stage II and must be completed before the Qualifying Exam. For students entering the PhD program directly from a B.A./B.S. degree, the ERP may be undertaken and completed in Stage I or Stage II. In the middle of Stage II, students will take a Qualifying Exam. Successful completion of the Qualifying Exam provides evidence of the student's satisfactory progress toward scholarly independence and indicates the student is then qualified to begin the planning stages of a dissertation proposal. A preliminary exam on the dissertation proposal occurs at the end of Stage II and marks the transition to Stage III. The doctoral program culminations with a Final Exam/Dissertation Defense, and oral examination over a written document.

For additional details and requirements refer to the department's graduate programs (<http://www.shs.illinois.edu/Graduates/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Entering with approved M.A./M.S. or Au.D. degree

Code	Title	Hours
3 courses in statistics-related areas		12
SHS 590	History of CSD	4
SHS 592	Prosem Spch & Hear Sci	2-4
SHS 594	PhD Early Research Project	6-8
One or two advanced 500-level seminars in SHS		4
Restricted elective hours, not including SHS 594, SHS 594, SHS 599 <sup>1</sup>		8-12
SHS 599	Thesis Research (min/max applied toward degree)	24

## **Learning Outcomes: Speech & Hearing Science, PhD**

Learning Outcomes for the degree of Doctor of Philosophy in Speech & Hearing Science

---

1. Identify and hone a research area in communication sciences and/or disorders, mastering its scientific and theoretical knowledge base by reading and critically evaluating the literature and seeking learning opportunities with a network of interdisciplinary experts (both on and off-campus).
2. Develop expertise and independence in conducting scientific research(including statement of the problem/hypotheses, design of the experimental method, collection of data, analysis of data, interpretation of results, and ethical conduct of research), in order to solve problems related to communication science and disorders; and in seeking funding for research.
3. Develop expertise and independence in disseminating findings(oral & written) to the broader community.
4. Develop long-term research goals, layout a plan to accomplish these goals, and determine an immediate career path (post-doctoral fellow positions, faculty position, etc.).

The Department of Statistics offers the Master of Science in Statistics with specialization in a variety of areas of application. The degree program consists of a core of statistics courses covering statistical theory, linear models, and statistical consulting, and further coursework in the field of application and in statistics. The program offers an additional degree for students earning an advanced degree in the area of application.

To be eligible for this program, students must be pursuing an advanced degree in a department other than Statistics at the Urbana-Champaign campus. Students interested in economic statistics should apply for the applied concentration. Full statements of degree requirements are available from the head of the unit offering a specialization or from the Graduate Advisor of the Department of Statistics.

Minimum 500-level Hours Required Overall:	12
Minimum GPA:	2.75

## Learning Outcomes: Statistics, MS

Learning Outcomes for the degree of Master of Science in Statistics

Statistics students in the MS program will

1. Acquire a solid foundation in mathematical statistics and learn how it applies it to data analysis;
2. Develop strong communication abilities in writing and orally that will allow them to work effectively in diverse teams;
3. Become skillful in statistical computing, data management, and statistical software;
4. Be knowledgeable of the most modern techniques in statistical methodology and data science, especially data analysis techniques associated with statistical learning and machine learning;
5. Develop an understanding and gain experience in applying methodology learned in the classroom to real problems in science and industry.

## Learning Outcomes: Statistics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Statistics

---

Statistics Ph.D. students will...

1. Have a solid foundation in Statistical Theory and Methodology;
2. Have a holistic understanding of data collection, management, processing, analysis and interpretation. Being proficient in the use of statistical software and writing statistical code;
3. Have experience in one or more application areas and work as a part of a collaborative team in analyzing real data and solving real-world problems;
4. Be able to conduct research either independently or collaboratively in a subarea of statistics and data science;
5. Be able to teach some elementary statistical courses independently.

# Strategic Brand Communication, MS

## Programs in Advertising

### Undergraduate Programs:

**major:** Advertising, BS (<http://catalog.illinois.edu/schools/media/academic-units/advertising/#undergraduatetext>)

**major:** Computer Science & Advertising, BS (<http://catalog.illinois.edu/undergraduate/media/departments/advertising/csadv/>)

**minor:** Media (p. 919) | Public Relations (p. 938)

### Graduate Programs:

**degree:** Advertising, MS (p. 994)

**degree:** Strategic Brand Communication, MS (p. 1797)

This Master of Science in Strategic Brand Communication (MS SBC) degree is an online program jointly sponsored by the Charles H. Sandage Department of Advertising in the College of Media. The degree program launched in December 2016 and graduates from this program receive the MS SBC degree awarded by the Graduate College. Strategic Brand Communication (SBC) is a data-driven, purposeful conversation with a brand's stakeholders. SBC combines traditional advertising practices with contemporary business thinking that pertains to delivering consistent, meaningful messages to consumers. In so doing, SBC seeks to integrate multiple consumer contact points that occur through the purchase of commercial messages in paid, earned, and owned media to deliver persuasive and impactful statements about brands and companies.

This management process integrates all aspects of strategic brand marketing communications such as advertising, public relations, digital media, social media, promotion, and revenue development marketing. Such integration impacts a firm's business-to-business, marketing channel, customer-focused, and strategic integrated communications.

The MS SBC degree program is designed for working professionals. The online program is designed to be completed in 16 months. The curriculum will prepare students to: be strategic leaders in an ever-changing global media environment; be analytic and integrative thinkers; be effective brand communicators and managers; respond agilely to new technologies, emerging media, new demographics, and market trends; be team-oriented in their approach to management and communications; and be prepared to continue to learn as the media environment evolves.

## Admission

To be admitted into this program, applicants are expected to have a minimum grade point average of at least 3.0 (A = 4.00) for the last two years of undergraduate study and a 3.0 for any previous graduate work completed. All applicants whose native language is not English must submit a minimum Test of English as a Foreign Language (TOEFL) score of at least 102 (iBT), 253 (CBT), or 610 (PBT); or minimum International English Language Testing System (IELTS) academic exam scores of 6.5 overall and 6.0 in all subsections. Prerequisite: course in Statistics or Calculus from an accredited institution. The admissions criteria will be based upon an evaluation of each applicant's academic and professional experience, GPA, English aptitude, and letters of recommendation. A minimum GPA of 2.75 is required for continued enrollment.

for the degree of Master of Science in Strategic Brand Communication (online)

For additional details and requirements refer to the department's program information online and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Degree Programs in Landscape Architecture

Landscape Architecture, PhD (p. 1471)

Landscape Architecture, MLA (p. )

Sustainable Urban Design, MSUD (p. 1799)

Heritage Studies Graduate Minor (p. 1983)

### joint programs:

Landscape Architecture, MLA & Urban Planning, MUP (p. 2021)

The Department of Landscape Architecture offers the Master of Landscape Architecture (MLA) degree, the Master of Sustainable Urban Design degree (MSUD), and the PhD degree. The programs enable students to gain fresh insights and to conduct new research pertaining to land and its use by people. Courses and faculty research activities range from on-site to regional scales, and include environmental planning and design as well as community design, cultural heritage, and history.

THE MSUD is a 11-month program completed in two semesters (fall and spring) plus one summer term, undertaken in that order. Matriculation is for fall semester only. The MSUD program can serve as a postprofessional degree (i.e., a degree that leads to licensure such as BLA, MLA, MARCH) or as an advanced degree to hone skills in sustainable design for those with degrees in other subject areas.

# Sustainable Urban Management, MS

*for the degree of Master of Science in Sustainable Urban Management*

**department head:** Rolf Pendall

**director of the MUP program:** Bumsoo Lee

**MUP admissions director:** Andrew Greenlee

**director of the PhD program:** Faranak Miraftab

**overview of admissions & requirements:** <https://urban.illinois.edu/programs-applying/master-science-sustainable-urban-management/>  
**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** Urban + Regional Planning (<https://urban.illinois.edu/>)

**program website:** <https://urban.illinois.edu/programs-applying/master-science-sustainable-urban-management/>

**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>

**college website:** College of Fine & Applied Arts (<https://faa.illinois.edu/>)

**department office:** 111 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820

**phone:** (217) 333-3890

**email:** [urbplan@illinois.edu](mailto:urbplan@illinois.edu)

The Master of Science in Sustainable Urban Management is a full-time degree program designed to be completed in one year providing analytical and strategic skills for professionals to help them manage change in urban areas. All students take core courses in Urban History and Theory and Urban and Regional Analysis. They also take the two-course sequence designed solely for this degree program, Urban Skills and Applications I and II, in which they integrate their skills into an urban systems framework. Students select their specialization courses from one of three areas of study: Regional Systems and Informatics, Energy and Environment, or Governance and Community.

## Graduate Degree Programs in Urban Planning

Sustainable Urban Management, MS (p. 1801)

Urban Planning, MUP (p. 1849)

Regional Planning, PhD (p. 1720)

### joint programs:

Urban Planning, MUP & (p. 2010) Architecture, MARCH (p. 2010)

Urban Planning, MUP & Law, JD (p. 2044)

Urban Planning, MUP & Landscape Architecture, MLA (p. 2021)

Urban Planning, MUP & Public Health, MPH (p. 2038)

Urban Planning, MUP & any Illinois master's degree in related field (p. 2045)

The Department of Urban and Regional Planning offers graduate programs leading to the degrees of Master of Urban Planning and Doctor of Philosophy in Regional Planning as well as a Master of Science in Sustainable Urban Management. Students can also apply to obtain a joint degree with another graduate degree simultaneously. The most popular joint degrees are with Architecture, Landscape Architecture, Law and Agricultural and Applied Economics. Joint degrees with any related field are possible. In addition, a small number of the department's Bachelor of Arts in Urban Studies and Planning (B.A.U.S.P.) students participate in the highly selective 4+1 program (<http://catalog.illinois.edu/undergraduate/faa/urban-studies-planning-ba-mup/>) to complete the B.A.U.S.P. and M.U.P. in five years.

## Admission

We welcome applications from people from a wide variety of backgrounds who have demonstrated potential for extraordinary professional achievement. Students seeking a graduate degree in planning come from a diverse range of academic backgrounds. The most frequent are sociology, economics, political science, geography, environmental sciences, architecture, engineering, public administration, urban planning, and public policy, but the natural sciences, humanities, and other fields also provide excellent foundations for graduate study in planning. Prospective students must have a grade point average (GPA) of at least 3.0 computed from the last 60 hours of undergraduate work and any subsequent graduate study, but the average GPA of admitted students is considerably higher. International applicants must meet additional minimum requirements (<http://www.grad.illinois.edu/admissions/countries/>) based on their country of origin, including the Test of English as a Foreign Language (TOEFL).

We place particular emphasis on each applicant's statement of purpose. Applicants should use the statement to convey information about their backgrounds, professional and personal experience, and intellectual perspectives, in the context of articulating why a Master's in Urban Planning or Ph.D. in Regional Planning from the University of Illinois will help them achieve their professional goals. We seek an applicant pool that represents a mix of racial and ethnic populations, a range of social and economic backgrounds, different philosophies and perspectives, and a variety of life experiences. We are especially interested in applicants with professional experience, though that experience need not be in planning or closely related fields.

Applicants to the Ph.D. program are admitted when they meet the standards of the Department and have a faculty member prepared to serve as their mentor and, if necessary, primary source of financial support. Students interested in pursuing a Ph.D. in Regional Planning should communicate with the Director of the Ph.D. Program and faculty most closely aligned with their interests, in addition to completing the formal application process.

Consult the M.U.P. admissions (<https://urban.illinois.edu/prospective-students/admissions/master-of-urban-planning/admissions-criteria/>) and Ph.D. admissions (<https://urban.illinois.edu/programs-applying/phd-regional-planning/>) web pages for more information.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the doctoral experience in this program and is strongly encouraged for those intending to pursue an academic career.

## Faculty Research Interests

The mission of the Department of Urban and Regional Planning is to teach and conduct research to improve understanding of human settlements and of planning situations. The department's faculty studies the ecological, economic, social, and institutional aspects of urban and regional development, and the theory and practice of planning processes. Planning is viewed as the achievement of outcomes based on interrelated actions over time and space, and close communication and collaboration with a wide range of disciplines and professions is inherent in the department's approach. The basis of that collaboration is a faculty whose academic training and degrees are in architecture, economics, geography, history, law, political science, regional science, and zoology, in addition to planning. Planning faculty and doctoral students pursue interdisciplinary research and make scholarly contributions to planning and fields closely allied with planning.

## Facilities and Resources

The Department of Urban and Regional Planning shares Temple Hoyne Buell Hall (TBH) with the Department of Landscape Architecture and the School of Architecture. The majority of urban planning classes are held in TBH. The department has a 24-hour instructional computing laboratory. Research project and doctoral student workspace is provided in Noble Hall.

The City Planning and Landscape Architecture Reference and Resource Center is located in Funk Library (<http://www.library.uiuc.edu/agx/>). The planning collection is one of the finest in the world, with books and reports gathered since the collection started over eighty years ago.

## Financial Aid

Students compete for departmental and Graduate College fellowships and departmental teaching and research assistantships. Selection is based on the academic achievement and qualifications of the student.

### *for the degree of Master of Science in Sustainable Urban Management*

Code	Title	Hours

Elective Hours		4
Total Hours		32

## Learning Outcomes: Sustainable Urban Management, MS

Learning Outcomes for the degree of Master of Science in Sustainable Urban Management

Upon completion of the program students should be able to:

1. Understand the basic structures and functions of urban systems.
2. Able to perform general urban and regional analyses as well as know the major sources of urban and regional data.
3. Be comfortable working in multidisciplinary teams and solving complex urban problems.
4. Have a deeper level of understanding of a primary area of study focused on either Regional Systems and Informatics, Energy and Environment, or Governance and Community.

# Systems & Entrepreneurial Engineering, MS

*For the degree of Master of Science in Systems & Entrepreneurial Engineering*

**department head:** Jeff Shamma (jshamma@illinois.edu)

**associate head of graduate studies:** Ramavarapu S Sreenivas (rsree@illinois.edu)

**overview of admissions & requirements:** <https://ise.illinois.edu/graduate/admissions/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply/> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <https://ise.illinois.edu/>

**program website:** <https://ise.illinois.edu/graduate/index.html> (<https://ise.illinois.edu/graduate/>)

**department faculty:** <https://ise.illinois.edu/directory/faculty.html>

**college website:** <https://grainger.illinois.edu/>

**contact:** Lauren Redman (lredman@illinois.edu)

**address:** 117 Transportation Building, 104 S Mathews Ave, Urbana, IL 61801

**phone:** (217) 333-2731

**email:** ise-grad@illinois.edu

The Department of Industrial & Enterprise Systems Engineering offers both an MS with thesis and an MS non-thesis program. Students in the MS with thesis program are required to have a research advisor and applicants are encouraged to contact department faculty (<https://ise.illinois.edu/directory/faculty.html>) in their areas of interest to inquire about possible research and funding opportunities.

Opportunity exists for specializing in computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

Applicants who have completed degree requirements in an accredited engineering program or its equivalent are eligible to apply for admission. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are recommended of all applicants. Based upon the previous preparation of the student for either program, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Qualified students may compete for financial assistance in the form of teaching/graduate/research assistantships, fellowships, grants, and tuition waiver scholarships. Under certain conditions, fellowships may be augmented by part-time assistantships.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the English Proficiency Interview ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)) (EPI), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Faculty research by ISE faculty is pursued in the following fields:

- |  |                                 |                      |                     |                            |
|--|---------------------------------|----------------------|---------------------|----------------------------|
| •computer-aided design                 | •data analytics                 | •optimization        | •design systems     | •manufacturing systems     |
| •nondestructive testing and evaluation | •system dynamics and simulation | •control             | •robotics           | •real-time decision making |
| •reliability engineering               | •financial engineering          | •operations research | •management science | •biomechanics              |
| •human factors                         | •supply chain logistics         |                      |                     |                            |

Members of the ISE Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department's research laboratories Web site (<https://ise.illinois.edu/research/labs/>).

## Graduate Programs in Industrial & Enterprise Systems Engineering

degrees:

Industrial Engineering, MS (p. 1438)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Computational Science & Engineering (p. 1892)

Industrial Engineering, PhD (p. 1441)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, MS (p. 1803)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, PhD (p. 1806)

Financial Engineering, MS (p. 1358) (**sponsored jointly with Department of Finance**)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Data Analytics in Finance (p. 1899)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offers an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<https://energysystemsmeng.engineering.illinois.edu/graduate-certificate-option/>)

**email:** ise-grad@illinois.edu

The Department of Industrial & Enterprise Systems Engineering offers both a traditional doctoral program and a direct doctoral program. A Master's degree is not required for admission to the direct doctoral program. Students in both programs are required to have a research advisor and applicants are encouraged to contact department faculty (<https://ise.illinois.edu/directory/faculty.html>) in their areas of interest to inquire about possible research and funding opportunities.

## Admission Requirements

Applicants who have completed degree requirements in an accredited engineering program or its equivalent are eligible to apply for admission. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student for either program, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

## Financial Aid

Qualified students may compete for financial assistance in the form of teaching/graduate/research assistantships, fellowships, grants, and tuition waiver scholarships. Under certain conditions, fellowships may be augmented by part-time assistantships. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants, regardless of US citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the English Proficiency Interview ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)) (EPI), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) conducted prior to the start of the semester.

## Department Research

Faculty research by ISE faculty is pursued in the following fields:

- |  |                                 |                      |                     |                            |
|--|---------------------------------|----------------------|---------------------|----------------------------|
| •computer-aided design                 | •data analytics                 | •optimization        | •design systems     | •manufacturing systems     |
| •nondestructive testing and evaluation | •system dynamics and simulation | •control             | •robotics           | •real-time decision making |
| •reliability engineering               | •financial engineering          | •operations research | •management science | •biomechanics              |
| •human factors                         | •supply chain logistics         |                      |                     |                            |

Members of the ISE Department have access to a wide range of excellent research facilities. These laboratories support a wide range of activity and are described at the department's research laboratories Web site (<https://ise.illinois.edu/research/labs/>).

## Graduate Programs in Industrial & Enterprise Systems Engineering

degrees:

Industrial Engineering, MS (p. 1438)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Computational Science & Engineering (p. 1892)

Industrial Engineering, PhD (p. 1441)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, MS (p. 1803)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, PhD (p. 1806)

Financial Engineering, MS (p. 1358) (**sponsored jointly with Department of Finance**)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Data Analytics in Finance (p. 1899)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offer an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

Opportunity also exists for specializing in energy and sustainability engineering via the

**Energy and Sustainability Engineering (EaSE) Graduate Certificate Option** (<https://energysystemsmeng.engineering.illinois.edu/graduate-certificate-option/>)

---

for the degree of Doctor of Philosophy in Systems & Entrepreneurial Engineering

---

A Master's degree is not required for admission to the Ph.D. program.

Students in the SEE master's program must take the Qualifying Examination before obtaining the M.S. degree; students entering the program with a master's degree earned elsewhere must pass the Qualifying Examination before or during their third semester in the Ph.D. program.

The 96 graduate hours of credit may be divided into three stages of 32 hours each, consisting of 32 hours generally represented by an M.S. degree or equivalent (Stage I), 32 hours of course work beyond the M.S. degree (Stage II), and 32 hours of thesis work for the doctoral thesis (Stage III). Stage I requirements are satisfied by completion of an M.S. degree in the Department or in a related engineering or technical discipline from the University of Illinois or other accredited university. A non-technical M.S. or MBA would normally not count toward the completion of Stage I. Such students would be required to enroll in one of the Master of Science Programs in the Department and satisfy the requirements therein in order to satisfy Stage I of the Ph.D. degree.

To advance to Stage II all students must pass the Qualifying Examination (<https://ise.illinois.edu/graduate/degrees-and-programs/phd-systems-entrepreneurial-engineering.html>). To advance from Stage II to Stage III the student must pass the Preliminary Exam. Stage III is comprised of a minimum of 32 hours of SE 599 credit and a written dissertation followed by a final oral thesis defense.

The Preliminary Examination is taken after the Qualifying Examination. A minimum of six months must elapse between the successful completion of the doctoral preliminary examination and the doctoral final examination (oral dissertation defense).

For additional details and requirements refer to the department's Graduate Programs Web site (<http://ise.illinois.edu/graduate/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

### Entering with approved M.S./M.A. degree

Code	Title	Hours
SE 599	Thesis Research <small>A maximum of 32 credit hours of SE 599 (or other approved thesis) may be counted toward the degree</small>	32
SE 590	Seminar (registration for 0 hours every term while in residence)	0
400/500-level SE Courses		20

STEM courses from outside of major	STEM courses must be approved and be from a College of Engineering department, including ABE and CHBE (or other approved department). Excludes TE and ENG courses.	12
------------------------------------	--	----

Total Hours		64
-------------	--	----

## The Taxation, MS is not currently accepting applications; suspended effective Summer, 2018

The Master of Science in Taxation (M.S.T) is an executive-style degree offered only at the Illini Center in Chicago. The M.S.T. is a one-year program for students with at least two years of work experience. The program begins in May and meets weekly on Friday afternoons and all day Saturday. Students applying for admission should have acquired a background in business and an accounting undergraduate major from an accredited college or university. Graduation requires 36 graduate hours of study that consists of twelve required courses delivered in three thirteen-week semesters.

## Graduate Degree Programs in Accountancy

### Graduate Majors:

Accountancy, MAS (p. 983)

**with optional concentrations:** Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Data Analytics in Accountancy (p. 1897), Finance (p. 1354), Information Technology & Control (p. 1916), Real Estate (p. 1923), Supply Chain Management (p. 1930), Taxation (<http://catalog.illinois.edu/graduate/bus/accountancy-mas/taxation/>)

Accountancy, MS (p. 987) (on campus & online)

**with optional concentrations:** Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Data Analytics in Accountancy (p. 1897), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Accountancy, PhD (p. 990)

### Graduate Minors:

Accountancy (p. 1957)

### Graduate Concentrations:

# Teaching of Biological Science, MS

*for the degree of Master of Science in Teaching of Biological Science (online)*

**graduate director:** Dr. Marianne Alleyne

**overview of admissions & requirements:** <http://omst.sib.illinois.edu/apply/app/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**school website:** School of Integrative Biology (<http://sib.illinois.edu/>)

**program website:** Online Master of Science Teaching Biology Program (<http://omst.sib.illinois.edu/>)

**school faculty:** Faculty (<http://omst.sib.illinois.edu/people/>)

**college website:** College of Liberal Arts & Sciences (<https://las.illinois.edu/>)

**program contact:** Kim Leigh

**program office:** 320 Morrill Hall, 505 S Goodwin, Urbana, IL 61801

**phone:** (217) 333-2910

**email:** [kaleigh@illinois.edu](mailto:kaleigh@illinois.edu)

The Online Master of Science Teaching Biology Program (OMST-Biology) is designed for certified biology/science teachers who wish to complete a Master of Science degree in Biology. Individuals who are already certified to teach science/biology at the middle school / high school level may enter the online program to earn the MS degree while taking online courses in both biology and education.

## Graduate Degree Programs in Teaching of Biological Science

Teaching of Biological Science, MS (p. 1811)

### Admission

All Applicants must hold a baccalaureate degree (or equivalent) comparable in content and number of credit hours with that granted by the University of Illinois at Urbana-Champaign. Applicants must have an overall grade-point average of 3.0 (A=4.0) for the last 2 years of undergraduate study. Applicants must have proof of teacher certification in Science/Biology.

Applicants whose native language is not English are required to submit TOEFL scores. International applicants must have a TOEFL score of at least 613 (paper-based test), 257 (computer-based test), or 103-104 (internet-based test) to be considered for admission. The TOEFL must be taken within two years of the proposed term of entry; older scores are not valid. Request that official TOEFL scores be sent directly to the University of Illinois at Urbana-Champaign. The institution number is 1836.

See the Program Web Site for application deadlines, procedures, and more detailed application guidelines.

### Financial Aid

Financial assistance in the form of full or partial waiver of tuition and fees is not available to online M.S. students (except statutory waivers).

*for the degree of Master of Science in Teaching of Biological Science (online)*

Applicants must be certified to teach science/biology. This master's program is only available online (<http://omst.sib.illinois.edu/>).

Graduation requirements for the OMST-Biology Program include a minimum of **32 credit hours** of coursework.

Code	Title	Hours
	While specific courses are not required, previously certified candidates must complete a minimum of 8 hours of graduate-level courses offered by departments in the College of Education to be selected in consultation with the Biology advisor based on the student's interest.	8
	Elective hours selected from either biology or education	8
	Hours Required within the unit (Biology IB or MCB)	16
	Research/Project Hours (min/max applied toward degree)	0-4
	<b>Total Hours</b>	<b>32</b>

### Other Requirements <sup>1</sup>

#### Requirement

Other requirements may overlap.

Courses taken "credit/no credit" may not be used toward degree requirements.

Deficiencies in undergraduate courses needed to satisfy the certification requirement must also be taken; these courses normally do not count toward the 32 or 51 graduate hours needed to complete the degree. Deficiencies are determined by an audit of transcripts conducted by the Teacher Certification Office.

500-level hours required overall in program: 12

Conferral of the MS degree is contingent upon the completion of all teacher certification requirements.

Qualification for teacher certification is contingent upon the completion of all MS degree requirements.

Minimum GPA: 3.0

<sup>1</sup> For additional details and requirements refer to the program requirements (<http://omst.sib.illinois.edu/apply/graduation/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Teaching of Biological Science, MS

Learning Outcomes for the degree of Master of Science in Teaching of Biological Science (online)

---

The Online Master of Science in Teaching of Biological Science (OMST) is designed to give practicing teachers the opportunity to earn a M.S. in teaching biological science or graduate credits in biology while living and teaching at home. Accordingly, we offer a comprehensive curriculum consisting of six Biology courses (OMST students must complete five of the six courses) and three Curriculum & Instruction courses (including a capstone project course). Through these courses we meet the needs of today's biology teachers, giving them the tools to help their own students think like a biologist and give the tools to lead the next wave of change. The fully online format enables in-service teachers to bring the latest advances in biology and evolving pedagogy directly to the classroom.

### Online Master of Science in Teaching of Biological Science Program Learning Objectives:

1. Synthesize core knowledge in the fields of Biology and the Teaching of Biology.
2. Apply modern Biology knowledge into the Middle School or High School science classroom.
3. Design and implement an action research project which integrates pedagogical and science content ideas addressed in the program courses.
4. Acquire other professional skills such as recognizing legitimate science, citation management and science communication.

# Teaching of Chemistry, MS

*for the degree of Master of Science in Chemistry*

---

**department head chemistry:** Catherine J. Murphy

**overview of admissions & requirements:** <https://chemistry.illinois.edu/admissions/graduate-admissions> (<https://chemistry.illinois.edu/admissions/graduate-admissions/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

## Graduate Degree Programs in Chemistry

Chemistry, MA (p. 1182)

Chemistry, MS (p. 1184)

Chemistry, PhD (p. 1186)

### concentrations:

Astrochemistry (p. 1880) | Computational Science & Engineering (p. 1892)

Chemical Physics, PhD (p. 1180)

Teaching of Chemistry, MS (p. 1813)

### joint programs:

Chemistry, MS & Law, JD (p. 2022)

---

## Admission

Graduate College requirements apply. Further, applicants should have at least 25 semester hours in chemistry (properly distributed) and a grade point average of 3.0 (A = 4.0), to be considered for admission to the graduate programs. Applications from students with less than the usual preparation in chemistry or with grade point averages below 3.0 may be considered on an individual basis.

International students whose native language is not English are required to have a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 580 (237 on the computer-based test). In addition, teaching is a requirement in the chemistry graduate program, and there are special requirements for applicants whose native language is not English. The University requires a minimum Test of Spoken English (TSE) score of 50. Any applicant whose native language is not English is expected to provide TSE scores in order to receive full consideration for admission and financial aid.

Students who are currently enrolled in graduate programs at other institutions are advised that they should first complete degree work at their current institution before they will be considered for admission to the chemistry PhD program at the University of Illinois. In addition, we require a statement from the applicant and a letter from the applicant's research adviser or department head detailing the situation. Students might be admitted without a degree from their current institution under exceptional circumstances that will need to be described in detail via a letter from the applicant and a separate statement from the department head of the student's current graduate program.

Contact chemistry graduate admissions for further information.

## Financial Aid

Support for graduate students is available through fellowships and assistantships. All candidates are considered for these upon application. Graduate students making normal progress toward their degrees generally receive a tuition waiver as well as a stipend.

*for the degree of Master of Science in Chemistry*

The Master of Science in the Teaching of Chemistry (MSTC) at the University of Illinois provides advanced studies for those interested in teaching chemistry at the secondary or community college level. The program serves two different audiences:

- Those who already have a teaching certificate or will teach in situations which do not require a certificate;
- Those who wish to obtain a master's degree and a teaching certificate simultaneously.

The MSTC degree (without certification) can be completed in one year. The MSTC degree (with certification) requires two years.

For additional details and requirements refer to the department's Graduate Programs (<https://chemistry.illinois.edu/academics/graduate-studies/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours

The courses in chemistry and the electives must be selected with the approval of the adviser.	
Minimum 500-level Hours Required Overall:	12 (8 in CHEM)
Minimum GPA:	3.0

## Learning Outcomes: Teaching of Chemistry, MS

Learning Outcomes for the degree of Master of Science in Chemistry

---

Note: since this Learning Outcomes Assessment focuses solely on the Master of Science in Teaching of Chemistry program, we have only 3 learning outcomes (we have 7 for the PhD program).

1. To have a deep working knowledge of the principles and concepts of contemporary chemistry.
2. To be able to educate students interested in chemical sciences using state-of-the-art technology and pedagogy.
3. To be able to communicate clearly and effectively within and across disciplinary lines.

# Teaching of English as a Second Language, MA

*for the Master of Arts in the Teaching of English as a Second Language*

**head of department:** Hye Suk James Yoon

**director of graduate studies:** Tania Ionin

**director of admissions committee:** Rakesh Bhatt

**department office:** 4080 Foreign Languages Building, 707 South Mathews, Urbana, IL 61801

**phone:** (217) 333-3563

## Graduate Degree Programs in Linguistics

(Including African Languages [Bamana, Lingala, Swahili, Wolof, and Zulu], Arabic, Hindi-Urdu, Modern Greek, Persian, Sanskrit, and Turkish)

Linguistics, MA (p. 1506)

Teaching of English as a Second Language, MA (MATESL) (p. 1815)

Linguistics, PhD (p. 1509)

**optional concentrations:**

Romance Linguistics (p. 1924)|Second Language Acquisition & Teacher Education (p. 1926)

## Admission

Applicants to the MATESL and PhD programs in Linguistics must have completed a bachelor's degree.

For the PhD program in Linguistics, undergraduate preparation should include the study of at least one foreign language; a course equivalent to LING 400 on this campus; and a broad background in the humanities, social sciences, or mathematics.

For the MATESL program, an undergraduate major in linguistics, English, a foreign language, or education is generally recommended, though other majors are also acceptable. Applicants must present a grade point average of at least 3.0 (A = 4.0) for the last 60 hours of undergraduate work. Two years of coursework in a foreign language or the equivalent are also required.

Student may be admitted to the PhD program in Linguistics with or without a prior master's degree in linguistics or a related field. Depending on the student's prior preparation, they may be admitted either into Stage 1 of the PhD or into Stage 2 of the PhD. Students who have completed a master's degree in linguistics or a closely related field may be considered for admission to Stage 2 of the PhD program. Students without an approved prior master's degree will only be considered for admission to Stage 1 of the PhD program. Students admitted to Stage 1 must complete 40 credit hours in the areas listed on the department website, maintain a GPA of 3.5 or better in all core courses, and earn a grade of High Pass on the qualifying examination in order to advance to Stage 2. Students who are admitted directly to Stage 2, but lack any of the core courses required for Stage 1, must complete Stage 1 requirements immediately on entry into the program; the courses will not count toward the 64 hours required for Stage 2 of the PhD.

Applicants to all Linguistics graduate programs should apply online (<https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)) and submit a statement of purpose, three letters of recommendation and a writing sample of 10-20 pages in length. Original transcripts (with English translations if applicable) showing all undergraduate and graduate work completed should be sent to:

SLCL Graduate Student Services

3070 Foreign Languages Bldg.

707 S. Mathews Ave.

Urbana, IL 61801

Graduate Record Examination (GRE) scores are required. The applicant should ask the ETS to submit scores to institution 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 88 (100 preferred) on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Financial Aid

The Linguistics department aims to provide financial aid for all graduate students in the Ph.D. program in Linguistics for up to five years, in the form of fellowships, teaching assistantships, research assistantships, or departmental assistantships. To hold a teaching assistantship non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm>)). Some students receive aid through other units in the University. New applicants receive automatic consideration

for financial aid within the department, including teaching assistantships for the non-Western languages taught in its programs. For details and applications, write to the above address.

For students in the MATESL program, financial assistance is offered to as many qualified applicants as possible, but cannot be awarded to all. A record of extensive experience in teaching English as a second language enhances a candidate's chance of receiving financial assistance during one's first semester. A limited number of University fellowships are available for exceptionally qualified candidates. Teaching assistants (<https://grad.illinois.edu/Admissions/instructions/04c> (<https://grad.illinois.edu/Admissions/instructions/04c/>)) teach students in the Division's ESL program and in the Intensive English Institute.

### ***for the Master of Arts in the Teaching of English as a Second Language***

The MATESL program offers two separate curricula or tracks. One track is designed for candidates whose principal interests are in language pedagogy and related research. The other track encourages candidates to concentrate more heavily on applied research in various aspects of English studies. A detailed description of the two tracks is available at [www.linguistics.illinois.edu/students/grad/matesl/documents/2009-curriculum\\_and\\_cohort\\_system.pdf](http://www.linguistics.illinois.edu/students/grad/matesl/documents/2009-curriculum_and_cohort_system.pdf) ([http://www.linguistics.illinois.edu/students/grad/matesl/documents/2009-curriculum\\_and\\_cohort\\_system.pdf](http://www.linguistics.illinois.edu/students/grad/matesl/documents/2009-curriculum_and_cohort_system.pdf)). Usually candidates can meet all degree requirements in two years.

## **Thesis Option**

Code	Title	Hours
Thesis option is required for students in the research track, optional for students in the pedagogical track.		
Track Coursework: Students must select between the pedagogical track and the research track, and complete course requirements specified for the selected track		40
Language Requirement: Students who have not completed the equivalent of at least two years of study in a language other than their native language as an undergraduate must do so in order to complete the MATESL degree. These courses do not count toward the 40-hour total		
EIL 599	Thesis Research (min/max applied toward degree)	4-8
Total Hours		40

### **Other Requirements <sup>1</sup>**

Requirement	Description
Other requirements may overlap	
Courses that satisfy curriculum prerequisites may be taken, but do not count toward graduation requirements.	
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's graduate programs (<http://www.linguistics.illinois.edu/students/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## **Non-Thesis Option**

Code	Title	Hours
Non-thesis option is available only to students in the pedagogical track.		
Track Coursework: Students must complete course requirements specified for the pedagogical track		40
Language Requirement: Students who have not completed the equivalent of at least two years of study in a language other than their native language as an undergraduate must do so in order to complete the MATESL degree. These courses do not count toward the 40-hour total		
Total Hours		40

## Learning Outcomes: Teaching English as a Second Language, MA

Learning Outcomes for the Master of Arts in the Teaching of English as a Second Language

---

1. Students will receive grounding in core areas of Teaching English as a Second Language.
2. Students will receive grounding in linguistic theory.
3. Students will gain theoretical and practical grounding in pedagogy
4. Students will gain academic oral communication and presentation skills.
5. Students will gain academic writing skills.

# Teaching of Latin, MA

*for the Master of Arts in Teaching of Latin*

**chair of department:** Curtis Perry (FA 2021); Craig Williams (SP 2022)

**director of graduate studies:** Brian Walters

**department website:** <http://www.classics.illinois.edu>

**college website:** <https://las.illinois.edu/>

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**overview of college admissions & requirements:**

**department office:** 4080 Foreign Languages Building, 707 South Mathews Avenue, Urbana, IL 61801

**phone:** (217) 333-1008

**email:** [classics@illinois.edu](mailto:classics@illinois.edu)

The Department of the Classics offers programs of study leading to the Master of Arts in Classics. Within the master's degree program, students may choose from three options: both Greek and Latin (= Classics), Greek, or Latin. In addition, the department offers the Master of Arts in the Teaching of Latin and the Doctor of Philosophy in Classical Philology. A further concentration in Medieval Studies is available to students pursuing graduate degrees in the Classics.

Graduate students in Classics at Illinois may concentrate at different stages of their study on various aspects of the Greek and Latin languages, literatures, and cultures; classical archaeology; ancient philosophy; or, in conjunction with the appropriate department, comparative literature, ancient history, or linguistics. Additional information is available on our website [www.classics.illinois.edu](http://www.classics.illinois.edu) (<http://www.classics.illinois.edu/>).

## Graduate Degree Programs in Classics

Classics, MA (p. 1197)

**concentrations:** Greek (p. 1199) | Latin (p. 1201) | Medieval Studies (p. 1919)

Teaching of Latin, MA (p. 1818)

Classical Philology, PhD (p. 1195)

**concentration:** Medieval Studies (p. 1919)

## Admission

Applicants for admission to the MA in Classics (Greek and Latin) must ordinarily present a minimum of 20 semester hours in one of the two languages (Greek or Latin) and 15 semester hours in the other language; candidates for admission to the MA with specialization in either Greek or Latin, or the MAT in Latin, must ordinarily present at least 20 semester hours in the relevant language. Previous work in ancient history, ancient art and archaeology, philosophy, literary criticism, or linguistics is desirable.

Applicants should apply online ([www.grad.illinois.edu/admissions/apply](http://www.grad.illinois.edu/admissions/apply) (<http://www.grad.illinois.edu/admissions/apply/>)) and submit a personal statement of 2-3 pages, a resume or CV, transcripts showing all undergraduate and graduate work completed, and a writing sample of approximately 20 pages (one or two papers) that showcases the applicant's ability to work in the original classical languages and incorporates relevant scholarship as appropriate. Three letters of recommendation are also required.

Graduate Record Examination (GRE) scores are required and should be submitted to institution code 1836. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) and must score at least 79 on the internet-based test (iBT); they must also pass the speaking sub-section of the iBT with a minimum score of 24 (see [www.grad.illinois.edu/Admissions/instructions/04c](http://www.grad.illinois.edu/Admissions/instructions/04c) (<http://www.grad.illinois.edu/Admissions/instructions/04c/>)). Applications are accepted for fall admission only. Application questions may be directed to SLCL Graduate Student Services at [slclgradservices@illinois.edu](mailto:slclgradservices@illinois.edu).

## Licensure

Students wishing to add Illinois licensure in Latin to an MAT, M.A. in Latin, or Ph.D. must apply to the Foreign Language Teacher Education Program (<http://www.flte.illinois.edu>).

In order to receive licensure, students must complete an M.A. in Classics with a concentration in Latin, an M.A. in Classics with a concentration in Greek and Latin, or an M.A. in the Teaching of Latin.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program, and almost all students teach. Non-native English speakers must first pass a test of their oral English ability (see [www.grad.illinois.edu/admissions/taengprof.htm](http://www.grad.illinois.edu/admissions/taengprof.htm) (<http://www.grad.illinois.edu/admissions/taengprof.htm/>)).

## Faculty Research Interests

Greek and Latin literature of all periods; gender and sexuality; Latin poetry of the imperial period; Greek historiography and ethnography; Greek and Roman drama; reception of Classics, especially in film; animal studies; pedagogy. For further details see [www.classics.illinois.edu/people/](http://www.classics.illinois.edu/people/) (<http://www.classics.illinois.edu/people/>)

## Facilities and Resources

We have a renowned university library which boasts the second largest number of volumes among US university libraries after Harvard. Housed within the main library building is our first-rate Classics collection (see [www.library.illinois.edu/clx/](http://www.library.illinois.edu/clx/) (<http://www.library.illinois.edu/clx/>)) with over 60,000 volumes on open shelves. The University of Illinois Library's Rare Book Room houses the Turyn Archive of Greek manuscript photographs and the American Center of the International Photographic Archive of Papyri. The Department of the Classics also publishes the widely circulating peer-reviewed journal *Illinois Classical Studies* and its Supplements. The Krannert Art Museum and the Spurlock Museum of World Cultures have outstanding collections of ancient vases and other artifacts.

## Financial Aid

University fellowships are available for the academic year. Teaching assistantships are available for both the academic year and Summer Session II.

### *for the Master of Arts in Teaching of Latin*

Code	Title	Hours
16 hours in Latin in regular courses, including 411, with at least 12 hours at the 500 level		20
CLCV 550	Intro to Teaching of Classics	4
Education courses		4

## Learning Outcomes: Teaching of Latin, MA

Learning Outcomes for the Master of Arts in Teaching of Latin

1. Students are able to read and translate classical Latin prose and poetry and have advanced knowledge of Latin grammar.
2. Students are familiar with methods of research in Classics and can use these to generate new ideas.
3. Students are broadly familiar with the history, art, and archaeology of the Greco-Roman world and demonstrate an understanding of ancient cultural differences.
4. Students are familiar with multiple approaches to teaching the Latin language and Roman culture.
5. As a result of practical, hands-on experience teaching the Latin language and/or Roman culture, students are ready for careers in K-12 teaching.

# Teaching of Mathematics, MS

for the Master of Science in Teaching of Mathematics

**department chair:** Vera Hur

**director of graduate studies:** Yuliy Baryshnikov

**overview of admissions & requirements:** <https://math.illinois.edu/admissions/graduate-program-mathematics-admissions#MS-TeachingMath> (<https://math.illinois.edu/admissions/graduate-program-mathematics-admissions/#MS-TeachingMath>)

**phone:** (217) 333-5749

**email:** [math-grad@illinois.edu](mailto:math-grad@illinois.edu)

The MS in the Teaching of Mathematics is intended for those who wish to teach at the high school or community college level. It does not lead to certification to teach in public schools. The program requires 32 credit hours and can normally be completed in 18 months. Applications are accepted for Fall semester.

A teaching assistantship and full tuition waiver (plus partial fee waiver) will be offered for three semesters to all admitted applicants who are native speakers of English or satisfy the English Proficiency Requirement for International Teaching Assistants (<http://www.grad.illinois.edu/admissions/taengprof.htm>).

degrees:

Physics, MS (p. 1673)

Physics, PhD (p. 1675)

**optional concentrations:**

Computational Science and Engineering (p. 1892)

The Department of Physics offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in Physics and Master of Science in Teaching Physics. The Department is actively developing a new paradigm for graduate physics education and research for the 21st century, aimed at enhancing interdisciplinary interactions and creating an integrated approach to educational and research training. Outstanding graduate research opportunities are available in many subdisciplines of physics, including condensed matter physics, high energy and nuclear physics, astrophysics, atomic physics, molecular and optical physics, complex systems, quantum information, biological physics, physics education research.

Students may select experimental, theoretical, or computational thesis projects. Multidisciplinary projects are especially encouraged, and, with the consent of other departments, students may earn master's degrees in areas such as materials science and engineering, or computer science, simultaneously with their PhD degrees in physics.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the degree of Master of Science in Teaching of Physics

For additional details and requirements refer to the department's Degree Requirements (<http://physics.illinois.edu/grad/degree-requirements.asp>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

## Requirements

Code	Title	Hours
At least 2 education courses selected in consultation with the Physics Advisor based on the student's interests		8
Elective courses (subject to Other Requirements and Conditions below)		24
Total Hours		32

## Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
A minimum 16 PHYS credit hours, with 8 at the 500 level.	
A maximum of 8 hours of PHYS 597 (or other individual study) may be applied toward the elective course work requirement.	

A minimum of 12 500-level credit hours applied toward the degree.

Minimum GPA: 2.75

## Learning Outcomes: Teaching of Physics

Learning Outcomes for the degree of Master of Science in Teaching of Physics

---

Illinois Physics MS Teaching in Physics graduates will have:

1. a firm foundation in core physics, math, and current physics research topics;
2. an ability to work collaboratively with a diverse team;
3. an ability to teach and mentor others effectively;
4. an understanding of the student's professional and scientific ethical responsibilities;
5. some exposure to modern educational methods; 6) an ability to communicate—both orally and in writing—scientific topics effectively to specialists in the student's research subfield, to scientifically literate non-specialists, and to the general public (outreach).

## Graduate Degree Programs in Agricultural & Biological Engineering

Agricultural and Biological Engineering, MS (p. 1015)

Agricultural and Biological Engineering, PhD (p. 1018)

Technical Systems Management, MS (p. 1824)

Technical Systems Management, MS - Professional Science Master's (p. 1827)

The Department of Agricultural and Biological Engineering offers a graduate degree program which is at the forefront of the application of engineering principles to solve problems of agricultural production, utilization, environmental control, and biological systems and to improve the quality of life.

Students may concentrate study in one of the faculty research interest areas listed below. Supporting course work includes: mathematics; computer science; statistics; engineering mechanics; chemical, civil, electrical, and mechanical engineering; animal science; crop sciences; food science; and other appropriate fields. Opportunity also exists for specializing in

1. computational science and engineering and
2. energy and sustainability engineering within the department's graduate programs via the Computational Science and Engineering (CSE) Option (<http://cse.illinois.edu/education/cse-educational-programs-overview/>) and the Energy and Sustainability Engineering (EaSE) Option (<http://ease.illinois.edu/>)

## Admission

Admission requirements for either master's program include completion of an undergraduate program equivalent to the Agricultural and Biological Engineering (ABE) curriculum (in the case of the ABE M.S.) or the Technical Systems Management (TSM) curriculum (in the case of the TSM M.S.) with at least a 3.0 grade point average (A = 4.0) for the last two years of undergraduate course work. Applicants must submit Graduate Record Examination (GRE) scores.

Admission to the Ph.D. program is limited to individuals who have demonstrated exceptional ability through outstanding performance in obtaining a Master of Science degree and/or through a high degree of technical and professional accomplishment. Candidates must also satisfy entrance requirements for the M.S. degree program.

All applicants whose native language is not English must submit a minimum TOEFL (<http://www.toefl.org/>) score of 88 (iBT), 230 (CBT) or 570 (PBT); or minimum International English Language Testing System (IELTS) (<http://www.ielts.org/>) academic exam scores of 6.5 overall and 6.0 in all subsections. Applicants may be exempt from the TOEFL if certain criteria (<http://grad.illinois.edu/admissions/instructions/04c/>) are met. For those taking the TOEFL or IELTS, full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (<http://linguistics.illinois.edu/students/esl/guidelines/>) based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program. For details of expectations, see the department's Graduate Handbook (<http://abe.illinois.edu/graduate/handbook/>).

## Faculty Research Interests

Current research interests of the faculty include off-road equipment engineering (robotics and machinery automation, remote sensing and precision agriculture, machinery management systems, pesticide application technology, engines and biofuels); soil and water resources (hydrology, erosion and

sediment transport, water management, wetlands, and water quality); bioenvironmental engineering (building environment and energy conservation, air quality, renewable energy, biomass to bioenergy conversion, structural analysis and facility design, building materials evaluation, environmental control and ergonomic design for plant, animal, and human housing systems and facilities); food and bioprocess engineering (engineering properties of foods, physical properties of biological products, grain drying, grain quality evaluation, dry-grind corn processing, wet and dry milling, modified bioprocesses for improved co-products, fuel and chemicals, fermentation, and transport phenomenon in biological materials); or electronic and electrical systems (biosensors and controls, energy systems, machine vision, near-infrared spectroscopy applications, bionanotechnology, microfabricated devices, bioconjugation techniques, transcriptional control, modeling life support systems, and multiscale biological processes). For more details, visit the department's graduate program Web site. (<http://abe.illinois.edu/graduate/areas/>)

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. For all other students, fellowships, supported by University, College of Agricultural, Consumer and Environmental Sciences, and College of Engineering funds, are available on a competitive basis. A limited number of assistantships, providing both teaching and research experience, are often available on a half-time basis. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching ([http://cte.illinois.edu/programs/ta\\_train.html](http://cte.illinois.edu/programs/ta_train.html)) conducted prior to the start of the semester.

Requirement	Description
Other Requirements and Conditions may overlap	
A minimum of 12 500-level credit hours applied toward the degree, and 8 of those must be in the TSM rubric.	
The non-thesis option is only allowed with departmental approval at or before initiation of graduate study, and a final report is required.	
Minimum GPA:	2.75

<sup>1</sup> For additional details and requirements refer to the department's Graduate Handbook (<http://abe.illinois.edu/graduate/handbook/>) and the Graduate College Handbook (<http://grad.illinois.edu/gradhandbook/>).

**Learning Outcomes: Technical Systems Management, MS**

Learning Outcomes for the degree of Master of Science in Technical Systems Management

- 
1. Obtain subject matter expertise
  2. Identify problems and develop problem-solving abilities / critical thinking
  3. Function effectively on multidisciplinary teams
  4. Demonstrate professional and ethical values
  5. Communicate effectively in written and oral forms
  6. Engage in life-long learning skills
  7. Develop leadership and interpersonal skills
  8. Analyze and interpret data
  9. Understand social and cultural contexts
  10. Develop global perspective
  11. Carry out independent research with expertise in research design, methods, and analysis

For those taking the TOEFL or IELTS, full admission status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for scores greater than 102 (TOEFL iBT), 253 (TOEFL CBT), 610 (TOEFL PBT), or 6.5 (IELTS). Limited status (<http://grad.illinois.edu/admissions/instructions/04c/>) is granted for lesser scores and requires enrollment in English as a Second Language (ESL) courses (<http://linguistics.illinois.edu/students/esl/guidelines/>) based on an ESL Placement Test (EPT) taken upon arrival to campus.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all Ph.D. candidates in this program. For details of expectations, see the department's Graduate Handbook (<http://abe.illinois.edu/graduate/handbook/>).

## Faculty Research Interests

Current research interests of the faculty include off-road equipment engineering (robotics and machinery automation, remote sensing and precision agriculture, machinery management systems, pesticide application technology, engines and biofuels); soil and water resources (hydrology, erosion and sediment transport, water management, wetlands, and water quality); bioenvironmental engineering (building environment and energy conservation, air quality, renewable energy, biomass to bioenergy conversion, structural analysis and facility design, building materials evaluation, environmental control and ergonomic design for plant, animal, and human housing systems and facilities); food and bioprocess engineering (engineering properties of foods, physical properties of biological products, grain drying, grain quality evaluation, dry-grind corn processing, wet and dry milling, modified bioprocesses for improved co-products, fuel and chemicals, fermentation, and transport phenomenon in biological materials); or electronic and electrical systems (biosensors and controls, energy systems, machine vision, near-infrared spectroscopy applications, bionanotechnology, microfabricated devices, bioconjugation techniques, transcriptional control, modeling life support systems, and multiscale biological processes). For more details, visit the department's graduate program Web site. (<http://abe.illinois.edu/graduate/areas/>)

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. For all other students, fellowships, supported by University, College of Agricultural, Consumer and Environmental Sciences, and College of Engineering funds, are available on a competitive basis. A limited number of assistantships, providing both teaching and research experience, are often available on a half-time basis. All applicants, regardless of U.S. citizenship, whose native language is not English and who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8 on the speaking subsection of the IELTS. For students who are unable to take the iBT or IELTS, a minimum score of 4CP is required on the EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), offered on campus. All new teaching assistants are required to participate in the Graduate Academy for College Teaching ([http://cte.illinois.edu/programs/ta\\_train.html](http://cte.illinois.edu/programs/ta_train.html)) conducted prior to the start of the semester.

# Learning Outcomes: Technical Systems Management, PSM

Learning Outcomes for the Master of Science in Technical Systems Management Professional Science Master's Concentration

---

1. Advanced knowledge in the management of technical systems.
2. Introduce students with strong technical undergraduate degrees to business fundamental concepts such as project management, finance, and accounting.
3. Industry experience that gives the students a realistic view of job opportunities.
4. Ability to identify career interests, career path, goals to reach career aspirations, materials and knowledge for a successful internship & career search
5. Ability to communicate science to a non-science audience; ability to work on a team

---

The Master of Science in Technology Management is focused on understanding how to manage the dynamic environment found in a technology-based enterprise. The curriculum covers core business topics tailored to address the issues and challenges inherent in companies that depend on technology. The course work of this intensive 12-month long program includes product development, marketing, simulation and risk analysis, finance, and strategy, as well as managing processes, intellectual property, innovation, human resources, and an option of an internship or curricular practical training - all focusing on technology. This is an intensive program for those who use, deploy, shape, or create technology.

In addition to formal coursework, students participate in a series of management development seminars, which provide an overview of American business concepts and practices. Business and industry field trips, seminars with American executives, and other special activities provide another dimension to the program.

Currently, the MSTM program is offering two tracks, Graduate and Advancement. The Graduate Track is designed for students recently graduated from undergraduate programs in the sciences, mathematics, engineering, and business. The Advancement track is designed for career professionals. To reflect the experiential knowledge possessed by members of the Advancement track, coursework requirements are slightly different in each track.

Students have the option of pursuing a concentration within the 40 hours of coursework in one of five areas: Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Information Technology & Control (p. 1916), or Supply Chain Management (<http://catalog.illinois.edu/graduate/bus/concentration/badm/supply-chain-managment/>). Students have the option of pursuing an internship in their first or third semester, depending on the track admitted to.

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Finance (p. 1909), Supply Chain Management (p. 1930)

Business Analytics, MS (p. 1169)

Management, MS (p. 1514)

**with optional concentrations:** Business Data Analytics (p. 1886), Finance, (p. 1909) Corporate Governance & International Business (p. 1894)

Technology Management, MS (p. 1830)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Finance (p. 1909), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Business Administration, PhD (p. 1166)

### Minors:

Information Technology & Control (p. 1984)

Corporate Governance & International Business (p. 1971)

Supply Chain Management (p. 1998)

### Concentrations:

Business Data Analytics (p. 1886)

Corporate Governance & International Business (p. 1894)

Information Technology & Control (p. 1916)

Supply Chain Management (p. 1930)

### Certificates:

Digital Marketing, CERT (p. 1940)

Entrepreneurship & Strategic Innovation, CERT (p. 1942)

Financial Management, CERT (p. 1944)

Global Challenges in Business, CERT (p. 1946)

Managerial Economics & Business Analysis, CERT (p. 1948)

Strategic Leadership Management, CERT (p. 1953)

Value Chain Management, CERT (p. 1954)

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

## Admission

Admission to the MS in Technology Management program requires an undergraduate degree with a scholastic average of at least B for the last 60 hours, three letters of recommendation, and a statement of career goals. Applicants whose native language is not English are also required to submit scores from the Test of English as a Foreign Language (TOEFL), CBT, iBT or IELTS. Candidates must achieve the University minimum scores on these examinations (currently 550 on the paper-based TOEFL or 213 on the computer-based TOEFL or 79 on the iBT).

## Faculty Research Interests

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The Gies College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

## Financial Aid

The M.S. in Business Administration, the M.S. in Management, the M.S. in Strategic Brand Communication, and the M.S. in Technology Management do not provide assistantships.

**department office:** 4-122 Krannert Center for the Performing Arts, 500 South Goodwin Avenue, Urbana, IL 61801

**phone:** (217) 333-2371

**email:** [theatre@illinois.edu](mailto:theatre@illinois.edu)

A full-time student can complete this program in one academic year.

## Graduate Degree Programs in Theatre

Theatre, MA (p. 1833)

Theatre, MFA (p. 1835)

**concentrations:** Acting (p. 1836)|Design & Technology (p. 1838)

Theatre, PhD (p. 1840)

## Admission

Candidates should apply to one of the ten graduate areas offered: Master of Fine Arts in Theatre with specialization in acting, costume design, costume technology, lighting design, scenic design, sound design and technology, stage management, or scenic technology; the Master of Arts in Theatre with specialization in theatre history; or the Doctor of Philosophy in Theatre with specialization in theatre history. All applicants should present transcripts documenting undergraduate or graduate study of theatre practice, dramatic literature, and theatre history with a cumulative grade point average in these subjects of at least 3.0 (A = 4.0). Applicants whose first language is not English must submit recent Test of English as a Foreign Language (TOEFL) scores; the current minimum score for consideration is 550 on the paper-based test (213 on the computer-based version).

Candidates for the M.F.A. degree must demonstrate talent in theatrical performance or production by audition or by the presentation of a portfolio of their work to an admissions committee of the faculty, either on campus or at one of the regional University/Resident Theatre Association (U/RTA) audition sites. M.F.A. candidates are admitted in the fall term only. The M.F.A. acting program accepts applications only every three years; the next academic years in which applications will be accepted are 2020-2021 for Fall 2021 admission.

Master's and doctoral candidates should present records of at least a 3.0 grade point average in all subjects studied at the undergraduate and graduate levels, supply 1-2 samples of their scholarly writing, and submitting recent Graduate Record Examination (GRE) scores is recommended. In addition to the Test of English as a Foreign Language (TOEFL) scores required of all foreign students, master's and doctoral candidates whose first language is not English are encouraged to submit scores of the Test of Written English (TWE). Ph.D. candidates should hold a master's degree in theatre or in a related field. Master's and doctoral candidates are normally admitted in the fall term.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

Final Exam/Dissertation Defense Required	Yes
Dissertation Deposit Required	Yes
Minimum GPA:	3.0

<sup>1</sup> For additional details and requirements refer to the department's Graduate Programs and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Theatre, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Theatre

1. Students will engage the critical and aesthetic aspects of theatrical performance in a variety of historical periods and global contexts.
2. Students will develop projects within their own areas of specialization, drawing on dramatic literature and criticism, theatre history, performance theory, and performance research methods.
3. Students will combine theory and practice in the study and production of theatrical performance.
4. Students will be prepared to offer courses in theatre history, research methods, dramaturgy, and their areas of specialization.
5. Students will be prepared to participate in disciplinary debates through professional academic engagement and performance, including conference papers, book reviews, grant proposals, and creative research projects.

# Theoretical & Applied Mechanics, MS

for the degree of Master of Science in Theoretical & Applied Mechanics

**department head:** Anthony Jacobi (a-jacobi@illinois.edu)

**director of graduate studies:** P (saif@illinois.edu) **etros Sofronis**

**overview of admissions & requirements:** <https://mechanical.illinois.edu/graduate/applying-mechse-graduate-programs> (<https://mechanical.illinois.edu/graduate/applying-mechse-graduate-programs>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply>)

**department website:** <https://mechanical.illinois.edu/>

**program website:** <https://mechanical.illinois.edu/graduate/graduate-degree-programs/ms-programs> (<https://mechanical.illinois.edu/graduate/graduate-degree-programs/ms-programs>)

**department faculty:** <https://mechanical.illinois.edu/people> (<https://mechanical.illinois.edu/people>)

**college website:** <https://grainger.illinois.edu/>

**contact:** Amy Cates (acate2@illinois.edu)

**address:** 168 Mechanical Engineering Bldg, 1206 W Green St, Urbana, IL 61801

**phone:** (217) 300-6722

**email:** mechse-grad@illinois.edu

Prospective students planning to continue for the PhD should apply to the PhD program.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1884) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1890) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

An applicant for admission to the Department of Mechanical Science and Engineering must:

1. Be a graduate of an institution awarding a baccalaureate degree equivalent to that granted by the University of Illinois at Urbana-Champaign;
2. Be adequately prepared for advanced study as demonstrated by his or her previous program of study and scholastic record; and
3. Be recommended for admission by the Department of Mechanical Science and Engineering. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required, and a minimum grade point average of 3.50 (A = 4.00) is required for any previous graduate work completed.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

The Department of Mechanical Science and Engineering accepts MS applications for both Spring and Fall terms.

## Financial Aid

Students admitted to the MS program are eligible for Board of Trustees (BOT) tuition-waiver generating assistantships at the University of Illinois. All applicants whose native language is not English, regardless of US citizenship, who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8.0 on the speaking subsection of the IELTS. Students who are already at Illinois may request to take the on-campus EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), for which the minimum passing score for TA eligibility is 4CP. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) prior to the start of their first semester as a teaching assistant.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in both the ME and TAM PhD programs. The TAM PhD requires that one semester of teaching assistantship be completed during the program.

## Department Research

A new paradigm in research is being created in the department by integrating basic sciences such as biology, chemistry, applied mathematics, and applied physics with the traditional mechanical engineering and engineering mechanics disciplines of fluid mechanics/thermal sciences, solid

mechanics/materials and controls/dynamics. This integration is fostering new directions and discoveries in nanomechanics, nanomanufacturing, biomechanics and computational science and engineering.

The goal of all research in the department is to address critical societal problems in the areas of health, security/defense, energy/environment, manufacturing, and transportation. While the basic function of departmental research is generation of new knowledge, a growing number of projects are prompted by current needs of the state of Illinois, the United States, and the world. For more information, see the department's research Web site (<https://mechanical.illinois.edu/research/>).

MechSE faculty are major participants in activities at the department, college, and university level via research centers and programs that are integral to the MechSE graduate program. For more information, see the department's research centers Web site (<https://mechanical.illinois.edu/mechse-research-centers/>).

MechSE's wealth of research laboratories allows faculty, graduate and undergraduate research assistants, and postdoctoral and visiting scholars to conduct theoretical and experimental investigations of phenomena related to materials behavior, combustion, micro- and nanomechanical systems, controls and dynamics, thermodynamics, biomechanics, and much more. For more information, see the department's research laboratories Web site (<https://mechanical.illinois.edu/research/mechse-laboratories/>).

---

## Other Graduate Programs in the Department of Mechanical Science & Engineering

degree programs:

Mechanical Engineering, MENG (p. 1533)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)

Mechanical Engineering, MS (p. 1535)

Mechanical Engineering, PhD (p. 1538)

Theoretical & Applied Mechanics, PhD (p. 1845)

**optional concentrations for MS and PhD programs:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science & Engineering (p. 1892)

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

*for the degree of Master of Science in Theoretical & Applied Mechanics*

---

A full-time student can usually complete the program requirements in one academic year of study. A student who has an assistantship can usually complete the requirements in one calendar year.

*For additional details and requirements refer to the department's Graduate Program Website (<http://mechanical.illinois.edu/graduate/mechse-graduate-degrees/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).*

---

## Thesis Option

Code	Title	Hours
TAM 599	Thesis Research (min-max applied toward the degree)	4-8
TAM 500	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		24-28
Total Hours		32

## Other Requirements and Conditions

Requirement	Description
MSE 492 Lab Safety Fundamentals	
A minimum of 16 TAM credit hours, with 8 at the 500 level.	
A minimum of 12 500-level credit hours applied toward the degree	
No TAM 599 credit may be applied toward the elective course work requirement.	

A maximum of 4 hours of TAM 597 or ME 597 (or other approved independent study) may be applied toward the elective course work requirement.

Other Requirements and Conditions may overlap

Minimum GPA: 3.0

## Non-Thesis Option

Code	Title	Hours
TAM 500	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Elective courses – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		36
Total Hours		36

## Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
A minimum of 16 TAM credit hours, with 8 at the 500 level.	
A minimum of 12 500-level credit hours applied toward the degree	
A maximum of 4 hours of TAM 597 or ME 597 (or other approved independent study) may be applied toward the elective course work requirement.	
Departmental approval is required to pursue the non-thesis option.	
Minimum GPA:	3.0

# Learning Outcomes: Theoretical & Applied Mechanics, MS

Learning Outcomes for the degree of Master of Science in Theoretical & Applied Mechanics

Illinois MechSE TAM graduates will have:

1. A thorough understanding of the fundamentals of the engineering disciplines, namely, solid mechanics, fluid mechanics, and applied mathematics (core requirements). [MS/PhD]
2. A broad understanding of the various foundations of the engineering disciplines, including computational mechanics, mechanics of materials, biomechanics, dynamics, and nanomechanics (in the PhD program, breadth requirements). [MS/PhD]
3. Ability to identify relevant research subjects, outline strategies of inquiry, and demonstrate potential to bring the relevant research to completion. [MS/PhD]
4. Ability to communicate research results to scientific audience in conferences. [MS/PhD]
5. Ability to document research outcomes comprehensively for publication. [MS/PhD]

# Theoretical & Applied Mechanics, PhD

for the degree of Doctor of Philosophy in Theoretical & Applied Mechanics

**email:** mechse-grad@illinois.edu

The PhD in Theoretical and Applied Mechanics (TAM) in the Department of Mechanical Science and Engineering is one of the only of its kind in the world, offering a rigorous curriculum with structured core and breadth required courses. These course requirements ensure all TAM graduate students develop a strong and broad foundation in mechanics as well as applied mathematics.

Opportunity exists for specializing in i) biomechanics via the Biomechanics (p. 1884) optional graduate concentration, ii) cancer nanotechnology via the Cancer Nanotechnology (p. 1890) optional graduate concentration, and iii) computational science and engineering via the Computational Science & Engineering (p. 1892) optional graduate concentration.

## Admission Requirements

An applicant for admission to the Department of Mechanical Science and Engineering must:

1. Be a graduate of an institution awarding a baccalaureate degree equivalent to that granted by the University of Illinois at Urbana-Champaign;
2. be adequately prepared for advanced study as demonstrated by his or her previous program of study and scholastic record; and
3. be recommended for admission by the Department of Mechanical Science and Engineering. A minimum grade point average of 3.25 (A = 4.00) for the last two years of undergraduate study is required, and a minimum grade point average of 3.50 (A = 4.00) is required for any previous graduate work completed.

Scores on the Graduate Record Examination (GRE) (<http://www.ets.org/>) general test are required of all applicants. Based upon the previous preparation of the student, prerequisite courses may be specified by the advisor, but the credit may not be applied toward a degree.

All applicants whose native language is not English are required to submit TOEFL (<http://www.toefl.org/>) or International English Language Testing System (IELTS) (<http://www.ielts.org/>) scores as evidence of English proficiency. Minimum admission requirements (<https://grad.illinois.edu/admissions/instructions/04c/>) are set by the Graduate College.

The Department of Mechanical Science and Engineering accepts PhD applications for both Spring and Fall terms.

## Financial Aid

Students admitted to the PhD program are eligible for Board of Trustees (BOT) tuition-waiver generating appointments at the University of Illinois, including research assistantships, teaching assistantships, and fellowships. Starting in Fall 2020, Grainger Engineering PhD students in their first five years of enrollment who meet the minimum eligibility requirements (<https://grainger.illinois.edu/academics/graduate/phd-funding-guarantee/>) are guaranteed a funded appointment for fall and spring that includes a full tuition waiver, a partial fee waiver, and a stipend.

All applicants whose native language is not English, regardless of US citizenship, who wish to be considered for teaching assistantships must demonstrate spoken English language proficiency (<http://grad.illinois.edu/admissions/taengprof.htm>) by achieving a minimum score of 24 on the speaking subsection of the TOEFL iBT or 8.0 on the speaking subsection of the IELTS. Students who are already at Illinois may request to take the on-campus EPI test ([http://cte.illinois.edu/testing/oral\\_eng/epi\\_overview.html](http://cte.illinois.edu/testing/oral_eng/epi_overview.html)), for which the minimum passing score for TA eligibility is 4CP. All new teaching assistants are required to participate in the Graduate Academy for College Teaching (<https://citl.illinois.edu/citl-101/teaching-learning/grad-academy-for-college-teaching/>) prior to the start of their first semester as a teaching assistant.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in both the ME and TAM PhD programs. The TAM PhD requires that one semester of teaching assistantship be completed during the program.

## Department Research

A new paradigm in research is being created in the department by integrating basic sciences such as biology, chemistry, applied mathematics, and applied physics with the traditional mechanical engineering and engineering mechanics disciplines of fluid mechanics/thermal sciences, solid mechanics/materials and controls/dynamics. This integration is fostering new directions and discoveries in nanomechanics, nanomanufacturing, biomechanics and computational science and engineering.

The goal of all research in the department is to address critical societal problems in the areas of health, security/defense, energy/environment, manufacturing, and transportation. While the basic function of departmental research is generation of new knowledge, a growing number of projects are prompted by current needs of the state of Illinois, the United States, and the world. Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

---

for the degree of Doctor of Philosophy in Theoretical & Applied Mechanics

---

Candidates for the Doctor of Philosophy degree are required to complete a minimum of 32 graduate hours of course work beyond the bachelor's degree with a minimum grade point average of 3.0.

Acceptance into the doctoral program requires good academic standing and successful completion of a Qualifying Examination (<http://mechanical.illinois.edu/graduate/phd-programs/#PhDTAM>), which is the defense of a scholarly work, such as a master's thesis. A student must also pass an oral preliminary examination based on the proposed thesis work.

For more details of the degree requirements for the Ph.D. program, visit the department's Graduate Program Website (<http://mechanical.illinois.edu/graduate/mechse-graduate-degrees/>) and the Graduate College Handbook (<https://grad.illinois.edu/gradhandbook/>).

## Requirements

Code	Title	Hours
TAM 599	Thesis Research (min-max applied toward the degree)	32-64
TAM 500	Seminar (registration for 1 hour every term while in residence; credit does not apply toward the degree)	0
Elective courses beyond core and breadth – chosen in consultation with advisor (subject to Other Requirements and Conditions below)		0-32

Credit for minimum of 16 hours of TAM breadth courses from a departmental list, or equivalent as evaluated by the Associate Head for Mechanics.

Course work is required from each of the following major areas, totaling 16 hrs: 2 courses total from applied mathematics, fluid mechanics, and solid mechanics, 1 course in mechanics of materials, and at least 1 course in either computational mechanics or experimental mechanics.

Total Hours

96

### Other Requirements and Conditions

Requirement	Description
Other Requirements and Conditions may overlap	
Credit for TAM 531 or 532, 541, 542, 551 or equivalent as evaluated by the Associate Head for Mechanics	
A 25% or more teaching assistantship for at least one semester.	
Continuous registration is required after the preliminary exam and until thesis deposit, while on campus and during semester of final defense.	
MSE 492 Lab Safety Fundamentals	
Ph.D. exam and dissertation requirements:	
Qualifying exam	
Preliminary exam	
Final exam or dissertation defense	
Dissertation deposit	
Minimum GPA:	3.0

## Learning Outcomes: Theoretical & Applied Mechanics, PhD

Learning Outcomes for the degree of Doctor of Philosophy in Theoretical & Applied Mechanics

Illinois MechSE TAM graduates will have:

1. A thorough understanding of the fundamentals of the engineering disciplines, namely, solid mechanics, fluid mechanics, and applied mathematics (core requirements). [MS/PhD]
2. A broad understanding of the various foundations of the engineering disciplines, including computational mechanics, mechanics of materials, biomechanics, dynamics, and nanomechanics (in the PhD program, breadth requirements). [MS/PhD]

# Translation & Interpreting, MA

for the Master of Arts in Translation & Interpreting, On Campus or Online

**Program Website:** <http://www.translation.illinois.edu/>

**Program Director:** Joyce Tolliver

**Program Address:** 4080 Foreign Languages Building  
707 South Mathews Avenue  
Urbana, IL 61801

**Overview of Graduate College Admissions & Requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

The Program in Translation and Interpreting Studies in the School of Literatures, Cultures and Linguistics offers a graduate program leading to the Master of Arts in Translation and Interpreting. Candidates for the master's degree may specialize in Translation for the Professions, Literary and Applied Literary Translation, or Conference and Community Interpreting. Campus-based and online programs are available.

for the Master of Arts in Translation & Interpreting, On Campus or Online

**This degree program can be completed either on campus or online; the program requirements are the same.**

For general policies applying to graduate students, refer to the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

**This degree program can be completed either on campus or online; the requirements are listed below:**

Code	Title	Hours
<b>Core requirements</b>		
TRST 407	Terminology	4
TRST 410	Translation and Interpreting Theory & Practice	4
TRST 500	Translation and Interpretation: Reflective Practice	4
TRST 540	Capstone	4
Specialization: Students must complete 8 hours in one specialization:		8
See Program in Translation and Interpreting Studies webpage ( <a href="https://translation.illinois.edu/academics/masters-program">https://translation.illinois.edu/academics/masters-program</a> ) ( <a href="https://translation.illinois.edu/academics/masters-program/">https://translation.illinois.edu/academics/masters-program/</a> ) for a list of appropriate courses for each specialization.		
Elective courses: See Program in Translation and Interpreting Studies webpage ( <a href="https://translation.illinois.edu/academics/masters-program">https://translation.illinois.edu/academics/masters-program</a> ) ( <a href="https://translation.illinois.edu/academics/masters-program/">https://translation.illinois.edu/academics/masters-program/</a> ) for a list of appropriate courses.		8
Total Hours		32

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	12
Minimum GPA:	2.75

# Learning Outcomes: Translation & Interpretation, MA

Learning Outcomes for the Master of Art in Translation & Interpretation, On-Campus or Online

1. Understanding of theories of and approaches to a variety of translation and interpreting fields
2. Awareness of cultural, ethical, and epistemological aspects of translation and interpreting practices
3. Understanding of and appreciation for language use as a cultural practice
4. Command of technical tools regularly used in translation or interpreting
5. Demonstrated skill in creation, management, and production of an individual project in a specialized subfield (interpreting, literary translation, technical and professional translation)

# Urban Planning, MUP

*for the degree of Master of Urban Planning in Urban Planning*

**department head:** Rolf Pendall

**director of the MUP program:** Bumsoo Lee

**MUP admissions director:** Andrew Greenlee

**director of the PhD program:** Faranak Mirafteb

**overview of admissions & requirements:** <https://urban.illinois.edu/programs-applying/master-urban-planning/how-to-apply-mup/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** Urban + Regional Planning (<https://urban.illinois.edu/>)

**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>

**college website:** College of Fine & Applied Arts (<https://faa.illinois.edu/>)

**department office:** 111 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820

**phone:** (217) 333-3890

**email:** [urbplan@illinois.edu](mailto:urbplan@illinois.edu)

The professionally accredited M.U.P. program prepares students for careers in planning practice. Such careers involve public service at all levels of government, in private consulting practice, in the nonprofit sector, and in a wide variety of organizations in need of planning services. The program also prepares students for advanced work leading to the Ph.D. degree and a career in teaching and research.

The M.U.P. curriculum consists of a focused set of core courses required of all students, concentration/elective courses, applied workshops, a recommended internship (reduces the hours needed to graduate by 4), and a capstone requirement. The program is purposely flexible so that students may design a program that builds their expertise in a concentration area of practice such as land use and environmental planning, transportation planning, community development for social justice, housing, sustainable design and development, local and regional economic development, and geographic information systems and analysis. The department also has an active international program designed to expose students to planning practices and challenges in Europe, Africa, Latin America, and Asia.

If a student has an undergraduate professional degree in urban planning, up to 16 hours may be waived by petition, and the student must take at least 30 hours of urban and regional planning courses at Illinois.

Please consult the department's website (<https://urban.illinois.edu/programs-applying/master-urban-planning/>) for additional information about the M.U.P. requirements.

## Graduate Degree Programs in Urban Planning

Sustainable Urban Management, MS (p. 1801)

Urban Planning, MUP (p. 1849)

Regional Planning, PhD (p. 1720)

**joint programs:**

Urban Planning, MUP & (p. 2010) Architecture, MARCH (p. 2010)

Urban Planning, MUP & Law, JD (p. 2044)

Urban Planning, MUP & Landscape Architecture, MLA (p. 2021)

Urban Planning, MUP & Public Health, MPH (p. 2038)

Urban Planning, MUP & any Illinois master's degree in related field (p. 2045)

The Department of Urban and Regional Planning offers graduate programs leading to the degrees of Master of Urban Planning and Doctor of Philosophy in Regional Planning as well as Master of Science in Sustainable Urban Management. Students can also apply to obtain a joint degree with another graduate degree simultaneously. The most popular joint degrees are with Architecture, Landscape Architecture, Law and Agricultural and Applied Economics. Joint degrees with any related field are possible. In addition, a small number of the department's Bachelor of Arts in Urban Studies and Planning (B.A.U.S.P.) students participate in the highly selective 4+1 program (<http://catalog.illinois.edu/undergraduate/faa/urban-studies-planning-ba-mup/>) to complete the B.A.U.S.P. and M.U.P. in five years.

## Admission

We welcome applications from people from a wide variety of backgrounds who have demonstrated potential for extraordinary professional achievement. Students seeking a graduate degree in planning come from a diverse range of academic backgrounds. The most frequent are sociology, economics, political science, geography, environmental sciences, architecture, engineering, public administration, urban planning, and public policy, but the natural sciences, humanities, and other fields also provide excellent foundations for graduate study in planning. Prospective students must have a grade point average (GPA) of at least 3.0 computed from the last 60 hours of undergraduate work and any subsequent graduate study, but the average

GPA of admitted students is considerably higher. International applicants must meet additional minimum requirements (<http://www.grad.illinois.edu/admissions/countries/>) based on their country of origin, including the Test of English as a Foreign Language (TOEFL).

We place particular emphasis on each applicant's statement of purpose. Applicants should use the statement to convey information about their backgrounds, professional and personal experience, and intellectual perspectives, in the context of articulating why a Master's in Urban Planning or Ph.D. in Regional Planning from the University of Illinois will help them achieve their professional goals. We seek an applicant pool that represents a mix of racial and ethnic populations, a range of social and economic backgrounds, different philosophies and perspectives, and a variety of life experiences. We are especially interested in applicants with professional experience, though that experience need not be in planning or closely related fields.

Applicants to the Ph.D. program are admitted when they meet the standards of the Department and have a faculty member prepared to serve as their mentor and, if necessary, primary source of financial support. Students interested in pursuing a Ph.D. in Regional Planning should communicate with the Director of the Ph.D. Program and faculty most closely aligned with their interests, in addition to completing the formal application process.

Consult the M.U.P. admissions (<https://urban.illinois.edu/programs-applying/master-urban-planning/how-to-apply-mup/>) and Ph.D. admissions (<https://urban.illinois.edu/programs-applying/phd-regional-planning/how-to-apply-phd/>) web pages for more information.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the doctoral experience in this program and is strongly encouraged for those intending to pursue an academic career.

## Faculty Research Interests

The mission of the Department of Urban and Regional Planning is to teach and conduct research to improve understanding of human settlements and of planning situations. The department's faculty studies the ecological, economic, social, and institutional aspects of urban and regional development, and the theory and practice of planning processes. Planning is viewed as the achievement of outcomes based on interrelated actions over time and space, and close communication and collaboration with a wide range of disciplines and professions is inherent in the department's approach. The basis of that collaboration is a faculty whose academic training and degrees are in architecture, economics, geography, history, law, political science, regional science, and zoology, in addition to planning. Planning faculty and doctoral students pursue interdisciplinary research and make scholarly contributions to planning and fields closely allied with planning.

## Facilities and Resources

The Department of Urban and Regional Planning shares Temple Hoyne Buell Hall (TBH) with the Department of Landscape Architecture and the School of Architecture. The majority of urban planning classes are held in TBH. The department has a 24-hour instructional computing laboratory. Research project and doctoral student workspace is provided in Noble Hall.

The City Planning and Landscape Architecture Reference and Resource Center is located in Funk Library (<http://www.library.uiuc.edu/agx/>). The planning collection is one of the finest in the world, with books and reports gathered since the collection started over eighty years ago.

## Financial Aid

Students compete for departmental and Graduate College fellowships and departmental teaching and research assistantships. Selection is based on the academic achievement and qualifications of the student.

### *for the degree of Master of Urban Planning in Urban Planning*

*For additional details and requirements refer to the department's Web site (<https://urban.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

Minimum Hours Required Within the Unit:	40
Minimum 500-level Hours Required Overall:	16 (12 in UP)
Minimum GPA:	3.0

**Learning Outcomes: Urban Planning, MUP**

Learning Outcomes for the degree of Master of Urban Planning in Urban Planning

To be consistent with our accreditation requirements, we are using the Knowledge, Skills, and Values identified by the Planning Accreditation Board (PAB) as desired outcomes for planning education.

**A.1. General planning knowledge:**

1. Purpose and Meaning of Planning:
2. Planning Theory:
3. Planning Law:
4. Human Settlements and History of Planning:
5. The Future:
6. Global Dimensions of Planning:

**A.2. Planning skills:**

1. ResearchWritten, Oral and Graphic Communication:
2. Quantitative and Qualitative Methods:
3. Plan Creation and Implementation: is able to use Planning Process Methods:
4. Leadership:

**A.3. Values and ethics**

1. Professional Ethics and Responsibility:
2. Governance and Participation:

3. Sustainability and Environmental Quality:
4. Growth and Development: Social Justice:

## Graduate Degree Programs in Comparative Biosciences

VMS - Comparative Biosciences, MS (p. 1853)

VMS - Comparative Biosciences, PhD (p. 1856)

**Joint Degree Programs: Veterinary Medical Scholars Program**

DVM and VMS - Comparative Biosciences, PhD (p. 2046)

---

## Admission

Applicants for graduate study in Comparative Biosciences must have a minimum grade point average of 3.0 (A = 4.0). Grade point averages will be calculated on the last 60 hours of undergraduate studies for those without the D.V.M. degree and on the entire professional curriculum for those with the D.V.M., or equivalent degree. Applicants with a graduate degree or with some graduate coursework will be evaluated on the basis of their graduate work as well as their undergraduate or professional records. Qualifications of students must be approved by the department's Graduate Studies Committee.

The Graduate Record Examination (GRE) is required and must have been taken within the last five years prior to application.

Domestic and international applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). A score of at least 600 on the paper-based test, or 250 on the computer-based test, is required. Those applicants who gain admission on the basis of their academic credentials, but score below 600 on the TOEFL, will be admitted on limited status and required to take the English Placement Test (EPT) upon their arrival. Students are exempt from the TOEFL requirement if they have completed at least two academic years of full-time study at an institution where the language of instruction is English during the five-year period prior to the proposed date of enrollment. Students also need to take the Test of Spoken English (TSE) oral exam and score at least 50.

We are not accepting applications for the M.S./D.V.M. program at this time.

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is suggested as part of the academic work of all M.S. candidates in this program.

## Faculty Research Interests

Experimental models range from stem cells to rodent models to domestic animals, and human patients. Exciting research is being conducted by CB faculty in the areas of:

- **endocrine/reproductive biology**
- **developmental and stem cell research**
- **neurobiology**
- **comparative pharmacology and toxicology**
- **biochemistry**

## Training Programs, Centers and Institutes

Our faculty provide graduate instruction in stem cell research, molecular genetics, pharmacology and toxicology. They also participate in interdisciplinary training programs including the NIEHS-funded Environmental Toxicology Training Program (<http://vetmed.illinois.edu/cb/nihtox/>), the Interdisciplinary Environmental Toxicology Training Program (<https://vetmed.illinois.edu/ietp/>), the Reproductive Biology Program (<https://vetmed.illinois.edu/peer/>), the Neuroscience Program (<http://neuroscience.illinois.edu/>), the Nutritional Sciences Division (<http://www.nutrsci.illinois.edu/>), Beckman Institute (<http://www.beckman.uiuc.edu/>), and the Institute for Genomic Biology (<http://www.igb.illinois.edu/>).

## Financial Aid

A limited number of research and teaching assistantships or fellowship positions are available.

### *for the degree of Master of Science in Veterinary Medical Science - Comparative Biosciences*

VMS - Pathobiology, PhD (p. 1862)

**Pathobiology Research Scholars**

**Joint Degree Program: Veterinary Medical Scholars Program**

DVM and VMS - Pathobiology, PhD (p. 2046)

The Department of Pathobiology offers graduate programs leading to the degree of Master of Science. Areas of specialization include epidemiology, infectious diseases, immunology, virology, bacteriology, anatomic pathology, and clinical pathology. Each specialty area has a core of required courses supplemented by other courses within the Department of Pathobiology and from other departments of the Graduate College. Adequate laboratory and animal holding space to conduct the research of the faculty and graduate students is provided in the Basic Sciences Building, Veterinary Teaching Hospitals, and the Veterinary Research Farm.

---

## Admission

Applicants for graduate study in the Department of Pathobiology must have a minimum grade point average of 3.0 (A = 4.0). Grade point averages will be calculated on the last 60 hours of undergraduate studies for those without the D.V.M. degree and on the entire professional curriculum for those with the D.V.M., or equivalent, degree. Applicants with a graduate degree or with some graduate coursework will be evaluated on the basis of their graduate work as well as their undergraduate or professional records. Qualifications of students must be approved by the department's Graduate Admissions Committee.

The Graduate Record Examination (GRE) is required and must have been taken within the last five years prior to application. Usually, successful candidates score an average in the 80th percentile or higher on each of the three portions of the GRE to be eligible for consideration.

International applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). A score of at least 600 on the paper-based test, or 250 on the computer-based test, is required. Those applicants who gain admission on the basis of their academic credentials, but score below 600 on the TOEFL, will be admitted on limited status and required to take the English Placement Test (EPT) upon their arrival. Students are exempt from the TOEFL requirement if they have completed at least two academic years of full-time study at an institution where the language of instruction is English during the five-year period prior to the proposed date of enrollment. Students also need to take the Test of Spoken English (TSE) oral exam and score at least 50. We are not accepting applications for the M.S./D.V.M. program at this time.

## Specialization in Infectious Diseases

The Department of Pathobiology offers an area of specialization in infectious diseases. The program is flexible and provides the student with proficiency in several areas of epidemiology, immunology, parasitology, virology, bacteriology and molecular pathogenesis of infectious disease and ecology of infectious diseases. Students electing this area should have completed coursework in basic genetics, biochemistry, and microbiology. The program of study for each student in the specialization is decided individually. Interested students should direct inquiries and applications to the department.

## Specialization in Anatomic, Clinical and Zoo Pathology

The Department of Pathobiology offers an area of specialization in anatomic, clinical, and zoo pathology. These programs are residency programs available to qualified graduate veterinarians. Veterinarians entering this specialization will be specifically trained in pathology so they can function as competent and innovative professionals and assume leadership roles in academia, government, and industry. Students electing this area must have completed coursework in the D.V.M. curriculum. The program of study for each student in these specializations is decided individually. Interested students should direct inquiries and applications to the department. Students completing the specialization will be qualified to take the ACVP Board examinations during the program.

## Joint Degree Program

Students accepted into the Veterinary Medical Scholars Program (<http://www.vetmed.illinois.edu/asa/vmsp.html>) can complete a D.V.M. and Ph.D. simultaneously.

## Faculty Research Interests

Expertise in the Department of Pathobiology spans epidemiology, immunology, parasitology, virology, bacteriology and comparative pathology. Through its multidisciplinary approach, the department addresses complex problems in biomedical and veterinary sciences. Research emphasizes multi-host disease systems, with the goal of improving human and animal health at the individual and population levels in a broad social and environmental context. Specific areas of research interest include:

- Molecular mechanisms of infection, host-pathogen interactions, and immunity
- Strategies for vaccine design and disease control
- Experimental pathology
- Molecular virology
- Bacteriology
- Cancer biology
- Spatial and contextual aspects of health and illness, combining human, animal, and ecosystem health
- Mathematical modeling of infectious diseases to promote disease control
- Foreign animal disease prevention, preparedness, and response

## Training Programs, Centers and Institutes

Our faculty provide undergraduate and graduate instruction in molecular virology, infectious diseases, epidemiology, bacteriology, parasitology and anatomic and clinical pathology. They also participate in interdisciplinary training programs including the Emergent Behaviors of Integrated Cellular Systems (EBICS) Center, the Division of Nutritional Sciences (<http://www.nutrsi.illinois.edu/>), Beckman Institute (<http://www.beckman.uiuc.edu/>), and the Institute for Genomic Biology (<http://www.igb.illinois.edu/>). Pathobiology faculty also lead the Anatomical and Clinical Pathology Residency Program (<http://vetmed.illinois.edu/cb/vcpharm.html>), which prepares graduate veterinarians for the certifying examination of the American College of Veterinary Pathologists (ACVP).

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all M.S. candidates in this program.

## Financial Aid

A limited number of teaching and research assistantships or associate positions are available.

Learning Outcomes for the degree of Master of Science in Veterinary Medical Science - Pathobiology

---

Graduates of the MS program in Pathobiology will:

1. Demonstrate comprehensive knowledge of their chosen sub-discipline that forms the foundation of scientific study in infectious diseases of humans and animals.
2. Formulate ideas and concepts and perform hypothesis-driven research beyond the current boundary of knowledge to make substantive contributions to the field.
3. Demonstrate mastery in scientific techniques and methodology and data analysis.
4. Use effective written and oral communication skills to deliver complex ideas to students in classrooms and to general public.
5. Be prepared to perform high-quality research in academia, industry, or government agencies in an ethical and professional manner.

3. Demonstrate mastery in scientific techniques and methodology and data analysis.
4. Use effective written and oral communication skills to deliver complex ideas to students in classrooms and to general public.
5. Be prepared to perform high-quality research in academia, industry, or government agencies in an ethical and professional manner.

## VMS - Veterinary Clinical Medicine, MS

*for the degree of Master of Science in Veterinary Medical Science - Veterinary Clinical Medicine*

---

**dean of the college:** Peter D. Constable

**head of department:** Dennis D. French

**director of graduate studies:** Timothy M. Fan

**overview of admissions & requirements:**

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** College of Veterinary Medicine (<http://www.vetmed.illinois.edu/>)

**department website:** <https://vetmed.illinois.edu/college-organization/veterinary-clinical-medicine/>

**college faculty:**

**college office:** 242 Small Animal Clinic, 1008 West Hazelwood Drive, Urbana, IL 61802

**phone:** 217-333-5310

**email:**

**The Master of Science in VMS-Veterinary Clinical Medicine is not currently accepting applications.**

---

### Graduate Degree Programs in Veterinary Clinical Medicine

VMS-Veterinary Clinical Medicine, MS (p. 1864)

**Veterinary Clinical Medicine Research Scholars**

VMS-Veterinary Clinical Medicine, PhD (<http://catalog.illinois.edu/graduate/veterinary/clinical-medicine-phd/>)

**Veterinary Clinical Medicine Research Scholars**

The Department of Veterinary Clinical Medicine offers a graduate program leading to the degree of Master of Science. The primary goal of graduate programs in veterinary clinical medicine is to prepare students for careers involving research and/or teaching in a specialty area. Graduate work in veterinary clinical medicine may be pursued in several areas, including:

- anesthesiology
- equine medicine and surgery
- equine theriogeneology
- farm animal reproduction (theriogenology)
- medicine
- surgery
- imaging/radiation therapy
- small animal medicine (emergency and critical care, internal medicine)
- small animal surgery
- specialty medicine (cardiology, dentistry, dermatology, oncology, ophthalmology)
- zoological medicine

The department, with the teaching hospital, has facilities and equipment for studying the health and diseases of animals.

After completing graduate work, the student will be able to conduct research both independently and as a team member. Adequate training in planning research projects and writing research proposals will give the student the ability to function with teams of scientists from various areas of the biomedical field. Experience in clinical teaching and literature study will form the basis for the student's development of teaching programs within his or her discipline.

A residency program, designed to train a veterinarian for specialty clinical practice, can be combined with the graduate program. While a graduate program can be accomplished in a shorter time period, the duration of combined programs is usually three years, reflecting the time required to satisfy the objective of each program. Details of the residency program can be obtained from the Program Secretary of the Department of Veterinary Clinical Medicine.

## Admission

Admission requirements include a doctor of veterinary medicine (D.V.M.) degree or equivalent. By petition, non-D.V.M.s may be admitted. Applicants for graduate study in veterinary clinical medicine must have a minimum grade point average of 3.0 (A = 4.0). Admission averages are computed from the entire professional curriculum or from the last 60 hours of undergraduate studies for those without the D.V.M. degree. Applicants with a grade point average between 2.5 and 3.0 may be considered for admission on limited status on the basis of individual merit. Applicants who have a prior graduate degree or who have completed some graduate course work will be evaluated on the basis of their graduate work as well as their under-graduate or professional records. Acceptance of students must be approved by the department's Graduate Committee.

International applicants must submit evidence of satisfactory performance on TOEFL or other tests designed to test proficiency in English. International students must also submit evidence of financial support.

**We are not accepting applications for the M.S./D.V.M. program at this time.**

## Graduate Teaching Experience

Experience in teaching is considered a vital part of the graduate program and is required as part of the academic work of all M.S. candidates in this program.

## Financial Aid

A limited number of research associate positions are available.

### ***for the degree of Master of Science in Veterinary Medical Science - Veterinary Clinical Medicine***

The requirements for this degree include completion of a thesis that conforms to the requirements of the Department of Veterinary Clinical Medicine. The non-thesis option requires departmental approval.

The candidate must complete all requirements of the department and the Graduate College and pass the stipulated examinations. The final M.S. examination consists of a presentation of the thesis in the form of a departmental seminar (VCM 590). The seminar is followed by an oral examination administered by the candidate's committee and the department head. The student must demonstrate the ability to design and conduct independent research in order to be granted the M.S. degree.

*For additional details and requirements refer to the department's graduate degree requirements and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

The requirements for this degree include completion of a thesis that conforms to the requirements of the Department of Veterinary Clinical Medicine. The non-thesis option requires departmental approval.

# Learning Outcomes: Veterinary Clinical Medicine, MS

Learning Outcomes for the degree of Master of Science in Veterinary Medical Science - Veterinary Clinical Medicine

---

Graduates of the MS program in Veterinary Clinical Medicine will:

1. Be life-long learners in careers involving specialty clinical practice, teaching, industry, government, or research related to the field of veterinary medicine
2. Understand the pathologic mechanisms for common clinical disease manifestations encountered in veterinary medicine
3. Develop a foundational molecular knowledge base pertaining to veterinary clinical diseases
4. Cultivate an appreciation for scientific literature evaluation
5. Gain oratory skills required for scientific audience public speaking

# Weather and Climate Risk and Analytics, MS

*for the Master of Science in Weather and Climate Risk and Analytics (online)*

**head of the department:** Robert Trapp

**director of graduate studies:** Nicole Riemer

**overview of admissions & requirements:** <https://atmos.illinois.edu/admissions/graduate-admissions-program> (<https://atmos.illinois.edu/admissions/graduate-admissions-program/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department website:** <http://atmos.illinois.edu>

**department faculty:** <https://atmos.illinois.edu/directory/faculty> (<https://atmos.illinois.edu/directory/faculty/>)

**phone:** (217) 333-2046

**email:** [atmos-sci@illinois.edu](mailto:atmos-sci@illinois.edu)

Students in the Master of Science degree program will focus specifically on Weather and Climate Risk and Analytics. This program is intended as a terminal degree for students already engaged in preparing for professional work in atmospheric science and related fields. It is delivered online and is designed to be completed within two years.

## Graduate Degree Programs in Atmospheric Sciences

Atmospheric Sciences, MS (p. 1093)

Weather and Climate Risk and Analytics, MS (p. 1868) (**online**)

Atmospheric Sciences, PhD (p. 1095)

## Admission

Applications for admission are encouraged from students with bachelor's degrees in atmospheric sciences, meteorology, physics, mathematics, computer science, geography, engineering, oceanography, and related fields. It is strongly recommended that students who intend to study for advanced degrees in atmospheric sciences know the fundamentals of classical physics and applied mathematics. Applicants whose native language is not English are required to take the English Placement Test if accepted. All applicants are required to submit three letters of reference.

## Faculty Research Interests

The atmospheric science degree programs are designed for students interested in research and applications on a wide variety of atmospheric topics. Faculty areas of research include atmospheric chemistry and aerosols; climate modeling, processes, change, and assessments; cloud physics and radiative processes; convective-storm dynamics and modeling; extratropical cyclones and winter storms; precipitation and hydrometeorological processes; satellite and radar remote sensing; tropical meteorology and hurricanes; and weather and climate risk. This research is carried out in national field campaigns, in theoretical studies, and in numerical modeling efforts using a wide range of models.

## Research Facilities

The Department maintains an extensive computing infrastructure, which is a vital component of all of its educational, research and outreach endeavors. A Departmental computer lab is available for hands-on class exercises. Computers and display projectors are provided in classroom areas, and wireless access exists throughout the buildings. The Department hosts a synoptic/GIS laboratory, a data visualization laboratory, and an instruments lab all within the Natural History Building. A high-capacity network connects these to various computing resources on campus as well as within the Department.

The cornerstone of the Department's research computing capabilities is the compute cluster *Keeling*, which currently is composed of several thousand CPU cores and TB of storage. *Keeling* allows for numerical simulation and analysis of atmospheric processes ranging from the formation of individual ice crystals to century long climate simulations over the globe and are used for storing, analyzing and visualizing the results. Our faculty research groups regularly take advantage of high-performance computing resources, including the Blue Waters Petascale computing facility, and the NCAR Supercomputing facility.

We receive and process a large quantity of real-time meteorological data and numerical forecasts from a variety of sources including NOAA, UCAR, peer institutions, and international vendors. These are analyzed and visualized with a variety of tools to aid in the understanding of current weather events and case studies of recent major events.

Finally, the Department has numerous capabilities for meteorological observations and measurement in teaching and research. This includes: a QuantAQ system, used to collect data on air quality; two iMET mobile sounding systems; a trailer-mounted, 915 MHz radar wind profiler, manufactured by Radiometrics; and SCAMP (System for Characterizing and Measuring Precipitation (SCAMP)), which is designed to quantitatively characterize the vertical profile of precipitation particles, measure the particle size distributions and surface precipitation, and also document the scavenging of air particulates by the falling precipitation. SCAMP includes a Micro Rain Radar, an OTT Parsivel Optical Disdrometer, an MPS Particle Spectrometer, a

Geonor T-200B Precipitation Gauge, a TSI Optical Particle Sizer, and a Lufft Ultrasonic Weather Station. All of these instruments can be mounted on a flatbed trailer, and transported by the Department's Ford Cargo Van.

## Financial Aid

More information is available on the Department Website: <https://atmos.illinois.edu/admissions/graduate/graduate-financial-aid> (<https://atmos.illinois.edu/admissions/graduate/graduate-financial-aid/>)

A graduate concentration constitutes a coherent program of study requiring additional breadth or considerable depth of knowledge. A concentration may refer to a subfield within a discipline, or to an interdepartmental and/or interdisciplinary area of knowledge. Concentrations appear on academic transcripts.

Some concentrations (major-based) are only open to a student majoring in the offering department. Other concentrations (floating) are open to students in a broad range of majors. Both types are listed here, with the eligible programs listed below each concentration.

# Accountancy Graduate Concentration

for the Graduate Concentration in Accountancy

**interim chair of department:** Cele Otnes

**director of graduate studies:** Deepak Somaya

**director of admissions committee:** Rakesh Bhatt

**email:** [ba@business.illinois.edu](mailto:ba@business.illinois.edu)

**department website:** <https://giesbusiness.illinois.edu/msba> (<https://giesbusiness.illinois.edu/msba/>)

**department faculty:** <https://business.illinois.edu/people/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://giesbusiness.illinois.edu/>

**department office:** 360 Wohlers Hall, 1206 South Sixth, Champaign, IL 61820

**phone:** (217) 333-0857

The Accountancy concentration is available for:

- Business Administration, MBA (<http://catalog.illinois.edu/graduate/bus/business-administration-mba/>)
- Business Administration, MS (p. 1514)
- Finance, MS (p. 1354)
- Technology Management, MS (p. 1830)

## Graduate Degree Programs in Accountancy

### Graduate Majors:

Accountancy, MAS (p. 983)

**with optional concentrations:** Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Data Analytics in Accountancy (p. 1897), Finance (p. 1354), Information Technology & Control (p. 1916), Real Estate (p. 1923), Supply Chain Management (p. 1930), Taxation (<http://catalog.illinois.edu/graduate/bus/accountancy-mas/taxation/>)

Accountancy, MS (p. 987) **(on campus & online)**

**with optional on campus concentrations:** Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Data Analytics in Accountancy (p. 1897), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Accountancy, PhD (p. 990)

### Graduate Minors:

Accountancy (p. 1984)

### Graduate Concentrations:

Accountancy (p. 1875)

Data Analytics in Accountancy (p. 1897)

## Admission

Applicants will complete a Graduate Concentration in Accountancy application, signed by their graduate advisor and/or graduate program director. The Director of the MSA program will monitor the admission process.

Admission is limited and acceptance is on a competitive basis.

## Faculty Research Interests

Faculty research interests are in the areas of marketing, organizational behavior, organization theory, decision sciences, information systems, strategic management, risk analysis, judgment under uncertainty, international business, production and operations management, accounting, economics, entrepreneurship, and finance. The Gies College of Business houses computer facilities, a behavioral science laboratory, and a separate library. The college maintains contacts with industry and government through its Survey Research Laboratory, Illinois Business Consulting, the Academy for Entrepreneurial Leadership and several professional and scholarly journals edited by its faculty.

This concentration requires twelve graduate hours of coursework. Admission to the concentration requires an application to the Department and admission to one of the following graduate programs:

- Finance, MS (MSFA)
- Technology Management, MS (MSTM)
- Business Administration, MBA (full-time)
- Business Administration, MBA (part-time)
- Business Administration: International Management, MS (MSBA)

Admission is limited and acceptance is on a competitive basis.

**phone:** (217) 333-2730

**email:** ise-grad@illinois.edu

The Advanced Analytics in Industrial & Enterprise Systems Engineering Concentration prepares students to relate the application of engineering approaches and methods to the analysis and management of engineering and business processes which are data-oriented. Students will be able to provide companies and organizations with the ability to convert the massive amounts of data received into useful information that can help shape the decisions companies and organizations make.

Students must be enrolled in the Industrial Engineering MS (p. 1438) (thesis or non-thesis) or Financial Engineering MS (p. 1358) degree programs. After the first enrolled semester the student notifies the ISE Graduate Programs Office of their intention to enroll in the concentration and file a petition to add the Advanced Analytics Concentration with the Graduate College.

## Graduate Programs in Industrial & Enterprise Systems Engineering

degrees:

Industrial Engineering, MS (p. 1438)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Computational Science & Engineering (p. 1892)

Industrial Engineering, PhD (p. 1441)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, MS (p. 1803)

**optional concentrations:**

Computational Science & Engineering (p. 1892)

Systems & Entrepreneurial Engineering, PhD (p. 1806)

Financial Engineering, MS (p. 1358) (**sponsored jointly with Department of Finance**)

**optional concentrations:**

Advanced Analytics in Industrial & Enterprise Systems Engineering (p. 1877) | Data Analytics in Finance (p. 1899)

The Department of Industrial and Enterprise Systems Engineering (ISE) offers graduate programs leading to degrees of Master of Science and Doctor of Philosophy in Industrial Engineering (IE) and Systems and Entrepreneurial Engineering (SEE), as well as (jointly with the Department of Finance) Master of Science in Financial Engineering. The ISE programs offers an approach to industrial engineering and systems engineering, engineering design, and entrepreneurial engineering that crosses disciplinary lines. The IE program is based in advanced studies that focus on operations research, optimization, supply chain management, financial engineering, quality and reliability engineering and production management, with the aim to advance modeling, simulation, analysis and decision making for complex engineering and economic systems. The SEE program is founded on the premise of dual competency in both traditional engineering and systems integration. The SEE program offers flexibility by permitting the student to select from a menu of advanced courses and take a wide range of electives to meet individual career goals. Graduates of these programs are prepared to enter academic and professional engineering positions in universities, industry, government, and private practice.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

for the concentration of Advanced Analytics in Industrial & Enterprise Systems Engineering (on campus & online)

The Advanced Analytics in Industrial & Enterprise Engineering Concentration is available for:

Industrial Engineering MS (p. 1438)

Financial Engineering, MS (p. 1358)

Code	Title	Hours
<b>Advanced Analytics Core:</b>		<b>8</b>
IE 522	Statistical Methods in Finance	
IE 525	Stochastic Calculus & Numerical Models in Finance	
IE 528	Computing for Data Analytics	
IE 529	Stats of Big Data & Clustering	
IE 530	Optimization for Data Analytics	
IE 531	Algorithms for Data Analytics	
IE 532	Analysis of Network Data	
IE 533	Big Graphs and Social Networks	
<b>Advanced Analytics Secondary:</b> <sup>1</sup>		<b>4</b>
IE 400	Design & Anlys of Experiments	
IE 410	Advanced Topics in Stochastic Processes & Applications	
IE 411	Optimization of Large Systems	
IE 510	Applied Nonlinear Programming	
IE 511	Integer Programming	
IE 521	Convex Optimization	
IE 523	Financial Computing	
IE 534	Deep Learning	
<b>Total Hours</b> <sup>2, 3</sup>		<b>12</b>

<sup>1</sup> Complete 4 hours from the Advanced Analytics Secondary Course List or choose an additional 4 hours from the Advanced Analytics Core Course List.

<sup>2</sup> Students to earn a B or better in each concentration course.

<sup>3</sup> These 12 hours may be used toward the major degree requirements.

# African American Studies Concentration

for the Graduate Concentration in African American Studies

**department head:** Ronald Bailey

**overview of admissions & requirements:** <http://www.afro.illinois.edu/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department website:** <http://www.afro.illinois.edu/>

**department faculty:**

**phone:** (217) 333-7781

**fax:** (217) 244-4809

**email:** [aasrp@illinois.edu](mailto:aasrp@illinois.edu)

Those wishing to apply for the concentration must submit three letters of recommendation, as well as a brief personal essay describing their background and career plans and explaining how a concentration in African American Studies enhances their primary program of study. Students must be accepted into the concentration. Students also would be expected to have a faculty member affiliated with the department on their doctoral committee. For admission to the concentration or for more information, please contact DAAS. A student's intent to pursue a graduate concentration must be approved by the student's adviser and graduate program director.

# Astrochemistry Concentration

## for the Astrochemistry Graduate Concentration

**program coordinator:**

**overview of admissions & requirements:** Astronomy Graduate Admissions (<http://www.astro.illinois.edu/academics/graduate/>)

**overview of admissions & requirements:** Chemistry Graduate Admissions (<https://chemistry.illinois.edu/admissions/graduate-admissions/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**program website:**

**department faculty:**

**department office:**

**phone:**

**email:**

## Not accepting applications at this time.

The Astrochemistry graduate concentration (<https://chemistry.illinois.edu/admissions/graduate/astrochemistry-graduate-concentration-not-currently-offered/>) is intended for Ph.D. students in Chemistry or Astronomy who wish to gain the necessary background to perform original research in the emerging interdisciplinary field of astrochemistry. It is an addition to the Chemistry and Astronomy Ph.D. programs at Illinois and offers transcript recognition that will ensure that students are recognized as qualified by scientists in both traditional fields (chemistry and astronomy).

## Astrochemistry Graduate Concentration

Astrochemistry (p. 1880)

**participating programs:** Astronomy, PhD (p. 1089) | Chemistry, PhD (p. 1186)

Astrochemistry is an interdisciplinary area of knowledge at the intersection between chemistry and astronomy. As a few examples, topics of active research in this area include identifying organic molecules in interstellar space, building models of the chemical reactions that occur in interstellar space, laboratory measurements of astronomically important molecules, searching for Earthlike planets using molecular signatures, and understanding the contributions of interstellar molecules to the chemical origin of life. In order to succeed in this field, students require training in both of the traditional disciplines of chemistry and astronomy.

## Admission

As the Astrochemistry graduate concentration (<https://chemistry.illinois.edu/admissions/graduate/astrochemistry-graduate-concentration-not-currently-offered/>) is a part of the Chemistry and Astronomy Ph.D. programs, students should submit applications directly to either the Department of Chemistry or the Department of Astronomy.

## Faculty Research Interests

A variety of faculty members in the departments of Chemistry, Astronomy, and Physics have research interests related to astrochemistry. A partial listing of research groups is available on the Astrochemistry concentration website (<https://chemistry.illinois.edu/admissions/graduate/astrochemistry-graduate-concentration-not-currently-offered/>).

## Facilities and Resources

Facilities that can be utilized by astrochemistry students in their thesis research include a wide variety of laboratory spectroscopy equipment in Chemistry, the Combined Array for Research in Millimeter-wave Astronomy, computing facilities in both Chemistry and Astronomy, and other national and international observational astronomy facilities.

## Financial Aid

Financial aid in the form of teaching assistantships and/or research assistantships is generally provided for admitted students by the Departments of Chemistry and Astronomy.

*for the Astrochemistry Graduate Concentration*

The requirements for the Astrochemistry graduate concentration (<http://astrochemistry.illinois.edu/concentration.php>) are supplemental to the degree requirements of the Ph.D. in either Chemistry or Astronomy, and are summarized in the table below. For this concentration, at least 24 hours of graduate level coursework (at the 400- and 500- level) are required, of which at least 12 must be in chemistry courses and at least 12 in astronomy courses. A list of recommended courses is given on the Astrochemistry concentration website (<http://astrochemistry.illinois.edu/concentration.php>), but students may substitute other courses with consent of the Astrochemistry concentration steering committee. All students

in the concentration are required to take CHEM/ASTR 450, Astrochemistry, which may count toward either the astronomy or chemistry requirements. Students concentrating in astrochemistry should have at least one member from each department on their thesis committee.

Code	Title	Hours
Graduate level Chemistry courses		12
Graduate level Astronomy courses		12
ASTR/CHEM 450	Astrochemistry (required, but may be taken to satisfy required Chemistry or Astronomy courses above)	4
Total Hours		24

### Other Requirements

Requirement	Description
Other requirements may overlap	
At least one member of each department must serve on the PhD thesis committee.	
Thesis research must be related to astrochemistry.	

# Bilingual-Bicultural Education Concentration

for the Graduate Concentration in Bilingual-Bicultural Education (on campus & online)

**head of the department:** Sarah McCarthy

**director of graduate studies:** Gloriana Gonzalez

**graduate admissions information:** Mitzi Koeberlein

**overview of admissions & requirements:** College of Education (<https://education.illinois.edu/programs/grad/how-to-apply?url=/programs/grad>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**department website:** <http://education.illinois.edu/ci> (<http://education.illinois.edu/ci/>)

**program website:** College of Education Programs (<https://education.illinois.edu/faceted-search/programs/>)

**department faculty:** Curriculum & Instruction Faculty (<https://education.illinois.edu/faculty-finder/ci/>)

**college website:** <http://education.illinois.edu/>

**department office:** 142 Education Building, 1310 South Sixth Street, Champaign, IL 61820

**phone:** (217) 244-3542

**email:** [gradservices@education.illinois.edu](mailto:gradservices@education.illinois.edu)

This concentration is available for:

Curriculum and Instruction, EdD (p. 1240)|Curriculum and Instruction, EdM (p. 1243)|Curriculum and Instruction, MA (p. 1246)|Curriculum and Instruction, MS (p. 1249)|Curriculum and Instruction, CAS (p. 1237)

Early Childhood Education, EdM (p. 1258)|

Educational Policy, Organization & Leadership, EdD (p. 1290)|Educational Policy, Organization & Leadership, EdM (p. 1284)|Educational Policy, Organization & Leadership, MA (p. 1287)|

Educational Psychology, EdM (p. 1294)|Educational Psychology, MA (p. 1298)|Educational Psychology, MS (p. 1302)|

Elementary Education, EdM (p. 1318)|

Secondary Education, EdM (p. 1731)|

Special Education, EdM (p. 1775)|Special Education, MS (p. 1778)|

PhD students seeking a concentration should select the SLATE concentration offered by Linguistics instead.

Students may add the concentration to the Curriculum and Instruction online EdM program at the time of admission or petition to add the concentration during their degree program in the majors listed above.

for the Graduate Concentration in Bilingual-Bicultural Education (on campus & online)

Students in the C & I EDM without licensure program will have a 32 hour program including electives and foundations courses. All other Curriculum and Instruction programs allow this concentration to count toward the program hours.

Students pursuing this concentration in Educational Psychology or Special Education will be required to complete the required coursework (20 hours) in excess of their program of study.

Educational Policy, Organization and Leadership students will complete the required coursework (20 hours) in excess of their program of study unless they are in the Learning Design and Leadership concentration. CI 433 and CI 517 may be counted towards both the concentration and the degree.

Code	Title	Hours
CI 433	Foundations of Bilingual Education	4
CI 477	Bilingual/ESL Methods & Materials	4
CI 446	Culture in the Classroom	4
CI 507	Problems & Trends in Special Fields	4
CI 517	Bilingual and English as a Second Language Assessment	4
Total Hours		20

Students seeking a Bilingual or ESL endorsement from ISBE have additional requirements: [https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx/webpage?page\\_level=4.1.4](https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx/webpage?page_level=4.1.4) ([https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx/webpage/?page\\_level=4.1.4](https://cte-s.education.illinois.edu/dotnet/webpages/webpage.aspx/webpage/?page_level=4.1.4))

Students may substitute EIL 486, LING 489, EIL 460, or EIL 411 for C & I courses in the appropriate content areas with permission from the C & I Department.

# Biomechanics Graduate Concentration

*For the graduate concentration in Biomechanics*

**department head:** Mark Anastasio (mfi@illinois.edu)

**director of graduate studies:** Gregory Underhill (bodony@illinois.edu)

**phone:** (217) 333-1867

**email:** bioe-gradprograms@illinois.edu (bioengineering@illinois.edu)

**The Biomechanics Concentration prepares students for collaborative research across the disciplines of engineering, biology, and the sciences. Students must be enrolled in a graduate degree program:**

Bioengineering, MS (p. 1112)|Bioengineering, PhD (p. 1115)|Bioinformatics: Bioengineering, MS (p. 1121)| Electrical & Computer Engineering, MS (p. 1312)|Electrical & Computer Engineering, PhD (p. 1315)|Materials Engineering, MEng (p. 1519)|Materials Science & Engineering, MS (p. 1521)|Materials Science & Engineering, PhD (p. 1524)| Mechanical Engineering, MS (p. 1535)|Mechanical Engineering, MEng (p. 1533)|Mechanical Engineering, PhD (p. 1538)|Theoretical & Applied Mechanics, MS (p. 1842)|Theoretical & Applied Mechanics, PhD (p. 1845)

## Other Graduate Programs in the Department of Bioengineering

degrees:

Bioengineering, MEng (p. 1104)

**concentrations:**

Bioinstrumentation (p. 1105)|Computational Genomics (p. 1107)|General Bioengineering (p. 1108)

Bioengineering, MS (p. 1112)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)

Bioengineering, PhD (p. 1115)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science and Engineering (p. 1892)

concentrations:

Cancer Nanotechnology (p. 1890)

**available for:**

Bioengineering, MS (p. 1112)|Bioengineering, PhD (p. 1115)|Bioinformatics: Bioengineering, MS (p. 1121)|Electrical & Computer Engineering, MS (p. 1312)|Electrical & Computer Engineering, PhD (p. 1315)|Materials Engineering, MEng (p. 1519)|Materials Science & Engineering, MS (p. 1521)|Materials Science & Engineering, PhD (p. 1524)|Mechanical Engineering, MS (p. 1535)|Mechanical Engineering, MEng (p. 1533)|Mechanical Engineering, PhD (p. 1538)|Theoretical & Applied Mechanics, MS (p. 1842)|Theoretical & Applied Mechanics, PhD (p. 1845)

The Department of Bioengineering offers studies leading to the Master of Engineering in Bioengineering (MEng), the Master of Science in Bioengineering (MS), and the Doctor of Philosophy (PhD) in Bioengineering. The Bioengineering Graduate Program provides students with educational and research experiences that integrate the sciences of biology and medicine with the practices and principles of engineering. For the MS and PhD programs, areas of focus include Bio-imaging, Cell & Tissue Engineering, Micro and Molecular Technologies, and Computational Biology.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

*For the Biomechanics Graduate Concentration*

The Biomechanics Concentration requires students to earn a B or better in each concentration course and complete at least 12 hours. Fulfillment of these requirements will be monitored jointly by the graduate coordinators in Bioengineering and in Mechanical Science and Engineering.

Code	Title	Hours
Current course options include:		
ABE 446	Biological Nanoengineering	
BIOE 482	Musculoskel Tissue Mechanics	
ME 483	Mechanobiology	
MSE 474	Biomaterials and Nanomedicine	
PHYS 550	Biomolecular Physics	
TAM 461	Cellular Biomechanics	
Alternate courses may be applicable to the Biomechanics Concentration pending joint approval by the Bioengineering and Mechanical Science and Engineering Graduate Programs.		
<b>Total hours required for the concentration:</b>		<b>12</b>

Requirement	Description
Courses taken toward this concentration will count toward the student's graduate degree.	
Students must notify their department of their plan to pursue this concentration.	
When choosing courses, students must work directly with their department to ensure that all degree requirements will be met.	
Note that students who intend to complete both a Biomechanics Concentration and a Cancer Nanotechnology Concentration may only overlap one course between the two concentrations.	

# Business Data Analytics Graduate Concentration

for the Graduate Concentration in Business Data Analytics

---

**department head:** Cele Otnes

**director of graduate studies:** Jeffrey Loewenstein (MS) and Olga Khessina (PhD)

**email:** [ba@business.illinois.edu](mailto:ba@business.illinois.edu)

Minimum 500-level Hours Required Overall	4
Minimum GPA	2.75

# Business & Public Policy Graduate Concentration

for the Graduate Concentration in Business & Public Policy (on campus)

**chair of department:** Louis Chan

**director of graduate studies:** Martin Widdicks (MSF); Heitor Almeida (PhD)

**director of admissions committee:** Rakesh Bhatt

**email:** grad@business.illinois.edu

**department website:** <https://giesbusiness.illinois.edu/msf> (<https://giesbusiness.illinois.edu/msf/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://giesbusiness.illinois.edu/>

**department office:** 330 Wohlers Hall, 1206 S. Sixth Street, Champaign, IL 61820

**phone:** (217) 244-2239

This concentration is available for on campus students.

## Graduate Degree Programs in Finance

### Majors

Finance, MS (p. 1354)

**optional concentrations for the Finance, MS:** Accountancy (p. 1875), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Data Analytics in Finance (p. 1899), Information Technology & Control (p. 1916)

Financial Engineering, MS (p. 1358) (**administered by** Finance and Industrial & Enterprise Systems Engineering (<https://msfe.illinois.edu/>))

**optional concentration for the Financial Engineering, MS:** Data Analytics in Finance (p. 1899)

Finance, PhD (p. 1356)

### Minors

Finance (p. 1978)

### Concentrations

Data Analytics in Finance (p. 1899)

Finance (p. 1909)

Business & Public Policy (p. 1888)

Real Estate (p. 1923)

Today's business leaders must make strategic decisions in an extremely complex world. In addition to navigating the rapidly changing market forces in their industry, companies operate in an environment that is strongly influenced by regulatory and public policy considerations. Furthermore, our public sector leaders must also understand how market forces can help or hinder alternative solutions to society's most pressing problems. The business and public policy graduate concentration is designed to provide graduate business students a framework for evaluating the impact of public policy on firms and the markets in which they operate.

The concentration is open to these majors in the College of Business but required of none:

Accountancy, MAS (p. 983)

Accountancy, MS (p. 987)

Business Administration, MS (p. 1163)

Finance, MS (p. 1354)

Technology Management, MS (p. 1830)

## Admission

Candidates will apply to the Department of Finance for admission into the concentration. Students wishing to be admitted to the concentration should consult with their program advisor before applying.

for the Graduate Concentration in Business & Public Policy

Code	Title	Hours

**phone:** (217) 333-1867

**email:** bioe-gradprograms@illinois.edu (bioengineering@illinois.edu)

The Cancer Nanotechnology Concentration prepares students for collaborative research across the disciplines of engineering, biology, and the sciences. Students must be enrolled in a graduate degree program:

Bioengineering, MS (p. 1112)|Bioengineering, PhD (p. 1115)|Bioinformatics: Bioengineering, MS (p. 1121)|Electrical & Computer Engineering, MS (p. 1312)|Electrical & Computer Engineering, PhD (p. 1315)|Materials Engineering, MEng (p. 1519)|Materials Science & Engineering, MS (p. 1521)|Materials Science & Engineering, PhD (p. 1524)|Mechanical Engineering, MS (p. 1535)|Mechanical Engineering, MEng (p. 1533)|Mechanical Engineering, PhD (p. 1538)|Theoretical & Applied Mechanics, MS (p. 1842)|Theoretical & Applied Mechanics, PhD (p. 1845)

## Other Graduate Programs in the Department of Bioengineering

degrees:

Bioengineering, MEng (p. 1104)

**concentrations:**

Bioinstrumentation (p. 1105)|Computational Genomics (p. 1107)|General Bioengineering (p. 1108)

Bioengineering, MS (p. 1112)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)

Bioengineering, PhD (p. 1115)

**optional concentrations:**

Biomechanics (p. 1884)|Cancer Nanotechnology (p. 1890)|Computational Science and Engineering (p. 1892)

concentrations:

Biomechanics (p. 1884)

**available for:**

Bioengineering, MS (p. 1112)|Bioengineering, PhD (p. 1115)|Bioinformatics: Bioengineering, MS (p. 1121)|Electrical & Computer Engineering, MS (p. 1312)|Electrical & Computer Engineering, PhD (p. 1315)|Materials Engineering, MEng (p. 1519)|Materials Science & Engineering, MS (p. 1521)|Materials Science & Engineering, PhD (p. 1524)|Mechanical Engineering, MS (p. 1535)|Mechanical Engineering, MEng (p. 1533)|Mechanical Engineering, PhD (p. 1538)|Theoretical & Applied Mechanics, MS (p. 1842)|Theoretical & Applied Mechanics, PhD (p. 1845)

The Department of Bioengineering offers studies leading to the Master of Engineering in Bioengineering (MEng), the Master of Science in Bioengineering (MS), and the Doctor of Philosophy (PhD) in Bioengineering. The Bioengineering Graduate Program provides students with educational and research experiences that integrate the sciences of biology and medicine with the practices and principles of engineering. For the MS and PhD programs, areas of focus include Bio-imaging, Cell & Tissue Engineering, Micro and Molecular Technologies, and Computational Biology.

Opportunity also exists for specializing in energy and sustainability engineering via the

Energy and Sustainability Engineering (EaSE) Graduate Certificate Option (<http://ease.illinois.edu/>)

The Cancer Nanotechnology Concentration requires students to earn a B or better in each concentration course. Students must complete 12 credit hours, including at least one core Cancer course and one core Nanotechnology course. Participants may take a second core Cancer course and/or a second core Nanotechnology course as an elective. Fulfillment of these requirements will be monitored by the graduate coordinator in Bioengineering.

Code	Title	Hours
<b>Core Cancer Classes</b>		
BIOE 498	Special Topics (Section RB, Cancer Science and Technology)	
MCB 400	Cancer Cell Biology	
<b>Core Nanotechnology Classes</b>		
ABE 446	Biological Nanoengineering	
BIOE 416	Biosensors	
ECE/ME 485	MEMS Devices & Systems	
<b>Elective Courses</b>		
FSHN 480	Basic Toxicology	
ME 483	Mechanobiology	
ME 487	MEMS-NEMS Theory & Fabrication	
ME 586	Mechanics of MEMS	
<b>Total hours required for the concentration:</b>		<b>12</b>

Requirement	Description
Courses taken toward this concentration will count toward the student's graduate degree.	
Students must notify their department of their plan to pursue this concentration.	
When choosing courses, students must work directly with their department to ensure that all degree requirements will be met.	
Note that students who intend to complete both a Biomechanics Concentration and a Cancer Nanotechnology Concentration may only overlap one course between the two concentrations.	

# Computational Science & Engineering Concentration

for the graduate concentration in Computational Science & Engineering

**program director:** Luke Olson (lukeo@illinois.edu)

**overview of admissions & requirements:** <https://cse.illinois.edu/cse-educational-programs/graduate-concentration/>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**program faculty:** <https://cse.illinois.edu/about-us/faculty-affiliates/>

**college website:** <https://grainger.illinois.edu/>

**contact:** Bryan Wang (bpcwang@illinois.edu)

**department office:** 1205 W Clark St, Suite 2102, Urbana, IL 61801

**phone:** (217) 300-5696

**email:** [cse@cse.illinois.edu](mailto:cse@cse.illinois.edu)

The heart of Computational Science and Engineering (CSE) is to develop innovative ways of solving engineering and scientific problems using computation as a tool. This new form of science compresses the development process in engineering and engenders knowledge discovery with a new paradigm in many areas because it enables “virtual experiments” and helps focus physical experiments to reduce or eliminate trial-and-error laboratory-based approaches. Further, it teaches students to solve complex problems with prevailing computer technology.

The CSE graduate concentration is designed to provide graduate students at both the Masters and PhD levels with a solid base in problem-solving using computation as a major tool for modeling complicated problems in science and engineering. This concentration is not part of the MEng in Engineering degree program.

This concentration requires students to complete 16 graduate credit hours. Courses taken toward this concentration will count towards the student's graduate degree for students enrolled in:

Actuarial Science, MS (p. 992)  
 Aerospace Engineering, MS (p. 997)|Aerospace Engineering, PhD (p. 1001)  
 Agricultural & Biological Engineering, MS (p. 1015)|Agricultural & Biological Engineering, PhD (p. 1018)  
 Applied Mathematics, MS (p. 1041)|Applied Mathematics: Actuarial Science, MS (<http://catalog.illinois.edu/graduate/las/applied-mathematics-ms/actuarial-science/>)  
 Astronomy, PhD (p. 1089)  
 Atmospheric Sciences, MS (p. 1093)|Atmospheric Sciences, PhD (p. 1095)  
 Bioengineering, PhD (p. 1115)  
 Biology: Ecology, Ethology, and Evolution, MS (p. 1140)|Biology: Ecology, Ethology, and Evolution, PhD (p. 1144)  
 Biophysics & Quantitative Biology, PhD (p. 1152)  
 Chemical Engineering, PhD (p. 1178)  
 Chemistry, PhD (p. 1186)  
 Civil Engineering, MS (p. 1189)|Civil Engineering, PhD (p. 1192)  
 Computer Science, MCS (p. 1220)|Computer Science, MS (p. 1223)|Computer Science, PhD (p. 1226)  
 Electrical & Computer Engineering, MS (p. 1312)|Electrical & Computer Engineering, PhD (p. 1315)  
 Environmental Engineering in Civil Engineering, MS (p. 1346)|Environmental Engineering in Civil Engineering, PhD (p. 1349)  
 Entomology, MS (p. 1341)|Entomology, PhD (p. 1343)  
 Financial Engineering, MS (p. 1358)  
 Geography, MS (p. 1395)|Geography, PhD (p. 1400)  
 Industrial Engineering, MS (p. 1438)  
 Materials Science & Engineering, MS (p. 1521)|Materials Science & Engineering, PhD (p. 1524)  
 Mathematics, MS (p. 1527)|Mathematics, PhD (p. 1529)  
 Mechanical Engineering, MS (p. 1535)|Mechanical Engineering, PhD (p. 1538)  
 Nuclear, Plasma, & Radiological Engineering, MS (p. 1655)|Nuclear, Plasma, & Radiological Engineering, PhD (p. 1658)  
 Physics, PhD (p. 1675)  
 Plant Biology, MS (p. 1679)|Plant Biology, PhD (p. 1682)  
 Statistics, PhD (p. 1795)  
 Systems & Entrepreneurial Engineering, MS (p. 1803)  
 Teaching of Mathematics MS (p. 1820)  
 Theoretical & Applied Mechanics, MS (p. 1842)|Theoretical & Applied Mechanics, PhD (p. 1845)

## Admission

Students wishing to enroll in the Computational Science & Engineering Concentration should follow the enrollment procedure on the program's Web site (<https://cse.illinois.edu/cse-educational-programs/graduate-concentration/>).

*for the graduate concentration in Computational Science & Engineering*

For more information regarding the CSE Graduate Concentration, visit the Computational Science and Engineering website (<http://cse.illinois.edu/>), or contact the CSE Office at 217-333-3247 or [cse@cse.illinois.edu](mailto:cse@cse.illinois.edu).

Code	Title	Hours
Core Course Work: Complete two courses (4 hours each) from the list below.		8
CSE 401	Numerical Analysis	
CSE 402	Parallel Progrmg: Sci & Engrg	
CSE 408	Applied Parallel Programming	
CSE 510	Numerical Methods for PDEs	
CSE 527	Scientific Visualization	
Computing Elective		8
Complete two courses (4 hours each) from the approved list. The application coursework must be distinct from the core courses (no double-counting is allowed).		
<b>Total Hours</b>		<b>16</b>
Additional Requirement		
M.S. and Ph.D. Thesis Requirement: The graduate thesis must have a significant computational component, and the thesis committee must include at least one CSE-affiliated faculty.		
M.S., Non-thesis Requirement: Must complete a 4- hour independent study/Capstone Project course, where the project is supervised by a CSE-affiliated faculty. The independent study project must comprise sufficient computational work, to be designed in consultation with the faculty supervisor overseeing the independent study.		

# Corporate Governance & International Business Graduate Concentration

*for the Graduate Concentration in Corporate Governance and International Business*

---

**interim chair of department:** Cele Otnes

Business Administration, MS (<http://catalog.illinois.edu/graduate/bus/business-administration-mba/>)

Finance, MS (p. 1354)

Management, MS (p. 1514)

---

The concentration in Corporate Governance and International Business is designed to develop leaders in various business fields who understand international business and corporate governance issues within the global economy. It specifically covers topics such as (1) how to create value for multinational partners, employees with diverse cultural backgrounds, and shareholders by designing better organizations and corporate governance structures; and (2) how managerial practices differ in various national/cultural contexts and why managers must be able to understand the strategic, financial, and economic implications of these differences in managing multinational corporations. The concentration will provide a strong foundation in the International Business and Governance area and can be tailored to fit the specific career needs of students.

---

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Finance (p. 1909), Supply Chain Management (p. 1930)

Business Analytics, MS (p. 1169)

Management, MS (p. 1514)

**with optional concentrations:** Business Data Analytics (p. 1886), Finance, (p. 1909) Corporate Governance & International Business (p. 1894)

Technology Management, MS (p. 1830)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Finance (p. 1909), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Business Administration, PhD (p. 1166)

### Minors:

Information Technology & Control (p. 1984)

Corporate Governance & International Business (p. 1971)

Supply Chain Management (p. 1998)

### Concentrations:

Business Data Analytics (p. 1886)

Corporate Governance & International Business (p. 1894)

Information Technology & Control (p. 1916)

Supply Chain Management (p. 1930)

### Certificates:

Managerial Economics & Business Analysis, CERT (p. 1948)

Strategic Leadership Management, CERT (p. 1953)

Value Chain Management, CERT (p. 1954)

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

---

## Admission

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and admission to one of the approved programs. Admission is limited, and acceptance is on a competitive basis.

*for the Graduate Concentration in Corporate Governance and International Business*

---

This concentration requires submission of twelve graduate hours of Corporate Governance and International Business related coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

Course substitutions may be approved by the Department after consultation with the IB & Business Law Area faculty.

In addition to the concentration requirements, students must also complete the requirements of their major degree.

# Data Analytics in Finance Graduate Concentration

## For the Data Analytics in Finance Concentration

**chair of department:** Louis Chan

**director of graduate studies:** Martin Widdicks (MSF); George Pennacchi (PhD)

**email:** grad@business.illinois.edu

**department website:** <https://giesbusiness.illinois.edu/msf> (<https://giesbusiness.illinois.edu/msf/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://giesbusiness.illinois.edu/>

**department office:** 340 Wohlers Hall, 1206 S. Sixth Street, Champaign, IL 61820

**phone:** (217) 244-2239

The Data Analytics in Finance Concentration is open to students enrolled in:

Finance, MS (p. 1354)

Financial Engineering, MS (p. 1358)

The Data Analytics in Finance Concentration is designed to develop graduates who understand:

- how to apply data analytics in a variety of financial contexts including investment and policy decisions;
- critically solve business problems using data-intensive economic and financial information; and,
- synthesize and effectively communicate data-intensive information, findings, and conclusions to others, including supervisors, peers, and clients.

This concentration will not only provide a strong technical knowledge of data analytics topics, but also provide students multiple opportunities to apply this knowledge via experiential learning opportunities.

## Graduate Degree Programs in Finance

## This concentration is available for these programs:

Accountancy, MS (online) (p. 987)

Business Administration, MBA (iMBA) (p. 1156)

Management, MS (online) (p. 1514)

The Digital Marketing Concentration is designed to develop leaders who (1) understand the foundations of the new digital marketing landscape and the application of marketing tools and strategies in the digital environment, (2) employ marketing analytics to visualize and use data, and (3) understand how digital channels are used in marketing. This concentration will not only provide a strong foundational knowledge of digital marketing, but also provide students multiple opportunities to apply this knowledge via experiential learning opportunities.

Exceptions to the required courses will not be permitted.

## Admission

Admission to the concentration requires submitting a Curriculum Change Form to the Department and Graduate College and admission to one of the approved programs. Admission is limited, and acceptance is on a competitive basis.

## Learning Outcomes: Education Administration & Leadership

Learning Outcomes for the Educational Administration & Leadership Concentration

### CAS

1. The student demonstrates knowledge in relevant significant domains in educational leadership and higher education, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
2. The student demonstrates proficiency in incorporating an understanding of issues relating to social justice, democracy, and equity into professional practice.
3. The student demonstrates proficiency in critical and analytical thinking.
4. The student demonstrates proficiency in oral communication skills.
5. The student demonstrates proficiency in written communication skills.

### EdM

1. The student demonstrates knowledge in relevant significant domains in educational leadership and higher education, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
2. The student demonstrates proficiency in incorporating an understanding of issues relating to social justice, democracy, and equity into professional practice.
3. The student demonstrates proficiency in critical and analytical thinking.
4. The student demonstrates proficiency in oral communication skills.
5. The student demonstrates proficiency in written communication skills.

### EdD

1. The student demonstrates knowledge in relevant significant domains in educational leadership and higher education, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
2. The student demonstrates proficiency in incorporating an understanding of issues relating to social justice, democracy, and equity into professional practice.
3. The student demonstrates proficiency in critical and analytical thinking.
4. The student demonstrates proficiency in oral communication skills.
5. The student demonstrates proficiency in written communication skills.
6. The student demonstrates an ability to use scholarly research to improve professional practice.

### PhD

1. The student demonstrates knowledge in relevant significant domains in educational leadership and higher education, including areas such as historical, political, social, legal, and economic contexts in which educational systems operate.
2. The student demonstrates proficiency in incorporating an understanding of issues relating to social justice, democracy, and equity into professional practice.
3. The student demonstrates proficiency in critical and analytical thinking.
4. The student demonstrates proficiency in oral communication skills.
5. The student demonstrates proficiency in written communication skills.
6. The student demonstrates an ability to use scholarly research to improve professional practice.

# Entrepreneurship & Strategic Innovation Concentration

for the Graduate Concentration in Entrepreneurship and Strategic Innovation (online)

The Entrepreneurship and Innovation Concentration provides students with the skills, resources, and experiences necessary to become successful innovators, entrepreneurs, and leaders who tackle grand challenges to change the world.

The Entrepreneurship and Innovation Concentration requires students to complete 12 credit hours of core and elective courses. Participating departments will be responsible for defining how credits from this concentration apply to the student's graduate degree. Students must be enrolled in an eligible engineering graduate degree program from one of the participating departments.

## Students must be enrolled in one of the following graduate degree programs:

Bioengineering, MEng (on campus and online)	Bioengineering: Bioinstrumentation, MEng (on campus & online)
Bioengineering: Computational Genomics, MEng (on campus & online)	Bioengineering: General Bioengineering, MEng (on campus & online)
Engineering: Aerospace Systems Engineering, MEng (On campus & Online)	Electrical & Computer Engineering, MEng (on campus & online)
Engineering: Plasma Engineering, MEng (On campus & Online)	Engineering: Energy Systems, MEng (on campus & online)
Mechanical Engineering, MEng	Engineering: Railway Engineering, MEng

for the graduate concentration in Entrepreneurship & Innovation (on campus and online)

The concentration in Entrepreneurship and Innovation requires students to complete 12 credit hours from a list of select courses and to earn a B or higher in each course. Participating departments will be responsible for defining how credits from this concentration apply to the student's major.

Code	Title	Hours
<b>Core Courses</b>		<b>6</b>
TE 460	Lectures in Engineering Entrepreneurship	
TE 461	Technology Entrepreneurship	
TE 565	Technol Innovation & Strategy	
<b>Elective Courses <sup>1</sup></b>		<b>6</b>
TE 450	Startups: Incorporation, Funding, Contracts, & Intellectual Property	
TE 466	High-Tech Venture Marketing	
TE 510	Advanced Creativity	
TE 566	Finance for Engineering Mgmt	
TE 567	Venture Funded Startups	
Total Hours		12

## Other Requirements

Requirement	Description
A minimum of 4 500-level credit hours.	
Minimum GPA:	3.0
Participating departments will be responsible for defining how credits from this concentration apply to the student's primary program of study.	

<sup>1</sup> *Students may select a different elective course in consultation with their Advisor and the Technology Entrepreneur Center.*

Strategic Leadership Management, CERT (p. 1953)

Value Chain Management, CERT (p. 1954)

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

---

## Admission

Admission to the concentration requires a Graduate Student Request Form submitted to the Department and Graduate College and admission to one of the approved programs. Admission is limited, and acceptance is on a competitive basis.

*for the Graduate Concentration in Information Technology and Control*

---

This concentration requires submission of twelve graduate hours of Information Technology and Control related coursework. Successful completion of the concentration assumes certain knowledge of business and prior coursework.

In addition to the concentration requirements, students must also complete the requirements of their major degree.

Course substitutions may be approved by the Department after consultation with the IT Area faculty.

**email:** [medievalstudies@illinois.edu](mailto:medievalstudies@illinois.edu)

The Program in Medieval Studies offers a graduate concentration in Medieval Studies. Students who are admitted to graduate programs in departments with medieval studies faculty may apply to the concentration by meeting to express interest and to discuss the concentration with the Director of the Program in Medieval Studies. The program offers a flexible curriculum requiring a minimum of 24 hours of graduate-level coursework including advanced training both in the various disciplines of medieval studies and in foundational languages and technical skills appropriate to the field. For complete information about the program and its offerings, see the program's web site: <http://medieval.illinois.edu> (<http://www.medieval.illinois.edu/>).

## Medieval Studies Concentration

 Portuguese, MA (p. 1694)|Portuguese, PhD (p. 1696)  
 Spanish, MA (p. 1767)|Spanish, PhD (p. 1773)

## Admission

Students who are admitted to graduate programs in departments with medieval studies faculty are eligible to enroll in the graduate concentration in Medieval Studies after meeting to express interest and to discuss the concentration with the Director of the Program in Medieval Studies.

## Faculty Research Interests

The research interests of our faculty often overlap disciplinary boundaries. Thus faculty in English and History share interest in medieval drama, performance practices, and the emergence of regional and national identities. Faculty in English, History, and Art History work on the development of historical consciousness and the representation of history in illuminated manuscripts. Faculty in Italian, History, English and French share an interest in gender studies: the history of women and gender; gender and nationalism; the development of gendered subjectivities; conduct literature and mirrors for princes. Another focus is manuscript studies (Art History, Classics, French, English, History, Library Science): history of the book; illuminated manuscripts of the 13th-15th centuries; late medieval manuscript culture; and reading practices. The program has a strength in Late Antiquity and Early Medieval, which draws together faculty in History, Classics, Religious Studies, Speech Communication; themes of particular interest are the society, culture and religion of this period; the social and cultural history of the Roman and Byzantine empires; Byzantine rhetoric; the impact of Barbarian settlements on Medieval Europe; and the survival of the Classical tradition. There is also a growing interest in Mediterranean studies shared by faculty in the History of Architecture, History, Italian, and Classics): art and built environment of the Islamic Mediterranean; the Italian baptistery; and medieval civic squares. Illinois has the strongest program in medieval English in the Big Ten, with particular strengths in Old English; Old and Middle Irish; the theory, practice and teaching of rhetoric; the oral tradition. In addition, our faculty edit the following major journals:

Early Medieval Europe, Illinois Classical Studies, and the Journal of English and Germanic Philology. For more information, visit our faculty listings: <http://www.medieval.illinois.edu/people/faculty/>.

## Centers, Programs, and Institutes

Each Spring we offer an interdisciplinary graduate seminar (one of the requirements of the Certificate) on a topic of broad interest. These seminars are led by one faculty medievalist but are collaborative, drawing on the expertise of faculty in the Program and also visiting scholars from around the world.

## Facilities and Resources

The Program is affiliated with the Worldwide Universities Network ([www.wun.ac.uk](http://www.wun.ac.uk) (<http://www.wun.ac.uk/>)), which connects us to Medieval Studies programs at six UK universities (Bristol, Leeds, Manchester, Southampton, Sheffield, York), three on the continent (Bergen, Oslo, Utrecht), and three American universities (Wisconsin-Madison, Penn State, UC-San Diego). The Program has established partnerships with the Università degli Studi di Milano (Italy) and with Stockholm University (Sweden).

The library at the University of Illinois contains world class research collections in Medieval Studies. It is the largest academic library at a public university with more than 10 million volumes.

## Financial Aid

The Program awards fellowships to help affiliated units recruit top ranked applicants. In addition, financial aid in the form of fellowships and teaching assistantships are available through the individual units cooperating in the Program in Medieval Studies.

### *for the Graduate Concentration in Medieval Studies*

*For additional details and requirements refer to the department's graduate concentration program (<http://www.medieval.illinois.edu/education/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

Code	Title	Hours
Two graduate courses at the 400- or 500-level in Medieval Studies selected by the student and approved by the Advisory Board of Medieval Studies		6-8
MDVL 500	Seminar in Medieval Studies	4
Reading knowledge of a major international medieval language essential to the student's field of specialization, as determined by the student in consultation with a faculty supervisor and with the approval of the Director, as demonstrated by completion of a college-level course with a grade of B or better. Note: Students who fulfill this requirement by taking courses at the 200- or 300-level may be required to take additional coursework at the 400- and 500-level to meet the requirement of 24 hours of graduate-level coursework.		3-4
Reading knowledge of another medieval language with a minimum grade of B, or completion of a one-semester introductory course in a medieval language (such as FR 531 or ENGL 507) with a minimum grade of B, or an equivalent approved by the Medieval Studies Advisory Committee.		4
Thesis Hours Required (min/max applied toward degree)		6-8
Total Hours		24

## Other Requirements

Requirement	Description
Other requirements may overlap	
A dissertation or thesis in the area of Medieval Studies.	
A member of one of the cooperating departments external to the student's home department will be a member of the student's dissertation or thesis committee.	
In addition to the graduate concentration requirements, students must also complete the requirements of their major degree.	

# Philosophy of Education Concentration

# Professional Science Master's

for the Graduate Concentration in Professional Science Master's

**director:** Natalie Bosecker

**director of graduate programs:** Ramona Faith Oswald

**program website:** <https://hdfs.illinois.edu>

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**program office:** 204 Coble Hall, 801 South Wright Street, Champaign, Illinois 61820

**phone:** (217) 265-5363

**email:** PSMdegree@illinois.edu

## Graduate Degree Program

The concentration in Professional Science Master's (PSM) provides masters students with a unique learning experience by combining traditional science, technology, or mathematics disciplines with an integrated professional curriculum focusing on core business knowledge and skills. Traditional depth in the disciplinary field coupled with business-related workplace skills and internship experience prepares graduates for careers in business, government, and not-for-profits. Programs are full-time, non-thesis, cohort-based and are designed to be completed in 16 months.

The Professional Science Master's concentration is available in:

Agricultural Production, MS (p. 1026)

Bioprocessing & Bioenergy, MS (p. 1155)

Food Science & Human Nutrition, MS (p. 1360)

Geography: Geographic Information Science, MS (p. 1398)

Plant Biotechnology, MS (p. 1685)

Technical Systems Management, MS (p. 1827)

## Admission

Candidates for admission to the concentration and associated Illinois M.S. degree must have a bachelor's degree from an accredited institution equivalent to those from the University of Illinois at Urbana-Champaign. Minimum requirements include a grade point average of 3.0 or higher (A = 4.0) for the last 60 hours of undergraduate work and for any graduate study. Graduate Record Examination (GRE) scores are required of all applicants. Test of English as a Foreign Language (TOEFL) scores vary by program. Admission to one of the eligible degree programs listed above is required, and their admission requirements vary by program and may be more rigorous than the minimums presented here. Transfer credit may not be applied to this program due to the cohort nature of this program.

## Financial Aid

Financial assistance in the form of full or partial waiver of tuition and fees – is rarely available to Illinois PSM students (except for statutory waivers). Departments providing assistance that includes waivers must pay Illinois PSM tuition and fees on students' behalf. Illinois PSM students may be eligible for student loans.

for the Graduate Concentration in Professional Science Master's

Specific requirements vary by major degree program, but all programs require a minimum total of 42 graduate hours of work in three areas: a scientific discipline (may include related interdisciplinary fields), business, and an internship.

<sup>1</sup> At least one of the courses selected must be FIN 545 or FIN 546.

# Romance Linguistics Concentration

## for the Romance Linguistics Concentration

**director of program:** Professor José Ignacio Hualde

**email:** jihualde@illinois.edu

**department website:** <http://www.spanport.illinois.edu>

**department faculty:**

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department office:** 4080 Foreign Languages Building, 707 South Mathews, Urbana, IL 61801

**phone:** (217) 333-3390

**fax:** (217) 244-8430

The concentration in Romance Linguistic requires a minimum of 24 hours of graduate-level coursework and it is open to PhD students in the participating Departments.

## Graduate Degree Programs in Romance Linguistics

### Graduate Concentration:

Romance Linguistics (p. 1924)

### participating programs:

French, PhD (p. 1389)|Italian, PhD (p. 1460)|Linguistics, PhD (p. 1509)|Portuguese, PhD (p. 1696)|Spanish, PhD (p. 1773)

## Admission

Ph.D. students in any of the participating Departments within the School of Literatures, Cultures and Linguistics are admitted into the program with the consent of their advisor and the director of the program.

## for the Romance Linguistics Concentration

For additional details and requirements refer to the department's graduate concentration program (<http://www.medieval.illinois.edu/education/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
RMLG 435	Introduction to Romance Linguistics	4
RMLG 559	Sem Romance Ling (3 courses on different topics)	12
Two 400- or 500-level courses in the linguistics of other Romance languages and/or in general linguistics, as approved by the student's advisor		8
<b>Language Requirement:</b>		
Reading knowledge or completion of two semester language courses with a minimum grade of B in two Romance languages other than the student's major language, or an equivalent approved by the Romance Linguistics Advisory Committee. (Language courses taken to satisfy this requirement do not count towards the total number of hours.)		
Total Hours		24

## Other Requirements

Requirement	Description
Other requirements may overlap	
A dissertation or thesis in the area of Romance Linguistics. It must include significant research on at least 2 Romance languages. Whether this requirement is satisfied is determined by the Romance Linguistics Advisory Committee. We expect that a member of one of the cooperating departments external to the student's home department will normally be a member of the student's dissertation committee.	

In addition to the graduate concentration requirements, students must also complete the requirements of their major degree. All hours taken to complete the Concentration in Romance Linguistics count toward the Ph.D.s in Linguistics, Spanish, Italian or Portuguese. Sixteen of the proposed twenty-four concentration hours will count towards coursework for the Ph.D. in French.

# Second Language Acquisition & Teacher Education Concentration

for the Graduate Concentration in Second Language Acquisition & Teacher Education

**director:** Dr. Kiel Christianson

**email:** kiel@illinois.edu

**department website:** <http://www.slate.illinois.edu/>

**department faculty:** SLATE Faculty (<http://www.slate.illinois.edu/people/>)

Portuguese, PhD (p. 1696)

Psychology, PhD (p. 1707)

Spanish, PhD (p. 1773)

Speech and Hearing Science, PhD (p. 1786)

The concentration in SLATE requires a minimum of 28 hours of graduate-level coursework and is open to PhD students in the participating Departments.

## Admission

PhD students in any of the participating Departments are admitted into the program with the consent of their advisor and the Director of the SLATE program. A coursework prerequisite (LING 400 - Introduction to Language Structure) is required, and either it or an equivalent course must be completed prior to admission. If a student believes s/he has completed an equivalent (or more advanced) course than the prerequisite, s/he may submit a petition to the Director of SLATE requesting that course to be substituted for LING 400. Petition forms and instructions, as well as an admission form, are located on the SLATE website, at <http://slate.illinois.edu/students/forms/> (<http://www.slate.illinois.edu/students/forms/>).

Select one of the following: 8

LING 529	Second Lang Acq & Bilingualism
EPSY 487	Principles of Language Testing (EIL/FR/GER/ITAL/PORT/SLS/SPAN 460 Principles of Language Testing)
EIL 587	Seminar in Second Lang Studies (some sections) <sup>1</sup>
EALC 550	Seminar in EALC (some sections) <sup>1</sup>
EPSY 590	Advanced Seminar in Educational Psychology (Section BE: "Discourse Analysis in Second Language Acquisition"; Section N: "Second Language Acquisition, a Developmental Perspective")
CI 499	Issues and Development in Education (some sections, e.g., "Foundations of Bilingual/Multilingual Education") <sup>1</sup>
CI 590	Seminar for Advanced Study of Education (some sections, e.g., "Second Language Reading and Writing") <sup>1</sup>
SPAN 588	Sem Second Lang Learn (EALC/FR/GER/ITAL/LING/PORT/SLS 588 – some sections) <sup>1</sup>
EPSY 563	Theories in Second Language Acquisition (CI/EALC/EIL/FR/GER/ITAL/LING/PORT/SPAN/SLS 584 Theories in SLA)

And other courses as approved by the SLATE Director and Executive Committee <sup>2,3</sup>

#### Research Methods

1. Select one of the following: 4

LING 514	Design and Methodology in Linguistic Research
EPSY 480	Educational Statistics (And one course from 2.)

2. An advanced course in quantitative or qualitative research (selected in consultation with student's advisor) that is related to the student's research topic including (but not limited to) courses on the following list: 4

LING 514	Design and Methodology in Linguistic Research
EPSY 590	Advanced Seminar in Educational Psychology (Section AE: "Theoretical and Methodological Issues in SLA Research")
EPSY 578	Qualitative Inquiry Methods
EPSY 584	Multivar Anlys in Psych and Ed
EPSY 580	Statistical Inference in Education
EPSY 582	Advanced Statistical Methods
CI 509	Curriculum Research (some sections) <sup>1</sup>
EIL 587	Seminar in Second Lang Studies (some sections, e.g., "Language Assessment and Data Handling") <sup>1</sup>
SPAN 588	Sem Second Lang Learn (EALC/FR/GER/ITAL/LING/PORT/SLS 588 – some sections)
SOC 581	Survey Research Methods

And other courses as approved by the Director and the SLATE Executive Committee <sup>2,3</sup>

### Language Requirement

In order to earn a SLATE concentration, students must demonstrate competence in a second language. For native English speakers, a "second language" can be the second language of research/teaching, or, for those concentrating on ESL as the subject of research and teaching, any second language. For non-native speakers, the proficiency in English that is required for admission is considered more than adequate to fulfill this requirement. This requirement is designed to ensure the full appreciation and understanding of what it means to experience the learning of a second language. Second language competence is assessed in a variety of ways, to be determined by the student's advisor.

0

Total Hours

28

### Other Requirements (may overlap)

Requirement	Description
Courses applying toward fulfillment of the SLATE course requirements must be taken for a minimum of 3 graduate credit hours.	
Of the courses required for the SLATE concentration, at least four (4) must be at the 500-level.	
A single course may count toward only one requirement. For instance, LING 550: Sociolinguistics II could fulfill either the Psycholinguistics/ Sociolinguistics requirement OR be counted as one of the courses toward the Linguistics/Language Structure requirement, but not both.	
In addition to the graduate concentration requirements, students must also complete the requirements of their major degree.	
In order to earn a SLATE concentration, the student's dissertation topic must be related to one or more aspects of second language studies. The SLATE Executive Committee verifies that the content qualifies.	

- <sup>1</sup> For courses marked with a 1, only some sections satisfy SLATE requirements. Prior to early registration each semester, the SLATE Executive Committee will issue a list of the specific sections being offered the following semester that will count toward satisfying SLATE course requirements. Current and historic lists are maintained on the SLATE website: [www.slate.illinois.edu/students/courses/](http://www.slate.illinois.edu/students/courses/). (<http://www.slate.illinois.edu/students/courses/>)
- <sup>2</sup> A student may petition the SLATE Executive Committee to have courses taken elsewhere accepted as equivalents for any of the UIUC courses on the list. Before filing such a petition, students are advised to contact the SLATE Director. At least 5 of the required courses must be taken in residence at UIUC. Instructions for the petition may be found here ([https://apps.atlas.illinois.edu/FormBuilderSurvey/Survey/LAS/SLATE/Petition\\_for\\_Course\\_Substitution\\_or\\_Waiver\\_of\\_Requirement/](https://apps.atlas.illinois.edu/FormBuilderSurvey/Survey/LAS/SLATE/Petition_for_Course_Substitution_or_Waiver_of_Requirement/)).
- <sup>3</sup> A student may fill out a petition if s/he believes that a course s/he has taken that is not included in the list for a given category could be substituted for one that is on the list. Instructions for the petition may be found here ([https://apps.atlas.illinois.edu/FormBuilderSurvey/Survey/LAS/SLATE/Petition\\_for\\_Course\\_Substitution\\_or\\_Waiver\\_of\\_Requirement/](https://apps.atlas.illinois.edu/FormBuilderSurvey/Survey/LAS/SLATE/Petition_for_Course_Substitution_or_Waiver_of_Requirement/)).

# Social Sciences & Education Policy Concentration

**This concentration is available for these programs:**

Accountancy, MAS (p. 983)

Accountancy, MS (p. 987) **(on campus)**

Business Administration, MBA (p. 1163)

Business Administration, MS (<http://catalog.illinois.edu/graduate/bus/business-administration-mba/>)

Technology Management, MS (p. 1830)

---

The concentration in Supply Chain Management is designed to develop leaders who understand (1) how to assess the trade-offs and make the decisions necessary to sustain high quality products and services at lower costs while maintaining the flexibility necessary to adapt and to respond to evolving market trends; and (2) how to coordinate and integrate supply chain solutions across various intra -organizational and inter -organizational interfaces in any business or organization. The minor or concentration not only will provide a strong foundation in supply chain management principles and practices, but also can be tailored to fit the specific needs of students interested in careers across a wide variety of industries. This minor or concentration requires submission of twelve graduate hours of Supply Chain Management coursework. Successful completion of the minor or concentration assumes certain knowledge of business and prior coursework.

---

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Finance (p. 1909), Supply Chain Management (p. 1930)

Business Analytics, MS (p. 1169)

Management, MS (p. 1514)

**with optional concentrations:** Business Data Analytics (p. 1886), Finance, (p. 1909) Corporate Governance & International Business (p. 1894)

Technology Management, MS (p. 1830)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Finance (p. 1909), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Business Administration, PhD (p. 1166)

### Minors:

Information Technology & Control (p. 1984)

Corporate Governance & International Business (p. 1971)

Supply Chain Management (p. 1998)

### Concentrations:

Business Data Analytics (p. 1886)

Corporate Governance & International Business (p. 1894)

Information Technology & Control (p. 1916)

Supply Chain Management (p. 1930)

### Certificates:

Digital Marketing, CERT (p. 1940)

Entrepreneurship & Strategic Innovation, CERT (p. 1942)

Financial Management, CERT (p. 1944)

Global Challenges in Business, CERT (p. 1946)

Managerial Economics & Business Analysis, CERT (p. 1948)

Strategic Leadership Management, CERT (p. 1953)

Value Chain Management, CERT (p. 1954)

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

## Admission

Admission to the concentration requires submitting a Curriculum Change Form to the Department and Graduate College and admission to one of the approved programs. Admission is limited, and acceptance is on a competitive basis.

*for the Graduate Concentration in Supply Chain Management*

In addition to the concentration requirements, students must also complete the requirements of their major degree.

# Writing Studies Graduate Concentration

## *for the Writing Studies Graduate Concentration*

**center director & director of graduate studies:** Paul Prior

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**program website:** <http://www.cws.illinois.edu/>

**office manager:** Deborah Carrier

**center office:** 288 English Building, 608 South Wright Street, Urbana, IL 61801

**phone:** (217) 333-3251

**email:** [carrier@illinois.edu](mailto:carrier@illinois.edu)

The Center for Writing Studies (CWS) facilitates research and promotes graduate study in the areas of rhetoric, written composition, language, and literacy. CWS offers graduate students pursuing doctoral degrees in participating departments a program leading to a concentration in Writing Studies. Graduate students pursuing the concentration may be enrolled in the participating departments of English, Communication, Art and Design, Curriculum and Instruction, Library and Information Science, or other departments from across campus with the approval of the student's home department.

## Writing Studies Graduate Concentration

Participating Programs:

Communication, PhD (p. 1206)

Curriculum & Instruction, PhD (p. 1252)

Educational Policy, Organization & Leadership, EdD (p. 1290)

Educational Policy, Organization & Leadership, PhD (p. 1292)

English, PhD (p. 1338)

Information Sciences, PhD (p. 1451)

Graduate students may elect to pursue a concentration in Writing Studies at the PhD level. Students take two foundational courses for the concentration to introduce them to the field, along with two methodology courses to ready them for their research. The first pair of requirements (ENGL 505/CI 563; and one of the following theme-focused courses: ENGL 506/CI 564, ENGL 583/CI 566, ENGL 584/CI 569 or a 500-level course approved for this requirement by the CWS Graduate Programs Committee provides a historical background in Writing Studies while at the same time assuring knowledge of current issues through the reading and analysis of texts that mark the field. The second pair of requirements (ENGL 582/CI 565 and a second approved methodology course) introduces students in depth to strands of writing studies research - historical, empirical, and theoretical. In addition, graduate students take two courses from across the university that focus on the study of writing but that also open up avenues for interdisciplinary inquiry, a key dimension of this area of study. English, Anthropology, Curriculum and Instruction, Library and Information Science, Educational Policy Studies, Sociology, Communication, and Art and Design are among the departments from which students commonly select courses.

## Admission

Students are admitted into graduate study through their home departments and the Graduate College. Students may petition to add the concentration at the point of admission or after they have begun graduate study. The petition to add the concentration must be approved by the Center for Writing Studies, the home department, and the Graduate College. (Please note that the Department of English offers separate MA and PhD tracks specializing in Writing Studies; see the Department of English for admission requirements to these degree programs.) Graduate students planning to concentrate in Writing Studies must fulfill the degree requirements of their home department in addition to the Writing Studies' requirements. In consultation with the home department, students determine whether the Writing Studies' concentration is appropriate for their plan of study. Students should meet with a faculty advisor in their own department and also set up a meeting to discuss their program of concentration with the Director of the Center for Writing Studies.

## Faculty Research Interests

Specific faculty interests include research in literacy studies, digital media, rhetorical studies, globalization and language, disability studies, cultural-historical activity theory, feminist theory and pedagogy, genre theory, technical communication and other areas of study related to the development of language and policy.

## Facilities and Resources

CWS has a multidisciplinary group of core and affiliated faculty. It is home to the campus's Writing across the Curriculum Program and the Writers Workshop, a campus-wide tutorial facility; a sponsor of an electronic discussion group on writing across the curriculum, and a co-founder of the University of Illinois Writing Project (UIWP), a site of the National Writing Project

## Financial Aid

Graduate students may receive assistantships as consultants in the Writers Workshop, as teachers in the Writing Across Media courses, as assistant directors of CWS programs, and as research assistants to CWS faculty.

### for the Writing Studies Graduate Concentration

For additional details and requirements refer to the department's concentration requirements (<http://www.cws.illinois.edu/graduate/phd/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
<b>Theme-focused Writing Studies</b>		<b>8</b>
ENGL 505 & ENGL 583 or ENGL 584	Writing Studies and Topics Writ Pedagogy & Design Topics Discourse and Writing	
Or 500-level course approved for this requirement by the CWS Graduate Programs Committee		
<b>Methods Courses</b>		<b>8</b>
ENGL 582	Topics Research and Writing	
& one other methods course approved by the Director of the Center for Writing Studies		
Elective hours from approved CWS list in consultation with your advisor		8
Total Hours		24

### Other Requirements

Requirement	Description
Other requirements may overlap	
Students must prepare and deliver a lecture based on their research to faculty and students for the CWS Colloquium Series: Graduate Research Forum.	
The dissertation must demonstrably focus on Writing Studies (with a topic approved by the CWS Director) and be guided by CWS-affiliated faculty that serve on the dissertation committee.	

## Learning Outcomes: Writing Studies Concentration

Learning Outcomes for the Writing Studies Graduate Concentration

- 1. The completion of an original and in-depth research project (the dissertation) in a specific field of Writing Studies:** The dissertation (a book-length manuscript required for the doctoral degree) is the ultimate project of the MA/PhD program. The goal of the dissertation is the culmination of coursework and special fields work (see below), but it also goes beyond these preparatory steps. It demonstrates expertise and is comprised of original research that is meant to contribute to the field of Writing Studies and to be a key source for additional publications (articles, chapters, and perhaps a book). The dissertation is necessary for tenure-track academic jobs, and is also valued by alternative-academic (alt-ac) employers as a sign of independent research skills.
- 2. Preparation for teaching writing studies at the college level:** College-level teaching in English demands breadth across the field of study one is hired in, well beyond the expertise on display in the dissertation (e.g., literate practices in university classes), and it also requires preparation and practice in pedagogy and often writing program administration. The former is built out of the foundation of coursework, but is developed more assiduously in the Special Fields Exam which tasks students with reading scholarship in a field more broadly defined than the dissertation's focus. The ProSemin the Teaching of Rhetoric and Composition offers Writing Studies graduate students both a resource for teaching and for doing professional development with writing teachers. Graduate students in Writing Studies typically teach in the Rhetoric program plus other programs (e.g., BTW in English, INFO/WRIT 303; the Writers Workshop).
- 3. Generalist knowledge for the field of English Writing Studies:** Graduate coursework is divided into two parts: MA coursework and PhD coursework. While the dissertation and field exam prepares students to be experts in particular fields, the MA coursework introduces students to key and active areas of theory, research, pedagogy and practice in Writing Studies. Given the interdisciplinarity that marks Writing Studies, MA and PhD students typically take classes that reflect different areas of specialization in English and in other Rhetoric and Writing Studies programs on campus (e.g., Communication, Curriculum and Instruction, Educational Policy, Organization and Leadership). The MA students' preparation to pass from this stage into the PhD program is judged through the application to Stage II of the program, in which the students' portfolios are reviewed by the Graduate Studies Committee. The foreign language requirement is part of this training as well, and it is expected to be finished by application to Stage II.
- 4. Professionalization:** The department has several modes of preparing students for both the professional demands of academia and for the job market for faculty positions. In coursework, students typically write seminar papers that match the demands of scholarly articles published

in journals. On top of this, seminars routinely include practice in preparing and delivering conferences papers and presentations; researching and writing bibliographies of scholarship; doing original archival research; employing ethnographic and other situated research methods; and exploring different genres and media for disciplinary writing. Thus, students enter their dissertation years having had practice in common genres of academic writing. Students also get encouragement and financial support to attend up to two conferences per year. We regularly offer a summer ProSem on the topic of Publication, in which student articles are workshopped with the final assignment to submit them to peer-reviewed journals. This ProSem is taught as a Summer Session I seminar by faculty members who edit important journals. Graduate students in Writing Studies often participate in writing program administration, getting experience in leadership roles in the Rhetoric and/or Professional Writing Programs in English or in the Center for Writing Studies in LAS.

The Accounting Data Analytics Campus Graduate Certificate is designed to develop leaders who understand (1) how to apply data analytics in a variety of accounting and business contexts, (2) critically solve business problems using data-intensive business and accounting information, and (3) synthesize and effectively communicate data-intensive information, findings, and conclusions to other environment-constituents, including supervisors, peers and subordinates, clients, and regulatory agencies. This Campus Graduate Certificate will not only provide a strong foundational knowledge of data analytics, but also provide students multiple opportunities to apply this knowledge.

Students who have successfully completed this certificate may use the certificate to satisfy the following degree requirements, provided they apply and are admitted to the degree program:

12 hours of elective coursework requirements of the iMBA (p. 1156) degree program

12 hours of elective coursework requirements of the iMSM (p. 1514) degree program

12 hours of elective coursework requirements of the iMSA (p. 987) degree program

**optional concentrations:** Bilingual-Bicultural Education (p. 1882)|Digital Learning (p. 1901)

---

This program prepares teachers for grades five through eight. A minimum of 33 semester hours is necessary to obtain the Certificate.

Students pursuing teacher licensure through the Certificate program in the College of Education (COE) must meet requirements for a master's degree. They must have attained a bachelor's degree, have coursework in relevant areas, and meet the admissions criteria for a master's degree.

Students are admitted to Middle Grades Certificate after completion of a bachelor's degree. In order to be recommended for licensure, candidates are required to maintain University of Illinois at Urbana-Champaign and cumulative grade point averages of 3.0 and professional grade point averages of 2.5 (A=4.0). Candidates should consult their adviser or the Council on Teacher Education for the list of courses used to compute these grade point averages. Candidates in teaching licensure programs must maintain a C or better in ALL content and professional education coursework. For teacher education licensure applicable to all curricula, see the Council on Teacher Education.

Licensure requirements are subject to change without notice as a result of new mandates from the Illinois State Board of Education or the Illinois General Assembly.

Students in the Middle Grades Certificate program must complete the courses for a literacy or science endorsement if they do not have the requisite coursework from their undergraduate program. They must complete the professional education coursework.

Students who pursue an EDM in Curriculum and Instruction following completion of this certificate can use this certificate to satisfy most degree requirements for the Masters program. Students pursuing that route will still need to satisfy requirements for foundations courses and a total of 12 credit hours of 500 level coursework.

## Admission

Interested applicants should start at <http://education.illinois.edu/programs/grad> (<http://education.illinois.edu/programs/grad/>). In addition to the application, the applicant is required to submit the following information: a statement of purpose, updated resume, official transcripts from all colleges attended, and three letters of recommendation. Graduate Record Examination (GRE) scores must be submitted for all doctoral applicants. A scholarly writing sample in English, such as a master's thesis, article, or paper, is required for application to a doctoral program. Note: The master's with teacher licensure program only admits students for the fall term.

International applicants must submit TOEFL scores. The Department of Curriculum and Instruction's TOEFL requirement for full status admission is greater than 102; the minimum score for limited status is 550 on the paper-based test, 79 on the internet-based test and 213 on the computer-based test. International applicants must also submit a Declaration and Certification of Finances. Please note: TOEFL or IELTS scores must be less than two years old from the first day of class at the proposed term of entry in order to be valid. In addition, individual academic programs may require a higher score, or evidence of spoken English language proficiency; contact your proposed program of study office (<http://www.grad.illinois.edu/admissions/depts/>) for the minimum TOEFL, TSE, or IELTS requirement for admission. For additional details, refer to the Graduate College Handbook [www.grad.illinois.edu/admissions/instructions/04c](http://www.grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>).

## Faculty Research Interests

For information about specific faculty research interests, current grants, and publications, please visit the Faculty Finder (<https://education.illinois.edu/faculty-finder/>).

## Facilities and Resources

Departmental resources consist of cooperation with Children's Research Center, Center for Small Urban Communities, as well as other resources in the College. Students who are interested in second language acquisition can become a part of the SLATE program. The department is connected to the University of Illinois Writing Project and the following journals: *International Journal of Education & the Arts*, *Journal of Curriculum Studies*, and *American Educational Research Journal*. The department also has available resources and some workshops provided during the academic year. Program areas including DELTA, CREATE, Language & Literacy, and MSE offer discipline-specific resources.

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education (<http://cote.illinois.edu/>) entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college (<https://education.illinois.edu/current-students/graduate/financial-aid/>) and campus. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/funding-jobs/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>). **Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship.**

**phone:** (217) 333-4240

The Strategic Leadership and Management Campus Graduate Certificate is designed to develop leaders who (1) understand how to effectively work with and manage people individually and in teams, (2) understand how organizations are designed and managed, and (3) analyze business situations and formulate and implement strategies to gain and sustain competitive advantage. This Campus Graduate Certificate will not only provide a strong foundational knowledge of team and organizational leadership and strategy, but also provide students multiple opportunities to apply this knowledge.

Students who have successfully completed this certificate may use the certificate to satisfy the following degree requirements, provided they apply and are admitted to the degree program:

12 hours of core coursework requirements of the iMBA (p. 1156) degree program

8 hours of core and 4 hours of elective coursework requirements of the iMSM (p. 1514) degree program

12 hours of elective coursework requirements of the iMSA (p. 987) degree program

## Graduate Degree Programs in Business Administration

### Majors:

Business Administration, MBA (p. 1156) (**online-iMBA**)

Business Administration, MS (p. 1163)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Corporate Governance & International Business (p. 1894), Finance (p. 1909), Supply Chain Management (p. 1930)

Business Analytics, MS (p. 1169)

Management, MS (p. 1514)

**with optional concentrations:** Business Data Analytics (p. 1886), Finance (p. 1909), Corporate Governance & International Business (p. 1894)

Technology Management, MS (p. 1830)

**with optional concentrations:** Accountancy (p. 1875), Business Data Analytics (p. 1886), Business & Public Policy (p. 1888), Finance (p. 1909), Information Technology & Control (p. 1916), Supply Chain Management (p. 1930)

Business Administration, PhD (p. 1166)

### Minors:

## Admissions

The Center for African Studies admits students in the fall term only. Applicants to the Masters degree in African Studies should hold at least a Bachelor's degree from an accredited college or university in the United States or from a recognized institution of higher education abroad. All graduate college admission requirements also apply. The Center does not require the Graduate Record Examination (GRE) scores, but it is highly recommended for students applying for the Foreign Language and Area Studies (FLAS) fellowship. Successful applicants should have a grade point average of at least 3.0 (4.0=A) calculated for the last 60 semester hours of undergraduate course work. International applicants or applicants whose native language is not English must have a minimum TOEFL score of 550 on the paper-based test (PBT) – 213 on the computer-based test (CBT) or 79 on the internet-based test (IBT). For information about the application process and to access both domestic and international student applications, start here: <https://grad.illinois.edu/admissions/apply/>.

For more information about the Center's admission requirements and procedures, and deadlines please visit [www.afrst.illinois.edu/academics/grad/apply/](http://www.afrst.illinois.edu/academics/grad/apply/) (<http://www.afrst.illinois.edu/academics/grad/apply/>).

Students interested in the graduate minor in African Studies must be in good standing in a graduate program, have permission from the major program, and demonstrate an interest in African Studies. For more information, contact Dr. Maimouna Barro ([barro@illinois.edu](mailto:barro@illinois.edu)).

## Faculty Research

The Center for African Studies' has both core and affiliate faculty represented in over 34 units across campus encompassing various disciplines in the humanities and social sciences, as well as in professional schools. The faculty is the backbone of the Center and constitutes the most critical element of the graduate experience. They excel in teaching at all levels and have a strong commitment to innovative research. Both Center faculty and teaching assistants have received numerous college and campus teaching awards. For more information about the Center faculty, please visit: <http://www.afrst.illinois.edu/people/faculty/>

## Facilities and Resources

Established since 1970, the Center for African Studies is one the largest and most dynamic African National resource Centers in the country. The Center promotes excellence in research and teaching on Africa in all disciplines. The Center also exists to increase and disseminate knowledge about Africa to the larger community through various outreach activities to colleges, schools, community groups and businesses. At a time when the university of Illinois is expanding its international dimension, the Center for African Studies is dedicated to promoting a vibrant African Studies program and to fostering an understanding of Africa and African peoples through research, teaching and various Africa-related programs and events.

The Center organizes a wide range of activities including conferences, lectures, film festivals, art exhibits, language institutes, workshops, and

symposia. In addition, the Center regularly hosts visitors from the United States and abroad, namely Africa, and is strongly committed to developing linkages with individuals and institutions based in the African continent.

In 2012, the University of Illinois Library reorganized its international and area studies units into one large International and Area Studies Library (IASL) in an excellent renovated space. This new unit includes the African Studies library and other world areas library collections. The University Library has supported a full-time African Studies Bibliographer since 1969, and has provided the necessary acquisitions, cataloging, and processing staff since then.

The African Studies collection include over 354,000 items in all formats, with more than 300,000 in printed volumes and in English and French and a smaller number in Portuguese, German and other European languages. The Library adds about 900 items written in African languages each year.

About 16,000 volumes written in Arabic deal with topics related to Africa, and more than 7000 are in Amharic, Bamana, Hausa, Lingala, Swahili, Tigrinya, Wolof, and Zulu. There are roughly 2,900 serials and 46,000 maps, of which 2849 have been digitized, as well as 12,000 microforms, and more than 800 audio-visual materials. The collection covers all African countries and includes materials in about 80 African languages. Priority countries for collecting include: Burkina Faso, Côte d'Ivoire, Democratic Republic of the Congo, Egypt, Eritrea, Ethiopia, Gambia, Kenya, Morocco, Mozambique, Nigeria, Senegal, South Sudan, South Africa, Tanzania, Tunisia, Zambia, and Zimbabwe. The collection is interdisciplinary and concentrated mainly in the humanities, social sciences, human rights and law, and agriculture. Our large collection of primary source materials, covering all of Africa, includes 120,000 pages of Arabic manuscripts and thousands of United States, United Kingdom, and African government documents. The Africana film collection is one of the finest in the US, and our African film database provides access to more than 800 films from or about Africa. UI's rich museum collections include the Krannert Art Museum and the Spurlock Museum and hold over 10,000 African artifacts. The museums present interesting exhibits and host African performances. Teacher kits on various African topics are also provided by the Krannert Art Museum.

The African studies bibliographer runs the Africana library and teaches IS 530, one of the Center's core courses and plays a key role in the Center's graduate program. For further information about the Africana library, please visit: <http://www.library.illinois.edu/ias/africana/>

## Financial Aid

Students must apply and be admitted according to the set deadlines to be considered for assistantships and fellowships. The Center evaluates and ranks entering students on the basis of academic promise. This ranking becomes part of the basis for financial aid decisions. Funding is generally awarded to cover the fall and spring semesters and occasionally on a semester-by-semester basis. Multiple years of funding cannot be guaranteed, but the Center considers it a priority to fund students and see them through the program. Continued funding is based on academic (in the case of Foreign Language and Area Studies Fellowships) and job performance (in the case of assistantships), the availability of positions, and the Center's budget in a given year or US Department of Education Title VI funding cycle.

Students are encouraged to check the Graduate College's website (<http://www.grad.uiuc.edu/>) for funding opportunities—whether they are fellowships or assistantships: <https://grad.illinois.edu/>

For information about available awards and application deadlines, visit: <http://www.afrst.illinois.edu/academics/grants/>.

*for the Graduate Minor in African Studies*

Code	Title	Hours
AFST 522	Development of African Studies	4
Electives hours that relate to Africa that are outside the student's major department. At least four hours must be at the 500 level.		8
A minimum of four semesters of college level study of an African language. NOTE: Hours for language cannot be applied toward minor requirements.		
Total Hours		12

## Other Requirements <sup>1</sup>

Requirement	Description
If the student's thesis deals in whole or in part with Africa, it is strongly recommended that a faculty member from the Center be a formal member of the student's committee.	

<sup>1</sup> For additional details and requirements refer to the department's Graduate Programs (<http://www.afrst.illinois.edu/academics/grad/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Degree Programs in American Indian Studies

Graduate Minor in American Indian & Indigenous Studies (p. 1961)

The American Indian and Indigenous Studies graduate minor is grounded by a strong commitment to the worlds, histories, representations, and political struggles of indigenous peoples internationally, and uses interdisciplinary methods of critical inquiry as a means through which students engage research and scholarship in their major.

## Admission

Applicants to the graduate minor must be in good standing in a masters or doctoral program at the University of Illinois at Urbana-Champaign. Applications must include a statement of purpose that describes how the student's graduate work and/or research interests intersect with American Indian and Indigenous studies. The intent to pursue the graduate minor must be approved by the student's major advisor and graduate program director in their home department.

*for the degree of Graduate Minor in American Indian & Indigenous Studies*

The student must successfully petition the Graduate College to add the American Indian and Indigenous Studies graduate minor to their academic records and transcripts.

Code	Title	Hours

---

The Graduate Minor in Art History is designed to provide UIUC graduate students, both at the master's and doctoral levels from any discipline, a foundation in the histories, theories and methods of art history and visual cultures. The Minor is taken in conjunction with, and is intended to complement the student's work in their primary disciplines.

In addition to the minor requirements, students must also complete the requirements of their major degree. Students interested in the Art History Graduate Minor should contact the Director of Graduate Studies in Art History.

---

## Graduate Degree Programs in Art & Design

Art & Design, MFA (p. 1061)

**concentrations:**

Crafts (p. 1062), Design for Responsible Innovation (p. 1063), Graphic Design (p. 1065), Industrial Design (p. 1066), Metals (p. 1068), Painting (p. 1069), Photography (p. 1071), Printmaking (p. 1072), Sculpture (p. 1074)

**specialization:** New Media

Art Education, EdM (p. 1076)

Art Education, MA (p. 1078)

Art Education, PhD (p. 1080)

Art History, MA (p. 1082)

Art History, PhD (p. 1084)

Art History Minor (p. 1962)

---

## Admission

Applications are considered for Fall Semester admissions only. The Art History Program requires Graduate Record Examination (GRE) scores. International applicants or applicants who are not native English speakers must present a recent TOEFL score of at least 590 on the paper-based version, 250 score on the Computer-based exam, and a score of 96 on IBT exam. Applications are not currently being accepted for the concentration in Printmaking.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience for master and doctoral students.

## Facilities and Resources

Resources for graduate students in art and design include the Krannert Art Museum's excellent permanent collections and changing exhibitions; the Ricker Library of Art and Architecture, one of the largest art and architecture libraries in the nation; the Krannert Center for the Performing Arts; School of Art and Design facilities, which include extensive computer laboratories, digital photography and video editing equipment, wireless networking, ink-printing facilities, ceramic, woodworking, and metal shops, rapid prototyping and laser cutting, black/white and color darkrooms, shooting studios, and

a wide selection of production and presentation equipment via reservation and checkout facility. A variety of lectures, symposia, musical programs, dramatic productions, and other cultural events associated with a large and progressive university complement the Art and Design Facilities.

## Financial Aid

Fellowships, assistantships, and tuition and service fee waivers are awarded each year on a competitive basis, with consideration given to the applicant's grade point average and, in the case of applicants for the M.F.A. programs, quality of creative work.

## Graduate Degree Programs in Asian American Studies

### Graduate Minor in Asian American Studies (p. 1964)

The Asian American Studies Program offers a graduate minor in Asian American Studies that is interdisciplinary in nature. The graduate minor is designed to complement the graduate work of the students' area of concentration.

## Admission

Students must be in good academic standing in a graduate or professional program at the University of Illinois at Urbana-Champaign and demonstrate an interest in Asian American Studies. Those wishing to apply to the minor must submit a written statement indicating why they wish to pursue the minor, demonstrate successful completion of one course in Asian American Studies at the undergraduate or graduate level, and provide written approval to pursue the minor from their graduate advisor and graduate program director. The written statement should specifically discuss how the student's prior academic training and/or work experiences are related to Asian American Studies, how a graduate minor in Asian American Studies fits in to their major academic program on campus, as well as how the minor would contribute to future professional development. The written statement and other supporting material must be submitted to the Director of the Asian American Studies Program.

## for the Graduate Minor in Asian American Studies

For the Graduate Minor in Asian American Studies to appear on the academic transcript, the student must successfully petition the Graduate College to add the Graduate Minor in Asian American Studies to their academic records.

Code	Title	Hours

<sup>1</sup> For additional details and requirements refer to the department's Graduate Program's Web page (<http://www.asianam.illinois.edu/academics/grad-minor/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Learning Outcomes: Asian American Studies, Minor

Learning Outcomes for the Graduate Minor in Asian American Studies

1. Theoretical Approaches Graduate students acquire proficiency in the field and area of Asian American Studies, and more generally the field of Ethnic Studies. This includes knowledge-based in intersectional, comparative, and interdisciplinary approaches and critical theories. While largely based in an area approach to the United States, Asian American Studies is also deeply concerned with transnational, diasporic, and global studies. Students learn the theories and methods of the social sciences and humanistic approaches toward the graduate concentration in Asian American Studies.
2. Critical Inquiry and Discovery Applying theories in Asian American Studies, students develop skills of critical inquiry that draw on intersectional and comparative approaches. As a mode of discovery students exercise their skills using methods of the social sciences and humanities through verbal communication in the classroom and written research projects. Students are asked to apply their critical modes of learning in original and unique projects of discovery through advanced research in a professional concentration.

3. **Effective Teaching and Community Engagement** Graduate students study analytical concepts and models of community engagement related to the history of Asian American Studies. Reflection based on these approaches provides a context from which to understand the role of classroom learning and the application of theories of social change in community engagement.
4. **Social Awareness and Cultural Understanding** Graduate students learn the dimensions and breadth of intersectional analysis. This includes the social, cultural, economic, and political issues concerning Asian Americans, and in relation to other social groups. The different social theories of power are examined to understand the categories of analysis such as race, gender, sexuality, class, ethnicity, religion, and disability, to name a few.
5. **Intersectional Analysis and Interdisciplinary Methods** Graduate students gain an understanding of the global dimensions of intersectional approaches in a broad range of fields and disciplines including literary, historical, cultural and ethnographic methods. Through the study of migration and diaspora, the broad understanding of individual and collective dynamics are observed, analyzed, and theorized. Students are presented with comparative frameworks to understand how race, gender, and sexuality, for example, are thought of from a number of vantage points. Students are introduced to the practice of interdisciplinary methodologies that emerge out of Asian American Studies and related fields.

# Balkan Studies Graduate Minor

*for the Graduate Minor in Balkan Studies*

---

**director of center and graduate studies:** John Randolph

**email:** reec@illinois.edu

**department website:** <https://reec.illinois.edu/>

**department faculty:** REEC Faculty (<https://reec.illinois.edu/people/groups/faculty/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department office:** 104 International Studies Building, 910 South Fifth Street, Champaign, IL 61820

**phone:** (217) 333-1244

---

## About the Minor

The Balkan Studies graduate minor is designed for M.A. or Ph.D. students in other disciplines who wish to complement their degree program with interdisciplinary study of the Balkans. Students interested in pursuing the minor must have a minimum of two years of college-level study of a language of the region: e.g., Albanian, BCS (Bosnian, Croatian, Serbian), Bulgarian, modern Greek, Hungarian, Macedonian, Romani, Romanian, Slovenian, Turkish, Yiddish. A program of study can be tailored to the needs and interests of the individual student in consultation with Center staff; for admission to the program contact the Center.

---

## Graduate Degree Programs in Russian, East European, and Eurasian Studies

The Russian, East European, and Eurasian Center offers a two-year program of language and area studies courses leading to an interdisciplinary Master of Arts degree. The program is designed to meet the needs of students proceeding to disciplinary-based doctoral work and those planning non-academic professional careers with area expertise. Programs offered by the Center:

Russian, East European, and Eurasian Studies, MA (p. 1727)

Russian, East European, and Eurasian Studies Minor (p. 1995)

Balkan Studies Minor (p. 1966)

Joint Degree in Russian, East European, & Eurasian Studies, MA and Library & Information Science, MS (p. 2041)

---

## Admission

Prospective graduate students should have completed at least two years of Russian or another language of Eastern Europe or Eurasia. Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal, quantitative, and written), three letters of reference, and a writing sample. International students must submit Test of English as a Foreign Language (TOEFL) scores. All applicants must meet the requirements of the Graduate College. Admission is ordinarily in the fall semester, but occasional exceptions are made for spring and summer admission.

---

## Faculty Research Interests

The faculty (<https://reec.illinois.edu/people/groups/faculty/>) affiliated with the Center represent a broad range of interests and methodological approaches in the social sciences and the humanities, as well as the professional schools.

---

## Facilities and Resources

The Russian, East European, and Eurasian Center was founded in 1959 and designated a National Resource Center by the U.S. Department of Education. It serves as an intellectual and institutional hub for the University community and the public through conferences, lectures, colloquia, visiting scholars, study groups, exhibits, films, and other activities.

The annual Summer Research Laboratory on Russia, Eastern Europe, and Eurasia features special workshops, seminars, lectures, films, and other events, most of which are free and open to the public.

The International and Area Studies Library (<https://www.library.illinois.edu/ias/>) at the University of Illinois has one of the country's three outstanding Slavic library collections (<https://www.library.illinois.edu/ias/spx/>). The Slavic Reference Service (<https://www.library.illinois.edu/ias/spx/srs/>) serves all faculty and students with expert bibliographers.

Language training is provided by the Departments of Germanic Languages & Literatures (<https://germanic.illinois.edu/>), Linguistics (<https://linguistics.illinois.edu/>), and Slavic Languages & Literatures (<https://slavic.illinois.edu/>) in:

- Bulgarian
- Bosnian, Croatian, Serbian
- Czech
- Old Church Slavonic
- Polish
- Russian
- Turkish
- Ukrainian
- Yiddish

---

## Financial Aid

Financial aid is awarded on an academic-year basis. All fellowships and assistantships include a stipend plus tuition and fee waiver. Qualified incoming students who are U.S. citizens or permanent residents should also apply for U.S. Department of Education Title VI Foreign Language and Area Studies (FLAS) fellowships (<http://publish.illinois.edu/illinoisflas/>) offered through REEEC or other FLAS-granting campus centers.

Qualified students may also be eligible for other fellowships at the campus or departmental level. A limited number of teaching and graduate assistantships, which include a tuition and fee waiver, may also be available to outstanding students through REEEC and other units. The Graduate College maintains a list of available assistantships (<https://grad.illinois.edu/clearinghouse/>); additional information on need-based financial aid may be obtained from the Graduate College Fellowships Office (<https://grad.illinois.edu/fellowships/about/>).

*for the Graduate Minor in Balkan Studies*

---

For additional details and requirements refer to the department's Graduate Programs (<https://reeec.illinois.edu/academics/ma-program/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
IS 530 or REES 550	Collection Development (Section C: REEES Bibliog Research Methods) Seminar in REEE Studies	2 or 4
Electives (4 hours at the 500 level) At least 8 graduate hours that relate to the Balkans chosen from the list of approved courses maintained by REEEC and taken outside the student's enrolling department.		8
Language Requirement: A minimum of two years college-level study of a language of the area or equivalent, including but not limited to Albanian, BCS (Bosnian, Croatian, Serbian), Bulgarian, modern Greek, Hungarian, Macedonian, Romani, Romanian, Slovenian, Turkish, and Yiddish. For professional work in the region or scholarly research on area topics at least three years of relevant language study are recommended.		
Students must also submit a research paper primarily on the region.		
Total Hours		10-12

## Other Requirements

### Requirement

Other requirements may overlap

If students take both IS 530C and REES 550, credit for one may be applied to the elective requirement.

A research paper primarily on the Balkans is required. Typically this paper is written in a research seminar in a disciplinary department. A master's thesis or doctoral dissertation can be submitted in lieu of the research paper, if it deals primarily with the region. Students are encouraged to present their work in a public forum at the University, such as the REEEC Noontime Scholars lecture series.

# Cinema Studies Graduate Minor

Education Policy, Organization and Leadership, MA and Business Administration, MBA (<http://catalog.illinois.edu/graduate/bus/joint-degree/business-administration-joint-mba/>)

## Graduate Degree Programs

Degree programs in the Department of Education Policy, Organization and Leadership are designed to meet the academic and professional interests of individuals preparing for careers as academic professionals, adult educators, college professors, corporate trainers, educational policy analysts, governmental administrators, instructional designers/technologists, non-profit representatives, organizational development specialists, and university administration leaders.

## Admission

The Department of Education Policy, Organization and Leadership carefully considers all applicants for graduate study. Applicants should consult the department website for more detailed application information <http://education.illinois.edu/epol/admissions/howtoapply> (<http://education.illinois.edu/epol/admissions/howtoapply/>) and should apply online at <http://www.grad.illinois.edu/admissions/apply> (<http://www.grad.illinois.edu/admissions/apply/>). The quality of the applicant's undergraduate and graduate training and grade point average are primary considerations. Other important factors evaluated include the three letters of recommendation and statement of purpose. International applicants must submit a TOEFL score.

## Off-Campus Programs

The Education Policy, Organization and Leadership department offers selected off-campus programs in the Chicago region, through the use of a cohort model. The Ed.M. and C.A.S. degree options with General Administrative Endorsement are offered in the Chicago region. An Ed.D. degree cohort also is available in School Executive Leadership. Requirements for the off-campus Ed.M., C.A.S., and Ed.D. programs are identical to the on-campus degrees.

## Facilities and Resources

The College of Education also has many resources to assist graduate students through their academic career. The Bureau of Educational Research works with students to secure research funding. The Council on Teacher Education entitles candidates seeking a Professional Educator License and provides accreditation of professional education programs. Each student completing a degree program is assigned a graduate adviser, who is available to assist the student with planning the program of study and determining degree requirements, courses and timelines for degree completion.

Information on University resources can be found at <http://www.grad.illinois.edu/current-students> (<http://www.grad.illinois.edu/current-students/>).

## Financial Aid

Financial aid in the form of assistantships, scholarships, fellowships, and tuition waivers can be found throughout the college and campus. There are opportunities available through the department (<http://education.illinois.edu/epol/>), the College of Education (<http://education.illinois.edu/students/graduate-financialaid/>), and the Bureau of Educational Research (<https://education.illinois.edu/associate-dean-for-research/bureau-of-educational-research/college-research-awards/>). Please note: Graduate students employed as Staff by the University of Illinois at Urbana-Champaign are not eligible for a College of Education Award or Scholarship. Campus opportunities can be found at the Graduate College (<http://www.grad.illinois.edu/financial-aid/>) and the Office of Student Financial Aid (<http://www.osfa.illinois.edu/>).

The minor in Corporate Governance and International Business is designed to develop leaders in various business fields who understand international business and corporate governance issues within the global economy. It specifically covers topics such as

1. how to create value for multinational partners, employees with diverse cultural backgrounds, and shareholders by designing better organizations and corporate governance; and
2. how managerial practices differ in various national/cultural contexts and why managers must be able to understand the strategic, financial, and economic implications of these differences in managing multinational corporations.

The minor will provide not only a strong foundation in the International Business and Governance area but could be tailored to fit the specific career needs of our students.

**email:** [dance@illinois.edu](mailto:dance@illinois.edu)

The Graduate Minor in Dance offers physical, creative, and theoretical engagement with contemporary dance and performance. The program of study presents interested graduate students the chance to endow their major graduate degree studies with interdisciplinary ideas and presents an alternate pedagogic window into research through the body. Prospective graduate minor students will be required to have successfully completed one of the required Dance Graduate Minor courses prior to official admission to the program. In addition, they will have to be interviewed by the MFA in Dance Program Director, and they will have to provide a letter of endorsement from their home department advisor that is co-signed by their home department Graduate Program Director.

For additional information, please contact [dance@illinois.edu](mailto:dance@illinois.edu).

## Graduate Degree Programs in Dance

Dance, MFA (p. 1255)

Graduate Minor in Dance (p. 1974)

The Department of Dance offers a graduate program leading to the Master of Fine Arts degree. The mission of the MFA Program is to foster substantive choreographic research that posits dance as a force in contemporary culture. The program embraces a wide spectrum of individual movement research and embodied practice to create a dynamic learning atmosphere for critical engagement with choreographic process.

The Dance Department expects MFA candidates to conduct a creative inquiry that leads to the development of a sophisticated sense of self-definition. Individual research and analysis should culminate in the development of a personal artistic process and mission and should be evident in the following contexts:

- **Choreographing-** Candidates will develop a distinctive choreographic research methodology and demonstrate its skillful application in a performative context. This ideology must establish solid foundation for ongoing research and engagement that contributes to the global dialogue about dance and contemporary culture.
- **Communicating-** Candidates will develop the ability to express their choreographic vision and process in verbal and written language that is clear, cogent, and convincing and demonstrates clear analytic skill, critical thinking, awareness of historical context, and knowledge of contemporary culture.
- **Moving-** Candidates will demonstrate a commitment to movement investigation and practice that defines, advances, and sustains their choreographic vision.
- **Teaching-** Candidates will apply their research vision in clear pedagogic principles while fostering a stimulating teaching/ learning environment.
- **Career Planning-** Candidates are assessed on their ability to develop innovative career strategies in order to advance their artistic mission in the field and demonstrate the capacity to implement these plans with professionalism in all the above contexts.

## Admission Requirements

Prerequisites for admission to the MFA program are:

1. An undergraduate degree and significant experience in dance is required.
2. Demonstrated choreographic achievement and potential to make innovative contributions to the field.
3. Demonstrated potential to engage in critical thinking and writing.
4. A minimum grade point average of 3.0 on a 4 point scale, computed from the last 60 hours of undergraduate work and any graduate work completed.

International students must be eligible for full status admission. International students who receive a TOEFL score greater than 103 on the internet-based test, 257 on the computer-based test, or 613 on the paper test are eligible for full status admission. Students with these scores are exempt from the English as a Second Language Placement Test. The GRE is not required.

## Faculty Research Interests

An extraordinary faculty of artists, researchers and scholars has gathered at Illinois, who are creating new paradigms for interactions between the professional arena and the academic training ground. Our group of professional artists includes Jan Erkert, Sara Hook, Philip Johnston, Linda Lehovec, Jennifer Monson, Kemal Nance, Rebecca Nettl-Fiol, Tere O'Connor, Cynthia Oliver, Kirstie Simson, Endalyn Taylor, John Toenjes, and Abby Zbikowski, all of whom share a commitment to teaching and preparing students for leadership roles in the field of dance.

## Financial Aid

Two forms of financial aid are offered to graduate students by the Department of Dance:

- Teaching and administration assistantships are available to graduate students. Assistantships of 25% or greater qualify the student for a tuition waiver. All students are required to apply for Federal Work Study.
- A variety of Fellowships are available through The Graduate College each year, including: (A full listing of Fellowships can be found at: [www.grad.illinois.edu/fellowships](http://www.grad.illinois.edu/fellowships) (<http://www.grad.illinois.edu/fellowships/>))
  - The Creative and Performing Arts Fellowship, which may include stipends up to a maximum of \$6,000 for a student demonstrating outstanding choreographic and performance talent.
  - The Graduate College Fellowship for Underrepresented Students provides fellowships in the amount of \$8,000 and are available to outstanding minority students.

Prospective MFA candidates are encouraged to apply for financial assistance through the Office of Student Financial Aid, 420 Student Services Bldg., University of Illinois at Urbana-Champaign, Champaign, IL 61820. (217) 333-0100.

# European Union Studies Minor

## *for the Graduate Minor in European Union Studies*

**center director:** Emanuel Rota

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**center website:** European Union Center (<http://europe.illinois.edu/>)

**college website:** College of Liberal Arts & Sciences (<https://las.illinois.edu/>)

**department office:** European Union Center, 328 International Studies Building, MC-429, 910 S. Fifth Street Champaign, IL 61820

**phone:** (217) 265-7515

**email:** [eucenter@illinois.edu](mailto:eucenter@illinois.edu)

The graduate minor in European Union Studies complements PhD programs in many departments and provides an opportunity for students to pursue an area studies program as well as their primary field. Graduate students may also come from professional schools, such as law, business, and education, and departments with professional degree programs, such as urban and regional planning.

Graduate students seeking admission to the graduate minor in European Union Studies program should check with an academic advisor in their major degree-granting school or department to confirm eligibility prior to pursuing an application. Students must submit a graduate minor application, available from the Center, and if approved, a petition to the Graduate College requesting to add the European Union Studies minor.

## Graduate Degree Programs in European Union Studies

European Union Studies, MA (p. 1352)

European Union Studies Minor (p. 1976)

## Admission

Applicants for admission to the Master of Arts program should have completed at least two years of a language of the European Union and hold a bachelor's degree from an accredited institution of higher education. The Graduate Record Examination (GRE), or another post-secondary examination such as the LSAT, GMAT, MCAT, is required and international students are required to take the Test of English as a Foreign Language (TOEFL), with minimum scores set by the Graduate College. All admission requirements of the Graduate College also apply.

Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal quantitative, and written) or other post-secondary examination scores, a writing sample, and three letters of reference." Applicants must also submit to the European Union Center a statement of purpose showing how the M.A. degree in European Union Studies fits into their educational and career plans. This statement must show that the interdisciplinary nature of the MA in EU Studies will serve the student better than a disciplinary degree. Admission is ordinarily limited to the fall semester, but exceptions are made for spring and summer admission.

## *for the Graduate Minor in European Union Studies*

Students in the European Union Studies graduate minor program must earn at least 16 hours of graduate credit in approved courses in at least two departments. Two of the courses must be EURO 501 and EURO 502. The graduate minor requires that students demonstrate the equivalent of two years of college-level study of a language of the European Union other than English, to support development of a technical vocabulary in fields such as business, law, and agriculture. A list of courses fulfilling the minor is available from the Center.

For additional details and requirements refer to the department's graduate degree requirements (<http://euc.illinois.edu/academic/graduate.html>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Note: Students within the major can not minor in the same program.

Business & Public Policy (p. 1888)

Real Estate (p. 1923)

---

The graduate minor in Finance is reserved for students admitted to the Master of Accounting Science program. Accountants with expertise in finance are increasingly highly valued by many employers. The graduate minor in Finance is designed to allow students in the MAS program to demonstrate substantive competency in the field of Finance. Counting the prerequisite requirement, the graduate minor is the equivalent of four graduate courses. Admission is limited and acceptance is on a competitive basis.

## Admission to the Minor

Admitted MAS students should first consult with the MAS Program Advisor to determine if the minor is appropriate for the student. Information on how to apply will be available through the MAS Program Advisor. Students admitted to the MAS program may also email [finance@illinois.edu](mailto:finance@illinois.edu) for more information on the Finance Minor.

## Prerequisites for the Minor

Admission to the minor requires the completion of either FIN 221 and FIN 300 or FIN 520 as a prerequisite. All courses must have been taken for a grade.

---

## Advising Notes

The graduate minor can only be completed within the Fall semester of the fifth year of the MAS program. The three required graduate courses are not available in the Spring semester. Students who drop any of the three required courses in Fall will be treated as having dropped the minor.

Students should have already completed FIN 300 before enrolling in the graduate minor. Students may apply while enrolled in FIN 300; however, the application decision may be deferred until successful completion of FIN 300. FIN 300 must be taken on this campus. Students who plan to take the graduate minor SHOULD NOT register for FIN 321, FIN 411, or FIN 412 as undergraduates. Students who have completed any of the following courses are not eligible to pursue the minor: FIN 411, FIN 321, or FIN 412.

Note: Students within the major can not minor in the same program.

## Graduate Degree Programs in Gender & Women's Studies

Gender and Women's Studies Graduate Minor (p. 1980)

Queer Studies Graduate Minor (p. 1992)

The graduate minor in Gender & Women's Studies offers sophisticated training in feminist theory and methodology to graduate students who want to incorporate gender & women's studies into their degree work. Because gender has become a central category of analysis in many disciplines and fields, the graduate minor strengthens students' formal credentials and offers a versatile area of specialization. Please see our website for more information, <https://gws.illinois.edu/academics/graduate-minors>.

The graduate minor in Queer Studies offers students the opportunity to gain expertise in queer theory and methodology as part of their graduate degree work. The graduate minor in queer studies offers students a versatile interdisciplinary framework to complement and strengthen their research and pedagogy in their chosen field of study. Please see our website for more information, [www.gws.illinois.edu](http://www.gws.illinois.edu) (<http://www.gws.illinois.edu/>).

## Admission

Applicants must be in good standing in a graduate or professional program at the University of Illinois at Urbana-Champaign. The Department required a formal application, including a personal statement about how the student's graduate work and/or research interests intersect with gender and women's studies. Students must also have signed approval of the graduate director of their program.

## Graduate Program in Global Studies

The Center for Global Studies, with the assistance of an all-campus Faculty Advisory Committee, administers an interdisciplinary and inter-professional Graduate Minor in Global Studies in cooperation with 25 units across 8 colleges as well as the School of Labor and Employment Relations and the Graduate School of Library and Information Science. The Minor develops awareness and knowledge of globalization and the relevance of this process to student degree programs and career objectives. It is intended to serve three constituencies of students: those seeking to integrate their specialized skills within the broader intellectual and public policy demands of a global society; those proceeding to disciplinary or professionally-based doctoral work; and those for whom the Minor enhances their disciplinary and professional credentials in seeking public or private employment for posts relevant to global studies and policy-making.

## *for the Graduate Minor in Global Studies*

The Heritage Studies Minor (HSM) is pursued at the graduate level in a student's home department through completion of four courses (4 hours each) plus a culminating project arising out of normal coursework undertaken in consultation with the HSM Committee Head.

## Admission

Admission for the Heritage Studies Minor (HSM) is contingent upon the approval of the home department. Students are admitted to the graduate program of the particular academic department in which they will pursue their Master's or PhD degree. A student interested in the HSM should clearly indicate this in the application statement to the University and, upon matriculation, should inform the HSM Committee of the intent to pursue the Minor and begin planning how to satisfy the requirements. The HSM Steering Committee reviews student progress in consultation with the student's academic advisor. Students must be admitted to the graduate program of an academic department in order to participate in the HSM. Students already enrolled in one of the University of Illinois at Urbana-Champaign graduate programs may also apply for admission to the HSM at any time, but are advised to do so in their first year of study.

There are no prerequisites for admission to the HSM other than admission to a university graduate program. The HSM does not require prior practical experience in heritage work for admission. However, the HSM will encourage students to obtain such practical experience during their graduate work at the University of Illinois.

## Faculty Research Interests

The HSM courses offer broad coverage of different approaches to heritage theory and practice, including interdisciplinary perspectives from Anthropology, Landscape Architecture, Urban and Regional Planning, Architecture, History, Geography, Education, and other fields. Faculty work collaboratively with each other and across the globe, focusing on a range of cultures and time periods from prehistoric to contemporary.

## Financial Aid

The Minor itself does not provide financial aid. Financial aid may be requested from the admitting graduate program of the particular academic department.

## for the Graduate Minor in Heritage Studies

---

The minor in Information Technology and Control is designed to develop leaders in various business fields who understand

1. how to leverage information technology to create value for customers, external partners, and shareholders by designing better information systems to improve business processes and controls; and
2. how managers can assess the strategic, financial, and economic benefits of investing in advanced information systems.

The minor will provide not only a strong foundation in IS/IT area but could be tailored to fit the specific career needs of our students.

Including classroom and online courses in Quechua, the most spoken native language in the American continent.

The graduate minor in Latin American and Caribbean Studies promotes training for Master's and Doctoral students in other disciplines interested in complementing their degree program with an interdisciplinary perspective on Latin America and the Caribbean region. There are no prerequisites for the graduate minor. The Center will provide an online admission form to be submitted to the student's advisor for review. The form will require the student's graduate advisor and program director approval. Applicants must be in good standing in a graduate program at the University of Illinois and should demonstrate an interest in Latin American Studies.

Note: Students within the major cannot minor in the same program.

## Graduate Degree Programs in Latin American & Caribbean Studies

Latin American Studies, MA (p. 1474)

Graduate Minor in Latin American & Caribbean Studies (p. 1986)

The Center for Latin American and Caribbean Studies administers a program of language and area courses leading to an interdisciplinary Master of Arts degree. The master's program facilitates studies in the languages, cultures, and affairs of the region for three constituencies of students: those seeking to match area expertise with professional training; those proceeding to disciplinary-based doctoral work; and those for whom the degree would stand on its own. The center also administers graduate specializations in Latin American and Caribbean Studies with various departments. The center is a Title VI National Resource Center. The center houses the Lemann Institute for Brazilian Studies.

## Language Instruction

The Center offers 3 levels of Quechua, the most spoken language in the American continent, with approximately 13 million of speakers in 6 countries. The Center also offers Quechua online courses and free access to the publication *Correo de Linguística Andina* and free exercises on Quechua. Visit [www.clacs.illinois.edu/quechua/](http://www.clacs.illinois.edu/quechua/) (<http://www.clacs.illinois.edu/quechua/>).

Other languages in the University that fulfill the M.A. requirements are Spanish and Portuguese, both offered at the School Literatures, Cultures, and Linguistics.

## Faculty Research Interests

More than 100 faculty throughout the University are currently affiliated with the Center. The Center's faculty devote all or a portion of their teaching and research to Latin American subjects, from agriculture to politics, culture and linguistics. Their expertise spans every important discipline and sub-region of Latin America and the Caribbean, with particular strength in the Andean countries, the Caribbean, lowland South America, Mexico, and Brazil.

For a complete list of our affiliated faculty and their research and teaching interests check our people page at <http://www.clacs.illinois.edu/about/people/faculty.aspx>.

## Facilities and Resources

### Latin American Library Collection (LALC)

The Center assist the Latin American Collection (<http://www.library.illinois.edu/lat/>) at the University Library in purchasing teaching and research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments.

The LALC collection ranks among the six largest in the country and is the largest collection in the Midwest region in purchasing teaching and research materials to develop a strong collection that supports teaching and research in those programs sponsored and coordinated by the Center as well as interdisciplinary courses with Latin American subject matter offered by other departments. It is located in the third floor of the main UIUC library in

room 324 and while the Library itself does not house a circulating collection, our knowledgeable staff is available to help locate relevant materials, answer reference questions, and assist you in developing effective searching strategies.

The Latin American and Caribbean Library collection includes:

- **More than 400,000 monograph titles;**
- **Newspapers and magazines from over 20 Latin American and Caribbean countries;**
- **A strong collection of journals in the humanities and social sciences, as well as publications of professional associations, government agencies, central banks, and non-governmental organizations;**
- **Access to HAPI Online (Hispanic American Periodicals Index), the Handbook of Latin American Studies (<http://lcweb2.loc.gov/hlas/>), and other online databases;**
- **An extensive collection of videos available at the Media Center in the Undergraduate Library;**
- **over 32,000 maps of Latin America (housed in the Map and Geography Library);**
- **comprehensive holdings of Brazilian and Andean materials;**
- **Extensive holdings by and about Gabriel Garcia Marquez;**
- **Publications from the Archivo General de la Nacion de Mexico; and**
- **A comprehensive Latin American music collection.**

## List-serv

The Center administers a listserv with more than 500 subscribers. Weekly mass messages "CALCS/Lemann Institute this Week" contain information on activities in campus related to Latin America and the Caribbean region (conferences, workshops, movies), new courses and job positions as well as future conferences in other Universities. To subscribe contact: Angelina Cotler ([cotler@illinois.edu](mailto:cotler@illinois.edu)).

## CLACS Brownbags

Every Thursday at Noon in Room 101 International Studies Building (910 S. Fifth Street in Champaign) CLACS presents a lecture offered by a faculty, graduate student or outside faculty on topics relevant to the region. These are open and free brownbag lectures. For complete list of presentations during the semester visit our website on the events section.

## Opportunities and Events

The Center keeps update a complete list of jobs, grants, conferences, and fellowships in the U.S. and abroad for graduate students and faculty. Check it at <http://www.clacs.illinois.edu/news/opportunities.aspx>.

## Outreach Program (<http://www.clacs.illinois.edu/outreach/default.aspx>)

One of the goals of our mission is to increase knowledge and awareness of Latin America and the Caribbean in the educational community and the general public by promoting language and area studies in their broadest sense. Outreach at CLACS is a service-oriented program funded through a Title VI Federal Area Studies grant. It is designed to increase public knowledge about Latin America and the Caribbean and Latin American and Caribbean peoples and cultures. All our services are free!

Services include

- Speakers Bureau composed by graduate students and faculty for presentations in schools on Latin American topics.
- Outreach Library for k-14 teachers and instructors that includes books and DVDs.
- Collaborates with the Illinois International Review, the University of Illinois' new international publication; produces CLACS this Week, a weekly Calendar of Events; and an annual newsletter on Quechua instruction, Correo de Linguistica Andina.
- Publishes several curriculum development workbooks including: Columbus: Beyond the Myth, A Teacher's Workbook on Tropical Rain Forests, and Historia Oral: The Latina/o Experience in the United States.
- Organizes the Latin American Brownbag Colloquium, a weekly series of noon seminars in which faculty, students, and visiting scholars present current research and speak on topics of special interest. Additionally, the Center sponsors many cultural events, such as Latin American music and dance ensembles, and art exhibitions.
- Maintains links to Web based curriculum-related materials on its outreach Web pages as a means of facilitating access to curriculum resources and research materials on Latin America and the Caribbean.

For more information visit <http://www.clacs.illinois.edu/outreach/default.aspx>.

## Links

Links to local museums, units and clubs that offer Latin American and Caribbean services as well as external links to institutions abroad and in the U.S. [www.clacs.illinois.edu/resources/](http://www.clacs.illinois.edu/resources/) (<http://www.clacs.illinois.edu/resources/>).

## Financial Aid

The Center is a recipient of Federal Government Title VI Foreign Language and Area Studies (FLAS) Fellowships for Graduate Studies in any discipline that includes a specialization in Latin American Studies and an intensive program of language instruction. Academic year language courses and

summer fellowships for intensive language courses abroad or in the United States are available. Information on how to apply, requirements and datelines are posted in <http://publish.illinois.edu/illinoisflas/>.

The Center offers Tinker Summer Fellowship Research Grants for graduate students in any department wishing to do research during the summer in Latin America, the Caribbean and the Iberian Peninsula. Both these programs depend on outside funding and thus cannot be guaranteed in any given year. Information on how to apply, requirements and datelines are posted in <http://www.clacs.illinois.edu/academics/fellowships/tinker.aspx>.

### ***for the Graduate Minor in Latin American & Caribbean Studies***

The graduate minor in Latin American and Caribbean Studies promotes training for Master's and Doctoral students in other disciplines interested in complementing their degree program with an interdisciplinary perspective on Latin America and the Caribbean region. There are no prerequisites for the graduate minor. The Center will provide an online admission form to be submitted to the student's advisor for review. The form will require the student's graduate advisor and program director approval. Applicants must be in good standing in a graduate program at the University of Illinois and should demonstrate an interest in Latin American Studies.

Note: Students within the major cannot minor in the same program.

Code	Title	Hours
Area Courses: 400-/500-level courses from two different departments from a list approved by CLACS every semester and posted in our website and announced through our listserv		8
Language coursework taken on this campus in either Portuguese, Spanish or Native American Language or Haitian Creole, OR the language course could also be selected from the area courses offered in these languages, i.e. literature class taught in any of these languages.		4
The chosen language course must be at the 400-or 500 level to count towards the required 12 hours for Graduate Minor.		
Total Hours		12

### **Other Requirements <sup>1</sup>**

Requirement	Description
If the student's master's thesis or doctoral dissertation deals with Latin America and the Caribbean, students are strongly recommended that a faculty member from the Center be a formal member of their committee	

<sup>1</sup> For additional details and requirements refer to the department's graduate program information online (<http://www.clacs.illinois.edu/academics/graduate/graduate.aspx>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Degree Programs in Latina/Latino Studies

### Graduate Minor in Latina/Latino Studies (p. 1989)

The graduate minor offers a comprehensive program of study in Latina/Latino Studies research, theories and methodologies to graduate students who wish to structurally incorporate Latina/Latino Studies into their degree work. As U.S. Latina/os have become a central category of analysis in theories of ethnicity, race, gender, sexuality, and class in many disciplines and fields, the graduate minor strengthens students' formal credentials and offers a versatile area of specialization. The graduate minor provides students with a theoretical and methodological foundation and a firm background in the history and culture of Latinas and Latinos in the United States from the perspective of the humanities, the social sciences, and other fields. The program will allow students to assess how historical and cultural processes affect U.S. Latina/os in contemporary society. Furthermore, the transdisciplinary and transnational nature of the program will provide students, whether or not they focus their graduate studies on Latina/o Studies, with the breadth of research and approaches taken by scholars in the field.

## Admission

Applicants must be in good academic standing in a graduate or professional program at the University of Illinois at Urbana-Champaign and demonstrate a proven interest and commitment in Latina/Latino Studies. Interested students must submit an application to the Department of Latina/Latino Studies and receive approval to pursue the minor from their graduate or professional program. Application materials can be obtained at the Latina/Latino Studies Department office and at the Program's website (<https://lls.illinois.edu/academics/graduate-minor/>).

**email:** [anthro@illinois.edu](mailto:anthro@illinois.edu)

---

The Graduate Minor in Museum Studies is designed for MA and PhD students who wish to complement their degree program with interdisciplinary study of the theory, organization and management of museums and museum collections. The program offers broad coverage of different disciplines' approaches to museum theory, and practice, including interdisciplinary perspectives from Anthropology, Art History, Landscape Architecture, History, Education, and Library and Information Sciences. The program also focuses on the collaborative, international and multicultural nature of museum work in curating, researching and communicating the tangible and intangible evidence of people and their environment. Students acquire the applied theory required to successfully work on, with or in museums. Students may tailor the minor to their career goals by choosing among electives that emphasize different theoretical and technical aspects of museum studies.

---

## Graduate Degree Programs in Anthropology

Anthropology, MA (p. 1035)

Anthropology, PhD (p. 1037)

optional concentration: Second Language Acquisition and Teacher Education (p. 1926)

Museum Studies Graduate Minor (p. 1990)

---

## Admission

Students without the equivalent of the department's undergraduate concentration may be admitted to either degree program, but they may be required to make up any deficiencies in their anthropological backgrounds. In addition to the Graduate College admission requirements, students are required to submit Graduate Record Examination (GRE) scores. Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) (<http://www.grad.illinois.edu/admissions/instructions/04c/>), with minimum scores set by the Graduate College. Students are admitted for the fall term only.

Students wishing to pursue the minor in Museum Studies must be in good standing in the graduate program of an academic department, and must apply for acceptance into the minor. Admission to the minor is contingent upon approval of the student's home department and the Museum Studies Steering Committee. Students may apply to the minor during the first week of the fall and spring semesters in any academic year, and should contact the Museum Studies Program Coordinator for application instructions or more information.

## Degree Requirements

Each subfield (Archaeology, Biological Anthropology, and Sociocultural/Linguistic Anthropology) requires a specific set of courses for graduation. Achieving doctoral candidacy in all three subfields entails passing (a) language (and/or skill) exam(s), (b) passing a set of preliminary examinations, and (c) successfully submitting a predissertation paper, and/or a doctoral proposal, all to be defended in an oral examination. For specific details and requirements for admission to and navigation of the Ph.D. program, please refer to the Anthropology Department Graduate Programs Handbook (<http://www.anthro.illinois.edu/programs/graduate/resources/AnthGradHandbook.pdf>) and the University of Illinois Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, the Anthropology Department recognizes the importance of teaching experience as part of a graduate education. Most Anthropology graduate students will have the opportunity to work as teaching assistants, to learn to design their own classes, and possibly teach their own classes.

## Faculty Research Interests and Facilities

Courses and individualized study provide broad coverage of sociocultural, linguistic, archaeological, and physical anthropology. The department provides special emphases in the analyses of state ideologies and cultural transformations; complex societies in transition; kinship and gender relations; politics, economics, and business studies; social movements and youth; border studies, criminalities, violence, and security; religion, race, and ethnicity; democracy, governance, and policing; social classification; performance and embodiment; food and environment; language and culture; discourse and narrative analysis; transnationalism and diasporas; human evolution; agricultural origins and development; landscape histories and heritage; hunter-gatherer adaptations; climate change and sustainability; diet and nutrition; paleoecology and paleobiology; evolutionary genetics; population genetics; peopling of the Americas; ancient DNA; biomechanics of locomotion; exercise and neurobiology; functional morphology; comparative and analytical osteology; forensics; demography; immunology; evolutionary medicine; microbe-host interaction; reproductive ecology; female reproductive physiology; conservation; and nonhuman primate evolution, morphology, behavior, and ecology. The department's research facilities include laboratories for archaeology, GIS and spatial computing, faunal analysis, casting, stable-isotope analysis, ethnography, ancient DNA, skeletal biology, locomotion and motion analysis, and endocrinology.

Departmental funds and a grant from the National Science Foundation, as well as from area studies centers, are available for graduate students' summer field research. An archaeology field school is held at various locations in Illinois and outside of the US (location varies from year to year). Graduate student programs are enriched by close departmental relationships with the various interdisciplinary units, including area studies centers on campus (African, East Asian and Pacific, European Union, Latin America and Caribbean, Russian and East European; South Asian and Middle Eastern Studies), the ethnic and gender studies units (the American Indian Studies Program and the departments of African-American Studies, Asian American Studies, Gender and Women's Studies, and Latina/Latino Studies), along with the Women and Gender in Global Perspectives Program, Spurlock Museum, the Museum of Natural History, Krannert Art Museum, the Institute for Genomic Biology, and the Program in Ancient Technologies and Archaeological Materials.

Agreements between the University and various governments and institutes facilitate research in many nations. Training is available in various languages (some with funding available), including Arabic, Bengali, Burmese, Chinese, Hausa, Hebrew, Hindi, Indonesian, Japanese, Korean, Portuguese, Quechua, Lingala, Russian, Shona, Swahili, Thai, and Urdu. Students have ready access to the extensive computer facilities of the University and to the department's facilities.

## Financial Aid

University fellowships, Graduate College fellowships for under-represented minorities, and teaching and research assistantships provide variable levels of funding for most graduate students who do not hold external awards. Tuition and service fee waivers accompany most fellowships and assistantships. Foreign Language and Area Studies (FLAS) fellowships are available through various area centers. University of Illinois public archaeology programs, including the Illinois State Archaeological Survey and the Public Service Archaeology and Architecture Program, have provided support and research employment for graduate students in the past, as has the U.S. Army Construction Engineering Research Laboratory in Champaign.

### *for the Graduate Minor in Museum Studies*

Code	Title	Hours
MUSE 500	Core Prob Museum Theory & Prac	4
Electives from an approved list of museum-related courses, at least one of which must be at the 500-level.		12
The student must participate in a capstone experience consisting of an approved museum-based internship, museum-related project or museum-related research paper. Every student must provide a product of this experience in the form of either a formal professional presentation or a written document. If a student chooses to write their MS thesis or PhD dissertation on a museum topic, this will fulfill (but is not required for) the capstone experience, provided that a member of the Museum Studies Steering Committee is a formal member of the student's thesis or dissertation committee. Student may receive academic credit for their capstone experience through their home department or MUSE 590.

## Graduate Degree Programs in Gender & Women's Studies

Gender and Women's Studies Graduate Minor (p. 1980)

Queer Studies Graduate Minor (p. 1992)

The graduate minor in Gender & Women's Studies offers sophisticated training in feminist theory and methodology to graduate students who want to incorporate gender & women's studies into their degree work. Because gender has become a central category of analysis in many disciplines and fields, the graduate minor strengthens students' formal credentials and offers a versatile area of specialization. Please see our website for more information, <https://gws.illinois.edu/academics/graduate-minors>.

The graduate minor in Queer Studies offers students the opportunity to gain expertise in queer theory and methodology as part of their graduate degree work. The graduate minor in queer studies offers students a versatile interdisciplinary framework to complement and strengthen their research and pedagogy in their chosen field of study. Please see our website for more information, <https://gws.illinois.edu/academics/graduate-minors>.

## Admission

Applicants must be in good standing in a graduate or professional program at the University of Illinois at Urbana-Champaign. The Department required a formal application, including a personal statement about how the student's graduate work and/or research interests intersect with gender and women's studies. Students must also have signed approval of the graduate director of their program.

**fax:** (217) 244-4019

## Graduate Degree Programs in Religion

Religion, MA (p. 1725)

**Graduate Minor:** Religion (p. 1993)

## Admission

The Graduate College admission requirements apply. Applicants need not have an undergraduate major in the study of religion, but they must demonstrate a capacity to undertake advanced study in this area of inquiry. All applications for admission must be supported by three letters of recommendation from persons qualified to comment on the applicant's aptitude for graduate study in religion. Applicants are required to submit a sample of their written work. The Graduate Record Examination (GRE) is required. International applicants whose native language is not English must take the IELTS or the Test of English as a Foreign Language (TOEFL) and have their scores submitted to Institution Code #1836, Dept. #00. A score of at least 600 on the paper-based test (PBT), or 250 on the computer-based test (CBT), or 100 on the internet-based test (iBT) is required for admission to this program.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

## Facilities and Resources

The extraordinary University Library is the department's main research facility; within it, the History, Philosophy & Newspaper Library, the Rare Book Room, and the International and Area Studies Library all serve faculty and students with expert bibliographers and focused collections. Among other special collections that are likely to be useful to our students are Afro-Americana and Women's Studies; the library is also a major repository for government documents.

## Financial Aid

Financial aid is available to many students in the form of fellowships or assistantships. More information is available on the Graduate College web site, <http://www.grad.illinois.edu/fellowship/finaid> (<http://www.grad.illinois.edu/fellowship/finaid/>).

## for the Graduate Minor in Religion

The graduate minor in Religion is designed for graduate or professional students in other disciplines who desire to complement their degree program with a study of Religion. The Minor will consist of any coherent set of at least 12 graduate hours of courses that is approved by the Director of Graduate Studies in the Department of Religion. It will include at least one graduate seminar in the Department of Religion. The successful completion of a minor is noted on the student's transcript. For admission to the program contact the department.

# Russian, East European, & Eurasian Studies Graduate Minor

*for the Graduate Minor in Russian, East European, and Eurasian Studies*

---

**director of center and graduate studies:** John Randolph

**email:** reec@illinois.edu

**department website:** <https://reec.illinois.edu/>

**department faculty:** REEC Faculty (<https://reec.illinois.edu/people/groups/faculty/>)

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** <https://las.illinois.edu/>

**department office:** 104 International Studies Building, 910 South Fifth Street, Champaign, IL 61820

**phone:** (217) 333-1244

---

## About the Minor

The Russian, East European, and Eurasian Studies graduate minor is designed for M.A. or Ph.D. students in other disciplines who wish to complement their degree program with interdisciplinary study of Russia, Eastern Europe, and Eurasia. A program of study can be tailored to the needs and interests of the individual student in consultation with Center staff; for admission to the program contact the Center.

---

## Graduate Degree Programs in Russian, East European, and Eurasian Studies

The Russian, East European, and Eurasian Center offers a two-year program of language and area studies courses leading to an interdisciplinary Master of Arts degree. The program is designed to meet the needs of students proceeding to disciplinary-based doctoral work and those planning non-academic professional careers with area expertise. Programs offered by the Center:

Russian, East European, and Eurasian Studies, MA (p. 1727)

Russian, East European, and Eurasian Studies Minor (p. 1995)

Balkan Studies Minor (p. 1966)

Joint Degree in Russian, East European, & Eurasian Studies, MA and Library & Information Science, MS (p. 2041)

---

## Admission

Prospective graduate students should have completed at least two years of Russian or another language of Eastern Europe or Eurasia. Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal, quantitative, and written), three letters of reference, and a writing sample. International students must submit Test of English as a Foreign Language (TOEFL) scores. All applicants must meet the requirements of the Graduate College. Admission is ordinarily in the fall semester, but occasional exceptions are made for spring and summer admission.

---

## Faculty Research Interests

The faculty (<https://reec.illinois.edu/people/groups/faculty/>) affiliated with the Center represent a broad range of interests and methodological approaches in the social sciences and the humanities, as well as the professional schools.

---

## Facilities and Resources

The Russian, East European, and Eurasian Center was founded in 1959 and designated a National Resource Center by the U.S. Department of Education. It serves as an intellectual and institutional hub for the University community and the public through conferences, lectures, colloquia, visiting scholars, study groups, exhibits, films, and other activities.

The annual Summer Research Laboratory on Russia, Eastern Europe, and Eurasia features special workshops, seminars, lectures, films, and other events, most of which are free and open to the public.

The International and Area Studies Library (<https://www.library.illinois.edu/ias/>) at the University of Illinois has one of the country's three outstanding Slavic library collections (<https://www.library.illinois.edu/ias/spx/>). The Slavic Reference Service (<https://www.library.illinois.edu/ias/spx/srs/>) serves all faculty and students with expert bibliographers.

Language training is provided by the Departments of Germanic Languages & Literatures (<https://germanic.illinois.edu/>), Linguistics (<https://linguistics.illinois.edu/>), and Slavic Languages & Literatures (<https://slavic.illinois.edu/>) in:

- Bulgarian
- Bosnian, Croatian, Serbian
- Czech

- Old Church Slavonic
- Polish
- Russian
- Turkish
- Ukrainian
- Yiddish

## Financial Aid

Financial aid is awarded on an academic-year basis. All fellowships and assistantships include a stipend plus tuition and fee waiver. Qualified incoming students who are U.S. citizens or permanent residents should also apply for U.S. Department of Education Title VI Foreign Language and Area Studies (FLAS) fellowships (<http://publish.illinois.edu/illinoisflas/>) offered through REEEC or other FLAS-granting campus centers.

Qualified students may also be eligible for other fellowships at the campus or departmental level. A limited number of teaching and graduate assistantships, which include a tuition and fee waiver, may also be available to outstanding students through REEEC and other units. The Graduate College maintains a list of available assistantships (<https://grad.illinois.edu/clearinghouse/>); additional information on need-based financial aid may be obtained from the Graduate College Fellowships Office (<https://grad.illinois.edu/fellowships/about/>).

*for the Graduate Minor in Russian, East European, and Eurasian Studies*

For additional details and requirements refer to the department's Graduate Programs (<https://reeec.illinois.edu/academics/ma-program/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
IS 530	Collection Development (Section C: REEES Bibliog Research Methods)	2 or 4
or REES 550	Seminar in REEE Studies	
Electives (4 hours at the 500 level) At least 8 graduate hours that relate to Russia, Eastern Europe, or Eurasia chosen from the list of approved courses maintained by REEEC and taken outside the student's enrolling department.		8
Language Requirement: A minimum of two years or equivalent college-level study of a language of the area. For professional work in the region or scholarly research on area topics at least three years of relevant language study are recommended.		
Students must also submit a research paper primarily on the region.		
Total Hours		10-12

## Other Requirements

Requirement	Description
Other requirements may overlap	
If students take both IS 530C and REES 550, credit for one may be applied to the elective requirement.	
A research paper primarily on the region. Typically this paper is written in a research seminar in a disciplinary department. A master's thesis or doctoral dissertation can be submitted in lieu of the research paper, if it deals primarily with the region. Students are encouraged to present their work in a public forum at the University, such as the REEEC Noontime Scholars lecture series.

The Graduate Minor in Statistics is designed for doctoral students pursuing degrees in other fields who wish to enhance their statistical knowledge and credentials. Students within the major cannot minor in the same program. The Minor is taken in conjunction with, and is intended to complement the student's work in their primary disciplines. Admission to the minor requires an application to the Department and admission to a PhD program (MS track to PhD cannot apply until they are in the PhD program) in another field at the University of Illinois. Applications for the Minor are submitted upon completion of the required courses. Approval is contingent on having grade point average of 3.0 or better in the Minor. A total of three courses, constituting 12 graduate credit hours, are required for the minor in Statistics degree. At least 8 credit hours must be taken at the 500 level. No course substitutions allowed.

Accountancy, MS (p. 987)

Business Administration, MBA (p. 1163)

Business Administration, MS (<http://catalog.illinois.edu/graduate/bus/business-administration-mba/>)

Technology Management, MS (p. 1830)

The minor in Supply Chain Management is designed to develop leaders who understand (1) how to assess the trade-offs and make the decisions necessary to sustain high quality products and services at lower costs while maintaining the flexibility necessary to adapt and to respond to evolving market trends; and (2) how to coordinate and integrate supply chain solutions across various intra -organizational and inter -organizational interfaces in any business or organization. The minor or concentration not only will provide a strong foundation in supply chain management principles and practices, but also can be tailored to fit the specific needs of students interested in careers across a wide variety of industries. This minor or concentration requires submission of twelve graduate hours of Supply Chain Management coursework. Successful completion of the minor or concentration assumes certain knowledge of business and prior coursework.

### Joint Degree Program:

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

## Admission

Admission to the minor or concentration requires submitting a Curriculum Change Form to the Department and Graduate College and admission to one of the approved programs. Admission is limited, and acceptance is on a competitive basis.

*for the Graduate Minor in Supply Chain Management*

In addition to the minor requirements, students must also complete the requirements of their major degree.

Please contact your department for more information regarding the addition of a minor to your program of study.

# Translation & Interpreting Studies Minor, GR

for the Graduate Minor in Translation & Interpreting Studies

Visit the Translation & Interpreting Program Website (<http://www.translation.illinois.edu/>)

**Translation & Interpreting Program Director: Joyce Tolliver**

**Translation & Interpreting Program Address: 4080 Foreign Languages Building  
707 South Mathews Avenue  
Urbana, IL 61801**

Overview of Graduate College Admissions & Requirements (<https://grad.illinois.edu/admissions/apply/>)

Students completing the 16-hour Graduate Minor in Translation and Interpreting Studies will have a firm grasp of the theoretical concepts and debates in the Translation and Interpreting field, as well as an exposure to the conventions of the profession and a solid basis for any further desired professional preparation. The Minor allows UIUC graduate students to choose to gain a wider understanding of the general field's practices and theories by taking elective courses in more than one area; or to develop more in-depth expertise by taking both elective courses in the same subfield. In order to enroll in the Graduate Minor, you must have completed at least six college-level semesters of study in a language other than English; or show evidence of equivalent competence.

<b>Total Hours</b>		<b>16</b>

## Other Requirements

Requirement	Description
Prerequisite:	At least 6 post-baccalaureate semesters of non-English language study, or equivalent competence.
Other requirements may overlap	

Any TRST course may be applied to the 8 hours of elective credit. Courses not cross-listed with TRST must be approved for elective credit by the department.

Courses that are cross-listed will apply toward the minor regardless of the rubric under which the student enrolls

Minimum 500-level Hours Required Overall	8
--	---

## Graduate Joint Degree Programs

Joint degree programs allow students to pursue two graduate degrees simultaneously, where the total time for the two degrees is decreased. A student who wishes to enter a joint degree program must be admitted separately to each program as a joint degree candidate. Find out more about joint degree programs at the Graduate College (<http://www.grad.illinois.edu/gradhandbook/>). These degrees listed can be earned jointly with any one listed below it:

### Accountancy

Accountancy, MS (iMSA) & Business Administration, MBA (iMBA) (p. 2003)

### African Studies

**The Joint Degrees in Master of Science in Accountancy and Master of Business Administration in Business Administration can be completed online.**

This fully online joint master's degree provides students with a broad, deep knowledge in business and accounting. Students will build and master skills in the following areas: technical accounting, business management, data analytics, finance, leadership, marketing, and strategy. The joint degree delivers a high-quality program that is accessible to a global audience. The highly-engaging delivery format and our world-renowned faculty provide students with a hands-on, practice-oriented, and team-based learning experience. It caters to learners who need flexibility and convenience in order to balance work with academic life. The residential MBA can be earned jointly with most on-campus master's or PhD programs. The joint iMBA/iMSA program is a new option that will be available for students enrolled in Gies College of Business' online programs.

The degree allows students to minimize time and cost by earning both degrees simultaneously. It also provides students both a well-rounded business education and the accounting knowledge needed to prepare for the Uniform CPA exam. The joint degree requires 92 credit hours divided between iMBA and iMSA courses (60 for iMBA and 32 for iMSA). A minimum GPA of 3.0 must be maintained in order to remain in good standing.

Students who do not meet the requirements for the joint degree can petition to switch to one of the two individual programs, and then they would complete the degree requirements of either the iMSA or the iMBA program. Any credits already earned toward the stand-alone degree can be counted toward degree completion. Any remaining credits can be either counted toward completion of an iMBA or iMSA specialization – a series of related courses – if those credits are aligned with an existing specialization, or transferred to another program or university which accepts transfer credits.

## Admission

Students interested in the joint iMBA/iMSA degree program can initially apply to either program. Students entering the joint degree through the iMBA program must first complete the ACCY 500 course at a grade B or higher. They must also have been enrolled in the iMBA program for three consecutive semesters with a minimum cumulative GPA of 3.0 in order to become eligible to petition for the Department of Accountancy's approval to officially become a joint-degree student. A potential joint-degree student entering through the iMSA program must complete 20 semester credits of required accountancy coursework in the iMSA program at a minimum cumulative GPA of 3.0. At that point, they would become eligible to petition for the iMBA program's approval to officially become a joint-degree student.

# Architecture, MARCH & Architectural Studies, MS

## *Master of Architecture and Master of Science in Architectural Studies*

---

The School of Architecture offers a joint Master of Architecture (M.Arch.)/Master of Science in Architectural Studies (MS in AS) degree program for students interested in pursuing both an M.Arch. degree as well as one of the concentrations offered through the MS in AS degree program. Completion of in-depth programs (e.g. Structures) will result in recording of the Concentration on the student's transcript under the MS in AS degree.

Students interested in participating in the joint M.Arch./MS in AS degree program must complete a minimum of 82 credit hours of graduate work.

Students with no undergraduate degrees in architecture and participating in the M.Arch. 2+ degree program may petition to enter the joint M.Arch./MS in AS degree program upon completion of their required undergraduate courses.

The MS in AS degree is not a NAAB accredited program. The M.Arch. degree is a professional degree accredited by the National Architectural Accreditation Board (NAAB) and has the STEM designation.

## **Civil Engineering, MS and Architecture, MARCH**

This joint degree program offers qualified applicants the opportunity to develop competence in a career that combines the disciplines of architecture and civil engineering (construction management) or (structures). For entry into these programs, applicants must satisfy the admission and performance requirements of each academic unit. Application for admission should be made to the School of Architecture. Admission to the other unit may be sought after the first semester of graduate study in architecture.

Candidates entering the program with a four-year baccalaureate in architectural studies must complete at least 78 (32 in Civil Engineering and 46 in Architecture) hours of graduate work and, if admitted with full status, may complete the program in five semesters. Candidates entering the program with a five-year Bachelor of Architecture degree must complete 64 hours of graduate work and, if admitted with full status, may complete the program in four semesters.

A total of 70 graduate hours of credit are required: 38 hours for the MARCH in Architecture (<http://catalog.illinois.edu/graduate/faa/architecture-march/>) degree and 32 hours for the MCS in Computer Science (<http://catalog.illinois.edu/graduate/engineering/computer-science-mcs/>) degree. Course credit required for the individual degrees is mutually exclusive.

## **Architecture, MARCH & Urban Planning, MUP**

*Master of Architecture and Master of Urban Planning*

---

This joint degree program offers an opportunity to obtain an education for a career that combines the disciplines of architecture and urban planning. For entry into this program, applicants must satisfy the admission requirements of each academic unit. Application for admission may be made either simultaneously to both units or in sequence.

Candidates entering the program with a four-year baccalaureate in architectural studies must complete at least 86 hours of graduate work (54 in Architecture and 32 in Urban Planning) and, if admitted with full status, may complete the program in six semesters and one summer session. Candidates entering the program with a five-year Bachelor of Architecture degree must complete at least 64 hours of graduate work (32 in Architecture and 32 in Urban Planning) and, if admitted with full status, may complete the program in four semesters and a summer session.

# Computer Science, MCS & Law, JD

*Joint Degrees in Computer Science, MCS & Law, JD*

---

Specific graduate hours of credit for each degree are required: 32 hours for the MCS in Computer Science (p. 1220) and 90 hours for the JD in Law (<http://catalog.illinois.edu/graduate/graduate-majors/law/>). However, some credits used in each program may apply to the other, allowing students to earn both degrees in a shorter time. For the MCS degree

1. at least 12 credit hours must be law course work relating to legal protections for intellectual property or in related business law fields and
2. at least 6 credit hours must be from approved law courses as determined by the College of Law.

For the JD degree, 12 credit hours may be computer science or other scientific course work leading to the MCS degree.

## Graduate Degree Programs in Food Science & Human Nutrition

### Graduate Majors:

Food Science & Human Nutrition, MS (p. 1360) (on campus & online)

**concentrations:**

Food Science (p. 1363)

Human Nutrition (p. 1367)

Food Science and Human Nutrition, MS – Professional Science Master's (p. 1372)

Food Science and Human Nutrition, PhD (p. 1375)

**concentrations:**

Food Science (p. 1377)

Human Nutrition (p. 1381)

### Joint Degree Program:

Food Science & Human Nutrition, PhD and Master of Public Health, MPH (p. 2012)

---

## Research Areas

In addition to receiving training in the general field of food science or human nutrition, students have the opportunity to conduct research in the following areas of specialization:

- Food processing, engineering, and biotechnology
- Food ingredients, properties, and interactions
- Food microstructures, micro-carriers, and nanotechnology
- Food chemistry
- Food microbiology and biomass conversion
- Food safety and security
- Sensory sciences
- Dietary quality and food and nutrition patterns for optimal health
- Nutrition and disease interactions, including cancer, metabolic disorders, and gastrointestinal health
- Nutrition across the life span
- Biochemical and molecular nutrition
- Clinical nutrition
- Community nutrition

For additional information go to [fshn.illinois.edu/graduate](https://fshn.illinois.edu/graduate) (<http://fshn.illinois.edu/graduate/>).

The PSM involves rigorous scientific training in the area of food science and/or human nutrition; additionally, instruction is provided in applied business knowledge and skills. This program is designed for those who seek careers in a science-based setting with significant managerial and leadership responsibilities. For additional information go to [psm.illinois.edu/prospectivestudents/programs/foodscience.htm](https://psm.illinois.edu/prospectivestudents/programs/foodscience.htm) (<http://psm.illinois.edu/prospectivestudents/programs/foodscience.htm>).

---

## Admission

In addition to meeting the Graduate College admission requirements, a student planning to pursue a graduate degree in the department should have a baccalaureate degree in a recognized field of biological, physical, agricultural, or engineering science. Background deficiencies may be removed with graduate credit courses designed for this purpose. Graduate Record Examination (GRE) scores are required of all applicants, and those whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Minimum TOEFL and IELTS scores can be found at [grad.illinois.edu/admissions/instructions/04c](http://grad.illinois.edu/admissions/instructions/04c) (<http://www.grad.illinois.edu/admissions/instructions/04c/>). Students can be admitted to start in fall, spring, or summer semesters except for the PSM concentration, which admits fall semester only. For information on the role faculty have in the admissions process go to [fshn.illinois.edu/graduate/applying](http://fshn.illinois.edu/graduate/applying) (<http://www.fshn.illinois.edu/graduate/applying/>).

---

## Internship in Dietetics

The Department of Food Science and Human Nutrition offers a dietetic internship for master's and doctoral students specializing in human nutrition. Completion of the degree and the internship qualifies the student to take the Academy of Nutrition and Dietetics registration examination administered by the Commission on Dietetic Registration. For information on our dietetic internship program please contact Ms. Jessica Madson ([jamadson@illinois.edu](mailto:jamadson@illinois.edu)).

---

## Online Program

A non-thesis Master of Science in Food Science program is offered via live, synchronous online sessions using distance education technology. The program ensures the same degree of excellence, and courses are instructed by the same faculty, as the on-campus non-thesis program. Courses are typically offered in the evening. For requirements and additional information, please contact Dr. Dawn Bohn at [dbrehart@illinois.edu](mailto:dbrehart@illinois.edu).

---

## Graduate Teaching Experience

Teaching is neither a Graduate College nor a FSHN requirement. A limited number of teaching assistantships are available to FSHN graduate students. Students are selected to be Graduate Teaching Assistants by the Department Head in consultation with the course instructor.

---

## Financial Aid

Illinois PSM students may not hold assistantships or other tuition and fee waiver-generating appointments; statutory waivers and tuition scholarships are accepted. Financial aid for non-PSM graduate students is available in the form of fellowships, teaching and research assistantships, and tuition and partial fee waivers. Qualified candidates are considered for financial support upon application. Additional information on financial aid for graduate students can be found at [fshn.illinois.edu/graduate/financial-assistance](http://fshn.illinois.edu/graduate/financial-assistance) (<http://fshn.illinois.edu/graduate/financial-assistance/>).

*for the joint program Doctor of Philosophy in Food Science & Human Nutrition and Master of Public Health in Public Health*

---

The M.P.H. can be earned jointly with the Ph.D. in Food Science & Human Nutrition. In the joint program, up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

For additional details and requirements refer to the department's graduate handbook (<http://fshn.illinois.edu/graduate/student-handbook/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

## Programs in Journalism

### Undergraduate Programs:

**major:** Journalism, BS (p. 439)  
**major:** Journalism, BS-MJ (p. 794)  
**minor:** Journalism (p. 901) | Media (p. 919)

### Graduate Programs:

**degree:** Journalism, BS-MJ (p. 794)  
**degree:** Journalism, MS (p. 1463)  
**joint degree:** Journalism, MS and Law, JD (p. 2020)

The department does not offer a Ph.D. degree. For the program leading to the Doctor of Philosophy in Communications, see Communications and Media, PhD (p. 1208).

for the degrees of Master of Science in Journalism and Juris Doctor in Law

For additional details and requirements refer to the department and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

### Requirements

Code	Title	Hours
	Requirements for the J.D. in Law (up to 15 hours of which may be fulfilled by Journalism coursework)	90
	Journalism M.S. requirements (4-16 hours may be satisfied with Law coursework depending on Journalism experience)	32
	Total Hours	91

### Other Requirements

Requirement	Description
Minimum 500-level Hours Required Overall in both programs:	75
Minimum GPA:	3.0

# Landscape Architecture, MLA & Urban Planning, MUP

*for the degrees of Master of Landscape Architecture and Master of Urban Planning*

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**overview of joint degree requirements:** <https://grad.illinois.edu/sites/grad.illinois.edu/files/pdfs/handbook.pdf> [Part II, section 3.5]

**Urban + Regional Planning department website:** <https://urban.illinois.edu/>

**Landscape Architecture department website:** <http://landarch.illinois.edu>

**college website:** <https://faa.illinois.edu/>

For additional details and requirements contact the Department of Landscape Architecture - [ladept@illinois.edu](mailto:ladept@illinois.edu)

For the joint program, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of the sum of 40 Urban Planning hours plus the required number of hours for the Master of Landscape Architecture, 48. At its discretion, Landscape Architecture may count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as the student is required to take no fewer than 40 additional hours in Landscape Architecture. The MUP capstone requirement may be waived for a thesis completed in Landscape Architecture provided faculty from both programs participate on the thesis committee.

For additional details and requirements refer to the department's Programs of Study (<http://www.landarch.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
	Urban Planning core capstone and area requirements	40
LA 470	Social/Cultural Design Issues	3
LA 501	Landscape Arch Theory & Prac	4
	Specialization area coursework	27-35
	Internship	
	Additional undergraduate coursework will be required of students without a BLA. These prerequisites do not count toward the graduate degree.	
LA 599	Thesis Research (min/max applied toward degree)	8
Total Hours		82-90

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum Hours Required Within the Unit:	24
Minimum 500-level Hours Required Overall:	18
Enrollment in each program at least 2 semesters	
Up to 8 hours of UP coursework may be applied to the LA degree at the department's discretion.	
If pursuing the thesis option, the thesis committee chair must be full-time in Landscape Architecture and one committee member must be from Urban Planning.	
Minimum GPA:	3.0

# Law, JD & Chemistry, MS

for the degrees of Master of Science in Chemistry and the Juris Doctorate in Law

---

## This joint degree program of Law, JD and Chemistry, MS is not currently accepting applications; suspension of admissions effective Fall 2021

---

This joint degree program is intended principally for law students who desire to specialize in an area of law in which expertise in chemistry would be a clear asset. Students electing the joint degree option will select a major area of emphasis within chemistry that complements their chosen area of legal emphasis. Each student must develop and gain approval of a coherent, focused plan of study that draws upon related coursework in both law and chemistry.

The JD/MS program involves interdisciplinary work and a flexible plan of study. Students will consult with a faculty adviser in selecting courses. While enrolled in the Department of Chemistry, students have the opportunity to hold an assistantship with a tuition and service fee waiver. It is possible that joint degree students may accelerate their programs by attending summer sessions over one or more summers and thus complete the requirements for both the MS and the JD degrees in three years.

In order to enter the joint program, students must be admitted separately to both departments. Each program's application requirements and deadlines for admission must be met.

For additional details and requirements refer to the department's Graduate Programs (<https://chemistry.illinois.edu/academics/graduate-studies/>), the Law Program (<https://law.illinois.edu/academics/degree-programs/joint-degrees/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
	Chemistry (may include up to 12 hours of thesis credit)	32
	Law	78
Total Hours		122

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall	12 (8 in CHEM)
Minimum GPA:	3.0

**College of Law email** ([law-gradprograms@illinois.edu](mailto:law-gradprograms@illinois.edu))

The J.D./M.S.L.I.S. program allows students who are interested in a career in law librarianship to simultaneously pursue a Juris Doctor degree and a Master of Science in Library Information Science degree. Others interested in the practice of law specializing in information policy or intellectual property law may find this program to be of use.

The program requires:

1. Ninety hours of Law course work, up to 12 hours of which may be fulfilled by course work taken in the School of Information Sciences or otherwise pursuant to a course of study leading to the M.S. degree.
2. Forty hours of Library and Information Science course work, up to 12 hours of which may be fulfilled by course work taken in Law relating to legal research, copyright or related intellectual property law fields, or information and idea dissemination and related fields in the law.

The minimum number of credit hours for the joint degree is 118. The core requirements and total number of hours to obtain a degree in each existing program remain unchanged. The essence of this proposal is the cross-counting of relevant courses in each program toward the total number of hours or units required in the other. The program is structured to allow students to earn both degrees in less time than is required to earn each degree separately. Students interested in either of these programs must apply to both schools separately.

*for the degree of Master of Science in Library & Information Science (on campus & online) and the Juris Doctor in Law (on campus)*

The MSLIS degree program can be completed with or without a thesis, either on campus or online; the Law, JD is an on campus program.

## Thesis Option

Code	Title	Hours
IS 505	Information Organization and Access	4
IS 510	Libraries, Information and Society	4

## Graduate Degree Programs in Natural Resources and Environmental Sciences

### Graduate Majors:

Natural Resources and Environmental Sciences, MS (on-campus & online) (p. 1646)

Natural Resources and Environmental Sciences, PhD (p. 1650)

### Joint Degree Program:

Natural Resources and Environmental Sciences, MS and Law, JD (p. 2025)

---

Prospective students interested in specializing in environmental or natural resource law are invited to explore our joint degree program. This unique program is offered through a collaboration between the College of Law and the Department of Natural Resources and Environmental Sciences. Many law schools have responded to public concern about the environment by offering more courses in natural resources and environmental law. The University of Illinois at Urbana-Champaign goes one step further, however, allowing students to supplement a law program with training in a related scientific field.

---

The Department of Natural Resources and Environmental Sciences is a broad and diverse department offering flexible M.S. and Ph.D. degrees. The mission of the department is to establish and implement research and educational programs that enhance environmental stewardship in the management and use of natural, agricultural, and urban systems in a socially responsible manner. The department is composed of approximately 24 faculty, 60 affiliates, and 160 graduate students. Offering education and research in a variety of disciplines, the department provides a systems-level perspective that few other departments can offer. Further illustrating the breadth of natural resources and environmental sciences, research areas include but are not limited to:

- agronomy/agroecology
- aquatic chemistry
- conservation ecology
- ecosystem science
- environmental education
- fish and wildlife ecology and management
- forest ecology
- humans dimensions of the environment
- landscape ecology
- microbial ecology
- natural resource economics
- natural resource policy
- plant ecology
- physiology and genetics
- restoration ecology
- quantitative and spatial analysis
- soil science and conservation
- sustainability

## Admission

NRES graduate advisers are seeking students with strong letters of reference, evident motivation to undertake graduate study, relevant experience, and good preparation in prerequisite courses. Graduate applicants must have an undergraduate grade point average (GPA) of 3.0 (A = 4.0) calculated on the last 2 years of undergraduate coursework to be admitted with full status. Ph.D. applicants must have earned an M.S. (or expect to be awarded the degree before beginning the NRES program) with a grade point average of at least 3.5. Applicants should have adequate preparation in the fundamental sciences and courses appropriate to their proposed field of study (applicants should talk with prospective advisers about the background they expect). Those without the necessary prerequisites may be accepted conditionally, and the undergraduate courses must be completed before the degree will be awarded. The Graduate Record Examination (GRE) is required of all students applying to the campus M.S. or Ph.D. program. There is no minimum score for admission, and the results will be examined along with GPA, letters of recommendation, statement of purpose, research experience, and other information in the application package. However, successful applicants typically have a combined quantitative/verbal/analytical GRE percentile of at least 70%. Students whose native language is not English are required to submit the results of the TOEFL or IELTS as evidence of English proficiency. Official scores are required to be submitted directly from TOEFL/ETS or IELTS to the University. Minimum English test scores and other information for international applicants can be found at [www.grad.illinois.edu/admissions/apply/begin/international](http://www.grad.illinois.edu/admissions/apply/begin/international) (<http://www.grad.illinois.edu/admissions/apply/begin/international/>). Applicants who are not U.S. citizens must also submit evidence that they have sufficient financial support for their program of study. Prospective graduate students are urged to apply for admission to the degree program as early as possible, preferably six to ten months before the beginning of the semester in which they expect to enroll. Prospective students must review important application information available at <http://nres.illinois.edu/graduate/prospective> (<http://nres.illinois.edu/graduate/prospective/>). Applicants to the campus programs wishing to be considered for a university-level fellowship must apply for admission to the fall semester by December 15th, and, to be considered for any college or departmental funding, the application deadline is January 1st.

## Graduate Teaching Experience

Although teaching is not a Graduate College requirement, experience in teaching is considered an important part of this graduate program, particularly for Ph.D. students.

## Faculty Research Interests

Graduate degree programs in NRES are informed by the major areas of faculty research, which include:

- agronomy/agroecology
- conservation ecology
- ecosystem science
- fish and wildlife ecology and management
- forest ecology
- global environmental change
- human dimensions of natural resources and ecology
- landscape ecology
- microbial ecosystems
- natural resource policy
- plant ecology
- physiology and genetics
- quantitative and spatial methods
- restoration ecology
- soil science and conservation
- sustainability
- water/biogeochemistry
- wetland ecology

Students in NRES can participate in affiliated programs like those listed below.

**Program in Environmental and Resource Economics:** Students involved in the program in Environmental and Resource Economics (pERE) explore the complex relationships between natural resource allocation, environmental quality, and economic prosperity. Students and faculty from five other University departments in addition to NRES are using economics to analyze policy toward some of today's most critical environmental and natural resource issues.

**Human Dimensions of Environmental Systems:** NRES graduate students may participate in HDES, an interdisciplinary program comprised of faculty from six colleges at Illinois. Participants are united in the study of connections between humans and the environment. The program is built on the premise that the best insights are not limited to the domain of a single discipline and is interdisciplinary in all its pursuits.

## Financial Aid

Several sources of financial aid are available within the department:

- research assistantships, supported by federal and grant funds made available to the natural resources and environmental sciences faculty
- teaching assistantships
- departmental fellowships
- University fellowships
- College of Agricultural, Consumer and Environmental Sciences Jonathan Baldwin Turner Fellowships
- waivers of tuition and fees

Most NRES graduate students with financial support have a research assistantship provided by the adviser. Appointments as research and teaching assistants and fellows provide a stipend and waive tuition and some fees.

Financial aid is granted on a competitive basis. Applicants are judged for academic potential based on past performance, experience, motivation, dedication to the designated area of interest and, where applicable, the potential to satisfy the objectives of a donor. Fellowships have minimum GPA and GRE score requirements. Information about the current availability of financial aid can be obtained from the graduate coordinator or, in the case of research assistantships, directly from faculty members working in the area of interest.

*for the degrees of Master of Science in Natural Resources & Environmental Sciences and Juris Doctor in Law*

*For additional details and requirements refer to the department's Graduate Handbook (<http://nres.illinois.edu/graduate/programs/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

## Thesis Option

Code	Title	Hours
NRES 594	NRES Professional Orientation	1
LAW 616	Environmental Law and Pol I	3-4
LAW 618	Natural Resources	2-4
LAW 622	Land Use Planning	2-4
Research/Project/Independent Study Hours (Optional - min/max applied toward degree):		4-8
NRES 599	Thesis Research (min/max applied toward degree)	4-12
Requirements for the JD in Law		90
Total Hours		102

## Other Requirements

Requirement	Description
Other requirements may overlap	
Minimum 500-level Hours Required Overall:	12
Completion, defense and deposit of thesis.	
Students may count up to 12 hours of NRES course work toward the required 90 hours of Law course work. They may also count 8 hours of Law credit toward the 32 hours required for the M.S. degree	
Minimum GPA:	3.0

## Non-Thesis Option

## Learning Outcomes: Natural Resources & Environmental Sciences and Juris Doctor in Law, MS

Learning Outcomes for the degrees of Master of Science in Natural Resources & Environmental Sciences and Juris Doctor in Law

- 
1. Mastery of core knowledge in major field of study and specialized knowledge related to concentration/specialization
  2. Understanding the logic of science, including the philosophy of science and research design
  3. Facility with research tools/techniques and data analysis techniques relevant for major and concentration/specialization
  4. Strong communication skills in conversation, presentation, and writing, particularly scientific/technical writing
  5. Ability to function well professionally, with good leadership skills, well-developed problem-solving abilities, and ethical thinking

# Nutritional Science, PhD and Public Health, MPH

for the Master of Public Health and Doctor of Philosophy in Nutritional Science

---

**departmental website:** <http://www.nutritionalsciences.illinois.edu>

**director of the division and of graduate studies:** Elvira de Mejia

**correspondence and admission information:** Ashley Negangard

**department address:** 240 Edward R Madigan Laboratory, 1201 W. Gregory Drive, Urbana, IL 61801

**phone:** (217) 333-4177

**email:** [nutritionalsciences@illinois.edu](mailto:nutritionalsciences@illinois.edu)

---

The M.P.H. can be earned jointly with the Ph.D. in Nutritional Science. In the joint program up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

---

## Graduate Degree Programs in Nutritional Sciences

Nutritional Science, MS (p. 1662)

Nutritional Science, PhD (p. 1665)

**joint degrees:**

Nutritional Science, PhD and Master of Public Health, MPH (p. 2029)

---

The Division of Nutritional Sciences is the interdisciplinary program for graduate education in nutrition at the University of Illinois at Urbana-Champaign. More than 60 faculty, representing 15 different departments in seven colleges on the Urbana and Chicago campuses, are members of the Division. The Division is a comprehensive program of study leading to the M.S. and Ph.D. degrees, alone or in combination with either the M.D. or M.P.H. degrees or the registration in dietetics (R.D.). Flexible graduate programs of study enable students to individualize their coursework and professional training. In addition, extensive research opportunities are available that address the spectrum from research at the level of the genome and proteome to clinical and population-based intervention studies. Specialties are classified into six broad theme areas in which our faculty and students are most active (see Research Interests (<http://nutrsci.illinois.edu/research/>)). These themes best reflect the areas of nutrition research for which the Division is recognized both nationally and internationally.

---

## Admission

Applicants are expected to have an admission grade point average of 3.0 (A = 4.0) for the last two years of coursework and basic courses in chemistry, biology and mathematics. Deficiencies in these subjects must be removed during the first year of graduate study. The Graduate Record Examination (GRE) is required. Applicants whose native language is not English must achieve a minimum paper-based Test of English as a Foreign Language (TOEFL) score of 550, 213 on the computer-based test or 79 on the iBT TOEFL. Admission in the fall, spring or summer will be considered.

---

## Internship in Dietetics

Students in the Division of Nutritional Sciences can participate in an Academy of Nutrition and Dietetics (AND) accredited graduate dietetic internship program administered through the Department of Food Science and Human Nutrition. The program includes defined graduate course requirements and a six-month dietetic clinical internship. In order to be eligible for the graduate internship program, students must complete all undergraduate course competencies required by the AND for the Registration in Dietetics (R.D.). Students are accepted into the internship by computer matching through the standard dietetic internship application process. More information on the graduate dietetic internship program can be obtained at [fshn.illinois.edu/graduate/dietetic-internship/prospective](http://fshn.illinois.edu/graduate/dietetic-internship/prospective) (<http://fshn.illinois.edu/graduate/dietetic-internship/prospective/>) or from the Department of Food Science and Human Nutrition (260 Bevier Hall; (217)-244-4498).

---

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in this program.

---

## Faculty Research Interests

The Division is composed of faculty whose research interests cover many disciplines within nutrition. Descriptions of faculty research interests and a listing of recent publications are available at the Division website. Six broad theme areas are:

- Animal Nutrition
- Biochemical and Molecular Nutrition
- Community Nutrition, Nutrition Education and Consumer Acceptance

- Dietary Bioactive Components
- Food Safety and Toxicology
- Human and Clinical Nutrition

## Facilities and Resources

The Division (<http://www.nutrsci.illinois.edu/>) office is located in room 240 Edward R. Madigan Laboratory. Office and research laboratory facilities utilized by graduate students in Nutritional Sciences are administered by the home department of the student's adviser.

## Financial Aid

Financial assistance is available in the form of assistantships, scholarships and fellowships. Applicants seeking fall admission and expecting to be considered for financial assistance should file their applications before the preceding December 15th. Later applications may be considered, depending on the space and support available.

*for the Master of Public Health and Doctor of Philosophy in Nutritional Science*

The M.P.H. can be earned jointly with the Ph.D. in Nutritional Science. In the joint program up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

## Political Science, PhD & Law, JD

*for the joint degrees in Juris Doctor of Law and Doctor of Philosophy in Political Science*

---

A joint J.D. and Ph.D. in International Relations is an option for students. Students must be admitted separately to each program as a joint degree candidate. To receive the joint J.D./Ph.D. in International Relations, students must satisfy all existing requirements for the Ph.D. in Political Science, including major and minor field course requirements, scope and methods sequence, tools, qualifying examinations, dissertation design seminar, and dissertation project. Joint degree students would be allowed to count 16 hours of law credit toward their Ph.D. Joint degree students would elect International Relations as their major area, and up to 8 hours of law school course credit would count toward this area. In addition, joint degree students will be permitted to select "Law" as their minor field, using 8 hours of law credit to satisfy minimum course requirements, provided such credit is from course outside the international law subfield (e.g., American constitutional law); this presents a new option for international relations students who otherwise would have to select American politics, comparative politics, or political theory as a minor field. This program allows an exception to the simultaneous conferral rule in that the J.D. may be conferred prior to completion of the Ph.D. degree.

## Political Science: Civic Leadership, MA & Law, JD

*for the joint degree of Juris Doctor in Law and the Master of Arts in Political Science, Civic Leadership Concentration*

---

The M.A./J.D. joint degree program is a track in the Civic Leadership Program that provides qualified students with the opportunity to complete both degrees in just three years of post-baccalaureate study. Illinois students who have been named Civic Leadership Fellows in the fall of their junior year of undergraduate study, and who have taken the LSAT by the time they are selected as a fellow, are eligible for early admission into the College of Law. Students must fulfill the requirements for the M.A. in Political Science with a concentration in Civic Leadership as detailed above. The College of Law will recognize up to 12 hours of credit taken in fulfillment of the Civic Leadership Program M.A. requirements. In addition, a minimum of 78 hours of Law courses will be required to meet the 90 hours required for the J.D. degree. For information contact the Director, Civic Leadership Program, Department of Political Science.

# Public Health, MPH & Community Health, PhD

for the degrees of Master of Public Health in Public Health and Doctor of Philosophy in Community Health

**Department Head:** Kim Graber

**Director of Graduate Studies:** Steven Petruzzello

**Interim Director of Program:** Laura Rice

**Graduate Office:** Julie Jenkins

**Graduate Office Address:** 906 South Goodwin Ave, 112 Freer Hall MC-052, Urbana, IL 61801

**Graduate Phone:** (217) 333-1083

**Graduate email:** [jjenkins@illinois.edu](mailto:jjenkins@illinois.edu)

**Department Website:** <https://ahs.illinois.edu/community-health> (<https://ahs.illinois.edu/community-health/>)

**MPH Website:** <https://ahs.illinois.edu/mph-phd> (<https://ahs.illinois.edu/mph-phd/>)

The Master of Public Health degree can be earned jointly with the PhD degree in:

- Community Health
- Food Science and Human Nutrition
- Human Development and Family Studies
- Kinesiology
- Nutritional Science
- Social Work

In the joint program, up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

Electives from PhD departmental list may be met by MPH core courses. Additionally, the fourth MPH concentration course and elective course may be met by PhD core courses.

Students enrolled in the joint degree program must meet with academic advisors from both the programs to determine the exact plan of study throughout the joint degree program.

for the degrees of Master of Public Health in Public Health and Doctor of Philosophy in Community Health

The M.P.H. can be earned jointly with the Community Health, Ph.D. In the joint program up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

---

## Master of Urban Planning

**Director of MUP Program:** Bumsoo Lee

**Department Website:** [www.urban.illinois.edu](http://www.urban.illinois.edu) (<https://urban.illinois.edu/>)

**MUP Website:** <https://urban.illinois.edu/programs-applying/master-urban-planning/>

---

In the joint program, up to 12 hours of coursework may be applied to both degrees, and the degrees are conferred simultaneously at the completion of the program.

Electives from PhD departmental list may be met by MPH core courses. Additionally, the fourth MPH concentration course and elective course may be met by PhD core courses.

Students enrolled in the joint degree program must meet with academic advisors from both the programs to determine the exact plan of study throughout the joint degree program.

---

Candidates may propose joint programs combining the M.U.P. with other UIUC master's degrees (for example, but not limited to, African Studies, Agriculture and Applied Economics, Civil and Environmental Engineering, Public Health (<http://catalog.illinois.edu/graduate/graduate-majors/community-health/master-pub-health/>), Economics, Landscape Architecture, Latin American Studies, Library and Information Sciences, Natural Resources and Environmental Sciences, and Recreation, Sports and Tourism). For joint programs, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of (a) 80 hours, or (b) the sum of 40 Urban Planning hours plus the required number of hours for the second degree, whichever is greater. (In the latter case, the other program may at its discretion count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as students are required to take no fewer than 40 additional hours in that program.) The MUP capstone requirement may be waived for a thesis completed in another program provided faculty from both programs participate on the thesis committee. Students must be in residence in Urban Planning for at least two semesters.

Consult the department's M.U.P. website (<https://urban.illinois.edu/>) for more information about the admissions process (<https://urban.illinois.edu/programs-applying/master-urban-planning/how-to-apply-mup/>) and joint degree requirements. (<https://web.faa.illinois.edu/app/uploads/sites/2/2020/08/MUP-Program-Handbook-2020-2021.pdf>) joint degree requirements. For additional guidance, please contact the Director of the M.U.P. Program.

*for the degrees of Master of Public Health in Public Health and Master of Urban Planning in Urban Planning*

---

*For additional details and requirements refer to the department's Web site (<https://urban.illinois.edu/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).*

---

For joint programs, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of the sum of 40 Urban Planning hours plus 48 hours for the Master of Public Health. The Master of Public Health may at its discretion count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as students are required to take no fewer than 40 additional hours in that program. The MUP capstone requirement may be waived for a thesis completed in another program provided faculty from both programs participate on the thesis committee. Students must be in residence in Urban Planning for at least two semesters.

## for the degree of Master of Public Health in Public Health

The MPH degree program requires a minimum of 48 hours. The program includes:

1. six required core courses in basic content areas of public health
2. three required courses in the Health Behavior and Promotion concentration, as well as one additional concentration course from an approved list
3. an applied practice experience
4. an integrative learning experience
5. seminars and electives

MPH students must complete all core coursework before enrolling in the MPH applied practice experience. It is highly preferable for the applied practice experience to occur during summer term. The integrative learning experience must be completed in the last term of study. There is no thesis requirement. A pre-requisite for applying to the MPH program is a college level course in mathematics, statistics, biostatistics, or epidemiology.

Applications for the Master of Public Health (MPH) are only accepted for Fall admission, and are accepted until **April 1**. The program generally takes 1.5 to 2 years to complete.

---

## About the Joint Degree

This joint master's degree includes a program of language and area studies courses leading to an interdisciplinary Master of Arts degree in Russian, East European, and Eurasian Studies, as well as a program of study leading to the Master of Science in Library and Information Science. The joint degree matches area expertise with professional education, and prepares students for professional careers in all types of information organizations, including libraries.

---

## Graduate Degree Programs in Russian, East European, and Eurasian Studies

The Russian, East European, and Eurasian Center offers a two-year program of language and area studies courses leading to an interdisciplinary Master of Arts degree. The program is designed to meet the needs of students proceeding to disciplinary-based doctoral work and those planning non-academic professional careers with area expertise. Programs offered by the Center:

Russian, East European, and Eurasian Studies, MA (p. 1727)

Russian, East European, and Eurasian Studies Minor (p. 1995)

Balkan Studies Minor (p. 1966)

Joint Degree in Russian, East European, & Eurasian Studies, MA and Library & Information Science, MS (p. 2041)

---

## Admission

Prospective graduate students should have completed at least two years of Russian or another language of Eastern Europe or Eurasia. Applicants must submit the Graduate College application for admission, certified transcripts of all undergraduate and graduate work, Graduate Record Examination (GRE) scores (verbal, quantitative, and written), three letters of reference, and a writing sample. International students must submit Test of English as a Foreign Language (TOEFL) scores. All applicants must meet the requirements of the Graduate College. Admission is ordinarily in the fall semester, but occasional exceptions are made for spring and summer admission.

---

## Faculty Research Interests

The faculty (<https://reec.illinois.edu/people/groups/faculty/>) affiliated with the Center represent a broad range of interests and methodological approaches in the social sciences and the humanities, as well as the professional schools.

---

## Facilities and Resources

The Russian, East European, and Eurasian Center was founded in 1959 and designated a National Resource Center by the U.S. Department of Education. It serves as an intellectual and institutional hub for the University community and the public through conferences, lectures, colloquia, visiting scholars, study groups, exhibits, films, and other activities.

The annual Summer Research Laboratory on Russia, Eastern Europe, and Eurasia features special workshops, seminars, lectures, films, and other events, most of which are free and open to the public.

The International and Area Studies Library (<https://www.library.illinois.edu/ias/>) at the University of Illinois has one of the country's three outstanding Slavic library collections (<https://www.library.illinois.edu/ias/spx/>). The Slavic Reference Service (<https://www.library.illinois.edu/ias/spx/srs/>) serves all faculty and students with expert bibliographers.

Language training is provided by the Departments of Germanic Languages & Literatures (<https://germanic.illinois.edu/>), Linguistics (<https://linguistics.illinois.edu/>), and Slavic Languages & Literatures (<https://slavic.illinois.edu/>) in:

- Bulgarian
- Bosnian, Croatian, Serbian
- Czech
- Old Church Slavonic
- Polish
- Russian
- Turkish
- Ukrainian
- Yiddish

## Financial Aid

Financial aid is awarded on an academic-year basis. All fellowships and assistantships include a stipend plus tuition and fee waiver. Qualified incoming students who are U.S. citizens or permanent residents should also apply for U.S. Department of Education Title VI Foreign Language and Area Studies (FLAS) fellowships (<http://publish.illinois.edu/illinoisflas/>) offered through REEEC or other FLAS-granting campus centers.

Qualified students may also be eligible for other fellowships at the campus or departmental level. A limited number of teaching and graduate assistantships, which include a tuition and fee waiver, may also be available to outstanding students through REEEC and other units. The Graduate College maintains a list of available assistantships (<https://grad.illinois.edu/clearinghouse/>); additional information on need-based financial aid may be obtained from the Graduate College Fellowships Office (<https://grad.illinois.edu/fellowships/about/>).

*for the degrees of Master of Arts in Russian, East European, and Eurasian Studies & Master of Science in Library and Information Science*

The joint degree requires 56 credit hours divided between REEES and iSchool courses. A master's thesis or major research paper is required, to be based on research using primary sources, including sources in the language used to meet the competency requirement. A minimum GPA of 3.25 must be maintained throughout in order to remain in good academic standing.

For additional details and requirements refer to the department's Graduate Programs (<https://reeec.illinois.edu/academics/ma-program/>) and the Graduate College Handbook (<http://www.grad.illinois.edu/gradhandbook/>).

Code	Title	Hours
REES 550	Seminar in REEE Studies	4
IS 505	Information Organization and Access	4
IS 510	Libraries, Information and Society	4
IS 530	Collection Development (Section C: REEES Bibliography & Research Methods)	4
<b>Core courses in Russian, East European, or Eurasian Studies, including the thesis option.</b>		<b>24</b>
These credits must be earned in at least three different disciplines outside of REEES, with at least one course at the 500-level in addition to the thesis. Hours for the thesis, REES 599, may be included up to a maximum of 8; these hours cannot be counted towards the IS electives described below.		
<b>Elective IS courses, at least 12 hours of which must be at the 500-level.</b>		<b>16-18</b>
These credits should be selected in consultation with an advisor who is a member of the iSchool faculty.		
Electives may include:		
IS 585	Bibliographic Metadata	
IS 591	Advanced Topics in Information Services	
IS 592	Advanced Topics In Information Organizations	
<b>Total Credit Hours:</b>		<b>56</b>

## Other Requirements

Requirement	Description
Language Requirement: Third-year competency in Russian or another language of Eastern Europe or Eurasia. Credit hours from language courses do not count towards the degree.	
Students in the joint degree must be registered in each program for at least one semester.	
Minimum GPA:	3.25

# Social Work, MSW and Social Work, PhD

for the joint program of Master of Social Work Major in Social Work and Doctor of Philosophy in Social Work

**school office:** 1010 W. Nevada St., Urbana, IL 61801

**department website:** Urban + Regional Planning (<https://urban.illinois.edu/>)

**program website:** <https://urban.illinois.edu/prospective-students/academic-programs/master-of-urban-planning/> (<https://urban.illinois.edu/prospective-students/academic-programs/master-of-urban-planning/>)

**department faculty:** <https://urban.illinois.edu/people/meet-our-faculty/>

**college website:** College of Fine & Applied Arts (<https://faa.illinois.edu/>)

**department office:** 111 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820

**phone:** (217) 333-3890

**email:** [urbplan@illinois.edu](mailto:urbplan@illinois.edu)

Candidates may propose joint programs combining the M.U.P. with other UIUC master's degrees (for example, but not limited to, Agriculture and Applied Economics, Civil Engineering, Geography, Public Health, Recreation, Sports and Tourism, Natural Resources and Environmental Sciences, African Studies, Economics, Latin American Studies, and Library and Information Sciences).

Consult the department's M.U.P. Admissions (<https://urban.illinois.edu/programs-applying/master-urban-planning/how-to-apply-mup/>) web page for more information about the admissions process. For additional guidance, please contact the Director of the M.U.P. Program.

## Graduate Degree Programs in Urban Planning

Sustainable Urban Management, MS (p. 1801)

Urban Planning, MUP (p. 1849)

Regional Planning, PhD (p. 1720)

### joint programs:

Urban Planning, MUP & (p. 2010) Architecture, MARCH (p. 2010)

Urban Planning, MUP & Law, JD (p. 2044)

Urban Planning, MUP & Landscape Architecture, MLA (p. 2021)

Urban Planning, MUP & Public Health, MPH (p. 2038)

Urban Planning, MUP & any Illinois master's degree in related field (p. 2045)

*for the degree of Master of Urban Planning and any other approved Master's degree*

Consult the department's M.U.P. Admissions (<https://urban.illinois.edu/programs-applying/master-urban-planning/how-to-apply-mup/>) web page for more information about the admissions process. For additional guidance, please contact the Director of the M.U.P. Program.

For joint programs, at least 40 hours must be in Urban Planning, including all core courses and capstone requirements. The two programs must total a minimum of (a) 80 hours, or (b) the sum of 40 Urban Planning hours plus the required number of hours for the second degree, whichever is greater. (In the latter case, the other program may at its discretion count up to 8 hours of Urban Planning courses as electives in meeting its degree requirements as long as students are required to take no fewer than 40 additional hours in that program.) The MUP capstone requirement may be waived for a thesis completed in another program provided faculty from both programs participate on the thesis committee. Students must be in residence in Urban Planning for at least two semesters.

# Veterinary Medical Scholars - DVM & VMS PhD Joint Programs

*for the degrees of DVM and the Doctor of Philosophy in Veterinary Medical Science*

---

**dean of the college:** Peter D. Constable

**associate dean for research & advanced studies:** Dr. Lois Hoyer

**director of graduate studies:** Timothy M. Fan

**overview of admissions & requirements:**

**overview of grad college admissions & requirements:** <https://grad.illinois.edu/admissions/apply> (<https://grad.illinois.edu/admissions/apply/>)

**college website:** College of Veterinary Medicine (<http://www.vetmed.illinois.edu/>)

**program website:** Veterinary Medical Scholars Program (<https://vetmed.illinois.edu/education/dvm-phd-program/>)

**contact:** Nikki Hausmann

**program office:** 2001 South Lincoln Avenue, Urbana, IL 61802

**phone:** 217-333-4291

**email:** [nhausman@illinois.edu](mailto:nhausman@illinois.edu)

Prospective students for the D.V.M./MPH program may contact:

Dr. John Herrmann, [jah1110@illinois.edu](mailto:jah1110@illinois.edu)

<https://vetmed.illinois.edu/education/dvm-mph-program/>

---

## Graduate Degree Programs in the Veterinary Medical Scholars Program

**DVM and VMS - Comparative Biosciences, PhD**

**DVM and VMS - Pathobiology, PhD**

Students accepted into the Veterinary Medical Scholars Program (<https://vetmed.illinois.edu/education/dvm-phd-program/>) can complete a D.V.M. and Ph.D. simultaneously.

## Learning Outcomes: DVM and Veterinary Clinical Medicine, PhD

Learning Outcomes for the degrees of DVM and PhD

---

Graduates of the College of Veterinary Medicine professional program shall:

1. Demonstrate knowledge of the basic sciences that form the foundation of veterinary practice.
2. Understand the principles of scientific inquiry and shall be able to apply those principles to solve problems by posing questions, forming hypotheses, and obtaining and evaluating data relevant to the practice of veterinary medicine.
3. Demonstrate knowledge of the clinical conditions that form the foundation of veterinary practice.
4. Be able to apply their knowledge, skills, and the principles of scientific inquiry to analyze, evaluate, and solve veterinary problems and synthesize diagnostic, therapeutic, and preventative plans.
5. Possess technical skills essential for success in the practice of veterinary medicine and surgery(i.e., they shall be “practice ready” with Day 1 clinical skills).

## Online and Site-Based Graduate Programs

Many graduate programs are offered completely online or in a format of online with some campus visits required. Some programs are offered at site-based locations throughout Illinois. Click on the programs below for more details.

Accountancy, iMSA (<http://catalog.illinois.edu/graduate/graduate-majors/accountancy/msa-online/>)  
 Accountancy Analytics (p. 988) | Data Analytics in Accountancy (p. 1897) | Taxation (p. 1932)  
 Accounting Data Analytics, CERT (p. 1938)  
 Aerospace Engineering, MS (<http://catalog.illinois.edu/graduate/ms-aero-engin/#degreerequirementstext>)

# PROFESSIONAL PROGRAMS

---

Degree Programs (emphasis)	School/College	Professional
Law	LAW	JD (p. 2049)
Medicine	CI MED	MD (p. 2053), MD/PhD (p. 2051)
Veterinary Medicine	VMED	DVM ( <a href="http://catalog.illinois.edu/vetmed/">http://catalog.illinois.edu/vetmed/</a> )

## Juris Doctor Program

The 3-year JD program at Illinois Law provides students with a first-rate legal education. The curriculum is both timely and robust, exposing students to a healthy blend of doctrinal law, theoretical perspectives, and real-world skills.

JD Program (<http://catalog.illinois.edu//law.illinois.edu/academics/degree-programs/jd-program/>)

# Learning Outcomes: Law, JD

Learning Outcomes for the degree of Juris Doctor of Law

---

1. Demonstrate basic knowledge of American substantive and procedural law. This requires:
  - a. The foundational rules governing liability for civil and criminal wrongdoing.
  - b. The foundational rules that regulate the transaction of business among individuals and the ownership of property.
  - c. The constitutional rules that shape the American legal system.
  - d. The procedural rules that govern court adjudication.
  - e. Several advanced areas of substantive or procedural law or both.
2. Use legal reasoning and legal analysis in advising and representing clients. This requires:
  - a. The ability to identify, formulate, and apply legal rules.
  - b. The ability to read and analyze judicial opinions.
  - c. The ability to parse and interpret statutes, regulations, contracts, and other similar legal texts.
  - d. The ability to construct legal arguments and evaluate critically one's own and others' legal arguments.
  - e. The ability to identify and evaluate the practical consequences of various legal rules and to formulate policy arguments for and against those rules.
3. Bring practical legal skills to bear in resolving clients' legal problems. This requires:
  - a. The ability to write clearly and effectively in a wide range of legal contexts and for various audiences, including courts, clients, and opposing counsel.
  - b. The ability to articulate one's thoughts verbally in a clear and effective manner.
  - c. Knowledge of and ability to use tools of legal research.
  - d. The ability to identify and gather factual information relevant to the application of legal rules.
  - e. The ability to work collaboratively with others, including others with opposing interests.
  - f. Knowledge and understanding of practical aspects of the legal profession and market for legal services.
4. Conduct himself or herself professionally and in keeping with the highest standards of civic virtue. This requires:
  - a. Knowledge and appreciation of the ethical rules governing legal practice.
  - b. The ability to learn and grow professionally through self-reflection and continuing education.
  - c. An understanding of the lawyer's distinctive role in society and of the lawyer's concomitant responsibility to contribute to society through public service and pro bono representation.
  - d. The self-awareness and empathy necessary to understand and be understood across various social, economic, cultural, political, national, racial, gender, and ethnic backgrounds.

# Medical Scholars Program

*for the joint degrees of Medical Doctor and Doctor of Philosophy*

**program director: James M. Slauch, PhD**

**program address: 320 Illini Union Bookstore MC-325, 807 South Wright Street, Champaign, Illinois 61820**

**overview of Carle Illinois College of Medicine admissions & requirements:** CI MED Admissions (<https://medicine.illinois.edu/admissions/>)

**overview of graduate college admissions & requirements:** Graduate Admissions (<https://grad.illinois.edu/admissions/apply/>)

**email: MSP@medicine.illinois.edu**

---

This program combines the MD with any PhD program available from the University of Illinois Urbana-Champaign.

---

## Graduate Degree Programs

The Medical Scholars Program enables students to combine the study of medicine leading to the MD with graduate study in a second field leading to the PhD. The program seeks to produce leaders uniquely qualified and motivated to address the issues shaping modern medical practice, including health care systems, biomedical research, advances in science and technology, and pressures arising from socioeconomic forces.

## Admission

To enter the Medical Scholars Program (MSP), applicants must meet the admission requirements of, and be accepted by, both the Carle Illinois College of Medicine (CI MED) and the Graduate College. Prospective students must demonstrate a potential for creativity and original research, a sense of social awareness and service, academic excellence, competence in leadership and interpersonal relationships, and an appropriate rationale for their interest in combined study. Students apply to CI MED via the American Medical College Application Service (<https://students-residents.aamc.org/applying-medical-school/applying-medical-school-process/applying-medical-school-amcas/>)<sup>®</sup> (AMCAS<sup>®</sup>) (See <https://medicine.illinois.edu/admissions/>). Only U.S. citizens and permanent residents are eligible to apply. State residency is not a factor. Applicants will NOT need to designate themselves as MD/PhD applicants in the AMCAS application. Over the first year of medical school, students will receive advising from the MSP and be able to explore different PhD programs and potential advisors. Near the end of the first year, interested students will complete an MD/PhD application to be reviewed by an MSP Admissions Sub-Committee. Upon conditional acceptance to the MSP track, students must apply for admission to a graduate program and the Graduate College. The Medical College Admissions Test (MCAT) is required for admission to medical school; most graduate programs accept the MCAT in lieu of the GRE.

## Approved Areas of Specialization

The University offers graduate study in more than 100 fields in which MSP applicants may propose combined degree study. Indeed, MSP students can pursue graduate study leading to a PhD in any discipline offered on campus. In addition to the traditional biomedical sciences, students may pursue graduate study in engineering, the physical sciences, humanities and social sciences.

## Requirements

Students in the Medical Scholars Program are expected to fulfill all the degree requirements of both the Carle Illinois College of Medicine and the graduate PhD program. At their discretion, graduate programs allow medical school classes to count toward completion of a portion of the graduate degree. Faculty advisors from the medical school and from the graduate unit help students set realistic long-term study plans that integrate the two curricula.

## Financial Aid

All medical students are responsible for their tuition during the first phase of medical school. Students accepted into the MSP will be funded by their respective graduate program during their PhD studies. This includes a tuition waiver and stipend in the form of a research assistantship, teaching assistantship, or fellowship. Upon completion of the PhD and return to the medical school curriculum, MSP students will receive a CI MED tuition scholarship to complete Phase 2 and Phase 3. Students are highly encouraged to apply for fellowship support from the National Institutes of Health that could fund a portion of the graduate work and last two years of medical school.

The PhD program can count up to 12 credit hours of medical school coursework toward completion of the PhD course requirements. The individual graduate programs will decide how much credit can be used to fulfill their requirements.

Upon completion of the PhD and depending on the nature of the thesis work, the CI MED may waive the MD requirement for the capstone project or the data science project. Alternatively, on a case-by-case basis, the required number of weeks of electives could be reduced for MD/PhD students.

Students must be enrolled in the term that they defend their PhD. MSP students can be enrolled in either graduate school or medical school the semester they defend. The individual degrees will be awarded upon completion of the respective requirements.

# Carle Illinois College of Medicine

**college website:** <https://medicine.illinois.edu/>

**college faculty:** <https://medicine.illinois.edu/faculty/>

The University of Illinois at Urbana-Champaign Doctor of Medicine (MD) program is conducted on the Urbana Campus in the Carle Illinois College of Medicine. The college offers a professional, four-year MD degree program that integrates engineering concepts with the traditional pillars of medicine, namely the basic health sciences and clinical training, and prepares students for postgraduate medical education programs. This curriculum produces students who are trained and equipped to incorporate analytical and quantitative techniques, modeling and computation, innovation, and human systems approaches to advancing and delivering high quality healthcare. The curriculum emphasizes professional, compassionate, and ethical care and the utilization of team-based approaches to transform healthcare delivery and improve healthcare outcomes through the continuum of care: preventive medicine through acute care. In addition to required courses, elective rotations provide opportunities for students to explore specialized areas of interest. The educational program spans four (4) years. Students are exposed to extensive clinical training, professional development and scientific and engineering education through a case-driven active learning curriculum.

The college selects applicants with the best combination of academic and extracurricular achievement, maturity, integrity, and motivation. Selection of students is based on an assessment of all available data and an evaluation of skills and aptitude. The quality of work in all subject areas is considered, with an emphasis on quantitative methods, breadth of education, and experiences that demonstrate initiative, creativity and interest in compassionate patient care.

For more information about the University of Illinois at Urbana-Champaign MD program, including Admissions, Financial Aid, and the Curriculum, please consult <https://medicine.illinois.edu/>.

BSE Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/BSE/>)

## Biomedical Sciences Engr Courses

**BSE 600 Global One Health** credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/600/>)  
Same as VCM 547. See VCM 547.

**BSE 601 Anatomy** credit: 0 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/601/>)  
Tailored to follow the organ system courses in allowing medical students to learn the structure and function of the circulatory, respiratory, renal, digestive, neuro-musculoskeletal, genitourinary and reproductive systems, as well as to ways to integrate ethical issues into the study and application of anatomy. No graduate credit. 0 professional hours. Approved for S/U grading only. May be repeated in separate semesters. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine curriculum.

**BSE 612 Foundations: Molecules to Populations** credit: 13 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/612/>)  
This course, which covers the fundamental elements of medical science, serves as a baseline for the rest of the medical school curriculum. Topics to be covered include foundational anatomy, cell biology, histology, physiology, integration of engineering science, systems, microbiology, pharmacology, genetics, and behavioral science, concepts of populations, social behavior, chronic disease, health care team, patient safety, statistics, big data, Patient-Centered Medical Home, palliative care, quality, compensation, and mobile health technologies. No graduate credit. 13 professional hours. Approved for S/U grading only. May be repeated up to 13 hours in the same terms, to a maximum of 39 credit hours in separate terms, with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 631 Cardiovascular** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/631/>)  
Topics include ischemic heart Dx, cardiomyopathy/CHF, aortic stenosis, atrial fibrillation, peripheral vascular disease, pediatric ASD. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 12 credit hours with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 632 Respiratory** credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/632/>)  
Topics include asthma – peds, COPD, Pulmonary Fibrosis, Respiratory failure, pulmonary vasculitis. No graduate credit. 3 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 9 credit hours with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 633 Renal** credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/633/>)  
Topics include UTI with pyelonephritis, urinary obstruction-BPH, acute renal failure-toxic, chronic renal failure-DM, polycystic renal disease-peds. No graduate credit. 3 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 9 credit hours with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 634 Clinical Neuroscience** credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/634/>)  
Topics include neurovascular disorders, seizures, brain injury, dementia, tumors of the brain, disorders involving neuroinflammation, psychotic disorders, affective disorders, anxiety disorders, as well as disorders of the peripheral nervous system and neuromuscular junction. No graduate credit. 5 professional hours. Approved for S/U grading only. May be repeated in separate semesters, for a total of 15 credit hours with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 635 Musculoskeletal and Integument** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/635/>)

Topics include primary inflammatory diseases such as rheumatoid arthritis, lupus, polymyalgia rheumatica and associated disorders, degenerative diseases of the joints such as osteoarthritis, primary diseases of muscle, primary diseases of bone such as osteoporosis and osteogenesis imperfecta as well as mechanical trauma to bone leading to fracture. The course will also cover disorders of the integumentary system. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 12 credit hours with approval from the Student Progress and Promotions Committee. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 636 Digestion, Nutrition, & Metabolism** credit: 1 to 5 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/636/>)

Topics include malabsorption syndrome, vitamin D deficiency, G6PD deficiency, TPN, obesity, GERD with stricture/Barretts, Crohn's disease, peptic ulcer disease with hemorrhage, chronic diarrhea, pyloric stenosis – peptic hepatitis C, and colonic polyposis. No graduate credit. 1 to 5 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 15 credit hours with approval from the Student Progress and Promotions Committee. Available for honors grade. Prerequisite: Participation in ongoing study of the digestive system. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 638 Endocrine, Genitourinary, & Women's Health** credit: 1 to 10 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/638/>)

Topics include diabetes – type II, ketoacidosis, hypothyroidism, hyperthyroidism, adrenal insufficiency, Cushing's syndrome, diabetes insipidus, hypogonadism, erectile dysfunction, testicular torsion, infertility, sexual orientation, BPH, dysmenorrhea, menorrhagia, polycystic ovarian disease, cervical dysplasia, menopause – vasomotor, pelvic pain, normal delivery, breach, multiple gestation, medical illness of pregnancy – diabetes, and placenta previa. No graduate credit. 1 to 10 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 30 credit hours with approval from the Student Progress and Promotions Committee. Available for honors grade. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 642 Hematology, Oncology, Infection, and Immunity** credit: 1 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/642/>)

Topics include lung cancer, colon cancer, breast cancer, renal cancer, prostate cancer, pancreatic cancer, iron deficiency anemia, sickle cell anemia, lymphoma- non-Hodgkin, acute myelocytic leukemia, chronic lymphocytic leukemia, idiopathic thrombocytopenia, pneumonia, sepsis UTI – pyelonephritis, cellulitis, HIV anaphylaxis, allergic dermatitis, and myocarditis encephalitis. No graduate credit. 1 to 6 professional hours. Approved for S/U grading only. May be repeated in separate semesters for a total of 24 credit hours with approval from the Student Progress and Promotions Committee. Available for honors grade. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 644 Multisystem Conditions** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/644/>)

The Multisystem Conditions course is a required course for students in Phase 1 of the Carle Illinois College of Medicine Curriculum. In this course, students work in small groups to approach complex diseases and conditions they may see in the clinical environment. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Restricted to students enrolled in Phase 1 of the Carle Illinois College of Medicine curriculum.

**BSE 645 Synthesis & Summary** credit: 6 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/645/>)

This course will review critical concepts in the areas of Behavioral Science, Biochemistry, Cells and Tissues, Human Development and Genetics, Microbiology, Immunology, Pathology, and Pharmacology, Population Health. The course will be organized around the major organ systems: Blood and Lymphoreticular System, Cardiovascular, Endocrine, Gastrointestinal, Hematology and Oncology, Musculoskeletal, Neurology, Psychiatry, Renal, Reproductive, Respiratory, Skin and Subcutaneous Tissue. No graduate credit. 6 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to Carle Illinois College of Medicine Students.

**BSE 646 Synthesis & Summary - Phase 2** credit: 0 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/646/>)

An optional elective for students who are at the end of Phase 2 in the Carle Illinois College of Medicine curriculum. Designed to be student-centered. During the course, you will review how the basic science disciplines fit together, identify personal content weaknesses and work to deepen your understanding, create a Step 2 study strategy, and prepare for Step 2 in a manner that values wellness as well as growth. No graduate credit. 0 to 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine curriculum.

**BSE 650 Global Studies/Service Learning Elective** credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/650/>)

This course will engage the student in interdisciplinary studies or projects and demonstrate understanding of complex global events and processes of globalization. Students will learn about issues and problems in health care from a global perspective. No graduate credit. 1 to 4 professional hours. Approved for S/U grading only. May be repeated to a maximum of 28 hours. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

**BSE 655 Research Elective** credit: 1 to 16 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/655/>)

The goal of this course is to introduce the students to the foundations of selected multi-disciplinary research in medical/engineering field. Students will learn about the purpose for research; identifying researchable issues; finding, evaluating, and using sources effectively; recognizing methods associated with different types of data and disciplines; and writing a literature review. No graduate credit. 1 to 16 professional hours. Approved for S/U grading only. May be repeated up to 16 hours in the same semester, to a maximum of 64 hours in separate semesters. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

**BSE 660 Self-Designed Study** credit: 1 to 16 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/660/>)

Students will develop skills and gain experience working collaboratively with other professional through a self-designed study. Develop a self-guided study when students have an interest in an intellectual issue that is best studied through an integrative approach based in multiple academic disciplines. This course will introduce the student to a selected multi-disciplinary study or project in the medical/engineering field, addresses appropriate methodology, provides opportunities for advanced level research or other creative projects, and culminates in an integrative experience. It must be arranged between the student and an individual faculty member or external collaborator, and subsequently approved by the dean of Academic Affairs. No graduate credit. 1 to 16 professional hours. Approved for S/U grading only. May be repeated up to 16 hours in the same semester to a maximum of 32 hours over separate semesters. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

**BSE 665 Special Topics** credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/665/>)

Subject offerings of new and developing areas of knowledge in medicine intended to augment the existing curriculum. No graduate credit. 1 to 4 professional hours. Approved for S/U grading only. May be repeated to a maximum of 16 hours in the same or subsequent semesters. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

**BSE 666 Academic Progress I (Longitudinal)** credit: 0 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/666/>)

Provides students with an opportunity to demonstrate core medical skills. The course includes assessment of students' understanding of clinical skills, professionalism, anatomy, and medical knowledge. Areas covered in the course include: cardiovascular, respiratory, renal, neurology, musculoskeletal, digestive, nutrition, metabolism, endocrine, genitourinary, oncology, hematology, infection, and immunity. No graduate credit. 0 professional hours. Approved for S/U grading only. May be repeated in separate semesters. Prerequisite: Restricted to Carle Illinois College of Medicine students.

**BSE 680 Innovation, Design, Engineering and Analysis Projects (Longitudinal)** credit: 0 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/680/>)

Innovation, Design, Engineering and Analysis Projects (IDEA) is a required course for students in Phase 2 of the Carle Illinois College of Medicine curriculum. In this course, students work independently and in small groups to solve challenges they are presented with in the clinical environment. No graduate credit. 0 to 6 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 15 hours. Available for honor grades. Prerequisite: Restricted to students enrolled in Phase 2 of the Carle Illinois College of Medicine curriculum.

**BSE 685 Medicine - Capstone Project (Longitudinal)** credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/685/>)

Selecting one of the clinical challenges investigated during the Innovation, Design, Engineering and Analysis Projects (Longitudinal), students will work to potentially translate new approaches, technologies, and treatments in healthcare. No graduate credit. 2 to 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 professional hours. Prerequisite: Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine curriculum.

**BSE 686 Medicine - Data Science Project (Longitudinal)** credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/686/>)

Develop skills in data science for health care through the Data Science Project. Identify an exciting data-driven question, find data sources to address the question, and access and utilize those data to improve clinical care. Students will interact with databases, utilize tools for analyzing clinical or molecular data, and learn about the immense potential of medical data science while familiarizing themselves with the issues of human subject's protection and privacy regulations around data. No graduate credit. 2 to 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine curriculum.

**BSE 690 Research** credit: 1 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/690/>)

Carle Illinois students are encouraged to participate in research in order to enhance their scientific reasoning, and fulfill the college's mission of developing "Physician Innovators". This course will allow students to engage in a broad spectrum of research experiences. Students will work closely with a research mentor at the University of Illinois at Urbana-Champaign to develop their ideas and generate a list of research outcomes. No graduate credit. 1 to 8 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 16 hours. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 700 Innovations in Problem Based Learning** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/700/>)

This elective will provide students multiple opportunities to identify compassionate innovation through problem-based learning facilitation. The students will learn how to facilitate a PBL session and how to identify moments in cases where compassionate innovation can be furthered. This will be done through creating additional probes or tasks in the cases to be used by future facilitators. Students will also have the opportunity to create notes and evaluations on first year students. These notes/evaluation will be reviewed by Carle Illinois facilitators. The overall goal of this is not only to improve cases for current PBL students, but to assist students participating in the elective in ideation and entrepreneurship. This will help students as they create IDEA projects in the clerkships as well as preparing them for Capstone and potentially Data Science projects. Based on student interest, certain areas of this elective may be emphasized to achieve student goals. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. Restricted to students enrolled in the MD or MD/PhD program at Carle Illinois College of Medicine.

**BSE 701 Introduction to Telemedicine** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/701/>)

This introduction to telemedicine will help students understand the role of telemedicine in various contexts such as in primary care, for underserved or rural patients, during times of crisis (disasters, pandemics) and more. Considerations include benefits & limitations, tools & technology, patient interactions & follow-up, insurance considerations, legal and regulatory issues, and research. Students will have an opportunity to research an area of telemedicine and present what they have learned. This could be new uses of telemedicine, new tools, policy/legal considerations, expanding the reach of telemedicine, or any other issue related to telemedicine. Outputs could include a literature review, program plan, roadmap, white paper or other presentation medium. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**BSE 702 Medical Spanish** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/702/>)

Carle Illinois College of Medicine strives to support physicians who want to serve diverse populations. To that end, students may enroll in a medical Spanish course. This hybrid online course allows students to increase their proficiency in Spanish, while also practicing with a standardized patient. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**BSE 703 Medical Informatics** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/703/>)

A detailed overview of biomedical and health informatics for medical students. The course provides up-to-date details on the informatics field, which includes: electronic health records, data standards and interoperability, clinical decision support, healthcare data analytics, population health, patient engagement, and telemedicine. It also describes and sets the context for new technologies, such as SMART on FHIR, machine learning, artificial intelligence, and wearables. No graduate credit. 2 professional hours. Approved for S/U grading only. Available for honors grades. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**BSE 704 Medicine in Literature** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/704/>)

The medical encounter between patients and physicians has been represented in literary texts such as poems, short stories and novels for centuries. In this elective, students will be given the opportunity to reflect on the medical experience through an analysis of literary texts from various time periods and cultural contexts. Particular attention will be paid to the difference in perspective by patients, physicians and other actors in the healthcare setting. Our reading of literature will be complemented by texts from the field of narrative medicine, which uses the tools of literary analysis and close reading to understand patients' histories and fine-tunes awareness of the cultural and social determinants of health. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**BSE 705 Race in Medicine** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/705/>)

This elective provides an opportunity to explore the topics of unconscious bias, history of race in medicine and effects on systemic racism in medicine. The goal is to give time to grow in personal insight and development in this area to progress to become a compassionate and unbiased health care provider. Progress towards this goal will be made through the personal journey of completing a 21 day equity challenge and reflection paper, participation in online discussion boards, and group projects looking at the history and current state of racism and social determinants of health in medicine. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois college of Medicine curriculum. The course is only available during the Discovery Learning timeframe.

**BSE 706 Literature Review in Pathology** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/706/>)

Pathology is a multidisciplinary science that connects theory (basic sciences) with practice (clinical sciences). This elective provides students with opportunities to explore the role of pathology in medical education. This course might be of particular interest to those who are generally interested in medical education and/or pathology as a future specialty. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Restricted to students enrolled at the Carle Illinois College of Medicine.

**BSE 710 Computational Genomics** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/710/>)

The first week of this elective is an intensive course for scientists and clinicians covers the basics of computational genomics, while integrating the latest technologies and computational methodologies. University of Illinois faculty and Mayo Clinic scientists teach lectures and lead hands-on lab exercises in a variety of subject areas including genome sequencing and assembly, polymorphism and variant analysis, epigenomics, and systems biology. The second week is an in-depth independent study that focuses on a project using the skills from the first week. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the Carle Illinois College of Medicine.

**BSE 711 Climate Aware Physicians** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/711/>)

Medical students should learn how to practice medicine in the context of the current health impacts of climate change. Throughout the U.S. and globally, climate change contributes to increasing morbidity and mortality, including heat illness, respiratory and cardiovascular disease from air pollution, vector and water borne diseases, food and water insecurity, mental stress, and injuries. We highlight health threats, policies, and actions for physicians, engineering/medical researchers, and medical students. No graduate credit. 2 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 720 Advanced Anatomy** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/720/>)

Provides a focused concentration on gross anatomy via literature review and intensive cadaver dissection related to the student's specific clinical interest. Topics will emphasize clinical conditions that have clear anatomic correlates. Key topics will include the 3D relationships of gross anatomical structures, foundational anatomical knowledge required to interpret results of different imaging modalities, and the application of anatomical knowledge in carrying out surgical, diagnostic, or therapeutic clinical procedures. No graduate credit. 4 professional hours. Approved for S/U grading only. Available for honors grades. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**BSE 730 Introduction to Deep Learning on Healthcare Data** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/BSE/730/>)

Covers deep learning methods, healthcare data and applications using deep learning methods. Includes activities such as online lectures or video lectures, programming labs, literature review, and individual or group presentations. The overall goal is to understand basic data science workflow for healthcare data such as electronic health records, clinical notes, and medical images, to learn basic deep learning models, and to learn the structure of data science projects. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Experience with Python programming, basic machine learning, and Jupyter notebooks. Restricted to students enrolled in the Carle Illinois College of Medicine curriculum.

**BSE 790 Understanding the Response to the COVID-19 Pandemic** credit: 1 Hour. (<https://courses.illinois.edu/schedule/terms/BSE/790/>)

This course is designed to help students apply the principles of virology, immunology, public health, data science and population Medicine in evaluating the current public health policy responses to the COVID-19 pandemic. Since the learning activities will focus on current events and daily topics, they will be altered and refined to align with unfolding circumstances and policy decisions. The learning activities will provide students with a model foundation of competency and confidence which they would need to serve on a local, community health advisory board and provide expertise in support of the design of a coordinated response to mitigate the impact of a Covid-19 outbreak on patient health, societal well-being, business continuity and economic durability. The competency foundation will include: 1. an understanding of viral biology, host defense and infectious disease dynamics. 2. the ability to gather, understand and intelligently apply biostatistical and epidemiological data in designing practical solutions. 3. an appreciation of the different: a. political, demographic, educational, attitudinal, behavioral, socioeconomic, and cultural factors, along with the inherent disparities and preferences that impact health risk and community compliance to public health recommendations b. needs and constraints of local business owners c. barriers to public participation and communication. No graduate credit. 1 professional hour. Approved for S/U grading only. Prerequisite: Restricted to Carle Illinois professional students only.

CLE Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/CLE/>)

## Clinical Sciences Engr Courses

**CLE 610 Faith, Medicine, and End-of-Life Care** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/610/>)

Helps students to develop their skills in taking a spiritual history and addressing issues relating to faith; skills in end-of-life care; and understanding of whole person care. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 4 hours. Prerequisite: Restricted to students enrolled in the Carle Illinois Doctor of Medicine (MD) program.

**CLE 613 Introduction to Clinical Practice (Longitudinal)** credit: 0 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/613/>)

Examines and exposes to the fundamentals of clinical work including office support with basic history, vitals, understanding the team, communicating with patients, observing health care roles and processes. Additionally, this course addresses concepts of history and physical assessment, includes H&P, preoperative assessment, routine physicals. No graduate credit. 0 to 6 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Available for honors grade. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**CLE 631 Clinical Elective** credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/631/>)

This course will expose the students to a clinical specialty to learn more about treatment of disorders, lifestyle of the physicians and the experiences of the patients. Students will learn about interpersonal communication skills, gain a deeper understanding of the environment in which medical devices are used, observe therapeutic treatment in real time, and strengthen the clinical skills. No graduate credit. 1 to 4 professional hours. Approved for S/U grading only. May be repeated up to 16 hours in the same semester to a maximum of 40 hours over separate semesters. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

**CLE 635 COVID Clinical Clerkship Make-Up** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/635/>)

The clinical clerkship make-ups are a two-week rotation. This course allows students whose clerkships were disrupted by COVID-19 to further explore a specialty. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in same semester to a maximum of 4 hours. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**CLE 640 Family Medicine Clerkship** credit: 1 to 10 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/640/>)

This longitudinal clerkship provides an exciting opportunity for students to have clinical experiences within their own student clinic, as well as ambulatory practices in disciplines such as psychiatry, pediatrics, and family medicine. Students will learn the core skills and knowledge essential to the practice of primary care: diagnosis and treatment of common outpatient complaints, management of chronic medical conditions, and strategies for health promotion and disease prevention. No graduate credit. 1 to 10 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 10 hours. Available for honors grade. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 645 Internal Medicine Clerkship** credit: 10 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/645/>)

The medicine clerkship is a ten-week rotation. This clerkship emphasizes the integration and application of pathophysiology to the diagnosis and management of patients in addition to the skills of history-taking, physical examination, and case presentation. The course is an apprenticeship focusing on the bedside care of patients. Students work closely with house staff members and ward attendings making daily rounds, admitting new patients, and caring for them with the team. No graduate credit. 10 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 650 Neurology Clerkship** credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/650/>)

The neurology clerkship is a four-week introduction to clinical neurology, the specialty of medicine devoted to patients with diseases of the nervous system. The clerkship emphasizes the basic clinical methods of bedside neurology: Based on the history and examination, students develop skills at neuroanatomical localization and clinical reasoning. Students learn to interpret clinical findings, develop a differential diagnosis, and formulate a plan of evaluation. No graduate credit. 5 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 655 Psychiatry Clerkship** credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/655/>)

The Psychiatry Clerkship is a four week rotation. All students evaluate and follow patients on inpatient and outpatient services, participating in their patients' care with close attending and resident supervision. The acquisition of clinical skills is emphasized: conducting an interview to obtain a psychiatric history and mental status examination; organizing, recording, and presenting the findings to generate a differential diagnosis; and formulating a treatment plan in accordance with the biopsychosocial model. No graduate credit. 5 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 660 Obstetrics & Gynecology Clerkship** credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/660/>)

The obstetrics and gynecology clerkship is a five-week rotation. The main objective is to familiarize students with the signs and symptoms of normal and abnormal reproductive function and to teach the basic examinations in obstetrics and gynecology. The course will emphasize and reinforce skills for taking an appropriate history, performing a physical and pelvic examination, formulating a differential diagnosis as well as a treatment plan, and properly managing patients. No graduate credit. 5 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 665 Pediatrics Clerkship** credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/665/>)

The Pediatrics Clerkship is a five week rotation. The rotation is divided between inpatient and outpatient experiences. The emphasis is on learning to care for children and families in a variety of patient care settings and developing the clinical skills, diagnostic reasoning, and basic management strategies core to the practice of pediatrics. Attending physicians emphasize normal child development as well as the role illness plays in the lives of children and families. No graduate credit. 5 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 667 Academic Progress II** credit: 0 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/667/>)

Students will be given an opportunity to demonstrate core medical skills through objective structured clinical examinations. This will include history taking, physical examinations, interpreting common test results, entering orders and prescriptions, giving oral presentations and collaborating as part of an interprofessional team. No graduate credit. 0 professional hours. Approved for S/U grading only. May be repeated, students may repeat this course, with approval from Carle Illinois Academic & Student Affairs. Prerequisite: Restricted to Carle Illinois College of Medicine Phase II or III students.

**CLE 670 Surgery Clerkship** credit: 10 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/670/>)

The Surgery Clerkship is a ten-week rotation. The clerkship is designed to provide clinical experience that improves skills in overall patient care as students apply their knowledge of the basic sciences and expand their knowledge base through exposure to the wide variety of patients and procedures that fall into the realm of general surgery. Students become a valued member of the team as they assume responsibility for the overall care of their patients preoperatively and postoperatively and assist in the operating room. No graduate credit. 10 professional hours. Approved for S/U grading only. Available for honor grades. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 675 Adult Reconstruction - Hip and Knee** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/675/>)

The student will be involved in the daily activities of caring for patients with hip and knee degenerative conditions, as well as potential hip or knee injuries such as hip fractures or periprosthetic fracture. The student will work 1:1 with primary faculty in both clinic and the OR. In clinic, the student will have increasing autonomy to perform history and physical exams on this adult population as appropriate. This begins with shadowing and builds to independent H&P taking with evaluation of pertinent studies. The OR experience begins with scrubbing and shadowing, but will go on to include patient positioning, assisting with draping, application of dressings, and other activities the faculty feels appropriate based on the student knowledge and performance. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate terms up to a maximum 8 hours. Prerequisite: Completion of Phase 1 and OR Orientation class. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 680 Family Medicine Continuity Clinic** credit: 1 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/680/>)

The Family Medicine Clinic is a required course for students in Phase 2 of the Carle Illinois College of Medicine curriculum. The Family Medicine Clinic is structured to prioritize longitudinal relationships for continuous management of chronic disease. With graduated responsibility, medical students perform the functions of a primary care physician for their patient panel. Students are assigned to the clinic one evening per week. No graduate credit. 1 to 3 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Family Medicine Clerkship. Restricted to students enrolled in Phase 2 of the Carle Illinois College of Medicine curriculum.

**CLE 681 General Surgery Sub-Internship** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/681/>)

Carle Illinois students are required to complete at least one Sub-Internship rotation during their fourth year. In the General Surgery Sub-Internship, students will work with faculty in advanced clinical application of their medical knowledge gained from their core surgery clerkship. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated to a maximum of 8 hours. Prerequisite: Successful completion of the Carle Illinois core clinical clerkships. Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 683 Pediatrics Sub-Internship credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/683/>)

The four-week sub-internship in Pediatrics provides Phase 3 students supervised responsibility for patient care in general pediatric inpatient, pediatric intensive care, and neonatal intensive care. Each sub-intern will gain an awareness of the advanced knowledge, skills, values and attitudes the hospitalists/intensivists and ER physicians strive to acquire and maintain throughout their professional lives. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated for a maximum of 8 hours. Prerequisite: Completion of Carle Illinois core clerkships. Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine curriculum.

CLE 684 Internal Medicine Sub-Internship credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/684/>)

Carle Illinois students are required to complete at least one Sub-Internship rotation during their fourth year. In the Internal Medicine Sub-Internship, students will work with faculty in advanced clinical application of their medical knowledge gained from their core Medicine clerkship. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 685 Anesthesiology Sub-Internship credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/685/>)

Provides a more in-depth experience and preparation for the knowledge and procedures performed when working with patients who require sedation anesthesia and pain management for various reasons. Anesthesia fellowships typically encompass experiences in perioperative/periprocedural locations. This experience will thus aim to provide the student with exposure to these areas where anesthesiologists typically work. It will be an opportunity to build trust with providers over the four weeks so that they may possibly recommend the student for future work in this field. The experience will teach the student how to interact with patients undergoing anesthesia, allowing practice in communicating treatment plans, and discussing concerns with the patients undergoing such procedures. Additionally, it will be a chance for the student to gain more experience in some of the more advanced skill sets required for work in these fields. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Successful complete of all Carle Illinois Core Clerkships. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

CLE 686 Neurology Sub-Internship credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/686/>)

Illustrates the advanced responsibilities and activities that students are expected to demonstrate and participate as an integral member of a neurology team during this advanced clinical rotation. The overall goal for the Neurology Sub-Internship is to give further depth exposure to neurology, with the goal of treating the student on this rotation as more like a resident. Students will conduct further, in depth on EEGs, imaging interpretation, and differential diagnosis. This experience is to provide students with advanced clinical skills necessary for their future role as a resident and be exposed to activities that continue their development according to the Core Entrustable Professional Activities (EPAs) for entering Residency related to Neurology. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 687 Obstetrics and Gynecology Sub-Internship credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/687/>)

Illustrates the advanced responsibilities and activities that students are expected to demonstrate and participate as an integral member of an Obstetrics and Gynecology team during this advanced clinical rotation. The overall goal for the Obstetrics and Gynecology Sub-Internship is to give further depth exposure to obstetrics, with the goal of treating the student on this rotation as more of a resident, carrying more patients. Further in depth on differential diagnosis, treatment options, and fetal heart monitor interpretation. This experience is to provide students with advanced clinical skills necessary for their future role as a resident and be exposed to activities that continue their development according to the Core Entrustable Professional Activities (EPAs) for entering Residency related to Obstetrics and Gynecology. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours. Prerequisite: Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 690 Clinical Research credit: 1 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/690/>)

Carle Illinois students are encouraged to participate in research in order to enhance their scientific reasoning, and fulfill the college's mission of developing "Physician Innovators". This course will allow students to engage in a broad spectrum of research experiences. Students will work closely with a research mentor at the University of Illinois at Urbana-Champaign to develop their ideas and generate a list of research outcomes. No graduate credit. 1 to 8 professional hours. Approved for S/U grading only. May be repeated in separate terms to a maximum of 16 hours. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

CLE 691 Translational Research credit: 1 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/691/>)

Carle Illinois students are encouraged to participate in research in order to enhance their scientific reasoning, and fulfill the college's mission of developing "Physician Innovators". This course will allow students to engage in a broad spectrum of research experiences. The research will be translational in nature. Students will work closely with a research mentor at the University of Illinois at Urbana-Champaign to develop their ideas and generate a list of research outcomes. No graduate credit. 1 to 8 professional hours. Approved for S/U grading only. May be repeated up to 16 hours in the same semester, to a maximum of 32 hours in separate semesters. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

CLE 692 Immersion in Clinical Practice - Phase 2 credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/692/>)

Provide students and clinicians a chance to meet, in a non-classroom environment, to discuss in topics that impact clinical practice. Examples of these topics include: Domestic Violence, Burnout, Cultural Competence, and Legal Issues in Medicine. Students will be given readings, websites, and videos prior to each session. In addition, students will write brief essays on these topics based on their experience during their clerkships and other electives. Each session, over a dinner, will last approximately two hours. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 693 Self-designed Clinical Elective credit: 1 to 16 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/693/>)

This elective will allow students to develop clinical skills and gain clinical experience under close supervision of clinical faculty through modifying a standing clinical elective to better match their interests or customize a clinical experience. It must be arranged between the student and an individual faculty member or external collaborator, and subsequently approved by the Assistant Dean for Curriculum. No graduate credit. 1 to 16 professional hours. Approved for S/U grading only. May be repeated up to 16 hours in the same semester to a maximum of 32 hours over separate semesters. Prerequisite: This course is restricted to Carle Illinois College of Medicine students.

CLE 694 Career Boot Camp credit: 5 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/694/>)

A preparatory course which helps prepare graduating students to transition to residency. The course utilizes a series of interactive lectures, hands-on workshops, a variety of simulation methods for skills training in procedures and clinical scenarios. Besides topics that span the practice of medicine and caring for patients, there will also be an emphasis on career planning and life outside of work. No graduate credit. 5 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 10 hours. Prerequisite: Completion of Phase 2. Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine.

CLE 702 Anesthesiology credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/702/>)

The student will be introduced to various anesthesia techniques, including management of the patient's airway. The student will gain experience in administration of anesthetic drugs, management of critical life functions such as hemodynamics monitoring, blood and fluid therapy and acute pain management (both postoperatively and in Obstetrics). A pre-test will be given to assess student's existing knowledge of anesthesia and other clinical material. This will help the student understand the scope of study during the rotation. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Surgery Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine. Students must be in Phase 2 or Phase 3 of the curriculum.

CLE 704 Dermatology credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/704/>)

The student is exposed to the private and clinical practice of general dermatology and is instructed in diagnosis and treatment. Emphasis is placed on the care of the patient and the student is expected to function as a member of the office team. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Completion of the Carle Illinois Internal Medicine Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 706 Emergency Medicine credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/706/>)

This elective is to provide exposure to the specialty of emergency medicine. The student will gain experience through the process of assessing a patient by history taking, physical exam and diagnostics. By the end of the 4 week elective the student should be able to obtain a complaint based history with review of system, complete a physical exam and start to formulate a differential diagnosis based upon the chief complaint. Stress will be placed on the development of the differential diagnosis. The experience will include learning appropriate laboratory and radiographic testing as well as treatment options for illnesses/disease that most commonly present to the emergency department. The student will commonly get exposure to patients with chest pain, abdominal pain, neurological disorders, undifferentiated malaise, early pregnancy complaints, STI, sepsis and trauma. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Internal Medicine or Surgery Clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois Curriculum.

CLE 713 Palliative Care – Introduction credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/713/>)

Healthcare providers must be able to provide compassionate patient-centered care that optimizes well-being and alleviates suffering. Students will gain experiences caring for patients with advanced, chronic, and progressive illness that may be facing high symptom burden, complex treatment decisions, or may be near the end of life. The student will gain experience in the sub-specialty of Palliative Care through seeing patients on the inpatient consult services, outpatient primary palliative care clinic, embedded sub-specialty clinics, nursing home visits, and home visits. Student will participate in interdisciplinary rounds and work in a multidisciplinary team to optimize patient care. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Internal Medicine Clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois curriculum.

CLE 714 Ambulatory Cardiology credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/714/>)

The student will be exposed to the outpatient management of common cardiovascular disorders including coronary artery disease, valvular heart disease, vascular disease, heart failure, and atrial fibrillation as well as to the work-up of common referrals in an ambulatory setting such as chest pain, shortness of breath, edema, palpitations, dizziness, syncope, abnormal ECG, and preoperative risk assessment. The student will also learn basic ECG interpretation and have the opportunity to observe stress testing, nuclear imaging, and echocardiography. The goal is that the student develops his or her history taking and physical exam skills as it relates to the cardiovascular system by integrating the basic sciences with the art of medicine. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Restricted Carle Illinois students in Phase 2 or Phase 3 of the curriculum.

CLE 715 Adult Intensive Care credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/715/>)

The goal of this elective is to expand the student's knowledge and understanding of intensive care issues affecting hospitalized patients, primarily focusing on appropriate diagnostic and therapeutic interventions and to provide the opportunity for the student to assume a more primary role in the responsibility of directing care of a patient in a team setting. Inherent in this experience is an opportunity for in-depth learning in the areas of professionalism and systems-based practice. The elective will encompass the learning of integrative skills, procedures and how to handle basic clinical scenarios including codes. The student will partner with their attending to develop the diagnostic and therapeutic plans for his or her patients, the student will engage in a formative experience designed to prepare him/her for the future care of patients in critical care. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Internal Medicine Clerkship, General Surgery Clerkship, or Neurology Clerkship. Restricted to students enrolled in Carle Illinois College of Medicine. Students must be in Phase 2 or Phase 3 of the curriculum.

**CLE 716 Hematology/Oncology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/716/>)

The goal of this elective to serve as an introduction to the internal medicine subspecialty of hematology and oncology. In the outpatient setting, the students will be exposed to various hematological and oncological conditions which are managed primarily as an outpatient and exposure to infusion center etc. where chemotherapy is administered. They will be asked to attend tumor board conferences whenever possible to understand the multidisciplinary management of an oncological problem. They will also get some inpatient experience where they will be introduced to management of oncological complications when patients present to the hospital. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine curriculum.

**CLE 717 Infectious Disease credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/717/>)

The goal of this elective is to give students exposure to the field of infectious disease, including differential diagnosis, treatment options, and management strategies. Students should be able to manage 1-2 patients and independently devise plans for new consults. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Carle Illinois Internal Medicine core clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

**CLE 718 Introduction to the HIV Epidemic: A Clinical and Social Medicine Elective credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/718/>)

Will provide students with a brief introduction to the HIV epidemic and will cover modes of transmission, the virus life cycle, prevention/education, and treatment strategies. We will also discuss the social history of the early epidemic, within the US and on a global scale, and will cover current and continued social issues. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Carle Illinois College of Medicine Internal Medicine Clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

**CLE 730 Clinical Genetics credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/730/>)

This elective course introduces medical students to the diverse practice of clinical genetics. The focus is on basic and applied genetics, genetic risk assessment, and genetic counseling as they relate to prevention, diagnosis, treatment, and management of disease. The course will serve as the basis for the healthcare professional to holistically integrate genetic/genomics, epigenetics, and scientific concepts into personalized health care. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated for a maximum of 4 hours. Prerequisite: Completion of Internal Medicine Clerkship, Pediatric Clerkship, or Family Medicine Clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 732 Neurosurgery I credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/732/>)

Designed to provide an introduction into different subspecialties of neurosurgery. It forms the basis for a strong foundation of knowledge of neurological diseases and how they are managed both surgically and non-surgically. Students will be immersed in day-to-day service, functioning essentially as a supervised intern, while working closely with our cohesive group of mid-level providers and attendings in the inpatient, outpatient and operating room settings. The goal of this neurosurgery elective is designed to familiarize students with the essential elements of neurosurgical evaluation and care so that they are able to provide exceptional frontline management. No graduate credit. 2 professional hours. Approved for S/U grading only. Available for honors grades. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine who are in Phase 2 or 3 of the curriculum.

**CLE 733 Neurosurgery II credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/733/>)

Designed to provide an in-depth experience into different subspecialties of neurosurgery. It builds on the the foundation of knowledge of neurological diseases and how they are managed both surgically and non-surgically from CLE 732. Students will be immersed in day-to-day service, functioning essentially as a supervised intern, while working closely with our cohesive group of mid-level providers and attendings in the inpatient, outpatient and operating room settings. Students will be responsible for composing an oral presentation on a patient encountered during their elective and research assignment assigned by faculty of neurosurgery. No graduate credit. 4 professional hours. Approved for S/U grading only. Available for honors grades. Prerequisite: CLE 732: Neurosurgery I. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine who are in Phase 2 or 3 of the curriculum.

**CLE 736 Urogynecology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/736/>)

This elective is for students interested in pursuing the field of obstetrics and gynecology who seek deeper knowledge and responsibility in the field of urogynecology. This will provide students a more complete experience in the clinical practice of urogynecology, surgery, urodynamics and clinical assessment of pelvic floor disorders. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated to a maximum of 12 hours.

**CLE 737 Gynecologic Oncology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/737/>)

This elective is for students interested in the field of Obstetrics and Gynecology and/or medical surgical oncology. The experience is for students who seek deeper knowledge and responsibility in the field of gynecologic oncology. The rotation will provide the student with a complete exposure to the clinical practice of gynecologic oncology. Students will perform initial workup and evaluation and staging of patients presenting with malignancy. Working with a provider, they will determine candidacy for surgery and assist with surgical procedures. Students will also follow patients during recovery and surveillance. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of CLE 660. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 738 Reproductive Medicine credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/738/>)

This rotation is designed for the Phase 3 medical student who is well versed in Obstetrics and Gynecology and is possibly interested in pursuing a residency in OB/GYN. Activities will revolve around the workup of the infertile couple and the monitoring and management and treatment of reproductive problems. Time will be spent in the office setting, with office ultrasounds, consultations as well as management of ovulation induction cycles and monitoring of ovarian hyperstimulation for IVF. Observation of IVF procedures and assisting in other surgeries would be expected. Additional time in the andrology and IVF labs observing may be available. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of Phase 2 clerkships. Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

**CLE 739 Advanced Obstetrics credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/739/>)

This rotation is designed for the Phase 3 medical student who is well versed in Obstetrics and Gynecology and is possibly interested in pursuing a residency in OB/GYN. Activities will revolve around the work up of pregnancy and pregnancy-related complications. Time will be spent on Labor and Delivery, Antepartum, the Outpatient Maternal Fetal Medicine clinic, and the Outpatient Midwifery Clinic. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of all Phase 2 clerkships. Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 740 Introduction to Ophthalmology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/740/>)

This 2-week course will serve as an introduction to Ophthalmology. During this rotation, students will gain a better understanding of the structure and function of the human eye, including an introduction to tools and testing for proper diagnosis and treatments. Students will also start learning about various ocular diseases including co-management of ocular and systemic diseases. This will also include understanding when and why to refer to other specialties. This course will be split between Optometry 25% and Ophthalmology 75%. This elective will culminate with a brief oral presentation to the preceptor on one idea to improve the field or one case that stuck with them. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Medicine Clerkship. Restricted to students enrolled in Phase 3 of the Carle Illinois College of Medicine.

**CLE 741 Advanced Ophthalmology credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/741/>)

This 4-week course give students a deep dive into the field of Ophthalmology. This includes a deeper understanding of the structure and function of the human eye including both common and uncommon disease states. Students will be given instruction on how to use tools for diagnosing common diseases. After diagnosis, students will create and propose a treatment plan, including possible referrals, to their preceptor. This course will be split between optometry 25 % and ophthalmology 75%. This elective differs from the introduction to Ophthalmology as it provides more autonomy in examining patients and in assisting with procedures such as cataract retain or lid surgery. In addition, this course will culminate in a brief (15 minute) research presentation on an area of interest in Ophthalmology or a current case. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 8 hours.

**CLE 742 Plastic and Reconstructive Surgery credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/742/>)

Each four-week rotation will consist of familiarization with general plastic and reconstructive surgery. Emphasis will depend upon the current office and surgical case load. The student will assist in all facets of the practice and have an opportunity to view a wide range of cosmetic plastic surgery. The clinical and surgical experience will provide a solid foundation for innovative ideas in plastic and reconstructive surgery. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Surgery Clerkship. Restricted to students in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 743 Orthopedic Trauma credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/743/>)

An advanced clinical elective focusing on the management of patients sustaining major orthopedic injuries and their sequelae. Students will be involved in all aspects of the continuum of care, including initial emergency management, non-operative and surgical treatment of injuries, inpatient care, and the outpatient management of patients sustaining fractures and dislocations of the extremities and pelvis. Students will work with faculty daily and are expected to have direct participation in all activities. The application of basic science foundations in anatomy, cell biology/systems physiology, and fundamental biomechanical principles will be emphasized as they relate to the treatment of fractures and optimizing fracture healing. Students may, with approval of faculty director, create a proposed innovated solution to an orthopedic trauma situation. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Surgery Core Clerkship. Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

**CLE 744 Oral & Maxillofacial Surgery I credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/744/>)

Provides exposure to the field of Oral & Maxillofacial surgery. Students will gain experience in the full scope of this surgical specialty including traditional outpatient ambulatory surgery, craniomaxillofacial trauma, orthognathic/reconstructive surgery, cleft lip and palate surgery, and maxillofacial oncology. The student will gain experience in head and neck surgical anatomy, imaging, and principles of management of these subspecialty areas. Additionally, students will gain exposure in the application of technology to these clinical problems such as the role virtual surgical planning. No graduate credit. 2 professional hours. Approved for S/U grading only. Available for honors grading. Prerequisite: CLE 670: Surgery Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 745 Oral & Maxillofacial Surgery II credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/745/>)

Provides exposure to the field of Oral & Maxillofacial surgery. Students will gain experience in the full scope of this surgical specialty including traditional outpatient ambulatory surgery, craniomaxillofacial trauma, orthognathic/reconstructive surgery, cleft lip and palate surgery, and maxillofacial oncology. The student will gain experience in head and neck surgical anatomy, imaging, and principles of management of these subspecialty areas. This advanced course will allow for increased involvement in the day to day management of patients in the clinic, emergency room, in-patient setting, and the operating room. No graduate credit. 4 professional hours. Approved for S/U grading only. Available for honors grading. Prerequisite: CLE 670: Surgery Clerkship. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 746 Otolaryngology - ENT credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/746/>)

This elective is designed for the student seriously considering a career in otolaryngology or seeking a deeper knowledge of ENT. Emphasis on diagnosis and treatment of common head and neck disorders. Students will experience ENT patients in ambulatory, surgery, and in-patient settings. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Med and OR Orientation. Restricted to students enrolled in the MD program at Carle Illinois College of Medicine in Phase 2 or Phase 3 of the curriculum.

CLE 748 Surgical Pathophysiology credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/748/>)

Underlying modern diagnosis and treatment of complex surgical disease is a fascinating and complex pathophysiology. In the context of current practitioner training, it has become challenging to address these fundamental concepts in detail that is sufficient to initiate long-term interest in the scientific underpinnings of surgical science. This rotation allows student a 'deep dive' into the underlying physiology and medical history of modern diagnosis and treatment. Students will meet surgical patients, whose disease will initiate investigations of the historical and basic science underpinnings of modern surgical care. Potential areas of investigation may include classic medical physiology such as the treatment of hyperkalemia in a surgical patient with particular attention to the associated cellular processes and electrophysiology, the mechanisms of non-cytotoxic systemic cancer therapy such as immunotherapy and gene or protein directed therapy or the physiology of systemic inflammatory response and the (largely failed) attempts to intervene in that pathologic process on the cellular level. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 750 Developmental Pediatrics credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/750/>)

This clinical rotation is designed to provide a student with a comprehensive preview of the commonplace developmental and behavioral problems experienced by up to 15% of children in our community. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum. This course is restricted to Carle Illinois College of Medicine students.

CLE 751 Neonatal Intensive Care credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/751/>)

The student enrolled in this elective will be exposed to caring for neonates in the Carle Neonatal Intensive Care Unit (NICU). Students will participate and present in daily rounds, attend deliveries, and assist with procedures. Students will learn basic principles of neonatal care, as well as the diagnosis and management of common neonatal pathology. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

CLE 752 Pediatric Pulmonology & Sleep Medicine credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/752/>)

The goals of the Pediatric Pulmonology & Pediatric Sleep Medicine elective rotation are to delve into common pediatric pulmonary and sleep diagnoses (asthma, cystic fibrosis, insomnia, snoring) and become familiar with less common conditions. Students will learn to further develop the differential diagnosis and use it to generate a plan of care. In addition, pharmacology, physiology, radiographic imaging, pulmonary function testing, and polysomnography will be discussed as they relate to the various pulmonary and sleep diagnoses. No graduate credit. 4 professional hours. Approved for S/U grading only. May be repeated in separate terms up to a maximum 8 hours. Prerequisite: Restricted to students enrolled in Phase 2 or 3 or the Carle Illinois Curriculum.

CLE 753 Pediatric Hematology credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/753/>)

Many of the important problems in Pediatric Hematology are encountered in an outpatient setting. The major goals of this elective are to gain exposure to diagnostic challenges, the evaluation of anemia, easy bruising and bleeding abnormalities, lymphadenopathy, neutropenia, thrombocytopenia, autoimmune, and other immunologic disorders. Additionally, students will gain exposure to patients with sickle cell disease, bleeding disorders, and clotting disorders. Finally, management of families facing major challenges, with attention to medical and psychosocial factors and provision of care in a multi-disciplinary team setting will be presented. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Completion of the Carle Illinois Pediatrics Clerkship. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

CLE 764 Physical Medicine and Rehabilitation credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/764/>)

Provide students with an introduction to in-patient physical medicine and rehabilitation. Students will consult with patients in the hospital for possible admission, admit the patient, perform a history and physical, and round daily with attending physicians. Student will learn about different types of care provided through the physical medicine and rehabilitation service including: Rehabilitation, electrodiagnosis, general outpatient and musculoskeletal rehabilitation, and non-healing wound care rehab. Students will have an opportunity to work with a physician, to determine the goals and objectives of patient rehabilitation. Students will have the opportunity to observe and interact with other rehabilitation team members including physical and occupational therapists, speech-language pathologists, rehabilitation social work, case management, nutrition, and psychology. Outpatients are seen for musculoskeletal problems. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Medicine. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

CLE 771 Addiction Medicine credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/771/>)

This unique elective offers students direct access to the rapidly developing field of addiction medicine. Students will take part in direct patient care at an outpatient addiction specialty clinic with a multidisciplinary team of providers. They will also have the opportunity to attend a drug court in Champaign County and participate in a needle exchange program through the Champaign County Public Health Department. On satisfactory completion, students will have gained a better understanding of the evidence-based treatment options of individuals living with substance use disorders. They will also have firsthand experience combating one of the greatest challenges facing modern medicine - the opioid epidemic. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 773 Radiation Oncology** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/773/>)

Radiotherapy is an integral part modern multidisciplinary cancer care. This clinical elective is designed to introduce students to the field of Radiation Oncology and use of radiotherapy. We will provide direct experience with evaluation and management of patients with malignant disease, as well as occasional benign conditions regarding radiotherapy. Students will learn epidemiology, pathophysiology, and staging of cancer patients, and then utilize evidence-based approaches for their treatment. This will include opportunities to learn basic information about radiobiology and physics to inform their understanding of radiotherapy planning and treatment delivery. Students will augment direct patient care interactions with attendance of multidisciplinary tumor conferences with other oncologic specialties, as well as departmental quality assurance rounds. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Medicine Core Clerkship. Restricted to students enrolled in Phase 2 or 3 of Carle Illinois College of Medicine.

**CLE 774 Simulated Clinical Ultrasound** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/774/>)

The Simulated Ultrasound elective enables students to develop skills related to clinical ultrasound. Utilizing a SonoSim and the associated online modules, students will have the opportunity to enhance their understanding of this imaging tool, and prepare for clinical environments that could benefit from point-of-care ultrasound. Students will learn ultrasound principles and acquisition skills through an online self-paced module. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

**CLE 775 Point of Care Ultrasound** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/775/>)

The Clinical Ultrasound elective enables students to explore specialties where point-of-care ultrasound can be utilized. Students will learn ultrasound principles and acquisition skills through an online self-paced module. Students will further learn through observing sonographers, providing students with opportunity to refine their skills through observation and questions. Students will work with attending providers (up to four) in different inpatient specialties to assess and care for patients, identifying cases where ultrasound imaging may be useful. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students in Phase 2 or Phase 3 of the Carle Illinois curriculum.

**CLE 776 Diagnostic Radiology and Non-Cardiac Nuclear Medicine** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/776/>)

Students will observe both acquisition and interpretation of diagnostic exams. These will include, but are not limited to, plain film, fluoroscopy, computerized axial tomography and magnetic resonance imaging. In addition, the student will observe both ultrasonography and nuclear medicine procedures including ultrasound of thyroid and abdominal structures. Nuclear Medicine interpretations will include bone scans, thyroid scans, PET/CT. Students will review films correlated to their clinical experiences and future residency plans, read assigned material dealing with basic diagnostic and fundamental radiology, and attend conferences related to the imaging service. Students will observe invasive diagnostic procedures occurring in the Imaging Department. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Student must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 777 Vascular and Interventional Radiology** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/777/>)

Students will observe and work with the Vascular and Interventional radiology team at Carle foundation Hospital. Students will observe and participate in clinical management of patient with a disease and pathophysiology involving the entire human body and all organ systems. Student will learn basic imaging principles and how they are applied to the management and treatment of disease with special attention to minimally invasive, imaging guided techniques. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 778 Imaging in Critical Care** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/778/>)

This elective focuses on remote learning of imaging in the ICU. The primary focus will be interpretation of chest x-ray and chest CT. This starting point will allow students to pursue individual learning goals regarding critical care such as infectious disease, pulmonology, cardiology, and physics. Students will be given a chance to "follow" the patients through their time in the ICU by viewing their images and all other records. This will allow students to become facile with the electronic medical record system. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Family Medicine Clerkship. Restricted to students in Phase 2 or Phase 3 of the Carle Illinois College of Medicine curriculum.

**CLE 779 Bariatric Surgery** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/779/>)

The goal of this rotation is to recognize the importance of obesity as a disease and the strong impact it has in patients' health, also to describe the management of obesity and understand the pathophysiology of obesity. It will mainly focus on the pre-op assessment of bariatric patients by a multidisciplinary team, surgical procedures to treat obesity as well as the postoperative care of bariatric patients. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 780 Hand Surgery** credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/780/>)

The student participating in this elective will gain initial exposure to Orthopedic Hand Surgery both in the clinic setting and in the operating room. The student will work 1:1 with the faculty in the operating room and clinic in the care of Hand Surgery patients. This elective can be tailored to the individual student's needs, interest, and educational level. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Surgery Clerkship. Student must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 781 Vascular Surgery credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/781/>)

This rotation seeks to expose the medical student to the specifics of evaluation and diagnosis of surgical vascular disease, and surgical interventions for vascular disease. Students will be involved and evaluate patients in both the inpatient and outpatient settings. Emphasis will be placed on history, physical and diagnostic results, a rich discussion of noninvasive vascular studies including venous duplex, arterial doppler, and arterial duplex, as well as advanced imaging results. The student will participate in the operating room and scrub into cases to assist with the surgical team. This rotation is designed to expose and educate medical students about the breadth of vascular surgery interventions and develop an understanding of a global assessment of a patient with vascular disease. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: General Surgery Clerkship. Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 782 Rural Surgery credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/782/>)

The rotation in Rural surgery is designed to provide the student with exposure to the practice of general surgery in a rural setting at a smaller community hospital. The practice includes the evaluation and management of common general surgical conditions as well as significant exposure to flexible endoscopy – both EGD and colonoscopy. The students will be responsible for seeing new consults, writing a history and physical note, and presenting them to the preceptor. They will round on our patients daily. They will assist in all procedures. Additionally, the student will be exposed to the unique environment of a small community hospital, including the decision-making process regarding types of procedures which can be effectively completed versus those which require transfer. During this rotation, student will work one-on-one with the faculty preceptor and be provided with graded responsibility. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to students in Phase 2 or Phase 3 in the Carle Illinois curriculum.

**CLE 783 Colon and Rectal Surgery credit: 4 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/783/>)

This is an advanced surgical elective focused on surgical disorders of the lower gastrointestinal tract. Students will become part of our team as we care for inpatients and outpatients with colon, rectal, and anal disorders. The student will have the opportunity to evaluate patients in the hospital, office, endoscopy suite, operating theater, and participate in several multidisciplinary conferences. No graduate credit. 4 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to students in Phase 2 or Phase 3 in the Carle Illinois curriculum.

**CLE 784 Pediatric Surgery credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/784/>)

Pediatric surgeons care for children (birth to age 18) with surgical concerns. These can be either congenital problems (birth defects such as anorectal malformations, Hirschsprungs disease, intestinal atresias, etc) or acquired conditions that present during childhood (pyloric stenosis, hernias, appendicitis). Care is provided in both the inpatient and outpatient settings and involves both planned and emergent procedures. The student will participate in the operating room, scrubbing into cases to assist with the surgical team. Students will be active participants in both inpatient and outpatient care and will also have 1 on 1 lectures to learn about surgical care and common pediatric surgical conditions. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Successful completion of the Carle Illinois Surgery Clerkship. Restricted to Carle Illinois College of Medicine students. Students must be in Phase 2 or Phase 3 of the curriculum.

**CLE 786 Introduction to Urology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/786/>)

Participation in the outpatient and inpatient management of urological problems. These include urological neoplasms (prostate, bladder, renal, and testicular), urinary calculi, and management of urinary incontinence. The student will actively examine patients in the office and assist with surgery. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Students must be in Phase 2 or Phase 3 of the curriculum. This course is restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

**CLE 788 Introduction to Anatomic Pathology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/788/>)

This two-week elective is designed to introduce the student to the venue of anatomic pathology and its role in patient care. Areas that may be covered in Anatomic Pathology include gastrointestinal, gynecologic, genitourinary, pulmonary, head and neck, endocrine, neuropathology, and cytopathology. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

**CLE 789 Introduction to Clinical Pathology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/789/>)

This two-week elective is designed to introduce the student to the various sections of the clinical laboratory and its role in patient care. The goal of this two-week educational experience is to gain basic knowledge of laboratory organization, workflow, specimen adequacy, testing methodology and test interpretation. Students will rotate through the four major disciplines in Clinical Pathology: Blood Bank/Transfusion Medicine, Clinical Chemistry, Hematology, and Microbiology. After a review of the general processes in each discipline, the pathologist in charge of the section will discuss a particular patient event or situation with the student and examine the clinical relevance of the testing in progress. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

**CLE 790 Advanced Focus in Clinical Pathology credit: 2 Hours.** (<https://courses.illinois.edu/schedule/terms/CLE/790/>)

This two-week elective is designed to offer the student a more in-depth experience in a specific section of clinical pathology and its role in patient care. Areas that can be covered in Advanced Focus in Clinical Pathology include clinical chemistry, hematology, microbiology, and transfusion medicine. No graduate credit. 2 professional hours. Approved for S/U grading only. May be repeated in separate semesters to a maximum of 12 hours. Prerequisite: Completion of Phase 1. Restricted to students enrolled in Phase 2 or Phase 3 of the Carle Illinois College of Medicine.

CLE 793 Quality Improvement & Patient Safety credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/793/>)

In this elective, students will gain experience with the various aspects of health care quality and patient safety. This could include participation in continuous quality improvement plans (CQI), literature reviews to inform hospital practice, policy and protocol development, and collaborating with health care administrators to respond to community health issues. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in the Carle Illinois College of Medicine.

CLE 794 Values in the Physician-Patient Relationship credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/794/>)

Constant changes in healthcare settings, coupled with rapid advancements in technology, lead to increasingly complicated ethical dilemmas: Who decides what—patients, doctors, or family members—and on what basis? Should patients' autonomy always be respected, or can physicians act paternalistically towards their patients? What are the ends and norms of the medical profession and how are they determined? Can physicians deviate from these ends and norms and refuse to provide treatment, for example, for conscientious reasons? In this course, we will attempt to answer these (and other) pressing normative questions. In doing so, we will attain an understanding of the complicated network of values at play in the physician-patient relationship. No graduate credit. 2 professional hours. Approved for S/U grading only. Prerequisite: Restricted to students enrolled in Phase 2 or 3 of the Carle Illinois College of Medicine.

CLE 799 Advanced Clinical Electives credit: 0 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/CLE/799/>)

Phase 2 and Phase 3 students are eligible to participate in short-term elective opportunities that can enhance their medical education. These electives include clinical opportunities, away rotations, away electives, clinical rotations, and visiting opportunities. Each elective is offered by participating host institutions in the U.S. and around the world. Elective opportunities are available in teaching hospitals, community clinics, and urban or rural sites and are open to clinical or final-year students, as determined by the host institution. No graduate credit. 0 to 4 professional hours. Approved for S/U grading only. May be repeated up to 20 hours in the same semester if topics vary, and separate semesters to a maximum of 32 hours. Prerequisite: Restricted to students enrolled in the MD program at Carle Illinois College of Medicine.

## Learning Outcomes: Medicine, MD

Learning Outcomes for the Doctor of Medicine degree in Medicine

---

The Education Program Objectives (EPO) are the principle guiding document for the development of the curriculum. The curriculum structure was designed as a logical sequence to allow students to achieve the education program objectives as each phase progressively builds on the previous content. The development of each individual course and clerkship is guided primarily by the education program objectives. The initial development of the course and clerkship learning objectives was completed after the education program objectives were finalized.

CI MED's EPOs are guided by the AAMC (American Association of Medical Colleges) and GME (Graduate Medical Education) requirements for competencies of medical students and residents. We have 6 outcomes, each with several sub-outcomes that are more measurable.

1. **Outcome 1: Altruism** - the practice of selfless concern for the well-being of others.
  - a. Describe the theories and principles that govern ethical decision making in medicine, particularly those decisions that arise at the beginning and end of life.
  - b. Demonstrate compassionate treatment of patients, and respect for their privacy and dignity.
  - c. Demonstrate honesty and integrity in all interactions with patients, their families, colleagues, and others with whom physicians must interact in their professional lives.
  - d. Demonstrate an understanding of, and respect for, the roles of other health care professionals, and of the need to work in collaborative healthcare teams in caring for individual patients and in promoting the health of defined populations.
  - e. Advocate for the interests of one's patients over one's own interests, at all times.
  - f. Exhibit an understanding of the threats to medical professionalism posed by the conflicts of interest inherent in the practice of medicine.
  - g. Recognize and accept limitations in one's knowledge, skills, attitudes, and behaviors, and continuously improve these attributes.
2. **Outcome 2: Medical Knowledge** - the knowledge necessary for medical practice and skills to expand understanding.
  - a. Describe the normal structure and function of the body (as a whole) and of each of its major organ systems.
  - b. Describe the molecular, biochemical, and cellular mechanisms that are important in maintaining the body's homeostasis.
  - c. Describe the various causes (genetic, developmental, metabolic, toxic, microbiologic, autoimmune, neoplastic, degenerative, and traumatic) of disease conditions and the ways in which they operate on the body.
  - d. Describe the altered structure and function (pathology and pathophysiology) of the body and its major organ systems that are seen in various diseases and conditions.
  - e. Demonstrate an understanding of the power of the scientific method in basic, translational, clinical, and engineering research.
  - f. Demonstrate an interest in and commitment to lifelong learning to stay abreast of relevant scientific advances.
3. **Outcome 3: Skill** - the ability to perform skills needed for medical practice, analyze results of tests, solve clinical problems, and communicate solutions to multiple audiences.
  - a. Obtain an accurate and complete medical history.
  - b. Perform complete and organ-system specific examinations, including a mental status examination.
  - c. Perform routine clinical procedures.

- d. Recommend and interpret the results of commonly used diagnostic procedures and tests.
  - e. Describe the most frequent clinical, laboratory, imaging, and pathologic manifestations of common disease states.
  - f. Reason deductively in solving clinical problems.
  - g. Design and explain the basis for appropriate management strategies (preventive, diagnostic and therapeutic) for common acute and chronic conditions.
  - h. Recognize patients with immediately life-threatening or serious conditions requiring critical care and institute appropriate initial therapy.
  - i. Demonstrate knowledge of pain management.
  - j. Communicate effectively, orally and in writing, with patients, their families, and professionals in health and other fields with whom physicians must exchange information in carrying out their responsibilities.
4. **Outcome 4:** Duty - a holistic view of healthcare system and understanding of population health.
- a. Demonstrate knowledge of the important non-biological determinants of poor health and of the socioeconomic, behavioral, psychological, and cultural factors that contribute to the development and/or continuation of health and disease.
  - b. Demonstrate knowledge of the epidemiology of health and disease within a defined population, and the systematic approaches useful in reducing the incidence and prevalence of those diseases.
  - c. Identify risk factors for disease or injury, select appropriate tests for detecting patients at risk for or in the early stage of specific diseases, and determine strategies for responding appropriately including prevention strategies.
  - d. Retrieve biomedical information from appropriate resources and manage and utilize it within a quantitative and statistical framework to solve clinical problems and make decisions.
  - e. Demonstrate knowledge of the organization, financing, and delivery of health care.
  - f. Demonstrate cultural competency and a commitment to overcome health disparities by providing care to all patients and advocating for access to health care for underserved populations.
5. **Outcome 5:** Innovation - the ability to identify opportunities in societal and technical spaces, create solutions, and have a positive impact on health care delivery.
- a. Identify unexpected opportunities to provide extraordinary value for patients, populations, and health systems.
  - b. Apply systems-based and creative thinking to complex, uncertain diagnoses or other healthcare problems.
  - c. Evaluate the feasibility of innovative healthcare solutions to address patient, societal, population, and global health needs.
6. **Outcome 6:** Engineering - Skills necessary to create technical solutions and make technology-related decisions to improve healthcare.
- a. Integrate information from many sources to gain insight into patient care.
  - b. Identify, formulate, and solve healthcare problems by applying principles of engineering, science, medicine, and mathematics.
  - c. Apply analysis and synthesis to the engineering design process, resulting in designs that address identified healthcare challenges.
  - d. Conduct relevant healthcare and engineering research and apply quantitative skills and medical judgment to implement solutions.
  - e. Communicate data-based costs, risks, and benefits of engineering solutions to healthcare teams, health systems, medical device manufacturers, and other health industry stakeholders.

# College of Agricultural, Consumer & Environmental Sciences

---

**website:** <https://aces.illinois.edu>

---

The College of Agricultural, Consumer & Environmental Sciences plays a key role in national and international research initiatives in biological, physical, social, and economic sciences. The scope of the College has broadened dramatically since its founding in 1867, while its purpose remains focused on advancing scientific knowledge that makes life better, healthier, safer, and more profitable for people in Illinois and around the globe.

The ACES College enrolls more than 2,700 students in its seven departments, leading to a Bachelor of Science degree. Students can select from majors and concentrations that direct the focus of study to their specific interests.

Teaching, research, and outreach opportunities are supported by excellent resources. The College of ACES Library and Information Center houses the college's collection of educational resources, computing facility and the College of ACES career development and placement office, which assists students in personal and career development through internships and placement after graduation. The Family Resiliency Center, Institute for Genomic Biology, Child Development Laboratory and extensive research centers in Champaign-Urbana and across the state are other examples of unique and excellent college resources. For instance, the Morrow Plots, a national historic landmark established in 1876, are the oldest agronomic research plots in the United States. The Morrow Plots are located on campus next to the undergraduate library.

The ACES James Scholar Honors Program and the Jonathan Baldwin Turner Undergraduate Research Program offer excellent opportunities for students to be involved in cutting edge research and solving contemporary challenges. Research is conducted in the broad areas of consumer behavior, biotechnology, environmental quality and protection, financial planning, food science, human nutrition, natural resource systems, and individual and family well-being.

Increasing the international knowledge and experience of students and faculty helps meet the growing demand for graduates who are internationally literate and able to work effectively in different countries, in different languages and with people of different cultures. The academic programs office provides initiative and focus to College international study abroad programs as well as integrating an international dimension to the educational experience.

The distinguished faculty, innovative programs, and pioneering achievements in teaching, research, and outreach activities, together with an enthusiastic and competitive student body, place the College of ACES among the top institutions in the country in a survey of peers.

## Departments and Curricula

The Department of Agricultural and Biological Engineering offers two majors: Agricultural & Biological Engineering/Agricultural Engineering Sciences and Technical Systems Management. Students in the Agricultural and Biological Engineering major earn that degree from the College of Engineering and have the option of a second degree in Agricultural Engineering Sciences. This major is designed to produce graduates who have a basic engineering education for careers of engineering service to the agricultural, environmental, and biofuels industries. The intent of the program is to provide a combination of engineering theory and applications courses to permit students to pursue goals in academia, government or industry. The graduates are expected to provide engineering solutions in agricultural production, bioprocesses and product utilization, natural resources conservation, and are exposed to current social and cultural concepts and ideas. The Technical Systems Management major is designed to prepare students for careers requiring the application, management, and marketing of engineering technologies. Students study technological systems, business and economics (including organization, operations, management, marketing, and sales), and oral and written communications. Graduates of the TSM program accept positions of employment at highly competitive salaries.

The Department of Agricultural and Consumer Economics offers programs designed to prepare students for business- or policy-related fields with special emphasis on agriculture, consumers, and environmental protection. Students' study is concentrated in one of the following areas: agri-accounting; finance in agribusiness; agribusiness markets and management; consumer economics and finance; environmental economics and policy; farm management; financial planning; policy, international trade and development; and public policy and law.

The Department of Animal Sciences offers undergraduate students unique opportunities to conduct research projects with faculty. In addition, many students gain animal experience by working part-time at the U of I Farms. Internships and field study trips are additional avenues of gaining knowledge and experience. Study Abroad experiences are also strongly encouraged. Areas of concentration are companion animal and equine science; science, pre-veterinary and medical; and food animal production and management.

The Department of Crop Sciences offers a major in Computer Science and Crop Sciences and a major in Crop Sciences with concentrations of study in plant biotechnology and molecular biology, crop agribusiness, biological sciences, agroecology, plant protection, horticultural food systems, and crops. In each of these concentrations, students receive a strong grounding in science and can apply that knowledge through internship experiences with a wide range of agricultural employers. Each area of study can lead to employment immediately after completion of the B.S. degree, or to graduate or professional study.

The Department of Food Science and Human Nutrition offers concentrations of study in dietetics, food science, hospitality management, and human nutrition. Courses in the department include the applications of biology, engineering, chemistry, physics, and microbiology to the processing, formulation, packaging, and distribution of food.

The Department of Human Development and Family Studies' major allows students to choose to concentrate their study in either child and adolescent development or family studies. The program prepares students for graduate education or employment in areas such as child care services, family life education, social work, human services, marriage and family counseling, pediatric services in hospitals, cooperative extension work or business activities related to children and families. Students select course work according to their interests in human development, such as infancy, early childhood or adolescence, or family studies, such as the marital relationship, parent-child interaction, family change or conflict and conflict management in the family. Basic courses in these areas are linked to practical experiences in educational and community settings, and most courses emphasize issues related to cultural diversity and gender.

The Department of Natural Resources and Environmental Sciences provides students the opportunity to study ecosystem stewardship & restoration ecology, environmental science & management, fish, wildlife & conservation biology, and human dimensions of the environment. NRES is an interdisciplinary program that brings biological, physical, and social scientists together to teach and discover techniques to improve the health and integrity of urban and natural ecosystems.

Bachelor's of Science in Agricultural Leadership, Education, and Communications which can be tailored to fit each student's individual interests by selecting one of our degree concentrations in either Agricultural Communications, Agricultural Education or Organizational and Community Leadership.

Metropolitan Food & Environmental Systems major is focused on feeding the world's future population in a fashion that sustainably promotes environmental and human health is the most pressing problem facing the planet and its inhabitants. In response to this challenge, local food systems have become a fast emerging sector of agricultural and food science in major metropolitan areas with entrepreneurship, investment, and an increasing job market following the movement.

The College also offers a program for undeclared students which allows them to explore the many areas of ACES, working with a college advisor to find the right major for their specific interests.

## Admission Requirements

Freshman applicants must meet general course pattern admission requirements of the University. Detailed information on the admission process may be obtained from the Office of Undergraduate Admissions.

Transfer applicants are evaluated on the basis of their transfer grade point averages and completion of core course requisites. Transfer applicants to the Dietetics and Human Nutrition major must have a grade point average of at least 3.0 (A = 4.0); applicants to Agricultural and Consumer Economics and Agricultural Science Education need a minimum GPA of 2.75, and all other curricula require at least a grade point average of 2.5. Applicants are encouraged to consult the Office of Undergraduate Admissions for specific course requirements.

## Graduation Requirements

The minimum number of hours required for graduation varies between 126 and 130 for all curricula within the college. Included in the total must be all courses prescribed in the given curriculum and a sufficient number of electives to obtain the total number.

Each candidate for graduation must have a grade point average of not less than 2.0 (A = 4.0), including grades in courses transferred from other institutions, and a grade point average of not less than 2.0 in all courses taken at the University of Illinois at Urbana-Champaign. Candidates for graduation from Dietetics, Human Nutrition, and Agricultural Science Education must have institutional and overall grade point averages of at least 2.5 (A = 4.0).

## Scholarship Information

A number of scholarships for undergraduate students enrolled in the College of ACES are made available through the generous support of alumni and friends of the College. Incoming and currently enrolled ACES students are eligible for consideration for merit-based awards that are awarded annually by the College. Additional information on scholarships for ACES students can be found at <https://aces.illinois.edu/academics/current-students/scholarships>.

# College of Applied Health Sciences

**Cheryl Hanley-Maxwell, Dean**

**Reginald Alston, Associate Dean for Academic Affairs**

**110 Huff Hall**

**1206 S. Fourth Street**

**Champaign, IL 61820**

**PH: (217) 333-2131**

**FX: (217) 333-0404**

---

**website:** <https://ahs.illinois.edu> (<http://ahs.illinois.edu/>)

**undergraduate admissions:** <https://admissions.illinois.edu/myillini-apply> (<https://admissions.illinois.edu/myillini-apply/>)

---

The programs in the College of Applied Health Sciences provide students with a holistic understanding of health and human behavior. Drawing on the expertise of our faculty and industry partners, we equip students to design, develop and implement initiatives that enhance health and well-being.

**Students with an interest in health professions, administration, environmental stewardship, social and economic development of communities, education and advocacy or public policy can find a program of study that will match their interest in the College of Applied Health Sciences.**

As America's approach to health and wellness changes, health care is no longer limited to the traditional practice of doctors and nurses. As a result, the growth market lies in areas related to prevention, quality of life, changing leisure needs, health planning, and therapeutic intervention. As society struggles with these issues, the College and its graduates will continue to play an important role in shaping the future. A degree from the College of Applied Health Studies allows graduates to pursue a wide array of scientific and professional careers.

Students in the College of Applied Health Sciences enjoy many advantages: high quality degree programs, small classes, an emphasis on student-faculty interaction, active research programs, the opportunity to participate in professional student organizations, the availability of internships, and the largest separate college library in our field.

Along with the relationships they establish with faculty, students work closely with an academic adviser. The College of Applied Health Sciences requires students to meet with advisers to develop a relationship that will guide their studies and experiences while on campus. A solid network of student services available at the University of Illinois enhances the advising experience.

We offer degree programs in five academic areas: Community Health, Interdisciplinary Health Sciences, Kinesiology, Recreation, Sport and Tourism, and Speech and Hearing Science.

- Advising services are available to assist with career information and the development of appropriate courses of study.
- Honors programs are available for outstanding students at the college and campus level.
- Internship experiences are required with most departmental curricula. Quality placements are available throughout the United States and around the world in specific degree programs.
- Study abroad programs are available around the world.
- Students have access to the nation's third largest academic library, including an excellent college library, reference service, inter library loan system, and term-paper counseling system.
- Students engage with College of Applied Health Sciences faculty as early as their freshman year including the opportunity to participate in world-class research.

## Honors at Graduation

Graduation from the College of Applied Health Sciences with any honors designation requires that a student must have attained at the University of Illinois at Urbana-Champaign a specific minimum cumulative grade point average based on a minimum of 55 semester hours in residence.

- Bronze Tablet (see Honors section (<http://ahs.illinois.edu/honors-programs/>))
- Dean's List (see Honors section (<http://ahs.illinois.edu/honors-programs/>))
- Highest Honors: 3.75 to 4.0
- High Honors: 3.5 to 3.74
- Honors: 3.25 to 3.49

## Edmund James Scholars

The James Scholar Program is a University-wide honors program established to encourage undergraduate research and independent study and to foster scholarly endeavors (see James Scholar Honors Program (<http://ahs.illinois.edu/james-scholar/>)).

## Departments

- Kinesiology & Community Health (<http://www.kch.illinois.edu/>)
- Recreation, Sport & Tourism (<https://ahs.illinois.edu/recreation-sport-%26-tourism/>)
- Speech & Hearing Science (<https://ahs.illinois.edu/speech-%26-hearing-science/>)

## Programs

- Interdisciplinary Health Sciences Program (<https://ahs.illinois.edu/interdisciplinary-health-sciences/>)

The College of Education at the University of Illinois at Urbana-Champaign offers undergraduate degree programs in the following areas:

## Majors with teaching licensure

- Early Childhood Education, BS (<http://catalog.illinois.edu/undergraduate/education/early-childhood-education-bs/>)
- Elementary Education, BS (<http://catalog.illinois.edu/undergraduate/education/elementary-education-bs/>)
- Middle Grades Education, BS (<http://catalog.illinois.edu/undergraduate/education/middle-grades-education-bs/>)
- Special Education, BS (<http://catalog.illinois.edu/undergraduate/education/special-education-bs/>)

## Major without teaching licensure

- Learning & Education Studies, BS (<http://catalog.illinois.edu/undergraduate/education/learning-education-studies-bs/>)

## Minor

- Teacher Education Minor in Secondary School Teaching (<http://catalog.illinois.edu/undergraduate/education/minors/teacher-education-secondary-school/>)

A distinguishing hallmark of the College of Education is the commitment to diversity. Faculty members engage in research, teaching, and service activities developed to ensure that all children, including those who are racially, ethnically, linguistically, and economically different as well as people with different abilities and disabilities, are provided with educational opportunities.

## Requirements

### Admission

Admission to the College of Education at any level (freshmen, off campus and on-campus applicants) is competitive.

### General Education

In order to meet the University's current requirements in general education, each candidate for a degree from the College of Education must complete the campus general education requirements and the Language other than English through the third level. In most teacher education curricula, specific coursework within the general education areas must be taken. Also, in some teacher education curricula, additional credit in the general education areas is required. For more information on required general education coursework, contact a College of Education academic adviser. Students must select their courses for general education from the campus general education course list (<https://courses.illinois.edu/gened/DEFAULT/DEFAULT/>).

### Graduation

Undergraduate students in the College of Education must meet the University requirements for graduation. For those in a major leading to licensure, the requirements of the Council on Teacher Education (<http://cote.illinois.edu/>) for licensure must also be met. Students in all curricula must meet the course and academic credit requirements of their curricula with satisfactory scholastic averages. Student teaching is required of all undergraduates in a licensure major and must be completed through the University of Illinois at Urbana-Champaign.

Students in need of additional information concerning regulations and degree requirements of the College of Education should consult their academic advisers or the Assistant Dean for Academic Affairs in the College of Education, University of Illinois at Urbana-Champaign, 110 Education Building, 1310 South Sixth Street, Champaign, IL 61820.

## Special Programs

### Honors at Graduation

Eligibility for graduation with honors is established after all grades are recorded following a student's final semester. A student who achieves the required scholastic average in all work presented for graduation (excluding credit for courses not included in the computation of the grade point average) may be recommended for honors as follows: honors, minimum cumulative grade point average of 3.75; high honors, minimum cumulative grade point average of 3.85; highest honors, minimum cumulative grade point average of 3.90.

### Edmund J. James Scholars

The James Scholar program is a University-wide honors program established to encourage undergraduate research and independent study and to foster scholarly endeavors. As a James Scholar, students are entitled to certain academic privileges, including priority assignment of registration time, access to the "stacks" in the library, and official recognition on the University of Illinois transcript.

Entering freshmen are invited to participate for the upcoming fall semester based on the Office of Undergraduate Admissions standard that combines factors such as standardized test scores and high school GPA. Transfer and continuing students must have achieved at least a 3.5 cumulative and University of Illinois grade point average to participate.

Students are certified as James Scholars by the college on a yearly basis. To qualify for this certification, the student must successfully complete a James Scholar project/requirement in the fall and spring semester and maintain a 3.5 University of Illinois and cumulative grade point average. Details are available on the college website (<http://education.illinois.edu/current-students/undergraduate/james-scholars/>).

**website:** College of Fine & Applied Arts (<https://faa.illinois.edu>)

**admission:** Undergraduate Admissions (<https://admissions.illinois.edu/myillini-apply/>)

**undergraduate advising:** <https://faa.illinois.edu/we-are-faa/directory#advisors> (<https://faa.illinois.edu/we-are-faa/directory/#advisors>)

---

The College of Fine and Applied Arts prepares students for professional work in architecture, art and design, dance, landscape architecture, music, sustainable design, theatre, and urban and regional planning. Freshmen and transfer students may apply for admission. In each curriculum specific basic courses, professional courses, and general education requirements must be completed in order to qualify for the specific baccalaureate degree offered.

Graduate degrees are offered in many areas of study through the Graduate College.

The College of Fine and Applied Arts offers introductory courses designed to increase aesthetic appreciation and development, and to portray the role of the arts in civilization for all students who are attending the University of Illinois at Urbana-Champaign. Participation in the many bands, choruses, and orchestras on campus, as well as private instruction on most instruments and in voice, is available to students in all colleges by audition.

To serve the total academic community and all citizens in the state of Illinois, the college features the arts in exhibitions, concerts, lectures, performances, demonstrations, and conferences. Many outstanding professionals and works in these fields are brought to the University campus. All departments in the College of Fine and Applied Arts reserve the right to retain, exhibit, and reproduce the works submitted by students for credit in any course.

In addition to the teaching divisions, the College of Fine and Applied Arts includes the Krannert Center for the Performing Arts, the Krannert Art Museum, Japan House, and the Smart Energy Design Assistance Center.

## Departments, Schools, and Curricula

The College of Fine and Applied Arts consists of the Departments of Dance, Landscape Architecture, Theatre, and Urban and Regional Planning; the Schools of Architecture, Art and Design, and Music. Additionally, the College hosts an interdisciplinary, undergraduate major in Sustainable Design. The specific functions of each department or school and the undergraduate curricula are described on the following pages. Consult the Undergraduate Handbook available on the college website for specific academic policies and procedures for students and faculty in the college.

## Special Programs

### Study Abroad

International study can be a life transforming experience. The college provides the opportunity for students to obtain campus credit for foreign study and/or travel for a summer session, one semester, or an academic year. Students in FAA have a range of opportunities for study abroad. They can pick from programs developed specifically for students in their major (e.g., year abroad in Barcelona for Architecture students) or from the many programs available through the Study Abroad Office (<http://www.studyabroad.illinois.edu/>) which serves the entire university population.

Prior to departure students are required to submit a study plan for review by their advisor and the college. Students with approved study plans retain their status as UI students and may continue their student health insurance while abroad. Participation in an approved UI program also counts as time in residence at the University.

### Graduation Honors

The College honors superior students honors at graduation. To be eligible, students must have completed a minimum of four semesters of work and 65 hours of credit in residence at the Urbana-Champaign campus. More information on specifics may be found on the College website.

### Dean's List

Each semester students are recognized by the College for academic excellence through the Dean's List. Eligible students must successfully complete at least 12 academic hours, taken for a letter grade (A through F), and earn a grade-point average that places them in the top 20 percent (approximately) of the College. Students who are registered with the Center for Wounded Veterans (CWV) or with Disability Resources and Educational Services (DRES) who are enrolled in less than 12 but a minimum of nine graded semester hours who are in the approximate top 20 percent are also eligible. Such students must sign a release with CWV or DRES indicating their consent for consideration for Dean's List eligibility and have submitted that consent to their home unit's academic affairs office no later than Reading Day in the semester in which they wish to be considered for Dean's List. These consent forms are valid only for the semester in which they are issued, and students must submit by the deadline updated consent forms for each semester in which they wish to be considered for Dean's List.

Students with grades that are incomplete or deferred are not considered for the Dean's List until letter grades have been submitted for those courses. The GPA level necessary to be placed on the Dean's List is revised annually and is posted on the College Web site.

## James Scholar Honors Program

The College of Fine and Applied Arts James Scholar Honors Program (<https://faa.illinois.edu/current-students/special-programs-honors/>) creates an opportunity for FAA students to develop knowledge independently under the guidance of their instructors and advisors. Students entering the program in 2016 and later will complete a set of requirements designed to provide challenging, engaging, and diverse experiences. These requirements emphasize the value of research, community engagement, professional development, leadership, and collaboration and will prepare our James Scholars for a successful academic or professional future.

## Requirements

### Admission

All incoming students hoping to enroll in the College of Fine and Applied Arts as undergraduates must first complete the application for admission available from the university's Office of Undergraduate Admissions. Several programs within the college (majors in Art & Design, Dance, Music and Theatre) require a portfolio, audition and/or interview as part of the admissions process. All application materials must be received before an admission decision can be made.

### Graduation

Students who meet the general University requirements with reference to registration, residence, scholarship, fees, and general education requirements, and who maintain the minimum grade-point average required in their degree program, receive degrees appropriate to the curriculum completed. Refer to the specific unit and curricular requirements listed in the following sections. In addition, students must complete the required senior courses in their major field of study in residence at the Urbana-Champaign campus.

### General Education

The Campus Senate, the faculty General Education Board, and the colleges have developed campus wide common general education requirements. Students are advised that some general education requirements may be fulfilled by courses required in the major. All FAA curricula require students to meet the minimum campus general education requirements for graduation. Some programs require additional general education courses. See the individual programs of study for each curriculum.

## The College of Fine & Applied Arts consists of

### The Departments of:

- Dance (<http://dance.illinois.edu/>)
- Landscape Architecture (<https://landarch.illinois.edu/>)
- Theatre (<https://theatre.illinois.edu>)
- Urban & Regional Planning (<http://www.urban.illinois.edu>)

### and The Schools of:

- Architecture (<https://arch.illinois.edu/>)
- Art and Design (<https://art.illinois.edu/>)
- Music (<https://music.illinois.edu/>)

The specific functions of each department or school and the undergraduate curricula are described on the following pages. Consult the college website for specific academic policies and procedures for students and faculty in the college.

## Majors

Architectural Studies, BS (p. 103)  
Art & Art History, BFA (p. 106)  
Art Education, BFA (p. 110)  
Computer Science & Music, BS (p. 250)  
Crafts, BFA (p. 254)  
    Metals (p. 254)  
Dance, BA (p. 272)  
Dance, BA & Kinesiology, BS (Dual Degree Program) (p. 277)  
Dance, BFA (p. 275)  
Graphic Design, BFA (p. 384)  
Industrial Design, BFA (p. 401)  
Instrumental Music, BMUS (p. 417)  
Jazz Performance, BMUS (p. 436)  
Landscape Architecture, BLA (p. 446)  
Lyric Theatre, BMA (p. 473)  
    Creative (p. 473) | Performance (p. 475)  
Music Composition, BMUS (p. 561)  
Music Education, BME (p. 548)  
    Choral Music (p. 548) | General Music (p. 551) | Instrumental Music (p. 554) | Technology (p. 557)  
Music, BA (p. 546)  
Musicology, BMUS (p. 563)  
Music-Open Studies, BMUS (p. 565)  
Photography, BFA (p. 592)  
Studio Art, BASA (p. 681)  
    General Studio Art (p. 683) | New Media (p. 685) | Painting (p. 686) | Printmaking (p. 689) | Sculpture (p. 691)  
Studio Art, BFASA (p. 693)  
    General Studio Art (p. 696) | New Media (p. 698) | Painting (p. 700) | Printmaking (p. 704) | Sculpture (p. 706)  
Sustainable Design, BS (p. 713)  
Theatre, BFA (p. 733)  
    Acting (p. 733) | Arts & Entertainment Technology (p. 735) | Costume Design & Technology (p. 738) | Lighting Design & Technology (p. 740) | Scenic Design (p. 742) | Scenic Technology (p. 744) | Sound Design & Technology (p. 746) | Stage Management (p. 748) | Theatre Studies (p. 750)  
Urban Studies & Planning, BA (p. 753)  
    Global Cities (p. 753) | Policy & Planning (p. 755) | Social Justice (p. 757) | Sustainability (p. 759)  
Voice, BMUS (p. 762)

## Minors

Architectural Studies (p. 822)  
Art + Design (p. 823)  
Art History (p. 824)  
Community-Based Art Education (p. 841)  
Landscape Studies (p. 906)  
Music (p. 921)  
Musical Theatre for Performing Artists (p. 923)  
Theatre (p. 964)  
Urban Studies & Planning (p. 967)

## Graduate Degree Programs

Architectural Studies, MS (post professional) (p. 1044)  
Architecture, MArch (p. 1048)  
Architecture, PhD (p. 1058)  
Art and Design, MFA (p. 1061)  
Art Education, EDM (p. 1076)  
Art Education, MA (p. 1078)  
Art Education, PhD (p. 1080)  
Art History, MA (p. 1082)  
Art History, PhD (p. 1084)  
Crafts, MFA (p. 1062)  
Dance, MFA (p. 1255)  
Design for Responsible Innovation, MFA (p. 1063)  
Graphic Design, MFA (p. 1063)

## Krannert Art Museum

Krannert Art Museum (<http://www.kam.uiuc.edu/>) is an accredited art museum with a global collection of over 10,000 objects, ranging from antiquity to the present day. Its outstanding permanent collection and exhibition program places it among the top tier of university art museums in the nation. But the space is used as more than an art museum by students at the University of Illinois. Here they can gather to hear improvised music played by international artists, witness the work of performance artists, and participate in an open mic hip-hop cafe. Come and experience a space that allows for simultaneous interplay among artistic forms.

## Krannert Center for the Performing Arts

The Krannert Center for the Performing Arts (<http://www.krannertcenter.illinois.edu>) is a remarkable four-theatre performing arts complex with spaces for instruction, rehearsal, and performance in theatre, opera, dance, and music. The Foellinger Great Hall, seating 2,200, is designed for large-scale musical events. The Tryon Festival Theatre, with 1,000 seats, is for opera, dance, and other musical stage productions. The Colwell Playhouse seats 700 and is the home of the Department of Theatre. The Studio Theatre, seating 150, is for experimental productions. An outdoor amphitheater, rehearsal rooms, offices, dressing rooms, technical shops, and underground parking on two levels for 650 cars complete this monumental facility.

## Japan House

The study of Japanese culture began at the University of Illinois in 1900, with the arrival of the first Japanese student. Throughout the last century, the University's role as a leader in Japanese studies began to take form. Major themes of Japan House (<http://japanhouse.art.illinois.edu/en/>) are the four principles of the Way of Tea — harmony, respect, purity and tranquility. The heart of Japan House is sharing the Japanese Way of tea in its three authentic tea rooms to the community and through academic classes. The grounds feature a Japanese tea garden, strolling garden, and Zen-style rock garden.

## SEDAC – Smart Energy Design Assistance Center

The Smart Energy Design Assistance Center (<https://smartenergy.illinois.edu/>) provides advice and analyses enabling private and public facilities in the State of Illinois to increase their economic viability through the efficient use of energy resources.

## University Music Performance Organizations

The School of Music offers credit for all students enrolled in its many performance organizations. You do not need to be a music major to participate in our ensembles. Performance opportunities in the Bands area include five concert bands, two athletic pep bands (basketball and volleyball), clarinet choir, and the world-famous Marching Illini. The Choral area offers singers the opportunity to perform in Chamber Singers, Black Chorus, Men's and Women's Glee Clubs, University Chorus, and Oratorio Society. Our orchestras include the University Symphony, Philharmonia, and Illini Strings. In addition, we invite students to perform in one of our many jazz bands and/or jazz combos, gamelan ensemble, or one of our other groups specializing in contemporary music, world music, chamber music, improvisation, and early music.

To learn more about ensemble opportunities, visit our website at [music.illinois.edu/join-ensembles](https://music.illinois.edu/join-ensembles) (<https://music.illinois.edu/join-ensemble/>)

## Libraries

Students in the college have at their disposal outstanding library resources. In addition to the University Library, one of this country's great university collections, there are specialized libraries serving the needs of specific fields. The Ricker Library of Architecture and Art contains more than 49,000 books (with almost 50,000 additional publications in the same fields located in the main University Library), 33,000 photographs, and 9,400 clippings.

The City Planning and Landscape Architecture collection comprises about 25,000 volumes of current interest housed in the Funk ACES library, along with more than 120,000 additional volumes covering closely related disciplines.

The Music and Performing Arts Library, located in the Music Building, contains over 400,000 items. These include introductory, instructive, research, and reference materials including books, editions of music, recordings, manuscripts, microfilm, and other materials.

Illinois Library digital collections are also available, such as ARTstor which provides access to images and other visual formats.

Human Resources and Industrial Relations, M.H.R.I.R. (p. 1432)

Journalism, M.S. (<http://catalog.illinois.edu/graduate/graduate-majors/journalism/journalism-jd/>)

Natural Resources and Environmental Sciences, M.S. (<http://catalog.illinois.edu/graduate/graduate-majors/nres/#jointdegreestext>)

Political Science, Ph.D. (<http://catalog.illinois.edu/graduate/graduate-majors/poli-sci/>)

Urban Planning, M.U.P. (<http://catalog.illinois.edu/graduate/graduate-majors/urban-reg-plan/>)

## Graduate Degree Programs

The LL.M. and J.S.D. programs of graduate study in law are designed for foreign law graduates who wish to pursue advanced study and conduct independent research under the direction of the College of Law faculty. Two advanced degrees are conferred by the College of Law: the Master of Laws (LL.M.) degree and the Doctor of Science of Law (J.S.D.). Overall coordination of the graduate program is the responsibility of the Office of Graduate and International Programs, and individual inquiries should be addressed to this office. The Master of Studies in Law (M.S.L.) is a one-year, nonprofessional, terminal degree program designed for those who have had no legal training and who do not desire a professional law degree.

## Admission

The Graduate College admission requirements (<http://www.grad.illinois.edu/admissions/apply/>) and English language proficiency requirements (<http://www.grad.illinois.edu/admissions/instructions/04c/>) apply. In addition for the LL.M. program, the Test of English as a Foreign Language (TOEFL) requirement is 80 internet-based. Students are not required to take the general Graduate Record Examination (GRE). Students are admitted on an individual basis according to a review of their prior accomplishments with an emphasis on academic achievement. Admission is generally made for the fall semester only.

## Financial Aid

Applicants to the College of Law graduate programs are welcome to apply for scholarship assistance. Scholarships typically are awarded to applicants with a combination of excellent academic and professional credentials and proven financial need. Awards usually provide part of tuition and do not cover living expenses. There are always more qualified applicants than there are funds available. Therefore, applicants are strongly encouraged to explore alternative sources of funding.

### Graduate Programs:

**degree:** Master of Laws, LL.M. (<http://catalog.illinois.edu/graduate/graduate-majors/law/master-laws/>)

**concentrations (available for LL.M. only):**

## Juris Doctor Program

The 3-year JD program at Illinois Law provides students with a first-rate legal education. The curriculum is both timely and robust, exposing students to a healthy blend of doctrinal law, theoretical perspectives, and real-world skills.

JD Program (<http://catalog.illinois.edu//law.illinois.edu/academics/degree-programs/jd-program/>)

The professional J.D. in Law can be earned jointly with the following graduate degrees:

Business Administration, M.B.A. (<http://catalog.illinois.edu/graduate/graduate-majors/bus-admin-mba/#jointdegreetext>)

Chemistry, M.S. (<http://catalog.illinois.edu/graduate/graduate-majors/chemistry/ms-chem-law/>)

Computer Science, M.C.S. (<http://catalog.illinois.edu/graduate/graduate-majors/computer-science/#jointdegreestext>)

Human Resources & Industrial Relations, MHRIR (<http://catalog.illinois.edu/graduate/joint-degree-programs/mhrir-jd/>)

Journalism, M.S. (<http://catalog.illinois.edu/graduate/graduate-majors/journalism/journalism-jd/>)

Library and Information Science, MS (p. 2023)

Natural Resources and Environmental Sciences, M.S. (<http://catalog.illinois.edu/graduate/graduate-majors/nres/#jointdegreestext>)

Political Science, M.A. with Civic Leadership Concentration (<http://catalog.illinois.edu/graduate/graduate-majors/poli-sci/#jointprogramtext>)

Political Science, Ph.D. (<http://catalog.illinois.edu/graduate/graduate-majors/poli-sci/#jointprogramtext>)

Urban Planning, M.U.P. (<http://catalog.illinois.edu/graduate/graduate-majors/urban-reg-plan/#jointdegreestext>)

# College of Liberal Arts & Sciences

2002 Lincoln Hall  
702 South Wright Street

**prospective students:** LAS admissions information (<https://www.las.illinois.edu/prospective/>)

---

The College of Liberal Arts and Sciences (LAS) has four missions: scholarly inquiry and the generation of knowledge, preparation of individuals for an array of careers and professions, service to the public, and the provision of the intellectual core of the University. The college shares the first three missions with professional schools and other colleges on this campus, but the last mission is uniquely the responsibility of the College of Liberal Arts and Sciences. By fulfilling this responsibility, the college helps develop broadly educated individuals who are committed to or characterized by open inquiry, critical thinking, effective communication, and responsiveness to the needs of individuals and society.

Students in the college are expected to understand the content of and to develop skills in areas that reflect the overall purpose of the college: fluency and facility in English; literacy in at least one additional language; broad exposure to a number of different disciplines; and intensive study in one discipline (or an interdisciplinary program). The student has a wide choice of courses to satisfy these requirements; however, ultimately he or she must plan a diverse and intensive program of study, prepare for an occupational, professional and intellectual future, and develop that clarity and range of mind that is the goal of educated people.

The following is a list of undergraduate degree-granting academic units in the College of Liberal Arts and Sciences. A full listing of all LAS departments, units, and programs is available here (<http://www.las.illinois.edu/units/>).

- African American Studies (<https://afro.illinois.edu/>)
- African Studies, Center for (<http://www.afrst.illinois.edu/>)
- American Indian Studies, Program in (<https://ais.illinois.edu/>)
- Anthropology (<https://anthro.illinois.edu/>)
- Asian American Studies (<http://www.asianam.illinois.edu/>)
- Astronomy (<https://astro.illinois.edu/>)
- Atmospheric Sciences (<https://atmos.illinois.edu/>)
- Biochemistry (<http://mcb.illinois.edu/departments/biochemistry/>)
- Chemical and Biomolecular Engineering (<https://chbe.illinois.edu/>)
- Chemistry (<https://chemistry.illinois.edu/>)
- Classics (<https://classics.illinois.edu/>)
- Communication (<https://communication.illinois.edu/>)
- Comparative and World Literature, Program in (<https://complit.illinois.edu/>)
- Earth, Society, & Environment, School of (<https://earth.illinois.edu/>)
- East Asian Languages & Cultures (<https://ealc.illinois.edu/>)
- Economics (<https://economics.illinois.edu/>)
- English (<https://english.illinois.edu/>)
- French & Italian (<https://frit.illinois.edu/>)
- Gender & Women's Studies (<https://gws.illinois.edu/>)
- Geography & Geographic Information Science (<https://www.geog.illinois.edu/>)
- Geology (<https://geology.illinois.edu/>)
- Germanic Languages and Literatures (<https://germanic.illinois.edu/>)
- Global Studies, LAS (<https://globalstudies.illinois.edu/>)
- History (<https://history.illinois.edu/>)
- Integrative Biology, School of (<http://sib.illinois.edu/alumni/>)
- Jewish Culture and Society, Program in (<https://jewishculture.illinois.edu/>)
- Latin American and Caribbean Studies, Center for (<http://www.clacs.illinois.edu/>)
- Latina/Latino Studies (<https://lls.illinois.edu/>)
- Linguistics (<https://linguistics.illinois.edu/>)

## Majors

- Actuarial Science, BSLAS (p. 16)
- African American Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/afro-am/#majortext>)
- Anthropology, BALAS (p. 96)
  - major in Anthropology (p. 96)
  - Archaeology Concentration (p. 97)
  - Human Evolutionary Biology Concentration (p. 99)
  - Sociocultural and Linguistic Anthropology Concentration (p. 101)
- Art History/History of Art, BALAS (p. 386)
- Asian American Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/asian-am/#majortext>)
- Astronomy, BSLAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/astronomy/#majortext>)
- Atmospheric Sciences, BSLAS ([http://catalog.illinois.edu/undergraduate/bslas\\_atms/](http://catalog.illinois.edu/undergraduate/bslas_atms/))
- Biology- see Integrative Biology (p. 419) and Molecular & Cellular Biology (p. 542)
- Biochemistry, BS -Specialized Curriculum (p. 120)
- Brain & Cognitive Science, BSLAS (p. 131)
- Chemical Engineering, BS -Specialized Curriculum (p. 134)
  - major in Chemical Engineering (p. 134)
  - Biomolecular Engineering Concentration ([http://catalog.illinois.edu/undergraduate/eng\\_las/minors/biomolecular-engineering/](http://catalog.illinois.edu/undergraduate/eng_las/minors/biomolecular-engineering/))
- Chemistry, BSLAS -Sciences and Letters (p. 151)
  - major in Chemistry - sciences and letters (p. 151)
  - Chemistry Teaching Concentration (p. 152)
- Chemistry, BS -Specialized Curriculum (p. 146)
  - major in Chemistry - specialized (p. 146)
  - Environmental Chemistry Concentration (p. 148)
- Classics, BALAS (p. 173)
  - Classical Civilizations Concentration
  - Classical Languages Concentration
- Communication, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/communication/#majortext>)
- Comparative & World Literature, BALAS (p. 203)
  - Comparative Literature Concentration (p. 203)
  - World Literature Concentration (p. 204)
- Computer Science & Anthropology, BSLAS (p. 234)
- Computer Science & Astronomy, BSLAS (p. 236)
- Computer Science & Chemistry, BSLAS (p. 238)
- Computer Science & Economics, BSLAS (p. 243)
- Computer Science & Geography & Geographic Information Science, BSLAS (p. 245)
- Computer Science & Linguistics, BSLAS (p. 248)
- Computer Science & Philosophy, BSLAS ([http://catalog.illinois.edu/undergraduate/eng\\_las/computer-science-philosophy-balas/](http://catalog.illinois.edu/undergraduate/eng_las/computer-science-philosophy-balas/))
- Creative Writing, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/english/creative-writing/>)
- Earth, Society, and Environmental Sustainability, BSLAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/earth-system-enviro/#majortext>)

- Science of the Earth System Concentration (p. 281)
- Society and the Environment Concentration (p. 282)
- East Asian Languages & Cultures, BALAS (p. 285)
- Econometrics & Quantitative Economics, BSLAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/economics/econometrics/>)
- Economics, BALAS (p. 287)
- English, BALAS (p. 330)
  - English Concentration (p. 330)
  - English Teaching Concentration (p. 331)
  - Topics in English Concentration (p. 333)
- Foreign Language Teaching (p. 351)
- French, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/french-italian/#majortext>)
  - French Commercial Studies Concentration (p. 352)
  - French Studies Concentration (p. 353)
- French, Teaching of, BA (p. 727)
- Gender and Women's Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/gender-womens-studies/#majortext>)
- Geography & Geographic Information Science, BALAS (p. 357)
  - General Geography Concentration (p. 358)
  - Human Geography Concentration (p. 359)
- Geography & Geographic Information Science, BSLAS (p. 361)
  - Geographic Information Science Concentration (p. 361)
  - Physical Geography Concentration (p. 363)
- Geology, BSLAS -Sciences and Letters (p. 371)
  - Earth & Environmental Sciences Concentration (p. 372)
  - Earth Science Teaching Concentration (p. 374)
  - major in Geology -sciences and letters (p. 371)
- Geology, BS -Specialized Curriculum (p. 366)
  - Environmental Geology Concentration (p. 369)
  - major in Geology - specialized (p. 366)
  - Geophysics Concentration (p. 368)
- German Business & Commercial Studies Minor (p. 877)
- German, Teaching of, BA (p. 729)
- Germanic Studies, BALAS (p. 377)
  - German Studies Concentration
  - German Business and Commercial Studies Concentration
  - Scandinavian Studies Concentration
- Global Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/global-studies/#majortext>)
- History, BALAS (p. 390)
  - major in History (p. 390)
  - Social Science: History Teaching Concentration (p. 390)
- Individual Plans of Study (p. 401)
- Integrative Biology, BSLAS (p. 419)
  - major in Integrative Biology (p. 419)
  - Integrative Biology Honors Concentration (p. 421)
- Interdisciplinary Studies. BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/interdisc-studies/#majortext>)
  - Jewish Studies Concentration (p. 430)
  - Medieval Studies Concentration (p. 431)
- Italian, BALAS (p. 434)
- Latin American Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/latin-am-studies/#majortext>)
- Latina/Latino Studies, BALAS (<http://catalog.illinois.edu/undergraduate/las/academic-units/latina/#majortext>)

---

The College of Media strives to give students a solid background in social sciences and humanities and to provide them broad career competence in advertising, journalism, or media studies. The College's premise is that students need to understand the world and its people if they are to communicate effectively and enjoy fulfilling and meaningful lives.

The College offers Bachelor of Science degrees in Advertising, Computer Science & Advertising, Journalism, and Media & Cinema Studies. Students have opportunities to become leaders in cutting-edge media, study with leading professionals and scholars, and learn using the latest equipment and facilities. Included are laboratories for reporting, editing, design, and multimedia-journalism; editing suites for radio and television production; and a television studio.

The College includes Illinois Public Media, which operates the local PBS and NPR stations WILL-AM, FM, TV and online.

The College also houses the Institute of Communications Research.

The College of Media has a rich past and a bright future. It traces its history to 1902, when instruction in journalism began. A school of journalism was established in 1927. In 1950 it became the School of Journalism and Communications. In 1957 the school was elevated to college status and the name College of Communications was adopted in 1968. To better reflect the College's emphasis on mediated communication, the name College of Media was adopted in 2008 becoming one of the first Colleges of Media in the country.

The College also offers minors in CINEMA STUDIES, CRITICAL FILM PRODUCTION, JOURNALISM, MEDIA, and PUBLIC RELATIONS.

The Department of Advertising offers the Master of Science degree in Advertising and Strategic Brand Communication. The Department of Journalism has graduate programs leading to the Master of Journalism (MJ) and the Master of Science (MS) in Journalism. The Department of Media and Cinema Studies offers an undergraduate and graduate minor in Cinema Studies. The College also offers an interdisciplinary program leading to a Doctor of Philosophy degree in communications and media.

## Admission Requirements

High school seniors and transfer students from another institution should contact the Office of Undergraduate Admissions for admission requirements and applications for a specific term.

Current University of Illinois students who will have completed at least one year on the Urbana-Champaign campus should apply during the designated Intercollegiate Transfer (ICT) period. Successful applicants will be admitted for the following semester. Application materials are available on the College website (<https://media.illinois.edu/student-resources/admissions/ict/>) and specific deadlines are cited on the website.

Students currently enrolled in other colleges on campus are accepted on the condition that by the time they join the College at the start of the semester after they apply, they must:

- Have completed at least two semesters in the University of Illinois at Urbana-Champaign academic unit to which they were admitted, if admitted as freshmen.
- Be classified by the university as sophomores (at least 30 credit hours) or as juniors (fewer than 90 credit hours).
- Be in good academic standing.
- Have completed approximately one-fourth (if sophomores) or one-half (if juniors) or more of the total credit hours required to satisfy the university's General Education requirements.
- Have made substantial progress toward completing any departmental requirements for courses outside the College of Media.

Students seeking to transfer from another university may apply early in the spring semester provided they will have completed at least 30 transferable hours by the end of the spring semester. Hours planned during upcoming summer semesters are not considered. Applications are available from the Office of Undergraduate Admissions.

Students may apply to any major in the College: Advertising, Computer Science & Advertising, Journalism, or Media & Cinema Studies. College of Media students may not complete double majors within the College. Students majoring in Journalism may not pursue a Journalism Minor. College of Media students are not eligible to pursue the general Media minor.

Students who would require more than nine total semesters of overall college or university enrollment to complete their degree will not be admitted. Students must complete their College of Media degrees within seven semesters of joining the College as sophomores or within five semesters of joining the College as juniors. A minimum of three semesters within the College is required for students admitted as juniors. A minimum of five semesters within the College is required for students admitted as sophomores.

Minors in areas outside the College are strongly encouraged. However, because considerable coursework in other colleges is implicit within the requirements for all College of Media degrees, students are not admitted to the College of Media for the purpose of pursuing second majors or second undergraduate degrees.

Most required courses in Advertising, Computer Science and Advertising, Journalism, and Media and Cinema Studies must be completed at the University of Illinois at Urbana-Champaign. Students completing freshman and sophomore studies at institutions other than the University of Illinois at Urbana-Champaign may test their interest in the Media field. However, a maximum of nine hours of transferable Media courses are allowed toward the student's major requirements.

## Graduation Requirements

To graduate, students must satisfy all University requirements as to residency, scholarship, and fees and must complete the University's general education requirements. All students also must fulfill these general requirements of the College of Media:

- Complete a total of 124 semester hours of course credit of which no more than 12 hours total may be in basic physical education activity courses, vocational and technical education courses, basic courses in military science (AFAS, MILS and NS courses numbered below 300), Institute of Aviation courses, Undergraduate Open Seminar (199) courses, and independent study courses and other experimental or special topics courses outside the College of Media. Independent study courses additionally must be approved by the College to ensure that credit is given only for academic work directly supervised by a faculty member. The College encourages its students to have appropriate professional internships and to participate in professional activities. While it does not allow academic credit for such experience, one credit hour is possible through an academic course or independent study supervised by a College of Media faculty member and taken in conjunction with an internship.
- Complete not less than 72 hours of credit outside the College of Media.
- No course of any number that is offered by or cross-listed with Advertising, Journalism or Media and Cinema Studies or is substantially similar to courses offered by Advertising, Journalism or Media and Cinema Studies may count toward the total hours outside the College of Media, regardless of the rubric under which it is taken. For each hour of credit beyond 44 in College of Media courses, the number of hours required for graduation increases by one additional hour to ensure that the requirement of 72 hours outside the College is met.
- Complete not less than 20 hours in courses numbered 200 or above outside the College of Media and not cross-listed in the College of Media, regardless of the rubric under which they are taken. At least 9 of the 20 hours must be in courses numbered 300 and above.
- Complete the specific requirements of one of the four curricula offered by the College.
- Earn a cumulative grade point average of 2.00 (A = 4.00) in all courses presented for the degree and a cumulative 2.00 grade point average for all courses taken in the College.

## Credit/No Credit Grading Option

The College follows credit-no credit provisions described in Article 3-105 (<https://studentcode.illinois.edu/article3/part1/3-105/>) of the *Student Code*.

All courses listed or cross-listed with departments in the College, or specifically required by one of those departments for its majors or used to fulfill University General Education requirements, must be taken for a traditional letter grade. For Advertising majors, this means these courses outside the College must be taken for a grade: STAT 100 (or any of the allowed substitutes), ECON 102, ECON 103, and two out of the three courses SOC 100, PSYC 100 and ANTH 103. Journalism majors who started at Illinois prior to Fall 2021 must take CS 105, ECON 102, ECON 103, PSYC 100, SOC 100 and STAT 100 (or any of the allowed substitutes) for a letter grade. For all majors, courses taken to fulfill the College's advanced hour requirement (20 hours outside the College in courses numbered 200 and above) also must be taken for traditional letter grades.

## Special Programs

### Dean's List

To be eligible for Dean's List recognition for any semester, students must rank in the top 20 percent of the College in grade point average and must complete at least 12 hours taken for a letter grade (A through F) on the Urbana-Champaign campus. Transfer, study abroad, and guided individual study coursework is excluded.

Students who are registered with the Chez Veterans Center or with Disability Resources and Educational Services (DRES) who are enrolled in less than 12 but at least nine graded semester hours who are in the top 20 percent of the College are also eligible. Such students must sign a release with the Chez Veteran Center or DRES indicating their consent for consideration for Dean's List eligibility and have submitted that consent to their home unit's academic affairs office no later than Reading Day in the semester in which they wish to be considered for Dean's List. These consent forms are valid only for the semester in which they are issued, and students must submit by the deadline updated consent forms for each semester in which they wish to be considered for the Dean's List.

The specific grade point average necessary to achieve Dean's List recognition may vary.

Dean's List recognition is determined before the start of the ensuing semester. Students who are not initially selected but who believe they might qualify because of the late resolution of incomplete, deferred or missing grades may petition before the end of the next semester for retroactive addition to the list.

## Honors at Graduation

For graduation with honors, a student must rank in the upper 20 percent of their graduating class in overall grade point average. For graduation with high honors, a student must additionally rank in the upper 10 percent. For graduation with highest honors, a student must additionally rank in the upper 5 percent.

For purposes of this award, "graduating class" means all students listed as receiving or as being candidates for receiving bachelor's degrees in all College majors at the College's annual convocation each May. This includes students who graduated in the previous December and those who are candidates for graduation in May and August. Grade point averages are computed through the fall semester immediately preceding the annual convocation and include all transfer courses and other grades posted as of that date.

Transfer students, in addition to meeting the general requirement, must have cumulative University of Illinois at Urbana-Champaign grade-point averages as high as the lowest ones listed for students who qualify on the basis of having completed all of their work at the University of Illinois at Urbana-Champaign and must have earned 40 or more semester hours at the University of Illinois at Urbana-Champaign through the fall semester immediately preceding the annual convocation.

## Kappa Tau Alpha

Each year, scholastically high-ranking graduating juniors and seniors in the College of Media are considered for membership in Kappa Tau Alpha, the seventh oldest national honorary society, founded to recognize and promote academic excellence and scholarship in journalism and mass communication.

Students must rank in the upper 10 percent of their class, must have completed at least five semesters of degree work and must have completed at least nine semester hours in professional skills courses, as defined by the national society.

## Edmund J. James Scholars

The James Scholar Program, named for the University of Illinois' fourth president, Edmund J. James, focuses on giving high-achieving students the opportunity to gain additional knowledge by working closely with instructors.

To remain in good standing as a James Scholar in the College of Media, students must maintain semester and cumulative GPAs of 3.5 and higher, complete at least 12 credit hours for traditional letter grades each semester and complete at least one honors course or project each academic year. Students may choose from taking a Campus Honors Program course, completing an Honors Credit Learning Agreement with a professor in any course, working on an honors project with a College of Media professor as an independent study, or from the pre-approved honors activity list as provided by the honors dean to complete the honors requirement. Students who study abroad will be exempt from the GPA and credit hour requirements during the semester(s) they are abroad. The honors requirement should be completed the semester the student is on campus.

James Scholars' academic records are reviewed after fall and spring semesters. After the fall semester, students will be reviewed to ensure they completed 12 graded hours and earned a 3.5 semester and overall GPA. A more complete review will occur after spring semester. This will include a review of GPAs as well as completion of at least one honors project during the academic year. If a student has met the stated requirements, they will be certified as a James Scholar for the next academic year and the James Scholar designation will be added to their transcripts for that academic year. Any student who does not fulfill the requirements will be removed from the James Scholars program. In order to graduate with the James Scholar designation, all students must have completed a minimum of four honors activities, with at least one being completed each year the student is in the program.

Students entering the College of Media as freshmen are invited to join the James Scholars program at the time of admission if they rank in the top 20 percent of the College's incoming class, as determined by an Office of Admissions and Records standard that combines factors such as standardized test scores and high school GPA.

Students already in the College of Media are invited to become James Scholars for the upcoming fall semester if they have completed fewer than 75 hours, have at least a 3.5 overall GPA and were included on the Dean's List for the spring semester. If a student loses the James Scholar status, he or she must sit out of the program for at least one academic year before becoming eligible for reinstatement. A student may only be reinstated by making the College's spring Dean's List.

Students who transfer into the College of Media from another college on the Urbana-Champaign campus are invited to participate in the James Scholar program immediately if they were a James Scholar in their previous college. Students who transfer to the College from another institution may request to participate if they have a transfer GPA of at least 3.7.

A qualifying student may enter the program for his or her sophomore or junior year, but not for his or her senior year alone. Students who join the James Scholar program during the sophomore or junior year will need to pick up additional honors activities in order to graduate with the minimum four required to graduate with the honor.

For complete policies and procedures, please see: <https://media.illinois.edu/index.php/student-resources/honors-awards> (<https://media.illinois.edu/index.php/student-resources/honors-awards/>)

## Curricula:

ADVERTISING (ADV), offers students the opportunity to learn and think about advertising as a way of modeling the mind, as a material reflection of social structure, as a fundamentally modern phenomenon, as an art form and even as a basis for community, by drawing on insights from psychology, sociology, history, literature, and anthropology. This program will thoroughly infuse the understanding of consumer behavior and message knowledge base and, therefore, provide a better and longer-lasting education for students.

COMPUTER SCIENCE AND ADVERTISING, sponsored jointly by the Departments of Computer Science and Advertising. This is a program for students who plan to pursue careers in the advertising field that have a technology focus. Cloud computing, the availability and ubiquity of data, and the rapid and pervasive adoption of mobile technology have created a paradigm shift in the advertising industry. Projected areas of growth in advertising and communications will be in Search Engine Optimization, web analytics, Computational Advertising, and other emerging areas of technology/media. The degree will prepare students for advanced study at the graduate level as well as immediate entry into the workforce at advertising agencies, businesses with in-house advertising and marketing divisions, and technology companies.

JOURNALISM (JOUR), prepares students for exciting and fulfilling careers in broadcast journalism, news-editorial journalism, and emerging media. The primary professional aim is to train students as public affairs and enterprise journalists. The Journalism Department seeks to prepare broadly educated professionals who will assume decision-making and leadership roles in a variety of media organizations.

MEDIA AND CINEMA STUDIES (MACS), prepares students with dynamic skills for careers in media, information, creative, and visual industries, as well as informed interaction with everyday media technologies. Majors have the opportunity to participate in original research, mixed media production, internships, study abroad, and public engagement through a transformative learning environment. MACS offers an undergraduate and graduate minor in CINEMA STUDIES.

The College also houses the INSTITUTE OF COMMUNICATIONS RESEARCH, an internationally recognized center for interdisciplinary education, scholarship and public engagement in communications and culture in a global economy. Drawing broadly on the social sciences and humanities, the Institute develops new directions in research and has been home to some of the most famous scholars in media and communications.

## Undergraduate Programs offered by the College of Media

- 
- Advertising (p. 18)
- Computer Science & Advertising (p. 229)
- Journalism (p. 439)
- Media & Cinema Studies (p. 530)

## Undergraduate Minors

DVM and VMS - Pathobiology, PhD (p. 2046)

## Learning Outcomes: Veterinary Medicine, DVM

Learning Outcomes for the Doctor of Veterinary Medicine in Veterinary Medicine

---

Graduates of the College of Veterinary Medicine professional program shall:

1. Demonstrate knowledge of the basic sciences that form the foundation of veterinary practice.
2. Understand the principles of scientific inquiry and shall be able to apply those principles to solve problems by posing questions, forming hypotheses, and obtaining and evaluating data relevant to the practice of veterinary medicine.
3. Demonstrate knowledge of the clinical conditions that form the foundation of veterinary practice.
4. Be able to apply their knowledge, skills, and the principles of scientific inquiry to analyze, evaluate, and solve veterinary problems and synthesize diagnostic, therapeutic, and preventative plans.
5. Possess technical skills essential for success in the practice of veterinary medicine and surgery(i.e., they shall be “practice ready” with Day 1 clinical skills).

---

The Division of General Studies (DGS) assists students with the process of exploring and declaring majors at the University of Illinois by providing holistic, developmental academic advising. DGS offers students the ability to connect with academic advisors who are committed to their success.

The Division of General Studies helps students:

- Clarify their academic, personal, and career goals;
- Identify their strengths, skills, interests, and values;
- Understand the process of exploring majors at Illinois;
- Identify the programs of study available at Illinois;
- Understand specific programmatic and degree requirements;
- Understand the Intercollegiate Transfer (ICT) process at Illinois;
- Recognize the significance of and their responsibility in the academic advising relationship;
- Learn about and connect with appropriate campus resources and services;
- Learn about the educational opportunities available at the University of Illinois including undergraduate research, study abroad, tutoring, leadership development, involvement in student organizations, volunteer experiences, and connections with faculty.

Students may be enrolled in the Division of General Studies for up to four semesters before being required to declare a major in one of the undergraduate colleges at the University of Illinois.

Please see the Division of General Studies Website (<https://dgs.illinois.edu/>) for more specific information about our services and support for students.

# Gies College of Business

[undergrads@business.illinois.edu](mailto:undergrads@business.illinois.edu)

The purpose of the Gies College of Business is to provide an educational experience that will help students develop their potential for leadership and service in business, government, teaching, and research. The undergraduate curricula provide a study of the basic aspects of business and preparation for careers in fields such as accounting, business management, banking, insurance, and marketing.

The curricula, leading to the Bachelor of Science degrees in the various degree programs in business, are based on 124 hours of college work. Students are required to elect courses in other colleges of the University, including mathematics, rhetoric, humanities and the arts, speech, and natural and behavioral sciences, and to secure as liberal an education as possible to avoid the narrowing effects of overspecialization.

The Gies College of Business offers graduate and professional programs in business areas. Detailed information on graduate programs may be obtained from the Graduate College or visit our web site (<https://giesbusiness.illinois.edu/>).

## Requirements

### Admission

Applicants must meet general University requirements as well as those specified by the Gies College of Business.

Students transferring from other institutions must have met the requirements specified by the college. See our web site (<https://giesbusiness.illinois.edu/>) and the Illinois Office of Undergraduate Admissions (<http://admissions.illinois.edu/>) for further information.

### Mathematics Placement Test

The ALEKS Math Placement Exam is used to place the students in the appropriate math course. The results of the test are used to place students in or to exempt them from algebra and allow them to enroll in a mathematics course required for graduation (see below).

### Graduation

Students in the Gies College of Business who meet the University's requirements with reference to registration, residence, and fees and who maintain satisfactory scholastic records in the college are awarded degrees appropriate to their curricula.

Each candidate for a degree must have a 2.0 (A = 4.0) grade point average or above for all courses counted toward graduation, a 2.0 grade point average or above for all courses taken at this University, a 2.0 grade point average or above for all courses taken in the major or field of concentration, and a 2.0 grade point average or above for courses taken in the major or field of concentration at this University.

Students are responsible for meeting the requirements for graduation. Therefore, students should familiarize themselves with the requirements listed in this catalog and other information in the Office of Undergraduate Affairs, 1055 Business Instructional Facility, and should refer to them each time they plan their programs. The Gies College of Business requires that undergraduate degrees be completed in nine semesters or less. If you need assistance with course planning, consult the Office of Undergraduate Affairs.

### Mathematics Requirement

Any one of the MATH courses described below meets the Gies College of Business requirement. The most appropriate mathematics course depends on the student's background, interest, motivation, and objectives. Background can be evaluated in terms of mathematics courses already completed and the student's score on the ALEKS Math Placement Exam. Interest, motivation, and objectives must be determined by the student. Courses include MATH 115, MATH 220, MATH 221, MATH 231, MATH 234 (recommended for all students with an ALEKS score of 65 or higher), and STAT 100.

### Language Other Than English

Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.

### Residency

Students must earn no fewer than 60 semester hours of University of Illinois Urbana-Champaign coursework applicable to their degree, including at least 21 credit hours of advanced coursework.

## Special Programs

### Honors at Graduation

Honors, designated on diplomas, are awarded to superior students as follows: for graduation with honors, a minimum grade point average of 3.5 (A = 4.0) in all courses accepted toward the student's degree; for graduation with high honors, a minimum grade point average of 3.75 in all courses accepted toward the degree; and for graduation with highest honors, a minimum grade point average of 3.90 in all courses accepted toward the degree. To qualify for graduation honors, transfer students' University of Illinois at Urbana-Champaign and total cumulative grade point averages both must qualify.

# Curricula

## Core Curriculum

Normally, students must register for no fewer than 12 hours or more than 18 hours in each semester. Students should take mathematics, economics, and accountancy courses in the semesters indicated in the sample schedule of courses. The computer science course should be taken during the first year. The computer science requirement no longer allows ACE 161 as an equivalent course.

Up to 4 hours of Kinesiology activity courses, numbered 100-110 may be counted toward the 124 hours for the degree. The same section of a course may not be repeated for credit. Credit is limited to a maximum of 12 credit hours for 199 courses. Students may receive foreign language credit for courses only 2 levels below highest level taken in high school. For example: 4 years of high school French, no credit is awarded below FR 102.

Once the math requirement is completed, lower level math courses cannot be taken for credit.

Any course used to fill a specific degree requirement may not be taken on the credit-no credit grade option. Only free electives may be taken on the credit-no credit option. All finance and accountancy courses must be taken for a grade. It is recommended that all courses taken in the business administration area be taken for a grade.

## Departments

Undergraduate instruction in the Gies College of Business is organized under the Departments of Accountancy, Business Administration, and Finance. Each of these departments offers courses that provide one or more curricula that a student may elect. These curricula lead to Bachelor of Science degrees in the various fields of study in the college and are designed to encourage each student to fully realize his or her intellectual promise. There can be changes to curricular requirements and new course offerings.

For the most current information, visit our advisors in 1055 Business Instructional Facility and our web site (<http://www.business.uiuc.edu/undergrad/>) and department pages:

---

Informatics Programs at the University of Illinois offers a Ph.D. in Informatics, and manages the campus-wide Masters of Science in Bioinformatics.

Both are interdisciplinary programs with many participating departments. Students can earn the Master of Science in Bioinformatics with a concentration in one of the following departments: Animal Sciences, Crop Sciences, Information Science, or Computer Science. The program is overseen by Informatics Programs, but students are members of the department of their concentration. Students can earn the Ph.D. in Informatics with specializations in Bioinformatics; Health and Medical Informatics; Spatial Informatics; Art and Cultural Informatics; Design, Technology, and Society; Data Analytics and Information Visualization; Cognitive Science and Language Processing.

## Facilities

University research centers in this area include the Center for Biophysics and Computational Biology (<http://www.life.uiuc.edu/biophysics/>) and an NIH Resource for Macromolecular Modeling and Bioinformatics (<http://www.ks.uiuc.edu/>). The campus also offers state-of-the-art experimental bioinformatics facilities, including those in the Keck Center for Comparative and Functional Genomics (<http://www.biotech.uiuc.edu/>) and the Institute for Genomic Biology (<http://www.igb.illinois.edu/>). The National Center for Supercomputing Applications (<http://www.ncsa.uiuc.edu/>) (NCSA), located at the University, offers opportunities for accessing, developing, and experimenting with state-of-the-art computational facilities for bioinformatics.

GSD Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/GSD/>)

## Game Studies Design Courses

GSD 101 Introduction to Game Studies and Design credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/101/>)

This broad survey course will provide students across campus an introduction to interdisciplinary game studies, covering both historical/social perspectives and game design. It will explore humanities, social science understandings of play, and the social contexts from which our games and gaming practices arise, as well as the development and consequences of gaming cultures. This course will serve as a broad introduction to issues covered in greater depth in upper-level courses available for students pursuing an Undergraduate Minor in Game Studies & Design.

GSD 102 Introduction to the Videogame Industry credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/102/>)

Designed to introduce individuals to the Video Game Industry, its history, current status, processes and future. It includes a survey of the positions and information about how to prepare to enter the Industry.

GSD 103 The Basics of Game Design credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/103/>)

Will introduce you to the tools and principles of game design, as well as the history of game studies and the maker movement. You will learn some of the introductory tools and techniques for rapid prototyping along with exploring games, their history, impacts, and design.

GSD 199 Individual Study credit: 0 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/199/>)

Individual study in a subject related to game studies & design not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of Instructor. Restricted to Freshmen and Sophomores.

GSD 399 Advanced Individual Study credit: 0 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/399/>)

Advanced individual study in a subject related to game studies & design not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of Instructor. Restricted to Juniors and Seniors.

**GSD 405** Introduction to the Video Game Development Process credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/405/>)

The emphasis of this course is understanding the video game development process as seen in current Game Studios. The course will focus on key elements of the process including the development timeline, scheduling, prototyping, iteration, QA, game builds and player research. The goal will be to take a design document from a catalog of designs that have already been created and implement one or more of them using the game development process. 3 undergraduate hours. 3 graduate hours. Credit is not given for GSD 405 and INFO 490 DC "The Video Game Dev Process" sections.

**GSD 409** Design & Programming of Narrative Games & Simulations credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/409/>)

Introduction to the narrative design process for the authoring of text-based digital games and simulations. You will become proficient in Inform 7, a programming language and design system for parser-based interactive fiction (IF). By the end of the semester you will have developed a game or literary work of IF and made a substantive contribution to a collaborative project. No prior programming knowledge is required for students to be successful in the course. Students will be expected to bring a laptop to class. Please note that this course teaches design and programming techniques for "parser-based" interactive fiction, and does not cover Twine, or other hyper-text based interactive narrative systems. 3 undergraduate hours. 4 graduate hours. Credit is not given for GSD 409 and INFO 490 JP, JPU or JPG "Design & Prog Text Based Games" sections.

**GSD 500** Colloquium in Game Studies credit: 0 to 1 Hours. (<https://courses.illinois.edu/schedule/terms/GSD/500/>)

This course is designed to spark interdisciplinary discussion on a range of methodological issues in academic game studies research. Once weekly sessions will be led by invited guests drawn from a variety of disciplinary units, offering students insight into the theoretical and methodological approaches of Game Studies. Students are required to take this course once for credit. Graduate students enrolled in the Graduate Minor will be expected to return to the seminar as a guest speaker near the end of their program, to share their work. 0 to 1 graduate hours. No professional credit. Approved for S/U grading only. Can be taken for 1 credit only once.

INFO Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/INFO/>)

## Informatics Courses

**INFO 102** Little Bits to Big Ideas credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/102/>)

Broad introduction to the nature, capabilities, and limitations of computing. Topics range from the way data is represented and stored, to the way today's computers work, to the general ideas of algorithms and computational efficiency, to the future of computing. Covers "Great Ideas" across various areas of the field, including, for example, cryptography and internet security, problem solving, modeling and simulation, and artificial intelligence. Same as CS 102.

**INFO 199** Undergraduate Open Seminar credit: 1 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/199/>)

May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

**INFO 202** Social Aspects Info Tech credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/202/>)

Same as IS 202 and MACS 202. See IS 202.

This course satisfies the General Education Criteria for:  
Social Beh Sci - Soc Sci

**INFO 303** Writing Across Media credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/303/>)

The ability to communicate effectively in multiple types of media is a crucial part of literacy in our society. In this course, students will explore the intersections of various media: print, film, images, sound, etc. Students will consider the ways in which writing—as an object and as a practice—is shaped by multimodal interactions. Also integrates practical activities with broader theoretical issues in order to provide effective strategies for designing multimedia presentations, projects, and texts that integrate photography, video, and sound. Same as WRIT 303.

This course satisfies the General Education Criteria for:

Advanced Composition

**INFO 310** Computing in the Humanities credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/310/>)

Same as IS 310. See IS 310.

**INFO 325** Social Media and Global Change credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/325/>)

Same as AFST 325, ASST 325, EPOL 325, EPS 325, EURO 325, LAST 325, REES 325, and SAME 325. See EPOL 325.

**INFO 326** New Media, Culture & Society credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/326/>)

Same as MACS 326. See MACS 326.

**INFO 345** Digital & Gender Cultures credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/345/>)

Same as GWS 345, MACS 345, and SOC 345. See GWS 345.

**INFO 390** Special Topics credit: 1 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/390/>)

Explores a variety of informatics topics. Topics and prerequisites vary by section; see current Class Schedule for details. May be repeated up to 6 hours if topics vary.

**INFO 399** Individual Study credit: 0 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/399/>)

Individual study in a subject related to informatics not covered in normal course offerings. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 6 hours. Prerequisite: Consent of instructor.

INFO 403 An Introduction to Top Down Video Game Design credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/403/>)

The emphasis of this course is on developing an understanding of top down video game design using the various design methodologies and tools introduced in class. Students will form small groups (4-6) and work on their own design within a selected genre (to be determined at the beginning of the semester). Areas of focus include high level design vision, audience evaluation, User Interface and its impact on the design, iteration of a series of design documents (high, medium and low level) and the team dynamics of communication, critique and integration. The goal of the class is to have the small teams use the concepts and the tools taught in class to create a complete design document that will be cataloged for later use. 3 undergraduate hours. 3 graduate hours.

INFO 405 Introduction to the Video Game Development Process credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/405/>)

The emphasis of this course is understanding the video game development process as seen in current Game Studios. The course will focus on key elements of the process including the development timeline, scheduling, prototyping, iteration, QA, game builds and player research. The goal will be to take a design document from a catalog of designs that have already been created and implement one or more of them using the game development process. Same as GSD 405. 3 undergraduate hours. 3 graduate hours. Credit is not given for INFO 405 and INFO 490 DC "The Video Game Dev Process" sections.

INFO 407 Introduction to Programming Python for Data Science credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/407/>)

For students who want to learn about solving problems common in data sciences but have little or no programming experience. The class is asynchronous (students can access material on-line but within specified timeframes) and taught online. Data Science lies at the intersection of statistics and computer science and focuses on extracting information from data. This class will immerse students on topics of software construction, design, programming paradigms and the semantic and syntax of the Python language and then focus on some of the necessary workflows to move raw data into information. The class will explore common Python modules (libraries) used in data science, natural language processing, statistics, mathematics, data management (acquiring, cleaning, reshaping, organizing, persisting) and visualizations. 3 undergraduate hours. 3 graduate hours. Credit is not given for INFO 407 and INFO 490 MH "Intro to Prog for the Data Science" sections.

INFO 409 Design & Programming of Narrative Games & Simulations credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/409/>)

In this course, you will be introduced to the narrative design process for the authoring of text-based digital games and simulations. You will become proficient in Inform 7, a programming language and design system for parser-based interactive fiction (IF). By the end of the semester you will have developed a game or literary work of IF and made a substantive contribution to a collaborative project. No prior programming knowledge is required for students to be successful in the course. Students will be expected to bring a laptop to class. Please note that this course teaches design and programming techniques for "parser-based" interactive fiction, and does not cover Twine, or other hyper-text based interactive narrative systems. Same as GSD 409. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 409 and INFO 490 JP, JPU or JPG "Design & Prog Text Based Games" sections.

INFO 416 Makerspace: Game Studies credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/416/>)

A foray into game studies via makerspace production mediums. Students will study the role of play, tinkering and gaming in design, research and innovation and be challenged to learn a variety of makerspace production tools and techniques to create games. This course will include three major components (1) physical board game design, (2) introductory computer game design and (3) investigation into the narrative themes, artistic production, interaction mechanics and culture that make games engaging. During the course, students will prototype both playable board and video games, followed by iterating through to a final version of a game of their choice. Class will meet in the CU Community Fab Lab in Art Annex II. Students who have taken a different makerspace class before are encouraged to enroll. Additional fees may apply. See Class Schedule. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 416 and INFO 490 A/AG "Makerspace: Game Studies" sections.

INFO 418 Makerspace: Escape Rooms credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/418/>)

Explores the intersection of storytelling, interaction design, and user experience through the design of escape rooms. In the past few years escape rooms have been on the rise, changing from simple locked boxes in an open room to complex adventures spanning multiple rooms involving electronics, sound design, storytelling, and even live actors. This class will be primarily focusing on the manufacturing and electronics work that goes into making an immersive but self-contained escape room in a box experience. Over the span of the course, students will become familiar with the basics of several advanced small-scale manufacturing tools, such as laser engravers, electronic cutters, and 3D printers/scanners. The primary focus, however, will be a more in depth exploration of small board electronics – such as Arduino and IoT programming – and hardware – such as sensors, servos, LEDs, and other components. 3 undergraduate hours. 4 graduate hours. Credit is not given for INFO 418 and INFO 490 B, BG, ERU or ERG "Makerspace: Escape rooms" sections.

INFO 427 Data, Machines and the Python credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/427/>)

A continuation to the introductory course on Data Science (INFO 407). This advanced course on Data Science is completely taught online and scheduled asynchronously (you decide where it best fits in your week). The course consists of several tracks including Machine learning and advanced Python skills. There will be lessons that guide you to learn advanced techniques in data science and you will also be introduced to machine learning algorithms. In addition, there will be a few lessons that help you advance your Python knowledge and software development skills. This course can mainly be considered as an applied course where you will learn by doing. In many cases, you will first write a reduced implementation before using an established library. The second half of the course will be focused on data driven individual projects along with weekly lessons. 3 undergraduate hours. 3 graduate hours. Credit is not given for INFO 427 and INFO 490 MH2 "Data, Machines and the Python" sections. Prerequisite: Students should have either taken INFO 407; OR Have at least 1 year of programming experience using Python; OR Be comfortable with NumPy, Pandas, Matplotlib, NLTK; OR Have a strong ability and passion for learning. Junior, Senior or Graduate standing.

INFO 490 Special Topics credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/490/>)

Topics of current interest. 1 to 4 undergraduate hours. 1 to 4 graduate hours. May be repeated if topics vary. Prerequisite: Consent of instructor. Other prerequisites as specified for each topic offering. See Class Schedule.

INFO 491 Ugrad Bioinformatics Seminar credit: 0 to 2 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/491/>)

Introduces the field of bioinformatics and computational biology. Same as CPSC 491. 0 to 2 undergraduate hours. No graduate credit. Approved for Letter and S/U grading. May be repeated in separate terms to maximum of 2 undergraduate hours. Prerequisite: Consent of instructor.

INFO 500 Orientation Seminar credit: 0 or 1 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/500/>)

A broad introduction to faculty research in each Informatics Area. Consists of weekly presentations by Informatics faculty highlighting their recent research, practice, and related concepts. Approved for S/U grading only. May be repeated in separate terms to a maximum of 2 hours. Prerequisite: Graduate standing in any field.

INFO 510 Research Practicum credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/510/>)

A one semester directed research project supervised by a member of the informatics faculty in the student's area of specialization or closely related area. These are intended to be practical research, not just literature surveys, and must have a definite output such as a paper or demonstration project. The research should be relevant to the thesis work or preparatory work to support the thesis. Informatics students must take two semesters, usually each semester should be under a different Informatics faculty member, but with the concurrence of their advising committee both may be taken under a single faculty member. Approved for S/U grading only. May be repeated in separate terms to a maximum of 8 hours. Prerequisite: Graduate standing in any Informatics.

INFO 555 Advanced Educational Technologies for Engagement and Interactive Learning credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/555/>)

Same as CI 555 and EPSY 555. See EPSY 555.

INFO 590 Advanced Special Topics credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/590/>)

Subject offerings of new and developing areas of knowledge in Informatics, intended to augment existing curriculum. See Class Schedule for specific topics and prerequisites. 1 to 4 graduate hours. No professional credit. May be repeated if topics vary. Prerequisite: Graduate Student Standing.

INFO 591 Grad Bioinformatics Seminar credit: 0 to 2 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/591/>)

This seminar series focuses on research in the field of bioinformatics and computational biology. Same as ANSC 591 and CPSC 591. 0 to 2 graduate hours. No professional credit. Approved for Letter and S/U grading. May be repeated in separate terms to a maximum of 4 hours. Prerequisite: Consent of instructor.

INFO 597 Individual Study credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/597/>)

Individual study in a subject related to informatics not covered in normal course offerings. May be repeated in same term for a maximum of 8 hours or separate terms for a maximum of 16 hours if topics vary. Prerequisite: Consent of instructor.

INFO 599 Thesis Research credit: 0 to 16 Hours. (<https://courses.illinois.edu/schedule/terms/INFO/599/>)

Research for Ph.D. thesis. May be repeated in separate terms. Prerequisite: Instructor approval required.

**overview of school admissions & requirements:** School of Social Work (<http://catalog.illinois.edu/academics/master-of-social-work/admissions-information/>)

---

## Undergraduate Programs:

**major:** Social Work, BSW ([http://catalog.illinois.edu/undergraduate/bs\\_socw/](http://catalog.illinois.edu/undergraduate/bs_socw/))

**minor:** Social Work (p. 948)

---

## Overview of Curriculum and Requirements

The purpose of undergraduate social work education at the School of Social Work is to provide a comprehensive educational experience for students that is grounded in a liberal arts tradition and prepares graduates for excellence in the areas of social work practice, policy, social engagement and leadership.

Upon degree completion, graduates will be prepared for entry into generalist social work practice, advanced standing in graduate social work education, and a multitude of career opportunities. These can include careers in communications, corrections, education, government, healthcare, human resources, law, non-profit organizations, religious studies, and public service. Obtaining an undergraduate degree in Social Work gives students the opportunity to pursue a License of Social Work (LSW). A BSW degree also makes students eligible to pursue Advanced Standing status in many masters of Social Work (MSW) programs. The advanced standing status enables BSW graduates to receive an MSW in only one year.

The focus of undergraduate curriculum delivery is through a student-centered strengths-based educational model that fosters student understanding by providing a challenging, yet supportive environment of high expectations that encourage the development of well-informed and engaged citizens.

## Experiential Learning Fee

The University of Illinois Board of Trustees approved an experiential learning fee in 2010 that is assessed to all Bachelor of Social Work majors to help cover part of the extensive faculty resources required to provide enriched social work learning opportunities. **A one-time fee of \$750 will be charged to BSW students once the student has earned 60-89.9 progress hours; including transfer hours.**

## Admission Requirements for Freshman

The following requirements must be met for consideration for admission as a freshman into the BSW Program:

**director of graduate studies:** Associate Dean Min Zhan

**school website:** <https://socialwork.illinois.edu/>

## Graduate Degree Programs

The School of Social Work offers programs leading to the Master of Social Work (MSW) and the Doctor of Philosophy (Ph.D.) degrees. The MSW program is accredited by the Council on Social Work Education (CSWE). The MSW program offers courses on the Urbana campus and off-campus through its MSW Outreach program.

## Admission

**MSW program** applicants must meet the following minimum requirements:

1. a baccalaureate degree from an accredited college or university in the United States or from a recognized institution of higher learning abroad;
2. a grade point average of 3.0 (A = 4.0) or greater for the last 60 semester hours of undergraduate work;
3. 20 hours of completed coursework in a liberal arts core consisting of social and behavioral sciences, the humanities, and biological sciences
4. evidence of personal attributes that are suitable for the profession of social work;
5. a score of 103 or above on the TOEFL test;
6. provision of a written supplementary statement.

**Advanced Standing MSW** applicants who meet all above requirements who have earned a Bachelor of Social Work (BSW) degree from a CSWE-accredited program in the past seven years are considered for admission into the Advanced Standing MSW program.

**Ph.D. program** applicants must meet the following minimum requirements:

1. a master degree in social work or in related disciplines;
2. a GRE score within the last 5 years;
3. demonstrating a potential for research and other scholarly work;
4. aptitude for leadership in the field of social work.

## Advanced Standing MSW

Students with a Bachelors degree in Social Work (BSW) within the past seven years from a social work program accredited by the Council on Social Work Education (CSWE) and a GPA of 3.0 (A = 4.0) or greater for the last 60 semester hours of undergraduate work are eligible for the advanced standing program. This is a three semester/44 hour program that may be completed in 12 months by most students.

## iMSW Program

Designed for the working professional who cannot attend a graduate program on the University of Illinois campus, the iMSW Program allows students to remain in their home community while pursuing a graduate degree. The School offers a three-year part-time program of study through its iMSW Outreach. This program is offered across the state and for students in adjoining states. Classes are offered in on-line and hybrid/blended learning formats. Face to face class sessions are offered on weekends. In their third year students complete complete two concentration courses on campus. After completing their coursework students do an internship/field placement back in their home communities. Students complete the same course requirements as students in the on-campus MSW program (see above). iMSW students who qualify for the Advanced Standing program may complete a shorter two-year course of study (see above).

## Post-MSW Certification Program

The School offers the Illinois Professional Educator License (PEL) with Endorsement in School Social Work. Individuals with an MSW from an accredited School of Social Work are eligible to apply for the endorsement program. Individuals enrolled in the PEL program take two School Social Work courses and complete a one semester internship in a public school. Students whose MSW did not have sufficient clinical coursework may be required to complete additional coursework to meet ISBE criteria. Upon completion of the program students are eligible for the School Social Worker on an Illinois Professional Educator License from the Illinois State Board of Education (ISBE).

SOCW Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/SOCW/>)

## Social Work Courses

SOCW 101 SOCW Orientation Seminar credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/101/>)

Informational orientation seminar for Social Work majors to enhance their understanding of college life and social work as a profession.

SOCW 199 Undergraduate Open Seminar credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/199/>)

Approved for letter and S/U grading. May be repeated.

SOCW 200 Introduction to Social Work credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/200/>)

Broad survey of the field of social work; introduction to social services, social welfare organizations, major social problems and target population groups, and the methods used in working with individuals, groups, and communities; includes the range of personnel and skills in social work agencies, and the means of education and training for social work professionals.

This course satisfies the General Education Criteria for:

Social Beh Sci - Soc Sci

SOCW 210 Queer Visibility credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/210/>)

Examines a broad scope of key LGBTQ topics from a social science perspective, and addresses such themes as identity development, critical social movements, community characteristics, sub-cultures, public policy, resilience, and health disparities within queer communities. Applies a social justice, sex-positive, and health promotion lens to the topics addressed. Also explores issues related to intersectional identities (i.e., the overlap of multiple [often marginalized] group membership, such as race/ethnicity, gender identity, age, ability, sexual orientation, etc.) within this population. Students will learn the ways in which the helping professions (e.g. social work, public health, etc.) engage with the LGBTQ community using both research and practice, in order to promote the health and wellbeing of LGBTQ persons.

SOCW 225 Social Work Statistics credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/225/>)

Introduction of basic concepts in statistics with emphasis on the application of statistical methods in social work research. Topics include: descriptive statistics, probability theory and distributions, point and interval estimation, hypothesis testing, central tendency, variability, independence, contrasts, correlation and regression, non-parametrics, concepts of levels of measurements, and statistical vs. practical significance. Priority will be given to Social Work majors. Credit is not given for SOCW 225 if credit for a college level introductory statistics course has already been earned.

This course satisfies the General Education Criteria for:

Quantitative Reasoning I

SOCW 240 Death & Dying credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/240/>)

This course will focus on various aspects of death and dying. Content will examine different types of death, impact of death throughout the lifespan, cultural beliefs and practices regarding death and dying, grief, healing after loss, legal and ethical issues related to death, and the role of social workers at the end of life. Students will be encouraged to examine their own thoughts, values, feeling, and beliefs about death and dying.

This course satisfies the General Education Criteria for:

Social Beh Sci - Soc Sci

SOCW 245 Doing Good through the Nonprofit Sector credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/245/>)

Study of the nonprofit sector theory, activity and structures in the US and abroad. Challenges students to think critically about the role and value of the nonprofit/voluntary sector in society, to understand ethical principles and values that guide nonprofit work, and to assess research evidence about effectiveness and impact. Helps inform students' thinking about future career choices and/or volunteer activities in the "third sector".

This course satisfies the General Education Criteria for:

Social Beh Sci - Soc Sci

SOCW 297 Asian Families in America credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/297/>)

Offers a comparative analysis of Asian families as they cope and adapt to American society. Examines: 1) how families from four major Asian-American groups (Chinese, Indian, Japanese and Korean) function in American society; 2) how these families compare to families in their country of origin; and 3) how these families are similar to or different from the 'typical American' family. Includes visits to Asian cultural institutions and with Asian families. Same as AAS 297 and HDFS 221.

This course satisfies the General Education Criteria for:

Social Beh Sci - Soc Sci

Cultural Studies - US Minority

SOCW 298 Social Work Experiential Learning Fees credit: 0 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/298/>)

This is a shell course to assess fees to support the cost of providing student learning experiences in social work practice settings. Additional fees may apply. See Class Schedule. Approved for S/U grading only. Prerequisite: The SOCW Admissions and Records Officer will manually add this course to student schedules.

SOCW 299 Study Abroad credit: 0 to 18 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/299/>)

Lectures, seminars, and practical work in an approved study-abroad program in Social Work appropriate to the student's course of study. Approved for Letter and S/U grading.

SOCW 300 Diversity: Identities & Issues credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/300/>)

This introductory course explores multiple dimensions of diversity in a pluralistic and increasingly globalized society. Using a social work strengths perspective as well as historical, constructivist, and critical conceptual frameworks; the course examines issues of identity, culture, privilege stigma, prejudice, and discrimination. The social construction and implications of race, class, gender, sexual orientation, and other dimensions of difference is examined at individual, interpersonal, and systems levels. Students are expected to use the course material to explore their personal values, biases, family backgrounds, culture, and formative experiences in order to deepen their self-awareness and develop interpersonal skills in bridging differences. Finally, students apply learning from the course to identify characteristics of effective social work and other health and human service provision among people culturally different themselves; and to identify opportunities for change contributing to prejudice reduction and cross-cultural acceptance at home, work and in society.

This course satisfies the General Education Criteria for:

Advanced Composition

Cultural Studies - US Minority

SOCW 310 UG Research Assistance credit: 0 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/310/>)

Assist departmental faculty in on-going research. Topics and nature of assistance vary. Capstone paper required. Approved for Letter and S/U grading. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head. Restricted to Majors and Minors.

SOCW 315 Social Work Services for Older Adults credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/315/>)

Focus on the aging process, special needs of older adults, and the role of social work in addressing these needs. All levels of social work intervention are considered, direct practice with older persons and their families, service delivery systems in local communities, and state and national policies. Special attention is given to the needs of caregivers, person-centered care, diverse vulnerable populations and resources for older adults to age in place.

SOCW 321 Social Entre & Social Change credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/321/>)

Intended for undergraduates who have an interest in creating programs and products that have social values for communities. Features social entrepreneurship as an approach to social development and will consider its application and related change strategies to a wide array of social problems. Social entrepreneurship has emerged as a change approach that features the application of entrepreneurial practices to social ventures. Social entrepreneurship is similar to business entrepreneurship in its emphasis on selected program development and management principles and processes, but social entrepreneurs have the primary goal of creating social value in communities rather than personal or shareholder wealth. The initial part of the class will emphasize instructing students in broad concepts and principles related to entrepreneurship, while the latter portion of the course will feature students working on teams to design social projects.

SOCW 325 International Development with Grassroots Organizations credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/325/>)

This course engages students to think critically about international aid and development by cultivating an awareness of moral and ethical dilemmas that often go unconsidered by young professionals. It intends to help students develop greater cultural awareness and humility by recognizing differences in equity and global social, economic, and political structures. The course is a second eight-week offering and uses a blended learning approach with asynchronous online content combined with in-person classroom educational activities. Students apply the knowledge learned through the course by working directly with an international grassroots social organization during a 4-8 week immersion experience abroad. Course is an 8 week pre-departure training is required. Students complete a service learning placement in summer with an international grassroots organization.

SOCW 330 International Perspectives credit: 3 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/330/>)

This course provides cross-cultural learning experiences within the context of international community-based service learning. Students will explore human service delivery through direct involvement with international social service institutions. This cultural immersion course is a collaborative partnership between the University of Illinois School of Social Work and selected international universities. Countries visited, varies by semester. May be repeated in separate terms up to 12 undergrad hours if topics vary.

SOCW 335 Cities and Immigrants credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/335/>)

Same as UP 335. See UP 335.

SOCW 350 Health Promotion Practicum credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/350/>)

Same as CHLH 340. See CHLH 340.

SOCW 360 Social Work and the Military credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/360/>)

This course provides an overview of military social work practice including: military culture, issues and needs of soldiers and their families, ethical considerations, and the roll of social workers. Prerequisite: For majors only.

SOCW 370 Social Work and Disability Studies credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/370/>)

This course provides a foundation for generalist practice and promotes social justice, inclusion, and ability when working with all people. Skills and knowledge will be gained to help empower individuals with disabilities and to intervene in various systems to ameliorate bias. The course examines key policies, historic legislation, service delivery, education, and social issues that impact individuals with disabilities. Through projects and assignments completed in-class and in the community, students will learn about the varying abilities and strengths of people with a variety of different needs. Applications of social work values and ethics are stressed in relation to working with people with disabilities.

SOCW 375 Social Enterprise Lab credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/375/>)

Enables students to launch and scale social enterprises spanning a wide range of organizations focused on technological innovations, human services, and the performing and visual arts. It couples structured lectures with interactive modules, field trips, guest speakers, and workgroup labs to discuss and troubleshoot startup challenges and opportunities. Modular topics include strategic plans, business models, mapping the external environment, market segmentation, partnership and the value chain, organizational governance, incorporation, the operating plan, human resources, financing, marketing and outreach, branding and identity, legal and liability issues, and monitoring and evaluation. The course develops entrepreneurial and management skillsets through deep engagement with entrepreneurial action.

SOCW 380 Current Topics in Social Work credit: 3 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/380/>)

Presents and analyzes special topics related to current social work practice, policy and research. Topics vary; see Class Schedule for current offering. May be repeated in the same or separate terms.

SOCW 400 Generalist SW Practice Methods credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/400/>)

Foundation methods course that is a prerequisite for all advanced methods courses. Overview of generalist social work practice and intervention with individuals, groups, organizations and communities; introduction to core concepts, value base and ethical principles of the profession. Emphasis is given to the bio-ecological framework, person-in-environment and systems theory. Skills in developing beginning professional relationships are addressed via a skills lab component. Students begin the process of professional self-awareness to begin to identify how the personal values and beliefs they hold impact upon their interactions. 4 undergraduate hours. 4 graduate hours. Prerequisite: Admission to MSW program.

SOCW 401 Practice I credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/401/>)

Overview of generalist social work practice with individuals, families, groups, organizations, and communities. Designed to introduce core concepts, values, and ethical principles of the profession as well as to provide basic skills, and knowledge related to generalist social work practice with a broad array of client systems. Emphasis is given to the biological-psychological-social-spiritual framework, person-in-environment, strengths perspective, and system theory. Skills in developing beginning professional relationships, which are characterized by mutuality, collaboration, empowerment, and client self determination within the problem-solving process are addressed. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 200.

SOCW 402 Practice II credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/402/>)

Provides students with culturally responsive, micro-level skills development for working with and on behalf of individuals, families, and groups. Builds on the basic helping skills learned in SOCW 401 and offers further practice on interviewing skills, more emphasis on ethical decision-making, assessment, and intervention, evaluation applied to individuals, families, and groups. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 403 Practice III credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/403/>)

Provides knowledge and skills about the theory and practice of planned change in communities and organizations using a generalist model of social work practice. Builds on the foundation knowledge and skills gained in SOCW 401 with emphasis on assessment, planning, intervention, and evaluation skills for macro-level practice. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 404 Social Work Case Management Practice credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/404/>)

This course builds upon and extends generalist social work theories, knowledge and clinical skills required for case management practice. Content focuses on inter-professional collaborative team-based approaches for patient/client assessment, care planning, service delivery coordination, and evaluating outcomes. Emphasis is on organizational context, theoretical models, social work roles, culturally sensitive approaches, biopsychosocial assessments, triage, advocacy, interdisciplinary and inter-organizational collaboration and record keeping. 3 undergraduate hours. No graduate credit. Prerequisite: SOCW 401. Restricted to Social Work majors only.

SOCW 410 Social Welfare Pol and Svcs credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/410/>)

Examination of social welfare within a historical context, addressing the economic, political, social and ideological influences that have shaped the social welfare system and programs. Critical study of the income maintenance system in the United States as a response to the problems of inequality of opportunity and income, poverty, and income security; consideration of alternative approaches with discussion of the social worker's role in the system. 3 undergraduate hours. 4 graduate hours.

SOCW 412 Hispanics in the U.S. credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/412/>)

Hispanics constitute a growing population in the United States. The size and heterogeneity of Hispanics raises complex issues in crafting public policy and in designing and delivering social services. This course offers an extensive portrait of Hispanics in the United States. Students will explore questions and demographic characteristics, language and religious practices, education, criminal justice, neighborhood and economic restructuring, immigration, social service systems, and community action in the context of creating an effective public policy agenda. Same as LLS 412. 3 or 4 undergraduate hours. 3 or 4 graduate hours.

SOCW 416 Child Welfare Issues & Trends credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/416/>)

This course examines theoretical and programmatic aspects for child welfare practice. Emphasis is placed on the roles and functions of child welfare workers, including engagement, assessment, intervention and permanency planning. 4 undergraduate hours. 4 graduate hours. Prerequisite: SOCW major. For majors only.

SOCW 417 Dementia Care for Older Adults credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/417/>)

This course will equip students with a body of knowledge to supervise, participate in, and facilitate care for persons with dementia throughout the lifespan. Upon completion of the course, students will be eligible for certification as approved dementia trained practitioners. The course will introduce and develop social work practice skills on all levels and choices of dementia care interventions and assessments. Special attention is given to practice skills for working with vulnerable populations and their caregivers through service learning site opportunities and assignments. The course uses an integrated health and person-center care approach with special attention to multi-cultural backgrounds and new family lifestyles related to dementia care. 3 undergraduate hours. 4 graduate hours. Prerequisite: Prior completion of SOCW 315 or other Introduction to Aging course is strongly recommended. BSW majors and MSW students only.

SOCW 418 Independent Study credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/418/>)

Independent study of a topic of special interest in the field of social work. 1 to 3 undergraduate hours. 4 graduate hours. Prerequisite: Consent of instructor.

SOCW 420 Subst Use in Social Context credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/420/>)

Introduces students to the problem of substance abuse and its impact on society. Examines the physiological, psychological, social, and cultural aspects of substance abuse. At the individual and familial levels, the course examines the causes, development, prevention, and treatment of substance abuse. At the societal level, the course examines public policy efforts to regular and control substance use from both historical and contemporary perspective. Implications for social and economic justice are also examined. 3 undergraduate hours. No graduate credit.

SOCW 427 Social Work Research Methods credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/427/>)

Basic principles of social science research and importance for social work practice: overview of research principles including the stages of a research project, design of research; quantitative and qualitative methodologies, design of questionnaires, methods of data collection and preparation of reports. Introduction to various research designs such as the survey, program evaluation, single subject design, quasi-experiments, and experimental design. Enrollment preference given to students in the MSW program. 3 undergraduate hours. 4 graduate hours.

SOCW 436 Intl SW & Development credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/436/>)

This online course introduces students to policy and practice issues associated with international social work. It emphasizes ethical dilemmas, with the goal of sensitizing students to the importance of culturally sensitive practice for marginalized populations in global contexts. Weekly online discussion sessions use the Blackboard Online Platform. Students must have high speed internet connection and headset with microphone for course interaction. 3 undergraduate hours. 4 graduate hours.

SOCW 451 HBSE I: Human Development credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/451/>)

Examination of the major theories that inform social work's understanding of human behavior in a variety of social contexts. A bio-ecological systems framework, together with a developmental approach in understanding the ways in which individuals, families, groups, organizations, institutions, and communities interact, is presented. Issues of gender, race, ethnicity, socioeconomic status, disability and sexual orientation are introduced so students can gain understanding of how these components affect and influence development across the lifespan. 3 undergraduate hours. 4 graduate hours.

SOCW 455 Social Work with Women credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/455/>)

Focuses on women and how cultural belief systems related to gender are instantiated through the differential treatment of females and males in our education, mental health, social welfare and health care systems; and the consequences of such practices through the lifespan. Includes consideration of policies and practices that support women emphasizing issues of special concern to women of color, lesbians, older women, impoverished women and disabled women. Same as GWS 454. 3 undergraduate hours. 4 graduate hours.

SOCW 457 Health Planning credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/457/>)

Same as CHLH 457. See CHLH 457.

SOCW 461 Professional Practice Seminar I credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/461/>)

The goal of this course is to begin the process of integrating all the foundation knowledge of generalist social work that students have learned and begin applying it to real life situations. Students will complete a portfolio and a service learning experience that will help them being to make the connection between the core competencies, theories and applications to real life experiences. During this course students will begin the process of being matched with the agency where they will serve their internship during the last semester of their senior year. 4 undergraduate hours. No graduate credit. Prerequisite: SOCW 401.

SOCW 470 Field Practicum & Professional Seminar II credit: 15 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/470/>)

This course is a supervised field practice experience and seminar where students apply knowledge and skills in social work engagement, assessment, planning and interventions to individuals, groups, families, organizations, and communities. Students are expected to promote sustainable social change through planned problem solving and empowerment to enhance the well-being of others. The practicum consists of 32 hours/week for 16 weeks. 15 undergraduate hours. No graduate credit. May be repeated; instructor approval required. Prerequisite: SOCW 461. SOCW majors only.

SOCW 473 Immigration, Health & Society credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/473/>)

Same as CHLH 473, LLS 473, and SOC 473. See LLS 473.

SOCW 475 Undergraduate Research Abroad credit: 1 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/475/>)

Students assist in research under faculty supervision at a location outside of the United States. Topics and type of assistance vary. 1 to 4 undergraduate hours. No graduate credit. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work (who will have examined the proposed research plan); and approval of department. Not available to freshman.

SOCW 480 UG Research Project credit: 0 to 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/480/>)

Conduct research study under the supervision of a departmental faculty member. Topics and nature of assistance vary. Capstone paper required. 0 to 3 undergraduate hours. No graduate credit. Approved for letter and S/U grading. May be repeated in separate terms up to 6 hours. Prerequisite: Evidence of adequate preparation for such study; consent of faculty member supervising the work; and approval of the department head. Majors only. Not available to freshman and sophomores.

SOCW 500 SW Practice with Indiv and Fam credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/500/>)

Systematically and critically examines the theory, procedures, and techniques of selected practice models within four main approaches to social work: cognitive-behavioral, systemic (family and ecological systems; crisis intervention), task-centered, and radical-structural (structural; feminist). Uses selected criteria to analyze and assess those models, examines outcome research, and identifies current practice issues. Prerequisite: SOCW 400.

SOCW 501 SW Practice with Groups credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/501/>)

Social work practice theory in social group work through comparative study of various practice approaches and research about those approaches, including the use of group work method in contemporary social work practice, practice principles, and the use of group process as applied in the student's area of specialization. Looks at group work for children, adolescents, and adults considering developmental and environmental issues; also includes investigation of practice strategies and models of group therapy and task group leadership across diverse populations. Prerequisite: SOCW 400.

SOCW 502 Brief Motivational Interventions for Substance Use credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/502/>)

This course prepares social workers to deliver brief interventions that build motivation for change among individuals that use substances. Students participate in hands-on skill development activities for two empirically supported treatments, Screening Brief Intervention and Referral to Treatment (SBIRT) and Motivational Interviewing. Students are expected to reach beginning competency in delivering these two clinical models. 4 graduate hours. No professional credit. Prerequisite: SOCW 400. MSW: Social Work - UIUC.

SOCW 503 Trauma Informed Social Work with Children and Adolescents credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/503/>)

This course uses a case study and inquiry based approach to foster student learning of the core concepts of trauma (theory and foundational knowledge) and evidence-based practice interventions effective in treating children, youth, and families that experience trauma. Cases discussed include children, youth, and families exposed to traumatic events (i.e. abuse, neglect, domestic violence, community violence and natural disasters). Strength-based practice interventions that build on existing child and family strengths that enhance growth and resiliency after trauma are studied. Prerequisite: SOCW 400.

SOCW 504 SUD Treatment in S W credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/504/>)

Introduces selected counseling approaches for substance use disorders. Begins with an overview of the causes of substance use disorders, assessment, diagnosis, and treatment planning. Focuses on treatment theories and techniques applied to counseling substance abusers. Selected theories include 12 Step approaches, cognitive and behavioral theories, family systems theory, harm reduction, and motivational interviewing. Special attention is devoted to apply substance abuse treatment models with diverse populations. Prerequisite: SOCW 400.

SOCW 505 Behav and Cogn Methods for SW credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/505/>)

Students are introduced to brief behavioral and cognitive methods for treating a wide range of human problems, crises, and mental disorders. Content includes: (1) conceptualizing and assessing client problems; (2) identifying appropriate treatment goals; (3) developing comprehensive and differential treatment plans; (4) conducting brief interventions; and (5) evaluating client outcomes using research, consultation, and supervision. Prerequisite: SOCW 400.

SOCW 506 SW Practice with Child/Adol credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/506/>)

Examination and critical evaluation of selected methods/approaches of intervention; research on their effectiveness and application to specific problems of children and adolescents that come to the attention of social workers and other helping professionals; attention given to remediation and prevention. The course provides opportunities for students to develop skills through participation in a service learning project. Prerequisite: SOCW 400.

SOCW 507 School Social Work Practice credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/507/>)

Examination of the design and delivery of school social work interventions with special emphasis given to students with physical/mental disabilities and vulnerable populations. Course content provides a foundation for the development of a comprehensive and in-depth understanding of an ecological systems approach to social work practice based upon a foundation of professional values and ethics. Prerequisite: SOCW 400.

SOCW 508 Family Therapy Seminar credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/508/>)

Advanced seminar providing in-depth exposure to the principles, values, ethics, issues and practice of family therapy in social work. Focuses on family therapy process, the practitioner role, issues in assessment, intervention and evaluation; how discrimination and oppression impact intervention strategies; skills that advance social and economic justice; presentation of cases; use of supervision and consultation, and family therapy with diverse populations. Combines lecture/discussion with taped observations of noted family therapists and participation in a family therapy practicum. Prerequisite: SOCW 400.

SOCW 509 Adv Clin Assess & Interviewing credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/509/>)

Advanced practice class designed to enhance students' understanding of clinical assessment and interviewing methods. Includes methods for therapeutically intervening with clients who are highly distressed, angry or agitated, resistant or involuntarily mandated for treatment, experiencing severe symptoms, or who have unique and complex problems. Clinical interviewing skills taught in this class will build upon knowledge and skills acquired in previous direct practice classes. Prerequisite: SOCW 400 and SOCW 552.

**SOCW 510 Theories of Diversity, Inequality, and Social Change** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/510/>)  
Explores important dimensions of social justice and social change relevant to social work leadership. The first phase of the course focuses on theories of diversity, social identity and social justice. The second phase focuses on theories of social change and stasis. Students will develop their own working models of these theories. They will also understand how issues of diversity and social justice should inform social work practice at micro, meso and macro-social work levels. Implications for social work leadership will also be explored. 4 graduate hours. No professional credit. Prerequisite: Restricted to Social Work MSW students.

**SOCW 513 Delivery of Health Care** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/513/>)  
Delivery of health care in the United States is examined from a multidisciplinary perspective including social, cultural, political, economic, ethical and legal issues. Health care services are described in relation to various definitions of health, health status and access to care. Current problems and issues in health care including government responsibility and source of authority, policy development and analysis, proposals for reforms, and financing and cost containment are discussed and analyzed. Prerequisite: Admission to MSW program or consent of instructor.

**SOCW 514 Mental Health Pol and Svcs** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/514/>)  
Examination of comprehensive community mental health services as they evolve from definitions of the problems and changes in federal and state social policy; the concept of normalization and its criteria for program evaluation; and changing roles of mental health professionals, paraprofessionals, and consumers in policy making and service delivery. Presents the history of mental health policy and services in the U.S.; current policies and activities of the mental health delivery system are critically analyzed. Prerequisite: SOCW 410.

**SOCW 515 Integrated Health Care Policy and Services** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/515/>)  
Integrated Health Care Policy and Services is examined from a multidisciplinary perspective including social, cultural, political, economic, ethical and legal issues. Integrated health care services are described in relation to various definitions of health and mental health conditions and access to care. Current problems and issues in integrated health care including government responsibility and source of authority, policy development and analysis, proposals for reforms, and financing and cost containment are discussed and analyzed. 4 graduate hours. No professional credit. Prerequisite: Admission to MSW program or consent of instructor. Restricted to those in the MSW and iMSW program.

**SOCW 516 Child, Youth and Family Svcs** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/516/>)  
Examines a range of direct service and public policy issues that social workers encounter when working with vulnerable children, adolescents, and families. Focuses particular attention on the families involved with child protection. Addresses the following questions: What factors help explain the etiology of violence and neglect in the family home? Once vulnerable families are identified and become involved with social service agencies, what interventions are most effective with regard to decreasing risks and strengthening protective factors? How can social service systems best prepare vulnerable adolescent for the transition to adulthood? Prerequisite: SOCW 410.

**SOCW 519 Public School Policy/Services** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/519/>)  
Presents content on children with physical and mental disabilities, educational policies related to vulnerable populations, and federal and state legislation, with particular emphasis given to the Individuals with Disabilities Act (IDEA). The following topics are highlighted: eligibility requirements, general characteristics of the disabling conditions, education as a continuum from early childhood to adulthood, school finance, and current educational issues. Content is presented pertaining to meeting the needs of exceptional children, students with other special needs, and their families in public schools and the community. Prerequisite: SOCW 410.

**SOCW 520 Social Welfare Planning** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/520/>)  
Introduces students to the theory and practice of social welfare planning. The course is designed to help students apply concepts and methods to their specific social work fields of interest. Content includes a review of policy analysis, needs assessment, establishing goals and objectives, program design, budgeting, management information systems, and program evaluation. Prerequisite: Admission to MSW program or consent of instructor.

**SOCW 521 Leadership and Social Change** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/521/>)  
Introduces MSW students to a broad range of strategies for creating social change. Several overarching concepts that are useful in undertaking a wide range of social change efforts are introduced. These concepts are applied to different change strategies. This includes attention to the role of leadership in social change, as the quality of leadership is critical to the success of most social change efforts. The importance of policy or social entrepreneurs in creating social change will also be examined. These entrepreneurs play critical roles by both identifying and implementing new ideas and by diffusing them on a wider scale after initial experimentation. Finally, social workers often tend to be uninformed about sound business practices as they engage in social change efforts, yet knowledge of basic business concepts can be critical to the success or failure of a social venture. Therefore, the course addresses issues such as opportunity recognition and risk assessment, sustainability and scalability of projects, and attention to both fiscal management and outcome accountability. Prerequisite: SOCW 400 or by consent of instructor for non Social Work majors.

**SOCW 522 SW Practice with Communities** credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/522/>)  
Examines principles and methods that characterize identifiable approaches used in community organization practice at neighborhood, community, state, and other levels. This course is an in-depth study of how citizens can organize. Questions discussed include: What institutions aid communities in their organizing and self-improvement efforts? What circumstances encourage the erosion of civil society, civic involvement, and community institutions? What role should the social worker and the human service or social service agency play in organizing communities? Prerequisite: SOCW 400.

SOCW 525 Supervision/Staff Development credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/525/>)

Course focuses on the acquisition of the essential knowledge and skills needed to work with people to achieve desired client outcomes. Includes management and organizational theories, and research and theory regarding the practice of supervision. Addresses understanding of the agency context and purposes, interpersonal insights and skills, the importance of procedural and technical expertise, communication skills, mastery of the functions of management and leadership ability. Examines supervisory process in terms of interpersonal sensitivity and interaction skills including influence techniques. Prerequisite: Admission to MSW program or consent of instructor.

SOCW 526 Managing Human Service Orgs credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/526/>)

Focus on the design, administration and management of social programs from a social work perspective. Content includes: principles and process of administration and management, history of social welfare administration and how this relates to the design of current programs, review of administration Organizational and leadership theories, policy formulation, agency structure, staff organization, budgeting and evaluation of management practice. Prerequisite: SOCW 400 or by consent of instructor for non Social Work majors.

SOCW 531 Field Practicum and Integrative Seminar I credit: 8 to 12 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/531/>)

This course is comprised of a field practicum and integrative seminar. The field practicum is educationally directed and supervised by an approved field instructor. The seminar component assists students with the integration of knowledge, skills, values and attitudes of social work practice acquired in the classroom with the hands-on practice experience in the field practicum setting. Learning experiences emphasize the application of knowledge and practice in the areas of ethical and professional behavior, diversity and difference, human rights and social, economic and environmental justice, research informed practice, policy practice, and engagement, assessment, intervention and evaluation with individuals, families, groups, organizations and communities. 8 to 12 graduate hours. No professional credit. May be repeated in separate terms.

SOCW 532 Field Practicum and Integrative Seminar II credit: 8 to 12 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/532/>)

This course builds on the learning of SOCW 531 and is comprised of a field practicum and integrative seminar. Learning is directed at the development and demonstration of advanced competency skills. The field practicum is educationally directed and supervised by an approved field instructor. The seminar component assists students with the integration of advanced knowledge, skills, values and attitudes of social work practice acquired in the classroom with the hands-on practice experience in the field practicum setting. The advanced learning experiences emphasize the application of knowledge and practice in the areas of ethical and professional behavior, diversity and difference, human rights and social, economic and environmental justice, research informed practice, policy practice, and engagement, assessment, intervention and evaluation with individuals, families, groups, organizations and communities. 8 to 12 graduate hours. No professional credit. May be repeated in separate terms. Prerequisite: Successful Completion of SOCW 531.

SOCW 533 Field Practicum III credit: 4 to 6 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/533/>)

This course is for students completing a part-time field practicum and is the final semester of the practicum experience. Learning is directed at the development and demonstration of advanced competency skills. The field practicum is educationally directed and supervised by an approved field instructor. The advanced learning experiences emphasize the application of knowledge and practice in the areas of ethical and professional behavior, diversity and difference, human rights and social, economic and environmental justice, research informed practice, policy practice, and engagement, assessment, intervention and evaluation with individuals, families, groups, organizations and communities. 4 to 6 graduate hours. No professional credit. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: Successful completion of SOCW 532. Restricted to Master of Social Work students.

SOCW 535 Local Policy & Immigration credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/535/>)

Same as LA 535 and UP 535. See UP 535.

SOCW 541 Clinical Research Seminar credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/541/>)

Develops skills for assessing effectiveness of social work interventions using research methods. The course assumes students have had prior courses in research methods and statistical analysis. Building on these courses, this course will focus on the use of research methods in examining important aspects of social work interventions. Students will also develop skills necessary to evaluate social work research practice and practice evidence, as well as skills in grant writing and data analysis. Prerequisite: SOCW 427 or equivalent.

SOCW 542 Program Evaluation credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/542/>)

An advanced research course that develops skills for evaluating social service programs. The course assumes students have had prior courses in research methods and statistical analysis. This course provides an understanding of theoretical concepts, techniques, and research findings for evaluating a specific program, its implementation, and its effectiveness. It systematically analyzes program evaluation models and critically examines application of these models in the context of social work practice and social welfare policy. Prerequisite: SOCW 427 and a college level statistics course.

SOCW 552 HBSE II: Mental Disorders credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/552/>)

Interrelationship of biological, emotional, learning and social aspects of mental disorders, and implications for the patient/client, family, and community. Focus on diagnostic assessment and biopsychosocial treatment methods including psychosocial treatment methods, medications, and social work interventions. Students also learn to recognize the potential for bias that can result when assessments are applied across cultural, ethnic, racial, socioeconomic, gender and other groups. Prerequisite: SOCW 451.

SOCW 553 Integrated Behavioral Health & Health Care credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/553/>)

Students will learn therapeutic approaches, brief interventions and bioethical frameworks to help patients/family navigate illness, disability, and healthcare systems and promote health and wellness. Students will learn roles and functions of clinical social workers in healthcare settings with special attention to Integrated Care models and roles of the behavioral health consultant/provider and medical social worker on healthcare teams. Holistic biopsychosocial models that are patient/family centered, team-based, collaborative, and that integrate physical and behavioral health care to address social determinants of health and health equity will be emphasized. Common chronic and acute health conditions and medical terminology are discussed as well as evidence-based psychosocial interventions in hospital, primary care, and other outpatient settings. 4 graduate hours. No professional credit. Prerequisite: Admission to MSW program.

SOCW 554 Inequalities In A Diverse Society credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/554/>)

In contemporary American society, not all inequality leads to inequity. In this course, we will explore structural and cultural disparities that proceed from race, ethnicity, and class. Such critical inquiry enables students to understand the factors that contribute to the creation and implementation of public policy and guide the delivery of social goods such as adequate housing, safe communities, efficient transportation, affordable health care, quality education, and other public services. Therefore, we emphasize processes of analysis and the application of social entrepreneurial principles as important tools to generate policies and interventions that lead to a more equitable society. Same as HDFS 541 and LLS 554. 4 graduate hours. No professional credit. Prerequisite: SOCW 451 or consent of instructor for non Social Work majors.

SOCW 561 Special Studies in Soc Work I credit: 1 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/561/>)

Independent or group study in areas of special interest; application of social work principles to special problems or settings. May be repeated in the same or subsequent terms as topics vary. Prerequisite: Consent of instructor.

SOCW 562 Special Studies in Soc Work II credit: 2 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/562/>)

Independent or group study in areas of special interest; application of social work principles to special problems or settings. Prerequisite: Consent of instructor.

SOCW 570 Childhood Obesity I credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/570/>)

Same as CHLH 530, FSHN 530, HDFS 551, KIN 530, NUTR 530. See NUTR 530.

SOCW 571 Childhood Obesity II credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/571/>)

Same as CHLH 531, FSHN 531, HDFS 552, KIN 531, NUTR 531. See NUTR 531.

SOCW 575 Social Work Teaching Seminar credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/575/>)

Doctoral seminar on social work education and the pedagogy of college teaching. Topics include history of social work education, competencies for social work education, course development, principles of active learning, use of diverse instructional methods for teaching and assessing learning, and the scholarship of teaching and learning. The course has a required practicum component where students receive structured mentoring in some aspect of teaching in a social work class.

SOCW 576 Teaching Practicum credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/576/>)

This course is designed to provide doctoral students with supervised, hands-on teaching training and experience with a faculty member after they complete the required Social Work Teaching Seminar. The primary objective of the teaching practicum is to strengthen the students' teaching ability and experiences for their entry into the job market. The purpose is for students to be involved in as many aspects of the teaching process as possible (e.g. syllabus development, class preparation, classroom time, office hours, assignment review/grading, meetings with faculty supervisor and any other relevant activities). Approved for S/U grading only. Prerequisite: SOCW 575.

SOCW 579 Social Work Practice Theories credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/579/>)

Presents theories for social work interventions with individuals, families, groups, and communities and organizations; critically analyzes different theoretical frameworks for such interventions; and examines the conceptual links between theory, process, outcome, and evaluations. This course is intended for students in the Ph.D. program in Social Work.

SOCW 580 Advanced Child Welfare credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/580/>)

Examines laws, scientific concepts, ethical dilemmas, and new practice directions with respect to protecting children, preserving families, regulating foster care, achieving family permanency, and assisting foster youth in transitioning to independence. Review of legislative, court, and administrative frameworks for promoting these outcomes at the city, state, and federal levels. The course analyzes and critiques historical and contemporary social science, public policy, community organization, and legal advocacy perspectives on child protection and child welfare. Contemporary topics and issues are discussed and debated. Prerequisite: SOCW 516 or consent of instructor.

SOCW 581 Gender Relations & Intl Dev credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/581/>)

Same as GWS 512 and WGGP 581. See WGGP 581.

SOCW 584 Policy Practice and Advocacy credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/584/>)

Examines approaches for analyzing social policy development, implementation and advocacy in the United States; and development of skills to become effective policy practitioners. Involves ability to formulate viable policy options as well as skills in advocating for adoption of desired policies. Content includes knowledge about the political processes associated with policy development, the technologies needed to develop policies, communication skills need for policy advocacy, and knowledge in a specialized area. Course builds on policy material presented in SOCW 410.

Prerequisite: SOCW 410 or consent of MSW Program Director.

SOCW 585 National Social Welfare Policy credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/585/>)

This seminar focuses on social policy development, implementation, evaluation, and research. The class will analyze theories of governmental policy intervention, both from substantive and procedural standpoints. Because the social policy arena is heavily politicized, political factors affecting policy development and implementation will be stressed. In addition, policy implementation discussions will attend both to program administration and intergovernmental relations issues. The growing importance of globalization in social policy development also will receive attention, as will selected issues in the evaluation of social policy interventions. 4 graduate hours. No professional hours.

SOCW 589 Social Work and the Law credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/589/>)

Legal procedures and issues of special relevance to social work practice; includes legal provisions related to poverty, family development and crises, racial and ethnic minorities, institutionalized persons, crime and delinquency, legal authority of social agencies, and regulation of the profession. Prerequisite: Admission to the MSW program or consent of instructor.

SOCW 593 Applied Qualitative Research credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/593/>)

Provides a doctoral level overview of contemporary qualitative research with an emphasis on applications. Through readings, discussions, and assignments students will be introduced to: the history and philosophical underpinnings of qualitative research; research designs, methods and analysis used in qualitative research; criteria for rigor in qualitative research; the application of qualitative research to addressing contemporary social issues; technical and professional issues including the use of computer programs in qualitative research and grant writing. Students will begin to elaborate their own research interests through critical reading, discussion and various applied and written assignments. Prerequisite: Admission to Ph.D. program.

SOCW 594 Individual Research credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/594/>)

Course is designed to enhance the research skills of Doctoral students in social work through research collaboration with a faculty member. May be repeated to a maximum of 8 hours. Prerequisite: SOCW 593.

SOCW 595 Quantitative Research Designs credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/595/>)

Provides a doctoral level overview of quantitative designs and conceptual issues in social work research. It presents a framework for structuring the statistical analysis and systematic evaluation of the efficacy and effectiveness of social interventions in achieving desired outcomes for diverse populations. Although the purpose is not to emphasize statistical training, the course will reinforce the learning of basic concepts, mathematical foundations, and assumptions underlying advanced applications of statistical description and causal inference. Prerequisite: Admission to the Ph.D. program.

SOCW 599 Dissertation Research credit: 0 to 16 Hours. (<https://courses.illinois.edu/schedule/terms/SOCW/599/>)

Research and writing of doctoral thesis in social work. Approved for S/U grading only. May be repeated.

WGPP Class Schedule (<https://courses.illinois.edu/schedule/DEFAULT/DEFAULT/WGPP/>)

## **Women Gender Global Perspect Courses**

WGPP 581 Gender Relations & Intl Dev credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/WGPP/581/>)

Interdisciplinary seminar examining theoretical and empirical research on gender and the transformation of social and economic structures. Students will develop a comparative perspective on issues of women and public policy by contrasting and comparing such policies in North and South America, Eastern and Western Europe, Asia, and Africa. Same as GWS 512 and SOCW 581.

## School of Information Sciences

**dean:** Eunice Santos

**overview of MS/LIS admissions & requirements:** <https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/> (<https://ischool.illinois.edu/degrees-programs/ms-library-and-information-science/apply/>)

## Undergraduate Admissions

### Admission Requirements for New Freshmen and New Transfer Students

High school seniors and transfer students from another institution should visit the Office of Undergraduate Admissions website (<https://admissions.illinois.edu/>) for admission requirements and applications for a specific term.

### Admission Requirements for Inter-College Transfer Students (ICT)

Students currently enrolled in other colleges on campus may apply for an intercollegiate transfer (ICT) into the B.S. Information Sciences program.

Prospective iSchool ICTs should be aware that applying and meeting the stated requirements does not guarantee transfer. Admission to the BSIS program is competitive and may be limited due to enrollment maximums.

To meet the requirements to apply, students must meet the following conditions:

- Have completed at least two semesters in the University of Illinois at Urbana-Champaign academic unit to which they were admitted, if admitted as freshmen.
- Be in good academic standing.
- Current University students should demonstrate interest in the major by completing at least two introductory IS courses with competitive grades.
- Competitive GPA
- Successful completion of the application process for entry.

See our website (<http://go.ischool.illinois.edu/BSISict> (<http://go.ischool.illinois.edu/BSISict/>)) for additional details on the ICT process and application.

## Graduate Degree Programs in the School of Information Science

Information Management, MS (p. 1448) **(on campus & online)**

Library & Information Science, MS (p. 1503) **(on campus & online)**

**concentration:**

Bioinformatics (<http://catalog.illinois.edu/graduate/is/information-science-ms/bioinformatics/>)

Library & Information Science, CAS (p. 1499) **(on campus & online)**

Information Sciences, PhD (p. 1451)

**concentration:**

Writing Studies (p. 1934)

### Joint Degree Programs:

Library & Information Science, MS and African Studies, MA (p. 2005)

Library & Information Science, MS and History, MA (p. 2015)

Library and Information Science, MS & Law, JD ([https://nextcourses.illinois.edu/graduate/is\\_law/joint-degree/library-information-science-ms-law-jd/](https://nextcourses.illinois.edu/graduate/is_law/joint-degree/library-information-science-ms-law-jd/))

Library & Information Science, MS and Russian, East European, & Eurasian Studies, MA (p. 2005)

**School Librarian Licensure: available in conjunction with both the MS in LIS and CAS in LIS**

The School of Information Sciences (iSchool) offers programs of study leading to the Master of Science (M.S.), the Certificate of Advanced Study (C.A.S.), and the Doctor of Philosophy degrees. Three Master of Science (M.S.) degrees are available. The M.S. in Library and Information Science (L.I.S.) prepares students for professional careers in all types of information organizations, including libraries. The M.S. in Information Management (I.M.) will prepare the students for information-intensive professional roles in a broad range of sectors. The Library and Information Science concentration of the campus-wide M.S. in bioinformatics program emphasizes multidisciplinary skills that are required for a career developing and managing information systems for the biological sciences community. The C.A.S. program provides the opportunity

1. to study an aspect of information sciences in greater depth than is possible in the M.S. program,
2. to refresh and upgrade one's professional training several years after completing a M.S. program, or
3. to redirect one's career into a different area of library and information science.

School Librarian Licensure is available in conjunction with both the M.S. in L.I.S. and C.A.S. The Ph.D. is a research degree program.

## Admission

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7 on each section of the IELTS. The M.S. in bioinformatics requires a strong background in information science including undergraduate-level computing and mathematics. The C.A.S. requires a master's degree in library and information science and a grade point average of at least 3.0 (A = 4.0) in the master's program.

### School Librarian Licensure

Candidates interested in the School Librarian Licensure program must first be admitted and enrolled as a degree-seeking student within the School of Information Sciences before their application to the School Librarian Licensure program is reviewed. Accepted students must successfully pass two Illinois State Board of Education testing requirements prior to registration for the final fieldwork experience.

## Graduate Teaching Experience

Although teaching is not a general Graduate College requirement, experience in teaching is considered an important part of the graduate experience in the Ph.D. program for those interested in faculty careers.

## Facilities and Resources

Among the major areas of faculty research are:

- **community informatics**
- **data analytics**
- **data curation**
- **digital humanities**
- **digital libraries**
- **history of information**
- **information retrieval**
- **organization of knowledge and information**
- **privacy, security, and trust**
- **ethics and values for information**
- **youth literature, culture, and services**

The iSchool's Center for Informatics Research in Science and Scholarship (CIRSS) conducts research on information problems that impact scientific and scholarly inquiry. The Center for Children's Books (CCB) provides a review and research collection of the newest literature for children and young adults. The Communications Office produces two high-quality publications, Library Trends and The Bulletin of the Center for Children's Books. The staff of each of these units is available to students and faculty for consultation and guidance. A computer network with Internet connectivity is integral to teaching and learning activities. The University Library provides a vast reservoir of resources for all types of study and research in library and information science.

The School maintains an ongoing commitment to continuing education through conferences, institutes, workshops, and course offerings.

## **Financial Aid**

Financial aid may be available from the iSchool, the University Library, and elsewhere in the University in the form of graduate assistantships, teaching assistantships, research assistantships, and hourly paid work. Area libraries may provide pre-professional or hourly positions. Also, the iSchool offers a limited number of fellowships for which doctoral students tend to be favored over C.A.S. and master's degree students. Students in the joint program that do not hold a FLAS fellowship are eligible for, but not guaranteed, fellowship or assistantship support in the semesters in which they are enrolled in the iSchool. Any assistantship awarded to these students provides a waiver of the base in-state tuition and service fee as well as a stipend. Non-Illinois residents must pay the difference between in- and out-of-state tuition.

# School of Labor & Employment Relations

Dean: Fritz Drasgow

## Graduate Degree Programs

The School of Labor and Employment Relations offers graduate work leading to both a master's and a doctoral degree. Graduate study in Human Resources and Industrial Relations (HRIR) is based on a multidisciplinary approach to human resources/industrial relations problems and a flexible curriculum. To achieve this, the School has joint faculty appointments or course cross-listings with economics, psychology, law, business administration, history, and finance.

## Admission

Students must meet the general admission requirements of the Graduate College, as well as the specific requirements of the School. Admission to the master's program in either the fall or spring semester is based on an applicant's undergraduate record, letters of reference, Graduate Record Examination (GRE) or Graduate Management Aptitude Test (GMAT) scores, a resume and a statement of interest and career goals. GRE/GMAT test scores are optional for the on-campus program if you have a minimum 3.3 GPA on your junior/senior year academic coursework (equivalent to the last 60 hours) and a B or higher in an elementary statistics/quantitative methods course. Questions about your eligibility for a GRE/GMAT waiver should be directed to Assistant Dean Becky Barker ([ebarker@illinois.edu](mailto:ebarker@illinois.edu)). The minimum requirements for admission are a course in statistics and an average grade of B in the last two years of a four year undergraduate program. A deficiency in statistics may be made up by taking the required course without graduate credit during the first semester of graduate study. International applicants must provide Test of English as Foreign Language (TOEFL) test results with a recommended minimum score of 96 on the internet-based IBT (590 on the written test) or IELTS with minimum overall score of 6.5.

Students applying to the online program will have the same admissions criteria as the on-campus MHRIR program. However, a waiver of the GRE or GMAT requirement may be available to applicants with 3 or more years of direct HR/IR experience or 5 years of related managerial experience. Eligibility of this waiver will be assessed by the Associate Dean and the Associate Director, Online Programs. Admission decisions for the online program are made in all semesters (Fall, Spring, and Summer).

Students with outstanding academic credentials, with or without a master's degree, are encouraged to apply to the Ph.D. program. Applicants to the doctoral program must submit evidence of research ability, such as a master's thesis, an undergraduate thesis, special reports, or published articles. This is in addition to the other required application materials as indicated for the on-campus master's program. Admission to the doctoral program is made for the fall semester only. An exception is made for current HRIR master's degree students at Illinois, who may submit an internal application in the spring.

## Graduate Teaching Experience

Although the School has no teaching requirement, doctoral students are encouraged to gain teaching experience in this program.

## Financial Aid

The School offers research assistantships, scholarships, and fellowships to graduate students with superior academic credentials in the on-campus MHRIR and Ph.D. programs. A School research/teaching assistant receives a stipend plus waiver of resident or non-resident tuition and some fees (<http://www.grad.illinois.edu/gradhandbook/>). The Graduate College also awards minority fellowships that carry stipends plus tuition and service fee waivers. The School seeks reimbursement from appointing units of the value of the tuition waivers associated with assistantship appointments made to HRIR master's students in other campus units. However, this restriction does not apply to students in the doctoral program.

The online program is self-supporting and DOES NOT accept the following tuition and fee waivers (TFWs): Non-Academic waivers (including UIUC employees and employees of other state institutions), Academic waivers from UIUC, UIC and UIS employees, Related Agency waivers, waivers granted through fellowships/assistantships as governed by the Graduate College at UIUC, or Retiree waivers. This program DOES accept statutory waivers (veteran grants, etc.)

(<https://courses.illinois.edu/schedule/terms/LER/100/>)

Provides an overview of workers and unions in American society. Looks at economic, political, and workplace issues facing working people, why and how workers join unions, how unions are structured and function, and how unions and management bargain a contract. Provides a historical overview of the American labor movement, and discusses the contemporary struggles workers and unions face in a rapidly changing global economy.

This course satisfies the General Education Criteria for:

Social Beh Sci - Soc Sci

LER 110 Labor and Social Movements credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/110/>)

Explores the role of labor unions in American society. Discusses the role of labor unions in initiating actions on social issues that impact the U.S. working class, the economy, public policy, and politics. Analyzes the labor movement's interaction with the civil rights, women's, student, global justice, and living wage movements.

LER 120 Contemporary Labor Problems credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/120/>)

Focuses on problems and challenges facing American workers and the U.S. labor movement. Topics include the deterioration of the labor-management "social contract" in recent decades; a review of labor and employment law; the health care crisis; globalization and cross-border union alliances; and union democracy.

LER 130 Intro Labr Wrkng Class History credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/130/>)

Do working people have a history worth studying? What does the history of the U.S. look like when viewed from the point of view of those who built the country? Introduces U.S. labor and working class history. Examines the conditions of life and work of the various groups of working people: enslaved, indentured, small farmers, but especially wage workers and their families from the civil War to the present. Studies the main collective actions workers have taken to protect and improve their lives and the organizations and social movements they created to do this. Students who complete LER 130 and want a more in-depth look at the subject should enroll in HIST 480.

LER 199 Undergraduate Open Seminar credit: 1 to 5 Hours. (<https://courses.illinois.edu/schedule/terms/LER/199/>)

May be repeated.

LER 200 Globalization and Workers credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/200/>)

Is globalization good for working people in the United States and around the world? Globalization is the driving force in the world economy but it is also provoking tremendous debate and popular resistance. Students will learn the basics about globalization and its institutions from the perspective of workers' right in the U.S. and the Third World. Analyzes the debate over free trade and sweatshops, trade agreements such as the North American Free Trade Agreement, and institutions such as the World Trade Organization and the International Monetary Fund. Closely examines working conditions in several Third World countries, and explores the role of the global justice movement.

LER 210 Images of Labor in Film credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/210/>)

Uses feature-length film to take an in-depth look at key labor strikes and organizing drives from the 1910s through the 1980s. Students will view some of the most powerful films on worker and labor themes ever produced. Studies the work lives and labor unions of miners; railroad porters; packinghouse workers; textile workers; and farm workers. Discusses the meaning of the events depicted in the films by situating them in historical context with detailed readings; engage the debates raised in the films about labor organizing methods and strike strategies that are relevant to today's labor movement; reflect on issues of race, gender, class consciousness, working conditions, union goals, anti-communism, and labor-management relations raised in the films and readings; analyze how effectively the films, and Hollywood in general, portray workers and unions; and compare and contrast the films.

LER 220 The Media, Workers, and Unions credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/220/>)

Workers, unions, and how the news media tells their stories. Looks at the past, the present and future. Analyzes how these stories are told in the mainstream and independent news media in the U.S., and examines the Internet's explosion and impact on these stories. Looks at how blogs, online videos, citizen journalism, and the fast changing world of Internet communication has given voice to workers and their issues. Compares the print and online media with the work done in documentaries and the cinema. Looks at the global telling of these stories. Lastly, examines the ways that unions can better tell their stories.

LER 225 Labor Issues in Sports credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/225/>)

Introduces students to critical historical and contemporary labor issues in the sports industry. Despite popular notions of athletics as "only a game," the world of sports is an expansive global industry with a complex architecture of labor relations systems. Thanks to spectator sports' status as a pervasive form of mass entertainment, the industry also serves as an influential source of cultural meaning in the wider world of work. Day after day, the sports world is home to mass-mediated conversations about key labor issues ranging from unionization to workplace safety to sexual harassment.

LER 240 China's Labor Relations credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/240/>)

This course analyzes how China is reshaping the world economy, labor markets, unions, forms of worker resistance, and the lives of workers around the globe. We will examine China's transition from socialism to state capitalism; working conditions facing Chinese workers; evolving labor and employment relations; the role and function of the All-China Federation of Trade Unions; and worker protests and strikes demanding improved conditions.

LER 290 Introduction to Employment Law credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/290/>)

Addresses and critiques the content, interpretation, and applications of the laws that govern employer-employee relations in the American workplace. Explores the historical sources, underlying ideology, and current content of anti-discrimination and civil rights laws, of laws that seek to guarantee a safe and healthy workplace for all Americans, of laws that guarantee minimum wages and overtime pay, of legal protections of privacy on the job, of unemployment insurance and workers' compensation laws, and of laws that guarantee workers the right to collective action and collective bargaining.

LER 300 Workers, Unions, and Politics credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/300/>)

What is the meaning and impact of politics seen from the perspective of those at the bottom of the pyramid of political power rather than from the usual focus on the actions and perceptions of political elites? In what ways do workers become involved in politics? Under what circumstances are they likely to be successful in bringing about change? This course addresses these questions by exploring political power, political participation, and political change from a broad historical and cross-cultural perspective, but always focusing on a view of politics from the bottom up. The course analyzes the political economy of labor, and the labor movement's political influence in politics.

LER 320 Gender, Race, Class and Work credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/320/>)

Provides a historical and contemporary overview of the impact and interplay of gender, race, class and other issues of identity in the workplace. Topics include: pay gap, occupational segregation, workplace harassment, low wage work, and employment discrimination laws. The response of labor unions to identity issues will also be examined. Prerequisite: LER 100, LER 110 or one course that covers race or gender issues is required.

LER 330 Comparative Labor Relations credit: 3 Hours. (<https://courses.illinois.edu/schedule/terms/LER/330/>)

Designed as an overview of comparative labor movements and labor relation systems. Develops a framework for understanding union formation and the development of industrial relations system in a variety of countries around the world. An emphasis will be placed on each country's interaction between unions and political organizations, national labor policies, the machinery for the resolution of workplace problems, the level of shop floor disturbances, bargaining coverage of employees, and the issues of workers' control. Also addresses how globalization has transformed the capacity of any nation's labor relations' system to respond to economic challenge and workplace conflicts. Examines the possibility of developing transnational union.

LER 410 Labor and the European Union credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/410/>)

Addresses the formation of European Union (EU) labor policy; the role of trade unions in EU member nations; worker immigration in the EU; diversity issues in the EU labor market and a comparative analysis of industrial relations in Europe. Same as EURO 410. 4 undergraduate hours. 4 graduate hours. Prerequisite: Consent of the instructor.

LER 440 Economics of Labor Markets credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/440/>)

Same as ECON 440. See ECON 440.

LER 450 European Working Class History credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/450/>)

Same as HIST 450 and SOC 422. See HIST 450.

LER 480 US Work Class Hist Since 1780 credit: 2 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/480/>)

Same as HIST 480. See HIST 480.

LER 522 Government Regulation credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/522/>)

Focuses on federal and state legislation, court and agency rulings, and executive orders that regulate a wide range of private and public employment practices including: Title VII and Affirmative Action Compliance; American with Disabilities Act; drug-, HIV-, and genetic testing; Fair Labor Standards Act; Civil Service procedures; Equal Pay Act, Family and Medical Leave Act, and employment-at-will; constitutional protection for employees, job-applicants, and others. Prerequisite: LER 547 or LER 591, or consent of instructor.

LER 523 Org Fundamentals for HR credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/523/>)

Increases students' effectiveness in analyzing and understanding organizations and the organizational context. It relies on the case method and focuses a number of important themes such as organization design; strategy; decision-making; and culture. In order to prepare students for the various transformations that they will experience in their careers, it examines many of these topics in the context of organizational change. Exposes students to basic ideas about key organizational topic - as well as a number of applications of these ideas - in order to give them a framework for organizing past experience. The topics covered do not offer a recipe for what to do in all situations, but rather give students a set of skills and different ways of thinking that can help them address novel problems they will face throughout their lives.

LER 530 Found of Ind Org Psych credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/530/>)

Same as PSYC 530. See PSYC 530.

LER 540 Labor Economics I credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/540/>)

Same as ECON 540. See ECON 540.

LER 541 Labor Economics II credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/541/>)

Same as ECON 541. See ECON 541.

LER 542 Collective Bargaining credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/542/>)

Examination of: social values and social science concepts to develop a framework for explaining the basis and shape of collective bargaining as it has been practiced in the United States; government and law, unions, and employers as part of the development of this framework; the environment of collective bargaining with respect to the role of economics and bargaining structure; the negotiating process as the interactive basis for union-management relations; conflict and conflict resolution as part of the negotiating process; wage and other effects of collective bargaining as bargaining outcomes; contemporary changes in union management relations. Case materials and exercises may be used to supplement course materials. Same as ECON 542. Prerequisite: Consent of instructor.

LER 543 Workplace Dispute Resolution credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/543/>)

Examination of the use of procedures to resolve employment disputes in both union and nonunion workplaces; comparative analysis of grievance arbitration, interest arbitration, mediation, fact-finding, and combinations of these procedures; special emphasis given to the role of third party intervention. Same as ECON 543 and LAW 665. 3 professional hours. 4 graduate hours.

LER 545 Economics of Human Resources credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/545/>)

Study of the economics of personnel with the modern corporation. Topics include hiring, promotion, evaluation, discrimination, raiding, job definition, pay schemes, benefits, and design of work. Same as EPOL 575 and HRD 534. 4 graduate hours. No professional credit. Prerequisite: LER 593 or equivalent, or consent of instructor.

LER 547 Labor Law I credit: 3 or 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/547/>)

Same as LAW 662. See LAW 662.

LER 556 Industrial Relations Theory credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/556/>)

Integrated analysis of the principles of industrial relations through the study of the works of the major theorists and their critics. Prerequisite: Consent of instructor.

LER 557 Human Resources Theory credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/557/>)

Continuation of LER 556. Focuses on contemporary research in human resource management and related fields.

LER 558 Faculty-Student Workshop credit: 0 to 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/558/>)

Training and experience for Ph.D. students in the application of social science and industrial relations theory and research methodology to contemporary industrial relations problems through presentation and discussion of faculty and student research. Ph.D. students are required to make presentations and to participate in workshop discussions during the entire period of their campus residency. Approved for letter and S/U grading.

LER 559 Micro Research Methods credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/559/>)

Provides doctoral students a foundation for conducting independent, scholarly micro research (i.e., individuals or small groups as the primary unit of analysis) by addressing the components of the research process. This foundation for conducting independent research is based on the research process as an open system of interconnected choices that unfold sequentially: (1) Choosing and framing a research question, (2) Choosing an hypothesis to address the research question, (3) Choosing a Strategy and Design, (4) Choosing modes for treating constructs, (5) Choosing Forms for Converting Data into Observations, (6) Choosing procedures to analyze data, and (7) Choosing conclusions for interpreting results. Prerequisite: Doctoral degree student in LER, Department of Psychology, Economics, College of Business, College of Education. Master's degree students who are considering a doctoral degree program subject to instructor approval.

LER 561 Compensation Systems credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/561/>)

Compensation theory and practice. Course addresses the theoretical and practical issues associated with the design of effective compensation systems. The design phases include establishing internal equity, external equity, and individual equity. Budgeting and administration are also addressed. Case analyses and computer simulations may be used to supplement course materials.

LER 562 HR Planning and Staffing credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/562/>)

Examines conceptual issues, policies, and practices relating to the attraction, selection, development, and planning for the most effective utilization of human resources.

LER 564 HR Training and Development credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/LER/564/>)

Provides students a firm understanding of human resource training and development systems in today's business environment. A constant theme setting the back drop for this course will be on the various kinds of change facing organizations and how these changes relate to human resource training and development. Aspiring HR professionals will gain essential knowledge to effectively manage employee training and development systems in a variety of companies.

LER 565 HR Management and Strategy credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/565/>)

Designed to provide integration across the specific functional areas of the human resources management (HRM) field, while at the same time demonstrating the linkages horizontally within HRM and vertically with strategic management of the firm. This case-focused course places emphasis on human resources issues of strategic importance to the organization. Same as BADM 512. Prerequisite: One prior course from the Organizational Behavior and Personnel Management distribution subject area list (in the MHRIR degree requirements for the graduate degree in Labor and Employment Relations).

LER 566 International HR Management credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/566/>)

Human resource management issues examined from the perspective of the multinational firm. Topics include globalization and human resource strategy, management and the structure of multinational firms, dealing with intercultural differences, selecting employees for foreign assignments, training and developing expatriate employees, evaluation and compensation of employees in international assignments. Individual and group projects. Prerequisite: Graduate standing.

LER 567 Negotiation in HR Decisions credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/LER/567/>)

General survey course concerning the strategies and tactics of bargaining and negotiation, with special emphasis on applications in human resource management contexts. Topics covered include: the structure of negotiated outcomes; integrative bargaining tactics; distributive bargaining tactics; negotiation planning; power, persuasion and influence; communication; negotiating in teams and groups; negotiating using 3rd parties (arbitrators, mediators, agents); cross-cultural negotiations. Students will discuss negotiation issues and build negotiation skills through a series of experiential exercises and cases. Credit is not given for both LER 567 and MBA 505 (Sections W1 and W2: Managerial Negotiations). Prerequisite: Graduate standing. An introductory course in social psychology or organizational behavior is preferred but not required.

LER 568 Firm Performance and HR credit: 4 Hours. (<https://courses.illinois.edu/schedule/terms/LER/568/>)

The purpose of this course is to enable students to understand some basic ideas about and measures of firm performance with heavy emphasis on the role of human resource managers. Students will gain an understanding of how human resource professionals fit into the organization, structure, and function of business firms. Many basic ideas from the field of finance will be studied. The course covers theoretical ideas and has many empirical, policy, and practitioner-relevant applications, all with the goal of providing human resource managers fundamental financial analysis tools to enable them to function effectively in their post-graduate corporate workplaces.

LER 569 Power & Influence in HRM credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/LER/569/>)

Designed to help prospective human resource managers learn how to use power and influence as effective tools for understanding the surroundings in which they will be working with and managing people, and achieving the goals that they set for themselves. It provides frameworks and practical tools that allow students to make sense of on-the-job learning experiences and equip them with basic diagnostic and action-planning skills that they can use at different points in their careers - and to consider difficult ethical questions in the process. Prepares students to get things done in the real world, where personalities and office politics sometimes hinder rather than help them.

LER 570 Leadership for HR Managers credit: 2 Hours. (<https://courses.illinois.edu/schedule/terms/LER/570/>)

In contemporary organizations, the HR function is often called on to serve a variety of leadership roles. Thus, HR managers will not only need to learn how to utilize and improve their leadership skills in different and changing contexts, but also how to help other employees become effective leaders. The goals of this course are (1) to analyze and discuss a number of key frameworks that will provide students with knowledge of leadership in different types of organizations, and (2) to provide students with practical tools to help them make sense of their own on-the-job experiences and equip them with basic action-planning skills that they can use on the job.

LER 580 Internship credit: 0 Hours. (<https://courses.illinois.edu/schedule/terms/LER/580/>)

Full or part-time practice of human resources or employment relations in an off-campus government, corporate or not-for-profit environment. Approved for S/U grading only. May be repeated in separate terms. Prerequisite: Must be a student in the LER program.

LER 590 Individual Topics credit: 0 to 8 Hours. (<https://courses.illinois.edu/schedule/terms/LER/590/>)
